

Date: 6<sup>th</sup> April, 2019

Dear Mr. Kwok Wai Keung,

Good day to you. My name is Liu Ka Wing and I am a smoker. I smoke for quite some years. I am a father with 1 kid. I am using IQOS which is the best tobacco product in the market. However, I need to ask for my friend's help to buy or get them from Japan or Korea.

I wonder how come this product cannot be launched in HK. This product gives me the satisfaction but without smell and ash – a very good thing to me and my family. I do not want to ask for my friend's help anymore to bring this products for me.

Can the government regulate this instead of ban?  
I would like to express my opinion in the public hearing and hope you can listen to me.

Thank you for your attention.
