### 致全體立法會議員：

#### 香港兒科護理學院促請儘快通過 2019 年吸煙(公眾衛生)(修訂)條例草案

香港兒科護理學院 (Hong Kong College of Paediatric Nursing) 支持及懇請各位尊貴的立法會議員儘快通過全面禁止電子煙和所有新興煙草產品；也促請特區政府和立法會訂立全面禁煙的時間表。

#### 電子煙造成的危害

- 根據世界衛生組織電子煙並不屬於認可的戒煙方法。證據也表明，電子煙和加熱非燃燒煙草可對身體造成嚴重損害，例如增加血管風險，心臟病，冠狀動脈疾病，肺組織慢性肺炎，肺癌和膀胱癌的發病率。此外尼古丁對青少年的大腦發育有害及會增加未來成癮的風險。

#### 兒童的權利

- 孩子是我們的未來，根據兒童權利第 6 條（存活和發展） - 政府必須盡一切努力確保兒童健康成長。電子煙被推廣為無害/少害，兒童在不知情下，誤當電子煙為玩具來吸食。亦有青少年被電子煙時尚精美的設計和不同的口味吸引而吸食變成煙民。電子煙荼毒兒童，嚴重影響兒童和青少年的成長，學習和發展。

#### 規管已屬無效，全禁刻不容緩

- 世界各地幾十年來禁售煙草產品給 18 歲以下青少年根本毫無作用。在數年間，電子煙氾濫，在美國，已有 300 多萬高中生吸食電子煙成癮，青少年吸食電子煙成為了流行病，情況已經失控，令人震驚。美國的經驗清楚說明管制售賣的法例無法阻止另類煙草產品於學生青少年之間猖獗蔓延。因此，防止兒童在不知情下由不吸煙者成為吸煙者，避免煙草流行帶來的當前和未來的健康風險，全面禁止電子煙及另類吸煙產品是最有效防止兒童和青少年吸食的方法。吸煙人士的較健康選擇是戒煙，而不是用任何另類煙草產品代替。

兒科護士們一直憑著他們的專業知識及熱誠，為公眾健康而努力。本學院懇請立法會議員通過法例，儘快通過全面禁止電子煙和所有新興煙草產品，並促請訂立全面禁煙的時間表，以保護公眾健康。

TO: Bills Committee Chairman Kwok Wai Kung.

My name is Ngai Ka Yan. As the LegCo is proceeding on implementing a ban on heat-not-burn products, I'm writing to express my disagreement of banning this product and support to regulatory measures instead.

As a non-smoker, I think these products are better for our health, as scientific proved that the smoke emitted from these products<sup>it's</sup> are not as harmful as traditional cigarette.

I urge the govt to reconsider on banning the product.

Deep Chan

Clerk to Bills Committee on Smoking (Public Health) (Amendment) Bill 2019  
Legislative Council Secretariat  
Legislative Council Complex  
1 Legislative Council Road  
Central, Hong Kong

Dear Mr. Kwok Wai Keung,

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019**

In relation to the proposed bill to implement a complete ban on the new heated tobacco products, I would like to express my opinion to support proper regulations instead of a complete ban and these new products should be legally available for sale in Hong Kong. A total ban is not practical as there are many other channels in which smokers can still buy these products in the black market and will most likely encourage more illicit trade.

Further, I believe that imposing a total ban on heated tobacco products will take away the choice of a better alternative in comparison to traditional cigarettes. Based on various scientific studies, heated tobacco products can potentially reduce approximately 90 to 95 per cent of harmful chemicals than traditional cigarette smoke and I do not understand why this better option is to be taken away from current smokers and also non-smokers.

I request the Government to regulate the new heated tobacco products and sincerely hope that a proper Public Consultation will be conducted so that different voices can be heard and all views and opinions will be considered.

Thanks for your kind attention.

Yours sincerely,

Agnes Liu

Dear Sir/Madam,

I am writing this statement to express my disagreement of banning heat-not-burn products. My name is Lin Pun Lun acknowledged.

Personally, heat-not-burn products should not be banned as it should be a product that ~~control~~ people have the free will to persuade. One of the reasons is due to a reduced substance emerged on heat-not-burn products over the traditional cigarettes. Moreover, a proper consultation should conduct before hand, and gather the will from the public before the acts.

