

**Panel on Environmental Affairs**

**Follow-up actions arising from the meeting on 25 February 2019**

**Agenda item V — Retrofitting of noise barriers on Long Tin Road**

The Administration was requested to provide the following information before submitting the relevant funding proposal to the Public Works Subcommittee:

- (a) drawings to illustrate the locations of dwellings that would benefit from the proposed retrofitting of noise barriers on Long Tin Road and the expected levels of reduction in traffic noise; and
- (b) whether it was feasible to replace the solid panels currently used in the noise barriers on Tolo Highway with clear panels to reduce the visual intrusion caused by the noise barriers; and if yes, the Administration's plan to carry out such improvement works.
