

**Submission from Ms CHAN Sam-mui**

As a Hong Kong citizen, I would like to express my support to establish Accredited Register (AR) Scheme for clinical psychologists proposed by HKPS-DCP.

I understand that the scheme is put under third round of consultation and the controversy involved. I support a robust regime in place to ensure the quality of clinical psychologists and to ensure protection of the public. I truly appreciate the effort of HKPS-DCP in trying to balance this need and to ensure inclusiveness to those already practicing in the field.

Owing to the huge demand for psychological service, I urge to implement the scheme soonest possible.