Clerk to Bills Committee on Smoking (Public Health) (Amendment) Bill 2019  
Legislative Council Secretariat  
Legislative Council Complex  
1 Legislative Council Road  
Central, Hong Kong

Dear Chairman Kwok,

a) Bills Committee on Smoking (Public Health) (Amendment) Bill 2019

I am writing to express my view towards the proposed ban on e-cigarettes and alternative tobacco products. I hope you will reconsider this bill proposal and take a better approach to take care and protect Hong Kong public health.

As a bar owner, I believe these products can benefit my customers and also non-smokers surrounding with lower risk, and bring less smell to the premises.

We were never given a chance to express our opinions to the government, and I believe Legco should consider views from all aspects. We should be informed the pros and cons of banning compared to regulating these new tobacco products. Many cigarette users have already been using these products due to the delayed government proposal, the government should therefore re-evaluate the current situation and make decisions after considering the opinion of smokers and non-smokers for a balanced decision.

I urge for the Government to regulate as this is a better option compare to banning. As regulating is already proven effective in Hong Kong ensuring minors do not have access to these products while banning will promote illegal sales and minors will have access to them via unsafe and channels.

I really hope that a consultation will be carried out by the government soon, so to provide concrete results for Legco members to make sound decisions for the Hong Kong people.

Thank you for your attention,

Sincerely,

Assembly

To Bills Committee Chairman Ruek Wai Keung,

I am a smoker for many years but have switched to IQOS since last year. I no longer smoke traditional cigs and I think it's unfair to take away my right to be smoking alternative smoking products.

IQOS has no fire, therefore, will not cause the trash cans to go on fire. It has less smell & less harm produced so it's also less damage to the people around me.

I support regulation instead of total ban on Alternative Smoking Products.

Dear legislative council members

Re: Support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

I am writing to fully support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

Apart from the air pollutants, the new electronic cigarettes and other new tobacco products consume more plastics and product more non-biodegradable wastes than the traditional cigarettes. Don't we dump enough industrial wastes into our planet every day?

For the good of everyone's health and the world, total ban of electronic cigarettes and other new tobacco products in Hong Kong is a must.

Please kindly pass my letter to all Legislative Council members. Thank you very much!

Best regards

Clerk to Bills Committee on Smoking (Public Health) (Amendment)  
Bill 2019

To all Legislative Council members:

Re: Supporting the "Total ban on e-cigarettes and other new tobacco products" and  
setting a timetable for a total ban

Most e-cigarettes contain nicotine. Some famous brands have high nicotine content. The consumption of 0.5 ml of smoke oil is equivalent to smoking a whole package of traditional cigarettes. I urge the Government to legislate as soon as possible to completely ban e-cigarettes and other new tobacco products, including heating non-combustible tobacco products, to avoid harming public health.

Name:  So Chun Yee

Clerk to Bills Committee on Smoking (Public Health) (Amendment)  
Bill 2019

To all Legislative Council members:

Re: Supporting the "Total ban on e-cigarettes and other new tobacco products" and  
setting a timetable for a total ban

The heating of the smoke itself is tobacco, and the amount of nicotine and tar released is similar to that of traditional smoke! Unscrupulous smokers endanger the health of the public for the benefit. I urge the government legislate a total ban on electronic cigarettes and other tobacco products, including new heating non-combustible tobacco products, to safeguard public health as soon as possible!

Name: LAN CHERRY

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

Yes, I support. I encourage the Government to strengthen the publicities in sex education in order to explain how the uses of conventional cigarette, e-cigarette, heat-not-burn tobacco products and other types of tobacco products cause impotence and irregular menstrual cycle. The publicities could remind couples to keep off the uses of the products.

Name:  \_\_\_\_\_

Mr. Ken Lee

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019 Secretary**

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

I support. I also believe the Government could strengthen the publicities to explain the causation between uses of conventional and new tobacco products and oral diseases such as gum disease and carious tooth in public and private clinics as wells as School Dental Clinics.

