To: 《2019年選舉法例(雜項修訂)條例草案》委員會主席

Dear Chairman,

We, the Hong Kong Electronics and Technologies Association ("HKETA") would like to express our strong request of having the voting rights in the Legislative Council election for the Information and Technology Sector.

The HKETA was founded in year 2008. As one of the major players and stakeholders in the said sector, we respectfully ask you to consider our request seriously due to following reasons:

1. As one of the medium size associations in Hong Kong, the HKETA have more than 100 corporate members, wherein 90% of them are from Electronics, Information, Communication & Technologies; you may also aware that the electronic products and services is the biggest sector of the HK export;
2. Our corporate members are Local-Based Companies as well as the Well-Known Multi-National Companies from different technologies sector;
2. The HKSAR Government is encouraging innovation and technology to embrace HK strength, undoubtedly, voices the HKETA consists the voices from the innovation and technology industry;
3. As always, the HKETA is building platform between the sectors of industry, education, research and government. The HKETA is one of the most active players in HK.
4. The HKETA is supporting various secondary and tertiary education bodies in STEM activities, we are promoting public awareness through many of our activities and events.
5. We are the organizer with the HKTDC and are holding high quality annual Technology Symposium during the Autumn Electronics Fair, which the Technology Symposium also being well-recognized by the HKSAR, the CE or ITB, and/or the top Executives has been our Guest of Honor in the past years.
6. The HKETA works closely with the Hong Kong Science and Technology Park, Cyberport, and the Five R&D Centres to facilitate technology transfer and industry linkage.

Should you have any question, you are most welcome to contact us by: admin@hketa.org.hk

I look forward for a favourable comment from you.

Sincerely yours, .

Victor Choi
Chairman -HKETA
