Date: 8 April 2019

Dear Mr. Kwok Wai Keung,

I am a member of the HKICPA, I am writing to express our concerns on a proposed blanket ban on importation, selling and distribution on e-cigarettes and other alternative tobacco products announced in the Government Press Conference held on February 13th 2019.

Many smokers around us have already switched using the alternative tobacco products because of the benefits they bring, not only to themselves but also to their friends and families around them. They expressed that a blanket ban will only force them to switch back to traditional cigarettes or illicit alternative tobacco products. Is this what the Government wants to happen in Hong Kong?

Although both conventional cigarettes and alternative cigarettes are harmful to health, studies by independent parties have proved that e-cigarettes and heat-not-burn products emit a significantly lower level of harmful substances and odor. These alternative cigarettes would be a good news to smokers who find it hard to quit smoking, as well as non-smokers who are exposed to harmful second-hand smoke.

The Government is responsible for safeguarding the interests of the people and upholding the core values of Hong Kong, including human rights, freedom and tolerance of different stances and views. When smoking is still legal in Hong Kong, the Government should respect the freedom of choice of the 600,000 existing smokers and provide them with better alternatives. I urge the government not to ban e-cigarettes and alternative smoking products altogether and start a genuine discussion with the community to come up with a balanced solution.

I believe proper regulation, enforcement and education are the right way to minimize the negative impact of smoking to the community. I trust that you can provide wise feedback on behalf of our profession to the Government.

Most grateful for your kind attention.

Sincerely,

Lam Ka Ngai (HKICPA membership A43579)

Date: 8th April 2019
Mr. Kwok Wai Keung
Clerk to Bills Committee on Smoking (Public Health) (Amendment) Bill 2019
Legislative Council Secretariat
Legislative Council Complex,
1 Legislative Council Road, Central, Hong Kong

Dear Mr. Kwok,

The proposed Ban on alternative tobacco products

I am writing to express my view on the proposed ban on e-cigarettes and heated tobacco products as announced on February 13, 2019. I believe these alternative products should be properly regulated rather than implementing a complete ban.

There has been numerous international studies proving that alternative tobacco products are less harmful compare to traditional cigarette. As a non smoker, I think these alternative tobacco products also reduce the harm of smoking to others. I understand these products are not completely risk-free. However, merely banning it doesn't help smokers to quit smoking or prevent young people to smoke. That is why regulation and education is needed to make them as safe as possible and ensuring these products are inaccessible to protect young people.

The smoking community in Hong Kong should be given the freedom of choice to use less harmful products and to use products which are able to assist them to quit smoking. I sincerely hope that the government can look at the statistic and implement regulations instead of a total ban.

Appreciate and grateful for your attention in the urgent matter

Yours sincerely,

Melody Chan

HKICPA: 048530

8 April 2019

Kwok Wai Keung

Clerk to Bills Committee on Smoking (Public Health) (Amendment) Bill 2019

Legislative Council Secretariat

Legislative Council Complex

1 Legislative Council Road

Central, Hong Kong

Dear Mr Kwok

Regulate e-cigarettes and heated tobacco products

I am writing to you as a Professional Qualified Accountant to express my thoughts on the latest legislative proposal on the complete ban of e-cigarettes and heated tobacco products as announced on February 13, 2019. I personally believe that alternative product, like e-cigarettes, should be regulated instead of a complete ban.

From the international studies and researches on the e-cigarettes and heated tobacco are significantly less harmful to the traditional cigarette. These alternative products are proven to be an effective tool to quit smoking.

As a non-smoker, I believe that a total ban is not practical as there are other ways in which smokers can still purchase the products in the black market and will only encourage more illicit trade. This will prevent many cigarette smokers from switching to proven safer alternatives. Therefore the Hong Kong Government should regulate e-cigarettes and heated tobacco products and educate the public and the smoking community of the safer alternatives. The smoking community in Hong Kong should be given the freedom of choice to use less harmful products and to use products which are able to assist them to quit smoking.

In addition, many countries, such as the United Kingdom, Japan, Korea and Malaysia are regulating e-cigarettes and heated tobacco products, whereas, Hong Kong, being a part of the international community, should take notice of the direction taken by some its closest international counterparts in order to stay competitive and maintain its international city image.

I sincerely hope that you can help provide this and other relevant information and feedback to the government and that Hong Kong should regulate heated tobacco products and not to implement a total ban.