Name: 黃紹傑

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019 Secretary**

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

I support. I also believe the total ban on both conventional and new tobacco products is a global trend that is good for public health. The total ban on the e-cigarette and other new forms of tobacco products should be implement first. With a proper timeline, the next total ban on conventional tobacco products would be accomplished.

Name: 林澤鋒

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019 Secretary**

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

When the Government really implements the above-mentioned total ban and imposes more restrictions on using conventional cigarettes, I am sure more people are more willing to enjoy outdoor recreational activities and consumption activities due to free of harms of second-hand and third-hand smoke. The tourism image would also benefit from these advanced tobacco control policies.

Name: Li Bilin 

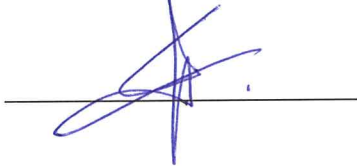

**Bills Committee Secretariat on Smoking (Public Health) (Amendment) Bill 2019**

**Re: “Support to Enact a Total Ban on E-cigarettes and Other New Tobacco Products, and  
formulate a timeline for total ban of smoking”**

Dear all members of the Legislative Council,

I am writing to urge for a total ban on e-cigarettes and other new tobacco products. E-cigarettes and other new tobacco products are advertised as trendy products attracting particularly the teenagers to try. E-cigarettes end up becoming a gateway to tobacco smoking among young people. To safeguard the health of the young generation and to actualize the goal of smoke-free Hong Kong, the government should thus enact a total ban on these products.

Best Regards,

**Bills Committee Secretariat on Smoking (Public Health) (Amendment) Bill 2019**

**Re: “Support to Enact a Total Ban on E-cigarettes and Other New Tobacco Products, and  
formulate a timeline for total ban of smoking”**

Dear all members of the Legislative Council,

Although a lot remains unknown about the potential health risks of the e-cigarettes and other new tobacco products, this much is clear: these products cannot be viewed as safe. Many research have found that e-cigarettes still contain nicotine and other harmful substances placing citizens’ health in jeopardy. In order to avoid even more people from mistakenly attempting these products, there should be a total ban on e-cigarettes and other new tobacco products.

Best Regards,

---

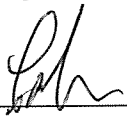

**Bills Committee Secretariat on Smoking (Public Health) (Amendment) Bill 2019**

**Re: “Support to Enact a Total Ban on E-cigarettes and Other New Tobacco Products, and  
formulate a timeline for total ban of smoking”**

Dear all members of the Legislative Council,

It has drawn my attention that there is growing body of research showing e-cigarette use among young people increases the likelihood of smoking cigarettes, given these new tobacco products actually also contain nicotine and are addictive. In order not to place our youngsters’ health in jeopardy, there should be a complete ban on all these new tobacco products.

Best Regards,

  
\_\_\_\_\_

**Bills Committee Secretariat on Smoking (Public Health) (Amendment) Bill 2019**

**Re: “Support to Enact a Total Ban on E-cigarettes and Other New Tobacco Products, and  
formulate a timeline for total ban of smoking”**

Dear all members of the Legislative Council,

Nowadays many teenagers are exposed to e-cigarettes and other new tobacco products, wrongly believing these products will do no harm to their health. Merely regulating these products is actually no different from legalizing them and it will literally wind up in more uses. Therefore, I sincerely urge the government could enact a total ban on e-cigarettes and other new tobacco products for the sake of teenagers' health.

Best Regards,

**Bills Committee Secretariat on Smoking (Public Health) (Amendment) Bill 2019**

**Re: “Support to Enact a Total Ban on E-cigarettes and Other New Tobacco Products, and  
formulate a timeline for total ban of smoking”**

Dear all members of the Legislative Council,

The tobacco industry has been promoting e-cigarettes and “heat-not-burn” devices like iQOS, as ways to decrease or even quit smoking. Yet the World Health Organization already claimed that it is not the case. A growing body of research have also shown that e-cigarettes does contain different harmful substances not found in traditional cigarettes, thus they are in no way less harmful than traditional ones. Therefore, to safeguard the health of the public, I strongly urge for a total ban on all these new tobacco products.

