Subject: Submission on Studies related to artificial islands in the central waters

To whom it may concern

I emphatically object the proposal of creating artificial islands in the central waters. It seems that at no time has the land in Hong Kong that is currently available or in Hong Kong's so called property developer's 'land bank' been proposed to achieve Hong Kong's housing goals and it seems ludicrous to be studying artificial islands in light of this. It is a waste of financial resources resources to even consider such a proposal.

Thank you,
Robert Foti
