Panel on Environmental Affairs

**Motion passed under agenda item III on "Promoting the use of electric vehicles"
at the meeting on 28 January 2019**

To further improve air quality, this Panel urges the Government of the Hong Kong Special Administrative Region to draw reference from the strategies of other places for promoting the use of electric vehicles ("EVs"); set a timetable for phasing out petrol vehicles and targets on the take-up rate of EVs; and encourage the public to switch to EVs and hybrid vehicles through strategies such as offering additional tax concessions for EVs, providing partial tax concessions for hybrid vehicles, increasing substantially the number of public chargers and subsidizing the provision of chargers by private property owners, so as to reduce roadside emission and improve air quality.
