CONTROLLING OFFICER'S REPLY

(Question Serial No. 1229)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out in table form the following information on research projects from 2006 to 2018 related to ethnic minorities and/or non-Chinese speaking students for which public funds had been allocated, e.g. by the University Grants Committee, Education Bureau, Standing Committee on Language Education and Research (SCOLAR) and Quality Education Fund (QEF):

a. funding body;
b. title of research;
c. name of institution(s) and/or investigator(s);
d. amount of funding for each research project;
e. start date
f. progress of research (under planning/ in progress/ completed date)
g. Administration's follow-up to the research report and the progress (if any)
h. For completed research, have the executive summary/full report been made publicly available; if yes, through which channels; if no, explain why.
i. webpage links to the completed research report
j. measures taken to safeguard against misuse of research funding

Asked by: Hon AU Nok-hin (LegCo internal reference no.: 5)

Reply:

Information on research projects related to ethnic minorities and/or non-Chinese speaking students for which public funds had been allocated in the past 5 years (Note) is set out at the Annex.

Annex

Funding body	Title of research	Name of institution and/or investigator	Amount of funding for each research project ($)	Start date	Progress of research (under planning/ in progress/ completion date)	The Administration's follow-ups to the research reports and the progress (if any)	For completed research projects, have the executive summaries/full reports been made publicly available? If yes, through which channels? If no, why?	Webpage links to the completed research reports	What measures have been taken to safeguard against misuse of research funding?
Research Grants Council (RGC)	Second Language(s) Learning Motivation and Identity Construction of Ethnic Minority Students in Hong Kong: A Multi-level Investigation	The Chinese University of Hong Kong	368,500	January 2014	Completed (August 2016)	Not applicable	Summary of the completed report has been made available at RGC's website for public information.	https://cerg1.ugc.edu.hk/cergprod/scrrm00542.jsp?proj_id=443213	Institution and researcher must abide by the guidelines on disbursement, accounting and monitoring arrangements of related RGC's competitive research funding scheme; and submit a financial statement to the RGC for review after project completion.
RGC	"Neither Immigrants nor Citizens": Constructing Citizenship Values in a Transnational Context for Hong Kong's Ethnic Minority Students	The Education University of Hong Kong	756,988	January 2015	Completed (December 2017)	Not applicable	Summary of the completed report has been made available at RGC's website for public information.	https://cerg1.ugc.edu.hk/cergprod/scrrm00542.jsp?proj_id=18402514	Institution and researcher must abide by the guidelines on disbursement, accounting and monitoring arrangements of related RGC's competitive research funding scheme; and submit a financial statement to the RGC for review after project completion.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1230)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the attendance of public examinations and the senior secondary education of non-Chinese speaking (NCS) students, please provide information between the 2012/13 to 2017/18 school years:

a. among the NCS students who have attended the Hong Kong Diploma of Secondary Education (HKDSE) Examination, the number of students who sat for HKDSE Chinese Language exam desegregated by their attendance of public, DSS or private schools;

b. the number of NCS students who have studied Secondary 6 but eventually did not enroll in the HKDSE or have enrolled in the HKDSE but were absent from the examination desegregated by their attendance of public, DSS or private schools.

c. the number of dropped out Secondary 4 and Secondary 5 NCS students desegregated by their attendance of public, DSS or private schools;

d. the number of students who are ethnic Chinese within the NCS group;

e. list out the programmes organized by either the Education Bureau or the non-governmental organizations (NGOs) targeting the dropped out students, including the funding source, no. of enrolled students, no. of attendance, and among the participants, how many are NCS students.

Asked by: Hon AU Nok-hin (LegCo internal reference no.: 6)

Reply:

a. and b. In the past 5 years (i.e. from the 2013/14 to 2017/18 school years), there were 829, 930, 1 150, 1 186 and 1 317 non-Chinese speaking (NCS) students (i.e.

students whose spoken language at home is not Chinese) attending Secondary 6 in public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum (including 341, 347, 506, 541 and 582 students studying in public sector schools, and 488, 583, 644, 645 and 735 students studying in DSS schools offering the local curriculum) in the respective school years. Among these students, there were 731, 830, 1 046, 1 072 and 1 206 students (including 324, 333, 491, 520 and 572 students in public sector schools, and 407, 497, 555, 552 and 634 students in DSS schools offering the local curriculum) who entered for the Hong Kong Diploma of Secondary Education Examination (HKDSE) respectively. Out of these 731, 830, 1 046, 1 072 and 1 206 NCS students, 113, 97, 116, 106 and 103 students (including 73, 76, 85, 81 and 78 students in public sector schools, and 40, 21, 31, 25 and 25 students in DSS schools offering the local curriculum) entered for the HKDSE (Chinese Language) respectively, among which 2, 2, 1, 2, 1 student(s) (including 1, 1, 1, 2 and 1 student(s) in public sector schools, and 1, 1, 0, 0 and 0 student in DSS schools offering the local curriculum) were absent from the examination. We do not have the relevant information on the number of NCS students in private schools.

c. Under the existing mechanism, schools must report all students' non-attendance and departure cases to the Education Bureau (EDB). However, schools are not required to indicate whether the students involved are NCS students in their report to EDB. Besides, cases of students' departure involve different factors and some students would resume schooling later. Therefore, we cannot provide the information requested.

d. From the 2013/14 to 2017/18 school years, the number of Chinese NCS students studying in public sector secondary schools and DSS secondary schools offering the local curriculum is tabulated below:

School year	S1	S2	S3	S4	S5	S6	Total
2013/14	116	82	76	62	71	81	488
2014/15	106	127	83	97	71	64	548
2015/16	122	106	134	95	90	83	630
2016/17	150	112	107	143	99	94	705
2017/18	146	139	103	119	133	100	740

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Figures include Chinese NCS students studying in public sector secondary schools and DSS secondary schools offering the local curriculum. Figures do not include students in special schools.
3. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students.

e. EDB is committed to providing various kinds of services for needy students (including NCS students). Towards this end, we have all along been supporting school administrators, teachers, student guidance personnel or school social

workers to provide appropriate guidance services for non-attendance students and those having departed from schools, with a view to understanding their needs and difficulties, helping them resume schooling, or referring them to attend training programmes or courses which cater for their needs, e.g. short-term adjustment programmes organised by schools, training programmes provided by the Vocational Training Council for non-engaged youths, or short-term courses provided by non-governmental organisations (NGOs). At present, various NGOs provide different types of short-term courses for teenagers. These courses aim at enhancing students' motivation to attend school, helping them develop positive goals in life and prepare well for employment, supporting hidden youths, treating internet addiction, etc. The above training programmes or courses are not organised by EDB. Hence, we have not collected the relevant data and cannot provide information on the funding and number of student participants.

In addition, to enhance NCS school leavers' employability, the Standing Committee on Language Education and Research has, since April 2016, introduced the "Vocational Chinese Language Programme for NCS School Leavers", under which educational/training organisations are commissioned to offer vocational Chinese language courses pegged at Level 1 or 2 of the Qualifications Framework with the funding support of the Language Fund. Up to 85% of the tuition fee can be reimbursed to participants who fulfill the relevant requirements for attendance or assessment upon completion of the courses. The number of participants admitted to/enrolled in the relevant programmes is as follows:

School year	No. of participants admitted/enrolled
2016/17	223
2017/18	140

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1231)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

1. Using the table below, the number of all Form 6 students, the number of Form 6 non-Chinese speaking (NCS) students, the number of all Form 6 students sitting for HKDSE, the number of Form 6 NCS students sitting for HKDSE, the number of all Form 6 students sitting for HKDSE Chinese Exam, and the number of Form 6 NCS students sitting for HKDSE Chinese Exam for the year 2014/15, 2015/16, 2016/17 and 2017/18:

	No. of all F6 students	No. of F6 NCS students	No. of all F6 students sitting for DSE	No. of F6 NCS students sitting for DSE	No. of all F6 students sitting for DSE Chinese Exam	No. of F6 NCS students sitting for DSE Chinese Exam
2014/15						
2015/16						
2016/17						
2017/18						

2. The number of day students earning these grades (U, 1, 2, 3, 4, 5, 5*, 5**) among Form 6 students sitting for DSE Chinese Exam. The government must provide data desegregated by grade level whether it is data above level 3 or below level 3 so as to show the true picture of NCS students' Chinese attainment at DSE level. Data must be provided separately for NCS and ethnic minority students, because some NCS students are not ethnic minorities and vice versa. Providing both numbers will show a clearer picture.

	Number of all students earning the following grades in DSE Chinese exam							
	U	1	2	3	4	5	5*	5**
2014/15								
2015/16								
2016/17								
2017/18								

	Number of ethnic minority students earning the following grades in DSE Chinese exam							
	U	1	2	3	4	5	5*	5**
2014/15								
2015/16								
2016/17								
2017/18								

	Number of NCS students earning the following grades in DSE Chinese exam							
	U	1	2	3	4	5	5*	5**
2014/15								
2015/16								
2016/17								
2017/18								

3. Number of day school candidates obtained level 2 or above in five subjects including Chinese Language and English Language in 2014/15, 2015/16, 2016/17 and 2017/18;

4. Number of NCS day school candidates obtained level 2 or above in five subjects including Chinese Language and English Language in 2014/15, 2015/16, 2016/17 and 2017/18;

5. Number of ethnic minority day school candidates obtained level 2 or above in five subjects including Chinese Language and English Language in 2014/15, 2015/16, 2016/17 and 2017/18;

6. Number of NCS day school candidates obtained level 2 or above in five subjects in 2014/15, 2015/16, 2016/17 and 2017/18;

7. Number of ethnic minority EM day school candidates obtained level 2 or above in five subjects in 2014/15, 2015/16, 2016/17 and 2017/18.

Asked by: Hon AU Nok-hin (LegCo internal reference no.: 7)

Reply:

(1) The number of day school students and non-Chinese speaking (NCS) students attending Secondary 6 (S6) and sitting for the Hong Kong Diploma of Secondary Education Examination (HKDSE) and the HKDSE (Chinese Language) from the 2014/15 to 2017/18 school years is as follows:

	Number of S6 students [Note]	Number of S6 NCS students [Note]	Number of S6 day school students sitting for the HKDSE	Number of S6 NCS students sitting for the HKDSE [Note]	Number of S6 day school students sitting for the HKDSE (Chinese Language)	Number of S6 NCS students sitting for the HKDSE (Chinese Language) [Note]
2014/15	61 639	930	60 969	821	60 114	95
2015/16	56 725	1 150	55 934	1 035	54 903	115
2016/17	51 844	1 186	51 008	1 062	49 868	104
2017/18	51 535	1 317	50 447	1 189	49 181	102

Note: Figures only include public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum.

(2), (4) to (7) The number of day school students sitting for the HKDSE (Chinese Language) and their levels attained from the 2014/15 to 2017/18 school years are tabulated below:

	Number of day school students attaining the following levels in the HKDSE (Chinese Language)							
	Unclassified	1	2	3	4	5	5*	5**
2014/15	1 638	9 226	17 588	16 306	10 797	2 748	1 339	472
2015/16	1 281	6 844	16 382	14 964	10 301	3 039	1 578	514
2016/17	1 180	5 739	15 028	13 939	9 375	2 822	1 318	467
2017/18	1 355	5 455	14 201	13 132	10 039	3 038	1 451	510

In the 2014/15, 2015/16, 2016/17 and 2017/18 school years, among the NCS students attending S6 in public sector schools and DSS schools offering the local curriculum and sitting for the HKDSE, 220, 320, 350 and 385 met the general entrance requirements of undergraduate programmes in the respective years. Among the NCS students sitting for the HKDSE (Chinese Language), 21, 32, 28 and 14 attained Level 3 or above, meeting the general entrance requirement of undergraduate programmes in respect of the Chinese Language subject. It is our established practice that the breakdown of the levels attained by individual groups of students will not be released to avoid any labelling effect and piece-meal interpretation or misinterpretation of the results.

(3) The number of day school candidates attaining Level 2 or above in 5 subjects (including Chinese Language and English Language) of the HKDSE from the 2014/15 to 2017/18 school years is tabulated below:

	Number of day school candidates	
	Attaining Level 2 or above in 5 Category A subjects/Attaining the result of "Attained" or above in Category B subjects (including Chinese Language and English Language)	Attaining Level 2 or above in 5 Category A subjects (including Chinese Language and English Language)
2014/15	41 544	41 317
2015/16	39 019	38 790
2016/17	34 673	34 496
2017/18	35 190	34 993

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1235)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (700) General non-recurrent

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government has provided financially needy students with a one-off subsidy for participating in life-wide learning activities last year and this year. Please provide a breakdown of the number of subsidy recipients in the two-year period by the number of times a recipient was granted the subsidy.

Asked by: Hon AU Nok-hin (LegCo internal reference no.: 11)

Reply:

In 2018-19, the Government has set up the Student Activities Support Fund with an endowment of $2.5 billion. Starting from the 2019/20 school year, public sector schools and schools under the Direct Subsidy Scheme will be provided with the Student Activities Support Grant, so that after the Hong Kong Jockey Club Life-wide Learning Fund ends, there will be continued support for primary and secondary students with financial needs to participate in out-of-classroom learning activities organised or recognised by their schools. The Hong Kong Jockey Club Life-wide Learning Fund will end at the close of the 2018/19 school year, and disbursement of the Grant will start from the 2019/20 school year. Since the Grant has not yet been disbursed, the number of subsidy recipients is not available.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Curriculum Development Institute (CDI) of the Education Bureau,

1. what is the CDI's expenditure on the compilation of official teaching resources and its percentage share against the total expenditure of the CDI in the school years from 2011/12 to 2018/19?

2. did the CDI appoint external personnel to compile official teaching resources in the school years from 2011/12 to 2018/19? If yes, what are the details of the recruitment exercise, selection criteria and staff-related expenditure; and

3. did the CDI provide subsidy for external parties to compile teaching resources in the school years from 2011/12 to 2018/19? If yes, please provide the names of the organisations in receipt of subsidy in tabular form, the names of the relevant teaching resources and the criteria for selecting the organisations for the compilation task.

Asked by: Hon AU Nok-hin (LegCo internal reference no.: 39)

Reply:

1-3. The Curriculum Development Institute (CDI) of the Education Bureau develops diversified learning and teaching materials, including resource packages, online references and teaching compact discs, etc, for teachers. The compilation of learning and teaching materials is mainly taken up by the professional staff of the CDI. As the expenditure involved (including staff cost) is subsumed under the overall expenditure of the CDI, we are unable to provide a breakdown of the expenditure on teaching resources. Besides, the CDI did not provide any subsidy for external parties to compile teaching resources from the 2011/12 to 2018/19 school years.

Question:

Regarding the one-off grant for the promotion of Chinese history and culture (Item 917), please advise of the following:

1. What are the purpose and coverage of the item?
2. Which are the schools subsidised by the grant and what is the amount of grant disbursed since 2017?
3. Does the grant cover expenses not met by school subsidy?
4. Is the grant applicable to study on curriculum and compilation of teaching materials? If yes, what are the contents of and directions for such curriculum and teaching materials?
5. What is the breakdown of the expenses covered by the grant since 2017? Is it possible to provide all instances of using the grant to subsidise publication of teaching materials and provide funding for support measures?
6. What is the estimated breakdown of future expenses to be covered by the grant?

Asked by: Hon AU Nok-hin (LegCo internal reference no.: 40)

Reply:

To promote Chinese history and culture, the Education Bureau (EDB) disbursed a one-off grant of $100,000 and $150,000 to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools) in 2017 (totalling about $125 million). The grant is used exclusively to help teachers enhance the teaching of General Studies in primary schools as well as Chinese Language, Chinese History and Chinese Literature in primary and secondary schools, so as to enable students to admire and inherit the spirit of excellence and the civilisation of the Chinese people. In accordance with school context and development needs, schools may flexibly deploy the one-off grant to support teachers to improve their teaching, and develop learning activities that are related to Chinese history and culture education. Measures may include producing high quality

electronic or other relevant school-based teaching resources; encouraging research work; and organising joint school activities or competitions between local schools or between schools in Hong Kong and the Mainland.

In line with the principle of school-based management, schools may make their own arrangements in accordance with their context and the needs of their students when deciding the expenditure items to be covered by the one-off grant. Schools are required to report details on the use of the grant (including the budget and expenses) to their Incorporated Management Committee/School Management Committee for endorsement. Schools are also required to comply with EDB's guidelines on financial management, and set out the details in the audited accounts to be submitted to the EDB annually. The EDB does not make it compulsory for schools to separately submit an expenditure report together with relevant statistics on the grant. Through various channels, such as teachers' professional training, focus group meetings and curriculum development visits, the EDB learns that the grant is mainly used for organising Mainland study trips/exchange tours for students, school-based and joint-school learning activities (e.g. Chinese history drama appreciation and Chinese History week), and procuring teaching materials and e-resources (e.g. films).

The one-off grant was disbursed to all aided primary and secondary schools (including special schools), caput secondary schools, and DSS primary and secondary schools in August 2017. Schools may use the grant up to the end of the 2019/20 school year, and then the EDB will claw back any unspent balance. As for government schools, the funding mode is different. These schools receive the grant in the form of budget allocation, i.e. the amount of grant to be used by government schools per year is estimated for budgetary purposes. Throughout the funding period of the grant, the unspent balance of a particular year can be carried forward to the following financial year. As at 31 March 2018, the cumulative total expenditure of the grant is $116,449,000. Its estimated expenditure for 2018-19 is $3,227,000, and the details are as follows:

Item	Estimated expenditure ($)
Estimated expenditure for government primary schools	1,565,000
Estimated expenditure for government secondary schools	1,462,000
Aided primary schools expected to start operation in the 2018/19 school year	200,000
Total amount	3,227,000

After deducting the amount already disbursed to schools and the estimated expenditure for 2018-19, we estimate that the balance of the one-off grant for the promotion of Chinese history and culture at the end of 2018-19 is around $5,324,000, which will be reserved for new schools that start operation in the 2019/20 school year and for the use of government schools with unspent balance up to the end of the 2019/20 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3124)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is stated under this Programme that the Education Bureau will continue to oversee and improve the implementation of the Basic Competency Assessment (BCA). Would the Administration advise this Committee of the following:

(1) What are the staff establishment, estimated annual expenditure on emoluments and operational expenses involved in overseeing and improving the implementation of BCA under this Programme in 2019-20?

(2) The Administration once stated that the contract sum for the Territory-wide System Assessment (TSA) 2015-18 amounted to $296 million. Has the contract come to an end? Has the Administration signed a new contract with the Hong Kong Examinations and Assessment Authority for TSA? If yes, what are the contract period and contract sum? What are the operational expenses for BCA in 2019-2020?

(3) It is learnt that the Deputy Secretary for Education (5) is responsible for reviewing the TSA. What is the annual expenditure on emoluments for this post in 2019-20?

Asked by: Hon CHAN Chi-chuen (LegCo internal reference no.: 2)

Reply:

(1)
The manpower and relevant staff costs in relation to the Basic Competency Assessment (BCA) project have been subsumed under the overall expenditure of the Education Bureau (EDB).

(2)
The contract signed between the EDB and the Hong Kong Examinations and Assessment Authority (HKEAA) for providing BCA-related services ended in 2018. To continue with the implementation of relevant policies and measures, the EDB has signed a new contract with the HKEAA covering the period up to end of 2023 and involving a sum of around $427 million. The relevant budgeted expenditure for the 2019/20 school year is around $85 million.

(3)
The annual salary for Deputy Secretary for Education (5) (DS(Ed)5) is $2.53 million.[Notes 1 and 2]

Note 1: Salaries for civil service posts are calculated on the basis of Notional Annual Mid-point Salary (NAMS).

Note 2: The review of the Territory-wide System Assessment only accounts for a very small part of DS(Ed)5's work portfolio.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3167)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Administration advise this Committee of the following:

(1) the estimated full-year salary provision for the post of Chief Curriculum Development Officer (Chinese Language) in the Chinese Language Education Section, Curriculum Development Institute, Curriculum and Quality Assurance Branch of the Education Bureau (EDB) in 2019-20.

(2) the estimated full-year salary provision for the post of Senior Curriculum Development Officer (Chinese Language)1 in the Chinese Language Education Section, Curriculum Development Institute, Curriculum and Quality Assurance Branch of the EDB in 2019-20.

(3) the recurrent expenditure on the promotion of Putonghua in primary and secondary schools in 2018-19 and the estimated recurrent expenditure on the promotion of Putonghua in primary and secondary schools in 2019-20.

(4) the figures below in the form of a table:

School year	Collaborative Research and Development ("Seed") Projects on Chinese Language Education	No. of participating schools	Expenditure involved
2018/19	Putonghua Curriculum Planning: Providing More Opportunities for Students to Practise Putonghua both Inside and Outside the Classroom		
2017/18	Putonghua Curriculum Planning: Providing More Opportunities for Students to Practise Putonghua both Inside and Outside the Classroom		
2016/17	Putonghua Curriculum Planning: Providing More Opportunities for Students to Practise		

	Putonghua both Inside and Outside the Classroom		
2015/16	Enhancing the teaching of Putonghua for promoting the use of Putonghua in context		

(5) whether "Putonghua Curriculum Planning: Providing More Opportunities for Students to Practise Putonghua both Inside and Outside the Classroom" will be taken forward further in 2019-20 under the Collaborative Research and Development ("Seed") Project; if yes, the recurrent expenditure involved in 2019-20.

Asked by: Hon CHAN Chi-chuen (LegCo internal reference no.: 46)

Reply:

(1) & (2) In 2019-20, the estimated annual salary expenditure of the Chief Curriculum Development Officer (Chinese Language) (CCDO(C)) is $1.45 million, and the estimated annual salary expenditure of the Senior Curriculum Development Officer (Chinese Language)1 (SCDO(C)1) is $1.17 million.

Note: Notional Annual Mid-point Salary is used for calculating the salary of the CCDO(C) and SCDO (C)1 posts.

(3) Implementing support measures to promote Putonghua in primary and secondary schools is an integral part of the day-to-day curriculum development work. As the relevant expenditure is subsumed under the Education Bureau (EDB)'s recurrent expenditure, there is no separate breakdown for individual items.

(4) The number of schools participating in the Seed Project and the expenditure involved:

School year	Collaborative Research and Development ("Seed") Projects on Chinese Language Education	No. of participating schools	Expenditure involved
2018/19	Putonghua Curriculum Planning: Providing More Opportunities for Students to Practise Putonghua both Inside and Outside the Classroom	1	As the relevant expenditure is subsumed under EDB's recurrent expenditure, there is no separate breakdown for individual items.
2017/18	Putonghua Curriculum Planning: Providing More Opportunities for Students to Practise Putonghua both Inside and Outside the Classroom	2	
2016/17	Putonghua Curriculum Planning: Providing More Opportunities for Students to Practise Putonghua both Inside and Outside the Classroom	1	
2015/16	Enhancing the teaching of Putonghua for promoting the use of Putonghua in context	1	

(5) In the 2019/20 school year, the Collaborative Research and Development ("Seed") Projects will proceed under the theme of "Putonghua Curriculum Planning: Organisation of Learning Content/Learning and Teaching/Assessment". As the relevant expenditure is subsumed under EDB's recurrent expenditure, there is no separate breakdown for individual items.

Question:

Regarding students with special educational needs (SEN) in primary and secondary schools, please provide the following information:

I. the number of students with SEN studying in public sector mainstream primary and secondary schools, and the percentage these students represent in the total number of students in each of the past 3 years (please give a breakdown by SEN type); and

II. the number of teachers with qualifications/training in special education in public sector mainstream primary and secondary schools, and the percentage these teachers represent in the total number of teachers in each of the past 3 years.

Asked by: Hon CHAN Hoi-yan (LegCo internal reference no.: 32)

Reply:

(I) The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by school level and SEN type from the 2016/17 to 2018/19 school years is set out at Appendix. The percentage of these students in the total number of students studying in public sector mainstream primary and secondary schools is tabulated below:

School Year	**2016/17**	**2017/18**	**2018/19**
Primary	7.7%	7.8%	8.3%
Secondary	7.8%	8.6%	9.4%

(II) In the 2016/17 and 2017/18 school years, the number of public sector mainstream primary and secondary school teachers having received special education training, and their respective percentage in the total number of teachers serving in public sector mainstream primary and secondary schools are tabulated below. Figures for the 2018/19 school year are not yet available.

	2016/17		**2017/18**	
	Primary	**Secondary**	**Primary**	**Secondary**
Number of teachers having received special education training	8 544	6 233	8 960	6 667
Percentage in total number of teachers serving in public sector mainstream primary and secondary schools	43%	28%	42%	30%

Appendix

Number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by school level and SEN type from the 2016/17 to 2018/19 school years

School Year	School Level	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/ Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Mental Illness
2016/17	Primary	8 860	670	5 020	4 350	110	30	300	2 520	-
	Secondary	11 260	910	2 800	5 090	190	80	350	350	-
2017/18	Primary	9 250	690	5 430	4 670	120	40	350	2 430	-
	Secondary	11 460	830	3 280	5 860	170	70	340	370	-
2018/19	Primary	10 370	760	5 690	5 110	110	40	360	2 510	60
	Secondary	11 430	830	3 840	6 780	150	60	310	360	310

Note:

Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

(Question Serial No. 2276)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the enhanced School-based Educational Psychology Service,

I. please set out, by grade, the number of staff employed by the Education Bureau (EDB) for provision of the services, the median salary of such staff, and the total payroll cost; and

II. please set out, in the past 3 years, the number of educational psychologists employed by the EDB, the staff wastage, and the number of new recruits.

Asked by: Hon CHAN Hoi-yan (LegCo internal reference no.: 33)

Reply:

I. and II.
Starting from the 2016/17 school year, all public sector mainstream primary and secondary schools have been provided with the School-based Educational Psychology Service (SBEPS). The Education Bureau (EDB) has also progressively enhanced the ratio of educational psychologist (EP) to school to 1:4 (i.e. Enhanced SBEPS) in public sector mainstream schools with comparatively large number of students with special educational needs. School-based EPs are employed by the EDB or school sponsoring bodies (SSBs). They may provide SBEPS or Enhanced SBEPS for different schools at the same time depending on the division of work by the organisation. Should vacancies arise in the school-based EP posts in SSBs, EPs in the EDB will shoulder up the provision of support for the schools concerned on a need basis. We now provide the information regarding EPs in the past 3 years to facilitate a comprehensive understanding of the SBEPS situation. From the 2016/17 to 2018/19 school years, the respective number of EPs providing SBEPS is 138, 144 and 151, the respective number of new posts is 4, 6 and 7, and the wastage is 0%, 3.8% and 5.9% respectively. The current mid-point salary of an EP post is $85,770. In the 2018/19 school year, the revised estimate for the provision of SBEPS is $173 million, in which $18 million is allocated for the Enhanced SBEPS.

Director of Bureau: Secretary for Education

Question:

Regard the kindergarten education scheme, please provide the following information by District Council district:

I. The number of half-day kindergartens subsidised under the scheme, the number of their students, the percentage share of their students among all kindergarten students in Hong Kong, as well as the median school fee in each of the past 3 years;

II. The number of whole-day kindergartens subsidised under the scheme, the number of their students, the percentage share of their students among all kindergarten students in Hong Kong, as well as the median school fee in each of the past 3 years; and

III. The number of long whole-day kindergartens subsidised under the scheme, the number of their students, the percentage share of their students among all kindergarten students in Hong Kong, as well as the median school fee in each of the past 3 years.

Asked by: Hon CHAN Hoi-yan (LegCo internal reference no.: 34)

Reply:

As the kindergarten (KG) education scheme (Scheme) has been implemented since the 2017/18 school year, only information on the 2017/18 and 2018/19 school years (i.e. the past 2 years) can be provided. In these 2 years, the number of KGs joining the Scheme, the number of eligible students, the percentage share of these students among all KG students and the median school fee by District Council district and by curriculum type are tabulated in the appendix. As regards the median school fee, given that only a very small number of half-day KGs under the Scheme collect school fees, with merely 1 KG collects school fees in individual districts, it is more appropriate to provide the information about the median school fee on a territory-wide basis (instead of district basis). For half-day KGs under the Scheme that collect school fees, the median school fee for the whole school year is $2,900 and $3,400 in the 2017/18 and 2018/19 school years respectively.

Appendix

Number of KGs joining the Scheme, number of eligible students, their percentage share in the total number of students, and the median school fee by District Council district and by curriculum type in the 2017/18 and 2018/19 school years

2017/18 School Year

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2934)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Currently, a sponsoring body applying for extension of school in premises not designed and constructed for the purposes of a school has to seek clearance with various government departments, including the Planning Department, Lands Department, Fire Services Department and Buildings Department, and forward the approval documents to the Education Bureau (EDB), demonstrating that the proposed premises for school extension satisfies the requirements prescribed by the above-mentioned departments. The EDB will only then issue a certificate of provisional registration.

(a) Please provide information on applications for extension of school in premises not designed and constructed for the purposes of a school in the past 5 years using the table below.

Year	Number of applications received	Number of certificates of provisional registration issued	The shortest, average and longest time taken for the EDB to issue a certificate of provisional registration from the moment an application is received	Number of applications rejected
2014			Shortest: Average: Longest:	
2015			Shortest: Average: Longest:	

2016			Shortest: Average: Longest:	
2017			Shortest: Average: Longest:	
2018			Shortest: Average: Longest:	

(b) By what criteria does the School Registration and Compliance Section of the EDB approve applications for certificate of provisional registration?

(c) What are the top 3 reasons for rejecting applications for certificate of provisional registration in each of the past 5 years?

Year	Top 3 reasons for rejecting applications for certificate of provisional registration
2014	
2015	
2016	
2017	
2018	

(d) With regard to the extension of school in premises not designed and constructed for the purposes of a school, please provide the numbers of proactive inspections conducted, investigations initiated based on complaints received and warnings issued by the EDB in each of the past 5 years.

Year	Proactive inspection	Investigation initiated based on complaint	Warning issued
2014

2016			
2017			
2018			

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 24)

Reply:

(a), (b) & (c)

A registered or provisionally registered school seeking extension of school in premises not designed and constructed for the purposes of a school should apply to the Permanent Secretary for Education in accordance with section 20(1) of the Education Ordinance (EO). It is necessary for the school to obtain confirmation from the Lands Department that the premises satisfy the requirements of land lease/lease conditions and from the Town Planning Board that its planning permission is not required/its permission has already been given (whichever applicable). In addition, as provided in Section 12(1) of the EO, certificates/notice in writing have to be obtained from the Fire Services Department and the Buildings Department/competent authority to indicate that the premises are safe and suitable for the purposes of a school. The school should submit to the Education Bureau (EDB) the supporting documents issued by the aforementioned departments, together with documentary proof of the right to use the premises. Upon receipt and verification of all the necessary information and documents, the EDB will consider the school's application for extension of premises. The processing time varies from case to case, depending on the circumstances of each application and the school's progress in meeting various requirements of relevant departments. The EDB has not conducted any statistical survey in this regard.

In the past 5 years, there were cases where the application process was incomplete for various reasons, including the applicant failing to provide the necessary documents or withdrawing the application. The EDB has not refused any application for extension of school premises under the EO. Information pertaining to registered or provisionally registered schools applying for extension of school in premises not designed and constructed for the purposes of a school is set out below:

Year	Number of applications (Note 1)	Number of applications approved (Note 2)
2014	88	108
2015	110	92
2016	109	106
2017	62	71
2018	85	86

Note 1: Figures calculated based on the date of receipt of application.

Note 2: Figures calculated based on the date of approval, including applications not received in the same year.

(d)

Once sufficient information has been gathered regarding suspected cases of operating unregistered schools/registered or provisionally registered schools not operating in their registered premises, the EDB will follow up the cases in accordance with the EO and established procedures. Relevant figures for the past 5 years are set out below:

Year	Number of Inspections (Note)	Number of Cases with Warning Issued (Note)
2014	691	42
2015	586	53
2016	451	58
2017	573	57
2018	493	45

Note: The EDB does not have a breakdown of the numbers of inspections and cases with warning issued by the categories specified in the question.

	(i) Official entertainment	(ii) Duty visits	(iii) Security arrangements
(a) Secretary for Education			
(b) Under Secretary for Education			
(c) Political Assistant to the Secretary for Education			

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 47)

Reply:

In 2019-20, the estimates for the salary expenditure for the Secretary for Education (SED), Under Secretary for Education (US(Ed)) and Political Assistant (PA) to SED are around $4.08 million, $2.65 million and $1.43 million respectively. The estimates for Mandatory Provident Fund contribution for each of the above-mentioned posts are $18,000.

SED, US(Ed), PA to SED and their families are entitled to the medical and dental benefits available to civil servants and their families. SED is provided with the free use at his discretion of a car and driver in Hong Kong. The use of government cars by US(Ed) and PA to SED shall be governed by the rules and regulations applicable to civil servants at comparable ranks.

In 2019-20, the provisions in the estimates for official entertainment and duty visits outside Hong Kong for SED's Office are $177,000 and around $140,000 respectively. There is no provision in the estimates for leave passage allowances, regularly-paid allowances, job-related allowances, Civil Service Provident Fund contribution and security arrangements for SED, US(Ed) and PA to SED.

(Question Serial No. 0552)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Education Bureau's work on primary education, there is an increase of 66 posts in the current year. Please provide the number of posts increased with a breakdown by policy, such as allocation of Primary One school places and Basic Competency Assessments.

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 29)

Reply:

The increase of 66 posts under Programme (3) in 2019-20 is the net result of the planned creation of 595 posts and planned deletion of 529 posts. The breakdown of the above posts by rank is as follows –

Rank	**Posts to be created**
Primary School Master/Mistress	115
Assistant Primary School Master/Mistress	470
Clerical Assistant	2
Workman II	8
Sub-total (A):	**595**

Rank	**Posts to be deleted**
Assistant Primary School Master/Mistress	-34
Assistant Master/Mistress	-81
Certificated Master/Mistress	-414
Sub-total (B):	**-529**
Net total [(A)+(B)]:	**66**

The 66 net additional posts are mainly for implementing the all-graduate teaching force policy in public sector primary schools, strengthening support measures for integrated education and replacing non-civil service contract positions in government primary schools.

(Question Serial No. 0555)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

This year, the Education Bureau will consider how to support kindergartens joining the kindergarten education scheme to promote reading in the long run in the light of the experience of implementing the "Pilot Scheme on the Promotion of Reading Grant for Kindergartens" in the 2018/19 school year. How will it regulate schools' book choice to ensure that book content is not exceedingly difficult?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 32)

Reply:

The Education Bureau (EDB) attaches great importance to developing young children's reading interest and habit since early years. Different modes are adopted to encourage schools to create a reading atmosphere, and synergise the efforts from all stakeholders (including schools, parents, organisations that promote reading and community partners) in fostering a reading culture.

Since young children have different pace of development and character, teachers should exercise professional judgment in procuring books that match young children's physical and mental development, abilities, interests and life experiences, so that children can pick the books they like and develop a reading habit. To support schools in promoting reading, the EDB will continuously organise professional development programmes for teachers to enhance their knowledge and skills in different areas, including the selection of quality children's books that dovetail with the readers' age and cognitive abilities. In addition, the EDB will disseminate information on reading and recommend booklists for theme-based reading on its Reading Information Website.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0556)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The provision for 2019-20 is $217.3 million (3.6%) higher than the revised estimate for 2018-19. This is mainly due to increased provision for various existing grants to kindergartens in 2019-20. The grants are increased for the purposes of enhancing the quality of kindergarten education, creating more room for teachers' professional activities under the improved teacher-pupil ratio; providing a salary range and career ladder for kindergarten teachers; enhancing the quality assurance framework; strengthening governance and monitoring; bolstering teachers' professionalism; raising the capacity to cater better for student diversity; improving accommodation and facilities, etc. In this connection, will the Bureau reduce the performance indicators for kindergartens so as to alleviate the pressure arising from teaching and administrative work?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 33)

Reply:

The kindergarten (KG) education scheme was launched in the 2017/18 school year and all participating KGs are subject to the Quality Assurance (QA) Framework, which comprises School Self-evaluation (SSE) by KGs and Quality Review (QR) by the Education Bureau. Both SSE and QR are conducted on the basis of performance indicators (PIs). We have completed the refinement of PIs in 2017 for further strengthening the QA Framework.

Same as the original version of PIs, the refined PIs comprise 4 domains, namely Management and Organisation, Learning and Teaching, School Culture and Support for Children, and Child Development. Each domain is categorised into tiers of Area, Performance Indicator, Aspect and Evidence of Performance. In light of the past experiences of KGs and the views of stakeholders, we have reorganised and streamlined the framework of PIs to make the tiers and items more precise and user-friendly. Specifically, the number of Performance Indicators in the 4 domains has been reduced from 32 to 21, and

the number of Aspects from 71 to 41. Reorganising and streamlining the Performance Indicators provide clearer specifications to facilitate KGs' easy application in conducting holistic and more focused SSE.

Question:

The Life-wide Learning Grant involves an annual provision of $900 million. How will the Education Bureau monitor the use of the Grant? What performance indicators will it draw up to assess the effectiveness?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 34)

Reply:

The Life-wide Learning Grant supports schools to take forward, on the present foundation, life-wide learning with enhanced efforts. We are now collecting views from the school sector for formulating the guidelines on the use of the Grant. Following the prevailing practice, incorporated management committees (IMCs)/school management committees (SMCs) should ensure proper use of grants by schools to facilitate students' learning. When using the Grant, schools are required to comply with the guidelines drawn up by the Education Bureau (EDB), prepare plans on the use of the Grant for reporting to IMCs/SMCs, and set out the income and expenditure in their annual audited accounts to be submitted to the EDB. We trust that the Grant could support schools in organising more out-of-classroom experiential learning activities in various curriculum areas such as the humanities, STEM education, physical and aesthetic development, moral and civic education, and providing students with more lively and enriched learning experiences as well as opportunities to apply what they have learnt. This will not only enhance students' interest in learning, but also broaden their horizons, help them develop positive values and attitudes, and foster their whole-person development. EDB officers will collect schools' feedback on the Grant through different means such as school visits and day-to-day contacts to understand the use of the Grant by schools, evaluate its effectiveness, and make recommendations as necessary.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0558)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Bureau will provide additional resources for public sector and Direct Subsidy Scheme schools to strengthen administrative support for schools and their school management committees with a view to enhancing school-based management and at the same time reducing the administrative work of teachers and school heads. Recent years have seen local schools thrown into disarray with scandals of falsified student enrolment and messy school accounts. How will the Bureau step up the monitoring of school management besides offering support?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 35)

Reply:

Under the school-based management policy, apart from promoting school development and accountability through self-evaluation, schools are required to ensure that their operations are in compliance with the requirements under the Education Ordinance, the Education Regulations and other relevant legislations and regulations. All along, the Education Bureau (EDB) has been playing the role of a regulator, monitoring the operations of schools at different levels by scrutinising their audited accounts every year and conducting regular audit inspections, external school reviews and focus inspections, etc. in accordance with the Education Ordinance, the Education Regulations, other legislations and the relevant Code of Aid. On the other hand, the EDB handles the complaints lodged by school staff or in relation to the Education Ordinance, the Education Regulations, education policies or services rendered directly by the EDB, and replies to the complainants. The EDB will take appropriate intervention measures against non-compliant schools, including issuance of verbal or written advice and warning. If the schools concerned fail to comply with EDB's request for improvement, there are provisions in the Education Ordinance that confer EDB to follow up, for example, appointment of school managers to the School Management Committee/Incorporated Management Committee to exercise its responsibilities,

cancellation of the registration of school managers and withdrawal of approval for appointment of principals, etc.

The EDB will continue to enhance the training of school managers to deepen their understanding of the spirit and principles of school-based management, with a view to facilitating stakeholders' participation in decision-making and fulfilment of their respective roles for effective participatory governance of schools. Meanwhile, the EDB will formulate policies and guidelines when appropriate to remind schools that, under the school-based management framework, they have to refine their system of checks and balances to prevent anyone, including the principal, from having a monopoly of power and safeguard the quality of education. Schools are not given free rein under the principles of school-based management.

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Apart from issuing guidelines and questionnaires, will the Education Bureau implement new measures to alleviate the pressure of homework this year?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 36)

Reply:

Homework helps students review what has been learnt and acquire new knowledge. The education sector generally agrees that homework has positive educational functions in the learning and teaching process and should not simply be equated with study pressure. The sector also considers that a suitable school-based homework policy, which can cater for the diverse abilities and characteristics of students, has a positive impact on student learning. The Education Bureau has all along emphasised that the quality rather than quantity of homework that matters and encouraged schools to design homework that stimulates students' thinking and helps them consolidate and apply what they have learnt. Homework in the form of mechanical drilling should be avoided. We will continue to maintain communication with primary and secondary school councils, regional school heads associations and major school sponsoring bodies to remind them to give due attention to the quality and quantity of homework, and further promote interesting and meaningful homework. We will also strengthen school-based professional support and continue to organise related professional development programmes for newly-appointed principals, deputy principals, curriculum leaders, middle managers, panel chairs and teachers. To enhance teachers' professional capacity, we will reiterate and elaborate on the principles and policy of setting meaningful homework in these professional development programmes. Good practices will also be disseminated for schools' reference. We gain an understanding of schools' implementation of their school-based homework policy through inspections, school visits, daily contacts, etc. and make recommendations on improving the quality of homework depending on the circumstances. On parents' level, we will enhance parent

education. For example, the updated information on the parent education website "Smart Parent Net" enables parents with children from kindergarten to primary and secondary school levels to easily access useful information (including articles and video clips) for supporting the physical and mental development of students, as well as helping their children with their studies. Parents are encouraged to adopt positive education approaches, help their children learn effectively and establish a good parent-child relationship, so that their children will grow up healthily and happily.

Question:

Regarding the implementation of the "one school social worker for each school" policy, how will the Education Bureau conduct a comprehensive review of the student guidance service in primary schools this year? Will the existing guidance personnel be converted into regular post? If no, what are the reasons?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 38)

Reply:

The Government has made continuous efforts to enhance the student guidance service in primary schools. To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. The measure is implemented on the basis of the Comprehensive Student Guidance Service (CSGS) to provide schools with more resources. The objective of the measure is to further enhance the overall quality of guidance service by ensuring that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualification. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode, under which a regular Assistant Social Work Officer post is created, or an equivalent subsidy is received to employ a school-based registered graduate social worker or hire the service of a school-based registered graduate social worker from a social work service provider.

Under the new funding mode, all schools will be provided with additional resources for guidance service, and schools employing more than 1 guidance personnel under the CSGS can therefore continue to employ additional guidance personnel.

With the implementation of the policy of "one school social worker for each school" in the 2018/19 school year, the Education Bureau (EDB) will collect data and views by such means as questionnaire surveys and school visits for reviewing the mode of collaboration between student guidance and social work services, and communicate with the education sector to heed its views and suggestions and identify the best way to provide school social work and guidance services by exploring all feasible proposals. The review work is underway. At the current stage, the EDB does not have any plan to convert the guidance personnel into regular post.

Question:

An increasing number of research studies reveal that using Putonghua to teach the Chinese Language subject will not improve learning effectiveness. At present, how many schools are using Putonghua to teach the Chinese Language subject? Would the Education Bureau release the relevant statistics so that the community could study the drawbacks or effectiveness of using Putonghua to teach the Chinese Language subject?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 39)

Reply:

Using Putonghua as the medium of instruction (MOI) for teaching the Chinese Language subject (PMIC) is a decision driven by school-based language policy. Schools can choose a suitable MOI for teaching the Chinese Language curriculum based on their professional considerations. Schools may decide whether or not to adopt PMIC at certain levels/in specific classes with regard to their own circumstances, such as readiness of teachers, standards of students, language environment of the school, curriculum planning, and availability of learning and teaching support. As the number of schools adopting PMIC varies every year, we have not kept track of such information. Since the effectiveness of PMIC is affected by many variables (including teachers' capability of using Putonghua, the language environment of schools and the social circles of students), it will be difficult for us to draw a simple conclusion as to whether PMIC can or cannot enhance the effectiveness of learning.

Regarding the increase in wastage rate of kindergarten teachers from 10.5% in 2017/18 to 11.9% in 2018/19 as mentioned under this Programme,

(1) Please tabulate the wastage rate by type of kindergarten teachers (including teachers with Certificate in Early Childhood Education or higher qualifications, other teacher training and no relevant training) and the overall wastage rate in the past 5 years.

(2) Did the Administration find out the reasons for a higher wastage rate of kindergarten teachers? If yes, what are the details?

(3) Does the Administration have a timetable for introducing a pay scale for kindergarten teachers? If no, what are the reasons? Are there any measures to reduce the wastage rate before bringing in a pay scale?

(4) It is estimated under this Programme that the wastage rate of kindergarten teachers in 2019/20 will be 11.8%. How is this figure arrived at?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 16)

Reply:

(1) The wastage rate of local kindergarten (KG) teachers with Certificate in Early Childhood Education (C(ECE)) or higher qualifications, other teacher training and no relevant training as well as the overall wastage rate# of local KG teachers in the school years from 2014/15 to 2018/19 (Note) are set out below:

School year	2014/15 (%)	2015/16 (%)	2016/17 (%)	2017/18 (%)	2018/19 (%)
Wastage rate of teachers with C(ECE) or higher qualifications	7.2	7.4	9.0	9.2	11.4
Wastage rate of teachers with other teacher training	18.4	13.7	18.0	26.0	22.9
Wastage rate of teachers with no relevant training	31.5	28.0	34.7	26.8	29.8
Overall teacher wastage rate	9.2	8.6	10.5	10.5	12.3

"Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in local KGs as at mid-September of the preceding school year. "Drop-out teachers" refers to teachers who had served in a local KG as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

Note: Figures of the 2018/19 school year are provisional. Information provided under the Programme reflects the position in September 2018, whereas the analysis above is based on the information updated in February 2019.

(2) Every year, there are KG teachers who leave their teaching position for various reasons (including employment in another profession, retirement, marriage/ child-bearing/ child-raising, other family reasons, etc.).

(3) A proposed mandatory salary scale for KG teachers is similar to the practice currently adopted by aided schools. The funding mode for aided schools is tied with several inter-connected components, such as the Education Bureau's annual approval for the number of operating classes and the staff establishment, and is subject to the control measures implemented by the Government for the prudent and balanced planning of school places under the school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating half-day and whole-day classes to meet the needs of parents. On the other hand, as compared to a mandatory salary scale on which teacher salary is determined solely by seniority, a salary range allows greater flexibility and ensures competitiveness. It enables the KG management to decide flexibly the remuneration of its staff, taking into account their qualifications, teaching experience, performance, additional duties, training received and special skills possessed. As the setting up of a salary scale for KG teachers involves various aspects as mentioned above, it should be handled prudently. In this connection, we have undertaken to use the data of the three school years from 2017/18 to 2019/20 as the basis to explore the feasibility of introducing a salary scale for KG teachers. As announced in the 2018 Policy Address, we plan to start a review in mid-2019 on the implementation of the new policy, including the salary arrangements for KG teachers. We will consult stakeholders during the process.

Under the KG education policy, KGs are encouraged to establish a career ladder and offer competitive remuneration to retain and attract quality teachers. Various measures have been adopted to ensure that teachers are remunerated reasonably. These include providing salary ranges for respective ranks of teaching staff and KGs are obliged to remunerate their teachers within their corresponding salary ranges; prescribing 60% of the basic unit subsidy as teachers' salary portion, which must be used on teaching staff salaries and related expenses (while KGs may deploy any portion of the remaining 40 % for teaching staff salaries and related expenses, but not vice versa); and clawing back the accumulated surplus in the salary portion exceeding the reserve ceiling to encourage schools' optimal use of the subsidy on teaching staff salary.

(4) The wastage rate for the 2019/20 school year is projected on the basis of the 2018/19 figure, with consideration given to the future demand for KG teachers and the number of drop-out teachers in the past.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2312)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under the said Programme that "to unleash the potential of the local labour force under the population policy so that parents may join the labour market, additional subsidy has also been provided for eligible kindergartens offering whole-day and long whole-day services".

(1) Please tabulate the number of places offered by kindergartens operating half-day, whole-day and long whole-day services in all 18 districts in the past 5 years.

(2) Please advise of the expenditure involved in provision of government subsidy for eligible kindergartens operating half-day, whole-day and long whole-day services in the past 5 years. What are the details and expenditures related to the provision of additional subsidy for eligible kindergartens offering whole-day and long whole-day services?

(3) Since the Free Quality Kindergarten Education Scheme only targeted on kindergartens operating half-day services when it was rolled out, does the Administration have any plan to further extend the Scheme so that kindergartens operating whole-day and long whole-day services may also receive subsidy and hence the needs of families with working parents or single parent can be addressed?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 17)

Reply:

(1)
The number of school places offered by kindergartens (KG) providing half-day (HD), whole-day (WD) and long whole-day (LWD) services in the territory by district from the 2014/15 to 2018/19 school years is tabulated at Appendix.

(2)
The new KG education policy has been implemented starting from the 2017/18 school year. Under the new policy, the Government provides KGs joining the KG education scheme (Scheme) with direct subsidy according to the number of eligible students in the form of a basic HD unit subsidy, and KGs offering WD and LWD services will receive an additional subsidy of 30% and 60% respectively. In addition, school-specific grants, including premises maintenance grant, rental subsidy, grant for a cook, tide-over grant and grant for supporting non-Chinese speaking students are also provided to cater for the diverse needs of individual KGs joining the Scheme or students.

Regarding unit subsidy, the respective expenditure involved in 2017-18 and 2018-19 is as follows:

	2017-18 [Note 1]	2018-19
	($ million) (actual)	($ million) (revised estimate)
Basic HD unit subsidy (covering all KGs joining the Scheme)	3,032.6	4,556.4
Additional subsidy for KGs offering WD and LWD services	428.2	715.2

Notes:
1. Figures reflect the expenditure for the first 8 months after the implementation of the Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018).
2. Figures before the 2017/18 school year are not available as the Scheme had not been implemented.

(3)
The new KG education policy aims to provide good quality and highly affordable KG education, enhance the accessibility of students to different modes of services that suit their specific needs, while the KG sector continues to operate with a high level of flexibility, diversity and vibrancy. Under the new policy, HD, WD and LWD services are all provided with subsidies. For the 2017/18 and 2018/19 school years, the subsidy amount per student per annum for HD, WD and LWD services is as follows:

School year	HD ($)	WD (Note) ($)	LWD (Note) ($)
2017/18	33,190	43,150	53,100
2018/19	34,320	44,620	54,910

Note: Including the additional subsidy provided for KGs offering WD and LWD services.

In principle, the Government subsidies should be sufficient for KGs joining the Scheme to provide quality HD services. As for WD and LWD services, existing evidence from researches and studies precludes drawing conclusions that WD programmes are more favourable to young children than HD programmes. Studies show that family education

plays a crucial and complementary role in shaping young children. A HD programme can achieve the requirements of the curriculum and would allow relatively more family time for young children to play and interact with their family in a less-structured and more relaxing setting to nurture their bonding and sense of security. Although many countries offer WD services for parents as an option, it is not a common practice internationally to provide free WD KG services for all children from 3 to 6 years of age.

Having considered the developmental needs of children and overseas practices, we are of the view that the basic tenet of the new policy is that the Government's subsidy to each eligible KG would be sufficient for it to provide quality HD services according to the standards prescribed by the Government. Notwithstanding that, to unleash the potential of the local labour force under the population policy and enable parents to join the workforce, we provide an additional subsidy of 30% and 60% for eligible KGs offering WD and LWD services respectively. As the Government has provided additional subsidy, parents only need to pay part of the additional cost and the overall school fees are at a low level. Needy families may also be granted fee remission. In view of the foregoing, we do not have plans to further increase subsidy for WD and LWD KG places at this stage.

(Question Serial No. 2315)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education,
(7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

A spate of suicides have occurred among students and youngsters in recent years. It is mentioned in the Budget Speech that "to enhance teenagers' mental health and stress resilience, the Government will implement the measure of 'two school social workers for each school' in more than 460 secondary schools in Hong Kong from the 2019/20 school year". Also, it is mentioned in the Estimates that the Education Bureau (EDB) will "extend the Enhanced School-based Educational Psychology Service (SBEPS) (with the ratio of educational psychologist (EP) to school being 1:4) to about 60 per cent of all public sector schools and enhance the ratio of EP to school to 1:6 for the remaining 40 per cent of schools by the 2023/24 school year". Please advise of the following:

(1) the number of deaths caused by suicide in Hong Kong in the past 5 years (tabulated by age);

(2) the respective expenditure on SBEPS for public sector primary and secondary schools in each of the past 5 years and the items covered by SBEPS; the estimated expenditure on SBEPS for the coming year and the difference over the previous year (also the reasons for any decrease);

(3) the respective number of EPs or school social workers in public sector primary and secondary schools, the manpower ratios and ways to enhance the services; the current position of the Government's initiative to progressively increase the EP-to-school ratio to 1:4; and

(4) the support provided for schools and teachers by EDB on top of SBEPS and school social worker services; the EDB's concrete policies to alleviate the pressure on students' learning and hence prevent student suicides.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 20)

Reply:

(1)
The Education Bureau (EDB) has required primary and secondary schools to report suspected fatal suicide cases of students to keep in view the situation and provide professional support for the schools concerned as appropriate. The nature and number of fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. The EDB has not captured the relevant information from the Court. Hence, we are unable to provide officially verified figures on student suicides. The number of suspected fatal suicide cases of students as reported by primary and secondary schools to the EDB in the past 5 school years is tabulated as follows:

School Year	Number of cases
2013/14	10
2014/15	9
2015/16	19
2016/17	19
2017/18	16

(2) to (3)
The total expenditure for the provision of the School-based Educational Psychology Service (SBEPS) for public sector mainstream primary and secondary schools from the 2014/15 to the 2019/20 school years is tabulated as follows:

School Year	2014/15	2015/16	2016/17	2017/18	2018/19 (Revised Estimate)	2019/20 (Estimate)
Expenditure ($ million)	85	103	119	127	173	185

School-based educational psychologists (EPs) adopt a comprehensive and integrated service model to provide support at the school system, teacher and student levels to enhance schools' professional capacity to cater for students' diverse educational needs. Specifically, EPs provide assessment and intervention service for students, training for parents, consultation and professional development for teachers, as well as professional advice on the school policies and measures in relation to supporting students with diverse educational needs.

All public sector mainstream primary and secondary schools have been provided with the SBEPS starting from the 2016/17 school year. In that school year, the EDB progressively improved the ratio of EP to school to 1:4 for public sector mainstream primary and secondary schools with comparatively large number of students with special educational needs (SEN), i.e. Enhanced School-based Educational Psychology Service (Enhanced

SBEPS). In the 2018/19 school year, the Enhanced SBEPS covers 119 primary and secondary schools. Through more frequent visits to the schools concerned, EPs deliver comprehensive and regular follow-up and intervention service according to the needs of schools and students, and support schools in strengthening the preventive and developmental work. In the 2018/19 school year, the number of EPs involved in the provision of the SBEPS (including Enhanced SBEPS) is 151, and the number of which will increase as more EPs complete their training in local universities in the next few years. With the number and complexity of cases vary from school to school, each EP at present serves 6 to 10 public sector mainstream primary and secondary schools, in general 7 to 8 schools. As announced by the Chief Executive in the 2018 Policy Address, the Enhanced SBEPS will be extended with the target of covering about 60% of public sector mainstream primary and secondary schools, and the ratio will be enhanced to 1:6 for the remaining 40% of schools by the 2023/24 school year.

To support schools in better catering for the needs of students, the EDB has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. The measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources. The objective of the measure is to further enhance the overall quality of guidance service by ensuring that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualification. Furthermore, with the implementation of the policy of "one school social worker for each school", the EDB has started to review the mode of collaboration between student guidance and social work services, and communicate with the education sector to identify the best way to provide school social work and guidance services by exploring all feasible proposals. According to the findings of an EDB survey in the 2018/19 school year, a total of 569 school-based social workers provide guidance service in public sector primary schools.

As for secondary schools, school social work services are, through the subvention of Social Welfare Department (SWD), provided by non-governmental organisations (NGOs). According to the SWD's information, a total of 559 social workers were provided for secondary schools by the SWD in the 2018-19 financial year. We do not collect information on the number of extra social workers appointed by schools using other resources. Starting from the 2019/20 school year, the Government will implement the policy of "two school social workers for each school" and enhance supervisory support in over 460 secondary schools in the territory.

(4)
As students grow up, they may from time to time experience pressure originating from expectations of their own and of parents, academic attainment, etc. The EDB has all along been implementing various measures to alleviate the study pressure on students. Upon implementation of the New Academic Structure, all students may proceed to the three-year senior secondary education without having to go through a competitive process. The introduction of the Hong Kong Diploma of Secondary Education Examination as a replacement for two previous public examinations has also dramatically reduced the frequency of examination and lessened the pressure on students. At the same time, we have been promoting life-wide learning through "Other Learning Experiences" and "Student

Learning Profile" at senior secondary level to avoid students from focusing solely on subject learning. We also endeavour to enhance teachers' assessment literacy and encourage "Assessment for Learning" with a view to avoiding too much emphasis being placed on tests, examinations and mechanical drilling. In addition, we also urge schools to design learning tasks flexibly, reduce homework load and create space for students to explore their interests and develop their strengths. The impact of pressure on students varies. We should help students develop positive values and attitudes and build perseverance and resilience in young people so that they are well-equipped to meet the various challenges ahead.
Regarding mental health, the EDB has been encouraging schools to adopt the Whole School Approach directed at three levels, namely "Universal", "Selective" and "Indicated" to promote mental health amongst students and enhance support for students with mental health needs (including students with suicidal risk).

At the Universal level, the EDB has been actively organising diversified development programmes featuring adventure-based, team-building and problem-solving training, such as the "Understanding Adolescent Project" and "Enhanced Smart Teen Project", to enhance students' resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. The "Pupil Ambassador Scheme on Positive Living" has also been launched by the EDB. Through experiential activities on life education, the Scheme assists primary and secondary schools in training up pupil ambassadors by enhancing their personal and social development as well as their problem-solving abilities. These ambassadors could then help share in school to promote the positive values of cherishing life in an optimistic life attitude. In recent years, the EDB has implemented the "WE" Positive Dynamics Scheme based on the concepts of Positive Psychology. The Scheme aims to enhance teacher-student relationship, encourage appreciation among students and supportive relationships among peers, reduce negative emotions and enhance positive energy of students through teacher training, talks for students/parents, Personal Growth Education, class management activities, and school activities on promoting an appreciation culture, etc. Besides, the EDB and the Department of Health jointly launched the Joyful@School Campaign in the 2016/17 school year which has been continued in the 2017/18 and 2018/19 school years to enhance students' awareness and understanding of mental health and strengthen their ability to cope with environmental changes. Schools (or in collaboration with non-governmental organisations) can submit proposals to the Quality Education Fund for funding not exceeding $200,000 through simplified application procedures to organise activities related to the Campaign.

At the Selective level, starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with SEN pitched at Basic, Advanced and Thematic levels (BAT Courses). Some modules of the BAT Courses cover mental illness. From the 2017/18 school year onwards, the EDB also provides teachers of primary and secondary schools with the "Professional Development Programme for Mental Health", including elementary training for teachers at large and in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. The EDB provides public sector mainstream schools with around 2 000 training places for the "Professional Development Programme for Mental Health" in the 2018/19 and 2019/20 school years. Besides, in each school year, the EDB also organises seminars, workshops, experience sharing sessions, etc., on supporting students

with mental health needs for primary and secondary school teachers to equip more of them with the knowledge and capacity to support students with mental health needs. To help schools identify and support students with mental health needs, the EDB has published "A Resource Handbook for Schools: Detecting, Supporting and Making Referral for Students with Suicidal Behaviours" and "Teacher's Resource Handbook on Understanding and Supporting Students with Mental Illness" which was developed in collaboration with the Hospital Authority (HA) for teachers' and school personnel's reference.

At the Indicated level, starting from the 2017/18 school year, the Learning Support Grant covers students with mental illness so that schools can cater for these students' learning, social, emotional and behavioural needs. Moreover, the Food and Health Bureau, in collaboration with the EDB, the HA and the SWD, has launched the "Student Mental Health Support Scheme" since the 2016/17 school year to provide appropriate support services for students with mental health needs through a school-based platform.

Question:

Please provide the number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade level and by major SEN type from the 2013/14 to 2017/18 school years.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 21)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade level and by major SEN type from the 2013/14 to 2017/18 school years is set out at the Appendix. With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students with SEN has increased over the years.

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year.
2. The numbers of P1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2317)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

According to the Programme, the number of schools provided with school-based professional support will be decreased from 32 in the 2018/19 school year to 15 in the 2019/20 school year as the Education Development Fund (EDF) will come to a close by the end of 2018/19 school year. Please advise this Committee of the following:

(1) as the number of schools provided with school-based professional support will be decreased substantially, has the Administration assessed how the relevant special schools will be affected? If yes, please provide the details such as how much subsidy provided to the relevant schools will be reduced when compared to previous years?

(2) it is mentioned in the Programme that the EDF will come to a close but "the necessary support for special schools to implement new education and curriculum initiatives will continue with the Education Bureau's funding". What are the details of the initiatives? What are the resources and expenditure involved?

(3) the wastage rate of teachers in special schools has increased from 6.8% in the 2017/18 school year to 8.5% in the 2018/19 school year. Has the Administration assessed the reasons? What measures have been taken to retain teachers in order to improve the quality of education?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 22)

Reply:

(1) & (2)
The Education Development Fund (EDF) was set up in 2004 to finance the implementation of different School-based Professional Support (SBPS) Programmes with a view to enhancing schools' capacity to take forward various education reform measures. These

SBPS programmes include the School Support Partners (Seconded Teacher) Scheme, which seconds experienced teachers to provide professional support on various theme-based or Key Learning Area (KLA) projects; the Professional Development Schools (PDS) Scheme, which designates schools with exemplary practices in learning and teaching and a good sharing culture to provide support services to other schools; and the University-School Support Programmes (USP), which commissions universities to provide diversified school-based professional support connecting research-based pedagogies with classroom practices to cater for schools' development needs.

The EDF will come to a close by the end of August 2019. Starting from the 2019/20 school year, the support for schools to implement new education and curriculum initiatives, including addressing learner diversity (including the learning needs of students with special educational needs) and enhancing assessment literacy, will continue with the EDB's funding. Professional officers of the EDB will continue to provide on-site support services to assist schools in developing school-based curricula based on the schools' needs and enhancing teachers' professional capability. Effective programmes currently financed by the EDF will also be refined and regularised as part of the EDB's on-going initiatives in order to sustain the impacts of professional support. For example, teachers will continue to be seconded to participate in the EDB's various theme-based or KLA projects through the Annual Teacher Secondment Exercise, while professional support services to schools and teachers by means of sharing exemplary practices provided under the USP and PDS Scheme with exemplary practices will be sustained through Quality Education Fund Thematic Networks financed by the Quality Education Fund. Therefore, upon the closure of the EDF, the EDB will continue to provide special schools with diversified support measures that are aligned with the curriculum development and schools' needs, with a view to enhancing teachers' professional capability and promoting continuous school development. Special schools may apply for appropriate support services in every school year based on their development and students' learning needs. The relevant expenses and manpower resources are subsumed under the overall expenditure of the EDB and/or other different funds.

(3)
The wastage rate of teachers in special schools in the 2018/19 school year is 1.7% slightly higher than that of the 2017/18 school year. According to the information submitted, among the teachers who left the special school sector in the 2018/19 school year, over 30 percent were transferred to other schools, another 30-plus percent were due to personal reasons such as retirement, emigration or family matters, and the remaining 30-plus percent did not give a clear indication of their way forward or reason for leaving.

The EDB has all along provided support to help special school teachers build their capacity and enhance their professional competence. For example, we have collaborated with tertiary institutions to deliver professional development programmes for special school teachers, and organised professional sharing activities, workshops and seminars, etc. to enhance professional sharing among special school teachers. In addition, the EDB has continued to deploy resources in special education and implemented relevant enhancement measures to improve the quality of education. In recent years, the EDB has improved the ratios of graduate teacher posts in special schools to attract more talent to join the teaching force of special schools, while providing special schools with additional teaching and non-teaching staff and progressively reducing the class size of various types of special

schools so as to allow teachers more capacity to engage in school-based curriculum development, lesson preparation and other professional activities. The EDB will continue to strengthen special school teachers' sense of job satisfaction and belonging to the school through various measures.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2318)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under the Programme that "the Bureau provides various support to non-Chinese speaking (NCS) students in the learning of the Chinese language". In this regard,

(1) please tabulate the total number of ethnic minority (EM) students (including Indonesian, Filipino, Indian, Pakistani, Nepalese and other NCS students) currently studying in kindergartens, primary schools and secondary schools in Hong Kong;

(2) please advise the specific measures adopted by the Government to support EM students in learning the Chinese language and the expenditure involved; and

(3) please advise the Government's policy in assisting EM students to increase their chances of pursuing studies in tertiary institutions, the expenditure involved, and the number of EM students who completed local subsidised university programmes and self-financing degree programmes in the past 5 years.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 23)

Reply:

(1) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. According to the information collected through the annual Student Enrolment Survey, the number of ethnic minority (EM) students studying in kindergartens and the number of NCS EM students studying in public sector and Direct Subsidy Scheme (DSS) schools in the 2018/19 school year, disaggregated by ethnicity as asked in the question, are tabulated at Annex A. We do not have readily available information about the number of NCS students studying in private schools, English Schools Foundation schools and other international schools.

(2)&(3) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' effective learning of the Chinese language and the creation of an inclusive learning environment in schools. Starting from the 2014/15 school year, the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, has been implemented in primary and secondary schools. The "Learning Framework", complemented by supporting learning and teaching materials, has helped NCS students overcome the difficulties in learning Chinese as a second language. Furthermore, starting from the 2014/15 school year, Applied Learning Chinese (for NCS Students) (ApL(C)) has been introduced at the senior secondary levels to provide NCS students with an additional channel to obtain an alternative Chinese Language qualification for further studies and career pursuits. In addition to the Hong Kong Diploma of Secondary Education (HKDSE) qualification, ApL(C) is pegged at Levels 1-3 of the Qualifications Framework. EDB has, starting from the 2014/15 school year, provided all public sector schools and DSS schools offering the local curriculum and admitting 10 or more NCS students with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted, to adopt diversified intensive learning and teaching modes as appropriate, such as pull-out teaching, split-class/group learning and after-school consolidation, etc. with a view to enhancing NCS students' effectiveness in learning the Chinese language. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, these schools may also apply for an additional funding of $50,000 on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. The expenditure for the related support measures for the 2018/19 school year is tabulated at Annex B. When the enhanced education support for NCS students mentioned above has taken root and created a sustainable impact, it is expected that NCS students could show steady improvement in their academic performance and more NCS students would pursue studies in tertiary institutions.

EDB has all along been supporting secondary schools to implement Life Planning Education and provide career guidance services. To prepare NCS students for further studies and career pursuits, EDB commissioned a non-governmental organisation (NGO) to implement a pilot project from the 2015/16 to 2017/18 school years to organise life planning activities and work experience programmes that enable NCS students to understand their career orientation and learn about different study pathways and jobs. A total of 1 800 NCS students participated in the project and the expenditure involved was about $6.3 million. Starting from the 2018/19 school year, EDB will continue to commission an NGO to organise career exploration activities, including visits to post-secondary institutions, workplace visits and work experience programmes, etc., to help NCS students make informed choices on further studies and careers, set personal goals and plan their future. In the 2018/19 school year, it is expected that 310 students will benefit from the service, which involves an expenditure of about $700,000.

The number of local NCS students (i.e. students whose ethnicity and/or spoken language at home is not Chinese) admitted to University Grants Committee (UGC)-funded undergraduate programmes in the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 academic years is 226, 220, 253, 335 and 361 (provisional figures) respectively. The UGC has not collected figures on EM or NCS students that have completed UGC-funded post-secondary programmes. We do not maintain statistics on the number of EM students that have completed self-financing degree programmes either.

Annex A

Number of ethnic minority (EM) students studying in kindergartens in the 2018/19 school year by ethnicity

Indonesian	Filipino	Indian	Pakistani	Nepalese	Others	Total
134	627	1 280	1 413	993	6 475	10 922

Number of non-Chinese speaking (NCS) EM students studying in primary and secondary schools in the 2018/19 school year by ethnicity

	Indonesian	Filipino	Indian	Pakistani	Nepalese	Others	Total
Primary	174	1 310	988	3 228	1 852	1 637	9 189
Secondary	94	1 487	1 267	3 125	1 337	1 290	8 600

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres. Figures cover both local and non-local kindergartens.
3. Figures for pre-primary level cover EM students regardless of their spoken language.
4. Figures for primary and secondary schools cover students studying in public sector schools and Direct Subsidy Scheme schools. Figures do not include students in special schools.
5. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students. Figures for primary and secondary schools have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

Educational support measures for non-Chinese speaking (NCS) students in the 2018/19 school year

Support measures	Estimated expenditure in the 2018/19 school year $ million
Starting from the 2014/15 school year, the additional funding to schools has been substantially increased and school-based professional support enhanced to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support for NCS students' learning of the Chinese language as well as the creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	270.9 Note 1
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0 Note 1
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays, and provide learning and teaching resources for those NCS students who have a late start in the learning of the Chinese language, and to organise workshops for experience sharing with teachers and workshops for parents of NCS students with a view to strengthening collaboration with parents of NCS students in the support for NCS students' learning of Chinese	3.3
Summer Bridging Programme for NCS students in primary schools Starting from 2013, parents of NCS students could accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.	2.1

Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	8.6
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that subsidised school candidates are only required to pay a "subsidised examination fee" on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE). Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level.	4.24 Note 2
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art under the Language Fund.	4.28
Support for kindergartens admitting NCS students - (a) University-School Support Programmes (USP) financed by the Education Development Fund: A project to support NCS students in kindergartens in the transition to primary schools from the 2017/18 to 2018/19 school years (b) School-based professional support services (c) With the implementation of the new kindergarten education policy starting from the 2017/18 school year: (i) a grant comparable to the recommended salary of one kindergarten teacher has been provided to kindergartens admitting 8 or more NCS students for supporting NCS students (ii) specific training courses for kindergarten teachers on support of NCS students	 Note 3 Note 1 60.7 1.5 Note 4

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different funds, and a breakdown of expenditure by item is not available.

2. With the approval of the relief measure announced in the 2018-19 Budget to pay the examination fees for school candidates sitting for the 2019 HKDSE by the Finance Committee of the Legislative Council at the meeting on 18 May 2018, the "subsidised examination fee" of eligible NCS students sitting for the non-local Chinese Language examinations concerned in the 2018/19 school year is waived accordingly.

3. Regarding the USP project, the actual expenditure for the 2017/18 school year is $2.88 million and the estimated expenditure for the 2018/19 school year is $5.46 million. As the USP project is implemented in both kindergartens and primary schools, a breakdown of expenditure by kindergartens and primary schools is not available.

4. Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate kindergartens in arranging teachers to attend specified training courses on supporting NCS students. The relevant expenditure has been included in the estimated expenditure for these training courses.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2319)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is stated under the said Programme that the Education Bureau (EDB) offers opportunities for students to join Mainland exchange programmes (MEPs) and arranges professional exchange programmes for teachers.

(1) Please set out the items and their expenditures in connection with EDB's arranging MEPs for students and professional exchange programmes for teachers in the past 5 years (from the 2013/14 to 2017/18 school years) and the coming year.

(2) Please set out the total number of primary and secondary students and teachers that participated in Mainland exchange activities, and the respective percentage that these students and teachers represented in the total number of students and total number of teachers in the past 5 years. Please also provide figures on the distribution of provinces and cities involved in these exchange activities.

(3) Has the Administration evaluated the effectiveness of measures supporting the participation of students in MEPs and teachers in professional exchange programmes? If yes, what are the details?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 24)

Reply:

(1) The Education Bureau (EDB) organises Mainland exchange programmes for students, or subsidises those organised by schools, that dovetail with the school curriculum and the latest development of our country. With diversified themes and destinations, these programmes enable students to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. Teachers participate in these exchange programmes as learning facilitators

according to the "1 teacher : 10 students ratio". Besides, the EDB also organises various professional Mainland exchange programmes for teachers to widen their horizons and deepen their understanding of the Mainland's development in different aspects for enhancing their professional competence. Professional exchange programmes mainly include school visits, cultural visits, seminars, lesson observations, professional exchanges, etc.

The expenditures on Mainland exchange programmes in the past 5 school years (from the 2013/14 to 2017/18 school years) and the 2018/19 school year are as follows:

School Year	Expenditure ($million)	
	Programmes for primary and secondary students	Programmes for teachers
2013/14	37.2	1.3
2014/15	52.7	1.1
2015/16	61.9	2.1
2016/17	64.2	2.9
2017/18 #	85.4	5.5
2018/19 *	103.3	8.7

Actual figures revised from last year's estimates

* Provisional figures

(2) The EDB organises Mainland exchange programmes for students, or subsidises those organised by schools every school year. These programmes cover different provinces and cities in the Mainland, including 22 provinces, 4 autonomous regions and 4 municipalities. Students' participation is on a voluntary basis. The EDB does not collect information about individual students' participation in Mainland exchange programmes, and does not have the percentage of students who have or have not participated in such programmes. The numbers of primary and secondary school students receiving subsidies for Mainland exchange programmes in the past 5 years (from the 2013/14 to 2017/18 school years) are as follows:

School Year	Number of Students (rounded down to the nearest hundred)	
	Secondary Students	Primary Students
2013/14	22 600	14 400
2014/15	31 700	18 900
2015/16	35 800	23 400
2016/17	35 300	24 500
2017/18 #	40 200	26 800

Actual figures revised from last year's estimates

As mentioned above, teachers will participate in the aforesaid Mainland exchange programmes as learning facilitators according to the "1 teacher : 10 students" ratio. The EDB also organises various professional exchange programmes for teachers. The EDB does not collect statistical data on the number of teachers participating in such programmes as a percentage of the total number of teachers. Professional exchange programmes organised for teachers in the past 5 years (from the 2013/14 to 2017/18 school years) covered different provinces and cities in the Mainland, such as Beijing, Wuhan, Chengdu, Nanning and various cities in the Guangdong Province. The numbers of teachers participating in these programmes in the past 5 years are as follows:

School Year	Number of Teachers (rounded to the nearest ten)
2013/14	270
2014/15	260
2015/16	410
2016/17	690
2017/18 #	760

#Actual figures revised from last year's estimates

(3) The EDB has been attaching importance to the quality of Mainland exchange programmes for students and professional exchange programmes for teachers. There is a regular mechanism established to evaluate the opinions of the participants of these programmes, including having meetings with the service providers, deploying staff to attend the programmes to assess the appropriateness of the content and collecting the immediate responses of the participants, conducting questionnaire surveys, organising interviews and post programmes sharing sessions. The feedback from teachers and students are generally positive.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2320)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) The Administration will provide examination fee remission for candidates sitting for the Hong Kong Diploma of Secondary Education Examination in 2019/20 and 2020/21. Please provide details of the funding arrangements for the coming 2 school years, with a breakdown of the estimated increase in manpower and number of students to be benefitted.

(2) Will the Administration consider regularising this measure? If no, what are the reasons?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 25)

Reply:

(1) A series of relief measures are announced in the 2019-20 Budget. These include the proposed one-off initiative to pay examination fees for school candidates sitting for the 2020 Hong Kong Diploma of Secondary Education (HKDSE) Examination. The initiative does not cover school candidates sitting for the 2021 examination. About 46 000 school candidates will be benefitted. The estimated expenditure is $160 million, which includes provision for contingencies.

The total amount actually paid to the Hong Kong Examinations and Assessment Authority for candidates will depend on the actual number of subject entries made by eligible school candidates sitting for the 2020 HKDSE Examination. It is estimated that, with reference to the normal payment schedule of the 2020 HKDSE, the expenditure will be incurred mainly in 2019-20. The manpower and administrative expenses for implementing this measure will be covered by EDB's existing resources.

(2) The Financial Secretary proposed in the 2018-19 Budget and 2019-20 Budget to pay examination fees for candidates sitting for the 2019 HKDSE Examination and 2020 HKDSE Examination respectively, as a measure to share the fruits of economic success with the public and to relieve people's burden. The Government currently has no plan to regularise the measure.

(Question Serial No. 2321)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) The estimated provision for post-secondary, vocational and professional education in the 2019/20 academic year is $443.2 billion, which is 10.3% less than the revised estimate for 2018/19 and has been declining for 2 consecutive years. What are the reasons for that? How does the Government support the development of post-secondary, vocational and professional education with dwindling expenditures in this regard?

(2) The number of full-time vocational and professional education student places offered by the Vocational Training Council (VTC) dropped for 2 years in a row. What are the reasons for that?

(3) What are the top ten most popular VTC programmes in the past academic year?

(4) Please provide a breakdown, in descending order by discipline, of the employment rates of VTC full-time graduates who intended to seek employment after graduation.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 26)

Reply:

(1) Provision for post-secondary, vocational and professional education includes government funding for the Vocational Training Council (VTC) and other financial commitments in support of post-secondary, vocational and professional education (e.g. implementation of the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), the Hong Kong Scholarship for Excellence Scheme and the Mainland University Study Subsidy Scheme), but excludes subsidy for universities funded by the University Grants Committee. In 2019/20, the Government will continue to inject resources into post-secondary, vocational and professional education through recurrent

expenditure, as well as to strengthen the relevant support measures, such as expanding the coverage of SSSDP to designated full-time locally accredited self-financing sub-degree programmes in selected disciplines, and supporting the VTC's regularisation of the Pilot Training and Support Scheme.

The estimated provision for post-secondary, vocational and professional education for 2019-20 decreases as compared with the revised estimate for 2018-19, which has also reduced for 2 consecutive years. This is mainly attributed to an increased cash flow requirement for non-recurrent expenditure items that arose from the Government's complete injection of $800 million into the HKSAR Government Scholarship Fund and $1,200 million into the Qualifications Framework Fund in 2018-19 and 2017-18 respectively. The saving achieved by the complete injection into the two Funds is only partially offset by the increase in recurrent expenditure.

(2) The reduction in the number of places for VTC's full-time vocational and professional education and training programmes for 2 consecutive years mainly reflects the adjustment made by VTC in response to a drop in overall student population in Hong Kong.

(3) The 10 VTC programmes (full-time Higher Diploma programmes above Secondary 6 level) with the largest number of applications in the 2018/19 academic year are tabulated below:

Name of programmes
Higher Diploma in Child Care and Education
Higher Diploma in Social Work
Higher Diploma in Sports Coaching
Higher Diploma in Hotel and Catering Management
Higher Diploma in Civil Engineering
Higher Diploma in Product, Interior and Exhibition Design (Subject Group)
Higher Diploma in Electrical Engineering
Higher Diploma in Building Services Engineering
Higher Diploma in Software Engineering
Higher Diploma in Film and Television

(4) Regarding VTC graduates of full-time programmes in 2017, the employment rates of those who sought employment are provided (by scope of discipline) in descending order below:

Scope of discipline	Employment rates*
Childcare, Elderly and Community Services	96%
Engineering	93%
Business Administration	92%
Applied Science	92%

The scope of disciplines of the graduates	Employment rates of full-time graduates who intended to seek employment*
Hospitality	92%
Information Technology	91%
Design	89%

* Based on the survey conducted in January 2018 (data collected about 6 months after graduation)

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) has failed to award the contract for the provision of hearing aids by tender in the 2018/19 school year. In this connection, please provide the following information:

(1) The expenses on outsourcing of hearing aids provision and the average cost per student in the past 5 years;

(2) A breakdown of the number of students served by the outsourced service providers for hearing aids provision in the past 5 years by their district of residence, age, class level and degree of hearing impairment;

(3) The average and median waiting time for students to be served by the outsourced service providers for hearing aid provision in the past 5 years;

(4) A breakdown of the number of students affected by the unsuccessful tendering exercise by their district of residence, age, class level, degree of hearing impairment, and the duration during which the student was affected;

(5) A breakdown of the respective numbers of affected students who resorted to using the transitional services provided by the Hong Kong Society for the Deaf and the Hospital Authority by their district of residence, age, class level, degree of hearing impairment, and the duration during which the student was affected;

(6) The number of students who have to postpone their cochlear implantation due to the unsuccessful tendering exercise, and the remedial measures taken by the EDB to help the affected students; and

(7) A breakdown of the number of backup hearing aids the EDB currently has in stock by their model and year of purchase.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8717)

Reply:

(1) to (3)
From the 2013/14 to 2017/18 school years, pre-school children, primary and secondary school students in need of hearing aids were arranged to the outsourced service provider commissioned by the Education Bureau (EDB) for the "Hearing Aid Fitting and Related Audiological Services" free of charge for three years, which include audiological review, hearing aid fitting, regular earmould replacement, repair and maintenance, and FM system fitting services (if applicable). The expenditure and average cost per person in the said 5 school years are set out below:

School Year	2013/14	2014/15	2015/16	2016/17	2017/18
Expenditure[1] ($million)	2.50	4.05[2]	3.35	3.92	4.95
Cost Per Person[3] ($)	2,542	3,487	3,487	3,715	3,715

[1] The annual expenditure varies with the actual number of students provided with hearing aids and related services, which might fluctuate due to situations such as students' non-attendance / deferred attendance.

[2] The significant increase in expenditure for the 2014/15 school year was due to the enhancement in the specifications of hearing aids.

[3] The average cost per person is calculated based on the tender price for that particular school year.

As regards the number of children receiving the "Hearing Aid Fitting and Related Audiological Services" broken down by the degree of hearing impairment (HI) , class level and district of residence, please refer to tables 1 to 3 at the Appendix. The EDB has not compiled statistics on the number of these children by age.

According to the contract set by the EDB with the outsourced service provider, parents will book an appointment with the service provider upon receiving the service voucher by the EDB. The service provider is required to offer an initial appointment with the parents and their children within 5 working days, and provide hearing aid fitting service for the children concerned within the next 3 weeks. Therefore, children in general are provided with hearing aid fitting and related services within 1 month from the date of the first appointment. The actual waiting time depends on a number of factors, including the requests of individual parents on appointment dates, whether attending the appointments as scheduled, and the health condition of the children (e.g. blockage or inflammation of the ear canal). The EDB has been monitoring the services provided by the service provider, and will make improvement suggestions when necessary.

(4) to (6)
Since no service providers were able to fulfill the tender requirements for the provision of "Hearing Aid Fitting and Related Audiological Services" for the 2018/19 school year, the EDB had implemented various measures to ensure that children with HI are provided with the necessary services. These measures included making urgent minor purchase of hearing aid fitting services from The Hong Kong Society for the Deaf (HKSD), and reaching an agreement with the Hospital Authority (HA) in mid-January 2019 to rent the Audiology

Centre of the Queen Elizabeth Hospital to provide hearing aid fitting services for children by the audiologists of the EDB. Before the full resumption of the "Hearing Aid Fitting and Related Audiological Services", a total of 37 children, including 24 pre-school children, 6 primary school and 7 secondary school students, who are newly in need of hearing aids, have been referred to the EDB. Among them, the degree of HI of 11 children are mild, 9 are moderate, 7 are moderately-severe, 3 are severe and 7 are profound. For these 37 children, 7 of them were provided with hearing aid fitting services by the HKSD, while the remaining 30 were served by the audiologists of the EDB at the Audiology Centre of the HA. With the implementation of the above measures, the children had earmould produced for them in late January 2019, and have started to be fitted with hearing aids since mid-February.

The suitability and timing for children with HI to receive cochlear implant (CI) surgery should be decided by medical specialists after taking into account a number of factors. The EDB does not have the number of children requiring CI surgery.

(7)
The EDB has in stock (as at March 2019) about 60 hearing aids including, behind-the-ear, in-the-ear, and in-the-canal styles. These hearing aids with 8 channels were purchased in January 2019.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3026)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Government please inform this Committee of the following:

1. In the past 5 years, the total number of students with various types of special education needs (SEN) in Hong Kong by school type (government, aided, Direct Subsidy Scheme (DSS), private primary schools, secondary schools and special schools), class level (K1 to S6), age and gender;

2. In the past 5 years, the distribution of the number of students with various types of SEN by District Council district and their percentage against the total number of students of the respective district. What is the analysis by the Education Bureau on the situation in which the proportions of students with SEN are significantly higher in certain districts and how will it cater for the needs as far as the injection of resources and the formulation of policies are concerned?

3. Under the 3-tier Intervention Model of the integrated education policy:

i) On the first day (usually falls on 1 September) of a school term in the past 5 years, the actual number of students under each tier of support by the type of SEN, district, banding of secondary schools, school type (government, aided, DSS or private);

ii) On the first day (usually falls on 1 September) of a school term in the past 5 years, the number of schools which admitted 0, 1, 2, 3, 4, 5, 6, and 7-10 student(s) with SEN (and in the groups of 10 thereafter) requiring tier-2 and tier-3 support;

iii) The current number of students with individual education plans devised and its percentage against the total number of students with SEN;

iv) The current number of schools which respectively receive over $0.6 million, $1.6 million and $2.2 million under the Leaning Support Grant (LSG), with a breakdown by district;

v) In the past 5 years, the percentage of schools with the LSG clawed back (below 5%, 5%-10%, 11%-20%, 21%-30%, and over 30%);

vi) In the past 5 years, the amount of LSG clawed back from schools and the relevant number of schools;

vii) The total amount of LSG clawed back.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8718)

Reply:

(1) & (2)
The Education Bureau (EDB) has kept information on students with special educational needs (SEN) by grade level and SEN type but not by age group and "secondary school banding". As the provision of support services for students with SEN does not have any relationship with their gender and district of residence, we are unable to provide the number of students with SEN by gender and district of residence.

The number of students with SEN studying in public sector mainstream primary and secondary schools by grade level and by SEN type from the 2014/15 to 2018/19 school years is set out at Appendix 1.

The number of students studying in special schools from the 2014/15 to 2018/19 school years is set out at Appendix 2. As it is a common practice for special schools to adopt flexible groupings across grade levels and devise individual education plans to cater for the SEN of individual students, therefore, presenting the number of students by grade level, age and gender cannot reflect the actual operation in special schools.

The number of students with SEN studying in the English Schools Foundation schools, other private international schools and private independent schools from the 2014/15 to 2018/19 school years is set out at Appendix 3. The figures are collected in the annual Student Enrolment Survey conducted by the EDB and refer to the position as at September of the respective school years. However, as some schools did not provide the relevant information in the survey, the data may not reflect the actual number of students. Besides, since these schools have their own mechanisms of classifying students with SEN which may not be comparable with those adopted in public sector schools, provision of breakdown by SEN type may be misleading. Since schools are not required to provide information on all students with SEN with breakdown by other categories, we are not able to provide the relevant figures. We do not maintain relevant data on other private primary and secondary schools.

As support services for children with special needs at pre-primary level are provided by the Social Welfare Department, the EDB does not maintain data on students with special needs at various kindergarten levels. We do not collect relevant figures from Direct Subsidy Scheme schools.

(3)
Schools are requested to adopt the Whole School Approach to support students with SEN through the 3-tier Intervention Model, taking into account their support needs. To help public sector mainstream schools cater for their students with SEN, the EDB has been providing schools with additional resources, professional support and teacher training. Among these additional resources, the provision of the Learning Support Grant (LSG) is calculated according to the number of students with SEN and the tier of support they require. The tier of support for students with SEN is subject to upward or downward adjustment from time to time, depending on the performance of the students, and the distribution of students under the 3-tier Intervention Model may change accordingly. For students with mild or transient learning difficulties, schools will provide them with tier-1 support through quality teaching in regular classrooms. Submission of information about these students to the EDB is not required. The distribution of public sector mainstream primary and secondary schools eligible for LSG by number of students with SEN requiring tier-2 and tier-3 support from the 2014/15 to 2018/19 school years is set out at Appendix 4.

In the 2018/19 school year, 437 public sector mainstream schools receive an LSG exceeding $600,000 whilst 109 of them have reached the LSG ceiling.

When providing additional resources, the EDB takes into account various parameters, such as the number of students with SEN in schools, the level of support they require, the number of classes and the applications of individual schools when need arises, irrespective of the districts in which schools are situated. Hence, we are unable to give a breakdown of the provision by district.

We encourage public sector mainstream schools to fully utilise the LSG provided annually to cater for the needs of their students with SEN in the respective school year. For schools which have accumulated a surplus in excess of 30% of 12 months' provision of LSG at the end of a school year (applicable to aided and caput schools) or financial year (applicable to government schools), the surplus will be clawed back. This arrangement was first introduced to government schools in the 2011-12 financial year and then applied to aided primary and aided/caput secondary schools in the 2011/12 and 2012/13 school years respectively.

The number of schools with LSG clawed back at the end of the 2013/14, 2014/15, 2015/16 and 2016/17 school years (aided and caput schools)/2013-14, 2014-15, 2015-16 and 2016-17 financial years (government schools) by percentage range in relation to 12 months' provision and the amount of LSG clawed back in the school years/financial years concerned are set out at Appendix 5. The total amount of LSG clawed back in the above period was about $9.6 million. As the amount to be clawed back from aided and caput schools for the 2017/18 school year will be confirmed only after the schools' submission of audited accounts by end of February 2019 and verification by the EDB, we are unable to provide the claw-back information for the 2017/18 school year and beyond. With our stepped-up efforts to monitor

and remind schools to better utilise the LSG, the surplus situation of LSG in schools has been improved in recent years. Various measures include providing schools with guidelines on the deployment of LSG and claw-back mechanism, conducting regular school visits to advise on the deployment of resources for supporting students with SEN, organising experience sharing activities among schools, and issuing reminders to individual schools concerned for making improvement should undesirable situation be detected.

2017/18	13	878	546	415	334	246	171	62	60	33	26	15
2018/19	19	932	593	408	297	257	177	52	60	33	17	24

Mental Illness	P1	P2	P3	P4	P5	P6	S1	S2	S3	S4	S5	S6
2018/19	10	9	6	4	13	13	22	42	53	57	61	74

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
2. The numbers of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school year and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

Number of students studying in special schools from the 2014/15 to 2018/19 school years(Notes 1 & 2)

School Year	School Type						
	Visual Impairment	Hearing Impairment	Physical Disability	Mild Intellectual Disability (Note 3)	Moderate Intellectual Disability (Notes 3 & 4)	Severe Intellectual Disability (Note 4)	Schools for Social Development
2014/15	126	102	921	3 051	1 865	691	632
2015/16	125	87	915	3 049	1 879	679	600
2016/17	123	89	883	3 103	1 911	687	553
2017/18	112	84	877	3 154	1 992	699	594
2018/19	110	64	907	3 218	2 040	706	614

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Students from the Hospital School are not included due to the transitional nature of the education service provided.
3. The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of schools for children with MiID and MoID (7 schools in the 2014/15 and 2015/16 school years and 5 schools starting from the 2016/17 school year).
4. One school for children with severe intellectual disability has started to operate classes for children with MoID on a pilot basis since the 2017/18 school year.

**Number of students with special educational needs (SEN)
in the English Schools Foundation (ESF) schools, other private international schools and private independent schools (PIS)
from the 2014/15 to 2018/19 school years**

School Year	ESF		PIS		Other Private International		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
2014/15	136	256	117	175	329	163	582	594
2015/16	230	435	178	277	385	175	793	887
2016/17	245	565	172	231	323	179	740	975
2017/18	439*	422*	183	234	404	284	1 026	940
2018/19	365	458	177	291	482	348	1 024	1 097

* The ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and has required all its schools to provide such figures to the EDB in the Student Enrolment Survey accordingly since the 2015/16 school year. However, in an internal review of the ESF schools' practice in compiling the number of students with SEN in September 2017, the ESF found that the practice was still inconsistent among individual schools. The ESF has verified again the information provided by each ESF school in the Student Enrolment Survey. Therefore, there is a relatively significant change in the number of students with SEN in the 2017/18 school year when compared with previous years.

Notes:

1. Figures show the position as at September of the respective school years.
2. Statistics cover students with SEN under integrated classes / special classes / special schools in PIS, the ESF and other private international schools as reported by the schools concerned in response to the Student Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

Table 1

Distribution of public sector mainstream primary and secondary schools eligible for the Learning Support Grant (LSG) by number of students with special educational needs (SEN) requiring tier-2 support from the 2014/15 to 2018/19 school years

Number of students with SEN requiring tier-2 support	Number of Schools									
	2014/15		2015/16		2016/17		2017/18		2018/19

Note:

Starting from the 2017/18 school year, the Learning Support Grant (LSG) covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.

Table 2

Distribution of public sector mainstream primary and secondary schools eligible for the Learning Support Grant (LSG) by number of students with special educational needs (SEN) requiring tier-3 support from the 2014/15 to 2018/19 school years

Number of students with SEN requiring tier-3 support	Number of Schools

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3027)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please tabulate the items of expenditure and detailed work arrangements of the Native-speaking English Teacher Section, Special Educational Needs (SEN) Section, Life-wide Learning and Library Section and Gifted Education Section of the Education Bureau in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 8719)

Reply:

The major areas of work of and total expenditure on the Native-speaking English Teacher Section, Special Educational Needs Section, Life-wide Learning and Library Section (restructured as the Life-wide Learning Section with effect from 2 May 2017), and Gifted Education Section from 2014-15 to 2018-19 are set out at Annexes 1 to 4 respectively.

Native-speaking English Teacher Section

The Native-speaking English Teacher (NET) Section is responsible for supporting and evaluating the implementation of the NET Scheme and attainment of the Scheme goals. The major areas of work from 2014-15 and 2018-19 are set out in the table below:

Major Area of Work	Description
A. Curriculum development	Literacy programmes and collaborative research and development projects ("Seed" projects) were developed and implemented in both primary and secondary schools to facilitate the implementation of the English Language Curriculum Guide prepared by the Curriculum Development Council, to promote pedagogical innovations and to foster a culture of collaboration among English language teachers, including NETs.
B. School support services	Onsite professional support was provided for both primary and secondary schools to foster collaboration between the NET and local teachers, to give advice on curriculum development, pedagogy, assessment and NET deployment, and to identify and disseminate good practices.
C. Professional development programmes	Professional development opportunities were offered to English teachers, including NETs, through workshops, seminars, cluster meetings, experience-sharing sessions, etc.
D. Learning and teaching resources development	Print and electronic learning and teaching resources were developed for the various NET Section initiatives including literacy programmes and "Seed" projects.
E. Organisation of competitions for students	Competitions were organised to provide a range of opportunities for students to use English in a creative and collaborative way. These competitions also provided professional development opportunities for participating teachers, including NETs.
F. Ad hoc projects	• Development of an e-platform from 2015-16 onwards to enhance the accessibility and visibility of the services and resources offered by the NET Section; • Evaluation of the NET Section's school support services; • Evaluation of the NET Scheme in Primary Schools and the Enhanced NET Scheme in Secondary Schools (ENET Scheme); and • The ENET Scheme's 20th Anniversary Conference.

The total expenditures on curriculum development, school support services, professional development programmes, learning and teaching resources development, organisation of competitions for students and ad hoc projects in the past 5 years are as follows:

2014-15 ($ million)	2015-16 ($ million)	2016-17 ($ million)	2017-18 ($ million)	2018-19 ($ million) (Estimate)
0.5	1.5	0.9	0.7	0.3

The above figures cover the expenditures on procuring the services concerned, developing learning and teaching resources, and implementing various measures. As a significant part of the work mentioned was carried out by officers of the Education Bureau (EDB), the expenditures involved had been subsumed under the overall expenditure of the EDB. A further breakdown of the figures is thus not available.

Special Educational Needs Section

The Special Educational Needs (SEN) Section is responsible for planning and developing the adapted curriculum for special schools and support them to implement the adapted curriculum under the New Academic Structure (NAS) through enhancing the learning and teaching resources for children with intellectual disabilities (ID). The major areas of work from 2014-15 to 2018-19 are set out in the table below:

Major Area of Work	Description
A. Curriculum development	To plan and develop the adapted curriculum for special schools to nurture students with ID and enrich learning and teaching resources through collaborative research and development projects ("Seed" projects) on curriculum adaptation and development of the Learning Progression Frameworks for the core subjects of both basic education and senior secondary education.
B. Professional development programmes	To conduct professional development and training programmes for school heads, curriculum leaders and teachers to implement the adapted curriculum under the NAS for students with ID.
C. Learning and teaching resources development	To develop learning and teaching resources as well as supplementary guides to curriculum and assessment for different subjects at basic education and senior secondary levels for special schools.
D. Other support measures	To support schools implementing the adapted senior secondary curriculum for students with ID under the principle of "One Curriculum Framework for All"; to provide adapted Applied Learning courses for students with ID as elective subject(s) in the senior secondary curriculum which complement other senior secondary subjects by offering studies with stronger elements of practical learning elements which link to broad professional and vocational fields.

Expenditures on curriculum development, professional development programmes, learning and teaching resources development, and other support measures in the past 5 years are as follows:

2014-15 ($ million)	2015-16 ($ million)	2016-17 ($ million)	2017-18 ($ million)	2018-19 ($ million) (Estimate)
16.6	17.8	21.4	22.0	22.1

The above figures cover the expenditures on procuring the services concerned, developing learning and teaching resources, and implementing various measures. As a significant part of the work mentioned was carried out by officers of the EDB, the expenditures involved had been subsumed under the overall expenditure of the EDB. A further breakdown of the figures is thus not available.

Life-wide Learning Section

After the Life-wide Learning and Library Section was restructured as the Life-wide Learning Section with effect from 2 May 2017, it is mainly responsible for the curriculum development and the implementation of Life-wide Learning (LWL) to support students' whole-person development (before the restructuring, also responsible for promoting information literacy among teacher-librarians, and to support the implementation of "Reading across Curriculum" in schools through quality library services). The major areas of work from 2014-15 to 2018-19 are set out in the table below:

Major Area of Work	Description
A. Curriculum development	• To carry out curriculum development in LWL for students' whole-person development, including Other Learning Experiences (OLE) and Student Learning Profile (SLP) at the senior secondary level; and • To identify and promote good practices of library services in primary and secondary schools*.
B. Professional development programmes	• To enhance the capacity of school leaders and teachers in implementing LWL, OLE and SLP; and • To support teacher-librarians in promoting information literacy and reading*.
C. Learning and teaching resources development and support services	• To support schools' implementation of LWL, OLE and SLP; • To support LWL activities for students' whole-person development; and • To maintain the Book Works Reading Site on the EDB website*.
D. Other support measures	• To administer and promote the Hong Kong Jockey Club Life-wide Learning Fund, which subsidises the financially needy students to participate in LWL activities organised or recognised by their schools.

*Carried out by the Curriculum Resources Section from 2 May 2017 onwards

Expenditures on curriculum development, professional development programmes, learning and teaching resources development, support services, and other support measures in the past 5 years are as follows:

2014-15 ($ million)	2015-16 ($ million)	2016-17 ($ million)	2017-18 ($ million)	2018-19 ($ million) (Estimate)
3.9	4.5	4.3	1.1	0.9

The above figures cover the expenditures on procuring the services concerned, developing learning and teaching resources, and implementing various measures. As a significant part of the work mentioned was carried out by officers of the EDB, the expenditures involved had been subsumed under the overall expenditure of the EDB. A further breakdown of the figures is thus not available.

Gifted Education Section

The Gifted Education (GE) Section is responsible for planning, co-ordinating and reviewing the implementation of the curriculum according to the special characteristics of gifted children and the changing contextual demands of the society. The major areas of work from 2014-15 to 2018-19 are set out in the table below:

Major Area of Work	Description
A. Curriculum development	To develop various guidelines, curriculum documents and tools on gifted education such as information folders and School Self-enhancing Tool for schools' reference; to conduct curriculum development visits and advise on gifted education development; and to facilitate inter-school professional dialogues through the GE School Network Initiative.
B. Professional development programmes	To enhance teachers' capacity in promoting gifted education through organising online courses, seminars, workshops, teacher networks, etc.
C. Learning and teaching resources development	To produce learning and teaching packages to support schools in catering for the needs of gifted students in classrooms, pull-out programmes and off-school provisions.
D. Support services	To organise various local competitions and off-school programmes for gifted students, e.g. web-based learning courses, territory-wide competitions in different Key Learning Areas and STEM-related enrichment activities.
E. Sending HK delegates to various overseas student competitions	To collaborate with tertiary education institutions and other educational organisations to provide gifted programmes, competition-related training programmes and affective education to prepare gifted students for national and international competitions, which serve as platforms for gifted students to learn and grow with like-ability peers and to widen their horizons.

Expenditures on curriculum development, professional development programmes, learning and teaching resources development, support services, and sending HK delegates to various overseas student competitions in the past 5 years are as follows:

2014-15 ($ million)	2015-16 ($ million)	2016-17 ($ million)	2017-18 ($ million)	2018-19 ($ million) (Estimate)
7.4	8.1	7.5	6.0	5.6

The above figures cover the expenditures on procuring the services concerned, developing learning and teaching resources, and implementing various measures. As a significant part of the work mentioned was carried out by officers of the EDB, the expenditures involved had been subsumed under the overall expenditure of the EDB. A further breakdown of the figures is thus not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3031)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please give figures on primary and secondary students having transferred to other schools in the past 5 years.

	No. of transferred students with special educational needs	Total no. of students with special educational needs	No. of transferred students without special educational needs	Total no. of students without special educational needs
P1 to P3				
P4 to P6				
S1 to S3				
S4 to S6				

2. Please give reasons for students' transfer by category; and

3. What are the Education Bureau's policies on handling students' transfer and the service for supporting transferred students?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1659)

Reply:

1. and 2.
The Education Bureau (EDB) does not require schools to provide specific reasons for the transfer of individual students from one school to another. In general, students may change schools for different reasons (such as moving home, family factors and adjustment problem). A breakdown of the primary and secondary school students having transferred

to other schools just under the categories of those with special educational needs (SEN) and those without does not necessarily give a true picture for reference.

3.
The EDB provides placement assistance for school-age children in need upon request. If there is information indicating that the school transfer is due to special situations of the students (such as poor adjustment in original schools, having SEN or changes in family status) that warrant schools' particular attention, the EDB will contact the schools concerned to make appropriate arrangements for addressing those students' needs. Schools currently adopt the Whole School Approach to provide a variety of preventive, developmental and remedial guidance programmes, such as adjustment programmes, peer support schemes and group counselling, to help students adapt to the new learning environment and integrate into the new school life. Schools also deliver multifarious teaching strategies and counselling services as appropriate to cater for students' different abilities and aptitude, with a view to helping students overcome learning difficulties and handle their behavioural problems.

For students with SEN who need to be transferred to special schools because they are unable to cope with learning in mainstream schools, the EDB will, with consent from parents, place them in suitable special schools according to the assessment results and recommendations of medical specialists/professionals. Special schools, subject to parental consent, may also refer students who are found to have better learning abilities than their peers to educational psychologists for assessment and consideration of transferring them to mainstream schools.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3032)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Government inform this Committee of the following:
1. the number of school bullying cases reported to the Education Bureau (EDB), and among the students involved, the number of those with and those without special educational needs in the past 5 years; and
2. the EDB's policy on handling school bullying and strategy for reducing the occurrence of bullying.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1661)

Reply:

1. Based on the information collected from EDB's annual questionnaire survey on guidance and discipline cases in public sector primary and secondary schools, the number of students (including students with special educational needs (SEN)) involved in school bullying cases in the past 5 years (i.e. from the 2013/14 to the 2017/18 school years) is as follows:

School Year	2013/14	2014/15	2015/16	2016/17	2017/18
Number of students involved in school bullying cases (students with SEN)	254 (20)	214 (23)	204 (30)	124 (48)	202 (48)

2. EDB will not tolerate any act of bullying in schools. In this connection, circulars and guidelines have been issued requiring all schools to take the matter seriously and implement proactive measures to ensure the safety of students at school. The School Administration Guide sets out guidelines on the handling and prevention of bullying cases for reference to all schools. Schools are advised to adopt the Whole School Approach in formulating and implementing anti-bullying strategies, including clear stance on zero tolerance, proper reporting mechanism and handling procedures, highly transparent monitoring as well as proactive and serious attitude in handling each bullying incident. EDB has also put in

place a mechanism to deal with special cases. Whether direct investigation, handling and follow-up actions are necessary will be determined in the light of the nature and seriousness of the incident.

The anti-bullying awareness of students and staff is also enhanced through preventive education, training programmes and various guidance and discipline programmes. Schools are required to augment the personal growth education and life education elements in various domains of their school curriculum to instil in students a sense of respect for others and help them acquire communication, social and conflict-management skills. Starting from the 2011/12 school year, EDB has launched the Harmonious School – Anti-bullying Campaign. Teaching/promotion materials, an anti-bullying charter and training for Peace Ambassadors on conflict management and peer mediation skills are provided to schools to organise Anti-bullying Day/Week, aiming to guide students in applying empathy to understand the impact of bullying on others and its possible consequences, thereby raising the anti-bullying awareness of students. EDB has also launched the Harmonious School Net and the Wise NET School Recognition Scheme for inter-school sharing of information and successful experiences so as to assist schools in cultivating a harmonious and caring school culture.

