* As at 31 January 2020

4. The numbers of students receiving loans in different institutions and the average loan amounts disbursed under the NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are provided in (1) and (2) above. We do not maintain information on the distribution of student loan borrowers by department and year of study.
5. The information on the average and median loan amounts disbursed to student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years is provided in (2)(c) above. As regards the information on their average and median monthly loan repayment amounts, as students complete their studies and commence repayment of loans at different times, we have not kept record of the loan repayment information based on the academic year in which students obtain loans. Based on the information on student loan borrowers who commenced loan repayment in the 2015/16 to 2018/19 academic years, the average and median loan amounts, and the average and median monthly loan repayment amounts are as follows—

Loan/ Repayment Amount (\$)	Academic Year			
	2015/16	2016/17	2017/18	2018/19
(A) TSFS				
Average loan amount ^{^^}	59,698	65,680	71,207	75,466
Median loan amount ^{^^}	42,520	44,310	52,810	52,370
Average monthly loan repayment amount [~]	357	393	426	452
Median monthly loan repayment amount [~]	254	265	316	313
(B) FASP				
Average loan amount ^{^^}	54,625	56,986	60,824	65,834
Median loan amount ^{^^}	42,000	42,520	44,310	49,430
Average monthly loan repayment amount [~]	327	341	364	394
Median monthly loan repayment amount [~]	251	254	265	296
(C) NLSFT				
Average loan amount ^{^^}	75,326	86,862	88,676	90,451
Median loan amount ^{^^}	63,150	84,200	84,200	84,200
Average monthly loan repayment amount [~]	475	540	551	568
Median monthly loan repayment amount [~]	398	523	523	528
(D) NLSPS				
Average loan amount ^{^^}	103,757	122,390	116,824	120,325
Median loan amount ^{^^}	91,350	100,800	97,500	103,400
Average monthly loan repayment amount [~]	654	761	726	755
Median monthly loan repayment amount [~]	576	627	606	649
(E) ENLS				
Average loan amount ^{^^}	67,538	73,434	73,823	79,996
Median loan amount ^{^^}	51,000	56,721	56,280	59,870
Average monthly loan repayment amount [~]	419	450	452	494
Median monthly loan repayment amount [~]	316	347	345	370

^{^^} The average loan amount and the median loan amount are calculated based on the total amount of loans disbursed to the student loan borrowers upon their commencement of repayment in a particular academic year. The figures are therefore different from the figures in (1)(A) to (E) and (2)(c) above which are calculated based on the amount of loans disbursed in a particular academic year.

[~] Based on a 15-year repayment period. For the TSFS and FASP, the prevailing interest rate is 1% per annum. For the NLSFT, NLSPS and ENLS, the prevailing interest rate is 1.106% per annum.

Information on loan repayment of student loan borrowers who commenced loan repayment in the 2019/20 academic year is not yet available.

Cases with 2 or more consecutive overdue quarterly instalments/6 or more consecutive overdue monthly instalments are regarded as default cases. The default rates under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Scheme	Academic Year*				
	2015/16	2016/17	2017/18	2018/19	2019/20
(A) TSFS	5.02%	4.74%	4.59%	4.14%	4.58%
(B) FASP	5.18%	5.04%	5.00%	4.65%	5.30%
(C) NLSFT	4.53%	3.93%	3.56%	3.37%	3.14%
(D) NLSPS	6.96%	6.14%	5.42%	5.03%	4.84%
(E) ENLS	9.68%	9.24%	8.91%	8.75%	8.91%
Overall	7.07%	6.54%	6.11%	5.75%	5.82%

* The numbers of default cases in the 2015/16 to 2019/20 academic years reflect the positions as at the end of the academic years concerned (i.e. 31 July 2016, 31 July 2017, 31 July 2018 and 31 July 2019) and 31 January 2020 respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

6. Student loan borrowers may continue to pursue full-time studies upon graduation or choose to commence loan repayment one year after graduation. They may also settle their loan repayment within the standard repayment period, or choose to settle their loan repayment earlier on their own accord, or apply for deferment of loan repayment. As the amount of interest of each loan repayment account will vary subject to the duration of the repayment period chosen upon commencement of loan repayment, and the subsequent adjustment of interest rate, we are unable to provide the total outstanding amounts, the amounts of outstanding interest and loan repayment amounts by year of account opening. As regards the average monthly loan repayment amounts of student loan borrowers who commenced loan repayment in the 2015/16 to 2018/19 academic years, the relevant information is provided in (5) above.

(Question Serial No. 0017)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

(700) General non-recurrent

Item 508 Continuing Education Fund

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

1. Please provide in the table below information on the following student financial assistance schemes in the past 5 years (2015/16 to 2019/20) –

	Number of applications	Number of beneficiaries	Average amount of assistance disbursed (\$)	Median amount of assistance disbursed (\$)	Total amount of assistance disbursed (\$ million)
Kindergarten and Child Care Centre Fee Remission Scheme					
Pre-primary Education Voucher Scheme					
Examination Fee Remission Scheme					
Subsidy Scheme for Internet Access Charges					
School Textbook Assistance Scheme					
Student Travel Subsidy Scheme					
Community Care Fund – Enhancement of the Flat-rate Grant under the School Textbook Assistance Scheme					

Community Care Fund – Enhanced Travel Subsidy for Needy Special School Students					
Financial Assistance Scheme for Designated Evening Adult Education Courses					
Tuition fee reimbursement under the Diploma Yi Jin					
Student Travel Subsidy for Tertiary or Post-secondary Students					
Continuing Education Fund					

2. How will the Government enhance or improve its measures on financial assistance for the present and future? What is the amount involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 56)

Reply:

1. The requested information regarding the above student financial assistance schemes for the past 5 years (i.e. 2015/16 to 2019/20 school years) is set out in the Appendix. Two Community Care Fund programmes, i.e. Community Care Fund – Enhancement of the Flat Rate Grant under the School Textbook Assistance Scheme and Community Care Fund – Extra Travel Subsidy for Needy Special School Students, were regularised and incorporated into the School Textbook Assistance Scheme and the Student Travel Subsidy Scheme with effect from the 2014/15 and 2015/16 school years respectively. Hence, the requested information on these two programmes has already been reflected in the relevant assistance schemes.
2. The Government is committed to ensuring that no student is denied access to education because of a lack of means, and believes that continuous learning should be supported. On this premise, the Government reviews the student financial assistance schemes from time to time to assess their effectiveness, and to ascertain whether the schemes can achieve the objectives they are set up for.

CONTROLLING OFFICER'S REPLY

EDB235

(Question Serial No. 0164)

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (201) Means-tested loan for tertiary students pursuing publicly-funded programmes
(202) Non-means-tested loan scheme
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

- (a) Please provide the number of bankruptcy applications due to inability to repay loans under the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS), the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Financial Assistance Scheme for Post-secondary Students (FASP) and the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) in each of the past 5 years, and set out the information by scheme; and
- (b) Does the Government have any plan and timetable to review the existing financial assistance schemes for post-secondary students, including raising the grant ceilings, withdrawing the risk-adjusted factor, reducing the annual interest rate of non-means-tested loans and changing the repayment methods? If yes, when will these measures be implemented? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 7)

Reply:

- (a) The numbers of bankruptcy applications (the reasons for application may not necessarily be related to student loans) involving students receiving financial assistance under the TSFS, FASP, NLSFT and NLSPS in the 2015/16 to 2019/20 academic years are as follows:

Financial Assistance Scheme	Academic Year				
	2015/16	2016/17	2017/18 [^]	2018/19	2019/20*
TSFS	18	21	13	12	7
FASP	40	39	31	33	3
NLSFT	13	18	12	16	4
NLSPS	55	70	54	50	14
Total	126	148	110	111	28

* As at 31 January 2020

[^] The figures for the 2017/18 academic year have been revised as notifications of bankruptcy applications were received from the bankrupts or the Official Receiver's Office after that academic year.

- (b) It is the Government's student finance policy that no students will be denied access to education due to a lack of means. The Government reviews the student financial assistance schemes from time to time so as to ensure that students are provided with appropriate support. Since the 2011/12 academic year, a series of measures have been implemented to improve various financial assistance schemes for post-secondary students. The number of post-secondary students receiving full grants has increased significantly from about 30% of the total number of beneficiaries in the past to over 60% at present. In addition, to alleviate the repayment burden of student loan borrowers, the Government has implemented a number of improvement measures regarding the interest rate and repayment period of loan schemes for post-secondary students. These improvement measures include reducing the risk-adjusted-factor rate for determining the interest rate of the non-means-tested loan schemes from 1.5% to 0%, extending the standard loan repayment period to 15 years and revising the repayment arrangement from quarterly instalments to monthly instalments. Student loan borrowers are also given the option of commencing the loan repayment one year after completion of studies. Loan borrowers who have difficulty in repaying their loans on grounds of financial hardship, serious illnesses or further full-time studies may apply for a maximum 2-year interest-free deferment of loan repayment, thus extending the repayment period to 17 years in total. The prevailing interest rate for non-means-tested loan schemes is 1.106% per annum which is comparable to the 1% annual interest rate of the living expenses loan under means-tested financial assistance schemes.

Director of Bureau: Secretary for Education

Question:

- (a) Please provide the following information in respect of the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS), the Financial Assistance Scheme for Post-secondary Students (FASP), the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and the Extended Non-means-tested Loan Scheme (ENLS) in the past 5 academic years:
- (i) the number of applications
 - (ii) the number of applications approved
 - (iii) the number of students receiving grants
 - (iv) the number of students receiving full grants
 - (v) the average grant amount disbursed
 - (vi) the number of students receiving loans
 - (vii) the average loan amount disbursed
 - (viii) the total amount of assistance disbursed;
- (b) Please provide the respective numbers of student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS by institution and programme (publicly-funded

degree, sub-degree and self-financing degree), the loan amount disbursed (highest, average, lowest and median) and the length of repayment period in the past 5 academic years;

- (c) Please provide the respective numbers of students receiving grants and full grants as well as the amount of grant under the TSFS and FASP by institution in the past 5 academic years; and
- (d) Please provide the average loan amount, median loan amount, average monthly loan repayment amount, median monthly loan repayment amount and default rate in respect of tertiary students who obtained loans from the Student Finance Office in the past 5 academic years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 51)

Reply:

- (a) The information on financial assistance provided to students under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years is as follows –

	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*

(E) ENLS[@]

The numbers of students receiving loans in respect of each of the 5 categories of eligible courses/course providers under the ENLS in the 2015/16 to 2019/20 academic years are as follows –

Category of Eligible Courses	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Category 1 – Courses accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or accredited by institutions by virtue of their self-accreditation status or Programme Area Accreditation status	3 077	3 045	3 253	3 288	2 404
Category 2 – Courses under Diploma Yi Jin	870	948	837	733	739
Category 3 – Courses covered by the Financial Assistance Scheme for Designated Evening Adult Education Courses	1	0	2	0	0
Category 4 – Training or development courses provided or funded by local statutory bodies	7	5	0	0	0
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 405	2 358	2 350	2 078	1 365
Total^{##}	6 360	6 356	6 442	6 099	4 508

* As at 31 January 2020

@ The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the numbers of students receiving loans in respect of each category of eligible courses/course providers under the ENLS is provided.

Some students received loans for courses in different categories in the same academic year and therefore the total number of students receiving loans by category is larger than the figure in (a)(E) above.

- (ii) The numbers of student loan borrowers by different study levels of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2015/16 to 2019/20 academic years are as follows –

(A) TSFS

Level of Study	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Degree or above	5 442	4 695	4 091	3 645	2 573
Sub-degree	1 181	1 047	969	736	435
Total	6 623	5 742	5 060	4 381	3 008

(B) FASP

Level of Study	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Degree / Top-up degree	2 880	2 570	2 294	1 930	1 241
Sub-degree	2 201	2 073	1 924	1 626	1 019
Total	5 081	4 643	4 218	3 556	2 260

(C) NLSFT

Level of Study	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Degree or above	9 135	9 593	10 074	10 559	9 805
Sub-degree	1 839	1 911	1 843	1 770	1 300
Total	10 974	11 504	11 917	12 329	11 105

(D) NLSPS

Level of Study	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Degree / Top-up degree	7 792	7 790	7 196	6 414	5 626
Sub-degree	5 515	5 912	5 667	5 791	4 869
Total	13 307	13 702	12 863	12 205	10 495

* As at 31 January 2020

As for the ENLS, we do not maintain information on the numbers of student loan borrowers by different study levels of programmes because it covers a wide range of post-secondary/continuing and professional education courses.

- (iii) The lowest, average, median and highest amounts of loans disbursed under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Amount of Loan Disbursed (\$)	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
(A) TSFS (loans are to cover living expenses)					
Lowest	1,700	3,627	3,707	3,001	1,544
Average	32,940	36,716	38,022	38,871	41,250
Median	42,100	48,000	49,000	50,000	51,470

(B) FASP (loans are to cover living expenses)					
Lowest	870	1,200	2,965	3,500	3,536
Average	35,446	38,873	39,902	40,585	42,594
Median	44,310	48,370	49,430	50,020	51,470
Highest **	75,590	78,610	78,000	75,030	77,205
(C) NLSFT (loans are to cover tuition fees)					
Lowest	215	4,215	1,000	3,610	5,600
Average	38,749	38,838	39,096	39,235	39,868
Median	42,100	42,100	42,100	42,100	42,100
Highest	51,310	84,200	55,570	58,070	58,620
(D) NLSPS (loans are to cover tuition fees)					
Lowest	1,810	1,390	1,690	1,940	2,435
Average	59,528	60,424	54,567	55,841	49,571
Median	55,000	55,000	54,300	55,000	55,000
Highest	267,143	272,723	278,303	283,883	291,206
(E) ENLS (loans are to cover tuition fees)					
Lowest	3,000	2,570	2,375	3,563	3,612
Average	54,904	57,808	60,495	63,395	54,568
Median	42,800	45,920	48,000	52,000	54,600
Highest	340,000	350,200	358,600	364,000	372,700

* As at 31 January 2020

** Under the TSFS and FASP, some applicants, e.g. disabled applicants, might be offered loans at an amount higher than the maximum loan amount of the academic year on a discretionary basis.

As students complete their studies and commence repayment of loans at different times, we have not kept record of the loan repayment information based on the academic year in which students obtain loans. However, based on the loan repayment accounts which have been fully settled, the average repayment periods of these accounts under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Scheme	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
	(Average Repayment Period)(Year)				
(A) TSFS	4.8	4.8	4.9	5.4	6.0
(B) FASP	6.3	6.5	6.5	6.4	7.1
(C) NLSFT	7.9	7.6	7.4	7.0	7.3
(D) NLSPS	6.7	7.1	7.2	6.9	7.5
(E) ENLS	8.4	8.4	8.7	8.6	8.5

* As at 31 January 2020

- (c) The numbers of students receiving grants and full grants under the TSFS and FASP by institution in the 2015/16 to 2019/20 academic years are as follows—

(A) TSFS

Institution	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
(a) City University of Hong Kong					
Number of students receiving grants	3 004	2 840	2 710	2 498	2 082
Number of students receiving full grants	1 868	1 819	1 745	1 630	1 421
(b) Hong Kong Baptist University

* As at 31 January 2020

- (d) The information on the average and median loan amounts disbursed to student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years is provided in (b)(iii) above. As regards the information on their average and median monthly loan repayment amounts, as students complete their studies and commence repayment of loans at different times, we have not kept record of the loan repayment information based on the academic year in which students obtain loans. Based on the information on student loan borrowers who commenced loan repayment in the 2015/16 to 2018/19 academic years, the average and median loan amounts, and the average and median monthly loan repayment amounts are as follows –

Loan/ Repayment Amount (\$)	Academic Year			
	2015/16	2016/17	2017/18	2018/19
(A) TSFS				
Average loan amount ^^	59,698	65,680	71,207	75,466
Median loan amount ^^	42,520	44,310	52,810	52,370
Average monthly loan repayment amount~	357	393	426	452
Median monthly loan repayment amount~	254	265	316	313
(B) FASP				
Average loan amount ^^	54,625	56,986	60,824	65,834
Median loan amount ^^	42,000	42,520	44,310	49,430
Average monthly loan repayment amount~	327	341	364	394
Median monthly loan repayment amount~	251	254	265	296
(C) NLSFT				
Average loan amount ^^	75,326	86,862	88,676	90,451
Median loan amount ^^	63,150	84,200	84,200	84,200
Average monthly loan repayment amount~	475	540	551	568
Median monthly loan repayment amount~	398	523	523	528
(D) NLSPS				
Average loan amount ^^	103,757	122,390	116,824	120,325
Median loan amount ^^	91,350	100,800	97,500	103,400
Average monthly loan repayment amount~	654	761	726	755
Median monthly loan repayment amount~	576	627	606	649
(E) ENLS				
Average loan amount ^^	67,538	73,434	73,823	79,996
Median loan amount ^^	51,000	56,721	56,280	59,870
Average monthly loan repayment amount~	419	450	452	494
Median monthly loan repayment amount~	316	347	345	370

- ^^ The average loan amount and the median loan amount are calculated based on the total amount of loans disbursed to the student loan borrowers upon their commencement of repayment in a particular academic year. The figures are therefore different from the figures in (a)(A) to (E) and (b)(iii) above which are calculated based on the amount of loans disbursed in a particular academic year.
- ~ Based on a 15-year repayment period. For the TSFS and FASP, the prevailing interest rate is 1% per annum. For the NLSFT, NLSPS and ENLS, the prevailing interest rate is 1.106% per annum.

Information on loan repayment of student loan borrowers who commenced loan repayment in the 2019/20 academic year is not yet available.

Cases with 2 or more consecutive overdue quarterly instalments/6 or more consecutive overdue monthly instalments are regarded as default cases. The default rates under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows—

Scheme	Academic Year*				
	2015/16	2016/17	2017/18	2018/19	2019/20
(A) TSFS	5.02%	4.74%	4.59%	4.14%	4.58%
(B) FASP	5.18%	5.04%	5.00%	4.65%	5.30%
(C) NLSFT	4.53%	3.93%	3.56%	3.37%	3.14%
(D) NLSPS	6.96%	6.14%	5.42%	5.03%	4.84%
(E) ENLS	9.68%	9.24%	8.91%	8.75%	8.91%
Overall	7.07%	6.54%	6.11%	5.75%	5.82%

- * The numbers of default cases in the 2015/16 to 2019/20 academic years reflect the positions as at the end of the academic years concerned (i.e. 31 July 2016, 31 July 2017, 31 July 2018 and 31 July 2019) and 31 January 2020 respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

Regarding the following financial assistance schemes under the programme, please provide the relevant information for the past 2 years by using the attached table:

	Number of applications	Number of applications approved	Student population in the year	Percentage of beneficiaries out of student population
Kindergarten and Child Care Centre Fee Remission Scheme				
School Textbook Assistance Scheme at Primary Level				
School Textbook Assistance Scheme at Secondary Level				
Tertiary Student Finance Scheme – Publicly-funded Programmes				
Financial Assistance Scheme for Post-secondary Students				
Continuing Education Fund				
Diploma Yi Jin				
Financial Assistance Scheme for Designated Evening Adult Education Courses				

Asked by: Hon KWOK Wai-keung (LegCo internal reference no.: 26)

Reply:

Information on the above student financial assistance schemes in the 2018/19 to 2019/20 school years is set out in the table below:

2018/19 school year	Number of applications	Number of applications approved	Student population in the year	Percentage of beneficiaries out of student population
Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS)	44 226	24 964 [@]	179 259	13.93% [@]
School Textbook Assistance Scheme (STAS)	208 353	201 451	645 800	31.19%
Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS)	23 741	19 519	99 852	19.55%
Financial Assistance Scheme for Post-secondary Students (FASP)	20 709	16 184	73 225	22.10%
Continuing Education Fund (CEF) [#]	16 594	16 330	Relevant information not available	Relevant information not available
Diploma Yi Jin [^]	6 218	6 218	7 285	85.35%
Financial Assistance Scheme for Designated Evening Adult Education Courses (FAEAEC) [^]	614	614	1 459	42.02%

[@] The number of approved cases under the KCFRS does not include the 13 007 students who passed the means test but needed not pay school fees under the kindergarten education scheme. If this type of students is included, the percentage of beneficiaries out of the student population will be 21.18%.

[#] The CEF is open for application throughout the year. The figures above relate to the financial year rather than the school year. Office of the CEF does not maintain any information on the student population of CEF courses.

[^] The figures are as at 31 January 2020. A small number of reimbursement applications for the 2018/19 school year are still under processing.

2019/20 school year (as at 31 January 2020)	Number of applications	Number of applications approved	Student population in the year	Percentage of beneficiaries out of student population
KCFRS	45 608	24 174 [@]	181 603	13.31% [@]
STAS	203 630	196 832	648 100	30.37%
TSFS	22 230	16 074	99 955	16.08%
FASP	19 188	12 571	74 000	16.99%
CEF [#]	17 394	16 705	Relevant information not available	Relevant information not available
Diploma Yi Jin FAEAEC	Relevant information is not available as reimbursement applications for the 2019/20 school year will be processed from April 2020.			

[@] The number of approved cases under the KCFRS does not include the 13 289 students who passed the means test but needed not pay school fees under the kindergarten education scheme. If this type of students is included, the percentage of beneficiaries out of the student population will be 20.63%.

[#] The CEF is open for application throughout the year. The figures above relate to the financial year rather than the school year. Office of the CEF does not maintain any information on the student population of CEF courses.

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

Some members of the public have reflected that the approval criteria for the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) administered by the Student Finance Office are overly stringent. Even families at the poverty line are not given full remission. In this connection, will the Government inform this Committee of:

- (a) the numbers of KCFRS applications received and approved in the past 5 years (set out in the table below by year)

2019-2020	Child Care Centre		Kindergarten	Total
Number of applications	Aged 0-2	Aged 2-3	Aged 3 or above	
Half remission				
75% remission				
Full remission				
Total amount of fee remission				

2018-2019	Child Care Centre		Kindergarten	Total
Number of applications	Aged 0-2	Aged 2-3	Aged 3 or above	
Half remission				
75% remission				
Full remission				
Total amount of fee remission				

2017-2018	Child Care Centre		Kindergarten	Total
Number of applications	Aged 0-2	Aged 2-3	Aged 3 or above	
Half remission				
75% remission				
Full remission				
Total amount of fee remission				

2016-2017	Child Care Centre		Kindergarten	Total
Number of applications	Aged 0-2	Aged 2-3	Aged 3 or above	
Half remission				
75% remission				
Full remission				
Total amount of fee remission				

2015-2016	Child Care Centre		Kindergarten	Total
Number of applications	Aged 0-2	Aged 2-3	Aged 3 or above	
Half remission				
75% remission				
Full remission				
Total amount of fee remission				

- (b) there are views that an increasing number of needy families were unable to benefit from the KCFRS in the past 10 years or so. What is the formula adopted by the Government for setting the income threshold for each level of remission and has the formula been changed during the past 10 years?
- (c) has the Government any plan to lower the income threshold for each level of remission to benefit more needy families?

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 39)

Reply:

(a) The relevant figures of the KCFRS in the 2015/16 to 2019/20 school years are as follows:

2019/20 School Year (as at 31 January 2020) Number of successful applications	Child Care Centre		Kindergarten	Total
	Aged 0-2	Aged 2-3	Aged 3 or above	
Half remission	102	564	8 303	8 969 [^]
75% remission	27	115	2 036	2 178 [^]
Full remission	64	538	12 425	13 027 [^]
Total amount of fee remission (\$ million)	4.1	18.5	125.5	148.1

[^] The number of successful applications does not include the 13 289 students who passed the means test but needed not pay school fees under the kindergarten education scheme.

2018/19 School Year Number of successful applications	Child Care Centre		Kindergarten	Total

75% remission	42	194	2 940	3 176
Full remission	133	792	22 894	23 819
Total amount of fee remission (\$ million)	13.6	52.7	476.2	542.5

(b) and (c)

The kindergarten education scheme, which has been implemented since the 2017/18 school year, provides direct subsidies to kindergartens joining the scheme. Hence, some of these kindergartens do not have to charge school fees or can set the school fees at a low level. This also reduces the need for fee remission by the families concerned. Hence, the number of successful applications and the amount of fee remission under the KCFRS have both decreased significantly.

The Government's policy on student finance is to ensure that no student is denied access to education due to a lack of means. The means test mechanism of the Student Finance Office (SFO) operates on an "Adjusted Family Income" formula in assessing the eligibility of an applicant for student financial assistance and the level of assistance receivable. It takes into account the gross annual income of the applicant's family and the number of family members. The family income limits under the mechanism are adjusted annually in accordance with the movement of the Consumer Price Index (A). The means test mechanism of the SFO is not based on the median domestic household income and is characterised by a number of adjustments (e.g. only 30% of the annual income of unmarried child(ren) residing with the applicant's family is counted and adjustment will be made in the formula for applications from single-parent families). Therefore, it is not appropriate to directly compare it with the median domestic household income. However, according to the past data, families below the poverty line are all eligible to apply for student financial assistance. Furthermore, in order to ensure that students are provided with timely support, the Government has implemented various improvement measures on the student financial assistance schemes in recent years. For example, the income ceiling for full level of assistance under the means test mechanism has been relaxed since the 2011/12 school year. Consequent upon the implementation of the improvement measure, the percentage of students receiving full level of assistance has increased significantly from about 30% of the beneficiaries in the past to about 60% at present. The Government reviews from time to time the various student financial assistance schemes, including the scope of subsidies and the means test mechanism, to enhance support for needy families.

(Question Serial No. 1012)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

(700) General non-recurrent

Item 508 Continuing Education Fund

Item 807 One-off support grant for needy students in the
2019/20 School Year

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

1. The estimate for 2020-21 is \$179.3 million lower than the revised estimate for 2019-20. However, the number of applications under the Tertiary Student Finance Scheme - Publicly-funded Programmes, the Financial Assistance Scheme for Post-secondary Students and the Non-means-tested Loan Schemes in 2020-21 will be more than those in 2019-20. Why is the estimated amount decreased instead of increased?
2. It is mentioned under Programme (1) that the reduced expenditure is partly offset by the additional cash flow requirement for student financial assistance and the Continuing Education Fund (CEF). What is the offset amount? What is the reduced amount and the number of applicants for student financial assistance and the CEF respectively?
3. It is also mentioned under Programme (1) that the reduced cash flow of the department is due to the non-recurrent one-off support grant for financially needy students receiving means-tested student financial assistance in the 2019/20 school year. What is the total amount of this support grant? What is the number of students involved and the amount of grant for each student?
4. There will be an increase of two posts in 2020-21. What is the job nature and the amount of salary involved?

Asked by: Hon YEUNG Alvin (LegCo internal reference no.: 35)

Reply:

1. The estimate for 2020-21 is lower than the revised estimate for 2019-20, mainly due to the inclusion of a non-recurrent expenditure in the revised estimate for 2019-20 for the provision of a one-off support grant for eligible students (“one-off support grant”), which involves an estimated expenditure of \$682.6 million. The estimated expenditure for this item will substantially decrease to \$10.9 million in 2020-21.
2. In the estimates of expenditure for 2020-21, the total number of applications for the student financial assistance schemes is expected to rise from about 720 000 cases in the 2019/20 school year to about 740 000 cases in the 2020/21 school year; while the number of CEF claims is expected to rise from about 24 000 cases in 2019-20 to about 48 000 cases in 2020-21. The decrease in expenditure for the one-off support grant is partly offset by the additional cash flow requirements for student financial assistance and the CEF, which will increase by \$239.8 million and \$198.4 million respectively.
3. The approved commitment for the one-off support grant for needy students in the 2019/20 school year is \$725 million, with each eligible student receiving a grant of \$2,500. The amount of grant disbursed in 2019-20 (as at 31 January 2020) is \$662.4 million and an estimated grant of \$10.9 million will be disbursed in 2020-21, benefitting a total of about 280 000 students.
4. To meet service and operational needs, 1 Executive Officer I post and 1 Clerical Officer post will be created in the Student Finance Office of the Working Family and Student Financial Assistance Agency to replace 2 non-civil service contract staff positions. They will be responsible for processing applications under the Student Travel Subsidy Scheme and handling student loan repayment accounts respectively. The annual salaries involved are \$807,540 and \$463,140 respectively.

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

1. Regarding the Subsidy Scheme for Internet Access Charges (the Scheme), the number of cases in 2020/21 is smaller than that in 2018/19. What are the reasons? Does the Scheme cover only secondary and primary students? If so, what are the respective numbers of secondary and primary students covered?
2. Application for the Scheme is family-based. What are the respective numbers of family applicants with 1, 2, 3 or above member(s) who is/are students?
3. Due to the Wuhan pneumonia epidemic, schools need to conduct online lessons for their students to continue their learning during class suspension. Moreover, as workstations for free internet service in libraries and District Offices are closed, internet access charges has become a necessary expenditure item for a family. However, based on the estimated expenditure, each eligible family may only receive a full-year subsidy of \$1,200, which is lower than the general market prices. Will the Government consider increasing the amount of the monthly subsidy? If yes, what is the additional amount?

Asked by: Hon YEUNG Alvin (LegCo internal reference no.: 34)

Reply:

1. The Subsidy Scheme for Internet Access Charges (SIA) administered by the Student Finance Office (SFO) under the Working Family and Student Financial Assistance Agency covers needy families with children who are full-time students receiving education at primary or secondary level. The number of students who are studying in primary or secondary schools or equivalent is about 664 000 in the 2018/19 school year and is estimated to be about 672 000 in the 2020/21 school year, while the number of students who were/will be disbursed with the subsidy by the SFO for the two school years is about 179 000 and 175 000 (estimated) respectively. Taking into account the numbers of households in receipt of the subsidy in the past 3 years, the SFO estimates that the number of households applying for SIA will decrease slightly from 135 632 in the 2018/19 school year to 132 514 in the 2020/21 school year.

2. The number of households in receipt of internet access subsidy in the 2019/20 school year (as at 31 January 2020), broken down by the number of students (i.e. “1”, “2”, and “3 or above”) in the household, is as follows:

2019/20 school year (as at 31 January 2020)	Number of students in the households in receipt of the subsidy		
	1	2	3 or above
Number of households with subsidy provided by the SFO	71 159	51 977	9 223

3. The full grant rate for the SIA in the 2019/20 school year is \$1,500 per household per annum, while the half grant rate is \$750 per household. The grant rate under the SIA is reviewed annually with reference to prevailing prices of internet access services in the market. The rate for the new school year is subject to the review outcome.

VTC – Vocational Training Council

Notes:

1. Relevant age cohort refers to the average mid-year resident population between the ages of 18 to 20. Starting from the 2016/17 academic year, relevant school-ages for senior-year entry and top-up degree programmes were expanded from ages of 18 to 20 to ages of 18 to 22, with a view to achieving a more comprehensive reflection of the age distribution of students enrolled in such programmes. Therefore, direct comparison could not be made between data in relation to students enrolled in such programmes before the 2016/17 academic year and those relating to students enrolled in or after the 2016/17 academic year.
2. Including the actual student intakes in full-time locally-accredited self-financing first-year-first degree (FYFD) programmes/top-up degree programmes (including students enrolled in self-financing programmes who are also beneficiaries of various government subsidy schemes).
3. Overall participation rates of relevant age cohort for undergraduate degree programmes incorporated the number of intake places in publicly-funded undergraduate degree programmes and actual student intakes in self-financing undergraduate degree programmes.
4. Overall tertiary education participation rate of relevant age cohort incorporates the number of intake places in publicly-funded FYFD programmes, actual student intakes in self-financing FYFD programmes, as well as actual student intakes in publicly-funded and self-financing SD programmes.
5. Starting from the 2016/17 academic year, student intakes in all SD and undergraduate programmes refer to the actual student intake of local students. Therefore, student intakes before the 2016/17 academic year could not be directly compared with student intakes in or after the 2016/17 academic year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1425)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

What is the amount of economic loss of all government-funded universities arising from damage done to the campuses by students participating in protests relating to the opposition to the proposed legislative amendments since June last year? And what is the estimated maintenance cost to be applied for by these universities from the Government? Please give a breakdown by university in table form.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 10)

Reply:

According to the information provided by the universities, except for The Education University of Hong Kong which remained largely unaffected, all the other university campuses have suffered damage of varying degrees in the social incidents. While slogans were posted and graffiti painted on some parts of the campuses, certain fire safety and closed-circuit television systems were damaged. In some buildings, glasses were broken or furniture damaged/lost. Individual university campuses suffered more serious damage to some of their facilities so much so that the lifts and escalators failed to function properly, whereas some floors and external walls were damaged by flooding/fire. The universities concerned promptly assessed the damage done to the campuses and commenced the necessary restoration works so as to ensure that the campuses are safe and suitable for conducting teaching and research activities. A number of restoration works have been completed just in time for the start of the second semester of the 2019/20 academic year.

Under the prevailing arrangements, universities will carry out the routine repair and maintenance works on campus facilities as necessary, and meet the expenditure on restoration works with their existing resources. As such, the Government does not maintain any information on the estimated expenditure involved. The universities have not applied for additional funding for the expenditure involved in the restoration works.

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Since the movement of opposition to the proposed legislative amendments broke out in June last year, how many Mainland students studying in local funded universities have been forced to drop out and return to the Mainland for refuge? How many of these Mainland students decided to drop out from the degree courses in Hong Kong eventually, and how many have returned to Hong Kong to continue their studies?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 46)

Reply:

In November last year, violent protestors had committed acts of road blockage, throwing objects from height, arson, criminal damage and violent charging on some campuses of university funded by the University Grants Committees (UGC) and in nearby public places, thereby breaching peacefulness and endangering the personal safety of other citizens. A number of universities had thus curtailed the semester of their regular programmes. In view of such circumstances and with students' personal safety as top priority, the affected universities had taken appropriate support measures for students, such as arranging non-local students to leave campuses or dormitories; or providing individual students who wish to return to their places of origin with suitable assistance. These support measures were provided by the universities and we do not have the number of students involved. We are also unable to provide the number of students returning to Hong Kong to continue their studies thereunder.

As regards the number of dropouts, according to the provisional figures provided by the UGC-funded universities in December 2019, a total of 157¹ Mainland students applied for discontinuation of study in the first semester of 2019/20 academic year, compared with 151¹ cases in the same period of 2018/19 academic year. The decision to discontinue study is a matter of personal choice, which may be owing to employment, family reasons, health reasons, changing schools/institutions, financial difficulties, and academic performance, etc. Universities would be unable to assess whether the cases of discontinuation of study were relevant to social events.

¹ Including the number of students enrolled in UGC-funded and self-financing full-time and part-time programmes.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the 8 universities funded by the University Grants Committee, will the Government inform this Committee of the following:

1. What are the respective amounts of annual fiscal reserves of the 8 institutions in each of the past 3 years? How much of them has not been designated for any specific purpose?
2. What are the numbers of students who dropped out from full-time undergraduate programmes in each of the 2018/19 and 2019/20 school years and the reasons for their drop-out?
3. What are the numbers of university students arrested and prosecuted in the past year by the 8 institutions, reasons for arrest and age distribution?

Asked by: Hon CHIANG Lai-wan (LegCo internal reference no.: 16)

Reply:

1. The University Grants Committee (UGC) allocates recurrent grants to the 8 UGC-funded universities in the form of a block grant, usually on a triennial basis, to tie in with the academic planning cycle of the UGC-funded sector. Following established practice, universities are allowed to carry unspent funds up to 20% of their respective total recurrent grants in a funding period to the next as the General and Development Reserve Fund. Unspent funds in excess of that level has to be returned to the UGC. Meanwhile, UGC-funded universities may set up restricted funds and utilise resources (such as donations and benefactions) having regard to their operational needs to cater for various financial arrangements in respect of campus development, research projects, investments and self-financing activities, etc. The specific arrangements, purposes and fund levels concerned are set out in the annual financial reports of the funded universities, while the relevant reports are also available on their websites. By consolidating the information in their financial reports, the balances of funds of universities from the 2017/18 to 2018/19 academic years are

provided at **Annex** for reference. The information for the 2019/20 academic year is not yet available.

- According to the information provided by UGC-funded universities, the numbers of students of UGC-funded full-time undergraduate programmes who discontinued their studies in the 2018/19 academic year, with a breakdown by reason for discontinuation of studies, are as follows. Figures for the 2019/20 academic year are not yet available.

Reason for discontinuation of studies		Number of students
Voluntary	Academic reason (e.g. continuation of study in another institution, unsatisfactory academic results)	549
	Non-academic reason (e.g. emigration, employment, financial considerations, health)	323
	Failure to provide any reason	162
Involuntary	Termination of study by university (e.g. terminated by university due to academic reasons or disciplinary reasons, prolonged absence without notifying the universities)	404
	Death	9
Total		1 447

- The UGC does not maintain information on the numbers of university students arrested and prosecuted.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0011)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please give a breakdown of the number of enrolment places, actual intakes, unit cost as well as the tuition fees of the University Grants Committee (UGC)-funded undergraduate, senior year top-up degree, associate degree and higher diploma programmes by institution, programme and year of study over the past 5 years (i.e. 2015/16 to 2019/20 academic years);
2. Please give a breakdown of the number of enrolment places, actual intakes, unit cost as well as the tuition fees of the UGC-funded taught postgraduate master, taught postgraduate doctor, research postgraduate (Master of Philosophy) and research postgraduate (Doctor of Philosophy) programmes by institution, programme and year of study over the past 5 years (i.e. 2015/16 to 2019/20 academic years);
3. Please give a breakdown of the number of enrolment places, actual intakes, unit cost as well as the tuition fees of the undergraduate, senior year top-up degree, associate degree and higher diploma programmes offered by self-financing post-secondary institutions and self-financing universities, by institution, programme and year of study over the past 5 years (i.e. 2015/16 to 2019/20 academic years);
4. Please give a breakdown of the number of enrolment places, actual intakes, unit cost as well as the tuition fees of the taught postgraduate master, taught postgraduate doctor, research postgraduate (Master of Philosophy) and research postgraduate (Doctor of Philosophy) programmes offered by self-financing post-secondary institutions and self-financing universities by institution, programme and year of study over the past 5 years (i.e. 2015/16 to 2019/20 academic years);
5. Please give a breakdown of the respective numbers of the various types of self-financing programmes offered by the departments of UGC-funded institutions by institution over the past 5 years (i.e. 2015/16 to 2019/20 academic years) (set out by associate degree, higher diploma, undergraduate, taught postgraduate and research postgraduate programmes), as well as (i) the student intakes, (ii) the tuition fee income,

(iii) the number of full-time teaching staff members employed, (iv) the number of part-time teaching staff members employed, (v) the number of non-teaching staff members employed and (vi) payroll expenses for such staff members, of such programmes respectively;

6. Please give a breakdown of the amounts of net incomes (or net deficits) as a result of offering self-financing programmes by the departments of each UGC-funded institution over the past 5 years (i.e. 2015/16 to 2019/20 academic years);
7. Please give a breakdown of the amounts of surpluses (or liabilities) of the departments of each UGC-funded institution over the past 5 years (i.e. 2015/16 to 2019/20 academic years);
8. Please give a breakdown of the amounts of net incomes (or net deficits) as a result of offering programmes by each self-financing post-secondary institution over the past 5 years (i.e. 2015/16 to 2019/20 academic years); and
9. Please give a breakdown of the amounts of surpluses (or liabilities) of each self-financing post-secondary institution over the past 5 years (i.e. 2015/16 to 2019/20 academic years).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 6)

Reply:

1 and 2.

The approved intake places, approved student number targets and student enrolment of the UGC-funded sub-degree (SD), undergraduate (Ug), taught postgraduate (TPg) and research postgraduate (RPg) programmes by university and broad academic programme category (APC) from the 2018/19 to 2019/20 academic years are at **Annexes A1 to A4**.

The same details covering the 2015/16 to 2017/18 academic years were set out in our reply (Reply Serial No. EDB238) to the relevant question (Question Serial No. 2959) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2019-20 in 2019. They are not repeated herein.

The average student unit costs of the UGC-funded places, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by universities, by level of study for the 2015/16 to 2018/19 academic years are set out below:

Level of study	Average student unit cost ^{Note 2}			
	2015/16	2016/17	2017/18	2018/19 ^{Note 1}
SD	\$172,000	\$176,000	\$190,000	\$199,000
Ug	\$237,000	\$242,000	\$251,000	\$265,000
TPg	\$230,000	\$232,000	\$243,000	\$265,000
RPg	\$548,000	\$568,000	\$581,000	\$621,000

Notes:

1. Provisional figures.

2. The bulk of the average student unit cost of a UGC-funded place is subsidised by Government subvention with the remainder funded by income from tuition fees (i.e. \$42,100 per student per year for UG, TPg and RPg programmes; \$15,040 per student per year for SD programmes offered by the Education University of Hong Kong; and \$31,575 per student per year for SD programmes offered by other UGC-funded universities).

The average student unit costs for the 2019/20 academic year are not yet available since the 2019/20 academic year has not yet finished. As funding for publicly-funded programmes is subsumed under the block grants, the UGC is unable to identify and provide the actual expenditure on specific programmes.

3 to 5(i).

The estimated intake places, actual intakes and average annual tuition fees of full-time locally-accredited self-financing SD, first-year-first-degree (FYFD) and top-up degree programmes by institution from the 2018/19 to 2019/20 academic years are at **Annexes B1 to B3**. The Education Bureau does not maintain information on the unit costs of these programmes.

The number of programmes offered, actual intakes and total tuition fees of full-time locally-accredited self-financing TPg and RPg programmes by institution for the corresponding period are at **Annexes C1 to C2**. The Education Bureau does not maintain information on the number of enrolment places and unit costs of these programmes.

The same details covering the 2015/16 to 2017/18 academic years were set out in our reply (Reply Serial No. EDB238) to the relevant question (Question Serial No. 2959) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2019-20 in 2019. They are not repeated herein.

5(ii) to 7.

Based on information provided by the UGC-funded universities, information on the tuition fee income, the numbers of full-time and part-time academic and non-academic staff engaged, and the payroll expenses for these staff of self-financing programmes for the 2015/16 to 2018/19 academic years are set out at **Annexes D and E**. The universities are currently unable to provide information for the 2019/20 academic year.

Based on information provided by the UGC-funded universities, the surpluses/deficits of self-financing programmes for the 2015/16 to 2018/19 academic years are at **Annex F**. The universities are currently unable to provide information for the 2019/20 academic year.

Based on the annual financial reports of the UGC-funded universities, the surpluses/deficits and total liabilities of each university for the 2015/16 to 2018/19 academic years are at **Annex G**, while the relevant reports are also available on the universities' websites. The universities are currently unable to provide information for the 2019/20 academic year.

8 and 9.

As self-financing post-secondary institutions operate on a self-financing basis without regular public funding, the Education Bureau does not maintain relevant financial information of these institutions.

Notes:

1. There are only master's programmes but no doctoral programmes for UGC-funded TPg programmes.
2. Since some UGC-funded programmes are related to more than one APC, students of these programmes are counted across the APCs concerned on a pro-rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals. The figure zero represents less than 0.5.
3. "-" denotes nil.

Notes:

1. Approved intake places are not applicable to UGC-funded RPg programmes. UGC-funded RPg students refer to students funded by UGC within their normative study periods.
2. There is no breakdown of the approved student number targets by MPhil/PhD programme and broad APC.
3. Since some UGC-funded programmes are related to more than one APC, students of these programmes are counted across the APCs concerned on a pro-rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals. The figure zero represents less than 0.5.
4. “-” denotes nil.

Notes:

1. TPg programmes cover postgraduate certificate, postgraduate diploma, master's degree and doctoral programmes. Figures include both full-time and part-time mode of study lasting at least 1 year.
2. “-” denotes relevant programmes were not offered in that academic year.
3. “#” denotes provisional figures.

**Number of Programmes Offered, Actual Intakes and Total Tuition Fees of
Locally-accredited Self-financing Research Postgraduate Programmes by Institution,
2018/19 to 2019/20**

Institution	2018/19			2019/20 (Provisional)		
	No. of programme	Actual intakes	Total tuition fee (\$)	No. of programme	Actual intakes	Total tuition fee (\$)
City University of Hong Kong	Not applicable#	139	Not available	Not applicable#	138	Not available
Hong Kong Baptist University		21			23	
Lingnan University		0			2	
The Chinese University of Hong Kong		113			118	
The Hong Kong Polytechnic University		128			132	
The Hong Kong University of Science and Technology		130			210	
The University of Hong Kong		86			93	
The Open University of Hong Kong	2	1	2	Not available	138,000 – 207,000	
Hong Kong Shue Yan University	24	6	24			

Notes:

1. Self-financing RPg programmes only include self-financing MPhil and PhD programmes. The tuition fees above are based on normal study period.
2. Actual intakes of UGC-funded universities include those students pursuing UGC-funded RPg programmes who were wholly financed by external funds.
3. “#”: Universities do not offer independent RPg programmes under individual disciplines for enrolment. Postgraduate students normally apply directly to universities for master and doctoral programmes and are admitted to a department associated with their research. As such, the number of programmes offered is not available.
4. “-” denotes relevant programmes were not offered in that academic year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0012)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the expenditure on salaries and the recruitment staff of the University Grants Committee (UGC)-funded institutions, please provide the figures of the following for the past 5 years (2015/16 to 2019/20) and the estimated figures for the 2020/21 academic year:

1. the number of part-time teaching staff employed and the percentage out of the total number of teaching staff;
2. a breakdown, by terms of employments, of the numbers, proportions and percentage changes of the teaching and non-teaching staff on temporary contract, term contract, long-term employment contract and substantive appointment in funded institutions;
3. the changes in the number of senior staff, the expenditure on their salaries and the percentage of such expenditure out of the total expenditure of each funded institution; and
4. the amount of expenditure on salaries and benefits of each institution that is funded by public money and income other than public funds respectively.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 26)

Reply:

1. As provided by the UGC-funded universities, the numbers and percentages of part-time academic staff in the academic departments of the universities with salaries wholly funded by general funds from the 2015/16 to 2019/20 academic years are at **Annex A**. Projection for the 2020/21 academic year is not available.
2. As provided by the UGC-funded universities, the respective numbers and percentages of staff on contract and substantive appointment from the 2015/16 to 2019/20 academic years are at **Annex B** and the corresponding percentages of staff changes are at **Annex C**. A breakdown for teaching and non-teaching staff and the estimated figures for the 2020/21 academic year are not available.

3. As provided by the UGC-funded universities, the changes in the number of senior staff from the 2015/16 to 2019/20 academic years are at **Annex D**. The estimated figures for the 2020/21 academic year are not available. As regards the expenditure on salaries of senior staff, the UGC has not sought to control the actual expenditure on salaries in the universities for funding purposes since the deregulation of salary scales of UGC-funded universities in 2003. The information requested is thus not available.
4. The bulk of Government subvention to the 8 UGC-funded universities is in the form of a block grant which provides for a one-line allocation of resources for a funding period (usually a triennium). Expenditure of the universities (including expenditure on salaries and benefits) is not solely covered by Government funding, while universities have other sources of income such as tuition fees and other fees, interest and investment income, donations and benefactions, auxiliary services and other incomes. Apportionment of expenditure on salaries and benefits by funding source is not available.

Nevertheless, the expenditure on salaries and benefits and the income for the 2015/16 to 2018/19 academic years of the 8 UGC-funded universities according to their annual financial reports are set out at **Annex E** for reference. Information for the 2019/20 academic year and projection for the 2020/21 academic year are not available.

**Numbers and Percentages of Part-time Academic Staff in Academic Departments
of UGC-funded Universities with Salaries Wholly Funded by
General Funds, 2015/16 to 2019/20 Academic Years⁽¹⁾**

(Headcount)

CONTROLLING OFFICER'S REPLY**EDB249****(Question Serial No. 0015)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not specifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Prof James TANG)Director of Bureau: Secretary for EducationQuestion:

1. Please set out, by institution, the respective amounts of Government funding to University Grants Committee (UGC)-funded universities and their percentages against the total income of the universities in the past 5 years (2015/16 to 2019/20):

Sources of income	Institutions (\$m) (as a % of total income)							
	CityU	HKBU	LU	CUHK	EUHK	PolyU	HKUST	HKU
Recurrent funding from UGC								
Funding from Research Grant Council (RGC)								
Funding from other Government agencies (please specify)								
Sub-total								
Tuition and other fees								

Sources of income	Institutions (\$m) (as a % of total income)							
	CityU	HKBU	LU	CUHK	EUHK	PolyU	HKUST	HKU
Interest and investment income								
Donations and benefactions								
Income from subsidiaries								
Other incomes (please specify)								
Total income								

2. Please list out, by institution, a list of local and overseas subsidiaries established or currently owned by UGC-funded institutions.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 45)

Reply:

1. Total income by source of the eight University Grants Committee (UGC)-funded universities for the 2015/16 to 2018/19 academic years, based on universities' annual financial reports, is provided at **Annex A**, while the relevant reports are also available on their websites. The universities are currently unable to provide information for the 2019/20 academic year.
2. A list of subsidiaries / principal subsidiaries of UGC-funded universities as disclosed in their 2018/19 annual financial reports is provided at **Annex B**. The list of subsidiaries of each university is also provided in the annual financial report on its website.

CONTROLLING OFFICER'S REPLY

EDB250

(Question Serial No. 0166)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the respective numbers of first-year first-degree places in the departments belonging to manpower planning disciplines of the 8 University Grants Committee-funded universities from the 2015/16 academic year to the 2019/20 academic year.
2. The Government plans to increase the number of first-degree places in healthcare disciplines by 150 from the 2019/20 academic year to the 2021/22 academic year. Please provide the number of new first-degree places in healthcare disciplines that needs to be offered by each of the funded institutions.
3. Please provide, by year, the names of the programmes and the numbers of places reduced by each institution as a result of the increase in places in healthcare disciplines by 150 without increasing the number of first-year first-degree places.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 9)

Reply:

1. The annual approved numbers of intake places of the University Grants Committee (UGC)-funded first-year-first-degree (FYFD) programmes related to manpower planning disciplines offered by the UGC-funded universities from 2015/16 academic year to 2019/20 academic year are set out at **Annex**.
2. Regarding the programmes related to healthcare professions, the details on the annual approved numbers of intake places of the FYFD programmes offered by Hong Kong Baptist University, The Chinese University of Hong Kong, The Hong Kong Polytechnic University and The University of Hong Kong in the 2016/17 to 2018/19 triennium and 2019/20 to 2021/22 triennium are tabulated as follows:

University	Annual approved number of intake places in the 2016/17 to 2018/19 triennium	Annual approved number of intake places in the 2019/20 to 2021/22 triennium
Hong Kong Baptist University	30	30
The Chinese University of Hong Kong	517	568
The Hong Kong Polytechnic University	677	722
The University of Hong Kong	552	609
Total	1 776	1 929

3. All of the UGC-funded universities are autonomous statutory bodies. The universities enjoy substantial autonomy in the offering of academic programmes and the internal allocation of resources.

Before the UGC-funded universities propose to the UGC and the Government the allocation of student places and resources, they would make reference to the Government's manpower advice to help address the rising need for talents with specific skills. The UGC-funded universities may also propose to establish or remove specific academic disciplines and allocate student places into different programmes by taking into account social developments, market demand and their own development goals. The UGC would consider the actual situation of different universities and ensure, as far as practicable, that the UGC-funded sector could nurture the required manpower resources. When conducting the planning exercise for the 2019-22 triennium, the Government recommended the UGC-funded sector to increase the number of intake places for programmes of healthcare-related professions with manpower shortage (including doctors, dentists, nurses and allied health professionals) and received positive responses from the UGC-funded universities. The intake places per annum for healthcare-related programmes was increased by 153. The Government and the UGC respect the autonomy of the universities, and they may reconsider and determine the course combination and establishment in each planning cycle in light of their visions, strategies and developments. Since the academic planning for programmes involves various factors, the UGC is unable to identify the changes in intake places of other programmes that are directly due to the increase in intake places of the manpower-planned healthcare-related programmes.

**Approved Numbers of Intake Places of the UGC-funded FYFD Programmes
related to Manpower Planning Disciplines
from the 2015/16 to 2019/20 Academic Years**

(Question Serial No. 0167)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide, by university, year of study and programme, the expenditure required for and revenue generated by the self-financing post-secondary programmes of the University Grants Committee (UGC)-funded universities for the past 5 years (2015/16 to 2019/20).
2. Please provide, by university, the overall surplus, donations received, total amount of funds and liabilities of the UGC-funded universities for the past 5 years (2015/16 to 2019/20).
3. Please provide, by university, the overall surplus, donations received, total amount of funds and liabilities of the self-financing departments of the UGC-funded universities for the past 5 years (2015/16 to 2019/20).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 10)

Reply:

1. We do not have information on the expenditure required for and revenue generated by the self-financing post-secondary programmes (by university, year of study and programme) by University Grants Committee (UGC)-funded universities for the 2015/16 to 2019/20 academic years.
2. Based on annual financial reports of the eight UGC-funded universities, the surpluses / deficits, donations received, total funds and liabilities of each university for the 2015/16 to 2018/19 academic years are at **Annex A**, while the relevant reports are also available on their websites. The universities are currently unable to provide information for the 2019/20 academic year.
3. Based on information provided by the universities, the surpluses / deficits of self-financing programmes for the 2015/16 to 2018/19 academic years are at **Annex B**. Information for the 2019/20 academic year is not yet available. We do not have the

information on donations received, total funds and liabilities of the self-financing departments of UGC-funded universities for the 2015/16 to 2019/20 academic years.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0168)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the past 5 years (2015/16 to 2019/20):

1. the names of the top 10 funded undergraduate programmes, offered by each University Grants Committee (UGC)-funded institution, which admitted the largest numbers of local applicants who hold non-local public examination results or academic qualifications (in terms of number and percentage respectively); the numbers of these applicants admitted to each of such programmes, as well as their percentage and median admission score; and the numbers of applicants admitted to each of such programmes through Joint University Programmes Admissions System (JUPAS) and their median admission score;
2. the names of the top 10 undergraduate programmes, offered by each UGC-funded institution, which admitted the largest numbers of non-local students (in terms of number and percentage respectively) and the nationalities of the non-local students admitted; the numbers of these applicants admitted to each of such programmes, as well as their percentage and median admission score; and the numbers of JUPAS applicants admitted to each of such programmes and their median admission score; and
3. a list of scholarships available for application by tertiary students (e.g. the Hong Kong PhD Fellowship Scheme), with respective numbers of applicants and awardees, nationalities of the awardees and amounts of award involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 11)

Reply:

1. and 2.

Candidates of local public examinations are the major source of local students for University Grants Committee (UGC)-funded undergraduate programmes. The local

students admitted to the UGC-funded undergraduate programmes outside of the Joint University Programmes Admissions System (JUPAS) (non-JUPAS route) include students with local sub-degree qualifications, non-local qualifications or other qualifications (e.g. students who already have undergraduate degree qualifications).

Student admission is within the autonomy of the UGC-funded universities. Following the principles of fairness and merit-based selection, each university administers its own admission policy and criteria for different undergraduate programmes to assess applications submitted through the JUPAS and non-JUPAS routes. Having regard to institutional autonomy in student admission, neither the Government nor the UGC would require universities to specify a particular ratio of local students admitted through the JUPAS and non-JUPAS routes.

According to the UGC-funded universities, undergraduate admission is conducted on the basis of rigorous and holistic assessment of applicants in a variety of aspects, including their academic qualifications and results, interview performance, personal attributes, non-academic achievements, interests and experiences, as well as programme preferences, etc. Universities have accumulated a wealth of experience in assessing the relative merits of local applicants with different academic qualifications. They have also been continuously monitoring the relative post-admission performance of students admitted with different academic qualifications to ensure that equivalent admission threshold is applied to candidates holding different academic qualifications. We understand that universities do not apply any formula to convert and compare different academic qualifications and non-academic achievements.

The information on the top 10 UGC-funded first-year-first-degree (FYFD) programmes of each UGC-funded university with the highest ratio of local students with non-local qualifications to the total number of students admitted in the 2018/19 and 2019/20 academic years is at [Annex A](#), and the information on the top 10 programmes with the largest number of local students with non-local qualifications is at [Annex B](#).

Non-local students can be admitted to the UGC-funded undergraduate programmes up to a level not exceeding 20% of the approved UGC-funded student number (calculated by level of study). Since the 2016/17 academic year, all newly-admitted non-local undergraduate students are admitted by way of over-enrolment on top of the approved student number. The applications submitted by non-local candidates are handled separately in the admission procedures, and they will not compete directly with local students. As with the applications from local candidates, those from non-local candidates are considered by the universities in accordance with the principles of fairness and merit-based selection. Besides, non-local students are required to pay higher tuition fees which are at least sufficient to recover relevant additional direct costs to avoid public money being used to cross-subsidise non-local students.

The information on the top 10 UGC-funded FYFD programmes of each UGC-funded university with the highest ratio of non-local students to the total number of students admitted in the 2018/19 and 2019/20 academic years is at [Annex C](#), and the information on the top 10 programmes with the largest number of non-local students, with a breakdown by their place of origin, is at [Annex D](#).

All the aforementioned annexes are prepared based on information provided by the universities. As for the relevant figures in the 2015/16 to 2017/18 academic years, please refer to our replies (Reply Serial Nos. EDB739, EDB248 and EDB233) to the relevant questions (Question Serial Nos. 3626, 0133 and 0072) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2017-18, 2018-19 and 2019-20 respectively.

3.

The Hong Kong PhD Fellowship Scheme, established in 2009, is open to local as well as non-local postgraduate students who wish to pursue their PhD programmes in the UGC-funded universities. Starting from the 2019/20 academic year, the Fellowship provides each awardee with a monthly stipend of HK\$25,800 and a conference and research-related transport allowance of HK\$12,900 per year for up to 3 years. The number of postgraduate students applying for the Fellowship from the 2015/16 to 2019/20 academic years is tabulated below:

Academic year	Number of applicants
2015/16	4 114
2016/17	4 303
2017/18	4 968
2018/19	5 955
2019/20	7 011

The breakdown of the awardees by place of origin from the 2015/16 to 2019/20 academic years is tabulated at **Annex E**.

7	Department of Media and Communication (options: BA Digital Television and Broadcasting, BA Media and Communication)	42	4	5	2	28	81	4.9%	16.6	-	33.0
8	Department of Management Sciences (options: BBA Business Analysis, BBA Business Operations Management)	60	4	14	4	9	91	4.4%	15.9	-	31.0
9	Bachelor of Science in Chemistry	40	2	3	-	8	53	3.8%	14.9	-	-
10	Bachelor of Science in Data Science	27	1	2	1	4	35	2.9%	15.3	-	*

Notes:

1. The above tables cover primarily major admission qualifications in which standardised grading schemes are adopted. Though sub-degree qualifications are major admission qualifications, relevant scores are not collected by the UGC as these qualifications are awarded by individual universities.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications such as associate degree and higher diploma.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local institutions, or situations where students are admitted with multiple qualifications.

6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
 5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
 “-” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:
 Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
 AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
 Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
 AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6
 With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.
 “-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the above tables for the purpose of protecting the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

4	Bachelor of Arts (Honours) in Creative Arts and Culture and Bachelor of Education (Honours) (Music) (Five-year Full-time)	19	1	14	2	1	37	2.7%	14.4	*	-

Notes:

- The above tables cover primarily major admission qualifications in which standardised grading schemes are adopted. Though sub-degree qualifications are major admission qualifications, relevant scores are not collected by the UGC as these qualifications are awarded by individual universities.
- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
- Include sub-degree qualifications such as associate degree and higher diploma.
- “Others” include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor’s degree programme in local institutions, or situations where students are admitted with multiple qualifications.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, ‘unclassified’=0
“-” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:

Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the above tables for the purpose of protecting the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

10	Bachelor of Arts and Science in New Media	16	2	3	-	1	22	9.1%	16.1	-	*

Notes:

1. The above tables cover primarily major admission qualifications in which standardised grading schemes are adopted. Though sub-degree qualifications are major admission qualifications, relevant scores are not collected by the UGC as these qualifications are awarded by individual universities.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.

3. Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications such as associate degree and higher diploma.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local institutions, or situations where students are admitted with multiple qualifications.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
 $5^{**}=7, 5^*=6, 5=5, 4=4, 3=3, 2=2, 1=1, \text{'unclassified'}=0$
 "-" denotes that the students concerned are not HKDSE qualification holders. "**" denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:
 Before September 2017: A-Level : $A^* = 140; A = 120; B = 100; C = 80; D = 60; E = 40$
 AS-Level : $A = 60; B = 50; C = 40; D = 30; E = 20$
 Since September 2017: A-Level : $A^* = 56; A = 48; B = 40; C = 32; D = 24; E = 16$
 AS-Level : $A = 20; B = 16; C = 12; D = 10; E = 6$
 With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.
 "-" denotes that the students concerned are not GCE qualification holders. "**" denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the above tables for the purpose of protecting the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "-" denotes that the students concerned are not IB qualification holders. "**" denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

Notes:

- The above tables cover primarily major admission qualifications in which standardised grading schemes are adopted. Though sub-degree qualifications are major admission qualifications, relevant scores are not collected by the UGC as these qualifications are awarded by individual universities.
- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- Include major non-local qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
- Include sub-degree qualifications such as associate degree and higher diploma.
- “Others” include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor’s degree programme in local institutions, or situations where students are admitted with multiple qualifications.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, ‘unclassified’=0
“-” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

7. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:

Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the above tables for the purpose of protecting the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
9. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:

5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0

“-” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:

Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Place of origin of non-local students is determined having regard to their nationality / place of residence.
8. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“-” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:
Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Place of origin of non-local students is determined having regard to their nationality / place of residence.
8. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0

“-” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:

Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Place of origin of non-local students is determined having regard to their nationality / place of residence.
8. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

- Notes:
- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
 - The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“-” denotes that the students concerned are not HKDSE qualification holders. “**” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
 - With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:

Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Place of origin of non-local students is determined having regard to their nationality / place of residence.
8. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

**UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Non-local Students to Total Number of Students Admitted
in the 2018/19 and 2019/20 Academic Years**

University: The University of Hong Kong

2018/19 Academic year Programme name		Number of students admitted				Non-local students as percentage of total number of students admitted (A)/(B)	Place of origin of non-local students			Average score in major admission qualifications ⁽¹⁾ obtained by new intake students

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0

“-” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

3. With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:

Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Place of origin of non-local students is determined having regard to their nationality / place of residence.
8. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“.” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:
Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“..” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:
Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“-” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:

Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40

AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20

Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16

AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

**UGC-funded First-Year-First-Degree Programmes with the Largest Number of Non-local Students
in the 2018/19 and 2019/20 Academic Years**

University: The Hong Kong University of Science and Technology

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“-” denotes that the students concerned are not HKDSE qualification holders. “*” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:
Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“-” denotes that the students concerned are not HKDSE qualification holders. “**” denotes that the number of students holding HKDSE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the United Kingdom, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement. The score for each subject is calculated as follows:
Before September 2017: A-Level : A* = 140; A = 120; B = 100; C = 80; D = 60; E = 40
AS-Level : A = 60; B = 50; C = 40; D = 30; E = 20
Since September 2017: A-Level : A* = 56; A = 48; B = 40; C = 32; D = 24; E = 16
AS-Level : A = 20; B = 16; C = 12; D = 10; E = 6

With the implementation of the new scoring system for the GCE since September 2017, the GCE scores obtained in the 2018/19 academic year and thereafter cannot be compared with those obtained in the 2017/18 academic year or before.

“-” denotes that the students concerned are not GCE qualification holders. “*” denotes that the number of students holding GCE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes that the students concerned are not IB qualification holders. “*” denotes that the number of students holding IB qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Scores listed in the tables are the average scores of the score differences above the Key University Cut-off Scores (if any) given that different provinces/municipalities in the Mainland have different JEE total scores. As the modes of admission may vary from year to year in different Mainland provinces/municipalities for the JEE, figures of different years are not comparable directly. “-” denotes that the students concerned are not JEE qualification holders. “*” denotes that the number of students holding JEE qualification is smaller than 3, and the average scores are not disclosed in the tables above for the purpose of protecting the privacy of the students concerned.
6. The programme names, including the format thereof, are provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission mechanism and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on their majors during the study period.
8. Place of origin of non-local students is determined having regard to their nationality / place of residence.

CONTROLLING OFFICER'S REPLY

EDB253

(Question Serial No. 0169)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide, by institution and programme level, the following information in respect of the undergraduate programmes, sub-degree programmes, taught postgraduate (Master) programmes, taught postgraduate (Doctorate) programmes, research postgraduate (Master of Philosophy) (MPhil) programmes and research postgraduate (Doctor of Philosophy) (PhD) programmes offered by the University Grants Committee (UGC)-funded institutions and self-financing post-secondary institutions for the past 5 years (2015/16 to 2019/20):
 - a. the numbers of local, Mainland and other non-local students, as well as their respective percentages against the total; and
 - b. the numbers of part-time students and full-time students;
2. Please provide, by institution, the numbers of students who applied for and admitted to UGC-funded undergraduate programmes through the Joint University Programmes Admissions System (JUPAS) or non-JUPAS routes, their respective academic qualifications and percentages against the total for the past 5 years (2015/16 to 2019/20); and
3. Please provide, in the table below, the number of non-local students and their respective percentages against the total in each of the UGC-funded institutions and self-financing post-secondary institutions for the academic years from 2015/16 to 2019/20 (including both publicly-funded and self-financing programmes):

(Name of institution)					
Academic year	Place of origin	Undergraduate programmes	Taught postgraduate programmes	MPhil programmes	PhD programmes

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 12)

Reply:

1. & 3. The numbers of local and non-local students of UGC-funded programmes by university, place of origin and level of study for the 2018/19 and 2019/20 academic years are set out at **Annex A**. The numbers of students of UGC-funded programmes by university, level of study and mode of study for the same period are set out at **Annex B**, whereas the numbers of students of full-time locally-accredited self-financing sub-degree and undergraduate programmes by institution and place of origin for the corresponding period are at **Annexes C and D**.

The numbers of students of locally-accredited self-financing taught postgraduate (TPg) programmes and research postgraduate (RPg) programmes by institution and place of origin for the 2018/19 academic year are at **Annexes E and F**. The numbers of these students for the 2019/20 academic year are not yet available.

As for the relevant figures for the 2015/16 to 2017/18 academic years, please refer to our reply (Serial No. EDB234) to the relevant question (Serial No. 0073) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2019-20.

2. The number of candidates (including private candidates) sitting for the Hong Kong Diploma of Secondary Education Examination (DSE), approved student number targets of UGC-funded first-year-first-degree (FYFD) programmes, numbers and percentages of candidates having met the general entrance requirements but were not admitted to UGC-funded FYFD programmes through JUPAS, and numbers of local students admitted through the non-JUPAS route for the 2018/19 to 2019/20 academic years are set out at **Annex G**.

As for the relevant figures for the 2015/16 to 2017/18 academic years, please refer to our reply (Serial No. EDB234) to the relevant question (Serial No. 0073) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2019-20.

2018/19 and 2019/20 Academic Years

Number of Local and Non-local Students of UGC-funded Programmes by University, Place of Origin and Level of Study

Notes:

1. UGC-funded TPg programmes cover only MPhil programmes. No funding is provided for PhD programmes by the UGC.
2. Figures of UGC-funded RPg students refer to students funded by UGC within their normative study periods.
3. The place of origin of non-local students is determined having regard to their nationality or place of residence.
4. Figures may not add up to the corresponding totals due to rounding. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis.
5. “@” denotes less than 0.5%.
6. “-” denotes nil.

Admission of Local Students to UGC-funded FYFD Programmes through JUPAS and Non-JUPAS Routes for the 2018/19 to 2019/20 Academic Years

Year	Approved student number targets of UGC-funded FYFD places	Number of DSE candidates in the relevant year (1)	JUPAS				Non-JUPAS	
			Candidates meeting the general entrance requirements of undergraduate programmes (1)		Candidates meeting the general entrance requirements but not admitted to UGC-funded FYFD programmes through JUPAS ⁽³⁾		No. of applications for UGC-funded FYFD programmes from local students (4) (5)	No. of local students admitted (3)
			No.	% ⁽²⁾	No.	% ⁽²⁾		
2018/19	15 000	57 649 (6 274)	21 603 (252)	37.5% (4.0%)	9 386	16.3%	39 872	2 846
2019/20	15 000	54 642 (6 745)	20 280 (377)	37.1% (5.6%)	7 991	14.6%	40 287	2 797 ⁽⁶⁾

Notes:

- (1) Figures provided by the Hong Kong Examinations and Assessment Authority. Figures in brackets refer to private candidates. In addition to the general entrance requirements, individual universities may determine the attainment level required for 1 or 2 designated or non-designated elective subjects and stipulate further admission requirements. Figures indicate the number of candidates meeting the general entrance requirements only. The general entrance requirements of undergraduate programmes are set at: “3322” for the four core subjects, i.e. Level 3 for Chinese Language and English Language, and Level 2 for Mathematics and Liberal Studies.
- (2) As a percentage of the number of candidates sitting for the DSE in the relevant year. Figures in brackets refer to the percentage of private candidates sitting for the DSE in the relevant year.
- (3) Figures include students who did not participate in JUPAS on their own accord; those who were given FYFD places by the UGC-funded universities through JUPAS but subsequently declined the offer for various reasons (for instance they opted for locally-accredited self-financing undergraduate programmes or pursued further studies in overseas or Mainland universities); those who were not given a UGC-funded FYFD offer but received a UGC-funded sub-degree place via JUPAS instead, etc.
- (4) Local students applying via the non-JUPAS route include those applicants holding qualifications other than DSE, e.g. degree graduates pursuing a second degree, sub-degree graduates and students, secondary students holding non-local qualifications such as International Baccalaureate diploma and the General Certificate of Education Advanced Level, etc.
- (5) Figures provided by the eight UGC-funded universities. Each local student can only submit one application to each university to apply for several programmes (except for

EdUHK which requires applicants to submit multiple applications if they wish to apply for several programmes). However, since each applicant may submit applications to more than one university, the UGC is unable to provide the actual number of applicants applying for UGC-funded programme via non-JUPAS.

(6) Provisional figures.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0170)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide information in respect of the following for the past 5 years (2015/16 to 2019/20) and the projected data for 2020/21:
 - (a) the requirement and shortfall of student hostel places in University Grants Committee (UGC)-funded institutions and self-financing post-secondary institutions;
 - (b) the numbers of “undergraduate students whose daily travelling time to and from home and the university exceeds 4 hours” in UGC-funded institutions;
2. the “standard unit subsidy rate” and “enhanced unit subsidy rate” adopted by the Hostel Development Fund; and
3. the hostel projects being carried out by UGC-funded institutions and self-financing post-secondary institutions, the expenditures involved, works progress, dates of completion and the estimated number of student hostel places to be provided.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 13)

Reply:

- 1 (a) The requirements for publicly-funded hostel places of the UGC-funded universities and additional requirements for publicly-funded hostel places above the level of supply at the time, with a breakdowns by university, for the 2015/16 to 2018/19 academic years are at Annex A. The above data were prepared for reference by the UGC in considering whether support should be given to universities with regard to construction of new student hostels. Subsequently, the Government set up the Hostel Development Fund (HDF) in 2018 to provide one-off capital grants of \$10.337 billion in total for 6 UGC-funded universities with hostel shortfalls for provision of a total of 13 473 student hostel places based on the shortfall¹ projected at the time under the prevailing student hostel

policy, with a view to fully meeting the shortfall of hostel places. Considering that there has been no change in student hostel policy and no substantive variations in overall student intake since establishment of the HDF, the information in respect of universities' requirement and shortfall of student hostel places are not further updated.

Regarding self-financing post-secondary institutions, they may take into account their own circumstances and the need of students in providing hostels. They may also apply for the Land Grant Scheme and the Start-up Loan Scheme for constructing student hostels. The Education Bureau (EDB) does not maintain information on the demand and shortfall of hostel places of such self-financing post-secondary institutions.

(b) Based on the information provided by UGC-funded universities, the respective numbers of undergraduate students applying for hostel places and meeting the criterion of “daily travelling time to and from home and the university exceeding 4 hours” in each of the past 5 academic years (2015/16 to 2019/20) are at **Annex B**.

2. The “standard unit subsidy rate” and “enhanced unit subsidy rate” under HDF are \$673,000 and \$993,000 respectively.
3. The UGC-funded universities will carry out 15 student hostel projects under HDF. According to the Master Hostel Development Plans submitted to the Government by the universities in February 2018, all relevant projects are expected to be completed within 10 years upon establishment of the HDF (i.e. by 2028) to meet the projected shortfall of student hostel places. In 2019, a total of 4 student hostel projects subsidised by the HDF commenced gradually and they will provide a total of 3 500 hostel places upon completion. Details of the projects are at **Annex C**. At present, there is no hostel project being carried out by self-financing post-secondary institutions under the Land Grant Scheme and the Start-up Loan Scheme of the EDB.

¹ On the assumption of full use of the 20% non-local students quota for undergraduates and taught postgraduates.

(A) Requirements for publicly-funded hostel places by UGC-funded universities under prevailing hostel policy

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0177)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

In respect of the senior year undergraduate programmes offered by the University Grants Committee (UGC)-funded universities, please provide the following information by university:

1. the number of publicly-funded senior year undergraduate places and their distribution by discipline; and the number of self-financing senior year undergraduate places, their distribution by discipline and the tuition fees in the past 5 years (2015/16 to 2019/20 academic years);
2. the number of publicly-funded senior year undergraduate places offered by each university in the past 5 years (2015/16 to 2019/20 academic years); and for students admitted to top-up degree programmes, please list, by institution, the previous institutions from which these students completed their sub-degree programmes; and
3. given that the number of publicly-funded senior year undergraduate places has been progressively increased to 5 000 by the 2018/19 academic year, please list the number of places increased between 2015/16 and 2019/20 academic years and their distribution by university and discipline.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 23)

Reply:

Since the 2015/16 academic year, the number of senior year undergraduate intake places in the University Grants Committee (UGC)-funded universities increased progressively by a total of 1 000 places, to 5 000 intake places per annum in the 2018/19 academic year for meritorious sub-degree graduates to articulate to subsidised degree programmes. In the 2019/20 academic year, the senior year undergraduate intake places of the UGC-funded universities maintained at the same level.

