Message from the Chairman

Public Consultation

Provisional Recommendations on Boundaries and Names of Geographical Constituencies for the 2020 Legislative Council General Election

The 2020 Legislative Council (“LegCo”) General Election will be held in the third quarter of 2020. In accordance with sections 4(a), 18 and 19 of the Electoral Affairs Commission Ordinance (Chapter 541) (“EACO”), the Electoral Affairs Commission (“EAC”) is required to review the existing boundaries of LegCo geographical constituencies (“GCs”), draw up provisional recommendations, conduct public consultation, and submit a report to the Chief Executive (“CE”) on its recommendations on the boundaries and names of LegCo GCs at an interval of not more than 36 months from the preceding LegCo general election. As the last LegCo general election was held on 4 September 2016, the EAC has to submit the report on the boundaries and names of GCs for the 2020 LegCo General Election to the CE on or before 3 September 2019.

The EAC has drawn up its provisional recommendations on the boundaries and names of GCs for the 2020 LegCo General Election pursuant to the statutory provisions stipulated under sections 18 and 19 of the Legislative Council Ordinance (Chapter 542) (“LCO”) and the statutory criteria stipulated under section 20 of the EACO as well as the set of established working principles. The statutory provisions and criteria as well as the working principles are set out in **Appendix I**.

According to the LCO, the number of GCs for the purpose of returning Members at the 2020 LegCo General Election is 5, and a total of 35 Members are to be returned, and the number of Members to be returned for each GC is to be not less than 5 nor greater than 9. These requirements are the statutory pre-condition for the EAC, to which the EAC must strictly adhere and has no authority to make any variation.

As different from the single seat set up for each District Council ("DC") constituency in a DC ordinary election, a multi-seat system is adopted for each GC in a LegCo general election, i.e. the number of seats for each GC is between 5 and 9. According to the EACO, the population in each proposed GC shall not exceed or fall short of the resulting number applicable to that GC by more than 15%, which is the statutory permissible range. According to the law, the resulting number is the population quota multiplied by the number of Members to be returned to each GC, and the population quota is the figure arrived at by dividing the total population of Hong Kong by the total number of Members to be returned for all GCs.

In respect of the delineation of GC boundaries, it is the EAC's working principle that the existing boundaries of the 5 GCs should form the basis of consideration, and for those existing GCs where the population falls within the statutory permissible range of the population quota requirement, their boundaries will as far as possible be adopted to form new GCs. According to the above working principle and based on the latest projected population figures, the EAC has allocated the 35 seats to the existing 5 GCs by using the established two-step calculation method (please refer to **Appendices II and III**). Having strictly adhered to the statutory requirement on the number of Members to be returned for each GC (i.e. a number not less than 5 nor greater than 9), the calculation result was that the percentage deviations of the population from the resulting number for the existing 5 GCs are all within the statutory permissible range. Therefore, adjustment to their existing boundaries will not be necessary in principle.

Notwithstanding that, the EAC has also examined other options for adjusting the existing GC boundaries. Some options will yield a smaller percentage deviation of population from the resulting number for individual GCs than that adopting the existing 5 GC boundaries. However, these options will either split up the Lantau Island into two different GCs or involve the transfer of an administrative district in the New Territories to the Hong Kong Island GC or GC in Kowloon, deviating from the EAC's working principle, i.e. Hong Kong Island, Kowloon and the New Territories are to be treated separately as far as possible having regard to the statutory criteria under the

EACO. Furthermore, all along, for those GCs or DC constituencies which do fall within the statutory permissible range, the EAC will not proactively adjust their boundaries. According to the experience in past delineation exercises, especially the delineation of constituencies for the 2019 DC Ordinary Election, the public has prevalently advocated maintenance of the status quo of DC constituency boundaries as far as possible, and that the boundaries of the existing 5 GCs have been adopted since the first term of LegCo in 1998, the EAC considers that adjusting the existing boundaries simply for the sake of reducing the percentage deviations of the population among the 5 GCs where the population do fall within the statutory permissible range does not accord with the EAC's working principle, and would alter the accustomed GC boundaries for members of the public. As a result, changes to boundaries are not recommended.