We notice that there are more school bullying cases involving students with SEN in the recent two school years. Apart from carrying on with our work in guidance and discipline in schools, we will strengthen the promotion of activities related to anti-bullying and respect for others to cultivate students' respect for differences and their due attitude to get along with others. To facilitate students with SEN to integrate into their school life, EDB will also continue to encourage schools to adopt the Whole School Approach to integrated education. Through peer support programmes, circle of friends, class management activities, collaborative learning, etc., students can get to know and accept each other, and all teachers and students will respect individual differences and jointly develop an inclusive school culture. Besides, home-school cooperation is very important. We urge schools to, through parent education, encourage parents to listen patiently to their children, support them to face difficulties with a caring attitude, maintain communication with schools, and seek help from teachers, guidance personnel and social workers whenever necessary.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3033)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the expenditures on the New Funding Mode under the integrated education policy in each of the years since its implementation by tabulating the figures below:

(1) the unit cost of each type of special school in relation to the unit costs for supporting students with special educational needs and students without special educational needs studying in mainstream schools;

(2) the percentage share of the expenditure on integrated education in the overall education expenditure; and

(3) the percentage share of the expenditure on special education in the overall education expenditure.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1662)

Reply:

Under the prevailing education policy, the Education Bureau (EDB) will, subject to the assessment and recommendations of specialists and the consent of parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with special educational needs (SEN) will attend mainstream schools. The EDB has been providing regular subvention for all mainstream schools to cater for the diverse learning needs of students. All students, including students with SEN, will benefit from the support services rendered. In addition, to support mainstream schools in catering for students with SEN, the EDB has been providing schools with additional resources, professional support and teacher training. The total expenditure on additional support and

services provided for students with SEN in mainstream schools on top of regular subvention from the 2014/15 to 2018/19 school years is set out at Appendix 1. It should be noted that some of the additional resources and support services are provided for individual schools to meet the specific needs of their students with SEN (e.g. Top-up Fund for procurement of special furniture and equipment). In other words, not all schools and students with SEN are receiving the same support services and the funding involved may vary. Hence, providing the unit cost for students with SEN across all mainstream schools or the percentage share of the expenditure on integrated education in the overall expenditure of education is inappropriate. The unit cost of each subsidised place in aided primary and secondary schools from 2014-15 to 2018-19 is set out at Appendix 2.

The average unit cost of each type of special school from the 2014/15 to 2018/19 school years and the percentage share of the expenditure on special education in the overall expenditure of education from 2014-15 to 2018-19 are set out in Part I and Part II of Appendix 3.

Total expenditure on additional support and services provided for students with special educational needs studying in public sector mainstream schools from the 2014/15 to 2018/19 school years (on top of regular subvention)

School Year	Expenditure ($ million)
2014/15	1,222
2015/16	1,310
2016/17	1,392
2017/18	1,638
2018/19 (Revised Estimate)	2,012

Unit cost of each subsidised place in aided primary and secondary schools from 2014-15 to 2018-19

Financial Year	Primary School	Secondary School
2014-15	$51,645	$61,422
2015-16	$55,123	$68,703
2016-17	$57,417	$75,360
2017-18	$59,763	$80,457
2018-19 (Revised Estimate)	$63,200	$86,820

Part I

Average unit cost of each type of special school from the 2014/15 to 2018/19 school years

School Year / School Type	2014/15	2015/16	2016/17	2017/18	2018/19
Visual Impairment	$258,500	$293,000	$320,000	$359,000	$397,500
Hearing Impairment	$279,000	$293,000	$306,000	$343,500	$395,500
Physical Disability	$279,000	$294,000	$314,000	$334,000	$360,000
Mild Intellectual Disability	$171,000	$171,500	$177,000	$195,500	$211,500
Moderate Intellectual Disability	$239,500	$253,000	$260,000	$285,500	$304,500
Severe Intellectual Disability	$313,000	$329,000	$342,000	$361,500	$389,000
School for Social Development	$149,000	$164,000	$181,000	$200,000	$220,000
Hospital School	$167,500	$178,000	$186,000	$198,500	$211,000

Part II

Percentage share of the expenditure on special education in the overall education expenditure from 2014-15 to 2018-19

Financial Year	2014-15	2015-16	2016-17	2017-18	2018-19 (Revised Estimate)
Percentage Share (%)	2.8	2.9	3.3	3.3	2.7

Note:

The Government expenditure on special education is on the increase every year. For 2018-19, since certain education areas have a greater rate of increase in expenditure, the percentage share of the expenditure on special education in the overall education expenditure has a downward adjustment.

- End -

(Question Serial No. 2078)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide, in tabular form, the following information in the past 3 years: the measures for promoting humanities subjects and Moral and Civic Education in primary and secondary schools and their implementation progress, as well as the financial and manpower resources involved; and the number of teachers teaching humanities subjects and Moral and Civic Education in all primary and secondary schools in Hong Kong, the teacher-to-student ratios, as well as the amount of public funding involved.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 7)

Reply:

To support the ongoing renewal of the school curriculum at primary and secondary levels, in 2017, the Curriculum Development Council (CDC) updated the General Studies Curriculum Guide for Primary Schools (Primary 1 - Primary 6) and the Personal, Social & Humanities Education Key Learning Area Curriculum Guide (Primary 1 - Secondary 6), which cover key learning elements in different humanities subjects (including General Studies at primary level, Life and Society, Chinese History, History, Geography, etc. at secondary level) for primary and secondary schools. In 2018, the CDC has also endorsed the Revised Curriculum Frameworks of Chinese History (Secondary 1-3) and History (Secondary 1-3), which will be implemented from the 2020/21 school year onwards. Meanwhile, the Education Bureau (EDB) has included Chinese History as an independent compulsory subject at the junior secondary level so that all secondary students can learn Chinese history in a systematic manner.

Moral and civic education (MCE) has been one of the four key tasks in the school curriculum since the curriculum reform in 2001. It is an essential element of whole-person education which emphasises the cultivation of students' positive values and attitudes through the learning of various subjects and diverse learning experiences. It also develops

students' ability to identify the values embedded, analyse objectively and make reasonable judgement on different issues so that they could take proper action and make commitment when dealing with issues or challenges related to oneself, family, society, the country and the world. Among the different values, "perseverance", "respect for others", "responsibility", "national identity", "commitment", "integrity" and "care for others" are the 7 priority values and attitudes that schools should nurture in their students. By teaching subject content and selecting appropriate life events from different domains, we encourage schools to establish a meaningful connection between MCE and the daily lives of students. Through learning activities such as discussion, sharing and reflection, schools can deepen students' understanding of issues, enhance their abilities to analyse, make judgement and deal with such issues, and encourage them to apply positive values and attitudes.

To support the above measures, the EDB has been organising professional training programmes for teachers of humanities subjects. Resources are developed and school networks are established to support the implementation of Personal, Social and Humanities Education in schools. In the 2017/18 school year, the EDB provided a one-off grant of $100,000 and $150,000 to each public sector and Direct Subsidy Scheme (DSS) primary and secondary schools (including special schools) respectively for the promotion of Chinese history and culture, totalling about $125 million. For the effective implementation of MCE, the EDB has continuously provided schools with life event exemplars developed in the light of social development and organised professional development programmes to enhance teachers' professional knowledge and skills in promoting MCE. In addition, schools may flexibly deploy the annual Operating Expenses Block Grant or Expanded Operating Expenses Block Grant to promote MCE. Schools may also use the Life-wide Learning Grant to be disbursed starting from the 2019/20 school year to organise diversified experiential learning activities beyond the classroom in various curriculum areas (including the humanities, MCE, STEM education, physical and aesthetic development, etc.) to provide students with more lively and enriched learning experiences, broaden their horizons, enhance their motivation and interest in learning, and help them develop positive values and attitudes towards life. The relevant manpower resources and expenses incurred in developing curricula and learning and teaching resources and organising professional development programmes are subsumed under the overall expenditure of the EDB and no breakdown is available.

Based on the information provided by schools, the number of teachers teaching humanities subjects (including Life and Society Chinese History, History, Geography, etc. at secondary level) in public sector and DSS secondary schools (excluding special schools) in the 2015/16, 2016/17 and 2017/18 school years were 7 229, 7 231 and 7 294 respectively. Rather than being taught as a subject, MCE is the shared responsibility of teachers in the whole school. Positive values and attitudes are nurtured in students through subject learning, class teacher periods, student activities and teachers' daily interactions with students. Moreover, there are different ranks of teachers who may teach more than 1 subject. Therefore, the teacher-to-student ratio as well as the amount of public funding for individual subject are not available.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What measures have been taken to promote environmental protection and recycling in primary and secondary schools in the past 3 years? How are these measures coming along? Please also set out the financial resources and manpower involved.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 8)

Reply:

The Education Bureau (EDB) has been urging all schools to formulate and put in place their school-based environmental policy with a view to enhancing students' environmental awareness, developing their environmentally friendly attitude, practising green living, and promoting environmental education. The environment policy should lay down the school's strategies to enhance environmental education through developing school curriculum, managing school facilities and resources, organising learning activities, etc.

Relevant learning elements, including environmental protection, energy saving and green living, have been incorporated in the curricula of related subjects such as General Studies at the primary level, Geography at the secondary level and Liberal Studies at the senior secondary level. The moral and civic education curriculum of primary and secondary schools has also listed "actively practising green living and making effective use of resources (for example, recycling, recovering of waste and saving energy, etc.)" as one of the expected learning outcomes, thus enabling schools to plan their curriculum in a more systematic manner and nurture positive values and attitudes in students. To deepen students' understanding of relevant knowledge, instill in them an attitude and habit of concern for the environment and treasuring resources, and encourage them to practise green living in their daily lives, schools are also recommended to design a wide range of learning activities, such as talks, class teacher periods, visits, thematic learning weeks and inter-class

activities, with reference to their vision and school context, as well as students' interests and attributes.

For the effective implementation of environmental education, the EDB has continuously provided schools with various learning and teaching resources, including lesson plans and student worksheets based on life events such as "recycling is everyone's responsibility", "the green kiosk casebook" and "living in the global village", and organising professional development programmes for both principals and teachers to enhance their professional knowledge and skills. Furthermore, the EDB has all along been encouraging schools to launch various kinds of textbook recycling programmes, such as donating and selling second-hand textbooks and purchasing reference and story books for loaning to students, through various channels (including the EDB website, circular memorandums and teacher seminars), with a view to enhancing students' environmental awareness and reducing the financial burden of parents. As the above measures are mainly carried out by staff of the EDB, the expenditure involved is subsumed under the EDB's recurrent expenditure.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2080)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the relevant information for the past 3 years: the measures and progress of the promotion of personal development and positive education in primary and secondary schools, and the financial and manpower resources involved.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 9)

Reply:

All along, the Education Bureau (EDB) has been advocating schools to plan their curricula and other learning activities systematically and holistically, so as to provide students with holistic learning experiences conducive to their whole-person development. Learning elements related to personal development are incorporated into the related subjects of primary and secondary schools, such as General Studies at the primary level, Life and Society at the junior secondary level, and Liberal Studies at the senior secondary level. Furthermore, under the Moral and Civic Education Curriculum Framework, the expected learning outcomes for different key learning stage are specified, which include life events and issues related to "Personal Development and Health", to enable schools to help students develop positive values and attitudes through more systematic curriculum planning. Schools are also advised to integrate classroom learning with relevant other learning experiences, such as talks, visits and volunteer services. This could facilitate students to apply what they have learnt and gain authentic experience for whole-person development. To keep teachers abreast of the related knowledge and skills required for implementation, the EDB provides support to schools continuously. Such support includes the provision of professional development programmes for principals and teachers, and the production of various learning and teaching resources with life events as the learning contents. As the expenditure and manpower for learning and teaching resources development and

professional development programmes are subsumed under the recurrent expenditure of EDB, a breakdown is not available.

In line with the school curriculum, the EDB has been actively promoting diversified student development programmes, such as the "Understanding Adolescent Project" and the "Enhanced Smart Teen Project". Through these programmes, primary and secondary schools are encouraged to, by means of adventure-based, team building and problem-solving training as well as parent-child activities, enhance students' resilience, foster their positive values and attitudes, and strengthen their relationship with teachers and parents. All these facilitate students to pursue a healthy lifestyle and whole-person development. Starting from the 2019/20 school year, the EDB will allocate more resources to refine the two student development programmes mentioned above. As for the "Understanding Adolescent Project", group-based student activities and training for parents under the Intensive Programme (IP) will be further enhanced to strengthen support for students and parents. The group size under the IP will be reduced to render more appropriate services to students in need. Regarding the "Enhanced Smart Teen Project", training places will be gradually increased to benefit more students.

Moreover, the "Pupil Ambassador Scheme on Positive Living" has been launched by the EDB. Through experiential activities on life education, the Scheme assists primary and secondary schools in training up pupil ambassadors by enhancing their personal and social development as well as their problem-solving abilities. These ambassadors could then help share in school to promote the positive values of cherishing life in an optimistic life attitude.

In recent years, the EDB has implemented the "WE" Positive Dynamics Scheme based on the concepts of Positive Psychology. The Scheme aims to reduce negative emotions and enhance positive energy of students through teacher training, talks for students/parents, Personal Growth Education, class management activities, and school activities on promoting an appreciation culture, etc..

The expenditure on the above programmes in 2017-18 and 2018-19 is around $59 million and $66 million respectively, and the estimated expenditure for 2019-20 is around $75 million. As the implementation of above programmes is part of the overall student guidance work, we are unable to provide a breakdown of manpower resources involved.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2081)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please tabulate the total provision that the Government undertook to reserve for meeting recurrent and non-recurrent expenditures on education; the provision spent and related arrangements; as well as the provision unspent and related arrangements in each of the past 3 years.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 10)

Reply:

The total provision that the Government has reserved for meeting recurrent and non-recurrent expenditures on education in each of the past 3 years is tabulated below:

Financial Year	Recurrent Expenditure	Non-recurrent Expenditure	Total Provision
2016-17	-	-	-
2017-18	$5 billion	$18.7 billion	$23.7 billion
2018-19	$2 billion	-	$2 billion

In 2017-18, the Financial Secretary reserved a provision of $18.7 billion for meeting the non-recurrent expenditure on education. The Education Bureau (EDB) has used $500 million of the provision to implement suitable projects under the T-excel@hk strategic work plan of the Committee on Professional Development of Teachers and Principals and various measures to enhance the professional development of teachers and principals over a ten-year period starting from the 2018/19 school year. The EDB has also injected $3 billion into the Research Endowment Fund (REF) in 2018. The investment return of the injection will be used to provide non-means-tested tuition fee waiver to local students enrolled in University Grants Committee-funded research postgraduate programmes. Moreover, the EDB has accepted the recommendation of the Task Force on Review of

Research Policy and Funding to inject $20 billion (of which $15.2 billion comes from the balance of the reserved non-recurrent provision) into the REF in 2019.

Upon taking office, the current-term Government has reserved $5 billion recurrent funding for education, and reserved an additional recurrent funding of $2 billion in the 2018-19 Budget to further implement quality education. Starting from the 2017/18 school year, the EDB has implemented a series of education improvement measures involving $3.6 billion. The EDB will use the balance of the reserved provision to take forward the following new initiatives starting from the 2019/20 school year:

(i) Implementing the all-graduate teaching force policy in public sector primary and secondary schools (including special schools) (full-year impact: additional provision of about $1.5 billion);

(ii) Providing a recurrent Life-wide Learning Grant for public sector schools to promote life-wide learning with enhanced efforts (full-year impact: additional provision of about $900 million); and

(iii) Improving various support initiatives under the Integrated Education policy (full-year impact: additional provision of about $800 million).

The EDB will make effective use of the balance of the reserved recurrent funding to provide necessary resources for nurturing our next generation.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2082)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise of the total numbers of primary and secondary students and teachers that participated in Mainland exchange activities and the percentage that these student participants accounted for in total student population in the past 3 years. Please also provide figures on the distribution of provinces and cities involved in these exchange activities. Next year, will the Government allocate additional resources for organising more Mainland exchange activities in the Greater Bay Area to enhance the understanding of our nation among local students and teachers?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 11)

Reply:

The Education Bureau (EDB) organises Mainland exchange programmes for students, or subsidises those organised by schools every school year. These programmes cover different provinces and cities in the Mainland, including 22 provinces, 4 autonomous regions and 4 municipalities. Students' participation is on a voluntary basis. The EDB does not collect information about individual students' participation in Mainland exchange programmes, and does not have the percentage of students who have or have not participated in such programmes. The numbers of primary and secondary school students receiving subsidies for Mainland exchange programmes in the past 3 years (the 2016/17, 2017/18 and 2018/19 school years) are as follows:

School Year	Number of Students (rounded down to the nearest hundred)	
	Secondary Students	Primary Students
2016/17	35 300	24 500
2017/18#	40 200	26 800
2018/19+	40 200	33 600

Actual figures revised from last year's estimates
+ Provisional figures

Teachers participate in the aforesaid Mainland exchange programmes as learning facilitators according to the "1 teacher : 10 students ratio". Besides, the EDB also organises various professional exchange programmes for teachers. The numbers of participants in the past 3 years are as follows:

School Year	Number of Teachers (rounded to the nearest ten)
2016/17	690
2017/18#	760
2018/19+	1 800

Actual figures revised from last year's estimates
+ Provisional figures

For the 2019/20 school year, the EDB has allocated a budget of $115 million for providing students with adequate Mainland exchange opportunities and $13.2 million for organising various professional exchange programmes for teachers on a continuous basis. These exchanges will cover trips to different provinces and cities in the Mainland, including more exchange opportunities for students and teachers in the Greater Bay Area.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2083)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What were the expenditures and specific arrangements involved in supporting higher education institutions from Guangdong, Hong Kong and Macao in jointly operating education institutions in the past 3 years? What additional resources will be deployed in the coming year to support higher education institutions from Guangdong, Hong Kong and Macao in jointly operating education institutions, as well as the joint development of academic programmes, laboratories and research centres in the Greater Bay Area?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 12)

Reply:

The Education Bureau (EDB) supports universities and institutions of Hong Kong in making use of incomes from self-financing activities and private donations to offer education services in the Greater Bay Area, and to give full play to the characteristics of Hong Kong's higher education sector and its strength in terms of internationalisation. Many Hong Kong post-secondary institutions are already carrying out different forms of collaboration with Mainland institutions in cities of the Greater Bay Area. Among them, the United International College in Zhuhai was jointly founded by the Hong Kong Baptist University (HKBU) and Beijing Normal University as early as 2005. The Chinese University of Hong Kong (CUHK) partnered with Shenzhen University to establish the Chinese University of Hong Kong (Shenzhen) in 2014. In December 2018, the Guangzhou Municipal People's Government, Guangzhou University and The Hong Kong University of Science and Technology (HKUST) signed an agreement in Guangzhou to jointly establish Hong Kong University of Science and Technology (Guangzhou). Hong Kong post-secondary institutions have also been working closely with Mainland institutions in research. As at end November 2018, institutions of Hong Kong have engaged in over 300 collaborative academic research projects with institutions of Guangdong Province and Macao. In addition, six Hong Kong post-secondary institutions (including The City University of Hong Kong, HKBU, CUHK, The Hong Kong Polytechnic University,

HKUST and The University of Hong Kong) have set up Industry, Academic and Research Bases or research institutes in Shenzhen to step up research and development (R&D) cooperation with Mainland institutions. The offering of education services and setting up of research institutes in the Mainland belong to the self-financing activities of Hong Kong post-secondary institutions and do not involve any form of public funding.

In addition, the Memorandum of Understanding on Strengthening Higher Education Cooperation between Guangdong and Hong Kong signed between the EDB and the Education Department of Guangdong Province in November 2017 has further deepened and strengthened the cooperation of Guangdong and Hong Kong in high-level R&D projects, sharing and conversion of scientific research findings, as well as academic exchanges and collaborations. As the support to universities and institutions of Hong Kong in providing education services in the Bay Area is part of the day to day work of the EDB, we are unable to provide a breakdown of the expenditure involved.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2084)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What were the expenditures and specific arrangements involved in the promotion of cooperation in vocational education in Guangdong, Hong Kong and Macao in areas such as student admissions, employment, training and development, exchanges of teachers and students as well as skills competitions in the past 3 years? Please provide a list of projects that involve Hong Kong and Macao jointly operating education institutions with their Mainland counterparts, as well as exchange and collaboration programmes among various training bases for vocational education in the Greater Bay Area.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 13)

Reply:

The Vocational Training Council (VTC) has all along been collaborating closely with the vocational education and training institutions in Guangdong. Joint programmes include the Higher Diploma in Electrical Engineering (Electrical Services) programme offered with Shenzhen Polytechnic and the Bachelor's Degree in Food Quality and Safety programme offered with Jinan University, Guangzhou. Also, the VTC has, through different channels, recruited students from the Mainland to pursue local studies in its member institutes in recent years.

The Institute of Professional Education and Knowledge under the VTC provides in-service training for vocational institutions, primary and secondary schools, as well as divisions of municipal governments in the Mainland. A total of 39 joint projects were completed in Macao and a number of cities within the Greater Bay Area (including Guangzhou, Shenzhen, Zhuhai, Foshan, Dongguan, Zhongshan and Zhaoqing) in the past 3 years, covering such areas as vocational and professional education and training, training for public officers, training for primary and secondary school teachers, and corporate training.

The VTC also encourages its students to participate in Mainland exchange activities of long or short duration, so as to learn about the latest development of our country. Regarding work placement, students from VTC have joined internship programmes offered by enterprises in Guangzhou, Dongguan, Shenzhen, Zhongshan and Zhuhai.

In respect of skills competition, Guangzhou, Hong Kong, Macao and Chengdu take turns to organise the Guangzhou/Hong Kong/Macao/Chengdu Youth Skills Competition very two years. The Competition seeks to provide young people with opportunities to exchange professional skills and share experiences, thereby promoting skills education and enhancing the social status of technicians.

In collaboration with Mainland authorities, the VTC also conducts testing of occupational skills and examinations under the One Examination, Multiple Certification System. Candidates may have their qualifications recognised by Hong Kong, Mainland, and international professional organisations if they pass a common examination.

The VTC does not maintain separate figures on resources dedicated to promoting the cooperation in vocational education in Guangdong, Hong Kong and Macau.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2085)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise on the numbers of primary and secondary schools that have formed sister schools with their counterparts in the Mainland, with a breakdown by province and municipality, and the number of participants from various schools that have participated in the exchange activities under the Sister School Scheme in the past 3 years. Will the Administration allocate more resources in the coming year to enhance exchanges and cooperation in basic education, and encourage primary and secondary schools of Guangdong, Hong Kong and Macao to form sister schools? What will be the amount of financial resources and support dedicated to setting up schools or operating classes with boarding service for Hong Kong and Macao children in Guangdong in the coming year?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 14)

Reply:

The Education Bureau (EDB) launched the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme) from the 2015/16 to 2017/18 school years, under which a fixed grant of $120,000 per annum and professional support were provided for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. The number of schools participating in the Pilot Scheme and the number of participation in exchange activities are tabulated below:

School year	Secondary school	Primary school	Special school	Total no. of schools	No. of participation in exchange activities*
2015/16	150	139	13	302	6 960
2016/17	223	228	20	471	51 640
2017/18	250	260	25	535	69 280

* Figures are rounded to the nearest ten.

The Government has regularised the Pilot Scheme with effect from the 2018/19 school year to provide a recurrent grant (which is set at $150,000 for the 2018/19 school year and the amount of grant will be adjusted in accordance with the movement of the Composite Consumer Price Index each year) and professional support for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. As at March 2019, 626 local schools have applied for the Grant for the Sister School Scheme. Applications are open all year round. It is anticipated that there will be about 700 participating primary, secondary and special schools in the 2018/19 school year.

Apart from forming sister schools with their counterparts in the Mainland through the coordination of the EDB, local schools may also form sister schools with their counterparts in the Mainland on their own initiative through other means. The EDB does not require schools to report the information on their sister schools formed via their own networks or require the schools participating in the Pilot Scheme to provide information on all their sister schools in the Mainland. According to the information submitted by schools that have applied for the Grant for the Sister School Scheme for the 2018/19 school year (as at March 2019), 626 local schools have paired up with their counterparts in the Mainland as 1 600 pairs of sister schools (with some local schools pairing up with more than one Mainland school as sister schools). The distribution of the provinces/municipalities to which these Mainland sister schools belong is as follows:

Province/Municipality	No. of pairs of sister schools	Province/Municipality	No. of pairs of sister schools
Guangdong Province	808	Beijing Municipality	219
Zhejiang Province	169	Shanghai Municipality	84
Sichuan Province	54	Fujian Province	43
Jiangsu Province	33	Shaanxi Province	25
Hubei Province	24	Shandong Province	15
Guizhou Province	15	Yunnan Province	13
Henan Province	12	Guangxi Zhuang Autonomous Region	11
Jilin Province	10	Hunan Province	10
Hainan Province	8	Liaoning Province	8
Tianjin Municipality	6	Jiangxi Province	6
Shanxi Province	5	Chongqing Municipality	4
Gansu Province	3	Anhui Province	3
Hebei Province	3	Ningxia Hui Autonomous Region	3
Inner Mongolia Autonomous Region	2	Qinghai Province	2
Heilongjiang Province	2		

The EDB will continue to provide assistance to local schools to form sister schools in the Mainland to promote more in-depth professional exchange and multi-faceted collaboration,

with a view to enhancing the quality and quantity of sister school exchanges, and hence facilitating cultural exchange and increasing teachers' and students' knowledge and understanding of the Mainland.

Regarding the setting up of schools for Hong Kong children in various cities in the Greater Bay Area, the EDB is collecting views of school sponsoring bodies in Hong Kong about their interest and concerns. As it is still at the stage of exploration and discussion, the EDB is unable to provide any information on the related financial resources or support.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2086)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the implementation of the Paid Non-local Study Leave Scheme for Secondary School Teachers, please advise of the number of participating teachers in each of the past years, the amount of grant per teacher, the places and institutions of study, and training contents. Please also advise whether the effectiveness of the scheme in enhancing teaching quality has been assessed?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 15)

Reply:

The Education Bureau (EDB) launched the "i-Journey" Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. Participating teachers will be given 7 to 9 weeks' paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research. The first batch of the Scheme commenced in the 2017/18 school year, with the participation of 50 secondary teachers in total. For the second batch, it starts in the 2018/19 school year, with the participation of 40 secondary teachers in total.

The details of the Scheme are as follows:

2017/18 school year (First Batch of the Scheme)			
Destination	Institution	Subjects/Areas covered in the training	No. of teachers
Helsinki & Jyväskylä, Finland	University of Jyväskylä	Interdisciplinary Learning & Entrepreneurship Education	15
Melbourne, Australia	Deakin University	Catering for Students with Special Educational Needs (SEN)	20
Exeter, the United Kingdom	University of Exeter	STEM Education	15

2018/19 school year (Second Batch of the Scheme)			
Destination	Institution	Subjects/Areas covered in the training	No. of teachers *Provisional figures
Turku, Finland	University of Turku	Interdisciplinary Learning & Entrepreneurship Education	15
Southampton, the United Kingdom	University of Southampton	Assessment Literacy	15
Singapore	National Institute of Education, Nanyang Technological University	STEM Education	10

Programmes offered in different places may have different content and hence the expenditures vary. On the whole, the cost for each participating teacher in the first batch of the Scheme ranged from around $90,000 to $130,000. With the expenditure on employment of supply teachers taken into account, the cost for each participating teacher would range from around $130,000 to $180,000. Since the items for the second batch of the Scheme have yet to be finalised, expenditure figures are unavailable at the present stage.

The EDB will monitor the implementation of the Scheme at different stages and collect data and information to review its effectiveness. Upon completion of the three-year pilot Scheme, an evaluation report will also be compiled. For teachers participating in the first batch of the Scheme, they are now implementing the initiatives/research proposals drawn up for their schools. The EDB will scrutinise the reports submitted by these teachers and collect their views as well as those of school principals through questionnaire and interview in order to assess the effectiveness of the Scheme.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2088)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau will provide public sector and Direct Subsidy Scheme primary and secondary schools with additional resources starting from the 2019/20 school year to strengthen the administrative support for schools and their management committees with a view to strengthening school-based management and reducing the administrative work of teachers and principals. Please provide details of the provisions, and tabulate the manpower to be created and the estimated number of students and schools that will benefit from such an initiative.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 17)

Reply:

Starting from the 2019/20 school year, the Government will provide all public sector schools (including special schools) and schools under the Direct Subsidy Scheme (DSS) with additional resources to strengthen the administrative support for schools and their management committees. About 1 000 schools will benefit from the initiative, and the additional expenditure involved is around $570 million each year. Students studying in public sector schools and DSS schools will benefit from the initiative.

The Education Bureau (EDB) will implement the "One Executive Officer for Each School" policy in public sector schools and DSS schools starting from the 2019/20 school year. These schools will be provided with resources for hiring additional administrative manpower. We expect that the increased administrative manpower will help reduce the administrative work of teachers and principals so that they could focus more on teaching and taking care of students' development, enabling schools to review their school-based administrative arrangements and requirements, streamline administrative procedures, and strengthen school administrative support and efficacy, thereby enhancing the quality of school management. Schools are required to recruit at least one full-time School

Executive Officer (School ExO) with a local bachelor's degree (or equivalent), regardless of whether they choose to create a regular School ExO post or receive the School Executive Officer Grant (SEOG). Schools receiving the SEOG may procure school administration-related service from service provider(s) which should include the provision of at least one full-time school-stationed School ExO with a recognised degree.

Besides, the EDB will provide recurrent subvention for the above schools to support the operation of their management committees, such as organising meetings and election of school managers, and strengthening training for school managers/members of management committees. In the 2019/20 school year, the subsidy for each public sector school will be $50,000 per year. Relevant details will be announced in due course.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2089)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau will rationalise the salaries for school heads and deputy heads in public sector primary schools, and continue to support the work of the task force set up to review the school-based management policy and its implementation with a view to enhancing the management quality of primary schools. Please set out the estimated expenditure involved, the number of school heads benefitting from the initiative, and the key tasks of the task force.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 18)

Reply:

In the Policy Address delivered in October 2017, the Chief Executive proposed to set up various task forces to carry out in-depth reviews on 8 key areas of education, including the professional development of teachers and implementation of school-based management. To follow up on the proposal, 2 task forces were set up to study the professional development of teachers and school-based management respectively in November 2017.

The Task Force on Professional Development of Teachers is tasked to study feasible options for establishing a professional ladder for teachers; the ranking arrangement of school management in primary, secondary and special schools; and the timetable for an all-graduate teaching force. The Task Force held a 2-month public consultation on its preliminary recommendations from July to September 2018. As the early implementation of the all-graduate teaching force policy gained wide support during the consultation, the Task Force first submitted the relevant recommendations to the Government for consideration in late September 2018. Accepting the recommendations, the Chief Executive announced in her 2018 Policy Address that the Government would implement in one go the all-graduate teaching force policy in public sector primary and secondary schools in the 2019/20 school year. Schools may, taking into account their school-based

circumstances, achieve full implementation in 2 years. In tandem with the full implementation of whole-day schooling and the all-graduate teaching force policy in primary schools, the Government plans to improve the manpower at the middle management level and rationalise the salaries for school heads and deputy heads in public sector primary schools with a view to raising the management quality of primary schools as well as retaining and attracting talents, so as to further enhance the quality of education. The Task Force has put forward recommendations to the Government in respect of these 2 areas. The Government after consideration consulted the Legislative Council Panel on Education on 29 March 2019, and will submit the funding proposal to the Establishment Subcommittee and Finance Committee in due course. If the proposal to rationalise the salaries for school heads and deputy heads in public sector primary schools is approved, it is estimated that the annual additional expenditure involved will be around $210 million. The number of school heads and deputy heads in public sector primary schools who stand to benefit from the initiative will be over 1 250.

The Task Force on School-based Management Policy is tasked to study measures for optimising the school-based management policy; strengthening the administration capabilities of schools; and streamlining school administrative arrangements, thereby unleashing capacity for the education sector. After studying the current implementation of the school-based management policy in aided schools, the Task Force consulted the education sector and stakeholders on its preliminary recommendations between June and September 2018. Since the recommendation on dedicating additional resources to strengthening the administrative support for schools was widely supported by the stakeholders, the Task Force recommended the Government to first implement the relevant measures. The Government accepted the recommendation and the Chief Executive announced in her 2018 Policy Address that, starting from the 2019/20 school year, all public sector schools (including special schools) and schools under the Direct Subsidy Scheme (DSS) would be provided with additional resources to strengthen the administrative support for schools and their management committees, including providing additional administrative manpower and strengthening training for school managers. We expect that the increased administrative manpower will help reduce the administrative work of teachers and principals so that they can focus more on teaching and taking care of student development, and at the same time, enable schools to review their school-based administrative arrangements and requirements, streamline administrative procedures and strengthen school administrative support and capabilities, thereby enhancing the quality of school management. The additional expenditure involved is around $570 million each year and the total number of public sector and DSS schools benefitting from the initiative will be around 1 000 (including some 480 primary schools).

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2090)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) will continue to allow schools to convert the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts to enhance the implementation of the senior secondary curriculum and strengthen life planning education and related guidance services. With effect from the 2019/20 school year, these posts converted from the 2 grants will be included in the calculation of promotion posts. Full conversion of the 2 grants into regular posts will be achieved in the 2022/23 school year. Has the EDB estimated the number of regular teaching posts to be increased and the number of schools that will benefit from the said arrangement?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 19)

Reply:

To provide more stable teaching manpower for schools to enhance the implementation of the senior secondary curriculum and strengthen life planning education and related guidance services, schools are allowed to convert the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts from the 2016/17 school year. After considering schools' implementation of the policy and the views of the sector, the Education Bureau has decided to further enhance the measure. With effect from the 2019/20 school year, the regular teaching posts converted from the 2 grants will be counted towards the calculation of promotion post entitlement in order to strengthen the middle management manpower for taking relevant education initiatives forward, and the 2 grants will be converted into regular teaching posts across the board in the 2022/23 school year. From the 2016/17 school year to the across-the-board conversion of the 2 grants into regular teaching posts, it is expected that around 950 graduate teacher posts will be provided. All public sector secondary schools (including special schools) operating senior secondary classes will benefit from the policy. It is estimated that there will be about 440 eligible schools in the 2019/20 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2091)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Is there any long-term policy to promote paperless classroom? While the Government has promoted e-learning for years, e-textbooks are not widely used in schools. Is there any plan to optimise the use of information technology in class?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 20)

Reply:

The Education Bureau (EDB) launched the Fourth Strategy on Information Technology in Education (ITE4) to enhance schools' information technology (IT) environment in terms of hardware, resources and teacher training, thus enabling schools to devise school-based plans for practising e-learning in the light of their school contexts and development needs, so as to make good use of IT to enhance learning and teaching effectiveness. As part of EDB's efforts to promote e-learning, schools are encouraged to use the right technology in teaching and learning at the right time when considering whole school planning and use of IT for teaching. The promotion of e-textbook development aims to provide schools with another option of quality learning and teaching resources in addition to printed textbooks. As one of the many learning modes, e-learning, which is ever evolving and diversified in nature, is an open and flexible mode of learning. There is no so-called best practice or standard which schools should follow. E-learning measures are not necessarily more effective than conventional measures in every case. As such, schools are not compelled to follow any fixed standards or practices. In fact, all along schools should exercise professional judgment, in selecting and adopting suitable learning and teaching resources (including e-textbooks and other electronic learning resources) that suit students' needs and school contexts so as to cater for learner diversity. The EDB will continue to strengthen teachers' professional capabilities in using e-textbooks and other e-learning resources through professional development programmes, learning communities, school visits, etc.

To continuously enhance various support measures under the ITE4, we have been reviewing the progress and effectiveness of relevant measures through different means such as school visits, questionnaire surveys and case studies. Schools hold a positive view towards e-learning and generally agree that it is conducive to strengthening the learning motivation and self-directed learning ability of students. The EDB will continue to keep in view schools' needs for support in the implementation of e-learning.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2092)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Administration will regularise the Pilot Training and Support Scheme with the quota increased to 1 200 per cohort and the monthly government subsidy increased by $500 per student per month. How many students and schools benefited from the Scheme in the past 3 years? The Administration will also introduce a new pilot incentive with a non-recurrent funding of $108 million to employers participating in the workplace assessment under the Scheme for 3 years from 2019-20 to 2021-22. Please advise the detailed funding arrangement.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 21)

Reply:

The Government has implemented the Pilot Training and Support Scheme (the Scheme) through the Vocational Training Council (VTC) since the 2014/15 academic year. Under the collaboration of the Government and participating industries, the Scheme has integrated structured apprenticeship training and clear career progression pathways, so that young people can learn professional knowledge and skills while obtaining a stable income. As at 28 February 2019, the Scheme has benefited more than 4 600 trainees.

The Education Bureau will regularise the Scheme from the 2019/20 academic year. To evaluate trainees' abilities and performance in the workplace more effectively, the VTC will introduce a three-year pilot incentive to employers participating in workplace assessment under the Scheme as the Scheme is regularised. The incentive seeks to encourage employers who have joined the Scheme to participate in workplace assessment for trainees to facilitate training content adjustment more effectively for improving trainees' work performance. Given that employers need to allocate resources for trainees, arrange equipment to assess trainees' abilities and take part in specific assessment, the Government will provide employers participating in the pilot incentive with a maximum subsidy of

$36,000 (per trainee). Industries that are taking part in the pilot incentive include electrical and mechanical engineering and construction, printing, automobile, watch and clock, testing and certification, and aviation.

Question:

The Administration has implemented the industry attachment programme to enhance students' employability. What are the specific arrangements and provisions of the programme? How many students and schools are expected to be benefited from the programme?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 22)

Reply:

With the Government's one-off funding support of $43 million in 2012-13, the Vocational Training Council (VTC) had launched a 2-year pilot programme to support industrial attachments for students pursuing subvented Higher Diploma programmes in the 2012/13 and 2013/14 academic years. The pilot programme indicates that industrial attachments help bridge classroom/workshop instruction and actual workplace requirements and thus greatly enhance students' employability. Given the effectiveness of the programme, recurrent funding of about $18 million has been allocated to the VTC annually starting from the 2014/15 academic year to provide industrial attachment opportunities mainly for students pursuing subvented Higher Diploma programmes and certain Diploma of Vocational Education programmes. About 9 000 students in the VTC will benefit every year and the same applies to the 2019/20 academic year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2094)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Administration will continue to implement the Pilot Subsidy Scheme for Students of Professional Part-time Programmes, while expanding its scope to cover students undertaking creative industries programmes. Please provide details of the funding arrangement, including the amount of funding and the numbers of students and schools expected to benefit from it.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 23)

Reply:

To encourage the public to pursue continuing education, the Government has implemented the Pilot Subsidy Scheme for Students of Professional Part-time Programmes (the Pilot Scheme) to provide tuition fee subsidy for a total of 5 600 students in 3 cohorts from the 2016/17 academic year admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology. The amount of subsidy is capped at $45,000 per person, and the total commitment for the Pilot Scheme is $200 million.

The Government will continue to implement the Pilot Scheme with an additional funding of $234 million (i.e. increase total commitment to $434 million) to benefit another 5 600 students admitted to the above programmes from the 2019/20 to 2021/22 academic years. In addition to programmes that belong to the above-mentioned categories, the scope of the Pilot Scheme will be expanded to cover creative industry programmes offered by the VTC, providing tuition fee subsidy to 2 500 practitioners in the creative industry. The amount of subsidy is capped at $36,000 per person. The funding will be used to meet the payment of tuition fee subsidy and cover the VTC's administrative costs for implementing the Pilot Scheme.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2095)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the number of reported cases of school bullying and cyber-bullying received by the Education Bureau (EDB) in each of the past 3 years, and an update on the progress of these cases. Will the EDB step up its current policy initiatives to combat school bullying and cyber-bullying in a more effective manner and provide victims with better support? If yes, what are the specific arrangements, as well as the expenditure and manpower involved? Will additional resources be allocated for this purpose?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 24)

Reply:

Based on the information retrieved from the EDB's annual questionnaire surveys on guidance and discipline cases in public sector primary and secondary schools, the number of student cases involving school bullying and cyber-bullying in the past 3 school years (i.e. from the 2015/16 to 2017/18 school years) is tabulated below. Given the uniqueness of each case, it is not possible to handle all cases with standard procedures and difficult to indicate their progress with statistics. Thus the EDB has not collected information on the progress of case-handling and therefore the required information is not available.

School year	2015/16	2016/17	2017/18 (Note)
Number of student cases involving school bullying	204	124	202
Number of student cases involving cyber-bullying	-	-	54

Note: Starting from the 2017/18 school year, cyber-bullying is added as a separate category. Cyber-bullying cases are therefore not included in the 202 cases of school bullying.

The EDB will not tolerate any act of bullying (including cyber-bullying) in schools. All along, we have been maintaining close contact with schools through circulars, guidelines and training, requiring all of them to take the matter seriously and implement proactive measures to ensure the safety of students at school and strive to create a harmonious school environment which is conducive to students' learning by raising the awareness of anti-bullying among students and staff and handling bullying incidents in schools in an appropriate manner.

Regarding the handling of school bullying and cyber-bullying, if there are bullying (including cyber-bullying) incidents, schools should intervene and take follow-up action as soon as possible, taking education, guidance and protection of their students as their prime concern. In the process of handling these cases, schools have to work together with parents to help students involved rectify their behavioral problems and better protect the students being bullied. If suspected abuse is involved, schools may consult the Social Welfare Department (SWD) so that case referral and counselling services can be provided. For serious cases, schools should report them to the Police immediately to seek assistance. The EDB will liaise with schools, the SWD and the Police on appropriate ways to handle cases.

Schools are equipped with professionals, including guidance personnel, school social workers and school-based educational psychologists, etc., who provide necessary support and mediation service for students in need. To strengthen schools in better catering for the needs of students (including the students being bullied), the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" as soon as possible according to school-based circumstances. It is estimated that the annual additional recurrent expenditure in ordinary primary schools is around $111 million. Starting from the 2019/20 school year, the Government will implement the policy of "two social workers for each school" and enhance supervisory support in over 460 secondary schools in the territory. The additional full year recurrent provision involved will be around $313 million.

Moreover, the EDB attaches great importance to the prevention of school bullying. At the curriculum level, learning topics like personal growth, interpersonal relationships and protecting oneself are covered in the Key Learning Areas, subjects and the curricula of moral and civic education of primary and secondary schools, with a view to helping students develop positive values and attitudes, such as empathy and respect for others, and acquire skills of conflict resolution and establishing harmonious interpersonal relationships. The framework on "Information Literacy for Hong Kong Students" is also provided for schools to guide students in using information and communication technology effectively and ethically, and refusing to engage in any improper acts like cyber-bullying. Besides, we have provided relevant professional development programmes for teachers and an information kit for reference by schools in undertaking parent education in this regard. Moreover, through organising seminars, the EDB helps parents develop proper attitudes of their children in using information technology in daily life and study. A telephone hotline has also been set up to provide individual support for parents, teachers and students in need. As the above work forms part of the curriculum tasks and the overall information technology education, separate figures on the financial resources and manpower required are not available.

As regards school activities, the EDB has organised diversified programmes on student growth for schools, such as the "Understanding Adolescent Project (Primary)", "Pupil Ambassador Scheme on Positive Living" and "Enhanced Smart Teen Project" , to promote the spirit of caring, respect and self-discipline. Starting from the 2011/12 school year, the EDB has launched the Harmonious School – Anti-bullying Campaign. Teaching resources, an anti-bullying charter and promotional materials are provided for schools for organising their own Anti-bullying Day/Week, with the aim of guiding students to understand the impact of bullying on others and its possible consequences with empathy, thus raising their anti-bullying awareness. Student Peace Ambassadors are also trained to acquire skills on peer mediation, so that they can assist in resolving conflicts on campus. The EDB has recently launched the Harmonious School Net and the Wise NET School Recognition Scheme for inter-school sharing of information and successful experience, with a view to minimising the occurrence of bullying incidents. The expenditure of the above programmes in 2018-19 is about $66 million. The EDB will review the implementation of these programmes and increase the provision of resources when necessary.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise on the number of sexual harassment cases in schools received in each of the past 3 years and the progress of handling these cases. Will the Government enhance the existing policy measures to curb sexual harassment in schools more effectively and strengthen the support for victims? If yes, what are the specific arrangements, and the financial resources and manpower involved? Will more resources be allocated by the Government?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 25)

Reply:

The Education Bureau (EDB) has been taking various measures to assist schools in creating a sexual-harassment-free working and learning environment. In respect of policy, the EDB works with the Equal Opportunities Commission (EOC) in providing guidelines to help schools formulate measures for elimination and prevention of sexual harassment and develop procedures for handling related complaints. Schools are advised to take reasonably practicable steps, including developing a school policy in written form to eliminate sexual harassment and raise the understanding and awareness of teaching staff and students about sexual harassment. Moreover, to ensure the safety of students, the EDB has reminded schools through circular that they should request prospective employees to undergo Sexual Conviction Record Check (SCRC) at the advanced stage of the employment process.

In respect of curriculum, learning elements related to sex education, such as personal development, protection of body and gender equality, are included in the curricula of Key Learning Areas, subjects and moral and civic education of primary and secondary schools.

We have also produced web-based learning and teaching resources on topics such as prevention of sexual abuse and sexual harassment, and organised relevant professional development programmes for teachers to support schools in implementing sex education. The EDB also encourages schools to organise preventive and developmental guidance activities on sex-related issues for students at weekly assemblies or in class-teacher periods.

Regarding the professional development and training of teaching staff, the EDB has included the knowledge on and techniques for handling and preventing sexual harassment in various training programmes organised for school principals, middle managers and teachers, so as to raise the alertness of schools and teaching staff to sexual harassment. The EDB also co-organises with the EOC thematic talks on policy on eliminating sexual harassment for school management staff from time to time. Furthermore, to raise the awareness of teachers and social workers of protecting students from sexual abuse or harassment, the EDB holds talks or seminars on helping affected students through early identification, intervention and support every year.

To protect student safety, schools must report and submit relevant information to the EDB for follow-up actions if the sexual harassment cases in schools being handled involve inappropriate behaviour, serious misconduct, or suspected child sexual abuse committed by teaching staff. For cases suspected to involve criminal offence, schools should report them to the Police. If any teacher is convicted of a serious offence (including sexual offence, especially if the victim is a child or his/her student) or commits an act of serious misconduct (e.g. his/her conduct may pose serious risks to the safety and well-being of students), the EDB will cancel or refuse his/her teacher registration. As stipulated in the Education Ordinance, unless with the permission in writing of the Permanent Secretary for Education, the teacher concerned shall not enter or remain in any school. For students involved in sexual harassment cases in schools, professional staff in schools, including student guidance personnel, school social workers, and school-based educational psychologists, will provide support, follow-up and referral service in their professional capacity as appropriate.

Considering that related work on prevention of sexual harassment in schools is integrated in different curricula and activities, and the professional development and training of teaching staff and handling sexual harassment cases in schools currently form part of the regular responsibilities of the relevant divisions of the EDB, the EDB has not separately earmarked provision for the work in this regard and the expenditure involved has been subsumed under the overall expenditure of the EDB. The EDB will, on an ongoing basis, review the measures and efforts on prevention of sexual harassment in schools and seek enhancement when appropriate.

As for post-secondary education, all post-secondary institutions in Hong Kong are independent and autonomous bodies and they, same as other organisations and associations in Hong Kong, have an obligation to take reasonable and practical steps to prevent sexual harassment on campus, including laying down a relevant policy in writing and setting up a mechanism to handle complaints about sexual harassment. To our understanding, all post-secondary institutions have developed policies for preventing and handling sexual harassment and put in place a complaint-handling mechanism and relevant procedures to ensure that every case is handled in a serious and impartial manner.

The number of sexual harassment cases in primary and secondary schools received by the EDB in the 2015/16, 2016/17 and 2017/18 school years are 10, 10 and 13 respectively. The EDB has finished handling 32 of these cases, while 1 case is being processed. Figures on sexual harassment cases in post-secondary institutions are not available.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2019/20 school year, the Government will increase recurrent funding for Federations of Parent-Teacher Associations and Parent-Teacher Associations of schools by about $30 million which will serve as additional resources for organising more community-based and school-based parent education programmes or activities. In this connection, please advise this Committee of the specifics of the related funding arrangement, the respective numbers of parents and schools to be benefited from this initiative, the number of additional parent education programmes or activities to be organised, as well as the contents of such programmes or activities. Does the Government plan to step up parent education with a view to enhancing their awareness of and abilities in handling cyberbullying and other issues, as well as mental illness such as "gaming disorder"?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 26)

Reply:

Parents play a vital role in the development and learning of their children. To enhance home-school co-operation and promote parent education, the Education Bureau (EDB) will, starting from the 2019/20 school year, provide additional resources for Federations of Parent-Teacher Associations (FPTAs) and Parent-Teacher Associations (PTAs) of schools. From the 2019/20 school year, the number of parent activities that each FPTA can apply for under the Subsidy for Home-School Co-operation Activities will be increased from 3 to 4. The EDB will also introduce the Subsidy for Joint Cross-district Parent Activities. Each FPTA may apply for this subsidy for organising 1 cross-district parent activity with other FPTAs. As for PTAs, the ceiling of the Subsidy for Home-School Co-operation Activities and the Subsidy for Joint Home-School Co-operation Project will be increased from $5,000 and $10,000 to $10,000 and $20,000 respectively. To encourage kindergartens (including kindergarten-cum-child care centres) to set up PTAs to foster home-school co-operation, the amount of subsidy that each kindergarten may apply for under the Set Up Grant will be

increased from $5,000 to $10,000 while the Annual Grant will be increased from $5,474 to $10,948.

The EDB encourages FPTAs and PTAs to make use of the additional resources to organise more activities with a view to strengthening home-school co-operation and enhancing parent education. These activities may include parent education programmes and parent-child activities, which could help parents grasp and handle issues relating to cyberbullying and addiction to electronic games. The above arrangements will benefit FPTAs in the 18 districts, kindergartens, kindergarten-cum-child care centres, primary, secondary and special schools, as well as their parents.

Director of Bureau: Secretary for Education

Question:

What policy measures will the Government adopt to encourage recycling and reusing resources in schools (for examples, sharing textbooks, recycling and reusing school uniforms and books, etc.) with a view to promoting environmental protection in local communities and reducing waste? What is the related financial input from the Government?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 27)

Reply:

The Education Bureau (EDB) has been urging all schools to formulate and put in place their school-based environmental policy with a view to enhancing students' environmental awareness, developing their environmentally friendly attitude, practising green living, and promoting environmental education. The environmental policy should lay down the school's commitment to regulatory compliance, prevention of pollution, continual improvement on environmental management (including waste reduction and energy saving), and the promotion of environmental protection among all members of the school.

In addition, the EDB attaches importance to developing students' environmentally friendly attitudes and habits among students, and has incorporated relevant learning elements, including environmental protection, energy saving and green living, in the curricula of related subjects such as General Studies at the primary level, Geography at the secondary level, Liberal Studies at the senior secondary level, and the moral and civic education curriculum. To deepen students' understanding of relevant knowledge, instill in them an attitude of concern for the environment and treasuring resources, and help them develop environmentally friendly living habits through authentic experiences, schools are also recommended to design a wide range of learning activities, such as talks, class teacher

periods, visits, thematic learning weeks and inter-class activities, with reference to their vision and school context, as well as students' interests and attributes.

For the effective implementation of environmental education, the EDB has continuously provided schools with various learning and teaching resources, including life event exemplars, student worksheets, and audio-visual teaching materials, while providing professional development programmes for both principals and teachers to enhance their professional knowledge and skills on promotion of environmental education. Furthermore, the EDB has all along been encouraging schools to launch various kinds of textbook recycling programmes, such as donating and selling second-hand textbooks and purchasing reference and story books for loaning to students, through a number of channels (including the EDB website, circular memorandums and teacher seminars), with a view to enhancing students' environmental awareness and reducing the financial burden of parents. As the above measures are mainly carried out by staff of the EDB, the expenditure involved is subsumed under the EDB's recurrent expenditure.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2099)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What is the number of students who made successful applications under the "Bring Your Own Device" (tablets or laptops) programme in the past 3 years? What is the additional resources involved? Will the Government allocate more resources to allow students to replace new electronic devices regularly to cater for their learning needs? What is the implementation status of the "Support Scheme for e-Learning in Schools"?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 28)

Reply:

In the past 3 years, the Education Bureau (EDB) did not deploy funds under the General Revenue Account to implement the "Bring Your Own Device" (BYOD) programme for students to apply for subsidies to purchase mobile computer devices (tablets or laptops). That said, the EDB will keep in view the implementation of a related assistance programme under the Community Care Fund. Commencing in the 2018/19 school year, the 3-year programme subsidises needy students to purchase mobile computer devices to facilitate the implementation of the BYOD programme for e-learning in schools. The EDB will review the effectiveness of the programme so as to formulate measures that would continuously support needy students in e-learning. Schools may also utilise other resources to help needy students who are not beneficiaries of the assistance programme under the Community Care Fund.

As for the 100 schools under the "Support Scheme for e-Learning in Schools" or WiFi-100 project, the enhancement of WiFi infrastructure was completed in mid-January 2015 as planned.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2100)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What are the government projects or measures currently in place to promote an interest in classical Chinese studies or Chinese culture and traditional arts among children and youngsters? What are the specific arrangements? What is the amount of financial resources and manpower involved? Will the Administration provide additional resources?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 29)

Reply:

The school curriculum in Hong Kong has always put great emphasis on nurturing students' literacy in Chinese culture and traditional arts. Enhancing the learning of Chinese history and culture is one of the renewal focuses of the primary and secondary curriculum. At present, students acquire the knowledge related to Chinese culture and traditional arts mainly through different subjects, e.g. Chinese Language and General Studies at the primary level, and Chinese Language, Chinese History, Chinese Literature, Visual Arts and Liberal Studies at the secondary level. Life-wide learning activities also contribute to cultivating students' interest in these areas.

To facilitate students' learning of Chinese culture and traditional arts, the Education Bureau (EDB) continuously provides an array of relevant learning and teaching materials for schools and organises professional development programmes for teachers. The element of Chinese culture is specifically highlighted in student activities. In addition, the EDB promotes students' understanding of Chinese history and culture through such activities as school-based reading award schemes, project learning, museum learning and student competitions. These support measures are an integral part of EDB's day-to-day curriculum development work. As the relevant expenses are subsumed under EDB's recurrent expenditure, there is no separate breakdown for individual items.

To promote Chinese history and culture, the EDB has provided a one-off grant of $100,000 and $150,000 respectively to each public sector and Direct Subsidy Scheme primary and secondary school to enhance the teaching of General Studies in primary schools, and that of Chinese Language, Chinese History and Chinese Literature in both primary and secondary schools, so that students can appreciate the spirit of excellence and the civilisation of the Chinese people and inherit the Chinese culture. Schools may flexibly deploy various kinds of existing subsidies. For example, they may use the Promotion of Reading Grant provided for public sector schools since the 2018/19 school year to procure reading resources and organise school-based reading activities related to Chinese history and culture. Schools may also use the Life-wide Learning Grant to be disbursed starting from the 2019/20 school year to organise diversified experiential learning activities beyond the classroom (e.g. visits, field trips and study tours outside Hong Kong) to provide students with more lively and enriched learning experiences, and broaden their horizons, so that they will become more motivated and interested in learning Chinese history and Chinese culture.

The EDB will continue to enhance the relevant support for developing a greater interest in Chinese culture and traditional arts among children and youngsters.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2101)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Has the Government kept a list of all existing "matchbox-style school premises"? What are the progress of related improvement works or relocation exercises? Is there a mechanism for the Government to identify school premises with sub-standard facilities, and evaluate their needs for maintenance or redevelopment and provide the necessary funds in a timely fashion? If yes, how many school premises have been identified as sub-standard? In addition, many items on the Education Bureau's (EDB) "Furniture and Equipment List for New Schools" are considered irrelevant in this day and age. Will the EDB promptly improve the list?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 30)

Reply:

At present, there are about 850 ordinary public sector primary and secondary schools in the territory. Their premises were built in different periods in accordance with the building standards at the time of construction and facilities in the premises vary. While the standards have been changing over the years, existing school premises in operation are required to comply with prevailing statutory requirements. As at March 2019, about 200 of them were built according to prevailing standards.

Among the schools built in different periods, some are cuboidal-shaped premises constructed between mid-1960s and 1980 in public housing estates for primary school use. These school premises are often referred to as "matchbox-style school premises". Following the reprovisioning of one public sector primary school previously operating in "matchbox-style school premises" to a vacant school premises (VSP) in September 2018, there are at present 27 public sector primary schools operating in "matchbox-style school premises". Among these 27 schools, 6 have been allocated new school premises or VSP through the School Allocation Exercises (SAE) for reprovisioning or expansion.

In response to a request previously made by the Legislative Council Panel on Education (the Panel), we had consulted the 27 schools concerned on whether they would agree to our releasing their school information to the Panel and the public. Among these 27 schools, 25 schools responded, with 22 schools raising no objection to the public release of their school information, while 3 schools indicated disapproval. The information of those 22 schools is set out at the Annex.

We understand that the community is concerned about conditions of facilities at old school premises. Over the years, the EDB has put in place various measures to enhance school facilities for improving the teaching and learning environment. These measures mainly include the completed School Improvement Programme, the existing reprovisioning programme, redevelopment/extension programme, as well as the annual major repair and emergency repair mechanism.

For reprovisioning of existing schools to new school premises on reserved school sites or suitable VSP, allocation is generally done through open, fair and competitive bidding under School Allocation Exercise (SAE). The EDB conducts SAE for reprovisioning purpose from time to time. All eligible School Sponsoring Bodies (SSB) in the territory can submit applications. Applications are assessed by the School Allocation Committee (comprising both official and non-official members), with quality of education being the prime consideration. Other factors, including the operation track records of the SSBs concerned, the proposed school plans after relocation, the conditions of the existing school premises, etc. will also be considered. Schools may take into account their school-based considerations and consider if they would like to submit application for reprovisioning under the prevailing competitive-based school allocation mechanism. In the recent 5 years (2014 to 2018), we have allocated through SAE a total of 9 new school premises to be built on reserved school sites/VSP for the purpose of reprovisioning/physical extension of existing schools. The EDB will continue to actively identify suitable sites and VSP for reprovisioning and expedite school allocation under the established arrangements, with a view to improving the teaching and learning environment of existing schools.

As regards in-situ redevelopment/extension projects, interested schools would indicate their intention for redevelopment/extension to EDB. As always, we will thoroughly consider each proposal for in-situ redevelopment/extension according to a set of eligibility criteria, including the age and physical condition of the school premises concerned, technical feasibility of in-situ redevelopment/extension, quality of education service, sustainability of the school concerned, availability of suitable premises for decanting (if applicable), and the supply and demand of school places in the district concerned. We also need to take into account the manpower available and foreseeable commitment on school building, as well as the capacity of the construction sector as anticipated on the basis of past experience. Whether additional projects will be taken up will also depend on the progress of the school building projects in hand, and the funding availability under the Public Works Programme.

In addition, based on the consensus reached with the sector earlier on, the EDB is carrying out improvement works for primary schools operating in “matchbox-style school premises”, with a focus on addressing the common problems arising from the unique architectural design of those premises. The improvement works have commenced progressively since the summer of 2017 and are scheduled for completion by the summer of 2019. Under this programme, our works consultants have also explored technically feasible means for more

flexible use of existing space, such as minor internal conversion and installation of moveable partition walls to turn existing facilities into temporary special rooms. We are following up the relevant works progressively in accordance with to the schools' indications and needs, with a view to improving the teaching and learning environment within the constraints of space and existing building design.

Taking into account the experience from the aforementioned "matchbox-style school premises" improvement programme and views of different stakeholders (including the Hong Kong Aided Primary School Heads Association and the Subsidized Primary School Council), we are preparing to conduct similar minor internal conversions at other school premises constructed according to past building standards to facilitate more flexible use of existing space by schools, thereby enhancing the teaching and learning environment and efficacy. We have reserved $1 billion to take forward the said improvement works programme. Schools may propose conversion works to the EDB in the upcoming two years, based on the conditions of their premises and needs. We have issued the relevant letter to all schools in late March 2019 and will arrange briefing sessions in April 2019 to explain detailed arrangements of the programme, as well as to share the experience from similar improvement works in "matchbox-style school premises" for schools' references.

Meanwhile, the EDB will continue to enhance school facilities and improve the teaching and learning environment in accordance with the schools' needs through the annual major repair and emergency repair mechanism. The Government has reserved a non-recurrent subvention of about $1.5 billion in 2019-20, comparable to that of 2018-19, for major repairs (applicable to both aided schools and Direct Subsidy Scheme schools) and emergency repairs (applicable to aided schools only).

The EDB provides reference lists of furniture and equipment (F&E) for public sector primary and secondary schools to serveas general guidance on furnishing and equipping new school premises. Under the prevailing mechanism, the Government is responsible for the F&E cost for reprovisioning/redevelopment projects for existing schools, while that for a newly established school should be borne by the SSB concerned. In order to balance the need to ensure prudent use of public money through proper monitoring on the scope and hence cost of F&E items on one hand, and to provide sufficient flexibility for schools in procuring items that meet their school-based teaching and learning needs on the other, the aforementioned F&E lists seek to set out the basic facilities and the associated reference costs for schools' reference when compiling the procurement list for seeking F&E subsidy from the Government. To cater for school-based needs, schools are free to procure F&E items not on the reference lists, provided that they are justified by operational needs and in line with the cost-effective principle. In view that we have not comprehensively reviewed the reference F&E lists for some time, some of the items therein may no longer meet the prevailing learning and teaching needs. We are now reviewing the lists and will consult the sector in when ready.

Annex

22 public sector primary schools operating in "matchbox-style school premises"

	Name of school
1.	The Evangelical Lutheran Church of Hong Kong Faith Love Lutheran School
2.	Pak Tin Catholic Primary School*
3.	Po Yan Oblate Primary School
4.	Carmel Leung Sing Tak School
5.	Ping Shek Estate Catholic Primary School*
6.	Hong Kong Taoist Association Wun Tsuen School*
7.	Man Kiu Association Primary School
8.	Father Cucchiara Memorial School
9.	Asbury Methodist Primary School
10.	CNEC Ta Tung School
11.	The Evangelical Lutheran Church of Hong Kong Kwai Shing Lutheran Primary School
12.	S.K.H. Chu Yan Primary School
13.	Sir Robert Black College of Education Past Students' Association Lee Yat Ngok Memorial School
14.	Lei Muk Shue Catholic Primary School
15.	Tsuen Wan Public Ho Chuen Yiu Memorial School
16.	S.K.H. Holy Spirit Primary School
17.	The Little Flower's Catholic Primary School
18.	The Evangelical Lutheran Church of Hong Kong Wo Che Lutheran School
19.	Shatin Tsung Tsin School
20.	Toi Shan Association Primary School
21.	Po Leung Kuk Vicwood K.T. Chong No. 2 Primary School*
22.	Islamic Primary School

* To be reprovisioned.

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures for the past 3 years:

(1) The respective numbers and percentages of "singly non-permanent resident", "doubly non-permanent resident" and "triply non-permanent resident" students in the total secondary student population by district;
(2) The respective numbers and percentages of "singly non-permanent resident", "doubly non-permanent resident" and "triply non-permanent resident" students in the total primary student population by district; and
(3) The respective numbers and percentages of "singly non-permanent resident", "doubly non-permanent resident" and "triply non-permanent resident" students in the total kindergarten and kindergarten-cum-child care centre student population by district.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 34)

Reply:

(1) to (3)

Information on the residency status of students' parents are required in determining whether the students are "singly non-permanent resident", "doubly non-permanent resident" or "triply non-permanent resident". As the Education Bureau does not collect information on the residency status of students' parents, the figures requested are unavailable.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2106)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures for the past 3 years:

(1) The number and percentage of cross-boundary students enrolled in secondary schools by district;

(2) The number and percentage of cross-boundary students enrolled in primary schools by district; and

(3) The number of students using the dedicated school net for cross-boundary students.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 35)

Reply:

(1) and (2) The number and percentage of cross-boundary students (CBS) in secondary and primary schools by district in the 2016/17, 2017/18 and 2018/19 school years are tabulated in Annexes A and B.

(3) To alleviate the impact of increasing number of CBS on the demand and supply of public sector primary school places in individual districts, notably the North District, the Education Bureau has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the Primary One Admission (POA). In brief, parents of applicant child who intend to commute daily to schools in Hong Kong are not required to choose any school net as the applicant child's POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation.

The number of CBS (i.e. using the dedicated school net for CBS) participating in the Central Allocation stage of POA 2016, 2017 and 2018 (for admission to Primary One in the 2016/17, 2017/18 and 2018/19 school years) is 2 877, 3 251 and 2 213 respectively.

Annex A

Number and Percentage of CBS in Secondary Schools

(i) 2016/17 School Year

District	Number of CBS	Percentage in the Total Number of CBS in Secondary Schools
North	2 228	66.4%
Tai Po	516	15.4%
Sha Tin	62	1.8%
Yuen Long	391	11.7%
Tuen Mun	157	4.7%
Tsuen Wan & Kwai Tsing	0	0.0%
Tung Chung	0	0.0%
Wong Tai Sin	1	0.0%
Total	3 355	100.0%

(ii) 2017/18 School Year

District	Number of CBS	Percentage in the Total Number of CBS in Secondary Schools
North	2 562	62.7%
Tai Po	708	17.3%
Sha Tin	84	2.1%
Yuen Long	471	11.5%
Tuen Mun	258	6.3%
Tsuen Wan & Kwai Tsing	0	0.0%
Tung Chung	1	0.0%
Wong Tai Sin	0	0.0%
Total	4 084	100.0%

(iii) 2018/19 School Year

District	Number of CBS	Percentage in the Total Number of CBS in Secondary Schools
North	3 123	56.1%
Tai Po	1 004	18.0%
Sha Tin	137	2.5%
Yuen Long	796	14.3%
Tuen Mun	489	8.8%
Tsuen Wan & Kwai Tsing	3	0.1%
Tung Chung	14	0.3%
Wong Tai Sin	1	0.0%
Total	5 567	100.0%

Note: (1) Figures refer to the position as at September of the respective school years.

(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

(3) Percentages may not add up to total due to rounding.

Annex B

Number and Percentage of CBS in Primary Schools

(i) 2016/17 School Year

District	Number of CBS	Percentage in the Total Number of CBS in Primary Schools
North	6 679	38.3%
Tai Po	2 543	14.6%
Sha Tin	555	3.2%
Yuen Long	4 233	24.2%
Tuen Mun	2 763	15.8%
Tsuen Wan & Kwai Tsing	215	1.2%
Tung Chung	200	1.1%
Wong Tai Sin	270	1.5%
Total	17 458	100.0%

(ii) 2017/18 School Year

District	Number of CBS	Percentage in the Total Number of CBS in Primary Schools
North	7 067	36.8%

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2107)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

While the Education Bureau will continue to provide recurrent Air-conditioning Grant for public sector primary and secondary schools, please provide the number of schools benefitted and the amount of grant received by these schools in the past year.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 36)

Reply:

Starting from the 2018/19 school year, a recurrent Air-conditioning Grant (AC Grant) has been provided for all public sector schools by the Education Bureau (EDB). The number of schools is tabulated as follows:-

Finance Type	Primary School	Secondary School	Special School
Government	34	31	-
Aided	422	359	59*
Caput	-	2	-

*not applicable to the Hospital School

The AC Grant is calculated based on the types and number of eligible rooms/facilities in a school. Whenever a school changes the use of its teaching facilities, carries out structural alteration or conversion works, or installs air-conditioning systems for eligible facilities without such provision in accordance with the prevailing mechanism during the school year, the AC Grant will be adjusted accordingly. The actual amount of the grant allocated in the 2018/19 school year is not available at this stage as the school year has not yet come to a close. The estimated expenditure is around $380 million.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2113)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Please tabulate by subject the number of electronic textbooks (e-textbooks) that have passed the review by the Textbook Committee of the Education Bureau (EDB) in the 2018/19 school year.

2. Please tabulate by subject the number of e-textbooks currently pending review by the EDB.

3. Please advise of the number of local primary and secondary schools currently adopting e-textbooks that have passed the EDB's review.

4. As a follow-up to the above question, please advise of the number of schools that have fully adopted e-textbooks in at least 1 subject.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 42)

Reply:

1. and 2.

At present, there are 3 submission periods for the review of e-textbooks each year. E-textbooks submitted for review by the Textbook Committee will be included in the Recommended e-Textbook List (eRTL) provided that they are assessed as having reached the required standard. In principle, the supply of e-textbooks is market-driven. Publishers may decide, out of business considerations, the timing for submission and the quantity of e-textbooks to be submitted for review. In the 2018/19 school year (as at March 2019), 5 sets of e-textbooks have passed the Textbook Committee's review and have been included in the eRTL: General Studies (2 sets) and Putonghua (2 sets) for primary

levels, and Science (1 set) for junior secondary levels. There are currently a total of 57 sets of e-textbooks on the eRTL for schools' adoption.

3. and 4.

e-Textbooks are not the unique resources that could facilitate schools to enhance the effectiveness of learning and teaching. In fact, e-textbooks and e-learning resources are not necessarily more conducive to learning and teaching than conventional resources in every case. Schools have the professional autonomy in selecting appropriate resources, including e-textbooks and other e-learning resources according to students' needs and their school contexts and choosing resources flexibly for learning and teaching to cater for student diversity. The EDB conducts annual questionnaire surveys on the use of e-textbooks among schools. The findings of the latest survey (2017/18 school year) show that 242 primary schools and 126 secondary schools have procured and adopted e-textbooks for at least 1 subject; and about 67% of these primary schools and 69% of these secondary schools have selected e-textbooks from the eRTL.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the provision of Government subsidy for students to join Mainland exchange programmes, please advise of the following:

1. the respective number of post-secondary, secondary and primary students who received subsidies for participation in Mainland exchange programmes, the amount of subsidies disbursed, the Mainland cities visited, details of the exchange programmes, and the total expenditure involved in the past 5 years; and

2. the respective number of post-secondary, secondary and primary students expected to receive Government subsidy for participation in Mainland exchange programmes, the programme details and the estimated expenditure in 2019-20.

Asked by: Hon CHEUNG Wah-fung, Christopher (LegCo internal reference no.: 30)

Reply:

1. The Education Bureau provides subsidies for students to join Mainland exchange programmes, which cover different provinces and cities in the Mainland with varying duration every school year. The programmes consist of different learning elements/themes that enable participants to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives.

The numbers of post-secondary, secondary and primary school students who had received subsidies to join Mainland exchange programmes and the expenditure involved over the past 5 years (the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 school years) are shown below:

School Year	Number of Students (rounded down to the nearest hundred)			Expenditure ($million)		
	Post-secondary Students[Δ]	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2014/15	4 000	31 700	18 900	12.0	40.1	12.6
2015/16	3 900	35 800	23 400	11.9	46.8	15.1
2016/17	3 400	35 300	24 500	10.4	50.3	13.9
2017/18#	2 700	40 200	26 800	8.4	57.6	27.8
2018/19+	2 200	40 200	33 600	6.7	64	39.3

Actual figures revised from last year's estimates

\+ Provisional figures

Δ Only data relating to the Pilot Mainland Experience Scheme for Post-secondary Students is included. There are other schemes that provide subsidies for students to join Mainland exchange programmes. As the scope of these subsidy schemes also covers exchange activities outside the Mainland, statistics only relevant to exchange activities in the Mainland are not available.

2. The estimated numbers of places to be offered to post-secondary, secondary and primary school students for receiving subsidies to join Mainland exchange programmes and the estimated expenditure for the 2019/20 school year are shown below:

School Year	Number of Students (rounded down to the nearest hundred)			Estimated Expenditure ($million)		
	Post-secondary Students	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2019/20	Not applicable [Note]	63 500	45 400	Not applicable [Note]	80	35

Note: The Pilot Mainland Experience Scheme for Post-secondary Students will be run until 30 June 2019 and the relevant subsequent arrangements will be announced in due course.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0050)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Study Subsidy Scheme for Designated Professions/Sectors, please tabulate the number of students in receipt of the subsidy in the 2018/19 academic year and the projected number in the 2019/20 academic year by course type.

Asked by: Hon CHEUNG Yu-yan, Tommy (LegCo internal reference no.: 28)

Reply:

Details of the designated undergraduate programmes, relevant institutions, the respective number of subsidised places, the number of actual intakes (if appropriate) and the annual subsidy amount under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) for the cohort admitted in the 2018/19 academic year and for the cohort to be admitted in the 2019/20 academic year are set out at Annex A.

As announced in the 2018 Policy Address, based on the advice of the Task Force on Review of Self-financing Post-secondary Education, the Government will expand the coverage of the SSSDP. Starting from the 2019/20 academic year, about 2 000 students per cohort will be subsidised to pursue designated full-time locally accredited self-financing sub-degree programmes in selected disciplines. Current students of the designated sub-degree programmes will also receive the subsidy. Details of designated sub-degree programmes, relevant institutions, the respective number of subsidised places and the annual subsidy amount under the SSSDP for the cohort to be admitted in the 2019/20 academic year are set out at Annex B.

Annex A

Study Subsidy Scheme for Designated Professions/Sectors (for the cohort admitted in the 2018/19 academic year)

Designated Undergraduate Programmes, Relevant Institutions, Number of Subsidised Places and Actual Intakes, and Annual Subsidy Amount

Institutions	Disciplines	Programmes	Number of subsidised places	Number of actual intakes	Annual subsidy amount per student ($)
Caritas Institute of Higher Education	Creative Industries	Bachelor of Science (Honours) in Digital Entertainment	30	10	41,000
	Health Care	Bachelor of Nursing (Honours)	200	200	71,700

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0051)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In the 2018/19 school year, what is the respective number of private independent kindergartens, non-profit-making kindergartens not participating in the kindergarten education scheme (Scheme) and non-profit-making kindergartens participating in the Scheme, and what is their respective percentage in the total number of kindergartens in the territory? What is the respective number of students in these kindergartens and their respective percentage in the total number of kindergarten students in Hong Kong over the same period? Also, what is the number of kindergarten in the Pre-primary Education Voucher Scheme that have not joined the Scheme? How many students are enrolled in these kindergartens? What are the reasons for not joining the Scheme?

Asked by: Hon CHEUNG Yu-yan, Tommy (LegCo internal reference no.: 29)

Reply:

In the 2018/19 school year, the respective number of local private independent (PI) kindergartens (KGs), local non-profit-making (NPM) KGs joining the KG education scheme (the Scheme) and local NPM KGs not joining the Scheme, the number of students studying in these KGs as well as their percentage share (%) in the total number of KGs/KG students in Hong Kong are as follows:

	2018/19 school year	
	Number of KGs (%)	Number of students (%)
Local PI KGs*	105 (10.2%)	18 095 (10.4%)
Local NPM KGs joining the Scheme	753 (72.9%)	132 960 (76.2%)
Local NPM KGs not joining the Scheme	26 (2.5%)	8 840 (5.1%)

* PI KGs are not eligible to join the Scheme.

In the 2018/19 school year, 6 KGs participating in the Pre-primary Education Voucher Scheme (PEVS) in the 2016/17 school year, with a total of 2 113 students, do not join the Scheme. The eligible students admitted to these KGs before the implementation of the Scheme in the 2017/18 school year and remaining in the eligible classes under PEVS will continue to receive the voucher subsidy under PEVS until they leave the KGs concerned. In the 2018/19 school year, about 640 students studying at upper KG (K3) classes in these KGs are receiving the voucher subsidy under PEVS. In deciding whether to join the Scheme, these KGs have their school-based considerations with regard to their overall direction in school development. Among these 6 KGs, 1 will join the Scheme in the 2019/20 school year.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding international schools, please provide the following information:

(1) Please tabulate the respective number and percentage of local and non-local students in various international schools.

(2) Please tabulate the respective total number of students studying in international primary and secondary schools, as well as the respective number and percentage of local and non-local students in such schools in each of the past 3 years (i.e. the 2016/17, 2017/18, and 2018/19 school years).

(3) Please tabulate the highest, lowest and median tuition fees charged by international schools in the current school year.

(4) Please provide a breakdown of the respective number of international school places, students enrolled and vacancies at primary and secondary levels by 18 districts.

(5) Generally speaking, what are the additional numbers of school places at primary and secondary levels respectively in the 2018/19 school year as compared with the year before?

(6) What are the additional numbers of places in schools adopting English or other languages as the medium of instruction, and school places provided for students with special educational needs?

(7) Please provide the respective number of international school places at primary and secondary levels expected to be added in each district in each of the next 3 years.

Asked by: Hon CHEUNG Yu-yan, Tommy (LegCo internal reference no.: 30)

Reply:

(1)
In the context of international schools (including the English Schools Foundation (ESF) schools and other private international schools), local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region (HKSAR)) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport. Based on the Student Enrolment Survey conducted in September 2018, the proportion of local students in international schools in the 2018/19 school year is about 25% and that of non-local students is around 75%. The numbers and percentages of local and non-local students of individual schools are set out at Annex 1.

(2)
The total number of students in international schools from the 2016/17 to 2018/19 school years with a breakdown by level and by proportion of local and non-local students are set out at Annex 2.

(3)
The highest, lowest and median tuition fees charged by international schools in the 2018/19 school year are set out at Annex 3.

(4), (5) and (7)
International school places are assessed on a territory-wide basis. A breakdown of the number of international school places (including the ESF schools and other private international schools), students enrolled and vacancies by District Council district in which the international schools are located in the 2018/19 school year are set out at Annex 4 for illustration purpose. Compared to the 2017/18 school year, there is an increase of around 860 primary places and 410 secondary places among the international schools.

We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015, and planned expansion projects of individual schools will gradually materialise in the coming few years. Based on the latest projections provided by relevant schools where applicable, compared to the 2018/19 school year, it is projected that around 2 810 additional places will be available between 2019/20 and 2021/22 school years. It is however worth noting that future provision of additional places by individual schools especially the new ones will be affected by a number of factors, such as applications received each year, teacher recruitment, and maintenance and construction works involved in school development.

(6)
Most international schools adopt English as the medium of instruction. Places in these schools in the 2018/19 school year have been increased by around 960 at primary level and around 450 at secondary level when compared with the 2017/18 school year. On the other hand, a few schools adopt other languages including French, German, Korean and Japanese.

Compared to the 2017/18 school year, places at these schools have been decreased by 100 at primary level and slightly decreased by around 40 at secondary level.

International school places provided for students with special educational needs (SEN) may vary between years depending on the number of students with such needs. At the same time, international schools establish their own systems to classify students with SEN according to their own teaching and learning arrangements. According to the information provided by schools through the annual Student Enrolment Survey, in the 2018/19 school year, there are around 850 primary students and 810 secondary students with SEN studying in international schools (including the special school operated by the ESF). The corresponding numbers for the 2017/18 school year are around 840 and 710 respectively.

Annex 1

Numbers and percentages of local and non-local students enrolled in international schools (excluding special school) in the 2018/19 school year (based on the Student Enrolment Survey conducted in September of the school year concerned)

Name of School	Total number of students	Total number of local students (percentage)	Total number of non-local students (percentage)
Primary-cum-secondary			
American International School	**600**	84 (14.0%)	516 (86.0%)

International College Hong Kong (New Territories)	**299**	146 (48.8%)	153 (51.2%)
Total	**40 198**	**9 853 (24.5%)**	**30 345 (75.5%)**

Notes:

(1) Local students refer to those who are Hong Kong permanent residents (with the right of abode in Hong Kong Special Administrative Region (HKSAR)) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport.

(2) Schools operated by the English Schools Foundation are indicated by (^).

Annex 2

Total number of students and proportion of local and non-local students enrolled in international schools from the 2016/17 to 2018/19 school years

School Year	Total number of students	Total number of local students (as a percentage of total number of students)	Total number of non-local students (as a percentage of total number of students)
Primary			
2018/19	22 720	5 866 (25.8%)	16 854 (74.2%)
2017/18	21 912	5 358 (24.5%)	16 554 (75.5%)
2016/17	21 093	4 556 (21.6%)	16 537 (78.4%)
Secondary			
2018/19	17 478	3 987 (22.8%)	13 491 (77.2%)
2017/18	16 956	3 507 (20.7%)	13 449 (79.3%)
2016/17	16 664	3 157 (18.9%)	13 507 (81.1%)

Note: Local students refer to those who are Hong Kong permanent residents (with the right of abode in Hong Kong Special Administrative Region (HKSAR)) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport.

Highest, lowest and median annual tuition fees charged by international schools in the 2018/19 school year

	Primary	Secondary
Highest	$205,500	$246,000
Lowest	$5,800	$38,500
Median*	$115,800	$153,800

Note:

* In deriving the median, the annual tuition fee chargeable for each grade by the school concerned is counted only once, irrespective of the number of students enrolled.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0731)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Career and Life Planning Grant (CLPG), would the Government advise this Committee of:

1. the utilisation of the CLPG by schools and the number of schools that have converted the CLPG into regular teaching posts in the past 3 years;

2. the number and ratio of life planning instructors that have received training on life planning education;

3. whether there are any measures to improve the quality of and training for life planning instructors so as to enhance their professionalism; if yes, the details; if no, the reasons;

4. whether there is any review of the effectiveness of the CLPG, so as to ensure the propriety of its use and make adjustments to its provision on the basis of the review findings; if yes, the details and timetable; if no, the reasons;

5. whether there are any measures to enhance life planning education so as to identify students' diverse abilities and interests, encourage students to have diversified development, and promote vocational and professional education and training; if yes, the details; if no, the reasons; and

6. whether the Education Bureau will consider setting up, in collaboration with the Labour and Welfare Bureau, a platform for the school sector to give career-oriented support to students through the provision of career information and job matching services; if yes, the details; if no, the reasons.

Asked by: Hon CHIANG Lai-wan (LegCo internal reference no.: 25)

Reply:

1. Since the 2014/15 school year, the Education Bureau (EDB) has been providing each public sector school and Direct Subsidy Scheme (DSS) school operating classes at senior secondary levels with a recurrent Career and Life Planning Grant (CLPG). Starting from the 2016/17 school year, eligible public sector schools are given the option to convert the CLPG into regular teaching posts. For DSS schools, the expenses in relation to the grants and the regular teaching posts provided under this initiative have been incorporated in the DSS unit subsidy rate. Schools in general have been making effective use of the CLPG to strengthen Life Planning Education (LPE). The amount of CLPG provided and the number of public sector schools that have converted the CLPG into regular teaching posts in the past 3 school years (2016/17 to 2018/19) are tabulated below:

	2016/17 School Year	2017/18 School Year	2018/19 School Year
Amount of CLPG	$570,000	$580,000	$610,000
Number of public sector schools that have converted CLPG into regular teaching posts	165	281	308

2. and 3. The EDB has kept strengthening professional training for teachers on LPE. Starting from the 2014/15 school year, the number of structured teacher training places has increased by threefold from 80 to 240 per year. Currently, 93% of schools have at least two trained teachers to co-ordinate LPE and career guidance services for students. Moreover, different thematic seminars, such as the roles of subject teachers and class teachers in supporting students for life planning, have been organised to equip teachers at different posts to adopt a whole-school approach in implementing LPE. The EDB will keep the training needs of teachers in relation to LPE under constant review, and introduce new topics in the light of social and workplace developments.

4. Since the implementation of LPE in the 2014/15 school year, the EDB has been monitoring the implementation of LPE at schools through questionnaire surveys and advisory school visits. It is noted that schools in general have utilised the CLPG properly in acquiring additional manpower or hiring related services to strengthen LPE services. To consolidate the experience gained from implementing LPE and map out the way forward, the EDB commissioned The Education University of Hong Kong in 2017 to conduct a review on the effectiveness of LPE, the implementation of the LPE policy, and the benefits of the Business-School Partnership Programme (BSPP) on students. The review showed that the implementation of LPE in local secondary schools has reaped initial success. By establishing well-defined organisational structures and school-based policies, schools are gradually gaining the support of teachers, students and parents in the promotion of LPE. In parallel, BSPP has received much support from schools and BSPP partners. It is valued by schools as one of the important resources in the promotion of LPE and well recognised by teachers and students too. Nevertheless, even though students can access relevant information (for example, information on employment and further studies, knowledge of different industries, etc.) through LPE activities, they have yet to master the skills for long-term life planning. Besides, the overall participation rate of students and parents in LPE activities was low. The EDB will study the review findings and recommendations

carefully, with a view to enhancing the existing measures and strengthening the support for the implementation of LPE in schools.

5. and 6. Since the 2014/15 school year, the EDB has been stepping up its support for the implementation of LPE in schools by providing schools with additional resources/teacher manpower and strengthening professional training for teachers, with a view to enhancing students' self-understanding, and, through relevant learning activities, helping students to identify their interests, abilities and orientations at an earlier stage, and keeping them abreast of the latest career related information to prepare them for further studies and career pursuits. The EDB has been encouraging more business entities to join the BSPP in order to provide students with diverse career exploration activities and work experience opportunities. The experience gained from these activities enables students to learn more about different industries as well as study and career pathways, and help them make informed choices on further studies and careers, set personal goals and plan their future. To further enhance its support for schools in LPE, the EDB implemented the Pilot Project on Career Information Website in the 2017/18 school year to provide students, teachers and parents of participating schools with information on careers, LPE, employment and further studies. Views from the pilot schools were collected for improving the website. The Career Information Website has been launched for use by all the schools in the territory in the 2018/19 school year. The EDB will continue to improve the website and may explore the possibility of collaborating with relevant departments to transform the website into a one-stop platform for students, teachers and parents to access information on more industries and multiple pathways. Besides, the EDB will continue to organise seminars on further studies in order to provide students with a variety of information on employment and further studies while enhancing their understanding of multiple pathways as well as vocational and professional education.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2822)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The number of kindergarten students in the 2017/18 and 2018/19 school years is 181 000 and 174 400 respectively, and the number of kindergarten students projected by the Education Bureau for the 2019/20 school year is 172 900.

Please provide the number of cross-boundary kindergarten students and school places provided from the 2017/18 to 2018/19 school years, and the estimated number of cross-boundary kindergarten students and school places to be provided in the 2019/20 school year in each of the 18 districts.

Asked by: Hon FAN Kwok-wai, Gary (LegCo internal reference no.: 3)

Reply:

The number of cross-boundary students in kindergartens (including kindergarten-cum-child care centres) by district in the 2017/18 and 2018/19 school years is as follows:

District	**School Year**	
	2017/18	**2018/19**
North	2 997	1 675
Tai Po	94	25
Sha Tin	16	3
Yuen Long	802	185
Tuen Mun	624	130
Tsuen Wan	1	1
Kwai Tsing	39	8
Tung Chung	37	4
Wong Tai Sin	0	0

Notes: (1) Figures refer to the position as at September of the respective school years.
(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

The number of cross-boundary students and the districts at which their schools are located are subject to significant year-on-year changes depending on family factors, distribution of their places of residence, and adjustment of related policies, etc. Hence, we are unable to accurately project the number of cross-boundary students and the districts at which their schools are located for the 2019/20 school year.

The number of places in kindergartens by district in the 2017/18 and 2018/19 school years is as follows:

District	**School Year**	
	2017/18	**2018/19**
Central & Western	7 913	7 983
Wan Chai	8 298	8 281
Eastern	14 802	14 263
Southern	6 684	6 574
Yau Tsim Mong	7 811	7 743
Sham Shui Po	11 806	11 328
Kowloon City	27 415	26 487
Wong Tai Sin	8 609	8 361
Kwun Tong	14 737	14 642
Sai Kung	10 878	10 866
Sha Tin	17 346	16 939
Tai Po	7 704	7 464
North	11 797	10 540
Yuen Long	18 872	18 321
Tuen Mun	13 970	13 412
Tsuen Wan	8 520	8 369
Kwai Tsing	12 197	11 945
Islands	4 797	4 717

Note: (1) Figures refer to the position as at September of the respective school years.
(2) Figures include nursery, lower and upper classes in kindergarten-cum-child care centres.
(3) Figures on places do not include vacant classrooms and vacant child care centre portions.

The projected number of places in kindergartens by district in the 2019/20 school year is tabulated below. It should be noted that the following figures are mainly based on the number of places offered in kindergartens in the 2018/19 school year, the estimated number

of places that could be offered in existing vacant registered classrooms of kindergartens (including child care centre portions) based on permitted accommodation of the classrooms, and the number of kindergartens that will commence or cease operation in the coming year known to the Education Bureau at the time of projection. As the commencement of the 2019/20 school year is over 5 months away, the number of places is still subject to change.

District	**Projected number of places in kindergartens**
Central & Western	11 100
Wan Chai	8 900
Eastern	17 400
Southern	9 300
Yau Tsim Mong	10 100
Sham Shui Po	14 900
Kowloon City	32 000
Wong Tai Sin	9 800
Kwun Tong	16 700
Sai Kung	14 300
Sha Tin	20 700
Tai Po	8 700
North	11 800
Yuen Long	19 800
Tuen Mun	15 800
Tsuen Wan	9 800
Kwai Tsing	13 400
Islands	6 400

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2845)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. What was the Education Bureau's expenditure on promoting the use of Putonghua as the medium of instruction for teaching the Chinese Language subject (PMIC) in primary and secondary schools (including school-based and non-school based curricula) in the past 5 years? Please set out the schools funded and activities organised under this initiative, and the amount of funding involved.

2. What is the relevant estimated expenditure for the 2019/20 school year?

3. What is the amount earmarked for supporting new PMIC curricula in this year's Estimates? Please set out the schools funded under this initiative, and the amount of funding involved.

Asked by: Hon FAN Kwok-wai, Gary (LegCo internal reference no.: 31)

Reply:

Using Putonghua as the medium of instruction (MOI) for teaching the Chinese Language subject (PMIC) is a decision driven by school-based language policy. Schools can choose a suitable MOI for teaching the Chinese Language curriculum based on their professional considerations. Schools may decide whether to adopt PMIC at certain levels/in specific classes with regard to their own circumstances, such as readiness of teachers, standards of students, language environment of the school, curriculum planning, and availability of learning and teaching support. As the number of schools adopting PMIC varies every year, we have not kept track of such information. Primary and secondary schools adopting PMIC have not received any additional funding in the past 5 years. No matter PMIC is adopted or not, the Education Bureau has been organising diversified professional development programmes to ensure that language teachers are provided with adequate training opportunities to enhance their professional capability in teaching the relevant languages for the benefits of students' language learning.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2846)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In Brief Description under Programme (6), it is stated that the Education Bureau (EDB) offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. The EDB also provides professional support, where appropriate, to schools. Would the Government inform this Committee of the following:

The expenditure on national education in the past 3 years (from the 2016/17 to 2018/19 school years), and the estimated expenditure on national education for the 2019/20 school year.

Asked by: Hon FAN Kwok-wai, Gary (LegCo internal reference no.: 32)

Reply:

The expenditure for the Mainland exchange programmes in the past 3 school years (2016/17 to 2018/19) and the 2019/20 school year is as follows:

School year	Expenditure ($ million)[@]	
	Programmes for primary and secondary school students	Programmes for primary and secondary school teachers
2016/17	64.2	2.9
2017/18 [#]	85.4	5.5
2018/19 [*]	103.3	8.7
2019/20 [++]	115	13.2

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the Education Bureau (EDB)

[#] Actual figures revised from last year's estimates

[*] Provisional figures

[++] Estimated figures

National education in the wider context also includes learning about various aspects of our country from an appropriate perspective through different subjects. There are references to our country's history, culture, geographic features, development, etc. in the curriculum content of History, General Studies, Chinese Language, Geography and even Music and Arts. Moreover, elements that enable a better understanding of our country are added to different life-wide learning activities, such as activities related to the Hong Kong Special Administrative Region Establishment Day or National Day. The EDB provides support for schools in various areas. The relevant expenditure is subsumed under the recurrent expenditure of the EDB and cannot be identified separately.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2847)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in "Matters Requiring Special Attention in 2019-20" under Programme (3) that the Bureau will continue to extend the Learning Support Grant (LSG) for public sector primary schools to cover students with mental illness in order to help schools cater for their learning, social, emotional and behavioural needs. Would the Government please inform this Committee of the following:

(1) The expenditure and manpower for extending the LSG to cover students with mental illness;

(2) Has the Bureau used the LSG to implement measures for supporting students with mental illness? If yes, what are the details? If no, what are the reasons?

(3) Has the Bureau conducted any effectiveness assessment of the measures for supporting students with mental illness? If yes, what are the details? If no, what are the reasons?

Asked by: Hon FAN Kwok-wai, Gary (LegCo internal reference no.: 33)

Reply:

(1) to (3)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing all mainstream schools with additional resources on top of the regular subvention, including the Learning Support Grant (LSG). Starting from the 2017/18 school year, the LSG covers students with mental illness (MI) so that schools will have additional resources to provide enhanced support for catering for these students' learning, social, emotional and behavioural needs. The LSG is calculated on the basis of the number of students with SEN and the tier of support the students require. Basing on

the principle of "calculation on individual basis and deployment holistically", schools should pool and deploy the LSG and other school resources flexibly and holistically to render support for students with SEN according to individual conditions and needs, such as employing additional teachers or teaching assistants or hiring professional services.

As the expenditure involved in providing public sector mainstream primary schools with the LSG to render support to students with MI is subsumed under the overall expenditure of the LSG, a separate breakdown is not available. For the 2018/19 school year, the revised estimated expenditure for the provision of the LSG to public sector mainstream primary schools is around $300 million.

In utilising the LSG to support students with MI, schools may employ additional staff (e.g. teaching assistants) to assist teachers in designing learning activities and materials as well as supporting students in classroom learning activities, hire professional support or guidance services (e.g. behavioural or emotional counseling and social training at school) in order to help students adjust to campus life. Schools may also use the LSG to implement school-based teacher training and parent education, etc.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies, measures and deployment of resources (including the support for students with SEN) through self-evaluation every year. As required by EDB, schools should submit an annual self-evaluation report, which is validated through External School Review by the EDB, on the implementation of the Whole School Approach to integrated education to the EDB at the end of a school year. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. When using Government subventions (including the LSG), all public sector schools are required to adopt an effective monitoring system, maintain proper records and conduct periodic review. Professional staff from EDB will review the support provided by schools for students with SEN and offer professional advice whenever necessary during school visits in order to ensure that the support services can address the needs of students with SEN (including students with MI). It should be noted that students diagnosed with MI should receive treatment in strict accordance with the instructions given by healthcare professionals. On the part of schools, subject to the consent of the parents, teachers may use the LSG or other resources to provide professional support, with a view to helping the students concerned to cope with the learning and personal growth challenges that the illness brings to them.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2535)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the numbers of kindergartens and kindergarten-cum-child care centres joining the kindergarten education scheme in the 2018/19 school year, with a breakdown by district, learning mode (half-day/whole-day/long whole-day), number of students, school fee level and teacher-to-pupil ratio; and their percentage out of the total number of kindergartens in Hong Kong.

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 30)

Reply:

In the 2018/19 school year, a total of 753 kindergartens and kindergarten-cum-child care centres (collectively referred to as KGs) have joined the kindergarten education scheme (Scheme), accounting for about 97% of the 779 eligible KGs (i.e. local non-profit-making (NPM) KGs) in the territory. In terms of the 1 033 KGs in Hong Kong (i.e. including the eligible KGs mentioned above, local private independent (PI) KGs and non-local KGs), KGs joining the Scheme account for about 73%. The number and percentage of KGs joining the Scheme by District Council district are tabulated in Appendix 1; the number and percentage by school type (i.e. operating half-day (HD), whole-day (WD), and/or long WD (LWD) services) are tabulated in Appendix 2; and the number and percentage by number of students are tabulated in Appendix 3. For their number and percentage by school fee and teacher-to-pupil (TP) ratio, and their percentage share in the total number of KGs in Hong Kong, as KGs joining the Scheme receive substantial subsidy from the Government and their TP ratio is subject to the terms of the Scheme, it is inappropriate to present the situation in comparison with all KGs in Hong Kong. We consider it more appropriate to present the separate information for KGs joining the Scheme and KGs in Hong Kong. In this connection, the number of KGs joining the Scheme and collecting school fee, the lowest annual school fee, the highest annual school fee, median annual school fee and weighted average annual school fee and the relevant situation of KGs in Hong Kong are tabulated in

Appendix 4; the TP ratio of KGs joining the Scheme and local KGs are tabulated in Appendix 5.

Appendix 1

Number of KGs joining the Scheme
by District Council district in the 2018/19 school year

District	Number of KGs joining the Scheme	Number of KGs in Hong Kong (by District)	Percentage of KGs joining the Scheme
Central & Western	24	47	51.1%
Wan Chai	14	31	45.2%
Eastern	56	83	67.5%
Southern	19	40	47.5%
Sham Shui Po	42	51	82.4%
Yau Tsim Mong	27	41	65.9%
Kowloon City	45	101	44.6%
Wong Tai Sin	45	48	93.8%
Kwun Tong	72	76	94.7%
Tsuen Wan	33	41	80.5%
Tuen Mun	59	68	86.8%
Yuen Long	70	78	89.7%
North	43	48	89.6%
Tai Po	24	37	64.9%
Sha Tin	59	81	72.8%
Sai Kung	41	64	64.1%
Islands	23	35	65.7%
Kwai Tsing	57	63	90.5%

Note: KGs in Hong Kong include local NPM KGs eligible for joining the Scheme as well as local PI KGs and non-local KGs which are ineligible for joining the Scheme.

Number of KGs joining the Scheme and
their percentage share in KGs of Hong Kong
by school type (i.e. operating HD, WD, and/or LWD classes)
in the 2018/19 school year

Service	Number of KGs joining the Scheme (Note 1)	Number of KGs in Hong Kong (Note 1, 2)	Percentage share of KGs joining the Scheme
Operating HD class	511	772	66.2%
Operating WD class	364	459	79.3%
Operating LWD class	246	246	100%

Note:

(1) KGs with both HD and WD/LWD classes are concurrently counted under the respective column of HD, WD and LWD classes.

(2) KGs in Hong Kong include local NPM KGs eligible for joining the Scheme as well as local PI KGs and non-local KGs which are ineligible for joining the Scheme.

Appendix 3

Number of KGs joining the Scheme and
their percentage share in KGs of Hong Kong
by number of students in the 2018/19 school year

Number of students	Number of KGs joining the Scheme	Number of KGs in Hong Kong (Note)	Percentage share of KGs joining the Scheme
90 or less	194	334	58.1%
91 to 180	307	369	83.2%
181 to 270	124	157	79.0%
More than 270	128	173	74.0%

Note: KGs in Hong Kong include local NPM KGs eligible for joining the Scheme as well as local PI KGs and non-local KGs which are ineligible for joining the Scheme.

Number of KGs joining the Scheme and collecting school fee
and number of KGs in Hong Kong
and
their respective lowest annual school fee, highest annual school fee,
median annual school fee and weighted average annual school fee
by school type in the 2018/19 school year

(1) Number of KGs

Class	Number of Scheme KGs collecting school fee	Number of KGs in Hong Kong (Note 1)
HD class	34	772
WD class	316	459
LWD class	225	246

(2) School fee of KGs joining the Scheme

Service	Lowest annual school fee ($) (Note 2)	Highest annual school fee ($) (Note 2)	Median annual school fee ($) (Note 2)	Weighted average annual school fee ($) (Note 2)
HD class	100	10,100	3,400	3,700
WD class	200	26,200	8,100	8,700
LWD class	700	26,200	12,000	11,600

(3) School fee of local NPM KGs not joining the Scheme

Class	Lowest annual school fee ($) (Note 2)	Highest annual school fee ($) (Note 2)	Median annual school fee ($) (Note 2)	Weighted average annual school fee ($) (Note 2)
HD class	22,400	66,000	36,900	38,500
WD class	38,300	198,300	87,400	90,300

(4) School fee of local PI KGs

Class	Lowest annual school fee ($) (Note 2)	Highest annual school fee ($) (Note 2)	Median annual school fee ($) (Note 2)	Weighted average annual school fee ($) (Note 2)
HD class	18,200	110,000	59,800	61,800
WD class	38,300	149,800	81,600	75,600

(5) School fee of non-local KGs

Class	Lowest annual school fee ($) (Note 2)	Highest annual school fee ($) (Note 2)	Median annual school fee ($) (Note 2)	Weighted average annual school fee ($) (Note 2)
HD class	27,600	160,800	78,800	80,600
WD class	47,800	198,300	118,600	126,000

Note:

(1) KGs in Hong Kong include local NPM KGs eligible for joining the Scheme as well as local PI KGs and non-local KGs which are ineligible for joining the Scheme.

(2) Figures are rounded to the nearest 100. KGs with both HD and WD/LWD classes are concurrently counted under the respective column of HD, WD and LWD classes.

TP ratio of KGs joining the Scheme and all local KGs in the 2018/19 school year

(1) TP ratio of KGs joining the Scheme

	KGs operating HD class only	KGs operating WD class only (except former aided child care centres (FACs))	KGs operating both HD and WD classes (except FACs)	FACs
Average ratio in morning session	1:10.1	1:10.6	1:11.2	1:9.4
Average ratio in afternoon session	1:8.7	1:10.7	1:8.4	1:9.5

(2) TP ratio of all local KGs

	KGs operating HD class only	KGs operating WD class only (except FACs)	KGs operating both HD and WD classes (except FACs)	FACs
Average ratio in morning session	1:10.4	1:10.4	1:11.5	1:9.4
Average ratio in afternoon session	1:8.6	1:10.5	1:8.3	1:9.5

Note:

(1) Information provided in the reply is based on an annual questionnaire survey on the monthly salary of full-time regular KG teachers conducted by the Education Bureau in September of the respective school years.

(2) Under the Scheme, the number of teachers a KG needs to employ to meet the required overall TP ratio of 1:11 is calculated based on the total number of students in all of its classes as at mid-September. KGs may flexibly deploy teachers to take up duties in different sessions of the day.

(3) Only teachers holding Certificate in Early Childhood Education are included (principal not included).

(4) Local KGs include local NPM KGs eligible for joining the Scheme and local PI KGs which are ineligible for joining the Scheme.
(5) FACs refer to aided child care centres operated by the Social Welfare Department before the harmonisation of pre-primary services; they usually operate longer service hours.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2536)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following:

(a) What are the numbers of public sector primary and secondary school teachers with a degree or equivalent qualification, and their respective percentages out of the total numbers of public sector primary and secondary school teachers in the 2018/19 school year?

(b) What are the numbers of public sector primary and secondary school teachers without a degree or equivalent qualification, their respective percentages out of the total numbers of public sector primary and secondary school teachers, and the number of these teachers who still hold a non-graduate teacher post in the 2018/19 school year?

(c) Starting from the 2019/20 school year, public sector primary and secondary schools may, in the light of their school-based circumstances, fully implement the policy for an all-graduate teaching force within a two-year period. What will be the total expenditure involved? What will the Government do if a school fails to give all qualified teachers a graduate teacher post within the time limit?

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 36)

Reply:

(a) In the 2018/19 school year, the number of public sector primary and secondary school teachers without a bachelor's degree and their percentage against the total number of public sector primary and secondary school teachers are set out below:

Public Sector Primary and Secondary Schools

	No. of teachers without a bachelor's degree#*	Percentage# (%)
Primary Schools (Government and Aided)	530	2.4
Secondary Schools (Government, Aided and Caput)	250	1.1

Estimated figures
* Numbers are rounded to the nearest 10

(b) In the 2018/19 school year, the number of public sector primary and secondary school teachers with a bachelor's degree and their percentage against the total number of public sector primary and secondary school teachers, and the number of those teachers who are appointed to non-graduate teacher posts are set out below:

Public Sector Primary and Secondary Schools

	No. of teachers with a bachelor's degree#*	Percentage# (%)	No. of teachers appointed to non-graduate teacher posts#*
Primary Schools (Government and Aided)	21 590	97.6	11 270
Secondary Schools (Government, Aided and Caput)	22 200	98.9	4 300

Estimated figures
* Numbers are rounded to the nearest 10

(c) As announced in the 2018 Policy Address, the all-graduate teaching force policy would be implemented in public sector primary and secondary schools in one go in the 2019/20 school year. Schools may, taking into account their school-based circumstances, achieve full implementation in two years. The amount of additional funding involved is about $1.5 billion.