Yours sincerely,

Katherine Lo

HKICPA S042251

8th April, 2019

Bills Committee on Smoking (Public Health) (Amendment) Bill 2019

Legislative Council Secretariat,

Legislative Council Complex,

1 Legislative Council Road, Central, Hong Kong

Dear Mr. Kwok Wai Keung,

Regulate e-cigarettes and heated tobacco products

As a member of the HKICPA, I am writing to express my concerns on a proposed blanket ban on importation, selling and distribution on e-cigarettes and other alternative tobacco products announced in the Government Press Conference held on February 13th, 2019.

There has been numerous irrefutable international studies proving alternative tobacco products such as e-cigarettes and heated tobacco are significantly less harmful to traditional conventional cigarette smoking. These alternative products are proven to be an effective tool to quit smoking. I understand these products are not completely risk-free and that is why regulation is needed to make them as safe as possible and ensuring these products are inaccessible to protect young people.

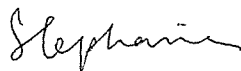

The Government is responsible for safeguarding the interests of the people and upholding the core values of Hong Kong, including human rights, freedom and tolerance of different stances and views. Therefore, we urge the government not to ban e-cigarettes and alternative smoking products altogether and start a genuine discussion with the community to come up with a balanced solution.

I believe that a proper regulation, enforcement and education would be the right way to minimize the negative impact of smoking to the community, instead of a total ban.

Thanks for your attention.

Yours sincerely,

Stephanie Yeung

Date: 08/04/2019

Mr. Kwok Wai Keung

Clerk to Bills Committee on Smoking (Public Health) (Amendment) Bill 2019

Legislative Council Secretariat

Legislative Council Complex

1 Legislative Council Road

Central, Hong Kong

Dear Mr. Kwok,

I understand that the Hong Kong government has proposed a new bill to implement a complete ban on heated tobacco products. I would like to express my view that these heated tobacco products should be allowed to be sold in Hong Kong and be regulated instead of a total ban. Such ban is not practical as there are other ways in which smokers can still purchase the products in alternative ways.

Moreover, I believe that implementing a total ban on heated tobacco products instead regulating will take away the choice of a better alternative product (when compared to traditional cigarettes). From various studies, heated tobacco can potentially reduce approximately 90 to 95 per cent of harmful chemicals than cigarette smoke and this option should not be taken away from current smokers.

As the member of HKICPA, I sincerely hope that you can help provide this and other relevant information and feedback to the government and that Hong Kong should regulate heated tobacco products and not to implement a total ban.

Thank you for your consideration.

Yours faithfully,

S049854 (HKICPA student number)

To: BHS Committee Chairman Kwok Wai Keng.

My name is Ryan Lau.

I would like to feedback that it is not proper to ban all hot-not-burn products. As it will eliminate the choice for the smokers.

Initially ~~not to~~ hot-not-burn products is more environmental friendly ~~and~~ in order to save the environment. I really hope Govt can recall this law and provide more degree of freedom and autonomy to the citizen.

Thanks.

Lau Ho Yan

To : Kwok Wai Kuen.

My name is LEE WING SAN. Regarding The Government / Legislative Council's proceeding not-burn products, I am writing to express my disagreement of banning the IQOS.

I like to support to regulate the product.

We have the right to heat-not-burn products.

I urge the govt to reconsider to regulate rather than to ban and respect consumer rights and freedom to choose.

Full name : LEE WING SAN.

Mobile No : 

Email : @gmail.com.

Ref: 484E0308

To: Bills Committee Chairman Kwok Wai Kung.

My Name is Yuen Chi Ho Jack, Regarding the Government/Legislative Council's proceedings on implementing a ban on heat-hot-burn products, I am writing to express my disagreement of banning this product and support to regulatory measures instead. It's because the right to use heat-hot-burn products. second reduced harmful substance in heat product compared to conventional cigarettes. also, it is not fair as the public only knew about the ban from the news, and no proper consultation was conducted. I believe that regulation and education are indeed better way to prevent youth smoking initiation.

郭偉強 主席：

本人是 Winnie Ng，得知政府/立法會正在立法全禁加熱煙，所以寫信給你，表達我反對全禁。本人有以下觀點：

1. 一名成年人選擇吸煙，可有權利選擇傳統香煙或加熱煙。
2. 如果政府在沒有提供任何加熱煙有任何對健康有害的數據下，強行只禁止加熱煙是獨斷專行。如果真是加熱煙比傳統煙更為有害，何解不提任何數據支持自己論點。

在此希望政府可聽取市民意見。

Winnie Ng.