Having carefully weighed the pros and cons, the EAC proposes the adoption of the boundaries of the existing 5 GCs as the GC boundaries for the 2020 LegCo General Election. Seats should be allocated as follows:

<u>GC</u>	<u>No. of seats</u>
Hong Kong Island	6
Kowloon West	6
Kowloon East	5
New Territories West	9
New Territories East	9

The EAC's provisional recommendations satisfy all the relevant statutory provisions, criteria and established working principles.

Details of the two-step method for allocation of seats and a brief summary of the EAC's provisional recommendations, including the codes, names and projected populations of the 5 GCs are set out in **Appendices II** and **III** respectively.

In accordance with section 19 of the EACO, the maps showing the boundaries and names of all the proposed GCs under the provisional recommendations and a document containing descriptions of the proposed GC boundaries are enclosed for public consultation lasting 30 days from **8 May 2019 to 6 June 2019** (both dates inclusive).

Please send in your written representations on the provisional recommendations to the EAC Secretariat at 10/F, Harbour Centre, 25 Harbour Road,

Wan Chai, Hong Kong, by facsimile transmission (fax no.: 2511 1682) or e-mail (eacenq@eac.hk) by **6 June 2019**. **Late representations will not be considered.** You may also make oral representations to the EAC at the public forum to be held on **16 May 2019 (Thursday) from 7:00 p.m. to 9:00 p.m. at the Lai Chi Kok Community Hall, 863 Lai Chi Kok Road, Sham Shui Po, Kowloon.** For enquiries, please call the EAC Secretariat on 2827 1269.

Members of the public may make oral representations at the public forum. However, due to the limited time, members of the public please send in written representations if they wish to make detailed representations.

The EAC has always made its best endeavours to ensure that all public elections are held in an open, fair and honest manner. The delineation of GCs is an important element of the arrangements for the 2020 LegCo General Election. We therefore encourage members of the public to put forward their views through submission of written representations or attendance at the public forum. To ensure that the final recommendations of the EAC may fully take into account the public opinions, it is wished that members of the public do actively participate in the consultation and express views for or against the provisional recommendations.

All submissions will be treated as open information unless otherwise specified. Views received will be published in their entirety for public perusal. If you wish to keep your name or your views confidential, please indicate so clearly in your submissions.

Yours faithfully,

(Barnabas W FUNG)

Chairman

Electoral Affairs Commission

(With enclosure)

**Delineation of Geographical Constituencies
for the 2020 Legislative Council General Election**

(I) Statutory Requirements

Provisions stipulated under sections 18 and 19 of the Legislative Council Ordinance (Cap. 542)

- (a) There are to be 5 Geographical Constituencies (“GCs”) for the purpose of returning Members at elections for those constituencies;
- (b) At a general election, 35 Members are to be returned for all GCs; and
- (c) The number of Members to be returned for each GC is to be a number not less than 5 nor greater than 9.

Criteria stipulated under section 20 of the Electoral Affairs Commission Ordinance (Cap. 541)

- (a) The Electoral Affairs Commission (“EAC”) shall ensure that the population in each proposed GC is as near as practicable to the number which results (i.e. “the resulting number”) when the population quota is multiplied by the number of Members to be returned to the Legislative Council (“LegCo”) by that GC. The population quota is the figure arrived at by dividing the total population of Hong Kong by the total number of Members to be returned for all GCs in the LegCo election;

(Note: For the 2020 LegCo General Election, the total population of Hong Kong (projected as at 30 June 2020 by the Government) is 7 558 100 and the total number of Members to be returned for all GCs is 35. Therefore, the population quota is 215 946, i.e. $7\,558\,100 \div 35$.)

- (b) Where it is not practicable to comply with (a) above in respect of a proposed GC, the EAC shall ensure that the population in that GC does not exceed or fall short of the resulting number applicable to that GC by more than 15%;

- (c) The EAC shall have regard to the community identities, the preservation of local ties and physical features (such as size, shape, accessibility and development) of the relevant area;
- (d) The EAC may depart from the strict application of (a) and (b) above only where it appears that one or more of the considerations in (c) above renders a departure necessary or desirable;
- (e) The EAC shall ensure that each proposed GC is to be constituted by 2 or more contiguous whole District Council (“DC”) constituencies; and
- (f) The EAC shall have regard to the existing boundaries of administrative districts and existing boundaries of GCs.

