2. Please give a breakdown of the number of enrolment places, actual intakes, unit cost as well as the tuition fees of the UGC-funded taught postgraduate master, taught postgraduate doctor, research postgraduate (Master of Philosophy) and research postgraduate (Doctor of Philosophy) programmes by institution, programme and year of study over the past 5 years (i.e. 2014/15 to 2018/19 academic years);

3. Please give a breakdown of the number of enrolment places, actual intakes, unit cost as well as the tuition fees of the undergraduate, senior year top-up degree, associate degree and higher diploma programmes offered by self-financing post-secondary institutions and self-financing universities, by institution, programme and year of study over the past 5 years (i.e. 2014/15 to 2018/19 academic years);

4. Please give a breakdown of the number of enrolment places, actual intakes, unit cost as well as the tuition fees of the taught postgraduate master, taught postgraduate doctor, research postgraduate (Master of Philosophy) and research postgraduate (Doctor of Philosophy) programmes offered by self-financing post-secondary institutions and self-financing universities by institution, programme and year of study over the past 5 years (i.e. 2014/15 to 2018/19 academic years);

5. Please give a breakdown of the respective numbers of the various types of self-financing programmes offered by the departments of UGC-funded institutions by institution over the past 5 years (i.e. 2014/15 to 2018/19 academic years) (set out by associate degree, higher diploma, undergraduate, taught postgraduate and research

postgraduate programmes), as well as (i) the student intakes, (ii) the tuition fee income, (iii) the number of full-time teaching staff members employed, (iv) the number of part-time teaching staff members employed, (v) the number of non-teaching staff members employed and (vi) payroll expenses for such staff members, of such programmes respectively;

6. Please give a breakdown of the amounts of net incomes (or net deficits) as a result of offering self-financing programmes by the departments of each UGC-funded institution over the past 5 years (i.e. 2014/15 to 2018/19 academic years);

7. Please give a breakdown of the amounts of surpluses (or liabilities) of the departments of each UGC-funded institution over the past 5 years (i.e. 2014/15 to 2018/19 academic years);

8. Please give a breakdown of the amounts of net incomes (or net deficits) as a result of offering programmes by each self-financing post-secondary institution over the past 5 years (i.e. 2014/15 to 2018/19 academic years); and

9. Please give a breakdown of the amounts of surpluses (or liabilities) of each self-financing post-secondary institution over the past 5 years (i.e. 2014/15 to 2018/19 academic years).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 6)

Reply:

1 and 2.
The approved intake places, approved student number targets and student enrolment of the UGC-funded sub-degree (SD) (including associate degree and higher diploma), undergraduate (Ug), taught postgraduate (TPg) and research postgraduate (RPg) programmes by university and broad academic programme category (APC) from the 2017/18 to 2018/19 academic years are at **Annexes A1 to A4**.

The same details covering the 2014/15 to 2016/17 academic years were set out in our reply (Reply Serial No. EDB246) to a question (Question Serial No. 0130) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2018-19 in 2018. The details covering the 2014/15 to 2016/17 academic years are not repeated herein.

The average student unit costs of the UGC-funded places, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by universities, by level of study for the 2014/15 to 2017/18 academic years are set out below:

Level of study	Average student unit cost [Note 2]			
	2014/15	2015/16	2016/17	2017/18 [Note 1]
SD	$156,000	$172,000	$176,000	$190,000
Ug	$222,000	$237,000	$242,000	$251,000
TPg	$215,000	$230,000	$232,000	$243,000
RPg	$511,000	$548,000	$568,000	$581,000

Notes:
1. Provisional figures.

2. The bulk of the average student unit cost of a UGC-funded place is subsidised by Government subvention with the remainder funded by income from tuition fees (i.e. $42,100 per student per year for UG, TPg and RPg programmes; $15,040 per student per year for SD programmes offered by the Education University of Hong Kong and $31,575 per student per year for SD programmes offered by other UGC-funded universities).

The average student unit costs for the 2018/19 academic year are not yet available. As funding for publicly-funded programmes is subsumed under the block grants, the UGC is unable to identify and provide the actual expenditure on specific programmes.

3 to 5(i).
The estimated intake places, actual intakes and average annual tuition fees of full-time locally-accredited self-financing SD, first-year-first-degree (FYFD) and top-up degree programmes by institution from the 2017/18 to 2018/19 academic years are at **Annexes B1 to B3**. The Education Bureau does not maintain information on the unit costs of these programmes.

The number of programmes offered, actual intakes and total tuition fees of full-time locally-accredited self-financing TPg and RPg programmes by institution for the corresponding period are at **Annexes C1 to C2**. The Education Bureau does not maintain information on the number of enrolment places and unit costs of these programmes.

The same details covering the 2014/15 to 2016/17 academic years were set out in our reply (Reply Serial No. EDB246) to a question (Question Serial No. 0130) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2018-19 in 2018. The details covering the 2014/15 to 2016/17 academic years are not repeated herein.

5(ii) to 7.
According to information provided by the UGC-funded universities, information on the tuition fee income, the numbers of full-time and part-time academic and non-academic staff members employed, and the payroll expenses for these staff members of self-financing programmes for the 2014/15 to 2017/18 academic years are set out at **Annexes D and E**. Information for the 2018/19 academic year is not yet available.

According to information provided by the UGC-funded universities, the surpluses / deficits of self-financing programmes for the 2014/15 to 2017/18 academic years are at **Annex F**. Information for the 2018/19 academic year is not yet available.

Based on the annual financial reports of the UGC-funded universities, the surpluses / deficits and total liabilities of each university for the 2014/15 to 2017/18 academic years are at **Annex G**. Information for the 2018/19 academic year is not yet available. The annual financial report of each university is also available on its website.

8 and 9.
As self-financing post-secondary institutions operate on a self-financing basis without regular public funding, the Education Bureau does not maintain relevant financial information of these institutions.

	Total		**1 646**	**3 195**	**2 761**

Notes:

1. Breakdown of higher diploma programmes is not available
2. Since some UGC-funded programmes are mapped to more than one APC, students of these programmes are counted across the APCs concerned on a pro-rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals. The figure zero denotes less than 0.5.
3. "-" denotes nil.

Notes:

1. Approved intake places are not applicable to UGC-funded RPg programmes. UGC-funded RPg students refer to students funded by UGC within their normal study periods.
2. There is no breakdown of the approved student number targets by MPhil/PhD programme and broad APC.
3. Since some UGC-funded programmes are mapped to more than one APC, students of these programmes are counted across the APCs concerned on a pro-rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals. The figure zero denotes less than 0.5.
4. "-" denotes nil.
5. Abbreviations:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

The Hong Kong Polytechnic University		119			128	
The Hong Kong University of Science and Technology		77			130	
The University of Hong Kong		70			86	
The Open University of Hong Kong	2	2		2	Not Available	
Hong Kong Shue Yan University	-	-	-	24		138,000 - 207,000

Notes:

1. Self-financing RPg programmes only include self-financing MPhil and PhD programmes. The tuition fees above are based on normal study period.
2. Actual intakes of UGC-funded universities include those students pursuing UGC-funded RPg programmes who were wholly financed by external funds.
3. "#": Universities do not offer independent RPg programmes under individual disciplines for enrolment. Postgraduate students normally apply directly to universities for research master's/doctoral degree programmes and are admitted to a department associated with their research. As such, the number of programmes offered is not available.
4. "-" denotes relevant programmes were not offered in that academic year.

Source: Information provided by UGC-funded universities.

Notes:

(1) The financial information set out in this annex covers both the self-financing programmes offered by the university proper and those provided by other self-financing operations.

(2) Staff number is reported in full-time equivalent unless otherwise stated.

(3) According to the City University of Hong Kong, the number of staff of its Community College was reported up to the 2014/15 academic year as the College was transferred out from the university on 1 July 2015.
(4) Hong Kong Baptist University reported the number of part-time staff on a headcount basis for the 2014/15 to 2016/17 academic years. The number of full-time and part-time staff on headcount basis was reported in the 2017/18 academic year.
(5) The Chinese University of Hong Kong reported the number of full-time staff and part-time staff on a headcount basis.
(6) The Hong Kong Polytechnic University reported the number of full-time staff in full-time equivalent and part-time staff on a headcount basis.
(7) According to the University of Hong Kong, information on staff number, both academic and non-academic, is not readily available.
(8) "FT" stands for full-time and "PT" stands for part-time.

(ii) Staff costs ($ million)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2961)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide, by university, year of study and programme, the expenditure required for and revenue generated by the self-financing post-secondary programmes of the University Grants Committee (UGC)-funded universities for the past 5 years (2014/15 to 2018/19).

2. Please provide, by university, the overall surplus, donations received, total amount of funds and liabilities of the UGC-funded universities for the past 5 years (2014/15 to 2018/19).

3. Please provide, by university, the overall surplus, donations received, total amount of funds and liabilities of the self-financing departments of the UGC-funded universities for the past 5 years (2014/15 to 2018/19).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 10)

Reply:

1. We do not have the information on the expenditure required for and revenue generated by the self-financing post-secondary programmes (by university, year of study and programme) by University Grants Committee (UGC)-funded universities for the 2014/15 to 2018/19 academic years.

2. Based on the annual financial reports of the eight UGC-funded universities, the surpluses / deficits, donations received, total funds and liabilities of each university for the 2014/15 to 2017/18 academic years are at **Annex A**. Information for the 2018/19 academic year is not yet available. The annual financial report of each university is also available on its website.

3. Based on the information provided by universities, the surpluses / deficits of self-financing programmes for the 2014/15 to 2017/18 academic years are at **Annex B**.

Information for the 2018/19 academic year is not yet available. We do not have the information on donations received, total funds and liabilities of the self-financing departments of UGC-funded universities for the 2014/15 to 2018/19 academic years.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2962)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

In respect of the senior year undergraduate programmes offered by the University Grants Committee (UGC)-funded universities, please provide the following information by university:

1. the number of publicly-funded senior year undergraduate places and their distribution by discipline; and the number of self-financing senior year undergraduate places, their distribution by discipline and the tuition fees in the past 5 years (2014/15 to 2018/19 academic years);

2. the number of publicly-funded senior year undergraduate places offered by each university in the past 5 years (2014/15 to 2018/19 academic years); and for students admitted to top-up degree programmes, please list, by institution, the previous institutions from which these students completed their sub-degree programmes; and

3. given that the number of publicly-funded senior year undergraduate places has been progressively increased to 5 000 by the 2018/19 academic year, please list the number of places increased between 2015/16 and 2018/19 academic years and their distribution by university and discipline.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 20)

Reply:

(1) The approved senior year undergraduate intake places allocated to the UGC-funded universities by programme from the 2017/18 to 2018/19 academic years are at **Annex A**. The estimated student intakes and the average annual tuition fees of full-time locally-accredited self-financing top-up degree programmes offered by the UGC-funded universities for the corresponding period are at **Annex B**.

Relevant information for the 2014/15 to 2016/17 academic years was set out in our reply (Reply Serial No. EDB253) to a question (Question Serial No. 3271) raised at the special meetings of the Finance Committee (FC) to examine the Estimates of Expenditure 2018-19 in 2018 and therefore will not be repeated herein.

(2) The approved senior year undergraduate intake places allocated to the UGC-funded universities from the 2017/18 to 2018/19 academic years are at **Annex A**. The actual intakes of the UGC-funded senior year undergraduate programmes by the type of university in which students obtained their highest qualification before admission to senior year undergraduate programmes for the corresponding period are at **Annex C**.

Relevant information for the 2014/15 to 2016/17 academic years was set out in our reply (Reply Serial No. EDB253) to a question (Question Serial No. 3271) raised at the special meetings of the FC to examine the Estimates of Expenditure 2018-19 in 2018 and therefore will not be repeated herein.

(3) The Government announced in 2014 that from the 2015/16 academic year and the following triennium, the senior year undergraduate intake places in UGC-funded universities would progressively increase by 1 000 places in total, so that by the 2018/19 academic year 5 000 meritorious sub-degree graduates might articulate to subsidised degree programmes per annum.

Please refer to **Annex A** regarding the approved senior year undergraduate intake places allocated to the UGC-funded universities by programme from the 2017/18 to 2018/19 academic years. Relevant information for the 2015/16 and 2016/17 academic years was set out in our reply (Reply Serial No. EDB253) to a question (Question Serial No. 3271) raised at the special meetings of the FC to examine the Estimates of Expenditure 2018-19 in 2018 and therefore will not be repeated herein.

Notes:

1. "-" denotes nil.
2. # The Government has given in-principle agreement to provide funding for the senior year (third year) nursing programmes from the 2014/15 academic year onwards.
3. ^ The Broad Discipline of Computing comprises three awards. It aims to give students the flexibility to decide on the final award in their first year of study. Students admitted to the Broad Discipline will complete a common Year 1 curriculum. They will select any one of the three Honours degree awards (i.e. BSc(Hons) in Computing, BSc(Hons) in Enterprise Information Systems, BSc(Hons) in Information Technology) and start to study the corresponding course as early as semester one of Year 2 or as late as semester two of Year 2.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2963)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the funding expenditure of the University Grants Committee (UGC) on research, please provide the following information for the past 5 years (2014-15 to 2018-19):

1. the amount of Government provisions for funded institutions to carry out research with a breakdown by institution and department; and the amount of research funding secured by the institutions through the competitive allocation mechanism implemented by the UGC/Research Grants Council;

2. the number of research projects which could not be fully completed eventually, the funds involved and the reasons for this;

3. the staff establishment, minimum salary point, mode of employment and wastage of teaching assistants, research assistants and senior research assistants of various funded institutions;

4. the annual investment income, financial expenditure, administrative expenses and balance of the Research Endowment Fund; and

5. the amount of research grants open to self-financing institutions for competition with a breakdown by institution and department; and the amount received by each institution.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 22)

Reply:

(1) According to the information provided by the University Grants Committee (UGC)-funded universities, the amount of funding received from the Government utilised for research purposes in the past four academic years (2014/15 to 2017/18) is listed at **Annex A**. Information in respect of the 2018/19 academic year is not yet available and we do not keep the information on the funding amounts secured by

different academic departments of the universities.

The amount of funding secured by universities through the UGC/Research Grants Council (RGC) competitive research funding schemes in the past five academic years (2014/15 to 2018/19), with breakdown by university and broad subject category, is listed at **Annex B**.

(2) The total number of research projects in UGC-funded universities monitored by the UGC and RGC, as well as the number of research projects terminated and reasons for termination in the past five academic years (2014/15 to 2018/19) are tabulated at **Annex C**.

(3) The staff establishment, minimum salary point, mode of employment and turnover rate of research assistants and senior research assistants of UGC-funded universities, with breakdown by university in the past five academic years (2014/15 to 2018/19), are set out at **Annex D**. We do not have information relating to teaching assistants of UGC-funded universities.

(4) The annual interest income, research grants, administrative expenses and balance of the Research Endowment Fund for 2014/15 to 2017/18 academic years are tabulated at **Annex E**. Information for the 2018/19 academic year is not yet available.

(5) The competitive research funding schemes for the local self-financing degree sector were launched in December 2013. The amount of funding secured through the competitive research funding schemes for the local self-financing degree sector from the 2014/15 to 2018/19 academic years, with breakdown by local self-financing degree-awarding institution and broad subject category, is listed at **Annex F**.

Annex A

Funding Received by UGC-funded Universities from the Government Utilised for Research Purposes (2014/15 to 2017/18)

2014/15

University	From UGC / RGC ($ million)	From Other Government Sources ($ million)	Total ($ million)
City University of Hong Kong	807.5	54.4	861.9
Hong Kong Baptist University	403.1	19.6	422.7
Lingnan University	118.0	5.1	123.1
The Chinese University of Hong Kong	1,313.3	234.4	1,547.7
The Education University of Hong Kong	202.3	7.6	209.9
The Hong Kong Polytechnic University	787.5	129.0	916.6
The Hong Kong University of Science and Technology	872.1	68.5	940.6
The University of Hong Kong	1,957.7	205.8	2,163.6
Total	**6,461.6**	**724.5**	**7,186.2**

2015/16

University	From UGC / RGC ($ million)	From Other Government Sources ($ million)	Total ($ million)
City University of Hong Kong	910.7	67.6	978.3
Hong Kong Baptist University	428.3	27.3	455.6
Lingnan University	118.0	2.8	120.7
The Chinese University of Hong Kong	1,471.8	257.7	1,729.6
The Education University of Hong Kong	228.1	8.1	236.2
The Hong Kong Polytechnic University	977.8	158.3	1,136.1
The Hong Kong University of Science and Technology	890.3	86.9	977.2
The University of Hong Kong	2,067.1	242.2	2,309.3
Total	**7,092.0**	**851.0**	**7,943.0**

2016/17

University	From UGC / RGC ($ million)	From Other Government Sources ($ million)	Total ($ million)
City University of Hong Kong	926.6	82.0	1,008.6
Hong Kong Baptist University	441.2	32.6	473.8
Lingnan University	123.0	4.9	127.9
The Chinese University of Hong Kong	1,477.3	259.9	1,737.3
The Education University of Hong Kong	250.3	10.5	260.8
The Hong Kong Polytechnic University	1,147.5	164.2	1,311.7
The Hong Kong University of Science and Technology	1,091.4	112.5	1,204.0
The University of Hong Kong	2,087.9	273.8	2,361.7
Total	**7,545.3**	**940.5**	**8,485.8**

2017/18

University	From UGC / RGC ($ million)	From Other Government Sources ($ million)	Total ($ million)
City University of Hong Kong	995.4	76.9	1,072.3
Hong Kong Baptist University	488.7	27.6	516.3
Lingnan University	141.1	5.2	146.3
The Chinese University of Hong Kong	1,534.6	252.1	1,786.6

The Hong Kong Polytechnic University	1,223.6	135.8	1,359.4
The Hong Kong University of Science and Technology	1,097.2	126.2	1,223.4
The University of Hong Kong	2,144.0	272.9	2,416.9
Total	**7,894.5**	**906.9**	**8,801.4**

Notes:
1. Figures are provided by UGC-funded universities.
2. Figures may not add up due to rounding.

Annex B

Funding Secured by UGC-funded Universities through UGC / RGC Competitive Research Funding Schemes (2014/15 to 2018/19)

Breakdown by University (Note 1)

University	2014/15 ($ million)	2015/16 ($ million)	2016/17 ($ million)	2017/18 ($ million)	2018/19 ($ million) (Note 2)
City University of Hong Kong	121.1	172.2	139.9	108.8	120.8
Hong Kong Baptist University	49.3	49.5	45.3	43.1	56.1
Lingnan University	3.5	7.6	4.6	7.4	5.2
The Chinese University of Hong Kong	217.3	212.6	301.3	232.0	319.2
The Education University of Hong Kong	19.2	27.3	13.7	18.6	21.5
The Hong Kong Polytechnic University	123.6	118.4	113.4	141.5	235.1
The Hong Kong University of Science and Technology	154.8	196.8	265.5	197.4	297.3
The University of Hong Kong	414.2	255.0	421.6	269.4	364.4
Total (Note 3)	**1,103.0**	**1,039.4**	**1,305.2**	**1,018.2**	**1,419.6**

Breakdown by Broad Subject Category (Note 1)

Broad Subject Category	2014/15 ($ million)	2015/16 ($ million)	2016/17 ($ million)	2017/18 ($ million)	2018/19 ($ million) (Note 2)
Biology and Medicine	408.2	327.1	518.5	312.6	443.4
Business Studies	76.8	93.2	60.4	62.4	77.3
Engineering	299.9	313.9	313.1	337.2	448.5
Humanities and Social Sciences	134.4	144.5	159.7	142.2	184.3
Physical Sciences	183.7	160.7	253.4	163.8	266.2
Total (Note 3)	**1,103.0**	**1,039.4**	**1,305.2**	**1,018.2**	**1,419.6**

Note 1 The competitive research funding secured in an academic year does not need to be fully spent within the same academic year.

Note 2 Position up to 28 February 2019.

Note 3 Figures may not add up due to rounding.

Annex C

Total Number of Research Projects in UGC-funded Universities Monitored by the UGC / RGC and Number of Terminated Projects (2014/15 to 2018/19)

Academic Year	No. of projects monitored by UGC / RGC	No. of terminated projects (% to total)	Funds involved ($ million)	Funds returned to UGC / RGC ($ million)
2014/15	6 074	19 (0.31%)	9.3	0.7
2015/16	6 321	28 (0.44%)	15.5	4.1
2016/17	6 571	30 (0.46%)	11.5	4.4
2017/18	6 867	36 (0.52%)	17.9	5.1
2018/19 (Note)	6 350	12 (0.19%)	5.7	0.6

Note Position up to 28 February 2019.

Reasons for Project Termination (2014/15 to 2018/19)

Reason	Number
Departure of the Principal Investigators from UGC-funded universities	101
Principal Investigators retired	9
Principal Investigators passed away	4
Withdrawal from research projects by Principal Investigators	3
Not meeting eligibility requirements due to Principal Investigator's prolonged leave or change of staff grade	4
Failure to submit reports by Principal Investigators	3
Principal Investigator involved in a substantiated misconduct case and disqualified	1

Annex D

Staff Establishment, Minimum Salary Point, Mode of Employment and Turnover Rate of Research Assistants and Senior Research Assistants in UGC-funded Universities (2014/15 to 2018/19)

2014/15

University	Research Assistant					Senior Research Assistant

Legend:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

Note 1 In calculating the turnover rate, universities have excluded staff leaving upon completion of contract.

Note 2 Short-term contracts refer to contracts which are of one year or less.

Note 3 CUHK and HKUST have not employed any Senior Research Assistant in the past five academic years. Hence, the turnover rate and minimum monthly pay in respect of Senior Research Assistant are not applicable to these two universities.

Annex E

Annual Interest Income, Research Grants, Administrative Expenses and Balance of the Research Endowment Fund (2014/15 to 2017/18)

	For the year ended			
	31 August 2015 ($ million)	**31 August 2016 ($ million)**	**31 August 2017 ($ million)**	**31 August 2018 ($ million)**
Interest income	1,248	1,038	772	1,063
Research grants	1,018	588	1,011	1,425
Administrative expenses	0	0	0	0
Fund balance	26,360	26,811	26,572	29,210

Note 1 The accounting period for the Research Endowment Fund runs from 1 September to 31 August of the following year.

Note 2 Information for 2018/19 is not yet available.

Note 3 The Government injected $3 billion into the REF in June 2018.

Annex F

Funding Secured by Local Self-financing Degree-awarding Institutions through the UGC / RGC Competitive Research Funding Schemes (2014/15 to 2018/19)

Breakdown by Institution (Note 1)

Institution	2014/15 ($ million)	2015/16 ($ million)	2016/17 ($ million)	2017/18 ($ million)	2018/19 ($ million)
Caritas Institute of Higher Education	11.1	13.7	5.0	0.9	2.9
Centennial College	15.8	6.8	0.8	0.7	0.7
Chu Hai College of Higher Education	18.6	0.5	8.8	1.3	2.7

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2965)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

(1) The number and percentage of part-time academic staff among the academic staff employed by the 8 universities in the past 5 years (2014/15 to 2018/19), as well as a breakdown of such number and percentage of part-time staff by duty (i.e. (i) research and teaching, (ii) research only and (iii) teaching only), with the aforesaid figures set out in table form by name of institution and rank of staff;

(2) a breakdown by employment mode (i.e. temporary contract, fixed-term contract of 3 years or less (further categorised into less than half a year, half a year, more than half a year to 1 year, more than 1 year to 2 years, and more than 2 years to 3 years), long-term employment contract and employment on tenure) of the number and percentage of academic staff employed by the 8 universities in the past 5 years (2014/15 to 2018/19), as well as a breakdown by duty (i.e. (i) research and teaching, (ii) research only and (iii) teaching only) of the number and percentage of the staff employed under each employment mode, with the aforesaid figures set out in table form by name of institution and rank of staff;

(3) a tabulated breakdown by name of institution and rank of staff of the respective numbers of academic staff of the 8 universities on (i) fixed-term contract and (ii) long-term employment contract who were promoted to tenure in the past 5 years (2014/15 to 2018/19);

(4) a tabulated breakdown by name of institution and rank of staff of the number of academic staff of the 8 universities who departed in the past 5 years (2014/15 to 2018/19);

(5) a tabulated breakdown by name of institution and rank of staff of the median and average monthly salary of academic staff of the 8 universities in the past 5 years (2014/15 to 2018/19);

(6) among the academic staff employed by the 8 universities in the past 5 years (2014/15 to 2018/19), the median and average monthly salary and fringe benefits of staff who served in their respective positions on various ranks (i.e. Chair Professor, Professor, Associate Professor, Assistant Professor, Principal Lecturer/Instructor, Senior Lecturer/Instructor, Lecturer/Instructor I and Lecturer/Instructor II) for 5 years or more, with a tabulated breakdown of figures and information by name of institution and rank of staff;

(7) among the academic staff employed by the 8 universities in the past 5 years (2014/15 to 2018/19), the number and percentage of staff provided with quarters or housing allowances by their respective institutions, with a tabulated breakdown by name of institution and rank of staff.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 54)

Reply:

Regarding the above question, the Secretary for Education, Mr Kevin Yeung, provided a written reply to a relevant question raised by the Hon IP Kin-yuen at the Legislative Council (LegCo) meeting on 23 May 2018, and the information relating to the 8 University Grants Committee-funded universities is set out at Annexes 1 to 8 to the reply. The written reply to LegCo Question 12 (Employment of academic staff by post-secondary institutions) is available at the following websites -

Chinese version - https://www.info.gov.hk/gia/general/201805/23/P2018052300447.htm
English version - https://www.info.gov.hk/gia/general/201805/23/P2018052300443.htm

The information and figures for the 2018/19 academic year are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1598)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

The overall estimate of the University Grants Committee (UGC) has increased by 3.1% to $22,893.3 million as compared with the previous year. Various reviews and initiatives to enhance teaching and learning, language proficiency, knowledge transfer and internationalisation have taken place as planned. Research activities are ongoing and developing. In this connection, please advise this Committee of:

1. the details of the plan to make an injection of $20 billion into the Research Endowment Fund to top it up to $46 billion and implement the Research Matching Grant Scheme, in particular the arrangement of cross-boundary remittance of science and technology funding;

2. the resources to be allocated for conducting the Review of the Research Grants Council, implementing the Research Assessment Exercise 2020 as agreed with the UGC-funded universities and monitoring the implementation of the tuition waiver scheme for local students enrolled in UGC-funded research postgraduate programmes; and

3. the resources to be allocated for monitoring internationalisation and education funding for non-local students.

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 48)

Reply:

1. The Chief Executive has announced in the 2018 Policy Address that an injection of $20 billion into the Research Endowment Fund (REF) will be made to strengthen the research capabilities of our universities and further promote excellence in research. The investment income to be generated from the injection can be used for (i) sustaining the level of research funding; (ii) providing funding for the Research Impact Fund (RIF) launched by the Research Grants Council (RGC) to render continued

funding support for impactful research; and (iii) providing additional funding for the RGC's collaborative research funding schemes to encourage cross-institutional/ cross-disciplinary collaborations. As it takes at least one year to generate investment income from the new injection, it is expected that the RGC funding will be substantially increased in the 2021/22 academic year at the earliest if funding approval for injection is obtained from the Legislative Council (LegCo) within this legislative session.

The share of private sector only accounts for 45% of the total expenditure in research and development (R&D) over the years. To incentivise the private sector to strengthen financial support for R&D for the purpose of diversifying the funding sources for research activities, the Chief Executive has proposed in the 2018 Policy Address to launch a Research Matching Grant Scheme. The Government will provide a total of $3 billion in three years for application by local degree-awarding institutions (including self-financing institutions), so as to boost private funding and donations for R&D in the higher education sector. R&D expenditure and donations from the private sector and philanthropists secured by individual institutions will be matched by the Government for research-related purposes. Expenditure and donations for R&D can be specifically allocated to any individual institution/project irrespective of academic discipline. Subject to the funding approval from LegCo in this legislative session, the Research Matching Grant Scheme can be launched in the 2019/20 academic year at the earliest.

Regarding the opening up of science and technology funding by the Ministry of Science and Technology for application by the higher education institutions and research institutions in Hong Kong, the approved project funding will be provided to relevant higher education institutions and research institutions directly through cross-boundary remittance arrangements. The UGC/RGC will not be involved in the process.

2. The UGC has set up a task force/working group to conduct the RGC Review in two phases. Completed in 2017, the Phase I Review covered macro issues such as the portfolio balance of the RGC's funding schemes and the structure of the RGC's assessment panels/committees. The Phase II Review, which focuses on the RGC's operational issues, is underway. The work on the RGC Review is mainly undertaken by the staff of the UGC Secretariat and the expenditure involved is subsumed under the overall expenditure of the UGC. In addition, the UGC has engaged external consultants to assist in the Review, with consultancy fees totalling around $2.3 million for both phases.

The preparation of the Research Assessment Exercise (RAE) 2020 is in progress. The UGC has set aside $19 million in the 2019-20 Estimates for implementing the relevant work plan. On monitoring the implementation of the Tuition Waiver Scheme for Local Research Postgraduate Students, the UGC-funded universities are required to submit to the UGC Secretariat, on a yearly basis, a record of local research postgraduate students whose tuition has been waived for verification.

3. Funding provided by the UGC to universities is made in the form of a block grant on the basis of the approved student places allocated to each university. At present,

UGC-funded universities can admit non-local students to their publicly-funded sub-degree, undergraduate and taught postgraduate programmes through over-enrolment outside the approved student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes by study level. No extra resources will be provided by the UGC for over-enrolment. These non-local students are required to pay tuition fees at a level that is at least sufficient to recover all additional direct costs. In other words, no additional government resources are involved in the over-enrolment of these non-local students. Since the UGC provides funding to universities in the form of a block grant, they can use their existing resources for internationalisation endeavours. The work on encouraging UGC-funded universities to pursue internationalisation is undertaken by the staff of the UGC Secretariat.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2351)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

The number of non-local students pursuing publicly-funded programmes has aroused public concern in the past few years. Please advise this Committee of the following:

a. The number of non-local students from the following countries/regions pursuing publicly-funded programmes between 2014 and 2018:

Region/year				
Mainland China				
Taiwan				
Japan and Korea				
Asian regions other than Japan, Korea and Taiwan				
Europe				
Africa				
Oceania				
South America				
North America				
Others				
Amount of subsidy involved				

b. Of the figures set out in the above table, the number of non-local students from the following countries/regions pursuing publicly-funded undergraduate programmes:

Region/year				
Mainland China				
Taiwan				
Japan and Korea				

Asian regions other than Japan, Korea and Taiwan				
Europe				
Africa				
Oceania				
South America				
North America				
Others				
Amount of subsidy involved				

c. The expenditures incurred by non-local students pursuing publicly-funded programmes in each of the past 5 years.

Asked by: Hon MO Claudia (LegCo internal reference no.: 11)

Reply:

a, b and c

Funding provided by the University Grants Committee (UGC) to its funded universities is made in the form of a block grant on the basis of the approved student places allocated to each university. At present, UGC-funded universities can admit non-local students to their publicly-funded sub-degree, undergraduate and taught postgraduate programmes through over-enrolment outside the approved student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes by study level. No extra resources will be provided by the UGC for over-enrolment. These non-local students are required to pay tuition fees at a level that is at least sufficient to recover all additional direct costs. In other words, no additional public resources are involved in over-enrolment of non-local students.

The numbers of non-local students of UGC-funded programmes by place of origin from the 2014/15 to 2018/19 academic years are set out at Annex A. The numbers of non-local students of UGC-funded undergraduate programmes by place of origin for the corresponding period are set out at Annex B.

Annex A

Numbers of Non-local Students of UGC-funded Programmes
by Place of Origin from the 2014/15 to 2018/19 Academic Years

(Headcount)

Place of Origin	**Academic Year**				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19[#]**
Mainland China	11 610	11 891	12 037	12 099	12 326
Taiwan	470	548	602	649	731

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0603)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

The University Grants Committee (UGC) plays a vital role in promoting university education, which serves as a means for many students to achieve upward mobility. In this connection, please advise this Committee of the respective numbers of students with special educational needs (SEN) and ethnic minority students in each of the following UGC-funded universities at present.

	Number of students with SEN	Number of ethnic minority students
The University of Hong Kong		
The Chinese University of Hong Kong		
The Hong Kong Polytechnic University		
Hong Kong Baptist University		
City University of Hong Kong		
The Hong Kong University of Science and Technology		
Lingnan University		
The Education University of Hong Kong		
Total		

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 32)

Reply:

The provisional number of students with special education needs (SEN) and local non-Chinese speaking (NCS) students admitted to the University Grants Committee (UGC)-funded full-time sub-degree and undergraduate programmes by university in the 2018/19 academic year is set out at **Annex**.

Annex

Number of students with SEN and local NCS students (Note 2) admitted to the UGC-funded full-time sub-degree and undergraduate programmes by university in the 2018/19 academic year

(Number of students)

Level of Study	University								
	CityU	HKBU	LU	CUHK	EdUHK	PolyU	HKUST	HKU	Total
2018/19 Academic Year **(**Provisional figures**)**									
Number of students with SEN	61	48	11	94	22	93	123	127	579
Number of local NCS students	111	11	7	36	35	32	98	58	388

Notes:

1. Figures are provided by the UGC-funded universities.
2. Refer to local students whose ethnicity and/or spoken language at home are not Chinese.
3. Abbreviations:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0805)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the educational support for non-Chinese speaking students to be admitted in post-secondary programmes, please provide:

(a) the number of ethnic minority local students admitted to University Grants Committee (UGC)-funded post-secondary programmes using the Hong Kong Diploma of Secondary Education Examination (DSE) (Chinese) qualification through the Joint University Programmes Admissions System (JUPAS) in the 2016/17, 2017/18 and 2018/19 academic years;

(b) the number of non-Chinese speaking local students admitted to UGC-funded post-secondary programmes using the DSE (Chinese) qualification through JUPAS in the 2016/17, 2017/18 and 2018/19 academic years;

(c) the number of local students admitted to UGC-funded post-secondary programmes using the DSE (Chinese) qualification through JUPAS in the 2016/17, 2017/18 and 2018/19 academic years;

(d) the respective number of ethnic minority local students admitted to UGC-funded post-secondary programmes through JUPAS using each of the alternative Chinese qualifications, namely the General Certificate of Education (GCE) (Advanced (A)-Level), GCE (Advanced Subsidiary (AS)-Level), the General Certificate of Secondary Education (GCSE) and the International General Certificate of Secondary Education (IGCSE) in the 2016/17, 2017/18 and 2018/19 academic years;

(e) the respective number of non-Chinese speaking local students admitted to UGC-funded post-secondary programmes through JUPAS using each of the alternative Chinese qualifications, namely the GCE (A-Level), GCE (AS Level), GCSE and IGCSE in the 2016/17, 2017/18 and 2018/19 academic years;

(f) the total number of students admitted to UGC-funded post-secondary programmes through JUPAS in the 2016/17, 2017/18 and 2018/19 academic years;

(g) the total number of students admitted to full-time locally-accredited self-financing post-secondary programmes in the 2016/17, 2017/18 and 2018/19 academic years;

(h) the number of ethnic minority students and non-Chinese speaking students, respectively, admitted to full-time locally-accredited self-financing post-secondary programmes in the 2016/17, 2017/18 and 2018/19 academic years;

(i) the number of ethnic minority local students and their respective grades (e.g. S3, S4, S5 or S6) when they sat for the DSE (Chinese), Applied Learning Chinese, GCE (A-Level), GCE (AS Level), GCSE and IGCSE for the first time in the 2016/17, 2017/18 and 2018/19 academic years;

(j) the number of non-Chinese speaking local students and their respective grades (e.g. S3, S4, S5 or S6) when they sat for the DSE (Chinese), Applied Learning Chinese, GCE (A-Level), GCE (AS Level), GCSE and IGCSE for the first time in the 2016/17, 2017/18 and 2018/19 academic years;

(k) the number of local students sitting for the DSE (Chinese) for the first time in the 2016/17, 2017/18 and 2018/19 academic years; and

(l) if any of the data from (i) to (k) above is not available, will additional resources be granted to assist EDB to start collecting the above data and to monitor the effect of multiple exits in Chinese language qualification for post-secondary education opportunities for ethnic minority students? If no additional resources will be granted, what are the reasons?

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 36)

Reply:

(a) to (f) In the 2016/17, 2017/18 and 2018/19 academic years, 14 288, 13 724 and 13 184 (provisional figure in the 2018/19 academic year) students were admitted to University Grants Committee (UGC)-funded post-secondary programmes through the Joint University Programmes Admissions System (JUPAS) respectively, including 151, 168 and 172 non-Chinese speaking (NCS) students, i.e. students whose spoken language at home is not Chinese.

There were 1 072 and 1 206 NCS students (i.e. students whose spoken language at home is not Chinese) attending Secondary 6 in public sector and Direct Subsidy Scheme schools offering the local curriculum and sitting for the Hong Kong Diploma of Secondary Education Examination (HKDSE) in 2017 and 2018 respectively. Among them, 106 and 103 sat for the HKDSE (Chinese Language), with 28 and 14 attaining Level 3 or above and meeting the general entrance requirement of undergraduate programmes in respect of the Chinese Language subject. Among the above 1 072 and 1 206 NCS students sitting for the HKDSE, 350 and 385 met the general entrance requirements of

undergraduate programmes (most of them using alternative Chinese Language qualifications, including the General Certificate of Secondary Education Examination (GCSE), International General Certificate of Secondary Education (IGCSE), General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level). Relevant figures for 2019 are not yet available. We do not have information about the number of ethnic minority students.

Information about the number of NCS students admitted to UGC-funded post-secondary programmes through the JUPAS with Chinese Language qualifications obtained in the HKDSE or other examinations is not available.

(g) and (h) In the 2016/17, 2017/18 and 2018/19 academic years, 36 125, 33 759 and 34 306 (provisional figure as at October 2018 in the 2018/19 academic year) students were admitted to non-UGC-funded locally-accredited full-time post-secondary programmes respectively, including 597, 705 and 764 (provisional figure as at October 2018 in the 2018/19 academic year) NCS students. We do not have information about the number of ethnic minority students.

(i) to (k) According to information provided by the Hong Kong Examinations and Assessment Authority, the respective numbers of students taking Chinese Language in the HKDSE for the first time in 2016, 2017 and 2018 are as follows:

Year	School candidates	Private candidates
2016	54 882	552
2017	50 033	616
2018	49 733	663

There were 106 and 103 NCS students (i.e. students whose spoken language at home is not Chinese) attending Secondary 6 in public sector and Direct Subsidy Scheme schools offering the local curriculum and sitting for the HKDSE (Chinese Language) in 2017 and 2018 respectively, all of them being first attempters. Relevant figures for 2019 are not yet available. We do not have information about the number of ethnic minority students.

Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) was first offered in the HKDSE in 2017. ApL(C) is designed for NCS students as an alternative qualification in Chinese Language with "Attained" as the minimum grade required, and only NCS students can take ApL(C). The numbers of candidates taking ApL(C) are as follows:

Year	Number of candidates
2017	153
2018	142
2019	148

Eligible Secondary 4 to Secondary 6 school candidates sitting for the GCSE (Chinese) have been subsidised by the Education Bureau since 2010 to the effect that the subsidised examination fee payable by these subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or HKDSE. Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations, including the IGCSE, and the GCE AS-Level and A-Level. The numbers of NCS students subsidised to sit for the aforementioned examinations from the 2016/17 to 2018/19 academic years are tabulated at the **Annex**. We do not have information about the number of ethnic minority students.

(l) Student admission is a matter of institutional autonomy and the UGC does not monitor universities in terms of the qualifications of their intakes. Hence, information about the Chinese Language qualifications of the NCS students is not available.

Annex

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0806)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the educational support for non-Chinese speaking students in receiving post-secondary education, please provide in table format:

(a) the number of students taking the DSE examinations for the first time in 2016/17, 2017/18, and 2018/19, the number of them meeting the general entrance requirements of UGC-funded undergraduate programmes and the number of them receiving a JUPAS offer;

(b) the number of students taking the DSE Chinese language examination for the first time in 2016/17, 2017/18, and 2018/19, the number of them meeting the general entrance requirements of UGC-funded undergraduate programmes and the number of them receiving a JUPAS offer;

(c) the number of ethnic minority students taking the DSE examinations for the first time in 2016/17, 2017/18, and 2018/19, the number of them taking the DSE Chinese language examinations for the first time, the number of them meeting the general entrance requirements of UGC-funded undergraduate programmes and the number of them receiving a JUPAS offer; and

(d) the number of non-Chinese speaking students taking the DSE examinations for the first time in 2016/17, 2017/18, and 2018/19, the number of them taking the DSE Chinese language examinations, the number of them meeting the general entrance requirements of UGC-funded undergraduate programmes and the number of them receiving a JUPAS offer.

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 37)

Reply:

(a) According to information provided by the Hong Kong Examinations and Assessment Authority (HKEAA), there were 57 762, 53 167 and 53 222

students taking the Hong Kong Diploma of Secondary Education (DSE) Examination for the first time in 2016, 2017 and 2018 respectively, of which 23 490, 20 936 and 21 402 met the general entrance requirements of the University Grants Committee (UGC)-funded undergraduate programmes. According to information provided by the Joint University Programmes Admissions System (JUPAS) Office, there were 21 467, 21 599 and 24 241 JUPAS applicants who took the DSE Examination for the first time in 2016, 2017 and 2018 and received a JUPAS offer.

(b) According to information provided by the HKEAA, there were 55 780, 51 078 and 50 823 students taking DSE Chinese Language examination for the first time in 2016, 2017 and 2018 respectively, of which 23 490, 20 936 and 21 402 met the general entrance requirements of UGC-funded undergraduate programmes. According to information provided by the JUPAS Office, there were 21 263, 21 355 and 23 952 JUPAS applicants who took the DSE Chinese Language Examination for the first time in 2016, 2017 and 2018 and received a JUPAS offer.

(c) & (d) In 2017 and 2018, there were 1 072 and 1 206 non-Chinese speaking (NCS) students studying form six in public schools or schools under direct subsidy scheme and taking DSE Examination (including 1 068 and 1 205 students taking DSE Examination for the first time), of which 106 and 103 took the DSE Chinese Language Examination for the first time.

Among the above-mentioned 1 072 and 1 206 NCS students who took DSE Examination, there were 350 and 385 NCS students who met the general entrance requirements of UGC-funded undergraduate programmes. Of these, 277 and 323 NCS students received a JUPAS offer. Relevant information for 2019 is not yet available and we do not have information on the breakdown on ethnic minority.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1623)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the dedicated provision of $16 billion for funding universities to enhance or refurbish campus facilities and provide additional facilities essential for R&D activities, are there any expenditure guidelines containing the expenses related to teaching and research facilities for scientific exploration?

Asked by: Hon TSE Wai-chun, Paul (LegCo internal reference no.: 52)

Reply:

Under the existing mechanism, the University Grants Committee (UGC)-funded universities can apply for capital grants from the Government through UGC on an annual basis to carry out capital works[Note 1] and campus alterations, additions, repairs and improvement works[Note 2]. The universities first need to submit their preliminary works proposals to the UGC elaborating the scope and details of the works projects. When considering the works proposals of the universities, UGC will consider various factors, such as whether the proposals will fulfill the campus master development plans and meet space shortfall of the universities; whether the proposed construction works can meet the long-term needs of the universities; and whether the proposals are in line with government policies and the roles and missions of the universities. At the same time, UGC will consult its technical advisor (i.e. the Architectural Services Department) on technical issues and costs of the proposed works projects to ensure that the projects are worth funding. The project proposals supported by the UGC and the Government will be submitted to the Legislative Council for funding approval in accordance with the established procedures.

UGC will continue to adopt the above mechanism for universities to apply for the dedicated provision of $16 billion in the Budget. The earmarked funding will be used for works projects for all disciplines and not to be confined to teaching and research facilities for scientific exploration. Nevertheless, the Government hopes that universities will, in developing or enhancing hardware, give due and priority consideration to innovation and technology needs.

Note 1 Applicable to capital works projects costing more than $30 million.

Note 2 Applicable to alterations, additions, repairs and improvements costing not more than $30 million.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3199)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

What projects will be covered and funded by the injection of $20 billion into the Research Endowment Fund of the Research Grants Council under the University Grants Committee? What are the expenditures involved? What regulatory policies and measures are in place to ensure that the funding can help promote technological research and development, while avoiding conflicts of interest?

Asked by: Hon TSE Wai-chun, Paul (LegCo internal reference no.: 54)

Reply:

The Chief Executive proposed in the 2018 Policy Address to inject $20 billion into the Research Endowment Fund to strengthen the research capabilities of our universities, and the additional investment income will be used for (1) sustaining the level of research funding; (2) providing funding for the Research Impact Fund launched by the Research Grants Council (RGC) to render continued funding support for impactful research; and (3) providing additional funding for the RGC's collaborative research funding schemes (including Collaborative Research Fund and Theme-based Research Scheme) to encourage cross-institutional/cross-disciplinary collaborations.

The RGC attaches great importance to and supports the research work of the higher education sector, providing equal support to different types of research, including technological research. When evaluating the proposals, the assessment committees/panels focus on academic quality and research impacts, and assess the proposals in accordance with the established criteria. Also, the RGC handles conflicts of interest with its established Code of Conduct and mechanism on declaration of interests. The Code of Conduct sets out the standard of behaviour that panel members/external reviewers are obliged to observe in handling the RGC's business, including that panel members/external reviewers/applicants are required to declare any conflicts of interest; they shall not use the confidential information obtained from the RGC; and panel members are not allowed to discuss applications from their respective universities. The "Guidelines on Handling Conflicts of Interest During Application Evaluation Process" provides detailed guidelines

on the actions to be taken by panel members/external reviewers participating in evaluation to handle conflicts of interest. All panel members/external reviewers are required to declare any conflicts of interest prior to participating in evaluation and they shall not take part in the evaluation of projects should there be any conflicts of interest, including not taking part in the external reviewer nomination, assessment, grading and commenting of the application concerned. When a panel is discussing the application submitted by a panel member, the member must be excused from the discussion. Besides, institutions and researchers must abide by the guidelines on disbursement, accounting and monitoring arrangements of the related competitive research funding schemes developed by the RGC; and submit financial statements to the RGC for review after project completion.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

A dedicated provision of $16 billion will be set aside for the University Grants Committee (UGC)-funded universities to enhance or refurbish campus facilities, in particular the provision of additional facilities essential for research and development (R&D) activities (such as laboratories), with a view to creating an optimal teaching and research environment for university students and R&D staff.

How will the said provision be allocated (including the application procedures and approving criteria)? When is the initiative expected to be launched at the earliest?

Asked by: Hon WONG Ting-kwong (LegCo internal reference no.: 5)

Reply:

Under the existing mechanism, the University Grants Committee (UGC)-funded universities can apply for capital grants from the Government through UGC on an annual basis to carry out capital works[Note 1] and campus alterations, additions, repairs and improvement works[Note 2]. The universities first need to submit their preliminary works proposals to the UGC elaborating the scope and details of the works projects. When considering the works proposals of the universities, UGC will consider various factors, such as whether the proposals will fulfill the campus master development plans and meet space shortfall of the universities; whether the proposed construction works can meet the long-term needs of the universities; and whether the proposals are in line with government policies and the roles and missions of the universities. At the same time, UGC will consult its technical advisor (i.e. the Architectural Services Department) on technical issues and costs of the proposed works projects to ensure that the projects are worth funding. The project proposals supported by the UGC and the Government will be submitted to the Legislative Council (LegCo) for funding approval in accordance with the established procedures.

UGC will continue to adopt the above mechanism for universities to apply for the dedicated provision of $16 billion in the Budget. We expect that the relevant new works projects

will be submitted to LegCo for funding approval in the 2019-20 legislative year at the earliest.

Note 1 Applicable to capital works project costing more than $30 million.
Note 2 Applicable to alterations, additions, repairs and improvements project costing not more than $30 million.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0899)

Head: (160) Radio Television Hong Kong

Subhead (No. & title): (-) Not Specified

Programme: (3) School Education Television Programme

Controlling Officer: Director of Broadcasting (LEUNG Ka Wing)

Director of Bureau: Secretary for Education

Question:

Radio Television Hong Kong produces school educational television (ETV) programmes and video-based resources for the Education Bureau, involving an annual provision of over $30 million. Will the Government inform this Committee of the following:

(1) In the past 3 years, what are the average numbers of hours of ETV programmes viewed by kindergarten, primary and secondary students in Hong Kong?
(2) The Director of Audit's Report No. 71 pointed out that the cost per hour of ETV programmes was as high as around $1.6 million, which was 4.79 times that of public affairs and general TV programmes. Does the Government think that the production cost of ETV programmes is still maintained at a reasonable level? If so, what are the reasons? If not, will actions be taken to control the cost?
(3) In recent years, online streaming platforms have become more and more popular. Teachers and students can easily watch different types of teaching videos and use interactive teaching software on the Internet, reflecting that ETV is outdated. Will the Government conduct a review and consider reducing the financial resources for the production of ETV programmes?

Asked by: Hon IP LAU Suk-yee, Regina (LegCo internal reference no.: 3)

Reply:

(1) & (3) Given that the way video resources are used in the education sector has changed, there has been a downward trend in watching educational television (ETV) programmes by teachers and students in the classroom. In this connection, the Education Bureau (EDB) has edited the programmes into chapters and short video clips with a length of a few minutes, which have been uploaded to the Hong Kong Education City (HKEdCity) ETV website (https://etv.hkedcity.net) for schools' flexible use. Teachers can even download these resources according to their needs. Students may also watch the ETV video clips on the Internet at home for lesson preparation or revision, thereby making the most of the lesson time to engage in in-depth problem solving or consolidation activities. This could help enhance learning and teaching effectiveness. Available information indicates that

HKEdCity ETV website records over 3 million hits per year. Moreover, the EDB launched the "ETV mobile application" in late 2012 and the number of downloads has been rising steadily, exceeding 79 000 at the end of February 2019.

In light of the changes in the mode of viewing, Radio Television Hong Kong (RTHK) and the EDB do not keep statistics on the actual numbers of hours of ETV programmes viewed on average by kindergarten, primary and secondary students in Hong Kong. The EDB accepts the recommendations of the Audit Report, and will conduct a comprehensive and in-depth evaluation of the production need and position of ETV as one of the e-learning resources, as well as the future direction for the development of ETV production. The EDB will review in collaboration with RTHK the cost-effectiveness of ETV programmes currently produced by RTHK, and will take appropriate improvement measures according to the results of the review.

(2) The production cost per hour of ETV programmes is higher than that of the public affairs and general TV programmes. The reason is that the production of the former has to accommodate the teaching needs of the EDB. The length of each ETV programme normally ranges from 10 minutes to 15 or 20 minutes. Although the length of each programme is relatively short, the basic production scale and cost are necessary as each of them is of an independent chapter. In order to make the programmes more lively and interesting, more animation, songs or music, etc. will be produced to match with the contents of the ETV programmes, and therefore relatively more resources are involved. As compared with the longer programmes, those that are shorter have a relatively higher production cost. Nonetheless, RTHK agrees with the recommendations of the Audit Report.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As mentioned in Matters Requiring Special Attention in 2019-20 under this Programme, the Education Bureau will continue to provide Mainland exchange opportunities for primary and secondary school students. On the provision of Mainland exchange opportunities for primary and secondary school students, please advise this Committee of the estimated operational expenditure and the estimated number of participants for 2019-20, and the number of participants and operational expenditure in 2018-19.

Asked by: Hon CHAN Chi-chuen (LegCo internal reference no.: 225)

Reply:

In the 2018/19 school year, about 73 800 primary and secondary school students participated in the Mainland exchange programmes and the expenditure was around $103.3 million. In the 2019/20 school year, the estimated number of places to be offered to primary and secondary school students is 108 900 and the estimated expenditure is $115 million.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5571)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee:

(1) of the number of work injury cases reported to the Education Bureau (EDB) involving staff in aided and government primary and secondary schools, the number of work injury cases involving teachers, and the number of cases in respect of which compensation was awarded, in the past 3 years;

(2) of the number of work injury cases in aided and government primary and secondary schools reported to the EDB in respect of which compensation was not awarded in the past 3 years;

(3) of the number of cases reported to the EDB involving aided and government primary and secondary school staff taking leave due to mental health issues in the past 3 years;

(4) of the number of cases reported to the EDB involving suicides and attempted suicides committed by aided and government primary and secondary school staff in the past 3 years; and

(5) whether the EDB has formulated measures to improve the mental health of all primary and secondary school teachers in the past 3 years; and if yes, the details; if no, the reasons.

Asked by: Hon CHAN Chi-chuen (LegCo internal reference no.: 401)

Reply:

(1) The number of work injury cases involving staff in **government primary and secondary schools** in the financial years from 2016-17 to 2018-19 (as at 13 March 2019) is tabulated below:

Financial Year	No. of Work Injury Cases	No. of Cases involving Teaching Staff
2016-17	56	41
2017-18	68	52
2018-19 (as at 13 March 2019)	53	34

Note: The Education Bureau (EDB) will compensate all government primary and secondary school staff who have sustained work injuries in accordance with existing laws.

Besides, the EDB has taken out the Block Insurance Policy (BIP), which includes the employees' compensation insurance, for **aided primary and secondary schools** (including special schools). All teaching and non-teaching staff in aided primary and secondary schools (including special schools), whose salaries are subvented by the EDB, are insured by the employees' compensation insurance of the BIP.

The number of work injury cases reported by **aided primary and secondary schools** under the employees' compensation insurance of the BIP, the number of cases involving teaching staff and the number of indemnified cases in the schools years from 2015/16 to 2017/18 are tabulated below:

School Year	Employees' Compensation Insurance			
	Reported Work Injury Cases		No. of Indemnified Work Injury Cases	
	Total	No. of Cases involving Teaching Staff	Total	No. of Cases involving Teaching Staff
2015/16	1 466	605	1 466	517
2016/17	1 455	576	1 455	461
2017/18	1 516	634	1 516	380

Notes:

(1) Information is provided by BIP insurers, with figures shown as at November 2018.

(2) To protect the interests of the claimants, schools are required to report all accidents, irrespective of whether they are liable, to the BIP insurer.

(2) In the past 3 years, the EDB did not receive any complaints from government and aided primary and secondary school staff for not being compensated for sustaining work injuries.

(3) The EDB does not maintain information on the number of cases involving government and aided primary and secondary school staff taking leave due to mental health issues.

(4) The nature and number of cases of suicide are only confirmed after the legal proceedings at the Coroner's Court. The EDB has not captured the information on teachers' suicide from the Court, and does not maintain information on the number of suicides and attempted suicides committed by government and aided primary and secondary school staff.

(5) The EDB has all along attached great importance to teachers' well-being. We have already provided additional resources and implemented various measures to establish a healthy and stable work environment for teachers. For example, since the 2017/18 school year, the EDB has increased the teacher-to-class ratio for public sector schools by 0.1 across-the-board, providing around 2 200 additional regular teaching posts. Besides, aided secondary schools with surplus teachers arising from the reduction of secondary one classes in the past few years were allowed to extend the retention period for the surplus teachers concerned until the overall secondary one student population rebounds steadily. Moreover, the EDB will implement the policy of "one executive officer for each school" starting from the 2019/20 school year to provide public sector schools and Direct Subsidy Scheme schools with resources for hiring a total of about 1 000 School Executive Officers. This reduces the administrative work of teachers and principals, thereby creating room for them to focus more on teaching and developing a healthier work environment for teachers. To help teachers and principals cope with stress at work or personal emotional problems, we have set up the Teachers' Helpline to provide telephone counselling and appropriate support services. The counsellors of the Teachers' Helpline will do their best to understand the situation of the callers and help them analyse and manage their problems. They will also, as and when necessary, provide professional telephone counselling, face-to-face counselling and arrange for professionals (such as clinical psychologists) to follow up cases. In addition, the Hong Kong Teachers' Centre has been organising different kinds of stress reduction programmes. The Quality Education Fund (QEF) has also included "Teacher Development and Wellness for Promoting Schools as Learning Organisations" as a priority theme, so that schools can apply for funding from the QEF to organise activities relating to teachers' health and stress management, with a view to enhancing teachers' well-being.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4307)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) How many international schools are currently leasing Government premises? For international schools operating in leased Government premises, please provide the following information in table form:

a. name of international school;
b. school address;
c. number of students;
d. area of school; and
e. rent

(2) Please give a breakdown of the supply and demand as well as the vacancy of school places of international schools in Hong Kong by district in the past 3 years.

(3) Please provide a breakdown by local student and international student of the student intakes of international schools in Hong Kong in the past 3 years.

(4) Please provide, according to the estimation of the Bureau, the supply and demand for international school places in Hong Kong by District Council district in the coming 3 school years starting from 2019/20.

(5) Please tabulate the school fee increase of the international schools in Hong Kong in the past 3 years.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 51)

Reply:

(1) According to our record, 13 international schools are currently operating in leased Government premises. Their school names, addresses and site areas of the leased premises, and the number of enrolled students at these premises in the 2018/19 school year and the type of rent payable for the premises, are set out at **Annex 1**.

(2) International school places are assessed on a territory-wide basis. A breakdown of the number of international school places (including schools under the English Schools Foundation and other private international schools), students enrolled and vacancies by the District Council districts in which the international schools are located from the 2016/17 to 2018/19 school years is set out at **Annex 2** for illustration purpose.

(3) The respective number of student intakes and the percentage of local and non-local students of international schools from the 2016/17 to 2018/19 school years are set out at **Annex 3**.

(4) As mentioned above, international school places are assessed on a territory-wide basis. We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015, and planned expansion projects of individual schools will gradually materialise in the coming few years. Based on the latest projections provided by relevant schools (where applicable), it is projected that around 2 810 additional places will be available between the 2019/20 and 2021/22 school years. It is however worth noting that future provision of additional places by individual schools, especially the new ones, will be affected by a number of factors, such as applications received each year, teacher recruitment, and maintenance and construction works involved in school development.

As for the demand side, according to the findings of the consultancy study on the provision of international school places at primary and secondary levels in Hong Kong released in February 2017, there will be an increase in demand by around 1 900 international school places between the 2019/20 and 2021/22 school years.

According to the consultant's projections, there will be no shortfall in international school places at primary and secondary levels in the coming five school years starting from the 2018/19 school year. We will continue to closely monitor the provision of international schools places, in particular for meeting the demand of non-local families that have come to Hong Kong for work or investment. We will also continue to facilitate the development of the international school sector and take appropriate actions, including launching another School Allocation Exercise for international school development subject to availability of suitable premises or sites, as and when necessary.

(5) The percentage increase of school fees charged by individual international schools in the 2016/17 to 2018/19 school years is set out at **Annex 4**.

Annex 1

Name of international schools leasing Government premises, address and site area of the leased premises, number of enrolled students at these premises in the 2018/19 school year and the type of rent payable for the premises

Name of school	Address	Site area (approximate)	No. of enrolled students	Type of rent
American School Hong Kong	6 Ma Chung Road, Tai Po, New Territories	5 770 m^2	227	Nominal

Notes:

(1) Figures include the schools under the English Schools Foundation (ESF) and other private international schools but exclude the special school operated by the ESF.

(2) Figures refer to the position as at September of the respective years.

(3) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by the schools concerned

Annex 3

Number and percentage of local and non-local students enrolled in international schools (excluding special schools) (based on the Student Enrolment Survey conducted in September of the respective school years)

2016/17 school year

Concordia International School	17.9%	3.5%	2.6%
Saint Too Sear Rogers International School	0.0%	0.0%	8.9%
International College Hong Kong (New Territories)	4.1%	2.5%	2.5%
Schools under the English Schools Foundation (ESF)(7)			
Primary school (without subvention)	-	5.8%	4.4%
Primary school (with subvention)	6.1%	6.8%	5.3%
Secondary school (with subvention)	4.6%	6.2%	4.5%

Notes:

(1) In deriving the median, the annual tuition fee chargeable for each grade by the school concerned is counted only once, irrespective of the number of students enrolled.

(2) The American School Hong Kong started to operate primary classes and secondary classes in August 2016 and 2017 respectively.

(3) A school site in Cheung Sha Wan was allocated to the Christian Alliance International School Limited in 2009 for development of a new school named Christian Alliance International School, which opened in August 2017 to operate primary and secondary classes.

(4) Operation of the Christian Alliance PC Lau Memorial International School is temporarily suspended for renovation starting from the 2017/18 school year. Its students have since been transferred to the Christian Alliance International School to continue their study.

(5) The newly-established Malvern College Hong Kong and Shrewsbury International School started operation in 2018.

(6) The Harbour School opened in 2007 to operate primary classes. It started to operate secondary classes in 2016.

(7) The Government started phasing out its recurrent subvention to ESF in the 2016/17 school year. Since then, the ESF has collected school fees at different rates from students studying in ESF schools. In other words, starting from the 2016/17 cohort of Primary 1 students admitted to ESF schools, the school fee payable is no longer subsidised by the Government.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4308)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the student enrolment of the self-financing undergraduate programmes offered by each local institution in the past 3 years, with a breakdown according to the self-financing undergraduate programmes offered by each of the 8 funded universities and their extension arms and by each of the institutions other than these 8 funded universities.

2. Please provide the respective total amount of application fees and enrolment deposits collected by self-financing post-secondary institutions (with a separate item on the non-refundable enrolment deposits paid by students who subsequently declined offers) in the past 3 academic years, with a breakdown by academic year and institution.

3. Please provide the respective number of places and actual student intake of self-financing post-secondary institutions in the past 3 academic years, with a breakdown by institution and programme type (e.g. sub-degree, top-up degree and degree programmes).

4. For the past 3 years, please provide:
   (a) the percentage increase of tuition fees for self-financing programmes offered by each institution; and
   (b) the number of students that applied for the $30,000 subsidy applicable to self-financing undergraduate programmes.

5. Please advise of the increase or decrease in the number of self-financing undergraduate programmes offered by each local institution in the past 3 academic years, with a breakdown according to the self-financing undergraduate programmes offered by each of the 8 funded universities and their extension arms and by each of the institutions other than these 8 funded universities.
   (a) Please give a list of programmes that each self-financing institution ceased to offer in the past 3 years, with reasons for not offering these programmes.

(b) Further to the question above, please advise of the number of students affected by each programme.

6. Please provide the amount of surplus generated/deficit incurred as a result of the operation of self-financing programmes offered by departments under each funded institution in each of the past 3 academic years.

7. The Government has granted start-up loans to various post-secondary institutions over the past 5 years. What is the current loan/repayment position of each institution?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 52)

Reply:

1. The number of student enrolment in full-time locally-accredited self-financing undergraduate programmes from the 2016/17 to 2018/19 academic years is set out by institution at **Annex A**.

2. Post-secondary institutions that are not covered by the Joint University Programmes Admissions System (JUPAS) generally adopt common application procedures and admission arrangements now. The Education Bureau (EDB) has not gathered information on the total amount of application fees and enrolment deposits collected for full-time locally-accredited self-financing sub-degree and undergraduate programmes by institutions from the 2016/17 to 2018/19 academic years.

3. The respective estimated intake places and actual intakes of full-time locally-accredited self-financing sub-degree, first-year-first-degree (FYFD) and top-up degree programmes from the 2016/17 to 2018/19 academic years are set out by institutions at **Annexes B1 and B2**.

4. (a) The respective average annual tuition fees of full-time locally-accredited self-financing sub-degree, FYFD and top-up degree programmes from the 2016/17 to 2018/19 academic years are set out by institutions at **Annex C**.

(b) The Government has, starting from the 2017/18 academic year, implemented the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong. A total of 20 392 and 16 661 students applied for the subsidy in the 2017/18 and 2018/19 academic years respectively.

5. Based on the information provided by self-financing post-secondary institutions for publication on EDB's Concourse for Self-financing Post-secondary Education (the Concourse), a list of full-time locally-accredited self-financing undergraduate and top-up degree programmes that were removed from the Concourse from the 2016/17 to 2018/19 academic years is shown at **Annex D**. We do not have information on institutions' reasons for removing these programmes from the Concourse and do not have statistical information related to item 5(b).

6. According to the information provided by the eight University Grants Committee-funded universities, the respective amount of surplus generated/deficit incurred as a result of the operation of self-financing programmes from the 2015/16 to 2017/18 academic years is set out at **Annex E**. Information for the 2018/19 academic year is not yet available.

7. The Government launched the Start-up Loan Scheme (SLS) in 2001 to provide interest-free loans to support non-profit-making self-financing post-secondary institutions in developing new college premises and/or reprovisioning existing premises operating in sub-optimal environment. Loans granted under SLS should be repaid by equal instalments over 10 years from the date of the final drawdown, save for cases where approval has been granted for extending the loan repayment period from 10 years to 20 years, subject to the payment of interest at the no-gain-no-loss rate after the interest-free period of the first 10 years. As at February 2019, 40 loans amounting to a total of about $7.7 billion were approved. 19 loans have been fully repaid and the total amount of outstanding loan is about $3.7 billion. Details of the approved loans and loan repayment are given at **Annex F**.

Annex A

Number of student enrolment in full-time locally-accredited self-financing undergraduate[1] programmes by institution from 2016/17 to 2018/19 academic years

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4310)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding kindergarten education, would the Education Bureau provide the following information on each of the 18 District Council districts:

1. the number of kindergartens that have joined the Free Quality Kindergarten Education Scheme (Scheme);

2. the number of kindergartens that have not joined the Scheme;

3. the existing number of kindergarten students in each grade in the territory (please give separate figures for kindergartens that have joined the Scheme and those that have not joined the Scheme);

4. the number of students in each grade receiving half-day/whole-day/long whole-day service in kindergartens that have joined the Scheme; and

5. the number of students in each grade receiving half-day/whole-day/long whole-day service in kindergartens that have not joined the Scheme?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 54)

Reply:

The respective number of kindergartens (KGs) that have and have not joined the kindergarten education scheme (Scheme) in the 2018/19 school year by District Council district is tabulated at Appendix 1.

The number of students studying in KGs that have joined the Scheme by District Council district, grade and type of session is tabulated at Appendix 2.

The number of students studying in KGs that have not joined the Scheme by District Council district, grade and type of session is tabulated at Appendix 3.

Appendix 1

Number of KGs that have and have not joined the Scheme
by District Council district

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5082)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Administration please inform this Committee of the total numbers of students in each grade of kindergartens, primary and secondary schools in the current school year?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 117)

Reply:

The numbers of students in kindergartens (including kindergarten-cum-child care centres), primary and secondary schools by grade in the 2018/19 school year are given below:

Level	Grade	Number of students
Kindergarten (including kindergarten-cum-child care centre)	K1	58 168
	K2	59 978
	K3	56 256
	K1 to K3	**174 402**
Primary	P1	66 914
	P2	64 700
	P3	61 238
	P4	60 351
	P5	60 829
	P6	58 433
	P1 to P6	**372 465**
Secondary	S1	58 140
	S2	55 603
	S3	53 637
	S4	52 793
	S5	51 728
	S6	51 206
	S7	2 391
	S1 to S7	**325 498**

Notes: (1) Figures do not include special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses.

(2) Figures refer to the position as at September of the relevant school year.

(3) Upon implementation of the New Senior Secondary Academic Structure, there are no subsidised secondary 7 places under local curriculum starting from the 2012/13 school year.

(Question Serial No. 5087)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding its work in relation to the Code on Access to Information (the Code), would the Administration advise this Committee of the following:

1) For requests for information made under the Code and met in part by the Education Bureau (EDB), please set out in table form: (i) the information requested; (ii) the reasons for meeting the requests in part; and (iii) how the requests were eventually handled.

Year

(i) Information requested for requests met in part	(ii) Reasons for meeting the requests in part	(iii) How the requests were eventually handled

2) For requests for information made under the Code and refused by the EDB, please set out in table form: (i) the information requested; (ii) the reasons for refusing the requests; and (iii) how the requests were eventually handled.

Year

(i) Information requested for refused requests	(ii) Reasons for refusing the requests	(iii) How the requests were eventually handled

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 122)

Reply:

Of the requests for information under the Code on Access to Information (the Code) received by the Education Bureau during the period from January to September 2018, 4 were met in part and 3 were refused.

Regarding the 4 applications which were met in part, the applicants requested for information about cases of students' non-attendance and drop-out, statistics on recruitment exercise of Assistant Education Officer, background information of individual Direct Subsidy Scheme (DSS) schools, and information about external school review reports, results of school place allocation and information on Discretionary Places Admission of individual schools respectively. Having considered that some of the requested information involved "Management and operation of the public service", "Research, statistics and analysis" or "Third party information", we provided the applicants with part of the requested information in accordance with paragraphs 2.9, 2.13 and 2.14 of the Code respectively.

As for the 3 applications for which the requested information was not provided, the applicants requested for information about the financial status of individual DSS schools, the membership list and relevant information of the Textbook Review Panel and the vetting criteria adopted by the Panel respectively. Having considered that the requested information involved "Management and operation of the public service", "Internal discussion and advice" or "Third party information", we refused the requests in accordance with paragraphs 2.9, 2.10 and 2.14 of the Code respectively.

Question:

Would the Government advise this Committee the number of non-Chinese speaking students and ethnic minority students studying at different grade levels in primary schools in the 2018/19 school year?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 151)

Reply:

The number of non-Chinese speaking (NCS) students and the number of NCS ethnic minority students studying at different grade levels in public sector and Direct Subsidy Scheme primary schools in the 2018/19 school year are tabulated at Annex A and Annex B respectively. The 2 sets of data are not comparable since the definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

Annex A

Number of non-Chinese speaking (NCS) students studying at different grade levels in primary schools in the 2018/19 school year

Grade	**P1**	**P2**	**P3**	**P4**	**P5**	**P6**
Number of NCS students	1 698	1 672	1 676	1 642	1 619	1 542

Notes:

1. Figures refer to the position as at September 2018.
2. Figures cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures include students in public sector and Direct Subsidy Scheme primary schools, but do not include students in special schools.

Annex B

Number of non-Chinese speaking (NCS) ethnic minority students by ethnicity studying at different grade levels in primary schools in the 2018/19 school year

	P1	**P2**	**P3**	**P4**	**P5**	**P6**
Indonesian	37	31	30	28	28	20

Question:

Would the Government advise this Committee of the numbers of non-Chinese speaking students and ethnic minority students studying in kindergartens by class level in the 2018/19 school year?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 154)

Reply:

At present, all kindergartens (KGs) in Hong Kong are privately run. The KG sector, which comprises local and non-local KGs, can flexibly respond to parents' different demands and children's diverse needs. According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students and the number of ethnic minority students studying in KGs in the 2018/19 school year are tabulated at Appendix 1 and Appendix 2 respectively. Those two sets of data are not comparable since the definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

Number of non-Chinese speaking (NCS) students studying at different grade levels in kindergartens in the 2018/19 school year

	K1	K2	K3
Number of NCS students	4 698	4 852	3 418

Notes:

1. Figures refer to the position as at September 2018.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures cover students studying in kindergarten-cum-child care centres.
4. The above data cover both local and non-local kindergartens.

Number of ethnic minority students studying at different grade levels in kindergartens in the 2018/19 school year

	K1	K2	K3
Indonesian	38	51	45
Filipino	198	206	223
Indian	451	448	381

2016-17		
2017-18		
2018-19		

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 155)

Reply:

The number of students with special educational needs (SEN) pursuing full-time locally-accredited sub-degree and undergraduate programmes from the 2016/17 to 2018/19 academic years is set out by type of disabilities below:

Specific Learning Difficulties	Sub-degree	Undergraduate
2016-17	229	62
2017-18	304	72
2018-19 (Provisional)	365	103

Autism Spectrum Disorders	Sub-degree	Undergraduate
2016-17	74	28
2017-18	88	44
2018-19 (Provisional)	111	66

Attention Deficit/ Hyperactivity Disorder	Sub-degree	Undergraduate
2016-17	81	46
2017-18	110	75
2018-19 (Provisional)	155	127

Physical Disability	Sub-degree	Undergraduate
2016-17	47	59
2017-18	47	71
2018-19 (Provisional)	42	66

Visual Impairment	Sub-degree	Undergraduate
2016-17	31	52
2017-18	28	55
2018-19 (Provisional)	23	56

Hearing Impairment	Sub-degree	Undergraduate
2016-17	59	110
2017-18	81	118
2018-19 (Provisional)	85	119

Speech and Language Impairment	Sub-degree	Undergraduate
2016-17	44	12
2017-18	39	25
2018-19 (Provisional)	35	35

Others *	Sub-degree	Undergraduate
2016-17	117	187
2017-18	171	237
2018-19 (Provisional)	225	319

* Including multiple types of disabilities. The classification of SEN types varies across institutions, and the declaration of SEN is up to the individual choice of the students concerned.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 159)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary schools by grade level and by major SEN type in the past 3 years (from the 2016/17 to 2018/19 school years) is set out at the Appendix. With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students with SEN has increased over the years.

Number of students with special educational needs (SEN) studying in public sector mainstream primary schools by grade level and by major SEN type from the 2016/17 to 2018/19 school years

2016/17	18	872	601	469	337	220
2017/18	13	878	546	415	334	246
2018/19	19	932	593	408	297	257

Mental Illness (Note 1)	P1	P2	P3	P4	P5	P6
2018/19	10	9	6	4	13	13

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

2. The numbers of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school year and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5107)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Administration please advise this Committee of the respective number of government and aided primary schools provided with Student Guidance Officers, Student Guidance Teachers and Student Guidance Service Grant in each of the past 5 school years?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 168)

Reply:

The number of public sector primary schools provided with Student Guidance Officers, Student Guidance Teachers and the Student Guidance Service Grant in the past 5 school years (i.e. 2014/15 to 2018/19) is as follows:

Number of Public Sector Primary Schools Provided with	2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year
Student Guidance Officers	13	12	10	7	6
Student Guidance Teachers	127	125	121	119	113
Student Guidance Service Grant	312	317	323	328	114

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode.

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream secondary schools by grade level and by major SEN type in the past 3 years (from the 2016/17 to 2018/19 school years) is set out at the Appendix. With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students with SEN has increased over the years.

Appendix

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5462)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (325) Direct Subsidy Scheme

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

How many activities under the title "Belt and Road Initiative" did the Bureau subsidise in the 2018/19 school year? Would the Bureau please tabulate the following information:

(1) organiser; (2) name of activity; (3) nature of activity; (4) number of participants; (5) type of participants (students/teachers); and (6) amount subsidised.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 207)

Reply:

The Education Bureau (EDB) has been encouraging schools or non-governmental organisations to conduct learning activities related to the Belt and Road (B&R) Initiative, such as study visits in and outside Hong Kong, project learning, seminars, language learning and competitions, to help primary and secondary school students learn about the national B&R Initiative and the development of countries or regions along the B&R. Schools or non-governmental organisations may, if necessary, apply for different grants from the EDB to organise exchange and learning activities in the B&R regions for teachers and students. In the 2018/19 school year, the Quality Education Fund has approved 2 applications under the title of B&R Initiative with total funding amount at around $1.3 million (provisional figures as at February 2019) for 2 primary schools to implement school-based curriculum on studying foreign plant species introduced to China from countries and regions along the B&R with a view to enhancing students' understanding of the culture, geographical conditions and climate of the countries along the B&R. The schools are still undertaking project preparation work, with details yet to be finalised.

As for the University Grants Committee (UGC)-funded sector, the UGC-funded universities may on their own determine the allocation of the block grant provided by the Government. We learn that various activities related to the B&R Initiative, including exchange tours and seminars, were organised by the UGC-funded universities in the 2018/19 academic year. The EDB does not have information in this regard.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Government's provision of subsidy for students to participate in Mainland exchange programmes, please provide the following information:

a) What is the respective number of post-secondary, secondary and primary students that received subsidy to join Mainland exchange programmes in the past 3 years? Please also advise the amount of subsidy provided, the Mainland cities visited, the dates and content of exchange programmes, and the total expenditure involved.

b) According to the Government's estimation, what is the respective number of post-secondary, secondary and primary students that will be provided with government subsidy to join Mainland exchange programmes in 2019/20? What are the details and the estimated expenditure involved?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 220)

Reply:

a) To dovetail with the school curriculum and the latest development of our country, the Education Bureau (EDB) organises Mainland exchange programmes with diversified themes and destinations for primary and secondary students, or subsidises those organised by schools every year. Examples include the "Mainland Exchange Programme for Junior Secondary and Upper Primary Students" (「同根同心」── 香港初中及高小學生內地交流計劃), the "Mainland Exchange Programme for Secondary School Students" (「同行萬里」中學生內地交流計劃), the "Junior Secondary and Upper Primary School Students Exchange Programme Subsidy Scheme: Understanding Our Motherland" (初中及高小學生交流活動資助計劃 ── 「赤子情•中國心」), the "Senior Secondary School Students Exchange Programme Subvention Scheme" (高中學生交流活動資助

計劃), the "Mainland Exchange Programme for Student Leaders" (領袖生內地交流計劃) and some thematic Mainland exchange programmes. These programmes enable participants to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. They cover different Mainland provinces and cities, including 22 provinces, 4 autonomous regions and 4 municipalities.

The numbers of post-secondary, secondary and primary school students who had received subsidies to join Mainland exchange programmes and the expenditures involved over the past 3 years (the 2016/17, 2017/18 and 2018/19 school years) are shown below:

School Year	Number of Students (rounded down to the nearest hundred)			Expenditure ($million)		
	Post-secondary Students[Δ]	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2016/17	3 400	35 300	24 500	10.4	50.3	13.9
2017/18[#]	2 700	40 200	26 800	8.4	57.6	27.8
2018/19[+]	2 200	40 200	33 600	6.7	64	39.3

[#] Actual figures revised from last year's estimates

[+] Provisional figures

[Δ] Only data relating to the Pilot Mainland Experience Scheme for Post-secondary Students is included. There are other schemes that provide subsidies for students to join Mainland exchange programmes. As the scope of these subsidy schemes also covers exchange activities outside the Mainland, statistics only relevant to exchange activities in the Mainland are not available.

b) The estimated numbers of places to be offered to post-secondary, secondary and primary school students for receiving subsidies to join Mainland exchange programmes and the estimated expenditure for the 2019/20 school year are shown below:

School Year	Number of Students (rounded down to the nearest hundred)			Estimated Expenditure ($million)		
	Post-secondary Students	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2019/20	Not applicable [Note]	63 500	45 400	Not applicable [Note]	80	35

Note: The Pilot Mainland Experience Scheme for Post-secondary Students will be run until 30 June 2019 and the relevant subsequent arrangements will be announced in due course.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5480)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2012/13 school year, the Education Bureau has, in addition to the existing Student Guidance Service Grant (SGS Grant), provided each public sector primary school with an additional grant according to its number of classes. The additional grant is equivalent to $15,000 per class per year. In this connection, would the Government advise this Committee of the following:

the total amount of SGS Grant provided in each of the past 5 school years;
the total amount of additional grant provided in each of the past 5 school years;
the total amount of unspent grants of public sector primary schools receiving SGS Grant in each of the past 5 school years.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 225)

Reply:

The total amount of Student Guidance Service Grant (SGS Grant) and the Top-up Student Guidance Service Grant (Top-up Grant) for the past 5 school years (2014/15 to 2018/19) is tabulated as follows:

	2014/15 School Year ($ million)	2015/16 School Year ($ million)	2016/17 School Year ($ million)	2017/18 School Year ($ million)	2018/19 School Year ($ million) (Estimated Expenditure)
SGS Grant	146.3	157.3	168.3	181.4	65.0
Top-up Grant	65.4	68.3	71.3	72.9	104.4
Total Amount:	211.7	225.6	239.6	254.3	169.4

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" policy according to school-based circumstances. In addition to receiving the Top-up Grant, schools adopting the new funding mode are provided with a regular Assistant Social Work Officer post or the School Social Work Service Grant and the Consultation Service Grant. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode. The estimated total expenditure on student guidance service under the old funding mode and the new funding mode is $436 million.

The total amount of unspent SGS Grant (including the Top-up Grant) of public sector primary schools for the 2014/15, 2015/16 and 2016/17 school years is $17.7 million, $14.8 million and $15.8 million respectively. Relevant information of the 2017/18 school year is not available as the audited accounts for the school year is not yet due.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5495)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

How was the "one school social worker for each school" policy implemented in the year past and what is the expenditure involved?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 240)

Reply:

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. The measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources. The objective of the measure is to further enhance the overall quality of guidance service by ensuring that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualification. Under the new funding mode, schools may, having regard to their own circumstances, create a regular Assistant Social Work Officer post to increase stability or receive an equivalent subsidy to employ a school-based registered graduate social worker or hire service of a school-based registered graduate social worker from a social work service provider. Schools are also provided with the Consultation Service Grant to procure consultation, supervision or other support services for school social workers to ensure service quality. Besides, the existing arrangements for the Top-up Grant is enhanced so that all public sector primary schools have more resources to enhance school social work and guidance services. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode, accounting for about 50% of all public sector primary schools. The estimated total expenditure on student guidance service under the old funding mode and the new funding mode is $436 million.

(Question Serial No. 5496)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

a) Please list the total expenditure and total recurrent expenditure on education, as well as their respective percentage shares in the Government's total public expenditure and total recurrent expenditure in the past 3 years.

b) Please list the estimated total expenditure and estimated total recurrent expenditure on education, as well as their respective estimated percentage shares in the Government's total public expenditure and total recurrent expenditure in 2019/20.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 241)

Reply:

The total expenditure and total recurrent expenditure on education, as well as their respective percentage shares of the Government's total public expenditure and total recurrent expenditure from 2016-17 to 2019-20 are as follows -

	Total expenditure on education		Total recurrent expenditure on education	
	Amount	% share of total public expenditure	Amount	% share of recurrent government expenditure
	$ million	%	$ million	%
2016-17	82,436	16.7	75,533	21.9
2017-18	88,465	17.4	80,233	22.2
2018-19 Revised Estimate	110,526	19.2	85,504	21.1
2019-20 Estimate	123,975	19.2	90,584	20.5

(Question Serial No. 5497)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (325) Direct Subsidy Scheme

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2016/17 academic year, the Government has been offering Belt and Road Scholarships to outstanding students from Belt and Road regions for pursuing undergraduate studies in Hong Kong. In this connection, please provide the following figures for each of the past 3 years:

a) The total amount of scholarships awarded;
b) The maximum amount of scholarship awarded to each student; and
c) The number of student beneficiaries by nationality.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 242)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. 10 additional scholarships under the TSS are offered, respectively, to students from Indonesia and Malaysia starting from the 2016/17 and 2018/19 academic years as an incentive for them to pursue undergraduate studies in Hong Kong.

Under the 2 schemes named Hong Kong Scholarship for "Belt and Road" Students (Indonesia) and Hong Kong Scholarship for "Belt and Road" Students (Malaysia), up to 10 scholarships are offered to Indonesian and Malaysian students respectively to cover their tuition fees. In the 2016/17 and 2017/18 academic years, the tuition fee subsidy provided for each awardee was subject to a ceiling of $120,000 per annum. Starting from the 2018/19 academic year, the scholarship will cover full tuition fee of the awardees (in the 2018/19 academic year, the highest tuition fee payable by non-local students enrolled in full-time publicly-funded undergraduate programmes is $161,000).

Under the 2 schemes, the amount of scholarship awarded in the financial years from 2016-17 to 2018-19, and the number of awardees for the academic years from 2016/17 to 2018/19 are as follows:

Financial Year	**Amount of Scholarship Awarded**
2016-17	$1,200,000
2017-18	$2,280,000
2018-19	$4,896,000

Academic Year	**Number of Awardees**	
	Indonesia	**Malaysia**
2016/17	10	-
2017/18	19 (including 9 students whose scholarships have been renewed)	-
2018/19	27 (including 17 students whose scholarships have been renewed)	10

Director of Bureau: Secretary for Education

Question:

The Education Bureau has regularised the scheme on the formation of sister schools between schools in Hong Kong and the Mainland from the 2018/19 school year. At present, how many schools in Hong Kong have formed sister schools with their counterparts in the Mainland? Please list the names of the schools (including those in Hong Kong and in the Mainland).

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 243)

Reply:

The Government has regularised the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland with effect from the 2018/19 school year to provide a recurrent grant and professional support for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. As at March 2019, over 600 local schools which have formed sister schools with their counterparts in the Mainland have applied for the Grant for the Sister School Scheme. Applications are open all year round. It is anticipated that there will be 700 participating primary, secondary and special schools in the 2018/19 school year. As a prevailing practice, we do not disclose the names of schools participating in the scheme and the relevant information to avoid possible labelling effect and unnecessary pressure on individual schools.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5499)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (325) Direct Subsidy Scheme

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau introduced in 2017/18 a three-year Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) on a pilot basis to broaden their horizon and enrich their experience.

1. How is the application for the Scheme in the past 3 years?

2. Further to the above question, please give details of successful applications, including (a) location of study, (b) type of study programmes, and (c) the expenditures involved.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 244)

Reply:

1. The Education Bureau (EDB) launched the "i-Journey" Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. In the 2017/18 and 2018/19 school years, a total of 228 teachers applied for the Scheme.

2. In the 2017/18 and 2018/19 school years, there were a total of 90 successful applications under the Scheme. The details of the Scheme are as follows:

2017/18 school year (First Batch of the Scheme)	
Destination	Subjects/Areas covered in the training
Helsinki & Jyväskylä, Finland	Interdisciplinary Learning & Entrepreneurship Education
Melbourne, Australia	Catering for Students with Special Educational Needs (SEN)
Exeter, the United Kingdom	STEM Education

2018/19 school year (Second Batch of the Scheme)	
Destination	Subjects/Areas covered in the training
Turku, Finland	Interdisciplinary Learning & Entrepreneurship Education
Southampton, the United Kingdom	Assessment Literacy
Singapore	STEM Education

Participating teachers will be given 7 to 9 weeks' paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research.

A budget of $28 million for 3 years has been earmarked for the Scheme. The total expenditure of the first batch of the Scheme is $7.49 million. Since the second batch of the Scheme has yet to finalise all expenditure items, the expenditure figures are unavailable at the present stage.

Subhead (No. & title): (325) Direct Subsidy Scheme

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government has launched the Mainland University Study Subsidy Scheme so that eligible students can receive grants for their studies.

1. What are the number of student beneficiaries and expenditures involved in the recent 4 years?

2. Please provide in a table the number of student beneficiaries by institution.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 245)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions. Students having passed a means test will receive either a full-rate subsidy or a half-rate subsidy ("means-tested subsidy") per academic year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions. In addition, a "non-means-tested subsidy" is introduced under MUSSS starting from the 2017/18 academic year, and eligible students will be granted a flat-rate subsidy per academic year. The amount of subsidy will also be reviewed and adjusted as appropriate. For the 2018/19 academic year, the full-rate subsidy and half-rate subsidy of the "means-tested subsidy" are $16,800 and $8,400 respectively. The "non-means-tested subsidy" offers $5,600.

Breakdowns of the number of students receiving subsidies in the 2015/16, 2016/17, 2017/18 and 2018/19 academic years, and the number of students receiving the full-rate and half-rate subsidies in the 2015/16 and 2016/17 academic years, the number of students receiving full-rate "means-tested subsidy", half-rate "means-tested subsidy" and "non-means-tested subsidy" in the 2017/18 and 2018/19 (as at 28 February 2019) academic years by institution are set out at Annexes 1 to 4 respectively.

The total expenditure for implementing the MUSSS for the 2015/16, 2016/17 and 2017/18 academic years was about $6.5 million, $29 million and $37 million respectively. The estimated total expenditure for the 2018/19 academic year is about $42 million.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5503)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) What were the details of activities and expenditures of the implementation of national education by the Education Bureau in the past 3 years?

(b) What are the details of projects and estimated expenditures of the implementation of national education by the Education Bureau for the 2019/20 school year?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 248)

Reply:

The expenditure for the Mainland exchange programmes in the past 3 schools years (2016/17 to 2018/19) and the 2019/20 school is as follows:

School year	Expenditure ($ million)[@]	
	Programmes for primary and secondary school students	Programmes for primary and secondary school teachers
2016/17	64.2	2.9
2017/18 [#]	85.4	5.5
2018/19 [*]	103.3	8.7
2019/20 [++]	115	13.2

@ Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the Education Bureau (EDB)

Actual figures revised from last year's estimates

* Provisional figures

++ Estimated figures

National education in the wider context also includes learning about various aspects of our country from an appropriate perspective through different subjects. There are references to our country's history, culture, geographic features, development, etc. in the curriculum content of History, General Studies, Chinese Language, Geography and even Music and Arts. Moreover, elements that enable a better understanding of our country are added to different life-wide learning activities, such as activities related to the Hong Kong Special Administrative Region Establishment Day or National Day. The EDB provides support for schools in various areas. The relevant expenditure is subsumed under the recurrent expenditure of the EDB and cannot be identified separately.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5504)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the improvement of teaching and learning environment of public sector schools, please provide the following information:
(1) Please provide the respective number of primary and secondary schools operating in school premises considered sub-standard by prevailing standards in each of the past 3 years;
(2) Please provide the respective number of schools which had applied for the School Improvement Programme, reprovisioning and redevelopment, and had carried out minor improvement works projects in each of the past 3 years. What were the staffing and expenditure involved in each case?
(3) How many "matchbox-style school premises" have been reprovisioned in the past year? How many "matchbox-style school premises" remain?
(4) In 2019/20, what measures will the Government adopt to help improving the campus environment of public sector schools? What is the estimated expenditure involved?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 249)

Reply:

At present, there are about 850 ordinary public sector primary and secondary schools in the territory. Their premises were built in different periods in accordance with the building standards at the time of construction and facilities in the premises vary. While the standards have been changing over the years, existing school premises in operation are required to comply with prevailing statutory requirements. As at March 2019, about 200 of them were built according to prevailing standards.

Among the schools built in different periods, some are cuboidal-shaped premises constructed between mid-1960s and 1980 in public housing estates for primary school use. These school premises are often referred to as "matchbox-style school premises". Following the reprovisioning of one public sector primary school previously operating in "matchbox-style school premises" to a vacant school premises (VSP) in September 2018, there are at present 27 public sector primary schools operating in "matchbox-style school premises". Among these 27 schools, 6 have been allocated new school premises or VSP through the School Allocation Exercises (SAE) for reprovisioning or expansion.

We understand that the community is concerned about conditions of facilities at old school premises. Over the years, the Education Bureau (EDB) has put in place various measures to enhance school facilities having regard to the needs of schools for improving the teaching and learning environment. These measures mainly include the completed School Improvement Programme (SIP), the existing reprovisioning programme, redevelopment programme, as well as the annual major repairs (MR) and emergency repairs (ER) mechanism.

The SIP implemented between 1994 and 2006 aimed at progressively improving the teaching and learning environment of schools so as to provide additional space and facilities for teaching, out-of-class activities and supporting services for both teachers and students. Phases One to Three of the SIP focused on upgrading the schools' teaching, learning and administration facilities. Phase Four and the Final Phase aimed to upgrade the schools' facilities to the prevailing standards where technically feasible. The scope of improvement works for individual schools under the SIP varied according to the schools' vision and mission, characteristics, the facilities in place and site conditions. Over 700 public sector schools built according to the planning standards when the schools were constructed have their school facilities enhanced through one of the five phases of the SIP.

For reprovisioning of existing schools to new school premises on reserved school sites or VSP which are suitable for this purpose, allocation is generally done through openfair and competitive bidding under SAE. All eligible school sponsoring bodies in the territory can apply for reprovisioning of existing schools under their sponsorship when SAE for reprovisioning purpose are launched from time to time. Applications are assessed by the School Allocation Committee (comprising both official and non-official members), with quality of education being the prime consideration. Other factors, including the operation track records of the SSBs concerned, the proposed school plans after relocation, the conditions of the existing school premises, etc. will also be considered. Schools may take into account their school-based considerations and consider if they would like to submit application for reprovisioning under the prevailing competitive-based school allocation mechanism. In the past 3 financial years, 2 planned new primary school premises and 4 VSP were allocated for reprovisioning or physical extension of existing schools. A total of 27 applications were received. The Second SAE 2019 launched by EDB in February 2019 seeks to allocate 1 planned new primary school premises and 1 VSP for reprovisioning of existing primary schools. The relevant SAE is underway.

As regards in-situ redevelopment/extension projects, interested schools would indicate their intention for redevelopment/extension to the EDB. As always, we will thoroughly consider each proposal for in-situ redevelopment/extension according to a set of eligibility criteria, including the age and physical condition of the school premises concerned, technical feasibility of in-situ redevelopment/extension, quality of education service, sustainability of the school concerned, availability of suitable premises for decanting (if applicable), and the supply and demand of school places in the district concerned. We also need to take into account the manpower available and foreseeable commitment on school building, as well as the capacity of the construction sector as anticipated on the basis of past experience. At present, we are planning for 6 in-situ redevelopment/extension projects and funding approval has been obtained for 4 of them. We may take up more projects, having regard to the progress of the school building projects in hand, the funding availability under

the Public Works Programme in recent years and the request for redevelopment from schools.

As for minor improvement works, the EDB applies for block allocations under the Capital Works Reserve Fund to implement such works so as to improve the facilities of schools in need. In the past 3 financial years, a total of 46 new minor improvement works projects were approved, involving a total estimated expenditure of about $710 million.

In addition, based on the consensus reached with the sector earlier on, the EDB is carrying out improvement works for the above primary schools operating in "matchbox-style school premises", with a focus on addressing the common problems arising from the unique architectural design of those premises. The improvement works have commenced progressively since the summer of 2017 and are scheduled for completion by the summer of 2019. Under this programme, our works consultants have also explored technically feasible means for more flexible use of existing space, such as minor internal conversion and installation of moveable partition walls to turn existing facilities into temporary special rooms. We are following up the relevant works progressively in accordance with the schools' indications and needs, with a view to improving the teaching and learning environment within the constraints of space and existing building design.

Taking into account the experience from the aforementioned "matchbox-style school premises" improvement programme and views of different stakeholders (including the Hong Kong Aided Primary School Heads Association and the Subsidized Primary School Council), we are preparing to conduct similar minor internal conversions at other school premises constructed according to past building standards to facilitate more flexible use of existing space by schools, thereby enhancing the teaching and learning environment and efficacy. We have reserved $1 billion to take forward the said improvement works programme. Schools may propose conversion works to the EDB in the upcoming two years, based on the conditions of their premises and needs. We have issued the relevant letter to all schools in late March 2019 and arranged briefing sessions in April 2019 to explain the detailed arrangements of the programme, as well as to share the experience from similar improvement works in "matchbox-style school premises" for schools' references.

Meanwhile, aided schools may apply for funding to carry out school premises maintenance and repair works under the annual MR and ER mechanism. Through the existing MR and ER mechanism, consultants and contractors appointed by the EDB continue to assist schools in handling relatively larger scale or more complicated repair works (i.e. repair works with estimated project costs over $3,000 for primary and special schools or over $8,000 for secondary schools) to enhance school facilities. If necessary, aided schools may also submit applications for non-recurrent subvention to carry out emergency repair works under the ER mechanism throughout the year. In this regard, we have reserved a non-recurrent subvention of about $1.5 billion in 2019-20, comparable to that of 2018-19, for carrying out the works concerned.

The manpower expenses on processing applications for the above improvement measures have been subsumed under the recurrent expenditure of the EDB. We do not have a separate breakdown on expenditure in this regard.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5506)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What were the details and subsidy amount of "Free Quality Kindergarten Education Scheme", "refund of rent, rates and government rent" and "training for principals and teachers" provided by the Government for pre-primary education in the past 3 years?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 251)

Reply:

Information on the kindergarten (KG) education scheme (Scheme), reimbursement of rent, rates and government rent, as well as training for principals and teachers is as follows:

(i) The Scheme has been implemented starting from the 2017/18 school year to replace the Pre-primary Education Voucher Scheme (PEVS). The policy objectives are to provide good quality and highly affordable KG education, and enhance the accessibility of students to different modes of services that suit their specific needs. The Government provides KGs joining the Scheme (Scheme-KGs) with direct subsidy according to the number of eligible students in the form of a basic half-day unit subsidy. KGs offering whole-day and long whole-day services will receive an additional subsidy of 30% and 60% respectively. School-specific grants, including premises maintenance grant, rental subsidy, grant for a cook, tide-over grant and grant for support to non-Chinese speaking (NCS) students are provided to cater for the diverse needs of individual KGs or students.

(ii) Before the implementation of the Scheme in the 2017/18 school year, rental subsidy was provided under the Non-profit-making Kindergarten Rent Reimbursement Scheme for eligible non-profit-making (NPM) KGs to meet their rental expenses. New application for rent reimbursement is no longer accepted after the implementation of the Scheme starting from the 2017/18 school year. Scheme-KGs can apply for rental

subsidy. Moreover, NPM KGs (regardless of whether they have joined PEVS or the Scheme) may also apply for full refund of rates and government rent for their school premises.

(iii) Professional training courses are provided for KG principals and teachers to facilitate their professional development. The themes include supporting NCS students in learning Chinese, catering for students at risk of developmental delay, and strengthening leadership effectiveness of management personnel, etc. Study tours to other regions or countries are also organised for understanding the latest development in early childhood education.

The expenditures on the above items incurred from 2016-17 to 2018-19 are as follows:

	2016-17	2017-18	2018-19
	($ million) (Actual)	($ million) (Actual)	($ million) (Revised Estimate)
(i) KG Scheme (Note 1)	210.8	3,903.5	6,041.2
(ii) Refund of rent, rates and government rent (Note 2)	276.0	128.8	7.4
(iii) Training for principals and teachers (Note 3)	1.7	2.7	4.6

Note 1: The expenditures in 2016-17 and 2017-18 reflect the expenditure for the first 8 months after the implementation of the KG Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018), and the one-off start-up grant provided for Scheme-KGs in 2016-17 and 2017-18. The expenditure in 2018-19 is the expenditure on the Scheme for the whole year.

Note 2: The expenditures in 2016-17 and 2017-18 reflect the expenditure on the rent reimbursed to NPM KGs under the Non-profit-making Kindergarten Rent Reimbursement Scheme, and the full-year rates and government rent reimbursed to NPM KGs before the implementation of the Scheme in the 2017/18 school year (i.e. from April 2016 to August 2017). Starting from the 2017/18 school year, expenditures on rental subsidy and reimbursement of rates and government rent to Scheme-KGs are subsumed under the overall expenditure of the Scheme. Reimbursement of rates and government rent to NPM KGs not joining the Scheme continues.

Note 3: 2017/18 is the first school year after the implementation of the KG Scheme and KGs need time to adapt to the new Scheme. Therefore, relevant training programmes are introduced in the latter part of the school year. Part of the expenditure cannot be fully reflected in 2017-18.

Director of Bureau: Secretary for Education

Question:

Has the Government conducted research or consultation on "provision of a salary scale for kindergarten teachers"? If yes, what are the related timetable and details? If no, what are the reasons?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 255)

Reply:

A proposed mandatory salary scale for kindergarten (KG) teachers is similar to the practice currently adopted by aided schools. The funding mode for aided schools is tied with several inter-connected components, such as the Education Bureau's annual approval for the number of operating classes and the staff establishment, and is subject to the control measures implemented by the Government for the prudent and balanced planning of school places under the school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating half-day and whole-day classes to meet the needs of parents. On the other hand, as compared to a mandatory salary scale on which teacher salary is determined solely by seniority, a salary range allows greater flexibility and ensures competitiveness. It enables the KG management to decide flexibly the remuneration of its staff, taking into account their qualifications, teaching experience, performance, additional duties, training received and special skills possessed. As the setting up of a salary scale for KG teachers involves various aspects as mentioned above, it should be handled prudently. In this connection, we have undertaken to use the data of the three school years from 2017/18 to 2019/20 as the basis to explore the feasibility of introducing a salary scale for KG teachers. As announced in the 2018 Policy Address, we plan to start a review in mid-2019 on the implementation of the new KG education policy, including the salary arrangements for KG teachers. We will consult stakeholders during the process.

Ms THONG Lee-peng, Elizabeth	8	7	88
Ms TSANG Git-ging, Josephine	5	3	60
Mr TSANG Sui-ming	15	15	100
Mr TSE Chang-keung	8	7	88
Ms WAN Ngai-ting	14	6	43
Mr WONG Wai-hung, Addy, MH	5	5	100
Ms YU Yee-wah, Eva	14	11	79
Representative of the Education Bureau#	4	4	100

^ This figure varies with the number of committees joined by individual members

The incumbent Principal Education Officer (Professional Development and Training) of the Education Bureau

(b) In the 2018-19 financial year, the CPC members were invited to speak at 11 school talks on professional conduct in education and participated in 3 briefing cum consultation sessions held by the CPC on revising the Code for the Education Profession of Hong Kong. The expenses involved were subsumed under the recurrent expenditure of the Education Bureau. The CPC members neither attended nor organised overseas conferences or delegations in the capacity of a representative of the CPC.

(c) Last year, a work focus of the CPC was to complete the refinement to the Case Handling Procedures (Procedures) of the CPC with a view to effectively enhancing the efficiency and objectivity in case handling. In this connection, the CPC put forward relevant recommendations to the Government in 2018, which included streamlining the Procedures from 6 stages to 2 main stages, namely "Case-filing Stage" and "Inquiry Stage"; increasing the number of Case-filing Panel members from 2 to 3; and replacing the "appeal mechanism" with a "review mechanism" at the Case-filing Stage. In addition, the CPC proposed that a mediation mechanism should be introduced in the new Procedures to resolve disputes in a constructive way. The new Procedures have been implemented starting from 1 June 2018.

(d) All along, the CPC handles complaint cases following the established Procedures. Under the Procedures, the CPC arranges an inquiry into a case filed or conducts a study on issues relating to professional conduct, and submits conclusions and recommendations to the Permanent Secretary for Education (PS(Ed)) for consideration. During the period from 1 January 2016 to 31 December 2018, the CPC advised the PS(Ed) on 4 cases of disputes or alleged professional misconduct involving educators and 1 case of study.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4563)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is stated under this Programme that during 2019-20, the Education Bureau will enhance the subsidy for kindergartens joining the kindergarten education scheme and admitting non-Chinese speaking (NCS) students by providing tiered subsidies for these kindergartens based on the number of NCS students admitted starting from the 2019/20 school year. Please set out the specific arrangements of the provision, the additional financial resources and manpower involved, and the estimated number of students and schools benefitting from the subsidies.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 51)

Reply:

At present, for kindergartens (KGs) joining the KG education scheme (Scheme), those admitting 8 or more non-Chinese speaking (NCS) students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. Starting from the 2019/20 school year, a 5-tiered subsidy will be provided for KGs joining the Scheme according to the number of NCS students admitted. KGs admitting 1 NCS student will also receive the subsidy and the subsidy for the highest tier will be a double of the current level. Details are as follows:

Tier	Number of NCS students	Subsidy amount
1	1 to 4	New cash grant of $50,000 per year
2	5 to 7	New subsidy at a rate of 0.5 KG teacher
3	8 to 15	Subsidy at a rate of 1 KG teacher (i.e. the current arrangement)
4	16 to 30	Increased subsidy at a rate of 1.5 KG teachers
5	31 or more	Increased subsidy at a rate of 2 KG teachers

The total additional expenditure involved in the provision of the aforesaid subsidy for the 2019/20 school year is around $40 million. The relevant manpower expenses have been subsumed under the overall expenditure of the Education Bureau and a breakdown is not available. It is estimated that about 400 KGs joining the Scheme will meet the eligibility criteria of the subsidy, and all NCS students admitted to KGs joining the Scheme (Scheme-KGs) can be benefitted. As reference, the number of NCS students admitted to Scheme-KGs is about 5 300 in the 2018/19 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4564)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Under the Programme, the Education Bureau will, in 2019-20, consider how to support kindergartens joining the kindergarten education scheme to promote reading in the long run in the light of the experience of implementing the Pilot Scheme on the Promotion of Reading Grant for Kindergartens in the 2018/19 school year. Please provide the detailed funding arrangements for the Pilot Scheme on the Promotion of Reading Grant for Kindergartens last year. Did the Administration monitor kindergartens' use of the funding so as to achieve the effect above? Were kindergartens provided with guidelines on effective use of the funding?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 52)

Reply:

The details of the funding arrangements for the Pilot Scheme on the Promotion of Reading Grant for Kindergartens (referred to as Pilot Scheme hereafter) and its monitoring are as follows:

Implemented in the 2018/19 school year, the Pilot Scheme lasts for 1 school year and offers a quota of 250 for application by kindergartens, kindergarten-cum-child care centres and schools with kindergarten classes (collectively referred to as KGs hereafter) joining the Kindergarten Education Scheme. The amount of grant disbursed to KGs is based on the total number of students enrolled from K1 to K3 in the 2018/19 school year. Specifically, a one-off grant of $5,000 has been disbursed to the KGs with a student enrolment of 80 or less, while a one-off grant of $10,000 has been disbursed to the KGs with a student enrolment of more than 80.

The Education Bureau (EDB) issued a circular memorandum on 28 September 2018 to set out the details of the principles and examples of use of the grant for KGs' reference. The Pilot Scheme will end at the end of August 2019. KGs participating in the Pilot Scheme need to use up the grant before the end date. They are required to keep a separate ledger account in the "School Account" to record all the incomes and expenditures chargeable to the grant, and submit the annual audited accounts to the EDB in accordance with the requirements. Any unspent balance as at 31 August 2019 will be clawed back by the EDB. The EDB will, by the end of the 2018/19 school year, collect the related information, including the views and suggestions on the use of the grant, to formulate the long-term arrangements for the promotion of reading in KGs.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4565)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As stated under the Programme, the Education Bureau will enhance funding support for kindergartens to raise the quality of kindergarten education in 2019-20.

(1) Would the Administration advise of the annual expenditure on kindergarten teachers' salaries since the implementation of the kindergarten education scheme?

(2) Would the Administration advise of the annual expenditure on improving school premises and facilities of kindergartens since the implementation of the kindergarten education scheme?

(3) Would the Administration advise of the annual expenditure on enhancing teaching and curriculum in kindergartens since the implementation of the kindergarten education scheme?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 53)

Reply:

(1) The new kindergarten (KG) education policy has been implemented starting from the 2017/18 school year, under which direct subsidies are provided for KGs joining the KG education scheme (Scheme), including the basic unit subsidy calculated based on the number of students as well as grants that cater for the needs of individual KGs and their students, such as tide-over grant, rental subsidy and premises maintenance grant, etc. The basic unit subsidy covers expenses on salaries for teaching staff and supporting staff and other operating costs. In this connection, to ensure that teachers are remunerated reasonably, the Education Bureau (EDB) provides salary ranges for respective ranks of teaching staff for KGs to remunerate their teachers within their corresponding salary ranges. KGs must allocate 60% of the basic unit subsidy as teachers' salary portion and may deploy

any portion of the remaining 40% for teaching staff salaries and related expenses, but not vice versa. Besides, KGs with a large number of long-serving teachers receiving higher salaries before joining the Scheme are eligible for tide-over grant. KGs can allocate resources according to their own needs to pay teachers' salaries, provided that they meet EDB's requirements mentioned above. As such, a breakdown of KGs' expenses on salaries for teaching staff is not available.

(2) On improving KGs' premises and facilities, the EDB has, upon review of the Recommended Schedule of Accommodation for KG (SoA) in the Operation Manual for Pre-primary Institutions, proposed that the KG indoor floor area for each student should be increased by 20%. When developing new public housing estates, the Government will in principle take into consideration the demand for KG places to reserve sites for KG premises based on the new SoA. School Sponsoring Bodies (SSBs) can also make reference to the new SoA when developing new KGs in other premises or improving existing KG facilities. The new SoA has been included in the Operation Manual for Pre-primary Institutions and relevant government departments and SSBs have been informed accordingly. The related expenses have been subsumed under the overall expenditure of EDB, and therefore a breakdown of expenditure is not available. Furthermore, to alleviate the financial burden of premises and facilities maintenance cost on KGs, we have provided the premises maintenance grant under the Scheme (Notes 1 & 2). The related expenditure is as follows:

	2017-18 Actual ($ million) (Note 3)	2018-19 Revised Estimate ($ million)	2019-20 Estimate ($ million)
Premises maintenance grant under the Scheme	13	22	23

(3) Under the Scheme, training for teachers has also been strengthened. The related expenditure is as follows:

	2017-18 Actual ($ million) (Note 3)	2018-19 Revised Estimate ($ million)	2019-20 Estimate ($ million)
Training for principals and teachers (Note 4)	2.7	4.6	6.2

In parallel, the EDB continues to organise professional development programmes for teachers to enhance their professional capabilities and facilitate the implementation of KG curriculum. The expenses incurred have been subsumed under the overall expenditure of EDB, and therefore a breakdown of expenditure is not available.

Notes:

1. KGs joining the Scheme and operating in self-owned school premises or premises owned by their SSBs with the KGs paying no rent or nominal rent are eligible for the premises maintenance grant to alleviate the financial burden arising from major repairs. For KGs operating in rented premises, as major repairs should be the responsibility of the owners rather than the KG tenants, this subsidy is considered not necessary.
2. For internal renovation that does not fall under the owners' responsibility, KGs joining the Scheme may charge the expenditure to the basic unit subsidy not within the teachers' salary portion (i.e. not more than 40% of the basic unit subsidy).
3. The expenditure in 2017-18 reflects the expenditure for the first 8 months after the implementation of the Scheme (i.e. from August 2017 to March 2018).
4. Since 2017/18 is the first school year after the introduction of Scheme, KGs need time to adapt to the new Scheme. Therefore, relevant training programmes were rolled out in the latter part of the school year. Part of the expenditure cannot be fully reflected in 2017-18.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4566)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under this Programme that during 2019-20, the Education Bureau will continue to conduct Quality Review for kindergartens joining the kindergarten education scheme to ensure quality kindergarten education. What are the criteria for the Quality Review? What did last year's Quality Review find out about kindergartens in the territory? What measures are in place to discourage over-drilling in kindergartens?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 54)

Reply:

The kindergarten (KG) education scheme (Scheme) was launched in the 2017/18 school year. All KGs participating in the Scheme are subject to the Quality Assurance Framework, which comprises School Self-evaluation (SSE) by KGs and Quality Review (QR) by the Education Bureau (EDB). Both SSE and QR are conducted on the basis of performance indicators (PIs). PIs comprise 4 domains, i.e. Management and Organisation, Learning and Teaching, School Culture and Support for Children, and Child Development. They cover various aspects of school operation and major areas in children development. Under each of the 4 macro-level domains, the refined PIs are categorised into tiers of Area, Performance Indicator, Aspect and Evidence of Performance.

In the 2017/18 school year, all KGs under review have met the standards of QR. As a standing practice, all QR reports have been uploaded onto the EDB website. In addition, we have, as before, consolidated our observations during QRs in the past year and shared them with KGs in briefing sessions. Gists of the briefing sessions have also been uploaded onto the EDB website.

The curriculum arrangements of KGs joining the Scheme must be based on the Kindergarten Education Curriculum Guide. The Guide explicitly stated that KGs should not ask K1 children to hold a pencil to write, or ask K2 and K3 children to do mechanical copying and calculation, and should not arrange homework that is excessive, frequent and too difficult, so as to avoid unnecessary pressure and drilling. These requirements are set out clearly in the PIs.

QR teams make professional judgement on overall school performance based on the PIs. If KGs are found to have arranged curriculum or homework that is not in line with the abilities and developmental needs of children (for example, by asking children to do excessive or too difficult homework, or mechanical copying), we will request them to stop such practices immediately and make improvement accordingly. We will also point out the inappropriate arrangement in the QR reports which will be uploaded onto the EDB website for public information. We will monitor the situation through school visits to check if the KGs have ceased the drilling activities or adjusted the content of the curriculum appropriately.

On the other hand, the collaboration of parents is also very important. In this connection, we strive to promote parent education in order to enhance parents' understanding of children's development and learning needs to avoid doing harm to children's learning inadvertently through activities that are beyond their abilities. We seek to enhance parents' understanding of the goals of KG education through briefing sessions and pamphlets. We have also produced a series of short films under the theme "Joyful and Balanced Development for Young Children Education" to help parents learn more about KG education so that they could better co-operate with schools' learning and teaching.

Question:

(1) Please provide a breakdown of the number of students with special educational needs (SEN) studying in mainstream primary schools by grade level and by major SEN type.

(2) Please provide a breakdown of the number of students with SEN studying in mainstream secondary schools by grade level and by major SEN type in the past 3 years.

(3) Please provide a breakdown of the number of students with SEN studying in universities by grade level and by major SEN type.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 56)

Reply:

(1)

The number of students with special educational needs (SEN) studying in public sector mainstream primary schools by grade level and by major SEN type in the 2018/19 school year is set out at Appendix 1.

(2)

The number of students with SEN studying in public sector mainstream secondary schools by grade level and by major SEN type from the 2016/17 to 2018/19 school years is set out at Appendix 2.

(3)

Based on the information provided by post-secondary institutions, the number of students with SEN pursuing full-time locally-accredited sub-degree and undergraduate programmes at the University Grants Committee (UGC)-funded universities and non-UGC-funded institutions in the 2018/19 academic year is set out at Appendix 3.

Number of students with special educational needs (SEN) studying in public sector mainstream primary schools by grade level and by major SEN type in the 2018/19 school year[Note 1]

	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit / Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Mental Illness
P1[Note 2]	6	103	567	148	13	4	59	19	10
P2	188	123	1 010	346	20	7	74	932	9
P3	2 552	142	1 042	808	18	5	58	593	6
P4	2 719	161	1 053	1 126	25	8	59	408	4
P5	2 587	108	1 060	1 283	16	9	53	297	13
P6	2 313	124	961	1 400	22	7	61	257	13

Notes:

1. Figures show the position as at September of the respective school year. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

2. The numbers of Primary 1 students with SEN shown in the above table denotes the position as at September of the respective school year and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

Number of students with special educational needs (SEN) studying in public sector mainstream secondary schools by grade level and by major SEN type from the 2016/17 to 2018/19 school years(Note)

Specific Learning Difficulties	S1	S2	S3	S4	S5	S6
2016/17	2 155	2 064	2 121	2 011	1 599	1 309

2018/19	45	48	49	58	52	61

Speech & Language Impairment	S1	S2	S3	S4	S5	S6
2016/17	135	74	58	37	22	28
2017/18	171	62	60	33	26	15
2018/19	177	52	60	33	17	24

Mental Illness	S1	S2	S3	S4	S5	S6
2018/19	22	42	53	57	61	74

Note:
Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of student to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

Number of students with special educational needs (SEN) (Note 1) pursuing full-time locally-accredited sub-degree and undergraduate programmes in the 2018/19 academic year

2018/19 Academic Year (Note 4)	Sub-degree			Undergraduate		
	UGC-funded (Note 4)	Non-UGC funded	Total	UGC-funded (Note 4)	Non-UGC funded	Total
Specific Learning Difficulties	1	364	365	42	61	103
Intellectual Disability	Not available (Note 2)	0	0	Not available (Note 2)	0	0
Autism Spectrum Disorders	1	110	111	42	24	66
Attention Deficit / Hyperactivity Disorder	0	155	155	61	66	127
Physical Disability	1	41	42	42	24	66
Visual Impairment	0	23	23	35	21	56
Hearing Impairment	0	85	85	89	30	119
Speech and Language Impairment	0	35	35	16	19	35
Mental Illness	2	132	134	62	46	108
Others (Note 3)	13	78	91	172	39	211
Total	18	1 023	1 041	561	330	891

Notes:

1. The number of students with SEN is based on the information as declared by students of individual institutions.
2. There is no separate category for "Intellectual Disability" under the data collection of the UGC. Students with such type of disability, if any, would be covered under "Others".
3. Including multiple types of disabilities. Different classifications of SEN types are adopted by institutions. Declaration of disabilities is made voluntarily by students.
4. Provisional figures.

(Question Serial No. 4569)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the 2019-20 Budget that the Education Bureau (EDB) will provide Enhanced School-based Speech Therapy Services (SBSTS) to all public sector primary and secondary schools to allow more comprehensive SBSTS by creating school-based speech therapist (SBST) posts for clusters of schools by phases in 3 years starting from the 2019/20 school year. Please provide details of the funding arrangement, and tabulate the estimated number of additional SBSTs to be engaged and the estimated numbers of students and schools to be benefitted from the measure.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 57)

Reply:

Starting from the 2019/20 school year, the Education Bureau (EDB) will implement the Enhanced School-based Speech Therapy Service (Enhanced SBSTS) by creating school-based speech therapist (SBST) posts in the public sector mainstream schools by phases in 3 years. The EDB will form clusters of schools according to the number of approved classes of schools, number of students with speech and language impairment (SLI) and their severity of SLI, previous experience of schools in employing SBSTs and the schools' preference. Most of the school clusters will be formed by 2 schools. One school in each cluster will be the base school. The permanent posts of SBST will be created in the base schools. After the full implementation of the Enhanced SBSTS, it is estimated that about 420 SBST posts will be created in the public sector mainstream schools. The estimated recurrent annual expenditure is about $320 million. In the 2018/19 school year, the total number of students with SLI and students with other types of special educational needs comorbid with SLI is 25 510 in 845 public sector mainstream primary and secondary schools. The Enhanced SBSTS covers the 3 major domains of prevention, remediation and development. The SBSTs will provide assessment and treatment for students with SLI to reduce the impacts of SLI on their communication, learning and social aspects. They

will also arrange and organise activities and programmes for enhancing language learning, incorporate language learning strategies into instructional elements and integrate into classroom learning, thus enhancing the language abilities of all students in school. Therefore, the implementation of the Enhanced SBSTS benefits not only the students with SLI, but other students in school as well.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4570)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

According to the 2019-20 Estimates, the Education Bureau will provide permanent teaching posts and Learning Support Grant (LSG) to public sector ordinary primary schools as well as restructuring the additional resources under the LSG, Intensive Remedial Teaching Programme and Integrated Education Programme. Please set out the amount of funding allocated under the aforesaid programmes and the numbers of students and schools benefited from them in the past 3 years.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 58)

Reply:

To help public sector mainstream schools cater for students with special educational needs (SEN), on top of regular subvention, the Education Bureau (EDB) has been providing schools with additional resources, professional support and teacher training. In the light of school contexts and the development of integrated education (IE), schools are provided with additional resources under different modes, including the Learning Support Grant (LSG), Intensive Remedial Teaching Programme (IRTP) and IE Programme. In the past 3 school years (2016/17 to 2018/19 school years), the number of public sector mainstream primary and secondary schools with the provision of LSG, IRTP and IE Programme and the total expenditure incurred are provided in the Appendix.

Irrespective of the funding mode adopted, schools should deploy additional manpower to render appropriate support for students in need under the Whole School Approach to IE. Schools should also pool and deploy additional resources and other school resources flexibly and holistically to provide support for students with SEN according to individual conditions and needs. Hence, all students with SEN should benefit from such additional resources. In the 2016/17 to 2018/19 school years, the number of students with SEN

studying in public sector mainstream primary and secondary schools are provided in the table below:

School year	2016/17	2017/18	2018/19
Primary school	21 860	22 980	25 010
Secondary school	21 030	22 380	24 070

Number of public sector mainstream primary and secondary schools adopting Learning Support Grant (LSG), Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme and the total provision from the 2016/17 to 2018/19 school years

Table 1

Number of schools provided with the LSG and the total provision from the 2016/17 to 2018/19 school years

		2016/17	**2017/18**	**2018/19**
Primary school	No. of schools (Note 1)	314	355 (Note 2)	381 (Note 2)
	Total provision ($ million)	262.4	280.9	308.8
Secondary school	No. of schools	382	385 (Note 2)	385 (Note 2)
	Total provision ($ million)	276.6	308.7	337.5

Notes:

1. Primary schools adopting Mixed Mode and Migration Mode are both provided with the LSG, their LSG ceilings for the above school years were $0.35 million and $0.6 million per annum respectively. Figures include schools adopting these two modes.
2. Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including schools implementing IRTP and IE Programme) with additional resources to better cater for the learning, social, emotional and behavioural needs of these students at the Indicated level. As schools implementing IRTP and IE Programme will also have students with mental illness for whom LSG has been provided, the numbers of relevant schools in the 2017/18 and 2018/19 school years are higher than that of the 2016/17 school year.

Table 2

A. Number of primary schools under the Intensive Remedial Teaching Programme (IRTP) (including Mixed Mode and Migration Mode) and the total provision from the 2016/17 to 2018/19 school years

	2016/17	**2017/18**	**2018/19**
No. of primary schools	242	241	239
Total provision ($ million)	202.3	207.2	214.5

B. Number of schools under the Integrated Education (IE) Programme and the total provision from the 2016/17 to 2018/19 school years

		2016/17	**2017/18**	**2018/19**
Primary school	No. of schools	25	25	25
	Total provision ($ million)	13.1	13.5	14.4
Secondary school	No. of schools	8	8	8
	Total provision ($ million)	5.0	5.1	5.3

Note:
Since the introduction of the New Funding Mode (NFM) in the 2003/04 school year, schools implementing IRTP and IE Programme have been encouraged to switch to NFM to receive LSG for greater flexibility in the use of resources to support students with special educational needs.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

According to the 2019-20 Estimates, the Education Bureau will extend the Enhanced School-based Educational Psychology Service (with the ratio of educational psychologist (EP) to school being 1:4) to about 60 per cent of all public sector schools and enhance the ratio of EP to school to 1:6 for the remaining 40 per cent of schools. Please advise of the current EP-to-school ratios in all public sector primary and secondary schools in Hong Kong respectively, and the specific funding arrangements. Please tabulate the estimated provision of additional manpower, and the estimated number of students and schools to be benefitted.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 59)

Reply:

All public sector mainstream primary and secondary schools (including 389 public sector secondary schools and 456 public sector primary schools) have been provided with the School-based Educational Psychology Service (SBEPS) starting from the 2016/17 school year. In that school year, the EDB progressively improved the ratio of educational psychologist (EP) to school to 1:4 for public sector primary and secondary schools with comparatively large number of students with special educational needs (SEN), i.e. Enhanced School-based Educational Psychology Service (Enhanced SBEPS). In the 2018/19 school year, the Enhanced SBEPS covers 119 primary and secondary schools. The Enhanced SBEPS will be extended to about 150 primary and secondary schools in the 2019/20 school year. In the 2018/19 school year, the number of EPs involved in the provision of the SBEPS (including Enhanced SBEPS) is 151. While the number and complexity of cases vary from school to school, in terms of number of schools, each EP serves 6 to 10 public sector mainstream primary and secondary schools, in general 7 to 8 schools. In the 2018/19 school year, the revised estimate for the provision of SBEPS to public sector mainstream schools is $173 million.

As announced by the Chief Executive in the 2018 Policy Address, the Enhanced SBEPS will be extended with the target of covering about 60% of public sector schools by the 2023/24 school year; that is, the ratio of EP to school at 1:4. The ratio will be enhanced to 1:6 for the remaining 40% of schools. Solely based on the demand for manpower to directly provide the SBEPS, about 50 more EPs will be needed to achieve the above-mentioned targets. Nonetheless, the supply of and demand for EPs are affected by many factors such as the implementation of new measures requiring educational psychology service, demand for EPs in other sectors, wastage of EPs, etc. The EDB will continue to keep in view the supply of and demand for EPs in planning for the number of EPs required for each year, with the aim of achieving the above-mentioned targets by the 2023/24 school year.

The number of students requiring direct support from EPs varies from school to school, while the level and frequency of support that individual students need also differ. In many cases, EPs need to collaborate with teachers, social workers, etc. to jointly support the students concerned according to the principle of Whole School Approach. Besides, school-based EPs enhance the effectiveness of the support rendered by schools to the students through strengthening the school support system and teachers' knowledge and skills in catering for students' diverse needs. In this regard, all students benefit from the provision of the SBEPS directly or indirectly.

Question:

Please provide the following information in the past 3 years:

(1) The activities subsidised by the Hong Kong Jockey Club Life-wide Learning Fund and the details of these activities; and

(2) A breakdown of the provision and number of student beneficiaries under the Fund by district.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 66)

Reply:

(1) & (2)

The Hong Kong Jockey Club Life-wide Learning Fund is jointly established by the Hong Kong Jockey Club Charities Trust and the Education Bureau to support students with financial needs in primary and secondary schools, including those receiving Comprehensive Social Security Assistance (CSSA) or full grant under the School Textbook Assistance Scheme, or meeting the school's established financially needy criteria, to participate in life-wide learning activities organised or recognised by schools for whole-person development. The provision and number of student beneficiaries by district under the Fund for the past 3 school years are set out at Annexes A to C.

Provision and Number of Student Beneficiaries by District under the Hong Kong Jockey Club Life-wide Learning Fund in the 2015/16 school year

District	Provision $ ('000)	Number of Student Beneficiaries*

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4579)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

According to the 2019-20 Estimates, the Education Bureau will continue to extend the Learning Support Grant (LSG) for public sector primary and secondary schools to cover students with mental illness in order to help schools cater for their learning, social, emotional and behavioural needs. Please advise of the number of students with mental illness in mainstream primary and secondary schools, the amount of LSG provided for students with mental illness, the specific arrangements for providing support, and the number of students and schools benefitted in the past 3 years.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 81)

Reply:

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention to all mainstream schools, has been providing public sector schools with additional resources, including the Learning Support Grant (LSG). Starting from the 2017/18 school year, the LSG covers students with mental illness (MI) so that schools will have additional resources to provide enhanced support to cater for their learning, social, emotional and behavioural needs.

Based on the position of September of every school year, the EDB compiles statistics on the number of students with SEN of the respective school year. No figures of students with MI were collected before the 2017/18 school year. Since public sector mainstream schools have yet to provide the EDB with information about students with MI as in September of the 2017/18 school year for the calculation of the LSG, the EDB is unable to provide the number of students with MI in that school year (i.e. as in September). Based on the computation of the number of school applications for LSG approved by the EDB at the end of the first term in the 2017/18 and 2018/19 school years, the number of primary and

secondary school students with MI as the major type of SEN is around 470 and 800 respectively. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

The provision of LSG to the public sector mainstream primary and secondary schools is calculated and disbursed to schools based on a number of criteria. We have not compiled statistics on the number of schools admitting students with different types of SEN (including students with MI) for whom LSG has been provided, or the apportioned amount of LSG for specific types of SEN in the total amount of LSG. The expenditure on the LSG for public sector mainstream schools in the 2016/17 and 2017/18 school years is about $540 million and $590 million respectively. The revised estimated expenditure for the 2018/19 school year is about $650 million. Basing on the principle of "calculation on individual basis and deployment holistically", schools should pool and deploy the LSG and other school resources flexibly and holistically to render support for students with SEN according to individual conditions and needs, such as employing additional teachers or teaching assistants, hiring professional services, implementing school-based teacher training and parent education, etc. Students with SEN, not limited to students with MI, should all benefit from the provision.

In supporting students with MI, schools may utilise the LSG to employ additional staff (e.g. teaching assistants) to assist teachers in designing learning activities and materials as well as supporting students in classroom learning activities, hire professional support or guidance services (e.g. behavioural or emotional counseling and social training at school) in order to help students adjust to campus life. Schools may also use the LSG to implement school-based teacher training and parent education, etc. It should be noted that students diagnosed with MI should receive treatment in strict accordance with the instructions given by healthcare professionals. On the part of schools, subject to the consent of the parents, teachers may use the LSG or other resources to provide professional support, with a view to helping the students concerned to cope with the learning and personal growth challenges that the illness brings to them.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4580)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau will continue with the enhanced provision of student guidance service for primary schools and has started implementing the policy of "one school social worker for each school" in public sector primary schools. The enhancement began in the 2018/19 school year, with a view to strengthening student guidance service in public sector primary schools. Does the Education Bureau maintain figures on the number of primary schools that have implemented the policy of "one school social worker for each school"? For primary schools that have not implemented this policy, do they all have guidance teachers or guidance service procured from the outside? What are the details?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 82)

Reply:

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. The measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources. The objective of the measure is to further enhance the overall quality of guidance service by ensuring that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualification. Under the new funding mode, schools may, having regard to their own circumstances, create a regular Assistant Social Work Officer post to increase stability or receive an equivalent subsidy to employ a school-based registered graduate social worker or hire service of a school-based registered graduate social worker from a social work service provider. Schools are also provided with the Consultation Service Grant to procure consultation, supervision or other support services for school social workers to ensure service quality. Besides, the existing arrangements for the Top-up Grant is enhanced so

that all public sector primary schools have more resources to enhance school social work and guidance services. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode, accounting for about 50% of all public sector primary schools.

Schools under the old funding mode may continue with the existing arrangements. They may opt for employment of Student Guidance Teachers/Officers or receive the Student Guidance Service Grant to employ student guidance personnel or procure social work or guidance services from non-governmental organisations on their own. Schools will also be provided with the Top-up Grant in accordance with the previous arrangements.

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

According to 2019-20 Budget, the Education Bureau (EDB) will continue to enhance the provision of school nurse in schools for children with intellectual disability and schools for children with physical disability, and extend the provision of school nurse to the school for children with visual impairment and the school for children with hearing impairment, and will continue to enhance the provision of school social workers for special schools. Does the EDB have the current figures on the manpower of school nurse and social worker (and the manpower-to-student ratios) in various types of special schools, the estimated number of additional school nurses to be provided under the above arrangement, and the estimated number of schools to be benefitted?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 84)

Reply:

The Education Bureau has implemented the enhancement of school social worker (SSW) and school nurse provision in special schools in the 2018/19 school year. Regarding SSWs, starting from the 2018/19 school year, special schools with a total capacity of 60 or fewer will be provided with 1 SSW, and subsequently 0.5 SSW for every 30 students. In the 2018/19 school year, there are altogether 138 SSW posts in special schools, which include 20 additional SSW posts provided under the enhancement measure. It is estimated that the provision for the 2019/20 school year will be more or less the same. On the other hand, there are altogether 104 school nurse posts in special schools in the 2018/19 school year, including 51 additional school nurse posts provided for 51 special schools under the enhancement measure. It is estimated that the provision for the 2019/20 school year will be more or less the same. The manpower ratio of school nurse for different types of special schools under the enhancement measure is tabulated below:

School type	Number of students	Number of school nurse(s)
School for children with physical disability	(a) 40 – 129 (b) 130 or more	(a) 2 (b) 3
School for children with severe intellectual disability		
School for children with mild intellectual disability	40 or more	2
School for children with moderate intellectual disability		
School for children with mild and moderate intellectual disability		
School for children with visual impairment cum intellectual disability		
School for children with visual impairment	40 or more	1
School for children with hearing impairment

Question:

According to the 2019-20 Budget, the Administration will continue to reduce progressively the class size to 12 students per class in the school for children with visual impairment and schools for social development. Does the Administration have the information on the average class size and teacher-to-student ratio of all types of special schools in the past 3 years?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 85)

Reply:

The average number of students per class and the teacher-to-student ratio in schools for children with visual impairment and schools for social development from the 2016/17 to 2018/19 school years are tabulated as follows:

School Type	**2016/17 School Year**		**2017/18 School Year**		**2018/19 School Year**	
	Average Number of Students per Class	Teacher-to-student Ratio	Average Number of Students per Class	Teacher-to-student Ratio	Average Number of Students per Class	Teacher-to-student Ratio
Visual Impairment	8.2	1:3.3	7.5	1:2.6	7.3	1:2.6
School for Social Development	6.7	1:3.5	6.7	1:3.1	7.0	1:3.2

Director of Bureau: Secretary for Education

Question:

According to the Budget 2019/20, the Administration will implement the adapted curriculum in schools for children with intellectual disability and enrich learning and teaching materials. Also, the Bureau will provide teacher training related to the planning and implementation of a 12-year curriculum in special schools, and develop resource and guidance materials for enhancing the interface between primary education and secondary education for students with intellectual disability. Please provide the details of the provisions, and the estimated numbers of student and school beneficiaries.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 86)

Reply:

Since the implementation of the New Academic Structure in the 2009/10 school year, adapted curriculum has been adopted by schools for children with intellectual disability. The Education Bureau (EDB) has also put in place a number of measures to support schools for children with intellectual disability such as providing training for teachers, developing teaching resource and guidance materials, enriching learning and teaching materials to facilitate the schools in planning and implementing adapted curriculum for the benefits of all schools for children with intellectual disability in Hong Kong. In 2019-20, the estimated expenditure is around $21 million, and it will be used in developing learning and teaching resource and guidance materials, providing related curriculum subsidies, training for teachers etc. Most of the tasks will be carried out by officers of the EDB and the relevant expenses will be subsumed under the overall expenditure of the EDB.

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What are the respective percentages of primary and secondary schools that have created a permanent post of Special Educational Needs Coordinator (SENCO)? Please advise whether the Government has any plan to create a permanent post of SENCO in kindergartens admitting more students with special educational needs.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 87)

Reply:

In the 2018/19 school year, around 65% of public sector mainstream primary and secondary schools have the provision of Special Educational Needs Coordinator (SENCO). On the support for kindergarten (KG) students, the Government has an established mechanism to early identify and support children with special needs and provide different services for children with developmental disorders through the collaborative efforts of various departments. Generally speaking, the Department of Health and Hospital Authority are responsible for arranging assessment, treatment and referral of rehabilitation services while the Social Welfare Department (SWD) provides pre-school rehabilitation services for children with disabilities from birth to the age of 6 years, and helps their families meet their special needs. The Education Bureau (EDB) provides training for KG teachers so as to enhance their capacity in catering for students with diverse learning needs.

Starting from November 2015, the SWD has implemented the Pilot Scheme on On-site Pre-school Rehabilitation Services (Pilot Scheme), under which training is provided for children with special needs through multi-disciplinary service teams comprising of occupational therapists, physiotherapists, speech therapists, clinical/educational psychologists, social workers and special child care workers under the coordination of non-governmental organisations. Apart from providing services for children with special

needs, multi-disciplinary service teams also provide support services for teachers/child care workers and parents. The Pilot Scheme has been regularised in the 2018/19 school year. On the other hand, the new KG education scheme (KG Scheme) has been implemented starting from the 2017/18 school year. The enhancement of teacher to pupil ratio from 1:15 (including the principal) to 1:11 (principal not included) under the KG Scheme allows KG teachers to have more room for various professional activities, including capitalising on the resources to collaborate with the multi-disciplinary service teams that provide on-site pre-school rehabilitation services. Moreover, the EDB has devised a teacher professional development framework to enhance KG teachers' understanding of the developmental needs of children and to empower them to identify and cater for learner diversity, including those at risk of developmental delay. In the 2018/19 school year, the EDB has provided KG teachers with structured in-service training courses at basic and advanced levels, covering content such as fundamental knowledge and skills on early identification and interventions, multi-disciplinary collaboration and strategies related to coordination of support services. The EDB has set specific training target such that each KG joining the KG Scheme will have at least 1 teacher completed the Basic Course as recognised by the EDB before the end of the 2020/21 school year.

The above measures can appropriately cater for students with special needs or at risk of developmental delay. The EDB would continue the endeavours to provide more KG teachers with relevant training with a view to supporting the teachers to cater for learner diversity, which is the top priority for the EDB and the industry. At this stage, we have no plan to create a post of coordinator in KGs in relation to supporting children with special needs.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Has the Government examined the feasibility of establishing a database on children with special educational needs (SEN) in order to capture the number of children with SEN across the territory and to provide these children with personalised support and guidance in respect of their growth paths and future vocational training?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 88)

Reply:

At present, there is an established collaborative mechanism in place among the Education Bureau (EDB), the Social Welfare Department, the Department of Health and the Hospital Authority to ensure that assessment information and progress reports of pre-school children with special needs will be transferred timely to the primary schools they will be attending, thereby enabling their schools to provide appropriate support for them upon their admission to Primary One. When students with special educational needs (SEN) change school or promote to Secondary One, the EDB requests schools to transfer relevant information (e.g. medical reports, assessment reports, succinct learning records and instructional recommendations) of the students, upon parental consent, to the new schools they will be attending as early as possible so that the schools can learn about their SEN for early planning and arrangement of appropriate support services. The EDB has developed the Special Education Management Information System (SEMIS) to collect and manage the information on students with SEN in public sector schools. The EDB has been getting hold of the situation of the demand from students with SEN for educational services and support through the information collected by SEMIS, so as to implement corresponding policies and measures to assist public sector schools in supporting these students.

To ensure that secondary school students with SEN can receive timely and appropriate support no matter they choose to pursue further studies, receive vocational training or take other courses after leaving secondary schools, the EDB advises secondary schools to discuss post-school arrangements with these students and their parents as early as possible. With the consent of both parents and students, schools should transfer the relevant student information to the student guidance section of the institutions/training organisations when students are offered places by these institutions/training organisations, so that they can plan and provide appropriate support earlier according to the students' special needs. To facilitate information transfer, the EDB has compiled a list of "Contact Details of Local Post-secondary Institutions/Educational Organisations for Transfer of Information of Secondary Students with Special Educational Needs", which has been uploaded to the EDB website for schools' and parents' reference.

The established mechanism for transfer of information on students with SEN at the aforementioned stages has been operating smoothly, and parents and students have different concerns about disclosing students' SEN information at different stages for educational and other purposes. The EDB will continue to develop SEMIS so as to better grasp the information on students with SEN and strengthen the transfer and application of information on SEN among schools.

Question:

What policies and measures are currently adopted by the Government to support the needy students receiving the Comprehensive Social Security Assistance, full grant or half grant to participate in learning activities organised by schools or co-organised by schools and eligible educational institutions during the summer vacation? Will the Government relaunch the School-based Fund (Cross-boundary Learning Activities) and enhance it as a grant for summer learning activities so that the needy students can fully utilise their summer vacation?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 89)

Reply:

Public sector schools are provided with various types of recurrent subvention and other resources annually. Schools may flexibly deploy the resources in light of school-based circumstances to support students' learning and organise different learning activities to facilitate students' whole-person development.

On recurrent subvention, aided schools are provided with the Operating Expenses Block Grant (OEBG)/Expanded Operating Expenses Block Grant (EOEBG) annually, which are used for purposes related to teaching and learning, and operation and development of the schools. Schools may, in accordance with the principles and relevant procedures on usage of the OEBG and EOEBG and taking into account school-based circumstances and diverse needs of students, flexibly deploy the funding and/or the surplus for covering expenditure incurred from operating costs or other educational purposes endorsed by the School Management Committees/Incorporated Management Committees, including catering for the educational needs of students with financial difficulties and subsidising students to participate in learning activities/competitions nominated by schools.

To support needy students, the Education Bureau (EDB) currently provides additional assistance to facilitate whole-person development of such students through the School-based After-school Learning and Support Programmes (Programme) and the Hong Kong Jockey Club Life-wide Learning Fund (HKJCLWL Fund).

The Programme has been implemented by the EDB since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of the Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS). School-based activities and community-based projects are conducted all year round. School-based activities arranged by schools are launched on a school year basis and of which some are usually conducted after the examination in June. The community-based projects launched by NGOs run from 1 August of each year to 31 July of the following year. Apart from tutorial services, the Programme covers art and cultural activities, sports activities, visits and outdoor activities, volunteer services, etc. In the 2018/19 school year, the total funding for the Programme is about $240 million, in which about $114 million is for the School-based Grant and about $126 million for the Community-based Project Grant. The activities under the two grants are targeted at about 201 700 and 100 000 eligible students respectively.

The Hong Kong Jockey Club Charities Trust and the EDB have jointly set up the HKJCLWL Fund since 2002 to subsidise financially needy primary and secondary school students (i.e. students in receipt of CSSA/full grant under SFAS, or students assessed by their schools as having financial needs) to participate in life-wide learning activities organised or recognised by schools for whole-person development. The HKJCLWL Fund is open to application on a school year basis and the subsidies received can be used on life-wide learning activities including, among others, interest classes, sports activities, appreciation of art performances and concerts, and community services conducted from September to August of the respective school year. The HKJCLWL Fund will end at the close of the 2018/19 school year, and the Government has set up the Student Activities Support Fund with an injection of $2.5 billion to generate investment return for disbursing to public sector and Direct Subsidy Scheme schools the Student Activities Support Grant to continue to support primary and secondary school students with financial needs to participate in out-of-classroom learning activities organised or recognised by schools to enable students to learn through authentic experiences.

Launched in July 2011, the School-based Fund (Cross-boundary Learning Activities) was a three-year assistance programme under the Community Care Fund. At its meeting in March 2014, the Commission on Poverty considered the review report on the effectiveness of the assistance programme and decided that the assistance programme would end in June 2014. Yet, schools may, through other programmes and schemes such as the Quality Education Fund, Mainland exchange programmes for students, and the Life-wide Learning Grant that will soon be made available, arrange various kinds of learning activities for students throughout the year (including the summer vacation). These activities benefit students from needy families as well.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Currently, primary students from low-income families are provided with subsidy for free lunch at schools. What was the number of primary students who applied for free lunch at schools in the past 3 years? Will the Administration consider extending the subsidy coverage to secondary students so that those students who are at the development phase are provided with balanced and sufficient meals?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 90)

Reply:

The Education Bureau (EDB) has, starting from the 2014/15 school year, incorporated the pilot scheme of provision of free lunch at schools for needy primary students under the Community Care Fund into the regular assistance programme. Students in receipt of full grant under the Student Financial Assistance Schemes studying in whole-day public sector primary schools (including special schools) or whole-day primary schools under the Direct Subsidy Scheme are eligible for free lunch at schools. From the 2015/16 to 2017/18 school years, the number of participating students is 64 114, 65 639 and 65 337 respectively. Each school year, EDB directly disburses the subsidy to participating schools, and the schools arrange lunch payment on behalf of their students. EDB does not have information on the number of primary students applying for free lunch at schools.

When the provision of free lunch at schools was incorporated into the regular assistance programme, stakeholders generally agreed that for better utilization of public resources, the service should be targeted at primary students. At present, we have no plan to revise the eligibility including extending the programme to secondary students.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4589)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under this Programme that the Education Bureau (EDB) will "continue to develop a variety of learning and teaching resources for promoting Basic Law education in schools".

(1) Please provide the details of and the expenditures involved in the initiatives for strengthening Basic Law education in primary and secondary schools that the EDB launched in the past 5 years (2013/14 to 2017/18 school years), as well as those to be launched in the coming year.

(2) Has the EDB assessed the effectiveness of Basic Law education for students? If yes, what are the details?

(3) Since the National Anthem Law of the People's Republic of China has been added to the list of national laws in Annex III of the Basic Law, the HKSAR Government has commenced work on the local legislation to implement the National Anthem Law. A provision under the new law proposes that primary and secondary schools should teach the national anthem. What measures will the EDB adopt to promote national anthem education? What will be the expenditure involved?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 91)

Reply:

(1)
To strengthen the implementation of Basic Law education (BLE), the Education Bureau (EDB) has continuously adopted a wide array of measures, which include developing learning and teaching (L&T) resources, delivering teacher training for school sponsoring bodies, school leaders and teachers, and organising life-wide learning activities for students.

Such support measures enable schools and teachers to acquire a deeper understanding of the concepts of the Basic Law and its close relevance to daily life, so that schools can enhance L&T efficacy by more effectively making plans for and taking forward BLE.

With respect to the development of L&T resources, the EDB has, in the 2013-14 to 2018-19 financial years, provided secondary schools with various sets of L&T resources, including the "e-Book of Understanding the Law, Access to Justice – Basic Law Learning Package (Junior Secondary)" and its associated e-platform, "Basic Law Audio-visual Learning and Teaching Package" for secondary schools, "Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study", online L&T resources for the "Constitution and the Basic Law" module, "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers", "Basic Law Online Course for Secondary School Students' Self-directed Learning"; and two assessment banks, namely "Basic Law On-line Assessment (Junior Secondary)" (for students) and "Web on Assessment for BLE (Junior Secondary)" (for teachers). All the resources mentioned above remain relevant.

At primary level, the EDB has, in the 2013-14 to 2018-19 financial years, provided primary schools with the resource package on "Effective Use of 'Let's Learn the Basic Law' Learning Package", L&T Resource CDs for Primary General Studies on "History and Culture Series" and the "Basic Law Audio-visual L&T Package (Senior Primary)" to enhance teachers' and students' understanding of the Basic Law. The EDB will continue to develop various L&T resources to enhance BLE in schools. The EDB has planned to develop the L&T Resource CDs on "Engineering in China" under the "History and Culture Series" in the coming year.

The expenditures on the production of BLE-related L&T resources, which include resource packages and assessment banks, are subsumed under the recurrent expenditure of the EDB and do not include staff cost for the EDB personnel involved in the production. Since the development of L&T resources is an integral part of the day-to-day curriculum development work, it is not practical to give separate figures on the staff-related expenditure incurred by individual curriculum development task. The expenditure on developing L&T resources for BLE from 2013-14 to 2019-20 is as follows:

2013-14[@]	2014-15[@]	2015-16[@]	2016-17[@]	2017-18[@#]	2018-19[@*]	2019-20[@++]
0.65 million	2.07 million	3.65 million	1.71 million	1.51million	0.18 million	0.58 million

[@] Manpower resources in the provision are subsumed under the recurrent expenditure of the EDB
\# Actual figures revised from last year's estimates
* Provisional figures
++ Estimated figures

(2)
To help teachers assess students' understanding of the Basic Law, the EDB provides primary and secondary teachers with assessment banks for internal assessment, namely "Basic Law On-line Assessment (Junior Secondary)" (for students), "Web on Assessment for BLE (Junior Secondary)" (for teachers) and "Web on Assessment for BLE (Senior Primary)". The three assessment banks have been developed for years and will continue to

be made available for schools' use. The EDB staff will regularly review and update the content of these assessment banks, having regard to the latest developments in the implementation of the Basic Law. On an on-going basis, the EDB collects feedback and evaluates the effectiveness of its work through various channels to further enrich and refine the L&T materials related to BLE.

(3)
The learning contents of the national anthem have already been incorporated into the local subject curricula (such as General Studies at the primary level and Music at the primary and secondary levels) and in Moral, Civic and National Education. The EDB has all along been providing support measures (e.g. arranging learning activities for students, providing professional development programmes for school heads and teachers, and developing learning and teaching resources etc.) to meet the needs of curriculum development of different subjects/themes. The relevant expenditure is subsumed under the recurrent expenditure of the EDB. To support the implementation of the National Anthem Bill, the EDB will supplement and update L&T resources in a timely manner to assist the L&T of the National Anthem in primary and secondary schools. As curriculum development is an integral part of day-to-day work of the EDB, the reservation of additional expenditure is not required.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6746)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (700) General non-recurrent

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What are the estimated expenditures and work plans for the new items "Pilot incentive to employers participating in the workplace assessment under the Training and Support Scheme", "School-based professional support services to schools on Chinese learning and teaching for non-Chinese speaking students" and "Provision of a non-recurrent grant to secondary schools to support non-Chinese speaking students to learn Chinese history and culture"? Why is the funding for these new items sought in the context of the Appropriation Bill 2019 instead of being sought separately from the Finance Committee of the Legislative Council?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7049)

Reply:

To evaluate trainees' abilities and performance in the workplace more effectively, the Vocational Training Council (VTC) will introduce a three-year pilot incentive to employers participating in workplace assessment under the Training and Support Scheme (Scheme) as the Scheme is regularised. The incentive seeks to encourage employers who have joined the Scheme to participate in workplace assessment for trainees to facilitate training content adjustment more effectively for improving trainees' work performance. A non-recurrent funding of $108 million for three years will be provided to the VTC to facilitate employers' participation in the assessment.

The estimated expenditure on the item "School-based professional support services to schools on Chinese learning and teaching for non-Chinese speaking (NCS) students" is $45 million. The Education Bureau (EDB) will continue commissioning post-secondary institutions to provide school-based support services for kindergartens, primary and secondary schools admitting NCS students in the school years from 2019/20 to 2021/22, so as to enhance teachers' professional competency in teaching Chinese to NCS students.

About 200 kindergartens, primary and secondary schools would be benefitted in the three school years.

The total estimated expenditure on the non-recurrent grant for supporting NCS students to learn Chinese history and culture for the 2018/19 and 2019/20 school years is $30 million. The grant has not been disbursed yet. Upon passage of the Appropriation Bill 2019, the EDB will provide a grant of $50,000 per school year to the public sector and DSS secondary schools admitting junior secondary NCS students in the 2018/19 and 2019/20 school years. Guidelines on the use of the grant will be issued to schools in the form of EDB circular memorandum.

It is not a new arrangement to include commitment items, including creation of commitments for the said grants, under the General Revenue Account into Estimates for scrutiny and approval by the Legislative Council (LegCo) in the context of the Appropriation Bill. The Government did brief the Finance Committee of the LegCo on this arrangement in early 2015. Prior to the inclusion of the items into the Estimates, we have briefed the LegCo Panel on Education on the proposals in November 2018. Moreover, we have included the necessary provision for the proposals under the respective subhead of expenditure and provided appropriate details in the Controlling Officer's Report for Members' scrutiny.

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures in respect of site inspections and prosecutions conducted by the School Registration and Compliance Section of the Education Bureau according to the Education Ordinance in the past 5 years:

1. The annual number of site inspections by their nature (proactive inspections and inspections based upon complaint); and

2. The annual numbers of warnings issued and prosecutions by the type and nature of the cases.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7519)

Reply:

Once sufficient information has been gathered regarding suspected cases of operating unregistered schools/registered or provisionally registered schools not operating in their registered premises, the School Registration and Compliance Section of the Education Bureau (EDB) will follow up the cases in accordance with the Education Ordinance (EO) and established procedures, which include conducting surprise inspection visits to the premises concerned, issuing warning letters to the offenders, and prosecuting the persons concerned. Relevant figures for the past 5 years are set out below:

	Number of inspections (Note 1)	Number of cases with warning issued	Type and nature of cases with warning issued	Number of prosecutions (Note 2)	Type and nature of prosecutions
2014	691	42	Operating unregistered schools/registered or provisionally registered schools not operating in their registered premises in contravention of sections 87(1)(a), 87(1)(aa), 87(1)(b) and 87(3)(f) of the EO (Note 3)	10	Operating unregistered schools in contravention of sections 87(1)(a), 87(1)(aa) and 87(3)(f) of the EO (Note 3)
2015	586	53		5	
2016	451	58		13	
2017	573	57		9	
2018	493	45		9 (Note 4)	

Note 1: The EDB does not have a breakdown of the number of inspections by the categories specified in the question.

Note 2: Calculated based on the date of obtaining evidence.

Note 3: In accordance with sections 87(1)(a), (aa) and (b) of the EO, any person who is an owner or a teacher in a school which is not registered or provisionally registered; or any person who manages or takes any part in the management of a school which is not registered or provisionally registered; or any person who is an owner or a manager of a school without an incorporated management committee which is operated in contravention of section 19(1) shall be guilty of an offence and shall be liable on conviction to a fine of $250,000 and to imprisonment for 2 years.

Section 87(3)(f) also provides that any person who employs or permits any person to teach in a school in contravention of section 42(1) or (2) shall be guilty of an offence and shall be liable on conviction to a fine at level 5 ($50,000) and to imprisonment for 2 years.

Note 4: Advice is being sought from the Department of Justice on 3 other cases.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6916)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the following information, by level of education (secondary, primary and kindergarten), for the past 5 years:

i) the total expenditure on the subsidy for free lunch at schools;

ii) the number of students in receipt of the Comprehensive Social Security Assistance (CSSA);

iii) the number of students who are from families in receipt of the CSSA and receiving the subsidy for free lunch at schools, and their percentage share in the total number of students; and

iv) the number of students who are from families in receipt of the CSSA and receiving the subsidy for free lunch at schools and the amount of expenditure involved, as well as the average and median amount of actual school meal expenses.

2. Please provide the following information, by level of education (secondary and primary), for the past 5 years:

i) the number of primary and secondary students in receipt of full grant and half grant under the School Textbook Assistance Scheme as well as the CSSA, and their respective percentage share in the total number of students; and

ii) among the primary and secondary students in receipt of full grant and half grant under the School Textbook Assistance Scheme as well as the CSSA, the number and percentage share of those participating in the School-based After-School Learning and Support Programmes, Child Development Fund, After-school Care Scheme and Hong Kong Jockey Club Life-wide Learning Fund (in tabular form).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7520)

Reply:

1.

i) The Education Bureau (EDB) has, starting from the 2014/15 school year, incorporated the pilot scheme of provision of free lunch at schools for needy primary school students under the Community Care Fund (CCF) into the regular assistance programme. Students in receipt of full grant assistance under the Student Financial Assistance Schemes (SFAS) studying in whole-day public sector primary schools (including special schools) or whole-day primary schools under the Direct Subsidy Scheme (DSS) are eligible for free lunch at schools.

