

Panel on Environmental Affairs

**Follow-up actions arising from the policy briefing cum meeting on
30 October 2017**

**Agenda item III — Briefing by the Secretary for the Environment
on the Chief Executive's 2017 Policy Address**

The Administration is requested to provide information on:

- (a) the estimated percentage of different stakeholders who would participate in the development of renewable energy, including the two power companies, the Government and the public, and the relevant measures to be implemented to ensure effective contribution by the stakeholders; and
- (b) the timetable and details for increasing the charging speed of about 1 700 electric vehicles chargers available for public use in Hong Kong.