Best Regards,

---

**Bills Committee Secretariat on Smoking (Public Health) (Amendment) Bill 2019**

**Re: “Support to Enact a Total Ban on E-cigarettes and Other New Tobacco Products, and

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019 Secretary**

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

I support the total ban. I also request the Legislative Council Members endorse the proposal in consideration of controlling public expenditure on health care.

Name: 

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019 Secretary**

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

I support the above-mentioned legislative proposal. I also urge the Government to extend smoke-free areas in an attempt to build Hong Kong as a smoke-free city.

Name:  Jimmy

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019 Secretary**

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

I support the above-mentioned legislative proposal. I also urge the Government to allocate more resources to community education on the impacts of using e-cigarette, heat-not-burn tobacco products and other new forms of tobacco products on health of users and non-users.

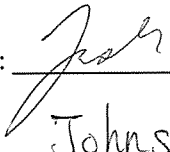

Name: 

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019 Secretary**

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

I support the above-mentioned legislative proposal. I also request the Government to increase the manpower of the Customs and Excise Department in order to prevent illicit cigarette and prohibited tobacco products from being available in the market.

Name:   
Johnson Ng

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019 Secretary**

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

I support the above-mentioned legislative proposal. I also urge the Government to strengthen its publicity of free smoking cessation services in Hong Kong so that more smokers attempt to quit.

Name:   
Chan

**Bills Committee on Smoking (Public Health) (Amendment) Bill 2019 Secretary**

Dear Legislative Council Members,

Re: Support Total Ban on E-cigarette and other New Forms of Tobacco Products and Request for  
Timeline on Tobacco Endgame

I support the above-mention legislative proposal. I also request the Government to annually increase the tobacco tax, which the rate should be higher than the inflation rate, in order to further reduce the smoking prevalence in Hong Kong.

Name:   
kei-ho wong

**Secretary of Bills Committee on Smoking (Public Health) (Amendment) Bill  
2019**

Re : Supporting the "Total ban on e-cigarettes and other new tobacco products"  
and setting a timetable for a total ban on smoking

To all Legislative Council members :

Local news has reported that the youngest e-cigarette users are only 6 years old and the data shows that 8.7% of secondary school students have used e-cigarettes, and the number continues to rise. The average life expectancy of Hong Kong people is over 80 years old. At the age of 18 , there are more than 60 years of smoking age , which is enough to seriously affect health.

Name : W. Kuo. (Kuo Ling Yi)

**Secretary of Bills Committee on Smoking (Public Health) (Amendment) Bill  
2019**

Re: Supporting the "Total ban on e-cigarettes and other new tobacco products" and  
setting a timetable for a total ban

To all Legislative Council members :

There are still more than 600,000 people smoking in Hong Kong every day. Traditional cigarettes are not completely banned at one time. However, the long-term direction of smoke-free Hong Kong is clear. Therefore, the first ban on e-cigarettes and alternative tobacco products is consistent with the long-term strategy of smoke-free Hong Kong . The Government should legislate as soon as possible to completely ban e-cigarettes and other new tobacco products, including heating non-combustible tobacco products. This is an important step towards achieving smoke-free Hong Kong .

Name: S. L. Lau S.

**Secretary of Bills Committee on Smoking (Public Health) (Amendment) Bill  
2019**

Re : Supporting the "Total ban on e-cigarettes and other new tobacco products"  
and setting a timetable for a total ban on smoking

To all Legislative Council members :

E-cigarettes can affect health. E-cigarettes, like traditional cigarettes, increase the incidence of heart disease. People who smoke traditional cigarettes and e-cigarettes have a heart attack rate that is 4.6 times higher than that of non-smokers .

Name : LUI JHAN YI ✱

**Secretary of Bills Committee on Smoking (Public Health) (Amendment) Bill  
2019**

Re: Supporting the "Total ban on e-cigarettes and other new tobacco products" and  
setting a timetable for a total ban

To all Legislative Council members :

E-cigarettes seriously affect health, greatly reduce social productivity, and dramatically increase social medical expenses . If the Government wants to maintain Hong Kong's competitiveness, it should legislate as soon as possible to completely ban e-cigarettes and other new tobacco products, including heating non-combustible tobacco products .