The expenditure in the past 5 school years (i.e. from the 2013/14 to 2017/18 school years) is set out below:

School year	Expenditure ($ million)
2013/14	157
2014/15	163
2015/16	170
2016/17	174
2017/18	175

ii) From the 2013/14 to 2017/18 school years, the number of students in receipt of the Comprehensive Social Security Assistance (CSSA) by school level is tabulated below:

School year	School level	CSSA (as at end-December of the respective year)
2013/14	Kindergarten	9 714
	Primary	30 464
	Secondary	38 952
2014/15	Kindergarten	9 422
	Primary	29 011
	Secondary	35 173
2015/16	Kindergarten	9 260
	Primary	27 461
	Secondary	32 117
2016/17	Kindergarten	8 769
	Primary	25 804
	Secondary	29 355
2017/18	Kindergarten	8 447
	Primary	24 909
	Secondary	29 802

iii) & iv)

For students in receipt of CSSA and receiving full-day education, their meal expenses have already been covered by the CSSA subsidy. The scheme of provision of free lunch at schools therefore does not include these students, and the information on their school meal expenses is not available.

2.

i) The number of primary and secondary students receiving full grant and half grant under SFAS, CSSA, and their respective percentage share (where applicable) in the total number of primary and secondary students from the 2013/14 to 2017/18 school years are tabulated below:

School year	School level	Full grant			Half grant			CSSA (as at end-December of the respective year)		
		No. of students	Subtotal	%	No. of students	Subtotal	%	No. of students	Subtotal	%
2013/14	Primary	64 881	138 052	20.6%	38 681	98 918	14.8%	30 464	69 416	NA#
	Secondary	73 171			60 237			38 952		
2014/15	Primary	66 494	134 060	20.5%	38 030	91 943	14.0%	29 011	64 184	NA#
	Secondary	67 566			53 913			35 173		
2015/16	Primary	67 371	129 962	20.1%	37 211	85 142	13.2%	27 461	59 578	NA#
	Secondary	62 591			47 931			32 117		
2016/17	Primary	68 700	128 062	20.1%	36 711	80 254	12.6%	25 804	55 159	NA#
	Secondary	59 362			43 543			29 355		
2017/18	Primary	68 333	125 238	19.5%	37 614	78 283	12.2%	24 909	54 711	NA#
	Secondary	56 905			40 669			29 802		

\# As the CSSA data is as at end-December each year while the student population is based on each school year, the corresponding percentage share cannot be worked out.

ii) The number and percentage share (where applicable) of primary and secondary students receiving full grant, half grant and CSSA who are covered by the School-based After-School Learning and Support Programmes, CCF After-school Care Pilot Scheme and Hong Kong Jockey Club Life-wide Learning Fund from the 2013/14 to 2017/18 school years are listed in the following tables. As for the Child Development Fund, the Government does not have relevant data.

School-based After-School Learning and Support Programmes*

	School year	Full grant	Percentage share among all full grant students	CSSA	Percentage share among all CSSA students
Primary	2013/14	64 470	99.4%	31 820	NA#
	2014/15	63 190	95.0%	29 640	NA#
	2015/16	64 220	95.3%	27 660	NA#
	2016/17	67 400	98.1%	27 470	NA#
	2017/18	68 830	99.9%	25 580	NA#
Secondary	2013/14	73 070	99.9%	39 900	NA#
	2014/15	68 300	99.9%	36 700	NA#
	2015/16	62 140	99.3%	34 080	NA#
	2016/17	58 060	97.8%	33 290	NA#
	2017/18	57 970	99.9%	28 820	NA#

* Eligible students under the School-based After-School Learning and Support Programmes are students studying in public sector schools or DSS schools whose families are in receipt of CSSA or receiving full grant under SFAS. The respective number of students is calculated based on the data on students receiving the related subsidy as at end-March of the previous school year and the number of approved classes as specified by EDB in April of the previous school year. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit more needy students (e.g. students receiving half grant, new arrivals and single parent households) who do not receive CSSA or full grant.

\# As the CSSA data is as at end-December each year while the funding for eligible students under the School-based After-School Learning and Support Programmes is based on each school year, the corresponding percentage share cannot be worked out.

CCF After-school Care Pilot Scheme*$^{\theta}$

	School year	CSSA, full grant and half grant+	Percentage share among all CSSA, full grant and half grant students
Primary and secondary^	2013/14	10 167	NA#
	2014/15	9 074	NA#
	2015/16	8 423	NA#

* Primary and secondary students whose families are in receipt of CSSA or who are receiving full grant or half grant under SFAS are eligible for the scheme. Participating schools of the CCF After-school Care Pilot Scheme may use not

more than 25% of their after-school care places to benefit needy students (e.g. new arrivals and students from single parent households) who do not receive CSSA, full grant or half grant.

^ Breakdown on primary and secondary students is not available.

+ Breakdown on CSSA, full grant and half grant students is not available.

As the CSSA data is as at end-December each year while the funding for eligible students under the CCF After-school Care Pilot Scheme is on school year basis, the corresponding percentage share cannot be worked out.

θ The CCF After-school Care Pilot Scheme was completed after the end of the 2015/16 school year.

Hong Kong Jockey Club Life-wide Learning Fund*

	School year	Full grant	Percentage share among all full grant students	CSSA	Percentage share among all CSSA students
Primary	2013/14	54 021	83.3%	20 346	NA#
	2014/15	54 595	82.1%	19 649	NA#
	2015/16	59 165	87.8%	19 608	NA#
	2016/17	59 861	87.1%	19 390	NA#
	2017/18	59 455	87.0%	16 934	NA#
Secondary	2013/14	54 113	74.0%	21 888	NA#
	2014/15	49 205	72.8%	19 610	NA#
	2015/16	47 386	75.7%	19 097	NA#
	2016/17	42 661	71.9%	16 808	NA#
	2017/18	41 549	73.0%	15 740	NA#

* Eligible students under the Hong Kong Jockey Club Life-wide Learning Fund are students studying in primary and secondary schools (excluding English Schools Foundation and international schools) whose families are in receipt of CSSA or who are receiving full grant under the SFAS. Starting from the 2005/06 school year, the discretionary quota of all participating schools has been increased from 10% to 100% in a bid to benefit more needy students (e.g. students receiving half grant, new arrivals and students from single parent households) who do not receive CSSA or full grant.

As the CSSA data is as at end-December each year while the funding for eligible students under the Hong Kong Jockey Club Life-wide Learning Fund is on school year basis, the corresponding percentage share cannot be worked out.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6917)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please provide a breakdown of the service cost per capita of each type of special schools for children with intellectual disabilities by category (day student, 5-day boarding and 7-day boarding).

(2) Please provide a breakdown of the number of students receiving Tier 1 "Grant for Support for Boarders with Medical Complexity" and Tier 2 "Grant for Support for Boarders with Medical Complexity" in all special schools for children with severe intellectual disabilities and the expenditure involved in the past 5 years, with a breakdown by 5-day boarding, 7-day boarding and gender.

(3) Please provide a breakdown of students who applied for extension of years of study for each type of special schools for children with intellectual disabilities, and reasons for applications and rejection over the past 5 years.

(4) Please provide a breakdown of the number of students who applied for extension of years of study for the first time, second time and third time in each type of special schools for children with intellectual disabilities by day student and boarder over the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7521)

Reply:

(1)
The average unit cost per school place (i.e. day student) and the average unit cost per boarding place (including 5-day boarding and 7-day boarding) for each type of schools for children with intellectual disability are as follows:

School Type	Average Unit Cost in the 2018/19 School Year	
	per School Place	per Boarding Place
Mild Intellectual Disability [Note]	$211,500	Not applicable
Moderate Intellectual Disability	$304,500	$273,000
Severe Intellectual Disability	$389,000	$350,500

Note: Schools for children with mild intellectual disability do not provide boarding service.

(2)
Starting from the 2014/15 school year, an "Additional Support Grant for Enhancing the Support for Boarders with Medical Complexity in Aided Special Schools (Additional Grant)" has been provided for the boarding section of special schools to enhance the support for boarders with medical complexity (MC). The situation of individual schools are not disclosed to avoid misconceptions about the conditions of students studying in respective schools and the possible labelling effect on the schools concerned based on its number of boarders with MC. In the 2014/15, 2015/16, 2016/17 and 2017/18 school years, 9 out of the 10 schools for children with severe intellectual disability have a boarding section. The numbers of students in receipt of the Additional Grant and the expenditures involved are tabulated below:

School Year	Tier 1 support		Tier 2 support		Total expenditure on the grant
	5-day boarding	7-day boarding	5-day boarding	7-day boarding	
2014/15	15	38	21	34	$3,675,000
2015/16	19	38	19	36	$3,938,420
2016/17	24	49	25	34	$4,523,846
2017/18	35	60	25	36	$5,212,251

Note: As the disbursement of grant has no connection with gender, the Education Bureau has not gathered relevant information from schools.

(3) and (4)

The improvement measures on extension of years of study (EoS) were introduced in the 2010/11 school year for students in schools for children with intellectual disability, schools for children with physical disability, schools for children with hearing impairment, and the school for children with visual impairment cum intellectual disability. Under this measure, the EDB provides the schools with additional school places and allows them to devise school-based policy to exercise professional judgment to arrange for students in need and with valid reasons to extend their years of study in accordance with the objective criteria jointly set by the EDB and the special education sector. As the applications for EoS were made direct to and subsequently approved by the special schools concerned, the EDB does not have the number, reasons and frequency of such applications in schools for children with intellectual disability.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6930)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Given that schools have referred admission applications made by underage children of refugees, asylum seekers and torture claimants to their respective Regional Education Offices, why can't the Administration provide the numbers of primary and secondary schools that have admitted such students? In the long run, will the Administration consider providing statistical information on the number of applicants and a breakdown of the number of successful applicants by grade and school district?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1301)

Reply:

Refugees, asylum seekers and torture claimants can approach the schools they prefer directly to apply for admission for their underage children or seek placement assistance from the Education Bureau (EDB). After placement assistance has been arranged by EDB, the admission status of their children may still change (because of school transfer on their own accord, departure from Hong Kong, etc.), and they are not required to notify EDB of whether their children have eventually enrolled in schools through their own applications or EDB's arrangements. Besides, schools do not have to state whether their newly-admitted students are children of refugees, asylum seekers or torture claimants when submitting information on new admissions to EDB under the existing mechanism. Hence, we do not have complete and accurate data in this regard. Placement arrangements for eligible children in question and the education service they receive upon admission would not be significantly different from those available to other children. The EDB considers that, at this stage, it is not necessary to collect data on admission applications made by children in question and related information for statistical purposes.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6931)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau supports activities which contribute to the wider involvement in education and development of professionalism. Please tabulate the expenditures, the organisations in charge, the number of beneficiaries and the details of these activities in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1465)

Reply:

The Education Bureau (EDB) attaches great importance to the professional development of teachers and supports on an ongoing basis activities that foster the development and advancement of teachers. In this connection, a series of professional development activities (conducted in collaboration with related organisations, e.g. teachers' associations and education professional bodies, where appropriate) are subsidised by EDB every year, which include various kinds of training courses, seminars, conferences and workshops. These activities provide opportunities for a considerable number of teachers to consolidate and share their teaching experience. The expenditures involved, including manpower cost, have been subsumed under the overall expenditure of EDB.

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide in a table the names of local non-profit-making kindergartens, their addresses, telephone numbers, number of places for K1, morning session, afternoon session, whole-day class and their school fees, with a breakdown by 18 districts.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1466)

Reply:

The kindergarten (KG) sector is characterised by a high level of flexibility in operation, diversity and vibrancy. KGs provide different modes of services, and flexibly respond to the changing needs of the society. Hence, the number of places for different levels including Nursery classes (K1) and sessions (that is, morning, afternoon and whole-day sessions) may vary between years according to changing needs of parents. Notwithstanding this, the number of places offered by a KG may be roughly reflected from the total number of permitted accommodation of classrooms in use and student enrolment. In the 2018/19 school year, there are 779 local non-profit-making KGs. Their school names, addresses, telephone numbers, total number of permitted accommodation of classrooms in use, student enrolment and annual school fees have been included in the "Profile of Kindergartens and Kindergarten-cum-child Care Centres" (KG Profile) by District Council district published by the Education Bureau (EDB). The KG Profile has been uploaded to the EDB website.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

For student suicides in the past 5 years, please set out in tabular form the following information under the categories of suicide attempts, non-fatal suicides and fatal suicides:

(1) number of cases;
(2) causes; and
(3) age distribution.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1467)

Reply:

(1) to (3)
The Education Bureau (EDB) has required primary and secondary schools to report suspected fatal suicide cases of students to keep in view the situation and provide professional support for the schools concerned as appropriate. The nature and number of fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. The EDB has not captured the relevant information from the Court. Hence, we are unable to provide officially verified figures on students' fatal suicide cases. The number of suspected fatal suicide cases of students as reported by primary and secondary schools to the EDB in the past 5 school years is tabulated as follows:

School Year	Number of Cases
2013/14	10
2014/15	9
2015/16	19
2016/17	19
2017/18	16

As indicated in relevant international and local studies, suicide is a complicated social problem caused by the interplay of multiple factors, including mental health problems, psychological factors, interpersonal relationship and adjustment difficulties, as well as stress in everyday life. It involves a number of aspects, including healthcare system, society, interpersonal relationship and personal factors, etc. Attributing the cause of suicide to a single factor often results in the overlooking of the interaction of multiple intertwining factors, and such a handling approach should be avoided.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6934)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

On prevention of student suicide, please provide details on the measures, funding and responsible units involved.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1468)

Reply:

The Education Bureau (EDB) has been encouraging schools to adopt the Whole School Approach directed at three levels, namely "Universal", "Selective" and "Indicated" to promote mental health amongst students and enhance support for students with mental health needs (including students with suicidal risk).

At the Universal level, the EDB has been actively promoting diversified development programmes featuring adventure-based, team building and problem-solving training, such as the "Understanding Adolescent Project" for primary schools, the "Enhanced Smart Teen Project" for secondary schools and the "Pupil Ambassador Scheme on Positive Living", to enhance students' resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. The expenditure involved for the above work in 2018-19 is about $66 million. The estimated expenditure for 2019-20 is about $75 million. Besides, the EDB and the Department of Health (DH) jointly launched the Joyful@School Campaign in the 2016/17 school year which has been continued in the 2017/18 and 2018/19 school years to enhance students' awareness and understanding of mental health and strengthen their ability to cope with environmental changes. Schools (or in collaboration with non-governmental organisations) can submit proposals to the Quality Education Fund for funding not exceeding $200,000 through simplified application procedures to organise activities related to the Campaign. Up to February 2019, more than 700 applications were approved under the Joyful@School Campaign with a total grant amount of more than $150 million.

At the Selective level, starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with special

educational needs (SEN) pitched at Basic, Advanced and Thematic levels (BAT Courses). Some modules of the BAT Courses cover mental illness. From the 2017/18 school year onwards, the EDB also provides teachers of primary and secondary schools with the "Professional Development Programme for Mental Health", including elementary training for teachers at large and in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. The EDB provides public sector mainstream schools with around 2 000 training places for the "Professional Development Programme for Mental Health" in the 2018/19 and 2019/20 school years. Besides, in each school year, the EDB also organises talks, seminars and experience sharing sessions, etc., on supporting students with mental health needs for primary and secondary school teachers to equip more of them with the knowledge and capacity to support students with mental health needs. In general, the revised estimated expenditure for teacher training courses on supporting students with SEN and various related training activities for the 2018/19 school year is about $90 million. The estimated expenditure for the 2019/20 school year is about $100 million. To help schools identify and support students with mental health needs, the EDB has published "A Resource Handbook for Schools: Detecting, Supporting and Making Referral for Students with Suicidal Behaviours" and "Teacher's Resource Handbook on Understanding and Supporting Students with Mental Illness" which was developed in collaboration with the Hospital Authority (HA) for reference of teachers and school personnel.

At the Indicated level, starting from the 2017/18 school year, the Learning Support Grant covers students with mental illness so that schools can cater for those students' learning, social, emotional and behavioural needs. Moreover, the Food and Health Bureau (FHB), in collaboration with the EDB, the HA and the Social Welfare Department (SWD), has launched the "Student Mental Health Support Scheme" since the 2016/17 school year to provide appropriate support services for students with mental health needs through a school-based platform.

The EDB works with the Curriculum Development Council to continuously review the primary and secondary curricula in order to better cater for learning differences. The EDB suggests schools coordinate the daily amount of homework assigned so that students can have sufficient time to rest, play and develop their interests. The EDB has all along been reviewing relevant areas in the education system in order to duly support and address the developmental and diverse needs of students, and will continue to encourage and support schools in implementing the suggestions made under the New Academic Structure Review, so as to support schools and meet the diverse learning needs of students. Measures included the following: increasing the flexibility in deploying lesson time; trimming, enhancing or updating the curriculum contents and assessment arrangements, and clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload; arranging for more Applied Learning (ApL) courses to register in the Qualifications Register and increasing learning opportunities for workplace experience; and encouraging students interested in vocational and professional education and training to study one to two ApL courses. The EDB established the Task Force on Review of School Curriculum in November 2017 to review the school curriculum. The Task Force will be in operation for about two years to make directional recommendations on the school curriculum to the

Government. The expenses for the above work have been subsumed under the overall expenditure of the EDB.

In the 2017 Policy Address, a series of measures were announced to facilitate young people to pursue multiple pathways and continuing education in accordance with their abilities and interests. These measures include making use of the Language Fund to provide a vocational English programme for senior secondary students who are interested in pursuing vocational and professional education and training or prepared to enter the workforce, so as to enhance their English proficiency and provide opportunities for them to attain relevant recognition for further study or employment.

Regarding enhancement of family life and parent education, the EDB endeavors to promote home-school co-operation and parent education. The EDB has all along been supporting the Committee on Home-School Co-operation in organising parent activities and seminars to equip parents with the necessary knowledge about helping their children in respect of growth and development, enhancing their parental skills, as well as assisting them in the early identification of their children's emotional problems and fostering positive thinking in their children. Besides, the EDB launched a website called "Smart Parent Net" in early 2018 to enable parents with children from kindergarten to primary and secondary school levels to easily access useful information on supporting the physical and mental development of students, which includes the parent-child relationship, character development, parenting skills and emotional management of parents. In parallel, the Education Commission set up the Task Force on Home-school Co-operation and Parent Education in December 2017 to review the existing approach in promoting home-school co-operation and parent education and to formulate the direction and strategy for fostering home-school co-operation and promoting parent education with the objective of assisting parents to help their children grow up happily and healthily, and learn effectively through, among others, promotion of correct understanding of developmental needs of children and adolescents as well as avoiding excessive competition. Accepting the Task Force's recommendations, the EDB will provide Federations of Parent-Teacher Associations and Parent-Teacher Associations of schools with additional resources for enhancing home-school co-operation and promoting parent education starting from the 2019/20 school year. In 2018-19, the expenditure for promoting home-school co-operation and parent education is about $37.14 million and the estimated expenditure for 2019-20 is about $63.38 million.

Besides, on the request of the Chief Executive in October 2017, the Labour and Welfare Bureau (LWB) coordinated a cross-bureaux/departments Task Force on Prevention of Youth Suicides (the Task Force). The Task Force was to take stock of the progress of implementation of recommendations set out in the Final Report of the Committee on Prevention of Student Suicides issued in 2016 by the Committee on Prevention of Student Suicides commissioned by the EDB, and to consider if further policy measures and action should be taken to strengthen the efforts to prevent youth suicides. In addition to the LWB and EDB, the Task Force also comprises the FHB, the Home Affairs Bureau, the SWD, the DH and the HA. The Chief Executive endorsed the Report of the Task Force on Prevention of Youth Suicides (Task Force Report) in November 2018. The full text of the Task Force Report has been uploaded to the LWB website (https://www.lwb.gov.hk/eng/other_info/TFPYS_Report_(English).pdf).

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6935)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out the information of the school fees charged by half-day classes and whole-day classes of kindergartens respectively (excluding classes for 2 to 3-year-olds) over the past 5 years by type of kindergartens and district.

	Local non-profit-making kindergartens joining the Pre-primary Education Voucher Scheme (excluding former aided child care centres)				Former aided child care centres				Local non-profit-making kindergartens not joining the Pre-primary Education Voucher Scheme			
	Half-day classes		Whole-day classes		Half-day classes		Whole-day classes		Half-day classes		Whole-day classes

Notes:

1. Figures are rounded to the nearest hundred.
2. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.
3. "N/A" denotes there is no such type of class level or KG in that District Council district, or there is no fee-charging class or KG in that district after deduction of subsidy under the scheme.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6936)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out the numbers of kindergartens and the numbers of their school places and students at each class level respectively over the past 5 years by type of kindergartens and district.

	Local non-profit-making kindergartens joining the Pre-primary Education Voucher Scheme (excluding former aided child care centres)					Local non-profit-making kindergartens not joining the Pre-primary Education Voucher Scheme					Former aided child care centres				
	Number of schools	No. of places	Number of students			Number of schools	No. of places	Number of students			Number of schools	No. of places	Number of students		
			K1	K2	K3			K1	K2	K3			K1	K2	K3

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1471)

Reply:

The numbers of kindergartens (KGs), school places and students at each class level for K1, K2 and K3 from the 2014/15 to 2018/19 school years by type of KGs and by district are tabulated at Appendix.

Appendix

Number of kindergartens (KGs), their school places and students at each class level by type of KGs and by district from the 2014/15 to 2018/19 school years

2014/15 school year

Notes:

1. Figures refer to the position as at September of the respective school years. The figures in the 2018/19 school year do not include 2 new KGs that have not joined the KG Scheme and not admitted any students in September.
2. Figures on accommodation do not include vacant classrooms.
3. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1473)

Reply:

The kindergarten (KG) sector is characterised by a high level of diversity, vibrancy and flexibility in operation. KGs are located in a variety of premises, such as self-acquired or self-owned premises, privately leased premises, or public housing estates. While there are requirements in respect of the minimum floor space for each KG student in a classroom and the number of students permitted in each classroom, the overall provision of space and facilities for their students is a school-based arrangement. The Education Bureau has not collected detailed information on the area of their facilities such as indoor and outdoor play areas, and is therefore unable to provide the information as requested.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the job-switching rate of full-time kindergarten teachers by their length of service in the past 5 years:

Job-switching rate of full-time teachers					
Length of service	Local non-profit-making kindergartens under the Pre-primary Education Voucher Scheme (PEVS) (except former aided child care centres)	Former aided child care centres	Local non-profit-making kindergartens not under the PEVS	Local private independent kindergartens	Non-local kindergartens
0-5 year(s)					
6-10 years					
11-15 years					
Over 15 years					

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1474)

Reply:

The job-switching rates for teachers by their length of service in local non-profit-making (NPM) kindergartens (KGs) (excluding former aided child care centres (FACs)) under the Pre-primary Education Voucher Scheme (PEVS) or the kindergarten education scheme (KG Scheme) and FACs from the 2014/15 to 2018/19 school years are tabulated below. As regards similar breakdowns for local NPM KGs not under PEVS or KG Scheme, local private independent (PI) KGs and non-local KGs, given the small number of these types of KGs and their teachers under individual breakdown items, the percentage will be misleading as it will change greatly even for small changes in the number of teachers. Hence, it is more appropriate to provide the overall job-switching rate for these types of KGs.

(i) 2014/15 school year:

Length of service	Job-switching Rate				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	15.2%	13.0%	11.0%	11.2%	7.4%
6-10 years	10.8%	7.6%			
11-15 years	8.8%	9.7%			
Over 15 years	6.2%	6.5%			

(ii) 2015/16 school year:

Length of service	Job-switching Rate				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	15.5%	12.6%	8.7%	12.1%	7.4%
6-10 years	11.2%	11.5%			
11-15 years	7.9%	5.9%			
Over 15 years	5.5%	5.4%			

(iii) 2016/17 school year:

Length of service	Job-switching Rate				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	14.0%	12.6%	10.5%	10.5%	13.2%
6-10 years	6.9%	7.7%			
11-15 years	6.4%	4.6%			
Over 15 years	5.0%	3.6%			

(iv) 2017/18 school year:

Length of service	Job-switching Rate				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	15.3%	11.6%	11.7%	12.2%	12.9%
6-10 years	8.5%	11.5%			
11-15 years	6.6%	7.1%			
Over 15 years	5.1%	4.6%			

(v) 2018/19 school year:

Length of service	Job-switching Rate				
	Local NPM KGs under KG Scheme (except FACs)	FACs	Local NPM KGs not under KG Scheme	Local PI KGs	Non-local KGs
0-5 year(s)	13.2%	11.2%	6.1%	12.1%	8.7%
6-10 years	8.9%	7.5%			
11-15 years	6.9%	3.0%			
Over 15 years	4.7%	4.4%			

Note:

1. "Job-switching rate" refers to the number of job-switching teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. "Job-switching teacher" refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but left that KG as at mid-September of the school year concerned for serving in another KG. Figures for the 2017/18 school year denote teachers who had served in a local NPM KG under PEVS in the 2016/17 school year but left that KG in the 2017/18 school year for serving in another KG.
2. The figures cover all KG teachers. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile information on the job-switching rate of teachers on the basis of full-time and part-time employment except their salary, which is directly related to the working hours. Hence, separate figures for full-time teachers are not available.
3. Figures for the 2018/19 school year are provisional.

(v) 2018/19 school year:

Length of service	Wastage rate				
	Local NPM KGs under KG Scheme (except FACs)	FACs	Local NPM KGs not under KG Scheme	Local PI KGs	Non-local KGs
0-5 year(s)	13.0%	14.3%	9.4%	15.9%	18.0%
6-10 years	13.4%	12.8%			
11-15 years	10.8%	10.0%			
Over 15 years	10.6%	9.8%			

Note:

1. "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. "Drop-out teacher" refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned. Figures for the 2017/18 school year denote teachers who had served in a local NPM KG under PEVS in the 2016/17 school year but left the teaching profession in the 2017/18 school year.
2. The figures cover all KG teachers. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile information on the wastage rate of teachers on the basis of full-time and part-time employment except their salary, which is directly related to the working hours. Reply:

Information about the duty visits to the Mainland made by the Secretary for Education in 2018-19 is at the Annex.

As a general rule, all politically appointed officials and civil servants should observe the same principles in the provision of official entertainment. They are required to exercise prudent judgement and economy in order to avoid any public perception of extravagance and act in accordance with the relevant regulations and administrative guidelines. According to the existing guidelines, the expenditure limits on entertainment in the form of official meals should not exceed $450 per person for lunch or $600 per person for dinner, inclusive of all expenses incurred on food and beverages consumed on the occasion, service charges and tips.

In line with the Government's green policy, public officers should as far as possible refrain from bestowing gifts/souvenirs on others during the conduct of official activities. According to the existing guidelines, where bestowal of gifts/souvenirs is necessary or unavoidable due to operational, protocol or other reasons, the gift/souvenir items should not be lavish or extravagant and the number should be kept to a minimum. Also, the exchange of gifts/souvenirs should only be made from organisation to organisation. As we do not specifically maintain separate accounts for the expenses on the procurement of gifts and souvenirs, relevant statistics are not available.

Duty visits to the Mainland made by Secretary for Education (SED)

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	(C) Other expenses ($) (Note 4)	Total expenditure incurred by SED & official entourage from SED's Office ($) (A)+(B)+(C)
20 to 22 June 2018	Beijing	To attend a regular working meeting with the Ministry of Education, to visit a local secondary school and a local university, and to meet Hong Kong young people who were pursuing tertiary studies or working in Beijing	1	6,541	10,800	5,000	22,341

29 August 2018	Zhuhai and Zhongshan	To meet with officials of the Zhuhai Education Bureau and the Zhongshan Education and Sports Bureau to explore co-operation opportunities in education between Hong Kong and the two municipalities under the development of the Greater Bay Area	2	No expenses as no over-night stay	No air passage (by ferry)	1,230	1,230
28 September to 1 October 2018	Beijing	To attend the exchange activities of the National Day Delegation from the Educational Sector of Hong Kong 2018	1	15,000	16,116	5,960	37,076

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	(C) Other expenses ($) (Note 4)	Total expenditure incurred by SED & official entourage from SED's Office ($) (A)+(B)+(C)
28 to 30 October 2018	Hangzhou and Ningbo	To attend the Ningbo-Hong Kong Education Co-operation Forum 2018, to meet with officials of Zhejiang Province, Hangzhou and Ningbo, and to visit various education organisations	1	7,907	8,142	1,821	17,870
4 December 2018	Guangzhou	To attend the Guangdong-Hong Kong Sister School Contract Signing Ceremony 2018	1	No expenses as no over-night stay	No air passage (by high speed rail)	972	972
22 January 2019	Zhuhai	To visit a higher education institution, looking into the participation of Hong Kong's universities in higher education development in the Guangdong-Hong Kong-Macao Greater Bay Area	1	No expenses as no over-night stay	No air passage (by car)	2,500	2,500

Notes:

(1) The Secretary for Education would meet local students from Hong Kong where possible.

(2) Hotel accommodation was provided in accordance with the relevant Civil Service Regulations and guidelines.

(3) Proper class of passages was provided in accordance with the relevant Civil Service Regulations and guidelines, taking into account such factors as rank of post, flying time, flight schedule and details.

(4) Other expenses include overseas subsistence allowance and other incidental expenses related to the duty visits outside Hong Kong. Subsistence allowance was provided in accordance with the relevant Civil Service Regulations and guidelines, which is intended to cover, inter alia, the cost of accommodation, meals and in-town transport.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6943)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the top-up degree programmes registered with the Non-local Courses Registry in the past 5 years, would the Hong Kong Council for Accreditation of Academic and Vocational Qualifications advise this Committee of the number of registrations and people enrolled in such programmes, and provide statistics on collaborating institutions in Hong Kong and the award of professional qualifications?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1479)

Reply:

According to the Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493) ("the Ordinance"), registration or exemption from registration is required for courses conducted in Hong Kong that lead to the award of non-local higher academic or professional qualifications.

Completion of professional programmes registered/exempted from registration under the Ordinance will not automatically lead to the attainment of professional qualifications. Students will need to, subject to the requirements set out in relevant legislation or by respective professional bodies, take examination or undergo assessment for attaining the professional qualifications. The Non-local Courses Registry does not collate information on the award of professional qualifications.

The information of top-up Bachelor's degree programmes[Note 1] registered/exempted from registration under the Ordinance from the 2014/15 to 2018/19 academic years is set out below:

	Academic year									
	2014/15		2015/16		2016/17		2017/18		2018/19 [Note 2]	
	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes
Number of top-up Bachelor's degree programmes	93	104	94	104	83	105	95	110	93	107
Institutions jointly offering the top-up Bachelor's degree programmes										
Number of non-local institutions	28	25	28	25	26	22	29	23	27	23
Number of operators (for registered programmes)/ Number of local institutions of higher education (for programmes exempted from registration)	24	8	24	8	19	8	22	8	20	6
Number of students enrolled	4 565	5 985	4 275	4 854	3 873	3 955	N.A. [Note 3]	N.A. [Note 3]	N.A. [Note 3]	N.A. [Note 3]

Note 1: For the purpose of this reply, programmes meeting the following criteria are regarded as top-up degree programmes –

(a) being a Bachelor's degree programme (whether or not their name bears the wording "top-up degree") with a duration not more than 18 months; and

(b) requiring a sub-degree qualification or equivalent for entry.

Note 2: Information as at 28 February 2019.

Note 3: Statistics not yet available as the related information will only be provided by operators/local institutions of higher education 6 months after the conclusion of an academic year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6944)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

For the past 5 years, please advise this Committee of the following:

1. the number of non-Chinese speaking (NCS) students and the number of ethnic minority students (disaggregated into Indonesian, Filipino, Indian, Pakistani, Nepalese, Japanese, Korean, other Asian, white, black and others) studying at different grades in public sector primary and secondary schools;

2. the total number of Chinese ethnicity students studying at different grades in public sector schools, and the number of school leavers who dropped out without completing senior secondary education (disaggregated by last grade studied);

3. the total number of non-Chinese ethnicity students with special educational needs (SEN) studying at different grades in public sector schools, and the number of school leavers who dropped out without completing senior secondary education (disaggregated by age of departure, the disability/SEN type, last grade studied and ethnicity); and

4. the percentage share of NCS students with SEN who dropped out without completing senior secondary education in the total number of students with SEN and in the total number of students with SEN who dropped out without completing senior secondary education.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1480)

Reply:

1. The respective total number of non-Chinese speaking (NCS) students and ethnic minority (EM) students studying in public sector primary and secondary schools from the 2014/15 to 2018/19 school years are set out by grade in Appendix 1 and Appendix 2.

2. to 4.

The total number of Chinese ethnicity students studying in public sector schools from the 2014/15 to 2018/19 school years is set out by grade in Appendix 3.

It is the Government's policy to provide 12-year free primary and secondary education in public sector schools of which universal basic education for children aged between 6 and 15 is compulsory. Schools are required to report to the Education Bureau (EDB) on the 7th day of students' continuous absence, irrespective of their class levels. The EDB would provide support services to identified non-attendance cases with a view to bringing students back to school at the earliest opportunity and does not further classify these cases. The number of non-attendance students at Secondary 4 to 6 levels reported by public sector schools from the 2014/15 to 2017/18 school years is tabulated below. Information for the 2018/19 school year is not yet available.

School year / Grade	2014/15	2015/16	2016/17	2017/18
S4	1 533	1 010	943	833
S5	1 041	645	584	482
S6	8	11	95	126

We do not readily have breakdown of the non-attendance students by ethnic group or information in relation to special educational needs (SEN) of these students as schools need not provide such information in their report to the EDB.

The number of NCS EM students with SEN studying in public sector schools from the 2014/15 to 2018/19 school years by grade and by ethnicity is set out at Appendix 4. It is a common practice for special schools to adopt flexible groupings across grade and devise individual education plans to cater for the SEN of the students. Therefore, presenting the number of students by grade cannot reflect the actual operation in special schools.

Number of non-Chinese speaking students in public sector primary and secondary schools by grade from the 2014/15 to 2018/19 school years

Primary schools

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6945)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide information, by district, on the position of the existing vacant school premises, including the respective District Lands Office, location, site area, availability date, land status and the current planned use.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1481)

Reply:

It has all along been the Education Bureau (EDB)'s policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacant school premises, the EDB will consider factors including the size, location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use and whether the premises is needed to be reallocated for school or other educational use. Once the EDB confirms that the VSP are no longer required by the EDB for reallocation for school use, the EDB would inform the Planning Department (PlanD) and other relevant departments (such as the Lands Department and the Housing Department) for the PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism. According to the mechanism, the EDB is allowed to retain VSP for school use. However, if the EDB intends to use VSP for other educational uses, the EDB needs to put forward its proposed use with justification to the PlanD for assessment and may need to compete with other government departments on use of such VSP.

As at end-February 2019, there are 10 VSP under the EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by the EDB). Information of the school premises concerned is as follows:

Table — 10 VSP under the EDB's purview (Position as at end-February 2019)

No.	District	Former School Name	Address	School year in which the school ceased operation (Note)	Site area of school premises (rounded to the nearest hundred m^2)
1	Wan Chai	Wanchai School	30 Oi Kwan Road, Wan Chai, Hong Kong	2006/07	2 000
2	Eastern	Hong Kong Japanese School	9 Hau Yuen Path, Braemar Hill Road, North Point, Hong Kong	2017/18	2 900
3	Southern	St. Peter's Secondary School	220 Aberdeen Main Road, Hong Kong	2012/13	6 000
4	Kowloon City	Hung Hom Government Primary School	68 Gillies Avenue, Hung Hom, Kowloon	2009/10	1 900
5	Wong Tai Sin	S.K.H. Ching Shan Primary School	3 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	3 700 (Total)
6	Wong Tai Sin	S.H.K. Yat Sau Primary School	1 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	
7	Sham Shui Po	Kowloon Junior School	4 Rose Street, Yau Yat Chuen, Kowloon	2013/14	3 700
8	Sham Shui Po	Chi Yun School	19 Kwong Lee Road, Kowloon	2018/19	2 000
9	Tai Po	Tai Po Government Primary School	22 Wan Tau Kok Path, Tai Po, New Territories	1999/00	2 400
10	Islands	Cheung Chau Public School	School Road, Cheung Chau, New Territories	2006/07	5 800

Note: "School year in which the school ceased operation" refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Director of Bureau: Secretary for Education

Question:

1. Please provide the number of Native-speaking English Teachers (NETs) currently employed by each special school and list the average teacher-to-student ratio of each NET.

2. Please provide the total number of NETs currently employed by all the public sector primary and secondary schools in the territory and list the average teacher-to-student ratio of each NET.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1482)

Reply:

In the 2018/19 school year, 468 and 397 Native-speaking English Teachers (NETs) are engaged in public sector primary schools and secondary schools respectively, including 27 NETs engaged in special schools. NETs serve mainly as resource teachers for the English Language subject and, together with other English teachers, seek to create a favourable English learning environment conducive to students communicating in English. In addition to undertaking teaching duties, NETs also support and collaborate with other English teachers to facilitate the implementation of the school-based curriculum and execution of subject-related tasks. As the provision of NETs is on a school basis and there are great variations in the number of classes and students, as well as in the deployment of NETs among schools, information about the average teacher-to-student ratio of each NET is not available.

Question:

Please set out the total expenditure for the provision of school meals subsidy in the past 5 years by level of education (secondary school, primary school and kindergarten).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1483)

Reply:

The Education Bureau has, starting from the 2014/15 school year, incorporated the pilot scheme of provision of free lunch at schools for needy primary students under the Community Care Fund into the regular assistance programme. Students in receipt of full grant assistance under the Student Financial Assistance Schemes studying in whole-day public sector primary schools (including special schools) or whole-day primary schools under the Direct Subsidy Scheme are eligible for free lunch at schools.

The expenditure in the past 5 school years (i.e. from the 2013/14 to 2017/18 school years) is set out below:

School Year	Expenditure ($ million)
2013/14	157
2014/15	163
2015/16	170
2016/17	174
2017/18	175

Question:

What is the number of non-Chinese speaking students with special educational needs in mainstream and public special schools over the past 5 years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1484)

Reply:

The numbers of non-Chinese speaking (NCS) students with special educational needs (SEN) studying in public sector mainstream schools and special schools in the past 5 school years are provided below:

School Year	NCS Students with SEN	
	Mainstream Schools	Special Schools
2014/15	349	306
2015/16	462	363
2016/17	512	367
2017/18	547	390
2018/19	611	401

Notes:

1. Figures show the position as at September of the respective school years.
2. Figures cover those students whose home language as known to the Education Bureau is not Chinese regardless of their ethnicity.
3. Hospital School is not included in special schools due to the transitional nature of the education service provided.

Director of Bureau: Secretary for Education

Question:

1. In the past 5 years, what were the numbers of students in special schools for children with intellectual disabilities and the unit cost per capita (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?

2. What were the numbers of new students and their age (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?

3. What were the numbers of school leavers and their age (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?

4. What were the numbers of new graduates of special schools waiting for various types of adult services (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1485)

Reply:

1. to 4.

The Education Bureau does not keep school-based personal data and information such as residence status of parents, background of students' parents, etc., and is therefore not able to provide the related information as requested.

The average unit cost per school place and the average unit cost per boarding place for each type of special schools for children with intellectual disability in the past 5 school years are set out at Appendix 1.

The number of students, number of non-Chinese speaking students, number of 5-day and 7-day boarders, number of new students with age range by day student, 5-day boarding and 7-day boarding, number of school leavers with age range by day student, 5-day boarding and 7-day boarding, and number of graduates waiting for adult services in the past 5 school years in special schools for children with intellectual disability are set out at Appendix 2.

Appendix 1

Table 1: Average Unit Cost per School Place for Each Type of Special Schools for Children with Intellectual Disability from the 2013/14 to 2017/18 School Years

School Type	Average Unit Cost per School Place				
	2013/14	**2014/15**	**2015/16**	**2016/17**	**2017/18**
Mild Intellectual Disability	$145,500	$171,000	$171,500	$177,000	$195,500
Moderate Intellectual Disability	$218,000	$239,500	$253,000	$260,000	$285,500
Severe Intellectual Disability	$281,000	$313,000	$329,000	$342,000	$361,500

Table 2: Average Unit Cost per Boarding Place for Each Type of Special Schools for Children with Intellectual Disability from the 2013/14 to 2017/18 School Years

School Type	Average Unit Cost per Boarding Place				
	2013/14	**2014/15**	**2015/16**	**2016/17**	**2017/18**
Mild Intellectual Disability [Note]	N.A.	N.A.	N.A.	N.A.	N.A.
Moderate Intellectual Disability	$198,000	$233,500	$243,000	$252,000	$258,500
Severe Intellectual Disability	$255,500	$294,500	$306,000	$321,000	$331,500

Note:
Schools for children with mild intellectual disability do not provide boarding service.

Appendix 2

Information on Students of Special Schools for Children with Intellectual Disability (ID schools) from the 2013/14 to 2017/18 School Years

Item			Age Range (Year)	School Year [Note 1]				
				2013/14	2014/15	2015/16	2016/17	2017/18
1	Number of Students (No. of Non-Chinese Speaking (NCS) Students [Note 2])			5 624 (193)	5 607 (223)	5 607 (266)	5 701 (275)	5 845 (311)
2	Number of Boarders (No. of NCS Students [Note 2])	5-day		324 (5)	306 (5)	296 (5)	297 (5)	294 (6)
		7-day		352 (2)	362 (2)	359 (3)	362 (2)	375 (3)
3	Number of New Students [Note 3] (No. of NCS Students [Note 2])	Day Place	6-19	523 (40)	560 (30)	562 (44)	584 (45)	648 (87)
		5-day Boarding	6-18	45 (3)	31 (1)	46 (1)	42 (1)	44 (3)
		7-day Boarding	6-21	40 (0)	60 (2)	34 (0)	48 (2)	57 (6)
4	Number of School Leavers [Note 4] (No. of NCS Students [Note 2])	Day Place	6-24	599 (12)	569 (23)	487 (28)	497 (17)	569 (30)
		5-day Boarding	6-24	55 (2)	52 (0)	43 (1)	52 (1)	44 (1)
		7-day Boarding	7-23	31 (0)	48 (1)	43 (0)	41 (0)	35 (0)
5	Number of Graduates Waiting for Adult Services [Note 5] (No. of NCS Students [Note 2])			98 (3)	42 (1)	66 (4)	83 (4)	125 (3)

Notes:

1. Number of students in items 1-2 denotes the position as at September of the respective school years.
2. Number of NCS students covers those students whose home language as known to the Education Bureau is not Chinese regardless of their ethnicity.
3. The number of New Students is counted as follows:
   (i) Day place:
   - only first admission to ID schools is counted;
   - excluding those students transferred between ID schools.

   (ii) 5-day and 7-day boarding:
   - students who changed from a 5-day boarding to a 7-day boarding or vice versa are counted as new admission to that type of boarding service.

4. The number of School Leavers is counted as follows:
   (i) Day place:
   - only last attendance at ID schools is counted;
   - excluding those students transferred between ID schools.
   (ii) 5-day and 7-day boarding:
   - students who left from a 5-day boarding to a 7-day boarding or vice versa are counted as school leavers of that type of boarding.

5. (i) Students who completed secondary education are counted.
   (ii) Adult Services include day activity centres, sheltered workshops cum hostels, supported hostels, etc.
   (iii) The above information was collected from special schools in July and August of the respective school years. As such, the above figures may not reflect the actual situation of the post-school arrangement of school leavers.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6950)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (228) Student Financial Assistance

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. What are the number of students who travel to and from schools by school buses and their distributions by district? And what are the school bus fares involved?

2. Regarding the School-based After-School Learning and Support Programmes (Programme):
   (i) How much was last year's provision?
   (ii) How many schools took part in the Programme and what was their percentage share among all schools in the territory?
   (iii) What was the number of students who benefited from the Programme (disaggregated by students receiving Comprehensive Social Security Assistance (CSSA), full grant under the School Textbook Assistance Scheme (STAS), half grant under STAS or other students)?
   (iv) How many people were benefitted?
   (v) How many one-off activities?
   (vi) How many activities were for long-term development?
   (vii) How much cash assistance was provided to each student per year for participating in extra-curricular activities?
   (viii) What was the effectiveness of the Programme?
   (ix) What is the estimated amount of provisions for the next 3 years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1486)

Reply:

1. In the light that schools and parents would arrange school buses for their students/children on their own, the number of students who travel to and from schools by school bus with breakdown by district and fare is not available.

2. To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant (SBG) and Community-based Project (CBP) Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of CSSA or full grant under the Student Financial Assistance Schemes (SFAS).

   To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of CSSA or full grant of SFAS but identified by schools as needy (including students receiving half grant of SFAS, new arrivals, single parent households, etc.). Besides, eligible participating schools (i.e. having a utilisation rate of 80% or above of the provision in the previous year) have been provided with incentive funding under the SBG (which is calculated at an annual rate of $600 per eligible student vis-à-vis $400 in other schools and includes an additional 25% of the provision following the increase in the discretionary quota mentioned above).

   In the 2018/19 school year, the total funding earmarked for the Programme is about $240 million, including about $114 million for the SBG and about $126 million for the CBP Grant. For the SBG, 898 schools which constitute more than 90% of all the schools in the territory with 201 700 students eligible for the grant have participated in the Programme. Among them, about 49 100, 119 900 and 32 700 are in receipt of CSSA, full grant of SFAS and others (i.e. participating under the 25% discretionary quota) respectively. Regarding the CBP Grant, the 436 projects organised by 171 NGOs are targeted at individual eligible students totaling about 100 000. To avoid labelling on participating students, NGOs have not asked participating students referred by schools to identify themselves as CSSA recipients, full-grant SFAS recipients or participants using discretionary quota. Breakdown of participating students by students in receipt of CSSA, full grant of SFAS, etc. is therefore not available.

   The objectives of organising various after-school activities by participating schools under the Programme are to help increase learning effectiveness (such as tutorial services and training of learning skills), broaden learning experience outside classroom (such as art and cultural as well as sports activities) and raise understanding of and sense of belonging to the community (such as volunteer services). Seen from this perspective, the activities, some of which may be one-off, are for sustainable development of the students concerned.

The provision of the Programme is complementary in nature and is targeted at schools and NGOs. Apart from the Programme, the Government has launched various funding schemes to support schools and NGOs to organise after-school activities, including after-school tutorial services to cater for the diverse needs of needy students. Besides, flexible deployment of the grants provided, as encouraged by EDB, has enabled schools to inject more funding into after-school activities for needy students. It is not the objective or design of the Programme to simply offer cash assistance to individual eligible students for participating in extra-curricular activities of their own choice. Information on the amount of cash assistance provided to each student participating in after-school activities is not available.

Assessment of the effectiveness of the Programme is done annually at two levels. The Incorporated Management Committee/School Management Committee of the school in receipt of the SBG is accountable for proper use of the grant for its intended objectives and review of the effectiveness of the Programme. To enhance transparency, schools are required to include the Programme in their School Annual Plan and set out the review findings in the School Report. NGOs are required to submit, among others, an evaluation report on the effectiveness of the projects organised to EDB. In addition, EDB collects feedback from stakeholders through surveys and conducts supervisory visits to examine the implementation of the Programme. In general, stakeholders agree that the Programme for the afore-mentioned objectives is effective. Upon review of the utilisation of the funding, EDB has enhanced the SBG starting from the 2014/15 school year, including increasing schools' discretionary quota as mentioned above. For budgetary purpose, EDB will continue to earmark a provision of $240 million for the Programme for the years ahead.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6951)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please provide details of the staffing of various types of special schools and boarding sections (if any),,the amounts of salary of different categories of posts and grant for different areas (including maintenance of facilities) of the various types of schools, construction cost, standard school infrastructure, cost per capita of the school section, area of space per boarder and cost per capita in the boarding section.

2. For schools for children with severe intellectual disability, please provide the number of students, the number of new intakes and their age, and the number of school leavers and their age in the past 5 years. For various types of adult services, please provide the number of new applicants on the waiting list and the number of school leavers who proceeded to adult services in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1488)

Reply:

1. Aided special schools are provided with teaching staff, various types of specialists and non-teaching/non-specialist staff on their staff establishment. The number of staff and their respective salary scales in the 2018/19 school year are set out at Appendix 1 and Appendix 2 respectively. The average unit cost per school place and per boarding place of each type of aided special schools in the 2018/19 school year is set out at Appendix 3.

Currently, all aided special schools are provided with an Expanded Operating Expenses Block Grant (EOEBG) for meeting operating expenses. The EOEBG includes virtually all non-salary recurrent grants, except those which are ad-hoc in nature, currently under review, and paid for very specific purpose on a reimbursement basis. It also includes the Composite Furniture and Equipment Grant for schools to procure furniture and equipment items, to cover the maintenance/repairs fees for these items, etc. The details of EOEBG can be accessed from the website of the Education Bureau:
http://www.edb.gov.hk/en/sch-admin/fin-management/subsidy-info/ref-e-oebg-cfeg/index.html

Aided special schools can also apply for capital subventions to carry out major school maintenance/repair works under the annual major repairs exercise and emergency repairs mechanism. The total approved project estimates in the 2018-19 financial year is about $117 million.

There are different types/scales of special schools with different provision of facilities to meet the different needs of their target students. Taking the two Capital Works special school projects approved by the Finance Committee of the Legislative Council in June 2018, namely "8032ED – Conversion to Heung Hoi Ching Kok Lin Association Buddhist Po Kwong School" and "8033ED – Provision of Boarding Section of Hong Chi Pinehill School and reprovisioning of Boarding Section of Hong Chi Pinehill No. 2 School in Tai Po" as examples, the estimated construction unit costs, represented by building and building services costs, are $26,775 and $33,094 per m^2 of Construction Floor Area in money-of-the-day price respectively.

Apart from essential school facilities in the school section such as classrooms, special rooms (e.g. visual arts room, computer room, design and technology room, home economics room, etc. depending on the subjects offered by the special school), library, student activity centre, multi-purpose area, assembly hall, staff room and other ancillary facilities, including a disabled/fireman's lift, facilities for the disabled, store rooms and toilets, the facilities provided for different types of special schools would be different. Other facilities such as physiotherapy room(s), occupational therapy room(s), speech therapy room(s) and social worker's room(s), etc., would be provided as appropriate. The school facilities to be provided to each newly constructed special school are approved by the Property Vetting Committee (PVC) on a project basis as appropriate. PVC is chaired by the Assistant Director (Architectural) of Architectural Services Department with members from the Government Property Agency, Treasury Branch of the Financial Services and the Treasury Bureau and other members to be co-opted as required.

Similarly, approval would be sought from PVC on a project basis as appropriate for the boarding section of newly constructed special school, if any. Common facilities such as bedrooms, study area, TV/common room, dining/multi-purpose room, kitchen, laundry room, drying area, warden's office, houseparents' and programme workers' office, nurse duty room/sick bay, sleep-in room(s) for staff on night shift and other ancillary facilities, including stores, toilets, bathrooms, relevant facilities for the disabled, etc., would be provided.

2. The number of students, new students and leavers of schools for children with severe intellectual disability (SID) in the past 5 years is set out in Table I of Appendix 4. The number of students admitted to and waiting for admission to adult services in the past 5 years is set out in Table II of Appendix 4. According to our record, the age range of new students in the past 5 school years is from 6 to 17. With the implementation of the New Senior Secondary academic structure in the 2009/10 school year, students of special schools, including schools for children with SID, will leave school after completion of Secondary Six. Under special circumstances where individual students may need to extend their years of study due to valid reasons, arrangements will be made in accordance with the established mechanism. On the other hand, some students may leave earlier for various reasons, such as having secured a post-school placement or deceased. The age range of school leavers in the past 5 school years is from 6 to 24.

I. Staff Establishment of the School Section in the 2018/19 School Year

School Type	Number of Teaching Staff Note 1	Non-teaching Staff	
		Number of Specialist Staff Note 2	Number of Non-specialist Staff Note 3
Visual Impairment	43.1	20.5	29
Hearing Impairment	26	9.5	19
Physical Disability	227.9	162.5	296
Mild Intellectual Disability Note 4	598	171.5	243.5
Moderate Intellectual Disability Note 4 & 5	552.7	164	294
Severe Intellectual Disability Note 5	208.6	127.5	283
School for Social Development	191.4	26.5	89
Hospital School	64.4	Not Applicable Note 6	28

Notes:

1. Teaching staff establishment excludes teachers employed with other grants (e.g. resource teacher for Supportive Remedial Service, Enhanced Support Service and Resource Support Programme and teacher for Home-bound Teaching Programme in the Hospital School).
2. Specialist staff establishment includes school social worker, speech therapist, physiotherapist, occupational therapist, occupational therapy assistant, educational psychologist, brailling staff and nurse.
3. Non-specialist staff establishment includes clerical staff, laboratory technician, workshop attendant, janitor staff, motor/special driver, teacher assistant and artisan.
4. Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
5. 1 school for children with severe intellectual disability operates classes for children with moderate intellectual disability on a pilot basis starting from the 2017/18 school year. The figures are categorised according to the respective class types.
6. The Hospital School operates classes at 18 hospitals. Specialist services for its students are provided by the respective hospitals.

II. Staff Establishment of the Boarding Section in the 2018/19 School Year

School Type	Number of Specialist Staff [Note1]	Number of Non-specialist Staff [Note2]
Visual Impairment	38	26.8
Hearing Impairment	5	7.4
Physical Disability	143	75.7
Moderate Intellectual Disability	115 [Note3]	72 [Note3]
Severe Intellectual Disability	198	121.5

Notes:

1. Specialist staff establishment includes warden, assistant warden, houseparent-in-charge, houseparent, programme worker and nurse.
2. Non-specialist staff establishment includes clerical assistant, janitor staff, cook and watchman.
3. The figures include relevant staff in 1 school for children with severe intellectual disability which has been involved in providing boarding service for children with moderate intellectual disability on a pilot basis since the 2017/18 school year.

I. Salary Scale of Teaching Staff in the 2018/19 School Year

Post	Salary Scale
Certificated Master/Mistress	$28,725 – $46,420
Assistant Master/Mistress	$48,540 – $58,345
Senior Assistant Master/Mistress	$61,060 – $70,090
Assistant Primary School Master/Mistress	$30,165 – $58,345
Primary School Master/Mistress	$61,060 – $70,090
Senior Primary School Master/Mistress	$70,590 – $71,520
Graduate Master/Mistress	$30,165 – $70,090
Senior Graduate Master/Mistress	$70,590 – $85,770
Principal Graduate Master/Mistress	$81,975 – $93,315
Principal II	$89,460 – $105,175
Principal I	$112,250 – $129,325

II. Salary Scale of Specialist Staff in the 2018/19 School Year

Post		Salary Scale
Educational Psychologist II		$44,325 – $70,090
Educational Psychologist I		$70,590 – $105,175
Occupational Therapist Assistant		$19,030 – $30,165
Occupational Therapist II		$28,725 – $46,420
Occupational Therapist I		$48,540 – $70,590
Senior Occupational Therapist		$70,590 – $85,770
Physiotherapist II		$28,725 – $46,420
Physiotherapist I		$48,540 – $70,590
Senior Physiotherapist		$70,590 – $85,770
Speech Therapist		$31,685 – $70,090
Special School Social Worker	Assistant Social Work Officer	$31,685 – $70,090
	Senior Social Work Assistant	$44,325 – $58,345
Registered Nurse		$30,165 – $48,540
Brailling Staff		$17,855 – $30,165
Warden	Assistant Social Work Officer	$31,685 – $70,090
	Senior Social Work Assistant	$44,325 – $58,345
	Chief Social Work Assistant	$61,060 – $70,090
Assistant Warden	Social Work Assistant	$21,585 – $42,330
	Senior Social Work Assistant	$44,325 – $58,345
Houseparent		$21,585 – $42,330
Houseparent-in-charge		$21,585 – $42,330[Note]
Programme worker		$21,585 – $42,330

Note:

A responsibility allowance will be payable to houseparents-in-charge at the rate of two increments (ranging from $2,685 to $4,090) above their substantive pay.

II. Salary Scale of Non-specialist Staff in the 2018/19 School Year

Post	Salary Scale
Laboratory Technician III	$14,185 – $16,095
Laboratory Technician II	$20,270 – $40,420
Laboratory Technician I	$42,330 – $55,705
Workshop Attendant	$13,885 – $16,975
Artisan	$16,790 – $20,270
Motor Driver	$16,790 – $20,270
Special Driver	$20,270 – $22,865
Teacher Assistant	$13,040 – $15,365
Watchman	$13,885 – $16,975
Cook	$16,790 – $20,270
Clerical Assistant	$13,045 – $22,865 #
Assistant Clerical Officer	$14,780 – $30,165 #
Janitor Staff	$13,040 – $15,365 #

Aided special schools are provided with an Administration Grant (AG) or Revised Administration Grant (RAG) for employing clerical and janitor staff, or contracting out clerical or janitor service to meet their specific needs. The schools concerned will be provided with a lump sum equivalent to the salary of the clerical (solely for RAG) and janitor staff posts. The salary scale of these posts in the above table is meant for schools' calculation of grant/reference.

I. Average Unit Cost per School Place in the 2018/19 School Year

School Type	Average Unit Cost per School Place
Visual Impairment	$397,500
Hearing Impairment	$395,500
Physical Disability	$360,000
Mild Intellectual Disability	$211,500
Moderate Intellectual Disability	$304,500
Severe Intellectual Disability	$389,000
School for Social Development	$220,000
Hospital School	$211,000

II. Average Unit Cost per Boarding Place in the 2018/19 School Year

School Type	Average Unit Cost per Boarding Place
Visual Impairment	$194,000
Hearing Impairment [Note]	Not Applicable
Physical Disability	$319,500
Moderate Intellectual Disability	$273,000
Severe Intellectual Disability	$350,500

Note:

The boarding section of the school for children with hearing impairment has just commenced operation starting from the 2018/19 school year and provides a few boarding places. Calculation of average unit cost per boarding place is not applicable.

I. Number of Students, New Students and Leavers of Schools for Children with Severe Intellectual Disability (SID) from the 2013/14 to 2017/18 School Years

School Year	2013/14	2014/15	2015/16	2016/17	2017/18
Number of Students Note1	704	691	679	687	699
Number of New Students Note2&4	65	59	70	73	78
Number of School Leavers Note3&4	76	79	62	73	64

Notes:

1. Figures show the position as at September of the respective school years.
2. Only first admission to a school for children with SID is counted.
3. Only last attendance at a school for children with SID is counted.
4. Excluding students transferred between schools for children with SID.

II. Number of Students of Schools for Children with SID Admitted To and Waiting for Admission to Adult Services from the 2013/14 to 2017/18 School Years

School Year	2013/14	2014/15	2015/16	2016/17	2017/18
Admission	38	49	37	28	23
Wait-listing	12	10	6	15	17

Notes:

1. Adult services include day activity centres, sheltered workshop cum hostels, supported hostels, etc.
2. The information was collected from special schools in July and August of the respective school years. As such, the above figures may not reflect the actual situation of the post-school arrangements of the school leavers.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6952)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please list, by the disability category of special schools, the unit cost (including the school section and the boarding section) per student per year.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1489)

Reply:

The average unit costs per school place and per boarding place for each type of special schools in the 2018/19 school year are as follows:

School Type	Average Unit Cost per School Place	Average Unit Cost per Boarding Place
School for Children with Visual Impairment	$397,500	$194,000
School for Children with Hearing Impairment	$395,500	Not Applicable [Note 1]
School for Children with Physical Disability	$360,000	$319,500
School for Children with Mild Intellectual Disability	$211,500	Not Applicable [Note 2]
School for Children with Moderate Intellectual Disability	$304,500	$273,000
School for Children with Severe Intellectual Disability	$389,000	$350,500
School for Social Development	$220,000	Not Applicable [Note 3]
Hospital School	$211,000	Not Applicable [Note 4]

Notes:

(1) The boarding section of the school for children with hearing impairment has just commenced operation starting from the 2018/19 school year and provides only a few boarding places. Calculation of average unit cost per boarding place is not applicable.

(2) Schools for children with mild intellectual disability do not provide boarding service.

(3) Residential home services provided in schools for social development are subvented by the Social Welfare Department.

(4) Hospital School only provides educational services to hospitalised students and does not provide boarding services.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6953)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2012/13 school year, the Education Bureau has, in addition to the Student Guidance Service Grant (SGS Grant), provided each public sector primary school with an additional grant according to its number of classes. The additional grant is equivalent to $15,000 per class per year. In this connection, would the Government advise this Committee of the following:

1. the total amount of SGS Grant provided per year since the 2012/13 school year;

2. the total amount of additional grant provided per year since the 2012/13 school year;

3. the total amount of unspent grant of the public sector primary schools receiving SGS Grant in each of the school years since 2012/13.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1490)

Reply:

The total amount of the Student Guidance Service Grant (SGS Grant) and the Top-up Student Guidance Service Grant (Top-up Grant) for the past 5 school years (i.e. from the 2014/15 to 2018/19 school years) is tabulated as follows:

	2014/15 School Year ($ million)	2015/16 School Year ($ million)	2016/17 School Year ($ million)	2017/18 School Year ($ million)	2018/19 School Year ($ million) (Estimated Expenditure)
SGS Grant	146.3	157.3	168.3	181.4	65.0
Top-up Grant	65.4	68.3	71.3	72.9	104.4
Total	211.7	225.6	239.6	254.3	169.4

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" policy according to school-based circumstances. The measure is implemented on the basis of the Comprehensive Student Guidance Service (CSGS) to provide schools with more resources. The objective of the measure is to further enhance the overall quality of guidance service by ensuring that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualification. Under the new funding mode, schools may, having regard to their own circumstances, create a regular Assistant Social Work Officer (ASWO) post to increase stability or receive an equivalent subsidy to employ a school-based registered graduate social worker or hire service of a school-based registered graduate social worker from a social work service provider. Schools are also provided with the Consultation Service Grant to procure consultation, supervision or other support services for school social workers to ensure service quality. Besides, the existing arrangements for the Top-up Grant is enhanced so that all public sector primary schools have more resources to enhance school social work and guidance services. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode. The estimated total expenditure on student guidance service under the old funding mode and the new funding mode is $436 million.

The total amount of unspent SGS Grant (including the Top-up Grant) of public sector primary schools for the 2014/15, 2015/16 and 2016/17 school years is $17.7 million, $14.8 million and $15.8 million respectively. Relevant information of the 2017/18 school year is not available as the audited accounts for the school year is not yet due.

Question:

What were the respective numbers of different type of cases under the Comprehensive Student Guidance Service in primary schools for the past 5 school years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1493)

Reply:

Based on the annual data collected through an online system from student guidance personnel of public sector primary schools, the respective number of student cases under the Comprehensive Student Guidance Service by case category for the past 5 years (i.e. from the 2013/14 to the 2017/18 school years) are summarised as follows:

Case Category	School Year				
	2013/14	2014/15	2015/16	2016/17	2017/18
Conduct Problems	1 349	1 306	1 254	1 277	1 256
Emotional/Psychological Problems	2 523	2 743	2 945	3 190	3 353
Family/Environmental Problems	1 945	1 976	1 940	1 941	2 089
Health/Physical Problems	124	103	92	94	87
Learning Problems	1 394	1 210	1 071	1 025	985
Social/Developmental Problems	465	460	426	407	481

Question:

What were the numbers of government and aided primary schools provided with Student Guidance Officers, Student Guidance Teachers and the Student Guidance Service Grant in each of the past 5 school years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1494)

Reply:

The number of public sector primary schools provided with Student Guidance Officers, Student Guidance Teachers and the Student Guidance Service Grant in the past 5 school years (i.e. 2014/15 to 2018/19) are as follows:

Number of Public Sector Primary Schools Provided with	2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year
Student Guidance Officers	13	12	10	7	6
Student Guidance Teachers	127	125	121	119	113
Student Guidance Service Grant	312	317	323	328	114

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode.

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the up-to-the-minute information on the respective numbers of schools that can and cannot meet the requirements on barrier-free access set out by the Buildings Department, as well as a breakdown of the number of barrier-free facilities.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1495)

Reply:

All of the public sector special schools are provided with barrier-free access, except two schools for social development because of site constraints and hence the provision is technically infeasible (with one of them to be reprovisioned to a newly constructed school premises in the 2019/20 school year). In the 2018/19 school year, there are a total of 929 ordinary public sector and Direct Subsidy Scheme (DSS) schools in Hong Kong. Among them, 236 schools constructed after 1997 are in compliance with the relevant prevailing requirements promulgated by the Buildings Department on barrier-free access to facilitate access to school buildings and facilities by persons with disabilities. For those built before 1997, subject to technical feasibility, the Education Bureau (EDB) has, through the second and subsequent phases of the School Improvement Programme, installed barrier-free facilities such as lifts, accessible toilets and ramps, etc., in their premises.

When major alteration or improvement works are carried out in schools, the EDB will also take the opportunity to install in their premises the barrier-free facilities needed as far as possible and in accordance with the latest requirements on barrier free access and other established criteria. Furthermore, schools may apply to carry out repairs and improvement works on their school facilities according to their needs in the context of annual major repairs (MR) exercise, including the provision of barrier-free facilities. In the process, the EDB will give consideration to technical feasibility, urgency for such facilities as compared with other applications, availability of alternative measures, and availability of funding.

For instance, the EDB progressively took over MR projects for aided schools in April 2010, and has so far approved a total of 46 lift installation applications through the annual MR mechanism.

To expedite the lift installation works for schools without such provision, the Government has made a provision of $2 billion and formed a dedicated team to centrally handle the lift installation works for these schools. The EDB sent a letter to all aided and DSS schools on 1 March 2018 explaining the objective of the programme and inviting applications from schools which have no lift and have yet to make any installation request to return the reply slip. Schools which have already submitted applications through the annual MR mechanism do not need to apply again. The EDB has consolidated the information collected and conducted preliminary analysis, as well as arranged visits to the schools to ascertain their circumstances. Meanwhile, the newly appointed consultants of the EDB assumed duty as scheduled in March 2019 and have started to arrange dedicated staff to conduct preliminary technical feasibility assessments for those aided schools confirmed with lift installation needs. It is expected that the assessments will be completed by the end of 2019. The lift installation timetable will be formulated based on the results of the technical feasibility assessments and the actual circumstances of individual schools for execution.

Besides, to help schools cater for students with special educational needs, the EDB has been providing additional resources to schools, including the application for Top-up Fund for procuring special furniture and assistive equipment or carrying out minor conversion works such as construction of ramps, procurement of stair climbers, conversion of toilets, or provision of tailor-made desks and chairs) for students with physical disability to facilitate their mobility and learning within the school premises.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the number of students with special educational needs identified and referred by using the "Observation Checklist for Teachers" and "The Hong Kong Behaviour Checklist of Specific Learning Difficulties in Reading and Writing for Primary School Students" in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1496)

Reply:

Under the Early Identification and Intervention Programme for Primary One (P1) Students with Learning Difficulties (EII Programme), teachers complete the Observation Checklist for Teachers and The Hong Kong Behaviour Checklist of Specific Learning Difficulties in Reading and Writing for Primary School Students to identify P1 students with learning difficulties and arrange early intervention for them. The progress of these students will be monitored by schools. Those students whose difficulties are severe or persistent despite intervention will be referred to specialists for assessment. The number of students identified to have marked difficulties via the EII Programme and referred for diagnostic assessment from the 2013/14 to 2017/18 school years was about 3 800, 3 800, 3 800, 4 200 and 4 500 respectively. We note that the increasing trend is related to the increased number of P1 students in public sector primary schools in recent years.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6959)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information regarding the Vocational Training Council in the past 5 years:

1. the expenditure, enrolment, training hours, graduation rate and the industries concerned of the Vocational Development Programmes and Youth College;

2. the number of students with special educational needs (SEN) by institution, programme, type of disability/SEN;

3. the expenditure on supporting students with SEN by type of support required.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1497)

Reply:

1. The Youth College (YC) of the Vocational Training Council (VTC) provides a variety of vocational and professional education and training (VPET) programmes, including Diploma of Vocational Education (DVE) and Diploma of Foundation Studies (DFS) programmes, for post-secondary 3 graduates. These programmes help students build a solid foundation for further studies and employment. The training hours vary depending on the type of programme enrolled. For example, the DVE programmes adopt a curriculum structure made up of credit-based modules with multiple entry and multiple exit points. It allows flexible exit at intermediate stages with the award of Certificate of Vocational Education or continuance of studies to obtain the final award of DVE. Students who have completed Secondary 3 normally take 3 to 4 years to obtain the DVE award. Most YC students who are enrolled in the DVE and DFS programmes would normally attend a full-time course of about 700 to 1 000 training hours per academic year (AY). As the facilities in different campuses are often shared by students of different levels of programmes offered by the VTC, and staff may be deployed to different campuses as and when required, the expenditure for YC alone is not available.

The number and the graduation rate of students attending full-time and part-time VPET programmes in the 8 campuses of the YC in the recent 5 AYs are as follows:

AY	Number of students at all levels	Graduation rate*
2014/15	10 499	78%
2015/16	11 191	75%
2016/17	12 070	71%
2017/18	11 632	71%
2018/19 (provisional)	11 194	Not available yet as students will graduate in August 2019

* Number of graduating students is taken as a percentage of the number of final year students who have obtained an award.

The Vocational Development Programme (VDP) offers courses which target youths aged between 14 and 24. Each course lasts for 300 training hours and is delivered over a three-month period. VDP is funded by the Employees Retraining Board and the Labour and Welfare Bureau. The expenditures incurred from the 2014-15 to 2018-19 financial years are listed as follows:

Financial year	$ Million
2014-15	25
2015-16	21
2016-17	21
2017-18	20
2018-19 (provisional)	21

The number of students and the completion rate of VDP are listed below:

AY	Number of students	Completion rate
2014/15	631	73%
2015/16	560	74%
2016/17	510	76%
2017/18	517	83%
2018/19	Staggered intakes over the AY; admission is still in progress	

YC's programmes and VDP courses cover various disciplines/fields, including beauty care and hairdressing, design, engineering, catering, sports coaching, and information technology.

2. The number of students with special educational needs (SEN) studying in member institutions of the VTC from the 2014/15 to 2018/19 AY is as follows:

2014/15 AY

Member Institution	Programme	No. of students[(Note)]	Type of SEN
Technological and Higher Education Institute of Hong Kong	Undergraduate	3	- Specific Learning Difficulties - Autism Spectrum Disorders - Hearing Impairment
School for Higher and Professional Education	Undergraduate	17	- Specific Learning Difficulties - Autism Spectrum Disorders - Physical Disability - Hearing Impairment - Others

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6960)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide, on a territory basis, the respective total number of students with special educational needs (SEN) proceeding to sub-degree programmes, UGC-funded undergraduate programmes, self-financing undergraduate programmes, postgraduate programmes and overseas post-secondary programmes in the last 5 academic years, with a breakdown by 9 major types of SEN.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1498)

Reply:

Based on the information provided by post-secondary institutions, the number of students with SEN pursuing University Grants Committee (UGC)-funded and non-UGC-funded full-time locally-accredited programmes from the 2014/15 to 2018/19 academic years is set out at **Appendix A** and **Appendix B** respectively. We do not have information on the number of students with SEN receiving post-secondary education outside Hong Kong in the past 5 years.

Appendix A

Number of students with SEN
pursuing UGC-funded full-time locally-accredited programmes
from the 2014/15 to 2018/19 academic years
by type of disabilities and level of study (Note 1)

(Headcount)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6961)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:
1. The number of teachers who attended the 30-hour, 90-hour and 120-hour workshops/training courses on special education held by the Education Bureau in the last 5 financial years with a breakdown by kindergarten, primary and secondary school teachers.

2. The number of Chinese and English language teachers currently in schools who attended the 30-hour, 90-hour and 120-hour workshops/training courses on special education held by the Education Bureau, and their percentage shares in the Chinese and English language teachers of the same class level.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1499)

Reply:

1. and 2.

Starting from the 2007/08 school year, the Education Bureau has been providing structured training courses on supporting students with special educational needs (SEN) pitched at Basic, Advanced and Thematic levels (BAT Courses) targeted for serving teachers in primary and secondary schools. The number of primary and secondary school teachers who attended the BAT Courses from the 2013/14 to 2017/18 school years is set out at the Appendix. Figures for the 2018/19 school year are not yet available.

Since the BAT Courses aim at equipping teachers, regardless of which subject(s) they teach, with the expertise in supporting students with SEN, we do not have the number of language teachers who have attended the BAT Courses or their percentage share in the total number of language teachers.

Appendix

Number of teachers who attended the Basic, Advanced and Thematic Courses from the 2013/14 to 2017/18 school years

Course	Teacher	School Year				
		2013/14	**2014/15**	**2015/16**	**2016/17**	**2017/18**
Basic	Primary	232	230	229	269	303
	Secondary	412	360	418	521	480
Advanced	Primary	103	83	116	135	166
	Secondary	169	101	169	231	165
Thematic	Primary	226	167	208	217	232
	Secondary	338	347	286	298	315

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6964)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the past 5 years:

1. the number of kindergartens (KGs) (whole-day (WD) KGs and half-day (HD) KGs), primary schools, secondary schools and special schools by sector (government, aided, Direct Subsidy Scheme (DSS), private international and private non-international) and district;

2. the number of students in KGs (WD KGs and HD KGs), primary schools, secondary schools and special schools by sector (government, aided, DSS, private international and private non-international); and

3. the number of students in KGs (WD KGs and HD KGs), primary schools (government, aided, DSS, private international and private non-international), secondary schools (government, aided, DSS, private international and private non-international) and special schools by students' district of residence, school district, sex, grade and type of special education needs,.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3500)

Reply:

The number of kindergartens (KGs), primary schools and secondary schools by district and type/sector from the 2014/15 to 2018/19 school years is set out at Appendix 1; the respective number of students in KGs, primary schools and secondary schools by district and type/sector is set out at Appendix 2; the respective number of students in KGs, primary schools and secondary schools by sex and type/sector is set out at Appendix 3; and the respective number of students in KGs, primary schools and secondary schools by grade and type/sector is set out at Appendix 4.

The Education Bureau (EDB) does not collect information on the district of residence of KG students, nor is there readily available information on the district of residence for all sectors of primary and secondary school students.

The number of students with special educational needs (SEN) studying in public sector ordinary primary and secondary schools by grade and by SEN type from the 2014/15 to 2018/19 school years is set out at Appendix 5. The number of students with SEN studying in the English Schools Foundation (ESF) schools, other private international schools and private independent schools from the 2014/15 to 2018/19 school years is set out at Appendix 6. The figures are collected in the annual Student Enrolment Survey conducted by the EDB and refer to the position as at September of the respective school years. However, as some schools did not provide the relevant information in the survey, the data may not reflect the actual number of students. Besides, since these schools have their own mechanisms of classifying students with SEN which may not be comparable with those adopted in public sector schools, provision of breakdown by SEN type may be misleading. Since schools are not required to provide information on all students with SEN with breakdown by other categories, we are not able to provide the relevant figures. In addition, as support services for children with special needs at pre-primary level are provided by the Social Welfare Department (SWD), the EDB does not maintain data on students with special needs at various kindergarten levels. We do not collect relevant figures from Direct Subsidy Scheme schools and other private primary and secondary schools.

The number of special schools by school type from the 2014/15 to 2018/19 school years is set out at Appendix 7; and the number of students in special schools by school type is set out at Appendix 8. Since the number of students who need to be admitted to special schools is relatively small, the planning and provision of special school places are not on a district basis. As such, providing corresponding figures by district is not meaningful. In addition, it is a common practice for special schools to adopt flexible groupings across grades and devise individual education plan to cater for the special educational needs of individual students. Therefore, presenting the number of students by grade and sex cannot reflect the actual operation in special schools.

Number of Kindergartens by District and Type from the 2014/15 to 2018/19 School Years

2014/15 School Year

2018/19	10	9	6	4	13	13	22	42	53	57	61	74

Notes:

1. Figures refer to the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
2. The numbers of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school year and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

**Number of students with special educational needs (SEN)
in the English Schools Foundation (ESF) schools, other private international schools and private independent schools (PIS)
from the 2014/15 to 2018/19 school years**

School Year	ESF		PIS		Other Private International		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
2014/15	136	256	117	175	329	163	582	594
2015/16	230	435	178	277	385	175	793	887
2016/17	245	565	172	231	323	179	740	975
2017/18	439*	422*	183	234	404	284	1 026	940
2018/19	365	458	177	291	482	348	1 024	1 097

* The ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and has required all its schools to provide such figures to the EDB in the Student Enrolment Survey accordingly since the 2015/16 school year. However, in an internal review of the ESF schools' practice in compiling the number of students with SEN in September 2017, the ESF found that the practice was still inconsistent among individual schools. The ESF has verified again the information provided by each ESF school in the Student Enrolment Survey. Therefore, there is a relatively significant change in the number of students with SEN in the 2017/18 school year when compared with previous years.

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Statistics cover students with SEN under integrated classes/special classes/special schools in PIS, the ESF and other private international schools as reported by the schools concerned in response to the Student Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

Number of special schools by school type
from the 2014/15 to 2018/19 school years

School Type	2014/15	2015/16	2016/17	2017/18 Note 2	2018/19 Note 3
Schools for Children with Visual Impairment	2	2	2	2	2
Schools for Children with Hearing Impairment	2	2	2	2	1
Schools for Children with Physical Disability	7	7	7	7	7
Schools for Social Development	7	7	7	8	8
Schools for Children with Intellectual Disability	41	41	41	41	41
Hospital School Note 1	1	1	1	1	1

Notes:

(1) The Hospital School operates classes at 18 hospitals.
(2) 1 new school for social development commenced operation in the 2017/18 school year.
(3) 1 school for children with hearing impairment completed mainstreaming with effect from the 2018/19 school year.

Number of students in special schools by school type from the 2014/15 to 2018/19 school years

School Type	2014/15 (Note 1)	2015/16 (Note 1)	2016/17 (Note 1)	2017/18 (Note 1)	2018/19 (Note 1)
Visual Impairment	126	125	123	112	110
Hearing Impairment	102	87	89	84	64
Physical Disability	921	915	883	877	907
Mild Intellectual Disability (Note 2)	3 051	3 049	3 103	3 154	3 218
Moderate Intellectual Disability (Notes 2 & 3)	1 865	1 879	1 911	1 992	2 040
Severe Intellectual Disability (Note 3)	691	679	687	699	706
Schools for Social Development	632	600	553	594	614
Hospital School	255	369	333	314	280
Total	7 643	7 703	7 682	7 826	7 939

Notes:

(1) Figures refer to the position as at September of the respective school years.
(2) The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of schools for children with MiID and MoID (7 schools in the 2014/15 and 2015/16 school years and 5 schools starting from the 2016/17 school year).
(3) 1 school for children with severe intellectual disability operates classes for children with MoID on a pilot basis starting from the 2017/18 school year.

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What are the total numbers of students in each grade of pre-primary, primary and secondary schools in the current school year?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3701)

Reply:

The numbers of students in kindergartens (including kindergarten-cum-child care centres), primary and secondary schools by grade in the 2018/19 school year are given below:

Level	Grade	Number of students
Kindergarten (including kindergarten-cum-child care centre)	K1	58 168
	K2	59 978
	K3	56 256
	K1 to K3	**174 402**
Primary	P1	66 914
	P2	64 700
	P3	61 238
	P4	60 351
	P5	60 829
	P6	58 433
	P1 to P6	**372 465**
Secondary	S1	58 140
	S2	55 603
	S3	53 637
	S4	52 793
	S5	51 728
	S6	51 206
	S7	2 391
	S1 to S7	**325 498**

Notes: (1) Figures do not include special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses.

(2) Figures refer to the position as at September of the relevant school year.

(3) Upon implementation of the New Senior Secondary Academic Structure, there are no subsidised secondary 7 places under local curriculum starting from the 2012/13 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6984)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

1. the number of non-Chinese speaking ("NCS") students enrolled into each of the two Applied Learning Chinese (for NCS students) courses and the number of students completing each of the two courses for the 2014-2016, 2015-17 and 2016-2018 cohorts respectively desegregated by results (i.e. attained, attained with distinction);

2. the number of secondary schools with students enrolled into each of the two Applied Learning Chinese (for NCS students) courses for the 2014-2016, 2015-2017 and 2016-2018 cohorts respectively;

3. the number of NCS students who applied for the Applied Learning Chinese (for NCS students) courses from 2014/15 to 2017/18 academic years but not accepted as a result of unable to meet the minimum language entry requirement;

4. the amount of subsidies the government has granted for students to be enrolled into each of the Applied Learning Chinese (for NCS students) courses and the actual amount of expenditure on each course by the course provider (by breakdown of expenditure category) for the 2014/15 to 2017/18 academic years respectively;

5. the number of teachers instructing Applied Learning Chinese (for NCS students) courses from 2014/15 to 2017/18 academic years respectively and the number of teachers who received prior training in teaching 'Chinese as a Second Language';

6. whether the government has allocated any funding to the course providers of the Applied Learning Chinese (for NCS students) courses for the 2014-2016, 2015-2017 and 2016-2018 cohorts apart from the subsidies of the course fees for the enrolled students (e.g. funding for curriculum development, teaching and learning material etc.); and

7. which level in the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") a NCS student is expected to have reached before taking each of the two Applied Learning Chinese (for NCS students) courses and which level in the Learning Framework a student is expected to reach after completing each of the two Applied Learning Chinese (for NCS students) courses.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3702)

Reply:

1. & 2. Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) was first introduced in the 2014/15 school year. The related enrolment figures for 2015-17 (the first cohort) and 2016-18 (the second cohort) are as follows:

	2015-17		2016-18	
	Number of students enrolled	Number of schools with students enrolled	Number of students enrolled	Number of schools with students enrolled
ApL(C) - Chinese for the Service Industry	125	7	138	17
ApL(C) - Practical Chinese in Hospitality	56	7	40	7

Among the first cohort of graduates sitting for the 2017 Hong Kong Diploma of Secondary Education Examination (HKDSE), for the subject ApL(C) - Chinese for the Service Industry, the number of students awarded "Attained" and "Attained with Distinction" are 79 and 20 respectively; as for the subject ApL(C) - Practical Chinese in Hospitality, the number of students awarded "Attained" and "Attained with Distinction" are 21 and 9 respectively. Among the second cohort of graduates sitting for the 2018 HKDSE, for the subject ApL(C) - Chinese for the Service Industry, the number of students awarded "Attained" and "Attained with Distinction" are 70 and 30 respectively; as for the subject ApL(C) - Practical Chinese in Hospitality, the number of students awarded "Attained" and "Attained with Distinction" are 15 and 5 respectively.

3. The number of non-Chinese speaking (NCS) students who have applied for the ApL(C) courses but not been accepted as a result of being unable to meet the minimum language entry requirement is not available.

4. The Government provides the Student Grant for ApL(C) (SG) to schools for fully subsidising students to take ApL(C) courses. From the 2014/15 to 2017/18 school years, the SG provided by the Government for ApL(C) - Chinese for the Service Industry are $1.64 million, $3.31 million, $4.83 million and $4.72 million respectively; while the SG for ApL(C) - Practical Chinese in Hospitality for the respective school years are $0.61 million, $1.06 million, $1.88 million and $1.93 million; as for the newly introduced course ApL(C) - Chinese in Business Service for 2018-20 (the fourth cohort), which has been implemented since the 2017/18 school year, the SG provided by the Government for that school year is

$0.75 million. We have not collected information from the course providers on the actual expenditure on each course.

5. Course providers will form a professional team for each course, including the main teaching staff with expertise in Chinese Language and experience in teaching NCS students. Apart from these, there are personnel with related professional and vocational experience to plan and support the delivery. In the process of course accreditation, the professional capacity of the team has been ascertained. We have not collected from the course providers the actual number of staff involved in the delivery of each course.

6. Apart from the subsidies of the course fees for the students enrolled, the Government does not allocate any funding to the course providers of ApL(C).

7. NCS students who aspire to study ApL(C) should have basic language competency to enable them to learn the Chinese language through different modes of activities in a simulated applied learning context. At the point of entry, they are expected to have achieved most of the learning outcomes of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") at level 4 or above. Upon completion of courses, NCS students are expected to have achieved the relevant learning outcomes of the "Learning Framework" at level 6 or above.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide information on kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS)/Free Quality Kindergarten Education Scheme (KG Scheme) that have admitted non-Chinese speaking (NCS) children in the past 5 school years.

	Total no. of KGs with NCS children	Total no. of KGs with 8 or more NCS children	Median no. of NCS children in KGs with NCS children	Average no. of NCS children in KGs with NCS children	Total number of KGs under PEVS/KG Scheme
2013/14					
2014/15					
2015/16					
2016/17					
2017/18					

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7716)

Reply:

Information on admission of non-Chinese speaking (NCS) children by kindergartens (KGs) that joined the Pre-primary Education Voucher Scheme (PEVS)/new KG education scheme (KG Scheme) in the past 5 school years (2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 school years) is as follows:

	Total number of KGs with NCS children	Total number of KGs with 8 or more NCS children	Median number of NCS children in KGs with NCS children	Average number of NCS children in KGs with NCS children	Total number of schools joining the PEVS/KG Scheme
2014/15	380	114	4	13	724
2015/16	376	114	4	13	732
2016/17	394	133	4	13	745
2017/18	391	159	5	13	748
2018/19	409	152	4	13	753

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above figures cover students whose ethnicity is Chinese but who are NCS based on the spoken language at home.
3. Figures cover students studying in KG-cum-child care centres.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6989)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. What is the respective number of government and aided primary schools provided with Student Guidance Officers, Student Guidance Teachers and the Student Guidance Service Grant in each of the past 5 school years?

2. What is the respective number of different types of cases under the Comprehensive Student Guidance Service in primary schools for the past 5 school years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7717)

Reply:

1. The number of public sector primary schools provided with Student Guidance Officers, Student Guidance Teachers and the Student Guidance Service Grant in the past 5 school years (i.e. the 2014/15 to the 2018/19 schools years) is as follows:

Number of Public Sector Primary Schools Provided with	2014/15 School Year	2015/16 School Year	2016/17 School Year	2017/18 School Year	2018/19 School Year
Student Guidance Officers	13	12	10	7	6
Student Guidance Teachers	127	125	121	119	113
Student Guidance Service Grant	312	317	323	328	114

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional

resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode.

2. Based on the annual data collected through an online system from student guidance personnel of public sector primary schools, the respective number of student cases under the Comprehensive Student Guidance Service by case category for the past 5 years (i.e. from the 2013/14 to the 2017/18 school years) is summarised as follows:

Case Category	School Year				
	2013/14	2014/15	2015/16	2016/17	2017/18
Conduct Problems	1 349	1 306	1 254	1 277	1 256
Emotional/Psychological Problems	2 523	2 743	2 945	3 190	3 353
Family/Environmental Problems	1 945	1 976	1 940	1 941	2 089
Health/Physical Problems	124	103	92	94	87
Learning Problems	1 394	1 210	1 071	1 025	985
Social/Developmental Problems	465	460	426	407	481
Total	7 800	7 798	7 728	7 934	8 251

- End -

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

For the past 5 years, please advise this Committee the following:

1. the number of non-Chinese speaking (NCS) students and the number of ethnic minority (EM) students studying at different grade levels in primary schools;
2. the number of NCS students and the number of EM students studying at different grade levels in secondary schools;
3. the number of NCS students and the number of EM students studying at different grade levels in kindergartens; and
4. the number of NCS students and the number of EM students studying in special schools (with a breakdown by type of special schools).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7804)

Reply:

From the 2014/15 to 2018/19 school years, the number of non-Chinese speaking (NCS) students studying in kindergartens, public sector and Direct Subsidy Scheme (DSS) primary and secondary schools by level and by grade is tabulated at Annex A. The number of ethnic minority (EM) students studying at different grade levels in kindergartens and the number of NCS EM students studying at different grade levels in public sector and DSS primary and secondary schools are tabulated at Annex B to Annex D respectively. The number of NCS students and the number of NCS EM students studying in each type of special schools are tabulated at Annex E and Annex F respectively. The data provided at Annex A to Annex F are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

Number of non-Chinese speaking students by level and by grade from the 2014/15 to 2018/19 school years

Level	Grade	2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Figures cover students studying in public sector and Direct Subsidy Scheme (DSS) secondary schools (among which 1 DSS secondary school offering non-local curriculum is excluded for not having provided information on students' ethnicity). Figures do not include students in special schools.
3. The above figures have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

Annex E

Number of non-Chinese speaking students studying in special schools from the 2014/15 to 2018/19 school years

Type of special schools	2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year
Schools for children with visual impairment	7	11	12	8	7
Schools for children with hearing impairment	18	19	18	17	14
Schools for children with physical disability	44	51	46	44	44
Schools for children with intellectual disability	223	266	275	311	322
Schools for social development	14	16	16	10	14
Total	306	363	367	390	401

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above figures cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Students from hospital schools are not included due to the transitional nature of the education service provided.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6995)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide, by class level, figures for the past 5 years on the number of cross-boundary students studying in:

1. local kindergartens;
2. local primary schools; and
3. local secondary schools.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7805)

Reply:

1. The number of cross-boundary students (CBS) studying in kindergartens (including kindergarten-cum-child care centres) in Hong Kong by class level for the past 5 years is as follows:

Class Level	School Year				
	2014/15	2015/16	2016/17	2017/18	2018/19
K1	3 654	3 008	800	556	438
K2	3 535	3 880	3 122	921	600
K3	3 175	3 519	3 924	3 133	993

Notes: (1) Figures refer to the position as at September of the respective school years.
(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

2. The number of CBS studying in primary schools in Hong Kong by class level for the past 5 years is as follows:

Class Level	School Year				
	2014/15	2015/16	2016/17	2017/18	2018/19
P1	3 700	3 873	4 210	3 999	3 010
P2	2 981	3 535	3 709	3 859	3 866
P3	2 203	2 880	3 460	3 503	3 872
P4	1 331	2 141	2 836	3 272	3 484
P5	882	1 262	2 005	2 689	3 262
P6	677	876	1 238	1 893	2 694

Notes: (1) Figures refer to the position as at September of the respective school years.
(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

3. The number of CBS studying in secondary schools in Hong Kong by class level for the past 5 years is as follows:

Class Level	School Year				
	2014/15	2015/16	2016/17	2017/18	2018/19
S1	696	709	839	1 239	2 040
S2	572	670	654	798	1 226
S3	542	543	615	639	791
S4	413	513	514	580	576
S5	379	359	427	452	532
S6	250	338	306	376	402

Notes: (1) Figures refer to the position as at September of the respective school years.
(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6999)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education,
(7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide information in the following areas for the past 5 years:

1. the number of students with different special educational needs, with a breakdown by grade level (P.1 to F.6) in public sector mainstream primary and secondary schools; and

2. the number of students with different special educational needs studying associate degree programmes and bachelor degree programmes, with a breakdown by level of study.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7903)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade level and by SEN type from the 2014/15 to 2018/19 school years is set out at Appendix 1.

Based on the information provided by the post-secondary institutions, the numbers of students with SEN pursuing full-time locally-accredited sub-degree and undergraduate programmes under the University Grants Committee-funded (UGC-funded) and non-UGC-funded institutions from the 2014/15 to 2018/19 academic years are set out at Appendix 2 and Appendix 3 respectively.

Number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade level and by SEN type from the 2014/15 to 2018/19 school years[Note 1]

2018/19	10	9	6	4	13	13	22	42	53	57	61	74

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
2. The numbers of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

Number of students with special educational needs (SEN) pursuing University Grants Committee (UGC)-funded full-time locally-accredited sub-degree and undergraduate programmes by year of study and by SEN type from the 2014/15 to 2018/19 academic years[(Note 1)]

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7018)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Will the Government inform this Council of the list of Chinese language programmes partially or fully funded by the Government currently run for non-Chinese speaking students or school leavers, and for each programme, the amount of the funding, the name of the institution/organization running the programme, the specific target group of the programme (if any), and whether the programme is pegged at any level of the Qualifications Framework. Please refer to the following table for the format.

2. Does the EDB monitor the effectiveness of these programmes? If yes, please state how and provide the lists of key performance indicators to evaluate the different programmes? If no, the reasons.

Name of programme	Institution/ organization	Amount of subsidy per year($)	Fee (if any)	Duration	Mode of study	Attained QF level upon completion	Number of students enrolled in 2017	Number of students completed programme in 2017

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 7926)

Reply:

1. The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about $200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" in primary and secondary schools and the creation of an inclusive learning environment in schools. In addition, Chinese language programmes for NCS students, funded by EDB and/or different Funds, are offered in collaboration with tertiary institutions and/or non-governmental organisations as appropriate to complement the support offered by schools. Estimated expenditure for the major Chinese language programmes concerned in the 2018/19 school year is tabulated at Annex.

2. EDB monitors the programmes through lesson/activity observations, questionnaire surveys, meetings with service providers and review of the progress and final reports submitted as appropriate.

Annex

Chinese language programmes for non-Chinese speaking (NCS) students offered in collaboration with tertiary institutions and non-governmental organisations in the 2018/19 school year

Programme	Organisation commissioned to organise the programme	Target participants	Estimated expenditure in the 2018/19 school year ($ million)	Fees (if any)	Study Period	Mode of Study	Qualifications Framework level attained upon completion	Student Enrolment in the 2018/19 school year	Number of students who completed the programme in the 2018/19 school year
Setting up Chinese Language Learning Support Centres to offer remedial programmes and teaching resources after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese language, and to organise workshops for experience sharing with teachers and workshops for parents of NCS students with a view to strengthening collaboration with parents of NCS students in the support for NCS students' learning of Chinese	School of Professional and Continuing Education of the University of Hong Kong	NCS students in primary and secondary schools	3.3	Free	Whole school year	Remedial programmes after school hours and during holidays	Not Applicable	About 810 students	Programmes are still in progress
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art under the Language Fund	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	NCS children aged 3 to 9	4.3	Free	Whole school year	(a) Group activities and indoor/ outdoor extension learning activities (b) Group activities as well as cultural visits and guided tour of community resources	Not Applicable	About 400 students in total	Programmes are still in progress

Programme	Organisation commissioned to organise the programme	Target participants	Estimated expenditure in the 2018/19 school year ($ million)	Fees (if any)	Study Period	Mode of Study	Qualifications Framework level attained upon completion	Student enrolment in the 2018/19 school year	Number of students who completed the programme in the 2018/19 school year
Vocational Chinese Language Courses for NCS School Leavers, pegged at Level 1 or 2 of the Qualifications Framework with a view to enhancing the employability of NCS school leavers	(a) Yale-China Chinese Language Centre, The Chinese University of Hong Kong (b) Baptist Oi Kwan Social Service	NCS school leavers	2.1	(a) Course fees ranging from $11,680 to $47,770 (b) $800 (Up to 85% of the tuition fee can be reimbursed to participants who fulfill the relevant requirements for attendance or assessment upon completion of the above two courses.)	(a) Period of study up to 1 year, depending on study progress (b) 10 weeks	Classroom teaching	(a) Level 2 (b) Level 1	(a) 96 students (b) 52 students (the above two figures denote the position as at February 2019)	(a) The course is still in progress (b) 26 students (figure denotes the position as at February 2019)

Note:

In parallel, EDB provides additional funding to eligible schools admitting NCS students for supporting NCS students' learning of the Chinese language. It is not uncommon for schools provided with additional funding to deploy their resources to offer Chinese language programmes in collaboration with tertiary institutions and/or non-governmental organisations. The relevant expenses are subsumed under the overall expenditure of the schools and a breakdown of expenditure in this regard is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7023)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As far as frontline operation is concerned, has a communication and collaboration mechanism been set up between the Education Bureau and the district offices of the Social Welfare Department for supporting families of students with special educational needs?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1302)

Reply:

While the Education Bureau (EDB) and the Social Welfare Department (SWD) have different roles and responsibilities in supporting students with special educational needs (SEN), the EDB has all along maintained communication and cooperation with the SWD to ensure that the work under respective professional aspects, including provision of assessment, treatment and referral for students with SEN and arrangement of rehabilitation services and family support services, are carried out in an orderly manner. Any mutual cooperation is subject to the circumstances of the case involved.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7024)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the numbers of primary and secondary school teachers in the territory who attended the Basic, Advanced and Thematic Courses (BAT Courses), which are related to special educational needs, and their cumulative number of these teachers in the past 5 school years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1306)

Reply:

Starting from the 2007/08 school year, the Education Bureau has been providing structured training courses on supporting students with special educational needs pitched at Basic, Advanced and Thematic levels (BAT Courses) for serving teachers in primary and secondary schools. The number of teachers who attended the BAT Courses from the 2013/14 to 2017/18 school years is tabulated as follows:

Course	Teacher	School Year					Total
		2013/14	2014/15	2015/16	2016/17	2017/18	
Basic	Primary	232	230	229	269	303	1 263
	Secondary	412	360	418	521	480	2 191
Advanced	Primary	103	83	116	135	166	603
	Secondary	169	101	169	231	165	835
Thematic	Primary	226	167	208	217	232	1 050
	Secondary	338	347	286	298	315	1 584

As teachers may attend Basic, Advanced and various Thematic Courses at different period of time, the teachers who received training in every school year may be the same ones from the past school years. In addition, there is wastage of teachers due to the reasons of job change, pursuing further studies and retirement, etc. Thus, we are unable to provide the cumulative number of teachers who attended the BAT Courses since the 2007/08 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7025)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It has been said that the enrollment rate for Applied Learning Chinese (for non-Chinese speaking students) courses was at first so low that the entry requirement of the courses was lowered to make the number and there have been complaints about the uneven pace of the lessons in Applied Learning Chinese (for NCS students) and that the classes are not helpful.

Will the Government inform the council of:

(a) How are the students' language ability determined before they join the classes?

(b) What are the requirements for joining Applied Learning Chinese (for non-Chinese speaking students) courses, and did the current students meet the entry requirement before they were granted a spot on the course?

(c) What are the Applied Learning Chinese (for non-Chinese speaking students) course teachers' qualifications? Do these teachers have CSL teaching experience or qualifications?

(d) How does the Government monitor the effectiveness of Applied Learning Chinese courses?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1307)

Reply:

(a) & (b) At the point of entry to Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)), non-Chinese speaking (NCS) students are expected to have achieved most of the learning outcomes of the "Chinese Language Curriculum Second Language Learning Framework" at level 4 or above. Same as choosing other senior secondary subjects, the Government will not assess students' ability in taking the subject, schools should assist NCS students in considering applying for ApL(C) according to their language ability,

interest and aspirations. Current students admitted to ApL(C) should have basic language competency to enable them to learn the Chinese language through different modes of activities in a simulated applied learning context.

(c) For each course, a team of professional members is involved in the course delivery of ApL(C), including the main teaching staff with expertise in Chinese Language and experience in teaching NCS students. Apart from these, there are personnel with related professional and vocational experience to support the delivery.

(d) Similar to other Applied Learning courses, the Education Bureau monitors the effectiveness of ApL(C) through a quality assurance process, involving the relevant Curriculum Development Council committee on curriculum design, the Hong Kong Council for Accreditation of Academic and Vocational Qualifications on delivery, and the Hong Kong Examinations and Assessment Authority on moderation of assessment.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

(a) The number of ethnic minority students with special educational needs in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2016/17 disaggregated by ethnicity; and

(b) The number of non-Chinese speaking students with special educational needs in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2016/17 disaggregated by ethnicity.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1308)

Reply:

(a) and (b)

As support services for children with special needs at pre-primary levels are provided by the Social Welfare Department, the Education Bureau does not maintain the related data. The number of non-Chinese speaking (NCS) ethnic minority students with special educational needs (SEN) and the number of NCS students with SEN in public sector schools by ethnicity and by grade level in the 2016/17 school year are set out at Appendix 1 and Appendix 2 respectively. It is a common practice for special schools to adopt flexible groupings across grade levels and individual education plans to cater for the SEN of the students. Presenting the number of students by grade level is therefore not reflecting the actual operation in special schools. We do not collect relevant data from Direct Subsidy Scheme schools.

Appendix 1

Number of non-Chinese speaking (NCS) ethnic minority students with special educational needs (SEN) in public sector schools by ethnicity and by grade level in the 2016/17 school year

Ethnicity	Special schools	Mainstream primary schools						Mainstream secondary schools					
		P1	P2	P3	P4	P5	P6	S1	S2	S3	S4	S5	S6
Indonesian	10		2		2	2	1	1	1

Question:

Please give an account of the assessment accommodation in public examinations that students with special educational needs (SEN) applied for in the past 5 years. Please provide a breakdown by SEN type and accommodation type.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1309)

Reply:

The number of students with special educational needs (SEN) that applied for special examination arrangements (SEA) in the Hong Kong Diploma of Secondary Education (HKDSE) Examination in the past 5 years is set out by type of SEN and special examination arrangements at Appendix.

Appendix

Number of Students Applying for Special Examination Arrangements in the HKDSE Examination from the 2014/15 to 2018/19 School Years# (by SEN Type)

Year of Examination	Physical Disabilities	Visual Disabilities	Aural Disabilities	Oral Disabilities	Specific Learning Disabilities	Other Disabilities	Total

Question:

1. Please provide the figures of suicide cases among students in primary and secondary schools over the past 5 years.

2. What policies are adopted by the Government to prevent student suicide?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1310)

Reply:

1.
The Education Bureau (EDB) has required primary and secondary schools to report suspected fatal suicide cases of students to keep in view the situation and provide professional support for the schools concerned as appropriate. The nature and number of fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. The EDB has not captured the relevant information from the Court. Hence, we are unable to provide officially verified figures on students' fatal suicide cases. The number of suspected fatal suicide cases of students as reported by primary and secondary schools to the EDB in the past 5 school years is tabulated as follows:

School Year	Number of Cases
2013/14	10
2014/15	9
2015/16	19
2016/17	19
2017/18	16

2.
The EDB has been encouraging schools to adopt the Whole School Approach directed at three levels, namely "Universal", "Selective" and "Indicated" to promote mental health amongst students and enhance support for students with mental health needs (including students with suicidal risk).

At the Universal level, the EDB has been actively promoting diversified development programmes featuring adventure-based, team building and problem-solving training, such as the "Understanding Adolescent Project" for primary schools, the "Enhanced Smart Teen Project" for secondary schools and the "Pupil Ambassador Scheme on Positive Living", to enhance students' resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. Besides, the EDB and the Department of Health (DH) jointly launched the Joyful@School Campaign in the 2016/17 school year which has been continued in the 2017/18 and 2018/19 school years to enhance students' awareness and understanding of mental health and strengthen their ability to cope with environmental changes. Schools (or in collaboration with non-governmental organisations) can submit proposals to the Quality Education Fund for funding not exceeding $200,000 through simplified application procedures to organise activities related to the Campaign. Up to February 2019, more than 700 applications were approved under the Joyful@School Campaign.

At the Selective level, starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with special educational needs (SEN) pitched at Basic, Advanced and Thematic levels (BAT Courses). Some modules of the BAT Courses cover mental illness. From the 2017/18 school year onwards, the EDB also provides teachers of primary and secondary schools with the "Professional Development Programme for Mental Health", including elementary training for teachers at large and in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. The EDB provides public sector mainstream schools with around 2 000 training places for the "Professional Development Programme for Mental Health" in the 2018/19 and 2019/20 school years. Besides, in each school year, the EDB also organises talks, seminars and experience sharing sessions, etc., on supporting students with mental health needs for primary and secondary school teachers to equip more of them with the knowledge and capacity to support students with mental health needs. To help schools identify and support students with mental health needs, the EDB has published "A Resource Handbook for Schools: Detecting, Supporting and Making Referral for Students with Suicidal Behaviours" and "Teacher's Resource Handbook on Understanding and Supporting Students with Mental Illness" which was developed in collaboration with the Hospital Authority (HA) for reference of teachers and school personnel.

At the Indicated level, starting from the 2017/18 school year, the Learning Support Grant covers students with mental illness so that schools can cater for those students' learning, social, emotional and behavioural needs. Moreover, the Food and Health Bureau (FHB), in collaboration with the EDB, the HA and the Social Welfare Department (SWD), has launched the "Student Mental Health Support Scheme" since the 2016/17 school year to provide appropriate support services for students with mental health needs through a school-based platform.

The EDB works with the Curriculum Development Council to continuously review the primary and secondary curricula in order to better cater for learning differences. The EDB suggests schools coordinate the daily amount of homework assigned so that students can have sufficient time to rest, play and develop their interests. The EDB has all along been reviewing relevant areas in the education system in order to duly support and address the developmental and diverse needs of students, and will continue to encourage and support schools in implementing the suggestions made under the New Academic Structure Review, so as to support schools and meet the diverse learning needs of students. Measures included the following: increasing the flexibility in deploying lesson time; trimming, enhancing or updating the curriculum contents and assessment arrangements, and clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload; arranging for more Applied Learning (ApL) courses to register in the Qualifications Register and increasing learning opportunities for workplace experience; and encouraging students interested in vocational and professional education and training to study one to two ApL courses. The EDB established the Task Force on Review of School Curriculum in November 2017 to review the school curriculum. The Task Force will be in operation for about two years to make directional recommendations on the school curriculum to the Government.

Regarding enhancement of family life and parent education, the EDB endeavors to promote home-school co-operation and parent education. The EDB has all along been supporting the Committee on Home-School Co-operation in organising parent activities and seminars to equip parents with the necessary knowledge about helping their children in respect of growth and development, enhancing their parental skills, as well as assisting them in the early identification of their children's emotional problems and fostering positive thinking in their children. Besides, the EDB launched a website called "Smart Parent Net" in early 2018 to enable parents with children from kindergarten to primary and secondary school levels to easily access useful information on supporting the physical and mental development of students, which includes the parent-child relationship, character development, parenting skills and emotional management of parents. In parallel, the Education Commission set up the Task Force on Home-school Co-operation and Parent Education in December 2017 to review the existing approach in promoting home-school co-operation and parent education and to formulate the direction and strategy for fostering home-school co-operation and promoting parent education with the objective of assisting parents to help their children grow up happily and healthily, and learn effectively through, among others, promotion of correct understanding of developmental needs of children and adolescents as well as avoiding excessive competition. Accepting the Task Force’s recommendations, the EDB will provide Federations of Parent-Teacher Associations and Parent-Teacher Associations of schools with additional resources for enhancing home-school co-operation and promoting parent education starting from the 2019/20 school year.

Besides, on the request of the Chief Executive in October 2017, the Labour and Welfare Bureau (LWB) coordinated a cross-bureaux/departments Task Force on Prevention of Youth Suicides (the Task Force). The Task Force was to take stock of the progress of implementation of recommendations set out in the Final Report of the Committee on Prevention of Student Suicides issued in 2016 by the Committee on Prevention of Student Suicides commissioned by the EDB, and to consider if further policy measures and action

should be taken to strengthen the efforts to prevent youth suicides. In addition to the LWB and the EDB, the Task Force also comprises the FHB, the Home Affairs Bureau, the SWD, the DH and the HA. The Chief Executive endorsed the Report of the Task Force on Prevention of Youth Suicides (Task Force Report) in November 2018. The full text of the Task Force Report has been uploaded to the LWB website (https://www.lwb.gov.hk/eng/other_info/TFPYS_Report_(English).pdf).

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7029)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the distribution of the numbers of students with special educational needs (SEN) at primary and secondary levels by District Council district and SEN type, as well as their percentage shares in the total number of students in respective districts in the past 5 years.

2. How does the Education Bureau (EDB) account for situations where a particular district has an obviously higher proportion of students with SEN than the other districts and how will it meet the needs of such districts as far as resources and policies are concerned?

3. On the present frontline implementation level, have the EDB and districts offices of the Social Welfare Department set up communication and collaboration mechanisms for supporting families of students with SEN?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1311)

Reply:

1. to 2.

At present, the allocation mechanism for Primary 1 and Secondary 1 places in public sector mainstream schools (i.e. Primary One Admission (POA) System and Secondary School Places Allocation (SSPA) System) is divided into two stages: Discretionary Places (DP) and Central Allocation (CA). At the DP stage and regarding the three unrestricted school choices in Part A of the CA stage, parents may choose schools for their child with no restrictions on district. Besides, parents may approach other schools on their own accord upon the release of the allocation results, and students may transfer to other schools on their own accord when studying at different grades in primary and secondary schools. Hence,

cross-district schooling is not uncommon. Furthermore, under the integrated education policy, all schools have the obligation to admit students with special educational needs (SEN) and provide support services to them according to their needs. With regard to the support for students with SEN, the focus is on providing appropriate assistance to schools in accordance with their individual needs. To analyse the distribution of students with SEN according to the location of schools has no substantial meaning as far as allocation and provision of resources are concerned.

To help public sector mainstream schools cater for students with SEN, on top of regular subvention, the Education Bureau (EDB), has been providing these schools with additional resources, including the Learning Support Grant (LSG), Enhanced Speech Therapy Grant (ESTG), additional teachers and funding under the Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme, additional teachers to support academic low achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. Professional support is also provided for schools on an ongoing basis through assessment and consultation services of educational psychologists, speech therapists and audiologists.

The provision of the above-mentioned additional resources and professional support is based on various parameters, such as the number of students with SEN in schools, the tier of support they require, the number of classes and the applications of individual schools when need arises, in order to cater for the diverse needs of different schools.

The number of students with SEN studying in public sector mainstream primary and secondary schools by school level and by SEN type from the 2014/15 to 2018/19 school years is set out at Appendix.

3.

While the EDB and the Social Welfare Department (SWD) have different roles and responsibilities in supporting students with SEN, the EDB has all along maintained communication and cooperation with the SWD to ensure that the work under respective professional aspects, including provision of assessment, treatment and referral for students with SEN and arrangement of rehabilitation services and family support services, are carried out in an orderly manner. Any mutual cooperation is subject to the circumstances of the case involved.

Appendix

Number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by school level and by SEN type from the 2014/15 to 2018/19 school years

School Year	School Level	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/ Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Mental Illness
2014/15	Primary	8 090	740	3 800	3 270	110	30	270	1 890	-
	Secondary	10 520	910	1 990	3 640	220	90	380	240	-
2015/16	Primary	8 370	660	4 420	3 850	120	30	280	2 100	-
	Secondary	11 020	930	2 380	4 350	190	80	390	300	-
2016/17	Primary	8 860	670	5 020	4 350	110	30	300	2 520	-
	Secondary	11 260	910	2 800	5 090	190	80	350	350	-
2017/18	Primary	9 250	690	5 430	4 670	120	40	350	2 430	-
	Secondary	11 460	830	3 280	5 860	170	70	340	370	-
2018/19	Primary	10 370	760	5 690	5 110	110	40	360	2 510	60
	Secondary	11 430	830	3 840	6 780	150	60	310	360	310

Note:

Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7030)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please give an account of and provide the statistics on the use of the following aids/support services by students with special educational needs under the special education system and the integrated education system in the past 5 years: physiotherapy, occupational therapy, speech therapy, braille books, audiobooks, other assistive devices (please specify the type) and sign language interpretation service.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1312)

Reply:

The Government adopts a dual-track mode in providing education services to students with special educational needs (SEN). The Education Bureau (EDB) will, subject to the assessment and recommendations of specialists and the consent of parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with relatively mild SEN who are able to cope with the mainstream curriculum and may benefit from attending mainstream schools will be placed in mainstream schools.

On top of regular teaching provision, special schools are provided with non-teaching staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and brailling staff according to the specific needs of their students. All students in the special schools could benefit from the above specialist services in accordance with their individual needs.

To help public sector mainstream schools cater for students with SEN, the EDB, on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. The additional resources include Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers under different programmes, Top-up Fund for procurement of special furniture/equipment or carrying out minor conversion work for students with disabilities, etc. Schools should deploy the various school resources holistically and flexibly to render appropriate support services to students with SEN, including procuring assistive devices, employing additional teachers and teaching assistants, or hiring professional services such as school-based speech therapy services. As the context of each school differs and school-based support services rendered to students with SEN vary, we do not have detailed statistics about the assistive devices and services provided by schools and their utilisation rate.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7032)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The EDB has provided "Details of newly developed or expanded international schools (From 2010/11 to 2014/15 school years)", including number of places added in primary and secondary schools. How many special educational needs (SEN) supported places have been added? What are the terms of the service agreement with international schools with regards to SEN support promised?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1314)

Reply:

Vacant school premises and greenfield sites for international school development are allocated through an open and competitive school allocation exercise (SAE) in accordance with prevailing practice. Support to students, including students with SEN, has all along been a major consideration when assessing applications received under SAE for international school development. Favourable consideration will be given to applications which propose appropriate measures to support students with SEN. Under the Service Agreement entered with the Education Bureau, the successful applicants are required to operate the school according to the school proposal submitted, including the proposed support measures for students with SEN (if any). In the last SAE completed in 2015, all of the five successful applicants have included support measures for students with SEN in their school proposals, such as measures to facilitate identification of SEN of students, as well as different approaches to facilitate learning of students with SEN. Some have also specified that they would set aside manpower/resources to specifically cater for the needs of these students.

The number of students with SEN in the English Schools Foundation schools and other private international schools from the 2014/15 to 2018/19 school years is at the **Annex**. As far as we understand, most of the other private international schools do not specifically put a ceiling on the number of places for students with SEN, and we do not have readily available information in this respect.

Annex

Number of students with special educational needs (SEN) in the English Schools Foundation (ESF) schools and other private international schools from the 2014/15 to 2018/19 school years

School Year	ESF		Other Private International		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary
2014/15	136	256	329	163	465	419
2015/16	230	435	385	175	615	610
2016/17	245	565	323	179	568	744
2017/18	439*	422*	404	284	843	706
2018/19	365	458	482	348	847	806

* The ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and has required all its schools to provide such figures to the EDB in the Student Enrolment Survey accordingly since the 2015/16 school year. However, in an internal review of the ESF schools' practice in compiling the number of students with SEN in September 2017, the ESF found that the practice was still inconsistent among individual schools. The ESF has verified again the information provided by each ESF school in the Student Enrolment Survey. Therefore, there is a relatively significant change in the number of students with SEN in the 2017/18 school year when compared with previous years.

Notes:

(1) Figures refer to the position as at September of the respective school years.
(2) Statistics cover students with SEN under integrated classes / special classes / special school in the ESF and other private international schools as reported by the schools concerned in response to the Student Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7033)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the Government inform this Committee of:

(1) whether all official information of the Education Bureau is available in both Chinese and English, our official languages;

(2) the number of English-language parent briefing sessions conducted on the Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2013/14, 2014/15, 2015/16 and 2016/17 respectively;

(3) the number of dedicated briefing sessions conducted with simultaneous interpretation services for NCS parents on the Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2013/14, 2014/15, 2015/16 and 2016/17 respectively;

(4) the list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools' qualities and videos, particularly those that inform parents and students of their school choices, that are only available in Chinese but not English;

(5) the list of information disseminated or publications published by the Education Bureau, including its school directories and reports on schools' qualities, particularly those that inform parents and students of their school choices, that are available in both printed and web versions in Chinese but only available in web versions in English;

(6) the list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools' qualities and videos, particularly those that inform parents and students of their school choices, that are available in languages other than Chinese and English, and what languages they are available in; and

(7) if some information about schools and the education system given by the Education Bureau is available in Chinese only, how non-Chinese speaking parents can make an informed school choice for their children and whether the Education Bureau can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1316)

Reply:

(1) In general, official information of the Education Bureau (EDB) published on the Bureau's website would be made available in both Chinese and English for general reference by the public where appropriate.

(2)&(3) To facilitate participation of non-Chinese speaking (NCS) students and their parents in the Primary One Admission (POA) system and the Secondary School Places Allocation (SSPA) system, dedicated briefing sessions in English with simultaneous interpretation services in major ethnic minority (EM) languages are organised annually in two modes, including briefing sessions open to all parents of NCS students and briefing sessions for parents of NCS students in individual kindergartens or primary schools upon their requests. In the school years from 2013/14 to 2016/17, 9 sessions on POA which were open to all parents of NCS students were organised annually in Wan Chai, Kwun Tong and Kowloon City, which are easily accessible to parents. The number of participating parents in the briefing sessions was 333, 316, 311 and 269 from the 2013/14 to 2016/17 school years respectively. As regards SSPA, since it is not uncommon for primary schools to offer counselling on admission to Secondary 1 specifically on school choices to Primary 6 students and their parents, 1 briefing session open to all parents of NCS students was organised annually in Sham Shui Po from the 2013/14 to 2016/17 school years and the number of participating parents was 70, 66, 73 and 68 respectively. We have not kept a separate record of the briefing sessions organised on the request of individual kindergartens or primary schools, which may vary over the years, and are therefore unable to provide the related number.

(4)&(5) All information related to school choices is available in both Chinese and English on the Bureau's website. Relevant information is also published in other language versions where applicable to facilitate the reference by NCS communities.

(6) EDB is committed to encouraging and supporting NCS students' integration into the community, facilitating their adaptation to the local education system and mastery of the Chinese language. All relevant information is published in Chinese and English and there is a designated webpage on education services for NCS students. For the series of information and publications published in Chinese and English, we also provide NCS students and their parents with translations in major ethnic minority languages. Details are tabulated at Annex.

(7) As elucidated in (6) above, information about the education system and schools provided by EDB is not in Chinese only. EDB has been actively promoting parent education, emphasising that parents (including parents of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider arranging for their children to study in schools which can provide an immersed Chinese language learning environment. Parents of NCS students, like other parents, are encouraged to join the on-site school visits organised by individual schools and Federations of Parent-Teacher Associations on a district basis to learn more about the schools so as to choose a suitable school for their children. EDB will continue organising dedicated briefing sessions with simultaneous interpretation services for parents of NCS students. In tandem, EDB will continue encouraging schools to organise school visits for parents (including parents of NCS students) on a school/district basis to enable them to get to know more about the schools before making school choices. Since the 2015/16 school year, the Committee on Home-School Co-operation has published the English printed version of the School Profiles for distribution to parents of NCS students studying at K3 and Primary 6 levels via KGs and primary schools for their easy access to the information in the School Profiles. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on "Education Support for NCS Students" has been added to the School Profiles. All public sector schools and Direct Subsidy Scheme schools provided with the additional funding are required to specify that additional support, including after-school support, is provided for their NCS students in learning of the Chinese language. EDB encourages schools to keep enriching the English contents of their School Profiles and school webpages. Furthermore, EDB has set up a hotline for NCS students and their parents, and if necessary, interpretation services can be arranged through the Centre for Harmony and Enhancement of Ethnic Minority Residents funded by the Home Affairs Department.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7034)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the number of school children and teenagers who made non-refoulement claims in the past 5 years, as well as the distribution of the locations of their schools and their education levels.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1322)

Reply:

Non-refoulement claimants who are children and teenagers can approach the schools they prefer directly to apply for admission or seek placement assistance from the Education Bureau (EDB). After placement assistance has been arranged by EDB, their admission status may still change (because of school transfer on their own accord, departure from Hong Kong, etc.), and they are not required to notify EDB of whether they have eventually enrolled in schools through their own applications or EDB's arrangements. Besides, schools do not have to state whether their newly-admitted students have made non-refoulement claims when submitting information on new admissions to EDB under the existing mechanism. Hence, we do not have complete and accurate data in this regard.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7039)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

EDB has previously said that "all information related to school choices is available in both Chinese and English on the Bureau's website," and that EDB is "committed to encouraging and supporting non-Chinese speaking ("NCS") students' integration into the community". Yet, the executive summary on the review of the 'Guide to Pre-Primary Curriculum' (2006) in 2016 was only available in Chinese; parents' talk are published on a very obscure page and EDB did not promote events to ethnic minority parents when interpretation services have been arranged; even the webpage on "Chinese Language Curriculum Second Language Adapted Learning Framework" is in Chinese only. Will the Government inform this Council of:

(a) whether all official information of EDB is available in both Chinese and English, our official languages;

(b) the number of English-language parent briefing sessions conducted on the Kindergarten Admission, Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2014/15, 2015/16 and 2016/17;

(c) the number of dedicated briefing sessions conducted with simultaneous interpretation services for NCS parents on the Kindergarten Admission, Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2014/15, 2015/16 and 2016/17;

(d) the list of information disseminated or publications published by EDB, including its blogs, webpages, school directories, reports on schools' qualities and videos, particularly those that inform parents and students of their school choice, that are only available in Chinese but not English;

(e) the list of information disseminated or publications published by EDB, including its school directories and reports on schools' qualities, particularly those that inform parents and students of their school choice, that are available in both printed and web versions for the Chinese language but only in web version for the English language (i.e. without the printed English version);

(f) the list of information disseminated or publications published by EDB, including its blogs, webpages, school directories, reports on schools' qualities and videos, particularly those that inform parents and students of their school choice, that are available in languages other than Chinese and English, and what languages they are available in, location where this information can be accessed;

(g) if some information about schools and the education system given by EDB is available in Chinese only, how NCS parents can make an informed school choice for their children and whether EDB can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice;

(h) how will EDB improve its communication with NCS parents and better promote EDB policies and school information to parents given not all information is equally bilingual; and

(i) what means have EDB adopted to disseminate the relevant information and leaflet to NCS parents (e.g. list out number of locations where NCS parents can access these leaflets).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1655)

Reply:

(a) In general, official information of the Education Bureau (EDB) published on the Bureau's website would be made available in both Chinese and English for general reference by the public where appropriate.

(b)&(c) Notwithstanding that admission to kindergartens (KGs) is a school-based matter, in 2014, EDB introduced the Admission Arrangements for Nursery (K1) Classes in KGs (K1 Admission) for all KGs joining the Pre-primary Education Voucher Scheme, with a view to improving the KG admission procedures and better utilising the KG places. Starting from June 2014, briefing sessions have been organised for parents to facilitate their understanding of K1 Admission, including dedicated briefing sessions conducted in English for parents of non-Chinese speaking (NCS) children. As a starting point, in 2014, 1 dedicated briefing session for parents of NCS children was organised in Yau Tsim Mong, and in 2015, 2 similar sessions were organised in Wong Tai Sin and Tuen Mun. The respective number of participants was 28 and 53 for 2014 and 2015. In 2016 and 2017, we organised briefing sessions in collaboration with the Support Service Centres for Ethnic Minorities funded by the Home Affairs Department (HAD). To reach out

to parents of NCS children, in 2017, we released information on briefing sessions through ethnic minority (EM) newspapers. In these 2 years, 7 dedicated briefing sessions were organised in Kwai Tsing, Kwun Tong, Tuen Mun, Wan Chai, Wong Tai Sin, Yau Tsim Mong and Yuen Long, and the respective turnout was 157 and 86. Simultaneous interpretation services in major EM languages were provided as appropriate at all of these briefing sessions. In addition to directly reaching out to parents of NCS children through the above-mentioned briefing sessions, we also capitalise on the networks that non-governmental organisations have established with NCS communities to disseminate information related to K1 Admission.

To facilitate participation of NCS students and their parents in the Primary One Admission (POA) system and the Secondary School Places Allocation (SSPA) system, dedicated briefing sessions in English with simultaneous interpretation services in major EM languages are organised annually in two modes, including briefing sessions open to all parents of NCS students and briefing sessions for parents of NCS students in individual kindergartens or primary schools upon their requests. In the school years from 2014/15 to 2016/17, 9 sessions on POA which were open to all parents of NCS students were organised annually in Kwun Tong and Kowloon City, which are easily accessible to parents. The number of participating parents in the briefing sessions was 316, 311 and 269 from the 2014/15 to 2016/17 school years respectively. As regards SSPA, since it is not uncommon for primary schools to offer counselling on admission to Secondary 1 specifically on school choices to Primary 6 students and their parents, 1 briefing session open to all parents of NCS students was organised annually in Sham Shui Po from the 2014/15 to 2016/17 school years and the number of participating parents was 66, 73 and 68 respectively. We have not kept a separate record of the briefing sessions organised on the request of individual kindergartens or primary schools, which may vary over the years, and are therefore unable to provide the related number.

(d)&(e) All information related to school choices is available in both Chinese and English on the Bureau's website. Relevant information is also published in other language versions where applicable to facilitate the reference by NCS communities.

(f)&(i) EDB is committed to encouraging and supporting NCS students' integration into the community, facilitating their adaptation to the local education system and mastery of the Chinese language. All relevant information is published in Chinese and English and there is a designated webpage on education services for NCS students. For the series of information and publications published in Chinese and English, we also provide NCS students and their parents with translations in major EM languages. Relevant details and the locations where the information can be accessed are tabulated at Annex.

(g)&(h) As elucidated in (f) and (i) above, information about the education system and schools provided by EDB is not in Chinese only. EDB has been actively promoting parent education, emphasising that parents (including parents of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider arranging for their children to study in schools which can provide an immersed Chinese language learning environment. Parents of NCS students, like other parents, are encouraged to join the on-site school visits organised by individual schools and Federations of Parent-Teacher Associations on a district basis to learn more about the schools so as to choose a suitable school for their children. EDB will continue organising dedicated briefing sessions with simultaneous interpretation services for parents of NCS students. In tandem, EDB will continue encouraging schools to organise school visits for parents (including parents of NCS students) on a school/district basis to enable them to get to know more about the schools before making school choices. Since the 2015/16 school year, the Committee on Home-School Co-operation has published the English printed version of the School Profiles for distribution to parents of NCS students studying at K3 and Primary 6 levels via KGs and primary schools for their easy access to the information in the School Profiles. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on "Education Support for NCS Students" has been added to the School Profiles. All public sector schools and Direct Subsidy Scheme (DSS) schools provided with the additional funding are required to specify that additional support, including after-school support, is provided for their NCS students in learning of the Chinese language. EDB encourages schools to keep enriching the English contents of their School Profiles and school webpages. Furthermore, EDB has set up a hotline for NCS students and their parents, and if necessary, interpretation services can be arranged through the Centre for Harmony and Enhancement of Ethnic Minority Residents funded by HAD.

Moreover, starting from the 2014/15 school year, all public sector schools and DSS schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted. In addition to the implementation of the "Chinese Language Curriculum Second Language Learning Framework", schools receiving the additional funding are also required to make optimal use of the funding to create an inclusive learning environment in schools. According to the actual experience in the past few years, the schools concerned have generally deployed about 10% of the additional funding provided for appointment of EM assistants and/or procurement of translation services to strengthen communication with parents of NCS students and organise multi-cultural activities.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7040)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In the Primary One Allocation process, the Education Bureau asks parents/guardians to indicate on the "Application Form for Admission to Primary One" if the applicant child "Cannot use Chinese as learning medium" (item 7 on the application form). In addition, according to the "Notes on How to Complete the 'Application Form for Admission to Primary One'" published by the Education Bureau in 2015, 2016 and 2017, "if parents/guardians claim, on the application form, that the applicant child cannot use Chinese as the learning medium," they may choose from a list of eight schools, listed in Appendix 3 of the document, that traditionally admit more non-Chinese speaking students. Will the government also inform the Council:

(a) how many applicants checked the option "Cannot use Chinese as learning medium" on the "Application Form for Admission to Primary One" in the 2014/15, 2015/16, 2016/17 and 2017/18 school years admission respectively;

(b) what percentage of the students who checked the option "Cannot use Chinese as learning medium" entered one of the eight schools listed in the Appendix 3 of the "Notes on How to Complete the 'Application Form for Admission to Primary One'" in the 2014/15, 2015/16, 2016/17 and 2017/18 school years admission respectively;

(c) why providing Appendix 3 does not constitute a "labelling effect" on the listed schools and contribute towards the phenomenon of de facto segregation when non-Chinese speaking ("NCS") parents wanted schools with English as a medium of instruction ("MOI") rather than schools that traditionally accept a large number of NCS students[1]? Will the Government consider extending the list to cover either schools that use English as MOI for NCS students or schools that has accepted NCS students? If no, the reasons;

(d) the number of public primary schools (including DSS schools) which received grants to support NCS students in Chinese learning in the past 4 years; and

(e) the number of public primary schools that offer English as the primary MOI for non-language subjects, the number of public primary schools which make MOI adjustment for NCS students and their respective additional funding involved (if applicable).

[1] Para 28 and 29, Panel on Education, minutes of meeting of the public hearing on 9 Jan, 2006, LC Paper No. CB(2)1044/05-06 - http://www.legco.gov.hk/yr05-06/english/panels/ed/minutes/ed060109.pdf

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1656)

Reply:

(a) The number of applicants who chose the option "Cannot use Chinese as learning medium" on the application form for Primary One Admission (POA) is 679, 700, 756 and 648 in the 2014/15, 2015/16, 2016/17 and 2017/18 school years respectively.

(b) The percentage of students who chose the option "Cannot use Chinese as learning medium" and were subsequently admitted by the listed schools is 52.3%, 48%, 46.4% and 43.5% in the 2014/15, 2015/16, 2016/17 and 2017/18 school years respectively.

(c) and (e) It is the policy of the Education Bureau (EDB) to encourage parents of non-Chinese speaking (NCS) applicant children to choose schools with an immersed Chinese language environment to facilitate their children's learning of the Chinese language, early adaptation to the local education system and integration into the community. The current arrangement of providing the list of primary schools traditionally admitting more NCS students (i.e. Appendix 3) in the "Notes on How to Complete the Application Form for Admission to Primary One" (the Notes) for POA mainly aims to cater for the needs of the parents of NCS students. EDB revised the Central Allocation arrangements for NCS students in POA 2004 to enable all NCS students, like their Chinese-speaking counterparts, to choose only primary schools from the Choice of Schools List of their residing school net under Part B of Central Allocation, so that they may benefit from an immersed Chinese language environment of the "mainstream" primary schools and become more able to adapt to the local curriculum and integrate into the community. However, some parents whose NCS children were allocated to "mainstream" primary schools were worried about this arrangement. To balance different concerns, EDB has adopted the prevailing arrangements since POA 2005. Parents of NCS students may indicate in the POA application form that the applicant child "Cannot use Chinese as learning medium" so that they can also choose in Part B of Central

Allocation primary schools traditionally admitting more NCS students in other school nets, i.e. those listed in Appendix 3 of the Notes, in addition to the schools within their residing school net. Stakeholders generally agree to such arrangements.

To avoid misunderstanding among parents of NCS students that they can only choose the schools listed in Appendix 3 and to encourage them to choose "mainstream" primary schools, EDB has included in Note 3 of the Notes a message to encourage parents of NCS applicant children to choose schools with an immersed Chinese language environment to facilitate their children's learning of the Chinese language, and to remind these parents that the majority of public sector schools (including the primary schools within their residing school net) provide an immersed Chinese language environment. EDB has also stated clearly in the message that the schools listed in Appendix 3 are only for the reference of parents who are still in need. In recent years, EDB has provided parents of NCS students with more information and support in respect of making school choices, including the addition of a new column on "Education Support for NCS Students" in the Primary School Profiles starting from the 2018/19 school year for primary schools to disseminate information about their support for NCS students. EDB will keep in view the needs of parents of NCS students in respect of making school choices, continue to listen to the views of various sectors on the POA mechanism (including whether Appendix 3 should be retained), and make timely improvement when necessary.

Public sector primary schools mostly adopt Chinese as the medium of instruction, which is conducive to the creation of an immersed Chinese language environment to help NCS students learn the Chinese language and adapt to the local education system. EDB has not compiled statistics on public sector primary schools adopting English as the primary medium of instruction in non-language subjects, or adapting the medium of instruction for NCS students.

(d) Starting from the 2014/15 school year, EDB has substantially increased the additional funding for schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools, and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted. From the 2015/16 to 2018/19 school years, the number of schools concerned is 197, 216, 228 and 241 respectively. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Based on the experience of the schools concerned, additional

support in learning Chinese is mainly provided after school or during school holidays as appropriate. Starting from the 2014/15 school year, they may apply for an additional funding of $50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. From the 2015/16 to 2018/19 school years, 83, 179, 213 and 213 (provisional) schools received additional funding for the provision of after-school Chinese language support programmes respectively.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7041)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

A systematic data collection and collation mechanism is conducive to informing policy and decision-making. Data disaggregated by race, ethnicity, gender, age, and other variables is important to implementing effective evidence-based governance. In this regard, will the Government inform the Council:

1. Please tabulate by district, the number of primary and secondary schools (government, aided and DSS) from "0", "1 to 9", "10 to 25", "26 to 50", "51 to 75", "76 to 90", and "91 and above" and the percentage of non-Chinese speaking ("NCS") students among all students of these schools from 2014/15 to 2017/18.

2. Please tabulate by district, the number of primary and secondary schools where NCS students account for "0%", "> 0% – 10%", "> 10% – 20%", "> 20% – 30%", "> 30% – 40%", "> 40% – 50%", "> 50% – 60%", "> 60% – 70%", "> 70% – 80%", "> 80% – 90%", and "more than 90%" of the student population from 2014/15 to 2017/18.

3. Please tabulate by district, the number of primary and secondary schools where ethnic minority students account for "0%", "> 0% – 10%", "> 10% – 20%", "> 20% – 30%", "> 30% – 40%", "> 40% – 50%", "> 50% – 60%", "> 60% – 70%", "> 70% – 80%", "> 80% – 90%", and "more than 90%" of the student population from 2014/15 to 2017/18.

4. If the Government cannot provide the data above by district, please inform the Council of the reasons and how the Council can monitor whether there is de facto racial segregation in the education system?

5. Given that the Education Bureau said it is committed to facilitating the integration of NCS students and providing education-related information to NCS parents and students, please inform the Council how parents can obtain the data above; and if parents have no way to find out which schools have a high proportion of ethnic

minority students, whether the Education Bureau can still claim that high concentration of ethnic minority students in certain schools is a result of parental choice?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1657)

Reply:

1. to 3. According to the information collected through the annual Student Enrolment Survey, the number of schools with non-Chinese speaking (NCS) students ranging from "0", "1 to 9", "10 to 25", "26 to 50", "51 to 75", "76 to 90" to "91 or more" and the percentage of NCS students among all students of individual schools, as well as the respective percentage of NCS students and NCS ethnic minority (EM) students among all students of individual schools ranging from "0%", ">0% - 10%", ">10% - 20%", ">20% - 30%", ">30% - 40%", ">40% - 50%", ">50% – 60%", ">60% - 70%", ">70% - 80%", ">80% - 90%" to ">90%" from the 2014/15 to 2017/18 school years are tabulated at Annex A, Annex B and Annex C respectively. Since the definition of NCS students is based on the language spoken at home instead of the ethnicity of the students, the two sets of data in Annex B and Annex C are not comparable.

4. To avoid unnecessary misconception and possible labelling on individual schools, we have been adopting a cautious approach and adhering to the established practice of not disclosing information that may indicate the situation of individual schools concerned in respect of issues such as the number or ratio of academically low achievers, students with special educational needs, students from needy families, NCS students, etc.. Hence, we will not provide data by district.

Although data by district is not provided, Annex B has shown the percentage of NCS students among all students of these schools. We also note the concern about the provision of an immersed Chinese language environment by individual schools with a higher percentage of NCS students to facilitate their learning of the Chinese language. Stakeholders generally consider it necessary to take into account the worries and views of some NCS students and their parents about school choice as well as concerns of schools. On balancing the views of different stakeholders, the Education Bureau (EDB) revised, in the 2013/14 school year, the mode of support to schools admitting NCS students by abolishing the so-called "designated schools" system. Starting from the 2014/15 school year, EDB has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and admitting 10 or more NCS

students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted.

Besides, to enable NCS students studying in schools with a relatively higher percentage of NCS students to learn and grow together with Chinese-speaking peers, EDB has been actively encouraging the schools concerned to form learning circles to organise Chinese learning activities and/or apply for the Quality Education Fund to organise programmes which promote cultural diversity, with a view to increasing NCS students' exposure to Chinese and interaction with their Chinese-speaking peers through learning activities outside school. In addition to the implementation of the "Learning Framework", schools receiving the additional funding are also required to make optimal use of the funding to create an inclusive learning environment in schools. The schools concerned generally deploy about 10% of the additional funding for appointment of EM assistants and/or procurement of translation services to strengthen communication with parents of NCS students and organise multi-cultural activities. Some schools which have admitted more NCS students have, in collaboration with tertiary institutions, set up a Chinese Language Learning Support Centre in their schools to strengthen the support for the students concerned. They have also actively engaged their NCS students in community activities with a view to enhancing their interaction with Chinese-speaking peers and broadening their exposure to the Chinese language.

5. EDB is committed to encouraging and supporting the integration of NCS students into the community, including facilitating their adaptation to the local education system and mastery of the Chinese language. All relevant information is published in English and Chinese and there is a dedicated webpage on education services for NCS students. The information or publications published with translation into major EM languages provided to NCS students and their parents are tabulated at Annex D. In tandem, EDB will continue promoting parent education actively, emphasising that parents (including parents of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider arranging for their children to study in schools which can provide an immersed Chinese language learning environment to help them learn Chinese. Parents of NCS students, like other parents, are encouraged to join the on-site visits organised by individual schools and Federations of Parent-Teacher Associations on a district basis to learn more about the schools so as to choose a suitable school for their children. Since the 2015/16 school year, the Committee on Home-School Co-operation has published the English printed version of the School Profiles for distribution to parents of NCS students studying at K3 and Primary 6 levels via KGs and primary schools for their easy access to the information in the School Profiles. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on "Education Support for NCS Students" has been added to the School Profiles for schools to provide information on relevant support for NCS students. All public sector schools and DSS schools offering the local curriculum and provided with the additional funding are required to specify that additional support, including after-school support, is provided for

their NCS students in learning of the Chinese language. EDB will continue encouraging schools to provide more details of their school-based support measures for NCS students in their School Profiles and/or school webpages for the reference of parents of NCS students. Furthermore, EDB has also made available information on admission to schools in major EM languages. Every year, dedicated briefing sessions with simultaneous interpretation services are organised for parents of NCS students. EDB also encourages schools to organise school visits for parents (including parents of NCS students) to enable them to get to know more about the schools before making school choices.

The prevailing education system, including the school places allocation systems, provides NCS students with equal opportunities for admission to public sector schools as their Chinese-speaking peers. Due to various reasons, including schools' location in districts where more NCS people reside, parents' tendency to arrange for their younger children to study in the same school with their older siblings (at the "Discretionary Places Admission" stage under the Primary One Admission System, applicants applying for enrolment in a school in which their older sibling(s) is/are studying will be admitted by the school), and some parents' preference for schools with rich experience in taking care of NCS students, etc., the ratio of NCS students in some schools is inevitably higher than that in other schools, but there is definitely no racial segregation in any way. Unless the school choices of NCS students are to be strictly restricted, or an upper limit is to be set on the ratio of NCS students in schools, the phenomenon that more NCS students study in schools located in certain districts will not change significantly. However, such measures are not feasible because they will not only limit the school choices of NCS students, but also cause some Chinese-speaking students to be allocated to schools which they have not chosen. We believe that the existing support measures are conducive to encouraging NCS students to choose to study in mainstream schools and facilitating their Chinese learning and integration into the community.

Annex A

Number of schools with non-Chinese speaking (NCS) students (by the number of NCS students) and the percentage of NCS students among all students of individual schools from the 2014/15 to 2017/18 school years

School year	Number of schools/ Percentage of NCS students among all students of individual schools	Number of NCS students						
		0	**1 to 9**	**10 to 25**	**26 to 50**	**51 to 75**	**76 to 90**	**91 or more**
Primary school								
2014/15	Number of schools	152	221	49	18	6	3	24

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7042)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Government advise this Committee of:

1. the number and male-to-female ratio of school-attending youngsters/children who had to change school because of domestic violence in each of the past 5 years;

2. the learning progress of these students after changing school (e.g. whether they needed to repeat class or attend remedial lesson);

3. whether there are school measures to support these students; if yes, the details; if no, the reasons; and

4. whether provision has been earmarked for students who have to change school because of domestic violence in the coming school year.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1658)

Reply:

1. to 3.

The Education Bureau (EDB) does not have statistics about the school-age children who need to change school due to domestic violence and other information such as the learning progress of individual students. The EDB provides placement assistance to school-age children upon request. If there is information indicating that the school transfer warrants schools' particular attention, the EDB will contact the schools concerned for appropriate arrangement to meet the specific needs of the students.

To support students in need, schools currently adopt a Whole School Approach to provide a variety of remedial, preventive and developmental guidance programmes, such as induction/adjustment programme, peer support scheme and therapeutic group work, etc. to help students adapt to the new learning environment and integrate into the new school life. Schools will also deliver multifarious teaching strategies and counselling services to cater for students' different abilities and aptitude, with a view to helping students solve their learning difficulties and handling their behavioral problems as appropriate.

Students who have been exposed to domestic violence may suffer from fear, distress, anger, confusion and frustration. School personnel have been advised to be sensitive to the traits manifested by the students affected so as to provide them with immediate and necessary assistance, with reference to the "Procedural Guide for Handling Intimate Partner Violence Cases" and the "Procedural Guide for Handling Child Abuse Cases" issued by the Social Welfare Department (SWD). The EDB has also updated the relevant circular and documents in August 2018 to provide more detailed and clearer guidelines for schools in handling suspected cases involving child abuse and domestic violence, thus further enhancing the ability and alertness of school personnel in identifying traits of children who have been abused or affected by domestic violence. To enhance front-line teachers' awareness in early identification and support of students affected by domestic violence, the EDB has collaborated with the SWD and the Police to organise an annual "Seminar on Identification and Intervention for the Student Affected by Abuse and Domestic Violence".

For known student cases, we understand that the family social workers of the Integrated Family Service Centres of the SWD provide follow-up support for these students and their families. Professional staff of the schools (including school social workers, student guidance personnel and school-based educational psychologists) will work in collaboration with them to help these students solve their family problems. To enhance students' resilience, schools may also join the support programmes organised by the EDB, such as the Understanding Adolescent Project for primary schools and the Enhanced Smart Teen Project for Secondary 2 to Secondary 5 students. The EDB will deploy more resources to enhance these 2 programmes, incurring an annual additional expenditure of around $26 million. The EDB also encourages schools to make use of teaching resources, such as lesson plans on "Prevention and Helping Students Affected by Domestic Violence" and "Self-protection" provided by the EDB in delivering their guidance service as well as to strengthen their parent education programmes and parent-child activities.

4. The EDB has been providing schools with various resources to meet students' adjustment needs in whole person development. It is not possible to apportion the expenditure involved for the students requiring school transfer because of domestic violence.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of:

1. the number of educational psychologists (EPs) serving in primary, secondary and special schools by school type (i.e. government, aided, Direct Subsidy Scheme and private schools) in the past 5 years;

2. the average and median waiting time for EP service in the past 5 years;

3. the average number of cases handled by each EP, and the average, highest and lowest number of school visits conducted by district and school type (i.e. government, aided and Direct Subsidy Scheme primary and secondary schools, and special schools) in the past 5 years;

4. the most common services currently provided by schools for students with various special educational needs (SEN);

5. the current position of "progressively improving the ratio of EP to schools to 1:4" and the estimates for this initiative;

6. the wastage rate and number of vacancies of EPs by school type (i.e. government, aided, Direct Subsidy Scheme and private schools) in the past 5 years;

7. the number of cases of suspected dyslexia pending student assessment by EPs, with a breakdown by primary and secondary schools and class level; and

8. the support and accommodation currently provided by schools for students suspected to have SEN.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1663)

Reply:

1., 3., 5. and 6.
Starting from the 2016/17 school year, all public sector mainstream primary and secondary schools have been provided with the School-based Educational Psychology Service (SBEPS). The Education Bureau (EDB) has further enhanced the SBEPS (Enhanced SBEPS) by progressively enhancing the ratio of educational psychologist (EP) to school to 1:4 in public sector mainstream schools with comparatively large number of students with special educational needs (SEN). The goal is that about 60% of schools will receive the Enhanced SBPES by the 2023/24 school year, while the ratio for the remaining 40% of schools will be enhanced to 1:6. In the 2018/19 school year, the Enhanced SBEPS covers 119 schools. The revised estimate for the provision of the SBEPS for public sector mainstream schools is $173 million in the 2018/19 school year.

From the 2014/15 to 2018/19 school years, the respective numbers of EPs providing the SBEPS for public sector mainstream primary and secondary schools are 99, 114, 138, 144 and 151, and their respective wastage rates are 2.5%, 6.7%, 0%, 3.8% and 5.9%. When an EP resigns, the EDB or school sponsoring body (SSB) will engage a replacement as soon as possible and there is a chance that the vacancy can be filled within the school year. During the vacant period, EPs of the SSB or the EDB will shoulder up the provision of support for the schools concerned. Hence, providing the number of EP vacancies by school year is not meaningful. Under the SBEPS (including Enhanced SBEPS), each EP serves 6 to 10 public sector mainstream primary and secondary schools, in general 7 to 8 schools. EPs visit their schools regularly throughout the school year. The number of visit days paid to each school varies, depending on the needs of the schools and their students. The average number of visit days to each school is around 20 per school year, while for schools receiving the Enhanced SBEPS, the average number of visit days to each school is around 30.

The respective EP establishments in aided special schools in the past 5 years are 17, 17, 17, 19 and 19. As the educational psychology service for aided special schools are provided by EPs employed by the SSBs or school clusters, we have no information pertaining to the number of school visits made by EPs of aided special schools, their wastage rates and vacancies in the past 5 years. Generally speaking, EPs pay more visits to special schools than ordinary schools to meet the needs of special schools.

The number of students requiring direct support from EPs varies from school to school, while the level and frequency of support that individual students need also differ. In many cases, EPs need to collaborate with teachers, social workers, etc. to jointly support the students concerned according to the principle of Whole School Approach. Besides, school-based EPs enhance the effectiveness of the support rendered by schools to the students through strengthening the school support system and teachers' knowledge and skills in catering for students' diverse needs. In this regard, all students benefit from the provision of the SBEPS directly or indirectly.

4.
To support public sector mainstream primary and secondary schools to cater for their students with SEN, the EDB, on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. These additional resources include the Learning Support Grant, the Enhanced Speech Therapy Grant, additional teachers and funding under the Integrated Education (IE) Programme and the Intensive Remedial Teaching Programme, etc. Schools should pool together school resources and deploy them holistically and flexibly to render appropriate support services to students based on their SEN, including employment of additional teachers and teaching assistants to provide in-class support or supplemental coaching after class, arrangements of small group learning and pull-out programmes, or hiring professional services (such as school-based speech therapy, other specialist services, training groups on social/communication/executive skills, emotion management, learning strategies, peer activities, etc.). Schools can also apply for the Top-up Fund to procure special furniture and equipment or carry out minor conversion works for students with disabilities if necessary. For students with significant emotional and behavioural problems despite provision of support, the EDB will consider providing the schools with a time-limited grant to employ additional teaching assistants to help students establish classroom routine.

In addition, professional staff of the EDB pay regular visits to schools to render professional advice on schools' IE policies and support measures, teaching strategies, resources deployment, etc. The EDB also provides schools with professional support, including assessment and consultation services by EPs, speech therapists and audiologists, teacher training, development of teaching resources for teachers and parents, etc. to help schools cater for students with SEN. Since the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with SEN pitched at Basic, Advanced and Thematic levels.

2. and 7.
From the 2013/14 to 2017/18 school years, on average about 80% of the cases referred to EPs in public sector mainstream primary and secondary schools were assessed within 2 months, while about 10% were assessed within 2 to 3 months. Some cases with a longer waiting time for assessment were due to their special circumstances. For example, there were cases where parents requested to defer assessment and cases in which assessment had to be held up pending the students' medical treatment. We have no information on the number of cases of students suspected of dyslexia pending assessment by EPs. Since students admitted to aided special schools have already submitted their assessment reports, there is no need for them to be assessed by EPs again. In general, special schools will plan and arrange follow-up assessment or progress review for prospective school leavers based on their transition needs. Hence, there is no need to wait for EP service.

8.
All public sector primary schools have implemented the Early Identification and Intervention Programme for Primary One (P1) Students with Learning Difficulties for the early identification of P1 students suspected of having learning difficulties. For students showing severe or persistent learning difficulties despite the intervention rendered, schools will refer them to EPs or other professionals for assessment as appropriate. Schools can also consult EPs on the educational needs of other students who manifest learning or emotional-behavioural difficulties. EPs will arrange assessment for them or provide

advice for the schools on the support strategies to cater for the students' needs. In addition, the EDB has all along encouraged schools to adopt the "intervention before assessment" principle to provide appropriate support for students displaying learning or emotional-behavioural difficulties without having them to wait for the completion of professional assessment. Schools may work out appropriate support measures in collaboration with EPs, school-based speech therapists or other relevant professionals as necessary. For students who subsequently have to be referred to professionals for assessments, schools may adjust the methods and level of support provided to these students based on the assessment results.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7045)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee:

1. whether the Government will conduct a comprehensive review of the integrated education policy as it has run into many problems after over a decade of implementation;

2. of the existing training requirements for teachers supporting students with special educational needs (SEN);

3. whether the Government has conducted a comparative research on the training requirements for teachers for supporting students with SEN; if so, the details; if not, the reasons;

4. of the proportion of teachers with adequate training, broken down by mainstream and special schools; and

5. of the Government's strategies to provide all teachers with training in respect of supporting students with SEN.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1665)

Reply:

1.
The Government attaches great importance to integrated education (IE). The Whole School Approach (WSA) to IE currently implemented in Hong Kong is in line with the global trend in the development of IE. The Education Bureau (EDB) has kept the implementation of IE under constant review by monitoring schools' deployment of resources and implementation of relevant measures through its daily work, sending officers on study tours to other countries or regions to learn from their experience, and collecting feedback from the sector and stakeholders through different channels. The EDB set up the

Task Force on IE in Mainstream Schools (IE Task Force) in 2005, comprising representatives from the school sector, other government departments, non-governmental organisations (NGOs) and parent groups. Through regular meetings, the EDB briefs members of the IE Task Force on the progress of implementing IE and seeks their views on improvement measures. In addition to this formal communication platform, we also keep in touch and, where necessary, meet with school councils, NGOs and parent groups to strengthen communication and co-operation as well as tapping their views on the implementation of IE.

In the light of our on-going review and having considered the need of students and views of different stakeholders, the EDB has introduced a number of enhancement measures in the past few years, including regularising the Enhanced Speech Therapy Grant, introducing the teacher professional development programmes on catering for students with special educational needs (SEN); and enhancing the funding arrangements for the Learning Support Grant (LSG). In addition, starting from the 2016/17 school year, the School-Based Educational Psychology Service (SBEPS) has covered all public sector primary and secondary schools in the territory. The ratio of educational psychologist to school has also progressively improved to 1:4 for schools with a large number of students with SEN. Starting from the 2017/18 school year, the LSG for public sector mainstream primary and secondary schools covers students with mental illness. At the same time, starting from the 2017/18 school year, the EDB has regularised the Pilot Project on Special Educational Needs Coordinators (SENCOs) funded by the Community Care Fund. Each public sector mainstream primary and secondary school is provided with, by phases in 3 years, an additional graduate teaching post to facilitate its assignment of a designated teacher to take up the role of SENCO to support IE. In the 2018/19 school year, around 65% of public sector mainstream primary and secondary schools have been provided with SENCOs, and the provision will be extended to the remaining schools in the 2019/20 school year.

In addition, from the 2019/20 school year, the EDB will implement various enhanced measures on IE, including (i) restructuring various funding schemes on IE, extending the LSG to all public sector mainstream schools in the territory, increasing the grant rate for the Tier-3 support and providing additional permanent teaching posts for schools with comparatively large number of students with SEN; (ii) upgrading the SENCO post to a promotion rank in public sector mainstream schools with a comparatively large number of students with SEN; (iii) further extending the Enhanced SBEPS; (iv) creating school-based speech therapist posts in public sector mainstream schools by phases in 3 years; and (v) providing additional resources under a 3-tier structure to public sector mainstream schools admitting non-Chinese speaking students with SEN. Under the new measures, schools will have a more stable teaching force and additional resources for flexible deployment to support students with SEN.

Under the School Development and Accountability Framework, as in other school policies and measures, schools are required to assess the effectiveness of their support for students with SEN through self-evaluation every year. The EDB also requires schools to submit an annual self-evaluation report on the implementation of the WSA to IE to the EDB at the end of each school year, which is validated through External School Review by the EDB. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. To help schools make effective use of

resources, we have stepped up efforts to monitor and remind schools to better utilise the LSG through various measures, including conducting regular school visits by professional staff of the EDB to advise schools on the deployment of resources for supporting students with SEN, organising experience sharing activities among schools, and issuing reminders to individual schools concerned for making improvement should undesirable situation be detected.

According to our observations and communication with schools, schools are in support of IE. With practical experience accumulated over the years, more and more schools are adopting the WSA in providing appropriate support for students with SEN and successful cases have been seen in schools in respect of culture building, policy formulation and implementation.

