Dear legislative council members

Re: Support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

I am writing to fully support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

After the invention of electronic cigarettes and other new tobacco products, more new cigarette companies enter and expand the market. The industries would further grow and expand if not being controlled by laws. It means more people might make their living by manufacturing and selling the harmful products

For the good of the smokers themselves and our society, total ban of electronic cigarettes and other new tobacco products in Hong Kong is a must.

Some older smokers having smoked for decades were very reluctant and afraid to quit smoking now. Why would they be this? Without social, peer and family support at the old time, in addition to the less costly cigarette, many smoked year by year. They regarded their smoking as essence of their life. Quitting means leaving their smoking 'comfortable zone' to risk their life.

Dear legislative council members

Re: Support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

I am writing to fully support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

People are free to smoke as long as not breaking any Law. But now, some e-cigarettes are packed like snacks, fruit juice and stationery. Fruity flavor was added. This has attracted young people even children to smoke it. And teachers and parents may not realize their e-cigarettes because of their 'friendly' package.

Please kindly pass my letter to all Legislative Council members. Thank you very much!

Re: Support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

I am writing to fully support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

If not banning all those products, it would be much more difficult to convince young people their harms and hazards, considering that smoking prevention work have already challenged many educators, parents and teachers much more than before after the availability of electronic cigarettes and other new tobacco products in Hong Kong.

Please kindly pass my letter to all Legislative Council members. Thank you very much!

Dear legislative council members

Re: Support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

I am writing to fully support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

Young people are the main victims of the invention and launching of electronic cigarettes and other new tobacco products in the Hong Kong market. There is no doubt that more and more young people in Hong Kong would smoke electronic cigarettes and other new tobacco products, if they are targeted by the cigarettes companies and retailers. Prevention work must be more difficult when the number of young smoker increases day by day.

Please kindly pass my letter to all Legislative Council members. Thank you very much!

Re: Support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

I am writing to fully support a total ban of electronic cigarettes and other new tobacco products in Hong Kong.

Using new tobacco products is smoking by another name. It is so easy to start smoking. But it is not case to quit it. Smoking electronic cigarettes and other new tobacco products will be even worse because of the unknown long term hazards.

Please kindly pass my letter to all Legislative Council members. Thank you very much!

many teenagers are using e-cigarettes without
even considering the negative health impact.
because the products are advertised falsely as
a "healthier ~~at~~ alternative" to traditional cigarettes.
for the sake of our next generation, please pass
the bill to ban e-cigarettes now!
