

**Submission from Ms Josephine CHEUNG**

As an optometrist, I would like to express my support to establish Accredited Register Scheme for clinical psychologists proposed by HKPS-DCP.

I understand that the scheme is put under third round of consultation and the controversy involved. I support a robust regime in place to ensure the quality of clinical psychologists and to ensure protection of the public. I truly appreciate the effort of HKPS-DCP in trying to balance this need and to ensure inclusiveness to those already practicing in the field.

Owing to the huge demand for psychological service, I urge for the implementation of the scheme soonest possible without delay.