My name is Mani Lub. Regarding the Government / Legislative Council's proceedings on implementing a ban on heat-not-burn products. I am writing to express my disagreement of banning this product and support to regulatory measure instead.

1. I think the heat-not-burn is good things to let us to use. It doesn't have any smell.

2. I don't think the heat-not-burn is worse.

3. I think we should have the choice the choices ~~to~~ what we want.

I believe the regulation and education are indeed better ways to prevent youth smoking initiation.

My name is Chan Wai Ho. Regarding the government's proceeding on implementing a ban on heat-not-burn products, I am writing to express my disagreements of banning this product and support to regulatory measures instead.

Citizens should have right to use those products as they may reduce harmful substance in heat-not-burn product compared to conventional cigarettes. Plus, the public only knew about the ban from news, and no proper consultation was conducted.

I think regulation & education are indeed better ways to prevent young aged smoking initiation. I urge the government to reconsider, i.e. to regulate rather than to ban, and respect consumer rights and freedom to choose.

Clerk to Bills Committee on Smoking (Public Health) (Amendment) Bill 2019
Legislative Council Secretariat
Legislative Council Complex
1 Legislative Council Road
Central, Hong Kong

Online Submission reference number: DC3B7600

RE: The Proposed Ban on Alternative Cigarettes Products

Dear Chairman,

I am a professional accountant who work in Hong Kong and I also register in both Canada and the UK. In related to the recent release of the proposed bill by HK government on the proposed ban related to alternative tobacco products, I would like to express my concern on this topics. From what I have learnt through different sources in both Hong Kong and the UK, I understand that these alternative tobacco products potentially reduce up to 95% harmful chemicals than traditional cigarettes.

Public Health England ("PHE") has recently released a new film showing the devastating harms that come from smoking, and how this can be avoided by switching to e-cigarette, heated tobacco or another type of quit aid. Around 2.5 million adults are using e-cigarettes in UK, and they have helped thousands of people successfully quit (<https://www.gov.uk/government/news/phe-health-harms-campaign-encourages-smokers-to-quit>).

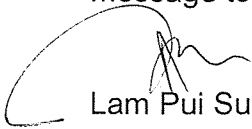

On another point, PHE even recommended those who are unable to quit to switch to alternative tobacco products and provide proper regulations in prescription in order to assist the smoker to quit in a long run. (<http://ash.org.uk/media-and-news/press-releases-media-and-news/ash-welcomes-new-public-health-england-report-e-cigarettes/>)

As a non-smoker, I fully agree that traditional cigarette is harmful. Alternative tobacco products would be another options for those who would like to continue to smoke and/or cannot quit due to their own personal reason. Total ban to these alternative products, not only leave smokers in Hong Kong no choice but to continue on traditional cigarettes, which is known to be more harmful. In addition, this would encourage illicit trade and the black market – but not helping in protecting those under-aged, which is the point HK government is focusing on.

I was brought up through my education and profession training on relying on factual studies. However, the recent action by the Hong Kong government to implement a complete ban did not demonstrate to me that they did look into the facts before making

such proposal. As the LegCo member representing us, I sincerely hope you can take part and provide appropriate feedback to the government to avoid this total ban and leaving people in Hong Kong with no choice. Proper regulation but not a complete ban should be the right way to go. The Hong Kong Government should listen to its people's voice.

Thank you for taking the time to read my letter and really hope you can help to pass this message to the Government and resulting the right action.

A handwritten signature in black ink, appearing to read 'Lam Pui Sum Ada', with a large, sweeping loop on the left side.

Lam Pui Sum Ada

To - Bills Committee Chairman Kwok Wai
Keung

My Name is Fong Hoi Yee. Regarding the
Government / Legislative Council's proceeding
on implementing a ban on heat-not-burn
products, I am writing to express my
disagreement of banning this product &
support to regulatory measures instead.

- 1) The right to use heat-not-burn products
- 2) Reduced harmful substance in heat-not-burn product compared to conventional cigarettes
- 3) The public only knew about the ban from the news, and no proper consultation was

conducted, which is not fair

I believe that regulation & education are indeed better ways to prevent youth smoking initiation. I urge the government to reconsider, i.e. to regulate rather than to ban, and respect consumer rights & freedom to choose.