The approved senior year undergraduate intake places allocated to each of the UGC-funded universities by programme from the 2018/19 to 2019/20 academic years are at **Annex A**. The estimated student intakes and the average annual tuition fees of full-time locally-accredited self-financing top-up degree programmes offered by each of the UGC-funded universities for the corresponding period are at **Annex B**, while the actual intakes of the UGC-funded senior year undergraduate programmes by the type of university in which students obtained their highest qualification before admission to senior year undergraduate programmes for the corresponding period are at **Annex C**.

The relevant figures for the 2015/16 to 2017/18 academic years were set out in our reply (EDB240) to the relevant question (Serial No. 2962) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2019-20.

(Question Serial No. 0178)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

The University Grants Committee (UGC) usually conducts academic planning with its funded institutions on a triennial basis.

Please provide details of the outcome of the competitive allocation mechanism in the previous 4 exercises, including:

- (a) the number of originally approved places in each UGC-funded university;
- (b) the number of places reserved by each university for redistribution, a list of their original programmes, and the percentage of these places against the total number of places offered by the university;
- (c) the resulting number of places after redistribution, and a list of programmes cancelled or newly offered;
- (d) the gains/losses in funding as a result of redistribution; and
- (e) the number of places offered by each university and the total number of places offered in Hong Kong.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 24)

Reply:

The University Grants Committee (UGC) usually conducts the recurrent grants assessment and planning with its 8 funded universities on a triennial basis. To ensure that precious publicly funded student places are put to their best use for the benefit of the community, we need to establish a mechanism for re-distribution of places from time to time in order to encourage universities to review periodically their institutional strategies, academic priorities and advance universities' international competitiveness in accordance with the roles of individual universities and the higher education sector as a whole. To this end, we

have adopted the Competitive Allocation Mechanism (CAM) since the 2009/10 to 2011/12 triennium to distribute a small number of first-year-first-degree (FYFD) places. During the process, FYFD places in disciplines under manpower planning (such as medicine, nursing and education) are not included in the mechanism. Under the CAM, the UGC conducts the assessment according to the criteria agreed with the universities, and centrally processes and re-distributes the places among universities. The universities take into account the overall student number targets as allocated by the UGC (including those FYFD places for distribution under the CAM and the remaining places), their respective strategies, as well as the needs of society when designing their academic portfolio. We are unable to differentiate the number of FYFD intake places allocated under the CAM to individual programmes by the universities from the overall student number target. We are also unable to estimate the impact of the CAM on the amount of funding received by individual universities.

Details of competitive allocation for the 2012/13 to 2014/15 triennium, 2016/17 to 2018/19 triennium and 2019/20 to 2021/22 triennium were set out respectively in our reply (EDB275) to the relevant question (Serial No. 3012) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2014-15, our reply (EDB735) to the relevant question (Serial No. 3621) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2017-18 and our reply (EDB236) to the relevant question (Serial No. 0076) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2019-20. Regarding the details of competitive allocation for the 2015/16 academic year, as this was a roll-over year extending the approved financial arrangements for the 2012/13 to 2014/15 triennium, the student number targets at the level for the previous year (i.e. 2014/15 academic year) were also broadly adopted for the 2015/16 academic year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0179)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the funding expenditure of the University Grants Committee (UGC) on research, please provide the following information for the past 5 years (2015-16 to 2019-20):

1. the amount of Government provisions for funded institutions to carry out research with a breakdown by institution and department; and the amount of research funding secured by the institutions through the competitive allocation mechanism implemented by the UGC/Research Grants Council;
2. the number of research projects which could not be fully completed eventually, the funds involved and the reasons for this;
3. the staff establishment, minimum salary point, mode of employment and wastage of teaching assistants, research assistants and senior research assistants of various funded institutions;
4. the annual investment income, financial expenditure, administrative expenses and balance of the Research Endowment Fund; and
5. the amount of research grants open to self-financing institutions for competition with a breakdown by institution and department; and the amount received by each institution.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 25)

Reply:

- (1) According to the information provided by the University Grants Committee (UGC)-funded universities, the amount of funding received from the Government utilised for research purposes in the past 4 academic years (2015/16 to 2018/19) is listed at **Annex A**. Information in respect of the 2019/20 academic year is not yet available and we do not keep the information on the funding amounts secured by different academic departments of the universities.

The amount of funding secured by universities through the UGC/Research Grants Council (RGC) competitive research funding schemes in the past 5 academic years (2015/16 to 2019/20), with a breakdown by university and broad subject category, is listed at **Annex B**.

- (2) The total number of research projects in UGC-funded universities monitored by the UGC and RGC, as well as the number of research projects terminated and reasons for termination in the past 5 academic years (2015/16 to 2019/20) are tabulated at **Annex C**.
- (3) The staff establishment, minimum salary point, mode of employment and turnover rate of research assistants and senior research assistants in UGC-funded universities, with a breakdown by university in the past 5 academic years (2015/16 to 2019/20), are set out at **Annex D**. We do not have information relating to teaching assistants of UGC-funded universities.
- (4) The annual interest income, research grants, administrative expenses and balance of the Research Endowment Fund (REF) for 2015/16 to 2018/19 academic years are tabulated at **Annex E**. Information for the 2019/20 academic year is not yet available.
- (5) The amount of funding secured through the competitive research funding schemes for the local self-financing degree sector from the 2015/16 to 2019/20 academic years, with a breakdown by local self-financing degree-awarding institution and broad subject category, is listed at **Annex F**.

CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

Note 1 In calculating the turnover rate, universities have excluded staff leaving upon completion of contract.

Note 2 Short-term contracts refer to contracts which are of 1 year or less.

Note 3 CUHK and HKUST have not employed any Senior Research Assistant in the past 5 academic years. Hence, the turnover rate and minimum monthly pay in respect of Senior Research Assistant are not applicable to these 2 universities.

**Annual Interest Income, Research Grants, Administrative Expenses and Balance
of the Research Endowment Fund
(2015/16 to 2018/19)** ^(Note 1)

	For the year ended ^(Note 2)			
	31 August 2016 (\$ million)	31 August 2017 (\$ million)	31 August 2018 (\$ million)	31 August 2019 (\$ million)
Interest income	1,038	772	1,063	995
Research grants ^(Note 3)	588	1,011	1,425	948
Administrative expenses	0	0	0	0
Fund balance	26,811	26,572	29,210 ^(Note 4)	49,257 ^(Note 5)

Note 1 Information for 2019/20 is not yet available.

Note 2 The accounting period for the Research Endowment Fund (REF) runs from 1 September to 31 August of the following year.

Note 3 The RGC has adopted the new disbursement arrangement since 2015/16. Under the arrangement, the second instalment of research funding will be disbursed upon submission of the annual/mid-term progress report by researchers. Hence, the time for disbursed research grants to be recognised is different every year. As a matter of fact, the amount of research grants approved by the RGC annually was relatively stable over the past few years.

Note 4 The Government injected \$3 billion into the REF in June 2018.

Note 5 In June 2019, the Finance Committee of the Legislative Council approved the injection of \$20 billion into the REF. The injection has been regarded as receivables and included in the year-end balance for 2018/19.

**Funding Secured by Local Self-financing Degree-awarding Institutions
through the UGC/GC Competitive Research Funding Schemes
(2015/16 to 2019/20)**

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0183)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the admission of students with special educational needs (SEN), students with disabilities and non-Chinese speaking (NCS) students by the University Grants Committee (UGC)-funded and self-financing institutions, please provide the following information for the past 5 years (2015/16 to 2019/20):

1. the number of intakes of SEN students and students with disabilities in these institutions, as well as the expenditure involved in supporting these students, with a breakdown by institution and type of student;
2. the number of student hostels in these institutions provided with barrier-free facilities (in terms of hostel places) and the expenditure involved in constructing barrier-free facilities in each institution over the past 5 years;
3. the number of local NCS students admitted to these institutions, with a breakdown by institution and Chinese language qualification held by these students.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 30)

Reply:

1. The numbers of students with special educational needs (SEN) pursuing University Grants Committee (UGC)-funded full-time sub-degree and undergraduate programmes, by university and type of disability from 2015/16 to 2019/20 academic years, are at **Annex A**.

Under existing mechanism, the UGC-funded universities are provided with a block grant annually for internal resource allocation which may be flexibly deployed to support SEN students and students with disabilities. We do not have figures on the actual expenditure incurred by the universities in this regard. On the other hand, to facilitate SEN students to pursue UGC-funded programmes and adapt to campus life, as well as to promote an inclusive culture, UGC provided a one-off special grant of

\$20 million in total for the 8 UGC-funded universities in 2015 so as to enhance their supports for SEN students, such as purchasing necessary aids and equipment, strengthening training for academic and administrative staff, supporting student bodies to organise activities to encourage integration of SEN students into campus life. UGC later launched phase two of the funding scheme in July 2018, under which the UGC-funded universities are provided with an additional grant of \$20 million in total to further enhance the support in this area. As of June 2019, the actual expenditure incurred by the universities under the 2 phases of the funding scheme amounted to \$25 million.

2. Some 33 000 student hostel places in UGC-funded universities are provided with barrier-free facilities, such as ramps, special toilets, braille lift buttons and guided paths. Most of the facilities were installed during construction of the student hostel buildings, and we do not have breakdown on the expenditure concerned.
3. The numbers of local non-Chinese speaking (NCS) students (i.e. local students whose spoken language at home is not Chinese) admitted to UGC-funded full-time sub-degree and undergraduate programmes from 2015/16 to 2019/20 academic years are at **Annex B**. UGC does not collect information on the Chinese language qualification of these students.

**Numbers of SEN Students Pursuing UGC-funded
Full-time Sub-degree and Undergraduate Programmes
by University and Type of Disability from 2015/16 to 2019/20 Academic Years**

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3285)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

- (1) The number and percentage of part-time academic staff among the academic staff employed by the 8 universities in the past 5 years (2015/16 to 2019/20), as well as a breakdown of such number and percentage of part-time staff by duty (i.e. (i) research and teaching, (ii) research only and (iii) teaching only), with the aforesaid figures set out in table form by name of institution and rank of staff;
- (2) a breakdown by employment mode (i.e. temporary contract, fixed-term contract of 3 years or less (further categorised into less than half a year, half a year, more than half a year to 1 year, more than 1 year to 2 years, and more than 2 years to 3 years), long-term employment contract and employment on tenure) of the number and percentage of academic staff employed by the 8 universities in the past 5 years (2015/16 to 2019/20), as well as a breakdown by duty (i.e. (i) research and teaching, (ii) research only and (iii) teaching only) of the number and percentage of the staff employed under each employment mode, with the aforesaid figures set out in table form by name of institution and rank of staff;
- (3) a tabulated breakdown by name of institution and rank of staff of the respective numbers of academic staff of the 8 universities on (i) fixed-term contract and (ii) long-term employment contract who were promoted to tenure in the past 5 years (2015/16 to 2019/20);
- (4) a tabulated breakdown by name of institution and rank of staff of the number of academic staff of the 8 universities who departed in the past 5 years (2015/16 to 2019/20);
- (5) a tabulated breakdown by name of institution and rank of staff of the median and average monthly salary of academic staff of the 8 universities in the past 5 years (2015/16 to 2019/20);

- (6) among the academic staff employed by the 8 universities in the past 5 years (2015/16 to 2019/20), the median and average monthly salary and fringe benefits of staff who served in their respective positions on various ranks (i.e. Chair Professor, Professor, Associate Professor, Assistant Professor, Principal Lecturer/Instructor, Senior Lecturer/Instructor, Lecturer/Instructor I and Lecturer/Instructor II) for 5 years or more, with a tabulated breakdown of figures and information by name of institution and rank of staff;
- (7) among the academic staff employed by the 8 universities in the past 5 years (2015/16 to 2019/20), the number and percentage of staff provided with quarters or housing allowances by their respective institutions, with a tabulated breakdown by name of institution and rank of staff.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 55)

Reply:

The University Grants Committee (UGC)-funded universities, which are autonomous bodies established pursuant to their respective ordinances, enjoy autonomy in human resource management. The universities provides the UGC with their corresponding staff numbers in the academic departments according to the classification of staff ranks and employment modes adopted in the UGC's Common Data Collection Format. However, information on staff promotion and a breakdown by detailed terms of employment (e.g. duration of contract, salaries and allowances) are not included in their returns. As provided by the universities, the numbers and percentages of academic staff (including academic support staff) in the academic departments of UGC-funded universities with salaries wholly funded by general funds with a breakdown by university, rank and employment mode from the 2015/16 to 2019/20 academic years are at **Annex A**. The numbers of academic staff (excluding academic support staff) who departed from the academic departments of UGC-funded universities with salaries wholly funded by general funds with a breakdown by university and rank from the 2015/16 to 2019/20 academic years are at **Annex B**.

**Numbers and Percentages of Academic Staff (including Academic Supporting Staff) in Academic Departments of UGC-funded Universities
with Salaries Wholly Funded by General Funds by University, Rank and Mode of Employment
from the 2015/16 to 2019/20 Academic Years ⁽¹⁾**

Notes:

1. The percentages refer to the share of part-time academic staff or those on short-term contract among the academic staff in the academic departments of the universities concerned with salaries wholly funded by general funds.
2. Examples of senior academic staff include Chair Professor, Professor and Assistant Professor. Examples of junior academic staff include Lecturer and Assistant Lecturer. Examples of academic supporting staff include Instructor and Teaching Assistant.

3. Full-time refers to full-time academic staff employed on contract terms for 1 year or above. Part-time employment refers to part-time academic staff employed on contract terms for 1 year or above. Short-term contact refers to academic staff employed on short-term contact for less than 1 year.
4. “- ” denotes nil.

Numbers of Academic Staff (excluding Academic Supporting Staff) Who Departed from Academic Departments of UGC-funded Universities with Salaries Wholly Funded by General Funds by University and Rank from the 2015/16 to 2018/19 Academic Years

(Headcount)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 2770)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the number of students who pursued an undergraduate and sub-degree programme funded by the University Grants Committee (UGC), will the Government inform this Committee of the following:

- (a) the number of students who pursued an undergraduate and sub-degree programme funded by the UGC, the average unit cost of UGC-funded undergraduate and sub-degree places and the total amount of subventions involved from the 2014/15 to 2019/20 academic years, with a breakdown by year of study, area of study and faculty in table form;
- (b) the number of non-local students who pursued a UGC-funded undergraduate and sub-degree programme from the 2014/15 to 2019/20 academic years, with a breakdown by institution, level of study, place of origin and mode of study; and
- (c) the number of non-local students who pursued a non-UGC funded undergraduate programme, with a breakdown by institution, level of study, place of origin and mode of study?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 43)

Reply:

- (a) The student enrolments of UGC-funded sub-degree and undergraduate programmes by university, broad academic programme category and level of study from the 2015/16 to 2019/20 academic years are at Annex A. The UGC derives the average student unit costs of UGC-funded programmes by level of study, academic programme category and teaching/research cost based on the actual costs reported by universities. Such information is available on the UGC website for public reference.

Under the existing mechanism, the recurrent grants to the 8 UGC-funded universities are in the form of a block grant which provides for a one-line allocation of resources

for a funding period (usually a triennium). Universities enjoy autonomy in the allocation of the block grant to programmes of various disciplines at different levels as they see fit. In addition to UGC funding, universities have other sources of income such as donations and other research funding. In this regard, the actual costs reported by universities are not solely covered by UGC funding, while the UGC is also unable to estimate the actual subvention or expenditure on specific programmes by level of study and academic programme category.

The average student unit costs of UGC-funded undergraduate places and the total subvention from the 2015/16 to 2019/20 academic years are set out below:

	2015/16 Actual	2016/17 Actual	2017/18 Actual	2018/19 Actual	2019/20 Revised estimate
Average student unit cost for undergraduate programmes (\$'000)	237	242	251	265 ^{Note}	Not available
Average student unit cost for sub-degree programmes (\$'000)	172	176	190	199 ^{Note}	Not available
Total subvention for UGC-funded universities (\$ billion)	17.9	18.6	19.1	19.9	21.0

Note: Provisional figure

- (b) At present, UGC-funded universities can admit non-local students to UGC-funded undergraduate programmes through over-enrolment outside the approved student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes by level of study. UGC will not provide extra resources for this purpose. To ensure no cross-subsidisation of non-local students by public funds, these non-local students are required to pay tuition fees at a level that is at least sufficient to cover all additional direct costs.

The respective numbers of non-local students on UGC-funded sub-degree and undergraduate programmes by university, level of study, mode of study and place of origin from the 2015/16 to 2019/20 academic years are at **Annex B**.

- (c) The respective numbers of non-local students on non-UGC-funded undergraduate programmes by institution, mode of study and place of origin from the 2015/16 to 2019/20 academic years are at **Annex C**.

**Student enrolments of UGC-funded sub-degree programmes
by university and broad academic programme category
from the 2015/16 to 2019/20 academic years**

(Full-time equivalent)

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1169)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

During the anti-extradition bill protests, intense clashes between protesters and police officers broke out at several tertiary institutions, resulting in varying degrees of damage to buildings and facilities on the campuses. Please provide a breakdown by institution of the details of damage done to the buildings and facilities, the estimated cost of restoration works, and the party/parties liable for the relevant payments.

Asked by: Hon LEE Wai-king, Starry (LegCo internal reference no.: 41)

Reply:

According to information provided by the universities, except for the Education University of Hong Kong which remained largely unaffected, all other university campuses have suffered damages of varying degrees during the social events. These include the posting of bills, painting of graffiti and damaging of certain fire safety/closed-circuit television systems at various locations within the campuses. The glasses and furniture of some buildings were also damaged or lost. Certain facilities in a few campuses suffered more serious damages. For example, some of the lifts and escalators could no longer function properly, whereas some floors and external walls were damaged by flooding/fire. The universities concerned had promptly assessed the damages done to the campuses and commenced the necessary restoration works so as to ensure that the campuses would be safe and suitable for conducting teaching and research activities. Quite a few restoration works have been completed in time before commencement of the second semester of the 2019/20 academic year. Details of the major damages suffered by the campuses and the restoration progress are at the Annex.

Under the prevailing arrangements, universities will carry out their routine repair and maintenance works on campus facilities as necessary and meet the relevant expenditure on restoration works with their existing resources. As such, the Government does not maintain information on the estimated expenditure involved.

**Major Damages to the Campuses and Restoration Progress of the
UGC-funded Universities**
(As at 31 January 2020)

University	Major Damage ^{Note}	Restoration Progress
City University of Hong Kong	<ul style="list-style-type: none"> • Many places on campus were spray-painted, and there were slabs missing from the pavements. • Some building facilities were damaged, including closed-circuit television (CCTV) systems, walls, signboards, escalators, fire and building services systems, access control systems, teaching apparatus and communication installations. • Some of the landscape amenities were damaged. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The restoration works of some damaged major installations (such as glass panels on external walls and escalators) is expected to be completed in March. • The replanting works for the landscape amenities is expected to be completed in June.
Hong Kong Baptist University	<ul style="list-style-type: none"> • Many places on campus were spray-painted, and there were slabs missing from the pavements. • Some building facilities were damaged, including laboratory facilities, cooking equipment in canteens, recreational amenities, CCTV systems and access control systems. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The restoration works of the remaining damaged CCTV units will be completed in mid-February.
Lingnan University	<ul style="list-style-type: none"> • Many places on campus were spray-painted. • The CCTV systems and access control systems in some buildings were damaged. • The in-door facilities, payment system, furniture and cooking equipment of the canteen were more extensively damaged. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The canteen will be re-open for limited services in February, and the remaining restoration works is expected to be completed in June.

University	Major Damage ^{Note}	Restoration Progress
The Chinese University of Hong Kong	<ul style="list-style-type: none"> • Many places on campus were spray-painted, and there were slabs missing from the pavements. • The driveway surfaces in many places were damaged by fire. Some of the road and safety facilities were also damaged. • Some building facilities were damaged, including CCTV systems, power supply and lighting systems, fire and building services systems, as well as access control systems. • Sir Philip Haddon-Cave Sports Field and the University's Vehicle Maintenance Centre were more seriously damaged. • Some of the landscape amenities were damaged. 	<ul style="list-style-type: none"> • Some of the restoration works has been completed. • The restoration works of some of the road and safety facilities is expected to be completed in the second quarter of this year. • The restoration works of Sir Philip Haddon-Cave Sports Field and the University's Vehicle Maintenance Centre is expected to be carried out during the summer holiday. • The replanting works for the landscape amenities is expected to be carried out during the summer holiday.
The Education University of Hong Kong	<ul style="list-style-type: none"> • There was only minor damage to campus facilities. 	(Not applicable)

University	Major Damage ^{Note}	Restoration Progress
The Hong Kong Polytechnic University	<ul style="list-style-type: none"> • Many places on campus were spray-painted, and there were slabs missing from the pavements / driveways. The skylights, walls and floors of some of the campus footbridges as well as some signage and directional signs were damaged. • Some building facilities were damaged, including teaching apparatus, office equipment, laboratory facilities, cooking equipment, CCTV systems, lifts and escalators. • Some buildings and footbridges were more seriously damaged by fire or flooding. • Some of the landscape amenities were damaged or withered. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The restoration works of the remaining damaged facilities (such as some of the CCTV units, building services systems and library facilities) is expected to be completed in the second and third quarters of this year.
The Hong Kong University of Science and Technology	<ul style="list-style-type: none"> • Many places on campus were spray-painted. • The glass doors of some buildings were removed or damaged. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed.
The University of Hong Kong	<ul style="list-style-type: none"> • Many places on campus were spray-painted. • The CCTV systems in some buildings were damaged. • Four escalators in the Centennial Campus and Wong Hak King Building were damaged. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The restoration works of the escalators is expected to be completed in April.

Note: This annex was prepared based on the information provided by the universities. In addition to the items set out in the table, there was also minor damage to the locks, glass, doors, windows, furniture and computers in the buildings on university campuses (including laboratories and dangerous goods stores).

CONTROLLING OFFICER'S REPLY**EDB262****(Question Serial No. 1209)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not specifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Prof James TANG)Director of Bureau: Secretary for EducationQuestion:

The Matching Grant Scheme (MGS) aims to help the self-financing post-secondary education sector diversify its funding sources, with a view to enhancing the quality of self-financing post-secondary education. The MGS covers all publicly-funded post-secondary institutions, namely the eight University Grants Committee-funded universities, the Vocational Training Council and the Hong Kong Academy for Performing Arts. Since the launch of the eighth round of MGS on 1 July last year, what is the amount of private donation received by the post-secondary institutions? How does it compare to that received over the same period of the seventh round of MGS?

Asked by: Hon LEE Wai-king, Starry (LegCo internal reference no.: 40)Reply:

The eighth round of Matching Grant Scheme (MGS) was launched for a period of 3 years from July 2019 to June 2022 with an allocation of up to \$2.5 billion, so as to help publicly-funded post-secondary institutions tap more funding sources, improve the quality of education and foster a philanthropic culture. It covers all publicly-funded post-secondary institutions, namely the 8 University Grants Committee-funded universities, the Vocational Training Council (VTC) and the Hong Kong Academy for Performing Arts. As at January 2020, the amount of private donation received by the participating institutions in the eighth round of MGS is tabulated below:

Institution	Amount of donation secured (\$ million)
City University of Hong Kong	374
Hong Kong Baptist University	530
Lingnan University	93
The Chinese University of Hong Kong	1,194
The Education University of Hong Kong	106

Institution	Amount of donation secured (\$ million)
The Hong Kong Polytechnic University	267
The Hong Kong University of Science and Technology	1,147
The University of Hong Kong	777
The Hong Kong Academy for Performing Arts	87
Vocational Training Council	35
Total*	4,611

**Figures may not add up to the total due to rounding.*

The seventh round of MGS was launched for a period of 2 years from August 2017 to July 2019 for application by qualified self-financing local degree-awarding institutions (i.e. The Open University of Hong Kong, the Technological and Higher Education Institute of Hong Kong under the VTC and all approved post-secondary colleges registered under the Post Secondary Colleges Ordinance (Cap. 320)). It has provided a total of nearly \$500 million of matching grants for 12 qualified institutions.

As the participating institutions and application periods of the seventh and eighth rounds of MGS are different, it may not be appropriate to make comparison. The amount of private donation received by the participating institutions in the seventh round of MGS is tabulated below for reference:

Institution	Amount of donation secured (\$ million)
Caritas Institute of Higher Education	272
Centennial College	1
Chu Hai College of Higher Education	197
Gratia Christian College	23
HKCT Institute of Higher Education	16
Hong Kong Nang Yan College of Higher Education	7
Hong Kong Shue Yan University	33
The Hang Seng University of Hong Kong	237
The Open University of Hong Kong	173
Technological and Higher Education Institute of Hong Kong under the Vocational Training Council	11
Tung Wah College	7
Yew Chung College of Early Childhood Education	25
Total	1,002

CONTROLLING OFFICER'S REPLY**EDB263****(Question Serial No. 0631)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not specifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Prof James TANG)Director of Bureau: Secretary for EducationQuestion:

The number of non-local students pursuing publicly-funded programmes has aroused public concern in the past few years. Please advise this Committee of the following:

- a. The number of non-local students from the following countries/regions pursuing publicly-funded programmes between 2015 and 2019;

Region/year				
Mainland China				
Taiwan				
Japan and Korea				
Russia				
Middle East				
Eastern Europe				
Western Europe				
Africa				
Oceania				
Southeast Asia				
South America				
North America				
Others				
Amount of subsidy involved				

- b. Of the figures set out in the above table, the number of non-local students from the following countries/regions pursuing publicly-funded undergraduate programmes;

Region/year				
Mainland China				
Taiwan				
Japan and Korea				
Russia				
Middle East				
Eastern Europe				
Western Europe				
Africa				
Oceania				
Southeast Asia				
South America				
North America				
Others				
Amount of subsidy involved				

Asked by: Hon MO Claudia (LegCo internal reference no.: 12)

Reply:

a and b

Funding provided by the University Grants Committee (UGC) to its funded universities is made in the form of a block grant on the basis of the approved student places allocated to each university. At present, UGC-funded universities can admit non-local students to their publicly-funded sub-degree, undergraduate and taught postgraduate programmes through over-enrolment outside the approved student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes by study level. No extra resources will be provided by the UGC for over-enrolment. These non-local students are required to pay tuition fees at a level that is at least sufficient to recover all additional direct costs. In other words, no additional public resources are involved in over- enrolment of non-local students.

The numbers of non-local students of UGC-funded programmes by place of origin from the 2015/16 to 2019/20 academic years are set out at Annex A. The numbers of non-local students of UGC-funded undergraduate programmes by place of origin for the corresponding period are set out at Annex B.

**Numbers of Non-local Students of UGC-funded Programmes
by Place of Origin from the 2015/16 to 2019/20 Academic Years**

(Headcount)

Place of Origin	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20 [#]
Mainland China	11 877	12 032	12 099	12 322	12 912

CONTROLLING OFFICER'S REPLY**EDB264****(Question Serial No. 2949)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not specifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Prof James TANG)Director of Bureau: Secretary for EducationQuestion:

Regarding the implementation of STEM education in Hong Kong, would the HKSAR Government please set out in table form the information of STEM-related degree programmes funded by the University Grants Committee in the past 2 years:

2018/19			
Curriculum (e.g. chemistry, engineering)	Undergraduate programme	Taught postgraduate programme	Research postgraduate programme

2019/20			
Curriculum (e.g. chemistry, engineering)	Undergraduate programme	Taught postgraduate programme	Research postgraduate programme

Asked by: Hon QUAT Elizabeth (LegCo internal reference no.: 15)Reply:

The approved numbers of intake places of the University Grants Committee (UGC)-funded programmes related to Science, Technology, Engineering and Mathematics (“STEM”) in the 2018/19 and 2019/20 academic years, with a breakdown by level of study and academic programme category, are stated as follows:

**Approved Numbers of Intake Places of the UGC-funded
STEM-related Programmes by Level of Study and Academic Programme Category
in the 2018/19 and 2019/20 Academic Years**

(Equivalent to the numbers of full-time students)

Academic programme category	Sub-degree programme	Undergraduate programme		Taught postgraduate programme	Research postgraduate programme	Total
		Approved no. of intake places for first year students	Approved no. of intake places for senior year students			
2018/19 academic year						
Biological Sciences	0	578	110	2	121	811
Physical Sciences	99	892	257	5	190	1 442
Mathematical Sciences	-	576	74	15	79	744
Computer Science and Information Technology	44	666	203	3	112	1 029
Engineering and Technology	623	2 397	815	-	464	4 298
Architecture and Town Planning	279	294	124	147	36	880
Total	1 045	5 403	1 583	172	1 001	9 204
2019/20 academic year						
Biological Sciences	0	594	119	3	95	810
Physical Sciences	99	843	258	8	233	1 441
Mathematical Sciences	-	586	109	13	80	787
Computer Science and Information Technology	2	673	190	7	92	965
Engineering and Technology	651	2 504	897	-	438	4 491
Architecture and Town Planning	279	268	121	151	29	847
Total	1 031	5 467	1 694	182	967	9 342

Note:

1. Since some UGC-funded programmes are related to more than one academic programme category, their approved numbers of intake places are counted across the academic programme categories concerned on a pro rata basis. Thus, the approved numbers of intake places of some academic programme categories are decimal figures. In the above table, the decimal figures are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals and “0” represents “less than 0.5”.
2. “-“ denotes “nil”.

CONTROLLING OFFICER'S REPLY

EDB265

(Question Serial No. 0027)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

It is mentioned that the Tuition Waiver Scheme for local students enrolled in UGC-funded research postgraduate programmes has been implemented since the 2018/19 academic year and around 2 000 local students have benefited from the Scheme. In this regard, please advise this Committee of the following:

1. broken down by disciplines, the number of local and non-local students enrolled in research programmes in the past 5 years;
2. broken down by disciplines, the number of local students receiving tuition waiver since the 2018/19 academic year;
3. the expected number of local students to be benefited from the Scheme in the next academic year;
4. whether the effectiveness of the Scheme in attracting more local students to pursue further study has been evaluated. If yes, of the details of the review; if no, of the reasons; and
5. whether the Government will consider enhancing the Targeted Taught Postgraduate Programmes Fellowships Scheme, specifically expanding the list of eligible taught postgraduate programmes, so as to encourage more local students to study in different disciplines?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 12)

Reply:

1. The breakdown of the number of University Grants Committee (UGC)-funded research postgraduate (RPg) students by broad academic programme category (APC) and place of origin from the 2015/16 to 2019/20 academic years is provided at **Annex A**.

2 to 4.

The Tuition Waiver Scheme for Local Research Postgraduate Students has been implemented since 1 July 2018 to provide non-means-tested tuition waiver for local students enrolled in UGC-funded RPg programmes. There is no cap on the number of waiver recipients. The breakdown of the number of local students benefited by the Scheme by APC since the launch of the Scheme is provided at **Annex B**.

There is no cap on the number of students benefited by the Scheme. The number of local students enrolled in RPg programmes is affected by a number of factors, including overseas articulation opportunities, personal career pursuit, economic cycle, etc. Therefore, we cannot estimate the number of students to be benefited by the Scheme in the next academic year. In addition, the UGC-funded universities admit students for RPg programmes on a merit basis, taking into account the students' academic results and research capability. The place of origin of the students is not a consideration. Since the launch of the Scheme on 1 July 2018, universities and students benefited by the Scheme have given positive response to the Scheme, considering that it can encourage more local students to enroll in UGC-funded RPg programmes. The UGC will review the effectiveness of the Scheme in due course.

5. Subject to funding approval by the Legislative Council upon the passage of the Appropriation Bill 2020, the Targeted Taught Postgraduate Programmes Fellowships Scheme (the Fellowships Scheme) would be implemented on a pilot basis for 5 cohorts from the 2020/21 academic year, with a view to providing fellowships to meritorious local students to pursue targeted taught postgraduate (TPg) programmes that meet Hong Kong's development needs. The main objectives of the Fellowships Scheme are to attract more meritorious local students to pursue further studies in priority areas conducive to the development of Hong Kong, and to encourage universities to establish more innovative and multi-disciplinary programmes that are beneficial to the society. As announced in February this year, the first cohort (to be admitted in the 2020/21 academic year) of the Fellowships Scheme covers a total of 43 TPg programmes, providing a total of 500 fellowship places.

Starting from the second cohort (to be admitted in the 2021/22 academic year), the number of fellowship places will increase to a maximum of 1 000 per cohort. This should benefit more meritorious local students who wish to pursue further studies in the different TPg programmes. The UGC will consider the list of eligible TPg programmes for the second cohort, and invite the universities to offer suggestions on the implementation arrangements of the Fellowships Scheme in the process.

Note 1 Figures of UGC-funded RPg students refer to students funded by UGC within their normal study periods. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis.

Note 2 Since some UGC-funded programmes are mapped to more than one APC, students of these programmes are counted across the APCs concerned on a pro-rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.

Note 3 The place of origin of non-local students is determined having regard to their nationality or place of residence.

**Number of benefited local students by academic programme category
since the launch of the Tuition Waiver Scheme
for Local Research Postgraduate Students**

Academic programme category	Number of benefited local students	
	2018/19^{Note}	2019/20 (as at November 2019)
Medicine, Dentistry and Health	405	334
Sciences	612	455

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3015)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

The financial provision in 2020-21 is estimated as \$22,791.6 million, which is 49% lower than revised provision in 2019-20. Please inform this Committee of the justification for the decrement, and whether services and supports that have been originally provided to universities will be affected in this regard.

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 77)

Reply:

The estimated financial provision for the University Grants Committee (UGC) for 2020-21 is about \$21.9 billion or 49% lower than the revised estimate for 2019-20. This is mainly due to the one-off injection of \$20 billion to the Research Endowment Fund by the Government and higher provision for the Eighth Matching Grant Scheme in 2019-20, partly offset by higher recurrent grants to the UGC-funded universities in 2020-21 following the annual adjustment.

The level of recurrent grants to the UGC-funded universities is determined in accordance with the established methodology to meet the funding requirements of the universities. Specifically, UGC allocates recurrent grants to the eight UGC-funded universities in the form of a block grant, usually on a triennial basis, to tie in with the academic planning cycle of the UGC-funded sector. In late 2018, the Chief Executive-in-Council approved the provision of recurrent funding totalling \$60,467.1 million for the 2019/20 to 2021/22 triennium. The actual amount of funding for each year is determined on that basis with adjustment having regard to changes in pay levels and other factors. The revised estimate of recurrent grants (including block grants and various earmarked grants for specified purposes) to the eight UGC-funded universities for the 2019/20 academic year is \$21,041.3 million, while the estimate for the 2020/21 academic year will increase to \$21,516.1 million.

Question:

Regarding the educational support for non-Chinese speaking students in UGC-funded education, please provide:

- (a) the number of students in each of the UGC-funded institutions in the academic years 2017/18, 2018/19 and 2019/20;
- (b) the number of ethnic minority students in each of the UGC-funded institutions in the academic years 2017/18, 2018/19 and 2019/20 disaggregated by ethnicity;
- (c) the number of non-Chinese speaking students in each of the UGC-funded institutions in the academic years 2017/18, 2018/19 and 2019/20 disaggregated by their home language; and
- (d) the number of ethnic minority local students admitted to UGC-funded post-secondary programmes using the DSE (Chinese) qualification through JUPAS in 2017/18, 2018/19 and 2019/20;
- (e) the number of non-Chinese speaking local students admitted to UGC-funded post-secondary programmes using the DSE (Chinese) qualification through JUPAS in 2017/18, 2018/19 and 2019/20;
- (f) the number of local students admitted to UGC-funded post-secondary programmes using the DSE (Chinese) qualification through JUPAS in 2017/18, 2018/19 and 2019/20;
- (g) the respective number of ethnic minority local students admitted to UGC-funded post-secondary programmes through JUPAS using each of the alternative Chinese qualifications, namely GCE (A-Level), GCE (AS Level), GCSE and IGCSE in 2017/18, 2018/19 and 2019/20;

- (h) the respective number of non-Chinese speaking local students admitted to UGC-funded post-secondary programmes through JUPAS using each of the alternative Chinese qualifications, namely GCE (A-Level), GCE (AS Level), GCSE and IGCSE in 2017/18, 2018/19 and 2019/20;
- (i) the total number of students admitted to UGC-funded post-secondary programmes through JUPAS in 2017/18, 2018/19 and 2019/20;
- (j) the number of ethnic minority local students and their respective grades (e.g. S3, S4, S5 or S6) when they sat for DSE (Chinese), Applied Learning (Chinese), GCE (A-Level), GCE (AS Level), GCSE and IGCSE for the first time in 2017/18, 2018/19 and 2019/20;
- (k) the number of non-Chinese speaking local students and their respective grades (e.g. S3, S4, S5 or S6) when they sat for DSE (Chinese), Applied Learning (Chinese), GCE (A-Level), GCE (AS Level), GCSE and IGCSE for the first time in 2017/18, 2018/19 and 2019/20;
- (l) the number of local students sitting for DSE (Chinese) for the first time in 2017/18, 2018/19 and 2016/17; and
- (m) if any of the data in above is not available, the resources which will be granted to the UGC to start collecting this information and to monitor the effect of multiple requirements in Chinese language qualification on ethnic minority students' university education opportunities. If no additional resources will be granted, what are the reasons?

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 5)

Reply:

- (a) In the 2017/18, 2018/19 and 2019/20 academic years, the numbers of local students pursuing UGC-funded full-time sub-degree or undergraduate programmes were 75 815, 75 404 and 75 224 (provisional figure in the 2019/20 academic year) respectively, and the numbers of local student intakes were 21 368, 21 133 and 21 170 (provisional figure in the 2019/20 academic year) respectively.
- (b) and (c) In the 2017/18, 2018/19 and 2019/20 academic years, the number of local non-Chinese speaking (NCS) students (i.e. students whose spoken language at home is not Chinese) admitted to UGC-funded full-time sub-degree or undergraduate programmes were 311, 335 and 311 respectively. We do not have information about the number of ethnic minority students.
- (d) to (i) In the 2017/18, 2018/19 and 2019/20 academic years, 13 724, 13 184 and 13 240 (provisional figure in the 2019/20 academic year) local students were admitted to UGC-funded full-time post-secondary programmes through the Joint University Programmes Admission System (JUPAS), including 132, 126 and 117 (provisional figure in the 2019/20 academic year) NCS students.

There were 1 072, 1 206 and 1 117 NCS students attending Secondary 6 in public sector and Direct Subsidy Scheme schools offering the local curriculum and sitting for the Hong Kong Diploma of Secondary Education Examination (HKDSE) in 2017, 2018 and 2019 respectively. Among them, 106, 103 and 110 sat for the HKDSE (Chinese Language), with 28, 14 and 20 attaining Level 3 or above and meeting the general entrance requirement of undergraduate programmes in respect of the Chinese Language subject. Among the above 1 072, 1 206 and 1 117 NCS students sitting for the HKDSE, 350, 385 and 331 met the general entrance requirements of undergraduate programmes (most of them using alternative Chinese Language qualifications, including the General Certificate of Secondary Education Examination (GCSE), International General Certificate of Secondary Education (IGCSE), General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level). Information about the number of NCS students admitted to UGC-funded post-secondary programmes through the JUPAS with Chinese Language qualifications obtained in the HKDSE or other examinations is not available.

In planning of educational support for NCS students, we take into account the language spoken by at home instead of the ethnicity of the students in deciding whether support is required. As such, we do not have information about the number of ethnic minority students.

- (j) to (l) According to information provided by the Hong Kong Examinations and Assessment Authority, the respective numbers of students taking Chinese Language in the HKDSE for the first time in 2017, 2018 and 2019 are as follows:

Year	School candidates	Private candidates
2017	50 033	616
2018	49 733	663
2019	46 320	784

There were 106, 103 and 109 NCS students attending Secondary 6 in public sector and Direct Subsidy Scheme schools offering the local curriculum and sitting for the HKDSE (Chinese Language) in 2017, 2018 and 2019 respectively. We do not have information about the number of ethnic minority students.

Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) was first offered in the HKDSE in 2017. ApL(C) is designed for NCS students as an alternative qualification in Chinese Language with “Attained” as the minimum grade required, and only NCS students may take ApL(C). The numbers of candidates taking ApL(C) are as follows:

Year	Number of candidates
2018	142
2019	155
2020	184

We do not have information on the number of NCS students sitting for GCSE (Chinese), IGCSE (Chinese) and the GCE AS-Level (Chinese) and A-Level (Chinese) for the first time. Nevertheless, according to prevailing policy, eligible Secondary 4 to Secondary 6 school candidates sitting for the above four examinations are eligible for subsidy by the Education Bureau (EDB). The numbers of NCS students subsidised to sit for the aforementioned examinations from the 2017/18 to 2019/20 academic years are tabulated at the **Annex**. Since there may be students who have not applied for subsidy from the EDB, the numbers at the **Annex** do not represent the number of NCS students sitting for the examinations for the first time. We do not have information about the number of ethnic minority students.

- (m) Student admission is within institutional autonomy of the universities and the UGC does not oversee the qualifications of their intakes. Hence, information about the Chinese Language qualifications of the NCS students is not available.

Question:

Regarding the educational support for non-Chinese speaking students in receiving post-secondary education, please provide in table format:

- (a) the number of students taking the DSE examinations for the first time in 2017/18, 2018/19 and 2019/20, the number of them meeting the general entrance requirements of UGC-funded undergraduate programmes and the number of them receiving a JUPAS offer;
- (b) the number of students taking the DSE (Chinese) examination for the first time in 2017/18, 2018/19 and 2019/20, the number of them meeting the general entrance requirements of UGC-funded undergraduate programmes and the number of them receiving a JUPAS offer;
- (c) the number of ethnic minority students taking the DSE examinations for the first time in 2017/18, 2018/19 and 2019/20, the number of them taking the DSE (Chinese) examinations for the first time, the number of them meeting the general entrance requirements of UGC-funded undergraduate programmes and the number of them receiving a JUPAS offer;
- (d) the number of non-Chinese speaking students taking the DSE examinations for the first time in 2017/18, 2018/19 and 2019/20, the number of them taking the DSE (Chinese) examinations, the number of them meeting the general entrance requirements of UGC-funded undergraduate programmes and the number of them receiving a JUPAS offer; and
- (e) the number of students using alternative qualifications in Chinese language requirement for the admission of NCS applicants to the 9 JUPAS participating institutions; among them, how many have met the Specified Circumstance 1 (learnt Chinese language for less than 6 years while receiving primary and secondary education) and 2 (learnt Chinese language for 6 years or more in schools, but have been taught an adapted and simpler Chinese language curriculum), and number of

them taking DSE (Chinese) examinations at the same time, in 2017/18, 2018/19 and 2019/20.

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 6)

Reply:

- (a) According to the information provided by the Hong Kong Examinations and Assessment Authority (HKEAA), there were 53 167, 53 222 and 50 142 students taking the Hong Kong Diploma of Secondary Education Examination (HKDSE) for the first time in 2017, 2018 and 2019 respectively, of which 20 936, 21 402 and 19 995 met the general entrance requirements of undergraduate programmes. According to the information provided by the Joint University Programmes Admissions System (JUPAS) Office, there were 21 599, 24 241 and 23 389 JUPAS applicants who took the HKDSE for the first time in 2017, 2018 and 2019 and received a JUPAS offer respectively.
- (b) According to the information provided by the HKEAA, there were 51 078, 50 823 and 47 721 students taking HKDSE (Chinese Language) for the first time in 2017, 2018 and 2019 respectively, of which 20 936, 21 402 and 19 995 met the general entrance requirements of undergraduate programmes. According to the information provided by the JUPAS Office, there were 21 355, 23 952 and 23 128 JUPAS applicants who took the HKDSE (Chinese Language) for the first time in 2017, 2018 and 2019 and received a JUPAS offer respectively.
- (c) & (d) In 2017, 2018 and 2019, there were 1 072, 1 206 and 1 117 non-Chinese speaking (NCS) students (i.e. students whose spoken language at home is not Chinese) attending Secondary 6 in public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and taking the HKDSE (including 1 068, 1 205 and 1 115 students taking the HKDSE for the first time) respectively, of which 106, 103 and 110 students took the HKDSE (Chinese Language) (including 106, 103 and 109 students taking the HKDSE (Chinese Language) for the first time).

Among the above-mentioned 1 072, 1 206 and 1 117 NCS students who took the HKDSE, 350, 385 and 331 met the general entrance requirements of undergraduate programmes (with the majority of them using alternative Chinese Language qualifications) respectively. Of these, 277, 323 and 292 NCS students received a JUPAS offer.

Regarding the planning of educational support for NCS students, we consider if the language spoken by the student at home is Chinese in determining whether support is required. We do not have information about the breakdown of ethnic minority students.

- (e) The JUPAS participating universities accept alternative qualifications in Chinese Language (including General Certificate of Secondary Education (GCSE), International General Certificate of Secondary Education (IGCSE), General Certificate of Education (GCE) and HKDSE Category B: Applied Learning Chinese (for non-Chinese speaking students)) for NCS students who meet one of the following specified circumstances: (1) students who have learned Chinese

Language for less than 6 years while receiving primary and secondary education; or (2) students who have learned Chinese Language for 6 years or more in schools, but have been taught an adapted and simpler Chinese Language curriculum not normally applicable to the majority of students in our local schools.

According to the information provided by the JUPAS Office, there were 697, 841 and 759 NCS students who met the above-mentioned specified circumstances and applied for admission to the JUPAS participating universities with alternative qualifications in Chinese Language in the 2017/18, 2018/19 and 2019/20 academic years respectively. Of these, 18, 39 and 26 students have taken the HKDSE (Chinese Language). The JUPAS Office does not maintain the breakdown of NCS students by the specified circumstances.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1929)

Head: (160) Radio Television Hong Kong

Subhead (No. & title): (-) Not specified

Programme: (3) School Education Television Programme

Controlling Officer: Director of Broadcasting (LEUNG Ka Wing)

Director of Bureau: Secretary for Education

Question:

In the light of the recommendation to review Radio Television Hong Kong's (RTHK) production of school education television (ETV) programmes given in Report No. 71 of the Director of Audit on RTHK's provision of programmes, the annual financial provision to RTHK for the production of ETV programmes and Programme (3) will cease with effect from 2020-21. And the estimate for ETV programmes will reduce from \$28 million to \$0. Will the Government give an account of the following:

- (1) Regarding the review progress, what are the direction and specific timetable for the review?
- (2) In what forms will RTHK and the Education Bureau collaborate in the future for the production of ETV programmes?
- (3) To what projects will the resources be devoted?
- (4) Concerning the way forward of the 6 staff who were previously responsible for the production of ETV programmes, what posts were they transferred to? Will their salaries be affected by the transfer?

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 2)

Reply:

(1) to (3) In light of the recommendations made in the Director of Audit's Report No. 71, Radio Television Hong Kong (RTHK) and the Education Bureau (EDB) had separately reviewed the production of educational television (ETV) programmes by RTHK and implemented the follow-up actions by stages. RTHK reviewed the manpower deployment of ETV productions and streamlined production workflows. It also outsourced the production of a number of ETV programmes and work processes in 2019-20 to enhance cost-effectiveness.

On the other hand, the EDB reviewed the need, positioning and cost-effectiveness for the continued production of ETV and consulted the Ad Hoc Committee on the Development of School ETV Programmes under Curriculum Development Council (CDC), the CDC Committee on Learning Resources and Support Services and the CDC in 2019. Starting from 2020-21, ETV service will be repositioned. The EDB will redeploy resources previously dedicated to the production of ETV programmes and cease to provide annual funding for RTHK to produce a certain number of ETV programmes. Instead, the EDB will develop diversified multimedia learning and teaching resources with reference to curricular needs, including thematic short videos, micro movies, photos, sound tracks, interactive games, as well as picture books, nursery rhymes and props for storytelling for kindergartens. Moving beyond the confines of television programmes, these educational resources are produced to better meet schools' teaching needs. To produce the diversified learning and teaching resources outlined above, the EDB will increase the scale of commissioning the production of multimedia resources by engaging service providers in the market to tap innovative inputs and enhance production quality. RTHK will be invited to bid for the contracts just like other service providers with production experience. The estimated expenditure for the development of diversified educational multimedia resources for 2020-21 is \$30 million. In view of the above changes, RTHK no longer needs to set targets for the production of ETV programmes.

(4) According to RTHK, the staff concerned will be deployed to take up other posts in RTHK, and continue to work on programme production. Their salaries will not be affected by the deployment.

- End -

(Question Serial No. 1951)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the Government inform this Council of:

- (a) the number of students in primary and secondary schools who newly arrived in Hong Kong in the 2015/16, 2016/17, 2017/18 and 2018/19 school years disaggregated by grades, and their percentage among the total no. students in all primary and secondary schools;
- (b) the number of NCS students in primary and secondary schools who newly arrived in Hong Kong in the 2015/16, 2016/17, 2017/18 and 2018/19 school years disaggregated by grades, and their percentage among the NCS students in all primary and secondary schools;
- (c) if the above information is not provided, how does the EDB evaluate the adequacy of the newly-arrived programmes according to the target no. of students, and plan the related service;
- (d) the list of available education and support services for newly-arrived NCS children (including but not limited to the full time Initiation Programme, Induction Programme, and School-based Support Scheme Grant) in the 2015/16, 2016/17, 2017/18 and 2018/19 school years; include the following details under each service:
 - i. the expenditure involved;
 - ii. the NGO or institution commissioned;
 - iii. the duration;
 - iv. the number of NCS children enrolled;
 - v. the number of NCS children completed;
 - vi. the percentage of NCS children engaged among the total number of newly-arrived NCS children; and
 - vii. methods of evaluation;
- (e) the mechanism of deciding which NGO or institution to be commissioned to, and how many tender has the EDB received for the service listed above;
- (f) the promotion method of the above programmes to the target students, and strategies used to reach out to target participants;

- (g) using the table below, the breakdown of the number of NCS students who are new arrivals in kindergartens, primary and secondary schools by school types for the past 5 school years, and evaluation of each programme:

Type of school	Number of newly arrived NCS children in		
	Kindergarten	Primary	Secondary
Private			
Voucher Scheme			
Free Kindergarten Scheme			
Government			
Aided			
Direct Subsidy Scheme			
English Schools Foundation/ International			
Schools listed in Appendix 3 in POA			

- (h) Does the EDB require schools to record the number of NCS new arrivals? How is the number of NCS new arrivals being recorded now? If it is not recorded, why not?

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 25)

Reply:

As the Education Bureau (EDB) does not require kindergartens, primary and secondary schools to keep a record of whether students being admitted are new arrivals in Hong Kong or not, statistics on the number and percentage of newly-arrived children and newly-arrived non-Chinese speaking (NCS) children attending kindergartens, primary and secondary schools and relevant information on curriculum assessment are not available.

In order to help newly-arrived children integrate into the local community and overcome their learning difficulties, the EDB provides various support services, including the Initiation Programme, Induction Programme and School-based Support Scheme (SBSS) Grant to schools admitting newly-arrived children for organising school-based support programmes. These measures are applicable to all newly-arrived children, including children from the Mainland and NCS children. With reference to the demand for the said services in the past, we will devise plans for the resources required and flexibly deploy such resources according to actual circumstances. The support services and grant provided for newly-arrived NCS children by the EDB from the 2015/16 to 2018/19 school years are set out at Annex. Upon admission to schools, the newly-arrived NCS children can enjoy the same education services as other students. Other support services are also available for supporting NCS students and all NCS students (not limited to newly-arrived NCS students) can benefit from the measures.

On commissioning organisations or schools to operate the related programmes, the EDB will, according to the established mechanism, invite and assess tenders in a timely manner. Upon completion of the Induction Programme and Initiation Programme, the non-governmental organisations (NGOs) and schools concerned are required to submit

evaluation reports to the EDB. For schools in receipt of the SBSS Grant, their annual school reports should include an account of how the Grant has been used to enhance the learning and adaptation of newly-arrived children.

Leaflets providing newly-arrived students and their parents with information on the Induction Programme and Initiation Programme are available at the airport, Lo Wu Control Point, Regional Education Offices of the EDB and public enquiry service centres under the Home Affairs Department. Lists of the organisations offering the Initiation Programme and Induction Programme can be accessed on the EDB's webpage.

CONTROLLING OFFICER'S REPLY

EDB271

(Question Serial No. 1952)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

The Education Bureau implemented the 'Chinese Language Curriculum Second Language Learning Framework' ('Learning Framework') in 2014/15 school year. Would the government inform this Council of:

- (a) the list of institutions, schools, groups and NGOs consulted when setting up this Framework and the relevant expenditures;
- (b) the number of primary and secondary schools that are adopting school-based adapted Chinese learning curriculum for their non-Chinese speaking ('NCS') students from 2014/15 to 2019/20 school years and the relevant expenditures;
- (c) despite the EDB has described the 'Learning Framework' as a curriculum document with a 'second language perspective', the Equal Opportunities Commission (EOC) reported twice the views of frontline teachers' and language teaching experts that "the Learning Framework is not a curriculum", and "the "small step approach" highlighted does not specifically address the second language learning needs of NCS students. How does the EDB justify the expenditures in the last 6 years on the 'Learning Framework'?"

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 26)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has implemented the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools, with a view to helping non-Chinese speaking (NCS) students in learning Chinese as a second language. In tandem, the EDB has provided diversified support for schools admitting NCS students, including professional development programmes for teachers, learning and teaching resources, and school-based professional support services, etc.

The “Learning Framework”, which is not independent of the mainstream Chinese Language curriculum but designed on the basis of the mainstream Chinese Language curriculum, provides steps and methods for learning and teaching, and assessment for teachers’ reference in teaching and making flexible adaptations according to the learning progress of NCS students. Teachers can make reference to the “Learning Framework” to set learning targets, learning progress and expected learning outcomes on listening, speaking, reading and writing, as well as adapt and develop teaching materials at the school-based level for NCS students with different starting points and abilities, so as to help these second language learners to use a “small-step” learning approach to learn Chinese progressively.

The EDB has consulted teachers and language experts when formulating the “Learning Framework”, including teachers with experience in teaching NCS students, scholars who have conducted research on using Chinese as a second language, and members of the Committee on Chinese Language Education of the Curriculum Development Council. The EDB had further listened to the views of teachers through briefing sessions and seminars before the implementation of the “Learning Framework”, and will continue to collect views from various stakeholders on the “Learning Framework” and relevant support measures. At the curriculum level, the EDB has, through school visits and focus group interviews, solicited teachers’ views on related curriculum documents, with a view to introducing refinements that could make the descriptions of learning outcomes under the “Learning Framework” more precise and concrete. The revised “Learning Framework” was uploaded to the “Chinese Language Curriculum Second Language Learning Framework Dedicated Homepage”

(<https://www.edb.gov.hk/tc/curriculum-development/kla/chi-edu/second-lang.html>) in January 2019 for teachers’ reference and use. In parallel, the relevant assessment tools and teaching resources have been updated accordingly. As the manpower resources and expenditures incurred in the related work are subsumed under the overall expenditure of the EDB, a breakdown on this specific item is not available.

The EDB has been continuously developing diversified learning and teaching resources such as the “Chinese Language Assessment Tools for NCS Students” and teaching reference materials to provide guidelines and support for teachers with regard to curriculum planning, learning and teaching, and assessment. These resources have been uploaded to the EDB webpage and will be updated on an ongoing basis. With reference to the “Learning Framework”, a series of learning and teaching materials, including student textbooks, workbooks and teaching reference materials for NCS students at the primary level is being developed for teachers’ reference and use. The materials for lower primary levels (i.e. Primary 1 to 3) have been uploaded to the EDB webpage and distributed to schools. The materials for upper primary levels (i.e. Primary 4 to 6) have been uploaded to the EDB webpage by phases starting from December 2019.

Starting from the 2014/15 school year, all public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. From the 2015/16 to 2019/20 school years, the respective number of schools is 197, 216,

228, 241 and 252. These schools are required to review the learning progress of NCS students at different learning stages with reference to the learning progress so described in the “Learning Framework”, and adjust the learning targets and teaching strategies as appropriate. Many schools have made reference to the “Learning Framework” to adapt/develop school-based Chinese learning and teaching materials of different levels for their NCS students. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. We encourage these schools to optimise the use of their immersed Chinese language environment, work out holistic plans that dovetail with existing measures and resources in light of their school-based circumstances, as well as deploy resources flexibly and apply for additional funding as appropriate to support their NCS students in mastering the Chinese language. From the 2015/16 to 2019/20 school years, 83, 179, 213, 216 and 212 (provisional) schools were provided with an additional funding to offer after-school Chinese language support programmes respectively. Over the past 5 years, the relevant expenditure on the additional funding disbursed by the EDB to eligible schools to support NCS students’ effective learning of the Chinese language and create an inclusive learning environment in schools is over \$200 million each year. The schools concerned have adopted a holistic approach in resource planning and deployment of staff, including adoption of different intensive learning and teaching modes for NCS students, adaptation/development of school-based Chinese learning and teaching materials, and the creation of an inclusive learning environment in schools. Schools are not able to provide a breakdown of expenditure on adaptation/development of school-based Chinese Language curriculum and learning and teaching materials based on the “Learning Framework”.

Schools provided with the additional funding to support NCS students’ learning will conduct self-evaluation of their school-based support measures each year. Most of the schools consider that with the provision of the additional funding, there have been progress in implementing various school-based measures, inter alia, enhancing the professional capacity of teachers in teaching NCS students Chinese, developing school-based curriculum/instructional resources as well as using and adapting the complementary learning and teaching materials (including making reference to EDB’s teaching resources and making adaptation as appropriate, developing school-based teaching materials based on the “Learning Framework”, and/or adopting teaching materials developed by publishers, universities/post-secondary institutions), setting appropriate learning targets for students with reference to the “Learning Framework” based on the results of the “Chinese Language Assessment Tools for NCS Students”, adopting suitable learning and teaching modes, improving the learning motivation, confidence and learning performance of NCS students, strengthening the communication with parents of NCS students, and the creation of an inclusive learning and a culturally diverse environment in schools. It can be seen that the additional funding is conducive to schools’ implementation of the relevant work.

The EDB will continue to provide diversified support to cater for the learning needs of NCS students. However, we must understand that the existing educational measures to enhance the support for NCS students in learning Chinese is unique to Hong Kong. Experience should be accumulated and refinements be made where necessary. It also takes time for such

measures to take root. The learning effectiveness of NCS students is affected by other factors (such as students' learning attitude, parents' expectation and cooperation, and opportunities provided by society). It is therefore neither appropriate nor possible to assess whether the expenditure of the measure is justified solely based on whether such measures can enhance the Chinese proficiency of NCS students. The EDB will continue to collect information to follow up on the implementation of its support measures and make refinements as necessary. In this regard, we will look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning. In parallel, the EDB is exploring how to assess NCS students' learning progress in Chinese at the system level, with a view to providing feedback to schools and enhancing related support measures.

(Question Serial No. 1953)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), will the government inform this Council:

- (a) the number of non-Chinese speaking applicants and students admitted to each institution in SSSDP programmes for 2015/16 to 2019/20 school years;
- (b) the number of non-Chinese speaking local students admitted to SSSDP programmes using the DSE (Chinese) qualification through JUPAS for 2015/16 to 2019/20 school years;
- (c) the respective number of non-Chinese speaking local students admitted to SSSDP programmes through JUPAS using each of the alternative Chinese qualifications, namely GCE (A-Level), GCE (AS Level), GCSE and IGCSE for 2015/16 to 2019/20 school years;
- (d) the number of all local students admitted to each institution in SSSDP programmes for 2015/16 to 2019/20 school years.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 27)

Reply:

(a)

The Government launched the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) in the 2015/16 academic year and has expanded its coverage to include designated self-financing sub-degree programmes starting from the 2019/20 academic year. Subsidised places of the designated undergraduate programmes are mainly allocated through the Joint University Programmes Admissions System (JUPAS), while those of the designated sub-degree programmes are by direct admission by individual institutions. The Education Bureau (EDB) does not have information about the number of non-Chinese speaking (NCS) applicants and the institutions they applied for.

The number of local NCS students admitted to the first year of designated undergraduate programmes in the 2019/20 academic year is as follows:

Institution	No. of local NCS students
Caritas Institute of Higher Education	1
Chu Hai College of Higher Education	5
The Hang Seng University of Hong Kong	1
The Open University of Hong Kong	5
Tung Wah College	3
Technological and Higher Education Institute of Hong Kong under the Vocational Training Council	7

Note: The EDB has not compiled statistics on the number of local NCS students admitted to the first year of designated undergraduate programmes in various institutions in or before the 2018/19 academic year.

The number of local NCS students admitted to the first year of designated sub-degree programmes in the 2019/20 academic year is as follows:

Institution	No. of local NCS students
Caritas Bianchi College of Careers	1
HKU SPACE Po Leung Kuk Stanley Ho Community College	40
Hong Kong College of Technology	1
The Open University of Hong Kong and Li Ka Shing School of Professional and Continuing Education	2
Tung Wah College	1
YMCA College of Careers	0

(b) and (c)

According to the records of SSSDP participating institutions, the respective number of local NCS students admitted to the first year of designated undergraduate programmes under the SSSDP through JUPAS with the Hong Kong Diploma of Secondary Education Examination (Chinese Language) (DSE(Chinese Language)) qualification or alternative Chinese Language qualifications (such as General Certificate of Education (Advanced Level) (GCE (A-Level)), General Certificate of Education (Advanced Subsidiary) (GCE(AS-Level)), General Certificate of Secondary Education (GCSE), and International General Certificate of Secondary Education (IGCSE)) from the 2015/16 to 2019/20 academic years is as follows:

Academic year	DSE (Chinese Language)	Alternative Chinese Language qualifications			
		GCE (A-Level)	GCE (AS-Level)	GCSE	IGCSE
2015/16	0	0	0	2	0
2016/17	0	2	0	3	0
2017/18	0	0	1	4	0
2018/19	0	3	3	10	0
2019/20	0	2	6	12	2

(d)

The SSSDP has been regularised starting from the 2018/19 academic year with an increase in the number of subsidised places from about 1 000 to about 3 000 per cohort. From the 2015/16 to 2019/20 academic years, the number of local students admitted to the first year of designated undergraduate programmes under the SSSDP is 913, 991, 974, 1 817 and 2 173 respectively.

In addition, starting from the 2019/20 academic year, the coverage of the SSSDP has been expanded to subsidise students enrolling in designated full-time locally-accredited self-financing sub-degree programmes in selected disciplines. In the 2019/20 academic year, a total of 1 479 local students are admitted to the first year of designated sub-degree programmes under the SSSDP.

EDB273

(Question Serial No. 3821)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Under Matters Requiring Special Attention in 2020-21 of this Programme, the Administration states that it will continue to provide recurrent grant and professional support to public sector primary schools that have formed sister schools with their counterparts in the Mainland to further support the multi-faceted development of sister school activities. Please advise this Committee of the following:

- (1) What are the staff establishment and estimated expenditure on salaries involved in the provision of professional support to public sector primary schools that have formed sister schools with their counterparts in the Mainland in 2020-21?
- (2) The Mainland government has concealed information about the epidemic on multiple occasions and demonstrated a lack of transparency in public health. Will the Government permanently shelve this scheme to prevent Hong Kong students from contracting unknown diseases during their exchange in the Mainland? If no, what are the reasons?

Asked by: Hon CHAN Chi-chuen (LegCo internal reference no.: 128)

Reply:

(1) The Government has regularised the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland with effect from the 2018/19 school year to provide a recurrent grant and professional support for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. The professional support offered includes organising exchange activities and sharing sessions, offering advice and assistance on the arrangement for exchange activities, and collecting and disseminating good practices. The relevant manpower and expenditure have been subsumed under the overall expenditure of the Education Bureau (EDB), therefore a breakdown is not available.

(2) With the National Health Commission releasing information about the development of the epidemic in various Mainland provinces and cities in a timely manner, the EDB has been able to make well-informed decisions on the arrangements of student activities. In fact, in view of the outbreak of COVID-19, we have informed schools in late January 2020 that all Mainland exchange activities organised by the EDB have been suspended or postponed and schools should suspend and postpone their own Mainland exchange activities. Other modes of exchange (e.g. video conferencing) among sister schools may continue if circumstances permit. We will continue to closely monitor the development of the epidemic and take appropriate follow-up actions through close communication with stakeholders. When organising student activities (including Mainland exchange activities), the safety of students has always been our prime consideration. We will not deviate from this underlying principle and exchange activities with sister schools in the Mainland will continue to be organised with this principle in mind.

Subhead (No. & title): (000) Operational expenses
Programme: (-) Not specified
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please give details on the staff establishment for handling complaints about teachers' misconduct and the estimated expenditure on salary for such staff in 2020-21?

Asked by: Hon CHAN Chi-chuen (LegCo internal reference no.: 129)

Reply:

Complaints about teachers' professional misconduct are handled by officers of the Professional Development and Special Education Branch and School Development and Administration Branch under the Education Bureau (EDB). These officers are also responsible for duties relating to professional development and training of teachers, teacher registration, Language Proficiency Requirement for teachers of English/Putonghua, Chief Executive's Award for Teaching Excellence, administrative management of government schools, salary verification for staff in aided schools, school-based management and incorporated management committees, school development, services of Regional Education Offices, the handling of other complaints about public sector primary and secondary schools, placement services, career guidance, support for cross-boundary students, student guidance and discipline, and the formulation of school administration policies for aided, Direct Subsidy Scheme and caput schools, etc.

Since complaint handling is day-to-day work of the sections under the EDB and the expenses incurred have been subsumed under the EDB's overall manpower and operating expenditure, a breakdown of expenditure is not available.

Question:

Would the Administration advise this Committee of the number of non-Chinese speaking students and ethnic minority students studying in primary schools by grade level in the 2019/20 school year?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 150)

Reply:

For the planning of education support measures for non-Chinese speaking (NCS) students, their need for support is determined by whether their language spoken at home is Chinese or not (instead of their ethnicity). The number of NCS students and the number of NCS ethnic minority students at Primary 1 to Primary 6 in public sector schools and Direct Subsidy Scheme schools in the 2019/20 school year are tabulated at Annex A and Annex B respectively. The 2 sets of data are not comparable since definition of NCS students is based on the language spoken at home (instead of the ethnicity of the students).

**Number of non-Chinese speaking (NCS) students
at Primary 1 to Primary 6 levels in the 2019/20 school year**

Grade	P1	P2	P3	P4	P5	P6
No. of NCS students	1 721	1 707	1 691	1 709	1 639	1 584

Notes:

1. Figures refer to the position as at mid-September 2019.
2. Figures include public sector schools and Direct Subsidy Scheme schools but exclude special schools.
3. Figures include those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.

**Number of non-Chinese speaking (NCS) ethnic minority students
at Primary 1 to Primary 6 levels by ethnicity in the 2019/20 school year**

	P1	P2	P3	P4	P5	P6
Indonesian	44	36	33	30	28	27

Notes:

1. Figures refer to the position as at mid-September 2019.
2. Figures include public sector schools and Direct Subsidy Scheme (DSS) schools (among which 1 DSS school offering non-local curriculum is excluded for not having provided information on ethnicity of NCS students) but exclude special schools.
3. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students. Figures have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

Director of Bureau: Secretary for Education

Question:

Would the Administration advise this Committee of the number of non-Chinese speaking students and ethnic minority students studying in kindergartens by class level in the 2019/20 school year?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 152)

Reply:

At present, all kindergartens (KGs) in Hong Kong are privately run. The KG sector, which comprises local and non-local KGs, can flexibly respond to parents' different demands and children's diverse needs. According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students and the number of ethnic minority students studying in KGs in the 2019/20 school year are tabulated at Appendix 1 and Appendix 2 respectively. Since the definition of NCS students is based on the language spoken at home instead of the ethnicity of the students, figures provided in Appendix 1 and Appendix 2 are not comparable.

**Number of non-Chinese speaking (NCS) students studying at different grades
in kindergartens in the 2019/20 school year**

K1	K2	K3
4 769	4 737	3 450

Notes:

1. Figures refer to the position as at mid-September 2019.
2. The above figures include those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures include students studying in kindergarten-cum-child care centres.
4. The above figures include both local and non-local kindergartens.

**Number of ethnic minority students studying at different grades
in kindergartens in the 2019/20 school year**

	K1	K2	K3

Reply:

The number of students with special educational needs (SEN) studying in public sector ordinary primary schools in the past 3 years (from the 2017/18 to 2019/20 school years), disaggregated by grade level and by major SEN type, is set out at the Appendix. With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students with SEN has increased over the years.

2018/19	10	9	6	4	13	13
2019/20	5	8	11	11	9	21

Notes:

1. Figures show the position as at September of the respective school years.
2. The number of Primary 1 students with SEN shown in the above tables denotes the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.
3. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information about students with SEN requires parental consent. Given that many types of MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

CONTROLLING OFFICER'S REPLY**EDB285****(Question Serial No. 4205)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Would the Administration please advise this Committee of the respective number of government and aided primary schools provided with Student Guidance Officers, Student Guidance Teachers and Student Guidance Service Grant in each of the past 5 school years?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 170)Reply:

The number of public sector primary schools provided with Student Guidance Officers, Student Guidance Teachers and the Student Guidance Service Grant in the past 5 school years (i.e. from 2015/16 to 2019/20) is as follows:

No. of public sector primary schools provided with	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year	2019/20 school year
Student Guidance Officers	12	10	7	6	5
Student Guidance Teachers	125	121	119	113	105
Student Guidance Service Grant	317	323	328	114	36

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. In the 2019/20 school year, 309 public sector primary schools have switched to the new funding mode.

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Administration please provide the respective numbers of government and aided primary schools in each of the past 5 school years by number of classes?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 171)

Reply:

The respective numbers of government and aided primary schools by number of operating classes in the past 5 school years are detailed at the Appendix.

Would the Administration please give figures on the provision of Comprehensive Student Guidance Service in primary schools by case category in the past 5 school years?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 172)Reply:

Based on the annual data collected through an online system from student guidance personnel of public sector primary schools, the respective numbers of student cases under the Comprehensive Student Guidance Service by case category for the past 5 years (i.e. from the 2014/15 to 2018/19 school years) are summarised as follows:-

Case Category	School Year				
	2014/15	2015/16	2016/17	2017/18	2018/19
Conduct Problems	1 306	1 254	1 277	1 256	1 266
Emotional/Psychological Problems	2 743	2 945	3 190	3 353	3 548

CONTROLLING OFFICER'S REPLY**EDB288****(Question Serial No. 4208)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Starting from the 2012/13 school year, the Education Bureau has, in addition to the existing Student Guidance Service Grant (SGS Grant), provided each public sector primary school with an additional grant according to its number of classes. The additional grant is equivalent to \$15,000 per class per year. In this connection, would the Government advise this Committee of the following:

the total amount of SGS Grant provided in each of the past 5 school years;
 the total amount of additional grant provided in each of the past 5 school years;
 the total amount of unspent grants of public sector primary schools receiving SGS Grant in each of the past 5 school years.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 173)Reply:

The total amount of the Student Guidance Service Grant (SGS Grant) and the Top-up Student Guidance Service Grant (Top-up Grant) for the past 5 school years (2015/16 to 2019/20) is tabulated as follows:-

	2015/16 School year (\$ million)	2016/17 School year (\$ million)	2017/18 School year (\$ million)	2018/19 School year (\$ million)	2019/20 School year (\$ million) (Estimated expenditure)
SGS Grant	157.3	168.3	181.4	65.0	21.4
Top-up Grant	68.3	71.3	72.9	104.4	114.0
Total Amount:	225.6	239.6	254.3	169.4	135.4

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. In addition to receiving the Top-up Grant, schools adopting the new funding mode are provided with a regular Assistant Social Work Officer post or the School Social Work Service Grant and the Consultation Service Grant. In the 2019/20 school year, 309 public sector primary schools have switched to the new funding mode. The estimated total expenditure on student guidance service under the old funding mode and the new funding mode is \$487 million.

The total amount of the unspent SGS Grant (including the Top-up Grant) of public sector primary schools for the 2015/16, 2016/17 and 2017/18 school years is \$14.8 million, \$15.8 million and \$17.1 million respectively. Relevant information of the 2018/19 school year is not available as the audited accounts for the school year is not yet due.

EDB289

(Question Serial No. 4328)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Government's provision of subsidies for students to participate in Mainland exchange programmes, please provide the following information:

- (a) What were the respective numbers of post-secondary, secondary and primary students who had received subsidies to participate in Mainland exchange programmes in the past 3 years? Please also provide the amount of subsidies provided, the Mainland cities visited, the dates and content of the exchange programmes, and the total expenditures involved.
- (b) How many exchange programmes have been cancelled due to the novel coronavirus epidemic in 2020? What is the number of students affected?
- (c) According to the Government's estimation, how many post-secondary, secondary and primary students are expected to receive subsidies to participate in Mainland exchange programmes in 2020/21? What are the details and the estimated expenditures involved? Does the Government have any contingency plans in view of the novel coronavirus epidemic?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 294)

Reply:

(a) To dovetail with the school curriculum and the latest development of our country, the Education Bureau (EDB) organises Mainland exchange programmes with diversified themes and destinations for students, or subsidises those organised by schools every year. Such programmes include the "Mainland Exchange Programme for Junior Secondary and Upper Primary Students" (「同根同心」——香港初中及高小學生內地交流計劃), the "Mainland Exchange Programme for Secondary School Students" (「同行萬里」中學生內地交流計劃), the "Junior Secondary and Upper Primary School Students Exchange

Programme Subsidy Scheme: Understanding Our Motherland” (初中及高小學生交流活動資助計劃 —— 「赤子情・中國心」), the “Senior Secondary School Students Exchange Programme Subvention Scheme” (高中學生交流活動資助計劃), the “Mainland Exchange Programme for Student Leaders” (領袖生內地交流計劃) and some thematic Mainland exchange programmes. These programmes enable participants to gain first-hand experience of our country’s development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. They cover different Mainland provinces and cities, including 22 provinces, 4 autonomous regions and 4 municipalities.

