Hon Tommy Cheung Yu-yan, GBS, JP  
Chairman  
Joint Subcommittee on Issues Relating to the Regulation of Devices and  
Development of the Beauty Industry  
Legislative Council  
HK Special Administrative Region of the People's Republic of China

Dear Mr Cheung,

**Meeting on 26 February 2019**  
**Joint Subcommittee on Issues Relating to the**  
**Regulation of Devices and Development of the Beauty Industry**

We, the Association of Private Medical Specialists of Hong Kong APMSHK, welcome the Government's legislative proposal and formation of this Joint Subcommittee on Issues Relating to the regulation of Devices and Development of the beauty industry.

We urge that regulation is needed for medical devices so as to safeguard the general public health. All of us emphasize **safety first** for the general public in Hong Kong. We, therefore suggest regulation shall be taken for the following areas, but not limited to:

- All medical devices should be regulated especially for the high energy and invasive ones.
- Only trained and certified personnel can use these devices.

We are optimistic the introduction of the regulation will not only benefit the public in Hong Kong, it could in fact further enhance the beauty industry to thrive in the region.

The Association eager to contribute earnestly for this important milestone for the beauty industry in Hong Kong.

Yours sincerely,

Dr Samuel Kwok  
President  
Association of Private Medical Specialists of Hong Kong
