SECTIONAL DRAWING 截面圖A

NEED OF THE PROJECT 計劃的由來

- PolyU's existing library building was first built in the 1970s and has not gone through any major upgrading in the past four decades.

現有的圖書館大樓建於上世紀七十年代，過去40多年來不曾進行大規模改善工程。

The implementation of the New Academic Structure (“3+3+4”) in the UGC-funded universities has greatly increased the need for library space, project rooms and collaborative areas for the increased student population.

- 自教資會資助界別於2012/13學年推行新學制(「3+3+4」)以來，學生人數不斷上升，對圖書館空間、專題作業室和協作區的需求大幅增加。

The project will transform the outdated library facilities into a modern learning hub to suit the need of the latest learning environment, and enhance the safety standard and energy efficiency of the lifts.

- 這項工程計劃會把老化的圖書館設施改為現代化學習中心，以配合最新學習環境的需要，並提高升降機的安全水平和能源效益。