The numbers of post-secondary, secondary and primary students participating in the aforementioned Mainland exchange programmes and the expenditures involved in the past 3 years (the 2017/18, 2018/19 and 2019/20 school years) are as follows:

School Year	Number of Students (rounded down to the nearest hundred)			Expenditure (\$ million) [@]		
	Post-secondary Students ^Δ	Secondary Students	Primary Students	Post-secondary Students ^Δ	Secondary Students	Primary Students
2017/18	2 700	40 200	26 800	8.4	57.6	27.8
2018/19 [#]	2 200	42 100	32 400	6.7	66.7	42.2
2019/20 ⁺	4 000	9 300	11 200	15	18.9	16.2

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year’s estimates

⁺ Provisional figures

^Δ Only covers data for the Pilot Mainland Experience Scheme for Post-secondary Students (applicable to the 2011/12 to 2018/19 school years)/Pilot Mainland Experience Scheme for Post-secondary Students (non-means-tested) (applicable to the 2019/20 school year). There are currently other schemes that provide subsidies for post-secondary students to participate in Mainland exchange programmes. As the scope of those subsidy schemes also covers destinations in addition to the Mainland, statistics that are only relevant to exchange activities in the Mainland are not available.

(b) All along, schools could organise Mainland exchange programmes on their own or choose to participate in Mainland exchange programmes or subsidy schemes organised by the EDB according to their school needs. From time to time, schools cancel or postpone their scheduled Mainland exchange programmes in light of school-based circumstances. The EDB only has the numbers of participating schools, teachers and students for each trip, and does not collect or compile statistics on the number of Mainland exchange programmes cancelled by schools, including those cancelled due to the novel coronavirus epidemic. Nevertheless, classes are suspended on many school days in the 2019/20 school year, and during class suspension, the scheduled Mainland exchange programmes have to be cancelled. Upon class resumption, primary and secondary schools need to reschedule their teaching and other activities, and it is possible that the exchange programmes will not be conducted as planned.

(c) The estimated numbers of places to be offered to post-secondary, secondary and primary students for receiving subsidies to participate in the Mainland exchange programmes and the estimated expenditures involved in the 2020/21 school year are as follows:

School Year	Number of Students (rounded down to the nearest hundred)			Estimated Expenditure (\$ million)		
	Post-secondary Students	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2020/21	4 000	63 600	45 400	15	80	35

Students' safety has always been the prime concern of the EDB in organising or subsidising Mainland exchange activities for students. Due to the novel coronavirus epidemic in early 2020, all Mainland exchange activities organised or subsidised by the EDB have been suspended or postponed since end-January. Besides, under the Pilot Mainland Experience Scheme for Post-secondary Students (non-means-tested), various Mainland exchange activities are organised or coordinated by participating post-secondary institutions, which may suspend or cancel the activities in light of the relevant circumstances and according to their own mechanisms.

(Question Serial No. 4354)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (2) Pre-primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

What are the details and subsidy amount of “Free Quality Kindergarten Education Scheme”, “refund of rent, rates and government rent” and “training for principals and teachers” provided by the Government for pre-primary education in the past 3 years?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 320)

Reply:

Information on the kindergarten (KG) education scheme (Scheme), reimbursement of rent, rates and government rent, as well as training for principals and teachers is as follows:

- (i) The Scheme has been implemented starting from the 2017/18 school year to replace the Pre-primary Education Voucher Scheme (PEVS). The policy objectives are to provide good quality and highly affordable KG education, and enhance the accessibility of students to different modes of services that suit their specific needs. The Government provides KGs joining the Scheme (Scheme-KGs) with direct subsidy according to the number of eligible students in the form of a basic half-day unit subsidy. KGs offering whole-day and long whole-day services will receive an additional subsidy of 30% and 60% respectively. School-specific grants, including premises maintenance grant, rental subsidy, grant for a cook, tide-over grant and grant for support to non-Chinese speaking (NCS) students are provided to cater for the diverse needs of individual KGs or students.
- (ii) Before the implementation of the Scheme in the 2017/18 school year, rental subsidy was provided under the Non-profit-making Kindergarten Rent Reimbursement Scheme for eligible non-profit-making (NPM) KGs to meet their rental expenses. New application for rent reimbursement is no longer accepted after the implementation of the Scheme starting from the 2017/18 school year. Scheme-KGs can apply for rental subsidy. Moreover, NPM KGs (regardless of whether they have joined PEVS or the

Scheme) may also apply for full refund of rates and government rent for their school premises.

- (iii) Professional training courses are provided for KG principals and teachers to facilitate their professional development. The themes include supporting NCS students in learning Chinese, catering for students at risk of developmental delay, and strengthening leadership effectiveness of management personnel, etc. Study tours to other regions or countries are also organised for understanding the latest development in early childhood education.

The expenditures on the above items incurred from 2017-18 to 2019-20 are as follows:

	2017-18	2018-19	2019-20
	(\$ million) (Actual)	(\$ million) (Actual)	(\$ million) (Revised Estimate)
(i) KG Scheme (Note 1)	3,903.5	6,041.3	6,281.9
(ii) Refund of rent, rates and government rent (Note 2)	128.8	7.1	6.0
(iii) Training for principals and teachers (Note 3)	2.7	4.5	4.1

Note 1: The expenditures in 2017-18 reflect the expenditure for the first 8 months after the implementation of the Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018), and the one-off start-up grant provided in 2017-18 for Scheme-KGs. The expenditures in 2018-19 and 2019-20 are the expenditures on the Scheme for the whole year.

Note 2: The expenditures in 2017-18 reflect the expenditure on the rent reimbursed to NPM KGs under the Non-profit-making Kindergarten Rent Reimbursement Scheme, and the full-year rates and government rent reimbursed to NPM KGs before the implementation of the Scheme in the 2017/18 school year (i.e. from April to August 2017). Starting from the 2017/18 school year, expenditures on rental subsidy and reimbursement of rates and government rent for Scheme-KGs are subsumed under the overall expenditure of the Scheme. NPM KGs not joining the Scheme can continue to be reimbursed for rates and government rent.

Note 3: Since 2017/18 is the first school year after the introduction of the Scheme, KGs need time to adapt to the new Scheme. Therefore, relevant training programmes were rolled out in the latter part of the school year. Part of the expenditure cannot be fully reflected in 2017-18

Question:

It is learnt that 1 bi-sessional primary school has yet to formulate its whole day conversion plan due to issues related to school premises. Has the Bureau offered assistance to that primary school? If yes, what are the details? If no, what are the reasons?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 321)

Reply:

The Education Bureau has been exploring alternatives with the school sponsoring body to facilitate the school's full implementation of whole-day primary schooling. We will continue to explore possible means of conversion for the school and adopt a flexible and pragmatic approach in working out an agreed whole-day conversion plan as soon as possible.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Starting from the 2016/17 school year, the recurrent subsidies for the English Schools Foundation are being phased out. Please list the amount of recurrent subsidy in each of the school years from 2016/17 to 2028/29.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 322)

Reply:

As reported by the Education Bureau at the meeting of the Legislative Council Panel on Education on 9 July 2013, a review on the subvention arrangements for the English Schools Foundation (ESF) had been completed. The arrangement for phasing out the subvention to the ESF was accepted by its Board of Directors. As per the agreed arrangement, from the 2016/17 school year onwards, the annual recurrent subvention of \$249.7 million for the ESF's mainstream primary and secondary schools has started to phase out within 13 years at an average amount of \$19.2 million per year until the 2028/29 school year. As regards the annual recurrent subvention of \$28.3 million to the ESF for its support for students with special educational needs (SEN) in the ESF's mainstream schools and special school, it covers part of the administrative and manpower expenditure of the Learning Support Centres set up in the ESF mainstream schools, its special school, and other SEN support services. This subvention is excluded from the phasing out arrangement and the amount is frozen at the current level pending further review.

Question:

Regarding the improvement of teaching and learning environment of public sector schools, please provide the following information:

- (1) the respective number of primary and secondary schools operating in school premises considered sub-standard by prevailing standards in each of the past 3 years;
- (2) the respective number of these schools which applied for the School Improvement Programme, reprovisioning or redevelopment programmes, or minor improvement works in each of the past 3 years, and the expenditure involved in each project;
- (3) the number of “matchbox-style school premises” that were reprovisioned in the past 3 year; and
- (4) the measures to be taken by the Government in 2020/21 to help improving the campus environment of public sector schools, and the estimated expenditure involved.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 324)

Reply:

(1) and (3)

At present, there are about 850 ordinary public sector primary and secondary schools in the territory. Their premises were built in different periods in accordance with the building standards at the time of construction and facilities in the premises vary. While the standards have been changing over the years, existing school premises in operation are required to comply with prevailing statutory requirements. As at March 2020, about 200 of them were built according to prevailing standards.

Among the schools built in different periods, some are cuboidal-shaped premises constructed between the 1960s and 1980 in public housing estates for primary school use. These school premises are often referred to as “matchbox-style school premises”. Following the reprovisioning of 3 public sector primary schools previously operating in “matchbox-style school premises” to vacant school premises (VSP)/new school premises in 2018 and 2019, there are at present 25 public sector primary schools operating in such premises. Among these 25 schools, 5 have been allocated new school premises or VSP through the school allocation mechanism for reprovisioning or expansion.

(2), (3) and (4)

We understand that the community is concerned about the conditions of facilities at old school premises. Over the years, the Education Bureau (EDB) has put in place various measures to enhance school facilities, having regard to the needs of schools, for improving the teaching and learning environment. These measures mainly include the completed School Improvement Programme (SIP), the existing reprovisioning and redevelopment/extension programme, as well as the annual major repairs (MR) and emergency repairs (ER) mechanism.

The SIP implemented in 5 phases between 1994 and 2006 aimed at progressively improving the teaching and learning environment of schools so as to provide additional space and facilities for teaching, out-of-class activities and supporting services for both teachers and students. Phases 1 to 3 of the SIP focused on upgrading the schools’ teaching, learning and administration facilities. The last 2 phases further expanded the scope of works, aiming to upgrade the schools’ facilities to the prevailing standards where technically feasible. The scope of improvement works for individual schools under the SIP varied according to the schools’ vision and mission, characteristics, the facilities in place and site conditions. Over 700 public sector schools built according to standards prevailing at the time of construction have their school facilities enhanced through one of the 5 phases of the SIP.

For reprovisioning of existing schools to new school premises on reserved school sites or VSP which are suitable for reprovisioning purpose, allocation is generally done through open, fair and competitive bidding under School Allocation Exercises (SAE). The EDB conducts SAEs for reprovisioning of schools from time to time, and all eligible school sponsoring bodies (SSBs) in the territory can apply for reprovisioning of existing schools under their sponsorship. Applications are assessed by the School Allocation Committee (comprising both official and non-official members), with quality of education being the prime consideration. Other factors, including the operation track records of the SSBs concerned, the proposed school plans after relocation, the conditions of the existing school premises, etc. will also be considered. Schools may take into account their school-based considerations and consider if they would like to submit application for reprovisioning under the prevailing competitive-based school allocation mechanism. In the past 3 financial years, 3 planned new primary school premises and 4 VSP were allocated for reprovisioning of existing schools. A total of 34 applications were received. The Third and Fourth SAEs 2019 launched by EDB in August 2019 seek to allocate 5 planned new primary school premises and 1 VSP for reprovisioning of existing primary schools. The relevant SAEs are underway.

As regards in-situ redevelopment/extension projects, interested schools would indicate their intention for redevelopment/extension to the EDB. As always, we will seriously consider each proposal for in-situ redevelopment/extension according to a set of eligibility criteria, including the age and physical condition of the school premises concerned, technical feasibility of in-situ redevelopment/extension, quality of education service, sustainability of the school concerned, availability of suitable premises for decanting (if applicable), and the supply and demand of school places in the district concerned. We also need to take into account the manpower available and foreseeable commitment on school construction, as well as the capacity of the construction sector as anticipated on the basis of past experience. At present, we are planning for 5 in-situ redevelopment/extension projects. We may take up more projects, having regard to the progress of the school building projects in hand, the funding availability under the Public Works Programme in recent years and the request for redevelopment from schools.

As for minor improvement works, the EDB applies for block allocations under the Capital Works Reserve Fund to implement such works so as to improve the facilities of schools in need. In the past 3 financial years, a total of 40 minor improvement works projects were approved, involving a total estimated expenditure of about \$630 million.

Furthermore, based on the consensus reached with the sector earlier on, the EDB carried out improvement works for primary schools operating in “matchbox-style school premises”, with a focus on addressing the common problems arising from the unique architectural design of these premises. Improvement works include replacement with sound-proof doors and double-glazed window system in classrooms, installation of mechanical ventilation system along internal corridors, installation of openable windows on the grille walls at staircase landings, installation of acoustic panel wall system with metal frame for internal partitions of classrooms, and installation of moveable partitions and mechanical ventilation system on both sides of covered playgrounds. The improvement works have commenced progressively since the summer of 2017 and were completed in 2019. In addition, under this programme, our works consultants have explored technically feasible means for more flexible use of existing space, such as minor internal conversion and installation of moveable partition walls to turn existing facilities into temporary special rooms. We are progressively making arrangements for relevant works to commence in accordance with the schools’ indications and needs, with a view to improving the teaching and learning environment within the constraints of space and existing building design.

Taking into account the experience gained from the improvement works programme for “matchbox-style school premises” and views of different stakeholders, the EDB has reserved an additional \$1 billion under the Capital Works Reserve Fund for the implementation of a time-limited minor works programme for some 600 aided schools operating in premises built according to standards prevailing at the time of construction. Minor conversion works, such as converting or altering internal partitions/spaces, will be carried out to enhance schools’ flexibility in using existing spaces of their premises, thereby improving the teaching environment. Individual schools may submit conversion proposals to the EDB in 2019 and 2020 in light of the conditions of their premises and their school-based needs. With the close of applications for the 2019 works programme in June 2019, the EDB has received applications from a total of 369 schools. Among these applications, about 1 200 works items come under the scope of the minor internal conversion works programme. The estimated project cost is around \$610 million. The

application results were announced in end-March 2020. We will invite the schools concerned to submit their applications for the 2020 works programme in May 2020.

Meanwhile, aided schools may apply for funding to carry out school premises maintenance and repair works under the annual MR and ER mechanism. Through the existing MR and ER mechanism, consultants and contractors appointed by the EDB continue to assist schools in handling relatively larger scale or more complicated repair works (i.e. repair works with estimated project costs over \$3,000 for primary and special schools or over \$8,000 for secondary schools) to enhance school facilities. If necessary, aided schools may also submit applications for non-recurrent subvention to carry out emergency repair works under the ER mechanism throughout the year. In this regard, we have reserved a non-recurrent subvention of about \$1.56 billion in 2020-21, an increase of around 4% over that of 2019-20, for carrying out the works concerned.

The manpower expenses on processing applications for the above improvement measures have been subsumed under the recurrent expenditure of the EDB. We do not have a separate breakdown on expenditure in this regard.

Director of Bureau: Secretary for Education

Question:

- (1) Please provide the student enrolment of the self-financing undergraduate programmes in the past 3 years, with a breakdown according to the self-financing undergraduate programmes offered by each of the 8 funded universities and their extension arms and by each of the institutions other than these 8 funded universities.
- (2) Please provide the number of students that applied for the \$30,000 subsidy applicable to self-financing undergraduate programmes in the past 3 years.
- (3) Please provide the amount of surplus generated/deficit incurred as a result of the operation of self-financing programmes offered by departments under each funded institution in each of the past 3 academic years.
- (4) Please give a list of programmes that each self-financing institution ceased to offer in the past 3 years, with reasons for not offering these programmes.
- (5) Further to the question above, please give the number of students affected under each programme.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 328)

Reply:

- (1) The number of student enrolment in full-time locally-accredited self-financing undergraduate programmes from the 2017/18 to 2019/20 academic years is set out by institution at **Annex 1**.

- (2) A total of 20 392, 16 661 and 16 064 students applied for subsidy under the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong in the 2017/18, 2018/19 and 2019/20 academic years respectively.
- (3) According to the information provided by the 8 University Grants Committee-funded universities, the respective amounts of surplus generated/deficit incurred as a result of the operation of self-financing programmes from the 2016/17 to 2018/19 academic years is set out at **Annex 2**.
- (4) and (5)

Based on the information provided by self-financing post-secondary institutions for publication on the Education Bureau's Concourse for Self-financing Post-secondary Education (the Concourse), a list of full-time locally-accredited self-financing undergraduate and top-up degree programmes that were removed from the Concourse from the 2017/18 to 2019/20 academic years is shown at **Annex 3**. We do not have information on institutions' reasons for removing these programmes from the Concourse and do not have statistical information related to item 5.

CONTROLLING OFFICER'S REPLY**EDB295****(Question Serial No. 4363)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Please list the total expenditure and total recurrent expenditure on education, as well as their respective percentage shares in the Government's total public expenditure and total recurrent expenditure in the past 3 years.

(b) Please list the estimated total expenditure and estimated total recurrent expenditure on education, as well as their respective estimated percentage shares in the Government's total public expenditure and total recurrent expenditure in 2020/21.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 329)

Reply:

The total expenditure and total recurrent expenditure on education, as well as their respective percentage shares in the Government's total public expenditure and total recurrent expenditure from 2017-18 to 2020-21 are as follows –

	Total expenditure on education		Total recurrent expenditure on education	
	Amount	% share in total public expenditure	Amount	% share in recurrent government expenditure
	\$ million	%	\$ million	%
2017-18	88,465	17.4	80,233	22.2
2018-19	108,035	19.0	85,528	21.2
2019-20 Revised Estimate	125,861	19.4	92,384	20.9
2020-21 Estimate	112,304	14.5	99,589	20.5

- End -

Question:

The Government launched the Mainland University Study Subsidy Scheme (MUSSS) to subsidise eligible students during their study period in the Mainland.

- (1) What were the number of beneficiary students and the expenditure involved in the recent 5 years?
- (2) In the form of a table, please provide a breakdown of the number of beneficiary students by institution.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 332)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched in July 2014. To better support Hong Kong students in pursuing studies in the Mainland, the MUSSS has been expanded since the 2016/17 academic year and a “non-means-tested subsidy” has been introduced under the MUSSS starting from the 2017/18 academic year. For the 2019/20 academic year, the full-rate subsidy and half-rate subsidy of the “means-tested subsidy” are \$16,800 and \$8,400 respectively. The “non-means-tested subsidy” offers \$5,600.

Breakdowns of the number of applicants in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 academic years, the number of students receiving the full-rate and half-rate subsidies in the 2015/16 and 2016/17 academic years, and the number of students receiving full-rate “means-tested subsidy”, half-rate “means-tested subsidy” and “non-means-tested subsidy” in the 2017/18, 2018/19 and 2019/20 (as at 29 February 2020) academic years by institution are set out at Annexes 1 to 5 respectively.

On the implementation of the MUSSS, the total expenditure in the 2015/16, 2016/17, 2017/18 and 2018/19 academic years was about \$6.5 million, \$29 million, \$37 million and \$42 million respectively. The total estimated expenditure for the 2019/20 academic year is about \$42 million.

CONTROLLING OFFICER'S REPLY

EDB297

(Question Serial No. 4367)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

(1) Regarding the Education Bureau (EDB)'s work in promoting national education, what types of activities were conducted in the past 3 years and what were the expenditures involved?

(2) In the 2020/21 school year, what projects will be undertaken by the EDB to promote national education and what are the estimated expenditures involved?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 333)

Reply:

National education, in the broad sense, also includes learning about various aspects of our country through different subjects in an appropriate manner. There is coverage on our country's history, culture, landscape, development, etc. in the curriculum content of History, General Studies, Chinese Language, Geography, and even Music and Arts. Moreover, elements that enhance a better understanding of our country are added to various life-wide learning activities (e.g. activities related to the Hong Kong Special Administrative Region Establishment Day or National Day). The Education Bureau (EDB) also provides support to schools in various areas. The relevant expenditure is subsumed under the recurrent expenditure of the EDB and cannot be identified separately.

The expenditure involved in the Mainland exchange programmes in the past 3 school years (from 2017/18 to 2019/20) and for the 2020/21 school year are set out below. Owing to the outbreak of COVID-19 in early 2020, all exchange activities in the Mainland organised or subsidised by the EDB have been suspended or postponed since end-January.

School Year	Expenditure (\$ million) [@]	
	Programmes for primary and secondary school students	Programmes for primary and secondary school teachers
2017/18	85.4	5.5
2018/19 [#]	108.9	7.1
2019/20 [*]	35.1	8.7
2020/21 ⁺⁺	115	12.9

[@] Expenditure on manpower resources for the provision of Mainland exchange programmes is subsumed under the recurrent expenditure of the EDB

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4368)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the tuition fees and enrolment of self-financing post-secondary institutions, please provide:

- (a) the respective total amount of application fees and enrolment deposits collected by self-financing post-secondary institutions (with a separate item on the non-refundable enrolment deposits paid by students who subsequently declined offers) in the past 3 academic years, with a breakdown by academic year and institution; and
- (b) the respective number of places and actual student intake of self-financing post-secondary institutions in the past 3 academic years, with a breakdown by institution and programme type (e.g. sub-degree, top-up degree and degree programmes).

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 334)

Reply:

- (a) Post-secondary institutions that are not covered by the Joint University Programmes Admissions System (JUPAS) generally adopt common application procedures and admission arrangements now. The Education Bureau has not gathered information on the total amount of application fees and enrolment deposits collected for full-time locally-accredited self-financing sub-degree and undergraduate programmes by institution from the 2017/18 to 2019/20 academic years.
- (b) The respective estimated intake places and actual intakes of full-time locally-accredited self-financing sub-degree, first-year-first-degree and top-up degree programmes from the 2017/18 to 2019/20 academic years by institution are set out at **Annexes 1 and 2.**

CONTROLLING OFFICER'S REPLY

EDB299

(Question Serial No. 4370)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Please tabulate the number of overseas exchange programmes and study tours provided respectively for primary and secondary schools by the Education Bureau (EDB) in the past 5 years and the expenditure involved;

(b) Further to the above question, please list the destinations of the overseas exchange programmes and study tours provided for primary and secondary schools by the EDB and indicate the percentage share by country;

(c) Please tabulate the number of professional exchange programmes provided respectively for primary and secondary teachers by the EDB in the past 5 years, the number of participants in these programmes and the expenditure involved; and

(d) Further to the above question, the percentage share by country of origin of exchange counterparts in professional exchange programmes provided for primary and secondary teachers by the EDB.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 336)

Reply:

(a) and (b) Students can enrich their learning experience and broaden their horizons through exchange programmes. To dovetail with the school curriculum and the latest development of our country, the Education Bureau (EDB) organises Mainland exchange programmes with diversified themes and destinations for students, or subsidises those organised by schools. These programmes enable students to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. They cover different provinces and cities in the Mainland, including 22 provinces, 4 autonomous regions and 4 municipalities. Schools could organise Mainland exchange programmes on their own or choose to

participate in Mainland exchange programmes or subsidy schemes organised by the EDB according to their school-based needs. Students' participation is on a voluntary basis. Most exchange programmes and study tours outside Hong Kong are currently planned and organised by schools. The EDB organised the annual Singapore-Hong Kong Exchange Programme for secondary students in the past 5 school years (from 2015/16 to 2019/20). It enabled students of the 2 places to enrich their learning experience through exchange activities and two-way visits. The expenditure incurred amounted to \$360,000. In the 2019/20 school year, the Programme was cancelled due to the novel coronavirus epidemic. No exchange programmes or study tours outside Hong Kong were organised for primary students in the past 5 school years (from 2015/16 to 2019/20).

(c) and (d) The EDB organised the annual Singapore-Hong Kong Exchange Programme for secondary school teachers in the past 5 school years (from 2015/16 to 2019/20). A total of 28 teachers participated in the programmes and the expenditure incurred amounted to \$750,000. Moreover, the EDB organised a Finland visiting/internship programme for teachers in the 2017/18 and 2018/19 school years. A total of 7 primary school teachers and 19 secondary school teachers participated in the programme and the expenditure incurred amounted to \$1.08 million.

The EDB launched the “i-Journey” Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. Participating teachers will be given 7 to 9 weeks' paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research. The details of the Scheme are as follows:-

2017/18 school year (First Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	Number of participants
Helsinki & Jyväskylä, Finland	Interdisciplinary Learning & Entrepreneurship Education	15
Melbourne, Australia	Catering for Students with Special Educational Needs	20
Exeter, the United Kingdom	STEM Education	15

2018/19 school year (Second Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	Number of participants
Turku, Finland	Interdisciplinary Learning & Entrepreneurship Education	15
Southampton, the United Kingdom	Assessment Literacy	15
Singapore	STEM Education	10

2019/20 school year (Third Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	Number of participants <small>*Provisional figures</small>
Southampton, the United Kingdom	Assessment Literacy	18
Sydney, Australia	Catering for Learner Diversity	21
Turku, Finland	Self-directed Learning	21

The total expenditure of the first batch and second batch of the Scheme is \$7.49 million and \$5.99 million respectively. In view of the latest development of the novel coronavirus (COVID-19) epidemic, the third batch of the Scheme will be postponed. The expenditure figures involved are therefore unavailable at the present stage.

The above professional exchange programmes for teachers varied in purpose, nature and duration. As calculating the percentage share of exchange counterparts by country of origin is not meaningful, the EDB has not collected the relevant statistics.

CONTROLLING OFFICER'S REPLY**EDB300****(Question Serial No. 4464)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the work in relation to the Code on Access to Information (the Code), would the Government advise this Committee on the following:

(1) Concerning the requests for information under the Code received by the Education Bureau (EDB) from October 2018 to present for which only some of the required information has been provided, please set out in table form: (i) the content of the requests for which only some of the required information was provided; (ii) the reasons for providing only some of the information; (iii) whether the decisions on withholding some of the information were made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application); (iv) whether the decisions on withholding some of the information were made subject to a "harm or prejudice test", i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the Guidelines on Interpretation and Application)? If yes, please provide the details of how the requests were handled eventually.

From October to December 2018

(i) Content of the requests for which only some of the required information was provided	(ii) Reasons for providing only some of the information	(iii) Whether the decisions on withholding some of the information were made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application)	(iv) Whether the decisions on withholding some of the information were made subject to a "harm or prejudice test", i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the Guidelines on Interpretation and Application). If yes, please provide the details.

(i) Content of the requests for which only some of the required information was provided	(ii) Reasons for providing only some of the information	(iii) Whether the decisions on withholding some of the information were made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application)	(iv) Whether the decisions on withholding some of the information were made subject to a “harm or prejudice test”, i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the Guidelines on Interpretation and Application). If yes, please provide the details.

(2) Concerning the requests for information under the Code received by the EDB from October 2018 to present for which the required information has not been provided, please set out in table form: (i) the content of the requests refused; (ii) the reasons for refusal; (iii) whether the decisions on withholding the information were made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application); (iv) whether the decisions on withholding the information were made subject to a “harm or prejudice test”, i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the Guidelines on Interpretation and Application)? If yes, please provide the details of how the requests were handled eventually.

(4) With reference to the target response times set out in paragraphs 1.16.1 to 1.19.1 of the Guidelines on Interpretation and Application of the Code, please advise this Committee on the following information by year in table form (with text descriptions).

(a) Within 10 days from date of receipt of a written request:

	Number of requests for which the information requested was provided	Number of requests involving third party information for which the information requested could not be provided	Number of requests for which the information requested could not be provided since the requests had to be transferred to another department which held the information under request	Number of requests which were refused under the exemption provisions in Part 2 of the Code	Number of applications which were withdrawn by the applicants who did not accept the charge and indicated that they did not wish to pursue the requests
2020					
2019					
2018					
2017					
2016					

Within 10 to 21 days from date of receipt of a written request:

	Number of requests for which the information requested was provided	Number of requests involving third party information for which the information requested could not be provided	Number of requests for which the information requested could not be provided since the requests had to be transferred to another department which held the information under request	Number of requests which were refused under the exemption provisions in Part 2 of the Code	Number of applications which were withdrawn by the applicants who did not accept the charge and indicated that they did not wish to pursue the requests
2020					
2019					
2018					
2017					
2016					

Within 21 to 51 days from date of receipt of a written request:

	Number of requests for which the information requested was provided	Number of requests involving third party information for which the information requested could not be provided	Number of requests for which the information requested could not be provided since the requests had to be transferred to another department which held the information under request	Number of requests which were refused under the exemption provisions in Part 2 of the Code	Number of applications which were withdrawn by the applicants who did not accept the charge and indicated that they did not wish to pursue the requests
2020					
2019					
2018					
2017					
2016					

(b) cases in which information could not be provided within 21 days from date of receipt of a request in the past 5 years:

Date	Subject of information requested	Specific reasons

(c) cases in which information could not be provided within 51 days from date of receipt of a request in the past 5 years:

Date	Subject of information requested	Specific reasons

(5) Among the cases in which requests for information were refused under the exemption provisions in Part 2 of the Code in the past 5 years, please set out in table form the number of cases on which the Privacy Commissioner for Personal Data was consulted during the process. For cases on which advice had been sought, was it fully accepted in the end? For cases where the advice of the Privacy Commissioner for Personal Data was not accepted or was only partially accepted, what are the reasons?

Date	Subject	Specific exemption provision in Part 2 of the Code under which the request for information was refused	Whether the advice of the Privacy Commissioner for Personal Data was fully accepted	Reasons for refusing to accept or only partially accepting the advice of the Privacy Commissioner for Personal Data

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 369)

Reply:

(1) and (2)

Of the requests for information under the Code on Access to Information (the Code) received by the Education Bureau (EDB) during the period from October 2018 to September 2019, 9 were met in part and 9 were refused.

Regarding the 9 applications which were met in part, the applicants requested for external school review reports or internal information of individual schools, information relating to the revision of the Chinese History curriculum, the definition of specific terms as stated in the documents relating to the Primary One Admission (POA) and related information, structural survey reports of individual school premises, information relating to individual open tendering contracts, information about submission of textbooks for review, and application records of individual job applicants. Having considered that some of the requested information involved “Law enforcement, legal proceedings and public safety”, “Management and operation of the public service”, “Internal discussion and advice”, “Third party information”, “Privacy of the individual” or “Business affairs”, we provided the applicants with part of the requested information in accordance with paragraphs 2.6, 2.9, 2.10, 2.14, 2.15 and 2.16 of the Code respectively.

As for the 9 applications for which the requested information was not provided, the applicants requested for information about the verification mechanism of residential addresses under the POA, internal/financial information of individual schools and/or school sponsoring bodies, raw statistical data of individual survey reports, statistics on students with physical disabilities in schools in various districts, information about the recommendation and appointment of Chairpersons of university councils, and statistics on students admitted by government and aided primary schools at the Discretionary Places Admission stage under the POA. Having considered that some of the requested information involved “Management and operation of the public service”, “Public employment and public appointments”, “Third party information” or “Privacy of the individual”, we refused to provide the requested information in accordance with paragraphs 2.9, 2.11, 2.14 and 2.15 of the Code respectively.

For the above cases where the requests for information were met in part or refused, the decisions were made by officers at Directorate Pay Scale Point 1 or above after conducting a “harm or prejudice” test which had ascertained that the harm or prejudice that could result from disclosure of the information would outweigh the public interest in disclosure of the information in the relevant cases.

(3) During the period from 2015 to September 2019, we received 12 review cases and provided further information after review in 4 of these cases. All the above decisions on review were made by officers at Directorate Pay Scale Point 1 or above.

(4) During the period from 2016 to September 2019, the number of written requests for which part or all of the information requested was provided within 10 days, 11 to 21 days and 22 to 51 days from date of receipt of a request were 126, 90 and 17 respectively, while the number of requests refused under the exemption provisions in Part 2 of the Code were 5, 13 and 6 respectively.

During the period from 2016 to September 2019, the main reasons for not providing the information requested within 21 days from date of receipt of a request were that legal advice/third party consent was needed or longer time was required to prepare the information which was complex and detailed.

During the period from 2016 to September 2019, there were no cases where information could not be provided within 51 days from date of receipt of a request.

(5) During the period from 2016 to September 2019, the EDB did not consult the Privacy Commissioner for Personal Data on cases where requests for information were refused.

CONTROLLING OFFICER'S REPLY

EDB301

(Question Serial No. 4851)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (-) Not specified
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) has implemented the “One Executive Officer for Each School” policy since February last year. What were the implementation details of the policy and the expenditure involved last year? Has the EDB assessed the effectiveness of the policy? If yes, what are the findings? If no, what are the reasons? What is the estimated expenditure on the “One Executive Officer for Each School” policy in 2019-20?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 416)

Reply:

Starting from the 2019/20 school year, the Government has provided all public sector schools (including special schools) and schools under the Direct Subsidy Scheme (DSS) with additional resources to strengthen the administrative support for schools and their management committees. The additional expenditure involved is around \$570 million each year.

As regards the implementation of the “One Executive Officer for Each School” policy, the Education Bureau (EDB) has provided public sector schools and DSS schools with resources for hiring additional administrative manpower. Schools are required to recruit at least one full-time School Executive Officer (School ExO) with a local bachelor’s degree (or equivalent), regardless of whether they choose to create a regular School ExO post or receive the School Executive Officer Grant (SEOG). Schools receiving the SEOG may procure school administration-related service from service provider(s) which should include the provision of at least one full-time school-stationed School ExO with a recognised degree.

In the 2019/20 school year, a total of 89 aided and caput schools created a regular School ExO post. Another 754 aided and caput schools received the SEOG. Aided, caput and DSS schools receiving the SEOG should recruit at least one full-time School ExO themselves in light of their school circumstances and needs of students, or procure school administration-related service from service provider(s) which should include the provision of at least one full-time school-stationed School ExO. In the 2019/20 school year, all government schools (65 in total) recruited contract School Administrative Executives (SAEs) with the SEOG.

During the initial implementation of the “One Executive Officer for Each School” policy, we are committed to provide appropriate support for schools and the newly-appointed School ExOs (applicable to aided, caput and DSS schools)/SAEs (applicable to government schools). In the 2019/20 school year, we have, according to our plan, organised a series of induction programmes, which cover various aspects of school administration matters such as school finances and procurement, appointment of staff, assessment of staff salary, handling of school complaints, crisis management, maintenance of school premises and safety issues for these newly appointed School ExOs/SAEs, so that they can have a better understanding of school administration matters. The induction programmes have been conducted gradually since September 2019. As usual, the EDB officers will continue to assess the implementation and effectiveness of the above policy through various means such as school visits and day-to-day contacts with schools.

(Question Serial No. 6759)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under this Programme that the Government will continue to work closely with the Committee on the Promotion of Civic Education in promoting civic education, including national education. Please advise this Committee of the respective numbers of primary schools, secondary schools and universities that were engaged in national education campaigns and activities in the past 5 years.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 37)

Reply:

All along, the Education Bureau (EDB) has been actively promoting values education (including moral, civic and national education (MCNE)) through creating synergy among curriculum, learning and teaching resources and various learning activities with the use of diversified strategies. For national education, the EDB adopts diversified strategies to enable teachers and students to gain an understanding of our country and develop a stronger sense of national identity. National education, in the broad sense, is incorporated into various subject curricula, such as History, General Studies, Chinese Language, Geography, Music and Arts, in which our country's developments in different areas such as history, culture and landscape are aptly covered, to deepen students' understanding of our country. Hence, we help students know more about our country through the teaching elements of relevant subjects. Furthermore, to enable teachers and students to develop a thorough understanding of our country, the EDB enhances the elements for heightening understanding of our country through curriculum enrichment, teacher training, learning and teaching resources, Mainland exchange programmes, strengthened interflow and co-operation between primary and secondary sister schools in Hong Kong and the Mainland and various life-wide learning activities (e.g. activities related to the Hong Kong Special Administrative Region Establishment Day or National Day). The above relevant curriculum arrangements and school support programmes for promoting national education have been widely implemented in primary and secondary schools. In light of their

schools' mission and the learning needs of their students, primary and secondary schools have been promoting MCNE inside and outside classroom flexibly through classroom teaching and life-wide learning activities such as visits, voluntary services, field trips and exchange activities in the Mainland. The EDB provides multifaceted support for schools on an ongoing basis to enhance students' understanding of our country as well as the strong relationship between Hong Kong and the Mainland. The above areas of work are an integral part of the day-to-day curriculum development work and their expenses are subsumed under the EDB's recurrent expenditure and cannot be separated.

For post-secondary institutions, the EDB respects their autonomy in curriculum design and encourages them to help boosting students' sense of national identity. Universities would organise a wide array of public talks, seminars and workshops in relation to the national education, Basic Law, governance and politics. Many institutions also offer general education and inter-disciplinary courses. Universities may continue to make full use of their resources to take forward the promotion, education and research, as necessary, on such topics as national education. As regards University Grants Committee-funded universities, the bulk of recurrent grants to these universities are in the form of a block grant based on the approved student numbers allocated to universities. As the expenditure for individual education themes is subsumed under the block grant to the universities, a breakdown is not available.

(Question Serial No. 5587)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (5) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

(1) Please provide details of staffing of various types of special schools and their boarding sections (if any); the salaries of different categories of posts; grants for different purposes (including maintenance of facilities); construction cost; standard school facilities; average unit cost per school place; area of floor space per boarder; and average unit cost per boarding place of different types of special schools.

(2) the numbers of students, new students (and their age range) and leavers (and their age range) of schools for children with severe intellectual disability in the past 5 years. Please also provide the number of new applicants waiting for admission to various types of adult services, and the number of school leavers admitted to various types of adult services in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 614)

Reply:

(1) Aided special schools are provided with teaching staff, various types of specialists and non-teaching/non-specialist staff on their staff establishment. The number of staff and their respective salary scales in the 2019/20 school year are set out at Appendix 1 and Appendix 2 respectively. The average unit cost per school place and per boarding place of each type of aided special schools in the 2019/20 school year is set out at Appendix 3.

Currently, all aided special schools are provided with an Expanded Operating Expenses Block Grant (EOEBG) for meeting operating expenses. The EOEBG includes virtually all non-salary recurrent grants, except those which are ad-hoc in nature, currently under review, and paid for very specific purpose on a reimbursement basis. It also includes the Composite Furniture and Equipment Grant for schools to procure furniture and equipment items, to cover the maintenance/repairs fees for these items, etc. The details of EOEBG can be accessed from the website of the Education Bureau:

<https://www.edb.gov.hk/en/sch-admin/fin-management/subsidy-info/ref-e-oebg-cfeg/index.html>

Aided special schools can also apply for capital subventions to carry out major school maintenance/repair works under the annual major repairs exercise and emergency repairs mechanism. As at the end of February 2020, the total approved project estimates in the 2019-20 financial year for aided special schools is about \$106 million.

There are different types/scales of special schools with different provision of facilities to meet the different needs of their target students. Taking the two Capital Works special school projects approved by the Finance Committee of the Legislative Council in June 2018, namely “8032ED – Conversion to Heung Hoi Ching Kok Lin Association Buddhist Po Kwong School” and “8033ED – Provision of Boarding Section of Hong Chi Pinehill School and reprovisioning of Boarding Section of Hong Chi Pinehill No. 2 School in Tai Po” as examples, the estimated construction unit costs, represented by building and building services costs, are \$26,775 and \$33,094 per m² of Construction Floor Area in money-of-the-day price respectively.

Apart from essential school facilities in the school section such as classrooms, special rooms (e.g. visual arts room, computer room, design and technology room, home economics room, etc. depending on the subjects offered by the special school), library, student activity centre, multi-purpose area, assembly hall, staff room and other ancillary facilities, including a disabled/fireman’s lift, facilities for the disabled, store rooms and toilets, the facilities provided for different types of special schools would be different. Other facilities such as physiotherapy room(s), occupational therapy room(s), speech therapy room(s) and social worker’s room(s), etc., would be provided as appropriate. The school facilities to be provided to each newly constructed special school are approved by the Property Vetting Committee (PVC) on a project basis as appropriate. PVC is chaired by the Assistant Director (Architectural) of Architectural Services Department with members from the Government Property Agency, Treasury Branch of the Financial Services and the Treasury Bureau and other members to be co-opted as required.

Similarly, approval would be sought from PVC on a project basis as appropriate for the boarding section of newly constructed special school, if any. Common facilities such as bedrooms, study area, TV/common room, dining/multi-purpose room, kitchen, laundry room, drying area, warden’s office, houseparents’ and programme workers’ office, nurse duty room/sick bay, sleep-in room(s) for staff on night shift and other ancillary facilities, including stores, toilets, bathrooms, relevant facilities for the disabled, etc., would be provided.

(2) The number of students, new students and leavers of schools for children with severe intellectual disability (SID) in the past 5 years is set out in Table I of Appendix 4. The number of students admitted to and waiting for admission to adult services in the past 5 years is set out in Table II of Appendix 4. According to our record, the age range of new students in the past 5 school years is from 6 to 13. With the implementation of the New Senior Secondary academic structure in the 2009/10 school year, students of special schools, including schools for children with SID, will leave school after completion of Secondary Six. Under special circumstances where individual students may need to extend their years of study due to valid reasons, arrangements will be made in accordance with the established mechanism. On the other hand, some students may leave earlier for various

reasons, such as having secured a post-school placement or deceased. The age range of school leavers in the past 5 school years is from 6 to 26.

I. Staff Establishment of the School Section in the 2019/20 School Year

School Type	Number of Teaching Staff Note 1	Non-teaching Staff	
		Number of Specialist Staff Note 2	Number of Non-specialist Staff Note 3
Visual Impairment	46.7	20.5	29
Hearing Impairment	27.5	9.5	19
Physical Disability	234.1	162.5	297
Mild Intellectual Disability Note 4	623.3	172.5	254.5
Moderate Intellectual Disability Notes 4 & 5	576.5	166	307.5
Severe Intellectual Disability Note 5	219.2	127.5	290
School for Social Development	204.1	27.5	101
Hospital School	65.9	Not Applicable Note 6	28

Notes:

- Teaching staff establishment excludes teachers employed under the following programmes, e.g. Supportive Remedial Service, Enhanced Support Service and Resource Support Programme, Home-bound Teaching Programme in the Hospital School and the Pilot Scheme to operate Special Units in the Schools for Social Development to support students with autism spectrum disorders who display severe adjustment difficulties etc.
- Specialist staff establishment includes school social worker, speech therapist, physiotherapist, occupational therapist, occupational therapy assistant, educational psychologist, braille staff and nurse.
- Non-specialist staff establishment includes clerical staff, school executive officer, laboratory technician, workshop attendant, janitor staff, motor/special driver, teacher assistant and artisan.
- Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
- 1 school for children with severe intellectual disability operates classes for children with moderate intellectual disability on a pilot basis starting from the 2017/18 school year. The figures are categorised according to the respective class types.
- The Hospital School operates classes at 20 hospitals. Specialist services for its students are provided by the respective hospitals.

II. Staff Establishment of the Boarding Section in the 2019/20 School Year

School Type	Number of Specialist Staff ^{Note 1}	Number of Non-specialist Staff ^{Note 2}
Visual Impairment	37	25.8
Hearing Impairment	6	8.4
Physical Disability	144	76.7
Moderate Intellectual Disability	115 ^{Note 3}	72 ^{Note 3}
Severe Intellectual Disability	198	122.5

Notes:

1. Specialist staff establishment includes warden, assistant warden, houseparent-in-charge, houseparent, programme worker and nurse.
2. Non-specialist staff establishment includes clerical assistant, janitor staff, cook and watchman.
3. The figures include relevant staff in 1 school for children with severe intellectual disability which has been involved in providing boarding service for children with moderate intellectual disability on a pilot basis since the 2017/18 school year.

I. Salary Scale of Teaching Staff in the 2019/20 School Year

Post	Salary Scale
Certificated Master/Mistress	\$30,235 – \$48,860
Assistant Master/Mistress	\$51,095 – \$61,415
Senior Assistant Master/Mistress	\$64,270 – \$73,775
Assistant Primary School Master/Mistress	\$31,750 – \$61,415
Primary School Master/Mistress	\$64,270 – \$73,775
Senior Primary School Master/Mistress	\$74,515 – \$75,265
Graduate Master/Mistress	\$31,750 – \$73,775
Senior Graduate Master/Mistress	\$74,515 – \$89,845
Principal Graduate Master/Mistress	\$85,870 – \$97,745
Principal II	\$93,710 – \$110,170
Principal I	\$117,580 – \$135,470

II. Salary Scale of Specialist Staff in the 2019/20 School Year

Post		Salary Scale
Educational Psychologist II		\$46,655 – \$73,775
Educational Psychologist I		\$74,515 – \$110,170
Occupational Therapist Assistant		\$20,035 – \$31,750
Occupational Therapist II		\$30,235 – \$48,860
Occupational Therapist I		\$51,095 – \$74,515
Senior Occupational Therapist		\$74,515 – \$89,845
Physiotherapist II		\$30,235 – \$48,860
Physiotherapist I		\$51,095 – \$74,515
Senior Physiotherapist		\$74,515 – \$89,845
Speech Therapist		\$33,350 – \$73,775
Special School Social Worker	Assistant Social Work Officer	\$33,350 – \$73,775
	Senior Social Work Assistant	\$46,655 – \$61,415
Registered Nurse		\$31,750 – \$51,095
Braille Staff		\$18,795 – \$31,750
Warden	Assistant Social Work Officer	\$33,350 – \$73,775
	Senior Social Work Assistant	\$46,655 – \$61,415
	Chief Social Work Assistant	\$64,270 – \$73,775
Assistant Warden	Social Work Assistant	\$22,725 – \$44,555
	Senior Social Work Assistant	\$46,655 – \$61,415
Houseparent		\$22,725 – \$44,555
Houseparent-in-charge		\$22,725 – \$44,555 ^{Note}
Programme worker		\$22,725 – \$44,555

Note:

A responsibility allowance will be payable to houseparents-in-charge at the rate of two increments (ranging from \$2,820 to \$4,305) above their substantive pay.

II. Salary Scale of Non-specialist Staff in the 2019/20 School Year

Post	Salary Scale
Laboratory Technician III	\$14,935 – \$16,945
Laboratory Technician II	\$21,340 – \$42,545
Laboratory Technician I	\$44,555 – \$58,635
School Executive Officer	\$31,750 – \$55,995
Workshop Attendant	\$14,620 – \$17,870
Artisan	\$17,675 – \$21,340
Motor Driver	\$17,675 – \$21,340
Special Driver	\$21,340 – \$24,070
Teacher Assistant	\$13,730 – \$16,175
Watchman	\$14,620 – \$17,870
Cook	\$17,675 – \$21,340
Clerical Assistant	\$13,735 – \$24,070#
Assistant Clerical Officer	\$15,560 – \$31,750#
Janitor Staff	\$13,730 – \$16,175#

Aided special schools are provided with an Administration Grant (AG) or Revised Administration Grant (RAG) for employing clerical and janitor staff, or contracting out clerical or janitor service to meet their specific needs. The schools concerned will be provided with a lump sum equivalent to the salary of the clerical (solely for AG) and janitor staff posts. The salary scale of these posts in the above table is meant for schools' calculation of grant/reference.

I. Average Unit Cost per School Place in the 2019/20 School Year

School Type	Average Unit Cost per School Place
Visual Impairment	\$469,500
Hearing Impairment	\$441,000
Physical Disability	\$397,500
Mild Intellectual Disability	\$242,000
Moderate Intellectual Disability	\$339,000
Severe Intellectual Disability	\$442,500
School for Social Development	\$249,000
Hospital School	\$242,500

II. Average Unit Cost per Boarding Place in the 2019/20 School Year

School Type	Average Unit Cost per Boarding Place
Visual Impairment	\$203,500
Hearing Impairment	\$375,500
Physical Disability	\$338,000
Moderate Intellectual Disability	\$287,000
Severe Intellectual Disability	\$367,500

I. Number of Students, New Students and Leavers of Schools for Children with Severe Intellectual Disability (SID) from the 2014/15 to 2018/19 School Years

School Year	2014/15	2015/16	2016/17	2017/18	2018/19
Number of Students ^{Note 1}	691	679	687	699	706
Number of New Students Notes 2 & 4	59	70	73	78	77
Number of School Leavers Notes 3 & 4	79	62	73	64	54

Notes:

1. Figures show the position as at September of the respective school years.
2. Only first admission to a school for children with SID is counted.
3. Only last attendance at a school for children with SID is counted.
4. Excluding students transferred between schools for children with SID.

II. Number of Students of Schools for Children with SID Admitted to and Waiting for Admission to Adult Services from the 2014/15 to 2018/19 School Years

School Year	2014/15	2015/16	2016/17	2017/18	2018/19
Admission	49	37	28	23	33
Wait-listing	10	6	15	17	4

Notes:

1. Adult services include day activity centres, sheltered workshop cum hostels, supported hostels, etc.
2. The information was collected from special schools in July and August of the respective school years. As such, the above figures may not reflect the actual situation of the post-school arrangements of the school leavers.

CONTROLLING OFFICER'S REPLY**EDB304****(Question Serial No. 5588)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

While the Government has implemented free kindergarten (KG) education since the 2017/18 school year, students enrolling in whole-day (WD) and long whole-day (LWD) KG classes still have to pay school fees. In this connection, please advise this Committee of:

- (1) the ceiling on school fees for non-profit-making KGs in the past 3 years;
- (2) the amount of subsidies provided under the fee remission scheme in the past 3 years; and
- (3) the total number of KGs (including KGs operating WD/LWD classes) whose amount of school fees exceeds the subsidy ceiling and the amount of such differences in the past 3 years (please provide information in tabular form).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 615)Reply:

- (1)
For kindergartens (KGs) joining the KG education scheme (Scheme), the school fees they charge for half-day (HD), whole-day (WD) and long whole-day (LWD) classes must not exceed the respective fee ceilings as specified by the Education Bureau (EDB). From the 2017/18 to 2019/20 school years, the respective school fee ceilings per student per annum for the KGs joining the Scheme are set out below:

School year	HD classes (\$)	WD/LWD classes (\$)
2017/18	9,960	25,890
2018/19	10,100	26,250

School year	HD classes (\$)	WD/LWD classes (\$)
2019/20	10,530	27,380

Families with financial needs may apply for fee remission. The aforementioned school fee ceilings are not applicable to the non-profit-making KGs not joining the Scheme.

(2)

The Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) provides needy families with financial assistance in the form of fee remission with a view to reducing parents' financial burden for providing pre-primary education to their children. From the 2017/18 to 2019/20 school years, the maximum annual fee subsidies for each eligible student are set out below:

School year	HD classes (\$)	WD/LWD classes (\$)
2017/18	4,400	12,400
2018/19	4,400	14,000
2019/20	5,400	14,500

(3)

In each of the school years from 2017/18 to 2019/20, around 10 Scheme-KGs operating HD classes and around 130 Scheme-KGs operating WD/LWD classes charged a school fee exceeding the maximum fee subsidy for each eligible student under the KCFRS. Since KGs operate with a high level of diversity and the operating costs and expenditures vary among KGs, we consider that details on their school fees should not be provided so as to avoid misunderstanding. Every year, the EDB compiles the Profile of Kindergartens and Kindergarten-cum-Child Care Centres, which contains a list of all KGs and KG-cum-child care centres in Hong Kong and relevant school information such as annual school fees, curricular, and school characteristics. It serves as a comprehensive reference for parents. Parents may consider their needs and choose a suitable KG for their children.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5610)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (700) General non-current
Programme: (-) Not specified
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

What are the estimated expenditures and work plans for the new items “833 Parent education programmes for non-Chinese speaking parents”, “950 Funding for the Student Activities Support Grant”, “954 Pilot international study programme under the Training and Support Scheme” and “955 Payment of examination fees for school candidates sitting for the 2021 Hong Kong Diploma of Secondary Education Examination”? Why is the funding for these new items sought in the context of the Appropriation Bill instead of being sought separately from the Finance Committee of the Legislative Council?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 847)

Reply:

The item of “Parent education programmes for non-Chinese speaking parents” will last for 5 years involving a total estimated expenditure of \$15 million. The Education Bureau (EDB) will strengthen parent education for parents of non-Chinese speaking (NCS) students and encourage them to enrol their children to local kindergartens and strengthen their communication with schools. Starting from the 2020/21 school year, we will provide a series of parent education programmes for NCS parents, including outreach programmes and seminars respectively run by non-governmental organisations and/or tertiary institutions commissioned by the EDB, so as to help them support their children’s learning, encourage their children to master the Chinese language, and help them have more comprehensive understanding of the multiple pathways available to their children.

The Government set up the \$2.5 billion Student Activities Support Fund (the Fund) in early 2019, to generate investment return for the EDB to provide public sector schools and schools under the Direct Subsidy Scheme with the Student Activities Support Grant (SAS Grant) to support primary and secondary students with financial needs to participate in out-of-classroom learning activities organised or recognised by schools. As the rate of investment return from the Fund in 2019 was lower than expected, the EDB has reserved

\$50 million for a non-recurrent commitment to meet the expected shortfall in funding for the SAS Grant in 2020-21 and 2021-22 for supporting students with financial needs to participate in life-wide learning activities.

To further enhance the vocational and professional education and training (VPET) learning experience, for 3 years starting from the 2020/21 academic year, the Government will provide the Vocational Training Council (VTC) with a non-recurrent funding of about \$19.95 million in total to support trainees under the Training and Support Scheme to take part in study and exchange programmes outside Hong Kong, attend short-term skills and practical courses as well as visit institutions/enterprises in those places, allowing them to understand the development of relevant industries and the learning experience of VPET students in other places, thereby facilitating skills exchange and broadening their exposure. The VTC will set up a project team to work out the details of the programmes.

A series of relief measures are announced in the 2020-21 Budget. These include the proposed one-off initiative to pay examination fees for school candidates sitting for the 2021 Hong Kong Diploma of Secondary Education (HKDSE) Examination. About 44 100 school candidates will be benefitted. The estimated expenditure is \$151 million, which includes provision for contingencies.

The arrangement to include in the draft Estimates funding proposals for creating commitments or increasing expenditure ceilings for approved commitment items under the General Revenue Account for scrutiny and approval by the Legislative Council (LegCo) in the context of the Appropriation Bill is in line with the requirements under Sections 5 and 6 of the Public Finance Ordinance. The Government explained the relevant arrangements to the Finance Committee in early 2015. For items “833 Parent education programmes for non-Chinese speaking parents”, “950 Funding for the Student Activities Support Grant” and “954 Pilot international study programme under the Training and Support Scheme”, before the funding proposals were included in the draft Estimates, we briefed the LegCo Panel on Education in November 2019.

Since the measure of paying examination fees for HKDSE Examination candidates in the past 2 years received general support from the LegCo Panel on Education and Finance Committee, the Government has included in the draft Estimates the funding proposal for payment of examination fees for candidates sitting for the 2021 HKDSE Examination.

We have also included the necessary provision for the proposals under the respective heads and sub-heads of expenditure to facilitate Members’ consideration.

EDB306

(Question Serial No. 5680)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

(1) the number of ethnic minority students with special educational needs (SEN) in each of the grade levels from K1 to S6 in public mainstream schools (including Direct Subsidy Scheme Schools) disaggregated by the types of SEN for the past 5 years;

(2) the number of non-Chinese speaking (NCS) students with SEN in each of the grade levels from K1 to S6 in public mainstream schools (including Direct Subsidy Scheme Schools) disaggregated by the types of SEN for the past 5 years;

(3) the total number of public mainstream schools and those that applied for Chinese learning support for NCS students with 1 to 9 and 10 or above NCS SEN students in the past 5 years, with the % among those who have NCS SEN students in schools, and the respective amount of funding involved disaggregated by number of NCS SEN students;

(4) the total number of public special schools and those that applied for Chinese learning support for NCS students with 1 to 9, 10 to 25, and 26 or above NCS SEN students in the past 5 years, and the respective amount of funding involved disaggregated by number of NCS SEN students;

	total no. of special schools	no. of schools with 1-9 NCS SEN students	no. of school with 1-9 NCS SEN students applying for the NCS-SEN Grant (% among the related schools)	no. of schools with 10-25 NCS SEN students	no. of school with 10-25 NCS SEN students applying for the NCS-SEN Grant (% among the related schools)	no. of schools with 26 or above NCS SEN students	no. of schools with 26 or above NCS SEN students applying for the NCS-SEN Grant (% among the related schools)

2015/16							
2016/17							
2017/18							
2018/19							
2019/20							

(5) the number of public mainstream and special schools that adopted ‘Chinese Language Curriculum Second Language Learning Framework’ in the past 5 years;

(6) did the schools use the Chinese Language Assessment Tools[1]? If yes, please provide the number of public mainstream and special schools and the percentage among funded schools that use the Assessment Tools; if no, the reasons;

(7) the number of NCS SEN students participating in the TSA Chinese assessments in the past 5 years;

the Chinese level of all NCS SEN students with reference to the Assessment Tools (disaggregated by grade and respective levels).	2014/15	2015/16	2016/17	2017/18	2018/19
No. of Secondary 1-3 NCS SEN students accessed					
No. of Secondary 1-3 NCS SEN students reached Key Stage III					
No. of Primary 4-6 NCS SEN students accessed					
No. of Primary 4-6 NCS SEN students reached Key Stage II					
No. of Primary 1-3 NCS SEN students accessed					
No. of Primary 1-3 NCS SEN students reached Key Stage I					
No. of NCS SEN students accessed					
No. of NCS SEN students reached Entry Stage					

[1] The Education Bureau has been using Chinese Language Assessment Tools to determine NCS students’ Chinese Language level. They are ranked as achieving High, Medium or Low performance in four different stages namely the Entry Stage, Key Stage I (Primary 1-3), Key Stage II (Primary 4-6) and Key Stage III (Secondary 1-3). Each stage of these assessment tools provides “exemplars on listening, speaking, character recognition/reading and character writing/writing, alongside audio recordings and scripts, reference answers and marking schemes etc. to facilitate teachers’ use” (EDB website).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 506)

Reply:

- (1) and (2) As the support services for children with special needs at pre-primary levels are provided by the Social Welfare Department, the Education Bureau (EDB) does not maintain the relevant information. The number of non-Chinese speaking (NCS) ethnic minority students with special educational needs (SEN) and the number of NCS students with SEN studying in public sector ordinary schools and Direct Subsidy Scheme (DSS) schools by SEN type and grade level from the 2015/16 to 2019/20 school years are set out at Annex A and Annex B.
- (3) and (4) The number of public sector ordinary schools from the 2015/16 to 2019/20 school years is 847, 847, 846, 848 and 847 respectively. The number of special schools is 59, 59, 60, 59 and 59 respectively. The number of NCS students with SEN studying in public sector ordinary schools is 462, 512, 547, 611 and 671. The number of NCS students studying in special schools is 363, 367, 390, 401 and 435 respectively. Students studying in special schools have special educational needs, and they will not be further categorised as NCS students with/without SEN.

Starting from the 2014/15 school year, EDB has substantially increased the additional funding to schools to further enhance the support for the learning of the Chinese language of NCS students (including NCS students with SEN), including the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”), which was drawn up in consultation with teachers and language experts, in primary and secondary schools. All public sector ordinary schools, DSS schools offering the local curriculum and special schools offering an ordinary school curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted. Special schools admitting 6 to 9 NCS students and offering an ordinary school curriculum, and special schools admitting 6 or more NCS students and only offering an adapted curriculum are provided with an additional funding of \$0.65 million. As regards ordinary schools admitting a relatively small number of NCS students (i.e. 1 to 9 NCS students) and special schools admitting a relatively small number of NCS students (i.e. 1 to 5 NCS students), they may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes. The number of schools provided with the additional funding from the 2015/16 to 2019/20 school years is set out at Annex C.

We do not have readily available statistics on the percentage of schools admitting different number of NCS students with SEN out of the total number of schools admitting NCS students with SEN, the respective amount of funding involved, etc. as the provision of the above-mentioned funding for the support for learning the Chinese language depends on the number of NCS students admitted by eligible schools, which will not be adjusted based on whether the NCS students have SEN or not. Schools admitting students with

SEN are provided with additional support separately. For NCS students with SEN, schools may also pool together and deploy both kinds of resources to cater for their special needs.

On the other hand, to further support NCS students with SEN in adapting to school life and making smooth transition through different learning stages, starting from the 2019/20 school year, EDB has provided a recurrent cash grant known as the Grant for Supporting Non-Chinese Speaking Students with Special Educational Needs (the Grant) for public sector ordinary primary and secondary schools admitting these students to employ teaching assistants to assist teachers in designing activities and teaching materials, procure translation services, or provide the students concerned with social and emotional management training, etc. The Grant is disbursed under a 3-tier structure according to the number of NCS students with SEN enrolled in each school, i.e. \$100,000 for 1 to 9 students, \$200,000 for 10 to 25 students, and \$300,000 for 26 or more students per year. In subsequent school years, the grant rates will be adjusted annually according to the change in the Composite Consumer Price Index. In the 2019/20 school year, the total number of public sector ordinary primary and secondary schools admitting 1 to 9, 10 to 25, and 26 or more of these students and provided with the Grant is 246, 13 and 3 respectively.

- (5) and (6) All ordinary schools admitting a relatively large number of NCS students (i.e. schools that are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year) have to implement the “Learning Framework”. The “Learning Framework” provides steps and methods for learning and teaching, as well as assessment according to the learning progress of NCS students, which is of substantial help to teachers teaching NCS students the Chinese language and is also widely adopted by ordinary schools admitting NCS students. It should be noted that regardless of the number of NCS students, teachers should take into account the starting points and abilities of students to make adaptation after they have made reference to the “Learning Framework” instead of applying the same steps to all NCS students. The number of these two types of schools over the past 5 years is set out at Annex C.

Schools are provided with practical tools and steps, as well as reference materials on learning and teaching, including the “Chinese Language Assessment Tools for NCS Students” (“Assessment Tools”). The assessment tasks under the “Assessment Tools” cover the entry stage, Key Stage 1 (Primary 1-3), Key Stage 2 (Primary 4-6), Key Stage 3 (Secondary 1-3) and Key Stage 4 (Secondary 4-6). The tasks in each stage are designed in conjunction with the expected learning outcomes across different levels of the “Learning Framework”, so as to assist teachers in teaching and providing assessment feedback to NCS students. Aligned with curriculum planning, teaching progress and NCS students’ learning needs, teachers may adopt a school-based approach in using the “Assessment Tools” to assess NCS students’ learning progress over time, provide timely feedback on learning and set progressive learning targets for their NCS students. Teachers may use part or all of the questions in the exemplars and make adaptation to the

questions as appropriate according to the needs of NCS students, and administer the assessment at the mode and time as schools consider appropriate. The frequency of assessments and whether adaptation is made to the requirements of the questions vary across schools or even among individuals. Making reference to the frequency of assessments cannot reflect how a school adopts the “Learning Framework” either. Therefore, schools are not required to submit information about the frequency of assessments, and we do not collect information on the number of NCS students (including NCS students with SEN) who have reached different learning stages.

Regarding special schools, generally speaking, special schools offering an ordinary school curriculum make reference to the “Learning Framework” mentioned above while other special schools make reference to the “Chinese Language Curriculum Second Language Adapted Learning Framework (for NCS Students with Intellectual Disabilities)” (“Adapted Framework”). The schools implement the “Learning Framework” and/or the “Adapted Framework” in light of NCS students’ performance in learning the Chinese language. As the learning needs and level of learning adaptation of each student in special schools may vary, we do not collect information about special schools’ implementation of the “Learning Framework” and/or the “Adapted Framework”. Besides, in general, the “Assessment Tools” are applicable to NCS students studying in special schools adopting an ordinary school curriculum while school-based assessment methods are adopted for NCS students studying an adapted curriculum. However, taking into consideration students’ learning performance and school-based contexts, schools may adopt the “Assessment Tools” flexibly and use diversified assessment strategies to observe students’ performance and keep track of their learning progress and learning outcomes, with a view to assessing their learning effectiveness and providing effective feedback. Also, schools should render the support in line with the “Individual Education Plans” to strengthen the support for their NCS students.

- (7) Schools may request accommodation measures on behalf of students with SEN and NCS students participating in the Territory-wide System Assessment (TSA). In the past 5 years, the number of NCS students provided with such accommodation measures as requested by schools is as follows:

2014/15 school year: 105 (Primary 3), 78 (Primary 6), 29 (Secondary 3)
2015/16 school year: 13 (Primary 3[^]), 2 (Primary 6[△]), 29 (Secondary 3)
2016/17 school year: 73 (Primary 3[#]), 59 (Primary 6), 44 (Secondary 3)
2017/18 school year[@]: 11 (Primary 6[△]), 54 (Secondary 3)
2018/19 school year[@]: 59 (Primary 6), 52 (Secondary 3)

△ Since 2012, the Primary 6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

^ The 2016 Primary 3 TSA was conducted as part of the 2016 Tryout Study. The data was gathered from some 50 participating schools.

- # The assessment at Primary 3 level in 2017 was conducted in the form of the Basic Competency Assessment Research Study. Participating schools covered all primary schools in Hong Kong.
- @ Starting from 2018, the Primary 3 TSA has been conducted with a low-stake approach of “no student names, no school names, no collection of reports and selection of participants by sampling” and EDB no longer maintains relevant information about the number of students participating in the Primary 3 TSA.

Number of non-Chinese speaking (NCS) ethnic minority students with special educational needs (SEN) in public sector ordinary schools and Direct Subsidy Scheme (DSS) schools by SEN type and grade level from the 2015/16 to 2019/20 school years

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with the Learning Support Grant (LSG) to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information about students with SEN requires parental consent. Given that many types of MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to EDB, and this may result in a relatively smaller number of students with MI.
2. Students whose spoken language at home is not Chinese are broadly categorised as NCS students. The figures above do not include those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.
3. Starting from the 2019/20 school year, the provision of LSG to DSS schools is based on the number of students with SEN and academic low achievers (applicable to primary schools) enrolled in each school, as well as the DSS LSG unit rate. Hence, DSS schools are required to submit SEN information of the students concerned to EDB for calculating the allotment of the LSG. Before that, the relevant resources were included in the DSS unit subsidy, and we did not compile the number of students concerned.

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with the Learning Support Grant (LSG) to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information about students with SEN requires parental consent. Given that many types of MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to EDB, and this may result in a relatively smaller number of students with MI.
2. Students whose spoken language at home is not Chinese are broadly categorised as NCS students. The figures above do not include those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.
3. Starting from the 2019/20 school year, the provision of LSG to DSS schools is based on the number of students with SEN and academic low achievers (applicable to primary schools) enrolled in each school, as well as the DSS LSG unit rate. Hence, DSS schools are required to submit SEN information of the students concerned to EDB for calculating the allotment of the LSG. Before that, the relevant resources were included in the DSS unit subsidy, and we did not compile the number of students concerned.

**Number of schools with the additional funding and the expenditure
by school type and number of non-Chinese speaking (NCS) students
from the 2015/16 to 2019/20 school years**

School year	Public sector ordinary schools and Direct Subsidy Scheme (DSS) schools (Note 1)				Special schools (Note 2)				Total expenditure (\$ million)
	Total number of schools	Number of schools with the additional funding			Total number of schools	Number of schools with the additional funding			
		Number of NCS students	Number of schools	Expenditure (\$ million)		Number of NCS students	Number of schools	Expenditure (\$ million)	
2015/16	928	Fewer than 10	83	4.15	59	Fewer than 6	9	0.45	223.95
		10 or more	197	202.50		6 or more	25	16.85	
2016/17	928	Fewer than 10	179	8.95	59	Fewer than 6	14	0.70	245.10
		10 or more	216	219.25		6 or more	24	16.20

		10 or more	228	230.80		6 or more	25	16.85	
2018/19	928	Fewer than 10	216	10.80	59	Fewer than 6	16	0.80	271.00
		10 or more	241	242.70		6 or more	25	16.70	
2019/20	926	Fewer than 10	212	10.60	59	Fewer than 6	15	0.75	282.25
		10 or more	252	254.20		6 or more	25	16.70	

Notes:

1. Figures include public sector schools and DSS schools offering the local curriculum (1 DSS secondary school offering non-local curriculum only is not provided with the additional funding), but exclude special schools.
2. Hospital School is not included due to the transitional nature of the education service provided.
3. Figures for the 2019/20 school year (including the number of schools and the expenditure) are provisional figures.
4. In the past 5 years, there were schools that admitted a relatively small number of NCS students (i.e. 1 to 9 NCS students for public sector ordinary schools and DSS schools and 1 to 5 NCS students for special schools) and did not submit funding applications to the Education Bureau, and hence these schools were not provided with the additional funding.

CONTROLLING OFFICER'S REPLY

EDB307

(Question Serial No. 5681)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the following:

- (1) How many students in Direct Subsidy Scheme (DSS) schools have applied for accommodation measures for the Territory-wide System Assessment (TSA) at Primary 3, Primary 6 and Secondary 3?
- (2) What is the number of qualified teachers on special education in DSS schools? How many of them are also qualified to teach in English?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 507)

Reply:

- (1) Irrespective of school types, the Hong Kong Examinations and Assessment Authority (HKEAA) provides students with special educational needs (SEN) with accommodation measures as requested by their schools in the Territory-wide System Assessment in light of their needs. The HKEAA does not categorise relevant information according to the funding mode of schools. Hence, the Education Bureau (EDB) does not maintain the relevant data as well.
- (2) Starting from the 2007/08 school year, the EDB has been providing structured training courses on supporting students with SEN pitched at the basic, advanced and thematic levels (BAT courses) for serving teachers. Teachers from both public sector and Direct Subsidy Scheme (DSS) schools can enrol in the courses to enhance their professional capacity in catering for students with SEN. The EDB does not have information on special education training of teachers in DSS schools and the relevant statistics.

CONTROLLING OFFICER'S REPLY**EDB308****(Question Serial No. 5682)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the number of non-Chinese speaking students with special educational needs that participated in the Territory-wide System Assessment in the past 5 school years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 508)

Reply:

Schools may request accommodation measures on behalf of students with special educational needs (SEN) and non-Chinese speaking (NCS) students participating in the Territory-wide System Assessment (TSA). In the past 5 years, the number of NCS students provided with such accommodation measures according to their SEN as requested by schools is as follows:

2014/15 school year:	105 (Primary 3)	78 (Primary 6)	29 (Secondary 3)
2015/16 school year:	13 (Primary 3 [^])	2 (Primary 6 [△])	29 (Secondary 3)
2016/17 school year:	73 (Primary 3 [#])	59 (Primary 6)	44 (Secondary 3)
2017/18 school year [@] :	11 (Primary 6 [△])	54 (Secondary 3)	
2018/19 school year [@] :	59 (Primary 6)	52 (Secondary 3)	

[△] Since 2012, the Primary 6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

[^] The 2016 Primary 3 (P3) TSA was conducted as part of the 2016 Tryout Study. The data was gathered from some 50 participating schools.

[#] The assessment at Primary 3 level in 2017 was conducted as the Basic Competency Assessment Research Study, which covered all primary schools in Hong Kong.

[@] Starting from 2018, the P3 TSA has been conducted with a low-stake approach of “no student names, no school names, no collection of reports and selection of participants by sampling” and the Education Bureau no longer maintains relevant information about the number of students taking part in the P3 TSA.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Learning Support Grant (including additional grant) is a subsidy disbursed to schools according to the tier-2 and tier-3 support required by students with special educational needs (SEN). What was the respective amount of Learning Support Grant (excluding additional grant) disbursed to students with SEN requiring tier-2 and tier-3 support in the past 5 years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 509)

Reply:

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention, has been providing schools with additional resources (mainly the Learning Support Grant (LSG)), professional support and teacher training, and encouraging schools to adopt the Whole School Approach to support students with SEN through the 3-tier Intervention Model, taking into account their support needs.

To further enhance the support for students with SEN, the EDB has raised the ceiling of the LSG from \$1 million to \$1.5 million per school per annum since the 2013/14 school year and increased the grant rates by 30% in the 2014/15 school year. From the 2015/16 school year onwards, the grant rates and the ceiling of the LSG for each school year continue to be adjusted annually according to the change in the Composite Consumer Price Index. Besides, starting from the 2017/18 school year, the LSG covers students with mental illness.

The EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for Integrated Education (IE) and extending the LSG to all public sector ordinary schools to replace the Intensive Remedial Teaching Programme and IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reaches the specific

threshold. With the implementation of the above enhanced LSG, the amount of LSG received by each public sector ordinary school is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. In the 2019/20 school year, the grant per year per student requiring tier-2 and tier-3 support has been increased to \$15,000 and \$60,000 respectively. The expenditure on the LSG for the past 5 years is as follows:

School year	2015/16	2016/17	2017/18	2018/19	2019/20 ^(Note) (Revised estimate)
Expenditure on LSG (\$ million)	500.1	539.0	589.6	646.3	749.0

Note: Starting from the 2019/20 school year, schools will have additional regular teaching post(s) titled as Special Educational Needs Support Teacher converted/provided if the total amount of LSG reaches the specific threshold, so that schools will have a more stable teaching force and additional resources for flexible deployment to support students with SEN. Under the above arrangements, a total of some 1 000 additional regular teaching posts were created in the 2019/20 school year, with 675 schools (431 primary schools and 244 secondary schools) having 1 to 3 such post(s) created. The above expenditure excludes the expenditure for creation of the additional regular teaching posts.

The LSG is calculated on the basis of the number of students with SEN admitted by schools and the tier of support the students require. Schools should pool and deploy the LSG and other school resources flexibly and holistically for employing additional teachers, teaching assistants, or hiring professional services, etc. to render appropriate support services for students with SEN based on their needs. Hence, setting out the respective amount of LSG disbursed to students requiring tier-2 and tier-3 support in schools does not reflect an accurate account of all of the support provided to these students.

