Subject: Support for the municipal waste scheme

Dear Honorable Legislative committee members,

I would like via this email to express my support for the municipal waste scheme. I believe it is very important that we act fast to stop our overflowing with waste. I would like to thank you for everything you do with effect to safeguarding the ocean, the environment, and the wildlife.

I believe this bill is very important and I am sure you will do your best for it to be passed as soon as possible.

With my best regards,

Thomas Rivet
