

**Panel on Environmental Affairs**

**Follow-up actions arising from the meeting on 27 May 2019**

**Agenda item VI — Yuen Long Effluent Polishing Plant**

The Administration was requested to provide the following information before submitting the relevant funding proposal to the Public Works Subcommittee:

- (a) a summary of the feasibility study and cost-effectiveness analysis of possible alternative options for increasing the treatment capacity of the Yuen Long Sewage Treatment Works while protecting the water quality of the receiving water bodies; and
- (b) the overall strategy and related measures for reducing polluted discharges entering Deep Bay, including the current progress and target completion dates (in tabular format) of the provision of public sewerage systems for unsewered villages in six rural areas in Yuen Long (i.e. Ha Tsuen, Kam Tin, Pat Heung, Ping Shan, San Tin and Shap Pat Heung).