Starting from the 2019/20 school year, all teaching posts within the approved establishment of public sector primary and secondary schools will be graduate teacher posts. Schools may, in light of their own circumstances, arrange eligible teachers who are willing to shoulder the duties of graduate teachers to be regraded as graduate teachers by the 2020/21 school year. According to the prevailing arrangement, if teachers, for various reasons (e.g. without a recognised degree), choose to stay in the non-graduate grade, schools are required to offset the corresponding graduate teacher posts until the teachers concerned leave service because of natural wastage. The

Education Bureau (EDB) will gain understanding of the utilisation of graduate teacher posts in schools through day-to-day contacts with school administrators and school visits. The EDB will also closely monitor the implementation progress of the policy in schools. The School Management Committee/Incorporated Management Committee may be required to submit a school-based implementation plan to the EDB for examination when necessary.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2551)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please list, by district, school type and length of teaching service, the number of Student Guidance Teachers serving at primary schools in the 2018/19 school year. Is there any plan to offer relevant training courses and recruit additional Student Guidance Teachers so as to strengthen the school guidance service for students? If yes, what are the details and what is the expenditure involved? If no, what are the reasons?

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 32)

Reply:

In the 2018/19 school year, there are 113 Student Guidance Teachers (SGTs) serving at aided primary schools. Information on their length of teaching service is not available. As the decision of whether to employ SGTs rests with schools or school sponsoring bodies and this has no connection with school location, the Education Bureau (EDB) does not make analysis on a district basis for compilation of relevant statistics.

Currently, tertiary institutions offer various programmes on social work and guidance services. These programmes cover such areas as counselling skills and practice, case management, personal growth education, catering for student diversity, Comprehensive Student Guidance Service and small group interaction. Every year, the EDB commissions tertiary institutions to organise Certificate Courses on Student Guidance and Discipline for Teachers of Primary Schools to support teachers and strengthen school guidance service. Given that there are sufficient student guidance training courses for teachers interested in student guidance work, the EDB has no plan to offer additional training courses at the moment.

With the implementation of the "one school social worker for each school" policy in the 2018/19 school year, the EDB will collect data and views by such means as questionnaire

surveys and school visits for reviewing the mode of collaboration between student guidance and social work services, and communicate with the education sector to heed its views and suggestions and identify the best way to provide school social work and guidance services by exploring all feasible proposals. The review work is underway. At the current stage, the EDB does not have any plan to create additional posts in relation to guidance work.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2742)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

1. What was the expenditure on pay and allowances for the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education in the past 5 years? What is the estimated expenditure for the coming year?

2. Please give details of the duty visits outside Hong Kong made by the Secretary for Education and the Under Secretary for Education in the past 2 years, including dates, purpose/outcome of visit, size of entourage and the expenditure involved.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 19)

Reply:

1. The salary expenditure for the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education from 1 April 2014 onwards is as follows:

	Salary ($million)				
	2014-15	**2015-16**	**2016-17**	**2017-18**	**2018-19**
Secretary for Education	3.42	3.58	3.58	3.90	4.06
Under Secretary for Education	2.22	2.33	2.33	2.31*	2.64
Political Assistant to Secretary for Education	1.20	1.25	1.25	1.16#	1.42

* The post was vacant from 1 July 2017 to 1 August 2017.

\# The post was vacant from 1 July 2017 to 22 August 2017.

For budgetary purposes, the estimates for the salary expenditure for the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education in 2019-20 are around $4.08 million, $2.65 million and $1.43 million respectively.

2. Information about duty visits outside Hong Kong made by the Secretary for Education and the Under Secretary for Education in 2017-18 and 2018-19 is at Annexes A and B respectively.

Duty visits outside Hong Kong made by Secretary for Education (SED)

(1) From 1 April 2017 to 30 June 2017

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
20 to 23 April 2017	Shanghai and Hang-zhou	To meet with local education officials and attend university exchange activities to promote co-operation in higher education	2	5,926 Hotel expenses in Hangzhou covered by overseas subsistence allowance which is included in column (C)	16,310	17,773	40,009
26 to 28 April 2017	Vietnam	To meet with local education officials and university management to explore opportunities for promoting co-operation between higher education institutions of the two places, and to deliberate on the agreement and measures for extending the "Belt and Road" Scholarship to Vietnam	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	15,652	14,617	30,269
21 to 24 May 2017	United Kingdom	To attend and speak at the Going Global 2017, and to hold bilateral meetings with education officials from around the world	2	14,896	84,367	43,788	143,051

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	(C) Other expenses ($) (Note 4)	Total expenditure incurred by SED & official entourage from SED's Office ($) (A)+(B)+(C)
31 May & 1 June 2017	Beijing	To visit Beijing with the leaders of the 8 University Grants Committee-funded universities to meet with officials of the Ministry of Education and the Beijing Municipal Education Commission to exchange views on higher education	2	4,860	23,240	3,703	31,803
6 June 2017	Shenzhen	To attend and give opening remarks at the Annual Meeting of Guangdong-Hong Kong-Macau University Alliance cum Presidents' Forum, and to visit the Cross-boundary Students Service Centre in Shenzhen to meet with parents of Hong Kong children and learn about updates on the schooling and living of the students	3	No expenses as no over-night stay	No air passage (by car)	7,646	7,646
13 to 16 June 2017	Myanmar	To have a meeting with the Union Minister of Education of Myanmar, at which both sides agreed to follow up on and finalise a memorandum of understanding on education co-operation, with a view to providing a foundation for further co-operation on the education front	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	1,459 (The expenditure covers departure tax, passenger security charge and airport construction fee; the flight ticket was redeemed with flight award)	16,841	18,300

16 & 17 June 2017	Macau and Zhuhai	To meet with local education officials to deliberate on ways to enhance education co-operation through the development plan for a city cluster in the Guangdong-Hong Kong-Macao Bay Area	2	2,430	No air passage (by ferry)	4,645	7,075
22 June 2017	Shenzhen	To lead a delegation of representatives of school sponsoring bodies in a site visit to Shenzhen to explore opportunities for promoting education co-operation and student learning of the two places	2	No expenses as no over-night stay	No air passage (by car)	6,960	6,960

(2) From 1 July 2017 to 8 March 2019

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	(C) Other expenses ($) (Note 4)	Total expenditure incurred by SED & official entourage from SED's Office ($) (A)+(B)+(C)
18 to 20 September 2017	Beijing	To attend a working meeting with officials of the Ministry of Education, and to pay courtesy calls on the Hong Kong and Macao Affairs Office of the State Council and the Beijing Municipal Education Commission	-	3,240	4,256	2,730	10,226

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	(C) Other expenses ($) (Note 4)	Total expenditure incurred by SED & official entourage from SED's Office ($) (A)+(B)+(C)
21 to 25 January 2018	United Kingdom	To speak at the Education World Forum and hold bilateral meetings with individual education ministers attending the Forum, to visit the Department for Education of the UK, Chartered College of Teaching and British Council, to visit the British Educational Training & Technology Show, and to meet with Hong Kong teachers who were on study tour in UK	2	32,639	160,508	12,292	205,439
29 March 2018	Shenzhen	To attend the Establishment Ceremony of the Harmonia College of the Chinese University of Hong Kong, Shenzhen	-	-	-	-	[Travelling expenses borne by the Constitutional and Mainland Affairs Bureau]
20 to 22 June 2018	Beijing	To attend a regular working meeting with the Ministry of Education, to visit a local secondary school and a local university, and to meet Hong Kong young people who were pursuing tertiary studies or working in Beijing	1	6,541	10,800	5,000	22,341
26 July 2018	Huizhou	To meet with education officials of the Huizhou Municipal Government to explore co-operation opportunities in education	1	No expenses as no over-night stay	No air passage (by car)	2,400	2,400

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	(C) Other expenses ($) (Note 4)	Total expenditure incurred by SED & official entourage from SED's Office ($) (A)+(B)+(C)
29 August 2018	Zhuhai and Zhongshan	To meet with officials of the Zhuhai Education Bureau and the Zhongshan Education and Sports Bureau to explore co-operation opportunities in education between Hong Kong and the two municipalities under the development of the Greater Bay Area	2	No expenses as no over-night stay	No air passage (by ferry)	1,230	1,230
28 September to 1 October 2018	Beijing	To attend the exchange activities of the National Day Delegation from the Educational Sector of Hong Kong 2018	1	15,000	16,116	5,960	37,076
28 to 30 October 2018	Hangzhou and Ningbo	To attend the Ningbo-Hong Kong Education Co-operation Forum 2018, to meet with officials of Zhejiang Province, Hangzhou and Ningbo, and to visit various education organisations	1	7,907	8,142	1,821	17,870
4 December 2018	Guangzhou	To attend the Guangdong-Hong Kong Sister School Contract Signing Ceremony 2018	1	No expenses as no over-night stay	No air passage (by high speed rail)	972	972
22 January 2019	Zhuhai	To visit a higher education institution, looking into the participation of Hong Kong's universities in higher education development in the Guangdong-Hong Kong-Macao Greater Bay Area	1	No expenses as no over-night stay	No air passage (by car)	2,500	2,500

Notes:

(1) The Secretary for Education would meet local students from Hong Kong where possible.

(2) Hotel accommodation was provided in accordance with the relevant Civil Service Regulations and guidelines.

(3) Proper class of passages was provided in accordance with the relevant Civil Service Regulations and guidelines, taking into account such factors as rank of post, flying time, flight schedule and details.

(4) Other expenses include overseas subsistence allowance and other incidental expenses related to the duty visits outside Hong Kong. Subsistence allowance was provided in accordance with the relevant Civil Service Regulations and guidelines, which is intended to cover, inter alia, the cost of accommodation, meals and in-town transport.

Duty visits outside Hong Kong made by Under Secretary for Education (US(Ed))

(1) From 1 April 2017 to 30 June 2017

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**C) Other expenses** ($) (Note 4)	**Total expenditure incurred by US(Ed) & official entourage from SED's Office** ($) (A)+(B)+(C)
17 to 19 April 2017	Nanjing	To attend the working meeting on the Exchange Programme for Teachers and Students of Higher Education Institutions in the Mainland, Hong Kong and Macau 2017	-	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	9,750	4,225	13,975

(2) From 1 July 2017 to 8 March 2019

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**C) Other expenses** ($) (Note 4)	**Total expenditure incurred by US(Ed) & official entourage from SED's Office** ($) (A)+(B)+(C)
28 September to 1 October 2017	Beijing	To lead the National Day Delegation from the Educational Sector of Hong Kong to participate in educational exchange activities in Beijing	1	- [Hotel accommo-dation sponsored by the Ministry of Education and the sponsored amount is not available]	13,774	8,544	22,318
19 to 25 February 2018	USA	To visit information technology companies in the Silicon Valley, USA to learn about the latest development of e-learning	-	11,000	57,910	6,106	75,016

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	C) Other expenses ($) (Note 4)	Total expenditure incurred by US(Ed) & official entourage from SED's Office ($) (A)+(B)+(C)
10 to 12 May 2018	Chengdu	To accompany the Chief Executive in attending activities on Hong Kong-Sichuan co-operation	-	2,119	3,440	1,654	7,213
22 & 23 May 2018	Hangzhou	To attend the Zhejiang-Hong Kong Sister School Contract Signing Ceremony and interflow activities	-	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	4,170	2,238	6,408
12 June 2018	Macao	To attend a forum on higher education in the Guangdong-Hong Kong-Macao Greater Bay Area	-	No expenses as no over-night stay	No air passage (by ferry)	575	575
30 June 2018	Shenzhen	To attend activities related to STEM education in China	-	No expenses as no over-night stay	No air passage (by car)	2,287	2,287
15 to 20 August 2018	Yinchuan and Dunhuang	To join a visit of history and culture education to Yinchuan and Dunhuang	-	2,250	6,236	4,882	13,368
4 to 7 October 2018	Canada	To attend steering group meetings and summits of the Organisation for Economic Co-operation and Development	1	9,355	66,028	8,835	84,218
23 & 24 October 2018	Beijing	To attend the opening ceremony of the Beijing-Hong Kong University Alliance Summit	-	3,612	5,920	3,887	13,419
5 & 6 November 2018	Shanghai	To attend the launch ceremony of the Shanghai-Hong Kong University Alliance	-	2,852	4,710	2,098	9,660

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	C) Other expenses ($) (Note 4)	Total expenditure incurred by US(Ed) & official entourage from SED's Office ($) (A)+(B)+(C)
27 to 29 November 2018	Fuzhou, Wuyi Shan and Xiamen	To accompany the Chief Secretary for Administration in attending the third Hong Kong/Fujian Co-operation Conference and visiting Xiamen	-	1,771	971	2,339	5,081
21 December 2018	Guangzhou	To attend the signing ceremony of the collaboration agreements between the Hong Kong University of Science and Technology, and the Guangzhou Municipal Government and Guangzhou University to establish the Hong Kong University of Science and Technology (Guangzhou)	-	No expenses as no over-night stay	No air passage (by train)	900	900

Notes:

(1) The Under Secretary for Education would meet local students from Hong Kong where possible.

(2) Hotel accommodation was provided in accordance with the relevant Civil Service Regulations and guidelines.

(3) Proper class of passages was provided in accordance with the relevant Civil Service Regulations and guidelines, taking into account such factors as rank of post, flying time, flight schedule and details.

(4) Other expenses include overseas subsistence allowance and other incidental expenses related to the duty visits outside Hong Kong. Subsistence allowance was provided in accordance with the relevant Civil Service Regulations and guidelines, which is intended to cover, inter alia, the cost of accommodation, meals and in-town transport.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2744)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the kindergarten education scheme, please provide the following information:

(1) The number of half-day, whole-day and long whole-day kindergartens benefitting from the scheme, and the expenditure involved last year;

(2) Among the kindergartens subsidised under the scheme last year, the number of half-day, whole-day and long whole-day kindergartens that still collected school fees, and the respective amount of average, lowest, highest and median annual school fee; and

(3) For the coming year, i) the number of half-day, whole-day and long whole-day kindergartens that will benefit from the scheme; ii) the expenditure involved; and iii) the number of subsidised kindergartens that will still collect school fees, as well as the respective amount of average, lowest, highest and median annual school fee.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 21)

Reply:

(1) In the 2017/18 school year, a total of 748 kindergartens and kindergarten-cum-child care centres (collectively referred to as KGs) in the territory joined the kindergarten education scheme (Scheme). Among the 748 KGs joining the Scheme (Scheme-KGs), the respective number of KGs operating half-day (HD), whole-day (WD) and long whole-day (LWD) classes was 510, 354 and 246 (Note: KGs operating both HD and WD/LWD classes were concurrently counted in the respective category under HD, WD and LWD classes). The expenditure on the Scheme in 2017-18 (the previous year) was about $3.9 billion, reflecting the estimated expenditure for the first 8 months (i.e. from August 2017 to March 2018) after the implementation of the Scheme in the

2017/18 school year and the one-off start-up grant provided in 2016-17 and 2017-18 for Scheme-KGs.

(2) In the 2017/18 school year, the respective number of Scheme-KGs operating HD, WD and LWD classes with approval to charge school fees was 34, 316 and 225. For these KGs, the weighted average school fee, median school fee, highest school fee and lowest school fee are tabulated as follows (Note 1):

Annual school fee	HD Class	WD Class	LWD Class (Note 2)
Weighted average	$3,000	$8,100	$11,000
Median	$2,900	$7,300	$11,400
Highest	$9,500	$25,900	$22,500
Lowest	$100	$200	$900

Note 1: Figures are rounded to the nearest 100. KGs operating both HD and WD/LWD classes are concurrently counted in the respective column under HD, WD and LWD classes.

Note 2: It refers to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.

(3) In the 2018/19 school year, the total number of Scheme-KGs is 753, accounting for about 97% of the 779 eligible KGs (i.e. local non-profit-making KGs) in the territory. The estimated number of Scheme-KGs in the 2019/20 school year is about 760 and the estimated expenditure on the Scheme for 2019-20 (the coming year) is about $6.3 billion. The Education Bureau conducts a student enrolment survey on local KGs at the beginning of each school year to collect data for analysis and compilation of other relevant information (e.g. number of KGs, classes and school places). Hence, a breakdown of the number of Scheme-KGs operating HD, WD and LWD classes in the 2019/20 school year is not available yet. In respect of school fees for the 2019/20 school year, as we are still vetting KGs' applications for school fee revision, the information requested is unavailable at this stage.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2745)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Enhanced School-based Educational Psychology Service (SBEPS), please advise of the following:

1. whether the Education Bureau's statement last year that the Enhanced SBEPS would be expanded to about 120 primary and secondary schools in the 2018/19 school year is the same as what is mentioned in the 2019-20 Estimates, i.e. the EDB will extend the Enhanced SBEPS (with the ratio of educational psychologist (EP) to school being 1:4) to about 60 per cent of all public sector primary and secondary schools and enhance the ratio of EP to school to 1:6 for the remaining 40 per cent of primary and secondary schools in the coming year; if not, the details;

2. the progress to date of the extension of the Enhanced SBEPS, including the number of primary and secondary schools currently provided with the service;

3. the number of EPs that provided the SBEPS and the expenditure involved in the past 3 years;

4. the work that the EDB will undertake in respect of the provision of SBEPS for all public sector primary and secondary schools in the coming year, the estimated expenditure and manpower resources involved; and

5. the outcome of EDB's negotiations with local universities to explore the feasibility of increasing the number of EP training places (which were ongoing last year according to EDB).

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 22)

Reply:

1. to 5.
All public sector mainstream primary and secondary schools have been provided with the School-based Educational Psychology Service (SBEPS) starting from the 2016/17 school year. School-based educational psychologists (EPs) adopt a comprehensive and integrated service model to provide support at the school system, teacher and student levels to enhance schools' professional capacity to cater for students' diverse educational needs. In that school year, the Education Bureau (EDB) progressively improved the ratio of EP to school to 1:4 for public sector mainstream primary and secondary schools with comparatively large number of students with special educational needs (SEN), i.e. Enhanced School-based Educational Psychology Service (Enhanced SBEPS). In the 2018/19 school year, the Enhanced SBEPS covers 119 primary and secondary schools. The Enhanced SBEPS will be extended to about 150 primary and secondary schools in the 2019/20 school year. As announced by the Chief Executive in the 2018 Policy Address, the Enhanced SBEPS will be further extended with the target of covering about 60% of public sector mainstream primary and secondary schools, and the ratio will be enhanced to 1:6 for the remaining 40% of schools by the 2023/24 school year.

The number of EPs providing the SBEPS from the 2016/17 to 2018/19 school years is 138, 144 and 151 respectively, and the estimated number of EPs in the 2019/20 school year is 158. The expenditure on the provision of the SBEPS for public sector mainstream schools is tabulated below:

School Year	2016/17	2017/18	2018/19 (Revised Estimate)	2019/20 (Revised Estimate)
Expenditure ($ million)	119	127	173	185

With regard to increasing the supply of EPs, the EDB has liaised with local universities and the University Grants Committee to increase EP training places. It is expected that an additional 45 places will be provided in the 2019-2022 triennium as compared with the previous triennium.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2746)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from last year, public sector schools have been provided with a recurrent Air-conditioning Grant by the Education Bureau. In this connection, please provide the following information:

(1) A breakdown showing the number of grant applications, the number of schools receiving the grant, the average amount and the total amount disbursed listed according to the use of the grant (e.g. electricity charges and routine maintenance costs etc.); and

(2) The estimated expenditure and manpower involved in the provision of the grant in the coming year.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 23)

Reply:

(1) Starting from the 2018/19 school year, a recurrent Air-conditioning Grant (AC Grant) has been provided for all public sector schools by the Education Bureau (EDB). The number of schools is tabulated as follows:-

Finance Type	Primary School	Secondary School	Special School
Government	34	31	-
Aided	422	359	59*
Caput	-	2	-

*not applicable to the Hospital School

The AC Grant is calculated based on the types and number of eligible rooms/facilities in a school. Whenever a school changes the use of its teaching facilities, carries out structural alteration or conversion works, or installs air-conditioning systems for eligible facilities without such provision in accordance with the prevailing mechanism during the school year, the AC Grant will be adjusted accordingly. The average and total amount of the grant allocated in the 2018/19 school year are not available at this stage as the school year has not yet come to a close. The overall estimated expenditure is around $380 million. Since the AC Grant is provided in the form of a block grant, schools are not required to make separate grant applications for the daily expenses of air-conditioning systems (including electricity charges and routine maintenance costs).

(2) As the manpower and expenditure involved in the provision of the AC Grant are subsumed under EDB's overall expenditure, a breakdown of the estimated expenditure is not available. The rates for different types of eligible rooms/facilities under the AC Grant will be adjusted annually in accordance with the movement of the Composite Consumer Price Index.

(Question Serial No. 2748)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under Matters Requiring Special Attention in the coming year that the Education Bureau will continue to provide recurrent grant and professional support for public sector secondary, primary and special schools that have formed sister schools with their counterparts in the Mainland. Please advise on:

1. the number of secondary, primary and special schools that have formed sister schools with their counterparts in the Mainland in the past 3 years and the expenditure on related programmes;

2. the relevant work, including the estimated expenditure and manpower resources involved, in the coming year; and

3. regarding the initiative "to study and explore the feasibility of linking up kindergartens in Guangdong, Hong Kong and Macao as 'sister kindergartens'" mentioned in the Outline Development Plan for the Guangdong-Hong Kong-Macao Greater Bay Area, whether the Administration will take this forward in the coming year; if yes, please provide the details, including the estimated expenditure and manpower resources involved.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 25)

Reply:

1. and 2. The Education Bureau (EDB) launched the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme) from the 2015/16 to 2017/18 school years, under which a fixed grant of $120,000 per annum and professional support were provided for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. The number of schools participating in the Pilot Scheme and the expenditure of the grant are tabulated below:

School year	Secondary school	Primary school	Special school	Total no. of schools	Expenditure of grant ($ million)
2015/16	150	139	13	302	36.24
2016/17	223	228	20	471	56.52
2017/18	250	260	25	535	64.20

The Government has regularised the Pilot Scheme with effect from the 2018/19 school year to provide a recurrent grant (which is set at $150,000 for the 2018/19 school year and the amount of grant will be adjusted in accordance with the movement of the Composite Consumer Price Index each year) and professional support for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. As at March 2019, 626 local schools have applied for the Grant for the Sister School Scheme. Applications are open all year round. It is anticipated that there will be 700 and 775 participating primary, secondary and special schools in the 2018/19 and 2019/20 school years respectively. The EDB will continue to provide assistance to local schools to form sister schools in the Mainland to promote more in-depth professional exchange and multi-faceted collaboration, with a view to enhancing the quality and quantity of sister school exchanges, and hence facilitating cultural exchange and increasing teachers' and students' knowledge and understanding of the Mainland. The EDB is using its existing resources to carry out the relevant work. As the manpower and expenditure involved are subsumed under the departmental expenditure of the EDB, a breakdown is therefore not available.

3. Forming "sister kindergartens" between kindergartens or nurseries in Hong Kong and those in the Mainland and Macao helps promote cultural exchange and enhance the professional competency of kindergarten teachers. Given the tender age of kindergarten students, it is not appropriate to arrange them for mutual visits as practiced for primary and secondary students. As such, we need to carefully consider the implementation strategies and pace, and no relevant information is available at this stage. At present, to promote exchanges among the three regions, we have been actively organising diversified professional exchange activities for kindergartens, such as the Shenzhen-Hong Kong Principals' Forum, the Mainland-Hong Kong Teachers Exchange & Collaboration Programme, and study trips on the Mainland's kindergarten education development.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2749)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As stated in Matters Requiring Special Attention in the coming year, the Education Bureau will continue to subsidise schools and non-profit making organisations under the School-based After-school Learning and Support Programmes (Programme) to support needy students to participate in after-school activities. Please advise this Committee of the following:

1. For the past year, the number of needy students benefitting from the Programme, the number of schools and non-profit making organisations in receipt of the subsidies, the amount of subsidies, and the types of after-school activities organised; and

2. For the coming year, details of relevant work, including the estimated expenditure and manpower resources involved.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 26)

Reply:

1. To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS).

In the 2017/18 school year, for the School-based Grant, 902 schools which constitute more than 90% of all the eligible schools in the territory with 213 400 eligible students participate in the Programme. Regarding the Community-based Project Grant, the 508 projects organised by 169 NGOs are targeted at individual eligible students totaling about 100 000. The total funding for the Programme is about $240 million, in which about $117 million is for the School-based Grant and about $123 million for the Community-based Project Grant.

The objectives of the Programme are to help needy students enhance learning effectiveness, broaden learning experience outside classroom and raise understanding of and sense of belonging to the community. The types of activities grouped along the above-mentioned major objectives are set out below. A wide spectrum of activities is organised under each type by the schools and/or the NGOs provided with the grants to cater for the diverse needs of students.

Objectives	To enhance learning effectiveness	To broaden learning experience outside classroom	To raise understanding of and sense of belonging to the community
Types of activities	• Tutorial services • Training of learning skills • Training of languages	• Art & cultural activities • Sports activities • Visits & outdoor activities	• Volunteer services • Social & communication skills training (complemented by development of self-confidence through leadership training, adventure activities, etc.)

2. For the 2019/20 school year, EDB will earmark around $240 million to continue subsidising schools and NGOs under the Programme to organise diversified after-school activities. The relevant manpower resources and staff expenses are subsumed under the overall expenditure of EDB and no breakdown is available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2750)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under Matters Requiring Special Attention in the coming year that the Administration will further enhance the provision of school nurses and school social workers. Please provide the relevant details, including the estimated expenditure involved and manpower arrangements.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 27)

Reply:

The Education Bureau (EDB) has enhanced the establishment of school nurse and school social worker in special schools in the 2018/19 school year. For school nurses, 1 additional school nurse is provided for schools for children with intellectual disability, schools for children with physical disability and the school for children with visual impairment cum intellectual disability. In addition, the provision of school nurses has been expanded to cover the school for children with visual impairment and the school for children with hearing impairment, so that these schools each have a school nurse to strengthen their support for students with care needs. In the 2018/19 school year, the EDB has provided the above special schools with a total of 51 additional school nurse posts, which involve an expenditure of around $26 million. For school social workers, special schools with a total capacity of 60 or fewer are provided with 1 school social worker, and subsequently 0.5 school social worker for every 30 students. In the 2018/19 school year, the EDB has provided special schools with a total of 20 additional school social worker posts, which involve an expenditure of around $13 million.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2751)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

There will be a substantial decrease in the number of primary, secondary and special schools to be provided with school-based professional support in the coming year. The reasons provided by the Administration included that the Education Development Fund would come to a close by the end of the 2018/19 school year. However, "the necessary support for schools to implement new education and curriculum initiatives" would continue with the Education Bureau's funding.

Please provide the relevant details of "the necessary support for schools to implement new education and curriculum initiatives" in primary, secondary and special schools, and the expenditure and manpower to be deployed due to the closure of the Fund.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 28)

Reply:

The Education Development Fund (EDF) was set up in 2004 to finance the implementation of different School-based Professional Support (SBPS) Programmes with a view to enhancing schools' capacity to take forward various education reform measures. These SBPS programmes include the School Support Partners (Seconded Teacher) Scheme, which seconds experienced teachers to provide professional support on various theme-based or Key Learning Area (KLA) projects; the Professional Development Schools (PDS) Scheme, which designates schools with exemplary practices in learning and teaching and a good sharing culture to provide support services to other schools; and the University-School Support Programmes (USP), which commissions universities to provide diversified school-based professional support connecting research-based pedagogies with classroom practices to cater for schools' development needs. The cost for administering the EDF and

monitoring various SBPS programmes, as well as the relevant expenses and manpower resources are subsumed under the overall expenditure of the EDB.

The EDF will come to a close by the end of August 2019. Starting from the 2019/20 school year, the support for schools to implement new education and curriculum initiatives, including the promotion of Science, Technology, Engineering and Mathematics (STEM) education and Self-directed Learning, will continue with the EDB's funding. Professional officers of the EDB will continue to provide on-site support services to assist schools in developing school-based curricula based on the schools' needs and enhancing teachers' professional capability. Effective programmes currently financed by the EDF will also be refined and regularised as part of the EDB's on-going initiatives. For example, teachers will continue to be seconded to participate in the EDB's various theme-based or KLA projects through the Annual Teacher Secondment Exercise, while professional support services to schools and teachers by means of sharing exemplary practices provided under the USP and PDS Scheme with exemplary practices will be sustained through Quality Education Fund Thematic Networks financed by the Quality Education Fund. The relevant expenses and manpower resources are subsumed under the overall expenditure of the EDB and/or other different funds.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2752)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Questions on matters related to other educational services and subsidies are as follows:

1. Please provide details of the Paid Non-local Study Leave Scheme for Secondary School Teachers currently implemented on a pilot basis by the Bureau, including the expenditure involved, number of participating teachers, maximum level of grant per teacher, places of study and duration of programmes.

2. In respect of national education, please advise of: (a) the number of primary and secondary students and teachers participating in Mainland exchange programmes, the places covered in each programme, the duration of each programme, and the expenditure involved in each of the past 3 years; (b) the details of the Mainland exchange programmes that the Bureau will organise for students and teachers in the coming year, such as the estimated number of student and teacher to be benefitted, as well as the expenditure involved.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 29)

Reply:

1. The Education Bureau (EDB) launched the "i-Journey" Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. Participating teachers will be given 7 to 9 weeks' paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research. The total expenditure of the first batch of the Scheme is $7.49 million, which was mainly used for covering participants' travelling expenses for the passage between Hong Kong and the location for overseas experience, programme/activity fees and the grant disbursed to

participants' schools for employment of supply teachers. Programmes offered in different places may have different content and hence the expenditures vary. On the whole, the cost for each participating teacher in the first batch of the Scheme ranged from around $90,000 to $130,000. With the expenditure on employment of supply teachers taken into account, the cost for each participating teacher would range from around $130,000 to $180,000. Since the items for the second batch of the Scheme have yet to be finalised, expenditure figures are unavailable at the present stage.

In the 2017/18 and 2018/19 school years, the details of the Scheme are as follows:

2017/18 school year (First Batch of the Scheme)			
Destination	Programme duration	Subjects/Areas covered in the training	No. of participants
Helsinki & Jyväskylä, Finland	5 weeks	Interdisciplinary Learning & Entrepreneurship Education	15
Melbourne, Australia	6 weeks	Catering for Students with Special Educational Needs (SEN)	20
Exeter, the United Kingdom	4 weeks	STEM Education	15

2018/19 school year (Second Batch of the Scheme)			
Destination	Programme duration	Subjects/Areas covered in the training	No. of participants *Provisional figures
Turku, Finland	5 weeks	Interdisciplinary Learning & Entrepreneurship Education	15
Southampton, the United Kingdom	5 weeks	Assessment Literacy	15
Singapore	5 weeks	STEM Education	10

2. In the past 3 years, Mainland exchange programmes organised or subsidised by the EDB for primary and secondary students varied in duration. They covered different provinces and cities in the Mainland, including 22 provinces, 4 autonomous regions and 4 municipalities. In the coming year, the EDB will continue to provide primary and secondary students with adequate opportunities to join Mainland exchange programmes. The number of students participating in Mainland exchange programmes and the expenditure involved in the past 3 years and the coming year are tabulated below:

School year	No. of students (rounded down to the nearest hundred)	Expenditure ($ million)
2016/17	59 800	64.2
2017/18#	67 000	85.4
2018/19+	73 800	103.3
2019/20++	108 900	115

Actual figures revised from preceding year's estimates
+ Provisional figures
++ Estimated figures

As regards teachers, apart from participation in the above Mainland exchange programmes for students as learning facilitators according to the teacher-to-student ratio of 1:10, they also participate in various professional exchange programmes organised for them by the EDB. These programmes/visits vary in duration. In the past 3 years, visits were made to different provinces and cities in the Mainland, such as Beijing, Wuhan, Chengdu, Nanning and various cities within the Guangdong Province. The number of participants and the expenditures involved in the past 3 years and the coming year are tabulated below:

School year	No. of teachers (rounded to the nearest ten)	Expenditure ($ million)[@]
2016/17	690	2.9
2017/18[#]	760	5.5
2018/19[+]	1 800	8.7
2019/20[++]	2 350	13.2

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2754)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. It is stated under Matters Requiring Special Attention that the Education Bureau (EDB) will continue to provide more Mainland exchange opportunities for primary and secondary school students. In this connection, please provide the relevant details, including the estimated expenditure involved and manpower arrangements.

2. It also mentioned that the EDB will continue to develop a variety of teaching and learning (T&L) resources for promoting Basic Law education in schools. In this connection, please provide (a) the relevant details, including the estimated expenditure involved and manpower arrangements; and (b) the details of various learning and teaching resources that have been developed for promoting Basic Law education in the past 5 years, including the names of departments and/or organisations developing the resources, titles of the T&L resources, the expenditure involved and manpower arrangements.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 31)

Reply:

1. To dovetail with the school curriculum and the latest development of our country, the Education Bureau (EDB) organises Mainland exchange programmes for students, or subsidies those organised by schools. With diversified themes and destinations, these programmes enable participants to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology etc. from multiple perspectives. The estimated expenditure on subsidies to primary and secondary school students for Mainland exchange is $115 million in the 2019/20 school year. The manpower resources required are subsumed under the recurrent expenditure of the EDB.

2. The EDB has been continuously enriching, updating and developing the learning and teaching (L&T) resources for Basic Law education in order to align with the latest state of

curriculum development. With respect to the development of L&T resources, from 2015-16 to 2018-19, the EDB has provided secondary schools with various L&T resources, including the "Understanding the Law, Access to Justice - Basic Law Learning Package (Junior Secondary)" (e-book and e-platform versions); "Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study"; online L&T resources for the "Constitution and the Basic Law" module; "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers"; "Basic Law Online Course for Secondary School Students' Self-directed Learning"; and 2 assessment banks, namely "Basic Law On-line Assessment (Junior Secondary)" (for students) and "Web on Assessment for BLE (Junior Secondary)" (for teachers).

From 2015-16 to 2018-19, the EDB has provided primary schools with the Resource Package on "Effective Use of 'Let's Learn the Basic Law' Learning Package ", "Learning and Teaching Resource CD for Primary General Studies (History and Culture Series) " and "Basic Law Audio-visual Learning and Teaching Package (Senior Primary)" to enhance teachers' and students' understanding of the Basic Law. In 2019-20, the EDB will develop the Learning and Teaching Resource CDs on "Engineering in China" under the "History and Culture Series".

The expenditure on developing L&T resources (including resource packages and assessment banks) for Basic Law education does not include the manpower expenses of the EDB in the development process. We cannot single out the manpower expenses associated with developing L&T resources as it is an integral part of our day-to-day curriculum development work.

On an on-going basis, the EDB collects feedback and evaluates the effectiveness of its work through various channels to further enrich and refine the L&T materials related to Basic Law education. The L&T resources on the Basic Law mentioned in the previous paragraph were developed by the staff and seconded teachers of the EDB. The development of these resources involved collaboration between departments inside and outside the Bureau and other organisations, and seeking the opinions of the Department of Justice, the Constitutional and Mainland Affairs Bureau and experts on the constitution and the Basic Law through different means such as focus groups and meetings. The expenditure on developing L&T resources for Basic Law education from 2015-16 to 2019-20 is as follows:

2015-16[@]	2016-17[@]	2017-18[@#]	2018-19[@*]	2019-20[@++]
3.65 million	1.71 million	1.51 million	0.18 million	0.58 million

[@] Manpower resources in the provision are subsumed under the recurrent expenditure of the EDB
\# Actual figures revised from last year's estimates

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2756)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the number of students benefitting from the Mainland University Study Subsidy Scheme and the amount of subsidy granted in the past 3 years, and the expenditure and manpower arrangements for implementing the Scheme in the coming year.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 33)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions. Students having passed a means test will receive either a full-rate subsidy or a half-rate subsidy ("means-tested subsidy") per academic year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions. In addition, a "non-means-tested subsidy" is introduced under MUSSS starting from the 2017/18 academic year, and eligible students will be granted a flat-rate subsidy per academic year. The amount of subsidy will be reviewed and adjusted as appropriate. For the 2018/19 academic year, the full-rate subsidy and half-rate subsidy of the "means-tested subsidy" are $16,800 and $8,400 respectively. The "non-means-tested subsidy" offers $5,600.

In the 2016/17 and 2017/18 academic years, there were respectively 2 190 and 3 056 students granted the subsidy (including both newly-approved applications and renewals) amounting to around $28 million and $35 million. In the 2018/19 academic year (as at 28 February 2019), a total of 3 124 students have been granted subsidy amounting to around $40 million.

The expenditure of the MUSSS for the 2019/20 academic year is subject to the number of applications and renewals. The Education Bureau (EDB) has reserved a sufficient amount of funding to meet the purpose. To cope with the additional workload arising from the implementation of the MUSSS, EDB and the Working Family and Student Financial Assistance Agency (WFSFAA), in addition to making use of existing resources, have created civil service posts, namely 3 of Executive Officer Grade and 7 of Clerical Officer Grade. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA.

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the annual expenditure on the implementation of Territory-wide System Assessment and Student Assessment in each of the past 3 years, as well as the estimated expenditure and details of work for the coming year.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 34)

Reply:

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment (BCA) project, including Student Assessment (SA)[Note] and Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Accepted the recommendations of the Committee, the EDB implemented the 2016 Tryout Study (Primary 3) (2016 Tryout Study) in 2016, and the BCA Research Study (Research Study) in 2017 and starting from 2018, has conducted Primary 3 TSA as a low-stake assessment on a sampling basis. These initiatives have been carried out under the BCA project and the payment according to terms of contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment) is settled to the HKEAA on an annual basis. The expenditure on SA, TSA (covering the 2016 Tryout Study and Research Study) and the related study under the project for the contract period is tabulated as follows:

Contract period	Expenditure ($ million)		Total expenditure ($ million)	Average annual expenditure ($ million)
	SA	TSA and related study under the project		
2015-2018	3	290	293	73

Note: Since January 2017, SA has been upgraded to Student Assessment Repository (STAR) platform.

TSA of the 2019/20 school year will be conducted in the second quarter of 2020. Subject to actual arrangements at the time, the estimated expenditure is around $85 million. Separately, the expenditure on STAR has been subsumed under the overall expenditure of EDB.

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

(a) The number and percentage of non-Chinese speaking students who participated in Primary One Admission (POA) System for the school years 2016/17 (POA 2016), 2017/18 (POA 2017) and 2018/19 (POA 2018) among the total number of students who participated;

(b) The number and percentage of all students who got admission in "Discretionary Places Admission" stage for school years 2016/17 (POA 2016), 2017/18 (POA 2017) and 2018/19 (POA 2018) among those who participated in POA;

(c) The number and percentage of non-Chinese speaking students who got admission in "Discretionary Places Admission" stage for school years 2016/17 (POA 2016), 2017/18 (POA 2017) and 2018/19 (POA 2018) among those who participated in POA;

(d) The number and percentage of all students who got admission in "Central Allocation" stage for school years 2016/17 (POA 2016), 2017/18 (POA 2017) and 2018/19 (POA 2018) among those who participated in POA, how many among them were allocated to their top three choices;

(e) The number and percentage of non-Chinese speaking students who got admission in "Central Allocation" stage in school years 2016/17 (POA 2016), 2017/18 (POA 2017) and 2018/19 (POA 2018) among those who participated in POA, how many among them were allocated to their top three choices.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 36)

Reply:

(a) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of NCS students participating in the Primary One Admission (POA) 2016, POA 2017 and POA 2018 (i.e. admission to Primary 1 in the 2016/17, 2017/18 and 2018/19 school years) is 1 270, 1 370 and 1 423 respectively. The corresponding percentage share among the total number of students participating in POA is 2.5% in these 3 years.

(b) The number and percentage of students who were offered a Primary 1 place at the "Discretionary Places Admission" stage are 22 504 and 43.5% respectively for the 2016/17 school year (i.e. POA 2016), 23 645 and 42.3% respectively for the 2017/18 school year (i.e. POA 2017) and 24 477 and 43.2% respectively for the 2018/19 school year (i.e. POA 2018).

(c) The number and percentage of NCS students who were offered a Primary 1 place at the "Discretionary Places Admission" stage among the total number of NCS students participating in POA are 763 and 60.1% respectively for the 2016/17 school year (i.e. POA 2016), 818 and 59.7% respectively for the 2017/18 school year (i.e. POA 2017) and 816 and 57.3% respectively for the 2018/19 school year (i.e. POA 2018).

(d) The number and percentage of all students who were allocated a Primary 1 place at the "Central Allocation" stage are 29 243 and 56.5% respectively for the 2016/17 school year (i.e. POA 2016), among which 20 162 students were allocated to schools of their first three choices; 32 235 and 57.7% respectively for the 2017/18 school year (i.e. POA 2017), among which 21 785 students were allocated to schools of their first three choices; and 32 171 and 56.8% respectively for the 2018/19 school year (i.e. POA 2018), among which 22 486 students were allocated to schools of their first three choices.

(e) The number and percentage of NCS students who were allocated a Primary 1 place at the "Central Allocation" stage among the total number of NCS students participating in POA are 507 and 39.9% respectively for the 2016/17 school year (i.e. POA 2016), 552 and 40.3% respectively for the 2017/18 school year (i.e. POA 2017) and 607 and 42.7% respectively for the 2018/19 school year (i.e. POA 2018). We do not compile statistics of students in specific student groups who were allocated to schools of their first three choices to avoid incomprehensive interpretation or misinterpretation of the results.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2760)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

(a) The number and percentage of non-Chinese speaking students who participated in Secondary School Places Allocation (SSPA) System for school years 2016/17 (SSPA 2016), 2017/18 (SSPA 2017) and 2018/19 (SSPA 2018) among the number of non-Chinese speaking students in P.6;

(b) The number and percentage of all students and non-Chinese speaking students who got admission in "Discretionary Places Admission" stage for school years 2016/17 (SSPA 2016), 2017/18 (SSPA 2017) and 2018/19 (SSPA 2018) among those who participated in SSPA, how many among them were allocated to their top three choices;

(c) The number and percentage of all students and non-Chinese speaking students got admission in "Central Allocation" stage for school years 2016/17 (SSPA 2016), 2017/18 (SSPA 2017) and 2018/19 (SSPA 2018) among those who participated in SSPA, how many among them were allocated to their top three choices;

(d) The number and percentage of all students and non-Chinese speaking students who got admission in direct subsidy school in the school years 2016/17, 2017/2018 and 2018/19, how many among them were allocated to their top three choices.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 37)

Reply:

(a) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of Primary 6 (P6) NCS students participating in the Secondary School

Places Allocation (SSPA) 2016 (i.e. admission to Secondary 1 (S1) in the 2016/17 school year) is 1 390, the number in SSPA 2017 (i.e. admission to S1 in the 2017/18 school year) is 1 458, and the number in SSPA 2018 (i.e. admission to S1 in the 2018/19 school year) is 1 464. Their corresponding percentage share among all P6 NCS students in public sector schools, Direct Subsidy Scheme (DSS) schools, and private schools offering the local curriculum (excluding special schools, the English Schools Foundation schools, other international schools and Private Independent Schools) is 94.5% , 94.3% and 92.1% in the respective school years.

(b) The number and percentage of all P6 students who were allocated a S1 place at the "Discretionary Places" stage among the total number of students participating in SSPA are 17 703 and 38.9% respectively for the 2016/17 school year (i.e. SSPA 2016), 17 933 and 38.0% respectively for the 2017/18 school year (i.e. SSPA 2017) and 18 517 and 37.4% respectively for the 2018/19 school year (i.e. SSPA 2018). The number and percentage of P6 NCS students who were allocated a S1 place at the "Discretionary Places" stage among the total number of NCS students participating in SSPA are 947 and 68.1% respectively for the 2016/17 school year (i.e. SSPA 2016), 920 and 63.1% respectively for the 2017/18 school year (i.e. SSPA 2017), and 931 and 63.6% respectively for the 2018/19 school year (i.e. SSPA 2018). The number of students allocated to schools of their first three choices is not available as each student may apply to not more than 2 secondary schools at the "Discretionary Places" stage.

(c) The number and percentage of all P6 students who were allocated a S1 place at the "Central Allocation" stage among the total number of students participating in SSPA are 27 841 and 61.1% respectively for the 2016/17 school year (i.e. SSPA 2016), among which 24 394 students were allocated to schools of their first three choices; 29 270 and 62.0% respectively for the 2017/18 school year (i.e. SSPA 2017), among which 24 423 students were allocated to schools of their first three choices; and 31 037 and 62.6% respectively for the 2018/19 school year (i.e. SSPA 2018), among which 25 601 students were allocated to schools of their first three choices. The number and percentage of P6 NCS students who were allocated a S1 place at the "Central Allocation" stage among the total number of NCS students participating in SSPA are 443 and 31.9% respectively for the 2016/17 school year (i.e. SSPA 2016), 538 and 36.9% respectively for the 2017/18 school year (i.e. SSPA 2017), and 533 and 36.4% respectively for the 2018/19 school year (i.e. SSPA 2018). We do not compile statistics of students in specific student groups who were allocated to schools of their first three choices to avoid incomprehensive interpretation or misinterpretation of the results.

(d) The number of all students who were admitted to DSS schools and the corresponding percentage share among all students in public sector (excluding special schools) and DSS schools are 61 427 and 10.0% respectively for the 2016/17 school year, 61 197 and 9.9% respectively for the 2017/18 school year, and 61 106 and 9.9% respectively for the 2018/19 school year.

The number of NCS students who were admitted to DSS schools and the corresponding percentage share among all NCS students in public sector (excluding special schools) and DSS schools are 5 633 and 31.1% respectively for the 2016/17

school year, 5 691 and 30.2% respectively for the 2017/18 school year, and 5 576 and 29.1% respectively for the 2018/19 school year.

As not all DSS schools mentioned above participate in SSPA, the number of these students allocated to schools of their first three choices is not available.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 38)

Reply:

Eligible Secondary 4 to Secondary 6 school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that subsidised school candidates are only required to pay a "subsidised examination fee" on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE). Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level. Starting from the 2011/12 school year, apart from the examination subsidy, eligible needy non-Chinese speaking (NCS) students sitting for the GCSE (Chinese) Examination can apply for full or

half fee remission of the "subsidised examination fee" under the Examination Fee Remission Scheme (EFRS). The EFRS has further been extended to eligible needy NCS students taking the IGCSE, GCE AS-Level and GCE A-Level (Chinese) Examinations from the 2012/13 school year onwards.

With the approval of the relief measure announced in the 2018-19 Budget to pay the examination fees for school candidates sitting for the 2019 HKDSE by the Finance Committee of the Legislative Council at the meeting on 18 May 2018, the "subsidised examination fee" of eligible NCS students sitting for the aforementioned Chinese Language examinations in the 2018/19 school year is waived accordingly.

The number of NCS students subsidised to sit for the aforementioned examinations and the expenditure from the 2015/16 to 2018/19 school years are tabulated at Annex A and Annex B respectively.

Annex A

Number of non-Chinese speaking (NCS) students subsidised to sit for the internationally recognised alternative Chinese Language qualifications examinations from the 2015/16 to 2018/19 school years

Alternative Chinese Language examinations	Number of NCS students subsidised (Number of NCS students subsidised to sit for the examinations for the first time)

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In regards to the proposals put forward in the 2018-19 Budget, will the government inform this Council of:

a. the breakdown of the $1.4 billion out of the $5 billion pledged by the current-term Government upon taking office; whether any of this will be allocated to non-Chinese speaking students' Chinese learning or learning non-language subjects taught in Chinese.

b. the breakdown of the recurrent budget of $2 billion to achieve quality education as proposed by the Financial Secretary; whether this will include professional development of teachers on teaching Chinese as a Second Language, providing Chinese as a Second Language teaching and learning material, strengthening support for kindergartens accepting non-Chinese speaking students, improving racial diversity and inclusion in schools, etc.

c. the breakdown of $3 billion for launching school-based curriculum development and student support measures; whether this will include school-based curriculum development and support measures for Chinese learning of non-Chinese speaking students.

d. How will the government evaluate the effectiveness of the fund?

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 39)

Reply:

a. and b. The Government is committed to providing quality education for students. Upon assuming office, the Chief Executive introduced improvement measures on education involving $3.6 billion. In the 2018-19 Budget Speech, the Financial Secretary has proposed to commit an additional recurrent expenditure of $2 billion to achieve quality

education on top of the remaining $1.4 billion earmarked for recurrent expenditure. In the 2018 Policy Address, a number of new initiatives were announced, involving a recurrent expenditure of $4.7 billion. Since taking office, the current-term Government has allocated a recurrent expenditure of at least $8.3 billion on measures that cover education at kindergarten (KG), primary, secondary and post-secondary levels. All students in the territory could benefit from such measures. This fully demonstrates the Government's determination to provide quality education.

On support for non-Chinese speaking (NCS) students (particularly ethnic minority students), starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools, which was drawn up in consultation with teachers and language experts, the provision of the Applied Learning Chinese (for NCS students) curriculum, and the creation of an inclusive learning environment in schools. To assist schools in implementing the "Learning Framework", the EDB renders support to schools on an ongoing basis, including the provision of diversified learning and teaching resources and school-based professional support services. In the 3 school years from 2019/20 to 2021/22, an additional non-recurrent provision of about $45 million will be allocated to commission post-secondary institutions to provide professional support services for KGs, primary and secondary schools. To support NCS students to use Chinese in learning Chinese History in junior secondary level, the EDB provides a grant totalling $100,000 for each public sector secondary school (including special schools) and Direct Subsidy Scheme (DSS) secondary school which admits NCS students in junior secondary level in the 2018/19 and 2019/20 school years. This initiative involves a non-recurrent provision of around $30 million. Schools may, having regard to school-based needs, flexibly deploy the grant to support teachers in teaching Chinese History to NCS students and rolling out related learning activities.

With regard to KGs, the Government has implemented the new KG education scheme (Scheme) since the 2017/18 school year. KGs joining the Scheme and admitting 8 or more NCS students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. Starting from the 2019/20 school year, a 5-tiered subsidy will be provided for KGs joining the Scheme according to the number of NCS students admitted. KGs admitting 1 NCS student will also receive the subsidy and the subsidy for the highest tier will be a double of the current level. The total estimated amount of subsidy for the 2019/20 school year is around $102 million.

In respect of school admission, KGs are reminded to ensure equal opportunities for all children, regardless of race, gender and ability. They are expected to, inter alia, properly handle the admission applications of NCS students, having regard to the difference between their customs and culture and those of Hong Kong. KGs should make application forms for admission and relevant information in both Chinese and English, and provide an icon or a simple message in English on their websites to help parents access English information. When interviewing NCS children, KGs should arrange interpretation and/or translation service for the applicants as necessary or allow parents and their NCS children to be accompanied by Chinese-speaking relatives or friends to facilitate communication. If

individual NCS children encounter difficulties in seeking admission, the EDB will make referrals for them to KGs with vacancies under the Scheme as appropriate.

To encourage parents to send their NCS children to local KGs, the EDB organises annual briefing sessions on Nursery (K1) admission (with interpretation service provided on a need basis) for NCS parents and disseminate information on the Scheme and K1 admission to NCS communities through non-governmental organisations. The relevant materials published by the EDB have been translated into 7 major ethnic minority languages. The KG Profile, which provides information about each KG to assist parents in selection of KGs, is available in both Chinese and English. Starting from 2018, a new column "Support to NCS Students" has been included in the KG Profile to enable KGs to outline their support provided for NCS students. An enquiry hotline for NCS parents has been set up since September 2018 to facilitate NCS parents to enquire about matters relating to admission to and study in KGs.

c. To further support students' learning, enhance the quality of school education and promote quality school education, the Quality Education Fund has, on a recommendation made by the Government in the 2018-19 Budget, set aside $3 billion for application by public sector primary and secondary schools (including special schools), DSS schools and KGs under the Scheme for launching school-based curriculum development and/or student support measures. Schools may submit applications in light of their school contexts, development direction and students' needs to take forward initiatives that promote quality education.

d. The EDB reviews the effectiveness of various support measures for NCS students on an ongoing basis, and refines the measures as necessary.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2763)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) The number of non-Chinese speaking (NCS) students in primary and secondary schools who newly arrived in Hong Kong in the 2015/16, 2016/17, 2017/18 and 2018/19 school years disaggregated by grades, and their percentage among the NCS students in all primary and secondary schools.

(2) The list of education and support services for newly-arrived NCS children (including but not limited to the full-time Initiation Programme, Induction Programme, and School-based Support Scheme Grant) in the 2015/16, 2016/17, 2017/18 and 2018/19 school years; include under each service:
   a. the expenditure involved;
   b. the NGO or institution commissioned;
   c. the duration;
   d. the number of NCS children enrolled;
   e. the number of NCS children completed;
   f. the percentage of NCS children engaged among the total number of newly-arrived NCS children; and
   g. methods of evaluation.

(3) Using the table below, the breakdown of the number of NCS students who are new arrivals in kindergartens, primary and secondary schools by school types for the past 5 school years, and evaluation of each programme:

	Number of newly arrived NCS children in		
Type of school	Kindergarten	Primary	Secondary
Private			
Voucher Scheme			
Free Kindergarten Scheme			
Government			

Aided			
Direct Subsidy Scheme			
English Schools Foundation/ International			
Schools listed in Appendix 3 in Primary One Admission (POA)			

(4) Does the EDB require schools to record the number of newly-arrived NCS students they have? If not, what are the reasons?

(5) How is the number of newly-arrived NCS students being recorded now?

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 40)

Reply:

(1) to (5)

As the Education Bureau (EDB) does not require kindergartens, primary and secondary schools to keep a record of whether non-Chinese speaking (NCS) students being admitted are new arrivals in Hong Kong or not, statistics on the number and percentage of newly-arrived NCS children attending kindergartens, primary and secondary schools and relevant information on curriculum assessment are not available. With a view to helping newly-arrived children integrate into the local community and overcome their learning difficulties, the EDB provides various support services, including the Initiation Programme, Induction Programme and School-based Support Scheme (SBSS) Grant provided to schools admitting newly-arrived children for organising school-based programmes. These measures are applicable to all newly-arrived children, including children from the Mainland and NCS children. Upon admission to schools, they can enjoy the same education services as other students. Other support services are also available for supporting NCS students and all NCS students (not limited to newly-arrived NCS students) can benefit from the measures.

The support services and grants provided for newly-arrived NCS children from the 2015/16 to 2018/19 school years are set out at Annex. Upon completion of the Induction Programme and Initiation Programme, non-government organisations (NGOs) and schools concerned are required to submit evaluation reports to the EDB. For schools in receipt of the SBSS Grant, their annual school reports should include an account of how the grant has been used to enhance the learning and adaptation of newly-arrived children.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0004)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) For the 2018/19 school year, please provide the numbers of aided primary and secondary schools that have filled permanent posts within their approved teaching establishment by teachers serving for a defined contract period (DCP), and the numbers of such contract teachers. Please tabulate the figures by each of the 18 school districts (primary and secondary schools) and school type (special schools):

Table 1: Aided Secondary Schools

EDB school district	No. of aided secondary schools within the district	Employment of teachers on DCP terms to fill permanent posts within the approved teaching establishment (aided secondary schools)	
		No. of schools	No. of contract teachers
School district			
Total			
Cumulative total in the territory			

Table 2: Aided Primary Schools

EDB school district	No. of aided primary schools within the district	Employment of teachers on DCP terms to fill permanent posts within the approved teaching establishment (aided primary schools)	
		No. of schools	No. of contract teachers
School district			
Total			
Cumulative total in the territory			

Table 3: Special Schools

EDB school district	No. of aided special schools within the district	Employment of teachers on DCP terms to fill permanent posts within the approved teaching establishment (aided special schools)	
		No. of schools	No. of contract teachers
School district			
Total			
Cumulative total in the territory			

(b) Regarding the teachers employed on DCP terms to fill permanent posts within the approved teaching establishment in the 2018/19 school year, what are the average length and the longest length of service among those taking up the same post in the same school?

(c) Please provide a breakdown of the numbers of teachers employed on DCP terms to fill permanent posts within the approved teaching establishment in primary, secondary and special schools and their rate of change in each of the school years from 2014/15 to 2018/19; and

(d) Please compare with the use of a table the changes in the numbers of regular teachers on contract terms in primary, secondary and special schools in the 2017/18 and 2018/19 school years:

Table 4: Secondary Schools

Changes between the 2017/18 and 2018/19 school years	No. of schools	No. of regular teachers on contract terms in the 2017/18 school year	No. of regular teachers on contract terms in the 2018/19 school year
No. of regular teachers on DCP terms			
Increase			
Remain unchanged			
Decrease			

Table 5: Primary Schools

Changes between the 2017/18 and 2018/19 school years	No. of schools	No. of regular teachers on contract terms in the 2017/18 school year	No. of regular teachers on contract terms in the 2018/19 school year
No. of regular teachers on DCP terms			
Increase			
Remain unchanged			
Decrease			

Table 6: Special Schools

Changes between the 2017/18 and 2018/19 school years	No. of schools	No. of regular teachers on contract terms in the 2017/18 school year	No. of regular teachers on contract terms in the 2018/19 school year
No. of regular teachers on DCP terms			
Increase			
Remain unchanged			
Decrease			

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 1)

Reply:

The posts within the approved teaching establishment of aided schools are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. Schools should not employ regular teachers on defined contract period (DCP) terms unless they have actual operational needs and cogent reasons. Our response to the four parts of the question is as follows:

(a) The number of regular teachers on DCP terms to fill regular posts in aided secondary and primary schools in the 2018/19 school year is at Annexes 1 and 2 respectively. The Education Bureau (EDB) does not have any information on teachers employed on DCP terms by special schools.

(b) Among the 1 116 regular teachers on DCP terms in aided secondary and primary schools in the 2018/19 school year, the average length of service as regular teachers on DCP terms in their existing schools is 1.8 years (up to the end of the 2018/19 school year), and the longest service is 10 years.

(c) Statistics on the number of regular teachers on DCP terms in aided secondary and primary schools from the 2014/15 to 2018/19 school years are as follows:

	No. of regular teachers on DCP terms (compared with the previous school year)				
	2014/15	2015/16	2016/17	2017/18	2018/19
Aided Secondary Schools	965	878 (-87)	819 (-59)	845 (+26)	707 (-138)
Aided Primary Schools	446	388 (-58)	343 (-45)	413 (+70)	409 (-4)

(d) Comparison of the number of regular teachers on DCP terms in aided secondary and primary schools between the 2017/18 and 2018/19 school years is at Annexes 3 and 4 respectively.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0063)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding graduate teachers and certificated masters/mistresses employed by public sector schools:

(a) Pursuant to the enhancement of the ratio of graduate teacher posts in public sector primary schools from 50% to 55% and 60% in the 2015/16 and 2016/17 school years respectively, the Education Bureau (EDB) further enhanced the ratio to 65% in the 2017/18 school year. Would the EDB please list by district (public sector primary school) and type of school (special school) the number of public sector primary schools which have enhanced the ratio of graduate teacher posts to 65%, 60%-64%, 55%-59%, 50%-54%, 45%-49%, 40%-44% and less than 40% in the 2018/19 school year? Has the EDB asked schools whose ratio of graduate teacher posts is still less than 55% to give the reasons for that and will it urge the schools concerned to fill the graduate teacher posts as soon as possible?

(b) What is the respective number, percentage, median age, median length of teaching service and wastage rate of, and the total number of teachers appointed as graduate teachers and certificated masters/mistresses in public sector primary, secondary and special schools from the 2014/15 to 2018/19 school years? In respect of the latter, the number, percentage, median age, median length of teaching service and wastage rate of those with a recognised degree?

(c) Has the EDB devised long-term plans to resolve discrepancy in remuneration between graduate teachers in primary schools and graduate teachers in secondary schools? If yes, what are the details and expenditures involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 2)

Reply:

(a) The Education Bureau (EDB) enhanced the ratio of graduate teacher posts in public sector primary schools (including special schools) to 65% in the 2017/18 school year. After the enhancement, schools would, having regard to such factors as their school-based circumstances and the preference of qualified teachers, plan to fill the newly created graduate teacher posts. In the 2018/19 school year, the overall fill-up rate of graduate teacher posts in public sector ordinary primary schools and the primary section of special schools are 80% and 58% (provisional figures) respectively. As how schools fill their graduate teacher posts is unrelated to where they are situated and breaking down the relevant information by district is not meaningful, we have not compiled the breakdown of such figures. EDB officers will, through daily interactions with school sponsoring bodies and school management, urge schools to optimise the use of available resources and fully utilise all graduate teacher posts. For individual schools with relatively low fill-up rate of graduate teacher posts, we will require their School Management Committee/Incorporated Management Committee to review their situations. Where necessary, we will ask schools to give an explanation and urge them to draw up plans to fill the graduate teacher posts.

(b) From the 2014/15 to 2018/19 school years, the respective number, percentage, median age, number and rate of wastage of teachers appointed as graduate teachers and non-graduate teachers in public sector schools are as follows:

Primary Schools (Government and Aided)

School Year	Graduate Teachers					Non-graduate Teachers				
	Number of Teachers*	%	Median Age	Number of Wastage*	Wastage Rate (%)^	Number of Teachers*	%	Median Age	Number of Wastage*	Wastage Rate (%)^
2014/15	7 550	39.9	42	220	3.0	11 400	60.1	37	570	5.2
2015/16	7 960	41.0	42	240	3.2	11 470	59.0	37	620	5.4

2017/18	17 780	79.2	44	720	4.1	4 680	20.8	34	310	6.4
2018/19 (Estimate)	17 900	79.8	44	760	4.3	4 540	20.2	34	290	6.2

Special Schools

School Year	Graduate Teachers					Non-graduate Teachers				
	Number of Teachers*	%	Median Age	Number of Wastage*	Wastage Rate (%)^	Number of Teachers*	%	Median Age	Number of Wastage*	Wastage Rate (%)^
2014/15	810	48.2	42	40	4.6	870	51.8	34	70	8.8
2015/16	840	49.6	42	40	4.6	860	50.4	34	80	9.0
2016/17	860	51.2	42	30	3.6	820	48.8	35	90	10.5
2017/18	940	50.9	42	40	4.4	910	49.1	34	80	9.3
2018/19 (Estimate)	990	52.6	42	60	6.6	890	47.4	34	100	10.5

From the 2014/15 to 2018/19 school years, the respective number, percentage, median age and wastage rate of non-graduate teachers with degree qualifications (degree holders) in public sector schools are as follows:

Primary Schools (Government and Aided)

School Year	Non-graduate Teachers			
	Number of Degree Holders*	%	Median Age	Wastage Rate (%)^
2014/15	10 600	93.0	36	4.6
2015/16	10 770	93.9	36	4.9
2016/17	10 740	94.4	36	5.1
2017/18	11 390	95.0	36	4.0
2018/19 (Estimate)	11 270	95.5	35	5.3

Secondary Schools (Government, Aided and Caput)

School Year	Non-graduate Teachers			
	Number of Degree Holders*	%	Median Age	Wastage Rate (%)^
2014/15	4 580	92.2	32	6.6
2015/16	4 590	93.1	32	7.5
2016/17	4 490	93.6	33	6.8
2017/18	4 410	94.3	33	6.0
2018/19 (Estimate)	4 300	94.6	33	5.9

Special Schools

School Year	Non-graduate Teachers			
	Number of Degree Holders*	%	Median Age	Wastage Rate (%)^
2014/15	810	92.8	34	9.3
2015/16	800	94.0	34	8.3
2016/17	780	94.5	34	10.3
2017/18	870	95.4	34	9.8
2018/19 (Estimate)	850	95.4	34	10.6

* Numbers are rounded to the nearest 10.

^ "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers concerned as at mid-September of the preceding school year. "Drop-out teachers" refer to the teachers who were serving in a school as at mid-September of the preceding school year but were no longer serving in any primary, secondary or special school as at mid-September of the school year concerned.

As EDB does not gather information on teachers' length of teaching service, statistics on median length of teaching service are unavailable.

(c) The Government is committed to enhancing the quality of education in Hong Kong. Over the years, we have improved the provision of resources for schools and teaching staff on a need basis in light of the challenges facing schools and the demand for quality education in the community.

In late 2017, the Task Force on Professional Development of Teachers (Task Force) was set up by the Government to make recommendations on promoting professional development of teachers and enhancing the professional status of teachers. The Task Force first submitted its recommendations on the implementation of the all-graduate teaching force policy to the Government in September 2018. Accepting the recommendations, the Government announced that the all-graduate teaching force policy would be implemented in one go in public sector primary and secondary schools in the 2019/20 school year. The additional funding involved is about $1.5 billion per annum. In its interim report submitted in November 2018, the Task Force also recommended that manpower at the middle management level in primary schools should be improved and the salaries for principals and vice-principals in primary schools should be rationalised. The Government has considered the Task Force's recommendations, and consulted the Legislative Council Panel on Education on 29 March 2019. The funding proposal will be submitted to the Establishment Subcommittee/Finance Committee for approval in due course.

Given the varied development in different teaching grades, the pay level of primary and secondary school teachers is determined in light of the situation of the respective

grades. Since primary schools and secondary schools differ in terms of curriculum and operation, diversity in curriculum planning, students' educational and development needs, complexity of public examination systems, students' multiple pathways, etc., the job nature, duties and grade structure of primary school teachers and that of secondary school teachers are not the same. It is inappropriate to make direct comparison. We have no plan to review the remuneration package of primary and secondary school teachers at this stage.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0064)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the demographic changes in student population, small class teaching (SCT) and the arrangement for the increase of the number of Primary 1 (P1) students allocated per class:

(a) Please give a breakdown, for each of the school nets of all districts from the 2015/16 school year to the 2019/20 school year:

(1) of the number of primary schools implementing SCT with a class size of 25 and their percentage share in the total number of primary schools in the respective districts, the total numbers of primary schools, school places and students in the respective districts, and the total numbers of schools, schools implementing SCT, P1 places and P1 students in each school net;

(2) of the number of schools which have implemented SCT but needed to increase the number of P1 students allocated per class, their respective class size upon such allocation, their percentage share in the total number of primary schools in the respective districts, the number of their students involved, as well as the total number of students involved in the respective districts;

(3) of the number of schools which have not implemented SCT in each district, their percentage share in the total number of primary schools in the respective districts, and the total number of primary schools in the respective districts;

(4) of the respective number of school-age students attending P1 classes in each school net and in the territory and the respective number of school-age students attending Secondary 1 (S1) classes in each district and in the territory;

(b) What was the number of schools which had implemented SCT but were requested to increase the number of P1 students allocated per class from the 2015/16 school year to 2018/19 school year? What were the additional expenditure involved and its breakdown? And what are the estimated number, additional expenditure involved and its breakdown for the 2019/20 school year?

(c) For those with additional P1 classes, how many schools and classes have made use of the existing vacant classrooms, how many of them have converted special rooms/activity rooms, how many of them have carried out works to construct additional of classrooms for such purpose?

(d) What is the total amount of Additional Supplementary Learning Grant (ASLG) disbursed since its implementation in response to the increase of the number of allocated P1 students per class? Will the EDB review the computation of the ASLG such as calculating the amount of funding based on each additional student allocated? If there is no plan to conduct a review, what are the reasons?

(e) Please provide the respective school-age population attending P1 classes and S1 classes from the 2019/20 school year to 2023/2024 school year;

(f) Does the EDB plan to implement measures similar to the "targeted relief measures" carried out in secondary schools in response to the fluctuation of the school-age population in primary schools? If yes, what are the timetable and estimated expenditure involved? If no, what are the reasons? and

(g) Does the Administration plan to strengthen the support for SCT in primary schools and implement SCT at the junior secondary stage when the school-age population attending secondary and primary schools decline? If yes, what are the timetable and estimated expenditure involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 3)

Reply:

(a)(1)&(3) The number of public sector primary schools by district with breakdown of schools implementing small class teaching (SCT) (i.e. allocated 25 students per Primary One (P1) class under the Primary One Admission (POA)) and their percentage share, and those maintaining 30 students per P1 class under the POA and their percentage share, the total number of P1 places, P1 students, primary school places and primary students from the 2015/16 to 2018/19 school years is tabulated at Annex A. 2 public sector primary schools in Wong Tai Sin District and North District respectively will implement SCT from P1 in the 2019/20 school year. As school places and student information for the 2019/20 school year can only be confirmed after the student headcount every September, figures for the school year concerned are not yet available. The P1 school nets provide a basis for

allocation of school places in Part B of the Central Allocation stage under the POA. According to the existing arrangements, the provision of public sector primary school places is planned on a district basis. As statistics on the number of school places and students have always been collected on a district basis, a breakdown of the relevant figures by school net is not available.

(a)(2)&(b) Over the past few years, the Education Bureau (EDB) has adopted flexible measures based on the consensus the EDB and the school sector reached. Such measures include temporarily allocating more students to each P1 class to increase the supply of school places flexibly. The number of schools implementing SCT which have been temporarily allocated more students per P1 class under the POA to meet the transient increase in demand from the 2015/16 to 2018/19 school years, their percentage share in the total number of primary schools in the respective districts, the number of students involved as well as the relevant estimated figures for the 2019/20 school year are tabulated at Annex C.

(a)(4) The respective numbers of students attending P1 and Secondary 1 (S1) classes by district from the 2015/16 to 2018/19 school years is tabulated at Annex B. The relevant figures for the 2019/20 school year are not yet available.

(c) Regarding districts/school nets where each P1 class was temporarily allocated more students from the 2015/16 to 2018/19 school years, 2 and 4 schools have changed the use of their other rooms for operation of a total of 2 and 4 additional P1 classes in the 2015/16 and 2016/17 school years respectively. No special/activity rooms were involved. For the 2017/18 and 2018/19 school years, 16 and 33 schools have applied respectively for conversion/construction of 24 and 53 temporary classrooms and complementary facilities as appropriate for operating additional P1 classes subject to the actual demand for Central Allocation. With the overall demand for P1 places on the decline after reaching the peak in the 2018/19 school year, the EDB has no plan to convert/construct temporary classrooms in the 2019/20 school year.

(d) Under the prevailing arrangements, when schools implementing SCT are required to temporarily increase the number of students to 30 per P1 class for the Central Allocation, eligible schools will be provided with a time-limited additional Assistant Primary School Master/Mistress (APSM) post for the cohort of students concerned for a period of 6 years (i.e. for the cohort to complete the six-year primary education in the school). This is in accordance with the provision of additional APSM posts by phases to schools maintaining 30 students per class upon the implementation of SCT progressively starting from P1 in public sector primary schools since the 2009/10 school year. In the case when the number of students allocated for each P1 class of a school (including schools implementing SCT) exceeds 30, the EDB will provide the schools concerned with an additional funding for

the additional school places of the 31st or above student (based on the average number of students in the P1 class of the schools) according to the headcount in mid-September for the cohort of students concerned for a period of six years.

On top of the above-mentioned enhanced support, the EDB has, starting from the 2015/16 school year, provided schools implementing SCT with the Additional Supplementary Learning Grant (ASLG) when they are temporarily allocated with more students per P1 class. According to the result of the headcount in mid-September, the EDB will provide the ASLG to schools when the average number of students per P1 class of the school reaches 28 or above. For that cohort of students concerned, the Grant would be provided to the additional school places of the 26th to the 30th students, capped at the number of students temporarily allocated per P1 class for a period of 6 years. The breakdown for the expenditure from the 2015/16 to 2018/19 school years and the estimated expenditure for the 2019/20 school year are tabulated at Annex D. There is no plan to review or revise the eligibility criteria of the Grant.

(e) The projected school-age population aged 6 and 12 who are residing in Hong Kong from the 2019/20 to 2023/24 school years is tabulated at Annex E.

(f) According to the current projections of P1 school-age population, the overall demand for P1 places is expected to peak in the 2018/19 school year, drop significantly in the 2019/20 school year and then gradually reach a stable level. Despite the decline in P1 school-age population starting from the 2019/20 school year, it is expected that the overall number of primary students in the next few years will remain stable since P1 student population has been increasing in the past few years. The total number of approved classes and teaching posts on the approved staff establishment of public sector primary schools will also remain generally stable. It is noteworthy that in the past few years, the EDB has implemented flexible measures based on the consensus reached with the school sector to meet the transient increase in demand for school places. With the P1 school-age population on the decline, the EDB plans to adjust or withdraw these flexible measures based on the actual demand starting from the 2019/20 school year, which would help offset the impact of a declining P1 student population on schools.

In view of the declining P1 school-age population, the EDB engaged the sector in discussions regarding measures to address the concerns as early as January 2018. Both sides agreed that further measures should be taken to maintain a stable teaching force and to facilitate the sustainable development of schools in the coming few years. These measures include:

(i) Schools are allowed to apply on an annual basis for retaining their redundant teachers arising from class reduction due to the decline of

P1 student population, up to a maximum of three school years, providing that their redundant teachers are unable to be absorbed through the prevailing mechanism for handling redundant teachers, or unable to secure a teaching post. The EDB will keep in view of the implementation and review timely; and

(ii) Starting from P1 in the 2019/20 school year, the basis for calculating the number of approved classes will be adjusted downward from the existing 25 students per class to 23 students per class if the school has redundant teachers arising from reduction of classes according to the student headcount in September. The adjusted basis will be extended progressively to P6 together with that cohort of students to further enhance the stability of the number of approved classes and hence the regular teaching posts in schools.

The above measures will be implemented from the 2019/20 school year. As the expenditure for implementing the above measures is subsumed under the overall expenditure of the EDB, the estimated expenditure in this regard is not available.

(g) Conceptually speaking, SCT is more of a teaching strategy involving teaching setting or grouping driven by pedagogical considerations. The size of grouping should not be fixed across-the-board, but adjusted according to the learning objectives and students' needs. International studies have suggested that SCT is more effective when students are of a younger age and its effectiveness tends to wane as students age. The current policy of implementing SCT progressively in public sector primary schools, where circumstances permit, will remain unchanged. At present, around 80% of public sector primary schools have implemented SCT. According to the current projections of P1 school-age population, the overall demand for P1 places is expected to peak in the 2018/19 school year, and drop significantly in the 2019/20 school year before gradually reaching a stable level. Both the school sector and the EDB consider that this will create favourable conditions for more schools to implement SCT. The EDB has therefore issued letters to invite all schools which have not yet implemented SCT to plan and make early preparation so that they can implement SCT as soon as practicable where the supply and demand of school places allow. In considering whether to implement SCT at junior secondary level, we should take into account the current conditions and learning and teaching environment of secondary schools, as well as the availability of support for them, overseas experience and resource implications, and assess whether it is feasible and sustainable for secondary schools, as in primary schools, to reduce their class size across-the-board. As the number of S1 students is expected to rebound from the 2017/18 school year onwards, reducing the class size across-the-board will definitely increase the pressure on land use by schools. We have no plan to implement SCT at junior secondary level having regard to the aforementioned considerations.

Annex A

Total number of students and school places in public sector primary schools by district from the 2015/16 to 2018/19 school years

Notes:

1. Figures refer to schools participating in Primary One Admission (POA) in 2015, 2016, 2017 and 2018.
2. Figures on total no. of Primary One students in the 2015/16, 2016/17, 2017/18 and 2018/19 school years refer to enrolment in public sector schools in September of the respective school years by administrative district, instead of POA school net.

Notes:

1. Figures refer to schools participating in Primary One Admission (POA) in 2015, 2016, 2017, 2018 and 2019.
2. The situation of the 2019/20 school year is an estimated one which was worked out based on the number of POA applicants as at late January 2019. The total number of additional P1 places involved is estimated to be 246 in Yuen Long (school nets 73 and 74 only), 544 in Sha Tin, 141 in Sham Shui Po, 180 in Tsuen Wan, 105 in Kowloon City (school net 35 only), 375 in Kwun Tong, 54 in the Eastern District (school net 14 only) and 63 in Yau Tsim Mong (school net 32 only).

Annex D

Estimated additional expenditure for schools implementing SCT with temporarily increase of number of students allocated per P1 class from the 2015/16 to 2019/20 school years

Breakdown of additional expenditure	2015/16 school year (Note 1) ($ million)	2016/17 school year (Note 1) ($ million)	2017/18 school year (Note 1) ($ million)	2018/19 school year (Notes 1) ($ million)	2019/20 school year (Notes 1&2) ($ million)
Provision of time-limited additional APSM posts for the cohort of students concerned for a period of 6 years (Note 3)	32.1	44.1	62.6	113.2	116.5 (estimate)
Provision of additional funding for each additional student above 30 in each P1 class for the cohort of students concerned for a period of 6 years	6.7	13.1	33.5	48.5	44.6 (estimate)
Provision of Additional Supplementary Learning Grant for the cohort of students concerned for a period of 6 years	7.5	19.0	39.2	75.1	99.0 (estimate)
Total:	46.3	76.2	135.3	236.8	260.1 (estimate)

Notes:

1. The number of schools implementing SCT temporarily allocated with more students per P1 class to meet the projected transient increase in demand for the 2015/16, 2016/17, 2017/18 and 2018/19 school years and the estimated number of schools for the 2019/20 school year are at Annex C.
2. The situation of the 2019/20 school year is an estimated one which was worked out based on the number of POA applicants as at late January 2019.
3. The additional cost for provision of the time-limited additional APSM posts was worked out based on the mid-point salary of the prevailing APSM post.

Projected school-age population aged 6 and 12 residing in Hong Kong, 2019/20 – 2023/24 School Years

Age	2019/20	2020/21	2021/22	2022/23	2023/24
6	57 300	55 700	59 200	57 800	57 600
12	55 000	63 300	65 400	67 900	73 500

Notes: (1) Figures in the above table are compiled with reference to the 2016-based Population Projections released by the Census and Statistics Department (C&SD) in September 2017. The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures.

(2) Children aged 6 and 12 are considered appropriate for primary (i.e. Primary 1) and secondary (i.e. Secondary 1) education respectively.

(3) Figures refer to the projected number of local children aged 6 and 12 residing in Hong Kong (i.e. Hong Kong usual residents). The projected figures should not be taken as the projected number of students attending schools in Hong Kong. The latter would be affected by the distribution and demand of school places, demand for school places and parental choices at the time. Students under or over the age of 6 and 12 may also enrol at Primary 1 and Secondary 1. The above figures do not include cross-boundary students.

(4) Figures are rounded to the nearest hundred.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0065)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Student Guidance Service Grant for primary schools, please provide the following information:

(a) the total expenditure on the Student Guidance Service Grant from the 2014/15 to 2018/19 school years and the estimated expenditure for the 2019/20 school year;

(b) please tabulate the total number of primary schools that applied and did not apply for the Student Guidance Service Grant, their percentage share among all primary schools in the territory, and the total number of primary schools in the territory from the 2014/15 to 2018/19 school years;

(c) the number of government and subsidised primary schools that were provided with Student Guidance Officer, Student Guidance Teacher and Student Guidance Service Grant (including Top-up Grant), and also the expenditure incurred in each year from the 2014/15 to 2018/19 school years; and

(d) given that the high annual wastage of guidance teachers has affected the continuity of guidance, but the demand for the guidance services from primary schools has been increasing day after day, whether the Education Bureau has any plan to improve, review or expand the abovementioned service, such as considering a "1+1" guidance model (i.e. one guidance teacher and one social worker for each school). If yes, what is the total estimated expenditure? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 4)

Reply:

(a) to (d)

The number of public sector primary schools provided with Student Guidance Officer, Student Guidance Teacher (SGT) or Student Guidance Service Grant (SGS Grant), their percentage shares and total expenditure from the 2014/15 to 2019/20 school years are as follows:

Student Guidance Services Provided		2014/15 School Year	2015/16 School Year	2016/17 School Year	2017/18 School Year	2018/19 School Year (Estimate)	2019/20 School Year (Estimate)

	Total Expenditure ($ million)	7.3	5.9	6.1	4.4	3.9 (Estimated Expenditure)	3.9 (Estimated Expenditure)
Student Guidance Teachers	Number of Schools (percentage share)	127 (28%)	125 (28%)	121 (27%)	119 (26%)	113 (25%)	113 (25%)
	Total Expenditure ($ million)	84.6	88.1	90.1	91.0	90.7 (Estimated Expenditure)	90.7 (Estimated Expenditure)
Student Guidance Service Grant	Number of Schools (percentage share)	312 (69%)	317 (70%)	323 (71%)	328 (72%)	114 (25%)	53 (12%)
	Total Expenditure ($ million)	146.3	157.3	168.3	181.4	65.0 (Estimated Expenditure)	30.0 (Estimated Expenditure)
Top-up Student Guidance Service Grant	Number of Schools	452 (100%)	452 (99%)	454 (100%)	454 (100%)	445 (98%)	440 (97%)
	Total Expenditure ($ million)	65.4	68.3	71.3	72.9	104.4 (Estimated Expenditure)	110.9 (Estimated Expenditure)

All primary schools have been required to provide a school-based, holistic and integrated guidance service under the Comprehensive Student Guidance Service (CSGS) implemented since the 2002/03 school year. Currently, teachers are working in collaboration with student guidance personnel and professionals to provide remedial, preventive and developmental guidance services for all students. This Whole School Approach helps the establishment of a robust student guidance system for sustainable service, while minimising the impact arising from turnover of individual staff members.

The Government has made continuous efforts to enhance the student guidance service in primary schools. To further enhance the student guidance service in primary schools, a Top-up Student Guidance Service Grant (Top-up Grant) has been provided for all public

sector primary schools with 5 or more classes by the Education Bureau (EDB) starting from the 2012/13 school year.

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" policy according to school-based circumstances. The measure is implemented on the basis of the CSGS to provide schools with more resources. The objective of the measure is to further enhance the overall quality of guidance service by ensuring that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualification. Under the new funding mode, schools may, having regard to their own circumstances, create a regular Assistant Social Work Officer (ASWO) post to increase stability or receive an equivalent subsidy to employ a school-based registered graduate social worker or hire service of a school-based registered graduate social worker from a social work service provider. Schools are also provided with the Consultation Service Grant (CSG) to procure consultation, supervision or other support services for school social workers to ensure service quality. Besides, the existing arrangements for the Top-up Grant is enhanced so that all public sector primary schools have more resources to enhance school social work and guidance services. For schools currently employing Student Guidance Teachers, they can continue with the existing arrangements. In the 2018/19 school year, 223 public sector primary schools have switched to the new funding mode. The estimated total expenditure on student guidance service under the old funding mode and the new funding mode is $436 million. It is expected that 283 public sector primary schools will switch to the new funding mode in the 2019/20 school year and the estimated total expenditure on student guidance service under the old funding mode and the new funding mode is $454 million.

Furthermore, with the implementation of the policy of "one school social worker for each school", the EDB has started to review the mode of collaboration between student guidance and social work services, and communicate with the education sector to identify the best way to provide school social work and guidance services by exploring all feasible proposals.

Expenditure involved					
S3					
Total number of students participating in TSA					
Students with SEN (percentage share %)					
NCS students participating in the Chinese assessment (percentage share %)					
Expenditure involved					
Total expenditure of the 3 levels					

(e) The dates of meetings and the attendance rate of members at each meeting since the establishment of the Coordinating Committee on Basic Competency Assessment and Assessment Literacy and its working groups;

(f) The detailed information of the research studies commissioned by the Government from the 2014/15 to 2018/19 school years in which the TSA results (including those of P3, P6 and S3 students) provided by the Government was used or the TSA results was used with the Government's authorisation. For each of these studies, please provide the title, name of responsible person (and organisation), commencement year, estimated duration, objectives, details, methods as well as the public funding involved and its purposes; and

(g) Does the Bureau consult stakeholders, such as school teachers and parents, on the implementation of P3 TSA? If yes, when will the consultation be conducted? If not, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 5)

Reply:

(a)

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment (BCA) project, including Student Assessment (SA)[Note] and Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Accepted the recommendations of the Committee, the EDB implemented the 2016 Tryout Study (Primary 3) (2016 Tryout Study) in 2016, and the BCA Research Study (Research Study) in 2017 and starting from 2018, has conducted Primary 3 TSA as a low-stake assessment on a sampling basis. These initiatives have been carried out under the BCA project and the payment according to terms of contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment) is settled to the HKEAA on an annual basis. The expenditure on SA, TSA (covering the 2016 Tryout Study and Research Study) and the related study under the project for the last 2 contract periods is tabulated as follows:

Contract period	**Expenditure ($ million)**		**Total expenditure ($ million)**	**Average annual expenditure ($ million)**
	SA	**TSA and related study under the project**		
2011-2014	99	220	319	80
2015-2018	3[Note]	290	293	73

Note: Since January 2017, SA has been upgraded to Student Assessment Repository (STAR) platform. The expenditure on STAR has been subsumed under the overall expenditure of EDB.

(b)

From 2014/15 to 2018/19 school years, the number of primary and secondary schools using SA/STAR, their percentage share in the respective school types and the number of login records in SA/STAR are as follows:

School Year	**2014/15 SA**	**2015/16 SA**	**2016/17**		**2017/18**	**2018/19**
			SA (September - December 2016)	**STAR (January – August 2017)**	**STAR**	**STAR (September – December 2018)**
Number of primary schools using SA/STAR	167	105	27	174	172	133

Percentage of primary schools using SA/STAR	32%	20%	5%	33%	33%	25%
Number of login records by primary school students	398 661	242 894	31 116	222 821	352 583	118 656
Number of secondary schools using SA/STAR	67	44	12	57	58	42
Percentage of secondary schools using SA/STAR	15%	10%	3%	12%	13%	9%
Number of login records by secondary school students	78 258	74 635	7 599	28 719	36 597	16 446

Note: Since January 2017, SA has been upgraded to the STAR platform. The expenditure on STAR has been subsumed under the overall expenditure of EDB.

(c)

From 2014/15 to 2016/17 school years, the number of primary and secondary school students participating in TSA, the corresponding percentage share of students with special educational needs (SEN) participating in TSA, the corresponding percentage share of non-Chinese speaking (NCS) students participating in the Chinese assessment, and the expenditure incurred to provide special examination accommodation arrangements for the students are as follows:

	School Year		
	2014/15	**2015/16**	**2016/17**
Primary 3			
Total number of students participating in TSA	50 448	5 156	54 506
Students with SEN (percentage share %)	9.8%	7.6%	9.6%
NCS students participating in the Chinese assessment (percentage share %)	2.8%	4.5%	2.8%
Expenditure incurred to provide special examination accommodation arrangements for the students#	$53,000	$11,000	$64,000

Primary 6△			
Total number of students participating in TSA	47 317	1 952	47 220
Students with SEN (percentage share %)	8.2%	7.9%	8.7%
NCS students participating in the Chinese assessment (percentage share %)	2.8%	4.9%	2.8%
Expenditure incurred to provide special examination accommodation arrangements for the students#	$44,000	$4,000	$51,000
Secondary 3			
Total number of students participating in TSA	59 776	55 278	52 707
Students with SEN (percentage share %)	4.5%	5.3%	6.3%
NCS students participating in the Chinese assessment (percentage share %)	2.3%	2.4%	2.6%
Expenditure incurred to provide special examination accommodation arrangements for the students#	$34,000	$75,000	$44,000

\# Breakdown of expenditure is a pro rata calculation according to the number of students.

△ Since 2012, Primary 6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

Accepted the Committee's recommendations on Primary 3 TSA last year, the EDB has, starting from 2018, conducted Primary 3 TSA with a low-stake approach of "no student names, no school names, no collection of reports and selection of participants by sampling". At the territory-wide level, the HKEAA samples around 10% of students from each public sector and Direct Subsidy Scheme (DSS) school for Primary 3 TSA each year. If schools consider necessary, the HKEAA can arrange participation of their Primary 3 students in TSA in full cohort.

Since the number of schools arranging participation of their Primary 3 students in TSA in full cohort (and the related number of students) are not pertinent to the policy objective, the EDB does not inquire the HKEAA about the schools that opt for full participation of their Primary 3 students in TSA (and the related number of students), and no longer maintains information on the number of students participating in Primary 3 TSA. In line with the policy intent of the new assessment arrangements, the HKEAA will also not disclose relevant information any longer.

According to the information provided by the HKEAA on the 2018 TSA, the percentage shares of Primary 6 and Secondary 3 SEN students participating in TSA among the total number of participants in the respective grade level are 7.7% and 6.2%. During the same period, the percentage shares of Primary 6 and Secondary 3 NCS students participating in the Chinese assessment among the total number of participants in the respective grade level are 7.4% and 3.0%.

The HKEAA's expenditure on providing special examination accommodation arrangements for students with SEN an NCS students participating in the 2018 TSA is $140,000.

(d)

Primary 3 TSA of the 2019/20 school year will be conducted in the second quarter of 2020. Subject to actual arrangements at the time, the estimated expenditure is around $85 million.

(e)

The details of the meetings of the Committee as well as the Working Group on Administration and Reporting and the Working Group on Papers and Question Design are as follows:

	Meeting dates	**Attendance rate (%)**
The Committee	10 December 2015	81%
	23 December 2015	71%
	18 January 2016	81%
	4 February 2016	76%
	2 June 2016	76%
	27 September 2016	86%
	22 November 2016	76%
	7 December 2016	83%
	28 February 2017	81%

Note: The working group conducts meetings on an irregular basis and is responsible for following up the recommendations made by the Committee from 2015 to 2017 in respect of the administration arrangements and reporting of the TSA. The relevant major measures have been completed and implemented.

(f)

In the school years from 2014/15 to 2017/18, the EDB commissioned through open tender the Chinese University of Hong Kong to conduct pilot research projects (research projects) on "Students' Learning Attitude and Motivation Questionnaire Survey". Each research project lasted for 1 year and involved an expenditure of about $1.4 million. The research projects aim to identify non-academic factors that affect students' learning and performance in TSA, and how different support measures affect NCS students' performance in TSA's Chinese Language assessment. The EDB expects that the questionnaire surveys would enable schools from multiple perspectives to comprehensively grasp what might affect students' learning attitude and motivation, and thus enhance learning and teaching.

The research projects included questionnaires for schools, parents and students. All schools and parents participated in the research projects on a voluntary basis, and prior consent was obtained from all related parties. The academic institution responsible for the research projects will consolidate the non-academic information collected through the questionnaires, and passed the information to the HKEAA for matching with TSA results of relevant participants. The information was then coded right after and provided to the academic institution for further analysis. Therefore, the academic institution would not have access to any TSA performance information that could identify the individual concerned, and the EDB will neither be informed of nor enquire individual school reports and information that can identify individuals.

(g)

Since the introduction of TSA in 2004, the EDB has maintained communication with various stakeholders to keep track of its implementation progress, and persistently attend to stakeholders' views for related continuous enhancements. To continue to respond to the public's concerns about TSA, the Secretary for Education announced in late October 2015 that the Committee would conduct a comprehensive review of the BCA (including Primary 3 TSA).

Throughout the two-year review process, to ensure that the review was comprehensive, rigorous, systematic and evidence-based, the Committee heeded and collected views and recommendations of the education sector and various stakeholders through different channels, and conducted questionnaire surveys and over 190 consultation sessions of

various types (including focus groups, seminars and meetings), covering school sponsoring bodies of over 70% of primary schools in the territory, about 3 000 school heads and teachers from over 500 primary schools (including all government, aided and DSS primary schools and some private primary schools) and more than 23 000 parents of Primary 3 students.

In light of the views collected, the Committee subsequently proposed four targeted enhancement measures, which include improving assessment papers and question design, enhancing school reports, strengthening professional support measures, and incorporating a questionnaire survey on students' learning attitude and motivation. Furthermore, it proceeded to introduce the 2016 Tryout Study (Primary 3) (involving about 10% of the primary schools in the territory) and the 2017 BCA Research Study (extending to all primary schools in the territory), and submitted the Report on Review of the Primary 3 TSA 2015-17 in March 2018. The EDB accepted in the same month the recommendations made by the Committee on Primary 3 TSA, and starting from the same year, Primary 3 TSA has been conducted with a low-stake approach of "no student names, no school names, no collection of reports and selection of participants by sampling".

The EDB will continue with the efforts made in 2018 by conducting questionnaire surveys and focus group meetings so as to collect and gauge the views from parents with children participating in Primary 3 TSA and teachers, closely monitoring the implementation of Primary 3 TSA as always, as well as maintaining close communication with schools and stakeholders at hand to explore room for continuous enhancement.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0067)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

With regard to the provision of additional resources for implementing integrated education in mainstream schools, please provide, by district, the following information in the past 5 years (from the 2014/15 to 2018/19 school years):

(a) the number of primary and secondary schools receiving the Learning Support Grant by using the table below:

	No. of primary schools					No. of secondary schools				
Provision for Learning Support Grant ($)	2014/15	2015/16	2016/17	2017/18	2018/19	2014/15	2015/16	2016/17	2017/18	2018/19
0 – 110,000										
110,001 – 400,000										
400,001 – 600,000										
600,001 – 800,000										
800,001 – 1,000,000										
1,000,001 or above										

(b) the number of primary and secondary schools provided with the School-based Educational Psychology Service;

(c) the total annual expenditure on the Enhanced Speech Therapy Grant, and the number of primary schools receiving the Basic Grant and Top-up Grant;

(d) the respective number of primary and secondary schools receiving the Basic Grant and Top-up Grant under the Enhanced Speech Therapy Grant;

(e) the number of primary and secondary schools having joined the Intensive Remedial Teaching Programme in Primary Schools and the Integrated Education Programme, the number of students benefiting from these Programmes, the number of additional teachers, teaching assistants and learning support assistants hired, and the average unit cost per student place;

(f) the number of secondary schools provided with additional teachers to support academic low achievers, and the number of additional teachers hired;

(g) a breakdown by district of the number of primary and secondary schools provided with the Intensive Support Grant for hardcore students with special educational needs, and the total annual provision; and

(h) the total provision for the Top-up Fund for primary and secondary schools' procurement of special furniture and equipment, and the number of primary and secondary schools benefiting from the provision.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 14)

Reply:

(a) to (h)

To help public sector mainstream schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of regular subvention, has been providing these schools with additional resources, including the Learning Support Grant (LSG), Enhanced Speech Therapy Grant (ESTG), additional teachers and funding under the Intensive Remedial Teaching Programme (IRTP) and the Integrated Education (IE) Programme, additional teachers to support academic low achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. Professional support is also provided for schools on an ongoing basis through assessment and consultation services of educational psychologists, school-based speech therapists and audiologists.

The provision of the above-mentioned additional resources and professional support is based on various parameters, such as the number of students with SEN in schools, the level of support they require, the number of classes and the applications of individual schools when need arises, but irrespective of the districts in which the schools operate. Hence, we are unable to give a breakdown of the provision by district. The respective number of public sector mainstream primary and secondary schools eligible for LSG within each specified range of provision from the 2014/15 to 2018/19 school years is set out at Appendix 1.

The requested statistics on School-based Educational Psychology Service, ESTG, IRTP, IE Programme and additional teachers for supporting academic low achievers from the 2014/15 to 2018/19 school years are set out at Appendix 2.

As for Intensive Support Grant for hardcore cases and Top-up Fund for procurement of special furniture and equipment mentioned above, they are provided for individual schools by EDB on an application basis to meet the specific needs of individual students with SEN. In other words, not all schools and students with SEN are provided with the same resources and the funding involved can vary among schools and across years. Hence, providing the total expenditure and number of schools receiving these additional resources separately is not meaningful.

Distribution of public sector primary and secondary schools within the specified range of Learning Support Grant (LSG) allocated from the 2014/15 to 2018/19 school years

Provision of LSG [Note1] ($)	Number of primary schools					Number of secondary schools				
	2014/15	2015/16	2016/17	2017/18	2018/19	2014/15	2015/16	2016/17	2017/18	2018/19
0 – 110,000	2	2	2	43 [Note2]	66 [Note2]	43	30	27	18	12
110,001 – 400,000	109	105	103	94	89	120	110	102	74	64
400,001 – 600,000	23	25	25	21	24	60	64	65	82	74
600,001 – 800,000	41	31	29	33	17	46	42	41	47	54
800,001 – 1,000,000	42	38	30	22	21	38	35	28	35	39
1,000,001 or above	87	109	125	142	164	76	101	119	129	142

Note:

1. To enhance the support for schools having admitted a larger number of students with special educational needs (SEN), the Education Bureau (EDB) has raised the ceiling of LSG from $1 million to $1.5 million per school per annum with effect from the 2013/14 school year and increased the rate of grant by 30% in the 2014/15 school year. Starting from the 2015/16 school year, the rate and ceiling of LSG for each school are adjusted annually according to the change in the Composite Consumer Price Index.
2. Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including those implementing the Intensive Remedial Teaching Programme (IRTP) in Primary Schools and the Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. As schools implementing the IRTP in Primary Schools and the IE Programme will also receive LSG for students with mental illness, there is a significant change in number of respective schools for the 2017/18 and 2018/19 school years when compared with previous years.

Table 1

Number of public sector primary and secondary schools receiving School-based Educational Psychology Service from the 2014/15 to 2018/19 school years

	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19**
Primary schools	341	401	454	454	456
Secondary schools	308	333	391	389	389

Table 2

Total expenditure of Enhanced Speech Therapy Grant (ESTG) and number of public sector primary schools provided with Basic Grant and Top-up Grant from the 2014/15 to 2018/19 school years

	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19**
Number of schools	452	451	454	453	454
Total provision ($ million)	54.4	57.4	59.8	62.8	66.1

Note: ESTG is provided to government and aided primary schools that have admitted students with speech and language impairment (SLI). Schools will be provided with Basic Grant and Top-up Grant according to the number of approved classes and the number of moderate or severe cases respectively each year. Most schools are provided with Top-up Grant, except for a few that do not have moderate or severe cases with SLI. For secondary schools, they may utilise Learning Support Grant to support students with SLI.

Table 3

A. Number of primary schools and additional teachers under the Intensive Remedial Teaching Programme (IRTP) from the 2014/15 to 2018/19 school years

	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19**
Number of primary schools	250	243	242	241	239
Number of additional teachers	398	388	383	382	380

B. Number of schools, additional teachers and learning support assistants under the Integrated Education (IE) Programme from the 2014/15 to 2018/19 school years

	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19**
Number of primary schools	27	25	25	25	25
Number of additional teachers in primary schools	23	21	21	21	21
Number of learning support assistants in primary schools	23	21	20	20	21
Number of secondary schools	9	8	8	8	8
Number of additional teachers in secondary schools	9	8	8	8	8
Number of learning support assistants in secondary schools	9	8	8	8	8

Note:

1. Since the introduction of the New Funding Mode (NFM) in the 2003/04 school year, schools implementing IRTP and IE Programme have been encouraged to switch to NFM for greater flexibility in the use of resources to support students with SEN.
2. The number of students under IRTP and IE Programme is only for calculation of additional manpower that schools should be provided with. In actual operation, irrespective of the funding mode adopted, schools should deploy additional manpower to render appropriate support to students in need under the Whole School Approach to integrated education. Hence, whether they are the targets of IRTP and IE Programme, students with SEN should all benefit from such additional resources. Providing the number of students under these Programmes and their unit cost is therefore not meaningful.

Table 4

Number of public sector secondary schools provided with additional teachers to support academic low achievers and number of additional teachers provided from the 2014/15 to 2018/19 school years

	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19**
Number of schools provided with additional teachers to support academic low achievers	256	257	262	263	263
Number of additional teachers provided	577	564	555	550	559

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0068)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information by type of special schools:

(a) the number of classes at each level and total number of classes, number of students at each class level and total number of students, number of teachers, unit cost of school places, class-to-teacher ratio, teacher-to-student ratio and unit cost of boarding places for the past 5 years (2014/15 to 2018/19 school years) and the coming year (2019/20 school year);

(b) the establishment and salary scale of all specialists (such as speech therapists) and non-specialists for the past 5 years (2014/15 to 2018/19 school years) and the coming year (2019/20 school year); and

(c) the number of students able to pursue further studies or receive vocational training (in post-secondary institutions, vocational training schools, etc.) after completing secondary education for the past 5 years (2014/15 to 2018/19 school years), with a breakdown by type of institutions they enrolled in.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 15)

Reply:

(a)
The number of approved classes, number of students, teaching staff establishment, average unit cost per school place, class-to-teacher ratio, teacher-to-student ratio and average unit cost per boarding place of each type of special schools from the 2014/15 to 2018/19 school years are set out at Appendix 1. The estimated number of classes and students in different types of special schools for the 2019/20 school year are tabulated below. As the calculation of the teaching staff establishment, class-to-teacher ratio and teacher-to-student ratio is based on the actual number of classes and students and the calculation of the average unit cost per school place and per boarding place is based on the actual operating cost of the

school, we are unable to provide these figures for different types of special schools for the 2019/20 school year at this stage.

School Type	2019/20 School Year	
	Estimated Number of Classes	Estimated Number of Students
Visual Impairment	15	120
Hearing Impairment	11	60
Physical Disability	103	930
Mild Intellectual Disability	231	3 290
Moderate Intellectual Disability	222	2 140
Severe Intellectual Disability	103	730
School for Social Development	90	630
Hospital School	34	310

It is a common practice for special schools to adopt flexible groupings across grade levels and devise individual education plans to cater for the special educational needs of the students. Presenting the numbers of classes by grade level is therefore not reflecting the actual operation in special schools.

(b)
Special schools are provided with specialist staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and braillists, as well as non-specialist staff, including laboratory technicians, clerical staff, janitor staff, teacher assistants, workshop attendants, drivers and artisans, according to their school type. The specialist staff and non-specialist staff establishment of different types of special schools from the 2014/15 to 2018/19 school years are set out at Appendix 2 and Appendix 3 respectively. The salary scales of specialist staff and non-specialist staff for the 2018/19 school year are set out at Appendix 4. As the calculation of the specialist staff and non-specialist staff establishment is based on the actual number of classes being operated, we are unable to provide these figures for different types of special schools for the 2019/20 school year at this stage.

(c)
In general, special schools will help their students plan and apply for post-school placement in accordance with their interests, capabilities and needs. The number of students in different types of special schools who have completed secondary education and pursued further studies or vocational training, with breakdown by type of special schools, as collected from special schools, from the 2014/15 to 2017/18 school years is set out at Appendix 5. As the current school year is still not finished, we are unable to provide the relevant information on special school leavers for the 2018/19 school year. Apart from

pursuing further studies and vocational training, special school leavers may also receive vocational rehabilitation service, day training service, day care service, etc.

Number of Approved Classes, Number of Students, Teaching Staff Establishment, Average Unit Cost per School Place, Average Unit Cost per Boarding Place, Class-to-Teacher Ratio and Teacher-to-Student Ratio in Special Schools from the 2014/15 to 2018/19 School Years

School Type	2014/15 School Year						
	No. of Approved Classes	No. of Students (as at September 2014)	Teaching Staff Establishment Note5	Average Unit Cost per School Place	Average Unit Cost per Boarding Place	Class-to-Techer Ratio	Teacher-to-class Ratio
Visual Impairment	15	126	37.6	$258,500	$157,000	1 : 2.5	1 : 3.4
Hearing Impairment	15	102	34	$279,000	$395,000	1 : 2.3	1 : 3.0
Physical Disability	102	921	196.9	$279,000	$271,000	1 : 1.9	1 : 4.7
Mild Intellectual Disability Note 1	214	3 051	513.6	$171,000	NA Note 2	1 : 2.4	1 : 5.9
Moderate Intellectual Disability Note 1	200	1 865	459.4	$239,500	$233,500	1 : 2.3	1 : 4.1
Severe Intellectual Disability	100	691	180.6	$313,000	$294,500	1 : 1.8	1 :3.8
School for Social Development	82	632	155.8	$149,000	NA Note 3	1 : 1.9	1 : 4.1
Hospital School	33	255	60.1	$167,500	NA Note 4	1 : 1.8	1 : 4.2

Notes:

1. Figures for the 7 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
2. Schools for children with mild intellectual disability do not provide boarding service.
3. Residential services provided in schools for social development are subvented by the Social Welfare Department.
4. Hospital School only provides educational services to hospitalised students and does not provide boarding services.
5. Teaching staff establishment excludes school heads and teachers employed with other grants (resource teachers for Supportive Remedial Service, Enhanced Support Service and Resource Support Programme and teachers for Home-bound Teaching Programme in Hospital School).

Number of Approved Classes, Number of Students, Teaching Staff Establishment, Average Unit Cost per School Place, Average Unit Cost per Boarding Place, Class-to-Teacher Ratio and Teacher-to-Student Ratio in Special Schools from the 2014/15 to 2018/19 School Years

School Type	2015/16 School Year						
	No. of Approved Classes	No. of Students (as at September 2015)	Teaching Staff Establishment Note5	Average Unit Cost per School Place	Average Unit Cost per Boarding Place	Class-to-Techer Ratio	Teacher-to-class Ratio

Severe Intellectual Disability Note 3	99	699	206.6	$361,500	$331,500	1:2.1	1:3.4
School for Social Development	89	594	191.5	$200,000	NA Note 5	1:2.2	1:3.1
Hospital School	33	314	64.4	$198,500	NA Note 6	1:2.0	1:4.9

Notes:

1. 1 school for children with hearing impairment will complete mainstreaming in the 2018/19 school year. In the 2017/18 school year, its boarding section only provided a few boarding places based on students' needs and there was special arrangement for its staff establishment. Calculation of average unit cost per boarding place is not applicable.
2. Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
3. 1 school for children with severe intellectual disability operates classes for children with moderate intellectual disability on a pilot basis starting from the 2017/18 school year. The figures are categorised according to the respective class types.
4. Schools for children with mild intellectual disability do not provide boarding service.