2. and 3.
Starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with SEN pitched at Basic, Advanced and Thematic levels (BAT Courses). Taking into account the teacher training profiles as well as the types and number of students with SEN enrolled in mainstream schools, in the 2015/16 school year, we have further raised the training targets for each of the public sector mainstream schools to be achieved by the end of the 2019/20 school year as follows:

(i) at least 15% to 25% of teachers will have completed the Basic Course;
(ii) at least 6 to 9 teachers will have completed the Advanced Course; and
(iii) at least 6 to 9 teachers will have completed the Thematic Courses (with at least 1 teacher completing the course(s) under each category as far as possible).

Since the 2012/13 school year, we have also provided the Training Course for Special School Teachers on Education of Students with Severe or Multiple Disabilities (TCSST) specifically for special school teachers. With the LSG covering students with mental illness from the 2017/18 school year onwards, the EDB also provides teachers of primary and secondary schools with the "Professional Development Programme for Mental Health", including elementary training for teachers at large and in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs.

As the education system and policies vary among different countries and regions, it is considered not appropriate to make direct comparison with them in respect of teacher training in supporting students with SEN.

4. and 5.
As at the end of the 2017/18 school year, the percentage of teachers having received special education training in public sector mainstream primary and secondary schools is about 42% and 30% respectively. Under the promotion of the EDB, the percentage of secondary school teachers having received special education training is increasing. As for special schools, about 72% of the teachers have received special education training.

To support schools in arranging teachers to attend BAT Courses, the TCSST and "Professional Development Programme for Mental Health" in a systematic manner, regular teachers of government and aided primary, secondary and special schools are granted paid study leave for attending these courses, and schools are provided with grants for employing supply teachers accordingly. The EDB will inform mainstream schools annually of the latest training position of the school to facilitate their planning of teachers to attend the BAT Courses and school-based professional development programmes.

Moreover, the EDB also provides teachers with different theme-based training activities, including seminars, workshops and sharing sessions, to share good practices and update teachers on the current trend and approaches in catering for students with SEN.

To better equip prospective teachers with the knowledge and skills in catering for students with SEN, local teacher education universities have included modules related to special education or catering for students with SEN in their pre-service teacher training courses. The EDB has also incorporated topics on catering for student diversity and spearheading the implementation of IE in the Preparation for Principalship Course for Aspiring Principals and induction programme for newly appointed principals to strengthen their leadership skills in the implementation of WSA to IE.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7046)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the details of the complaints received by the Education Bureau from parents of students with special educational needs against primary and secondary schools in the past 5 years.

	Secondary school	Primary school	Others
Total number of complaints			
Number of schools being complained against			
Number of completed cases			
Number of pending cases			
Average time required for waiting			
Average time required for processing			

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1667)

Reply:

The number of complaints received by the Education Bureau (EDB) from parents of students with special educational needs from the 2014/15 to 2018/19 school years and their position are set out in the table below:

School Year	No. of complaints			No. of schools being complained against			No. of completed cases		
	Secondary School	Primary School	Others (Special School)	Secondary School	Primary School	Others (Special School)	Secondary School	Primary School	Others (Special School)
2014/15	0	3	4	0	3	3 (Note)	0	3	4
2015/16	0	6	4	0	6	3 (Note)	0	6	4
2016/17	1	6	9	1	5 (Note)	6 (Note)	1	6	9
2017/18	2	4	7	2	3 (Note)	7	2	4	6
2018/19 (as at 28 February 2019)	2	1	1	2	1	1	1	0	0

Note: Some schools are involved in more than 1 case.

The EDB will handle complaints immediately once received. Thus, we have no statistics on the number of cases waiting to be processed or the average waiting time before a case is processed. The time spent on handling each complaint case depends on its nature and complexity. In general, it takes about 2 to 3 months to handle a formal complaint case and a longer time for complicated cases.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) What types of complaints did the Education Bureau receive from parents of students with special educational needs at different school levels in the past 5 years?

	Types of complaints	Common complaints Type 1	Common complaints Type 2	Common complaints Type 3
Kindergarten				
Primary school				
Secondary school (Secondary 1 to Secondary 3)				
Secondary school (Secondary 4 to Secondary 6)				
University				

(2) What strategies does the Government adopt in handling complaints lodged by parents of students with special educational needs?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1668)

Reply:

(1) The common types of complaints received by the Education Bureau (EDB) from parents of the students with special educational needs (SEN) from the 2014/15 to 2018/19 school years are tabulated as follows:

	Common Types of Complaints		
	Type 1	Type 2	Type 3
Kindergarten	Discrimination	-	-
Primary School	Student Support	Learning Support, School Maladministration	Poor Staff Performance
Secondary School	Student Support	School Maladministration, Discrimination	-
Special School	School Maladministration	Student Safety	Poor Staff Performance

Notes:
(i) EDB refers common types of complaints as the complaints of the same types that appeared more than once.
(ii) During the above period, EDB did not receive any complaints from parents of those students with SEN studying in the universities.

(2) Cultivating a culture of good communication and establishing a well-defined complaint handling system are essential elements of good governance and quality services. All along, the EDB encourages schools to strengthen the communication and cooperation with parents for mutual understanding of their roles and responsibilities in the implementation of integrated education. The EDB requires schools to establish a regular communication mechanism to let parents understand the SEN of their children, participate in the formulation of support plans, review the learning progress and adjust the support measures, etc.

The EDB launched the "Pilot Project on Enhancement of Complaint Management in Schools" (Pilot Project) between the 2012/13 and 2014/15 school years to assist schools to establish or enhance their school-based complaint handling mechanisms and procedures. In view of the positive evaluation results of the Pilot Project, the Enhanced School Complaint Management Arrangements (Enhanced Arrangements) were fully implemented in all public sector and Direct Subsidy Scheme schools with effect from 1 September 2017.

Under the Enhanced Arrangements, schools should formulate their school-based mechanisms and procedures for handling complaints (including complaints related to students with SEN) for use as the basis to discuss with parents for direct solutions. If the school and the complainant cannot arrive at a mutual agreement for a complaint involving disability discrimination, they may submit the case to the respective Regional Education Office of the EDB for arranging a mediation meeting for both parties to work out a solution and reach a settlement. If the dispute cannot be resolved through the aforementioned

procedures, the EDB will set up a Case Study Group (the Group) to solicit views from outsiders. Members of the Group are appointed by the EDB. Except for the Chairperson, all members are non-EDB members, including parents, representatives from the education sector and other professionals such as representatives from the medical or legal sector, educational psychologist, and the field of social work. The Group will review the case in an objective, impartial and fair manner, and put forward settlement proposals to the EDB.

Besides, the EDB will continue to organise suitable courses, seminars and workshops for teachers to enhance their professional capacity in supporting students with SEN and share practices to strengthen cooperation with parents. The EDB will also continue to arrange professional training and networking activities for Special Educational Needs Coordinators (SENCOs) to enhance their professional capacity. The above measures facilitate SENCOs to fulfill their leadership role in strategically promoting the Whole School Approach to integrated education, including enhancing home-school co-operation, so that teachers can work with parents in collaboration to support students with SEN.

The above basic principles (including the formulation of school-based mechanisms and procedures and discussion with the parents on this basis to settle the issues direct) are also applicable to kindergartens. If the school and the complainant cannot reach a consensus, EDB will intervene and provide support as appropriate. The EDB will also invite the Equal Opportunities Commission to explain to the school personnel the points to note under the anti-discrimination ordinances relating to those areas of school administration which might easily arouse misunderstanding (e.g. student admission) so as to strengthen their awareness in this aspect.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7048)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following:

1. The latest number of teachers who have completed the Basic, Advanced and Thematic Courses (BAT Courses) under the teachers' professional development framework on special education and a breakdown of the number of teachers who have not yet completed the BAT Courses; and

2. How the Administration assesses the current effectiveness of the BAT Courses on special education.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1669)

Reply:

1. and 2.

Starting from the 2007/08 school year, the Education Bureau (EDB) has been providing serving teachers in primary and secondary schools with structured training courses on supporting students with special educational needs (SEN) pitched at Basic, Advanced and Thematic levels (BAT courses). By the 2017/18 school year, the number of public sector mainstream school teachers who have completed the Basic, Advanced and Thematic Courses are 7 299, 2 949 and 6 315 respectively. Apart from the BAT Courses, the EDB has also provided teachers of primary and secondary schools with the "Professional Development Programme for Mental Health". On top of this, the EDB arranges training activities for teachers every school year, such as thematic seminars, conferences, experience sharing sessions and workshops, etc. On the other hand, to better equip prospective teachers with the knowledge and skills in catering for students with SEN, local teacher education universities have also included modules related to special education or catering

for students with SEN in their pre-service teacher training courses in order to enhance their professional capacity to cater for students with SEN when they served as teachers. As such, the number of teachers who have not yet completed the BAT Courses does not fully reflect the position of teacher training in special education in the schools.

We have been monitoring the effectiveness of the BAT Courses through various means, including lesson observations, review meetings with the course providers, analysis of participants' feedback and examination of the evaluation reports by the course providers. After the launch of the BAT Course in the 2007/08 school year, a review of the courses has been conducted, in which the views of school principals and teachers were gauged and the evaluation of the course providers was scrutinised. The findings showed that the BAT Courses were effective in enhancing teachers' knowledge and skills in catering for students with SEN. In view of the positive feedback, we have launched another round of BAT Courses starting from the 2012/13 school year, with appropriate adjustment to the mode and content of the training programmes to better meet the training needs of the teachers. Starting from the 2014/15 school year, we have further strengthened the practicum of the Advanced and Thematic Courses with a view to providing more opportunities for teachers to apply the knowledge acquired. Taking into account of the teacher training profiles as well as the types and numbers of students with SEN, in the 2015/16 school year, we have further raised the training targets which have to be achieved by every public sector mainstream school by the end of the 2019/20 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7049)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following:

1. Please give a breakdown of the number of hours of special education training in the pre-service teacher training courses currently offered by tertiary institutions.

2. As special education covers a number of different areas, will the Administration consider resuming the previous two-year special education training for teachers offered by the then Hong Kong Institute of Education?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1670)

Reply:

Post-secondary institutions in Hong Kong enjoy autonomy in the planning and curriculum development of their programmes. As such, the Government and the University Grants Committee (UGC) do not collect information on the number of hours of special education training in pre-service teacher training programmes offered by the teacher education universities. That said, we understand that modules related to special education or catering for students with special educational needs (SEN) are included in the pre-service teacher training courses of the local teacher education universities with a view to better equipping prospective teachers to understand the principles of special education and acquire the knowledge and skills in catering for students with SEN.

Besides, at present, the Education University of Hong Kong (EdUHK) offers a UGC-funded part-time top-up Bachelor of Education (Honours) (Special Needs) programme to in-service teachers. Starting from the 2016/17 academic year, a UGC-funded part-time top-up Bachelor of Education (Honours) (Early Childhood Education) in Leadership and Special Needs programme has also been introduced. Moreover, both EdUHK and the University of Hong Kong offer UGC-funded Postgraduate Diploma in Education programmes with majors in Special Education.

To enhance the professional capacity of teachers in supporting students with SEN, the Education Bureau (EDB) has been providing teachers with training courses pitched at the Basic, Advanced and Thematic levels (BAT Courses) on catering for students with SEN since the 2007/08 school year. Starting from the 2012/13 school year, we have been organising the Training Course for Special School Teachers specifically for serving special school teachers. Starting from the 2017/18 school year, the EDB also provides "Professional Development Programme for Mental Health" for teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. Besides, the EDB has all along been organising various kinds of thematic training activities, including talks, workshops and sharing sessions, to keep teachers abreast of the latest development in special education and integrated education and to share among their peers about the good practices in catering for students with SEN. In short, schools may arrange teachers to attend different training courses having regard to the needs of the school and their teachers. Teachers may also choose to attend other relevant in-service training courses offered by local teacher education institutions according to their training needs. As such, we do not have plans to resume the previous two-year special education training for teachers.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7050)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the number of Secondary 3 school leavers with special educational needs, and their percentage share among the total number of Secondary 3 school leavers in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1671)

Reply:

According to the information in the Special Education Management Information System of the Education Bureau (EDB), the number of students with special educational needs (SEN) reported to have left school after completing Secondary 3 (S3) from the 2013/14 to 2017/18 school years is tabulated below:

School Year	2013/14	2014/15	2015/16	2016/17	2017/18
Number of S3 school leavers with SEN	300	320	320	420	420

Note: Figures are rounded to the nearest 10.

With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students identified with SEN has increased. With the increase in the base number, the number of S3 school leavers with SEN has also risen in recent years. According to the information provided by schools, the main reasons for these students leaving school include attending full-time or part-time courses run by the Vocational Training Council, joining the apprenticeship schemes or

pre-employment vocational training, continuing their studies in local private schools or pursuing overseas study, etc.

Under the existing mechanism, schools must report all cases of school leavers to the EDB. As students leave school for different reasons and some students would resume schooling later, we do not compile statistics on the total number of S3 school leavers each school year and hence the percentage share of S3 school leavers with SEN cannot be provided.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Since the importance of sign language is receiving more and more attention and sign language is much valued by the international community as being instrumental in honouring the Convention on the Rights of Persons with Disabilities, would the Government advise whether a post-secondary programme on sign language interpretation would be introduced among the offering of post-secondary education or within the Qualifications Framework to draw more talents to the profession?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1672)

Reply:

It is the Government's established policy objective to create a barrier-free environment and promote barrier-free communication, thereby facilitating full integration of persons with disabilities into the community. Relevant Government bureaux and departments implement this policy objective in the policies and measures under their respective purview. The Government has included sign language into the domain of the Continuing Education Fund (CEF) and accepts applications from course providers for the registration of sign language courses as CEF courses.

Post-secondary education institutions in Hong Kong enjoy institutional autonomy in planning for their programmes taking into account, among other things, community needs. Sign language programmes provided by these institutions may be recognised under the Qualifications Framework and registered on the Qualifications Register (QR) if they are quality assured by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or institutions with self-accrediting status. At present, there are already a number of sign language-related courses on the QR.

Question:

Please inform this Committee of the situation in respect of irregularities among registered teachers, the type of irregularities, as well as the number of registered teachers having received penalties and those having been disqualified in the past 10 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1673)

Reply:

The Education Bureau (EDB) attaches great importance to teachers' professional conduct. If any teacher is found to have committed a serious offence or an act of serious misconduct, based on the information in hand, a review on the professional conduct of the teacher concerned will be conducted and follow-up actions will be taken accordingly. For cases of a serious nature, the teacher's registration may be cancelled. From 2009 to 2018, 97 teachers had their registration cancelled or application refused by the EDB. Teachers in these cases are mainly involved in having committed a sexual or sex-related offence, a fraud-related offence or some minor but repeated offences (e.g. operating an unregistered school), or having serious integrity problem (e.g. cheating in the Territory-wide System Assessment), etc.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the year-on-year percentage change of SEN students by grade level (from P.1 to S.6) and by diagnosis. Please provide the statistics in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1674)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade level and by SEN type in the past 5 school years (i.e. from 2014/15 to 2018/19) is set out at Appendix. As student population changes over the years, making direct comparison of the percentage change of the students with SEN by grade level in different cohorts is inappropriate. Besides, since the number of students of some SEN types is relatively small, annual fluctuation will easily cause significant variation in percentage terms. As such, providing the year-on-year percentage change of students with SEN by grade level and by SEN type is not meaningful.

Appendix

Number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade level and by SEN type from the 2014/15 to 2018/19 school years (Note 1)

Specific Learning Difficulties	P1 (Note 2)	P2	P3	P4	P5	P6	S1	S2	S3	S4	S5	S6

2018/19	10	9	6	4	13	13	22	42	53	57	61	74

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

2. The number of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7054)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the Government inform this Council of:

(a) the number of ethnic minority students with special educational needs ("SEN") in each of the grade levels from K1 to S6 in public mainstream schools (including Direct Subsidy Scheme Schools) disaggregated by ethnicity and the types of SEN for the past 5 years;

(b) the number of non-Chinese speaking ("NCS") students with SEN in each of the grade levels from K1 to S6 in public mainstream schools (including Direct Subsidy Scheme Schools) disaggregated by ethnicity and the types of SEN for the past 5 years;

(c) the total number of public mainstream schools and those that applied for Chinese learning support for NCS students with 1 to 9 and 10 or above NCS SEN students in the past 5 years, and the respective amount of funding involved disaggregated by number of NCS SEN students;

(d) the total number of public special schools and those that applied for Chinese learning support for NCS students with 1 to 5 NCS SEN students in the past 5 years, and the respective amount of funding involved disaggregated by number of NCS SEN students;

(e) the number of public mainstream and special schools that adopted 'Chinese Language Curriculum Second Language Learning Framework' in the past 5 years;

(f) did the schools use the Chinese Language Assessment Tools[1]? If yes, please provide the number of public mainstream and special schools and the percentage among funded schools that use the Assessment Tools; if no, the reasons;

(g) the number of NCS SEN students participating in the TSA Chinese assessments in the past 5 years;

(h) the Chinese level of all NCS SEN students with reference to the Assessment Tools (disaggregated by grade and respective levels), by completing the following table.

	No. of Secondary 1-3 NCS SEN students assessed	No. of Secondary 1-3 NCS SEN students reached Key Stage III	No. of Primary 4-6 NCS SEN students assessed	No. of Primary 4-6 NCS SEN students reached Key Stage II	No. of Primary 1-3 NCS SEN students assessed	No. of Primary 1-3 NCS SEN students reached Key Stage I	No. of NCS SEN students assessed	No. of NCS SEN students reached Entry Stage
2013/14								
2014/15								
2015/16								
2016/17								
2017/18								

[1] The Education Bureau has been using Chinese Language Assessment Tools to determine NCS students' Chinse Language level. They are ranked as achieving High, Medium or Low performance in four different stages namely the Entry Stage, Key Stage I (Primary 1-3), Key Stage II (Primary 4-6) and Key Stage III (Secondary 1-3). Each stage of these assessment tools provides "exemplars on listening, speaking, character recognition/reading and character writing/writing, alongside audio recordings and scripts, reference answers and marking schemes etc. to facilitate teachers' use" (EDB website).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3900)

Reply:

(a) & (b)

As the support services for children with special needs at pre-primary levels are provided by the Social Welfare Department, the Education Bureau (EDB) does not maintain the related information. The number of non-Chinese speaking (NCS) ethnic minority students with special educational needs (SEN) and the number of NCS students with SEN in public sector mainstream schools by ethnicity, by SEN type and by grade level, in the past 5 years are set out at Appendix 1 and Appendix 2 respectively. We do not collect relevant data from Direct Subsidy Scheme (DSS) schools.

(c) to (f)

Starting from the 2014/15 school year, the EDB has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with

teaching resources, teacher training and professional support to further enhance the support for NCS students' (including NCS students with SEN) learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. Schools are also provided with practical tools and steps, as well as reference materials on learning and teaching, including the "Chinese Language Assessment Tools for NCS Students" ("Assessment Tools"). The assessment tasks under the "Assessment Tools" cover the entry stage, Key Stage 1 (Primary 1-3), Key Stage 2 (Primary 4-6), Key Stage 3 (Secondary 1-3) and Key Stage 4 (Secondary 4-6). The tasks in each stage are designed in conjunction with the expected learning outcomes across different levels of the "Learning Framework", so as to assist teachers in teaching and providing assessment feedback to NCS students. Aligned with curriculum planning, teaching progression and NCS students' learning needs, teachers may adopt a school-based approach in using the "Assessment Tools" to assess NCS students' learning progress over time, provide timely feedback on learning and set progressive learning targets for their NCS students. Starting from the 2014/15 school year, all public sector mainstream schools and DSS schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted. These schools are required to, based on the results of the "Assessment Tools", adjust the learning targets and teaching strategies with reference to the learning progress so described in the "Learning Framework", as well as the learning performance and progress of their NCS students, and adopt diversified intensive learning and teaching modes as appropriate to enhance the effectiveness of NCS students in learning the Chinese language. From the 2014/15 to 2018/19 school years, the respective number of the said schools admitting 10 or more NCS students is 173, 197, 216, 228 and 241 and the respective number of schools admitting a handful (i.e. 1 to 9) of NCS students is 414, 410, 382, 387 and 391 respectively. As for NCS students in the latter group, they can benefit from the immersed Chinese language environment of the school and the "Learning Framework", which will be implemented when necessary in light of their performance in learning the Chinese language. Starting from the 2014/15 school year, these schools may apply for an additional funding of $50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes.

Regarding special schools, starting from the 2014/15 school year, those offering an ordinary school curriculum and admitting 6 to 9 NCS students, and those offering an adapted curriculum and admitting 6 or more NCS students are both provided with an additional funding of $0.65 million. The funding model for special schools offering an ordinary school curriculum and admitting 10 or more NCS students is the same as that for the mainstream schools mentioned above. Special schools admitting a handful (i.e. 1 to 5) of NCS students may have an additional funding of $50,000 on a need basis to offer after-school Chinese language support programmes. From the 2014/15 to 2018/19 school years, the number of special schools offering an ordinary school curriculum and admitting 6 or more NCS students is 7, 6, 6, 5 and 5 respectively, the number of special schools offering an adapted curriculum and admitting 6 or more NCS students is 16, 19, 18, 20 and 20 respectively, and the number of special schools admitting 1 to 5 NCS students is 25, 24, 26, 26 and 25. In general, special schools providing an ordinary school curriculum make reference to the "Learning Framework" mentioned above while other special schools make

reference to the "Chinese Language Curriculum Second Language Adapted Learning Framework (for NCS Students with Intellectual Disabilities)" ("Adapted Framework"). The schools implement the "Learning Framework" and/or the "Adapted Framework" in light of NCS students' performance in learning the Chinese language. We do not collect information about special schools' implementation of the "Learning Framework" and/or the "Adapted Framework". Generally, the "Assessment Tools" are applicable to NCS students studying in special schools adopting an ordinary school curriculum while NCS students studying an adapted curriculum are assessed with school-based approaches. However, schools may adopt the "Assessment Tools" or school-based approaches flexibly with regard to the learning performance of their students, and use diversified assessment strategies to observe students' performance, and record and collect evidence of student learning, with a view to assessing their learning effectiveness and providing effective feedback. Also, schools should implement the support to tie in with the "Individual Education Plans" to strengthen the support for their NCS students.

The number of schools provided with the additional funding mentioned above and the expenditure involved from the 2014/15 to 2018/19 school years are set out at Appendix 3. As the funding is provided based on the number of NCS students (including NCS students with SEN) admitted by the eligible schools, we are not able to apportion the expenditure on NCS students with SEN studying in mainstream schools.

(g)

Schools may request accommodation measures on behalf of students with SEN and NCS students participated in the Territory-wide System Assessment (TSA). The number of NCS students provided with such accommodation measures as requested by schools in the past 5 years is as follows:

2013/14 school year:	86	(Primary 3),	7	(Primary 6△),	7	(Secondary 3)
2014/15 school year:	105	(Primary 3),	78	(Primary 6),	29	(Secondary 3)
2015/16 school year:	13	(Primary 3^),	2	(Primary 6△),	29	(Secondary 3)
2016/17 school year:	73	(Primary 3#),	59	(Primary 6),	44	(Secondary 3)
2017/18 school year:	11	(Primary 6△),	54	(Secondary 3)		

△ Since 2012, the Primary 6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

^ The 2016 Primary 3 TSA was conducted as part of the 2016 Tryout Study. The data is gathered from some 50 participating schools.

The assessment at Primary 3 level in 2017 was conducted as part of the Basic Competency Assessment Research Study with an extended scope to all primary schools in Hong Kong.

◇ Starting from 2018, the Primary 3 TSA has been conducted on a sampling basis.

Accepted the Coordinating Committee on Basic Competency Assessment and Assessment Literacy's recommendations on Primary 3 TSA last year, the EDB has, starting from 2018,

conducted Primary 3 TSA with a low-stake approach of "no student names, no school names, no collection of reports and selection of participants by sampling". At the territory-wide level, the Hong Kong Examinations and Assessment Authority (HKEAA) samples around 10% of students from each public sector and DSS school for Primary 3 TSA each year. If schools consider it necessary, the HKEAA can arrange participation of their Primary 3 students in TSA in full cohort.

Since the number of schools arranging participation of their Primary 3 students in TSA in full cohort (and the related number of students) are not pertinent to the policy objective, the EDB does not inquire the HKEAA about the schools that opt for full participation of their Primary 3 students in TSA (and the related number of students), and no longer maintains information on the number of students participating in Primary 3 TSA. In line with the policy intent of the new assessment arrangements, the HKEAA will also not disclose relevant information any longer.

(h)

The EDB has commissioned a tertiary institution to conduct analysis on NCS students' overall learning performance in Chinese reading and writing annually by making reference to the results based on the "Assessment Tools", so as to understand the overall learning performance of NCS students' learning of the Chinese language. Such analysis does not cover the number of NCS students who have attained certain levels at different learning stages. According to the sampling methodology adopted, the marked scripts on each of reading (or character recognition) and writing (or character writing), broadly categorised as high, medium, and low in terms of performance by individual schools based on school-based criteria, are collected from all mainstream schools provided with the above-mentioned additional funding ranging from $0.8 million to $1.5 million per year, so that the findings would cover NCS students' (including NCS students with SEN) learning at different grade levels and Chinese proficiency as far as practicable.

According to the findings of the analysis in each of the school years from 2014/15 to 2017/18, the overall performance in reading and writing of NCS students studying at the same grade level varied considerably as their duration of and pace in learning Chinese were different. In brief, NCS students (in particular those currently studying at junior primary levels) are generally able to learn Chinese more effectively and are expected to bridge over to mainstream Chinese Language classes in due course. Nevertheless, it is neither appropriate nor possible to assess the effectiveness of NCS students' learning of the Chinese language solely based on the results of the "Assessment Tools". In fact, all students, including NCS students with SEN, may experience ups and downs in their learning journey and the learning effectiveness of NCS students may be affected by other factors (such as parents' expectation and cooperation, students' learning attitude, etc.). Teachers need to monitor NCS students' learning progress on an ongoing basis and provide NCS students with the necessary support and counselling in a timely manner, so as to cater for their diversified learning needs and changes in learning progress, if any, and facilitate their articulation to multiple pathways. It has only been some 4 years since the implementation of the "Learning Framework" and other support measures in the 2014/15 school year. It takes time for these measures to take root and create a sustainable impact. It is expected that the Chinese proficiency of NCS students (especially those who have started learning the Chinese language at kindergarten level) will improve progressively.

Number of non-Chinese speaking (NCS) ethnic minority students with special educational needs (SEN) in public sector mainstream schools by ethnicity, by SEN type and by grade level in the past 5 years

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
2. Students whose spoken language at home is not Chinese are broadly categorised as NCS students. Figures above do not include those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.
3. "Mixed" is not classified as an ethnicity.
4. Figures do not include students in Direct Subsidy Scheme schools.

Number of non-Chinese speaking (NCS) students with special educational needs (SEN) in public sector mainstream schools by ethnicity, by SEN type and by grade level in the past 5 years

2014/15 school year

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
2. Students whose spoken language at home is not Chinese are broadly categorised as NCS students. Figures above include those students whose ethnicity is Chinese but with Chinese not as spoken language at home.
3. "Mixed" is not classified as an ethnicity.
4. Figures do not include students in Direct Subsidy Scheme schools.

Number of schools provided with the additional funding (by school type and number of non-Chinese speaking (NCS) students) and the expenditure involved from the 2014/15 to 2018/19 school years

School year	Public Sector Mainstream Schools and Direct Subsidy Scheme Schools			Special Schools			Total expenditure ($ million)
	Number of NCS Students	Number of Schools	Expenditure ($ million)	Number of NCS Students	Number of Schools	Expenditure ($ million)	
2014/15	Less than 10	58	2.9	Less than 6	8	0.4	197.8
	10 or above	173	179.05	6 or above	23	15.4	
2015/16	Less than 10	83	4.15	Less than 6	9	0.45	224.0
	10 or above	197	202.5	6 or above	25	16.85	
2016/17	Less than 10	179	8.95	Less than 6	14	0.7	245.1
	10 or above	216	219.25	6 or above	24	16.2	
2017/18	Less than 10	213	10.65	Less than 6	16	0.8	259.1
	10 or above	228	230.8	6 or above	25	16.85	
2018/19	Less than 10	213	10.65	Less than 6	16	0.8	270.9
	10 or above	241	242.7	6 or above	25	16.7	

Notes:

1. Figures cover NCS students in public sector mainstream schools, Direct Subsidy Scheme schools offering the local curriculum and special schools.
2. Figures for the 2018/19 school year (including number of schools and expenditure) are provisional.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7055)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) How many students in DSS schools have asked for testing accommodations at P3, P6, S3, for TSA?

(2) How many SEN qualified teachers are in DSS schools? How many SEN qualified teachers are also qualified to teach in English?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3905)

Reply:

(1) Irrespective of school types, the Hong Kong Examinations and Assessment Authority (HKEAA) provides students with special educational needs (SEN) with accommodation measures as requested by their schools in the Territory-wide System Assessment in light of their needs. The HKEAA does not categorise relevant information according to the funding mode of schools. Hence, the Education Bureau (EDB) does not possess the relevant data as well.

(2) Starting from the 2007/08 school year, the EDB has been providing structured training courses on supporting students with SEN pitched at the Basic, Advanced and Thematic levels (BAT courses) for serving teachers. Teachers from both public sector and Direct Subsidy Scheme (DSS) schools can enrol on the courses to enhance their professional capacity in catering for students with SEN. The EDB does not have information on special education training of teachers in DSS schools and the relevant statistics.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7056)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

How many NCS SEN students participate in the TSA during the past 5 years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3906)

Reply:

Schools may request accommodation measures on behalf of students with special educational needs (SEN) and non-Chinese speaking (NCS) students participated in the Territory-wide System Assessment (TSA). The number of NCS students provided with such accommodation measures as requested by schools in the past 5 years is as follows:

2013/14 School Year: 86 (Primary 3); 7 (Primary 6△); 7 (Secondary 3)
2014/15 School Year: 105 (Primary 3); 78 (Primary 6); 29 (Secondary 3)
2015/16 School Year: 13 (Primary 3^); 2 (Primary 6△); 29 (Secondary 3)
2016/17 School Year: 73 (Primary 3#); 59 (Primary 6); 44 (Secondary 3)
2017/18 School Year: 11 (Primary 6△); 54 (Secondary 3)

△ Since 2012, the Primary 6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

^ The 2016 Primary 3 TSA was conducted as part of the 2016 Tryout Study. The data is gathered from some 50 participating schools.

The assessment at Primary 3 level in 2017 was conducted as part of the Basic Competency Assessment Research Study with an extended scope to all primary schools in Hong Kong.

Accepted the Coordinating Committee on Basic Competency Assessment and Assessment Literacy's recommendations on Primary 3 TSA last year, the Education Bureau (EDB) has, starting from 2018, conducted Primary 3 TSA with a low-stake approach of "no student names, no school names, no collection of reports and selection of participants by sampling". At the territory-wide level, the Hong Kong Examinations and Assessment Authority (HKEAA) samples around 10% of students from each public sector and Direct Subsidy Scheme school for Primary 3 TSA each year. If schools consider it necessary, the HKEAA can arrange participation of their Primary 3 students in TSA in full cohort.

Since the number of schools arranging participation of their Primary 3 students in TSA in full cohort (and the related number of students) are not pertinent to the policy objective, the EDB does not inquire the HKEAA about the schools that opt for full participation of their Primary 3 students in TSA (and the related number of students), and no longer maintains information on the number of students participating in Primary 3 TSA. In line with the policy intent of the new assessment arrangements, the HKEAA will also not disclose relevant information any longer.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7057)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Learning Support Grants are paid to schools based on Tier 2 and Tier 3 level of the SEN student (as well as top up). For the past five years, how much learning support grant was paid for Tier 2 level SEN student and Tier 3 level SEN student (excluding top up) respectively?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3907)

Reply:

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing schools with additional resources on top of the regular subvention (including the Learning Support Grant (LSG)), professional support and teacher training, and encouraging schools to adopt the Whole School Approach to support students with SEN through the 3-Tier Intervention Model, taking into account their support needs.

To further enhance the support for students with SEN, the EDB has raised the ceiling of the LSG from $1 million to $1.5 million per school per annum since the 2013/14 school year and increased the grant rates by 30% in the 2014/15 school year. From the 2015/16 school year onwards, the grant rates and the ceiling of the LSG for each school year continues to be adjusted annually according to the change in the Composite Consumer Price Index. In the 2018/19 school year, the grant per year per student requiring tier-2 and tier-3 support has been increased to $14,322 and $28,644 respectively, and the basic provision per school per annum for the first 1 to 6 student(s) requiring tier-3 support has also been raised to $171,864. Each school is subject to a grant ceiling of $1,652,434 per annum. Starting from the 2017/18 school year, the LSG covers students with mental illness. The expenditure on the LSG for the past 5 years is as follows:

School Year	2014/15	2015/16	2016/17	2017/18	2018/19 (Revised Estimate)
Expenditure on LSG ($ million)	450.1	500.1	539.0	589.6	646.3

Although the LSG is calculated on the basis of the number of students with SEN and the tier of support the students required (including the basic provision provided for the first 1 to 6 student(s) requiring tier-3 support), schools should pool and deploy the LSG and other school resources flexibly and holistically for employing additional teachers, teaching assistants, or hiring professional services, etc. to render appropriate support services for students with SEN based on their needs. Hence, providing the information on the LSG paid for students requiring tier-2 and tier-3 support (excluding the basic provision) does not reflect an accurate account of all of the support provided to these students.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau is allocating funding to primary and secondary schools according to the number of non-Chinese speaking ("NCS") students they admit. In this connection, will the Government:

1. tabulate the number of primary and secondary schools admitting 0, 1 to 9, 10 to 25, 26 to 50, 51 to 75, 76 to 90 and more than 90 NCS students in 2016/17 respectively;

	Number of primary schools admitting such a number of NCS students	Names of these primary schools admitting such a number of NCS students	Number of secondary schools admitting such a number of NCS students	Names of these secondary schools admitting such a number of NCS students
0				
1-9				
10-25				
26-50				
51-75				
76-90				
More than 90				

2. tabulate the number of primary and secondary schools admitting 0, 1 to 9, 10 to 25, 26 to 50, 51 to 75, 76 to 90 and more than 90 ethnic minority students in 2016/17 respectively;

	Number of primary schools admitting such a number of ethnic minority students	Names of these primary schools admitting such a number of ethnic minority students	Number of secondary schools admitting such a number of ethnic minority students	Names of these secondary schools admitting such a number of ethnic minority students
0				
1-9				
10-25				
26-50				
51-75				
76-90				
More than 90				

3. tabulate the number of primary and secondary schools where NCS students account for 0%, 1% to 30%, 31% to 50%, 51% to 70%, 71% to 90% and more than 90% of the student population in 2016/17;

	Number of primary schools where NCS students account for this percentage of the student population	Names of primary schools where NCS students account for this percentage of the student population	Number of secondary schools where NCS students account for this percentage of the student population	Names of secondary schools where NCS students account for this percentage of the student population
0%				
1%-30%				
31%-50%				
51%-70%				
71%-90%				
More than 90%				

4. tabulate the number of primary and secondary schools where ethnic minority students account for 0%, 1% to 30%, 31% to 50%, 51% to 70%, 71% to 90% and more than 90% of the student population in 2016/17;

	Number of primary schools where ethnic minority students account for this percentage of the student population	Names of primary schools where ethnic minority students account for this percentage of the student population	Number of secondary schools where ethnic minority students account for this percentage of the student population	Names of secondary schools where ethnic minority students account for this percentage of the student population
0%				
1%-30%				
31%-50%				
51%-70%				
71%-90%				
More than 90%				

5. if the Government refuses to provide the data above, inform the committee of how it and the public can monitor whether there is de facto racial segregation in the education system; and

6. given that the Education Bureau said it is committed to facilitating the integration of NCS students and providing education-related information to NCS parents and students, inform the Council of how parents can obtain the data above; and if parents have no way to find out which schools have a high proportion of ethnic minority students, whether the Education Bureau can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3909)

Reply:

According to the information collected through the annual Student Enrolment Survey, the respective number of schools with non-Chinese speaking (NCS) students and NCS ethnic minority (EM) students ranging from "0", "1 to 9", "10 to 25", "26 to 50", "51 to 75", "76 to 90" and "91 or above" in the 2016/17 school year is tabulated at Annex A while the number of schools by the percentage of NCS students among all students of individual schools and by the percentage of NCS EM students among all students of individual schools are tabulated at Annex B. Since the definition of NCS students is based on the language spoken at home instead of the ethnicity of the students, the data provided in Annex A and Annex B are not comparable. To avoid unnecessary misconception and possible labelling on individual schools, we have been adopting a cautious approach and adhering to the established practice of not disclosing the name and situation of individual schools.

The Education Bureau (EDB) is committed to encouraging and supporting the integration of NCS students into the community, including facilitating their adaptation to the local

education system and mastery of the Chinese language. All relevant information is published in English and Chinese and there is a dedicated webpage on education services for NCS students. The information or publications published with translation into major EM languages provided to NCS students and their parents are tabulated at Annex C. In tandem, EDB will continue promoting parent education actively, emphasising that parents (including parents of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider arranging for their children to study in schools which can provide an immersed Chinese language learning environment to help them learn Chinese. Parents of NCS students, like other parents, are encouraged to join the on-site visits organised by individual schools and Federations of Parent-Teacher Associations on a district basis to learn more about the schools so as to choose a suitable school for their children. Since the 2015/16 school year, the Committee on Home-School Co-operation has published the English printed version of the School Profiles for distribution to parents of NCS students studying at K3 and Primary 6 levels via KGs and primary schools for their easy access to the information in the School Profiles. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on "Education Support for NCS Students" has been added to the School Profiles for schools to provide information on relevant support for NCS students. All public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and provided with the additional funding are required to specify that additional support, including after-school support, is provided for their NCS students in learning of the Chinese language. EDB will continue encouraging schools to provide more details of their school-based support measures for NCS students in their School Profiles and/or school webpages for the reference of parents of NCS students. Furthermore, EDB has also made available information on admission to schools in major EM languages. Every year, dedicated briefing sessions with simultaneous interpretation services are organised for parents of NCS students. EDB also encourages schools to organise school visits for parents (including parents of NCS students) to enable them to get to know more about the schools before making school choices.

The prevailing education system, including the school places allocation systems, provides NCS students with equal opportunities for admission to public sector schools as their Chinese-speaking peers. Due to various reasons, including schools' location in districts where more NCS people reside, parents' tendency to arrange for their younger children to study in the same school with their older siblings (at the "Discretionary Places Admission" stage under the Primary One Admission System, applicants applying for enrolment in a school in which their older sibling(s) is/are studying will be admitted by the school), and some parents' preference for schools with rich experience in taking care of NCS students, etc., the ratio of NCS students in some schools is inevitably higher than that in other schools, but there is definitely no racial segregation in any way. Unless the school choices of NCS students are to be strictly restricted, or an upper limit is to be set on the ratio of NCS students in schools, the phenomenon that more NCS students study in schools located in certain districts will not change significantly. However, such measures are not feasible because they will not only limit the school choices of NCS students, but also cause some Chinese-speaking students to be allocated to schools which they have not chosen. We believe that the existing support measures are conducive to encouraging NCS students to choose to study in mainstream schools and facilitating their Chinese learning and integration into the community.

Annex A

Number of public sector and Direct Subsidy Scheme primary and secondary schools with non-Chinese speaking (NCS) students in the 2016/17 school year

Schools	Number of primary and secondary schools with NCS students						
	0	1 to 9 students	10 to 25 students	26 to 50 students	51 to 75 students	76 to 90 students	91 or above students
Primary	150	207	61	21	7	4	25
Secondary	180	175	48	18	7	1	25

Notes:

1. Figures refer to the position as at September of the 2016/17 school year.
2. Figures include those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures include public sector schools and Direct Subsidy Scheme schools, but do not include special schools.

Number of public sector and Direct Subsidy Scheme primary and secondary schools with non-Chinese speaking Ethnic Minority (NCS EM) students in the 2016/17 school year

Schools	Number of primary and secondary schools with NCS EM students						
	0	1 to 9 students	10 to 25 students	26 to 50 students	51 to 75 students	76 to 90 students	91 or above students
Primary	164	206	50	20	9	2	24
Secondary	199	173	37	15	5	0	24

Notes:

1. Figures refer to the position as at September of the 2016/17 school year.
2. Figures cover public sector schools and Direct Subsidy Scheme (DSS) schools (among which 1 DSS secondary school offering non-local curriculum is excluded for not having provided information on students' ethnicity). Figures do not include special schools.
3. The above figures do not include those EM students with Chinese as the spoken language at home.

Annex B

Number of public sector and Direct Subsidy Scheme primary and secondary schools with non-Chinese speaking (NCS) students (by the percentage of NCS students among all students of individual schools) in the 2016/17 school year

Percentage of NCS students among all students of individual schools	Number of schools	
	Primary	Secondary
0%	150	180
>0% - 30%	303	254
>30% - 50%	6	6
>50% - 70%	5	7
>70% - 90%	6	5
>90%	5	2

Notes:

1. Figures refer to the position as at September of the 2016/17 school year.
2. Figures include those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures include public sector schools and Direct Subsidy Scheme schools, but do not include special schools.

Number of public sector and Direct Subsidy Scheme primary and secondary schools with non-Chinese speaking ethnic minority (NCS EM) students (by the percentage of NCS EM students among all students of individual schools) in the 2016/17 school year

Percentage of NCS EM students among all students of individual schools	Number of schools	
	Primary	Secondary
0%	164	199
>0% - 30%	290	235
>30% - 50%	6	6
>50% - 70%	4	7
>70% - 90%	6	4
>90%	5	2

Notes:

1. Figures refer to the position as at September of the 2016/17 school year.
2. Figures include public sector schools and Direct Subsidy Scheme (DSS) schools (among which 1 DSS secondary school offering non-local curriculum is excluded for not having provided information on students' ethnicity). Figures do not include special schools.
3. The above figures do not include those EM students with Chinese as the spoken language at home.

Annex C

Information or publications released by EDB as mentioned in part (6) of the question	**Language versions other than English and Chinese**
Non-Chinese Speaking Parent Information Package: Your Guide to Education in Hong Kong	Hindi, Bahasa Indonesia, Tagalog, Urdu, Thai, Nepali, Punjabi (Indian)
Brief on Education Support Measures for Non-Chinese Speaking Students	Hindi, Bahasa Indonesia, Tagalog, Urdu, Thai, Nepali

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7064)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please provide details of expenses on entertainment and gifts of your bureau and the departments under its purview in the past 2 years using the table below:

Bureau/ branch/ department and year	Estimated expenses on entertainment and gifts in the year	Actual expenses on entertainment and gifts in the year	Cap on entertainment expenses (including beverages) per attendee for the year	Cap on gift expenses per guest for the year	Number of receptions held and total number of guests entertained in the year

2. Please provide details of expenses on entertainment and gifts of your bureau and the departments under its purview this year using the table below:

Bureau/ branch/ department	Date of reception (day/month/ year)	Departments/ organisations served by guests entertained (grouped by department/ organisation with number of guests) and post titles of guests	Food expenses incurred in the reception	Beverage and gift expenses incurred in the reception	Venue of reception (department office/restaurant in government facilities/private restaurant/others (please specify))

3. Please provide the estimated expenses on entertainment and gifts for the coming year using the table below:

Bureau/branch/department	Estimated provision for expenses on entertainment and gifts	Cap on entertainment expenses per guest	Cap on gift expenses per guest

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8000)

Reply:

As a general rule, all politically appointed officials and civil servants should observe the same principles in the provision of meals for official purposes. They are required to exercise prudent judgement and economy in order to avoid any public perception of extravagance and act in accordance with the relevant regulations and administrative guidelines. According to the existing guidelines, the expenditure on official meals should not exceed $450 per person for lunch or $600 per person for dinner, inclusive of all expenses incurred on food and beverages consumed on the occasion, service charges and tips. The Education Bureau (EDB), University Grants Committee (UGC) Secretariat and Working Family and Student Financial Assistance Agency (WFSFAA) follow the same principles and guidelines on official entertainment. In 2017-18 and 2018-19 (as at 28 February 2019), the actual expenses on official entertainment incurred by EDB were $390,453 and $491,770 respectively and the estimated expenditure for 2019-20 is $520,000. The actual expenses on official entertainment incurred by the UGC Secretariat were $432,448 and $476,019 in 2017-18 and 2018-19 (as at 28 February 2019) respectively and the estimated expenditure for 2019-20 is $449,000. The actual expenses on official entertainment incurred by WFSFAA were $3,330 and $5,548 in 2017-18 and 2018-19 (as at 28 February 2019) respectively and the estimated expenditure for 2019-20 is $24,000.

In line with the Government's green policy, public officers should as far as possible refrain from bestowing gifts/souvenirs on others during the conduct of official activities. According to the existing guidelines, where bestowal of gifts or souvenirs is necessary or unavoidable due to operational, protocol or other reasons, the gift/souvenir items should not be lavish or extravagant and the number should be kept to a minimum. Also, the exchange of gifts/souvenirs should only be made from organisation to organisation. As we do not specifically maintain separate accounts for the expenses on the procurement of gifts and souvenirs, relevant statistics are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7067)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the numbers of kindergartens, teachers and students (excluding classes for children aged 2 to 3) by type of kindergartens for the past 5 years.

Local non-profit-making kindergartens joining the Pre-primary Education Voucher Scheme (excluding former aided child care centres)

	Only operating whole-day classes	Only operating half-day classes	Operating both whole-day and half-day classes
Number of schools			
Number of full-time teachers			
Number of part-time teachers			
Number of students			

Local non-profit-making kindergartens not joining the Pre-primary Education Voucher Scheme

	Only operating whole-day classes	Only operating half-day classes	Operating both whole-day and half-day classes
Number of schools			
Number of full-time teachers			
Number of part-time teachers			
Number of students			

Local private independent kindergartens

	Only operating whole-day classes	Only operating half-day classes	Operating both whole-day and half-day classes
Number of schools			
Number of full-time teachers			
Number of part-time teachers			
Number of students			

Non-local kindergartens

	Only operating whole-day classes	Only operating half-day classes	Operating both whole-day and half-day classes
Number of schools			
Number of full-time teachers			
Number of part-time teachers			
Number of students			

Former aided child care centres

	Only operating whole-day classes	Only operating half-day classes	Operating both whole-day and half-day classes
Number of schools			
Number of full-time teachers			
Number of part-time teachers			
Number of students			

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8200)

Reply:

The numbers of kindergartens (KGs), teachers and students (excluding classes for children aged 2 to 3) by type of KGs from the 2014/15 to 2018/19 school years are tabulated at Appendix. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile teachers' information on the basis of full-time and part-time employment except their salary, which is directly related to the working hours. Hence, we are unable to provide the numbers of full-time teachers and part-time teachers as requested.

Appendix

The numbers of kindergartens (KGs), teachers and students (excluding classes for children aged 2 to 3) by type of KGs operating whole-day (WD) classes only, operating half-day (HD) classes only and operating both WD and HD classes from the 2014/15 to 2018/19 school years

(v) FT KG teachers in non-local KGs

School Year	KGs with	Monthly salary of FT teachers ($)			
		Average salary	Median salary	Highest salary	Lowest salary
2014/15	WD classes only	34,424	24,544	75,512	9,000
	HD classes only	29,623	26,000	90,446	9,910
	Both WD and HD classes	24,482	22,000	63,311	14,940
2015/16	WD classes only	46,878	43,899	89,427	12,000
	HD classes only	28,059	25,000	100,914	9,250
	Both WD and HD classes	25,364	23,000	81,246	12,000
2016/17	WD classes only	45,818	44,060	108,031	12,000
	HD classes only	29,554	26,000	103,914	8,700
	Both WD and HD classes	26,909	24,441	88,234	11,300
2017/18	WD classes only	41,091	33,194	99,040	12,000
	HD classes only	30,286	26,000	114,625	9,250
	Both WD and HD classes	27,657	25,255	75,000	10,000
2018/19	WD classes only	46,025	47,492	117,094	10,000
	HD classes only	31,945	28,000	103,117	10,000
	Both WD and HD classes	29,613	27,367	83,677	4,400

Note:

(1) Information provided in this reply is based on the survey on KG teachers/child care staff conducted by the Education Bureau in September of the respective school years. Figures for the 2018/19 school year are provisional.

(2) The monthly salary of teachers in KGs joining the KG Scheme, in principle, should not be lower than $21,680 in the 2018/19 school year. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the teacher-to-pupil ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced Qualified Kindergarten Teachers already serving in the sector, non-Early Childhood Education (ECE) degree-holders, teachers employed for creating a rich language environment in schools, etc. (all of the above teachers must be a registered teacher or permitted teacher). The salary range under the KG Scheme is not applicable to these teachers as they do not possess Certificate in ECE (C(ECE)) or above qualifications. We will review the arrangement in the 2019/20 school year to determine whether the flexibility should be granted for a further period. As for individual FT teachers with C(ECE) or above qualifications who receive a salary lower than the above-mentioned minimum threshold, we have requested the KGs to rectify the situation. The KGs will raise the salary of their FT teachers to not lower than the

minimum threshold of $21,680 per month. The adjustment is not fully reflected in the questionnaire survey mentioned in Note (1).

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7069)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out kindergarten (KG) teachers' wastage rate (no longer teaching in KGs) and job-switching rate (teaching in another KG) in the past 5 years by kindergarten type.

Local non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS) (excluding former aided child care centres (FAC))	with whole-day (WD) classes only	with half-day (HD) classes only	with both WD and HD classes
Full-time (FT) teachers' wastage rate			
FT teachers' job-switching rate			

FACs	with WD classes only	with HD classes only	with both WD and HD classes
FT teachers' wastage rate			
FT teachers' job-switching rate			

Local NPM KGs not joining PEVS	with WD classes only	with HD classes only	with both WD and HD classes
FT teachers' wastage rate			
FT teachers' job-switching rate			

Local private independent KGs	with WD classes only	with HD classes only	with both WD and HD classes
FT teachers' wastage rate			
FT teachers' job-switching rate			

Non-local KGs	with WD classes only	with HD classes only	with both WD and HD classes
FT teachers' wastage rate			
FT teachers' job-switching rate			

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8204)

Reply:

The respective wastage rate and job-switching rate of teachers in local non-profit-making (NPM) kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) or the KG education scheme (KG Scheme) (excluding former aided child care centres (FACs)), FACs, local NPM KGs not under PEVS or KG Scheme, local private independent (PI) KGs and non-local KGs from the 2014/15 to 2018/19 school years are tabulated below by type of KG. For breaking down the data into KGs with half-day (HD), whole-day (WD) and both HD and WD classes as requested, given the small number of KGs and teachers under individual breakdown items, the percentage will be misleading as it will change greatly even for small changes in the number of teachers. Hence, it is more appropriate to provide the overall wastage rate and job-switching rate.

(a) Wastage rate

School Year	Wastage Rate				
	Local NPM KGs under PEVS or KG Scheme (excluding FACs)	FACs	Local NPM KGs not under PEVS or KG Scheme	Local PI KGs	Non-local KGs
2014/15	8.8%	7.6%	8.8%	13.9%	15.8%
2015/16	8.0%	7.0%	7.3%	14.4%	18.1%
2016/17	9.8%	9.6%	10.5%	15.4%	16.1%
2017/18	9.9%	9.3%	10.7%	15.8%	16.8%
2018/19	11.9%	12.2%	9.4%	15.9%	18.0%

(b) Job-switching rate

School Year	Job-switching Rate				
	Local NPM KGs under PEVS or KG Scheme (excluding FACs)	FACs	Local NPM KGs not under PEVS or KG Scheme	Local PI KGs	Non-local KGs
2014/15	9.6%	9.2%	11.0%	11.2%	7.4%
2015/16	9.6%	8.6%	8.7%	12.1%	7.4%
2016/17	8.4%	7.4%	10.5%	10.5%	13.2%
2017/18	9.3%	8.5%	11.7%	12.2%	12.9%
2018/19	8.5%	7.7%	6.1%	12.1%	8.7%

Notes:

1. "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. "Drop-out teacher" refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned. Figures for the 2017/18 school year denote teachers who had served in a local NPM KG under PEVS in the 2016/17 school year but left the teaching profession in the 2017/18 school year.
2. "Job-switching rate" refers to the number of job-switching teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. "Job-switching teacher" refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but left that KG as at mid-September of the school year concerned for serving in another KG. Figures for the 2017/18 school year denote teachers who had served in a local NPM KG under PEVS in the 2016/17 school year but left that KG in the 2017/18 school year for serving in another KG.
3. The figures cover all KG teachers. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile information on the wastage and job-switching rates of teachers on the basis of full-time and part-time employment except their salary, which is directly related to the working hours. Hence, separate figures for full-time teachers are not available.
4. Figures for the 2018/19 school year are provisional.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7070)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the past 5 years, with a breakdown by type of kindergartens (local non-profit-making kindergartens joining the Pre-primary Education Voucher Scheme (excluding former aided child care centres) (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), local non-profit-making kindergartens not joining the Pre-primary Education Voucher Scheme (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), local private independent kindergartens (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), non-local kindergartens (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), former aided child care centres (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes)):

1. number of kindergartens;
2. number of full-time teachers;
3. number of part-time teachers; and
4. number of students (excluding classes for children aged 2 to 3).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8205)

Reply:

The numbers of kindergartens (KGs), teachers and students (excluding classes for children aged 2 to 3) by type of KGs from the 2014/15 to 2018/19 school years are tabulated at Appendix. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile teachers' information on the basis of full-time and part-time employment except their salary, which is directly related to the working hours. Hence, we are unable to provide the numbers of full-time teachers and part-time teachers as requested.

Appendix

The numbers of kindergartens (KGs), teachers and students (excluding classes for children aged 2 to 3) by type of KGs operating whole-day (WD) classes only, operating half-day (HD) classes only and operating both WD and HD classes from the 2014/15 to 2018/19 school years

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7071)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information regarding kindergarten teachers' salaries for the past 5 years, with a breakdown by type of kindergartens (local non-profit-making kindergartens under the Pre-primary Education Voucher Scheme (excluding former aided child care centres) (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), local non-profit-making kindergartens not under the Pre-primary Education Voucher Scheme (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), local private independent kindergartens (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), non-local kindergartens (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), former aided child care centres (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes)):

1. full-time teachers' average salary;
2. full-time teachers' median salary;
3. full-time teachers' highest salary; and
4. full-time teachers' lowest salary.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8208)

Reply:

The respective average salary, median salary, highest salary and lowest salary of full-time (FT) teachers (excluding principals) serving in whole-day (WD) kindergartens (KGs) and half-day (HD) KGs under the Pre-primary Education Voucher Scheme (PEVS)/the new kindergarten education scheme (KG Scheme) (excluding former aided child centres (FACs)); FACs; local non-profit-making (NPM) KGs not under PEVS/KG Scheme; local private independent (PI) KGs; and non-local KGs from the 2014/15 to 2018/19 school years are tabulated below:

(i) FT KG teachers in local NPM KGs under PEVS from the 2014/15 to 2016/17 school years/under KG Scheme from the 2017/18 to 2018/19 school years (excluding FACs)

School Year	KGs with	Monthly salary of FT teachers ($)			
		Average salary	Median salary	Highest salary	Lowest salary
2014/15	WD classes only	21,921	22,165	35,930	11,700
	HD classes only	20,448	19,675	57,045	8,000
	Both WD and HD classes	18,752	17,485	70,490	$8,925
2015/16	WD classes only	24,191	25,505	39,360	10,523

	Both WD and HD classes	25,364	23,000	81,246	12,000
2016/17	WD classes only	45,818	44,060	108,031	12,000
	HD classes only	29,554	26,000	103,914	8,700
	Both WD and HD classes	26,909	24,441	88,234	11,300
2017/18	WD classes only	41,091	33,194	99,040	12,000
	HD classes only	30,286	26,000	114,625	9,250
	Both WD and HD classes	27,657	25,255	75,000	10,000
2018/19	WD classes only	46,025	47,492	117,094	10,000
	HD classes only	31,945	28,000	103,117	10,000
	Both WD and HD classes	29,613	27,367	83,677	4,400

Notes:

(1) Information provided in this reply is based on the survey on KG teachers/child care staff conducted by the Education Bureau in September of the respective school year. Figures for the 2018/19 school year are provisional.

(2) The monthly salary of teachers in KGs joining the KG Scheme, in principle, should not be lower than $21,680 in the 2018/19 school year. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the teacher-to-pupil ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced Qualified Kindergarten Teachers already serving in the sector, non-Early Childhood Education (ECE) degree-holders, teachers employed for creating a rich language environment in schools, etc. (all of the above teachers must be a registered teacher or permitted teacher). The salary range under the KG Scheme is not applicable to these teachers as they do not possess Certificate in ECE (C(ECE)) or above qualifications. We will review the arrangement in the 2019/20 school year to determine whether the flexibility should be granted for a further period. As for individual FT teachers with C(ECE) or above qualifications who receive a salary lower than the above-mentioned minimum threshold, we have requested the KGs to rectify the situation. The KGs will raise the salary of their FT teachers to not lower than the minimum threshold of $21,680 per month. The adjustment is not fully reflected in the questionnaire survey mentioned in Note (1).

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7072)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out the wastage rate of full-time kindergarten teachers in the past 5 years, with a breakdown by their length of service (0-5 year(s), 6-10 years, 11-15 years, over 15 years) and type of kindergartens (local non-profit-making kindergartens joining the Pre-primary Education Voucher Scheme (excluding former aided child care centres) (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), local non-profit-making kindergartens not joining the Pre-primary Education Voucher Scheme (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), local private independent kindergartens (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), non-local kindergartens (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes), former aided child care centres (only operating whole-day classes, only operating half-day classes, operating both whole-day classes and half-day classes)).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8209)

Reply:

The respective wastage rates of teachers by their length of service in local non-profit-making (NPM) kindergartens (KGs) joining the Pre-primary Education Voucher Scheme (PEVS) or the kindergarten education scheme (KG Scheme) (excluding former aided child care centres (FACs)) and FACs from the 2014/15 to 2018/19 school years are tabulated below. As for local NPM KGs not joining PEVS or KG Scheme, local private independent (PI) KGs and non-local KGs, given the small numbers of these types of KGs and their teachers with breakdown by length of service, the percentage will change greatly even for small changes in the number of teachers, hence, the figures will be misleading. Likewise, for simultaneous breaking down the figures by length of service of teachers and by KGs with whole-day (WD), half-day (HD) and both WD and HD classes as requested,

given the small number of teachers under individual breakdown items, the percentage will be misleading as it will change greatly even for small changes in the number of teachers. Hence, it is inappropriate to break down the figures even further.

(i) 2014/15 School Year:

Length of service	Wastage rate				
	Local NPM KGs joining PEVS (except FACs)	FACs	Local NPM KGs not joining PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	11.1%	9.8%	8.8%	13.9%	15.8%
6-10 years	10.7%	5.1%			
11-15 years	8.7%	6.7%			
Over 15 years	6.9%	7.1%			

(ii) 2015/16 School Year:

Length of service	Wastage rate				
	Local NPM KGs joining PEVS (except FACs)	FACs	Local NPM KGs not joining PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	10.4%	7.8%	7.3%	14.4%	18.1%
6-10 years	10.3%	6.1%			
11-15 years	6.6%	6.4%			
Over 15 years	6.2%	6.8%			

(iii) 2016/17 School Year:

Length of service	Wastage rate				
	Local NPM KGs joining PEVS (except FACs)	FACs	Local NPM KGs not joining PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	11.4%	10.8%	10.5%	15.4%	16.1%
6-10 years	12.3%	11.3%			
11-15 years	8.3%	8.3%			
Over 15 years	8.5%	8.5%			

(iv) 2017/18 School Year:

Length of service	Wastage rate				
	Local NPM KGs joining PEVS (except FACs)	FACs	Local NPM KGs not joining PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	11.0%	10.1%	10.7%	15.8%	16.8%
6-10 years	10.7%	11.1%			
11-15 years	8.1%	6.4%			
Over 15 years	9.1%	8.8%			

(v) 2018/19 School Year:

Length of service	Wastage rate				
	Local NPM KGs joining KG Scheme (except FACs)	FACs	Local NPM KGs not joining KG Scheme	Local PI KGs	Non-local KGs
0-5 year(s)	13.0%	14.3%	9.4%	15.9%	18.0%
6-10 years	13.4%	12.8%			
11-15 years	10.8%	10.0%			
Over 15 years	10.6%	9.8%			

Note:

1. "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in the KGs concerned as at mid-September of the preceding school year. "Drop-out teacher" refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned. Figures for the 2017/18 school year denote teachers who had served in a local NPM KG joining PEVS in the 2016/17 school year but left the teaching profession in the 2017/18 school year.
2. The figures cover all KG teachers. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile information on the wastage rate of teachers on the basis of full-time and part-time employment except their salary, which is directly related to the working hours. Hence, separate figures for full-time teachers are not available.
3. The figures of the 2018/19 school year are provisional.

Please set out the resources allocated by the Government to skills opportunity schools and the unit cost per student in the past 5 years and for the next financial year.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8602)

Reply:

All skills opportunity schools had completed mainstreaming in August 2005. No government resources were allocated specifically for skills opportunity schools since then, and hence there is no information on the related unit cost per student.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7101)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

People have reflected that at present, kindergarten students with special needs could not access support service until assessment is undertaken. While the Pilot Scheme on On-site Pre-school Rehabilitation Services allows operators to allocate up to 10% of their service quotas to cases pending assessment, people consider this far from sufficient. The Education Bureau's policy on integrated education follows the "treat and test" approach and immediate support is provided for every student with special educational needs while assessment is being arranged. Would the Government advise of the following:

At present, how many children who are waitlisted for assessment will benefit from the Pilot Scheme on On-site Pre-school Rehabilitation Services? What is the percentage share of these children among the total number of children waiting for assessment?

With the implementation of the free kindergarten education policy, most kindergartens are directly subsidised by government funds and turned into public sector schools. Will the Government extend the policy on integrated education to kindergartens, including such measures as "treat and test", provision of educational psychologists and social workers, and creation of "Special Educational Needs Coordinator"? If yes, what are the arrangements? If no, what are the reasons?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1469)

Reply:

The Government has an established mechanism to provide different services for children with special needs or at risk of developmental delay through the collaborative efforts of various departments including Department of Health (DH), Hospital Authority (HA), Social Welfare Department (SWD) and Education Bureau (EDB). Specifically, DH and HA arrange assessment, treatment and referral of rehabilitation services for children with special needs or at risk of developmental delay. The SWD provides pre-school rehabilitation services (including the "On-site Pre-school Rehabilitation Services" (OPRS)) for children with disabilities from birth to the age of 6 years, and helps their families meet

their special needs. The EDB provides training for kindergarten (KG) teachers and school-based support services for KGs so as to enhance their capacity in catering for students with diverse learning needs.

Starting from November 2015, the SWD has implemented the Pilot Scheme on On-site Pre-school Rehabilitation Services (Pilot Scheme). With the regularisation of the Pilot Scheme in October 2018, the number of service places has increased from about 3 000 under the Pilot Scheme to about 5 000, which will be further increased to 7 000 in the 2019/20 school year. In delivering OPRS, training is provided for children with special needs through multi-disciplinary service teams comprising occupational therapists, physiotherapists, speech therapists, clinical/educational psychologists, social workers and special child care workers under the coordination of non-governmental organisations. Apart from providing services for children with special needs, multi-disciplinary service teams also provide support services for teachers/child care workers and parents. From 1 November 2015 to 31 December 2018, 389 children waiting for DH's or HA's assessment received OPRS at the same time. The SWD does not have information on the number of pre-school children waiting for assessment, nor the percentage share of pre-school children receiving OPRS to the overall number of children waiting for assessment.

On the other hand, the new kindergarten education scheme (KG Scheme) has been implemented starting from the 2017/18 school year. The enhancement of teacher to pupil ratio from 1:15 (including the principal) to 1:11 (principal not included) under the KG Scheme allows KG teachers to have more room for various professional activities, including capitalising on the resources to collaborate with the multi-disciplinary service teams that provide OPRS. Moreover, the EDB has devised a teacher professional development framework to enhance KG teachers' understanding of the developmental needs of children and to empower them to identify and cater for learner diversity, including those at risk of developmental delay. In the 2018/19 school year, the EDB has provided KG teachers with structured in-service training courses at basic and advanced levels, covering content such as fundamental knowledge and skills on early identification and interventions, multi-disciplinary collaboration and strategies related to coordination of support services. The EDB has set specific targets for training such that each KG joining the KG Scheme will have at least 1 teacher completed the Basic Course as recognised by the EDB before the end of the 2020/21 school year.

Overall speaking, the Government has been making efforts to, through various means, early identify and support children suspected to have developmental disorders. As the pace of development of KG students in general varies, the difficulties encountered by some children in learning may be transitory. Moreover, requirements on children in pre-school stage on learning, social, emotional and behavioural aspects differ as compared with those in primary schools. Hence, the support model that the EDB adopts for public sector ordinary primary schools may not be applicable to pre-school children. Besides, the above measures can also appropriately cater for students with special needs or at risk of developmental delay. All in all, the EDB will continue to promote inclusive culture in KGs and make sustained efforts to provide more KG teachers with relevant training with a view to supporting the teachers to cater for learner diversity, which is the top priority for the EDB and the industry. At this stage, we have no plan to create a post of coordinator in

KGs in relation to supporting children with special needs or to deploy educational psychologists.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What was the number of school bullying cases involving secondary school students received by the Education Bureau (EDB) in the past 5 years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8723)

Reply:

Based on the information retrieved from the EDB's annual questionnaire survey on guidance and discipline cases in public sector secondary schools, the number of student cases involving school bullying in secondary schools in the past 5 years (i.e. from the 2013/14 to 2017/18 school years) is as follows:

School year	2013/14	2014/15	2015/16	2016/17	2017/18
Number of student cases involving school bullying in secondary schools	136	137	114	64	103

(Question Serial No. 7111)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Has the Bureau drawn up guidelines to curb bullying in schools? If yes, what are the details? If no, what are the reasons?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8727)

Reply:

The Education Bureau (EDB) will not tolerate any act of bullying in schools, no matter in whatever forms (including verbal, physical and cyber bullying) or on whatever grounds (including poverty, race, special educational needs and sexual orientation). All along, the EDB has been requiring all schools, through circulars, to take the matter seriously and implement proactive measures to ensure the safety of students at school and strive to create a harmonious school environment which is conducive to students' learning. The EDB has also set out in the School Administration Guide guidelines on handling and prevention of bullying cases for reference to all schools. Schools are advised to adopt the Whole School Approach in formulating and implementing anti-bullying strategies, including clear stance on zero tolerance, proper reporting mechanism and handling procedures, highly transparent monitoring as well as proactive and serious attitude in handling each bullying incident.

If there are bullying incidents, schools should intervene and take follow-up action as soon as possible, taking education, guidance and protection of their students as their prime concern. Such actions include stopping the act of bullying immediately upon receipt of such a report; assessing whether the student(s) concerned is/are injured or emotionally unstable and arranging for first aid/treatment as appropriate if there is any physical injury; thereafter intervening and conducting an initial mediation; and arranging for intensive counselling by counsellors or relevant professional service from outside as appropriate. Schools are equipped with professionals, including guidance personnel, school social workers and school-based educational psychologists, etc., who provide necessary support and mediation

to students in need. In the process of handling these cases, schools have to work together with parents to help students involved rectify their behavioral problems and better protect the students being bullied. If suspected abuse is involved, schools may consult the Social Welfare Department (SWD) so that case referral and counselling services can be provided. For serious cases, schools should report them to the Police immediately to seek assistance. The EDB will liaise with schools, the SWD and the Police on appropriate ways to handle cases.

Moreover, the EDB attaches great importance to the prevention of school bullying. Through preventive education, training programmes and various guidance and discipline activities, anti-bullying awareness is enhanced among students and staff, with a view to helping students develop positive values and attitudes, such as empathy and respect for others, and acquire skills of conflict resolution and establishing harmonious interpersonal relationships.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7143)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (350) Refund of rent, rates and government rent to kindergartens, kindergarten-cum-child care centres, private schools, educational institutes and study rooms

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please provide figures or projected figures on the following for the year past and the coming 3 years:

a) How many kindergarten-age children are there in Hong Kong in total? What is the distribution of these children among all districts?

b) How many children are attending kindergartens? What is the distribution of these children among all districts?

c) How many students are eligible for the Kindergarten and Child Care Centre Fee Remission Scheme? Among these eligible students, how many are granted remission?

2. How is the collection of miscellaneous charges among kindergartens?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1487)

Reply:

1a) Figures on projected school-age population aged 3-5 who are residing in Hong Kong by district from the 2018/19 to 2021/22 school years are tabulated at Appendix 1. This age group is generally considered appropriate for receiving kindergarten (KG) education. Since the population projections refer to the projected number of children aged 3-5, irrespective of whether they are enrolled in schools or not, the figures should not be taken as the projected number of students at KG level. Besides, given that students under or above this age group may enrol in KGs and students may study in

districts other than their resident district, the actual number of students at district and territory-wide levels may be different from the projected school-age population.

b) The number of students in KGs by school district in the 2018/19 school year is tabulated at Appendix 2. It is not possible to accurately project the overall number of KG students in the coming school years and their geographical distribution as the number of KG students is subject to year-on-year changes depending on family factors, distribution of their places of residence, adjustment of related policies, etc. Besides, parents may choose a KG suitable for their children with regard to their needs, and admission is at the full discretion of individual KGs.

c) The Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) provides needy KG students with financial assistance in the form of fee remission. Fee remission will be granted to applicants who pass the means test of the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency and meet the eligibility criteria for KCFRS. The number of successful KG applicants who meet the eligibility criteria under KCFRS for the 2018/19 school year is set out at Appendix 3. The SFO does not have information on the number of eligible KG students who will be granted fee remission under KCFRS in the coming 3 school years.

2. As regards parents' expenses on school uniforms, textbooks, tea and snacks, etc. (generally referred to as "miscellaneous charges"), we have stipulated in a circular issued to KGs which joined the KG education scheme (Scheme) that government subsidy and school fees (if any) should have covered all expenses directly related to the learning and teaching of students and school operation. Scheme-KGs should keep sales of school items and provision of paid services to a minimum and observe the guiding principles set out in the circular issued by the Education Bureau, including that the purchase must be of voluntary nature, no profit should be generated from the sale of textbooks, and profit for other items (if any) should not exceed 15% of the cost. All profit generated must be ploughed back into the KGs for use in school operation and provision of KG education services. To enhance transparency, KGs are required to disclose a list of items and fees charged in the preceding school year on their school website and in the Profile of Kindergartens and Kindergarten-cum-Child Care Centres. Under the new KG education policy, a recurrent grant is provided to KG students from needy families to defray school-related expenses incurred such as textbooks, stationery and school uniforms.

Projected school-age population aged 3-5 who are residing in Hong Kong by district from the 2018/19 to 2021/22 school years

District	**2018/19**	**2019/20**	**2020/21**	**2021/22**
Central and Western	4 600	4 400	5 000	5 600
Wan Chai	3 300	3 200	3 600	4 100
Eastern	12 600	12 000	12 600	12 500
Southern	6 600	6 400	5 700	5 400
Yau Tsim Mong	7 600	7 200	8 100	9 200
Sham Shui Po	10 000	11 500	12 300	12 500
Kowloon City	9 700	9 500	10 000	10 100
Wong Tai Sin	8 500	8 200	8 100	7 500
Kwun Tong	16 300	16 700	15 400	14 100
Sai Kung	11 100	11 400	11 300	11 300
Sha Tin	14 700	14 900	15 200	14 600
Tai Po	6 700	6 300	6 700	7 400
North	7 700	7 500	7 900	8 000
Yuen Long	15 200	15 600	15 500	15 600
Tuen Mun	11 100	10 900	11 300	11 200
Tsuen Wan	7 400	7 400	7 800	8 000
Kwai Tsing	11 200	11 900	11 100	10 000
Islands	4 700	5 600	5 500	5 400
All districts	**168 900**	**170 800**	**173 200**	**172 500**

Notes: (1) Figures in the above table are compiled with reference to the 2016-based Population Projections released by the Census and Statistics Department (C&SD) in September 2017 and the "Projections of Population Distribution 2018 – 2026" released by the Planning Department in June 2018.

(2) School-age population aged 3-5 is considered appropriate for receiving kindergarten education (i.e. Kindergarten 1 to Kindergarten 3).

(3) Figures refer to the projected number of local children (i.e. Hong Kong usual residents) aged 3-5 residing in the districts. The projected figures should not be taken as the projected number of students attending schools in the districts. The latter would be affected by the prevailing distribution of school places, demand for school places and parental choices. Students under the age of 3 or over the age of 5 may also receive kindergarten education. The above figures do not include cross-boundary students.

(4) The projections of school-age population residing in Hong Kong are compiled based on the 2016-based Population Projections released by C&SD in September 2017. The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures.

(5) Figures are rounded to the nearest hundred and may not add up to the respective totals due to rounding.

Number of students studying in kindergartens by district in the 2018/19 school year

District	Number of students
Central and Western	6 263
Wan Chai	7 050
Eastern	11 035
Southern	4 652
Yau Tsim Mong	6 554
Sham Shui Po	9 557
Kowloon City	22 158
Wong Tai Sin	7 042
Kwun Tong	12 183
Sai Kung	8 937
Sha Tin	14 278
Tai Po	6 529
North	9 138
Yuen Long	16 055
Tuen Mun	11 966
Tsuen Wan	7 147
Kwai Tsing	10 054
Islands	3 804
Total	174 402

Notes: (1) Figures refer to the position as at September of the school year.
(2) Figures include nursery, lower and upper classes in kindergartens (including kindergarten-cum-child care centres).

Number of successful kindergarten applicants who meet the eligibility criteria under the Kindergarten and Child Care Centre Fee Remission Scheme in the 2018/19 school year

	2018/19 school year (as at 31 January 2019)
Number of kindergarten students granted fee remission (Note)	22 290

Note: Excluding kindergarten students who pass the means test but do not need to pay school fees.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7146)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the support provided for students with special educational needs (SEN) at post-secondary level, please advise of the following:

1. the number of provision of interpreters or note-takers by post-secondary institutions and whether students have to pay for such services in the past 5 years; and

2. the financial resources for providing support services for students with SEN in post-secondary institutions in the past 5 years, together with a breakdown by use.

3. Since different and incoherent policies are adopted by post-secondary institutions to support students with SEN, will the Government consider formulating an overarching policy and allocating additional resources to strengthen the support for students with SEN in these institutions?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1664)

Reply:

1. Post-secondary institutions will make special arrangements and provide support services to cater for the needs of students with special educational needs (SEN). The Government does not maintain records of the number of interpreters/note-takers provided by various post-secondary institutions or the expenses involved.

2. & 3. As far as University Grants Committee (UGC)-funded universities are concerned, since funding for students with SEN is included in the Block Grant provided for individual universities, we are not able to provide the actual amount of expenditure on support services for such students. To further support students with SEN in the post-secondary sector, the Government has implemented in recent years various initiatives, which are set out below:

(a) To enable students with SEN to pursue UGC-funded programmes and adapt to campus life, as well as to further promote an inclusive culture, the UGC provided a one-off special grant totalling $20 million for the eight UGC-funded universities in 2015 to enhance these universities' support for students with SEN, such as purchasing aids and equipment, strengthening training for academic and administrative staff and supporting student bodies in organising events and activities that encourage integration of students with SEN into campus life. In July 2018, the UGC implemented the second phase of the funding scheme, which would last for two years, to provide an additional grant of $20 million to the UGC-funded universities to further enhance support in this regard.

(b) In 2013, the Government made two separate injections of $20 million into the HKSAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund to establish the Endeavour Merit Award (EMA) and the Endeavour Scholarship (EDS) respectively, which seek to give recognition to deserving post-secondary students with SEN in their pursuit of excellence in academic and other areas. Each undergraduate or sub-degree recipient of EMA or EDS will receive a scholarship of $10,000. The number of EMA and EDS recipients in the academic years from 2014/15 to 2017/18 is tabulated below. The list of awardees for the 2018/19 academic year will be announced in due course.

Academic Year	2014/15	2015/16	2016/17	2017/18
Number of recipients of Endeavour Merit Award (EMA)	74	97	99	100
Number of recipients of Endeavour Scholarship (EDS)	75	98	99	100

(c) In the financial years from 2013-14 to 2018-19, a recurrent funding of $12 million per year was allocated to the Vocational Training Council to enhance the support services for students with SEN. Starting from the 2019-20 financial year, the recurrent funding will be increased to $21.6 million per year, which includes the provision for emotional counselling services for students in need.

(d) The Commission on Poverty has approved the allocation of $12.5 million from the Community Care Fund to implement a programme in the academic years from 2015/16 to 2020/21 for enhancing the academic expenses grant for post-secondary students with SEN and financial needs in order to better facilitate their learning, for example, through purchase of equipment. In the 2018/19 academic year, each eligible student may receive an additional academic expense grant up to $8,680 per year. The actual amount of grant disbursed depends on the level of assistance as assessed in the means test conducted by the Student Finance Office of the Working Family and Student Financial Assistance Agency.

The Government is committed to providing young people, including students with SEN, with flexible and diversified study pathways with multiple entry and exit points, which include undergraduate and sub-degree programmes and vocational education programmes. The UGC and the Education Bureau will, among others, continue to maintain liaison with UGC-funded and self-financing institutions to follow up on the provision of support by individual institutions for students with SEN and promote an inclusive culture.

Separately, the Student Finance Office of the Working Family and Student Financial Assistance Agency is not planning to conduct any consultancy studies on public policy in 2019-20.

(d) Given the different objectives, design, technical requirements and uniqueness of different consultancy studies, criteria specific to each consultancy study have been adopted for considering their award to the research institutions/consultants concerned. Nevertheless, generally speaking, the criteria include technical aspects (such as project design as well as methodology for sampling and data correlation/analysis which could impact the validity and reliability of the research), experience and professional knowledge of the research institutions/consultants relevant to the research topic and the quality of the research team as reflected by indicators such as their track record and capability to provide follow up support services, and the fee proposal.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7152)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide, by type of kindergartens (KGs), information on school fees charged by KGs in the past 5 years.

	Local non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS) (excluding Former Aided Child Care Centres (FACs))			Local NPM KGs not joining PEVS			Local private independent KGs			Non-local KGs			FACs		
	WD classes only	HD classes only	Both WD and HD classes	WD classes only	HD classes only	Both WD and HD classes	WD classes only	HD classes only	Both WD and HD classes	WD classes only	HD classes only	Both WD and HD classes	WD classes only	HD classes only	Both WD and HD classes
Median school fee															
Average school fee															
Highest school fee															
Lowest school fee															

WD – whole-day
HD – half-day

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8206)

Reply:

The median, weighted average, highest and lowest school fees charged by kindergartens (KGs) operating half-day (HD) classes and whole-day (WD) classes (excluding classes for children aged 2 to 3), by type of KGs, from the 2014/15 to 2018/19 school years are tabulated at Appendix. Some KGs operate both HD and WD classes. This is mainly to flexibly cater for parents' needs. When assessing whether KGs need to collect school fees, we are concerned about whether HD classes are free, and whether the fees collected for WD classes are at a low level. Whether a KG operates both HD and WD classes is not our primary concern. Hence, there is no separate analysis on the collection of school fees by this type of KGs.

Appendix

Median, weighted average, highest and lowest school fees
charged by KGs operating HD and WD classes by type of KGs
from the 2014/15 to 2018/19 school years

2014/15 school year

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please list the monthly salaries, allowances and other expenses of the Secretary for Education in the past 3 years, as well as the amount of his monthly pension and the total amount of his pension after retirement.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1460)

Reply:

The monthly salary in respect of the position of Secretary for Education (SED) was $298,115 from April 2016 to June 2017, $333,900 from July 2017 to June 2018, and is $340,250 with effect from July 2018. According to the remuneration package for politically appointed officials (PAOs) serving in the HKSAR Government, SED and all other PAOs are not entitled to any pension benefits other than the Mandatory Provident Fund contribution by the Government.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

1. the number of students who have benefitted from the School-based After-school Learning and Support Programmes (with a breakdown by grade level);

2. the programmes available under the School-based After-school Learning and Support Programmes (please group them under the categories of academic/extra-curricular development/one-off activities).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 2632)

Reply:

1. To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS).

In the 2018/19 school year, for the School-based Grant, 898 schools which constitute more than 90% of all the eligible schools in the territory with 201 700 eligible students participate in the Programme. Regarding the Community-based Project Grant, the 436 projects organised by 171 NGOs are targeted at individual eligible students totaling about 100 000. As schools are given 25% discretionary quota to cover students who are not in receipt of CSSA or SFAS full grant and we do not have a list of the students concerned, a breakdown on the number of students mentioned above by grade level is not available.

2. The objectives of the Programme are to help needy students enhance learning effectiveness, broaden learning experience outside classroom and raise understanding of and sense of belonging to the community. The types of activities grouped along the above-mentioned major objectives are set out below. A wide spectrum of activities is organised under each type by the schools and/or the NGOs provided with the grants to cater for the diverse needs of students.

Objectives	To enhance learning effectiveness	To broaden learning experience outside classroom	To raise understanding of and sense of belonging to the community
Types of activities	• Tutorial services • Training of learning skills • Training of languages	• Art & cultural activities • Sports activities • Visits & outdoor activities	• Volunteer services • Social & communication skills training (complemented by development of self-confidence through leadership training, adventure activities, etc.)

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What are the respective numbers of publicly-funded and self-financing undergraduate, associate degree and higher diploma programme places available in Hong Kong each year?

Asked by: Hon CHOW Ho-ding, Holden (LegCo internal reference no.: 54)

Reply:

The respective numbers of publicly-funded and self-financing full-time locally accredited sub-degree and undergraduate places[1] in the 2018/19 school year are set out below:

Finance Type	Sub-degree[3]	First-year first-degree	Senior year undergraduate/ Top-up degree
Publicly-funded	10 702	15 163	5 000
Self-financing institution[2]	19 568	8 488	8 943
Total	30 270	23 651	13 943

Notes:

1. Publicly-funded places include the approved intake places of the University Grants Committee (UGC)-funded universities, and the estimated student intakes of subvented programmes offered by the Hong Kong Academy for Performing Arts and the Vocational Training Council (VTC). Places offered by self-financing institutions refer to their estimated intake places, and the figures are provided by the institutions for planning of intake places. Hence, they may not be the admission targets or maximum intake places of individual institutions.

2. Figures include self-financing programmes offered by the VTC and self-financing arms of UGC-funded universities, as well as the subsidised places offered under the Study Subsidy Scheme for Designated Professions/Sectors.

3. Sub-degree places include associate degree and higher diploma programme places.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Are there post-secondary institutions applying for becoming universities? If yes, what is the number?

Asked by: Hon CHOW Ho-ding, Holden (LegCo internal reference no.: 55)

Reply:

According to the "Roadmap for Becoming a Private University" promulgated by the Education Bureau (EDB) in 2015, a self-financing post-secondary institution registered under the Post Secondary Colleges Ordinance (Cap 320) may commission the Hong Kong Council for Accreditation of Academic and Vocational Qualifications to carry out an institutional review to evaluate whether the institution has the fundamental ability to meet the standards expected of a university. After the institution has successfully gone through the institutional review, it may make an application for the university title to the EDB (to be considered by the Chief Executive in Council).

To date, the EDB has not received any fresh application for the university title.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4186)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the admission of non-Chinese speaking (NCS) students under Free Quality Kindergarten Education Scheme (Scheme) and additional funding support for NCS students, will the government inform the council:

The number of kindergartens (KGs) under the Scheme that received admission application(s), conducted interview(s) for NCS children or admitted NCS student(s) in the 2018/19 school year disaggregated by district:

District	Total number of kindergartens	Number of kindergarten(s) that received admission application(s) from NCS children	Number of kindergarten(s) that conducted interview(s) for NCS children	Number of kindergarten(s) that admitted NCS students

To ensure KGs comply with the "Guidelines on Kindergarten Admission Arrangements", EDB's data collection on applications, interviews, and admissions of NCS students is necessary. Has the EDB collected respective data? If not, why?

The number of KGs under the Scheme provided with the additional funding for supporting NCS students and the expenditure in the 2018/19 school year:

Number of NCS students	Expenditure ($)	Number of KGs that applied for the additional funding	Number of KGs that received the additional funding	Percentage of KGs that received the additional funding out of all KGs admitting NCS students (%)
8-15				
16-25				
26-50				
51 or above				

The number of KGs under the Scheme provided with the additional funding for supporting NCS students in 2018/19 school year disaggregated by district:

District	Number of KGs	Number of KGs admitting NCS students	Percentage of KGs admitting NCS students among all KGs (%)	Number of KGs that received additional funding	Percentage of KGs that received additional funding among all KGs admitting 8 or more NCS students (%)

The number of enquiries regarding admission of NCS children to KGs received each month by respective regional offices.

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 1077)

Reply:

We have, through circulars, admission guidelines and briefing sessions, reminded kindergartens (KGs) that their school-based admission policy should be fair, just and open, and that both non-Chinese speaking (NCS) and local students should have equal opportunities for admission to KGs. As student admission is a school-based matter, KGs are not required to provide the Education Bureau (EDB) with information on the number of admission applications received, applicants' backgrounds (such as the spoken language at home), the number of applicants interviewed, the number of students admitted each year and their backgrounds, etc. Hence, we are unable to provide the required information. We have specified in the terms for joining the KG education scheme (Scheme) that KGs under the Scheme should comply with the guidelines and/or standing administrative directives on admission arrangements as specified by EDB from time to time. We monitor KGs' compliance with the guidelines and/or directives through annual survey on admission of nursery classes, school visits and examination of relevant information. For the 2018/19 school year, the number of KGs joining the Scheme and the number of those KGs with NCS students, by District Council district, are tabulated at Appendix 1.

For the 2018/19 school year, the number of KGs joining the Scheme and applying for the additional grant for supporting NCS students, and the number of KGs receiving the grant and their percentage share, by number of NCS students ranging from "8-15", "16-25", "26-50" and "51 or above" are tabulated at Appendix 2.

For the 2018/19 school year, the number of KGs joining the Scheme and receiving the additional grant for supporting NCS students and their percentage share, by District Council district, are tabulated at Appendix 3.

The Regional Education Offices of EDB provide comprehensive and integrated services to schools and the public at the district level. Covering different areas of KG, primary, secondary, special, etc, these services include handling enquiries, applications and complaints made via different channels (e.g. by letter, email, telephone or in person) by various stakeholders, including school personnel, parents, students and members of the public. In general, enquires could be answered or assistance could be rendered instantly. EDB has not compiled statistics on the number of cases/enquires received.

Number of KGs joining the Scheme and admitting NCS students in the 2018/19 school year

District	Number of KGs joining the Scheme	Number of KGs joining the Scheme and admitting NCS students
Central & Western	24	17
Wan Chai	14	9
Eastern	56	33
Southern	19	14
Yau Tsim Mong	27	18

Director of Bureau: Secretary for Education

Question:

Please list out the Chinese language teaching and learning materials targeting non-Chinese speaking (NCS) students, developed by different developer (eg. institutions, organizations) commissioned by the Education Bureau (EDB), from 2015/16 to 2018/19 schools years:

List out from 2015/16 to 2018/19 school year the following details

Title of materials	Developer	Expenditure ($)	Funding source	Level according to grade	Level according to the CSL Framework	Number of school received this material	Year and month of distribution to schools	Is it accessible online (If yes, please provide the link)

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 1079)

Reply:

The Education Bureau (EDB) has been developing learning materials and teaching reference materials (including series on teaching with picture books, writing, Chinese festivals, etc.) jointly with language and curriculum experts and school teachers. These teaching materials cover primary and secondary Chinese Language curricula and different levels (i.e levels 1 to 8) under the "Chinese Language Curriculum Second Language Learning Framework" and have been uploaded onto the EDB website by phases for teachers' reference and adoption. As the relevant manpower resources and expenditures are subsumed under the overall expenditure of the EDB, a breakdown of the expenditure is not

available. Besides, the EDB has been providing funding support to schools, tertiary institutions and organisations through the Quality Education Fund and the Language Fund for developing learning and teaching resources to cater for non-Chinese speaking students' learning needs. Details are as follows:

Title of teaching materials	Target subject and content	Funding source	Principal developer/ research institute (including name of its affiliates)	Beneficiaries (for whom the materials are made)	Start date	Progress (planning/ in progress/ completed (with month and year of completion))	Administration's follow-up to the teaching materials and the progress (if any)
Fun with Chinese: Enhancing language development for South Asian ethnic minorities	Kindergarten pupils (learning and teaching resources, bilingual story books and a glossary)	Quality Education Fund	Guideposts Kindergarten 2nd Branch (Kin Sang Estate)	Kindergarten pupils	May 2015	Completed (June 2016)	By requiring grantees to submit progress reports regularly, stage-based assessment and progress reviews are carried out to provide appropriate support.
"Learning from Doing" - Building Up Non-Chinese Children's Communication and Thinking Abilities in Cantonese	Kindergarten pupils (teaching materials)	Quality Education Fund	TWGHS Ng Sheung Lan Memorial Nursery School	Kindergarten pupils	June 2015	Completed (May 2016)	
Through home-school cooperation helping non-Chinese speaking children integrate into campus life and learning	Kindergarten pupils (learning and teaching resources)	Quality Education Fund	Hong Kong Young Women's Christian Association Athena Kindergarten	Kindergarten pupils	September 2015	Completed (December 2016)

Question:

To ensure the effective use of the additional subsidy for kindergartens (KGs) with 8 and more non-Chinese speaking (NCS) students, the EDB would visit KGs that are granted the subsidy to understand how the support measures have worked, and make improvement recommendations as necessary.

Will the government please inform this council:

- The number of KGs applied for the designated subsidy to support NCS students. Among these application, no. of KGs successfully receive the grant;
- The number of KGs EDB visited in 2017/18 school year;
- The number of staffs in EDB responsible for the visit
- The support measures adopted/practiced (including but not limited to support from the EDB and other NGOs) and the respective number of KGs for each support measure;
- The number of KGs with satisfactory monitoring and evaluation plan to assess effectiveness of measures;
- The number of KGs which required improvement on the support regarding the teaching and learning of NCS students;
- Whether the funding proposal and evaluation report is accessible to the public. If yes, where to find the information; if no, why and what other measures are there to ensure the accountability to the public.

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 1080)

Reply:

The kindergarten (KG) education scheme (Scheme) has been implemented starting from the 2017/18 school year. KGs joining the Scheme and admitting 8 or more non-Chinese speaking (NCS) students are provided with an additional grant comparable to the mid-point

salary of the recommended salary range for 1 KG teacher. In the 2017/18 school year, 149 out of the 152 applying KGs were eligible for receiving the additional grant, while the applications of the remaining 3 KGs were rejected as they had admitted fewer than 8 NCS students. For the 2018/19 school year, as at February 2019, 152 out of the 155 applying KGs were approved for the grant, while the applications of the remaining 3 KGs were rejected as they had admitted fewer than 8 NCS students. As the grant for supporting NCS students is open to application throughout the school year, the number of KGs in receipt of the grant may vary during a school year.

The 2017/18 school year is the first year that we provided the additional grant for NCS students in KGs. The Education Bureau (EDB) arranged as many visits to KGs as possible to grasp a more comprehensive understanding of the implementation of support measures and utilisation of resources to support NCS students in KGs, and to make recommendations where necessary. The manpower involved in handling, facilitating and overseeing KG's support for NCS students has been subsumed under the overall staffing and expenditure of EDB, hence there is no relevant breakdown.

In the 2017/18 school year, we visited 129 (around 87%) KGs in receipt of the additional grant. On the whole, they had all assigned a teacher to co-ordinate school-based support measures for NCS students. Observations from school visits indicated that these KGs had adopted diversified strategies to enhance the support for NCS students, e.g. adaptations to curriculum and teaching strategies, arranging teaching assistants to provide support in class, and arranging small group learning or individual teaching when necessary. Moreover, these KGs were keen on joining relevant training and the school-based professional support services provided by EDB or post-secondary institutions. On deployment of resources, 116 KGs had used the grant to employ additional teachers, while 79 KGs had appointed teaching assistants. The grant was also used for other purposes such as purchasing learning and teaching resources, procuring professional services and organising cross-cultural activities.

All KGs receiving the grant are required to draw up school-based support plans for NCS students and conduct self-evaluation at the end of a school year. The major purpose was to serve as internal reference for school-based planning and review. As for quality review (QR), we conduct overall performance of a KG and the assessment of its support for NCS students is incorporated under catering for students with diverse needs. The QR report will be uploaded onto EDB website. To facilitate the public's better understanding on how KGs support NCS students, starting from 2018, a new section on "Support to NCS students" has been added in the KG Profile for KGs to outline their support measures for NCS students. All KGs receiving the additional grant have provided relevant information in the Profile.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4998)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What is the estimated expenditure for gender education out of the estimate of $67,944.6 million for the Education Bureau (EDB) in 2019-20? How much out of the provision for Programmes (2) to (7) will be used on gender education? Has the EDB formulated performance indicators in respect of gender education? If yes, what are the details? If no, how does the EDB evaluate the effectiveness of relevant funding?

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 2008)

Reply:

Sex education is part of values education. Learning elements related to sex education, such as personal development, hygiene, puberty, making friends, dating, marriage, protecting the body, gender equality and preventing discrimination are included in the curricula of Key Learning Areas, subjects and moral and civic education of primary and secondary schools. Through such subjects as Life and Society at the junior secondary level and Liberal Studies at the senior secondary level, schools can discuss with students topics relating to sexual orientations and prevention of discrimination, such as different notions and attitudes towards sex, love and marriage; heterosexual and homosexual relationships; and ethical issues in the homosexuality debate. Moreover, among the 7 priority values and attitudes embedded in the school curricula, "Respect for Others" and "Care for Others" lay emphasis on the need for students to develop an attitude of respecting and tolerating others. Students will thus be nurtured to be tolerant and respect others' sexual values and orientations when reflecting on their own sexual values, understanding different sexual orientations and exploring contentious sexual topics.

To support the implementation of values education (including sex education) in schools, the EDB has been organising professional development programmes on a range of themes, such as "How to Promote Sex Education Effectively in Primary/Secondary Schools", "Mass Media, Gender Role and Gender Equality Education" and "Gender Equality Education and Prevention of Sexual Harassment and Dating Violence", for both principals and teachers. In addition, the EDB has been providing schools with various learning and teaching (L&T) resources, including lesson plans, student worksheets, short videos and animations, and developing different life event exemplars, such as "stay-at-home dad" and "mistaken beliefs in gender stereotypes", with a view to helping teachers deepen students' understanding of related topics and nurture in them moral values as well as proper attitude and behavior through learning activities such as discussion, sharing and reflection. Schools may flexibly deploy the annual Operating Expenses Block Grant or Expanded Operating Expenses Block Grant to promote values education (including sex education). The relevant manpower resources and expenses incurred in curriculum development, developing L&T resources and organising professional development programmes are subsumed under the recurrent expenditure of the EDB and therefore a breakdown of expenditure is not available.

Through different channels such as inspections and school visits, the EDB learns about the implementation of values education (including sex education) in schools and collects good practices for dissemination and sharing. We will also offer advice on areas for improvement as necessary.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4515)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The estimated number of primary school students in 2019-20 is 376 400. In recent years, many parents are worried about insufficient Primary 1 (P1) places, and that their children may not be admitted to schools close to their home districts due to the Government's lack of long-term planning. In this connection, please inform this Committee of the following:

(1) The total number of P1 students and places in each of the 36 school districts in the past 5 years.

(2) Will long-term planning be made as soon as possible for the benefit of cross-boundary students and local students in the future in terms of building more schools, providing additional manpower, implementing small class teaching and improving school environment?

Asked by: Hon FAN Kwok-wai, Gary (LegCo internal reference no.: 53)

Reply:

(1) The total number of Primary 1 (P1) students and school places by district from the 2014/15 to 2018/19 school years is tabulated at Annex. The P1 school nets (some referred to as school districts) provide a basis for allocation of school places in Part B of the Central Allocation stage under Primary One Admission (POA). According to the existing arrangements, the provision of public sector primary school places is planned on a district basis. As statistics on the number of school places and students have always been collected on a district basis, a breakdown of the relevant figures by school net is not available.

(2) Under the prevailing mechanism, the Planning Department (PlanD) reserves sites for school development when preparing town plans and planning large-scale residential developments having regard to the planned population intake and service demand of the community in accordance with the Hong Kong Planning Standards and Guidelines. In the planning process, Education Bureau (EDB) is consulted. Insofar as planning of public sector primary and secondary building projects at those reserved sites is concerned, land is scarce resource and construction of new school premises involves immense resources. We have to consider with prudence if addition of a new operating school would commensurate with the long-term sustainable development of the district concerned so as to avoid negative impacts on the steady development of the school sector as a whole. In this regard, we will take into account factors including the planned development of the area concerned, the school-age population projections which are compiled based on the population projections updated regularly by the Census and Statistics Department and the projection of population distribution released by the PlanD, the actual number of existing students and school places available at various levels, the prevailing education policies and other factors that may affect the supply and demand of school places, etc. in order to decide whether the planned premises should be used for operating a new school or reprovisioning an existing school, and when to kick-start the relevant school building project. To continuously improve the planning mechanism to meet the expectation of the community, we will keep strengthening the communication with relevant departments and major stakeholders. According to the current projections of P1 school-age population, the overall demand for P1 places is expected to peak in the 2018/19 school year, and drop significantly in the 2019/20 school year before gradually reaching a stable level. With the implementation of the zero-quota policy for doubly non-permanent resident pregnant women in 2013, the number of cross-boundary P1 students is expected to decrease significantly from the 2019/20 school year onwards. We will keep in view the supply and demand of public sector school places in various districts and liaise closely with the schools concerned to ensure the provision of sufficient school places for all school-age children (including eligible cross-boundary students), and balance the concerns of schools and parents as far as practicable.

Small class teaching (SCT) has been implemented in public sector primary schools starting from the 2009/10 school year. All along, EDB has been adopting a pragmatic and flexible approach to implementing SCT, taking into account the expectations of schools, parents and students, the availability of classrooms to meet the demand for school places in individual districts, as well as the development needs of schools. At present, about 80% of public sector primary schools in Hong Kong have implemented SCT. With the P1 school-age population expected to decrease after reaching the peak in the 2018/19 school year, both EDB and the school sector consider that this will provide conditions for more schools to implement SCT. In this regard, EDB has issued letters to invite all schools which have not yet implemented SCT to plan and make early preparation so that they can implement SCT as soon as practicable where the supply and demand of school places allow.

As regards manpower, EDB has been evaluating various policies relating to improving the provision of teaching staff resources in the light of schools' needs. Under the existing policy, public sector schools are provided with teaching manpower resources through regular teaching staff establishment computed according to the number of classes approved and the teacher-to-class (T/C) ratio, additional regular teaching posts provided under various initiatives, and cash grants featured by their deployment flexibility for meeting specific policy objectives which allow schools to hire additional teachers in a more flexible manner. Starting from the 2017/18 school year, EDB has increased the T/C ratio for public sector primary schools (including special schools) by 0.1 across-the-board. In the 2017/18 school year, the initiative has brought about an increase of around 1 200 additional regular teaching posts in public sector primary schools (including special schools) to take forward various education initiatives and enhance the quality of education.

Annex

Number of Primary 1 school places and students in public sector primary schools by district from the 2014/15 to 2018/19 school years

District [school-netting under Primary One Admission (POA) System]	2014/15		2015/16		2016/17		2017/18		2018/19

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4521)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in Matters Requiring Special Attention in 2019-20 under Programmes (3), (4) and (5) that the Education Bureau will continue to provide recurrent grant and professional support to public sector primary, secondary and special schools that have formed sister schools with their counterparts in the Mainland to further support the multifaceted development of sister school activities.

(1) Please tabulate the following information in the past 3 years by public sector primary, secondary and special schools that have formed sister schools:

the number of schools that have participated in the scheme;
the names of schools that have participated in the scheme; and
the expenditure and staff establishment involved.

(2) What will be the estimated expenditure and staff establishment involved in providing recurrent grant and professional support to public sector primary, secondary and special schools that have formed sister schools with their counterparts in the Mainland to further support the multifaceted development of sister school activities, and the expected number of participating schools in the 2019-20?

Asked by: Hon FAN Kwok-wai, Gary (LegCo internal reference no.: 61)

Reply:

(1) and (2) The Education Bureau (EDB) launched the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme) from the 2015/16 to 2017/18 school years, under which a fixed grant of $120,000 per annum and professional support were provided for each local public sector and Direct Subsidy Scheme (DSS) school (including special school) that has formed sister schools with its counterparts in the Mainland to support the multifaceted development of sister school activities. The number of participating public sector schools and the relevant expenditure of the grant are tabulated by school year below:

School year	Public sector secondary school	Public sector primary school	Public sector special school	Total no. of public sector schools	Expenditure of grant ($ million)
2015/16	129	132	13	274	32.88
2016/17	192	218	20	430	51.60
2017/18	216	250	25	491	58.92

The EDB has regularised the Pilot Scheme with effect from the 2018/19 school year to provide a recurrent grant (which is set at $150,000 for the 2018/19 school year and the amount of grant will be adjusted in accordance with the movement of the Composite Consumer Price Index each year) and professional support for each local public sector and DSS school (including special school) that has formed sister schools with its counterparts in the Mainland. As at March 2019, 574 local public sector schools have applied for the Grant for the Sister School Scheme. Applications are open all year round. It is anticipated that there will be 700 and 775 participating local public sector and DSS schools in the 2018/19 and 2019/20 school years respectively. As a prevailing practice, we do not disclose the names of schools participating in the schemes and the relevant information to avoid possible labelling effect and unnecessary pressure on individual schools.

The EDB is using its existing resources to carry out the relevant work. As the manpower and expenditure involved are subsumed under the departmental expenditure of the EDB, a breakdown is therefore not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4200)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

By academic discipline, please list the number of vocational education programmes (full-time/part-time) provided by the Vocational Training Council in the 2018/19 academic year, the amount of funding involved and their number of intakes.

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 31)

Reply:

The subvented vocational and professional education and training (VPET) programmes (full-time/part-time) offered by the Vocational Training Council (VTC) and their number of intakes in the 2018/19 academic year are set out by academic discipline below:

Mode of Study	Programme	Discipline	Number of Subvented VPET Programmes	Number of Intakes of Subvented VPET Programmes
			2018/19 Academic Year	2018/19 Academic Year
Full-time	Higher Diploma	Applied Science	18	1 104
		Business Administration	5	103
		Childcare, Elderly and Community Services	5	649
		Design	24	2 142
		Engineering	22	2 291
		Hotel, Service and Tourism Studies	8	1 579
		Information Technology	11	1 435
		Cross-disciplines	4	136

	Diploma of Foundation Studies		6	4 113
	Diploma of Vocational Education		38	3 910
	Other Diplomas/Certificates		20	1 031
Part-time	Higher Diploma/ Diploma/ Certificate	Engineering	18	996
	Diploma of Foundation Studies		1	30
	Diploma of Vocational Education		17	661
	Certificate of Vocational Education		12	716
Total			**209**	**20 896**

The recurrent funding provided by the Education Bureau to the VTC for VPET amounts to about $2.5 billion in 2018-19. The VTC does not have a breakdown of the funding amount by academic discipline.

(Question Serial No. 4368)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (661) Minor plant, vehicles and equipment (block vote)

Programme: (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The estimate for the subhead in the coming year is 77.7% higher than that in 2018/19. Please provide details for the increase in estimate, including the departments in most need of acquiring replacement and new equipment, the expenditures involved, and the main uses of the equipment.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 62)

Reply:

The 2019-20 estimate for Subhead 661 Minor plant, vehicles and equipment (block vote) is $25.1 million, which is higher than the 2018-19 revised estimate by about $11 million (77.7%). The bulk of the expenditure is for replacing facilities in government schools, including air-conditioning system, public address system and audio-visual facilities, to meet schools' operational needs and enhance the learning environment.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Using the table below, please provide information on cross-boundary projects or programmes in which the Education Bureau of Hong Kong collaborated/will collaborate with the Mainland departments or involved/will involve in the past 2 years (the 2017/18 and 2018/19 school years) and the coming year (the 2019/20 school year), as well as the manpower and expenditures involved:

Project/ Programme	Details and objectives	Mainland departments/ organisations involved	Progress	Has the project/programme been publicised?	Other HKSAR government departments and/or commissioned services involved and/or names of organisations sponsored	Details of the legislation and policies involved in the project/programme	Manpower and expenditures involved

(b) Please set out the numbers, contents, objectives and respective expenditure of all meetings between the Education Bureau and the Liaison Office of the Central People's Government in the Hong Kong Special Administrative Region (Liaison Office) and Mainland officials in the past 2 years (the 2017/18 and 2018/19 school years); and

(c) Please set out the numbers, contents, objectives, numbers of participants and expenditures of the duty visits and study trips made by the Education Bureau officials to the Mainland and overseas countries in the past 2 years (the 2017/18 and 2018/19 school years).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 58)

Reply:

Part (a)

By cross-boundary projects or programmes in which the Education Bureau (EDB) collaborated with Mainland departments, we refer to those projects/programmes with direct involvement of both EDB and Mainland departments. The manpower and expenditures involved in these projects in the past 2 school years (the 2017/18 and 2018/19 school years) and the coming year (the 2019/20 school year) are at Annex A and Annex B respectively.

Part (b)

EDB maintains necessary working relationships with the central and provincial/municipal authorities in the Mainland, as well as offices of the Central People's Government in the HKSAR to ensure effective exchanges. There is no separate establishment or account for this daily operational work.

Part (c)

The details and expenditure on duty visits outside Hong Kong made by EDB officials are shown below:

School Year	Mainland			Overseas		
	No. of Visits	No. of Officials	Expenditure ($'000)	No. of Visits	No. of Officials	Expenditure ($'000)
2017/18	166	353	2,127	36	90	2,413
2018/19 (As at 8 March 2019)	74	187	1,046	16	32	987

The major objectives of the duty visits to the Mainland or overseas were to promote the education initiatives of Hong Kong, share experience on education reforms, explore co-operation on educational fronts and attend international conferences on education issues.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3973)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the existing programmes in connection with after-school learning and support provided for students and the funding from the 2014/15 to 2018/19 school years by school year and district, including:

(a) the number of students receiving Comprehensive Social Security Assistance (CSSA), full grant or half grant, and their respective percentage shares in the total number of students in the respective school years; and

(b) a breakdown of the content of the various support programmes, number of participating schools, number of students receiving CSSA, full grant or half grant and their related percentage shares by school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 59)

Reply:

Public sector schools are provided with various types of subsidies and other resources annually. Schools may deploy flexibly the subsidies and resources to support students' learning and provide after-school activities for students to facilitate their whole-person development.

Among which, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year to support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant (SBG) and Community-based Project (CBP) Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social

Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS).

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of CSSA or full grant of SFAS but identified by schools as needy (including students receiving half grant of SFAS, new arrivals, single parent households, etc.). Besides, eligible participating schools (i.e. having a utilisation rate of 80% or above of the provision in the previous year) have been provided with incentive funding under the SBG (which is calculated at an annual rate of $600 per eligible student vis-à-vis $400 in other schools and includes an additional 25% of the provision following the increase in the discretionary quota mentioned above). The annual provision of the Programme has been increased to about $240 million since then.

Besides, the Hong Kong Jockey Club Charities Trust (Trust) and EDB have jointly set up the Hong Kong Jockey Club Life-wide Learning Fund (Fund) since 2002 to subsidise financially needy students to participate in life-wide learning activities organised or recognised by schools for whole-person development. Eligible students under the Fund are students from families in receipt of CSSA or receiving full grant of the SFAS studying in primary and secondary schools. To increase the opportunities for needy students to participate in life-wide learning activities, starting from the 2005/06 school year, EDB has relaxed the discretionary quota for "other needy students" from 10% to 100% so that the participating schools would have full flexibility to benefit more needy students who are not CSSA or SFAS full grant recipients but meet the schools' established "financially needy" criteria (e.g. students receiving half grant under SFAS, new arrivals, single parent households, etc.).

The number of students receiving the CSSA, full grant or half grant and their respective percentage shares in the total number of students by district from the 2014/15 to 2018/19 school years are at Annexes A to E respectively.

The provision and number of participating schools/NGOs, respective number of students of the above programmes and their related percentage shares by district from the 2014/15 to 2018/19 school years are at Annexes F to J respectively.

Annex A

Number of students in receipt of Comprehensive Social Security Assistance (CSSA), full grant and half grant and respective percentage shares among total number of students by district in the 2014/15 school year

Total	**239,580**	**884**	**303**	**131 490**	**98.1%**	**66 340**	**N.A.[5]**	**78,792**	**939**	**103 800**	**77.4%**	**39 260**	**N.A.[5]**

1. The numbers of students are rounded to the nearest 10.
2. Eligible students under the Programme are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. The number of students is calculated based on the data on students receiving the grant as at the end of March 2014 and the number of approved classes as specified by the Education Bureau in April 2014 for the 2014/15 school year. Breakdown of the number of participating students receiving SFAS half grant is not available. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit more needy students (e.g. receiving half grant, new arrivals, single parent households, etc.) who do not receive CSSA or full grant.
3. Eligible students under the Fund are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. Starting from the 2005/06 school year, the discretionary quota of all participating schools has been increased from 10% to 100% to benefit more needy students (e.g. receiving half grant, new arrivals, single parent households, etc.) who do not receive CSSA or full grant. Breakdown of the number of participating students receiving SFAS half grant is not available.
4. For the 2014/15 school year, the total number of NGOs is 175. Since an NGO may organise after-school activities in different districts, the total number of NGOs by district may not tally with the total number under the Programme.
5. As the CSSA data is as at end-December of each year while the provision to eligible students under the above programmes is based on each school year, the corresponding percentage share cannot be worked out.

Annex G

Provision, number of participating schools/NGOs and related students and percentage shares by district under School-based After-school Learning and Support Programmes and Hong Kong Jockey Club Life-wide Learning Fund in the 2015/16 school year

1. The numbers of students are rounded to the nearest 10.
2. Eligible students under the Programme are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. The number of students is calculated based on the data on students receiving the grant as at the end of March 2016 and the number of approved classes as specified by the Education Bureau in April 2016 for the 2016/17 school year. Breakdown of the number of participating students receiving SFAS half grant is not available. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit more needy students (e.g. receiving half grant, new arrivals, single parent households, etc.) who do not receive CSSA or full grant.
3. Eligible students under the Fund are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. Starting from the 2005/06 school year, the discretionary quota of all participating schools has been increased from 10% to 100% to benefit more needy students (e.g. receiving half grant, new arrivals, single parent households, etc.) who do not receive CSSA or full grant. Breakdown of the number of participating students receiving SFAS half grant is not available.
4. For the 2016/17 school year, the total number of NGOs is 173. Since an NGO may organise after-school activities in different districts, the total number of NGOs by district may not tally with the total number under the Programme.
5. As the CSSA data is as at end-December of each year while the provision to eligible students under the above programmes is based on each school year, the corresponding percentage share cannot be worked out.

Annex I

Provision, number of participating schools/NGOs and related students and percentage shares by district under School-based After-school Learning and Support Programmes and Hong Kong Jockey Club Life-wide Learning Fund in the 2017/18 school year

District	School-based After-school Learning and Support Programmes (Programme)							Hong Kong Jockey Club Life-wide Learning Fund (Fund)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3974)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide relevant figures for the recent 5 years:

(a) The total expenditure and total recurrent expenditure on education, as well as their percentage shares in the Government's total public expenditure and total recurrent expenditure respectively;

(b) A breakdown of the total expenditure on education by recurrent expenditure, non-recurrent and capital account expenditure under General Revenue Account (GRA) as well as capital expenditure under the Capital Works Reserve Fund (CWRF) and Loan Fund (LF);

(c) Please list the following information on pre-primary education, primary education, secondary education, teacher training, adult education, higher education, technical education, vocational education and departmental support;

(d) The recurrent and non-recurrent expenditures under GRA, their respective percentage shares in GRA as well as in recurrent and non-recurrent expenditures on education;

(e) The total expenditure (including GRA, CWRF and LF) on the above education areas and its share in the total expenditure on education;

(f) The expenditure on education (including recurrent expenditure, non-recurrent and capital account expenditure under GRA only) for the above education areas and their respective percentage shares in the Gross Domestic Product (GDP);

(g) The total expenditure on education (including GRA, CWRF and LF) of the above education areas and its percentage share in the GDP; and

(h) The provision for the above education areas and their percentage changes.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 61)

Reply:

For adult education, subsidies are provided to students through the Financial Assistance Scheme for Designated Evening Adult Education Courses under Head 173 Working Family and Student Financial Assistance Agency and are included as part of the recurrent expenditure of secondary education.

Notes

1. Expenditure on vocational and professional education covers provision for the Vocational Training Council and related student financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.

2. Expenditure on post-secondary education covers provision for Project Yi Jin, Yi Jin Diploma Programme, various programmes for degree or above and sub-degree education (excluding vocational and professional education) and related student financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.

   The increase in expenditure in 2018-19 is mainly due to the establishment of the Hostel Development Fund ($10.3 billion) and the one-off injections into the Research Endowment Fund ($3 billion) and the HKSAR Government Scholarship Fund ($800 million).

3. Others include provision for home-school co-operation activities, school uniformed group activities, bureau support and other non-recurrent expenditure. The increase in expenditure in 2016-17 is mainly due to the establishment of the Gifted Education Fund ($800 million). The increase in expenditure in 2018-19 is mainly due to the establishment of the Student Activities Support Fund ($2.5 billion) and the one-off injection into the Gifted Education Fund ($800 million).

4. The sums of figures may not add up to total due to rounding.

5. Teacher training includes the Training and Development Grant provided to schools, costs of in-service and pre-service teacher training courses, refunds of course fees to teachers and teacher education programmes provided by University Grant Committee-funded universities. The related expenditure has been subsumed in the respective education area.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3975)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures (including number of classes, demand for school places, supply of school places, number of cross-district students, surplus/shortage and the percentage of surplus/shortage over the supply of school places) by district, and also the total number in different districts and Hong Kong as a whole:

(a) The supply of and demand for Secondary One (S1) places under the Secondary School Places Allocation (SSPA) System in 2014-2018, as well as the latest estimation of the supply of and demand for S1 places under SSPA 2019;

(b) The supply of and demand for Primary One (P1) places under the Primary One Admission (POA) System in 2014-2018, as well as the latest estimation of the supply of and demand for P1 places under POA 2019;

(c) Referring to the replies to (a) and (b), the respective surplus of school places in various districts/school nets in the recent 5 years and the estimation in 2019;

(d) Referring to the replies to (a) and (b), the respective number of school places netted, number of school places allocated, number of school places netted from other districts, the actual number of places registered and the ratio in the recent 5 years and the estimation in 2019;

(e) Referring to the reply in (c), how can the Administration effectively solve the problem of greater surplus in school places in certain districts? Will special measures be implemented? For example, it was suggested that 3 classes of S1 students be allocated to these districts across the board in the 2019 school year, or that the current number of S1 classes in the territory be frozen, or that small class teaching be implemented; and

(f) Referring to the reply to (b), how can the Administration solve the problem of greater shortage in school places in certain districts?

(g) In view of the demographic change in respect of student population, will the Administration set up a committee to explore an effective, sustainable and long-term solution? If so, when will it be implemented and what is the time-table? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 64)

Reply:

(a), (c) & (d) The Secondary School Places Allocation (SSPA) System is divided into 2 stages: Discretionary Places (DP) and Central Allocation (CA). During the DP stage, parents may, without restriction on districts, apply to not more than 2 participating secondary schools. The CA stage comprises 2 parts, namely unrestricted school choices and restricted school choices. Under SSPA, the secondary school net of students is determined by the location of the primary schools they attend rather than their place of residence. Hence, parents may choose schools in other districts during the DP and CA stages. In addition, some students may, for different reasons, apply to other schools for admission on their own accord after the release of the allocation results each year. Therefore, statistics on the number of cross-district students (including the actual number of places registered) are not available.

A total of 48 811, 46 659, 45 544, 47 203 and 49 554 students participated in SSPA from 2014 to 2018 (i.e. for admission to Secondary 1 (S1) from the 2014/15 to 2018/19 school years) respectively. A breakdown by students' school net is at Annex 1. The respective number of S1 classes, places and students in public sector schools by district from the 2014/15 to 2018/19 school years is at Annex 2. As SSPA 2019 has not yet completed, relevant figures for the 2019/20 school year are not available.

The provision of public sector secondary school places is planned on a territory-wide basis. To ensure an adequate supply of school places to meet the demand and to provide students with more school choices in districts with a smaller number of school places, netting of school places from neighbouring areas is a long-established arrangement which can also address the concerns and needs of different stakeholders. When making netting arrangements, the Education Bureau (EDB) takes into consideration a number of factors, such as the demand and supply of school places in different districts, location of schools and the associated transport facilities as well as the established netting pattern, to ensure a stable supply of school places in each district and provide parents with more choices. The secondary schools that offer places for school nets in the CA stage and the anticipated number of school places from 2014 to 2019 are set out in the

Secondary School Lists of the respective years for parents' reference. Each year, the actual number of school places netted and the situation of students' actual registration in relevant districts could be affected by different factors, including the unrestricted school choices made by parents during the DP and CA stages. Relevant statistics are not readily available.

(b), (c) & (d) The Primary One Admission (POA) System is divided into 2 stages: DP and CA. During the DP stage, parents may apply to one public sector primary school either within or outside the school net in which they reside. Children who have failed to secure a discretionary school place may participate in CA, which comprises two parts, namely unrestricted school choices and restricted school choices. For applicant children residing in Hong Kong, their school net is determined by their residential address. Certain school nets may cover two districts. Hence, a number of parents may choose schools from other districts/school nets in the DP and CA stages. In addition, some students may, for different reasons, apply to other schools for admission on their own accord after the release of the allocation results each year. Therefore, statistics on the number of cross-district students (including the actual number of places registered) are not available.

A total of 50 992, 50 637, 51 747, 55 880 and 56 648 children were allocated Primary 1 (P1) places in POA from 2014 to 2018 (i.e. for admission to P1 from the 2014/15 to 2018/19 school years) respectively. A breakdown by applicant children's school net is at Annex 3. The respective number of P1 classes, places and students in public sector schools by district from the 2014/15 to 2018/19 school years is at Annex 4. As POA 2019 has not yet completed, relevant figures for the 2019/20 school year are not available.

The provision of public sector primary school places is planned on a territory-wide basis. Under POA, the demand and supply of P1 school places in individual school nets may vary across years. Providing sufficient school places for parents' selection by netting places from school nets that have surplus places is a long-established arrangement. When netting school places, EDB follows the established mechanism, which includes thoroughly considering the situation of schools in the school nets concerned, location of schools and the transportation available to facilitate students travelling to and from schools, etc. The provisional number of CA places offered by schools, including those offered by schools in other school nets, is set out in the Choice of Schools List by School Net for CA of POA from 2014 to 2019 for parents' reference. Each year, the actual number of school places netted and the situation of students' actual registration in relevant districts/school nets could be affected by different factors, including the unrestricted school choices made by parents during the CA stage. Relevant statistics are not readily available.

(e) - (g) Based on the existing data, the overall number of S1 students is expected to rebound steadily and progressively from the 2017/18 school year onwards.

As the distribution of schools is uneven and the number of classes operated by individual schools is subject to various factors (e.g. the choices of parents and the mobility of students, etc.), while expecting the overall S1 student population to rebound gradually, EDB will continue with the targeted relief measures previously implemented to help sustain the development of schools, stabilise the teaching force and maintain the quality of education. These measures include reducing the basis for calculating the number of approved S1 classes to 25 students per class, relaxing the "not less than 3 S1 classes" requirement under which schools with 2 approved S1 classes are accepted not necessary to apply for any school development option, and allowing schools with S1 classes reduced to 1 or 2 to participate in the next SSPA with a cap of 3 S1 classes. The above measures will continue to take effect in the coming few years. Meanwhile, we will continue to explore the need for other measures to support individual affected schools when necessary. Besides, to address the projected increase in the demand for S1 school places, EDB and the sector met and reached a consensus in October 2017 on the framework of direction and strategies for tackling the issue, i.e. adopting the established netting arrangements for SSPA, progressively reverting the allocation class size to 34 students upon the rebound of the S1 student population ("place reinstating") as pledged by the sector prior to the implementation of the targeted relief measures, and increasing the number of S1 classes in districts with a shortfall in school places after adopting the netting arrangements and "place reinstating", so as to ensure a sufficient supply of S1 school places every year to meet the demand.

In considering whether small class teaching (SCT) be implemented in secondary schools, conceptually speaking, SCT in secondary schools is more of a teaching strategy involving teaching setting or grouping driven by pedagogical considerations. The size of grouping should not be fixed across-the-board, but adjusted according to the learning objectives and students' needs. International studies have suggested that SCT is more effective when students are of a younger age and its effectiveness tends to wane as students age. In considering whether to implement SCT in secondary schools,, we should take into account the current conditions and learning and teaching environment of secondary schools, as well as the availability of support for them, overseas experience and resource implications, and assess prudently whether it is feasible and sustainable for secondary schools, as in primary schools, to reduce their class size across-the-board. As the number of S1 students is expected to rebound steadily from the 2017/18 school year onwards, reducing the class size across-the-board will definitely increase the pressure on land use by schools. We have no plan to implement SCT in secondary schools having regard to the aforementioned considerations.

As for primary schools, EDB anticipated in 2013 that the overall demand for P1 places would increase substantially and temporarily to the projected peak in the 2018/19 school year, and then drop significantly in the 2019/20 school year before gradually reaching a stable level. Over the past few years, in

meeting the transient increase in demand for P1 places, EDB has, based on the consensus reached with the sector, avoided constructing new schools to meet any transient demand for P1 places as far as possible to lessen impact on the stable development of primary schools when the demand for school places subsides. Premising on the sustainable development of existing schools, we have adopted flexible arrangements to cope with the transient increase in demand for P1 school places. Following the drop of P1 school-age population, the flexible measures adopted will be adjusted or withdrawn in light of the demand as planned from the 2019/20 school year. However, since the demand for school places in individual districts/school nets may be different from the overall situation and the continuous operation of additional classes in individual districts/school nets in the past few years has reduced substantially the number of vacant classrooms, some districts/school nets would still have to continue with the flexible measures, including temporarily allocating more students per P1 class, in the 2019/20 school year to increase the provision of P1 places. Both EDB and the sector consider that the drop of P1 school-age population will create favourable conditions for more schools to implement SCT. EDB has therefore issued letters to invite all schools which have not yet implemented SCT to plan and make early preparation so that they can implement SCT as soon as practicable where the supply and demand of school places allow. Depending on the demand and supply of school places in individual districts, EDB will liaise with the schools concerned in a timely manner.

EDB recognises stakeholders' different concerns about the planning of school places, and will continue to keep a close watch on the changes in student population and maintain close communication with the sector, so as to balance the concerns of different stakeholders and maintain the overall quality of education, while supporting schools' sustainable and stable development and ensuring effective use of resources.

Notes: (1) Figures exclude special schools.

(2) Figures refer to the position as at September of the respective school year.

(3) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by the schools concerned.

(4) Figures on school places have been updated, reflecting the impact of schools' adoption of the mode of "1-1-1" or "2-1-1" under the targeted relief measures to reduce the number of students allocated to each S1 class progressively from the 2013/14 to 2015/16 school years.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3976)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Free Quality Kindergarten Education Scheme in the 2017/18 and 2018/19 school years,

(1) Please advise of the number of kindergartens (KGs) that received the tide-over grant. How many of them operated half-day, mixed (half-day and whole-day), whole-day and long whole-day service? What is the total amount of tide-over grant approved? What are the respective highest, lowest, average and median amounts approved for these 4 types of KGs?

(2) It is stipulated that KGs employing basic rank full-time teachers at an average monthly salary above $20,000 in the 2014/15 and 2015/16 school years are eligible to apply for the tide-over grant for the 2017/18 and 2018/19 school years. For KGs that are marginally ineligible in the past years, if the average monthly salary of their basic rank teachers is higher than $30,180 in the 2018/19 school year, they will become eligible to apply for the tide-over grant in the 2019/20 school year. What is the justification for revising the eligibility from an average monthly salary exceeding $20,000 in the 2014/15 and 2015/16 school years to an average monthly salary exceeding $30,180 in the 2018/19 school year, and how are these levels determined? According to the Government's estimation, how many KGs could meet this level of increase in average monthly salary? and

(3) For each of the 4 types of KGs mentioned above, please give the number of KGs having applied for collection of school fees, approved and not approved to collect school fees. For KGs approved to collect school fees in each of these 4 types of KGs, what are the average, lowest, highest and median level of annual school fees? For all KGs not approved to collect school fees, please list the reasons, the type and number of KGs involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 60)

Reply:

(1)
In the 2017/18 school year, 478 of the 748 kindergartens (KGs) joining the KG education scheme (Scheme-KGs) were approved for the tide-over grant (ToG). The expenditure on the ToG in 2017-18 was about $135 million (reflecting the expenditure for the first 8 months, i.e. from August 2017 to March 2018, after the implementation of the Scheme in the 2017/18 school year). As for the 2018/19 school year, 485 of the 753 Scheme-KGs have been approved for the ToG. The estimated expenditure on the ToG in 2018-19 is about $207 million. The number of KGs approved for the ToG by service mode, i.e. half-day (HD), whole-day (WD), etc., and the respective highest, lowest, average and medium amounts approved in the 2 above-mentioned school years are tabulated at Appendix 1.

(2)
Scheme-KGs with a large number of long-serving teachers receiving higher salaries (i.e. the average monthly salary of their basic rank full-time teachers with Certificate in Early Childhood Education [C(ECE)] or above qualification (within the teacher to pupil (TP) ratio of 1:15) in the 2014/15 and 2015/16 school years was higher than $20,000) before joining the Scheme would be provided with the ToG. The ToG aims to render additional financial support for these KGs to defray their expenses on teaching staff salary in the early period of implementation of the Scheme, so that KGs may retain their long-serving teachers and maintain the stability of their teaching force. In July 2017, the Government announced the extension of the 2-year ToG (from 2017/18 to 2018/19 school years) for 3 years (from the 2019/20 to 2021/22 school years), making a total of 5 years of provision. Regarding the arrangements for the 3-year extension, KGs approved to receive the ToG will continue to be provided with the grant. As for other KGs (i.e. those not having a large number of long-serving teachers receiving higher salaries before joining the Scheme), they should have effectively planned and deployed resources provided at the time of joining the Scheme, in principle, there should not be insufficient subsidy to cover expenses on teachers' salary due to a large number of long-serving teachers receiving higher salaries after 2 years of implementation of the Scheme. However, given the diversity of the KG sector, there may be exceptional circumstances that need special consideration. Since the teaching staff salary portion of the basic unit subsidy is calculated at the mid-point of the salary range, we take this as the basis for consideration. For KGs marginally ineligible for the ToG in the past years, should their basic rank teachers' average monthly salary in the 2018/19 school year exceed the mid-point salary (i.e. $30,810) of the provisional salary range (i.e. $22,180 to $39,440) for basic rank teachers in the 2019/20 school year due to exceptional circumstances, they may provide justifications and details about their salary arrangement for teachers. We would consider on a case-by-case basis. As these are exceptional circumstances, estimated figures are not available.

(3)
In the 2017/18 and 2018/19 school years, the number of Scheme-KGs that have applied for collection of school fees for HD, WD and long whole-day service, and the number of KGs with and without approval for collection of school fees are tabulated at Appendix 2. The median, weighted average, highest and lowest school fees among fee-charging KGs are tabulated at Appendix 3.

When assessing KGs' applications for school fees revision, we primarily consider their overall financial position and actual operation, including salaries for teaching and supporting staff, TP ratio, maintenance of school facilities and general operating expenses, etc. We do not have an analysis of the reasons for not granting approval for collection of school fees for different types of KGs.

Number of KGs approved for the tide-over grant (ToG) and
the highest, lowest, average and median amount of grant disbursed
in the 2017/18 and 2018/19 school years

2017/18 School Year	Only operating half-day classes	Only operating whole-day classes	Operating both whole-day and half-day classes
No. of KGs approved for the ToG	85	220	173
Highest amount ($'000)	2 340	590	2 410
Lowest amount ($'000)	80	30	110
Average amount ($'000)	850	210	500
Median amount ($'000)	780	200	450

2018/19 School Year	Only operating half-day classes	Only operating whole-day classes	Operating both whole-day and half-day classes
No. of KGs approved for the ToG	85	221	179
Highest amount ($'000)	1 650	430	1 770
Lowest amount ($'000)	60	40	10
Average amount ($'000)	600	130	320
Median amount ($'000)	560	120	280

Note 1: The KGs offering WD classes in the 2017/18 and 2018/19 school years in the table above include 220 and 221 Former Aided Child Care Centres (FACs) respectively. FACs refer to former aided child care centres operated under the Social Welfare Department before harmonisation of pre-primary services. They usually operate longer service hours.

Note 2: The amount of the 2018/19 school year shown above refers to the position as at March 2019 as the 2018/19 school year has not yet come to a close.

Number of Scheme-KGs
applying for collection of school fees,
number of approved and not approved,
in the 2017/18 and 2018/19 school years

School Year	Service	No. of Scheme-KGs		
		No. of KGs applying for collection of school fees	No. of KGs approved to collect school fees (Note 1)	No. of KGs not approved to collect school fees
2017/18	HD	69	31	38
	WD	344	313	31
	Long WD (Note 2)	240	212	28
2018/19	HD	56	35	21
	WD	341	323	18
	Long WD (Note 2)	238	224	14

Notes:

1. The figures refer to the position when applications for school fees revision was first submitted by KGs, without including changes during the course of vetting. KGs providing both HD and WD/long WD service are counted in each appropriate row.
2. FACs refer to former aided child care centres operated under the Social Welfare Department before harmonisation of pre-primary services. They usually operate longer service hours.

Median, weighted average, highest and lowest school fees
charged by Scheme-KGs
in the 2017/18 and 2018/19 school years

2017/18 School Year

Annual School Fee (Note 1)	HD	WD	Long WD (Note 2)
Median ($)	2,900	7,300	11,400
Weighted average ($)	3,000	8,100	11,000
Highest ($)	9,500	25,900	22,500
Lowest ($)	100	200	900

2018/19 School Year

Annual School Fees (Note 1)	HD	WD	Long WD (Note 2)
Median ($)	3,400	8,100	12,000
Weighted average ($)	3,700	8,700	11,600
Highest ($)	10,100	26,200	26,200
Lowest ($)	100	200	700

Notes:

1. The figures are rounded to the nearest hundred. The school fees of KGs providing both HD and WD/long WD service are counted in each appropriate column.
2. FACs refer to former aided child care centres operated under the Social Welfare Department before harmonisation of pre-primary services. They usually operate longer service hours.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3977)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding kindergartens (KGs) under the subsidy of the Free Quality Kindergarten Education Scheme (Scheme) in the 2017/18 and 2018/19 school years, please provide the following information:

1. the number of teachers whose salary is $21,680 (i.e. the minimum pay point of the salary range), and among them, the number of teachers serving in half-day (HD) KGs and their percentage share in the total number of teachers in HD KGs, the number of teachers serving in whole-day (WD) KGs and their percentage share in the total number of teachers in WD KGs, as well as the number of teachers serving in long whole-day (LWD) KGs and their percentage share in the total number of teachers in LWD KGs;

2. the number of teachers whose salary is $38,550 (i.e. the maximum point of the salary range), and among them, the number of teachers serving in HD KGs and their percentage share in the total number of teachers in HD KGs, the number of teachers serving in WD KGs and their percentage share in the total number of teachers in WD KGs, as well as the number of teachers serving in LWD KGs and their percentage share in the total number of teachers in LWD KGs;

3. the median salary of teachers in KGs under the Scheme, the actual median salary of teachers, senior teachers and all teachers, as well as the number of KGs with an actual median salary above, lower or equivalent to the median salary of teachers in KGs under the Scheme and their respective percentages;

4. the average, median, highest and lowest salaries of teachers, senior teachers and principals in local private independent KGs; and

5. the respective numbers of Principal I and Principal II in subsidised KGs, and the highest, lowest, average and median salaries of Principal I and Principal II in subsidised KGs, with a breakdown by HD, WD, mixed and LHD KGs.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 63)

Reply:

1.(i) In the 2017/18 school year, the number of teachers in kindergartens (KGs) under the KG education scheme (Scheme) with a monthly salary of $20,770 (i.e. the minimum pay point of the recommended salary range for teachers with Certificate in Early Childhood Education (C(ECE)) or above qualification in the 2017/18 school year) was 1 499 and their percentage share in the total number of teachers in KGs under the Scheme was 15.9%. Among them, the number of teachers serving in half-day (HD) and whole-day (WD) KGs and their respective percentage share are tabulated below:

Number of teachers with a salary of $20,770 in KGs under the Scheme					
KGs operating HD classes only		KGs operating WD classes only		KGs operating both WD and HD classes	
No. of teachers	Percentage	No. of teachers	Percentage	No. of teachers	Percentage
292	12.3%	407	17.0%	800	17.2%

Among the above KGs, the number of teacher with a monthly salary of $20,770 serving in Former Aided Child Care Centres (FACs) was 427, accounting for 17.5% of the total number of teachers in FACs.

(ii) In the 2018/19 school year, the number of teachers in KGs under the Scheme with a monthly salary of $21,680 (i.e. the minimum pay point of the recommended salary range for teachers with C(ECE) or above qualification in the 2018/19 school year) is 850 and their percentage share in the total number of teachers in KGs under the Scheme is 9.1%. Among them, the number of teachers serving in HD and WD KGs and their respective percentage share are tabulated below:

Number of teachers with a salary of $21,680 in KGs under the Scheme					
KGs operating HD classes only		KGs operating WD classes only		KGs operating both WD and HD classes	
No. of teachers	Percentage	No. of teachers	Percentage	No. of teachers	Percentage
158	6.7%	212	8.6%	480	10.5%

Among the above KGs, the number of teachers with a monthly salary of $21,680 serving in FACs is 222, accounting for 9.0% of the total number of teachers in FACs.

2. (i) In the 2017/18 school year, there were 4 teachers with a salary of $36,930 (i.e. the maximum pay point of the recommended salary range for teachers with C(ECE) or above qualification in the 2017/18 school year) in KGs under the Scheme, including 2 serving in KGs operating HD classes and another 2 serving in KGs operating both WD and HD classes. Since there were only a few of them, their percentage share in the total number of teachers in those KGs was not compiled. None of these 4 teachers served in an FAC.

(ii) In the 2018/19 school year, there are 11 teachers with a salary of $38,550 (i.e. the maximum pay point of the recommended salary range for teachers with C(ECE) or above qualification in the 2018/19 school year) in KGs under the Scheme, including 8 serving in KGs operating HD classes, 2 serving in KGs operating WD classes and 1 serving in KGs operating both WD and HD classes. Since there are only a few of them, their percentage share in the total number of teachers in those KGs is not compiled. Among these 11 teachers, 2 are serving in an FAC.

3. (i) In the 2017/18 school year, the median monthly salary of teachers in KGs under the Scheme was $23,270. The respective numbers of KGs with a median salary above, below and equivalent to the median salary, and their respective percentage share in the total number of KGs under the Scheme are tabulated below:

	KGs under the Scheme with a median salary above, below or equivalent to the median salary of teachers in KGs under the Scheme (i.e. $23,270)	
	No. of KGs#	Percentage
Below the median salary	405	55.0%
Equivalent to the median salary	1	0.1%
Above the median salary	331	44.9%
Total	737	100%

There are pay gaps between teachers serving in the same KG. KGs with a median salary above $23,270 are placed in the "above the median salary" category. Similarly, KGs with a median salary below $23,270 are placed in the "below the median salary" category.

(ii) In the 2018/19 school year, the median monthly salary of teachers in KGs under the Scheme is $25,024. The respective numbers of KGs with a median salary above, below and equivalent to the median salary, and their respective percentage share in the total number of KGs under the Scheme are tabulated below:

	KGs under the Scheme with a median salary above, below or equivalent to the median salary of teachers in KGs under the Scheme (i.e. $25,024)	
	No. of KGs##	Percentage
Below the median salary	379	51.00%
Equivalent to the median salary	0	0.00%
Above the median salary	364	49.00%
Total	743	100.00%

There are pay gaps between teachers serving in the same KG. KGs with a median salary above $25,024 are placed in the "above the median salary" category. Similarly, KGs with a median salary below $25,024 are placed in the "below the median salary" category.

(iii) Unlike aided primary and secondary schools, there is no approved teaching establishment in KGs. As the proposed number and rank of senior teachers are for KGs' reference only and the actual arrangements may vary among KGs, it is inappropriate to provide the median salary of senior teachers by rank.

4. (i) In the 2017/18 school year, the average, median, highest and lowest salaries of teachers in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of teachers in local private independent KGs		
	KGs operating HD classes only ($)	KGs operating WD classes only ($)	KGs operating both HD and WD classes ($)
Average salary	26,403	24,439	23,177
Median salary	24,760	23,270	20,000
Highest salary	129,080	37,570	82,572
Lowest salary	8,200	17,000	10,800

(ii) In the 2018/19 school year, the average, median, highest and lowest salaries of teachers in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of teachers in local private independent KGs		
	KGs operating HD classes only ($)	KGs operating WD classes only ($)	KGs operating both HD and WD classes ($)
Average salary	28,167	25,749	23,799
Median salary	26,700	25,060	21,000
Highest salary	86,719	40,420	88,744
Lowest salary	11,000	20,770	11,000

(iii) In the 2017/18 school year, the average, median, highest and lowest salaries of principals in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of principals in local private independent KGs		
	KGs operating HD classes only ($)	KGs operating WD classes only ($)	KGs operating both HD and WD classes ($)
Average salary	47,685	66,448	47,145
Median salary	40,100	46,200	40,500
Highest salary	78,328	110,000	103,535
Lowest salary	26,000	43,145	20,800

(iv) In the 2018/19 school year, the average, median, highest and lowest salaries of principals in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of principals in local private independents KGs		
	KGs operating HD classes only ($)	KGs operating WD classes only ($)	KGs operating both HD and WD classes ($)
Average salary	55,739	46,200	48,609
Median salary	46,000	46,200	42,325
Highest salary	141,985	46,200	108,725
Lowest salary	29,500	46,200	20,800

(v) As private independent KGs have greater flexibility in the number and rank of teachers and senior teachers they hired and the actual arrangements may vary among KGs, it is inappropriate to provide the median salary of senior teachers by rank.

5. (i) The ranks of principal under the Scheme are for KGs' reference only and the actual arrangements may vary among KGs. We do not collect information on the ranks of principals. In the 2017/18 school year, the average, median, highest and lowest salaries of principals in KGs under the Scheme (including FACs) are tabulated below:

	Monthly salary of principals in KGs under the Scheme		
	KGs operating HD classes only ($)	KGs operating WD classes only ($)	KGs operating both HD and WD classes ($)
Average salary	47,329	44,974	45,820
Median salary	47,240	44,881	45,120
Highest salary	61,170	62,225	126,000
Lowest salary	26,875	26,700	16,000

Among KGs operating WD classes in the above table, the average, median, highest and lowest monthly salaries of principals in FACs are tabulated below:

	Monthly salary of principals in FACs ($)
Average salary	44,949
Median salary	45,056
Highest salary	62,225
Lowest salary	26,700

(ii) In the 2018/19 school year, the average, median, highest and lowest salaries of principals in KGs under the Scheme (including FACs) are tabulated below:

	Monthly salary of principals in KGs under the Scheme		
	KGs operating HD classes only ($)	KGs operating WD classes only ($)	KGs operating both HD and WD classes ($)
Average salary	50,262	48,736	49,118
Median salary	50,825	48,540	48,154
Highest salary	64,705	66,945	138,600
Lowest salary	22,600	21,680	35,100

Among KGs operating WD classes in the above table, the average, median, highest and lowest monthly salaries of principals in FACs are tabulated below:

	Monthly salary of principals in FACs ($)
Average salary	48,755
Median salary	48,540
Highest salary	66,945
Lowest salary	40,000

Notes:

(1) Information provided in this reply is based on the survey on KG teachers/child care staff conducted by the Education Bureau in September of the respective school year. Figures for the 2018/19 school year are provisional. We are following up the cases in which teachers' salary offered by KGs under the Scheme does not fall within the stipulated salary range.

(2) FACs refer to aided child care centres operated by the Social Welfare Department before the harmonisation of pre-primary services; they usually operate longer service hours.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3978)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide, in tabular form, the following information for the 2014/15 to 2018/19 school years:

1. The number of serving qualified kindergarten (KG) teachers, and among such teachers, the number of those who serve as principals and those who take up teaching posts; and the respective number of teachers serving at KGs offering whole-day, half-day and both half-day and whole-day services;

2. The number of teachers serving at KGs that are joining the Pre-primary Education Voucher Scheme (PEVS)/Free Quality Kindergarten Education Scheme (KG Scheme), and the number of teachers serving at KGs that are not joining the PEVS/KG Scheme;

3. The number of KG teachers holding a certificate in early childhood education and their percentage share; and the number of KG teachers pursuing certificate programmes in early childhood education and their percentage share;

4. The number of KG teachers holding a bachelor's degree in early childhood education and their percentage share; and the number of KG teachers pursuing a bachelor's degree programme in early childhood education and their percentage share;

5. The number of KG principals holding a bachelor's degree in early childhood education and their percentage share; the number of KG principals pursuing a bachelor's degree programme in early childhood education and their percentage share; and among such principals, the number of those serving at KGs that are joining the PEVS/KG Scheme and those serving at KGs that are not joining the PEVS/KG Scheme;

6. The number of teachers holding a certificate, bachelor's degree or master's degree in early childhood education each year and the year-on-year growth rate; and

7. The number of drop-out teachers in whole-day and half-day KGs and their percentage share; the age distribution and length of teaching service of drop-out teachers; and among such drop-out teachers, the respective number of those holding a certificate, diploma, bachelor's degree or master's degree in early childhood education and their percentage share against the total number of drop-out teachers.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 65)

Reply:

1. From the 2014/15 to 2018/19 school years, the number of qualified teachers serving at local kindergartens (KGs), and among such teachers, the number of those serving as principals and those taking up teaching posts are tabulated below:

School year	Number of principals (a)	Number of qualified KG teachers (b)	Total Number of qualified KG teachers (a)+(b)
2014/15	868	10 727	11 595
2015/16	873	11 095	11 968
2016/17	881	11 445	12 326
2017/18	871	11 671	12 542
2018/19	866	11 665	12 531

From the 2014/15 to 2018/19 school years, the number of qualified teachers serving at local KGs operating whole-day (WD), half-day (HD) and both HD and WD classes is tabulated below:

School year	Number of qualified KG teachers		
	KGs operating WD classes only	KGs operating HD classes only	KGs operating both HD and WD classes
2014/15	2 290	3 319	5 986
2015/16	2 396	3 598	5 974
2016/17	2 506	3 743	6 077
2017/18	2 761	3 778	6 003
2018/19	2 857	3 797	5 877

2. The number of qualified teachers serving at local KGs joining and not joining the Pre-primary Education Voucher Scheme (PEVS) from the 2014/15 to 2016/17 school years/the new KG education scheme (KG Scheme) from the 2017/18 to 2018/19 school years is tabulated below:

School year	Number of qualified KG teachers	
	KGs under PEVS/KG Scheme	KGs not under PEVS/KG Scheme
2014/15	9 546	2 049
2015/16	9 970	1 998
2016/17	10 417	1 909
2017/18	10 673	1 869
2018/19	10 717	1 814

3. From the 2014/15 to 2018/19 school years, the number of teachers serving at local KGs and holding a certificate in early childhood education and their percentage share are tabulated below:

School year	Number of teachers serving at local KGs and holding a certificate in early childhood education (%) (Note)
2014/15	10 923 (90.4%)
2015/16	11 377 (91.2%)
2016/17	11 819 (92.7%)
2017/18	12 108 (93.9%)
2018/19	12 159 (94.4%)

(Note: Figures include teachers concurrently holding a bachelor's degree in early childhood education.)

From the 2014/15 to 2018/19 school years, the number of teachers serving at local KGs and pursuing a certificate programme in early childhood education and their percentage share are tabulated below:

School year	Number of serving KG teachers pursuing certificate programmes in early childhood education (%)
2014/15	988 (8.2%)
2015/16	643 (5.2%)
2016/17	583 (4.6%)
2017/18	498 (3.9%)
2018/19	570 (4.4%)

4. From the 2014/15 to 2018/19 school years, the number of teachers serving at local KGs and holding a bachelor's degree in early childhood education and their percentage share are tabulated below:

School year	Number of teachers serving at local KGs and holding a bachelor's degree in early childhood education (%) (Note)
2014/15	4 380 (36.2%)
2015/16	4 947 (39.6%)
2016/17	5 480 (43.0%)
2017/18	6 119 (47.5%)
2018/19	6 563 (50.9%)

(Note: Figures include teachers concurrently holding a certificate in early childhood education.)

From the 2014/15 to 2018/19 school years, the number of teachers serving at local KGs and pursuing a bachelor's degree programme in early childhood education and their percentage share are tabulated below:

School year	Number of serving KG teachers pursuing a bachelor's degree programme in early childhood education (%)
2014/15	2 032 (16.8%)
2015/16	2 038 (16.3%)
2016/17	1 812 (14.2%)
2017/18	1 261 (9.8%)
2018/19	1 048 (8.1%)

5. Among the principals serving at local KGs joining and not joining the PEVS from the 2014/15 to 2016/17 school years/KG Scheme from the 2017/18 to 2018/19 school years, the number of those holding a bachelor's degree in early childhood education/pursuing a bachelor's degree programme in early childhood education and their percentage share are tabulated below:

School year	Number of serving KG principals holding a bachelor's degree in early childhood education (%)			Number of serving KG principals pursuing a bachelor's degree programme in early childhood education (%)			Total (%)
	KGs under PEVS/ KG Scheme	KGs not under PEVS/ KG Scheme	Total	KGs under PEVS/ KG Scheme	KGs not under PEVS/ KG Scheme	Total	
2014/15	611 (84.2%)	88 (60.3%)	699 (80.2%)	7 (1.0%)	9 (6.2%)	16 (1.8%)	715 (82.0%)
2015/16	628 (85.3%)	90 (65.2%)	718 (82.2%)	7 (1.0%)	1 (0.7%)	8 (0.9%)	726 (83.1%)

School year	Number of serving KG principals holding a bachelor's degree in early childhood education (%)			Number of serving KG principals pursuing a bachelor's degree programme in early childhood education (%)			Total (%)
	KGs under PEVS/ KG Scheme	KGs not under PEVS/ KG Scheme	Total	KGs under PEVS/ KG Scheme	KGs not under PEVS/ KG Scheme	Total	
2016/17	642 (85.9%)	86 (64.2%)	728 (82.6%)	4 (0.5%)	1 (0.7%)	5 (0.6%)	733 (83.2%)
2017/18	648 (87.3%)	89 (69.0%)	737 (84.6%)	2 (0.3%)	1 (0.8%)	3 (0.3%)	740 (85.0%)
2018/19	661 (88.7%)	84 (68.3%)	745 (85.8%)	2 (0.3%)	0 (0.0%)	2 (0.2%)	747 (86.1%)

6. From the 2014/15 to 2018/19 school years, the number of teachers serving at local KGs and holding a certificate in early childhood education and a bachelor's degree in early childhood education and their year-on-year growth rate are tabulated below. We do not collect information on the qualification of master's degree in early childhood education.

School year	Number of serving KG teachers (year-on-year growth rate during a specified period*)	
	Certificate in early childhood education holder	Bachelor's degree in early childhood education holder
2014/15	6 543 (3.7%)	4 380 (13.5%)
2015/16	6 430 (-1.7%)	4 947 (12.9%)
2016/17	6 339 (-1.4%)	5 480 (10.8%)
2017/18	5 989 (-2.7%)	6 119 (14.2%)
2018/19	5 596 (-6.6%)	6 563 (7.3%)

* Year-on-year growth rate is the increase, in percentage terms, in the number of KG teachers holding a certificate in early childhood education/a bachelor's degree in early childhood education or equivalent as compared with that of the preceding school year.

7. From the 2014/15 to 2018/19 school years, the number and percentage of wastage# among teachers in local KGs operating WD, HD and both HD and WD classes; the age distribution and average length of teaching service of such teachers; and the number and percentage of those holding a certificate in early childhood education and a bachelor's degree in early childhood education are tabulated below. We do not collect information on the qualification of master's degree in early childhood education.

(i) Number and percentage of wastage among teachers in local KGs operating WD, HD and both HD and WD classes

School year	Number of drop-out teachers (%) in local KGs		
	KGs operating WD classes only	KGs operating HD classes only	KGs operating both HD and WD classes
2014/15	161 (7.3%)	280 (8.6%)	627 (10.2%)
2015/16	157 (6.8%)	328 (9.2%)	554 (8.9%)
2016/17	232 (9.6%)	416 (10.8%)	663 (10.7%)
2017/18	203 (8.8%)	428 (10.9%)	674 (10.9%)
2018/19	329 (11.9%)	480 (12.1%)	776 (12.6%)

(ii) Age distribution of drop-out teachers in local KGs

2014/15 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
Number of drop-out teachers	359	330	204	146	29	1 068

2015/16 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
Number of drop-out teachers	388	298	179	140	34	1 039

2016/17 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
Number of drop-out teachers	480	362	250	170	49	1 311

2017/18 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
Number of drop-out teachers	447	332	245	212	69	1 305

2018/19 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
Number of drop-out teachers	635	398	265	210	77	1 585

(iii) Average length of service in years of drop-out teachers in local KGs

School year	Average length of service in years
2014/15	12.0
2015/16	11.0
2016/17	11.6
2017/18	12.5
2018/19	11.4

(iv) Number and percentage of drop-out teachers in local KGs holding a certificate in early childhood education and a bachelor's degree in early childhood education

School year	Certificate in early childhood education holder	Bachelor's degree in early childhood education holder
2014/15	464 (43.4%)	225 (21.1%)
2015/16	508 (48.9%)	251 (24.2%)
2016/17	599 (45.7%)	368 (28.1%)
2017/18	629 (48.2%)	383 (29.3%)
2018/19	737 (46.5%)	562 (35.5%)

"Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in local KGs as at mid-September of the preceding school year. "Drop-out teacher" refers to the teacher who had served in a local KG as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

Note: Information provided in this reply is based on the survey on KG teachers/child care staff conducted by the Education Bureau in September of the respective school years. Figures for the 2018/19 school year are provisional.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3979)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide in the tables below the information on students and teachers in different types of kindergartens (KGs) from the 2014/15 to 2018/19 school years.

1. Number of students in different types of KGs from the 2014/15 to 2018/19 school years

	KGs operating half-day classes	KGs operating whole-day classes	KGs operating long whole-day classes
Total number			
Median number			
Highest number			
Lowest number			

2. Different types of KGs from the 2014/15 to 2018/19 school years

Average teacher-to-pupil ratio	Whole-day session	Half-day session	Half-day and whole-day session	Long whole-day session
Under 1:11				
1:11				
1:12 - 1:14				
1:15				
Over 1:15				

3. Highest, lowest and median salaries of KG teachers in different types of KGs from the 2014/15 to 2018/19 school years

	KGs operating half-day classes only	KGs operating both whole-day and half-day classes	KGs operating whole-day classes only	KGs operating long whole-day classes
Highest salary				
Median salary				
Lowest salary				

4. The average and median teacher-to-pupil ratios of KGs operating whole-day classes and long whole-day classes, and the average and median teacher-to-pupil ratios of morning and afternoon sessions of KGs operating half-day classes from the 2014/15 to 2018/19 school years.

5. Highest, lowest and median salaries of KG principals in different types of KGs from the 2014/15 to 2018/19 school years

	KGs operating half-day classes only	KGs operating both whole-day and half-day classes	KGs operating long whole-day classes
Highest salary			
Median salary			
Lowest salary

Reply:

From the 2014/15 to 2018/19 school years, the total, median, highest and lowest numbers of students in local kindergartens (KGs) (including KGs under the kindergarten education scheme (Scheme), non-profit-making KGs not joining the Scheme and private independent KGs not eligible for the Scheme) operating half-day, whole-day and long whole-day classes; the number of KGs with various teacher-to-pupil ratios; the highest, lowest and median salaries of their teachers; the median and average teacher-to-pupil ratios; and the highest, lowest and median salaries of principals are tabulated at Appendices 1 to 5 respectively.

