

Attention: Bills Committee on Smoking (Public Health) (Amendment) Bill 2019

I strongly support the proposed bill to ban alternative smoking products.

I resent all users of smoking products, especially those who deliberately emits second smoke to the public thus causing extreme discomfort to the surrounding innocent victims; not to mention the obvious adverse health effects which slowly build up and unfortunately are only apparent down the road. Such selfish behavior on the part of smoking-product users I believe should be deemed suicidal and murderous. For this obvious reason, a total ban of smoking products of all kinds will be the best solution.

In the best interest of myself, my loved ones, and the society,  
Chow Hoo Keen (Kenny)