5. Residential home services provided in schools for social development are subvented by the Social Welfare Department.
6. Hospital School only provides educational services to hospitalised students and does not provide boarding services.
7. Teaching staff establishment excludes teachers employed with other grants (resource teachers for Supportive Remedial Service, Enhanced Support Service and Resource Support Programme and teachers for Home-bound Teaching Programme in Hospital School).

Number of Approved Classes, Number of Students, Teaching Staff Establishment, Average Unit Cost per School Place, Average Unit Cost per Boarding Place, Class-to-Teacher Ratio and Teacher-to-Student Ratio in Special Schools from the 2014/15 to 2018/19 School Years

School Type	2018/19 School Year						
	No. of Approved Classes	No. of Students (as at September 2018)	Teaching Staff Establishment Note 7	Average Unit Cost per School Place	Average Unit Cost per Boarding Place	Class-to-Techer Ratio	Teacher-to-class Ratio
Visual Impairment	15	110	43.1	$397,500	$194,000	1:2.9	1:2.6
Hearing Impairment	11	64	26	$395,500	NA Note 1	1:2.4	1:2.5
Physical Disability	103	907	227.9	$360,000	$319,500	1:2.2	1:4.0
Mild Intellectual Disability Note 2	223	3 218	598	$211,500	NA Note 4	1:2.7	1:5.4
Moderate Intellectual Disability Notes 2,3	215	2 040	552.7	$304,500	$273,000	1:2.6	1:3.7
Severe Intellectual Disability Note 3	100	706	208.6	$389,000	$350,500	1:2.1	1:3.4
School for Social Development	88	614	191.4	$220,000	NA Note 5	1:2.2	1:3.2
Hospital School	33	280	64.4	$211,000	NA Note 6	1:2.0	1:4.3

Notes:

1. The boarding section of the school for children with hearing impairment has just commenced operation starting from the 2018/19 school year and provides a few boarding places. Calculation of average unit cost per boarding place is not applicable.
2. Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
3. 1 school for children with severe intellectual disability operates classes for children with moderate intellectual disability on a pilot basis starting from the 2017/18 school year. The figures are categorised according to the respective class types.
4. Schools for children with mild intellectual disability do not provide boarding service.

5. Residential home services provided in schools for social development are subvented by the Social Welfare Department.
6. Hospital School only provides educational services to hospitalised students and does not provide boarding services.
7. Teaching staff establishment excludes teachers employed with other grants (resource teachers for Supportive Remedial Service, Enhanced Support Service and Resource Support Programme and teachers for Home-bound Teaching Programme in Hospital School).

Salary Scale of Specialist Staff for the 2018/19 School Year

Post		Salary Scale
Educational Psychologist II		$44,325 – $70,090
Educational Psychologist I		$70,590 – $105,175
Occupational Therapist Assistant		$19,030 – $30,165
Occupational Therapist II		$28,725 – $46,420
Occupational Therapist I		$48,540 – $70,590
Senior Occupational Therapist		$70,590 – $85,770
Physiotherapist II		$28,725 – $46,420
Physiotherapist I		$48,540 – $70,590
Senior Physiotherapist		$70,590 – $85,770
Speech Therapist		$31,685 – $70,090
Special School Social Worker	Assistant Social Work Officer	$31,685 – $70,090
	Senior Social Work Assistant	$44,325 – $58,345
Registered Nurse		$30,165 – $48,540
Braillist		$17,855 – $30,165

Salary Scale of Non-Specialist Staff for the 2018/19 School Year

Post	Salary Scale
Laboratory Technician III	$14,185 – $16,095
Laboratory Technician II	$20,270 – $40,420
Laboratory Technician I	$42,330 – $55,705
Workshop Attendant	$13,885 – $16,975
Artisan	$16,790 – $20,270
Motor Driver	$16,790 – $20,270
Special Driver	$20,270 – $22,865
Teacher Assistant	$13,040 – $15,365
Clerical Assistant	$13,045 – $22,865#
Assistant Clerical Officer	$14,780 – $30,165#
Janitor Staff	$13,040 – $15,365#

Aided special schools are provided with an Administration Grant (AG) or Revised Administration Grant (RAG) for employing clerical and janitor staff, or contracting out clerical or janitor service to meet their specific needs. The schools concerned will be provided with a lump sum equivalent to the salary of the clerical (solely for RAG) and janitor staff posts. The salary scale of these posts in the above table is for the calculation of grant/reference of the schools.

Number of students in special schools who have completed secondary education and pursued further studies or vocational training from the 2014/15 to 2017/18 school years

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0069)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information on primary and secondary schools:

the number of classes, number of students, number of teachers, unit cost of school places, class-to-teacher ratio, teacher-to-student ratio and unit cost of boarding places for the past 5 years (2014/15 to 2018/19 school years) and the coming year (2019/20 school year).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 16)

Reply:

The number of operating classes, number of students, number of teachers, unit cost, class-to-teacher ratio and teacher-to-student ratio in public sector and Direct Subsidy Scheme (DSS) primary and secondary schools from the 2014/15 to 2018/19 school years are set out at Appendix 1. In respect of the 2019/20 school year, the overall projected number of approved classes, number of students, number of teachers and teacher-to-student ratio in public sector primary and secondary schools projected for the purpose of preparing estimates are set out at Appendix 2. As the class-to-teacher ratio is calculated based on the actual number of operating classes and teachers, we are unable to provide relevant information at this stage. For DSS schools, apart from the unit cost, we do not have other projected figures. Given the different calculation bases, the estimated figures for the 2019/20 school year and the figures of the school years from 2014/15 to 2018/19 are not directly comparable. Also, since there is no boarding section in ordinary primary and secondary schools, the statistics requested are unavailable.

Number of Operating Classes, Number of Students, Number of Teachers, Unit Cost, Class-to-Teacher Ratio and Teacher-to-Student Ratio in Public Sector and DSS schools from the 2014/15 to 2018/19 School Years

Notes:

(1) Figures refer to the position as at mid-September of the school year.
(2) Figures do not include special schools.
(3) The number of teachers is rounded to the nearest 10.
(4) The unit cost is calculated on a financial year basis.

The projected number of approved classes, number of students, number of teachers, unit cost and teacher-to-student ratio in public sector and DSS schools[(1)] for the 2019/20 school year

</table>

Notes:

(1) Figures do not include special schools.

(2) The number of approved classes is the projected number of approved classes for preparing estimates by the Education Bureau. The number of approved classes of each school year is subject to the allocation mechanisms for Primary 1/Secondary 1 school places in public sector schools, student enrolment at each grade level, and the results of headcount as at mid-September of the year concerned. It is understood that some public sector schools may, in light of their school-based needs, adopt class streaming by making use of vacant classrooms, i.e. splitting one approved class into two classes. Hence, the actual number of operating classes is generally greater than the number of approved classes.

(3) The unit cost is calculated on a financial year basis.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0070)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Using the table below, please provide the total numbers of students in kindergartens, primary schools and secondary schools in each of the 18 districts for the past 5 school years (2014/15 to 2018/19 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(b) Using the table below, please provide the numbers of cross-boundary students in kindergartens, primary schools and secondary schools in each of the 18 districts for the past 5 school years (2014/15 to 2018/19 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(c) Using the table below, please provide the numbers of newly admitted students from the Mainland in kindergartens, primary schools and secondary schools in each of the 18 districts for the past 5 school years (2014/15 to 2018/19 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(d) Using the table below, please provide the numbers of ethnic minority students in kindergartens, primary schools and secondary schools in each of the 18 districts for the past 5 school years (2014/15 to 2018/19 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(e) Using the table below, please provide the numbers of students with special educational needs in kindergartens, primary schools and secondary schools in each of the 18 districts for the past 5 school years (2014/15 to 2018/19 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(f) In the past 5 school years (2014/15 to 2018/19 school years), what policies were adopted by the Administration to assist the student groups mentioned in items (b) to (e)? What was the respective amount of public funding involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 17)

Reply:

(a) The total numbers of students in kindergartens, primary schools and secondary schools by district and by sector from the 2014/15 to 2018/19 school years are tabulated at Appendix 1.

(b) The numbers of cross-boundary students (CBSs) in kindergartens (including kindergarten-cum-child care centres), primary and secondary schools by district and by sector from the 2014/15 to 2018/19 school years are tabulated at Appendices 2(a), 2(b) and 2(c) respectively.

(c) The numbers of newly admitted students from the Mainland in primary and secondary schools by district and by sector from the 2014/15 to 2018/19 school years are tabulated at Appendix 3. Please note that the Education Bureau (EDB) does not collect information on the newly admitted students from the Mainland in kindergartens.

(d) According to the information collected through the annual Student Enrolment Survey, the numbers of non-Chinese speaking (NCS) students in kindergartens and public sector and Direct Subsidy Scheme primary and secondary schools by district from the 2014/15 to 2018/19 school years are tabulated at Appendix 4.

(e) Support services for children with special needs at pre-primary level are provided by the Social Welfare Department. Hence, the EDB is unable to provide data on students with special needs in kindergartens. The numbers of students with special educational needs (SEN) studying in public sector primary and secondary schools, the English Schools Foundation (ESF) schools, other private international schools, and private independent (PI) schools from the 2014/15 to 2018/19 school years are set out at Appendix 5.

(f) *Newly-Arrived Children and CBSs*

The EDB provides newly-arrived children with the choice of attending the six-month full-time "Initiation Programme" operated by local schools, or the "Induction Programme" run by non-governmental organisations alongside the various school-based programmes organised by their respective schools. We also provide schools with the "School-based Support Scheme Grant". These Programmes/Grant primarily aim at helping them integrate into the local community and overcome their learning difficulties. Expenditure for the "Initiation Programme", the "Induction Programme" and the "School-based Support Scheme Grant" for newly-arrived children from the 2014/15 to 2018/19 school years is tabulated at Appendix 6. By virtue of their right of abode in Hong Kong, CBSs enjoy the same education services as our local students. If CBSs are newly-arrived children, they also enjoy the education services mentioned above.

NCS Students

Starting from the 2014/15 school year, the EDB has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework", which was drawn up in consultation with teachers and language experts, in primary and secondary schools, the provision of Applied Learning Chinese (for NCS students), and the creation of an inclusive learning environment in schools. The support measures for NCS students and the expenditure involved from the 2014/15 to 2018/19 school years are tabulated at Appendix 7. Besides, the EDB evaluates the effectiveness of various support measures for NCS students on an ongoing basis, and refines the measures as necessary.

Students with SEN

To help schools cater for students with SEN, the EDB has been providing public sector mainstream primary and secondary schools with additional resources on top of the regular subvention, professional support as well as teacher training. Starting from the 2016/17 school year, the School-based Educational Psychology Service has covered all public sector primary and secondary schools. The service has been further enhanced by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with SEN. Starting from the 2017/18 school year, the EDB provides, by phases in 3 years, each public sector mainstream primary or secondary school with an additional graduate teaching post so that schools could assign a designated teacher as Special Educational Needs Coordinator to support integrated education. Schools should pool together school resources and deploy them holistically and flexibly to render appropriate support services to students with SEN. The expenditure on additional support and services for students with SEN in public sector mainstream schools has continued to increase from the 2014/15 to 2018/19 school years. The revised estimated expenditure for the 2018/19 school year is around $2.012 billion.

At present, recurrent subvention is provided to the ESF for its support for students with SEN in the ESF's mainstream schools and special school. In the 2014/15 to 2018/19 school years, the annual recurrent subvention for this purpose amounts to $28.3 million.

Notes: (1) Figures refer to the position as at September of the respective school years.

(2) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students.

(3) Figures cover students studying in ordinary public sector and DSS secondary day schools, but not special schools. We do not have readily available information about the number of NCS students in private, the English Schools Foundation (ESF) and other private international schools.

Number of Students with Special Educational Needs (SEN) in Public Sector Mainstream Schools from the 2014/15 to 2018/19 School Years

	School Year				
School Level	2014/15	2015/16	2016/17	2017/18	2018/19
Primary	18 200	19 830	21 860	22 980	25 010
Secondary	17 990	19 640	21 030	22 380	24 070
Total	36 190	39 470	42 890	45 360	49 080

Notes: (1) As the provision of support services for students with SEN does not have relationship with the district in which they live or study, we do not provide the number of students with SEN by district.

(2) SEN-related resources are subsumed under the Direct Subsidy Scheme (DSS) unit subsidy and we do not separately collect the number of students with SEN in DSS schools.

Number of Students with Special Educational Needs (SEN) in the English Schools Foundation (ESF) Schools, Other Private International Schools, and Private Independent Schools (PIS) from the 2014/15 to 2018/19 School Years

School Year	ESF		PIS		Other Private International		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
2014/15	136	256	117	175	329	163	582	594
2015/16	230	435	178	277	385	175	793	887
2016/17	245	565	172	231	323	179	740	975
2017/18	439*	422*	183	234	404	284	1 026	940
2018/19	365	458	177	291	482	348	1 024	1 097

* The ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and has required all its schools to provide such figures to EDB in the Student Enrolment Survey accordingly since the 2015/16 school year. However, in an internal review of the ESF schools' practice in compiling the number of students with SEN in September 2017, the ESF found that the practice was still inconsistent among individual schools. The ESF has verified again the information provided by each ESF school for the Student Enrolment Survey. Therefore, there is a relatively significant change in the number of students with SEN in the 2017/18 school year when compared with previous years.

Notes: (1) Figures refer to the position as at September of the respective years.

(2) Statistics cover students with SEN under integrated classes/special classes/special schools in PIS, the ESF and other private International Schools as reported by the schools concerned in response to the Student Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

Expenditures for the Initiation Programme, the Induction Programme and the School-based Support Scheme Grant for newly-arrived children from the 2014/15 to 2018/19 School Years

School Year		2014/15	2015/16	2016/17	2017/18	2018/19
Expenditure ($ million)	Initiation Programme	21.8	23.9	24.1	27.1	31.3

(c) With the implementation of the new kindergarten education policy starting from the 2017/18 school year:					
(i) a grant comparable to the recommended salary of one kindergarten teacher has been provided to kindergartens admitting 8 or more NCS students for supporting NCS students	-	-	-	54.0	60.7
(ii) specific training courses for kindergarten teachers on support of NCS students	-	-	-	1.4	1.5 Note 4

Notes:

(1) These measures are provided by different sections of the EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different funds, and a breakdown of expenditure by item is not available.

(2) With the approval of the relief measure announced in the 2018-19 Budget to pay the examination fees for school candidates sitting for the 2019 HKDSE by the Finance Committee of the Legislative Council at the meeting on 18 May 2018, the "subsidised examination fee" of eligible NCS students sitting for the non-local Chinese Language examinations concerned in the 2018/19 school year is waived accordingly.

(3) Regarding the USP projects, the actual expenditure is $2.25 million, $8.33 million and $2.88 million for the 2015/16, 2016/17 and 2017/18 school years respectively, and the estimated expenditure is $5.46 million for the 2018/19 school year. As the USP projects are implemented in both kindergartens and primary schools, a breakdown of expenditure by kindergartens and primary schools is not available.

(4) Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate kindergartens in arranging teachers to attend specified training courses on supporting NCS students. The relevant expenditure has been included in the estimated expenditure for these training courses.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0071)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) In the financial years from 2016-17 to 2018-19, what Basic Law-related teaching resources and assessment banks were provided by the Education Bureau (EDB) for schools? For these teaching resources or assessment banks, please set out separately the production cost of each item.

(b) Please advise this Committee of the following:

(i) the estimated expenditure and staff establishment for the development of Basic Law-related resource packages and assessment banks in the 2019-20 financial year;

(ii) how many sets of learning and teaching resources does the EDB plan to develop. Please provide the name of these learning and teaching resources and the level of students for which they are developed; and

(iii) what specific plans the EDB has to promote Basic Law education.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 19)

Reply:

(a) - (b)(i)(ii)

To strengthen the implementation of Basic Law education (BLE), the Education Bureau (EDB) has continuously adopted a wide array of measures, which include developing learning and teaching (L&T) resources, delivering teacher training for school sponsoring bodies, school leaders and teachers, and organising life-wide learning activities for students.

Such support measures enable schools and teachers to acquire a deeper understanding of the concepts of the Basic Law and its close relevance to daily life, so that schools can enhance L&T efficacy by more effectively making plans for and taking forward BLE.

With respect to the development of L&T resources, the EDB has in the 2016-17 to 2018-19 financial years provided secondary schools with various sets of L&T resources, including the "e-Book of Understanding the Law, Access to Justice – Basic Law Learning Package (Junior Secondary)" and its associated e-platform; "Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study"; online L&T resources for the "Constitution and the Basic Law" module; "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers"; "Basic Law Online Course for Secondary School Students' Self-directed Learning"; and two assessment banks, namely "Basic Law On-line Assessment (Junior Secondary)" (for students) and "Web on Assessment for BLE (Junior Secondary)" (for teachers). The two assessment banks have been developed for years and will continue to be made available for schools' use. The EDB staff will regularly review and update the content of these assessment banks, having regard to the latest developments in the implementation of the Basic Law. Expenditures related to the two assessment banks only involve daily website management. All the resources mentioned above remain relevant.

At primary level, the EDB has in the 2016-17 to 2018-19 financial years provided the L&T Resource CDs for Primary General Studies on "History and Culture Series" and the "Basic Law Audio-visual L&T Package (Senior Primary)" to enhance teachers' and students' understanding of the Basic Law. In the 2019-20 financial year, the EDB will develop the L&T Resource CDs on "Engineering in China" under the "History and Culture Series". The expenditures on various L&T resources are as follows:

Name of L&T Resources	**Expenditure^ ($ million)**
E-Book of Understanding the Law, Access to Justice – Basic Law Learning Package (Junior Secondary) and its associated e-platform	0.06*
Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study (Secondary)	0.71*
Online L&T resources for the "Constitution and the Basic Law" module	Not Applicable$^{\Delta}$
Basic Law Knowledge Enrichment Online Course for Secondary School Teachers and supplementary video clips	1.08^{+}
Basic Law Online Course for Secondary School Students' Self-directed Learning and supplementary video clips	0.93^{+}
Basic Law On-line Assessment (Junior Secondary) (for students)	Not Applicable$^{\Delta}$
Web on Assessment for BLE (Junior Secondary) (for teachers)	Not Applicable$^{\Delta}$
L&T Resource CD for Primary General Studies (History and Culture Series): Understanding Chinese History and Culture through Monuments in Hong Kong	0.05*
L&T Resource CD for Primary General Studies (History and Culture Series): The Stories of the Silk Road	0.06*
Basic Law Audio-visual L&T Package (Senior Primary)	1.30^{+}

L&T Resource CD for Primary General Studies (History and Culture Series): Engineering in China	0.08+
Advanced Basic Law Knowledge Enrichment Online Course for Secondary School Teachers	0.30+

^ Representing total expenditures on L&T resources, which are incurred in different financial years (2015-16, 2016-17, 2017-18, 2018-19 and 2019-20)

* Actual expenditure

\+ Estimated expenditure

Δ Daily website management (including production) is subsumed under the recurrent expenditure of the EDB.

The above-mentioned expenditures on the production of BLE-related L&T resources, which include resource packages and assessment banks, does not include staff cost for the EDB personnel involved in the production. Since the development of L&T resources is an integral part of the day-to-day curriculum development work, it is not practical to give separate figures on the staff-related expenditure incurred by individual curriculum development task.

(b)(iii)

In the light of the circumstances in the school sector, the EDB will continue to strengthen BLE using diversified strategies, including updating L&T resources on an ongoing basis and organising teacher training activities. The EDB will also continue to enhance students' understanding of the historical background of the Basic Law and its implementation through such student activities as Basic Law quizzes and suitable exchanges and visits.

Director of Bureau: Secretary for Education

Question:

Regarding the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS), please provide the number of subsidy recipients among students pursuing eligible programmes and the percentage these subsidy recipients represented in the total number of students at the same level of study in the 2017/18 and 2018/19 academic years. Please give a breakdown in tabular form by institution and year of study.

Self-financing undergraduate programmes

Institution	Year of study	No. of students subsidised	Percentage among students at the same level of study

Self-financing top-up degree programmes

Institution	Year of study	Number of students subsidised	Percentage among students at the same level of study

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 18)

Reply:

The number of students receiving subsidy under the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS) is 20 268 in the 2017/18 academic year and 16 647 in the 2018/19 academic year, which account for about 79% and 77% of those pursuing the self-financing programmes concerned respectively. The number of students receiving subsidy and its percentage out of the number of students pursuing the self-financing programmes concerned by participating institutions are tabulated below:

(1) Self-financing First-year-first-degree Programmes

Institutions	**2017/18 Academic Year**		**2018/19 Academic Year**	
	Number of students receiving subsidy	**Percentage share in the number of students pursuing the self-financing programmes concerned[1]**	**Number of students receiving subsidy**	**Percentage share in the number of students pursuing the self-financing programmes concerned[1]**
Caritas Institute of Higher Education	596	65%	161	46%
Centennial College	53	35%	35	37%
Chu Hai College of Higher Education	262	46%	113	32%

HKCT Institute of Higher Education	0	-	0	-
Hong Kong Art School	4	4%	4	4%
Hong Kong Institute of Technology	10	21% [2]	5	4%
Hong Kong Nang Yan College of Higher Education	7	21%	6	8%
Hong Kong Shue Yan University	3 278	85%	2 914	81%
SCAD Foundation (Hong Kong) Limited	34	6%	32	5%
The Hang Seng University of Hong Kong	3 630	89%	2 775	87%
The Open University of Hong Kong (Including Li Ka Shing Institute of Professional and Continuing Education (LiPACE))	4 262	78%	2 436	69%
Tung Wah College	714	75%	169	61%

Institutions	2017/18 Academic Year		2018/19 Academic Year	
	Number of students receiving subsidy	**Percentage share in the number of students pursuing the self-financing programmes concerned[1]**	**Number of students receiving subsidy**	**Percentage share in the number of students pursuing the self-financing programmes concerned[1]**
Vocational Training Council - School for Higher and Professional Education (SHAPE)	Eligible first-year-first-degree programme is not offered			
Vocational Training Council - Technological and Higher Education Institute of Hong Kong[2]	1 188	87% [2]	440	**90%**
Yew Chung College of Early Childhood Education	Not a participant of NMTSS		8	**67%**
Total	**14 071**	**N.A.**[3]	**9 135**	**N.A.**[3]

Note

1. The number of students is a provisional figure as at the end of December in the respective academic years. The final actual number of students may vary. The number of students does not include those enrolled in subsidised places under the Study Subsidy Scheme for Designated Professions/Sectors.
2. Since the institution provided a combined figure of students pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes, the percentage is calculated on the basis of the total number of subsidy recipients who are pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes.
3. Since some of the institutions provided a combined figure of students pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes (see Note 2), we are not able to provide the respective total percentage share of these two types of programmes.

(2) Self-financing Top-up Degree Programmes

Institutions	2017/18 Academic Year		2018/19 Academic Year	
	Number of students receiving subsidy	**Percentage share in the number of students pursuing the self-financing programmes concerned[1]**	**Number of students receiving subsidy**	**Percentage share in the number of students pursuing the self-financing programmes concerned[1]**
Caritas Institute of Higher Education	134	60%	125	64%

Institutions	2017/18 Academic Year		2018/19 Academic Year	
	Number of students receiving subsidy	**Percentage share in the number of students pursuing the self-financing programmes concerned[1]**	**Number of students receiving subsidy**	**Percentage share in the number of students pursuing the self-financing programmes concerned[1]**
Centennial College	32	52%	39	93%
Chu Hai College of Higher Education	90	46%	90	53%
Gratia Christian College	0	-	1	100%
HKCT Institute of Higher Education[2]	8	-[2]	17	-[2]
Hong Kong Art School	Eligible top-up degree programme is not offered			
Hong Kong Institute of Technology	67	21%[3]	67	26%
Hong Kong Nang Yan College of Higher Education	12	86%	7	100%
Hong Kong Shue Yan University	324	96%	536	97%
SCAD Foundation (Hong Kong) Limited	Eligible top-up degree programme is not offered			
The Hang Seng University of Hong Kong	564	94%	802	93%
The Open University of Hong Kong (Including Li Ka Shing Institute of Professional and Continuing Education (LiPACE))[4]	1 769	77%	2 249	81%
Tung Wah College	324	78%	361	89%
Vocational Training Council - School for Higher and Professional Education ("SHAPE")[4]	2 057	95%	2 196	97%
Vocational Training Council - Technological and Higher Education Institute of Hong Kong[3]	816	87%[3]	1 004	90%
Yew Chung College of Early Childhood Education	Not a participant of NMTSS		18	90%
Total	**6 197**	**N.A.**[5]	**7 512**	**N.A.**[5]

Note

1. The number of students is a provisional figure as at the end of December in the respective academic years. The final actual number of students may vary.
2. Since the institution did not provide the total number of students pursuing the self-financing programmes concerned, we are not able to calculate the percentage of students receiving subsidy out of the total.
3. Since the institution provided a combined figure of students pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes, the percentage is calculated on the basis of the total number of subsidy recipients who are pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes.
4. Some programmes are collaborative programmes provided by the Open University of Hong Kong and SHAPE. The number of students receiving subsidy and its percentage out of the number of students pursuing the programmes concerned are reflected in the figures of SHAPE.
5. Since some of the institutions provided a combined figure of students pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes (see Note 3), we are not able to provide the respective total percentage share of these two types of programmes.

Question:

1. Please provide the respective numbers of Hong Kong students pursuing undergraduate, taught postgraduate and research postgraduate studies in Mainland for the past 5 years (2014/15 to 2018/19 academic years).

2. Please provide a list of Mainland institutions participating in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions for the past 5 years (2014/15 to 2018/19 academic years).

3. Please provide a breakdown of the number of Hong Kong students enrolling in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions and the number of students who were successfully admitted under the Scheme by institution for the past 5 years (2014/15 to 2018/19 academic years).

4. Please provide the first quartile, median and lower quartile scores of Hong Kong Diploma of Secondary Education Examination (HKDSE) candidates enrolling in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions for the past 5 years (2014/15 to 2018/19 academic years).

5. Please provide the first quartile, median and lower quartile scores of HKDSE candidates who were successfully admitted under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions for the past 5 years (2014/15 to 2018/19 academic years).

6. How many civil servants in the Education Bureau are responsible for handling matters relating to the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions for the past 5 years (2014/15 to 2018/19 academic years)? Please provide details of the staff establishment and the amount of public funds involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 24)

Reply:

1. Regarding the number of Hong Kong students pursuing studies in the Mainland, we do not maintain such records. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying undergraduate and postgraduate programmes in Mainland higher education institutions was 15 009 as at November 2017.

2. The Ministry of Education has implemented the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme) since the 2012/13 academic year. The number of Mainland higher education institutions participating in the Admission Scheme was 75, 78, 84, 90 and 102 in the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 academic years respectively, and lists of such institutions are available on the website of the Education Bureau at www.edb.gov.hk/expo13, www.edb.gov.hk/expo14, www.edb.gov.hk/expo15, www.edb.gov.hk/expo16 and www.edb.gov.hk/expo17.

3. The number of students enrolling in the Admission Scheme in the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 academic years was 3 249, 2 988, 2 689, 2 568 and 3 216 respectively whereas the number of students admitted under the Admission Scheme was 1 535, 1 444, 1 391, 1 295 and 1 556 respectively. As regards the number of students admitted by individual Mainland higher education institutions participating in the Admission Scheme, the relevant information provided by the institutions for the 2014/15, 2015/16, 2016/17 2017/18 and 2018/19 academic years is set out in the "Handbook on the Scheme for the Admission of Hong Kong Students to Mainland Higher Education Institutions" for the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 academic years, which can be downloaded from the website of the Education Bureau at www.edb.gov.hk/expo14, www.edb.gov.hk/expo15, www.edb.gov.hk/expo16, www.edb.gov.hk/expo17 and www.edb.gov.hk/expo18 respectively.

4. and 5. As regards the Hong Kong Diploma of Secondary Education Examination results attained by those students who enrolled in or were admitted under the Admission Scheme over the years, we do not maintain such records.

6. The implementation of Admission Scheme involves staff from assistant clerical officer to directorate officer. The relevant manpower and expenditure have been subsumed under the overall establishment and expenditure of EDB, hence a breakdown is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0078)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau introduced the Mainland University Study Subsidy Scheme (MUSSS) in August 2014 to provide assistance for needy Hong Kong students to pursue undergraduate programmes in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions.

(1) Please provide breakdowns of the number of applicants and the respective numbers of students receiving full-rate and half-rate subsidies by institution under the MUSSS in the past 5 years (2014/15 to 2018/19 academic years), as well as a list of the institutions and programmes involved.

(2) Please provide the number of cases of attrition among students receiving subsidies under the MUSSS by institution in the past 5 years (2014/15 to 2018/19 academic years).

(3) How many civil servants in the Education Bureau are responsible for handling matters relating to the MUSSS? Please provide details of the staff establishment and the amount of public funds involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 25)

Reply:

(1) The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions. Students having passed a means test will receive either a full-rate subsidy or a half-rate subsidy ("means-tested subsidy") per student per academic year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students

pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions. In addition, a "non-means-tested subsidy" is introduced under MUSSS starting from the 2017/18 academic year, and eligible students will be granted a flat-rate subsidy per academic year. The amount of subsidy will also be reviewed and adjusted as appropriate. For the 2018/19 academic year, the full-rate subsidy and half-rate subsidy of the "means-tested subsidy" are $16,800 and $8,400 respectively. The "non-means-tested subsidy" offers $5,600.

Breakdowns of the number of applicants in the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 academic years, and the number of students receiving the full-rate and half-rate subsidies in the 2014/15, 2015/16 and 2016/17 academic years, the number of students receiving full-rate "means-tested subsidy", half-rate "means-tested subsidy" and "non-means-tested subsidy" in the 2017/18 and 2018/19 (as at 28 February 2019) academic years by institution are set out at Annexes 1 to 5 respectively. Breakdown of the number of applicants by discipline is set out at Annex 6.

(2) 25 cases of attrition among the students receiving the subsidy under the MUSSS have been reported so far in the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 academic years.

(3) To cope with the additional workload arising from the implementation of the MUSSS, the Education Bureau (EDB) and Working Family and Student Financial Assistance Agency (WFSFAA), in addition to making use of existing resources, have created civil service posts, namely 3 of Executive Officer Grade and 7 of Clerical Officer Grade. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0079)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau of Hong Kong and the Ministry of Education of the Mainland have been jointly organising the Mainland Higher Education Expos for years in a row.

1. Please set out the dates, venues, themes and numbers of visitors of the Expos held in the past 5 years (2014/15 to 2018/19 academic years).

2. Are the expenses for organising the Expos borne equally by the Education Bureau and the Ministry of Education? Please set out the amount of public funds expended by the Hong Kong Government on the Expos in each of the past 5 years (2014/15 to 2018/19 academic years).

3. How many civil servants in the Education Bureau are responsible for handling matters relating to the Expos in the past 5 years (2014/15 to 2018/19 academic years)? Please provide details of the staff establishment and the amount of public funds involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 26)

Reply:

1. To help local secondary schools, students and parents understand better the details of and arrangements for the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme), the Education Bureau (EDB) and Ministry of Education (MoE) of the People's Republic of China had jointly organised the Mainland Higher Education Expos in Hong Kong annually since 2011 to inform teachers, students and parents of the particulars of the Admission Scheme and latest development on further studies in the Mainland. Information about the past 5 Mainland Higher Education Expos is as follows:

Date	Venue	Theme	Approximate number of visitors
1 & 2 November 2014	KITEC^	Details and arrangements of the Admission Scheme and the latest development on further studies in the Mainland.	9 000
7 & 8 November 2015	KITEC^		12 000
17 & 18 December 2016	KITEC^		10 000
2 & 3 December 2017	HKCEC*		10 000
1 & 2 December 2018	HKCEC*		11 000

^ Kowloonbay International Trade & Exhibition Centre (KITEC)

* Hong Kong Convention and Exhibition Centre (HKCEC)

2. EDB is responsible for all the costs incurred for organising the Mainland Higher Education Expos. The actual expenditure involved in the organisation of the annual Expos over the past 5 years is as follows:

Financial Year	Actual Expenditure ($ million)
2014-15	2.54
2015-16	3.23
2016-17	3.58
2017-18	4.07
2018-19	4.11

At the Expos, Mainland institutions participating in the Admission Scheme set up exhibition booths and held talks to disseminate information on their institutions and disciplines, admission requirements, number of student places, tuition fees, etc. There were also thematic sharing sessions for representatives of the institutions to brief teachers, students and parents on the characteristics of individual programmes and employment prospects of graduates. MoE would support representatives of the Mainland institutions to come to Hong Kong to participate in the Expos at its cost.

3. The organising of Mainland Higher Education Expos involves staff from assistant clerical officer to directorate officer. The relevant manpower and expenditure have been subsumed under the overall establishment and expenditure of EDB, hence a breakdown is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0080)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (700) General non-recurrent

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Please provide the respective number of primary and secondary schools as well as total number of schools participating in the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme), and the average amount of grant disbursed to each primary and secondary school in each of the school years since 2015/16;

(b) The Government had announced that the Pilot Scheme would be regularised starting from the 2018/19 school year. Please provide the respective number of primary and secondary schools expected to participate, and the average amount of grant each primary and secondary school is expected to receive in the 2019/20 school year; and

(c) Please provide a list of local schools participating in the Pilot Scheme and the names of their Mainland sister schools.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 32)

Reply:

(a) The number of schools participating in the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme) is set out by school year below:

School Year	Secondary School	Primary School	Special School	Total
2015/16	150	139	13	302
2016/17	223	228	20	471
2017/18	250	260	25	535

Each participating school in the Pilot Scheme received a fixed grant of $120,000 per annum and professional support.

(b) The Government regularises the Pilot Scheme with effect from the 2018/19 school year to provide a recurrent grant (which is set at $150,000 for the 2018/19 school year and the amount of grant will be adjusted in accordance with the movement of the Composite Consumer Price Index each year) and professional support for each local public sector or Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. It is anticipated that there will be about 775 participating primary, secondary and special schools in the 2019/20 school year.

(c) As a prevailing practice, we do not disclose the names of schools participating in the Pilot Scheme and the relevant information to avoid possible labelling effect and unnecessary pressure on individual schools.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0082)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Following the regularisation of a relevant pilot project under the Community Care Fund from the 2017/18 school year, the Government will provide each public sector ordinary primary and secondary school with an additional teaching post (Assistant Primary School Master/Mistress post for primary schools or Graduate Master/Mistress post for secondary schools) in phases over 3 years to facilitate the assignment of a designated teacher to take up the role of Special Educational Needs Coordinator. In this connection, would the Government advise this Committee of the following:

(a) the respective number of primary schools and secondary schools with the provision of the said teaching post in the 2017/18 and 2018/19 school years, with a breakdown by district, and the expenditures involved; and

(b) the respective number of primary schools and secondary schools with the provision of the said teaching post in the 2019/20 school year, with a breakdown by district, and the estimated expenditures.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 33)

Reply:

(a) and (b)

In the 2017/18 school year, 244 public sector mainstream primary and secondary schools (126 primary schools and 118 secondary schools) had the provision of Special Educational Needs Coordinator (SENCO) and the expenditure involved was $164 million. In the 2018/19 school year, 544 public sector mainstream primary and secondary schools (300 primary schools and 244 secondary schools) have the provision of SENCO and the revised estimated expenditure is $376 million.

In the 2019/20 school year, all public sector mainstream primary and secondary schools (455 primary schools and 389 secondary schools) will have the provision of SENCO. In the said school year, the Education Bureau will upgrade the SENCO post to a promotion rank (i.e. Primary School Master/Mistress in primary schools and Senior Graduate Master/Mistress in secondary schools) in public sector mainstream primary and secondary schools with comparatively large number of students with special educational needs, and the estimated expenditure is around $824 million. As the provision of SENCO is not related to the district where the school is located, we have not compiled figures by district.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

About strengthening the manpower of specialists in special schools to improve special education services, would the Government advise this Committee of the following:

(i) the details about providing an occupational therapist and an occupational therapist assistant for schools for children with mild intellectual disability, schools for children with moderate intellectual disability, schools for children with visual impairment and school for children with hearing impairment from the 2017/18 school year; the expenditures involved in the 2017/18 and 2018/19 school years and the estimated expenditures for the 2019/20 school year;

(ii) the details about creating school-based speech therapist (SBST) posts in public sector ordinary schools by phases in 3 years starting from the 2019/20 school year and the estimated expenditures for the 2019/20 school year; and

(iii) some special schools reflected that they failed to recruit school-based occupational therapists owing to the shortage of specialists, please provide the number of special schools unable to recruit occupational therapists in the 2018/19 school year, with a breakdown by type of special schools; whether the Government has any plan to improve this situation, and if yes, the total estimated expenditures involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 34)

Reply:

(i) Starting from the 2017/18 school year, the Education Bureau (EDB) provides occupational therapists (OTs) and occupational therapist assistants (OTAs) to schools for children with mild intellectual disability (ID), schools for children with moderate ID, schools for children with visual impairment (VI) and the school for children with hearing

impairment (HI) so that these allied health professionals may provide necessary support for students displaying weaknesses in fine motor skills and hand-eye co-ordination. 1 OT II and 1 OTA are provided to special schools under the above categories which operate 6 or more approved classes. In the 2017/18 school year, a total of 34 special schools benefited from the measure. The numbers of beneficiaries in the 2018/19 and 2019/20 school years are estimated to be the same. The total expenditure for this measure in the 2017/18 school year was around $21 million and the estimated annual expenditure in the 2018/19 and 2019/20 school years is around $31 million.

(ii) Starting from the 2019/20 school year, the EDB will implement the "Enhanced School-based Speech Therapy Service" (Enhanced SBSTS) by creating school-based speech therapist (SBST) posts in the public sector mainstream schools by phases in 3 years. The EDB will form clusters of schools according to the number of approved classes of schools, number of students with speech and language impairment (SLI) and their severity level of SLI, previous experience of schools in employing SBSTs and their preference. Most of the schools will form a cluster of 2 schools. One school in each cluster will be the base school. The permanent posts of SBST will be created in the base schools. In the 2019/20 school year, over 200 schools will be arranged to implement the Enhanced SBSTS and the estimated expenditure is around $100 million.

(iii) According to the information collected by the EDB in September 2018, among the 34 schools for children with mild ID, schools for children with moderate ID, schools for children with VI and the school for children with HI, 27 schools have employed OTs or frozen (all or part of) the OT post vacancies to obtain a cash grant for recruiting temporary staff or procuring related services. The remaining 7 schools (including 1 school for children with HI, 3 schools for children with mild ID and 3 schools for children with moderate ID) have neither recruited any OT nor applied for the cash grant. To improve the issue of manpower supply, universities are requested to increase training places. Through the Study Subsidy Scheme for Designated Professions/Sectors, the self-financing post-secondary education sector is also encouraged to offer designated programmes in selected disciplines, including nursing, to nurture talent in support of specific industries with keen demand for human resources. At present, graduates of degree programmes in occupational therapy are gradually entering the job market.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0084)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In the 2017 school year, the Government increased recurrent expenditure on education by $3.6 billion, which included increasing the provision of 0.1 teacher per class in primary, secondary and special schools. Please advise this Committee of the following:

(1) What is the respective number of additional regular teaching posts created with the new resources in primary, secondary and special schools? How many of these regular teaching posts are filled by contract teachers deployed within the same school and what is the percentage?

(2) What is the number of schools that have not yet recruited regular graduate teachers with the new resources and what are the reasons for that?

(3) What is the number of secondary schools participating in the Voluntary Optimisation of Class Structure Scheme (VOCSS) that have the number of surplus teachers offset/reduced by the aforesaid additional teaching posts? What is the number of surplus teachers involved?

(4) What is the respective amount of additional funding involved in increasing the provision of 0.1 teacher per class in primary, secondary and special schools?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 35)

Reply:

(1), (2) and (4)
Starting from the 2017/18 school year, the teacher-to-class (T/C) ratio for public sector primary and secondary schools (including special schools) has been increased by 0.1

across-the-board, and the respective additional full year costs required is around $800 million and $700 million. This initiative has brought about an increase of around 1 200 and 1 000 additional regular teaching posts in public sector primary schools (including special schools) and public sector secondary schools (including special schools) respectively, which provides additional teaching staff for schools to take forward various education initiatives and enhance the quality of education for the benefit of our students.

The number of regular teaching posts provided to public sector schools every year may be adjusted according to the number of classes approved, T/C ratio, and additional regular teaching posts provided under various initiatives, etc. In addition, the number of regular teaching post vacancies changes according to the turnover of teaching manpower as a result of, for example, retirement or resignation. In general, schools will make appropriate manpower deployment based on the total number of regular teaching posts available and there is no genuine need for them to differentiate the source of manpower supply for each filled regular teaching post vacancy. Therefore, the Education Bureau (EDB) has not collected the relevant statistics, and we are unable to provide the number and percentage of additional regular teaching posts generated by the increase in T/C ratio by 0.1 and filled by contract teachers deployed within the same school, as well as the number of schools which have yet to employ additional regular teachers due to the increase in T/C ratio by 0.1 since the 2017/18 school year. Our information shows that some 1 700 contract teachers appointed in the 2016/17 school year have been employed as regular teachers within the establishment of public sector schools in the 2017/18 school year. To our understanding, most aided schools have employed additional regular teachers to fill teaching post vacancies within the approved establishment, with the exception of individual schools which have used the vacancies to absorb surplus teachers arising from class reduction or withdrawal of teaching post quota under the VOCSS. For government schools, the EDB has already filled around 370 regular teaching post vacancies in primary and secondary schools since the 2017/18 school year and will continue the recruitment efforts to fill the vacancies in the 2019/20 school year.

(3) The teaching post quota provided to schools participating in the VOCSS will be withdrawn gradually according to the provisions under the scheme. The surplus teachers can be absorbed by the additional regular teaching posts created by the increase in T/C ratio. Since the actual number of surplus teachers absorbed in individual schools may be affected by factors such as changes in class structure and natural wastage of teachers, the requested figures are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0086)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. What were the actual expenditures of the Committee on Self-financing Post-secondary Education, the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, the Quality Assurance Council and the Joint Quality Review Committee in the past 5 years (2014-15 to 2018-19) and what were the estimates for 2019-20?

2. How many programmes were assessed by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, the Quality Assurance Council and the Joint Quality Review Committee respectively in the past 5 years (2014-15 to 2018-19)? How many programmes were found not up to the standard?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 29)

Reply:

1. The Committee on Self-financing Post-secondary Education (CSPE) is established to advise the Government on the development of the self-financing post-secondary education sector. The Education Bureau (EDB) provides secretariat support to CSPE and the secretariat posts are part of EDB's establishment. Serving the CSPE is part and parcel of the officers' duties for the relevant subject areas. The related expenditure of the secretariat posts could not be identified separately as they are absorbed by the existing resources of EDB.

   The Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) is established under the HKCAAVQ Ordinance (Cap. 1150) to provide accreditation and assessment services for academic and vocational qualifications. It is also responsible for the quality assurance of all operators and programmes except for the University Grants Committee (UGC)-funded universities with self-accrediting status. HKCAAVQ is a self-financed body and does not receive recurrent subvention from the Government.

   As a statutory body, HKCAAVQ's annual report is tabled at the Legislative Council every year in accordance with the HKCAAVQ Ordinance. The actual expenditure of

HKCAAVQ in the past 5 years from 2014-15 to 2018-19 (as at end February 2019) and the estimated expenditure for 2019-20 are as follows –

2014-15	2015-16	2016-17	2017-18	2018-19 (As at end February 2019)	2019-20 (Estimate)
($ million)					
79.8	89.4	88.7	83.1	76.8	98.7

The Quality Assurance Council (QAC), established under the aegis of UGC, aims to assure that the quality of educational experience in programmes at the levels of sub-degree, first degree and above (however funded) offered in UGC-funded universities is sustained and improved, and is at an internationally competitive level.

The actual expenditure of QAC in the past 5 years from 2014-15 to 2018-19 and the estimated expenditure for 2019-20 are as follows –

2014-15	2015-16	2016-17	2017-18	2018-19 (As at end February 2019)	2019-20 (Estimate)
($ million)					
0.8	1.4	1.0	1.1	1.6	0.6

The expenditure of QAC mainly includes expenses for air passage, accommodation, as well as per-diem allowance of QAC members and Audit Panel members who are not based in Hong Kong. QAC conducted the second round of QAC quality audits in 2015 and 2016, and is conducting the audit activities for the sub-degree operations of UGC-funded universities from 2017 to 2019. The increase in non-local Audit Panel members for quality audits on sub-degree operations as compared with the second round of quality audits has resulted in a rise in the expenditure for 2018-19. Besides, preparation work for the third round of QAC quality audits will commence in 2019-20 and the first audit visit is expected to be conducted in 2021. As no audit visits will be arranged for 2019-20, there will be a decrease in the expenditure of QAC during that period. QAC members and Audit Panel members who are not based in Hong Kong receive honoraria for their participation in the QAC/audit activities. The annual rates of honoraria, which are reviewed according to the rates of civil service salary adjustments, ranged from $84,550 to $99,850 for non-local QAC members and $47,300 to $56,360 for non-local Audit Panel members over the period from 2014-15 to 2018-19.

Since 2016, UGC has assumed the role of the overseeing body of the external quality audits on the sub-degree operations of UGC-funded universities, with the involvement of QAC as the audit operator. In this connection, the former Joint Quality Review Committee (JQRC), which was established by the Heads of Universities Committee to provide peer review of the quality assurance processes of self-financing sub-degree programmes offered by UGC-funded universities, ceased operation in 2016. The Government did not provide any funding to JQRC and has no information about their annual expenditure.

2. HKCAAVQ is empowered under the HKCAAVQ Ordinance to conduct accreditation for academic and vocational programmes. In the past 5 years from 2014-15 to 2018-19 (as at end February 2019), the number of programmes accredited/re-accredited, as well as those not approved by HKCAAVQ are as follows –

Number of Programmes	**Financial Year**				
	2014-15	**2015-16**	**2016-17**	**2017-18**	**2018-19 (As at end February 2019**
Accredited/ Re-accredited Note	499	280	235	329	375
Not approved Note	0	2	0	0	0

HKCAAVQ spares no effort in raising the awareness of operators regarding the accreditation requirements in order to facilitate self-evaluation of their readiness to undergo accreditation. Operators are alerted early in the accreditation process if they were unable to demonstrate sufficient evidence to meet the required accreditation standards. Operators would have chosen not to proceed with the accreditation exercise if the chance of successful accreditation is considered slim. Therefore, the number of unsuccessful accreditation exercise is small.

Note: Figures include accredited and re-accredited local and non-local programmes but do not include programmes covered by Programme Area Accreditation (PAA). PAA allows providers to develop and operate learning programmes within an approved scope of programme area(s) at specified Qualifications Framework Level(s) for an approved period of time, and have the qualifications of its learning programmes entered into the Qualifications Register (QR) without going through learning programme accreditation or re-accreditation by HKCAAVQ.

On the other hand, the former JQRC endorsed self-financing sub-degree programmes of UGC-funded universities for the purpose of registration on QR. It should be noted that both the former JQRC and QAC did/do not accredit individual programmes of UGC-funded universities as these universities already have self-accrediting status. As mentioned above, the former JQRC ceased operation in 2016, only the number of self-financing sub-degree programmes endorsed/re-endorsed in 2014-15, as well as those not endorsed/ not re-endorsed are available and they are as follows –

Number of Programmes	**Financial Year**				
	2014-15	**2015-16**	**2016-17**	**2017-18**	**2018-19**
Endorsed/Re-endorsed	400	Not available	Not available	Not available	Not available
Not Endorsed/ Not Re-endorsed	21	Not available	Not available	Not available	Not available

- End –

(c) the details of and the expenditure incurred by the Education Bureau (EDB) on the development of the Support Network (Education services for NCS students);

(d) the number of NCS students pursuing the remedial programmes offered by the Chinese Language Learning Support Centres and the number of such centres in various districts;

(e) the number of schools joining the Language Support Services, the number of NCS students benefitting from such services and the expenditure involved;

(f) the number of schools joining the School-based Curriculum Development Support Services for primary schools, the number of NCS students benefitting from such services and the expenditure involved;

(g) the number of students participating in the Induction Programme, Initiation Programme and 4-week Summer Bridging Programme, the number of schools offering such programmes and the total expenditure involved;

(h) details of the Pilot Scheme on Workplace Chinese Language, and the annual number of NCS students participating in the scheme as well as the total expenditure involved since its introduction in July 2012;

(i) the implementation details of activities co-organised by EDB and non-governmental organisations and targeted at NCS students, including programme names, co-organisers and the number of participants;

(j) the number of NCS students sitting for the Chinese examinations under the General Certificate of Secondary Education (GCSE), International General Certificate of Secondary Education (IGCSE) and General Certificate of Education (GCE) and the number of students who were granted full or half fee remission of the "subsidised examination fee" under the Examination Fee Remission Scheme; and

(k) the expenditure and staff establishment involved in implementing the "Chinese Language Curriculum Second Language Learning Framework" designed for NCS students, and the numbers of primary and secondary school teachers, ethnic minority teachers and teaching assistants who received the relevant training.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 36)

Reply:

(a) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) ethnic minority students by ethnicity as asked in the question studying at different grade levels in public sector and Direct Subsidy Scheme (DSS) primary and secondary schools and special schools from the 2014/15 to 2018/19 school years is tabulated at Annex A, Annex B and Annex C respectively. The number of ethnic minority students studying at different grade levels in kindergartens from the 2014/15 to 2018/19 school years is tabulated at Annex D.

(b) The number of kindergartens, public sector and DSS primary and secondary schools, and special schools with NCS students ranging from "less than 10", "10 to 30", "31 to 50","51 to 75","76 to 90"and "91 or above" from the 2014/15 to 2018/19 school years is tabulated at Annex E.

(c) From the 2006/07 to 2012/13 school years, schools admitting a critical mass of NCS students, having experience in taking care of NCS students, and being ready to partner with the Education Bureau (EDB) to develop school-based support measures and share experiences with other schools were provided with additional funding and professional support services to develop school-based support programmes specifically arranged for NCS students to further help their NCS students in learning and integration. The funding arrangement has been revised with effect from the 2013/14 school year under which all schools admitting 10 or more NCS students are provided with additional recurrent funding to enhance the support for learning of Chinese Language of NCS students. Starting from the 2014/15 school year, the funding support has been substantially enhanced to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and the creation of an inclusive learning environment in schools. As regards support for schools, EDB currently facilitates sharing and exchange between schools admitting NCS students and other schools, through various channels, such as inter-school activities, publications and webpages, etc., with a view to benefitting all NCS students. The relevant work is undertaken by different sections of EDB and deployment of staff may be adjusted having regard to the needs and circumstances of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure by item is not available.

(d) The number of NCS students participating in the after-school support programmes offered by the Chinese Language Learning Support Centres and the number of centres from the 2014/15 to 2018/19 school years are tabulated below:

School year	No. of participating NCS students	No. of centres
2014/15	970	24
2015/16	974	22
2016/17	1 057	22
2017/18	724	19
2018/19 (Note)	811	20

Note: Figures as at January 2019.

(e) The number of schools admitting NCS students and provided with the Language Learning Support Services from the 2014/15 to 2018/19 school years is as follows:

School year	No. of participating schools	No. of participating NCS students
2014/15 (Note)	17	1 400
2015/16 (Note)	26	2 240
2016/17 (Note)	27	1 940
2017/18 (Note)	25	1 422
2018/19 (Note)	27	1 563

Note:
From the 2014/15 school year, EDB has enhanced the school-based professional support services for schools admitting NCS students through diversified modes. In addition to the professional support services provided by the Language Learning Support Section, schools admitting NCS students are also supported through the Professional Development Schools Scheme, the University-School Support Programmes, School Support Partners (Seconded Teacher) Scheme, etc. funded by the Education Development Fund. In the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 school years, a total of 79, 97, 93, 78 and 70 schools admitting NCS students received the professional support services respectively, benefitting about 9 410, 8 150, 9 390, 7 120 and 5 640 NCS students in the respective school years. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure by item is not available.

(f) One of the objectives of the school-based curriculum development support services is to support schools to address learner diversity from the curriculum perspective. The services are school-based and contextualised in accordance with the circumstances of schools to benefit all students, including but not limited to NCS students, in the participating schools. From the 2014/15 to 2018/19 school years, about 155 primary schools received school-based support services each year. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure by item is not available.

(g) The number of schools / non-governmental organisations (NGOs) offering the full-time Initiation Programme and Induction Programme for newly-arrived NCS students, and Summer Bridging Programme for NCS students, the number of participating NCS students and the expenditure from the 2014/15 to 2018/19 school years are tabulated below:

Initiation Programme

School year	No. of participating schools	No. of participating newly-arrived NCS students	Expenditure ($ million)
2014/15	3	159	5.73
2015/16	3	167	5.42
2016/17	3	171	5.65
2017/18	3	152	6.00
2018/19 (estimated)	3	150	6.26

Induction Programme

School year	No. of participating NGOs	No. of participating newly-arrived NCS students	Expenditure ($)
2014/15	(Note)	(Note)	(Note)
2015/16	1	10	21,000
2016/17	1	11	22,000
2017/18	(Note)	(Note)	(Note)
2018/19 (estimated)	1	10	23,000

Note: No newly-arrived NCS children enrolled in the Induction Programme in the 2014/15 and 2017/18 school years.

Summer Bridging Programme

School year	No. of participating schools	No. of participating NCS students	Expenditure ($ million)
2014/15 (Note)	40	1 750	2.8
2015/16 (Note)	33	1 650	2.6
2016/17 (Note)	33	1 590	2.6
2017/18 (Note)	33	1 390	2.3
2018/19 (Note)	33	1 260	2.1

Note:
Starting from 2013, parents of NCS students may accompany their children to attend the programme with a view to enhancing their exposure to, and use of, Chinese and support for their children. In 2014, 2015, 2016, 2017 and 2018, the number of participating parents of NCS students is about 360, 240, 190, 150 and 140 respectively.

(h) The Pilot Scheme on Workplace Chinese Language Programme for NCS Students was implemented from the 2011/12 to 2014/15 school years, prior to the implementation of the Applied Learning Chinese (for NCS students) starting from the 2014/15 school year, with a view to enhancing NCS students' competitiveness in the workplace. 12 courses pegged with Qualifications Framework Levels 1 to 3 were provided by phases. In the 2014/15 school year, around 70 NCS students participated in the programme, and the expenditure involved was about $180,000.

(i) Since the 2012/13 school year, in collaboration with NGOs, district-based programmes have been organised for NCS students aged 3 to 9 in localities with a greater concentration of NCS children with a view to motivating them to learn Chinese through fun activities such as games and creative arts. The NGOs organising the programmes and the number of participating NCS students from the 2014/15 to 2018/19 school years are tabulated below:

School year	Organisers of district-based programmes	Programme names	No. of participating NCS students
2014/15	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	Project on Supporting NCS Children in Learning Chinese	around 400
2015/16	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	Project on Supporting NCS Children in Learning Chinese	around 400
2016/17	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	Project on Supporting NCS Children in Learning Chinese	around 400
2017/18	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	Project on Supporting NCS Children in Learning Chinese	around 400
2018/19	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	Project on Supporting NCS Children in Learning Chinese	around 400

(j) Eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that the subsidised school candidates are only required to pay a "subsidised examination fee" on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE). Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level. Starting from the 2011/12 school year, apart from the examination fee subsidy, eligible needy NCS students sitting for the GCSE (Chinese) Examination can apply for full or half fee remission of the "subsidised examination fee" under the Examination Fee Remission Scheme (EFRS). The EFRS has further been extended to eligible needy NCS students taking the IGCSE, GCE AS-Level and GCE A-Level (Chinese) examinations from the 2012/13 school year onwards. The number of NCS students subsidised for the relevant examinations and granted full or half fee remission of the "subsidised

examination fee" under the EFRS from the 2014/15 to 2018/19 school years is tabulated below:

School year	No. of NCS students subsidised	No. of NCS students granted full fee remission	No. of NCS students granted half fee remission
2014/15	1 471	143	121
2015/16	1 536	140	114
2016/17	1 747	164	123
2017/18	1 950	209	146
2018/19	1 544	Note	

Note:
With the approval of the relief measure announced in the 2018-19 Budget to pay the examination fees for school candidates sitting for the 2019 HKDSE by the Finance Committee of the Legislative Council at the meeting on 18 May 2018, the "subsidised examination fee" of eligible NCS students sitting for the aforementioned non-local Chinese Language examinations in the 2018/19 school year is waived accordingly. Hence, needy students are not required to apply for examination fee remission in the 2018/19 school year.

(k) Starting from the 2014/15 school year, EDB has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Learning Framework", which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools.

To enhance teachers' professional capability in teaching NCS students, EDB has been continuously organising systematic and diversified professional development programmes to enable teachers to gain a deeper understanding of the "Learning Framework" and master effective teaching methods. As at February 2019, there were a total of 372 primary schools and 300 secondary schools that had sent their teachers (an attendance of around 4 000) to participate in seminars and workshops organised by EDB.

EDB has also commissioned the University of Hong Kong to conduct 10 teacher workshops every school year for Chinese Language teachers who teach NCS students. These workshops cover the teaching and learning of Chinese Language for NCS students, including overall curriculum planning, teaching strategies, design of diversified activities, cultural inclusiveness, classroom teaching, as well as experience sharing. About 2 700 teachers attended the workshops from the 2014/15 to 2018/19 school years. The annual expenditure involved was about $300,000 to $400,000.

In addition, to enhance pedagogical effectiveness in supporting NCS students' learning of the Chinese language, how to teach Chinese from the perspective of second language learners has been embedded in different professional development programmes for teachers as appropriate. We have not kept a separate record of

which training programmes have incorporated such elements and are therefore unable to give the number of teachers who have attended the programmes or its breakdown.

The above measures are undertaken by different sections of EDB, and deployment of staff may be adjusted as appropriate. Except for the information provided separately above, the relevant manpower resources and expenses are subsumed under the overall expenditure and/or different funds of EDB.

Number of non-Chinese speaking ethnic minority students by ethnicity studying at different grade levels in primary schools from the 2014/15 to 2018/19 school years

Notes:

1. Figures refer to the position as at September of the respective school years.
2. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking students. Figures have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.
3. Students from hospital school are not included due to the transitional nature of the education service provided.
4. "Mixed" is not classified as an ethnicity.

Annex D

Number of ethnic minority students by ethnicity studying at different grade levels in kindergartens from the 2014/15 to 2018/19 school years

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0088)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the attendance of public examinations and other territory-wide examinations by students with special educational needs (SEN), please provide the information of the past 5 years (2014/15 to 2018/19 school years):

(a) among the students with SEN who attended the Hong Kong Diploma of Secondary Education Examination (HKDSE) in each school year, the number of students who applied for and were provided with the special examination arrangements, by category of SEN and category of special arrangements;

(b) the number of dropped out Secondary 4 and Secondary 5 students with SEN, and the number of students with SEN who have studied Secondary 6 but eventually did not enrol in the HKDSE or have enrolled in the HKDSE but were absent from the examination, by category of SEN and category of special arrangements;

(c) the Hong Kong Examinations and Assessment Authority's expenditure on making special examination arrangements for candidates in public examinations;

(d) details of various special examination arrangements currently made by mainstream schools for students with SEN sitting for the Pre-Secondary One Hong Kong Attainment Test and Territory-wide System Assessment, as well as the Education Bureau (EDB)'s expenditure on providing such special examination arrangements in the past 5 years; and

(e) the expenditure involved in the EDB's arrangements for payment of the examination fees for school candidates sitting for the 2019 HKDSE.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 38)

Reply:

(a) The number of students with special educational needs (SEN) applying for and with approval given for special examination arrangements in the Hong Kong Diploma of Secondary Education (HKDSE) Examination in the past 5 school years from 2014/15 to 2018/19, set out by type of SEN and special examination arrangements is at Appendix.

(b) In the 2014/15 to 2017/18 school years, about 410, 470, 470 and 610 students with SEN were reported to have left school after completing Secondary 4 (S4) or Secondary 5 (S5). According to the information provided by schools, these students left school mainly to attend full-time or part-time courses run by the Vocational Training Council, join apprenticeship schemes or receive pre-employment vocational training, continue their studies in local private schools or pursue overseas studies. With the implementation of the new senior secondary curriculum and the diversified articulation to different pathways for lifelong learning, all students, including those with different types of SEN, will consider a variety of factors, such as one's own academic/vocational/career/life aspirations, interests, aptitudes and educational needs, in order to make an informed choice about their exit pathway. We note an increase in the number of students with SEN that left school after completing S4 or S5 in the 2017/18 school year. Apart from the increase in the overall number of students with SEN, it is believed that these students may have pursued other developments according to their own needs. Providing a breakdown of S4 and S5 students who left school by type of SEN and special examination arrangements is practically not meaningful.

We do not maintain information on the number of S6 students with SEN who do not enrol in the HKDSE Examination. The number of absentees with SEN by SEN type is only available since the 2015 HKDSE Examination and is set out as follows:

Year of Examination	Examination	Physical Disabilities	Visual Disabilities	Aural Disabilities	Oral Disabilities	Specific Learning Disabilities	Other Disabilities	Total
2015	HKDSE	0	0	0	1	0	2	3
2016	HKDSE	1	0	2	2	8	16	29
2017	HKDSE	3	1	0	0	7	10	21
2018	HKDSE	2	0	2	1	7	14	26

(c) The expenditure incurred by the Hong Kong Examinations and Assessment Authority (HKEAA) on the provision of special examination arrangements for HKDSE Examination in the past 5 years is as follows:

School Year	Expenditure ($ million)
2014/15	10.7
2015/16	12.1
2016/17	14.6
2017/18	14.7
2018/19	16.9*

Note: The HKEAA's financial year runs from 1 September of a year to 31 August of the following year.

* Projection based on the resources required in handling an increase in the number of candidates with SEN and the complexity for special examination arrangements, and with reference to the actual expenditure between September 2018 and January 2019.

(d) For the Pre-Secondary One Hong Kong Attainment Test, the Education Bureau (EDB) provides a prescribed form for primary schools to indicate the needs of their students with SEN and the necessary support that they recommend for these students. The completed form is to be forwarded by Primary 6 students/their parents to the secondary schools which have offered them a school place, so that the secondary schools will provide special arrangements accordingly. The special arrangements required mainly include extending the duration of tests, allowing exemption of listening test and making special seating arrangements. If necessary, secondary schools may request the EDB's assistance, such as provision of enlarged question and answer booklets. The EDB incurred a total expenditure of around $700,000 for this purpose in the past 5 school years from 2014/15 to 2018/19.

The special assessment arrangements for the Territory-wide System Assessment (TSA) is as follows:

Schools may select special assessment arrangements for students with SEN according to their needs.

I) Oral and Chinese audio-visual assessments (Primary Schools)

Chinese and English Language oral assessments and Chinese audio-visual assessments for primary schools are conducted on a sampling basis. Under normal circumstances, students with SEN would not be included in the Student Sample List. Schools may request in writing to put any students with SEN in the pool for random selection. No special arrangements will be provided for students with SEN who are selected for assessment.

II) Written assessments

Schools may adopt their internal assessment modes or methods in selecting special assessment arrangements for students with SEN participating in TSA. These assessment arrangements include allowing students to take assessments separately; extending assessment duration; and providing auxiliary facilities and equipment (e.g. typewriter or magnifier for students with visual impairment), Braille scripts, enlarged scripts, question papers with single-page printing, coloured question papers (e.g. ivory or green) as well as A3 question-answer booklets. Students may use screen readers and other answering methods (e.g. typing answers on computer). Other ways of presenting questions, such as reading aloud questions for students with severe reading difficulties sitting for Listening and Writing papers, may also be adopted.

The expenditure on the provision of special examination arrangements for TSA in the past 5 years is as follows:

School Year	Expenditure ($ million)
2014/15	0.13
2015/16	0.09
2016/17	0.16
2017/18	0.14
2018/19	0.16 *

Note: The HKEAA's financial year runs from 1 September of a year to 31 August of the following year.

* Projected figure

(e) As at the end of February 2019, the expenditure on payment of examination fees for school candidates sitting for the 2019 HKDSE Examination is around $146.8 million^.

^ The final total expenditure may vary if individual school candidates subsequently change the number of subject entries or withdraw from the examination.

Appendix

Number of Students Applying for Special Examination Arrangements in the HKDSE Examination from the 2014/15 to 2018/19 School Years# (by SEN type)

Year of Examination	Examination	Physical Disabilities	Visual Disabilities	Aural Disabilities	Oral Disabilities	Specific Learning Disabilities	Other Disabilities	Total

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0089)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. To promote the healthy and sustainable development of the self-financing post-secondary sector, the Government has implemented a series of measures to enhance the quality of the sector. Please inform this Committee of the amount of public funds spent on each of the following programmes in the past five years (2014/15 to 2018/19):
   (a) Land Grant Scheme;
   (b) Start-up Loan Scheme;
   (c) Quality Enhancement Grant Scheme;
   (d) Self-financing Post-secondary Education Fund;
   (e) Qualifications Framework Support Schemes and Qualifications Framework Fund;
   (f) Matching Grant Scheme;
   (g) Research Endowment Fund; and
   (h) Means-tested and non-means-tested financial assistance for students in the self-financing postsecondary sectors

2. Please provide in detail the numbers of loan applications and approvals, as well as the amount and repayment date for each approved loan under the Start-up Loan Scheme in the past 5 years (2014/15 to 2018/19).

3. Will the Education Bureau provide any one-off financial assistance to or policy support for self-financing institutions in 2019/20? If yes, what are the details involved and the amount of funding available for each funding scheme? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 39)

Reply:

1(a) Under the Land Grant Scheme, land sites and vacant Government premises are allocated at nominal premium and leased at nominal rent respectively to

non-profit-making institutions for operation of full-time and/or part-time locally-accredited self-financing post-secondary programmes. From the 2014/15 to 2018/19 academic years, 1 land site and 1 vacant Government premises were allocated.

1(b) Under the Start-up Loan Scheme (SLS), interest-free loans are provided for non-profit-making self-financing post-secondary institutions to develop new college premises, reprovision existing premises operating in sub-optimal environment, and/or provide or enhance teaching and other ancillary facilities. The loan disbursement from the 2014/15 to 2018/19 academic years is as follows –

Academic Year	**Amount of Loans Distributed under SLS ($ million)**
2014/15	902.7
2015/16	295.3
2016/17	93
2017/18	187.5
2018/19	313.1 (Estimate)
Total	**1,791.6**

1(c) The Quality Enhancement Grant Scheme (QEGS) was implemented from the 2008/09 to 2010/11 academic years. A total of $99.4 million was provided for 65 projects dedicated to enhancing the quality of teaching and learning of self-financing post-secondary programmes. Having regard to the success of the QEGS, the Quality Enhancement Support Scheme (QESS) under the Self-financing Post-secondary Education Fund (SPEF) was launched in November 2012 to continue supporting the enhancement of teaching and learning quality (see 1(d) below for details).

1(d) SPEF has been set up since the 2011/12 academic year as an endowment fund to support the quality and healthy development of the self-financing sector and further enhance Hong Kong's status as a regional education hub. SPEF provides scholarships for outstanding students of full-time locally-accredited self-financing sub-degree and undergraduate programmes under the Self-financing Post-secondary Scholarship Scheme (SPSS) as well as supports quality enhancement projects by institutions under QESS.

The amount of scholarships and awards given out under SPSS and grants approved under QESS from the 2014/15 to 2018/19 academic years are set out as follows –

Academic Year	**Amount of Scholarships and Awards given out under SPSS ($ million)**	**Amount of Grants Approved under QESS ($ million)**
2014/15	71.7	41.6
2015/16	76.8	47.6
2016/17	79.9	22.6
2017/18	83.4	26.8
2018/19	83.6 (Estimate)	Note

Note: The 2018/19 round of applications is being processed.

1(e) The Qualifications Framework (QF) Fund was established on 1 September 2014 to provide a steady source of income to support the sustainable development and implementation of QF. Since it takes time for the QF Fund to generate and accumulate investment income to meet the funding requirements, in the interim before 2017, we had been deploying funds out of the approved commitment for Qualifications Framework Support Schemes (QFSS) for meeting the cash flow requirements of the initiatives under the QF Fund. The approved commitment for QFSS was nearly exhausted in 2017, and we have since been using the investment income generated from the principal of the QF Fund to meet the funding requirements of various initiatives. The amount of subsidies disbursed under the approved commitment for QFSS or the QF Fund from 2014-15 to 2018-19 is as follows–

Financial Year	**Amount of Subsidies Disbursed under the QFSS or QF Fund ($ million)**
2014-15	22.5
2015-16	40.0
2016-17	50.5
2017-18	42.6
2018-19 (as at end of February 2019)	49.7
Total	**205.3**

1(f) The Government has launched 7 rounds of Matching Grant Scheme since 2003 to help the higher education sector diversify its funding sources. Under the sixth Matching Grant Scheme, which ran from August 2012 to July 2014, a total of $385 million was granted to self-financing operations of publicly-funded institutions, statutory post-secondary institutions and approved post-secondary colleges. The seventh Matching Grant Scheme was launched in August 2017 with a commitment of up to $500 million over two years for application by qualified local self-financing degree-awarding institutions (namely The Open University of Hong Kong, the Technological and Higher Education Institute under the Vocational Training Council, and all approved post-secondary colleges registered under the Post Secondary Colleges Ordinance (Cap. 320)). As at February 2019, a total of some $454 million was granted to qualified institutions under the Scheme.

1(g) The Research Grants Council (RGC) launched the Competitive Research Funding Schemes for the Local Self-financing Degree Sector in December 2013. The funding awarded each year by the Research Endowment Fund from the 2014/15 to 2018/19 academic years is as follows–

Academic Year	**Amount Awarded ($ million)**
2014/15	103.0
2015/16	86.3
2016/17	82.9
2017/18	53.8
2018/19	37.7
Total[Note]	**363.8**

Note: Figures may not add up to the total due to rounding.

1(h) The Financial Assistance Scheme for Post-secondary Students (FASP) provides means-tested grants and/or loans to eligible full-time students pursuing locally-accredited, self-financing post-secondary education programmes at sub-degree or degree level. The Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) provides non-means-tested loans to students pursuing programmes covered under the FASP. The amounts of assistance disbursed under the two schemes from the 2014/15 to 2018/19 academic years are as follows –

	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
FASP					
Amount of grants disbursed ($ million)	1,106	1,106	1,049	877	620
Amount of loans disbursed ($ million)	200	180	180	168	115
Total amount of assistance disbursed ($ million)#	1,307	1,286	1,229	1,045	735
NLSPS					
Amount of loans disbursed ($ million)	708	792	828	702	539
Total ($ million)#	**2,015**	**2,078**	**2,057**	**1,747**	**1,274**

* As at 31 January 2019.

Figures may not add up to the corresponding total due to rounding.

The Government launched the Study Subsidy Scheme for Designated Professions/Sectors and the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong in the 2015/16 and 2017/18 academic years respectively to subsidise students pursuing full-time locally-accredited self-financing undergraduate programmes. The amount of subsidies disbursed under the two schemes from the 2015/16 to 2018/19 academic years is as follows –

Academic Year	**Amount of Subsidies ($ million)**
Study Subsidy Scheme for Designated Professions/Sectors	
2015/16	60.0
2016/17	122.5
2017/18	185.9
2018/19 (as at 28 February 2019)	469.7
Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong	
2017/18	606.0
2018/19 (as at 28 February 2019)	503.2

2. From the 2014/15 to 2018/19 academic years, a total of 12 start-up loan applications were received under SLS. Among them, 10 applications were not processed further as the institutions concerned did not successfully apply under the Land Grant Scheme for the land sites or vacant Government premises on which the construction or renovation projects needed to be financed; or the applications were withdrawn by the institutions concerned. At last, 2 applications were approved with a total loan amount of $650 million. The details of the 2 approved loans are set out below –

Academic Year	**Successful Applicant**	**Loan Amount ($ million)**	**Date of Final Loan Repayment** Note
2014/15	Chu Hai College of Higher Education	250	April 2028
2015/16	The Open University of Hong Kong	400	Subject to the date of the final drawdown
	Total	**650**	

Note: Loans granted under the SLS should be repaid by equal instalments over 10 years from the date of the final drawdown, save for cases where approval has been granted for extending the loan repayment period from 10 years to 20 years, subject to the payment of interest at the no-gain-no-loss rate after the interest-free period of the first 10 years.

3. The Task Force on Review of Self-financing Post-secondary Education submitted its review report to the Government on 27 December 2018. Recommendations include the provision of financial and policy support to self-financing post-secondary institutions. The Government is studying the report and its recommendations in detail, and will announce its study findings in due course.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the respective amounts of funding allocated to the universities, the Education University of Hong Kong, the Vocational Training Council, adult education providers, all secondary schools, primary schools, kindergartens and special schools in the government, aided, Direct Subsidy Scheme and caput categories, international schools and schools under the English Schools Foundation as well as the unit cost of each subsidised place from 2015-16 to 2019-20.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 40)

Reply:

The respective financial provisions under the General Revenue Account and unit costs are set out in the **Annex**.

Annex

	Financial Provision					Unit Cost				
	2015-16 Actual	**2016-17 Actual**	**2017-18 Actual**	**2018-19 Revised Estimate**	**2019-20 Estimate**	**2015-16 Actual**	**2016-17 Actual**	**2017-18 Actual**	**2018-19 Revised Estimate**	**2019-20 Estimate**
	$ million	$ million	$ million	$ million	$ million	$	$	$	$	$
Kindergartens and Kindergarten-cum-child care centres under the Child Care Centre Subsidy Scheme and the Pre-primary Education Voucher Scheme[1]	2,973	3,209	1,142	37	21	N/A	N/A	N/A	N/A	N/A
Kindergartens and Kindergarten-cum-child care centres under the Kindergarten Education Scheme[2]	N/A	211	3,903	6,041	6,275	N/A	N/A	N/A	45,100	47,310
Government primary schools[3]	1,092	1,167	1,255	1,387	1,457	63,116	66,631	70,129	76,240	79,590
Aided primary schools	13,611	14,565	15,715	17,205	18,678	55,123	57,417	59,763	63,200	67,500
English Schools Foundation Junior Schools	119	109	92	75	59	21,133	21,494	22,249	23,470	25,710
Primary schools under the Direct Subsidy Scheme	803	845	908	962	1,048	52,919	54,850	58,287	61,290	66,300
Government secondary schools[3]	1,508	1,564	1,605	1,693	1,762	73,787	78,872	82,132	87,600	91,550
Aided secondary schools	20,134	20,798	21,354	22,468	23,815	68,703	75,360	80,457	86,820	93,420
Caput schools	95	96	97	100	110	67,921	72,910	76,037	80,960	91,320
English Schools Foundation Secondary Schools	171	172	172	172	173	29,098	29,187	29,219	29,280	29,410
Secondary schools under the Direct Subsidy Scheme	2,861	2,992	3,129	3,247	3,536	59,401	63,534	67,694	71,060	76,740
Aided special schools	2,190	2,293	2,463	2,713	2,959	247,036	259,728	277,256	302,450	324,710
Vocational Training Council[4]										
- Higher technician/technician level	2,303	2,456	2,523	2,665	2,737	87,300	89,200	93,800	99,800	100,000
- Craft level						75,200	77,000	82,900	88,300	88,700
University Grants Committee-funded Universities (including the Education University of Hong Kong)[5]	17,465	18,495	18,882	19,664	20,102	243,075	248,345	250,531	256,160	306,460

There is no direct government funding allocated to the adult education providers. Students taking courses under the Financial Assistance Scheme for Designated Evening Adult Education Courses and meeting the eligibility criteria can receive partial or full tuition fee reimbursement under the financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.

Notes

1. Calculation of unit cost is not applicable to this item as part of the financial provision is used for subsidising students to pay school fees to kindergartens under the Pre-primary Education Voucher Scheme (PEVS), but not for granting subventions to the kindergartens. Besides, the PEVS is gradually replaced by the Kindergarten Education Scheme (KG Scheme) starting from the 2017/18 school year.

2. The financial provision covers subventions to non-profit-making kindergartens and kindergarten-cum-child care centres under the KG Scheme, including a one-off start-up grant provided to participating kindergartens in the 2016/17 school year. As the annual expenditure of the KG Scheme can only be fully reflected in 2018-19, unit cost is calculated starting from that financial year.

3. The unit cost for government primary and secondary schools includes expenditure chargeable to Head 156 Government Secretariat: Education Bureau and staff on-costs such as pensions, housing benefits, etc.

4. The financial provision for the Vocational Training Council (VTC) covers the vocational and professional education and training courses offered by the Hong Kong Institute of Vocational Education, Hong Kong Design Institute, Youth College and other training institutes of VTC. The unit costs are calculated on an academic year and a full-time-equivalent basis.

5. Subventions to individual universities under Head 190 University Grants Committee are as follows:

	2015-16 Actual	2016-17 Actual	2017-18 Actual	2018-19 Revised Estimate	2019-20 Estimate
	$ million	$ million	$ million	$ million	$ million
City University of Hong Kong	2,215	2,409	2,421	2,540	2,600
Hong Kong Baptist University	1,101	1,171	1,209	1,252	1,276
Lingnan University	413	430	422	442	441
The Chinese University of Hong Kong	4,023	4,151	4,192	4,368	4,440
The Education University of Hong Kong	741	847	880	910	932
The Hong Kong Polytechnic University	2,739	2,968	3,097	3,217	3,304
The Hong Kong University of Science and Technology	2,112	2,245	2,311	2,430	2,500
The University of Hong Kong	4,121	4,275	4,349	4,504	4,609
Total*	17,465	18,495	18,882	19,664	20,102

**Figures may not add up to the total due to rounding.*

The non-recurrent funding under the Matching Grant Scheme is not included. The unit cost figures are calculated on an academic year and a full-time-equivalent basis.

The unit cost for 2019/20 estimate is calculated based on the approved student number targets and does not assume over-enrolment, whereas the unit cost for the years 2015/16 to 2018/19 is calculated based on the actual student number with over-enrolment, hence higher unit cost in 2019/20. In practice, universities do over-enroll, in particular to take in non-local students who are on top of the approved student number targets.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0091)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the following information with regard to higher education, secondary education, primary education, pre-primary education, special education and vocational education for 2015/16 to 2019/20:

(a) items of one-off allocation under the General Revenue Account (GRA) and the amount involved;

(b) items of non-recurrent grants/capital subventions under the GRA and the amount involved; and

(c) funds under the management of the Education Bureau and the amount of injection and operating cost of each fund.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 41)

Reply:

(a) The one-off injections into the various funds under the General Revenue Account (GRA) are:

	Particulars	Area of Education	Amount involved $ million
2015-16	Injection for setting up the Qualifications Framework Fund	Post-secondary, Vocational and Professional Education	1,000
2016-17	Injection for setting up the Gifted Education Fund	Other Educational Subsidies	800
2017-18	Injection into the Qualifications Framework Fund	Post-secondary, Vocational and Professional Education	1,200
2018-19	Injection for setting up the Student Activities Support Fund	Other Educational Subsidies	2,500
	Injection into the HKSAR Government Scholarship Fund	Post-secondary, Vocational and Professional Education	800
	Injection into the Gifted Education Fund	Other Educational Subsidies	800

There is no item of fund injection in the 2019-20 Estimate.

(b) The non-recurrent grants/capital subventions items under GRA with significant cashflow in the years concerned and by education level are:

	2015-16 Actual $ million	2016-17 Actual $ million	2017-18 Actual $ million	2018-19 Revised Estimate $ million	2019-20 Estimate $ million
Post-secondary, Vocational and Professional Education					
- Yi Jin Diploma	98.4	88.8	85.0	86.6	88.0
- Pilot Subsidy Scheme for Students of Professional Part-time Programmes	-	7.3	26.7	36.0	78.5
- Acquisition of furniture and equipment and information technology systems in the Vocational Training Council (VTC)	57.7	45.3	60.9	68.9	61.1

	2015-16 Actual $ million	2016-17 Actual $ million	2017-18 Actual $ million	2018-19 Revised Estimate $ million	2019-20 Estimate $ million

(c) Currently, there are 9 funds under the management of Education Bureau (EDB), including the Language Fund, Quality Education Fund, Education Development Fund, HKSAR Government Scholarship Fund, Research Endowment Fund, Self-financing Post-secondary Education Fund, Qualifications Framework Fund, Gifted Education Fund and Student Activities Support Fund.

The amount of injection into the funds and the operating expenses directly covered by the funds are set out in **Annex**. The Government also provides secretariat services and investment support to the funds. The relevant expenditures are subsumed under the operational expenses of EDB and other concerned departments, and cannot be separately identified.

Annex

Funds under the management of EDB

Name of Fund	School Year	Amount of Injection $ million	Operating Expenses Directly Covered by the Fund[(1)] $ million

	2017/18	1,200	-
	2018/19	-	-
	2019/20	-	-
Gifted Education Fund[(4)]	2016/17	800	-
	2017/18	-	-
	2018/19	800	-
	2019/20	-	-
Student Activities Support Fund[(5)]	2018/19	2,500	-
	2019/20	-	-

Notes

(1) The operating expenses directly covered by the funds for the 2015/16 to 2017/18 school years are extracted from the audited financial statements of the respective school years. Figures for the 2018/19 and 2019/20 school years are estimated expenditures. The Government also provides secretariat services and investment support to the funds. The relevant expenditures are subsumed under the operational expenses of EDB and other concerned departments, and cannot be separately identified.

(2) The Education Development Fund will close at the end of the 2018/19 school year.

(3) The injection into the Research Endowment Fund is covered by Head 190 - University Grants Committee under the GRA. The University Grants Committee plans to inject $20 billion into the Research Endowment Fund in the 2019-20 financial year.

(4) The Gifted Education Fund was set up in 2016.

(5) The Student Activities Support Fund was set up in 2019.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0092)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. From the 2014/15 to 2018/19 academic years, how many non-local programmes were registered or exempted from registration under the Non-local Higher and Professional Education (Regulation) Ordinance? How many institutions and countries are involved?

2. From the 2014/15 to 2018/19 academic years, how many non-local programmes that were previously registered or exempted from registration under the Non-local Higher and Professional Education (Regulation) Ordinance became disqualified? How many institutions and countries are involved?

3. From the 2014/15 to 2018/19 academic years, how many complaints were received by the Education Bureau in respect of the Non-local Higher and Professional Education (Regulation) Ordinance? How many of them were substantiated? What follow-up actions were taken?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 42)

Reply:

1. The numbers of non-local programmes registered and exempted from registration under the Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493) ("the Ordinance"), and non-local institutions and countries/regions concerned from the 2014/15 to 2018/19 academic years are set out below:

	Academic Year									
	2014/15		2015/16		2016/17		2017/18		2018/19 [Note 1]	
	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes
Number of Registered/ Exempted Programmes (as at 31 August)	450	727	444	701	451	692	440	714	470[Note 1]	734[Note 1]
Number of Non-local Institutions [Note 2]	118	93	114	92	118	83	117	86	121	86
Number of Countries/Regions	11	7	12	6	13	6	13	7	13	7

Note 1: Information as at 28 February 2019.

Note 2: Some non-local institutions provide both registered programmes and exempted programmes in Hong Kong. After deducting the double counting of those non-local institutions which provide both two types of programmes aforementioned, the numbers of non-local institutions which provide non-local programmes registered or exempted from registration under the Ordinance from the 2014/15 to 2018/19 academic years were 185, 183, 177, 184 and 186 respectively.

2. The numbers of non-local programmes having registration/exemption from registration cancelled under the Ordinance, and non-local institutions and countries/regions concerned from the 2014/15 to 2018/19 academic years are set out below:

	Academic Year									
	2014/15		2015/16		2016/17		2017/18		2018/19 [Note 1]	
	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes
Number of Cancelled Programmes [Note 2]	65	38	53	58	49	47	50	19	2	5
Number of Non-local Institutions	32	14	30	19	25	20	31	9	1	3
Number of Countries/Regions	7	3	5	3	7	4	5	3	1	1

Note 1: Information as at 28 February 2019.

Note 2: In the 2016/17, 2017/18 and 2018/19 academic years, the EDB proposed to cancel the registration of 2, 7 and 2 programmes respectively. The respective reasons were:

(i) the non-local institutions were no longer recognised in the relevant countries;

(ii) there were no programmes conducted in the countries where the non-local institutions mainly operated which led to the same qualifications, hence the standards of the programmes were unable to be maintained at a level comparable with the programmes conducted in the relevant countries leading to the same qualifications;

(iii) the operator ceased conducting the programme in Hong Kong;

(iv) the operator did not lodge with the Registrar of Non-local Higher and Professional Education Courses ("the Registrar") a new undertaking given by a person who met the relevant requirements for the replacement of the designated

person, within the period specified in the notice given by the Registrar under the Ordinance requiring the replacement of the designated person; and
(v) the operator failed to send to the Registrar the annual return of the programme as required by the Ordinance.

Apart from the 11 cases mentioned above, the requests for cancellation of registration of the other programmes were put forward by the operators or non-local institutions.

3. The numbers of complaints received concerning the Ordinance and the results of investigation and follow-up actions are listed below:

	Academic Year									
	2014/15		2015/16		2016/17		2017/18		2018/19 Note 1	
Number of complaints received	4		4		1		2		2	
Results and follow-up actions	Number of cases	Results and Actions Note 2	Number of cases	Results and Actions Note 2	Number of cases	Results and Actions Note 2	Number of cases	Results and Actions Note 2	Number of cases	Results and Actions Note 2
	2	A	1	C	1	D	1	B	2	B
	1	B	2	D			1	C		
	1	D	1	E						

Note 1: Information as at 28 February 2019.
Note 2: Explanations to the classifications are as follows:

A: The complaints were found substantiated and the operators concerned were issued with reminders to comply with the necessary requirements.
B: The complaints were found not substantiated.
C: The complainants withdrew the complaints or could not be contacted for necessary information.
D: The complainants were informed that the complaints had been referred to enforcement departments for follow-up.
E: The complaint concerned a case that happened about 10 years ago. Since the prosecution time limit as stated under the Ordinance had expired, no action could be taken.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0093)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the installation of wireless internet (WiFi) facilities at schools, please provide the information of the following between the 2014/15 and 2018/19 school years:

(1) the number and percentage of schools equipped with WiFi facilities by school type (primary, secondary and special schools);

(2) the number of schools subsidised by the Government to install WiFi facilities and the public funds involved; and

(3) the programmes that subsidise students' internet access, and the amount of subsidies and the number of beneficiaries involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 45)

Reply:

(1) and (2)

We have no information on the number of schools which have enhanced their WiFi infrastructure using their own funds. As at February 2019, 100 schools under the "Support Scheme for e-Learning in Schools" or WiFi-100 project launched in early 2014, and 883 schools under the WiFi-900 project of the Fourth Strategy on Information Technology in Education (ITE4) launched in August 2015 have completed the enhancement of WiFi infrastructure. The breakdown on these 983 schools by school type is as follows –

School type	Number and percentage of schools with enhanced WiFi infrastructure	Total number of schools
Government primary	34 (100.0%)	34
Government secondary	31 (100.0%)	31
Aided primary	442 (99.8%)	443
Aided secondary	418 (99.5%)	420
Aided special	58 (96.7%)	60
Total	**983 (99.5%)**	**988**

Note: Aided schools also include local schools under the Direct Subsidy Scheme and Caput Schools.

The remaining 0.5% of (totally 5) schools have not completed the enhancement of their WiFi infrastructure due to special circumstances such as relocation/redevelopment of school premises, and commencement of school operation in or after the 2017/18 school year. 3 of them have opted to join the WiFi-900 project in the 2018/19 school year, and 2 have opted to join in the 2019/20 school year. Schools joining the WiFi-900 project in the 2018/19 school year have received the related funds and are expected to complete the works within the 2018/19 school year.

We have been providing all public sector schools with an annual recurrent Composite Information Technology Grant at amounts ranging from $202,679 to $697,086, depending on the school type and the number of classes. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education, including the installation of WiFi equipment in schools.

The WiFi-100 project launched in early 2014 and the WiFi-900 project under the ITE4 launched in August 2015 involve a non-recurrent expenditure of $123 million.

(3)

Under the Subsidy Scheme for Internet Access Charges, the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency and the Social Welfare Department (SWD) disburse the internet access subsidies to eligible families to facilitate internet learning at home by needy students. The subsidy is disbursed on a household basis.

The numbers of beneficiary families and the amounts of subsidies disbursed from the 2014/15 to 2018/19 school years are tabulated below:

	2014/15 School Year	**2015/16 School Year**	**2016/17 School Year**	**2017/18 School Year**	**2018/19 School Year (as at 31 January 2019)**
(i) Disbursed by the SWD					
Number of beneficiary families	48 408	45 305	41 954	39 134	34 357
Amount of subsidies ($million)	62.7	58.7	58.5	54.7	51.5
(ii) Disbursed by the SFO					
Number of beneficiary families	154 512	147 647	133 711	130 409	128 792
Amount of subsidies ($million)	161.0	155.0	152.0	148.1	155.2
(iii) Total					
Total number of beneficiary families	202 920	192 952	175 665	169 543	163 149
Total amount of subsidies ($million)	223.7	213.7	210.5	202.8	206.7

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0094)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the school coach services, please advise this Committee of the following:

(1) concerning the facilities at the land-based boundary control points used by cross-boundary students, the number of cross-boundary students and the number of school coaches that carry cross-boundary students using various land-based boundary control points in the past 5 school years, with a breakdown by school type (kindergarten (including child care centre), primary school, secondary school and special school), class level and district; and

(2) the number of accidents and casualties involving students and those providing school coach services within or near school campuses in each of the past 5 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 46)

Reply:

(1) The number of cross-boundary students (CBS) and local/cross-boundary school coaches using various land-based boundary control points, with a breakdown by kindergarten, primary school, secondary school and special school, from the 2014/15 to 2018/19 school years is as follows:

Control Point (CP)	School Year	Number of CBS					Number of Local/Cross-boundary School Coaches Carrying CBS		
		Kindergarten (including kindergarten-cum-child care centre)	Primary School	Secondary School	Special School	Sub-total	Kindergarten (including kindergarten-cum-child care centre), Primary School and Special School	Secondary School	Sub-total

	2018/19	879	6 296	1 954	64	9 193	46	NA	46
Lo Wu Control Point (LW CP)	2014/15	1 631	2 437	1 386	31	5 485	34	NA	34
	2015/16	1 547	2 733	1 467	34	5 781	34	NA	34
	2016/17	1 276	3 020	1 533	47	5 876	36	NA	36
	2017/18	913	3 289	1 797	56	6 055	35	NA	35
	2018/19	525	3 655	2 206	43	6 429	34	NA	34

Notes: (1) Figures refer to the position as at September of the respective school years.

(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

(3) The Hong Kong-Zhuhai-Macao Bridge (HZMB) was not yet open to traffic when the survey of the 2018/19 school year was conducted, and hence these figures do not include the number of CBS and cross-boundary school coaches using the HZMB Hong Kong Port.

(4) Local school coaches at LMCSL and LW CPs are local vehicles which do not cross any CP. They are permitted to operate multiple trips to carry CBS from Hong Kong side of the respective CPs to other parts of Hong Kong. The cross-boundary school coaches at SZB, LMC, MKT and STK CPs are cross-boundary vehicles which cross the respective CPs.

(5) Local/cross-boundary school coach services are intended for CBS attending kindergartens and primary schools only. These coaches are allowed to carry eligible CBS from kindergartens and primary schools at the same time.

The number of CBS using various land-based boundary control points, with a breakdown by class level, from the 2014/15 to 2018/19 school years is as follows:

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0095)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) The Education Bureau has put in place the "Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland)" for cross-boundary students (CBS) applying for Primary 1 (P1) school places. Please provide, by district, the number of P1 places available on the List and the number of CBS who were allocated a P1 place from the 2015/16 to 2018/19 school years; and

(2) Please provide, by school type, district and grade, the number of CBS and their respective percentage out of the total number of school places from the 2015/16 to 2018/19 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 47)

Reply:

(1) To alleviate the impact of increasing number of cross-boundary students (CBS) on the demand and supply of public sector primary school places in individual districts, notably the North District, the Education Bureau (EDB) has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the Primary One Admission (POA). In brief, parents of applicant children residing in the Mainland are not required to choose any school net as the applicant child's POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation, which consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun: 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long: 72 (Tin Shui Wai), 74 (Yuen Long East); the North District: 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po: 84) and individual schools in other districts having CBS and are ready and willing to support CBS.

The number of Primary One (P1) places by district of school net as set out in the Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) under POA 2015 to 2018 (for admission to P1 in the school years from 2015/16 to 2018/19) is at Annex A. The number of CBS allocated a P1 place under the Central Allocation of POA 2015 to 2018 is 2 714, 2 877, 3 251 and 2 213 respectively.

(2) The number of CBS in kindergartens (including kindergarten-cum-child care centres), primary schools and secondary schools by district and grade as well as their percentage out of the total number of school places from the 2015/16 to 2018/19 school years are tabulated at Annexes B, C and D.

Annex A

Number of P1 places for CBS by district
according to Choice of Schools List for Central Allocation under POA 2015
(for admission to P1 in the 2015/16 school year)

District of school net	Number of P1 places
Tuen Mun	817
Yuen Long	765
North	253
Tai Po	152
Wong Tai Sin	150
Kwai Tsing	175
Sha Tin	100
Tung Chung	200
Total	**2 612**

Note:

Figures refer to the position as at January 2015 when the 2015 Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) was compiled to facilitate parents in making school choice under the Central Allocation of POA 2015.

Number of P1 places for CBS by district
according to Choice of Schools List for Central Allocation under POA 2016
(for admission to P1 in the 2016/17 school year)

District of school net	Number of P1 places
Tuen Mun	667
Yuen Long	661
North	239
Tai Po	148
Wong Tai Sin	200
Kwai Tsing	575
Sha Tin	75
Tung Chung	225
Total	**2 790**

Note:

Figures refer to the position as at January 2016 when the 2016 Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) was compiled to facilitate parents in making school choice under the Central Allocation of POA 2016.

Number of P1 places for CBS by district
according to Choice of Schools List for Central Allocation under POA 2017
(for admission to P1 in the 2017/18 school year)

District of school net	Number of P1 places
Tuen Mun	546
Yuen Long	621
North	222
Tai Po	150
Wong Tai Sin	225

Figures refer to the position as at January 2018 when the 2018 Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) was compiled to facilitate parents in making school choice under the Central Allocation of POA 2018.

Annex B

Number of CBS in kindergartens (including kindergarten-cum-child care centres) by district and grade and their percentage out of the total number of school places from the 2015/16 to 2018/19 school years

(i) School Year: 2015/16

District	Number of CBS in kindergartens (including kindergarten-cum-child care centres) (percentage out of the total number of school places)			
	K1	K2	K3	**Sub-total**
North	1 628 (36.9%)	2 071 (43.7%)	1 732 (40.3%)	**5 431 (40.4%)**
Tai Po	78 (2.8%)	98 (3.8%)	170 (7.2%)	**346 (4.5%)**
Sha Tin	14 (0.2%)	24 (0.4%)	24 (0.5%)	**62 (0.4%)**
Yuen Long	737 (11.1%)	931 (14.5%)	879 (14.3%)	**2 547 (13.3%)**
Tuen Mun	512 (10.2%)	683 (13.6%)	661 (15.0%)	**1 856 (12.8%)**
Tsuen Wan	0 (0.0%)	0 (0.0%)	0 (0.0%)	**0 (0.0%)**
Kwai Tsing	20 (0.4%)	49 (1.2%)	22 (0.6%)	**91 (0.7%)**
Tung Chung	19 (2.1%)	23 (2.7%)	31 (4.0%)	**73 (2.9%)**
Wong Tai Sin	0 (0.0%)	1 (0.0%)	0 (0.0%)	**1 (0.0%)**

(ii) School Year: 2016/17

District	Number of CBS in kindergartens (including kindergarten-cum-child care centres) (percentage out of the total number of school places)			
	K1	K2	K3	**Sub-total**
North	598 (18.1%)	1 760 (36.3%)	2 142 (42.7%)	**4 500 (34.2%)**
Tai Po	8 (0.3%)	76 (2.7%)	98 (4.0%)	**182 (2.4%)**
Sha Tin	1 (0.0%)	14 (0.2%)	24 (0.5%)	**39 (0.2%)**
Yuen Long	102 (1.8%)	687 (10.2%)	934 (14.1%)	**1 723 (9.1%)**
Tuen Mun	82 (1.9%)	532 (10.5%)	643 (12.8%)	**1 257 (8.8%)**
Tsuen Wan	0 (0.0%)	0 (0.0%)	0 (0.0%)	**0 (0.0%)**
Kwai Tsing	6 (0.2%)	25 (0.6%)	54 (1.4%)	**85 (0.7%)**
Tung Chung	3 (0.3%)	28 (2.4%)	29 (3.6%)	**60 (2.0%)**
Wong Tai Sin	0 (0.0%)	0 (0.0%)	0 (0.0%)	**0 (0.0%)**

(iii) School Year: 2017/18

District	Number of CBS in kindergartens (including kindergarten-cum-child care centres) (percentage out of the total number of school places)			
	K1	K2	K3	**Sub-total**
North	484 (14.9%)	705 (20.2%)	1 808 (35.8%)	**2 997 (25.4%)**
Tai Po	5 (0.2%)	16 (0.6%)	73 (2.8%)	**94 (1.2%)**
Sha Tin	0 (0.0%)	0 (0.0%)	16 (0.3%)	**16 (0.1%)**
Yuen Long	38 (0.6%)	106 (1.8%)	658 (9.5%)	**802 (4.2%)**
Tuen Mun	24 (0.5%)	86 (2.0%)	514 (10.1%)	**624 (4.5%)**
Tsuen Wan	1 (0.0%)	0 (0.0%)	0 (0.0%)	**1 (0.0%)**
Kwai Tsing	4 (0.1%)	4 (0.1%)	31 (0.7%)	**39 (0.3%)**
Tung Chung	0 (0.0%)	4 (0.4%)	33 (3.9%)	**37 (1.2%)**
Wong Tai Sin	0 (0.0%)	0 (0.0%)	0 (0.0%)	**0 (0.0%)**

(iv) School Year: 2018/19

District	Number of CBS in kindergartens (including kindergarten-cum-child care centres) (percentage out of the total number of school places)			
	K1	K2	K3	**Sub-total**
North	379 (11.5%)	521 (15.2%)	775 (20.4%)	**1 675 (15.9%)**
Tai Po	3 (0.1%)	6 (0.2%)	16 (0.7%)	**25 (0.3%)**
Sha Tin	0 (0.0%)	1 (0.0%)	2 (0.0%)	**3 (0.0%)**
Yuen Long	31 (0.5%)	42 (0.7%)	112 (1.9%)	**185 (1.0%)**
Tuen Mun	25 (0.6%)	25 (0.6%)	80 (1.8%)	**130 (1.0%)**
Tsuen Wan	0 (0.0%)	1 (0.0%)	0 (0.0%)	**1 (0.0%)**
Kwai Tsing	0 (0.0%)	4 (0.1%)	4 (0.1%)	**8 (0.1%)**
Tung Chung	0 (0.0%)	0 (0.0%)	4 (0.5%)	**4 (0.1%)**
Wong Tai Sin	0 (0.0%)	0 (0.0%)	0 (0.0%)	**0 (0.0%)**

Notes: (1) Figures refer to the position as at September of the respective school years.

(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

(3) Figures on school places do not include vacant classrooms and vacant child care centre portions.

Number of CBS in primary schools by district and grade and their percentage out of the total number of school places from the 2015/16 to 2018/19 school years

(i) School Year: 2015/16

District	Number of CBS in primary schools (percentage out of the total number of school places)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0098)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please set out the items under the insurance the Education Bureau obtained for primary and secondary schools and the expenditure involved as well as the respective numbers of schools, teachers and students covered, claim applications and successful claims from the 2015/16 to 2019/20 school years;

(2) Of the above claim applications and successful claims, please set out the cases involving professional liability and deaths respectively; and

(3) Upon the implementation of free kindergarten education, is provision reserved for kindergartens to obtain necessary insurance? If yes, what are the details and expenditure involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 52)

Reply:

(1) & (2)

The Education Bureau (EDB) has taken out the Block Insurance Policy (BIP), which comprises 3 parts, namely the public liability insurance, the employees' compensation insurance and the group personal accident insurance, for aided primary and secondary schools (including special schools). Professional liability insurance is not under the coverage of the BIP. All staff in aided primary and secondary schools (including special schools), both teaching and non-teaching, whose salaries are subvented by the EDB, as well as students, are insured under the BIP. Each period of insurance covers 2 school years and the expenditures on the insurance premium for the BIP for the 2015/16 to 2016/17 and 2017/18 to 2018/19 school years are $146.1 million and $129 million respectively. To protect the interests of the claimants, schools are required to report all accidents, irrespective of whether they are liable, to the BIP insurer. Hence, the number of reported cases should

not be taken as the number of claims. We do not have the statistics on the number of claims. From the 2015/16 to 2018/19 school years (as at November 2018), the total number of reported cases and indemnified cases for all types of insurance under the BIP are 8 200 and 3 500 respectively. Among them, there are 10 cases involving deaths. Information for the 2019/20 school year is not yet available.

(3) Under the new kindergarten (KG) education policy, the EDB provides direct subsidy to KGs joining the new KG education scheme (Scheme). Funding is provided basically on a per student basis in the form of a basic unit subsidy. The basic unit subsidy covers teaching staff salary, supporting staff salary and other operating costs. Insurance premium is one of the expenditure items chargeable to the "other operating costs" portion of the basic unit subsidy. The mode of provision of funding for KGs differs from that for aided primary and secondary schools. The degree to which KGs and aided primary and secondary schools have to follow the EDB's established operational and administrative practices also differs. As compared to aided primary and secondary schools, the modes of operation among KGs participating in the Scheme are more diversified. Hence, the EDB does not play the role of a central coordinator in various aspects relating to operation of KGs, including procurement of insurance policies.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government launched the Study Subsidy Scheme for Designated Professions/Sectors to subsidise students to pursue designated self-financing undergraduate and sub-degree programmes in each academic year:

1. Please use the table below to provide information of the programmes from the 2015/16 to 2018/19 academic years:

Programmes	Institutions	Number of subsidised places	Actual intakes (including subsidised and self-financing places)	Annual tuition fee (before deduction of subsidy)	Annual subsidy amount

Please use the table below to provide information of the estimated undergraduate programmes for the 2019/20 academic year:

Programmes	Institutions	Number of estimated subsidised places	Estimated total intakes (including subsidised and self-financing places)	Estimated annual tuition fee (before deduction of subsidy)	Estimated annual subsidy amount

Please use the table below to provide information of the estimated sub-degree programmes for the 2019/20 academic year:

Programmes	Institutions	Number of estimated subsidised places	Estimated total intakes (including subsidised and self-financing places)	Estimated annual tuition fee (before deduction of subsidy)	Estimated annual subsidy amount

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 8)

Reply:

Details of the designated undergraduate programmes, relevant institutions, the number of subsidised places, actual intakes, the average annual tuition fee before deduction of subsidy and the annual subsidy amount under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) for the cohorts admitted from the 2015/16 to 2018/19 academic years are set out at **Annex 1**.

Details of the designated undergraduate programmes, relevant institutions, the number of subsidised places, the average annual tuition fee before deduction of subsidy and the annual subsidy amount under the SSSDP for the cohort to be admitted in the 2019/20 academic year are set out at **Annex 2**.

As announced in the 2018 Policy Address, based on the advice of the Task Force on Review of Self-financing Post-secondary Education, the Government will expand the coverage of the SSSDP. Starting from the 2019/20 academic year, about 2 000 students per cohort will be subsidised to pursue designated full-time locally accredited self-financing sub-degree programmes in selected disciplines. Current students of the designated sub-degree programmes will also receive the subsidy. Details of the designated sub-degree programmes, relevant institutions, the number of subsidised places, the average annual tuition fee before deduction of subsidy and the annual subsidy amount under the SSSDP for the cohort to be admitted in the 2019/20 academic year are set out at **Annex 3**.