Total, median, highest and lowest numbers of students in local kindergartens (KGs) by KGs operating half-day (HD), whole-day (WD) and long whole-day classes from the 2014/15 to 2018/19 school years

2014/15 School Year

	Number of students in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding former aided child care centres (FACs))	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Total number of students	60 241	1 779	82 720	22 015
Median number of students	259	100	188	88
Highest number of students	1 449	252	1 276	172
Lowest number of students	5	25	17	19

2015/16 School Year

	Number of students in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Total number of students	64 088	1 744	83 497	22 606
Median number of students	270	104	197	90
Highest number of students	1 445	252	1 210	175
Lowest number of students	5	25	20	18

2016/17 School Year

	Number of students in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Total number of students	65 600	1 626	80 408	22 776
Median number of students	263	108	195	90

Lowest number of students	8	25	21	20

2017/18 School Year

	Number of students in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Total number of students	65 020	1 653	77 149	23 210
Median number of students	257	89	179	92
Highest number of students	1 444	268	1 158	191
Lowest number of students	5	13	21	24

2018/19 School Year

	Number of students in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Total number of students	63 143	1 830	72 180	22 742
Median number of students	251	92	160	90
Highest number of students	1 439	271	1 109	208
Lowest number of students	5	4	13	30

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. FACs refer to former aided child care centres operated by the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.

	Over 1:15	8	2	8	1

Notes:

1. Information provided in this reply is based on a questionnaire survey on KG teachers/child-care staff conducted by the Education Bureau in September of the respective school years. Figures for the 2018/19 school year are provisional.
2. Figures only include teachers with Certificate in Early Childhood Education or above qualifications, but do not include principals.
3. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.
4. Under the new KG education policy implemented in the 2017/18 school year, KGs joining the Scheme are required to employ teachers to meet the overall TP ratio of 1:11. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the TP ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced qualified KG teachers already serving in the sector, non-Early Childhood Education (ECE) degree holders, or teachers employed for creating a rich language environment in KGs, etc. (all of the above teachers must be a registered teacher or permitted teacher). We will review the arrangement in the 2019/20 school year to determine whether the flexibility should be granted for a further period. As for individual KGs not complying with the relevant requirements, we have requested the KGs concerned to rectify the situation. The adjustment is not fully reflected in the questionnaire survey mentioned in Note (1).

Appendix 3

Highest, lowest and median salaries of teachers in local kindergartens (KGs)
by KGs operating half-day (HD), whole-day (WD) and long whole-day classes
from the 2014/15 to 2018/19 school years

	Monthly salary of teachers in local KGs (excluding principals) (Note 1) ($)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Highest salary	85,707	41,971	99,881	41,318
Median salary	22,560	26,200	20,000	22,560
Lowest salary	8,900	13,600	8,465	10,766

2017/18 School Year

	Monthly salary of teachers in local KGs (excluding principals) (Notes 1 and 3) ($)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Highest salary	129,080	45,830	96,406	56,700
Median salary	24,692	27,237	22,560	23,970
Lowest salary	8,200	11,580	9,427	11,463

2018/19 School Year (Provisional)

	Monthly salary of teachers in local KGs (excluding principals) (Notes 1 and 3) ($)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Highest salary	86,719	48,540	100,548	46,563
Median salary	26,100	27,340	24,270	25,790
Lowest salary	5,090	8,360	9,410	13,045

Notes:

1. Information provided in this reply is based on a questionnaire survey on KG teachers/child-care staff conducted by the Education Bureau in September of the respective school years.
2. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.
3. The monthly salary of teachers in KGs joining the Scheme, in principle, should not be lower than $21,680 in the 2018/19 school year. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the teacher-to-pupil ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced qualified KG teachers already serving in the sector, non-Early Childhood Education (ECE) degree holders, or teachers employed for creating a rich language environment in KGs, etc. (all of the above teachers must be a registered teacher or permitted teacher). The salary range under the Scheme is not applicable to these teachers as they do not possess Certificate in ECE (C(ECE)) or above qualifications. We will review the arrangement in the 2019/20 school year to determine whether the flexibility should be granted for a further period. As for individual full-time teachers with C(ECE) or above qualifications who receive a salary lower than the above-mentioned minimum threshold, we have requested the KGs to rectify the situation. The KGs will raise the salary of their full-time teachers to not lower than the minimum threshold of $21,680 per month. The adjustment is not fully reflected in the questionnaire survey mentioned in Note (1).

Median and average teacher-to-pupil (TP) ratios in local kindergartens (KGs)
by KGs operating half-day (HD), whole-day (WD) and long whole-day classes
from the 2014/15 to 2018/19 school years

2014/15 School Year

	TP ratio in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding former aided child care centres (FACs))	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Average ratio in morning (AM) session	1:11.9	1:13.3	1:13.0	1:11.3
Average ratio in afternoon (PM) session	1:10.6	1:12.6	1:9.3	1:11.2
Median ratio in AM session	1:11.2	1:12.1	1:12.7	1:11.1
Median ratio in PM session	1:10.3	1:12.1	1:9.0	1:11.1

2015/16 School Year

	TP ratio in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)

Average ratio in PM session	1:9.6	1:12.6	1:9.2	1:11.0
Median ratio in AM session	1:11.1	1:11.2	1:12.4	1:10.8
Median ratio in PM session	1:9.8	1:11.7	1:9.0	1:10.7

2016/17 School Year

	TP ratio in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Average ratio in AM session	1:11.0	1:10.2	1:12.2	1:10.3
Average ratio in PM session	1:9.4	1:10.2	1:8.7	1:10.3
Median ratio in AM session	1:10.8	1:10.8	1:11.9	1:10.1
Median ratio in PM session	1:9.6	1:10.8	1:8.7	1:10.1

2017/18 School Year

	TP ratio in local KGs (Notes 1 and 3)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Average ratio in AM session	1:11.2	1:10.2	1:11.8	1:9.8
Average ratio in PM session	1:9.3	1:10.2	1:8.5	1:9.8
Median ratio in AM session	1:10.4	1:9.6	1:11.4	1:9.6
Median ratio in PM session	1:9.4	1:9.6	1:8.5	1:9.6

2018/19 School Year (Provisional)

	TP ratio in local KGs (Notes 1 and 3)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Average ratio in AM session	1:10.4	1:10.4	1:11.5	1:9.4
Average ratio in PM session	1:8.6	1:10.5	1:8.3	1:9.5
Median ratio in AM session	1:10.1	1:10.5	1:11.1	1:9.2
Median ratio in PM session	1:8.7	1:10.5	1:8.3	1:9.2

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.
3. Under the Scheme, KGs are required to employ teachers to meet the required overall TP ratio of 1:11, which is calculated based on the total number of students in all class levels in mid-September. Schools may flexibly deploy teachers to work in different sessions.

Appendix 5

Highest, lowest and median salaries of principals in local kindergartens (KGs) by KGs operating half-day (HD), whole-day (WD) and long whole-day classes from the 2015/16 to 2018/19 school years (Note 1)

2015/16 School Year

	Monthly salary of principals in local KGs (Note 2) ($)			
	KGs operating HD classes only	KGs operating WD classes only (excluding former aided child care centres (FACs))	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 3)
Highest salary	75,000	51,805	101,620	56,820
Median salary	39,370	37,590	36,526	37,590
Lowest salary	19,330	30,000	12,760	23,285

2016/17 School Year

	Monthly salary of principals in local KGs (Note 2) ($)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 3)
Highest salary	71,207	50,000	115,000	65,150
Median salary	41,215	41,248	39,350	39,350

2017/18 School Year

	Monthly salary of principals in local KGs (Note 2) ($)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 3)
Highest salary	78,328	110,000	126,000	62,225
Median salary	47,095	44,774	45,040	45,056
Lowest salary	26,000	35,000	16,000	26,700

2018/19 School Year (Provisional)

	Monthly salary of principals in local KGs (Note 2) ($)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 3)
Highest salary	141,985	63,930	138,600	66,945
Median salary	50,825	46,820	48,000	48,540
Lowest salary	22,600	21,680	20,800	40,000

Notes:

1. As we have not collected the information regarding the salary of principals in the 2014/15 school year, the relevant information for this school year is not available.
2. Information provided in this reply is based on a questionnaire survey on KG teachers/child-care staff conducted by the Education Bureau in September of the respective school years.
3. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3980)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information regarding Pre-primary Education Voucher Scheme or Free Quality Kindergarten Education Scheme for the school years from 2014/15 to 2018/19:

(1) the respective amount of government subsidies and various expenditures on early childhood education (including fee remission, training and rental subsidy, etc.);

(2) the number kindergartens (KGs) operating whole-day service and the number of places provided by these KGs (please list by school district and provide the total);

(3) the number of KGs operating long whole-day service, the number of places provided by these KGs and the number of these KGs providing Extended Hours Service (please list by school district and provide the total);

(4) the number of KGs operating half-day service and the number of places provided by these KGs (please list by school district and provide the total);

(5) the number of KGs operating both whole-day and half-day services and the number of places provided by these KGs (please list by school district and provide the total);

(6) the number of places provided by KGs operating whole-day, half-day and long whole-day services and the rate of increase/decrease between 2017/18 and 2018/19 school years (please list by school district and provide the total);

(7) the number of KGs receiving subsidies that have reduced the number of whole-day places in the 2018/19 school year, and if any, the reasons for reduction (please give details under the categories of whole-day KGs, mixed (half-day and whole-day) KGs and long whole-day KGs); and

(8) the ratio of the places provided by half-day, whole-day and long whole-day KGs that have joined the Free Quality Kindergarten Education Scheme in the 2017/18 and 2018/19 school years (please provide the overall ratio and list by school district); whether the Administration has any specific plan to improve the ratio governing the provision of whole-day and half-day KG places as set out in the Hong Kong Planning Standards and Guidelines.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 68)

Reply:

(1) The breakdown of expenditures on pre-primary education from 2014-15 to 2018-19 is tabulated in Appendix 1.

(2) From the 2014/15 to 2018/19 school years, the number of whole-day (WD) kindergartens (KGs) (excluding former aided child care centres (FACs)) under the Pre-primary Education Voucher Scheme (PEVS)/the kindergarten education scheme (KG Scheme) with the number of school places (by District Council district) and the respective total of each year are tabulated in Appendix 2.

(3) From the 2014/15 to 2018/19 school years, the number of long whole-day (LWD) KGs under PEVS/KG Scheme with the number of school places, and the number of these KGs providing Extended Hours Service (EHS) (by District Council district) and the respective total of each year are tabulated in Appendix 3.

(4) From the 2014/15 to 2018/19 school years, the number of half-day (HD) KGs under PEVS/KG Scheme with the number of school places (by District Council district) and the respective total of each year are tabulated in Appendix 4.

(5) From the 2014/15 to 2018/19 school years, the number of KGs providing both WD/LWD and HD services under PEVS/KG Scheme with the number of school places (by District Council district) and the respective total of each year are tabulated in Appendix 5.

(6)&(8)

In the 2017/18 and 2018/19 school years, the number of school places provided by KGs offering HD, WD (excluding FACs) and LWD services, percentage share of these school places and the relevant rate of increase/decrease are tabulated in Appendix 6.

According to the Hong Kong Planning Standards and Guidelines (HKPSG), the need for setting up KGs is taken into account in housing estates and large-scale private development projects where space is allocated for such uses. Under the new KG Scheme which was launched in the 2017/18 school year, the Education Bureau has revised the relevant part of HKPSG. For every 1 000 children in the age group of 3 to under 6, the planning standards for provision of KG places have been revised from 730 HD and 250 WD places to 500 HD and 500 WD places respectively.

(7) In the 2018/19 school year, a total of 153 KGs joining the KG Scheme reduced the number of WD/LWD places. Among these KGs, the respective numbers of those offering WD/LWD services only and offering both HD and WD/LWD services were 112 and 41. KGs in Hong Kong operate in a flexible manner. Some KGs increase/reduce their provision of WD places mainly to flexibly cater for parents' needs. We have not conducted any separate analysis on the provision of the relevant school places by KGs.

Breakdown of expenditures on pre-primary education from 2014-15 to 2018-19

	2014-15	2015-16	2016-17	2017-18	2018-19
	($ million) (Actual)	($ million) (Actual)	($ million) (Actual)	($ million) (Actual)	($ million) (Revised Estimate)
PEVS (Note 1)	2,535.7	2,957.2	3,194.0	1,126.9	21.1
KG Scheme (Note 2)	N.A.	N.A.	210.8	3,903.5	6,041.2
The Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS)	539.9	529	592.5	378.9	276.7
Refund of rent, rates and government rent (Note 3)	238	256.3	276.0	128.8	7.4
Principal and teacher training (Note 4)	3.7	1.5	1.7	2.7	4.6

Note 1: The expenditures in 2017-18 reflect the expenditure on PEVS before the implementation of the KG Scheme (i.e. from April 2017 to August 2017), and the expenditures under the transitional arrangements for the 7 and 6 KGs joining PEVS in the 2016/17 school year but not joining the KG Scheme in the 2017/18 and 2018/19 school years respectively. Eligible students studying in these KGs who remain in the eligible classes under PEVS will continue to receive the voucher subsidy under PEVS until they leave the KGs concerned.

Note 2: The expenditures in 2016-17 and 2017-18 reflect the expenditure for the first 8 months after the implementation of the KG Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018), and the one-off start-up grant provided in 2016-17 and 2017-18 for Scheme-KGs. The expenditure in 2018-19 is the expenditure on the Scheme for the whole year.

Note 3: The expenditures in 2014-15 to 2017-18 reflect the expenditure on the rent reimbursed to non-profit-making (NPM) KGs under the Non-profit-making Kindergarten Rent Reimbursement Scheme in the 2017/18 school year before the KG Scheme was implemented (i.e. from April to August 2017). Starting from the 2017/18 school year, expenditure on rental subsidy and reimbursement of rates and government rent for Scheme-KGs are subsumed under the overall expenditure of the KG Scheme. NPM KGs not joining the KG Scheme can continue to be reimbursed for rates and government rent.

Note 4: Since 2017/18 is the first school year after the introduction of KG Scheme, KGs need time to adapt to the new Scheme. Therefore, relevant training programmes were rolled out in the latter part of the school year. Part of the expenditure cannot be fully reflected in 2017-18.

Appendix 2

Number of WD KGs under PEVS/KG Scheme (excluding FACs) with number of school places (by District Council district) and the respective total of each year from the 2014/15 to 2018/19 school years

District	2014/15		2015/16		2016/17		2017/18		2018/19

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3981)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the 2017/18 and 2018/19 school years:

1. the average salary, median salary, highest salary, lowest salary and salary rise of teachers in kindergartens (KGs) operating whole-day and half-day classes under the Free Quality Kindergarten Education Scheme;

2. the average salary, median salary, highest salary, lowest salary and salary rise of principals in KGs operating whole-day classes and KGs operating half-day classes under the Free Quality Kindergarten Education Scheme;

3. the average salary, median salary, highest salary, lowest salary and salary rise of teachers and principals in local private independent KGs and KGs operating whole-day and half-day classes; and

4. the median annual salary and annual salary rise of teachers in KGs operating whole-day classes under the Free Quality Kindergarten Education Scheme.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 67)

Reply:

1. From the 2017/18 to 2018/19 school years, the average salary rise of teachers in kindergartens (KGs) operating half-day (HD), whole-day (WD), and both HD and WD classes under the KG education scheme (Scheme) is 6.5%, 8.0% and 7.2% respectively. Their average salary, median salary, highest salary and lowest salary are tabulated below:

	Monthly salary of teachers in KGs under the Scheme					
	KGs operating HD classes only		KGs operating WD classes only		KGs operating both HD and WD classes	
	2017/18 school year ($)	2018/19 school year ($)	2017/18 school year ($)	2018/19 school year ($)	2017/18 school year ($)	2018/19 school year ($)
Average salary	26,162	27,862	25,801	27,860	24,307	26,062
Median salary	24,620	25,790	23,970	25,790	22,560	24,270
Highest salary	72,445	70,340	56,700	48,540	54,230	63,930
Lowest salary	10,500	10,840	11,463	8,360	9,427	9,410

2. From the 2017/18 to 2018/19 school years, the average salary rise of principals in KGs operating HD, WD, and both HD and WD classes under the Scheme is 6.2%, 8.4% and 7.2% respectively. Their average salary, median salary, highest salary and lowest salary are tabulated below:

	Monthly salary of principals in KGs under the Scheme					
	KGs operating HD classes only		KGs operating WD classes only		KGs operating both HD and WD classes	
	2017/18 school year ($)	2018/19 school year ($)	2017/18 school year ($)	2018/19 school year ($)	2017/18 school year ($)	2018/19 school year ($)
Average salary	47,329	50,262	44,974	48,736	45,820	49,118
Median salary	47,240	50,825	44,881	48,540	45,120	48,154
Highest salary	61,170	64,705	62,225	66,945	126,000	138,600
Lowest salary	26,875	22,600	26,700	21,680	16,000	35,100

3.(i) From the 2017/18 to 2018/19 school years, the average salary rise of teachers in local private independent KGs operating HD, WD, and both HD and WD classes is 6.7%, 5.4% and 2.7% respectively. Their average salary, median salary, highest salary and lowest salary are tabulated below:

	Monthly salary of teachers in local private independent KGs					
	KGs operating HD classes only		KGs operating WD classes only		KGs operating both HD and WD classes	
	2017/18 school year ($)	2018/19 school year ($)	2017/18 school year ($)	2018/19 school year ($)	2017/18 school year ($)	2018/19 school year ($)
Average salary	26,403	28,167	24,439	25,749	23,177	23,799
Median salary	24,760	26,700	23,270	25,060	20,000	21,000
Highest salary	129,080	86,719	37,570	40,420	82,572	88,744
Lowest salary	8,200	11,000	17,000	20,770	10,800	11,000

(ii) As local private independent KGs are small in number, providing the salary of KG principals under the categories of HD, WD and both HD and WD KGs will be misleading. It is more appropriate to give an overall picture of the situation in the territory. From the 2017/18 to 2018/19 school years, the average salary rise of principals in local private independent KGs is 8.6%. Their average salary, median salary, highest salary and lowest salary are tabulated below:

	Monthly salary of principals in local private independent KGs	
	2017/18 school year ($)	2018/19 school year ($)
Average salary	48,636	52,806
Median salary	43,000	42,650
Highest salary	110,000	141,985
Lowest salary	20,800	20,800

4. Same as other KG teachers, teachers serving in KGs operating WD classes under the Scheme are generally paid on a monthly basis. Their median salary and average salary rise are set out in paragraph 1 above. We have not separately collected the information on their annual salary.

Notes:

(1) The figures reflect the position as at mid-September of the respective school year. Information provided in this reply is based on the survey on KG teachers/child care staff conducted by the Education Bureau in September of the respective school year. Figures for the 2018/19 school year are provisional. We are following up the cases in which salaries offered by KGs under the Scheme do not fall within the salary ranges.

(2) The monthly salary of teachers in KGs joining the Scheme, in principle, should not be lower than $21,680 in the 2018/19 school year. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the teacher-to-pupil ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced Qualified Kindergarten Teachers already serving in the sector, non-Early Childhood Education (ECE) degree-holders, teachers employed for creating a rich language environment in schools, etc. (all of the above teachers must be a registered teacher or permitted teacher). The salary range under the Scheme is not applicable to these teachers as they do not possess Certificate in ECE (C(ECE)) or above qualifications. We will review the arrangement in the 2019/20 school year to determine whether the flexibility should be granted for a further period. As for individual full-time teachers with C(ECE) or above qualifications who receive a salary lower than the above-mentioned minimum threshold, we have requested the KGs to rectify the situation. The KGs will raise the salary of their full-time teachers to not lower than the minimum threshold of $21,680 per month. The adjustment is not fully reflected in the questionnaire survey mentioned in Note (1).

(3) In respect of the salary of principals, starting from the 2009/10 school year, all newly-appointed KG principals must hold a degree in early childhood education (BEd(ECE)) or its equivalent, at least 1 year relevant post-qualification experience and complete a certificate course on principalship. In general, a person who was once appointed as a KG principal and has left the post for less than 3 months is not considered a newly-appointed principal when being re-appointed as a KG principal. The salary range of principals is not applicable to principals who do not possess the relevant qualifications.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3982)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the 2014/15 to 2018/19 school years:

(1) the respective number of whole-day, half-day and long whole-day kindergarten students receiving subsidy under the Pre-primary Education Voucher Scheme (PEVS) or the Free Quality Kindergarten Education Scheme (KG Scheme), and the respective number of whole-day, half-day and long whole-day kindergarten students under the PEVS/KG Scheme who still need to pay school fees in excess of the voucher value or subsidy received, their percentage share and the average extra amount of school fees paid;

(2) the respective number of half-day kindergarten students receiving subsidy under the PEVS or the KG Scheme who need to pay the extra amount of school fees and their percentage share, with a breakdown by the following: below $100; $100 to below $400; $400 to below $700; $700 to below $1,000; $1,000 to below $1,300; $1,300 to below $1,600; $1,600 or above;

(3) the respective number of whole-day kindergarten students receiving subsidy under the PEVS or the KG Scheme who need to pay the extra amount of school fees and their percentage share, with a breakdown by the following: below $500; $500 to below $1,000; $1,000 to below $2,000; $2,000 to below $3,000; $3,000 to below $4,000; $4,000 or above;

(4) the respective number of long whole-day kindergarten students receiving subsidy under the PEVS or the KG Scheme who need to pay the extra amount of school fees and their percentage share, with a breakdown by the following: below $500; $500 to below $1,000; $1,000 to below $2,000; $2,000 to below $3,000; $3,000 to below $4,000; $4,000 or above; and

(5) the respective amount of subsidies allocated to the PEVS and the KG Scheme, and other expenditures on early childhood education (including the Kindergarten and Child Care Centre Fee Remission Scheme, training for principals and teachers, and subsidies on rent, rates and government rent) from the 2014/15 to 2018/19 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 69)

Reply:

(1), (2), (3) and (4)
The information requested in (1) to (4) above is tabulated at Appendix 1. Under the Pre-primary Education Voucher Scheme (PEVS), non-means-tested direct fee subsidy, in the form of voucher, is provided for parents with children studying in eligible kindergartens (KGs) to defray school fees. The kindergarten education scheme (KG Scheme) has been launched with effect from the 2017/18 school year. The policy objectives are to provide good quality and highly affordable KG education, and enhance the accessibility of students to different modes of services that suit their specific needs. Under PEVS and the KG Scheme, fee remission is provided for KG children from needy families under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS).

(5)
The breakdown of the expenditures on pre-primary education from 2014-15 to 2018-19 is tabulated at Appendix 2.

(1) The number of whole-day (WD), half-day (HD) and long whole-day (LWD) (Note 1) KG students under the PEVS from the 2014/15 to 2016/17 school years and the KG Scheme from the 2017/18 to 2018/19 school years is tabulated below:

	2014/15 school year			2015/16 school year			2016/17 school year			2017/18 school year			2018/19 school year (provisional)		
	HD	WD	LWD	HD	WD	LWD	HD	WD	LWD	HD	WD	LWD	HD	WD	LWD
(i) Number of students under the PEVS/KG Scheme	90 427	22 003	20 870	95 548	22 134	21 518	95 781	22 484	21 648	91 044	23 823	23 074	84 391	24 907	22 637
(ii) Number of students who need to pay school fees on top of the subsidy	77 979	22 003	20 838	80 462	22 089	21 494	82 531	22 470	21 626	8 530	20 752	20 235	8 878	21 933	20 904
(iii) Number of students who need to pay school fees on top of full fee remission (Note 2)	71 977	31 112		73 886	32 311		75 379	32 856		8 119	31 122		8 563	33 687	
(iv) Percentage (%) of (iii) over (i)	79.6%	72.6%		77.3%	74.0%		78.7%	74.4%		8.9%	66.4%		10.1%	70.9%	
(v) Average annual school fees on top of the subsidy (Note 3)	$4,743	$17,380	$17,841	$4,875	$18,111	$19,270	$5,651	$20,075	$22,683	$3,000	$8,100	$11,100	$3,700	$8,700	$11,600

Notes:

(1) Referring to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services; they usually operate longer service hours.

(2) Since the applicants for fee remission are not required to indicate whether they are enrolled in long whole-day classes, we do not have a breakdown of the number of whole-day and long whole-day students.

(3) The average annual school fees are calculated based on the number of student in item (ii) of the table.

(2) The number of HD KG students under the PEVS from the 2014/15 to 2016/17 school years and the KG Scheme from the 2017/18 to 2018/19 school years who need to pay school fees is tabulated below:

Range of annual school fees on top of the subsidy	2014/15 school year		2015/16 school year		2016/17 school year		2017/18 school year		2018/19 school year (provisional)	
	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)
Below $100	576	0.74	993	1.23	163	0.20	109	1.28	100	1.13
$100 – below $400	1 665	2.13	2 784	3.46	1 541	1.87	82	0.96	60	0.68
$400 – below $700	3 647	4.68	3 684	4.58	970	1.18	921	10.80	0	0
$700 – below $1,000	1 494	1.92	2 139	2.66	3 447	4.18	229	2.68	99	1.12
$1,000 – below $1,300	4 214	5.40	2 714	3.37	2 150	2.61	428	5.02	279	3.15
$1,300 – below $1,600	2 294	2.94	3 988	4.96	1 920	2.33	596	6.99	702	7.91
$1,600 or above	64 089	82.19	64 160	79.74	72 340	87.65	6 165	72.27	7 638	86.03

Notes:

1. The number of students shown above includes students granted fee remission.
2. The percentages shown above are calculated based on the number of students who still need to pay school fees in excess of the government subsidy received.

(3) The number of WD KG students under the PEVS from the 2014/15 to 2016/17 school years and the KG Scheme from the 2017/18 to 2018/19 school years who need to pay school fees is tabulated below:

Range of annual school fees on top of the subsidy	2014/15 school year		2015/16 school year		2016/17 school year		2017/18 school year		2018/19 school year (provisional)	
	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)
Below $500	0	0.00	0	0.00	0	0.00	230	1.11	196	0.89
$500 – below $1,000	0	0.00	0	0.00	133	0.59	245	1.18	32	0.15
$1,000 – below $2,000	3	0.01	120	0.54	28	0.12	1 282	6.18	839	3.83
$2,000 – below $3,000	0	0.00	65	0.29	0	0.00	1 197	5.77	1 488	6.78
$3,000 – below $4,000	122	0.55	21	0.10	8	0.04	1 547	7.45	1 172	5.34
$4,000 or above	21 878	99.43	21 883	99.07	22 301	99.25	16 251	78.31	18 206	83.01

Notes:

1. The number of students shown above includes students granted fee remission.
2. The percentages shown above are calculated based on the number of students who still need to pay school fees in excess of the government subsidy received.

(4) The number of LWD KG students under the PEVS from the 2014/15 to 2016/17 school years and the KG Scheme from the 2017/18 to 2018/19 school years who need to pay school fees is tabulated below:

Range of annual school fees on top of the subsidy	2014/15 school year		2015/16 school year		2016/17 school year		2017/18 school year		2018/19 school year (provisional)	
	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)
Below $500	0	0.00	0	0.00	0	0.00	0	0	0	0
$500 – below $1,000	0	0.00	0	0.00	0	0.00	136	0.67	185	0.88
$1,000 – below $2,000	29	0.14	20	0.09	3	0.01	258	1.28	357	1.71
$2,000 – below $3,000	85	0.41	60	0.28	0	0.00	246	1.22	67	0.32
$3,000 – below $4,000	112	0.54	147	0.68	114	0.53	705	3.48	688	3.29
$4,000 or above	20 612	98.92	21 267	98.94	21 509	99.46	18 890	93.35	19 607	93.80

Notes:

1. The number of students shown above includes students granted fee remission.
2. The percentages shown above are calculated based on the number of students who still need to pay school fees in excess of the government subsidy received.

The breakdown of expenditures on pre-primary education from 2014-15 to 2018-19 is as follows:

		2014-15	2015-16	2016-17	2017-18	2018-19
		($ million) (Actual)	($ million) (Actual)	($ million) (Actual)	($ million) (Actual)	($ million) (Revised Estimate)
(i)	PEVS (Note 1)	2,535.7	2,957.2	3,194.0	1,126.9	21.1
(ii)	KG Scheme (Note 2)	N.A.	N.A.	210.8	3,903.5	6,041.2
(iii)	KCFRS	539.9	529.0	592.5	378.9	276.7
(iv)	Refund of rent, rates and government rent (Note 3)	238	256.3	276.0	128.8	7.4
(v)	Principal and teacher training (Note 4)	3.7	1.5	1.7	2.7	4.6

Note 1: The expenditure in 2017-18 reflect the expenditure on PEVS before the implementation of the KG Scheme (i.e. from April 2017 to August 2017), and the expenditure under the transitional arrangements for 7 and 6 KGs joining PEVS in the 2016/17 school year but not joining the KG Scheme in the 2017/18 and 2018/19 school years respectively. Eligible students studying in these KGs who remain in the eligible classes under PEVS will continue to receive the voucher subsidy under PEVS until they leave the KGs concerned.

Note 2: The expenditure in 2016-17 and 2017-18 reflect the expenditure for the first 8 months after the implementation of the KG Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018), and the one-off start-up grant provided in the 2016-17 and 2017-18 for Scheme-KGs. The expenditure in 2018-19 is the expenditure on the Scheme for the whole year.

Note 3: The expenditure in 2014-15 to 2017-18 reflect the expenditure on the rent reimbursed to non-profit-making (NPM) KGs under the Non-profit-making Kindergarten Rent Reimbursement Scheme, and the full-year rates and government rent reimbursed to NPM KGs before the implementation of the KG Scheme in the 2017/18 school year (i.e. from April 2014 to August 2017). Starting from the 2017/18 school year, expenditure on rental subsidy and reimbursement of rates and government rent for Scheme-KGs are subsumed under the overall expenditure of the KG Scheme. NPM KGs not joining the Scheme can continue to be reimbursed for rates and government rent.

Note 4: Since 2017/18 is the first school year in implementing the KG Scheme, KGs need time to adapt to the new Scheme. Therefore, relevant training programmes are introduced in the latter part of the school year. Part of the expenditure cannot be fully reflected in 2017-18.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3983)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the school years from 2016/17 to 2018/19:

(a) the actual average student-to-teacher and teacher-to-class ratios in government, aided and private primary and secondary schools, special schools, Direct Subsidy Scheme schools and international schools;

(b) the numbers of regular teachers, teachers on defined contract period (DCP) terms, associate teachers/assistant teachers and teaching assistants in public sector primary, secondary and special schools;

(c) the numbers of staff within and outside the establishment of public sector primary and secondary schools with a breakdown by the specified type below; and

	2016/17		2017/18		2018/19	
	Sub-total	Total	Sub-total	Total	Sub-total	Total
Aided Primary Schools						
Teachers within establishment						
Regular teachers						
Regular teachers employed on DCP terms						
Teachers outside establishment						

Aided Secondary Schools						
Teachers within establishment						
Regular teachers						
Regular teachers employed on DCP terms						
Teachers outside establishment						
Government Primary Schools						
Teachers within establishment						
Regular teachers						
Teachers outside establishment						
Government Secondary Schools						
Teachers within establishment						
Regular teachers						
Teachers outside establishment						
Special Schools						
Teachers within establishment						
Regular teachers						
Regular teachers employed on DCP terms						
Teachers outside establishment						

(d) the average number of teaching periods and the total number of full-year teaching hours of teachers in government, aided and private primary and secondary schools.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 73)

Reply:

(a) The average student-to-teacher ratio and the average teacher-to-class ratio in public sector and private primary and secondary schools, special schools, Direct Subsidy Scheme (DSS) schools and international schools (including schools under English Schools Foundation) for the school years from 2016/17 to 2018/19 are tabulated below:

Student-to-Teacher Ratio

	2016/17	2017/18	2018/19 (Estimate)
Government Primary Schools	14.7 : 1	14.0 : 1	13.9 : 1
Government Secondary Schools	13.1 : 1	12.7 : 1	12.6 : 1
Aided Primary Schools	14.2 : 1	13.8 : 1	13.6 : 1
Aided Secondary Schools	11.8 : 1	11.5 : 1	11.3 : 1
Private Primary Schools*	15.6 : 1	15.7 : 1	15.2 : 1
Private Secondary Schools*	11.9 : 1	11.9 : 1	11.9 : 1
Caput Secondary Schools	13.6 : 1	13.2 : 1	12.9 : 1
Special Schools	4.6 : 1	4.2 : 1	4.3 : 1
DSS Schools*	11.5 : 1	11.3 : 1	11.3 : 1
International Schools*	10.8 : 1	10.8 : 1	10.5 : 1

Teacher-to-Class Ratio

	2016/17	2017/18	2018/19 (Estimate)
Government Primary Schools	1.8 : 1	1.9 : 1	1.9 : 1
Government Secondary Schools	2.3 : 1	2.3 : 1	2.3 : 1
Aided Primary Schools	1.9 : 1	2.0 : 1	2.0 : 1
Aided Secondary Schools	2.4 : 1	2.4 : 1	2.4 : 1
Private Primary Schools*	1.9 : 1	1.9 : 1	1.9 : 1
Private Secondary Schools*	1.7 : 1	1.7 : 1	1.7 : 1
Caput Secondary Schools	2.3 : 1	2.3 : 1	2.4 : 1
Special Schools	2.2 : 1	2.4 : 1	2.4 : 1
DSS Schools*	2.5 : 1	2.6 : 1	2.6 : 1
International Schools*	2.1 : 1	2.1 : 1	2.2 : 1

* The student-to-teacher ratio and the teacher-to-class ratio vary among individual DSS schools, private schools and international schools.

Note: The student-to-teacher ratio and the teacher-to-class ratio listed above are calculated on the basis of the total number of teachers (i.e. including teachers within and outside the establishment) in school.

(b) The posts on the approved teaching establishment of public sector schools are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. The number of regular teachers (rounded to the nearest 10) in public sector schools for the school years from 2016/17 to 2018/19 is tabulated below:

Regular Teachers

	2016/17	2017/18	2018/19 (Estimate)
Government Primary Schools	1 210	1 220	1 290
Government Secondary Schools	1 390	1 380	1 430
Aided Primary Schools	16 550	17 920	18 490
Aided Secondary Schools	18 260	18 610	18 410
Caput Secondary Schools	90	90	80
Special Schools	1 640	1 810	1 820

The number of regular teachers (rounded to the nearest 10) on defined contract period (DCP) terms in aided schools for the school years from 2016/17 to 2018/19 is tabulated below:

Regular Teachers on DCP Terms

	2016/17	2017/18	2018/19 (Estimate)
Aided Primary Schools	340	410	410
Aided Secondary Schools	820	850	710

Note: Schools should not employ regular teachers on DCP terms unless they have actual operational needs and cogent reasons, and there are no teachers on DCP terms in government schools and caput schools. Besides, the Education Bureau (EDB) does not keep information on regular teachers employed on DCP terms by special schools.

As at January this year, the number of teaching assistants (rounded to the nearest 10) in public sector primary and secondary schools and special schools collected via the EDB e-Services Portal is tabulated below:

Teaching Assistants (TAs)

	No. of TAs*
Government Primary Schools	50
Government Secondary Schools	20
Aided Primary Schools	370
Aided Secondary Schools	440
Caput Secondary Schools	10
Special Schools	30

* Estimate for the 2018/19 school year.

As the EDB does not collect information on associate teachers/assistant teachers in public sector primary and secondary schools and special schools, relevant statistics are unavailable.

(c) The respective number of teachers (rounded to the nearest 10) within and outside the approved teaching establishment of aided and government schools is tabulated below:

		2016/17		2017/18		2018/19 (Estimate)	
		Sub-total	Total	Sub-total	Total	Sub-total	Total
Aided Primary Schools							
Teachers Within Establishment	Regular Teachers*	16 210	16 550	17 510	17 920	18 080	18 490
	Regular Teachers on DCP Terms	340		410		410	
Teachers Outside Establishment		-	1 850	-	1 760	-	1 960
Aided Secondary Schools							
Teachers Within Establishment	Regular Teachers*	17 440	18 260	17 770	18 610	17 710	18 410
	Regular Teachers on DCP Terms	820		850		710	
Teachers Outside Establishment		-	2 500	-	2 100	-	2 300
Government Primary Schools							
Teachers Within Establishment	Regular Teachers*	-	1 210	-	1 220	-	1 290
Teachers Outside Establishment		-	290	-	390	-	380
Government Secondary Schools							
Teachers Within Establishment	Regular Teachers*	-	1 390	-	1 380	-	1 430
Teachers Outside Establishment		-	250	-	270	-	210

		2016/17		2017/18		2018/19 (Estimate)	
		Sub-total	Total	Sub-total	Total	Sub-total	Total
Special Schools							
Teachers Within Establishment	Regular Teachers*	-	1 640	-	1 810	-	1 820
Teachers Outside Establishment		-	50	-	40	-	60

* Including regular teachers on permanent terms and Native-speaking English Teachers.

(d) The average number of teaching periods per cycle for teachers in government and aided primary and secondary schools for the school years from 2016/17 to 2018/19 is tabulated below. The EDB does not have information on the average number of teaching periods for teachers in private primary and secondary schools.

Average Number of Teaching Periods Per Cycle Per Teacher*

	2016/17	2017/18	2018/19 (Estimate)
Government Secondary School Teachers	24	24	24
Government Primary School Teachers	26	25	25
Aided Secondary School Teachers	25	25	25
Aided Primary School Teachers	26	25	25

* In compiling the above figures, principals and teachers without teaching periods are excluded. The number of school days per cycle (ranging from 5 to 10 days) and the length of each teaching period may vary from school to school. Also, the number of school days per cycle may vary across school years.

Note: The EDB does not keep track of the actual numbers of teaching days and teaching hours per period per teacher. Hence, statistics on the total number of full-year teaching hours of teachers are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3984)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2017/18 school year, the Government has provided an Assistant Primary School Master/Mistress (APSM) (Curriculum Development) to special schools that operate less than six approved primary classes to support curriculum development. Please advise on the following:

1. the details of the measure, the expenditure in the last 2 school years and the estimated expenditure in the 2019/20 school year; and

2. whether there are primary schools that have cut the ratio or percentage of graduate teacher posts because of the new measure and the ceiling if limiting the ratio of APSM to 65%; if yes, what are the details.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 74)

Reply:

1. Starting from the 2017/18 school year, a Primary School Curriculum Leader post at the rank of Assistant Primary School Master/Mistress is provided to special schools operating 1 to 5 primary classes to replace the provision of the Curriculum Leadership Grant. A total of 28 and 27 special schools have benefited from the measure in the 2017/18 and 2018/19 school years respectively. It is expected that around the same number of schools will benefit in the 2019/20 school year and the estimated additional annual expenditure will be around $11 million.

2. The Education Bureau (EDB) has been calculating the number of graduate teacher posts for public sector mainstream primary schools and primary section of special schools in each school year based on the stipulated ratio of graduate teacher posts. Similarly, in the 2017/18 and 2018/19 school years, the EDB has calculated the number of graduate teacher

posts for primary section of special schools operating 1 to 5 primary classes and entitled to the provision of a Primary School Curriculum Leader based on the stipulated ratio (i.e. graduate teacher posts accounting for 65% of the teaching posts). Under most circumstances, when a school has expanded its establishment, the number of graduate teacher posts, accounting for 65% of the establishment, will increase accordingly. However, there are cases where the establishment of individual schools is too small, their number of graduate teacher posts, while holding at 65% of the new establishment, remains unchanged even when their total number of teachers has increased by 1.

As the Chief Executive announced in the 2018 Policy Address, the all-graduate teaching force policy would be implemented in public sector primary and secondary schools (including special schools) in one go in the 2019/20 school year. Schools may, taking into account their school-based circumstances, achieve full implementation in two years. Hence, the ratio of graduate teacher posts for primary section of special schools will be enhanced from 65% to 100%. In other words, all teaching posts within the approved establishment will be graduate teacher posts, regardless of the size of establishment.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Regarding duty visits outside Hong Kong made by the Secretary for Education, Under Secretary for Education, Political Assistant to Secretary for Education and Permanent Secretary for Education in their official capacities, please provide the date of visit, purpose of visit, size of entourage, related expenditure and details in the 5 financial years from 2014-15 to 2018-19, as well as the estimate in this regard for the 2019-20 financial year.

(b) Regarding meetings held between officials of the Education Bureau and those of the Ministry of Education, please provide the number and place of visits, as well as the expenditure incurred in the 5 financial years from 2014-15 to 2018-19.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 75)

Reply:

(a) Information about duty visits outside Hong Kong made by the Secretary for Education (SED) and Political Assistant to SED, Under Secretary for Education as well as Permanent Secretary for Education (PS(Ed)) from 2014-15 to 2018-19 is at Annexes A to C respectively. For 2019-20, about $160,000 is earmarked for the Office of SED and PS(Ed) for expenditure on duty visits.

(b) The Education Bureau maintains necessary working relationship with the officials of the Ministry of Education with a view to ensuring mutual understanding and effective exchanges. We do not keep a separate account to capture expenditure on meetings with them.

Duty visits outside Hong Kong made by Secretary for Education (SED)

(1) From 1 April 2014 to 30 June 2017

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 3)	**(B) Expenses on air passage** ($) (Note 4)	**(C) Other expenses** ($) (Note 5)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3986)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office, (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

At present, how many funds and scholarship schemes are available under the various authorities administered by the Secretary for Education, such as the Education Bureau, the Working Family and Student Financial Assistance Agency, the University Grants Committee, etc.? Please give a breakdown of these funds and scholarship schemes by the year of establishment, aim and assessor as well as the balance, income, expenditure and number of beneficiaries in each of the past 5 years (from 2014/15 to 2018/19).

Asked by: Hon IP Kin-yuen (Member Question No. (LegCo use): 76)

Reply:

Details of the scholarship schemes and funds set up with public money under the purview of the Education Bureau (EDB) are set out in the attached tables.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School/ Academic Year	Balance ($ million)	Income ($ million)	Expenditure ($ million)	Number of Beneficiaries
Language Fund	1994	To provide financial support for projects and activities which aim at improving Hong Kong people's proficiency in Chinese (including Putonghua) and English.	The Standing Committee on Language Education and Research	2014/15	6,135.2	259.8	57.0	178 836[1]
				2015/16	6,280.1	222.2	77.3	191 924[1]
				2016/17	6,371.6	173.5	82.0	196 784[1]
				2017/18	6,474.9	239.5	136.2	238 507[1]
				2018/19	6,538.3[2]	217.5[2]	154.1[2]	240 583[1]

[1] Different projects have different objectives, coverage, approaches and targeted groups of beneficiaries. The total number of beneficiaries covers both the school sector (such as students, teachers and parents) and the non-school sector (such as working adults).

[2] Estimates for 2018/19.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School/ Academic Year	Balance ($ million)	Income ($ million)	Expenditure ($ million)	Number of Beneficiaries
Quality Education Fund (QEF)	1998	To finance projects for the promotion of quality school education in Hong Kong.	The QEF Steering Committee	2014/15	8,087	(32)	140	229 443[3]
				2015/16	8,403	456	140	322 064[3]
				2016/17	9,173	891	121	442 997[3]
				2017/18	9,494	528	207	613 871[3]
				2018/19	9,454[4]	210[4]	250[4]	Under preparation[5]

[3] Beneficiaries may include teachers, students and parents.

[4] Estimates for 2018/19. Given market volatility, no gain or loss on disposal or revaluation of investments in securities has been included in the estimated income and fund balance.

[5] Some applications for 2018/19 are still being processed and the number of beneficiaries is yet to be confirmed.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School/ Academic Year	Balance ($ million)	Income ($ million)	Expenditure ($ million)	Number of Beneficiaries
Education Development Fund (EDF)	2004	To provide differentiated school-based professional support (SBPS) for building schools' capacity in taking forward the education reform initiatives.	The Advisory Committee on the EDF which comprises frontline teachers, principals, academics and community members offers advice on the operation of the EDF and the implementation of the SBPS programmes.	2014/15	412.2	6.5	104.1	648[6]
				2015/16	325.3	3.7	90.6	579[6]
				2016/17	223.8	3.2	104.7	556[6]
				2017/18	136.1	2.3	90.0	613[6]
				2018/19	20.1[7]	1.1[7]	117.1[7]	695[6]

[6] Number of schools includes kindergartens, primary schools, secondary schools and special schools. Those for 2018/19 are estimated figures.

[7] Estimates for 2018/19.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School/ Academic Year	Balance ($ million)	Income ($ million)	Expenditure ($ million)	Number of Beneficiaries
HKSAR Government Scholarship Fund	2008	To attract outstanding local and non-local students to pursue publicly-funded higher education programmes in Hong Kong and to stay in Hong Kong after graduation; To recognise the achievements of outstanding local and non-local students, with a view to attracting them to stay in Hong Kong after graduation; and To promote the further development of Hong Kong as a regional education hub and enhance Hong Kong's competitiveness in the long run.	To be assessed/ monitored by participating institutions[8] (according to the stipulated selection criteria of the Fund) and by the Steering Committee of the Fund.	2014/15	2,262	(68)	102	4 546
				2015/16	2,282	124	104	4 762
				2016/17	2,453	278	107	4 983
				2017/18	2,499	142	96	4 299
				2018/19	3,259[9]	860[9,10]	100[9]	4 400[11]

[8] Participating institutions of the HKSAR Government Scholarship Fund are the 8 University Grants Committee(UGC)-funded universities (i.e. City University of Hong Kong, Hong Kong Baptist University, Lingnan University, the Chinese University of Hong Kong, the Education University of Hong Kong, the Hong Kong Polytechnic University, the Hong Kong University of Science and Technology, and the University of Hong Kong), the Hong Kong Academy for Performing Arts, and the Vocational Training Council.

[9] Estimates for 2018/19. Given market volatility, no gain or loss on disposal or revaluation of investments in securities has been included in the estimated income and fund balance.

[10] Including the injection of $800 million in March 2019.

[11] The above figure covers the recipients of the HKSAR Government Scholarship Scheme, Targeted Scholarship Scheme and Endeavour Merit Award, and estimated figures for Talent Development Scholarship and Reaching Out Award (applications under these 2 programmes for 2018/19 are still under processing by institutions).

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School/ Academic Year	Balance ($ million)	Income ($ million)	Expenditure ($ million)	Number of Beneficiaries
Research Endowment Fund	2009	To support research at the UGC-funded universities (from the investment income of the $20 billion portion) and the local self-financing degree awarding institutions (from the investment income of the $3 billion portion). The Government injected $3 billion into the Research Endowment Fund in June 2018 to generate investment income to provide tuition waiver for local research postgraduate students.	Peer review mechanism involving expert reviewers and assessment panels formed under the Research Grants Council. As regards the Tuition Waiver Scheme for Local Research Postgraduate Students, the UGC-funded universities are required to submit to the UGC Secretariat records of local research postgraduate students whose tuition fees have been waived for verification.	2014/15	26,360	1,248	1,018	1 306[12]
				2015/16	26,811	1,038	588	1 268[12]

[16] Including new awardees and awardees from previous years who continue to receive the scholarship. Those for 2018/19 are estimated figures.

[17] Estimates for 2018/19.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School/ Academic Year	Balance ($ million)	Income ($ million)	Expenditure ($ million)	Number of Beneficiaries
Self-financing Post-secondary Education Fund	2011	To support worthwhile initiatives and schemes that aim to enhance the quality of self-financing post-secondary education.	The Steering Committee of the Fund	2014/15	3,509	(81)	111	4 139[18]
				2015/16	3,578	178	109	11 460[18]
				2016/17	3,878	440	140	52 914[18]
				2017/18	3,969	212	121	37 881[18]
				2018/19	3,939[19]	90[19]	120[19]	39 397[18]

[18] Including scholarship recipients as well as students and teachers directly benefited from quality enhancement projects completed in that year (from 2015/16). The number of beneficiaries in 2018/19 is a provisional figure as at March 2019.

[19] Estimates for 2018/19. Given market volatility, no gain or loss on disposal or revaluation of investments in securities has been included in the estimated income and fund balance.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School/ Academic Year	Balance ($ million)	Income ($ million)	Expenditure ($ million)	Number of Beneficiaries
Qualifications Framework Fund (QF Fund)	2014	To provide a steady source of income to support the sustainable development and implementation of Qualifications Framework (QF).	The Steering Committee on QF Fund	2014/15[20]	-	-	-	2 435[21] practitioners and 235[22] education and training providers[23]
				2015/16[20]	1,015.8	15.8	-	2 090[21] practitioners and 243[22] education and training providers[23]
				2016/17[20]	1,045.9	30.1	-	3 537[21] practitioners and 388[22] education and training providers[23]
				2017/18[20]	2,275.6	1,265.4[24]	35.7	4 034[21] practitioners and 393[22] education and training providers[23]
				2018/19	2,301.9[25]	77.4[25]	51.1[25]	2 116[21] practitioners and 398[22] education and training providers[23]

[20] In March 2016 and March 2018, the seed capital of $1 billion and $1.2 billion were respectively injected into the QF Fund and placed with the Exchange Fund for investment. Since it takes time for the QF Fund to generate and accumulate investment income to meet the funding requirements, in the interim before 2017, we had been deploying the funds under the non-recurrent item of Qualifications Framework Support Scheme (QFSS) under Head 156 EDB for meeting the expenditure of the initiatives under the QF Fund. The approved commitment for QFSS was exhausted in 2017 and we have started using the investment income generated from the principal of the QF Fund in the same year to meet the expenditure of various initiatives.

[21] For the periods from April 2014 to March 2015, April 2015 to March 2016, April 2016 to March 2017, April 2017 to March 2018, and April 2018 to 28 February 2019 respectively.

[22] As at March 2015, March 2016, March 2017, March 2018 and 28 February 2019 respectively.

[23] The above figures which are readily available are not exhaustive as the QF Fund supports a wide range of stakeholders, including education and training providers, practitioners, assessment agencies and the quality assurance body, through various initiatives.

[24] Including the injection of $1.2 billion in March 2018.

[25] Estimates for 2018/19.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School/ Academic Year	Balance ($ million)	Income ($ million)	Expenditure ($ million)	Number of Beneficiaries
Hong Kong Scholarship for Excellence Scheme (HKSES)	2014	To support local students to pursue studies outside Hong Kong with a view to grooming a top cadre of talents with global vision, international network and world-class education, thereby contributing to enhancing Hong Kong's competitiveness as Asia's World City in a globalised knowledge economy; and To support those students who have excellent academic achievements but lack the financial means to study in top-notch universities outside Hong Kong.	The Steering Committee of the HKSES	2015/16	327.32	-	20.65	92
				2016/17	295.00	-	32.32	164[26]
				2017/18	248.98	-	46.02	229[26]
				2018/19	193.45[27]	-	55.53[27]	259[26]

[26] Including new awardees and awardees from previous years who continue to receive the scholarship.
[27] Estimates for 2018/19.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School/ Academic Year	Balance ($ million)	Income ($ million)	Expenditure ($ million)	Number of Beneficiaries
Gifted Education Fund (GE Fund)	2016	To support the development of gifted education in Hong Kong through the Hong Kong Academy for Gifted Education and other worthwhile initiatives, schemes and programmes.	The Advisory Committee on Gifted Education	2016/17[28]	810	10	-	-
				2017/18	824	32	18	9 019[29]
				2018/19[28]	1,625[30]	838[30,31]	37[30]	-[32]
Student Activities Support (SAS) Fund	2019	To support students with financial needs to participate in life-wide learning activities for whole-person development.	EDB	2018/19[33]	2,533[34]	2,533[34,35]	-	-

[28] The seed capital, each of $800 million, were injected into the GE Fund and placed with the Exchange Fund for investment in March 2017 and March 2019.

[29] The actual number of student members of the Hong Kong Academy for Gifted Education for 2017/18.

[30] Estimates for 2018/19.

[31] Including the injection of $800 million in March 2019.

[32] The number of student members of the Hong Kong Academy for Gifted Education for 2018/19 is yet to be confirmed.

[33] In March 2019, the seed capital of $2.5 billion was injected into the SAS Fund and placed with the Exchange Fund for investment. Given that the support measure will be implemented starting from 2019/20, figures for expenditure and number of beneficiaries for 2018/19 are not available.

[34] Estimates for 2018/19.

[35] Including the injection of $2.5 billion in March 2019.

Examination of Estimates of Expenditure 2019-20 Reply Serial No.

EDB428

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3987)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (950) Hong Kong Examinations and Assessment Authority

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Regarding the Hong Kong Diploma of Secondary Education (HKDSE) Examinations conducted by the Hong Kong Examinations and Assessment Authority (HKEAA) in the past 5 years, please give a breakdown of the following:

   (a) the number of appeal applications (please provide separate figures for appeals for rechecking scores and remarking scripts) by subject, the number of cases with result upgraded after review, the expenditure involved and the fees refunded to applicants; and

   (b) the number of appeal review applications by category, the number of cases with different results after review by category, the expenditure involved and the total fees refunded to applicants.

2. Please set out the financial surplus/deficit incurred from conducting local and non-local examinations by the HKEAA in each of the past 5 years (2014/15 to 2018/19).

3. Please set out the salaries and positions of the 10 highest-paid staff members in the HKEAA in each of the past 5 years (2014/15 to 2018/19).

4. Please set out the average cost of HKDSE Examination per candidate and the average cost of HKDSE Examination per candidate with special educational needs (SEN) in each of the past 5 years (2014/15 to 2018/19).

5. Please set out the number of applications for special examination arrangements by candidates with SEN and the number of approvals granted by the HKEAA in each of the past 5 years (2014/15 to 2018/19).

6. Please provide a breakdown of the number of candidates with SEN by subject entry and the total number of candidates with SEN in each of the past 5 years (2014/15 to 2018/19).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 80)

Reply:

1. The Hong Kong Examinations and Assessment Authority (HKEAA), as a statutory body established under the HKEAA Ordinance, operates on a self-financing basis. Regarding the Hong Kong Diploma of Secondary Education (HKDSE) Examinations conducted in the past 5 years (2014 to 2018), the HKEAA has provided the following information:

   (a) The number of appeal applications by subject, the number of cases with results upgraded after review, the expenditure involved and the fees refunded to applicants are at Appendix 1.

   (b) The number of appeal review applications by category, the number of cases with different results after review, the expenditure involved and the fees refunded to applicants are at Appendix 2.

2. The financial surplus/deficit of the HKDSE Examinations and other examination services conducted by the HKEAA in each of the past 5 school years (2014/15 to 2018/19) is listed below:

Year	**HKDSE $ million Surplus/(Deficit)**	**Other Examination Services $ million Surplus/(Deficit)**
2014/15	(44.2)	38.1
2015/16	(57.0)	37.3
2016/17	(65.4)	48.9
2017/18	(69.2)	59.1
2018/19 (Forecast)	(87.5)	45.2

Notes:

1. The HKEAA's financial year runs from 1 September to 31 August of the following year.

2. All examinations mentioned above are conducted locally. "Other Examination Services" include examinations administered by the International and Professional Examinations Division, of which most are conducted by local professional bodies, while some are conducted by overseas examination boards.

3. The numbers of key management personnel (Directors and above) entitled to receive remuneration and the bands of remuneration they fell into as reported in the HKEAA's audited accounts are listed below:

Bands of remuneration	**2014/15**	**2015/16**	**2016/17**	**2017/18**
Less than $500,000	-	-	-	-
$500,001 to $1,000,000	-	-	-	-
$1,000,001 to $1,500,000	-	-	-	-
$1,500,001 to $2,000,000	-	-	1	-
$2,000,001 to $2,500,000	3	3	2	3
$2,500,001 to $3,000,000	1	-	-	-
$3,000,001 to $3,500,000	-	1	1	1

Notes:

1. The HKEAA's financial year runs from 1 September to 31 August of the following year.
2. The financial year 2018/19 of HKEAA closes on 31 August 2019 and thus the audited information for 2018/19 is not yet available.

4. The average cost of HKDSE Examination per candidate and the average cost of HKDSE Examination per candidate with special educational needs (SEN) in each of the past 5 school years (2014/15 to 2018/19) are listed below:

Average cost of HKDSE Examination per candidate

HKEAA's financial year	**2014/15**	**2015/16**	**2016/17**	**2017/18**	**2018/19**
Total cost for organising HKDSE Examination ($ million)^	281.3	280.5	278.4	284.3	296.7
Number of school candidates and private candidates*	74,131	68,128	61,624	59,000	56,305#
Average cost of HKDSE Examination per candidate ($)	3,795	4,117	4,518	4,819	5,270

* Candidates withdrawing from the examination are not included.

^ The total costs for 2014/15 to 2017/18 are based on the audited financial statements of the HKDSE Examinations, while the total cost for 2018/19 is a projected figure.

\# The actual number of persons applying to sit for the examination as at December 2018.

Extra cost of HKDSE Examination per candidate with SEN

HKEAA's financial year	2014/15	2015/16	2016/17	2017/18	2018/19
Total extra cost ($ million)[@]	10.7	12.1	14.6	14.7	16.9
Number of candidates with SEN* (Applications approved)	1,746	2,047	2,442	2,666	3,067^

[@] The extra costs involve staff expenses, examination personnel expenses, and administrative and other operating expenses, which include related expenditure on handling applications and absent candidates. The extra cost for 2018/19 is a projected figure as at March 2019.

* Candidates withdrawing from the examination are not included.

^ Figures as at March 2019.

HKDSE Examination candidates with SEN cover students with different types of SEN and individual needs. The HKEAA will consider the specific circumstances of individual candidates in making special examination arrangements (including assessment accommodation) to cater for their needs. Hence, the average extra cost per candidate with SEN cannot reflect the diverse needs of candidates with SEN and the cost-effectiveness of special examination arrangements.

5. The number of applications for special examination arrangements in the HKDSE by candidates with SEN, and the number of approvals granted in each of the last 5 school years (2014/15 to 2018/19) are listed below:

Year of examination	Number of applications	Applications withdrawn	Applications approved
2015	1 904	115	1 746
2016	2 217	139	2 047
2017	2 610	147	2 442
2018	2 852	158	2 666
2019	3 321	209	3 067*

* Figure as at March 2019. There are applications pending process.

6. The breakdown of the number of candidates with SEN by subject entry and the total number of candidates with SEN in each of the past 5 school years (2014/15 to 2018/19) are tabulated at Appendix 3.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3988)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the school years from 2014/15 to 2018/19:

(1) the total number of school age children admitted to kindergartens (KGs) and the percentage they represent;

(2) the number of students studying K1 in each of the 18 districts in each of the school years and the total;

(3) the number of local non-profit-making KGs joining the Pre-primary Education Voucher Scheme/Free Quality Kindergarten Education Scheme, local non-profit-making KGs not joining the Pre-primary Education Voucher Scheme/Free Quality Kindergarten Education Scheme, local private independent KGs, and non-local/international KGs, together with the respective and total number of students and teachers;

(4) the year-on-year increase/decrease in the number and percentage of KGs switching from private independent status to non-profit-making nature, and the cumulative total; the number of local KG-cum-child care centres and the number of KG-cum-child care centres that have joined the Pre-primary Education Voucher Scheme/Free Quality Kindergarten Education Scheme, and the number of teachers and students in them; and

(5) the number of KGs/nursery schools operating whole-day service in the territory, and the number of teachers and students involved; the number of KGs/nursery schools operating whole-day service under the Pre-primary Education Voucher Scheme/Free Quality Kindergarten Education Scheme, the number of teachers and students in them, and the percentage these students represent in the total number of students under the respective subsidy scheme.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 70)

Reply:

For the 2014/15 to 2018/19 school years,

(1) the respective total number of children attending kindergartens (KGs) and the gross enrolment ratios of participation in KG education are tabulated at Appendix 1;

(2) the respective number of K1 students attending KGs by District Council district is tabulated at Appendix 2;

(3) the respective number of local non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS)/KG education scheme (KG Scheme), NPM KGs not joining the PEVS/KG Scheme, local private independent (PI) KGs and non-local KGs, as well as the respective number of teachers and students in these KGs are tabulated at Appendix 3;

(4) the respective increase/decrease in the number of PI KGs converted to NPM KGs for joining the PEVS/KG Scheme, such change in percentage and the actual accumulated number are tabulated at Appendix 4; the respective number of local kindergarten-cum-child care centres (KG-cum-CCCs) in the territory, the number of KG-cum-CCCs joining the PEVS/KG Scheme, and the number of teachers and students in these KG-cum-CCCs are tabulated at Appendix 5; and

(5) the respective number of local KGs/KG-cum-CCCs with whole-day (WD) classes and the number of their teachers and students, the respective number of KGs/KG-cum-CCCs with WD classes joining the PEVS/KG Scheme and the number of their teachers and students, and the percentage of these students among the students under the subsidy of the PEVS/KG Scheme are tabulated at Appendix 6.

Appendix 1

Total number of children attending kindergartens (KGs) and gross enrolment ratios (GER) of participation in KG education from the 2014/15 to 2018/19 school years

School Year	2014/15	2015/16	2016/17	2017/18 (Revised)	2018/19 (Provisional)
Total number of children attending KGs (Note 1)	178 119	187 155	185 799	182 995	176 245
GER (Note 2)	99.2%	98.7%	102.9%	105.9%	107.1%

Note 1: Position as at September of the respective school year.

Note 2: GER is defined as total enrolment in KGs (including KGs, kindergarten-cum-child care centres and special child care centres), regardless of age, expressed as a percentage of the school-age-population corresponding to the same level of education in a given school year. Hence, the percentage can exceed 100%. The school-age population for the KG level refers to children of 3-5 years old. GER for 2014/15 school year and GER for 2015/16 to 2018/19 school years have been compiled using the population estimates which have incorporated the benchmarking data available from the 2011 and 2016 Population Census respectively.

Number of K1 students attending kindergartens by District Council district
from the 2014/15 to 2018/19 school years

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3990)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What are the average numbers of teaching periods and teaching hours for teachers in government, aided and Direct Subsidy Scheme (DSS) primary and secondary schools each year from the 2016/17 to 2018/19 school years? Please provide the information in the table below:

	2016/17 School Year		2017/18 School Year		2018/19 School Year	
	Average no. of teaching periods	Average no. of teaching hours	Average no. of teaching periods	Average no. of teaching hours	Average no. of teaching periods	Average no. of teaching hours
Government secondary school teachers						
Government primary school teachers						
Aided secondary school teachers						
Aided primary school teachers						
DSS secondary school teachers						
DSS primary school teachers						
Special school teachers						

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 83)

Reply:

The average number of teaching periods for teachers in government, aided and Direct Subsidy Scheme (DSS) primary and secondary schools, as well as special schools, per cycle for the school years from 2016/17 to 2018/19 is tabulated below:

Average number of teaching periods per cycle per teacher*

	2016/17	2017/18	2018/19 (Estimate)
Government secondary school teachers	24	24	24
Government primary school teachers	26	25	25
Aided secondary school teachers	25	25	25
Aided primary school teachers	26	25	25
DSS secondary school teachers	22	22	23
DSS primary school teachers	22	22	21
Special school teachers	26	26	26

* In compiling the above figures, principals and teachers without teaching periods are excluded. The number of school days per cycle (ranging from 5 to 10 days) and the length of each teaching period may vary from school to school. Also, the number of school days per cycle may vary across school years.

Note: The Education Bureau does not keep track of the actual numbers of teaching days and teaching hours per period per teacher. Hence, statistics on the annual average numbers of teaching periods and hours per teacher are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3991)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please give a breakdown of the number of special school students who were able to pursue further studies (in post-secondary institutions, vocational training schools and so on) after completing secondary education by category of special school, by 18 districts and by type of the institution where they pursued further studies in the past 5 school years (from the 2014/15 to 2018/19 school years); and

(2) What policies were adopted by the Government in the past 5 school years (from the 2013/14 to 2017/18 school years) to support special school students in pursuing further studies? What new policies will be introduced in the future? How much public funds are involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 85)

Reply:

(1) and (2)

In general, special schools will help their students plan and apply for post-school placement in accordance with their interests, capabilities and needs. The number of students who have completed secondary education and pursued further studies or vocational training, with breakdown by type of special schools, as collected from different types of special schools, from the 2014/15 to 2017/18 school years is set out at the Appendix. As the current school year is still not finished, we are unable to provide the relevant information on special school leavers for the 2018/19 school year. Apart from pursuing further studies and vocational training, special school leavers may also receive vocational rehabilitation service, day training service, day care service, etc. As post-school placement for special school

students does not have any relationship with the districts where the students study, providing the figures by district is not meaningful.

The Education Bureau (EDB) has been providing resources and support for special schools to help students develop their potential and prepare for further studies or post-school training/services. The relatively smaller class size of special schools (ranging from 8 to 15 per class in different types of special schools) facilitates teachers to provide more individualised support to cater for students' diversity.

Besides, the EDB provides additional resource teachers and specialists including speech therapist, physiotherapist, occupational therapist, educational psychologist, school nurse, school social worker, etc. for the schools to cater for various needs of the students. With a view to enhancing the quality of learning and teaching in special schools, we have been improving the interface between basic and senior secondary education for students with intellectual disability (ID) and strengthening teacher professional development through various projects. A number of measures have been introduced to further enhance the education services provided by special schools for their students since the 2014/15 school year. They include providing additional teacher assistants for schools for children with ID, schools for children with physical disability, the school for children with visual impairment (VI) cum ID as well as the psychiatric classes of the Hospital School; reducing progressively the class size to 12 students per class for the school for children with VI and schools for social development. Starting from the 2016/17 school year, the EDB has also allowed special schools operating senior secondary levels to convert the Senior Secondary Curriculum Support Grant and/or the Career and Life Planning Grant into regular teaching posts. With effect from the 2019/20 school year, the regular teaching posts converted from the two grants will be counted towards the calculation of promotion post entitlement in order to strengthen the middle management manpower for taking relevant education initiatives forward.

The actual/estimated expenditure on special education from the 2013-14 to 2018-19 financial years is as follows:

Financial Year	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (revised estimate)
Expenditure ($ million)	1,822.5	2,010.8	2,190.0	2,292.9	2,463.1	2,712.7

MoID: Moderate Intellectual Disability; **SID:** Severe Intellectual Disability

Notes:

1. The above figures are based on information collected from special schools as at September of the following school year. Students waitlisted for vocational training in the respective school years are not included.
2. Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
3. Figures for the Hospital School are not included in view of the transitional nature of its education programmes. As the school for children with visual impairment only provides education up to Secondary 3, its school leavers will continue their secondary education in mainstream schools.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3992)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Regarding the promotion of National Education, what were the Government's expenditures in the past 5 school years (from 2014/15 to 2018/19) and what is the estimated expenditure for the 2019/20 school year?

(2) For how many students and teachers at kindergarten, primary, secondary and post-secondary level did the Education Bureau separately provide Mainland exchange programmes in the past 5 school years (from 2014/15 to 2018/19)? Please give separate figures on the number of exchange programmes, the number of participating students and teachers, and the amount of public funding involved; and

(3) What was the staffing on the establishment of the Moral, Civic and National Education Section under the Curriculum Development Institute of the Education Bureau in the past 5 school years (from 2014/15 to 2018/19) and what is the staffing for the same in the 2019/20 school year? What is the amount of public funding involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 86)

Reply:

(1)
The expenditure for the Mainland exchange programmes in the past 5 school years (2014/15 to 2018/19) and the 2019/20 school year is as follows:

School year	Expenditure ($ million)[@]	
	Programmes for primary and secondary school students	Programmes for primary and secondary school teachers
2014/15	52.7	1.1
2015/16	61.9	1.5
2016/17	64.2	2.9
2017/18 [#]	85.4	5.5
2018/19 [*]	103.3	8.7
2019/20 [++]	115	13.2

[@] Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the Education Bureau (EDB)

[#] Actual figures revised from last year's estimates

[*] Provisional figures

[++] Estimated figures

National education in the wider context also includes learning about various aspects of our country from an appropriate perspective through different subjects. There are references to our country's history, culture, geographic features, development, etc. in the curriculum content of History, General Studies, Chinese Language, Geography and even Music and Arts. Moreover, elements that enable a better understanding of our country are added to different life-wide learning activities, such as activities related to the Hong Kong Special Administrative Region Establishment Day or National Day. The EDB provides support for schools in various areas. The relevant expenditure is subsumed under the recurrent expenditure of the EDB and cannot be identified separately.

(2) The number of post-secondary, secondary and primary school students who participated in Mainland exchange programmes in the past 5 school years (from the 2014/15 to 2018/19 school years) and the expenditure involved are shown below:

School Year	Number of students (rounded down to the nearest hundred)			Expenditure ($ million)[@]		
	Post-secondary students[Δ]	Secondary students	Primary students	Post-secondary students	Secondary students	Primary students
2014/15	4 000	31 700	18 900	12.0	40.1	12.6
2015/16	3 900	35 800	23 400	11.9	46.8	15.1
2016/17	3 400	35 300	24 500	10.4	50.3	13.9
2017/18[#]	2 700	40 200	26 800	8.4	57.6	27.8
2018/19[*]	2 200	40 200	33 600	6.7	64.0	39.3

[@] Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

[*] Provisional figures

[Δ] Only data related to the Pilot Mainland Experience Scheme for Post-secondary Students is included. There are other schemes that provide subsidies for students to join

Mainland exchange progammes. As the scope of these subsidy schemes also covers exchange activities outside the Mainland, statistics only relevant to exchange activities in the Mainland are not available.

The number of post-secondary, kindergarten, primary and secondary school teachers who participated in teachers' Mainland exchange programmes in the past 5 school years (from the 2014/15 to the 2018/19 school years) and the expenditure involved are shown below:

School Year	Number of post-secondary, kindergarten, primary and secondary school teachers (rounded down to the nearest ten)	Expenditure ($million) [@]
2014/15	260	1.1
2015/16	410	2.1
2016/17	690	2.9
2017/18[#]	910	6.3
2018/19[*]	1 950	9.4

[@] Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

[*] Provisional figures

No kindergarten students took part in the Mainland exchange programmes in the past 5 school years.

(3)

The Moral, Civic and National Education (MCNE) Section is responsible for the planning and development of values education such as moral and civic education, national education (including Basic Law education), life education, sex education, anti-drug education, as well as environmental education. The establishment of the MCNE Section included 10 curriculum development officers at various ranks in the 2015/16 to 2017/18 school years as well as 9 curriculum development officers at various ranks in the 2014/15 school year. At present, the establishment of the MCNE Section includes 11 curriculum development officers at various ranks and the staffing provision may change subject to the needs of curriculum development in future. Expenditures for the related curriculum development work of the MCNE Section which include provision of professional development programmes for school heads and teachers, production of learning and teaching resources, and provision of learning activities for students, are subsumed under the recurrent expenditure of EDB. Such work is an integral part of our curriculum development work, hence we are unable to provide a separate breakdown on the public funding for the ongoing curriculum development work undertaken by the MCNE Section.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please list all items with unspent provision on education (including provision for schools (listed by the subsidy to schools, institutions and kindergartens), student financial assistance, capital works expenditure, non-recurrent expenditure, etc.), the amount unspent/overspent and the percentage of its actual expenditure over the estimates from 2014/15 to 2018/19.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 87)

Reply:

The breakdown of unspent provision on education from 2014-15 to 2018-19 by broad categories is provided in the **Annex**. In accordance with the established mechanism, unspent provision in the estimate automatically lapses after the close of the financial year.

Annex

Education Expenditure in 2014-15 to 2018-19

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3994)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information about public sector primary, secondary and special schools in each of the school years from 2014/15 to 2018/19:

(a) the number of classes and school places reduced as a result of class reduction and the amount of savings involved;

(b) the number of schools and school places reduced as a result of school closure and the amount of savings involved; and

(c) (a) and (b) taken together, the number of classes and school places reduced and the total amount of savings involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 88)

Reply:

In the school years from 2014/15 to 2018/19, there has not been any reduction in the overall number of classes in government and aided primary schools and special schools, nor have any of these schools been closed. The number of classes and school places reduced in government and aided secondary schools, the number of schools closed and the savings involved in the same period are as follows:

(a) The number of classes and school places reduced in government and aided secondary schools due to reduction of classes and the savings involved

School Year	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings ($ million) (Note 1)
2014/15	289	8 670	Not applicable (Note 2)
2015/16	269	7 747	
2016/17	233	6 547	
2017/18	47	1 302	
2018/19	21	573	

(b) The number of classes and school places reduced in government and aided secondary schools due to school closure and the savings involved

School Year	No. of Schools Closed	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings ($ million) (Note 1)
2014/15	No school closure			
2015/16	2	5	144	11
2016/17	No school closure			
2017/18	1	1	28	6
2018/19	No school closure			

(c) Total number of classes and school places reduced in government and aided secondary schools due to reduction of classes or school closure and the total savings involved

School Year	Total No. of Classes Reduced	Estimated Total No. of School Places Reduced	Estimated Total Amount of Expenditure Saved ($ million) (Note 1)
2014/15	289	8 670	Not applicable (Note 2)
2015/16	274	7 891	
2016/17	233	6 547	
2017/18	48	1 330	
2018/19	21	573	

Notes:

1. Savings due to reduction of classes and school closure depend on a number of factors, such as the number of operating classes, operation overheads, maintenance cost, etc. Unless a school is closed, there cannot be proportionate adjustment in the overheads due to class reduction. In the case of school closure, the actual savings vary significantly among schools and have to be worked out on a case-by-case basis. The figures quoted above represent a very crude assessment.

2. From the 2014/15 to 2018/19 school years, the reduction of classes was mainly due to the planned changes of class structure, particularly for schools joining the Voluntary Optimisation of Class Structure Scheme (the Scheme). Since the additional expenditure for the implementation of the enhanced measures under the Scheme and the targeted relief measures for public sector secondary schools was subsumed under the overall expenditure of the Education Bureau, the total estimated savings arising from the reduction of classes are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3995)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

(a) Please give a breakdown of the number of aided and government primary and secondary schools with 1, 2, 3, 4, 5, 6, 7 or more classes at Primary 1 to Primary 6 and Secondary 1 to Secondary 6 levels by the 18 school districts in the 5 school years from 2014/15 to 2018/19.

(b) Please give a breakdown of the total number of schools with 1, 2, 3, 4, 5, 6, 7 or more Secondary 1 classes in the 4 school years from 2015/16 to 2018/19; and provide the greatest number of Secondary 1 classes operated among schools and the number of schools operating Secondary 1 classes up to this number.

(c) Please give a breakdown of the total number of schools with 1, 2, 3, 4, 5, 6, 7 or more Primary 1 classes in the 4 school years from 2015/16 to 2018/19; and provide the greatest number of Primary 1 classes operated among schools and the number of schools operating Primary 1 classes up to this number.

(d) Since the implementation of the Voluntary Optimisation of Class Structure Scheme in the 2011/12 school year, how many schools have joined the Scheme? How many modes of class reduction are there (e.g. some schools reduce classes every other year)? What is the breakdown of the number of participating schools by mode of class reduction? What were the respective numbers of classes reduced for all class levels in secondary schools each year in the school years from 2015/16 to 2018/19? How many school places of Secondary 1 and /or class levels have been reduced?

(e) The Government has implemented the Voluntary Optimisation of Class Structure Scheme to allow schools to freeze their teaching establishment for not more than 8 years. What was the increase in the number of teachers who had remained in the schools as a result

of the freeze of teaching establishment and the cumulative total number of these teachers in the school years from 2013/14 to 2018/19?

(f) Please give a breakdown of the number of public sector secondary schools which operate Secondary 1 classes with a standard class size of 32, 33 or 34 or other class sizes (e.g. operating 3 classes totalling 51 students or operating 2 classes totalling 26 students) by the 18 school districts in the 2018/19 school year.

(g) Please give a breakdown of the number of public sector primary schools which operate Primary 1 classes with a standard class size of 25 or 30 or other class sizes (e.g. operating 3 classes totalling 51 students or operating 2 classes totalling 26 students) by the 18 school districts in the 2018/19 school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 89)

Reply:

(a) The number of aided and government secondary and primary schools with 1, 2, 3, 4, 5, 6 and 7 or more classes at Secondary 1 (S1) to Secondary 6 (S6) levels and Primary 1 (P1) to Primary 6 (P6) levels in the 18 school districts in the school years from 2014/15 to 2018/19 is set out at Appendices 1 to 10 respectively.

(b) The total number of aided and government secondary schools with 1, 2, 3, 4, 5, 6 and 7 or more S1 classes from the 2015/16 to 2018/19 school years is as follows:

School year	No. of schools with 1 S1 class	No. of schools with 2 S1 classes	No. of schools with 3 S1 classes	No. of schools with 4 S1 classes	No. of schools with 5 S1 classes	No. of schools with 6 S1 classes	No. of schools with 7 or more S1 classes
2015/16	1	18	52	281	29	4	1
2016/17	1	27	48	271	34	4	1
2017/18	1	20	55	277	28	4	1
2018/19	1	14	56	263	47	4	1

Remark: 1 secondary school operates the most S1 classes, with 7 classes at S1 level.

(c) The total number of aided and government primary schools with 1, 2, 3, 4, 5, 6 and 7 or more P1 classes from the 2015/16 to 2018/19 school years is as follows:

School year	No. of schools with 1 P1 class	No. of schools with 2 P1 classes	No. of schools with 3 P1 classes	No. of schools with 4 P1 classes	No. of schools with 5 P1 classes	No. of schools with 6 P1 classes	No. of schools with 7 or more P1 classes
2015/16	16	50	60	159	147	19	3
2016/17	17	42	58	165	147	23	0
2017/18	12	40	45	167	156	28	4
2018/19	11	40	44	171	167	15	6

Remarks:
In the 2015/16 school year, 1 primary school operates the most P1 classes, with 8 classes at P1 level.

In the 2016/17 school year, 23 primary schools operate the most P1 classes, with 6 classes at P1 level.

In the 2017/18 school year, 2 primary schools operate the most P1 classes, with 9 classes at P1 level.

In the 2018/19 school year, 1 primary school operates the most P1 classes, with 9 classes at P1 level.

(d) As of the 2018/19 school year, there is a total of 220 schools under the Voluntary Optimisation of Class Structure Scheme (the Scheme) (excluding 1 school which joined the Direct Subsidy Scheme in the 2013/14 school year and is thus considered having left the Scheme).

There are generally 2 modes of class reduction in terms of the planned class structure a school would attain ultimately. Among the 220 schools joining the Scheme, 212 will attain a symmetrical class structure (i.e. same number of classes across S1 to S6 levels) and 8 will attain a cyclic symmetrical class structure (i.e. same number of classes at every other class level as a result of class reduction in every other school year).

The number of S1 classes reduced and estimated number of school places reduced under the Scheme from the 2015/16 to 2018/19 school years are as follows:

School year	No. of S1 classes reduced	Estimated no. of S1 school places reduced [Note]
2015/16	218	6 278
2016/17	212	5 957
2017/18	218	6 039
2018/19	213	5 815

Note: The estimated number of S1 places reduced is calculated by multiplying the number of S1 classes reduced by the average class size of secondary schools of the year concerned. The average class sizes of secondary schools in the 2015/16, 2016/17, 2017/18 and 2018/19 school years are 28.8, 28.1, 27.7 and 27.3 respectively.

While the approved number of S1 classes after reduction will be carried forward to upper class levels, the Scheme does not require schools to reduce classes voluntarily at other class levels in the same school year. Thus, under the Scheme, the number of classes and school places reduced at class levels other than S1 is nil.

(e) Schools joining the Scheme are given a maximum quota of 6 teaching posts during the six-year transitional period. After the six-year transitional period, the teaching post quota will be withdrawn gradually over 3 years until the end of the Scheme. However, there is no such arrangement in the Scheme to allow schools to freeze their teaching staff establishment as depicted in the question asked. Hence, we are unable to provide the number of teachers who have remained in the schools as a result of the freeze of teaching establishment.

(f) The number of aided and government secondary schools by average class size in the 18 school districts in the 2018/19 school year is set out at Appendix 11.

(g) The number of aided and government primary schools by average class size in the 18 school districts in the 2018/19 school year is set out at Appendix 12.

Appendix 1

Number of aided and government secondary schools with 1, 2, 3, 4, 5, 6 and 7 or more classes at Secondary 1 to Secondary 6 levels by district in the 2014/15 school year

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3996)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

For the 2014/15 to 2018/19 school years, please provide the following information:

(1) The respective average, median, highest and lowest school fee charged by whole-day (WD) and half-day (HD) kindergartens (KGs) joining the Pre-primary Education Voucher Scheme (PEVS) or Free Quality Kindergarten Education Scheme (KG Scheme);

(2) The respective average, median, highest and lowest school fee charged by WD and HD private independent KGs;

(3) The respective average, median, highest and lowest school fee charged by non-profit-making WD and HD KGs not joining the PEVS or KG Scheme;

(4) The respective number of WD and HD KGs joining the PEVS or KG Scheme approved to increase their school fee, and the highest, lowest and average rate of increase; and

(5) In respect of the Kindergarten Fee Remission Scheme, the annual total expenditure, and among the WD and HD students, the number of fee remission applications, the number and percentage of applications granted fee remission, and the respective number and percentage of students granted a level of remission at 50%, 75% and 100% of the school fee.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 71)

Reply:

For the 2014/15 to 2018/19 school years,

(1) the respective weighted average, median, highest and lowest school fees for whole-day (WD) and half-day (HD) classes charged by kindergartens (KGs) joining the Pre-primary Education Voucher Scheme (PEVS)/kindergarten education scheme (KG Scheme) are tabulated at Appendix 1;

(2) the respective weighted average, median, highest and lowest school fees for WD and HD classes charged by local private independent KGs are tabulated at Appendix 2; and

(3) the respective weighted average, median, highest and lowest school fees for WD and HD classes charged by non-profit-making (NPM) KGs not joining the PEVS/KG Scheme are tabulated at Appendix 3.

(4) The respective number of NPM WD and HD KGs joining the PEVS that have been approved to increase their school fees, and the highest, lowest and average rates of increase in the weighted average school fees from the 2014/15 to 2016/17 school years are tabulated at Appendix 4. As for the 2017/18 and 2018/19 school years, since the Government has substantially increased subsidies to KGs under the KG Scheme and the funding mode is different from that of the PEVS, it is inappropriate to compare the rate of increase in school fees between the 2016/17 and 2017/18 school years. As regards the rate of increase in school fees in the 2018/19 school year, given that the overall school fees are at a low level under the KG Scheme, the percentage will change greatly even for small changes in school fees and thus providing the highest and lowest rate of increase in school fees will be misleading. Hence, it is more appropriate to provide the number of KGs with school fee increase, as well as the highest, lowest, average and median school fees. In the 2018/19 school year, there are 15 HD KGs and 300 WD KGs that have increased their school fees. The highest, lowest, average and median school fees are tabulated at Appendix 1.

(5) The respective amount of fee remission disbursed under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS), the number of applications from parents with children attending KGs for fee remission under the KCFRS, the number and percentage of approved applications, and the number and percentage of students granted a level of remission at 50%, 75% and 100% of the school fee payable or the fee remission ceiling from the 2014/15 to 2018/19 school years are tabulated at Appendix 5.

Appendix 1

Weighted average, median,
highest and lowest school fees
for WD and HD classes charged by
KGs joining the PEVS/KG Scheme
from the 2014/15 to 2018/19 school years

School year		2014/15	2015/16	2016/17	2017/18	2018/19
Weighted average school fee	WD	$37,600	$41,200	$44,700	$9,500	$10,100
	HD	$23,600	$26,200	$27,800	$3,000	$3,700
Median school fee	WD	$37,700	$41,400	$44,700	$9,400	$9,900
	HD	$23,600	$26,000	$27,600	$2,900	$3,400
Highest school fee	WD	$60,000	$67,500	$69,700	$25,900	$26,200
	HD	$30,000	$33,800	$34,900	$9,500	$10,100
Lowest school fee	WD	$19,400	$21,100	$21,700	$200	$200
	HD	$11,800	$12,000	$12,000	$100	$100

Appendix 2

Weighted average, median,
highest and lowest school fees
for WD and HD classes charged by
local private independent KGs
from the 2014/15 to 2018/19 school years

School year		2014/15	2015/16	2016/17	2017/18	2018/19
Weighted average school fee	WD	$63,400	$66,900	$70,800	$72,800	$75,600
	HD	$50,100	$52,700	$55,700	$59,100	$61,800
Median school fee	WD	$64,800	$69,600	$74,400	$78,500	$81,600
	HD	$49,100	$50,100	$54,100	$57,500	$59,800
Highest school fee	WD	$111,600	$111,600	$125,000	$140,000	$149,800
	HD	$99,000	$98,500	$98,500	$106,200	$110,000
Lowest school fee	WD	$23,300	$31,200	$32,000	$35,300	$38,300
	HD	$14,100	$21,600	$21,600	$27,600	$18,200

Appendix 3

Weighted average, median,
highest and lowest school fees
for WD and HD classes charged by
NPM KGs not joining the PEVS/KG Scheme
from the 2014/15 to 2018/19 school years

School year		2014/15	2015/16	2016/17	2017/18	2018/19
Weighted average school fee	WD	$88,400	$87,600	$91,400	$80,600	$90,300
	HD	$33,400	$34,100	$34,700	$36,100	$38,500
Median school fee	WD	$75,900	$80,300	$82,000	$71,400	$87,400
	HD	$33,700	$35,300	$35,700	$35,700	$36,900
Highest school fee	WD	$154,100	$166,500	$177,400	$181,700	$198,300
	HD	$65,100	$53,000	$56,000	$61,000	$66,000
Lowest school fee	WD	$51,100	$55,100	$57,900	$38,300	$38,300
	HD	$21,800	$22,900	$20,600	$22,400	$22,400

Appendix 4

Number of NPM WD and HD KGs
joining the PEVS with school fee increase (Note 1),
and the highest, lowest and average rate of increase in weighted average school fee
from the 2014/15 to 2016/17 school years

2014/15 school year	WD	HD
Number of NPM KGs under the PEVS with school fee increase	548	433
The highest rate of increase	102.8%	82.7%
The lowest rate of increase	0.01%	0.16%
The rate of increase in weighted average school fee	9.0%	10.8%

2015/16 school year	WD	HD
Number of NPM KGs under the PEVS with school fee increase	551	429
The highest rate of increase	40.2%	61.6%
The lowest rate of increase	0.28%	0.30%
The rate of increase in weighted average school fee	9.3%	11.0%

2016/17 school year	WD	HD
Number of NPM KGs under the PEVS with school fee increase	453	314
The highest rate of increase	35.0%	45.6%
The lowest rate of increase	0.00%	0.02%
The rate of increase in weighted average school fee	8.5%	6.1%

Notes: KGs operating both HD and WD/long WD classes will be concurrently counted in the respective column under HD and WD.

Appendix 5

Amount of fee remission disbursed under the KCFRS,
number of applications from parents with children attending KGs
for fee remission under the KCFRS,
number and percentage of approved applications and
number and percentage of students granted a level of remission at
50%, 75% and 100% of the school fee payable or the fee remission ceiling
from the 2014/15 to 2018/19 school years

School year		2014/15	2015/16	2016/17	2017/18	2018/19 (Note 1)
Total amount of fee remission ($ million)		502.1	542.5	616.0	276.0	147.9
Number of applications for fee remission from students attending WD KG classes		25 259	26 960	27 959	26 462	26 301
Number of applications for fee remission from students attending HD KG classes		14 188	18 442	20 307	16 829	14 037
Number of approved applications from students attending WD KG classes (%) (Note 2)		23 116 (91.5%)	23 642 (87.7%)	23 623 (84.5%)	22 669 (85.7%)	21 506 (81.8%)
Number of approved applications from students attending HD KG classes (%) (Note 2)		12 364 (87.1%)	14 462 (78.4%)	15 857 (78.1%)	879 (5.2%)	784 (5.6%)
Number of students attending WD KG classes granted fee remission and the level of remission (%)	50% fee remission	6 925 (30.0%)	7 360 (31.1%)	7 569 (32.1%)	7 489 (33.0%)	7 748 (36.0%)
	75% fee remission	1 745 (7.5%)	1 880 (8.0%)	2 060 (8.7%)	2 021 (8.9%)	1 937 (9.0%)
	100% fee remission	14 446 (62.5%)	14 402 (60.9%)	13 994 (59.2%)	13 159 (58.1%)	11 821 (55.0%)
Number of students attending HD KG classes granted fee remission and the level of remission (%)	50% fee remission	3 847 (31.1%)	4 910 (34.0%)	5 598 (35.3%)	321 (36.5%)	315 (40.2%)
	75% fee remission	854 (6.9%)	1 060 (7.3%)	1 279 (8.1%)	65 (7.4%)	47 (6.0%)
	100% fee remission	7 663 (62.0%)	8 492 (58.7%)	8 980 (56.6%)	493 (56.1%)	422 (53.8%)

Notes:

1. Figures for the 2018/19 school year are provisional figures as at end January 2019.
2. The PEVS has been replaced by the KG Scheme since the 2017/18 school year. The number of approved applications in the 2017/18 and 2018/19 school years does not include students who have passed the means test but do not need to pay school fees under the KG Scheme.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3997)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please set out the course titles of fully-subsidised, partially-subsidised and non-subsidised teacher training programmes for pre-service and in-service kindergarten teachers (including programmes awarding a certificate, bachelor's degree, postgraduate diploma in education and master's degree), the respective course provider , course fee and number of places of such programmes, the number of applications received, the unit cost as well as the amount of subsidy in the 2014/15 to 2018/19 school years.

2. Please provide the numbers of kindergartens which admitted the following number of students and their types (whole-day, half-day, both whole-day and half-day, long whole-day) in the 2014/15 to 2018/19 school years.

1. 90 students or less
2. 91 to 180 students
3. 181 to 270 students
4. over 270 students
5. 270 to 359 students
6. 360 students or above

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 72)

Reply:

1. The course titles, course providers, course fees and enrolments of different subsidised and non-subsidised teacher training courses (including certificate, degree and Postgraduate Diploma in Education (PGDE) programmes) offered to pre-service and serving kindergarten teachers in the school years from 2014/15 to 2018/19 are tabulated below:

(a) Training Programmes on Certificate in Early Childhood Education (C(ECE))

Pre-service (C(ECE)

Interested applicants may apply to the course providers direct. The Education Bureau does not have details of the number of applications received by course providers. Information on the unit cost and amount of subsidies of each subsidised training place for pre-service and in-service kindergarten teachers is not available as recurrent funding is provided to UGC-funded institutions/VTC mainly in the form of block grants.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3998)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Non-profit-making Kindergarten Rent Reimbursement Scheme or/and the rental subsidy under the Free Quality Kindergarten Education Scheme, please provide the following information for the school years from 2014/15 to 2018/19:

1. the number of applications for the Non-profit-making Kindergarten Rent Reimbursement Scheme or/and the rental subsidy under the Free Quality Kindergarten Education Scheme each year, the number of applications approved, and their respective percentage share among local kindergartens (KGs) and KGs subsidised under the Pre-primary Education Voucher Scheme or/and KGs under the Free Quality Kindergarten Education Scheme;

2. the respective number of KGs that received full, 50% and 25% reimbursement of rent under the Non-profit-making Kindergarten Rent Reimbursement Scheme or/and disbursement of rental subsidy under the Free Quality Kindergarten Education Scheme, and the respective total amount of subsidy;

3. the highest, lowest, median and average rental subsidy received by kindergartens granted full rent reimbursement/rental subsidy under the Non-profit-making Kindergarten Rent Reimbursement Scheme or/and under the Free Quality Kindergarten Education Scheme; the highest, lowest, average and median amount of rental subsidy received by kindergartens granted 50% rent reimbursement/rental subsidy; and the highest, lowest, average and median amount of rental subsidy received by kindergartens granted 25% rent reimbursement/rental subsidy;

4. the estimated expenditure of the Non-profit-making Kindergarten Rent Reimbursement Scheme in the 2019 school year; and

5. among KGs subsidised under the Non-profit-making Kindergarten Rent Reimbursement Scheme in the 2018/19 school year, the number that charge school fees,

and the highest, lowest and median amounts of school fees they collect. Please provide a breakdown by half-day, whole-day, mixed mode (half-day and whole-day) and long whole-day KGs.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 77)

Reply:

1. The number of applications received from and approval granted to non-profit-making (NPM) kindergartens (KGs) in respect of rent reimbursement under the Non-profit-making Kindergartens Rent Reimbursement Scheme (RRS) from the 2014/15 to 2016/17 school years/rental subsidy under the KG education scheme (KG Scheme) in the 2017/18 and 2018/19 school years, and their respective percentage share among local KGs and KGs under Pre-primary Education Voucher Scheme (PEVS)/KG Scheme are tabulated below:

School year	2014/15	2015/16	2016/17	2017/18	2018/19*
Number of local KGs	874	872	876	881	884
Number of KGs joining PEVS/KG Scheme	724	732	745	748	753
Number of applications	7	5	5	417	420#
Percentage share among local KGs	0.8%	0.6%	0.6%	47.3%	47.5%
Percentage share among KGs joining PEVS/KG Scheme	1.0%	0.7%	0.7%	55.7%	55.8%
No. of approval granted	3	3	4	417^	416^
Percentage share among local KGs	0.3%	0.3%	0.5%	47.3%	47.1%
Percentage share among KGs joining PEVS/KG Scheme	0.4%	0.4%	0.5%	55.7%	55.2%

* position as at February 2019

\# including 4 applications that are still under processing

^ 139 former aided child care centres continue to be eligible for full rental subsidy and re-application is not required. In the 2018/19 school year, together with the 416 KGs that have been granted approval, a total of 555 KGs receive rental subsidy under the KG Scheme, accounting for 62.8% of local KGs or 73.7% of KGs joining the KG Scheme.

2. Under the RRS, KGs will receive full or 50% rent reimbursement according to their fill-up rate, and the respective number of KGs that received full and 50% reimbursement of rent, and the respective total amount of subsidy disbursed to these KGs in the 2014-15, 2015-16, 2016-17 and 2017-18 financial years are tabulated below:

Financial year	No. of KGs in receipt of rent reimbursement		Total amount of rent reimbursed ($)	
	Full	50%	Full	50%
2014-15	381	3	185,472,576	702,517
2015-16	385	3	200,392,505	616,038
2016-17	389	2	214,901,608	454,152
2017-18##	388	2	91,961,107	189,230

refers to the expenditure from April to August 2017 before the implementation of KG Scheme

Under the KG Scheme, the Government has, starting from the 2017/18 school year, provided KGs operating in rented premises with rental subsidy. The amount of subsidy varies according to the specific circumstances of KGs, including: (i) for KGs in housing estates operating in premises allocated under the Education Bureau (EDB)-administered school allocation or nomination mechanisms, if they are paying a rent at concessionary rate as assessed by the Hong Kong Housing Authority and stipulated in the tenancy agreements, they will be eligible for full, 50% or 25% rental subsidy according to their fill-up rate; (ii) former aided child care centres will continue to receive full rental subsidy; (iii) the rental subsidy for other KGs will be subject to "dual" caps at 50% of market rent as assessed by the Rating and Valuation Department (RVD), or 15% of the "basic half-day unit subsidy" for all eligible students under the KG Scheme, whichever is lower; and (iv) for KGs paying market rent and receiving rental subsidy under the RSS in the 2016/17 school year but entitled to less subsidy under the new scheme, their current rented premises will continue to be eligible for the previous level of subsidy for a grace period of 4 years from the 2017/18 school year.

For the 2017/18 school year, the number of KGs receiving full, 50% or 25% rental subsidy and those receiving rental subsidy under "dual" caps, as well as the total amount of rental subsidy are tabulated below. The information for 2018-19 is not yet available.

Financial year	No. of KGs in receipt of rental subsidy				Total amount of rental subsidy ($)			
	Full (Note 2)	50%	25%	"Dual" caps	Full	50%	25%	"Dual" caps
2017-18 (Note 1)	403	2	0	151	132,195,030	201,303	0	63,107,701

Note 1: refers to the expenditure from August 2017 to March 2018
Note 2: including KGs within the 4-year grace period

3. The respective highest, lowest, median and average amount of rent reimbursement provided for KGs under RRS breakdown by full and 50% reimbursement, and the respective highest, lowest, median and average amount of rental subsidy provided for KGs under the KG Scheme breakdown by full rental subsidy, 50% rental subsidy and "dual" caps in the 2014-15, 2015-16, 2016-17 and 2017-18 financial years are tabulated at Appendix. The information for 2018-19 is not yet available.

4. The estimated expenditure on rental subsidy for NPM KGs in the 2019-20 is $384 million.

5. In vetting KGs' applications for school fees revisions, we mainly give consideration to the overall fiscal position and actual operation of the KGs concerned, including salaries for teachers and supporting staff, teacher-to-pupil ratio, maintenance of school facilities, general operating expenses, etc. We have not explored the association between a particular factor or subsidy and KGs' school fees. Hence, analysis on KGs' school fees collection in relation to rent reimbursement or rental subsidy is not available.

Appendix

Financial year	Rent reimbursement ($)							
	Highest rent		Lowest rent		Median rent		Average rent	
	Full	50%	Full	50%	Full	50%	Full	50%
2014-15	4,200,000	310,250	37,476	121,457	412,000	270,810	486,805	234,172
2015-16	4,606,000	261,750	37,476	144,720	432,000	209,568	520,500	205,346
2016-17	4,896,000	246,000	37,476	208,152	465,000	227,076	552,446	227,076
2017-18 (Note 1)	2,040,000	102,500	15,615	86,730	204,250	94,615	237,013	94,615

Financial year	Amount of rental subsidy ($)											
	Highest rent			Lowest rent			Median rent			Average rent		
	Full	50%	"Dual" caps	Full	50%	"Dual" caps	Full	50%	"Dual" caps	Full	50%	"Dual" caps
2017-18 (Note 2)	2,856,000	110,250	2,080,000	18,738	91,053	29,400	283,500	100,651	338,240	329,663	100,651	426,403

Note：

(1) refers to the expenditure from April to August 2017 before the implementation of KG Scheme

(2) refers to the expenditure from August 2017 to March 2018; no KG was in receipt of 25% rental subsidy in the 2017/18 school year

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3999)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the students who benefit from the Free Quality Kindergarten Education Scheme from the 2017/18 to 2018/19 school years, please provide the following information:

1. Number of students who receive free kindergarten (KG) education and number of students who need to pay school fees

Type of KG		Number of students	Number of students receiving free KG education	Percentage of students receiving free KG education	Number of students paying school fees	Percentage of students paying school fees
Half-day (HD)						
Whole-day (WD)						
Mixed	HD					
	WD					
Long whole-day (LWD)						
Total						

2. Number of KGs offering free KG education and number of KGs collecting school fees

Type of KG	Number of KGs	Number of KGs offering free KG education	Percentage of KGs offering free KG education	Number of KGs collecting school fees	Percentage of KGs collecting school fees
HD					
WD					
Mixed					
LWD					
Total					

3. Further to the above question, among KGs operating both HD and WD classes and collecting school fees, how many of them charge school fees for both HD and WD classes, and how many of them charge school fees for WD classes only? Please provide the number of such KGs and their percentage out of the total number of KGs operating both HD and WD classes.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 81)

Reply:

(1) In the 2017/18 and 2018/19 school years, the respective numbers and percentages of eligible students in kindergartens (KGs) joining the KG education scheme (Scheme-KGs) who need to and need not pay school fees after deducting government subsidy, and the number of students who need to top up their school fees after deducting fee remission and their percentage out of the total number of eligible students are tabulated at Appendix 1.

(2) In the 2017/18 and 2018/19 school years, the respective numbers and percentages of Scheme-KGs, KGs offering free KG classes and KGs collecting school fees are tabulated in Appendix 2.

(3) Some KGs operate both half-day (HD) and whole-day (WD) classes. This is mainly to flexibly cater for parents' needs. When assessing whether KGs need to collect school fees, we are concerned about whether HD classes are free, and whether the fees collected for WD classes are at a low level. Whether a KG operates both HD and WD classes is not our primary concern. Hence, there is no separate analysis on the collection of school fees by this type of KGs.

Numbers and percentages of eligible students in Scheme-KGs
who need to and need not pay school fees after deducting government subsidy, and
the number of students who need to top up their school fees after deducting fee remission
and their percentage out of the total number of eligible students
in the 2017/18 and 2018/19 school years

School year	Classes	No. of eligible students (Note 1)	No. of students who need not pay school fees after deducting government subsidy and their percentage out of the total no. of eligible students (in bracket)	No. of students who need to pay school fees after deducting government subsidy and their percentage out of the total no. of eligible students (in bracket)	No. of students who need to top up their school fees after deducting fee remission and their percentage out of the total no. of eligible students (in bracket) (Note 2)
2017/18	Half-day (HD)	91 044	82 514 (90.6%)	8 530 (9.4%)	8 119 (8.9%)
	Whole-day (WD)	23 823	3 071 (12.9%)	20 752 (87.1%)	31 122 (66.4%)
	Long whole-day (LWD)	23 074	2 839 (12.3%)	20 235 (87.7%)	
2018/19	HD	84 391	75 513 (89.5%)	8 878 (10.5%)	8 563 (10.1%)
	WD	24 907	2 974 (11.9%)	21 933 (88.1%)	33 687 (70.9%)
	LWD	22 637	1 733 (7.7%)	20 904 (92.3%)	

Note:

(1) The number of eligible students shows the position as at mid-September of the respective school years. Subsidies are disbursed according to the provisional figures reported by schools. Upon confirmation of the figures, adjustments will be made as necessary. Figures for the 2017/18 school year are revised figures, while those for the 2018/19 school year are provisional figures.

(2) As applicants for fee remission are not required to indicate whether or not they are admitted to LWD classes, a breakdown by WD and LWD classes is not available.

Numbers and percentages of Scheme-KGs,
KGs offering free KG classes and KGs collecting school fees
in the 2017/18 and 2018/19 school years

School year	Classes	No. of Scheme-KGs	No. of KGs offering free KG classes and their percentage out of the total no. of Scheme-KGs (in bracket)	No. of KGs collecting school fees and their percentage out of the total no. of Scheme-KGs (in bracket)
2017/18	HD	510	479 (93.9%)	31 (6.1%)
	WD	354	33 (9.3%)	321 (90.7%)
	LWD	246	34 (13.8%)	212 (86.2%)
2018/19	HD	511	477 (93.3%)	34 (6.7%)
	WD	364	48 (13.2%)	316 (86.8%)
	LWD	246	21 (8.5%)	225 (91.5%)

Note:
KGs operating both HD and WD/LWD classes will be counted in the respective row for HD, WD and LWD classes.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4000)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

(a) the measures implemented for New Senior Secondary Applied Learning and the details of the provisions involved in the 5 school years from 2014/15 to 2018/19;

(b) the number of schools offering New Senior Secondary Applied Learning courses, the number of courses offered, the student applications by level, the total number of students taking Applied Learning courses and the amount of subsidy provided by the Government from 2014/15 to 2018/19;

(c) a breakdown of the number of schools offering Applied Learning courses and the student applications for the course clusters under the 6 areas of studies from 2014/15 to 2018/19; and

(d) the measures implemented for Other Learning Experiences under the New Senior Secondary academic structure and the details of the provisions involved in the 5 school years from 2014/15 to 2018/19.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 94)

Reply:

(a) The Senior Secondary Applied Learning (ApL) has been implemented since the 2010/11 school year. The Education Bureau (EDB) supports schools through various means, including providing an implementation handbook and prospectus, briefing sessions and professional development programmes, organising course exhibitions and making arrangements for taster programmes with a view to enabling students to have informed choices when choosing ApL courses. An E-system has also been developed to assist schools

to handle application matters for ApL courses in schools. In addition, we also provide the Diversity Learning Grant and the Student Grant for Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) to support secondary schools in offering ApL and ApL(C) courses respectively. Full subsidy has been provided for students to take ApL courses effective from the 2016/17 school year. The amount of Diversity Learning Grant for ApL and the amount of Student Grant for ApL(C) from the 2014/15 to 2018/19 school years are as follows:

School Year	2014/15	2015/16	2016/17	2017/18	2018/19
Diversity Learning Grant for ApL ($ million)	50	48	59	62	64
Student Grant for ApL(C) ($ million)	2.3	4.4	6.7	7.4	8.6

(b) Each cohort of ApL courses lasts for 2 years and ApL(C) courses lasts for 3 years. For the 5 cohorts from 2014-16 to 2018-20, the number of schools offering Senior Secondary ApL courses (including ApL(C) courses), the number of courses offered, the number of student applications, and the total number of students taking ApL courses are as follows:

Cohort	2014-16	2015-17	2016-18	2017-19	2018-20
No. of schools offering Senior Secondary ApL courses	316	327	339	347	349
No. of courses offered	36	40	36	35	36
No. of student applications (Note: in general, student can only apply to start at S4 for ApL(C) courses and S5 for ApL courses, application by level is thus not applicable.)	8 086	7 320	8 609	8 575	7 566
Total number of students taking ApL courses	4 791	4 506	4 992	4 788	4 614

Information on the Diversity Learning Grant for ApL and the Student Grant for ApL(C) provided by the Government is set out in part (a).

(c) The breakdown of the number of schools offering ApL courses and the student applications for each of the course clusters under 6 areas of studies and ApL(C) for the 5 cohorts from 2014-16 to 2018-20 are as follows:

Number of schools offering ApL courses:

Area of studies	Course Cluster	2014-16	2015-17	2016-18	2017-19	2018-20
Creative Studies	Design Studies	162	153	162	154	147

(d) The EDB has supported schools to implement Other Learning Experiences through various means, including facilitating the sharing of good practices among teachers, developing electronic tools for the Student Learning Profile, making arrangements for career-related and community service projects for students, and organising professional development programmes for teachers. The expenditure of these measures in the 5 school years from 2014/15 to 2018/19 is summarised below:

2014/15 ($ million)	2015/16 ($ million)	2016/17 ($ million)	2017/18 ($ million)	2018/19 ($ million)
0.02	0.29	0.26	0.26	0.2

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4001)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

On support for students and training for teachers in respect of integrated education, please provide the following information in the past 5 years (2014/15 to 2018/19 school years):

(a) the number of students with special educational needs (SEN) in mainstream primary and secondary schools by stage, grade level, SEN type, and tier of support;

(b) the percentage of students with each type of SEN and tier of support out of the total number of students with SEN, and the percentage of expenditure involved;

(c) the annual number of primary and secondary school teachers who completed the Basic, Advanced and Thematic (BAT) courses and the details of expenditure by course type;

(d) the targets set by the Administration as to the percentage and number of teachers who should receive special education training at different stages, and the annual number of primary and secondary schools that failed to meet the targets; and

(e) the number of primary and secondary schools whose Special Educational Needs Coordinators completed special education training and their percentage share against the total number of public sector schools in the 2018/19 school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 95)

Reply:

(a) and (b)
Schools are required to adopt the Whole School Approach to support students with special educational needs (SEN) through the 3-Tier Intervention Model, taking into account their individual circumstances. To help public sector mainstream schools cater for students with SEN, on top of regular subvention, the Education Bureau (EDB) has been providing these schools with additional resources, professional support and teacher training.

The number of students with SEN studying in public sector mainstream primary and secondary schools by grade level and by SEN type in the past 5 years (2014/15 to 2018/19 school years) is set out at Appendix 1. The tier of support for students with SEN is subject to upward or downward adjustment from time to time depending on the performance of the students and the distribution of students under the 3-Tier Intervention Model may change accordingly. Based on the Learning Support Grant (LSG) data, the distribution of public sector mainstream primary and secondary schools eligible for LSG by number of students with SEN requiring tier-2 and tier-3 support from the 2014/15 to 2018/19 school years is set out at Appendix 2.

The percentage of students with each type of SEN out of the total number of students with SEN in the same period is tabulated at Appendix 3.

The expenditure on additional support and services provided for students with SEN studying in public sector mainstream schools from the 2014/15 to 2018/19 school years is as follows:

School Year	2014/15	2015/16	2016/17	2017/18	2018/19 (Revised Estimate)
Expenditure ($ million)	1,222	1,310	1,392	1,638	2,012

It should be noted that schools are required to deploy school resources holistically and flexibly to provide support for the students with SEN, having regard to their individual needs (not according to their type of SEN). Besides, some expenditures are incurred by services for students with SEN as a whole, irrespective of the type of SEN or tier of support (e.g. teacher training and educational psychology support service). Hence, we are not able to provide a breakdown of these expenditures by type of SEN or tier of support.

(c)
To enhance the professional capacity of teachers in supporting students with SEN, the EDB has been providing serving teachers with structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) since the 2007/08 school year. The number of public sector mainstream school teachers having completed the BAT Courses and the expenditure on BAT Courses from the 2014/15 to 2018/19 school years are set out at Table (1) and Table (2) below respectively:

Table (1)

Course	2014/15		2015/16		2016/17		2017/18		2018/19 (Provisional)	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	215	295	221	364	259	444	283	406	304	451
Advanced	74	86	109	147	129	197	157	152	141	178
Thematic	152	316	201	250	204	248	217	270	233	272

Note: BAT Courses for the 2018/19 school year are not yet completed. Figures provided are the anticipated number of teachers who will complete the courses.

Table (2)

Course	Expenditure ($ million)				
	2014/15	2015/16	2016/17	2017/18	2018/19 (Revised Estimate)
Basic	7.3	8.3	10.4	10.3	11.2
Advanced	7.8	12.6	16.3	15.5	16.3
Thematic	24.4	24.2	25.3	27.9	27.7
Total	39.5	45.1	52.0	53.7	55.2

(d)

Teachers' professional development is an ongoing process. After the inception of BAT Courses in the 2007/08 school year, a review of the courses was conducted. The findings showed that the BAT Courses were effective in enhancing teachers' knowledge and skills in catering for students with SEN. In view of the positive feedback, we have launched another round of BAT Courses starting from the 2012/13 school year, with appropriate adjustment to the mode and content of the training programmes to better meet the training needs of the teachers. Starting from the 2014/15 school year, we have further strengthened the practicum of the Advanced and Thematic Courses with a view to providing more opportunities for teachers to apply the knowledge acquired. Taking into account the teacher training profiles as well as the types and number of students with SEN, in the 2015/16 school year, we further raised the training targets. Each public sector mainstream school has been required to arrange teachers to attend the BAT Courses in a systematic and orderly manner within the 5-school-year training cycle. The training targets to be achieved by the end of the 2019/20 school year are: (i) at least 15% to 25% of teachers will have completed the Basic Course; (ii) at least 6 to 9 teachers will have completed the Advanced Course; and (iii) at least 6 to 9 teachers will have completed the Thematic Courses (with at least 1 teacher completing the course(s) under each category as far as possible). Given that the training cycle is still in progress and schools will continuously arrange teachers to attend the BAT Courses each school year, it is not meaningful to set out the number of schools that fail to achieve training targets each year.

Besides, on top of the BAT Courses, the EDB arranges training activities for teachers each school year, which include thematic seminars, conferences, experience sharing sessions and

workshops, etc. To better equip prospective teachers with the knowledge and skills in catering for students with SEN, local teacher education universities have also included modules related to special education or catering for students with SEN in their pre-service teacher training courses. As such, we consider that providing the number of teachers who have completed the BAT Courses could not fully reflect the position of teachers with special education training in every school, or may be misleading otherwise.

(e)

In the 2018/19 school year, 544 public sector mainstream primary and secondary schools had the provision of Special Educational Needs Coordinator (SENCO). Of these SENCOs, around 80% have acquired the necessary qualifications in special education training, and the other SENCOs are expected to complete the remaining courses by the end of 2019.

Number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade level and by SEN type from the 2014/15 to 2018/19 school years (Note 1)

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the EDB provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
2. The numbers of P1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

Table 1

Distribution of public sector mainstream primary and secondary schools eligible for the Learning Support Grant (LSG) by number of students with special educational needs (SEN) requiring tier-2 support from the 2014/15 to 2018/19 school years

Number of students with SEN requiring tier-2 support	Number of schools									
	2014/15		2015/16		2016/17		2017/18		2018/19	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary[Note]	Secondary[Note]	Primary[Note]	Secondary[Note]
0	1	7	0	2	1	2	9	1	0	1
1-10	15	92	15	81	11	57	41	50	13	39
11-20	28	72	26	72	26	77	23	67	18	54
21-30	47	41	35	49	26	56	19	57	20	64
31-40	56	27	55	27	47	27	47	34	31	36
41-50	68	31	63	22	62	26	57	30	72	34

61-70	23	17	33	21	37	25	41	21	53	25
71-80	10	21	19	25	22	25	28	14	46	19
81-90	3	16	7	17	9	15	10	23	27	15
91-100	1	8	4	13	8	18	8	18	13	15
Over 100	0	20	2	28	3	35	7	49	8	62

Note:

Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.

Table 2

Distribution of public sector mainstream primary and secondary schools eligible for the Learning Support Grant (LSG) by number of students with special educational needs (SEN) requiring tier-3 support from the 2014/15 to 2018/19 school years

Number of students with SEN requiring tier-3 support	Number of schools

6-10	14	5	10	6	11	8	12	9	41	21
11-15	2	1	1	3	1	4	3	1	11	11
16-20	0	0	1	0	2	1	1	3	6	0
Over 20	4	3	3	2	2	2	3	3	8	4

Note:

Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.

Percentage of students with each major type of special educational needs (SEN) out of the total number of students with SEN studying in public sector mainstream schools from the 2014/15 to 2018/19 school years

School Year	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit / Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Mental Illness
2014/15	51.4%	4.6%	16.0%	19.1%	0.9%	0.3%	1.8%	5.9%	-
2015/16	49.1%	4.0%	17.2%	20.8%	0.8%	0.3%	1.7%	6.1%	-
2016/17	46.9%	3.7%	18.2%	22.0%	0.7%	0.3%	1.5%	6.7%	-
2017/18	45.7%	3.4%	19.2%	23.2%	0.6%	0.2%	1.5%	6.2%	-
2018/19	44.4%	3.2%	19.4%	24.2%	0.5%	0.2%	1.4%	5.8%	0.8%

Note: Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the EDB provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4002)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

(1) The recurrent public expenditure and total public expenditure on education and their respective percentage shares in the Gross Domestic Product (GDP).

(2) The recurrent expenditure and total expenditure on kindergarten education and their respective percentage shares in the GDP.

(3) The recurrent expenditure and total expenditure on each type of primary schools and their respective percentage shares in the GDP; and the respective school fees of Direct Subsidy Scheme (DSS) schools and international schools.

(4) The recurrent expenditure and total expenditure on each type of secondary schools and their respective percentage shares in the GDP; and the respective school fees of DSS schools and international schools.

(5) With regard to sub-degree places, what is the expenditure on subsidised places paid by public money and what are the respective bursaries offered by the student financial assistance schemes? What are the tuition fees paid by students for subsidised sub-degree places and self-financing sub-degree places respectively?

(6) As for university education, what are the respective expenditures on subsidised places of the undergraduate, taught postgraduate and research postgraduate programmes paid by public money? What are the respective bursaries offered by the student financial assistance schemes? What are the tuition fees paid by students for subsidised degree places and for self-financing degree places respectively?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 96)

Reply:

(1) The requested information regarding the expenditure on education is as follows:

	2019-20 Estimate	
	$ million	*as % of GDP*
Recurrent public expenditure on education	90,584	*3.03*
Total public expenditure on education	123,975	*4.15*

(2) The requested information regarding pre-primary education is as follows:

	2019-20 Estimate	
	$ million	*as % of GDP*
Recurrent expenditure	6,810	*0.23*
Total expenditure	6,918	*0.23*

(3) and (4) The requested information regarding primary and secondary education is as follows:

Expenditure

	2019-20 Estimate	
	$ million	*as % of GDP*
Primary education		
Recurrent expenditure	21,539	*0.72*
-- Out of the above recurrent expenditure, funding allocated to various types of schools includes:-		
--- Government primary schools	1,443	
--- Aided primary schools	18,100	
--- English Schools Foundation Junior Schools	59	
--- Primary schools under the Direct Subsidy Scheme	1,048	
Total expenditure	23,058	*0.77*

	2019-20 Estimate	
	$ million	*as % of GDP*
Secondary education		
Recurrent expenditure	29,612	*0.99*
-- Out of the above recurrent expenditure, funding allocated to various types of schools includes:-		
--- Government secondary schools	1,740	
--- Aided secondary schools	23,181	
--- Caput schools	110	
--- English Schools Foundation Secondary Schools	173	
--- Secondary schools under the Direct Subsidy Scheme	3,529	
Total expenditure	30,970	*1.04*

Recurrent expenditure on education for the respective education areas covers recurrent provision to schools as well as student financial assistance to students under various schemes administered by the Working Family and Student Financial Assistance Agency.

Total expenditure on education for the respective education areas comprises recurrent expenditure, non-recurrent expenditure and capital expenditure under General Revenue Account, as well as capital expenditure under Capital Works Reserve Fund (CWRF) (mainly for capital works projects) and Loan Fund. Total expenditure by school type for primary and secondary education is not available as some projects under CWRF cannot be classified by school type, such as the feasibility study and site investigation for vacant school premises.

<u>School fees for international schools and schools under the Direct Subsidy Scheme (DSS)</u>

For international schools, their school fees in the 2018/19 school year range from $5,800 to $205,500 at primary level and from $38,500 to $246,000 at secondary level. For schools under DSS, their school fees in the 2018/19 school year are set out in the table below:

Amount of school fee[#]	Primary 1 to 6* (No. of schools)	Secondary 1 to 3* (No. of schools)	Secondary 4 to 6* (No. of schools)
$0 - $5,000	0	12	9
$5,001 - $10,000	1	9	10
$10,001 - $20,000	8	8	8
$20,001 - $30,000	6	8	12
$30,001 - $50,000	4	14	16
$50,001 - $80,000	2	3	3
$80,001 - $97,000	0	1	2

[#] *The above categories do not cover school fees payable by non-local students or for non-local curricula in schools offering both local and non-local curricula.*

[*] *For schools that are charging different school fees for different class levels, the highest school fee within the range of class level is used for classification purpose.*

(5) and (6) The requested information regarding sub-degree and degree places is as follows:

Expenditure

	2019-20 Estimate
	$ million
Funding allocated to University Grants Committee-funded universities	20,102
Financial assistance to students pursuing sub-degree/degree/post graduate programmes[ϕ]	
-- Tertiary Student Finance Scheme – Publicly-funded Programmes	
--- sub-degree programmes	188.8
--- degree programmes	625.9
--- post-graduate programmes	5.5
-- Financial Assistance Scheme for Post-secondary Students	
--- sub-degree programmes	417.5
--- degree programmes	341.6
-- One-off cash grant	
--- sub-degree programmes	33.7
--- degree programmes	57.1
--- post-graduate programmes	0.3
Funding allocations for the Study Subsidy Scheme for Designated Professions/Sectors and the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong	1,201

ϕ The financial provision represents the projected grants to students in the 2019/20 academic year.

Funding for University Grants Committee (UGC)-funded programmes is subsumed under the block grant to universities without precise requirements as to how it should be spent. Universities are given the autonomy to allocate funds internally to programmes at different levels (e.g. sub-degree, undergraduate, taught postgraduate and research postgraduate programmes) as they see fit. UGC is therefore unable to identify or attribute the actual expenditure on specific levels of studies.

In addition, the Vocational Training Council (VTC) offers a wide range of vocational and professional education and training programmes, some of which lead to qualifications at sub-degree and above level. Funding for the publicly-funded programmes offered by VTC is subsumed under the annual subvention to VTC and the breakdown of funding by level is not available. In 2019-20, the estimated recurrent subvention to VTC in respect of vocational and professional education is $2.507 billion.

Regarding self-financing post-secondary education, in order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP is regularised from the 2018/19 academic year. The number of subsidised places is increased from about 1 000 per cohort to about 3 000. Current students of the designated programmes also receive the subsidy starting from the 2018/19 academic year. There are about 7 500 student beneficiaries in the 2018/19 academic year. As announced in the 2018 Policy Address, based on the advice of the Task Force on Review of Self-financing Post-secondary Education, the Government will expand the coverage of SSSDP. Starting from the 2019/20 academic year, about 2 000 students per cohort will receive subsidy to pursue designated full-time locally-accredited self-financing sub-degree programmes in selected disciplines. Current students of the designated programmes will also receive the subsidy.

Starting from the 2017/18 academic year, the Government has launched the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong to provide a non-means-tested annual subsidy of up to around $30,000 (adjusted according to the Composite Consumer Price Index) for eligible students pursuing full-time locally-accredited local and non-local self-financing undergraduate (including first-year-first-degree and top-up degree) programmes offered by eligible institutions in Hong Kong (save for those enrolled in places already supported under SSSDP). The subsidy is only applicable to eligible Hong Kong students. For those studying self-financing first-year-first-degree programmes, they must have attained "3322" results in the Hong Kong Diploma of Secondary Education Examination (level 3 for Chinese Language and English Language as well as level 2 for Mathematics Compulsory Part and Liberal Studies); for those studying self-financing top-up degree programmes, they must have the relevant sub-degree qualifications. In the 2018/19 academic year, there are 16 eligible institutions, including 10 approved post-secondary colleges registered under the Post Secondary Colleges Ordinance (Cap. 320), the Open University of Hong Kong, the Technological and Higher Education Institute of Hong Kong and the School for Higher and Professional Education under the VTC, the Hong Kong Art School, the Hong Kong Institute

of Technology, and Savannah College of Art and Design Foundation (Hong Kong) Limited. In the 2018/19 academic year, about 17 000 eligible students received the subsidy.

Apart from the above, in order to further encourage continuing education, the Government has, since the 2016/17 academic year, launched a pilot scheme to provide tuition fee subsidy for 3 cohorts of students admitted to designated professional part-time programmes (including some higher diploma programmes at sub-degree level) offered by VTC, covering programmes in the disciplines of construction, engineering and technology. It is estimated that 5 600 students will benefit from the pilot scheme, which involves a total commitment of $200 million, including provision for VTC's administrative cost on implementation of the pilot scheme. The Government will allocate an additional funding of $234 million to extend the coverage of the scheme and offer tuition fee subsidy to another 5 600 students admitted to the above-mentioned designated part-time programmes offered by VTC from the 2019/20 to 2021/22 academic years. In addition, the scope of the pilot scheme will be expanded to cover creative industry programmes and it is estimated that tuition fee subsidy will be provided for 2 500 practitioners in the creative industry.

Tuition fees

UGC-funded programmes and publicly-funded programmes in VTC

The tuition fee for local students of the UGC-funded sub-degree programmes offered by the City University of Hong Kong and the Hong Kong Polytechnic University is set at $31,575 per year, while that of the Education University of Hong Kong is $15,040 per year. The tuition fee for local students of the UGC-funded undergraduate, taught postgraduate and research postgraduate programmes is $42,100 per year. The indicative tuition fees shall remain unchanged for the 2019/20 academic year. As regards VTC, the tuition fee for publicly-funded sub-degree programmes for the 2019/20 academic year will range from $30,800 to $31,570 per year.

SSSDP programmes

The average annual tuition fees of subsidised places for designated undergraduate programmes will range from $9,565 to $67,875 (after deducting subsidy) for the 2019/20 academic year. The average annual tuition fees of subsidised places for designated sub-degree programmes will range from $18,100 to $59,140 (after deducting subsidy) for the 2019/20 academic year.

Self-financing programmes

The average annual tuition fees (before deducting applicable subsidy) of full-time locally-accredited self-financing sub-degree and undergraduate programmes for the 2018/19 academic year are set out in the table below. Tuition fee information for the 2019/20 academic year is not yet available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4003)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide:

(1) a breakdown of expenditures in the original and revised estimates for 2018-19 and the estimate for 2019-20, together with reasons for the changes;

(2) details on the school-based professional support services for kindergartens, primary and secondary schools;

(3) details on the assessment tools for School Self-evaluation and the conduct of External School Reviews;

(4) details on the assistance in various education reform initiatives; and

(5) details on the pilot project in some public sector schools for strengthening schools' internal management and reducing teachers' administrative work.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 98)

Reply:

(1) The expenditures grouped under Programme (8) Policy and Support are operating expenses for formulation of policies and provision of support to the education sector. The estimates for 2018-19 and 2019-20 are:

	2018-19 Original Estimate	2018-19 Revised Estimate	2019-20 Estimate
Operating expenses for formulation of policies and provision of support to the education sector	$ million 2,148.0	$ million 2,274.9 (+5.9%)	$ million 2,346.0 (+3.1%)

The revised estimate for 2018-19 under Programme (8) Policy and Support is $126.9 million or 5.9% higher than the original estimate. This is mainly due to the approval of a non-recurrent item, namely the payment of examination fees for school candidates sitting for the 2019 Hong Kong Diploma of Secondary Education Examination, which was not included in the original estimate, by the Finance Committee in 2018-19.

Provision for 2019-20 is $71.1 million or 3.1% higher than the revised estimate of 2018-19. This is mainly due to increased provision for meeting the required operating expenses. The increased provision is partly offset by the decrease in cash flow requirement upon the completion of other non-recurrent items, which include payment of examination fees for school candidates sitting for the 2019 Hong Kong Diploma of Secondary Education Examination.

Re (2) to (5). The administrative expenses involved in the education services/initiatives listed in the questions are absorbed in the overall operating expenses of the Education Bureau (EDB) and cannot be separately identified. The following sets out the details together with the specific funding for implementing the education services/initiatives concerned:

Education services / initiatives	Specific funding (if any)
<u>School-based professional support services (SBSS) for kindergartens, primary, secondary and special schools</u> EDB provides schools with a wide range of SBSS in areas such as catering for learner diversity, supporting non-Chinese speaking students to learn Chinese language, supporting students with special educational needs, facilitating self-directed learning and promotion of Science, Technology, Engineering and Mathematics (STEM) education. EDB may, depending on the needs and circumstances of participating schools, provide appropriate school-based support services, including on-site professional support services provided by the school-based support sections of EDB and projects funded by the Education Development Fund (EDF) such as University-School Support Programmes, Professional Development Schools Scheme, School Support Partners (Seconded Teacher) Scheme as well as inter-school collaboration and professional sharing. Schools are invited to apply for the SBSS around April each year according to their needs.	A provision of $114.2 million has been earmarked under the EDF for funding progammes in the 2018/19 school year. As the EDF will come to a close by the end of the 2018/19 school year, there will not be any support programmes funded by the EDF from the 2019/20 school year but the support for schools to implement new education and curriculum initiatives will continue with EDB's funding.
<u>Assessment tools for School Self Evaluation (SSE) and the conduct of External School Reviews (ESR)</u> To facilitate schools' continuous development and improvement through SSE, EDB provides a range of self-evaluation tools (e.g. Performance Indicators, Key Performance Measures and a set of stakeholder questionnaires, etc.), and conducts ESR to validate SSE and provide schools with suggestions for improvement.	

Education services / initiatives	Specific funding (if any)
<u>Assistance in various education reform initiatives</u> *Implementation of new academic structure* As a crucial part of the education reform that commenced in 2000, the New Academic Structure (NAS) has been implemented in senior secondary (SS) education since September 2009 to provide a broad and balanced curriculum with diversified choices and pathways to cater for students' different interests, abilities and needs. Upon completion of the first SS curriculum and assessment cycle under the NAS in 2012, EDB, the Curriculum Development Council and the Hong Kong Examinations and Assessment Authority jointly conducted the NAS Review with a view to addressing schools' concerns in the implementation process as well as responding to the changes in our society and around the world. With the completion of the NAS Review and the announcement of the last batch of recommendations in June 2015, curriculum renewal has been following the natural development cycle of each subject or curricular area in a regular and continual manner. EDB will continue to support schools through, for example, providing training to build the professional capacity of teachers, fostering professional exchanges and sharing of good practices, development of quality learning and teaching resource materials, and disbursement of various SS grants, in providing quality secondary education for the benefit of students. The NAS has also been implemented in the post-secondary education sector since the 2012/13 academic year. Post-secondary institutions have made necessary curriculum and assessment changes which aim to facilitate students' balanced development and develop among them a broad knowledge base, sound language and generic skills, as well as a propensity for life-long learning. The four-year undergraduate programmes, which comprise the core, major and elective courses with an emphasis on general education and exposure to both academic and non-academic skills and knowledge, will provide smoother articulation for further studies or work in Hong Kong. The international recognition given to the NAS also facilitates students' articulation to other major education systems in the world.	In 2005, the Finance Committee approved a non-recurrent commitment of $2,447.2 million for implementing the measures to support the development of the new academic structure in both secondary school and UGC sectors. The project has already been completed in 2013-14 and the total spending of the project is $2,436.8 million. The total provision for disbursement of various recurrent SS grants under Programme (4) Secondary Education and Programme (5) Special Education is about $210 million in 2019-20.

Education services / initiatives	Specific funding (if any)
School places allocation As part of the Education Reform initiatives, the arrangements under the Primary 1 and Secondary 1 places allocation systems have been revised starting from 2000, including the abolition of the Academic Aptitude Test. The revised arrangements continue in the 2018/19 and 2019/20 school years.	
<u>Pilot project in some public sector schools for strengthening schools' internal management and reducing teachers' administrative work</u> The Pilot Project on Strengthening Schools' Administration Management (Pilot Project) aims at supporting schools to strengthen their school administration management, as well as streamline procedures, thereby enhancing efficiency and unleashing teachers' capacity. Each participating school is provided with professional support and a grant of $0.45 million for trying out appropriate measures to enhance school administration. A total of 132 public sector schools (including government and aided schools) have participated in the Pilot Project since its launch in the 2011/12 school year. In the light of the successful experience and good foundation of the Pilot Project, a one-off Strengthening School Administration Management (SAM) Grant at $0.25 million has been provided in 2016 for public sector and Direct Subsidy Scheme schools which had not participated in the Pilot Project before to enable them to initiate improvement measures for enhancing the effectiveness of school administration management and unleashing teachers' capacity. We will continue to enhance the Web-based School Administration and Management System to further strengthen our support to all schools.	A total of $59.4 million was provided to schools for conducting the Pilot Project. The Pilot Project was completed at the end of 2016. The total provision of the SAM Grant in 2015-16 was $214.3 million. The grant was also ended in the 2017/18 school year.

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the number of non-Chinese speaking (NCS) students studying in kindergartens, primary schools, secondary schools and tertiary institutions by grade level and the student unit cost from the 2014/15 to 2018/19 school years;

2. Please provide the number of schools provided with additional recurrent funding by the Education Bureau (EDB), the number of NCS students in the schools concerned by grade level, the amount of funding received, and the percentage of NCS students in these schools among all NCS students in Hong Kong from the 2014/15 to 2018/19 school years;

3. Please provide the number of schools not provided with additional recurrent funding, the number of NCS students in the schools concerned by grade level, and the percentage of NCS students in these schools among all NCS students in Hong Kong from the 2014/15 to 2018/19 school years;

4. Please provide details of educational support measures for NCS students provided by EDB and the funding involved from the 2014/15 to 2018/19 school years;

5. The educational support measures for NCS students and the expenditure involved from the 2014/15 to 2018/19 school years; and

6. How will the Administration review the effectiveness of the education for NCS students?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 100)

Reply:

1. The number of non-Chinese speaking (NCS) students by level and by grade from the 2014/15 to 2018/19 school years is tabulated at Annex A. As regards the unit cost, the provision of teachers and grants by the Government to public sector schools is basically the same, whereas the total amount of resources for individual schools may vary depending on the education initiatives that a school has applied for.

2. Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional recurrent funding ranging from $0.8 million to $1.5 million per year, depending on the number of NCS students admitted, to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students. From the 2014/15 to 2018/19 school years, the number of schools (excluding special schools) provided with the above additional recurrent funding to enhance the support for NCS students in learning the Chinese language is 173, 197, 216, 228 and 241 respectively. The number of NCS students studying at different grade levels in the schools concerned from the 2014/15 to 2018/19 school years is tabulated at Annex B. From the 2014/15 to 2018/19 school years, the percentage of NCS students studying in these schools among all NCS students in public sector schools and DSS schools offering the local curriculum (excluding special schools) in Hong Kong is 93.5%, 93.5%, 94.1%, 93.7% and 93.8% respectively.

3. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". From the 2014/15 to 2018/19 school years, the respective number of schools is 414, 410, 382, 387 and 391. Most of them have admitted less than 4 NCS students. According to the information collected through the Student Enrolment Survey, the number of NCS students studying at different grade levels in these schools is tabulated at Annex C. The percentage of NCS students studying in these schools among all NCS students in public sector schools and DSS schools offering the local curriculum (excluding special schools) in Hong Kong is 6.5%, 6.5%, 5.9%, 6.3% and 6.2% respectively. Starting from the 2014/15 school year, these schools may apply for an additional funding of $50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. We encourage these schools to make good use of their immersed Chinese language environment, work out holistic plans that

dovetail with existing measures and resources in light of their school-based circumstances, as well as deploy resources flexibly and apply for additional funding as appropriate to support their NCS students in mastering the Chinese language.

4. & 5. The educational support measures for NCS students from the 2014/15 to 2018/19 school years and the expenditure are tabulated at Annex D.

6. It has only been some 4 years since the implementation of the "Learning Framework" and other support measures in the 2014/15 school year. It takes time for these measures to take root and create a sustainable impact. It is expected that the Chinese proficiency of NCS students (especially those who have started learning the Chinese language at kindergarten level) will gradually improve. EDB will continue to collect information to evaluate the effectiveness of its support measures and make refinements where appropriate. In this regard, while looking into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning, we also understand that the learning effectiveness of NCS students is affected by other factors (such as parents' expectation and cooperation, students' learning attitude, etc.).

Annex A

Number of non-Chinese speaking (NCS) students by level and by grade from the 2014/15 to 2018/19 school years

Level	Grade	2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year
Pre-primary (K1 to K3)	K1	4 336	4 470	4 477	4 505	4 698

	S1-S6	**8 224**	**8 782**	**8 971**	**9 383**	**9 481**

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above figures cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures for pre-primary level cover students in kindergarten-cum-child care centres. Figures cover both local and non-local kindergartens.
4. Figures for primary and secondary levels cover students in public sector and Direct Subsidy Scheme schools, but do not include students in special schools.
5. Eligible applicants, irrespective of their race and language spoken at home, have equal opportunities to be admitted to programmes in tertiary institutions (including certificate/diploma, higher diploma, sub-degree and undergraduate degree programmes). Statistics with breakdown by local and non-local NCS students are not available.

Annex B

Number of non-Chinese speaking students studying at different grade levels in schools provided with additional recurrent funding from the 2014/15 to 2018/19 school years

Grade	2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year

Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays, and provide learning and teaching resources for those NCS students who have a late start in the learning of the Chinese language, and to organise workshops for experience sharing with teachers and workshops for parents of NCS students with a view to strengthening collaboration with parents of NCS students in the support for NCS students' learning of Chinese	3.8	3.7	3.9	4.7	3.3
Summer Bridging Programme for NCS students in primary schools Starting from 2013, parents of NCS students could accompany their children with a view to enhancing their exposure to, and use of, Chinese and	2.8	2.6	2.6	2.3	2.1

support for their children.					
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	2.3	4.4	6.7	7.4	8.6
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that subsidised school candidates are only required to pay a "subsidised examination fee" on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE) Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level.	1.87	2.09	2.58	2.94	4.24 Note 2

In the 2018/19 and 2019/20 school years, secondary schools admitting NCS students are provided with additional resources to support their NCS students in using Chinese to learn Chinese History.	-	-	-	-	15.0
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art under the Language Fund	1.09	2.35	1.18	1.72	4.28
Support for kindergartens admitting NCS students - (a) University-School Support Programmes (USP) financed by the Education Development Fund: (i) a 3-year project to support kindergartens to enhance the learning and teaching of Chinese for NCS children from the 2012/13 to 2014/15 school years	3.0	-	0.7	-	-

(ii) 2 projects to support NCS students in kindergartens in the transition to primary schools from the 2015/16 to 2016/17 school years and from the 2017/18 to 2018/19 school years respectively	-	Note 3	Note 3	Note 3	Note 3
(b) School-based professional support services	Note 1	Note 1	Note 1	Note 1	Note 1
(c) With the implementation of the new kindergarten education policy starting from the 2017/18 school year:					
(i) a grant comparable to the recommended salary of one kindergarten teacher has been provided to kindergartens admitting 8 or more NCS students for supporting NCS students	-	-	-	54.0	60.7

(ii) specific training courses for kindergarten teachers on support of NCS students	-	-	-	1.4	1.5 Note 4

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different funds, and a breakdown of expenditure by item is not available.

2. With the approval of the relief measure announced in the 2018-19 Budget to pay the examination fees for school candidates sitting for the 2019 HKDSE by the Finance Committee of the Legislative Council at the meeting on 18 May 2018, the "subsidised examination fee" of eligible NCS students sitting for the non-local Chinese Language examinations concerned in the 2018/19 school year is waived accordingly.

3. Regarding the USP projects, the actual expenditure is $2.25 million, $8.33 million and $2.88 million for the 2015/16, 2016/17 and 2017/18 school years respectively, and the estimated expenditure is $5.46 million for the 2018/19 school year. As the USP projects are implemented in both kindergartens and primary schools, a breakdown of expenditure by kindergartens and primary schools is not available.

4. Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate kindergartens in arranging teachers to attend specified training courses on supporting NCS students. The relevant expenditure has been included in the estimated expenditure for these training courses.

Director of Bureau: Secretary for Education

Question:

Please give a breakdown, by school category, by school district and by school sponsoring body, of the number of schools which have established an incorporated management committee (IMC), their percentage out of the total number of all aided schools, the total number of schools and the amount of grant provided by the Administration for setting up IMCs in aided schools from the 2014/15 to 2018/19 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 101)

Reply:

As at 1 March 2019, 833 aided schools of 231 school sponsoring bodies (SSBs) have set up their incorporated management committees (IMCs). In the school years from 2014/15 to 2018/19 (as at 1 March 2019), the number of aided schools is 840, 839, 839, 841 and 840 respectively and the percentage of aided IMC schools among all aided schools is 98.0%, 98.3%, 98.9%, 99.2% and 99.2% respectively. The number of aided IMC schools by district and category in the school years from 2014/15 to 2018/19 is at Appendix.

The actual expenditure from 2014-15 to 2017-18 and the revised estimated expenditure in 2018-19 for supporting schools to set up their IMCs are $34.5 million, $33.1 million, $25.7 million, $5.6 million and $6.2 million respectively.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4006)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the student-to-teacher ratios, please provide the following information:

(a) For the 2014/15 to 2018/19 school years and the estimate for the 2019/20 school year, what are the reasons for the changes in the student-to-teacher ratios in government and aided primary schools and the expenditures involved?

(b) For the 2014/15 to 2018/19 school years and the estimate for the 2019/20 school year, what are the reasons for the changes in the student-to-teacher ratios in government and aided secondary schools and the expenditures involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 103)

Reply:

(a) The student-to-teacher ratios in public sector primary schools were reduced from 14.0:1 to 13.7:1 in the school years from 2014/15 to 2018/19. It is projected that improvement of the ratio will continue in the 2019/20 school year. The Education Bureau (EDB) endeavours to improve the student-to-teacher ratios in public sector primary schools and has continuously injected resources for implementing various new initiatives to provide additional teaching staff for schools. Examples include the implementation of Small Class Teaching and the provision of specific grants under various initiatives such as the Learning Support Grant, which provides flexibility for schools to employ additional teachers. In addition, starting from the 2017/18 school year, the teacher-to-class ratio for public sector primary schools (including special schools) has been increased by 0.1 across-the-board. As the EDB does not capture school-based information on the deployment of grants for employing additional teachers, we are unable to provide the actual expenditure on such improvements.

(b) The student-to-teacher ratios in public sector secondary schools were reduced from 13.0:1 to 11.4:1 in the school years from 2014/15 to 2018/19. It is projected that improvement of the ratio will continue in the 2019/20 school year. The improvement of the student-to-teacher ratios is mainly due to the introduction of a series of relief measures to tackle the decline in secondary school student population, including the reduction in the number of students allocated to each Secondary 1 class, the implementation of Voluntary Optimisation of Class Structure Scheme and the extension of retention period of surplus teachers, all of which help retain serving teachers. All along, the EDB has been injecting resources for implementing various new initiatives to provide schools with additional teaching manpower. For example, starting from the 2017/18 school year, the teacher-to-class ratio for public sector secondary schools (including special schools) has been increased by 0.1 across-the-board. Moreover, the provision of specific grants for the new senior secondary curriculum, and other grants under various initiatives such as the Learning Support Grant, the Career and Life Planning Grant, etc., also enables schools to employ additional teachers. As the EDB does not capture school-based information on the deployment of grants for employing additional teachers, we are unable to provide the actual expenditure on such improvements.

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding graduate teachers and certificated masters/mistresses in public sector schools, please provide the following information:

1. The number and percentage of teachers appointed as graduate teachers and certificated masters/mistresses and their respective wastage rates in public sector schools (including special schools); the number, percentage and wastage rate of certificated masters/mistresses with a recognised degree qualification in public sector schools (including special schools); and the total number of teachers in public sector schools (including special schools) from the 2014/15 to 2018/19 school years; and

2. The Government is going to fully implement the all-graduate teaching force policy. In this connection, what measures will the Education Bureau take to implement the policy and what will be the expenditure involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 105)

Reply:

1. From the 2014/15 to 2018/19 school years, the respective number, percentage, rate of wastage and total number of teachers appointed as graduate teachers and non-graduate teachers in public sector schools are as follows:

Primary Schools (Government and Aided)

School Year	Graduate Teachers			Non-graduate Teachers			Total Number of Teachers*
	Number of Teachers*	%	Wastage Rate (%)^	Number of Teachers*	%	Wastage Rate (%)^	
2014/15	7 550	39.9	3.0	11 400	60.1	5.2	18 950

Special Schools

School Year	Graduate Teachers			Non-graduate Teachers			Total Number of Teachers*
	Number of Teachers*	%	Wastage Rate (%)^	Number of Teachers*	%	Wastage Rate (%)^	
2014/15	810	48.2	4.6	870	51.8	8.8	1 680
2015/16	840	49.6	4.6	860	50.4	9.0	1 700
2016/17	860	51.2	3.6	820	48.8	10.5	1 690
2017/18	940	50.9	4.4	910	49.1	9.3	1 850
2018/19 (Estimate)	990	52.6	6.6	890	47.4	10.5	1 870

Regarding non-graduate teachers, the number of teachers with degree qualifications (degree holders), their percentage share among all non-graduate teachers, and their respective wastage rate in public sector schools for the school years from 2014/15 to 2018/19 are as follows:

Primary Schools (Government and Aided)

School Year	Non-graduate Teachers		
	Number of Degree Holders*	%	Wastage Rate (%)^
2014/15	10 600	93.0	4.6
2015/16	10 770	93.9	4.9
2016/17	10 740	94.4	5.1
2017/18	11 390	95.0	4.0
2018/19 (Estimate)	11 270	95.5	5.3

Secondary Schools (Government, Aided and Caput)

School Year	Non-graduate Teachers		
	Number of Degree Holders*	%	Wastage Rate (%)^
2014/15	4 580	92.2	6.6
2015/16	4 590	93.1	7.5
2016/17	4 490	93.6	6.8
2017/18	4 410	94.3	6.0
2018/19 (Estimate)	4 300	94.6	5.9

Special Schools

School Year	Non-graduate Teachers		
	Number of Degree Holders*	%	Wastage Rate (%)^
2014/15	810	92.8	9.3
2015/16	800	94.0	8.3
2016/17	780	94.5	10.3
2017/18	870	95.4	9.8
2018/19 (Estimate)	850	95.4	10.6

* Numbers are rounded to the nearest 10.

^ "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers concerned as at mid-September of the preceding school year. "Drop-out teachers" refer to the teachers who were serving in a school as at mid-September of the preceding school year but were no longer serving in any primary, secondary or special school as at mid-September of the school year concerned.

Remark: The numbers of teachers above cover teachers within and outside establishment.

2. To raise the professional status of teachers, retain and attract talents into the teaching profession, the Government announced in the Chief Executive's 2018 Policy Address that the all-graduate teaching force policy would be implemented in public sector primary and secondary schools in one go in the 2019/20 school year. Starting from the 2019/20 school year, the ratio of graduate teacher posts in public sector primary and secondary schools will be increased in one go to 100%, so that the ratio of graduate teacher posts in public sector primary schools will be increased from the current 65% to 100%, and the ratio of graduate teacher posts in public sector secondary schools will be increased from the current 85% to 100%. Meanwhile, the non-graduate teacher posts provided for schools under various measures will be turned into graduate teacher posts in the 2019/20 school year. Schools may, in light of their own circumstances, fully implement the all-graduate teaching force policy in one go or in stages by the 2020/21 school year. The annual additional funding involved is about $1.5 billion.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4008)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

At present, aided primary, secondary and special schools are allowed to retain fund balance up to 12 months' provision of their recurrent subvention under Operating Expenses Block Grant (OEBG) for non-Incorporated Management Committee schools or Expanded Operating Expenses Block Grant (EOEBG) for Incorporated Management Committee schools, while government primary and secondary schools are allowed to retain fund balance up to 12 months' provision of their recurrent funding under Expanded Subject and Curriculum Block Grant (ESCBG). Please provide the following information:

(a) Please list the cumulative amount of reserve under OEBG/EOEBG/ESCBG and the number of months of the recurrent subvention of the school that the said amount represents in the 5 school years from 2014/15 to 2018/19 in the tables below;

(A) Aided and government secondary schools

Amount of reserve	2014/15 school year		2015/16 school year		2016/17 school year		2017/18 school year		2018/19 school year

(b) Please list the highest, lowest, average and median amount of grants (including recurrent grants/time-limited grants/one-off grants, etc.) provided by the Government to public sector primary and secondary schools as well as the highest, lowest, average and median amount of unspent grants in the 5 school years from 2014/15 to 2018/19.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 108)

Reply:

(a) A breakdown of the cumulative balances under Operating Expenses Block Grant (OEBG)/Expanded Operating Expenses Block Grant (EOEBG)/Expanded Subject and Curriculum Block Grant (ESCBG) for aided and government schools at the end of 2014/15, 2015/16 and 2016/17 school years is set out at Annex 1.

The information on cumulative balances of aided schools is based on the annual audited accounts submitted by aided schools to the Education Bureau (EDB). Since some aided schools have yet to submit their accounts for the 2017/18 school year and the 2018/19 school year has not finished, relevant information for these two school years is not yet available.

(b) The highest, lowest, average and median amount of the major grants provided by the Government to aided and government schools during the financial years from 2014-15 to 2018-19, together with the highest, lowest, average and median amount of unspent grants from 2014-15 to 2016-17, are set out at Annex 2.

The information on unspent grants of aided schools is based on the annual audited accounts submitted by aided schools to the EDB. Since aided schools are still submitting their accounts for the 2017/18 school year and the 2018/19 school year has not finished, information on unspent grants for these two school years is not yet available.

Notes

1. The information on cumulative balances of aided schools is based on the annual audited accounts submitted by aided schools to the EDB. Since aided schools are still submitting their accounts for the 2017/18 school year and the 2018/19 school year has not finished, relevant information for these two school years is not yet available.

2. The information on government schools is provided on a financial year basis.

Annex 2

Notes

1. To present a more realistic picture of the unspent balance of grants retained by individual schools, this Annex only covers government grants that are received by the majority of aided and government schools (i.e. more than 50% of aided and government secondary schools, aided and government primary schools, or aided special schools as appropriate). Other grants that are not received by the majority of aided and government schools are not included in the Annex.

2. The information on government grants received by aided and government schools and the respective unspent amount of government schools are calculated on a financial year basis, while the respective unspent amount of aided schools is calculated on a school year basis.

3. The information on unspent grants of aided schools is based on the annual audited accounts submitted by aided schools to the EDB. Since some aided schools have yet to submit their accounts for the 2017/18 school year and the 2018/19 school year has not finished, information on unspent grants for these two school years is not yet available.

4. Amount of unspent grants is calculated after taking into account the amount brought forward from the previous school/financial year and after deducting the excessive surplus amount to be returned to the Government.

5. The information on government grants received by aided and government schools for the financial year 2018-19 shows the position as at 28 February 2019.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4011)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the financial position of the Hong Kong Examinations and Assessment Authority in respect of conducting Territory-wide System Assessment (TSA) and Basic Competency Assessments (BCA), please provide the following information:

(1) The cost per subject entry in each of the past 3 years, broken down by items of expenditure;

(2) The number of students taking the TSA/BCA broken down by year of study; and the cost of providing special examination arrangements for candidates with special educational needs in each of the past 3 years; and

(3) The estimated expenditure and number of candidates for the upcoming TSA.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 30)

Reply:

(1)

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Student Assessment (SA)* and Territory-wide System Assessment (TSA). The payment, which is settled with the HKEAA according to the terms of contract and service items (instead of subjects) on an annual basis, includes item setting, printing, and administration fees on administering schools' participation in the assessment. In the past 3 years, the expenditure on SA, TSA and related study under the project is tabulated as follows:

Contract Period	Expenditure ($ million)		Total expenditure ($ million)	Average annual expenditure ($ million)
	SA	TSA and related study under the project		
2015-2018	3*	290	293	73

Note: Since January 2017, SA has been upgraded to Student Assessment Repository (STAR) platform. The expenditure on STAR is subsumed under the overall expenditure of EDB.

(2)

According to the information provided by the HKEAA, about 2 500 Primary 6 students and 50 000 Secondary 3 students participated in TSA 2018. The number of students participating in TSA in the 2015/16 and 2016/17 school years is provided in the table below:

School Year/Level	Primary 3	Primary 6	Secondary 3
2015/16 school year	5 156	1 952△	55 278
2016/17 school year	54 506	47 220	52 707

△ Since 2012, Primary 6 TSA has been conducted in odd-numbered years. Schools can opt to take the assessment in even-numbered years on a voluntary basis.

Accepting the Committee's recommendations on Primary 3 TSA last year, the EDB has, starting from 2018, conducted Primary 3 TSA with a low-stake approach of "no student names, no school names, no collection of reports and selection of participants by sampling". At the territory-wide level, the HKEAA samples around 10% of students from each public sector and Direct Subsidy Scheme school for Primary 3 TSA each year. If schools consider necessary, the HKEAA can arrange participation of their Primary 3 students in TSA in full cohort.

Since the number of schools arranging participation of their Primary 3 students in TSA in full cohort (and the related number of students) are not pertinent to the policy objective, the EDB does not inquire the HKEAA about the schools that opt for full participation of their Primary 3 students in TSA (and the related number of students), and no longer maintains the

information on the breakdown of primary and secondary students participating in TSA. In line with the policy intent of the new assessment arrangements, the HKEAA will no longer disclose the relevant information.

Separately, according to the information provided by the HKEAA, the expenditure involved in providing special examination arrangements for students with special educational needs and non-Chinese speaking students participating in TSA in the 2015/16, 2016/17 and 2017/18 school years was about $90,000, $160,000 and $140,000 respectively. A breakdown of the expenditure by student group is not available.

(3)

The TSA of this school year will be conducted in the second quarter of 2019. Subject to actual arrangements at the time, the estimated expenditure is $85 million.

The EDB has not estimated the number of students participating in TSA. The Primary 3 TSA in the 2018/19 school year will continue to be conducted on a sampling basis. Having regard to school-based context, schools may apply to the HKEAA on their own for full cohort participation in the Primary 3 TSA. Moreover, since 2019 is an odd-numbered year, the Primary 6 TSA will be conducted in the form of full cohort participation, while all Secondary 3 students in the territory will participate in the TSA as usual.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4014)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding long-serving full-time non-civil service contract (NCSC) staff in the Education Bureau, please provide the following information:

1. What is the number of NCSC staff with continuous service of 5 to less than 10 years as at end-2018? What duties did they perform? How many of them were teachers in government schools? How many of them have been converted to permanent staff?

2. What is the number of NCSC staff with continuous service in the same position for 5 or more years as at end-2018? What duties did they perform? How many of them were teachers in government schools? How many of them have been converted to permanent staff?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 43)

Reply:

As at 31 December 2018, there were 113 full-time non-civil service contract (NCSC) staff with continuous service of 5 to less than 10 years. They were mainly responsible for providing janitor service, educational support and clerical service.

As at 31 December 2018, there were 119 full-time NCSC staff serving continuously in the same position for 5 years or more in the Education Bureau (EDB). They were mainly responsible for providing janitor service, educational support and clerical service.

The EDB has not employed any teachers on NCSC terms.

At present, there is no mechanism for NCSC staff to be directly converted to civil servants. NCSC staff who meet the basic entry requirements can apply for civil service vacancies through open recruitment and compete with other candidates on a fair and equal basis. Generally speaking, NCSC staff who meet the basic entry requirements and possess working experience relevant to the job would enjoy a competitive edge in the selection process over other candidates with less relevant experience.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the number of non-civil service contract (NCSC) staff engaged in the past 5 years to "meet service needs which are time-limited, short-term or seasonal in nature" using the table below.