(5) if the government refuses to provide the data above, inform the Council of how it and the public can monitor whether there is de facto racial segregation in the education system;

and

(6) given that the Education Bureau said it is committed to facilitating the integration of NCS students and providing education-related information to NCS parents and students, inform the Council how parents can obtain the data above; and if parents have no way to find out which schools have a high proportion of ethnic minority students, whether the Education Bureau can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 510)

Reply:

For the planning of education support measures for non-Chinese speaking (NCS) students, their need for support is determined by whether their spoken language at home is Chinese or not (instead of their ethnicity). According to the information collected through the annual Enrolment Survey, the respective number of schools with NCS students and NCS ethnic minority (EM) students ranging from “0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or more” from the 2015/16 to 2019/20 school years is tabulated at Annex A while the number of schools by the percentage of NCS students among all students of individual schools and by the percentage of NCS EM students among all students of individual schools are tabulated at Annex B. Since the definition of NCS students is based on the language spoken at home instead of the ethnicity of the students, the data provided in Annex A and Annex B are not comparable.

The Education Bureau (EDB) is committed to encouraging and supporting the integration of NCS students (notably EM students) into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese language. A dedicated webpage on education services for NCS students, which contains information about the education system and schools, has been set up for NCS students and their parents. All relevant information (including information related to making school choices) is published in Chinese and English, with translation into major EM languages provided where applicable for the easy reference of non-Chinese speakers. Details are tabulated at Annex C.

EDB has been actively promoting parent education, emphasising that parents (including parents of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider arranging for their children to study in schools which can provide an immersed Chinese language learning environment. This is conducive to their children’s learning of the Chinese language as well as integration into the community. Parents of NCS students, like other parents, are encouraged to join the on-site school visits organised by individual schools and Federations of Parent-Teacher Associations on a district basis to learn more about the schools so as to choose a suitable school for their children. EDB will continue organising dedicated briefing sessions with simultaneous interpretation services for parents of NCS students. Since the 2015/16 school year, the Committee on Home-School Co-operation has published the English printed version of the School Profiles for distribution to parents of NCS students studying at K3 and Primary 6 levels via kindergartens and primary schools for their easy access to the

information in the School Profiles. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on “Education Support for NCS Students” has been added to the School Profiles for schools to provide information on relevant support for NCS students. All public sector schools and Direct Subsidy Scheme (DSS) schools admitting NCS students and provided with the additional funding are required to specify that additional support, including after-school support, is provided for their NCS students in learning of the Chinese language. From the 2019/20 school year onwards, EDB has further enhanced the newly added column by requesting the schools concerned to provide more details of the relevant support measures. EDB encourages schools to keep enriching the English contents of their School Profiles and school webpages. Furthermore, EDB has set up a hotline for NCS students and their parents, and if necessary, simultaneous interpretation services can be arranged through the Centre for Harmony and Enhancement of Ethnic Minority Residents funded by the Home Affairs Department. We believe that our provision of information on the education system and schools can facilitate parents of NCS students to make school choices for their children. Starting from the 2020/21 school year, EDB will strengthen parent education for parents of NCS students and encourage them to enrol their children to local kindergartens and strengthen their communication with schools. We will provide a series of parent education programmes for NCS parents to help them support their children’s learning, encourage their children to master the Chinese language, and help them have more comprehensive understanding of the multiple pathways available to their children.

The prevailing education system, including the school places allocation systems, provides NCS students with equal opportunities for admission to public sector schools as their Chinese-speaking peers. Due to various reasons, including schools’ location in districts where more NCS people reside, parents’ tendency to arrange for their younger children to study in the same school with their older siblings (at the “Discretionary Places Admission” stage under the Primary One Admission System, applicants applying for enrolment in a school in which their older sibling(s) is/are studying will be admitted by the school), and some parents’ preference for schools with rich experience in taking care of NCS students, etc., the ratio of NCS students in some schools is inevitably higher than that in other schools. Unless the school choices of NCS students are to be strictly restricted, or an upper limit is to be set on the ratio of NCS students in schools, the phenomenon that more NCS students study in schools located in certain districts will not change significantly. However, such measures are not feasible because they will not only limit the school choices of NCS students, but also cause some Chinese-speaking students to be allocated to schools which they have not chosen. We believe that the existing support measures, including parent education that we have been committed to strengthening in recent years, are conducive to encouraging NCS students to choose to study in mainstream schools and facilitating their Chinese learning and integration into the community.

**Number of public sector schools and Direct Subsidy Scheme schools
with non-Chinese speaking (NCS) students
from the 2015/16 to 2019/20 school years**

School year	Schools	Number of primary and secondary schools with NCS students

Reply:

As a general rule, all politically appointed officials and civil servants should observe the same principles in the provision of meals for official purposes. They are required to exercise prudent judgement and economy in order to avoid any public perception of extravagance and act in accordance with the relevant regulations and administrative guidelines. According to the existing guidelines, the expenditure on official meals should not exceed \$450 per person for lunch or \$600 per person for dinner, inclusive of all expenses incurred on food and beverages consumed on the occasion, service charges and tips. The Education Bureau (EDB), University Grants Committee (UGC) Secretariat and Working Family and Student Financial Assistance Agency (WFSFAA) follow the same principles and guidelines on official entertainment. In 2018-19 and 2019-20 (as at 29 February 2020), the actual expenses on official entertainment incurred by EDB were \$571,774 and \$178,038 respectively and the estimated expenditure for 2020-21 is \$541,000. The actual expenses on official entertainment incurred by the UGC Secretariat were \$493,475 and \$267,212 in 2018-19 and 2019-20 (as at 29 February 2020) respectively and the estimated expenditure for 2020-21 is \$576,000. The actual expenses on official entertainment incurred by WFSFAA were \$5,548 and \$3,486 in 2018-19 and 2019-20 (as at 29 February 2020) respectively and the estimated expenditure for 2020-21 is \$49,000.

In line with the Government's green policy, public officers should as far as possible refrain from bestowing gifts/souvenirs on others during the conduct of official activities. According to the existing guidelines, where bestowal of gifts or souvenirs is necessary or unavoidable due to operational, protocol or other reasons, the gift/souvenir items should not be lavish or extravagant and the number should be kept to a minimum. Also, the exchange of gifts/souvenirs should only be made from organisation to organisation. As we do not specifically maintain separate accounts for the expenses on the procurement of gifts and souvenirs, relevant statistics are not available.

Reply:

The numbers of kindergartens (KGs), teachers and students (excluding classes for children aged 2 to 3) by type of KGs from the 2015/16 to 2019/20 school years are tabulated at Appendix. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile teachers' information on the basis of full-time and part-time employment except their salaries, which is directly related to the working hours. Hence, we are unable to provide the numbers of full-time teachers and part-time teachers as requested.

Numbers of KGs, teachers and students (excluding classes for children aged 2 to 3)
by type of KGs operating whole-day (WD) classes only, operating half-day (HD) classes only and
operating both WD and HD classes from the 2015/16 to 2019/20 school years

CONTROLLING OFFICER'S REPLY**EDB313****(Question Serial No. 5687)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please set out kindergarten (KG) teachers' salaries in the past 5 years by KG type (including (i) local non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS) (excluding former aided child care centres (FACs)); (ii) FACs; (iii) local NPM KGs not joining PEVS; (iv) local private independent KGs; and (v) non-local KGs):

	KGs with whole-day (WD) classes only	KGs with half-day (HD) classes only	KGs with both WD and HD classes
Full-time (FT) teachers' average salary			
FT teachers' median salary			
FT teachers' highest salary			
FT teachers' lowest salary			

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 513)Reply:

For information on the salaries of teachers in kindergartens (KGs) joining the KG education scheme (KG Scheme) (Scheme-KGs) from the 2015/16 to 2018/19 school years, please refer to our replies to items (i) and (ii) below. The information provided is based on the survey on KG teachers/child care staff conducted by the Education Bureau (EDB) in September of the respective school years. Each year, we request Scheme-KGs to properly follow up on individual cases where teachers' salaries are not in compliance with the salary ranges. For the 2019/20 school year, the EDB notified Scheme-KGs in early March this year of the salary ranges for teaching staff which have been adjusted based on the latest civil

service pay adjustment announced at the end of February. Scheme-KGs would adjust the salaries of their teachers accordingly if necessary. Hence, the EDB is unable to provide the relevant information relating to Scheme-KGs for the 2019/20 school year at this stage.

For information on the salaries of full-time (FT) teachers in local non-profit-making (NPM) KGs not joining the Pre-primary Education Voucher Scheme (PEVS)/KG Scheme, local private independent (PI) KGs and non-local KGs from the 2015/16 to 2019/20 school years, please refer to our replies to items (iii) to (v) below. Information provided is based on the findings from the above-mentioned survey. Figures for the 2019/20 school year are provisional.

- (i) FT KG teachers in local NPM KGs joining the PEVS in the 2015/16 and 2016/17 school years / the KG Scheme in the 2017/18 and 2018/19 school years (excluding former aided child care centres (FACs))

School year	KGs with	Monthly salary of FT teachers (\$)			
		Average salary	Median salary	Highest salary	Lowest salary (Note)
2015/16	whole-day (WD) classes only	24,191	25,505	39,360	10,523

2018/19	WD classes only	28,490	25,818	48,540	8,360
	HD classes only	27,862	25,790	70,340	10,840
	Both WD and HD classes	26,044	24,270	63,930	9,410

(ii) FT KG teachers in FACs

School year	KGs with	Monthly salary of FT teachers (\$)			
		Average salary	Median salary	Highest salary	Lowest salary (Note)
2015/16	WD classes only	23,094	22,192	37,590	8,645
	Both WD and HD classes	21,298	20,305	34,100	8,570
2016/17	WD classes only	24,249	22,560	41,318	10,766
	Both WD and HD classes	22,804	21,255	35,780	13,000
2017/18	WD classes only	25,751	23,970	56,700	11,463
	Both WD and HD classes	23,920	22,560	37,570	12,725
2018/19	WD classes only	27,832	25,790	46,563	13,045
	Both WD and HD classes	26,873	25,790	40,420	21,680

Note:

The monthly salary of teachers in Scheme-KGs, in principle, should not be lower than \$21,680 in the 2018/19 school year. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the teacher-to-pupil ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced Qualified Kindergarten Teachers already serving in the sector, non-Early Childhood Education (ECE) degree-holders, teachers employed for creating a rich language environment in schools, etc. (all of the above teachers must be a registered teacher or permitted teacher). The salary range under the KG Scheme is not applicable to these teachers as they do not possess Certificate in ECE or above qualifications. We are now reviewing the arrangement to determine whether the flexibility should be granted for a further period.

(iii) FT KG teachers in local NPM KGs not joining the PEVS in the 2015/16 and 2016/17 school years / the KG Scheme in the 2017/18 to 2019/20 school years

FT teachers' job-switching rate			

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 514)Reply:

The respective wastage rate and job-switching rate of teachers in local non-profit-making (NPM) kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) or the KG education scheme (KG Scheme) (excluding former aided child care centres (FACs)), FACs, local NPM KGs not under PEVS or KG Scheme, local private independent (PI) KGs and non-local KGs from the 2015/16 to 2019/20 school years are tabulated below by KG type. For breaking down the data into KGs with half-day (HD), whole-day (WD) and both HD and WD classes as requested, given the small number of KGs and teachers under individual breakdown items, the percentage will be misleading as it will change greatly even for small changes in the number of teachers. Hence, it is more appropriate to provide the overall wastage rate and job-switching rate.

(a) Wastage rate

School Year	Wastage Rate				
	Local NPM KGs under PEVS or KG Scheme (excluding FACs)	FACs	Local NPM KGs not under PEVS or KG Scheme	Local PI KGs	Non-local KGs
2015/16	8.0%	7.0%	7.3%	14.4%	18.1%
2016/17	9.8%	9.6%	10.5%	15.4%	16.1%
2017/18	9.9%	9.3%	10.7%	15.8%	16.8%
2018/19	11.9%	12.2%	9.4%	15.9%	18.0%
2019/20	11.2%	12.8%	7.7%	16.4%	17.6%

(b) Job-switching rate

School Year	Job-switching Rate				
	Local NPM KGs under PEVS or KG Scheme (excluding FACs)	FACs	Local NPM KGs not under PEVS or KG Scheme	Local PI KGs	Non-local KGs
2015/16	9.6%	8.6%	8.7%	12.1%	7.4%
2016/17	8.4%	7.4%	10.5%	10.5%	13.2%
2017/18	9.3%	8.5%	11.7%	12.2%	12.9%
2018/19	8.5%	7.7%	6.1%	12.1%	8.7%
2019/20	7.7%	6.7%	6.4%	12.6%	10%

Notes:

1. “Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. “Drop-out teacher” refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned. Figures for the 2017/18 school year denote teachers who had served in a local NPM KG under PEVS in the 2016/17 school year but left the teaching profession in the 2017/18 school year.
2. “Job-switching rate” refers to the number of job-switching teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. “Job-switching teacher” refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but left that KG as at mid-September of the school year concerned for serving in another KG. Figures for the 2017/18 school year denote teachers who had served in a local NPM KG under PEVS in the 2016/17 school year but left that KG in the 2017/18 school year for serving in another KG.

3. The figures cover all KG teachers. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile information on the wastage and job-switching rates of teachers on the basis of full-time and part-time employment except their salary, which is directly related to the working hours. Hence, separate figures are not available.
4. Figures for the 2019/20 school year are provisional.

CONTROLLING OFFICER'S REPLY**EDB315****(Question Serial No. 5689)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please provide the following information for the past 5 years, under the categories of kindergartens (KGs) operating whole-day (WD) classes only, KGs operating half-day (HD) classes only, and KGs operating both WD and HD classes:

(1) The numbers of KGs, teachers (including full-time (FT) and part-time (PT) teachers) and students (excluding classes for children aged 2 to 3):

(i) Local non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS) (excluding former aided child care centres (FACs))

School year		WD classes only	HD classes only	Both WD and HD classes
Operating classes				
No. of KGs				
No. of teachers (FT)				
No. of teachers (PT)				
No. of students				

(ii) FACs

School year		WD classes only	HD classes only	Both WD and HD classes
Operating classes				
No. of KGs				
No. of teachers (FT)				
No. of teachers (PT)				
No. of students				

(iii) Local NPM KGs not joining PEVS

School year				
Operating classes		WD classes only	HD classes only	Both WD and HD classes
No. of KGs				
No. of teachers (FT)				
No. of teachers (PT)				
No. of students				

(iv) Local private independent KGs

School year				
Operating classes		WD classes only	HD classes only	Both WD and HD classes
No. of KGs				
No. of teachers (FT)				
No. of teachers (PT)				
No. of students				

(v) Non-local KGs

School year				
Operating classes		WD classes only	HD classes only	Both WD and HD classes
No. of KGs				
No. of teachers (FT)				
No. of teachers (PT)				
No. of students				

(2) The average, median, highest and lowest salaries of FT teachers:

(i) Local NPM KGs joining PEVS (excluding FACs)

School year	KG	Monthly salary of FT teachers (\$)			
		Average	Median	Highest	Lowest
	WD classes only				
	HD classes only				
	Both WD and HD classes				

(ii) FACs

School year	KG	Monthly salary of FT teachers (\$)			
		Average	Median	Highest	Lowest
	WD classes only				
	HD classes only				
	Both WD and HD classes				

(iii) Local NPM KGs not joining PEVS

School year	KG	Monthly salary of FT teachers (\$)			
		Average	Median	Highest	Lowest
	WD classes only				
	HD classes only				
	Both WD and HD classes				

(iv) Local private independent KGs

School year	KG	Monthly salary of FT teachers (\$)			
		Average	Median	Highest	Lowest
	WD classes only				
	HD classes only				
	Both WD and HD classes				

(v) Non-local KGs

School year	KG	Monthly salary of FT teachers (\$)			
		Average	Median	Highest	Lowest
	WD classes only				
	HD classes only				
	Both WD and HD classes				

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 515)

Reply:

- (1) The numbers of kindergartens (KGs), teachers and students (excluding classes for children aged 2 to 3) by KG type from the 2015/16 to 2019/20 school years are tabulated at Appendix. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile teachers' information on the basis of full-time and part-time employment except their salaries, which are directly related to the working hours. Hence, we are unable to provide the numbers of full-time (FT) teachers and part-time teachers as requested.
- (2) For information on the salaries of teachers in KGs joining the KG education scheme (KG Scheme) (Scheme-KGs) from the 2015/16 to 2018/19 school years, please refer to our replies to items (i) and (ii) below. Information provided is based on the survey on KG teachers/child care staff conducted by the Education Bureau (EDB) in September of the respective school years. Each year, we request Scheme-KGs to properly follow up on individual cases where teachers' salaries fall below the stipulated salary ranges. Regarding the information on teachers' salary in the 2019/20 school year, the EDB notified Scheme-KGs in early March this year of the salary ranges for teaching staff which have been adjusted based on the latest civil service pay adjustment announced by the Government at the end of February. Scheme-KGs will accordingly adjust the salaries of their teachers if necessary. Hence, the EDB is unable to provide the relevant information relating to Scheme-KGs for the 2019/20 school year at this stage.

For information on the salaries of FT teachers in local non-profit-making (NPM) KGs not joining the Pre-primary Education Voucher Scheme (PEVS)/KG Scheme, local private independent (PI) KGs and non-local KGs from the 2015/16 to 2019/20 school years, please refer to our replies to items (iii) to (v) below. Information provided is based on the findings from the above-mentioned survey. Figures for the 2019/20 school year are provisional.

- (i) FT KG teachers in local NPM KGs (excluding former aided child care centres (FACs)) joining the PEVS in the 2015/16 and 2016/17 school years and joining the KG Scheme in the 2017/18 and 2018/19 school years

School year	KGs with	Monthly salary of FT teachers (\$)			
		Average salary	Median salary	Highest salary	Lowest salary (Note)
2015/16	whole-day (WD) classes only	24,191	25,505	39,360	10,523
	half-day (HD) classes only	21,950	20,600	59,445	8,000
	Both WD and HD classes	19,946	18,600	85,323	8,000
2016/17	WD classes only	26,283	28,040	41,200	13,600
	HD classes only	23,640	22,430	70,688	9,023
	Both WD and HD classes	21,253	20,000	92,531	8,465
2017/18	WD classes only	27,202	27,000	45,120	18,840
	HD classes only	26,162	24,620	72,445	10,500
	Both WD and HD classes	24,318	22,560	54,230	9,427
2018/19	WD classes only	28,490	25,818	48,540	8,360
	HD classes only	27,862	25,790	70,340	10,840
	Both WD and HD classes	26,044	24,270	63,930	9,410

(ii) FT KG teachers in FACs

School year	KGs with	Monthly salary of FT teachers (\$)			
		Average salary	Median salary	Highest salary	Lowest salary (Note)
2015/16	WD classes only	23,094	22,192	37,590	8,645
	Both WD and HD classes	21,298	20,305	34,100	8,570
2016/17	WD classes only	24,249	22,560	41,318	10,766
	Both WD and HD classes	22,804	21,255	35,780	13,000
2017/18	WD classes only	25,751	23,970	56,700	11,463
	Both WD and HD classes	23,920	22,560	37,570	12,725
2018/19	WD classes only	27,832	25,790	46,563	13,045
	Both WD and HD classes	26,873	25,790	40,420	21,680

Note:

The monthly salary of teachers in Scheme-KGs, in principle, should not be lower than \$21,680 in the 2018/19 school year. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the teacher-to-pupil ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced Qualified Kindergarten Teachers already serving in the sector, non-Early Childhood Education (ECE) degree-holders, teachers employed for creating a rich language environment in schools, etc. (all of the above teachers must be a registered teacher or permitted teacher). The salary range under the KG Scheme is not applicable to these teachers as they do not possess Certificate in ECE or above qualifications. We are now reviewing the arrangement to determine whether the flexibility should be granted for a further period.

(iii) The average, median, highest and lowest salaries of FT KG teachers in local NPM KGs not joining the PEVS in the 2015/16 and 2016/17 school years and not joining the KG Scheme from the 2017/18 to 2019/20 school years are tabulated below:

School year	KGs with	Monthly salary of FT teachers (\$)			
		Average salary	Median salary	Highest salary	Lowest salary
2015/16	WD classes only	26,843	28,140	39,390	16,890
	HD classes only	23,143	21,890	66,445	11,500
	Both WD and HD classes	21,133	19,410	35,122	8,512
2016/17	WD classes only	27,864	29,455	41,971	17,200
	HD classes only	23,447	21,550	42,069	10,850
	Both WD and HD classes	24,692	23,344	36,717	11,600
2017/18	WD classes only	28,743	31,063	45,830	11,580
	HD classes only	26,827	26,700	45,435	13,000
	Both WD and HD classes	29,082	29,455	96,406	12,000
2018/19	WD classes only	31,253	33,790	47,492	14,240
	HD classes only	28,118	27,305	50,000	5,090
	Both WD and HD classes	32,396	33,425	100,548	15,500
2019/20	WD classes only	35,215	35,989	75,882	19,678
	HD classes only	29,495	28,725	80,000	15,735
	Both WD and HD classes	34,110	34,930	109,746	20,270

(iv) FT KG teachers in local PI KGs

School year	KGs with	Monthly salary of FT teachers (\$)			
		Average salary	Median salary	Highest salary	Lowest salary
2015/16	WD classes only	21,409	19,500	35,890	16,500

CONTROLLING OFFICER'S REPLY**EDB316****(Question Serial No. 5690)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (1) Director of Bureau's Office, (3) Primary Education,
(4) Secondary Education, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please advise this Committee:

- (1) of the number of school bullying cases involving (i) primary school students and (ii) secondary school students received by the Education Bureau (EDB) in the past 5 years; and
- (2) whether guidelines to curb bullying in schools have been drawn up by EDB; if yes, of the details; if no, of the reasons.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 517)Reply:

(1) Based on the information collected from the Education Bureau's (EDB) annual questionnaire survey on guidance and discipline cases in public sector primary and secondary schools, the number of student cases involving school bullying in the past 5 years (i.e. from the 2014/15 to the 2018/19 school years) is as follows:-

School year	2014/15	2015/16	2016/17	2017/18	2018/19
Number of student cases involving school bullying in primary schools	77	90	60	99	113
Number of student cases involving school bullying in secondary schools	137	114	64	103	113

(2) The EDB will not tolerate any act of bullying in schools, no matter in whatever forms (including verbal, physical and cyber-bullying) or on whatever grounds (including poverty, race, special educational needs and sexual orientation). All along, the EDB has been requiring all schools through circulars to take the matter seriously and implement proactive measures to ensure the safety of students at school and strive to create a harmonious school environment which is conducive to students' learning. The EDB has also set out in the School Administration Guide guidelines on handling and prevention of bullying cases for reference to all schools. Schools are advised to adopt the Whole School Approach in formulating and implementing anti-bullying strategies, including clear stance on zero tolerance, proper reporting mechanism and handling procedures, highly transparent monitoring as well as proactive and serious attitude in handling each bullying incident.

If there are bullying incidents, schools should intervene and take follow-up action as soon as possible, taking education, guidance and protection of their students as their prime concern. Such actions include stopping the act of bullying immediately upon receipt of such a report; assessing whether the student(s) concerned is/are injured or emotionally unstable and arranging for first aid/treatment as appropriate if there is any physical injury; thereafter intervening and conducting an initial mediation; and arranging for intensive counselling by counsellors or relevant professional service from outside as appropriate. Schools are equipped with professionals, including guidance personnel, school social workers and school-based educational psychologists, etc., who provide necessary support and mediation to students in need. In the process of handling these cases, schools have to work together with parents to help students involved rectify their behavioral problems and better protect the students being bullied. If suspected abuse is involved, schools may consult the Social Welfare Department (SWD) so that case referral and counselling services can be provided. For serious cases, schools should report them to the Police immediately to seek assistance. The EDB will liaise with schools, the SWD and the Police on appropriate ways to handle cases.

Moreover, the EDB attaches great importance to the prevention of school bullying. Through preventive education, training programmes and various guidance and discipline activities, we can enhance anti-bullying awareness among students and staff and help students develop positive values and attitudes, such as empathy and respect for others, and acquire skills of conflict resolution and establishing harmonious interpersonal relationships.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education,

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the number of misconduct cases involving teachers of (i) primary schools and (ii) secondary schools received by the Bureau in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 518)

Reply:

Misconduct of teachers defies simple definition and categorising different acts of misconduct is difficult. Since the Education Bureau does not compile statistics on the number of teachers' misconduct cases by school type, the requested information is not available.

CONTROLLING OFFICER'S REPLY

EDB318

(Question Serial No. 5692)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (1) Provide figures or projected figures for the past year and the coming 3 years in respect of:
 - (a) the total number of kindergarten-age children in Hong Kong and their distribution in the 18 districts;
 - (b) the total number of children attending kindergartens in Hong Kong and their distribution in the 18 districts;
 - (c) the number of students eligible for the Kindergarten and Child Care Centre Fee Remission Scheme and the number of eligible students who are granted fee remission.
- (2) the current position on the collection of miscellaneous charges among kindergartens.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 519)

Reply:

- (1a) Figures on projected school-age population aged 3-5 who are residing in Hong Kong by district from the 2019/20 to 2022/23 school years are tabulated at Appendix 1. This age group is generally considered appropriate for receiving kindergarten (KG) education. Since the population projections refer to the projected number of children aged 3-5, irrespective of whether they are enrolled in schools or not, the figures should not be taken as the projected number of students at KG level. Besides, given that students under or above this age group may enrol in KGs and students may study in districts other than their resident district, the actual number of students at district and territory-wide levels may be different from the projected school-age population.
- b) The number of students in KGs by school district in the 2019/20 school year is tabulated at Appendix 2. It is not possible to accurately project the overall number of KG students in the coming school years and their geographical distribution as the

number of KG students is subject to year-on-year changes depending on family factors, distribution of their places of residence, adjustment of related policies, etc. Besides, parents may choose a KG suitable for their children with regard to their needs, and admission is at the full discretion of individual KGs.

- c) The Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) provides needy KG students with financial assistance in the form of fee remission. Fee remission will be granted to applicants who pass the means test of the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency and meet the eligibility criteria for KCFRS. The number of successful KG applicants who meet the eligibility criteria under KCFRS for the 2019/20 school year is set out at Appendix 3. The SFO does not have information on the number of eligible KG students who will be granted fee remission under KCFRS in the coming 3 school years.
- (2) As regards parents' expenses on school uniforms, textbooks, tea and snacks, etc. (generally referred to as "miscellaneous charges"), we have stipulated in a circular issued to KGs which joined the KG education scheme (Scheme) that government subsidy and school fees (if any) should have covered all expenses directly related to the learning and teaching of students and school operation. Scheme-KGs should keep sales of school items and provision of paid services to a minimum and observe the guiding principles set out in the circular issued by the Education Bureau, including that the purchase must be of voluntary nature, no profit should be generated from the sale of textbooks, and profit for other items (if any) should not exceed 15% of the cost. All profit generated must be ploughed back into the KGs for use in school operation and provision of KG education services. To enhance transparency, KGs are required to disclose a list of items and fees charged in the preceding school year on their school website and in the Profile of Kindergartens and Kindergarten-cum-Child Care Centres. Under the new KG education policy, a recurrent grant is provided to KG students from needy families to defray school-related expenses incurred such as textbooks, stationery and school uniforms.

**Projected school-age population aged 3-5 who are residing in Hong Kong by district
from the 2019/20 to 2022/23 school years**

District	2019/20	2020/21	2021/22	2022/23
Central and Western	4 400	5 000	5 600	6 100
Wan Chai	3 200	3 500	4 000	4 400
Eastern	12 300	12 600	12 600	12 700
Southern	6 400	5 900	5 400	5 000
Yau Tsim Mong	7 100	7 900	9 100	10 000
Sham Shui Po	11 500	12 300	12 600	12 100
Kowloon City	9 600	10 000	10 200	10 400
Wong Tai Sin	8 300	8 200	7 600	7 000
Kwun Tong	16 300	15 200	13 800	11 900
Sai Kung	11 400	11 300	11 400	11 200
Sha Tin	15 100	15 500	14 800	14 100
Tai Po	6 400	6 600	7 400	7 900
North	7 500	7 900	8 000	9 800
Yuen Long	15 700	15 800	15 600	15 300
Tuen Mun	10 700	11 000	11 100	12 300
Tsuen Wan	7 500	7 900	8 100	8 200
Kwai Tsing	12 100	11 300	10 000	8 400
Islands	5 500	5 400	5 300	5 300
All districts	170 800	173 200	172 500	172 200

Notes: (1) Figures in the above table are compiled with reference to the 2016-based Population Projections released by the Census and Statistics Department (C&SD) in September 2017 and the “Projections of Population Distribution 2019 – 2028” released by the Planning Department in July 2019. The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures.

- (2) School-age population aged 3-5 is considered appropriate for receiving kindergarten education (i.e. Kindergarten 1 to Kindergarten 3).
- (3) Figures refer to the projected number of local children (i.e. Hong Kong usual residents) aged 3-5 residing in the districts. The projected figures should not be taken as the projected number of students attending schools in the districts. The latter would be affected by the prevailing distribution of school places, demand for school places and parental choices. Students under the age of 3 or over the age of 5 may also receive kindergarten education.
- (4) Figures are rounded to the nearest hundred and may not add up to the respective totals due to rounding.

Number of students studying in kindergartens by district in the 2019/20 school year

District	No. of students
Central and Western	6 203
Wan Chai	7 050
Eastern	10 926
Southern	4 371
Yau Tsim Mong	6 329
Sham Shui Po	9 913
Kowloon City	22 379
Wong Tai Sin	6 948
Kwun Tong	12 187
Sai Kung	9 042
Sha Tin	14 167
Tai Po	6 549
North	8 867
Yuen Long	16 348
Tuen Mun	11 784
Tsuen Wan	7 012
Kwai Tsing	9 941
Islands	4 281
Total	174 297

Notes: (1) Figures refer to the position as at September of the school year.

(2) Figures include K1, K2 and K3 classes in kindergarten-cum-child care centres.

**Number of successful kindergarten applicants who meet the eligibility criteria
under the Kindergarten and Child Care Centre Fee Remission Scheme
in the 2019/20 school year**

	2019/20 school year (as at 31 January 2020)
Number of kindergarten students granted fee remission (Note)	22 764

Note: Excluding kindergarten students who pass the means test but do not need to pay school fees.

CONTROLLING OFFICER'S REPLY

EDB319

(Question Serial No. 5693)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the support provided for students with special educational needs (SEN) at post-secondary level, please advise of the following:

- (1) the number of provision of interpreters or note-takers by post-secondary institutions and whether students had to pay for such services in the past 5 years;
- (2) the financial resources for providing support services for post-secondary students with SEN in the past 5 years, together with a breakdown by use; and
- (3) whether the Government will consider formulating an overarching policy and allocating additional resources to enable post-secondary institutions to strengthen their support for students with SEN as different and incoherent policies are now adopted by these institutions to support students with SEN.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 520)

Reply:

(1) Post-secondary institutions will make special arrangements and provide support services to cater for students with special educational needs (SEN). The Government does not maintain records of the number of interpreters/note-takers provided by various post-secondary institutions for such students or the expenses involved.

(2) and (3) As far as University Grants Committee (UGC)-funded universities are concerned, since funding for students with SEN is included in the Block Grant provided for individual universities, we are not able to provide the actual amount of expenditure on support services for such students. To further support students with SEN in the post-secondary sector, the Government has implemented in recent years various initiatives, which are set out below:

(a) To enable students with SEN to pursue UGC-funded programmes and adapt to campus life, as well as to further promote an inclusive culture, the UGC provided a one-off special grant totalling \$20 million for the 8 UGC-funded universities in 2015 to enhance their support for students with SEN, such as purchasing aids and equipment, strengthening training for academic and administrative staff and supporting student bodies in organising events and activities that encourage integration of students with SEN into campus life. In July 2018, the UGC implemented the second phase of the funding scheme, which would last for two years, to provide an additional grant of \$20 million to the UGC-funded universities to further enhance support in this regard.

(b) In 2013, the Government made two separate injections of \$20 million into the HKSAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund to establish the Endeavour Merit Award (EMA) and the Endeavour Scholarship (EDS) respectively, which seek to give recognition to deserving post-secondary students with SEN in their pursuit of excellence in academic and other areas. Each undergraduate or sub-degree recipient of EMA or EDS will receive a scholarship of \$15,000. The number of EMA and EDS recipients in the academic years from 2014/15 to 2018/19 is tabulated below.

School year	2014/15	2015/16	2016/17	2017/18	2018/19
No. of recipients of EMA	74	97	99	100	150
No. of recipients of EDS	75	98	99	100	143

(c) In the financial years from 2013-14 to 2018-19, a recurrent funding of \$12 million per year was allocated to the Vocational Training Council to enhance the support services for students with SEN. Starting from the 2019-20 financial year, the recurrent funding will be increased to \$21.6 million per year, which includes the provision for emotional counselling services for students in need.

(d) The Commission on Poverty has approved the allocation of \$12.5 million from the Community Care Fund to implement a programme in the academic years from 2015/16 to 2020/21 for enhancing the academic expenses grant for post-secondary students with SEN and financial needs in order to better facilitate their learning, for example, through purchase of equipment. In the 2019/20 academic year, each eligible student may receive an additional academic expense grant up to \$8,910 per year. The actual amount of grant disbursed depends on the level of assistance as assessed in the means test conducted by the Student Finance Office of the Working Family and Student Financial Assistance Agency.

The Government is committed to providing young people, including students with SEN, with flexible and diversified study pathways with multiple entry and exit points, which include undergraduate and sub-degree programmes and vocational education programmes. The UGC and the Education Bureau will, among others, continue to maintain close liaison with UGC-funded and self-financing institutions to follow up on the provision of support by individual institutions for students with SEN and make every effort to promote an inclusive culture.

Aristo Market Research & Consulting Co., Ltd	Others (by quotation)	<p>Research Study on the Use of Qualifications Framework (QF) Languages in Recruitment Advertisements</p> <p>To identify the trends and reasons for using QF languages in recruitment advertisements in different industries and in the job market as a whole.</p>	1,366,600	September 2019	In progress	Subject to the findings of the study, follow-ups will be considered as appropriate.	Not applicable as the study has not been completed.
The University of Hong Kong	Tender	<p>Study on Language across the Curriculum</p> <p>To conduct a study on language across the curriculum in public sector secondary schools to identify and disseminate the good practices.</p>	2,578,600	October 2019	In progress	The findings and good practices identified will be used for sharing among schools.	Not applicable as the study has not been completed.

(ii) Studies commissioned by the University Grants Committee (UGC) (under Head 190):

Name of consultant	Mode of award (open auction/ tender/others (please specify))	Title, content and objective of project	Consultancy fee (\$)	Start date	Progress of studies (under planning/ in progress/ completed)	The Administration's follow-ups to the study report and the progress (if any)	For completed studies, have they been made public? If yes, through what channels? If no, why?
Mr Dugald Mackie	Others (by quotation)	To provide support to the Sub-Group on Planning Exercise (SGPE) on the work pertaining to the Planning Exercise for the 2019-22 triennium.	686,642 (USD 87,500)	July 2017	Completed (September 2018)	The UGC has completed the Planning Exercise for the 2019-22 triennium and issued the Allocation Letters and Confirmation Letters to individual universities in April and May 2020 respectively.	The consultant's advice is meant for UGC's reference only. The outcome of the Planning Exercise for the 2019-22 triennium has been set out in the paper submitted for the meeting of the Legislative Council (LegCo) Panel on Education in January 2019.
Architecture Design and Research Group Limited	Others (by quotation)	To carry out a consultancy study to analyse the applicability and appropriateness of the formulae and standards being used to arrive at the space and accommodation needs of the UGC-funded universities. Space utilisation survey and audit of the space inventories of universities are also included in the study.	880,000	December 2017	Completed (May 2019)	The UGC-funded universities were encouraged to adopt the international best practices for utilisation of campus space identified by the consultant, while the UGC would continue to help universities in meeting their space shortfall through capital grants as appropriate.	The Executive Summary and an extract on the international best practices on utilisation of campus space have been issued to UGC-funded universities.

Name of consultant	Mode of award (open auction/ tender/others (please specify))	Title, content and objective of project	Consultancy fee (\$)	Start date	Progress of studies (under planning/ in progress/ completed)	The Administration's follow-ups to the study report and the progress (if any)	For completed studies, have they been made public? If yes, through what channels? If no, why?
Mr Dugald Mackie	Others (by quotation)	To provide support to SGPE on the Review of the Planning Exercise for the 2019-22 triennium.	750,000	September 2018	Completed (June 2019)	The UGC has completed the Review of the Planning Exercise. The recommendations made will be put forward for consideration in the context of the Planning Exercise for the 2022-25 triennium.	The consultant's advice is meant for the UGC's reference only. The UGC-funded sector has been informed of the recommendations from the Review.
Mario Ferelli Consulting Services Limited	Others (by quotation)	To provide support to the Working Group on the Review of Research Portion on the Review of the Research Portion.	1,392,300 (USD 178,500)	April 2019	In progress	The UGC will conduct the Review of the Research Portion, with the assistance of Mario Ferelli Consulting Services Limited.	Not applicable as the review has not been completed.
Mr Dugald Mackie	Others (by quotation)	To provide support to the Working Group on the Fellowship Scheme for Students of Taught Postgraduate Programmes (WGTPg) on the implementation of the Targeted Taught Postgraduate Programmes Fellowships Scheme (TPgFS).	495,000	October 2019	In progress	The TPgFS will be launched in the 2020-21 academic year, with a maximum of 500 fellowships in the first cohort and 1 000 thereafter.	The consultancy study is ongoing and the advice is meant for the UGC's reference only. Meanwhile, the list of targeted taught postgraduate programmes eligible for fellowships in the first cohort has been published on the UGC's website.

Separately, the Student Finance Office of the Working Family and Student Financial Assistance Agency has not earmarked provision between 2018-19 and 2019-20 to conduct any consultancy study on public policy.

(b) The Education Bureau and its departments have not reserved funding for conducting in-house studies in 2020-21.

(c) The consultancy studies for which provisions will be reserved in 2020-21 are as follows:

(i) Studies commissioned/to be commissioned by the EDB (under Head 156):

Name of consultant	Mode of award (open auction/ tender/others (please specify))	Title, content and objective of project	Consultancy fee (\$)	Start date	Progress of studies (under planning/ in progress/ completed)	The Administration's follow-ups to the study report and the progress (if any)	For completed studies, have they been made public? If yes, through what channels? If no, why?
Aristo Market Research & Consulting Co., Ltd	Others (by quotation)	Tracking surveys for the Impact of Implementation and Perception of Hong Kong Qualifications Framework (HKQF) To undertake tracking surveys at different stages so as to assess the change of perception of stakeholders towards the HKQF.	590,000	February 2017	In progress	Subject to the findings of the surveys, follow-ups will be considered as appropriate.	Not applicable as the surveys have not been completed.

Name of consultant	Mode of award (open auction/ tender/others (please specify))	Title, content and objective of project	Consultancy fee (\$)	Start date	Progress of studies (under planning/ in progress/ completed)	The Administration's follow-ups to the study report and the progress (if any)	For completed studies, have they been made public? If yes, through what channels? If no, why?
The University of Hong Kong	Others (by quotation)	<p>Consultancy Study on the Effectiveness of the Provision of Quality Kindergarten (KG) Education in Hong Kong under the Free Quality Kindergarten Education Policy</p> <p>To examine the effectiveness of the provision of quality KG education in Hong Kong under the new KG Education Policy; to identify good practices and areas for improvement for KGs joining the Scheme; and to investigate school factors that are conducive to the development of quality KG education.</p>	2,948,876	April 2017	In progress	Subject to the findings of the study, follow-ups will be considered as appropriate.	Not applicable as the study has not been completed.

Name of consultant	Mode of award (open auction/ tender/others (please specify))	Title, content and objective of project	Consultancy fee (\$)	Start date	Progress of studies (under planning/ in progress/ completed)	The Administration's follow-ups to the study report and the progress (if any)	For completed studies, have they been made public? If yes, through what channels? If no, why?
Education Policy Unit, The University of Hong Kong	Others (by quotation)	<p>Impact Study on the Implementation of the Current Phase of School Development and Accountability (SDA) Framework for Enhancing School Improvement in Hong Kong</p> <p>To understand the effectiveness of the current phase of the SDA framework in promoting continuous development of schools.</p>	1,397,625	March 2018	In progress	The findings will be used as a reference for improvement to the SDA framework.	Not applicable as the study has not been completed.
The Chinese University of Hong Kong	Tender	<p>Review on Assessment Program for Affective and Social Outcomes (APASO) II – Phase I</p> <p>To review the APASO II and to develop an enhanced version for use at the secondary school levels with a set of updated norm data.</p>	4,582,290	July 2019	In progress	The enhanced APASO and the norm data will be available for schools' self-evaluation after review.	Not applicable as the review has not been completed.

Name of consultant	Mode of award (open auction/ tender/others (please specify))	Title, content and objective of project	Consultancy fee (\$)	Start date	Progress of studies (under planning/ in progress/ completed)	The Administration's follow-ups to the study report and the progress (if any)	For completed studies, have they been made public? If yes, through what channels? If no, why?
Aristo Market Research & Consulting Co., Ltd	Others (by quotation)	<p>Research Study on the Use of Qualifications Framework (QF) Languages in Recruitment Advertisements</p> <p>To identify the trends and reasons for using QF languages in recruitment advertisements in different industries and in the job market as a whole.</p>	1,366,600	September 2019	In progress	Subject to the findings of the study, follow-ups will be considered as appropriate.	Not applicable as the study has not been completed.
The University of Hong Kong	Tender	<p>Study on Language across the Curriculum</p> <p>To conduct a study on language across the curriculum in public sector secondary schools to identify and disseminate the good practices.</p>	2,578,600	October 2019	In progress	The findings and good practices identified will be used for sharing among schools.	Not applicable as the study has not been completed.

(ii) Studies commissioned/to be commissioned by UGC (under Head 190):

Name of consultant	Mode of award (open auction/ tender/others (please specify))	Title, content and objective of project	Consultancy fee (\$)	Start date	Progress of studies (under planning/ in progress/ completed)	The Administration's follow-ups to the study report and the progress (if any)	For completed studies, have they been made public? If yes, through what channels? If no, why?
Mario Ferelli Consulting Services Limited	Others (by quotation)	To provide support to the Working Group on the Review of Research Portion on the Review of the Research Portion.	1,392,300 (USD 178,500)	April 2019	In progress	The UGC will conduct the Review of the Research Portion, with the assistance of Mario Ferelli Consulting Services Limited.	Not applicable as the review has not been completed.
Mr Dugald Mackie	Others (by quotation)	To provide support to WGTpg on the implementation of TPgFS.	495,000	October 2019	In progress	The TPgFS will be launched in the 2020-21 academic year, with a maximum of 500 fellowships in the first cohort and 1 000 thereafter.	The consultancy study is ongoing and the advice is meant for the UGC's reference only. Meanwhile, the list of targeted taught postgraduate programmes eligible for fellowships in the first cohort has been published on the UGC's website.

Separately, the Student Finance Office of the Working Family and Student Financial Assistance Agency is not planning to conduct any consultancy studies on public policy in 2020-21.

(d) Given the different objectives, design, technical requirements and uniqueness of different consultancy studies, criteria specific to each consultancy study have been adopted for considering their award to the research institutions/consultants concerned. Nevertheless, generally speaking, the criteria include technical aspects (such as project design as well as methodology for sampling and data correlation/analysis which could impact the validity and reliability of the research), experience and professional knowledge of the research institutions/consultants relevant to the research topic and the quality of the research team as reflected by indicators such as their track record and capability to provide follow up support services, and the fee proposal.

(Question Serial No. 5695)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide, by type of kindergartens (KGs), information on school fees charged by KGs in the past 5 years.

	Local non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS) (excluding former aided child care centres (FACs))				Local NPM KGs not joining the PEVS				Local private independent KGs				Non-local KGs				FACs			
	WD classes only	HD classes only	Both WD and HD classes		WD classes only	HD classes only	Both WD and HD classes		WD classes only	HD classes only	Both WD and HD classes		WD classes only	HD classes only	Both WD and HD classes		WD classes only	HD classes only	Both WD and HD classes	
Median school fee																				
Average school fee																				
Highest school fee																				
Lowest school fee																				

WD – whole-day
HD – half-day

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 522)

Reply:

The median, weighted average, highest and lowest school fees charged by kindergartens (KGs) operating half-day (HD) classes and whole-day (WD) classes (excluding classes for children aged 2 to 3), by KG type, from the 2015/16 to 2019/20 school years are tabulated at Appendix. Some KGs operate both HD and WD classes. This is mainly to flexibly cater for parents' needs. When assessing whether KGs need to collect school fees, we are concerned about whether HD classes are free, and whether the fees collected for WD classes are at a low level. Whether a KG operates both HD and WD classes is not our primary concern. Hence, there is no separate analysis on the collection of school fees by this type of KGs.

Median, weighted average, highest and lowest school fees
charged by KGs operating HD and WD classes by KG type
from the 2015/16 to 2019/20 school years

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please list the monthly salaries, allowances and other expenses of the Secretary for Education in the past 3 years, as well as the amount of his monthly pension and the total amount of his pension after retirement.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 523)

Reply:

The monthly salary in respect of the position of Secretary for Education (SED) was \$298,115 from April 2017 to June 2017, \$333,900 from July 2017 to June 2018, \$340,250 from July 2018 to June 2019, and is \$348,100 with effect from July 2019. According to the remuneration package for politically appointed officials (PAOs) serving in the HKSAR Government, SED and all other PAOs are not entitled to any pension benefits other than the Mandatory Provident Fund contribution by the Government.

EDB323

(Question Serial No. 5697)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please provide the following information:

- (1) the number of students who have benefitted from the School-based After-school Learning and Support Programmes (with a breakdown by grade level);
- (2) the programmes available under the School-based After-school Learning and Support Programmes (please group them under the categories of academic/extra-curricular development/one-off activities).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 524)

Reply:

- (1) To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS).

In the 2019/20 school year, for the School-based Grant, 901 schools which constitute more than 90% of all the eligible schools in the territory with about 197 700 eligible students participating in the Programme. Regarding the Community-based Project Grant, the 414 projects organised by 169 NGOs are targeted at individual eligible students totaling about 100 000. As schools are given 25% discretionary quota to cover students who are not in receipt of CSSA or SFAS full grant and we do not collect the list of the students concerned, a breakdown of the number of students mentioned above by grade level is not available.

- (2) The objectives of the Programme are to help needy students enhance learning effectiveness, broaden learning experience outside classroom and raise understanding of and sense of belonging to the community. The types of activities grouped along the above-mentioned major objectives are set out below. A wide spectrum of activities are organised under each type by the schools and/or the NGOs provided with the grants to cater for the diverse needs of students.

Objectives	To enhance learning effectiveness	To broaden learning experience outside classroom	To raise understanding of and sense of belonging to the community
Types of Activities	<ul style="list-style-type: none"> • Tutorial services • Training of learning skills • Training of languages 	<ul style="list-style-type: none"> • Art & cultural activities • Sports activities • Visits & outdoor activities 	<ul style="list-style-type: none"> • Volunteer services • Social & communication skills training (complemented by development of self-confidence through leadership training, adventure activities, etc.)

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the following:

- (1) whether the Bureau has received and used CSI masks produced by the Correctional Services Department (CSD); if yes, the details; if not, the reasons for that; and
- (2) if CSI masks produced by the CSD have been received and used, the respective figures on the CSI masks received and used in each of the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 596)

Reply:

(1) and (2)

The Education Bureau has received face masks produced by the Correctional Services Department from the Government Logistics Department. We have also procured face masks from the open market. These face masks were distributed to our staff for their use. This Bureau does not compile data on the distribution of face masks from different sources to individual staff members.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the past 5 years:

- (1) The number of school places and actual enrolment in each type of special schools in the territory, disaggregated by district.
- (2) The number of cross-district students in each special school, disaggregated by students' district of residence.
- (3) The number of boarding places and number of boarders in each special school with a boarding section in the territory, disaggregated under the categories of "5-day boarding" and "7-day boarding".
- (4) The details of future planning for the boarding sections of special schools and the estimated increase in the provision of boarding places, presented by district and type of special schools.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 191)

Reply:

(1)

Since the number of students with more severe or multiple disabilities to be placed in different types of special schools is relatively small and their places of residence are scattered and random in nature, planning of special schools to meet specific local needs is not pragmatic. Hence, special schools are provided to meet territory-wide requirements while the location of new schools should be widespread as far as practicable to cater for the needs of students with different types of disabilities. The number of approved school places and student enrolment in each type of special schools from the 2015/16 to 2019/20 school years is set out at Appendix 1.

(2)

At present, there are only 2 schools for children with visual impairment and 1 school for children with hearing impairment in Hong Kong. These 2 types of schools admit students with the relevant disability that come from any districts in the territory. On the other hand, schools for children with intellectual disability (ID schools) and schools for children with physical disability (PD schools) have their own catchment areas. They admit students with the relevant disability that reside in their catchment areas. The Education Bureau (EDB) all along advises parents to choose a school nearer to their places of residence (generally speaking, that is a school whose catchment area covers their residence) when selecting the above special schools for their children. This is to reduce the time that their children have to spend on travelling to and from school. Regarding the schools for social development and hospital school, they have their own referral mechanism, under which children's place of residence has no relevance.

For ID schools and PD schools, most parents choose a school close to their places of residence for their children. Yet under the existing referral and school placement mechanism, parents may choose to arrange their children to study in a school whose catchment area does not cover their residence (similar to "cross-district" schooling as suggested in the question) for various reasons, such as the guardian who takes care of their child resides in another district, their child lives in a small group home, religious consideration, and accessibility to rehabilitation services in the vicinity of a particular school. Besides, as only some of the schools operate a boarding section, it is not uncommon for students with residential needs to study in schools that are not close to their places of residence. Furthermore, there are students who need to be transferred to another school because of removal or change of carers, etc. The EDB does not maintain statistics on students studying in special schools that are near to their places of residence or located in other districts. Hence, we are unable to provide information on "cross-district" students studying in special schools.

(3)

The number of approved boarding places and the number of boarders in each type of special schools from the 2015/16 to 2019/20 school years are set out at Appendix 2. It is our established practice that we do not disclose the relevant information of individual schools so as to avoid misconceptions and possible labelling effect on particular schools.

(4)

Boarding sections are usually co-located with the school sections of special schools with the aim of facilitating students' access to education. As mentioned above, since the number of students to be placed to special schools is relatively small, the planning and provision of boarding places of special schools are also not on a district basis. Regarding the estimated increase in the provision of boarding places, a new ID school in Tung Chung with 60 boarding places for children with moderate and severe intellectual disability was completed in November 2019. 4 other projects are scheduled for completion in the next few years. Together, they will provide more than 200 additional boarding places for children with moderate intellectual disability.

Number of Approved School Places and Student Enrolment in Each Type of Special Schools from the 2015/16 to 2019/20 School Years

School type	2015/16 ^{Note 1}		2016/17 ^{Note 1}		2017/18 ^{Note 1}		2018/19 ^{Note 1}		2019/20 ^{Note 1}	
	School places ^{Note 5}	Student enrolment	School places ^{Note 5}	Student enrolment	School places	Student enrolment	School places	Student enrolment	School places ^{Note 5}	Student enrolment
Visual impairment	178	125	172	123	169	112	166	110	178	119
Hearing impairment	140	87	130	89	120	84	110	64	110	71
Physical disability	1 020	915	1 010	883	1 020	877	1 030	907	1 030	903
Mild intellectual disability ^{Note 2}	3 240	3 049	3 255	3 103	3 270	3 154	3 345	3 218	3 405	3 295
Moderate intellectual disability ^{Notes 2, 3}	2 020	1 879	2 050	1 911	2 100	1 992	2 150	2 040	2 200	2 103
Severe intellectual disability ^{Note 3}	792	679	784	687	792	699	800	706	816	712
School for social development	1 149	600	1 092	553	1 125	594	1 074	614	1 116	647
Hospital school ^{Note 4}	332	369	332	333	332	314	332	280	340	351

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the schools for children with MiID and MoID (i.e. 7 schools in the 2015/16 school year and 5 schools in the 2016/17, 2017/18, 2018/19 and 2019/20 school years).
3. 1 school for children with severe intellectual disability has started to operate pilot classes for children with MoID starting from the 2017/18 school year. The figures are categorised according to the respective class types.
4. From the 2015/16 to 2018/19 school years, the Hospital School operated classes at 18 hospitals. In the 2019/20 school year, the Hospital School operates classes at 20 hospitals.
5. Since the turnover number of hospitalised children at the Hospital School is quite high, the number of students admitted could exceed the number of places.

**Number of Approved Boarding Places and Number of Boarders in Each Type of Special Schools
under the Categories of “5-day Boarding” and “7-day Boarding” from the 2015/16 to 2019/20 School Years**

School type <small>Note 2</small>	2015/16 <small>Note 1</small>		2016/17 <small>Note 1</small>		2017/18 <small>Note 1</small>		2018/19 <small>Note 1</small>		2019/20 <small>Note 1</small>	
	5-day boarding places (No. of 5-day boarders)	7-day boarding places (No. of 7-day boarders)	5-day boarding places (No. of 5-day boarders)	7-day boarding places (No. of 7-day boarders)	5-day boarding places (No. of 5-day boarders)	7-day boarding places (No. of 7-day boarders)	5-day boarding places (No. of 5-day boarders)	7-day boarding places (No. of 7-day boarders)	5-day boarding places (No. of 5-day boarders)	7-day boarding places (No. of 7-day boarders)
Visual impairment	78 (60)	37 (30)	73 (54)	37 (32)	70 (50)	37 (27)	71 (49)	36 (23)	70 (52)	36 (28)

Physical disability	81 (68)	174 (156)	80 (62)	181 (158)	76 (59)	192 (170)	76 (60)	200 (182)	76 (56)	204 (180)
Moderate intellectual disability <small>Note 3</small>	162 (157)	157 (155)	166 (163)	157 (154)	166 (159)	167 (159)	166 (158)	177 (171)	166 (162)	177 (176)
Severe intellectual disability <small>Note 3</small>	196 (139)	213 (204)	196 (134)	213 (208)	188 (135)	220 (216)	179 (132)	230 (221)	164 (128)	238 (224)

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Schools for children with mild intellectual disability do not provide boarding service; residential home services provided in schools for social development are subvented by the Social Welfare Department; Hospital School only provides educational services to hospitalised students and does not provide boarding services. Hence, they are not included in the above table.
3. 1 school for children with severe intellectual disability has started to operate pilot classes for children with moderate intellectual disability starting from the 2017/18 school year. The figures are categorised according to the respective class types.

CONTROLLING OFFICER'S REPLY

EDB326

(Question Serial No. 5825)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following:

1. In the past 5 years, the numbers of students receiving pre-primary, primary and secondary education in Hong Kong by sector (government, aided, Direct Subsidy Scheme (DSS) and private), grade level (K1 to S6), age and gender;
2. In the past 5 years, the number of students studying in special schools in Hong Kong by primary curriculum, secondary curriculum, grade level (P1 to S6), age, gender and type of special educational needs (SEN);
3. In the past 5 years, the total number of students with various types of SEN in Hong Kong by sector (government, aided, DSS and private), grade level (K1 to S6), age, gender and SEN type;
4. In the past 5 years, the distribution of the number of students with various types of SEN by District Council district and their percentage shares of the total number of students of respective districts. What is the analysis by the Education Bureau (EDB) on the situation in which the proportions of students with SEN are significantly higher in certain districts and how will the EDB cater for the needs as far as the injection of resources and the formulation of policies are concerned?
5. Under the 3-tier Intervention Model of the integrated education policy:
 - i) On the first day of school (which usually falls on 1 September) in the past 5 years, the actual number of students under each tier of support by SEN type, district, primary/secondary school banding, sector (government, aided, DSS and private);

- ii) On the first day of school (which usually falls on 1 September) in the past 5 years, the number of schools admitting 0, 1, 2, 3, 4, 5, 6, and 7-10 student(s) with SEN (and in the groups of 10 thereafter) requiring tier-2 and tier-3 support;
- iii) The current number of students with individual education plans devised and its percentage against the total number of students with SEN;
- iv) The respective numbers of schools currently disbursed with over \$0.6 million, \$1.6 million and \$2.2 million under the Learning Support Grant (LSG), with a breakdown by district;
- v) In the past 5 years, the percentage of schools with the LSG clawed back (below 5%, 5-10%, 11-20%, 21-30%, and over 30%);
- vi) In the past 5 years, the amount of LSG clawed back from schools and the number of schools concerned;
- vii) The total amount of LSG clawed back.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 452)

Reply:

(1)

From the 2015/16 to 2019/20 school years, the numbers of students in primary schools and secondary schools by sector are set out at Appendix 1; the numbers of students in kindergartens, primary schools and secondary schools by grade are set out at Appendix 2; the numbers of students in kindergartens, primary schools and secondary schools by age are set out at Appendix 3; the numbers of students in kindergartens, primary schools and secondary schools by gender are set out at Appendix 4.

(2)

It is a common practice for special schools offering primary and secondary education to adopt flexible groupings across grade levels and devise individualised education programmes to cater for the special educational needs (SEN) of the students. The Education Bureau (EDB) does not maintain student information by curriculum, grade level, age and gender in special schools. The number of students by type of special schools from the 2015/16 to 2019/20 school years is at Appendix 5.

(3) and (4)

As support services for children with special needs at pre-primary level are provided by the Social Welfare Department, the EDB does not maintain data on students with special needs at various kindergarten levels.

The EDB has kept information on students with SEN by grade level and SEN type but not by age group and “primary/secondary school banding”. As the provision of support services for students with SEN does not have any relationship with their gender and district

of residence, we are unable to provide the number of students with SEN by gender and district of residence.

The numbers of students with SEN studying in public sector ordinary primary and secondary schools by grade level and by SEN type from the 2015/16 to 2019/20 school years are set out at Appendix 6. Starting from the 2019/20 school year, the provision of Learning Support Grant (LSG) to Direct Subsidy Scheme (DSS) schools is based on the number of students with SEN and academic low achievers (ALAs) (applicable to primary schools) enrolled in each school, as well as the DSS LSG unit rate. Hence, DSS schools are required to submit SEN information of the students concerned to the EDB for calculating the allotment of the LSG. Before that, the relevant resources were included in the DSS unit subsidy, and we did not compile the numbers of students concerned. The number of students with SEN studying in DSS schools in the 2019/20 school year is set out at Appendix 7

The numbers of students with SEN studying in the English Schools Foundation schools, other private international schools and private independent schools from the 2015/16 to 2019/20 school years are set out at Appendix 8. The figures are collected in the annual Student Enrolment Survey conducted by the EDB and refer to the position as at mid-September of the respective school years. However, as some schools did not provide the relevant information in the survey, the data may not reflect the actual number of students. Besides, since these schools have their own mechanisms of classifying students with SEN which may not be comparable with those adopted in public sector schools, provision of breakdown by SEN type may be misleading. Since schools are not required to provide information on all students with SEN with breakdown by other categories, we are not able to provide the relevant figures. We do not maintain relevant data on other private primary and secondary schools.

(5)

Schools are requested to adopt the Whole School Approach to support students with SEN through the 3-tier Intervention Model, taking into account their support needs. To help public sector ordinary schools cater for their students with SEN, the EDB has been providing schools with additional resources, professional support and teacher training. Among these additional resources, the provision of the LSG is calculated according to the number of students with SEN and the tier of support they require. The tier of support for students with SEN is subject to upward or downward adjustment from time to time, depending on the performance of the students, and the distribution of students under the 3-tier Intervention Model may change accordingly. For students with mild or transient learning difficulties, schools will provide them with tier-1 support through quality teaching in regular classrooms. Submission of information about these students to the EDB is not required. The distribution of public sector ordinary primary and secondary schools eligible for the LSG by number of students with SEN requiring tier-2 and tier-3 support from the 2015/16 to 2018/19 school years is set out at Appendix 9.

In the 2018/19 school year and before, ordinary schools were provided with additional resources under various funding modes to support students with SEN. For instance, some schools opted for the LSG, some schools implemented the Integrated Education (IE) Programme, some primary schools implemented the Intensive Remedial Teaching Programme (IRTP), and some primary schools adopted a Mixed Mode of implementing IRTP while receiving LSG. As schools were provided with additional resources under

different modes (i.e. some were provided with additional grants, some were provided with an additional teaching post(s)), schools would adopt diversified strategies to support their students with SEN according to school-based circumstances. Different criteria are used under these funding modes in providing additional resources for schools. For example, schools implementing IE Programme or IRTP were provided with additional teaching manpower but the LSG was not available for flexible deployment in catering for each student with SEN. Besides, there was a basic provision under the LSG in the past, i.e. schools with 1 to 6 student(s) requiring tier-3 support were all provided with the same amount of basic provision. In view of the above factors, the schools concerned might not report to the EDB the tier of support required by each of their students and the number of all students receiving tier-3 support.

The EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace IRTP and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reaches the specific threshold. With the implementation of the above enhanced LSG, the amount of LSG received by each public sector ordinary school is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same mode, which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and the EDB collects complete data on the tier of support these students require from schools. The number of students with various types of SEN requiring tier-2 and tier-3 support in public sector ordinary primary and secondary schools in the 2019/20 school year is set out at Appendix 10. Please note that these figures cannot be directly compared with those of the 2018/19 school year and before.

Basically, schools should draw up Individual Education Plans for students requiring tier-3 support. Besides, the statistics on the number of students with SEN studying in public sector ordinary primary and secondary schools set out at Appendix 6 were compiled from records of the Special Education Management Information System (SEMIS) of the EDB in the beginning of the 2019/20 school year. For the figures of the students with SEN set out in Appendix 10, with students' type of SEN and the tier of support they required being scrutinised and submitted by schools to the EDB via SEMIS in the first term of the 2019/20 school year, they were examined and compiled by the EDB at the end of the first term of the same school year. As such, these 2 sets of figures are different.

As stated above, starting from the 2019/20 school year, the provision of LSG to DSS schools is based on the number of students with SEN and ALAs (applicable to primary schools) enrolled in each school, as well as the DSS LSG unit rate. To retain the flexibility of DSS schools in utilising resources, we have simplified the calculation of the LSG to DSS schools. DSS schools are not required to submit information on the tier of support individual students require.

Under the enhanced LSG, public sector ordinary schools will have additional teaching post(s) titled as Special Educational Needs Support Teachers converted/provided if the total amount of LSG received by the schools reaches the specific threshold (for the 2019/20

school year, threshold 1 is \$600,000, threshold 2 is \$1.6 million and threshold 3 is \$2.2 million), so that schools will have a more stable teaching force and additional resources for flexible deployment to support students with SEN. Under the above arrangements, a total of some 1 000 additional regular teaching posts were created in the 2019/20 school year, with 675 schools (431 primary schools and 244 secondary schools) having 1 to 3 such posts created. The number of schools with LSG reaching the above three thresholds in the 2019/2020 school year is tabulated below:

2019/20 school year	No. of schools
Reaching threshold 1	444
Reaching threshold 2	165
Reaching threshold 3	66

When providing additional resources, the EDB takes into account various parameters, such as the number of students with SEN in schools, the level of support they require, and the applications of individual schools when need arises, but these parameters are not related to the districts in which the schools operate. Hence, we are unable to give a breakdown of the provision by district.

We encourage public sector ordinary schools to fully utilise the LSG provided annually to cater for the needs of their students with SEN in the respective school years. For schools which have accumulated a surplus in excess of 30% of 12 months' provision of LSG at the end of a school year (applicable to aided and caput schools) or financial year (applicable to government schools), the surplus will be clawed back. This arrangement was first introduced to government schools in the 2011-12 financial year and then applied to aided primary and aided/caput secondary schools in the 2011/12 and 2012/13 school years respectively.

The number of schools with LSG clawed back at the end of the 2014/15 to 2017/18 school years (aided and caput schools)/2014-15 to 2017-18 financial years (government schools) by percentage range in relation to 12 months' provision and the amount of LSG clawed back in the school years/financial years concerned are set out at Appendix 11. The total amount of LSG clawed back in the above period was about \$7 million. As the amount to be clawed back from aided and caput schools for the 2018/19 school year will be confirmed only after the schools' submission of audited accounts by end of February 2020 and verification by the EDB, we are unable to provide the claw-back information for the 2018/19 school year and beyond. The EDB has stepped-up efforts to monitor and remind schools to better utilise the LSG through various measures that include providing schools with guidelines on the deployment of LSG and claw-back mechanism, conducting regular school visits to advise on the deployment of resources for supporting students with SEN, organising experience sharing activities among schools, and issuing reminders to individual schools concerned for making improvement should undesirable situation be detected. The surplus situation of LSG in schools has been improved in recent years.

The EDB has implemented the above-mentioned enhanced LSG starting from the 2019/20 school year, which squarely responds to the mainstream views collected through our consultations with the sector, i.e. providing schools with a more stable teaching force and

additional resources for flexible deployment to support students with SEN and to further enhance the effectiveness of IE.

Table 1**Number of students in primary schools by sector
from the 2015/16 to 2019/20 school years**

Sector	2015/16	2016/17	2017/18	2018/19	2019/20
Government	21 466	22 000	22 618	23 159	23 043

16	56 301	55 707	54 666	49 282	48 704
17	47 385	43 792	43 910	41 770	38 814
18	13 625	11 933	11 169	11 166	10 228
19	4 332	3 731	3 354	3 369	3 054
20	1 048	929	784	847	867
>20	314	240	210	213	247
All ages	352 609	338 152	330 804	325 498	327 394

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include ordinary secondary day schools, but not special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses. International schools include the ESF schools.

Table 1

**Number of students in kindergartens by gender
from the 2015/16 to 2019/20 school years**

Gender	2015/16	2016/17	2017/18	2018/19	2019/20
Male	96 632	96 064	94 198	90 576	90 251
Female	88 766	87 968	86 949	83 826	84 046
All genders	185 398	184 032	181 147	174 402	174 297

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include nursery, lower and upper classes in kindergarten-cum-child care centres.

Table 2

**Number of students in primary schools by gender
from the 2015/16 to 2019/20 school years**

Gender	2015/16	2016/17	2017/18	2018/19	2019/20
Male	175 227	181 385	188 316	193 463	194 285
Female	162 331	167 623	173 733	179 002	178 943
All genders	337 558	349 008	362 049	372 465	373 228

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include ordinary primary schools, but not special schools. International schools include the ESF schools.

Table 3

**Number of students in secondary schools by gender
from the 2015/16 to 2019/20 school years**

Gender	2015/16	2016/17	2017/18	2018/19	2019/20
Male	181 704	174 043	170 079	167 444	168 386
Female	170 905	164 109	160 725	158 054	159 008
All genders	352 609	338 152	330 804	325 498	327 394

Notes:

1. Figures refer to the position as at mid-September of the respective school years.

2. Figures include ordinary secondary day schools, but not special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses. International schools include the ESF schools.

**Number of students in special schools by school type
from the 2015/16 to 2019/20 school years**

School type	2015/16 (Note 1)	2016/17 (Note 1)	2017/18 (Note 1)	2018/19 (Note 1)	2019/20 (Note 1)
Visual Impairment	125	123	112	110	119
Hearing Impairment	87	89	84	64	71
Physical Disability	915	883	877	907	903
Mild Intellectual Disability (Note 2)	3 049	3 103	3 154	3 218	3 295
Moderate Intellectual Disability (Notes 2 & 3)	1 879	1 911	1 992	2 040	2 103
Severe Intellectual Disability (Note 3)	679	687	699	706	712
School for Social Development	600	553	594	614	647
Hospital School	369	333	314	280	351
Total	7 703	7 682	7 826	7 939	8 201

Notes:

1. Figures reflect the position as at September of the respective school years.
2. The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of schools for children with MiID and MoID (7 schools in the 2015/16 school year and 5 schools starting from the 2016/17 school year).
3. 1 school for children with severe intellectual disability operates classes for children with MoID on a pilot basis starting from the 2017/18 school year.

**Number of students with special educational needs (SEN)
studying in public sector ordinary primary and secondary schools
by grade level and SEN type from the 2015/16 to 2019/20 school years ^(Note 1)**

2018/19	10	9	6	4	13	13	22	42	53	57	61	74
2019/20	5	8	11	11	9	21	44	58	96	90	105	103

Notes:

1. Figures refer to the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many types of MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
2. The number of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

**Number of students with special educational needs (SEN)
studying in Direct Subsidy Scheme (DSS) schools
by grade level and SEN type in the 2019/20 school year** ^(Notes 1 & 2)

	P1	P2	P3	P4	P5	P6	S1	S2	S3	S4	S5	S6
Specific Learning Difficulties	0	9	27	57	42	47	264	274	233	248	237	220
Intellectual Disability	0	0	0	0	2	0	18	8	17	8	10	8
Autism Spectrum Disorders	7	14	13	25	21	19	105	139	126	113	104	88

Physical Disability	1	1	1	0	0	0	4	4	2	8	5	4
Visual Impairment	0	0	0	0	0	0	1	1	2	2	0	1
Hearing Impairment	2	1	2	1	2	0	3	4	3	12	9	5
Speech & Language Impairment	0	0	0	0	0	0	15	0	0	1	0	0
Mental Illness	0	0	0	0	1	0	6	12	11	27	26	36

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Starting from the 2019/20 school year, the provision of Learning Support Grant (LSG) to DSS schools is based on the number of students with SEN and academic low achievers (applicable to primary schools) enrolled in each school, as well as the DSS LSG unit rate. Hence, DSS schools are required to submit SEN information of the students concerned to the EDB for calculating the allotment of the LSG. Before that, the relevant resources were included in the DSS unit subsidy, and we did not compile the numbers of students concerned.

Number of students with special educational needs (SEN) in the English Schools Foundation (ESF) schools, other private international schools, and private independent schools (PIS) from the 2015/16 to 2019/20 school years

School Year	ESF		PIS		Other private international school		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
2015/16	230	435	178	277	385	175	793	887
2016/17	245	565	172	231	323	179	740	975
2017/18	439*	422*	183	234	404	284	1 026	940
2018/19	365	458	177	291	482	348	1 024	1 097
2019/20	354	463	230	301	561	403	1 145	1 167

* The ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and has required all its schools to provide such figures to the EDB in the Student Enrolment Survey accordingly since the 2015/16 school year. However, in an internal review of the ESF schools' practice in compiling the number of students with SEN in September 2017, the ESF found that the practice was still inconsistent among individual schools. The ESF has verified again the information provided by each ESF school for the Student Enrolment Survey. Therefore, there is a relatively significant change in the number of students with SEN in the 2017/18 school year when compared with previous years.

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Statistics cover students with SEN under integrated classes/special classes/special schools in PIS, the ESF and other private international schools as reported by the schools concerned in response to the Student Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

Table 1

**Distribution of public sector ordinary primary and secondary schools
eligible for the Learning Support Grant (LSG)
by number of students with special educational needs (SEN)
requiring tier-2 support from the 2015/16 and 2018/19 school years**

No. of students with SEN requiring tier-2 support	No. of schools							
	2015/16		2016/17		2017/18 ^(Note 1)		2018/19 ^(Note 1)	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
0	0	2	1	2	9	1	0	1
1-10	15	81	11	57	41	50	13	39
11-20	26	72	26	77	23	67	18	54
21-30	35	49	26	56	19	57	20	64
31-40	55	27	47	27	47	34	31	36
41-50	63	22	62	26	57	30	72	34
51-60	51	25	62	19	65	21	80	21
61-70	33	21	37	25	41	21	53	25
71-80	19	25	22	25	28	14	46	19
81-90	7	17	9	15	10	23	27	15
91-100	4	13	8	18	8	18	13	15
More than 100	2	28	3	35	7	49	8	62

Notes:

- Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.
- Before the 2019/20 school year, ordinary schools were provided with additional resources with reference to different criteria and principles under various funding modes to support students with SEN. Those schools opting to implement IE Programme or IRTP (i.e. not opting for LSG) might not report to the EDB the tier of support required by each of their students and the number of all students receiving tier-3 support. Starting from the 2019/20 school year, the amount of LSG received by each public sector ordinary school under the enhanced LSG measure is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same mode, which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and the EDB collects complete data on the tier of support these students require from schools.

Table 2

Distribution of public sector ordinary primary and secondary schools eligible for the Learning Support Grant (LSG) by number of students with special educational needs (SEN) requiring tier-3 support from the 2015/16 and 2018/19 school years

No. of students with SEN requiring tier-3 support	No. of schools							
	2015/16		2016/17		2017/18 ^(Note 1)		2018/19 ^(Note 1)	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
0	42	77	39	72	66	60	32	50

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please tabulate the items of expenditure and detailed work arrangements of the Native-speaking English Teacher Section, the Special Educational Needs Section, the Life-wide Learning and Library Section and the Gifted Education Section in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 453)

Reply:

The major areas of work of and total expenditure on the Native-speaking English Teacher Section, the Special Educational Needs Section, the Life-wide Learning and Library Section (restructured as the Life-wide Learning Section with effect from 2 May 2017), and the Gifted Education Section from 2015-16 to 2019-20 are set out at Annexes 1 to 4 respectively.

Native-speaking English Teacher Section

The Native-speaking English Teacher (NET) Section is responsible for supporting and evaluating the implementation of the NET Scheme and attainment of the Scheme goals. The major areas of work from 2015-16 and 2019-20 are set out in the table below:

Major Area of Work	Description
A. Curriculum development	To develop and implement literacy programmes and collaborative research and development projects (“Seed” projects) in both primary and secondary schools to facilitate the implementation of the English Language Curriculum Guide prepared by the Curriculum Development Council, promote pedagogical innovations and foster a culture of collaboration among English language teachers, including NETs.
B. School support services	To provide on-site professional support for both primary and secondary schools to foster collaboration between NETs and local teachers; to give advice on curriculum development, pedagogy, assessment and NET deployment; and to identify and disseminate good practices.
C. Professional development programmes	To offer professional development opportunities to English teachers, including NETs, through workshops, seminars, cluster meetings, experience-sharing sessions, etc.
D. Learning and teaching resources development	To develop printed and electronic learning and teaching resources for various initiatives of the NET Section, including literacy programmes and “Seed” projects.
E. Organisation of competitions for students	To organise competitions that provide a range of opportunities for students to use English in a creative and collaborative way. These competitions also provide professional development opportunities for participating teachers, including NETs.
F. Ad hoc projects	<ul style="list-style-type: none"> • Development of an e-platform from 2015-16 onwards to enhance the publicity for and accessibility of the services and resources offered by the NET Section; • Evaluation of the NET Section’s school support services; • Evaluation of the NET Scheme in Primary Schools and the Enhanced NET Scheme in Secondary Schools (ENET Scheme); • The 20th Anniversary Conference of the ENET Scheme; and • Launching a project for developing primary and secondary students’ English public speaking skills in 2019-20.