* The Government has regularised the SSSDP from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes also receive the subsidy starting from the 2018/19 academic year. All first-year intake places of designated programmes for local students were included in the SSSDP. There were no non-subsidised first-year intake places for local students under the designated programmes.

\# New programmes offered in the 2018/19 academic year.

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Please provide the number of students with special educational needs (SEN) from the 2014/15 to 2018/19 school years, with a breakdown by school level and SEN type.

(b) Please provide the number of subvented primary and secondary schools under each existing subvention mode (including Learning Support Grant, Intensive Remedial Teaching Programme and Mixed Mode) from the 2014/15 to 2018/19 school years, with a distribution of schools by number of students requiring tier-1, tier-2 and tier-3 support and a breakdown of expenditures involved.

(c) Please provide the number of primary and secondary schools receiving subvention (i) under $0.6 million, (ii) between $0.6 million and $1.59 million, (iii) between $1.60 million and $2.19 million, (iv) $2.20 million or above on account of admission of students with SEN under each existing subvention mode (including Learning Support Grant, Intensive Remedial Teaching Programme and Mixed Mode) from the 2014/15 to 2018/19 school years; please also advise of the number of additional teachers employed with the above subvention by schools in groups (i) to (iv).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 56)

Reply:

(a)

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by school level and SEN type from the 2014/15 to 2018/19 school years is set out at Appendix 1.

(b)

To help public sector mainstream schools cater for students with SEN, the Education Bureau (EDB), on top of regular subvention, has been providing schools with additional resources, including Learning Support Grant (LSG), Enhanced Speech Therapy Grant (ESTG), additional teachers and funding under Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme, additional teachers to support academic low achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant to cater for hardcore cases, etc. The number of public sector mainstream primary and secondary schools adopting LSG, IRTP and Mixed Mode from the 2014/15 to 2018/19 school years is set out at Appendix 2. The tier of support for students with SEN is subject to upward or downward adjustment from time to time depending on the performance of the students, and the distribution of students under the 3-tier Intervention Model may change accordingly. For students with mild or transient learning difficulties, schools will provide them with tier-1 support through quality teaching in regular classrooms. Submission of information about these students to the EDB is not required. The distribution of public sector mainstream primary and secondary schools eligible for LSG by number of students with SEN requiring tier-2 and tier-3 support from the 2014/15 to 2018/19 school years is set out at Appendix 3 and Appendix 4 respectively. The expenditure, on top of regular subvention, on additional support and services provided for students with SEN in public sector mainstream schools from the 2014/15 to 2018/19 school years is set out at Appendix 5.

(c)

To enhance the support for schools having admitted comparatively large number of students with SEN, the EDB has raised the ceiling of LSG from $1 million to $1.5 million per school per annum with effect from the 2013/14 school year and increased the rate of grant by 30% in the 2014/15 school year. Starting from the 2015/16 school year, the rate and ceiling of LSG for each school are adjusted annually according to the change in the Composite Consumer Price Index. For primary schools adopting the Mixed Mode and Migration Mode (i.e. migrating from Mixed Mode to fully adopting LSG within a period of up to 6 years), the ceiling of LSG for each school is $0.35 million and $0.6 million per annum respectively.

In each school year, we compile statistics on the number of schools that receive different amounts of grant within the range of LSG allotment as well as those that have reached the ceiling. We do not compile statistics on situation of schools exceeding the ceiling of LSG. Therefore, we can only give the number of public sector mainstream primary and secondary schools adopting LSG, Mixed Mode and Migration Mode that are provided with LSG under $0.6 million and from $0.6 million up to the ceiling from the 2014/15 to 2018/19 school years at Appendix 6. The number of additional teachers provided for public sector mainstream primary schools adopting IRTP, Mixed Mode and Migration Mode from the 2014/15 to 2018/19 school years is set out at Appendix 7. Public sector mainstream schools under LSG will deploy the grant and school resources flexibly and holistically to render appropriate support services to students with SEN in light of their individual needs, such as employing additional teachers or teaching assistants or hiring professional services.

School-based support services therefore vary according to the actual needs of students with SEN. Information on additional teachers employed in these schools is not available.

Appendix 1

Number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by school level and SEN type from the 2014/15 to 2018/19 school years

School year	School level	Specific learning difficulties	Intellectual disability	Autism spectrum disorders	Attention deficit/ hyperactivity disorder	Physical disability	Visual impairment	Hearing impairment	Speech & language impairment	Mental illness
2014/15	Primary	8 090	740	3 800	3 270	110	30	270	1 890	-
	Secondary	10 520	910	1 990	3 640	220	90	380	240	-
2015/16	Primary	8 370	660	4 420	3 850	120	30	280	2 100	-
	Secondary	11 020	930	2 380	4 350	190	80	390	300	-
2016/17	Primary	8 860	670	5 020	4 350	110	30	300	2 520	-
	Secondary	11 260	910	2 800	5 090	190	80	350	350	-
2017/18	Primary	9 250	690	5 430	4 670	120	40	350	2 430	-
	Secondary	11 460	830	3 280	5 860	170	70	340	370	-
2018/19	Primary	10 370	760	5 690	5 110	110	40	360	2 510	60
	Secondary	11 430	830	3 840	6 780	150	60	310	360	310

Note:

Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector mainstream primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector mainstream schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

Number of public sector mainstream primary and secondary schools adopting Learning Support Grant, Intensive Remedial Teaching Programme and Mixed Mode (including Migration Mode) from the 2014/15 to 2018/19 school years

School year	Learning Support Grant		Intensive Remedial Teaching Programme		Mixed Mode (including Migration Mode)	
	Primary	Secondary	Primary	Secondary	Primary	Secondary
2014/15	202	383	148	Not applicable	102	Not applicable
2015/16	211	382	144	Not applicable	99	Not applicable
2016/17	212	382	140	Not applicable	102	Not applicable
2017/18	213	381	140	Not applicable	101	Not applicable
2018/19	217	381	140	Not applicable	99	Not applicable

Note:
The Education Bureau (EDB) introduced the New Funding Mode (NFM) to public sector mainstream primary schools in the 2003/04 school year. Under NFM, the EDB provides primary schools with Learning Support Grant (LSG) so that they can pool together and deploy their resources flexibly to support students with special educational needs. The LSG is also provided to public sector mainstream secondary schools starting from the 2008/09 school year.

Distribution of public sector mainstream primary and secondary schools eligible for Learning Support Grant by number of students with special educational needs (SEN) requiring tier-2 support from the 2014/15 to 2018/19 school years

Number of students with SEN requiring tier-2 support	Number of schools

Note:
Starting from the 2017/18 school year, the Learning Support Grant (LSG) covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.

Distribution of public sector mainstream primary and secondary schools eligible for Learning Support Grant by number of students with special educational needs (SEN) requiring tier-3 support from the 2014/15 to 2018/19 school years

Number of students with SEN requiring tier-3 support	Number of schools									
	2014/15		2015/16		2016/17		2017/18		2018/19

16-20	0	0	1	0	2	1	1	3	6	0
Over 20	4	3	3	2	2	2	3	3	8	4

Note:
Starting from the 2017/18 school year, the Learning Support Grant (LSG) covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.

Expenditure on additional support and services provided for students with special educational needs in public sector mainstream schools from the 2014/15 to 2018/19 school years (on top of regular subvention)

School year	Expenditure ($ million)
2014/15	1,222
2015/16	1,310
2016/17	1,392
2017/18	1,638
2018/19 (Revised estimate)	2,012

Number of public sector mainstream primary and secondary schools adopting Learning Support Grant, Mixed Mode and Migration Mode within the range of Learning Support Grant allotment from the 2014/15 to 2018/19 school years

School year / Number of schools			Provision of Learning Support Grant (LSG)	
			Under $0.6 million	$0.6 million or above [number of schools having reached the ceiling]
2014/15	Secondary school	LSG	223	160 [20]
	Primary school	LSG	32	170 [8]
		Mixed Mode	97	Not applicable
		Migration Mode	0	5
2015/16	Secondary school	LSG	204	178 [25]
	Primary school	LSG	33	178 [21]
		Mixed Mode	94	Not applicable
		Migration Mode	0	5
2016/17	Secondary school	LSG	194	188 [29]
	Primary school	LSG	28	184 [27]
		Mixed Mode	93	Not applicable
		Migration Mode	0	9
2017/18	Secondary school	LSG	174	211 [41]
	Primary school	LSG	62	192 [30]
		Mixed Mode	90	Not applicable
		Migration Mode	0	11
2018/19	Secondary school	LSG	150	235 [58]
	Primary school	LSG	85	197 [51]
		Mixed Mode	86	Not applicable
		Migration Mode	0	13

Notes:

1. From the 2014/15 to 2017/18 school years, the ceiling of LSG is $1,500,000, $1,546,500, $1,583,616, $1,613,705 and $1,652,434 respectively. The number of schools that have reached the ceiling in each school year is set out in square brackets. For primary schools adopting Mixed Mode and Migration Mode, the ceiling of LSG in the above school years has remained at $0.35 million and $0.6 million respectively.
2. Starting from the 2017/18 school year, the LSG covers students with mental illness. The number of schools in the 2017/18 and 2018/19 school years in the table above covers schools operating Intensive Remedial Teaching Programme and Integrated Education Programme and having students with mental illness for whom LSG has been provided.

Number of additional teachers provided for public sector mainstream primary schools adopting Intensive Remedial Teaching Programme, Mixed Mode and Migration Mode from the 2014/15 to 2018/19 school years

	2014/15	2015/16	2016/17	2017/18	2018/19
Number of additional teachers	398	388	383	382	380

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3272)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the numbers of Primary 1 to 6 classes, places and students in government schools, aided schools, special schools, Direct Subsidy Scheme schools, private schools, English Schools Foundation schools and international schools for each of the 18 districts in Hong Kong and the total number of each item from the 2014/15 to 2018/19 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 57)

Reply:

The numbers of operating classes, places and students at each grade level of primary schools by district and school type from the 2014/15 to 2018/19 school years are set out at Appendix 1.

The numbers of approved classes, places and students of each type of special schools (primary section) from the 2014/15 to 2018/19 school years are set out at Appendix 2. Since the number of students who need to be admitted to special schools is relatively small, the planning and provision of special school places are not on a district basis. As such, providing corresponding figures by district is not meaningful. In addition, it is a common practice for special schools to adopt flexible groupings across grade levels and devise individual education plan to cater for the special educational needs of individual students. Therefore, presenting the number of classes by grade level (Primary 1 to Primary 6) cannot reflect the actual operation in special schools.

Number of operating classes, places and students of primary schools by district, grade level and school type from the 2014/15 to 2018/19 school years

Note: (1) Figures do not include special schools. International schools include the English Schools Foundation schools.

(2) Figures refer to the position as at September of the respective years.

(3) Figures on operating classes in a very small number of schools (other than the public sector) involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class. When counting the number of classes broken down by grade, combined class is split into different classes in proportion to the number of students from different grades and the number is rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.

(4) Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned.

Number of approved classes, places and students of each type of special schools (primary section) from the 2014/15 to 2018/19 school years

School Type	2014/15[Note 1]			2015/16[Note 1]			2016/17[Note 1]			2017/18[Note 1]			2018/19[Note 1]

Note

1. Figures refer to the position as at September of the respective school years.
2. The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the schools for children with MiID and children with MoID (i.e. 7 schools in the 2014/15 and 2015/16 school years and 5 schools in the 2016/17, 2017/18 and 2018/19 school years).
3. 1 school for children with severe intellectual disability has started to operate pilot classes for children with MoID starting from the 2017/18 school year. The figures are categorised according to the respective class types.
4. The Hospital School operates classes at 18 hospitals.
5. Special schools basically provide Primary 1 to Secondary 6 education. The number of approved classes is calculated with reference to the total number of students in the whole school. Since relatively more resources are provided for the classes in the secondary section, the Education Bureau has all along been giving priority in approving the number of classes in the secondary section of special schools. The number of students admitted in the primary section of some special schools is larger than the number of places in the 2018/19 school year is the result of the increase in the number of Primary 1 students admitted in special schools in recent years However, as a whole, these schools have sufficient places and resources to take care of their students. As for the Hospital School, the turnover number of hospitalised children is quite high, thus, the situation that the number of students admitted was larger than the number of places was observed in the 2015/16 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0900)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (700) General non-recurrent

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government has disbursed a one-off grant to secondary schools for promotion of Science, Technology, Engineering and Mathematics education (STEM grant) and the revised estimated expenditure for 2018-19 is $3.038 million. Would the Government advise this Committee of the following:

(1) whether the secondary schools are required to submit annual written reports on the actual use of and the balance of the STEM grant? If yes, what are the details? If no, what are the reasons?

(2) what mechanism has been put in place to ensure schools' compliance with the guidelines on the use of STEM grant provided by the Bureau and to objectively measure the learning effectiveness brought about by the grant?

Asked by: Hon IP LAU Suk-yee, Regina (LegCo internal reference no.: 4)

Reply:

Regarding the disbursement of a one-off grant of $200,000 to every public sector and Direct Subsidy Scheme secondary school for promotion of Science, Technology, Engineering and Mathematics (STEM) education, the Education Bureau (EDB) issued a circular memorandum in 2017 which set out details on the measure, including the disbursement and accounting arrangements and the ambit of the grant. Examples on the use of the grant are also provided for schools' reference. As clearly stated in the circular memorandum, all prevailing monitoring measures are applicable to the one-off grant. Schools are required to evaluate projects/activities on STEM education and the use of the grant against their goals for STEM education on a regular basis, and report the progress to the Incorporated Management Committees / School Management Committees. In addition, when using the grant, schools are required to observe the guidelines provided by the EDB and reflect the

income and expenditure in the audited accounts to be submitted to the Bureau annually. The EDB will claw back any unspent balance as of the deadline for using the grant as recorded in the schools' annual audited accounts. Schools have been advised on the effective use of the one-off grant as well as issues requiring attention through different channels, including seminars for teachers.

The disbursement of the one-off grant by the EDB is one of various resources for promoting STEM education, and it enables schools to kick-start school-based STEM education. Other relevant measures include updating the curricula of the Science, Technology and Mathematics Education Key Learning Areas; enriching learning activities for students; strengthening professional development for teachers; enhancing collaboration with key stakeholders in the community; as well as conducting review on the implementation and sharing of good practices. The EDB fully understands that the basis of promoting STEM education varies among schools, and their focuses of development and priorities of school-based STEM education are different. As such, schools are given flexibility in using the one-off grant to kick-start or enhance school-based STEM education so as to cater for students' interests and needs.

The use of the one-off grant should not be the only criterion for evaluating the effectiveness of STEM education. Instead, a multi-perspective approach should be adopted for a holistic review. We will, through school visits and daily contacts with schools, collect stakeholders' views on the relevant measures, including the use of the one-off grant by schools, to evaluate the effectiveness of promoting STEM education and enhance support measures in a timely manner.

Question:

The Government provides a non-recurrent grant of $100,000 in total in the 2018/19 and 2019/20 school years to each of the public sector special schools that admits non-Chinese Speaking (NCS) students for supporting NCS students in the junior secondary level to use Chinese in learning Chinese History. Would the Administration advise this Committee of the following:

(1) For the grant of $50,000 disbursed in the 2018/19 school year, please provide in tabular form the actual utilisation of the grant of each school (e.g. year-end balance of the grant, number of additional school staff employed, and specific usage);

(2) if any performance indicators for the grant are in place to review whether the grant is set at a reasonable level; if yes, what are the details; if no, what are the reasons; and

(3) whether the Bureau will consider turning this grant into a recurrent grant to support teachers in public sector special schools to design long-term appropriate Chinese History curriculum and relevant teaching materials for NCS junior secondary students; if yes, what are the details; if no, what are the reasons?

Asked by: Hon IP LAU Suk-yee, Regina (LegCo internal reference no.: 5)

Reply:

(1) to (3)

The grant for supporting non-Chinese speaking (NCS) junior secondary students in using Chinese to learn Chinese History has not yet been disbursed. The funding proposal has been included in the Estimates for consideration by the Legislative Council in the context of the Appropriation Bill 2019. Upon passage of the Appropriation Bill by the Legislative

Council, the Education Bureau (EDB) will in the 2018/19 and 2019/20 school years disburse funding to public sector secondary schools, including government, aided (including special schools) and caput secondary schools, and Direct Subsidy Scheme secondary schools with NCS students studying at junior secondary level. Guidelines on the use of the grant will be issued to schools in the form of circular memorandum.

In accordance with their school context and development needs, schools may flexibly deploy the grant to support teachers in refining practices on teaching NCS students Chinese History and in conducting relevant learning activities. Such measures may include procurement of professional services to develop school-based curriculum and learning and teaching resources specifically for the learning of Chinese History in Chinese by NCS students (including those in special schools), as well as procurement of multi-media and e-learning teaching resources. Schools may also arrange local visits and visits to the Mainland (including fees for visa application and participation in exchange programmes) for students to enhance their understanding of Chinese history and culture through life-wide learning activities.

When using the grant, schools are required to observe the principles and requirements (including relevant guidelines on procurement) laid down by EDB on the use of public funds and obtain approval from their incorporated management committee or school management committee. Schools are also required to set out the income and expenditure in the audited accounts to be submitted to EDB annually. The EDB will collect feedback from schools through different channels, including curriculum development visits, professional training activities and daily contact with teachers, so as to oversee the use of the grant.

The EDB will continue to support schools (including special schools) with the use of diversified strategies, such as organising professional training activities for teachers, networking activities, student activities and visits to the Mainland, and providing resources to support teaching. The EDB will keep in view the needs of NCS students at junior secondary level and make holistic plans for the disbursement of various grants.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Hong Kong Diploma of Secondary Education (HKDSE) Examination has been running at a deficit for many school years in a row. It is difficult for the Hong Kong Examinations and Assessment Authority (HKEAA) to operate on a self-financing basis. The Government has earmarked a non-recurrent commitment of $360.8 million to support the effective operation of the HKEAA for its 4 financial years and will work out a proposal with HKEAA to ensure its long-term financial sustainability. Would the Government advise this Committee:

(1) of the specific allocation of the non-recurrent commitment of $360.8 million; and

(2) whether the Government will consider allowing the HKEAA to increase the examination fees for the HKDSE Examination, taking into account the actual financial situation of the HKEAA, and paying the examination fees for all candidates sitting for the HKDSE Examination starting from the 2020/21 school year to ensure the long-term financial sustainability of HKEAA? If yes, what is the estimated expenditure involved? If no, what are the reasons?

Asked by: Hon IP LAU Suk-yee, Regina (LegCo internal reference no.: 6)

Reply:

(1) The current mode of operation and cost structure of the Hong Kong Examinations and Assessment Authority (HKEAA) cannot support the long-term operation of the Hong Kong Diploma of Secondary Education (HKDSE) Examination, resulting in financial difficulties faced by the HKEAA. The HKEAA is working out a proposal to ensure its long-term financial sustainability in consultation with the Government. A concrete plan is yet to be formulated. As a tide-over measure pending the comprehensive review, the Government

will provide the HKEAA with a non-recurrent funding to support its effective operation for 4 years.

Taking into account the HKEAA's funding requirements for maintaining its operation from 2018/19 to 2021/22, financial commitment and development needs (such as development or upgrading of information technology systems for administering examinations and for general organisational administration, and maintenance of the HKEAA's premises and facilities, etc.), its current financial position as well as projected profit from international and professional examinations, the HKEAA estimates that it will require funding support of $328 million from the Government in the next 4 years. A contingency of $32.8 million, equivalent to 10% of the above sum of $328 million, will be earmarked to cater for unforeseen or unexpected expenditure items required for conducting public examinations. The total requirement is therefore $360.8 million for 4 years. The proposed one-off funding support to the HKEAA has been approved by the Finance Committee of Legislative Council.

The existing monitoring and control mechanism as stipulated in the Hong Kong Examinations and Assessment Authority Ordinance (Cap. 261) will continue to apply to ensure proper auditing of the HKEAA's accounts and proper use of government funding. The HKEAA shall submit to the Government its annual estimates of income and expenditure and programme of its proposed activities including the proposed public examination fees for approval. The Government will carefully scrutinise the HKEAA's annual estimates, including its proposed funding requirement to maintain the minimum cash flow each year, to ensure that its funding request is necessary and reasonable, and disburse the funding by instalment. The HKEAA is drawing up the proposal for initial funding in accordance with the established mechanism for timely submission to the Government.

(2) The current mode of operation and cost structure of the HKEAA cannot support the long-term operation of the HKDSE Examination, resulting in financial difficulties faced by the HKEAA. In 2017/18, the HKDSE Examination recorded a deficit of about $69.2 million, leading to an overall deficit of about $10.1 million for the HKEAA, partly offset by the surplus derived from other income. As the candidature for HKDSE Examination is expected to stay on a declining trend in the coming years, the financial position of the HKEAA will continue to deteriorate.

The estimated total expenditure for paying the examination fees on behalf of 2020 HKDSE Examination candidates is around $160 million, which includes a contingency provision.

As mentioned above, the HKEAA is working out a proposal to ensure its long-term financial sustainability in consultation with the Government. A concrete plan is yet to be formulated. The proposal to support the operation of HKDSE Examination and the HKEAA with the provision of recurrent funding from the Government will also be taken into consideration.

Director of Bureau: Secretary for Education

Question:

The Government will create school-based speech therapist (SBST) posts in local public sector primary and secondary schools by phases in 3 school years starting from the 2019/20 school year. Would the Administration advise this Committee of the following:

(1) In the past 3 years, the number of primary and secondary school students diagnosed with speech and language impairment in Hong Kong;

(2) In the past 3 years, (a) the average waiting time for primary and secondary school students in Hong Kong for speech therapy services authorised by the Government, and (b) their average number and frequency of therapy services received;

(3) The estimated number of students that will be benefited from this project;

(4) The estimated number of SBSTs to be employed in the 2019/20 school year;

(5) In the past 3 years, (a) the number of students graduated from speech therapy undergraduate programmes in tertiary institutions in Hong Kong; and (b) the number of speech therapists registered in Hong Kong and its annual growth rate; and

(6) Will the Administration formulate a series of entry requirements for SBSTs (e.g. academic qualifications, professional qualifications and other qualification requirements) and performance indicators to gauge their work performance? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP LAU Suk-yee, Regina (LegCo internal reference no.: 1)

Reply:

(1)
The numbers of primary and secondary school students with speech and language impairment (SLI) as their major special educational needs (SEN) in the past 3 school years from 2016/17 to 2018/19 (as at September of the respective school years) are tabled below:

School Year	2016/17	2017/18	2018/19
Primary School	2 520	2 430	2 510
Secondary School	350	370	360

Regarding the total number of students with SLI and students with other types of SEN comorbid with SLI are tabled below (as at September of the respective school years):

School Year	2016/17	2017/18	2018/19
Primary School	20 810	21 350	22 300
Secondary School	2 770	3 060	3 210

(2) & (3)
In general, students who have been referred to the school-based speech therapists (SBSTs) by school will receive assessment and follow-up services within 1 to 2 months. As students have different types of SLI and varying degrees of impairment, the support they require are different. SBSTs will professionally devise treatment plans and make arrangements for individual therapy, group therapy or in-class support according to the support needs of individual students, so as to provide appropriate support services for them. Hence, it is not appropriate to comment whether students are given appropriate support solely by the number of times and frequencies of a particular kind of support (e.g. individual therapy) that the students received.

Starting from the 2019/20 school year, the Education Bureau (EDB) will implement the Enhanced School-based Speech Therapy Service (SBSTS) to create SBST posts in public sector mainstream primary and secondary schools by phases in 3 years. When the SBSTs become a member of their schools, they will be able to provide schools with more stable, sustainable and comprehensive service in the domains of prevention, remediation as well as development. For example, they can provide students with more diversified and intensive SBSTS. They can also strengthen collaboration with teachers and other professional staff to assist students with SLI by reducing the impacts on communication, learning and social interaction upon them while enhancing the language abilities of all students in school. Therefore, with the implementation of the Enhanced SBSTS by schools, not only the students with SLI but other students would also benefit.

(4)
In the 2019/20 school year, more than 200 schools will implement the Enhanced SBSTS. It is estimated that over 100 SBSTs are needed to be employed. Most of the schools will form a cluster of two schools. One school in each cluster will be the base school taking charge of coordinating the administrative matters of the school cluster, such as recruitment of SBSTs.

(5)
(a) According to the information we gathered from the local universities offering undergraduate and master programmes in training speech therapists (STs) , there were 90, 115 and 108 graduates from these courses respectively in the past 3 years (that is, from 2016 to 2018).

(b) The Department of Health conducts Health Manpower Surveys (HMS) on a regular basis to obtain up-to-date information on the characteristics and employment status of healthcare personnel practising in Hong Kong. According to the latest 2014 HMS on the 16 types of healthcare personnel included in the health services functional constituency, a total of 641 STs were employed by the covered institutions. We do not have the information regarding the annual rate of increase of STs.

At present, STs are not subject to statutory registration of medical professionals. In April 2018, a full accreditation status has been granted to the Hong Kong Institute of Speech Therapists under the Pilot Accredited Registers Scheme for Healthcare Professions, authorising the institute as the accredited healthcare professional body responsible for administering a register for the ST profession. As at December 2018, there are 150 voluntarily registered STs on the register.

(6)
SBST posts are regular posts in the approved non-teaching staff establishment. The arrangement of their terms of appointment and welfare (including leave and retirement arrangements) will be referred to those applicable to schools' non-teaching specialists remunerated by the Salaries Grant. Some STs are concerned about their previous experience in providing SBSTS for schools and the salary assessment issues. The EDB has been carefully studying the issues so as to formulate a suitable proposal that is conducive to recruiting suitable professionals to provide services for schools while ensuring proper use of public funds.

Upon the implementation of the Enhanced SBSTS, schools have to assess and review the performance of SBSTs and the implementation of the service on a regular basis through general staff management measures. To assist schools in monitoring the implementation of the service, Specialists (Education Services) (Speech Therapy) of the EDB will pay regular school visits to offer comments on the implementation of SBSTS and the performance of SBSTs.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2476)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2017/18 school year, the Pilot Project on Special Educational Needs Coordinators (SENCOs) (the pilot project) is regularised and extended to all public sector primary and secondary schools in the territory in phases over 3 years. The Administration will provide each public sector primary or secondary school with an additional Assistant Primary School Master/Mistress post or Graduate Master/Mistress post in the teaching establishment to facilitate the assignment of a designated teacher to take up the role of SENCO. In this connection, please inform this Committee:

(a) How many primary and secondary school teachers are employed respectively in the 2017/18 and 2018/19 school years as a result of the regularisation of the pilot project? What is the expenditure on salary?

(b) How many primary and secondary schools are involved in the 2017/18 and 2018/19 school years?

(c) Do all teachers employed under the pilot project take up the role of SENCO? Or, do schools employ a new teacher with the post provided to assume non-SENCO duties (i.e. to become an additional teacher under the general establishment), while the role of SENCO is taken up by an existing/experienced/senior teacher (such as assistant principal) through internal deployment? If the latter is the case, what is the number of such teachers? Does the Administration compile statistics in this regard? Please give such figures of primary schools and secondary schools in each of the 18 districts. If no, what are the reasons? Is such an arrangement permitted? If not, does EDB have any measure to deal with it?

(d) How many primary and secondary school teachers will be employed respectively in the coming school year (i.e. the 2019/20 school year) as a result of the extension of the pilot project? What will be the expenditure on salary?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 1)

Reply:

(a), (b) and (d)

Starting from the 2017/18 school year, each public sector mainstream primary or secondary school is provided with an additional teaching post to facilitate school's assignment of a designated teacher to take up the role of Special Educational Needs Coordinator (SENCO). In the 2017/18 school year, 244 public sector mainstream schools (126 primary schools and 118 secondary schools) had the provision of SENCO and the expenditure was $164 million. In the 2018/19 school year, 544 public sector mainstream schools (300 primary schools and 244 secondary schools) have the provision of SENCO and the revised estimated expenditure is about $376 million. In the 2019/20 school year, all public sector mainstream primary and secondary schools (455 primary schools and 389 secondary schools) will have the provision of SENCO. In the same school year, the Education Bureau (EDB) will upgrade the rank of SENCO to a promotion rank (i.e. Primary School Master/Mistress in primary schools and Senior Graduate Master/Mistress in secondary schools) in public sector mainstream primary and secondary schools with comparatively large number of students with special educational needs (SEN), and the estimated expenditure is $824 million.

(c)

When assigning a teacher as SENCO, schools should give thorough consideration to the teacher's years of teaching experience, work experience, relevant qualifications, etc. Basically, the teacher assuming the role of SENCO should have at least 3 years' experience in teaching and in promoting the work related to integrated education, and should have received training in special education, such as having completed the Basic, Advanced and Thematic Courses (i.e. the BAT Courses) on supporting students with SEN offered by tertiary institutions under the commission of the EDB, or holding equivalent qualifications. Under the principle of school-based management, schools may, having regard to the above requirements, either assign a teacher as SENCO through internal deployment or employ a teacher as SENCO based on the school context and development needs. According to our understanding, most schools have appointed a suitable teacher as SENCO through internal deployment.

(Question Serial No. 2477)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government states that it will extend the Enhanced School-based Educational Psychology Service (SBEPS) (with the ratio of educational psychologist (EP) to school being 1:4) to about 60 per cent of all public sector primary and secondary schools and enhance the ratio of EP to school to 1:6 for the remaining 40 per cent of schools by the 2023/24 school year. Please advise this Committee of the following:

(a) What explains why the Government can only extend the Enhanced SBEPS to 60 per cent of all public sector primary and secondary schools in the 2023/24 school year, given that the Enhanced SBEPS was launched in the 2016/17 school year? What is the timetable of providing the Enhanced SBEPS for the remaining 40 per cent of schools? What is the expenditure involved?

(b) In the form of a table, the number, remuneration, per capita expenditure and total expenditure of EPs, as well as the number of schools and persons each EP serves and the duration of service from the 2014/15 to 2018/19 school years;

(c) The yearly change in the ratio of EP to school since the implementation of the new measure;

(d) Has the effectiveness of school-based EP services in primary and secondary schools been improved because of the new measure? Has the Government evaluated the effectiveness of the services by, for example, conducting seminars, consultation sessions or questionnaire surveys for schools, parents or students? If yes, what are the details? If not, what are the reasons?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 9)

Reply:

(a) to (c)
Since the 2016/17 school year, all public sector mainstream primary and secondary schools have been provided with the School-based Educational Psychology Service (SBEPS). In that school year, the Education Bureau (EDB) progressively improved the ratio of educational psychologist (EP) to school to 1:4 for public sector mainstream primary and secondary schools with comparatively large number of students with special educational needs (SEN), i.e. the Enhanced School-based Educational Psychology Service (Enhanced SBEPS). The number of schools receiving the Enhanced SBEPS from the 2016/17 to 2019/20 school years is tabulated as follows:

School year	2016/17	2017/18	2018/19	2019/20 (planned)
No. of schools	30	80	119	150

The supply of EPs and the actual needs of schools should be taken into account in the implementation of Enhanced SBEPS. Extending the Enhanced SBEPS to about 60 percent of all public sector mainstream schools by the 2023/24 school year is a realistic goal upon prudent consideration. The ratio of EP to school will be enhanced to 1:6 for the remaining 40 percent of schools. The EDB has liaised with local universities and the University Grants Committee to increase EP training places. It is expected that an additional 45 places will be provided in the 2019-2022 triennium as compared with the previous triennium. The EDB will keep in view the implementation and effectiveness of the Enhanced SBEPS, and extend the Enhanced SBEPS to more schools as far as practicable.

From the 2014/15 to 2018/19 school years, the respective number of EPs providing the SBEPS is 99, 114, 138, 144 and 151. The current scale of their monthly salary is $70,590 to $105,175. The total expenditure for the provision of the SBEPS (including Enhanced SBEPS) for public sector mainstream primary and secondary schools in the abovementioned school years is tabulated as follows:

School year	2014/15	2015/16	2016/17	2017/18	2018/19 (Revised estimate)
Expenditure ($ million)	85	103	119	127	173

Under the SBEPS, each EP serves 6 to 10 public sector mainstream primary and secondary schools, and in general 7 to 8 schools. The average number of visit days to each school is around 20 per school year, while for schools receiving the Enhanced SBEPS, the average number of visit days to each school is around 30. The SBEPS adopts a comprehensive and integrated service model that aims at enhancing schools' professional capacity to cater for students' diverse educational needs. EPs provide support at the school system, teacher and student levels. Specifically, EPs provide assessment and intervention services for students, training for parents, consultation and professional development programmes for teachers, and offer professional advice on school policies and measures in relation to supporting students with diverse educational needs. In other words, the services provided by EPs

under the SBEPS go beyond handling individual student cases. By enhancing the school support system and teachers' knowledge and skills in catering for students' diverse needs, all students in the participating schools will benefit from the provision of the SBEPS directly or indirectly. Thus, reporting the number of students benefiting from the service does not reflect appropriately and comprehensively the actual service provided under the SBEPS and can be misleading.

(d)

A quality assurance mechanism has been put in place to evaluate service effectiveness and to ensure service quality. Under the mechanism, the EDB conducts an annual review through a questionnaire survey among participating schools and EPs at the end of a school year to gauge feedback from different stakeholders. The EDB also conducts school visits to review service deliverables (including the work plans and progress reports submitted by EPs) and to hold meetings with EPs and school personnel to advise on issues related to the implementation of the SBEPS. Parents' views on the service are collected through questionnaires. In addition, the EDB holds regular meetings with the school sponsoring bodies providing the service to review service planning and coordination. Views given by different stakeholders indicated that the SBEPS was able to meet the needs of schools and the satisfaction level among schools receiving the Enhanced SBEPS had also risen.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is recommended in this year Policy Address that measures be implemented from the next school year (i.e. 2019/20 school year) to improve the learning situation of students with special educational needs (SEN) in mainstream schools. The measures include re-structuring the additional resources provided under Learning Support Grant (LSG), Intensive Remedial Teaching Programme and Integrated Education Programme, provision of regular teaching posts and LSG for public sector ordinary primary and secondary schools, involving an additional funding of $800 million each year. Please advise this Committee of the following:

(a) How much of the $800 million is earmarked for re-structuring LSG, Intensive Remedial Teaching Programme and Integrated Education Programme?

(b) What are the changes in support after re-structuring LSG, Intensive Remedial Teaching Programme and Integrated Education Programme? Please tabulate the support measures, targets of support and a breakdown of the expenditure involved.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 13)

Reply:

(a) & (b)

To help public sector mainstream primary and secondary schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. At present, additional resources include cash grants (with Learning Support Grant (LSG) being the major one) and additional teachers or teaching assistants provided under different programmes (including Intensive Remedial Teaching Programme

(IRTP) and Integrated Education (IE) Programme). In the 2018/19 school year, the revised estimated expenditure on LSG, IRTP and IE Programme is around $900 million.

All along, schools adopting LSG can flexibly deploy additional resources to employ contract teachers or teaching assistants, or procure services to support students with SEN. Schools operating IRTP are provided with regular teachers to mainly cater for academic low achievers and students with intellectual disability (ID) or specific learning difficulties (SpLD). Schools implementing IE Programme, subject to the number of students with ID, autism spectrum disorders (ASD), physical disability (PD), visual impairment (VI) and hearing impairment (HI) enrolled are provided with additional teachers to support the students concerned.

In the 2017/18 school year, the EDB conducted a series of consultation. The mainstream views supported the provision of regular teachers and additional resources that can be flexibly deployed for schools to cater for students with SEN of different types. In this connection, starting from the 2019/20 school year, the EDB will restructure LSG, IRTP and IE Programme. Specifically, under the new measure, LSG will replace IRTP and IE Programme and be extended to all public sector mainstream primary and secondary schools. Schools admitting comparatively large number of students with SEN will be provided with regular teaching posts and the LSG grant rate for tier 3 support will be increased. Schools will have a more stable teaching force and additional resources for flexible deployment to support students with SEN of different types (including SpLD, ID, ASD, attention deficit/hyperactivity disorder, PD, VI, HI, speech and language impairment as well as mental illness) and academic low achievers (applicable to primary schools). Schools under the Direct Subsidy Scheme will also benefit and will be provided with LSG based on the number of students with SEN enrolled. In late March 2019, the EDB has issued a circular to inform schools of the above measures to facilitate schools to take follow-up actions. Statistics on related teaching posts can only be compiled upon completion of relevant work. The new arrangement involves an estimated additional annual provision of around $300 million.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Office of the Secretary for Education is responsible for providing support to the Secretary for Education in undertaking political work, providing administrative support, and planning and coordinating the Secretary's public, media and community functions. Please provide the following information:

(a) The political work undertaken by the Secretary for Education from 2014/15 to 2018/19:

	Descriptions	Nature/ Details	Dates/ Duration	Detailed Expenditures	Current Position	Incumbent Secretary
1.						
2.						
3.						

(b) Local and overseas activities attended by the Secretary for Education from 2014/15 to 2018/19:

	Name of Public/Media/ Community Function	Purpose of Attendance/ Role	Dates/ Duration	Incumbent Secretary	Entourage (Name/ Post Title)	Detailed Expenditures
1.						
2.						

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 23)

Reply:

The Secretary for Education (SED) attends from time to time various local activities to cultivate contacts with different sectors of the community, heed their views on education policies and measures, and solicit their support for the work of the Education Bureau (EDB). We have not kept statistics on the local activities attended by SED. Hence, we are unable to provide the requested information. Expenditure incurred, if any, in connection with the attendance at such activities has already been reflected in the operating expenses of EDB. Information about the duty visits outside Hong Kong made by SED is at the Annex.

Annex

Duty visits outside Hong Kong made by Secretary for Education (SED)

(1) From 1 April 2014 to 30 June 2017

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
19 to 24 May 2014	Belgium and Finland	To pay a duty visit to the European Union (EU) and Finland and observe their education systems, and to strengthen Hong Kong's education ties with EU countries, particularly in vocational education, multilingual education, teacher training as well as the use of information and communication technology in education	2	23,816	195,583	19,041	238,440
29 June to 3 July 2014	Beijing and Shanghai	To lead the "Passing on the Torch" Mainland Exchange Programme delegation comprising more than 600 students and teachers to visit Beijing and Shanghai	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	17,129	25,950	43,079
31 July to 2 August 2014	Ningbo	To lead a delegation of the Hong Kong education sector (about 50 people) to Ningbo to participate in a series of Ningbo-Hong Kong education exchange activities, to give opening remarks, and to witness the signing of education co-operation documents by higher education and vocational education institutions as well as sister school agreements by primary and secondary schools of the two places	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	13,920	11,419 [In-town transport sponsored by the Ningbo Education Bureau in the amount of around $1,000]	25,339

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
21 August 2014	Shenzhen	To attend working meeting with the Director of the Shenzhen Municipal Education Bureau on education issues of mutual concern (including the issue of cross-boundary students)	2	No expenses as no over-night stay	No air passage (by car)	1,946	1,946
30 & 31 October 2014	Hangzhou	To officiate at a launching ceremony for an online exchange platform for Zhejiang and Hong Kong sister schools upon invitation, to attend and deliver a speech at a forum on digital education, and to witness the signing of agreements between two pairs of schools in Hong Kong and Zhejiang to form sister schools	1	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	11,700	4,074 [In-town transport sponsored by the Zhejiang Provincial Government and the sponsored amount is not available]	15,774
3 to 8 November 2014	Germany and Switzerland	To lead an education delegation to visit Germany and Switzerland and to conduct an intensive study on their vocational education systems and good practices in promoting young persons' career development	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	123,147	52,309	175,456
5 to 7 December 2014	Nanjing	To lead a delegation of over 200 Hong Kong secondary school students studying Chinese History and teachers to participate in the "Passing on the Torch" Platform Programme Series: An Exploration into the History and Culture in Nanjing	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	14,314	11,246 [In-town transport sponsored by the Hong Kong and Macao Affairs Office of Jiangsu Provincial Government and the sponsored amount is not available]	25,560

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
7 & 8 January 2015	Malaysia	To enhance the education link with ASEAN countries, to promote Hong Kong's education, and to strengthen co-operation between Malaysia and Hong Kong	1	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	13,720	5,919	19,639
30 January 2015	Guangzhou and Shenzhen	To accompany the Chief Executive in meetings with Guangdong and Shenzhen leadership	-	No expenses as no over-night stay	No air passage (by train)	125 [In-town transport in Guangzhou sponsored by the Guangdong Provincial Government in the amount of around $90]	125
27 to 31 March 2015	Canada	To lead a delegation to attend the International Summit on Teaching Profession 2015, and to exchange views with other ministers of education, especially on career and life planning education and kindergarten education	2	7,545 [Hotel accommo-dation sponsored by the Council of Ministers of Education, Canada, in the amount of around $6,205]	150,440	25,695	183,680
6 May 2015	Shenzhen	To attend a working meeting with the Shenzhen Municipal Education Bureau	2	No expenses as no over-night stay	No air passage (by car)	0	0
7 & 8 May 2015	Zhuhai	To deliver a speech upon invitation at the 10th anniversary celebratory event of the United International College jointly founded by Beijing Normal University and Hong Kong Baptist University, and to hold discussion with officials of the Zhuhai Municipal Education Bureau	2	2,430	No air passage (by ferry)	6,640	9,070

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
18 & 19 May 2015	Guangzhou and Zhongshan	To attend working meetings with the Department of Education of Guangdong Province and the Zhongshan Government	3	- [Hotel accommo-dation sponsored by the Hong Kong and Macao Affairs Office of the People's Government of Guangdong Province in the amount of around $2,080]	No air passage (by train and ferry)	4,612	4,612
6 June 2015	Huizhou and Shunde	To lead Hong Kong university students to join a one-day career and life planning education programme and visit enterprises there	1	No expenses as no over-night stay	No air passage (by car)	7,390	7,390
24 & 25 June 2015	Fujian	To pay a courtesy visit to the Fujian Provincial Department of Education and the Xiamen Municipal Education Bureau, and to visit local universities for education co-operation	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	13,680	6,647	20,327
17 & 18 July 2015	Beijing	To officiate at the opening ceremony of the Beijing, Hong Kong and Macau Student Exchange Camp, and to attend a working meeting with the Ministry of Education in Beijing	2	5,047	23,000	5,688	33,735
26 July to 1 August 2015	USA and Belgium (EU)	To pay a duty visit to USA/EU and exchange views with funding and research agencies in the higher education sector on education/research policies and funding strategies, especially STEM education	2	11,928	170,285	56,122	238,335

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	(C) Other expenses ($) (Note 4)	Total expenditure incurred by SED & official entourage from SED's Office ($) (A)+(B)+(C)
2 to 4 September 2015	Beijing	To attend commemorative activities of the 70th Anniversary of the Victory of War of Resistance against Japanese Aggression	-	- [Hotel accommo-dation sponsored by the State Council's Hong Kong and Macao Office in the amount of around $1,550]	10,217	2,190 [In-town transport sponsored by the State Council's Hong Kong and Macao Office in the amount of around $142]	12,407
28 September to 1 October 2015	Beijing	To lead a delegation from the education sector of Hong Kong to participate in professional exchange activities in Beijing and Chengde	2	12,870	21,449	16,881	51,200
13 to 15 October 2015	Singapore	To attend a higher education international conference, and to hold discussion with officials of the Ministry of Education of Singapore	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	22,804	28,470	51,274
2 & 3 November 2015	Guangzhou and Shenzhen	To lead a delegation of presidents and vice-presidents of the 8 University Grants Committee (UGC)-funded institutions in a visit to Guangdong Province leadership, and to attend a Guangdong/Hong Kong university presidents' forum in Guangzhou	2	5,234	No air passage (by car)	9,058	14,292
17 November 2015 (p.m. only)	Guangzhou	To officiate at the opening ceremony of a national competition of extra-curricular academic and technological projects by university students	1	No expenses as no over-night stay	No air passage (by car)	6,550	6,550

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
27 & 28 January 2016	Beijing	To meet with officials of the Ministry of Education and the Beijing Municipal Education Commission to exchange views on education initiatives/ policies in 2016	2	4,825	23,000	5,803	33,628
10 to 12 May 2016	Chengdu	To join a delegation led by the Chief Secretary for Administration to visit Sichuan to conclude the support work in the reconstruction of areas stricken by the earthquake in Wenchuan in 2008	1	4,191	19,636	3,620	27,447
25 May 2016	Nansha	To officiate at the 2016 Nansha-Hong Kong Sister School Contract Signing Ceremony cum Cultural Exchange Activities	2	No expenses as no over-night stay	No air passage (by car)	4,600	4,600
14 June 2016	Shenzhen	To have a meeting with officials of the Shenzhen Municipal Education Bureau, and to visit two hi-tech enterprises for exchanges on technology education and career and life planning education	2	No expenses as no over-night stay	No air passage (by car)	4,081	4,081
20 & 21 July 2016	Shenzhen and Guangzhou	To attend the Hong Kong/Guangdong Universities High Level Meeting, and to conduct education exchanges in Shenzhen and Guangzhou	2	3,956	No air passage (by car)	7,312	11,268
17 & 18 August 2016	Beijing	To have meetings with officials of the Ministry of Education and the Beijing Municipal Education Commission respectively	2	4,889	23,051	3,583	31,523

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
14 September 2016	Guangzhou	To attend the 19th Plenary of the Hong Kong-Guangdong Co-operation Joint Conference	-	No expenses as no over-night stay	No air passage (by train)	420 [In-town transport sponsored by the Guangdong Provincial Government and the sponsored amount is not available]	420
2 to 9 October 2016	Peru and USA	To attend the 6th Asia-Pacific Economic Co-operation Education Ministerial Meeting in Lima, Peru, and to visit San Francisco, USA for education exchanges	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	364,177	41,147	405,324
20 to 22 October 2016	Shanghai	To have a meeting with officials of the Shanghai Municipal Education Commission, and to join Hong Kong secondary school students in a Mainland exchange programme	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	21,610	18,063	39,673
3 & 4 November 2016	Shenzhen	To officiate at the Guangdong-Hong Kong Sister School Contract Signing Ceremony, and to attend the Shenzhen-Hong Kong Principals' Forum 2016	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	No air passage (by car)	11,694	11,694
10 & 11 November 2016	Beijing	To attend an inter-national education symposium organised by the Organisation for Economic Co-operation and Development	-	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	11,645	2,564	14,209

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo-dation ($) (Note 2)	(B) Expenses on air passage ($) (Note 3)	(C) Other expenses ($) (Note 4)	Total expenditure incurred by SED & official entourage from SED's Office ($) (A)+(B)+(C)
15 November 2016	Guangzhou	To address the founding ceremony of the Guangdong-Hong Kong-Macau University Alliance	1	No expenses as no over-night stay	No air passage (by train)	1,317	1,317
28 & 29 November 2016	Malaysia	To have a meeting with officials of the Malaysian Ministry of Higher Education in Kuala Lumpur to exchange views on education issues of mutual concern, and to finalise the arrange-ments for the Hong Kong Scholarship for "Belt and Road" Students (Malaysia)	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	44,626	7,186	51,812
6 & 7 December 2016	Shanghai	To attend the 4th meeting of the China-UK High-Level People-to-People Dialogue	1	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	10,862	7,187	18,049
15 December 2016	Nansha	To attend the Guangdong-Hong Kong- Macau forum on education co-operation, innovation and entrepreneurship	2	No expenses as no over-night stay	No air passage (by car and by ferry)	4,252	4,252
14 & 15 February 2017	Beijing	To have meetings with officials of the Ministry of Education and the Beijing Municipal Education Commission respectively	2	4,860	23,380	3,936	32,176
19 to 21 February 2017	Thailand	To have a meeting with the Thai Ministry of Education in Bangkok to explore opportunities for education co-operation, and to finalise the arrangements for the Hong Kong Scholarship for "Belt and Road" Students (Thailand)	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	13,977	13,998	27,975

18 to 20 September 2017	Beijing	To attend a working meeting with officials of the Ministry of Education, and to pay courtesy calls on the Hong Kong and Macao Affairs Office of the State Council and the Beijing Municipal Education Commission	-	3,240	4,256	2,730	10,226
21 to 25 January 2018	United Kingdom	To speak at the Education World Forum and hold bilateral meetings with individual education ministers attending the Forum, to visit the Department for Education of the UK, Chartered College of Teaching and British Council, to visit the British Educational Training & Technology Show, and to meet with Hong Kong teachers who were on study tour in UK	2	32,639	160,508	12,292	205,439
29 March 2018	Shenzhen	To attend the Establishment Ceremony of the Harmonia College of the Chinese University of Hong Kong, Shenzhen	-	-	-	-	[Travelling expenses borne by the Constitutional and Mainland Affairs Bureau]
20 to 22 June 2018	Beijing	To attend a regular working meeting with the Ministry of Education, to visit a local secondary school and a local university, and to meet Hong Kong young people who were pursuing tertiary studies or working in Beijing	1	6,541	10,800	5,000	22,341

Date of visit	**Place of visit**	**Purpose of visit** (Note 1)	**Size of official entourage from SED's Office**	**(A) Expenses on accommo-dation** ($) (Note 2)	**(B) Expenses on air passage** ($) (Note 3)	**(C) Other expenses** ($) (Note 4)	**Total expenditure incurred by SED & official entourage from SED's Office** ($) (A)+(B)+(C)
26 July 2018	Huizhou	To meet with education officials of the Huizhou Municipal Government to explore co-operation opportunities in education	1	No expenses as no over-night stay	No air passage (by car)	2,400	2,400
29 August 2018	Zhuhai and Zhongshan	To meet with officials of the Zhuhai Education Bureau and the Zhongshan Education and Sports Bureau to explore co-operation opportunities in education between Hong Kong and the two municipalities under the development of the Greater Bay Area	2	No expenses as no over-night stay	No air passage (by ferry)	1,230	1,230
28 September to 1 October 2018	Beijing	To attend the exchange activities of the National Day Delegation from the Educational Sector of Hong Kong 2018	1	15,000	16,116	5,960	37,076
28 to 30 October 2018	Hangzhou and Ningbo	To attend the Ningbo-Hong Kong Education Co-operation Forum 2018, to meet with officials of Zhejiang Province, Hangzhou and Ningbo, and to visit various education organisations	1	7,907	8,142	1,821	17,870
4 December 2018	Guangzhou	To attend the Guangdong-Hong Kong Sister School Contract Signing Ceremony 2018	1	No expenses as no over-night stay	No air passage (by high speed rail)	972	972
22 January 2019	Zhuhai	To visit a higher education institution, looking into the participation of Hong Kong's universities in higher education development in the Guangdong-Hong Kong-Macao Greater Bay Area	1	No expenses as no over-night stay	No air passage (by car)	2,500	2,500

Notes:

(1) The Secretary for Education would meet local students from Hong Kong where possible.

(2) Hotel accommodation was provided in accordance with the relevant Civil Service Regulations and guidelines.

(3) Proper class of passages was provided in accordance with the relevant Civil Service Regulations and guidelines, taking into account such factors as rank of post, flying time, flight schedule and details.

(4) Other expenses include overseas subsistence allowance and other incidental expenses related to the duty visits outside Hong Kong. Subsistence allowance was provided in accordance with the relevant Civil Service Regulations and guidelines, which is intended to cover, inter alia, the cost of accommodation, meals and in-town transport.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2480)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) provides recurrent grant and support for all local public sector primary and secondary schools to form sister schools with their counterparts in the Mainland. Please advise this Committee of the following:

(a) When will the grant be provided for schools? Please tabulate the number of primary and secondary schools receiving the grant every school year, the activities held by each school using the grant and a breakdown of expenditure on related activities since the implementation of the scheme; and

(b) Please provide a list of schools in the Mainland that have formed sister schools with primary and secondary schools in Hong Kong. Are these schools recommended or decided by the EDB? Or are they selected by local schools on their own? What are the selection criteria?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 33)

Reply:

(a) Starting from the 2018/19 school year, the Education Bureau (EDB) provides recurrent grant (which is set at $150,000 for the 2018/19 school year) and professional support for each local public sector or Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. Applications for the grant can be submitted throughout the year. It is anticipated that there will be about 700 participating schools in the 2018/19 school year, and the expenditure involved will be around $105 million. Having regard to their development needs, schools may arrange exchange activities (such as school visits, student activities, seminars, teaching demonstration, lesson evaluation, video conferencing and experience sharing) with their sister schools at the student, teacher and school management levels. Through exchange and collaboration,

sister schools can expand their networks, enhance mutual understanding and communication, strengthen cultural interflows, and work together to enhance the quality of education. As the EDB does not collect information concerning the expenditure on the exchange activities organised by the schools on their own, we are unable to provide the relevant information.

(b) Primary, secondary and special schools in Hong Kong may form sister schools with their counterparts in the Mainland through either the coordination of the EDB or their own networks. As a prevailing practice, we do not disclose the names of schools participating in the scheme and the relevant information to avoid possible labelling effect and unnecessary pressure on individual schools.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 36)

Reply:

(a) To dovetail with the school curriculum and the latest development of our country, the Education Bureau (EDB) organises Mainland exchange programmes with diversified themes and destinations for primary and secondary students, or subsidises those organised by schools every year. Some examples include the "Mainland Exchange Programme for Junior Secondary and Upper Primary Students" (「同根同心」—— 香港初中及高小學生內地交流計劃), the "Mainland Exchange Programme for Secondary School

Students" (「同行萬里」中學生內地交流計劃), the "Junior Secondary and Upper Primary School Students Exchange Programme Subsidy Scheme: Understanding Our Motherland" (初中及高小學生交流活動資助計劃 —— 「赤子情・中國心」), the "Senior Secondary School Students Exchange Programme Subvention Scheme" (高中學生交流活動資助計劃), the "Mainland Exchange Programme for Student Leaders" (領袖生內地交流計劃) and some thematic Mainland exchange programmes. These programmes enable participants to visit different provinces and cities in the Mainland, consolidate classroom learning, and gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives.

The numbers of students participating in Mainland exchange programmes and the expenditures involved in the past 5 school years (from the 2014/15 to 2018/19 school years) are as follows:

School Year	Number of Students (rounded down to the nearest hundred)		Expenditure ($million)[@]	
	Secondary Students	Primary Students	Secondary Students	Primary Students
2014/15	31 700	18 900	40.1	12.6
2015/16	35 800	23 400	46.8	15.1
2016/17	35 300	24 500	50.3	13.9
2017/18[#]	40 200	26 800	57.6	27.8
2018/19[+]	40 200	33 600	64.0	39.3

@ Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

Actual figures revised from last year's estimates

+ Provisional figures

(b) The EDB also organises various professional Mainland exchange programmes for teachers of different subjects and ranks. These programmes mainly include school visits, cultural visits, seminars, lesson observations, professional exchanges, etc. The numbers of teachers participating in Mainland exchange programmes and the expenditures involved in the past 5 school years (from the 2014/15 to 2018/19 school years) are as follows:

School Year	Number of Teachers (rounded down to the nearest ten)	Expenditure ($million)[@]
2014/15	260	1.1
2015/16	410	2.1
2016/17	690	2.9
2017/18[#]	760	5.5
2018/19[+]	1 800	8.7

@ Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Last year, the Government planned to respectively provide a one-off grant of $150,000 and $100,000 to all public sector and Direct Subsidy Scheme primary and secondary schools for the promotion of Chinese history and culture among students. Please advise this Committee of the following:

(a) What is the current position of the use of the grant? Please tabulate the items and their expenditures in connection with the use of the grant in public sector and Direct Subsidy Scheme primary and secondary schools in all 18 districts. If such data are not available, what are the reasons and how can the Education Bureau (EDB) ascertain schools' effective use of the grant to help students better understand Chinese history and culture?

(b) Is there a validity period for the grant? If yes, within how many years are schools supposed to use it up? What would be done to unspent balance? Would unspent balance be clawed back by EDB?

(c) In future, will the EDB roll out similar projects or provide similar grants to support related work in schools? If yes, what are the details? If no, what are the reasons?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 43)

Reply:

(a) to (c)

A one-off grant for the promotion of Chinese history and culture is disbursed to all public sector and Direct Subsidy Scheme (DSS) primary and secondary schools (including special schools). The grant, which can be used across years from the 2017/18 school year to the end of the 2019/20 school year, aims at enhancing students' understanding of Chinese

history and culture. In line with the principle of school-based management, schools may, in accordance with their context and development needs, flexibly deploy the grant to support teachers in improving their teaching, and developing school-based activities that help promote Chinese history and culture education. Schools are required to, when using the grant, report details of the funded projects/activities (including the nature of activity, amount of provision used, students' participation rate and assessment results) to their Incorporated Management Committee/School Management Committee for endorsement. Schools are also required to comply with EDB's guidelines on financial management (including procurement procedures and relevant requirements), and set out the details in the audited accounts to be submitted to the EDB annually. The EDB neither makes it compulsory for schools to separately submit an expenditure report together with relevant statistics on the grant, nor compiles statistics on the use of the grant by primary and secondary schools in the 18 districts. Through various channels, such as teachers' professional training activities, focus group meetings and curriculum development visits, the EDB learns about schools' use of the grant and gathers their feedback about the usage.

Schools may use the one-off grant up to the end of the 2019/20 school year (i.e. end-August 2020), and then the EDB will, according to the annual audited accounts submitted, claw back any unspent balance as at 31 August 2020 from aided primary and secondary schools (including special schools), caput secondary schools, and DSS primary and secondary schools. As for government schools, the grant can be used up to 31 August 2020, and then any unspent balance of budget allocation will lapse. The Government will make an overall assessment on schools' deployment of different grants to examine the needs for various types of grants.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3214)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the educational support for non-Chinese speaking (NCS) students to be admitted in post-secondary programmes, please provide:

(a) The respective number of local NCS candidates sitting for the Hong Kong Diploma of Secondary Education (HKDSE) examinations, meeting the general entrance requirements of the University Grants Committee (UGC) First-Year-First-Degree programmes, applied for enrolment, and admitted through JUPAS and non-JUPAS for 2014/15 to 2018/19 academic years;

(b) The respective number of local ethnic minority candidates sitting for the Hong Kong Diploma of Secondary Education (HKDSE) examinations, meeting the general entrance requirements of the University Grants Committee (UGC) First-Year-First-Degree programmes, applied for enrolment, and admitted through JUPAS and non-JUPAS for 2014/15 to 2018/19 academic years;

(c) The grades obtained and the respective number of local NCS students in each grade as well as subsidy involved who sat for GCE (A-Level) Chinese, GCE (AS Level) Chinese, GCSE Chinese and IGCSE Chinese for the first time for 2014/15 to 2018/19 academic years;

(d) The grades obtained and the respective number of local ethnic minority students in each grade as well as subsidy involved who sat for GCE (A-Level) Chinese, GCE (AS Level) Chinese, GCSE Chinese and IGCSE Chinese for the first time for 2014/15 to 2018/19 academic years.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 12)

Reply:

(a) & (b) In the 2014/15, 2015/16, 2016/17 and 2017/18 school years, the number of non-Chinese speaking (NCS) students (i.e. students whose spoken language at home is not Chinese) attending Secondary (S) 6 in public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and sitting for the Hong Kong Diploma of Secondary Education Examination (HKDSE) is 821, 1 035, 1 062 and 1 189 respectively. The information for the 2018/19 HKDSE is not yet available.

According to the statistics provided by the University Grants Committee (UGC)-funded universities, the number of local NCS students (i.e. students whose ethnicity and/or spoken language at home is not Chinese) who had met the general entrance requirements of undergraduate programmes and were admitted to UGC-funded First-Year-First-Degree (FYFD) programmes through the Joint University Programmes Admissions System (JUPAS) in the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 academic years is 104, 100, 125, 153 and 157 (figure for the 2018/19 academic year is provisional) respectively, while the number of local NCS students who were admitted to UGC-funded FYFD programmes through non-JUPAS route is 102 (revised figure), 106, 100, 125 and 155 (figure for the 2018/19 academic year is provisional) respectively. A breakdown by ethnic minority students is not available.

(c) & (d) Eligible S4 to S6 school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that subsidised school candidates are only required to pay a "subsidised examination fee" on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or HKDSE. Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level. Starting from the 2011/12 school year, apart from the examination subsidy, eligible needy NCS students sitting for the GCSE (Chinese) Examination can apply for full or half fee remission of the "subsidised examination fee" under the Examination Fee Remission Scheme (EFRS). The EFRS has further been extended to eligible needy NCS students taking the IGCSE, GCE AS-Level and GCE A-Level (Chinese) Examinations from the 2012/13 school year onwards. With the approval of the relief measure announced in the 2018-19 Budget to pay the examination fees for school candidates sitting for the 2019 HKDSE by the Finance Committee of the Legislative Council at the meeting on 18 May 2018, the "subsidised examination fee" of eligible NCS students sitting for the aforementioned Chinese Language examinations in the 2018/19 school year is waived accordingly. A breakdown by ethnic minority students is not available.

The number of NCS students subsidised to sit for the aforementioned examinations from the 2014/15 to 2018/19 school years is tabulated below:

Alternative Chinese Language examination	Number of NCS students subsidised (Number of NCS students subsidised to sit for the examinations for the first time)				
	2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year
GCSE Chinese	995 (919)	1 000 (938)	1 205 (1 140)	1 373 (1 269)	526 (486)
IGCSE Chinese	53 (53)	91 (91)	96 (90)	125 (108)	537 (517)
GCE AS-Level Chinese	273 (271)	289 (284)	245 (241)	300 (295)	428 (421)
GCE A-Level Chinese	150 (142)	156 (150)	201 (192)	152 (130)	53 (45)
Total	1 471	1 536	1 747	1 950	1 544

The expenditure on subsidy for NCS students to sit for the aforementioned examinations from the 2014/15 to 2018/19 school years is tabulated below:

Alternative Chinese Language examination	Actual expenditure in the 2014/15 school year ($ million)	Actual expenditure in the 2015/16 school year ($ million)	Actual expenditure in the 2016/17 school year ($ million)	Actual expenditure in the 2017/18 school year ($ million)	Estimated expenditure in the 2018/19 school year ($ million)
GCSE Chinese	0.64	0.71	0.99	1.23	0.86
IGCSE Chinese	0.09	0.16	0.20	0.25	1.51
GCE AS-Level Chinese	0.64	0.71	0.66	0.83	1.58
GCE A-Level Chinese	0.50	0.51	0.73	0.63	0.29
Total	1.87	2.09	2.58	2.94	4.24

Note: The aforementioned expenditure does not cover the expenditure on the full or half fee remission under the EFRS for eligible needy NCS students sitting for the aforementioned examinations.

It is our established practice that the breakdown of the levels attained by individual groups of students will not be released to avoid any labelling effect and piece-meal interpretation or misinterpretation of the results. Among the NCS students attending S6 in public sector schools and DSS schools offering the local curriculum and sitting for the HKDSE, 220, 320, 350 and 385 of them met the general entrance requirements of undergraduate programmes (with the

majority of them using alternative Chinese Language qualifications) in the 2014/15, 2015/16, 2016/17 and 2017/18 school years respectively. The figure for the 2018/19 school year is not yet available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1432)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The estimated expenditure for special education in 2019-20 is $2,959.40 million, which is 8.5% higher than the 2018-19 original estimate. Would the Government please list the items with allocation of the increased estimate and give a breakdown of expenditure by item?

Asked by: Hon LAM Kin-fung, Jeffrey (LegCo internal reference no.: 51)

Reply:

The provision for 2019-20 under Programme (5) Special Education is $232.8 million or 8.5% higher than the original estimate for 2018-19. This is mainly due to increased provision for various existing grants, including increase in salaries grant for implementation of the all-graduate teaching force policy and the 2018 pay adjustment, as well as additional provision for new grants such as the Life-wide Learning Grant.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

How many sites are reserved for school use (including primary, secondary and special schools) in each of the District Council districts? What are the location, site area, planned use, student capacity, present position (e.g. whether there is a concrete School Building Programme or technical feasibility study is being carried out) and development timeframe of each site?

Asked by: Hon LEE Wai-king, Starry (LegCo internal reference no.: 9)

Reply:

As at March 2019, there are a total of 22 reserved school sites (including primary, secondary and special schools) in the territory having completed the relevant technical feasibility study and the timeframe for school development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as site investigation and school design, are being carried out in accordance with the prevailing procedures. A breakdown of the 22 reserved school sites by districts with their location, site area and planned use, is set out in the Table below. Among them, funding approval for projects on 3 reserved school sites was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2015-16 LegCo Session with the school building works already underway; project on 1 reserved school site was approved in the 2016-17 LegCo Session with the school building works already commenced; project on 1 reserved school site was approved in the 2017-18 LegCo Session with the school building works commenced in 2018. In addition, funding approval for projects on 2 reserved school sites has just been obtained from the current LegCo Session with the school building works about to commence. The projects on another 2 reserved school sites will be submitted to the FC to seek funding approval in the current LegCo Session. For the remaining 13 sites, 4 fall within private development projects or site availability being affected by private development projects, while the rest are being deployed for temporary use, undergoing site formation work or with

preliminary works/detailed design for school building project being undertaken in accordance with the existing mechanism and procedures.

Reserved School Sites by District

No.	District	Location	Site area (rounded to the nearest hundred m^2)	Planned use	Number of classrooms	Remark
1	Kowloon City	Kai Tak Development	7 500	Secondary School	30	(i)
2	Kowloon City	To Kwa Wan	7 700	Secondary School	30	(iii)
3	Kowloon City	Ho Man Tin	7 800	Primary School	24	(iii)
4	Kowloon City	Kowloon Tong	7 700	2 Special Schools	12 and 24 respectively	(iii)
5	Kowloon City	Kai Tak Development	6 100	Primary School	30	(iii)
6	Kwun Tong	Anderson Road	7 500	Secondary School	30	(ii)
7	Kwun Tong	Anderson Road	6 500	Primary School	30	(i)
8	Kwun Tong	Anderson Road	7 200	Primary School	30	(iii)
9	Kwun Tong	Anderson Road	6 800	Primary School	30	(iii)
10	North	Fanling	5 900	Primary School	30	(i)
11	North	Fanling	5 900	Primary School	30	(i)
12	Sham Shui Po	Cheung Sha Wan	6 500	Primary School	30	(i)
13	Sham Shui Po	Cheung Sha Wan	6 200	Primary School	30	(iii)
14	Sai Kung	Tseung Kwan O	6 200	Primary School	30	(iv)
15	Sai Kung	Tseung Kwan O	7 000	Secondary School	30	(iv)
16	Sai Kung	Tseung Kwan O	7 400	Secondary School	30	(iii)
17	Tuen Mun	Tuen Mun West	7 100	Special School	16	(i)
18	Islands	Tung Chung	5 800	Special School	18	(i)
19	Sha Tin	Shui Chuen O	8 800	Primary School	30	(ii)
20	Sha Tin	Fo Tan	4 700	Primary School	24	(iv)
21	Tai Po	Area 9	7 100	Primary School	36	(iii)
22	Tsuen Wan	Tsuen Wan West	5 800	Primary School	30	(iv)

Remarks:
(i) Funding approval has been obtained from the FC of LegCo for the school building project.
(ii) Funding approval will be sought from the FC of LegCo in the 2018-19 LegCo Session for the school building project.

(iii) The site is being deployed for temporary use, undergoing site formation work or with preliminary works/detailed design for school building project being undertaken in accordance with the existing mechanism and procedures.
(iv) The site falls within a private development project and is not regarded as Government land or the site availability is affected by a private development project.

Insofar as planning of public sector primary and secondary school building projects at those reserved sites is concerned, land is a scarce resource and construction of new school premises involves immense resources. The Education Bureau (EDB) has to consider with prudence if addition of a new operating school would commensurate with the long-term sustainable development of the district concerned so as to avoid negative impacts on the steady development of the school sector as a whole. In this regard, the EDB will take into account factors including the planned development of the area concerned, the school-age population projections which are compiled based on the population projections updated regularly by the Census and Statistics Department and the projection of population distribution released by the Planning Department, the actual number of existing students and school places available at various levels, the prevailing education policies and other factors that may affect the supply and demand of school places, etc. in order to decide whether the planned premises should be used for operating a new school or reprovisioning an existing school, and when to kick-start the relevant school building project.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1342)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Committee on Prevention of Student Suicides published its final report in November 2016. The Education Bureau accepted the recommendations in the report and is in the process of formulating a number of practicable measures and follow-up actions according to the four key areas, including Promotion of Students' Mental Well-being and Health, Strengthening Support for Schools and Teachers, Reviewing Relevant Domains in the Education System, and Enhancement of Family Life and Parent Education. What are the details of the funds reserved for implementing the above recommendations in 2019/20? What is the increase or decrease in the funding when compared with the figure for 2018/19?

Asked by: Hon LEE Wai-king, Starry (LegCo internal reference no.: 10)

Reply:

The Education Bureau (EDB) has been encouraging schools to adopt the Whole School Approach directed at three levels, namely "Universal", "Selective" and "Indicated" to promote mental health amongst students and enhance support for students with mental health needs (including students with suicidal risk).

At the Universal level, the EDB has been actively promoting diversified development programmes featuring adventure-based, team building and problem-solving training, such as the "Understanding Adolescent Project" for primary schools, and the "Enhanced Smart Teen Project" for secondary schools and the "Pupil Ambassador Scheme on Positive Living", to enhance students' resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. The expenditure involved for the above work in 2018-19 is about $66 million. The estimated expenditure for 2019-20 is about $75 million. Besides, the EDB and the Department of Health (DH) jointly launched the Joyful@School Campaign in the 2016/17 school year which has been continued in the 2018/19 school year to enhance students' awareness and understanding of mental health and strengthen their ability to cope with environmental changes. Schools (or

in collaboration with non-governmental organisations) can submit proposals to the Quality Education Fund for funding not exceeding $200,000 through simplified application procedures to organise activities related to the Campaign. Up to February 2019, more than 700 applications were approved under the Joyful@School Campaign with a total grant amount of more than $150 million.

At the Selective level, starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with special educational needs (SEN) pitched at Basic, Advanced and Thematic levels (BAT Courses). Some modules of the BAT Courses cover mental illness. From the 2017/18 school year onwards, the EDB also provides teachers of primary and secondary schools with the "Professional Development Programme for Mental Health", including elementary training for teachers at large and in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. The EDB provides public sector mainstream schools with around 2 000 training places for the "Professional Development Programme for Mental Health" in the 2018/19 and 2019/20 school years. Besides, in each school year, the EDB also organises seminars, workshops, experience sharing sessions, etc., on supporting students with mental health needs for primary and secondary school teachers to equip more of them with the knowledge and capacity to support students with mental health needs. In general, the revised estimated expenditure for teacher training courses on supporting students with SEN and various related training activities for the 2018/19 school year is about $90 million. The estimated expenditure for the 2019/20 school year is about $100 million. To help schools identify and support students with mental health needs, the EDB has published "A Resource Handbook for Schools: Detecting, Supporting and Making Referral for Students with Suicidal Behaviours" and "Teacher's Resource Handbook on Understanding and Supporting Students with Mental Illness" which was developed in collaboration with the Hospital Authority (HA).

At the Indicated level, starting from the 2017/18 school year, the Learning Support Grant covers students with mental illness so that schools can cater for those students' learning, social, emotional and behavioural needs. Moreover, the Food and Health Bureau (FHB), in collaboration with the EDB, the HA and the Social Welfare Department (SWD), has launched the "Student Mental Health Support Scheme" since the 2016/17 school year to provide appropriate support services for students with mental health needs through a school-based platform.

The EDB works with the Curriculum Development Council to continuously review the primary and secondary curricula in order to better cater for learning differences. The EDB suggests schools coordinate the daily amount of homework assigned so that students can have sufficient time to rest, play and develop their interests. The EDB has all along been reviewing relevant areas in the education system in order to duly support and address the developmental and diverse needs of students, and will continue to encourage and support schools in implementing the suggestions made under the New Academic Structure Review, so as to support schools and meet the diverse learning needs of students. Measures included the following: increasing the flexibility in deploying lesson time; trimming, enhancing or updating the curriculum contents and assessment arrangements, and clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload;

arranging for more Applied Learning (ApL) courses to register in the Qualifications Register and increasing learning opportunities for workplace experience; and encouraging students interested in vocational and professional education and training to study one to two ApL courses. The EDB established the Task Force on Review of School Curriculum in November 2017 to review the school curriculum. The Task Force will be in operation for about two years to make directional recommendations on the school curriculum to the Government. The expenses for the above work have been subsumed under the overall expenditure of the EDB.

In the 2017 Policy Address, a series of measures were announced to facilitate young people to pursue multiple pathways and continuing education in accordance with their abilities and interests. These measures include making use of the Language Fund to provide a vocational English programme for senior secondary students who are interested in pursuing vocational and professional education and training or prepared to enter the workforce, so as to enhance their English proficiency and provide opportunities for them to attain relevant recognition for further study or employment.

Regarding enhancement of family life and parent education, the EDB endeavors to promote home-school co-operation and parent education. The EDB has all along been supporting the Committee on Home-School Co-operation in organising parent activities and seminars to equip parents with the necessary knowledge about helping their children in respect of growth and development, enhancing their parental skills, as well as assisting them in the early identification of their children's emotional problems and fostering positive thinking in their children. Besides, the EDB launched a website called "Smart Parent Net" in early 2018 to enable parents with children from kindergarten to primary and secondary school levels to easily access useful information on supporting the physical and mental development of students, which includes the parent-child relationship, character development, parenting skills and emotional management of parents. In parallel, the Education Commission set up the Task Force on Home-school Co-operation and Parent Education in December 2017 to review the existing approach in promoting home-school co-operation and parent education and to formulate the direction and strategy for fostering home-school co-operation and promoting parent education with the objective of assisting parents to help their children grow up happily and healthily, and learn effectively through, among others, promotion of correct understanding of developmental needs of children and adolescents as well as avoiding excessive competition. Accepting the Task Force’s recommendations, the EDB will provide Federations of Parent-Teacher Associations and Parent-Teacher Associations of schools with additional resources for enhancing home-school co-operation and promoting parent education starting from the 2019/20 school year. In 2018-19, the expenditure for promoting home-school co-operation and parent education is about $37.14 million and the estimated expenditure for 2019-20 is about $63.38 million.

Besides, on the request of the Chief Executive in October 2017, the Labour and Welfare Bureau (LWB) coordinated a cross-bureaux/departments Task Force on Prevention of Youth Suicides (the Task Force). The Task Force was to take stock of the progress of implementation of recommendations set out in the Final Report of the Committee on Prevention of Student Suicides issued in 2016 by the Committee on Prevention of Student Suicides commissioned by the EDB, and to consider if further policy measures and action should be taken to strengthen the efforts to prevent youth suicides. In addition to the LWB and EDB, the Task Force also comprises the FHB, the Home Affairs Bureau, the SWD, the

DH and the HA. The Chief Executive endorsed the Report of the Task Force on Prevention of Youth Suicides (Task Force Report) in November 2018. The full text of the Task Force Report has been uploaded to the LWB website (https://www.lwb.gov.hk/eng/other_info/TFPYS_Report_(English).pdf).

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide, by District Council district, the respective number of kindergartens that operate half-day, whole-day and long whole-day classes, as well as the numbers of their students and serving teachers. Please also provide the wastage figures of teachers in half-day, whole-day and long whole-day kindergartens in the past 3 years, and set out the length of service, academic qualifications and salaries of these teachers.

Asked by: Hon LEE Wai-king, Starry (LegCo internal reference no.: 11)

Reply:

The respective numbers of kindergartens (KGs), students and serving teachers in all half-day (HD), whole-day (WD) KGs, and KGs with both HD and WD classes by District Council district in the 2018/19 school year (Note 1) are tabulated below:

(i) KGs with HD classes only

District	No. of KGs	No. of students	No. of teachers
Central & Western	25	4 006	320
Wan Chai	18	5 057	358
Eastern	28	3 744	265
Southern	18	1 812	167
Sham Shui Po	14	2 952	237
Yau Tsim Mong	17	3 378	243
Kowloon City	51	15 667	957
Wong Tai Sin	7	2 073	127
Kwun Tong	16	3 901	245
Tsuen Wan	18	4 241	288
Tuen Mun	9	2 459	129
Yuen Long	23	6 556	381
North	7	2 320	138
Tai Po	9	1 294	89
Sha Tin	24	6 135	380
Sai Kung	20	3 284	203
Islands	11	1 044	76
Kwai Tsing	13	3 310	203

(ii) KGs with WD classes only

District	No. of KGs	No. of students	No. of teachers
Central & Western	10	809	106
Wan Chai	9	940	119
Eastern	15	1 098	143
Southern	8	723	84
Sham Shui Po	14	1 634	207
Yau Tsim Mong	15	1 494	178
Kowloon City	22	2 118	241
Wong Tai Sin	18	1 639	195
Kwun Tong	27	2 609	301
Tsuen Wan	10	1 121	135
Tuen Mun	19	1 550	191
Yuen Long	18	1 820	220
North	10	908	109
Tai Po	9	897	116
Sha Tin	22	2 115	255
Sai Kung	13	1 097	141
Islands	6	551	55
Kwai Tsing	16	1 523	176

(iii) KGs with both HD and WD classes

District	No. of KGs	No. of students	No. of teachers
Central & Western	12	1 448	130
Wan Chai	4	1 053	83
Eastern	40	6 193	519
Southern	14	2 117	175
Sham Shui Po	23	4 971	373
Yau Tsim Mong	9	1 682	163
Kowloon City	28	4 373	398
Wong Tai Sin	23	3 330	299
Kwun Tong	33	5 673	480
Tsuen Wan	13	1 785	176
Tuen Mun	40	7 957	655
Yuen Long	37	7 679	596
North	31	5 910	450
Tai Po	19	4 338	326
Sha Tin	35	6 028	521
Sai Kung	31	4 556	386
Islands	18	2 209	184
Kwai Tsing	34	5 221	453

Among KGs with WD classes shown in tables (ii) and (iii) above, the numbers of former aided child care centres (FACs) (Note 2), and the numbers of their students and serving teachers are tabulated below:

District	No. of FACs	No. of students	No. of teachers
Central & Western	9	754	98
Wan Chai	6	520	71
Eastern	17	1 130	154
Southern	8	717	82
Sham Shui Po	13	1 462	185
Yau Tsim Mong	14	1 405	171
Kowloon City	15	1 478	172
Wong Tai Sin	17	1 580	189
Kwun Tong	24	2 333	271
Tsuen Wan	10	1 121	135
Tuen Mun	19	1 533	187
Yuen Long	18	1 820	220
North	10	908	109
Tai Po	9	897	116
Sha Tin	20	1 915	231
Sai Kung	13	1 053	140
Islands	5	373	41
Kwai Tsing	19	1 743	204

The wastage (Note 3) of teachers in local KGs with WD, HD and both HD and WD classes in the 2016/17, 2017/18 and 2018/19 school years, and their average years of service, average salary per month and academic qualifications are tabulated below:

(i) 2016/17 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage	232	416	663
Average years of service	11.7	11.8	11.5
Average salary per month	$21,605	$21,181	$19,102
Number of teachers with Certificate in Early Childhood Education or above	212	279	538

(ii) 2017/18 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage	203	428	674
Average years of service	12.1	12.2	12.7
Average salary per month	$22,270	$22,401	$19,802
Number of teachers with Certificate in Early Childhood Education or above	186	332	547

(iii) 2018/19 school year (Note 1)

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage	329	480	776
Average years of service	9.9	10.8	12.4
Average salary per month	$23,944	$23,970	$22,755
Number of teachers with Certificate in Early Childhood Education or above	315	388	678

Among the above KGs with WD classes, the respective number of wastage of teachers in FACs (Note 2) in the 2016/17, 2017/18 and 2018/19 school years, and their average years of service, average salary per month and academic qualifications are tabulated below:

Teachers in FACs (Note 2)			
School year	2016/17	2017/18	2018/19 (Note 1)
Number of wastage	232	215	334
Average years of service	11.6	11.9	9.5
Average salary per month	$21,459	$21,966	$23,828
Number of teachers with Certificate in Early Childhood Education or above	216	199	321

Note:

1. Figures for the 2018/19 school year are provisional.
2. FACs refer to aided child care centres operated under the Social Welfare Department before harmonisation. They usually operate longer service hours.
3. "Wastage" refers to the number of drop-out teachers who had served in local KGs/Long WD KGs as at mid-September of the preceding school year but no longer served in any KGs as at mid-September of the school year concerned.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1344)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please tabulate the number of children still having to pay school fees and the amount of school fees payable on top of subsidy following the implementation of free kindergarten education.

Asked by: Hon LEE Wai-king, Starry (LegCo internal reference no.: 12)

Reply:

In the 2018/19 school year, the number of eligible students in kindergartens (KGs) joining the KG education scheme who have to pay school fees is 51 715 (of whom 8 878 are enrolled in half-day (HD) classes, 21 933 in whole-day (WD) classes and 20 904 in long whole-day (LWD) classes) (provisional figures as at September 2018). Families with financial needs may apply for fee remission under the Kindergarten and Child Care Centre Fee Remission Scheme. The number of students who still have to pay school fees after deducting fee remission is 42 250 (of whom 8 563 are enrolled in HD classes and 33 687 in WD and LWD services). As applicants for school fee remission are not required to indicate whether they are enrolled in LWD classes, a breakdown of WD and LWD classes is not available. The lowest and highest annual school fees charged by these KGs are tabulated by HD class, WD class and LWD class below:

Annual school fee (Note 1)	HD class	WD class	LWD class (Note 2)
Highest school fee ($)	10,100	26,200	26,200
Lowest school fee ($)	100	200	700

Note 1: Figures are rounded to the nearest 100. KGs providing both HD and WD/LWD classes will be counted in the respective column under HD, WD and LWD classes at the same time.

Note 2: LWD classes refer to former aided child care centres operated under the Social Welfare Department before harmonisation. They usually operate longer service hours.

1. Please provide the number of cross-boundary students in kindergartens for the past 3 years by district;

2. Please provide the number of cross-boundary students in primary schools for the past 3 years by district;

3. Please provide the number of cross-boundary students in secondary schools for the past 3 years by district;

4. Please provide the number of cross-boundary students in special schools for the past 3 years by school type.

Asked by: Hon LEUNG Che-cheung (LegCo internal reference no.: 39)

Reply

1. The number of cross-boundary students in kindergartens (including kindergarten-cum-child care centres) by district for the past 3 years is given below:

District	School Year	Total
North	2016/17 2017/18 2018/19	4 500 2 997 1 675
Tai Po	2016/17 2017/18 2018/19	182 94 25
Sha Tin	2016/17 2017/18 2018/19	39 16 3

Yuen Long	2016/17 2017/18 2018/19	1 723 802 185
Tuen Mun	2016/17 2017/18 2018/19	1 257 624 130
Tsuen Wan & Kwai Tsing	2016/17 2017/18 2018/19	85 40 9
Tung Chung	2016/17 2017/18 2018/19	60 37 4
Wong Tai Sin	2016/17 2017/18 2018/19	0 0 0

Notes: (1) Figures refer to the position as at September of the respective school years.
(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

2. The number of cross-boundary students in primary schools by district for the past 3 years is given below:

District	School Year	Total
North	2016/17 2017/18 2018/19	6 679 7 067 7 583
Tai Po	2016/17 2017/18 2018/19	2 543 2 787 2 963
Sha Tin	2016/17 2017/18 2018/19	555 602 630
Yuen Long	2016/17 2017/18 2018/19	4 233 4 663 4 667
Tuen Mun	2016/17 2017/18 2018/19	2 763 2 865 3 052
Tsuen Wan & Kwai Tsing	2016/17 2017/18 2018/19	215 466 505

Tung Chung	2016/17 2017/18 2018/19	200 381 424
Wong Tai Sin	2016/17 2017/18 2018/19	270 384 364

Notes: (1) Figures refer to the position as at September of the respective school years.
(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

3. The number of cross-boundary students in secondary schools by district for the past 3 years is given below:

District	School Year	Total
North	2016/17 2017/18 2018/19	2 228 2 562 3 123
Tai Po	2016/17 2017/18 2018/19	516 708 1 004
Sha Tin	2016/17 2017/18 2018/19	62 84 137

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Estimates that regarding national education, the "Bureau offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. It also provides professional support, where appropriate, to schools." In this connection, please provide the following information:

1. National education activities held in the past 3 years, including the target groups and the expenditures involved.

2. National education activities to be held in 2019-20, including the target groups and the estimated expenditures involved.

3. Apart from organising Mainland exchange programmes, arranging professional exchange programmes for teachers and providing professional support to schools, what other educational materials on national education are provided for students through class or school activities? If no such information can be provided, why?

Asked by: Hon LEUNG Che-cheung (LegCo internal reference no.: 40)

Reply:

1. to 3.

The expenditure for the Mainland exchange programmes in the past 3 school years (2016/17 to 2018/19) and the 2019/20 school year is as follows:

School year	Expenditure ($ million)[@]	
	Programmes for primary and secondary school students	Programmes for primary and secondary school teachers
2016/17	64.2	2.9
2017/18 [#]	85.4	5.5
2018/19 [*]	103.3	8.7
2019/20 [++]	115	13.2

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the Education Bureau (EDB)

[#] Actual figures revised from last year's estimates

[*] Provisional figures

[++] Estimated figures

National education in the wider context also includes learning about various aspects of our country from an appropriate perspective through different subjects. There are references to our country's history, culture, geographic features, development, etc. in the curriculum content of History, General Studies, Chinese Language, Geography and even Music and Arts. Moreover, elements that enable a better understanding of our country are added to different life-wide learning activities, such as activities related to the Hong Kong Special Administrative Region Establishment Day or National Day. The EDB provides support for schools in various areas. The relevant expenditure is subsumed under the recurrent expenditure of the EDB and cannot be identified separately.

Question:

Since the introduction of the Hong Kong Diploma of Secondary Education (HKDSE) Examination in 2011-12, there is a continuous decline in candidature and the Hong Kong Examinations and Assessment Authority (HKEAA) has recorded deficits in the overall fiscal position for 5 consecutive years. Although the proposal to provide non-recurrent funding support to the HKEAA was supported by the Panel on Education, the expenditure on HKDSE Examination is on a rising trend. In view of future development, would the Administration advise this Committee of the following:

1. Regarding the fiscal position of the HKDSE Examination, will the Administration deploy more resources to improve the current situation?

2. What are the details of the deployment of resources both in the short term and long term?

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 36)

Reply:

1. and 2.

The Hong Kong Examinations and Assessment Authority (HKEAA) is an independent statutory body set up in accordance with the Hong Kong Examinations and Assessment Authority Ordinance (Cap. 261) (HKEAAO). The Hong Kong Diploma of Secondary Education (HKDSE) Examination fees charged according to the HKEAAO is a major source of income of the HKEAA. In 2017/18, the income related to the HKDSE Examination accounted for about 52% of the HKEAA's income, while that related to international and professional examinations as well as other local examinations contributed to the remaining share of the income. The current mode of operation and cost structure of

the HKEAA cannot support the long-term operation of the HKDSE Examination, resulting in financial difficulties faced by the HKEAA. In 2017/18, the HKDSE Examination recorded a deficit of about $69.2 million, leading to an overall deficit of about $10.1 million for the HKEAA, partly offset by the surplus derived from other income. As the candidature for HKDSE Examination is expected to stay on a declining trend in the coming years, the financial position of the HKEAA will continue to deteriorate.

The HKEAA is working out a proposal to ensure its long-term financial sustainability in consultation with the Government. A concrete plan is yet to be formulated. As a tide-over measure pending the comprehensive review, the Government will provide the HKEAA with a non-recurrent funding of no more than $360.8 million in 4 years to support its effective operation during the period.

The HKEAA and Government envisage that the detailed study will take time to complete. Views of Members of relevant Legislative Council committees and stakeholders will be sought and carefully considered in the process to ensure that the recommended way forward can support HKEAA's effective operation in the long run.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau has implemented the new kindergarten education scheme (KG Scheme) with effect from the 2017/18 school year to provide direct subsidy for eligible local non-profit-making kindergartens for the provision of quality half-day service for all eligible children aged between 3 and 6. In this connection, would the Administration advise this Committee of the following:

1. How much resources will be allocated to provide an additional grant for children of needy families to defray school-related expenses relating to kindergarten education?

2. As for kindergartens admitting non-Chinese speaking (NCS) students, what is the additional subsidy for supporting NCS students in different tiers? What are the details?

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 37)

Reply:

1. Applicants who pass the means test of the Student Finance Office of the Working Family and Student Financial Assistance Agency and meet the eligibility criteria under the Kindergarten and Child Care Centre Fee Remission Scheme are eligible for an additional grant to defray school-related expenses incurred from the students' kindergarten education starting from the 2017/18 school year. The full grant rate for the 2018/19 school year is $3,940 which is pegged at the level of grant for school-related expenses for kindergarten students under the Comprehensive Social Security Assistance. The expenditure for the grant for school-related expenses is about $112.6 million in the 2018/19 school year (as at 31 January 2019). The estimated expenditure for the 2019/20 school year is $129.9 million.

2. At present, for kindergartens (KGs) joining the KG education scheme (Scheme), those admitting 8 or more non-Chinese speaking (NCS) students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. Starting from the 2019/20 school year, a 5-tiered subsidy will be provided for KGs joining the Scheme according to the number of NCS students admitted. KGs admitting 1 NCS student will also receive the subsidy and the subsidy for the highest tier will be a double of the current level. Details are as follows:

Tier	Number of NCS students	Subsidy amount
1	1 to 4	New cash grant of $50,000 per year
2	5 to 7	New subsidy at a rate of 0.5 KG teacher
3	8 to 15	Subsidy at a rate of 1 KG teacher (i.e. the current arrangement)
4	16 to 30	Increased subsidy at a rate of 1.5 KG teachers
5	31 or more	Increased subsidy at a rate of 2 KG teachers

The total additional expenditure for the 2019/20 school year is estimated at around $40 million.

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

To strengthen student guidance service in public sector primary schools, the Education Bureau introduced the enhanced provision in the 2018/19 school year by implementing the policy of "one school social worker for each school". Also, as announced in this year's Budget, the measure of "two school social workers for each school" will be rolled out in secondary schools. Still, the sector finds the provision inadequate. School social workers have to manage an expanding workload in dealing with student issues. They not only handle cases, but also conduct activities for students' development. In this connection, would the Administration advise this Committee of the following:

(1) Will the remuneration of school social workers be adjusted? If yes, what are the details? If no, what are the reasons?

(2) What is the increase in the provision for school social workers? Will other support measures be taken to ease the workload on school social workers?

(3) Apart from school social workers, other social workers are under heightened stress. Will the Administration allocate resources to alleviate their pressure? If yes, what are the details? If no, what are the reasons?

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 38)

Reply:

(1) to (3)

For primary schools, the Education Bureau (EDB) has implemented the policy of "one school social worker for each school" to public sector primary schools starting from the 2018/19 school year. Schools that adopt the New Funding Mode may choose to create a

regular Assistant Social Work Officer (ASWO) post on the approved staff establishment. The salary of the ASWO employed by schools is pegged to that of the civil service post, i.e. point 16 to point 33 on Master Pay Scale, and is subject to the annual civil service pay adjustment. The terms of appointment, benefits and supply staff arrangement are the same as specialists paid by the Salaries Grant in schools. Schools that choose to employ a school-based social worker using the School Social Work Service Grant are advised to make reference to the above pay scale and clearly specify in the contract the salary and terms of appointment upon mutual agreement.

On support for social workers in primary schools, starting from the 2018/19 school year, each school adopting the New Funding Mode is provided with the Consultation Service Grant (CSG) to procure consultation, supervision or other support services for school social workers. The amount of CSG for each school in the 2018/19 school year is $123,449. Besides, the existing arrangements for the Top-up Student Guidance Service Grant (Top-up Grant) will be enhanced under the New Funding Mode. Overall speaking, all public sector primary schools are provided with more resources to employ extra staff or procure additional services to strengthen student guidance service. Under the New Funding Mode, it is estimated that the annual additional recurrent expenditure in ordinary primary schools is around $111 million. While implementing the policy, the EDB will review the mode of collaboration between student guidance and social work services, and communicate with the education sector to identify the best way to provide school social work and guidance services by exploring all feasible proposals.

As for secondary schools, school social work services are, through the subvention of the Social Welfare Department (SWD), provided by non-governmental organisations (NGOs). Under the Lump Sum Grant (LSG) Subvention System, staff remuneration and terms of appointment fall within the realm of corporate governance of NGOs. As long as their subvented service units have met the requirements of the Funding and Service Agreement (including performance standards), NGOs may deploy the LSG flexibly to handle matters relating to staff remuneration, allowances and fringe benefits, and to defray other operational expenses.

Starting from the 2019/20 school year, the Government will implement the policy of "two social workers for each school" and enhance supervisory support in over 460 secondary schools in the territory. The additional full year recurrent provision involved will be around $313 million. The SWD will review the service output and outcome indicators of school social work services with relevant organisations in due course.

The Government will continuously review the demand for social workers arising from the development of welfare services, and seek in a timely manner additional manpower resources to cope with service demand.

Director of Bureau: Secretary for Education

Question:

The Chinese History subject has finally been made compulsory in junior secondary level after years of striving. In the revised Chinese History curriculum framework for Secondary 1 to 3, which will be implemented grade by grade from 2020, Chinese history is divided into 9 historical periods. However, in the curriculum documents for Liberal Studies, a compulsory subject, no scope of knowledge is specifically defined. In this connection, would the Administration please advise this Committee on the following:

1. How will the Administration support teachers in the teaching of Chinese History and Liberal Studies? What are the details?

2. While the curriculum framework for the Chinese History subject suggests that 76% of the total teaching hours should be allocated to political developments, 14% to cultural characteristics and 10% to development in Hong Kong, the curriculum documents for Liberal Studies only provides topic names and suggested content as a brief framework for learning and teaching, which is open to interpretation by frontline teachers and setters at the Hong Kong Examinations and Assessment Authority. As such, how can the Administration ensure that political ideals are taught in an unbiased manner?

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 39)

Reply:

1. In respect of supporting teachers in teaching Chinese History, the Education Bureau (EDB) has been working with experts, academics and experienced frontline teachers to produce various kinds of learning and teaching materials, such as e-learning and visual teaching resources, and training materials for the study of history. Seminars and workshops on curriculum interpretation, curriculum leadership, and learning and teaching strategies are organised for teachers. Besides, there are the establishment of learning

communities and the arrangements of school-based support services. Mainland study tours on history are organised for teachers to enrich their knowledge of Chinese history and refine learning and teaching strategies. In addition, the EDB has disbursed a one-off grant to schools for the promotion of Chinese history and culture. In accordance with school context and developmental needs, schools may deploy the grant flexibly to support teachers in improving their teaching, which includes developing high quality electronic or other school-based learning and teaching resources, and supporting teachers to participate in teaching-related interflow activities in the Mainland.

The EDB's strategies on supporting teachers in teaching Liberal Studies (LS) are the same as those for Chinese History. A series of support measures are implemented on an ongoing basis. These include organising various kinds of professional development programmes for teachers (e.g. Mainland study trips) and district-based network activities, developing learning and teaching resources to support curriculum implementation, and providing online resources platform and school-based support services. We have launched the Web-based Resource Platform for LS (ls.edb.hkedcity.net) to provide for teachers a wide variety of practical curriculum resources, learning and teaching materials, assessment items, etc., which are updated and enriched on a regular basis. Moreover, through school-based support services, the EDB helps participating schools improve their school-based curriculum, develop learning and teaching materials, strengthen learning and teaching strategies, cater for learner diversity, develop experiential learning, etc. At the same time, professional interaction and collaboration among teachers across schools have been enhanced through professional learning communities and district-based network activities. Online student forums have also been organised with other organisations to promote discussion and exchange among schools.

2. The curriculum documents of LS provide the overall curriculum framework of the subject by setting out the areas of study, modules and themes as well as suggested perspectives and directions for enquiry. For the reference of teachers and the Hong Kong Examinations and Assessment Authority (HKEAA), the EDB has published the Liberal Studies Curriculum and Assessment Resource Package, the Liberal Studies Curriculum Resources Booklet Series, etc. to provide exemplars, relevant learning materials and suggestions for school-based adaptations in respect of learning content and focuses, basic knowledge and concepts, assessment requirements of the curriculum, etc. LS focuses on nurturing students as informed and responsible citizens with a sense of national identity and global perspectives. Our curriculum documents have clearly pointed out that teachers should adopt a pedagogical approach that could enable students to objectively analyse from different perspectives when touching on different issues, including socio-political affairs. In teacher training programmes, inspections, curriculum development visits and daily contacts with schools, we also emphasise that it is important for teachers to provide students with diversified learning materials to ensure that they will not be influenced by any single perspective or even biased political propaganda during LS lessons. The Task Force on Review of School Curriculum (Task Force) is conducting a review on school curriculum framework and assessment as a whole. If there are any recommendations made by the Task Force on the curriculum or assessment of LS, the EDB will conduct detailed discussion and follow up with the sector in accordance with the established advisory /consultation mechanism (including the Curriculum Development Council, HKEAA, etc.) and procedures to bring about improvements to the LS curriculum as well as learning and teaching.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The 2018 Policy Address proposed to provide a new recurrent Life-wide Learning Grant with an annual provision of $900 million for public sector schools and schools under the Direct Subsidy Scheme starting from the 2019/20 school year. In this connection, would the Government inform this Committee of:

1. the allocation of resources to out-of-classroom experiential learning activities in various curriculum areas such as the humanities, STEM education, physical and aesthetic development, and moral and civic education; and
2. the number of participating primary and secondary school students.

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 41)

Reply:

1. and 2.

It is proposed in the 2018 Policy Address that a new recurrent Life-wide Learning Grant with an annual provision of $900 million will be provided to public sector schools and schools under the Direct Subsidy Scheme (DSS) starting from the 2019/20 school year, to support them to take forward, on the present foundation, life-wide learning with enhanced efforts through organising more out-of-classroom experiential learning activities in various curriculum areas such as the humanities, STEM education, physical and aesthetic development, and moral and civic education, so as to provide students with more lively and enriched learning experiences as well as opportunities to apply what they have learnt. We are now collecting views from the school sector for formulating the guidelines on the use of the Grant. When setting the subsidy rates, we would not set a specific amount of resources to be allocated to a particular subject/curriculum area. Schools may, in the light of school

contexts and students' learning needs, flexibly use the Grant to organise life-wide learning activities for students. The Grant is to support public sector and DSS schools to promote life-wide learning, and is applicable to all students studying in these schools.

Question:

The Government has been vigorously promoting the Guangdong-Hong Kong-Macao Greater Bay Area (Greater Bay Area) and the Belt and Road initiative while appealing to the young people to grasp the opportunity to develop their careers in those regions. In this connection, would the Government please provide the following information:

1. The number of places for exchange activities in the Greater Bay Area and the Belt and Road countries provided by the Government in each of the past 3 years and the details of these activities.

2. The resources made available by the Government to help young people develop their careers in the Greater Bay Area as part of its effort to promote the Greater Bay Area.

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 43)

Reply:

In consultation with the HAB, our consolidated reply is as follows.

In response to the development of Guangdong-Hong Kong-Macao Greater Bay Area (Greater Bay Area) and the Belt and Road Initiative, the Education Bureau (EDB) has organised different Mainland exchange programmes for primary and secondary school students in recent years with diversified themes such as history, culture, economy, education, science and technology. With diversified learning activities, these programmes enable students to understand the characteristics and advantages of the cities concerned, thereby reflecting on the opportunities brought about by our country's development. The numbers of places offered for students to join the exchange programmes in the past 3 school years (from the 2016/17 to 2018/19 school years)are 39 500, 40 500 and 60 000 respectively.

Starting from the 2011/12 academic year, the EDB has implemented the Pilot Mainland Experience Scheme (the Scheme) to subsidise post-secondary students to participate in short-term internship or learning activities in the Mainland. All local institutions offering locally-accredited post-secondary programmes are eligible to join the Scheme. A non-means-tested subsidy is provided under the Scheme, and the respective number of post-secondary students receiving the subsidy in the past 3 academic years (from the 2016/17 to 2018/19 academic years) is 3 500, 3 300 and 3 300[1]. In addition, the Scheme for Subsidy on Exchange to "Belt and Road" Regions for Post-secondary Students was launched by the EDB in July 2016 to support financially needy students to take part in exchange activities outside Hong Kong. In the first 2 subsidised periods (i.e. July 2016 to August 2017 and September 2017 to August 2018), the respective number of students in receipt of the subsidy was 820 and 794.

At present, the Home Affairs Bureau (HAB) also implements various schemes outside schools to broaden young people's horizons and help them learn about the opportunities brought by the development of the Greater Bay Area and the Belt and Road Initiative. Details are set out below.

Through the Funding Scheme for Youth Exchange in the Mainland, the HAB sponsors non-governmental organisations (NGOs) to organise youth exchange activities in the Mainland for Hong Kong young people to enhance the awareness and understanding of their home country and foster their exchange with people in the Mainland. Moreover, through the Funding Scheme for Youth Internship in the Mainland (FSYIM), the HAB sponsors NGOs to organise youth internship projects in the Mainland (including Mainland cities in the Greater Bay Area) for Hong Kong young people to gain exposure to authentic work environment in the Mainland and deeper understanding of the employment market and the workplace culture there. The HAB has also launched, among others, the "Guangdong-Hong Kong-Macao Greater Bay Area Hong Kong Youth Internship Programme" under the framework of the FSYIM to provide our young people with additional internship places offered by enterprises and agencies in the Greater Bay Area. The internship places involve different professions and industries such as finance, law, commerce and information technology in order to expand their internship opportunities in the Greater Bay Area.

As for entrepreneurship, the HAB rolled out two new funding schemes under the Youth Development Fund, namely the "Funding Scheme for Youth Entrepreneurship in the Guangdong-Hong Kong-Macao Greater Bay Area" and the "Funding Scheme for Experiential Programmes at Innovation and Entrepreneurial Bases in the Guangdong-Hong Kong-Macao Greater Bay Area", in March this year. The former subsidises NGOs in Hong Kong to offer more specific entrepreneurial support and incubation services for Hong Kong young people to start their businesses in Hong Kong and/or Mainland cities of the Greater Bay Area, including helping them settle in entrepreneurial bases and providing them with a capital subsidy. The latter subsidises eligible NGOs in Hong Kong to organise short-term experiential programmes at the innovation and entrepreneurial bases in Mainland cities of the Greater Bay Area, with a view to enriching Hong Kong young people's understanding of the youth entrepreneurial bases in Mainland cities of the Greater Bay Area,

[1] Provisional figures

as well as the relevant policies and supporting measures on innovation and entrepreneurship in the Mainland. This will in turn help young people consider settling in the relevant entrepreneurial bases and starting businesses therein in the future. Besides, the HAB will inject $300 million into the Youth Development Fund to strength entrepreneurial support for Hong Kong young people.

With regard to the Belt and Road Initiative, the HAB has also supported NGOs in organising international exchange projects (including exchange activities in Belt and Road countries) targeted at Hong Kong young people through both the Funding Scheme for International Youth Exchange (FSIYE) and the previous Funding Scheme for Exchange in Belt and Road Countries, with a view to broadening young people's horizons and enabling them to have in-depth exchange with local youths there so as to foster "people-to-people bond". In order to enhance its effectiveness and to facilitate the submission of applications by NGOs, the Funding Scheme for Exchange in Belt and Road Countries has been incorporated into the FSIYE since 2018-19.

The respective numbers of participants in internship/exchange programmes in the Greater Bay Area and Belt and Road regions under the above schemes are tabulated below:

Year	Number of young participants in exchange programmes in Belt and Road regions	Number of young participants in internship/exchange programmes in the Greater Bay Area
2018-19 (Estimate)	Applications are being processed and hence no figures are yet available	5 300
2017-18	1 300	Breakdown information not readily available
2016-17	651	Breakdown information not readily available

Since the application period for the new funding schemes under the Youth Development Fund is from 22 March to 30 May, no information on the number of youth beneficiaries can be provided for the time being.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1594)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In 2019-20, the estimated recurrent expenditure on education, social welfare and healthcare accounts for about 60% of government recurrent expenditure, exceeding $250 billion in total. Recurrent expenditure in these 3 areas recorded a cumulative increase of 45% over the past 5 years. Furthermore, the Policy Address announced the injection of $20 billion into the Research Endowment Fund of the Research Grants Council under the University Grants Committee to provide sufficient funding. Education expenditure is clearly on the rise. However, in this year's Budget, education expenditure is no longer given a dedicated chapter but is instead subsumed under random topics such as "development of innovation and technology", "popular science education" and "promotion of research and development". In this connection, would the Government please inform this Committee of:

1. the provision for and details on supporting non-Chinese speaking primary and secondary students; and
2. the resources set aside for primary and secondary students' exchange programmes.

