

Dear Sir/ Madam,

As a Hong Kong citizen, I would like to express my support to establish Accredited Register (AR) Scheme for clinical psychologists proposed by HKPS-DCP.

I understand that the scheme is put under third round of consultation and the controversy involved. I support a robust regime in place to ensure the quality of clinical psychologists and to ensure protection of the public. I truly appreciate the effort of HKPS-DCP in trying to balance this need and to ensure inclusiveness to those already practicing in the field.

Owing to the huge demand for psychological service, no further delay to the implementation of the scheme is acceptable.

Yours sincerely,
Johnson CHUNG
