**議案(一)**

(議案中文措辭)

本事務委員會促請政府支援本港養魚業發展，應優先：落實行業天災保障機制、拓展銷售渠道、完善紅潮預警機制、改善養殖水質、優化及簡便資助發展計劃、為業界建立品牌加強競爭力、積極支援業界提升養殖技術及產值。在綜合以上各項推行情況的因素，再對養殖標準的可行性作出審慎研究、繼續諮詢及尋找共識，以協助行業進一步改善經營環境，善用養殖空間。

**Motion 1**

(English translation of the motion)

This Panel calls on the Government to support the development of the mariculture industry, and priorities should be given to: implementing a natural disasters protection mechanism for the industry, expanding the sales channels, improving the red tides alert system, improving the quality of water used for fish culture, refining and simplifying various subsidy programmes for the development of the industry, increasing the competitiveness of the industry through brand-building, and proactively supporting the industry in upgrading mariculture technologies and increasing production value. Having consolidated experiences from implementing the above initiatives, the Government could carefully explore the feasibility of setting mariculture standards by conducting further consultation to help forge a consensus, thereby assisting the industry to further improve its operating environment and optimize the use of mariculture zones.

## **議案(二)**

下列議案由朱凱迪議員動議，並經陳凱欣議員修訂及毛孟靜議員進一步修訂：

(議案中文措辭)

由於大量海魚養殖戶有不同意見，本事務委員會要求政府正視養魚戶的實際營運情況，先撤回收緊牌照中"養殖標準"的建議，必須與業界討論，並預留充足時間充分諮詢及聽取業界意見，才制定新標準；另外，政府應強化各項支援海魚養殖業的措施。

## **Motion 2**

The following motion was moved by Hon CHU Hoi-dick, as amended by Hon CHAN Hoi-yan and further amended by Hon Claudia MO:

(English translation of the motion)

Given the dissenting views among a large number of mariculturists, this Panel requests the Government to take note of the actual operating environment of fish farmers, withdraw its proposal to tighten the "mariculture standards" for licensing first, and hold discussions with the trade; and to allow sufficient time to thoroughly consult and receive views from the trade before setting any new standards. In addition, the Government should strengthen various support measures for the mariculture industry.