The expenditures on curriculum development, school support services, professional development programmes, learning and teaching resources development, organisation of competitions for students and ad hoc projects in the past 5 years are as follows:

2015-16 (\$ million)	2016-17 (\$ million)	2017-18 (\$ million)	2018-19 (\$ million)	2019-20 (\$ million) (estimate)
1.5	0.9	0.7	0.3	0.4

The above figures cover the expenditures on procuring the services concerned, developing learning and teaching resources, and implementing various measures. As a significant part of the work mentioned was carried out by officers of the Education Bureau (EDB), the expenditures involved had been subsumed under the overall expenditure of the EDB. A further breakdown of the figures is thus not available.

Special Educational Needs Section

The Special Educational Needs (SEN) Section is responsible for planning and developing the adapted curriculum for special schools and supporting their implementation of the adapted curriculum through enhancing the learning and teaching resources for students with intellectual disabilities (ID). The major areas of work from 2015-16 to 2019-20 are set out in the table below:

Major Area of Work	Description
A. Curriculum development	To plan and develop the adapted curriculum for special schools to nurture students with ID and to enrich learning and teaching resources through collaborative research and development projects (“Seed” projects) on curriculum adaptation and development of the Learning Progression Frameworks for the core subjects of both basic education and senior secondary education.
B. Professional development programmes	To conduct professional development and training programmes for school heads, curriculum leaders and teachers to facilitate the implementation of the adapted curriculum for students with ID.
C. Learning and teaching resources development	To develop learning and teaching resources as well as supplementary guides to curriculum and assessment for different subjects at basic education and senior secondary levels for special schools.
D. Other support measures	To support schools implementing the adapted senior secondary curriculum for students with ID under the principle of “One Curriculum Framework for All”; and to provide adapted Applied Learning courses for students with ID as elective subject(s) in the senior secondary curriculum that complement other senior secondary subjects (with emphasis on practical learning elements that link to broad professional and vocational fields).

The expenditures on curriculum development, professional development programmes, learning and teaching resources development and other support measures in the past 5 years are as follows:

2015-16 (\$ million)	2016-17 (\$ million)	2017-18 (\$ million)	2018-19 (\$ million)	2019-20 (\$ million) (estimate)
17.8	21.4	22.0	21.8*	18.8

*Actual expenditure revised from the preceding year’s estimate

The above figures cover the expenditures on procuring the services concerned, developing learning and teaching resources, and implementing various measures. As a significant part of the work mentioned was carried out by officers of the EDB, the expenditures involved had been subsumed under the overall expenditure of the EDB. A further breakdown of the figures is thus not available.

Life-wide Learning Section

Restructured from the Life-wide Learning and Library Section on 2 May 2017, the Life-wide Learning Section is mainly responsible for the curriculum development and implementation of Life-wide Learning (LWL) to support students' whole-person development (before the restructuring, also responsible for promoting information literacy among teacher-librarians and supporting the implementation of "Reading across the Curriculum" in schools through quality library services). The major areas of work from 2015-16 to 2019-20 are set out in the table below:

Major Area of Work	Description
A. Curriculum development	<ul style="list-style-type: none"> • To promote the curriculum development, which includes Other Learning Experiences (OLE) and Student Learning Profile (SLP) at the senior secondary level, to foster students' whole-person development; and • To identify and promote good practices of library services in primary and secondary schools*.
B. Professional development programmes	<ul style="list-style-type: none"> • To enhance the professional capacity of school leaders and teachers to implement LWL, OLE and SLP; and • To support teacher-librarians in promoting information literacy and reading*.
C. Resources development and support services	<ul style="list-style-type: none"> • To support schools' implementation of LWL, OLE and SLP; • To support LWL activities for students' whole-person development; and • To maintain the Book Works Reading Site on the EDB website*.
D. Other support measures	<ul style="list-style-type: none"> • To administer the LWL Grant to support schools in taking forward, on the present foundation, LWL with enhanced efforts; and • To administer the Student Activities Support Grant and the Hong Kong Jockey Club Life-wide Learning Fund[^] to support students with financial needs to participate in LWL activities organised or recognised by their schools.

* Taken over by the Curriculum Resources Section since 2 May 2017

[^] The Fund ceased to operate after the close of the 2018/19 school year.

The expenditures on curriculum development, professional development programmes, resources development and support services, and other support measures in the past 5 years are as follows:

2015-16 (\$ million)	2016-17 (\$ million)	2017-18 (\$ million)	2018-19 (\$ million)	2019-20 (\$ million) (estimate)
4.5	4.3	1.1	0.9	0.6

The above figures cover the expenditures on procuring the services concerned, developing learning and teaching resources, and implementing various measures. As a significant part of the work mentioned was carried out by officers of the EDB, the expenditures involved had been subsumed under the overall expenditure of the EDB. A further breakdown of the figures is thus not available.

Gifted Education Section

The Gifted Education (GE) Section is responsible for planning, co-ordinating and reviewing the implementation of the curriculum that caters for the special traits of gifted students and the changing demands of society. The major areas of work from 2015-16 to 2019-20 are set out in the table below:

Major Area of Work	Description
A. Curriculum development	To develop for schools' reference various guidelines, curriculum documents and tools on gifted education such as information folders and School Self-enhancing Tool; to conduct curriculum development visits and advise on gifted education development; and to facilitate inter-school professional dialogues through the GE School Network Initiative.
B. Professional development programmes	To enhance teachers' professional capacity to promote gifted education through organising online courses, seminars, workshops, teacher networks, etc.
C. Learning and teaching resources development	To produce learning and teaching packages to support schools in catering for the needs of gifted students in classrooms, pull-out programmes and off-school provisions.
D. Support services	To organise various local competitions and off-school programmes for gifted students, e.g. web-based learning courses, territory-wide competitions in different Key Learning Areas and STEM-related enrichment activities; to provide secretariat support for the Advisory Committee on Gifted Education; and to support the deployment of the Gifted Education Fund.
E. Sending HK delegates to various overseas student competitions	To collaborate with tertiary education institutions and other educational organisations in providing gifted programmes, competition-related training programmes and affective education to prepare gifted students for national and international competitions, which serve as platforms for gifted students to learn and grow with like-ability peers and to widen their horizons.

The expenditures on curriculum development, professional development programmes, learning and teaching resources development, support services, and sending HK delegates to various overseas student competitions in the past 5 years are as follows:

2015-16 (\$ million)	2016-17 (\$ million)	2017-18 (\$ million)	2018-19 (\$ million)	2019-20 (\$ million) (estimate)
8.1	7.5	6.0	5.2*	5.3

* Actual expenditure revised from the preceding year's estimate

The above figures cover the expenditures on procuring the services concerned, developing learning and teaching resources, and implementing various measures. As a significant part of the work mentioned was carried out by officers of the EDB, the expenditures involved had been subsumed under the overall expenditure of the EDB. A further breakdown of the figures is thus not available.

CONTROLLING OFFICER'S REPLY**EDB328****(Question Serial No. 5827)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(1) Please provide the numbers of primary and secondary students having transferred to other schools in the past 5 years:

	No. of students with special educational needs transferred	Total no. of students with special educational needs	No. of students without special educational needs transferred	Total no. of students without special educational needs
P1 to P3				
P4 to P6				
S1 to S3				
S4 to S6				

(2) Please provide a breakdown of the reasons for students' transfer; and

(3) What is the Education Bureau's policy on school transfer and support services provided for transferred students?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 454)

Reply:

(1) and (2)

The Education Bureau (EDB) does not require schools to provide specific reasons for the transfer of individual students from one school to another. In general, students may change schools for different reasons (such as moving home, family factors and adjustment problem).

A breakdown of the transferred primary and secondary students under the categories of those with special educational needs (SEN) and those without does not give a true or concrete picture for reference purposes.

(3)

The EDB provides placement assistance for school-age children in need upon request. If there is information indicating that the students have special reasons (such as poor adjustment in original schools, having SEN or changes in family status) that warrant schools' particular attention, the EDB will contact the schools concerned to make appropriate arrangements for addressing those students' needs. Schools currently adopt the Whole School Approach to provide a variety of preventive, developmental and remedial guidance programmes, such as adjustment programmes, peer support schemes and group counselling, to help students adapt to the new learning environment and integrate into the new school life. Schools also deliver multifarious teaching strategies and counselling services as appropriate to cater for students' different abilities and aptitude, with a view to helping students overcome learning difficulties and handle their behavioural problems.

For students with SEN who need to be transferred to special schools because they are unable to cope with learning in ordinary schools, the EDB will, with consent from parents, place them in suitable special schools according to the assessment results and recommendations of medical specialists/professionals. Special schools, subject to parental consent, may also refer students who are found to have better learning abilities than their peers to educational psychologists for assessment and consideration of transferring them to ordinary schools.

CONTROLLING OFFICER'S REPLY**EDB329****(Question Serial No. 5828)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please advise this Committee of:

- (1) the number of school bullying cases reported to the Education Bureau (EDB), and among the students involved, the number of those with special educational needs (SEN) in the past 5 years that were involved in these cases; and
- (2) the EDB's policy on handling school bullying and strategy for minimising such bullying.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 455)Reply:

(1) Based on the information collected from the Education Bureau's (EDB) annual questionnaire survey on guidance and discipline cases in public sector primary and secondary schools, the number of students (including students with special educational needs (SEN)) involved in school bullying cases in the past 5 years (i.e. from the 2014/15 to the 2018/19 school years) is as follows:-

School year	2014/15	2015/16	2016/17	2017/18	2018/19
Number of students involved in school bullying cases (students with SEN)	214 (23)	204 (30)	124 (48)	202 (48)	226 (45)

(2) The EDB will not tolerate any act of bullying in schools. In this connection, we have been requiring all schools through circulars and guidelines to take the matter seriously and implement proactive measures to ensure the safety of students at school. The School Administration Guide sets out guidelines on handling and prevention of bullying cases for

reference to all schools. Schools are advised to adopt the Whole School Approach in formulating and implementing anti-bullying strategies, including clear stance on zero tolerance, proper reporting mechanism and handling procedures, highly transparent monitoring as well as proactive and serious attitude in handling each bullying incident. The EDB has also put in place a mechanism to deal with special cases. Whether direct investigation, handling and follow-up actions are necessary will be determined in the light of the nature and seriousness of the incident.

Through preventive education, training programmes and various guidance and discipline activities, the awareness of anti-bullying among students and staff is raised. Schools are required to augment the personal growth education and life education elements in various domains of their school curriculum to instil in students a sense of respect for others and help them acquire communication, social and conflict resolution skills. Starting from the 2011/12 school year, the EDB has launched the Harmonious School – Anti-bullying Campaign. Teaching resources/promotional materials, an anti-bullying charter and training for Student Peace Ambassadors to equip them with skills on conflict resolution and peer mediation are provided for schools for organising their own Anti-bullying Day/Week, with the aim of guiding students to understand the impact of bullying on others and its possible consequences with empathy, thus raising their anti-bullying awareness. The EDB has also launched the Harmonious School Net and the Wise NET School Recognition Scheme for inter-school sharing of information and successful experience, with a view to facilitating schools in cultivating a harmonious and caring school culture.

We notice that there are more school bullying cases involving students with SEN in recent years. Apart from carrying on with our work in guidance and discipline in schools, we will strengthen the promotion of activities related to anti-bullying and respect for others to cultivate students' respect for differences and their due attitude to get along with others. To facilitate students with SEN to integrate into school life, the EDB will also continue to encourage schools to adopt the Whole School Approach to integrated education. Through peer support programmes, circle of friends, class management activities, collaborative learning, etc., students can get to know and accept each other, and all teachers and students will respect individual differences and jointly develop an inclusive school culture. Besides, home-school cooperation is very important. We urge schools to, through parent education, encourage parents to listen patiently to their children, support them to face difficulties with a caring attitude, maintain communication with schools, and seek help from teachers, guidance personnel and social workers whenever necessary.

CONTROLLING OFFICER'S REPLY

EDB330

(Question Serial No. 5829)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the Government's annual expenditure on integrated education since the implementation of the New Funding Mode. Please tabulate the following figures:

- (1) a comparison of the unit cost of each type of special schools, and the unit costs for supporting students with and without special educational needs in ordinary schools;
- (2) the percentage share of the expenditure on integrated education in the overall education expenditure; and
- (3) the percentage share of the expenditure on special education in the overall education expenditure.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 456)

Reply:

Under the prevailing education policy, the Education Bureau (EDB) will, subject to the assessment and recommendations of specialists and the consent of parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with special educational needs (SEN) will attend ordinary schools. The EDB has been providing regular subvention for all ordinary schools to cater for the diverse learning needs of students. All students, including students with SEN, will benefit from the support services rendered. In addition, to support ordinary schools in catering for students with SEN, the EDB has been providing schools with additional resources, professional support and teacher training. To further enhance the effectiveness of integrated education (IE), the EDB has implemented a series of enhanced measures (including the enhanced Learning Support Grant (LSG)) starting from the 2019/20 school

year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace the Intensive Remedial Teaching Programme and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reaches the specific threshold. The total expenditure on additional support and services provided for students with SEN in ordinary schools on top of regular subvention from the 2015/16 to 2019/20 school years is set out at Appendix 1. It should be noted that some of the additional resources and support services are provided for individual schools to meet the specific needs of their students with SEN (e.g. Top-up Fund for procurement of special furniture and equipment). In other words, not all schools and students with SEN are receiving the same support services and the funding involved may vary. Hence, providing the unit cost for students with SEN across all ordinary schools or separately calculating the percentage share of the expenditure on IE in the overall expenditure of education is inappropriate. The unit cost of each subsidised place in aided primary and secondary schools from 2015-16 to 2019-20 is set out at Appendix 2.

The average unit cost of each type of special school from the 2015/16 to 2019/20 school years and the percentage share of the expenditure on special education in the overall expenditure of education from 2015-16 to 2019-20 are set out in Part I and Part II of Appendix 3.

**Total expenditure on additional support and services provided for
students with special educational needs studying in public sector ordinary schools
from the 2015/16 to 2019/20 school years
(on top of regular subvention)**

School year	Expenditure (\$ million)
2015/16	1,310
2016/17	1,392
2017/18	1,638
2018/19	1,977
2019/20 (revised estimate)	3,116

**Unit cost of each subsidised place in
aided primary and secondary schools
from 2015-16 to 2019-20**

Financial Year	Primary School	Secondary School
2015-16	\$55,123	\$68,703
2016-17	\$57,417	\$75,360
2017-18	\$59,763	\$80,457
2018-19	\$63,449	\$86,686
2019-20 (revised estimate)	\$70,800	\$93,940

Part I

**Average unit cost of each type of special schools
from the 2015/16 to 2019/20 school years**

School Type \ School Year	2015/16	2016/17	2017/18	2018/19	2019/20
Visual Impairment	\$293,000	\$320,000	\$359,000	\$397,500	\$469,500
Hearing Impairment	\$293,000	\$306,000	\$343,500	\$395,500	\$441,000
Physical Disability	\$294,000	\$314,000	\$334,000	\$360,000	\$397,500
Mild Intellectual Disability	\$171,500	\$177,000	\$195,500	\$211,500	\$242,000
Moderate Intellectual Disability	\$253,000	\$260,000	\$285,500	\$304,500	\$339,000
Severe Intellectual Disability	\$329,000	\$342,000	\$361,500	\$389,000	\$442,500
School for Social Development	\$164,000	\$181,000	\$200,000	\$220,000	\$249,000
Hospital School	\$178,000	\$186,000	\$198,500	\$211,000	\$242,500

Part II

**Percentage share of the expenditure on special education
in the overall education expenditure from 2015-16 to 2019-20**

Financial Year	2015-16	2016-17	2017-18	2018-19	2019-20 (revised estimate)
Percentage Share (%)	2.9	3.3	3.3	2.8	2.7

Note:

The Government expenditure on special education is on the increase every year. For 2018-19, since certain education areas have a greater rate of increase in expenditure, the percentage share of the expenditure on special education in the overall education expenditure has a downward adjustment.

CONTROLLING OFFICER'S REPLY

EDB331

(Question Serial No. 5830)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown in respect of the following responsibilities discharged by the School Registration and Compliance Section of the Education Bureau in accordance with the Education Ordinance in the past 5 years:

- (1) the annual number of site inspections by nature (proactive inspections and inspections upon receipt of complaint); and
- (2) the annual number of warnings issued and prosecutions initiated by case type and nature.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 457)

Reply:

Once sufficient information has been gathered regarding suspected cases of operating unregistered schools/registered or provisionally registered schools not operating in their registered premises, the School Registration and Compliance Section of the Education Bureau (EDB) will follow up the cases in accordance with the Education Ordinance (EO) and established procedures, which include conducting surprise inspection visits to the relevant premises, issuing warning letters to the offenders, and prosecuting the persons concerned. Relevant figures for the past 5 years are set out below:

	Number of inspections (Note 1)	Number of cases with warning issued	Type and nature of cases with warning issued	Number of prosecutions (Note 2)	Type and nature of prosecutions
2015	586	53	Operating unregistered schools/registered or provisionally registered schools not operating in their registered premises in contravention of sections 87(1)(a), 87(1)(aa), 87(1)(b), 87(3)(c), 87(3)(e) and/or 87(3)(f) of the EO (Note 3)	5	Operating unregistered schools in contravention of sections 87(1)(a), 87(1)(aa), 87(3)(e) and/or 87(3)(f) of the EO (Note 3)
2016	451	58		13	
2017	573	57		9	
2018	493	45		12	
2019	642	37		8 (Note 4)	

Note 1: The EDB does not have a breakdown of the number of inspections by the categories specified in the question.

Note 2: Calculated based on the date of obtaining evidence.

Note 3: In accordance with sections 87(1)(a), (aa) and (b) of the EO, any person who is an owner or a teacher in a school which is not registered or provisionally registered; or any person who manages or takes any part in the management of a school which is not registered or provisionally registered; or any person who is an owner or a manager of a school without an incorporated management committee which is operated in contravention of section 19(1) shall be guilty of an offence and shall be liable on conviction to a fine of \$250,000 and to imprisonment for 2 years.

Sections 87(3)(c), (e) and (f) also provide that any person who contravenes section 19(2); or any person who contravenes section 42(1) or (2); or any person who employs or permits any person to teach in a school in contravention of section 42(1) or (2) shall be guilty of an offence and shall be liable on conviction to a fine at level 5 (\$50,000) and to imprisonment for 2 years.

Note 4: Figure as at 11 March 2020.

(Question Serial No. 5831)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please provide the following information, by level of education (secondary, primary and kindergarten), for the past 5 years:

(i) the total expenditure on the subsidy for free lunch at schools;

(ii) the number of students in receipt of the Comprehensive Social Security Assistance (CSSA);

(iii) the number of students who are from families in receipt of the CSSA and receiving the subsidy for free lunch at schools, and their percentage share in the total number of students; and

(iv) the number of students who are from families in receipt of the CSSA and receiving the subsidy for free lunch at schools and the amount of expenditure involved, as well as the average and median amount of actual school meal expenses.

(2) Please provide the following information, by level of education (secondary and primary), for the past 5 years:

(i) the number of primary and secondary students in receipt of full grant and half grant under the School Textbook Assistance Scheme as well as the CSSA, and their respective percentage share in the total number of students; and

(ii) among the primary and secondary students in receipt of full grant and half grant under the School Textbook Assistance Scheme as well as the CSSA, the number and percentage share of those participating in the School-based After-School Learning and Support Programmes, Child Development Fund, After-school Care Scheme and Hong Kong Jockey Club Life-wide Learning Fund (in tabular form).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 458)

Reply:

(1)

- (i) The Education Bureau (EDB) has, starting from the 2014/15 school year, incorporated the pilot scheme of provision of free lunch at schools for needy primary school students under the Community Care Fund (CCF) into the regular assistance programme. Students in receipt of full grant assistance under the Student Financial Assistance Schemes (SFAS) studying in whole-day public sector primary schools (including special schools) or whole-day primary schools under the Direct Subsidy Scheme (DSS) are eligible for free lunch at schools.

When the provision of free lunch at schools was incorporated into the regular assistance programme, stakeholders generally agreed that for better utilisation of public resources, the service should be targeted at the neediest primary students. At present, we have no plan to revise the eligibility including extending the programme to secondary schools or kindergartens.

The expenditure in the past 5 school years (i.e. from the 2014/15 to 2018/19 school years) is set out below:

School year	Expenditure (\$ million)
2014/15	163
2015/16	170
2016/17	174
2017/18	175
2018/19	174

- (ii) From the 2014/15 to 2018/19 school years, the number of students in receipt of the Comprehensive Social Security Assistance (CSSA) by school level is tabulated below:

School year	School level	CSSA (as at end-December of the respective year)
2014/15	Kindergarten	9 422
	Primary	29 011
	Secondary	35 173
2015/16	Kindergarten	9 260
	Primary	27 461
	Secondary	32 117

2016/17	Kindergarten	8 769
	Primary	25 804
	Secondary	29 355
2017/18	Kindergarten	8 447
	Primary	24 909
	Secondary	29 802
2018/19	Kindergarten	8 002
	Primary	23 617
	Secondary	28 055

(iii) & (iv)

For students in receipt of CSSA and receiving full-day education, their meal expenses have already been covered by the CSSA subsidy. The scheme of provision of free lunch at schools therefore does not include these students, and the information on their school meal expenses is not available.

(2)

(i) The number of primary and secondary students receiving full grant and half grant under SFAS, CSSA, and their respective percentage share (where applicable) in the total number of primary and secondary students from the 2014/15 to 2018/19 school years are tabulated below:

School year	School level	Full grant			Half grant			CSSA (as at end-December of the respective year)		
		No. of students	Subtotal	%	No. of students	Subtotal	%	No. of students	Subtotal	%
2014/15	Primary	66 494	134 060	20.5%	38 030	91 943	14.0%	29 011	64 184	NA#
	Secondary	67 566			53 913			35 173		
2015/16	Primary	67 371	129 962	20.1%	37 211	85 142	13.2%	27 461	59 578	NA#
	Secondary	62 591			47 931			32 117		
2016/17	Primary	68 700	128 062	20.1%	36 711	80 254	12.6%	25 804	55 159	NA#
	Secondary	59 362			43 543			29 355		
2017/18	Primary	68 333	125 238	19.5%	37 614	78 283	12.2%	24 909	54 711	NA#
	Secondary	56 905			40 669			29 802		
2018/19	Primary	66 311	121 243	18.8%	40 490	80 208	12.4%	23 617	51 672	NA#
	Secondary	54 932			39 718			28 055		

As the CSSA data is as at end-December each year while the student population is based on each school year, the corresponding percentage share cannot be worked out.

- (ii) The number and percentage share (where applicable) of primary and secondary students receiving full grant, half grant and CSSA who are covered by the School-based After-School Learning and Support Programmes, CCF After-school Care Pilot Scheme and Hong Kong Jockey Club Life-wide Learning Fund from the 2014/15 to 2018/19 school years are listed in the following tables. As for the Child Development Fund, the Government does not have relevant data.

School-based After-School Learning and Support Programmes*

	School year	Full grant	Percentage share among all full grant students	CSSA	Percentage share among all CSSA students
Primary	2014/15	63 190	95.0%	29 640	NA#
	2015/16	64 220	95.3%	27 660	NA#
	2016/17	67 400	98.1%	27 470	NA#
	2017/18	68 830	99.9%	25 580	NA#
	2018/19	65 820	99.3%	23 490	NA#
Secondary	2014/15	68 300	99.9%	36 700	NA#
	2015/16	62 140	99.3%	34 080	NA#
	2016/17	58 060	97.8%	33 290	NA#
	2017/18	57 970	99.9%	28 820	NA#
	2018/19	54 070	98.4%	25 610	NA#

* Eligible students under the School-based After-School Learning and Support Programmes are students studying in public sector schools or DSS schools whose families are in receipt of CSSA or receiving full grant under SFAS. The respective number of students is calculated based on the data on students receiving the related subsidy as at end-March of the previous school year and the number of approved classes as specified by EDB in April of the previous school year. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit more needy students (e.g. students receiving half grant, new arrivals and single parent households) who do not receive CSSA or full grant.

As the CSSA data is as at end-December each year while the funding for eligible students under the School-based After-School Learning and Support Programmes is based on each school year, the corresponding percentage share cannot be worked out.

CCF After-school Care Pilot Scheme*^θ

	School year	CSSA, full grant and half grant+	Percentage share among all CSSA, full grant and half grant students
Primary and secondary [^]	2014/15	9 074	NA#
	2015/16	8 423	NA#

* Primary and secondary students whose families are in receipt of CSSA or who are receiving full grant or half grant under SFAS are eligible for the scheme. Participating schools of the CCF After-school Care Pilot Scheme may use not more than 25% of their after-school care places to benefit needy students (e.g. new arrivals and students from single parent households) who do not receive CSSA, full grant or half grant.

[^] Breakdown of primary and secondary students is not available.

⁺ Breakdown of CSSA, full grant and half grant students is not available.

[#] As the CSSA data is as at end-December each year while the funding for eligible students under the CCF After-school Care Pilot Scheme is on school year basis, the corresponding percentage share cannot be worked out.

^θ The CCF After-school Care Pilot Scheme was completed after the end of the 2015/16 school year.

Hong Kong Jockey Club Life-wide Learning Fund*

	School year	Full grant	Percentage share among all full grant students	CSSA	Percentage share among all CSSA students
Primary	2014/15	54 595	82.1%	19 649	NA#
	2015/16	59 165	87.8%	19 608	NA#
	2016/17	59 861	87.1%	19 390	NA#
	2017/18	59 455	87.0%	16 934	NA#
	2018/19	58 223	87.8%	16 167	NA#
Secondary	2014/15	49 205	72.8%	19 610	NA#
	2015/16	47 386	75.7%	19 097	NA#
	2016/17	42 661	71.9%	16 808	NA#
	2017/18	41 113	72.2%	15 542	NA#
	2018/19	38 862	70.7%	13 906	NA#

* Eligible students under the Hong Kong Jockey Club Life-wide Learning Fund are students studying in primary and secondary schools (excluding English Schools

Foundation and international schools) whose families are in receipt of CSSA or who are receiving full grant under the SFAS. Starting from the 2005/06 school year, the discretionary quota of all participating schools has been increased from 10% to 100% in a bid to benefit more needy students (e.g. students receiving half grant, new arrivals and students from single parent households) who do not receive CSSA or full grant.

- # As the CSSA data is as at end-December each year while the funding for eligible students under the Hong Kong Jockey Club Life-wide Learning Fund is on school year basis, the corresponding percentage share cannot be worked out.

CONTROLLING OFFICER'S REPLY

EDB333

(Question Serial No. 5832)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (1) Please provide the service cost per capita of each type of special schools for children with intellectual disabilities, disaggregated under the categories of day student, 5-day boarder and 7-day boarder.
- (2) Please provide the number of students receiving Tier 1 "Grant for Support for Boarders with Medical Complexity" and Tier 2 "Grant for Support for Boarders with Medical Complexity" in all special schools for children with severe intellectual disabilities and the expenditure involved in the past 5 years, disaggregated under the categories of 5-day boarder and 7-day boarder and by gender.
- (3) Please provide the number of students who applied for extension of years of study in each type of special schools for children with intellectual disabilities in the past 5 years, together with grounds for application and rejection.
- (4) Please provide the number of students who applied for extension of years of study for the first time, second time and third time in each type of special schools for children with intellectual disabilities in the past 5 years, disaggregated under the categories of day student and boarder.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 459)

Reply:

(1)

The average unit cost per school place (i.e. day student) and the average unit cost per boarding place (including 5-day boarding and 7-day boarding) for each type of schools for children with intellectual disability are as follows:

School Type	Average Unit Cost in the 2019/20 School Year	
	per School Place	per Boarding Place
Mild Intellectual Disability ^{Note}	\$242,000	Not applicable
Moderate Intellectual Disability	\$339,000	\$287,000
Severe Intellectual Disability	\$442,500	\$367,500

Note: Schools for children with mild intellectual disability do not provide boarding service.

(2)

Starting from the 2014/15 school year, an “Additional Support Grant for Enhancing the Support for Boarders with Medical Complexity in Aided Special Schools” (Additional Grant) has been provided for the boarding section of special schools to enhance the support for boarders with medical complexity (MC). The situation of individual schools is not disclosed to avoid misconceptions about the conditions of students studying in respective schools and the possible labelling effect on the schools concerned based on its number of boarders with MC. In the 2014/15, 2015/16, 2016/17, 2017/18 and 2018/19 school years, 9 out of the 10 schools for children with severe intellectual disability have a boarding section. The number of students in receipt of the Additional Grant and the expenditure involved are tabulated below:

School Year	Tier 1 support		Tier 2 support		Total expenditure on the grant (\$ million)
	5-day boarding	7-day boarding	5-day boarding	7-day boarding	
2014/15	15	38	21	34	3.7
2015/16	19	38	19	36	3.9
2016/17	24	49	25	34	4.5
2017/18	35	60	25	36	5.2
2018/19	39	77	27	35	6.0

Note: As the disbursement of grant has no connection with gender, the Education Bureau has not gathered relevant information from schools.

(3) and (4)

The improvement measures on extension of years of study (EoS) were introduced in the 2010/11 school year for students in schools for children with intellectual disability, schools for children with physical disability, schools for children with hearing impairment, and the school for children with visual impairment cum intellectual disability. Under these measures, the Education Bureau (EDB) provides these schools with additional school places and allows them to devise school-based policies to exercise professional judgment to arrange for students in need and with valid reasons to extend their years of study in accordance with the objective criteria jointly set by the EDB and the special education sector. As the applications for EoS are made direct to and subsequently approved by the special schools concerned, the EDB does not have the number, reasons and frequency of such applications in schools for children with intellectual disability.

CONTROLLING OFFICER'S REPLY**EDB334****(Question Serial No. 5833)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding suicide cases of primary and secondary students in the past 5 years, please tabulate the following information under the categories of suicide attempt, non-fatal suicide and fatal suicide:

- (1) numbers of cases;
- (2) causes;
- (3) age distribution; and
- (4) the policies that the Government has in place to prevent student suicide.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 460)Reply:

(1) to (3)

The Education Bureau (EDB) has all along required primary and secondary schools to report suspected fatal suicide cases of students to keep in view the situation and facilitate the provision of appropriate professional support for the schools concerned. The nature and number of fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. The EDB has not captured the relevant information from the Court. Hence, we are unable to provide officially verified figures on students' fatal suicide cases. The number of suspected fatal suicide cases of students as reported by primary and secondary schools to the EDB in the past 5 school years is tabulated as follows:

School year	No. of cases
2014/15	9
2015/16	19
2016/17	19
2017/18	16
2018/19	20

As indicated in relevant international and local studies, suicide is a complicated social problem caused by the interplay of multiple factors, including mental health problems, psychological factors, interpersonal relationship and adjustment difficulties, as well as stress in everyday life. It involves a number of aspects, including healthcare system, society, interpersonal relationship and personal factors, etc. Attributing the cause of suicide to a single factor often results in the overlooking of the interaction of multiple intertwining factors, and such a handling approach should be avoided.

(4)

The EDB has been encouraging schools to adopt the Whole School Approach directed at three levels, namely “Universal”, “Selective” and “Indicated”, to promote mental health among students and enhance support for students with mental health needs (including students with suicidal risk).

At the Universal level, the EDB has been actively promoting diversified development programmes featuring adventure-based, team building and problem-solving training, such as the “Understanding Adolescent Project” for primary schools, the “Enhanced Smart Teen Project” for secondary schools and the “Pupil Ambassador Scheme on Positive Living”, to enhance students’ resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. Starting from the 2019/20 school year, the EDB has allocated more resources to enhance the above development programmes to benefit more students. From the 2016/17 to 2018/19 school years, the EDB and the Department of Health jointly launched the Joyful@School Campaign to enhance students’ awareness and understanding of mental health and strengthen their ability to cope with environmental changes. Building on past experiences and insights, many schools have continued to promote mental health in schools subsequently. Besides, the EDB has chosen “Expressing gratitude, to cherish, be proactive and optimistic” as the theme for promoting values education in schools in the current and the next two school years. We will also provide relevant teaching resources, organise student activities and professional development programmes for teachers to encourage all schools in the territory to create a favourable ambiance for positive education. Furthermore, the Quality Education Fund (QEF) implemented “My Pledge to Act – Expressing gratitude, to cherish, be proactive and optimistic” Funding Programme for 3 consecutive school years starting from the 2019/20 school year. Publicly-funded schools and kindergartens joining the kindergarten education scheme may apply to the QEF for additional resources to organise relevant activities and to create a learning environment conducive to cultivating positive values among students. A total of 154 schools and 105 kindergartens have submitted applications in the 2019/20 school year.

At the Selective level, starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with special educational needs (SEN) pitched at basic, advanced and thematic levels (BAT Courses). Some modules of the BAT Courses cover mental illness. From the 2017/18 school year onwards, the EDB has also provided teachers of primary and secondary schools with the “Professional Development Programme for Mental Health”, including 3-day elementary training for teachers at large and 5-day in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. The EDB has provided

schools with around 2 300 training places up to the 2019/20 school year. Besides, in each school year, the EDB also organises talks, seminars, experience sharing sessions, etc., on supporting students with mental health needs for primary and secondary school teachers to equip more of them with the knowledge and capacity to support students with mental health needs. To help schools identify and support students with mental health needs, the EDB has published “A Resource Handbook for Schools: Detecting, Supporting and Making Referral for Students with Suicidal Behaviours” and “Teacher’s Resource Handbook on Understanding and Supporting Students with Mental Illness” which was developed in collaboration with the Hospital Authority (HA) for reference of teachers and school personnel.

At the Indicated level, starting from the 2017/18 school year, the Learning Support Grant covers students with mental illness so that schools can have additional resources to strengthen their support for these students’ learning, social, emotional and behavioural needs. Moreover, the Food and Health Bureau, in collaboration with the EDB, the HA and the Social Welfare Department, has launched the “Student Mental Health Support Scheme” since the 2016/17 school year to provide appropriate support services for students with mental health needs through a school-based platform. There are 90 schools benefiting from this Scheme in the 2019/20 school year.

Regarding enhancement of family life and parent education, the EDB endeavors to promote home-school co-operation and parent education. The EDB has all along been supporting the Committee on Home-School Co-operation in organising parent activities and seminars to equip parents with the necessary knowledge about helping their children in respect of growth and development, enhancing their parental skills, as well as assisting them in the early identification of their children’s emotional problems and fostering positive thinking in their children. Besides, the EDB launched a website called “Smart Parent Net” in early 2018 to enable parents with children from kindergarten to primary and secondary school levels to easily access useful information on supporting the physical and mental development of students, which includes the parent-child relationship, character development, parenting skills and emotional management of parents. In parallel, the Education Commission set up the Task Force on Home-school Co-operation and Parent Education (the Task Force) in December 2017 to review the existing approach in promoting home-school co-operation and parent education and to formulate the direction and strategy for fostering home-school co-operation and promoting parent education with the objective of assisting parents to help their children grow up happily and healthily, and learn effectively through, among others, promotion of a correct understanding of developmental needs of children and adolescents as well as avoiding excessive competition. The Task Force submitted its report to the EDB on 29 April 2019, and the EDB has fully accepted the recommendations. Starting from the 2019/20 school year, the Federations of Parent-Teacher Associations and Parent-Teacher Associations of schools are provided with additional resources for enhancing home-school co-operation and promoting parent education. The EDB will soon launch a territory-wide “Positive Parent Campaign” to enable the public to understand the importance of happy and healthy development of children and enhance parents’ awareness of positive parenting through a series of publicity activities.

- End -

(Question Serial No. 5834)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (-) Not specified
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please provide details of the measures to prevent student suicides, the expenditures involved and the responsible parties.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 461)

Reply:

The Education Bureau (EDB) has been encouraging schools to adopt the Whole School Approach directed at 3 levels, namely “Universal”, “Selective” and “Indicated”, to promote mental health among students and enhance support for students with mental health needs (including students with suicidal risk).

At the Universal level, the EDB has been actively promoting diversified development programmes featuring adventure-based, team building and problem-solving training, such as the “Understanding Adolescent Project” for primary schools, the “Enhanced Smart Teen Project” for secondary schools and the “Pupil Ambassador Scheme on Positive Living”, to enhance students’ resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. Starting from the 2019/20 school year, the EDB has allocated more resources to enhance the above development programmes. The expenditure in the 2018-19 financial year was around \$66 million and the estimated expenditure for the 2019-20 financial year is around \$76 million. From the 2016/17 to 2018/19 school years, the EDB and the Department of Health jointly launched the Joyful@School Campaign to enhance students’ awareness and understanding of mental health and strengthen their ability to cope with environmental changes. During the implementation period of the Campaign, schools (or in collaboration with non-governmental organisations) can submit proposals to the Quality Education Fund (QEF) for funding of not exceeding \$200,000 through simplified procedures to organise activities related to the Campaign. More than 800 applications were approved under the Campaign with total funding amount of over \$160 million. Building on past experiences

and insights, many schools have continued to promote mental health in schools subsequently. Besides, the EDB has chosen “Expressing gratitude, to cherish, be proactive and optimistic” as the theme for promoting values education in schools in the current and the next 2 school years. We will also provide relevant teaching resources, organise student activities and professional development programmes for teachers to encourage all schools in the territory to create a favourable ambiance for positive education. Expenditure related to promotion of this theme is subsumed under the recurrent expenditure of the EDB, and no breakdown of figures is available. Furthermore, the QEF implemented “My Pledge to Act – Expressing gratitude, to cherish, be proactive and optimistic” Funding Programme for 3 consecutive school years starting from the 2019/20 school year. Publicly-funded schools and kindergartens joining the kindergarten education scheme may apply to the QEF for additional resources to organise relevant activities and to create a learning environment conducive to cultivating positive values among students. A total of 154 schools and 105 kindergartens have submitted applications in the 2019/20 school year. As at February 2020, funding amount of about \$20 million was approved by the QEF.

At the Selective level, starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with special educational needs (SEN) pitched at basic, advanced and thematic levels (BAT Courses). Some modules of the BAT Courses cover mental illness. From the 2017/18 school year onwards, the EDB has also provided teachers of primary and secondary schools with the “Professional Development Programme for Mental Health”, including 3-day elementary training for teachers at large and 5-day in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. The EDB has provided schools with around 2 300 training places up to the 2019/20 school year. Besides, in each school year, the EDB also organises talks, seminars, experience sharing sessions, etc., on supporting students with mental health needs for primary and secondary school teachers to equip more of them with the knowledge and capacity to support students with mental health needs. Taken together, the revised estimated expenditure for teacher training courses on supporting students with SEN and various related training activities for the 2019/20 school year is about \$100 million. The estimated expenditure for the 2020/21 school year is about \$90 million. To help schools identify and support students with mental health needs, the EDB has published “A Resource Handbook for Schools: Detecting, Supporting and Making Referral for Students with Suicidal Behaviours” and “Teacher’s Resource Handbook on Understanding and Supporting Students with Mental Illness” which was developed in collaboration with the Hospital Authority (HA) for reference of teachers and school personnel.

At the Indicated level, starting from the 2017/18 school year, the Learning Support Grant covers students with mental illness so that schools can have additional resources to strengthen their support for these students’ learning, social, emotional and behavioural needs. Moreover, the Food and Health Bureau, in collaboration with the EDB, the HA and the Social Welfare Department, has launched the “Student Mental Health Support Scheme” since the 2016/17 school year to provide appropriate support services for students with mental health needs through a school-based platform. There are 90 schools benefiting from this Scheme in the 2019/20 school year.

Regarding enhancement of family life and parent education, the EDB endeavours to promote home-school co-operation and parent education. The EDB has all along been supporting the Committee on Home-School Co-operation in organising parent activities and seminars to equip parents with the necessary knowledge about helping their children in respect of growth and development, enhancing their parental skills, as well as assisting them in the early identification of their children's emotional problems and fostering positive thinking in their children. Besides, the EDB launched a website called "Smart Parent Net" in early 2018 to enable parents with children from kindergarten to primary and secondary school levels to easily access useful information on supporting the physical and mental development of students, which includes the parent-child relationship, character development, parenting skills and emotional management of parents. In parallel, the Education Commission set up the Task Force on Home-school Co-operation and Parent Education (the Task Force) in December 2017 to review the existing approach in promoting home-school co-operation and parent education and to formulate the direction and strategy for fostering home-school co-operation and promoting parent education with the objective of assisting parents to help their children grow up happily and healthily, and learn effectively through, among others, promotion of a correct understanding of developmental needs of children and adolescents as well as avoiding excessive competition. The Task Force submitted its report to the EDB on 29 April 2019, and the EDB has fully accepted the recommendations. Starting from the 2019/20 school year, the Federations of Parent-Teacher Associations and Parent-Teacher Associations of schools are provided with additional resources for enhancing home-school co-operation and promoting parent education. The EDB will soon launch a territory-wide "Positive Parent Campaign" to enable the public to understand the importance of happy and healthy development of children and enhance parents' awareness of positive parenting through a series of publicity activities. In the 2019-20 financial year, the expenditure for promoting home-school co-operation and parent education is around \$64.38 million.

Notes:

1. Figures are rounded to the nearest hundred.
2. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.
3. "N/A" denotes there is no such type of class level or KG in that District Council district, or there is no fee-charging class or KG in that district after deduction of subsidy under the scheme.

Notes:

1. Figures refer to the position as at September of the respective school years. Figures for the 2018/19 school year do not include 2 new KGs that have not joined the KG Scheme and not admitted any students in September.
2. Figures on accommodation do not include vacant classrooms.
3. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (2) Pre-primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please advise this Committee whether the Administration has requirements in respect of the minimum average indoor and outdoor space for each student in local non-profit-making kindergartens (including former aided child care centres) joining the Pre-primary Education Voucher Scheme; if yes, of the details.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 465)

Reply:

The kindergarten (KG) sector is characterised by a high level of diversity, vibrancy and flexibility in operation. At present, KGs are located in a variety of premises, such as self-acquired or self-owned premises, privately leased premises, or premises in public housing estates. Regardless of the type of premises, ample space should be made available. In particular, activity rooms or classrooms in KGs should be spacious enough for children's learning and playing. In respect of floor space, every classroom in a KG should have an area of floor space of not less than 0.9 m² for each pupil according to the Education Regulations. In addition, the Education Bureau recommends that every classroom in a KG operating whole-day classes should have an area of floor space of not less than 1.8 m² for each pupil.

As for outdoor space, KGs may not be able to provide outdoor space owing to the limited land resources in Hong Kong. That said, KGs are advised to provide, as far as possible, an outdoor play area with easy access from indoors. If an outdoor play area is not available in a KG, an indoor play area should be provided at a rate of not less than 50% of the total classroom area.

The above requirements and recommendations are applicable to all KGs, including KGs joining the KG education scheme.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide this Committee with the following information related to full-time kindergarten teachers by their length of service in the past 5 years:

(i) Job-switching rate:

Job-switching rate of full-time teachers					
Length of service	Local non-profit-making kindergartens under the Pre-primary Education Voucher Scheme (PEVS) (except former aided child care centres)	Former aided child care centres	Local non-profit-making kindergartens not under the PEVS	Local private independent kindergartens	Non-local kindergartens
0-5 year(s)					
6-10 years					
11-15 years					
Over 15 years					

(ii) Wastage rate:

Wastage rate of full-time teachers					
Length of service	Local non-profit-making kindergartens under the Pre-primary Education Voucher Scheme (PEVS) (except former aided child care centres)	Former aided child care centres	Local non-profit-making kindergartens not under the PEVS	Local private independent kindergartens	Non-local kindergartens
0-5 year(s)					
6-10 years					
11-15 years					
Over 15 years					

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 466)

Reply:

The job-switching rates and wastage rates of teachers by their length of service in local non-profit-making (NPM) kindergartens (KGs) (excluding former aided child care centres (FACs)) under the Pre-primary Education Voucher Scheme (PEVS) or the kindergarten education scheme (KG Scheme) and FACs from the 2015/16 to 2019/20 school years are tabulated at Appendices 1 and 2 respectively. As regards similar breakdowns for local NPM KGs not under PEVS or KG Scheme, local private independent (PI) KGs and non-local KGs, given the small number of these types of KGs and their teachers under individual breakdown items, the percentages will be misleading as it will change greatly even for small changes in the numbers of teachers. Hence, it is more appropriate to provide overall figures for these types of KGs.

Job-switching rates of teachers by length of service and KG type
from the 2015/16 to 2019/20 school years

(a) 2015/16 school year:

Length of service	Job-switching rate				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	15.5%	12.6%	8.7%	12.1%	7.4%
6-10 years	11.2%	11.5%			
11-15 years	7.9%	5.9%			
Over 15 years	5.5%	5.4%			

(b) 2016/17 school year:

Length of service	Job-switching rate				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	14.0%	12.6%	10.5%	10.5%	13.2%
6-10 years	6.9%	7.7%			
11-15 years	6.4%	4.6%			
Over 15 years	5.0%	3.6%			

(c) 2017/18 school year:

Length of service	Job-switching rate				
	Local NPM KGs under KG Scheme (except FACs)	FACs	Local NPM KGs not under KG Scheme	Local PI KGs	Non-local KGs
0-5 year(s)	15.3%	11.6%	11.7%	12.2%	12.9%
6-10 years	8.5%	11.5%			
11-15 years	6.6%	7.1%			
Over 15 years	5.1%	4.6%			

(d) 2018/19 school year:

Length of service	Job-switching rate				
	Local NPM KGs under KG Scheme (except FACs)	FACs	Local NPM KGs not under KG Scheme	Local PI KGs	Non-local KGs
0-5 year(s)	13.2%	11.2%	6.1%	12.1%	8.7%
6-10 years	8.9%	7.5%			
11-15 years	6.9%	3.0%			
Over 15 years	4.7%	4.4%			

(e) 2019/20 school year:

Length of service	Job-switching rate				
	Local NPM KGs under KG Scheme (except FACs)	FACs	Local NPM KGs not under KG Scheme	Local PI KGs	Non-local KGs
0-5 year(s)	11.3%	9.6%	6.4%	12.6%	10.0%
6-10 years	8.7%	5.8%			
11-15 years	7.0%	4.8%			
Over 15 years	4.3%	3.6%			

Note:

1. “Job-switching rate” refers to the number of job-switching teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. “Job-switching teacher” refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but left that KG as at mid-September of the school year concerned for serving in another KG. Figures for the 2017/18 school year denote teachers who had served in a local NPM KG under PEVS in the 2016/17 school year but left that KG in the 2017/18 school year for serving in another KG.
2. The figures cover all KG teachers. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile information on the job-switching rate of teachers on the basis of full-time and part-time employment except their salaries, which is directly related to the working hours. Hence, separate figures for full-time teachers are not available.
3. Figures for the 2019/20 school year are provisional.

Wastage rates of teachers by length of service and KG type
from the 2015/16 to 2019/20 school years

(a) 2015/16 school year:

Length of service	Wastage rate				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	10.4%	7.8%	7.3%	14.4%	18.1%
6-10 years	10.3%	6.1%			
11-15 years	6.6%	6.4%			
Over 15 years	6.2%	6.8%			

(b) 2016/17 school year:

Length of service	Wastage rate				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	11.4%	10.8%	10.5%	15.4%	16.1%
6-10 years	12.3%	11.3%			
11-15 years	8.3%	8.3%			
Over 15 years	8.5%	8.5%			

(c) 2017/18 school year:

Length of service	Wastage rate				
	Local NPM KGs under KG Scheme (except FACs)	FACs	Local NPM KGs not under KG Scheme	Local PI KGs	Non-local KGs
0-5 year(s)	11.0%	10.1%	10.7%	15.8%	16.8%
6-10 years	10.7%	11.1%			
11-15 years	8.1%	6.4%			
Over 15 years	9.1%	8.8%			

(d) 2018/19 school year:

Length of service	Wastage rate				
	Local NPM KGs under KG Scheme (except FACs)	FACs	Local NPM KGs not under KG Scheme	Local PI KGs	Non-local KGs
0-5 year(s)	13.0%	14.3%	9.4%	15.9%	18.0%
6-10 years	13.4%	12.8%			
11-15 years	10.8%	10.0%			
Over 15 years	10.6%	9.8%			

(e) 2019/20 school year:

Length of service	Wastage rate				
	Local NPM KGs under KG Scheme (except FACs)	FACs	Local NPM KGs not under KG Scheme	Local PI KGs	Non-local KGs
0-5 year(s)	13.2%	13.0%	7.7%	16.4%	17.6%
6-10 years	11.5%	12.8%			
11-15 years	8.6%	11.1%			
Over 15 years	9.9%	12.8%			

Note:

1. “Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. “Drop-out teacher” refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned. Figures for the 2017/18 school year denote teachers who had served in a local NPM KG under PEVS in the 2016/17 school year but left the teaching profession in the 2017/18 school year.
2. The figures cover all KG teachers. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile information on the wastage rate of teachers on the basis of full-time and part-time employment except their salaries, which is directly related to the working hours. Hence, separate figures for full-time teachers are not available.
3. The figures of the 2019/20 school year are provisional.

(Question Serial No. 5840)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (-) Not specified
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please give details of duty visits made to relevant authorities in the Mainland as well as meetings and exchanges conducted with these authorities by the Education Bureau in the past year, and provide in chronological order the following information for each visit, including (a) purpose and place of visit; (b) titles of the Mainland officials met; (c) size of entourage and post titles of accompanying Hong Kong officers; (d) duration of visit in days; and (e) total expenditures involved; as well as (i) travelling expenses (broken down by air passage and local transport at the destinations); (ii) accommodation expenses; (iii) meal expenses; (iv) expenses on banquets or entertainment; and (v) expenses on gifts.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 467)

Reply:

Information about duty visits to the Mainland made by the Secretary for Education (SED) and Political Assistant to SED, Under Secretary for Education as well as Permanent Secretary for Education in 2019-20 is at Annexes A to C respectively.

As a general rule, all politically appointed officials and civil servants should observe the same principles in the provision of official entertainment. They are required to exercise prudent judgement and economy in order to avoid any public perception of extravagance and act in accordance with the relevant regulations and administrative guidelines. According to the existing guidelines, the expenditure limits on entertainment in the form of official meals should not exceed \$450 per person for lunch or \$600 per person for dinner, inclusive of all expenses incurred on food and beverages consumed on the occasion, service charges and tips.

In line with the Government's green policy, public officers should as far as possible refrain from bestowing gifts/souvenirs on others during the conduct of official activities. According to the existing guidelines, where bestowal of gifts/souvenirs is necessary or unavoidable due to operational, protocol or other reasons, the gift/souvenir items should not be lavish or extravagant and the number should be kept to a minimum. Also, the exchange of gifts/souvenirs should only be made from organisation to organisation. As we do not specifically maintain separate accounts for the expenses on the procurement of gifts and souvenirs, relevant statistics are not available.

**Duty visits to the Mainland made by
Secretary for Education (SED)**

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office (Note 2)	(A) Expenses on accommodation (\$)(Note 3)	(B) Expenses on air passage (\$)(Note 4)	(C) Other expenses (\$)(Note 5)	Total expenditure incurred by SED & official entourage from SED's Office (\$)(A)+(B)+(C)
27 & 28 May 2019	Beijing	To attend the 6th liaison meeting with the Ministry of Education and to visit the Advanced Innovation Centre for Future Education of Beijing Normal University	-	1,544	5,350	1,402	8,296
17 July 2019	Guangzhou	To meet the Department of Education of Guangdong Province for exchanges on educational co-operation between Hong Kong and Guangdong, to visit the site of the Nansha Campus of the Hong Kong University of Science and Technology at Qingshen, and to meet students participating in the Summer Camp for Sister Schools in the Greater Bay Area	-	No expenses as no over-night stay	No air passage (by train and car)	4,168	4,168
26 September 2019	Guangzhou	To accompany the Chief Executive in attending the groundbreaking ceremony for the Hong Kong University of Science and Technology (Guangzhou)	-	No expenses as no over-night stay	No air passage (by car)	-	Travelling expenses borne by the Chief Executive's Office

Notes:

- (1) The Secretary for Education would meet local students from Hong Kong where possible.
- (2) The Political Assistant to Secretary for Education did not accompany the Secretary for Education on duty visits or separately make duty visits to the Mainland in 2019-20.
- (3) Hotel accommodation was provided in accordance with the relevant Civil Service Regulations and guidelines.

- (4) Proper class of passages was provided in accordance with the relevant Civil Service Regulations and guidelines, taking into account such factors as rank of post, flying time, flight schedule and details.
- (5) Other expenses include overseas subsistence allowance and other incidental expenses related to the duty visits outside Hong Kong. Subsistence allowance was provided in accordance with the relevant Civil Service Regulations and guidelines, which is intended to cover, inter alia, the cost of accommodation, meals and in-town transport.

(Question Serial No. 5841)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the top-up degree programmes registered with the Non-local Courses Registry in the past 5 years, would the Hong Kong Council for Accreditation of Academic and Vocational Qualifications advise this Committee of the number of registrations and students enrolled in such programmes, and provide statistics on collaborating institutions in Hong Kong and the award of professional qualifications?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 468)

Reply:

According to the Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493) ("the Ordinance"), registration or exemption from registration is required for courses conducted in Hong Kong that lead to the award of non-local higher academic or professional qualifications.

Completion of professional programmes registered/exempted from registration under the Ordinance will not automatically lead to the attainment of professional qualifications. Students will need to, subject to the requirements set out in relevant legislation or by respective professional bodies, take examination or undergo assessment for attaining the professional qualifications. The Non-local Courses Registry does not collate information on the award of professional qualifications.

The information of top-up Bachelor's degree programmes^{Note 1} registered/exempted from registration under the Ordinance from the 2015/16 to 2019/20 academic years is set out below:

	Academic year									
	2015/16		2016/17		2017/18		2018/19		2019/20 ^{Note 2}	
	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes
Number of top-up Bachelor's degree programmes	94	104	83	105	95	110	91	102	90	98
Institutions jointly offering the top-up Bachelor's degree programmes										
Number of non-local institutions	28	25	26	22	29	23	24	23	23	23
Number of operators (for registered programmes)/ Number of local institutions of higher education (for programmes exempted from registration)	24	8	19	8	22	8	16	6	15	6
Number of students enrolled	4 275	4 854	3 873	3 955	3 302	3 749	N.A. ^{Note 3}	N.A. ^{Note 3}	N.A. ^{Note 3}	N.A. ^{Note 3}

Note 1: For the purpose of this reply, programmes meeting the following criteria are regarded as top-up degree programmes –

- (a) being a Bachelor's degree programme (whether or not their name bears the wording "top-up degree") with a duration not more than 18 months; and
- (b) requiring a sub-degree qualification or equivalent for entry.

Note 2: Information as at 29 February 2020.

Note 3: Statistics not yet available as the related information will only be provided by operators/local institutions of higher education 6 months after the conclusion of an academic year.

CONTROLLING OFFICER'S REPLY

EDB343

(Question Serial No. 5842)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (5) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

For the past 5 years, please advise this Committee of the following:

- (1) the number of non-Chinese speaking (NCS) students and the number of ethnic minority students (disaggregated into Indonesian, Filipino, Indian, Pakistani, Nepalese, Japanese, Korean, other Asian, white, black and others) studying at different grades in public sector primary and secondary schools;
- (2) the total number of Chinese ethnicity students studying at different grades in public sector schools, and the number of school leavers who dropped out without completing senior secondary education (disaggregated by last grade studied);
- (3) the total number of non-Chinese ethnicity students with special educational needs (SEN) studying at different grades in public sector schools, and the number of school leavers who dropped out without completing senior secondary education (disaggregated by age of departure, the disability/SEN type, last grade studied and ethnicity); and
- (4) the percentage share of NCS students with SEN who dropped out without completing senior secondary education in the total number of students with SEN and in the total number of students with SEN who dropped out without completing senior secondary education.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 469)

Reply:

- (1) For the planning of education support measures for non-Chinese speaking (NCS) students, their need for support is determined by whether their language spoken at home is Chinese or not (instead of their ethnicity). The total numbers of NCS students studying in public sector primary and secondary schools from the 2015/16 to 2019/20 school years by grade and by ethnicity are set out in Appendices 1 and 2 respectively.

(2) to (4)

The total number of Chinese ethnicity students studying in public sector schools from the 2015/16 to 2019/20 school years by grade is set out in Appendix 3.

It is the Government's policy to provide 12-year free primary and secondary education in public sector schools of which universal basic education for children aged between 6 and 15 is compulsory. Schools are required to report to the Education Bureau (EDB) on the 7th day of students' continuous absence, irrespective of their class levels. The EDB would provide support services to identified non-attendance cases with a view to bringing students back to school at the earliest opportunity and does not further classify these cases. The number of non-attendance students at Secondary 4 to 6 levels reported by public sector schools from the 2015/16 to 2018/19 school years is tabulated below and around 60% of these students resumed schooling. Information for the 2019/20 school year is not yet available.

School year \ Grade	2015/16	2016/17	2017/18	2018/19
S4	1 010	943	833	815
S5	645	584	482	423
S6	11	95	126	91

We do not readily have breakdown of the non-attendance students by ethnic group or information in relation to special educational needs (SEN) of these students as schools need not provide such information in their report to the EDB.

The number of NCS ethnic minority students with SEN studying in public sector schools from the 2015/16 to 2019/20 school years by grade and by ethnicity is set out at Appendix 4.

**Number of non-Chinese speaking students
in public sector primary and secondary schools
by grade from the 2015/16 to 2019/20 school years**

Primary schools

CONTROLLING OFFICER'S REPLY

EDB344

(Question Serial No. 5843)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide information on the status of existing vacant school premises by district, including the District Lands Office concerned, location, site area, date of availability for occupancy, land status and current planned land use.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 470)

Reply:

It has all along been the Education Bureau (EDB)'s policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacant school premises, the EDB will assess the VSP's suitability for school or other educational uses having regard to factors including the size, location, physical conditions, etc., of the relevant premises, as well as the educational needs and relevant policy measures. When the EDB confirms that the VSP is no longer required by the EDB for reallocation for school use, the EDB will, in accordance with the Central Clearing House Mechanism, inform the Planning Department (PlanD) and other relevant departments (such as the Lands Department and the Housing Department) for the PlanD's consideration of suitable alternative long-term uses. According to the mechanism, the EDB is allowed to retain VSP for school use. However, if the EDB intends to use VSP for other educational uses, the EDB needs to put forward its proposed use with justification to the PlanD for assessment and may need to compete with other government departments on use of such VSP.

As at end-February 2020, there are 9 VSP under the EDB's purview which are earmarked/retained for school or other educational uses. Information of the school premises concerned is as follows:-

Table — 9 VSP under the EDB’s purview (Position as at end-February 2020)

No.	District	Former school name	Address	School year in which the school ceased operation (Note)	Site area of school premises (rounded to the nearest hundred m ²)
1	Eastern	HongKong Japanese School	9 Hau Yuen Path, Braemar Hill Road, North Point, Hong Kong	2017/18	2 900
2	Southern	St. Peter’s Secondary School	220 Aberdeen Main Road, Hong Kong	2012/13	6 000
3	Kowloon City	Hung Hom Government Primary School	68 Gillies Avenue South, Hung Hom, Kowloon	2009/10	1 900
4	Wong Tai Sin	S.K.H. Ching Shan Primary School	3 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	3 700 (Total)
5	Wong Tai Sin	S.H.K. Yat Sau Primary School	1 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	
6	Wong Tai Sin	Cognitio College (Kowloon)	96 King Fuk Street, San Po Kong, Kowloon	2019/20	2 100
7	Sham Shui Po	Chi Yun School	19 Kwong Lee Road, Kowloon	2018/19	2 200
8	Tai Po	Tai Po Government Primary School	22 Wan Tau Kok Path, Tai Po, New Territories	1999/00	2 400
9	Islands	Cheung Chau Public School	School Road, Cheung Chau, New Territories	2006/07	5 800

Note: “School year in which the school ceased operation” refers to the year the school premises were ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

CONTROLLING OFFICER'S REPLY**EDB345****(Question Serial No. 5844)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please advise this Committee of:

- (1) the number of Native-speaking English Teachers (NETs) employed by each special school and the average teacher-to-student ratio of each NET in the past 3 years; and
- (2) the total number of NETs employed by public sector primary and secondary schools in the territory and the average teacher-to-student ratio of each NET in the past 3 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 471)Reply:

The numbers of Native-speaking English Teachers (NETs) engaged in public sector primary and secondary schools from the 2017/18 to 2019/20 school years are set out below:

School year	No. of NETs in public sector primary schools	No. of NETs in public sector secondary schools
2017/18	460	396
2018/19	468	397
2019/20	468	396

Figures in the above table include 23, 27 and 29 NETs engaged in special schools in the 3 school years respectively.

NETs serve mainly as resource teachers for the English Language subject and, together with other English teachers, seek to create a favourable English learning environment conducive to students communicating in English. In addition to undertaking teaching duties, NETs also collaborate with other English teachers to facilitate the development of school-based curriculum and execution of subject-related tasks. As the provision of NETs is on a school

basis and there are great variations in the number of classes and students, as well as in the deployment of NETs among schools, information about the average teacher-to-student ratio of each NET is not available.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out the total expenditure for the provision of school meals subsidy in the past 5 years by level of education (secondary school, primary school and kindergarten).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 472)

Reply:

The Education Bureau has, starting from the 2014/15 school year, incorporated the pilot scheme of provision of free lunch at schools for needy primary students under the Community Care Fund into the regular assistance programme. Students in receipt of full grant assistance under the Student Financial Assistance Schemes studying in whole-day public sector primary schools (including special schools) or whole-day primary schools under the Direct Subsidy Scheme are eligible for free lunch at schools.

When the provision of free lunch at schools was incorporated into the regular assistance programme, stakeholders generally agreed that for better utilisation of public resources, the service should be targeted at the neediest primary students. At present, we have no plan to revise the eligibility including extending the programme to secondary schools or kindergartens.

The expenditure in the past 5 school years (i.e. from the 2014/15 to 2018/19 school years) is set out below:

School year	Expenditure (\$ million)
2014/15	163
2015/16	170
2016/17	174
2017/18	175
2018/19	174

CONTROLLING OFFICER'S REPLY**EDB347****(Question Serial No. 5846)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

What were the respective numbers of non-Chinese speaking students with special educational needs studying in mainstream schools and public sector special schools in the past 5 years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 473)Reply:

The numbers of non-Chinese speaking (NCS) students with special educational needs (SEN) studying in public sector ordinary schools and special schools in the past 5 school years are provided below:

School year	NCS students with SEN	
	Ordinary schools	Special schools
2015/16	462	363
2016/17	512	367
2017/18	547	390
2018/19	611	401
2019/20	671	435

Notes:

1. Figures show the position as at September of the respective school years.
2. Figures cover those students whose home language as known to the Education Bureau is not Chinese regardless of their ethnicity.
3. Hospital School is not included in special schools due to the transitional nature of the education service provided.

Question:

Regarding the School-based After-school Learning and Support Programmes (Programme), please advise this Committee of the following:

- (i) last year's provision for the Programme;
- (ii) the number of schools took part in the Programme and their percentage share among all schools in the territory;
- (iii) the number of students benefitted from the Programme (disaggregated by students receiving Comprehensive Social Security Assistance (CSSA), full grant under the School Textbook Assistance Scheme (STAS), half grant under STAS, or other students);
- (iv) the number of people benefitted;
- (v) the number of one-off activities;
- (vi) the number of activities for long-term development;
- (vii) the amount of cash assistance provided to each student per year for participating in extra-curricular activities;
- (viii) the effectiveness of the Programme; and
- (ix) the estimated amount of provisions for the next 3 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 475)

Reply:

To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant (SBG) and Community-based Project (CBP) Grant respectively to organise after-school activities for

eligible students, i.e. Primary 1 to Secondary 6 students in receipt of CSSA or full grant under the Student Financial Assistance Schemes (SFAS).

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of CSSA or full grant of SFAS but identified by schools as needy (including students receiving half grant of SFAS, new arrivals, single parent households, etc.). Besides, eligible participating schools (i.e. having a utilisation rate of 80% or above of the provision in the previous year) have been provided with incentive funding under the SBG (which is calculated at an annual rate of \$600 per eligible student vis-à-vis \$400 in other schools and includes an additional 25% of the provision following the increase in the discretionary quota mentioned above).

In the 2019/20 school year, the total funding earmarked for the Programme is about \$240 million, including about \$112 million for the SBG and about \$128 million for the CBP Grant. For the SBG, 901 schools which constitute more than 90% of all the schools in the territory with about 197 700 students eligible for the grant have participated in the Programme. Among them, about 48 800, 116 600 and 32 300 are in receipt of CSSA, full grant of SFAS and others (i.e. participating under the 25% discretionary quota) respectively. Regarding the CBP Grant, the 414 projects organised by 169 NGOs are targeted at individual eligible students totaling about 100 000. To avoid labelling participating students, NGOs have not asked participating students referred by schools to identify themselves as CSSA recipients, full-grant SFAS recipients or participants using discretionary quota. Breakdown of participating students by students in receipt of CSSA, full grant of SFAS, etc. is therefore not available.

The objectives of organising various after-school activities by participating schools under the Programme are to help increase learning effectiveness (such as tutorial services and training of learning skills), broaden learning experience outside classroom (such as art and cultural as well as sports activities) and raise understanding of and sense of belonging to the community (such as volunteer services). Seen from this perspective, the activities, some of which may be one-off, are for sustainable development of the students concerned.

The provision of the Programme is complementary in nature and is targeted at schools and NGOs. Apart from the Programme, the Government has launched various funding schemes to support schools and NGOs to organise after-school activities, including after-school tutorial services to cater for the diverse needs of needy students. Besides, flexible deployment of the grants provided, as encouraged by EDB, has enabled schools to inject more funding into after-school activities for needy students. It is not the objective or design of the Programme to simply offer cash assistance to individual eligible students for participating in extra-curricular activities of their own choice. Information on the amount of cash assistance provided to each student participating in after-school activities is not available.

Assessment of the effectiveness of the Programme is done annually at two levels. The Incorporated Management Committee/School Management Committee of the school in receipt of the SBG is accountable for proper use of the grant for its intended objectives and review of the effectiveness of the Programme. To enhance transparency, schools are required to include the Programme in their School Annual Plan and set out the review findings in the School Report. NGOs are required to submit to EDB, among others, an evaluation report on the effectiveness of the projects. In addition, EDB collects feedback from stakeholders through surveys and conducts supervisory visits to examine the implementation of the Programme. In general, stakeholders agree that the Programme is effective and has achieved the afore-mentioned objectives. For budgetary purpose, EDB will continue to earmark a provision of \$240 million for the Programme for the years ahead.

- End -

CONTROLLING OFFICER'S REPLY**EDB349****(Question Serial No. 5848)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please provide the unit costs per school place and per boarding place per year for each type of special schools.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 477)

Reply:

The average unit costs per school place and per boarding place for each type of special schools in the 2019/20 school year are as follows:

School type	Average unit cost per school place	Average unit cost per boarding place
School for children with visual impairment	\$469,500	\$203,500
School for children with hearing impairment	\$441,000	\$375,500
School for children with physical disability	\$397,500	\$338,000
School for children with mild intellectual disability	\$242,000	Not applicable ^{Note 1}
School for children with moderate intellectual disability	\$339,000	\$287,000
School for children with severe intellectual disability	\$442,500	\$367,500
School for social development	\$249,000	Not applicable ^{Note 2}
Hospital school	\$242,500	Not applicable ^{Note 3}

Notes:

- (1) Schools for children with mild intellectual disability do not provide boarding service.
- (2) Residential home services provided in schools for social development are subvented by the Social Welfare Department.
- (3) Hospital School only provides educational services for hospitalised students and does not provide boarding services.

(Question Serial No. 5850)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (5) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please provide the up-to-the-minute information on the respective numbers of schools that can and cannot meet the requirements on barrier-free access prescribed by the Buildings Department, as well as a breakdown of the number of barrier-free facilities.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 479)

Reply:

All of the public sector special schools are provided with barrier-free access, except one school for social development because of site constraints (Note). In the 2019/20 school year, there are a total of 927 ordinary public sector and Direct Subsidy Scheme (DSS) schools in Hong Kong. Among them, 238 schools constructed after 1997 are in compliance with the relevant prevailing requirements promulgated by the Buildings Department on barrier-free access to facilitate access to school buildings and facilities by persons with disabilities. For those built before 1997, subject to technical feasibility, the Education Bureau (EDB) has, through the second and subsequent phases of the School Improvement Programme, installed barrier-free facilities such as lifts, accessible toilets and ramps, etc., in their premises.

When major alteration or improvement works are carried out in schools, the EDB will also take the opportunity to install in their premises the barrier-free facilities needed as far as possible and in accordance with the latest requirements on barrier free access and other established criteria. Furthermore, schools may apply to carry out repairs and improvement works on their school facilities according to their needs in the context of annual major repairs (MR) exercise, including the provision of barrier-free facilities. In the course of vetting and approving applications, the EDB will give consideration to technical feasibility, urgency for such facilities as compared with other applications, availability of alternative measures, and availability of funding. For instance, the EDB has so far approved a total of 46 lift installation applications through the annual MR mechanism from 2010-11 to 2017-18.

To expedite the lift installation works for schools, the Government announced in the 2018 Budget that it has earmarked \$2 billion and formed a dedicated team to centrally handle the lift installation works for schools without such provision. The consultants appointed by the EDB in March 2019 have arranged dedicated staff as scheduled to conduct preliminary technical feasibility assessment for those aided schools confirmed with lift installation needs. The relevant work was completed at the end of 2019. The EDB will conduct lift installation works for 125 aided schools. The lift installation timetable is being formulated and implemented based on the results of the technical feasibility assessments and the actual circumstances of individual schools. According to initial forecast, the first batch of around 12 lift installation projects that do not involve piling works will be completed by 2022-23. Around half of the projects are expected to be completed by 2024-25. As the remaining projects involve more complicated technical issues, we hope to complete them by 2026-27 as planned.

Besides, to help schools cater for students with special educational needs, the EDB has been providing additional resources to schools, including the application for Top-up Fund for procuring special furniture and assistive equipment or carrying out minor conversion works such as construction of ramps, procurement of stair climbers, conversion of toilets, or provision of tailor-made desks and chairs for students with physical disability to facilitate their mobility and learning within the school premises.

Note: The concerned school for social development cannot be provided with barrier-free access because of site constraints, including the fact that the main entrance of the school premises is located on a slope with a steep gradient. Under the Lift Installation Programme, the consultant appointed by the EDB has re-examined the situation of the school. After discussing with the school, the consultant has initially confirmed that it is technically feasible to install a lift near the school's car park. We are formulating the details of the lift installation works for the school in the light of the assessment results and actual circumstances.

Director of Bureau: Secretary for Education

Question:

Please provide the number of students with special educational needs identified and referred by using the "Observation Checklist for Teachers" and "The Hong Kong Behaviour Checklist of Specific Learning Difficulties in Reading and Writing for Primary School Students" in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 480)

Reply:

Under the Early Identification and Intervention Programme for Primary One (P1) Students with Learning Difficulties (EII Programme), teachers complete the Observation Checklist for Teachers and The Hong Kong Behaviour Checklist of Specific Learning Difficulties in Reading and Writing for Primary School Students to identify P1 students with learning difficulties and arrange early interventions for them. The progress of these students will be monitored by schools. Students showing severe or persistent learning difficulties despite intervention are referred to specialists for assessment. The number of students identified to have marked difficulties via the EII Programme and referred for diagnostic assessment from the 2014/15 to 2018/19 school years was about 3 800, 3 800, 4 200, 4 500 and 5 000 respectively. We note that the increasing trend is related to the increased number of P1 students in public sector primary schools in recent years.

EDB353

(Question Serial No. 5852)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please provide the following information regarding the Vocational Training Council in the past 5 years:

- (1) the expenditures, enrolment, training hours and graduation rates of the Vocational Development Programmes and Youth College, as well as the industries to which the programmes relate;
- (2) the numbers of students with special educational needs (SEN) with a breakdown by institution, programme, disability/SEN type;
- (3) the expenditures on supporting students with SEN by type of support provided.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 481)

Reply:

(1) The Youth College (YC) of the Vocational Training Council (VTC) provides a variety of vocational and professional education and training (VPET) programmes, including Diploma of Vocational Education (DVE) and Diploma of Foundation Studies (DFS) programmes, for Secondary 3 or above graduates. These programmes help students build a solid foundation for further studies and employment. The training hours vary depending on the type of programme enrolled in. For example, the DVE programmes adopt a curriculum structure made up of credit-based modules with multiple entry and exit points. It allows flexible exit at intermediate stages with the award of Certificate of Vocational Education or continuation of studies to obtain the final award of DVE. Students who have completed Secondary 3 normally take three to four years to obtain the DVE award. Most YC students who are enrolled in the DVE and DFS programmes would normally attend a full-time course of about 700 to 1 000 training hours per academic year. As the facilities in different campuses are often shared by students of different levels of programmes offered

by the VTC, and staff may be deployed to different campuses as and when required, the expenditure for the YC alone is not available.

The number and the graduation rate of students attending full-time and part-time VPET programmes in the eight campuses of the YC in the recent five academic years are as follows –

Academic Year	Number of Students at All Levels	Graduation Rate*
2015/16	11 191	75%
2016/17	12 070	71%
2017/18	11 632	71%
2018/19	11 194	73%
2019/20 (provisional figures)	10 208	Not available yet as students will graduate in August 2020

* Number of graduating students is taken as a percentage of the number of final year students who have obtained an award.

