Meeting on 26 February 2019
Joint Subcommittee on Issues Relating to the
Regulation of Devices and Development of the Beauty Industry

While learning the Government's plan to introduce the Medical Devices Bill to the Legislative Council for scrutiny in this current legislative session, we would like to express our views by the chance of the subject meeting.

COUNCIL MEMBERS 理事
Dr CHAN Chiu Yee, Spencer

Dr CHEUNG Tat Leung, Mike
張達良醫生

To safeguard the general public health, we are in principle supportive of the Government's proposed introduction of a statutory regime for regulation of medical devices by focusing on pre-market control and post-market control. We agree to the implementation of the five-year transitional "listing mechanism" under the proposed regulatory regime so as to allow the supply and use of medical devices falling short of the registration requirements but still complying with basic listing requirements set by the Department of Health.

Dr MUI Sau Fung, Michael

Dr WAI Tak Shun, Dustin
衛德純醫生

Meanwhile, we are of the view that in the long run, the "use control" shall be also strengthened by restricting the use of medical devices by accredited personnel so as to ensure operational safety, while allowing our community to get access to the benefits of new technologies.
