Dear Dr Cheung,

Proposed Regulatory Framework for Medical Devices

I refer to your letter of 10 July 2018 regarding the captioned matter.

The College of Surgeons has consulted its Plastic Surgery Board on the captioned consultation and it supports the government to implement regulatory controls of medical devices. It also agrees on the direction to set a defined period for regulation on cosmetic devices so that the standard can be achieved. However, the standard should be defined in terms of safety to the public. And user control is necessary in the end to ensure the safety of the public.

It is hope that the government will continue to work on the details and to ensure a good standard of care and safety can be concluded.

Should there be any queries, please feel free to contact our General Manager, Ms Stephanie HUNG on 2871 8827 or stephaniehung@cshk.org.

Yours sincerely,

Prof. Paul Bo-San LAI

President
