Subject: Support for the passage of WASTE DISPOSAL (CHARGING FOR MUNICIPAL SOLID WASTE) (AMENDMENT) BILL 2018

Dear Honorable Legislative Members,

I'm writing to urge you to pass the captioned bill. I believe that is essential in raising the awareness of Hong Kong residents and businesses with regards to waste reduction.

Being able to live in a blessed city, a great number of people (including me) have been taking things for granted, creating a staggering amount of waste everyday, without the intention or simply too lazy to recycle/reuse. Obviously all of the wastes are going to the landfills which are filling up quickly, and there will soon be a day that we will have no more space for wastes in HK, or anywhere else in the world. We all know how to do maths.

To make HK more sustainable for our future generations, I wholeheartedly support the quick passing of the bill.

Val