(II) Working Principles

- (a) The existing boundaries of the 5 GCs should form the basis of consideration in the current delineation exercise;
- (b) For those existing GCs where the population falls within the permissible range of the population quota requirement, their boundaries will as far as possible be adopted to form new GCs;
- (c) Hong Kong Island, Kowloon and the New Territories are to be treated separately as far as possible having regard to the statutory criteria under the Electoral Affairs Commission Ordinance;
- (d) Splitting of administrative districts by DC constituencies should be avoided unless there are very strong reasons. Where splitting is necessary, it should affect the least number of administrative districts; and
- (e) Factors with political implications are not considered.

Allocation of Seats for the Proposed Geographical Constituencies

Step One: Seats are allocated among the 5 Geographical Constituencies (“GCs”) by dividing the projected population of each GC by the population quota, i.e. 215 946^{Note} and thereafter, allocating seats according to the integer of the calculated number subject to the statutory limits (i.e. not less than 5 seats nor greater than 9 seats for each GC). Accordingly, 32 seats are first allocated to the 5 GCs as follows:

Proposed name of GC (Code)	Component administrative district	Projected population (as at 30 June 2020)	Allocated number of seats = population of GC ÷ population quota	Entitled number of seats according to the integer of the calculated number and subject to the statutory limits
Hong Kong Island (LC 1)	Central & Western	239 500	5.71	5
	Wan Chai	175 700		
	Eastern	547 900		
	Southern	269 600		
	Sub-total:	1 232 700		
Kowloon West (LC 2)	Yau Tsim Mong	328 100	5.58	5
	Sham Shui Po	447 800		
	Kowloon City	429 400		
	Sub-total:	1 205 300		
Kowloon East (LC 3)	Wong Tai Sin	425 200	5.19	5
	Kwun Tong	695 600		
	Sub-total:	1 120 800		
New Territories West (LC 4)	Tsuen Wan	316 800	10.07	9
	Tuen Mun	508 800		
	Yuen Long	650 700		
	Kwai Tsing	509 900		
	Islands	188 500		
	Sub-total:	2 174 700		
New Territories East (LC 5)	North	325 100	8.45	8
	Tai Po	312 300		
	Sha Tin	706 000		
	Sai Kung	481 200		
	Sub-total:	1 824 600		
Total:		7 558 100	-	32

^{Note} For this delineation exercise, the population quota is 215 946, which is the number resulted from Hong Kong’s total population of 7 558 100 ÷ 35 Members to be returned for all GCs.

Step Two: Given that the total number of seats allocated among the 5 GCs by Step One is 32, the remaining 3 seats (i.e. 35 – 32) are to be allocated by Step Two.

Since New Territories West GC has been allocated the upper limit for returning Members in each GC (i.e. 9) as permitted under the statutory requirement of the Legislative Council Ordinance (Cap. 542) in Step One, the remaining 3 seats can only be allocated to the other 4 GCs. Under such circumstances, there are 4 options for allocation as shown below. Among the options, Option C has the smallest range of percentage deviation of the population from the resulting number in the individual GCs, i.e. the variation between individual GCs in terms of the number of persons represented by a Legislative Council seat is reduced to a minimum. Accordingly, the remaining 3 seats will be allocated to Hong Kong Island, Kowloon West and New Territories East GCs.

Proposed name of GC (Code)	Allocated number of seats { % deviation from the resulting number }			
	A	B	C	D
Hong Kong Island (LC 1)	[5]+(1) {-4.86%}	[5]+(1) {-4.86%}	[5]+(1) {-4.86%}	[5] {+14.17%}
Kowloon West (LC 2)	[5]+(1) {-6.98%}	[5] {+11.63%}	[5]+(1) {-6.98%}	[5]+(1) {-6.98%}
Kowloon East (LC 3)	[5]+(1) {-13.50%}	[5]+(1) {-13.50%}	[5] {+3.80%}	[5]+(1) {-13.50%}
New Territories West (LC 4)	[9] {+11.90%}	[9] {+11.90%}	[9] {+11.90%}	[9] {+11.90%}
New Territories East (LC 5)	[8] {+5.62%}	[8]+(1) {-6.12%}	[8]+(1) {-6.12%}	[8]+(1) {-6.12%}

