

Against the Artificial Island project in Lantau Island

Reason:

- 1) Cannot solve the housing problem (too long time for the project to be done)
- 2) There are other alternatives in existing land supply
- 3) Not economical
- 4) Unrecoverable environment damages
- 5) Too much hurry without careful planning and consultation
- 6) Benefits no Hong Kongers but only the mainlanders (project developers and future mainland immigrants)
- 7) It's against the will of most local Hong Konger.