The Vocational Development Programme (VDP) offers courses which target youths aged between 14 and 24. Each course lasts for 300 training hours and is delivered over a three-month period. From the 2015-16 to 2019-20 financial years, the average annual expenditure of the VDP was about \$20 million ^{Note}. The number of students and the completion rate of the VDP are listed below –

Academic Year	Number of Students	Completion Rate
2015/16	560	74%
2016/17	510	76%
2017/18	517	83%
2018/19	455	77%
2019/20	Staggered intakes over the academic year; admission is still in progress	

^{Note} The VDP is funded by the Employees Retraining Board and the Labour and Welfare Bureau.

The YC's programmes and the VDP courses cover various disciplines/fields, including beauty care and hairdressing, design, engineering, catering, sports coaching, and information technology.

(2) The number of students with special educational needs (SEN) pursuing Education Bureau-funded or self-financing programmes in member institutions of the VTC from the 2015/16 to 2019/20 academic years is as follows –

2015/16 Academic Year

(3) From the 2014-15 to 2018-19 financial years, a recurrent funding of \$12 million per year was allocated to the VTC by the Education Bureau to enhance the support services for students with SEN. Starting from the 2019-20 financial year, the recurrent funding has been increased to \$21.6 million per year, which includes the provision for emotional counselling services for students in need.

(Question Serial No. 5853)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (5) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

In the form of a table, please advise this Committee of the following for the past 5 academic years:

- (1) the number of students with special educational needs (SEN) pursuing University Grants Committee (UGC)-funded full-time locally-accredited sub-degree and undergraduate programmes (including all years of study) by year of study and by SEN type;
- (2) the number of students with SEN pursuing UGC-funded full-time locally-accredited programmes by type of disabilities and by level of study; and
- (3) the number of students with SEN pursuing non-UGC-funded full-time locally-accredited programmes by type of disabilities and by level of study.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 482)

Reply:

(1) and (2)

According to the information provided by University Grants Committee (UGC)-funded universities, the number of students with special educational needs (SEN) pursuing UGC-funded full-time sub-degree and undergraduate programmes by level of study, year of study and type of disabilities from the 2015/16 to 2019/20 academic years is set out at **Annex 1**.

(3)

Based on the information provided by post-secondary institutions, the number of students with SEN pursuing non-UGC-funded full-time locally-accredited sub-degree and undergraduate programmes by level of study and type of disabilities from the 2015/16 to 2019/20 academic years is set out at **Annex 2**.

CONTROLLING OFFICER'S REPLY

EDB355

(Question Serial No. 5854)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

(1) The number of teachers who attended the 30-hour, 90-hour and 120-hour workshops/training courses on special education held by the Education Bureau in the last 5 financial years with a breakdown by kindergarten, primary school and secondary school teachers.

(2) The number of Chinese and English language teachers currently in schools who attended the 30-hour, 90-hour and 120-hour workshops/training courses on special education held by the Education Bureau, and their percentage shares in the Chinese and English language teachers of the same class level.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 483)

Reply:

(1) and (2)

Starting from the 2007/08 school year, the Education Bureau has been providing structured training courses on supporting students with special educational needs (SEN) pitched at basic, advanced and thematic levels (BAT Courses) targeted at serving teachers in primary and secondary schools. The number of primary and secondary school teachers who attended the BAT Courses from the 2014/15 to 2018/19 school years is set out at the Appendix. Figures for the 2019/20 school year are not yet available.

Since the BAT Courses aim at equipping teachers, regardless of which subject(s) they teach, with the expertise in supporting students with SEN, we do not have the number of language teachers who have attended the BAT Courses or their percentage share in the total number of language teachers.

**Number of teachers who attended the Basic, Advanced and Thematic Courses
from the 2014/15 to 2018/19 school years**

Course	Teacher	School Year				
		2014/15	2015/16	2016/17	2017/18	2018/19
Basic	Primary	230	229	269	303	335
	Secondary	360	418	521	480	499
Advanced	Primary	83	116	135	166	192
	Secondary	101	169	231	165	176
Thematic	Primary	167	208	217	232	221
	Secondary	347	286	298	315	293

(Question Serial No. 5855)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the past 5 years:

(1) the number of kindergartens (KGs) (whole-day (WD) KGs and half-day (HD) KGs), primary schools, secondary schools and special schools by type/sector (government, aided, Direct Subsidy Scheme (DSS), private international and private non-international) and district;

(2) the number of students in KGs (WD KGs and HD KGs), primary schools, secondary schools and special schools by type/sector (government, aided, DSS, private international and private non-international); and

(3) the number of students in KGs (WD KGs and HD KGs), primary schools (government, aided, DSS, private international and private non-international), secondary schools (government, aided, DSS, private international and private non-international) and special schools by students' district of residence, school district, sex, grade and type of special education needs.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 484)

Reply:

The respective numbers of kindergartens (KGs), primary schools and secondary schools by district and type/sector from the 2015/16 to 2019/20 school years is set out at Appendix 1; the respective numbers of students in KGs, primary schools and secondary schools by district and type/sector is set out at Appendix 2; the respective numbers of students in KGs, primary schools and secondary schools by sex and type/sector is set out at Appendix 3; and the respective numbers of students in KGs, primary schools and secondary schools by grade and type/sector is

set out at Appendix 4. The Education Bureau (EDB) does not collect information on the district of residence of KG students, nor is there readily available information on the district of residence for all sectors of primary and secondary school students.

The number of students with special educational needs (SEN) studying in public sector ordinary primary and secondary schools from the 2015/16 to 2019/20 school years is set out at Appendix 5. The number of students with SEN studying in Direct Subsidy Scheme (DSS) schools in the 2019/20 school year is set out at Appendix 6. The number of students with SEN studying in the English Schools Foundation (ESF) schools, other private international schools and private independent schools from the 2015/16 to 2019/20 school years is set out at Appendix 7. The figures are collected through the annual Student Enrolment Survey conducted by the EDB and refer to the position as at mid-September of the respective school years. However, as some schools did not provide the relevant information in the survey, the data may not reflect the actual number of students. Besides, since these schools have their own mechanisms of classifying students with SEN which may not be comparable with those adopted in public sector schools, provision of breakdown by SEN type may be misleading. Since schools are not required to provide information on all students with SEN with breakdown by other categories, we are not able to provide the relevant figures. In addition, as support services for children with special needs at pre-primary level are provided by the Social Welfare Department, the EDB does not maintain data on students with special needs at various kindergarten levels. We have not collected relevant figures from other private primary and secondary schools.

The number of special schools by school type from the 2015/16 to 2019/20 school years is set out at Appendix 8; and the number of students in special schools by school type is set out at Appendix 9. Since the number of students who need to be admitted to special schools is relatively small, the planning and provision of special schools are not on a district basis. As such, providing corresponding figures by district is not meaningful. In addition, it is a common practice for special schools to adopt flexible groupings across grade levels and devise individualised education programme to cater for the special educational needs of individual students. Therefore, presenting the number of students by grade level and sex cannot reflect the actual operation in special schools.

Notes:

- (1) Figures include ordinary primary schools, but not special schools. International schools include the English Schools Foundation schools.
- (2) An international school may offer curriculum at primary and secondary levels concurrently. Therefore, the sum of the respective numbers at different levels may not add up to the total number of international schools.
- (3) School districts are delineated by the District Council districts of the main campuses of the schools. However, the districts for schools with decanting campuses are based on the District Council districts of the original campuses.

Notes:

- (1) Figures refer to the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many types of MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

- (2) The numbers of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

**Number of students with special educational needs (SEN)^(Note) studying in
Direct Subsidy Scheme (DSS) schools by grade level and SEN type in the 2019/20 school year**

Note:

Starting from the 2019/20 school year, the provision of Learning Support Grant (LSG) to DSS schools is based on the number of students with SEN and academic low achievers (applicable to primary schools) enrolled in each school, as well as the DSS LSG unit rate. Hence, DSS schools are required to submit SEN information of the students concerned to the EDB for calculating the allotment of the LSG. Before that, the relevant resources were included in the DSS unit subsidy, and we did not compile the numbers of students concerned.

Number of students with special educational needs (SEN) in the English Schools Foundation (ESF) schools, other private international schools, and private independent schools (PIS) from the 2015/16 to 2019/20 school years

School year	ESF		PIS		Other private international school		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
2015/16	230	435	178	277	385	175	793	887
2016/17	245	565	172	231	323	179	740	975
2017/18	439*	422*	183	234	404	284	1 026	940
2018/19	365	458	177	291	482	348	1 024	1 097
2019/20	354	463	230	301	561	403	1 145	1 167

* The ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and has required all its schools to provide such figures to the EDB in the Student Enrolment Survey accordingly since the 2015/16 school year. However, in an internal review of the ESF schools' practice in compiling the number of students with SEN in September 2017, the ESF found that the practice was still inconsistent among individual schools. The ESF has verified again the information provided by each ESF school for the Student Enrolment Survey. Therefore, there is a relatively significant change in the number of students with SEN in the 2017/18 school year when compared with previous years.

Notes:

- (1) Figures refer to the position as at mid-September of the respective school years.
- (2) Statistics cover students with SEN under integrated classes/special classes/special schools in PIS, the ESF and other private international schools as reported by the schools concerned in response to the Student Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

**Number of special schools by school type
from the 2015/16 to 2019/20 school years**

School type	2015/16	2016/17	2017/18	2018/19	2019/20
School for Children with Visual Impairment	2	2	2	2	2
School for Children with Hearing Impairment	2	2	2	1	1
School for Children with Physical Disability	7	7	7	7	7
School for Social Development	7	7	8	8	8
School for Children with Intellectual Disability	41	41	41	41	41
Hospital School	1	1	1	1	1

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) From the 2015/16 to 2018/19 school years, the Hospital School operated classes at 18 hospitals. In the 2019/20 school year, the Hospital School operates classes at 20 hospitals.
- (3) 1 new school for social development commenced operation in the 2017/18 school year.
- (4) 1 school for children with hearing impairment completed mainstreaming with effect from the 2018/19 school year.

**Number of students in special schools by school type
from the 2015/16 to 2019/20 school years**

School type	2015/16 ^(Note 1)	2016/17 ^(Note 1)	2017/18 ^(Note 1)	2018/19 ^(Note 1)	2019/20 ^(Note 1)

EDB357

(Question Serial No. 5856)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

The types of courses of Applied Learning Chinese (for non-Chinese speaking students), with course providers, expenditure, number of schools participated, number of NCS students enrolled for the 2015/17, 2016/18, 2017/19, 2018/20, and 2019/21 cohorts respectively:

Course of the Applied Learning Chinese (for non-Chinese speaking students)	Course Provider	Expenditure	No. of schools participated	No. of NCS students enrolled

The number of NCS students completed the Applied Learning Chinese (for non-Chinese speaking students) courses for the 2015-17, 2016-18, 2017-2019, 2018-2020, and 2019-2021 cohorts respectively, desegregated by results (i.e. attained, attained with distinction):

Types of courses of the Applied Learning Chinese (for non-Chinese speaking students) courses	No. of NCS students completed the course	No. of NCS students with Attained	“Attained with Distinction”	“Unattained”

The number of NCS students enrolled in the Applied Learning Chinese (for non-Chinese speaking students) courses and received subsidies simultaneously for alternative Chinese language examinations or the DSE Chinese language examination from 2015-17 to 2018-20 cohort;

Ways to ensure the professional capacity of the team providing the Applied Learning Chinese (for non-Chinese speaking students) courses, and the methods used to collect feedback from stakeholders towards the course quality;

What is the level in the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) a non-Chinese speaking student is expected to have before enrolling in the Applied Learning Chinese (for non-Chinese speaking students) courses and which level in the Learning Framework an NCS student is expected to reach after completing each of the Applied Learning Chinese (for non-Chinese speaking students) courses.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 485)

Reply:

In respect of the Applied Learning Chinese (for non-Chinese speaking (NCS) students) (ApL(C)) courses, the number of participating schools, number of student enrolment, number of students having completed their courses, and the results they attained in the Hong Kong Diploma of Secondary Education (HKDSE) Examination from the 2015-17 to the 2019-21 cohorts are set out below:

2015-17 cohort (2017 HKDSE Examination)							
Name of ApL(C) course	Course provider	No. of participating schools	No. of student enrolment	No. of NCS students having completed the course	No. of NCS students with “Attained”	No. of NCS students with “Attained with Distinction”	No. of NCS students with “Unattained”
ApL(C) – Chinese for the Service Industry	School of Continuing Education, Hong Kong Baptist University	7	125	104	79	20	5
ApL(C) – Practical Chinese in Hospitality	Hong Kong College of Technology	7	56	42	21	9	12
2016-18 cohort (2018 HKDSE Examination)							
ApL(C) – Chinese for the Service Industry	School of Continuing Education, Hong Kong Baptist University	17	138	110	70	30	10

ApL(C) – Practical Chinese in Hospitality	Hong Kong College of Technology	7	40	24	15	5	4
2017-19 cohort (2019 HKDSE Examination)							
ApL(C) – Chinese for the Service Industry	School of Continuing Education, Hong Kong Baptist University	14	132	112	80	28	4
ApL(C) – Practical Chinese in Hospitality	Hong Kong College of Technology	9	67	41	20	11	10
2018-20 cohort (2020 HKDSE Examination)							
ApL(C) – Chinese for the Service Industry	School of Continuing Education, Hong Kong Baptist University	18	111	Not applicable (course in progress)			
ApL(C) – Practical Chinese in Hospitality	Hong Kong College of Technology	8	58				
ApL(C) – Chinese in Business Service	School of Professional Education and Executive Development, The Hong Kong Polytechnic University	16	53				
2019-21 cohort (2021 HKDSE Examination)							
ApL(C) – Chinese in Practical Context	School of Continuing Education, Hong Kong Baptist University	11	32	Not applicable (course in progress)			
ApL(C) – Practical Chinese	Hong Kong College of Technology	2	47				
ApL(C) – Chinese in Business Service	School of Professional Education and Executive Development, The Hong Kong Polytechnic University	16	52				

For the ApL(C) courses offered from the 2015-17 to 2019-21 cohorts, the Government provided the Student Grant to all schools offering ApL(C) in the past 5 school years to fully subsidise students taking these courses. Details are as follows:

	2015/16 (\$ million)	2016/17 (\$ million)	2017/18 (\$ million)	2018/19 (\$ million)	2019/20* (\$ million)
ApL(C) – Chinese for the Service Industry ¹	3.3	4.8	4.7	3.4	2.3
ApL(C) – Practical Chinese in Hospitality ²	1.1	1.9	1.9	1.8	1.2
ApL(C) – Chinese in Business Service	(Course to be offered)		0.8	1.4	2.5

* As at 20 March 2020

Note:

¹ The course was renamed as ApL(C) – Chinese in Practical Context in the 2019-21 cohort

² The course was renamed as ApL(C) – Practical Chinese in the 2019-21 cohort

For eligible NCS students pursuing the local curriculum in day schools and entering for examinations under internationally-recognised alternative Chinese Language qualifications (note), their examination fees can be partly subsidised by the Education Bureau (EDB). As for the number of NCS students taking ApL(C) courses and subsidised to enter for alternative Chinese Language examinations, we do not have the relevant statistics.

Note: They include Chinese Language examinations under the General Certificate of Secondary Education (GCSE), International General Certificate of Secondary Education (IGCSE) and General Certificate of Education (GCE) Advanced Subsidiary Level (AS-Level) and Advanced Level (A-Level).

The course providers will form a professional team for each ApL(C) course, including the main teaching staff with expertise in Chinese language and experience in teaching NCS students. Apart from these, there are personnel with related professional and vocational experience to plan and support the delivery of the course. Similar to other Applied Learning courses, the EDB monitors the effectiveness of ApL(C) through a quality assurance process, involving the relevant committee under the Curriculum Development Council, the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, and the Hong Kong Examinations and Assessment Authority to monitor curriculum design, course delivery, and moderation of assessment respectively. We collect the stakeholders' views through relevant studies, curriculum development visits and quality assurance visits, and provide feedback on the course with a view to enhancing the implementation.

NCS students who aspire to study ApL(C) should have basic language competency to enable them to learn the Chinese language through different modes of activities in a simulated applied learning context. At the point of entry, they are expected to have achieved most of the learning outcomes of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) at level 4 or above. Upon completion of courses, NCS students are expected to have achieved the relevant learning outcomes of the “Learning Framework” at level 6 or above.

- End -

EDB359

(Question Serial No. 5858)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide this Committee with the following information for the past 5 school years:

- (1) the respective number of government and aided primary schools provided with Student Guidance Officers, Student Guidance Teachers and Student Guidance Service Grant in each year; and
- (2) the respective number of cases under the Comprehensive Student Guidance Service in primary schools, disaggregated by case type, in each year.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 487)

Reply:

(1) The number of public sector primary schools provided with Student Guidance Officers, Student Guidance Teachers and the Student Guidance Service Grant in the past 5 school years (i.e. from 2015/16 to 2019/20) is as follows:

Number of Public Sector Primary Schools Provided with	2015/16 School Year	2016/17 School Year	2017/18 School Year	2018/19 School Year	2019/20 School Year
Student Guidance Officers	12	10	7	6	5
Student Guidance Teachers	125	121	119	113	105
Student Guidance Service Grant	317	323	328	114	36

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. In the 2019/20 school year, 309 public sector primary schools have switched to the new funding mode.

(2) Based on the annual data collected through an online system from student guidance personnel of public sector primary schools, the respective number of cases under the Comprehensive Student Guidance Service by case category for the past 5 years (i.e. from the 2014/15 to the 2018/19 school years) is summarised as follows:

Case Category	School Year				
	2014/15	2015/16	2016/17	2017/18	2018/19
Conduct Problems	1 306	1 254	1 277	1 256	1 266
Emotional/Psychological Problems	2 743	2 945	3 190	3 353	3 548
Family/Environmental Problems	1 976	1 940	1 941	2 089	2 186
Health/Physical Problems	103	92	94	87	89
Learning Problems	1 210	1 071	1 025	985	892
Social/Developmental Problems	460	426	407	481	509
Total	7 798	7 728	7 934	8 251	8 490

- End -

CONTROLLING OFFICER'S REPLY**EDB360****(Question Serial No. 5859)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(1) Will the government inform this Council of the list of Chinese language programmes partially or fully funded by the government currently run for non-Chinese speaking students, school leavers and adult, and for each programme, the amount of the funding, the name of the institution/organisation running the programmes, the specific target group(s) of the programme (if any), the number of students enrolled and completed the programme, and levels attained, and whether the programme is pegged at any levels of the Qualifications Framework in 2018/19 and 2019/20. Please refer to the following table for the format.

Name of programme	Institution/organisation	Target participants	Expenditure (\$)	Fee	Study period	Mode of study	Attained QF level upon completion	Number of students enrolled	Number of students completed programme

(2) Does the EDB monitor the effectiveness of these programmes? If yes, please state how and provide the lists of key performance indicators to evaluate the different programmes, and whether final reports are accessible to the public.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 488)

Reply:

- (1) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” in primary and secondary schools and the creation of an inclusive learning environment in schools. Besides, Chinese language programmes for NCS students funded by EDB and/or different funds are offered in collaboration with tertiary institutions and/or non-governmental organisations as appropriate to complement the support offered by schools. The estimated expenditure for the major Chinese language programmes concerned in the 2018/19 and 2019/20 school years is tabulated at Annex.
- (2) The EDB evaluates and monitors the implementation of the support programmes by various means, such as observing the immediate responses of participants, conducting questionnaire surveys, holding meetings with service providers and scrutinising the reports submitted by service providers.

**Chinese language programmes for non-Chinese speaking (NCS) students

	(b) Baptist Oi Kwan								

Programme	Organisation commissioned to organise the programme	Target participants	Expenditure (\$ million)	Fees (if any)	Study Period	Mode of Study	Qualifications Framework level attained upon completion	Student Enrolment	Number of students who completed the programme
	Social Service (c) YMCA College of Careers			(b) \$800 (c) Foundation programme: \$200 Levels 1 and 2 programmes: \$500 (In both school years, up to 85% of the tuition fee can be reimbursed to participants who fulfill the relevant requirements upon completion of the above courses.)			(b) Levels 1 and 2 (c) Foundation, Levels 1 and 2		

* Estimated figures

As these programmes aim to provide support in learning Chinese for NCS students after school hours, participating students in principle stay in the programmes until completion of all lessons. Therefore, we do not differentiate the number of participants who completed the programmes from the total number of participants.

Note:

In parallel, EDB provides additional funding to eligible schools admitting NCS students for supporting NCS students' learning of the Chinese language. It is not uncommon for schools provided with additional funding to deploy their resources to offer Chinese language programmes in collaboration with tertiary institutions and/or non-governmental organisations. The relevant expenses are subsumed under the overall expenditure of the schools and a breakdown of expenditure in this regard is not available.

CONTROLLING OFFICER'S REPLY

EDB361

(Question Serial No. 5860)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the following:

(1) The numbers of primary and secondary school teachers in the territory who attended the Basic, Advanced and Thematic Courses (BAT Courses) on special educational needs, the cumulative number of these teachers, and the number of teachers who have yet to complete the BAT Courses in the past 5 school years.

(2) How does the Administration evaluate the effectiveness of existing BAT Courses?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 489)

Reply:

(1) and (2)

Starting from the 2007/08 school year, the Education Bureau (EDB) has been providing structured training courses on supporting students with special educational needs (SEN) pitched at basic, advanced and thematic levels (BAT Courses) for serving teachers in primary and secondary schools. The numbers of teachers in public sector ordinary primary and secondary schools who have completed the BAT Courses in the past 5 school years are tabulated as follows:-

Course	2015/16		2016/17		2017/18		2018/19		2019/20 (Provisional) ^{Note}	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	221	364	259	444	283	406	314	395	305	445
Advanced	109	147	129	197	157	152	177	146	144	176
Thematic	201	250	204	248	217	270	209	265	233	272

Note: BAT Courses for the 2019/20 school year are not yet completed. Figures provided are the anticipated number of teachers who will complete the courses. To prevent the spreading of COVID-19, all kinds of teacher training courses have to be postponed or terminated. The above figures do not reflect the impact of the pandemic on the courses.

As of the 2018/19 school year, the number of public sector ordinary primary and secondary school teachers who have completed the Basic, Advanced and Thematic Courses is 8 008, 3 272 and 6 789 respectively. Apart from the BAT Courses, the EDB has also provided teachers of primary and secondary schools with the “Professional Development Programme for Mental Health”. On top of this, the EDB arranges training activities for teachers every school year, such as thematic seminars, conferences, experience sharing sessions and workshops, etc. On the other hand, to better equip prospective teachers with the knowledge and skills in catering for students with SEN, local teacher education universities have also included modules related to special education or catering for students with SEN in their pre-service teacher training courses in order to enhance their professional capacity to cater for students with SEN when they serve as teachers. As such, the number of teachers who have not yet completed the BAT Courses does not fully reflect the position of teacher training in special education in the schools.

We have been monitoring the effectiveness of the BAT Courses through various means, including lesson observations, review meetings with the course providers, analysis of participants’ feedback and examination of the evaluation reports by the course providers. After the launch of the BAT Course in the 2007/08 school year, a review of the courses has been conducted, in which the views of school principals and teachers were gauged and the evaluation of the course providers was scrutinised. The findings showed that the BAT Courses were effective in enhancing teachers’ knowledge and skills in catering for students with SEN. In view of the positive feedback, we have launched another round of BAT Courses starting from the 2012/13 school year, with appropriate adjustment to the mode and content of the training programmes to better meet the training needs of the teachers. Starting from the 2014/15 school year, we have further strengthened the practicum of the Advanced and Thematic Courses with a view to providing more opportunities for teachers to apply the knowledge acquired. Taking into account of the teacher training profiles as well as the types and numbers of students with SEN, in the 2015/16 school year, we have further raised the training targets which have to be achieved by every public sector primary and secondary school by the end of the 2019/20 school year. As the training cycle is coming to an end in the 2019/20 school year, we have conducted a review on the experiences gained by the tertiary institutions which were commissioned to organise the teacher training courses on special education and collect views from stakeholders regarding

teacher training in special education, including course content, operation mode, training hours and training targets of BAT Courses. We are also working on the arrangements for the next training cycle, including considering the provision of more diversified and effective training modes, such as designing online training courses. Besides, to prevent the spreading of COVID-19, all kinds of teacher training courses for the 2019/20 school year have to be postponed or terminated. As such, we expect to see a drop in the total number of teachers who have completed the BAT Courses in the current training cycle. We will review the impact of the pandemic on the training courses and adjust the arrangements for the next training cycle taking into account the actual needs.

Please advise this Committee of the following information in the past 5 school years:

(1) the number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by school level and by SEN type; and

(2) the number of students with special needs admitted by primary and secondary schools. Please set out the figures in the form of a table:

No. of students with special needs admitted	Primary schools	Secondary schools
0		
1-5		
6-10		
11-20		
21-30		
31-40		
41-50		
More than 50		

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 491)Reply:

(1) and (2)

From the 2015/16 to 2019/20 school years, the number of students with special educational needs (SEN) studying in public sector ordinary primary and secondary schools, disaggregated by school level and SEN type, is set out at Appendix 1; the number of public sector ordinary primary and secondary schools disaggregated by number of students with SEN is set out at Appendix 2.

**Number of students with special educational needs (SEN)
studying in public sector ordinary primary and secondary schools
by school level and SEN type from the 2015/16 to 2019/20 school years**

School Year	School Level	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Mental Illness
2015/16	Primary	8 370	660	4 420	3 850	120	30	280	2 100	-
	Secondary	11 020	930	2 380	4 350	190	80	390	300	-
2016/17	Primary	8 860	670	5 020	4 350	110	30	300	2 520	-
	Secondary	11 260	910	2 800	5 090	190	80	350	350	-
2017/18	Primary	9 250	690	5 430	4 670	120	40	350	2 430	-
	Secondary	11 460	830	3 280	5 860	170	70	340	370	-

2019/20	Primary	11 200	810	6 400	5 500	110	30	390	2 810	70
	Secondary	11 480	790	4 410	7 660	140	60	310	510	500

Note:
 Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information about students with SEN requires parental consent. Given that many types of MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

**Number of public sector ordinary primary and secondary schools
by number of students with SEN from the 2015/16 to 2019/20 school years**

CONTROLLING OFFICER'S REPLY

EDB364

(Question Serial No. 5863)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide details of and statistics on the use of the following aids/support services, including physiotherapy, occupational therapy, speech therapy, braille books, audiobooks, other assistive devices (please specify categories of devices) and sign language interpretation services, by students with special educational needs under the special education system and integrated education system in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 492)

Reply:

The Government adopts a dual-track mode in providing education services to students with special educational needs (SEN). The Education Bureau (EDB) will, subject to the assessment and recommendations of specialists and the consent of parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with SEN will attend ordinary schools.

On top of regular teaching provision, special schools are provided with non-teaching staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and braille staff, according to the specific needs of their students. All students in special schools could benefit from the above specialist services in accordance with their individual needs.

To help public sector ordinary schools cater for students with SEN, the EDB, on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. The additional resources include Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers, Top-up Fund for procurement of special furniture and equipment or carrying out minor conversion work for students with disabilities, etc. Schools should deploy various school resources holistically and flexibly

to render appropriate support services to students with SEN, including procuring assistive devices, employing additional teachers and teaching assistants, or hiring professional services. As the context of each school differs and school-based support services rendered to students with SEN vary, we do not have detailed statistics about the assistive devices and services provided by schools and their utilisation rate.

EDB365

(Question Serial No. 5864)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of:

- (1) the number of students with special educational needs (SEN) in English Schools Foundation schools and other private international schools in the past 5 school years;
- (2) the number of additional places for supporting students with SEN in newly developed or expanded international schools (including primary and secondary schools); and
- (3) the terms of service agreements with international schools in regard to the provision of support for students with SEN.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 493)

Reply:

Vacant school premises and greenfield sites for international school development are allocated through an open and competitive school allocation exercise (SAE) in accordance with prevailing practice. Support to students, including students with SEN, has all along been a major consideration when assessing applications received under SAE for international school development. Favourable consideration will be given to applications which propose appropriate measures to support students with SEN. Under the Service Agreement entered with the Education Bureau, the successful applicants are required to operate the school according to the school proposal submitted, including the proposed support measures for students with SEN (if any). In the last SAE completed in 2015, all of the 5 successful applicants have included support measures for students with SEN in their school proposals, such as measures to identify students with SEN, as well as different approaches to facilitate learning of students with SEN. Some have also specified that they would set aside manpower/resources to specifically cater for the needs of these students.

The number of students with SEN in the English Schools Foundation schools and other private international schools from the 2015/16 to 2019/20 school years is at the **Annex**. As far as we understand, most of the other private international schools do not specifically put a ceiling on the number of places for students with SEN, and we do not have readily available information in this respect.

Number of students with special educational needs (SEN) in the English Schools Foundation (ESF) schools and other private international schools from the 2015/16 to 2019/20 school years

School year	ESF		Other private international schools		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary
2015/16	230	435	385	175	615	610
2016/17	245	565	323	179	568	744
2017/18	439*	422*	404	284	843	706
2018/19	365	458	482	348	847	806
2019/20	354	463	561	403	915	866

* The ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and has required all its schools to provide such figures to the EDB in the Student Enrolment Survey accordingly since the 2015/16 school year. However, in an internal review of the ESF schools' practice in compiling the number of students with SEN in September 2017, the ESF found that the practice was still inconsistent among individual schools. The ESF has verified again the information provided by each ESF school for the Student Enrolment Survey. Therefore, there is a relatively significant change in the number of students with SEN in the 2017/18 school year when compared with previous years.

- Notes: (1) Figures refer to the position as at mid-September of the respective school years.
- (2) Statistics cover students with SEN under integrated classes/special classes/special school in the ESF and other private international schools as reported by the schools concerned in response to the Student Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

Subhead (No. & title): (-) Not specified
Programme: (8) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the following:

- (1) whether all official information of the Education Bureau (EDB) is available in both Chinese and English, our official languages;
- (2) the number of parent briefing sessions on Primary One Admission (POA) and Secondary School Places Allocation (SSPA) systems conducted in English; the districts where these briefing sessions were held; and the number of participating parents in the past 5 school years;
- (3) the number of dedicated briefing sessions on the POA and SSPA systems with simultaneous interpretation services for parents of non-Chinese speaking (NCS) students; the districts where these briefing sessions were held; and the number of participating parents in the past 5 school years;
- (4) information disseminated or publications published by the EDB, including blogs, webpages, school directories, reports on school quality and videos (particularly information and publications that inform parents' and students' school choices), that are only available in Chinese but not English;
- (5) information disseminated or publications published by the EDB, including school directories and reports on school quality (particularly information and publications that inform parents' and students' school choices), that are available in both Chinese and English online but only Chinese in print.
- (6) information disseminated or publications published by the EDB, including blogs, webpages, school directories, reports on school quality and videos (particularly information and publications that inform parents' and students' school choices), that are available in languages other than Chinese and English, and the languages they are available in; and

(7) if information about schools and the education system provided by the EDB is available in Chinese only, by what means can parents of NCS students make an informed school choice for their children, and whether the EDB can still claim that parental choice is the reason behind certain schools having a particular high proportion of ethnic minority students.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 494)

Reply:

- (1) In general, official information of the Education Bureau (EDB) published on the Bureau's website would be made available in both Chinese and English for general reference by the public where appropriate.
- (2)&(3) To facilitate participation of non-Chinese speaking (NCS) students and their parents in the Primary One Admission (POA) system and the Secondary School Places Allocation (SSPA) system, dedicated briefing sessions in English are organised annually in two modes (including briefing sessions open to all parents of NCS students and briefing sessions for parents of NCS students in individual kindergartens or primary schools upon their requests) with simultaneous interpretation services in major ethnic minority (EM) languages provided. In the school years from 2015/16 to 2019/20, 9 to 10 sessions on POA which were open to all parents of NCS students were organised annually in Kwun Tong and Kowloon City, which are the locations easily accessible to parents. The number of participating parents in the briefing sessions was 311, 269, 261, 286 and 373 from the 2015/16 to 2019/20 school years respectively. As regards SSPA, since it is not uncommon for primary schools to offer counselling on admission to Secondary 1 specifically on making school choices to Primary 6 students and their parents, 1 briefing session open to all parents of NCS students was organised annually in Sham Shui Po or Kowloon City from the 2015/16 to 2019/20 school years and the number of participating parents was 73, 68, 73, 95 and 81 respectively. We have not kept a separate record of the briefing sessions organised on the request of individual kindergartens or primary schools, which may vary over the years, and are therefore unable to provide the related number.
- (4) to (6) EDB is committed to encouraging and supporting the integration of NCS students (especially EM students) into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese language. A dedicated webpage on education services for NCS students, which contains information about the education system and schools, has been set up for NCS students and their parents. All relevant information (including information related to making school choices) is published in Chinese and English, with translation into major EM languages provided where applicable for the easy reference of non-Chinese speakers. Details are tabulated at Annex.
- (7) As elucidated above, information about the education system and schools provided by EDB is available in both Chinese and English. EDB has been actively promoting parent education, emphasising that parents (including parents

of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider arranging for their children to study in schools which can provide an immersed Chinese language learning environment. This is conducive to their children's learning of the Chinese language as well as integration into the community. Parents of NCS students, like other parents, are encouraged to join the on-site school visits organised by individual schools and Federations of Parent-Teacher Associations on a district basis to learn more about the schools so as to choose a suitable school for their children. EDB will continue organising dedicated briefing sessions with simultaneous interpretation services for parents of NCS students. Since the 2015/16 school year, the Committee on Home-School Co-operation has published the English printed version of the School Profiles for distribution to parents of NCS students studying at K3 and Primary 6 levels via kindergartens and primary schools for their easy access to the information in the School Profiles. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on "Education Support for NCS Students" has been added to the School Profiles for schools to provide information on relevant support for NCS students. All public sector schools and Direct Subsidy Scheme schools admitting NCS students and provided with the additional funding are required to specify that additional support, including after-school support, is provided for their NCS students in learning of the Chinese language. From the 2019/20 school year onwards, EDB has further enhanced the newly added column by requesting the schools concerned to provide more details of the relevant support measures. EDB encourages schools to continue to enrich the content of the English version of the School Profiles and their school webpages. Furthermore, EDB has set up a hotline for NCS students and their parents, and if necessary, simultaneous interpretation services can be arranged through the Centre for Harmony and Enhancement of Ethnic Minority Residents funded by the Home Affairs Department. We believe that our provision of information on the education system and schools can encourage NCS students to choose to study in mainstream schools. Starting from the 2020/21 school year, EDB will strengthen parent education for parents of NCS students and encourage them to enrol their children to local kindergartens and strengthen their communication with schools. We will provide a series of parent education programmes for NCS parents to help them support their children's learning, encourage their children to master the Chinese language, and help them have more comprehensive understanding of the multiple pathways available to their children.

The prevailing education system, including the school places allocation systems, provides NCS students with equal opportunities for admission to public sector schools as their Chinese-speaking peers. Due to various reasons, including schools' location in districts where more NCS people reside, parents' tendency to arrange for their younger children to study in the same school with their older siblings (Under the "Discretionary Places Admission" stage of the POA system, applicants applying for the school which their sibling(s) is/are studying will be admitted by the school), and some parents' preference for schools with rich experience in taking care of NCS students, etc., the ratio of NCS students in some schools is inevitably higher than that in other schools. Unless the school

choices of NCS students are to be strictly restricted, or an upper limit is to be set on the ratio of NCS students in schools, the phenomenon that more NCS students study in schools located in certain districts will not change significantly. However, such measures are not feasible because they will not only limit the school choices of NCS students, but also cause some Chinese-speaking students to be allocated to schools which they have not chosen. We believe that the existing support measures, including parent education that we have been committed to strengthening in recent years, are conducive to encouraging NCS students to choose to study in mainstream schools and facilitating their Chinese learning and integration into the community.

CONTROLLING OFFICER'S REPLY

EDB367

(Question Serial No. 5866)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The EDB has previously said that “all information related to school choices is available in both Chinese and English on the Bureau’s website,” and that the EDB is “committed to encouraging and supporting NCS students’ integration into the community”.

Will the government inform this Council of:

- (1) the list of official information of the Education Bureau that is available in Chinese only;
- (2) the list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools’ qualities and videos, particularly those that inform parents and students of their school choice, that are only available in Chinese but not English;
- (3) the list of information disseminated or publications published by the Education Bureau, including its school directories and reports on schools’ qualities, particularly those that inform parents and students of their school choice, that are available in both printed and web versions in Chinese but only available in web versions in English;
- (4) the list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools’ qualities and videos, particularly those that inform parents and students of their school choice, that are available in languages other than Chinese and English, and what languages they are available in, location where this information can be accessed; and
- (5) if some information about schools and the education system given by the Education Bureau is available in Chinese only, how non-Chinese speaking parents can make an informed school choice for their children and whether the Education Bureau can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice;

- (6) the number of English-language parent briefing sessions conducted on the Kindergarten Admission, Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20;
- (7) the number of dedicated briefing sessions conducted with simultaneous interpretation services for NCS parents on the Kindergarten Admission, Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20;
- (8) How will the EDB improve its communication with NCS parents and better promote EDB policies and school information to parents given not all information is equally bilingual?
- (9) What means have the EDB adopted to disseminate the relevant information and leaflet to NCS parents (e.g. list out the locations where NCS parents can access different leaflets)? What is the corresponding expenditure?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 495)

Reply:

- (1) In general, official information of the Education Bureau (EDB) published on the Bureau's website would be made available in both Chinese and English for general reference by the public where appropriate.
- (2) to (4) and (9) EDB is committed to encouraging and supporting the integration of non-Chinese speaking (NCS) students (especially ethnic minority (EM) students) into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese language. A dedicated webpage on education services for NCS students, which contains information about the education system and schools, has been set up for NCS students and their parents. All relevant information (including information related to making school choices) is published in Chinese and English, with translation into major EM languages provided where applicable for the easy reference of non-Chinese speakers. Relevant details and means of access are tabulated at Annex. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or programmes concerned, hence a breakdown of expenditure by item is not available.
- (5) and (8) As elucidated above, information about the education system and schools provided by EDB is available in both Chinese and English. EDB has been actively promoting parent education, emphasising that parents (including parents of NCS students) should take into account the aspirations and needs of their

children when making school choices, and encouraging parents of NCS students to consider arranging for their children to study in schools which can provide an immersed Chinese language learning environment. This is conducive to their children's learning of the Chinese language as well as integration into the community. Parents of NCS students, like other parents, are encouraged to join the on-site school visits organised by individual schools and Federations of Parent-Teacher Associations on a district basis to learn more about the schools so as to choose a suitable school for their children. EDB will continue organising dedicated briefing sessions with simultaneous interpretation services for parents of NCS students. Since the 2015/16 school year, the Committee on Home-School Co-operation has published the English printed version of the School Profiles for distribution to parents of NCS students studying at K3 and Primary 6 levels via kindergartens and primary schools for their easy access to the information in the School Profiles. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on "Education Support for NCS Students" has been added to the School Profiles for schools to provide information on relevant support for NCS students. All public sector schools and Direct Subsidy Scheme (DSS) schools admitting NCS students and provided with the additional funding are required to specify that additional support, including after-school support, is provided for their NCS students in learning of the Chinese language. From the 2019/20 school year onwards, EDB has further enhanced the newly added column by requesting the schools concerned to provide more details of the relevant support measures. EDB encourages schools to continue to enrich the content of the English version of the School Profiles and their school webpages. Furthermore, EDB has set up a hotline for NCS students and their parents, and if necessary, simultaneous interpretation services can be arranged through the Centre for Harmony and Enhancement of Ethnic Minority Residents funded by the Home Affairs Department (HAD). We believe that our provision of information on the education system and schools can encourage NCS students to choose to study in mainstream schools. Starting from the 2020/21 school year, EDB will strengthen parent education for parents of NCS students and encourage them to enrol their children to local kindergartens and strengthen their communication with schools. We will provide a series of parent education programmes for NCS parents to help them support their children's learning, encourage their children to master the Chinese language, and help them have more comprehensive understanding of the multiple pathways available to their children.

Moreover, starting from the 2014/15 school year, all public sector schools and DSS schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted. In addition to the implementation of the "Chinese Language Curriculum Second Language Learning Framework", schools receiving the additional funding are also required to make optimal use of the funding to create an inclusive learning environment in schools. According to the actual experience in the past few years, the schools concerned have generally deployed about 10% of the additional funding provided for appointment of EM assistants and/or

procurement of translation services to strengthen communication with parents of NCS students and organise multi-cultural activities.

- (6) and (7) Notwithstanding that admission to kindergartens (KGs) is a school-based matter, in 2014, EDB introduced the Admission Arrangements for Nursery (K1) Classes in KGs (K1 Admission) for all KGs joining the Pre-primary Education Voucher Scheme, with a view to improving the KG admission procedures and better utilising the KG places. Starting from June 2014, briefing sessions have been organised for parents to facilitate their understanding of K1 Admission, including dedicated briefing sessions conducted in English for parents of NCS children. In the 2015/16 school year, 2 dedicated briefing sessions for parents of NCS children were organised in Wong Tai Sin and Tuen Mun, and the total number of participants was 43. Starting from the 2016/17 school year, we have organised briefing sessions in collaboration with the Support Service Centres for Ethnic Minorities funded by HAD. To reach out to parents of NCS children, we have released information on briefing sessions through EM newspapers. In the 2016/17 school year, a total of 7 dedicated briefing sessions were organised in Wan Chai, Yau Tsim Mong, Yuen Long, Tuen Mun, Kwai Tsing, Kwun Tong and Wong Tai Sin, and the turnout was 159. In the 2017/18 school year, a total of 7 dedicated briefing sessions were organised in Yau Tsim Mong, Wan Chai, Yuen Long, Kwai Tsing, Tuen Mun, Kwun Tong and Sham Shui Po, and the turnout was 88. In the 2018/19 school year, 6 dedicated briefing sessions were organised in Sham Shui Po, Kwai Tsing, Wan Chai, Yuen Long, Yau Tsim Mong and Tuen Mun, and 3 short talks were organised in Tuen Mun, Yau Tsim Mong and Kwai Tsing in collaboration with the Support Service Centres for Ethnic Minorities, and the total turnout was 125. As for the 2019/20 school year, since some briefing sessions or short talks are yet to be held, relevant information is not available at this stage. Simultaneous interpretation services in major EM languages were/will be provided to the participants as appropriate at all of these briefing sessions and short talks. In addition to directly reaching out to parents of NCS children through the above-mentioned briefing sessions and short talks, we also capitalise on the networks that non-governmental organisations have established with NCS communities to disseminate information related to K1 Admission.

To facilitate participation of NCS students and their parents in the Primary One Admission (POA) system and the Secondary School Places Allocation (SSPA) system, dedicated briefing sessions in English are organised annually in two modes (including briefing sessions open to all parents of NCS students and briefing sessions for parents of NCS students in individual kindergartens or primary schools upon their requests) with simultaneous interpretation services in major EM languages provided. In the school years from 2015/16 to 2019/20, 9 to 10 sessions on POA which were open to all parents of NCS students were organised annually in Kwun Tong and Kowloon City, which are the convenient locations easily accessible to parents. The number of participating parents in the briefing sessions was 311, 269, 261, 286 and 373 from the 2015/16 to 2019/20 school years respectively. As regards SSPA, since it is not uncommon for primary schools to offer counselling on admission

to Secondary 1 specifically on making school choices to Primary 6 students and their parents, 1 briefing session open to all parents of NCS students was organised annually in Sham Shui Po or Kowloon City from the 2015/16 to 2019/20 school years and the number of participating parents was 73, 68, 73, 95 and 81 respectively. We have not kept a separate record of the briefing sessions organised on the request of individual kindergartens or primary schools, which may vary over the years, and are therefore unable to provide the related number.

CONTROLLING OFFICER'S REPLY

EDB368

(Question Serial No. 5867)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In the Primary One Allocation process, the Education Bureau asks parents/guardians to indicate on the "Application Form for Admission to Primary One" if the applicant child "Cannot use Chinese as learning medium" (item 7 on the application form). In addition, according to the "Notes on How to Complete the 'Application Form for Admission to Primary One'" published by the Education Bureau in 2015, 2016, 2017 and 2018 "if parents/guardians claim, on the application form, that the applicant child cannot use Chinese as the learning medium," they may choose from a list of eight schools, listed in Appendix 3 of the document, that traditionally admit more non-Chinese speaking students. Will the government also inform the Council:

- (1) How many applicants checked the option "Cannot use Chinese as learning medium" on the "Application Form for Admission to Primary One" in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 school years admission respectively; and
- (2) What percentage of the students who checked the option "Cannot use Chinese as learning medium" got allocated to schools in the Discretionary Place and the Central Allocation round respectively;
- (3) What percentage of the students who checked the option "Cannot use Chinese as learning medium" entered one of the eight schools listed in the Appendix 3 of the "Notes on How to Complete the 'Application Form for Admission to Primary One'" in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 school years admission respectively.
- (4) Why providing Appendix 3 does not constitute a "labelling effect" on the listed schools and contribute towards the phenomenon of de facto segregation when non-Chinese speaking (NCS) parents wanted schools with English as a medium of instruction (MOI) rather than schools that traditionally accept a large number of NCS students[1]? Will the government consider extending the list to cover either schools

that use English as MOI for NCS students or schools that has accepted NCS students?
If no, the reasons.

- (5) EDB mentioned they conducted a questionnaire survey in February 2018 to understand stakeholders' opinions on whether the List should be retained when processing the school selection procedures during the CA stage for parents of NCS applicant children participating in the POA in 2018. Please state the details of the survey regarding how the parents were reached, timeline and the related expenditure.
- (6) The number of public primary schools (including DSS schools) which received grants to support NCS students in Chinese learning in the past 5 years;
- (7) The number of public primary schools that offer English as the primary MOI for non-language subjects, the number of public primary schools which make MOI adjustment for NCS students and their respective additional funding involved (if applicable).
- (8) The Ombudsman direct investigation report in 2019 pointed out that there is a discrepancy between information about schools on the eight schools listed in the Appendix 3 of the "Notes on How to Complete the 'Application Form for Admission to Primary One'" and the actual situation. How is the EDB responding to rectify the situation?

[1] Para 28 and 29, Panel on Education, minutes of meeting of the public hearing on 9 Jan, 2006, LC Paper No. CB(2)1044/05-06 - <http://www.legco.gov.hk/yr05-06/english/panels/ed/minutes/ed060109.pdf>

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 496)

Reply:

- (1) The number of applicants who chose the option "Cannot use Chinese as learning medium" on the application form for Primary One Admission (POA) is 700, 756, 648, 796 and 825 from the 2015/16 to 2019/20 school years respectively.
- (2) The percentage of students who chose the option "Cannot use Chinese as learning medium" and were allocated a Primary 1 place at the Discretionary Places Admission stage is 63.6%, 60.7%, 65.7%, 61.7% and 61.3%, and the percentage of students allocated a Primary 1 place at the Central Allocation stage is 36.4%, 39.3%, 34.3%, 38.3% and 38.7% from the 2015/16 to 2019/20 school years respectively.
- (3) The percentage of students who chose the option "Cannot use Chinese as learning medium" and were subsequently admitted by the schools listed in Appendix 3 of the "Notes on How to Complete the Application Form for Admission to Primary One" (the Notes) is 48.0%, 46.4%, 43.5%, 37.8% and 34.6% from the 2015/16 to 2019/20 school years respectively.

- (4), (7) and (8) It is the policy of the Education Bureau (EDB) to encourage parents of non-Chinese speaking (NCS) applicant children to choose schools with an immersed Chinese language environment to facilitate their children's learning of the Chinese language, early adaptation to the local education system and integration into the community. The current arrangement of providing the list of primary schools traditionally admitting more NCS students in the past (i.e. Appendix 3) in the Notes for POA mainly aims to cater for the needs of NCS students and their parents.

The schools on the list are those primary schools traditionally admitting more NCS students in the past, instead of those admitting more NCS students at present. Some parents choose to enrol NCS students in these schools because these schools have accumulated more experience in supporting NCS students (such as school-based support measures, teaching materials, etc), but not because these schools have admitted more NCS students. To avoid misunderstanding among parents of NCS students that they can only choose the schools listed in Appendix 3 and to encourage them to choose "mainstream" primary schools, EDB has included in Note 3 of the Notes a message to encourage parents of NCS applicant children to choose schools with an immersed Chinese language environment to facilitate their children's learning of the Chinese language, and to remind parents that the majority of public sector schools (including the primary schools within their residing school net) provide an immersed Chinese language environment. EDB has also stated clearly in the Notes that the schools listed in Appendix 3 are only for the reference of parents who are still in need.

EDB will continue promoting parent education actively and provide parents of NCS students with more information and support for making school choices. Since the 2015/16 school year, the Committee on Home-School Co-operation has published the English printed version of the Primary School Profiles for distribution to parents of NCS students studying at K3 level via kindergartens for their easy access to the information in the School Profiles. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on "Education Support for NCS Students" has been added to the Primary School Profiles for primary schools to provide information on relevant support for NCS students. All public sector schools and Direct Subsidy Scheme (DSS) schools admitting NCS students and provided with the additional funding are required to specify that additional support, including after-school support, is provided for their NCS students in learning the Chinese language. Since the 2019/20 school year, EDB has further enhanced the new column by requiring the schools concerned to provide more details on the relevant support measures. EDB encourages schools to continue to enrich the content of the English version of the School Profiles and their school webpages, and will continue to keep in view the needs of parents of NCS children in respect of making school choices, review regularly the situation of the primary schools listed in Appendix 3 and listen to the views of

various parties on the POA mechanism, including conducting questionnaire surveys among parents of NCS applicant children during the Central Allocation stage under POA every year to collect their views on retaining the school list, and review the arrangement in a timely manner as appropriate.

Public sector primary schools mostly adopt Chinese as the medium of instruction, which is conducive to the creation of an immersed Chinese language environment to help NCS students learn the Chinese language and adapt to the local education system. EDB has not compiled statistics on public sector primary schools adopting English as the primary medium of instruction in non-language subjects, or adapting the medium of instruction for NCS students.

- (5) To gauge the views of relevant stakeholders on the provision of the primary school list in Appendix 3, EDB conducted a questionnaire survey among parents of NCS children participating in POA 2018 on whether Appendix 3 should be retained when parents made their choice of schools for Central Allocation in February 2018. Such questionnaire surveys were also conducted when the parents made their choice of schools for Central Allocation in POA 2019 and POA 2020. The work is absorbed by existing staff establishment, and a breakdown of the expenditure involved is not available.
- (6) Starting from the 2014/15 school year, EDB has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and DSS schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. From the 2015/16 to 2019/20 school years, the number of the primary schools concerned is 85, 98, 106, 114 and 116 respectively. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 NCS students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. From the 2015/16 to 2019/20 school years, 49, 87, 106, 104 and 100 (provisional) primary schools were

provided with the additional funding to offer after-school Chinese language support programmes respectively.

Director of Bureau: Secretary for Education

Question:

A systematic data collection and collation mechanism is conducive to informing policy and decision-making. Data disaggregated by race, ethnicity, gender, age, and other variables is important to implementing effective evidence-based governance. In this regard, will the Government inform the Council:

- (1) Please tabulate by district, the number of primary and secondary schools (government, aided and DSS) from “0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90”, and “91 and above” and the percentage of NCS students among all students of these schools from 2014/15 to 2019/20.
- (2) Please tabulate by district, the respective number of students and the number of primary and secondary schools where non-Chinese speaking students account for “0%”, “> 0% – 10%”, “> 10% – 20%”, “> 20% – 30%”, “> 30% – 40%”, “> 40% – 50%”, “> 50% – 60%”, “> 60% – 70%”, “> 70% – 80%”, “> 80% – 90%”, and “more than 90%” of the student population from 2014/15 to 2019/20.
- (3) Please tabulate by district, the respective number of students and the number of primary and secondary schools where ethnic minority students account for “0%”, “> 0% – 10%”, “> 10% – 20%”, “> 20% – 30%”, “> 30% – 40%”, “> 40% – 50%”, “> 50% – 60%”, “> 60% – 70%”, “> 70% – 80%”, “> 80% – 90%”, and “more than 90%” of the student population from 2014/15 to 2019/20.
- (4) Please inform the Council how can the Council monitor whether there is de facto racial segregation in the education system?
- (5) Please tabulate the information or publications published with translation into major EM languages provided to NCS students and their parents, with the way to obtain the information (e.g. website with link provided, printed etc.)

- (6) Given that the Education Bureau said it is committed to facilitating the integration of NCS students and providing education-related information to NCS parents and students, please inform the Council how parents can obtain the data above; and if parents have no way to find out which schools have a high proportion of ethnic minority students, whether the Education Bureau can still claim that high concentration of ethnic minority students in certain schools is a result of parental choice.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 497)

Reply:

- (1) to (3) For the planning of education support measures for non-Chinese speaking (NCS) students, their need for support is determined by whether their language spoken at home is Chinese or not (instead of their ethnicity). According to the information collected through the annual Enrolment Survey, the number of schools with NCS students ranging from “0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” to “91 or more” and the percentage of NCS students among all students of individual schools from the 2015/16 to 2019/20 school years are tabulated at Annex A. The number of schools with NCS students and NCS ethnic minority (EM) students as well as the respective number of NCS students and NCS EM students studying in the schools concerned disaggregated by the percentage of NCS students and NCS EM students among all students of individual schools ranging from “0%”, “>0% - 10%”, “>10% - 20%”, “>20% - 30%”, “>30% - 40%”, “>40% - 50%”, “>50% - 60%”, “>60% - 70%”, “>70% - 80%”, “>80% - 90%” to “>90%” from the 2015/16 to 2019/20 school years are tabulated at Annex B and Annex C respectively. Since the definition of NCS students is based on the language spoken at home instead of the ethnicity of the students, the two sets of data in Annex B and Annex C are not comparable. To avoid unnecessary misconception and possible labelling on individual schools, we have been adopting a cautious approach and adhering to the established practice of not disclosing information that may indicate the situation of individual schools concerned in respect of issues such as the number or ratio of academically low achievers, students with special educational needs, students from needy families, NCS students, etc. Hence, we will not provide data by district.
- (4) to (6) EDB is committed to encouraging and supporting the integration of NCS students (notably EM students) into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese language. A dedicated webpage on education services for NCS students, which contains information about the education system and schools, has been set up for NCS students and their parents. All relevant information (including information related to making school choices) is published in Chinese and English, with translation into major EM languages provided where applicable for the easy reference of non-Chinese speakers. Details on the publications and means of access are tabulated at Annex D.

EDB has been actively promoting parent education, emphasising that parents (including parents of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider arranging for their children to study in schools which can provide an immersed Chinese language learning environment. This is conducive to their children's learning of the Chinese language as well as integration into the community. Parents of NCS students, like other parents, are encouraged to join the on-site school visits organised by individual schools and Federations of Parent-Teacher Associations on a district basis to learn more about the schools so as to choose a suitable school for their children. EDB will continue organising dedicated briefing sessions with simultaneous interpretation services for parents of NCS students. Since the 2015/16 school year, the Committee on Home-School Co-operation has published the English printed version of the School Profiles for distribution to parents of NCS students studying at K3 and Primary 6 levels via kindergartens and primary schools for their easy access to the information in the School Profiles. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on "Education Support for NCS Students" has been added to the School Profiles for schools to provide information on relevant support for NCS students. All public sector schools and Direct Subsidy Scheme schools admitting NCS students and provided with the additional funding are required to specify that additional support, including after-school support, is provided for their NCS students in learning of the Chinese language. From the 2019/20 school year onwards, EDB has further enhanced the newly added column by requesting the schools concerned to provide more details of the relevant support measures. EDB encourages schools to keep enriching the English contents of their School Profiles and school webpages. Furthermore, EDB has set up a hotline for NCS students and their parents, and if necessary, simultaneous interpretation services can be arranged through the Centre for Harmony and Enhancement of Ethnic Minority Residents funded by the Home Affairs Department. We believe that our provision of information on the education system and schools can encourage NCS students to choose to study in mainstream schools. Starting from the 2020/21 school year, EDB will strengthen parent education for parents of NCS students and encourage them to enrol their children to local kindergartens and strengthen their communication with schools. We will provide a series of parent education programmes for NCS parents to help them support their children's learning, encourage their children to master the Chinese language, and help them have more comprehensive understanding of the multiple pathways available to their children.

The prevailing education system, including the school places allocation systems, provides NCS students with equal opportunities for admission to public sector schools as their Chinese-speaking peers. Due to various reasons, including schools' location in districts where more NCS people reside, parents' tendency to arrange for their younger children to study in the same school with their older siblings (at the "Discretionary Places Admission" stage under the Primary One Admission System, applicants applying for enrolment in a school in which their older sibling(s) is/are studying will be admitted by the school), and some parents' preference for schools with rich experience in taking care of NCS students, etc.,

the ratio of NCS students in some schools is inevitably higher than that in other schools. Unless the school choices of NCS students are to be strictly restricted, or an upper limit is to be set on the ratio of NCS students in schools, the phenomenon that more NCS students study in schools located in certain districts will not change significantly. However, such measures are not feasible because they will not only limit the school choices of NCS students, but also cause some Chinese-speaking students to be allocated to schools which they have not chosen. We believe that the existing support measures, including parent education that we have been committed to strengthening in recent years, are conducive to encouraging NCS students to choose to study in mainstream schools and facilitating their Chinese learning and integration into the community.

Number of schools with non-Chinese speaking (NCS) students by number of NCS students and the percentage of NCS students among all students of individual schools from the 2015/16 to 2019/20 school years

School year	Number of schools/ Percentage of NCS students among all students of individual schools	Number of NCS students						
		0	1 to 9	10 to 25	26 to 50	51 to 75	76 to 90	91 or more
Primary school								
2015/16	Number of schools	146	217	57	21	6	2	26
	Percentage of NCS students among all students of individual schools	0%	0.1%-6.1%	1.1%-29.2%	3.6%-31.8%	8.9%-54.9%	19.8%-21.5%	17.1%-98.8%
2016/17	Number of schools	150	207	61	21	7	4	25
	Percentage of NCS students among all students of individual schools	0%	0.1%-3.2%	1.0%-28.6%	2.9%-38.3%	8.1%-24.7%	15.5%-37.7%	16.3%-99.3%
2017/18	Number of schools	150	203	63	22	8	2	27

CONTROLLING OFFICER'S REPLY

EDB370

(Question Serial No. 5869)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (8) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education
Question:

Please inform this Committee:

- (1) of the participants, their number, their categories and expenditure of the “Seminar on Identification and Intervention for the Students Affected by Abuse and Domestic Violence” in the past 5 school years;
- (2) whether any support has been provided for students suffering domestic violence; if yes, of the details; and
- (3) of the respective expenditure on provision of support for students suffering domestic violence in the past 5 school years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 498)

Reply:

(1) to (3)

The Government attaches great importance to the well-being and safety of children and has kept reminding schools through various channels for early identification and provision of support for students in need. Students affected by domestic violence may suffer from fear, distress, anger, confusion and frustration. School personnel have been advised to be sensitive to the traits manifested by the students affected so as to provide them with immediate and necessary assistance, with reference to the “Procedural Guide for Handling Intimate Partner Violence Cases” and the “Procedural Guide for Handling Child Abuse Cases” issued by the Social Welfare Department (SWD). The Education Bureau (EDB) has also updated the relevant circular and documents to provide more detailed and clearer guidelines for schools in handling suspected cases involving child abuse and domestic violence, thus further enhancing the ability and alertness of school personnel in identifying traits of children who have been abused or affected by domestic violence.

To enhance frontline teachers' awareness of early identification and provision of support for students affected by domestic violence, the EDB has collaborated with the SWD and the Police to organise seminars on "Identifying, Preventing and Handling Suspected Child Abuse Cases" and "Identification and Intervention for the Student Affected by Abuse and Domestic Violence" on an annual basis. With educational psychologists and representatives from relevant departments as key speakers, these seminars seek to enhance school personnel's knowledge of child abuse and domestic violence, and their ability in identification of suspected cases, crisis assessment and multi-disciplinary collaboration. In the past 5 school years, a total of 31 seminars/workshops were held with an attendance of about 6 200 participants, including principals, teachers, school social workers and guidance personnel from primary and secondary schools, special schools and kindergartens. These training activities are collaborative efforts among departments and the expenses involved are subsumed under the relevant departments' overall expenditure.

To support students in need (including those exposed to domestic violence), schools currently adopt a Whole School Approach to provide a variety of remedial, preventive and developmental guidance programmes, such as induction/adjustment programme, peer support scheme and therapeutic group work. For students affected by domestic violence, we understand that the family social workers of the Integrated Family Service Centres of the SWD provide follow-up support for these students and their families. Professional staff from schools (including school social workers, student guidance personnel and school-based educational psychologists) will work in collaboration with family social workers to help the affected students solve their family problems. To enhance students' resilience, schools may join the support programmes organised by the EDB, such as the Understanding Adolescent Project for primary schools and the Enhanced Smart Teen Project for Secondary 2 to Secondary 5 students. Schools are also encouraged to make use of teaching resources provided by the EDB, such as lesson plans on "Prevention and Helping Students Affected by Domestic Violence" and "Self-protection", in delivering guidance service, and to strengthen their parent education programmes and parent-child activities.

The EDB has been providing schools with various resources to meet students' adjustment needs in learning and whole person development. It is not possible to apportion the expenditure involved in addressing the needs of students affected by domestic violence.

(Question Serial No. 5870)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please advise this Committee of:

- (1) whether the Government will conduct a comprehensive review of the integrated education policy as it has run into many problems after over a decade of implementation;
- (2) the existing training requirements for teachers supporting students with special educational needs (SEN);
- (3) whether the Government has conducted a comparative research on the training requirements for teachers supporting students with SEN; if yes, of the details; if no, of the reasons;
- (4) the proportion of teachers with adequate training, with a breakdown by mainstream and special schools; and
- (5) the Government's strategies to provide all teachers with training in supporting students with SEN.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 500)

Reply:

- (1)
The Government attaches great importance to integrated education (IE). The Whole School Approach (WSA) to IE currently implemented in Hong Kong is in line with the global trend in the development of IE. The Education Bureau (EDB) has kept the implementation of IE under constant review by monitoring schools' deployment of resources and implementation of relevant measures through its daily work, sending officers on study tours to other countries or regions to learn from their experience, and collecting feedback from the sector and stakeholders through different channels. The EDB set up the

Task Force on IE in Mainstream Schools (IE Task Force) in 2005, comprising representatives from the school sector, other government departments, non-governmental organisations (NGOs) and parent groups. Through regular meetings, the EDB briefs members of the IE Task Force on the progress of implementing IE and seeks their views on improvement measures. In addition to this formal communication platform, we also keep in touch and, where necessary, meet with school councils, NGOs and parent groups to strengthen communication and co-operation as well as tapping their views on the implementation of IE.

In the light of our on-going review and having considered the need of students and views of different stakeholders, the EDB has introduced a number of enhancement measures in the past few years, including continuously enhancing the School-based Speech Therapy Service; introducing the teacher professional development programmes on catering for students with special educational needs (SEN); and enhancing the funding arrangements for the Learning Support Grant (LSG). In addition, starting from the 2016/17 school year, the School-Based Educational Psychology Service (SBEPS) has covered all public sector ordinary primary and secondary schools in the territory. The ratio of educational psychologist to school has also progressively improved to 1:4 for schools with comparatively large number of students with SEN. Starting from the 2017/18 school year, the LSG for public sector ordinary primary and secondary schools covers students with mental illness. At the same time, starting from the 2017/18 school year, the EDB has regularised the Pilot Project on Special Educational Needs Coordinators (SENCOs) funded by the Community Care Fund. Each public sector ordinary primary and secondary school is provided with, by phases in 3 years, an additional graduate teaching post to facilitate its assignment of a designated teacher to take up the role of SENCO to support IE. In the 2019/20 school year, all public sector ordinary primary and secondary schools have been provided with a SENCO.

Besides, the EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace the Intensive Remedial Teaching Programme and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of the LSG received by the schools reaches the specific threshold. Other measures include upgrading the SENCO post to promotion rank in public sector ordinary schools with comparatively large number of students with SEN; further extending the Enhanced SBEPS; creating school-based speech therapist posts in the public sector ordinary schools by phases; and providing the Grant for Supporting Non-Chinese Speaking (NCS) Students with SEN to public sector ordinary schools admitting NCS students with SEN under a three-tier structure. Under the above measures, schools have a more stable teaching force and additional resources for flexible deployment to support the implementation of IE.

Under the School Development and Accountability Framework, as in other school policies and measures, schools are required to assess the effectiveness of their support for students with SEN through self-evaluation every year. The EDB also requires schools to submit an annual self-evaluation report on the implementation of the WSA to IE to the EDB at the end of each school year, which is validated through External School Review by the EDB. To

further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. To help schools make effective use of resources, we have stepped up efforts to monitor and remind schools to better utilise the LSG through various measures, including conducting regular school visits by professional staff of the EDB to advise schools on the deployment of resources for supporting students with SEN, organising experience sharing activities among schools, and issuing reminders to individual schools concerned for making improvement should undesirable situation be detected.

According to our observations and communication with schools, schools are in support of IE. With practical experience accumulated over the years, schools are basically implementing WSA to IE in providing appropriate support for students with SEN and successful cases have been seen in schools in respect of culture building, policy formulation and implementation.

(2) and (3)

Starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with SEN pitched at basic, advanced and thematic levels (BAT Courses). Taking into account the teacher training profiles as well as the types and number of students with SEN enrolled in ordinary schools, in the 2015/16 school year, we have further raised the training targets for each of the public sector ordinary schools to be achieved by the end of the 2019/20 school year as follows:

- (i) at least 15% to 25% of teachers will have completed the Basic Course;
- (ii) at least 6 to 9 teachers will have completed the Advanced Course; and
- (iii) at least 6 to 9 teachers will have completed the Thematic Courses (with at least 1 teacher completing the course(s) under each category as far as possible).

As the training cycle is coming to an end in the 2019/20 school year, we have conducted a review on the experiences gained by the tertiary institutions which were commissioned to organise the teacher training courses on special education and collected views from stakeholders regarding teacher training in special education, including course content, operation mode, training hours and training targets of BAT Courses. We are also working on the arrangements for the next training cycle, including considering the provision of more diversified and effective training modes, such as designing online training courses. Besides, to prevent the spreading of COVID-19, all kinds of teacher training courses for the 2019/20 school year have to be postponed or terminated. As such, we expect to see a drop in the total number of teachers who have completed the BAT Courses in the current training cycle. We will review the impact of the pandemic on the training courses and adjust the arrangements for the next training cycle taking into account the actual needs.

Since the 2012/13 school year, we have also provided the Training Course for Special School Teachers on Education of Students with Severe or Multiple Disabilities (TCSST) specifically for special school teachers. With the LSG covering students with mental illness from the 2017/18 school year onwards, the EDB also provides teachers of primary and secondary schools with the “Professional Development Programme for Mental Health”, including elementary training for teachers at large and in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their

professional knowledge and skills to identify and support students with mental health needs.

As the education system and policies vary among different countries and regions, it is considered not appropriate to make direct comparison with them in respect of teacher training in supporting students with SEN.

(4) and (5)

As at the end of the 2018/19 school year, the percentage of teachers having received special education training in public sector ordinary primary and secondary schools is about 43% and 33% respectively. Under the promotion of the EDB, the percentage of secondary school teachers having received special education training is increasing. As for special schools, about 72% of the teachers have received special education training.

To support schools in arranging teachers to attend BAT Courses, the TCSST and “Professional Development Programme for Mental Health” in a systematic manner, regular teachers of government and aided primary, secondary and special schools are granted paid study leave for attending these courses, and schools are provided with grants for employing supply teachers accordingly. The EDB will inform ordinary schools of the latest training position of the school to facilitate their planning of teachers to attend the BAT Courses and school-based professional development programmes.

Moreover, the EDB also provides teachers with different theme-based training activities, including seminars, workshops and sharing sessions, to share good practices and update teachers on the current trend and approaches in catering for students with SEN.

To better equip prospective teachers with the knowledge and skills in catering for students with SEN, local teacher education universities have included modules related to special education or catering for students with SEN in their pre-service teacher training courses. The EDB has also incorporated topics on catering for student diversity and spearheading the implementation of IE in the Preparation for Principalship Course for Aspiring Principals and induction programme for newly appointed principals to strengthen their leadership skills in the implementation of WSA to IE.

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the details of the complaints received by the Education Bureau from parents of students with special educational needs against primary and secondary schools in the past 5 years.

	Secondary school	Primary school	Others
Total no. of complaints			
No. of schools being complained against			
No. of completed cases			
No. of pending cases			
Average time required for waiting			
Average time required for processing			

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 501)

Reply:

The number of complaints received by the Education Bureau (EDB) from parents of students with special educational needs from the 2015/16 to 2019/20 school years and their position are set out in the table below:

School year	No. of complaints			No. of schools being complained against			No. of completed cases		
	Secondary school	Primary school	Others (Special school)	Secondary school	Primary school	Others (Special school)	Secondary school	Primary school	Others (Special school)
2015/16	0	6	4	0	6	3 (Note)	0	6	4
2016/17	1	6	9	1	5 (Note)	6 (Note)	1	6	9
2017/18	2	4	7	2	3 (Note)	7	2	4	7
2018/19	2	1	4	2	1	4	2	1	1
2019/20 (as at 29 February 2020)	0	1	2	0	1	2	0	0	0

Note: Some schools are involved in more than 1 case.

The EDB will handle complaints immediately once received. Thus, we have no statistics on the number of cases waiting to be processed or the average waiting time before a case is processed. The time spent on handling each complaint case depends on its nature and complexity. In general, it takes about 2 to 3 months to handle a complaint case and a longer time for complicated cases.

CONTROLLING OFFICER'S REPLY**EDB373****(Question Serial No. 5872)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please advise this Committee of:

- (1) the common types and figures of complaints against schools that the Education Bureau (EDB) received from parents of students with special educational needs in the past 5 years:

	Common types of complaints					
	Type 1		Type 2		Type 3	
	Complaint item	No. of complaints	Complaint item	No. of complaints	Complaint item	No. of complaints
Kindergarten						
Primary school						
Secondary school (Secondary 1 to Secondary 3)						
Secondary school (Secondary 4 to Secondary 6)						
University						
Total						

- (2) the strategies that the Government has adopted to handle the complaints lodged by parents of students with special educational needs.

Reply:

(1) The common types of complaints against schools that the Education Bureau (EDB) received from parents of students with special educational needs (SEN) from the 2015/16 to 2019/20 school years are tabulated as follows:

	Common Types of Complaints		
	Type 1	Type 2	Type 3
	Complaint item	Complaint item	Complaint item
Kindergarten	Discrimination	-	-
Primary school	Student support	Learning support, school maladministration	Poor staff performance
Secondary school	Student support	School maladministration, discrimination	-
Special school	School maladministration	Student safety	Poor staff performance

Notes:

- (i) Since complaints may cover extensively and have different focuses, and a single complaint very often involves more than one issue, the above is merely a crude categorisation. Related complaints appearing more than once are put under the same type. Hence, the specific number of each type of complaints is not available.
- (ii) During the above period, the EDB did not receive any complaints from parents of university students with SEN.

(2) Fostering a culture of good communication and establishing a well-defined complaint handling system are essential elements of good governance and quality services. All along, the EDB encourages schools to strengthen communication and cooperation with parents for mutual understanding of their respective roles and responsibilities in the implementation of integrated education. The EDB requires schools to establish a regular communication mechanism to let parents understand the SEN of their children, participate in the formulation of support plans, review learning progress, adjust support measures, etc.

The EDB launched the Pilot Project on Enhancement of Complaint Management in Schools (Pilot Project) between the 2012/13 and 2014/15 school years to assist schools in establishing or enhancing their school-based complaint handling mechanisms and procedures. In view of the positive evaluation results of the Pilot Project, the Enhanced School Complaint Management Arrangements (Enhanced Arrangements) were fully implemented in all public sector and Direct Subsidy Scheme schools with effect from 1 September 2017.

Under the Enhanced Arrangements, schools should formulate their school-based mechanisms and procedures for handling complaints (including complaints related to students with SEN) and work out direct solutions through discussions with parents accordingly. If the school and the complainant cannot arrive at a mutual agreement for a complaint involving disability discrimination, they may submit the case to the respective Regional Education Office of the EDB for arranging a mediation meeting at which both

parties will come together to negotiate a settlement. If the issue cannot be resolved through the aforementioned procedures, the EDB will set up a Case Study Group (the Group) to solicit views from outsiders. Members of the Group are appointed by the EDB. Except for the chairperson, all members are non-EDB members, including parents, representatives from the education sector and other professionals, such as representatives from the medical and legal sectors and the field of social work, as well as educational psychologists. The Group will review the case in an objective, impartial and fair manner, and put forward settlement proposals to the EDB.

Besides, the EDB will continue to organise suitable courses, seminars and workshops for teachers to enhance their professional capacity in supporting students with SEN and share practices in strengthening cooperation with parents. The EDB will also continue to arrange professional training and networking activities for Special Educational Needs Coordinators (SENCOs) to enhance their professional capacity for more effective fulfilment of their leadership role in strategically promoting the Whole School Approach to integrated education, including enhancing home-school cooperation, so that teachers can form close partnership with parents in supporting students with SEN.

The above basic principles (including the formulation of school-based mechanisms and procedures and discussion with the parents on this basis to settle the issues direct) are also applicable to kindergartens. If the school and the complainant cannot reach a consensus, the EDB will intervene and provide support as appropriate. In areas of school administration that are likely to cause misunderstanding (e.g. student admission), the EDB will also invite the Equal Opportunities Commission to explain to the school personnel the points to note under the anti-discrimination ordinances so as to enhance their awareness in this aspect.