	沙田 Sha Tin	706 000						
	西貢 Sai Kung	481 200						
	小計 Sub-total:	1 824 600						
總計 TOTAL :		7 558 100	-	32	3	35		

註 Note:

1. 是次劃界工作的“標準人口基數”是將香港人口總數除以所有地方選區選出的議員總數所得之數，即 $7\,558\,100 \div 35 = 215\,946$ 。
For the purpose of this delineation exercise, the “population quota” is the total population of Hong Kong divided by the total number of Members to be returned for all GCs, i.e. $7\,558\,100 \div 35 = 215\,946$.
2. 根據《立法會條例》(第 542 章)第 19(2)條，每個地方選區須選出的議員人數不得少於 5 名，亦不得多於 9 名。
In accordance with section 19(2) of the Legislative Council Ordinance (Cap 542) (“LCO”), the number of Members to be returned for each GC is to be a number, not less than 5 nor greater than 9.
3. 由於新界西已獲分配《立法會條例》就一個地方選區可得的議席數目所容許的上限(即 9 個)，餘下 3 個議席只可分配予其他 4 個地方選區。分配議席的方案共有 4 個，詳列如下：
Since New Territories West has been allocated the maximum number of seats for a GC (i.e. 9) as permitted under the statutory requirement of the LCO, the remaining 3 seats can only be allocated to the other 4 GCs. There are 4 options for allocation as shown below:

方案 Option 暫定地方選區名稱(代號) Proposed name of GC(Code)	A	B	C	D
香港島 HONG KONG ISLAND (LC 1)	[5]+(1) {-4.86%}	[5]+(1) {-4.86%}	[5]+(1) {-4.86%}	[5] {+14.17%}
九龍西 KOWLOON WEST (LC 2)	[5]+(1) {-6.98%}	[5] {+11.63%}	[5]+(1) {-6.98%}	[5]+(1) {-6.98%}
九龍東 KOWLOON EAST (LC 3)	[5]+(1) {-13.50%}	[5]+(1) {-13.50%}	[5] {+3.80%}	[5]+(1) {-13.50%}
新界西 NEW TERRITORIES WEST (LC 4)	[9] {+11.90%}	[9] {+11.90%}	[9] {+11.90%}	[9] {+11.90%}
新界東 NEW TERRITORIES EAST (LC 5)	[8] {+5.62%}	[8]+(1) {-6.12%}	[8]+(1) {-6.12%}	[8]+(1) {-6.12%}

- [] 應得議席數目
number of entitled seats
- () 獲分配的餘下議席數目
number of remaining seats to be allocated
- { } 人口偏離其所得數目的百分比
% of deviation of the population from the resulting number

在這 4 個方案中，方案 C 令個別地方選區人口與其所得數目偏離百分比的幅度最小，即在個別地方選區之間，由一個立法會議席所代表的人口數字的差異最小。因此，餘下 3 個議席會分配予香港島、九龍西和新界東地方選區。

Among the 4 options, Option C has the smallest range of percentage deviations of the population from the resulting number in the individual GCs, i.e. the variation between individual GCs in terms of the number of persons represented by a Legislative Council seat is reduced to a minimum. Accordingly, the remaining 3 seats will be allocated to Hong Kong Island, Kowloon West and New Territories East GCs.

4. 選舉管理委員會(“選管會”)以現有 5 個地方選區的分界來分配議席，得出 5 個地方選區的人口偏離其所得數目的百分比均在法例容許的偏離幅度之內(即不少於適用於該地方選區的所得數目的 85%，亦不多於該數目的 115%)。因此，選管會建議採用現有 5 個地方選區的分界作為二零二零年立法會換屆選舉的暫定地方選區分界。
The Electoral Affairs Commission (“EAC”) has used the existing 5 GC boundaries for the seat allocation and the percentage deviations of the population from the resulting number for the 5 GCs are all within the statutory permissible range (i.e. the population in that GC does not exceed or fall short of the resulting number applicable to that GC by more than 15%). As such, the EAC recommends the adoption of the existing 5 GC boundaries as the proposed GC boundaries for the 2020 Legislative Council General Election.