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 44)

Reply:

1. The support measures and the estimated expenditure for non-Chinese speaking (NCS) students in primary and secondary schools in the 2019/20 school year are tabulated at Annex A. It is also announced in the 2018 Policy Address that the Education Bureau (EDB) will, starting from the 2019/20 school year, provide a 5-tiered subsidy for kindergartens joining the kindergarten education scheme based on the number of NCS students admitted. The expenditure incurred by this new initiative is already subsumed under EDB's provision in the 2019-20 estimates.

2. In the 2019/20 school year, the estimated provision for exchange activities for primary and secondary students is about $115.81 million. EDB also provides a recurrent grant for each local public sector or Direct Subsidy Scheme (DSS) school (including special school) that has formed sister schools with its counterparts in the Mainland. The grant has been increased from $120,000 in the previous school year to $150,000 for the 2018/19 school year and the amount of grant will be adjusted in accordance with the movement of the Composite Consumer Price Index each year. Professional support will also be provided for these participating schools. Details of the exchange activities for primary and secondary students are set out at Annex B.

Educational support measures for non-Chinese speaking (NCS) students in the 2019/20 school year

Support measures	Estimated expenditure in the 2019/20 school year $ million
Starting from the 2014/15 school year, the additional funding to schools has been substantially increased and school-based professional support enhanced to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support for NCS students' learning of the Chinese language as well as the creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	290.7 Note 1
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0 Note 1
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays, and provide learning and teaching resources for those NCS students who have a late start in the learning of the Chinese language, and to organise workshops for experience sharing with teachers and workshops for parents of NCS students with a view to strengthening collaboration with parents of NCS students in the support for NCS students' learning of Chinese	3.4

Support measures	Estimated expenditure in the 2019/20 school year $ million
Summer Bridging Programme for NCS students in primary schools Starting from 2013, parents of NCS students could accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.	2.5
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	9.3
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that subsidised school candidates are only required to pay a "subsidised examination fee" on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE). Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level.	5.92 Note 2
Starting from the 2019/20 school year, additional resources will be provided under a 3-tiered structure to public sector ordinary primary and secondary schools admitting NCS students with special educational needs.	22.0
In the 2018/19 and 2019/20 school years, secondary schools admitting NCS students are provided with additional resources to support their NCS students in using Chinese to learn Chinese History.	15.0

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different funds, and a breakdown of expenditure by item is not available.

2. With the approval of the relief measures announced in the 2018-19 Budget to pay the examination fees for school candidates sitting for the 2019 HKDSE by the Finance Committee of the Legislative Council at the meeting on 18 May 2018, the "subsidised examination fee" of eligible NCS students sitting for the non-local Chinese Language examinations concerned in the 2018/19 school year is waived accordingly. The same proposal is made in the 2019-20 Budget and will be examined by the Finance Committee of the Legislative Council. The expenditure which may be incurred by the waiver is already covered in the estimates.

Annex B

Estimated provision for exchange activities for primary and secondary students in the 2019/20 school year

Exchange activities for primary and secondary students	**Estimated provision in the 2019/20 school year $ million**
Exchange activities for primary and secondary students include study trips to the Mainland and other countries that dovetail with the school curriculum, with the aim to widening their horizons.	115.81
EDB provides a recurrent grant and professional support for each local public sector or DSS school (including special school) that has formed sister schools with its counterparts in the Mainland. Having regard to their development needs, schools may arrange exchange activities (such as school visits, student activities, seminars, teaching demonstration, lesson evaluation, video conferencing and experience sharing) with their sister schools at the student, teacher and school management levels. Through exchange and collaboration, sister schools can expand their networks, enhance mutual understanding and communication, strengthen cultural interflows, and work together to enhance the quality of education.	In the 2018/19 school year, the recurrent grant is set at $150,000 and will be adjusted in accordance with the movement of the Composite Consumer Price Index each year. It is anticipated that 775 primary, secondary and special schools will apply for the Grant for the Sister School Scheme in the 2019/20 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3014)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Since the 2006/07 school year, the funding mode of implementing the School-based After-school Learning and Support Programmes in aided schools has been revised. There are two components, i.e. School-based Grant and Community-based Project Grant, which are given to schools and non-governmental organisations respectively to run after-school programmes for needy students. In this connection, would the Government advise this Committee of the following:

1. Regarding the School-based Grant, (i) the total provision for the Grant, (ii) the number of schools receiving the Grant, (iii) the number of activities that charge fees, (iv) the number of activities that charge no fees, (v) the number of primary school students benefitting from the activities; and (vi) the number of secondary school students benefitting from the activities in each of the past 5 school years, with a breakdown by District Council district; and

2. Regarding the Community-based Project Grant, (i) the total provision for the Grant, (ii) the number of non-governmental organisations receiving the Grant, (iii) the number of activities that charge fees, (iv) the number of activities that charge no fees, (v) the number of primary school students benefitting from the activities; and (vi) the number of secondary school students benefitting from the activities in each of the past 5 school years, with a breakdown by District Council district.

Asked by: Hon LEUNG Yiu-chung (LegCo internal reference no.: 1182)

Reply:

To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the School-based After-School Learning and Support Programmes (Programme) since the 2005/06 school year. With refinement introduced to the

Programme in the 2006/07 school year, schools and non-governmental organisations (NGOs) are provided with the School-based Grant (SBG) and Community-based Project (CBP) Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS).

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of CSSA or full grant of SFAS but identified by schools as needy (including students receiving half grant of SFAS, new arrivals, single parent households, etc.). Besides, eligible participating schools (i.e. having a utilisation rate of 80% or above of the provision in the previous year) have been provided with incentive funding under the SBG (which is calculated at an annual rate of $600 per eligible student vis-à-vis $400 in other schools and includes an additional 25% of the provision following the increase in the discretionary quota mentioned above). The annual provision of the Programme has been increased to about $240 million since then.

Activities under SBG and CBP Grant are free of charge for eligible students. The total provision for SBG and CBP Grant, number of participating schools/NGOs, number of activities under CBP Grant, and number of participating primary and secondary students by district from the 2013/14 to 2017/18 school years are at Annexes A to E respectively. Schools in receipt of SBG may arrange activities to cater for students' diverse needs. Schools are required to include the Programme in their Annual School Plan and set out the review findings in the School Report. Statistics on the number of activities under SBG are not available.

1. The numbers of students are rounded to the nearest 10.

2. Eligible students under the Programme are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. The discretionary quota of all participating schools in receipt of School-based Grant is 10% to benefit needy students (e.g. receiving half grant, new arrivals, single parent households, etc.) who do not receive CSSA or full grant.

3. For the 2013/14 school year, the total number of NGOs is 183. Since an NGO may organise after-school activities in different districts, the total number of NGOs by district may not tally with the total number under the Programme.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2581)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding kindergarten education, would the Government please provide the following information:

(a) Please list the number of non-Chinese speaking (NCS) students studying in local kindergartens and kindergarten-cum-child care centres in the past 3 school years by district, ethnicity and school type.

(b) It is mentioned in the Matters Requiring Special Attention in 2019-20 that the Government will enhance the subsidy by providing tiered subsidies for kindergartens based on the number of NCS students admitted. What are the details, and what are the amount and mode of funding for different tiers?

Asked by: Hon LUK Chung-hung (LegCo internal reference no.: 28)

Reply:

(a)
At present, all kindergartens (KGs) in Hong Kong are privately run. The KG sector, which comprises local and non-local KGs, can flexibly respond to parents' different demands and children's diverse needs. According to the information collected through the annual Student Enrolment Survey, in the past 3 school years (2016/17 to 2018/19), the number of ethnic minority students studying in local KGs by school type, district and ethnicity is tabulated at Appendix 1. The number of ethnic minority students does not necessarily equal to the number of non-Chinese Speaking (NCS) students since the definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

(b)

At present, for KGs joining the KG education scheme (Scheme), those admitting 8 or more NCS students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. Starting from the 2019/20 school year, a 5-tiered subsidy will be provided for KGs joining the Scheme according to the number of NCS students admitted. The subsidy for various tiers will be disbursed to schools in the form of cash grant. KGs admitting 1 NCS student will also receive the subsidy and the subsidy for the highest tier will be a double of the current level. Details are as follows:

Tier	Number of NCS students	Subsidy amount
1	1 to 4	New cash grant of $50,000 per year
2	5 to 7	New subsidy at a rate of 0.5 KG teacher
3	8 to 15	Subsidy at a rate of 1 KG teacher (i.e. the current arrangement)
4	16 to 30	Increased subsidy at a rate of 1.5 KG teachers
5	31 or more	Increased subsidy at a rate of 2 KG teachers

The number of ethnic minority students studying in local KGs by school type, district and ethnicity in the 2016/17 school year

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2582)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme),

(a) please provide the number of teachers that have participated in the Scheme since the 2017/18 school year and the expenditures involved by destination, duration of stay and subject/area of study;

(b) please advise how the effectiveness of the Scheme is assessed;

(c) please advise whether there is plan to extend the Scheme to cover serving primary teachers? If yes, what are the details? If no, what are the reasons?

Asked by: Hon LUK Chung-hung (LegCo internal reference no.: 30)

Reply:

(a) The Education Bureau (EDB) launched the "i-Journey" Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. Participating teachers will be given 7 to 9 weeks' paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research. In the 2017/18 and 2018/19 school years, the details of the Scheme are as follows:

2017/18 school year (First Batch of the Scheme)			
Destination	Duration of stay (days)	Subjects/Areas covered in the training	No. of teachers
Helsinki & Jyväskylä, Finland	35	Interdisciplinary Learning & Entrepreneurship Education	15
Melbourne, Australia	42	Catering for Students with Special Educational Needs (SEN)	20
Exeter, the United Kingdom	28	STEM Education	15

2018/19 school year (Second Batch of the Scheme)			
Destination	Duration of stay (days)	Subjects/Areas covered in the training	No. of teachers *Provisional figures
Turku, Finland	35	Interdisciplinary Learning & Entrepreneurship Education	15
Southampton, the United Kingdom	35	Assessment Literacy	15
Singapore	33	STEM Education	10

A budget of $28 million for 3 years has been earmarked for the Scheme. The total expenditure of the first batch of the Scheme is $7.49 million. Since the second batch of the Scheme has yet to finalise all expenditure items, the expenditure figures are unavailable at the present stage.

(b) The EDB will monitor the implementation of the Scheme at different stages and collect data and information to review its effectiveness. Upon completion of the three-year pilot Scheme, an evaluation report will also be compiled. For teachers participating in the first batch of the Scheme, they are now implementing the initiatives/research proposals drawn up for their schools. The EDB will scrutinise the reports submitted by these teachers and collect their views as well as those of school principals through questionnaire and interview in order to assess the effectiveness of the Scheme.

(c) The Scheme will be piloted over 3 years. Data and information collected during this period will be used by the EDB to form the basis of evaluation and inform future development.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1732)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Under Matters Requiring Special Attention in 2019-20, it is mentioned that the Bureau will continue to implement measures set out in the Fourth Strategy on Information Technology in Education for promotion of e-learning at schools. In this connection, please advise this Committee of the following:

(a) What is the progress of the phased provision of wireless network services and other supporting facilities for all public sector schools? What is the expected completion date? What is the expenditure required for completion of the work?

(b) How many e-textbooks are currently available for schools' adoption? What are the relevant subjects? How many of them are published under the e-Textbook Market Development Scheme?

(c) In the past year, how many new e-textbooks were made available for schools' adoption? What are the relevant subjects?

(d) What is the respective number of primary and secondary schools that used e-textbooks for teaching in the 2016/17, 2018/19 and 2019/20 school years? In what subjects that e-textbooks are used for teaching?

(e) In the past year, what measures did the Government take to encourage various enterprises and organisations to develop more e-textbooks?

(f) In the past year, what measures did the Government take to encourage schools and teachers to implement e-learning and use e-textbooks?

(g) Will the Government consider conducting a comprehensive review on the effectiveness of current implementation of e-learning in schools, so as to examine the difficulties that such stakeholders as students, teachers, schools and publishers experience in implementing e-learning and developing e-textbooks and take targeted measures to support the implementation of e-learning in schools? And, will the Government consider formulating policies for the long-term promotion of e-learning and setting a clear timetable and targets for improving schools' supporting hardware and software, enhancing teachers' training in e-learning, adjusting teaching philosophies and learning modes, and developing electronic teaching materials, so that there is a clearer direction for development of e-learning among all stakeholders?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 76)

Reply:

(a) Under the Fourth Strategy on Information Technology in Education (ITE4), the establishment of WiFi campus for some 1 000 public sector schools in Hong Kong have been basically completed in the 2017/18 school year. As at February 2019, about 99.5% of schools have completed the relevant works. The ITE4 involves a total non-recurrent funding of $105 million.

(b) and (c)
There are currently 57 sets of e-textbooks on the Recommended e-Textbook List (eRTL) for schools' adoption. When compared with last year, there is an addition of 8 sets of e-textbooks on particular subjects, namely English Language, General Studies, Chinese Language and Putonghua for primary levels, and Science for junior secondary levels. The rest of e-textbooks covered by eRTL are: Chinese Language, English Language, Mathematics, Putonghua, General Studies and Physical Education for primary levels, and Chinese Language, English Language, Mathematics, Geography, History, Computer Education, Life and Society and Science for junior secondary levels. Among these 57 sets of e-textbooks, 34 sets were developed under the e-Textbook Market Development Scheme (EMADS).

(d) Since the 2015/16 school year, the Education Bureau (EDB) has been conducting annual questionnaire survey on the use of e-textbooks in schools. Among the school respondents, 215 primary schools and 101 secondary schools in the 2016/17 school year, and 242 primary schools and 126 secondary schools in the 2017/18 school year purchased and used e-textbooks for one or more subjects. Since the survey for the 2018/19 school year will not be conducted until mid-2019, the number of schools using e-textbooks in the 2018/19 school year is not yet available. For the 2019/20 school year, as schools are still in the process of selecting textbooks, information pertaining to their adoption of e-textbooks is not available. At primary levels, e-textbooks are adopted mainly for teaching Chinese Language, English Language, Mathematics and General Studies; whereas at secondary levels, they are adopted mainly for Chinese Language, English Language, Mathematics, Information and Communication Technology, and subjects in the Science Education Key Learning Area (KLA) (e.g. Science at junior secondary levels) and Personal, Social and Humanities Education KLA (e.g. History, Geography, etc.).

(e) To encourage the development of e-textbooks, we have been accepting e-textbooks for different subjects for review by phases since late 2014. At present, e-textbook review is open to all subjects. The submission of e-textbooks for review has become a regular practice and there are 3 submission periods each year. e-Textbooks approved under the quality assurance mechanism will be listed on eRTL together with those developed under EMADS for adoption by schools. The EDB continues to communicate with the publishing industry to improve the technical and functional design of e-textbooks so as to create favourable conditions for the development and adoption of e-textbooks.

(f) The EDB will continue to strengthen teachers' professional capabilities in using e-textbooks and other e-learning resources through professional development programmes, learning communities and school visits, etc. In September 2018, a learning community was given the opportunity to try out e-textbooks and share the good practices and experiences gained from the tryouts, while other schools were given support in the proper use of electronic resources, including e-textbooks, in teaching, with a view to encouraging the implementation of e-learning by schools and teachers.

(g) The EDB will continue to engage e-textbook developers, publishers, information technology (IT) education experts, educators, school principals and frontline teachers in discussion and exchange on the standard requirements for future submission of e-textbooks for review. In addition, we conduct school visits for meeting with teachers to further understand the concerns and considerations of schools and teachers in adopting e-textbooks.

In parallel, the EDB launched the ITE4 to enhance schools' IT environment in terms of hardware, resources and teacher training, thus enabling schools to devise school-based plans for practicing e-learning in the light of their school contexts and development needs, so as to make good use of IT to enhance learning and teaching effectiveness. As part of EDB's efforts to promote e-learning, schools are encouraged to use the right technology in teaching and learning at the right time when considering whole school planning and use of IT for teaching. To continuously enhance various support measures under the ITE4, we have been reviewing the progress and effectiveness of relevant measures through different means such as school visits, questionnaire surveys and case studies. Schools hold a positive view towards e-learning and generally agree that it is conducive to strengthening the learning motivation and self-directed learning ability of students.

Ever evolving and diversified in nature, e-learning is an open and flexible mode of learning. There is no so-called best practice or standard which schools should follow. It is therefore, a school-based decision as to whether e-learning should be adopted across the board. The EDB will continue to keep in view schools' needs for support in e-learning.

Question:

The Education Bureau (EDB) and the Home Affairs Bureau (HAB) have jointly implemented the Opening up School Facilities for Promotion of Sports Development Scheme (the Scheme) effective from the 2017/18 school year. In this connection, please advise this Committee of the following:

(a) What was the actual expenditure that the EDB and the HAB spent on implementing the Scheme in the 2017/18 and 2018/19 school years? What is the amount of provision that the EDB and the HAB have earmarked for implementing the Scheme in the 2019/20 school year?

(b) What is the number of applications received from sports organisations for hiring school facilities in the 2017/18, 2018/19 and 2019/20 school years respectively? How many applications have been rejected? What are the reasons for rejection?

(c) To enable more sports organisatons to promote sporting culture through hiring available school facilities, what measures have been adopted to establish liaison and facilitate cooperation between sports organisations and schools for participation in the Scheme?

(d) Given that sports organisations participating in the Scheme are required to take out, on their own, insurance with adequate coverage (including third party risks insurance) for the programmes to be held by them in schools, would the Administration consider collectively purchasing the required insurance for such sports organisations or providing subsidies for them to purchase insurance so as to boost the incentives for sports organisations to participate in the Scheme? If yes, what are the details? If no, what are the reasons?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 91)

Reply:

(a) To implement the Opening up School Facilities for Promotion of Sports Development Scheme (the Scheme), the Education Bureau (EDB) and the Home Affairs Bureau (HAB) have provided $0.72 million and $3.27 million in subsidies to participating schools in the 2017/18 and 2018/19 school years respectively, and will earmark $4.35 million for the 2019/20 school year. The expenditure will be shared equally between the two bureaux.

(b) In the 2017/18 and 2018/19 school years, a total of 22 and 28 sports organisations submitted applications for hiring school facilities respectively, of which 7 and 3 could not successfully organise their activities in schools, mainly because the schools' available time slots did not fit the schedules of the sports organisations' proposed activities, or the facilities required by the sports organisations have already been hired out to other organisations. As the Scheme has yet to call for applications for the 2019/20 school year, the relevant information is unavailable.

(c) To take forward the initiative, the EDB has issued a circular memorandum with a list of eligible sports organisations provided by the HAB. The HAB has forwarded the information of school facilities available to the sports organisations for their consideration of hiring the facilities concerned and direct liaison with the schools. The EDB also encourages schools to actively approach different sports organisations to discuss arrangements for opening up their school facilities for sports activities in the light of school-based sports development needs, with a view to enhancing students' participation in physical activities and reviewing the promotion of sports development at schools. Schools have been actively participating in the Scheme since its launch. Having regard to the feedback collected from the participating schools and sports organisations of the first year, the EDB and the HAB have conducted a preliminary review of the Scheme and implemented corresponding enhancement measures in the 2018/19 school year to encourage a wider participation of schools and sports organisations in the Scheme. These measures include:

- increasing the amount of subsidy for schools from $20,000 to $30,000 for the first programme, and from $15,000 to $20,000 for each subsequent progamme. The cap of the subsidy is also raised from $80,000 to $130,000 for each school per school year;
- extending the Scheme to the 72 schools under the Direct Subsidy Scheme;
- increasing the number of eligible sports organisations from 81 to 117;
- updating the Guidelines for Levying Charges for Hire of Accommodation in Schools for government and aided schools, incorporating the eligible sports organisatons under the Scheme into the category of organisations eligible for reduced rates, and encouraging participating schools to charge sports organisations at the reduced rates specified in the guidelines issued by the EDB; and
- arranging briefing sessions for representatives of schools and sports organisations.

Currently, some 130 schools have indicated willingness to open up their facilities under the Scheme. In the 2017/18 school year, 12 schools opened up their facilities to 15 sports organisations for running 38 sports programmes in total. For the 2018/19 school year, there are so far 31 schools which have opened up their facilities to 25 sports organisations

for around 180 squad and young athletes training and district sports activities, demonstrating a significantly higher participation of the Scheme in its second year.

(d) To provide schools with appropriate protection, the EDB has taken out Block Insurance Policy (BIP) for aided schools and caput schools, which currently covers their public liability as the occupier and/or landlord and/or property owner. If a school hires out school premises/facilities to outside organisations for holding activities and a user gets injured due to the use of facilities during the hiring period, it is covered by the Public Liability Insurance section of the BIP provided that the injury is caused by the negligence of the school. As for the legal liability of outside organisations for accidents caused by their oversight when holding activities in schools, the BIP for schools is not applicable.

Participating sports organisations of the Scheme are required by the EDB to take out adequate insurance policy for the use of school facilities, including third party liability insurance, and include the school as the insured as appropriate to ensure adequate protection for staff, property and facilities in the school premises. Given the scale, type of sports, risks involved and number of participants of the programmes vary, and that the facilities hired are also different, it is more prudent and practical for sports organisations to procure suitable insurance separately having regard to the nature of the programmes organised.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1750)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown, by age group (under 30, 30-40, 41-50 and 51-60), of the wastage rates and numbers of primary and secondary school teachers in government, aided, private and Direct Subsidy Scheme schools in 2018/19.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 47)

Reply:

The respective number and wastage rate of primary and secondary school teachers in government, aided, caput (secondary only), private and Direct Subsidy Scheme (DSS) schools by age group in the 2018/19 school year are as follows:

Primary Schools (Government, Aided, Private and DSS)

2018/19 (Estimate)	Government		Aided		Private		DSS	
Age Group	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)
< 30	160	7.4	4 180	4.9	440	8.7	320	7.7
30 – 40	360	4.3	6 580	3.0	770	6.5	620	3.8
41 – 50	760	2.5	6 570	2.3	540	5.4	260	2.6
51 – 60	370	8.8	3 080	9.6	190	6.6	90	5.4

Secondary Schools (Government, Aided, Caput, Private and DSS)

2018/19 (Estimate)	Government		Aided		Caput		Private		DSS	
Age Group	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)
< 30	130	9.8	2 310	7.0	10	20.0	80	14.8	810	7.0
30 – 40	430	5.2	7 090	2.4	30	6.5	250	9.2	1 950	3.9
41 – 50	620	2.1	6 770	1.8	20	14.8	110	9.7	860	3.2
51 – 60	460	9.6	4 520	10.1	30	3.7	60	5.7	450	11.4

* Numbers are rounded to the nearest 10.

^ "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers concerned as at mid-September of the preceding school year. "Drop-out teachers" refer to the teachers who were serving in a school as at mid-September of the preceding school year but are no longer serving in any primary/secondary school as at mid-September in the current school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1751)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding cross-boundary students, would the Education Bureau advise of the following:

1. the number of cross-boundary students in the 2018/19 school year (by kindergarten student, primary school student and secondary school student);

2. the number of cross-boundary students applying for the central allocation in the 2018/19 school year;

3. the number of school places in the school nets exclusively for cross-boundary students in the 2018/19 school year (by school net);

4. the number of schools operating classes for Hong Kong students under the Scheme of Classes for Hong Kong Students jointly implemented by Hong Kong and Shenzhen, as well as the school fees and enrolments in the 2018/19 school year; and

5. to the understanding of the Education Bureau, the notable impact of the new admission policy for Hong Kong students implemented by Shenzhen since 2017 on schools in Hong Kong. For instance, whether cross-boundary students originally studying in Hong Kong have been drawn back to Shenzhen for schooling?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 46)

Reply:

1. The number of cross-boundary students (CBS) by school level in the 2018/19 school year is tabulated at Annex A.

2. 2 213 CBS participated in the Central Allocation of the Primary One Admission (POA) 2018 for admission to Primary 1 (P1) in the 2018/19 school year.

3. To alleviate the impact of increasing number of CBS on the demand and supply of public sector primary school places in individual districts, notably the North District, the Education Bureau (EDB) has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the POA. In brief, parents of applicant children who intend to cross the boundary to attend schools in Hong Kong are not required to choose any school net as the applicant child's POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation.

   The number of P1 places exclusively for CBS for the Central Allocation of POA 2018 (for admission to P1 in the 2018/19 school year) by school net is tabulated at Annex B.

4. Under the "Co-operation Agreement on Operating Classes for Hong Kong Students in Shenzhen Schools" signed between the EDB and the Shenzhen Municipal Education Bureau (SZEDB), SZEDB has been implementing the Scheme of Classes for Hong Kong Students (the Scheme) in "minban" schools in Shenzhen. In the 2018/19 school year, 11 "minban" schools are offering Hong Kong curriculum classes to some 4 000 Hong Kong students residing in Shenzhen under the Scheme. Based on information available, the tuition fees range roughly between RMB 11,600 and RMB 48,000 per year.

5. Starting from 2017, SZEDB allows eligible Hong Kong students to attend public schools in Shenzhen through the Primary 1 and Secondary 1 points system. Based on information available, the new policy implemented by SZEDB since 2017 has not created notable impact on schools in Hong Kong. Among schools that admit more CBS, there has not been any significant drop in the number of students in the 2017/18 and 2018/19 school years. EDB will continue to monitor closely the demand for and supply of school places and ensure steady development of schools.

Annex A

Number of CBS by school level in the 2018/19 school year

School Level	Number of CBS
Kindergarten (including kindergarten-cum-child care centre)	2 031
Primary School	20 188
Secondary School	5 567

Note: Figures are based on the annual survey on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts in September 2018.

Annex B

Number of P1 places on Choice of Schools Lists for Central Allocation for CBS in POA 2018 by School Net (For admission to P1 in the 2018/19 School Year)

POA School Net	Number of P1 places
43	50
64	50
65	125
66	450
70	289
71	282
72	238
74	72
80	139
81	129
83	14
84	168
98	150

Note:

1. In 2018, applicant children who intended to cross the boundary to attend schools in Hong Kong were provided with the Choice of Schools List for Central Allocation, which consists of all schools in the 8 school nets close to the boundary control points (i.e. Tuen Mun: 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long: 72 (Tin Shui Wai), 74 (Yuen Long East); the North District: 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po: 84) and individual schools in other districts having CBS and are ready and willing to support CBS.

2. Figures refer to the position as at January 2018 when the relevant 2018 Choice of Schools List for Central Allocation was compiled to facilitate parents in making school choices under Part B of the Central Allocation of POA 2018.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1753)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Education Bureau (EDB) advise on the following:

1. the expenditure on managing all vacant school premises in the territory in the 2018/19 school year;

2. the estimated expenditure on managing all vacant school premises in the territory for the 2019/20 school year;

3. as at February 2019, the number of vacant school premises in the territory managed by the EDB which are earmarked/retained for educational uses; and

4. further to 3. above, the plan and progress of reusing the aforesaid vacant school premises. If they are not yet put into use, what are the reasons?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 34)

Reply:

It has all along been the Education Bureau (EDB)'s policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacant school premises, the EDB will consider factors including the size, location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use and whether the premises is needed to be reallocated for school or other educational use. Once the EDB confirms that the VSP are no longer required by the EDB for reallocation for school use, the EDB would inform the Planning Department (PlanD) and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) for the PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism. According to the mechanism, the EDB is allowed to retain VSP for school

use. However, if the EDB intends to use VSP for other educational uses, the EDB needs to put forward its proposed use with justification to the PlanD for assessment and may need to compete with other government departments on use of such VSP. As at end-February 2019, there are 10 VSP under the EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by the EDB).

The EDB would take into account a basket of factors and periodically assess the possible educational use of VSP under the EDB's purview. There is a need to earmark/retain some VSP to cater for the anticipated future demand for school places and to allow flexible arrangements required in view of the uncertainty involved. In addition, the EDB needs VSP to flexibly address various and changing needs, including re-provisioning of existing schools to improve their learning and teaching environment; decanting use by schools undergoing in-situ redevelopment or extension works; allocating school premises for operation of international schools, etc. It is therefore inappropriate and impracticable to impose any fixed target on the length of the vacancy period of a VSP or the number of VSP to be retained. Nevertheless, with the policy objective of putting VSP into gainful use in mind, the EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within the EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, Home Affairs Department, LandsD, PlanD and Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

According to the EDB's prevailing school allocation mechanism, once a vacant/to-be-vacant premises or a reserved school site is confirmed to be required for allocation for school use, the EDB will normally invite application from all eligible organisations in the territory through a School Allocation Exercise (SAE) and make relevant announcement through press release and on its website. The SAE is generally conducted on a competitive basis amongst the applicant bodies. When assessing the applications, quality of education is the prime consideration of the School Allocation Committee comprising official and non-official members. Other factors, including operation track record and condition of existing school premises (where applicable), the school proposal, etc., will also be considered.

The EDB is responsible for the management of VSP located on sites allocated to the EDB, including those that the PlanD has been informed of under the central clearing house mechanism but that the LandsD has requested the EDB to continue the management until the next users have been identified and taken over the land. In 2018-19 to 2019-20, the estimated expenditure incurred by the EDB for the management of VSP are $1.229 million and $1.966 million respectively which mainly include security patrol and inspections, pest control, removal of litter, as well as cleansing and weeding. The increase of around $0.74 million in the estimate for 2019-20 over 2018-19 is mainly due to the increased expenditure on the enhanced mosquito control and prevention work, and the improved benefits (such as contractual gratuity and statutory holiday pay) for contract staff.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1755)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1) Would the Education Bureau (EDB) please provide the date, aims and mode of establishment of the following funds, as well as the balance, amount of government injection, investment or other income and total expenditure of these funds in 2015-16, 2016-17 and 2017-18? Please also provide the above information of those funds, if any, that are not included in the list but under the purview of EDB.

1. Education Development Fund
2. HKSAR Government Scholarship Fund
3. Language Fund
4. Quality Education Fund
5. Self-financing Post-secondary Education Fund
6. Research Endowment Fund
7. Qualifications Framework Fund
8. Gifted Education Fund

2) Regarding the funds under the purview of EDB, are there any measures to assess and monitor the deployment of funds and indicators to evaluate the effectiveness of the funds? If yes, what is the latest situation? If no, what are the reasons?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 3)

Reply:

Currently, there are 9 funds under the purview of the Education Bureau (EDB). They are:

1. Education Development Fund
2. HKSAR Government Scholarship Fund
3. Language Fund
4. Quality Education Fund
5. Self-financing Post-secondary Education Fund
6. Research Endowment Fund
7. Qualifications Framework Fund
8. Gifted Education Fund
9. Student Activities Support Fund

Each fund is established as a trust fund with the Permanent Secretary for Education Incorporated as its trustee. The year and aims of establishment of the funds, balance/amount of government injection/investment or other income/total expenditure in the 2015/16, 2016/17 and 2017/18 school years, mechanisms for assessing/monitoring the deployment of funds, indicators for evaluating their effectiveness, and the current situation are set out in **Annex**.

Annex

Name of Fund	Year of Establishment	Aims of Establishment	School Year	Year-end Balance $ million	Injection $ million	Income $ million	Expenditure $ million	Mechanism for Assessing and Monitoring the Deployment of Funds and the Current Situation	Indicators for Evaluating the Effectiveness of the Funds and the Current Situation
Education Development Fund	2004	To provide differentiated school-based professional support (SBPS) for building schools' capacity in taking forward the education reform initiatives.	2015/16	325	-	4	91	The Advisory Committee on the Fund, which comprises representatives of school councils, frontline teachers, principals, academics and community members, advises the Government on the operation of the Fund and the implementation of SBPS programmes. A cross-divisional working group, the School Development Key Group, has been set up within the EDB to oversee and monitor the delivery of SBPS programmes on a regular basis.	The EDB conducts questionnaire surveys and/or focus interviews annually to evaluate the effectiveness of SBPS programmes.
			2016/17	224	-	3	104		
			2017/18	136	-	2	90		

Name of Fund	Year of Establishment	Aims of Establishment	School Year	Year-end Balance $ million	Injection $ million	Income $ million	Expenditure $ million	Mechanism for Assessing and Monitoring the Deployment of Funds and the Current Situation	Indicators for Evaluating the Effectiveness of the Funds and the Current Situation
HKSAR Government Scholarship Fund	2008	To attract outstanding local and non-local students to pursue publicly-funded higher education in Hong Kong and to stay in Hong Kong after graduation; to recognise the achievements of outstanding local and non-local students, with a view to attracting them to stay in Hong Kong after graduation; and to promote the further development of Hong Kong as a regional education hub and enhance Hong Kong's competitiveness in the long run.	2015/16	2,282	-	124	104	To be assessed/monitored by participating institutions[(1)] (according to the stipulated selection criteria of the Fund) and by the Steering Committee of the Fund. The Steering Committee of the Fund advises the trustee on the overall strategies and policies for management and development of the Fund.	The comprehensiveness of the awards, and the number of students benefited.

			2017/18[(2)]	2,276	1,200	65	35	implementation of the QF, and the scope and parameters of the schemes, initiatives and activities to be covered by the QF Fund.	quality assurance body. Indicators for evaluating the effectiveness of the QF Fund mainly include the number of organisations and practitioners benefited.

[(2)] In March 2016 and March 2018, the seed capital of $1 billion and $1.2 billion were respectively injected into the QF Fund and placed with the Exchange Fund for investment. Since it takes time for the QF Fund to generate and accumulate investment income to meet the funding requirements, in the interim before 2017, we had been deploying the funds under the non-recurrent item of Qualifications Framework Support Scheme (QFSS) under Head 156 EDB for meeting the expenditure of the initiatives under the QF Fund. The approved commitment for QFSS was exhausted in 2017 and we have started using the investment income generated from the QF Fund in the same year to meet the expenditure of various initiatives.

Name of Fund	Year of Establishment	Aims of Establishment	School Year	Year-end Balance $ million	Injection $ million	Income $ million	Expenditure $ million	Mechanism for Assessing and Monitoring the Deployment of Funds and the Current Situation	Indicators for Evaluating the Effectiveness of the Funds and the Current Situation
Gifted Education Fund	2016	To support the development of gifted education in Hong Kong through the Hong Kong Academy for Gifted Education (HKAGE) and other worthwhile initiatives, schemes and programmes.	2016/17	810	800	10	-	The Advisory Committee on Gifted Education advises the Secretary for Education on the operation and management of the Fund and the development of gifted education.	A primary aim of the Fund is to provide resources for supporting the operation of the HKAGE. The HKAGE is required to set out its work targets in the annual business plan, and conduct a year-end evaluation of the implementation effectiveness of the plan. Every year, the HKAGE is required to submit its annual report to the EDB, including the accounts audited by certified public accountants. The annual reports are uploaded to the HKAGE website for public information.
			2017/18	824	-	32	18		

Name of Fund	Year of Establishment	Aims of Establishment	School Year	Year-end Balance $ million	Injection $ million	Income $ million	Expenditure $ million	Mechanism for Assessing and Monitoring the Deployment of Funds and the Current Situation	Indicators for Evaluating the Effectiveness of the Funds and the Current Situation
Student Activities Support Fund[(3)]	2019	To support students with financial needs to participate in life-wide learning activities for whole-person development.	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Schools are required to set out the income and expenditures in their annual audited accounts to be submitted to the EDB. Also, officers of the EDB will understand the schools' deployment of the grant, evaluate its effectiveness and make recommendations as necessary through different means such as school visits, day-to-day contacts with school, etc.	The EDB will, in consultation with the school sector, set up a review mechanism in due course.

[(3)] In March 2019, the seed capital of $2.5 billion was injected into the Student Activities Support Fund and placed with the Exchange Fund for investment. The first financial statement of the Fund will be prepared after the close of the 2018/19 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0624)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

For the 2018/19 academic year, would the Education Bureau provide this Committee with the following information:

(a) the total number of students and the number of local non-Chinese speaking (NCS) students who will complete Secondary 6 education;

(b) the total number of students and the number of local NCS students enrolled in publicly-funded and self-financing programmes awarding a bachelor's degree, higher diploma, associate degree, diploma of foundation studies, Vocational Training Council Diploma of Vocation Education, Vocational Training Council Diploma or Vocational Training Council Certificate (with a breakdown by funding, institution and programme type);

(c) the average amount of tuition fee that each local NCS student has to pay in order to complete a publicly-funded or self-financing programme awarding a bachelor's degree, higher diploma, associate degree, diploma of foundation studies, Vocational Training Council Diploma of Vocation Education, Vocational Training Council Diploma or Vocational Training Council Certificate (with a breakdown by funding, institution and programme type);

(d) the average annual salary of local NCS students who have completed a programme awarding a Vocational Training Council Diploma of Vocation Education, Vocational Training Council Diploma or Vocational Training Council Certificate; and

(e) the financial resources allocated to different post-secondary institutions by the Government for promoting Chinese learning among NCS students (to achieve vocational Chinese level).

Asked by: Hon MAK Mei-kuen, Alice (LegCo internal reference no.: 30)

Reply:

(a) The number of students attending Secondary 6 in public sector schools and Direct Subsidy Scheme schools offering the local curriculum and the number of non-Chinese speaking (NCS) students attending Secondary 6 in these schools in the 2018/19 school year are set out at **Annex 1**.

(b) The total number of students enrolled in full-time locally-accredited programmes not funded by the University Grants Committee (UGC) in the 2018/19 academic year is set out at **Annex 2.** For self-financing institutions, we do not collect information on local NCS students.

The student intake (including local NCS students) of full-time UGC-funded programmes in the 2018/19 academic year is set out at **Annex 3**. The number of students and NCS students intake in full-time and part-time subsidised programmes offered by the Vocational Training Council (VTC) in the 2018/19 academic year is set out at **Annex 4** (with figures covering both local and non-local NCS students).

(c) The same level of tuition fee applies to all local students pursuing publicly-funded programmes, regardless of whether they are NCS students. The tuition fees for full-time publicly-funded programmes in the 2018/19 academic year are as follows:

Type of programme	**Annual tuition fees in the 2018/19 academic year**
Undergraduate	$42,100
Sub-degree#	$15,040 - $31,575
Diploma of Foundation Studies	$20,500
Diploma of Vocational Education*	$20,500

The tuition fees for UGC-funded programmes at sub-degree level are pegged at 75% of those at degree level, except for those offered by the Education University of Hong Kong, which currently charges each student $15,040 per year for most of its programmes.

* Secondary 3 to 5 school leavers enrolled in Diploma of Vocational Education programmes are exempted from paying tuition fees provided that they have not yet completed all 12 years of free education.

The of annual tuition fees for self-financing programmes are as follows:

Type of programme	**Range of annual tuition fees 2018/19 academic year**
Undergraduate (including top-up degree)	$54,900 - $292,514
Sub-degree (including associate degree and higher diploma)	$42,000 - $90,990
Diploma of Foundation Studies	$27,000
Diploma of Vocational Education	Not applicable (Note)

Note: Self-financing Diploma of Vocational Education programmes are not offered by VTC.

(d) The VTC does not have information on the average annual salary of local NCS graduates.

(e) Post-secondary institutions enjoy a high level of autonomy. They can decide how the block grant or recurrent subvention provided by the Government (if any) is to be utililised within the subvention ambit, including how to cater for the diverse learning needs of different types of students. Hence, we are not able to provide the actual amount of expenditure on supporting these students in Chinese learning.

Number of students and NCS students attending Secondary 6 in public sector schools and Direct Subsidy Scheme schools offering the local curriculum in the 2018/19 school year

	2018/19 school Year
Number of Secondary 6 students [Note]	47 998
Number of NCS students attending Secondary 6	1 218

Notes:

1. Figures refer to the number of students attending Secondary 6 in the specified school year. The EDB does not have complete data on Secondary 6 graduates.

2. Figures refer to the position as at September of the specified school year.

3. Figures cover students attending Secondary 6 in public sector schools and Direct Subsidy Scheme schools offering the local curriculum. Figures do not include students in special schools.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2367)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau allocates funding to schools admitting 10 or more non-Chinese speaking (NCS) students ranging from $800,000 to $1,500,000 per year to implement the "Chinese Language Curriculum Second Language Learning Framework". Schools can adopt different modes like pull-out teaching, split-class/group learning, after-school consolidation, increasing Chinese Language lesson time, cross-curricular learning, allocating more teachers or teaching assistants to a class, etc. Schools with less than 10 students may apply for an additional funding of $50,000 to offer after-school support programmes in Chinese learning. Schools with additional funding are required to submit detailed reports at the end of each school year. In this connection, will the government inform this Council of:

(1) Number of schools and additional funding received according to the funding model by government school, aided school, direct subsidy school in the school years 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19:

School year	Number of NCS Students	Total funding provided (primary schools)	No. of Primary schools				Total funding provided (secondary schools)	No. of Secondary schools			
			government school	aided school	direct subsidy school	Total no. of school		government school	aided school	direct subsidy school	Total no. of school
2014/15	Less than 10										
	10 – 25										
	26 – 50										
	51 – 75										
	76 – 90										
	91 or more										

2015/16	Less than 10										
	10 – 25										
	26 – 50										
	51 – 75										
	76 – 90										
	91 or more										
2016/17	Less than 10										
	10 – 25										
	26 – 50										
	51 – 75										
	76 – 90										
	91 or more										
2017/18	Less than 10										
	10 – 25										
	26 – 50										
	51 – 75										
	76 – 90										
	91 or more										
2018/19	Less than 10										
	10 – 25										
	26 – 50										
	51 – 75										
	76 – 90										
	91 or more										

(2) The number of schools without NCS students by types of school, i.e. government school, aided school, direct subsidy school.

(3) What are the measures ensuring the accountability and transparency of the funding? Is the evaluation report accessible to the public? If yes, please provide the link to these reports; if no, why not.

(4) Number of NCS and number of ethnic minorities in kindergarten, primary and secondary schools. The number of NCS students in each stage according to the Learning Framework.

(5) The number of kindergarten, primary and secondary schools with 1 to 9 NCS students; those that received NCS funding, and the amount of funding involved disaggregated by government school, aided school, direct subsidy school in the school years 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19.

(6) Use of the funding with details as follows in 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19:

Funding use	Actual expenditures	Number of primary schools	Number of secondary schools
Hiring Chinese Language teachers whose main duty is teaching Chinese language to NCS students			
Hiring Chinese Language teachers whose main duty is general teaching			
Hiring Chinese Language teachers whose main duty is developing school-based curricula/teaching resources			
Hiring teaching assistants whose main duty is providing in-class support to NCS students and supporting teachers' teaching in Chinese Language lessons			
Hiring teaching assistants whose main duty is assisting teachers in designing teaching activities and creating teaching resources (including e-learning resources)			
Hiring teaching assistants/teachers whose main duty is after-school support.			
Hiring teaching assistants whose main duty is supporting NCS students during recess or after school.			
Hiring teaching assistants whose main duty is assisting teachers in recruiting teaching assistants who are mainly responsible for the liaison with the parents of NCS students.			
Hiring ethnic minority assistants whose main duty is communicating with the parents of NCS students, translating school notices, assisting in explaining school policies and administrative arrangements, etc.			

Hiring ethnic minority assistants whose main duty is collaborating with teachers in Chinese Language lessons.			
Hiring ethnic minority assistants whose main duty is helping teachers organise inclusion activities.			
Purchasing teaching resources			
Procuring professional services			
Major initiatives to create an inclusive learning environment			
Others (please specify)			

(7) Tabulate the various types of support measures for NCS students and the respective number of schools finding such mode effective from 2014/15 to 2018/19 school years.

Intensive learning and teaching mode	Number of primary schools adopting such mode	Number of primary schools finding such mode (most) effective	Number of secondary schools adopting such mode	Number of secondary schools finding such mode (most) effective
Pull-out teaching				
Split-class/group learning				
After-school consolidation[1]				
Increasing Chinese Language lesson time				
Cross-curricular learning				
Allocating more teachers or teaching assistants to a class				
Others (please specify)				

[1] Excluding after-school University Student Support Programmes

Asked by: Hon MO Claudia (LegCo internal reference no.: 30)

Reply:

(1) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, they may apply for an additional funding of $50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. From the 2014/15 to 2018/19 school years, the respective number of public sector schools and DSS schools offering the local curriculum and admitting 1 to 9 NCS students is 414, 410, 382, 387 and 391, among which 58, 83, 179, 213 and 213 (provisional) schools have been provided with the above-mentioned funding. In these 5 school years, the number of schools admitting 1 to 4 NCS students accounted for about 80% of the schools admitting 1 to 9 NCS students, and they seldom applied for the aforementioned additional funding to provide after-school support programmes in learning Chinese for NCS students. The number of schools provided with the above-mentioned funding (with breakdown by school funding mode and number of NCS students ranging from "less than 10", "10 to 25", "26 to 50", "51 to 75", "76 to 90" and "91 or above") and the expenditure from the 2014/15 to 2018/19 school years are tabulated at Annex A.

(2) In the 2018/19 school year, the respective number of government, aided and DSS schools with no NCS students is 20, 254 and 21 (figures refer to the position as at September of the respective school year).

(3) The above-mentioned additional funding is provided to eligible schools for specific purposes, i.e. supporting NCS students' learning of the Chinese language and creating an inclusive learning environment in schools. In this connection, EDB has issued a circular and letters to schools elucidating the policy intent of and guidelines on the use of the funding. In each school year, schools provided with the additional funding are required to submit to EDB their school plans and reports, which have been endorsed by the School Management Committee/Incorporated Management Committee, on the use of the funding and the measures to support NCS students in learning Chinese. To ensure the proper use of the additional funding by schools, EDB will examine the annual school plans on the use of funding of the schools concerned, and verify them

against their annual school reports. EDB will also conduct supervisory visits to the schools to monitor the use of funding. Besides, feedback will be collected from major stakeholders (including principals, co-ordinators of educational support measures for NCS students, Chinese Language teachers teaching NCS students, parents of NCS students, NCS students and non-governmental organisations where appropriate) of schools admitting 10 or more NCS students by means of questionnaires, interviews, etc., so as to review the implementation of support measures. We will report to the Panel on Education of the Legislative Council the progress of the implementation of support measures in a timely manner. The relevant report of June 2017 is available at the following link: https://www.legco.gov.hk/yr16-17/english/panels/ed/papers/ed20170626cb4-1165-1-e.pdf

Moreover, a separate column on "Education Support for NCS Students" has been newly added in the School Profiles starting from the 2018/19 school year. Public sector schools and DSS schools offering the local curriculum and provided with the additional funding are required to specify that they provide additional support, including after-school support, for their NCS students to facilitate their learning of the Chinese language. EDB will continue to encourage schools to provide more details of their school-based support measures for NCS students in their School Profiles and/or on school webpages for the reference of parents of NCS students.

(4) The number of NCS, ethnic minority (EM) and NCS EM students studying in kindergartens (KGs), primary schools and secondary schools in the 2018/19 school year is tabulated at Annex B. The "Learning Framework", which is developed from the perspective of second language learners, aims to provide schools with a flexible framework and guidelines facilitating schools to formulate learning objectives and learning progress in accordance with their school contexts and students' needs. The number of NCS students as assessed by schools to have attained different learning stages based on the "Learning Framework" is not available.

(5) The respective number of KGs admitting 1 to 9 NCS students from the 2014/15 to 2018/19 school years is 343, 351, 361, 340 and 351 (figures refer to the position as at September of the respective school years, and cover students studying in KG-cum-child care centres while those in local and non-local KGs are also included). The respective number of public sector primary schools and DSS primary schools offering the local curriculum and admitting 1 to 9 NCS students is 221, 217, 207, 203 and 205, while the respective number for secondary schools is 193, 193, 175, 184 and 186. Of these schools, the breakdown of number of schools provided with the additional funding and the amount of funding by government, aided and DSS schools are at Annex A.

The KG education scheme (Scheme) has been implemented starting from the 2017/18 school year. KGs joining the Scheme and admitting 8 or more NCS students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. In the 2017/18 school year, about 150 KGs received the additional grant and the expenditure involved was about $54 million. In the 2018/19 school year, as at February 2019, over 150 KGs have been provided with

the additional grant. As the grant for supporting NCS students is open to application throughout the school year, the number of KGs in receipt of the grant and the expenditure involved may vary during a school year. The estimated annual expenditure is about $61 million.

(6) From the 2014/15 to 2018/19 school years, the amount of funding deployed by the primary and secondary schools provided with the additional funding for appointment of additional teachers, appointment of teaching assistants, appointment of EM assistants, purchase of learning and teaching resources, procurement of professional services (including after-school extended Chinese language learning activities) and organising activities to promote an inclusive environment in schools is tabulated at Annex C. According to the reports on the usage of the above-mentioned funding for the 2014/15 to 2017/18 school years, as well as the plans on the usage of funding in the 2018/19 school year submitted by the schools concerned, the schools have adopted a holistic approach in resource planning and deployment of staff to support NCS students' effective learning of the Chinese language. To quote appointment of teachers as an example, the additional teachers have been/are appointed by the schools concerned to teach Chinese language to NCS students (in class and after school as appropriate), to spare the experienced teachers to adapt the school-based Chinese Language curriculum and/or learning and teaching materials to cater for the needs of their NCS students, etc. Teaching assistants, similarly, have been/are generally employed to support Chinese Language teachers and NCS students during lessons and after school as appropriate, and to assist teachers in adaptation of and preparation of learning and teaching materials. Some have also been assigned to liaise with parents of NCS students to strengthen home-school co-operation. EM assistants have been/are normally employed to help strengthen communication with parents of NCS students, such as translating and/or explaining school letters/notices to help parents of NCS students understand more about school policies and administrative arrangements, providing support to individual NCS students as appropriate in class, and organise activities for the creation of an inclusive learning environment in schools. Further breakdown of the usage of funding by specific duties of the additional teachers, teaching assistants and EM assistants as requested is not available.

(7) According to the plans on the usage of the above-mentioned funding submitted by the primary and secondary schools concerned, these schools will make reference to the learning progress of their NCS students at different learning stages based on the "Learning Framework" and adjust the learning targets and teaching strategies, including adoption of different intensive learning and teaching modes like pull-out learning, split-class/group learning, after-school consolidation, etc. as appropriate. The intensive learning and teaching modes adopted by schools provided with the additional funding mentioned in paragraph (1) above from the 2014/15 to 2018/19 school years are tabulated at Annex D. Schools will arrange different intensive learning and teaching modes having regard to the learning progress and needs of the NCS students, and that a combination of 2 or more intensive learning and teaching modes have been adopted by most schools. Although the intensive learning and teaching modes adopted may vary between school years and schools, we believe the ones adopted are considered most effective by the schools concerned.

Annex A

Number of schools provided with the additional funding (by school funding mode and number of non-Chinese speaking (NCS) students ranging from "less than 10", "10 to 25", "26 to 50", "51 to 75", "76 to 90" and "91 or above") and the expenditure from the 2014/15 to 2018/19 school years

School year	No. of NCS students	Expenditure (Primary) ($ million)	Primary schools				Expenditure (Secondary) ($ million)	Secondary schools

	91 or above	42.00	3	21	4	28	31.50	1	10	0	10	21

Notes:

1. Figures include NCS students in public sector schools and DSS schools offering the local curriculum, but exclude students in special schools.
2. Figures for the 2018/19 school year (including the number of schools and expenditure) are provisional.

Annex B

Number of Non-Chinese speaking (NCS), ethnic minority (EM) and NCS EM students studying in kindergartens (KGs), primary schools and secondary schools in the 2018/19 school year

Level	Grade	Number of NCS students	Number of EM students
Pre-primary (K1 to K3)	K1 to K3	12 968	10 922

Notes:

1. Figures refer to the position as at September of the respective school year.
2. Figures include the K1, K2 and K3 students studying in KG-cum-child care centres and those in local and non-local KGs are also included.
3. Figures for EM students include those EM students with Chinese as the spoken language at home.

Level	Grade	Number of NCS students	Number of NCS EM students
Primary (P1 to P6)	P1 to P6	9 849	9 189
Secondary (S1 to S6)	S1 to S6	9 481	8 600

Notes:

1. Figures refer to the position as at September of the respective school year.
2. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students and figures for NCS students include those students whose ethnicity is Chinese but being categorised as non-Chinese speaking based on their spoken language at home.
3. Figures for NCS EM students do not include those students whose ethnicity is not Chinese but with Chinese as spoken language at home. The two sets of figures are not comparable.
4. Figures include students studying in public sector schools and Direct Subsidy Scheme schools, but exclude those in special schools.

Annex C

Usage of funding by schools provided with the additional funding from the 2014/15 to 2018/19 school years

Use of funding	2014/15 school year			2015/16 school year			2016/17 school year			2017/18 school year			2018/19 school year		
	Expenditure ($ million)	No. of primary schools	No. of secondary schools	Expenditure ($ million)	No. of primary schools	No. of secondary schools	Expenditure ($ million)	No. of primary schools	No. of secondary schools	Expenditure ($ million)	No. of primary schools	No. of secondary schools	Expenditure ($ million)	Estimated no. of primary schools	Estimated no. of secondary schools
Appointment of additional teachers	99.53	102	76	127.46	114	96	150.68	136	109	147.15	127	118	170.47	135	118

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2368)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

a. the number of primary and secondary schools offering Chinese as the primary medium of instruction for non-language subjects, the total number of students, the number of non-Chinese speaking (NCS) students, and the number of ethnic minority students studying in these schools respectively in the school years 2015/16, 2016/17, 2017/18 and 2018/19;

b. the number of primary and secondary schools offering English as the primary medium of instruction for non-language subjects, the total number of students, the number of NCS students, and the number of ethnic minority students studying in these schools respectively in the school years 2015/16, 2016/17, 2017/18 and 2018/19;

c. the number of primary and secondary schools which received additional funding to offer English as the primary medium of instruction for non-language subjects and the related allocated funding in the school years 2015/16, 2016/17, 2017/18 and 2018/19;

d. the number of primary and secondary schools which received additional funding to use Putonghua as the medium of instruction in Chinese language classes (PMIC) and the related allocated funding in the school years 2015/16, 2016/17, 2017/18 and 2018/19;

e. among the primary and secondary schools referenced in (a), the number of schools that use PMIC, and the number of NCS students studying in these schools respectively in the school years 2015/16, 2016/17, 2017/18 and 2018/19;

f. among the primary and secondary schools referenced in (b), the number of schools that use PMIC, and the number of NCS students studying in these schools respectively in the school years 2015/16, 2016/17, 2017/18 and 2018/19;

g. the respective number of primary and secondary schools implementing PMIC, those that received government subsidies for PMIC implementation, the corresponding amount of subsidies, and the percentage of those with NCS students in the school years 2015/16, 2016/17, 2017/18 and 2018/19;

h. In the past years, the EDB's response has been that it advocates the use of "mother tongue", meaning Chinese, as the principal medium of instruction in primary education; and there is no longer bifurcation of public sector secondary schools into Chinese-medium and English-medium schools since 2010/2011. Seeing that the effectiveness of the "Chinese Language Curriculum Second Language Learning Framework" remains to be proven and there is a lack of support in NCS students' learning in other subjects, the MOI of individual subjects is of crucial interest to NCS students and their parents when they are trying to select a school. The added challenge of PMIC to NCS students' Chinese learning necessitates a review of the MOI situation at schools. Will the EDB conduct a survey/research on the MOI situation of individual subjects at public primary and secondary schools?

Asked by: Hon MO Claudia (LegCo internal reference no.: 31)

Reply:

For primary school education, the Government advocates the use of mother tongue (i.e. Chinese, in the context of Hong Kong) as the principal medium of instruction (MOI) since students learn most effectively through the mother tongue. We have not allocated any funding to support public sector primary schools to adopt Chinese or English as the principal MOI. Irrespective of the school-based MOI arrangements adopted, schools should endeavour to nurture talents who are proficient in both Chinese and English. We will continue to strengthen language learning and teaching in primary schools and help students build a solid foundation for a smooth transition to secondary education.

As regards secondary school education, starting from the 2010/11 school year, there is no longer bifurcation of public sector secondary schools into Chinese-medium and English-medium schools based on the teaching medium adopted at the junior secondary levels from Secondary 1 to Secondary 3. To ensure students' learning effectiveness, the choice and number of subjects taught in English may vary between classes within individual schools as well as among schools under the prescribed criteria. Besides, schools may also choose to conduct extended learning activities in English, which include, among others, the use of the English medium for not more than two non-language subjects. With the adoption of subject grouping at senior secondary levels in public sector schools, schools have the discretion to decide on the number of students in each teaching group and teaching strategies (including the teaching medium) with regard to students' needs, aspirations and capabilities to facilitate students' articulation to multiple pathways.

Besides, the Education Bureau (EDB) is committed to encouraging and supporting non-Chinese speaking (NCS) students' integration into the community, and facilitating their early adaptation to the local education system and mastery of the Chinese language. Early exposure to the learning of Chinese is beneficial to them. To step up the support for NCS students' effective learning of the Chinese language and their integration into the community, starting from the 2014/15 school year, EDB has substantially increased the

additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. Moreover, the EDB has provided Applied Learning Chinese (for NCS students) at the senior secondary level starting from the 2014/15 school year to provide NCS students with an additional channel to obtain an alternative Chinese language qualification to prepare them for further studies and career pursuits. In addition to the Hong Kong Diploma of Secondary Education qualification, Applied Learning Chinese (for NCS students) is also pegged at Levels 1 to 3 of the Qualifications Framework. The EDB evaluates the effectiveness of various support measures for NCS students on an ongoing basis, and refines the measures as necessary.

Given the aforementioned diversified school-based arrangements, the number of students including NCS and ethnic minority (EM) students studying in public sector primary and secondary schools with a breakdown by teaching medium is not available. The total number of students studying in primary and secondary schools, with a breakdown by the number of NCS and NCS EM students in the 2015/16 to 2018/19 school years, according to the information collected through the annual Student Enrolment Survey, is tabulated below for reference:

Level	School year	Total number of students (Notes 1 and 2)	Number of NCS students (Notes 2 and 3)	Number of NCS EM students (Notes 2 and 4)
Primary (Primary 1 - 6) (Note 5)	2015/16	288 126	8 958	8 338
	2016/17	297 808	9 266	8 694
	2017/18	309 047	9 622	9 009
	2018/19	317 650	9 849	9 189
Secondary (Secondary 1 - 6) (Note 5)	2015/16	329 757	8 782	7 998
	2016/17	314 965	8 971	8 134
	2017/18	307 105	9 383	8 507
	2018/19	301 026	9 481	8 600

Notes:

1. The total number of students also includes those who have not indicated any information on their spoken language at home in the annual Student Enrolment Survey.
2. Figures refer to the position as at September of the respective school years.
3. Figures on NCS students include those whose ethnicity is Chinese but who are NCS based on their spoken language at home.
4. Figures on NCS EM students do not include those whose ethnicity is not Chinese but who are Chinese-speaking based on their spoken language at home.
5. Figures cover students studying in public sector and Direct Subsidy Scheme primary and secondary schools. Figures do not include special schools.

Using Putonghua as the MOI for teaching the Chinese Language subject (PMIC) is a decision driven by school-based language policy. Schools can choose a suitable MOI for teaching the Chinese Language curriculum based on their professional considerations. Schools may decide whether to adopt PMIC at certain levels/in specific classes with regard to their own circumstances, such as readiness of teachers, standards of students, language environment of the school, curriculum planning, and availability of learning and teaching support. As the number of schools adopting PMIC and the number of relevant students may vary every year, we have not kept track of such information. Moreover, primary and secondary schools adopting PMIC have not received any additional funding in the 2015/16, 2016/17, 2017/18 and 2018/19 school years.

Irrespective of schools' MOI arrangements and whether they choose to adopt PMIC, the EDB has been organising diversified professional development programmes to ensure that language teachers are provided with adequate training opportunities to enhance their professional capability in teaching the relevant languages for the benefits of students' language learning.

As for the reference materials available to parents, the Primary and Secondary School Profiles offer information on individual primary and secondary schools, including their MOI situation, so as to help parents make informed choices. The EDB also conducts annual survey with primary and secondary schools (excluding English Schools Foundation and international schools) to collect information on their class and subject details (including MOI).

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2369)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau said in its Circular No. 8/2014 (EDB(EC)5/2041/07) that schools should also arrange their NCS students to sit for the Territory-wide System Assessment (Chinese) with a view to collecting relevant objective data on their basic competencies for research purposes, which would in turn help review the implementation of the "Learning Framework". Hence, the attainment rate of non-Chinese speaking (NCS) students in Territory-wide System Assessment (TSA) and Basic Competency Assessments (BCA) is a crucial indicator of the success of the Chinese as a Second Language Learning Framework.

Will the government inform this Council of:

(a) the numbers of non-Chinese speaking students who have taken the P.3, P.6 and S.3 TSA in 2015/16 and 2016/17 and BCA in 2017/2018, and their percentage share of the total number of non-Chinese speaking students in that grade level, as tabulated in the table below:

	Number of NCS students	Total number of NCS students in the grade level	Percentage of NCS students in the grade level who have taken this test (TSA/BCA)
P3 Chinese language			
P3 English language			
P3 Mathematics			
P6 Chinese language			
P6 English language			
P6 Mathematics			
S3 Chinese language			
S3 English language			
S3 Mathematics			

(b) The total numbers of students who have taken the P.3, P.6 and S.3 TSA in 2015/16 and 2016/17 and BCA in 2017/2018, and their percentage share of the total number of students in that grade level, as tabulated in the table below:

	Number of students	Total number of students in the grade level	Percentage of students in the grade level who have taken this test (TSA/BCA)
P3 Chinese language			
P3 English language			
P3 Mathematics			
P6 Chinese language			
P6 English language			
P6 Mathematics			
S3 Chinese language			
S3 English language			
S3 Mathematics			

(c) among the students referred to in (a) and (b), the total number and the number of NCS students attaining Basic Competency in the P.3, P.6 and the S.3 TSA or BCA respectively.

Asked by: Hon MO Claudia (LegCo internal reference no.: 32)

Reply:

(a)

The number of non-Chinese speaking (NCS) students participating in the Primary 3 (P3), Primary 6 (P6) and Secondary 3 (S3) Territory-wide System Assessment (TSA) in the 2015/16 and 2016/17 school years and the TSA in the 2017/2018 school year, and their percentage shares in the total number of NCS students in the respective grade level are tabulated as follows:

TSA	Number of NCS students* participating in TSA	Total number of NCS students in the respective grade level#	Percentage of NCS students* participating in TSA in the total number of NCS students in the respective grade level
2015/16			
P3^ Chinese Language	231	1 914	12.1%
P3^ English Language	231	1 914	12.1%
P3^ Mathematics	231	1 914	12.1%
P6△ Chinese Language	96	1 471	6.53%
P6△ English Language	96	1 471	6.53%
P6△ Mathematics	96	1 471	6.53%
S3 Chinese Language	1 321	1 458	90.6%

S3 English Language	1 321	1 458	90.6%
S3 Mathematics	1 321	1 458	90.6%
2016/17			
P3 Chinese Language	1 532	1 927	79.5%
P3 English Language	1 532	1 927	79.5%
P3 Mathematics	1 532	1 927	79.5%
P6 Chinese Language	1 319	1 546	85.3%
P6 English Language	1 319	1 546	85.3%
P6 Mathematics	1 319	1 546	85.3%
S3 Chinese Language	1 373	1 533	89.6%
S3 English Language	1 373	1 533	89.6%
S3 Mathematics	1 373	1 533	89.6%

* These NCS students were provided with accommodation measures according to their needs as requested by schools when participating in TSA

^ The 2016 P3 TSA was conducted as part of the 2016 Tryout Study. The data is gathered from some 50 participating schools.

△ Since 2012, the P6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

\# NCS students cover those students who are non-Chinese speaking based on the spoken language at home. Figures on NCS students refer to the position as at September of the respective school years. The figures include students in government, aided, Direct Subsidy Scheme (DSS) and local private schools but not students in Private Independent Schools. Students in international schools and special schools are also excluded.

The total number of P3, P6 and S3 NCS students in 2018 was 1 979, 1 590 and 1 681 respectively. According to the information provided by the Hong Kong Examinations and Assessment Authority (HKEAA) on the 2018 TSA, the number of P6 and S3 NCS students participating in TSA was 192 and 1 499 respectively, representing 12.1% and 89.2% of the total number of students in the respective grade level. As for P3 NCS students, the HKEAA samples a certain number of students for assessment to meet statistical requirements.

Starting from 2018, P3 TSA has been conducted with a low-stake approach of "no student names, no school names, no collection of reports and selection of participants by sampling". At the territory-wide level, the HKEAA samples around 10% of students from each public sector and DSS school for P3 TSA each year. If schools consider necessary, the HKEAA can arrange participation of their P3 students in TSA in full cohort. In line with the policy intent of the new assessment arrangements, the Education Bureau (EDB) decided earlier that it would neither inquire information from the HKEAA about the number of P3 students participating in TSA and the names of schools that arrange participation of their P3 students in TSA in full cohort, nor disclose other statistics related to the P3 level, with a view to avoiding persons holding different views to come up with their own interpretations and exerting undue pressure on the schools and groups of students concerned. In adhering to the above principle, the HKEAA will not disclose relevant information any longer.

(b)

The total number of students participating in the P3, P6 and S3 TSA in the 2015/16 and 2016/17 school years and the TSA in the 2017/18 school year, and their percentage shares in the total number of students in the respective grade level are tabulated as follows:

TSA	Number of students participating in TSA*	Total number of students in the respective grade level#	Percentage of students participating in TSA in the total number of students in the respective grade level
2015/16			
P3^ Chinese Language	5 156	54 236	9.51%
P3^ English Language	5 156	54 236	9.51%
P3^ Mathematics	5 156	54 236	9.51%
P6△ Chinese Language	1 952	46 375	4.21%
P6△ English Language	1 952	46 375	4.21%
P6△ Mathematics	1 952	46 375	4.21%
S3 Chinese Language	55 278	55 266	N/A
S3 English Language	55 278	55 266	N/A
S3 Mathematics	55 278	55 266	N/A
2016/17			
P3 Chinese Language	54 506	56 043	97.3%
P3 English Language	54 506	56 043	97.3%
P3 Mathematics	54 506	56 043	97.3%
P6 Chinese Language	47 220	48 014	98.3%
P6 English Language	47 220	48 014	98.3%
P6 Mathematics	47 220	48 014	98.3%
S3 Chinese Language	52 707	52 477	N/A
S3 English Language	52 707	52 477	N/A
S3 Mathematics	52 707	52 477	N/A

* Total number of students participating in TSA.

^ The 2016 P3 TSA was conducted as part of the 2016 Tryout Study. The data is gathered from some 50 participating schools.

△ Since 2012, the P6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

\# Figures refer to the position as at September of the respective school years. The figures include students in government, aided, DSS and local private schools but not students in Private Independent Schools. Students in international schools and special schools are also excluded.

As mentioned in the preceding part, the EDB accepted the Committee's recommendations on P3 TSA last year, and has, starting from 2018, conducted P3 TSA with a low-stake approach of "no student names, no school names, no collection of reports and selection of participants by sampling". At the territory-wide level, the HKEAA samples around 10% of students from each public sector and DSS school for P3 TSA each year. If schools consider necessary, the HKEAA can arrange participation of their P3 students in TSA in full cohort.

Since the EDB does not inquire information from the HKEAA about the schools that opt for participation of their P3 students in TSA in full cohort (and the related number of students), and the number of such schools (and the related number of students) are not pertinent to the policy objective, the EDB no longer maintains information on the number of students participating in P3 TSA. In line with the policy intent of the new assessment arrangements, the HKEAA will also not disclose relevant information any longer.

The total number of P3, P6 and S3 students in 2018 was 55 368, 50 602 and 50 536 respectively. According to the information provided by HKEAA on the 2018 TSA, about 2 500 P6 students and 50 000 S3 students participated in TSA.

(c)

In the 2015/16 school year, the percentage of P3 students achieving Basic Competencies (BCs) in Chinese Language, English Language and Mathematics was 85.8%, 81.1% and 89.9% respectively. The percentage of S3 students achieving BCs in Chinese Language, English Language and Mathematics was 77.4%, 69.6% and 80.0% respectively. Since 2012, P6 TSA has been conducted in odd-numbered years. As participation in the assessment was on a voluntary basis in 2016 and not all P6 students in individual schools and in the territory were involved, the HKEAA did not provide data at the territory-wide level.

In the 2016/17 school year, the percentage of P3 students achieving BCs in Chinese Language, English Language and Mathematics was 86.3%, 81.1% and 88.2% respectively. The percentage of P6 students achieving BCs in Chinese Language, English Language and Mathematics was 78.3%, 72.3% and 84.0% respectively. The percentage of S3 students achieving BCs in Chinese Language, English Language and Mathematics was 77.1%, 69.7% and 79.9% respectively.

In the 2017/18 school year, the percentage of P3 students achieving BCs in Chinese Language, English Language and Mathematics was 86.7%, 80.8% and 88.0% respectively. The percentage of S3 students achieving BCs in Chinese Language, English Language and Mathematics was 76.9%, 69.8% and 80.0% respectively. Since 2012, P6 TSA has been conducted in odd-numbered years. As participation in the assessment was on a voluntary basis in 2018 and not all P6 students in individual schools and in the territory were involved, the HKEAA did not provide data at the territory-wide level.

In addition, the EDB will not disclose the attainment status of individual groups of students in accordance with established practices to avoid labelling effect and piece-meal interpretation or misinterpretation of the relevant results.

The support measures for non-Chinese speaking (NCS) students from the 2014/15 to 2018/19 school years and the expenditure are tabulated at Annex.

Annex

Educational support measures for non-Chinese speaking (NCS) students from the 2014/15 to 2018/19 school years

Support measures	Actual expenditure in the 2014/15 school year $ million	Actual expenditure in the 2015/16 school year $ million	Actual expenditure in the 2016/17 school year $ million	Actual expenditure in the 2017/18 school year $ million	Estimated expenditure in the 2018/19 school year $ million
Starting from the 2014/15 school year, the additional funding to schools has been substantially increased and school-based professional support enhanced to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support for NCS students' learning of the Chinese language as well as the creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	197.8 Note 1	224.0 Note 1	245.1 Note 1	259.1 Note 1	270.9 Note 1
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0 Note 1	3.0 Note 1	3.0 Note 1	3.0 Note 1	3.0 Note 1

Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available. The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays, and provide learning and teaching resources for those NCS students who have a late start in the learning of the Chinese language, and to organise workshops for experience sharing with teachers and workshops for parents of NCS students with a view to strengthening collaboration with parents of NCS students in the support for NCS students' learning of Chinese	3.8	3.7	3.9	4.7	3.3
Summer Bridging Programme for NCS students in primary schools Starting from 2013, parents of NCS students could accompany their children with a view to enhancing their exposure to, and use of, Chinese and	2.8	2.6	2.6	2.3	2.1

support for their children.					
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	2.3	4.4	6.7	7.4	8.6
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that subsidised school candidates are only required to pay a "subsidised examination fee" on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE). Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level.	1.87	2.09	2.58	2.94	4.24 Note 2

In the 2018/19 and 2019/20 school years, secondary schools admitting NCS students are provided with additional resources to support their NCS students in using Chinese to learn Chinese History.	-	-	-	-	15.0
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art under the Language Fund.	1.09	2.35	1.18	1.72	4.28
Support for kindergartens admitting NCS students - (a) University-School Support Programmes (USP) financed by the Education Development Fund: (i) a 3-year project to support kindergartens to enhance the learning and teaching of Chinese for NCS children from the 2012/13 to 2014/15 school years	3.0	-	0.7	-	-

(ii) 2 projects to support NCS students in kindergartens in the transition to primary schools from the 2015/16 to 2016/17 school years and from the 2017/18 to 2018/19 school years respectively	-	Note 3	Note 3	Note 3	Note 3
(b) School-based professional support services	Note 1	Note 1	Note 1	Note 1	Note 1
(c) With the implementation of the new kindergarten education policy starting from the 2017/18 school year:					
(i) a grant comparable to the recommended salary of one kindergarten teacher has been provided to kindergartens admitting 8 or more NCS students for supporting NCS students	-	-	-	54.0	60.7

(ii) specific training courses for kindergarten teachers on support of NCS students	-	-	-	1.4	1.5 Note 4

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different funds, and a breakdown of expenditure by item is not available.

2. With the approval of the relief measure announced in the 2018-19 Budget to pay the examination fees for school candidates sitting for the 2019 HKDSE by the Finance Committee of the Legislative Council at the meeting on 18 May 2018, the "subsidised examination fee" of eligible NCS students sitting for the non-local Chinese Language examinations concerned in the 2018/19 school year is waived accordingly.

3. Regarding the USP projects, the actual expenditure is $2.25 million, $8.33 million and $2.88 million for the 2015/16, 2016/17 and 2017/18 school years respectively, and the estimated expenditure is $5.46 million for the 2018/19 school year. As the USP projects are implemented in both kindergartens and primary schools, a breakdown of expenditure by kindergartens and primary schools is not available.

4. Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate kindergartens in arranging teachers to attend specified training courses on supporting NCS students. The relevant expenditure has been included in the estimated expenditure for these training courses.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2371)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau has been using Chinese Language Assessment Tools to determine NCS students' Chinese Language level and requiring schools to report NCS students' performance at year end. They are ranked as achieving High, Medium or Low performance in four different stages namely the Entry Stage, Key Stage I (Primary 1-3), Key Stage II (Primary 4-6) and Key Stage III (Secondary 1-3). Each stage of these assessment tools provides "exemplars on listening, speaking, character recognition/reading and character writing/writing, alongside audio recordings and scripts, reference answers and marking schemes etc. to facilitate teachers' use" (EDB website).

Will the government inform this council of

a. The number of schools with 1 to 9 NCS students, 10 or more NCS students, the number of schools receiving funding under the Chinese as a Second Language Learning Framework, number of schools using assessment tools and percentage of schools using assessment tools out of all schools receiving funding in the year 2015/16 to 2018/19:

	Schools with 10 or more NCS students	Schools with 1-9 NCS students			% of schools with 1-9 NCS students using assessment tools out of all schools receiving funding
		Number of schools		Number of schools receiving funding	Number of schools using assessment tools
2015/16					
2016/17					
2017/18					
2018/19					

b. By type of assessment tools, the name of institution which developed the tool, the number of schools using the tool, the number of students using the tool, frequency of using the tool, and the expenditure involved;

c. Please state the levels of competence in Chinese that NCS students have attained since the implementation of the "Chinese Language Curriculum Second Language Learning Framework" as reported by schools, by tabulating their performance under different learning stages disaggregated by reading, writing, listening and speaking skills from school years 2014/15 to 2018/19?

	2014/15	2015/16	2016/17	2017/18	2018/19
No. of secondary 1-3 NCS students accessed					
No. of secondary 1-3 NCS students reached Key Stage III					
No. of primary 4-6 NCS students accessed					
No. of primary 4-6 NCS students reached Key Stage II					
No. of primary 1-3 NCS students accessed					
No. of primary 1-3 NCS students reached Key Stage I					
No. of NCS students accessed					
No. of NCS students reached Entry Stage					

d. The EDB has commissioned a tertiary institution to conduct analysis on NCS students' overall learning performance in Chinese reading and writing annually by making reference to the results by using the "Assessment Tools", so as to understand the overall performance of NCS students' learning of the Chinese language. How many students have been analyzed each year since the beginning of this analysis by grade level? What are the details and findings of the analysis? Has the EDB published the findings of this analysis? If not, why not?

e. Circular 25/2019 of the EDB states that the EDB cannot publicize the assessment tools because of copyrights issues. If the copyright does not belong to the EDB, who holds the copyright to the assessment tools?

Asked by: Hon MO Claudia (LegCo internal reference no.: 34)

Reply:

a. – d.
Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the

Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools, which was drawn up in consultation with teachers and language experts, and the creation of an inclusive learning environment in schools. Schools are also provided with practical tools and steps, as well as reference materials on learning and teaching, including the "Chinese Language Assessment Tools for NCS Students" ("Assessment Tools"). All public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted. In the 2015/16, 2016/17, 2017/18 and 2018/19 school years, the respective number of schools is 197, 216, 228 and 241. These schools are required to, based on the results of the "Assessment Tools", adjust the learning targets and teaching strategies with reference to the learning progress so described in the "Learning Framework", as well as the learning performance and progress of their NCS students, and adopt diversified intensive learning and teaching modes as appropriate to enhance the effectiveness of NCS students in learning the Chinese language. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". In the 2015/16, 2016/17, 2017/18 and 2018/19 school years, the respective number of schools is 410, 382, 387 and 391. Starting from the 2014/15 school year, they may apply for an additional funding of $50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. We encourage these schools to optimise the use of their immersed Chinese language environment, work out holistic plans that dovetail with existing measures and resources in light of their school-based circumstances, as well as deploy resources flexibly and apply for additional funding as appropriate to support their NCS students in mastering the Chinese language. In the 2015/16, 2016/17, 2017/18 and 2018/19 school years, 83, 179, 213 and 213 (provisional) schools were provided with an additional funding to offer after-school Chinese language support programmes respectively. The EDB encourages schools concerned to adopt the "Assessment Tools" having regard to NCS students' needs, assess the learning performance of their NCS students on an ongoing basis and provide these students with appropriate support. The assessment tasks under the "Assessment Tools" cover the entry stage, Key Stage 1 (Primary 1-3), Key Stage 2 (Primary 4-6), Key Stage 3 (Secondary 1-3) and Key Stage 4 (Secondary 4-6). The tasks in each stage are designed in conjunction with the expected learning outcomes across different levels of the "Learning Framework", so as to assist teachers in teaching and providing assessment feedback to NCS students. Aligned with curriculum planning, teaching progression and NCS students' learning needs, teachers may adopt a school-based approach in using the "Assessment Tools" to assess NCS students' learning progress over time, provide timely feedback on learning and set progressive learning targets for their NCS students. Teachers may use part or all of the questions in the exemplars and make adaptation to the questions as appropriate according to the needs of NCS students, and administer the assessment at the mode and time as schools consider appropriate. Schools are not required to submit information about the frequency of assessments they have conducted.

The EDB has commissioned a tertiary institution to conduct analysis on NCS students' overall learning performance in Chinese reading and writing annually by making reference to the results based on the "Assessment Tools", so as to understand the overall learning performance of NCS students' learning of the Chinese language. According to the

sampling methodology adopted, the marked scripts on each of reading (or character recognition) and writing (or character writing), broadly categorised as high, medium, and low in terms of performance by individual schools based on school-based criteria, are collected from all schools provided with the aforementioned additional funding ranging from $0.8 million to $1.5 million per year, so that the findings would cover NCS students' learning at different grade levels and Chinese proficiency as far as practicable. The sample size has been expanded from 5% of the total number of NCS students admitted to individual schools each year or not less than 6 scripts in the 2014/15 and 2015/16 school years (a total of some 2 000 scripts per year) to 8% or not less than 6 scripts from the 2016/17 school year (a total of some 4 000 scripts per year) onwards.

According to the findings of the analysis in each of the school years from 2014/15 to 2017/18, the overall performance in reading and writing of NCS students studying at the same grade level varied considerably as their duration of and pace in learning Chinese were different. In brief, NCS students (in particular those currently studying at junior primary levels) are generally able to learn Chinese more effectively and are expected to bridge over to mainstream Chinese Language classes in due course. The findings of the analysis in the 2017/18 school year showed that Primary 3 students with relatively higher ability were generally able to comment on the passages they read and the characters portrayed, and express ideas in paragraphs with the use of conjunctions in their writing. These are the language abilities required before students enter the next learning stage. At the secondary levels, students' improvement was not as remarkable as that at the primary levels. While NCS students at junior secondary levels made some progress, there was no significant improvement in respect of NCS students at senior secondary levels.

Every year, we organise sharing sessions to share with schools the findings of the analysis, with a view to helping schools enhance the learning and teaching strategies for more effective Chinese learning of NCS students. Nevertheless, it is neither appropriate nor possible to assess the effectiveness of NCS students' learning of the Chinese language solely based on the results of the "Assessment Tools". In fact, all students, including NCS students, may experience ups and downs in their learning journey in primary and secondary schools, and the learning effectiveness of NCS students is affected by other factors (such as parents' expectation and cooperation, learning attitude of students). Teachers need to monitor NCS students' learning progress on an ongoing basis and provide NCS students with the necessary support and counselling in a timely manner, so as to cater for their diversified learning needs and changes in learning progress, if any, and facilitate their articulation to multiple pathways. It has only been some 4 years since the implementation of the "Learning Framework" and other support measures in the 2014/15 school year. It takes time for these measures to take root and create a sustainable impact. It is expected that the Chinese proficiency of NCS students (especially those who have started learning the Chinese language at kindergarten level) will improve progressively.

e.
The "Assessment Tools", which are jointly developed by the EDB, language experts and teachers, are linked with the expected learning outcomes across different levels of the "Learning Framework" to help teachers grasp the learning progress of NCS students and make use of the "Learning Framework" to plan the school-based curriculum and adjust teaching strategies. The EDB owns the copyright of the "Assessment Tools". In view of the fact that "Assessment Tools" are a set of professional tools specifically designed for

teachers, the “Assessment Tools” are only available on the intranet of “Learning and Teaching Resources of Chinese Language Education Key Learning Area” for teachers’ download and adoption. Members of the public may visit the EDB website for a brief introduction to the “Assessment Tools”.

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted. In the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 school years, the respective number of schools is 173, 197, 216, 228 and 241. Schools are also provided with practical tools and steps, as well as reference materials on learning and teaching, including the "Chinese Language Assessment Tools for NCS Students" ("Assessment Tools"). The assessment tasks under the "Assessment Tools" cover the entry stage, Key Stage 1 (Primary 1-3), Key Stage 2 (Primary 4-6), Key Stage 3 (Secondary 1-3) and Key Stage 4 (Secondary 4-6). The tasks in each stage are designed in conjunction with the expected learning outcomes across different levels of the "Learning Framework", so as to assist teachers in teaching and providing assessment feedback to NCS students. Aligned with curriculum planning, teaching progression and NCS students' learning needs, teachers may adopt a school-based approach in using the "Assessment Tools" to assess NCS students' learning progress over time, provide timely feedback on learning and set progressive learning targets for their NCS students.

EDB has commissioned a tertiary institution to conduct analysis on NCS students' overall learning performance in Chinese reading and writing annually by making reference to the results based on the "Assessment Tools", so as to understand the overall learning performance of NCS students' learning of the Chinese language. Such analysis does not cover the number of NCS students who have bridged over to mainstream Chinese Language classes or who have attained certain levels at different learning stages. According to the sampling methodology adopted, the marked scripts on each of reading (or character recognition) and writing (or character writing), broadly categorised as high, medium, and low in terms of performance by individual schools based on school-based criteria, are collected from all schools provided with the additional funding, so that the findings would

cover NCS students' learning at different grade levels and Chinese proficiency as far as practicable. The sample size has been expanded from 5% of the total number of NCS students admitted to individual schools each year or not less than 6 scripts in the 2014/15 and 2015/16 school years (a total of some 2 000 scripts per year) to 8% or not less than 6 scripts from the 2016/17 school year (a total of some 4 000 scripts per year) onwards.

According to the findings of the analysis in each of the school years from 2014/15 to 2017/18, the overall performance in reading and writing of NCS students studying at the same grade level varied considerably as their duration of and pace in learning Chinese were different. In brief, NCS students (in particular those currently studying at junior primary levels) are generally able to learn Chinese more effectively and are expected to bridge over to mainstream Chinese Language classes in due course. The findings of the analysis in the 2017/18 school year showed that Primary 3 students with relatively higher ability were generally able to comment on the passages they read and the characters portrayed, and express their ideas in paragraphs with the use of conjunctions in their writing. These are the language abilities required before students enter the next learning stage. At the secondary levels, students' improvement was not as remarkable as that at the primary levels. While NCS students at junior secondary levels made some progress, there was no significant improvement in respect of NCS students at senior secondary levels. Nevertheless, it is neither appropriate nor possible to assess the effectiveness of NCS students' learning of the Chinese language solely based on the results of the "Assessment Tools". In fact, all students, including NCS students, may experience ups and downs in their learning journey in primary and secondary schools. Individual NCS students' learning progress in Chinese may vary due to various factors. Teachers need to monitor NCS students' learning progress on an ongoing basis and provide NCS students with the necessary support and counselling in a timely manner, so as to cater for their diversified learning needs and changes in learning progress, if any, and facilitate their articulation to multiple pathways. Every year, we organise sharing sessions to share with schools the findings of the analysis, with a view to helping schools enhance the learning and teaching strategies for more effective Chinese learning of NCS students.

It has only been some 4 years since the implementation of the "Learning Framework" and other support measures in the 2014/15 school year. It takes time for these measures to take root and create a sustainable impact. It is expected that the Chinese proficiency of NCS students (especially those who have started learning the Chinese language at kindergarten level) will improve progressively. EDB has consulted teachers and language experts when formulating the "Learning Framework", and will continue to collect views from various stakeholders on the "Learning Framework" and relevant support measures. At the curriculum level, EDB has, through school visits and focus group interviews, solicited teachers' views on related curriculum documents, with a view to introducing refinements that could make the descriptions of learning outcomes under the "Learning Framework" more precise and concrete. The revised "Learning Framework" was uploaded onto the "Chinese Language Curriculum Second Language Learning Framework Dedicated Homepage" in January 2019 for teachers' reference and use. In parallel, the relevant assessment tools and teaching resources have been updated accordingly. EDB will continue to collect information to evaluate the effectiveness of its support measures and make refinements as necessary. In this regard, while looking into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing

factors for effective learning, we also understand that the learning effectiveness of NCS students is affected by other factors (such as parents' expectation and cooperation, students' learning attitude, etc.).

Question:

Since the school year 2014/15, education support measures for non-Chinese speaking (NCS) students include training programmes for Chinese Language teachers teaching NCS students; some of these training programmes are contracted to be conducted by institutions such as the Education University of Hong Kong.

Will the government inform this council of the actual expenditures for these non-subvented and subvented training programmes, the frequency and the enrolment of these programmes from 2014/15 to 2018/19 school year?

	2014/15	2015/16	2016/17	2017/18	2018/19

No. of teachers attached					

Asked by: Hon MO Claudia (LegCo internal reference no.: 36)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools.

To enhance teachers' professional capability in teaching NCS students, EDB has been continuously organising systematic and diversified professional development programmes to enable teachers to gain a deeper understanding of the "Learning Framework" and master effective teaching methods. As at February 2019, there were a total of 372 primary schools and 300 secondary schools that had sent their teachers (an attendance of around 4 000) to participate in seminars and workshops organised by EDB.

EDB has also commissioned the University of Hong Kong to conduct 10 teacher workshops each school year for Chinese Language teachers who teach NCS students. These workshops cover the teaching and learning of Chinese Language for NCS students, including overall curriculum planning, teaching strategies, design of diversified activities, cultural inclusiveness, classroom teaching, as well as experience sharing. About 2 700 teachers attended these workshops from the 2014/15 to 2018/19 school years. The annual expenditure involved was about $300,000 to $400,000.

In addition, to enhance pedagogical effectiveness in supporting NCS students' learning of the Chinese language, how to teach Chinese from the perspective of second language learners has been embedded in different professional development programmes for teachers as appropriate. We have not kept a separate record of which training programmes have incorporated such elements and are therefore unable to give the number of teachers who have attended the programmes or its breakdown.

In tandem, starting from the 2014/15 school year, EDB has launched the "Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language)" (the Scheme) funded under the Language Fund on a pilot basis, with a view to encouraging serving Chinese Language teachers to pursue recognised courses offered by the universities to enhance their professional capability and qualifications in teaching Chinese to NCS students. Teachers would undertake such recognised programmes at master's degree or diploma level after work, and it usually takes around 2 years to complete a programme. Chinese Language teachers may, in light of the actual circumstances, pursue the recognised programmes under the Scheme on a voluntary basis. As at end-February 2019, 75 teachers from 62 schools have been approved for earmarking the grant/have been offered the grant, among which 59 teachers have successfully completed the programmes and received the basic level of grant. In the 2018/19 school year, EDB continues to implement the Scheme to enable more teachers to undertake the relevant programmes. The estimated expenditure on the grant is $2.17 million.

The 5-week programme "Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Students", conducted by the Education University of Hong Kong among other programmes/courses, for Chinese Language teachers teaching NCS students in primary and secondary schools will continue. From the 2014/15 to 2017/18 school years, 62 teachers from 51 schools enrolled in the course. The programme for the 2018/19 school year is still open for application, and hence the number of teachers enrolled is not yet available. Such programmes are subsumed under the overall professional development programme of EDB, and thus a breakdown of expenditure by item is not available.

The above measures are undertaken by different sections of EDB, and deployment of staff may be adjusted as appropriate. Except for the information provided separately above, the relevant manpower resources and expenses are subsumed under the overall expenditure and/or different funds of EDB.

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau had spent HK$184,000 to formulate an evaluation research framework to evaluate the effectiveness of support measures on the learning of Chinese of NCS students. The "data collection and associated research work under the research framework has started from the end of the 2014/15 school year, when initial data on the performance of NCS students and feedback on the impact of various support measures are available." EDB mentioned that it would share with stakeholders the findings, including the overall performance of NCS students in Chinese Language, feedback of schools on the support services and recommendations for improvement where appropriate.

It was mentioned by the Government that review would be conducted after the Framework was implemented for three years.

(a) Given that this is the fifth year of the implementation of the Framework, will the Government share with this Council the data on the performance of NCS students and feedback on the impact of various support measures as well as the overall performance of NCS students in Chinese Language, feedback of schools on the support services and recommendations for improvement? If no, the reasons and provide the timetable of releasing the results of the data collection and associated research work under the research framework.

(b) Regarding the Chinese as a Second Language Framework Evaluation report, will the EDB publish the research framework? If not, why not?

(c) Will the EDB publish the CSL Framework review report? If not, why not?

(d) What are the methodologies used to derive the initial findings?

(e) Will the EDB publish the entire review report so that stakeholders are informed on the comprehensive details and not just the initial findings?

(f) Referencing circular 25/2019 regarding CSL Framework refinement, did the Curriculum Development Council consult with teachers on the refinement? If yes, please provide details of the format and scale of consultation (e.g. number of teachers consulted, etc.)

(g) Number of briefing sessions organized by the EDB regarding the CSL Framework? Please list out the date, venue, attendance and enrollment of the sessions.

Asked by: Hon MO Claudia (LegCo internal reference no.: 37)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has implemented the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools. The "Learning Framework" was drawn up in consultation with teachers and language experts and developed from the perspective of second language learners with a view to helping non-Chinese speaking (NCS) students overcome the difficulties in learning Chinese. In tandem, the EDB provides, through diversified modes, school-based professional support services for schools that admit NCS students.

The EDB reviews and evaluates the effectiveness of various support measures for NCS students on an ongoing basis, and refines the measures as necessary. The EDB has established a research framework in light of the advice of experts, collected quantitative and qualitative information (including NCS students' performance in the Territory-wide System Assessment (TSA) and findings of the questionnaire surveys on TSA), as well as evaluation data on the effectiveness of school-based professional support services through questionnaire surveys and focus group interviews, so as to review the relevant various support measures. On 26 June 2017, the EDB reported to the Panel on Education the implementation progress of these support measures, including data collection and relevant work under the research framework and the overall deployment of additional funding by schools. The EDB will update the Legislative Council on the progress of the support measures in a timely manner.

Since the introduction of the "Learning Framework", the EDB has been soliciting teachers' views through school visits and focus group interviews so that refinements could be made to the "Learning Framework". In general, teachers consider that the "Learning Framework" is useful for curriculum planning, teaching and assessment in teaching Chinese to NCS students. Members of the Curriculum Development Council Committee on Chinese Language Education also share the views that the "Learning Framework" can facilitate teaching for NCS students. The EDB has revised the "Learning Framework" in light of the views of teachers, so as to make the descriptions of learning outcomes more precise and concrete. The revised "Learning Framework" was uploaded to the EDB's webpage in January 2019. In parallel, the relevant assessment tools and teaching resources have been updated accordingly. The EDB organises briefing sessions and workshops for teachers on an ongoing basis. From January to March 2019, 4 sessions were held (about 550 places were available and around 280 teachers submitted applications) to brief teachers on the revisions to the "Learning Framework" and facilitate schools' adoption of the "Learning Framework" with regard to curriculum planning, learning and teaching, and assessment.

Other professional development programmes on the "Learning Framework" will be organised for teachers, details of which are available on the EDB's Training Calendar.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2375)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the Government inform this Council of:

a. The number of students in public primary school, the number of NCS students among them, the number of NCS primary school students who have previously attended kindergarten in Hong Kong, and the number of NCS primary school students locally born tabulated by school years from 2015/16 to 2018/19;

b. The number of students in public secondary school, the number of NCS students among them, the number of NCS secondary school students who have previously attended kindergarten in Hong Kong, the number of NCS secondary school students locally born, and the number of NCS students who has lived in Hong Kong more than 7 years tabulated by school years from 2015/16 to 2018/19.

c. The EDB previously said that the Student Enrolment Survey does not collect information about whether students have studied in a kindergarten in Hong Kong, whether they were born in Hong Kong and their length of residence in Hong Kong. However these are important data for policy setting and implementation especially in terms of ethnic minority education policies. Will the EDB consider collecting these data points? If not, why not?

Asked by: Hon MO Claudia (LegCo internal reference no.: 38)

Reply:

The number of students and non-Chinese speaking (NCS) students studying in public sector and Direct Subsidy Scheme (DSS) primary and secondary schools from the 2015/16 to 2018/19 school years is tabulated at Annex.

Student Enrolment Survey is a universal survey that mainly collects and updates information of all primary and secondary students studying in public sector schools and DSS schools offering the local curriculum in the territory. It is conducted for the Education Bureau (EDB) to maintain and update basic information of these students, which includes primarily their Chinese and English names, gender, date of birth, current school, grade level and class, etc. The Survey does not collect information on whether the students (including NCS students) have attended kindergartens in Hong Kong, whether they were born in Hong Kong and their length of residence in Hong Kong. EDB will collect other information on a need basis to inform the formulation and review of specific policies or measures as appropriate.

The Government ensures equal opportunities in school admission for all eligible children (including NCS children) in public sector schools, regardless of their race. Education policies and support measures are underpinned by the principle of teaching students according to their ability and aptitude. To help NCS students overcome the difficulties in learning Chinese as a second language, EDB has, starting from the 2014/15 school year, substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. At present, EDB collects information on whether NCS students have attended kindergartens through the questionnaire surveys on the Territory-wide System Assessment, and the annual plans submitted by schools with 10 or more NCS students and hence are provided with an additional funding ranging from $0.8 million to $1.5 million per year. According to the annual plans submitted by the primary and secondary schools concerned in the 2017/18 school year, about 80% and 40% of their NCS students have attended local kindergartens respectively. Whether NCS students have attended kindergartens in Hong Kong is also a piece of information for reference of the schools concerned when planning the school-based support measures.

Annex

Number of students and non-Chinese speaking (NCS) students by level from the 2015/16 to 2018/19 school years

Level	School year	Number of NCS students (Notes 1 and 2)	Total number of students (Note 4)
Primary (Primary 1 to 6) (Note 3)	2015/16	8 958	288 126
	2016/17	9 266	297 808
	2017/18	9 622	309 047
	2018/19	9 849	317 650
Secondary (Secondary 1to 6) (Note 3)	2015/16	8 782	329 757
	2016/17	8 971	314 965
	2017/18	9 383	307 105
	2018/19	9 481	301 026

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above figures include those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures include students studying in public sector and Direct Subsidy Scheme (DSS) schools, including 1 DSS secondary school offering non-local curriculum. Figures do not include special schools.
4. The total number of students also includes those students who have not indicated any information on their spoken language at home in the annual Student Enrolment Survey.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Since 2014 primary and secondary schools with 1 to 9 non-Chinese speaking (NCS) students can apply for extra funding of $50,000 to support after school Chinese learning of NCS students. Will the Government inform this Council of:

a. The number of primary schools, the number of primary schools receiving the extra NCS funding, and the percentage of these schools out of all schools from 2014/15 to 2018/19 school years disaggregated by district;

b. The number of secondary schools, the number of secondary schools receiving the extra NCS funding, and the percentage of these schools out of all schools from 2014/15 to 2018/19 school years disaggregated by district;

c. How does the EDB conduct funding evaluation to ensure accountability?

d. Does the EDB require schools to upload the relevant plans and reports on funding usage to school website? If not, why not?

e. How does the EDB measure students' Chinese learning progress after providing funding to schools?

f. Apart from listing out support measures for NCS students in school profiles, how do schools consult parents on what support measures are needed?

Asked by: Hon MO Claudia (LegCo internal reference no.: 39)

Reply:

a. and b. Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the effectiveness of NCS students in learning the Chinese language and facilitating their bridging over to mainstream Chinese Language classes in the long run. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Based on the experience of the schools concerned, additional support in learning Chinese is mainly provided after school or during school holidays as appropriate. Starting from the 2014/15 school year, they may apply for an additional funding of $50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. These schools can make good use of their immersed Chinese language environment, work out holistic plans that dovetail with existing measures and resources in light of their school-based circumstances to support their NCS students in mastering the Chinese language. The number of primary and secondary schools admitting 1 to 9 NCS students and provided with the above-mentioned additional funding by district from the 2014/15 to 2018/19 school years is tabulated at Annex A and Annex B respectively. No applications from schools were rejected during the period. In these 5 school years, the number of schools admitting 1 to 4 NCS students accounted for about 80% of the schools admitting 1 to 9 NCS students, and they seldom applied for the aforementioned additional funding to provide after-school support programmes in learning Chinese for NCS students.

c., d. and f. The above-mentioned additional funding provided for schools admitting 1 to 9 NCS students is for specific purposes only, i.e. organising after-school support programmes for NCS students to learn Chinese and creating an inclusive learning environment in schools. In this connection, EDB has issued a circular and letters to schools elucidating the policy intent and guidelines on the use of the funding. In each school year, schools planning to apply for the additional funding and those receiving the

additional funding are required to submit to EDB their school plans and reports, which are endorsed by the School Management Committee/Incorporated Management Committee, on the use of the funding and the measures to support NCS students in learning Chinese. To facilitate our monitoring of the use of the additional funding, schools are required to provide relevant information, which may include detailed internal information not intended for public consumption, in the school plans and reports. Therefore, schools are not required to upload their school plans and reports to their webpages.

To enhance transparency and facilitate parents in making school choices, a column on "Education Support for NCS Students" has been newly added to the School Profiles starting from the 2018/19 school year. Public sector schools and DSS schools offering the local curriculum and provided with the additional funding are required to specify that they provide additional support for their NCS students to facilitate their learning of the Chinese language. Besides, schools generally provide parents (including parents of NCS students) with information on their support for students via different channels such as school webpages, circulars, and parents' day. EDB has been reminding schools to discuss with parents of NCS students the learning progress (including the learning of Chinese) of their children on a regular basis and enhance the effectiveness of NCS students in learning the Chinese language through home-school co-operation.

e. It has only been some 4 years since the implementation of the "Learning Framework" and other support measures in the 2014/15 school year. It takes time for these measures to take root and create a sustainable impact. It is expected that the Chinese proficiency of NCS students (especially those who have started learning the Chinese language at kindergarten level) will gradually improve. EDB will continue collecting information to evaluate the effectiveness of its support measures (including the provision of additional funding for schools) and make refinements where appropriate. In this regard, while looking into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning, we also understand that the learning effectiveness of NCS students is affected by other factors (such as parents' expectation and cooperation, students' learning attitude, etc.).

Annex A

Number of primary schools admitting 1 to 9 non-Chinese speaking students and provided with additional funding to offer after-school support programmes in learning Chinese by district from the 2014/15 to 2018/19 school years

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2377)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the Government inform this Council of:

a. the total number of schools (government, aided and direct subsidy scheme) and the number of schools with NCS students in each district:

District	No. of primary schools	No. of primary schools with NCS students	No. of secondary schools	No. of secondary schools with NCS students

b. the number of NCS students studying in the district and the number of NCS students residing in each district:

District	No. of KG NCS students studying in the district	No. of KG NCS students (age 3 to 5) residing in the district	No. of primary NCS students studying the district	No. of primary students (age 6 to 11) residing in the district	No. of secondary students studying in the district	No. of secondary students (12 to 17) residing in the district

Asked by: Hon MO Claudia (LegCo internal reference no.: 40)

Reply:

The number of public sector and Direct Subsidy Scheme (DSS) schools and the number of public sector and DSS schools with non-Chinese speaking (NCS) students by district in the 2018/19 school year are tabulated at Annex A; the number of NCS students studying at kindergartens, public sector and DSS schools by district is tabulated at Annex B. When formulating policies and measures on education support for NCS students, students' district of residence is not a consideration factor. We have not collected information on NCS school-age children at different school levels (i.e. kindergarten, primary and secondary school levels) by district of residence.

Annex A

Number of primary and secondary schools with non-Chinese speaking (NCS) students by district in the 2018/19 school year

Question:

The Government indicates that it will "continue to improve the learning and teaching of the English Language so as to lay solid foundation for students' diversified needs of English learning in future". In this connection, please advise of the following:

1. the measures implemented in the past 5 years and this year to improve Hong Kong students' English proficiency, and the expenditure involved.

2. whether the Administration has assessed the effectiveness of the measures to improve students' English proficiency? If yes, what are the details? If no, what are the reasons?

3. whether the Education Bureau will raise students' daily English standard and proficiency in an effort to enhance their international competitiveness, and allocate additional resources to schools for training local teachers and supporting schools in promoting English Language education?

Reply:

We have been implementing various measures for improving the learning and teaching of English Language in primary and secondary schools. The expenditure involved for implementing such measures in the past 5 years (i.e. 2014-15, 2015-16, 2016-17, 2017-18 and 2018-19 financial years) is $767.44 million (of which $29.23 million is from the Language Fund), $794.24 million (of which $25.74 million is from the Language Fund), $838.35 million (of which $27.70 million is from the Language Fund), $883.29 million (of which $44.31 million is from the Language Fund) and $818.50 million (of which $83.33 million is from the Language Fund) respectively. In the 2019-20 financial year, the

provision is $976.33 million, of which $35.10 million is from the Language Fund. Details of the support measures are tabulated as follows:

No.	Name of Project	Details
A. Grants to schools		
*1.	Grant Scheme on Promoting Effective English Language Learning in Primary Schools	To help schools develop school-based measures to further promote effective English language learning.
B. School-based support		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing teachers' professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for Language Teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for 1 year or 3 years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4.	Resources for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning and teaching.
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme for Primary Schools (PNET Scheme)	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, each eligible public sector primary school operating 6 or more classes (including special schools (primary section) offering the mainstream curriculum and schools for children with intellectual disabilities (primary section) offering an appropriate school-based English Language curriculum) is provided with a NET.

No.	Name of Project	Details
2.	The Enhanced Native-speaking English Teacher (NET) Scheme in Secondary Schools (ENET Scheme)	NETs work with local English teachers to enrich the English language learning environment in schools and to enhance the learning and teaching of English with linguistically and culturally authentic materials and resources. In general, an eligible public sector secondary school (including special schools (secondary section) offering the mainstream curriculum and schools for children with intellectual disabilities (secondary section) offering an appropriate school-based English Language curriculum) is provided with a NET.
*3.	English Alliance	To provide primary and secondary school students with pleasurable experiences in learning English for developing their interest in and appreciation of English and boosting their confidence in using the language through a series of educational, creative, interesting and interactive English programmes.
*4.	Sponsorship Project	To engage community partners to organise language-related events or competitions in the community.

* Initiatives funded by the Language Fund

** The initiative is funded out of Head 173 Student Financial Assistance Agency

Ongoing evaluations of the support measures are conducted through various means, including curriculum development visits to and lesson observation in participating schools, questionnaire surveys and/or focus group interviews with participants, quality assurance meetings with service providers, and self-evaluations and submission of progress and final reports by grantees. Expenses arising from the evaluations are covered by the recurrent expenditure or the approved expenditure for initiatives funded by the Language Fund. The Education Bureau will continue providing resources for schools to train local teachers and support schools in promoting English Language education, so as to raise students' English standard and proficiency and enhance their international competitiveness.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In respect of using Putonghua as the medium of instruction for teaching the Chinese Language Subject (PMIC), please advise this Committee of the following:

(1) The number of aided primary and secondary schools adopting PMIC, and their respective percentage in the total number of aided primary and secondary schools in the territory in the past 3 years.

(2) The number of non-Chinese speaking (NCS) students in the schools adopting PMIC in the past 3 years disaggregated by home language.

(3) The measures that will be taken to support NCS students in the schools adopting PMIC for the 2019/20 school year and the expenditure involved.

(4) Some academics and members of the education sector have pointed out that PMIC is not very effective in enhancing students' competence in Chinese. Will the Bureau conduct a comprehensive review of the current implementation of PMIC policy? If yes, what are the details? If not, what are the reasons?