CONTROLLING OFFICER'S REPLY

EDB374

(Question Serial No. 5873)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following:

- (1) Please give a breakdown of the number of hours of special education training in the pre-service teacher training programmes currently offered by tertiary institutions; and
- (2) As special education covers a number of different areas, will the Administration consider resuming the previous two-year special education training for teachers?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 503)

Reply:

The Government and the University Grants Committee (UGC) do not collect information on the number of hours of special education training in pre-service teacher training programmes offered by the teacher education universities. That said, it is understood that modules related to special education or catering for students with special educational needs (SEN) are included in the pre-service teacher training courses of the local teacher education universities with a view to better equipping prospective teachers to understand the principles of special education and acquire the knowledge and skills in catering for students with SEN.

Besides, at present, the Education University of Hong Kong (EdUHK) offers a UGC-funded part-time top-up Bachelor of Education (Honours) (Special Needs) programme for in-service teachers. Starting from the 2016/17 academic year, EdUHK has also offered a UGC-funded part-time top-up Bachelor of Education (Honours) (Early Childhood Education) in Leadership and Special Needs programme. Moreover, both EdUHK and the University of Hong Kong offer UGC-funded Postgraduate Diploma in Education programmes, in which Special Education can be chosen as a major.

To enhance the professional capacity of teachers in supporting students with SEN, the Education Bureau (EDB) has been providing teachers with training courses pitched at the basic, advanced and thematic levels (BAT Courses) on catering for students with SEN since the 2007/08 school year. Starting from the 2012/13 school year, we have been organising the Training Course for Special School Teachers specifically for serving special school teachers. Starting from the 2017/18 school year, the EDB also provides “Professional Development Programme for Mental Health” for teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. Besides, the EDB has all along been organising various kinds of thematic training activities, including talks, workshops and sharing sessions, to keep teachers abreast of the latest development in special education and integrated education and to share among their peers about the good practices in catering for students with SEN. In short, schools may arrange teachers to attend different training courses having regard to the needs of the school and their teachers. Teachers may also choose to attend other relevant in-service training courses offered by local teacher education institutions according to their training needs. As such, the EDB does not have plans to resume the previous two-year special education training for teachers.

CONTROLLING OFFICER'S REPLY**EDB375****(Question Serial No. 5874)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the number of Secondary 3 school leavers with special educational needs, and their percentage share of the total number of Secondary 3 school leavers in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 504)

Reply:

According to the information of the Education Bureau (EDB), the number of students with special educational needs (SEN) reported to have left school after completing Secondary 3 (S3) from the 2014/15 to 2018/19 school years is tabulated below:

School year	2014/15	2015/16	2016/17	2017/18	2018/19
Number of S3 school leavers with SEN	320	320	420	420	520

Note: Figures are rounded to the nearest 10.

With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students identified with SEN has increased. With the increase in the base number, the number of S3 school leavers with SEN has also risen in recent years. According to the information provided by schools, these students left school mainly to continue their studies or receive training in other schools/ institutions, including private schools, attending full-time or part-time courses run by the Vocational Training Council, apprenticeship schemes or pre-employment vocational training, overseas institutes, etc.

Under the existing mechanism, schools must report all cases of school leavers to the EDB. As students leave school for different reasons and some students would resume schooling later, we do not compile statistics on the total number of S3 school leavers each school year and hence the percentage share of S3 school leavers with SEN cannot be provided.

Question:

Please inform this Committee of the situation in respect of registered teachers who committed acts of misconduct, including the types of misconduct involved, the number of teachers penalised for their misconduct, and the number of teachers who had their registration cancelled in the past 10 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 505)

Reply:

The Education Bureau (EDB) attaches great importance to teachers' professional conduct. If any teacher is found to have committed a serious offence or an act of serious misconduct, based on the information in hand, a review on the professional conduct of the teacher concerned will be conducted and follow-up actions will be taken accordingly. For cases of a serious nature, the teacher's registration may be cancelled. To answer the Member's question in a timely and proper manner, we now provide the relevant information for the past 5 years. From 2015 to 2019, 30 teachers had their registration cancelled or application refused by the EDB. Teachers in these cases were mainly involved in having committed a sexual or sex-related offence, a fraud-related offence or some minor but repeated offences (e.g. operating an unregistered school), or having serious integrity problem (e.g. cheating in the Territory-wide System Assessment), etc.

Question:

Please list the monthly salaries, allowances and other expenses of the Secretary for Education in the past 5 years, as well as the amount of his monthly pension and the total amount of his pension after retirement.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 1311)

Reply:

The monthly salary in respect of the position of Secretary for Education (SED) was \$298,115 from April 2015 to June 2017, \$333,900 from July 2017 to June 2018, \$340,250 from July 2018 to June 2019, and is \$348,100 with effect from July 2019. According to the remuneration package for politically appointed officials (PAOs) serving in the HKSAR Government, SED and all other PAOs are not entitled to any pension benefits other than the Mandatory Provident Fund contribution by the Government.

CONTROLLING OFFICER'S REPLY**EDB378****(Question Serial No. 6628)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Does the estimated provision of \$69,808.4 million for the Education Bureau (EDB) in 2020/21 contain any portion for expenditure on gender education? If yes, please provide the relevant breakdown of expenditure and estimates. If no, please provide, in a table covering the past 5 years, the number of “inspections and school visits” that the EDB conducted to learn about “the implementation of values education (including sex education) in schools” and “good practices” that the EDB collected “for dissemination and sharing”, and in particular, “good practices” about sex education.

Year	No. of inspections	No. of school visits	No. of instances where good practices were disseminated and shared in schools	No. of good practices about sex education
2015				
2016				
2017				
2018				
2019				

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 2001)Reply:

As part of values education, sex education with its related learning elements, such as personal development, hygiene, puberty, making friends, dating, marriage, protecting the body, gender equality and preventing discrimination, is included in the curricula of Key Learning Areas, relevant subjects and moral and civic education of primary and secondary schools. Through such subjects as Life and Society at the junior secondary level and Liberal Studies at the senior secondary level, schools can discuss sex-related topics with students from the perspective of values education, including prevention of discrimination; different attitudes and notions of sex, love and marriage; heterosexual and homosexual

relationships; and ethical issues in the homosexuality debate. Moreover, among the 7 priority values and attitudes embedded in the school curricula, “Respect for Others”, “Responsibility” and “Care for Others” lay emphasis on the need for students to develop an attitude of respecting and tolerating others and being responsible. This enables students to be tolerant and respect others’ sexual values and orientations, and learn about their responsibilities relating to sex when reflecting on their own sexual values, understanding different sexual orientations and exploring contentious sexual topics.

To support the implementation of values education (including sex education) in schools, the EDB has been organising professional development programmes on a range of themes, such as “How to Promote Sex Education Effectively in Primary/Secondary Schools”, “From Internet Culture to Gender Equality” and “Preventing Sexually Transmitted Diseases and AIDS”, for both principals and teachers. In addition, the EDB has been providing schools with various learning and teaching (L&T) resources, including lesson plans, student worksheets, short videos and animations on different topics, such as “diversity and inclusiveness” and “mistaken beliefs in gender stereotypes”, with a view to helping teachers deepen students’ understanding of related topics and nurture in them moral values as well as proper attitude and behaviour through arranging learning activities such as discussion, sharing and reflection. The EDB also provides various subsidies and grants, including the Operating Expenses Block Grant/Expanded Operating Expenses Block Grant and Life-wide Learning Grant, to schools for their flexible deployment to implement their school-based curriculum and conduct learning activities that promote values education (including sex education). Since the relevant expenditure and manpower resources incurred in curriculum development, developing L&T resources and organising professional development programmes are subsumed under the recurrent expenditure of the EDB, no breakdown of figures is available.

The EDB has been promoting whole-school curriculum planning in schools to provide a curriculum with equal emphasis on knowledge, skills, values and attitudes to foster students’ whole-person development, which includes values education (including sex education). We learn about the curriculum implementation as well as learning and teaching in schools through different channels such as inspections, school visits and focus group meetings. Values education is not an independent subject, but is embedded in the classroom learning of different subjects and other related learning activities (such as voluntary services, exchange activities and field trips). During the school visits, the EDB officers would learn about the teaching situation in schools as a whole but would not exchange views with schools solely on values education/sex education. Therefore, statistics on the number of inspections or schools visits for values education/sex education are not available. During the discussions or meetings with teachers, EDB officers would share good practices and experiences of other schools with them for their reference in light of the contexts and developmental needs of individual schools. However, from the perspective of actual operation, it is difficult to quantify the good practices and experiences collected or disseminated during our discussions with schools, and to keep a detailed record of the number of such instances. Hence, we do not have either the relevant statistics on the number of instances where good practices were disseminated and shared or the number of good practices.

CONTROLLING OFFICER'S REPLY**EDB379****(Question Serial No. 6632)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please list out the Chinese language teaching and learning materials targeting non-Chinese speaking (NCS) students, developed by different developers (e.g. institutions, organizations) commissioned by the Education Bureau, from 2014/15 to 2019/20 school years:

Title of teaching materials	Target subject and content	Funding source	Funding Amount (\$)	Principal developer/ research institute (including name of its affiliates)	Beneficiaries (for whom the materials are made)	Level according to the Learning Framework	No. of schools received this material	Is it accessible online (If yes, please provide the link)

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 2016)Reply:

The Education Bureau (EDB) has been developing learning materials and teaching reference materials (including series on teaching with picture books, series on teaching of writing, teaching packages on Chinese festivals, etc.) jointly with experts in language and curriculum and school teachers. These teaching materials cover primary and secondary Chinese Language curricula and different levels (i.e. levels 1 to 8) under the “Chinese Language Curriculum Second Language Learning Framework” and have been uploaded to the EDB website by phases for teachers’ reference and adoption. As the relevant manpower resources and expenditures are subsumed under the overall expenditure of the EDB, a separate breakdown of the related expenditure is not available. Besides, the EDB has been providing funding support to schools, tertiary institutions and organisations through the Quality Education Fund, the Language Fund, etc. for developing learning and

teaching resources to cater for non-Chinese speaking students' learning needs. Details are as follows:-

Titles of teaching materials/ research	Target subject and content	Funding source	Principal developer/ research institute (including name of its affiliates)	Beneficiaries (for whom the materials are made)	Start date	Progress (planning/ in progress/ completed (with month and year of completion))	Arrangement and channel for distributing/ releasing the completed materials (if applicable) (Note)
Interactive Learning Chinese with News for NCS Students	To develop a mobile application with Chinese materials covering topics in current affairs, daily life, etc.	Language Fund	Open Knowledge Association Limited	i. NCS students at upper primary and junior secondary levels in Hong Kong ii. Practitioners who are teaching the Chinese language to NCS students in Hong Kong iii. NCS parents.	September 2016	Completed (November 2017)	2, 4
Chinese Cultural Readings for Non-Chinese Speaking Students: Historical Personages	To compile a Chinese cultural reader for non-Chinese speakers who endeavour to enhance their Chinese proficiency. The reader could be used for classroom teaching as well as after-class leisure reading.	Language Fund	The Education University of Hong Kong	NCS students currently studying at upper primary and junior secondary levels in Hong Kong	September 2016	Completed (September 2017)	1, 3
Construction of an Interlanguage Corpus for Non-Chinese Speaking Students in Hong Kong	To develop an interlanguage corpus for non-Chinese speaking students learning Chinese in Hong Kong	Language Fund	Department of Chinese and Bilingual Studies, The Hong Kong Polytechnic University	Academic personnel studying the teaching of Chinese as a foreign language, frontline teachers, compilers of dictionary, teaching material writers and NCS students learning the Chinese language	November 2016	In progress	Not applicable
Chinese Self-learning App for NCS Students	To develop a self-learning and parent-child co-learning app for NCS students to learn Chinese	Language Fund	Open Knowledge Association Limited	Primary 1 to Secondary 1 NCS students	September 2019	In progress	Not applicable
“Chinese Cultural Readings for Non-Chinese Speaking Students: Historical Personages” Digitization and Interactive Learning Programme	To produce an e-version of the Chinese Cultural Readings for non-Chinese Speaking Students: Historical Personages with enhanced contents	Language Fund	Open Knowledge Association Limited	NCS students at junior and senior secondary levels	September 2019	In progress	Not applicable
DIY-Learn Chinese with Fun	To promote “300 commonly-used Chinese characters” using comic books, flash cards, electronic games and mobile apps	Language Fund	School of Continuing and Professional Education, City University of Hong Kong	NCS students in primary and secondary schools	September 2019	In progress	Not applicable

Titles of teaching materials/ research	Target subject and content	Funding source	Principal developer/ research institute (including name of its affiliates)	Beneficiaries (for whom the materials are made)	Start date	Progress (planning/ in progress/ completed (with month and year of completion))	Arrangement and channel for distributing/ releasing the completed materials (if applicable) (Note)
A Self-learning Open Platform of Chinese for Non-Chinese Speaking Learners	To build an open online learning platform for non-Chinese speakers to self-learn Chinese	Language Fund	The Education University of Hong Kong	Any non-Chinese speakers interested in learning Chinese (including Cantonese)	September 2019	In progress	Not applicable
Project 'ME' (Minorities Empowered)	Primary school students (teaching materials and lesson plans)	Quality Education Fund	The Society of Rehabilitation and Crime Prevention Hong Kong	Primary school students	September 2014	Completed (July 2016)	3
Integration and Unity: A mutual development course for non-Chinese and Chinese students	Secondary school students (teaching materials for inclusive lessons)	Quality Education Fund	Delia Memorial School (Glee Path)	Secondary school students	October 2014	Completed (August 2017)	2
Pilot Scheme for enhancing Chinese learning for the minority groups in Hong Kong	Primary school students (learning and teaching resources)	Quality Education Fund	The Graduate Association of Colleges of Education Limited	Primary school students	December 2014	Completed (November 2015)	2, 3
Construction of School-based E-curriculum of Chinese as a Second Language for Enhancement of Teaching and Learning Effects for Non-Chinese Speaking Students (Built-on Project)	Secondary school students (school-based e-curriculum and related resources)	Quality Education Fund	Delia Memorial School (Broadway)	Secondary school students	January 2015	Completed (December 2015)	1
Catering Learning Diversity – Develop school based curriculum and different level worksheet	Secondary school students (learning and teaching resources in Mathematics, including lesson plans and worksheets)	Quality Education Fund	The Hong Kong Taoist Association The Yuen Yuen Institute No.3 Secondary School	Secondary school students	March 2015	Completed (September 2016)	2
Effective Learning	Primary school students (e-learning platform and teaching resource packages)	Quality Education Fund	Lok Sin Tong Leung Wong Wai Fong Memorial School	Primary school students	April 2015	Completed (September 2016)	Not applicable (the deliverable is a school-based e-learning platform)
Fun with Chinese: Enhancing language development for South Asian ethnic minorities	Kindergarten pupils (learning and teaching resources, bilingual story books and a glossary)	Quality Education Fund	Guideposts Kindergarten 2nd Branch (Kin Sang Estate)	Kindergarten pupils	May 2015	Completed (June 2016)	1
Learning Chinese through Drama for Non-Chinese-Speaking Students	Secondary school students (learning and teaching resources)	Quality Education Fund	CCC Kwei Wah Shan College	Secondary school students	June 2015	Completed (August 2016)	Public performance

Titles of teaching materials/ research	Target subject and content	Funding source	Principal developer/ research institute (including name of its affiliates)	Beneficiaries (for whom the materials are made)	Start date	Progress (planning/ in progress/ completed (with month and year of completion))	Arrangement and channel for distributing/ releasing the completed materials (if applicable) (Note)
“Learning from Doing” - Building Up Non-Chinese Children’s Communication and Thinking Abilities in Cantonese	Kindergarten pupils (teaching materials)	Quality Education Fund	TWGHS Ng Sheung Lan Memorial Nursery School	Kindergarten pupils	June 2015	Completed (May 2016)	3
Materials and teaching designs for supporting Chinese learning for non-Chinese speaking students: “mChinese” Smartphone vocabulary e-flash cards	Secondary school students (smartphone vocabulary e-flash cards)	Quality Education Fund	Centre for Advancement of Chinese Language Education and Research, Faculty of Education, The University of Hong Kong	Secondary school students	June 2015	Completed (May 2017)	1
Campus TV	Primary school students (learning and teaching resources)	Quality Education Fund	Sir Ellis Kadoorie (Sookunpo) Primary School	Primary school students	July 2015	Completed (June 2016)	1
Virtual Campus TV	Secondary school students (learning and teaching resources)	Quality Education Fund	Islamic Kasim Tuet Memorial College	Secondary school students	August 2015	Completed (July 2016)	Not applicable (programmes were broadcast on campus TV)
Through home-school cooperation helping non-Chinese speaking children integrate into campus life and learning	Kindergarten pupils (learning and teaching resources)	Quality Education Fund	Hong Kong Young Women's Christian Association Athena Kindergarten	Kindergarten pupils	September 2015	Completed (December 2016)	1, 2
Making integration through Art	Primary school students (learning and teaching resources on arts and culture)	Quality Education Fund	Tsing Yi Trade Association Primary School	Primary school students	October 2015	Completed (July 2016)	2, 3
“Divergent Blue Planet” South-Asian Moral & Civic Education Teaching Kit (Activity Version)	Primary school students (bilingual learning and teaching resource packages)	Quality Education Fund	TWGHs Jockey Club Tai Kok Tsui Integrated Services Centre	Primary school students	October 2015	Completed (January 2017)	2, 3
E-learning project for NCS students to improve listening and speaking skills	Primary school students (school-based electronic learning and teaching resources and e-learning platform)	Quality Education Fund	Man Kiu Association Primary School	Primary school students	December 2015	Completed (November 2016)	Not applicable (the deliverable is a school-based e-learning platform)

Titles of teaching materials/ research	Target subject and content	Funding source	Principal developer/ research institute (including name of its affiliates)	Beneficiaries (for whom the materials are made)	Start date	Progress (planning/ in progress/ completed (with month and year of completion))	Arrangement and channel for distributing/ releasing the completed materials (if applicable) (Note)
Construction of School-based E-curriculum of Chinese as a Second Language for Enhancement of Teaching and Learning Effects for Non-Chinese Speaking Students (Built-on Project)	Secondary school students (school-based e-curriculum of Chinese Language)	Quality Education Fund	Delia Memorial School (Broadway)	Secondary school students	February 2016	Completed (January 2017)	1
NCS students' interdisciplinary Chinese drama class	Primary school students (drama class materials)	Quality Education Fund	Man Kiu Association Primary School	Primary school students	April 2016	Completed (July 2017)	2
Po Kok Primary School TV Campus	Primary school students (learning and teaching resources)	Quality Education Fund	Po Kok Primary School	Primary school students	May 2015	Completed (April 2016)	1
Transition from Kindergarten to Primary 1 Chinese Learning Scheme	Primary school students (learning and teaching resource packages)	Quality Education Fund	Tung Tak School	Primary school students	May 2016	Completed (April 2017)	Not applicable (the deliverable is a school-based e-learning platform)
An integrated Chinese-learning programme for Junior South Asian students in HK	Primary school students (a school-based Chinese reading training package and an e-learning platform)	Quality Education Fund	Department of Chinese and Bilingual Studies, The Hong Kong Polytechnic University	Primary school students	June 2016	Completed (September 2018)	1, 2, 3
Facilitating transition to primary schools of NCS students: Coping with challenges of foreign language anxiety in learning Chinese, social integration and social participation	Primary school students (learning and teaching resource packages)	Quality Education Fund	Department of Rehabilitation Sciences, The Hong Kong Polytechnic University	Primary school students	September 2016	Completed (November 2018)	2, 3
"Divergent Blue Planet" South-Asian Moral & Civic Education Teaching Kit (Activity Version)-Continue	Primary school students (bilingual learning and teaching resource packages)	Quality Education Fund	TWGHs Jockey Club Tai Kok Tsui Integrated Services Centre	Primary school students	February 2017	Completed (March 2018)	2, 3
Multiple intelligence development - Coding and Robot Curriculum	Primary school students (learning and teaching resources on coding and robotics programmes)	Quality Education Fund	Man Kiu Association Primary School	Primary school students	June 2017	Completed (February 2019)	Not applicable (the deliverable is under preparation)

Titles of teaching materials/ research	Target subject and content	Funding source	Principal developer/ research institute (including name of its affiliates)	Beneficiaries (for whom the materials are made)	Start date	Progress (planning/ in progress/ completed (with month and year of completion))	Arrangement and channel for distributing/ releasing the completed materials (if applicable) (Note)
Quality Education Fund Thematic Network on Utilising “Chinese Language Learning Progression Framework for Non-Chinese Speaking Children in Kindergartens in Hong Kong” for Effective Chinese Learning	Kindergarten teachers (Classroom Teaching Handbook on the Framework)	Quality Education Fund	Centre for Advancement of Chinese Language Education and Research, Faculty of Education, The University of Hong Kong	Kindergarten teachers	September 2017	In progress	Not applicable
One Student One Service Scheme	Secondary school students (learning and teaching resources on service learning and interdisciplinary project-based learning)	Quality Education Fund	Salesians of Don Bosco Ng Siu Mui Secondary School	Secondary school students	June 2018	Completed (October 2019)	1
Poetry Plus - interdisciplinary poem education plan	Secondary school students (learning and teaching resources on interdisciplinary studies of poetry)	Quality Education Fund	King George V School	Secondary school students	January 2019	Completed (January 2020)	Exhibition

Notes:

- 1 - By uploading the materials to the website of the EDB or organisation(s) concerned
- 2 - Through briefing sessions and teacher training programmes
- 3 - By direct distribution to schools and organisation(s) concerned

CONTROLLING OFFICER'S REPLY**EDB380****(Question Serial No. 6633)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the admission of non-Chinese speaking (NCS) students under Free Quality Kindergarten Education Scheme and additional funding support for NCS students, will the government inform the council:

(a) The numbers of kindergartens (KGs) under the Free Quality Kindergarten Education Scheme that received admission application(s) or conducted interview(s) for NCS children or admitted NCS student(s) in the 2018/19 school year by district:

District	Total number of kindergartens	Number of kindergarten(s) that received admission application(s) from NCS children	Number of kindergarten(s) that conducted interview(s) for NCS children	Number of kindergarten(s) that admitted NCS students

(b) To ensure KGs comply with the KG admission guidelines, collection of admission related information by the Education Bureau (EDB) such as the number of ethnic minority applicants, bilingual information on admission application, language used during interviews, and provision of interpretation service is necessary. Has the EDB collected respective information? If yes, please provide the numbers of KGs that have taken the above measures in the recent 2 years. If not, why not and how does the EDB monitor whether the KGs have complied with the admission guidelines?

(c) What information is collected in the annual survey on admission?

(d) The number of enquiries regarding admission of NCS children received each month by respective regional offices. If the above data is not provided, how does the EDB evaluate the work of regional offices for ethnic minority stakeholder?

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 2017)

Reply:

(a) and (b)

We have, through circulars, admission guidelines and briefing sessions, reminded all kindergartens (KGs) that their school-based admission policy should be fair, just and open, and that both non-Chinese speaking (NCS) and local students should have equal opportunities for admission to KGs. As student admission is a school-based matter, KGs are not required to provide the Education Bureau (EDB) with the number of admission applications received, information on admission application, applicants' backgrounds (such as the spoken language at home), the number of applicants interviewed, language used during interviews, interpretation service, the number of students admitted and their backgrounds, etc. Hence we are unable to provide the required information. We have specified in the terms for joining the KG education scheme (Scheme) that KGs under the Scheme should comply with the guidelines and standing directives on admission arrangements as specified by the EDB from time to time. We monitor KGs' compliance with the guidelines and directives through the annual survey on admission arrangement of K1 classes, school visits and examination of relevant information. For the 2018/19 school year, the numbers of KGs joining the Scheme and the numbers of those KGs with NCS students, by District Council district, are tabulated at Appendix 1.

(c)

Every year, the EDB conducts survey on admission arrangements for Nursery (K1) classes in KGs to ensure KGs' compliance with the relevant guidelines and directives on admission procedures. We examine whether KGs have complied with the requirements of not setting any quota on the distribution and collection of admission application forms and have collected application and registration fees according to the approved ceilings. We also ascertain if KGs have put in place a clear school-based admission mechanism (including admission procedures, admission criteria, and the number of applicants to be interviewed) and whether they have informed parents in advance of the details of their school-based admission mechanism through effective channels (e.g. guidance notes in admission application forms, admission guidelines/leaflets and school webpage). To ensure that parents of NCS children are provided with sufficient information, we also examine if admission application forms and school information are available in both Chinese and English, and if icons or simple messages in English are provided on school webpage to let parents know how to obtain the English version of the information.

(d)

The Regional Education Offices (REOs) of the EDB provide comprehensive and integrated services to schools and the public at district level, which include handling enquiries, applications and complaints (including matters related to KG admission of NCS children) made via different channels (e.g. by letter, email or telephone or in person) by various

stakeholders, including school personnel, parents, students and members of the public. In general, the REOs are able to provide the information and assistance requested by the enquirers. The EDB has not compiled statistics on the number of cases/enquiries concerned.

Numbers of KGs joining the KG education scheme (Scheme) and admitting NCS students in the 2018/19 school year

District	Number of KGs joining the Scheme	Number of KGs joining the Scheme and admitting NCS students

Procuring professional services				
Organizing cross-cultural activities				
Others				

(f) how does the EDB evaluate the effectiveness and the accountability of the NCS support funding.

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 2018)

Reply:

(a)

For the 2019/20 school year, the numbers of kindergartens (KGs) joining the kindergarten education scheme (Scheme-KGs) and admitting non-Chinese speaking (NCS) students, and the numbers of KGs receiving the additional grant for supporting NCS students and their percentage shares by number of NCS students are tabulated at Appendix 1.

(b)

Starting from the 2017/18 school year, Scheme-KGs admitting 8 or more NCS students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. The numbers of KGs receiving the additional grant and their percentage shares in the 2018/19 school year by District Council district are tabulated at Appendix 2.

The Education Bureau (EDB) has, starting from the 2019/20 school year, provided a five-tiered grant for Scheme-KGs according to the number of NCS students admitted. A KG admitting 1 NCS student also receives the grant, and the grant rate for the highest tier is a double of that in the past. The numbers of KGs receiving the grant and their percentage shares in the 2019/20 school year by District Council district and by number of NCS students are tabulated at Appendix 3.

(c)

Scheme-KGs are encouraged to optimise the use of the grant to cater for the needs of students. They may also need to retain some surplus to meet contingencies and adjust strategies on manpower deployment and support for students where necessary. Hence, Scheme-KGs are allowed to accumulate a surplus up to the current year provision of the grant. Should there be any excessive surplus, the EDB will claw back the surplus of the grant based on the annual audited accounts. Since schools are still submitting their accounts for the 2018/19 school year and the 2019/20 school year has not yet come to a close, we are unable to provide the relevant information for these two years.

(d)

Scheme-KGs admitting eligible NCS students for their nursery (K1), lower (K2) and upper (K3) classes adopting the local curriculum are eligible for the grant for supporting NCS students. Application for the grant is not required. The grant rate is calculated by the EDB based on the information of eligible NCS students submitted by KGs. KGs should report the estimated number of eligible NCS students in September of the new school year via the EDB's system in June every year. The EDB will, on the basis of the information collected, calculate the provisional grant rate for the first instalment and disburse the grant to KGs in the commencement month of the school year. Upon the start of the school year, the EDB will verify the number of eligible NCS students as at the specified date in mid-September and adjust the grant rate as appropriate. As regards the grant rate for the second instalment, the EDB will calculate the provisional grant rate according to the number of eligible NCS students in early March of the same school year as captured in the system, and disburse the grant in April of the same school year. The EDB will adjust the grant rate for the second instalment as appropriate according to the verified number of eligible NCS students as at the specified date in mid-April of the same school year.

(e)

According to the school reports submitted by the KGs provided with the additional resources in the 2018/19 school year, the general deployment of the grant is tabulated below. As for the 2019/20 school year, the KGs being provided with the grant for supporting NCS students will submit the school reports to the EDB by the end of August 2020, and we are thus unable to provide the related figures at this stage. To cope with NCS students' needs, progress and effectiveness in learning, KGs provide them with flexible and diversified school-based support in order to facilitate their learning and development. The school-based support for NCS students provided by the KGs is diverse, it even suits the specific needs of individual students, and part of which may benefit Chinese speaking students as well. As such, it is difficult to require KGs to record the information in details and on separate items. Given the flexible deployment of resources and manpower by KGs, the expenditure for the items in the table below cannot be separately identified.

	No. of KGs adopting this mode of support in the 2018/19 school year
Adaptations to curriculum and teaching strategies	135
Arranging teaching assistants to provide support in class	89
Arranging small group learning/individual teaching	143
Professional development	146
Purchasing learning and teaching resources	90
Procuring professional services	51
Organising cross-cultural activities	126

(f)

All KGs receiving the grant are required to draw up school-based support plans for NCS students and conduct self-evaluation at the end of a school year. The major purpose is to serve as internal indicators for school-based planning and review. Through school visits, the EDB will examine how the measures to support NCS students are taken forward and how the resources are deployed by KGs, and will offer advice when necessary. Moreover, through quality review (QR), the EDB conducts overall performance review of a KG and the assessment of its support for NCS students is incorporated under catering for students with diverse needs. The QR reports will be uploaded onto the EDB website for public information.

**Numbers of Scheme-KGs
receiving the additional grant for supporting NCS students
in the 2019/20 school year
(by number of NCS students)**

Number of NCS students	Estimated expenditure (\$ million)	Number of KGs receiving the additional grant	Percentage of KGs receiving the additional grant among the total no. of KGs admitting NCS students
1-4	10.7	213	100%
5-7	10.5	53	100%
8-15	33.4	84	100%
16-30	27.5	46	100%
31 or more	27.9	35	100%

Notes:

1. Figures refer to the position as at January 2020. As the grant is calculated by the EDB based on the student enrolment information of KGs, the number of KGs and expenditure involved may vary during the school year due to updating of enrolment information of NCS students by schools.
2. Scheme-KGs admitting eligible NCS students for local curriculum classes (including K1, K2 and K3 classes) are eligible for the grant for supporting NCS students. Application for the grant is not required.
3. Figures include K1, K2 and K3 classes of KG-cum-child care centres.
4. Figures include students whose ethnicity is Chinese but who are NCS based on the spoken language at home.

(Question Serial No. 6635)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

To ensure the effective use of the additional subsidy for kindergartens (KGs) with 8 and more non-Chinese speaking (NCS) students, the EDB would visit KGs that are granted the subsidy to understand how the support measures have worked, and make improvement and recommendations as necessary. Will the government please inform this council:

(a) The number of KGs applied for the designated subsidy to support NCS students. Among these application, the number of KGs which successfully received the grants in 2018/19 and 2019/20;

(b) The number of KGs the EDB visited in 2018/19 and 2019/20 school year regarding the support of NCS students;

(c) The number of staffs in the EDB responsible for the visits and their respective department/unit;

(d) The support measures adopted/practiced (including but not limited to support from the EDB and other NGOs) and the respective number of KGs for each support measure;

(e) The number of KGs with satisfactory monitoring and evaluation plan to assess effectiveness of measures;

(f) The number of KGs which required improvement on the support regarding the teaching and learning of NCS students;

(g) Whether the funding proposal and evaluation report is accessible to the public. If yes, where to find the information; if no, why and what other measures are there to ensure the accountability to the public.

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 2019)

Reply:

(a)

The kindergarten (KG) education scheme (Scheme) has been implemented starting from the 2017/18 school year. KGs joining the Scheme and admitting 8 or more non-Chinese speaking (NCS) students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. In the 2018/19 school year, 152 out of the 155 applying KGs were eligible for receiving the additional grant, while the applications of the remaining 3 KGs were rejected as they had admitted fewer than 8 NCS students.

To enhance the support for NCS students in KGs, the Education Bureau (EDB) has, starting from the 2019/20 school year, provided a five-tiered grant for KGs joining the Scheme according to the number of NCS students admitted and these KGs are not required to submit an application for the grant. As at January 2020, a total of 431 KGs have been provided with the grant. As the grant is calculated by the EDB based on the student enrolment information of KGs, the number of KGs involved may vary during the school year due to updating of the enrolment information of NCS students by schools.

(b) to (f)

In the 2018/19 school year, we visited 81 KGs in receipt of the grant. As the 2019/20 school year has not yet come to a close, we are unable to provide the related figures at this stage. The tasks pertinent to handling, supporting and overseeing KGs' support for NCS students are under the purview of the Kindergarten Education Division of the EDB. Since the manpower involved is subsumed under the overall manpower and expenditure of the EDB, no breakdown is available. On the whole, nearly all KGs in receipt of the grant had assigned a teacher or a senior teacher to co-ordinate school-based support measures. Moreover, most of the KGs were keen on joining relevant training and the school-based professional support services provided by the EDB or post-secondary institutions with a view to enhancing their support measures. Observations from school visits indicated that these KGs had adopted diversified strategies to enhance the support for NCS students having regard to their learning needs. For example, adaptations were made to curriculum and teaching strategies, teaching assistants were arranged to provide support in class, and small group learning or individual teaching was arranged on a need basis. Besides, we found that teachers who had completed relevant training courses shared what they learnt with their fellow colleagues and put the effective strategies into practice in class.

On deployment of resources, according to the school reports submitted by the KGs receiving the additional resources in the 2018/19 school year, 126 KGs had used the grant to employ additional teachers, while 74 KGs had appointed teaching assistants. The grant was also used for other purposes such as purchasing learning and teaching resources, procuring professional services and organising cross-cultural activities. As for the 2019/20 school year, the KGs receiving the grant for supporting NCS students will submit school reports to the EDB by the end of August 2020, and therefore we are unable to provide the related figures at this stage.

(g)

All KGs receiving the grant are required to draw up school-based support plans for NCS students and conduct self-evaluation at the end of a school year. The major purpose is to serve as internal reference for school-based planning and review. As for quality review (QR), we conduct overall performance review of a KG and the assessment of its support for NCS students is incorporated under catering for students with diverse needs. The QR reports will be uploaded onto the EDB website for public information. To facilitate the public's better understanding on how KGs support NCS students, starting from 2018, a new section on "Support to NCS students" has been added in the Profile of KGs to outline KGs' support measures for NCS students. All KGs receiving the grant have provided relevant information in the Profile. Starting from the 2019/20 school year, KGs are not required to submit an application for the additional grant. Therefore, there is no application for such funding.

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 2021)

Reply:

(a) to (d) The Regional Education Offices (REOs) of the Education Bureau (EDB) provide comprehensive and integrated services to schools and the public at the district level. Their major tasks include implementing at the district level the EDB's policies as well as the guidelines and administrative codes provided to schools and kindergartens by divisions under the EDB, and liaising with schools, kindergartens, teachers and parent groups to gather their views on education policies and measures and relay them to the divisions concerned. In addition, the REOs render support to schools in the event of crises or difficulties, and handle enquiries, applications and complaints made via different channels (e.g. by letter, email, telephone or in person) by various stakeholders, including school personnel, parents, students and members of the public.

The EDB has not compiled statistics on the services provided and the cases/enquiries handled by the REOs as mentioned in the question.

(e) The EDB is determined to provide training and development activities for staff, and encourage them to participate in training or sharing programmes organised by other institutions (such as universities) and enrol in relevant programmes that suit their developmental needs. Officers of different divisions/sections (including REOs) attend training to cater for their personal development and to meet operational needs. Besides, the experience they have gained in different posts, and the sharing and interaction among peers are conducive to professional development and the discharge of duties. The EDB has not collected relevant information on individual divisions, staff members or training programmes.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Classes have been suspended because of coronavirus outbreak. Please provide the following information for this period:

(1) The Education Bureau (EDB) has mentioned that some schools have kept their premises open so that students can stay there if they have such a need. How many kindergartens, primary and secondary schools have kept their premises open for students? How many students have used this service?

(2) As primary and secondary schools have been using the Internet for homework arrangements and online teaching, how does the EDB support families without computers?

Asked by: Hon CHU Hoi-dick (LegCo internal reference no.: 6026)

Reply:

(1) During class suspension, all kindergartens, primary, secondary and special schools have kept their premises open so as to take care of students who have to go back to school for lack of carer at home, handle school's basic and essential affairs and parents' enquiries. We have not kept statistics on students' return to school during class suspension.

(2) During class suspension, primary and secondary schools should optimise the use of different modes of learning, such as e-learning, to enable students to continue to systematically engage in a moderate amount of learning so as to achieve the goal of "suspending classes without suspending learning". As far as we understand, for students who are unable to undertake online learning due to the lack of the necessary equipment (such as computers), schools have been actively providing support, for example by lending them the necessary equipment for use. Homework assignments and worksheets are printed and mailed to students or collected by parents from schools according to their actual needs. In fact, "suspending classes without suspending learning" can be achieved through various means. In addition to studying the school curriculum, students may engage in extensive reading and take the opportunity to explore and learn more about the epidemic (for example,

public health, health education, life education, etc.), that can cater to their interest and needs.

We have been keeping in view and taking various measures to support grassroots students in e-learning. For example, the Student Finance Office and the Social Welfare Department have implemented the Subsidy Scheme for Internet Access Charges since the 2010/11 school year to provide eligible families with Internet access subsidies so as to facilitate needy students' online learning at home. Starting from the 2018/19 school year, the EDB also provides, through the Community Care Fund, subsidises for needy primary and secondary students for purchasing mobile computer devices to facilitate the practice of e-learning in public sector schools. To alleviate parents' burden in defraying these expenses, the Government will provide an additional \$1,000 to each recipient of the Student Grant in the 2019/20 school year, i.e. the Student Grant amount of this year will be increased from \$2,500 to \$3,500, through the newly established Anti-epidemic Fund. No separate applications by parents are necessary. Involving an additional expenditure of about \$900 million, this helps reduce parents' pressure arising from extra spending on purchase of learning materials or e-learning devices for their children. Moreover, to help needy students engage in e-learning at home, the Hong Kong Jockey Club Charity Trust has given 100 000 local primary and secondary school students free Internet access (via mobile data SIM cards) for 4 months with the help of 2 non-governmental organisations.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

On the support for students and training for teachers in respect of integrated education and for non-Chinese speaking (NCS) students, please provide the following information in the past 5 years (2015/16 to 2019/20 school years):

- (a) the annual number of primary and secondary school teachers who completed the Basic, Advanced and Thematic (BAT) courses and the details of expenditure by course type;
- (b) the number of primary and secondary schools which have not yet met the targets set in the five-year teacher professional development framework on integrated education;
- (c) since receiving NCS students in mainstream schools will become a norm, does the EDB have any plan to reference the 3-tier training model in integrated education to require a certain number and % of teachers in each school to receive certain training regarding the teaching and support to NCS students? If no, why?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 72)

Reply:

- (a)
To enhance the professional capacity of teachers in supporting students with special educational needs (SEN), the Education Bureau (EDB) has been providing serving teachers with structured training courses pitched at basic, advanced and thematic levels (BAT Courses) since the 2007/08 school year. The number of public sector ordinary school teachers having completed the BAT Courses from the 2015/16 to 2019/20 school years and the expenditure on BAT Courses are set out at Table 1 and Table 2 below respectively:

Table (1)

Course	2015/16		2016/17		2017/18		2018/19		2019/20 (Provisional) ^{Note}	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	221	364	259	444	283	406	314	395	305	445
Advanced	109	147	129	197	157	152	177	146	144	176
Thematic	201	250	204	248	217	270	209	265	233	272

Note: BAT Courses for the 2019/20 school year are not yet completed. Figures provided are the anticipated number of teachers who will complete the courses. To prevent the spreading of COVID-19, all kinds of teacher training courses have to be postponed or terminated. The above figures do not reflect the impact of the pandemic on the courses.

Table (2)

Course	Expenditure (\$ million)				
	2015/16	2016/17	2017/18	2018/19	2019/20 (Revised estimate)
Basic	8.3	10.4	10.3	11.0	11.4
Advanced	12.6	16.3	15.5	16.8	16.5
Thematic	24.2	25.3	27.9	28.1	30.1
Total	45.1	52.0	53.7	55.9	58.0

(b)

Teachers' professional development is an ongoing process. After the inception of BAT Courses in the 2007/08 school year, a review of the courses was conducted. The findings showed that the BAT Courses were effective in enhancing teachers' knowledge and skills in catering for students with SEN. In view of the positive feedback, we have launched another round of BAT Courses starting from the 2012/13 school year, with appropriate adjustment to the mode and content of the training programmes to better meet the training needs of the teachers. Starting from the 2014/15 school year, we have further strengthened the practicum of the Advanced and Thematic Courses with a view to providing more opportunities for teachers to apply the knowledge acquired. Taking into account the teacher training profiles as well as the types and number of students with SEN, in the 2015/16 school year, we further raised the training targets. Each public sector ordinary school has been required to arrange teachers to attend the BAT Courses in a systematic and orderly manner within the 5-school-year training cycle. The training targets to be achieved by the end of the 2019/20 school year are: (i) at least 15% to 25% of teachers will have completed the Basic Course; (ii) at least 6 to 9 teachers will have completed the Advanced Course; and (iii) at least 6 to 9 teachers will have completed the Thematic Courses (with at least 1 teacher completing the course(s) under each category as far as possible). Given that the training cycle is still in progress and schools will continuously arrange teachers to attend the BAT Courses, it is not meaningful to set out the number of schools that fail to achieve training targets.

Moreover, on top of the BAT Courses, the EDB arranges training activities for teachers each school year, which include thematic seminars, conferences, experience sharing sessions, workshops, etc. To better equip prospective teachers with the knowledge and skills in catering for students with SEN, local teacher education universities have also included modules related to special education or catering for students with SEN in their pre-service teacher training courses. As such, we consider that providing the number of teachers who have completed the BAT Courses could not fully reflect the position of teachers with special education training in every school, or may be misleading otherwise.

(c)

For teaching the Chinese Language and other subjects to non-Chinese speaking (NCS) students, different sections/units of the EDB provide training courses for teachers on an ongoing basis. The content of these courses covers understanding and interpreting the curriculum, teaching strategies, etc. We also continuously review and refine such provisions of training. Besides, the mode for teachers' professional development is diversified. In addition to training courses, the professional capacity of teachers can be enhanced through school-based professional support services and learning communities. Since the number of NCS students admitted to different schools and their Chinese proficiency vary substantially, training needs differ among schools and teachers. Apart from encouraging teachers to participate in various external training courses and activities organised for teachers, schools may provide more opportunities for internal exchange and experience sharing among their teachers, including collaborative lesson planning and collaborative teaching, to strengthen the teaching professional team.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council in tabular format, of:

- (a) The number of non-Chinese speaking (NCS) students who have participated in Primary One Admission (POA) System and the number of NCS students in K.3 in each of the school years from 2015/16 to 2019/20;
- (b) The number of NCS students who were admitted through the "Discretionary Places Admission" stage in POA in each of the school years from 2015/16 to 2019/20;
- (c) The percentage of students in (b) admitted by the eight primary schools in Appendix 3 of the "Application Form for Admission to Primary One";
- (d) The number of NCS students who were allocated primary one place at the "Central Allocation" stage in POA in each of the school years from 2015/16 to 2019/20;
- (e) The percentage of students in (d) admitted by the eight primary schools in Appendix 3 of the "Application Form for Admission to Primary One";
- (f) The number of NCS students who have participated in Secondary School Places Allocation System (SSPA) in each of the school years from 2015/16 to 2019/20 and their percentage among all NCS students in P.6 in those school years;
- (g) The number of NCS students who were admitted through the "Discretionary Places Admission" stage in SSPA in each of the school years from 2015/16 to 2019/20;
- (h) The number of NCS students who were allocated secondary one place at the "Central Allocation" stage in SSPA in each of the school years from 2015/16 to 2019/20;

- (i) The numbers of NCS students admitted into Primary 1 and Secondary 1 of Direct Subsidies Scheme (DSS) schools each of the years from 2015/16 to 2019/20 respectively and their respective percentages among all NCS Primary One students and all NCS Secondary One students in public schools in each of those school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 73)

Reply:

- (a) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of NCS children studying in kindergartens (including local and non-local kindergartens and kindergarten-cum-child care centres) at Kindergarten 3 level from the 2015/16 to 2019/20 school years is 3 075, 3 075, 3 218, 3 418 and 3 450 respectively. The number of NCS students participating in the Primary One Admission (POA) System from 2016 to 2019 (i.e. for admission to Primary 1 from the 2016/17 to 2019/20 school years) is 1 270, 1 370, 1 423 and 1 434 respectively. POA 2020 has not yet completed and the relevant figures are therefore not available.
- (b) and (c) The number of NCS students admitted through the “Discretionary Places Admission” stage of POA from 2016 to 2019 (i.e. for admission to Primary 1 from the 2016/17 to 2019/20 school years) is 763, 818, 816 and 878 respectively, among which 29.5%, 24.4%, 26.2% and 25.4% were admitted to the 8 schools listed in Appendix 3 of the POA Application Form in the respective school years. POA 2020 has not yet completed and the relevant figures are therefore not available.
- (d) and (e) The number of NCS students allocated a Primary 1 place at the “Central Allocation” stage of POA from 2016 to 2019 (i.e. for admission to Primary 1 from the 2016/17 to 2019/20 school years) is 507, 552, 607 and 556 respectively, among which 28.0%, 19.0%, 19.4% and 24.3% were allocated to the 8 schools listed in Appendix 3 of the POA Application Form in the respective school years. POA 2020 has not yet completed and the relevant figures are therefore not available.
- (f) The number of Primary 6 NCS students participating in the Secondary School Places Allocation (SSPA) System from 2016 to 2019 (i.e. for admission to Secondary 1 from the 2016/17 to 2019/20 school years) is 1 390, 1 458, 1 464 and 1 612 respectively. The corresponding percentage share among all Primary 6 NCS students in public sector schools, Direct Subsidy Scheme (DSS) schools, and private schools offering the local curriculum (excluding special schools, the English Schools Foundation schools, other international schools and Private Independent Schools) in the respective school years is 94.5%, 94.3%, 92.1% and 88.5%. SSPA 2020 has not yet completed and the relevant figures are therefore not available.

(g) and (h) The number of Primary 6 NCS students allocated a Secondary 1 place at the “Discretionary Places” stage of SSPA from 2016 to 2019 (i.e. for admission to Secondary 1 from the 2016/17 to 2019/20 school years) is 947, 920, 931 and 917 respectively. The number of Primary 6 NCS students allocated a Secondary 1 place at the “Central Allocation” stage is 443, 538, 533 and 695 respectively. SSPA 2020 has not yet completed and the relevant figures are therefore not available.

(i) The number of NCS students admitted to Primary 1 in DSS schools from the 2015/16 to 2019/20 school years is 192, 177, 161, 169 and 155 respectively. The corresponding percentage share among all Primary 1 NCS students in public sector schools (excluding special schools) and DSS schools in the respective school years is 12.1%, 11.2%, 9.9%, 10.0% and 9.0%.

As for Secondary 1, the number of NCS students admitted to DSS schools from the 2015/16 to 2019/20 school years is 767, 790, 806, 820 and 865 respectively. The corresponding percentage share among all Secondary 1 NCS students in public sector schools (excluding special schools) and DSS schools in the respective school years is 44.3%, 47.9%, 45.5%, 47.0% and 46.0%.

Question:

The Quality Education Fund (QEF) Steering Committee has set aside \$3 billion for a funding programme for application by schools to launch school-based curriculum development and student support measures, carrying out relevant school improvement works and procuring supplies. In this connection, please provide the following information for the 2018/19 to 2019/20 school years, with a breakdown by primary school, secondary school, kindergarten and special school:

- (1) What were the numbers of school applications and projects involved?
- (2) What were the percentages of schools and projects approved for funding? What were the respective funding amounts?
- (3) What were the types of projects applying for funding? Which projects were denied funding?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 74)

Reply:

To further support students' learning, enhance the quality of school education and promote quality school education, the Quality Education Fund (QEF) has, on a recommendation made by the Government in the 2018-19 Budget, set aside \$3 billion for the implementation of the Dedicated Funding Programme for Publicly-funded Schools (the Programme) for 4 school years starting from the 2018/19 school year. Schools may apply for funding to launch school-based curriculum development and/or student support measures.

Excluding the applications withdrawn by some of the schools, as at March 2020, 464, 422, 50 and 83 applications were made by secondary schools, primary schools, special schools and kindergartens respectively, totaling 1 019 applications. The applications are related to school-based curriculum development and/or student support measures. 193 secondary schools, 192 primary schools, 17 special schools and 50 kindergartens have been approved with 270, 262, 25 and 55 applications respectively, totaling 612 applications, with respective funding amount of about \$193 million, \$213 million, \$14 million and \$13 million. A small number of applications were rejected as they were not in line with the funding ambit of the Programme or the direction of education policies. As for the remaining applications that require further follow-up actions, the QEF will, upon receipt of relevant information from the schools, accord priority to the handling of such applications so that schools could obtain funding as soon as possible to take forward the project activities.

Question:

Will the government inform this Council of:

- (a) Details of funding (excluding that spent by schools under the implementation of the “Chinese Language Curriculum Second Language Learning Framework”) designated for the education of parents of non-Chinese speaking (NCS) students, including the amount of each batch of funding, the names of any non-governmental organizations receiving the funding, the period covered by each batch of funding, the target group of each batch of funding in each of the years from 2015/16 to 2019/20;
- (b) The number of education-related events, talks, sessions or forums for parents funded, commissioned or organized by the government in each of the years from 2015/16 to 2019/20, with number NCS parents attending each of the events with the following details:

name of the event	content	Period	organizer (institutions, NGOs or the department of EDB, please specify)	frequency/ no. of events	funding source	expenditure	main language for the event	total no. of participants	total no. of NCS parents participated	provision of interpretation service	mode of evaluation

- (c) The number of education-related events, talks, sessions or forums which are designated for parents of NCS students funded, commissioned or organized by the government in each of the years from 2015/16 to 2019/20, with number NCS parents attending each of the events with the following details:

name of the event	content	Period	organizer (institutions, NGOs or the department of EDB, please specify)	frequency/ no. of events	funding source	expenditure	main language for the event	total no. of participants	total no. of NCS parents participated	provision of interpretation service	mode of evaluation

- (d) The number of enquiries and complaints from NCS students and parents received by each Regional Education Office of the Education Bureau in each of the school years from 2015/16 to 2019/20 and the number of these complaints substantiated and the number of these complaints unsubstantiated in each of these years.
- (e) The number of enquiries and complaints from all students and parents on lack of school information received by each Regional Education Office of the Education Bureau in each of the schools years from 2015/16 to 2019/20 and the number of these complaints substantiated and the number of these complaints unsubstantiated in each of these years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 76)

Reply:

- (a) to (c) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. In tandem with the implementation of the "Learning Framework" and the creation of an inclusive learning environment in schools, schools also hope that parents of NCS students can understand the details of the education provided by schools for their children and actively participate in home-school co-operation activities. Therefore, schools will flexibly deploy the additional funding to organise briefings and seminars for parents of NCS students. As the above activities are not organised by EDB and EDB does not collect the related information, relevant statistics are not available.

From the 2015/16 to 2019/20 school years, the education-related programmes organised annually by EDB for parents were normally conducted in Cantonese and no interpretation services were provided. We do not collect information on the number of parents of NCS students participating in these programmes separately. Regarding the education-related programmes provided for parents

of NCS students, they cover different areas such as the kindergarten education scheme, admission arrangements for Nursery (K1) classes in kindergartens, admission to Primary 1 and Secondary 1 in public sector schools, and educational support and careers guidance for NCS students. Simultaneous interpretation services in major ethnic minority languages are provided during these events where necessary. Details of the relevant programmes are tabulated at Annex. Besides, tertiary institutions and/or non-governmental organisations are commissioned to organise diversified modes of education-related programmes including seminars, briefing sessions, workshops, etc. for parents of NCS students as appropriate. The objectives of these programmes are to help parents of NCS students and/or their children better understand our school system, major education policies and related support services, facilitate parents of NCS students to obtain the relevant information for making school choices, encourage these parents to enrol their children to schools with an immersed Chinese language environment, and enhance the capability of these parents to support NCS students in life planning education. For instance, starting from 2013, parents of NCS students may accompany their children to attend the Summer Bridging Programme with a view to enhancing their exposure to, and use of, Chinese which in turn will strengthen their support for their children in learning the Chinese language. In tandem, the Chinese Language Learning Support Centres also organise workshops for parents of NCS students with a view to strengthening collaboration with them in supporting NCS students' learning of Chinese. In addition, starting from the 2020/21 school year, we will provide a series of parent education programmes for parents of NCS students, so as to help them support their children's learning, encourage their children to master the Chinese language, and help them have more comprehensive understanding of the multiple pathways available to their children.

About 240, 190, 150, 140 and 90 parents of NCS students participated in the Summer Bridging Programme from 2015 to 2019 respectively, and a total of about 300 parents of NCS students participated in the parent workshops organised by the Chinese Language Learning Support Centres.

Apart from the above programmes and those mentioned at Annex, we do not maintain a record of the number of participants of other activities for parents of NCS students involving different parties including schools, tertiary institutions and non-governmental organisations. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or programmes concerned, hence a breakdown of expenditure by item is not available.

- (d) and (e) From the 2015/16 to 2019/20 school years, EDB has not received any complaints from students or parents regarding NCS students' learning of the Chinese language, the lack of school information or the education-related programmes, seminars or workshops for parents of NCS students. As for various types of enquiries received on a daily basis, including enquiries about school information, the statistics are not available.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In "Hong Kong Poverty Situation Report on Ethnic Minorities 2016" released in February 2018, dropout rates of certain ethnic minority groups were provided and the report stated that these dropout rates were higher than the total population average. It is important to identify at which grade level there is a trend for NCS students to start leaving school so as to identify the risk factors.

Will the government inform this Council of:

- (a) The number of non-attendance students in each of the grade levels from S1 to S6 from 2014/15 to 2019/20, and among them, the number of NCS and ethnic minority students;
- (b) If such data disaggregated by language and ethnicity is not available, how is the government evaluating the situation of NCS students' drop-out situation in order to decide suitable policy intervention;
- (c) List out the details of any support, including the amount of funding spent, relevant non-governmental organizations providing the support, and the number of attendance of all students, and dedicated programmes to NCS and ethnic minority students to prevent them from dropping out;
- (d) Details of any support, including the amount of funding spent, to NCS and ethnic minority students to provide an alternative pathway for secondary 3 to 5 school leavers and for such school leavers to obtain a formal qualification for the purposes of employment and further study;
- (e) Number of all students and NCS students who took leaves for more than 1 month, and the number of schools with such cases.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 77)

Reply:

(a) to (c) and (e)

It is the Government's policy to provide 12-year free primary and secondary education in public sector schools of which universal basic education for children aged between 6 and 15 is compulsory. Schools are required to report to the Education Bureau (EDB) on the 7th day of students' continuous absence, irrespective of their class levels and reasons for absence. The EDB would provide support services to identified non-attendance cases with a view to bringing students back to school at the earliest opportunity and does not further classify these cases. The numbers of non-attendance students at S1 to S6 levels reported from the 2014/15 to 2018/19 school years are tabulated below. Information for the 2019/20 school year is not yet available.

School year Grade level	2014/15	2015/16	2016/17	2017/18	2018/19
S1	570	700	557	734	609
S2	711	595	503	741	690
S3	1 484	1 095	969	1 081	1 030
S4	1 698	1 153	967	992	956
S5	1 168	758	609	595	512
S6	8	11	96	150	115

We do not readily have breakdown of the non-attendance cases by language and ethnic group as schools need not provide such information in their report to the EDB. The EDB does not compile data on the total number of students who have taken leave for more than 1 month or collect information on the number of NCS students and schools concerned. As such, the relevant information is not available.

The EDB will examine each non-attendance case and is committed to providing various kinds of services for needy students. Towards this end, we have all along been supporting school administrators, teachers, student guidance personnel or school social workers to provide appropriate guidance services for non-attendance students, with a view to understanding their needs and difficulties, helping them resume schooling, or referring them to attend training programmes or courses which cater for their needs, e.g. short-term adjustment programmes organised by schools, training programmes provided by the Vocational Training Council (VTC) for non-engaged youths, or short-term courses provided by non-governmental organisations (NGOs). At present, various NGOs provide different types of short-term courses suitable for teenagers who have not completed secondary education or with other needs. These courses aim at enhancing students' motivation to attend school, helping them develop positive goals in life and prepare well for employment, supporting hidden youths, treating internet addiction, etc. The EDB does not compile data on the names of the relevant NGOs or collect information on the funding for the training programmes or courses.

(d)

The EDB has all along been supporting secondary schools to implement Life Planning Education and provide career guidance services. To prepare NCS students for further studies and career pursuits, the EDB commissioned an NGO to implement a pilot project from the 2015/16 to 2017/18 school years to organise life planning activities and work experience programmes that enabled NCS students to understand their career orientation and learn about different study pathways and jobs. A total of 1 800 NCS students participated in the project and the expenditure involved was about \$6.3 million. Starting from the 2018/19 school year, the EDB has continued to commission an NGO to organise career exploration activities for NCS students, including visits to post-secondary institutions, workplace visits and work experience programmes, etc., to help them make informed choices on further studies and careers, set personal goals and plan their future. In the 2018/19 and 2019/20 school years, around 320 and 620 students benefited from the service respectively, and the expenditures incurred were about \$0.7 million and \$1.3 million. In addition, starting from the 2020/21 school year, we will provide a series of parent education programmes for NCS parents to help them support their children's learning, encourage their children to master the Chinese language and help them have more comprehensive understanding of the multiple pathways available to their children. The five-year initiative will involve an estimated average annual expenditure of \$3 million.

Besides, the full-time Diploma of Vocational Education programmes operated by VTC for S3 to S5 school leavers (including NCS students) are generally subvented by the EDB. VTC also provides different pre-employment programmes specifically for NCS students to obtain formal qualifications for employment and further studies. NCS students can also apply for other pre-employment programmes. NCS students on VTC pre-employment programmes can enjoy various support services to help them learn more effectively and adapt to campus life. These services include academic and learning support, such as student orientation activities, additional tutorial classes, counseling and coaching, peer support through the peer mentorship scheme, various student activities promoting a culture of inclusion and integration with the community, and advisory support for articulation and career development. VTC does not keep a breakdown of the resources deployed to provide support services for NCS students.

Director of Bureau: Secretary for Education

Question:

Please provide the following information broken down by institution, funding mode and academic level from the 2016/17 to 2019/20 academic years:

- (1) The first year intake places, tuition fees, related unit costs and government subsidies for healthcare and allied health programmes of each institution in each academic year;
- (2) The number of graduates of healthcare and allied health programmes of each institution in each academic year; and
- (3) For programmes that are subject to professional accreditation, such as healthcare programmes, will they be assessed by corresponding professional bodies prior to their inclusion in the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP)? If yes, please set out the institutions and programmes that were included under the SSSDP before they were professionally accredited in each academic year. If no, what are the reasons? How will the Administration ensure that graduates of these programmes receive the relevant recognised professional qualifications?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 80)

Reply:

- (1) to (2) With regard to programmes funded by the University Grants Committee (UGC), the names of UGC-funded healthcare and allied health programmes, their level, mode and normal duration of study, and their respective numbers of approved intake places, actual intakes and graduates in the academic years from 2016/17 to 2019/20 are set out at Annex 1.

Under the prevailing mechanism, the UGC provides recurrent grants to the 8 UGC-funded universities in the form of a block grant. The universities are

free to use the block grant to provide programmes of different levels of study and disciplines. The UGC has derived the average student unit costs of UGC-funded programmes by level of study, academic programme category (APC) and teaching/research cost, which are based on the actual costs reported by universities. In addition to UGC funding, universities have other sources of income, such as donations and other research funding. The actual costs reported by universities are not solely covered by UGC funding. The UGC is thus unable to estimate accordingly the actual subvention or expenditure on specific programmes. According to the information provided by universities, the content of healthcare and allied health programmes are mainly mapped to 3 APCs (i.e. (i) Medicine, (ii) Dentistry and (iii) Studies Allied to Medicine and Health). The average student unit costs of undergraduate programmes under each of the above category from the 2016/17 to 2018/19 academic years are as follows:-

Academic Programme Category	Average student unit costs of undergraduate programmes ^{Note 1}		
	2016/17	2017/18	2018/19 ^{Note 2}
(i) Medicine	\$522,000	\$524,000	\$571,000
(ii) Dentistry	\$645,000	\$642,000	\$585,000
(iii) Studies Allied to Medicine and Health	\$268,000	\$271,000	\$286,000

Notes:

1. The above figures also cover the actual costs of other undergraduate programmes which bear relevance to the 3 APCs, and the costs of related programmes vary among universities.
2. Provisional figures.

The relevant figures for the 2019/20 academic year are not readily available.

For non-UGC-funded programmes, according to the information self-reported by institutions, the estimated intake places and average annual tuition fees of full-time locally-accredited non-UGC-funded healthcare and allied health programmes from the 2016/17 to 2019/20 academic years are set out at Annex 2, and their respective numbers of graduates in the 2016/17 and 2017/18 academic years are set out at Annex 3. The numbers of graduates for the 2018/19 and 2019/20 academic years are not yet available. We do not collect data on the unit costs of programmes offered by the institutions.

- (3) Designated programmes in selected disciplines under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) are all full-time locally-accredited self-financing undergraduate/sub-degree programmes. The time for a programme that involves professional accreditation to be included under the SSSDP depends on the circumstances of individual cases. As of the 2020/21 academic year, among the SSSDP programmes that involve accreditation by corresponding professions, only the Bachelor of Science (Honours) in Physiotherapy offered by Tung Wah College in the 2018/19 academic year is still undergoing accreditation. Generally speaking, accreditation by the Supplementary Medical Professions Council is undertaken

on a continuous basis all year round and the result will be announced before the graduation of the first cohort of students of the programme concerned. After consulting relevant policy bureaux and taking into account various views and factors, including the application information submitted by the Tung Wah College for the accreditation of the Bachelor of Science (Honours) in Physiotherapy programme, the institution's experience in offering other allied health programmes, the effectiveness of the programme in nurturing talent in support of specific industries with keen manpower demand, and the benefits of releasing the subsidy as soon as possible to alleviate students' financial burden, the Education Bureau (EDB) has included the programme under the SSSDP starting from the 2019/20 academic year. The EDB and relevant policy bureaux will closely monitor the situation and urge the Tung Wah College to obtain professional accreditation for the programme.

Level of study, mode of study, normal duration of study, approved intake places, actual intakes, and number of graduates of UGC-funded programmes by university and health disciplines from the 2016/17 to 2019/20 academic years

Notes:

1. The University Grants Committee (UGC) assumes that the graduates of a certain year complete the programme within the normal duration of study, and provides the number of approved first-year student intakes in the corresponding year of admission of the graduates of the programme concerned. In addition, 2012/13 is the double-cohort year. In that academic year, the normal duration of study of undergraduates under the old academic structure was 1 year shorter than that under the new academic structure. However, the actual duration of study of individual students may be different due to postponement or even termination of study, or completion of programme beyond the normal duration of study. Under such circumstances, the UGC is unable to trace the actual year of admission of the graduates concerned. Also, the actual number of student intake may be different from the number of places in a year.
2. “-” denotes nil.

(Question Serial No. 3307)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from 2014/15, schools with NCS students can apply for additional funding to support the teaching and learning of NCS students. Will the government inform the council:

- (a) The number of schools which utilize the funding to hire extra manpower in supporting NCS students;
- (b) among the extra manpower employed with the additional funding listed in (a), the number of Chinese and ethnic minority staff recruited;
- (c) among the extra manpower employed with the additional funding listed in (a), list out the respective grades and number of the staff involved (e.g. teaching assistants, non-graduate teaching post (CM), graduate teaching post).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 81)

Reply:

The Education Bureau (EDB) is committed to encouraging and supporting the early integration of non-Chinese speaking (NCS) students (notably ethnic minority students) into the community, including facilitating their adaptation to the local education system and mastery of the Chinese language.

Starting from the 2014/15 school year, EDB has substantially increased the additional funding to schools to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and

Direct Subsidy Scheme (DSS) schools offering the local curriculum (hereinafter referred to as “ordinary schools”) and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. Besides, all special schools admitting 6 to 9 NCS students and offering an ordinary school curriculum, and special schools admitting 6 or more NCS students and offering an adapted curriculum are provided with an additional funding of \$0.65 million. The funding model for special schools admitting 10 or more NCS students and offering an ordinary school curriculum is the same as that for ordinary schools mentioned above. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 students for ordinary schools and 1 to 5 for special schools), their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. The respective number of public sector schools (including special schools) and DSS schools offering the local curriculum that were provided with the additional funding from the 2015/16 to 2019/20 school years is 314, 433, 482, 498 and 504 (provisional). The number of schools that deployed the additional funding to employ additional staff from the 2015/16 to 2019/20 school years is tabulated at [Annex A](#). According to the annual reports and annual plans submitted by schools, the schools concerned on average employed a total of some 480 additional teachers, 350 additional teaching assistants and 70 ethnic minority assistants in each of the school years from 2015/16 to 2019/20. Information on the ethnicity or rank of the additional staff recruited is not collected from schools.

The kindergarten education scheme (Scheme) has been implemented starting from the 2017/18 school year. Kindergarten (KGs) joining the Scheme and admitting 8 or more NCS students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. EDB has, starting from the 2019/20 school year, provided a five-tiered grant for KGs joining the Scheme according to the number of NCS students admitted. A KG admitting 1 NCS student also receives the grant, and the grant rate for the highest tier is a double of that in the 2018/19 school year, so that these KGs can render more appropriate support to their NCS students. In the 2017/18 and 2018/19 school years, about 150 KGs received the additional grant in each of the years. As at February 2020, about 430 KGs have been provided with the grant.

The number of KGs that employed additional staff with the funding to support NCS students’ learning of the Chinese language from the 2017/18 to 2019/20 school years is tabulated at [Annex B](#). According to the school reports and school plans of these KGs, it is learnt that the schools concerned on average employed a total of some 170 additional teachers and 130 additional teaching assistants in each of the school years from 2017/18 to 2019/20. Information on the ethnicity or rank of the staff recruited is not collected from schools.

To further support NCS students with special educational needs (SEN) to adapt to school life and make smooth transition through different learning stages, starting from the 2019/20 school year, EDB provides the Grant for Supporting NCS Students with SEN (NCS-SEN

Grant) under a 3-tier structure to public sector ordinary schools and DSS schools admitting NCS students with SEN, so that schools can strengthen the emotional, communication and social support for the students concerned. There are a total of 295 public sector ordinary schools and DSS schools that are provided with the NCS-SEN Grant in the 2019/20 school year. According to our observation and communication with schools, schools will pool the NCS-SEN Grant and other additional resources such as the Learning Support Grant for holistic and flexible deployment, including the employment of teaching assistants, procurement of professional services (e.g. translation service, social and emotional management training) and implementation of inclusive programmes, etc., so as to strengthen the support for NCS students with SEN. As schools adopt the above diversified strategies to cater for the needs of the students concerned in the light of their school-based circumstances and not all schools make use of the NCS-SEN Grant to employ additional staff, EDB does not collect information on the use of the aforesaid grant by schools to employ additional staff. Hence, such information is not available.

Number of schools that employed additional staff with the additional funding from the 2015/16 to 2019/20 school years

	2015/16 school year			2016/17 school year			2017/18 school year			2018/19 school year			2019/20 school year		
	No. of primary schools	No. of secondary schools	No. of special schools	No. of primary schools	No. of secondary schools	No. of special schools	No. of primary schools	No. of secondary schools	No. of special schools	No. of primary schools	No. of secondary schools	No. of special schools	No. of primary schools	No. of secondary schools	No. of special schools

Others					
Total:					

(c) the number of teaching assistants in schools, disaggregated by school types, ethnicity, and funding source supporting their salary (eg. the Learning Support Grant (LSG), the additional grants for schools with NCS students, Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme etc);

(d) main role of teaching assistants in schools;

(e) the related training provided or commissioned by EDB targeting the teaching assistants in schools;

(f) the promotion ladder for teacher assistants in schools.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 82)

Reply:

(a) to (f) The Education Bureau (EDB) does not collect information on the ethnicity of teachers and teaching staff so a separate breakdown is not available.

Public sector schools and Direct Subsidy Scheme (DSS) schools may, in accordance with the ambits of different cash grants and school-based needs, flexibly deploy the grants to engage the necessary manpower (including teaching assistants). The training and development of teaching assistants are arranged by schools according to their school-based needs. Some briefing sessions and workshops organised by EDB are open to teaching assistants as appropriate.

EDB provides all public sector schools and DSS schools offering the local curriculum and admitting 10 or more non-Chinese speaking (NCS) students with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted. Apart from hiring additional teachers and teaching assistants, schools may also use the additional funding to hire ethnic minority (EM) assistants. About 60 to 70 EM assistants were hired by these schools in each of the past few years. EM assistants are mainly deployed to help strengthen communication with parents of NCS students, such as translating and/or explaining school letters/notices to help parents of NCS students understand more about school policies and administrative arrangements, providing support to individual NCS students as appropriate in class, and organise activities for the creation of an inclusive learning environment in schools.

CONTROLLING OFFICER'S REPLY**EDB393****(Question Serial No. 3309)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the professional development of the kindergarten teaching staffs regarding the teaching and support of ethnic minority children, will the government please inform this council:

(a) The list of the basic course as recognized by the Education Bureau (EDB), with institutions, durations, expenditure, course providers, no. of sessions conducted, no. of hours per session, and number of attendance in school years 2017/18, 2018/19 and 2019/20.

(b) The number of kindergartens and the respective number of teachers who has completed the basic course as required in school years 2017/18, 2018/19 and 2019/20.

	no. of kindergarten with NCS students	no. of kindergarten without any teacher attended the basic course	no. of kindergarten with 1 teacher attended the basic course	no. of kindergarten with more than 1 teacher attended the basic course
2017/18				
2018/19				
2019/20				

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 83)

Reply:

Regarding the professional development of kindergarten (KG) teachers in teaching and supporting non-Chinese speaking (NCS) students, the Education Bureau (EDB) commissioned the University of Hong Kong to provide a specified basic training course titled “Learning and Teaching for Non-Chinese Speaking Children – Professional Development Programme for Kindergarten Teachers” from the 2017/18 to 2019/20 school years. Apart from the said course, other post-secondary institutions also offer relevant training courses. The EDB, however, does not have information on such courses. As the 2019/20 school year has not yet come to a close, we are only able to provide information on the said course for the 2017/18 and 2018/19 school years as follows:

	2017/18 school year	2018/19 school year
No. of courses offered	3	3
No. of contact hours per course	15	21
No. of teachers having completed the course	135	130
Expenditure	\$1.4 million	\$2.01 million

Note: The actual expenditure for the 2018/19 school year has included a supply teacher grant provided in the 2018/19 school year.

The number of teachers having completed the basic training course and the number of KGs with teachers having completed the course in the 2017/18 and 2018/19 school years are as follows.

	No. of KGs having admitted NCS children	No. of KGs under the KG education scheme (KG Scheme) having admitted NCS children	No. of KGs under the KG Scheme without any teachers having attended the basic training course	No. of KGs under the KG Scheme with 1 teacher having attended the basic training course	No. of KGs under the KG Scheme with more than 1 teacher having attended the basic training course
2017/18	583	391	275	97	19
2018/19	607	409	228	87	94

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include kindergarten-cum-child care centres.
3. Figures include students whose ethnicity is Chinese but who are categorised as NCS students due to the spoken language at home.
4. As the 2019/20 school year has not yet come to a close, information for this school year is not yet available.

- End -

CONTROLLING OFFICER'S REPLY

EDB394

(Question Serial No. 3310)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) For the kindergartens joining the kindergarten (KG) education scheme (Scheme), please provide the respective number of half-day, whole-day and long whole-day KGs that still collected school fees upon receipt of subsidies in the past 3 years (from the 2017/18 to 2019/20 school years).

(b) Regarding the KGs joining the Scheme, please provide the following figures for the territory together with a breakdown by District Council district:

(i) The number of half-day KGs subsidised under the Scheme, the number of their students, the percentage share of their students among all KG students in Hong Kong, the range of school fees, as well as the median school fee in the past 3 years (from the 2017/18 to 2019/20 school years);

(ii) The number of whole-day KGs subsidised under the Scheme, the number of their students, the percentage share of their students among all KG students in Hong Kong, the range of school fees, as well as the median school fee in the past 3 years (from the 2017/18 to 2019/20 school years); and

(iii) The number of long whole-day KGs subsidised under the Scheme, the number of their students, the percentage share of their students among all KG students in Hong Kong, the range of school fees, as well as the median school fee in the past 3 years (from the 2017/18 to 2019/20 school years).

(c) Please provide the unit cost per student under the Scheme in the past 3 years (from the 2017/18 to 2019/20 school years). In the long run, will the Education Bureau (EDB) enhance provision for half-day, whole-day and long whole-day KGs so as to reduce the financial burden on parents and KGs, thereby achieving full implementation of free KG education? If yes, what are the details and estimated expenditure involved? If no, what are the reasons?

(d) For the half-day, whole-day and long whole-day KGs joining the Scheme, please give a breakdown of the amount of subsidies by type of KGs. According to EDB's estimation, what is the additional expenditure required for fully subsidising schools fees of whole-day and long whole-day KG classes to achieve full implementation of free KG education?

(e) For the KGs not joining the Scheme, please provide the number of KGs, the number of their students, the range of school fees and the median school fee in the past 3 years (from the 2017/18 to 2019/20 school years), with a breakdown by District Council district.