Types of jobs	14/15	15/16	16/17	17/18	18/19
Teaching Assistant					
Project Manager/Project Coordinator/Project Officer/Project Administrative Manager/Project Administrative Officer/Project Development Officer/Deputy Project Director/Project Assistant/Project Management Officer					
General Clerk/ Project Assistant/General Assistant					
Information Technology/ Technical Support Staff					

Executive Manager/ Administrative Assistant/ Administrative Management Officer					
Educational Psychologist/ Audiologist					
Others (e.g. Student Affairs Assistant and Research Officer)					

2. Please provide the number of NCSC staff engaged in the past 5 years to "meet service needs where the mode of delivery of the service is under review or likely to be changed" using the table below.

Types of jobs	14/15	15/16	16/17	17/18	18/19
General Worker					
Semi-skilled/Skilled Worker					
General Clerk					
Teaching Assistant					
Others					

3. Please provide the number of project officers and advisory teachers engaged in the past 5 years to "tap the latest expertise in a particular area of the labour market".

4. Regarding the full-time NCSC staff engaged for the above 3 reasons in the 2018/19 school year, what are the specific duties of each type of jobs?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 49)

Reply:

1. The number of non-civil service contract (NCSC) staff engaged to "meet service needs which are time-limited, short-term or seasonal in nature" is set out below:

Financial Year / Types of jobs	2014-15 (up to 30 June 2014)	2015-16 (up to 30 June 2015)	2016-17 (up to 30 June 2016)	2017-18 (up to 30 June 2017)	2018-19 (up to 30 June 2018)
Teaching Assistant	258	278	315	332	349
Project Manager/Project Coordinator/Project Officer/Project Administrative Manager/Project Administrative Officer/Project Development Officer/Deputy Project Director/Project Assistant/Project Management Officer	53	46	63	71	96
General Clerk/ Project Assistant/General Assistant	64	79	81	85	91
Information Technology/ Technical Support Staff	53	48	56	62	86
Executive Manager/ Administrative Assistant/ Administrative Management Officer	46	37	39	47	41
Educational Psychologist/ Audiologist	14	14	12	16	35
Others (e.g. Student Affairs Assistant and Research Officer)	121	116	86	55	50

2. The number of NCSC staff engaged to "meet service needs where the mode of delivery of the service is under review or likely to be changed" is set out below:

Financial Year / Types of jobs	2014-15 (up to 30 June 2014)	2015-16 (up to 30 June 2015)	2016-17 (up to 30 June 2016)	2017-18 (up to 30 June 2017)	2018-19 (up to 30 June 2018)
General Worker	303	256	256	270	222
Semi-skilled/Skilled Worker	98	86	92	100	89
General Clerk	88	81	91	88	73
Teaching Assistant	19	30	10	12	9
Others	34	41	25	25	24

3. The number of project officers and advisory teachers engaged to "tap the latest expertise in a particular area of the labour market" is set out below:

Financial Year / Types of jobs	2014-15 (up to 30 June 2014)	2015-16 (up to 30 June 2015)	2016-17 (up to 30 June 2016)	2017-18 (up to 30 June 2017)	2018-19 (up to 30 June 2018)
Project Officer	11	9	9	19	12
Advisory Teacher	4	4	3	0	2

4. As at 30 June 2018, the full-time NCSC staff engaged for the above 3 reasons were mainly responsible for providing educational support, as well as janitor and clerical services.

Subhead (No. & title): (000) Operational expenses

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the number of agency workers engaged in each of the years from 2013 to 2018.

Scope of service	2013	2014	2015	2016	2017	2018
1. To meet urgent or unforeseen service needs or unexpected surge in service demands for the short-term						
1a. Clerical and general support						
1b. To support the processing of applications for Registration Certificate for Kindergarten Admission and other kindergarten-related tasks						
1c. Executive support/Project co-ordination						
1d. Information technology support, other education and research work						
2. To meet service needs which entail irregular work patterns or where the nature of the work involved renders it difficult to recruit and retain staff						
3. To fill short-term manpower gap						
4. To provide short-term manpower to deliver services the mode of which will be changed shortly						
Total						

2. What employment agencies did the Administration commission respectively to provide the listed services in each of the years? What were the selection criteria? What was the amount of funding approved to pay for the commissioned service?

3. What did the scopes "Clerical and general support" and "Executive support/Project co-ordination" under "To meet urgent or unforeseen service needs or unexpected surge in service demands for the short-term" specifically cover?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 62)

Reply:

1. The number of agency workers engaged by the Education Bureau (EDB) in each of the years from 2013 to 2018 is as follows –

Scope of service/Year*	2013	2014	2015	2016	2017	2018
1. To meet urgent or unforeseen service needs or unexpected surge in service demands for the short-term	56	79	59	93	113	134
1a. Clerical and general support	*53*	*73*	*38*	*54*	*47*	*68*
1b. To support the processing of applications for Registration Certificate for Kindergarten Admission and other kindergarten-related tasks	-	-	-	*24*	*32*	*39*
1c. Executive support/Project co-ordination	*3*	*6*	*21*	*12*	*30*	*26*
1d. Information technology support, other education and research work	-	-	-	*3*	*4*	*1*
2. To meet service needs which entail irregular work patterns or where the nature of the work involved renders it difficult to recruit and retain staff	6	1	0	0	0	0
3. To fill short-term manpower gap	3	12	11	6	4	10
4. To provide short-term manpower to deliver services the mode of which will be changed shortly	3	2	0	0	0	0
Total	**68**	**94**	**70**	**99**	**117**	**144**

* As at 30 September of the respective years.

2. In procuring agency worker service, the EDB abides by the relevant Stores and Procurement Regulations and Financial Circulars, and adheres to the Government's long-standing established procurement principles, including value for money, transparency, open and fair competition and accountability. The total amount of agency worker service contracts awarded by the EDB in each of the years from 2013 to 2018 is as follows –

Year*	Total amount of service contracts ($ million)
2013	7.83
2014	8.36
2015	8.23
2016	10.03
2017	15.54
2018	17.45

* As at 30 September of the respective years.

3. The EDB engaged agency workers to provide "clerical and general support" and "executive support/project co-ordination" services "to meet urgent or unforeseen service needs or unexpected surge in service demands for the short-term". Specifically, their tasks include handling general enquiries, collating statistics, helping organise activities and taking forward information technology projects.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4867)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide information on Direct Subsidy Scheme (DSS) primary and secondary schools in the past 5 school years (2014/15 to 2018/19 school years) using the following tables:

Table 1

Districts	Number of DSS Primary Schools	Number of Students in DSS Primary Schools	Number of DSS Secondary Schools	Number of Students in DSS Secondary Schools

Table 2

DSS Primary Schools					
School Year	Average of Subsidy per Student	Average of Subsidy per DSS School	Median of Subsidy per DSS School	Average of School Fee Charged	Median of School Fee Charged

Table 3

Table 2

DSS Primary Schools					
School Year	Average of Subsidy per Student [Note 1] (HK$)	Average of Subsidy per DSS School [Note 2] (HK$)	Median of Subsidy per DSS School [Note 2] (HK$)	Average of School Fee Charged [Note 3] (HK$)	Median of School Fee Charged [Note 3] (HK$)
2014/15	50,073 or 47,117	34,705,524	35,250,000	24,198	22,400
2015/16	52,132 or 49,654	38,208,885	39,434,690	25,073	23,900
2016/17	54,053 or 51,762	40,147,191	41,796,315	25,710	23,900
2017/18	58,317 or 55,984	43,017,727	44,945,891	26,616	23,900
2018/19	60,820 or 58,397	-- [Note 4]	-- [Note 4]	27,505	25,300

Note 1: The figures show the DSS unit subsidy rate for each eligible student at the commencement of the respective school years. The higher rates are applied to schools with an age of 16 years or above while the lower rates to those with an age below 16 years.

Note 2: The amount of subsidy (i.e. recurrent DSS subsidy) is calculated on a financial year basis.

Note 3: The average and median of school fee charged are exclusive of school fees paid by non-local students.

Note 4: Since the 2018-19 financial year has not come to a close, the amount of subsidy provided to each DSS school is not yet available.

2018/19 School Year

DSS Secondary Schools							
Categories of School Fee [Note 1]	Average of Subsidy per Student [Note 2] (HK$)	Average of Subsidy per DSS School [Note 4] (HK$)	Median of Subsidy per DSS School [Note 4] (HK$)	Average of School Fee Charged (HK$) [Note 1]		Median of School Fee Charged (HK$) [Note 1]	
				S1-3	S4-6	S1-3	S4-6
Annual School Fee under HK$10,000	S1 – S3: 62,353 or 60,482 S4 – S6: 76,285 or 73,996	--	--	4,117	5,553	4,490	6,000
Annual School Fee between HK$10,000 and HK$20,000		--	--	17,960	14,421	19,000	13,900
Annual School Fee over HK$20,000		--	--	38,898	38,801	35,600	34,980

Note 1: The average and median of school fee charged are exclusive of school fees paid by non-local students and school fees of non-local curriculum programmes in schools that offer both local and non-local curricula. For schools that are charging different school fees for different class levels, the highest school fee within the range of class levels is used for classification purpose.

Note 2: The figures show the DSS unit subsidy rate for each eligible student at the commencement of the respective school years. The higher rates are applied to schools with an age of 16 years or above while the lower rates to those with an age below 16 years.

Note 3: The amount of subsidy (i.e. recurrent DSS subsidy) is calculated on a financial year basis.

Note 4: Since the 2018-19 financial year has not come to a close, the amount of subsidy provided to each DSS school is not yet available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4869)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Please provide the numbers and percentages of secondary students of government, aided, Direct Subsidy Scheme (DSS), English Schools Foundation (ESF), private and international schools who were admitted to universities (both local and overseas) in the past 5 school years (2014/15 to 2018/19 school years) in the table below:

Table 1

School year	Government	Aided	DSS	ESF	Private	International

(b) Please provide the numbers of primary and secondary schools which applied to join the DSS in the past 5 school years (2014/15 to 2018/19 school years) in the tables below:

Table 2

Districts	Number of Aided Primary Schools Having Applied to Join the DSS	Number of Aided Secondary Schools Having Applied to Join the DSS	Number of Private Primary Schools Having Applied to Join the DSS	Number of Private Secondary Schools Having Applied to Join the DSS	Other Categories	Total

Table 3

Districts	Number of Aided Primary Schools Approved to Join the DSS	Number of Aided Secondary Schools Approved to Join the DSS	Number of Private Primary Schools Approved to Join the DSS	Number of Private Secondary Schools Approved to Join the DSS	Other Categories	Total

(c) How many complaint cases about insufficient consultation by aided schools in applying to join the DSS in the past 5 school years (2014/15 to 2018/19 school years) were received by the Administration? How many complaint cases about the lack of transparency of the financial status of DSS schools were received? Will the Government continue to subsidise DSS schools in the long run or let DSS schools turn into private independent schools? What are the manpower and expenditure involved in implementing the DSS policy each year?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 111)

Reply:

(a) According to the Secondary 6 Students' Pathway Survey conducted by the Education Bureau (EDB), the number and percentage distribution of secondary 6 graduates who were pursuing full-time study of Bachelor's Degree Programmes by school sector of the graduates (including government, aided, Direct Subsidy Scheme (DSS) and local private schools) in the past 5 school years (from the 2014/15 to 2018/19 school years) are tabulated at Appendix (Table 1). Relevant information for English Schools Foundation and international schools is not available as the survey did not cover these schools.

(b) The number of primary schools and secondary schools which applied to join the DSS in the past 5 school years (from the 2014/15 to 2018/19 school years) is tabulated at Appendix (Tables 2 & 3).

(c) In the past 5 school years (from the 2014/15 to 2018/19 school years), EDB has received 3 complaints about the lack of transparency of the financial status of DSS schools and 1 complaint about insufficient consultation by aided schools in applying to join the DSS.

The DSS was introduced in 1991 pursuant to the recommendations of the Education Commission Report No. 3. The objectives of introducing the DSS are to inject diversity to our school system and give parents more choices. As the DSS sector has added much desired diversity to our school system, the Government has no plan to turn DSS schools into private independent schools at this stage.

Regarding the manpower and expenditure involved in the implementation of the DSS policy, since the work related to the administration and operation of the DSS cuts across various divisions and the amount of resources may also fluctuate from time to time in tandem with policy and other priority considerations, we are unable to segregate the manpower and expenditure allocated for implementing the DSS policy.

Appendix

Table 1

Number and Percentage Distribution of Secondary 6 (S6) Graduates [Note 1] who were Pursuing Full-time Study of Bachelor's Degree Programmes [Note 2] from the 2014/15 to 2018/19 School Years

School Year	Government		Aided [Note 3]		Others [Note 3]		All	
	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
2014/15	1 770	48.4	16 234	38.7	2 828	47.2	20 832	40.4
2015/16	1 550	46.6	15 638	40.1	2 922	49.5	20 110	41.7
2016/17	1 448	46.6	15 060	41.7	3 044	51.2	19 552	43.3
2017/18[Note 4]	1 413	45.7	15 212	42.1	3 165	52.1	19 790	43.7
2018/19[Note 5]	--	--	--	--	--	--	--	--

Note 1: Since some graduates in the responded schools did not provide any information and the activity status of all S6 graduates of non-responded schools was not available, caution should be taken in interpreting the figures as the activity status of those non-responded graduates was likely to be totally different from that of the responded graduates.

Note 2: Figures for "Bachelor's degree programmes" include students attending Bachelor's degree programmes offered by providers of the publicly-funded programmes, providers of self-financing programmes and other overseas institutions.

Note 3: Schools classified under "Others" include DSS and local private schools while data of Caput schools are included under aided schools.

Note 4: Figures of the 2017/18 school year are provisional figures.

Note 5: Figures of the 2018/19 school year are not yet available.

Table 2

Number of primary and secondary schools which applied to join the DSS from the 2014/15 to 2018/19 school years

School Year	District	Number of Aided Primary Schools Having Applied to Join the DSS	Number of Aided Secondary Schools Having Applied to Join the DSS Note 1	Number of Private Primary Schools Having Applied to Join the DSS Note 2	Number of Private Secondary Schools Having Applied to Join the DSS Note 2	Other Categories	Total
2014/15	--	0	0	--	--	0	0

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4872)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

With regard to supporting schools in enhancing life planning and career guidance services, please provide the following information:

(a) Apart from the disbursement of grants, what other measures were adopted by the Administration to help schools take forward life planning work in the past year? What are the details and expenditure involved?

(b) Following the earlier announcement by the Administration to allow schools to convert the Senior Secondary Curriculum Support Grant (SSCSG) and the Career and Life Planning Grant (CLPG) into regular teaching posts, what support is provided by the Administration to enhance career guidance services and strengthen teacher training?

(c) As mentioned in this year's Budget, schools are allowed to continue with the conversion of SSCSG and the CLPG into regular teaching posts, and full conversion of the two grants into regular posts will be achieved in the 2022/23 school year. In this connection, please provide the number of schools that have already converted the SSCSG and the CLPG into regular teaching posts and their percentage share, and the number of schools that have not yet converted the two grants into regular teaching posts and their percentage share as at the 2018/19 school year;

(d) On the basis of the figures provided in item (c), what is the expenditure on converting the grants into regular teaching posts? What is the estimated expenditure on converting the two grants into regular teaching posts this year?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 114)

Reply:

(a) & (b) Apart from providing the Career and Life Planning Grant (CLPG) and allowing schools to opt to convert the CLPG into regular teaching posts, the Education Bureau (EDB) also provides training and support to enhance teachers' professional capacity in implementing Life Planning Education (LPE), such as organising structured training courses / thematic seminars / workshops and increasing the number of training places. The EDB also conducts school visits to better understand the implementation of LPE in the related classes and activities, and provides professional advice to schools. The EDB continues to provide students with career exploration activities and work experience opportunities through the "Business-School Partnership Programme" (BSPP) to help them acquire an initial understanding of the workplace. In the 2017/18 school year, more than 170 partner organisations collaborated with the EDB in organising more than 1 100 activities under the BSPP, benefitting over 170 000 student participants. The EDB also keeps on disseminating information on further studies and career opportunities on its website, and enhances public and parent education by publishing advertorials in newspapers and magazines, shooting promotional videos and mini-movies, etc. Furthermore, the EDB will continue to set up District Development Networks in different districts to strengthen the professional development of teachers and provide career exploration activities for students on a district basis. The expenditure involved is subsumed under the EDB's recurrent expenditure. Hence, a breakdown of the expenditure involved is not available.

(c) In the 2018/19 school year, about 270 (about 60%) and 310 (about 70%) public sector secondary schools (including special schools) operating senior secondary classes have converted the Senior Secondary Curriculum Support Grant (SSCSG) and the CLPG into regular teaching posts, while about 170 (about 40%) and 130 (about 30%) schools have yet to convert the SSCSG and the CLPG into regular teaching posts. In sum, about 80% eligible public sector schools (i.e. about 340 in total) have converted either or both the SSCSG and the CLPG into regular teaching posts.

(d) The number of regular teaching posts provided for public sector schools each year may be adjusted according to the number of classes approved, teacher-to-class ratio, and additional regular teaching posts provided under various initiatives, etc. In addition, the number of regular teaching post vacancies changes according to the turnover of teaching manpower as a result of, for example, retirement or resignation. There is no genuine need for schools to differentiate the source of manpower supply for each regular teaching post vacancy filled, such as whether it is a regular teaching post converted from either or both grants. Therefore, the EDB has not collected the relevant statistics, and a breakdown of the expenditure involved is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4873)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) In each of the financial years of 2017-18 and 2018-19, what teaching resources and assessment banks on the Basic Law were provided by the Education Bureau (EDB) to schools? Please set out separately the production cost of each of the teaching resources or assessment banks.

(b) According to Paragraph 34 in the Controlling Officer's Report under this Head, the EDB will "continue to develop a variety of learning and teaching resources for promoting Basic Law education in schools". Would the EDB advise this Committee of the following:

(i) in the 2018-19 and 2019-20 financial year, the estimated expenditure and staff establishment for the development of the relevant resource packages and assessment banks;

(ii) the number of learning and teaching resources the EDB plans to develop. Please provide the name of the learning and teaching resources and the level of students for which the resources are intended; and

(iii) the specific plan the EDB has for promoting Basic Law education.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 112)

Reply:

(a) - (b)(i)(ii)

To strengthen the implementation of Basic Law education (BLE), the Education Bureau (EDB) has continuously adopted a wide array of measures, which include developing learning and teaching (L&T) resources, delivering teacher training for school sponsoring bodies, school leaders and teachers, and organising life-wide learning activities for students. Such support measures enable schools and teachers to acquire a deeper understanding of the concepts of the Basic Law and its close relevance to daily life, so that schools can enhance L&T efficacy by more effectively making plans for and taking forward BLE.

With respect to the development of L&T resources, the EDB has in the 2017-18 to 2018-19 financial years provided secondary schools with various sets of L&T resources, including the "Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study"; online L&T resources for the "Constitution and the Basic Law" module; "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers"; "Basic Law Online Course for Secondary School Students' Self-directed Learning"; and two assessment banks, namely "Basic Law On-line Assessment (Junior Secondary)" (for students) and "Web on Assessment for BLE (Junior Secondary)" (for teachers). The two assessment banks have been developed for years and will continue to be made available for schools' use. The EDB staff will regularly review and update the content of these assessment banks, having regard to the latest developments in the implementation of the Basic Law. Expenditures related to the two assessment banks only involve daily website management. All the resources mentioned above remain relevant.

At primary level, the EDB has in the 2017-18 to 2018-19 financial years provided the L&T Resource CDs for Primary General Studies on "History and Culture Series" and the "Basic Law Audio-visual L&T Package (Senior Primary)" to enhance teachers' and students' understanding of the Basic Law. In the 2019-20 financial year, the EDB will develop the L&T Resource CDs on "Engineering in China" under the "History and Culture Series". The expenditures on various L&T resources are as follows:

Name of L&T Resources	**Expenditure^ ($ million)**
Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study (Secondary)	0.71*
Online L&T resources for the "Constitution and the Basic Law" module	Not Applicable$^{\Delta}$
Basic Law Knowledge Enrichment Online Course for Secondary School Teachers and supplementary video clips	1.08^{+}
Basic Law Online Course for Secondary School Students' Self-directed Learning and supplementary video clips	0.93^{+}
Basic Law On-line Assessment (Junior Secondary) (for students)	Not Applicable$^{\Delta}$
Web on Assessment for BLE (Junior Secondary) (for teachers)	Not Applicable$^{\Delta}$
L&T Resource CD for Primary General Studies (History and Culture	0.06*

Series): The Stories of the Silk Road	
Basic Law Audio-visual L&T Package (Senior Primary)	1.30+
L&T Resource CD for Primary General Studies (History and Culture Series): Engineering in China	0.08+
Advanced Basic Law Knowledge Enrichment Online Course for Secondary School Teachers	0.30+

^ Representing total expenditures on L&T resources, which are incurred in different financial years (2015-16, 2016-17, 2017-18, 2018-19 and 2019-20)

* Actual expenditure

\+ Estimated expenditure

Δ Daily website management (including production) is subsumed under the recurrent expenditure of the EDB.

The above-mentioned expenditures on the production of BLE-related L&T resources, which include resource packages and assessment banks, does not include staff cost for the EDB personnel involved in the production. Since the development of L&T resources is an integral part of the day-to-day curriculum development work, it is not practical to give separate figures on the staff-related expenditure incurred by individual curriculum development task.

(b)(iii)

In the light of the circumstances in the school sector, the EDB will continue to strengthen BLE using diversified strategies, including updating L&T resources on an ongoing basis and organising teacher training activities. The EDB will also continue to enhance students' understanding of the historical background of the Basic Law and its implementation through such student activities as Basic Law quizzes and suitable exchanges and visits.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4874)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Please list the measures and financial provision on improving the learning and teaching of the English Language in secondary and primary schools respectively by the Government in the past 5 years (2014/15 to 2018/19) and 2019/20; and

(b) What are the details of expenditure on the Native-speaking English Teacher (NET) Scheme in primary schools and the Enhanced NET Scheme in secondary schools by the Government in the past 5 years (2014/15 to 2018/19) and 2019/20?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 115)

Reply:

(a) Throughout the years, we have been implementing various measures for improving the learning and teaching of the English Language in primary and secondary schools. The provision for the purpose totalled $792.11 million (of which $35.64 million was from the Language Fund (LF)) in the 2014-15 financial year, $845.08 million (of which $33.27 million was from the LF) in the 2015-16 financial year, $877.45 million (of which $33.86 million was from the LF) in the 2016-17 financial year, $916.53 million (of which $44.02 million was from the LF) in the 2017-18 financial year, and $937.17 million (of which $41.95 million was from the LF) in the 2018-19 financial year.

In the 2019-20 financial year, we will continue to improve the learning and teaching of the English Language in primary and secondary schools. The estimated expenditure in 2019-20 is $976.33 million, of which $35.10 million is from the LF. Details of the support measures are tabulated below:

No.	Name of Project	Details
A. Grants to schools		
*1.	Grant Scheme on Promoting Effective English Language Learning in Primary Schools	To help schools develop school-based measures to further promote effective English language learning.
^2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.
B. School-based support		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing teachers' professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for Language Teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for 1 year or 3 years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4.	Resources for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning and teaching.
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme for Primary Schools (PNET Scheme)	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, each eligible public sector primary school operating 6 or more classes (including special schools (primary section) offering the mainstream curriculum and schools for children with intellectual disabilities (primary section) offering an appropriate school-based English Language curriculum) is provided with a NET.

No.	Name of Project	Details
2.	The Enhanced Native-speaking English Teacher (NET) Scheme in Secondary Schools (ENET Scheme)	NETs work with local English teachers to enrich the English language learning environment in schools and to enhance the learning and teaching of English with linguistically and culturally authentic materials and resources. In general, an eligible public sector secondary school (including special schools (secondary section) offering the mainstream curriculum and schools for children with intellectual disabilities (secondary section) offering an appropriate school-based English Language curriculum) is provided with a NET.
*3.	English Alliance	To provide primary and secondary school students with pleasurable experiences in learning English for developing their interest in and appreciation of English and boosting their confidence in using the language through a series of educational, creative, interesting and interactive English programmes.
*4.	Sponsorship Project	To engage community partners to organise language-related events or competitions in the community.

* Initiatives funded by the Language Fund
** The initiative is funded out of Head 173 Student Financial Assistance Agency
^ The funding for the initiative ended in the 2016-17

(b) Expenditure over the past 5 years (2014-15 to 2018-19 financial years) and the estimated expenditure for the 2019-20 financial year of the PNET Scheme and the ENET Scheme are tabulated below:

	Expenditure ($million)					
	14-15	15-16	16-17	17-18	18-19#	19-20 (estimate)
PNET Scheme	357.0	376.4	398.8	420.4	368.7	466.1
ENET Scheme	371.2	381.6	401.0	408.0	356.5	463.4

as at 31 January 2019

Question:

Please provide the following information regarding regular and non-regular teachers in government and aided secondary, primary and special schools in each of the past 5 school years: median age, mean age and wastage rate.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 116)

Reply:

The median age, mean age and wastage rate of regular teachers (i.e. those filling the posts under the approved teaching establishment) and non-regular teachers in government primary schools, aided primary schools, government secondary schools, aided secondary schools and special schools for the school years from 2014/15 to 2018/19 are as follows:

Government Primary Schools

School Year	Regular Teachers			Non-regular Teachers		
	Median Age	Mean Age	Wastage Rate (%)	Median Age	Mean Age	Wastage Rate (%)
2014/15	43	44	3.5	34	37	11.1
2015/16	44	45	2.5	34	36	17.9
2016/17	45	45	2.9	34	36	16.6
2017/18	46	45	2.6	36	38	7.5
2018/19 (Estimate)	46	45	2.2	37	40	15.3

Aided Primary Schools

School Year	Regular Teachers			Non-regular Teachers		
	Median Age	Mean Age	Wastage Rate (%)	Median Age	Mean Age	Wastage Rate (%)
2014/15	39	40	3.3	27	30	16.3
2015/16	40	40	3.5	27	30	16.5
2016/17	40	41	3.1	27	30	13.3
2017/18	40	40	3.1	28	31	8.5
2018/19 (Estimate)	41	40	3.5	27	31	12.3

Government Secondary Schools

School Year	Regular Teachers			Non-regular Teachers		
	Median Age	Mean Age	Wastage Rate (%)	Median Age	Mean Age	Wastage Rate (%)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4876)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

For the past 5 years, please provide the name and number of Direct Subsidy Scheme (DSS) schools offering a non-local curriculum on top of the local curriculum and their respective percentage against all public sector schools and all DSS schools, as well as the number of students taking non-local curriculum and their percentage against the total number of students in each of these schools by names of the non-local curriculum offered.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 119)

Reply:

From the 2014/15 to 2018/19 school years, the number of Direct Subsidy Scheme (DSS) schools offering both local and non-local curricula and their respective percentage against the total number of publicly-funded schools and DSS schools are provided in the table below:

	2014/15	2015/16	2016/17	2017/18	2018/19
Number of DSS schools offering both local and non-local curricula	7	9	11	12	14
Percentage against the total number of publicly-funded schools (including government, aided, caput and DSS schools)	1%	1%	1%	1%	2%
Percentage against the total number of DSS schools	9%	11%	13%	15%	17%

Note: Percentages in the table are rounded to the nearest integers.

From the 2014/15 to 2018/19 school years, the name of DSS schools offering both local and non-local curricula, the name of the non-local curriculum offered, as well as the number of students in receipt of DSS subsidy who are taking the non-local curriculum and their percentage against the total number of students in each of these schools are tabulated below:

No.	Name of school	Name of non-local curriculum	No. of students taking non-local curriculum and their percentage against the total no. of students in the school				
			2014/15	2015/16	2016/17	2017/18	2018/19
1	St. Paul's Co-educational College	IB Diploma Programme	62 (5%)	91 (7%)	123 (10%)	119 (10%)	102 (8%)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures for the past and the next 5 years:

1. The situation and projection of school-age population aged 12 residing in Hong Kong;

2. The situation and projection of school-age population aged 6 residing in Hong Kong; and

3. The situation and projection of school-age population aged 3 residing in Hong Kong.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 120)

Reply:

The school-age population aged 3, 6 and 12 residing in Hong Kong from 2014 to 2018 are tabulated at Annex 1.

The projected school-age population aged 3, 6 and 12 residing in Hong Kong from the 2019/20 to 2023/24 school years are tabulated at Annex 2.

Annex 1

School-age population aged 3, 6 and 12 residing in Hong Kong
from 2014 to 2018

Age	2014	2015	2016	2017	2018
3 years old	58 000	58 200	53 100	53 900	58 900
6 years old	56 400	57 100	58 200	64 800	63 000
12 years old	52 200	53 200	49 700	50 400	56 100

Note: (1) Figures denote the school-age population aged 3, 6 and 12 residing in Hong Kong (i.e. usual residents of Hong Kong).

(2) Figures refer to the mid-year population estimates compiled by the Census and Statistics Department and are rounded to the nearest hundred.

Projected school-age population aged 3, 6 and 12 residing in Hong Kong
from the 2019/20 to 2023/24 school years

Age	2019/20	2020/21	2021/22	2022/23	2023/24
3 years old	57 000	57 100	57 800	57 000	56 100
6 years old	57 300	55 700	59 200	57 800	57 600
12 years old	55 000	63 300	65 400	67 900	73 500

Note: (1) The projections of school-age population residing in Hong Kong are compiled based on the 2016-based Population Projections released by the Census and Statistics Department in September 2017. The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures.

(2) Figures are rounded to the nearest hundred.

Question:

In tabular format, will the Government inform this Committee of:

(a) The number of non-Chinese speaking (NCS) students participating in Primary One Admission (POA) System and their percentage in the total, and the number of NCS students attending K3 and their percentage in the total in each of the school years from 2014/15 to 2018/19;

(b) The number of NCS students admitted during the "Discretionary Places Admission" stage of POA and their percentage in the total in each of the school years from 2014/15 to 2018/19;

(c) Among students in (b), the percentage admitted by the 8 primary schools listed in Appendix 3 of the "Application Form for Admission to Primary One";

(d) The number of NCS students allocated a Primary 1 place during the "Central Allocation" stage of POA and their percentage in the total in each of the school years from 2014/15 to 2018/19;

(e) Among students in (d), the percentage admitted by the 8 primary schools listed in Appendix 3 of the "Application Form for Admission to Primary One";

(f) The number of NCS students participating in Secondary School Places Allocation (SSPA) System and their percentage in the total, as well as their proportion in relation to the total number of Primary 6 NCS students of the relevant cohort in each of the school years from 2014/15 to 2018/19;

(g) The number of NCS students admitted during the "Discretionary Places Admission" stage of SSPA and their percentage in the total in each of the school years from 2014/15 to 2018/19;

(h) The number of NCS students allocated a Secondary 1 place during the "Central Allocation" stage of SSPA in each of the school years from 2014/15 to 2018/19; and

(i) The respective number of NCS students admitted to Primary 1 and Secondary 1 of Direct Subsidy Scheme schools and their proportion in relation to the total number of public sector Primary 1 and Secondary 1 NCS students of the relevant cohort in each of the school years from 2014/15 to 2017/18.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 121)

Reply:

(a) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of NCS children studying in kindergartens (including local and non-local kindergartens and kindergarten-cum-child care centres) at Kindergarten 3 level from the 2014/15 to 2018/19 school years is 3 196, 3 075, 3 075, 3 218 and 3 418 respectively. The corresponding percentage share among all children studying in kindergartens at Kindergarten 3 level in the respective school years is 5.8%, 5.4%, 5.0%, 5.1% and 6.1%. The number of NCS students participating in the Primary One Admission (POA) System from 2015 to 2018 (i.e. for admission to Primary 1 from the 2015/16 to 2018/19 school years) is 1 199, 1 270 and 1 370 and 1 423 respectively. The corresponding percentage share among all students participating in POA in the respective school years is 2.4%, 2.5%, 2.5% and 2.5%. POA 2019 has not yet completed and the relevant figures are therefore not available.

(b) & (c) The number of NCS students admitted through the "Discretionary Places Admission" stage of POA from 2015 to 2018 (i.e. for admission to Primary 1 from the 2015/16 to 2018/19 school years) is 752, 763, 818 and 816 respectively. The corresponding percentage share among all NCS students participating in POA in the respective school years is 62.7%, 60.1%, 59.7% and 57.3%, among which 31.1%, 29.5%, 24.4% and 26.2% were admitted to the 8 schools listed in Appendix 3 of the POA Application Form in the respective school years. POA 2019 has not yet completed and the relevant figures are therefore not available.

(d) & (e) The number of NCS students allocated a Primary 1 place at the "Central Allocation" stage of POA from 2015 to 2018 (i.e. for admission to Primary 1 from the 2015/16 to 2018/19 school years) is 447, 507, 552 and 607 respectively. The corresponding percentage among all NCS students participating in POA in the respective school years is 37.3%, 39.9%, 40.3% and 42.7%, among which 28.0%, 28.0%, 19.0% and 19.4% were allocated to the 8 schools listed in Appendix 3 of the POA Application Form in the respective school years. POA 2019 has not yet completed and the relevant figures are therefore not available.

(f) The number of Primary 6 NCS students participating in the Secondary School Places Allocation (SSPA) System from 2015 to 2018 (i.e. for admission to Secondary 1 from the 2015/16 to 2018/19 school years) is 1 435, 1 390 and 1 458 and 1 464 respectively. The corresponding percentage share among all Primary 6 NCS students in public sector schools, Direct Subsidy Scheme (DSS) schools, and private schools offering the local curriculum (excluding special schools, the English Schools Foundation schools, other international schools and Private Independent Schools) in the respective school years is 96.6%, 94.5%, 94.3% and 92.1%. SSPA 2019 has not yet completed and the relevant figures are therefore not available.

(g) & (h) The number of Primary 6 NCS students allocated a Secondary 1 place at the "Discretionary Places" stage of SSPA from 2015 to 2018 (i.e. for admission to Secondary 1 from the 2015/16 to 2018/19 school years) is 893, 947, 920 and 931 respectively. The corresponding percentage share among all NCS students participating in SSPA in the respective school years is 62.2%, 68.1%, 63.1% and 63.6%. The number of Primary 6 NCS students allocated a Secondary 1 place at the "Central Allocation" stage is 542, 443, 538 and 533 respectively. SSPA 2019 has not yet completed and the relevant figures are therefore not available.

(i) The number of NCS students admitted to Primary 1 in DSS schools from the 2014/15 to 2017/18 school years is 188, 192, 177 and 161 respectively. The corresponding percentage share among all Primary 1 NCS students in public sector schools (excluding special schools) and DSS schools in the respective school years is 11.9%, 12.1%, 11.2% and 9.9%.

As for Secondary 1, the number of NCS students admitted to DSS schools from the 2014/15 to 2017/18 school years is 768, 767, 790 and 806 respectively. The corresponding percentage share among all Secondary 1 NCS students in public sector schools (excluding special schools) and DSS schools in the respective school years is 47.6%, 44.3%, 47.9% and 45.5%.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Government inform this Committee of:

(a) the details of funding (excluding the funding for schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework") designated for the provision of education for parents of non-Chinese speaking (NCS) students, including the amount of each funding, the names of subsidised non-governmental organisations, the period covered by each funding, and the target group in each of the years from 2014/15 to 2018/19;

(b) the number of publicly-funded education-related events, talks, sessions or seminars designated for parents of NCS students in each of the years from 2014/15 to 2018/19;

(c) the number of NCS parents attending each of the activities mentioned in (b);

(d) the number of education-related events, talks, sessions or seminars designated for parents of NCS students organised by the Education Bureau (EDB) in each of the years from 2014/15 to 2018/19;

(e) the number of NCS parents attending each of the activities mentioned in (d);

(f) the number of education-related events, talks, sessions or seminars for all parents conducted in Chinese only, in both Chinese and English, and in languages other than Chinese and English in each of the years from 2014/15 to 2018/19;

(g) the number NCS parents attending each of the activities mentioned in (f);

(h) the number of enquiries and complaints received from NCS students and parents by each Regional Education Office (REO) of EDB, and the number of those complaints substantiated and unsubstantiated in each of the school years from 2014/15 to 2018/19; and

(i) the number of enquiries and complaints received from all students and parents on lack of school information by each REO of EDB, and the number of those complaints substantiated and unsubstantiated in each of the school years from 2014/15 to 2018/19.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 123)

Reply:

(a) to (g) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. In this connection, from the 2014/15 to 2018/19 school years, a total of 173, 197, 216, 228 and 241 schools are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted respectively. The school plans and reports on their use of the above funding show that, in addition to implementation of the "Learning Framework", schools will flexibly deploy the additional funding to organise briefings and seminars for parents of NCS students. On the other hand, diversified modes of education-related programmes including seminars, briefing sessions, workshops, etc. for parents of NCS students are offered by EDB and/or in collaboration with tertiary institutions and/or non-governmental organisations as appropriate. For instance, briefing sessions dedicated for parents of NCS students on, among others, student financial assistance schemes, kindergarten education scheme, admission arrangements for K1 classes in kindergartens, admission to Primary 1 and Secondary 1 in public sector schools, educational support for NCS students, etc. are organised from time to time. Simultaneous interpretation services in major ethnic minority languages are provided where necessary. The objectives of these programmes are to help parents of NCS students and/or their children better understand our school system, major education policies and related support services, facilitate parents of NCS students to obtain the relevant information for making school choices and encourage parents of NCS students to send their children to schools with an immersed Chinese language environment. Besides, starting from 2013, parents of NCS students are allowed to accompany their children to attend the Summer Bridging Programme for NCS students, with a view to enhancing their exposure to and use of Chinese and hence the support

for their children in learning the Chinese language. About 360, 240, 190, 150 and 140 parents of NCS students participated in the Programme from 2014 to 2018 respectively. In tandem, the Chinese Language Learning Support Centres also organise workshops for parents of NCS students with a view to strengthening collaboration with them in supporting NCS students' learning of Chinese. About 400 parents of NCS students have participated in these parent workshops from the 2014/15 to 2018/19 school years.

The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or programmes concerned, hence a breakdown of expenditure by item is not available. Given the diversified modes of the briefings, seminars and workshops offered for parents of NCS students involving different parties including schools, tertiary institutions and non-governmental organisations, related statistics on participation of parents of NCS students are not available.

(h) and (i) From the 2014/15 to 2018/19 school years, EDB has not received any complaints from students or parents regarding NCS students' learning of the Chinese language, the lack of school information or the education-related programmes, seminars or workshops for parents of NCS students. As for various types of enquiries received on a daily basis, including enquiries about school information, the statistics are not available.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Hong Kong Poverty Situation Report on Ethnic Minorities 2016 released in February 2018 provided dropout rates of certain ethnic minority (EM) groups, and stated that these dropout rates were higher than the average dropout rate of the whole population.

In this connection, would the Government inform this Committee of the following:

(a) The number of non-attendance non-Chinese speaking (NCS) students in each of the grade levels from Secondary 1 to 6 from the 2014/15 to 2018/19 school years;

(b) The number of non-attendance EM students in each of the grade levels from Secondary 1 to 6 from the 2014/15 to 2018/19 school years;

(c) The number of non-attendance students in each of the grade levels from Secondary 1 to 6 from the 2014/15 to 2018/19 school years;

(d) If such data disaggregated by language and ethnicity is not available, the reasons thereof;

(e) The number of dropout NCS students in each of the grade levels from Secondary 4 to 6 from the 2014/15 to 2018/19 school years;

(f) The number of dropout EM students in each of the grade levels from Secondary 4 to 6 from the 2014/15 to 2018/19 school years;

(g) Details on the Government's support measures to prevent dropout among NCS and EM students, including the amount of provision and the names of non-governmental organisations that provide relevant support;

(h) Details on the Government's support measures that provide alternative pathways for NCS and EM students who leave school after completing Secondary 3, 4 or 5 and enable them to obtain formal qualifications for career pursuits and further studies, including the amount of provision.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 124)

Reply:

(a) to (g)

It is the Government's policy to provide 12-year free primary and secondary education in public sector schools of which universal basic education for children aged between 6 and 15 is compulsory. Schools are required to report to the Education Bureau (EDB) on the 7th day of students' continuous absence, irrespective of their class levels. The EDB would provide support services to identified non-attendance cases with a view to bringing students back to school at the earliest opportunity and does not further classify these cases. The numbers of non-attendance students at S1 to S6 levels reported from the 2014/15 to 2017/18 school years are tabulated below. Information for the 2018/19 school year is not yet available.

School Year / Grade Level	2014/15	2015/16	2016/17	2017/18
S1	570	700	557	734
S2	711	595	503	741
S3	1 484	1 095	969	1 081
S4	1 698	1 153	967	992
S5	1 168	758	609	595
S6	8	11	96	150

We do not readily have breakdown of the non-attendance cases by language and ethnic group as schools need not provide such information in their report to the EDB.

The EDB is committed to providing various kinds of services for needy students. Towards this end, we have all along been supporting school administrators, teachers, student guidance personnel or school social workers to provide appropriate guidance services for non-attendance students, with a view to understanding their needs and difficulties, helping them resume schooling, or referring them to attend training programmes or courses which cater for their needs, e.g. short-term adjustment programmes organised by schools, training programmes provided by the Vocational Training Council (VTC) for non-engaged youths, or short-term courses provided by non-governmental organisations (NGOs). At present, various NGOs provide different types of short-term courses for teenagers. These courses aim at enhancing students' motivation to attend school, helping them develop positive goals in life and prepare well for employment, supporting hidden youths, treating internet addiction, etc. The above training programmes or courses are not organised by the EDB. Hence, we have not collected the relevant data and cannot provide information on the funding of the above training programmes or courses and the names of the relevant NGOs.

(h)

Personal planning for further studies or career pursuits of secondary school students should start before they leave school. The EDB has all along been supporting secondary schools in the implementation of Life Planning Education and provision of career guidance services. To prepare NCS students for further studies and career pursuits, the EDB implemented a pilot project from the 2015/16 to 2017/18 school years, commissioning an NGO to organise life planning activities and work experience programmes that enable NCS students to understand their career orientation and learn about different study pathways and jobs. A total of 1 800 NCS students participated in the project and the expenditure involved was about $6.3 million. Starting from the 2018/19 school year, the EDB continues to commission an NGO to organise career exploration activities, including visits to post-secondary institutions, workplace visits and work experience programmes, etc., to help NCS students make informed choices on further studies and careers, set personal goals and plan their future. In the 2018/19 school year, it is expected that 310 students will benefit from the service, which involves an expenditure of about $700,000.

Besides, the EDB generally subvents full-time Diploma of Vocational Education programmes operated by VTC for S3 to S5 school leavers, including NCS students. Also, VTC provides different pre-employment programmes dedicated to NCS students for obtaining a formal qualification for the purpose of employment and further study. NCS students can also apply for other non-dedicated pre-employment programmes. NCS students of VTC pre-employment programmes enjoy various support services to help them better cope with study and adapt to campus life. These services include academic and learning support, such as student orientations, additional tutorial classes, counseling and coaching, peer support through the peer mentorship scheme and various student activities for promoting a culture of inclusion and integration with the community as well as advisory support for articulation and career development. Separate breakdown of resources deployed to support services for NCS students is not available.

Question:

Regarding the development of teaching reference materials for non-Chinese speaking (NCS) students from kindergartens to secondary schools, please provide information about supporting teaching materials (including learning modules and learning packages) in the following tables.

1.The teaching materials developed by the Education Bureau for the teaching and learning of NCS students from the 2009/10 to 2018/19 school years.

Title of teaching material	Target subject, level and content	Cooperating partners (name of institutions/ organisations/ groups, etc.)	Beneficiaries (for whom these materials are made)	Start date	Progress (under planning/ in progress/ completed (with completion month and year))	Administration's follow-up to the materials and progress (if any)

2. The details of grants and funding (including but not limited to the Standing Committee on Language Education and Research (SCOLAR), University Grants Committee (UGC) and Quality Education Fund, etc.) on developing teaching materials or studying effective teaching methods for NCS students from the 2009/10 to 2018/19 school years.

Title of teaching material/ study	Target subject and content	Funding source	Principal developer/ research institute (including the name of its affiliates)	Beneficiaries (for whom these materials are made)	Start date	Progress (under planning/in progress/ completed (with completion month and year))	Administration's follow-up to the materials and the progress (if any)

3. For the completed teaching materials and studies in the above tables, have they been made public? If yes, through what channels? If no, why?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 127)

Reply:

1. Teaching materials developed by the Education Bureau (EDB) for the teaching and learning of non-Chinese speaking (NCS) students from the 2014/15 to 2018/19 school years are as follows:

Title of teaching materials	Target subject, level and content	Cooperating partners (name of institutions/ organisations/ groups, etc.)	Beneficiaries (for whom the materials are made)	Start date	Progress (planning/ in progress/ completed (with month and year of completion))	Administration's follow-up to the teaching materials and the progress (if any)
Learning materials and teaching reference materials (including series on teaching with picture books, writing, Chinese festivals, etc.)	NCS students in primary and secondary schools (Chinese Language)	Language and curriculum experts, school teachers	NCS students in primary and secondary schools	2014/15 school year	In progress	Jointly developed by the EDB and language and curriculum experts, the materials have been uploaded onto the EDB webpage by phases. Feedbacks are collected from teachers on an on-going basis to refine the materials.
Chinese Learning and teaching resources for NCS students with intellectual disabilities	NCS students with intellectual disabilities in special schools (Chinese Language)	Language and curriculum experts, special school teachers	NCS students with intellectual disabilities in special schools	2015/16 school year	In progress	At present, we are consolidating the learning materials developed to produce learning and teaching resources.

2. Details of grants and funding provided for developing teaching materials or studying effective teaching methods for NCS students from the 2014/15 to 2018/19 school years are as follows:

Title of teaching materials	Target subject and content	Funding source	Principal developer/ research institute (including name of its affiliates)	Beneficiaries (for whom the materials are made)	Start date	Progress (planning/ in progress/ completed (with month and year of completion))	Administration's follow-up to the teaching materials and the progress (if any)
Interactive Learning Chinese with News for NCS Students	To develop a mobile application with Chinese materials covering topics in current affairs, daily life, etc.	Language Fund	Open Knowledge Association Limited	i. CONTROLLING OFFICER'S REPLY

(Question Serial No. 4883)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the staffing establishment for special schools, please provide:

(a) the number of students, class size and number of social workers for each special school in the table below;

School (No names required)	Type of special school	Number of students	Class size	Number of social workers on the establishment
School 1				
School 2				
School 3				

(b) the current expenditure on special school social workers and the estimated expenditure in this regard for the coming year;

(c) the number of special schools provided with a post of Primary School Curriculum Leader on their establishment in the past 5 years (2014/15 to 2018/19);

(d) the details and estimated expenditure for the Government to improve the establishment of school social workers in special schools as mentioned in the Budget Speech.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 129)

Reply:

(a), (b) and (d)

The Education Bureau (EDB) has enhanced the provision of school social worker (SSW) in special schools in the 2018/19 school year. Special schools with a total capacity of 60 or fewer are provided with 1 SSW, and subsequently 0.5 SSW for every 30 students. The estimated additional annual expenditure is around $13 million.

In the 2018/19 school year, the EDB has provided 59 special schools with a total of 138 SSW posts. The estimated annual expenditure is about $100 million. The estimated annual expenditure for the 2019/20 school year will be more or less the same. For provision of resources for supporting students with diverse needs, it is our established practice that we do not disclose the situation of individual schools so as to avoid misconceptions and possible labelling effect on particular schools. In the 2018/19 school year, the number of SSW provided by type of special schools is set out below:

Type of Special School (Note 1)	**Class Size (Student per class)**	**Number of School Social Workers in School**
School for Children with Visual Impairment (Note 2)	10/12/15 (Note 2 and 3)	1 to 1.5
School for Children with Hearing Impairment	10	1.5
School for Children with Physical Disability	10	1.5 to 4
School for Social Development	12/15 (Note 3)	1 to 4
School for Children with Mild Intellectual Disability	15	2 to 4.5
School for Children with Mild and Moderate Intellectual Disability	10/15 (Note 4)	3 to 5.5
School for Children with Moderate Intellectual Disability	10	1 to 2.5
School for Children with Severe Intellectual Disability	8	1 to 2

Notes:

1. Specialist services of the Hospital School are provided by the hospitals concerned.
2. The schools for children with visual impairment (VI) include 1 school for children with visual impairment (VI school) and 1 school for children with VI cum intellectual disability. The class size is 12 or 15 students per class for the former and 10 for the latter.
3. The class size of the VI school and the schools for social development (SSDs) has been reduced from 15 to 12 students per class progressively by grade level starting from Primary 1 (SSDs do not operate classes at Primary 1 level; reduction of class size starts from Primary 2) and Secondary 1 concurrently since the 2014/15 school year. The improvement measures concerned will be fully implemented in the 2019/20 school year.
4. The class size of the respective sections of the schools for children with mild and moderate intellectual disability is 10 and 15 students per class respectively.

(c)

The number of special schools provided with a Primary School Curriculum Leader post in their establishment in the past 5 school years is tabulated below:

School Year (Note)	2014/15	2015/16	2016/17	2017/18	2018/19
Number of Schools	26	27	27	57	58

Note:
Starting from the 2017/18 school year, a Primary School Curriculum Leader post is provided for special schools operating 1 to 5 primary classes to replace the provision of the Curriculum Leadership Grant.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information covering the past 5 school years:

(a) the respective numbers and percentages of local students and non-local students studying in international schools, with breakdowns by primary, secondary and special education;

(b) out of (a) above, the respective numbers and percentages of non-local Chinese students and other non-local students; and

(c) the number and names of international schools failing to meet the requirements concerning local student population.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 131)

Reply:

(a) & (b) The numbers of local and non-local students studying in international primary, secondary and special schools in the 2014/15 to 2018/19 school years are tabulated at the **Annex**.

(c) In the 2018/19 school year, the ratio of non-local students of 15 international schools is subject to a related requirement, ranging from 50% to 98%, under the respective service agreements (SAs) entered into between the schools and the Government following the allocation of vacant school premises (VSP) or greenfield site in question for international school development under School Allocation Exercises (SAEs). Under the prevailing policy, school sponsoring bodies (SSBs) allocated with school premises or sites by the Education Bureau (EDB) for such purpose are required to allocate at least 70% of the school places to non-local students. In the SAE conducted in 2014, favourable consideration was given to proposals accepting a higher proportion of non-local students. In case of breach of requirements in the SA by SSBs and schools (including failure to comply with the minimum percentage of non-local students to be enrolled as stipulated in the SA), the EDB will take follow-up actions, and has the right to terminate or refuse to renew the SA, or even re-enter the VSP or greenfield sites concerned. In addition, when discussing with the English Schools Foundation (ESF) in phasing-out arrangements of the recurrent government subvention for ESF schools in 2013, we have taken the opportunity to remind the ESF to continue to maintain their student mix of having no less than 70% of their overall student population being non-local students.

In the 2018/19 school year, non-local students accounted for 75.5% of the overall student population in the international school sector while local students accounted for 24.5%. When SSBs submitted their proposals for the SAE, they acknowledged and agreed that the information provided (including the proposed minimum percentage of non-local students to be enrolled) would only be used for the relevant SAE. We are therefore unable to disclose the requirement regarding the minimum percentage of non-local students to be enrolled by individual international schools. Nevertheless, among the aforementioned international schools which are subject to the requirement on the enrolment of local students, all of them have complied with the relevant requirement except two schools which have just commenced operation in the concerned premises last year and three schools which have commenced operation in the concerned premises in 2016 and 2017 respectively. We have reminded the relevant schools in writing to observe and comply with the requirements in their admission exercises in the following year, and will follow up on the implementation and effectiveness of the schools' improvement measures while continuing to closely monitor the situation.

Annex

Numbers of Local and Non-local Students (Chinese or Others) in International Primary, Secondary and Special Schools in the 2014/15 to 2018/19 School Years

2014/15 School Year
(based on the Student Enrolment Survey conducted in September 2014)

Primary Schools

	Students	%

Notes:

(1) Local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region (HKSAR)) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport.
(2) Non-local Chinese students refer to students who hold Chinese nationality (e.g. Mainlanders, Macaoese and Taiwanese) and hold a passport other than the HKSAR Passport or the British National (Overseas) Passport. There is no further breakdown on the number of students with Chinese nationality.
(3) Figures of primary and secondary schools include students studying in the English Schools Foundation (ESF) schools and other private international schools but not the special school operated by the ESF.
(4) Figures of the special school refer to the special school operated by the ESF.
(5) Figures refer to the position as at September of the respective school years.
(6) Percentages may not add up to total due to rounding.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4885)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following statistics covering the school years from 2014/15 to 2018/19:

(a) The numbers of primary and secondary schools using Putonghua as the medium of instruction for teaching the Chinese Language Subject (PMIC), broken down by school type; and

(b) The respective numbers of Primary 1 to Secondary 6 PMIC and CMIC (using Cantonese as the medium of instruction for teaching the Chinese Language Subject) classes and students, broken down by school type.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 132)

Reply:

Using Putonghua as the medium of instruction (MOI) for teaching the Chinese Language subject (PMIC) is a decision driven by school-based language policy. Schools can choose a suitable MOI for teaching the Chinese Language curriculum based on their professional considerations. Schools may decide whether to adopt PMIC at certain levels/in specific classes with regard to their own circumstances, such as readiness of teachers, standards of students, language environment of the school, curriculum planning, and availability of learning and teaching support. As the number of schools adopting PMIC and the numbers of classes and students involved may vary every year, we have not kept track of such information. We do not have a breakdown of the numbers of classes and students by MOI for teaching the Chinese Language subject.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4886)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the median salary of teachers in public sector and Direct Subsidy Scheme (DSS) primary and secondary schools, and the number of teachers retired from these schools between the 2014/15 and 2018/19 school years. Please also provide the number of teachers applying for extension of service each year and give an account of the status of their applications, including the results and justifications for approval or rejection of such applications.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 133)

Reply:

At present, public sector schools can deploy various cash grants for employing additional contract teachers on top of the regular establishment, having regard to their school contexts and students' needs. Since the Education Bureau (EDB) does not collect data pertinent to the salaries of contract teachers, information about the median salary of teachers in all public sector schools is not available.

In addition, the Government provides Direct Subsidy Scheme (DSS) schools with a recurrent subsidy in the form of a block grant. The amount of the subsidy is calculated based on the DSS unit subsidy rate (i.e. the average unit cost of an aided school place) and the number of enrolment of a DSS school. DSS schools are given greater flexibility in various areas including remuneration policy for teaching and non-teaching staff. Since the EDB does not collect data pertinent to the salaries of individual DSS school teachers, information about the median salary of DSS school teachers is not available either.

The number of public sector and DSS school teachers retired from the profession between the 2014/15 and 2018/19 school years is tabulated below:

School Year	Primary School		Secondary School	
	Public Sector	DSS	Public Sector	DSS
2014/15	220	0	300	20
2015/16	200	10	360	40
2016/17	210	0	310	30
2017/18	220	0	390	30
2018/19 (Estimated)	230	0	410	50

Note: Figures are rounded to the nearest 10.

The number of applications and approvals for extension of service (including principals and teachers) between the 2014/15 and 2018/19 school years is tabulated below:

School Year	2014/15	2015/16	2016/17	2017/18	2018/19
No. of applications for extension of service	3	2	0	2	4
No. of approvals for extension of service	0	0	0	1*	0

* Approval for extension of service for 6 months was granted to the individual concerned due to the school's special circumstances.

Under the relevant provision of the Education Ordinance and the existing retirement policy, the retirement age of aided school teachers and principals within the approved teaching establishment is 60 unless special permission is given. Aided schools should comply with relevant provisions on retirement age and plan ahead for succession in anticipation of the retirement of the incumbent teachers and principals. When processing applications for extension of service, the EDB will prudently consider the justifications put forth by the school in support of the application and all related factors, including whether the school has made every reasonable effort (including open recruitment, internal promotion, promotion or redeployment from other schools under the same school sponsoring body, etc.) but still failed to find a suitable replacement for the incumbent and other special circumstances of the school. In accordance with the above-mentioned provisions and existing retirement policy, applications for extension of service of teachers or principals who are due to retire will not be approved except under very special circumstances.

Question:

Please provide the respective numbers of primary and secondary schools, broken down by the number of operating classes and sectors, in each of the past 5 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 134)

Reply:

The respective numbers of primary and secondary schools, broken down by the number of operating classes and sector, in each of the past 5 school years are tabulated at Annex (1) and Annex (2).

Annex (1)

Number of primary schools by number of operating classes and sector from the 2014/15 to 2018/19 school years

Total	**34**	**423**	**23**	**64**	**52**	**596**

Notes:(1) Figures do not include special schools. International schools include the English Schools Foundation schools.

(2) Figures refer to the position as at September of the respective school years.

(3) Figures on operating classes in a very small number of schools (other than the public sector) involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class.

(4) Figures refer to the number of schools by physical location. A school location may have more than one session.

Notes: (1) Figures do not include special schools. International schools include the English Schools Foundation schools.

(2) Figures refer to the position as at September of the respective school years.

(3) Figures on operating classes in a very small number of schools (other than the public sector) involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class.

(4) Figures refer to the number of schools by physical location.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4888)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Please elaborate on the adjustments to the allocation class size for public sector primary and secondary schools in every district/school net in the past 5 school years, including the extent to which the allocation class sizes have been increased or reduced, and the total number of school places in each district/school net upon adjusting the allocation class size; and

(b) The Government currently copes with the changes in population in different districts by netting school places. Please provide the number of surplus places in each district/school net in the past 5 school years, and explain how these surplus places were netted, including the number of netted places and the districts/school nets involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 136)

Reply:

(a) The Education Bureau (EDB) anticipated in 2013 that the overall demand for Primary One (P1) places would increase substantially and temporarily to the projected peak in the 2018/19 school year, and then progressively decrease to a stable level. To meet the transient increase in demand for P1 places, EDB and the sector have been maintaining close liaison over the past few years and have reached a consensus on the related follow-up measures. A number of flexible arrangements have been adopted, including temporarily allocating more students to each P1 class to increase the supply of school places flexibly. The districts/school nets in which the number of P1 places for each class was increased temporarily under the Primary One Admission (POA) System from 2014 to 2018 (i.e. for admission to P1 from the 2014/15 to 2018/19 school years respectively) to meet the transient increase in demand for P1 places, the extent of increase and the total number of school places increased are tabulated in Annex 1.

As for secondary schools, EDB has implemented a series of targeted relief measures since the 2013/14 school year to help sustain the development of schools, stabilise the teaching force and maintain the quality of education. These measures include allowing schools to adopting the mode of "2-1-1" or "1-1-1" to reduce the number of students allocated to each Secondary 1 (S1) class progressively in 3 school years under the Secondary School Places Allocation (SSPA) System from 2013 to 2015 (i.e. for admission to S1 from the 2013/14 to 2015/16 school years respectively) on the premise that the number of students in each S1 class would reinstate to the level at that time (i.e. 34 students) after the transient decline of S1 population. From the 2016/17 to 2018/19 school years, the number of students allocated to each S1 class remained at the level in the 2015/16 school year. Information on the implementation of relevant measures in various districts and the total number of school places reduced under SSPA 2014 and SSPA 2015 (i.e. for admission to S1 in the 2014/15 and 2015/16 school years respectively) are tabulated in Annex 2.

(b) The POA is divided into 2 stages: Discretionary Places (DP) and Central Allocation (CA). During the DP stage, parents may, without restriction on districts, apply to any one of the public sector primary schools. Children who have failed to secure a discretionary school place may participate in CA, which comprises two parts, namely unrestricted school choices and restricted school choices. For applicant children residing in Hong Kong, their school net is determined by their residential address. Certain school nets may cover two districts.

The provision of public sector primary school places is planned on a territory-wide basis. Under POA, the supply and demand of P1 school places in individual school nets may vary across years. Providing sufficient school places for parents' selection by netting places from school nets that have surplus places is a long-established arrangement. When netting school places, EDB follows the established mechanism, which include thoroughly considering the situation of schools in the school nets concerned, location of schools and the transportation available to facilitate students travelling to and from schools, etc.

The respective number of P1 places and students in public sector schools by district from the 2014/15 to 2018/19 school years is at Annex 3. The provisional number of CA places offered by schools, including those offered by schools in other school nets, is set out in the Choice of Schools List by School Net for CA of POA from 2014 to 2018 for parents' reference. Each year, the actual number of school places netted in relevant districts/school nets could be affected by different factors, including the unrestricted school choices made by parents during the CA stage. Relevant statistics are not readily available.

The SSPA is divided into 2 stages: DP and CA. During the DP stage, parents may, without restriction on districts, apply to not more than 2 participating secondary schools. The CA stage comprises two parts, namely Unrestricted School Choices and Restricted School Choices. Under SSPA, the secondary school net to which students belong is determined by the physical location of the primary schools they attend rather than their place of residence.

The provision of public sector secondary school places is planned on a territory-wide basis. To ensure an adequate supply of school places to meet the demand and to provide more school choices to students in districts with a smaller number of school places, netting of school places from neighbouring areas is a long-established arrangement which can also address the concerns and needs of different stakeholders. When making netting arrangements, EDB takes into consideration a number of factors, such as the demand and supply of school places in different districts, location of schools and the associated transport facilities as well as the established netting pattern, to ensure a stable supply of school places in each district and provide parents with more choices.

The respective number of S1 places and students in public sector schools by district from the 2014/15 to 2018/19 school years is at Annex 4. The secondary schools that offer places for school nets in the CA stage of SSPA and the estimated number of school places from 2014 to 2018 are set out in the Secondary School Lists of the respective years for parents' reference. Each year, the actual number of school places netted in relevant districts could be affected by different factors, including the unrestricted school choices made by parents during the DP and CA stages. Relevant statistics are not readily available.

Annex 1

Districts/school nets temporarily allocated with more students per P1 class, the extent of increase and the total number of P1 places increased in POA from 2014 to 2018

	2014/15 school year		
District	Yuen Long (School Nets 73 & 74 only)	Kwun Tong	Tai Po
Number of students allocated to each P1 class	31 for School Net 73 30 for School Net 74	30	30
Total number of places increased (Note)	194 for School Net 73 105 for School Net 74	540	340

Notes: (1) Figures exclude special schools.

(2) Figures refer to the position as at September of the respective school years.

(3) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by the schools concerned.

(4) Normally, schools may admit 2 to 3 more students on top of the class size for each class, and thus the number of students admitted could be greater than the number of places.

Notes: (1) Figures exclude special schools.

(2) Figures refer to the position as at September of the respective school years.

(3) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by the schools concerned.

(4) Figures on school places have been updated, reflecting the impact of schools' adoption of the mode of "1-1-1" or "2-1-1" under the targeted relief measures to reduce the number of students allocated to each S1 class progressively from the 2013/14 to 2015/16 school years.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4889)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please provide a list of funds under the management of the Education Bureau (EDB), as well as their respective aims, modes of usage, amount of initial injection and up-to-date surplus. Please also set out the total balance of all funds. As far as administration and investment management are concerned, please advise whether each fund is operated independently or a centralised approach is taken. What are the number of civil servants and the amount of administrative cost involved each year?

(2) Which areas of education expenditure are covered by investment returns of these funds? Which areas of education expenditure are covered by the recurrent expenditure of EDB? What criteria are adopted in this regard?

(3) Will the establishment of new funds and the injections into existing funds by public money thin out the resources that can be directly allocated for education?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 139)

Reply:

(1) & (2) Currently, there are 9 funds under the management of the Education Bureau (EDB), viz Language Fund, Quality Education Fund, Education Development Fund, HKSAR Government Scholarship Fund, Research Endowment Fund, Self-financing Post-secondary Education Fund, Qualifications Framework Fund, Gifted Education Fund and Student Activities Support Fund. Each fund is established as a trust fund with the Permanent Secretary for Education Incorporated as its trustee, and is managed in accordance with its trust deed, which stipulates that the trustee should properly manage and administer the fund in light of its framework and salient features, including prudent management of resources under the fund.

Given that the year and aims of establishment of the funds vary, each fund is operated independently. The aims of establishment, modes of usage, management and total amount of injection of each fund, the year-end balance/operating expenses directly covered by the funds in the 2017/18 school year, and the total balance of all funds are set out in Annex. The Government also provides secretariat services and investment support to the funds. The civil servants and expenditures involved are subsumed under the establishment and operational expenses of EDB and other concerned departments, and cannot be separately identified.

(3) In general, recurrent expenditure on education is, in light of the respective areas, entirely covered by the provision under Head 156 - Education Bureau, Head 173 - Working Family and Student Financial Assistance Agency or Head 190 - University Grants Committee of the General Revenue Account. To deploy resources more flexibly, we have also established funds for specific purposes. Except for the Education Development Fund and the injections made to the Language Fund prior to 2014, all the funds are seed capital funds, which cover education expenditure that meets the aims of their establishment with investment returns. The Education Development Fund and the earlier injections of the Language Fund meet related education expenditure with its capital and interest income.

Since injections into the funds are not covered by recurrent expenditure but are made in the form of a lump sum, neither the establishment of new funds nor injections into existing funds will affect the annual recurrent expenditure on education. In 2019-20, both the recurrent and total education expenditures will respectively take up the largest share in the government expenditure among all policy areas. As compared with the previous year, the total expenditure on education will significantly increase by 12.2% to $124 billion, accounting for 20.4% of the total government expenditure. Of this, the recurrent education expenditure will increase by 5.9% to $90.6 billion, accounting for 20.5% of the total government recurrent expenditure.

Annex

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection[(1)]	2017/18 School Year	
					Year-end Balance	Operating Expenses Directly Covered by the Fund
				$ million	$ million	$ million
Language Fund[(2)]	To provide financial support for projects and activities which aim at improving Hong Kong people's proficiency in Chinese (including Putonghua) and English.	To provide funding support for various projects, studies, teaching support initiatives, programmes, and publicity activities etc.	To be assessed/monitored by the Standing Committee on Language Education and Research (SCOLAR). Members of SCOLAR (including renowned language academics/language education academics, experienced principals and teachers, private sector personalities and parents) continuously monitor and review in a timely manner the initiatives funded by the Fund to ensure its overall effectiveness. SCOLAR also advises the trustee on the policies and procedures governing the operation of the Fund.	8,000	6,475	Nil

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection[(1)]	2017/18 School Year	
					Year-end Balance	Operating Expenses Directly Covered by the Fund
				$ million	$ million	$ million
Quality Education Fund	To finance projects for the promotion of quality school education in Hong Kong.	Schools, educational bodies and organisations registered under the laws of Hong Kong and individuals who are permanent residents in Hong Kong are eligible to apply for funding under the Fund.	A Steering Committee has been set up under the Fund to advise the Government on the policies and procedures governing the operation of the Fund. The Steering Committee is chaired by a non-government official and supported by members from the education, business and professional sectors. The Assessment and Monitoring Sub-committee under the Steering Committee is responsible for assessing applications and monitoring funded projects, while the Investment Committee under the Fund is responsible for formulating policies for and monitoring the investment of the Fund.	5,000	9,494	55.7

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection[(1)]	2017/18 School Year	
					Year-end Balance	Operating Expenses Directly Covered by the Fund
				$ million	$ million	$ million
Education Development Fund[(3)]	To provide differentiated school-based professional support (SBPS) for building schools' capacity in taking forward the education reform initiatives.	To support schools and teachers through the following 5 SBPS programmes: (a) Principal Support Network; (b) School Support Partners (Seconded Teacher) Scheme; (c) Professional Development Schools Scheme; (d) University-School Support Programmes; and (e) Collegial Participation in External School Review.	The Advisory Committee on the Fund, which comprises representatives of school councils, frontline teachers, principals, academics and community members, advises the Government on the operation of the Fund and the implementation of SBPS programmes. A cross-divisional working group, the School Development Key Group, has been set up within the EDB to oversee and monitor the delivery of SBPS programmes on a regular basis.	1,100	136	Nil

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection[(1)]	2017/18 School Year	
					Year-end Balance	Operating Expenses Directly Covered by the Fund
				$ million	$ million	$ million
HKSAR Government Scholarship Fund	To attract outstanding local and non-local students to pursue publicly-funded higher education programmes in Hong Kong and to stay in Hong Kong after graduation; to recognise the achievements of outstanding local and non-local students, with a view to attracting them to stay in Hong Kong after graduation; and to promote the further development of Hong Kong as a regional education hub and enhance Hong Kong's competitiveness in the long run.	A sum of money, funded by the investment income generated from the Fund, is allocated every year to 10 institutions that offer full-time publicly-funded programmes at sub-degree and degree or above for awarding scholarships to recognise the outstanding performance of local and non-local students enrolled in these programmes.	To be assessed/monitored by participating institutions[(4)] (according to the stipulated selection criteria of the Fund) and by the Steering Committee of the Fund. The Steering Committee of the Fund advises the trustee on the overall strategies and policies for management and development of the Fund, while the Investment Committee advises on the formulation of investment policies and the monitoring of investment.	3,070	2,499	6.3

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection[(1)]	2017/18 School Year	
					Year-end Balance	Operating Expenses Directly Covered by the Fund
				$ million	$ million	$ million
Research Endowment Fund	To provide research funding for the University Grants Committee (UGC)-funded universities and local self-financing degree-awarding institutions; to finance research projects of specific themes; and to offer non-means-tested tuition waiver to local students enrolled in UGC-funded research postgraduate programmes.	The Research Grants Council (RGC) provides research funding for UGC-funded universities through various competitive research funding schemes under the Earmarked Research Grant and the Theme-based Research Scheme (with funding from the investment income of the injections of $16 billion and $4 billion respectively). The Fund also offers tuition waiver to eligible local students enrolled in research postgraduate programmes at an amount equivalent to the tuition fees for the normative study period of the programmes (with funding from the investment income of the injection of $3 billion). In addition, the RGC makes use of the investment income from the injection of $3 billion to provide research funding for local self-financing degree-awarding institutions through 3 competitive research funding schemes.	The UGC advises the trustee on the following: policies and procedures governing the operation and development of the Fund; policies governing the investment of the Fund; and the grants reserved under the Fund for institutions to carry out, promote and support research projects.	26,000	29,210	Nil

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection[(1)]	2017/18 School Year	
					Year-end Balance	Operating Expenses Directly Covered by the Fund
				$ million	$ million	$ million
Self-financing Post-secondary Education Fund	To support worthwhile initiatives and schemes that aim to enhance the quality of self-financing post-secondary education.	To enhance the quality of self-financing post-secondary education through the Self-financing Post-secondary Scholarship Scheme and the Quality Enhancement Support Scheme under the Fund.	The Steering Committee of the Fund advises the trustee on the overall strategies and policies for the administration and development of the Fund, while the Investment Committee advises on the formulation of investment policies and the monitoring of investment.	3,520	3,969	10.7

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection[(1)]	2017/18 School Year

				$ million	$ million	$ million
Qualifications Framework Fund	To support the sustainable development and implementation of Qualifications Framework (QF).	Schemes/initiatives supported by the Fund include: (a) Designated Support Schemes for QF (including Accreditation Grant Scheme, Recognition of Prior Learning Support Scheme, Programme Development Grant Scheme and Qualifications Register Subsidy Scheme; and (b) funding for Industry Training Advisory Committees, QF-related studies or projects and public education.	The Steering Committee on the Fund advises the Secretary for Education on the overall strategy for making use of the Fund as a vehicle to support the sustainable development and implementation of the QF, and the scope and parameters of the schemes, initiatives and activities to be covered by the Fund.	2,200	2,276	Nil

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection[(1)]	2017/18 School Year	
					Year-end Balance	Operating Expenses Directly Covered by the Fund
				$ million	$ million	$ million
Gifted Education Fund	To support the development of gifted education in Hong Kong through the Hong Kong Academy for Gifted Education (HKAGE) and other worthwhile initiatives, schemes and programmes.	To support the operation of the HKAGE, and other initiatives, schemes and programmes related to gifted education with the investment income of the Fund.	The Advisory Committee on Gifted Education advises the Secretary for Education on the operation and management of the Fund and the development of gifted education.	1,600	824	Nil

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection[(1)]	2017/18 School Year	
					Year-end Balance	Operating Expenses Directly Covered by the Fund
				$ million	$ million	$ million
Student Activities Support Fund[(5)]	To support students with financial needs to participate in life-wide learning activities for whole-person development.	To use the investment return from the Funds to provide public sector and Direct Subsidy Scheme schools with the Student Activities Support Grant to support primary and secondary students with financial needs to participate in out-of-classroom learning activities organised or recognised by schools.	Schools are required to set out the income and expenditures in their annual audited accounts to be submitted to the EDB. Also, officers of the EDB will understand the schools' deployment of the grant, evaluate its effectiveness and make recommendations as necessary through different means such as school visits, day-to-day contacts with school, etc.	2,500	Not applicable	Not applicable
				Total balance of all funds:	54,883[(6)]	

(1) Including initial injection and subsequent injections as at March 2019 into the Fund.
(2) The total amount of injections of the Funds is $8 billion. The injections of $3 billion from 1994 (year of establishment) to 2010 were not seed capital fund while the injection of $5 billion in 2014 was seed capital fund.
(3) A non-seed capital fund that will close at the end of the 2018/19 school year.
(4) Participating institutions of the HKSAR Government Scholarship Fund are the 8 UGC-funded universities (i.e. City University of Hong Kong, Hong Kong Baptist University, Lingnan University, the Chinese University of Hong Kong, the Education University of Hong Kong, the Hong Kong Polytechnic University, the Hong Kong University of Science and Technology, and the University of Hong Kong), the Hong Kong Academy for Performing Arts, and the Vocational Training Council.
(5) The Fund was established in 2019 with an injection of $2.5 billion in March 2019. Its first financial statement will be prepared after the close of the 2018/19 school year.
(6) The total year-end balance of all funds in the 2017/18 school year was $54.883 billion, which has not yet taken into account the total injection of $4.1 billion into the HKSAR Government Scholarship Fund ($800 million), the Gifted Education Fund ($800 million) and the Student Activities Support Fund ($2.5 billion) in 2019.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4890)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the 2018-19 Budget that $3 billion would be allocated to set up a dedicated funding programme to support public sector primary and secondary schools (including Direct Subsidy Scheme schools), special schools and kindergartens under the - kindergarten education scheme in launching school-based curriculum development and student support measures, carrying out relevant school improvement works and procuring supplies.

In this connection, please provide in tabular form the names of schools that have submitted application for funding, titles and brief descriptions of their projects, amount of funding requested, vetting time required, application status or results, and reasons for approval or rejection.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 140)

Reply:

To further support students' learning, enhance the quality of school education and promote quality school education, the Quality Education Fund has, on a recommendation made by the Government in the 2018-19 Budget, set aside $3 billion for the implementation of the Dedicated Funding Programme for Publicly-funded Schools (the Programme) for 4 school years starting from the 2018/19 school year. Schools may apply for funding to launch school-based curriculum development and/or student support measures. The first call for submission of application of the Programme was made from July to September 2018. Excluding the applications withdrawn by some of the schools, 129, 126, 11 and 27 applications were made by secondary schools, primary schools, special schools and kindergartens respectively as at February 2019, totaling 293 applications, among which 207 applications had been approved with funding. As a prevailing practice, we do not disclose the names of individual schools and the relevant information to avoid labelling effect and piece-meal interpretation of individual applications and results.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4894)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures by District Council district and the total of all districts for the current year and the past 3 years.

(1) The number of kindergartens, and the number of places and students involved;

(2) The number of subsidised kindergartens, and the number of places and students involved;

(3) The number of non-subsidised and non-profit-making kindergartens, and the number of places and students involved;

(4) The number of profit-making kindergartens, and the number of places and students involved; and

(5) The number of kindergarten-cum-child care centres, and the number of places and students involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 148)

Reply:

(1), (2), (3) and (4)
The number of all kindergartens (KGs) in the territory, non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS)/KG education scheme (KG Scheme), NPM KGs not joining the PEVS/KG Scheme and private independent (PI) KGs, and their number of places and students by District Council district from the 2015/16 to 2018/19 school years are tabulated in Appendix 1.

(5)
The number of all kindergarten-cum-child care centres (KG-cum-CCCs) in the territory, and their number of places and students by District Council district from the 2015/16 to 2018/19 school years are tabulated in Appendix 2.

Appendix 1

Number of KGs, places and students

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4895)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Government will enhance social worker and guidance services by implementing progressively the policy of "one school social worker for each school" in public sector primary schools and enhancing the provision of school social workers for special schools. In this connection, please provide the following information for the 2018/19 school year:

(a) the total number of primary schools that have switched to the New Funding Mode; of these, the number of primary schools that have created a regular Assistant Social Work Officer post and those that receive the School Social Work Service Grant, and the expenditure involved;

(b) the total number of primary schools that remain under the Old Funding Mode; of these, the number of primary schools receiving the Student Guidance Service Grant and those having Student Guidance Teachers or Student Guidance Officers, and the expenditure involved;

(c) the total number of primary schools receiving the Consultation Service Grant and the expenditure involved; and

(d) the number of special schools provided with 1, 1.5, 2, 2.5, 3 or more social workers and the expenditure involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 149)

Reply:

(a) to (c)

In the 2018/19 school year, 223 public sector primary schools have switched to the New Funding Mode and the expenditure involved is as follows:

Student Guidance Services Provided	Regular Assistant Social Work Officer Post	School Social Work Service Grant	Consultation Service Grant	Top-up Student Guidance Service Grant
Number of Schools	41	182	223	212
Total Expenditure ($million) (Estimated Expenditure)	27.3	115.9	28.8	51.7

In the 2018/19 school year, the number of primary schools that remain under the Old Funding Mode and the expenditure involved are as follows:

Student Guidance Services Provided	Student Guidance Officers	Student Guidance Teachers	Student Guidance Service Grant	Top-up Student Guidance Service Grant
Number of Schools	6	113	114	233
Total Expenditure ($million) (Estimated Expenditure)	3.9	90.7	65.0	52.7

(d) The Education Bureau (EDB) has enhanced the establishment of school social worker (SSW) in special schools in the 2018/19 school year. Special schools with a total capacity of 60 or fewer are provided with 1 SSW, and subsequently 0.5 SSW for every 30 students. In the 2018/19 school year, the estimated annual expenditure on the provision of SSW for special schools is about $100 million, and the number of SSW provided for special schools is tabulated below:

Number of School Social Workers	Number of Special Schools [Note]
1	10
1.5	12
2	15
2.5	4
3 or above	18

Note: Specialist services for the Hospital School are provided by the hospitals concerned.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4896)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the measures for fostering home-school co-operation:

(a) In the following table, please provide information on kindergartens (KGs) that set up Parent-Teacher Associations (PTAs) in the past 5 school years, with a breakdown by the 18 districts.

District	Number of KGs with PTAs	Percentage out of all KGs in the district

(b) Please provide the total amounts of Set Up Grant and Annual Grant provided for setting up PTAs in KGs each year in the past 5 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 150)

Reply:

(a) Parents play an important role in young children's development. The Education Bureau (EDB) encourages kindergartens (KGs) to enhance communication with parents through multifaceted channels and to establish Parent-Teacher Associations (PTAs) to facilitate parent-school connection and build a partnership for co-operation. Whether KGs set up PTAs is unrelated to where they are situated. Hence, the EDB has not compiled relevant statistics by district. According to the information provided by schools, the number of KGs (including kindergarten-cum-child care centres) that set up PTAs in the past 5 school years is tabulated below:

School Year	No. of KGs with PTAs	Percentage out of all KGs in the territory
2017/18	326	32%
2016/17	323	32%
2015/16	318	32%
2014/15	324	33%
2013/14	318	33%

(b) The EDB provides a Set Up Grant to the newly established PTAs and an Annual Grant to the existing PTAs for meeting recurrent expenditure. In the past 5 school years, the total amounts of Set Up Grant and Annual Grant provided for KGs (including kindergarten-cum-child care centres) each year are tabulated below:

School Year	Set Up Grant ($)	Annual Grant ($)
2017/18	75,000	1,466,556
2016/17	30,000	1,348,352
2015/16	35,000	1,292,508
2014/15	10,000	1,237,272
2013/14	25,000	1,154,640

Question:

With regard to the policy of strengthening the support for ethnic minorities as announced in the 2018 Policy Address:

(a) What are the details of the provision of 5-tier subsidies for kindergartens (KGs) admitting non-Chinese speaking (NCS) students in the 2019/20 school year? What is the estimated expenditure of the aforesaid item for the 2019/20 school year?

(b) Please provide in the table below the number of NCS students admitted to subsidised KGs (excluding international schools) in the past 5 school years.

School year	Number of NCS students	Number of KGs	Number of KGs joining KG subsidised scheme
	0		
	1 to 4		
	5 to 7		
	8 to 10		
	11 to 15		
	16 to 20		
	21 to 25		
	26 to 30		
	31 to 35		
	36 or more		

(c) What are the details of the provision of additional resources under a 3-tier structure to public sector ordinary schools admitting NCS students with special educational needs (SEN) in the 2019/20 school year? What is the estimated expenditure of the aforesaid item for the 2019/20 school year?

(d) Please provide in the table below the number of NCS students with SEN admitted to public sector primary and secondary schools in the past 5 school years.

School year	Number of NCS students	Number of public sector secondary schools	Number of public sector primary schools
	0		
	1 to 5		
	6 to 9		
	10 to 15		
	16 to 20		
	21 to 25		
	26 to 30		
	31 to 35		
	36 or more		

(e) What are the details of the provision of funding to secondary schools which admit NCS students for supporting NCS students to learn Chinese History? What is the estimated expenditure for the 2019/20 school year?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 151)

Reply:

(a)
At present, for kindergartens (KGs) joining the kindergarten education scheme (Scheme), those admitting 8 or more non-Chinese speaking (NCS) students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. Starting from the 2019/20 school year, a 5-tiered subsidy will be provided for KGs joining the Scheme according to the number of NCS students admitted. KGs admitting 1 NCS student will also receive the subsidy and the subsidy for the highest tier will be a double of the current level. Details are as follows:

Tier	Number of NCS students	Subsidy amount
1	1 to 4	New cash grant of $50,000 per year
2	5 to 7	New subsidy at a rate of 0.5 KG teacher
3	8 to 15	Subsidy at a rate of 1 KG teacher (i.e. the current arrangement)
4	16 to 30	Increased subsidy at a rate of 1.5 KG teachers
5	31 or more	Increased subsidy at a rate of 2 KG teachers

The total estimated amount of subsidy for the 2019/20 school year is around $102 million.

(b)
The number of local KGs in the past 5 years (2014/15 to 2018/19 school years) and the number of KGs under the Pre-primary Education Voucher Scheme (PEVS) from the 2014/15 to 2016/17 school years and under the Scheme from the 2017/18 to 2018/19 school years by number of NCS students ranging from "0", "1 to 4", "5 to 7", "8 to 15", "16 to 30" and "31 or more" are tabulated in Appendix.

(c)
The Education Bureau (EDB) has all along been committed to facilitating NCS students' early adaptation to the local school system and integration into the community, and enhancing their learning effectiveness through different support measures. At the same time, the EDB has been providing public sector mainstream schools with additional resources, professional support and teacher training, while encouraging schools to support students with special educational needs (SEN) through the 3-tier Intervention Model. To further support NCS students with SEN to adjust to school life and make smooth transition through different learning stages, the EDB will provide additional resources under a 3-tier structure to public sector mainstream primary and secondary schools admitting NCS students with SEN starting from the 2019/20 school year. The additional resources provided will enable schools to employ teaching assistants to assist teachers in designing activities and teaching materials, procure translation services, or provide the students concerned with social and emotional management training, etc. in order to strengthen emotional, communication and social support. The EDB will provide schools with a grant calculated on the basis of the number of NCS students with SEN under a 3-tier structure, i.e. $100,000 (1-9 students), $200,000 (10-25 students), and $300,000 (26 or more students) per year. In subsequent school years, the grant rates will be adjusted annually according to the change in the Composite Consumer Price Index. For the 2019/20 school year, it is estimated that about 600 students will benefit from the measure, involving an estimated annual expenditure of around $22 million.

(d)
Distribution of public sector mainstream primary and secondary schools admitting NCS students with SEN in the past 5 school years (2014/15 to 2018/19 school years) is as follows:

Number of NCS students with SEN	Number of schools									
	2014/15		2015/16		2016/17		2017/18		2018/19	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
0	350	354	339	338	343	329	336	316	333	312
1 to 5	91	32	100	46	97	54	104	64	107	65
6 to 9	10	4	10	2	7	3	8	5	12	6
10 to 15	1	0	4	2	5	2	4	2	1	5
16 to 20	0	2	1	1	2	1	0	1	1	0
21 to 25	0	0	0	0	0	1	2	1	2	1
26 to 30	0	0	0	1	0	0	0	0	0	0
31 to 35	0	0	0	0	0	0	0	0	0	0
36 or more	0	0	0	0	0	0	0	0	0	0

(e)

To support NCS students to use Chinese in learning Chinese History in junior secondary level, the EDB provides a grant totalling $100,000 for each public sector secondary school, including government, aided (including special schools), caput and Direct Subsidy Scheme secondary schools which admits NCS students in junior secondary level in the 2018/19 and 2019/20 school years. In accordance with their school context and development needs, schools may flexibly deploy the grant to support teachers in refining practices on teaching NCS students Chinese History and in conducting relevant learning activities. Such measures may include procurement of professional services to develop school-based curriculum and learning and teaching resources specifically for the learning of Chinese History in Chinese by NCS students (including those in special schools), as well as procurement of multi-media and e-learning teaching resources. Schools may also arrange local visits and visits to the Mainland (including fees for visa application and participation in exchange programmes) for students to enhance their understanding of Chinese history and culture through life-wide learning activities. The estimated total expenditure on this grant is $30 million and the estimated expenditure for the 2019/20 school year is $15 million.

Appendix

Number of local KGs from the 2014/15 to 2018/19 school years and number of KGs under the PEVS from the 2014/15 to 2016/17 school years and under the Scheme from the 2017/18 to 2018/19 school years by number of NCS students ranging from "0", "1 to 4", "5 to 7", "8 to 15", "16 to 30" and "31 or more"

School year	Number of NCS students	Number of local KGs	Number of KGs under the PEVS/under the Scheme

(Question Serial No. 4899)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2017/18 school year, the Government provides kindergartens admitting 8 or more non-Chinese speaking students with an additional grant comparable to the recommended remuneration level of a kindergarten teacher. Would the Government inform this Council of the number of kindergartens provided with the grant in the past 2 school years, i.e. 2017/18 and 2018/19, their percentage against all subsidised kindergartens in Hong Kong, and the expenditure involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 152)

Reply:

The kindergarten (KG) education scheme (Scheme) has been implemented starting from the 2017/18 school year. KGs joining the Scheme and admitting 8 or more non-Chinese speaking (NCS) students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. In the 2017/18 school year, about 150 KGs received the additional grant, accounting for about 38% of some 390 KGs joining the Scheme and admitting NCS students. The expenditure involved was about $54 million. In the 2018/19 school year, as at February 2019, over 150 KGs have been provided with the additional grant, accounting for about 37% of some 410 KGs joining the Scheme and admitting NCS students. As the grant for supporting NCS students is open to application throughout the school year, the number of KGs in receipt of the grant and the expenditure involved may vary during a school year. The estimated annual expenditure is about $61 million.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 153)

Reply:

(1) The Education Bureau (EDB) has implemented the new kindergarten (KG) education scheme (Scheme) starting from the 2017/18 school year. The basic unit subsidy under the Scheme covers expenses on salaries for teaching and supporting staff and other operating costs. The salaries for teaching staff (including principals) account for around 60% of the unit subsidy, which are calculated on the basis of the maximum point of the recommended salary range for principals and the mid-point of the recommended salary range for other teaching staff. Relevant figures for the 2018/19 school year are as follows:

2018/19 school year	
Mid-point salary of Class Teacher	$30,115
Mid-point salary of Senior Teacher	$37,355
Mid-point salary of Vice Principal	$43,370
Maximum salary point of Principal II	$56,630
Maximum salary point of Principal I	$63,860

In the 2018/19 school year, the average number of students in half-day (HD), whole-day (WD) and long whole-day (LWD) KGs and the amount of full-year unit subsidy per student are as follows:

2018/19 school year		
Class	Average number of students in each school	Unit subsidy per student
HD	167	$34,320
WD	69	$44,620
LWD	92	$54,910

The number of KGs joining the KG Scheme, number of students and number of places by curriculum type and District Council district are tabulated at Appendixes 1, 2 and 3 respectively.

(2) In the 2018/19 school year, the number of KGs in the territory, number of students and number of places by curriculum type and District Council district are tabulated at Appendixes 4, 5 and 6 respectively.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4901)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As announced in the Education Bureau Circular No.8/2018, a Supply Teacher Grant will be provided for kindergartens with teachers pursuing further studies to employ supply teachers starting from the 2018/19 school year. In this connection, please provide the following information based on up-to-date statistics from the Education Bureau (EDB) :

a. the number of applications for Supply Teacher Grant received so far and the number of schools involved;

b. the number of applications approved so far and the number of schools involved;

c. the average number of days required to process an application (from receipt of application to disbursement of grant);

d. the average amount of grant approved per case;

e. the total amount of grant approved so far;

f. the usual reasons for rejecting applications (if any); and

g. whether EDB has any plan to relax the application criteria so that schools with teachers attending single-day courses are also eligible for the grant? If yes, please provide the implementation timetable and details. If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 155)

Reply:

Starting from the 2018/19 school year, the Education Bureau (EDB) provides kindergartens (KGs) joining the kindergarten education scheme (the Scheme) with a supply teacher grant to facilitate KGs in arranging teachers to attend specified recognised training courses provided by EDB on catering for students with developmental needs and on supporting non-Chinese speaking (NCS) students. The information on the grant is set out as follows:

(a), (b), (d), (e) and (f)
As at the end of February 2019, 67 applications from 57 KGs have been received. 51 of these applications have been approved, involving 42 KGs; the remaining 16 applications are being processed. The total amount of grant approved is around $210,000 (i.e. around $4,130 per case) and no applications have been rejected.

(c)
For processing the application, KGs are required to submit relevant information, including documents about the course attended by the teacher and the qualifications of the supply teacher. The grant will only be disbursed after the institution/course provider has confirmed that the teacher concerned has attended the course at the specified period and the KG has submitted the salary payment receipt signed by the supply teacher. Some KGs may apply for the grant as soon as they have been informed of a teacher's participation in a relevant course while others may do so after the teacher concerned has completed the course and the supply teacher has signed the salary payment receipt. It is, therefore, inappropriate for us to calculate the application processing time based on the timing of receiving the application. In general, approval letter will be issued once the information has been verified.

(g)
Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate KGs joining the Scheme in arranging teachers to attend specified recognised training courses on catering for students with developmental needs and on supporting NCS students. KGs may apply for the grant if a teacher of their schools has attended the specified recognised courses provided by EDB for 3 or more consecutive days. On the other hand, element of supply teachers for releasing teachers to attend training has been included in the basic unit subsidy. If the duration of the course is less than 3 consecutive days, KGs may deploy their own resources as appropriate to employ supply teachers. Besides, the teacher to pupil ratio has been enhanced from 1:15 (including the principal) to 1:11 (principal not included) under the Scheme. While KGs have the flexibility to maintain their usual arrangements in learning and teaching activities, they may flexibly deploy human resources to allow teachers to participate in various professional development activities. Given the above considerations, we have no plan to relax the eligibility for the supply teacher grant to cover relevant courses that last for less than 3 days.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4902)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please list the following information by school district for the past 5 school years:

1. the average class size of public sector primary schools in each district and the average class size of public sector primary schools in the territory;

2. the average class size of public sector secondary schools in each district and the average class size of public sector secondary schools in the territory;

3. the number of public sector primary schools in each district with an average Primary 1 class size of over 25 students, below 25 students and equal to 25 students; and

4. the estimated number of public sector secondary schools in each district to be allocated with additional Secondary 1 students in the 2019-20 school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 156)

Reply:

1. The average class size of public sector primary schools in each district and the average class size of public sector primary schools in the territory are tabulated at Appendix 1.

2. The average class size of public sector secondary schools in each district and the average class size of public sector secondary schools in the territory are tabulated at Appendix 2.

3. The number of public sector primary schools in each district with average Primary 1 class size of over 25 students, below 25 students and equal to 25 students is tabulated at Appendix 3.

4. According to the projection of Secondary 1 (S1) school-age population, the population of S1 students has started to rebound from the 2017/18 school year. To address the projected increase in the demand for S1 school places, the Education Bureau (EDB) and the sector have met and reached a consensus in October 2017 on the framework of direction and strategies for tackling the issue, i.e. adopting the established arrangements under the Secondary School Places Allocation (SSPA) System, progressively reverting the allocation class size to 34 upon the rebound of the S1 student population ("place reinstating") as pledged by the sector prior to the implementation of the targeted relief measures, and increasing the number of S1 classes in these districts with a shortfall in school places after adopting the netting arrangements and "place reinstating". Regarding the arrangements for SSPA 2019, the EDB has met with the sector in October 2018 according to the latest projection and the framework of strategies previously agreed. Both parties agreed that the anticipated demand for S1 places would be coped with through the established netting arrangements, complemented by an across-the-board "place reinstating" by one school place and operating 35 additional S1 classes in North, Tai Po, Yuen Long and Sha Tin districts. The number of public sector secondary schools with "place reinstating" by one school place is tabulated at Appendix 4.

Average class size of public sector primary schools from the 2014/15 to 2018/19 school years

District	2014/15	2015/16	2016/17	2017/18	2018/19

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4904)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the operation of the Hong Kong Teachers' Centre (HKTC), please set out the projects for which funding applications were received, approved and denied respectively by the HKTC in the past 5 years, with a breakdown by year, applicant body and the amount of grant approved. What are the reasons for denying funding applications?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 158)

Reply:

Hong Kong Teachers' Centre (HKTC) has, at present, more than 100 member organisations coming from different educational bodies. The daily operations of HKTC are taken up by the Advisory Management Committee, elected by all members, and its Standing Committee. HKTC accepts applications for Activities Grant all year round, with its Standing Committee to evaluate applications received in accordance with the established mechanism.

Projects under application submitted to HKTC by educational bodies and the amounts of grant awarded in the past 5 financial years are tabulated below. No applications were denied.

2013-14 Financial Year

	Applicant Body	Project	Amount of Grant Approved
1.	Education Convergence Education Foundation Limited	Induction Course for New Teachers 2013	$63,000
2.	The Chinese University of Hong Kong Faculty/School of Education Alumni Association	Educational Research Award Scheme Reports 2013/14	$99,500
3.	The Hong Kong Primary Education Research Association	Conference on Curriculum Development and Teaching 2014	$62,000
4.	National Education Association	世界潮人之都──潮汕歷史文化探索之旅	$79,000
5.	Hong Kong Society of Small Class Teaching	優質小班教育經驗研究、出版和發佈計劃	$63,300
6.	Hong Kong Federation of Education Workers	國家現狀與發展	$70,480
7.	The Hong Kong Professional Development Association of the Chinese Language Education	加強小學中文科科主任質素保證能力── 觀課與評課	$57,500
		Total:	**$494,780**

2014-15 Financial Year

	Applicant Body	Project	Amount of Grant Approved
1.	Hong Kong Council for Educational Administration	Induction Course for New Teachers 2014	$58,400
2.	The Hong Kong Primary Education Research Association	Educational Research Award Scheme Reports 2014/15	$99,500
3.	Chinese History Education Society	Conference on Curriculum Development and Teaching 2015	$62,000
4.	NTW LS Profession Network	合作學習理念下的班級經營	$1,300
5.	Hong Kong Federation of Education Workers	一國兩制在香港的實踐	$70,750
		Total:	**$291,950**

2015-16 Financial Year

	Applicant Body	Project	Amount of Grant Approved
1.	Chinese History Education Society	Educational Research Award Scheme Reports 2015/16	$99,500
2.	Hong Kong Association of Deputy Principals	Conference on Curriculum Development and Teaching 2016	$62,000
3.	Hong Kong Federation of Education Workers	鑑古知今：支援教師推行歷史教育	$76,100
4.	Chief Executive's Award for Teaching Excellence Teachers Association	透過設計學習活動提升初中歷史科學與教計劃	$84,780
5.	Hong Kong Society for Education in Art Limited	「給學生創意思考的空間」教材發佈會	$14,400
		Total:	**$336,780**

2016-17 Financial Year

	Applicant Body	Project	Amount of Grant Approved
1.	Hong Kong Putonghua Professionals Association	從甲骨文看中國語言文字的發展與傳承	$2,120
2.	The Graduate Association of Colleges of Education Limited	伴行計劃 2016年度	$15,000
3.	Gifted Education Council	Educational Research Award Scheme Reports 2016/17	$99,500
4.	Hong Kong Teachers' Association	Conference on Curriculum Development and Teaching 2017	$62,000
5.	Hong Kong Federation of Education Workers	香港社會廿年來發展多面睇	$99,950
6.	The Hong Kong Association of Curriculum Development and Leadership	活用資訊科技於教與學（系列）	$7,950
		Total:	**$286,520**

2017-18 Financial Year

	Applicant Body	Project	Amount of Grant Approved
1.	Hong Kong Society for Education in Art Limited	香港STEAM教師培訓課程	$15,000
2.	Hong Kong Putonghua Professionals Association	全新普通話學習無障礙通道 - 全羅馬化拼音方案	$800
3.	The Chinese Language Society of Hong Kong Limited	Conference on Curriculum Development and Teaching 2018	$54,000
4.	The Chinese University of Hong Kong Faculty/School of Education Alumni Association	Educational Research Award Scheme Reports 2017/18	$99,500
		Total:	**$169,300**

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Among the kindergartens under the kindergarten education scheme (Scheme), how many kindergartens need to pay market rent but are entitled to less subsidy under the Rental Subsidy Scheme as compared to the subsidy received under Rent Reimbursement Scheme, and enjoy a grace period of up to 4 years? During the grace period, what is the number of kindergartens that opt for rental subsidy under "dual" caps at 50% of the market rent as assessed by the Rating and Valuation Department, or 15% of the basic half-day unit subsidy for all eligible students under the Scheme, whichever is lower?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 159)

Reply:

We have implemented the new kindergarten education scheme (Scheme) starting from the 2017/18 school year. Among the kindergartens under the Scheme, 30 need to pay market rent but are entitled to less subsidy than that under the Rent Reimbursement Scheme in the 2016/17 school year. These kindergartens may enjoy a grace period of up to 4 years starting from the 2017/18 school year to migrate to the new rental subsidy arrangements. In the 2017/18 or 2018/19 school year, none of these kindergartens opt for rental subsidy under "dual" caps at 50% of the market rent as assessed by the Rating and Valuation Department, or 15% of the basic half-day unit subsidy for all eligible students under the Scheme, whichever is lower.

Question:

Regarding the Web-based School Administration and Management System (WebSAMS) provided by the Education Bureau (EDB), please inform this Committee of the following:

a. The rollout date of the latest version of WebSAMS;

b. The computer operating systems and web browsers supported by the latest version of WebSAMS; and

c. Are there plans to keep updating WebSAMS? If yes, when is the next update due and what will be the expenditure involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 161)

Reply:

a. The Web-based School Administration and Management System (WebSAMS) is a web-based application system developed by the Education Bureau (EDB) to assist public sector and Direct Subsidy Scheme schools in their administration and management work. The latest version is WebSAMS 3.0, which was launched in 2014.

b. The operation of WebSAMS 3.0 requires Windows Server 2012 R2 and is compatible with workstation operating systems Windows 7, Windows 8.1 and Windows 10. For web browsers, WebSAMS supports Internet Explorer 11. We are currently upgrading the application programs of WebSAMS to ensure better support for Chrome. The enhanced functions will be released by phases by the end of 2019.

c. The EDB has been continually upgrading and enhancing the functions of WebSAMS. Apart from regularly updating the hardware and system software to increase the data processing capacity, new functions and modules are introduced from time to time. Examples include the brand new "Standalone Timetabling Tool" for greater efficiency and flexibility in timetable generation and the new module "School Activities Management" rolled out in February this year for more effective process management of school activities.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5338)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government has been providing 12-year free education (i.e. Primary 1 to Secondary 6) to all special school students since the 2009/10 school year. It has also pledged to arrange the related conversion works for special schools.

(1) How many special schools have yet to have the related conversion works completed? What are the reasons for the delay?

(2) Please indicate the status of the works projects, specifying, for example, whether the works are yet to commence, under design, tendering or construction stage, and their expected completion dates.

(3) How many nurses, physiotherapists, occupational therapists, speech therapists and educational psychologists are there in the nursing and allied health staff establishment in the 2017/18 and 2018/19 school years? What are the estimated numbers for the 2019/20 school year? How many of the above posts are vacant? What are the ranks involved?

(4) In the 2017/18 and 2018/19 school years, how many nursing and allied health posts were frozen due to recruitment difficulties and encashed for recruiting temporary staff? What were the expenditures involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 168)

Reply:

(1) & (2)

To cater for the implementation of the New Senior Secondary (NSS) academic structure and the "improvement measures on extension of years of study" in special schools, the Education Bureau (EDB) has been providing additional classrooms and/or related facilities for relevant schools by phases. Having regard to the actual situation and operational needs of individual schools and by liaising and discussing with the schools concerned, the EDB has worked out the scopes of the improvement works and details of implementing the works projects. As at February 2019, a total of 18 improvement works projects for special schools have been completed, while another 23[1] are proceeding at different stages[2]. The progress of relevant works projects is as follows:

Stage	Number of Works Projects
(1) Feasibility Study	2
(2) Conceptual Design	5
(3) Detailed Design	10
(4) Tendering	3
(5) Construction and Handover	3

The time taken to complete the works project depends on a basket of factors, including the scope of the works, whether it involves complicated issues such as lease modification, the progress of technical works and design, and the allocation of resources, etc. The EDB and the works consultant will continue to maintain close liaison and communication with the schools concerned, and complete the remaining works projects as soon as practicable.

(3) and (4)

In the 2017/18 and 2018/19 school years, the establishment of nurses, educational psychologists, speech therapists, physiotherapists and occupational therapists in special schools are tabulated below. As the calculation of the specialist staff establishment is based on the actual number of classes being operated and the number of school places, we are unable to provide the relevant figures for the 2019/20 school year at this stage.

Rank of Specialist Staff	2017/18 School Year	2018/19 School Year
Nurse[Note1]	53	104
Physiotherapist [Note2]	59	60
Occupational Therapist [Note3]	98	99
Speech Therapist	155.5	159.5
Educational Psychologist	19	19

---

1 3 of the 23 works project are capital works projects exceeding $30 million and funding approval has been granted by the Finance Committee of the Legislative Council for 1 of them.

2 In general, a school building project involves 6 stages, namely (1) feasibility study; (2) conceptual design; (3) detailed design; (4) tendering; (5) construction and handover and (6) post-handover maintenance.

Note:

1. The EDB has enhanced the establishment of school nurse in special schools in the 2018/19 school year, 1 additional school nurse is provided for schools for children with intellectual disability, schools for children with physical disability and the school for children with visual impairment cum intellectual disability. In addition, the provision of school nurses has been expanded to cover the school for children with visual impairment and the school for children with hearing impairment, so that these schools each have a school nurse to strengthen their support for students with care needs.

2. The ranks of physiotherapist include Senior Physiotherapist, Physiotherapist I and Physiotherapist II.

3. The ranks of occupational therapist include Senior Occupational Therapist, Occupational Therapist I and Occupational Therapist II.

The total number of vacancies among the abovementioned specialist staff in the 2017/18 and 2018/19 school years were both around 84. Most of them are physiotherapist and occupational therapist posts. Special schools may opt to freeze some of their vacant specialist staff posts and encash for recruiting temporary staff or hiring related service. In the 2017/18 and 2018/19 school years, the numbers of posts frozen by special schools for encashment to provide related services were 62.4 and 60.9 respectively, involving an expenditure of around $31 million and $30 million.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. What are the reasons for creating an estimated 194 non-directorate posts in 2019-20? Please set out in detail the number, rank, salary and duties of each post, as well as the expenditure involved.

2. What are the reasons for creating an estimated 5 directorate posts in 2019-20? Please set out in detail the number, rank, salary and duties of each post, as well as the expenditure involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 172)

Reply:

1. The increase of 194 non-directorate posts in the Education Bureau (EDB) in 2019-20 is the net result of the planned creation of 990 posts and planned deletion of 796 posts. The breakdown of the above posts by rank and annual salary is as follows –

Rank	**Posts to be created**	**Annual Salary [Note] ($million)**
Senior Education Officer (Administration)	2	2.89
Education Officer (Administration)	3	3.22
Assistant Education Officer (Administration)	7	4.68
Principal Inspector	1	1.45
Senior Inspector	4	4.67
Inspector (Graduate)	5	4.70
Assistant Inspector (Graduate)	13	9.10
Specialist (Education Services) I	5	5.37

Specialist (Education Services) II	2	1.40
Speech Therapist	10	6.10
Education Officer	125	117.57
Assistant Education Officer	142	86.61
Primary School Master/Mistress	115	92.38
Assistant Primary School Master/Mistress	470	249.99
Senior Architect	1	1.45
Architect	1	0.78
Senior Maintenance Surveyor	1	1.45
Maintenance Surveyor	3	2.95
Structural Engineer	1	0.78
Building Services Engineer	1	0.78
Quantity Surveyor	1	0.78
Building Services Inspector	5	3.50
Clerk of Works	7	4.90
Assistant Clerk of Works	2	0.88
Senior Survey Officer	1	0.61
Senior Technical Officer	1	0.61
Chief Executive Officer	2	2.89
Senior Executive Officer	3	3.22
Executive Officer I	2	1.53
Executive Officer II	3	1.52
Accounting Officer II	1	0.49
Personal Secretary I	3	1.32
Personal Secretary II	3	0.82
Clerical Officer	2	0.88
Assistant Clerical Officer	3	0.82
Clerical Assistant	2	0.43
Workman II	37	6.30
Sub-total (A):	**990**	

Rank	**Posts to be deleted**	**Annual Salary** [Note] **($million)**
Senior Education Officer (Administration)	-1	1.45
Education Officer (Administration)	-2	2.15
Assistant Education Officer (Administration)	-3	2.01
Inspector (Graduate)	-2	1.88
Assistant Inspector (Graduate)	-3	2.10
Assistant Education Officer	-37	22.57
Assistant Primary School Master/Mistress	-34	18.08
Senior Assistant Master/Mistress	-33	26.51
Assistant Master/Mistress	-136	86.81
Certificated Master/Mistress	-530	233.19
Senior Architect	-1	1.45

Architect	-1	0.78
Structural Engineer	-1	0.78
Building Services Engineer	-1	0.78
Quantity Surveyor	-1	0.78
Building Services Inspector	-1	0.70
Clerk of Works	-1	0.70
Senior Survey Officer	-1	0.61
Senior Technical Officer	-1	0.61
Senior Maintenance Surveyor	-1	1.45
Maintenance Surveyor	-1	0.98
Senior Executive Officer	-1	1.07
Executive Officer II	-1	0.51
Personal Secretary I	-1	0.44
Assistant Clerical Officer	-1	0.27
Sub-total (B):	**-796**	
Net Total [(A)+(B)]:	**194**	

The 194 net additional posts are mainly for enhancing the provision of services in various areas, which include implementing the all-graduate teaching force policy in public sector schools, strengthening support measures for integrated education and replacing long-term non-civil service contract positions.

2. The increase of 5 directorate posts in the EDB in 2019-20 is the net result of the planned creation of 6 posts and planned deletion of 1 post. The breakdown of the above posts by rank and annual salary is as follows –

Rank	**Posts to be created**	**Annual Salary** [Note] **($million)**
Assistant Director of Education	3	6.54
Principal Education Officer	3	5.51
Sub-total (A):	**6**	

Rank	**Posts to be deleted**	**Annual Salary** [Note] **($million)**
Assistant Director of Education	-1	2.18
Sub-total (B):	**-1**	
Net Total [(A)+(B)]:	**5**	

The 5 net additional posts are mainly for strengthening the directorate establishment of the EDB for steering and leading the formulation of strategies/measures, planning and preparation as well as the smooth implementation of various policies.

Note: Notional Annual Mid-point Salary (NAMS) is used for calculating the annual salaries of the civil service posts.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5343)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the respective number of students with special educational needs studying at each grade level in kindergartens, primary schools, secondary schools and special schools by Education Bureau school district in the territory in the school years from 2015/16 to 2018/19. What are the categories covered?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 175)

Reply:

As support services for children with special needs at pre-primary levels are provided by the Social Welfare Department, the Education Bureau (EDB) does not maintain information on students with special needs at kindergarten levels.

As the provision of support services for students with special educational needs (SEN) does not have relationship with the district in which they live, we are unable to provide the number of students with SEN by districts in the territory. From the 2015/16 to 2018/19 school years, the respective number of students with SEN studying in public sector mainstream primary and secondary schools by grade level and by SEN type is set out at Appendix 1. With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students with SEN has increased over the years. From the 2015/16 to 2018/19 school years, the number of students studying in special schools is set out at Appendix 2. It is a common practice for special schools to adopt flexible groupings across grade levels and devise individual education plans to cater for the SEN of the students, therefore, presenting the number of students by grade level cannot reflect the actual operation in special schools.

**Number of students with special educational needs (SEN)
studying in public sector mainstream primary and secondary schools by grade level and by SEN type
from the 2015/16 to 2018/19 school years** (Note 1)

2018/19	10	9	6	4	13	13	22	42	53	57	61	74

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of student to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
2. The numbers of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

Number of students studying in special schools from the 2015/16 to 2018/19 school years (Notes 1 & 2)

School Year	School Type						
	Visual Impairment	Hearing Impairment	Physical Disability	Mild Intellectual Disability (Note 3)	Moderate Intellectual Disability (Note 3)	Severe Intellectual Disability (Note 4)	Schools for Social Development
2015/16	125	87	915	3 049	1 879	679	600
2016/17	123	89	883	3 103	1 911	687	553
2017/18	112	84	877	3 154	1 992	699	594
2018/19	110	64	907	3 218	2 040	706	614

Notes:

1. Figures show the position as at September of the respective school years.
2. Students from the Hospital School are not included due to the transitional nature of the education service provided.
3. The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of schools for children with MiID and MoID (7 schools in the 2015/16 school year and 5 schools starting from the 2016/17 school year).
4. 1 school for children with severe intellectual disability operates classes for children with MoID on a pilot basis starting from the 2017/18 school year.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2019/20 school year, the Education Bureau will create school-based speech therapist posts in schools. Please provide a breakdown of the following figures by primary school, secondary school and special school:

(1) What is the number of speech therapists in the territory?
(2) How many schools have responded that they would apply for school-based speech therapy service in the next school year? What is the percentage out of the total number of schools by their respective school type?
(3) What are the number, remuneration package and qualification requirements of the related posts in the next school year and the estimated annual expenditure involved?
(4) What counts as recognised qualification of school-based speech therapists?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 90)

Reply:

(1)
The Department of Health conducts Health Manpower Surveys (HMS) on a regular basis to obtain up-to-date information on the characteristics and employment status of the healthcare personnel practising in Hong Kong. According to the latest 2014 HMS on the 16 types of healthcare personnel included in the health services functional constituency, a total of 641 speech therapists (STs) were employed by the covered institutions.

At present, STs are not subject to statutory registration of medical professionals. In April 2018, a full accreditation status has been granted to the Hong Kong Institute of Speech Therapists under the Pilot Accredited Registers Scheme for Healthcare Professions, authorising the institute as the accredited healthcare professional body responsible for

administering a register for the ST profession. As at December 2018, there are 150 voluntarily registered STs on the register.

In addition, local universities offer undergraduate and master programmes in training STs every year. According to the information we gathered from these universities, there were 90, 115 and 108 ST graduates from these courses respectively in the past 3 years (that is, from 2016 to 2018).

(2)
Starting from the 2019/20 school year, the Education Bureau (EDB) will implement the Enhanced School-based Speech Therapy Service (SBSTS) to create school-based speech therapist (SBST) posts in public sector mainstream primary and secondary schools by phases in 3 years. More than 400, that is, around 50% of the public sector mainstream primary and secondary schools, have informed the EDB in writing of their intention to implement the Enhanced SBSTS in the 2019/20 school year.

(3)
In the 2019/20 school year, more than 200 schools will implement the Enhanced SBSTS and most of them will form a cluster of two schools to employ SBSTs. It is estimated that over 100 SBST posts are needed to be created. The SBSTs, remunerated at Master Pay Scale Points 16 to 33, should have a degree in Speech and Hearing Sciences awarded by a local university or equivalent. Upon the full implementation of the Enhanced SBSTS, the estimated recurrent annual expenditure is about $320 million.

(4)
Regarding the calculation of recognized experience and salary for SBSTs in aided schools, the schools and the EDB will make assessment and verification in accordance with the requirements and principles stipulated in the Codes of Aid and the Guide to Salary Assessment for Aided Schools. In general, for SBSTs who were previously employed by public sector schools (including Salaries Grant and non-Salaries Grant), schools under the Direct Subsidy Scheme, subvented non-governmental organisations or hospitals under the Hospital Authority, and perform duties as a ST, their relevant work experience would be considered for counting for incremental credits upon verification. The SBST posts created in government schools are within the civil service establishment and the EDB is responsible for the appointment matters. The EDB issued a circular to inform schools of the above measures in April this year for them to follow up.

Question:

It was announced in last year's Budget that the Government would invite the Quality Education Fund (QEF) Steering Committee to allocate $3 billion to roll out a dedicated funding programme for application by publicly-funded schools for launching school-based curriculum development and student support measures, carrying out relevant school improvement works and procuring supplies. Please provide the following information, with a breakdown by primary school, secondary school, kindergarten and special school:

1. What is the amount of funding earmarked by the QEF each year?

2. What is the number of school applications received? What is the number of projects involved?

3. What is the number of schools receiving funding? What are the number of projects and amount of funding involved?

4. What are the details and types of the projects applying for funding?

5. What are the projects that have been rejected?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 107)

Reply:

To further support students' learning, enhance the quality of school education and promote quality school education, the Quality Education Fund (QEF) has, on a recommendation made by the Government in the 2018-19 Budget, set aside $3 billion for the implementation of the Dedicated Funding Programme for Publicly-funded Schools (the Programme) for 4 school years starting from the 2018/19 school year. Schools may apply for funding to launch school-based curriculum development and/or student support measures. The first call for submission of application of the Programme was made from July to September 2018. Excluding the applications withdrawn by some of the schools, 129, 126, 11 and 27 applications were made by secondary schools, primary schools, special schools and kindergartens respectively as at February 2019, totaling 293 applications. The applications are related to school-based curriculum development and/or student support measures. 75 secondary schools, 75 primary schools, 6 special schools and 14 kindergartens have been approved with 98, 85, 9 and 15 applications respectively, totaling 207 applications, with respective funding amount of about $68.1 million, $67.6 million, $4.2 million and $4.5 million. A small number of applications were rejected as they were not in line with the funding ambit of the Programme or the direction of education policies. As for the remaining applications that require further follow-up actions, the QEF will, upon receipt of relevant information from the schools, accord priority to the handling of such applications so that schools could obtain funding as soon as possible to take forward the project activities.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Mandatory Window Inspection Scheme and Mandatory Building Inspection Scheme have been fully implemented since 30 June 2012. In this connection, please provide the following information with a breakdown by primary, secondary and special schools:

The number of schools required to carry out window inspection in each school year; the age of the school premises concerned, and the expenditure involved; and
The number of schools required to carry out building inspection in each school year; the age of the school premises concerned, and the expenditure involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 125)

Reply:

Under the Mandatory Building Inspection Scheme (MBIS) and Mandatory Window Inspection Scheme (MWIS), the Buildings Department or the Independent Checking Unit of the Transport and Housing Bureau (applicable to buildings in housing estates under the management of the Housing Department) will issue statutory notices (SNs) requiring various types of buildings, including schools, to carry out building (for those aged over 30 years) or window (for those aged over 10 years) inspections. Under the existing mechanism, aided schools may apply for the Education Bureau's (EDB) MBIS/MWIS Subsidy upon receipt of the SNs in order to appoint registered inspectors or qualified persons to carry out the inspections and registered contractors to carry out the necessary repair works. SNs do not specify the age of the premises, nor have we required the school submitting applications related to works under SNs to provide premises' age either, we do not have the information as requested. As at February 2019, the EDB has approved a total of 150 applications from 130 schools (note), involving a total approved estimate of subsidy of around $54 million. The details are as follows:-

Financial Year	Number of Approved Applications	Approved Estimate of Subsidy ($million)
2014-15	19	3.9
2015-16	31	7.4
2016-17	43	16.9
2017-18	34	9.9
2018-19	23	16.1
Total	150	54.2

As regards Direct Subsidy Scheme schools, they may apply for non-recurrent subventions through the annual major repairs mechanism if the estimated cost of the repair works is over $2 million.

(Note): As schools may submit separate applications under the MBIS and MWIS, the number of approved applications is more than the number of schools.

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. The Financial Secretary pledged in 2017 that sufficient provision would be earmarked for improving school environment. What is the Government's annual financial commitment in this regard? How many primary, secondary and special schools will carry out improvement works every year? What are the details of the improvement works?

2. Please provide information on 5 improvement works items that the Education Bureau has carried out for 22 matchbox-style school premises using the table below:

Works item	Number of schools that have undergone the improvement works	Expenditure involved
Installing soundproof doors and double-glazed window system in classrooms		
Installing a ventilation system along internal corridors		
Installing openable windows at the grille walls at staircase landings		
Installing acoustic panel wall system with metal frame for internal partitions of classrooms		
Installing moveable partitions on both sides of covered playgrounds and a ventilation system		

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 126)

Reply:

1. Over the years, the Education Bureau (EDB) has implemented various measures to enhance school facilities having regard to the circumstances of individual schools. Among these measures, the EDB assists aided schools in handling relatively larger scale or more complicated repair and improvement works of school premises under the annual Major Repairs exercise, including appointing consultants and contractors to assist aided schools in handling repair works with an estimated project cost over $3,000 for primary and special schools, or over $8,000 for secondary schools; and carrying out emergency repair works of school facilities at the request of aided schools under the Emergency Repairs mechanism. In this connection, the EDB has reserved around $1,200 million under Head 156 Subhead 900 as non-recurrent subvention for carrying out the related repair works in both the 2018-19 and 2019-20 financial years, which represents a significant increase of over 30% when compared with the estimate for the 2017-18 financial year.

Under the existing Major Repairs mechanism, the EDB will invite applications for annual major repair works from all 840 odd aided schools in April/May. In 2018-19, the EDB has received Major Repairs applications from a total of 821 aided schools and granted approval for these schools to carry out all or some of the items covered by their applications, including replacing/renovating facilities, re-painting, repaving, replacing of waterproof layer, rewiring etc. When necessary, aided schools may also apply for non-recurrent subvention under the Emergency Repairs mechanism to carry out emergency repair works all year round.

2. Based on the consensus reached earlier with the school sector, the EDB has been carrying out 5 improvement works for 24 primary schools operating in "matchbox-style school premises" since the 2017 summer break, with a focus on addressing the unique architectural design features of these premises. According to the consultants, the estimated cost for these 5 improvement works is around $10 million. Since the school premises conditions and needs of these 24 schools vary, the scope of improvement works, and hence the expenditures and work schedules for individual schools would also differ. We have been maintaining close liaison and communication with the schools concerned on the items and details of the improvements works, in a bid to accommodate the needs of the schools. As at March 2019, the number of schools that have confirmed the commencement of the 5 improvement works is as follows:

Improvement works	No. of schools having confirmed commencement of works
Installing soundproof doors and double-glazed windows in classrooms	23
Installing a ventilation system along internal corridors	24
Installing openable windows at the grille walls at staircase landings	15
Installing acoustic panel wall system with metal frame for internal partitions of classrooms	18
Installing moveable partitions on both sides of covered playgrounds and a ventilation system	21

Question:

Regarding the status, future planning and use of vacant school premises (VSP), please provide the following information:

1. using the table below, please list the details of vacant kindergartens, primary schools and secondary schools, including school name, detailed school address, site area of school premises, year in which the school ceased operation, the VSP that have been reused or reallocated for educational use;

School name	Detailed school address	Site area (m^2)	Year in which the school ceased operation	Reused/Reallocated for educational use

2. the actual and estimated expenditure incurred for the management of these VSP, the number of premises involved and the expenditure items in each of the school years from 2013-14 to 2018-19 and the coming school year. Please specify the government departments managing the VSP;

3. a breakdown of the VSP and new development land already allocated and those available for school application in future by school district;

4. the number of newly-built schools and schools redeveloped, the actual expenditure and the estimated expenditure involved in each of the school years from 2013-14 to 2018-19 and the coming school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 130)

Reply:

(1) and (3) At present, all kindergartens (KGs) in Hong Kong are privately run. KGs generally operate in premises identified in the private market on their own, premises owned by their school sponsoring bodies or estate KG premises. The Education Bureau (EDB) does not compile statistics on vacant KG premises. According to the Hong Kong Housing Authority (HKHA)'s records, there are currently 3 vacant estate KG premises in public housing estates under the HKHA. According to the established arrangement, upon receipt of notification from the Housing Department (HD), the EDB will assess whether a School Allocation Exercise (SAE) for nominating operators for estate KG premises is necessary having regard to the result of the latest demand and supply analysis of KG places in the vicinities of the estate KG premises concerned as well as other related factors. Should the assessment not justify the SAE, the EDB would inform the HKHA for their consideration of whether to put the estate KG premises to other alternative uses. The HKHA may also arrange open rental tender of KG premises at market rent from time to time. In respect of the aforesaid 3 vacant estate KG premises, 2 premises have been recommended for allocation to school sponsoring bodies through the Second SAE 2016, and the HD is taking follow-up actions on the remaining 1 premises. The EDB would handle the matter according to the aforesaid procedures upon receipt of notification from the HD.

In respect of vacant school premises (VSP), it has all along been the EDB's policy objective to put VSP into gainful use. When there is a vacant or to-be-vacant school premises, the EDB will consider factors including the size, location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use and whether the premises is needed to be reallocated for school or other educational use.

Once the EDB confirms that the VSP are no longer required by the EDB for reallocation for school use, the EDB would inform the Planning Department (PlanD) and other relevant departments (such as the Lands Department (LandsD) and HD) for the PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism. According to the mechanism, the EDB is allowed to retain VSP for school use. However, if the EDB intends to use VSP for other educational uses, the EDB needs to put forward its proposed use with justification to the PlanD for assessment and may need to compete with other government departments on use of such VSP.

As at end-February 2019, there are 10 VSP under the EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by the EDB). Information on these premises is set out in Table (1) below:

Table (1) – 10 VSP under the EDB's purview (position as at end-February 2019)

No.	District	Former School Name	Address	School year in which the school ceased operation (Note)	Site area of school premises (rounded to the nearest hundred m^2)
1	Wan Chai	Wanchai School	30 Oi Kwan Road, Wan Chai, Hong Kong	2006/07	2 000
2	Eastern	Hong Kong Japanese School	9 Hau Yuen Path, Braemar Hill Road, North Point, Hong Kong	2017/18	2 900
3	Southern	St. Peter's Secondary School	220 Aberdeen Main Road, Hong Kong	2012/13	6 000
4	Kowloon City	Hung Hom Government Primary School	68 Gillies Avenue, Hung Hom, Kowloon	2009/10	1 900
5	Wong Tai Sin	S.K.H. Ching Shan Primary School	3 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	3 700 (Total)
6	Wong Tai Sin	S.H.K. Yat Sau Primary School	1 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	
7	Sham Shui Po	Kowloon Junior School	4 Rose Street, Yau Yat Chuen, Kowloon	2013/14	3 700
8	Sham Shui Po	Chi Yun School	19 Kwong Lee Road, Kowloon	2018/19	2 000
9	Tai Po	Tai Po Government Primary School	22 Wan Tau Kok Path, Tai Po, New Territories	1999/00	2 400
10	Islands	Cheung Chau Public School	School Road, Cheung Chau, New Territories	2006/07	5 800

Note: "School year in which the school ceased operation" refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

The EDB would take into account a basket of factors and periodically assess the possible educational use of VSP under the EDB's purview. There is a need to earmark/retain some VSP to cater for the anticipated future demand for school places and to allow flexible arrangements required in view of the uncertainty involved. In addition, the EDB needs VSP to flexibly address various and changing needs, including re-provisioning of existing schools to improve their learning and teaching environment; decanting use by schools undergoing in-situ redevelopment or extension works; allocating school premises for operation of international schools, etc. It is therefore inappropriate and impracticable to

impose any fixed target on the length of the vacancy period of a VSP or the number of VSP to be retained. Nevertheless, with the policy objective of putting VSP into gainful use in mind, the EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within the EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, Home Affairs Department, LandsD, PlanD and Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

As far as school building sites are concerned, as at March 2019, there are a total of 22 reserved school sites (including primary, secondary and special schools) in the territory having completed the relevant technical feasibility study and the timeframe for school development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as site investigation and school design, are being carried out in accordance with the prevailing procedures. A breakdown of the 22 reserved school sites by districts with their location, site area and planned use, is set out in the Table below. Among them, funding approval for projects on 3 reserved school sites was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2015-16 LegCo Session with the school building works already underway; project on 1 reserved school site was approved in the 2016-17 LegCo Session with the school building works already commenced; project on 1 reserved school site was approved in the 2017-18 LegCo Session with the school building works commenced in 2018. In addition, funding approval for projects on 2 reserved school sites has just been obtained from the current LegCo Session with the school building works about to commence. The projects on another 2 reserved school sites will be submitted to the FC to seek funding approval in the current LegCo Session. For the remaining 13 sites, 4 fall within private development projects or site availability being affected by private development projects, while the rest are being deployed for temporary use, undergoing site formation work or with preliminary works/detailed design for school building project being undertaken in accordance with the existing mechanism and procedures.

Table (2) – Reserved School Sites by District

No.	**District**	**Location**	**Site Area (rounded to the nearest hundred $m^{2)}$**	**Planned use**	**Number of classrooms**	**Allocation status**	**Remarks**
1	Kowloon City	Kai Tak Development	7 500	Secondary School	30	Allocated	(i)
2	Kowloon City	To Kwa Wan	7 700	Secondary School	30	Unallocated	(iii)
3	Kowloon City	Ho Man Tin	7 800	Primary School	24	Unallocated	(iii)
4	Kowloon City	Kowloon Tong	7 700	2 Special Schools	12 and 24 respectively	Unallocated	(iii)
5	Kowloon City	Kai Tak Development	6 100	Primary School	30	Unallocated	(iii)

No.	District	Location	Site Area (rounded to the nearest hundred $m^{2)}$	Planned use	Number of classrooms	Allocation status	Remarks
6	Kwun Tong	Anderson Road	7 500	Secondary School	30	Allocated	(ii)
7	Kwun Tong	Anderson Road	6 500	Primary School	30	Allocated	(i)
8	Kwun Tong	Anderson Road	7 200	Primary School	30	Allocated	(iii)
9	Kwun Tong	Anderson Road	6 800	Primary School	30	Unallocated	(iii)
10	North	Fanling	5 900	Primary School	30	Allocated	(i)
11	North	Fanling	5 900	Primary School	30	Allocated	(i)
12	Sham Shui Po	Cheung Sha Wan	6 500	Primary School	30	Allocated	(i)
13	Sham Shui Po	Cheung Sha Wan	6 200	Primary School	30	Unallocated	(iii)
14	Sai Kung	Tseung Kwan O	6 200	Primary School	30	Allocated	(iv)
15	Sai Kung	Tseung Kwan O	7 000	Secondary School	30	Allocated	(iv)
16	Sai Kung	Tseung Kwan O	7 400	Secondary School	30	Unallocated	(iii)
17	Tuen Mun	Tuen Mun West	7 100	Special School	16	Allocated	(i)
18	Islands	Tung Chung	5 800	Special School	18	Allocated	(i)
19	Sha Tin	Shui Chuen O	8 800	Primary School	30	Allocated	(ii)
20	Sha Tin	Fo Tan	4 700	Primary School	24	Unallocated	(iv)
21	Tai Po	Area 9	7 100	Primary School	36	Unallocated	(iii)
22	Tsuen Wan	Tsuen Wan West	5 800	Primary School	30	Allocated	(iv)

Remarks:

(i) Funding approval has been obtained from the FC of LegCo for the school building project.

(ii) Funding approval will be sought from the FC of LegCo in the 2018-19 LegCo Session for the school building project.

(iii) The site is being deployed for temporary use, undergoing site formation work or with preliminary works/detailed design for school building project being undertaken in accordance with the existing mechanism and procedures.

(iv) The site falls within a private development project and is not regarded as Government land or the site availability is affected by a private development project.

According to the EDB's prevailing school allocation mechanism, once a vacant/to-be-vacant premises or a reserved school site is confirmed to be required for allocation for school use, the EDB will normally invite application from all eligible organisations in the territory through the SAE and make relevant announcement through press release and on its website. The SAE is generally conducted on a competitive basis amongst the applicant bodies.

When assessing the applications, quality of education is the prime consideration of the School Allocation Committee comprising official and non-official members. Other factors, including operation track record and condition of existing school premises (where applicable), the school proposal, etc., will also be considered. In this connection, we launched the First and Second SAEs 2019 in January 2019, under which 1 planned school premises in Tai Po district would be allocated for operating a new aided school and 1 planned school premises and the to-be-vacant ex-Sung Lan Middle School in Sha Tin district would be allocated for reprovisioning of existing primary schools.

(2) The EDB is responsible for the management of VSP located on sites allocated to the EDB, including those that the PlanD has been informed of under the central clearing house mechanism but that the LandsD has requested the EDB to continue the management until the next users have been identified and taken over the land. From 2013-14 to 2019-20, the expenditure/estimated expenditure incurred by the EDB for the management of VSP is $0.727 million, $0.957 million, $1.221 million, $1.341 million, $1.266 million, $1.229 million and $1.966 million respectively, which mainly includes security patrol and inspections, pest control, removal of litter, as well as cleansing and weeding. The increase of around $0.74 million in the estimate for 2019-20 over 2018-19 is mainly due to the increased expenditure on the enhanced mosquito control and prevention work, and the improved benefits (such as contract gratuity and statutory holiday pay) for contract staff.

(4) The school building projects for new schools and redevelopment/extension of public sector schools in which funding approval has been obtained from the FC of LegCo from 2013-14 to 2018-19, and the school building projects in which support from the Panel on Education of LegCo has been obtained with funding approval to be sought from the FC in 2019-20 are set out in Table (3) below.

Table (3) – The school building projects for new schools and redevelopment/extension of public sector schools in which funding approval has been obtained/will be sought from the FC:

No.	**Financial year in which funding was/to be approved**	**Project**	**School type**	**Project nature**	**Estimated cost for school building ($ million)**
1	2013-14	A 30-classroom primary school at Site 1A-4, Kai Tak Development, Kowloon	Primary School	Reprovisioning	317.5
2		A 30-classroom primary school at Site 1A-3, Kai Tak Development, Kowloon	Primary School	Reprovisioning	312.4
3		Redevelopment of Ying Wa Girl's School at Robinson Road, Hong Kong	Secondary School	Redevelopment	653.4

No.	Financial year in which funding was/to be approved	Project	School type	Project nature	Estimated cost for school building ($ million)
4	2014-15	Construction of an Annex to Baptist Lui Ming Choi Secondary School, Shatin, New Territories	Secondary School	Extension	148.8
5		Two special schools at Sung On Street, To Kwa Wan	Special School	Reprovisioning	484
6		A school for social development for girls at Choi Hing Road, Kwun Tong, Kowloon	Special School	New School	373.7
7		A 36-classroom primary school in Area 36, Fanling	Primary School	Reprovisioning	417.2
8	2015-16	Two 24-classroom primary schools at ex-Tanner Road Police Married Quarters site at Pak Fuk Road, North Point, Hong Kong	Primary School	Reprovisioning (whole-day)	660
9		A 12-classroom special school for children with mild intellectual disability near Hoi Lai Estate, Sham Shui Po	Special School	Reprovisioning	256.6
10	2016-17	Extension and conversion to St. Paul's Primary Catholic School at Wong Nai Chung Road, Happy Valley	Primary School	Partial redevelopment and partial extension works	467.8
11		A 30-classroom secondary school at Site 1A-2, Kai Tak development	Secondary School	Reprovisioning	446.7
12		A 30-classroom primary school at Site KT2b, Development at Anderson Road, Kwun Tong	Primary School	Reprovisioning	351.1
13		A school for social development for boys in Area 2B, Tuen Mun	Special School	Reprovisioning	408.5

No.	Financial year in which funding was/to be approved	Project	School type	Project nature	Estimated cost for school building ($ million)
14	2017-18	A special school for students with mild, moderate and severe intellectual disabilities in Area 108, Tung Chung	Special School	New School	334.7
15		A 30-classroom primary school at Tonkin Street, Cheung Sha Wan	Primary School	Reprovisioning	345.5
16	2018-19	Provision of Boarding Section of Hong Chi Pinehill School and reprovisioning of Boarding Section of Hong Chi Pinehill No.2 School in Tai Po	Special School	Extension and reprovisioning	170.2
17		Conversion to Heung Hoi Ching Kok Lin Association Buddhist Po Kwong School	Special School	Extension	197.6
18		Construction of an assembly hall at Munsang College at 8 Dumbarton Road, Kowloon City	Secondary School	Extension	81.4
19		First 30-classroom primary school at Queen's Hill, Fanling	Primary School	New School	386.1
20		Second 30-classroom primary school at Queen's Hill, Fanling	Primary School	New School	386.6
21*	2019-20	A 30-classroom primary school at Shui Chuen O, Sha Tin	Primary School	New School	To be confirmed
22*		A 30-classroom secondary school at Site KT2e, Development at Anderson Road, Kwun Tong	Secondary School	Reprovisioning	To be confirmed

* The EDB plans to seek funding approval from the FC of LegCo in the 2018-19 LegCo Session for the school building project concerned.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5351)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

From the 2013/14 to 2018/19 school years:

(1) Please set out the items under the insurance the Education Bureau obtained for primary, secondary and special schools and the expenditure involved as well as the respective numbers of schools, teachers and students covered, claim applications and successful claims.

(2) Of the above claim applications and successful claims, please set out the cases involving professional liability and deaths respectively.

(3) Upon implementation of free kindergarten education, is there any provision reserved for kindergartens to obtain necessary insurance in the next school year? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 135)

Reply:

(1) & (2)

The Education Bureau (EDB) has taken out the Block Insurance Policy (BIP), which comprises 3 parts, namely the public liability insurance, the employees' compensation insurance and the group personal accident insurance, for aided primary and secondary schools (including special schools). Professional liability insurance is not under the coverage of the BIP. All staff in aided primary and secondary schools (including special schools), both teaching and non-teaching, whose salaries are subvented by the EDB, as well as students, are insured under the BIP. Each period of insurance covers 2 school years and the expenditures on the insurance premium for the BIP for the 2013/14 to 2014/15, 2015/16

to 2016/17 and 2017/18 to 2018/19 school years are $145.2 million, $146.1 million and $129 million respectively. To protect the interests of the claimants, schools are required to report all accidents, irrespective of whether they are liable, to the BIP insurer. Hence, the number of reported cases should not be taken as the number of claims. We do not have the statistics on the number of claims. From the 2013/14 to 2018/19 school years (as at November 2018), the total number of reported cases and indemnified cases for all types of insurance under the BIP are 12 900 and 5 900 respectively. Among them, there are 18 cases involving deaths.

(3) Under the new kindergarten (KG) education policy, the EDB provides direct subsidy to KGs joining the new KG education scheme (Scheme). Funding is provided basically on a per student basis in the form of a basic unit subsidy. The basic unit subsidy covers teaching staff salary, supporting staff salary and other operating costs. Insurance premium is one of the expenditure items chargeable to the "other operating costs" portion of the basic unit subsidy. The mode of provision of funding for KGs differs from that for aided primary and secondary schools. The degree to which KGs and aided primary and secondary schools have to follow the EDB's established operational and administrative practices also differs. As compared to aided primary and secondary schools, the modes of operation among KGs participating in the Scheme are more diversified. Hence, the EDB does not play the role of a central coordinator in various aspects relating to operation of KGs, including procurement of insurance policies.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government carries out repair and improvement works for schools every year. In this connection, please provide the following information in respect of primary, secondary and special schools for the school years between 2014/15 and 2019/20:

1. The actual and estimated provisions for repair works in each school year, and the year-on-year percentage changes;
2. The respective amounts of funding granted through the annual Major Repairs exercise and the Emergency Repairs mechanism in each school year;
3. Under the existing mechanism, schools have to bear the repair cost if the estimated project cost is under $3,000 (for primary and special schools)/$8,000 (for secondary schools). Does the project cost include wages paid to the workers providing the repair services?
4. The reasons for the provision in the coming year to be lower than the revised estimate.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 144)

Reply:

Over the years, the Education Bureau (EDB) has implemented various measures to enhance school facilities and improve teaching and learning environment, having regard to the circumstances and needs of individual schools. Among these measures, the EDB assists aided schools in handling relatively larger scale or more complicated repair and improvement works of school premises under the annual Major Repairs exercise, including appointing consultants and contractors to assist aided schools in handling repair works with an estimated project cost over $3,000 for primary and special schools, or over $8,000 for secondary schools; and carrying out emergency repair works of school facilities at the request of aided schools under the Emergency Repairs mechanism. As regards Direct Subsidy Scheme

schools, they may also submit applications under the annual Major Repairs mechanism if the estimated project cost of the repair works is over $2 million. The estimated project cost normally includes labour and material costs.

For the financial years 2018-19 and 2019-20, the Government has respectively reserved around $1.5 billion as non-recurrent subvention for carrying out repair/improvement works of school premises under the annual Major Repairs and Emergency Repairs mechanism. For the financial years from 2014-15 to 2019-20, the relevant actual expenditure/estimated expenditure is tabulated below:

Actual expenditure/ estimated expenditure ($ million)	2014-15 (actual expenditure)	2015-16 (actual expenditure)	2016-17 (actual expenditure)	2017-18 (actual expenditure)	2018-19 (estimated expenditure)	2019-20 (estimated expenditure)
Secondary schools	506.0	535.9	579.9	674.3	775.2	breakdown by school type is not available
Primary schools	393.8	386.5	478.2	575.1	663.1	
Special schools	41.2	49.1	46.7	58.5	74.6	
Total	941.0	971.5	1,104.8	1,307.9	1,512.9	1,500.7
Percentage change	-	+3%	+14%	+18%	+16%	-0.8%

As the EDB is still processing school applications submitted under the Major Repairs mechanism for 2019-20, a breakdown by school type for the financial year concerned is not yet available. To meet the cash flow requirement of the relevant projects, the estimated expenditure for 2019-20 has been slightly adjusted downward by 0.8% as compared with that for 2018-19. Notwithstanding, the project estimate to be approved under the annual 2019-20 Major Repairs and Emergency Repairs mechanism is expected to be comparable to that for 2018-19.

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The School Administration Guide states that schools are responsible for maintaining the school premises in a safe and hygienic condition. They are also responsible for maintaining and managing the school premises, and arranging maintenance works as necessary in order to meet the basic fire safety and hygiene requirements stipulated in the relevant legislations and regulations. Section 55(5) of the Education Regulations also requires the provision of a suitable room for medical inspection and first aid in the premises of any school which has more than 100 pupils. Please set out by primary, secondary and special school:

1. the number of schools that are not equipped with fire safety installations such as automatic water sprinklers and smoke detectors; and

2. the number of schools that are not provided with a separate room for medical inspection and first aid;

3. Does the Education Bureau plan to alter or install the above-mentioned facilities for schools without them through next year's budget? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 145)

Reply:

The Education Bureau (EDB) values teaching and learning environment of schools. It has been the EDB's established policy to enhance school facilities should the need arises and where feasible. At present, there are about 840 aided schools in the territory. Their premises were built in different periods in accordance with the building standards at the time of construction and facilities in the premises vary. While the standards have been changing over the years, existing school premises in operation are required to comply with prevailing statutory requirements. Take fire service installations and equipment (FSI) as an example, when approving school building plans, the Fire Services Department (FSD) will formulate the necessary FSI for the schools concerned based on the prevailing requirements. According to information available to the EDB, currently, all these 800s schools mentioned above have FSI installed. By retaining and maintaining the FSI installed at the school premises during the time of construction in efficient working order and conducting annual inspections for such installations in accordance with the Fire Service (Installations and Equipment) Regulations (Cap 95B), schools would have complied with the FSI requirements imposed by the FSD and by law. Schools can make use of the Expanded Operating Expenses Block Grant to pay for the relevant inspection fees and maintain and repair such installations and equipment through the annual major repairs exercise and emergency repairs mechanism.

Over the years, the EDB has implemented various measures to enhance teaching facilities. Among these measures, the School Improvement Programme (SIP) was implemented between 1994 to 2006, under which about 700 public sector schools built according to the planning standards when the schools were constructed have their teaching and administrative facilities enhanced. Furthermore, the EDB has also put in place other measures to enhance school facilities and improve teaching and learning environment. Examples include addition or conversion of classrooms and special rooms, installation of barrier-free facilities, repair and replacement of facilities, etc. Based on the EDB's information, a majority of public sector schools have already been equipped with major facilities, such as assembly halls, libraries, computer rooms or language rooms, ball courts or covered playgrounds, medical inspection rooms, etc. Meanwhile, under school-based management, schools may initiate changes to the intended use of some school facilities to meet students' needs and suit the overall school development. If no structural change of the building is entailed, such alterations made could be handled by the schools themselves without having to apply through or report to the EDB. Therefore, the EDB is not able to provide a breakdown of the relevant school facilities.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5359)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Education Bureau (EDB) has been installing air-conditioning systems for the 6 types of eligible facilities in public sector schools. It has also provided these schools with a recurrent Air-conditioning Grant to cover the daily expenses, including electricity charges and routine maintenance costs, incurred by the air-conditioning systems. Please provide the following information in respect of primary, secondary and special schools:

1. What is the respective number of schools in need of (1) installing and (2) replacing air-conditioning systems in the current school year, hence the number of air-conditioning systems and expenditure involved? What are the items covered by the grant, hence the ceiling of the grant for each school?

2. What is the quarterly expenditure incurred on the disbursement of the grant to schools?

3. The Government has replaced the former Noise Abatement Grant and Air-conditioning Grant for Schools for Physically Disabled/Severely Intellectually Disabled Children with the Air-conditioning Grant. How many schools are involved? How many of them are receiving a smaller amount of grant as a result? How will the difference be met?

4. To facilitate the planning of grant provision, the EDB has verified each of the eligible facilities in schools last year. Please provide the number of schools without a "standard assembly hall", without a library and with fewer special rooms as compared to the number listed in the Schedule of Accommodation? How many of these schools are not provided with the relevant grant as a result?

5. Many schools with sub-standard teaching facilities do not have a standard student activity centre, and have to use the covered playground for organising student activities. How many schools are involved? Since covered playgrounds are not covered within the ambit of the grant, in view of the special needs of schools in sub-standard premises, will the EDB consider installing air-conditioning systems in the covered playgrounds of the schools concerned and providing them with the relevant grant? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 176)

Reply:

1. As at March 2019, the number of schools approved under the relevant programme to install, repair or replace air-conditioning systems is tabulated below:

School Type	No. of schools installing air-conditioning systems	No. of schools repairing or replacing air-conditioning systems
Primary School	36	158
Secondary School	48	147
Special School	15	17

The estimated project costs for installing and repairing/replacing air-conditioning systems are around $70 million and $110 million respectively, involving some 900 air-conditioning systems.

2. The Air-conditioning Grant (AC Grant) is calculated in accordance with the types and number of eligible rooms/facilities in a school. Whenever a school changes the use of its teaching facilities, carries out structural alteration or conversion works, or installs air-conditioning systems for eligible facilities without such provision in accordance with the prevailing mechanism during the school year, the AC Grant will be adjusted accordingly. The quarterly expenditure incurred on the disbursement of the grant in the 2018/19 school year is not available at this stage as the school year has not yet come to a close. The overall estimated expenditure in the 2018/19 school year is around $380 million.

3. There are respectively 392, 456 and 59 public sector secondary, primary and special schools provided with the AC Grant in the 2018/19 school year. In the 2017/18 school year, there were respectively 263, 268 and 30 public sector secondary, primary and special schools provided with the Noise Abatement Grant (NAG), while 17 special schools were provided with the Air-conditioning Grant for Schools for Physically Disabled/Severely Intellectually Disabled Children. The former NAG was calculated based on the number of classrooms and special rooms provided with air-conditioning systems under the Noise Abatement Programme. Schools for children with physical disability and schools for children with severe intellectual disability were also provided with air-conditioning systems in the past for their classrooms, special rooms and student activity centres irrespective of the noise level, as well as the Air-conditioning Grant for Schools for Physically Disabled/Severely Intellectually Disabled Children, in view of the special needs of these

children. It should be noted that all eligible rooms/facilities in a public sector school (including but not limited to classrooms and special rooms with air-conditioning systems installed under the Noise Abatement Programme) are counted for the calculation of the AC Grant. The rates of the AC Grant for different types of rooms/facilities adopt the corresponding rates of the NAG for the same types of rooms/facilities. In this connection, the amount of the AC Grant for eligible rooms/facilities, in principle, should not be less than the amount provided for the eligible rooms/facilities under the NAG or the Air-conditioning Grant for Schools for Physically Disabled/Severely Intellectually Disabled Children. We also believe that the AC Grant should be sufficient to cover the related expenses.

4. & 5.

Starting from the 2018/19 school year, the Education Bureau (EDB) provides air-conditioning systems for eligible rooms/facilities in public sector schools as well as a recurrent AC Grant for aided schools to cover the related daily expenses, including electricity charges and routine maintenance costs. For schools without certain eligible rooms/facilities, they surely do not have to pay for the related daily air-conditioning expenses. Nor will they be provided with the relevant grant.

The premises of existing public sector schools were built in different periods in accordance with the building standards at the time of construction. Therefore, facilities in the premises vary. Over the years, building standards have also been changing in response to the development in classroom learning, extra-curricular activities as well as guidance and counselling work. The EDB has implemented various measures, including the School Improvement Programme, minor improvement projects and the annual major repair exercise, to enhance school facilities by erecting or converting classrooms and special rooms, and repairing and replacing facilities etc. We will continue reviewing the existing policy from time to time and, as far as resources are available, assist schools to improve their facilities so as to provide a better learning environment for students. On the other hand, schools can change the use of school facilities to cater for the students' needs and the development of the school. For example, to meet the demand for school places, some schools have converted their student activity centres into temporary classrooms or special rooms which in turn are used for organising after-school student activities, thus enhancing the efficiency and flexibility of space. For schools without an assembly hall, some have converted their covered playgrounds into venues for student activities and assemblies. Such facilities, including covered playgrounds, are eligible for the provision of air-conditioning systems as well as the AC Grant under the new initiative.

Director of Bureau: Secretary for Education

Question:

The Policy Address announced the restructuring of Learning Support Grant (LSG), Intensive Remedial Teaching Programme (IRTP) and Integrated Education Programme. Please provide:

1. from the 2016/17 to 2018/19 school years, the number of schools adopting LSG, IRTP, Mixed Mode and Migration Mode, as well as the amount of grant and the number of teachers involved each year;

2. from the 2016/17 to 2018/19 school years, the expenditures on various grants in supporting integrated education in primary schools each year;

3. the implementation timetable of the enhanced measure and the estimated expenditure each year;

4. the number of schools of which the amount of grant has (1) increased, (2) remained unchanged or (3) reduced due to the enhanced measure; and the highest, lowest and median amount of the increased/reduced provision;

5. under the enhanced measure, the number of schools implementing IRTP that will have the number of teachers reduced; the number of schools that will have the reduction of 1, 2 or 3 teacher(s); and the Government's measures to help schools solve the problem of manpower reduction.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 177)

Reply:

1 and 2

The number of public sector mainstream primary schools adopting Learning Support Grant (LSG), Intensive Remedial Teaching Programme (IRTP), Mixed Mode and Migration Mode from the 2016/17 to 2018/19 school years is set out as follows:

School Year	LSG	IRTP	Mixed Mode	Migration Mode
2016/17	212	140	92	10
2017/18	213	140	90	11
2018/19	217	140	86	13

The LSG grant rates for tier-2 and tier-3 support from the 2016/17 to 2018/19 school years are set out as follows:

School Year	Grant Rate for Tier-2 Support ($)	Grant Rate for Tier-3 Support ($)
2016/17	13,725	27,450
2017/18	13,986	27,972
2018/19	14,322	28,644

The number of teachers for IRTP from the 2016/17 to 2018/19 school years is 383, 382 and 380 respectively.

The expenditure on the provision of LSG, IRTP and Integrated Education (IE) Programme for primary schools from the 2016/17 to 2018/19 school years is tabulated below:

School Year	LSG ($ million)	IRTP ($ million)	IE Programme ($ million)
2016/17	262.4	202.3	13.1
2017/18	280.9	207.2	13.5
2018/19 (revised estimate)	308.8	214.5	14.4

3 to 5

In the 2017/18 school year, the Education Bureau (EDB) conducted a series of consultation. The mainstream views supported the provision of regular teachers and additional resources that can be flexibly deployed for schools to cater for students with special educational needs (SEN) of different types. In this connection, starting from the 2019/20 school year, the EDB will restructure LSG, IRTP and IE Programme. Specifically, under the new measure, LSG will replace IRTP and IE Programme and be extended to all public sector mainstream primary and secondary schools. Schools admitting comparatively large number of students with SEN will be provided with regular teaching posts and the LSG grant rate for tier-3 support will be increased. Schools will have a more stable teaching force and additional resources for flexible deployment to support students with SEN of different types and academic low achievers (applicable to primary schools). The new arrangement involves an estimated additional annual provision of around $300 million. LSG is calculated on the basis of the number of students with SEN and academic low achievers (applicable to primary schools) and the tier of support the students require. The LSG provided to schools each year is subject to change, depending on the number of students with SEN and the tier of support they require. It is not meaningful to directly compare the changes in the amount of LSG disbursed to schools across years. In late March 2019, the EDB issued a circular to inform schools of the above measures to facilitate schools to take follow-up actions. Statistics on related teaching posts can only be compiled upon completion of relevant work.

Question:

A provision of $2 billion was earmarked in the Budget last year to expedite installation of lifts for schools. Please provide the following information under the categories of primary school, secondary school and special school:

1. What is the timetable for expediting lift installation for schools in Hong Kong? What is the number of schools scheduled to have lifts installed each year and the time required for each project?

2. What are the priority rules for lift installation? When will the first batch of installation commence the earliest?

3. How many schools among those without a lift have students and staff with disabilities? What is the number of these disabled persons?

4. Will schools with cases of disability be given priority for lift installation? If yes, what are the details? If no, what are the reasons?

5. Is there assurance of an adequate number of supervisory and technical personnel for delivering the projects?

6. Is there coordination and collaboration with other government departments such as the Electrical and Mechanical Services Department to explore ways to expedite the approval procedures? If yes, what are the details? If no, what are the reasons?

7. Together with those covered by provision already allocated, how many schools have been assessed as unable to have lifts installed/have been found unsuitable for installing lifts/have rejected the installation of lifts upon assessment by consultants? What are the reasons? and

8. For schools that are unable to have lifts installed, what are the measures taken by the Education Bureau to meet their operational needs and the needs of disabled students and teachers? What is the relevant expenditure and the number of students or teachers involved in each of the past 3 school years?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 178)

Reply:

(1) to (4) To expedite the lift installation works for schools, the Government has made a provision of $2 billion and formed a dedicated team to centrally handle the lift installation works for schools. In order to collect the latest information on school premises and ascertain schools' needs for lift installation, the Education Bureau (EDB) sent a letter to all aided and Direct Subsidy Scheme (DSS) schools on 1 March 2018 to invite applications from schools which have no lift and have yet to make any installation request. The EDB has consolidated the information collected and conducted preliminary analysis, as well as arranged visits to schools to ascertain their circumstances . The newly appointed consultants of the EDB assumed duty as scheduled in March 2019 and have started to arrange dedicated staff to conduct preliminary technical feasibility assessment for those aided schools confirmed with lift installation needs. It is expected that the assessments will be completed by the end of 2019. The lift installation timetable will be formulated based on the results of the technical feasibility assessments and the actual circumstances of individual schools for execution. Government schools that are in need of lifts may submit funding applications through the existing mechanism. DSS schools and caput schools that are in need of lifts will receive subsidies for carrying out lift installation works on their own.