Asked by: Hon MO Claudia (LegCo internal reference no.: 49)

Reply:

(1) to (2) In respect of using Putonghua as the medium of instruction for teaching the Chinese Language Subject (PMIC), primary and secondary schools may decide with regard to their own circumstances. As the number of schools adopting

PMIC varies every year, we have not kept track of such information, and do not have a breakdown of the number of students (including non-Chinese speaking (NCS) and ethnic minority students) by the medium of instruction (MOI) for teaching the Chinese Language subject.

(3) Schools may draw on the additional resources provided by the Education Bureau to help NCS students learn Chinese Language, and there is no provision earmarked for NCS students' learning of Chinese Language in Putonghua.

(4) Adopting PMIC is a decision driven by school-based language policy. Schools can choose a suitable MOI for teaching the Chinese Language curriculum based on their professional considerations. Schools may decide whether or not to adopt PMIC at certain levels/in specific classes having regard to their own circumstances, such as readiness of teachers, standards of students, language environment of the school, curriculum planning, and availability of learning and teaching support. Since the effectiveness of PMIC is affected by many variables (including teachers' capability of using Putonghua, the language environment of schools and the social circles of students), it would be difficult for us to draw a simple conclusion as to whether PMIC can or cannot enhance the effectiveness of learning.

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the promotion of harnessing information technology in schools to enhance pedagogical effectiveness, would the Administration please provide the following information:

(1) The number of primary and secondary schools that are currently implementing the "Bring Your Own Device" (BYOD) policy, and the respective percentage that these schools represent in the total number of public sector primary and secondary schools. Please tabulate this information under the following categories:

	Number of schools implementing the BYOD policy	Percentage share in the total number of schools
Government, aided (including special), caput and Direct Subsidy Scheme (DSS) secondary schools		
Government, aided (including special), caput and DSS primary schools		

(2) Has any estimation been made on the number of schools that will implement the BYOD policy for the first time in the coming year? Please provide the information by school type and give the percentage share of these schools in the total number of public sector primary and secondary schools;

(3) Please give an elaborate account of how the Government promotes the implementation of the BYOD policy in schools and advise whether schools have been requested to submit an implementation timetable. If no, what are the reasons?

(4) For primary and secondary schools that have implemented the BYOD policy, what are their students' average cost of purchasing mobile computer devices and average cost of engaging in e-learning in schools (purchase of devices, hardware, software, etc.). Please provide the information separately for primary and secondary schools.

	Students' average cost of purchasing mobile computer devices	Students' average cost of engaging in e-learning in schools (purchase of devices, hardware, software, etc.)
Government, aided (including special), caput and DSS secondary schools implementing the BYOD policy		
Government, aided (including special), caput and DSS primary schools implementing the BYOD policy		

(5) In the past 3 years, did the Education Bureau (EDB) and schools receive any complaints from parents and students that the cost of e-learning was too high while the subsidy available was not adequate? If yes, please provide the number of complaint cases and give an account of the follow-up actions taken;

(6) Does the EDB have any plan to urge the administration of the Community Care Fund to review the current provision of a subsidy of $4,500 for underprivileged primary and secondary students to purchase mobile computer devices? If yes, what are the details? If no, what are the reasons?

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 42)

Reply:

(1) The Education Bureau (EDB) launched the Fourth Strategy on Information Technology in Education (ITE4) in the 2015/16 school year. One of the key measures is to establish WiFi campus by phases for all public sector schools in the territory to facilitate e-learning through the use of mobile computer devices in class. Some schools have started to adopt the "Bring Your Own Device" (BYOD) policy to further exploit the advantages of using mobile computer devices in learning. Meanwhile, we have also conducted questionnaire surveys on information technology in education before the close of each school year to understand the implementation of e-learning in schools. The survey targets mainly the public sector schools that have already established WiFi campus. In the questionnaire survey conducted for the 2017/18 school year, about 74% of schools

responded. Among the respondents, about 26% of secondary schools, 22% of primary schools and 18% of special schools have already implemented the BYOD policy or are formulating related measures. As the total number of schools implementing the BYOD policy is not available, we are unable to provide the figures on the percentage of these schools against the total number of public sector primary and secondary schools.

(2) Since the questionnaire survey for the 2018/19 school year will not be conducted until mid-2019, figures on schools implementing the BYOD policy in the 2018/19 school year are not yet available.

(3) e-Learning is an open and flexible learning mode, under which learning goals can be attained by electronic means. It is at the discretion of schools, in light of their contexts and development needs, to determine their own pace and mode for implementing e-learning (including the decisions on whether and when to adopt a school-based BYOD policy). The EDB will continue to provide necessary professional and technical advice (on enhancing students' information literacy, promoting parent education and governing students' use of mobile computer devices in schools by a set of codes, etc.) to support schools. Also, through arranging training courses, school-based on-site support and experience-sharing sessions with schools, we will enhance schools' knowledge about procurement and management of mobile computer devices. That said, the EDB has never made it a mandatory requirement for schools to impose the BYOD policy on students' learning, and hence we have not required schools to submit any implementation timetable.

(4) When implementing the BYOD policy, schools, under the principle of school-based management, would determine the device specifications and software required according to their pedagogical design and their use of e-learning tools and resources. Schools are not required to report to the EDB in this regard, and hence statistics on the relevant cost are not available.

(5) The EDB received a complaint from a parent about the high cost of participating in e-learning in school during the school years between 2015/16 and 2017/18. The investigation into this complaint has been completed and the allegation was found unsubstantiated. As to whether schools have received similar complaints, we do not have the relevant statistics.

(6) The Community Care Fund launched a three-year assistance programme in the 2018/19 school year to provide subsidy for needy primary and secondary students to purchase mobile computer devices. The maximum level of subsidy will be adjusted annually according to the Composite Consumer Price Index.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1783)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the reform of the Information and Communication Technology (ICT) curriculum for the senior secondary level, please advise this Committee of the following:

1. the results of the consultation with schools and educational bodies conducted by the Education Bureau (EDB) last year on the implementation of changes to the New Senior Secondary ICT curriculum in the 2021/22 school year;

2. whether the EDB has, in view of the constant evolvements in ICT, set a timetable for timely updating the curriculum content? If yes, what are the details? If no, what are the reasons;

3. the relevant teacher training plans to address curriculum changes and the expenditure involved;

4. items already implemented and those to be implemented to take forward the recommendations of the Report on Promotion of STEM Education – Unleashing Potential in Innovation released in 2016 (please list by type) and their implementation timetable; and

5. the number of students studying ICT at the senior secondary level and the number of candidates sitting the ICT subject in the Hong Kong Diploma of Secondary Education (HKDSE) Examination in the past few years:

	2014-15	2015-16	2016-17	2017-18	2018-19
No. of students taking ICT at the senior secondary level					
No. of candidates sitting the ICT subject in the HKDSE Examination					

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 43)

Reply:

1. The Education Bureau (EDB) plans to revise the senior secondary Information and Technology (ICT) curriculum. Proposed changes include increasing learning content on programming and reducing the content on the use of office automation software. In 2018, the EDB consulted various stakeholders, including public sector and Direct Subsidy Scheme (DSS) secondary schools offering the subject, relevant professional bodies and university academics, on the proposed revision and received generally supportive feedback.

2. The EDB renews school curricula on an ongoing basis to enable students to cope with local and global changes while meeting schools' development needs. The senior secondary ICT curriculum is now under review and the EDB will timely revise the curriculum content in accordance with the prevailing mechanism.

3. Taking into consideration the needs of curriculum development and teachers, the EDB has been organising teacher professional development programmes on topics such as curriculum management, the use of learning and teaching (L&T) resources and coding. These programmes keep teachers abreast of the development of the ICT subject, as well as the required pedagogical knowledge and skills. As the expenditure involved in organising teacher professional development programmes is subsumed under the overall expenditure of the EDB, a separate breakdown is not available.

4. The EDB released the Report on "Promotion of STEM Education – Unleashing Potential in Innovation" in 2016. The recommended measures set out in the Report have been implemented progressively. In the 2017/18 school year, the EDB renewed the curricula of Science, Technology and Mathematics Education Key Learning Areas, and published the "Computational Thinking – Coding Education: Supplement to the Primary Curriculum". The EDB has all along been organising professional development programmes for teachers and developing L&T resources for schools deployment. Starting from the 2017/18 school year, we have been conducting the Intensive Training Programme (ITP) on STEM Education in 5 batches for curriculum leaders of all public sector and DSS primary and secondary schools to further enhance their professional capacity in holistic curriculum planning and leading the teaching force. At the same time, the EDB has been organising professional training programmes for teachers on coding education and on themes related to technology application to support schools in promoting STEM education. By late February 2019, the first 3 batches of the ITP on STEM Education as well as the training courses on coding education have been completed. The fourth batch of the training programmes will commence in the second term of the 2018/19 school year. In October 2017, the STEM Education Centre was set up at the Arts and Technology Education Centre in Lok Fu. The Centre continuously provides STEM education related learning activities and training programmes as well as other support services for students and teachers. The EDB has been strengthening various professional exchange platforms and establishing STEM-related learning communities among schools. For example, the Quality Education Fund Thematic Networks have been established to facilitate the sharing

of good practices and promote professional exchange among teachers. Regarding student activities, the EDB has organised a number of large-scale STEM-related events and competitions in collaboration with tertiary institutions, other government departments and professional bodies. The Smart City Project Programme, for example, was held in the 2017/18 school year and again this year to create an atmosphere for learning science and technology and provide opportunities for students to unleash their potential. The EDB will continue to collaborate with different bodies and organisations to deliver more quality, large-scale activities to enrich students' learning experiences. We will continue to review the implementation of STEM education through various channels and step up the promotion of STEM education by enhancing the above support measures.

5. The number of students taking ICT at the senior secondary level and the number of candidates sitting the ICT subject in the Hong Kong Diploma of Secondary Education Examination (HKDSE) in the past few years are set out below:

School Year (Note 1)	2014/15	2015/16	2016/17	2017/18
Number of students taking ICT at the senior secondary level (Note 2)	21 640	20 620	20 030	19 640
Number of candidates sitting the ICT subject in the HKDSE Examination (Notes 2 & 3)	6 320	6 000	5 660	5 710

Note 1: The figures for the 2018/19 school year are unavailable as they are still being compiled.
Note 2: Numbers are rounded to the nearest 10
Note 3: Annual registration statistics of the HKDSE for the respective years released by the Hong Kong Examinations and Assessment Authority.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0933)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in paragraph 32 under Programme (6) on national education that the Education Bureau (EDB) offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. It also provides professional support, where appropriate, to schools. Would the Government advise this Committee of the details of the Mainland exchange programmes for students and professional exchange programmes for teachers, and of the respective numbers of primary and secondary schools that took part in the Mainland exchange programmes in each of the past 3 years?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 30)

Reply:

To dovetail with the school curriculum and the latest development of our country, the Education Bureau (EDB) organises Mainland exchange programmes for students, or subsidises those organised by schools. With diversified themes and destinations, these programmes enable participants to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. Teachers participate in these programmes as learning facilitators on a ratio of 1 teacher to 10 students. Besides, the EDB also provides various professional Mainland exchange programmes for teachers to widen their horizons and deepen their understanding of the Mainland's development in different aspects for enhancing their professional competence. Professional exchange programmes mainly include school visits, cultural visits, seminars, lesson observations, professional exchanges, etc. In the 2019/20 school year, the estimated provision for Mainland exchange programmes for students and professional exchange programmes for teachers will be $115 million and $13.2 million respectively.

Currently there are plenty of channels for schools to participate in Mainland exchange programmes. The EDB does not collect details of individual schools that join or do not join Mainland exchange programmes but only the number of participating schools for each trip.

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government provides a non-recurrent grant of $50,000 per school year in the 2018 and 2019 school years for each of the public sector and Direct Subsidy Scheme secondary schools which admit non-Chinese speaking (NCS) students for supporting NCS students to use Chinese in learning Chinese History as an independent compulsory subject in junior secondary level. In this connection, please advise this Committee of the following:

What are the number of schools in receipt of the grant and the number of NCS students involved?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 50)

Reply:

The grant for supporting non-Chinese speaking (NCS) junior secondary students in using Chinese to learn Chinese History has not yet been disbursed. The funding proposal has been included in the Estimates for consideration by the Legislative Council in the context of the Appropriation Bill 2019. Upon passage of the Appropriation Bill by the Legislative Council, the Education Bureau will in the 2018/19 and 2019/20 school years disburse, on a school basis, funding to public sector secondary schools with NCS students studying at junior secondary level, including government, aided (including special schools), caput and Direct Subsidy Scheme secondary schools, for supporting NCS students to use Chinese in learning Chinese history as an independent compulsory subject in junior secondary level. It is estimated that about 260 secondary schools will be provided with the grant and the number of NCS students involved will be around 5 100 each year.

(Question Serial No. 2215)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As stated in the Estimates, "(the VTC) will continue the industry attachment programme for students, with funding support from the Bureau, so as to enhance their employability and prepare them for a smooth transition from study to work."

1. What was the total amount of Government funding for the programme last year? What was the total number of students participating in the attachment programme (by industry)?

2. What is the provision earmarked for the programme this year? What is the estimated number of students participating in the programme?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 32)

Reply:

With the Government's one-off funding support of $43 million in 2012-13, the Vocational Training Council (VTC) launched a 2-year pilot programme to support industrial attachments for students pursuing subvented Higher Diploma programmes in the 2012/13 and 2013/14 academic years. The pilot programme indicates that industrial attachments help bridge classroom/workshop instruction and actual workplace requirements and thus greatly enhance students' employability. Given the effectiveness of the programme, recurrent funding of about $18 million has been allocated to the VTC annually starting from the 2014/15 academic year to provide industrial attachment opportunities mainly for students pursuing subvented Higher Diploma programmes and certain Diploma of Vocational Education programmes. About 9 000 students in the VTC benefit every year and the same applies to the 2019/20 academic year. Breakdown of number of students by sector of the companies/organisations is not available.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the facilities for cross-boundary students at land-based boundary control points:

1. Please tabulate figures on the daily use of various land-based boundary control points by cross-boundary students and school coaches in the past 3 years.

Control point	School year	Number of cross-boundary students	Number of cross-boundary school coaches
	2018/19		
	2017/18		
	2016/17		
	2018/19		
	2017/18		
	2016/17		

2. Since the number of cross-boundary students using control points every day has been on the rise in recent years, what measures are being carried out or will be carried out by the Government to upgrade or improve the related facilities? What are the respective expenditures involved?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 33)

Reply:

1. The number of cross-boundary students (CBS) and local/cross-boundary school coaches using various land-based boundary control points from the 2016/17 to 2018/19 school years is provided in the following table:

Control Point (CP)	School Year	Number of CBS	Number of Local/Cross-boundary School Coaches Carrying CBS
Shenzhen Bay Control Point (SZB CP)	2018/19	6 757	71
	2017/18	7 098	103
	2016/17	7 783	124
Lok Ma Chau Control Point (LMC CP)	2018/19	1 774	33
	2017/18	2 216	39
	2016/17	1 665	37
Man Kam To Control Point (MKT CP)	2018/19	2 472	42
	2017/18	2 457	42
	2016/17	2 338	42
Sha Tau Kok Control Point (STK CP)	2018/19	1 161	18
	2017/18	1 229	18
	2016/17	1 304	16
Lok Ma Chau Spur Line Control Point (LMCSL CP)	2018/19	9 193	46
	2017/18	8 854	47
	2016/17	9 693	47
Lo Wu Control Point (LW CP)	2018/19	6 429	34
	2017/18	6 055	35
	2016/17	5 876	36

Notes: (1) Figures refer to the position as at September of the respective school years.

(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

(3) The Hong Kong-Zhuhai-Macao Bridge (HZMB) was not yet open to traffic when the survey of the 2018/19 school year was conducted, and hence these figures do not include the number of CBS and cross-boundary school coaches using the HZMB Hong Kong Port.

(4) Local school coaches at LMCSL and LW CPs are local vehicles which do not cross any CP. They are permitted to operate multiple trips to carry CBS from Hong Kong side of the respective CPs to other parts of Hong Kong. The cross-boundary school coaches at SZB, LMC, MKT and STK CPs are cross-boundary vehicles which cross the respective CPs.

2. The Government has put in place various facilitating measures to enhance transportation and clearance services for CBS using the above land-based boundary control points. These measures include facilitating local school buses to gain access to Lo Wu Station Road and the LMCSL CP to take CBS to and from their schools; granting special quotas for cross-boundary school coaches for carriage of CBS through the HZMB Hong Kong Port, and LMC, MKT, STK and SZB CPs; implementing the simplified clearance services at the LMCSL, LW and SZB CPs; and providing on-board clearance services at the HZMB Hong Kong Port, and MKT, STK and LMC CPs.

The Government will continue to monitor closely the transportation and clearance needs of CBS, and will provide necessary support measures to cater for their needs and ensure their safety.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3232)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2019/20 school year, the Education Bureau will provide public sector and Direct Subsidy Scheme primary schools with additional resources to strengthen the administrative support for schools and their management committees with a view to strengthening school-based management and reducing the administrative work of teachers and principals, enabling them to focus more on teaching and taking care of students' development. What are the specific measures?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 37)

Reply:

Starting from the 2019/20 school year, the Government will provide all public sector schools (including special schools) and schools under the Direct Subsidy Scheme (DSS) with additional resources to strengthen the administrative support for schools and their management committees. The Education Bureau (EDB) will implement the "One Executive Officer for Each School" policy in public sector schools and DSS schools starting from the 2019/20 school year. These schools will be provided with resources to hire additional administrative manpower. We expect that the increased administrative manpower will help reduce the administrative work of teachers and principals so that they could focus more on teaching and taking care of students' development, enabling schools to review their school-based administrative arrangements and requirements, streamline procedures, and strengthen school administrative support and efficacy, thereby enhancing the quality of school management. Schools are required to recruit at least one full-time School Executive Officer (School ExO) with a local bachelor's degree (or equivalent), regardless of whether they choose to create a regular School ExO post or receive the School Executive Officer Grant (SEOG). Schools receiving the SEOG may procure school administration-related service from service provider(s) which should include the provision of at least one full-time school-stationed School ExO with a recognised degree.

Besides, the EDB will provide recurrent subvention for the above schools to support the operation of their management committees, such as organising meetings and election of school managers, and strengthening training for school managers/members of management committees. In the 2019/20 school year, the subsidy for each public sector primary school will be $50,000 per year. Relevant details will be announced in due course.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0224)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

1. Under Programme (7), the provision for 2019-20 is $510.1 million lower than the revised estimate for 2018-19, and the increased provision for various subsidy schemes partly offsets the decrease. Please provide details of the subsidy schemes with increased provision that offsets the decrease in provision under Programme (7).

2. Given Hong Kong's position in the Greater Bay Area, has the Vocational Training Council (VTC) offered additional programmes on information technology through enhanced resources? If yes, what are the resources and programmes involved? If no, what are the reasons?

3. The number of VTC's full-time student places in the 2018/19 academic year is 38 400, a significant drop of 6 605 as compared to 45 005 in the 2017/18 academic year. What are the reasons? Please list the programmes with a decrease in student places and the number of places reduced.

4. The number of VTC's part-time student places in the 2018/19 academic year is 22 000, a significant increase of 3 650 as compared to 18 350 in the 2017/18 academic year. What are the reasons? Please list the programmes with an increase in student places and the number of places increased.

Asked by: Hon POON Siu-ping (LegCo internal reference no.: 19)

Reply:

1. Provision for post-secondary, vocational and professional education includes government funding for the Vocational Training Council (VTC) and other financial commitments in support of post-secondary, vocational and professional education (e.g. implementation of the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), the Hong Kong Scholarship for Excellence Scheme and the Mainland University Study Subsidy Scheme), but excludes subsidy for universities funded by the University Grants Committee. In 2019/20, the Government will continue to inject resources into post-secondary, vocational and professional education through recurrent expenditure, as well as strengthen the relevant support measures, such as expanding the coverage of SSSDP to designated full-time locally accredited self-financing sub-degree programmes in selected disciplines, and supporting the VTC's regularisation of the Pilot Training and Support Scheme.

   The decrease of $510.1 million (-10.3%) in the provision for 2019-20 as compared with the revised estimate for 2018-19 is mainly attributed to a reduced cash flow requirement for non-recurrent expenditure items following the Government's complete injection of $800 million into the HKSAR Government Scholarship Fund in 2018-19.

2. The VTC has strived to provide a variety of vocational training programmes to meet the local demand for manpower. The Hong Kong Institute of Vocational Education offers a number of 2-year full-time higher diploma programmes in the discipline of information technology, covering the two broad areas of information and communications technology, and multimedia and entertainment technology. In response to the development of the Greater Bay Area and market needs, the VTC will regularly review, refine and update its programmes. In the 2019/20 academic year, the VTC plans to launch a brand new programme of Higher Diploma in Smart Technologies and Cyberspace Applications, which seeks to provide training on smart city enabling technologies and cyber security. Covering Internet of things (IoT), cyber security operations, artificial intelligence, big data analytics and cloud services, the programme enables students to grasp the relevant technologies through practicum and project-based learning.

   Furthermore, to promote and support STEM education, the VTC formally inaugurated the VTC STEM Education Centres in May 2017. Teaching and learning in STEM disciplines is enhanced through studies on application of technologies and with the assistance of sophisticated teaching equipment. Up to 2018-19 financial year, the Government has allocated around $21.50 million in total to support the establishment of VTC STEM Education Centres and the procurement of teaching equipment.

3. In view of the decrease in overall student population in Hong Kong, the VTC adjusts its estimate on the number of student places in each academic year, the estimate is generally more prudent. The actual enrolment may turn out to be greater because of an expectedly high intake of new and senior year students. For the 2018/19 academic year, actual enrolment as at January 2019 is around 43 000, a slight decrease of 5% from the actual enrolment of 45 005 in the 2017/18 academic year. The reduction was mainly registered in Higher Diploma programmes (around 1 680 students) and Diploma of Foundation Studies/Diploma of Vocational Education programmes (around 330 students).

4. In response to the community's demand, the VTC promotes continuing education among working adults to elevate their academic and skill levels and hence enhance their employability. In the 2018/19 academic year, the VTC has increased the estimated number of places for several part-time programmes. Increased places are mainly provided for Degree/Top-up Degree/Professional Diploma/Professional Certificate (around 490 places), Higher Diploma/Diploma of Foundation Studies/Diploma of Vocational Education/ Diploma (around 720 places) programmes and the newly offered Vocational English Course for Secondary Students (around 2 440 places).

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1470)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from 2019/20 school year, the Education Bureau will provide five-tiered subsidies for kindergartens joining the new kindergarten education scheme based on the number of non-Chinese speaking (NCS) students admitted. In this regard, may the Administration inform this Committee:

1. Of the number of NCS students that are admitted by participating kindergartens in each of the past 5 years;

2. Of the number of participating kindergartens, broken down by districts, that has admitted NCS students in each of the past 5 years;

3. Of the details and the estimated amount of subsidies to be provided for each tier for this year.

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 48)

Reply:

(1) and (2)
The kindergarten (KG) education scheme (Scheme) was launched in the 2017/18 school year. In the past 5 years, i.e. for KGs under the Pre-primary Education Voucher Scheme (PEVS) from the 2014/15 to 2016/17 school years and under the Scheme from the 2017/18 to 2018/19 school years, the number of non-Chinese speaking (NCS) students admitted is tabulated at Appendix 1; and the number of KGs which admitted NCS students by district is tabulated at Appendix 2.

(3)
At present, for KGs joining the Scheme, those admitting 8 or more NCS students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. Starting from the 2019/20 school year, a 5-tiered subsidy will be provided for KGs joining the Scheme according to the number of NCS students admitted. KGs admitting 1 NCS student will also receive the subsidy and the subsidy for the highest tier will be a double of the current level. Details are as follows:

Tier	Number of NCS students	Subsidy amount
1	1 to 4	New cash grant of $50,000 per year
2	5 to 7	New subsidy at a rate of 0.5 KG teacher
3	8 to 15	Subsidy at a rate of 1 KG teacher (i.e. the current arrangement)
4	16 to 30	Increased subsidy at a rate of 1.5 KG teachers
5	31 or more	Increased subsidy at a rate of 2 KG teachers

The total estimated amount of subsidy for the 2019/20 school year is around $102 million.

Number of NCS students admitted in KGs under the PEVS from the 2014/15 to 2016/17 school years and under the Scheme from the 2017/18 to 2018/19 school years

School Year	Number of NCS students
2014/15	4 957
2015/16	4 918
2016/17	5 165
2017/18	5 274
2018/19	5 313

Note: (1) Figures refer to the position as at September of the respective school years.
(2) Figures include K1, K2 and K3 students in kindergarten-cum-child care centres.
(3) Figures include those students whose ethnicity is Chinese but who are NCS based on the spoken language at home.

Number of KGs under the PEVS from the 2014/15 to 2016/17 school years and under the Scheme from the 2017/18 to 2018/19 school years which admitted NCS students by district

District	2014/15	2015/16	2016/17	2017/18	2018/19
Central & Western	17	18	16	17	17

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3191)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

There are programmes offered by tertiary institutions in Hong Kong (e.g. Diploma in Early Childhood Education (Supporting Learning and Teaching for NCS Children) by the Education University of Hong Kong, MA in Chinese Language and Literature (with a specialism in Chinese Language Teaching for Teachers of NCS Students) by the Hong Kong Polytechnic University, and Certificate in Teaching NCS Children by the Hong Kong Institute of Vocational Education of the Vocational Training Council, etc).

The Education Bureau has launched a Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language), funded under the Language Fund, since the 2014/15 school year. In this connection, will the government inform this Council of:

(a) The number of kindergarten teachers who are receiving or have completed post-secondary training in teaching NCS students or Chinese as a second language and their percentage share among all kindergarten teachers in Hong Kong from 2014/15 school year with information as below:

Year	Name of institution	Program name	Tuition fee of program	No. of teachers enrolled	No. of teachers completed programme	% share
14/15						
15/16						
16/17						
17/18						
18/19						

(b) The number of kindergartens with teachers who are receiving or have completed post-secondary training in teaching NCS students and their percentage share among all kindergartens in Hong Kong in 2017/18 and 2018/19 school year;

(c) The number of primary school teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all primary school teachers in Hong Kong from 2014/15 to 2018/19 school years;

(d) The number of primary schools with teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all primary schools in Hong Kong from 2014/15 to 2018/19 school years;

(e) The number of secondary school teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all secondary school teachers in Hong Kong from 2014/15 to 2018/19 school years;

(f) The number of secondary schools with teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all secondary schools in Hong Kong from 2014/15 to 2018/19 school years;

(g) The programmes that were/are recognised by the Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language) from 2014/15 to 2018/19 school years;

(h) The respective number of kindergarten, primary school and secondary school teachers subsidized by the Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language) and corresponding amount granted from 2014/15 to 2018/19 school years;

(i) Whether the Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language) will be extended to kindergarten teachers, and if so, when.

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 49)

Reply:

The Government has implemented the new kindergarten (KG) education policy starting from the 2017/18 school year. Under the new policy, we provide enhanced support for non-Chinese speaking (NCS) children and set specific targets for teacher training, i.e. each KG joining the KG education scheme (Scheme-KG) and having admitted 8 or more NCS students should have at least 1 teacher having attended the basic course as recognised by the Education Bureau (EDB) by the 2018/19 school year; and this will be extended to all Scheme-KGs having admitted NCS students (regardless of the number) by the 2020/21 school year. In this connection, we have commissioned the University of Hong Kong to provide specified basic training programmes for KG teachers in the 2017/18 and 2018/19 school years. A total of 135 and 130 teachers have attended such programmes respectively

in the 2017/18 and 2018/19 school years. It is expected that all the 150 or so KGs with 8 or more NCS students will have at least 1 teacher attended an EDB-recognised basic training programme by the 2018/19 school year. Apart from the training provided by EDB, relevant training programmes are also offered by tertiary institutions. We have not collected relevant information from these institutions.

To encourage Chinese language teachers serving in primary and secondary schools to enroll in programmes with a view to enhancing the knowledge and skills necessary for teaching NCS students Chinese, the EDB started piloting the Language Fund-supported "Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language)" (the Scheme) in the 2014/15 school year. Programmes recognised under the Scheme are part-time Postgraduate Certificate, Postgraduate Diploma and/or Master's Degree programmes that focus on enhancing teachers' ability in teaching NCS students Chinese and helping teachers cope with the challenges of teaching NCS students. The recognised programmes offered in the school years from 2014/15 to 2018/19 are listed in the table below:

Item	School year	Institution	Programme
1	2014/15 - 2016/17	The University of Hong Kong	MEd (Teaching Chinese to NCS Students) (Part-time)
2	2014/15 - 2018/19	The Hong Kong Polytechnic University	MA in Teaching Chinese as a Foreign Language (with a specialism in Teaching Chinese as a Second Language in Hong Kong Schools) (Part-time)
3			PgD in Teaching Chinese as a Foreign Language (with a specialism in Teaching Chinese as a Second Language in Hong Kong Schools) (Part-time)
4			MA in Chinese Language and Literature (with a specialism in Chinese Language Teaching for Teachers of NCS Students) (Part-time)

In the school years from 2014/15 to 2018/19, provision is reserved/arrangement has been made for disbursement of grant to 35 and 40 Chinese language teachers serving in primary and secondary schools under the Scheme. The disbursement consists of a basic grant and an extra grant. On completion of a programme recognised under the Scheme, each teacher may be reimbursed 30% of the programme fee as a basic grant of up to $30,000 (2014/15 to 2016/17 school years) or $34,000 (2017/18 and 2018/19 school years). To encourage more serving teachers who teach NCS students Chinese to apply for the grant, and continue to serve in schools offering the local curriculum on completion of the recognised programmes, an extra grant of another 30% of the programme fee or up to $30,000 will be provided for teachers who continue to teach NCS students Chinese in schools offering the local curriculum for 3 years within the 5 years upon completion of the programme. We

will conclude the experience after piloting and study whether to extend the programme to KG teachers.

Apart from the above training, the EDB will continue to organise diversified and enrichment programmes for the professional development of teachers who teach NCS students Chinese. These programmes will cover, among others, topics like curriculum planning and the "Chinese Language Curriculum Second Language Learning Framework" (Learning Framework), assessment for learning, and second language learning and teaching strategies to facilitate schools' implementation of the Learning Framework. As at February 2019, 372 primary schools and 300 secondary schools have arranged for their teachers' participation in seminars and workshops organised by the Curriculum Development Institute of the EDB (a total of about 4 000 attendances). In addition, the EDB helps schools that have admitted NCS students establish professional learning communities to promote exchange, strengthen teachers' professional ability, enhance NCS students' effectiveness in learning Chinese and enable their smooth transition to subsequent stages of learning.

Furthermore, relevant programmes are offered by local tertiary institutions. Examples include the Diploma in Early Childhood Education (Supporting Learning and Teaching for NCS Children) programme offered by the Education University of Hong Kong, the MA in Chinese Language and Literature (with a specialism in Chinese Language Teaching for Teachers of NCS Students) programme offered by the Hong Kong Polytechnic University, and the Professional Certificate in Teaching NCS Children programme offered by the Hong Kong Institute of Vocational Education, Vocational Training Council. We have not collected information on teachers' enrolment in these programmes.

Schools assign suitable teachers to teach Chinese in light of their own context. The number of teachers teaching NCS students Chinese may vary among schools. Even within the same school, the number of teachers assigned with this task may be different every year. Without accurate mapping, we are unable to provide the percentage of teachers having received special training among teachers teaching NCS students Chinese each year.

(Question Serial No. 3248)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau has set up a dedicated team in the Bureau to step up the monitoring of the enhanced funding support for schools to support non-Chinese speaking students' learning. The team also examines the annual plans of the schools concerned on the use of the funding and verifies them against their annual school reports. Also, the Education Bureau has finalized the research framework to evaluate the effectiveness of various support measures for non-Chinese speaking students. In this connection, will the government inform this Council of:

(a) The membership of the dedicated team, as well as the positions and ranks of the members if they are government officials;
(b) The indicators set under the research framework to evaluate the effectiveness of the support measures for non-Chinese speaking students and the relative weights of these indicators;
(c) The timeline of evaluation and whether results from the review will be made publicly available;
(d) Budget spent on conducting the review with itemized expenditure (e.g. school visits, focus group, questionnaire, etc.);
(e) Whether there is periodic review of the impact of the support measures including the "Chinese Language Curriculum Second Language Learning Framework";
(f) How the Education Bureau engages researchers and teachers to make the review more evidence-based;
(g) What kinds of information will the Bureau make public from the review process to be accountable to the public; and
(h) How will the Bureau engage stakeholders such as civil society organizations and ethnic minorities in the review process?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 50)

Reply:

(a)
Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools, which was drawn up in consultation with teachers and language experts, and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted. A dedicated team, comprising Education Officers (Administration) of different ranks, has been set up in the EDB to ensure schools' proper use of the additional funding. Specifically, the team will examine the annual plans of the schools concerned on the use of the funding and verify them against their annual school reports. To monitor use of the funding, which is purpose-specific for supporting NCS students' learning of Chinese language, the team will also conduct supervisory visits to the schools. Besides, feedback will be collected from major stakeholders (including principals, co-ordinators of education support measures for NCS students, Chinese Language teachers teaching NCS students, parents of NCS students, NCS students and non-governmental organisations where appropriate) of the schools concerned through questionnaires, interviews, etc.

(b)-(h)
The EDB reviews and evaluates the effectiveness of various support measures for NCS students on an ongoing basis, and refines the measures as necessary. The EDB has established a research framework in light of the advice of experts, collected quantitative and qualitative information (including NCS students' performance in the Territory-wide System Assessment (TSA) and findings of the questionnaire surveys on TSA), as well as evaluation data on the effectiveness of school-based professional support services through questionnaire surveys and focus group interviews, so as to review the relevant support measures. We will look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning. Yet, the learning effectiveness of NCS students is affected by other factors (such as parents' expectation and cooperation, learning attitude of students). On 26 June 2017, the EDB reported to the Panel on Education the implementation progress of these support measures, including data collection and relevant work under the research framework and the overall deployment of additional funding by schools. The EDB will update the Legislative Council on the progress of the support measures in a timely manner.

The "Learning Framework" serves as a curriculum document. The EDB has consulted teachers and language experts on the formulation of the "Learning Framework", and solicited teachers' views on this curriculum document through school visits and focus group interviews, so as to introduce refinements that could make the descriptions of learning

outcomes under the "Learning Framework" more precise and concrete. The revised "Learning Framework" was uploaded onto the "Chinese Language Curriculum Second Language Learning Framework Dedicated Homepage" in January 2019 for teachers' reference and use. In parallel, the relevant assessment tools and teaching resources have been updated accordingly.

The EDB will continue to collect information to evaluate the effectiveness of its support measures and make refinements as necessary. As the relevant work is subsumed under the overall expenditure of EDB, a breakdown of the expenditure is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0336)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As mentioned in Volume I of the Estimates (page 379), the Government will provide the Hong Kong Examinations and Assessment Authority (HKEAA) with a tide-over non-recurrent grant to enable it to sustain the administration of the Hong Kong Diploma of Secondary Education (HKDSE) Examination for four school years from 2019 to 2022. At the same time, the HKEAA, in consultation with the Government, will work out a proposal to ensure its long-term financial sustainability. In this connection, has the Education Bureau (EDB) explored the option of subsuming the HKDSE Examination under its recurrent expenditure and paying the examination fees for school candidates sitting for the HKDSE Examination each year? If the EDB subsidises the administration of the HKDSE Examination, what will be the amount of additional recurrent provision required, as well as the estimation of additional recurrent expenditure on HKDSE examination fees for school candidates each year?

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 44)

Reply:

The Hong Kong Examinations and Assessment Authority (HKEAA) is an independent statutory body set up in accordance with the Hong Kong Examinations and Assessment Authority Ordinance (Cap. 261) (HKEAAO). The Hong Kong Diploma of Secondary Education (HKDSE) Examination fees charged according to the HKEAAO is a major source of income of the HKEAA. In 2017/18, the income related to the HKDSE Examination accounted for about 52% of the HKEAA's income, while that related to international and professional examinations as well as other local examinations contributed to the remaining share of the income. The current mode of operation and cost structure of the HKEAA cannot support the long-term operation of the HKDSE Examination, resulting in financial difficulties faced by the HKEAA. In 2017/18, the HKDSE Examination recorded a deficit of about $69.2 million, leading to an overall deficit of about $10.1 million

for the HKEAA, partly offset by the surplus derived from other income. As the candidature for HKDSE Examination is expected to stay on a declining trend in the coming years, the financial position of the HKEAA will continue to deteriorate.

The HKEAA is working out a proposal to ensure its long-term financial sustainability in consultation with the Government. A concrete plan is yet to be formulated. The proposal to support the operation of HKDSE Examination and the HKEAA with the provision of recurrent funding from the Government involves a number of important and complicated policy issues, which requires careful consideration. As a tide-over measure pending the comprehensive review, the Government will provide the HKEAA with a non-recurrent funding of no more than $360.8 million in 4 years to support its effective operation during the period.

The estimated total expenditure for paying the examination fees on behalf of the 2020 HKDSE Examination candidates is around $160 million, which includes a contingency provision.

The HKEAA and the Government envisage that the detailed study will take time to complete. Views of Members of relevant Legislative Council committees and stakeholders will be sought and carefully considered in the process to ensure that the recommended way forward can support HKEAA's effective operation in the long run.

(1)

The Government is committed to providing young people with quality and diversified study pathways with multiple entry and exit points, thus enabling them to unleash their full potential in accordance with their interests, aptitudes and abilities.

The Government provides 12-year free basic education and implements the kindergarten education scheme to provide kindergartens with direct subsidy which is, in principle, sufficient for the provision of free half-day service, and maintaining the fees for whole-day service at a low level. As for higher education, the Government subsidises over 80% of the costs required for the University Grants Committee (UGC)-funded undergraduate programmes.

To help needy students, the Government provides student assistance and subsidies in other areas (such as School Textbook Assistance, Student Travel Subsidy and Free Lunch at

Schools). As far as post-secondary students are concerned, the Government provides means-tested as well as non-means-tested student assistance. In recent years, the Government has further supported needy post-secondary students through a number of assistance programmes, under the Community Care Fund, such as providing hostel subsidy for needy undergraduate students, increasing the academic expenses grant under the Financial Assistance Scheme for Post-secondary Students, and enhancing the academic expenses grant for students with special educational needs and financial needs pursuing post-secondary programmes. The above measures ensure that no students are denied access to education because of lack of means and that there are sufficient upward mobility opportunities for students from underprivileged families.

The Education Bureau (EDB) endeavours to ensure the quality of education. On primary and secondary education, the EDB sees that the school curriculum, through continuous renewal, could keep pace with the times and focus on current and emerging development priorities, so as to prepare students for advancement in a knowledge-based, technologically-advanced and globalised world. To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the EDB has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance or full grant under the Student Financial Assistance Schemes. In the 2018/19 school year, the total funding for the Programme is about $240 million, in which about $114 million is for the School-based Grant and about $126 million for the Community-based Project Grant. The activities under the two grants are targeted at about 201 700 and 100 000 eligible students respectively.

At present, there are 21 local degree-awarding institutions in Hong Kong. In the 2018/19 academic year, around 460 first-year-first-degree programmes and 370 sub-degree programmes are offered by these institutions. Besides, students may, in light of their aspirations and abilities, opt for other programmes, such as Diploma Yi Jin programmes as well as non-local courses offered in Hong Kong. Students may also study in the Mainland or elsewhere. In the 2018/19 academic year, there are about 56 600 full-time locally-accredited post-secondary places, which include 24 500 first-year-first-degree places (covering 15 000 UGC-funded first-year-first-degree places) and 32 100 sub-degree places. Through the parallel development of the publicly-funded and self-financing sectors, about 50% of young people in the relevant age cohorts had access to degree-level education in the 2018/19 academic year. If sub-degree places are taken into account, over 70% of young people have access to post-secondary education.

In recent years, the Government has rolled out a series of measures to further increase subsidised higher education opportunities, in a bid to provide secondary school leavers with broader and more diversified articulation pathways. For example, the number of UGC-funded senior year undergraduate places has been progressively increased, and starting from the 2018/19 academic year, 5 000 meritorious sub-degree graduates are able to articulate to subsidised degree programmes each year. Meanwhile, under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), students are provided with subsidy to pursue self-financing undergraduate programmes in selected disciplines to meet

Hong Kong's manpower needs. Launched in the 2015/16 academic year, the SSSDP is regularised from the 2018/19 academic year to provide about 3 000 subsidised undergraduate places per cohort. The scope of the SSSDP will be expanded in the 2019/20 academic year to offer about 2 000 subsidised sub-degree places per cohort. Starting from the 2017/18 academic year, a non-means-tested annual subsidy of about $30,000 is provided for eligible students pursuing full-time locally accredited local and non-local self-financing first-year-first-degree and top-up degree programmes offered by eligible institutions in Hong Kong.

Apart from various local post-secondary education programmes, students may also pursue further studies in the Mainland or elsewhere. Under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme) in 2018, there were 102 Mainland higher education institutions that considered the admission of Hong Kong students based on their Hong Kong Diploma of Secondary Education Examination results and exempted them from the Mainland's Joint Entrance Examination. In 2019, the number of Mainland higher education institutions participating in the Admission Scheme will increase to 112. The EDB has also launched the Mainland University Study Subsidy Scheme to subsidise Hong Kong students to pursue undergraduate studies in designated Mainland institutions. To nurture top talent in various fields to support the development of Hong Kong, the Hong Kong Scholarship for Excellence Scheme has been implemented to subsidise up to 100 outstanding students per cohort to pursue studies in world-renowned universities outside Hong Kong. Means-tested bursaries are made available under the above two schemes to support needy students as appropriate.

The Government injected $3 billion into the Research Endowment Fund to provide, from the 2018/19 academic year, tuition waiver for local students pursuing UGC-funded research postgraduate (RPg) programmes, with a view to attracting more local students to pursue RPg programmes.

On vocational and professional education and training (VPET), the Government spares no effort to provide students with more valued study options. In recent years, various measures have been introduced to support students in pursuing VPET. Such measures include the implementation of the Training and Support Scheme through the Vocational Training Council (VTC), under which 1 200 training places are offered per year for trainees to join industries which require specialised skills under the "Earn and Learn" model. In the next three years, the Government will continue to provide, under the Pilot Subsidy Scheme for Students of Professional Part-time Programmes, tuition fee subsidy for students admitted to designated part-time programmes offered by the VTC. The schemes not only enhance the competitiveness of young people and working adults, but also attract and retain talent for relevant industries. We will work closely with stakeholders to further promote VPET as an integral part of multiple pathways.

(2) to (7)
In respect of statistics on students studying in post-secondary institutions, the EDB and UGC Secretariat do not collect information on income of the students or their household.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government has been vigorously promoting the development of technology industries, artificial intelligence technologies, big data analytics and computer programming in recent years. As pointed out in the Policy Address, there is a need to boost the development of innovation and technology, and education is clearly integral to achieving this goal. In this connection, please inform this Committee of the provision for STEAM education in various education areas under programmes (2) to (6).

Reply:

To align with the worldwide educational trend and to equip students with necessary knowledge and skills in response to the rapid economic, scientific and technological developments, as well as the changes and challenges in society, the Government has made significant efforts to promote STEM education in recent years. For primary and secondary schools, STEM education is implemented through the curricula of the Science, Technology and Mathematics Education Key Learning Areas (KLAs). In late 2016, the Education Bureau (EDB) released the Report on "Promotion of STEM Education – Unleashing Potential in Innovation", which set out recommended measures including renewing the curricula of Science, Technology and Mathematics Education KLAs, enriching the learning activities for students, providing schools with resources, enhancing professional development for teachers, strengthening partnerships with key stakeholders in the community, as well as conducting review on the implementation and sharing of good practices. In the 2015/16 and 2016/17 school years, we provided a one-off grant of $100,000 and $200,000 to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school respectively to support them to implement school-based activities/projects on STEM education. Other recommended measures are being implemented progressively. This one-off grant is not the only resource we provided for STEM education. Since STEM education at the primary and secondary levels is implemented through the curricula of the Science, Technology and Mathematics Education KLAs, resources for STEM education at schools are already covered by the provisions for these KLAs. The objective of STEM education is to enable students to integrate and apply different subject knowledge in everyday life and to conduct various kinds of exploration. Therefore, the resources for STEM education cannot be readily separated from the teaching resources provided for individual subjects for statistical purpose. The expenditure involved in the promotion of STEM education in primary and secondary schools (including special schools) is subsumed under the overall expenditure of the EDB, and a breakdown of the expenditure in this regard is not available. It is proposed in the 2018 Policy Address that a new recurrent Life-wide Learning Grant with an annual provision of $900 million will be provided to all public sector and DSS schools starting from the 2019/20 school year, to support schools to take forward life-wide learning with enhanced efforts, including STEM-related learning activities. Schools can use the resources to tie in with STEM education by organising enlivened and enriched experiential learning activities to provide students with more opportunities to apply what they have learned, thus enhancing their learning effectiveness. The Kindergarten Education curriculum focuses primarily on helping children develop good living habits and a strong and healthy body and instilling in them positive values and attitudes. Unlike primary and secondary schools, the curriculum in kindergartens does not include the teaching of subjects and also does not emphasise STEM education-related subject knowledge. Instead, teachers will select events related to children's daily lives as the learning themes based on their ages, pace of development, abilities and interests, with a view to fostering their exploratory spirit.

By launching the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), we encourage the self-financing post-secondary education sector to offer designated programmes in disciplines including computer science and financial technology to nurture

talent in support of specific industries with keen demand for human resources. Starting from the 2015/16 academic year, the SSSDP subsidises about 1 000 students per cohort to pursue designated full-time locally accredited self-financing undergraduate programmes in selected disciplines on a pilot basis. As announced in the 2017 Policy Address, the SSSDP is regularised from the 2018/19 academic year with an increase in the number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes also receive the subsidy from the 2018/19 academic year. Students of designated computer science and financial technology programmes are subsidised under the SSSDP from the 2018/19 academic year onwards. In the 2019/20 academic year, there are a total of 38 programmes offered under the SSSDP, including 5 computer science programmes and 4 financial technology programmes which provide 306 and 265 subsidised first-year intake places respectively. The funding provision for the 2018/19 academic year (as at 28 February 2019) was $25 million, while that for the 2019/20 academic year is estimated at around $39 million.

To promote and support STEM education, the Vocational Training Council (VTC) set up the VTC STEM Education Centres in May 2017 to enhance teaching and learning of STEM-related subjects through the development of various technological applications and the support of state-of-the-art teaching facilities. The Centres also make use of Virtual Reality (VR) and Augmented Reality (AR) technologies to provide simulated workplace training for students. These technologies are applied to the teaching and learning of various programmes, including lift and escalator maintenance, airport facilities operation, aircraft maintenance engineering, automotive engineering and horticulture to enhance teaching effectiveness and train up effective VPET personnel who excel in practical know-how. The Centres also organise various kinds of STEM workshops and large-scale competitions to arouse the interest of primary and secondary students in science subjects, increase the popularity of STEM education, and motivate the younger generation to acquire knowledge in STEM-related disciplines. In April 2018, the Centres signed a Memorandum of Understanding on the Industry Partner Collaboration Scheme with over a dozen local major enterprises and institutions, with a view to introducing the younger generation to the prospect of STEM industries and encouraging them to pursue a career in these industries. This collaboration platform has enabled the Centres to undertake a number of interdisciplinary projects with industry partners, and invite industry veterans to share their extensive trade knowledge and information on the latest technological developments with students as STEM Ambassadors in order to enhance students' understanding of STEM industries whereby facilitating talent development. Up to the 2018-19 financial year, the Government has allocated a total of about $21.5 million to support VTC in the establishment of VTC STEM Education Centres and provision of teaching facilities.

As regards the University Grants Committee (UGC)-funded universities, the bulk of recurrent grants to the universities are in the form of a block grant based on the approved student numbers allocated to universities. As funding for the programmes related to STEAM (Science, Technology, Engineering, Arts and Mathematics) education is subsumed under the block grants, the UGC is unable to attribute the actual subvention on specific academic programmes.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0593)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out in table form the information of Native-speaking English Teachers (NETs) engaged in government primary schools, aided primary schools and primary schools under Direct Subsidy Scheme (DSS) from the 2009/10 to 2019/20 school years:

(1) the respective number of NETs as regular teachers and contract teachers;
(2) the average number of NETs among schools in each district;
(3) the average number of students under the care of each NET;
(4) the average number of teaching hours per NET;
(5) the average income of NETs;
(6) the median income ; and
(7) the average number of hours allocated to English lessons per week for Primary one to six in government primary schools, aided primary schools and primary schools under DSS from the 2008/09 to 2019/20 school years.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 22)

Reply:

Native-speaking English Teacher (NET) Scheme covers public sector schools, i.e. government, aided and caput schools. As such, the information provided under Item (1) to (6) below does not include primary schools under the Direct Subsidy Scheme (DSS). In respect of DSS schools, the NET provision has been factored into the average unit cost of an aided school place which is used for the calculation of DSS subsidy. DSS schools are free to deploy their resources for the appointment of teachers. Besides, to give a timely and appropriate response to questions raised by the Legislative Council members, we now provide the relevant information for the past 5 years. As the data for the 2019/20 school year is not yet available, information given under Item (1), (5) and (6) below covers the 2014/15 to 2018/19 school years.

(1) All NETs are employed on 2-year renewable contract terms. Hence, no NETs are employed as regular teachers within establishment. The numbers of teachers employed under the NET Scheme in Primary Schools from the 2014/15 to 2018/19 school year are as follows:

School Year	Government Schools	Aided Schools	Total
2014/15	34	421	455
2015/16	34	425	459
2016/17	34	427	461
2017/18	34	426	460
2018/19	34	434	468

(2) In general, each eligible public sector primary school operating 6 classes or more (including special schools (primary section) offering the mainstream curriculum and schools for children with intellectual disabilities (primary section) offering an appropriate school-based English Language curriculum) is provided with 1 NET. As the average number of NETs among schools in each district is not meaningful to the implementation and management of the NET Scheme, the EDB has not collected relevant statistics.

(3) and (4) According to the NET Deployment Guidelines for the NET Scheme in Primary Schools issued in 2018, it is recommended that NETs teach 15 to 17 hours per week, with a minimum of 14 hours dedicated to collaborative teaching. Apart from teaching, NETs are required to discharge other related duties. Examples include organising co-curricular activities, collaborative lesson planning for each grade level taught, developing school-based curriculum and teaching resources together with local English teachers, participating in professional development activities, and disseminating good practices through school-based sharing sessions or networking activities. Schools in general follow the Guidelines in assigning teaching duties to NETs. As NETs are mainly responsible for collaborating with other school teachers to promote good pedagogical practices, thereby improving the overall learning and teaching of English in the school, the average number of students under the care of each NET does not constitute an appropriate measure of the work and effectiveness of NETs and we have not collected relevant statistics.

(5) and (6) The average monthly salary and median monthly salary of NETs in government and aided primary schools from the 2014/15 to 2018/19 school year are as follows:

	2014/15		2015/16		2016/17		2017/18		2018/19	
	Government	Aided	Government	Aided	Government	Aided	Government	Aided	Government	Aided
Average Monthly Salary ($)	40,061	41,162	44,319	43,435	46,201	45,101	46,435	45,212	50,504	49,442
Median Monthly Salary ($)	41,195	37,620	46,183	39,360	47,240	43,145	47,240	43,145	53,195	46,420

(7) The Basic Education Curriculum Guide – To Sustain, Deepen and Focus on Learning to Learn (Primary 1-6) prepared by the Curriculum Development Council in 2014 suggests that all primary schools implementing the local English language curriculum in Hong Kong, including government, aided and DSS schools, should allocate 17-21% of their lesson time to English language education for Primary 1-6. That is to say, an average of about 135 to 166 hours of lesson time should be dedicated to the subject of English language for Primary 1-6 each year. As long as the total lesson time scheduled is within the recommended range, schools may work out their own lesson time for different class levels in light of school contexts and students' learning needs. It is worth noting that as recommended by the EDB's Guide, the learning of English should not be confined to the classroom. Instead, students should be given diverse learning opportunities as far as possible for better exposure to English and more opportunities to use it. Through school visits and regular contacts with schools, we observe that most primary schools act in accordance with the EDB's recommendation to allocate the suggested lesson time for the subject of English. In addition, rather than confining students' learning of English to English language lessons, many schools effectively make use of the time beyond class hours (including recess time and lunch breaks) and organise activities after school and on non-school days to enrich students' English learning experience.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0594)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out in a table the following information about the member institutions of the Vocational Training Council (VTC) from the 2007/08 to 2019/20 academic years:

1. Total number of school places;
2. Numbers of publicly-funded places and applicants who applied for them; and
3. Numbers of non-publicly-funded places and applicants who applied for them.

- Please set out the average amount of financial assistance granted to students by academic discipline from the 2009/10 to 2019/20 academic years.
- Please set out the number of programmes offered by the VTC pegged at each Qualification Framework level.
- Please set out in a table the following information about the member institutions of VTC from the 2009/10 to 2019/20 academic years:

4. Employment, unemployment and underemployment rates of students in their first year after graduation;
5. Industries covered under the programmes offered by various faculties of these institutions, and the percentage of places for each industry; and
6. A breakdown of the percentages of students who work in jobs related to their programme of study 2 years after graduation by industry.
7. How does the VTC assess the effectiveness of vocational education? How effective is it?

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 23)

Reply:

1, 2, 3. The Vocational Training Council (VTC) offers a wide range of vocational and professional education and training (VPET) programmes through its member institutions. From the 2015/16 to 2019/20 academic years (AYs), the numbers of

planned places for new intakes and actual intakes of VTC's full-time programmes are set out below:

Qualifications	2015/16		2016/17		2017/18		2018/19		2019/20 (Estimate)
	Planned Places	Intake	Planned Places	Intake	Planned Places	Intake	Planned Places	Intake	Planned Places
Subvented programmes	17 455	20 057	17 148	19 953	17 450	18 282	17 382	18 493	17 495
Self-financing programmes	7 215	6 348	6 094	5 059	4 240	4 904	4 371	4 419	4 072
Total	24 670	26 405	23 242	25 012	21 690	23 186	21 753	22 912	21 567

The average amount of financial assistance granted to students by academic discipline is not available.

The number of programmes offered by the VTC pegged at each level under the Qualification Register is as follows:

Qualification framework level	Number of programmes in the 2019/20 AY
Level 5	23
Level 4	116
Level 3	55
Level 2	12

4. The relevant information on the unemployment and underemployment rates of students within their first year after graduation is not available. The employment rate of graduates of full-time programmes is as follows:

AY	Employment rate of graduates*
2015/16	90%
2016/17	92%
2017/18 (Provisional)	92%

*About 6 months after graduation

5. The VTC offers a wide range of VPET programmes, which aim at nurturing talents of different professions, including applied science, business administration, childcare, elderly and community services, design, engineering, hospitality , and information technology. From the 2015/16 to 2019/20 AYs, the number and percentage of planned places for new intake for full-time Higher Diploma programmes are as follows:

	2015/16 AY		2016/17 AY		2017/18 AY		2018/19 AY		2019/20 AY	
	Planned Places	%	Planned Places	%	Planned Places	%	Planned Places	%	Planned Places	%
Applied Science	1 260	10%	1 200	10%	1 170	10%	1 140	11%	1 140	11%
Business Administration	2 370	18%	1 770	15%	1 200	11%	1 020	9%	900	9%
Childcare, Elderly and Community Services	735	6%	735	6%	795	7%	795	7%	750	7%
Design	2 220	17%	2 265	19%	2 070	19%	2 010	19%	2 190	21%
Engineering	2 940	23%	2 880	24%	2 850	26%	2 550	24%	2 230	22%
Hospitality	1 980	15%	1 740	15%	1 650	15%	1 860	17%	1 690	16%
Information Technology	1 350	11%	1 320	11%	1 290	12%	1 170	11%	1 300	12%
Cross-discipline	-	-	-	-	-	-	180	2%	210	2%
Total	12 855	100%	11 910	100%	11 025	100%	10 725	100%	10 410	100%

6. The VTC has not maintained data on students who work in jobs related to their programme of study two years after graduation.

7. The VTC adopts a set of performance indicators to gauge and assess the performance of their programmes and services. Evaluation reports on the related programmes are prepared every year to thoroughly evaluate the programme performance based on the feedback given by stakeholders, such as students, external examiners and employers. All evaluation reports will be examined by the relevant programme committees. Evaluation findings provide important data for the continuous improvements in programme design, teaching and assessment. VTC's programmes are professionally recognised, which shows that they meet the industry standards. Graduates are equipped with the relevant professional knowledge and ability to unleash their potential in various industries. With the over 90% employment rate of graduates, the effectiveness of the programmes is satisfactory.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0595)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please tabulate, by District Council district, the average and median numbers of students in each Primary One class in government, aided and Direct Subsidy Scheme (DSS) primary schools in the 2009/10 to 2019/20 school years.

(1) How does the Government evaluate the effectiveness of small class teaching? How effective is small class teaching according to the criteria adopted by the Education Bureau to evaluate small class teaching?

(2) Please tabulate, by District Council district, the number of regular teachers, contract teachers and personnel who provide support for teaching (other than teachers) in government, aided and DSS primary schools in the 2009/10 to 2019/20 school years.

(3) Please tabulate, by District Council district, the number of retired teachers and newcomers to teaching in government, aided and DSS primary schools in the 2009/10 to 2019/20 school years.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 24)

Reply:

To give a timely and appropriate response to the question raised by the Legislative Council member, we now provide the relevant information for the past 5 years. The average and median numbers of students per Primary One class of government, aided and Direct Subsidy Scheme (DSS) primary schools in the 2014/15 to 2018/19 school years are set out in Annex. Figures for the 2019/20 school year would only be available after collection of the required information from schools via the Enrolment Survey conducted at the commencement of the school year.

(1) Conceptually speaking, small class teaching (SCT) is more of a teaching strategy. SCT does not simply involve a sheer reduction in class size. Schools and teachers should enhance the effectiveness of teaching by optimising the use of the classroom environment with a reduced class size. As such, through various professional development activities including building learning communities and learning circles, and organising seminars, workshops, and experience sharing sessions, etc., we have been supporting teachers in devising appropriate pedagogical strategies and applying different teaching modes in a SCT environment. Apart from these professional development activities, we also regularly collect views from the school sector on the effectiveness of SCT through various channels such as school visits and lesson observations. In general, school heads and teachers agree that SCT can engage students more in class activities, give teachers more space to cater for learner diversity by employing different teaching strategies, and contribute to overall learning and teaching.

Besides, under the School Development and Accountability Framework, schools implementing SCT, like other schools, are required to set out in their school development plans the strategies and measures for providing quality education, to conduct an annual review of their learning and teaching strategies, and to present the review findings as well as ways of improvement in their school reports. Schools' self-evaluation results will be verified by external reviews conducted by the Education Bureau (EDB) to help schools assess the effectiveness of learning and teaching.

(2) As the EDB does not maintain teacher appointment data by District Council district, a breakdown of the relevant statistics is not available. The respective number of regular teachers and contract teachers (i.e. those employed using cash grants from the Government or schools' own funding) in government and aided primary schools, and the number of teachers in DSS primary schools in recent years (from the 2014/15 to 2018/19 school years) are set out below:

Primary Schools (Government, Aided and DSS)

School Year	Government Primary Schools		Aided Primary Schools		DSS Primary Schools[#]
	Number of Regular Teachers[*]	Number of Contract Teachers[*]	Number of Regular Teachers[*]	Number of Contract Teachers[*]	Number of Teachers[*]
2014/15	1 230	100	16 100	1 270	1 240
2015/16	1 190	90	16 310	1 520	1 250
2016/17	1 210	100	16 550	1 700	1 270
2017/18	1 220	110	17 920	1 610	1 290
2018/19 (Estimate)	1 290	130	18 490	1 750	1 300

* Numbers are rounded to the nearest 10.

\# DSS schools do not distinguish between regular and contract teachers.

As the EDB does not collect information on supporting teaching staff outside the teaching establishment in different types of schools, relevant statistics are not available.

(3) Since the EDB does not maintain figures showing a breakdown of the numbers of retired and newly-joined teachers by District Council district, the relevant information is not available. The respective number of retired teachers in government, aided and DSS primary schools in recent years (from the 2014/15 to 2018/19 school years) is set out below:

Primary Schools (Government, Aided and DSS)

School Year	Number of Retired Teachers*		
	Government Primary Schools	Aided Primary Schools	DSS Primary Schools
2014/15	30	200	0
2015/16	10	190	10
2016/17	20	190	0
2017/18	20	200	0
2018/19 (Estimate)	20	210	0

* Numbers are rounded to the nearest 10.

The respective number of new teachers joining the teaching profession in government, aided and DSS primary schools in the school years from 2014/15 to 2018/19 is set out below:

Primary Schools (Government, Aided and DSS)

School Year	Number of New Teachers Joining the Teaching Profession*		
	Government Primary Schools	Aided Primary Schools	DSS Primary Schools
2014/15	30	820	100
2015/16	40	850	70
2016/17	30	890	90
2017/18	60	1 270	80
2018/19 (Estimate)	40	1 170	70

* Numbers are rounded to the nearest 10.

Annex

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0596)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please tabulate the respective numbers of regular teachers, contract teachers and teaching assistants employed outside the teacher establishment in government, aided and Direct Subsidy Scheme (DSS) secondary schools in the school years from 2008/09 to 2019/20, with a breakdown by District Council district.

(1) Please tabulate the respective numbers of retired teachers, teachers retired under the Early Retirement Scheme for Aided Secondary School Teachers, and newly-joined teachers in government, aided and DSS secondary schools in the school years from 2008/09 to 2012/13, with a breakdown by District Council district.

(2) Please tabulate the respective numbers of school candidates and private candidates in the Hong Kong Diploma of Secondary Education (HKDSE) Examination in 2012 and 2013, with a breakdown by District Council district the number of subjects (1 to 8) entered.

(3) Please tabulate the respective numbers of school candidates and private candidates entering for Category A, Category B and Category C subjects in the HKDSE Examination between 2012 and 2020.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 25)

Reply:

As the Education Bureau (EDB) does not maintain teacher appointment data by District Council district, a breakdown of the relevant statistics is not available. The respective numbers of regular teachers and contract teachers (i.e. those employed using cash grants from the government or schools' own funding) in government and aided secondary schools, and the number of teachers in Direct Subsidy Scheme (DSS) secondary schools in recent years are set out below:

Government, Aided and DSS Secondary Schools

School Year	Government Secondary Schools		Aided Secondary Schools		DSS Secondary Schools #
	Number of regular teachers*	Number of contract teachers*	Number of regular teachers*	Number of contract teachers*	Number of teachers*
2014/15	1 440	90	19 050	2 110	4 060
2015/16	1 370	110	18 580	2 260	4 060
2016/17	1 390	80	18 260	2 250	4 110
2017/18	1 380	80	18 610	1 820	4 130
2018/19 (Estimate)	1 430	70	18 410	2 050	4 120

* Numbers are rounded to the nearest 10.
# DSS schools do not distinguish between regular and contract teachers.

As the EDB does not collect information on teaching assistants employed outside the teacher establishment in different types of schools, a breakdown of the relevant statistics is not available.

(1) Since the EDB does not maintain a breakdown of the numbers of retired and newly-joined teachers by District Council district, the relevant information is not available. The respective numbers of retired teachers in government, aided and DSS secondary schools, and the number of teachers retired under the Early Retirement Scheme for Aided Secondary School Teachers in the school years from 2008/09 to 2012/13 are set out below:

Government, Aided and DSS Secondary Schools

School Year	Number of retired teachers*			Number of teachers retired under the Early Retirement Scheme for Aided Secondary School Teachers
	Government Secondary Schools	Aided Secondary Schools	DSS Secondary Schools	
2008/09	50	200	20	119
2009/10	30	190	10	119
2010/11	40	230	20	139
2011/12	30	140	20	56
2012/13	60	310	30	201

* Numbers are rounded to the nearest 10.

The respective numbers of new teachers joining the teaching profession in government, aided and DSS secondary schools in the school years from 2008/09 to 2012/13 are set out below:

Government, Aided and DSS Secondary Schools

School Year	Number of new teachers joining the teaching profession*		
	Government Secondary Schools	Aided Secondary Schools	DSS Secondary Schools
2008/09	80	930	270
2009/10	60	780	210
2010/11	40	770	280
2011/12	70	1 290	290
2012/13	30	410	160

* Numbers are rounded to the nearest 10.

(2) The EDB does not have information on the respective numbers of school candidates and private candidates entering 1 to 8 subjects in the Hong Kong Diploma of Secondary Education (HKDSE) Examination in 2012 and 2013 by District Council district.

(3) As registration for the 2020 HKDSE Examination has not started yet, relevant statistics are not available. The respective numbers of school candidates and private candidates entering for Category A, Category B and Category C subjects in the HKDSE Examination between 2012 and 2019 are set out below:

		Year of examination							
		2012	**2013**	**2014**	**2015**	**2016**	**2017**	**2018**	**2019^**

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0597)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In the Hong Kong Diploma of Secondary Education Examination, students who enter for Category B (Applied Learning) subjects and attain "Attained with Distinction (II)" will only be awarded Level 4 as the highest level, which affects their admission to universities. In this connection, please advise this Committee of the following:

Among the students entering for Category B (Applied Learning) subjects,

a. the number and percentage of candidates enrolling in undergraduate programmes in funded universities;
b. the number and percentage of candidates enrolling in sub-degree programmes;
c. the number and percentage of candidates enrolling in vocational and professional education and training programmes;
d. the number and percentage of candidates who fail to enroll in any post-secondary as well as vocational and professional education programmes.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 26)

Reply:

Effective from the 2018 Hong Kong Diploma of Secondary Education Examination (HKDSE), the reporting of student performance in Applied Learning (ApL) is refined to "Attained", "Attained with Distinction (I)" and "Attained with Distinction (II)". Performance of "Attained with Distinction (I)" is comparable to Level 3 while "Attained with Distinction (II)" is comparable to Level 4 or above of Category A subjects of the HKDSE. The duration of Category B ApL subjects is 180 contact hours, and there is no public examination for these subjects. ApL offers studies with stronger elements of practical learning linked to broad vocational fields. Since the learning contents and modes of assessment of Category A subjects and Category B subjects are different, adopting a unified practice of reporting candidates' performance is inappropriate. The Education

Bureau has not conducted any statistical survey on the further studies of candidates of ApL subjects and thus the relevant figures are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0598)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under Programme (4) that the Education Bureau will extend the Enhanced School-based Educational Psychology Service (with the ratio of educational psychologist (EP) to school being 1:4) to about 60 per cent of all public sector schools and enhance the ratio of EP to school to 1:6 for the remaining 40 per cent of schools by the 2023/24 school year. In this connection, would the Government advise this Committee of:

(1) the specific division of labour between school social workers and EPs after the implementation of "two school social workers for each school" policy in more than 460 secondary schools in Hong Kong; and

(2) the number of additional EPs required to achieve the objectives of providing service with an enhanced EP-to-school ratio in each of the following years:

Year	Number of additional EPs required
2019-20	
2020-21	
2021-22	
2022-23	

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 27)

Reply:

(1) School social work service in secondary schools is subsidised by the Social Welfare Department and provided via non-governmental organisations. School social workers in secondary schools collaborate closely with schools to understand the needs of students. Through providing counselling service and organising different groups and programmes, school social workers help needy students resolve their academic, social and emotional

problems. Besides, through working with their service organisations and other relevant service units in the community, including Integrated Children and Youth Services Centres and Integrated Family Service Centres, collaborating closely with stakeholders as well as making good use of community resources and timely referral services, school social workers assist students in understanding and solving their problems. School social workers also enhance parents' and teachers' understanding of problems faced by students and seek help from relevant service units where necessary.

The School-based Educational Psychology Service (SBEPS) in public sector mainstream schools is provided by the Education Bureau (EDB) or school sponsoring bodies. School-based educational psychologists (EPs) adopt a comprehensive and integrated service model to provide support at the school system, teacher and student levels to enhance schools' professional capacity to cater for students' diverse educational needs. Specifically, EPs provide assessment and intervention services for students in need, including cases with more complex behavioural, emotional or learning needs referred by school social workers. Furthermore, EPs deliver parent training, provide consultation and professional development for teachers and offer professional advice on school policies and measures in relation to the support for students with diverse educational needs.

(2) As announced by the Chief Executive in the 2018 Policy Address, the Enhanced School-based Educational Psychology Service (Enhanced SBEPS) will be extended with the target of about 60% of public sector schools receiving the Enhanced SBEPS by the 2023/24 school year; that is, the ratio of EP to school at 1:4. The ratio will be enhanced to 1:6 for the remaining 40% of schools. In the 2018/19 school year, the number of EPs involved in the provision of the SBEPS for public sector schools is 151. Solely based on the demand for manpower to directly provide the SBEPS, about 50 more EPs will be needed to achieve the above-mentioned targets. Nonetheless, the supply of and demand for EPs are affected by many factors such as the implementation of new measures requiring educational psychology service, demand for EPs in other sectors, wastage of EPs, etc. The EDB will continue to keep in view the supply of and demand for EPs in planning for the number of EPs required for each year, with the aim of achieving the above-mentioned targets in the 2023/24 school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0599)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

For primary education, as mentioned on page 373, Volume I of the Estimates, the Government will continue with the enhanced provision of student guidance service for primary schools by implementing the policy of "one school social worker for each school" in public sector primary schools. The enhancement began in the 2018/19 school year, with a view to strengthening student guidance service in public sector primary schools. In this connection, would the Government advise this Committee of:

(1) the timetable for achieving the goal of "one school social worker for each school" in public sector primary school;

(2) whether there are plans to review the effectiveness of "one school social worker for each school" policy and the difficulties encountered by social workers; if yes, the time schedule; and

(3) the number of primary students using the student guidance service by district.

District	No. of primary students using the student guidance service
Central and Western	
Eastern	
Islands	
Kowloon City	
Kwai Tsing	
Kwun Tong	
North	
Sai Kung	
Sha Tin	
Sham Shui Po

Wan Chai	
Wong Tai Sin	
Yau Tsim Mong	
Yuen Long	

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 28)

Reply:

(1) and (2)

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" according to school-based circumstances. The measure is implemented on the basis of the Comprehensive Student Guidance Service (CSGS) to provide schools with more resources. The objective of the measure is to further enhance the overall quality of guidance service by ensuring that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualification.

As regards schools with Student Guidance Teachers (SGTs), they can continue with the existing arrangements. For those without SGTs, the Education Bureau (EDB) will provide a 3-year transitional period for them to switch to the New Funding Mode before the 2021/22 school year. In case schools are not able to switch to the New Funding Mode after the three-year transitional period owing to the need for more time to handle personnel matters in respect of their serving student guidance personnel, including retaining their serving student guidance personnel due to special needs, they may discuss with the EDB separately. In the 2018/19 school year, 223 public sector primary schools have switched to the New Funding Mode, accounting for about 50% of all public sector primary schools. For the purpose of review, the EDB will collect data and views on the implementation of the policy of "one school social worker for each school" by such means as questionnaire surveys, school visits and meetings with the education sector in the 2018/19 school year.

(3) Since the implementation of the CSGS in the 2002/03 school year, teachers are working in collaboration with student guidance personnel and professionals to provide remedial, preventive and developmental guidance services for all students. In other words, the service provided by student guidance personnel benefits all students studying in public sector primary schools across the territory. The EDB does not maintain statistics of individual districts.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0600)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Under Post-secondary, Vocational and Professional Education (VPET) on Page 380, Volume I, it is mentioned that a comprehensive system of VPET services is provided through its member institutes such as the Institute of Professional Education and Knowledge, Hong Kong Institute of Vocational Education, Hong Kong Design Institute, International Culinary Institute, Hotel and Tourism Institute, Chinese Culinary Institute, Maritime Services Training Institute, Pro-Act Training and Development Centres, Youth College and Integrated Vocational Development Centre. In respect of VPET, the Vocational Training Council (VTC) offers a wide range of full-time and part-time programmes. In this regard, would the Government advise this Committee of the following:

(1) the graduation rate of VTC students and the number of students involved;

(2) the respective number of students in various institutions;

	No. of Students	No. of Graduates	Graduation Rate
Institute of Professional Education and Knowledge			
Hong Kong Institute of Vocational Education			
Hong Kong Design Institute			
International Culinary Institute			
Hotel and Tourism Institute			
Chinese Culinary Institute			

Maritime Services Training Institute			
Pro-Act Training and Development Centres			
Youth College			
Integrated Vocational Development Centre			

(3) the respective number of graduates and graduation rate for the past 5 years.

	No. of Graduates (Graduation Rate)				
Institute of Professional Education and Knowledge	2013-14	2014-15	2015-16	2016-17	2017-18
Hong Kong Institute of Vocational Education					
Hong Kong Design Institute

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 29)

Reply:

The number of students of the Vocational Training Council (VTC) in the 2017/18 academic year is set out below:

	No. of Students in the 2017/18 Academic Year
Institute of Professional Education and Knowledge	114 505
Hong Kong Institute of Vocational Education	33 611
Hong Kong Design Institute	4 915
Hotel and Tourism Institute/Chinese Culinary Institute/International Culinary Institute	7 416

Maritime Services Training Institute	4 403
Pro-Act Training and Development Centres	8 073
Youth College	11 632
Integrated Vocational Development Centre	3 475

The respective number of graduates and graduation rate for the past 5 years are set out below:

	No. of Graduates^ (Graduation Rate*)				
	2013-14	2014-15	2015-16	2016-17	2017-18
Hong Kong Institute of Vocational Education	18 840 (84)	16 640 (81)	16 450 (79)	14 834 (76)	14 873 (76)
Hong Kong Design Institute	2 160 (89)	2 077 (85)	2 305 (82)	2 253 (79)	2 048 (74)
Hotel and Tourism Institute/Chinese Culinary Institute/International Culinary Institute	670 (79)	850 (78)	844 (83)	730 (81)	687 (80)
Maritime Services Training Institute	55 (75)	52 (63)	57 (68)	59 (60)	106 (67)
Youth College	2 632 (73)	2 875 (73)	3 091 (76)	3 290 (75)	3 051 (76)

^ The VTC does not have information on the annual number of graduates and graduation rates for short courses.
* The graduation rate is the number of graduates out of the total number of final-year students of the programme expressed in percentage terms.

Note: The Institute of Professional Education and Knowledge, Pro-Act Training and Development Centres and Integrated Vocational Development Centre mainly provide short courses and the VTC does not have relevant information on the number of graduates and graduation rates.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2396)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the support for non-Chinese speaking (NCS) students, it is mentioned on Page 351 of Programme (1) that provision of recurrent funding support and materials supporting learning, teaching and assessment to schools will be continued to facilitate the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") for NCS students to learn Chinese as a second language effectively. In this connection, please advise the Committee of the following:

(1) the number of schools which have implemented the "Learning Framework";

(2) the total number of students studying under the "Learning Framework";

(3) the average grade attained by NCS students in the Hong Kong Diploma of Secondary Education Examination (HKDSE) (Chinese Language);

(4) the number of NCS students who did not attain Level 3 in the HKDSE (Chinese Language) and as a result were not admitted to funded universities; if such information is not available, please advise the Committee of the number of NCS students who attained the "3322" results, and the number of NCS students who attained "322" in English Language, Mathematics and Liberal Studies but did not attain Level 3 in Chinese Language.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 42)

Reply:

(1) and (2) Starting from the 2014/15 school year, the Education Bureau has substantially increased the additional funding to schools to currently over $200 million per year, and provided schools with teaching resources, teacher training and

professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. The "Learning Framework" is applicable to all primary and secondary schools admitting NCS students and offering the local curriculum. In the 2018/19 school year, there are about 19 200 NCS students (9 800 in primary schools and 9 400 in secondary schools) studying in public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum.

Starting from the 2014/15 school year, all public sector schools and DSS schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from $0.8 million to $1.5 million per year depending on the number of NCS students admitted. These schools are required to adjust the learning targets and teaching strategies with reference to the learning progress so described in the "Learning Framework", as well as the learning performance and progress of their NCS students, and adopt diversified intensive learning and teaching modes as appropriate to help NCS students learn Chinese effectively. In the 2018/19 school year, the number of the schools concerned is 241 (including 127 primary schools and 114 secondary schools). As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school. These schools also implement the "Learning Framework" on a need basis in light of NCS students' performance in learning the Chinese language. Starting from the 2014/15 school year, these schools may apply for an additional funding of $50,000 on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. In the 2018/19 school year, the number of the schools concerned is 391 (including 205 primary schools and 186 secondary schools).

(3) and (4) In 2018, among the 1 206 NCS students attending Secondary 6 in public sector schools and DSS schools offering the local curriculum and sitting for the Hong Kong Diploma of Secondary Education Examination (HKDSE), 103 sat for the HKDSE (Chinese Language) and 14 of them attained Level 3 or above, meeting the general entrance requirements of undergraduate programmes in respect of the Chinese Language subject. Out of the 1 206 NCS students taking the HKDSE, 385 met the general entrance requirements of undergraduate programmes, and most of them used alternative Chinese Language qualifications, including the General Certificate of Secondary Education (GCSE), the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level (Chinese) Examinations. Moreover, among the 1 206 NCS students, 323 received offers through the Joint University Programmes Admissions System. It is our established practice that the breakdown of the levels attained by individual groups of students will not be released to avoid any labelling effect and piece-meal interpretation or

misinterpretation of the results. It has only been some 4 years since the implementation of the "Learning Framework" and other support measures in the 2014/15 school year. It takes time for these measures to take root and create a sustainable impact. It is expected that the Chinese proficiency of NCS students (especially those who have started learning the Chinese language at kindergarten level) will gradually improve.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2398)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding students of the Diploma Yi Jin programme, what is their age distribution? How many students have completed the entire programme? On completion of the Diploma Yi Jin programme, in how many years, on average, can they secure a job?

	15-19	20-24	25-29	30-39	40-49	50-59	60+
No. of students of the Diploma Yi Jin programme							
Percentage of students having completed the programme							
Average number of years needed to secure a job							

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 45)

Reply:

In the 2017/18 academic year, the Diploma Yi Jin (DYJ) programme had an enrollment of 5 252 students (including full-time and part-time students [note]). Of these students, 3 689 (about 70%) completed their study within the same academic year. For the rest of them, about 10 percent withdrew from the programme and about 20 percent were unable to complete the entire programme within the same academic year for various reasons (for example, failing examinations of individual subjects). The Education Bureau does not maintain figures on the age distribution of students of the DYJ programme.

The Federation for Self-financing Tertiary Education conducts an annual tracking survey on full-time students of the DYJ programme approximately 6 months after their graduation. Regarding full-time graduates of the 2017/18 academic year, about 43 percent of the

respondents took up employment upon completing the programme, while about 39 percent of the respondents pursued further studies.

Note: Part-time enrollment is presented in full-time-equivalent terms by dividing the product of the total part-time enrollment headcount and the contact hours of courses enrolled by part-time students by the total hours of study required for graduation under the DYJ programme, i.e. 600 hours.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2399)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned on pages 372 and 375 of Volume I that the Education Bureau will provide Enhanced School-based Speech Therapy Services (SBSTS) to all public sector primary schools to allow more comprehensive SBSTS by creating school-based speech therapist (SBST) posts for clusters of schools by phases in 3 years starting from the 2019/20 school year. In this connection, would the Administration inform this Committee:

(1) of the number of Specialists (Education Services) with speech therapist qualifications among the personnel currently carrying out on-site supervision of speech therapists' work in schools;

(2) of the number of personnel (Inspectors) without speech therapist qualifications among the personnel currently carrying out on-site supervision of speech therapists' work in schools;

(3) whether the Inspectors conduct speech assessment or administer treatment when interviewing students;

(4) of the total number of registered speech therapists in Hong Kong;

(5) of the respective number of speech therapists who are (i) practising in private enterprises, (ii) employed by non-governmental organisations, and (iii) appointed directly by schools among the existing school-stationed speech therapists in primary and secondary schools;

(6) of the estimated number of speech therapists required by primary and secondary schools upon introduction of SBSTS;

(7) of the estimated number of speech therapists required by each special school upon introduction of SBSTS;

(8) whether working guidelines are established and scope of responsibilities is defined for speech therapists under SBSTS; if yes, what are the details?

(9) whether special schools will continue to appoint part-time speech therapists upon introduction of SBSTS; if they will, what is the number?

(10) of the estimated annual recurrent expenditure upon introduction of SBSTS.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 47)

Reply:

(1) to (3)
Under the integrated education (IE) policy, inspectors of the Education Bureau (EDB) who have received training in special education, pay regular visits to schools to render professional advice on matters in relation to IE culture, policies, support measures, teaching strategies, resource deployment, home-school co-operation, etc.. Take the school-based speech therapy service (SBSTS) as an example, inspectors offer recommendations on schools' arrangements of implementation of measures, resource deployment, and co-ordination with other measures, etc. Specialists (Education Services) (Speech Therapy) of the EDB are with speech therapist (ST) qualifications, and they give professional advice to schools on the prevention, remediation, and development of SBSTS. They also provide professional support for school-based speech therapists (SBSTs), which includes discussing with SBSTs on complicated cases, observing speech therapy sessions in schools, understanding the treatment progress and exploring treatment directions of individual students. In addition, the Specialists give advice to schools on the professional performance of SBSTs. At present, there are 12 Specialists (Education Services) (Speech Therapy) in the EDB.

(4)
The Department of Health conducts Health Manpower Surveys (HMS) on a regular basis to obtain up-to-date information on the characteristics and employment status of healthcare personnel practising in Hong Kong. According to the latest 2014 HMS on the 16 types of healthcare personnel included in the health services functional constituency, a total of 641 STs were employed by the covered institutions.

At present, STs are not subject to statutory registration of the medical professionals. In April 2018, a full accreditation status has been granted to the Hong Kong Institute of Speech Therapists under the Pilot Accredited Registers Scheme for Healthcare Professions, authorising the institute as the accredited healthcare professional body responsible for administering a register for the ST profession. As at December 2018, there are 150 voluntarily registered STs on the register.

In addition, local universities offer undergraduate and master programmes in training STs every year. According to the information we gathered from these universities, there were 90, 115 and 108 ST graduates from these courses respectively in the past 3 years (that is from 2016 to 2018).

(5)
In the 2018/19 school year, 46 public sector mainstream primary and secondary schools in the form of clusters or on their own employed a total of 15 SBSTs. 35 schools have procured SBSTS from 14 non-governmental organisations. The remaining schools have utilised the Enhanced Speech Therapy Grant or Learning Support Grant to procure related services from private companies. The EDB has not collected information regarding the number of STs providing SBSTS.

(6) and (10)
Starting from the 2019/20 school year, the EDB will implement the Enhanced SBSTS to create SBST posts in public sector mainstream primary and secondary schools by phases in 3 years. Most of the schools will form a cluster of two schools to employ a SBST. After the full implementation of the Enhanced SBSTS, it is estimated that about 420 SBST posts will have created in the public sector mainstream primary and secondary schools. The estimated recurrent annual expenditure is about $320 million.

(8)
Schools are required to refer to the Guide on School-based Speech Therapy Service in setting out working guidelines and duties for SBSTs. This Guide is also applicable to the Enhanced SBSTS. SBSTs provide SBSTS to schools in the domains of prevention, remediation and development at student, parent, teacher and school support levels, through different modes including consultation services, individual or group therapy, training for teachers and parents, etc.. Under the Enhanced SBSTS, SBSTs will become a member of the schools. They will have more opportunities for closer collaboration with the special educational needs coordinators, student support team members, school-based educational psychologists, social workers, and guidance personnel, etc., to jointly enhance the support at the school and teacher levels in order to provide more stable, sustainable and comprehensive services to help students with speech and language impairment.

(7) and (9)
In the 2018/19 school year, apart from the related services of the Hospital School which are provided by the hospitals concerned, the remaining 59 aided special schools are provided with 1 to 6 ST posts, depending on the school type and approved number of classes, in which, 3 of these schools are provided with 2.5 ST posts in accordance with their number of classes.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0804)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the educational support for non-Chinese speaking students, please provide:

(a) the number of students in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school years 2016/17, 2017/18 and 2018/19;

(b) the number of ethnic minority students in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school years 2016/17, 2017/18 and 2018/19 disaggregated by ethnicity;

(c) the number of non-Chinese speaking students in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school years 2016/17, 2017/18 and 2018/19 disaggregated by their home language;

(d) the number of students in each of the UGC-funded institutions and self-financing post-secondary institutions in the school years 2016/17, 2017/18 and 2018/19;

(e) the number of ethnic minority students in each of the UGC-funded institutions and self-financing post-secondary institutions in the school years 2016/17, 2017/18 and 2018/19 disaggregated by ethnicity;

(f) the number of non-Chinese speaking students in each of the UGC-funded institutions and self-financing post-secondary institutions in the school years 2016/17, 2017/18 and 2018/19 disaggregated by their home language; and

(g) the reasons if information is not available and in this regard, will the EDB start collecting this information if it has not started doing so already, beginning 2018/2019 school year?

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 35)

Reply:

(a) According to the information collected through the annual Student Enrolment Survey, the number of students by level and by grade studying in kindergartens, public sector schools and Direct Subsidy Scheme (DSS) primary and secondary schools in the 2016/17, 2017/18 and 2018/19 school years is tabulated at Annex A.

(b) & (c) The number of ethnicity minority students studying at different grade levels in kindergartens and the number of non-Chinese speaking (NCS) ethnic minority students studying at different grade levels in public sector schools and DSS schools in the 2016/17, 2017/18 and 2018/19 school years are tabulated at Annex B. The number of NCS students by level and by grade studying in kindergartens, public sector schools and DSS schools in the 2016/17, 2017/18 and 2018/19 school years is tabulated at Annex C. The data provided in Annex B and Annex C are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

(d) As regards the University Grants Committee (UGC)-funded sector, the number of local students enrolled in full-time post-secondary programmes is 75 708, 75 815 and 75 404 (provisional) in the 2016/17, 2017/18 and 2018/19 academic years respectively. A breakdown by level of study (i.e. sub-degree and undergraduate) and by university is at Annex D. The statistics on the number of students enrolled in full-time locally-accredited self-financing post-secondary programmes in the respective academic years are at Annex E.

(e) to (g) Eligible applicants, irrespective of their race and language spoken at home, have equal opportunities to be admitted to post-secondary programmes (including sub-degree and undergraduate programmes offered by UGC-funded universities and self-financing institutions). In the 2016/17, 2017/18 and 2018/19 academic years, the number of local NCS students (i.e. students whose ethnicity and/or spoken language at home is not Chinese) admitted to the UGC-funded full-time post-secondary programmes is 283, 352 and 388 (provisional) respectively. As for self-financing post-secondary institutions, we do not collect the relevant information on local NCS students.

Number of students
by level and by grade in the 2016/17, 2017/18 and 2018/19 school years

Notes:

1. Figures refer to the positions as at September of the respective school years.
2. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres. Figures cover both local and non-local kindergartens.
3. Figures for pre-primary level cover ethnic minority students regardless of their spoken language.

4. Figures for primary and secondary levels cover students studying in public sector schools and Direct Subsidy Scheme schools but do not include students in special schools.
5. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking students. Figures for primary and secondary schools have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

Number of non-Chinese speaking students by spoken language at home studying at different grade levels in kindergartens, primary and secondary schools in the 2016/17 school year

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0807)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the support for non-Chinese speaking students at the kindergarten level from 2016/17 to 2018/19, please list out the supporting programs in kindergartens with the following details:

Name of the support programmes	NGOs or institutions involved	Name of project	Funding source	Aim of the project	Duration of project	Number of schools, students and/or parents involved	Publications and whether they are accessible to the public. If yes, where are they located physically or on the website? If not, why not?

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 38)

Reply:

In the past 3 years (2016/17, 2017/18 and 2018/19 school years), the Hong Kong Christian Service and the Hong Kong Sheng Kung Hui Lady MacLehose Centre organised, through the funding support of the Education Bureau's Language Fund, 3 Chinese Language

Support Programmes for non-Chinese Speaking (NCS) children aged 3 to 9 in the territory, namely "Happy Chinese Learning Project", "Learning, Drawing & Pronunciation for Fun – Supporting NCS Children in Learning Chinese" and "S (Singing & Stories) for Fun – Supporting NCS Children in Learning Chinese". Each programme lasted for 2 years and enhanced NCS children's motivation in learning Chinese through fun activities such as visits, games and creative arts. About 400 NCS children benefited from the programmes each school year and about half of them were NCS children studying in kindergartens. In addition, under the University-School Support Programmes financed by the Education Development Fund, the University of Hong Kong implemented 2 projects, namely "Effective Student Transition: Facilitating the Learning of the Chinese Language of NCS Kindergarten (K3) Students in the Transition to Primary School" and "Transition and Growth: Effective Learning and Teaching of Chinese for Multicultural Students", which lasted for 2 years and 1 year and 7 months respectively, to provide kindergartens and primary schools with school-based professional support to enhance teachers' capabilities in teaching Chinese to NCS children. These 2 projects provided support to 11 and 20 kindergartens respectively. There were no publications for the 2 programmes mentioned above.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0300)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The National Anthem Bill, which is under scrutiny by the Legislative Council, requires, among others, the Secretary for Education to give directions for the inclusion of the national anthem in primary and secondary education. For the current year, has provision been earmarked or have specific plans been drawn up for fulfilling the statutory requirements upon passage of the Bill? The requirements include supporting primary and secondary schools in delivering education that promotes the background of and respect for the national anthem.

Asked by: Hon TSE Wai-chuen, Tony (LegCo internal reference no.: 13)

Reply:

It is an inherent responsibility of school education to enable students to learn and respect the national anthem as well as to cultivate in them a sense of national identity. The learning contents of the national anthem have already been incorporated into the local subject curricula (such as General Studies at the primary level and Music at the primary and secondary levels) and in Moral, Civic and National Education. The Education Bureau (EDB) has all along been providing support measures (e.g. arranging learning activities for students, providing professional development programmes for school heads and teachers, and developing learning and teaching resources etc.) to meet the needs of curriculum development of different subjects/themes. The relevant expenditure is subsumed under the recurrent expenditure of the EDB. To support the implementation of the National Anthem Bill, the EDB will supplement and update learning and teaching resources in a timely manner to assist the learning and teaching of the National Anthem in primary and secondary schools. As curriculum development is an integral part of day-to-day work of the EDB, the reservation of additional expenditure is not required.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2726)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), will the government inform this Council:

1. The number of non-Chinese speaking applicants and relevant disciplines each year for 2014/15 to 2018/19 school years.

2. The number of non-Chinese speaking local students admitted to SSSDP programmes using the DSE (Chinese) qualification through JUPAS for 2014/15 to 2018/19 school years.

3. The respective number of non-Chinese speaking local students admitted to SSSDP programmes through JUPAS using each of the alternative Chinese qualifications, namely GCE (A-Level), GCE (AS Level), GCSE and IGCSE for 2014/15 to 2018/19 school years.

4. The number of all local students admitted to SSSDP programmes for 2014/15 to 2018/19 school years.

Asked by: Hon WAN Siu-kin, Andrew (LegCo internal reference no.: 18)

Reply:

1. The Government has launched the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) from the 2015/16 academic year. Subsidised places under the SSSDP are mainly allocated through the Joint University Programmes Admissions System (JUPAS). The Education Bureau (EDB) does not have information about the number of non-Chinese speaking applicants and the disciplines they applied for.

2. and 3.

According to the records of participating institutions, the respective number of local non-Chinese speaking students who have been admitted to the first year of designated programmes under the SSSDP through JUPAS with the Hong Kong Diploma of Secondary Education (Chinese Language) (DSE(Chinese Language)) qualification or alternative Chinese language qualifications (such as the General Certificate of Education (Advanced Level) (GCE (A-Level)), the General Certificate of Education (Advanced Subsidiary) (GCE(AS Level)), the General Certificate of Secondary Education (GCSE) and International General Certificate of Secondary Education (IGCSE)) from the 2015/16 to 2018/19 academic years are as follows:

Academic Year	DSE (Chinese Language)	Alternative Chinese Language Qualifications			
		GCE (A-Level)	GCE (AS Level)	GCSE	IGCSE
2015/16	0	0	0	2	0
2016/17	0	2	0	3	0
2017/18	0	0	1	4	0
2018/19	0	3	3	10	0

4. As announced in the 2017 Policy Address, SSSDP is regularised from the 2018/19 academic year with an increase in the number of subsidised places from about 1 000 to about 3 000 per cohort. From the 2015/16 to 2018/19 academic years, the number of local students who have been admitted to the first year of designated programmes under the SSSDP are 913, 991, 974 and 1 817 respectively.

Question:

Will the government inform this Council of:

1. The number of ethnic minority students in each of the member institutions of the Vocational Training Council in the school years 2015/16 to 2018/19 disaggregated by ethnicity and the respective subsidy involved;

2. The number of ethnic minority students enrolled in each programme (both dedicated and non-dedicated to NCS students) in the Vocational Training Council in the school years 2015/16 to 2018/19 disaggregated by ethnicity and programme.

Asked by: Hon WAN Siu-kin, Andrew (LegCo internal reference no.: 19)

Reply:

Apart from offering a variety of vocational and professional education and training programmes, the Vocational Training Council (VTC) also provides programmes designated for non-Chinese speaking (NCS) students for local ethnic minority students. The VTC is unable to provide information on the total number of NCS students disaggregated by ethnicity in each member institution and in each programme or the respective amount of subsidy involved. Based on data available, a breakdown of the number of NCS students by major ethnic groups from the 2015/16 to 2018/19 academic years is given below:

Ethnicity	**2015/16 academic year**	**2016/17 academic year**	**2017/18 academic year**	**2018/19 academic year** (Provisional)
Pakistani	113	128	118	125
Nepalese	97	103	119	106
Filipino	76	90	95	85
Indian	45	51	55	47
Thai	12	12	14	10
Others (Note 1)	70	78	111	103

Note 1: Including other ethnic minorities, such as white, Indonesian, Korean, Japanese and Vietnamese.

Note 2: Students attending programmes of short duration that are also designed for NCS students are not required to provide the VTC with information about their ethnicity.

The number of local NCS students in the academic years from 2015/16 to 2018/19 by programme type is set out below:

Type of programme	**2015/16 academic year**	**2016/17 academic year**	**2017/18 academic year**	**2018/19 academic year** (Provisional)
Undergraduate Degree	23	36	45	50
Higher Diploma	153	178	208	201
Diploma of Foundation Studies/Foundation Diploma	151	162	179	127
Diploma/Certificate of Vocational Education	86	86	80	98

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1536)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In 2019-20, the Education Bureau will introduce a new pilot incentive with a non-recurrent funding of $108 million to employers participating in the workplace assessment under the Training and Support Scheme. Would the Bureau advise this Committee of the following:

(1) the timetable for implementing the pilot incentive to employers participating in the workplace assessment under the Training and Support Scheme;

(2) the industries the employers in which will be encouraged to participate in the workplace assessment; and

(3) the initiatives to encourage employers to participate in the workplace assessment?

Asked by: Hon YIU Si-wing (LegCo internal reference no.: 37)

Reply:

The Government has implemented the Pilot Training and Support Scheme (the Scheme) through the Vocational Training Council (VTC) since the 2014/15 academic year. Under the collaboration of the Government and participating industries, the Scheme has integrated structured apprenticeship training and clear career progression pathways, so that young people can learn professional knowledge and skills while obtaining a stable income. The Scheme will be regularised from the 2019/20 academic year.

To evaluate trainees' abilities and performance in the workplace more effectively, the VTC will introduce a three-year pilot incentive to employers participating in workplace assessment under the Scheme as the Scheme is regularised. The incentive seeks to encourage employers who have joined the Scheme to participate in workplace assessment for trainees to facilitate training content adjustment more effectively for improving trainees'

work performance. Given that employers need to allocate resources for trainees, make available the equipment for and participate in the assessment of the competence of trainees, the Government will provide employers participating in the pilot incentive with a maximum subsidy of $36,000 (per trainee). Industries currently taking part in the pilot incentive include electrical and mechanical engineering and construction, printing, automobile, watch and clock, testing and certification, and aviation.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0992)

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (102) Non-means-tested loan scheme
(202) Non-means-tested loan scheme

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the Non-means-tested Loan Schemes (NLS), will the Government advise this Committee on –

(i) the numbers of courses under the NLS;
(ii) the respective numbers of loan applications, the numbers of applicants who were approved loans and the amounts of loans disbursed in the past 5 years;
(iii) the respective amounts of loans repaid and the interest paid in the past 5 years;
(iv) the current number of borrowers defaulted on loan repayment and the amount in default, the highest debt age and the largest amount in default; and
(v) the respective numbers of successful write-off cases and the amounts involved in the past 5 years.

Asked by: Hon CHAN Hak-kan (LegCo internal reference no.: 57)

Reply:

(i) As at 31 January 2019, the respective numbers of courses under the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and the Extended Non-means-tested Loan Scheme (ENLS) are as follows –

	Number of Courses
A. NLSFT	711
B. NLSPS	999
C. ENLS	2 623
Total	**4 333**

(ii) Information on student loans provided to students under the NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years is as follows –

	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
A. NLSFT					
Number of applications	12 746	14 471	15 337	15 684	15 711
Number of applications approved	12 011	13 271	14 132	14 158	14 105
Total amount of loans disbursed ($ million)	398.59	425.23	446.79	465.91	452.96
B. NLSPS

C. ENLS					
Total amount of loans repaid ($ million)	421.94	387.60	394.99	390.23	188.08
Total amount of interest paid ($ million)	51.25	44.76	44.66	42.68	19.88
Total					
Total amount of loans repaid ($ million)	**1,041.95**	**1,014.49**	**1,098.09**	**1,156.20**	**606.36**
Total amount of interest paid ($ million)	**128.57**	**119.50**	**126.06**	**127.37**	**64.23**

* As at 31 January 2019

(iv) The numbers of default cases^ and the amounts in default@ under the NLSFT, NLSPS and ENLS as at 31 January 2019 are as follows –

A. NLSFT	
Number of default cases	882
Amount in default ($ million)	13.23
B. NLSPS	
Number of default cases	2 213
Amount in default ($ million)	43.49
C. ENLS	
Number of default cases	4 859
Amount in default ($ million)	63.46
Total	
Number of default cases	**7 954**
Amount in default ($ million)	**120.18**

^ Cases with 2 or more consecutive overdue quarterly instalments / 6 or more consecutive overdue monthly instalments are regarded as default cases. The numbers of default cases as at 31 January 2019 include cases where loan borrowers started repayment in the 2018/19 academic year and the previous academic years but are still in default as at that date.

@ The amount in default is the total amount of arrears in the defaulted student loan accounts carried forward from the previous academic years and arising in the 2018/19 academic year (as at 31 January 2019).

As at 31 January 2019, the debt ages of all default cases (excluding default cases against which legal recovery action had been initiated, loan borrowers had been declared bankrupt / applied for Individual Voluntary Arrangement, or deferment / write-off applications being processed by the Student Finance Office (SFO) under the Working Family and Student Financial Assistance Agency) were within 1 year, and the largest amount in default was about $95,000.

(v) As student loans are funded by public money, SFO endeavours to make every effort to recover the outstanding loans from the defaulters and their indemnifiers and will only consider writing off the loans when they are irrecoverable. Regarding the NLSFT, NLSPS and ENLS, the numbers of write-off cases and the amounts involved in the 2014/15 to 2018/19 academic years are as follows –

	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
A. NLSFT					
Number of write-off cases^	5	5	2	1	0
Amount involved ($ million)	0.22	0.17	0.19	0.03	0.00
B. NLSPS					
Number of write-off cases^	4	2	3	4	1
Amount involved ($ million)	0.45	0.05	0.42	0.59	0.05
C. ENLS					
Number of write-off cases^	63	43	27	4	0
Amount involved ($ million)	1.99	1.21	0.84	0.22	0.00
Total					
Number of write-off cases^	**72**	**50**	**32**	**9**	**1**
Amount involved ($ million)	**2.66**	**1.43**	**1.45**	**0.84**	**0.05**

* As at 31 January 2019

^ A write-off case may involve more than 1 loan repayment account of 1 or more financial assistance scheme(s) administered by the SFO.

The outstanding student loans mentioned above were irrecoverable and written off mainly due to the decease of loan borrowers and the inability of their indemnifiers to repay the loans or bankruptcy of both the loan borrowers and their indemnifiers.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2314)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (700) General non-recurrent

Item 807 One-off support grant for needy students in the 2019/20 School Year

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Budget speech that the Government will "provide to each student in need a one-off grant of $2,500 to support learning".

(1) What are the reasons for the Government to increase the grant from $2,000 last year to $2,500? Which groups of students from kindergartens, primary and secondary schools and post-secondary institutions will be benefitted? What are the details of the disbursement and claims?

(2) Will the Government consider expanding the coverage of the scheme so that all students in the territory will be benefitted? If not, what are the reasons? What are the specific difficulties or concerns involved?

(3) In recent years, the Macao Government has offered non-means-tested textbook allowances at various rates to students who are Macao residents receiving formal education from kindergartens to secondary schools. Another initiative of the Macao Government is the Learning Material Subsidy for Higher Education Students for which Macao residents studying in programmes from associate degrees to doctoral degrees, local or overseas, are eligible to apply. They can receive the allowances upon registration and approval. Will the Government, with reference to the experience of the Macao Government, conduct feasibility studies on engaging government agencies to centrally disburse a learning support subsidy to all students in the territory?

(4) At present, what measures does the Government have to support non-needy students and relieve the pressure of education expenses on them?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 19)

Reply:

Having regard to the economic outlook in the coming year and the Government's fiscal position, the Financial Secretary proposed in the 2019-20 Budget to introduce a series of relief measures, including a one-off grant of $2,500 to financially needy students. Target beneficiaries of the grant are: (i) students who are eligible to receive means-tested student financial assistance in the 2019/20 school year; and (ii) every eligible Comprehensive Social Security Assistance (CSSA) child from a child care centre or kindergarten, as well as student from a primary or secondary school. It is estimated that about 360 000 students will benefit from the proposed measure, including students covered by the means-tested student financial assistance schemes (involving about 40 000 pre-primary children, about 210 000 primary and secondary school students and about 40 000 tertiary students) and about 70 000 students receiving the CSSA. Eligible students will each receive automatically a one-off grant of $2,500 without any need to submit a separate application. It is expected that, upon passage of the Appropriation Bill 2019 by the Legislative Council, payment of the grant will be made starting from the third quarter of 2019 through the existing payment arrangement (i.e. normally through autopay to the designated bank accounts).

The one-off grant proposed by the Financial Secretary is a relief measure with resources targeting financially needy students and families. Its nature is the same as that of other measures which are aimed at helping low-income groups. The provision of a one-off grant of $2,500 to financially needy students is therefore an appropriate measure.

As regards education policies, the Government is committed to providing students with quality education. Shortly after assuming office, the Chief Executive introduced a number of measures to enhance the quality of education, involving a total of $3.6 billion. Subsequently, another series of new initiatives, involving a recurrent expenditure of $4.7 billion, were announced in the 2018 Policy Address. Since the current-term Government has taken office, its cumulative recurrent expenditure in this area has amounted to at least $8.3 billion, reflecting its determination to provide quality education. In recent years, the Government introduced various initiatives targeting all students in the territory, including the Life-wide Learning Grant, an increase in the teacher-to-class ratio, the Quality Kindergarten Education Scheme, the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong and the Study Subsidy Scheme for Designated Professions/Sectors. All these measures benefit all students in Hong Kong, including those who are not from needy families.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2108)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student Financial Assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

(1) Please provide the numbers of student beneficiaries in each school district under the Student Travel Subsidy Scheme in the past 3 years.

(2) Please provide the numbers of student beneficiaries in each school district under the School Textbook Assistance Scheme in the past 3 years.

(3) Please provide the numbers of student beneficiaries in each school district under the Subsidy Scheme for Internet Access Charges in the past 3 years.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 37)

Reply:

(1) The numbers of primary and secondary as well as post-secondary students receiving the student travel subsidy by school district in the 2016/17 to 2018/19 school years are detailed at Annex 1 and Annex 2.

(2) The numbers of primary and secondary students receiving school textbook assistance by school district in the 2016/17 to 2018/19 school years are detailed at Annex 3.

(3) The Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency and the Social Welfare Department disburse the internet access subsidies to eligible families. The subsidy is granted on a household basis rather than a student basis.