Name: HUNG YIN-MAN 

**Secretary of Bills Committee on Smoking (Public Health) (Amendment) Bill  
2019**

Re: Supporting the "Total ban on e-cigarettes and other new tobacco products" and  
setting a timetable for a total ban

To all Legislative Council members :

E-cigarettes and new tobacco products (including heated non-combustion tobacco products) have been promoted as fashion gadgets. In fact, most research reports show that e-cigarettes do not help to quit smoking . The government should legislate as soon as possible to completely ban e-cigarettes and other new tobacco products, including heating non-combustible tobacco products.

Name: HF Ng Tszying

**Secretary of Bills Committee on Smoking (Public Health) (Amendment) Bill  
2019**

Re: Supporting the "Total ban on e-cigarettes and other new tobacco products" and  
setting a timetable for a total ban

To all Legislative Council members :

Alternative tobacco products are harmful to the human body and are not limited to children, but also harmful to adults ! Nowadays, countless adults and children have misunderstood the words of tobacco companies, started using alternative tobacco , and even became addicted. To protect the health of the public, the Government should legislate as soon as possible to completely ban e-cigarettes and other new tobacco products, including heating non-combustible tobacco products .

Name: 

**Secretary of Bills Committee on Smoking (Public Health) (Amendment) Bill  
2019**

Re: Supporting the "Total ban on e-cigarettes and other new tobacco products" and  
setting a timetable for a total ban

To all Legislative Council members :

A recent study published in the New England Journal of Medicine showed that the vast majority of people who quit smoking with e-cigarettes only turned into e-cigarettes and not completely quit smoking , showing that unscrupulous tobacco companies have succeeded. The government should legislate as soon as possible to completely ban e-cigarettes and other new tobacco products, including heating non-combustible tobacco products.

To Whom May Concern,

My name is LEE HO YEE, I am writing to  
express my disagreement of banning  
this product of heat-not-burn product  
and support to regulatory measures.

~~Reason~~ AS I am consuming IQTS, and  
can't taken into the cigarettes anymore.  
That's why I would disagree the  
regulations.

To whom it may concern

I used to be a cigarette smoker, I switched to smoking eCig. since last year. Since then, it really helped me smoking less tobacco products which is a habit I wanted to change for many years. If the bill passes for the total ban of alternative-smoking products, this will take away my rights and options of choosing a suitable product. I hope one day I could quit smoking totally. Without this transitional ~~period~~ period of switching to eCigarette, I would never have a chance to give up smoking.

Now, I'm no longer smoking traditional cigarettes and I'm hardly using the eCig., but I think others should also have the right to choose freely and quit it or take it as they wish.

WONG PUI YEE GRACE

Clerk to Bills Committee on Smoking (Public Health) (Amendment) Bill 2019  
Legislative Council Secretariat  
Legislative Council Complex  
1 Legislative Council Road  
Central, Hong Kong

Dear Mr. Kwok,

I am just an ordinary citizen in Hong Kong who wish to share my own story, a story of how heat not burn tobacco created an impact in my life. Not sure if anyone would actually read my story, but still, I write and submit my story to let my voice be heard.

I started smoking since I was in secondary school, a traditional Christian school which rank the top in Hong Kong. Staying in a traditional grammar school in Hong Kong is a lot of pressure, the school expected every student to be disciplined, punished those who do not behave to standards and never really spent enough time understanding the needs of each student. In order not to be labelled as a "bad" student, I tried hard to hide my habit of smoking and my habit was left successfully unnoticed at school. I had just 1-2 sticks after school, hiding from home as I was afraid being caught by my parents. After graduated from secondary and entered the university, I got to move to the school dormitory where I felt like I was being released from the jail. I could hang out with my schoolmates and friends, party everyday with alcohol and non-stop smoking. Smoking had become my habit, from 1-2 sticks a day turned into a whole pack per day. The situation remained through my important life stages of master degree and into my work life.