Based on the past experience of conducting similar works, lift installation works generally involve more complicated work stages. From conducting preliminary technical feasibility studies, discussing with schools over lift location, preparing drawings for submission to relevant departments for approval, coordinating with schools on works arrangements and schedule to final completion, it normally takes 5 years. Should the works involve more complicated technical issues (for example, limited space available for lift installation), or the schools could only make available limited time slots for the works, completion would take an even longer duration. According to our initial estimate, the lift installation works for all aided schools meeting the technical requirements can be completed by phases by the 2026-27 financial year.

According to the information reported voluntarily by schools via the Special Education Management Information System (SEMIS), there are a total of 46 physically disabled students studying in 33 aided schools without lifts in the 2018/19 school year. Among these schools, 16 have been granted approval for installation of lifts through the annual major repairs mechanism. The EDB does not maintain information about teaching staff with disability. When prioritising the lift installation works, the EDB will take account of the specific circumstances and needs of the schools comprehensively, as well as the technical considerations of the relevant works. Priority will be given to schools with a more urgent need for lift installation (such as having to take care of a greater number of students with physical disability).

(5) & (6) The EDB has formed a dedicated team (including designated consultants) to take forward lift installation works in schools. Meanwhile, to expedite the installation works, we will maintain close liaison with departments responsible for approving the building plans and issuing consent for commencement of works, with a view to obtaining approval smoothly and shortening the time for vetting as far as possible.

(7) & (8) Among the 46 school lift installation projects approved through the annual major repairs mechanism, none is found to be technically infeasible by consultants after assessment. Nevertheless, 1 case is pending because the school does not accept the suggested location that the consultant considers as the only option for lift installation from the perspective of technical feasibility. We have been discussing the matter with the school concerned to identify the most suitable arrangement. As regards those aided schools confirmed with lift installation needs under the lift installation programme (including schools which have returned the reply slips and those awaiting approval after submitting applications through the annual major repairs mechanism), the newly appointed consultants are now progressively arranging dedicated staff to conduct preliminary technical feasibility assessment for the schools. We will follow up on the matter in the light of the circumstances of individual schools.

Besides, to help public sector mainstream schools cater for students with special educational needs (SEN), the EDB has been providing them with additional resources on top of the regular subvention, professional support and teacher training. Additional resources include the provision of Top-up Fund that schools can apply for to procure special furniture and assistive equipment or carry out minor conversion works (such as construction of ramps, procurement of stair climbers) for students with physical disability to facilitate their mobility and learning within the school premises. The respective expenditure/ revised estimated expenditure for providing additional support and services for students with SEN studying in mainstream schools in the past 3 school years from 2016/17 to 2018/19 is $1,392 million, $1,638 million and $2,012 million respectively.

Question:

Regarding the coverage of furniture and equipment costs for new school premises according to the Furniture and Equipment List, please provide the following information for the period from 2013/14 to 2018/19 under the categories of primary school, secondary school and special school:

(1) How are items on the List determined?
(2) How is the price of each item determined?
(3) What are the principles for adjusting annually or quarterly the total cost on the List?
(4) What is the total cost on the List and its year-on-year change in each of these years?
(5) What is the amount approved for each school in each of these years?
(6) In which year were the items on the List last updated?
(7) When will a review of the items on the List commence and conclude? What will the review cover and what mechanism will it adopt? When will the sector be consulted?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 179)

Reply:

(1)-(4)
The Education Bureau (EDB) provides reference lists of furniture and equipment (F&E) for public sector ordinary primary and secondary schools to serve as general guidance on furnishing and equipping new school premises. Under the prevailing mechanism, the Government is responsible for the F&E cost for reprovisioning/redevelopment projects of existing schools, while that for a newly established school should be borne by the school sponsoring bodies concerned. In order to balance the need to ensure prudent use of public money through proper monitoring of the scope and hence the cost of F&E items on the one hand, and to provide sufficient flexibility for schools in procuring items that meet their

school-based teaching and learning needs on the other, the aforementioned F&E lists seek to set out the basic facilities and the associated reference costs for schools' reference when compiling the procurement list for seeking F&E subsidy from the Government. To cater for school-based needs, schools are free to procure F&E items not on the reference lists, provided that they are justified by operational needs and in line with the cost-effective principle. The EDB annually adjusts the reference costs for the provision of F&E subsidy for primary and secondary schools with reference to the year-on-year change of the Composite Consumer Price Index (CCPI) for durable goods.

As regards special schools, facilities will be provided according to their type/scale of operation to suit students' varying needs. The amount of F&E subsidy for new special schools and their boarding sections (if any) will be determined by schools' needs and circumstances of individual projects concerned, irrespective of whether they are newly established schools or reprovisioned/redeveloped schools.

From 2013-14 to 2018-19, the total reference total costs for the provision of F&E subsidy for 30-classroom primary and secondary schools and the year-on-year change of the CCPI for durable goods are set out in Table 1 below:

Table (1)

Financial year	**Total amount of reference costs for provision of F&E subsidy ($million)**		**Year-on-year change of the CCPI for durable goods**
	30-classroom primary schools	30-classroom secondary schools	
2013-14	2.927	6.600	-1.806%
2014-15	2.795	6.302	-4.263%
2015-16	2.684	6.066	-3.956%
2016-17	2.538	5.735	-5.456%
2017-18	2.416	5.458	-4.831%
2018-19	2.347	5.303	-2.840%

(5) From 2013-14 to 2018-19, the amounts of non-recurrent F&E subsidy approved by the EDB for redeveloped or reprovisioned public sector primary and secondary schools (including special schools) and newly established special schools are set out in Table (2). Since the subsidy ceiling is subject to adjustment by deducting the total amount of serviceable F&E items in the existing school, the subsidy received by each school might be different.

Table (2)

Year of approval	Project nature and name of school	F&E subsidy ($m)
2013-14	Redevelopment of St Francis' Canossian College on Kennedy Road, Wan Chai	6.301
2015-16	Reprovisioning of S.K.H. Yat Sau Primary School and S.K.H. Ching Shan Primary School) (merged and renamed as S.K.H. Holy Cross Primary School after reprovisioning)	2.684
	Reprovisioning of Po Leung Kuk Stanley Ho Sau Nan Primary School	2.705
	Redevelopment of Tung Wah Group of Hospitals Wong Fut Nam College	5.181
2017-18	Reprovisioning of Tung Wah Group of Hospitals Ma Kam Chan Memorial Primary School	2.817
	Caritas Mother Teresa School	2.591
	Reprovisioning of Po Leung Kuk Anita L. L. Chan (Centenary) School	1.915
	Reprovisioning of Chi Yun School	4.970
2018-19	Reprovisioning of Pun U Association Wah Yan Primary School	2.221
	Reprovisioning of North Point Methodist Primary School	2.221
	Redevelopment of Ying Wa Girls' School	4.833
	Reprovisioning of the C.C.C. Mongkok Church Kai Oi School	1.944

(6) and (7)

To tie in with the new senior secondary curriculum, the EDB updated the F&E list for secondary schools in 2009. Moreover, the F&E lists for public sector primary and secondary schools were updated in 2010 to reflect the changes made to the Schedule of Accommodation for public sector primary and secondary schools and the addition of tuck shop-cum-central portioning area to the standard provision of school facilities. In view that we have not comprehensively reviewed the reference F&E lists for some time, some of the items therein may no longer meet the prevailing learning and teaching needs. We are now reviewing the lists and will consult the sector when ready.

Question:

Regarding the Pilot Scheme on the Promotion of Reading Grant for Kindergartens mentioned in the Budget,

(a) please give a brief account of the services covered by the Pilot Scheme;

(b) please tabulate the number of participating kindergartens (KGs), amount of subsidy received, number of students benefitted and use of the subsidy by type of KGs (KGs under the Kindergarten Education Scheme implemented by the Government, private KGs, KGs operating half-day service, KGs operating whole-day service and KGs operating long whole-day service); and

(c) please advise whether the Administration has evaluated the effectiveness of the aforesaid services. If yes, what are the evaluation results? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 185)

Reply:

(a)
Implemented in the 2018/19 school year, the Pilot Scheme on the Promotion of Reading Grant for Kindergartens (referred to as Pilot Scheme hereafter) lasts for 1 school year and offers a quota of 250 for application by kindergartens, kindergarten-cum-child care centres and schools with kindergarten classes (collectively referred to as KGs hereafter) joining the Kindergarten Education Scheme. The Pilot Scheme aims at encouraging schools to create a reading atmosphere by adopting different modes and fostering students' interest and habit in reading. The Bureau issued a circular memorandum on 28 September 2018 to set out the amount of grant, the principles and examples of use of the grant for KGs' reference. Specifically, the amount of grant disbursed to KGs is based on their total number of K1 to K3 students enrolled in the 2018/19 school year. A one-off grant of $5,000 has been disbursed to the KGs with a student enrolment of 80 or less, while a one-off grant of $10,000 has been disbursed to the KGs with a student enrolment of more than 80.

(b) and (c)

There are a total of 250 KGs participating in the Pilot Scheme in this school year, out of which 40 KGs operating half-day (HD) classes only, 3 KGs operating whole-day (WD) classes only, 89 KGs operating long WD classes only, 114 KGs operating both HD and WD classes, and 4 KGs operating both HD and long WD classes. The one-off grant has been disbursed to these KGs for organising activities / implementing measures for the promotion of reading. Students of the KGs participating in the Pilot Scheme are benefited. The Bureau will, by the end of the 2018/19 school year, collect the related information, including the views and suggestions on the use of the grant, to formulate the long-term arrangements for the promotion of reading in KGs.

Question:

Regarding the policy to promote reading, please provide the following information for the recent 5 years:

(a) The schemes and measures that the Education Bureau rolls out in schools each year to promote reading among students, as well as the amount of grants, number of schools and students benefitting from such schemes and measures, and use of grants, with a breakdown by school type (i.e. kindergartens, secondary schools, primary schools and special schools);

(b) Is there any mechanism for evaluating on a regular basis the effectiveness of schools' efforts to promote reading among students? If yes, what are the details? If no, what are the reasons?

(c) With regard to teacher-librarians, (i) the number of serving teacher-librarians (by academic qualification and average length of service); (ii) the number of entrants; (iii) the average number of teaching hours per week; (iv) the median salary; and (v) the average number of working hours on administrative duties per week, with a breakdown by school type (i.e. primary schools and secondary schools);

(d) With regard to the development of school libraries, please set out, in tabular form, the number of curriculum development visits, school visits and focus group interviews conducted by the Education Bureau each year, as well as the findings and the evaluation of efforts to promote reading;

(e) To ensure that teacher-librarians have sufficient room to promote reading, is there a specified ratio of promotion of reading to other duties in terms of teaching hours? If yes, what is the ratio? If no, what are the reasons?

(f) Are there any monitoring measures to ensure that teacher-librarians are not overburdened with teaching duties? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 186)

Reply:

(a)
"Reading to Learn" has been adopted as one of the Key Tasks since the curriculum reform in 2001. The Education Bureau (EDB) has provided schools with resources (e.g. the various grants for procuring books or multi-media/online reading materials under the Operating Expenses Block Grant/Expanded Operating Expenses Block Grant) and encouraged schools to flexibly organise a wide variety of reading activities to promote a reading culture so as to nurture students' reading interest and habit and further enhance their reading abilities.

Starting from the 2018/19 school year, public sector primary and secondary schools (including special schools) are also provided with the Promotion of Reading Grant which involves a recurrent expenditure of around $50 million. Subject to the number of approved classes, the amounts of the grant are in the range of $20,000 to $40,000 for primary schools; $50,000 to $70,000 for secondary schools and $30,000 for special schools in the 2018/19 school year. Schools may deploy the grant to organise different school-based reading activities to cultivate a rich reading atmosphere on campus, thus enabling students to derive pleasure and enjoyment from reading and further enhance their reading abilities. Under the principle of school-based management, the incorporated management committees (IMC)/school management committees (SMC) (for Aided, Caput and Direct Subsidy Scheme (DSS) Schools), and SMC (for Government Schools) should set appropriate goals and formulate strategies based on the actual situation of their schools to make good use of the grant to enhance students' learning effectiveness. Schools should also conduct regular reviews to evaluate the effectiveness of the use of resources according to the goals set.

To dovetail with the introduction of the Promotion of Reading Grant, the EDB has adopted various enhanced measures to provide further support for reading in primary and secondary schools, such as inviting celebrities and authors to share their reading experience and recommend books to students, setting up reading award schemes and organising reading carnivals; producing a promotional series of programmes to feature good practices of schools in the promotion of reading; and proposing reading themes for schools and providing the relevant booklists, etc.

As regards kindergartens, the EDB rolled out the Pilot Scheme on the Promotion of Reading Grant for Kindergartens in the 2018/19 school year for participating kindergartens to use the grant provided to promote reading. The EDB will evaluate the effectiveness of the scheme and work out the follow-up arrangements.

The EDB has been supporting the promotion of reading in schools through various measures. The promotion of reading is a regular task in curriculum development and the expenses on this have been subsumed under the recurrent expenditure of the EDB, the breakdown of which is not available.

(b) & (d)
To align with the rationale behind school self-evaluation (i.e. planning, implementation and evaluation) and facilitate schools' sustainable development, the EDB has been encouraging schools to strategically formulate their School Development Plan and Annual School Plan holistically for their major concerns (e.g. promotion of reading), review their effectiveness in a timely manner and seek improvement. The evaluation data concerned are intended for schools' self-evaluation only and need not be submitted to the EDB. On the other hand, the EDB will continue to gain an understanding of schools' progress of work in various aspects (including library development) through External School Review, curriculum development visits and focus group interviews etc. Professional advice will be provided as and when necessary. Moreover, the EDB will regularly organise sharing sessions, workshops and seminars, etc. on the promotion of reading and good practices with a view to deepening teachers' knowledge of the strategies for promoting reading.

(c)
In the recent 5 school years (i.e. 2014/15 to 2018/19 school years), there were respectively 446, 448, 449, 451 and 460 in-service teacher-librarians in primary schools (averaging 450 per year), as well as 375, 371, 367, 374 and 360 in-service teacher-librarians in secondary schools (averaging 370 per year). About 95% of teacher-librarians possessed university qualifications or above. The figures were about the same for primary and secondary schools. Less than 1% of newly-joined teachers worked as teacher-librarians in primary or secondary schools. About 70% of the teacher-librarians in secondary schools taught 16 lessons or less in each cycle whereas about 30% of those in primary schools taught 16 lessons or less in each cycle. The EDB does not have the statistics on the average year of service, mid-point salary, and time spent on administrative duties each week of the teacher-librarians.

(e) & (f)
Teacher-librarians are primarily responsible for planning and managing the daily operation of the school libraries so that the role of a school library as a learning centre can be actualised. In general, teacher-librarians are also responsible for the library lessons, the number of which are school-based and dependent on students' need. Library lessons are also designed to match with the objectives of different subject curricula to enhance the effectiveness of learning and teaching. Schools could discuss with teacher-librarians in taking up teaching duties other than library lessons on a need basis. However, such arrangement should not interfere with the teacher-librarians' role in carrying out the work related to the libraries. The planning and deployment of human resources in individual schools should be school-based and in line with the development strategies, with promoting students' learning as the key emphasis. Schools should take "the benefit and interest of students have been given full consideration" as the major criteria for allocation of work. The EDB will continue to strengthen the school leaders' understanding of the work of teacher-librarians and how their work should be suitably allocated through the different channels, in order to ensure that the role of the teacher-librarians as well as the role of the

school library as a learning centre could be fully actualised. The EDB will keep in view whether teacher-librarians are given sufficient space and capacity to carry out their duties effectively. A more detailed guide on the duties of teacher-librarians may be formulated when such need arises.

Director of Bureau: Secretary for Education

Question:

It is mentioned that the Government will implement the all-graduate teaching force policy in public sector primary and secondary schools in the 2019/20 school year, and there are plans to improve the manpower at the middle management level of public sector primary schools and rationalise the salaries for principals and vice-principals of these schools. In this connection, please provide the implementation details of the above policies, including the timetable, estimated expenditure involved, number of additional posts required and number of teachers whose rank will be affected by the policy change.

In addition, are there government policies to rationalise the overlapping pay structures of primary school principals and vice-principals so that teachers have greater incentive for promotion?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 187)

Reply:

It is announced in "The Chief Executive's 2018 Policy Address" that the Government would implement in one go the all-graduate teaching force policy in public sector primary and secondary schools in the 2019/20 school year. Schools may, taking into account their school-based circumstances, achieve full implementation in 2 years. The annual additional expenditure involved is around $1.5 billion and it is estimated that more than 9 400 non-graduate teaching posts will be converted into graduate teaching posts in public sector primary and secondary schools (including special schools).

In tandem with the full implementation of the all-graduate teaching force policy and whole-day schooling in primary schools, the Government plans to improve the manpower at the middle management level and rationalise the salaries for school heads and deputy heads

in public sector primary schools with a view to raising the management quality of primary schools as well as retaining and attracting talents, so as to further enhance the quality of education. The Task Force on Professional Development of Teachers has put forward recommendations to the Government in respect of these 2 areas. After consideration, the Government consulted the Legislative Council Panel on Education on 29 March 2019, and will submit the funding proposal to the Establishment Subcommittee and Finance Committee in due course. If the funding proposal is approved in the current legislative year, the Education Bureau plans to implement the proposed measures starting from the 2019/20 school year. It is estimated that the proposal of improving manpower at the middle management level of public sector primary schools will involve an annual additional expenditure of around $650 million and there will be an increase of more than 2 050 teaching posts in the promotion rank in public sector primary schools (to be offset by a corresponding number of teaching posts in the basic rank). As regards the proposal to rationalise the salaries for school heads and deputy heads in public sector primary schools, it is estimated that the annual additional expenditure involved will be around $210 million. The number of school heads and deputy heads in public sector primary schools who stand to benefit from the initiative will be over 1 250.

The Government's proposal to rationalise the salaries for school heads and deputy heads in public sector primary schools has already taken into account the overlapping pay scales of relevant ranks. Subject to approval, the proposal will bring about great improvement to the current situation.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5369)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned that the Government will implement a series of targeted relief measures to cope with the progressive rebound of Secondary 1 (S1) student population. In this regard, please provide information for the past 5 years.

(a) For the implementation of stabilisation measures to address demographic changes, please set out separately for each measure the additional resources involved, number of schools affected, number of students and/or school places affected and the effectiveness of the policies;

(b) In the form of a table, please show the changes in S1 student population in various districts and the projected demographic changes in various districts in the coming 3 years;

(c) Regarding the "place reinstating" arrangement for the reduction of allocation class size by "2-1-1" or "1-1-1" introduced in early years, will the Bureau effect reinstatement on a district basis in light of the actual demographic changes in various districts? If yes, what are the policy details? If no, what are the reasons? and

(d) Given a varying rate of rebound in population in different districts and an across-the-board "place reinstating" arrangement, what government measures are there to offer assistance to schools with under-enrolment and prevent schools from competing for students viciously?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 188)

Reply:

(a) Starting from the 2013/14 school year, the Education Bureau (EDB) has further implemented a basket of targeted relief measures to help sustain the development of schools, stabilise the teaching force and maintain the quality of education in order to minimise the impact of the decline in student population on the school sector. These measures include:

- Through the relaxation of the "not less than 3 Secondary 1 (S1) classes" requirement, schools with 2 approved S1 classes are accepted as not necessary to apply for any school development option. Schools could operate 2 S1 classes if they admit a minimum of 26 S1 students. In other words, the average class size will then be 13 students;
- Schools operating only 1 S1 class can apply for school development option in order to continue their operation;
- Schools operating 2 or less S1 classes can participate in the next Secondary School Places Allocation (SSPA) cycle with a cap of 3 S1 classes;
- On the premise of the number of students in each S1 class reinstating to the then level (i.e. 36 students per class including the quota for 2 repeaters) after the transient decline of S1 student population, schools adopted the mode of "2-1-1" or "1-1-1" under a "district-/school-based approach to reduce the number of students allocated to each S1 class" from 34 to 30 or 31 students per class progressively in 3 school years from 2013/14 to 2015/16; and
- In the 3 school years from 2013/14 to 2015/16, the retention period of surplus regular teachers arising from S1 class reduction was extended from 1 year to 3 years.

To further stabilise the teaching force, the EDB further announced in 2017 that aided secondary schools with surplus teachers arising from reduction of S1 classes in the school years from 2013/14 to 2017/18, if necessary, were allowed to apply for extending the retention period of the surplus teachers concerned up to the 2018/19 school year. All aided secondary schools with reduction of S1 classes in the school years from 2013/14 to 2017/18 could benefit from this measure.

From SSPA 2014 to 2018, adjustments to the number of S1 classes in public sector secondary schools in response to changes in S1 population are set out below:

SSPA Cycle	2014	2015	2016	2017	2018
Eventual downward adjustment to the number of classes (-)	18	10	16	2	2
Eventual upward adjustment to the number of classes (+)	0	0	1	10	26

Take the allocation of S1 places in 2018 as an example. In response to an overall increase in S1 student population over 2017, a total of 19 public sector secondary schools needed to increase their number of S1 classes by 1. Altogether there was an increase of 19 classes to meet the demand. Furthermore, 7 schools that were granted approval to operate only 2 S1 classes in the 2017/18 school year are able to offer 3 S1 classes in the 2018/19 school year because of sufficient student enrolment. On the other hand, 2 schools need to adjust their number of S1 classes downward in the 2018/19 school year because of a drop in student enrolment caused by such factors as parental choice and student mobility. Consequently,

in the 2018/19 school year, there is a net increase of 24 S1 classes in public sector secondary schools.

During the transitional period following the decline in S1 student population, the relief measures mentioned above have contributed to the overall stability of public sector secondary schools. The year-on-year changes in the total number of S1 classes have been insignificant. For example, the S1 student population in public sector secondary schools registered a drop of 4.4% from 45 653 in the 2014/15 school year to 43 648 in the 2015/16 school year, while there was a decrease of only 17 S1 classes in the 2015/16 school year (including a net reduction of 7 S1 classes in schools adopting the cyclic symmetrical class structure in the 2015/16 school year), representing a mere reduction of 1.1%. In addition, extending the retention period for surplus teachers is also instrumental in stabilising the teaching force.

Since the expenditures involved in the implementation of targeted relief measures have been subsumed under EDB's overall expenditure, a relevant breakdown is not available.

(b) School-age population aged 12 is considered appropriate for attending S1. The number of S1 students attending public sector schools in the past 5 years by district is tabulated at Appendix 1. For the coming 3 years (from the 2019/20 to 2021/22 school years), the projected school-age population aged 12 residing in Hong Kong by district is provided at Appendix 2.

(c)&(d) At present, the provision of public sector secondary school places is planned on a territory-wide basis. Since student population and schools are not evenly distributed among districts, it is not possible to achieve a complete balance between the demand and supply of S1 places in each district in each SSPA cycle. Despite a progressive rebound of the overall S1 student population, individual secondary schools may be affected by the demand for school places in certain districts or the choice of parents. Under the SSPA System, the netting of school places from neighbouring areas will be arranged as and when necessary to meet the demand of individual districts with insufficient school places and to offer more choices to students in districts with a smaller number of schools.

According to the information available, S1 student population has started to rebound from the 2017/18 school year and it is anticipated that the overall S1 student population will gradually rise and reach the peak in the 2024/25 school year. To address the projected increase in the demand for S1 school places, EDB and the sector (including representatives of the Joint Committee of the Secondary School Councils and the Secondary School Heads Association of 18 Districts) met and reached a consensus in October 2017 on the framework of direction and strategies for tackling the issue, which include adopting the established arrangements under SSPA, progressively reverting the number of students allocation per class to 34 upon the rebound of the S1 student population ("place reinstating") as pledged by the sector prior to the implementation of the targeted relief measures, and increasing the number of S1 classes according to established practices in the districts with a shortfall in school places after adopting the netting arrangements and "place reinstating" to meet the demand of each SSPA cycle.

As far as "place reinstating" is concerned, allowing schools in certain districts to withhold the "place reinstating" will affect the established arrangements under SSPA. Besides,

schools in different districts or within the same district may have different concerns about the number of students allocation per class, the netting arrangements and operating additional classes. In practice, it is difficult to draw up and reach a consensus on a set of objective and fair criteria for determining the pace of "place reinstating" in different districts. All along, the requirements governing number of students the allocation per class in Central Allocation are across-the-board, and the Government provides recurrent subvention to public sector schools mainly based on the number of classes. Thus, it would be unfair and make parents confused if it is allowed to vary the number of students allocation per class for different schools under SSPA.

The EDB has been closely monitoring the supply and demand of public sector school places. In fact, our estimation about the decline in S1 student population differs little from the situation when the sector discussed and worked out the targeted relief measures. The targeted relief measures previously implemented (including lowering the threshold for approving S1 classes to 25 students, allowing schools operating 2 or less S1 classes to participate in the next SSPA cycle with a cap of 3 S1 classes, and exempting schools operating 2 S1 classes from applying for school development option) will continue. The above measures will continue to take effect in the next few years to contribute further to stabilising the teaching force and facilitating the sustainable development of secondary schools. Meanwhile, we will continue to explore the needs of other coping measures to support individual secondary schools affected when necessary. Moreover, schools have put in place their school-based admission mechanism to handle admission applications submitted by students from other schools and the operation has been smooth so far. The EDB will monitor the latest situation and provide support when necessary.

Number of S1 students attending public sector secondary schools by district from the 2014/15 to 2018/19 school years

District	No. of S1 students				
	2014/15	2015/16	2016/17	2017/18	2018/19

North	2 700	3 100	2 900
Yuen Long	4 700	5 600	5 900
Tuen Mun	3 600	4 400	4 300
Tsuen Wan	2 300	2 600	2 800
Kwai Tsing	3 600	4 000	4 400
Islands	1 300	1 500	1 500
All districts	**55 000**	**63 300**	**65 400**

Notes: (1) Figures in the above table are compiled with reference to the 2016-based Population Projections released by the Census and Statistics Department (C&SD) in September 2017 and the "Projections of Population Distribution 2018 – 2026" released by the Planning Department in June 2018.

(2) School-age population aged 12 is considered appropriate for secondary education (i.e. S1).

(3) Figures refer to the projected number of local children (i.e. Hong Kong usual residents) aged 12 residing in the districts concerned. The projected figures should not be taken as the projected number of students attending schools in the districts. The latter would be affected by the prevailing distribution of school places, demand for school places and parental choices. Students under or over the age of 12 may also enroll at S1. The above figures do not include cross-boundary students.

(4) The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures.

(5) Figures are rounded to the nearest hundred and may not add up to the respective total due to rounding.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5370)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As mentioned in the Budget, the Education Bureau "will continue to monitor the supply and demand of international school places and facilitate the provision of school places as necessary for meeting the needs of the international community in Hong Kong, mainly through allocation of vacant school premises and greenfield sites for international school development". In this connection, please provide the following information for the last 5 years:

(a) in tabular form, the details on allocation of vacant school premises and greenfield sites for international school development (including school address, site area, name of organisation, rental, and estimated or current provision of school places).

(b) Please give details of government loans provided for international schools (including amount, tenor and interest rate of the loan and name of organisation).

(c) Quite a number of international schools currently offer school places on the condition that the applicants purchase such high-value derivative products as debentures or nomination rights. Does the Education Bureau have any monitoring system or measures in place to ensure that no organisation allocated vacant school premises or greenfield sites for international school development can profiteer through the above means? If yes, what are the measures and their effectiveness? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 189)

Reply:

(a) The Government is committed to developing a vibrant international school system through various measures mainly to meet the demand for international school places from non-local families living in Hong Kong or coming to Hong Kong for work or investment.

The Education Bureau (EDB) has allocated a total of five vacant school premises and three greenfield sites for international school development through School Allocation Exercises (SAEs) completed in 2013 and 2015. These eight new international school campuses have gradually commenced operations from the 2014/15 school year and will provide a total of some 6 000 places progressively.

Details of the above-mentioned international schools, including their names, the addresses, nature and site area of the allocated premises/sites, and the type of rent payable for the premises/sites are provided at the **Annex**. Same as other private schools, international schools may use their classrooms flexibly and adjust the provision of classes and places yearly according to school-based needs. Even though schools are requested to provide their number of school places for EDB's reference, we will not, as a standard practice, disclose the number of places available at individual schools to avoid misinterpretation of such information, which may have adverse impact on the schools.

(b) Under the existing policy, the Government may, upon application by the non-profit-making international school operator who has been allocated a site for international school development, offer capital assistance in the form of interest-free loan for the construction of school buildings. The loan, repayable in 10 years, is capped at 100% of the cost for constructing a standard-design public-sector school accommodating the same number of students. The loan application has to be approved by the Finance Committee of the Legislative Council. No such applications have been received in the recent five years.

(c) International schools are private schools, operating on self-financing and market-driven basis. In order to meet the financial needs in relation to teaching, school development, improvement of school facilities and infrastructure projects, international schools in general transfer the surplus from other schools (if applicable), arrange loans and implement capital scheme, etc. to raise the relevant funding. Examples of the capital schemes are issuance of nomination right, debentures, building levy, etc. It is understood that parents' participation in debenture or nomination rights schemes are generally on a voluntary basis, and the amounts collected will be repaid to parents in full or at the prevailing price when the students leave school. Under market-driven and the "user-pay" principles, the EDB has all along urged school sponsoring bodies to consult parents and stakeholders before introducing such schemes and clearly explain to them the justifications and specific arrangements (e.g. transfer and redemption policies and the related administrative fees) with a view to reaching consensus.

We note that the fund-raising schemes of private schools (including international schools) in Hong Kong have become more diverse nowadays. To ensure that schools' financial arrangements are in compliance with the regulatory requirements, we are collecting relevant information from schools to keep abreast of the latest development. The EDB will formulate appropriate follow-up measures having regard to all relevant factors and legal advice.

Annex

Name of international schools allocated vacant school premises or greenfield site, address, nature and site area of allocated premises/sites, and the type of rent payable for the premises/sites allocated through School Allocation Exercises completed in 2013 and 2015

Name of school	Address	Nature	Site Area (m^2) (approx.)	Type of rent[Note1]
2013 School Allocation Exercise completed in 2013				
Carmel School	460 Shau Kei Wan Road, Hong Kong	Vacant	3 380	Nominal
Nord Anglia International School, Hong Kong	11 On Tin Street, Lam Tin, Kowloon	Vacant	4 555	Nominal
The International Montessori School	Phase III, Ma Hang Estate, Stanley, Hong Kong	Vacant	4 730	Nominal
School Allocation Exercise completed in 2015				
American School Hong Kong	6 Ma Chung Road, Tai Po, New Territories	Vacant	5 770	Nominal
The Harbour School	Ap Lei Chau Estate Phase I, Ap Lei Chau, Hong Kong	Vacant	1 200	Nominal
French International School	28 Tong Yin Street, Tseung Kwan O, New Territories	Greenfield	8 200	N.A.[Note2]
Malvern College Hong Kong	3 Fo Chun Road, Tai Po, New Territories	Greenfield	6 147	N.A.[Note2]
Shrewsbury School	10 Shek Kok Road, Tseung Kwan O, New Territories	Greenfield	6 028	N.A.[Note2]

Note 1 According to the tenancy agreement, the rent cannot be disclosed without consent by the tenant. Hence, only the type of rent is provided in the table.

Note 2 The site concerned is made available by private treaty grant to the relevant school sponsoring body.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5371)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Government inform this Committee of:

the list of non-governmental organisations and/or academic institutions that receive funding from the Education Bureau (EDB) to provide academic support programmes for all students from kindergarten to secondary levels from the 2014/15 to 2018/19 school years; and the details of each batch of funding including the programmes, funding amount, period covered, target group, total number of participating students, and number of participating non-Chinese speaking (NCS) students;

the list of non-governmental organisations or academic institutions that receive funding from the EDB to specifically provide programmes to support NCS students in learning Chinese Language and other subjects and to provide integration programmes for NCS children from the 2014/15 to 2018/19 school years; and the details of each batch of funding including the programmes, funding amount, period covered, target group and number of participating NCS students; and

How does the EDB monitor the effectiveness of these programmes? Does the EDB have a list of indicators to evaluate the programmes? If yes, please provide the list of indicators for Chinese Language support programmes. If no, please state the reasons. How could the progress of students be tracked? Has the EDB provided standard assessment tools? If yes, please provide the assessment tools. If no, please state the reasons.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 190)

Reply:

(a)

Apart from the education at schools, the Education Bureau (EDB) provides various support programmes to students such as Induction Programmes for newly-arrived children and young people, educational support programmes for non-Chinese speaking (NCS) students, School-based After-school Learning and Support Programmes for needy students, Life Education Activity Programmes to enhance primary students' awareness of health issues and the Summer Career-related Experience Scheme to provide opportunities for students to experience the actual working environment, etc. The funding for organising/running these programmes may channel through recurrent subvention to educational bodies, subsidies to organisers on application basis or fees to service providers commissioned through competitive procurement/tendering process. Owing to the large amount of information involved, we do not have ready information on all the non-governmental organisations (NGOs)/academic institutions that receive funding from the EDB for providing support programmes; as well as the related information on the details, amount of funding, durations, target participants, and the total numbers of students and NCS students participating in these programmes from the 2014/15 to 2018/19 school years.

(b) and (c)

The programmes funded by the EDB specifically for supporting NCS students' learning of Chinese and integration into the community from the 2014/15 to 2018/19 school years with details including the target participants, number of NCS students participating in the programmes and the amount involved are set out in the table below. As the support programmes vary in nature and target participants, evaluation and monitoring of these programmes is conducted by various means, such as observing the immediate responses of participants, conducting questionnaire surveys, meeting with service providers and requesting service providers to submit reports. The EDB attaches great importance to the quality of support programmes and will continue to review the programmes to ensure they meet the needs of participants.

NGOs/ Academic institutions	Target participants	Number of students supported in the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 school years	Expenditure # ($ million)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5375)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

At present, there are about 850 ordinary public sector schools in the territory and only about 200 of them were built according to the prevailing standards. Please provide the following information for the 2014/15 to 2019/20 school years, with a breakdown by primary school, secondary school and special school:

(1) What is the number of schools that were not built according to the prevailing standards in each of the school years?

(2) What is the respective number of matchbox-style school premises located in public housing estates and non-public housing estates in the territory?

(3) The Bureau implemented 5 improvement measures for the matchbox-style school premises located in public housing estates in 2017. Why were the special schools that also operated in matchbox-style school premises in public housing estates excluded from the improvement measures? What is the number of these special schools involved? What plans are in place to upgrade the premises of these special schools to the prevailing standards?

(4) Apart from the schools operating in matchbox-style school premises, what plans or measures are in place to assist schools not built according to the prevailing standards in upgrading their school premises to conform to the current standards?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 194)

Reply:

(1) At present, there are about 850 ordinary public sector primary and secondary schools in the territory. Their premises were built in different periods in accordance with the building standards at the time of construction and facilities in the premises vary. While the standards have been changing over the years, existing school premises in operation are required to comply with prevailing statutory requirements. As at March 2019, about 200 of them were built according to prevailing standards. The public sector school premises built from 2014-15 to 2018-19 and the construction of public sector schools scheduled for 2019-20 comply with the prevailing standards.

(2), (3) and (4) Among the schools built in different periods, some are cuboidal-shaped premises constructed between mid-1960s and 1980 in public housing estates for primary school use. These school premises are often referred to as "matchbox-style school premises". Following the reprovisioning of one public sector primary school previously operating in "matchbox-style school premises" to a vacant school premises (VSP) in September 2018, there are at present 27 public sector primary schools operating in "matchbox-style school premises". Among these 27 schools, 6 have been allocated new school premises or VSP through the School Allocation Exercises (SAE) for reprovisioning or expansion.

We understand that the community is concerned about conditions of facilities at old school premises. Over the years, the Education Bureau (EDB) has put in place various measures to enhance school facilities, having regard to the needs of schools, for improving the teaching and learning environment. These measures mainly include the completed School Improvement Programme (SIP), the existing reprovisioning programme, redevelopment/extension programme, as well as the annual major repair and emergency repair mechanism.

The SIP implemented between 1994 and 2006 aimed at progressively improving the teaching and learning environment of schools so as to provide additional space and facilities for teaching, out-of-class activities and supporting services for both teachers and students. Phases One to Three of the SIP focused on upgrading the schools' teaching, learning and administration facilities. Phase Four and the Final Phase aimed to upgrade the schools' facilities to the prevailing standards where technically feasible. The scope of improvement works for individual schools under the SIP varied according to the schools' vision and mission, characteristics, the facilities in place and site conditions. Over 700 public sector schools (including special schools) built according to the planning standards when the schools were constructed have their school facilities enhanced under the SIP as far as technically feasible. Some of them even upgraded their facilities to the prevailing standards. Moreover, to cater for the implementation of the New Senior Secondary Academic Structure and the "improvement measures to extend years of study" in special schools, the EDB is providing additional classrooms and/or related facilities for the relevant schools by phases.

For reprovisioning of existing schools to new school premises on reserved school sites or suitable VSP, allocation is generally done through open, fair and competitive bidding under SAE. The EDB conducts SAE for reprovisioning purpose from time to time. All eligible School Sponsoring Bodies (SSBs) in the territory can submit applications. Applications are assessed by the School Allocation Committee (comprising both official and non-official members), with quality of education being the prime consideration. Other factors, including the operation track records of the SSBs concerned, the proposed school plans after relocation, the conditions of the existing school premises, etc. will also be considered. Schools may take into account their school-based considerations and consider if they would like to submit application for reprovisioning under the prevailing competitive-based school allocation mechanism. In the recent 5 years (2014 to 2018), we have allocated through SAE a total of 9 new school premises to be built on reserved school sites/VSP for the purpose of reprovisioning/physical extension of existing schools. The EDB will continue to actively identify suitable sites and VSP for reprovisioning and expedite school allocation under the established arrangements, with a view to improving the teaching and learning environment of existing schools.

As regards in-situ redevelopment/extension projects, interested schools would indicate their intention for redevelopment/extension to the EDB. As always, we will thoroughly consider each proposal for in-situ redevelopment/extension according to a set of eligibility criteria, including the age and physical condition of the school premises concerned, technical feasibility of in-situ redevelopment/extension, quality of education service, sustainability of the school concerned, availability of suitable premises for decanting (if applicable), and the supply and demand of school places in the district concerned. We also need to take into account the manpower available and foreseeable commitment on school construction, as well as the capacity of the construction sector as anticipated on the basis of past experience. Whether additional projects will be taken up will also depend on the progress of the school building projects in hand, and the funding availability under the Public Works Programme.

In addition, based on the consensus reached with the sector earlier on, the EDB is carrying out improvement works for the above primary schools operating in “matchbox-style school premises”, with a focus on addressing the problems arising from the unique architectural design of those premises. The improvement works have commenced progressively since the summer of 2017 and are scheduled for completion by the summer of 2019. Under this programme, our works consultants have also explored technically feasible means for more flexible use of existing space, such as minor internal conversion and installation of moveable partition walls to turn existing facilities into temporary special rooms. We are following up the relevant works progressively in accordance with the schools’ indications and needs, with a view to improving the teaching and learning environment within the constraints of space and existing building design.

Taking into account the experience from the aforementioned “matchbox-style school premises” improvement programme and views of different stakeholders (including the Hong Kong Aided Primary School Heads Association and the Subsidized Primary School Council), we are preparing to conduct similar minor internal conversions at other school

premises (including special schools) constructed according to past building standards to facilitate more flexible use of existing space by schools, thereby enhancing the teaching and learning environment and efficacy. We have reserved $1 billion to take forward the said improvement works programme. Schools may propose conversion works to the EDB in the upcoming 2 years, based on the conditions of their premises and needs. We have issued the relevant letter to all schools in late March 2019 and arranged briefing sessions in April 2019 to explain the detailed arrangements of the programme, as well as to share the experience from similar improvement works in "matchbox-style school premises" for schools' reference.

Meanwhile, the EDB will continue to enhance school facilities and improve the teaching and learning environment in accordance with the schools' needs through the annual major repair and emergency repair mechanism. The Government has reserved a non-recurrent subvention of about $1.5 billion in 2019-20, comparable to that of 2018-19, for major repairs (applicable to both aided schools and Direct Subsidy Scheme schools) and emergency repairs (applicable to aided schools only).

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information in respect of primary, secondary and special schools for the school years from 2014/15 to 2019/20.

1. How many school premises are housing 2 different schools at once? Please provide the numbers and the names of the schools concerned, as well as the ages and sizes of the school premises.

2. How many schools are using 2 or more school premises at once? Please provide the numbers and the names of the schools concerned, as well as the ages and sizes of the school premises.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 195)

Reply:

According to section 3(1) of the Education Ordinance, school premises includes school recreation rooms, residential facilities, playing fields and playing grounds, and any other places used for the purposes of a school. Some schools are now sharing/used to share school premises with other schools (e.g. sharing different parts of the same building, playing fields, swimming pools, passages or playing grounds), or are using/used more than 1 school premise for various reasons, such as design of school premises, operational needs or other historical factors. The Education Bureau does not have the statistics requested.

Director of Bureau: Secretary for Education

Question:

It is the planning target of the Education Bureau (EDB) since 2006 to carry out no more than 5 in-situ redevelopment projects per year. In 2015, the EDB indicated that the respective mechanism was under review. Please provide the following information:

1. the number and the list of schools undergoing redevelopment and scheduled for redevelopment in each of the school years from 2014/15 to 2019/20, as well as the expenditure involved in the in-situ redevelopment of each school; and

2. the progress and findings of the respective review.

3. In November 2017, the EDB informed the Kowloon City District Council that 7 in-situ redevelopment projects were in the pipeline and funding had been secured for 3 of them. Please give the list of the schools involved in these 7 in-situ redevelopment projects and advise of the time when the schools formally submitted an application for redevelopment to EDB. What are their justifications for redevelopment, the building age and site area, and the funding involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 196)

Reply:

Over the years, the Education Bureau (EDB) has put in place various measures to enhance school facilities according to the needs of the schools for improving the teaching and learning environment. These measures mainly include the completed School Improvement Programme, the existing reprovisioning programme, redevelopment/extension programme, as well as the annual major repair and emergency repair mechanism.

As regards in-situ redevelopment/extension projects, interested schools would indicate their intention for redevelopment/extension to EDB. As always, we will thoroughly consider each proposal for in-situ redevelopment/extension according to a set of eligibility criteria, including the age and physical condition of the school premises concerned, technical feasibility of in-situ redevelopment/extension, quality of education service, sustainability of the school concerned, availability of suitable premises for decanting (if applicable), and the supply and demand of school places in the district concerned. We also need to take into account the manpower available and foreseeable commitment on school building, as well as the capacity of the construction sector as anticipated on the basis of past experience. At present, we are planning in-situ redevelopment/extension projects for 6 ordinary public sector schools and funding approval has been obtained for 4 of them. We may take up more projects, having regard to the progress of the school building projects in hand, the funding availability under the Public Works Programme in recent years and the request for redevelopment from schools.

Projects for in-situ redevelopment/extension of ordinary public sector primary and secondary schools with funding approved by the Finance Committee (FC) of the Legislative Council in the years from 2014-15 to 2018-19, as well as those under planning, are tabulated below:

No.	**Financial year in which funding was approved**	**Nature of works and name of school**	**Age of original school premises (no. of years) (Note 1)**	**Site area of original school premises (rounded to the nearest hundred m^2) (Note 2)**	**Estimated cost of school building works ($million)**
1	2014-15	Extension of Baptist Lui Ming Choi Secondary School	41-50	5 000	148.8
2	2016-17	Extension and conversion of St. Paul's Primary Catholic School	>60	3 800	467.8
3	2018-19	Partial in-situ redevelopment of Sai Kung Sung Tsun Catholic School (secondary section)#	51-60	10 100 (including primary and secondary sections)	28.9
4	2018-19	Extension of Munsang College	>60	15 500 (including kindergarten, primary and secondary sections)	81.4
5	Not applicable	Partial redevelopment of Hong Kong Chinese Women's Club College#	41-50	4 600	To be confirmed

No.	Financial year in which funding was approved	Nature of works and name of school	Age of original school premises (no. of years) (Note 1)	Site area of original school premises (rounded to the nearest hundred m^2) (Note 2)	Estimated cost of school building works ($million)
6	Not applicable	Redevelopment of Wa Ying College#	41-50	4 500	To be confirmed

Note 1: The age of the original school premises is only a rough estimate based on the records available to the EDB and on-line information. The figures are for reference only.

Note 2: The site area of the original school premises is only a rough estimate based on the records available to the EDB and on-line information. The figures are for reference only.

The project is undergoing preliminary works or detailed design.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the respective numbers and percentages of staff members employed under the Old Remuneration Package, New Remuneration Package and Short-term Contract (with contract period) in each member institution of the Vocational Training Council by major staff category (teaching staff, technical and supporting staff, professional and executive staff, and other supporting staff) and terms of appointment between the 2014/15 and 2018/19 academic years. What are the figures expected for the 2019/20 academic year?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 200)

Reply:

The member institutions under the Vocational Training Council (VTC) share resources in many aspects, and depending on the operational needs, teaching staff may be deployed to different operation units to best utilise their expertise. Hence, the VTC is unable to provide breakdowns of the number and percentage of staff members in different member institutions. Between the 2014/15 and 2018/19 academic years, the total number of staff in major staff categories (teaching staff and administrative and supporting staff) employed by the VTC under the New Remuneration Package, Old Remuneration Package and Short-Term Contract and their respective percentages (as compared to the total number of staff) are as follows:

Academic Year	Staff Category	Number of staff employed under			Total Number of staff
		Old Remuneration Package	New Remuneration Package	Short-term Contract [Note]	
2014/15	Teaching Staff	803 (13.9%)	1 542 (26.7%)	460 (8.0%)	5 765
	Administrative and Supporting Staff	1 173 (20.3%)	1 353 (23.5%)	434 (7.5%)	
2015/16	Teaching Staff	757 (12.9%)	1 626 (27.6%)	509 (8.6%)	5 883
	Administrative and Supporting Staff	1 118 (19.0%)	1 498 (25.5%)	375 (6.4%)	
2016/17	Teaching Staff	706 (11.9%)	1 666 (28.1%)	483 (8.2%)	5 921
	Administrative and Supporting Staff	1 069 (18.1%)	1 626 (27.5%)	371 (6.3%)	
2017/18	Teaching Staff	610 (10.5%)	1 680 (28.8%)	471 (8.1%)	5 830
	Administrative and Supporting Staff	992 (17.0%)	1 674 (28.7%)	403 (6.9%)	
2018/19	Teaching Staff	542 (9.5%)	1 648 (28.8%)	470 (8.2%)	5 726
	Administrative and Supporting Staff	945 (16.5%)	1 758 (30.7%)	363 (6.3%)	

Note: More than 70% of the contracts are for one academic year.

The total number of staff in the 2019/20 academic year is expected to be comparable to that of the 2018/19 academic year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5384)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Are member institutions of the Vocational Training Council (VTC) following a set of common standards when formulating employment, dismissal and welfare policies and staff code of conduct? If yes, please briefly describe the VTC's human resource management system. If no, please briefly explain the differences in human resource management policies between different member institutions of the VTC and the reasons that contribute to such differences.

2. What process do member institutions of the VTC have to undergo to formulate their own human resource management policies? Will they consult with the VTC and their labour unions?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 203)

Reply:

Covering such matters as appointment of staff, remuneration and benefits, manpower planning, performance appraisal and manpower development, etc., the human resource management system and policies of the Vocational Training Council (VTC) are founded on the principles of fairness, openness and impartiality in accordance with the current legislative requirements and in the light of the VTC's operational and developmental needs. These criteria are applicable to all member institutions of the VTC. Staff remuneration and benefits are determined based on ranks and related terms of appointment, such as the Old Remuneration Package, New Remuneration Package and Short-term Contract. The terms of appointment for staff of the same rank employed under the same remuneration package are identical.

When formulating human resource management policies, the VTC will take into account its operational and development needs, financial position and other relevant factors. The policies will be deliberated and approved through the established procedures, which generally include reviewing all relevant factors, drawing up policy directions and implementation details, submitting recommendations for the consideration, discussion and approval of relevant approving officers or committees (e.g. the Administration Committee and the Council of the VTC). Throughout the process, the VTC will listen to employees' views through different communications platforms (e.g. focus groups). Individual employees and staff unions can participate in the process.

Question:

Regarding the approval of time-limited schools since 2014, please provide the following information for the period from the 2013/14 school year to the next school year:

1. For each school year, the list of approved time-limited schools, the floor area and age of their school premises, the then refurbishment costs of these school premises, the respective provision approved for emergency and major repair works;

2. For each time-limited school, the commencement date of operation, current class structure and class size;

3. The number of students with special educational needs admitted to these schools and its percentage in the school's total student enrolment; and

4. The respective number of students in receipt of the Comprehensive Social Security Assistance, full grant or half grant, and its percentage in the school's total student enrolment.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 204)

Reply:

1. In the school years between 2013/14 and 2019/20, the Education Bureau (EDB) allocated a total of 5 vacant school premises via the School Allocation Exercise (SAE) in 2014 and 2017 for the operation of time-limited aided primary schools and time-limited expansion of existing aided primary schools. Details are set out in the table below:

Cycle of SAE	**Name of school allocated with school premises**	**Address of school premises**	**Area of vacant school premises (rounded to the nearest hundred m^2)**	**Year of completion of school premises**	**Approved project estimate for school premises repairs* ($ million)**	**Approved total project estimate for emergency and major repairs in each of the ensuing financial years ($ million)**
2014	Christian & Missionary Alliance Sun Kei Primary School (Ping Shek)	Estate School No.2, Ping Shek Estate, Kwun Tong	3 100#	1970	26.931	2015-16: 0.02 2016-17: 0.16 2017-18: 0.83 2018-19: 0.16
2014	The Mission Covenant Church Holm Glad No. 2 Primary School	Estate Primary School No.1, Shun On Estate, Kwun Tong	3 200#	1980	25.684	2015-16: no application made by school 2016-17: 0.03 2017-18: 0.03 2018-19: 0.07
2014	C. C. C. Fong Yun Wah Primary School	Estate Primary School, Tin Yiu Estate Phase II, Tin Shui Wai	6 300#	1995	16.308	2015-16: no application made by school 2016-17: 0.01 2017-18: 0.43 2018-19: 0.17
2017	NTWJWA Christian Remembrance of Grace Primary School	Tai Yuen Estate, Tai Po	5 200#	1980	29.950	2018-19: no application made by school
2017	The ELCHK Faith Lutheran School (Second Campus)	221 Nam Cheong Street, Shek Kip Mei, Kowloon	2 200	1960	29.950	2018-19: no application made by school

\# Area of school premises within public housing estates under the Hong Kong Housing Authority/Hong Kong Housing Society refers to the internal floor area of the school premises, and is indicated by (#) in the table above.

* Works for the projects have been completed. Since the account finalisation of the projects are still underway, the respective project costs provided in the above table are the approved project estimate.

2. The commencement date of operation of the above time-limited schools and their class structure in the 2018/19 school year are set out in the table below:

Name of school	Commencement date of operation	Approved no. of classes						
		P1	P2	P3	P4	P5	P6	Total
Christian & Missionary Alliance Sun Kei Primary School (Ping Shek)	September 2015	7	9	5	3	0	0	24
The Mission Covenant Church Holm Glad No. 2 Primary School	September 2015	4	6	3	4	3	4	24
C. C. C. Fong Yun Wah Primary School	September 2015	4	6	5	3	0	2	20
NTWJWA Christian Remembrance of Grace Primary School	September 2018	5	0	0	1	1	0	7
The ELCHK Faith Lutheran School#	September 2018	4	2	3	3	4	2	18

Note: Figures reflect the position as at September 2018.

The ELCHK Faith Lutheran School was allocated the school premises at 221 Nam Cheong Street for time-limited expansion. The time-limited section of the school started operation in the 2018/19 school year. The figures provided reflect the position of the entire school.

The EDB conducts Student Enrolment Survey annually to collect from schools data about individual students. Schools are aware of and consent to EDB's use of the data collected for statistical, planning, research or other education-related purposes. Given such pre-determined purposes, and the fact that the data are provided by schools and the disclosure of information about the number of students in individual schools might create a labelling effect, we have been adopting a cautious approach and adhering to the established practice of not disclosing information about the number of students in individual schools.

3. The philosophy underlying integrated education (IE) is to allow students with special educational needs (SEN) to study with other students together and expect others to treat students with SEN without prejudice or discrimination. Disclosing the number of students with SEN in individual schools would in effect single them out. This is against the principle of inclusion, and this may also result in the unnecessary labelling effect that will affect the implementation of IE by the EDB and schools. Besides, the number of students with SEN studying in a school has no relationship with whether the school is a time-limited one. As such, the EDB is unable to provide the number of students with SEN admitted to the schools concerned and their percentage in the total student enrolment of these schools.

4. To avoid unnecessary misconception and possible labelling on individual schools, we have been adopting a cautious approach and adhering to the established practice of not disclosing information about the number of students receiving the Comprehensive Social Security Assistance and the number of students receiving full grant or half grant under student financial assistance schemes in individual schools.

Question:

Please give a breakdown of the number of places, estimated intakes, actual intakes, unit cost as well as the tuition fees of the publicly-funded programmes offered by the Vocational Training Council by institution, programme and year of study over the past 5 years (i.e. from 2014/15 to 2018/19 academic years).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 205)

Reply:

The number of planned places for new intakes and actual intakes of subvented full-time programmes offered by the Vocational Training Council from the 2014/15 to 2018/19 academic years are as follows:

		2014/15 Academic Year		2015/16 Academic Year		2016/17 Academic Year		2017/18 Academic Year		2018/19 Academic Year	
		Planned Places	Intake	Planned Places	Intake	Planned Places	Intake	Planned Places	Intake	Planned Places	Intake
Hong Kong Institute of Vocational Education / Hong Kong Design Institute / Youth College	Higher Diploma	9 330	10 451	9 330	10 763	9 300	10 800	9 300	9 289	9 300	9 439
	Diploma of Foundation Studies	3 000	3 752	2 940	4 086	2 940	3 750	3 210	4 178	3 300	4 113
	Diploma of Vocational Education	4 000	4 192	3 958	4 240	3 930	4 458	3 700	3 799	3 640	3 910
Hotel and Tourism Institute / Chinese Culinary Institute / International Culinary Institute	Diploma/ Certificate	1 445	1 162	1 227	968	978	945	1 240	1 016	1 142	1 031
Total		17 775	19 557	17 455	20 057	17 148	19 953	17 450	18 282	17 382	18 493

The average cost of subvented full-time programme places from the 2014/15 to 2018/19 academic years is as follows:

Academic Year	Higher Technician / Technician Level ($)	Craft Level ($)
2014/15	85,000	71,500
2015/16	87,300	75,200
2016/17	89,200	77,000
2017/18	93,800	82,900
2018/19 (Revised Estimate)	99,800	88,300

The tuition fees of subvented full-time programmes from the 2014/15 to 2018/19 academic years are as follows:

	2014/15 to 2018/19 Academic Years ($)
Higher Diploma	30,800 to 31,570
Diploma of Foundation Studies	20,500
Diploma of Vocational Education	20,500*
Diploma / Certificate	2,900 to 16,700

* Tuition fees for Diploma of Vocational Education apply to Secondary 6 graduates who enrol in a 1-year programme and are waived for students who enrol in a 3-year programme upon completion of Secondary 3.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5387)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government states that it will provide public sector and Direct Subsidy Scheme primary, secondary and special schools with additional resources starting from the 2019/20 school year "to strengthen the administrative support for schools and their management committees with a view to strengthening school-based management and at the same time reducing the administrative work of teachers and principals so that they may focus on teaching and have more time to take care of students' development". Please inform this Committee of the detailed plan for the provision of additional resources, including policy objectives, implementation schedule, estimated expenditure, amount of subsidy for each school, how the subsidy will be disbursed and the related conditions and restrictions, number of school beneficiaries, administrative costs and number of newly created posts by post titles.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 206)

Reply:

Starting from the 2019/20 school year, the Government will provide all public sector schools (including special schools) and schools under the Direct Subsidy Scheme (DSS) with additional resources to strengthen the administrative support for schools and their management committees. About 1 000 schools will benefit from the initiative, and the additional expenditure involved is around $570 million each year.

The Education Bureau (EDB) will implement the "One Executive Officer for Each School" policy in public sector schools and DSS schools starting from the 2019/20 school year. These schools will be provided with resources for hiring additional administrative manpower. We expect that the increased administrative manpower will help reduce the administrative work of teachers and principals so that they could focus more on teaching and taking care of students' development, enabling schools to review their school-based administrative arrangements and requirements, streamline administrative procedures, and strengthen school administrative support and efficacy, thereby enhancing the quality of school management. Aided schools (including special schools) may opt to create a regular School Executive Officer (School ExO) post or receive the School Executive Officer Grant (SEOG). The amount of the SEOG is benchmarked against the mid-point salary of a civil service Executive Officer II ($507,960 per annum for the 2018-19 financial year) and subject to annual adjustment according to the mid-point salary of civil service Executive Officer II. The SEOG is disbursed to government and aided schools by two instalments in September and April every school year. As for caput and DSS schools, the relevant expenses are included in the calculation of the Fee Subsidy for schools and incorporated into the DSS unit subsidy rate respectively.

Schools are required to recruit at least one full-time School ExO with a local bachelor's degree (or equivalent), regardless of whether they choose to create a regular School ExO post or receive the SEOG. Schools receiving the SEOG may procure school administration-related service from service provider(s) which should include the provision of at least one full-time school-stationed School ExO with a recognised degree. It is estimated that a total of around 1 000 School ExO posts can be provided in this regard.

Besides, the EDB will provide recurrent subvention for the above schools to support the operation of their management committees, such as organising meetings and election of school managers, and strengthening training for school managers/members of management committees. In the 2019/20 school year, the subsidy for each public sector school will be $50,000 per year. Relevant details will be announced in due course.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5687)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the total number of schools admitting non-Chinese speaking (NCS) students and, by school type and funding mode, the number of schools admitting NCS students ranging from "1 to 9", "10 to 25", "26 to 50", "51 to 75", "76 to 90" to "91 or above" for the recent 5 schools years, as well as the amount of additional funding per school in relation to the number of NCS students admitted.

Regarding the additional funding provided according to the number of students, the Office of the Ombudsman mentioned that the difference of only 1 student admitted could mean a difference of 16 times in the additional funding provided. Please provide the number of schools that admitted 9 and 10 NCS students in the past 5 school years, account for the above situation and provide solutions.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 207)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools.

Regarding the additional funding for schools, we have, in light of past practice and experience, including the relevant funding model in the past, categorised schools into two types, viz. schools admitting a handful of NCS students (i.e. 1 to 9 NCS students) and schools admitting more NCS students (i.e. 10 or more NCS students). When formulating respective funding arrangements, we have taken into consideration the different situations of Chinese learning among NCS students in these two types of schools.

Starting from the 2014/15 school year, all public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted. The funding mainly enables schools to deploy additional manpower for the implementation of the "Learning Framework" which includes assigning a dedicated teacher to coordinate the implementation of the "Learning Framework" and providing their NCS students with diversified intensive learning and teaching modes, such as pull-out teaching, split-class/group learning, increased Chinese Language lessons, cross-curricular Chinese Language learning, after-school support, etc., as well as strengthening schools' communication with parents of NCS students with a view to enhancing NCS students' effectiveness in learning the Chinese language through home-school co-operation and creating an inclusive learning environment in schools. From the 2014/15 to 2018/19 school years, the number of the schools concerned is 173, 197, 216, 228 and 241 respectively.

As regards schools admitting a handful (i.e. 1 to 9) of NCS students, with most of which admitting less than 4 NCS students, they can generally provide an immersed Chinese language environment in schools which is conducive to NCS students' learning of the Chinese language. According to past experience, should individual NCS students need assistance, these schools normally adopted after-school support to consolidate what they had learnt in classes. In view of this, starting from the 2014/15 school year, these schools may apply for an additional funding of $50,000 on a need basis. The funding amount was calculated according to the market wage rate of an after-school support tutor and the number of after-school support classes generally offered in a school year with reference to the time-limited Project of After-school Extended Chinese Learning for NCS Students funded by the Language Fund and implemented from the 2010/11 to 2013/14 school years. Under the Project, schools offering after-school support to 15 to 19 NCS students were provided with an additional funding of $50,000 per year. Schools provided with the additional funding can make good use of their immersed Chinese language environment, draw up holistic plans that dovetail with existing measures and resources in light of their school-based circumstances. From the 2014/15 to 2018/19 school years, the number of public sector schools and DSS schools offering the local curriculum and admitting 1 to 9 NCS students is 414, 410, 382, 387 and 391 respectively, among which 58, 83, 179, 213 and 213 (provisional) have been provided with the above-mentioned funding.

The number of primary and secondary schools provided with the above-mentioned funding (with breakdown by school funding mode and number of NCS students ranging from "1 to 9", "10 to 25", "26 to 50", "51 to 75", "76 to 90" to "91 or above") and the amount of additional funding from the 2014/15 to 2018/19 school years are tabulated at Annex.

Besides, starting from the 2014/15 school year, special schools admitting 6 to 9 NCS students and offering an ordinary school curriculum, and special schools admitting 6 or more NCS students and offering an adapted curriculum are provided with an additional funding of $0.65 million. The funding model for special schools admitting 10 or more NCS students and offering an ordinary school curriculum is the same as that for ordinary schools mentioned above. Special schools admitting a handful of NCS students (i.e. 1 to 5) are also provided with an additional funding of $50,000 on a need basis to offer after-school support programmes in learning Chinese. From the 2014/15 to 2018/19 school years, the number of special schools admitting 6 or more NCS students and offering an ordinary school curriculum is 7, 6, 6, 5 and 5 respectively; the number of special schools admitting 6 or more NCS students and offering an adapted school curriculum is 16, 19, 18, 20 and 20 respectively; and the number of special schools admitting 1 to 5 NCS students is 25, 24, 26, 26 and 25 respectively, among which 8, 9, 14, 16 and 16 (provisional) have been provided with the above-mentioned additional funding.

In order to optimise the use of public funds, the Government has to set relevant criteria as to whether schools are eligible for the additional funding. As regards the relevant education support for NCS students, since the support measures provided by schools are based on the learning needs of their NCS students who are arranged in groups/classes according to their progress and proficiency in Chinese learning, the adoption of a tiered funding model can better meet the operational needs of schools. While it is more objective to set the funding tiers according to the number of NCS students admitted, it is inevitable to set dividing lines. Regardless of the levels at which the dividing lines are set, the difference of only 1 student will affect schools' eligibility and the funding amount involved. The number of schools provided with the additional funding, by the existing additional funding tier and additional funding amount, in the past 5 years is set out at Annex. EDB will draw on the actual experience in implementation, maintain communication with relevant stakeholders, and review the relevant measures as necessary.

Annex

Number of primary and secondary schools provided with the additional funding (by school funding mode and number of non-Chinese speaking (NCS) students ranging from "1 to 10", "10 to 25", "26 to 50", "51 to 75", "76 to 90" and "91 or above") and the amount of additional funding from the 2014/15 to 2018/19 school years

(Question Serial No. 5688)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the provision of Life-wide Learning Grant to public sector primary, secondary and special schools, please provide the respective number of schools receiving the grant under the scheme, the number of students benefited from the grant, the amount of grant for each school, the criteria for providing the grant, the administration cost incurred and number of posts created as a result of the provision of the grant, by different types of primary, secondary and special schools. Please also give an account of how the grant has been used and its effectiveness.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 208)

Reply:

It is proposed in the 2018 Policy Address that a new recurrent Life-wide Learning Grant with an annual provision of $900 million will be provided to public sector schools and schools under the Direct Subsidy Scheme (DSS) starting from the 2019/20 school year, to support them to take forward, on the present foundation, life-wide learning with enhanced efforts through organising more out-of-classroom experiential learning activities in various curriculum areas such as the humanities, STEM education, physical and aesthetic development, and moral and civic education, so as to provide students with more lively and enriched learning experiences as well as opportunities to apply what they have learnt. We are now collecting views from the school sector for formulating the guidelines on the use of the Grant. The Grant is applicable to all students studying in public sector and DSS schools. As the above measure has not yet been implemented, the relevant information is not available.

Director of Bureau: Secretary for Education

Question:

Please provide the respective number of schools under the Learning Support Grant, the Intensive Remedial Teaching Programme and the Integrated Education Programme, and total amount of subvention in the past 5 school years. Please also provide details of each measure, including criteria and arrangements for disbursement of grant and the ceiling of grant. Under prevailing policies, is there a ceiling on the number of students with special educational needs that may be admitted to each public sector school? If yes, what is the ceiling? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 209)

Reply:

To help public sector mainstream primary and secondary schools support students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention, has been providing schools with additional resources, professional support and teacher training. At present, the additional resources include provision of grants (Learning Support Grant (LSG) as the major one) and additional teachers or teaching assistants under different programmes (including Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme). Generally speaking, LSG is calculated on the basis of the number of students with SEN and academic low achievers (applicable to primary schools) and the tier of support the students require. Schools may use LSG for employment of additional teachers/teaching assistants and procurement of services to render school-based support services for the students concerned. A ceiling has been set on LSG. Schools should pool and deploy the grant and other school resources flexibly and holistically to render appropriate support for students with SEN according to their individual conditions and needs. Starting from the 2017/18 school year, LSG covers students with mental illness so that schools can have additional resources to enhance the support for these students. Schools implementing IRTP will be provided with additional teachers according

to the number of students with low academic achievement, intellectual disability (ID) and specific learning difficulties, with a view to providing intensive remedial support to these students. For schools implementing IE Programme, they will be provided with additional teachers/learning support assistants and recurrent grant according to the number of students with ID, autism spectrum disorders, physical disability, visual impairment and hearing impairment, so as to support the students concerned through the Whole School Approach.

The number of schools adopting LSG, IRTP and IE Programme and the expenditure involved in the past 5 years (from the 2014/15 to 2018/19 school years) are set out at Appendix, which covers schools adopting Mixed Mode (i.e. receiving LSG and implementing an IRTP) and schools adopting Migration Mode (i.e. receiving LSG and implementing an IRTP, and migrating to fully adopting LSG within 6 years). The ceiling of LSG for schools adopting Mixed Mode and Migration Mode is $0.35 million and $0.6 million respectively.

The Government adopts a dual-track mode in implementing special education. The EDB will, subject to the assessment and recommendation of specialists and the consent of parents, refer students with more severe or multiple disabilities to special schools for intensive support services, while other students with SEN will attend ordinary schools. Under the Disability Discrimination Ordinance, all educational institutions should provide equal opportunities for education to all eligible students, including students with SEN. All public sector mainstream schools have the obligation to admit students with SEN and no admission ceiling should be set.

Appendix

Details of Learning Support Grant (LSG), Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme, with number of schools and the expenditure involved from the 2014/15 to 2018/19 school years

Measures	School year	Number of public sector mainstream schools		Ceiling of grant ($ million)	Expenditure ($ million)
		Primary	Secondary		
LSG	2014/15	202	383	1.50	450.0
	2015/16	211	382	1.55	500.1
	2016/17	212	382	1.58	539.0
	2017/18	213	381	1.61	589.6
	2018/19	217	381	1.65	646.3[revised estimate]
IRTP	2014/15	250	Not applicable	Not applicable	192.6
	2015/16	243	Not applicable	Not applicable	196.2
	2016/17	242	Not applicable	Not applicable	202.3
	2017/18	241	Not applicable	Not applicable	207.2
	2018/19	239	Not applicable	Not applicable	214.5[revised estimate]
IE Programme	2014/15	27	9	Not applicable	18.2
	2015/16	25	8	Not applicable	17.5
	2016/17	25	8	Not applicable	18.1
	2017/18	25	8	Not applicable	18.6
	2018/19	25	8	Not applicable	19.7[revised estimate]

Notes:

1. Starting from the 2017/18 school year, LSG has been provided to schools implementing IRTP or IE Programme and having students with mental illness. The expenditure on LSG tabulated above covers these schools as well.
2. The number of schools implementing IRTP tabulated above includes schools adopting Mixed Mode or Migration Mode and concurrently implementing IE Programme.

Question:

Mrs Carrie Lam, the Chief Executive, has set up task forces to take forward the reviews on 8 key areas of education, one of which is a "task force set up to review the school-based management policy and its implementation" as mentioned on page 372 of the Estimates. Please set out in a table the establishment dates, progress of review, scope of review, report issuance dates (or expected dates of issuance), memberships and operation costs of the 8 task forces.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 210)

Reply:

The establishment dates, progress of review, scope of review, report issuance dates (or expected dates of issuance) and memberships of the task forces on 8 key areas of education are at **Annex**. The Government provides secretariat support for these task forces and the civil service and departmental expenses involved have been subsumed under the establishment and general departmental expenses of the Education Bureau (EDB) and other departments concerned, and cannot be separately identified. Apart from the civil service and departmental expenses, there are no other operation costs.

Task Force on Professional Development of Teachers	24 November 2017	The Task Force held a 2-month public consultation on its preliminary recommendations from July to September 2018. As the early implementation of the all-graduate teaching force policy gained wide support during the consultation, the Task Force first submitted the relevant recommendations to the Government for consideration in late September 2018. Accepting the recommendations, the Chief Executive announced in her 2018 Policy Address that the Government would implement in one go the all-graduate teaching force policy in public sector primary and secondary schools in the 2019/20 school year. Schools may, taking into account their school-based circumstances, achieve full implementation in 2 years. In tandem with the all-graduate teaching force policy and full implementation of whole-day schooling in primary schools, the Government plans to improve the	The Task Force is tasked to study feasible options for establishing a professional ladder for teachers; the ranking arrangement of school management in primary, secondary and special schools; and the timetable for an all-graduate teaching force.	26 March 2019	Chairperson Dr Carrie WILLIS Non-official Members Mr CHAU Hau-fung Ms CHEUNG Wai-yee, Addy Mr CHEUNG Yui-fai Mr CHOI Siu-chow, Tony Ms KWAN Wai-fong Mr LAI Kam-tong Ms LAM Pik-chu Mr LAU Chi-yuen Professor LEE Chi-kin, John Ms LEUNG Kin-yi Professor LEUNG Seung-ming, Alvin Ms NG Tan, Denise Mr PANG Cheong-kau, Morry Mr SO Ping-fai Sr WONG Yeuk-han, Cecilia Ms YAN Kin-foon, Alice Mr YU Chi-yin Official Member Deputy Secretary for Education (3), Education Bureau

		manpower at the middle management level and rationalise the salaries for school heads and deputy heads in public sector primary schools with a view to raising the management quality of primary schools as well as retaining and attracting talents, so as to further enhance the quality of education. The Task Force has put forward recommendations to the Government in respect of these 2 areas in an Interim Report submitted to the Government in November 2018. The Government after consideration consulted the Legislative Council Panel on Education on 29 March 2019, and will submit the funding proposal to the Establishment Subcommittee and Finance Committee in due course. The Task Force has completed its work and submitted the final report to the Government on 26 March 2019.

The Task Force on Review of School Curriculum	30 November 2017	The Task Force on Review of School Curriculum identified four pivotal areas, namely whole-person development, catering for learner diversity, multiple pathways and Science, Technology, Engineering and Mathematics (STEM) education for in-depth deliberation. The Task Force has come up with some initial thoughts and been engaging key stakeholders to gauge their views. The Task Force will draw up more concrete recommendations for public consultation tentatively scheduled for mid-2019.	The main scope of work to be undertaken by the Task Force is to holistically review the primary and secondary curricula and to make directional recommendations on the following: how the school curricula at primary and secondary levels can be rigorous and forward-looking in enhancing students' capacity to learn and instill in them the values and qualities desired for students of the 21st century to meet future challenges as well as the needs of society; how to better cater for students' diverse abilities, interests, needs and aspirations; how to optimise the curriculum in creating space and opportunities for students' whole-person development; and how to better articulate learning at the primary and secondary levels.	The Task Force is expected to submit a report by end-2019.	<u>Chairperson</u> Dr Anissa CHAN WONG Lai-kuen <u>Non-official Members</u> Mr CHAN Shiu-choy Mr Antony IP Sing-piu Mr KWOK Wing-keung Professor LEE Wing-on Professor LUI Tai-lok Professor NG Tai-kai Mr Joseph NGAI Mr Addy WONG Wai-hung <u>Official Members</u> Deputy Secretary for Education (5), Education Bureau Principal Assistant Secretary for Education (Curriculum Development), Education Bureau

Coordinating Committee on Basic Competency Assessment and Assessment Literacy	27 October 2014	The review has been completed. Accepted the Committee's recommendations on Primary 3 Territory-wide System Assessment (TSA), the EDB has, starting from 2018, conducted Primary 3 TSA with a low-stake approach of "no student names, no school names, no collection of reports and selection of participants by sampling". At the territory-wide level, the Hong Kong Examinations and Assessment Authority (HKEAA) samples around 10% of students from each public sector and Direct Subsidy Scheme school for Primary 3 TSA each year. If schools consider necessary, the HKEAA can arrange participation of their Primary 3 students in TSA in full cohort. The Committee has also made various recommendations, which include enhancing the assessment literacy of schools and teachers as well as their abilities to make good use of assessment information; strengthening support for schools; continuing the development of quality online learning-teaching-assessment	The Coordinating Committee on Basic Competency Assessment and Assessment Literacy is tasked to advise on the direction relating to the development of the basic competency assessment (including the Territory-wide System Assessment and Student Assessment) as well as the enhancement of assessment literacy in schools.	16 March 2018	<u>Chairperson</u> Deputy Secretary for Education (5), Education Bureau <u>Non-official Members</u> Professor Carol CHAN Dr CHAN So-yee, Zoe Mr CHEUNG Yung-pong, Langton Professor HAU Kit-tai Mr HUNG Wai-shing Ms Martina KAN Dr Winnie LAI Ms LAM Sau-lan, Anna Mr LAM Yat-fung, James Mr LEUNG Wai-cheong Ms SIN Yuk-chun, Rosita Mr TONG Sau-chai, Henry Dr CHONG Siu-man, Ambrose (till August 2018) Ms LEE Suet-ying (till August 2018) Mr SIN Kim-wai (till August 2018) Mr LAI Tsz-man (till November 2017) Professor MOK Mo-ching, Magdalena (till February 2017) <u>Official Members</u> Principal Assistant Secretary for Education (Education Infrastructure), Education Bureau

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5691)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the implementation of the "one school social worker for each school" policy in public sector primary schools, please advise of the number of public sector primary schools with school-based registered graduate social workers and the percentage these schools represent in the total number of public sector primary schools, the total number of public sector primary schools, as well as the average monthly salary, average length of service and entitled benefits of these school-based registered graduate social workers and the supply staff arrangements applicable to them in the 2018/19 school year.

Please advise of the expenditure on the implementation of the "one school social worker for each school" policy in the 2018/19 school year, and whether any assessment has been made of the policy; if yes, the results; if no, the reasons.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 211)

Reply:

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. The measure is implemented on the basis of the Comprehensive Student Guidance Service (CSGS) to provide schools with more resources. The objective of the measure is to further enhance the overall quality of guidance service by ensuring that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualification. For schools without Student Guidance Teachers, the Education Bureau (EDB) will provide a 3-year transitional period for them to switch to the new funding mode before the 2021/22 school year. In case schools are not able to switch to the new funding mode after the 3-year transitional period owing to the need for more time to handle personnel matters in respect of their serving student guidance personnel, including retaining their serving student guidance personnel due to special needs, they may discuss

with the EDB separately. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode. The estimated total expenditure on student guidance service under the old funding mode and the new funding mode is $436 million.

Schools that adopt the new funding mode may choose to create a regular Assistant Social Work Officer (ASWO) post on the approved staff establishment. The salary of the ASWO employed by schools is pegged to that of the civil service post, i.e. point 16 to point 33 on the Master Pay Scale, and is subject to the annual civil service pay adjustment. The terms of appointment, benefits and supply staff arrangement are the same as specialists paid by the Salaries Grant in schools. Schools that choose to employ a school-based social worker using the School Social Work Service Grant are advised to make reference to the above pay scale and clearly specify in the contract the salary and terms of appointment upon mutual agreement.

According to the findings of a questionnaire survey conducted by the EDB in the 2018/19 school year, 328 schools have employed their own registered graduate social workers, accounting for about 72% of the 456 public sector primary schools in Hong Kong. Detailed information on these social workers has not been collected.

With the implementation of the policy of "one school social worker for each school" in the 2018/19 school year, the EDB will collect data and views by such means as questionnaire surveys and school visits, and communicate with the education sector to heed its views and suggestions and review the implementation of the policy of "one school social worker for each school". The review work is underway, hence review findings are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5692)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please elaborate on the efforts to "restructure the additional resources under the Learning Support Grant (LSG) and Integrated Education Programme to provide permanent teaching posts and LSG to public sector ordinary secondary schools" and provide details on the permanent teaching posts, such as the rank and number of these additional posts, their scope of responsibilities and entry requirements, as well as the changes to LSG and other new initiatives.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 212)

Reply:

To help public sector mainstream schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. At present, additional resources for secondary schools include cash grants (with Learning Support Grant (LSG) as the major one) and additional teachers or teaching assistants provided under the Integrated Education (IE) Programme, etc. All along, schools adopting LSG can flexibly deploy additional resources to employ contract teachers or teaching assistants, or procure services to support students with SEN. Schools implementing the IE Programme, subject to the number of students with intellectual disability (ID), autism spectrum disorders (ASD), physical disability (PD), visual impairment (VI) and hearing impairment (HI) enrolled, are provided with additional teachers to support the students concerned.

In the 2017/18 school year, the EDB conducted a series of consultation activities. The mainstream views supported the provision of regular teachers and additional resources that can be flexibly deployed for schools to cater for students with SEN of different types. In this connection, starting from the 2019/20 school year, the EDB will extend LSG to all public sector mainstream schools. Schools admitting comparatively large number of

students with SEN will be provided with regular teaching posts and the LSG grant rate for tier-3 support will be increased multifold. Under the new measure, schools will have a more stable teaching force and additional resources for flexible deployment to support students with SEN of different types (including specific learning difficulties, ID, ASD, attention deficit/hyperactivity disorder, PD, VI, HI, speech and language impairment as well as mental illness). In late March 2019, the EDB issued a circular to inform schools of the above measures to facilitate them to take follow-up actions. Statistics on related teaching posts can only be compiled upon completion of the relevant work.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5693)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Education Bureau has further enhanced the establishment of school nurses in special schools. Please provide the following figures under the categories of primary schools, secondary schools and special schools, and give a breakdown by school type:

(1) the number of school nurses in the territory in the past 5 school years;

(2) the number of nurses on school establishment, their remuneration, benefits, qualification requirements, estimated annual expenditures in the past 5 school years and in the next school year; and

(3) the nurse-to-student ratio in the past 5 school years and in the next school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 213)

Reply:

(1) and (2)
There are no nurses on the establishment of public sector mainstream primary and secondary schools. As for special schools, the Education Bureau (EDB) has enhanced the establishment of school nurse in thespecial schools in the 2018/19 school year. An additional school nurse is provided for schools for children with intellectual disability, schools for children with physical disability and the school for children with visual impairment cum intellectual disability. In addition, the provision of school nurses has been expanded to cover the school for children with visual impairment and the school for children with hearing impairment, so that these schools each have a school nurse to strengthen their support for students with care needs. In the 2018/19 school year, a total of 51 additional school nurse posts have been provided under these related measures, which

involve an estimated additional annual expenditure of around $26 million. It is estimated that the provision for the 2019/20 school year will be more or less the same. The number of school nurses on the establishment of special schools from the 2014/15 to 2018/19 school years is as follows:

2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year
52	52	52	53	104

The school nurse posts in special schools are at the rank of Registered Nurse, with a salary equivalent to point 15 to point 25 on the civil service Master Pay Scale. On appointment, in addition to meeting Chinese and English language requirements of the grade concerned, school nurse candidates must possess relevant professional qualifications, including a Certificate of Registration (Part I) issued by the Nursing Council of Hong Kong (or equivalent) and a related professional practising certificate.

(3)
The number of school nurses in different types of special schools from the 2014/15 to 2018/19 school years is tabulated as follows:

<table>
<tr><th>School type</th><th>No. of students</th><th>2014/15 to 2017/18 school years</th><th>2018/19 school year</th></tr>
<tr><td>School for children with physical disability</td><td rowspan="2">(a) 40 – 129
(b) 130 or more</td><td rowspan="2">(a) 1
(b) 2</td><td rowspan="2">(a) 2
(b) 3</td></tr>
<tr><td>School for children with severe intellectual disability</td></tr>
<tr><td>School for children with mild intellectual disability</td><td rowspan="4">40 or more</td><td rowspan="4">1</td><td rowspan="4">2</td></tr>
<tr><td>School for children with moderate intellectual disability</td></tr>
<tr><td>School for children with mild and moderate intellectual disability</td></tr>
<tr><td>School for children with visual impairment cum intellectual disability</td></tr>
<tr><td>School for children with visual impairment</td><td rowspan="2">40 or more</td><td rowspan="2">Not applicable</td><td rowspan="2">1</td></tr>
<tr><td>School for children with hearing impairment</td></tr>
</table>

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Students of aided special schools can apply for extension of years of study. Please set out the numbers of students and school places, the unit cost per school place, the number of applications and application status for extension of years of study in the past 5 school years, with a breakdown by school type. For application status of extension of years of study, please provide the respective numbers of applications approved and rejected, as well as the reasons for rejection.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 214)

Reply:

From the 2014/15 to 2018/19 school years, the number of approved school places and students and the average unit cost per school place in various types of special schools are set out at Appendix.

As for the applications for extension of years of study (EoS), the improvement measures were introduced in the 2010/11 school year for students in schools for children with intellectual disability, schools for children with physical disability, schools for children with hearing impairment, and the school for children with visual impairment cum intellectual disability. Under this measure, the Education Bureau (EDB) provides these schools with additional school places and allows them to devise school-based policy to exercise professional judgement to arrange for students in need and with valid reasons to extend their years of study in accordance with the objective criteria jointly set by the EDB and the special education sector. As the applications for EoS are made direct to and subsequently approved by the special schools concerned, the EDB does not have the information on the number, reasons, etc. of such applications by students in various types of special schools.

Number of Places, Number of Students, and Average Unit Cost per School Place in Special Schools from the 2014/15 to 2018/19 School Years

School Type	2014/15 School Year			2015/16 School Year			2016/17 School Year		
	No. of Places	No. of Students (as at September 2014)	Average Unit Cost per School Place	No. of Places	No. of Students (as at September 2015)	Average Unit Sost per School Place	No. of Places	No. of Students (as at September 2016)	Average Unit Cost per School Place
Visual Impairment	184	126	$258,500	178	125	$293,000	172	123	$320,000
Hearing Impairment	150	102	$279,000	140	87	$293,000	130	89	$306,000
Physical Disability	1 020	921	$279,000	1 020	915	$294,000	1 010	883	$314,000

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5695)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Budget that the Education Bureau will "increase the recurrent subsidy of about $30 million each year to Federations of Parent-Teacher Associations and Parent-Teacher Associations of schools starting from the 2019/20 school year for organising more community-based and school-based parent education programmes or activities". In this connection, please provide funding details for the past 5 school years, including names of the subsidised organisations/bodies, amount of funding, and names of the subsidised activities/education programmes (with brief descriptions of their content). Has the Bureau evaluated the effectiveness of the subsidised parent education programmes or activities? If yes, what are the results? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 215)

Reply:

Parents play a vital role in the development and learning of their children. The Education Bureau (EDB) is committed to facilitating home-school co-operation. Each year, Home-School Co-operation Grants are provided for Parent-Teacher Associations (PTAs) of schools and the Federations of PTAs (FPTAs) in the 18 districts for promoting home-school co-operation through various forms of activities.

Schools and organisations in receipt of the Grants include kindergartens, kindergarten-cum-child care centres, primary schools, secondary schools and special schools in the territory and the FPTAs in the 18 districts. In the 2013/14, 2014/15, 2015/16, 2016/17 and 2017/18 school years, the respective amount of Grants disbursed was $24 million, $24.5 million, $25 million, $26 million and $26.5 million. Home-school co-operation and parent education activities subsidised under the Grants include those that seek to help students develop positive values and lifestyles, enhance parent-child relationship, develop children's communication skills, promote "Happy Kids Charter", assist parents in supporting their children's learning, help parents understand school and education policies, etc. The PTAs and the FPTAs are required to prepare an assessment report after the completion of each activity. According to the assessment reports for the 2017/18 school year, about 99% of the respondents from PTAs and the FPTAs found the home-school activities organised satisfying and capable of achieving the objectives set. In summary, the Grants effectively promote home-school co-operation and parent education.

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned that the Government will continue to implement the Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) on a pilot basis. Please provide, by year, the details of the Scheme since its implementation, including the number of applications, number of participating teachers, location of study, training involved and overall expenditure of the scheme, as well as the salary expenditure of supply teachers who covered the absence of teachers during their paid study leave. Will the Bureau further extend the scheme? If yes, when will this be implemented? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 216)

Reply:

The Education Bureau (EDB) launched the "i-Journey" Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. Participating teachers will be given 7 to 9 weeks' paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research. In the 2017/18 and 2018/19 school years, the EDB received 154 and 74 applications respectively, while the number of participants is 50 and 40.

The details of the Scheme are as follows:

2017/18 school year (First Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	No. of participants
Helsinki & Jyväskylä, Finland	Interdisciplinary Learning & Entrepreneurship Education	15
Melbourne, Australia	Catering for Students with Special Educational Needs (SEN)	20
Exeter, the United Kingdom	STEM Education	15

2018/19 school year (Second Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	No. of participants *Provisional figures
Turku, Finland	Interdisciplinary Learning & Entrepreneurship Education	15
Southampton, the United Kingdom	Assessment Literacy	15
Singapore	STEM Education	10

The total expenditure of the first batch of the Scheme is $7.49 million, of which $2.63 million is on remuneration for supply teachers employed to substitute participating teachers on paid study leave. Since the second batch of the Scheme has yet to finalise all expenditure items, the expenditure figures are unavailable at the present stage.

The Scheme will be piloted over 3 years. Data and information collected during this period will be used by the EDB to form the basis of evaluation and inform future development.

Question:

Please give an overview of the applications for the Teacher Relief Grant (TRG) and reimbursement of expenses for hiring supply teachers on an accountable basis by public sector schools in the past 5 school years, with a breakdown by school type:
(i) The calculation methods and grant rates of various components under TRG;
(ii) The number of schools opting to freeze posts permanently, freeze posts temporarily for 30 to 89 days and freeze posts temporarily for 90 days, and the respective amounts of TRG provided;
(iii) The number of schools applying for appointment of supply teachers to substitute teachers on approved leave of less than 30 days, the number of such applications, and the amount of grants provided;
(iv) The reasons for using 2.5 man-days as the basis for calculating the amount of TRG to be provided; and
(v) Whether the Education Bureau plans to review the calculation methods of TRG; if yes, the state of review and the implementation schedule for new initiatives; if no, the reasons.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 217)

Reply:

(i) Aided schools with incorporated management committees (IMC) are provided with the Teacher Relief Grant (TRG) to allow them the flexibility to deploy their resources for appointing temporary supply teachers and other ancillary staff or procuring education-related services to meet their school-based needs and implement various new initiatives, with a view to enhancing the quality of education. The TRG is made up of two components, namely an annual recurrent cash grant and an optional cash grant. The annual recurrent cash grant is calculated on the basis of 2.5 man-days per teacher on the approved teaching staff establishment and the daily rate of pay for the respective grades of supply

teachers (i.e. 2.5 man-days x the number of teaching posts on the approved teaching staff establishment x the daily rate of pay for supply teachers). At present, the respective amount of the annual recurrent cash grant are around $150,000 and $220,000 for primary and secondary schools with 24 classes. The amount of grant varies subject to the number of teaching posts provided under various measures to individual schools. With the consent of the IMC, majority of teachers and parents, schools are allowed the flexibility to choose to apply for the optional cash grant by temporarily or permanently freezing up to 10% of their approved teaching staff establishment. Depending on the type of teaching posts to be frozen and the length of frozen period, the rate of the optional cash grant is calculated as follows:-

(1) for permanent freezing, the rate is the mid-point salary of the posts concerned;
(2) for temporary freezing for 30 to 89 days, the rate is the standard daily rates of supply teacher; and
(3) for temporary freezing for 90 days or more, the rate is the average monthly salary point of temporary teachers in the event of basic ranks, or at the starting salary point of the relevant promotion ranks in the event of promotion ranks.

As the rate of the optional cash grant is calculated on the above bases, such as the ranks and number of frozen posts and the length of frozen period, the amount of grant received by each school varies.

(ii) The number of aided schools with IMC (including special schools) receiving the optional cash grant under the TRG, and the actual total expenditure for the provision of the grant from 2013-14 to 2017-18 financial years are tabulated below:

Financial Year	Number of Schools	Actual Expenditure ($ million)
2013-14	324	400
2014-15	327	481
2015-16	383	599
2016-17	470	756
2017-18	520	930

The above figures include schools that opted to freeze posts permanently, freeze posts temporarily for 30 to 90 days, and freeze posts temporarily for 90 days or more. A breakdown of the figures is not available as the Education Bureau (EDB) does not compile related statistics.

(iii) Under the TRG, schools with IMC may use the grant flexibly to appoint supply teachers to substitute regular teachers on approved leave of less than 30 days. In the event that teachers take approved leave for 30 days or more or paternity leave for 3 consecutive days or more, schools may still apply to the EDB for reimbursement of expenses for appointment of supply teachers. Hence, schools with IMC do not have to apply to the EDB for reimbursement of expense for appointment of supply teachers on an accountable basis in case of teachers taking leave for less than 30 days. Schools may combine and use the two components of the TRG, namely the annual recurrent cash grant and optional cash grant having regard to their needs, and are not required to submit separate reports on the deployment of the grants under the TRG to the EDB. Information in this respect is, therefore, not available.

(iv) and (v)

The "2.5 man-days" is one of the bases for calculating the annual recurrent cash grant under the TRG. When the grant was introduced, the "2.5 man-days" is determined according to the average annual expenditure on daily-rated supply teachers of aided schools in the past. As schools' need for the appointment of supply teachers varies from year to year, under the existing mechanism, schools are allowed to retain TRG surplus up to 3 times the annual provision in the relevant year so that they may flexibly deploy the accumulated surplus between school years for appointing supply teachers. Besides, schools may exercise their financial autonomy in deploying the Expanded Operating Expenses Block Grant flexibly to cover related expenses. The EDB has been keeping in view the implementation of the TRG. According to the financial statements submitted by schools, most schools have accumulated surpluses in respect of their TRG accounts. The arrangements under the TRG have been found effective and schools generally welcome the arrangement of freezing posts on the teaching staff establishment to obtain cash grant as it gives them more flexibility in deploying resources. We will continue to monitor the implementation of the TRG and conduct a review when necessary.

Director of Bureau: Secretary for Education

Question:

Regarding the usage of Educational Television (ETV) in schools, the Administration publishes the "average no. of programmes watched by each class (kindergartens/primary/secondary)" each year. How is this indicator determined? As the viewing mode of ETV programmes by schools has changed, does such an indicator take into account the number of ETV programmes watched by students outside classroom?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 220)

Reply:

The Education Bureau (EDB) commissions a tertiary institution or agency every year to conduct an annual survey to evaluate the utilisation rate of Educational Television (ETV) service in schools. The average number of programmes watched by each class in kindergartens is a simple average which is calculated as the sum of the ETV resources used by different levels of kindergarten classes responding to the survey divided by the total number of kindergarten classes. For primary and secondary schools, as there are subjects and key learning area curricular, the average number of programmes watched by each class is the sum of the average numbers of ETV resources used in all subjects or key learning areas by all classes in the schools responding to the survey.

As the current survey is targeted at school level and relates only to students' viewing ETV resource arranged by teachers, the survey findings cannot adequately reflect students' access to ETV resource over the Internet outside the class. The EDB will improve the methodology of survey on the use of ETV multimedia resource, and the modified survey will be administered, as a try-out in the 2018/19 school year, with a view to collect more data to comprehensively reflect the utilisation of ETV resources. The preliminary survey findings are expected to be available by the end of the 2018/19 school year for discussion by the relevant committees under the Curriculum Development Council.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the fine-tuning of medium of instruction for secondary schools, please provide the following information:

(a) the number of schools operating EMI (English as the Medium of Instruction) classes at Secondary 1 to 3 levels, the number of EMI classes, and the percentage of EMI classes out of the total number of classes in the past 5 years under the fine-tuning framework; and

(b) the numbers of schools and classes adopting the "allocation of time to subjects" arrangement, and their respective percentages out of the total number of schools and classes, with a breakdown by subject.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 221)

Reply:

The arrangements of fine-tuning the medium of instruction (MOI) for secondary schools ("fine-tuned MOI arrangements") has been implemented at junior secondary levels since the 2010/11 school year. Schools may, in light of school-based circumstances, devise appropriate MOI arrangements professionally according to the prescribed criteria (i.e. "student ability", "teacher capability" and "support measures") on a 6-year cycle, with a view to increasing students' exposure to English and opportunities to use English in school, thereby enhancing students' English proficiency and ensuring students' learning effectiveness at the same time.

Under the fine-tuned MOI arrangements, all schools are given varying degrees of flexibility in the adoption of MOI. Schools may conduct extended learning activities in English in lessons and/or transform the related lesson time into teaching of no more than 2 non-language subjects in the English medium (i.e. "allocation of time to subjects"). As such, the choice and lesson time of subjects taught in English may vary between classes or groups within a school as well as among schools. Given such diversified school-based arrangements, we will not and should not broadly categorise the classes, lessons or subjects of a school as either using Chinese or English as the MOI. Hence, relevant statistics are not available.

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Education Bureau (EDB) provides kindergartens joining the kindergarten (KG) education scheme (Scheme-KGs) with a supply teacher grant to facilitate their teachers' participation in specified recognised training courses on catering for students with developmental needs and on supporting non-Chinese speaking (NCS) students. In this connection, please advise of the following:

- In 2018/19, how many Scheme-KGs have applied for the supply teacher grant? What is the respective number of applications involving supply teachers possessing Certificate in Early Childhood Education or above qualifications ($916 per day) and those possessing other qualifications ($357 per day)?
- Among the applications for supply teacher grant submitted by Scheme-KGs, how many are approved and how many are rejected? What is the rate of successful application? What are the major reasons for unsuccessful application?
- Quite a number of courses on catering for students with developmental needs and on supporting NCS students as recognised by EDB are conducted on Saturdays. However, EDB stipulates that Sundays, Saturdays (except for long whole-day kindergartens), public holidays and school holidays should not be counted as working days. As such, how can schools apply for the supply teacher grant?
- On supporting NCS students, among the Scheme-KGs provided with additional grant for supporting NCS students, how many have at least 1 teacher having attended the basic course as recognised by EDB and what is the percentage they represent?
- Some principals reflected that the rate of successful application for supply teacher grant in the sector was low and the reasons included some of the recognised courses being conducted on Saturdays, applications will only be accepted on condition that teachers attend courses for 3-consecutive days. Will EDB conduct a review and improve this policy, for example, by recognising more relevant courses conducted on weekdays or lifting the 3-consecutive day requirement? If yes, what is the timetable for introducing such improvement measures?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 222)

Reply:

Starting from the 2018/19 school year, the Education Bureau (EDB) provides kindergartens (KGs) joining the kindergarten education scheme (Scheme) with a supply teacher grant to facilitate them in arranging teachers to attend specified recognised training courses provided by EDB on catering for students with developmental needs and on supporting non-Chinese speaking (NCS) students. The relevant information is set out as follows:

- As at the end of February 2019, 67 applications from 57 KGs were received. 65 of these applications involved employing supply teachers with Certificate in Early Childhood Education or above qualification while the other 2 involved employing supply teachers with other qualifications;
- As at the end of February 2019, 51 applications from 42 KGs were approved the grant while 16 applications from 15 KGs are being processed. No applications have been rejected;
- Where courses conducted on public holidays or school holidays, there is no need for KGs to employ supply teachers as there will be no classes. Given the diversity in the KG sector, EDB will offer different options, as far as possible in the arrangement of course dates to cater for the needs of different KGs.
- On supporting NCS students in KGs, we have set specific targets for teacher training, i.e. each Scheme-KG having admitted 8 or more NCS students should have at least 1 teacher having attended the basic course as recognised by EDB by the end of the 2018/19 school year and this will be extended to all Scheme-KGs having admitted NCS students (regardless of the number) by the end of the 2020/21 school year. As at February 2019, about 140 Scheme-KGs admitting 8 or more NCS students have at least 1 teacher having attended the relevant basic course. It is expected that all the 150 or so KGs with 8 or more NCS students will have achieved this target by the end of 2018/19 school year; and
- Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate Scheme-KGs in arranging teachers to attend specified recognised training courses on catering for students with developmental needs and on supporting NCS students. KGs may apply for the grant if a teacher of their schools has attended the specified recognised courses provided by EDB for 3 or more consecutive days. On the other hand, element of supply teachers for releasing teachers to attend training has been included in the basic unit subsidy. If the duration of the course is less than 3 consecutive days, KGs may deploy their own resources as appropriate to employ supply teachers. Besides, the teacher to pupil ratio has been enhanced from 1:15 (including the principal) to 1:11 (principal not included) under the Scheme. While KGs have the flexibility to maintain their usual arrangements in learning and teaching activities, they may flexibly deploy human resources to allow teachers to participate in various professional development activities. Given the above considerations, we have no plan to relax the eligibility for the supply teacher grant to cover relevant courses that last for less than 3 days.

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In 2008, the Government allocated the vacant school premises (VSP) of former Kowloon Docks Memorial Primary School to Holy Angels Canossian School through direct allocation for physical extension. However, the premises remains unused to this day. Please provide the following information:

1. the reason for the VSP to remain vacant for over 10 years;
2. the updated use of the VSP and the timetable for putting the VSP into use;
3 the site area of the VSP and the number of classrooms as well as special rooms available;
4. the measures that the Education Bureau (EDB) has taken in the past 10 years to help Holy Angels Canossian School overcome the obstacles in renovation of the VSP, thus enabling it to carry out the extension of the school premises expeditiously and upgrade its school facilities to modern-day standards;
5. the renovation cost for the VSP; and
6. whether EDB has imposed a time limit on operating and using VSP to avoid VSP being left idle for a prolonged period; if yes, the details; if no, the reasons.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 223)

Reply:

Since allocating the school premises of the former Kowloon Docks Memorial Primary School at 2 Tsing Chau Street, Hung Hom to Holy Angels Canossian School for physical extension in 2008, the Education Bureau (EDB) had been in discussion with the school regarding how best to renovate and make use of the vacant school premises (VSP) to meet the school's needs for teaching and learning development. Upon allocation of the VSP, we commissioned the Architectural Services Department to examine and ascertain the physical condition of the school premises, which were found to be structurally sound but the wooden roof was eroded by termites. Maintenance works to replace the roof and related structures

were arranged immediately. After confirming with the school the design of the VSP's basic renovation works, the EDB applied for the Buildings Department's (BD) approval of the relevant building plan and carried out relevant follow-up work. The building plans were approved by the BD in 2015. In our subsequent discussions with the school regarding the detailed internal design for the VSP, we found out that part of the premises' exterior wall had cracks on it and was tilted outwards due to the overgrown roots of nearby trees. Besides, the ground was rugged because of exposed tree roots, and there was spalling of concrete at roof beams. In view of this, a structural survey of the school premises was carried out in late 2016. The survey found that the building structure had aged and appropriate measures had to be taken to improve structural safety.

Even though the site area of the VSP is about 3 570m^2, which is similar to the size required for the construction of an 18-classroom primary school in accordance with the prevailing standards, the existing premises adopted a single-storey design with only 12 classrooms and 2 special rooms. Having regard to the findings in the structural survey report, as well as the age and condition of the school premises, we considered that redeveloping the VSP into a new school premises for reprovisioning of Holy Angels Canossian School could provide better teaching and learning environment and facilities for the school concerned while putting land resources to more effective use. We are following up the relevant arrangements. Similar to other school reprovisioning projects, Holy Angels Canossian School is required to surrender its existing school premises to the Government upon reprovisioning, and the EDB will, in accordance with the mechanism for handling VSP, assess the VSP's suitability for educational use and whether the premises is needed to be reallocated for school or other educational use.

Question:

Please give a breakdown of the actual expenditure for 2017-18, the approved estimate for 2018-19, the revised estimate for 2018-19 and the estimate for 2019-20 under Subheads 700 and 871, together with the reasons for the changes in expenditures.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 224)

Reply:

The breakdown of expenditure by item under Subhead 700 General non-recurrent is provided below:

Item	Approved Commitment	2017-18 Actual Expenditure	2018-19 Approved Estimate	2018-19 Revised Estimate	2019-20 Estimate
	$ million	$ million	$ million	$ million	$ million
(A) Ongoing/new projects					
- Pilot Subsidy Scheme for Students of Professional Part-time Programmes	434.0	26.7	53.6	36.0	78.5
- Seventh Matching Grant Scheme for the self-financing post-secondary education sector	500.0	313.4	100.0	150.0	36.6
- Enhancing the professional development of teachers and principals	500.0	-	29.2	6.6	30.6

Item	Approved Commitment	2017-18 Actual Expenditure	2018-19 Approved Estimate	2018-19 Revised Estimate	2019-20 Estimate
	$ million	$ million	$ million	$ million	$ million
- Payment of examination fees for school candidates sitting for the 2019 Hong Kong Diploma of Secondary Education Examination	170.0	-	-	147.1	2.0
- Provision for supporting students with financial needs to participate in life-wide learning activities	46.0	-	-	-	46.0
- Grant to the Vocational Training Council for implementing the Pilot Training and Support Scheme	288.0	59.2	67.7	68.6	54.8
- Funding Support to the Hong Kong Examinations and Assessment Authority	360.8	-	-	-	90.7
- Mainland University Study Subsidy Scheme	105.3	8.9	6.6	7.1	4.1
- Scholarship Scheme for Studying Outside Hong Kong	348.0	46.0	55.9	55.8	35.4
- Yi Jin Diploma	1,000.0	85.0	85.0	86.6	88.0
- E-Textbook Market Development Scheme	50.0	1.7	2.9	1.3	1.6
- Pilot incentive to employers participating in the workplace assessment under the Training and Support Scheme	108.0	-	-	-	36.0
- School-based professional support services to schools on Chinese learning and teaching for non-Chinese speaking students	45.0	-	-	-	10.0
- Provision of a non-recurrent grant to support non-Chinese speaking students to learn Chinese history and culture	30.0	-	-	-	29.0
- Implementation of the Fourth Strategy on Information Technology in Education	105.0	20.1	6.9	2.2	3.1
- One-off grant for the promotion of Chinese history and culture	125.0	116.5	4.1	3.3	3.8

Item	Approved Commitment	2017-18 Actual Expenditure	2018-19 Approved Estimate	2018-19 Revised Estimate	2019-20 Estimate
	$ million	$ million	$ million	$ million	$ million
- One-off grant to secondary schools for promotion of Science, Technology, Engineering and Mathematics education	102.6	1.8	3.0	3.0	1.5
Sub-total		679.3	414.9	567.6	551.7
(B) Projects that are completed					
- Setting up of the Student Activities Support Fund	2,500.0	-	-	2,500.0	-
- Injection into the HKSAR Government Scholarship Fund	800.0	-	800.0	800.0	-
- Injection into the Gifted Education Fund	800.0	-	-	800.0	-
- Injection into the Qualifications Framework Fund	1,200.0	1,200.0	-	-	-
- Study Subsidy Scheme for Designated Professions/Sectors	960.0	186.3	-	-	-
- Pilot on providing career-related experiences for students with specific learning difficulties and non-Chinese speaking students in secondary schools	16.6	6.7	-	-	-
- Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland	200.0	103.0	11.6	8.3	-
- One-off start-up grant for kindergartens joining the Kindergarten Education Scheme	220.0	0.7	-	-	-
- International Civic and Citizenship Education Study 2016	7.0	1.4	-	-	-
- Supporting schools to adopt e-textbooks	50.0	0.1	-	-	-
- Qualifications Framework Support Schemes	208.0	22.2	-	-	-
Sub-total		1,520.4	811.6	4,108.3	-
Total		**2,199.7**	**1,226.5**	**4,675.9**	**551.7**

The breakdown of expenditure by item under Subhead 871 Vocational Training Council is provided below:

Item	Approved Commitment	2017-18 Actual Expenditure	2018-19 Approved Estimate	2018-19 Revised Estimate	2019-20 Estimate
	$ million	**$ million**	**$million**	**$million**	**$million**
(A) Ongoing projects					
- Revamp of Human Resource Management Information System and Payroll System	39.5	-	5.7	5.6	3.9
Sub-total		-	5.7	5.6	3.9
(B) Projects that are completed					
- Enhancement of information technology infrastructure and services	67.2	25.6	-	-	-
- Provision of augmented reality/virtual reality-assisted training facilities and equipment	4.5	0.7	-	-	-
- Enhancement of e-Learning platform and ancillary support services	9.8	2.3	1.9	2.9	-
Sub-total		28.6	1.9	2.9	-
Total		**28.6**	**7.6**	**8.5**	**3.9**

The expenditures under Subhead 700 General non-recurrent and Subhead 871 Vocational Training Council may vary significantly year by year because such expenditure items are controlled by both the approved commitment of the item and the current year provision approved for the subhead. The approved commitment of an expenditure item represents the total expenditure of the project, which may straddle several years. The actual expenditure of individual project may vary from year to year depending on its own implementation schedule.

Besides, the sums involved in some projects under Subhead 700 General non-recurrent are significant, particularly those one-off injections into various funds, e.g. Student Activities Support Fund. The completion of these projects would cause significant fluctuations in the expenditure under this subhead year by year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5706)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

For Subhead 000, please provide a breakdown of the 2017-18 actual expenditure, 2018-19 approved estimate, 2018-19 revised estimate and 2019-20 estimate for items under Departmental Expenses and Other Charges and the item of Kindergarten Education Scheme under Subventions, together with the reasons for the changes in expenditures.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 225)

Reply:

For Subhead 000 Operational expenses, the 2017-18 actual expenditure, 2018-19 approved estimate, 2018-19 revised estimate and 2019-20 estimated expenditure for items under Departmental Expenses and Other Charges and the item of Kindergarten Education Scheme under Subventions are tabulated below:

	2017-18 Actual Expenditure	2018-19 Approved Estimate	2018-19 Revised Estimate	2019-20 Estimate
	$ million	$ million	$ million	$ million
Departmental Expenses				
Temporary staff	532.5	559.0	595.0	602.7
Remuneration for special appointments	110.6	120.1	117.8	125.3
General departmental expenses	585.0	683.3	652.5	714.8
Other Charges				
Teacher training	91.1	89.3	83.2	108.0
Curriculum Development Institute	238.0	254.9	236.3	261.7
Subject and curriculum block grant for government schools	127.9	139.0	131.5	134.3
Subsidy and scholarship schemes for vocational and post-secondary education	757.6	1,570.2	1,127.5	1,475.4
School extra-curricular activities, programmes, grants and prizes	224.6	286.2	261.6	368.7
Pre-primary Education Voucher Scheme	1,126.9	23.7	21.1	5.0
Subventions				
Kindergarten Education Scheme	3,902.7	5,949.4	6,041.2	6,275.3

The main reasons for the changes in the above expenditures are set out below-

Departmental Expenses

The increase in Departmental Expenses for 2018-19 and 2019-20 is mainly due to increased provision for meeting the operational expenses required.

Other Charges

As for the expenditure items under Other Charges, except for the Pre-primary Education Voucher Scheme (PEVS) that sees a decrease in 2018-19 and 2019-20, the expenditure of the other items in these 2 years is comparable to or higher than the 2017-18 actual expenditure. The increase is mainly due to increased provision for meeting operational needs. The expenditure on subsidy and scholarship schemes for vocational and post-secondary education has continued to rise, with a cumulative increase of about 95% in these 2 years. This is mainly due to increased provision for regularising the Study Subsidy

Scheme for Designated Professions/Sectors starting from the 2018/19 academic year and expanding the Scheme to cover self-financing sub-degree programmes starting from the 2019/20 academic year. The expenditure on school extra-curricular activities, programmes, grants and prizes has also been rising, with a cumulative increase of 64% in these 2 years. This is mainly due to additional provision to government schools for new grants and increased provision for the existing grants.

There is a significant decrease in the expenditure on the PEVS for 2018-19 and 2019-20. This is because the new kindergarten education policy has been implemented by the Government since the 2017/18 school year, and subventions are provided directly to kindergartens under the Kindergarten Education Scheme (KG Scheme), which has replaced the PEVS. The vast majority of kindergartens that previously joined the PEVS have participated in the KG Scheme. Hence, the Government's subsidy for students under the PEVS has substantially decreased.

Subventions for the KG Scheme

The KG Scheme was launched in the 2017/18 school year. The expenditure in 2017-18 is lower than that for 2018-19 and 2019-20 because it only reflects the expenditure for the first 8 months (i.e. August 2017 to March 2018) after the implementation of the Scheme in the 2017/18 school year. In general, the annual expenditure on the KG Scheme changes depending on various factors, including the number of eligible students, the adjustments to subvention amounts by school years, and the enhanced support for kindergartens on a need basis.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5707)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (700) General non-recurrent

Programme: (4) Secondary Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the following items under Subhead 700 Operating Account:

801 Pilot Subsidy Scheme for Students of Professional Part-time Programmes
806 Enhancing the professional development of teachers and principals
817 Mainland University Study Subsidy Scheme
820 Scholarship Scheme for Studying Outside Hong Kong
917 One-off grant for the promotion of Chinese history and culture
925 One-off grant to secondary schools for promotion of Science, Technology, Engineering and Mathematics education

Please provide the number of related staff, a breakdown of expenditure involved, and the number of applications received and approved for each of the item for the past 5 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 226)

Reply:

The information of various items under subhead 700 General non-recurrent is set out as follows:

801 Pilot Subsidy Scheme for Students of Professional Part-time Programmes (the Pilot Subsidy Scheme)

The Pilot Subsidy Scheme has been implemented since the 2016/17 academic year. The total expenditure involved, and the number of applications received and approved are provided in the table below:

Academic Year	Number of related staff (1)	Total expenditure ($ million)	No. of applications received	No. of applications approved
2016/17	Not applicable(#)	12.7	1 720	1 585
2017/18	Not applicable(#)	27.9	1 650	1 597

(#) Civil servants involved in the implementation of the Pilot Subsidy Scheme are included in the current establishment of the Education Bureau (EDB) and cannot be identified separately.

806 Enhancing the professional development of teachers and principals

The provision under this item will be used for the implementation of various measures and relevant work to enhance the professional development of teachers and principals starting from the 2018/19 school year. Details of the expenditure involved is not available at this stage.

817 Mainland University Study Subsidy Scheme (MUSSS) (The following total expenditure includes the relevant estimates under item 817 and the recurrent expenditure of EDB) (2)

The MUSSS has been implemented since the 2014/15 academic year. The number of related staff, the total expenditure involved, and the number of applications received and approved are provided in the table below:

Academic Year	Number of related staff (1)	Total expenditure ($ million)	No. of applications received	No. of applications approved
2014/15	10	4.0	448	263
2015/16		6.5	580	479
2016/17		29.0	2 425	2 190
2017/18		37.0	3 453	3 056

820 Scholarship Scheme for Studying Outside Hong Kong

The Scholarship Scheme has been implemented since the 2015/16 academic year. The number of related staff, the total expenditure involved, and the number of applications received and approved are provided in the table below:

Academic Year	Number of related staff (1)	Total expenditure ($ million)	No. of applications received	No. of applications approved
2015/16	3	20.7	658	92
2016/17		32.3	681	93
2017/18		46.0	856	97

917 One-off grant for the promotion of Chinese history and culture

In 2017, the EDB provided a one-off grant of $100,000 and $150,000 to each public sector and Direct Subsidy Scheme (DSS) primary and secondary schools (including special schools) respectively for the promotion of Chinese history and culture. The relevant grant can be used across years until the end of the 2019/20 school year. The total expenditure in the 2016/17 and 2017/18 school years was about $116 million and $1.2 million respectively.

925 One-off grant to secondary schools for promotion of Science, Technology, Engineering and Mathematics (STEM) education

In 2017, the EDB disbursed a one-off grant of $200,000 to each public sector and DSS secondary school (including special schools) for the promotion of STEM education. The grant can be used across years until the end of the 2018/19 school year. The total expenditure in the 2016/17 and 2017/18 school years was about $90.8 million and $2.3 million respectively.

Notes

(1): The number of related staff refers to the civil service posts created for the implementation of the relevant item.

(2): The operation of MUSSS involves different provisions. The non-recurrent provision under item 817 was used to provide subsidy for needy Hong Kong students pursuing undergraduate programmes through the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions in the 2014/15, 2015/16 and 2016/17 academic years. Starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate programmes in designated Mainland institutions, irrespective of the channels of their admission to these institutions. Subsequently, a "non-means-tested subsidy" was introduced under the MUSSS in the 2017/18 academic year. The expenditure involved is subsumed under EDB's estimated recurrent expenditure of the relevant years, rather than item 817.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7272)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide figures on the lowest, highest and median school fees charged by kindergartens operating whole-day classes in the past 5 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 104)

Reply:

The median, highest and lowest school fees charged by kindergartens (KGs) operating whole-day (WD) classes, by type of KGs, from the 2014/15 to 2018/19 school years are tabulated at Appendix.

Appendix

Median, highest and lowest school fees
charged by KGs operating WD classes by type of KGs
from the 2014/15 to 2018/19 school years

2014/15 school year

Annual school fee	WD Classes				
	Local non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS) (excluding former aided child care centres (FACs))	FACs	Local NPM KGs not joining the PEVS	Local private independent (PI) KGs	Non-local KGs
Median school fee ($)	36,600	38,600	75,900	64,800	97,900
Highest school fee ($)	60,000	52,900	154,100	111,600	154,100
Lowest school fee ($)	19,400	22,700	51,100	23,300	47,800

2015/16 school year

Annual school fee	WD Classes				
	Local NPM KGs joining the PEVS (excluding FACs)	FACs	Local NPM KGs not joining the PEVS	Local PI KGs	Non-local KGs
Median school fee ($)	39,600	42,100	80,300	69,600	101,700
Highest school fee ($)	67,500	59,500	166,500	111,600	166,500
Lowest school fee ($)	21,100	26,400	55,100	31,200	47,800

2016/17 school year

Annual school fee	WD Classes				
	Local NPM KGs joining the PEVS (excluding FACs)	FACs	Local NPM KGs not joining the PEVS	Local PI KGs	Non-local KGs
Median school fee ($)	42,300	46,200	82,000	74,400	109,800
Highest school fee ($)	69,700	64,900	177,400	125,000	177,400
Lowest school fee ($)	21,700	30,600	57,900	32,000	47,800

2017/18 school year

Annual school fee	WD Classes				
	Local NPM KGs joining the KG education scheme (KG Scheme) (excluding FACs)	FACs	Local NPM KGs not joining the KG Scheme	Local PI KGs	Non-local KGs
Median school fee ($)	7,300	11,400	71,400	78,500	115,200
Highest school fee ($)	25,900	22,500	181,700	140,000	181,700
Lowest school fee ($)	200	900	38,300	35,300	47,800

2018/19 school year

Annual school fee	WD Classes				
	Local NPM KGs joining the KG Scheme (excluding FACs)	FACs	Local NPM KGs not joining the KG Scheme	Local PI KGs	Non-local KGs
Median school fee ($)	8,100	12,000	87,400	81,600	118,600
Highest school fee ($)	26,200	26,200	198,300	149,800	198,300
Lowest school fee ($)	200	700	38,300	38,300	47,800

Note:

1. Figures are rounded to the nearest hundred.
2. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services; they usually operate longer service hours.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3807)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2017/18 school year, the Education Bureau (EDB) provides, by phases in 3 years, each public sector ordinary primary and secondary school with an additional teaching post (i.e. an Assistant Primary School Master/Mistress (APSM) in primary schools or a Graduate Master/Mistress (GM) in secondary schools) to facilitate school's assignment of a designated teacher to take up the role of Special Educational Needs Coordinator (SENCO). In this regard, would the EDB please inform this Committee of the following:

(1) How many public sector ordinary primary and secondary schools have already assigned a designated teacher to take up the role of SENCO?

(2) Of the above schools, how many have arranged the workload of SENCO in accordance with the EDB's proposal of "70% of the time to perform the above duties relating to the support of students with SEN. The remaining time should be spent on classroom teaching"; and

(3) Among schools that cannot meet the above requirements, how many can meet the EDB's requirement of "the time spent on performing the duties stipulated by SENCO should not be less than 50% of the total time"?

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 406)

Reply:

(1) to (3)

In the 2018/19 school year, 544 public sector mainstream primary and secondary schools (300 primary schools and 244 secondary schools) have been provided with a Special Educational Needs Coordinator (SENCO). The Education Bureau (EDB) requires these schools to distribute the work of SENCOs appropriately so that they can make use of about 70% of their time to perform duties relating to the support of students with special

educational needs (SEN). The remaining time should be spent on classroom teaching. As schools are at different stages in the implementation of integrated education, and the number of students with SEN in schools and their needs for support are different, schools may make adjustment to the distribution of work for SENCOs in the light of school-based needs. However, the time SENCOs spent on performing duties relating to the support of students with SEN should not be less than 50% of the total time. The record of the EDB shows that in the 2018/19 school year, all schools which have been provided with a SENCO can distribute the work of SENCOs in accordance with the aforementioned requirement.

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from this academic year, the Government provides a non-means-tested annual subsidy of $30,000 for eligible students pursuing full-time locally-accredited local and non-local self-financing undergraduate (including top-up degree) programmes offered by eligible institutions in Hong Kong. In this connection, please inform this Committee of the number of students applying for the subsidy so far.

Separately, the number of students applying for the above subsidy shows that the undergraduate places offered by publicly-funded institutions are insufficient. Would the Education Bureau please inform this Committee whether it plans to increase the number of undergraduate places offered by publicly-funded institutions to meet the demand of all eligible secondary 6 graduates?

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 407)

Reply:

The Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS) covers about 300 full-time locally accredited self-financing local and non-local undergraduate programmes (including first-year first-degree (FYFD) and top-up degree programmes) offered by 16 eligible post-secondary institutions (including 10 approved post-secondary colleges under the Post Secondary Colleges Ordinance (Cap. 320), the Open University of Hong Kong, the Technological and Higher Education Institute of Hong Kong and the School for Higher and Professional Education under the Vocational Training Council, Hong Kong Art School, Hong Kong Institute of Technology, and Savannah College of Art and Design Foundation (Hong Kong) Limited). The Education Bureau (EDB) received 16 661 applications submitted by students under the NMTSS in the 2018/19 academic year. The figure includes applications from new intakes and current students pursuing relevant programmes in the 2018/19 academic year.

It is the Government's policy to support the parallel development of the publicly-funded and self-financing post-secondary education sectors. The self-financing education sector plays an important role in increasing articulation opportunities and choices and providing quality, diversified and flexible pathways with multiple entry and exit points for students. Through the development of the publicly-funded and self-financing sectors, about 50 per cent of young people in the relevant age cohorts have access to degree-level education in the 2018/19 academic year. Including sub-degree students, over 70 per cent of young people now have access to post-secondary education.

We note that there have been views in the community that the Government should subsidise more local students who have attained the general entrance requirements for undergraduate admission (i.e. level 3 for Chinese Language and English Language and level 2 for Mathematics Compulsory Part and Liberal Studies) in the Hong Kong Diploma for Secondary Education (HKDSE) Examination to pursue degree education. In fact, there are currently sufficient publicly-funded and self-financing FYFD places for all Secondary 6 graduates who meet the general entrance requirements for undergraduate admission.

In recent years, the Government has implemented a series of measures to further increase the opportunities and subsidies for local students to pursue undergraduate programmes, such as gradually increasing the University Grants Committee (UGC)-funded senior year undergraduate intake places to enable 5 000 outstanding graduates of sub-degree programmes to pursue subvented degree programmes starting from the 2018/19 academic year; subsidising students to pursue self-financing undergraduate and sub-degree programmes in selected disciplines to meet Hong Kong's manpower needs through the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP); and providing eligible students with a non-means-tested subsidy of around $30,000 per annum for pursuing self-financing FYFD and top-up degree programmes through the NMTSS. UGC-funded programmes and self-financing programmes covered by SSSDP and NMTSS have all gone through stringent academic accreditation and lead to qualifications that are recognised by the Government. In recent years, self-financing institutions have also rolled out various popular and/or unique programmes in such disciplines as allied health, testing and certification, horticulture and landscape management, and culinary arts and management etc. in an attempt to supplement the programmes offered by the UGC-funded sector.

Furthermore, the Government has in recent years enhanced the support and subsidies for Hong Kong students who opt to pursue further studies in the Mainland or abroad. In 2018, 102 Mainland higher education institutions participated in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme) which admits Hong Kong students based on their results in the HKDSE Examination and exempts them from taking the Joint Entrance Examination for Mainland Institutions. In 2019, the number of participating Mainland higher education institutions of the Admission Scheme will increase to 112. The EDB has also introduced the Mainland University Study Subsidy Scheme to provide a non-means-tested annual subsidy of $5,600 and a means-tested subsidy capped at $16,800 to Hong Kong students pursuing undergraduate studies at designated Mainland institutions. At the same time, the EDB has launched the Hong Kong Scholarship for Excellence Scheme to support a maximum of 100 outstanding students per cohort to pursue studies at world renowned universities outside Hong Kong with a view to nurturing more top talent in various fields to support the development of Hong Kong.

Given the aforesaid developments and the Government's policy to support the parallel development of the publicly-funded and self-financing post-secondary education sectors, coupled with a drop in the number of secondary school graduates in the coming few years, we do not see the need to increase the number of UGC-funded FYFD places at this stage. The Government will continue to exercise prudence in its planning for the provision of higher education, with due emphasis on both quality and quantity.

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

To promote the healthy and sustainable development of the self-financing post-secondary education sector, the Government has launched the Land Grant Scheme (LGS) to provide land sites at nominal premium or vacant Government premises at nominal rent to self-financing non-profit-making post-secondary institutions to operate locally-accredited self-financing local and/or non-local post-secondary programmes. Since the launch of the LGS in 2002, 11 sites and 8 Government premises have been granted. In this connection, would the Government please provide the following information:

Location of Land Site/Government Premises	Area of Land Site/Government Premises (hectares)	Name of Non-profit-making Post-secondary Institution	Number and Types of Programmes Offered

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 344)

Reply:

In support of the healthy and sustainable development of self-financing post-secondary education sector, the Land Grant Scheme (LGS) was introduced in 2002 to allocate land sites at nominal premium and vacant government premises at nominal rent to non-profit-making post-secondary institutions for operation of self-financing locally-accredited post-secondary programmes at sub-degree level or above. As at February 2019, 11 land sites and 8 vacant government premises have been allocated under the LGS. The site area/gross floor area of the related land sites/vacant government premises and the number of programmes which the respective operators planned to offer thereat in the 2018/19 academic year are set out at **Annex**.

Annex

Site Area of Land Sites Allocated under the Land Grant Scheme and Number of Programmes Planned to be Offered by the Respective Operators in the 2018/19 Academic Year

Land sites allocated	Site area (Approximate) (in hectare)	Operators	No. of planned programmes at sub-degree level or above in the 2018/19 academic year
1. 8 On Muk Street, Shek Mun, Shatin, New Territories	0.65	Hong Kong Baptist University - College of International Education and School of Continuing Education	17
2. 28 Wang Hoi Road, Kowloon Bay, Kowloon	0.21	HKU SPACE Community College	16
3. 8 Hung Lok Road, Hung Hom, Kowloon	0.44	The Hong Kong Polytechnic University (PolyU) - Hong Kong Community College (HKCC) and School of Professional Education and Executive Development (SPEED)	25
4. 18 Chui Ling Road, Tseung Kwan O, New Territories	0.49	Caritas Bianchi College of Careers	6
5. 9 Hoi Ting Road, Yau Ma Tei, Kowloon	0.40	PolyU - HKCC and SPEED	25
6. 80 Castle Peak Road, Castle Peak Bay, Tuen Mun, New Territories	1.69	Chu Hai College of Higher Education	17
7. Hang Shin Link, Siu Lek Yuen, Shatin, New Territories	0.57	The Hang Seng University of Hong Kong	20
8. 81 Chung Hau Street, Ho Man Tin, Kowloon	0.43	The Open University of Hong Kong	8
9. Tseung Kwan O Town Lot No. 97, Area 73B, New Territories	0.74	Caritas Institute of Higher Education	10
10. Chai Wan Inland Lot No. 182, Hong Kong	0.99	Vocational Training Council - Technological and Higher Education Institute of Hong Kong	13
11. Ex-Victoria Road Detention Centre site, Mount Davis, Hong Kong	0.64	The University of Chicago Booth School of Business	1

Gross Floor Area of Vacant Government Premises Allocated under the Land Grant Scheme and Number of Programmes Planned to be Offered by the Respective Operators in the 2018/19 Academic Year

Vacant government premises	Gross floor area (Approximate) (in m^2)	Operators	No. of planned programmes at sub-degree level or above in the 2018/19 academic year
1. Ex-premises of Po Leung Kuk Ho To Shui Hing Primary School, 8 Tam Kung Temple Road, Shau Kei Wan, Hong Kong	890	Hong Kong Art School	2
2. Ex-premises of Ho Fai Primary School, Yiu On Estate, Ma On Shan, Shatin, New Territories	5 050	Hong Kong College of Technology (HKCT)	10
3. Ex-premises of Kwong Yuet Tong Excel Foundation Primary School, 3 Wah Lam Path, Pokfulam, Hong Kong	5 700	HKU SPACE Community College*	12
4. Ex-premises of HKTA Tong Tang Sook Fong Memorial School Estate Primary School, No. 2, Phase II, Tsui Lam Estate, Tseung Kwan O, New Territories	5 275	The Chinese University of Hong Kong - School of Continuing and Professional Studies	15
5. Ex-premises of St. Thomas Primary School, 213 Nam Cheong Street, Sham Shui Po, Kowloon	1 090	Hong Kong Institute of Technology	9
6. Ex-premises of FDBWA Mrs Fung Ping Shan Primary School, 2 On Shing Street, Ma On Shan, Shatin, New Territories	9 610	HKCT Institute of Higher Education and HKCT	8
7. Post-secondary college premises at Tai Wai MTR Station	15 000	Community College of City University/UOW College Hong Kong	Construction in progress
8. Ex-premises of Po Leung Kuk Wai Yin College, 2 Tin Wan Hill Road, Aberdeen, Hong Kong	3 060	Yew Chung College of Early Childhood Education	2

* The premises is temporarily being shared by Centennial College and HKU SPACE Community College with approval from the Education Bureau.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6505)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise of the following:

(a) the number of suicides among local post-secondary, secondary and primary students in the past 5 years;

(b) the number of suicides among teachers in the past 5 years;

(c) the government expenditures on provision of school-based psychology service for primary and secondary schools in the past 5 years, together with the details and effectiveness of such service;

(d) the number and manpower ratio of educational psychologists, psychiatric nurses and social workers in primary and secondary schools in the past 5 years;

(e) whether there will be measures to achieve the provision of one educational psychologist/psychiatric nurse/social worker per school in the coming year; if yes, the details, implementation timetable and resources involved; if no, the reasons;

(f) whether there will be government measures to prevent student suicides in the coming year; if yes, the details, the staff establishment and resources involved; and what measures were implemented in the past 5 years and how effective they were; and

(g) whether there will be government measures to provide guidance or support for teachers, or to prevent teacher suicides in the coming year; if yes, the details, the staff establishment and resources involved; what measures were implemented in the past 5 years and how effective they were.

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 487)

Reply:

(a) and (b)
The Education Bureau (EDB) has required primary and secondary schools to report suspected fatal suicide cases of students to keep in view the situation and provide professional support for the schools concerned as appropriate. The nature and number of fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. The EDB has not captured the relevant information from the Court. Hence, we are unable to provide officially verified figures on students' fatal suicide cases. The number of suspected fatal suicide cases of students as reported by primary and secondary schools to the EDB in the past 5 school years is tabulated as follows:

School year	2013/14	2014/15	2015/16	2016/17	2017/18
Number of cases	10	9	19	19	16

The EDB does not require post-secondary institutions to report similar data, nor does it collect information on the number of suicides among teachers.

(c) to (e)
Starting from the 2016/17 school year, the School-based Educational Psychology Service (SBEPS) has covered all public sector primary and secondary schools. In the 2018/19 school year, a total of 456 primary schools and 389 secondary schools are provided with the service. In addition, starting from the 2016/17 school year, the EDB has further enhanced the SBEPS (Enhanced SBEPS) by progressively enhancing the ratio of educational psychologist (EP) to school to 1:4 for public sector schools with comparatively large number of students with special educational needs (SEN). In the 2018/19 school year, a total of 119 schools receive the Enhanced SBEPS. From the 2014/15 to 2018/19 school years, the respective number of EPs providing the SBEPS (including Enhanced SBEPS) is 99, 114, 138, 144 and 151. The total expenditure for the provision of the SBEPS for public sector mainstream primary and secondary schools by EDB is tabulated as follows:

School year	2014/15	2015/16	2016/17	2017/18	2018/19 (Revised estimate)
Expenditure ($ million)	85	103	119	127	173

Each EP serves 6 to 10 public sector mainstream primary and secondary schools, in general 7 or 8 schools. Adopting a comprehensive and integrated service model that aims at enhancing schools' professional capacity to cater for students' diverse educational needs, EPs provide support at the school system, teacher and student levels. Specifically, EPs provide assessment and intervention services for students, training for parents, consultation and professional development programmes for teachers, and offer professional advice on school policies and measures in relation to supporting students with diverse educational needs.

A quality assurance mechanism has been put in place to evaluate service effectiveness and to ensure service quality. Under the mechanism, the EDB conducts an annual review through a questionnaire survey among participating schools and EPs at the end of a school

year to gauge feedback from different stakeholders. The EDB also conducts school visits to review service deliverables (including the work plans and progress reports submitted by EPs) and to hold meetings with EPs and school personnel to advise on issues related to the implementation of the SBEPS. In addition, the EDB holds regular meetings with the school sponsoring bodies providing the service to review service planning and coordination. Views given by different stakeholders indicated that the SBEPS was able to meet the needs of schools and the satisfaction level among schools receiving the Enhanced SBEPS had also risen.

As announced in the 2018 Policy Address, the Enhanced SBEPS will be further extended with the target of covering about 60% of public sector ordinary primary and secondary schools by the 2023/24 school year through enhancing the current EP to school ratio from between 1:6 and 1:10 to 1:4, whereas the ratio for the remaining 40% of schools will be enhanced to 1:6. The EDB has made reference to the educational psychology service for schools in other advanced countries, which also adopt an integrated service model that covers student casework as well as support at the teacher and school system levels. Neither do these countries provide each public sector school with 1 school-based EP. We are of the view that the arrangement of 1 EP serving several schools will enable the EP to consolidate the experience in supporting different schools, thus performing his/her professional duties more effectively. Therefore, the EDB does not plan to enhance the EP to school ratio to 1:1.

As for school social workers, school social work services for secondary schools are, through the subvention of Social Welfare Department (SWD), provided by non-governmental organisations. According to the SWD, the number of school social workers for secondary schools from 2014-15 to 2018-19 is as follows:

Financial year	2014-15	2015-16	2016-17	2017-18	2018-19 (Revised estimate)
No. of school social workers	564	561	561	560	559

As we do not collect information on the number of extra social workers appointed by schools using other resources, the data presented above should not be interpreted as the total number of social workers in secondary schools.

Starting from the 2019/20 school year, the Government will implement the policy of "two school social workers for each school" and enhance supervisory support in over 460 secondary schools in the territory. The additional full year recurrent provision involved will be around $313 million.

As for primary schools, the EDB has collected complete information of their serving social workers starting from the 2017/18 school year. According to the information gathered, the respective number of social workers providing guidance service in public sector primary schools in the 2017/18 and 2018/19 school years is 544 and 569. We do not have the data and information for the school years before the 2017/18 school year.

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. The measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources. The objective of the measure is to further enhance the overall quality of guidance service by ensuring that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualification. It is estimated that the annual additional recurrent expenditure in ordinary primary schools will be around$111million.

For schools currently employing Student Guidance Teachers (SGTs), they can continue with the existing arrangements. For those without SGTs, the EDB will provide a 3-year transitional period for them to switch to the new funding mode before the 2021/22 school year. In case schools are not able to switch to the new funding mode after the 3-year transitional period owing to the need for more time to handle personnel matters in respect of their serving student guidance personnel, including retaining their serving student guidance personnel due to special needs, they may discuss with the EDB separately. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode, accounting for about 50% of all public sector primary schools.

Manpower ratio of psychiatric nurses is not available as there are currently no such posts on the establishment of public sector schools.

(f)
The EDB has been encouraging schools to adopt the Whole School Approach directed at three levels, namely "Universal", "Selective" and "Indicated" to promote mental health amongst students and enhance support for students with mental health needs (including students with suicidal risk).

At the Universal level, the EDB has been actively promoting diversified development programmes featuring adventure-based, team building and problem-solving training, such as the "Understanding Adolescent Project" for primary schools, and the "Enhanced Smart Teen Project" for secondary schools and the "Pupil Ambassador Scheme on Positive Living", to enhance students' resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. The expenditure involved for the above work in 2018-19 is about $66 million. The estimated expenditure for 2019-20 is about $75 million. Besides, the EDB and the Department of Health (DH) jointly launched the Joyful@School Campaign in the 2016/17 school year which has been continued in the 2017/18 and 2018/19 school years to enhance students' awareness and understanding of mental health and strengthen their ability to cope with environmental changes. Schools (or in collaboration with non-governmental organisations) can submit proposals to the Quality Education Fund for funding not exceeding $200,000 through simplified application procedures to organise activities related to the Campaign. Up to February 2019, more than 700 applications were approved under the Joyful@School Campaign with a total grant amount of more than $150 million.

At the Selective level, starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with SEN pitched at

Basic, Advanced and Thematic levels (BAT Courses). Some modules of the BAT Courses cover mental illness. From the 2017/18 school year onwards, the EDB also provides teachers of primary and secondary schools with the "Professional Development Programme for Mental Health", including elementary training for teachers at large and in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. The EDB provides public sector mainstream schools with around 2 000 training places for the "Professional Development Programme for Mental Health" in the 2018/19 and 2019/20 school years. Besides, in each school year, the EDB also organises talks, seminars and experience sharing sessions, etc., on supporting students with mental health needs for primary and secondary school teachers to equip more of them with the knowledge and capacity to support students with mental health needs. In general, the revised estimated expenditure for teacher training courses on supporting students with SEN and various related training activities for the 2018/19 school year is about $90 million. The estimated expenditure for the 2019/20 school year is about $100 million. To help schools identify and support students with mental health needs, the EDB has published "A Resource Handbook for Schools: Detecting, Supporting and Making Referral for Students with Suicidal Behaviours" and "Teacher's Resource Handbook on Understanding and Supporting Students with Mental Illness" which was developed in collaboration with the Hospital Authority (HA) for reference of teachers and school personnel.

At the Indicated level, starting from the 2017/18 school year, the Learning Support Grant covers students with mental illness so that schools can cater for those students' learning, social, emotional and behavioural needs. Moreover, the Food and Health Bureau (FHB), in collaboration with the EDB, the HA and the SWD, has launched the "Student Mental Health Support Scheme" since the 2016/17 school year to provide appropriate support services for students with mental health needs through a school-based platform.

The EDB works with the Curriculum Development Council to continuously review the primary and secondary curricula in order to better cater for learning differences. The EDB suggests schools coordinate the daily amount of homework assigned so that students can have sufficient time to rest, play and develop their interests. The EDB has all along been reviewing relevant areas in the education system in order to duly support and address the developmental and diverse needs of students, and will continue to encourage and support schools in implementing the suggestions made under the New Academic Structure Review, so as to support schools and meet the diverse learning needs of students. Measures included the following: increasing the flexibility in deploying lesson time; trimming, enhancing or updating the curriculum contents and assessment arrangements, and clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload; arranging for more Applied Learning (ApL) courses to register in the Qualifications Register and increasing learning opportunities for workplace experience; and encouraging students interested in vocational and professional education and training to study one to two ApL courses. The EDB established the Task Force on Review of School Curriculum in November 2017 to review the school curriculum. The Task Force will be in operation for about two years to make directional recommendations on the school curriculum to the Government. The expenses for the above work have been subsumed under the overall expenditure of the EDB.

In the 2017 Policy Address, a series of measures were announced to facilitate young people to pursue multiple pathways and continuing education in accordance with their abilities and interests. These measures include making use of the Language Fund to provide a vocational English programme for senior secondary students who are interested in pursuing vocational and professional education and training or prepared to enter the workforce, so as to enhance their English proficiency and provide opportunities for them to attain relevant recognition for further study or employment.

Regarding enhancement of family life and parent education, the EDB endeavors to promote home-school co-operation and parent education. The EDB has all along been supporting the Committee on Home-School Co-operation in organising parent activities and seminars to equip parents with the necessary knowledge about helping their children in respect of growth and development, enhancing their parental skills, as well as assisting them in the early identification of their children's emotional problems and fostering positive thinking in their children. Besides, the EDB launched a website called "Smart Parent Net" in early 2018 to enable parents with children from kindergarten to primary and secondary school levels to easily access useful information on supporting the physical and mental development of students, which includes the parent-child relationship, character development, parenting skills and emotional management of parents. In parallel, the Education Commission set up the Task Force on Home-school Co-operation and Parent Education in December 2017 to review the existing approach in promoting home-school co-operation and parent education and to formulate the direction and strategy for fostering home-school co-operation and promoting parent education with the objective of assisting parents to help their children grow up happily and healthily, and learn effectively through, among others, promotion of correct understanding of developmental needs of children and adolescents as well as avoiding excessive competition. Accepting the Task Force's recommendations, the EDB will provide Federations of Parent-Teacher Associations and Parent-Teacher Associations of schools with additional resources for enhancing home-school co-operation and promoting parent education starting from the 2019/20 school year. In 2018-19, the expenditure for promoting home-school co-operation and parent education is about $37.14 million and the estimated expenditure for 2019-20 is about $63.38 million.

Besides, on the request of the Chief Executive in October 2017, the Labour and Welfare Bureau (LWB) coordinated a cross-bureaux/departments Task Force on Prevention of Youth Suicides (the Task Force). The Task Force was to take stock of the progress of implementation of recommendations set out in the Final Report of the Committee on Prevention of Student Suicides issued in 2016 by the Committee on Prevention of Student Suicides commissioned by the EDB, and to consider if further policy measures and action should be taken to strengthen the efforts to prevent youth suicides. In addition to the LWB and EDB, the Task Force also comprises the FHB, the Home Affairs Bureau, the SWD, the DH and the HA. The Chief Executive endorsed the Report of the Task Force on Prevention of Youth Suicides (Task Force Report) in November 2018. The full text of the Task Force Report has been uploaded to the LWB website (https://www.lwb.gov.hk/eng/other_info/TFPYS_Report_(English).pdf).

(g)
The EDB has all along attached great importance to teachers' well-being and kept in view their working conditions with a view to providing them with appropriate support. We

encourage schools to strengthen communication and discussion with teachers and make fair and reasonable working arrangements in light of their school circumstances. If there are no operational needs, teachers should as far as possible be entitled to school holidays so that they have time for rest or personal commitments and thus achieve work-life balance. The EDB encourages schools to promote mental health on campus, including implementing mental health projects and education, to enhance the understanding and recognition of mental health among students, teachers and parents at the Universal level. While these activities are primarily targeted at students, we also encourage teachers and other stakeholders to join in and increase their awareness of mental health, understanding of the sources of stress and ways to cope with it for realising healthy life.

In addition, the EDB organises talks and sharing sessions on mental health for teachers. Starting from the 2017/18 school year, we have also provided "Professional Development Programme for Mental Health" for primary and secondary school teachers, including elementary training for teachers at large and in-depth training for designated teachers. Teachers' mental health is also covered in these programmes. Content related to maintenance of teachers' mental well-being and healthy lifestyle is also incorporated in the teacher training under the Student Mental Health Support Scheme launched by the FHB in collaboration with the EDB, the HA and the SWD to provide support for students with mental illness. Moreover, the Joyful@School Campaign jointly organised by the EDB and the DH, as well as the Mindshift+ Educational Programme launched by the University of Hong Kong with the funding support of the EDB both share with teachers ways to maintain their mental health through talks or related activities. Participation in the professional development activities above will enhance teachers' understanding of mental health and ways to manage and relieve stress as well as emotions. We believe that such knowledge and skills do not only help teachers rendering support to students with mental health needs, but also strengthen their capacities in handling their own emotions and stress.

To help teachers and principals cope with stress at work or personal emotional problems, we have set up the Teachers' Helpline to provide telephone counselling and appropriate support services. The counsellors of the Teachers' Helpline will do their best to understand the situation of the callers and help them analyse and manage their problems. They will also, as and when necessary, provide professional telephone counselling, face-to-face counselling and arrange for professionals (such as clinical psychologists) to follow up cases. We also organise courses for teachers and principals on stress management and promotion of mental well-being under the Teachers' Helpline initiative. From the 2013/14 to 2017/18 school years, the average annual expenditure on this initiative is about $400,000 and about 300 cases for assistance were received in each of these years.

In any case, when teachers experience persistent or significant signs of stress, they should immediately seek help from relevant professionals, such as clinical psychologists and psychiatrists for timely and appropriate counselling or treatment.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3855)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2017/18 school year, the Education Bureau (EDB), by phases in 3 years, provide each public sector ordinary primary and secondary school with a graduate teaching post within the staff establishment to facilitate school's assignment of a designated teacher to take up the role of Special Educational Needs Coordinator (SENCO) to support integrated education. From the 2019/20 school year onwards, the post of SENCO in public sector ordinary primary and secondary schools with a comparatively large number of students with special educational needs (SEN) will be upgraded to a promotion rank. Would the Administration inform this Committee of the following:

What is the estimated number of primary and secondary schools whose SENCO post will be upgraded to a promotion rank? What are the corresponding rank, remuneration and salary point? What are the respective numbers of students with SEN admitted to these schools? Please provide the data disaggregated according to 18 districts in tabular form.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 2)

Reply:

In the 2019/20 school year, all public sector mainstream primary and secondary schools (455 primary schools and 389 secondary schools) will each be provided with a Special Educational Needs Coordinator (SENCO) post. In the said school year, the Education Bureau will also upgrade the post of SENCO in public sector mainstream primary and secondary schools with comparatively large number of students with special educational needs (SEN) to a promotion rank, i.e. Senior Graduate Master/Mistress in secondary schools or Primary School Master/Mistress in primary schools. The salary point and salary of these two ranks are tabulated as follows:

	Rank	Salary Point	Monthly Salary ($) (effective from 1 April 2018)
Primary School	Primary School Master/Mistress	30 - 33	61,060 - 70,090
Secondary School	Senior Graduate Master/Mistress	34 - 39	70,590 - 85,770

In the 2019/20 school year, when a school admits comparatively large number of students with SEN and the specific threshold for Learning Support Grant (LSG) has been met, the post of SENCO will be upgraded to a promotion rank. It is anticipated that about 80% of the public sector mainstream schools will benefit from the measure. The amount of LSG is calculated based on the number of students with SEN admitted by the schools as well as the tier of support they require. Hence, among the schools whose SENCO post will be upgraded to a promotion rank, the number of students with SEN admitted will vary greatly. Besides, as whether the post of SENCO will be upgraded to a promotion rank is irrelevant to the district where a school is located, we have not compiled figures by district.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3859)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The integrated education policy has been implemented in mainstream primary and secondary schools by the Government since 1997 to enable students with special educational needs (SEN) to study in mainstream schools. Would the Government:

(a) tabulate the details, duration, targets and expenditures involved of the subsidies/support measures that have been/are provided for schools since the implementation of the integrated education policy;

(b) tabulate the following information for the school years from 2014/15 to 2018/19:

(i) the number of students studying in mainstream primary and secondary schools by grade level and by type of SEN;

(ii) the percentage of students mentioned in (i) out of the total number of students studying in mainstream primary and secondary schools in the territory by grade level;

(iii) the number of students with SEN studying in primary and secondary schools in the territory by severity (i.e. Tiers 1, 2 and 3);

(iv) the average unit cost of supporting students with SEN;

(v) the statistics on secondary schools with Individual Education Plans (IEPs) implemented in the territory:

Number of IEPs implemented	Number of schools	
	Primary school	Secondary school

Reply:

(a)

The Government adopts a dual-track mode in providing special education. The Education Bureau (EDB) will, subject to the assessment and recommendation of specialists and the consent of parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Under the policy of integrated education, other students with special educational needs (SEN) will attend mainstream schools. To support public sector mainstream schools in catering for students with SEN, the EDB has been providing these schools with additional resources, professional support and teacher training. The major measures introduced in these 3 areas over the years are set out in Appendix 1.

In addition, the EDB continuously develops and introduces teaching materials, resource packages and guidelines for teachers' reference and use to support students with different types of SEN. Having regard to the needs of schools and teachers, we organise different thematic seminars, workshops and sharing sessions on good practices every school year. We also organise activities to promote inclusive culture. Announcements of Public Interest, online newsletters and commendation schemes are some of the examples.

The total expenditures involved in measures to support public sector mainstream schools in catering for students with SEN from the 2014/15 to 2018/19 school years are tabulated below:

School year	2014/15	2015/16	2016/17	2017/18	2018/19 (revised estimate)
Expenditure ($ million)	1,222	1,310	1,392	1,638	2,012

(b) (i) and (ii)

The respective number of students with SEN studying in public sector mainstream primary and secondary schools by grade level and by type of SEN from the 2014/15 to 2018/19 school years is set out in Appendix 2. The percentage of these students out of the total number of students studying in public sector mainstream primary and secondary schools is tabulated below. With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students with SEN has increased over the years.

School year	2014/15	2015/16	2016/17	2017/18	2018/19
Primary school	6.8%	7.3%	7.7%	7.8%	8.3%
Secondary school	6.0%	7.0%	7.8%	8.6%	9.4%

(b) (iii), (iv) and (v)

All schools are requested to adopt the Whole School Approach to support students with SEN through the 3-Tier Intervention Model, taking into account their support needs. Tier-1 support refers to taking early care of all students with different learning and adaptation needs, including those with mild or transient learning or adaptation difficulties, through early identification and quality teaching in regular classroom; Tier-2 support refers to additional support/"add-on" intervention for students with persistent learning or adaptation difficulties, such as small group learning, after-school remedial programmes and pull-out programmes; Tier-3 support refers to individualised intensive support for students with continuous and severe learning or adaptation difficulties, for example, through drawing up of Individual Education Plans (IEPs). Irrespective of the tier of support required by students with SEN and whether these students may require an IEP, schools are required to record the support and adaptations offered to students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support required by students with SEN may be adjusted upward or downward, and the need for providing an IEP may change from time to time according to the performance and prevailing support needs of the students. Learning Support Grant (LSG) is calculated according to the number of students with SEN who require tier-2 or tier-3 support. The distribution of public sector mainstream primary and secondary schools eligible for LSG, disaggregated by range of number of students with SEN requiring tier-2 and tier-3 support, is set out in Appendix 3 and Appendix 4 respectively.

Since not all schools and students with SEN are receiving the same support services, the funding required may vary. Besides, depending on students' responses to intervention, adjustments might have to be made to the support services and level of support required by students with SEN within a school year. Hence, providing the unit cost for students with SEN across all mainstream schools is inappropriate.

Major measures to support public sector mainstream schools in catering for students with special educational needs (SEN)

Major measures	Details	2018/19 school year (revised estimate) ($ million)
Learning Support Grant	Participating schools are provided with a cash grant for hiring of services and/or appointment of teachers and teaching assistants, etc. to provide school-based support services for students with SEN and low academic achievement (applicable to primary schools).	646.3
Additional Teachers to Support Academic Low Achievers	Schools with a large intake of Territory Band 3 and bottom 10% junior secondary students are provided with additional teachers.	382.3
Special Educational Needs Coordinator	Eligible schools are provided with an additional graduate teaching post in the staff establishment to facilitate school's assignment of a designated teacher to take up the role of Special Educational Needs Coordinator.	375.7
Intensive Remedial Teaching Programme	Participating schools are provided with additional teachers to provide intensive remedial support for students with SEN and low academic achievement.	214.5
Integrated Education Programme	Participating schools are provided with additional teachers/learning support assistants and recurrent grants to support students with SEN through the Whole School Approach.	19.7
Enhanced Speech Therapy Grant	Eligible primary schools are provided with a cash grant for employing their own school-based speech therapists or procuring school-based speech therapy services to support students with speech and language impairment.	66.1
Intensive Support Grant for Hardcore or Clustered Students with SEN	A cash grant for schools to employ teaching assistant(s) on a temporary basis for supporting individual or a cluster of students who have imminent needs for highly intensive support.	7.2
Top-up Fund	A cash grant for schools to procure special furniture and equipment and carry out minor conversion works for students with disabilities upon application.	2.2

School-based Educational Psychology Service	School-based educational psychology service is provided to help schools cater for students' diverse educational needs.	172.6
Resource Support Programme for Visually Impaired Integrators	The school for children with visual impairment is provided with additional resource teachers and braillists for offering support services to students with visual impairment in mainstream and special schools.	17.4
Enhanced Support Service for Students with Hearing Impairment	The school for children with hearing impairment is provided with additional resource teachers, speech therapists and a recurrent administration grant to offer support services to students with hearing impairment in mainstream and special schools.	9.7
Special Schools cum Resource Centres	Participating special schools are provided with a cash grant to enable them to share their experience and expertise with mainstream school teachers for empowering them to support students with SEN.	4.1
Resource Schools on Whole School Approach	The resource schools are provided with a cash grant to enable them to share their experience and strategies with mainstream schools in the implementation of the Whole School Approach to cater for students with SEN.	2.8
Professional Development Schools Scheme	Participating special schools are provided with a cash grant to enable them to offer school-based support for mainstream schools in catering for students with SEN.	0.3
Teacher Training	Provision of professional development courses and various types of training activities related to supporting students with SEN for school teachers.	90.7

Number of students with SEN studying in public sector mainstream primary and secondary schools by grade level and by type of SEN from the 2014/15 to 2018/19 school years(Note 1)

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information about students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

2. The number of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

Distribution of public sector mainstream primary and secondary schools eligible for Learning Support Grant by the number of students with special educational needs (SEN) requiring tier-2 support from the 2014/15 to 2018/19 school years

Number of students with SEN requiring tier-2 support	No. of schools

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3860)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Under Matters Requiring Special Attention in 2019-20, it is stated that the Education Bureau will provide additional resources under a three-tier structure to public sector ordinary primary and secondary schools admitting non-Chinese speaking students with special educational needs. What are the additional resources to be provided? Please tabulate the items, target class levels and number of students, and the amount involved.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 8)

Reply:

The Education Bureau (EDB) has all along been committed to facilitating non-Chinese speaking (NCS) students' early adaptation to the local school system and integration into the community, and enhancing their learning effectiveness through different support measures. At the same time, the EDB has been providing public sector mainstream schools with additional resources, professional support and teacher training, while encouraging schools to support students with special educational needs (SEN) through the 3-tier Intervention Model. To further support NCS students with SEN to adjust to school life and make smooth transition through different learning stages, the EDB will provide additional resources under a three-tier structure to public sector mainstream primary and secondary schools admitting NCS students with SEN starting from the 2019/20 school year. The additional resources provided will enable schools to employ teaching assistants to assist teachers in designing activities and teaching materials, procure translation services, or provide the students concerned with social and emotional management training, etc. in order to strengthen emotional, communication and social support. The EDB will provide schools with a grant per year calculated on the basis of the number of NCS students with SEN under a three-tier structure, i.e. $100,000 for 1-9 students, $200,000 for 10-25 students, and $300,000 for 26 or more students. In subsequent school years, the grant rates will be adjusted annually according to the change in the Composite Consumer Price Index. For the 2019/20 school year, it is estimated that about 600 students will benefit from the measure, involving an estimated annual expenditure of around $22 million.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Currently, the Education Bureau (EDB) provides all mainstream primary and secondary schools with the Learning Support Grant (LSG), which is disbursed with reference to the 3-Tier Intervention Model, i.e. the level of support that students need. The LSG covers students with mental illness starting from the 2017/18 school year. Please advise this Committee of the following:

(a) in the form of a table, the number of student beneficiaries in primary and secondary schools in the 2017/18 and 2018/19 school years, with a breakdown by mental illness, grade level and district;

(b) the use and breakdown of LSG;

(c) the per capita amount of LSG for student beneficiaries;

(d) the number of primary and secondary schools in receipt of the LSG for supporting students with mental illness; and

(e) How effective is the new initiative? What assessment indicators are adopted by the EDB? When will a review be conducted?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 14)

Reply:

(a) to (e)
To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention for all mainstream schools, has been providing public sector schools with additional resources, which include the Learning Support Grant (LSG). Starting from the 2017/18 school year, the LSG covers students with mental illness (MI) so that schools will have additional resources to provide enhanced support to cater for these students' learning, social, emotional and behavioural needs. The LSG is calculated on the basis of the number of students with SEN and the tier of support the students require. In the 2017/18 school year, the grant per student per annum requiring tier-2 and tier-3 support was $13,986 and $27,972 respectively, and the basic provision per school per annum for the first 1 to 6 student(s) requiring tier-3 support was $167,832. The ceiling of the grant was $1,613,705 per school per annum. The EDB adjusted the relevant grant rate in the 2018/19 school year. The grant per student per annum requiring tier-2 and tier-3 support has been increased to $14,322 and $28,644 respectively, and the basic provision per annum for the first 1 to 6 student(s) requiring tier-3 support has also been raised to $171,864. The ceiling of the grant is $1,652,434 per school per annum. Basing on the principle of "calculation on individual basis and deployment holistically", schools should pool and deploy the LSG and other school resources flexibly and holistically to render support for students with SEN according to individual conditions and needs, such as employing additional teachers or teaching assistants, hiring professional services, conducting school-based teacher training and parent education, etc. All students with SEN, not only those with MI, will benefit from the provision. In addition, as many MIs are transient in nature, some students with MI and their parents may be reluctant to disclose such information to schools. Hence, providing the number of schools admitting students with MI for whom LSG has been provided has no real meaning and the figure may not be accurate.