The numbers of family beneficiaries under the Subsidy Scheme for Internet Access Charges in the 2016/17 to 2018/19 school years are as follows:

	School Year		
	2016/17	**2017/18**	**2018/19 (as at 31 January 2019)**
Beneficiary families which are eligible for the Comprehensive Social Security Assistance	41 954	39 134	34 357
Beneficiary families which have passed SFO's means test	133 711	130 409	128 792
Total	**175 665**	**169 543**	**163 149**

As the internet access subsidy is granted on a household basis, the number of student beneficiaries by school district is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2119)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (700) General non-recurrent

Item 807 One-off support grant for needy students in the 2019/20 School Year

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. It was proposed in the Budget that a one-off grant of $2,500 be provided to each student in need. How will the Government ensure that the grant will be used on supporting students' learning?

2. Will the Government consider expanding the coverage of the learning subsidy to support the learning needs of all local students in Hong Kong? If a grant of $2,500 be provided to each student in Hong Kong, what will be the estimated expenditure?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 48)

Reply:

Having regard to the economic outlook in the coming year and the Government's fiscal position, the Financial Secretary proposed in the 2019-20 Budget to introduce a series of relief measures, including a one-off grant of $2,500 to financially needy students. The one-off grant gives students flexibility and caters to their individual needs while providing them with suitable support. The estimated expenditure of providing the $2,500 grant to all students in Hong Kong depends on the definition of "student". If it refers to all those studying in non-profit-making and profit-making kindergartens, public sector, Direct Subsidy Scheme and private primary and secondary schools (including international schools) as well as all full-time post-secondary students, the total headcount will be about one million students, involving a sum of about $2.5 billion. As this is a relief measure with resources targeting financially needy students and families, its nature is the same as that of other measures which are aimed at helping low-income groups. The provision of a one-off grant of $2,500 to financially needy students is therefore an appropriate measure.

Item 807 One-off support grant for needy students in the 2019/20 School Year

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

It was mentioned in paragraph 108 of this year's Budget that the Government will introduce a series of relief measures, including a one-off grant of $2,500 for each financially needy student in need to support their learning. The measure will involve an expenditure of about $890 million. In this connection, will the Government inform this Committee:

1. of the eligibility criteria and the expected number of beneficiaries of the above grant;
2. of the benchmark of setting the grant at $2,500;
3. why the Government, in considering the launch of the relevant scheme, refused to provide to all primary and secondary school students in Hong Kong the $2,500 grant, and whether the Government will consider providing the grant to all secondary and primary school students in Hong Kong, so as to support the learning of a greater number of students; and
4. whether the grant will be regularised and the grant level increased to alleviate the financial burden on families with students?

Asked by: Hon CHIANG Lai-wan (LegCo internal reference no.: 13)

Reply:

Having regard to the economic outlook in the coming year and the Government's fiscal position, the Financial Secretary proposed in the 2019-20 Budget to introduce a series of relief measures, including a one-off grant of $2,500 to financially needy students. Target beneficiaries of the grant are: (i) students who are eligible to receive means-tested student financial assistance in the 2019/20 school year; and (ii) every eligible Comprehensive Social Security Assistance (CSSA) child from a child care centre or kindergarten as well as student from a primary or secondary school. It is estimated that about 360 000 students will benefit from the proposed measure, including students covered by the means-tested student

financial assistance schemes (involving about 40 000 pre-primary children, about 210 000 primary and secondary school students and about 40 000 tertiary students) and about 70 000 school children receiving the CSSA. Eligible students will each receive automatically a one-off grant of $2,500 without any need to submit a separate application.

This is a relief measure with resources targeting financially needy students and families. Its nature is the same as that of other measures which are aimed at helping low-income groups. The provision of a one-off grant of $2,500 to financially needy students is therefore an appropriate measure.

(Question Serial No. 2743)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Please provide the following:

1. the relevant figures of the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) over the past 3 years, including the number of students eligible for fee remission, the level and total amount of fee remission, as well as the provision earmarked for KCFRS and the manpower arrangement for the coming year; and
2. regarding the Grant for School-related Expenses for Kindergarten Students (Grant-KG), (a) the relevant figures in each school year since the launch of the Grant-KG, including the numbers of applications and beneficiaries, as well as the average and total amounts of grant disbursed; (b) the school-related expenses covered by the grant; and (c) the provision earmarked for the Grant-KG and the manpower arrangement for the coming year.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 20)

Reply:

1. In the 2016/17 to 2018/19 school years (as at 31 January 2019), the numbers of beneficiaries under the KCFRS with a breakdown by level of fee remission and the total amount of subsidy disbursed are as follows –

School year	Breakdown of beneficiaries by level of fee remission			Total amount of subsidy disbursed ($ million)
	100%	75%	50%	
2016/17	23 885	3 535	14 112	616.0
2017/18#	14 437	2 263	8 688	276.0
2018/19# (As at 31 January 2019)	12 905	2 127	8 790	147.9

The numbers of beneficiaries under the KCFRS in the 2017/18 and 2018/19 school years do not include students who passed the means test but needed not pay school fees under the kindergarten education scheme.

The estimated expenditure of the KCFRS in the 2019/20 school year is around $312.8 million. As regards the manpower arrangement, please refer to part 2(c) of the reply.

2(a). The Grant-KG was launched in the 2017/18 school year. In the 2017/18 and 2018/19 school years (as at 31 January 2019), the numbers of applications and beneficiaries, as well as the average and total amounts of grant disbursed are as follows –

School year	Number of applications	Number of beneficiaries	Average amount of grant disbursed ($)	Total amount of grant disbursed ($ million)
2017/18	46 621	39 671	3,142	124.7
2018/19 (As at 31 January 2019)	44 012	35 997	3,129	112.6

(b) Since the 2017/18 school year, eligible families have been provided with the Grant-KG to defray school-related expenses incurred from their children's kindergarten education, such as the purchase of text books, stationery and school uniforms.

(c) The estimated expenditure of the Grant-KG in the 2019/20 school year is around $129.9 million. Regarding the manpower arrangement, applications for the KCFRS and the Grant-KG are processed by existing staff who handle the various financial assistance schemes for secondary, primary and pre-primary students. As at 31 January 2019, the number of staff involved was 196.

Director of Bureau: Secretary for Education

Question:

What are the respective amounts of study interest received by the Government under various Non-means-tested Loan Schemes (NLS) in the past 5 years? Please provide a breakdown by the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and the Extended Non-means-tested Loan Scheme (ENLS).

Moreover, please provide the respective numbers of applications, the numbers of applications approved, the average amounts of loans disbursed, the average interest rates, the average repayment periods, the average amounts of interest paid, the average amounts of loans repaid, the total amounts of loans disbursed, the total amounts of interest paid and the total amounts of loans repaid under various NLS in the past 5 years.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 32)

Reply:

The respective amounts of study interest received by the Government under the NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows –

Scheme	Academic Year				
	2014/15	2015/16	2016/17	2017/18	2018/19*
	($ million)				
A. NLSFT	13.59	12.58	12.19	11.61	5.93
B. NLSPS	22.33	21.18	21.93	22.02	10.95
C. ENLS	21.48	18.36	17.13	14.89	6.41

* As at 31 January 2019

The information on student financial assistance provided to students under the NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years is as follows –

	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
A. NLSFT					
Number of applications	12 746	14 471	15 337	15 684	15 711
Number of applications approved	12 011	13 271	14 132	14 158	14 105
Average amount of loans disbursed ($)	38,533	38,749	38,838	39,096	39,470
Total amount of loans disbursed ($ million)	398.59	425.23	446.79	465.91	452.96
B. NLSPS					
Number of applications	19 250	20 752	20 996	17 125	15 208
Number of applications approved	18 829	20 216	20 520	15 369	13 959
Average amount of loans disbursed ($)	57,289	59,528	60,424	54,567	48,812
Total amount of loans disbursed ($ million)	708.04	792.14	827.93	701.90	539.28

Average amount of loans disbursed ($)	53,254	54,904	57,808	60,495	51,633
Total amount of loans disbursed ($ million)	353.45	347.38	366.39	388.98	240.87

* As at 31 January 2019

The prevailing interest rate of the above 3 NLS is 1.257% per annum. Prior to the implementation of the measure to extend the standard repayment period to 15 years commencing from the 2012/13 academic year, student loan borrowers under the NLS were required to repay their loans by 40 quarterly instalments in 10 years upon completion or cessation of their studies.

We do not keep track of the students' repayment based on the academic year of their obtaining loans as students may complete their studies and hence commence loan repayment at different times.

The average annual amounts of interest paid, average annual amounts of loans repaid (interest included), total amounts of interest paid and total amounts of loans repaid for the loan repayment accounts under the NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows –

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2758)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (700) General non-recurrent

Item 803 One-off support grant for needy students in the 2018/19 School Year

Item 807 One-off support grant for needy students in the 2019/20 School Year

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Please advise on:

1. the numbers of kindergarten, primary, secondary and tertiary student beneficiaries under the one-off support grant for financially needy students in the 2018/19 school year, as well as the expenditures involved; and
2. the estimated numbers of kindergarten, primary, secondary and tertiary student beneficiaries under the one-off support grant for financially needy students in the 2019/20 school year, as well as the expenditures involved.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 35)

Reply:

1. Students from pre-primary to post-secondary levels who are eligible for means-tested student financial assistance from the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency in the 2018/19 school year are each eligible for a one-off grant of $2,000. As at 31 January 2019, the numbers of student beneficiaries and the amounts of grant disbursed are as follows:

Level of education	**Number of persons disbursed with the grant**	**Amount of grant disbursed ($ million)**
Pre-primary	37 562	75.1
Primary	104 605	209.2
Secondary	95 335	190.7
Post-secondary and Tertiary	32 612	65.2
Total	**270 114**	**540.2**

2. The Government has proposed in the 2019-20 Budget that a one-off grant of $2,500 be provided to each financially needy student. Students from pre-primary to post-secondary levels who apply for and are assessed as eligible for any means-tested financial assistance offered by SFO in the 2019/20 school year will each be provided with a one-off grant of $2,500. The one-off grant disbursed by SFO is expected to benefit about 290 000 students, including about 40 000 pre-primary children, about 210 000 primary and secondary students and about 40 000 post-secondary students, involving an expenditure of about $725 million.

Question:

1. Please provide in the table below information on the following student financial assistance schemes in the past 5 years (2014/15 to 2018/19):

	No. of applications	No. of applications approved	No. of students receiving grants	No. of students receiving full grants	Average grant level	No. of students receiving loans	Average loan amount	Total amount of government expenditure involved
TSFS								
FASP								
NLSFT								
NLSPS								
ENLS								

TSFS - Tertiary Student Finance Scheme - Publicly-funded programmes
FASP - Financial Assistance Scheme for Post-secondary Students
NLSFT - Non-means-tested Loan Scheme for Full-time Tertiary Students
NLSPS - Non-means-tested Loan Scheme for Post-secondary Students
ENLS - Extended Non-means-tested Loan Scheme

2. Please provide the respective numbers of student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS by institution and programme (publicly-funded degree, sub-degree and self-financing degree); the loan amount disbursed (highest, lowest, average and median); the length of repayment period; the district of residence and type of housing (public/Home Ownership Scheme/private); as well as sex and age profile of such borrowers in the past 5 years (2014/15 to 2018/19).
3. Please provide the respective numbers of students receiving grants and full grants under the TSFS and FASP by institution, department and year of study in the past 5 years (2014/15 to 2018/19).
4. Please provide the respective numbers of students receiving loans and the average loan amounts under the NLSFT, NLSPS and ENLS by institution, department and year of study in the past 5 years (2014/15 to 2018/19).
5. Please provide the average loan amount, median loan amount, average monthly repayment amount, median monthly repayment amount and default rate in respect of tertiary students who obtained loans from the Student Finance Office in the past 5 years (2014/15 to 2018/19).
6. Please provide in the table below information on the TSFS, FASP, NLSFT, NLSPS and ENLS in the past 5 years:

(E) ENLS[@]

The numbers of students receiving loans in respect of each of the 5 categories of eligible courses/course providers under the ENLS in the 2014/15 to 2018/19 academic years are as follows –

Category of Eligible Courses	Academic Year				
	2014/15	2015/16	2016/17	2017/18	2018/19*
Category 1 – Courses accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or accredited by institutions by virtue of their self-accreditation status or Programme Area Accreditation status	3 215	3 077	3 045	3 253	2 488
Category 2 – Courses under Diploma Yi Jin	872	870	948	837	679
Category 3 – Courses covered by the Financial Assistance Scheme for Designated Evening Adult Education Courses	1	1	0	2	0
Category 4 – Training or development courses provided or funded by local statutory bodies	2	7	5	0	0

Category of Eligible Courses	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 638	2 405	2 358	2 350	1 500
Total	**6 728**##	**6 360**##	**6 356**##	**6 442**##	**4 667**##

* As at 31 January 2019

@ The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the numbers of students receiving loans in respect of each category of eligible courses/course providers under the ENLS is provided.

Some students received loans for courses in different categories in the same academic year and therefore the total number of students receiving loans by category is larger than the figure in (1) above.

(b) The numbers of student loan borrowers by different study level of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2014/15 to 2018/19 academic years are as follows –

(A) TSFS

Level of Study	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
Degree or above	6 319	5 442	4 695	4 091	3 074
Sub-degree	1 305	1 181	1 047	969	581
Total	**7 624**	**6 623**	**5 742**	**5 060**	**3 655**

(B) FASP

Level of Study	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
Degree / Top-up degree	3 415	2 880	2 570	2 294	1 522
Sub-degree	2 661	2 201	2 073	1 924	1 254
Total	**6 076**	**5 081**	**4 643**	**4 218**	**2 776**

(C) NLSFT

Level of Study	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
Degree or above	8 660	9 135	9 593	10 074	9 843
Sub-degree	1 684	1 839	1 911	1 843	1 633
Total	**10 344**	**10 974**	**11 504**	**11 917**	**11 476**

(D) NLSPS

Level of Study	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
Degree / Top-up degree	6 990	7 792	7 790	7 196	5 849
Sub-degree	5 369	5 515	5 912	5 667	5 199
Total	**12 359**	**13 307**	**13 702**	**12 863**	**11 048**

* As at 31 January 2019

As for the ENLS, we do not maintain information on the numbers of student loan borrowers by different study level of programmes because it covers a wide range of post-secondary/continuing and professional education courses.

(c) The lowest, average, median and highest loan amounts disbursed under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows –

Loan Disbursed ($)	Academic Year				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
(A) TSFS (loans are to cover living expenses)					
Lowest	3,180	1,700	3,627	3,707	3,751

Median	42,520	44,310	48,370	49,430	50,020
Highest **	71,580	75,590	78,610	78,000	75,030
(C) NLSFT (loans are to cover tuition fees)					
Lowest	1,035	215	4,215	1,000	1,900
Average	38,533	38,749	38,838	39,096	39,470
Median	42,100	42,100	42,100	42,100	42,100
Highest	51,310	51,310	84,200	55,570	58,070
(D) NLSPS (loans are to cover tuition fees)					
Lowest	510	1,810	1,390	1,690	2,190
Average	57,289	59,528	60,424	54,567	48,812
Median	52,560	55,000	55,000	54,300	53,200
Highest	261,911	267,143	272,723	278,303	283,883
(E) ENLS (loans are to cover tuition fees)					
Lowest	1,500	3,000	2,570	2,375	3,563
Average	53,254	54,904	57,808	60,495	51,633
Median	41,400	42,800	45,920	48,000	50,400
Highest	325,700	340,000	350,200	358,600	364,000

* As at 31 January 2019

** Under the TSFS and FASP, some applicants, e.g. disabled applicants, might be offered loans at an amount higher than the maximum loan amount of an academic year on a discretionary basis.

Prior to the implementation of the measure to extend the standard repayment period to 15 years from the 2012/13 academic year, student loan borrowers under the TSFS and FASP were required to repay their loans by 20 quarterly instalments in 5 years while those under the NLSFT, NLSPS and ENLS were required to repay their loans by 40 quarterly instalments in 10 years upon completion or cessation of their studies.

We do not maintain information on the distribution of student loan borrowers by district of residence, type of housing, sex and age profile.

3. The numbers of students receiving grants and full grants under the TSFS and FASP in different institutions in the 2014/15 to 2018/19 academic years are as follows. We do not maintain information on the breakdown of student beneficiaries by department and year of study.

(A) TSFS

Institution	**Academic Year**

4. The numbers of students receiving loans in different institutions and the average loan amounts disbursed under the NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are provided in (1) and (2) above. We do not maintain information on the breakdown of student beneficiaries by department and year of study.

5. The information on the average loan amount and the median loan amount of student loan borrowers who obtained loans under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years is provided in (2)(c) above. As regards the information on their average and median monthly repayment amounts, we do not keep track of the students based on the academic year of their obtaining loans as students may complete their studies and hence commence loan repayment at different times. Based on the information on student loan borrowers who commenced loan repayment in the 2014/15 to 2017/18 academic years, the average loan amount, the

median loan amount, the average monthly repayment amount and the median monthly repayment amount are as follows –

Loan/ Repayment Amount ($)	Academic Year			
	2014/15	2015/16	2016/17	2017/18
(A) TSFS				
Average loan amount ^^	59,644	59,698	65,680	71,207
Median loan amount ^^	48,710	42,520	44,310	52,810
Average monthly loan repayment amount~	357	357	393	426

(E) ENLS				
Average loan amount ^^	64,520	67,538	73,434	73,823
Median loan amount ^^	49,000	51,000	56,721	56,280
Average monthly loan repayment amount~	400	419	450	452
Median monthly loan repayment amount~	304	316	347	345

^^ The average loan amount and the median loan amount are calculated based on the total amount of loans disbursed to the student loan borrowers upon their commencement of repayment in a particular academic year. The figures are therefore different from the figures in (1) and (2) above which are calculated based on the amount of loans disbursed in a particular academic year.

~ Based on a 15-year repayment period. For the TSFS and FASP, the prevailing interest rate is 1% per annum. For the NLSFT, NLSPS and ENLS, the prevailing interest rate is 1.257% per annum.

Information on loan repayment of student loan borrowers who commenced loan repayment in the 2018/19 academic year is not yet available.

We do not maintain information on the default rate[§] of student loan borrowers based on when they obtained loans. The default rates of student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows–

Scheme	**Academic Year**				
	2014/15*	**2015/16***	**2016/17***	**2017/18***	**2018/19***
(A) TSFS	5.13%	5.02%	4.74%	4.59%	4.47%
(B) FASP	5.33%	5.18%	5.04%	5.00%	5.10%
(C) NLSFT	4.80%	4.53%	3.93%	3.56%	3.01%
(D) NLSPS	7.54%	6.96%	6.14%	5.42%	5.09%
(E) ENLS	9.59%	9.68%	9.24%	8.91%	8.37%
Overall	**7.26%**	**7.07%**	**6.54%**	**6.11%**	**5.74%**

§ Student loan borrowers who fail to repay 2 or more consecutive quarterly instalments/6 or more consecutive monthly instalments for 1 or more loan repayment account(s) are considered as defaulters. The default rate is the percentage of the number of default cases in relation to the number of loan repayment accounts as at the end of the academic year concerned, unless otherwise specified.

* The numbers of default cases in the 2014/15 to 2018/19 academic years are the numbers as at the end of the academic years concerned (i.e. 31 July 2015, 31 July 2016, 31 July 2017 and 31 July 2018) and 31 January 2019 respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

6. Student loan borrowers may continue to pursue full-time studies upon graduation or choose to commence loan repayment one year after graduation. They may also settle their loan repayment within the standard repayment period, or choose to settle their loan repayment earlier on their own accord, or apply for deferment of loan repayment. As the amount of interest of each loan repayment account will vary subject to the duration of the repayment period chosen upon commencement of loan repayment, and the subsequent adjustment of interest rate, we are thus unable to provide the total outstanding amounts, the amounts of outstanding interest and loan repayment amounts by year of account opening. As regards the average monthly loan repayment amount of student loan borrowers who commenced loan repayment in the 2014/15 to 2017/18 academic years, the relevant information is provided in (5) above.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0097)

Head: (173) Working Family and Student Financial Assistance Agency

(254) Loans to Students

Subhead (No. & title): (228) Student financial assistance

(101) Means-tested loan for tertiary students pursuing publicly-funded programmes

(102) Non-means-tested loan scheme

(103) Means-tested loan for post-secondary students

(201) Means-tested loan for tertiary students pursuing publicly-funded programmes

(202) Non-means-tested loan scheme

(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

(a) Please provide the following information in respect of the Tertiary Student Finance Scheme - Publicly-funded programmes (TSFS), the Financial Assistance Scheme for Post-secondary Students (FASP), the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and the Extended Non-means-tested Loan Scheme (ENLS) in the past 5 academic years:

(i) the number of applications
(ii) the number of applications approved
(iii) the number of students receiving grants
(iv) the number of students receiving full grants
(v) the average grant amount disbursed
(vi) the number of students receiving loans
(vii) the average loan amount disbursed
(viii) the total amount of assistance disbursed;

(b) Please provide the respective numbers of student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS by institution and programme (publicly-funded

degree, sub-degree and self-financing degree), the loan amount disbursed (highest, average, lowest and median) and the length of repayment period in the past 5 academic years;

(c) Please provide the respective numbers of students receiving grants and full grants as well as the amount of grant under the TSFS and FASP by institution in the past 5 academic years; and

(d) Please provide the average loan amount, median loan amount, average monthly repayment amount, median monthly repayment amount and default rate in respect of tertiary students who obtained loans from the Student Finance Office in the past 5 academic years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 50)

Category 4 – Training or development courses provided or funded by local statutory bodies	2	7	5	0	0
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 638	2 405	2 358	2 350	1 500
Total	**6 728[##]**	**6 360[##]**	**6 356[##]**	**6 442[##]**	**4 667[##]**

* As at 31 January 2019

@ The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the numbers of students receiving loans in respect of each category of eligible courses/course providers under the ENLS is provided.

Some students received loans for courses in different categories in the same academic year and therefore the total number of students receiving loans by category is larger than the figure in (a) above.

(ii) The numbers of student loan borrowers by different study level of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2014/15 to 2018/19 academic years are as follows –

(A) TSFS

* As at 31 January 2019

As for the ENLS, we do not maintain information on the numbers of student loan borrowers by different study level of programmes because it covers a wide range of post-secondary/continuing and professional education courses.

(iii) The lowest, average, median and highest loan amounts disbursed under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows –

Loan Disbursed ($)	**Academic Year**				
	2014/15	**2015/16**	**2016/17**	**2017/18**	**2018/19***
(A) TSFS (loans are to cover living expenses)					
Lowest	3,180	1,700	3,627	3,707	3,751
Average	31,367	32,940	36,716	38,022	39,074
Median	40,000	42,100	48,000	49,000	50,000
Highest **	63,780	66,460	72,555	74,145	75,030
(B) FASP (loans are to cover living expenses)					
Lowest	2,126	870	1,200	2,965	3,500

Loan Disbursed ($)	Academic Year				
	2014/15	2015/16	2016/17	2017/18	2018/19*
Average	32,986	35,446	38,873	39,902	41,268

Lowest	1,500	3,000	2,570	2,375	3,563
Average	53,254	54,904	57,808	60,495	51,633
Median	41,400	42,800	45,920	48,000	50,400
Highest	325,700	340,000	350,200	358,600	364,000

* As at 31 January 2019

** Under the TSFS and FASP, some applicants, e.g. disabled applicants, might be offered loans at an amount higher than the maximum loan amount of an academic year on a discretionary basis.

Prior to the implementation of the measure to extend the standard repayment period to 15 years from the 2012/13 academic year, student loan borrowers under the TSFS and FASP were required to repay their loans by 20 quarterly instalments in 5 years while those under the NLSFT, NLSPS and ENLS were required to repay their loans by 40 quarterly instalments in 10 years upon completion or cessation of their studies.

(c) The numbers of students receiving grants and full grants under the TSFS and FASP in different institutions in the 2014/15 to 2018/19 academic years are as follows–

(A) TSFS

Institution	Academic Year				
	2014/15	2015/16	2016/17	2017/18	2018/19*
(a) City University of Hong Kong

* As at 31 January 2019

(d) The information on the average loan amount and the median loan amount of student loan borrowers who obtained loans under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years is provided in (b)(iii) above. As regards the information on their average and median monthly repayment amounts, we do not keep track of the students based on the academic year of their obtaining loans as students may complete their studies and hence commence loan repayment at different times. Based on the information on student loan borrowers who commenced loan repayment in the 2014/15 to 2017/18 academic years, the average loan amount, the median loan amount, the average monthly repayment amount and the median monthly repayment amount are as follows –

Loan/ Repayment Amount ($)	Academic Year			
	2014/15	2015/16	2016/17	2017/18
(A) TSFS				
Average loan amount ^^	59,644	59,698	65,680	71,207
Median loan amount ^^	48,710	42,520	44,310	52,810
Average monthly loan repayment amount~	357	357	393	426
Median monthly loan repayment amount~	292	254	265	316
(B) FASP				
Average loan amount ^^	55,559	54,625	56,986	60,824
Median loan amount ^^	40,960	42,000	42,520	44,310
Average monthly loan repayment amount~	333	327	341	364
Median monthly loan repayment amount~	245	251	254	265
(C) NLSFT				
Average loan amount ^^	71,033	75,326	86,862	88,676
Median loan amount ^^	60,500	63,150	84,200	84,200
Average monthly loan repayment amount~	448	475	540	551
Median monthly loan repayment	381	398	523	523

Loan/ Repayment Amount ($)	Academic Year			
	2014/15	2015/16	2016/17	2017/18
amount~				
(D) NLSPS				
Average loan amount ^^	89,425	103,757	122,390	116,824
Median loan amount ^^	85,867	91,350	100,800	97,500
Average monthly loan repayment amount~	564	654	761	726
Median monthly loan repayment amount~	541	576	627	606
(E) ENLS				
Average loan amount ^^	64,520	67,538	73,434	73,823
Median loan amount ^^	49,000	51,000	56,721	56,280
Average monthly loan repayment amount~	400	419	450	452
Median monthly loan repayment amount~	304	316	347	345

^^ The average loan amount and the median loan amount are calculated based on the total amount of loans disbursed to the student loan borrowers upon their commencement of repayment in a particular academic year. The figures are therefore different from the figures in (a) and (b) above which are calculated based on the amount of loans disbursed in a particular academic year.

~ Based on a 15-year repayment period. For the TSFS and FASP, the prevailing interest rate is 1% per annum. For the NLSFT, NLSPS and ENLS, the prevailing interest rate is 1.257% per annum.

Information on loan repayment of student loan borrowers who commenced loan repayment in the 2018/19 academic year is not yet available.

We do not maintain information on the default rate[§] of student loan borrowers based on when they obtained loans. The default rates of student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2014/15 to 2018/19 academic years are as follows–

Scheme	Academic Year				
	2014/15*	2015/16*	2016/17*	2017/18*	2018/19*
TSFS	5.13%	5.02%	4.74%	4.59%	4.47%
FASP	5.33%	5.18%	5.04%	5.00%	5.10%
NLSFT	4.80%	4.53%	3.93%	3.56%	3.01%
NLSPS	7.54%	6.96%	6.14%	5.42%	5.09%
ENLS	9.59%	9.68%	9.24%	8.91%	8.37%
Overall	**7.26%**	**7.07%**	**6.54%**	**6.11%**	**5.74%**

§ Student loan borrowers who fail to repay 2 or more consecutive quarterly instalments/6 or more consecutive monthly instalments for 1 or more loan repayment account(s) are considered as defaulters. The default rate is the percentage of the number of default cases in relation to the number of loan repayment accounts as at the end of the academic year concerned, unless otherwise specified.

* The numbers of default cases in the 2014/15 to 2018/19 academic years are the numbers as at the end of the academic years concerned (i.e. 31 July 2015, 31 July 2016, 31 July 2017 and 31 July 2018) and 31 January 2019 respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0099)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student Financial Assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. Please provide in the table below information on the titles of all publicly-funded university scholarships, the average and median values of award of each scholarship, as well as the numbers of local and non-local students awarded scholarships in the past 5 years (2014/15 to 2018/19).

Table 1

Title of scholarship	Median value of award	Average value of award	Number of local students awarded scholarships (%)	Number of non-local students awarded scholarships (%)	Total amount of government expenditure involved

2. Please provide in the table below information on non-local students granted publicly-funded university scholarships in the past 5 years (2014/15 to 2018/19), such as nationality/place of origin, average value of award, median value of award and the amount of government expenditure involved.

Table 2a

Title of scholarship	Number of non-local students awarded publicly-funded scholarships								
	Mainland China (%)	Taiwan (%)	USA (%)	UK (%)	Japan (%)	South Korea (%)	France (%)	Canada (%)	Others (please specify)

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 51)

Reply:

1. Details of the publicly-funded scholarships administered by the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency in the past 5 academic years from 2014/15 to 2018/19 are set out in Table 1 below:

Table 1

Title of scholarship	Academic year	Median value of award ($)	Average value of award ($)	Number of local students awarded scholarships (%)	Number of non-local students awarded scholarships (%)	Total amount of government expenditure involved ($ million)
Scholarship for Prospective English Teachers [a]	2014/15	50,000	50,347	171 [b] (98.8%)	2 (1.2%)	8.71
	2015/16		50,326	182 [b] (98.9%)	2 (1.1%)	9.26
	2016/17		50,317	187 [b] (98.9%)	2 (1.1%)	9.51
	2017/18		50,321	185 [b] (98.9%)	2 (1.1%)	9.41
	2018/19*		50,326	182 [b] (98.9%)	2 (1.1%)	9.26

* As at 31 January 2019

Remarks

[a] The scholarship was established in 2010/11 academic year as one of a series of measures to enhance the professionalism of English teachers in Hong Kong. The aim of the scholarship is to attract persons proficient in English to pursue relevant local bachelor's degree programmes and/or teacher training programmes which will qualify them to become English teachers on graduation.

[b] The figures include renewal awards for students pursuing bachelor's degree programmes at year 2 or above and/or teacher training programmes.

2. Tables 2a and 2b below list the information on non-local students awarded the publicly-funded scholarships in the past 5 academic years from 2014/15 to 2018/19:

Table 2a

Title of scholarship	Academic Year	Number of non-local students awarded publicly-funded scholarships								
		Mainland China (%)	Taiwan (%)	USA (%)	UK (%)	Japan (%)	South Korea (%)	France (%)	Canada (%)	Singapore (%)
Scholarship for Prospective English Teachers	2014/15	2 (100%)	-	-	-	-	-	-	-	-
	2015/16	1 (50%)	-	-	-	-	1 (50%)	-	-	-
	2016/17	-	-	-	-	-	1 (50%)	-	-	1 (50%)
	2017/18	-	-	-	-	-	1 (50%)	-	-	1 (50%)
	2018/19*	-	-	-	-	-	1 (50%)	-	-	1 (50%)

* As at 31 January 2019

Table 2b

Place of origin of non-local students awarded publicly-funded scholarships	Total number of students (%)	Number of scholarships	Average value of award ($)	Median value of award ($)	Total amount of government expenditure involved ($)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2964)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student Financial Assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. Please provide in table form detailed information on the titles of all publicly-funded scholarships, the average and median award values of each scholarship, as well as the numbers of local and non-local students awarded scholarships in the past 5 years (2014/15 to 2018/19).

2. Please provide, in the table below, information on non-local students awarded publicly-funded scholarships in the past 5 years (2014/15 to 2018/19), such as nationality/place of origin, average value of award, median value of award and the amount of public funds involved.

Table 2a

Title of scholarship	Number of non-local awardees of publicly-funded scholarships								
	Mainland China (%)	Taiwan (%)	USA (%)	UK (%)	Japan (%)	South Korea (%)	France (%)	Canada (%)	Others (please specify)

Table 2b

Place of origin of non-local awardees of publicly-funded scholarships	Total number of students (%)	Number of scholarships	Average value of award	Median value of award	Total amount of public funds involved
Mainland China					
Taiwan					
USA					
UK					
Japan					
South Korea					
France					
Canada					
Others (please specify)					

3. Please provide detailed information on the titles of all publicly-funded university scholarships, as well as the numbers, with percentage, of local students and non-local students awarded such scholarships by institution, department and year of study in the past 5 years (2014/15 to 2018/19).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 53)

Reply:

1. Details of the publicly-funded scholarships administered by the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency in the past 5 academic years from 2014/15 to 2018/19 are set out in Table 1 below:

Table 1

Title of scholarship	Academic year	Median value of award ($)	Average value of award ($)	Number of local awardees (%)	Number of non-local awardees (%)	Total amount of public funds involved ($ million)
Scholarship for Prospective English Teachers [a]	2014/15	50,000	50,347	171 [b] (98.8%)	2 (1.2%)	8.71
	2015/16		50,326	182 [b] (98.9%)	2 (1.1%)	9.26
	2016/17		50,317	187 [b] (98.9%)	2 (1.1%)	9.51
	2017/18		50,321	185 [b] (98.9%)	2 (1.1%)	9.41
	2018/19*		50,326	182 [b] (98.9%)	2 (1.1%)	9.26

* As at 31 January 2019

Remarks

[a] The scholarship was established in 2010/11 academic year as one of a series of measures to enhance the professionalism of English teachers in Hong Kong. The aim of the scholarship is to attract persons proficient in English to pursue relevant local bachelor's degree programmes and/or teacher training programmes which will qualify them to become English teachers on graduation.

[b] The figures include renewal awards for students pursuing bachelor's degree programmes at year 2 or above and/or teacher training programmes.

2. Tables 2a and 2b below list the information on non-local awardees of the publicly-funded scholarships in the past 5 academic years from 2014/15 to 2018/19:

Table 2a

Title of scholarship	Academic Year	Number of non-local awardees of publicly-funded scholarships								
		Mainland China (%)	Taiwan (%)	USA (%)	UK (%)	Japan (%)	South Korea (%)	France (%)	Canada (%)	Singapore (%)
Scholarship for Prospective English Teachers	2014/15	2 (100%)	-	-	-	-	-	-	-	-
	2015/16	1 (50%)	-	-	-	-	1 (50%)	-	-	-

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2966)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

(700) General non-recurrent

Item 508 Continuing Education Fund

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. Please provide in the table below information on the following student financial assistance schemes in the past 5 years (2014/15 to 2018/19) –

	Number of applications	Number of beneficiaries	Average amount of assistance disbursed ($)	Median amount of assistance disbursed ($)	Total amount of assistance disbursed ($ million)
Kindergarten and Child Care Centre Fee Remission Scheme					
Pre-primary Education Voucher Scheme					
Examination Fee Remission Scheme					
Subsidy Scheme for Internet Access Charges					
School Textbook Assistance Scheme					
Student Travel Subsidy Scheme					
Community Care Fund – Enhancement of the Flat-rate Grant under the School Textbook Assistance Scheme					
Community Care Fund – Enhanced Travel Subsidy					

for Needy Special School Students					
Financial Assistance Scheme for Designated Evening Adult Education Courses					
Tuition fee reimbursement under the Diploma Yi Jin					
Student Travel Subsidy for Tertiary or Post-secondary Students					
Continuing Education Fund					

2. How will the Government enhance or improve its measures on financial assistance for the present and future? What is the amount involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 55)

Reply:

1. The requested information for the above student financial assistance schemes for the past 5 years (i.e. 2014/15 to 2018/19 school years) is set out in the Appendix.

2. The Government is committed to ensuring that no students will be denied access to education because of a lack of means, and believes that continuous learning should be supported. Premised on this, the Government reviews the student financial assistance schemes from time to time to assess their effectiveness, and to ascertain whether the schemes can achieve the objectives they are set up for.

Regarding the Continuing Education Fund (CEF), the Government injected in 2018 an additional funding of $10 billion into the CEF to facilitate the implementation of a series of enhancement measures on 1 April 2019. These measures include doubling the subsidy ceiling to $20,000 per applicant, relaxing the upper age limit for applicants from 65 to 70, expanding the scope of CEF courses to all eligible courses registered under the Qualifications Register, and enhancing the quality assurance monitoring of CEF courses, etc. Applicants who once opened a CEF account can also benefit from the enhancement measures.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1345)

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (201) Means-tested loan for tertiary students pursuing publicly-funded programmes

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Currently, the Tertiary Student Finance Scheme — Publicly-funded Programmes (TSFS) administered by the Working Family and Student Financial Assistance Agency provides means-tested loans to students in need. What were the respective numbers of post-secondary graduates whose TSFS loans had been approved and the average loan amounts of these graduates in the past 3 years? Assuming that a loan amount capped at $20,000 is to be waived, what is the sum involved every year?

Asked by: Hon LEE Wai-king, Starry (LegCo internal reference no.: 13)

Reply:

The TSFS is a means-tested scheme which aims to provide financial assistance for eligible needy students taking up the University Grants Committee (UGC)-funded or publicly-funded recognised full-time programmes. The financial assistance is provided in the form of grants and/or loans. The grants are to cover tuition fees, academic expenses and compulsory student union fees while the loans are to meet living expenses. The grants are non-repayable and the loans are repayable.

In the 2016/17 to 2018/19 academic years, the numbers of students receiving means-tested loans under the TSFS are as follows –

	Academic year		
	2016/17	2017/18	2018/19*
Number of students receiving loans	5 742	5 060	3 655

* As at 31 January 2019

We do not keep track of students' repayment based on the academic year of their obtaining loans as students may complete their studies at different times and some may choose to pursue further studies after graduation and hence commence loan repayment at different times. Assuming that a means-tested loan capped at $20,000 is to be waived for each student loan borrower who has commenced repayment under the TSFS (excluding the means-tested loan scheme under the Financial Assistance Scheme for Post-Secondary Students, the Non-means-tested Loan Scheme for Full-time Tertiary Students, the Non-means-tested Loan Scheme for Post-secondary Students and the Extended Non-means-tested Loan Scheme), it is estimated that the amount involved will be about $363 million. As regards the subsequent annual expenditure, it depends on the loan amounts of the student loan borrowers who commence repayment in that particular academic year. It is worth noting that if a loan amount capped at $20,000 is to be waived under a particular student loan scheme, it may be considered as unfair by borrowers of other student loan schemes, those who have borrowed less than the capped amount, or those who have settled their loans early.

Asked by: Hon YUNG Hoi-yan (LegCo internal reference no.: 13)

Reply:

Relevant figures of the KCFRS from the 2016/17 to 2019/20 school years are as follows:

Table 1: Group aged below 2 (child care centre students)

School year	2016/17	2017/18	2018/19 (as at 31 January 2019)	2019/20 (Estimate)
Number of applications received	423	361	258	599
Number of successful applications	348	305	227	352
Number of applications with half fee remission	167	167	129	193
Number of applications with 75% fee remission	31	32	25	37
Number of applications with full fee remission	150	106	73	122
Fee remission ceiling ($) (per month)	6,985	6,345	6,500	To be confirmed
Maximum fee subsidy per month ($)	6,985	6,345	6,500	
Total amount of subsidy disbursed ($ million)	14.6	12.1	5.0	16.0

Table 2: Group aged 2-3 (child care centre students)

School year	2016/17	2017/18	2018/19 (as at 31 January 2019)	2019/20 (Estimate)
Number of applications received	2 306	2 065	1 726	2 637
Number of successful applications	1 704	1 535	1 305	1 552
Number of applications with half fee remission	778	711	598	719
Number of applications with 75% fee remission	165	145	118	147
Number of applications with full fee remission	761	679	589	686
Fee remission ceiling ($) (per month)	5,426	6,159	6,906	To be confirmed
Maximum fee subsidy per month ($)	5,426	6,159	6,906	
Total amount of subsidy disbursed ($ million)	55.2	48.2	23.8	61.1

Table 3: Group aged 3-6 (kindergarten students)

School year	2016/17	2017/18	2018/19 (as at 31 January 2019)	2019/20 (Estimate)
Number of applications received	48 266	43 291	40 338	44 470
Number of successful applications	39 480	23 548#	22 290#	24 573#
Number of applications with half fee remission	13 167	7 810	8 063	8 139
Number of applications with 75% fee remission	3 339	2 086	1 984	2 175
Number of applications with full fee remission	22 974	13 652	12 243	14 259
Fee remission ceiling (half day class) ($) (per year*)	8,170^	4,400	4,400	To be confirmed
Fee remission ceiling (whole day class) ($) (per year*)	25,370^	12,400	14,000	
Maximum fee subsidy ($) (per year*)	25,370^	12,400	14,000	
Total amount of subsidy disbursed ($ million)	546.2	215.7	119.1	235.7

The kindergarten education scheme (KG scheme) has replaced the Pre-primary Education Voucher Scheme (PEVS) with effect from the 2017/18 school year. The number of successful applications does not include students who have passed the means test but need not pay school fee under the KG scheme.

^ Does not include the voucher subsidy under the PEVS to cover kindergarten fees.

* Under the KCFRS, the fee remission ceiling of kindergarten fees is set on a yearly basis and is different from that of child care centre fees which is set on a monthly basis.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information on the Chinese language courses (as compulsory or elective courses to fulfill the graduation requirement of UGC-funded or self-funded post-secondary programmes) offered in each tertiary institution from 2014/15 to 2018/19 school years:

a. Name of Chinese Language course or programme;

b. Type of course or programme (e.g. credit bearing, certificate, diploma, etc.);

c. Course fee;

d. Course or programme pre-requisites;

e. Number of local students enrolled;

f. Number of local non-Chinese speaking students enrolled; and

g. Number of local non-Chinese speaking students enrolled who were admitted through JUPAS.

Asked by: Hon AU Nok-hin (LegCo internal reference no.: 8)

Reply:

All tertiary institutions are independent educational establishments which enjoy a high degree of autonomy in programme design and formulation of graduation requirements. The institutions draw up their own academic policies and standards for various undergraduate programmes to assess whether students meet the graduation requirements. We do not have information on the compulsory or elective Chinese language courses which are listed as a graduation requirement.

(Question Serial No. 1243)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

a. Regarding the various funding schemes of the Research Grants Council (RGC) under the University Grants Committee, please tabulate the following information:

i) a breakdown of the number of funded projects and the total funding allocation for the funded projects under the General Research Fund (GRF) from the 2014/15 to 2018/19 academic years by institution;

ii) a breakdown of the number of funded projects and the total funding allocation for the funded projects under the GRF from the 2014/15 to 2018/19 academic years by category of disciplines (1);

iii) a breakdown of the number of postgraduate students receiving funding support under the Hong Kong PhD Fellowship Scheme (HKPFS) from the 2014/15 to 2018/19 academic years by institution;

iv) a breakdown of the number of postgraduate students receiving funding support under the HKPFS from the 2014/15 to 2018/19 academic years by category of research disciplines (1);

b. The HKPFS also provides funding for "some dual or joint PhD programmes in partnership with universities outside Hong Kong". Please set out the number of times for which relevant programmes were funded by the RGC from the 2014/15 to 2018/19 academic years, the expenditure involved and the names of the programmes.

(Note[1]): The categories of disciplines include Humanities, Science, Engineering, Social Sciences, Business, Legal, Medicine and Others

Asked by: Hon AU Nok-hin (LegCo internal reference no.: 22)

Reply:

(ai) – (aii) The number of funded projects and the respective amount of funding awarded under the General Research Fund (GRF) in the past five academic years (2014/15 to 2018/19), with breakdown by university and broad subject category, are at **Annex 1**.

(aiii) – (aiv) The number of postgraduate students receiving funding support under the Hong Kong PhD Fellowship Scheme (HKPFS) of the Research Grants Council (RGC) from 2014/15 to 2018/19, with breakdown by university and category of research disciplines, are at **Annex 2**.

(b) The acceptance of some "dual or joint PhD programmes in partnership with universities outside Hong Kong" for the HKPFS will take effect in the 2019/20. As such, there is no information in this regard from 2014/15 to 2018/19.

Annex 1

Number of Funded Projects and Funding Amount Awarded under the General Research Fund (2014/15 to 2018/19)

Breakdown of Number of Funded Projects by University

University	2014/15	2015/16	2016/17	2017/18	2018/19 (Note 1)
City University of Hong Kong	138	146	146	142	144
Hong Kong Baptist University	73	56	61	61	59
Lingnan University	9	13	4	16	6
The Chinese University of Hong Kong	208	205	221	223	214
The Education University of Hong Kong	16	30	18	22	26
The Hong Kong Polytechnic University	138	123	129	148	153
The Hong Kong University of Science and Technology	150	161	157	154	167
The University of Hong Kong	240	215	233	198	220
Total	**972**	**949**	**969**	**964**	**989**

Breakdown of Funding Amount Awarded by University (Note 2)

University	2014/15 ($ million)	2015/16 ($ million)	2016/17 ($ million)	2017/18 ($ million)	2018/19 ($ million) (Note 1)
City University of Hong Kong	72.9	81.4	82.5	78.2	76.9
Hong Kong Baptist University	37.7	27.1	34.6	34.5	34.0
Lingnan University	2.1	4.6	2.3	5.8	1.6

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2953)

Head: (190) University Grants Committee

Subhead (No. & title): (492) Grants to UGC-funded institutions

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please set out the changes in the number of contract teaching staff in each of the funded universities over the past 3 years with a breakdown by the following duration of contract for each university:

a. 3 to 6 months
b. 6 to 12 months
c. More than 1 year

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 43)

Reply:

As provided by the University Grants Committee (UGC)-funded universities, the numbers of contract staff and the corresponding changes in the universities from the 2016/17 to 2018/19 academic years are at **Annex**. The breakdown of numbers by duration of contract requested in the question is not available.

Annex

Numbers of contract staff and corresponding changes in the UGC-funded universities from the 2016/17 to 2018/19 academic years

University	2016/17	2017/18	2018/19 (Provisional)
City University of Hong Kong	1 193	1 170 [-23]	1 217 [+47]
Hong Kong Baptist University	856	885 [+29]	916 [+31]
Lingnan University	383	399 [+16]	406 [+7]
The Chinese University of Hong Kong	2 534	2 536 [+2]	2 539 [+3]
The Education University of Hong Kong	735	752 [+17]	776 [+24]
The Hong Kong Polytechnic University	1 392	1 430 [+38]	1 456 [+26]
The Hong Kong University of Science and Technology	1 226	1 249 [+23]	1 288 [+39]
The University of Hong Kong	3 007	3 099 [+92]	3 239 [+140]

Notes:

1. Figures in square brackets represent the changes in staff numbers as compared to the preceding academic year.
2. For City University of Hong Kong, Hong Kong Baptist University and the Education University of Hong Kong, figures exclude research, honorary academic and part-time staff; for the Hong Kong University of Science and Technology, figures exclude honorary academic and part-time staff. For the Hong Kong Polytechnic University, figures only include the number of staff with salaries wholly funded by general funds, and exclude academic staff on honorary or adjunct appointment, and temporary or part-time staff.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0563)

Head: (190) University Grants Committee

Subhead (No. & title): (000) Operational expenses

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

In view of the reduction in the number of places of all postgraduate programmes in Hong Kong in recent years, has the University Grants Committee (UGC) conducted a survey on Hong Kong students' aspiration for further studies? How does it ensure a stable supply of programme places? How does it ensure a balanced ratio of local to non-local students?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 40)

Reply:

The number of approved places for research postgraduate (RPg) programmes in the 2008/09 to 2021/22 academic years are tabulated below. Since the 2011/12 academic year, the number of approved places of RPg programmes has maintained at 5 595 without reduction.

Academic year	Number of approved places for RPg programmes
2008/09	4 765
2009/10	5 144
2010/11	5 325
2011/12	5 595
2012/13	5 595
2013/14	5 595
2014/15	5 595
2015/16	5 595
2016/17	5 595
2017/18	5 595
2018/19	5 595
2019/20	5 595
2020/21	5 595
2021/22	5 595

To boost the research capability of Hong Kong through attracting high quality talents from around the world, the University Grants Committee (UGC)-funded universities admit RPg students on a merit basis, taking into account the students' academic results and research capability. The place of origin of the students is not a consideration. This helps ensure that the best candidates from different places are engaged to boost the level of research in Hong Kong, and is in line with the common practice of the international academic community. In the meantime, the UGC and UGC-funded universities have been raising the interest of local students in RPg programmes through various means, such as launching the Hong Kong PhD Fellowship Scheme, providing more opportunities for undergraduates to engage in research, and proactively sourcing of potential students by professors with a view to encouraging local graduates to pursue RPg programmes. It is worth noting that whether local graduates choose to pursue RPg programmes and whether they would pursue the programmes locally is a personal choice. To encourage more local students to apply for admission to UGC-funded RPg programmes, we launched the Tuition Waiver Scheme for Local Research Postgraduate Students in July 2018. As at November 2018, 1 887 local students have benefitted and the total tuition waived in the first year is estimated to be about $70 million.

Moreover, with a view to providing more research and sustained development opportunities, the RGC will launch the regular Postdoctoral Fellowship Scheme in the 2019/20 academic year to provide the selected postdoctoral fellows with stipends (covering the basic salary of a university full-time postdoctoral post and a travel allowance for conferences and/or research-related activities) for up to 3 years. The UGC initially proposes to reserve half of the quota (i.e. 25) of the Scheme for local PhD graduates every year. Furthermore, the Scheme helps encourage PhD graduates to pursue careers in research and create more postdoctoral posts in the higher education sector. The UGC will consult the universities on the details of the Scheme later this year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2074)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the 2019-20 Budget that the Government will set aside a dedicated provision of $16 billion for University Grants Committee (UGC)-funded universities to enhance or refurbish campus facilities, in particular the provision of additional facilities essential for research and development activities, such as laboratories. Please set out the provisions for UGC-funded universities to enhance or refurbish campus facilities in the past 3 years, as well as the contents and expected years of completion of the projects involved.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 3)

Reply:

The Finance Committee of the Legislative Council approved in 2017-18 the project estimate of $810.9 million for the University of Hong Kong to construct an academic building at No. 3 Sassoon Road. The project is expected to be completed in 2021-22.

Besides, the details of the alterations, additions, repairs and improvements projects of UGC-funded universities in the past three years (2016-17 to 2018-19) are provided at the **Annex**.

Annex

Projects commenced in 2016-17

University	Project	Project Estimates ($ million)	Anticipated Completion Year
City University of Hong Kong	Conversion of space into wet laboratories (Floor 5, Academic 1)	25.29	Completed in 2018-19.
	Improvement of indoor air quality on campus	18.63	
Hong Kong Baptist University	Upgrading of fire services and air-conditioning system to student residence halls	21.64	
	Spatial reorganisation and renovation works for catering facilities on Ho Sin Hang Campus	29.85	
Lingnan University	Replacement works of the chiller units, chilled water circulation system and building management system for the mechanical ventilation and air-conditioning installation	27.25	
	Improvement works to the existing finishes of the pavement along all covered walkway, Wing On Plaza and walkway along emergency vehicular access within the main campus	29.83	
The Chinese University of Hong Kong	Energy saving and safety enhancement works on campus	24.94	
	Upgrading and improvement works of Shanghai Fraternity Association Research Services Centre	29.97	
The Education University of Hong Kong	Upgrading artificial turfs in Pak Shek Kok Sports Centre and in Tai Po Campus Soccer Pitch	25.34	
	Replacement of air-cooled chillers by water-cooled chillers in Block E	19.70	
The Hong Kong Polytechnic University	Office consolidation at 3/F of QT and ST Wings	27.10	
	Replacement of the existing air-cooled chiller plant with high energy-efficient oil-free air-cooled type for Phase 6 Building	30.00	
The Hong Kong University of Science and Technology	New data centre and transformer room on 2/F at Zone L and H of the Academic Building	30.00	
	Renovation of laboratory space for research on 6/F at Zone L of the Academic Building	7.00	

University	Project	Project Estimates ($ million)	Anticipated Completion Year
The University of Hong Kong	Space reorganisation at 2/F of Knowles Building	29.01	Completed in 2018-19.
	Space reorganisation at Medical Library at Sassoon Road and G/F and 2/F of Main Library at the Main Campus	29.98	
	Total:	**405.53**	

Projects commenced in 2017-18

University	Project	Project Estimates ($ million)	Anticipated Completion Year
City University of Hong Kong	Conversion of space into wet laboratories (Floor 2, Academic 1)	23.79	To be completed in 2019-20.
	Replacement of aged fume extraction systems for laboratories in Academic 1	27.68	
Hong Kong Baptist University	Spatial reorganisation and renovation works at Levels 2 and 4 of Sir Run Run Shaw Building and Level 6 of Oen Hall Building (East Wing)	29.44	
	Refurbishment of common washrooms at South Tower, student residence halls	28.33	
	Upgrading of chiller plants on Level 2 of student residence halls	8.53	
Lingnan University	Installing internal lift system and upgrading of IT infrastructure at Patrick Lee Wan Keung Academic Building	25.34	
	Improvement works of the soccer pitch artificial turf system, the running track system and associated facilities at the University's Outdoor Sports Ground	30.00	
	Upgrade of IT infrastructure for data centres	15.82	
The Chinese University of Hong Kong	Track improvement works at Sir Philip Haddon-Cave Sports Field	11.99	
	Extension on roof of Mong Man Wai Building and 1/F of William M.W. Mong Engineering Building for new laboratory space	29.81	
	Extension of University Sports Centre	29.95	

University	Project	Project Estimates ($ million)	Anticipated Completion Year
The Education University of Hong Kong	Improvement of conference and meeting facilities in Tai Po Campus	29.39	To be completed in 2019-20.
	Construction of link floors at Block D	27.93	
	Renovation works to improve language learning facilities on Tai Po Campus	8.90	
	Improvement of fire detection and ventilation system to minimise the false fire alarm in Hostel A, B and C	9.91	
The Hong Kong Polytechnic University	Global student hub at P/F of QT Wing	29.44	
	Safety enhancement works to all the existing lifts on campus and replacement of lift installations in Cores E, F, G, H and J	23.86	
	Classrooms improvement works at 3/F of CD, CF & EF Wings and 4/F of DE Wing	30.00	
The Hong Kong University of Science and Technology	Major renovation and spatial reorganisation of catering facilities at LG1 of the Academic Building	30.00	
	Office remodelling on 2/F and 3/F at Zone E of the Academic Building	10.97	
	Spatial reorganisation of Room 1213 and 1213M at Zone H of the Academic Building	6.14	
The University of Hong Kong	Reorganisation of space at LG/F and G/F of Hui Oi Chow Building for the Faculty of Engineering	30.00	
	Improvement works of lecture theatres and classroom in Meng Wah Complex	29.64	
	Safety improvement works and preventive measures to a few slopes in campus and feature walls along Bonham Road	30.00	
	Total:	**556.86**	

Projects commenced in 2018-19

University	Project title	Project Estimates ($ million)	Anticipated Completion Year
City University of Hong Kong	Conversion of space into wet laboratories (2/F, Yeung Kin Man Academic Building)	28.84	To be completed in 2020-21.
	Improvement of indoor air quality and facilities for teaching venues at Yeung Kin Man Academic Building	28.24	
Hong Kong Baptist University	Improvement works to Li Promenade on Shaw Campus	29.25	
	Improvement works to Wai Hang Sports Centre	29.99	
	Addition of fume stacks to Cha Chi-ming Science Tower and conversion works for laboratories at Level 5 of Oen Hall Building	30.00	
Lingnan University	Upgrade of equipment and facilities for Chan Tak Tai Auditorium	28.29	
	Renovation of Library with addition of mezzanine level at Patrick Lee Wan Keung Academic Building	29.95	
The Chinese University of Hong Kong	Upgrading of information technology infrastructure for Next Generation Campus Network	29.94	
	Provisions of new laboratory space a) Spatial reorganisation of 5/F Mong Man Wai Building and Lady Shaw Building b) Extension on 2/F of Ho Sin Hang Engineering Building	27.46	
	Spatial reorganisation and improvement works for dissecting laboratories on LG/F of Choh-Ming Li Basic Medical Sciences Building	29.99	
The Education University of Hong Kong	Improvement works of lecture theatres at Tai Po Campus	29.68	
	Improvement of student toilets facilities to enhance hygiene condition in Blocks B,C,D & E	28.67	
The Hong Kong Polytechnic University	Classroom improvement works at 3/F of FJ and HJ Wings	29.80	
	Renovation of washrooms in Cores G, J and W	30.00	

University	Project title	Project Estimates ($ million)	Anticipated Completion Year
The Hong Kong University of Science and Technology	Spatial reorganisation of Academic Concourse 1/F, Zone C	28.69	To be completed in 2020-21.
	Renovation of teaching and research laboratory spaces for Department of Civil Engineering at 3/F, Zone J	14.65	
	Improvement works to central dishwashing facilities and kitchen staff changing at LG7 Canteen	6.00	
The University of Hong Kong	Enhancement works for existing air-conditioning systems at the Main Campus as "green solutions"	29.48	
	Space reorganisation at LG Floor of Haking Wong Building for academic purpose - Main Campus Branch of Electron Microscope Unit	30.00	
	New Laboratories for housing bio-medical equipment and for drone research at LG floor of Haking Wong Building	30.00	
	Total:	**548.92**

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2075)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures for the past three years:

(1) the amount of research funding granted by the Research Endowment Fund of the Research Grants Council under the purview of the University Grants Committee, as well as the scope of the research; and

(2) the amount of research funding for the various faculties and the estimated numbers of research student beneficiaries, broken down by the faculty of arts, science and business in the eight universities.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 4)

Reply:

(1) In the 2016/17, 2017/18 and 2018/19 academic years, the Research Endowment Fund (REF) allocated $1.074 billion, $1.018 billion and $1.011 billion* to various competitive research funding schemes respectively. Information such as the titles of the relevant projects, the participating University Grants Committee (UGC)-funded universities, the areas of discipline involved and the amount of funding secured has been uploaded to the UGC's website (https://www.ugc.edu.hk/eng/rgc/funded_research/funding_results.html).

* Position up to 28 February 2019.

(2) The amount of funding secured by the UGC-funded universities through REF competitive research funding schemes in the past three academic years (2016/17 to 2018/19), with a breakdown by broad subject category, is tabulated below. It is noteworthy that the competitive research funding secured in an academic year does not need to be fully spent within the same academic year. The UGC does not have the statistics on the number of research postgraduate student beneficiaries.

2016/17

Broad Subject Category	CityU ($m)	HKBU ($m)	LU ($m)	CUHK ($m)	EdUHK ($m)	PolyU ($m)	HKUST ($m)	HKU ($m)
Biology and Medicine	6.3	13.2	0.8	122.6	-	15.3	29.4	177.8
Business Studies	10.9	2.7	-	10.0	-	9.6	14.6	12.6

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2077)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 academic year, the Government has provided tuition waiver for all local students enrolled in University Grants Committee-funded research postgraduate programmes. The objective of the tuition waiver is to incentivise more local students to apply for admission to research postgraduate programmes with a view to building up a pool of local research talents. Please provide information on the following in the past 3 years:

(1) The number of local students enrolled in research programmes;

(2) The number of local students receiving tuition waiver since the launch of the Tuition Waiver Scheme for Local Research Postgraduate Students, broken down by university;

(3) The number of local students receiving tuition waiver since the launch of the Tuition Waiver Scheme for Local Research Postgraduate Students, broken down by discipline;

(4) Whether the Government has assessed if the tuition waiver has any positive effect on increasing the number of local students?

(5) Measures, if any, taken by the Government to increase the chance of local students being admitted to research postgraduate programmes with a view to maintaining the competitiveness of Hong Kong and promoting development of its higher education sector.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 6)

Reply:

(1) The number of local students enrolled in University Grants Committee (UGC)-funded research postgraduate (RPg) programmes in the past three years are set out at **Annex A**.

(2) and (3)

The Tuition Waiver Scheme for Local Research Postgraduate Students (the Scheme) was launched on 1 July 2018, and the number of local students who benefitted since its launch (broken down by university and discipline) are set out at **Annex B**.

(4) The Scheme was launched on 1 July 2018. Since applications for most of the RPg programmes for the cohort admitted in the 2018/19 academic year had closed in the first half of 2018, the effectiveness of the Scheme has yet to be fully reflected in the number of applicants in the 2018/19 academic year. The UGC will keep in view the change in the number of local students admitted to the RPg programmes.

(5) After graduation from undergraduate programmes, Hong Kong students have diversified opportunities for further studies and employment, and a number of them intending to pursue RPg studies choose to do so at overseas universities. Ultimately, whether graduates choose to pursue RPg studies, and if so where, is a personal choice. The UGC and its funded universities have been utilising various means to enhance the interest of local students in pursuing RPg programmes, such as launching the Hong Kong PhD Fellowship Scheme, providing more opportunities for undergraduates to engage in research activities, professors to encourage potential local students to pursue RPg programmes on graduation, and providing tuition waiver to local RPg students, with a view to incentivising local graduates to pursue RPg programmes.

Moreover, with a view to providing more research and sustained development opportunities, the Research Grants Council will launch the new regular Postdoctoral Fellowship Scheme in the 2019/20 academic year to provide the awarded postdoctoral fellows with stipends (covering the basic salary of a university full-time postdoctoral post and a travel allowance for conferences and/or research-related activities) for up to three years. The UGC initially proposes to reserve half of the quota (i.e. 25) of the Scheme for local PhD graduates. Furthermore, the Scheme helps encourage PhD graduates to pursue careers in research and create more postdoctoral posts in the higher education sector. The UGC will consult the universities on the details of the Scheme later this year.

Annex A

Number of local students enrolled in UGC-funded RPg programmes in the 2016/17 to 2018/19 academic years

Academic year	Number of local students
2016/17	1 519
2017/18	1 478
2018/19 (Provisional)	1 553

Note:

1. Number of local students refers to the number of RPg students fully or partially funded by the UGC (including students financed by external funds).

Annex B

Number of beneficiaries since the launch[1] of the Tuition Waiver Scheme for Local Research Postgraduate Students

(a) By university (Headcount)

University	Number of benefited local students (as at November 2018)
City University of Hong Kong	94
Hong Kong Baptist University	74
Lingnan University	33
The Chinese University of Hong Kong	687
The Education University of Hong Kong	20
The Hong Kong Polytechnic University	195
The Hong Kong University of Science and Technology	257
The University of Hong Kong	527
Total	**1 887**

(b) By discipline (Headcount)

Discipline	Number of benefited local students (as at November 2018)
Medicine, Dentistry and Health	386
Sciences	574
Engineering and Technology	301
Business and Management	47
Social Sciences	199
Arts and Humanities	305
Education	58
Inter-disciplinary Programmes	17
Total	**1 887**

Note:

1. The Tuition Waiver Scheme for Local Research Postgraduate Students was launched on 1 July 2018. As academic calendars of universities vary, the number of beneficiaries includes local RPg students in the 2017/18 academic year at some of the universities as at July and August 2018, as well as all local RPg students from the 8 universities in the 2018/19 academic year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2821)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

The number of students pursuing UGC-funded programmes in the 2017/18 and 2018/19 academic years were 97 384 and 98 017 respectively. Please advise this Committee of the following:

(1) the number of local and non-local students pursuing UGC-funded programmes by place of origin from the 2015/16 to 2018/19 academic years;

Place of Origin/ Academic Year	2015/16	2016/17	2017/18	2018/19
Hong Kong				
Mainland China				
Taiwan				
Japan and Korea				
Russia				
Middle East				
Eastern Europe				
Western Europe				
Africa				
Oceania				
Southeast Asia				
South America				
North America				
Others				

(2) the number of non-local students pursing UGC-funded programmes by level of study from the 2015/16 to 2018/19 academic years using the table below:

	Sub-degree	Undergraduate	Taught Postgraduate	Research Postgraduate
Hong Kong				
Mainland China				
Taiwan				
Japan and Korea				
Russia				
Middle East				
Eastern Europe				
Western Europe				
Africa				
Oceania				
Southeast Asia				
South America				
North America				
Others				

Asked by: Hon FAN Kwok-wai, Gary (LegCo internal reference no.: 2)

Reply:

(1) and (2)

The number of local and non-local students of University Grants Committee (UGC)-funded programmes by place of origin and level of study from the 2015/16 to 2018/19 academic years is at **Annex**.

Annex

Number of Local and Non-local Students of UGC-funded Programmes by Place of Origin and Level of Study from the 2015/16 to 2018/19 Academic Years

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0001)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the expenditure on salaries and the recruitment staff of the University Grants Committee (UGC)-funded institutions, please provide the figures of the following for the past 5 years (2014/15 to 2018/19) and the estimated figures for the 2019/20 academic year:

1. the number of part-time teaching staff employed and the percentage out of the total number of teaching staff;

2. a breakdown, by terms of employments, of the numbers, proportions and percentage changes of the teaching and non-teaching staff on temporary contract, term contract, long-term employment contract and substantive appointment in funded institutions;

3. the changes in the number of senior staff, the expenditure on their salaries and the percentage of such expenditure out of the total expenditure of each funded institution; and

4. the amount of expenditure on salaries and benefits of each institution that is funded by public money and income other than public funds respectively.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 23)

Reply:

1. As provided by the UGC-funded universities, the numbers and percentages of part-time academic staff in the academic departments of the universities with salaries wholly funded by general funds from the 2014/15 to 2018/19 academic years are at **Annex A**. Estimate for the 2019/20 academic year is not available.

2. As provided by the UGC-funded universities, the respective numbers and percentages of staff on contract and substantive appointment from the 2014/15 to 2018/19 academic years are at **Annex B** and the corresponding percentages of staff changes are

at **Annex C**. The breakdown between teaching and non-teaching staff and the estimate for the 2019/20 academic year are not available.

3. As provided by the UGC-funded universities, the changes in the number of senior staff from the 2014/15 to 2018/19 academic years are at **Annex D**. Estimate for the 2019/20 academic year is not available. As regards expenditure on salaries of senior staff, since the deregulation of the salary scales of UGC-funded universities in 2003, the UGC has not sought to control for funding purposes actual expenditure on salaries in the universities. The information requested is thus not available.

4. The bulk of the Government subvention to the eight UGC-funded universities is in the form of a block grant which provides for a one-line allocation of resources for a funding period (usually a triennium). Expenditure of universities (including expenditure on salaries and benefits) is not solely covered by Government funding. Universities have other sources of income including tuition fees and other fees, interest and investment income, donations and endowments, auxiliary services and other incomes. Apportionment of expenditure on salaries and benefits by funding source is not available.

   However, as an indication and according to the annual financial reports of the eight UGC-funded universities, the expenditure on salaries and benefits and the income for the 2014/15 to 2017/18 academic years are set out at **Annex E**. Information for the 2018/19 academic year is not available and there is no estimate made for the 2019/20 academic year.

Annex A

Numbers and Percentages of Part-time Academic Staff in Academic Departments of UGC-funded Universities with Salaries Wholly Funded by General Funds, 2014/15 to 2018/19 Academic Years[(1)]

(Headcount)

Academic year	University							
	CityU	HKBU	LU	CUHK	EdUHK	PolyU	HKUST	HKU
2014/15	-	1 (0.3%)	8 (5.0%)	34 (3.3%)	2 (0.6%)	24 (2.6%)	3 (0.6%)	2 (0.2%)
2015/16	1 (0.1%)	-	8 (5.1%)	33 (3.1%)	5 (1.4%)	25 (2.7%)	7 (1.4%)	2 (0.2%)
2016/17	1 (0.1%)	-	3 (2.0%)	8 (0.8%)	5 (1.5%)	32 (3.2%)	6 (1.1%)	5 (0.5%)
2017/18	1 (0.1%)	-	3 (1.9%)	10 (1.1%)	7 (2.2%)	48 (4.9%)	11 (2.0%)	4 (0.4%)
2018/19 (Provisional)	-	-	1 (0.7%)	6 (0.6%)	5 (1.4%)	54 (5.8%)	16 (2.9%)	7 (0.7%)

Notes:

1. The percentage of relevant staff in relation to the academic staff in the academic departments of various universities with salaries wholly funded by general funds.
2. "-" denotes nil.

PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

Notes:

1. The financial information set out in this annex only covered those activities at university level (i.e. excluding subsidiaries).
2. Government funding include UGC funding (mainly comprise block grants, Earmarked Research Grants administered by the Research Grants Council, other earmarked grants and matching grants, etc) and other funding provision from the Government (mainly include subventions from Government bureaux and departments, such as the Food and Health Bureau, Innovation and Technology Commission and Environmental Protection Department, etc).
3. Tuition and other sources of income include tuition fees and other fees, interest and investment income, donations and benefactions, auxiliary services and other incomes.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0005)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please set out, by institution, the respective amounts of Government funding to University Grants Committee (UGC)-funded universities and their percentages against the total income of the universities in the past 5 years (2014/15 to 2018/19):

Sources of income	Institutions ($m) (as a % of total income)								UGC sector
	CityU	HKBU	LU	CUHK	EUHK	PolyU	HKUST	HKU	
Recurrent funding from UGC									
Funding from Research Grant Council (RGC)									
Funding from other Government agencies (please specify)									
Sub-total									
Tuition and other fees									
Interest									

Sources of income	Institutions ($m) (as a % of total income)								UGC sector
	CityU	HKBU	LU	CUHK	EUHK	PolyU	HKUST	HKU	
and investment income									
Donations and benefactions									
Income from subsidiaries									
Other incomes (please specify)									
Total income									

2. Please list out, by institution, a list of local and overseas subsidiaries established or currently owned by UGC-funded institutions.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 44)

Reply:

1. Total income by source of the eight University Grants Committee (UGC)-funded universities for the 2014/15 to 2017/18 academic years, based on universities' annual financial reports, is provided at **Annex A**. Information for the 2018/19 academic year is not available. The annual financial report of each university is also available on its website.

2. A list of subsidiaries / principal subsidiaries of UGC-funded universities as disclosed in their 2017/18 annual financial reports is provided at **Annex B**. The list of subsidiaries of each university is also provided in the annual financial report on its website.

Annex A

Total income by source of the University Grants Committee (UGC)-funded universities for the 2014/15 to 2017/18 academic years

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0072)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide the following for the past 5 years (2014/15 to 2018/19):

1. the names of the top 10 funded undergraduate programmes, offered by each University Grants Committee (UGC)-funded institution, which admitted the largest numbers of local applicants who hold non-local public examination results or academic qualifications (in terms of number and percentage respectively); the numbers of these applicants admitted to each of such programmes, as well as their percentage and median admission score; and the numbers of applicants admitted to each of such programmes through Joint University Programmes Admissions System (JUPAS) and their median admission score;

2. the names of the top 10 undergraduate programmes, offered by each UGC-funded institution, which admitted the largest numbers of non-local students (in terms of number and percentage respectively) and the nationalities of the non-local students admitted; the numbers of these applicants admitted to each of such programmes, as well as their percentage and median admission score; and the numbers of JUPAS applicants admitted to each of such programmes and their median admission score;

3. a list of scholarships available for application by tertiary students (e.g. the Hong Kong PhD Fellowship Scheme), with respective numbers of applicants and awardees, nationalities of the awardees and amounts of award involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 11)

Reply:

1. and 2.

Candidates of local public examinations continue to be the major source of local students for University Grants Committee (UGC)-funded undergraduate programmes over the years.

The local students not admitted to the UGC-funded undergraduate programmes through Joint University Programmes Admissions System (JUPAS) (non-JUPAS route) include students with local sub-degree qualifications, non-local qualifications and other qualifications (e.g. already had undergraduate degree qualifications).

Student admission is within the autonomy of the UGC-funded universities. Following the principles of fairness and merit-based selection, each university administers its own admission policy and criteria for different undergraduate programmes to assess applications submitted through the JUPAS and non-JUPAS routes. Having regard to institutional autonomy in student admission, neither the Government nor the UGC would require universities to specify a particular ratio of local students admitted through the JUPAS and non-JUPAS routes.

According to the UGC-funded universities, undergraduate admission is conducted on the basis of a rigorous and holistic assessment of applicants in a variety of aspects, including their academic qualifications and results, interview performance, personal attributes, non-academic achievements, interests and experiences, as well as programme preferences, etc. Universities have accumulated a wealth of experience in assessing the relative merits of local applicants with different academic qualifications. They have also been continuously monitoring the relative post-admission performance of students admitted with different academic qualifications to ensure that equivalent admission threshold is applied to candidates holding different academic qualifications. We understand that universities do not apply any formula to convert and compare different academic and non-academic qualifications.

The requested details regarding the top 10 UGC-funded first-year-first-degree (FYFD) programmes of each UGC-funded university with the highest ratio of local students with non-local qualifications to the total number of students admitted in the 2017/18 and 2018/19 academic years are at **Annex A**. The requested details regarding the top 10 UGC-funded FYFD programmes of each UGC-funded university with the largest number of local students with non-local qualifications in the 2017/18 and 2018/19 academic years are at **Annex B**. The same details covering the 2014/15 to 2016/17 academic years were set out in our replies (Reply Serial Nos. EDB597, EDB739 and EDB248) to questions (Question Serial Nos. 4454, 3626 and 0133) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16, 2017-18 and 2018-19 in 2015, 2017 and 2018 respectively. Given the length of the replies, the details covering the 2014/15 to 2016/17 academic years are not repeated herein.

Non-local students, including the Mainland and other non-local students, can be admitted to the UGC-funded undergraduate programmes up to a level not exceeding 20% of the approved UGC-funded student number (calculated by level of study). Starting from the 2016/17 academic year, since all new non-local undergraduate students are admitted by over-enrolment on top of the approved student number, they will not compete directly with local students. It is noteworthy that non-local students are required to pay higher tuition fees which are at least sufficient to recover relevant additional direct costs to avoid public money being used to cross-subsidise non-local students.

According to the UGC-funded universities, applications for admission submitted by

non-local candidates are held distinct and handled separately from local applications. Similar to local applications, non-local applications are considered by the universities in accordance with the principles of fairness and merit-based selection. Each university administers its own admission policy and criteria to identify the most-deserving among the non-local candidates.

The requested details regarding the top 10 UGC-funded FYFD programmes of each UGC-funded university with the highest ratio of non-local students to the total number of students admitted in the 2017/18 and 2018/19 academic years are at **Annex C**. The requested details regarding the top 10 UGC-funded FYFD programmes of each UGC-funded university with the largest number of non-local students in the 2017/18 and 2018/19 academic years are at **Annex D**. The same details covering the 2014/15 to 2016/17 academic years were set out in our replies (Reply Serial Nos. EDB597, EDB739 and EDB248) to questions (Question Serial Nos. 4454, 3626 and 0133) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16, 2017-18 and 2018-19 in 2015, 2017 and 2018 respectively. Given the length of the replies, the details covering the 2014/15 to 2016/17 academic years are not repeated herein. Moreover, the breakdown of the non-local students by place of origin for the top 10 UGC-funded FYFD programmes with the highest ratio of non-local students to the total number of students and the largest number of non-local students admitted from the 2014/15 to 2016/17 academic years are at **Annex E** and **Annex F** respectively.

All the aforementioned annexes are prepared based on information provided by the universities.

3.

The Hong Kong PhD Fellowship Scheme, established in 2009, is open to local as well as non-local postgraduate students who wish to pursue their PhD programmes in the UGC-funded universities. Starting from the 2018/19 academic year, the Fellowship provides each awardee with a monthly stipend of HK$25,100 and a conference and research-related transport allowance of HK$12,600 per year for up to 3 years. The number of postgraduate students applying for the Fellowship from the 2014/15 to 2018/19 academic years is tabulated below:

Academic year	Number of applicants
2014/15	4 755
2015/16	4 114
2016/17	4 303
2017/18	4 968
2018/19	5 955

The breakdown of the awardees by place of origin from the 2014/15 to 2018/19 academic years is tabulated at **Annex G**.

Annex A

UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Local Students with Overseas Qualifications to Total Number of Students Admitted, 2017/18 and 2018/19 Academic Years

University: City University of Hong Kong

2017/18 Academic year Programme name		Number of students admitted						Local students with major non-local qualifications as percentage of total number of students admitted (A)/(B)	For major admission qualifications[1], average score obtained by local students		
		Local students				Non-local students	Total (B)		JUPAS	Non-JUPAS	
		JUPAS	Non-JUPAS								
			Major non-local qualifications (A) [2][3]	Sub-degree qualifications [2][4]	Others [5]				HKDSE[6]	GCE[7]	IB[8]
1	Bachelor of Laws	42	14	3	-	6	65	21.5%	19.0	235.7	36.2

8	Bachelor of Science in Chemistry	38	2	5	-	3	48	4.2%	14.9	*	*
9	Bachelor of Social Sciences in Asian and International Studies	12	1	5	1	6	25	4.0%	15.0	-	*
10	Bachelor of Arts in Creative Media	20	1	3	2	4	30	3.3%	16.4	-	-

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local

institutions, or situations where students are admitted with multiple qualifications being major consideration.

6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:

Before September 2017:	A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
	AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
Since September 2017:	A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
	AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Local Students with Overseas Qualifications to Total Number of Students Admitted, 2017/18 and 2018/19 Academic Years

University: Hong Kong Baptist University

2017/18 Academic year Programme name		Number of students admitted						Local students with major non-local qualifications as percentage of total number of students admitted (A)/(B)	For major admission qualifications[1], average score obtained by local students		
		Local students				Non-local students	Total (B)		JUPAS	Non-JUPAS

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local institutions, or situations where students are admitted with multiple qualifications being major consideration.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we

are unable to disclose the average scores so as to protect the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to

protect the privacy of the students concerned.

9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.

10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period. The Hong Kong University of Science and Technology introduced School-based admission and so some of the figures are presented by School.

UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Local Students with Overseas Qualifications to Total Number of Students Admitted, 2017/18 and 2018/19 Academic Years

University: The University of Hong Kong

	2017/18 Academic year Programme name	Number of students admitted						Local students with major non-local qualifications as percentage of total number of students admitted (A)/(B)	For major admission qualifications[1], average score obtained by local students		
		Local students				Non-local students	Total (B)		JUPAS	Non-JUPAS	
		JUPAS	Non-JUPAS						HKDSE[6]	GCE[7]	IB[8]
			Major non-local qualifications (A) [2][3]	Sub-degree qualifications [2][4]	Others [5]						
1	Bachelor of Business Administration in International Business and Global Management	13	10	-	-	5	28	35.7%	24.5	*	41.7
2	Bachelor of Biomedical Sciences	24	14	-	-	10	48	29.2%	21.2	-	39.0
3	Bachelor of Pharmacy	22	8	-	-	-	30	26.7%	22.2	*	39.5
4	Bachelor of Laws	66	27	-	-	11	104	26.0%	23.1	238.0	42.2
5	Bachelor of Medicine and Bachelor of Surgery	169	57	-	3	6	235	24.3%	24.8	280.0	44.1

8	Bachelor of Laws	70	27	-	2	10	109	24.8%	22.6	112.0	41.9
9	Bachelor of Dental Surgery	52	15	-	3	4	74	20.3%	23.4	111.1	*
10	Bachelor of Social Sciences	135	48	5	-	64	252	19.0%	19.5	101.3	37.5

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local institutions, or situations where students are admitted with multiple qualifications being major consideration.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

Annex B

UGC-Funded First-Year-First-Degree Programmes with the Largest Number of Local Students with Overseas Qualifications, 2017/18 and 2018/19 Academic Years

University: City University of Hong Kong

2017/18 Academic year Programme name		Number of students admitted						Local students with major non-local qualifications as percentage of total number of students admitted	For major admission qualifications[1], average score obtained by local students		
		Local Students				Non-local students	Total		JUPAS	Non-JUPAS	
		JUPAS	Non-JUPAS								
			Major non-local qualifications [2][3]	Sub-degree qualifications [2][4]	Others [5]				HKDSE[6]	GCE[7]	IB[8]
1	Bachelor of Laws	42	14	3	-	6	65	21.5%	19.0	235.7	36.2

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local institutions, or situations where students are admitted with multiple qualifications being major consideration.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

UGC-Funded First-Year-First-Degree Programmes with the Largest Number of Local Students with Overseas Qualifications, 2017/18 and 2018/19 Academic Years

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local institutions, or situations where students are admitted with multiple qualifications being major consideration.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we

are unable to disclose the average scores so as to protect the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

UGC-Funded First-Year-First-Degree Programmes with the Largest Number of Local Students with Overseas Qualifications, 2017/18 and 2018/19 Academic Years

5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local institutions, or situations where students are admitted with multiple qualifications being major consideration.

6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:

Before September 2017:	A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
	AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
Since September 2017:	A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
	AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.

UGC-Funded First-Year-First-Degree Programmes with the Largest Number of Local Students with Overseas Qualifications, 2017/18 and 2018/19 Academic Years

University: The Chinese University of Hong Kong

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local institutions, or situations where students are admitted with multiple qualifications being major consideration.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to

protect the privacy of the students concerned.

9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local institutions, or situations where students are admitted with multiple qualifications being major consideration.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The

score for each subject is allocated as follows:

Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

10	BSc Risk Management and Business Intelligence	22	2	-	-	2	26	7.7%	19.3	-	*

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local institutions, or situations where students are admitted with multiple qualifications being major consideration.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period. The Hong Kong University of Science and Technology introduced School-based admission and so some of the figures are presented by School.

UGC-Funded First-Year-First-Degree Programmes with the Largest Number of Local Students with Overseas Qualifications, 2017/18 and 2018/19 Academic Years

University: The University of Hong Kong

	2017/18 Academic year Programme name	Number of students admitted						Local students with major non-local qualifications as percentage of total number of students admitted	For major admission qualifications[1], average score obtained by local students

10	Bachelor of Business Administration in International Business and Global Management	11	13	-	-	15	39	33.3%	25.1	*	41.8

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or non-local institutions, or situations where students are admitted with multiple qualifications being major consideration.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

Annex C

UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Non-local Students to Total Number of Students Admitted, 2017/18 and 2018/19 Academic Years

University: City University of Hong Kong

	2017/18 Academic year Programme name	Number of students admitted				Non-local students as percentage of total number of students admitted (A)/(B)	Place of origin of non-local students			Average score in major admission qualifications[1] obtained by new intake students			
		Local		Non-local (A)	Total (B)					Local students via JUPAS route	Non-local students via Non-JUPAS route

	2018/19 Academic year (provisional) Programme name	Number of students admitted				Non-local students as percentage of total number of students admitted (A)/(B)	Place of origin of non-local students			Average score in major admission qualifications[1] obtained by new intake students			
		Local		Non-local (A)	Total (B)					Local students via JUPAS route	Non-local students via Non-JUPAS route		
		JUPAS	Non-JUPAS				Mainland China	Other places in Asia	Rest of the world	HKDSE[2]	GCE[3]	IB[4]	JEE of Mainland China[5]
1	Bachelor of Science in Computational Finance	5	4	14	23	60.9%	10	4	-	17.4	*	*	149.8
2	Bachelor of Business Administration in Global Business	12	2	16	30	53.3%	5	7	4	17.3	*	*	134.6
3	Bachelor of Science in Computing Mathematics	29	5	25	59	42.4%	23	2	-	15.0	*	*	125.4
4	Bachelor of Science in Computer Science	79	21	68	168	40.5%	28	34	6	15.5	112.0	35.3	121.8
5	Department of Economics and Finance (options: BBA Business Economics, BBA Finance)	118	37	82	237	34.6%	30	49	3	16.3	104.0	34.0	104.2

2018/19 Academic year (provisional) Programme name		Number of students admitted				Non-local students as percentage of total number of students admitted (A)/(B)	Place of origin of non-local students			Average score in major admission qualifications[1] obtained by new intake students			
		Local		Non-local (A)	Total (B)					Local students via JUPAS route	Non-local students via Non-JUPAS route		
		JUPAS	Non-JUPAS				Mainland China	Other places in Asia	Rest of the world	HKDSE[2]	GCE[3]	IB[4]	JEE of Mainland China[5]
6	Department of Media and Communication (options: BA Digital Television and Broadcasting, BA Media and Communication)	36	13	24	73	32.9%	10	13	1	16.7	*	31.7	88.4
7	School of Creative Media (options: BA Creative Media, BSc Creative Media, BAS New Media)	26	4	14	44	31.8%	11	2	1	17.4	*	31.3	80.3
8	Bachelor of Engineering in Materials Engineering	25	10	13	48	27.1%	6	5	2	14.3	*	*	127.3
9	Bachelor of Business Administration in Management	55	17	26	98	26.5%	2	22	2	16.3	106.7	33.8	*
10	Department of Mechanical Engineering (options: BEng Biomedical Engineering, BEng Mechanical Engineering, BEng Nuclear and Risk Engineering)	101	24	44	169	26.0%	12	29	3	14.7	100.6	33.0	118.9

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Place of origin of non-local students is determined having regard to their nationality / place of residence.

UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Non-local Students to Total Number of Students Admitted, 2017/18 and 2018/19 Academic Years

University: Hong Kong Baptist University

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Non-local Students to Total Number of Students Admitted, 2017/18 and 2018/19 Academic Years

University: Lingnan University

2017/18 Academic year Programme name		Number of students admitted				Non-local students as percentage of total number of students admitted (A)/(B)	Place of origin of non-local students			Average score in major admission qualifications[1] obtained by new intake students

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Non-local Students to Total Number of Students Admitted, 2017/18 and 2018/19 Academic Years

University: The Hong Kong Polytechnic University

2017/18 Academic year Programme name		Number of students admitted				Non-local students as percentage of total number of students admitted (A)/(B)	Place of origin of non-local students			Average score in major admission qualifications[1] obtained by new intake students			
		Local		Non-local (A)	Total (B)					Local students via JUPAS route	Non-local students via Non-JUPAS route		
		JUPAS	Non-JUPAS				Mainland China	Other places in Asia	Rest of the world	HKDSE[2]	GCE[3]	IB[4]	JEE of Mainland China[5]

10	BSc (HONS) CHEMICAL TECHNOLOGY	20	4	12	36	33.3%	8	4	-	15.2	-	*	127.1

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Place of origin of non-local students is determined having regard to their nationality / place of residence.

UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Non-local Students to Total Number of Students Admitted, 2017/18 and 2018/19 Academic Years

University: The Hong Kong University of Science and Technology

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period. The Hong Kong University of Science and Technology introduced School-based admission and so some of the figures are presented by School.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Non-local Students to Total Number of Students Admitted, 2017/18 and 2018/19 Academic Years

University: The University of Hong Kong

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

Annex D

UGC-funded First-Year-First-Degree Programmes with the Largest Number of Non-local Students, 2017/18 and 2018/19 Academic Years

University: City University of Hong Kong

2017/18 Academic year Programme name		Number of students admitted				Non-local students as percentage of total number of students admitted (A)/(B)	Place of origin of non-local students			Average score in major admission qualifications[(1)] obtained by new intake students

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:

5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0

"-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:

   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to

protect the privacy of the students concerned.

5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year

in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

UGC-funded First-Year-First-Degree Programmes with the Largest Number of Non-local Students, 2017/18 and 2018/19 Academic Years

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.

"-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to

protect the privacy of the students concerned.

5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. "-" denotes that the students concerned are not JEE qualification holders. "*" denotes that the number of students holding JEE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period. The Hong Kong University of Science and Technology introduced School-based admission and so some of the figures are presented by School.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

UGC-funded First-Year-First-Degree Programmes with the Largest Number of Non-local Students, 2017/18 and 2018/19 Academic Years

University: The University of Hong Kong

	2017/18 Academic year Programme name	Number of students admitted				Non-local students as percentage of total number of students admitted (A)/(B)	Place of origin of non-local students			Average score in major admission qualifications[1] obtained by new intake students

10	Bachelor of Science in Quantitative Finance	13	3	17	33	51.5%	11	6	-	21.2	*	*	167.3

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
   5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
   "-" denotes that the students concerned are not HKDSE qualification holders. "*" denotes that the number of students holding HKDSE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is allocated as follows:
   Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
   AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
   Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
   AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
   As GCE adopts the new UCSA Tariff in September 2017, the scores of 2018/19 academic year are not comparable to those of 2017/18 academic year or before.
   "-" denotes that the students concerned are not GCE qualification holders. "*" denotes that the number of students holding GCE qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.
4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "*" denotes that the number of students holding IB qualification is so small (below 3) that we are unable to disclose the average scores so as to protect the privacy of the students concerned.

5. National Joint College Entrance Examination (JEE) of Mainland China. Marks listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. CONTROLLING OFFICER'S REPLY

(Question Serial No. 0073)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide, by institution and programme level, the following information in respect of the undergraduate programmes, sub-degree programmes, taught postgraduate (Master) programmes, taught postgraduate (Doctorate) programmes, research postgraduate (Master of Philosophy) (MPhil) programmes and research postgraduate (Doctor of Philosophy) (PhD) programmes offered by the University Grants Committee (UGC)-funded institutions and self-financing post-secondary institutions for the past 5 years (2014/15 to 2018/19):

a. the number of local, Mainland and other non-local students, as well as their respective percentages against the total; and

b. the number of part-time students and full-time students;

2. Please provide, by institution, the number of students who applied for and admitted to UGC-funded undergraduate programmes through the Joint University Programmes Admissions System (JUPAS) or non-JUPAS routes, their respective academic qualification and percentages against the total for the past 5 years (2014/15 to 2018/19); and

3. Please provide, in the table below, the number of non-local students and their respective percentages against the total in each of the UGC-funded institutions and self-financing post-secondary institutions for the academic years from 2014/15 to 2018/19 (including both publicly-funded and self-financing programmes):

(Name of institution)					
Academic year	Place of origin	Undergraduate programmes	Taught postgraduate programmes	MPhil programmes	PhD programmes

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 12)

Reply:

1.& 3. The respective numbers of local and non-local students of UGC-funded programmes by university, place of origin and level of study for the 2017/18 and 2018/19 academic years are set out at **Annex A**. The respective numbers of students of UGC-funded programmes by university, level of study and mode of study for the corresponding period are set out at **Annex B**. The respective numbers of students of full-time locally-accredited self-financing sub-degree and undergraduate programmes by institution and place of origin for the corresponding period are at **Annexes C and D**. The respective numbers of students of locally-accredited self-financing taught postgraduate (TPg) programmes and research postgraduate (RPg) programmes by institution and place of origin for the 2017/18 academic year are at **Annexes E and F** (the numbers of these students for the 2018/19 academic year are not available).

As for the respective numbers of students of UGC-funded programmes and locally-accredited self-financing programmes for the 2013/14 to 2016/17 academic years, please refer to our reply (Serial No. EDB249) to a question (Serial No. 0134) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2018-19.

2. The respective numbers of candidates sitting for the Hong Kong Advanced Level Examination (HKALE) and the Hong Kong Diploma of Secondary Education Examination (DSE), approved student number targets of UGC-funded first-year-first-degree (FYFD) programmes, numbers and percentages of candidates having met the general entrance requirements but were not admitted to UGC-funded FYFD programmes through JUPAS, numbers of local students admitted through the non-JUPAS route, and numbers of private candidates sitting for the HKALE and DSE for the 2014/15 to 2018/19 academic years are set out at **Annex G**.

Annex A

2017/18 and 2018/19 Academic Years

Number of Local and Non-local Students of UGC-funded Programmes by University, Place of Origin and Level of Study

2017/18 academic year

Notes:

1. UGC-funded TPg programmes cover only MPhil programmes but not PhD programmes.
2. Figures of UGC-funded RPg students refer to students funded by UGC within their normal study periods.
3. The place of origin of non-local students is determined having regard to their nationality or place of residence.
4. Figures may not add up to the corresponding totals due to rounding. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis.
5. "@" denotes less than 0.5%.
6. "-" denotes nil.

Annex G

Admission of Local Students to UGC-funded FYFD Programmes through JUPAS and Non-JUPAS Routes for the 2014/15 to 2018/19 Academic Years

Year	Approved student number targets of UGC-funded YFYD places	JUPAS					Non-JUPAS	
		Number of DSE candidates in the relevant year [1]	Candidates meeting the general entrance requirements of UGC-funded FYFD programmes [1]		Candidates meeting the general entrance requirements but not admitted to UGC-funded FYFD programmes through JUPAS [3]		No. of applications for UGC-funded FYFD programmes from local students [4] [5]	No. of local students admitted [3]
			No.	% [2]	No.	% [2]		
2014/15	15 000	78 400 (12 048)	27 971 (1 532)	35.7% (12.7%)	15 669	20.0%	61 000	2 447
2015/16	15 000	72 859 (10 878)	25 782 (1 159)	35.4% (10.7%)	13 450	18.5%	46 189	2 519
2016/17	15 000	66 874 (9 975)	24 557 (824)	36.7% (8.3%)	12 084	18.1%	40 021	2 573
2017/18	15 000	60 349 (8 525)	21 593 (596)	35.8% (7.0%)	9 099	15.1%	39 320	2 664
2018/19	15 000	57 649 (6 274)	21 603 (252)	37.5% (4.0%)	9 386	16.3%	39 872	2 846[6]

Notes:

(1) Figures provided by the Hong Kong Examinations and Assessment Authority. Figures in brackets refer to private candidates. In addition to the general entrance requirements, individual universities may determine the attainment level required for 1 or 2 designated or non-designated elective subjects and stipulate further admission requirements. Figures indicate the number of candidates meeting the general entrance requirements only. The general entrance requirements of UGC-funded undergraduate programmes are set at: "3322" for the four core subjects, i.e. Level 3 for Chinese Language and English Language, and Level 2 for Mathematics and Liberal Studies.

(2) As a percentage of the number of candidates sitting for the DSE in the relevant year. Figures in brackets refer to the percentage of private candidates sitting for the DSE in the relevant year.

(3) Figures include students who did not participate in JUPAS on their own accord; those who were given FYFD places by the UGC-funded universities through JUPAS but subsequently declined the offer for various reasons (for instance they opted for locally-accredited self-financing undergraduate programmes or pursued further studies

in overseas or Mainland universities); those who were not given a UGC-funded FYFD offer but received a UGC-funded sub-degree place via JUPAS instead, etc.

(4) Local students applying via the non-JUPAS route include those applicants holding qualifications other than DSE, e.g. degree graduates pursuing a second degree, sub-degree graduates and students, secondary students holding non-local qualifications such as International Baccalaureate diploma and the General Certificate of Education Advanced Level, etc.

(5) Figures provided by the eight UGC-funded universities. Each local student can only submit one application to each university to apply for several programmes (except for EdUHK which requires applicants to submit multiple applications if they wish to apply for several programmes). However, since each applicant may submit applications to more than one university, the UGC is unable to provide the actual number of applicants applying for UGC-funded programme via non-JUPAS.

(6) Provisional figures.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0074)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide information in respect of the following for the past 5 years (2014/15 to 2018/19) and the projected data for 2019/20:

(a) the requirement and shortfall of student hostel places in University Grants Committee (UGC)-funded institutions and self-financing post-secondary institutions;

(b) the numbers of "undergraduate students whose daily travelling time to and from home and the university exceeds 4 hours" in UGC-funded institutions;

2. the "standard unit subsidy rate" and "enhanced unit subsidy rate" adopted by the Hostel Development Fund; and

3. the hostel projects being carried out by UGC-funded institutions and self-financing post-secondary institutions, the expenditures involved, works progress, dates of completion and the estimated number of student hostel places to be provided.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 13)

Reply:

1 (a) The requirements for publicly-funded hostel places and additional requirements for publicly-funded hostel places above the level of supply at the time, with a breakdown by UGC-funded university, for the past five academic years (2014/15 to 2018/19) are at **Annex A**. The Government set up the Hostel Development Fund (HDF) in 2018 to provide capital grants for the provision of a total of 13 473 student hostel places based on the shortfall[Note] projected at the time under the prevailing student hostel policy. Unless there is a substantive change in student intake and/or student hostel policy in the foreseeable future, the relevant requirements for hostel places can be fully met upon completion of the student hostels funded by HDF. Separately, self-financing post-secondary institutions may take into account their own circumstances and the need of students in

providing hostels. They may also apply for the Land Grant Scheme and the Start-up Loan Scheme for constructing student hostels. The Education Bureau (EDB) does not maintain information on the demand and shortfall of hostel places of such self-financing post-secondary institutions.

Note On the assumption of full use of the 20% quota for non-local students enrolling undergraduate and taught postgraduate programmes by universities.

(b) Based on the information provided by UGC-funded universities, the respective numbers of undergraduate students applying for hostel places and meeting the criterion of "daily travelling time to and from home and the university exceeding 4 hours" in each of the past five academic years (2014/15 to 2018/19) are at **Annex B**.

2. The "standard unit subsidy rate" and "enhanced unit subsidy rate" under HDF are $673,000 and $993,000 respectively.

3. UGC-funded universities will carry out 15 hostel projects under HDF. According to the Master Hostel Development Plans submitted to the Government by the universities, all the projects are expected to be completed by 2028 to meet the projected shortfall of student hostel places. At present, there is no hostel project being carried out by self-financing post-secondary institutions under the Land Grant Scheme and the Start-up Loan Scheme of the EDB.

Annex A

(A) Requirements for publicly-funded hostel places by UGC-funded universities under prevailing hostel policy

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0076)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

The University Grants Committee (UGC) usually conducts academic planning with its funded institutions on a triennial basis.

1. Please provide details of the outcome of the competitive allocation mechanism in previous 3 exercises, including:

(a) the number of originally approved places in each UGC-funded university;

(b) the number of places reserved by each university for redistribution by programme, and the percentage of these places out of the total number of places offered by the university;

(c) the resulting number of places after redistribution, and a list of programmes cancelled or newly offered;

(d) the gains/losses in funding as a result of redistribution.

2. Please provide details of the outcome of the competitive allocation mechanism in the academic planning for 2019/20 to 2021/22, including:

(a) the number of originally approved places in each UGC-funded university;

(b) the number of places reserved by each university for redistribution by programme, and the percentage of these places out of the total number of places offered by the university;

(c) the resulting number of places after redistribution, and a list of programmes cancelled or newly offered;

(d) the gains/losses in funding as a result of redistribution.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 21)

Reply:

The University Grants Committee (UGC) usually conducts the planning exercise and recurrent grants assessment with its funded universities on a triennial basis. To ensure that precious publicly funded student places are put to their best use for the benefit of the community, we need to establish a mechanism for re-distribution of places from time to time in order to encourage universities to review periodically their institutional strategies, academic priorities and advance universities' international competitiveness in accordance with the roles of individual universities and the higher education sector as a whole. To this end, we have adopted the Competitive Allocation Mechanism (CAM) since the 2009/10 to 2011/12 triennium to distribute a small number of first-year-first-degree (FYFD) places. During the process, FYFD places in disciplines under manpower planning (such as medicine, nursing and education) are not included in the mechanism. Under the CAM, the UGC conducts the assessment according to the criteria agreed with the universities, and centrally processes and re-distributes the places among universities.

For the 2019/20 to 2021/22 triennium, the UGC rigorously conducted assessment on the planning proposals submitted by the UGC-funded universities according to seven broad criteria: (1) institutional mission and strategy; (2) meeting the needs of society over the next decade; (3) quality of undergraduate student experience of learning and teaching; (4) quality of research performance and of research postgraduate student experience; (5) knowledge transfer and wider engagement; (6) internationalisation of universities; and (7) overall financial health and institutional sustainability. FYFD places were re-distributed to the eight UGC-funded universities based on the assessment. For the 2019/20 to 2021/22 triennium, each university set aside 6% of their non-manpower-planned places for competitive allocation, except for Lingnan University (LU) and the Education University of Hong Kong (EdUHK). LU only set aside 4% of its FYFD places because of its small size. EdUHK did not set aside any places for competitive allocation, since most of its programmes were subject to the Government's manpower planning requirement. A total of 740 FYFD places (representing 4.9% of the total 15 000 FYFD places) was distributed under the CAM, while the remaining bulk (representing 95.1% of all FYFD places) was unaffected.

Details of the competitive allocation for the 2019/20 to 2021/22 triennium are set out at **Annex**. However, a breakdown by programme is not available. The universities take into account the overall student number targets as allocated by the UGC (including those FYFD places for distribution under the CAM and the remaining places), their respective strategies, as well as the needs of society when designing their academic portfolio. Therefore, we are unable to differentiate the number of FYFD intake places allocated under the CAM to individual programmes by the universities from the overall student number target. We are also unable to estimate the impact of the CAM on the amount of funding received by individual universities.

Details of the competitive allocation for the 2016/17 to 2018/19 triennium were set out in our reply (EDB735) to a question (Serial No. 3621) raised at the special meetings of the

Finance Committee to examine the Estimates of Expenditure 2017-18, whereas details of the competitive allocation for the 2012/13 to 2014/15 triennium were set out in our reply (EDB275) to a question (Serial No. 3012) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2014-15.

Annex

Approved FYFD places allocated to the eight UGC-funded universities, for each year in the 2019/20 to 2021/22 triennium

	CityU	HKBU	LU	CUHK	EdUHK	PolyU	HKUST	HKU	Total
(a) Overall distribution of FYFD places for 2018/19	2 095	1 171	531	3 297	582	2 342	1 951	3 031	15 000
(b) Non-manpower-planned places for 2018/19	2 095	1 080	531	2 747	120	1 705	1 951	2 392	12 621
(c) Number of places set aside under the CAM [i.e. 6% of (b)] Note 1	126	65	21(4%)	165	-	102	117	144	740
(d) Number of places earned back as a result of distribution under the CAM for 2019/20 Note 2	126	42	11	125	27 Note 3	82	200	127	740
(e) Overall distribution of FYFD places (for each year in the 2019–22 triennium) (including both non-manpower and manpower places) (% change between 2018/19 and 2019/20 [i.e. $\frac{(e)-(a)}{(a)} \times 100\%$])	2 095 (0%)	1 148 (-2.0%)	521 (-1.9%)	3 257 (-1.2%)	609 (+4.6%)	2 322 (-0.9%)	2 034 (+4.3%)	3 014 (-0.6%)	15 000 (0%)

Abbreviations:

CityU	City University of Hong Kong	HKBU	Hong Kong Baptist University
LU	Lingnan University	CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong	PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology	HKU	The University of Hong Kong

Note 1 Each university set aside 6% of their non-manpower-planned places for competitive allocation, except for LU and EdUHK. LU set aside 4% of its FYFD places because of its "small size". EdUHK did not set aside any places for competitive allocation, since most of its programmes were either subject to the Government's manpower planning requirement or "protected" areas – in June 2009, the Executive Council approved the provision of 120 additional FYFD places to The Hong Kong Institute of Education (the former name of EdUHK before it was granted the university title in May 2016) to provide non-teacher-education programmes starting from 2010/11 onwards to pave way for its development into a multi-disciplinary institution.

Note 2 Including 147 places allocated to meet additional manpower requirements and other changes in manpower-planned places.

Note 3 Increase of 27 places is due to the change in the distribution of teacher education places.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0081)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the admission of students with special educational needs (SEN), students with disabilities and non-Chinese speaking (NCS) students by the University Grants Committee (UGC)-funded and self-financing institutions, please provide the following information for the past 5 years (2014/15 to 2018/19):

1. the number of intakes of SEN students and students with disabilities in these institutions, as well as the expenditure involved in supporting these students, with a breakdown by institution and type of student;

2. the number of student hostels in these institutions provided with barrier-free facilities (in terms of hostel places) and the expenditure involved in constructing barrier-free facilities in each institution over the past 5 years;

3. the number of local NCS students admitted to these institutions, with a breakdown by institution and Chinese language qualification held by these students.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 27)

Reply:

1. The number of students with special educational needs (SEN) studying full-time University Grants Committee (UGC)-funded sub-degree and undergraduate programmes, by university and type of disability from the 2014/15 to 2018/19 academic years is at **Annex A**.

   For UGC-funded universities, funding for students with SEN is subsumed under the block grant allocated to individual university. Hence, we are unable to attribute the exact amount provided in supporting these students.

   To facilitate SEN students to pursue UGC-funded programmes and adapt to campus life, as well as to further promote an inclusive culture, UGC provided a one-off special grant

of $20 million in total for the eight UGC-funded universities in 2015 to enhance these universities' support for students with SEN, such as purchasing necessary aids and equipment, strengthening training among academic and administrative staff, and supporting student bodies to organise events and activities to encourage integration of students with SEN into campus life. In July 2018, UGC has just launched phase two of the funding scheme which will last for two years and under which the UGC-funded universities are provided with an additional grant of $20 million in total to further enhance the support in this area.

2. Some 32 800 student hostel places in the UGC-funded universities are provided with barrier-free facilities, such as ramps, special toilets, braille on lift buttons and guided paths. As most of these facilities were provided during construction of hostel buildings, there is no separate breakdown on the expenditure incurred for the installation of such facilities.

3. The number of local non-Chinese speaking (NCS) students admitted to full-time UGC-funded sub-degree and undergraduate programmes from the 2014/15 to 2018/19 academic years is set out at **Annex B**. UGC does not have the information on the Chinese language qualification attained by the NCS students.

Annex A

Number of Students with Special Educational Needs Pursuing Full-time UGC-funded Sub-degree and Undergraduate Programmes by University and Type of Disability 2014/15 to 2018/19

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please give a breakdown of the number of enrolment places, actual intakes, unit cost as well as the tuition fees of the University Grants Committee (UGC)-funded undergraduate, senior year top-up degree, associate degree and higher diploma programmes by institution, programme and year of study over the past 5 years (i.e. 2014/15 to 2018/19 academic years);
