<ul style="list-style-type: none"> <li>Whether the Administration would consider dividing some oversized development sites near the proposed HSK railway station into smaller plots to allow developments of different scales?</li> </ul>	Hon Jeffrey LAM  Hon LEUNG Che-cheung
<ul style="list-style-type: none"> <li>Whether the sites reserved for education and related uses now situated next to the proposed HSK railway station could be relocated farther north to adjoin the sites for the Enterprise and Technology Park and released for other uses?</li> </ul>	Hon Frankie YICK

Questions / concerns	Raised by
<b>Village type development</b>	
<ul style="list-style-type: none"> <li>How the respective boundaries of "Village Type Development" ("V") zones and "Village Environs" within the area of HSK NDA had varied between 1999 and 2017; and whether the Administration had increased the area of "V" zones to favour the development of small houses in the expense of developing more public housing in HSK NDA?</li> </ul>	Dr Hon KWOK Ka-ki
<b>Housing mix</b>	
<ul style="list-style-type: none"> <li>Why the public-to-private housing ratio proposed for HSK NDA (i.e. 51:49) had fallen short of that recommended in the Long Term Housing Strategy (i.e. 60:40); and what would be the ratio of public rental housing units, "Starter Homes" Pilot Scheme units and Green Form Subsidized Home Ownership Scheme units to be developed within the 69.44 hectares of "Residential (Group A)" land in HSK NDA?</li> </ul>	Hon KWONG Chung-yu

<ul style="list-style-type: none"> <li>Whether the Administration had planned to reserve suitable site(s) within HSK NDA to dovetail with the development of a new heavy rail to directly connect NWNT to the urban areas if required?</li> </ul>	Hon LEUNG Che-cheung
<ul style="list-style-type: none"> <li>Whether the Administration would provide an update on the details of the study on the provision of the Environmentally Friendly Transport Services ("EFTS"), including whether a fully-automated and driverless rail system was considered feasible, and whether the proposed EFTS would run at ground level?</li> </ul>	Hon LEUNG Che-cheung
<b>Provision of employment opportunities</b>	
<ul style="list-style-type: none"> <li>How the Administration had projected that HSK NDA would provide about 150 000 jobs, what were the details including the types of these jobs, and when such job opportunities would become available in phases between 2024 to 2038? In addition, the Administration was requested to provide the relevant industrial research report(s) to demonstrate how the economic activities in HSK NDA would create the job opportunities projected as sufficient for local residents.</li> </ul>	Dr Hon KWOK Ka-ki  Hon CHU Hoi-dick

Questions / concerns	Raised by
<b>Arrangements for affected households</b>

<ul style="list-style-type: none"> <li>Whether and how the Administration had actively engaged and sought the consent of the relevant stakeholders on the reprovision arrangements of brownfield operations affected by the HSK NDA project?</li> <li>Whether the Administration had liaised with the operators of the affected brownfield sites on the reprovision arrangements either at multi-storey buildings ("MSBs") or other land-efficient means at suitable locations?</li> </ul>	<p>Hon Alice MAK</p> <p>Hon LEUNG Che-cheung</p> <p>Hon KWONG Chun-yu</p>
<ul style="list-style-type: none"> <li>Whether, by indicating that "[w]e will not rule out the possibility of accommodating certain operations not practically feasible to move into MSBs on suitable open-air sites", the Administration was regressing in its effort to accommodating the existing 190 hectares of brownfield operations within HSK NDA; and how many of the existing brownfield operations would be moved into MSBs as well as those needed to be accommodated on suitable open-air sites?</li> </ul>	<p>Hon Frankie YICK</p>

<b>Questions / concerns</b>	<b>Raised by</b>

## Implementation arrangements for the Hung Shui Kiu New Development Area

## Summary of questions and concerns

Questions / concerns	Raised by
<b>Planning direction</b>	
<ul style="list-style-type: none"> <li>What was the Administration's actual plan for taking forward the vision of developing the Hung Shui Kiu ("HSK") New Development Area ("NDA") into a "Regional Economic and Civic Hub" for the North West New Territories ("NWNT")?</li> </ul>	Hon Mrs Regina IP
<ul style="list-style-type: none"> <li>In the light of the public concerns that the development of mega shopping malls would only benefit large business groups and chain stores, whether the Administration would instead consider providing more community-styled small retail shops and street shops in HSK NDA, and review if the size of the development sites in the area would be too large and hence become monopolized by large developers ?</li> </ul>	Hon Mrs Regina IP
<ul style="list-style-type: none"> <li>Whether and how the Administration would make use of the development of the "special industries" land use area in HSK NDA with a view to capitalizing on the opportunities arising from the development of the Guangdong-Hong Kong-Macau Bay Area?</li> </ul>	Hon Mrs Regina IP

<ul style="list-style-type: none"> <li>In view that a large portion of 324 hectares ("ha") out of the total area of 441 hectares to be developed under the HSK NDA project was under private ownership, how the Administration would properly balance between private property rights and the needs for land resumption for development?</li> </ul>	Ir Dr Hon LO Wai-kwok

<b>Arrangements for affected households</b>

<b>Arrangements for affected brownfield operations</b>	
<ul style="list-style-type: none"> <li>Given that many brownfield operations, including workshops, open storage, construction materials/machinery storage, recycling yards, had their value of existence, how the Administration would optimize land use and accommodate those operations that could not be moved into multi-storey buildings ("MSBs"), such as heavy construction machinery storage?</li> </ul>	Ir Dr Hon LO Wai-kwok
<ul style="list-style-type: none"> <li>Whether the Administration would provide the report on the feasibility study on MSBs for accommodating brownfield operations in HSK NDA; and how many of the existing brownfield operations would be moved into MSBs as well as those needed to be accommodated on suitable open-air sites?</li> <li>How could the existing 190 ha of affected brownfield operations be sufficiently accommodated with merely 24 ha of land being reserved in HSK NDA for the purpose?</li> <li>Whether and how the Administration would step up efforts in making reprovision arrangements of brownfield operations affected by the HSK NDA project?</li> </ul>	Hon Frankie YICK  Ir Dr Hon LO Wai-kwok