Not sure if I was drinking or smoking too hard, I started to feel unwell easily. Losing concentration and energy at work, nails and teeth turned yellow. Even received complaints from a department manager that I had heavy cigarette smell bringing back to the office all the time. Still, I could not quit smoking as it has already been part of my life, and I choose to smoke to release stress and chill with colleagues and friends. Until one day that I was smoking backstairs, one of my former colleague took out a device and started to inhale, which was something that I have never seen before. It immediately aroused my interest and I asked him about it, knowing that it is not an electronic cigarette but instead a heat not burn tobacco product. I tried a few puffs and amazed by its features of no fire, ash and smoke, at the same time can also give me the same satisfaction as I get from traditional cigarettes. After that the colleague and I went to the same meeting which I then realized there was no smell from my colleague's clothes, hands and hair while I had heavy cigarette smells. The department manager and colleagues even asked me to spray some perfume to cover the smell which made me very embarrassing. Ever since, I started to search for the information about such alternative tobacco products and switched to the heat not burn products 2 weeks after the "Meeting Incident". I would not say the product made me healthier, but it does change my life in many ways. For example, I no longer worry about the smell that would annoy my friends, family and colleagues. Also my teeth and nails no longer turn to yellowish, which is a really positive change that improve my appearance.

When I look back on my experience on smoking, if I receive proper attention and genuine care in my education in school, I could not have started or could have gone off my smoking habit. We all agree that smoking is bad for health and it's wrong for youth to start with. Prohibiting e-cigarettes and Heat not burn products won't reduce the temptation of school kids to pick up smoking, because the root cause

here is proper education and sensible regulation, NOT banning everything you think is bad and take away a better choice for those who needs them, like myself!

Now that the government has proposed the ban and I am really frustrated about it, I have fully adapted to the product already and do not want to switch back to the normal cigarettes. Seriously I would not know what to do if this come true, so do my friends who have switched to the product. I hope that the government would listen to our voice, at least regulate the products but not a full ban.

Yours sincerely,

Priscilla Tang

To Chairman KWOK WAI KEUNG  
MY name is Alex Combé.

Lets Legalize this shit !!!

(Legalize shit = legalize ~~the~~  
electronic cigarettes)

- It is healthier than ~~tobacco~~  
conventional cigarettes

- It doesn't contain illegal substance  
So it shouldn't be banned.

- It is legal in many other  
countries.

- ~~It helps to~~ It allows smokers  
to cut down more easily, because  
the nicotine concentration  
can be adjusted and controlled  
more easily.

反對電子煙在香港特別行政區內禁止買賣事宜

姑勿論是吸煙者或非吸煙者，在日常社交應酬活動中，總會遇到一些食煙朋友，縱使在戶外吸煙，當食傳統煙時，其氣味及煙霧對非吸煙者難以接受。對吸煙者而言，其濃烈氣味容易殘留於衣服上及口腔內，有時引致非常尷尬及不好意思。此外，吸煙後回到辦公室或某室內場合，其氣味亦非常不便！尤其與家人聚會時，吸煙者更諸多不便，需要與小朋友保持一段距離，同時，其氣味容易引致一些非吸煙者父母不滿。

作為已有小朋友的我們，當遇到社交活動或家庭聚會時，電子煙的存在對吸煙者及非吸煙者之父母來說，總是方便！

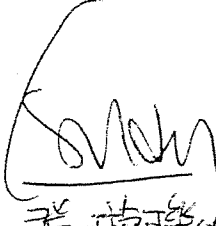

希望政府提供更多！

郭偉強主席：

本人丁理煜是一位電子煙用家，本人不贊成政府全面禁止電子煙/加熱煙產品的銷售及入口。

第一，電子煙對傳統煙民而言，無疑是更健康之選擇，為何煙民無權由兩者取其輕？電子煙的「減煙作用」和「更健康」之論說，有英國~~研~~研究支持。政府無權禁止煙民有更好的選擇！

第二，如若政府有急為青年人之健康著想，理應全面禁止所有有風喉的產品，例如，~~因~~尼古丁、酒精甚或是~~甚高~~糖飲等，政府禁止電子煙或加熱煙無疑是雙重標準！

~~總~~

總而論之，政府之政策政策是侵犯  
人權之權利，又是雙重標準，無  
理至極！政府理應立法規管，而非  
一味封殺！