Based on the position of September of every school year, the EDB compiles statistics on the number of students with SEN of the respective school year. Since public sector mainstream schools have yet to provide the EDB with information about students with MI as in September of the 2017/18 school year for the calculation of the LSG, the EDB is unable to provide the number of students with MI in that school year (i.e. as in September). Based on the computation of the number of school applications for LSG approved by the EDB at the end of the first term in the 2017/18 and 2018/19 school years, the number of primary and secondary school students with MI as their major type of SEN in those 2 school years are as follows:

2017/18 school year

	P1	P2	P3	P4	P5	P6	Total
No. of students	16	8	6	14	11	12	67
	S1	S2	S3	S4	S5	S6	Total
No. of students	36	44	63	72	84	108	407

2018/19 school year

	P1	P2	P3	P4	P5	P6	Total
No. of students	15	19	14	13	24	21	106
	S1	S2	S3	S4	S5	S6	Total
No. of students	57	99	114	114	126	182	692

As mentioned above, given that many MI are transient in nature, we assume that some parents of students with MI or the students themselves do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI. Since the MI of students has no relationship with the districts in which they live, we have not compiled the breakdown of such figures.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies, measures and deployment of resources (including the support for students with SEN) through self-evaluation every year. As required by the EDB, schools should submit an annual self-evaluation report, which is validated through External School Review by the EDB, on the implementation of the Whole School Approach to integrated education to the EDB at the end of every school year. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. When using Government subventions (including the LSG), all public sector schools are required to adopt an effective monitoring system, maintain proper records and conduct periodic review. Professional staff from the EDB will review the support provided by schools for students with SEN and offer professional advice whenever necessary during school visits in order to ensure that the support services provided by the schools can address the needs of students with SEN (including students with MI). It should be noted that students diagnosed with MI should receive treatment in strict accordance with the instructions given by healthcare professionals. On the part of schools, subject to the consent of the parents, teachers may use the LSG or other resources to provide professional support, with a view to helping the students concerned to cope with the learning and personal growth challenges that the illness brings to them.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3868)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In respect of the measures to support non-Chinese speaking (NCS) students, would the Government please provide, in tabular form, the statistics of the following items from the 2014/15 to 2018/19 school years:

(a) By grade level and ethnicity, the number of NCS students admitted to mainstream primary and secondary schools in each of the 18 districts;

(b) By grade level and ethnicity, the number of NCS students with special educational needs (SEN) studying in mainstream primary and secondary schools;

(c) By grade level and SEN type, the number of NCS students with SEN studying in mainstream primary and secondary schools;

(d) The number of mainstream primary and secondary schools which have admitted NCS students;

(e) The provisions and support measures for the schools concerned, as well as the details and amount involved.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 24)

Reply:

(a) As the ethnicities of non-Chinese speaking (NCS) students can be categorised into at least 10 types, the composition would be highly complicated if the number of NCS students is presented by ethnicity, district and grade level in primary and secondary schools. Hence, figures on ethnicities of NCS students are set out separately. From the 2014/15 to 2018/19 school years, the number of NCS ethnic minority (EM) students studying in public sector ordinary and Direct Subsidy Scheme (DSS) primary and secondary schools by ethnicity is tabulated at Annex A1, and the number of NCS students in public sector ordinary and DSS primary and secondary schools by district and by grade level is tabulated at Annex A2. The two sets of data are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

(b) The number of NCS EM students with special educational needs (SEN) in public sector ordinary primary and secondary schools by grade level and by ethnicity from the 2014/15 to 2018/19 school years is tabulated at Annex B.

(c) The number of NCS students with SEN in public sector ordinary primary and secondary schools by grade level and by major SEN type from the 2014/15 to 2018/19 school years is tabulated at Annex C.

(d) The number of public sector ordinary and DSS primary and secondary schools admitting NCS students from the 2014/15 to 2018/19 school years is tabulated at Annex D.

(e) The Government is committed to supporting the integration of NCS students (including those with SEN) into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese language. The education support measures for NCS students, which are also applicable to NCS students with SEN, and the expenditure involved from the 2014/15 to 2018/19 school years are tabulated at Annex E.

To help public sector ordinary schools cater for students with SEN, including NCS students with SEN, the Education Bureau (EDB), on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. The additional resources include Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers and funding under Intensive Remedial Teaching Programme and Integrated Education Programme, additional teachers to support academic low achievers, Top-up Fund for procurement of special furniture and equipment, and Intensive Support Grant for hardcore cases, etc.. Starting from the 2017/18 school year, EDB provides, by phases in 3 years, each public sector ordinary primary or secondary school with an additional regular teaching post within the establishment so that schools could assign a designated teacher as Special Educational Needs Coordinator to support integrated education. Schools should deploy school resources holistically and flexibly to render appropriate support services to students with SEN, such as employing additional teachers or teaching assistants or hiring professional services. EDB also arranges teacher professional development

programmes and school networking for sharing of good practices, and develops teaching resources for use of teachers and parents. In addition, the professional staff of EDB pay regular visits to schools to render professional advice on their support policies and measures, teaching strategies, resource deployment, etc. Professional support is also provided through assessment and consultation services of educational psychologists, speech therapists and audiologists to help schools cater for students with SEN. All NCS students with SEN benefit from the above support measures and services. For budgetary purpose, the related total expenditure on additional support measures and services on top of the regular subvention provided for public sector ordinary primary and secondary schools in catering for students with SEN from the 2014/15 to 2018/19 school years is tabulated below:

School Year	2014/15	2015/16	2016/17	2017/18	2018/19 (Revised Estimate)
Expenditure ($ million)	1,222	1,310	1,392	1,638	2,012

As the support services are provided to cater for all the students with SEN, we are not able to apportion the expenditure specifically on NCS students with SEN.

Annex A1

Number of non-Chinese speaking (NCS) ethnic minority students in ordinary primary and secondary schools by ethnicity from the 2014/15 to 2018/19 school years

Notes:

1. Figures refer to the position as at September of the respective school years.

2. Figures include students in public sector and Direct Subsidy Scheme (DSS) schools (among which 1 DSS secondary school offering non-local curriculum is excluded for not having provided information on students' ethnicity). Figures do not include students in special schools.

3. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students. The figures above do not include those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

Annex A2

Number of non-Chinese speaking students in ordinary primary and secondary schools by district and by grade level in the 2014/15 school year

Notes:

1. Figures refer to the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with Learning Support Grant to support students with mental illness (MI). As at the date when statistics on the number of students with SEN for the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to EDB. Hence, the figures shown in the table do not include the number of non-Chinese speaking students with MI in public sector ordinary schools in the 2017/18 school year.
2. Figures include those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures do not include students in Direct Subsidy Scheme schools and special schools.

Annex D

Number of ordinary primary and secondary schools with non-Chinese speaking students from the 2014/15 to 2018/19 school years

Level	2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year
Primary (Primary 1-6)	321	329	325	325	332
Secondary (Secondary 1-6)	267	279	274	291	301

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above figures include those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures include non-Chinese speaking students in public sector and Direct Subsidy Scheme schools but do not include students in special schools.

Annex E

Educational support measures for non-Chinese speaking (NCS) students from the 2014/15 to 2018/19 school years

Support measures	Actual expenditure in the 2014/15 school year $ million	Actual expenditure in the 2015/16 school year $ million	Actual expenditure in the 2016/17 school year $ million	Actual expenditure in the 2017/18 school year $ million	Estimated expenditure in the 2018/19 school year $ million
Starting from the 2014/15 school year, the additional funding to schools has been substantially increased and school-based professional support enhanced to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support for NCS students' learning of the Chinese language as well as the creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	197.8 Note 1	224.0 Note 1	245.1 Note 1	259.1 Note 1	270.9 Note 1

Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that subsidised school candidates are only required to pay a "subsidised examination fee" on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE) Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level.	1.87	2.09	2.58	2.94	4.24 Note 2

Support measures	Actual expenditure in the 2014/15 school year $ million	Actual expenditure in the 2015/16 school year $ million	Actual expenditure in the 2016/17 school year $ million	Actual expenditure in the 2017/18 school year $ million	Estimated expenditure in the 2018/19 school year $ million
In the 2018/19 and 2019/20 school years, secondary schools admitting NCS students are provided with additional resources to support their NCS students in using Chinese to learn Chinese History.	-	-	-	-	15.0

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different funds, and a breakdown of expenditure by item is not available.
2. With the approval of the relief measures announced in the 2018-19 Budget to pay the examination fees for school candidates sitting for the 2019 HKDSE by the Finance Committee of the Legislative Council at the meeting on 18 May 2018, the "subsidised examination fee" of eligible NCS students sitting for the non-local Chinese Language examinations concerned in the 2018/19 school year is waived accordingly.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3870)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) launched the three-year Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) in the 2017/18 school year. In this connection, would the Government advise this Committee of the following:

(a) In the form of a table, the schedule, details, number of participants, preparatory work and expenditure breakdown of the Scheme;

(b) The estimated expenditure of the Scheme for the coming year; and

(c) When will the EDB commence a review of the Scheme? When is the report expected to be completed? What is the estimated expenditure involved? Please set out the information in the form of a table.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 26)

Reply:

(a) The Education Bureau (EDB) launched the "i-Journey" Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. Participating teachers will be given 7 to 9 weeks' paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research.

The details of the Scheme in the 2017/18 and 2018/19 school years are as follows:

2017/18 school year (First Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	No. of participants
Helsinki & Jyväskylä, Finland	Interdisciplinary Learning & Entrepreneurship Education	15
Melbourne, Australia	Catering for Students with Special Educational Needs (SEN)	20
Exeter, the United Kingdom	STEM Education	15

2018/19 school year (Second Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	No. of participants *Provisional figures
Turku, Finland	Interdisciplinary Learning & Entrepreneurship Education	15
Southampton, the United Kingdom	Assessment Literacy	15
Singapore	STEM Education	10

A budget of $28 million for 3 years has been earmarked for the Scheme. The total expenditure of the first batch of the Scheme is $7.49 million and a breakdown by item is as follows:

Item	Expenditure ($ million)
Programme/activity fee	4.48
Transportation between Hong Kong and the location for overseas experience	0.38
Funding for employment of supply teachers	2.63

Since the second batch of the Scheme has yet to finalise all expenditure items, the expenditure figures are unavailable at the present stage.

(b) The estimated expenditure of the Scheme for the 2019/20 school year is $9.3 million.

(c) The EDB will monitor the implementation of the Scheme at different stages and collect data and information to review its effectiveness. Upon completion of the three-year pilot Scheme, an evaluation report will also be compiled. The expenditure involved in the evaluation will be subsumed under the overall expenditure of EDB. Therefore, a breakdown by item is unavailable.

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the policy of integrated education, please advise this Committee of the following:

(a) The changes in the number of teachers in public sector and aided primary and secondary schools, and changes in the number of serving teachers who have completed the Basic (30 hours), Advanced (90 hours) and Thematic (90 to 120 hours) training courses between the 2014/15 and 2018/19 school years.

(b) Please tabulate an itemised breakdown of the expenditure on providing the above training courses in the past 5 years.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 29)

Reply:

(a)
The number of teachers in public sector mainstream primary and secondary schools from the 2014/15 to 2018/19 school years is as follows:

School Year	2014/15	2015/16	2016/17	2017/18	2018/19 (Revised Estimate)
No. of primary school teachers	18 900	19 400	19 900	21 300	22 100
No. of secondary school teachers	23 300	22 900	22 500	22 500	22 400

To enhance the professional capacity of teachers in supporting students with special educational needs (SEN), the Education Bureau (EDB) has been providing serving teachers

with structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) since the 2007/08 school year. The number of public sector mainstream primary and secondary school teachers having completed the BAT Courses from the 2014/15 to 2018/19 school years is as follows:

Course	2014/15		2015/16		2016/17		2017/18		2018/19 (Provisional)[note]	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	215	295	221	364	259	444	283	406	304	451
Advanced	74	86	109	147	129	197	157	152	141	178
Thematic	152	316	201	250	204	248	217	270	233	272

Note: BAT Courses for the 2018/19 school year are not yet completed. Figures provided are the anticipated number of teachers who will complete the courses.

Since teachers who have completed the BAT Courses may leave the sector due to various reasons such as job change, pursuing further studies, retirement, etc., the EDB will inform public sector schools of the progress of their teachers' special education training in order to facilitate the schools to arrange teachers to attend the BAT Courses in a systematic manner with a view to enhancing their professional capacity in catering for students with SEN.

(b) The expenditure on the BAT Courses for the 2014/15 to 2018/19 school years is as follows:

Course	Expenditure ($ million)				
	2014/15	2015/16	2016/17	2017/18	2018/19 (Revised Estimate)
Basic	7.3	8.3	10.4	10.3	11.2
Advanced	7.8	12.6	16.3	15.5	16.3
Thematic	24.4	24.2	25.3	27.9	27.7
Total	39.5	45.1	52.0	53.7	55.2

- End -

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As announced in this year's Policy Address, speech therapy services will be made available to all public sector primary and secondary schools. School-based speech therapist posts will be created in public sector ordinary schools by phases in three years starting from the 2019/20 school year. In this connection, please inform this Committee of the following:

(a) Please set out in the table below an itemised breakdown of the expenditures involved in the first 3 years upon implementing the new initiative:

	Item	Year	Description (job nature/ titles, etc.)	Quantity (if applicable)	Amount
1(example)	Administrative expenses (with breakdowns)				
2(example)	Number of speech therapists employed				
3(example)	Other(with breakdowns)				
4					

(b) What is the ratio of speech therapists to schools? Does the Education Bureau plan to/have a timetable for reviewing speech therapy services and the ratio of speech therapists to schools? If yes, what are the details?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 34)

Reply:

(a) and (b)

Starting from the 2019/20 school year, the Education Bureau (EDB) will implement the Enhanced School-based Speech Therapy Service (Enhanced SBSTS) to create school-based speech therapist (SBST) posts in the public sector mainstream primary and secondary schools by phases in 3 years. Most of the schools will form a cluster of two schools to employ a SBST. One school in each cluster will be the base school taking charge of coordinating the administrative matters of the school cluster. In the 2019/20 school year, over 200 schools will implement the Enhanced SBSTS. It is estimated that over 100 SBSTs are needed to be employed.

In the 2019/20 school year, schools implementing the Enhanced SBSTS for the first time will be provided with a one-off School-based Speech Therapy Set-Up Grant of $20,000 for procuring the required speech therapy resources and for related expenses. In addition, all schools implementing the Enhanced SBSTS will be provided with a Recurrent School-based Speech Therapy Administration Grant of $8,000 for replenishing supplies for speech therapy resources and for expenses incurred by implementing the SBSTS. Separately, the base schools will be provided with an additional Recurrent Base School School-based Speech Therapy Administration Grant of $8,000 for coordinating related administrative matters. The above grant rates are subject to adjustment according to the change in the Composite Consumer Price Index each school year.

After the full implementation of the Enhanced SBSTS, it is estimated that about 420 SBST posts will be created in the public sector mainstream primary and secondary schools. The estimated recurrent annual expenditure is about $320 million. The EDB will continue to review the implementation of the Enhanced SBSTS and the effectiveness of the service. Specialists (Education Services) (Speech Therapy) of the EDB will pay regular school visits each school year to offer professional advice on the implementation of SBSTS for the schools and assist schools in monitoring the service quality to ensure that students with speech and language impairment are provided with appropriate support.

Question:

In respect of animal protection, please inform this Committee of the following:

(1) Had resources been expended for promoting the message of animal protection among students in the past? If yes, what was the expenditure involved? If no, why?

(2) Will the Education Bureau consider incorporating the message of "animal protection" into the syllabus to foster in students a respect for life from their young age? If yes, what are the details? If no, why?

Asked by: Hon KWONG Chun-yu (LegCo internal reference no.: 68)

Reply:

(1) & (2)
The EDB has all along attached great importance to nurturing students' positive values and attitudes and has been fostering the implementation of values education in schools (including life education) with a view to promoting students' whole-person development. Learning contents related to life education, such as "understand life", "cherish life", "respect life" and "explore life", which also cover the topic of "animal protection", have already been incorporated into the curricula of relevant subjects in primary and secondary schools. For example, students learn to care for animals and show concern for endangered species in General Studies at the primary level; learn about how humans can live in harmony with animals and show respect for all living things and the environment in Science at the junior secondary level and Biology at the senior secondary level; and learn about the principles of animal welfare and related regulations in the Applied Learning course "Animal Care". According to the Moral and Civic Education curriculum of primary and secondary schools, "Care for Others" is one of the priority values to be nurtured in students, and "caring for animals is my duty" is one of the "life event" exemplars adopted to help students learn about respecting life and caring for animals. In addition, schools are advised to select life events related to students' development and everyday life, and use a variety of approaches,

such as morning assemblies, life education lessons, class teacher periods and life-wide learning activities, to deepen students' understanding of the relevant topics and encourage them to actively explore and consider the issues involved with a view to nurturing in them positive values and attitudes, including respecting and cherishing life.

For the effective implementation of life education, the EDB has continuously provided schools with various learning and teaching resources, including life event exemplars, student worksheets, and audio-visual teaching materials, while providing professional development programmes for both principals and teachers to enhance their professional knowledge and skills on promotion of life education. As the expenditure and manpower for developing learning and teaching resources and organising professional development programmes are subsumed under the recurrent expenditure of EDB, a breakdown is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7253)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the use of social media, please inform this Committee of:

1. the Education Bureau's (EDB) expenditure and staffing establishment for social media campaigns in the past 3 years; and

2. the criteria by which the EDB assesses the effectiveness of these campaigns and determines whether the funds have been used appropriately.

Asked by: Hon KWONG Chun-yu (LegCo internal reference no.: 91)

Reply:

1. The Education Bureau (EDB)'s expenditure for social media campaigns in the past 3 financial years (i.e. 2016-17, 2017-18 and 2018-19) was about $230,000, $330,000 and $240,000 respectively. The manpower involved in the social media campaigns is subsumed under the overall establishment of the EDB.

2. In assessing the effectiveness of social media campaigns and whether the funds concerned have been used appropriately, the EDB will consider factors such as the number of impressions, hit rates and costs. The evaluation results will be used as reference for mapping out publicity and promotional strategies in future.

Question:

Please tabulate the details of the duty visits made by the Secretary for Education in the past 3 years, including the date, place, names and number of accompanying officers, purpose, expenses for hotel accommodation, meals and airfare, and total expenditure of each visit. If any of the expenses were covered by sponsorship, please set out the amounts of sponsorship and the names of sponsors or sponsor organisations.

Asked by: Hon LAU Ip-keung, Kenneth (LegCo internal reference no.: 12)

Reply:

Information about duty visits outside Hong Kong made by the Secretary for Education in 2016-17, 2017-18 and 2018-19 is at Annex.

Annex

Duty visits outside Hong Kong made by Secretary for Education (SED)

(1) From 1 April 2016 to 30 June 2017

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommodation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
10 to 12 May 2016	Chengdu	To join a delegation led by the Chief Secretary for Administration to visit Sichuan to conclude the support work in the reconstruction of areas stricken by the earthquake in Wenchuan in 2008	1	4,191	19,636	3,620	27,447
25 May 2016	Nansha	To officiate at the 2016 Nansha-Hong Kong Sister School Contract Signing Ceremony cum Cultural Exchange Activities	2	No expenses as no overnight stay	No air passage (by car)	4,600	4,600
14 June 2016	Shenzhen	To have a meeting with officials of the Shenzhen Municipal Education Bureau, and to visit two hi-tech enterprises for exchanges on technology education and career and life planning education	2	No expenses as no overnight stay	No air passage (by car)	4,081	4,081
20 & 21 July 2016	Shenzhen and Guangzhou	To attend the Hong Kong/Guangdong Universities High Level Meeting, and to conduct education exchanges in Shenzhen and Guangzhou	2	3,956	No air passage (by car)	7,312	11,268
17 & 18 August 2016	Beijing	To have meetings with officials of the Ministry of Education and the Beijing Municipal Education Commission respectively	2	4,889	23,051	3,583	31,523

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommodation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
14 September 2016	Guangzhou	To attend the 19th Plenary of the Hong Kong-Guangdong Co-operation Joint Conference	-	No expenses as no overnight stay	No air passage (by train)	420 [In-town transport sponsored by the Guangdong Provincial Government and the sponsored amount is not available]	420
2 to 9 October 2016	Peru and USA	To attend the 6th Asia-Pacific Economic Co-operation Education Ministerial Meeting in Lima, Peru, and to visit San Francisco, USA for education exchanges	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	364,177	41,147	405,324
20 to 22 October 2016	Shanghai	To have a meeting with officials of the Shanghai Municipal Education Commission, and to join Hong Kong secondary school students in a Mainland exchange programme	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	21,610	18,063	39,673
3 & 4 November 2016	Shenzhen	To officiate at the Guangdong-Hong Kong Sister School Contract Signing Ceremony, and to attend the Shenzhen-Hong Kong Principals' Forum 2016	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	No air passage (by car)	11,694	11,694
10 & 11 November 2016	Beijing	To attend an inter-national education symposium organised by the Organisation for Economic Co-operation and Development	-	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	11,645	2,564	14,209
15 November 2016	Guangzhou	To address the founding ceremony of the Guangdong-Hong Kong-Macau University Alliance	1	No expenses as no overnight stay	No air passage (by train)	1,317	1,317

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommodation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
28 & 29 November 2016	Malaysia	To have a meeting with officials of the Malaysian Ministry of Higher Education in Kuala Lumpur to exchange views on education issues of mutual concern, and to finalise the arrange-ments for the Hong Kong Scholarship for "Belt and Road" Students (Malaysia)	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	44,626	7,186	51,812
6 & 7 December 2016	Shanghai	To attend the 4th meeting of the China-UK High-Level People-to-People Dialogue	1	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	10,862	7,187	18,049
15 December 2016	Nansha	To attend the Guangdong-Hong Kong-Macau forum on education co-operation, innovation and entrepreneurship	2	No expenses as no overnight stay	No air passage (by car and by ferry)	4,252	4,252
14 & 15 February 2017	Beijing	To have meetings with officials of the Ministry of Education and the Beijing Municipal Education Commission respectively	2	4,860	23,380	3,936	32,176
19 to 21 February 2017	Thailand	To have a meeting with the Thai Ministry of Education in Bangkok to explore opportunities for education co-operation, and to finalise the arrangements for the Hong Kong Scholarship for "Belt and Road" Students (Thailand)	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	13,977	13,998	27,975
10 & 11 March 2017	Haikou	To have a meeting with officials of the Education Department of Hainan Province to explore co-operation in educational matters	1	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	5,824	4,839	10,663

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommodation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
20 to 23 April 2017	Shanghai and Hangzhou	To meet with local education officials and attend university exchange activities to promote co-operation in higher education	2	5,926 Hotel expenses in Hangzhou covered by overseas subsistence allowance which is included in column (C)	16,310	17,773	40,009
26 to 28 April 2017	Vietnam	To meet with local education officials and university management to explore opportunities for promoting co-operation between higher education institutions of the two places, and to deliberate on the agreement and measures for extending the "Belt and Road" Scholarship to Vietnam	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	15,652	14,617	30,269
21 to 24 May 2017	United Kingdom	To attend and speak at the Going Global 2017, and to hold bilateral meetings with education officials from around the world	2	14,896	84,367	43,788	143,051
31 May & 1 June 2017	Beijing	To visit Beijing with the leaders of the 8 University Grants Committee-funded universities to meet with officials of the Ministry of Education and the Beijing Municipal Education Commission to exchange views on higher education	2	4,860	23,240	3,703	31,803

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommodation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
6 June 2017	Shenzhen	To attend and give opening remarks at the Annual Meeting of Guangdong-Hong Kong-Macau University Alliance cum Presidents' Forum, and to visit the Cross-boundary Students Service Centre in Shenzhen to meet with parents of Hong Kong children and learn about updates on the schooling and living of the students	3	No expenses as no overnight stay	No air passage (by car)	7,646	7,646
13 to 16 June 2017	Myanmar	To have a meeting with the Union Minister of Education of Myanmar, at which both sides agreed to follow up on and finalise a memorandum of understanding on education co-operation, with a view to providing a foundation for further co-operation on the education front	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	1,459 (The expenditure covers departure tax, passenger security charge and airport construction fee; the flight ticket was redeemed with flight award)	16,841	18,300
16 & 17 June 2017	Macau and Zhuhai	To meet with local education officials to deliberate on ways to enhance education co-operation through the development plan for a city cluster in the Guangdong-Hong Kong-Macao Bay Area	2	2,430	No air passage (by ferry)	4,645	7,075
22 June 2017	Shenzhen	To lead a delegation of representatives of school sponsoring bodies in a site visit to Shenzhen to explore opportunities for promoting education co-operation and student learning of the two places	2	No expenses as no overnight stay	No air passage (by car)	6,960	6,960

(2) From 1 July 2017 to 8 March 2019

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
18 to 20 September 2017	Beijing	To attend a working meeting with officials of the Ministry of Education, and to pay courtesy calls on the Hong Kong and Macao Affairs Office of the State Council and the Beijing Municipal Education Commission	-	3,240	4,256	2,730	10,226
21 to 25 January 2018	United Kingdom	To speak at the Education World Forum and hold bilateral meetings with individual education ministers attending the Forum, to visit the Department for Education of the UK, Chartered College of Teaching and British Council, to visit the British Educational Training & Technology Show, and to meet with Hong Kong teachers who were on study tour in UK	2	32,639	160,508	12,292	205,439
29 March 2018	Shenzhen	To attend the Establishment Ceremony of the Harmonia College of the Chinese University of Hong Kong, Shenzhen	-	-	-	-	[Travelling expenses borne by the Constitutional and Mainland Affairs Bureau]
20 to 22 June 2018	Beijing	To attend a regular working meeting with the Ministry of Education, to visit a local secondary school and a local university, and to meet Hong Kong young people who were pursuing tertiary studies or working in Beijing	1	6,541	10,800	5,000	22,341

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	(C) Other expenses ($) (Note 4)	Total expenditure incurred by SED & official entourage from SED's Office ($) (A)+(B)+(C)
26 July 2018	Huizhou	To meet with education officials of the Huizhou Municipal Government to explore co-operation opportunities in education	1	No expenses as no overnight stay	No air passage (by car)	2,400	2,400
29 August 2018	Zhuhai and Zhongshan	To meet with officials of the Zhuhai Education Bureau and the Zhongshan Education and Sports Bureau to explore co-operation opportunities in education between Hong Kong and the two municipalities under the development of the Greater Bay Area	2	No expenses as no overnight stay	No air passage (by ferry)	1,230	1,230
28 September to 1 October 2018	Beijing	To attend the exchange activities of the National Day Delegation from the Educational Sector of Hong Kong 2018	1	15,000	16,116	5,960	37,076
28 to 30 October 2018	Hangzhou and Ningbo	To attend the Ningbo-Hong Kong Education Co-operation Forum 2018, to meet with officials of Zhejiang Province, Hangzhou and Ningbo, and to visit various education organisations	1	7,907	8,142	1,821	17,870
4 December 2018	Guangzhou	To attend the Guangdong-Hong Kong Sister School Contract Signing Ceremony 2018	1	No expenses as no overnight stay	No air passage (by high speed rail)	972	972
22 January 2019	Zhuhai	To visit a higher education institution, looking into the participation of Hong Kong's universities in higher education development in the Guangdong-Hong Kong-Macao Greater Bay Area	1	No expenses as no overnight stay	No air passage (by car)	2,500	2,500

Notes:

(1) The Secretary for Education would meet local students from Hong Kong where possible.

(2) Hotel accommodation was provided in accordance with the relevant Civil Service Regulations and guidelines.

(3) Proper class of passages was provided in accordance with the relevant Civil Service Regulations and guidelines, taking into account such factors as rank of post, flying time, flight schedule and details.

(4) Other expenses include overseas subsistence allowance and other incidental expenses related to the duty visits outside Hong Kong. Subsistence allowance was provided in accordance with the relevant Civil Service Regulations and guidelines, which is intended to cover, inter alia, the cost of accommodation, meals and in-town transport.

- End -

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The legislation of the National Anthem Bill ("the Bill") is in progress. The Bill also contains provisions of and penalties for insulting the national anthem. In this connection, would the Administration advise this Committee of the following:

1. The amount of resources allocated by the Education Bureau (EDB) to support the local legislation to implement the National Anthem Law.

2. What has been done by the EDB in relation to enhancing the sense of national identity, reviewing the curriculum and administrative arrangements, and updating the learning and teaching resources so as to support schools in the effective implementation of Constitution and Basic Law education? What are the details of the allocation of resources?

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 53)

Reply:

1. The learning contents of the national anthem have already been incorporated into the local subject curricula (such as General Studies at the primary level and Music at the primary and secondary levels) and in Moral, Civic and National Education. The Education Bureau (EDB) has all along been providing support measures (e.g. arranging learning activities for students, providing professional development programmes for school heads and teachers, and developing learning and teaching resources etc.) to meet the needs of curriculum development of different subjects/themes. The relevant expenditure is subsumed under the recurrent expenditure of the EDB. To support the implementation of the National Anthem Bill, the EDB will supplement and update learning and teaching resources in a timely manner to support the learning and teaching of the National Anthem in primary and secondary schools. As curriculum development is an integral part of day-to-day work of the EDB, the reservation of additional expenditure is not required.

2. The EDB has all along been helping students to develop a correct understanding of the Constitution and the Basic Law, the origin of the principle of "one country, two systems" and their relevance to the daily lives of the people of Hong Kong through relevant curricula, learning and teaching resources and various learning activities.

The curricula of certain subjects (such as General Studies at the primary level and Chinese History, History, Life and Society, and Liberal Studies at the secondary level) have covered contents of national development which enable students to understand Hong Kong's relationship with our country, cultivate in them a sense of national identity and enhance their recognition of their national identity. In addition, a diverse range of strategies have been deployed to enhance students' understanding of the Constitution and the Basic Law. Apart from including concepts of the Basic Law and "one country, two systems" in the curricula of the aforementioned subjects, the EDB has also developed learning and teaching resources, such as Basic Law online courses. Besides, the EDB has developed a "Constitution and the Basic Law" module, which was uploaded onto EDB's website for use by schools in June 2017. The EDB has developed the Planning and Self-evaluation Tool for Basic Law Education for schools' reference in evaluating the implementation of Basic Law education in schools, and introduced into professional training programmes for principals, middle managers and teachers elements of the Constitution and the Basic Law to elaborate on the constitutional status of the Basic Law.

As reviewing the curricula and administrative arrangements, updating resource materials, and promotion of the Constitution and the Basic Law to students and teachers are EDB's day-to-day curriculum development work, the relevant expenditure is subsumed under its recurrent expenditure.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

With the prevalence of social media use, children are increasingly exposed to fast-spreading internet phenomena such as the Blue Whale Challenge in 2017 and the recent Momo Challenge which can cause adverse psychological effects in children who encounter them. In this connection, please inform this Committee of the following:

1. Will additional resources be allocated to combat internet crimes against children? If yes, what are the details? If no, what are the reasons?

2. Internet use has become increasingly widespread among youngsters and children and many of them have become targets of cyberbullying. Has the Education Bureau (EDB) conducted any study in this regard and developed teaching materials in support of the schools in counselling students? If yes, what are the details? If no, what are the reasons? Has the EDB worked with other government departments, such as the Security Bureau and Department of Justice, to strengthen education on the proper use of media?

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 54)

Reply:

1. & 2.

The Education Bureau (EDB) is very concerned about the healthy development and safety of students. It also attaches great importance to helping students exercise self-discipline and prudence so that they can use information technology and social media properly and lead a healthy lifestyle. To safeguard teenagers from the influence of games that propagate incorrect or improper messages, we are committed to instilling in students positive values and a correct outlook on life, as well as developing their information literacy and enhancing their awareness of cyber security.

In respect of curriculum, the framework "Information Literacy for Hong Kong Students" was updated in late 2016 to equip students with the skills for the proper use of information technology. Relevant learning elements, including ethical use of the Internet as well as prevention of Internet addiction and cyberbullying, have been incorporated into the related subjects at the primary and secondary levels as well as the curriculum framework of moral and civic education. Schools also plan their school-based curricula and activities accordingly. In addition, the EDB continuously provides support for schools, such as producing various learning and teaching resources based on life events to help teachers raise students' awareness of cyber security and proper attitude, and cultivate in students the habit of using smart phones safely. Besides, professional training programmes are organised for principals and teachers to better equip them with relevant knowledge and skills. To further support teachers to develop students' information literacy and proper attitude in using information technology, the EDB has produced the "Smart e-Master" Information Kit on e-Learning in 2018, which covers topics like how to handle cyberbullying.

As for school activities, starting from the 2011/12 school year, the EDB has launched the Harmonious School – Anti-bullying Campaign. Teaching resources (covering resource packages, lesson plans, suggested activities, etc.), an anti-bullying charter and promotion materials are provided for schools for organising their own Anti-bullying Day/Week, with the aim of guiding students to an empathetic understanding of the impact of bullying (including cyberbullying) on others and its possible consequences, thus raising their anti-bullying awareness. Every year, we organise student workshops on cyber traps and related legal concerns to enable students to cope with cyberbullying and cyber traps and to promote internet safety and awareness of anti-bullying. In recent years, the EDB has also launched the Harmonious School Net and the Wise NET School Recognition Scheme for inter-school sharing of information and successful experiences, with a view to minimising the occurrence of bullying incidents.

Moreover, we encourage parents to pay more attention and provide appropriate guidance to prevent their children from being affected by temptations because of immaturity or even being tempted to break the law. Through organising seminars, we help parents develop proper attitude of their children in using information technology in daily life and study. A telephone hotline has also been set up to provide individual support for parents, teachers and students in need.

At the same time, the EDB has proactively collaborated with other government departments to strengthen the work in preventing and combating cybercrime. Since 2007, the Office of the Government Chief Information Officer (OGCIO) has been collaborating with professional organisations to organise school visits to raise awareness in cyber security among students and teachers and promote proper use of Internet. Response from the schools are positive. OGCIO reached out to more than 9 100 and 7 200 students and teachers in the 2017/18 and 2018/19 (as of February 2019) school years respectively to convey messages about cyber security and proper use of Internet. The Hong Kong Police Force (HKPF) has all along drawn teenagers' attention to the prevention of and fight against crime through its Police School Liaison Programme and other promotion activities to protect them from becoming victims of crime, including various types of cyber crimes. At present, the HKPF has a total of 117 dedicated School Liaison Officers across 21 police districts. The EDB has also been assisting in the promotion of relevant activities and competitions organised by the Cyber Security and Technology Crime Bureau of the HKPF,

the OGCIO and the Hong Kong Computer Emergency Response Team Coordination Centre so as to enhance students' awareness of cyber security.

The EDB from time to time invites experts to share their research findings and insights about cyberbullying and give professional advice on the production of teaching materials and formulation of support strategies. The Government will continue to enhance teenagers' abilities in the proper use of information technology through education and inter-departmental collaboration, so as to protect them from any involvement in cybercrime. The EDB will keep in view the prevailing educational and preventive work and enhance the provision of relevant resources when appropriate.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3475)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education,
(8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

University is a diverse community where students are free to express their views, and one of the ways to do that is to write on the "Democracy Walls". However, there have been a number of controversies surrounding the management of "Democracy Walls" of tertiary institutions in recent years. In some cases, students descended on the university president's office and got into a physical altercation with the staff, which was sad and disheartening. In this connection, please inform this Committee of the following:
1. What is the amount of resources allocated by the Government for developing various teaching resources for the promotion of "One Country, Two Systems" and the "Basic Law"?
2. Will the Government allocate resources to help schools deal with the emergence of or the act of posting posters proclaiming Hong Kong independence in campus?

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 55)

Reply:

The Education Bureau (EDB) respects post-secondary institutions' autonomy in curriculum design and encourages them to help students acquire a full and accurate understanding of the Basic Law and "One Country, Two Systems", thus boosting their sense of national identity. At present, faculties and research centres of various universities have been organising a wide array of public lectures, seminars and workshops in relation to the Basic Law, governance and politics, and national education. In addition, many institutions offer general education and interdisciplinary courses to increase students' understanding of how the government operates under the Basic Law framework. Universities may continue to make full use of their resources to carry out promotion, education and research, as necessary, on various topics including the Basic Law and "One Country, Two Systems".

It has all along been the EDB's stance that there is no place for any proposals or activities advocating "Hong Kong independence", especially on our campuses. We also request the education sector to guard against "Hong Kong independence" activists from infiltrating into our campuses. We have all along maintained communication with the education sector on various matters and offer them support and advice as and when necessary. In fact, the education sector has gained considerable experience over the years in handling politicised incidents with appropriate responses, demonstrating professionalism in ensuring that students can study in a safe and orderly environment, are taught professionally and are offered counselling as needed. The EDB believes that post-secondary institutions have the responsibility as well as the ability to deal with incidents on their campuses properly while looking after their students' interests.

As regards University Grants Committee (UGC)-funded universities, the bulk of recurrent grants to these universities are in the form of a block grant based on the approved student numbers allocated to universities. As the expenditure for individual education themes are subsumed under the block grant to the universities, a breakdown is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4615)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Concerning the support for students who are deaf and hearing impaired, please advise this Committee of the following:

1. the amount of funding provided for the Lutheran School for the Deaf and the number of students admitted to this school in each of the past 5 years;

2. the number of deaf and hearing impaired students admitted to mainstream government and aided primary schools and the number of primary schools that provided sign language interpretation service for deaf and hearing impaired students in each of the past 5 years;

3. the number of deaf and hearing impaired students admitted to mainstream government and aided secondary schools and the number of secondary schools that provided sign language interpretation service for deaf and hearing impaired students in each of the past 5 years;

4. the number of deaf and hearing impaired students admitted to tertiary institutions in each of the past 5 years (with a breakdown by sub-degree and undergraduate programmes);

5. the measures to support deaf and hearing impaired students admitted to mainstream primary and secondary schools and the expenditure involved;

6. whether schools are subsidised in their provision of sign language interpretation service for deaf and hearing impaired students; if yes, the details of subsidisation (including the measures, amount of funding involved, etc.); if no, the reasons; and

7. whether the Government will consider making it compulsory for schools to provide the sign language interpretation service for needy students who are deaf and hearing impaired.

Asked by: Hon LEUNG Yiu-chung (LegCo internal reference no.: 1203)

Reply:

1.
The Education Bureau (EDB) will, subject to the assessment and recommendations of specialists and the consent of parents, refer students who have severe or profound hearing impairment (HI) or those who cannot construct knowledge due to inadequate speech ability owing to HI to the school for children with HI (HI school). The annual expenditure of and the number of students enrolled in HI schools (including the Lutheran School for the Deaf (LSD)) in the past 5 years are set out in Tables 1 and 2 of the Appendix. With the full mainstreaming of the other HI school in the 2018/19 school year, the LSD has become the only HI school in Hong Kong.

2, 3, 6 & 7.
Students with HI who can benefit from mainstream schooling will be admitted to mainstream primary and secondary schools. The number of students with HI enrolled in public sector mainstream primary and secondary schools in the past 5 school years is set out in Table 3 of the Appendix. Schools should pool together, and flexibly deploy and utilise various resources, such as the Learning Support Grant, to cater for the specific needs of students with special educational needs (SEN), including the provision of sign language support for students with HI when necessary by, for example, employing teaching assistants who know sign language to assist students with HI in learning. Specifically, if schools consider it necessary to provide sign language supported teaching for students with HI, they should have thorough consideration and planning in the aspects of allocation and utilisation of resources, the capabilities of teachers and students in using sign language, curriculum adaptation, etc. At the same time, the EDB has all along been encouraging teachers to adopt the most appropriate modes in teaching and communicating with students with HI, including using oral language with the aid of visual strategies, environmental cues, body language, written text, gestures, sign language, etc., having regard to the abilities and needs of these students. Sign language interpretation is not equivalent to using sign language supported teaching, and it is not a definite approach in helping students with HI to learn. Different students with HI have different needs and the same student may have varying needs in different stages. We have not compiled the statistics on the number of schools that provide sign language interpretation services.

4.
The number of students with HI enrolled in full-time locally-accredited sub-degree and undergraduate programmes in the past 5 school years is set out in Table 4 of the Appendix.

5.
To help public sector mainstream schools cater for students with SEN (including students with HI), the EDB, on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. Schools should pool together and deploy these school-based resources flexibly to cater for the specific needs of students. For students with HI, the EDB has been providing free hearing aids and related audiological services for those in need. Schools may also apply for the Top-up Fund for them to procure wireless transmission systems for enhancing their speech perception effectiveness. The EDB would also refer students with HI in need of additional support to the "Enhanced Support Service for Students with HI". Under this scheme, when necessary, resource teachers who are providing the service will use sign language to assist the learning of the students concerned and exchange experience with school teachers of students with HI on how to use sign language to assist teaching. Regarding the development of using sign language supported teaching, the EDB has been maintaining close partnership with the LSD in implementing various projects on "Sign-assisted Instruction", which include developing an electronic LSD Visual Sign Language Dictionary, organising systematic training on sign language in the school as a means to strengthen teachers' and specialists' capacity in using sign language in order to enhance learning and teaching effectiveness. To enhance the professional capacity of teachers in catering for students with diverse needs (including HI), since the 2007/08 school year, the EDB has been providing serving teachers with relevant and structured training courses pitched at Basic, Advanced and Thematic levels. Starting from the 2012/13 school year, elective modules on sensory, communication and physical needs, which cover the knowledge and skills necessary for taking care of students with HI, have been included in the Advanced and Thematic Courses. The EDB also organises workshops and seminars and implements school-based support programmes from time to time to enhance teachers' knowledge and understanding of students with HI and equip them with strategies of enhancing the listening, communication and learning abilities of students with HI. The EDB has also developed various resource packages for teachers' reference and use, such as the "Resource Package on School-based Support for Students with Hearing Impairment", the "Resource Package on Communication Strategies for Students with Hearing Impairment" and the "Resource Package on Lexicon Learning for Students with Hearing Impairment".

Schools will deploy various resources holistically and flexibly to provide support for students with SEN according to their individual circumstances, rather than their corresponding SEN types. In addition, certain sub-items of expenditure (e.g. teacher training) are for the support services for students with SEN as a whole, irrespective of their SEN types or the tier of support. Therefore, we cannot list out the sub-items of the corresponding expenditure specifically in supporting students with HI. The annual expenditure on additional support and services for students with SEN in the past 5 school years is set out in Table 5 of the Appendix.

Appendix

Table 1

Annual Expenditure on Schools for Children with Hearing Impairment (including the Lutheran School for the Deaf)

Financial Year	**2014-15**	**2015-16**	**2016-17**	**2017-18**	**2018-19** (as at 28 February 2019)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4394)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the respective number of non-Chinese speaking (NCS) students studying in local primary, secondary and special schools, and the percentage of NCS students among all students of individual schools in the past 3 school years, with a breakdown by district, ethnicity and school type.

Asked by: Hon LUK Chung-hung (LegCo internal reference no.: 29)

Reply:

As the ethnicities of non-Chinese speaking (NCS) students can be categorised into at least 10 types, the composition would be highly complicated if the number of NCS students is presented by ethnicity, district, school type and percentage of NCS students among all students in individual schools. Hence, figures on ethnicities of NCS students are set out separately. Moreover, the planning of special schools is not on a district basis. As the number of students admitted to special schools is relatively small, the number of NCS students in special schools is even smaller. We have not compiled statistics on the number of NCS students in special schools by district. The number of NCS students studying in public sector ordinary and Direct Subsidy Scheme (DSS) primary and secondary schools by district from the 2016/17 to 2018/19 school years is tabulated at Annex A, and the total number of NCS students studying in special schools in the respective school years is 367, 390 and 401.

The number of NCS ethnic minority students studying in public sector ordinary and DSS primary and secondary schools as well as special schools by ethnicity from the 2016/17 to 2018/19 school years is tabulated at Annex B. The two sets of data set out in Annex A and Annex B are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

The number of NCS students studying in public sector ordinary and DSS primary and secondary schools as well as special schools disaggregated by their percentage share among all students in individual schools from the 2016/17 to 2018/19 school years is tabulated at Annex C.

Annex A

Number of non-Chinese speaking (NCS) students in ordinary primary and secondary schools by district from the 2016/17 to 2018/19 school years

	2016/17 School Year		2017/18 School Year		2018/19 School Year	
District	**Primary Schools**	**Secondary Schools**	**Primary Schools**	**Secondary Schools**	**Primary Schools**	**Secondary Schools**
Central and Western	631	144	656	174	695	185

(Question Serial No. 3666)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. What are the numbers of Hong Kong students attending higher education institutions in Mainland and those who have returned to Hong Kong to work or pursue further study (postgraduate programmes) upon graduation in the past year?

2. What is the number of applications submitted by holders of Mainland qualifications to the Hong Kong Council for Accreditation of Academic and Vocational Qualifications for qualifications assessments, and the percentages of the qualifications concerned that were assessed as comparable and not comparable to the level of their counterparts in Hong Kong in the past year?

3. What is the latest progress in enhancing mutual recognition and articulation of professional qualifications (such as medical practitioners, Chinese medicine practitioners, dentists, pharmacists, rehabilitation therapists, nurses, specialists, architects, accountants and social workers) between Hong Kong and Mainland?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 31)

Reply:

1. The Government does not maintain records of the number of Hong Kong students pursuing studies in the Mainland and those who have returned to Hong Kong to work or pursue further study upon graduation. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying in Mainland post-secondary institutions and research institutes was 15 180 as at November 2017.

2. In 2018-19 (as at 28 February 2019), the number of qualifications assessments made by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications in response to applications submitted by holders of Mainland qualifications is 1 072, in which all qualifications concerned were assessed as comparable to the level of their counterparts in Hong Kong.

3. Hong Kong and the Mainland are committed to enhancing mutual recognition of professional qualifications and the access of Hong Kong professional services to the Mainland market under the framework of the Mainland and Hong Kong Closer Economic Partnership Arrangement (CEPA). The Government also encourages professional bodies of both sides to pursue mutual recognition of professional qualifications and to foster exchanges among professional and technical talents. In respect of the professions mentioned, the latest development is summarised below:

Medical and Health Sector

At present, there is no mutual recognition for Medical and Health Sector between Hong Kong and the Mainland. Specialist doctors (including medical practitioners, Chinese medicine practitioners and dentists) who are Hong Kong permanent residents with Chinese citizenship are allowed to apply for and obtain the Mainland's "medical practitioner's qualification certificates" through accreditation. On the other hand, eligible registered medical practitioners, Chinese medicine practitioners, dentists and pharmacists may sit the Mainland's qualification examination. Furthermore, 12 types of statutory healthcare professionals (namely medical practitioners, Chinese medicine practitioners, dentists, pharmacists, nurses, midwives, medical laboratory technologists, occupational therapists, optometrists, radiographers, physiotherapists and chiropractors) who are registered to practise in Hong Kong are allowed to provide short-term services in the Mainland without the need to sit the examinations in the Mainland. Under the Agreement on Trade in Services signed under the framework of CEPA, Hong Kong permanent residents are allowed to apply for registration as practising pharmacists in accordance with the relevant Mainland's regulations.

Architects / Construction Sector

Estate Surveyors, Architects, Structural Engineers, Planners, Quantity Surveyors and Building Surveyors have reached mutual professional recognition agreements.

Accountant

Under the framework of CEPA, qualified members of the Hong Kong Institute of Certified Public Accountants enjoy exemption from certain examination papers when they apply for Mainland's certified public accountant uniform examination.

Social Worker

The Social Workers Registration Board, which is a statutory body, is responsible for matters related to the recognition of qualifications and registration of social workers in Hong Kong.

Question:

The Mainland University Study Subsidy Scheme (MUSSS) has been launched since the 2014/15 academic year to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions. Starting from 2017, the Education Bureau (EDB) has introduced a non-means-tested subsidy under the MUSSS. In this connection, would the EDB advise this Committee of:

a. the number of students passing the means test in the 2018/19 academic year (with a breakdown by full-rate subsidy and half-rate subsidy);

b. the number of students receiving non-means-tested subsidy in the 2018/19 academic year; and

c. the total expenditure on the MUSSS in the 2018/19 academic year.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 35)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions. Students having passed a means test will receive either a full-rate subsidy or a half-rate subsidy ("means-tested subsidy") per academic year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions. In

addition, a "non-means-tested subsidy" is introduced under MUSSS starting from the 2017/18 academic year, and eligible students will be granted a flat-rate subsidy per academic year. The amount of subsidy will be reviewed and adjusted as appropriate. For the 2018/19 academic year, the full-rate subsidy and half-rate subsidy of the "means-tested subsidy" are $16,800 and $8,400 respectively. The "non-means-tested subsidy" offers $5,600.

In the 2018/19 academic year (as at 28 February 2019), a total of 3 124 students (including both newly-approved applications and renewals) have been granted subsidy, among them 1 857 students have been granted full-rate "means-tested subsidy", 661 students half-rate "means-tested subsidy", and 606 students flat-rate "non-means-tested subsidy". The total estimated expenditure for the 2018/19 academic year is about $42 million. To cope with the additional workload arising from the implementation of the MUSSS, the Education Bureau (EDB) and the Working Family and Student Financial Assistance Agency (WFSFAA), in addition to making use of existing resources, have created civil service posts, namely 3 of Executive Officer Grade and 7 of Clerical Officer Grade. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA.

Question:

The Scheme for Subsidy on Exchange for Post-secondary Students (SSE) and the Scheme for Subsidy on Exchange to Belt and Road Regions for Post-secondary Students (SSEBR) were launched in January 2015 and July 2016 respectively to subsidise the participation of needy local post-secondary students in exchange activities outside Hong Kong. Regarding the schemes, please provide the following information:

1. the eligibility criteria the SSE and SSEBR adopt for funding the exchange programmes;

2. in the past 2 academic years or subsidised periods, the number of participating institutions, the number of applications received, the number of students receiving the subsidy, the number of activities approved, and the amount of grant approved (by institution); and

3. further to the above question, based on the number of students receiving the subsidy, please list the top 10 destinations of exchange activities and the amount of grant of the schemes, with a breakdown by subsidised period.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 36)

Reply:

1. To ensure that no post-secondary students will be denied access to exchange activities due to a lack of financial means, the Education Bureau (EDB) has introduced the Scheme for Subsidy on Exchange for Post-secondary Students (SSE) since January 2015. Subsequently, the Scheme for Subsidy on Exchange to "Belt and Road" Regions for Post-secondary Students (SSEBR) was launched by the EDB in July 2016 to encourage and support local students in need to go on exchanges in the "Belt and Road" regions.

The eligible exchange activity under the above schemes must last for at least 2 weeks (applicable to SSE) or 5 days (applicable to SSEBR), and must be an outbound activity comprising substantive teaching and learning elements organised and/or endorsed by the participating institution. The participating institutions are required to process each application according to the operating guide issued by the EDB.

2. Information on the participating institutions of the SSE and SSEBR, and the number of students receiving the subsidy and the amount of subsidy granted for each of the participating institutions in the past 2 subsidised periods are respectively set out in **Annex A** and **Annex B**. The participating institutions are not requested by the EDB to provide the numbers of student applicants and activities approved under these two schemes annually.

3. In the past 2 subsidised periods, the top 10 destinations of exchange activities, ranked by the number of visiting students under the SSE, are the United Kingdom, the United States of America, Korea, Canada, Germany, Australia, the Netherlands, Sweden, Japan and France. As for the SSEBR, the top 10 destinations of exchange activities, ranked by the number of visiting students, are Mainland China, Taiwan, Korea, Singapore, the Czech Republic, Russia, Poland, Hungary, Cambodia and Thailand. For both the SSE and the SSEBR, the subsidy amount varies according to the destination and duration of the exchange activity, and subject to adjustment by the level of student finance approved by the Student Finance Office.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3670)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Government has regularised the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland, under which each participating school will receive a grant of $150,000 per annum. The additional annual expenditure is estimated to be around $170 million. In this connection, please inform this Committee of:

1. the respective number and list of primary and secondary schools in receipt of the grant, the names of their Mainland counterparts, the professional support provided and the number of participating school personnel and students in the 2016/17, 2017/18 and 2018/19 school years;

2. the Education Bureau mentioned that it would commission an independent consultant to conduct an overall review on the effectiveness of the Pilot Scheme in the 2017/18 school year. What are its scope, methodology, evaluation criteria and results of this review?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 39)

Reply:

1. The Education Bureau (EDB) launched the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme) from the 2015/16 to 2017/18 school years, under which a fixed grant of $120,000 per annum and professional support were provided for each local public sector and Direct Subsidy Scheme (DSS) school (including special school) that has formed sister schools with its counterparts in the Mainland to support the multifaceted development of sister school activities. The number of schools participating in the Pilot Scheme and the number of teachers' and students' participation in exchange activities in the 2016/17 and 2017/18 school years are tabulated below:

School year	Secondary school	Primary school	Special school	Total no. of schools	No. of teachers' participation in exchange activities*	No. of students' participation in exchange activities *
2016/17	223	228	20	471	9 960	41 680
2017/18	250	260	25	535	12 410	56 870

* Figures are rounded to the nearest ten.

The EDB has regularised the Pilot Scheme with effect from the 2018/19 school year to provide a recurrent grant (which is set at $150,000 for the 2018/19 school year and the amount of grant will be adjusted in accordance with the movement of the Composite Consumer Price Index each year) for each local public sector and DSS school (including special school) that has formed sister schools with its counterparts in the Mainland. As at March 2019, 626 local schools have applied for the Grant for the Sister School Scheme. Applications are open all year round. It is anticipated that there will be about 700 participating primary, secondary and special schools in the 2018/19 school year. On top of the recurrent grant, we also provide participating schools with professional support, including organising exchange activities and sharing sessions, offering advice and assistance on exchange activities, and collecting and disseminating good practices. As a prevailing practice, we do not disclose the names of schools participating in the schemes and the relevant information to avoid possible labelling effect and unnecessary pressure on individual schools.

2. In the 2017/18 school year, the EDB commissioned an independent consultant to review the effectiveness of the Pilot Scheme for charting its way forward. As schools were generally positive about the Pilot Scheme and keen to know the post-Pilot Scheme arrangements as soon as possible, the EDB decided to regularise the Pilot Scheme starting from the 2018/19 school year and focus the review on identifying the successful outcomes of the Pilot Scheme and areas for improvement. The independent consultant collected views and data through questionnaire surveys, focus group discussions and in-depth interviews with relevant stakeholders. The independent consultant has completed the report. The review findings show that most responding schools were positive about the Pilot Scheme. They considered the Pilot Scheme useful in helping teachers and students gain a better understanding about the education in the Mainland, facilitating cultural interflows, expanding schools' network, enhancing teachers' professionalism and broadening students' horizons. In addition, a vast majority of responding schools supported the regularisation of the grant under the Pilot Scheme. As for the professional support, schools expected the EDB would strengthen support in different aspects, such as organising more sharing sessions. The EDB is examining in detail the review findings and recommendations to optimise the support for schools.

Director of Bureau: Secretary for Education

Question:

Regarding the Career and Life Planning Grant provided for secondary schools, please give the following information:

1. The expenditure involved and the number of school applied for the grant in the 2018/19 school year;

2. Further to item 1 above, the number of schools that have applied for converting the grant into regular teaching posts in the 2018/19 school year; and

3. The findings of the Education Bureau's review of the implementation of life planning education.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 43)

Reply:

1. & 2. Since the 2014/15 school year, the Education Bureau (EDB) has been providing each public sector school and Direct Subsidy Scheme (DSS) school operating classes at senior secondary levels with a recurrent Career and Life Planning Grant (CLPG) ($610,000 for the 2018/19 school year). Starting from the 2016/17 school year, eligible public sector schools are given the option to convert the CLPG into regular teaching posts. For DSS schools, the expenses in relation to the grants and the regular teaching posts provided under this initiative have been incorporated in the DSS unit subsidy rate. In the 2018/19 school year, 136 eligible public sector schools continue to receive the CLPG, while 308 schools have converted the CLPG into regular teaching posts. The expenditure on the CLPG is $83 million. The expenses incurred in converting the CLPG into regular teaching posts are subsumed under the EDB's recurrent expenditure and no breakdown is available.

3. Since the implementation of Life Planning Education (LPE) in the 2014/15 school year, the EDB has been monitoring the implementation of LPE at schools through questionnaire surveys and advisory school visits. It is noted that schools in general have utilised the CLPG properly in acquiring additional manpower or hiring related services to strengthen LPE services. To consolidate the experience gained from implementing LPE and map out the way forward, the EDB commissioned the Education University of Hong Kong in 2017 to conduct a review on the effectiveness of LPE, the implementation of the LPE policy, and the benefits of the Business-School Partnership Programme (BSPP) on students. The review showed that the implementation of LPE in local secondary schools has reaped initial success. By establishing well-defined organisational structures and school-based policies, schools are gradually gaining the support of teachers, students and parents in the promotion of LPE. In parallel, BSPP has received much support from schools and BSPP partners. It is valued by schools as one of the important resources in the promotion of LPE and well recognised by teachers and students too. Nevertheless, even though students can access relevant information (for example, information on employment and further studies, knowledge of different industries, etc.) through LPE activities, they have yet to master the skills for long-term life planning. Besides, the overall participation rate of students and parents in LPE activities was low. The EDB will study the review findings and recommendations carefully, with a view to enhancing the existing measures and strengthening the support for the implementation of LPE in schools.

Question:

The Learning Support Grant for public sector secondary schools covers students with mental illness starting from the 2017/18 school year. In this connection, please answer the following questions:

1. What were the expenditures involved and the numbers of student beneficiaries in the 2017/18 and 2018/19 school years?

2. What are the estimated expenditure involved and the number of student beneficiaries in the 2019/20 school year?

3. Is the Education Bureau aware of how schools have been using the additional resources to support students with mental illness?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 44)

Reply:

1 to 3

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing all mainstream schools with additional resources on top of the regular subvention, including the Learning Support Grant (LSG). Starting from the 2017/18 school year, the LSG covers students with mental illness (MI) so that schools will have additional resources to enhance support to cater for these students' learning, social, emotional and behavioural needs. The LSG is calculated on the basis of the number of students with SEN and the tier of support the students require. Basing on the principle of "calculation on individual basis and deployment holistically", schools should pool and deploy the LSG and other school resources flexibly and holistically to render support for students with SEN according to individual conditions and needs, such as employing additional teachers or teaching assistants or hiring professional services.

Based on the position of September of every school year, the EDB compiles statistics on the number of students with SEN of the respective school year. Since public sector mainstream schools have yet to provide the EDB with information about students with MI as in September of the 2017/18 school year for the calculation of the LSG, the EDB is unable to provide the number of students with MI in that school year (i.e. as in September). Based on the computation of the number of school applications for LSG approved by the EDB at the end of the first term in the 2017/18 and 2018/19 school years, the number of primary and secondary school students with MI as the major type of SEN is around 470 and 800 respectively. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

As the expenditure involved in providing public sector mainstream secondary schools with the LSG to render support to students with MI is subsumed under the overall expenditure of the LSG, a separate breakdown is not available. For the 2017/18 school year, the expenditure on the LSG for public sector mainstream secondary schools was around $310 million. The revised estimated expenditure on the LSG for the 2018/19 school year is around $340 million, and the estimated expenditure for the 2019/20 school year is around $260 million.

In utilising the LSG to support secondary students with MI, schools, in general, will employ additional staff, e.g. teaching assistants to assist teachers in designing learning activities and materials as well as supporting students in classroom learning activities, hire professional support or guidance services (e.g. behavioural or emotional counseling and social training at school) in order to help students adjust to campus life. Schools will also use the LSG to implement school-based teacher training and parent education, etc.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies, measures and deployment of resources (including the support for students with SEN) through self-evaluation every year. As required by the EDB, schools should submit an annual self-evaluation report, which is validated through External School Review by the EDB, on the implementation of the Whole School Approach to integrated education to the EDB at the end of a school year. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. When using Government subventions (including the LSG), all public sector schools are required to adopt an effective monitoring system, maintain proper records and conduct periodic review. Professional staff from the EDB will review the support provided by schools for students with SEN and offer professional advice whenever necessary during school visits in order to ensure that the support services can address the needs of students with SEN (including students with MI). It should be noted that students diagnosed with MI should receive treatment in strict accordance with the instructions given by healthcare professionals. On the part of schools, subject to the consent of the parents, teachers may use the LSG or other resources to provide professional support, with a view to helping the students concerned to cope with the learning and personal growth challenges that the illness brings to them.

Question:

Regarding the implementation of Learning Support Grant (LSG), please advise of:

1. the number of students requiring tier-2 and tier-3 support, the amount of subsidy per student and the total expenditure in the 2018/19 school year;

2. the number of schools with LSG clawed back by the Education Bureau (EDB) and the amount involved in the 2016/17 and 2017/18 school years;

3. further to the above question, whether the Administration has looked into the reasons for schools' not optimising the use of LSG and offered recommendations for improvement; if yes, of the details; and

4. how the EDB assesses the effectiveness of LSG?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 45)

Reply:

1. to 4.

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention for all mainstream schools, has been providing public sector schools with additional resources, including the Learning Support Grant (LSG). In the 2018/19 school year, the grant per year per student requiring tier-2 and tier-3 support has been increased to $14,322 and $28,644 respectively, and the basic provision per school per annum for the first 6 students requiring tier-3 support has also been raised to $171,864. The EDB has revised its estimated expenditure on LSG for the 2018/19 school year to around $650 million. The tier of support for students with SEN

may require upward or downward adjustment from time to time according to the performance of the students and the distribution of students under the 3-tier Intervention Model may change accordingly. Based on the LSG data, the distribution of public sector mainstream primary and secondary schools eligible for LSG by number of students with SEN requiring tier-2 and tier-3 support in the 2018/19 school year is set out at Appendices 1 and 2 respectively.

Public sector mainstream schools are encouraged to fully utilise the LSG allotted every year to cater for the needs of students with SEN. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (applicable to aided and caput schools) or financial year (applicable to government schools), the excess surplus will be clawed back. To our understanding, the underspending of individual schools and hence the clawback of surplus at the end of a specific school year/financial year are due to some unexpected difficulties, e.g. time required for employment of additional staff longer than expected, early termination of contract by additional staff, difficulties in hiring appropriate professional services, etc.

Based on the audited information as at March 2019, there are 18 schools with LSG clawed back at the end of the 2016/17 school year (aided and caput schools)/2016-17 financial year (government schools), and the amount of LSG clawed back is around $800,000. As the amount to be clawed back from aided and caput schools for the 2017/18 school year will be confirmed only after the schools' submission of audited accounts by the end of February 2019 and verification by EDB, we are unable to provide information on the clawback for the 2017/18 school year and beyond.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their support for students with SEN, as with other school policies and measures, through self-evaluation every year. The EDB also requires schools to submit to it an annual self-evaluation report, which is validated through External School Review by the EDB, on the implementation of the Whole School Approach to integrated education at the end of a school year. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. Furthermore, with our stepped-up efforts to monitor and remind schools of the optimal utilization of LSG, the surplus situation of LSG among schools has been improved in recent years. Various measures include providing schools with guidelines on deployment of LSG and clawback mechanism, conducting regular school visits to advise on the deployment of resources to support students with SEN, organising experience sharing activities among schools, and issuing reminders to individual schools to urge improvements in case of undesirable situation.

Starting from the 2019/20 school year, the EDB will extend the LSG to all public sector mainstream primary and secondary schools. Regular teaching posts and grant will be provided for schools based on their number of students with SEN and the tier of support these students require. The LSG grant rate for tier-3 support will also be increased multifold. The above arrangements are appropriate response to the mainstream views gathered from the sector during consultations, i.e. to provide schools with a more stable teaching force and additional resources for flexible deployment to support students with SEN. Under the new measures, schools admitting a comparatively large number of

students with SEN will be provided with additional regular teaching posts and sufficient LSG to arrange appropriate support services for students with SEN. Schools admitting fewer numbers of students with SEN can also deploy the LSG flexibly to cater for these students. It is expected that the enhanced provision of LSG will further improve the effectiveness of integrated education.

Distribution of public sector mainstream primary and secondary schools eligible for Learning Support Grant by number of students with special educational needs (SEN) requiring tier-2 support in the 2018/19 school year

No. of students with SEN requiring tier-2 support	No. of schools

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3675)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please provide the respective numbers and percentages of local students, non-local Chinese students and other non-local students studying in international schools (including those under the English Schools Foundation) in the 2018/19 school year, with a breakdown by primary, secondary and special education.

(2) Further to the above question, has the limit for local admissions (i.e. 30%) imposed by the Education Bureau (EDB) complied by every international school? If not, please provide a list of non-compliant schools and the percentage of local students in each of these schools.

(3) Under the existing mechanism, will the EDB take follow-up actions against international schools which have failed to comply with the EDB's limit for local admissions? If yes, what are the details? If no, what are the reasons?

(4) Please provide the numbers of school places and students in international schools (including those under the English Schools Foundation) in the 2016/17, 2017/18 and 2018/19 school years, with a breakdown by primary, secondary and special education?

(5) How does the Government regulate international schools operating on private lands? Are the regulatory measures applied to these schools the same as those governing international schools developed through the EDB's School Allocation Exercise?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 48)

Reply:

(1) The numbers of local and non-local students studying in international primary, secondary and special schools in the 2018/19 school year are tabulated at **Annex 1**.

(2) and (3) In the 2018/19 school year, the ratio of non-local students of 15 international schools is subject to a related requirement, ranging from 50% to 98%, under the respective service agreements (SAs) entered into between the schools and the Government following the allocation of vacant school premises (VSP) or greenfield site in question for international school development under School Allocation Exercises (SAEs). Under the prevailing policy, school sponsoring bodies (SSBs) allocated with school premises or sites by the Education Bureau (EDB) for such purpose are required to allocate at least 70% of the school places to non-local students. In the SAE conducted in 2014, favourable consideration was given to proposals accepting a higher proportion of non-local students. In case of breach of requirements in the SA by SSBs and schools (including failure to comply with the minimum percentage of non-local students to be enrolled as stipulated in the SA), the EDB will take follow-up actions, and has the right to terminate or refuse to renew the SA, or even re-enter the VSP or greenfield sites concerned. In addition, when discussing with the English Schools Foundation (ESF) in phasing-out arrangements of the recurrent government subvention for ESF schools in 2013, we have taken the opportunity to remind the ESF to continue to maintain their student mix of having no less than 70% of their overall student population being non-local students.

In the 2018/19 school year, non-local students accounted for 75.5% of the overall student population in the international school sector while local students accounted for 24.5%. When SSBs submitted their proposals for the SAE, they acknowledged and agreed that the information provided (including the proposed minimum percentage of non-local students to be enrolled) would only be used for the relevant SAE. We are therefore unable to disclose the requirement regarding the minimum percentage of non-local students to be enrolled by individual international schools. Nevertheless, among the aforementioned international schools which are subject to the requirement on the enrolment of local students, all of them have complied with the relevant requirement except two schools which have just commenced operation in the concerned premises last year and three schools which have commenced operation in the concerned premises in 2016 and 2017 respectively. We have reminded the relevant schools in writing to observe and comply with the requirements in their admission exercises in the following year, and will follow up on the implementation and effectiveness of the schools' improvement measures while continuing to closely monitor the situation.

(4) The numbers of school places and students in international primary, secondary and special schools from the 2016/17 to 2018/19 school years are tabulated at **Annex 2**.

(5) Under the EDB's prevailing policy, SSBs allocated with VSP and/or greenfield sites for international school development through SAEs are required to enter into an SA with the Government and agree to comply with a set of requirements in relation to the establishment of international schools. Apart from complying with the minimum percentage of non-local students to be enrolled, relevant schools are required to submit annual audited accounts to the Government, as well as proof of the school's recognition from a renowned accreditation

body, etc., to facilitate the EDB's monitoring of the financial situation and teaching quality of such schools.

SSBs which would like to establish an international school in Hong Kong without receiving allocation of VSP or greenfield sites through SAE should apply for registration as a private school first. After ensuring the school's compliance with the EDB's requirements in relation to the establishment of international schools (including allocating at least 70% of school places to non-local students, possessing proven track record in school operation and full accreditation from an established accreditation body, formulating a sustainable financial plan, etc.), an application could be made to the EDB for registering the school as an international school. A school must be registered as an international school before it may be named as an international school. The EDB will carefully assess the application materials submitted by the SSB, and will only consider approving the application after the EDB is satisfied that the school's operation and performance have fulfilled the requirements in relation to international schools. Detailed requirements regarding applications for establishment of an international school in Hong Kong are uploaded to the EDB's Thematic Website of International Schools for public access (https://internationalschools.edb.hkedcity.net/submit_an_application.php?lang=en).

At the same time, to ensure education quality, all international schools are required to comply with the requirements under the Education Ordinance (Cap. 279) and the Education Regulations (Cap. 279A). For example, the school premises must comply with the relevant buildings and fire safety requirements; teachers must obtain the prescribed qualifications and register with the EDB; and the tuition fees must be approved by the EDB.

Annex 1

Numbers of Local and Non-local Students (Chinese or Others) in International Primary, Secondary and Special Schools in the 2018/19 School Year (based on the Student Enrolment Survey conducted in September 2018)

Primary Schools

	Students	%
Local	5 866	25.8%
Non-local - Chinese	1 110	4.9%
Non-local - Others	15 744	69.3%
Total	**22 720**	**100.0%**

Secondary Schools

	Students	%
Local	3 987	22.8%
Non-local - Chinese	865	4.9%
Non-local - Others	12 626	72.2%
Total	**17 478**	**100.0%**

Special School

	Students	%
Local	13	18.8%
Non-local - Chinese	2	2.9%
Non-local - Others	54	78.3%
Total	**69**	**100.0%**

Notes:

(1) Local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region (HKSAR)) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport.

(2) Non-local Chinese students refer to students who hold Chinese nationality (e.g. Mainlanders, Macaoese and Taiwanese) and hold a passport other than the HKSAR Passport or the British National (Overseas) Passport. There is no further breakdown on the number of students with Chinese nationality.

(3) Figures of primary and secondary schools include students studying in the English Schools Foundation (ESF) schools and other private international schools but not the special school operated by the ESF.

(4) Figures of the special school refer to the special school operated by the ESF.

(5) Figures refer to the position as at September 2018.

(6) Percentages may not add up to total due to rounding.

Annex 2

Numbers of School Places and Students in International Primary, Secondary and Special Schools from the 2016/17 to 2018/19 School Years

	2016/17		2017/18		2018/19	
	School Places	Number of Students	School Places	Number of Students	School Places	Number of Students
Primary Schools	22 940	21 093	23 803	21 912	24 664	22 720
Secondary Schools	19 268	16 664	19 790	16 956	20 200	17 478
Special School	70	70	70	70	70	69

Notes:

(1) Figures refer to the position as at September of the respective school years.

(2) Figures of primary and secondary schools include students studying in the English Schools Foundation (ESF) schools and other private international schools but not the special school operated by the ESF.

(3) Figures of the special school refer to the special school operated by the ESF.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4699)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the 2018 School Allocation Exercise conducted by the Education Bureau, would the Government inform this Committee of:

(a) the details of allocated school premises in the table below;

District where the school premises are located	Location of school premises	Use of allocated school premises (e.g. operation of time-limited schools, operation of new schools, or reprovisioning of existing schools)	Vacant or new school premises	Organisation recommended for allocation

(b) the details of allocated new school premises in the table below;

Location of school premises	Area of school premises	Completion date of school premises	Construction cost of school premises

(c) the details of allocated vacant school premises in the table below.

Location of school premises	Area of school premises	Year in which construction of the school premises was completed	Year in which the school premises became vacant	Renovation cost of school premises

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 96)

Reply:

According to the Education Bureau's (EDB) prevailing school allocation mechanism, once a vacant/to-be-vacant premises or a reserved school site is confirmed to be required for allocation for school use, the EDB will normally invite applications from all eligible organisations in the territory through the School Allocation Exercises (SAE) and make relevant announcement through press release and its website. The SAE is generally conducted on a competitive basis amongst the applicant bodies. When assessing the applications, quality of education is the prime consideration of the School Allocation Committee comprising official and non-official members. Other factors, including operation track records and conditions of existing school premises (where applicable), proposed school plans, etc., will also be considered.

The EDB launched 2 SAEs in 2018. The First SAE 2018 sought to nominate operators for 6 new estate kindergarten premises under the Hong Kong Housing Authority. As for the Second SAE 2018, it seeks to allocate 2 new school premises to be built on reserved school sites (planned new school premises) for operating new special schools. The First SAE 2018 has been completed whereas the Second SAE 2018 is underway and the results are expected to be available in the second quarter of 2019.

Table — Information on the 2018 SAEs and the related school premises

SAE	**Location of school premises**	**Expected completion date of the planned new school premises/ new estate kindergarten premises**	**Site area (applicable to the planned new school premises) (rounded to the nearest hundred m^2)/ Internal floor area of new estate kindergarten premises (rounded to the nearest 10 m^2)**	**Use of the allocated school premises**	**Organisation recommended for allocation (applicable to the planned new school premises)/ Organisation nominated for allocation of new estate kindergarten premises**	**Construction cost for school premises ($ million)**
First SAE 2018	UG/F, Wo Tai House, On Tai Estate, Kwun Tong	Completed	860	Operating a kindergarten	Christian & Missionary Alliance Church Union Hong Kong Limited	Note (1)
	UG/F, King Tai House, On Tai Estate, Kwun Tong	Completed	830	Operating a kindergarten	Light and Love Home Limited	Note (1)
	G/F, Larkspur House, So Uk Estate, Sham Shui Po	Completed	920	Operating a kindergarten	The General of The Salvation Army	Note (1)
	1/F, Retail cum Welfare Block (JoysMark), Mun Tung	Completed	740	Operating a kindergarten	Hong Kong Young Women's Christian	Note (1)

SAE	Location of school premises	Expected completion date of the planned new school premises/ new estate kindergarten premises	Site area (applicable to the planned new school premises) (rounded to the nearest hundred m^2)/ Internal floor area of new estate kindergarten premises (rounded to the nearest 10 m^2)	Use of the allocated school premises	Organisation recommended for allocation (applicable to the planned new school premises)/ Organisation nominated for allocation of new estate kindergarten premises	Construction cost for school premises ($ million)
	Estate, Tung Chung				Association	
	G/F, Hi Shek House, Shek Mun Estate Phase II, Sha Tin	Completed	750	Operating a kindergarten	Hong Kong Christian Service	Note (1)
	G/F, Block A, Hoi Lok Court, Cheung Sha Wan	Completed	570	Operating a kindergarten	Tung Wah Group of Hospitals	Note (1)
Second SAE 2018	Renfrew Road, Kowloon Tong (School A)	Early 2025 (Tentative)	About 7 700 m^2 for developing 2 special schools (Area: School A: about 3 000 m^2 School B: about 3 500 m^2 Interlock Area: about 1 200 m^2)	Setting up a new special school for children with mild intellectual disability (MiID)	SAE underway	To be confirmed Note (2)
	Renfrew Road, Kowloon Tong (School B)	Early 2025 (Tentative)		Setting up a new special school for children with MiID and moderate intellectual disability (MoID) with boarding facilities for children with MoID	SAE underway	To be confirmed Note (2)

Note (1) The estate kindergarten premises concerned were built by the Hong Kong Housing Authority. The EDB does not have information on their construction cost.

Note (2) The EDB is taking forward the preparation work for related school building projects, including estimating project costs based on the actual site conditions and school building arrangements, under the established mechanism and procedures. The EDB will submit the school building projects and funding applications to the Legislative Council for approval in due course. The estimated project costs will be provided in the relevant funding proposals.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3704)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Government's expenditure on the promotion of electronic textbooks (e-textbooks), would the Administration advise this Committee of the following:

(1) The numbers of e-textbooks in the past few years and their percentage against the numbers of printed textbooks since the introduction of the Recommended e-Textbook List (eRTL) in 2014;

Level	2014-15	2015-16	2016-17	2017-18	2018-19	Percentage against the number of printed textbooks
Primary 1 to 3						
Primary 4 to 6						
Secondary 1 to 3						
Secondary 4 to 6						

(2) Distribution of subjects and book quantity with regard to the eRTL;

Primary 1 to 6

Subject area	Number of e-textbooks	Percentage against the number of printed textbooks

Secondary 1 to 3

Subject area	Number of e-textbooks	Percentage against the number of printed textbooks

(If the following is applicable)
Secondary 4 to 6

Subject area	Number of e-textbooks	Percentage against the number of printed textbooks

(3) In relation to the low adoption rate of e-textbooks mentioned in the Director of Audit's Report No. 71 published last year, please provide details on the follow-up action taken by the Education Bureau, plans on the promotion of e-textbook adoption, timetable and expenditure involved; and

(4) As at 2018-19, the E-Textbook Market Development Scheme has utilised nearly $40 million for disbursement as seeding grant to non-profit making organisations for developing e-textbooks and settling other charges. Please provide the following information:

Non-profit making organisation	Year of disbursement	Amount disbursed	Number of e-textbooks developed	Subject and content of e-textbooks concerned

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 101)

Reply:

(1) The review mechanism for electronic textbooks (e-textbooks) was introduced in 2014, under which e-textbooks having passed the review will be placed on the Recommended e-Textbook List (eRTL). Currently, there are 57 sets of e-textbooks on the eRTL, covering 20 different subject areas across primary and junior secondary levels (3 Key Stages). Considering a much longer time is required for developing one set of e-textbook as compared with printed textbook, a disparity between the number of e-textbooks and printed textbooks on the respective textbook list is therefore understandable. Working out the difference in percentage terms is not meaningful.

Schools are encouraged to promote e-learning by using the right technology in teaching and learning at the right time when considering whole school planning and use of IT for teaching. The promotion of e-textbook development aims to provide schools with another option of quality learning and teaching resources in addition to printed textbooks. It should be stressed that as one of the many learning modes, e-learning, which is ever-evolving and diversified, is open and flexible. There is no so-called best practice or standard which schools should follow. Therefore, no target has been set for schools' adoption rate of e-learning resources (including e-textbooks). The EDB will continue to enhance the quality of e-textbooks and the pedagogy with the use of e-textbooks instead of pursuing a large increase in the quantity of e-textbooks on the eRTL.

The number of e-textbooks in the past few years and the latest number of printed textbooks are as follows:

Level	2014-15 (sets)	2015-16 (sets)	2016-17 (sets)	2017-18 (sets)	2018-19 (sets)	No. of printed textbooks in 2018-19 (sets)
Primary 1 to 3	7	11	13	13	17	89
Primary 4 to 6	7	11	13	14	17	81
Secondary 1 to 3	4	12	19	22	23	174

(2) The quantity distribution of eRTL by subject and the corresponding number of printed textbooks are as follows:

Primary 1 to 6

Subject area	No. of e-textbooks (set)	No. of printed textbooks (set)
Chinese Language	6	24
English Language	12	30
Mathematics	2	41
Putonghua	6	32
General Studies	6	31
Physical Education	2	2

Secondary 1 to 3

Subject area	No. of e-textbooks (set)	No. of printed textbooks (set)
Chinese Language	1	10
English Language	2	19
Mathematics	2	29
Science	3	21
Geography	6	10
History	3	11
Life and Society	3	10
Science Education Key Learning Area – Information and Communication Technology	3	12

(3) It is always necessary for schools to flexibly adopt different learning resources to cater for learner diversity and, in light of school context, timely apply e-learning resources in learning and teaching. Teachers' professional capabilities of using e-learning resources to enhance learning effectiveness and the availability of quality e-learning resources already developed in the market are two crucial factors for promoting e-learning. On teachers' professional training, the EDB will continue to strengthen teachers' professional capabilities of using e-learning resources in teaching various subjects through professional development programmes, learning communities, school visits, etc. On the other hand, the EDB continues to communicate with the publishing industry to improve the technical and functional design of e-textbooks so as to create favourable conditions for promoting the development and use of e-textbooks. As the support measures above are carried out mainly by EDB staff, the relevant costs are subsumed under the recurrent expenditure of the EDB and a breakdown of the estimate is not available.

(4) In Phase One and Phase Two of the E-Textbook Market Development Scheme, seeding grants totaling around $39.5 million were disbursed to 6 non-profit making organisations in installments in accordance with the terms of the service agreement for developing 18 sets of e-textbooks. The 18 sets of e-textbooks had all been placed on the eRTL by the 2016/17 school year for schools' selection. As the costs of e-textbook

development (including the amount of seeding grant) remain commercially sensitive data for the developers concerned, the amount of seeding grant approved for individual applications will not be disclosed. The organisations, number of e-textbooks developed as well as the subject and content concerned are tabulated as follows:

Non-profit making organisation	No. of e-textbooks developed (set)	Subject and content of e-textbooks concerned
Open Knowledge Association Limited	4	Chinese Language (Key Stage 1) Chinese Language (Key Stage 2) Putonghua (Key Stage 1) Putonghua (Key Stage 2)
Smart Education Charitable Foundation Limited	3	English Language (Key Stage 1) English Language (Key Stage 2) English Language (Key Stage 3)
The University of Hong Kong	6	Geography (Key Stage 3) (English) Mathematics (Key Stage 1) (Chinese) Mathematics (Key Stage 2) (Chinese) Computer Literacy (Key Stage 3) (Chinese) Computer Literacy (Key Stage 3) (English) Geography (Key Stage 3) (Chinese)
Moodle.hk	2	Putonghua (Key Stage 1) Putonghua (Key Stage 2)
Elementi Education Organization Non-Profit Making Limited	2	Mathematics (Key Stage 3) (Chinese) Mathematics (Key Stage 3) (English)
IT Education Center Limited	1	Computer Literacy (Key Stage 3) (Chinese)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3705)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding coding education, would the Government advise this Committee of the following:

(1) the number of hours of coding education at upper primary and secondary levels in the past 2 years;

	Number of hours of coding education	Percentage share in the total hours of information technology subject
Upper primary		
Junior secondary		
Senior secondary		

(2) programmes related to coding education organised for serving computer/information and communication technology teachers, details of the programmes concerned, the number of participants and the duration of programmes in the past 2 years, as well as the programme plan for the coming year;

(3) the work items, timetable, manpower and expenditure involved for the implementation of coding education as mentioned in the Report on Promotion of STEM Education - Unleashing Potential in Innovation in 2018-19, as well as the work items, timetable, manpower and expenditure involved for 2019-20; and

(4) details of the work regarding the Education Bureau's collaboration with professional/community organisations in the enhancement of coding education in secondary schools in 2018-19. Please provide the list of the professional/community organisations and the plan for the coming year.

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 102)

Reply:

(1) The number of hours of coding education at upper primary and secondary levels and relevant details are as follows:

	Number of hours of coding education	Percentage share in the total hours of information technology subject
Upper Primary	Schools are advised to allocate approximately 30 hours to the promotion of coding education as stated in the "Computational Thinking - Coding Education: Supplement to the Primary Curriculum" compiled by the Education Bureau (EDB) in the 2017/18 school year.	As the EDB does not require primary schools to make information technology an independent subject, relevant figure is not available.
Junior Secondary	Schools may teach programming-related content through the curriculum of Technology Education Key Learning Area. Schools are advised to allocate no less than 30% of teaching hours for the Information and Communication Technology (ICT) Knowledge Context to teaching of programming. For reference purposes, the number of teaching hours is around 20.	Programming accounts for around 30% of teaching hours for the ICT Knowledge Context.
Senior Secondary	The element of programming is covered by both compulsory and elective parts of ICT curriculum at senior secondary level, and the suggested number of teaching hours is 24 and 75 respectively.	24 hours and 75 hours account for around 10% and 30% respectively of the total teaching hours for ICT at senior secondary level.

(2) The EDB organises professional development programmes on coding education for serving teachers who teach Computer/ICT to enhance their pedagogical knowledge in developing students' programming skills. The number of participants in the 2016/17 and 2017/18 school years was 900 and 1 880 respectively. The duration of each programme was around 3 to 6 hours. The EDB continues to organise these programmes in the 2018/19 school year, and the estimated number of participants is about 1 400.

(3) In the 2017/18 school year, the EDB compiled the "Computational Thinking - Coding Education: Supplement to the Primary Curriculum" (Supplement), launched the related professional development programmes and developed the learning and teaching resources for teachers' adoption. Starting from the 2017/18 school year, "Workshops on Computational Thinking - Coding Education for Primary Schools" have been organised in batches for all public sector and Direct Subsidy Scheme primary school teachers, with a view to enabling them to understand the content of the Supplement and enhancing their pedagogical knowledge in developing students' computation thinking and programming skills. The first 3 batches of training programmes on coding education were completed as at end-February 2019, and the fourth batch commenced in the second term of the 2018/19 school year. Also, we completed the development of learning and teaching resources on programming to control physical objects this school year. In the 2019/20 school year, we will continue to organise workshops on coding education for teachers and develop learning and teaching resources. As the expenses involved have been subsumed under the overall expenditure of EDB, a breakdown of expenditure by item is not available.

(4) All along, the EDB has been organising the Hong Kong Olympiad in Informatics (HKOI) jointly with the Hong Kong Association for Computer Education to promote students' interest in programming. The HKOI for the 2018/19 school year has been completed. The best contestants of the HKOI are undergoing training and those with outstanding performance in the training may be selected to represent Hong Kong to participate in the International Olympiad in Informatics or the National Olympiad in Informatics to be held in 2019.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4299)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) will "consider and implement as appropriate initiatives recommended by the task force set up to review self-financing post-secondary education." In this connection, will the Government inform this Committee of the time required for the review and the recommendations to be implemented by the EDB?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 55)

Reply:

The Task Force on Review of Self-financing Post-secondary Education has submitted its report to the Government on 27 December 2018. The Government's first-stage follow-up actions are set out below.

(a) We agree that there is a need to review and update the Post Secondary Colleges Ordinance (Cap. 320) so that the self-financing post-secondary education institutions in Hong Kong are required to achieve the academic and institutional governance expected of a modern higher education institution. The Education Bureau (EDB) plans to commence a review of Cap. 320 in 2019 and formulate a set of legislative amendment proposal in consultation with the sector and stakeholders.

(b) We agree that it is necessary to seek more advice from outside the Administration on the future development of the sector. The Committee on Self-financing Post-secondary Education, the majority of members of which are non-officials, can be given a larger role and more functions to advise the Government on issues relating to the direction of self-financing institutions' development, including offering advice on quality enhancement and strategic coordination of their development of niche areas, as well as the provision of support for the sector.

(c) We also agree that the self-financing sector needs to be reformed to operate vibrantly alongside the publicly-funded sector. In this regard, the Government will work with the Hong Kong Council for Accreditation of Academic and Vocational Qualifications to review its accreditation standards and practices, making reference to those of the publicly-funded sector, so that the self-financing sector is able to maintain a quality comparable to that of the public-funded sector and contribute to the vibrant development of Hong Kong's higher education.

The EDB is currently examining other recommendations of the report in detail, and will continue to liaise with the sector and other stakeholders regarding further follow-up actions.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3351)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

(a) The list of government-funded kindergarten support programmes and University-school Support Programmes (USP) for non-Chinese speaking ("NCS") students in 2015/16, 2016/17, 2017/18, and 2018/19 including the institution implementing the programmes, the support target group of the programmes, the programme goal and nature, programme period, the number of kindergartens supported, the percentage of these kindergartens among all kindergartens with NCS students, the number of NCS students supported by the programme, the number of schools involved, the percentage of these kindergarten school children among all NCS kindergarten school children, and the amount of funding allotted;

(b) The list of government-funded primary school support programmes and University-school Support Programmes (USP) for NCS students in 2015/16, 2016/17, 2017/18, and 2018/19 including the institution implementing the programmes, the support target group of the programmes, the programme goal and nature, programme period, the number of primary schools supported, the percentage of these primary schools among all primary schools with NCS students, the number of NCS students supported by the programme, the number of schools involved, the percentage of these NCS students among all NCS primary school students, and the amount of funding allotted;

(c) The list of government-funded secondary school support programmes and University-school Support Programmes (USP) for NCS students in 2015/16, 2016/17, 2017/18, and 2018/19 including the institution implementing the programmes, the support target group of the programmes, the programme goal and nature, programme period, the number of secondary schools supported, the percentage of these secondary schools among all secondary schools with NCS students, the number of NCS students supported by the programme, the number of schools involved, the percentage of these NCS students among all NCS secondary school students, and the amount of funding allotted;

(d) Will the EDB share the evaluations of the above-mentioned programmes? If evaluations have not been conducted, how does the EDB monitor the effectiveness of these programmes? Does the EDB have a list of indicators to evaluate the programmes? How is the students' progress tracked?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 51)

Reply:

The list of government-funded support programmes for non-Chinese speaking (NCS) students implemented by institutions in the 2015/16, 2016/17, 2017/18 and 2018/19 school years and related information are provided below. As the support programmes have different objectives, target groups, durations, funding arrangements and enrollment arrangements, information such as the number of students/schools supported by school levels and the related percentage figures is not readily available.

Name of programme and institution	Target participants	Goal and nature	Number of students supported in the 2015/16, 2016/17, 2017/18 and 2018/19 school years	Expenditure[#] ($ million)			
				2015/16	2016/17	2017/18	2018/19*

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3354)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) will enhance the subsidy for kindergartens joining the kindergarten education scheme and admitting non-Chinese speaking (NCS) students by providing tiered subsidies for these kindergartens based on the number of NCS students admitted starting from the 2019/20 school year. In this connection, would the EDB advise this Committee of:

1. the average subsidy level per student; and

2. details on the provision of "tiered subsidies".

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 54)

Reply:

(1) and (2)
At present, for kindergartens (KGs) joining the KG education scheme (Scheme), those admitting 8 or more non-Chinese speaking (NCS) students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. Starting from the 2019/20 school year, a 5-tiered subsidy will be provided for KGs joining the Scheme according to the number of NCS students admitted. KGs admitting 1 NCS student will also receive the subsidy and the subsidy for the highest tier will be a double of the current level. Details are as follows:

Tier	Number of NCS students	Subsidy amount
1	1 to 4	New cash grant of $50,000 per year
2	5 to 7	New subsidy at a rate of 0.5 KG teacher
3	8 to 15	Subsidy at a rate of 1 KG teacher (i.e. the current arrangement)
4	16 to 30	Increased subsidy at a rate of 1.5 KG teachers
5	31 or more	Increased subsidy at a rate of 2 KG teachers

As we provide subsidies on a tier basis, it is not applicable to calculate an average subsidy rate.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the initiative to "provide additional resources under a three-tier structure to public sector ordinary primary schools admitting non-Chinese speaking students with special educational needs", please inform this Committee of the following:

(1) The details of the additional resources; and

(2) Will the effectiveness of the initiative be reviewed? If yes, when will it be reviewed? If no, what are the reasons?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 57)

Reply:

(1) and (2)

The Education Bureau (EDB) has all along been committed to facilitating non-Chinese speaking (NCS) students' early adaptation to the local school system and integration into the community, and enhancing their learning effectiveness through different support measures. At the same time, the EDB has been providing public sector mainstream schools with additional resources, professional support and teacher training, while encouraging schools to support students with special educational needs (SEN) through the 3-tier Intervention Model. To further support NCS students with SEN to adjust to school life and make smooth transition through different learning stages, the EDB will provide additional resources under a three-tier structure to public sector mainstream primary and secondary schools admitting NCS students with SEN starting from the 2019/20 school year. The additional resources provided will enable schools to employ teaching assistants to assist teachers in designing activities and teaching materials, procure translation services, or provide the students concerned with social and emotional management training, etc. in order

to strengthen emotional, communication and social support. The EDB will provide schools with a grant per year calculated on the basis of the number of NCS students with SEN under a three-tier structure, i.e. $100,000 for 1 to 9 students, $200,000 for 10 to 25 students, and $300,000 for 26 or more students. In subsequent school years, the grant rates will be adjusted annually according to the change in the Composite Consumer Price Index. The EDB will keep the implementation and effectiveness of various support measures (including the above measure) under review, and will make improvements when necessary.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the wastage rate of special education teachers, please advise of the following:

(1) whether there are any improvement measures to address the issue given that this year's wastage rate is expected to be similar to that of last year; if yes, the details; if no, the reasons; and

(2) whether there are sufficient special education teachers to make up for the wastage; if yes, the details; if no, the reasons for insufficiency.

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 72)

Reply:

(1) and (2)

In recent years, local teacher education universities have included modules related to special education or catering for students with special educational needs (SEN) in their pre-service teacher training courses to enhance prospective teachers' understanding of the principles of special education and equip them with the knowledge and skills in catering for students with SEN. It can also enable those prospective teachers interested in and aspiring to special education to apply for teaching posts in special schools in the future. The Education Bureau (EDB) has all along provided support to help special school teachers build their capability and enhance their professional competence. For example, we have collaborated with tertiary institutions to deliver professional development programmes for special school teachers to strengthen teacher training. We have also organised professional sharing activities, workshops and seminars to enhance professional exchanges among special school teachers. In addition, the EDB has continuously deployed resources in special education and implemented relevant enhancement measures to improve the quality of education. In

recent years, we have improved the ratios of graduate teacher posts in special schools to attract more talents to join the teaching force of special schools. We have also provided special schools with additional teaching and non-teaching staff and have been reducing progressively the class size of various types of special schools so as to allow teachers more capacity to engage in school-based curriculum development, lesson preparation and other professional activities. We will continue to strengthen special school teachers' sense of satisfaction in teaching and belonging to special schools through various measures in order to attract and retain talents for special education.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the admission of non-Chinese speaking (NCS) students under Free Quality Kindergartens Education Scheme and additional funding support for NCS students, will the government inform the council:

The number of kindergartens under the Free Quality Kindergartens Education Scheme or the previous Pre-primary Education Voucher Scheme admitting specific number of NCS students from 2015/16 to 2018/19 school years disaggregated by district in the following tabular format:

	Number of kindergartens with specific number of NCS students							Total number of NCS students in the district
District	0	1-3	4-7	8-15	16-25	26-50	51 or above	

The number of kindergartens under the Free Quality Kindergartens Education Scheme or the previous Pre-primary Education Voucher Scheme admitting specific percentage of NCS students of the total student population from 2015/16 to 2018/19 school years disaggregated by district in the following tabular format:

	Number of kindergartens with specific percentage of NCS students										Percentage of NCS students in the district
District	0%	1%-3%	4%-7%	8%-15%	16%-25%	26%-50%	> 50%	>60%	>70%	80% or above	

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 3)

Reply:

The number of kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) in the 2015/16 and 2016/17 school years and under the KG education scheme (Scheme) in the 2017/18 and 2018/19 school years, with the number of non-Chinese speaking (NCS) students ranging from "0", "1 to 7", "8 to 25", "26 to 50" and "51 or above", are tabulated at Appendix 1; the percentage share of NCS students out of the total number of students in the KGs is tabulated at Appendix 2. As only 1 to 2 KGs in some districts have admitted a certain number/percentage of NCS students, providing the number of KGs with a breakdown by the above-mentioned number/percentage of NCS students and by district may cause unnecessary misconception and possible labelling on schools in individual districts. We have been adopting a prudent approach and adhering to the established practice of not disclosing information about the admission of NCS students by KGs in different districts by number/percentage of NCS students. We will continue to gauge further views from the sector with a view to releasing more information relating to support for NCS students as far as practicable.

Number of KGs under the PEVS in the 2015/16 and 2016/17 school years and under the Scheme in the 2017/18 and 2018/19 school years (by number of NCS students ranging from "0", "1 to 7", "8 to 25", "26 to 50" and "51 or above")

School year	Number of NCS students admitted					Total number of of NCS students
	0	1-7	8-25	26-50	51 or above	
	Number of KGs					
2015/16	356	262	73	16	25	4 918
2016/17	351	261	88	18	27	5 165
2017/18	357	232	115	22	22	5 274
2018/19	344	257	110	20	22	5 313

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Figures include students in K1, K2 and K3 classes of kindergarten-cum-child care centres.
3. Figures cover those students whose ethnicity is Chinese but who are NCS based on the spoken language at home.
4. The total number of NCS students is calculated on the basis of KGs joining the PEVS/the Scheme.

Number of KGs under the PEVS in the 2015/16 and 2016/17 school years and under the Scheme in the 2017/18 and 2018/19 school years (by percentage of NCS students out of the total number of students in a KG)

School year	Percentage of NCS students in a KG										Percentage of NCS students
	0%	>0%-10%	>10%-20%	>20%-30%	>30%-40%	>40%-50%	>50%-60%	>60%-70%	>70%-80%	>80%	
	Number of KGs										
2015/16	356	316	24	11	5	5	2	3	3	7	3.5%
2016/17	351	328	25	13	6	8	1	4	2	7	3.7%
2017/18	357	311	37	11	12	3	3	4	2	8	3.8%
2018/19	344	324	37	12	12	4	5	5	2	8	4.0%

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Figures include students in K1, K2 and K3 classes of kindergarten-cum-child care centres.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government please list out and provide information on the programmes and courses related to the teaching and learning of NCS students in the past 4 years, from early childhood education diploma to graduate programmes. For each institution, provide the following information:

Name of programme/course
Commencement year of programme/course
Total amount of funding provided by the government for the programme/course
Type/level of programme/course
Mode of teaching (full-time/part-time)
Target group (pre-service and/or in-service teachers)
Target level of education (non-specific, pre-primary, primary, secondary, others)
Frequency (e.g. annually, quarterly, etc.)
Duration of programme/course
Mode of programme/course fee (e.g. funding, re-imbursement at completion etc.)
Programme/ course fee
Amount of tuition fee subsidy by the government
Admission quota for each batch
Accumulative number of applicants as of March 2018
Accumulative number of enrolled students as of March 2018
Accumulative number of graduates as of March 2018

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 19)

Reply:

Teacher education universities in Hong Kong enjoy institutional autonomy in curriculum planning and development. Therefore, the Government and the University Grants Committee (UGC) do not require teacher education universities to provide information on their programmes in respect of specific theme (e.g. supporting non-Chinese speaking (NCS) students).

To our knowledge, teacher education universities now offer training programmes related to the teaching of Chinese to NCS students. For example, the Education University of Hong Kong (EdUHK) offers Teaching Chinese as an International Language as a minor under their Bachelor of Education (Honours) (Chinese Language) and also offers a UGC-funded Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Students. From the 2016/17 school year onwards, the EdUHK has been offering the part-time Bachelor of Education (Honours) (Early Childhood Education) in Leadership and NCS Children, a UGC-funded part-time top-up programme, and started offering the part-time Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Children in the 2017/18 school year. Given the diversified modes of the programmes concerned (including having the expenditure subsumed under the overall subventions to the UGC, operating as self-financing programmes, etc.), we do not have detailed information on these programmes.

As for training for in-service teachers, the Education Bureau commissioned tertiary institutions and other organisations to organise thematic training activities related to the teaching of Chinese to NCS students for serving teachers from kindergartens, primary schools and secondary schools to join according to their needs. Amongst these activities, we commissioned a tertiary institution to offer kindergarten teachers a basic training programme on supporting NCS children in learning Chinese from the 2017/18 school year onwards. The actual expenditure in the 2017/18 school year and the estimated expenditure in the 2018/19 school year are $1.4 million and $1.45 million respectively (Note: The estimated expenditure in the 2018/19 school year includes a supply teacher grant launched in the same academic year to facilitate kindergartens in arranging teachers to participate in related courses).

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Under the Quality Review (QR) mechanism of kindergartens (KGs), a review team will assess whether the KG has met the prescribed standards according to the Performance Indicators (Pre-primary Institutions). Please provide the details of the quality review details:

	2013/14	2014/15	2015/16	2016/17	2017/18
Number of KGs visited by the review team					
Number of KGs visited by the review team with NCS students					
Average number of staff in the review team per visit					
Number of QR reports that mentioned the progress and performance of NCS students					
Expenditure spent on QR					

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 21)

Reply:

The kindergarten (KG) education scheme (Scheme) was launched in the 2017/18 school year, and prior to this, the Pre-primary Education Voucher Scheme was implemented. All KGs participating in these 2 schemes are subject to the Quality Assurance (QA) Framework, which comprises School Self-evaluation (SSE) by KGs and Quality Review (QR) by the Education Bureau (EDB). Both SSE and QR are conducted on the basis of performance

indicators (PIs). To further strengthen the QA Framework under the Scheme, we have completed the refinement of the PIs. On the other hand, we also involve external independent members in the QR team as external observers. In the 2018/19 and 2019/20 school years, we will pilot the inclusion of serving KG principals as external observers to further enhance transparency.

From the 2013/14 to 2017/18 school years, we conducted QR for 108, 114, 123, 128 and 135 KGs respectively. Each review team consists of 2 to 3 inspectors, depending on the scale of the KG concerned. Review teams make professional judgement on the overall school performance. Regarding the support for non-Chinese speaking students, holistic judgement is made under catering for students with diverse needs. Hence, a breakdown of relevant figures is not available. As regards the expenditure on QR, since the 2013/14 school year, external observers as afore-mentioned have been recruited to join some QR visits and we have progressively increased the number of QR visits with their participation. These external independent members for QR are provided with honoraria, and the relevant expenditure involved from the 2013/14 to 2017/18 school years was $40,000, $70,000, $100,000, $160,000 and $200,000 respectively. All other assessment-related tasks involved in QR are conducted by EDB officers and the relevant expenditure is subsumed in the overall expenditure of EDB, and therefore a breakdown of expenditure is not available.

Director of Bureau: Secretary for Education

Question:

Please list out the number of support programmes (including development of curriculum, and teaching and learning materials, after-school support) implemented or funded by the government for kindergartens (KGs) admitting NCS students from 2015/16 to 2018/19 school year.

Institution/ organisation in-charge	Name of project	List of partner institutions/ organisations	Source of funding (government department)	Budget ($)	Duration	Start date	Project description	No. of KGs benefited	No. of NCS students benefited

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 22)

Reply:

In the past 4 years (2015/16, 2016/17, 2017/18 and 2018/19 school years), the Hong Kong Christian Service and the Hong Kong Sheng Kung Hui Lady MacLehose Centre, financed by the Education Bureau's Language Fund, organised a 24-month "District-based Project on Supporting Non-Chinese Speaking Children in Learning Chinese" for non-Chinese speaking (NCS) children aged 3 to 9 in the territory, motivating them to learn Chinese through fun activities such as visits, games and creative art. The expenditures involved in the 2015/16, 2016/17, and 2017/18 school years were $2.4 million, $1.2 million and $1.7 million respectively, and the estimated expenditure for the 2018/19 school year is $4.3 million. About 400 NCS children benefited from the project each school year and about half of them

were NCS children studying in kindergartens. In addition, the University of Hong Kong implemented 2 projects (one lasted for 2 years and the other lasted for 1 year and 7 months) under the University-School Support Programmes financed by the Education Development Fund to provide kindergartens and primary schools with school-based professional support to enhance teachers' capabilities in teaching Chinese to NCS children. In the 4 years mentioned above, the numbers of kindergartens receiving such support are 14, 11, 20 and 20 respectively. As the projects support both kindergartens and primary schools at the same time, a breakdown of expenditure for kindergartens is not available.

Question:

How much funding has been allocated in total by the Government for promoting sex education in schools and providing teachers with related training in the past 5 years?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 112)

Reply:

As part of values education, sex education is included in the curricula of Key Learning Areas, subjects and moral and civic education of primary and secondary schools. To support the implementation of values education (including sex education) in schools, the Education Bureau (EDB) has been organising professional development programmes on a range of themes, such as "How to Promote Sex Education Effectively in Primary/Secondary Schools", "Mass Media, Gender Role and Gender Equality Education" and "Gender Equality Education and Prevention of Sexual Harassment and Dating Violence", for both principals and teachers to enhance their professional knowledge and skills. In addition, the EDB has been providing schools with various learning and teaching (L&T) resources and developing different life event exemplars, such as "dating and falling in love", "traps in making friends via mobile apps" and "public display of affection", with a view to helping teachers deepen students' understanding of related topics and nurture in them moral values as well as proper attitude and behaviour through learning activities such as discussion, sharing and reflection. Schools may flexibly deploy the annual Operating Expenses Block Grant or Expanded Operating Expenses Block Grant to promote values education (including sex education). The relevant manpower resources and expenses incurred in developing the L&T resources and organising professional development programmes are subsumed under the recurrent expenditure of the EDB, and therefore a breakdown of expenditure is not available.

Director of Bureau: Secretary for Education

Question:

The Chinese Language Curriculum Second Language Learning Framework (Learning Framework) was launched over 4 years ago. In this connection, please provide the following information:

(1) How will the Education Bureau (EDB) formulate the related performance indicators and assessment approaches? Will it consult with and listen to ethnic-minority parents, ethnic-minority service providers and Chinese Language teachers? If yes, what are the details? If no, what are the reasons?

(2) How many non-Chinese speaking (NCS) students have been able to bridge over to mainstream Chinese Language classes so far? By the EDB's estimation, how many more years does it take for the majority of NCS children born and raised in Hong Kong to be able to bridge over to mainstream Chinese Language classes?

(3) Will the EDB develop and publish a comprehensive curriculum (Primary 1 to Secondary 6) and teaching materials for the Learning Framework? If yes, what are the details? If no, what are the reasons?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 200)

Reply:

(1) The "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") is a learning and teaching framework based on the mainstream Chinese Language curriculum and specially designed for teachers' use. Developed from the perspective of second language learners, the "Learning Framework" splits up the process of learning Chinese into "small steps" to facilitate teachers in planning school-based curriculum, adjusting teaching progress, adapting learning materials and formulating

learning and teaching strategies according to the learning progression of non-Chinese speaking (NCS) students, so as to help students overcome learning difficulties progressively. The Education Bureau (EDB) has consulted teachers and language experts when formulating the "Learning Framework", and will continue to collect views from various stakeholders on the "Learning Framework" and relevant support measures. At the curriculum level, the EDB has, through school visits and focus group interviews, solicited teachers' views on related curriculum documents, with a view to introducing refinements that could make the descriptions of learning outcomes under the "Learning Framework" more precise and concrete. The revised "Learning Framework" was uploaded onto the "Chinese Language Curriculum Second Language Learning Framework Dedicated Homepage" in January 2019 for teachers' reference and use. In parallel, the relevant assessment tools and teaching resources have been updated accordingly.

Besides, the EDB collects information on an ongoing basis to evaluate the effectiveness of its support measures and make refinements as necessary. Efforts include looking into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by schools, language proficiency and learning motivation of NCS students and other factors contributing to effective learning. At the same time, we also understand that the learning effectiveness of NCS students is affected by other factors (such as parents' expectation and cooperation, learning attitude of students, etc.).

(2) The EDB has commissioned a tertiary institution to conduct analysis on NCS students' overall learning performance in Chinese reading and writing annually by making reference to the results based on the "Chinese Language Assessment Tools for NCS Students" ("Assessment Tools") since the 2013/14 school year. According to the findings of the analysis in each of the school years from 2014/15 to 2017/18, the overall performance in reading and writing of NCS students studying at the same grade level varied considerably as their duration of and pace in learning Chinese were different. In brief, the findings show that NCS students (in particular those currently studying at junior primary levels) are generally able to learn Chinese more effectively and are expected to bridge over to mainstream Chinese Language classes in due course.

The "Assessment Tools" help schools assess the learning performance of their NCS students on an ongoing basis with reference to the expected learning outcomes across different levels of the "Language Framework". Whether NCS students can bridge over to mainstream Chinese Language classes and learn with their Chinese-speaking classmates at the same grade level is determined by relevant teachers' assessment. It is worth noting that all students, including NCS students, may experience ups and downs in their learning journey in primary and secondary schools. Teachers need to monitor NCS students' learning progress on an ongoing basis and provide NCS students with the necessary support and counselling in a timely manner, so as to cater for their diversified learning needs and changes in their learning progress, if any, and facilitate their articulation to multiple pathways. When evaluating the effectiveness of the support measures concerned, EDB will not only focus on the number of NCS students who have bridged over or are expected to bridge over to mainstream Chinese Language classes in the context of individual schools. It has only been some 4 years since the implementation of the "Learning Framework" and other support measures in the 2014/15 school year. It takes time for these measures to take root and create a sustainable impact. It is expected that the Chinese proficiency of NCS

students (especially those who have started learning the Chinese language at kindergarten level) will improve progressively.

(3) In view of the diversified linguistic backgrounds and years of learning Chinese among NCS students, distinct differences exist in the starting points of learning Chinese and their learning progress. If standardised teaching materials with uniform phasic learning targets were to be introduced for all NCS students in Hong Kong, they will not only fail to address the realistic learning circumstances of NCS students, but also be in-effective in catering for their learning diversity.

As mentioned above, to cater for students' learning needs, teachers can make reference to the "Learning Framework" to set progressive learning targets, learning progress and expected learning outcomes, as well as adapt and develop teaching materials for NCS students with different starting points in learning Chinese and varying abilities.

The EDB will continue developing learning materials and teaching reference materials jointly with language and curriculum experts and school teachers. These teaching materials, covering primary and secondary Chinese Language curricula and different levels (i.e levels 1 to 8) under the "Learning Framework", have been uploaded onto the EDB website by phases for school teachers' reference and adoption. Schools may make adaptations to these materials with reference to their school-based curriculum in order to cater for the learning diversity of NCS students.

Director of Bureau: Secretary for Education

Question:

How much funding has been allocated in total by the Government for updating online sex education materials provided by government departments in the past 5 years?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 214)

Reply:

As a government department, the Education Bureau (EDB) has been providing a wide array of support (including online teaching materials) for the promotion of values education (including sex education) in schools so as to foster students' whole-person development. As part of values education, sex education is included in the curricula of Key Learning Areas, subjects and moral and civic education of primary and secondary schools. To support the implementation of values education (including sex education) in schools, the EDB has been organising professional development programmes on a range of themes, such as "How to Promote Sex Education Effectively in Primary/Secondary Schools", "Mass Media, Gender Role and Gender Equality Education" and "Gender Equality Education and Prevention of Sexual Harassment and Dating Violence", for both principals and teachers to enhance their professional knowledge and skills. In addition, the EDB has been providing schools with various learning and teaching (L&T) resources, including student worksheets and audio-visual teaching materials, and developing different life event exemplars, such as "dating and falling in love", "traps in making friends via mobile apps" and "public display of affection", with a view to helping teachers deepen students' understanding of related topics and nurture in them moral values as well as proper attitude and behaviour through learning activities such as discussion, sharing and reflection. The related L&T resources have been uploaded onto the EDB's webpage for teachers' reference. The expenditure involved in developing such resources are subsumed under the recurrent expenditures of relevant sections of the EDB. In addition, the EDB has commissioned the Family Planning Association of Hong Kong to produce sex education animation resources and lesson plans

which cover various topics for the 4 Key Stages (KSs). For example, “Gender Equality” and “Prevention of Sexual Abuse” for KS 1, “Sexual Harassment among Peers” and “Impacts of Browsing Online Pornography” for KS 2, “Mobile Apps and Social Networking Traps” and “Dating Violence” for KS 3, “Gender Stereotypes” and “Online Naked Chat” for KS 4, etc. Launched in 2015, the animation resources and lesson plans have been uploaded onto the EDB’s webpage and involved an expenditure of $470,000.

Director of Bureau: Secretary for Education

Question:

Please provide the number of full-time and part-time students and graduates of the Diploma Yi Jin programme in the past 5 financial years by age group (i.e. 15-19, 20-24, 25-29 and 30-39).

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 221)

Reply:

The number of students of Diploma Yi Jin (DYJ) programme from 2013/14 to 2017/18 academic years is set out below:

Academic year	Number of Full-time Students	Number of Part-time Students [Note]	Total Number of Students
2013/14	4 597	1 164	5 761
2014/15	4 910	1 100	6 010
2015/16	4 235	1 126	5 361
2016/17	4 078	1 113	5 191
2017/18	4 099	1 153	5 252

The number of graduates of DYJ programme from 2013/14 to 2017/18 academic years is set out below:

Academic year	Number of Full-time Graduates	Number of Part-time Graduates [Note]	Total Number of Graduates
2013/14	3 100	652	3 752
2014/15	3 532	938	4 470
2015/16	2 922	1 007	3 929
2016/17	2 753	837	3 590
2017/18	2 673	1 016	3 689

The Education Bureau does not maintain figures on the age distribution of students of the DYJ programme.

Note: Part-time enrollment is presented in full-time-equivalent terms by dividing the product of the total part-time enrollment headcount and the contact hours of courses enrolled by part-time students by the total hours of study required for graduation under the DYJ programme, i.e. 600 hours.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please list the respective number of graduates having completed a full-time/part-time publicly funded or self-financing programme (diploma/certificate, sub-degree, bachelor's degree, master's degree) offered by institutions of the Vocational Training Council (VTC) (Institute of Professional Education And Knowledge, Hong Kong Institute of Vocational Education, Hong Kong Design Institute, International Culinary Institute, Hotel and Tourism Institute, Chinese Culinary Institute, Maritime Services Training Institute, Pro-Act by VTC, Youth College and Integrated Vocational Development Centre) in the past 5 years (disaggregated by age groups 15-19, 20-24, 25-29 and 30-39).

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 225)

Reply:

The respective number of graduates having completed a full-time/part-time subvented or self-financed programme offered by the Vocational Training Council (VTC) in the past 5 years is set out below:

Institution	Type of Programme	Mode of Study	Subvention Mode	Number of Graduates (Note)				
				2013/14 Academic Year	2014/15 Academic Year	2015/16 Academic Year	2016/17 Academic Year	2017/18 Academic Year
Hong Kong Institute of Vocational Education/ Hong Kong Design Institute	Higher Diploma/ Diploma of Foundation Studies/ Certificate	Full-time	Subvented	11 581	10 818	11 218	11 100	11 299
			Self-financed	7 340	5 761	5 360	4 026	3 886
		Part-time	Subvented	459	610	593	593	619
			Self-financed	1 620	1 528	1 584	1 368	1 117
Youth College	Diploma of Vocational Education/ Certificate of Vocational Education	Full-time	Subvented	2 187	2 294	2 392	2 599	2 245
		Part-time	Subvented	445	581	699	691	806
Hotel and Tourism Institute/ Chinese Culinary Institute/International Culinary Institute	Diploma/ Certificate	Full-time	Subvented	670	850	844	730	687
Maritime Services Training Institute	Certificate	Full-time	Subvented	55	52	57	59	106

Note: The VTC does not have information on the age distribution of the graduates. Furthermore, the Institute of Professional Education and Knowledge, Pro-Act by VTC and Integrated Vocational Development Centre mainly provide short courses and the VTC does not have the number of their graduates.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

With reference to the existing categorisation of disciplines under the Earn and Learn Scheme of the Vocational Training Council, please set out information of service users by age group (15-19, 20-24 and 25-29) in the past 5 financial years.

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 227)

Reply:

The Government has implemented the Pilot Training and Support Scheme (the Scheme) through the Vocational Training Council (VTC) since the 2014/15 academic year. Under the collaboration between the Government and participating industries, the Scheme has integrated structured apprenticeship training with clear career progression pathways, so that young people can learn professional knowledge and skills while obtaining a stable income. As at 28 February 2019, the Scheme has benefited more than 4 600 trainees. The number of trainees admitted to the Scheme by age group (15-19, 20-24 and 25-29) in each year is set out below:

Programmes	2014/15 Academic Year				2015/16 Academic Year				2016/17 Academic Year				2017/18 Academic Year				2018/19 Academic Year[(note)]
	Age Group				Age Group				Age Group				Age Group				
	15-19	20-24	25-29	30 or over	15-19	20-24	25-29	30 or over	15-19	20-24	25-29	30 or over	15-19	20-24	25-29	30 or over

Director of Bureau: Secretary for Education

Question:

Please provide the respective number of applications received and approved under the Study Subsidy Scheme for Designated Professions/Sectors in the past 4 financial years.

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 229)

Reply:

Subsidised places under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) are allocated mainly through the Joint University Programmes Admissions System (JUPAS). The number of applications for admission to the first year of designated programmes under SSSDP through JUPAS and the number of students admitted to subsidised degree programmes from the 2015/16 to 2018/19 academic years are as follows:

Academic year	Number of applications for admission to subsidised programmes through JUPAS*	Number of students admitted to subsidised degree programmes #
2015/16	56 912	913
2016/17	62 519	991
2017/18	57 857	974
2018/19	102 013	1 817

* Figures are based on the information available on JUPAS website in March 2019. Each JUPAS applicant may select a maximum of 20 programme choices from amongst the programmes offered by the 9 JUPAS participating institutions and the institutions under SSSDP. Irrespective of their priority of programme choices, a programme choice will be counted as 1 application.

\# Figures cover admissions through JUPAS and admissions through direct applications to institutions.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What were the costs of building a standard school in the past 3 years?

(Please set out in details the construction cost, renovation cost, expenditure on procurement of supplies and other incidental expenses.)

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 251)

Reply:

The project cost of each school building project is affected by a number of factors and cannot be generalised. From 2016-17 to 2018-19, a total of 5 public sector primary and secondary school building projects were approved by the Finance Committee (FC) of the Legislative Council. The approved project estimates for these school building projects are provided in the table below for reference.

Project	Financial Year in which Funding was Approved	Project Title	Approved Project Estimate ($million) [1]		Construction Cost [2] ($ million)	Furniture and Equipment Cost [3] ($ million)	Other Costs [4] ($ million)
			In money-of-the-day (MOD) prices [5]	Adjusted to September 2018 price level	Adjusted to September 2018 price level	Adjusted to September 2018 price level	Adjusted to September 2018 price level
1.	2016-17	A 30-classroom secondary school at Site 1A-2, Kai Tak development	446.7	359.5	303.3	5.8	50.4
2.	2016-17	A 30-classroom primary school at Site KT2b, Development at Anderson Road, Kwun Tong	351.1	282.3	238.7	2.6	41.0
3.	2017-18	A 30-classroom primary school at Tonkin Street, Cheung Sha Wan	345.5	280.3	252.5	2.3	25.5
4.	2018-19	First 30-classroom primary school at Queen's Hill, Fanling	386.1	334.8	289.4	Borne by the school sponsoring body (SSB)	45.4
5.	2018-19	Second 30-classroom primary school at Queen's Hill, Fanling	386.6	335.2	289.7	Borne by the SSB	45.5

Notes:

(1) The approved project estimate is the sum of construction cost, furniture and equipment cost (if applicable) and other costs.

(2) Construction cost covers that for foundation, building, building services, fitting-out, drainage and external works.

(3) Under the prevailing mechanism, the Government is responsible for the furniture and equipment cost for reprovisioning/redevelopment projects for existing ordinary public sector schools, while that for a newly set up ordinary public sector school is borne by the SSB concerned.

(4) Other costs generally cover consultants' fees, remuneration of resident site staff and contingencies.

(5) When seeking funding approvals from the FC for public works projects, the project estimates are in MOD prices. As the funding for the school building projects tabulated above were approved in different financial years, project estimates adjusted to September 2018 price level are also provided for reference.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5962)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

How many teachers completed the special education training programmes in the past 3 years? What were the expenditures involved?

Among the teachers who have completed the special education training programmes, how many of them are teaching in ordinary schools and how many of them are teaching in special schools?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 256)

Reply:

To enhance the professional capacity of teachers in supporting students with special educational needs, the Education Bureau has been providing serving teachers with structured training courses pitched at the Basic, Advanced and Thematic levels (BAT Courses) since the 2007/08 school year. The number of public sector mainstream primary and secondary school teachers and special school teachers having completed the BAT Courses and the actual expenditure on the BAT Courses from the 2015/16 to 2017/18 school years are set out in Table (1) and Table (2) respectively:

Table (1)

Course	2015/16			2016/17			2017/18		
	Primary schools	Secondary schools	Special schools	Primary schools	Secondary schools	Special schools	Primary schools	Secondary schools	Special schools
Basic	221	364	7	259	444	4	283	406	7
Advanced	109	147	6	129	197	3	157	152	4
Thematic	201	250	14	204	248	25	217	270	27

Table (2)

Course	Actual Expenditure ($ million)		
	2015/16	2016/17	2017/18
Basic	8.3	10.4	10.3
Advanced	12.6	16.3	15.5
Thematic	24.2	25.3	27.9
Total	45.1	52.0	53.7

Starting from the 2012/13 school year, we have been organising the Training Course for Special School Teachers (TCSST) specifically for serving special school teachers. The number of special school teachers having completed the TCSST and the related actual expenditure from the 2015/16 to 2017/18 school years are as follows:

	2015/16		2016/17		2017/18	
TCSST	Number of teachers	Actual Expenditure ($ million)	Number of teachers	Actual Expenditure ($ million)	Number of teachers	Actual Expenditure ($ million)
	29	3.5	36	4.5	31	3.9

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5966)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Pre-primary Education Voucher Scheme, what were the number of applicants, number of users in each of the 18 districts, and total expenditure involved in the past 3 years?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 260)

Reply:

Applications for joining the Pre-primary Education Voucher Scheme (PEVS) are made on a family basis. A family with more than 1 child applying for the Voucher in the same school year should submit 1 application only. Normally, the Voucher is valid for 3 years. Starting from the 2017/18 school year, new applications for joining PEVS are no longer accepted as the new kindergarten education scheme (KG Scheme) was launched in that school year to replace PEVS. In the 2016/17 school year, there were about 55 030 applications for joining PEVS.

The number of students under PEVS (by District Council district) in the past 3 school years (i.e. 2016/17 to 2018/19 school years) is tabulated in Appendix 1.

The expenditure on PEVS from 2016-17 to 2018-19 is tabulated in Appendix 2.

Number of students under PEVS from the 2016/17 to 2018/19 school years (by District Council district)

District	2016/17	2017/18	2018/19 (Provisional)
Central & Western	4 603	153	70
Wan Chai	2 480	248	130
Eastern	8 646	559	280
Southern	2 530	0	0
Sham Shui Po	8 510	0	0
Yau Tsim Mong	4 709	118	50
Kowloon City	8 676	116	60
Wong Tai Sin	6 997	0	0
Kwun Tong	11 785	163	0
Tsuen Wan	6 137	0	0
Tuen Mun	12 097	0	0
Yuen Long	15 828	0	0
North	11 269	0	0
Tai Po	5 203	92	50
Sha Tin	11 363	0	0
Sai Kung	6 774	0	0
Islands	2 609	0	0
Kwai Tsing	9 697	0	0
Total	139 913	1 449	640

Expenditure on PEVS from 2016-17 to 2018-19

	2016-17 ($ million) (actual)	2017-18 ($ million) (actual)	2018-19 ($ million) (revised estimate)
Expenditure on PEVS (Note)	3,194.0	1,126.9	21.1

Note: Figures in 2017-18 reflect the expenditure on PEVS before the implementation of the KG Scheme (i.e. from April 2017 to August 2017), and the expenditure under the transitional arrangements for 7 and 6 KGs joining PEVS in the 2016/17 school year but not joining the KG Scheme in the 2017/18 and 2018/19 school years respectively. Eligible students studying in these KGs who remain in the eligible classes under PEVS will continue to receive the voucher subsidy under PEVS until they leave the KGs concerned.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5968)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In the past 3 years, how many students attending ordinary schools in each district had been assessed as having special needs? What are their types of special educational needs? What is the age distribution (every 6 years as a group starting from the age of 6)?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 262)

Reply:

The Education Bureau (EDB) has kept information on students with special educational needs (SEN) by school level and SEN type but not by age group. The number of students with SEN studying in public sector mainstream primary and secondary schools by school level and by SEN type in the past 3 years (from the 2016/17 to 2018/19 school years) is set out at the Appendix. With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students with SEN has increased over the years.

As provision of support services for students with SEN does not have relationship with the district in which they live or study, breaking down the number of students with SEN by district is not meaningful. Hence, we have not compiled such figures.

Appendix

**Number of students with special educational needs (SEN)
studying in public sector mainstream primary and secondary schools
by school level and by SEN type from the 2016/17 to 2018/19 school years**

School Year	School Level	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/ Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Mental Illness
2016/17	Primary	8 860	670	5 020	4 350	110	30	300	2 520	-
	Secondary	11 260	910	2 800	5 090	190	80	350	350	-
2017/18	Primary	9 250	690	5 430	4 670	120	40	350	2 430	-
	Secondary	11 460	830	3 280	5 860	170	70	340	370	-
2018/19	Primary	10 370	760	5 690	5 110	110	40	360	2 510	60
	Secondary	11 430	830	3 840	6 780	150	60	310	360	310

Note:

Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

Question:

In the past 3 years, how many students attending ordinary schools in each district were waiting for special needs assessment? What is the age distribution (every 6 years as a group starting from the age of 6)?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 264)

Reply:

The Education Bureau (EDB) has put in place the Early Identification and Intervention Programme for Primary One (P1) Students with Learning Difficulties (EII Programme) in all public sector primary schools for the early identification of P1 students suspected of having learning difficulties. Under the EII Programme, the EDB provides teachers with training and tools. Through the completion of the "Observation Checklist for Teachers", teachers identify as early as possible P1 students with learning difficulties and arrange early intervention for them. Schools will also collaborate with the parents on homework and assessment accommodation, and monitoring of the students' learning progress for adjustment to intervention measures. For students showing severe or persistent learning difficulties despite the intervention rendered, schools will refer them to school-based educational psychologists (EPs) or other professionals for assessment. In the past 3 school years from 2015/16 to 2017/18, on average about 80% of the cases (including primary and secondary school cases) referred to EPs were assessed within 2 months, and about 10% within 2 to 3 months. Some cases with a longer waiting time for assessment were due to special circumstances. For example, there were cases where parents requested to defer the assessment and cases in which assessment had to be held up pending the students' medical treatment. The EDB does not maintain information on the number of students with special educational needs waiting for assessment.

Director of Bureau: Secretary for Education

Question:

In the past 3 years, how many schools in each of the 18 districts have applied for the Learning Support Grant for the provision of tier-1 support? What was the total provision? What were the types of special educational needs involved? What was the age distribution (in age groups of 6 years each, starting from age 6)?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 267)

Reply:

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention, has been providing schools with additional resources (including the Learning Support Grant), professional support and teacher training. All schools are requested to adopt the Whole School Approach to support students with SEN through the 3-tier Intervention Model, taking into account their support needs. Under the 3-tier Intervention Model, tier-1 support refers to early identification and the use of quality teaching in the regular classroom to cater for the diverse learning and adjustment needs of all students, including those identified with mild or transient learning or adjustment difficulties, at an early stage. Teachers will apply their professional knowledge and skills in providing students with tier-1 support. Basically, all students can benefit from tier-1 support and submission of information about these students to the EDB is not required. No additional resources will be provided to schools in this regard.

Question:

In the past 3 years, how many schools in each of the 18 districts have applied for the Learning Support Grant for the provision of tier-2 support? What was the total provision? What were the types of special educational needs involved? What was the age distribution (in age groups of 6 years each, starting from age 6)?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 270)

Reply:

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention, has been providing schools with additional resources (including the Learning Support Grant), professional support and teacher training. All schools are requested to adopt the Whole School Approach to support students with SEN through the 3-tier Intervention Model, taking into account their support needs. Under the 3-tier Intervention Model, tier-1 support refers to early identification and the use of quality teaching in regular classroom to cater for the diverse learning and adjustment needs of all students, including those identified with mild or transient learning or adjustment difficulties, at an early stage. Teachers will apply their professional knowledge and skills in providing students with tier-1 support. Basically, all students can benefit from tier-1 support and submission of information about these students to the EDB is not required. No additional resources will be provided to schools in this regard. Tier-2 support refers to additional support/provision of "add-on" intervention, such as small group learning, after-school tutorials and pull-out programmes for students with persistent learning or adjustment difficulties. Tier-3 support refers to individualised intensive support, including the drawing up of individual education plan, for students with persistent and severe learning or adjustment difficulties.

When providing additional resources, the EDB takes into account various parameters, such as the number of students with SEN in schools, and the tier of support they require. Based on the principle of "calculation on individual basis and deployment holistically", schools should pool and deploy the LSG and other school resources flexibly and holistically. Besides, the tier of support for students with SEN is subject to upward or downward adjustment from time to time, depending on the performance of the students and the support they require at different times, the distribution of students under the 3-tier Intervention Model may change accordingly. Hence, the overall concept of the LSG is not about applying for and then using the LSG on students who require a specific tier of support. To provide a full picture on the provision of LSG to schools, the number of public sector mainstream primary and secondary schools provided with the LSG and the total expenditure in the past 3 years (2016/17 to 2018/19 school years) are set out in Table 1 of Appendix 1. The number of public sector mainstream primary and secondary schools having students requiring tier-2 support for whom LSG has been provided in the past 3 years (2016/17 to 2018/19 school years) is set out in Table 2 of Appendix 1. Since the provision of additional resources does not have relationship with the districts in which the schools locate, a breakdown of the provision by district is not available.

The number of students with SEN studying in public sector mainstream primary and secondary schools by school level and by SEN type from the 2016/17 to 2018/19 school years is set out at Appendix 2. The EDB maintains information of students with SEN by grade level and by SEN type. We do not maintain information of such students by age group.

Table 1: Number of public sector mainstream primary and secondary schools provided with the Learning Support Grant (LSG) and the total provision from the 2016/17 to 2018/19 school years

		2016/17	2017/18	2018/19
Primary School	No. of schools	314	355(Note)	381(Note)
	Total provision ($ million)	262.4	280.9	308.8
Secondary School	No. of schools	382	385	385
	Total provision ($ million)	276.6	308.7	337.5

Table 2: Number of public sector mainstream primary and secondary schools having students requiring tier-2 support for whom LSG has been provided from the 2016/17 to 2018/19 school years

No. of schools	2016/17		2017/18		2018/19	
	Primary School	Secondary School	Primary School	Secondary School	Primary School	Secondary School
	313	380	346	384	381	384

Note:
Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. As schools adopting IRTP and IE Programme will also have students with mental illness for whom LSG has been provided, there is a significant change in the numbers of relevant schools in the 2017/18 and 2018/19 school years when compared with those of the previous years.

Number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by school level and by SEN type from the 2016/17 to 2018/19 school years

School Year	School Level	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit / Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Mental Illness
2016/17	Primary	8 860	670	5 020	4 350	110	30	300	2 520	-
	Secondary	11 260	910	2 800	5 090	190	80	350	350	-
2017/18	Primary	9 250	690	5 430	4 670	120	40	350	2 430	-
	Secondary	11 460	830	3 280	5 860	170	70	340	370	-
2018/19	Primary	10 370	760	5 690	5 110	110	40	360	2 510	60
	Secondary	11 430	830	3 840	6 780	150	60	310	360	310

Note:

Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5979)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please list the number of students in all special schools in the territory (disaggregated by day, 5-day boarding, 7-day boarding, orphan and non-Chinese speaking (NCS)) and the cost per capita of each school (disaggregated by day , 5-day boarding, 7-day boarding, orphan and NCS) in the past 3 years.
2. Please list the number of new students and their age (disaggregated by day, 5-day boarding, 7-day boarding, orphan and NCS).
3. Please list the number of school leavers and their age (disaggregated by day, 5-day boarding, 7-day boarding, orphan and NCS).
4. Please list the growth in the number of applicants waiting for various types of adult services (disaggregated by day, 5-day boarding, 7-day boarding, orphan, NCS, gender and age).

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 273)

Reply:

The Education Bureau does not keep school-based personal data of students and information on their family background, and is therefore not able to provide the related information as requested. In addition, compilation of certain data for the 2018/19 school year, such as the number of new students, school leavers and those waiting for adult services is only possible upon conclusion of the school year. For the time being, relevant data for the 3 school years from 2015/16 to 2017/18 is presented.

The average unit cost per school place and the average unit cost per boarding place for each type of special schools in these 3 school years are set out at Appendix 1.

The number of students, number of non-Chinese speaking students, number of 5-day and 7-day boarders, number of new students with age range by day student, 5-day boarding and 7-day boarding, number of school leavers with age range by day student, 5-day boarding and 7-day boarding, and number of school leavers waiting for adult services in these 3 school years in special schools are set out at Appendix 2. With the implementation of the New Senior Secondary academic structure in the 2009/10 school year, in general, students will leave school after completion of Secondary Six. Special schools will help their students plan and apply for post-school placement in accordance with their interests, capabilities and needs. Since the post-school arrangements do not have relationship with boarding service, age and gender, thus, we have not compiled relevant data.

Appendix 1

Table 1: Average Unit Cost per School Place for Each Type of Special Schools from the 2015/16 to 2017/18 School Years

School Type	Average Unit Cost per School Place		
	2015/16	**2016/17**	**2017/18**
Visual Impairment	$293,000	$320,000	$359,000
Hearing Impairment	$293,000	$306,000	$343,500
Physical Disability	$294,000	$314,000	$334,000
Mild Intellectual Disability Note 1	$171,500	$177,000	$195,500
Moderate Intellectual Disability Notes 1 & 2	$253,000	$260,000	$285,500
Severe Intellectual Disability Note 2	$329,000	$342,000	$361,500
School for Social Development	$164,000	$181,000	$200,000
Hospital School	$178,000	$186,000	$198,500

Notes:

1. Schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of schools for children with MiID and MoID (7 schools in the 2015/16 school year and 5 schools starting from the 2016/17 school year).
2. 1 school for children with severe intellectual disability (SID) operates classes for children with MoID on a pilot basis starting from the 2017/18 school year.

Table 2: Average Unit Cost per Boarding Place for Each Type of Special Schools from the 2015/16 to 2017/18 School Years

School Type	Average Unit Cost per Boarding Place		
	2015/16	2016/17	2017/18
Visual Impairment	$166,000	$177,500	$183,500
Hearing Impairment	$403,500	$441,500	Not applicable Note 6
Physical Disability	$282,500	$294,500	$302,500
Mild Intellectual Disability Note 1	Not applicable	Not applicable	Not applicable
Moderate Intellectual Disability Notes 2 & 3	$243,000	$252,000	$258,500
Severe Intellectual Disability Note 3	$306,000	$321,000	$331,500
School for Social Development Note 4	Not applicable	Not applicable	Not applicable
Hospital School Note 5	Not applicable	Not applicable	Not applicable

Notes:

1. Schools for children with MiID do not provide boarding service.
2. Schools for children with MiID and schools for children with MoID include the respective sections of schools for children with MiID and MoID (7 schools in the 2015/16 school year and 5 schools starting from the 2016/17 school year).
3. 1 school for children with SID operates classes for children with MoID on a pilot basis starting from the 2017/18 school year.
4. Residential services provided in schools for social development are subvented by the Social Welfare Department.
5. Hospital School only provides educational services to hospitalised students and does not provide boarding services.
6. 1 school for children with hearing impairment has completed mainstreaming in the 2018/19 school year. In the 2017/18 school year, its boarding section only provided a few boarding places based on students' needs and there was special arrangement for its staff establishment. Calculation of average unit cost per boarding place is not applicable.

Appendix 2

Information on Students of Special Schools from the 2015/16 to 2017/18 School Years

Item			Age Range (Year)	School Year [Notes 1 & 2]		
				2015/16	2016/17	2017/18
1	**Total Number of Students (No. of Non-Chinese Speaking (NCS) Students [Note 3])**			7334 (363)	7349 (367)	7512 (390)
2	**Number of Boarders (No. of NCS Students [Note 3])**	**5-day**		428 (12)	417 (12)	404 (10)
		7-day		545 (7)	552 (6)	572 (6)
3	**Number of New Students [Note 4] (No. of NCS Students [Note 3])**	**Day Place**	6-21	981 (60)	1 028 (56)	1 101 (99)
		5-day Boarding	6-21	60 (3)	63 (2)	60 (6)
		7-day Boarding	6-21	61 (1)	83 (4)	94 (3)
4	**Number of School Leavers [Notes 5] (No. of NCS Students [Note 3])**	**Day Place**	6-26	985 (42)	968 (40)	1 010 (50)
		5-day Boarding	6-26	71 (2)	80 (4)	63 (2)
		7-day Boarding	6-26	61 (1)	73 (3)	56 (0)
5	**Number of School Leavers Waiting for Adult Services [Note 6] (No. of NCS Students [Note 3])**			81 (6)	107 (6)	140 (7)

Notes:

1. Number of students in items 1-2 denotes the position as at September of the respective school years.
2. Students from the Hospital School are not included due to the transitional nature of the education service provided.
3. Number of NCS students covers those students whose home language as known to Education Bureau is not Chinese regardless of their ethnicity.
4. Number of new students is counted as follows:
   (i) Day place:
   - only first admission to special schools is counted;
   - excluding those students transferred between special schools.

   (ii) 5-day and 7-day boarding:
   - students who changed from a 5-day boarding to a 7-day boarding or vice versa are counted as new admission to that type of boarding service.

5. Number of school leavers is counted as follows:
   (i) Day place:
      - only last attendance at special schools is counted;
      - excluding those students transferred between special schools.

   (ii) 5-day and 7-day boarding:
      - students who left from a 5-day boarding to a 7-day boarding or vice versa are counted as school leavers of that type of boarding.

6. (i) Adult services include day activity centres, sheltered workshops cum hostels, supported hostels, etc.
   (ii) The above information was collected from special schools in July and August of the respective school years. As such, the above figures may not reflect the actual situation of the post-school arrangement of school leavers.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5980)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the number of students receiving Tier 1 "Grant for Support for Boarders with Medical Complexity" in all special schools in the territory and the expenditure involved in the past 3 years (by day student, 5-day boarding, 7-day boarding, gender and age).

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 274)

Reply:

Starting from the 2014/15 school year, an "Additional Support Grant for Enhancing the Support for Boarders with Medical Complexity in Aided Special Schools (Additional Grant)" has been provided for special schools with boarding section to enhance the support for boarders with medical complexity (MC). The situation of individual schools are not disclosed to avoid misconceptions about the conditions of students studying in respective schools and the possible labelling effect on the schools concerned based on the number of boarders with MC in school. As information with respect to the 2018/19 school year is subject to verification, we now provide the respective numbers of students and expenditures for the 2015/16, 2016/17 and 2017/18 school years. During these 3 school years, there were 20 special schools benefitted from the grant. The number of boarders requiring Tier 1 support in these schools is tabulated below:

School year	5-day boarding	7-day boarding
2015/16	56	78
2016/17	67	91
2017/18	88	113

Note: As the disbursement of grant has no connection with gender and age, the Education Bureau has not gathered relevant information from schools.

In principle, the Additional Grant is calculated on the basis of the number of boarders with MC in the school and the tier of support required by those boarders. There is a basic provision for the grant so that schools are provided with sufficient resources to cater for the needs of boarders with MC. Listing only the amount of provision calculated on the basis of the number of boarders requiring Tier 1 support cannot reflect the actual expenditure on the grant. Therefore, the expenditure on the grant in the abovementioned 3 school years is listed below so as to fully reflect the additional resources provided for special schools to take care of boarders with MC:

School year	Expenditure on the grant
2015/16	$7,299,480
2016/17	$7,701,615
2017/18	$9,316,428

- End -

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the number of students who applied for extension of years of study (EoS) in special schools, reasons for application and reasons for rejection over the past 3 years.

a. What are the number of students who applied for EoS for the first time, and the number of day students and boarders?

b. What are the number of students who applied for EoS for the second time, and the number of day students and boarders?

c. What are the number of students who applied for EoS for the third time, and the number of day students and boarders?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 277)

Reply:

The improvement measures on extension of years of study (EoS) were introduced in the 2010/11 school year for students in schools for children with intellectual disability (ID schools), schools for children with physical disability, schools for children with hearing impairment, and the school for children with visual impairment cum intellectual disability. Under this measure, the Education Bureau (EDB) provides the schools with additional school places and allows them to devise school-based policy to exercise professional judgment to arrange for students in need and with valid reasons to extend their years of study in accordance with the objective criteria jointly set by EDB and the special education sector. As the applications for EoS were made direct to and subsequently approved by the special schools concerned, EDB does not have the number, reasons and frequency of such applications in the special schools.

Question:

In the past 3 years, what was the number of candidates who applied for special examination arrangements? What were their types of special needs? What was the age distribution (with every 6 years as a group)?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 280)

Reply:

The number of students with special educational needs (SEN) applying for and with approval given for special examination arrangements in the Hong Kong Diploma of Secondary Education (HKDSE) Examination in the past 3 years, set out by type of SEN and age distribution is listed below[#]:

Year of Examination	Physical Disabilities	Visual Disabilities	Aural Disabilities	Oral Disabilities	Specific Learning Disabilities	Other Disabilities	Total
2016	115	56	269	128	881	598	2 047
2017	122	58	283	145	1 064	770	2 442
2018	101	55	278	162	1 166	904	2 666

Age (As at May 1)	2016 HKDSE	2017 HKDSE	2018 HKDSE
16 to 21	2 013	2 398	2 643
22 to 27	28	35	18
28 to 33	3	3	1
34 to 39	1	3	1
40 to 45	1	1	2
46 to 51	0	0	0
52 to 57	1	2	1
Total #	2 047	2 442	2 666

Statistics on the number of candidates whose applications have been approved; figures on the number of unsuccessful or opt-out applicants are excluded.

Question:

How many candidates with special needs were qualified for admission to universities in the past 3 years?

How many students with special needs were admitted to each of the universities?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 281)

Reply:

In the past 3 years, the number of candidates with special educational needs (SEN) sitting for the Hong Kong Diploma of Secondary Education Examination (HKDSE) having met the general entrance requirements of undergraduate programmes is as follows:

Year of Examination	Number of HKDSE candidates with SEN having met the general entrance requirements of undergraduate programmes
2016	354
2017	439
2018	475

Note: In addition to the general entrance requirements, individual universities may determine the attainment level required for 1 or 2 designated or non-designated elective subjects and stipulate further admission requirements. The above figures indicate the number of candidates meeting the general entrance requirements only. The general entrance requirements of undergraduate programmes are set at: "3322" for the 4 core subjects, i.e. Level 3 for Chinese Language and English Language, and Level 2 for Mathematics and Liberal Studies.

In the past 3 years, the number of students with SEN admitted to the University Grants Committee (UGC)-funded full-time locally-accredited undergraduate programmes is set out at **Appendix A**. The number of students with SEN admitted to the self-financing full-time locally-accredited undergraduate programmes offered by the UGC-funded universities and private universities is set out at **Appendix B**.

Appendix A

Number of students with SEN admitted to the UGC-funded full-time locally-accredited undergraduate programmes by institution in the 2018/19 academic year

(Number of students)

	University								
	CityU	HKBU	LU	CUHK	EdUHK	PolyU	HKUST	HKU	Total
Number of students with SEN	22	20	5	24	1	40	34	32	178

Notes:

1. Figures are provided by the UGC-funded universities. The UGC gathers data on the number of students with SEN admitted to the UGC-funded full-time undergraduate programmes starting from the 2018/19 academic year. We do not maintain data before the 2018/19 academic year.
2. Figures are provisional.
3. Abbreviations:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

Appendix B

Number of students with SEN admitted to the self-financing full-time locally-accredited undergraduate programmes offered by the UGC-funded universities and private universities by institution from the 2016/17 to 2018/19 academic years

(Number of students)

University	2016/17 academic year	2017/18 academic year	2018/19 academic year
City University of Hong Kong	0	1	1
Hong Kong Baptist University	19	0	1
Lingnan University	0	0	0
The Chinese University of Hong Kong	0	0	0
The Education University of Hong Kong	4	7	12
The Hong Kong Polytechnic University	1	1	3
The Hong Kong University of Science and Technology	1	1	1
The University of Hong Kong	0	0	0
Hong Kong Shue Yan University	22	48	49
The Open University of Hong Kong	43	49	61
Hang Seng University of Hong Kong	-	-	24

Note:

1. Figures are provided by the universities and cover self-financing full-time locally-accredited undergraduate programmes offered by the UGC-funded universities and private universities only.
2. Figures for the 2018/19 academic year are provisional.
3. The Hang Seng Management College acquired university title on 30 October 2018.

$30,000 or above	%	%	%	%	%	%	%	%

3. 10-year change in median income by academic qualification (excluding full-time students and foreign domestic helpers)

Academic qualification Median income	Graduates of UGC-funded associate degree programmes	Graduates of UGC-funded higher diploma programmes	Graduates of UGC-funded undergraduate programmes	Graduates of self-financing associate degree programmes	Graduates of self-financing higher diploma programmes	Graduates of self-financing undergraduate programmes	Those having completed vocational training under Youth Employment and Training Programme	Those having completed vocational training under Employees Retraining Board
Aged 20-24 in 2006	$	$	$	$	$	$	$	$
Aged 25-29 in 2011	$	$	$	$	$	$	$	$
Aged 30-34 in 2016	$	$	$	$	$	$	$	$

4. Number of dropouts from self-financing programmes

	Self-financing associate degree programmes (no. of students)	Self-financing higher diploma programmes (no. of students)	Self-financing undergraduate programmes (no. of students)
2014/15			
2015/16			
2016/17			
2017/18			

5. Number of working adults pursing continuing education or receiving retraining by length of work experience

Continuing education/ retraining programmes	UGC-funded associate degree programme (no. of persons)	UGC-funded higher diploma programme (no. of persons)	UGC-funded undergraduate programme (no. of persons)	Self-financing associate degree programme (no. of persons)	Self-financing higher diploma programme (no. of persons)	Self-financing undergraduate programme (no. of persons)	Vocational training under Youth Employment and Training Programme (no. of persons)	Vocational training under Employees Retraining Board (no. of persons)
1-2 years of work experience								
2-4 years of work experience								
4-6 years of work experience								
6-8 years of work experience								
Over 8 years of work experience								

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 400)

Reply:

1. According to the findings of graduate employment surveys by the University Grants Committee (UGC) and relevant surveys by self-financing institutions, the average annual salary of graduates of full-time sub-degree and undergraduate programmes of the 2017 cohort who are engaged in full-time employment is tabulated as follows. The Government does not maintain the requested information on median income.

	UGC-funded sub-degree programme graduates (Note 1)	UGC-funded undergraduate programme graduates (Note 1)	Self-financing associate degree programme graduates (Note 2)	Self-financing higher diploma programme graduates (Note 2)	Self-financing undergraduate programme graduates (Note 2)
Average annual salary	$208,000	$239,000	$159,078	$170,456	$179,829

The Youth Employment and Training Programme (YETP) launched by the Labour Department provides comprehensive pre-employment and on-the-job training for young school leavers aged 15 to 24 with educational attainment at sub-degree level or below. YETP operates on the basis of programme year, running from September each year to August of the following year. The average monthly salary of trainees engaged in on-the-job training posts under YETP in the 2017/18 programme year is $9,962. The Government does not maintain the requested information on vocational training (Employees Retraining Board programmes).

Note 1: UGC-funded sub-degree programmes include higher diploma and associate degree programmes. As advised by UGC-funded universities, figures on the average annual salary of their graduates include commission and other cash allowances (e.g. double pay, year-end payment/bonus, etc.). Employment information of gradates of a particular academic year is collected through graduate employment surveys conducted by UGC-funded universities during December of the corresponding year.

Note 2: Figures above only represent the average annual salary of graduates engaged in full-time employment who have responded to the graduate employment surveys conducted by the respective self-financing institutions and have reported their salary information.

2. The number of trainees engaged in on-the-job training posts under YETP in the 2017/18 programme year broken down by wage level and expressed in percentage terms is as follows:

Average monthly salary	Vocational training under YETP
<$8,000	2.30%
$8,000 -<$10,000	52.65%
$10,000-<$15,000	43.99%
$15,000-<$20,000	1.06%
$20,000-<$25,000	- %
$25,000-<$30,000	- %
$30,000 and above	- %

The Government does not maintain the requested information on other aspects.

3-5. The Government does not maintain relevant information.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

How many enrolled nurses are working in schools?
How many Physiotherapist I are working in schools?
How many Physiotherapist II are working in schools?
How many Occupational Therapist I are working in schools?
How many Occupational Therapist II are working in schools?
What is the staff cost or monthly expenditure per headcount?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 434)

Reply:

There is no distinct establishment for enrolled nurses, physiotherapists and occupational therapists in public sector mainstream schools. Special schools, however, have physiotherapists and occupational therapists but not enrolled nurses in their staff establishment. The salary scale, mid-point salary and staff establishment of physiotherapists and occupational therapists in special schools in the 2018/19 school year are tabulated below:

Specialist Staff	Salary Scale	Mid-point Salary	Staff Establishment
Physiotherapist I	$48,540 - $70,590	$58,345	25
Physiotherapist II	$28,725 - $46,420	$36,665	33
Occupational Therapist I	$48,540 - $70,590	$58,345	25
Occupational Therapist II	$28,725 - $46,420	$36,665	72

Question:

(1) Please provide the number of vacant school premises (VSP) that have not been earmarked for educational use, as well as the districts where they are located and their addresses, with a breakdown by 18 districts and the length of vacancy period (i.e. under 1 year, 1-3 years, and 3 years or more). What were the expenditures incurred for the management and maintenance of these VSP in each of the past 3 years (i.e. 2015-16, 2016-17 and 2017-18)?

(2) Please provide the number of VSP that have been earmarked for educational use, as well as the districts where they are located and their addresses, with a breakdown by 18 districts and the length of vacancy period (i.e. under 1 year, 1-3 years, and 3 years or more). What were the expenditures incurred for the management and maintenance of these VSP in each of the past 3 years?

(3) How many applications were submitted by social welfare organisations for hiring this type of idle government premises in the past 5 years? How many applications were approved? How many applications were rejected and why?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 381)

Reply:

It has all along been the Education Bureau (EDB)'s policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacant school premises, the EDB will consider factors including the size, location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use and whether the premises is needed to be reallocated for school or other educational use. Once the EDB confirms that the VSP are no longer required by the EDB for reallocation for school use, the EDB would inform the

Planning Department (PlanD) and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) in accordance with the central clearing house mechanism. As the Central Clearing House, the PlanD would conduct reviews and recommend the suitable alternative long-term uses (such as Government, Institution or Community (G/IC)), residential and other uses) for the concerned VSP sites. Upon confirmation on the long-term uses of the VSP sites concerned, the PlanD would inform the departments concerned (such as LandsD and HD, etc.) of the recommendations for their follow-up actions as appropriate. Based on the released review findings, the PlanD has reviewed and confirmed the long-term uses of 183 VSP. According to the mechanism, the EDB is allowed to retain VSP for school use. However, if the EDB intends to use VSP for other educational uses, the EDB needs to put forward its proposed use with justification to the PlanD for assessment and may need to compete with other government departments on use of such VSP.

