Progress Report of the Anti-epidemic Fund

Purpose

This paper aims to report to the Legislative Council (LegCo) the implementation progress of the Anti-epidemic Fund (AEF) as at 29 January 2021.

Background

2. In light of the development of the coronavirus disease 2019 (COVID-19), the Government has been taking vigilant anti-epidemic measures to contain the public health risk. Having regard to the negative impact of these measures on the livelihood of individuals and business operation, the Government secured the approval of the LegCo Finance Committee (FC) on 21 February 2020 for a commitment of \$30 billion to set up the AEF. The purposes of the AEF are to enhance Hong Kong's overall capability in combating the pandemic, and to provide suitable relief to businesses and individuals hard hit by the pandemic or more seriously affected by anti-epidemic measures. The Government subsequently thrice secured the FC's funding approval in April, September and December 2020 to implement further AEF measures.

3. The AEF is established under the Financial Secretary Incorporation Ordinance (Cap. 1015) (the Ordinance) with the Financial Secretary Incorporated (FSI) as its trustee, and shall operate according to the Declaration of Trust made under the Ordinance. To streamline the administrative process, FSI has delegated its powers to the Anti-epidemic Fund Steering Committee (Steering Committee) to receive, consider and approve proposals; and to monitor and coordinate matters related to the operation of the AEF. FSI also appointed the Director of Accounting Services to handle financial and accounting matters related to the AEF, such as opening bank accounts and keeping proper accounts and records, etc. The Steering Committee is chaired by the Chief Secretary for Administration, and members include all relevant

Directors of Bureaux¹ responsible for implementing the major initiatives under the AEF.

Financial Position and Implementation Progress of the AEF

4. Thus far, a total financial commitment of \$162.3 billion was approved by FC. As of 29 January 2021, 121 measures were approved under the AEF, with the total financial commitment amounting to over \$160 billion, and over \$140 billion of funding were deployed/disbursed, benefitting over 6.5 million persons² and over 800 000 applications from enterprises/businesses, etc. The AEF measures cover various sectors, including the construction, property management, travel, catering, retail, convention and exhibition, arts and culture, innovation and technology, passenger transport, aviation, agriculture and fisheries, hotel, child care centres and registered private schools offering non-formal curriculum. The AEF also provides support to a wide spectrum of employees and needy groups including licenced hawkers, frontline cleansing and security workers, low-income families, secondary, primary and kindergarten students, registered sports coaches, and school-related service providers (such as registered interest class teachers); as well as premises ordered to close under Cap. 599F or affected by the Government's social distancing measures. The 121 approved measures include:

- (a) 24 measures proposed under the enclosures of FCR(2019-20)46;
- (b) 33 measures proposed under the enclosures of FCR(2020-21)2;
- (c) 26 measures proposed under the enclosures of FCR(2020-21)71;
- (d) 19 measures proposed under the enclosures of FCR(2020-21)77; and

¹ Membership of the Steering Committee includes: Chief Secretary for Administration (Chairman), Secretary for Commerce and Economic Development, Secretary for Development, Secretary for Education, Secretary for Food and Health, Secretary for Financial Services and the Treasury, Secretary for Home Affairs Secretary for Innovation and Technology, Secretary for Labour and Welfare and Secretary for Transport and Housing

² In addition, the Government has distributed over 10 million pieces of CuMask+™ in total.

- (e) 19 measures approved by the Steering Committee as proposed by the relevant bureaux/departments having regard to the development of the pandemic, views from various industry stakeholders and their actual business situation.

Annex I sets out the brief description and eligibility criteria of the above measures.

5. The Government has reported the progress of the implementation of the first-round AEF in the FC paper (FCR(2020-21)2) when seeking the FC's approval for the second-round injection on 17 April 2020. The Government further submitted two reports to LegCo, on 15 July 2020 and 6 November 2020 respectively, on the implementation progress of the AEF measures. This paper is the fourth report to the LegCo on the progress of the implementation of these measures. As of 29 January 2021, out of the 121 AEF measures, 57 have been completed. The progress of the 121 measures is set out at **Annex II**.

Conclusion

6. The relief measures, including those under the AEF and the 2020-21 Budget, involve over \$300 billion in total, which is about 11% of Hong Kong's GDP, and is expected to have a supporting effect of slightly more than 5 percentage points of GDP on our economy. The Government will continue with the implementation of the ongoing AEF measures. Meanwhile, the Steering Committee will continue to optimise the remaining balance of the AEF based on the proposals put forth by the relevant bureaux/departments, having regard to the development of the pandemic, views from various industry stakeholders and their actual business situation.

The Government will provide wage subsidies to eligible employers for 6 months. The amount of subsidies for an employer would be calculated on the basis of 50% of the actual wages paid to employees at a specified month, with a wage cap at \$18,000 per month (i.e. maximum subsidy is \$9,000 per month per employee). Subsidies will be disbursed in two tranches. The first tranche of subsidies will cover the period from June to August 2020, while the second tranche will cover the period from September to November 2020.</p> <p>For employers who have been participating in MPF schemes (including Master Trust Schemes and Industry Schemes) will be eligible to apply for wage subsidies in respect of the following categories of employees:</p> <p>(a) "regular employees" under the Master Trust Schemes and Industry Schemes for whom MPF mandatory contributions have been made by their employers; and</p> <p>(b) employees aged 65 or above under the Master Trust Schemes and Industry Schemes.</p>

² For an employer who has successfully applied for subsidies, if he/she fails to use all the wage subsidies received for a particular month during the subsidy period concerned to pay the wages of his/her employees in the same month, the Government will claw back the unspent balance of the subsidy. Furthermore, if the number of employees on the payroll in any one month of the subsidy period is less than the number of paid or unpaid staff in March 2020, the employer will have to pay a penalty to the Government.

³ Including HKSAR Government, statutory bodies such as Hospital Authority, Housing Authority, Hong Kong Monetary Authority, Urban Renewal Authority, MTR Corporation Limited, Airport Authority, Hong Kong Housing Society, West Kowloon Cultural District Authority, etc.