As at end-February 2019, there are 10 VSP under the EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by the EDB). Information of the school premises concerned is as follows:

Table — 10 VSP under the EDB's purview (Position as at end-February 2019)

No.	**District**	**Former School Name**	**Address**	**School year in which the school ceased operation (Note)**	**Site area of school premises (rounded to the nearest hundred m^2)**
1	Wan Chai	Wanchai School	30 Oi Kwan Road, Wan Chai, Hong Kong	2006/07	2 000
2	Eastern	Hong Kong Japanese School	9 Hau Yuen Path, Braemar Hill Road, North Point, Hong Kong	2017/18	2 900
3	Southern	St. Peter's Secondary School	220 Aberdeen Main Road, Hong Kong	2012/13	6 000
4	Kowloon City	Hung Hom Government Primary School	68 Gillies Avenue, Hung Hom, Kowloon	2009/10	1 900
5	Wong Tai Sin	S.K.H. Ching Shan Primary School	3 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	3 700 (Total)
6	Wong Tai Sin	S.H.K. Yat Sau Primary School	1 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	
7	Sham Shui Po	Kowloon Junior School	4 Rose Street, Yau Yat Chuen, Kowloon	2013/14	3 700
8	Sham Shui Po	Chi Yun School	19 Kwong Lee Road, Kowloon	2018/19	2 000

9	Tai Po	Tai Po Government Primary School	22 Wan Tau Kok Path, Tai Po, New Territories	1999/00	2 400
10	Islands	Cheung Chau Public School	School Road, Cheung Chau, New Territories	2006/07	5 800

Note: "School year in which the school ceased operation" refers to the year the school premises were ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

The EDB is responsible for the management of VSP located on sites allocated to the EDB, including those that the PlanD has been informed of under the Central Clearing House mechanism but that the LandsD has requested the EDB to continue the management until the next users have been identified and taken over the land. From 2015-16 to 2017-18, the expenditures incurred by the EDB for the management of VSP are $1.221 million, $1.341 million and $1.266 million respectively, which mainly include security patrol and inspections, pest control, removal of litter, as well as cleansing and weeding.

As the VSP under the EDB's purview are earmarked/retained for school or other educational uses, they would not be open for hire by other organisations. The EDB does not maintain any information pertaining to the current condition and use of VSP returned under the Central Clearing House mechanism, applications for hiring these VSP submitted by social welfare or other organisations (if applicable) and the expenditure incurred for the management of these VSP by relevant departments.

Question:

In 2012 and 2017, the Education Bureau commissioned consultants to study the shortfall of international school places in Hong Kong. According to the consultancy report, the Government has allocated more land to school sponsoring bodies of international schools in recent years. Please provide the numbers of places and student intakes of each newly developed/expanded international school in the past 5 years.

Asked by: Hon TAM Man-ho, Jeremy (LegCo internal reference no.: 425)

Reply:

The Government is committed to developing a vibrant international school system through various measures mainly to meet the demand for international school places from non-local families living in Hong Kong or coming to Hong Kong for work or investment.

The Education Bureau (EDB) has allocated a total of five vacant school premises and three greenfield sites for international school development through School Allocation Exercises (SAEs) completed in 2013 and 2015. These eight new international school campuses have gradually commenced operations from the 2014/15 school year and will provide a total of some 6 000 places progressively. From the 2014/15 to 2018/19 school years, the number of students in these international schools who are studying in campuses operating in allocated premises/campuses developed on allocated greenfield sites is provided at the **Annex**. Same as other private schools, international schools may use their classrooms flexibly and adjust the provision of classes and places yearly according to school-based needs. Even though schools are requested to provide their number of school places for EDB's reference, we will not, as a standard practice, disclose the number of places available at individual schools to avoid misinterpretation of such information, which may have adverse impact on the schools.

According to the findings of the consultancy study on the provision of international school places in primary and secondary levels in Hong Kong released in February 2017, there will be no shortfall in international school places in primary and secondary levels in the coming five school years starting from the 2018/19 school year. We will continue to closely monitor the provision of international school places, in particular for meeting the demand of non-local families coming to Hong Kong for work or investment. We will also continue to facilitate the development of the international school sector and take appropriate actions, including launching another School Allocation Exercise for international school development subject to availability of suitable premises or sites, as and when necessary.

Annex

Number of students in international schools allocated with vacant school premises or greenfield sites under the 2013 and 2015 School Allocation Exercises from the 2014/15 to 2018/19 school years

Name of school	2014/15	2015/16	2016/17	2017/18	2018/19
	No. of students	No. of students	No. of students	No. of students	No. of students
Carmel School(2)	92	96	106	169	173
Nord Anglia International School, Hong Kong	477	639	782	888	958
The International Montessori School	210	248	504	544	584
American School Hong Kong			96	174	227
The Harbour School(2)			122	186	243
French International School(2)					676
Malvern College Hong Kong					398
Shrewsbury International School					238
Total	**779**	**983**	**1 610**	**1 961**	**3 497**

Notes:

(1) Figures refer to the position as at September of the respective school years.

(2) These schools operate in more than one campus. The numbers in the above table only refer to those students studying in campuses operating in vacant school premises/campuses developed on greenfield sites which are allocated under the School Allocation Exercises.

Director of Bureau: Secretary for Education

Question:

Please advise on the effectiveness of STEM teaching in the past 5 years. Please also advise how the effectiveness is evaluated by the Education Bureau and how the statistics are collected.

Asked by: Hon TAM Man-ho, Jeremy (LegCo internal reference no.: 618)

Reply:

In 2016, the Education Bureau (EDB) released the Report on "Promotion of STEM Education – Unleashing Potential in Innovation" setting out a number of recommended measures which are being implemented progressively, including renewing the curricula of Science, Technology and Mathematics Education KLAs, enriching the learning activities for students, enhancing professional development of teachers, strengthening partnerships with key stakeholders in the community, etc. In the 2015/16 and 2016/17 school years, we provided a one-off grant of $100,000 and $200,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school to support them to organise school-based activities/projects on STEM education. In light of the latest development in science and technology, we updated the relevant curriculum guides, which were published in 2017. In the 2017/18 school year, we enhanced coding education at the primary level to develop students' computational thinking skills. STEM education has gradually achieved results in the past few years. Currently, schools can generally implement school-based STEM education based on their strengths while catering for the interests of students. For many schools, STEM education is their major concern or focus of future development and it is carried out by different subject panels and functional committees collaboratively. Furthermore, many schools with outstanding performance in implementing STEM education have been invited by the EDB to participate in the Quality Education Fund Thematic Networks. These schools have organised networking activities to share their experience on the implementation of school-based STEM education with other schools

regarding various themes. Some of the schools even nominated students with exceptional potential to take part in national or international competitions and their students achieved great results. To our knowledge, many students have become more proactive in learning science and technology. They have shown greater interest and motivation in classroom learning and become more confident. How students benefit from STEM education cannot be evaluated through paper and pencil assessment. We will conduct an overall review from multiple perspectives by means of school visits, daily contact with schools, etc. to collect views from different stakeholders regarding the support measures, so as to evaluate the effectiveness of the implementation of STEM education and refine the support measures in a timely manner.

Question:

It is stated under Matters Requiring Special Attention in 2019-20 that the Administration will "continue to provide Mainland exchange opportunities for primary and secondary school students". Please advise this Committee of the following:

(1) the number of Mainland exchange programmes for primary and secondary school students organised by the Education Bureau in the past 3 financial years. Please set out the target number and actual number of participants, destination, receiving body, learning objectives, size of entourage and expenditure of each exchange programme.

(2) The estimated expenditure under Programme (6) for the new financial year is $1,181.2 million, representing a decrease of 72.1% over that of the last financial year. For the new financial year, please advise on the amount of provision for organising Mainland exchange programmes on national education for primary and secondary school students, the estimated number of relevant exchange programmes, and the manpower and estimated expenditure involved.

(1) To dovetail with the school curriculum and the latest development of our country, the Education Bureau (EDB) organises Mainland exchange programmes with diversified themes and destinations for primary and secondary students, or subsidises those organised by schools every year. Examples include the "Mainland Exchange Programme for Junior Secondary and Upper Primary Students" (「同根同心」── 香港初中及高小學生內地交流計劃), the "Mainland Exchange Programme for Secondary School Students" (「同行萬里」中學生內地交流計劃), the "Junior Secondary and Upper Primary School Students Exchange Programme Subsidy Scheme: Understanding Our Motherland" (初中及高小學生

交流活動資助計劃 ── 「赤子情•中國心」), the "Senior Secondary School Students Exchange Programme Subvention Scheme" (高中學生交流活動資助計劃), the "Mainland Exchange Programme for Student Leaders" (領袖生內地交流計劃) and some thematic Mainland exchange programmes. These programmes enable participants to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. They cover different Mainland provinces and cities, including 22 provinces, 4 autonomous regions and 4 municipalities. The number of student Mainland exchange programmes varies year from year because schools will decide whether or not and when to participate in such programmes after taking into account the planning of other learning activities within the school year. Teachers participate in these student Mainland exchange programmes as learning facilitators according to the "1 teacher : 10 students ratio". Besides, the service providers commissioned by the EDB to organise exchange programmes will arrange accompanying escorts with Tour Escort Pass to take care of participants during the trip. These service providers may cooperate with different receiving bodies according to the provisions in the relevant contracts. The EDB does not have a list of the receiving bodies involved.

The numbers of primary and secondary students participating in Mainland exchange programmes with the provision of subsidy and the expenditures involved in the past 3 years (2016-17, 2017-18 and 2018-19) are as follows:

Financial year	Number of students (rounded down to the nearest hundred)		Expenditure ($million)	
	Secondary students	Primary students	Secondary students	Primary students
2016-17	33 200	23 100	44.7	13.3
2017-18#	35 900	23 500	50.5	20.2
2018-19+	39 200	30 300	69.3	21.3

Actual figures revised from last year's estimates

\+ Provisional figures

(2) The EDB will continue to provide primary and secondary students with adequate Mainland exchange opportunities. In 2019-20, the estimated expenditure on Mainland exchange programmes is $115 million, and the number of places provided is 109 000. The manpower resources required are subsumed under the recurrent expenditure of EDB.

Director of Bureau: Secretary for Education

Question:

In respect of professional exchange programmes arranged as part of national education for teachers, please advise this Committee:

(1) of the professional exchange programmes arranged for teachers in the past 2 financial years;
(2) of the objectives, target groups and expenditures of these programmes;
(3) of the number of teachers participating in each programme and the type of schools in which they serve;
(4) whether participation in these programmes is voluntary or mandatory and of the ways to ensure that teachers can really benefit from these programmes; and
(5) of the number of professional exchange programmes to be organised in the new financial year and the estimated expenditure involved.

Asked by: Hon TSE Wai-chun, Paul (LegCo internal reference no.: 14)

Reply:

The Education Bureau (EDB) provides various professional Mainland exchange programmes for primary and secondary school teachers to widen their professional horizons and deepen their understanding of the Mainland's development in different aspects, thereby enhancing their professional competence. Professional exchange programmes mainly include school visits, cultural visits, thematic talks, seminars, lesson observations, professional exchanges, etc. These activities target teachers of different subjects and ranks in public sector schools. Teachers may participate in suitable exchange programmes on a voluntary basis in light of school contexts and individual professional development needs. In the coming year, the EDB will continue to organise a wide variety of exchange activities for teachers and make effective use of resources based on teachers' professional

development needs to provide more opportunities for them to participate in professional exchange activities.

The expenditure on Mainland exchange programmes organised for teachers in the past 2 years (2017-18 and 2018-19) and 2019-20 is as follows:

Financial year	No. of primary and secondary school teachers (rounded down to the nearest ten)	Expenditure ($ million)[@]
2017-18[#]	560	3.3
2018-19[*]	1 210	6.2
2019-20[++]	2 460	12.2

@ Manpower resources required in organising Mainland exchange activities subsumed under EDB's recurrent expenditure
# Actual figures revised from preceding year's estimate
* Provisional figures
++ Estimated figures

The EDB has all along attached great importance to the effectiveness of professional exchange programmes ogranised for teachers. A regular mechanism is in place to gauge the feedbacks of participants of these activities, which includes having evaluation meetings with service providers, deploying staff to attend the activities to assess the appropriateness of the content and collect the immediate responses of participants, conducting questionnaire surveys, arranging interviews and post-programme sharing sessions, etc.

Question:

In respect of the Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme), please advise this Committee of the following:

(1) What are the details of the Scheme?
(2) What is the number of teachers applying for the Scheme and the number of successful applicants granted non-local study leave in the past 2 financial years?
(3) What criteria does the Government adopt in deciding a teacher's eligibility for the Scheme?
(4) Which are the countries and institutions where participating teachers receive training? What is the annual expenditure on tuition fee?
(5) Will the Government regularise the scheme and extend it to cover primary school teachers?

Asked by: Hon TSE Wai-chun, Paul (LegCo internal reference no.: 15)

Reply:

(1) The Education Bureau (EDB) launched the "i-Journey" Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. Participating teachers will be given 7 to 9 weeks' paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research.

(2) In the 2017/18 and 2018/19 school years, a total of 228 teachers applied for the Scheme and 90 teachers were granted approval.

(3) Applicants must be full-time serving secondary school teachers who:
(a) are permanent residents of Hong Kong;
(b) are registered teachers;
(c) are regular teachers in government, aided (including special schools), caput or Direct Subsidy Scheme secondary schools at the time of application; and
(d) have no less than five years (as at the date of application for the respective programme) of full-time teaching experience in local secondary schools.

All applications are assessed against a set of selection criteria, such as applicants' experience, relevance of their proposal to the programme applied for and principal's recommendation, by the Vetting Committee, which identifies suitable participants after thorough deliberation.

(4) In the 2017/18 and 2018/19 school years, the details of the Scheme are as follows:

2017/18 school year (First Batch of the Scheme)	
Destination	Institution
Helsinki & Jyväskylä, Finland	University of Jyväskylä
Melbourne, Australia	Deakin University
Exeter, the United Kingdom	University of Exeter

2018/19 school year (Second Batch of the Scheme)	
Destination	Institution
Turku, Finland	University of Turku
Southampton, the United Kingdom	University of Southampton
Singapore	National Institute of Education, Nanyang Technological University

The tuition fee for the first batch of the Scheme was $4.48 million. Since the second batch of the Scheme has yet to finalise all the expenditure items, the expenditure figures are unavailable at the present stage.

(5) The Scheme will be piloted over 3 years. Data and information collected during this period will be used by the EDB to form the basis of evaluation and inform future development.

Question:

Regarding the Mainland University Study Subsidy Scheme (MUSSS), please provide the following information:

1. What are the number of applications received and the number of subsidy recipients in the past 4 years?

2. What are the number of students pursuing undergraduate study in Mainland through the MUSSS, and the names of institutions and programmes attended by these students in the past 4 years?

3. What are the estimated expenditure this year and the estimated number of beneficiaries?

4. Has the Government taken any follow-up measures to learn more about the learning situation of subsidy recipients in Mainland, address problems related to the recognition of Mainland qualifications in Hong Kong, and gauge students' intention to return and work in Hong Kong upon graduation? What are the details of these measures?

Asked by: Hon WONG Pik-wan, Helena (LegCo internal reference no.: 64)

Reply:

(1) and (2)

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions. Students having passed a means test will receive either a full-rate subsidy or a half-rate subsidy ("means-tested subsidy") per academic year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions. In addition, a "non-means-tested subsidy" is introduced under MUSSS starting from the 2017/18 academic year, and eligible students will be granted a flat-rate subsidy per academic year. The amount of subsidy will also be reviewed and adjusted as appropriate. For the 2018/19 academic year, the full-rate subsidy and half-rate subsidy of the "means-tested subsidy" are $16,800 and $8,400 respectively. The "non-means-tested subsidy" offers $5,600.

Breakdowns of the number of students receiving subsidies in the 2015/16, 2016/17, 2017/18 and 2018/19 academic years, and the number of students receiving the full-rate and half-rate subsidies in the 2015/16 and 2016/17 academic years, the number of students receiving full-rate "means-tested subsidy", half-rate "means-tested subsidy" and "non-means-tested subsidy" in the 2017/18 and 2018/19 (as at 28 February 2019) academic years by institution are set out at Annexes 1 to 4 respectively. A breakdown of the number of students receiving subsidies by discipline is set out at Annex 5.

(3)
The expenditure of the MUSSS and the number of students receiving subsidies in the 2019/20 academic year are subject to the number of applications and renewals. The Education Bureau (EDB) has reserved a sufficient amount of funding to meet the purpose.

(4)
To promote co-operation between the Mainland and Hong Kong in education and student exchanges, a Memorandum of Understanding between the Mainland and Hong Kong on Mutual Recognition of Academic Degrees in Higher Education (MoU) was signed between the Ministry of Education and the then Education and Manpower Bureau of the Hong Kong Special Administrative Region in July 2004. The MoU facilitates the mutual recognition of academic qualifications awarded in both places for the purpose of further studies in recognised Mainland and Hong Kong higher education institutions with powers to award degrees at Bachelor's level or above.

Regarding the recognition of individual qualifications in Hong Kong, individuals possessing qualifications awarded by granting bodies outside Hong Kong, regardless of whether qualifications are obtained in the Mainland or other regions, may apply for qualifications assessments by the Hong Kong Council for Accreditation of Academic and Vocation

Qualifications (HKCAAVQ) as necessary. The HKCAAVQ offers professional opinion on whether the totality of an applicant's qualification meets the standard of a particular level of qualification in Hong Kong. As regards further studies, those who have been awarded degrees at Bachelors or above levels by Mainland higher education institutions recognised under the MoU may apply for admission to masters or doctoral degree programmes offered by local higher education institutions. Individual institutions will decide whether a particular qualification obtained by an applicant meets the admission requirement of the programme concerned. For employment or membership registration, it is up to individual employers (in both the public and private sectors) or professional bodies to decide whether a particular qualification obtained by an applicant should be regarded as meeting the requirements for filling the relevant job position or membership registration.

To ensure proper use of the subsidies provided under the MUSSS, recipients of newly-approved subsidy have to confirm annually in subsequent years that they are enrolled in the institution concerned when applying for renewals. Subsidies will be disbursed each year upon verification of the relevant information.

To assist Hong Kong students pursuing studies in the Mainland to return to Hong Kong for employment upon graduation, the Education Bureau has engaged an organisation to launch the"Online Platform for Internship and Employment Information for Hong Kong Students Studying in the Mainland Higher Education Institutions" since mid-2017. The online platform provides a variety of information, including internship opportunities, employment guides and consultation services. In addition to providing online information, the organisation also invites corporate organisations, commerce and trade associations, professional bodies and Mainland institutions to provide information on the development of various trades and industries and job openings, and organises activities relating to internship and employment. Since mid-2017, more than 20 employment seminars and career and entrepreneurial experience sharing sessions have been held in Hong Kong and the Mainland, with an attendance of over 2 300.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3969)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses, (700) General non-recurrent

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Hong Kong Scholarship for Excellence Scheme (HKSES), please provide the following information:

1. Details on the regularisation of the HKSES from the 2019/20 academic year onwards, the estimated number of beneficiaries, and the estimated expenditure involved;

2. The gender profile of scholarship awardees in each of the past 4 years;

3. The names of renowned overseas universities and programmes attended by scholarship awardees, and the levels of degree obtained by them in each of the past 4 years; and

4. The average scholarship award for each student in the past 4 years.

Asked by: Hon WONG Pik-wan, Helena (LegCo internal reference no.: 66)

Reply:

1. The Hong Kong Scholarship for Excellence Scheme (HKSES), launched in November 2014, supports up to 100 local students per cohort to pursue studies in world-renowned universities outside Hong Kong with a view to grooming a top cadre of talents with global vision, international network and world-class education, thereby contributing to enhancing Hong Kong's competitiveness as Asia's World City in a globalised knowledge economy. The HKSES also seeks to support those students who have excellent academic achievement but lack the financial means to study in top-notch universities outside Hong Kong. Awardees will be required to complete the specific study programmes and undertake to return to Hong Kong upon graduation to work for at least 2 years or a period equivalent to the duration of receiving the

scholarship, whichever is the longer, to facilitate the long-term development of Hong Kong.

The HKSES intended to benefit 3 cohorts of students, with up to 100 students per cohort, starting from the 2015/16 academic year and then be subject to a review on its effectiveness. Since the non-recurrent commitment for the implementation of the HKSES has not been fully used up, the Government extended the HKSES for 1 more cohort in the 2018/19 academic year by using the remaining balance of the commitment in order to make the best use of public resources. A total of 2 984 applications were received and 378 awardees were selected in the first 4 cohorts (i.e. from the 2015/16 to 2018/19 academic years).

As the HKSES has been well received by the community since its launch, the Government has regularised the HKSES from the 2019/20 academic year (i.e. the fifth cohort) to continue supporting up to 100 students per cohort to pursue studies in world-renowned universities outside Hong Kong. After reviewing the implementation of the HKSES in the first 4 cohorts, the Education Bureau has enhanced the HKSES from the 2019/20 academic year by raising the ceiling for the non-means-tested scholarship from $250,000 to $300,000 per student per annum. Moreover, for awardees pursuing doctoral degree programmes, the maximum scholarship duration will be relaxed from 2 years to the minimum years required to complete the programmes. With reference to the expenditure in the first 4 cohorts, the estimated expenditure on the HKSES for the 2019-20 financial year will be $57 million.

2. The gender profile of awardees from the 2015/16 to 2018/19 academic years is as follows:

Academic Year	**No. of awardees**		**Total**
	Male	**Female**	
2015/16	47	45	92
2016/17	41	52	93
2017/18	43	54	97
2018/19	50	46	96

3. The universities outside Hong Kong and programmes attended by the awardees of the 2015/16, 2016/17, 2017/18 and 2018/19 academic years, and the levels of degree obtained by them are available at:
https://hkses.edb.gov.hk/en/list-of-awardees-1516.html,
https://hkses.edb.gov.hk/en/list-of-awardees-1617.html,
https://hkses.edb.gov.hk/en/list-of-awardees-1718.html, and
https://hkses.edb.gov.hk/en/list-of-awardees-1819.html.

4. The average annual amount of scholarship awarded to an awardee during the scholarship period from the 2015/16 to 2018/19 academic years is $205,000.

(Question Serial No. 4328)

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (000) Operational expenses
(201) Means-tested loan for tertiary students pursuing publicly-funded programmes
(202) Non-means-tested loan scheme
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. Please provide in table form the respective expenditures involved in recovering student loans in arrears by the Working Family and Student Financial Assistance Agency (WFSFAA), as well as the numbers of defaulters, the average debt age and the amounts in arrears in the past 5 years.

2. What are the numbers of defaulters whose debts are still being recovered by the WFSFAA, the average debt age and average amounts in arrears as at the end of 2019? What is the estimated expenditure for recovering student loans in arrears by the WFSFAA in 2019-20?

3. Please provide in table form the respective numbers of loan borrowers who are repaying their loans, the average outstanding amounts and the average repayment periods per loan borrower as well as the total outstanding amounts in the past 5 years.

Year	Financial assistance scheme	Number of loan borrowers repaying their loans	Average annual loan principal repaid per loan borrower	Average annual amount of interest paid per loan borrower	Average repayment period per loan borrower	Total outstanding amounts of all loan borrowers
2013-2014	Tertiary Student Finance Scheme - Publicly-funded

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 72)

Reply:

1.&2. The expenditure involved in recovering student loans, the numbers of default cases and average amounts in default in the 2013/14 to 2017/18 academic years are as follows –

	Academic Year				
	2013/14	**2014/15**	**2015/16**	**2016/17**	**2017/18**
Expenditure involved in recovering student loans[§] ($ million)	24.3	27.6	28.8	32.2	35.7
Number of default cases[#]					
(i) in which the Student Finance Office (SFO) of the WFSFAA had initiated recovery action against the defaulters and the indemnifiers concerned	4 089	2 491	2 713	2 489	2 599
(ii) in which legal recovery action had been initiated[^]	9 847	9 889	9 482	8 840	8 114
Total	13 936	12 380	12 195	11 329	10 713
Amount in default[~] ($ million)	224.08	202.85	191.53	177.12	159.34
Average amount in default ($)	16,079	16,385	15,706	15,634	14,874

§ Mainly for salaries provision for staff members (including civil servants and non-civil service contract (NCSC) staff of the SFO and the Department of Justice (DoJ)) involved in the work.

The numbers of default cases in the 2013/14 to 2017/18 academic years are the numbers as at the end of the academic years concerned (i.e. 31 July 2014, 31 July 2015, 31 July 2016, 31 July 2017 and 31 July 2018) respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

^ The figures include those cases referred to the DoJ and filed directly to the Small Claims Tribunal (SCT), loan borrowers had been declared bankrupt/applied for Individual Voluntary Arrangement (IVA) or deferment applications/write-off applications were being processed by the SFO.

~ The amounts in default are the total amounts of arrears in the defaulted student loan accounts carried forward from the previous academic years and arising as at the end of the respective academic years.

We do not maintain information on the average debt age of default cases. Information on the numbers of default cases by debt age[+] in the 2013/14 to 2017/18 academic years are set out as follows –

	Academic Year				
	2013/14	**2014/15**	**2015/16**	**2016/17**	**2017/18**
Number of default cases by debt age[+]					
(i) Within 1 year	3 989	2 491	2 713	2 489	2 599
(ii) 1 year or above	100	0	0	0	0
Total	4 089	2 491	2 713	2 489	2 599

+ The figures exclude default cases in which legal recovery action had been initiated, including those cases referred to the DoJ and filed directly to the SCT, loan borrowers had been declared

bankrupt/applied for IVA or deferment applications/write-off applications were being processed by the SFO.

In the 2019/20 academic year, the estimated expenditure involved in recovering defaulted student loans is $39.3 million. It is mainly for salaries provision for staff members (including civil servants and NCSC staff of both the SFO and the DoJ) involved in the work.

3. In the 2013/14 to 2017/18 academic years, the respective numbers of loan repayment accounts, the average annual amounts of loan principal repaid, the average annual amounts of interest paid, the repayment period and the amounts of outstanding loan principal under repayment under the TSFS, NLSFT, FASP, NLSPS and ENLS are set out as follows –

Academic year	**Financial assistance scheme**	**Number of loan repayment accounts**	**Average annual loan principal repaid ($)**	**Average annual amount of interest paid ($)**	**Average repayment period**	**Amount of outstanding loan principal under repayment ($ million)**
2013/14	TSFS	25 446	9,675.93	296.87	Standard repayment period is 15 years *	785.81
	NLSFT	22 246	8,798.39	1,261.29		862.29
	FASP	24 753	5,413.59	186.42		704.81
	NLSPS	28 876	10,697.36	1,683.50		1,904.71
	ENLS	66 104	5,724.42	802.89		1,882.32
2014/15	TSFS	24 453	8,829.44	316.61	Standard repayment period is 15 years *	829.93
	NLSFT	22 594	8,890.11	1,198.51		909.61
	FASP	26 599	5,603.76	208.50		798.80
	NLSPS	32 548	10,501.85	1,544.00		2,117.00
	ENLS	64 318	5,763.35	796.93		1,902.74
2015/16	TSFS	23 756	7,949.28	340.69	Standard repayment period is 15 years *	883.27
	NLSFT	23 771	8,610.64	1,076.06		1,010.96
	FASP	26 959	5,383.98	235.86		865.40
	NLSPS	35 467	9,797.15	1,386.01		2,318.04
	ENLS	62 602	5,476.44	715.06		1,918.18
2016/17	TSFS	23 338	7,382.01	370.48	Standard repayment period is 15 years *	956.74
	NLSFT	25 228	9,026.96	1,073.47		1,166.45
	FASP	26 139	5,303.54	269.85		926.44
	NLSPS	38 358	10,270.95	1,416.02		2,627.34
	ENLS	60 132	5,826.04	742.65		1,904.42
2017/18	TSFS	22 917	7,187.34	401.84	Standard repayment period is 15 years *	1,024.92
	NLSFT	27 121	9,098.63	1,028.55		1,346.39
	FASP	25 347	5,236.98	309.79		982.16
	NLSPS	42 161	10,306.09	1,347.00		2,994.21
	ENLS	57 745	6,018.67	739.17		1,953.51

* Prior to the implementation of the measure to extend the standard repayment period to 15 years commencing from the 2012/13 academic year, student loan borrowers under the TSFS and FASP were required to repay their loans by 20 quarterly instalments in 5 years while those under the NLSFT,

NLSPS and ENLS were required to repay their loans by 40 quarterly instalments in 10 years upon completion or cessation of their studies.

Question:

1. Please set out the respective numbers and percentages of applicants from families in receipt of the Comprehensive Social Security Assistance (CSSA) under the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS) and the Financial Assistance Scheme for Post-secondary Students (FASP) in the past 5 years.
2. Please set out the situation of application for financial assistance under the TSFS and FASP by students from CSSA families and the assistance items involved in the past 5 years.
3. Please set out the situation of application for financial assistance under the TSFS and FASP by students from CSSA families and the amount of funding involved in the past 5 years.
4. Please set out the numbers of successful TSFS and FASP applicants from CSSA families who were granted the hostel subsidy for needy undergraduates provided by the Community Care Fund (CCF) since 2014, and the amount of funding involved.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3908)

Reply:

1.-3. All applicants from families in receipt of the CSSA are eligible for financial assistance in the form of full grants and loans under respective schemes. In the 2014/15 to 2018/19 academic years, the numbers and percentages of successful applicants from CSSA families under the TSFS and FASP, the numbers of these applicants disbursed with grants and loans, and the total amounts of grants and loans disbursed are as follows:

	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
TSFS					
(a) Number of successful applicants	26 802	25 172	23 364	21 724	18 257
(b) Number of successful applicants from CSSA families (%)	5 163 (19.3%)	4 772 (19.0%)	4 443 (19.0%)	4 160 (19.1%)	3 877 (21.2%)
(c) Number of applicants in (b) disbursed with grants	5 163	4 772	4 443	4 160	3 877
(d) Total amount of grants disbursed to applicants in (c) ($ million)	249.46	232.63	216.97	203.53	191.62
(e) Number of applicants in (b) disbursed with loans	1 562	1 368	1 160	1 088	877
(f) Total amount of loans disbursed to applicants in (e) ($ million)	63.39	57.77	53.35	50.80	42.15
FASP					
(a) Number of successful applicants	23 002	22 106	20 236	18 024	14 337
(b) Number of successful applicants from CSSA families (%)	5 000 (21.7%)	4 643 (21.0%)	4 344 (21.5%)	4 060 (22.5%)	3 771 (26.3%)
(c) Number of applicants in (b) disbursed with grants	5 000	4 643	4 344	4 060	3 771
(d) Total amount of grants disbursed to applicants in (c) ($ million)	295.87	281.81	270.19	235.85#	194.27#
(e) Number of applicants in (b) disbursed with loans	1 576	1 300	1 202	1 138	876
(f) Total amount of loans disbursed to applicants in (e) ($ million)	63.76	55.44	55.63	53.68	42.60

***** As at 31 January 2019

\# The total amount of grants disbursed had dropped mainly due to a lower demand for grants to meet tuition fees from some applicants who had benefited from the tuition fee subsidy introduced under the Non-means-tested Subsidy Scheme in 2017.

4. In the 2014/15 to 2018/19 academic years, the numbers of CSSA applicants under the TSFS and FASP who received the hostel subsidy funded by the CCF and the amounts of subsidy are as follows:

	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19@**
TSFS					
Number of applicants from CSSA families disbursed with hostel subsidy	1 001	1 015	913	908	735
Amount of hostel subsidy disbursed to applicants from CSSA families ($ million)	7.10	7.54	7.15	7.24	3.32
FASP					
Number of applicants from CSSA families disbursed with hostel subsidy	25	77	90	111	80
Amount of hostel subsidy disbursed to applicants from CSSA families ($ million)	0.17	0.49	0.61	0.81	0.37

@ The figures show the number of applicants from CSSA families disbursed with the hostel subsidy and the amounts of subsidy for the first term of the 2018/19 academic year. The subsidy for the second term will be disbursed around July 2019.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7204)

Head: (173) Working Family And Student Financial Assistance Agency

Subhead (No. & title): (700) General non-recurrent

Item 807 One-off support grant for needy students in the 2019/20 School Year

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

What are the estimated expenditure and work plan for the new item of "One-off support grant for needy students in the 2019/20 School Year"? Why does its funding need to be sought from the Legislative Council in the context of the Appropriation Bill 2019 instead of independently from the Finance Committee of the Legislative Council?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3012)

Reply:

Providing an additional one-off grant of $2,500 to each student in need is one of the measures proposed in the 2019-20 Budget to relieve people's burden. Students from pre-primary to post-secondary level who apply for and are assessed as eligible for any means-tested financial assistance provided by the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency in the 2019/20 school year will each be given the one-off grant of $2,500. Eligible students do not have to apply to SFO for the grant. The estimated number of students who will benefit from the one-off grant to be disbursed by SFO is around 290 000, including approximately 40 000 pre-school children, 210 000 primary and secondary school students, and 40 000 post-secondary students. The estimated expenditure is about $725 million. Subject to the approval of the funding proposal by the Legislative Council (LegCo), SFO plans to disburse the grant to eligible applicants through autopay starting from the third quarter of 2019.

To include funding proposals for commitments under the General Revenue Account, including the proposed creation of a commitment item or increase in the approved commitment, into the Draft Estimates for scrutiny and approval by LegCo in the context of

the Appropriation Bill is not a new arrangement, as the Government did brief the Finance Committee of LegCo on such an arrangement in early 2015. Information on the proposal to provide a one-off support grant to students in need was submitted to the LegCo Panel on Welfare Services in April 2019. We have also included the necessary provision for the proposal under the respective head and subhead of expenditure, and provided appropriate details in the controlling officer's report for Members' scrutiny.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7263)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Please provide information on the following item related to children:

the respective numbers of families in receipt of full grant, half grant and 3/4 grant under various student financial assistance schemes.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 2632)

Reply:

The respective numbers of families in receipt of full grant, 3/4 grant (if applicable) and half grant under various student financial assistance schemes by education level from pre-primary to secondary level in the 2018/19 school year (as at 31 January 2019) are as follows:

Financial assistance schemes by education level	**Number of families in receipt of financial assistance***		
	full grant (100%)	3/4 grant (75%)	half grant (50%)
Pre-primary level	18 689	3 029	12 860
Primary and secondary level	93 305	Not applicable	60 008

* For families with more than one child receiving financial assistance under various schemes at different education levels, they are counted in the respective schemes simultaneously.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4538)

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (000) Operational expenses
(201) Means-tested loan for tertiary students pursuing publicly-funded programmes
(202) Non-means-tested loan scheme
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the student financial assistance schemes administered by the Agency, will the Government advise this Committee on the following:

(a) In the past 3 years, what were the total numbers of student loan default cases? Please reply using the table below.

2016/17 Academic Year			
Scheme	No. of default cases	Amount in default	No. of recovered cases
Tertiary Student Finance Scheme – Publicly-funded Programmes (TSFS)			
Financial Assistance Scheme for Post-secondary Students (FASP)			
Non-means-tested Loan Schemes (NLS)			
2017/18 Academic Year			
Scheme	No. of default cases	Amount in default	No. of recovered cases

TSFS			
FASP			
NLS			
2018/19 Academic Year			
Scheme	No. of default cases	Amount in default	No. of recovered cases
TSFS			
FASP			
NLS			

(b) In the past 3 years, what were the total numbers of applications for deferment of loan repayment or writing off of the loans on the ground of loss of earning capacity?

(c) What was the expenditure involved in recovering defaulted student loans in the Agency last year? Has the Agency set any target for the number of recovered cases in future? If yes, what is the target? What are the specific measures put in place to achieve this target?

Asked by: Hon FAN Kwok-wai, Gary (LegCo internal reference no.: 82)

Reply:

(a) Cases with 2 or more consecutive overdue quarterly instalments/6 or more consecutive overdue monthly instalments are regarded as default cases. The numbers of student loan default cases, the amounts in default and the numbers of recovered cases under the TSFS, FASP and NLS in the past 3 academic years are as follows –

	Academic Year		
	2016/17	**2017/18**	**2018/19***
TSFS			
Number of default cases [#]			
(i) in which the Student Finance Office (SFO) of the Agency had initiated recovery action against the defaulters and the indemnifiers concerned	195	212	223
(ii) in which legal recovery action had been initiated^	911	839	780
Sub-total	1 106	1 051	1 003
Amount in default ($ million)	23.98	21.16	19.66
Number of recovered cases[@]	905	914	613
FASP			
Number of default cases [#]			
(i) in which the SFO of the Agency had initiated recovery action against the defaulters and the indemnifiers concerned	348	364	368

	Academic Year		
	2016/17	**2017/18**	**2018/19***
(ii) in which legal recovery action had been initiated^	970	903	859
Sub-total	1 318	1 267	1 227
Amount in default ($ million)	15.70	14.21	13.61
Number of recovered cases@	1 675	1 492	930
NLS			
Number of default cases #			
(i) in which the SFO of the Agency had initiated recovery action against the defaulters and the indemnifiers concerned	1 946	2 023	1 896
(ii) in which legal recovery action had been initiated^	6 959	6 372	6 058
Sub-total	8 905	8 395	7 954
Amount in default ($ million)	137.44	123.97	120.18
Number of recovered cases@	7 848	7 813	4 971
Total			
Number of default cases #			
(i) in which the SFO of the Agency had initiated recovery action against the defaulters and the indemnifiers concerned	**2 489**	**2 599**	**2 487**
(ii) in which legal recovery action had been initiated^	**8 840**	**8 114**	**7 697**
Sub-total	**11 329**	**10 713**	**10 184**
Amount in default ($ million)	**177.12**	**159.34**	**153.45**
Number of recovered cases@	**10 428**	**10 219**	**6 514**

* As at 31 January 2019

\# The numbers of default cases in the 2016/17 to 2018/19 academic years are the numbers as at the end of the academic years concerned (i.e. 31 July 2017 and 31 July 2018) and 31 January 2019 respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

^ The figures include those cases referred to the Department of Justice and filed directly to the Small Claims Tribunal, loan borrowers had been declared bankrupt/applied for Individual Voluntary Arrangement (IVA) or deferment applications/write-off applications were being processed by the SFO.

@ The number of default cases has no direct relevance to the number of recovered cases in an academic year. The former shows the default position as at the end of the academic year. The latter represents the number of defaulters who had responded to the loan recovery actions of the SFO within that academic year.

(b) In the past 3 academic years, the numbers of applications for deferment of loan repayment on the ground of serious illness and writing off of the loans on the ground of permanent disability are as follows –

Scheme	Academic Year					
	2016/17		2017/18		2018/19*	
	Number of deferment applications	Number of write-off applications	Number of deferment applications	Number of write-off applications	Number of deferment applications	Number of write-off applications
TSFS	1	0	0	0	2	0
FASP	2	0	0	0	0	0
NLS	0	2	0	1	2	1
Total	**3**	**2**	**0**	**1**	**4**	**1**

Note: Each application for deferment or write-off may involve more than one loan repayment account of one or more financial assistance scheme(s).

* As at 31 January 2019

(c) In the 2018/19 academic year, the estimated expenditure involved in recovering defaulted student loans is $36.4 million, which is mainly for salary provision for staff members involved in the work.

As student loans are funded by public money, the SFO endeavours to make every effort to recover the outstanding loans from the defaulters and their indemnifiers. The SFO has not set a specific target on the number of cases to be recovered. Through the concerted efforts of the SFO in recent years, the overall default rate in relation to the number of loan repayment accounts has dropped considerably from 12.45% at the end of the 2009/10 academic year (i.e. 31 July 2010) to 5.74% in the 2018/19 academic year (as at 31 January 2019). The number of default cases in which the SFO had initiated recovery action against the defaulters and the indemnifiers concerned has also reduced significantly by 79.0% from 11 855 at the end of the 2009/10 academic year to 2 487 in the 2018/19 academic year (as at 31 January 2019), notwithstanding an increase in the number of loan repayment accounts by 27.2% (from about 139 500 to 177 400) over the same period. In the 2018/19 academic year (as at 31 January 2019), all default cases (excluding cases in which legal recovery action had been initiated, loan borrowers had been declared bankrupt/applied for IVA or deferment applications were being processed by the SFO) were of debt age within one year. The SFO will take appropriate recovery action to urge the defaulters and their indemnifiers to repay the outstanding loans.

In the 2019/20 academic year, apart from continuing with the concerted efforts to recover the outstanding student loans from the defaulters and their indemnifiers in an expeditious manner, the SFO will continue to implement enhanced measures to prevent loan borrowers from becoming defaulters through sending SMS messages to remind them of timely repayment and settlement of the arrears, and appeal to them to approach the SFO for assistance if they have genuine financial difficulties. In addition, the SFO will further strengthen education and promotion of prudent financial and credit management and responsible borrowing to students on all fronts through its website, enhance collaboration with tertiary education institutions and related organisations (such as the Investor and Financial Education Council), and disseminate

more publicity materials pertinent to financial education to loan applicants and loan repayers at different junctures. The above measures should help student loan borrowers better manage their personal finance and encourage them to seek assistance from the SFO at an earlier stage when they have difficulty in repaying the student loans. This will in turn further reduce the number of default cases, the default rate and the debt age of default cases.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4009)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (201) Means-tested loan for tertiary students pursuing publicly-funded programmes

(202) Non-means-tested loan scheme

(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Please provide the numbers of bankruptcy applications due to an inability to repay loans under the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS), the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Financial Assistance Scheme for Post-secondary Students (FASP) and the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) in each of the past 5 years, and set out the information by scheme.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 7)

Reply:

The numbers of bankruptcy applications (reasons for applications concerned not necessarily related to student loans) involving students receiving financial assistance under the TSFS, FASP, NLSFT and NLSPS in the 2014/15 to 2018/19 academic years are as follows:

Financial Assistance Scheme	**Academic Year**				
	2014/15^	**2015/16^**	**2016/17^**	**2017/18**	**2018/19***
TSFS	18	18	21	13	3
FASP	50	40	39	30	9
NLSFT	19	13	18	12	7
NLSPS	59	55	70	53	11
Total	**146**	**126**	**148**	**108**	**30**

* As at 31 January 2019

^ The figures for the 2014/15, 2015/16 and 2016/17 academic years have been revised as notifications of bankruptcy applications from the bankrupts or the Official Receiver's Office were received after the respective academic years.

Head: (173) Working Family and Student Financial Assistance Agency

(254) Loans to Students

Subhead (No. & title): (201) Means-tested loan for tertiary students pursuing publicly-funded programmes

(202) Non-means-tested loan scheme

(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

What is the average amount of student loan debts owed by university graduates to the Student Finance Office (SFO)? To help the "n-have nots" young people, will the Government consider buying back these debts from SFO"?

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 182)

Reply:

Based on the information of student loan borrowers who commenced loan repayment in the 2017/18 academic year, the average loan amounts by financial assistance scheme are as follows –

Scheme	Average loan amount^^($)
(A) Tertiary Student Finance Scheme - Publicly-funded programmes (TSFS)	71,207
(B) Financial Assistance Scheme for Post-secondary Students (FASP)	60,824
(C) Non-means-tested Loan Scheme for Full-time Tertiary Students	88,676
(D) Non-means-tested Loan Scheme for Post-secondary Students	116,824
(E) Extended Non-means-tested Loan Scheme	73,823

^^ The average loan amount is calculated based on the total amount of loans disbursed to the student loan borrowers upon their commencement of repayment in the 2017/18 academic year.

Information on the average loan amount of student loan borrowers who commenced loan repayment in the 2018/19 academic year is not yet available.

The Government reviews the student loan repayment arrangements from time to time so as to ensure that students are provided with appropriate support. To alleviate the financial burden of student loan borrowers, the Government has lowered the interest rate of the living expenses loan under the TSFS and FASP from 2.5% to 1% per annum (interest free during the study period) since the 2012/13 academic year. The standard repayment period has also been extended from 5 years to 15 years. To tie in with the arrangements of means-tested loan schemes, the standard repayment period of the 3 non-means-tested loan schemes has also been extended from 10 years to 15 years since the 2012/13 academic year. The prevailing interest rate is 1.257% per annum. Regarding the information of student loan borrowers who commenced loan repayment in the 2017/18 academic year as tabulated above, the average monthly repayment amounts are $426, $364, $551, $726 and $452 respectively.

In addition, to ease the financial burden of loan borrowers upon graduation and to allow them more time to seek a stable job, loan borrowers are given the option of starting the student loan repayment 1 year upon completion of their studies. Loan borrowers who have difficulty in repaying their loans on grounds of financial hardship, serious illnesses or further full-time studies may apply for a deferment of loan repayment. If their deferment applications are approved, a maximum of 2 years' interest-free extension of the loan repayment period can be allowed, which means that the entire repayment period can be extended up to 17 years.

These measures can appropriately alleviate the repayment burden of student loan borrowers. The Government has no plans to waive the repayment of student loans disbursed under various financial assistance schemes.

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the applications from students under the loan schemes managed by the Student Finance Office, please provide the administrative fees collected and the purpose of charging such a fee by scheme in the past 5 years:

1. Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS)
2. Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT)
3. Financial Assistance Scheme for Post-secondary Students (FASP)
4. Non-means-tested Loan Scheme for Post-secondary Students (NLSPS)
5. Extended Non-means-tested Loan Scheme (ENLS)

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 183)

Reply:

The TSFS and FASP provide low-interest loans for tertiary/post-secondary students who pass the means test to cover their living expenses. Student-applicants are not required to pay any administrative fees for the loans.

The Non-means-tested Loan Schemes (NLS)* mainly provide low-interest loans to students who fail to or do not wish to go through the means test to cover their tuition fees. NLS operate on a no-gain-no-loss and cost recovery basis. The administrative fees collected under the NLS in the 2014/15 to 2018/19 academic years are as follows –

	Academic Year				
	2014/15	2015/16	2016/17	2017/18	2018/19#
Administrative fees collected ($m)	29.5	29.6	30.4	31.9	18.8

Controlling Officer:	Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)
Director of Bureau:	Secretary for Education

Question:

To assist students in pursuing further studies, the Working Family and Student Financial Assistance Agency (WFSFAA) has set up the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS), the Financial Assistance Scheme for Post-secondary Students (FASP) and the Non-means-tested Loan Schemes (NLS). Under the NLS, there are the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and Extended Non-means-tested Loan Scheme (ENLS). In this connection, please advise this Committee of the following:

(a) For the 2017/18 and 2018/19 academic years, the actual number of applications and the revised estimate of the number of applications for the NLS are 39 888 and 41 047 respectively. Of them, what are the respective numbers of applications for the NLSFT, NLSPS and ENLS? Please provide a breakdown of the numbers of applications by year for the past 10 years.

(b) Please provide the changes of annual interest rates of the above loan schemes by year in table form in the past 10 years.

(c) Please provide the amounts of loans disbursed, the amounts of repayments settled, the amounts of repayments demanded and the amounts in default of the above loan schemes by year in table form in the past 10 years; and

(d) Please provide the numbers of applications approved, the numbers of early repayments in full and the numbers of defaulters of the above loan schemes by year in table form in the past 10 years.

Total amount settled #	78.48	69.52	146.90	244.16	167.17	**706.23**

\# The figures denote the total amounts settled in respect of the demand notes issued in a particular academic year. These include the amounts settled in the academic year concerned and in subsequent years (up to 31 January 2019).

* As at 31 January 2019

(iii) The amounts in default^ under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows –

Academic Year	Amount in Default ($ million)					
	TSFS	FASP	NLSFT	NLSPS	ENLS	Total
2014/15	29.48	17.88	18.57	53.57	83.35	**202.85**
2015/16	26.48	16.98	17.27	51.79	79.01	**191.53**
2016/17	23.98	15.70	15.60	48.30	73.54	**177.12**
2017/18	21.16	14.21	13.70	44.36	65.91	**159.34**
2018/19*	19.66	13.61	13.23	43.49	63.46	**153.45**

^ The amounts in default are the total amounts of arrears in the defaulted student loan accounts carried forward from the previous academic years and arising as at the end of the respective academic years.

* As at 31 January 2019

(d)(i) The numbers of students receiving loans under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows –

Academic Year	Number of Students Receiving Loans				
	TSFS	**FASP**	**NLSFT**	**NLSPS**	**ENLS**
2014/15	7 624	6 076	10 344	12 359	6 637
2015/16	6 623	5 081	10 974	13 307	6 327
2016/17	5 742	4 643	11 504	13 702	6 338
2017/18	5 060	4 218	11 917	12 863	6 430
2018/19*	3 655	2 776	11 476	11 048	4 665

* As at 31 January 2019

(ii) The numbers of default cases^ under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows –

Academic Year*	Number of Default Cases					
	TSFS	**FASP**	**NLSFT**	**NLSPS**	**ENLS**	**Total**
2014/15	1 255	1 419	1 085	2 455	6 166	**12 380**
2015/16	1 192	1 397	1 077	2 470	6 059	**12 195**
2016/17	1 106	1 318	991	2 355	5 559	**11 329**
2017/18	1 051	1 267	965	2 287	5 143	**10 713**
2018/19	1 003	1 227	882	2 213	4 859	**10 184**

^ Cases with 2 or more consecutive overdue quarterly instalments / 6 or more consecutive overdue monthly instalments are regarded as default cases.

* The numbers of default cases in the 2014/15 to 2018/19 academic years are the numbers as at the end of the academic years concerned (i.e. 31 July 2015, 31 July 2016, 31 July 2017, 31 July 2018) and 31 January 2019 respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

We do not maintain information on the number of early repayments in full under the TSFS, FASP, NLSFT, NLSPS and ENLS for the past 5 years.

(254) Loans to Students

Subhead (No. & title): (101) Means-tested loan for tertiary students pursuing publicly-funded programmes

(102) Non-means-tested loan scheme

(103) Means-tested loan for post-secondary students

(201) Means-tested loan for tertiary students pursuing publicly-funded programmes

(202) Non-means-tested loan scheme

(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding (a) the means-tested loans for tertiary students pursuing publicly-funded programmes, (b) the means-tested loans for post-secondary students and (c) the non-means-tested loan schemes, please set out (i) the amounts of loans disbursed, (ii) the amounts of loans repaid, (iii) the interest rates and (vi) the amounts of interest in the past 7 financial years.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 37)

Reply:

As applications for the Tertiary Student Finance Scheme – Publicly-funded Programmes (TSFS), the Financial Assistance Scheme for Post-secondary Students (FASP) and the Non-means-tested Loan Schemes are received on an academic year basis, the statistical figures of these schemes are also maintained on the basis of an academic year instead of a financial year.

(i) The total amounts of loans disbursed under the TSFS, FASP, Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and Extended Non-means-tested Loan Scheme (ENLS) in the 2014/15 to 2018/19 academic years are as follows –

Academic Year	Total Amount of Loans Disbursed ($ million)				
	TSFS	**FASP**	**NLSFT**	**NLSPS**	**ENLS**
2014/15	239.14	200.42	398.59	708.04	353.45
2015/16	218.16	180.10	425.23	792.14	347.38
2016/17	210.82	180.49	446.79	827.93	366.39
2017/18	192.39	168.31	465.91	701.90	388.98
2018/19*	142.81	114.56	452.96	539.28	240.87

* As at 31 January 2019

(ii) The total amounts of loans repaid for the loan repayment accounts under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows –

Academic Year	Total Amount of Loans Repaid ($ million)					
	TSFS	**FASP**	**NLSFT**	**NLSPS**	**ENLS**	**Total**
2014/15	224.66	155.60	227.94	392.07	421.94	**1,422.21**
2015/16	197.97	152.73	230.26	396.63	387.60	**1,365.19**
2016/17	181.86	146.94	254.81	448.29	394.99	**1,426.89**
2017/18	174.99	141.87	274.66	491.31	390.23	**1,473.06**
2018/19*	82.56	66.85	153.79	264.49	188.08	**755.77**

* As at 31 January 2019

(iii) Starting from 1 July 2012, the interest rate of the TSFS and FASP is 1% per annum. As for the NLSFT, NLSPS and ENLS, the interest rates in the 2014/15 to 2018/19 academic years are as follows –

Effective Date	Interest Rate Per Annum
1 June 2013	1.395%
1 June 2015	1.282%
1 June 2017	1.132%
1 October 2018	1.216%
1 November 2018	1.257%

(iv) The total amounts of interest paid for the loan repayment accounts under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows –

Academic Year	Total Amount of Interest Paid ($ million)					
	TSFS	**FASP**	**NLSFT**	**NLSPS**	**ENLS**	**Total**
2014/15	7.74	5.55	27.07	50.25	51.25	**141.86**

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (700) General non-recurrent

Item 807 One-off support grant for needy students in the 2019/20 School Year

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the one-off grant of $2,500 to be provided to each student in need to support learning as mentioned in the Budget Speech, will the Government advise this Committee of the administrative expenses involved for implementing this scheme?

Asked by: Hon KWONG Chun-yu (LegCo internal reference no.: 85)

Reply:

The Government has proposed in the 2019-20 Budget that a one-off grant of $2,500 be disbursed to financially needy students. As far as the Student Finance Office of the Working Family and Student Financial Assistance Agency is concerned, the relevant work of disbursing the grant will be handled by existing staff of the Office and no additional manpower and administrative cost are required.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3355)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding "continue to provide an additional grant for children of needy families to defray school-related expenses incurred from the students' kindergarten education", would the Government inform this Committee:

1. of the percentage of the grant in the overall school-related expenses;
2. whether the amount of the grant will be increased; if yes, what are the details; if no, what are the reasons?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 55)

Reply:

1. School-related expenses of kindergarten (KG) students normally include expenses for items such as textbooks, stationery, school uniforms, etc. Since these items vary in material/substance, quantity, etc. from school to school and the items chosen to buy by individual parents may also be different, the figure on the overall expenditure for school-related items or the percentage of the Grant for School-related Expenses for KG Students in the overall school-related expenses are not available.

2. The full grant rate for the 2018/19 school year is $3,940 which will be increased to $4,040 in the 2019/20 school year. The grant rate is pegged at the level of grant for school-related expenses for KG students under the Comprehensive Social Security Assistance.

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. Please provide the number of kindergarten, primary and secondary students receiving subsidies under the financial assistance schemes in 2018-19 with breakdown by employment status of the family and family income (i.e. income of the applicant, his/her spouse and unmarried child(ren) residing with the family as well as other income).

	Either the applicant or his/her spouse or both of them is/are working full-time	Both the applicant and his/her spouse are not working full-time, but at least one of them is working part-time	Neither the applicant nor his/her spouse is working full-time or part-time
Lower than or equal to 50% of the median income*			
Higher than 50% of the median income, but lower than or equal to 60% of the median income			
Higher than 60% of the median income, but lower than or equal to 70% of the median income			
Higher than 70% of the median income			

*The median household incomes of economically active households only. The median household incomes for different household sizes in 2018-19 are: $15,200 for a one-person household, $38,400 for a two-person household, $45,000 for a three-person household, $56,200 for a four-person household, $59,000 for a five-person household and $64,800 for a household of six persons or more.

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 199)

Reply:

The Student Finance Office adopts a means test mechanism which operates on an "Adjusted Family Income" formula in assessing the eligibility of an applicant for student financial assistance and the level of assistance receivable. It takes into account the gross annual income of the applicant's family and the number of family members. The family income limits under this mechanism are adjusted annually in accordance with the movement of the Consumer Price Index (A). The mechanism is not based on the median domestic household income and is characterised by a number of adjustments (e.g. only 30% of the annual income of unmarried child(ren) residing with the applicant's family is counted and adjustment will be made in the formula for applications from single-parent families). We do not maintain information on the comparison between the family income of applicants and the median domestic household income.

Subhead (No. & title): (228) Student financial assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Please set out the respective numbers of applicants and successful applicants of the Financial Assistance Scheme for Designated Evening Adult Education Courses in the past 5 financial years.

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 230)

Reply:

Students of the Financial Assistance Scheme for Designated Evening Adult Education Courses will be reimbursed 30% of the tuition fees paid if they fulfil the prescribed criteria such as those on attendance. Eligible students who pass the means test will be reimbursed 100% or 50% of the tuition fees paid according to their assessed level of assistance. The Student Finance Office of the Working Family and Student Financial Assistance Agency processes claims for reimbursement of tuition fees based on the information of eligible students provided by course providers. In the 2014/15 to 2018/19 school years, all eligible students were provided with reimbursements of tuition fees and the respective numbers of these students in each year are set out below:

School year	**Number of students provided with reimbursements of tuition fees**			
	(i) 100%	**(ii) 50%**	**(iii) 30%**	**Total [(i)+(ii)+(iii)]**
2014/15	240	90	435	765
2015/16	206	75	470	751
2016/17	164	54	413	631
2017/18^	156	56	430	642
2018/19	Claims for reimbursement will be processed in 2019-20			

^ The figures are as at 31 January 2019. A small number of reimbursement cases for the 2017/18 school year are under processing.

(Question Serial No. 5738)

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (202) Non-means-tested loan scheme

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), please advise this Committee of the following:

1. the numbers of student loan borrowers who are repaying their loans by age (20-24, 25-29, 30-34, 35-39, 40 or above) and education level (diploma/certificate, sub-degree, Bachelor's degree or above);
2. the upper quartile, median and lower quartile of the outstanding amounts of student loan borrowers by age (20-24, 25-29, 30-34, 35-39, 40 or above) and education level (diploma/certificate, sub-degree, Bachelor's degree or above); and
3. the median monthly repayment amounts of student loan borrowers, by age (20-24, 25-29, 30-34, 35-39, 40 or above) and education level (diploma/certificate, sub-degree, Bachelor's degree or above).

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 232)

Reply:

As NLSFT covers programmes of different study levels and the students may complete their studies and hence commence loan repayment at different times, we do not maintain information on the repayment amounts, outstanding amounts and median monthly repayment amounts etc. of the student loan borrowers by age and education level.

As at 31 January 2019, the amount of outstanding loan principal under repayment under the NLSFT was $1.604 billion, involving 29 347 loan accounts. Based on the median loan amount of $84,200 of student loan borrowers under the NLSFT who commenced loan repayment in the 2017/18 academic year, the monthly repayment amount is $523.

(Question Serial No. 7276)

Head: (173) Working Family and Student Financial Assistance Agency

(254) Loans to Students

Subhead (No. & title): (700) General non-recurrent

(101) Means-tested loan for tertiary students pursuing publicly-funded programmes

(102) Non-means-tested loan scheme

(103) Means-tested loan for post-secondary students

(201) Means-tested loan for tertiary students pursuing publicly-funded programmes

(202) Non-means-tested loan scheme

(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. Numbers of post-secondary students under various student financial assistance schemes

	University Grants Committee (UGC)-funded associate degree programmes (No. of students)	UGC-funded higher diploma programmes (No. of students)	UGC-funded undergraduate programmes (No. of students)	Self-financing associate degree programmes (No. of students)	Self-financing higher diploma programmes (No. of students)	Self-financing undergraduate programmes (No. of students)
Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS) (loan portion)				N/A	N/A	N/A

	University Grants Committee (UGC)-funded associate degree programmes (No. of students)	UGC-funded higher diploma programmes (No. of students)	UGC-funded undergraduate programmes (No. of students)	Self-financing associate degree programmes (No. of students)	Self-financing higher diploma programmes (No. of students)	Self-financing undergraduate programmes (No. of students)
Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT)				N/A	N/A	N/A
Financial Assistance Scheme for Post-secondary Students (FASP) (loan portion)	N/A	N/A	N/A			
Non-means-tested Loan Scheme for Post-secondary Students (NLSPS)	N/A	N/A	N/A			

2. Total numbers of years taken by students to repay their student loans

	UGC-funded associate degree programmes (No. of students)	UGC-funded higher diploma programmes (No. of students)	UGC-funded undergraduate programmes (No. of students)	Self-financing associate degree programmes (No. of students)	Self-financing higher diploma programmes (No. of students)	Self-financing undergraduate programmes (No. of students)
Within 3 years						
4-6 years						
7-9 years						
10-12 years						
13-15 years						

3. Total amounts of student loans (including interests) undertaken by students

	Students pursuing UGC-funded associate degree programmes (No. of students)	Students pursuing UGC-funded higher diploma programmes (No. of students)	Students pursuing UGC-funded undergraduate programmes (No. of students)	Students pursuing self-financing associate degree programmes (No. of students)	Students pursuing self-financing higher diploma programmes (No. of students)	Students pursuing self-financing undergraduate programmes (No. of students)
$10,000 or below						
$10,001-$50,000						
$50,001-$100,000						
$100,001-$150,000						
$150,001-$200,000						
$200,001-$250,000						
$250,001-$300,000						
$300,001-$350,000						
$350,001-$400,000						
$400,000 or above						

4. Numbers of persons gone bankrupt due to failure to repay student loans in the past four years

	2014/15	2015/16	2016/17	2017/18
Number of persons				

5. Numbers of young people receiving subsidy under the Continuing Education Fund (CEF) in the past four years

	Aged 18-21 (No. of persons)	Aged 22-25 (No. of persons)	Aged 26-29 (No. of persons)	Aged 30-33 (No. of persons)	Aged 35 or above (No. of persons)
2014/15					
2015/16					
2016/17					
2017/18					

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 400)

Reply:

1. The TSFS and FASP provide means-tested grants and/or loans for eligible students pursuing full-time UGC-funded or publicly-funded programmes at tertiary level and full-time locally-accredited self-financing post-secondary programmes respectively. The NLSFT and NLSPS provide non-means tested loans for students pursuing programmes covered by the TSFS and FASP.

   The numbers of student loan borrowers by different study level of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2018/19 academic year (as at 31 January 2019) are as follows –

Level of Study	TSFS	NLSFT
Degree	3 053	9 756
Sub-degree*	581	1 633
Total	**3 634**	**11 389**

Level of Study	FASP	NLSPS
Degree / Top-up degree	1 522	5 849
Sub-degree*	1 254	5 199
Total	**2 776**	**11 048**

* Including associate degree and higher diploma

2.&3. The TSFS, FASP and non-means-tested loan schemes cover various programmes at different study levels and student loan borrowers may continue to pursue full-time studies upon graduation or choose to commence loan repayment one year after graduation. They may also settle their loan repayment within the standard repayment period or choose to settle their loan repayment earlier on their own accord, or apply for deferment of loan repayment. Therefore, we do not maintain information on the numbers of student loan borrowers by their study level and repayment period, or their loan amount including interest, etc.

4. The numbers of bankruptcy applications (reasons for applications concerned not necessarily related to student loans) involving students receiving financial assistance under the TSFS, FASP, NLSFT and NLSPS in the 2014/15 to 2017/18 academic years are as follows –

	Academic Year			
	2014/15^	**2015/16^**	**2016/17^**	**2017/18**
Number of bankruptcy applications	146	126	148	108

^ The figures for the 2014/15, 2015/16 and 2016/17 academic years have been revised as notifications of bankruptcy applications from the bankrupts or the Official Receiver's Office were received after the respective academic years.

5. The numbers of subsidy recipients under the CEF[@] in the past four years (from 2014-15 to 2017-18) by age group are as follows –

Year	Age Group[#]			
	18-29	**30-39**	**40-49**	**50-65**
2014-15	13 218	4 948	2 742	1 618
2015-16	11 552	4 296	2 292	1 635
2016-17	11 229	4 161	2 244	1 472
2017-18	9 881	3 447	1 936	1 365

@ The CEF is under the purview of the Labour and Welfare Bureau.

Given the design of the computer system, the above age groups are slightly different from those raised in the question.

Item 803 One-off support grant for needy students in the 2018/19 School Year

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Last year, the Government provided a one-off grant of $2,000 to each student in need. In this connection, will the Government inform this Committee of the following:

(1) What effective measures did the Government adopt to ensure that the money granted was spent entirely on meeting the students' learning needs and not used by parents for purposes other than learning?

Asked by: Hon TAM Man-ho, Jeremy (LegCo internal reference no.: 611)

Reply:

Students from pre-primary to post-secondary levels who were eligible to receive the means-tested financial assistance from the Student Finance Office of the Working Family and Student Financial Assistance Agency in the 2018/19 school year were each disbursed with a one-off grant of $2,000. The grant provided students with appropriate support and flexibility to meet their individual needs. We cannot monitor how parents spend the grant in minute detail but reckon that the majority of parents are willing to spend resources on the learning of their children.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4309)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding internationalisation and non-local students:

(1) Please provide a breakdown of Mainland and overseas students (including postgraduate students) pursuing degree programmes in Hong Kong by publicly-funded and non-publicly-funded taught programmes over the past 3 academic years.

(2) Further to the above question, what are the respective numbers and percentages of Mainland and overseas students subsidised by the Government to pursue publicly-funded taught programmes? What are the respective amounts of subsidies?

(3) Further to the above question, how many of the Mainland and overseas students subsidised by the Government have pursued further studies or worked in Hong Kong after completing the programmes and what are their respective percentages?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 53)

Reply:

(1) to (2)
The numbers and percentages of non-local students admitted to University Grants Committee (UGC)-funded and non-UGC-funded taught programmes in the 2015/16 to 2017/18 academic years are given below.

(Headcount)

Academic year	Type of taught programmes	Mainland students	Other Non-local Students	Total
2015/16	UGC-funded	6 779 (69.2%)	3 020 (30.8%)	9 799 (100.0%)
	Non-UGC-funded	13 481 (90.5%)	1 407 (9.5%)	14 888 (100.0%)
	Total	20 260 (82.1%)	4 427 (17.9%)	24 687 (100.0%)
2016/17	UGC-funded	6 906 (66.2%)	3 519 (33.8%)	10 425 (100.0%)
	Non-UGC-funded	13 010 (90.0%)	1 446 (10.0%)	14 456 (100.0%)
	Total	19 916 (80.0%)	4 965 (20.0%)	24 881 (100.0%)
2017/18	UGC-funded	6 982 (63.9%)	3 942 (36.1%)	10 924 (100.0%)
	Non-UGC-funded	14 727 (90.4%)	1 571 (9.6%)	16 298 (100.0%)
	Total	21 709 (79.7%)	5 513 (20.3%)	27 222 (100.0%)

Note: Including students enrolled in full-time locally-accredited sub-degree and undergraduate programmes as well as full-time and part-time locally-accredited taught postgraduate programmes.

Funding provided by the UGC to its funded universities is made in the form of a block grant on the basis of the approved student places allocated to each university. At present, UGC-funded universities can admit non-local students to their publicly-funded sub-degree, undergraduate and taught postgraduate programmes through over-enrolment outside the approved student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes by study level. No extra resources will be provided by the UGC for over-enrolment. These non-local students are required to pay tuition fees at a level that is at least sufficient to recover all additional direct costs. In other words, no additional public resources are involved in over-enrolment of non-local students.

(3)

Currently, non-local graduates who have obtained an undergraduate or higher qualification in a full-time and locally-accredited local programme in Hong Kong may apply to stay/return and work in Hong Kong under the "Immigration Arrangements for Non-local Graduates" (IANG). The numbers and percentages of applications approved by the Immigration Department under the IANG in the past 3 years are as follows:

	Number of applications approved		
	2016-17 financial year	2017-18 financial year	2018-19 financial year (as at February 2019)
Mainland students	8 691 (92.4%)	8 385 (90.3%)	9 067 (91.1%)
Other non-local students	710 (7.6%)	898 (9.7%)	888 (8.9%)
Total	9 401 (100%)	9 283 (100%)	9 955 (100%)

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5460)

Head: (190) University Grants Committee

Subhead (No. & title): (492) Grants to UGC-funded institutions

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the University Grants Committee (UGC)-funded programmes, please advise this Committee on the following:

1. the approved student number targets and student numbers of UGC-funded sub-degree programmes, by institution and broad academic programme category, for the past 3 academic years;

2. the average student unit costs of UGC-funded sub-degree programmes per annum for the past 3 academic years; and

3. the approved student number targets and student numbers of UGC-funded first-year-first-degree programmes, by institution and broad academic programme category, for the past 3 academic years.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 205)

Reply:

1.&3. The approved student number targets and student enrolment of University Grants Committee (UGC)-funded sub-degree programmes and first-year first-degree programmes by university and broad academic programme category from the 2016/17 to 2018/19 academic years, are at **Annexes A and B** respectively.

2. The average student unit costs of UGC-funded sub-degree programmes, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by universities, for the 2015/16 to 2017/18 academic years are set out below. The average student unit cost for the 2018/19 academic year is not yet available.

	Average student unit costs of UGC-funded sub-degree places
2015/16	$172,000
2016/17	$176,000
2017/18 (provisional)	$190,000

Note: Student unit costs are affected by a variety of factors such as prevailing costs for different programmes and disciplines, student enrolment numbers and stages of development of individual universities.

Annex A

Approved Student Number Targets and Student Enrolment of UGC-funded Sub-degree Programmes by University and Broad Academic Programme Category from the 2016/17 to 2018/19 Academic Years

(full-time equivalent)

		Arts and Humanities	50	45
		Sub-total	**1 354**	**1 060**
	Total		**3 195**	**2 761**

Note:
Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals. The figure zero denotes less than 0.5.

Annex B

Approved Student Number Targets and Student Enrolment of UGC-funded First-Year-First-Degree Programmes by University and Broad Academic Programme Category from the 2016/17 to 2018/19 Academic Years

Note:

Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5461)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. What are the student numbers of sub-degree programmes over the past 4 academic years? Please provide a breakdown of the figures by self-financing sub-degree programme/subsidised sub-degree programme and associate degree programme/higher diploma programme.
2. What are the student numbers admitted to sub-degree (associate degree/higher diploma) programmes of various institutions over the past 3 academic years? Please provide a breakdown of the figures by institution.
3. What are the numbers of associate degree graduates given subsidised senior-year undergraduate intake places in various institutions over the past 3 academic years? Please provide a breakdown of the figures by institution.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 206)

Reply:

1. The numbers of students pursuing University Grants Committee (UGC)-funded and non-UGC-funded locally-accredited sub-degree programmes from the 2015/16 to 2018/19 academic years are at **Annex A**.

2. The numbers of student intakes of UGC-funded sub-degree programmes by university from the 2016/17 to 2018/19 academic years are at **Annex B**.

3. The numbers of student intakes of UGC-funded senior year undergraduate programmes by university with sub-degree as the highest qualification achieved from the 2016/17 to 2018/19 academic years are at **Annex C**.

Annex A

Numbers of Students Pursuing UGC-funded and non-UGC-funded Locally-accredited Sub-degree Programmes from the 2015/16 to 2018/19 Academic Years

(Headcount)

Academic Year	Type of Programme			Total
	UGC-funded Sub-degree Programmes[1]	Government-subvented Higher Diploma Programmes of the Vocational Training Council[2]	Full-time Self-financing Sub-degree Programmes[2]	
2015/16	5 394	21 234	38 007	64 635
2016/17	5 184	21 776	37 008	63 968
2017/18	4 593	20 442	36 031	61 066
2018/19 (Provisional)	3 697	19 481	35 906	59 084

Notes:

1. Figures include full-time and part-time programmes leading to certificate/higher diploma, associate degree or equivalent qualifications.
2. Numbers of students pursuing part-time locally-accredited sub-degree programmes are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5502)

Head: (190) University Grants Committee

Subhead (No. & title): (169) Meeting expenses of UGC, Research Grants Council and Quality Assurance Council

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

In 2018-19, what were the work conducted and the expenditure incurred by the Quality Assurance Council on the quality assurance for the 8 funded institutions? In 2019-20, what are the work details and estimated expenditure in this regard?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 247)

Reply:

Quality Assurance Council (QAC), established under the aegis of University Grants Committee (UGC), aims to assure that the quality of the educational experience in all programmes at the levels of sub-degree, first degree and above (however funded) offered in UGC-funded universities is sustained and improved, and is at an internationally competitive level.

QAC conducted its first and second rounds of quality audits from 2008 to 2011 and 2015 to 2016 respectively, whereas the audit visits of the sub-degree audit cycle were conducted from late 2017 to early 2019.

The revised estimated expenditure on audit activities in the 2018-19 financial year is around $3.20 million, whereas the estimated expenditure for the 2019-20 financial year is around $2.32 million. The expenditures cover mainly for the sub-degree audit cycle: (i) expenses for the audit meetings; (ii) honoraria for auditors; and (iii) fee for consultancy services to assist in conducting the audits in the sub-degree audit cycle; as well as the consultancy fee for conducting a review on the quality audits undertaken by QAC and the production of the Audit Manual for the third audit cycle.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

What were the respective numbers of ethnic minority (EM) students completing programmes offered by the University Grants Committee-funded institutions and the respective percentages of these students out of the total numbers of school-age EM students from the 2016/17 to 2018/19 academic years?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 250)

Reply:

The University Grants Committee (UGC) has not collected statistics on the number of ethnic minority students or non-Chinese speaking (NCS) students completing programmes offered by the UGC-funded universities. However, the UGC has collected information on the number of local NCS students admitted to UGC-funded undergraduate programmes. The numbers of local NCS students admitted in the 2016/17, 2017/18 and 2018/19 academic years are 253, 335 and 361 respectively (the figure for the 2018/19 academic year is provisional).

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5507)

Head: (190) University Grants Committee

Subhead (No. & title): (000) Operational expenses

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the operation of the University Grants Committee (UGC), please inform this Committee of:

a) the meeting attendance rates of respective members of the UGC and its sub-committees in the past 3 years;

b) the meeting attendance rates of respective members of the Research Grants Council and its sub-committees in the past 3 years; and

c) the meeting attendance rates of respective members of the Quality Assurance Council and its audit panels in the past 3 years.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 252)

Reply:

a) The attendance rates of current members of the University Grants Committee (UGC) at the meetings of the UGC, its sub-committees and groups from 1 January 2016 to 31 December 2018 are at **Annex A**.

b) The attendance rates of current members of the Research Grants Council (RGC) at the meetings of the RGC, its committees and panels from 1 January 2016 to 31 December 2018 are at **Annex B**.

c) The attendance rates of current members of the Quality Assurance Council (QAC) at the meetings of the QAC from 1 January 2016 to 31 December 2018 are at **Annex C**. QAC members are not members of the QAC quality audit panels.

Furthermore, to ensure openness and transparency, the attendance record of UGC, RGC and QAC members is posted on the UGC's website and updated on a regular basis.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5759)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

a) In 2018-19, what were the work conducted and the expenditure incurred by the University Grants Committee (UGC) and the Education Bureau in overseeing the sub-degree operations of the funded institutions?

b) In 2019-20, what are the work plan and estimated expenditure for overseeing the sub-degree operations of the funded institutions?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 253)

Reply:

a) and b):

University Grants Committee (UGC) started to assume the role of the overseeing body of the external quality audits on the sub-degree operations of the UGC-funded universities in 2016, with the involvement of Quality Assurance Council (QAC) as the audit operator. The audit visits of the sub-degree audit cycle were conducted from late 2017 to early 2019. The sub-degree operations of three universities (*i.e.* The Chinese University of Hong Kong (CUHK), Hong Kong Baptist University (HKBU) and The University of Hong Kong (HKU)) were audited in the 2017-18 financial year, while the remaining four universities (*i.e.* City University of Hong Kong (CityU), The Hong Kong Polytechnic University (PolyU), The Education University of Hong Kong (EdUHK) and Lingnan University (LU)) were audited in the 2018-19 financial year. The Hong Kong University of Science and Technology currently does not offer sub-degree programmes, and is therefore not included in the sub-degree audit cycle. The Audit Reports of CUHK, HKBU, HKU and CityU have been endorsed by QAC and UGC and published on the QAC website. The Audit Reports of PolyU, EdUHK and LU are currently under preparation and will be considered by QAC and UGC later in 2019.

The revised estimated expenditure for the sub-degree audit cycle in the 2018-19 financial year is around $3.20 million whereas the estimated expenditure for the 2019-20 financial

year is around $1.80 million, which cover mainly: (i) expenses for the audit meetings; (ii) honoraria for auditors; and (iii) fee for consultancy services to assist in conducting the audits in the sub-degree audit cycle.

Question:

What are the numbers and respective percentages of staff on contract and substantive appointment in the University Grants Committee (UGC)-funded institutions in 2018-19?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 254)

Reply:

Provided by the eight UGC-funded universities, the numbers and the respective percentages of staff on contract and substantive appointment in the 2018/19 academic year are at **Annex**.

Annex

Numbers and Percentages of Staff on Contract and Substantive Appointment in UGC-funded Universities, 2018/19 Academic Year

2018/19 Academic Year (Provisional)

University	Contract staff		Substantive staff		Total
	No.	%	No.	%	
City University of Hong Kong	1 217	42.4%	1 651	57.6%	2 868
Hong Kong Baptist University	916	57.3%	683	42.7%	1 599
Lingnan University	406	73.5%	146	26.5%	552
The Chinese University of Hong Kong	2 539	54.7%	2 105	45.3%	4 644
The Education University of Hong Kong	776	59.8%	521	40.2%	1 297
The Hong Kong Polytechnic University	1 456	47.4%	1 616	52.6%	3 072
The Hong Kong University of Science and Technology	1 288	50.0%	1 287	50.0%	2 575
The University of Hong Kong	3 239	64.5%	1 785	35.5%	5 024

Notes: For City University of Hong Kong, Hong Kong Baptist University and the Education University of Hong Kong, the figures exclude research, honorary academic and part-time staff.

For the Hong Kong University of Science and Technology, the figures exclude honorary academic and part-time staff.

The staff numbers of The Hong Kong Polytechnic University only include those whose salaries are wholly funded by UGC and do not include Honorary and Adjunct appointees and temporary or part-time staff members.

Director of Bureau: Secretary for Education

Question:

What are the estimated expenditure and work plans for the new item "Eighth Matching Grant Scheme"? Why does the funding have to be sought in the context of the Appropriation Bill 2019 rather than making a separate application to the Finance Committee of the Legislative Council?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 3016)

Reply:

In view of the positive responses for the previous rounds of Matching Grant Scheme (MGS), the Government proposes to allocate $2.5 billion for launching the eighth round of MGS for the publicly-funded post-secondary education sector in order to help institutions tap more funding sources, promote community involvement and improve the quality of education. The eighth round of MGS will cover all publicly-funded post-secondary institutions, namely the eight University Grants Committee-funded universities, the Vocational Training Council and the Hong Kong Academy for Performing Arts. The eighth round of MGS is to last for three years. Subject to the funding approval by the Legislative Council (LegCo), it is planned to be launched in July 2019.

It is not a new arrangement to include in the draft Estimates funding proposals for creating commitments or increasing expenditure ceilings for approved commitment items under the General Revenue Account for scrutiny and approval by the LegCo in the context of the Appropriation Bill. The Government explained the relevant arrangements to the Finance Committee in early 2015. In this particular case, before the funding proposal was included in the draft Estimates, we provided relevant information to the Panel on Education of the LegCo on 4 January 2019. We have included the necessary provision for this proposal under the respective head and sub-head of expenditure for Members' consideration.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6682)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please list the numbers of places and amounts of funding for full-time and part-time, publicly-funded and self-financing degree and sub-degree social work programmes in various post-secondary colleges in the past 5 and coming academic years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1461)

Reply:

The approved numbers of undergraduate places of University Grants Committee (UGC)-funded social work programmes for the 2014/15 to 2019/20 academic years are at **Annex A**. The UGC-funded universities do not have any UGC-funded social work sub-degree programmes in the corresponding period. The recurrent grants to the universities are in the form of a block grant. As funding for the said programmes is subsumed under the block grants, the UGC is unable to provide information on the actual subvention for individual programmes. The average student unit cost for a particular level of study is derived based on the actual cost incurred by UGC-funded expenditure items as reported by universities. According to the information provided by the universities, the average student unit costs per annum at sub-degree and undergraduate levels for the 2014/15 to 2017/18 academic years were $173,000 and $238,000 respectively. The bulk was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. $15,040, $31,575 and $42,100 per annum for UGC-funded sub-degree programmes offered by the Education University of Hong Kong, UGC-funded sub-degree programmes offered by other universities and full-time UGC-funded undergraduate programmes respectively). The average student unit cost for the 2018/19 academic year and beyond is not yet available.

The estimated intakes of full-time locally-accredited self-financing undergraduate and sub-degree social work programmes for the 2014/15 to 2019/20 academic years are set out at **Annex B**.

Annex A

Approved Number of Sub-degree and Undergraduate Places of UGC-funded Social Work Programmes by University for the 2014/15 to 2019/20 Academic Years

Full-time equivalent

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6751)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please set out the numbers of students with special educational needs (SEN) pursuing tertiary programmes (sub-degree or diploma) and degree programmes, and their respective percentages out of the total numbers of SEN students and tertiary students for the past 5 financial years.

2. Please set out the numbers of SEN students graduated from tertiary programmes (sub-degree or diploma) and degree programmes, and their respective percentages out of the total numbers of SEN students and tertiary graduates for the past 5 financial years.

3. Please set out the numbers of SEN students pursuing tertiary programmes outside Hong Kong for the past 5 financial years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1462)

Reply:

1. The numbers of students with special educational needs (SEN) enrolled in University Grants Committee (UGC)-funded full-time sub-degree and undergraduate programmes, as well as their respective percentages in the total number of SEN students and the total student enrolment in the 2014/15 to 2018/19 academic years are at **Annex A**.

2. The numbers of SEN students enrolled in the final year of UGC-funded full-time sub-degree and undergraduate programmes, as well as their respective percentages in the total number of SEN students and the total number of students enrolled in the final year of these programmes in the 2014/15 to 2018/19 academic years are at **Annex B**. Figures on the numbers of SEN students graduated from UGC-funded programmes are not available for the time being.

3. We do not have figures on the numbers of SEN students pursuing tertiary education outside Hong Kong in the past five years.

Annex A

Numbers of Students with SEN Enrolled in UGC-funded Full-time Sub-degree and Undergraduate Programmes in the 2014/15 to 2018/19 Academic Years

(Headcount)

Academic Year	Level of Study	Number of SEN students	Percentage share in total number of SEN students	Percentage share in total student enrolment
2014/15	Sub-degree Programme	10	Not applicable (Note)	0.3%
	Undergraduate Programme	304	Not applicable (Note)	0.4%
2015/16	Sub-degree Programme	9	2.4%	0.2%
	Undergraduate Programme	339	90.9%	0.4%
2016/17	Sub-degree Programme	13	3.2%	0.4%
	Undergraduate Programme	367	90.4%	0.4%
2017/18	Sub-degree Programme	16	3.1%	0.5%
	Undergraduate Programme	460	90.6%	0.6%
2018/19 (Provisional)	Sub-degree Programme	18	2.9%	0.7%
	Undergraduate Programme	561	90.6%	0.7%

Note:
Information on the numbers of SEN students enrolled in taught postgraduate and research postgraduate programmes has been gathered since 2015/16 academic year. Therefore, the ratio of the students in the 2014/15 academic year is not available.

Annex B

Numbers of Students with SEN Enrolled in Final Year of UGC-funded Full-time Sub-degree and Undergraduate Programmes in the 2014/15 to 2018/19 Academic Years

(Headcount)

Academic Year	Level of Study	Number of SEN students enrolled in final year of programme	Percentage share in total number of SEN students	Percentage share in total number of students enrolled in final year of programme
2014/15	Sub-degree Programme	4	Not applicable (Note)	0.2%
	Undergraduate Programme	77	Not applicable (Note)	0.4%
2015/16	Sub-degree Programme	4	4.0%	0.2%
	Undergraduate Programme	82	82.8%	0.4%
2016/17	Sub-degree Programme	4	3.9%	0.2%
	Undergraduate Programme	87	85.3%	0.4%
2017/18	Sub-degree Programme	10	7.9%	0.6%
	Undergraduate Programme	104	81.9%	0.5%
2018/19 (Provisional)	Sub-degree Programme	11	7.8%	0.8%
	Undergraduate Programme	117	83.0%	0.5%

Note:

Information on the numbers of SEN students enrolled in taught postgraduate and research postgraduate programmes has been gathered since the 2015/16 academic year. Therefore, the ratio of students in the 2014/15 academic year is not available.

Question:

Please provide tabulated information on the nationality, age upon admission and broad research area, such as engineering, science, social science and arts, of recipients of the Hong Kong PhD Fellowship Scheme in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1463)

Reply:

The breakdown of Hong Kong PhD Fellowship Scheme (HKPFS) awardees by broad academic programme category and place of origin from the 2014/15 to 2018/19 academic years are tabulated below:

(Headcount)

Academic Year	Broad Academic Programme Category	Place of Origin			
		Local	Mainland China	Other Non-local	Total
2014/15	Medicine, Dentistry and Health	-	13	3	16
	Sciences	4	43	12	59
	Engineering and Technology	-	60	25	85
	Business and Management	1	4	3	8
	Social Sciences	4	5	18	27
	Arts and Humanities	4	6	17	27
	Education	-	-	1	1
Total		13	131	79	223
2015/16	Medicine, Dentistry and Health	-	9	3	12
	Sciences	6	51	13	70
	Engineering and Technology	2	55	20	77
	Business and Management	1	4	3	8
	Social Sciences	1	9	10	20

Academic Year	Broad Academic Programme Category	Place of Origin			
		Local	Mainland China	Other Non-local	Total
	Arts and Humanities	3	5	19	27
	Education	1	-	1	2
Total		14	133	69	216
2016/17	Medicine, Dentistry and Health	3	10	8	21
	Sciences	5	50	24	79
	Engineering and Technology	3	38	25	66
	Business and Management	-	6	6	12
	Social Sciences	1	6	17	24
	Arts and Humanities	2	9	13	24
	Education	1	1	3	5
Total		15	120	96	231
2017/18	Medicine, Dentistry and Health	4	5	8	17
	Sciences	1	42	28	71
	Engineering and Technology	1	44	33	78
	Business and Management	-	6	10	16
	Social Sciences	2	6	10	18
	Arts and Humanities	6	5	15	26
	Education	-	2	3	5
Total		14	110	107	231
2018/19	Medicine, Dentistry and Health	7	14	8	29
	Sciences	5	35	19	59

	Business and Management	-	6	9	15
	Social Sciences	3	3	18	24
	Arts and Humanities	-	4	22	26
	Education	1	3	5	9
Total		23	90	118	231

The HKPFS aims at attracting the best and brightest students in the world to pursue their research-based PhD programmes in Hong Kong's UGC-funded universities. Selection of awardees is merit-based. Age of applicants is not a consideration in the selection. As such, we do not have any information on the age upon admission of the HKPFS awardees.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 6753)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide information of the amount of "knowledge transfer" funding allocated to each institution by the University Grants Committee, the funding criteria adopted and the kinds of activities held by each institution in the past year.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1464)

Reply:

In the 2016-19 triennium, a sum of $62.5 million per year is available for allocation to the University Grants Committee (UGC)-funded universities to further strengthen and broaden their knowledge transfer (KT) endeavours. The funding allocation to each university is based on a metrics-based formula which takes into account (i) the teaching element of the UGC block grant in the funding year, and (ii) the sum of the research element of the UGC block grant in the funding year and the total funding received from the Research Grants Council in the preceding funding year, with the latter carrying a weight of four. The allocation to the UGC-funded universities for the 2018/19 academic year is set out below –

University	KT Funding ($million)
City University of Hong Kong	8.10
Hong Kong Baptist University	3.70
Lingnan University	1.20
The Chinese University of Hong Kong	13.73
The Education University of Hong Kong	2.39
The Hong Kong Polytechnic University	9.62
The Hong Kong University of Science and Technology	8.88
The University of Hong Kong	14.88
Total	62.50

Universities have different strategies and activities in KT which are commensurate with their role, mission and areas of strengths. They conduct a wide range of KT activities,

such as engaging in consultancy, researches, spin out companies and licensing, etc. They have also engaged in continuing professional development directed at business and social enterprises. In addition, universities have also employed a variety of other means to particularly cater for KT in arts, humanities and social sciences, including the setting up of websites for dissemination of knowledge, organisation of seminars, workshops, conferences, exhibitions and other public events.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4978)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following:

1. the percentages of non-locals in the posts of (i) Professor; (ii) Associate Professor; (iii) Assistant Professor; and (iv) Lecturer (including non-Professor level teaching posts such as Senior Lecturer, Principal Lecturer, Lecturer, Instructor and Senior Instructor) in the past 5 years, with a breakdown by institution; and

2. the percentages of mainlanders in the posts of (i) Professor; (ii) Associate Professor; (iii) Assistant Professor; and (iv) Lecturer (including non-Professor level teaching posts such as Senior Lecturer, Principal Lecturer, Lecturer, Instructor and Senior Instructor) in the past 5 years, with a breakdown by institution.

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 2010)

Reply:

1 and 2

As provided by the University Grants Committee (UGC)-funded universities, the percentages of non-local and Mainland academic staff in the academic departments of the universities with salaries wholly funded by general funds with a breakdown by university and rank for the 2017/18 to 2018/19 academic years are at **Annex A** and **Annex B** respectively. A breakdown by post is not available. As the UGC has only started to collect information about the places of origin of academic staff since the 2017/18 academic year, figures before the 2017/18 academic year are not available.

Annex A

Percentage of Non-local Academic Staff in Academic Departments of UGC-funded Universities with Salaries Wholly Funded by General Funds by University and Rank in the 2017/18 and 2018/19 Academic Years

2017/18 Academic Year

Rank	University							
	CityU	HKBU	LU	CUHK	EdUHK	PolyU	HKUST	HKU
Senior academic staff	69.4%	56.3%	72.1%	51.7%	45.0%	35.6%	79.7%	58.6%
Junior academic staff	67.9%	49.8%	65.7%	53.1%	41.7%	46.0%	85.2%	62.1%
Academic supporting staff	28.6%	29.4%	59.7%	35.1%	25.6%	29.5%	29.1%	47.1%

2018/19 Academic Year (provisional)

Rank	University							
	CityU	HKBU	LU	CUHK	EdUHK	PolyU	HKUST	HKU
Senior academic staff	68.6%	53.0%	73.7%	51.5%	42.9%	38.3%	78.6%	60.2%
Junior academic staff	71.8%	48.4%	70.1%	53.5%	46.4%	48.2%	84.0%	62.9%
Academic supporting staff	28.4%	18.7%	56.8%	34.2%	24.8%	34.7%	28.4%	48.1%

Notes:

1. The above figures are the percentages of the relevant staff among all academic staff at the relevant ranks in the academic departments of each university with salaries wholly funded by general funds.
2. Examples of senior academic staff include professor, associate professor and assistant professor. Examples of junior academic staff include lecturer and assistant lecturer. Examples of academic supporting staff include instructor and teaching assistant.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4545)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under Matters Requiring Special Attention in 2019-20 of the Programme that the University Grants Committee will implement the Eighth Matching Grant Scheme. Will the Government inform this Committee whether there is any plan to adopt a fairer approach in distributing matching grants to different institutions, so as to reduce the gap in the donations and matching grants secured by different institutions? If yes, what are the details? If not, what are the reasons?

Asked by: Hon FAN Kwok-wai, Gary (LegCo internal reference no.: 89)

Reply:

To encourage healthy competition among institutions and to ensure a fair chance of securing grants among all institutions, we will set aside an amount of $60 million (i.e. a "floor") for matching to each institution, as a guaranteed minimum over the three-year period of the Eighth Matching Grant Scheme. By the end of the three-year period, funding under the floor which has yet to be matched by the institutions concerned will be opened up for allocation to match donations of other institutions above the floor on a first-come-first-served basis.

There will be also an upper limit of $600 million (i.e. a "ceiling") applicable to the aggregate amount of government matching grants received by each institution. The ceiling serves to prevent some institutions with strong fund-raising ability from capturing a dominating share of the matching grants at the expense of the smaller or relatively younger institutions.

The matching is $1 for $1 up to $60 million, beyond which a $1 for $2 matching ratio is proposed (i.e. $1 government grant for every $2 of private donations secured). The matching ratio of $1 for $1 up to $60 million is to facilitate those smaller or relatively younger institutions with relatively less fund-raising capabilities to secure a reasonable share of the matching grant. A $1 for $2 matching ratio is proposed for the level beyond $60 million in order to maximise the amount of private donations to be solicited.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4010)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the respective numbers of first-year first-degree places in the departments belonging to manpower planning disciplines of the 8 University Grants Committee-funded universities from the 2016/17 academic year to the 2018/19 academic year.

2. The Government plans to increase the number of first-degree places in healthcare disciplines by 150 from the 2019/20 academic year to the 2021/22 academic year. Please provide the number of new first-degree places in healthcare disciplines that needs to be offered by each of the funded institutions.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 9)

Reply:

1. The annual approved numbers of intake places of the University Grants Committee (UGC)-funded first-year-first-degree (FYFD) programmes related to manpower planning disciplines offered by the UGC-funded universities in the 2016/17 to 2018/19 triennium are set out at **Annex**.

2. Regarding the programmes related to healthcare professions, the details on the annual approved/ estimated numbers of intake places of the FYFD programmes offered by Hong Kong Baptist University, The Chinese University of Hong Kong, The Hong Kong Polytechnic University and The University of Hong Kong in the 2016/17 to 2018/19 triennium and 2019/20 to 2021/22 triennium are tabulated as follows:

University	Annual approved number of intake places in the 2016/17 to 2018/19 triennium	Annual estimated number of intake places in the 2019/20 to 2021/22 triennium
Hong Kong Baptist University	30	30
The Chinese University of Hong Kong	517	568
The Hong Kong Polytechnic University	677	722
The University of Hong Kong	552	609
Total	1 776	1 929

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4871)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide, by institution and programme, the following information for the past 5 years (2014/15 to 2018/19):

1. the numbers of applications for and student intakes of University Grants Committee (UGC)-funded taught postgraduate (TPg) programmes by university and place of origin;

2. the numbers of applications for and student intakes of self-financing TPg programmes offered by UGC-funded universities by university and place of origin;

3. the numbers of applications for and student intakes of UGC-funded research postgraduate (RPg) programmes by university and place of origin; and

4. the numbers of applications for and student intakes of self-financing RPg programmes offered by UGC-funded institutions by university and place of origin.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 113)

Reply:

1. & 3.

The student intakes of University Grants Committee (UGC)-funded taught postgraduate (TPg) programmes by university and place of origin from the 2017/18 to 2018/19 academic years are at **Annex A**. We do not maintain information on the number of applications for TPg programmes. The numbers of applications and student intakes of the UGC-funded research postgraduate (RPg) programmes for the corresponding period are at **Annex B**.

Regarding the student intakes of UGC-funded TPg and RPg programmes from the 2014/15 to 2016/17 academic years, the relevant details were set out in our reply (Reply Serial No. EDB 252) to a related question (Question Serial No. 3169) raised at the special meetings of

the Finance Committee to examine the Estimates of Expenditure for the 2018-19 financial year in 2018. The relevant details for the academic years from 2014/15 to 2016/17 are not repeated herein.

2. & 4.

The student intakes of self-financing TPg programmes offered by UGC-funded universities in the 2017/18 academic year, by university and place of origin, are at **Annex C**. The student intakes of self-financing RPg programmes offered by UGC-funded universities for the corresponding period are at **Annex D**. Regarding the student intakes of self-financing TPg and RPg programmes from the 2014/15 to 2016/17 academic years, the relevant details were set out in our reply (Reply Serial No. EDB 252) to a related question (Question Serial No. 3169) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure for the 2018-19 financial year in 2018. The relevant details for the academic years from 2014/15 to 2016/17 are not repeated herein. We do not maintain information on the number of applications for self-financing TPg and RPg programmes. Relevant student intakes in the 2018/19 academic year are not yet available.

Annex A

Student Intakes of UGC-funded Taught Postgraduate Programmes by University and Place of Origin from the 2017/18 to 2018/19 Academic Years

(Headcount)

	Total	**2 074**	**562**	**11 085**	**1 859**	**4 756**	**388**	**17 915**	**2 809**

Notes:

1. Number of applications of RPg programmes refers to the number of applications one year prior to the corresponding academic year, covering all applications irrespective of sources of funding available after admission.
2. Each applicant can concurrently submit multiple applications to different universities, and hence the number of applicants is actually smaller than the number of applications. However, UGC-funded universities do not maintain information on the number of applicants. Based on empirical data, UGC-funded universities assess that, on average, each local applicant submits 2 applications for admission. The number of applications submitted by non-local applicants considerably varies, and hence UGC-funded universities are unable to estimate the number of non-local applicants on the basis of the number of non-local applications received.
3. The place of origin of non-local students is determined having regard to their nationality or place of residence.
4. Student intakes refer to the number of RPg students fully or partially funded by the UGC (including students financed by external funds).

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4882)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the numbers of applicants, student intakes and the respective percentages (%) of student intakes in the numbers of applications of funded research postgraduate programmes (funded Master of Philosophy and Doctor of Philosophy programmes) in the past 5 years (2014/15 to 2018/19), with a breakdown by year, the eight funded universities and applicants' place of origin (local, Mainland and other non-local).

2. Please provide the number of local students receiving "non-means-tested studentships for local students enrolled in University Grants Committee (UGC)-funded research postgraduate (RPg) programmes" in the 2018/19 academic year.

3. Please provide information about the criteria for determining the amount and the requirement of postgraduate studentships of the eight funded universities in the 2014/15 to 2018/19 academic years.

4. Please provide the number of UGC-funded RPg students deferring their graduation in each of the past 5 years (2014/15 to 2018/19).

5. Please provide information about the employment situation of UGC-funded RPg non-local graduates (Mainland, other non-local; having full-time employment and ordinarily working in Hong Kong) in the past 5 years (2014/15 to 2018/19).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 128)

Reply:

1. The numbers of applications and student intakes of University Grants Committee (UGC)-funded research postgraduate (RPg) programmes (Master of Philosophy and Doctor of Philosophy programmes) by university and place of origin in the 2017/18 and 2018/19 academic years are set out at **Annex A**.

Regarding student intakes of UGC-funded RPg programmes in the 2014/15 to 2016/17 academic years, the relevant details were set out in our reply (Reply Serial No. EDB 252) to a related question (Question Serial No. 3169) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2018-19 in 2018. The details covering the 2014/15 to 2016/17 academic years are not repeated herein.

2. Tuition Waiver Scheme for Local Research Postgraduate Students was launched on 1 July 2018. As at November 2018, 1 887 local students have benefited from the Scheme.

3. Since the amount, criteria for determining such amount and the eligibility criteria for the RPg studentships are under the autonomy of the universities, we do not have the relevant information.

4. The number of students graduated from UGC-funded RPg programmes beyond the normal duration of study from the 2013/14 to 2017/18 academic years is set out at **Annex B**.

5. According to information provided by UGC-funded universities, the employment situation of non-local graduates of UGC-funded full-time RPg programmes from the 2012/13 to 2016/17 academic years is set out at **Annex C**.

Annex A

Numbers of Applications, Student Intakes and Percentages of UGC-funded RPg Programmes by University and Place of Origin in the 2017/18 and 2018/19 Academic Years

(Headcount)

Academic Year	University	Local Students			Mainland Students			Other Non-local Students			Total

Note:

1. The number of applications of RPg programmes refer to the number one year prior to the corresponding academic year, including all applications irrespective of students' funding sources after admission.
2. Each applicant can concurrently submit multiple applications to different universities, and hence the number of applicants is actually smaller than the number of applications. Nonetheless, the UGC-funded universities have not maintained information on the number of applicants. Based on empirical data, UGC-funded universities assessed that, on average, each local applicant would submit 2 applications for admission. The number of applications submitted by non-local applicants considerably varies, and hence UGC-funded universities are not able to estimate the number of non-local applicants on the basis of the number of non-local applications received.
3. The place of origin of non-local students is determined having regard to their nationality or place of residence.
4. Student intakes refer to the numbers of RPg students fully or partially funded by the UGC (including students financed by external funding).

Abbreviations:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

Annex B

Number of Students Graduated from UGC-funded RPg Programmes Beyond Normal Duration of Study from the 2013/14 to 2017/18 Academic Years

(Headcount)

	Academic Year				
	2013/14	2014/15	2015/16	2016/17	2017/18 (Provisional Figures)
No. of Students Graduated Beyond Normal Duration of Study	830	852	894	1 205	1 023

Note:

1. The number of graduates of RPg programmes in the table covers all graduates as reported by universities, irrespective of whether they were funded by the UGC or external funding to pursue the programmes. Hence, graduates of (i) RPg programmes fully financed by external funding and (ii) part-time RPg programmes are covered in the table.
2. The normal duration of study for Master of Philosophy programmes is 2 years, while that for Doctor of Philosophy programmes is 3 years (for students who have a research master's degree) or 4 years (for students who do not have a research master's degree).
3. Figures of the 2018/19 academic year are not yet available from the UGC.

Annex C

Employment Situation of Non-Local Graduates of UGC-funded Full-time RPg Programmes from the 2012/13 to 2016/17 Academic Years

	2012/13 Academic Year		2013/14 Academic Year		2014/15 Academic Year		2015/16 Academic Year		2016/17 Academic Year	
	No. of Graduates	Percentage	No. of Graduates	Percentage	No. of Graduates	Percentage	No. of Graduates	Percentage	No. of Graduates	Percentage
No. of Graduates of Full-time Programmes	1 260	N.A.	1 366	N.A.	1 457	N.A.	1 532	N.A.	1 706	N.A.
No. of Graduates Responded to the Survey (Note 1)	767		961		1 019		1 112		1 301	
Response Rate	60.9%		70.3%		69.9%		72.6%		76.3%	
Employment Situation of Graduates Responded to the Survey										
Full-time Employed (Note 2)	468	61.0%	578	60.1%	631	61.9%	585	52.6%	721	55.4%
Hong Kong	141	18.4%	305	31.7%	379	37.2%	362	32.6%	450	34.6%
Regions Other than Hong Kong	160	20.9%	116	12.1%	163	16.0%	110	9.9%	165	12.7%
Mainland China	39	5.1%	49	5.1%	106	10.4%	47	4.2%	105	8.1%
Other Regions	121	15.8%	67	7.0%	57	5.6%	63	5.7%	60	4.6%
Not Available	167	21.8%	157	16.3%	89	8.7%	113	10.2%	106	8.1%
Further Studies (Note 2)	84	11.0%	120	12.5%	110	10.8%	135	12.1%	143	11.0%
Unemployed	23	3.0%	22	2.3%	42	4.1%	32	2.9%	46	3.5%
Underemployed (Note 3)	17	2.2%	29	3.0%	33	3.2%	31	2.8%	37	2.8%
Others (Note 4)	175	22.8%	212	22.1%	203	19.9%	329	29.6%	354	27.2%

Note:

1. Employment information on graduates of UGC-funded full-time programmes of a particular year was gathered by UGC-funded universities in the surveys on employment situation of graduates conducted in December of the year. Figures of the 2017/18 and 2018/19 academic years are not yet available from the UGC.
2. Non-local graduates who were full-time employed and pursued further studies exclude those who had returned to their place of origin for work or further studies.
3. Underemployed graduates refer to those who were available for work at any time or had sought work, but involuntarily worked less than 35 hours every week, and those who had part-time or temporary jobs.
4. "Others" refers to (i) graduates who had not sought work, (ii) local graduates who had emigrated, and (iii) non-local graduates who had returned to their place of origin for further studies or work.
5. The percentages may not add up to 100 due to rounding.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4903)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown by programme and mode of training (full-time and part-time) of the number of places, students and graduates of the teacher education programmes (including Higher Diploma in Child Care and Education, Bachelor of Education and Postgraduate Diploma in Education (PGDE) programmes) offered by subsidised universities over the past 5 years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 157)

Reply:

The approved intake places, student intakes and number of graduates of the teacher education programmes offered by the University Grants Committee (UGC)-funded universities by university, level of study, mode of study and normal duration of study from the 2013/14 to 2017/18 academic years are at **Annex**.

Annex

					2017/18	61	62	57	61 [2016/17]

Notes:

1. The UGC assumes that that the graduates of a certain year complete the programme within the normal duration of study, and provides the number of approved first-year student intakes in the corresponding year of admission of the graduates of the programme concerned. In addition, 2012/13 is the double-cohort year. In that academic year, the normal duration of study of undergraduates under the old academic structure was 1 year shorter than that under the new academic structure. However, the actual duration of study of individual students may be different due to postponement or even termination of study, or completion of programme beyond the normal duration of study. Under such circumstances, the UGC is unable to trace the actual year of admission of the graduates concerned. Also, the actual number of student intake may be different from the number of places in a year.
2. The Diploma in Education programme offered by HKBU is normally taken by students in the last 3 years of the 5-year study period of the undergraduate programme under the new academic structure, or the last 2 years of the 4-year study period of the undergraduate programme under the old academic structure. As such, first-year-first-degree students admitted in the double-cohort academic year of 2012/13 normally took this programme in the 2014/15 academic year, and the 2 cohorts of students under the old and new academic structures enrolled in the academic year normally graduated in the 2015/16 and 2016/17 academic years respectively.
3. The intake places of the part-time programme concerned are provided by reallocating the university's approved intake places of other teacher education programmes at the same level of study. The UGC planned to provide funded places for the part-time course separately from the 2019/20 academic year.
4. The programme does not have approved intake places or student intakes in the year(s) nearing discontinuation.
5. The programme does not have graduates at the initial stage of operation.
6. The actual duration of study of individual students of programmes which will soon be discontinued may be longer than the normal duration. As such, the number of intake places in the year of admission of graduates is not applicable.

7. To ensure proper use of public funds, the UGC has required that starting from the 2016/17 academic year, the student number targets of various teacher education programmes offered by universities should be met as far as possible, except for individual teacher education programmes with a relatively low approved student number target.

8. Abbreviations:

HKBU	Hong Kong Baptist University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5347)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please list out the number of places of funded bachelor's degree and master's degree programmes in healthcare and allied health disciplines as well as the unit cost of each programme in each of the academic year from 2016/17 to 2019/20.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 122)

Reply:

The approved and estimated numbers of intake places for the University Grants Committee (UGC)-funded programmes by category of medical profession and level of study from the 2016/17 to 2019/20 academic years are at the **Annex**.

The recurrent grants to the UGC-funded universities are in the form of a block grant. As funding for the above programmes is subsumed under the block grants, the UGC is unable to provide information on the actual subvention for individual programmes. The average student unit cost for a particular level of study is derived based on the actual cost incurred by UGC-funded expenditure items as reported by the universities. According to the information provided by the universities, the average student unit costs per annum at undergraduate and taught postgraduate (TPg) levels for the 2014/15 to 2017/18 academic years were $238,000 and $230,000 respectively. The bulk was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. $42,100 per annum for full-time UGC-funded undergraduate and TPg programmes). The average student unit cost for the 2018/19 academic year and beyond is not yet available.

Annex

Approved and estimated numbers of intake places for healthcare-related UGC-funded programmes by category of medical profession and level of study from the 2016/17 to 2019/20 academic years

Category of medical profession	**Level of study**	**2016/17**	**2017/18**	**2018/19**	**2019/20#**
Medical officer	Undergraduate programme	470	470	470	530
Nurse	Undergraduate programme	755	755	755	815
Medical laboratory technologist	Undergraduate programme	54	54	54	54
Radiographer	Undergraduate programme	110	110	110	110
Physiotherapist	Undergraduate programme	130	130	130	150
Occupational therapist	Undergraduate programme	100	100	100	100
Dental officer	Undergraduate programme	73	73	73	80
	Taught postgraduate programme	-	-	-	20
Chinese medicine practitioner	Undergraduate programme	79	79	79	79
Clinical psychologist	Taught postgraduate programme	38	38	38	38
Optometrist	Undergraduate programme	40	40	40	45
Pharmacist	Undergraduate programme	90	90	90	91

Question:

1. Regarding the Postdoctoral Fellowship Scheme, the Research Grants Council (RGC) Research Fellow Scheme and the RGC Research Fellow Scheme to be launched in the 2019/20 academic year, what is the progress of the related preparation work and what are the details of these Schemes?

2. Regarding the triennial recurrent funding provided by the University Grants Committee (UGC) for the UGC-funded universities, while it is stipulated that 75% of the block grant is intended for teaching and 23% for research, universities have autonomy over the allocation of the grant. Please list the ratio of the recurrent funding used for teaching to that used for research by university in each of the last 3 trienniums.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 173)

Reply:

1. The Task Force on Review of Research Policy and Funding (TFRPF) has made an array of recommendations to facilitate the development of the research sector in Hong Kong, among which is the introduction of research fellowship schemes. The Chief Executive has announced in the 2018 Policy Address her acceptance of the TFRPF's recommendations in full. As for the research fellowship schemes, it is proposed that a recurrent expenditure of about $190 million per annum be reserved to support the Research Grants Council (RGC) in introducing three new regular fellowship schemes, which will benefit postdoctoral researchers, researchers at associate professor rank and researchers at professor rank respectively.

   According to the preliminary proposal, the quota for each round of the Postdoctoral Fellowship Scheme will be 50, and each outstanding postdoctoral fellow will be awarded with a stipend comprising a basic salary for a full-time university post (i.e. around $380,000 per annum) and a travel allowance for conference and/or research-related activities (around $10,000 per annum) for up to three years. This

will encourage PhD graduates to pursue research careers and create more postdoctoral positions in the higher education sector.

The RGC Research Fellow Scheme and RGC Senior Research Fellow Scheme are open for application by researchers at the ranks of associate professor and professor respectively, so as to provide sustained support for outstanding academics to undertake research. According to the preliminary proposal, the quota for each round of both Schemes will be 10 at the initial stage. With a fellowship period of 5 years, the two Schemes will provide the concerned University Grants Committee (UGC)-funded universities with subsidies to recruit replacement teachers, so that the awardees can be released from teaching (except for supervising research postgraduate students) or administrative duties and focus on their research. The actual subsidy amounts will be determined with reference to the annual average basic salaries of academic staff at UGC-funded universities at the ranks of associate professor and professor (i.e. around $0.92 million and $1.6 million respectively).

Applications for the three new schemes will be divided into two streams (i.e. science and technology (including medicine and engineering); and humanities, social sciences and business). The RGC is drawing up details of the new schemes and their application procedures in consultation with the institutions and subject specialists, with a view to launching the new schemes in the 2019/20 academic year to render appropriate support to promising and outstanding researchers.

2. Teaching and research are the two closely-linked central foci in the higher education sector. Teaching should be based on research, and academics should acquire the most cutting-edge knowledge through research, which facilitates the transmission of knowledge and in turn fosters teaching. The UGC has all along attached great importance to the quality of teaching and learning in universities. It has also encouraged and enhanced universities' teaching and learning through various teaching and learning initiatives, including the annual provision of the Teaching Development and Language Enhancement Grant (TDLEG) to universities to enhance teaching quality and students' language proficiency; organisation of the annual UGC Teaching Award to honour those who excel in teaching in the UGC sector; and implementation of the Funding Schemes for Teaching and Learning Related Proposals in the 2012-15 and 2016-19 triennia to incentivise universities to explore and promote development in sector-wide strategic areas of teaching and learning, language enhancement and internationalisation. The amount of TDLEG to be provided for universities in the 2019-22 triennium will amount to $781.2 million, representing an increase of $268.4 million over the previous cycle. The increased provision will enable universities to focus on efforts to bring funded projects to completion, and continue to implement meaningful initiatives identified in previous funding schemes. Of equal importance is that this helps the UGC assure the community that it values teaching and learning as much as research.

According to the information reported by UGC-funded universities, expenditure items of universities can be broadly divided into "departmental expenditure on teaching", "departmental expenditure on research" and "central cost". "Central cost" include expenditures relating to management and general items, academic support, student and general education services, institutional premises, etc. In addition to UGC funding,

universities have other sources of income including donations and other research funding. The actual expenditures reported by universities are not solely covered by UGC funding.

A breakdown by various uses of expenditure and their percentage shares in individual universities' recurrent expenditure in the academic years from 2013/14 to 2017/18 is as follows:

		Use of Expenditure		
University	Academic Year	Departmental Expenditure on Teaching	Departmental Expenditure on Research	Central Cost
City University of Hong Kong	2013/14	47.8%	22.4%	29.8%
	2014/15	47.6%	22.9%	29.4%
	2015/16	46.2%	24.2%	29.6%
	2016/17	44.2%	25.1%	30.7%
	2017/18	43.7%	24.8%	31.5%
Hong Kong Baptist University	2013/14	46.2%	19.4%	34.4%
	2014/15	44.5%	19.2%	36.3%
	2015/16	44.7%	20.1%	35.2%
	2016/17	42.4%	20.3%	37.2%
	2017/18	43.0%	21.8%	35.2%
Lingnan University	2013/14	57.0%	15.2%	27.7%
	2014/15	47.9%	17.3%	34.9%
	2015/16	43.5%	18.8%	37.6%
	2016/17	39.5%	18.6%	41.9%
	2017/18	37.5%	19.5%	42.9%
The Chinese University of Hong Kong	2013/14	40.6%	30.4%	29.0%
	2014/15	41.5%	31.4%	27.1%
	2015/16	42.2%	32.2%	25.6%
	2016/17	41.7%	31.9%	26.4%
	2017/18	41.4%	32.8%	25.9%
The Education University of Hong Kong	2013/14	49.0%	16.8%	34.2%
	2014/15	48.5%	17.9%	33.6%
	2015/16	47.5%	18.6%	33.9%
	2016/17	45.4%	20.4%	34.2%
	2017/18	45.1%	21.7%	33.2%
The Polytechnic University of Hong Kong	2013/14	46.9%	23.4%	29.8%
	2014/15	46.1%	24.9%	29.0%
	2015/16	43.6%	26.3%	30.0%
	2016/17	42.0%	29.2%	28.8%
	2017/18	40.1%	29.5%	30.4%
The Hong Kong University of Science and Technology	2013/14	36.0%	30.2%	33.8%
	2014/15	37.8%	28.2%	34.0%
	2015/16	36.5%	27.8%	35.7%
	2016/17	34.2%	31.5%	34.3%
	2017/18	34.4%	31.1%	34.4%

The University of Hong Kong	2013/14	35.2%	36.8%	28.0%
	2014/15	35.0%	36.1%	28.8%
	2015/16	35.8%	37.2%	27.0%
	2016/17	34.7%	35.1%	30.2%
	2017/18	35.9%	36.0%	28.1%

Notes:

1. The above figures are calculated based on the fiscal year of UGC-funded universities (July to June).
2. The above figures cover expenditures on both UGC-funded and self-financing activities.
3. Percentages may not add up to the corresponding totals due to rounding.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5382)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide information on the following in the past 5 years (from 2014/15 to 2018/19):

1. Regarding the 15 competitive research funding schemes administered by the Research Grants Council for the funded universities, please set out the number of projects supported and amount awarded for these projects under each funding scheme in the table below:

Name of Competitive Research Funding Scheme	No. of Projects Supported	Amount Awarded

2. Regarding the 15 competitive research funding schemes mentioned above, please give the respective numbers of applications received under each academic programme category (APC) (i.e. according to the 17 categories under which the teaching funding for UGC-funded universities is allocated, e.g. Medicine, Engineering and Technology, and Social Sciences), numbers of applications approved, success rates, and amount awarded, with a breakdown by research funding scheme and APC:

Name of Competitive Research Funding Scheme	APC	No. of Applications Received	No. of Applications Approved	Success Rate	Amount Awarded

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 201)

Reply:

1. The number of funded projects and the respective approved funding amount under each competitive research funding scheme or fellowship scheme administered by the Research Grants Council (RGC) for application from the University Grants Committee (UGC)-funded universities in the past five academic years (2014/15 to 2018/19) are set out at **Annex A**.

2. The number of applications, number of funded projects, success rate and the respective approved funding amount under each competitive research funding scheme or fellowship scheme administered by the RGC for application from the UGC-funded universities in the past five academic years (2014/15 to 2018/19), with breakdown by broad subject category (funded projects are categorised by the RGC into the disciplines of Biology and Medicine, Business Studies, Engineering, Humanities and Social Sciences as well as Physical Sciences), are set out at **Annex B**.

Annex A

2014/15 Academic Year

Name of Competitive Research Funding Scheme	Number of Funded Projects/ Awardees	Approved Funding Amount ($ million)
Collaborative Research Fund	30	165.1 (Note 1)
Early Career Scheme	154	94.1
Fulbright - RGC Hong Kong Senior Research Scholar / Research Scholar Award Programmes	6	1.2
General Research Fund	972	594.9
Germany / Hong Kong Joint Research Scheme	13	1.0
Hong Kong PhD Fellowship Scheme	223	167.3
Humanities and Social Sciences Prestigious Fellowship Scheme	7	5.3
National Natural Science Foundation of China / RGC Joint Research Scheme	22	23.2
PROCORE-France / Hong Kong Joint Research Scheme	10	0.7
The French National Research Agency / RGC Joint Research Scheme	5	11.0
Theme-based Research Scheme	4	205.0

2015/16 Academic Year

Name of Competitive Research Funding Scheme	Number of Funded Projects/ Awardees	Approved Funding Amount ($ million)
Collaborative Research Fund	18	110.0
Early Career Scheme	151	91.9
Fulbright - RGC Hong Kong Senior Research Scholar / Research Scholar Award Programmes	6	1.2
General Research Fund	949	596.5
Germany / Hong Kong Joint Research Scheme	15	1.0
Hong Kong PhD Fellowship Scheme	216	162.0
Humanities and Social Sciences Prestigious Fellowship Scheme	3	1.5
National Natural Science Foundation of China / RGC Joint Research Scheme	23	26.3
PROCORE-France / Hong Kong Joint Research Scheme	15	0.9
The French National Research Agency / RGC Joint Research Scheme	3	7.1
Theme-based Research Scheme	5	202.8

2016/17 Academic Year

Name of Competitive Research Funding Scheme	Number of Funded Projects/ Awardees	Approved Funding Amount ($ million)
Areas of Excellence Scheme(Note 2)	3	231.2
Collaborative Research Fund	18	110.0
Early Career Scheme	155	89.2
EU-HK Research and Innovation Cooperation Co-funding Mechanism by the RGC	4	9.0
Fulbright - RGC Hong Kong Senior Research Scholar / Research Scholar Award Programmes	6	1.3
General Research Fund	969	599.2
Germany / Hong Kong Joint Research Scheme	12	1.0
Hong Kong PhD Fellowship Scheme	231	173.3
Humanities and Social Sciences Prestigious Fellowship Scheme	4	2.9
National Natural Science Foundation of China / RGC Joint Research Scheme	22	24.2
PROCORE-France / Hong Kong Joint Research Scheme	10	0.7
The French National Research Agency / RGC Joint Research Scheme	3	6.5
Theme-based Research Scheme	7	230.0

2017/18 Academic Year

Name of Competitive Research Funding Scheme	Number of Funded Projects/ Awardees	Approved Funding Amount ($ million)
Collaborative Research Fund	18	110.0
Early Career Scheme	151	84.3
EU-HK Research and Innovation Cooperation Co-funding Mechanism by the RGC	6	10.0
Fulbright - RGC Hong Kong Senior Research Scholar / Research Scholar Award Programmes	6	1.0
General Research Fund	964	593.4
Germany / Hong Kong Joint Research Scheme	14	1.1
Hong Kong PhD Fellowship Scheme	231	173.3
Humanities and Social Sciences Prestigious Fellowship Scheme	5	3.7
National Natural Science Foundation of China / RGC Joint Research Scheme	22	25.7
PROCORE-France / Hong Kong Joint Research Scheme	15	1.0
The French National Research Agency / RGC Joint Research Scheme	3	7.9
Theme-based Research Scheme	5	180.0

2018/19 Academic Year

Name of Competitive Research Funding Scheme	Number of Funded Projects/ Awardees	Approved Funding Amount ($ million)(Note 3)
Areas of Excellence Scheme(Note 2)	3	216.1
Collaborative Research Fund	20	110.0
Early Career Scheme	153	86.7
EU-HK Research and Innovation Cooperation Co-funding Mechanism by the RGC(Note 4)	-	-
Fulbright - RGC Hong Kong Senior Research Scholar / Research Scholar Award Programmes	7	1.1
General Research Fund	989	592.2
Germany / Hong Kong Joint Research Scheme	14	1.1
Hong Kong PhD Fellowship Scheme	231	217.5(Note 5)
Humanities and Social Sciences Prestigious Fellowship Scheme	7	4.5
Joint Laboratory Funding Scheme(Note 6)	-	-
National Natural Science Foundation of China / RGC Joint Research Scheme	24	26.2
PROCORE-France / Hong Kong Joint Research Scheme	11	0.8
Research Impact Fund	30	192.9
The French National Research Agency / RGC Joint Research Scheme	3	7.9
Theme-based Research Scheme	5	180.0

Note 1 Including HK$60 million provided by the UGC on a one-off basis to support the procurement of major research facilities, equipment or library collections.

Note 2 There was no Areas of Excellence Scheme exercise in 2014/15, 2015/16 and 2017/18.

Note 3 Position up to 28 February 2019.

Note 4 As at 28 February 2019, the funding result of the European Union-Hong Kong Research and Innovation Cooperation Co-funding Mechanism by the RGC 2018/19 was not yet announced.

Note 5 Starting from the 2018/19 academic year, stipend of awardees is adjusted annually in accordance with the Composite Consumer Price Index (CPI).

Note 6 The RGC launched a one-off competitive funding scheme called Joint Laboratory Funding Scheme in 2018/19. Funding results will be announced in June 2019.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5383)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the past 5 years (2014/15 to 2018/19):

1. list out, by year, local and overseas subsidiaries established or currently owned by University Grants Committee-funded institutions. Please specify the purposes of setting up the companies, the principal activities, the places of incorporation, the lists of directors, the proportion of share/equity held, and whether the percentage of share / equity is held by the institution or the subsidiary;

2. the schools jointly set up by the eight universities and the Mainland organisations. Please specify the names of the universities, the names of Mainland organisations, the names of joint schools, the years of establishment, the programmes provided, the amount of annual tuition fee and the student intakes of the respective programmes; and

3. the research institutes or other subsidiaries set up by the universities in the Mainland. Please specify the names of the universities, the names of the Mainland organisations, the years of establishment and the research areas.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 202)

Reply:

1. A list of subsidiaries / principal subsidiaries of the eight University Grants Committee (UGC)-funded universities as disclosed in their annual financial reports is provided at **Annex**. Information for the 2018/19 academic year is not available. The annual financial report of each university is available on its website, and the information of each subsidiary / principal subsidiary including the place of incorporation, the principal activities, the particulars of share capital, the share / equity distribution, etc., is also included in the annual financial report on its website.

2 to 3. The setting up of schools or research institutes in the Mainland by the Hong Kong post-secondary institutions, including UGC-funded universities, is self-financed and does not involve any funding from the UGC. We do not have information on the schools jointly set up by UGC-funded universities and Mainland organisations, and the research institutes or other subsidiaries set up by UGC-funded universities in the Mainland.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5708)

Head: (190) University Grants Committee

Subhead (No. & title): (000) Operational expenses

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the 2 items under Other Charges of Subhead 000, please set out the numbers of relevant staff, a breakdown of the expenditures and reasons for the changes in the actual expenditure for 2017-18, the approved estimate for 2018-19, the revised estimate for 2018-19 and the estimate for 2019-20; and the numbers of overseas members involved in and amount of the honoraria for them, as well as the numbers of meetings involved in the meeting expenses of the University Grants Committee, Research Grants Council and Quality Assurance Council and a breakdown of the expenditures on each meeting.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 227)

Reply:

The University Grants Committee (UGC), Research Grants Council (RGC), Quality Assurance Council (QAC), its sub-committees and groups/panels, and quality audit panels comprise non-local members/advisors. A non-local member/advisor may be appointed to more than one committee/sub-committee/group/panel or involved in more than one project/scheme. Non-local members/advisors will receive honoraria, the amount of which depends on the nature, quantity of projects/schemes that they are appointed to/engaged in, etc. Therefore, the amount of honoraria of each non-local member/advisor varies from a few thousand dollars to a hundred thousand dollars. The numbers of non-local members/advisors and the amount of their honoraria are at **Annex A**.

The UGC, RGC, QAC, its sub-committees and groups/panels and quality audit panels conduct around 100 meetings annually. The attendees of the meetings include both local and non-local members/advisors, and the number of attendees varies for each meeting. Meeting expenses mainly include air ticket costs, hotel accommodation costs, per-diem allowances for non-local members, rentals of meeting venues, official entertainment expenses, etc. The numbers of UGC, RGC and QAC meetings and the breakdown of the expenditures on each meeting from financial year 2017-18 to financial year 2019-20 are at **Annex B**.

Annex A

	2017-18 Actual Expenditure		2018-19 Approved Estimate		2018-19 Revised Estimate		2019-20 Estimate	
	No. of non-local members / advisors involved in honoraria	Amount of honoraria for non-local members / advisors (in $mil)	No. of non-local members / advisors involved in honoraria	Amount of honoraria for non-local members / advisors (in $mil)	No. of non-local members / advisors involved in honoraria	Amount of honoraria for non-local members / advisors (in $mil)	No. of non-local members / advisors involved in honoraria	Amount of honoraria for non-local members / advisors (in $mil)
UGC	30	1.7	17	1.4	17	1.9	20	2.1
RGC	212	10.2	310	12.8	297	13.0	332	15.6
QAC	8	0.5	15	1.0	15	1.0	6	0.5

Note:
The amount of expenses on each meeting may not tally with the grand total due to rounding.

Annex B

	2017-18 Actual Expenditure		2018-19 Approved Estimate		2018-19 Revised Estimate		2019-20 Estimate	
	No. of meetings	Meeting expenses (in $mil)	No. of meetings	Meeting expenses (in $mil)	No. of meetings	Meeting expenses (in $mil)	No. of meetings	Meeting expenses (in $mil)
UGC	28	2.4	25	5.5	26	5.6	21	3.2
RGC	64	11.7	72	26.6	72	21.7	67	29.6
QAC	10	1.1	8	2.4	8	1.9	3	0.6

Note:

1. The amount of expenses on each meeting may not tally with the grand total due to rounding.
2. Meeting expenses mainly include air passage costs, hotel accommodation costs, per-diem allowances, rentals of meeting venues, etc.
3. Meeting expenses under UGC include meeting expenses spent on meetings of the UGC, its sub-committees and groups.
4. Meeting expenses under RGC include meeting expenses spent on meetings of the RGC, its committees and panels.
5. Meeting expenses under QGC include meeting expenses spent on meetings of the QAC and its quality audit panels.
6. The number of attendees of each meeting varies.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5867)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the Faculty of Medicine and affiliated teaching hospital to be set up by the Chinese University of Hong Kong, Shenzhen, please advise this Committee in table form on the following:

1. details of expenditure involved;

2. deployment of existing teaching staff involved;

3. estimated student intakes (Hong Kong, Mainland and international students);

4. estimated subsidy amount for each student (Hong Kong, Mainland and international students); and

5. number of teaching staff to be recruited and expenditure involved.

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 185)

Reply:

The eight University Grants Committee (UGC)-funded universities are autonomous bodies with their own ordinance and management committee/ governing council. Their ordinances and statutes set out their objectives, functions and governance structures and provide the universities with the power and freedom to carry out their objectives and functions. Funded universities have substantial freedom in the control of academic development, administration and internal allocation of resources, and are accountable in these matters. They may decide to conduct self-financing activities on their own, including setting up educational establishments and programmes outside Hong Kong, without having to seek approval from UGC. Universities should be mindful of the interests of the students and the public of Hong Kong and ensure that the self-financing activities do not detract from their core work in Hong Kong. Universities are required to keep separate accounts for their publicly-funded and self-financing activities and comply with established guidelines

and requirements to ensure that there is no cross-subsidisation of UGC resources to self-financing activities.

Regarding the Faculty of Medicine and affiliated teaching hospital to be set up in the Mainland on a self-financing basis by the Chinese University of Hong Kong, since the educational establishments or the programmes concerned are not funded by UGC, UGC does not have the relevant information.

Director of Bureau: Secretary for Education

Question:

Regarding the number of students who pursued a degree programme funded by the University Grants Committee (UGC), will the Government inform this Committee:

(a) of the number of students who pursued a degree programme funded by the UGC, the average unit cost of UGC-funded degree places and the total amount of subventions involved from the 2013/14 to 2018/19 academic years, with a breakdown by year of study, area of study and faculty in table form;

(b) of the number of non-local students among the undergraduates who pursued a UGC-funded programme from the 2013/14 to 2018/19 academic years, with a breakdown by institution, level of study, place of origin and mode of study; and

(c) of the number of non-local students who pursued a non-UGC funded undergraduate programme, with a breakdown by institution, level of study, place of origin and mode of study?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 27)

Reply:

(a) The student enrolments of the UGC-funded undergraduate programmes by university and broad academic programme category from the 2014/15 to 2018/19 academic years are at **Annex A**. The UGC has derived the average student unit costs of UGC-funded programmes by level of study, academic programme category and teaching/research cost, which are based on the actual costs reported by universities. Such information is available on the UGC website for the public's information and reference. In addition to UGC funding, universities have other sources of income, such as donations and other research funding. The actual costs reported by universities are not solely covered by UGC funding. The UGC is thus unable to estimate accordingly the actual subvention or expenditure on specific programmes by level of study and academic programme category. It is noteworthy that the UGC has no precise requirements as to

how the block grant should be spent by universities. Universities are given autonomy to allocate funds internally to programmes of various disciplines at different levels as they see fit. The UGC is therefore unable to identify or provide information about the actual subvention or expenditure on specific programmes.

The average student unit costs of the UGC-funded undergraduate places and the total subvention from the 2014/15 to 2018/19 academic years are set out below:

	2014/15 Actual	**2015/16** Actual	**2016/17** Actual	**2017/18** Actual	**2018/19** Revised estimate
Average student unit cost ($'000)	222	237	242	251[Note]	Not available
Total subvention for the UGC-funded universities ($ billion)	16.2	17.9	18.6	19.1	19.7

Note: Provisional figure.

(b) At present, UGC-funded universities can admit all non-local students in UGC-funded undergraduate programmes through over-enrollment outside the approved student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes by level of study. The UGC will not provide extra resources for this purpose. To ensure that public money is not spent on subsidising non-local students, these non-local students are required to pay tuition fees at a level that is at least sufficient to cover all additional direct costs.

The respective numbers of non-local students of UGC-funded undergraduate programmes by university, mode of study and place of origin from the 2014/15 to 2018/19 academic years are at **Annex B**.

(c) The respective numbers of non-local students of non-UGC-funded undergraduate programmes by institution, mode of study and place of origin from the 2014/15 to 2018/19 academic years are at **Annex C**.

Annex A

Student enrolments of UGC-funded undergraduate programmes by university and broad academic programme category from the 2014/15 to 2018/19 academic years

(Full-time equivalent)

Note:

1. Since some UGC-funded programmes are mapped to more than one academic programme category, students of these programmes are counted across the academic programme categories concerned on a pro-rata basis. Thus the student numbers of some academic programme categories are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals. The figure zero denotes figure less than 0.5.
2. "-" denotes nil.

Annex B

Number of non-local students of UGC-funded undergraduate programmes by university, mode of study and place of origin from the 2014/15 to 2018/19 academic years

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3872)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

As regards the funding for taught postgraduate (TPg)/research postgraduate (RPg) programmes provided by the University Grants Committee (UGC), please advise this Committee:

(a) of the respective numbers of students and average unit costs for the UGC-funded TPg/RPg programmes and the total amounts of funding involved from the 2014/15 to 2018/19 academic years by year of study, academic programme and faculty (set out in table form); if such statistics are not available, of the reasons;

(b) in relation to the above, of the number of non-local students from the 2013/14 to 2017/18 academic years by institution, level of study, place of origin and mode of study.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 28)

Reply:

(a)

The student enrolments of the UGC-funded TPg and RPg programmes by university and broad academic programme category from the 2014/15 to 2018/19 academic years are at **Annex A**. The UGC has derived the average student unit costs of UGC-funded programmes by level of study, academic programme category and teaching/research cost, which are based on the actual costs reported by universities. Such information is available on the UGC website for the public's information and reference. In addition to UGC funding, universities have other sources of income, such as donations and other research funding. The actual costs reported by universities are not solely covered by UGC funding. The UGC is thus unable to estimate accordingly the actual subvention or expenditure on specific programmes by level of study and academic programme category. It is noteworthy that the UGC has no precise requirements as to how the block grant should be

spent by universities. Universities are given autonomy to allocate funds internally to programmes of various disciplines at different levels as they see fit. The UGC is therefore unable to identify or provide information about the actual subvention or expenditure on specific programmes.

The average student unit costs of UGC-funded TPg and RPg places, as well as the total subvention from the 2014/15 to 2018/19 academic years are set out below:

	2014/15 Actual	**2015/16** Actual	**2016/17** Actual	**2017/18** Actual	**2018/19** Revised estimate
Average student unit cost ($'000)					
- UGC-funded TPg programmes	215	230	232	243[Note]	Not available
- UGC-funded RPg programmes	511	548	568	581[Note]	Not available
Total subvention for the UGC-funded universities ($ billion)	16.2	17.9	18.6	19.1	19.7

Note:
Provisional figures.

(b)

At present, UGC-funded universities can admit all non-local students in UGC-funded TPg programmes through over-enrollment outside the approved student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes by level of study. The UGC will not provide extra resources for this purpose. To ensure that public money is not spent on subsidising non-local students, these non-local students are required to pay tuition fees at a level that is at least sufficient to cover all additional direct costs.

As regards the UGC-funded RPg programmes, the UGC-funded universities admit RPg students on a merit basis, taking into account the students' academic results and research capability. The place of origin of the students is not a consideration. This helps ensure that the best candidates from different places are engaged to boost the level of research in Hong Kong, and is in line with the common practice of the international academic community.

The respective numbers of non-local students pursuing the UGC-funded TPg and RPg programmes from the 2013/14 to 2017/18 academic years by university, mode of study and place of origin are at **Annex B**.

Annex A

Student enrolments of UGC-funded TPg and RPg programmes by university and broad academic programme category from the 2014/15 to 2018/19 academic years

2014/15 academic year

(Full-time equivalent)

Notes:

1. Since some UGC-funded programmes are mapped to more than one academic programme category, students of these programmes are counted across the academic programme categories concerned on a pro-rata basis. Thus, the student numbers of some academic programme categories are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals. The figure zero denotes figure less than 0.5.
2. UGC-funded RPg students refer to students funded by the UGC within their normal study periods.
3. Figures may not add up to the corresponding totals owing to rounding. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis.
4. "-" denotes nil.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3323)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the number of places and amounts of funding in each of the past 5 academic years and the coming academic year for full-time and part-time, publicly-funded and self-financing degree and sub-degree social work programmes in various post-secondary colleges:

Post-secondary colleges	Full-time/ part-time	Publicly funded/ self-financing	Degree/ sub-degree	Number of places 2014/15	Number of places 2015/16	Number of places 2016/17	Number of places 2017/18	Number of places 2018/19	Number of places 2019/20

Asked by: Hon LEUNG Yiu-chung (LegCo internal reference no.: 1063)

Reply:

The approved numbers of undergraduate places of University Grants Committee (UGC)-funded social work programmes for the 2014/15 to 2019/20 academic years are at **Annex A**. The UGC-funded universities do not have any UGC-funded social work sub-degree programmes in the corresponding period. The recurrent grants to the universities are in the form of a block grant. As funding for the said programmes is subsumed under the block grants, the UGC is unable to provide information on the actual subvention for individual programmes. The average student unit cost for a particular level of study is derived based on the actual cost incurred by UGC-funded expenditure items as reported by universities. According to the information provided by the universities, the average student unit costs per annum at sub-degree and undergraduate levels for the 2014/15 to 2017/18 academic years were $173,000 and $238,000 respectively. The bulk was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. $15,040, $31,575 and $42,100 per annum for UGC-funded sub-degree programmes offered by the Education University of Hong Kong, UGC-funded sub-degree programmes offered by other universities and full-time UGC-funded undergraduate programmes

respectively). The average student unit cost for the 2018/19 academic year and beyond is not yet available.

The estimated intakes of full-time locally-accredited self-financing undergraduate and sub-degree social work programmes for the 2014/15 to 2019/20 academic years are set out at **Annex B**.

Annex A

Approved Number of Undergraduate Places of UGC-funded Social Work Programmes by University for the 2014/15 to 2019/20 Academic Years

Full-time equivalent

University	Level of Study	Number of Approved Intake Places

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3676)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Will the Education Bureau/University Grants Committee inform this Committee of the respective numbers of publicly-funded, privately-funded and temporary hostel places provided by tertiary institutions in Hong Kong, and the ratios of allocation of such places between local and non-local students in the 2018/19 academic year with a breakdown by institution?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 49)

Reply:

The number of hostel places available in the University Grants Committee (UGC)-funded universities and the ratio of hostel places allocated to local and non-local students at the beginning of the 2018/19 academic year as advised by the UGC-funded universities are at the **Annex**.

Annex

(A) Hostel places available for allocation to students in UGC-funded universities

University	2018/19 academic year			
	Publicly-funded	**Privately-funded**	**Temporary**	**Total**
City University of Hong Kong	3 440	208	0	3 648
Hong Kong Baptist University	1 630	250	216	2 096
Lingnan University	1 300	1 170	107	2 577
The Chinese University of Hong Kong	5 408	2 593	488	8 489
The Education University of Hong Kong	2 000	0	186	2 186
The Hong Kong Polytechnic University	4 654	0	286	4 940
The Hong Kong University of Science and Technology	3 814	1 272	638	5 724
The University of Hong Kong	5 573	613	186	6 372
Total	**27 819**	**6 106**	**2 107**	**36 032**

(B) Ratio of hostel places allocated to local and non-local students by UGC-funded universities

University	Ratio of hostel places allocated in the 2018/19 academic year	
	Local students	**Non-local students**
City University of Hong Kong	42%	58%
Hong Kong Baptist University	58%	42%
Lingnan University	78%	22%
The Chinese University of Hong Kong	56%	44%
The Education University of Hong Kong	74%	26%
The Hong Kong Polytechnic University	45%	55%
The Hong Kong University of Science and Technology	46%	54%
The University of Hong Kong	45%	55%
Overall	**52%**	**48%**

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3720)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Budget that a dedicated provision of $16 billion will be set aside for University Grants Committee-funded universities to enhance or refurbish campus facilities, in particular the provision of additional facilities essential for research and development (R&D) activities (such as laboratories). Please advise this Committee of the following:

(1) the details of the funding, vetting procedures and the estimated annual number of applications for the coming few years;

(2) how to evaluate the effectiveness of the funding; and

(3) whether there will be a requirement that prior consideration will be given to local technology enterprises in providing R&D facilities needed by universities to facilitate the development of local technology industry; if yes, the details.

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 105)

Reply:

Under the existing mechanism, the University Grants Committee (UGC)-funded universities can apply for capital grants from the Government through UGC on an annual basis to carry out capital works[Note 1] and campus alterations, additions, repairs and improvement works[Note 2]. The universities first need to submit their preliminary works proposals to the UGC elaborating the scope and details of the works projects. When considering the works proposals of the universities, UGC will consider various factors, such as whether the proposals will fulfill the campus master development plans and meet space shortfall of the universities; whether the proposed construction works can meet the long-term needs of the universities; and whether the proposals are in line with government policies and the roles and missions of the universities. At the same time, UGC will consult its technical advisor (i.e. the Architectural Services Department) on technical issues and costs of the proposed works projects to ensure that the projects are worth funding. The project proposals

supported by the UGC and the Government will be submitted to the Legislative Council for funding approval in accordance with the established procedures.

UGC will continue to adopt the above mechanism for universities to apply for the dedicated provision of $16 billion in the Budget. Since the campus facilities required by individual universities are different, the Government is not able to accurately estimate the number of applications for funding each year at this stage.

The earmarked funding will be used for works projects for all disciplines and not to be confined to teaching and research facilities for scientific exploration. Nevertheless, the Government hopes that universities will, in developing or enhancing hardware, give due and priority consideration to innovation and technology needs.

Note 1 Applicable to capital works projects costing more than $30 million.

Note 2 Applicable to alterations, additions, repairs and improvements costing not more than $30 million.

Director of Bureau: Secretary for Education

Question:

1. What were the respective numbers of non-Chinese speaking (NCS) students enrolled on the Applied Learning Chinese (for NCS students) courses and the numbers of secondary schools involved in the past 3 years? How many of such NCS students could pursue further studies in the University Grants Committee (UGC)-funded undergraduate programmes?

2. What were the numbers of local NCS students admitted to UGC-funded undergraduate programmes in the past 3 years and their respective percentage share of the total number of students?

3. What were the numbers of local NCS graduates of UGC-funded undergraduate programmes in the past 3 years and their respective percentage share of the total number of graduates?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 201)

Reply:

1. According to information provided by the Education Bureau, the Applied Learning Chinese (for non-Chinese speaking (NCS) students) (ApL(C)) courses are for NCS students only. The respective numbers of NCS studying the ApL(C) courses are 179, 206 and 230 from 23, 24 and 42 secondary schools in the 2016-18, 2017-19 and 2018-20 school years. The Education Bureau has not conducted any graduate surveys in respect of the relevant courses and hence the number of graduates studying University Grants Committee (UGC)-funded undergraduate programmes is not available.

2. According to statistics provided by the UGC-funded universities, the number of intakes of local NCS students studying UGC-funded full-time undergraduate programmes in the 2016/17 to 2018/19 academic years and their percentage shares of the total number of intakes are set out below:

(Headcount)

	2016/17	2017/18	2018/19 (Provisional)
(a) Local NCS intakes of full-time UGC-funded undergraduate programmes	253	335	361
(b) Total number of intakes of full-time UGC-funded undergraduate programmes	22 889	23 010	23 386
Percentage share of local NCS intakes [(a) / (b)]	1.1%	1.5%	1.5%

3. UGC does not collect the information on the NCS graduates.

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding internationalisation and non-local students, please list the number of non-local students pursuing publicly-funded taught programmes in funded universities and the funding expenditures involved over the past 5 years:

Year	Total number of non-local students	Number of non-local students from the Mainland	Number of non-local students from Taiwan	Number of non-local students from other regions and countries
2015-2016				
2016-2017				
2017-2018				
2018-2019				
2019-2020				

Year	Funding expenditures on all non-local students	Funding expenditures on non-local students from the Mainland	Funding expenditures on non-local students from Taiwan	Funding expenditures on non-local students from other regions and countries
2015-2016				
2016-2017				
2017-2018				
2018-2019				
2019-2020				

Asked by: Hon TAM Man-ho, Jeremy (LegCo internal reference no.: 125)

Reply:

The numbers of non-local students of University Grants Committee (UGC)-funded taught programmes from the Mainland, Taiwan and other regions from the 2014/15 to 2018/19 academic years are set out at **Annex**. The number of students in the 2019/20 academic year is not available.

Funding provided by the UGC to its funded universities is made in the form of a block grant on the basis of the approved student places allocated to each funded university. At present, funded universities can admit non-local students to their publicly-funded sub-degree, undergraduate and taught postgraduate programmes through over-enrolment outside the approved student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes by study level. No extra resources will be provided by the UGC for over-enrolment. These non-local students are required to pay tuition fees at a level that is at least sufficient to recover all additional direct costs. In other words, no additional public resources are involved in over-enrolment of non-local students.

Annex

Numbers of Non-local Students of UGC-funded Taught Programmes by Place of Origin from the 2014/15 to 2018/19 Academic Years

(Headcount)

Place of Origin	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19#**
The Mainland	6 701	6 779	6 906	6 982	7 023
Taiwan	440	515	573	622	708
Other regions	2 330	2 505	2 946	3 320	3 972
Total	**9 471**	**9 799**	**10 425**	**10 924**	**11 703**

CONTROLLING OFFICER'S REPLY

(Question Serial No. 7260)

Head: (160) Radio Television Hong Kong

Subhead (No. & title): (-) Not Specified

Programme: (3) School Education Television Programme

Controlling Officer: Director of Broadcasting (LEUNG Ka Wing)

Director of Bureau: Secretary for Education

Question:

1. From 2016-17 to 2019-20, what are the actual and estimated staffing establishment for school educational television (ETV) programmes for each year? What is the respective expenditure involved?
2. From 2016-17 to 2019-20, what are the respective numbers of in-house and commissioned programmes? What are the respective unit costs?
3. Why is the revised estimate of output hours for 2018-19 lower than the actual output hours in 2017-18? And why does the cost per hour increase in contrast?
4. From 2016-17 to 2019-20, what are the actual and estimated numbers of ETV programmes provided to kindergartens, primary and secondary schools for each year? What are the types of content and production years respectively?
5. From 2016-17 to 2018-19, what are the types of programmes most and least viewed by kindergarten, primary and secondary school students respectively?
6. The average numbers of programmes watched by each class in kindergartens and secondary schools are only 1.8 and 2.9 respectively. What are the ratios of these numbers to the total number of programmes of the same type?
7. What are the scaling details of the usefulness indicator? What is the response rate in collecting the opinion?
8. When will the review on the mode of viewing ETV programmes in the education sector be completed? Which organisation is responsible for the review? What is the expenditure involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 142)

Reply:

1. From 2016-17 to 2019-20, the overall expenditures on school educational television (ETV) programmes and the staffing establishments of Radio Television Hong Kong (RTHK) involved are as follows:

Year	Overall Expenditure	Staffing Establishment of RTHK
2016-17 (Actual)	$34.5 million	17
2017-18 (Actual)	$29.8 million	14
2018-19 (Revised)	$27.5 million	13
2019-20 (Estimated)	$28 million	12

2. From 2016-17 to 2018-19, RTHK did not commission the production of ETV programmes. In order to enhance the cost-effectiveness of the production of ETV programmes, RTHK is currently considering the number of commissioned ETV programmes to be produced in 2019-20.

3. The decrease in the number of programmes and hours of output for school ETV section in 2018-19 is due to the redeployment of resources in the EDB for developing multimedia learning and teaching resources in accordance with the direction of curriculum development. Although the staff establishment had also decreased, the staff salaries had increased, and thus there was still a rise in the cost per hour.

4. From 2016-17 to 2018-19, the numbers of ETV programmes provided for kindergartens were 10, 9 and 6 respectively; the numbers of ETV programmes provided for primary schools were 33, 30 and 28 respectively. The key learning areas / subjects covered include Chinese Language Education, English Language Education, Mathematics Education and General Studies; the numbers of ETV programmes provided for secondary schools were 14, 21 and 16 respectively. The key learning areas covered include Chinese Language Education, English Language Education, Mathematics Education, Personal, Social & Humanities Education, as well as Science Education (Secondary 1 to 3) and Science Education (Secondary 4 to 6); the numbers of ETV programmes provided for other key learning areas / levels of education, parent and teacher resources were 23, 10 and 12 respectively. The estimated and actual numbers of programmes produced were the same. The production for 2019-20 is still under planning. There is currently no relevant information.

5, 6 & 8. Given that the mode of use of video resources in the education sector has changed, the EDB has divided the programmes into chapters and short video clips with a length of a few minutes, which have been uploaded to the Hong Kong Education City (HKEdCity) ETV website (https://etv.hkedcity.net) for schools' flexible use. Teachers can even download these resources according to their needs. Students may watch the ETV video clips on the Internet at home for lesson preparation or revision, thereby making the most of the lesson time to engage in in-depth problem solving or consolidation activities. This could help enhance learning and teaching effectiveness. Available information indicates that HKEdCity ETV website records over 3 million hits per year. Moreover, the number of downloads of the "ETV mobile application", which was launched by the EDB, has also been rising steadily, exceeding 80 000 as at mid-March 2019. The EDB has no figures regarding the types of programmes most and least viewed by kindergarten, primary and secondary school students.

The multimedia resources of school ETV are one of the many kinds of learning and teaching resources, which are produced based mainly on the curriculum and students' learning needs for teachers' flexible use. The EDB has been commissioning a tertiary institute or agency

to conduct annual surveys to assess the utilisation rate of ETV services. In 2017-18, the EDB produced 9, 30 and 21 brand new programmes for kindergartens, primary schools and secondary schools respectively. According to the findings of the survey conducted in the 2017/2018 school year, the average numbers of programmes watched by each class in kindergartens, primary schools and secondary schools were 1.8, 33.8 and 2.9 respectively. What has to be emphasised is that the current survey is targeted at schools, it relates only to students' viewing ETV resources arranged by teachers and for this reason, the survey findings cannot adequately reflect students' access to ETV resources over the Internet outside class. The EDB will improve the methodology of surveys on the use of ETV multimedia resources in the 2018/2019 school year by putting on trial the enhanced annual survey, so as to yield more comprehensive data which can fully reflect their utilisation. The preliminary survey findings are expected to be available before the end of the 2018/2019 school year for discussion by the relevant committees under the Curriculum Development Council. The related work is still under planning. There is currently no information about the relevant expenditure.

7. The scaling details of the usefulness indicator include teachers' levels of satisfaction concerning the following areas: the appropriateness and teaching effectiveness of the teaching design, content and method, and the effectiveness on the enhancement of students' interest in learning and initiatives to learn, etc. The percentages of feedback of kindergartens, primary schools and secondary schools are 77.4%, 84.4% and 82.5% respectively.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4406)

Head: (160) Radio Television Hong Kong

Subhead (No. & title): (-) Not Specified

Programme: (3) School Education Television Programme

Controlling Officer: Director of Broadcasting (LEUNG Ka Wing)

Director of Bureau: Secretary for Education

Question:

(a) For years, the contents of educational television (ETV) programmes have not been up-to-date and many schools have stopped using the service. The duration of each episode of the Government's video-based resources is around 10 to 20 minutes. Take a 35-minute lesson for primary school students as an example, programmes in the old format take up relatively more lesson time and consist of less up-to-date plots. In this respect, can the Government inform what new ETV programmes have been produced so far since 2015? Please include their programme titles, target audience, durations and production years. If there is not any new programme, what are the reasons?

(b) While the budget for the programmes is $28 million, the highest level of usefulness reported by teachers is only 79. What are the reasons in detail?

(c) The mode of viewing ETV programmes in the education sector has changed. A review of the indicators will be conducted this year. What are the details of the review? Is there a concrete timetable as to when the review will be completed? If so, what are the details?

Asked by: Hon LAU Kwok-fan (LegCo internal reference no.: 51)

Reply:

(a) During 2015-16 to 2018-19, the Educational Television (ETV) Unit of the Education Bureau (EDB) has produced over 60 brand new ETV programmes, ranging from 10 to 20 minutes, for kindergarten, primary and secondary students, teachers and parents each year. The details are as follows:

Contents	Financial Years			
	2015-16	2016-17	2017-18	2018-19
Kindergartens: Kindergarten Education	3	10	9	6
Primary Schools: Chinese Language Education, English Language Education, Mathematics Education and General Studies	47	33	30	28
Secondary Schools: Chinese Language Education, English Language Education, Mathematics Education, Personal, Social & Humanities Education, and Science Education (Secondary 1 to 3) and Science Education (Secondary 4 to 6)	18	14	21	16
Others: Other Key Learning Areas / Levels of Education; Parent / Teacher Resource Programmes and "Education Magazine"	12	23	10	12

Note: The production for 2019-20 is still under planning. There is currently no relevant information.

Given that the mode of use of video resources in the education sector has changed, the EDB has divided the programmes into chapters and short video clips with a length of a few minutes, which have been uploaded to the Hong Kong Education City (HKEdCity) ETV website (https://etv.hkedcity.net) for schools' flexible use. Teachers can even download these resources according to their needs. Students may also watch the ETV video clips on the Internet at home for lesson preparation or revision, thereby making the most of the lesson time to engage in in-depth problem solving or consolidation activities. This could help enhance learning and teaching effectiveness. The HKEdCity ETV website records over 3 million hits per year. Moreover, the EDB launched the "ETV mobile application" and the number of downloads has been rising steadily, exceeding 80 000 as at mid-March 2019. In addition, the EDB outsourced the production of multimedia resources of various kinds, including theme-based short videos, multi-ending micro movies, photos and sound tracks (e.g. the sounds of Asiatic Painted frogs and trams), as well as a learning and teaching resource package for kindergartens which contains picture books, numbered musical notations and music videos of nursery rhymes, videos, animations, puppets, etc. Apart from the physical resources, such as puppets, etc., relevant resources have also been uploaded to the HKEdCity ETV website (https://etv.hkedcity.net).

(b) School ETV resources are one of the many kinds of multimedia learning and teaching resources for schools' use. To evaluate the utilisation rate and effectiveness of ETV service, the EDB has been commissioning a tertiary institute or agency to conduct annual surveys to assess the usefulness of ETV services. Assessment is conducted by calculating the weighted average of teachers' satisfaction scores in the areas of pedagogical design,

appropriateness of content and presentation, achievement of teaching objectives as well as promotion of students' interest and motivation to learn. The full mark of the usefulness indicator is 100. This survey is a territory-wide annual survey for schools. The scores of the usefulness indicator for kindergartens, primary and secondary schools are all over 70, reflecting a positive feedback from schools on the whole. In addition, the EDB also grasps teachers' views on ETV programmes through various channels, such as focus group interviews of teachers, curriculum development visits, professional development programmes for teachers, etc. In summary, teachers opine that ETV programmes are effective learning and teaching resources. In fact, Hong Kong's ETV productions receive more than 10 international awards every year, demonstrating that their production standards gain international recognition.

(c) As the current annual survey is targeted at schools, it relates only to students' viewing ETV resources arranged by teachers and for this reason, the survey findings cannot adequately reflect students' access to ETV resources over the Internet outside class. The EDB will improve the methodology of the survey on the use of ETV multimedia resources, and the modified survey will be tried out in the 2018/19 school year, with a view to yielding more comprehensive data which can comprehensively reflect their utilisation. The preliminary survey findings are expected to be available by end of the 2018/19 school year for discussion by the relevant committees under the Curriculum Development Council.