(f) Regarding the kindergarten-cum-child care centres managed by the EDB, please provide the following information with a breakdown by District Council district:

(i) The number of kindergarten-cum-child care centres and their percentage share among all KGs in Hong Kong in the past 3 years (from the 2017/18 to 2019/20 school years); and

(ii) The number of child care centres operating pre-nursery classes, the number of places, the number of students, and the range of school fees.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 75)

Reply:

(a)

For the kindergartens, kindergarten-cum-child centres and schools with kindergarten classes (collectively referred to as KGs hereafter) joining the kindergarten education scheme (Scheme), the respective numbers of half-day (HD), whole-day (WD) and long whole-day (LWD) KGs that collect school fees from the 2017/18 to 2019/20 school years are set out below:

School year	Classes	No. of KGs collecting school fees
2017/18	HD	31
	WD	321
	LWD	212
2018/19	HD	34
	WD	316
	LWD	225
2019/20	HD	38
	WD	329
	LWD	229

(b) (i)

The numbers of HD KGs joining the Scheme, their numbers of eligible students and the percentage share of these students among all KG students by District Council district, from the 2017/18 to 2019/20 school years are tabulated at Appendix 1. Regarding school fees, given that only a very small number of HD KGs under the Scheme collect school fees, with merely 1 KG collecting school fees in certain districts, it is more appropriate to provide

information about school fees on a territory-wide basis (instead of district basis). For HD KGs joining the Scheme and collecting school fees, the lowest, highest and median school fees from the 2017/18 to 2019/20 school years are set out below:

School year	Lowest school fee (\$)	Highest school fee (\$)	Median school fee (\$)
2017/18	100	9,500	2,900
2018/19	100	10,100	3,400
2019/20	100	10,100	3,400

Note: Figures are rounded to the nearest hundred.

(b)(ii) and (b)(iii)

The numbers of WD KGs joining the Scheme, their numbers of eligible students and the percentage share of these students among all KG students, as well as their lowest, highest and median school fees by District Council district, from the 2017/18 to 2019/20 school years are tabulated at Appendix 2; relevant figures of LWD KGs are tabulated at Appendix 3.

(c) and (d)

The new kindergarten education policy has been implemented starting from the 2017/18 school year. The Government provides KGs joining the Scheme with direct subsidy according to the number of eligible students in the form of a basic HD unit subsidy, and KGs offering WD and LWD services will receive an additional subsidy of 30% and 60% respectively. In addition, school-specific grants, including premises maintenance grant, rental subsidy, grant for a cook, tide-over grant and grant for supporting non-Chinese speaking students are also provided to cater for the diverse needs of individual KGs joining the Scheme or students.

The subsidy amount per student per annum for HD, WD and LWD services from the 2017/18 to 2019/20 school years is as follows:

School year	HD (\$)	WD (Note) (\$)	LWD (Note) (\$)
2017/18	33,190	43,150	53,100
2018/19	34,320	44,620	54,910
2019/20	35,760	46,490	57,220

Note: Including the additional subsidy provided for KGs offering WD and LWD services.

Regarding the unit cost per student, as the annual expenditure of the Scheme can only be fully reflected from 2018-19 onwards, unit cost is calculated starting from that financial year. The actual unit cost per student in 2018-19 and the estimated unit cost per student for 2019-20 are \$45,082 and \$47,610 respectively.

In principle, the Government subsidies should be sufficient for KGs joining the Scheme to provide quality HD services. In Hong Kong, only a very small number of HD KGs collect school fees. As for WD and LWD services, existing evidence from research and studies precludes drawing conclusions that WD programmes are more favourable to young children than HD programmes. Studies show that family education plays a crucial and complementary role in shaping young children. A HD programme can achieve the requirements of the curriculum and would allow relatively more family time for young

children to play and interact with their family in a less-structured and more relaxing setting to nurture their bonding and sense of security. Although many countries offer WD services for parents as an option, it is not a common practice internationally to provide free WD KG services for all children from 3 to 6 years of age.

Having considered the developmental needs of children and overseas practices, we are of the view that the basic tenet of the new policy is that the Government's subsidy to each eligible KG would be sufficient for it to provide quality HD services according to the standards prescribed by the Government. Notwithstanding that, to unleash the potential of the local labour force under the population policy and enable parents to join the workforce, we provide an additional subsidy of 30% and 60% for eligible KGs offering WD and LWD services respectively. As the Government has provided additional subsidy, parents only need to pay part of the additional cost, and the overall school fees are at a low level. Families with financial needs may also be granted fee remission. In view of the foregoing, we do not have plans to further increase subsidy for WD and LWD KG places at this stage.

(e)

The numbers of HD KGs not joining the Scheme, their numbers of students, the lowest, highest and median school fees by District Council district, from the 2017/18 to 2019/20 school years are tabulated at Appendix 4; relevant figures of WD KGs are tabulated at Appendix 5.

(f)(i)

The numbers of kindergarten-cum-child care centres and their percentage share among all KGs in Hong Kong by District Council district, from the 2017/18 to 2019/20 school years are tabulated at Appendix 6.

(f)(ii)

Regarding the numbers of children under the care of child care centres (CCCs) attached to KGs, as a usual practice, average utilisation rates are provided by the Social Welfare Department. The numbers of CCCs attached to KGs, their numbers of places and the average utilisation rates by District Council district, from the 2017/18 to 2019/20 school years are tabulated at Appendix 7, and the range of monthly fees are tabulated at Appendix 8.

Numbers of HD KGs joining the Scheme,

CONTROLLING OFFICER'S REPLY

EDB395

(Question Serial No. 3311)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the status, future planning and use of vacant school premises (VSP), please provide the following information:

- (a) the details of vacant kindergartens, primary schools and secondary schools, including school name, detailed school address, site area of school premises, year in which the school ceased operation, and the VSP that have been reused or reallocated for educational use;
- (b) the expenditure incurred for the management of these VSP, the number of premises and the expenditure involved in each of the school years from 2014/15 to 2019/20; and
- (c) a breakdown of the VSP and new development land already allocated and those available for school application in future by school district.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 84)

Reply:

(a) and (c) At present, all kindergartens (KGs) in Hong Kong are privately run. KGs generally operate in premises identified in the private market on their own, premises owned by their school sponsoring bodies or estate KG premises. The Education Bureau (EDB) does not compile statistics on vacant KG premises. According to the Hong Kong Housing Authority (HKHA)'s records, there are currently 2 vacant estate KG premises in public housing estates under the HKHA. According to the established arrangements, upon receipt of notification from the Housing Department (HD), the EDB will assess whether a School Allocation Exercise (SAE) for nominating operators for estate KG premises is necessary having regard to the result of the latest demand and supply analysis of KG places in the vicinities of the estate KG premises concerned as well as other related factors. Should the assessment not justify an SAE, the EDB would inform the HKHA, which will then consider

whether to put the estate KG premises to other alternative uses. The HKHA may also lease estate KG premises at market rent through open rental tender from time to time. In respect of the aforesaid 2 vacant estate KG premises, 1 premises has been recommended for allocation to a school sponsoring body through the Second SAE 2016, and the HD is taking follow-up actions on the remaining 1 premises. The EDB would handle the matter according to the aforesaid procedures upon receipt of notification from the HD.

In respect of vacant school premises (VSP), it has all along been the EDB's policy objective to put VSP to gainful use. When there is a vacant or to-be-vacant school premises, the EDB will assess the VSP's suitability for school or other educational uses having regard to factors including the size, location, physical conditions, etc., of the relevant premises, as well as the educational needs and relevant policy measures.

When the EDB confirms that the VSP is no longer required by the EDB for reallocation for school use, the EDB will, in accordance with the Central Clearing House Mechanism, inform the Planning Department (PlanD) and other relevant departments (such as the Lands Department (LandsD) and HD) for the PlanD's consideration of suitable alternative long-term uses. According to the mechanism, the EDB is allowed to retain VSP to school use. However, if the EDB intends to put the VSP for other educational uses, the EDB needs to put forward its proposed use with justifications to the PlanD for assessment and may need to compete with other government departments on use of such VSP.

As at end-February 2020, there are 9 VSP under the EDB's purview which are earmarked/retained for school or other educational uses, and the EDB is taking follow-up action on the earmarked uses. Information of the school premises concerned is set out in Table (1) below:

Table (1) – 9 VSP under the EDB's purview (position as at end-February 2020)

No.	District	Former school name	Address	School year in which the school ceased operation (Note)	Site area of school premises (rounded to the nearest hundred m ²)
1	Eastern	HongKong Japanese School	9 Hau Yuen Path, Braemar Hill Road, North Point, Hong Kong	2017/18	2 900
2	Southern	St. Peter's Secondary School	220 Aberdeen Main Road, Hong Kong	2012/13	6 000
3	Kowloon City	Hung Hom Government Primary School	68 Gillies Avenue South, Hung Hom, Kowloon	2009/10	1 900
4	Wong Tai Sin	S.K.H. Ching Shan Primary School	3 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	3 700 (Total)
5	Wong Tai Sin	S.H.K. Yat Sau Primary School	1 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	
6	Wong Tai Sin	Cognitio College (Kowloon)	96 King Fuk Street, San Po Kong, Kowloon	2019/20	2 100

7	Sham Shui Po	Chi Yun School	19 Kwong Lee Road, Kowloon	2018/19	2 200
8	Tai Po	Tai Po Government Primary School	22 Wan Tau Kok Path, Tai Po, New Territories	1999/00	2 400
9	Islands	Cheung Chau Public School	School Road, Cheung Chau, New Territories	2006/07	5 800

Note: “School year in which the school ceased operation” refers to the year the school premises were ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

All the VSP under the EDB’s purview are earmarked/retained for school or other educational uses, including catering for the anticipated demand for school places, reprovisioning of existing schools to improve their learning and teaching environment, decanting use by schools undergoing in-situ redevelopment or extension works, etc. With the policy objective of putting VSP into gainful use in mind, the EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within the EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, the Home Affairs Department, the LandsD, the PlanD and the Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

As far as school building sites are concerned, as at March 2020, there are a total of 24 reserved school sites (including primary, secondary and special schools) in the territory having completed the relevant technical feasibility study and the timeframe for school development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as site investigation and school design, are being carried out in accordance with the prevailing procedures. A breakdown of the 24 reserved school sites by districts, with their location, site area and planned use, is set out in Table (2) below. Among them, funding approval for project on 1 reserved school site was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2017-18 LegCo Session with the school building works commenced in 2018; funding approval for projects on 4 reserved school sites was approved in the 2018-19 LegCo Session and the school building works commenced in 2019 and early 2020. For the remaining 19 sites, 3 fall within private development projects or site availability being affected by private development projects, while the rest are being deployed for temporary uses, undergoing site formation work or with preliminary works/detailed design for school building project being undertaken in accordance with the existing mechanism and procedures. Funding approval will be sought from the FC of the LegCo for commencing these school building projects in due course.

Table (2) – Reserved School Sites by District

No.	District	Location	Site area (rounded to the nearest hundred m ²)	Planned use	No. of classrooms	Allocation status	Remarks
1	Kowloon City	To Kwa Wan	7 700	Secondary school	30	Unallocated	(ii)
2	Kowloon City	Ho Man Tin	7 800	Primary school	24	Unallocated	(ii)
3	Kowloon City	Kowloon Tong	7 700	2 Special schools	12 and 24 respectively	Allocated	(ii)

16	Sai Kung	Tseung Kwan O	7 000	Secondary school	30	Allocated	(iii)
17	Sai Kung	Tseung Kwan O	7 400	Secondary school	30	Unallocated	(ii)
18	Sai Kung	Anderson Road Quarry	6 200	Primary school	30	Unallocated	(ii)
19	Sai Kung	Anderson Road Quarry	7 000	Primary school	30	Unallocated	(ii)
20	Sai Kung	Anderson Road Quarry	8 100	Secondary school	30	Unallocated	(ii)
21	Sha Tin	Shui Chuen O	9 200	Primary school	30	Allocated	(i)
22	Sha Tin	Fo Tan	4 700	Primary school	24	Allocated	(iii)
23	Tai Po	Area 9	7 100	Primary school	36	Allocated	(ii)
24	Tsuen Wan	Tsuen Wan West	5 800	Primary school	30	Allocated	(ii)

Remarks:

- (i) Funding approval has been obtained from the FC of LegCo for the school building project.
- (ii) The site is being deployed for temporary use, undergoing site formation work or with preliminary works/detailed design for school building project being undertaken in accordance with the existing mechanism and procedures. Funding approval will be sought from the FC of LegCo for commencing the school building project in due course.
- (iii) The site falls within a private development project and is not regarded as government land or the site availability is affected by a private development project.

According to the EDB's prevailing school allocation mechanism, once a vacant/to-be-vacant premises or a reserved school site is confirmed to be required for allocation for school use, the EDB will normally invite applications from all eligible organisations in the territory through an SAE and make relevant announcement through press release and on its website. The SAE is generally conducted on a competitive basis among the applicant bodies. When assessing the applications, quality of education is the prime consideration of the School Allocation Committee comprising official and non-official members. Other factors, including operation track record and condition of existing school premises (where applicable), and school proposal, will also be considered. In 2019, we launched a total of 4 SAEs to allocate school premises for different school uses. Moreover, the First SAE 2020 was launched in January 2020 to nominate school sponsoring bodies for allocation of 5 new estate KG premises. Information on these premises is set out in Table (3) below. As always, we will continue to actively identify school sites/VSP that are suitable for school uses and launch SAEs accordingly in a timely manner.

Table (3) – Information on school premises covered by the 2019 SAEs and First SAE2020

SAE	Location of school premises (name of former school of the VSP, if applicable)	Site area (applicable to planned new school premises)/ Site area of the VSP (rounded to the nearest hundred m ²)/ Internal floor area of new estate KG premises (rounded to the nearest 10 m ²)	Use of allocated school premises	Organisation recommended for allocation
First SAE 2019	Area 9, Tai Po	7 100	Setting up a new aided primary school	The Superintendent in Hong Kong of the Pentecostal Holiness Church
Second SAE 2019	Au Pui Wan Street, Fo Tan, Sha Tin	4 700	Reprovisioning of an existing public sector primary school	Po Leung Kuk (reprovisioning of Po Leung Kuk Siu Hon Sum Primary School)
	Mei Lam Estate, Sha Tin (Ex-premises of Sung Lan Middle School)	5 800 #	Reprovisioning of an existing public sector primary school	The Trustees of the Kowloon Tong Church of the Chinese Christian and Missionary Alliance (reprovisioning of Christian Alliance H.C. Chan Primary School of the Kowloon Tong Church of the Chinese Christian and Missionary Alliance)

	Yung Ming Court, 5 Chi Shin Street, Tseung Kwan O	820 #	Operating a kindergarten	SAE underway
	1/F, Long Tin House, Pak Tin Estate Phase 11	550 #	Operating a kindergarten	SAE underway

Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/Housing Society refers to the internal floor area of the premises and is marked with (#) in the table above.

(b) The EDB is responsible for the management of VSP located on sites allocated to the EDB, including those that the PlanD has been informed of under the Central Clearing House Mechanism but that the LandsD has requested the EDB to continue the management until the next users have been identified and taken over the land. From 2014-15 to 2018-19, the expenditure of the EDB for the management of VSP is \$0.957 million, \$1.221 million, \$1.341 million, \$1.266 million and \$1.228 million respectively, and the revised estimated expenditure for 2019-20 is \$0.86 million, which mainly include security patrol and inspections, pest control, removal of litter, as well as cleansing and weeding.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out separately the following information for primary, secondary and special schools since the completion of the School Improvement Programme in 2006:

- (1) the number of school premises made available for application by the School Allocation Committee and the number of applications submitted by schools in each of the school years;
- (2) the number of schools that made an application for redevelopment in each of the school years; the number of schools granted approval and their names; the percentage they represent in schools with "sub-standard" facilities in the territory; the respective expenditure involved;
- (3) the number of schools granted approval for reprovisioning in each of the school years; the name of these schools; the percentage they represent in schools with "sub-standard" facilities in the territory; and the respective expenditure involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 85)

Reply:

(1) The number of school premises allocated for public sector school use through School Allocation Exercises (SAE) and the number of applications received in the past 5 years are set out at Appendix (1).

(2) and (3) The building standards for public sector schools have changed over the years. Although school premises were built in different periods in accordance with the building standards at the time of construction, existing school premises in operation have all met the prevailing statutory requirements. The Education Bureau (EDB) has put in place various measures to enhance the teaching and learning environment. Among these is the

School Improvement Programme (SIP) implemented from 1994 to 2006, during which around 700 schools have their teaching and administrative facilities enhanced. In the last 2 phases of the SIP, the scope of improvement works was further extended. Although in terms of site area, certain schools compare unfavourably to new schools planned under the prevailing standards, we strive to upgrade school facilities to the level commensurate with the prevailing standards when technical feasibility and land sites permit. We thus do not consider it appropriate to define “sub-standard” school premises.

Work projects granted funding approval by the Finance Committee (FC) for reprovisioning public sector schools in the past 5 financial years are set out at Appendix (2). Work projects granted funding approval by the FC for in-situ redevelopment/extension of public sector schools in the same period are set out at Appendix (3). We will continue to improve school facilities and enhance teaching and learning environment through reprovisioning, redevelopment and extension programmes, annual major repairs exercise and minor internal conversions.

Number of school premises allocated for public sector school use through SAEs from 2015-2019 and number of applications received

Year of SAE	No. of primary school premises allocated (no. of applications received)	No. of secondary school premises allocated (no. of applications received)	No. of special school premises allocated (no. of applications received)
2015	-	-	1 (4)
2016	-	1 (1)	-
2017	11 (88)	-	-
2018	-	-	2 (12)
2019 ^(Note)	3 (27)	-	-
Total	14 (115)	1 (1)	3 (16)

(Note): Since the Third and Fourth SAEs 2019 are still underway, relevant information on these allocation is not reflected in the above table.

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the school years from 2016/17 to 2019/20 (if applicable):

(1) The items under the insurance that the Education Bureau has taken out for primary, secondary and special schools, names of the underwriting mechanisms, the expenditures involved, the respective numbers of schools, teachers and students covered, as well as the numbers of claims made and indemnified in each year.

(2) Of all the claims made and indemnified, what are the cases involving professional liability and deaths respectively?

(3) Upon implementation of free kindergarten education, is any provision reserved for taking out necessary insurance for kindergartens? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 86)

Reply:

(1) and (2)

The Education Bureau (EDB) has taken out the Block Insurance Policy (BIP), which comprises 3 parts, namely the public liability insurance, the employees' compensation insurance and the group personal accident insurance, for aided primary and secondary schools (including special schools). Professional liability insurance is not under the coverage of the BIP. All staff in aided primary and secondary schools (including special schools), both teaching and non-teaching, whose salaries are subvented by the EDB, as well as students, are insured under the BIP. Each period of insurance covers 2 school years and the expenditures on the insurance premium for the BIP for the 2015/16 to 2016/17, 2017/18

to 2018/19 and 2019/20 to 2020/21 school years are \$146.1 million, \$129 million and \$165.7 million respectively. To protect the interests of the claimants, schools are required to report all accidents, irrespective of whether they are liable, to the BIP insurer. Hence, the number of reported cases should not be taken as the number of claims. We do not have the statistics on the number of claims. From the 2016/17 to 2019/20 school years (as at November 2019), the total number of reported cases and indemnified cases for all types of insurance under the BIP are 8 300 and 3 800 respectively. Among them, there are 15 cases involving deaths.

(3) Under the kindergarten (KG) education policy, the EDB provides direct subsidy to KGs joining the KG education scheme (Scheme). Funding is provided basically on a per student basis in the form of a basic unit subsidy. The basic unit subsidy covers teaching staff salary, supporting staff salary and other operating costs. Insurance premium is one of the expenditure items chargeable to the “other operating costs” portion of the basic unit subsidy. The mode of provision of funding for KGs differs from that for aided primary and secondary schools. The degree to which KGs and aided primary and secondary schools have to follow the EDB’s established operational and administrative practices also differs. As compared to aided primary and secondary schools, the modes of operation among KGs participating in the Scheme are more diversified. Hence, the EDB does not play the role of a central coordinator in various aspects relating to operation of KGs, including procurement of insurance policies.

Director of Bureau: Secretary for Education

Question:

The Government has been implementing the New Senior Secondary Academic Structure and the extension of years of study in special schools since the 2009/10 school year. It has also pledged to arrange the related conversion works for special schools. Please provide the following information for the school years from 2009/10 to 2019/20:

- (1) What is the number of schools that require conversion works in each of the school years? How many of the schools have been approved to carry out the works? What is the expenditure involved? How many of the works projects require funding approval from the Legislative Council?
- (2) For the works projects that are yet to be completed, please indicate their status, specifying, for example, whether they are yet to commence, or under design, tendering or construction stage, and their expected completion dates.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 90)

Reply:

To cater for the implementation of the New Senior Secondary (NSS) academic structure and the “improvement measures on extension of years of study” in special schools, the Education Bureau (EDB) has been providing additional classrooms and/or related facilities for relevant schools by phases. Having regard to the actual situation and operational needs of individual schools and by liaising and discussing with the schools concerned, the EDB has worked out the scopes of the improvement works and details of implementing the works projects. The time taken to complete the works project depends on a basket of factors, including the scope of the works, whether it involves complicated issues such as lease modification, the progress of technical works and design, schools’ views on the works arrangement and the allocation of resources, etc. The EDB and the works consultant will

continue to maintain close liaison and communication with the schools concerned, and complete the remaining works projects as soon as practicable.

As at February 2020, a total of 18 improvement works projects for special schools have been completed, while another 23 are proceeding at different stages (Note). The progress of relevant works projects is as follows:-

Stage	Number of works projects
(1) Feasibility study	1
(2) Conceptual design	5
(3) Detailed design	7
(4) Tendering	3
(5) Construction and handover	7

Out of the abovementioned 23 works projects, 3 are capital works projects exceeding \$30 million. 1 of them has been granted funding approval by the Finance Committee of the Legislative Council and construction is already underway with completion set for the second quarter of 2021. The EDB will seek funding approval for the other 2 works projects according to established procedures as soon as possible for the related construction works to commence. As for the remaining works projects that are proceeding at different stages, their estimated costs will be adjusted as the projects progress and in the light of actual circumstances. We are therefore unable to provide the actual figures of these projects.

Note: In general, a school building project involves 6 stages, namely (1) feasibility study; (2) conceptual design; (3) detailed design; (4) tendering; (5) construction and handover and (6) post-handover maintenance.

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for each of the school years from 2018/19 to 2020/21 (estimation) under the categories of primary school, secondary school and special school:

- (1) the number of permanent posts of nurses, physiotherapists, occupational therapists, speech therapists, educational psychologists and social workers created under the approved establishment, the number of vacancies and the wastage rate; and
- (2) the number of established posts of nurses, physiotherapists, occupational therapists, speech therapists, educational psychologists and social workers that were/will be frozen due to recruitment difficulties and encashed for recruiting temporary staff, and the expenditure involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 91)

Reply:

(1) and (2)

In special schools, school nurses, physiotherapists (PTs), occupational therapists (OTs), speech therapists (STs), educational psychologists (EPs) and social workers are provided in the establishment. As for public sector ordinary schools, STs, EPs and social workers are provided. The establishment/manpower of the above staff in public sector ordinary primary and secondary schools as well as special schools in the 2018/19 and 2019/20 school years is as follows:

Rank of Specialist Staff	2018/19 School Year			2019/20 School Year		
	Secondary School	Primary School	Special School	Secondary School	Primary School	Special School
School Nurse	Not applicable	Not applicable	104 ^{Note 1}	Not applicable	Not applicable	104 ^{Note 1}
PT	Not applicable	Not applicable	60 ^{Note 2}	Not applicable	Not applicable	60 ^{Note 2}
OT	Not applicable	Not applicable	99 ^{Note 3}	Not applicable	Not applicable	99 ^{Note 3}
ST	Not applicable	Not applicable	159.5	118 ^{Note 4}		160.5
EP	151 ^{Note 5}		19	156 ^{Note 5}		19
Social Worker	559 ^{Note 6}	41 ^{Note 6}	138	926 ^{Note 6}	53 ^{Note 6}	141

Notes:

1. The Education Bureau (EDB) has enhanced the establishment of school nurse in special schools in the 2018/19 school year. 1 additional school nurse is provided for schools for children with intellectual disability, schools for children with physical disability and the school for children with visual impairment cum intellectual disability. In addition, the provision of school nurses has been expanded to cover the school for children with visual impairment and the school for children with hearing impairment, so that these schools each have a school nurse to strengthen their support for students with care needs.
2. The ranks of PT include Senior PT, PTI and PTII.
3. The ranks of OT include Senior OT, OTI and OTII.
4. Starting from the 2019/20 school year, the EDB implements the Enhanced School-based Speech Therapy Service by creating school-based ST posts in the public sector ordinary schools by phases.
5. School-based EPs are employed by EDB and school sponsoring bodies. They provide service to both primary and secondary schools. All public sector ordinary primary and secondary schools have been provided with the School-based Educational Psychology Service starting from the 2016/17 school year.
6. The EDB has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. Under the new funding mode, schools may, having regard to their own circumstances, create a regular Assistant Social Work Officer post or receive an equivalent subsidy to employ a school-based registered graduate social worker or hire service of a school-based registered graduate social worker from a social work service provider. Moreover, the Social Welfare Department has since the 2019/20 school year implemented the measure of “two school social workers for each

school” in secondary schools. The number of school social workers for each secondary school was then increased from 1.2 to 2. About 46 posts of Social Work Officer were increased concomitantly to enhance supervisory support.

As regards vacant posts, special schools may opt to freeze some of their vacant specialist posts and encash for recruiting temporary staff or hiring related service. In the school years from 2018/19 to 2019/20, the specialist vacancies mainly comprised PT and OT posts. The number of vacancies of all aforementioned specialist staff, the number of posts frozen and encashed for provision of service, and the expenditure involved are as follows:

	2018/19 School Year	2019/20 School Year (Estimate)
Total number of specialist vacancies	90.1	95.2
Number of posts frozen and encashed for provision of service (expenditure involved)	69.4 (\$34 million)	65.5 (\$31 million)

As the calculation of the specialist staff establishment in special schools is based on the actual number of classes being operated, the number of school places, etc., we are unable to provide the relevant figures for the 2020/21 school year at this stage. The EDB does not collect information on individual specialists who have left the school sector either and therefore statistics on wastage rates are not available.

As for the public sector ordinary schools, starting from the 2019/20 school year, the EDB implements the Enhanced School-based Speech Therapy Service by creating school-based ST (SBST) posts in these schools by phases. School clusters are formed and the permanent posts of SBST are created in the base schools of the school clusters. In the 2019/20 school year, the EDB created 118 SBST posts in 223 public sector ordinary primary and secondary schools. Among them, 174 schools constituting 92 clusters have employed 93 SBSTs, and there are still 25 vacant SBST posts. The EDB continues to provide schools that have not yet employed their SBSTs with additional grants for procuring services to support their students with speech and language impairment.

It is estimated that the number of school-based EP posts providing the School-based EP Service (SBEPS) to public sector ordinary primary and secondary schools in the territory will be increased to 161 in the 2020/21 school year. In the 2018/19 and 2019/20 school years, the respective wastage rate of EPs providing the SBEPS is 5.9% and 4.2%. In case an EP leaves his/her office, the EDB or SSB concerned will conduct a recruitment exercise as soon as practicable, and it is probable that the vacant post will be filled during the school year. As the support for schools concerned during vacancy will be shared by the EPs of the school sponsoring bodies or the EDB, providing the number of vacant posts by school year is not meaningful.

In the 2018/19 and 2019/20 school years, 223 and 309 public sector ordinary primary schools have switched to the new funding mode respectively. These schools have optimised the use of resources to employ at least one graduate social worker to implement the policy of “one school social worker for each school”. As for secondary schools,

according to the information of the Social Welfare Department, the Department has since the 2019/20 school year implemented the measure of “two school social workers for each school” in secondary schools. The 34 non-governmental organisations operating secondary school social work service have employed sufficient manpower to implement the measure of “two school social workers for each school” on 1 September 2019.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information in respect of primary, secondary and special schools for the school years from 2015/16 to 2019/20:

- (1) How many school premises are shared by 2 different schools at once in each school year? Please provide the number and names of the schools concerned.
- (2) The number and names of schools that have yet to have their own school premises in each school year.
- (3) The number and names of schools approved to conduct physical education lessons on rooftops in each school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 94)

Reply:

(1) and (2)

According to Section 3(1) of the Education Ordinance, school premises include school recreation rooms, residential facilities, playing fields and playing grounds, and any other places used for the purposes of a school. Some schools are now sharing/used to share school premises with other schools (e.g. sharing different parts of the same building, playing fields, swimming pools, passages or playing grounds), or are using/used more than 1 school premises for various reasons, such as design of school premises, operational needs or other historical factors. The Education Bureau does not compile statistics on the information requested.

(3)

In the 2015/16 to 2019/20 school years, the number of roof playgrounds approved is set out below. All of them are within newly built school premises or new annexes of school premises. As the focus of concern is the overall usage of school facilities rather than the specific situation of individual schools, we are of the view that it is not appropriate to disclose the relevant school names.

School Year	Primary Schools	Secondary Schools*	Special Schools
2015/16	0	1	0
2016/17	1	2	0
2017/18	2	1	0
2018/19	0	3	0
2019/20	0	1	0
Total	3	8	0

* If the primary section and secondary section of a school are both within the same registered school premises and share the same roof playground, the roof playground will be counted under the secondary section.

Question:

- (a) Please provide the numbers of kindergarten (KG) teachers with Certificate in Early Childhood Education or higher qualifications, their percentages out of the total numbers of KG teachers, and their lowest, highest and median amounts of salary in the past 5 years (2015/16 to 2019/20 school years).
- (b) Please provide the numbers of KG teachers who have completed other teacher training (including qualified KG teachers and qualified assistant KG teachers), their percentages out of the total numbers of KG teachers, and their lowest, highest and median amounts of salary in the past 5 years (2015/16 to 2019/20 school years).
- (c) Please provide the lowest, highest and median amounts of salary of KG senior teachers and principals in the past 5 years (2015/16 to 2019/20 school years).
- (d) Is there any long-term plan to establish a pay scale for KG teachers which is pegged with civil servants' Master Pay Scale (MPS) to subsidise KGs' operation and improve teachers' remuneration package? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 79)

Reply:

- (a) The numbers of local kindergarten (KG) teachers with Certificate in Early Childhood Education or higher qualifications (excluding principals), their percentages out of the total numbers of KG teachers and their lowest, highest and median amounts of monthly salary from the 2015/16 to 2019/20 school years are tabulated below:

KG teachers with Certificate in Early Childhood Education or higher qualifications (excluding principals)					
School year	2015/16	2016/17	2017/18	2018/19	2019/20 (Provisional)
No. of teachers	9 933	10 266	10 359	10 381	10 792
Percentage out of the total no. of KG teachers	92.1%	93.6%	94.7%	95.3%	96.3%
Median monthly salary	\$20,305	\$21,255	\$23,600	\$25,418	(Note)
Highest monthly salary	\$90,738	\$99,881	\$94,844	\$86,719	(Note)
Lowest monthly salary	\$8,200	\$8,800	\$9,500	\$5,090	(Note)

- (b) The numbers of local KG teachers (excluding principals) who have completed other teacher training (including qualified KG teachers and qualified assistant KG teachers), their percentages out of the total number of KG teachers and their lowest, highest and median amounts of monthly salary from the 2015/16 to 2019/20 school years are tabulated below:

KG teachers who have completed other teacher training (excluding principals)					
School year	2015/16	2016/17	2017/18	2018/19	2019/20 (Provisional)
No. of teachers	442	367	322	263	221
Percentage out of the total no. of KG teachers	4.1%	3.3%	2.9%	2.4%	2.0%
Median monthly salary	\$16,550	\$17,685	\$20,020	\$22,060	(Note)
Highest monthly salary	\$85,323	\$92,531	\$96,406	\$100,548	(Note)
Lowest monthly salary	\$8,000	\$8,691	\$8,200	\$9,410	(Note)

- (c) Unlike aided primary and secondary schools, there is no approved teaching establishment in KGs. As the proposed number and rank of senior teachers are for KGs' reference only and the actual arrangements may vary among KGs, it is inappropriate to provide the information on salary of senior teachers by rank. The lowest, highest and median amounts of monthly salary of principals in local KGs from the 2015/16 to 2018/19 school years (note) are as follows:

Principals				
School year	2015/16	2016/17	2017/18	2018/19
Lowest monthly salary	\$12,760	\$11,600	\$16,000	\$20,800
Highest monthly salary	\$101,620	\$115,000	\$126,000	\$141,985
Median monthly salary	\$37,590	\$39,350	\$45,120	\$48,540

Note:

Regarding the information on teachers' salary in the 2019/20 school year, the Education Bureau (EDB) notified KGs joining the KG education scheme (Scheme-KGs) in early March this year of the salary ranges for teaching staff which have been adjusted based on the latest civil service pay adjustment announced by the Government at the end of February. Scheme-KGs will accordingly adjust the salary of their teachers if necessary. Hence, the EDB is unable to provide the information on teachers' salary in the 2019/20 school year at this stage.

- (d) The Government has implemented the new KG education scheme since the 2017/18 school year. Under the Scheme, KGs are encouraged to establish a career ladder and offer competitive remuneration to retain and attract quality teachers. Various measures have been adopted to ensure that teachers are remunerated reasonably. These include providing salary ranges for respective ranks of teaching staff and Scheme-KGs are obliged to remunerate their teachers within their corresponding salary ranges; prescribing 60% of the basic unit subsidy as teachers' salary portion, which must be used on teaching staff salaries and related expenses (while KGs may deploy any portion of the remaining 40% for teaching staff salaries and related expenses, but not vice versa); and clawing back the accumulated surplus in the salary portion exceeding the reserve ceiling to encourage schools' optimal use of the subsidy on teaching staff salary.

A mandatory salary scale for KG teachers, if established, would be similar to the existing salary arrangements for teachers in aided schools. The funding mode for aided schools is tied with several inter-connected components, such as the EDB's annual approval for the number of operating classes and the staff establishment, and is subject to the control measures implemented by the Government for the prudent and balanced planning of school places under the school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating half-day and whole-day classes to meet the needs of parents. On the other hand, as compared to a mandatory salary scale on which teacher salary is determined solely by seniority, a salary range allows greater flexibility and ensures competitiveness. It enables the KG management to decide flexibly the remuneration of its staff, taking into account their qualifications, teaching

experience, performance, additional duties, training received and special skills possessed. As the setting up of a salary scale for KG teachers involves various aspects as mentioned above, it should be handled prudently. In this connection, we have undertaken to use the data of the three school years from 2017/18 to 2019/20 as the basis to explore the feasibility of introducing a salary scale for KG teachers. As announced in the 2018 Policy Address, we started a review in mid-2019 on the implementation of the new policy, including the salary arrangements for KG teachers. We have been consulting the stakeholders during the process.

(Question Serial No. 3334)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the financial position of the Hong Kong Examinations and Assessment Authority (HKEAA) in respect of conducting Territory-wide System Assessment (TSA) and Basic Competency Assessments (BCA), please provide the following information:

- (1) the cost per subject entry in each of the past 3 years, broken down by item of expenditure; and
- (2) the number of students taking the TSA/BCA broken down by year of study, and the expenditure of HKEAA on providing special examination arrangements for candidates with special educational needs in each of the past 3 years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 107)

Reply:

(1)
The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment (BCA) project, including Student Assessment (SA) (2017 and before) and Territory-wide System Assessment (TSA). The payment, which is settled with the HKEAA according to the terms of contract and service items (instead of subjects) on an annual basis, includes item setting, printing, and administration fees on administering schools' participation in the assessment. In the relevant contract period, the average expenditure incurred for the 2016/17, 2017/18 and 2018/19 school years was \$73 million, \$73 million and \$85 million respectively.

(2)
According to the information provided by the HKEAA, the number of students participating in TSA from the 2016/17 to 2018/19 school years is set out below:

School Year/Level	Primary 3	Primary 6	Secondary 3
2016/17 school year	54 506	47 220	52 707
2017/18 school year	See below for details	Around 2 500 [△]	Around 50 000

△ Since 2012, Primary 6 TSA has been conducted in odd-numbered years and schools can opt to take the assessment in even-numbered years on a voluntary basis.

Starting from 2018, Primary 3 TSA has been conducted with a low-stake approach of “no student names, no school names, no collection of reports and selection of participants by sampling”. At the territory-wide level, the HKEAA samples around 10% of students from each public sector and Direct Subsidy Scheme school for Primary 3 TSA each year. If schools consider necessary, the HKEAA can arrange participation of their Primary 3 students in TSA in full cohort.

Since the number of schools arranging participation of their Primary 3 students in TSA in full cohort (and the related number of students) is not pertinent to the policy objective, the EDB does not ask the HKEAA about the schools that opt for full participation of their Primary 3 students in TSA (and the related number of students), and no longer maintains the information on the related breakdown of primary and secondary students participating in TSA. In line with the policy intent of the assessment arrangements, the HKEAA will also no longer disclose the relevant information.

According to the information provided by the HKEAA, the expenditure involved in providing special examination arrangements for students with special educational needs and non-Chinese speaking students participating in TSA in the 2016/17, 2017/18 and 2018/19 school years was about \$160,000, \$140,000 and \$180,000 respectively.

Question:

For kindergartens (KGs) with child care centres (CCCs), please provide the following information in respect of the 2018/19 and 2019/20 school years:

- (1) For KGs with CCCs that have joined the KG education scheme:
 - (a) The numbers of KGs and the numbers of students in their CCCs;
 - (b) The respective numbers of CCCs which only operate whole-day (WD) classes, operate both WD and half-day (HD) classes and only operate HD classes, and the numbers of students;
 - (c) The highest, lowest, average and median school fees for WD and HD classes in these CCCs;
 - (d) How many KGs operate their CCCs on a self-financing basis? What are their highest, lowest, average and median school fees? Please provide the respective information on WD and HD classes. What criteria are adopted by the Government in approving school fees charged by this kind of CCCs? Is there a ceiling on school fees? If so, please provide the respective information on WD and HD classes; and
 - (e) How many KGs operate their CCCs with subsidies from the Government? What are their highest, lowest, average and median school fees? Please provide the respective information on WD and HD classes. What criteria are adopted by the Government in approving school fees charged by this kind of CCCs? Is there a ceiling on school fees? If so, please provide the respective information on WD and HD classes.

- (2) For KGs with CCCs that have not joined the KG education scheme:
 - (a) The numbers of KGs and the numbers of students in their CCCs;
 - (b) The respective numbers of CCCs which only operate WD classes, operate both WD and HD classes and only operate HD classes, and the numbers of students;
 - (c) The highest, lowest, average and median school fees for WD and HD classes in these CCCs; and

- (d) What criteria are adopted by the Government in approving school fees charged by this kind of CCCs? Is there a ceiling on school fees? If so, please provide the respective information on WD and HD classes.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 112)

Reply:

1(a) to (b) and 2(a) to (b)

Child care centres (CCCs) attached to kindergartens (KGs) for taking care of children aged below 3 are under the purview of the Social Welfare Department (SWD). The numbers of CCCs attached to KGs joining the KG education scheme (Scheme-KGs) and KGs not joining the Scheme (non-Scheme KGs) in the 2018/19 and 2019/20 school years are tabulated at Appendix 1. Based on the information provided by the CCCs, the numbers of children aged 0 to 3 admitted by service type, is tabulated at Appendix 2.

1(c) and 2(c)

The highest, lowest and median monthly fees of CCCs attached to KGs in the 2018/19 and 2019/20 school years are tabulated at Appendix 3.

1(d) to (e) and 2(d)

In the 2018/19 and 2019/20 school years, there are 246 government-aided CCCs attached to KGs that provide long whole-day services for children aged below 3. Some of them also provide half-day services. The monthly fees of the aided CCCs by service hours are tabulated at Appendix 4.

Except for the above 246 government-aided CCCs, all non-government-aided CCCs attached to KGs are operated on a self-financing basis. In the 2018/19 and 2019/20 school years, there are 280 and 281 non-government-aided CCCs attached to KGs respectively. The SWD does not have information on the highest, lowest, average and median monthly fees of these CCCs.

In assessing fee adjustment applications by CCCs attached to KGs, the primary considerations are their overall financial status and actual operation, which include remuneration adjustment, compliance with legal requirements in respect of the number of child care workers, and facility enhancement. As the operating costs and expenditures vary among CCCs, individual CCCs are required to, during the assessment process, submit supplementary information in light of their actual operation for evaluating the proposed estimates of income and expenditure.

**Numbers of CCCs attached to KGs
in the 2018/19 and 2019/20 school years**

School year	No. of CCCs attached to Scheme-KGs	No. of CCCs attached to non-Scheme KGs

Director of Bureau: Secretary for Education

Question:

Regarding training for kindergarten (KG) teachers, please provide the information in respect of the 5 school years from 2015/16 to 2019/2020:

1. In-service training:
 - a. Please list the respective numbers of in-service KG teachers who have completed and who are pursuing a diploma programme in early childhood education, and their percentages out of the total numbers of in-service KG teachers.
 - b. Please list the respective numbers of in-service KG teachers who have completed and who are pursuing a bachelor's degree programme in early childhood education, and their percentages out of the total numbers of in-service KG teachers.
 - c. Please list the respective numbers of in-service KG principals who have completed and who are pursuing a bachelor's degree programme in early childhood education, and their percentages out of the total numbers of in-service KG principals.
 - d. Please list the respective numbers of in-service KG teachers who have completed and who are pursuing a master's degree programme in early childhood education, and their percentages out of the total numbers of in-service KG teachers.
 - e. The names of the institutions in Hong Kong which offer diploma and bachelor's degree programmes in early childhood education for in-service KG teachers. Please state whether the programmes are subsidised or self-financed, the numbers of places each year, duration and fees for the whole programme.
2. Pre-service training:
 - a. The names of the institutions in Hong Kong which offer pre-service diploma and bachelor's degree programmes in early childhood education. Please state whether the programmes are subsidised or self-financed, the numbers of places each year, duration and fees for the whole programme.
 - b. In its report submitted in 2015, the Committee on Free Kindergarten Education, entrusted by the Government, recommended that the Government should aim at raising the entry qualification requirement of KG teachers to degree level. Has the Government undertaken any planning work in this regard? If yes, please give the details. If no, please give the reasons.

Reply:

- 1a. From the 2015/16 to 2019/20 school years, the numbers of teachers serving at local kindergartens (KGs) and holding a certificate/diploma/higher diploma in early childhood education or equivalent qualifications (collectively referred to as Certificate in Early Childhood Education (C(ECE)) below) and their percentage shares are tabulated below:

School year	No. of teachers serving at local KGs and holding a C(ECE) # (%)
2015/16	11 377 (91.2%)
2016/17	11 819 (92.7%)
2017/18	12 108 (93.9%)
2018/19	12 159 (94.4%)
2019/20	12 477 (95.4%)

Figures include teachers concurrently holding a bachelor's degree in early childhood education (BEd(ECE)).

From the 2015/16 to 2019/20 school years, the numbers of teachers serving at local KGs and pursuing a C(ECE) programme and their percentage shares are tabulated below:

School year	No. of serving KG teachers pursuing a C(ECE) programme (%)
2015/16	643 (5.2%)
2016/17	583 (4.6%)
2017/18	498 (3.9%)
2018/19	570 (4.4%)
2019/20	545 (4.2%)

- 1b. From the 2015/16 to 2019/20 school years, the numbers of teachers serving at local KGs and holding a BEd(ECE) and their percentage shares are tabulated below:

School year	No. of teachers serving at local KGs and holding a BEd(ECE)* (%)
2015/16	4 947 (39.6%)
2016/17	5 480 (43.0%)
2017/18	6 119 (47.5%)
2018/19	6 563 (50.9%)
2019/20	6 949 (53.1%)

* Figures include teachers concurrently holding a C(ECE).

From the 2015/16 to 2019/20 school years, the numbers of teachers serving at local KGs and pursuing a BEd(ECE) programme and their percentage shares are tabulated below:

School year	No. of serving KG teachers pursuing a BEd(ECE) programme (%)
2015/16	2 038 (16.3%)
2016/17	1 812 (14.2%)
2017/18	1 261 (9.8%)
2018/19	1 048 (8.1%)
2019/20	1 059 (8.1%)

- 1c. From the 2015/16 to 2019/20 school years, the numbers of principals serving at local KGs and holding a BEd(ECE)/pursuing a BEd(ECE) programme and their percentage shares are tabulated below:

School year	No. of serving KG principals holding a BEd(ECE) (%)	No. of serving KG principals pursuing a BEd(ECE) programme (%)	Total (%)
2015/16	718 (82.2%)	8 (0.9%)	726 (83.1%)
2016/17	728 (82.6%)	5 (0.6%)	733 (83.2%)
2017/18	737 (84.6%)	3 (0.3%)	740 (85.0%)
2018/19	745 (85.8%)	2 (0.2%)	747 (86.1%)
2019/20	767 (87.0%)	0 (0.0%)	767 (87.0%)

- 1d. We have not collected information on KG teachers' pursuit of master's degree programmes in early childhood education.
- 1e. From the 2015/16 to 2019/20 academic years, the institutions offering in-service training programmes in early childhood education, as well as the financing modes, numbers of intakes and levels of tuition fees of these programmes are set out in Appendix 1. As the duration of study of in-service training programmes in early childhood education varies depending on requirements of individual programmes, students' year of entry and progress, etc., we do not have the relevant information.
- 2a. From the 2015/16 to 2019/20 academic years, the institutions offering pre-service training programmes in early childhood education, as well as the financing modes, numbers of intakes and levels of tuition fees of these programmes are set out in Appendix 2. As regards the duration of study, it is usually 2 years for pre-service C(ECE) programmes; 4 to 5 years for pre-service BEd(ECE) programmes; and 1 year for pre-service postgraduate diploma programmes in education (early childhood education) (PGDE(ECE)). The duration of study of pre-service training programmes in early childhood education varies depending on requirements of individual programmes, students' year of entry and progress, etc.

- 2b. At present, the basic academic qualification requirement for KG teachers is the completion of a C(ECE) programme. Various teacher education institutions are currently offering government-subsidised C(ECE) programmes and their graduates are able to discharge teaching duties effectively. Regarding the introduction of an all-graduate teaching force policy to the KG sector, the vice-principals in KGs joining the KG education scheme are currently required to possess a BEd(ECE) or equivalent qualifications. Moreover, for appointment of or promotion to the senior teacher posts, KGs are encouraged to accord priority to suitable teachers with BEd(ECE) or equivalent qualifications. We will closely monitor the number and ratio of KG teachers holding a bachelor's degree, the planning of places for teacher training, etc. and take follow-up actions as appropriate.

Note:

Information provided in this reply is based on the survey on KG teachers/child care staff conducted by the Education Bureau in September of the respective school years. In the survey, we have not individually collected statistics on the certificate, diploma and higher diploma in early child education or other equivalent qualifications, and these qualifications are all categorised under C(ECE). Figures for the 2019/20 school year are provisional.

CONTROLLING OFFICER'S REPLY

EDB408

(Question Serial No. 3342)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please provide the respective number of Principal I and Principal II in kindergartens (KGs) in Hong Kong from the 2017/18 to 2019/20 school years, under the categories of KGs operating whole-day (WD) classes only, operating half-day (HD) classes only, operating both WD and HD classes, and operating long WD classes.

(2) Regarding the tide-over grant provided by the Government to retain long-serving KG teachers, please provide the following information from the 2017/18 to 2019/20 school years:

- (a) the number of KGs receiving the tide-over grant each year;
- (b) the respective number of KG applicants, successful applications and unsuccessful applications each year, and the reasons for the unsuccessful applications;
- (c) the highest, lowest, average and median amount of tide-over grant received by KGs;
- (d) the total expenditure of tide-over grant each year;
- (e) the criteria adopted by the Government in respect of the requirements for and adjustments to teachers' average salary in approving tide-over grant applications; and
- (f) whether any tide-over grant has been clawed back as the surplus accumulated has exceeded the ceiling? If so, how many KGs are involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 115)

Reply:

(1)

Under the kindergarten (KG) education scheme (Scheme), KGs are recommended to establish a career ladder for teachers, which includes a three-level teaching staff structure with principal, senior teachers and class teachers, to retain and attract quality teachers. KGs may also appoint teachers of different ranks according to their operation scale and school-based needs. As the ranking arrangements in each KG vary with school-based contexts and needs, we have not collected the relevant information.

(2)(a) to (c) and (e)

KGs joining the Scheme (Scheme-KGs) with a large number of long-serving teachers receiving higher salaries (i.e. the average monthly salary of their basic rank full-time teachers with Certificate in Early Childhood Education or above qualification (within the teacher-to-pupil ratio of 1:15) in the 2014/15 and 2015/16 school years was higher than \$20,000) before joining the Scheme would be provided with the tide-over grant (ToG). The ToG aims to render additional financial support for these KGs to defray their expenses on teaching staff salary in the early period of implementation of the Scheme, so that KGs may retain their long-serving teachers and maintain the stability of their teaching force. In July 2017, the Government announced the extension of the 2-year ToG (2017/18 and 2018/19 school years) for 3 years (from the 2019/20 to 2021/22 school years), making a total of 5 years of provision. Regarding the arrangements for the 3-year extension, KGs approved to receive the ToG will continue to be provided with the grant. As for other KGs (i.e. those not having a large number of long-serving teachers receiving higher salaries before joining the Scheme), they should have effectively planned and deployed resources provided at the time of joining the Scheme, and in principle, there should not be insufficient subsidy to cover expenses on teachers' salary due to a large number of long-serving teachers receiving higher salaries after 2 years of implementation of the Scheme. However, given the diversity of the KG sector, there may be exceptional circumstances that need special consideration. Since the teaching staff salary portion of the basic unit subsidy is calculated at the mid-point of the salary range, we take this as the basis for consideration. For KGs marginally ineligible for the ToG in the past years, should their basic rank teachers' average monthly salary in the 2018/19 school year exceed the mid-point salary (i.e. \$30,810) of the provisional salary range (i.e. \$22,180 to \$39,440) for basic rank teachers in the 2019/20 school year due to exceptional circumstances, they may provide justifications and details about their salary arrangement for teachers. We would consider on a case-by-case basis.

The numbers of KGs applying for the ToG, and the numbers of KGs with their application approved or rejected from the 2017/18 to 2019/20 school years are tabulated at Appendix 1. Some applicant KGs were not granted the ToG because they did not meet the eligibility criteria as mentioned above. The highest, lowest, average and median amounts of ToG received by KGs are tabulated at Appendix 2.

(2)(d)

The total expenditure on the ToG in the years from 2017-18 to 2019-20 is tabulated below:

Year	2017-18	2018-19	2019-20
Expenditure on the ToG (\$ million)	135	207	214

Notes:

- (1) The expenditure on the ToG in 2017-18 reflects the expenditure for the first 8 months after the implementation of the Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018).
- (2) The expenditure on the ToG in 2019-20 is the revised estimate.

(2)(f)

When determining the surplus that KGs may accumulate, the EDB will take into account the total amount of both the portion for teaching staff salary and related expenses (i.e. Mandatory Provident Fund, Provident Fund, long service payment, etc.) in the basic unit subsidy and the ToG. On condition that Scheme-KGs are able to offer free quality half-day services and maintain fees for whole-day/long whole-day services at a reasonable level, they are allowed to accumulate a surplus up to the amount equivalent to the current year provision. So far no school has to return its surplus of the ToG.

Numbers of KGs applying for ToG
and numbers of KGs with application approved or rejected
from the 2017/18 to 2019/20 school years

School year	2017/18	2018/19	2019/20
No. of KGs applying for the ToG	508	503	486
No. of KGs with application approved	478	485	485
No. of KGs with application rejected	30	18	1

The highest, lowest, average and median amount of ToG received by KGs from the 2017/18 to 2019/20 school years

School year	2017/18	2018/19	2019/20
Highest amount received (\$'000)	2,410	2,520	1,810
Lowest amount received (\$'000)	30	20	40
Average amount received (\$'000)	430	430	290
Median amount received (\$'000)	310	310	200

Note: The amount of the 2019/20 school year shown above refers to the position as at March 2020 as the 2019/20 school year has not yet come to a close.

- End -

CONTROLLING OFFICER'S REPLY**EDB409****(Question Serial No. 3343)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the policy to improve the manpower and posts of school heads and deputy heads in special schools, please advise this Committee of the following:

(a) What is the method for calculating the salaries of heads of special schools starting from the 2020/21 school year? What is the estimated expenditure involved?

(b) Please use the table below to provide information on the headship rank of special schools:

Rank	No. of heads of special schools	
	2019/20 school year	2020/21 school year
Principal II		
Principal I		
Others (please specify)		

(c) Comparing with the 2019/20 school year, how many special schools are provided with an additional deputy head post under the new policy? How many special schools have their Primary School Curriculum Leader posts upgraded from the provision of an Assistant Primary School Master/Mistress post to a Primary School Master/Mistress post?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 116)

Reply:

(a) The Government has accepted all the recommendations put forward by the Task Force on Professional Development of Teachers in March 2019 and has been actively following up on the relevant measures, including improving the manpower of vice-principals in public sector schools (including special schools), the demarcation arrangements for headship ranking in public sector secondary schools (including special schools), and the conversion arrangement for determining the headship ranking and provision of vice-principals in special schools with combined levels and special secondary schools. Starting from the 2020/21 school year, the Education Bureau (EDB) will improve the demarcation arrangements for headship ranking in public sector special schools with a secondary section by lowering the qualifying criterion of a Principal II post from 15 approved equivalent ordinary classes to 12 approved equivalent ordinary classes, and lowering the qualifying criterion of a Principal I post from 24 approved equivalent ordinary classes to 18 approved equivalent ordinary classes. In parallel, we will improve the conversion arrangement for determining the headship ranking in special schools. The weighting for converting primary, junior secondary and senior secondary classes in special schools into equivalent classes will be adjusted across the board from 0.6, 0.8 and 1 to 1. The number of equivalent classes so derived will be used for determining the headship ranking in special schools by converting 18 equivalent classes into 24 ordinary secondary classes. The implementation of the above improvement measures in special schools will involve an additional expenditure of around \$9.8 million per year.

(b) Information on the headship ranking in special schools for the 2019/20 school year is tabulated below:

Rank	No. of special school heads
Principal I	4
Principal II	14
Principal Graduate Master/Mistress	42

Note: Figures refer to the position as at September 2019.

In the 2020/21 school year, the headship ranking in special schools will be determined by the actual number of approved classes. The number of heads at different ranks is not available at this stage.

(c) Starting from the 2020/21 school year, the EDB will improve the manpower of vice-principals in public sector special schools. It is estimated that under the relevant measures, more than 40 special schools will be provided with additional vice-principal post(s). Furthermore, the EDB will upgrade the Primary School Curriculum Leader post in special schools with 11 or fewer primary classes from an Assistant Primary School Master/Mistress post to a Primary School Master/Mistress post to enable Primary School Curriculum Leaders serving schools of a smaller scale to perform their curriculum leadership duties more effectively. It is estimated that more than 50 special schools will be benefited.

- End -

CONTROLLING OFFICER'S REPLY**EDB410****(Question Serial No. 3344)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

It is stated in the Estimates 2020 that the Bureau will enhance the additional funding to all public sector and Direct Subsidy Scheme primary and secondary schools and special schools admitting a relatively small number of non-Chinese speaking (NCS) students under a new two-tiered arrangement to facilitate the implementation of the "Chinese Language Curriculum Second Language Learning Framework" starting from the 2020/21 school year.

- (a) In this connection, what are the policy details? What is the estimated total expenditure on the above item for the 2020/21 school year?
- (b) What are the respective estimated expenditures on the above item in the primary, secondary and special school sectors for the 2020/21 school year?
- (c) Using the table below, please provide the number of schools benefitting from the new policy in the 2020/21 school year.

Tier of subsidy	Number of eligible primary schools	Number of eligible secondary schools	Number of eligible special schools
Tier 1			
Tier 2			
Tier 3			
Tier 4			
Tier 5			
Tier 6			
Tier 7			
Total			

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 117)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme schools offering the local curriculum (hereinafter referred to as "ordinary schools") and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. Besides, all special schools admitting 6 to 9 NCS students and offering an ordinary school curriculum, and special schools admitting 6 or more NCS students and offering an adapted curriculum are provided with an additional funding of \$0.65 million. The funding model for special schools admitting 10 or more NCS students and offering an ordinary school curriculum is the same as that for the ordinary schools mentioned above. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 NCS students for ordinary schools and 1 to 5 NCS students for special schools), their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes.

To enhance the support for NCS students in learning Chinese and create an inclusive learning environment in schools, EDB will, starting from the 2020/21 school year, provide a new two-tiered subsidy for all schools admitting a relatively small number of NCS students (1 to 5 NCS students for ordinary schools and special schools, and 6 to 9 NCS students for ordinary schools) and increase the amount of the additional funding from currently \$50,000 to \$0.15 million or \$0.3 million. It is estimated that about 200 ordinary primary schools, 180 ordinary secondary schools and 23 special schools will be provided with the additional funding in the 2020/21 school year. The expenditure involved will be about \$34.35 million, \$30.9 million and \$3.45 million respectively. As for ordinary schools admitting 10 or more NCS students and special schools admitting 6 or more NCS students, it is estimated that about 150 ordinary primary schools, 130 ordinary secondary schools and 26 special schools will be provided with an additional funding ranging from \$0.65 million to \$1.5 million in the 2020/21 school year. The expenditure involved will be about \$144.25 million, \$125.15 million and \$17.35 million respectively. The above figures are preliminary estimation based on the number of schools admitting NCS students in the past. Details about the number of schools by funding tier and the actual expenditure on the additional funding will only be available after information on the number of NCS students provided to EDB by schools through the Enrolment Survey conducted at the beginning of the 2020/21 school year is collated. The amount of the additional funding provided to

schools admitting NCS students will also be adjusted based on the year-on-year movement of the Composite Consumer Price Index and/or the annual rates of the Civil Service Pay Adjustment.

Director of Bureau: Secretary for Education

Question:

Regarding the issue of half pay to teachers on suspension as set out in the Code of Aid for Primary Schools (September 1994), Code of Aid for Secondary Schools (September 1994) and Code of Aid for Special Schools (November 1998) (hereinafter referred to as "Codes of Aid"), would the Government advise this Committee of the following:

- (1) How many applications were received by the Education Bureau (EDB) for granting half pay to teachers on suspension from the school management committees/incorporated management committees each year since September 1994? How many of them were approved and rejected by the EDB each year? What were the reasons involved?
- (2) Are there any criteria underlying the EDB's consideration as to whether approval should be given for granting half pay to teachers on suspension? If yes, what are the specific criteria?
- (3) Section 11 of the Employment Ordinance (Cap. 57 of the Laws of Hong Kong), which lays down stipulations about suspension from employment, mentions nothing about withholding salary from employees during their suspension period. By what criteria did the EDB come up with the revision from granting half pay to teachers on suspension under the Codes of Aid to no salary payment during all periods of suspension when teachers are absent from duty when preparing the Code of Aid for Aided Schools?
- (4) Further to the above question, for what reasons will teachers be granted half pay during suspension in accordance with the Codes of Aid?
- (5) Under what circumstances will teachers suspended be entitled to half pay, in accordance with prevailing policies and practices?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 122)

Reply:

(1) to (5)

The Education Bureau (EDB) attaches great importance to teachers' professional conduct and students' behavioural performance. Teachers play a vital role in passing on knowledge and nurturing students' character and are important role models for students. The Codes of Aid clearly stipulate that schools may, subject to the provisions of the Employment Ordinance, suspend teachers from their normal duties if they have been involved or are likely to be involved in criminal proceedings of a serious nature or in serious misconduct. As teachers will not be carrying out their duties during the periods of suspension, the teachers concerned should not receive salary payment when they are absent from duties during the suspension periods having regard to the principle of prudent use of public money. The Code of Aid for Aided Schools also stipulates that teachers employed in the school year subsequent to the incorporation of the Incorporated Management Committees (IMCs) should not receive salary payment during the periods of suspension when they are absent from duties. For teachers employed before the incorporation of the IMCs, the management committees of the schools may, pursuant to the Codes of Aid for Primary Schools, Secondary Schools and Special Schools, pay half of the salaries to these teachers during their suspension periods on the condition that the schools have obtained the EDB's prior approval on such arrangements. Nevertheless, the arrangement of teachers on suspension receiving half pay would only be considered under special circumstances and is not applicable to every case. Meanwhile, according to the Codes of Aid and Code of Aid for Aided Schools, the salary pertaining to the periods of suspension will not be paid after the teachers' reinstatement. The above arrangements are not inconsistent with the relevant provisions of the Employment Ordinance.

From the 2015/16 to 2019/20 school years (as at 29 February 2020), 2 applications for 3 suspended teachers to receive half pay were received by the EDB, none of them were approved.

Director of Bureau: Secretary for Education

Question:

Regarding the implementation of Chinese History as a compulsory subject at the junior secondary level, will the Government advise this Committee of the following:

- (1) What resources will be allocated to help implement the curriculum?
- (2) What was the number of teachers teaching Chinese History at the junior secondary level in each of the past 5 school years? How many of them majored or minored in a relevant discipline, or did not major or minor in one? What are their respective percentage shares against the total?
- (3) How many additional Chinese History teachers will be required with the implementation of Chinese History as an independent compulsory subject at the junior secondary level? Separately, how many more teachers need to be trained?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 123)

Reply:

(1)-(3)

The Education Bureau (EDB) started implementing Chinese History as an independent compulsory subject at the junior secondary level in the 2018/19 school year to enable all junior secondary students to learn Chinese history and culture in a systematic way. The revised Chinese History curriculum (Secondary 1 to 3) will also be implemented progressively starting from Secondary 1 in the 2020/21 school year.

To support schools in the promotion of Chinese history and culture, the EDB provided every public sector and Direct Subsidy Scheme (DSS) primary and secondary school with a one-off grant of \$100,000 and \$150,000 respectively in the 2017/18 school year. The grant is used for helping teachers enhance the teaching of primary General Studies, Chinese Language at primary and secondary levels, Chinese History and Chinese Literature, so that students can appreciate the spirit of excellence and the civilisation of the Chinese people. In accordance with their own context and development needs, schools may flexibly deploy the one-off grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. In both the 2018/19 and 2019/20 school years, the EDB also provided every public sector and DSS secondary school admitting non-Chinese speaking (NCS) students at the junior secondary level with \$50,000 as a “Non-recurrent Grant for Supporting NCS Students to Learn Chinese History and Culture” to support teachers in enhancing measures for teaching Chinese History to NCS students and conducting related learning activities. Schools may flexibly deploy various kinds of existing subsidies. For example, they may use the Promotion of Reading Grant provided for public sector schools since the 2018/19 school year to procure reading resources and organise school-based reading activities related to Chinese history and culture. Schools may also use the Life-wide Learning Grant disbursed by the EDB starting from the 2019/20 school year to organise diversified experiential learning activities beyond the classroom, such as visits, field trips and study tours outside Hong Kong, to provide students with enriched learning experiences and to broaden their horizons.

Based on the information provided by schools, statistical data on teachers teaching Chinese History at the junior secondary level in the past 5 school years is as follows:

School year	No. of junior secondary Chinese History teachers majoring in history-related disciplines (Percentage)	No. of junior secondary Chinese History teachers minoring in history-related disciplines (Percentage)	No. of junior secondary Chinese History teachers who neither majored or minored in history-related disciplines (Percentage)	Total no. of junior secondary Chinese History teachers
2019/20*	812(47%)	153(9%)	769(44%)	1734
2018/19	785(46%)	164(10%)	740(44%)	1689
2017/18	733(46%)	154(10%)	707(44%)	1594
2016/17	720(45%)	159(10%)	715(45%)	1594
2015/16	716(46%)	157(10%)	692(44%)	1565

* Provisional figures

The number of Chinese History teachers has been on the rise in the past 5 school years. We will continue to organise teacher professional development activities in different modes, including seminars and workshops on curriculum interpretation, curriculum leadership, and learning and teaching strategies, form learning communities, provide school-based support services, and organise Mainland study tours on history etc., in order to enrich teachers' knowledge of Chinese history and refine their learning and teaching strategies. At the same time, based on the revised Chinese History curriculum (Secondary 1 to 3), the EDB will organise structured programmes to equip teachers. We will continue to collaborate with experts, academics and experienced frontline teachers in the development of diversified teaching resources, such as teaching materials for e-learning, video lessons and history project learning, to enhance learning and teaching effectiveness.

CONTROLLING OFFICER'S REPLY**EDB 413****(Question Serial No. 3352)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (4) Secondary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please provide the respective number of schools offering Chinese History, History, History and Culture, Life and Society, Geography, Integrated Humanities and Liberal Studies at the junior secondary level and the number of teachers teaching these subjects in the past 5 years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 124)Reply:

According to the information provided by schools, the respective numbers of schools offering Chinese History, History, History and Culture, Life and Society, Geography, Integrated Humanities and Liberal Studies at the junior secondary level in the past 5 years are set out below:

School year	Chinese History	History	History and Culture	Life and Society	Geography	Integrated Humanities	Liberal Studies*
2015/16	393	287	24	80	350	103	275
2016/17	396	288	20	81	352	97	278
2017/18	403	291	18	92	355	93	273
2018/19	433	301	13	100	359	91	264
2019/20	441	305	9	163	364	95	159

According to the information provided by schools, the respective numbers of local secondary school teachers teaching Chinese History, History, History and Culture, Life and Society, Geography, Integrated Humanities and Liberal Studies at the junior secondary level in the past 5 years are set out below:

School year	Chinese History	History	History and Culture	Life and Society	Geography	Integrated Humanities	Liberal Studies*
2015/16	1565	771	106	363	898	558	1426
2016/17	1594	796	82	353	924	528	1425
2017/18	1594	817	96	403	954	507	1414
2018/19	1689	863	67	443	965	491	1313
2019/20#	1734	877	47	603	983	476	1122

* As recommended by the Curriculum Development Council, Liberal Studies is a subject to be offered at the senior secondary level. However, some schools offer school-based Liberal Studies at the junior secondary level. The Education Bureau has made it clear to the secondary school sector through different channels that such an arrangement is inappropriate and required the schools concerned to take follow-up actions as soon as practicable.

Director of Bureau: Secretary for Education

Question:

The Government has amended the Prevention and Control of Disease Ordinance (Cap. 599, Laws of Hong Kong) to include “severe respiratory disease associated with a novel infectious agent” (hereafter “novel coronavirus”) as a scheduled infectious disease specified in item 34AAA of Schedule 1 to the Ordinance. Regarding the provisions under sections 53 and 54 of the Education Regulations (ER) (Cap. 279A, Laws of Hong Kong), sections 6 and 8 of the Occupational Safety and Health Ordinance (Cap. 509, Laws of Hong Kong) and the Code of Aid for Aided Schools (Release 1.13a) (“Code”), would the Government please inform this Committee of the following:

- (1) In the past 10 years (2009-2019):
 1. Has section 53 of the ER been enforced?
 - I. If yes, please provide the following information by school year: the number of cases, specifics and results of enforcement actions, the scheduled infectious disease involved, categories of persons excluded from schools, and number of school medical officers appointed;
 - II. If no, what are the reasons?
 2. Has section 54 of the ER been enforced?
 - I. If yes, please provide the following information by school year: the number of cases, categories of persons submitted to medical examinations, and specifics and results of enforcement actions.
 - II. If no, what are the reasons?
 3. Which section/division of the Education Bureau (EDB) and officers under the Permanent Secretary (PS(Ed)) are responsible for the enforcement of the above provisions? What are their ranks?
- (2) Will the PS(Ed) consider to enforce the provisions under sections 53 and 54 of the ER to prevent the spread of the novel coronavirus in schools? If yes, what are the specific implementation details? If no, what are the reason?

- (3) If schools are aware or suspect that certain students (including students returning from the Mainland or cross-boundary students) or teaching staff are showing symptoms but they refuse to submit to medical examinations and self-isolation and insist on coming to school, will the schools be required to report them to the EDB as soon as possible?
- I. If yes, upon receiving the report, will the EDB arrange school medical officers to examine the student or teaching staff concerned as required by the law? Subject to section 53 of the ER, will the student or teaching staff concerned be excluded from school? If yes, how specifically will the law be enforced? If no, what are the reasons?
- II. If no, what are the reasons?
- (4) How will the EDB ensure that schools and their teaching staff have sufficient anti-epidemic supplies to stay in compliance with the requirements of the Occupational Safety and Health Ordinance?
- (5) Will the EDB extend special tuberculosis leave provided in the Code to teaching staff infected by the novel coronavirus? If yes, what are the specific implementation details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 126)

Reply:

(1) to (2) Under the prevailing mechanism, schools should make reference to the Guidelines on Prevention of Communicable Diseases in Schools/Kindergartens/Kindergartens-cum-Child Care Centres/ Child Care Centres issued by the Centre for Health Protection (CHP) of the Department of Health (DH) when handling the report of cases where school staff or students are infected with a communicable disease and related matters. Schools are required to report to the CHP and the Education Bureau (EDB) any suspected or confirmed cases of infectious diseases, which are not confined to the scheduled infectious diseases specified in section 53 of the Education Regulations (ER). Upon receipt of a reported case, the CHP will immediately carry out epidemiological investigation and provide advice to schools on the necessary control measures to prevent further spread of communicable diseases among students and staff. The CHP and the EDB will maintain close liaison to ensure that infection control measures are put in place timely. Schools have been keeping in view the health conditions of students and staff. The above reporting mechanism has been working effectively. The EDB does not collect information on the items mentioned in part (1) of the question.

Regarding the medical examination of teachers, students and employees under section 54 of the ER, X-ray examinations for teaching post applicants are available in 3 designated X-ray centres under the Tuberculosis and Chest Service of the DH. The 3 designated X-ray centres are Kowloon Bay Radio-diagnostic and Imaging Centre, Fanling Radio-diagnostic and Imaging Centre, and Sai Ying Pun X-ray Survey Centre. The number of persons undergoing X-ray examination for the purpose of applying a teaching post in the past 5 school years is tabulated below:

School year	Kowloon Bay Radio-diagnostic and Imaging centre (1)	Fanling Radio-diagnostic and Imaging centre (2)	Sai Ying Pun X-ray Survey Centre (3)	Total (1+2+3)
2014/15	2 479	1 051	1 025	4 555
2015/16	2 157	1 046	1 114	4 317
2016/17	2 868	1 294	1 258	5 420
2017/18	3 020	1 531	1 617	6 168
2018/19	3 065	1 486	1 364	5 915

The EDB does not collect information on the medical examinations undergone by teachers, students and other employees.

At present, the tasks pertinent to the prevention and control of spread of infectious diseases in schools are undertaken by different sections under the EDB, and the manpower and expenses involved are subsumed under the EDB's overall expenditure. The EDB will deploy resources and manpower in accordance with the operational needs.

(3) To protect the health of students, teachers and other school personnel and to contain the spread of Coronavirus Disease 2019 (COVID-19), the EDB has announced suspension of classes for all schools. During the class suspension, teachers have adopted diversified modes to facilitate students' learning at home. Schools only need to arrange suitable staff to be on duty and take care of students who have to go back to school for lack of carer at home, handle school basic and essential affairs and parents' enquiries. Most of the teachers have been working from home. Recognising the importance of maintaining their own health and public health, teachers and other school personnel who feel unwell should seek medical consultation promptly, receive treatment as advised by the doctors and/or keep themselves in quarantine or isolation according to the statutory requirements.

(4) To support schools' efforts in epidemic prevention, the EDB has deployed existing resources to provide a one-off grant to all schools offering full and formal curriculum (including kindergartens, public sector schools, Direct Subsidy Scheme schools, the English Schools Foundation schools, international schools, Private Independent Schools, private primary schools and private secondary day schools) to help them replenish their epidemic prevention equipment (such as face masks and thermometers), clean their school premises and pay for the other expenses related to epidemic prevention. The provision is estimated to be \$42 million, benefitting some 2 200 schools. Furthermore, the boarding sections of aided special schools have been operating to cater for students in need of boarding service during class suspension. To enhance the support for the boarding sections to guard against the epidemic and to reduce the risk of the spread of the novel coronavirus, the EDB will provide separately a one-off additional grant for 21 special schools with a boarding section. The additional expenditure is estimated to be \$2.25 million.

We will keep in view the procurement of anti-epidemic supplies by schools through our daily communication. To our understanding, the supply of anti-epidemic goods was relatively tight early in the epidemic. Nevertheless, since all classes have been suspended, schools do not require a huge amount of anti-epidemic supplies. We note that the shortage of anti-epidemic supplies has begun to improve recently. The date of class resumption and related arrangements will be announced at least 3 weeks in advance, so schools should have

sufficient time to make suitable preparations. As schools are different in scale and needs, they also differ in respect of the type and number of anti-epidemic supplies they need. Schools could make good use of the funding for meeting daily operational expenses provided by the EDB and the anti-epidemic grants to procure necessary anti-epidemic supplies according to their school-based needs.

(5) As stipulated in the Codes of Aid, regular teachers of aided schools suffering from tuberculosis may apply for special tuberculosis leave with the support of valid medical certificates. Such leave only covers tuberculosis, not all lung diseases. At present, upon receipt of suspected infectious disease outbreak from schools, the CHP will immediately carry out epidemiological investigation and provide advice to schools on control measures to prevent further spread of the infectious disease among students and school staff. Given the characteristics of COVID-19 are not the same as tuberculosis, it is not appropriate to directly extend the arrangements for special tuberculosis leave provided in the Codes of Aid to COVID-19.

- End -

(1) Please provide the number of agency workers engaged in each of the years from 2014 to 2018.

Scope of service		2014	2015	2016	2017	2018
1. To meet urgent or unforeseen service needs or unexpected surge in service demands for the short-term						
1a. Clerical and general support						
1b. To support the processing of applications for Registration Certificate for Kindergarten Admission and other kindergarten-related tasks						
1c. Executive support/Project co-ordination						
1d. Information technology support, other education and research work						
2. To meet service needs which entail irregular work patterns or where the nature of the work involved renders it difficult to recruit and retain staff						
3. To fill short-term manpower gap						
4. To provide short-term manpower to deliver services the mode of which will be changed shortly						
Total						

(2) What employment agencies did the Administration commission respectively to provide the listed services in each of the years? What were the selection criteria? What was the amount of funding approved to pay for the commissioned service?

(3) What did the scopes “Clerical and general support” and “Executive support/Project co-ordination” under “To meet urgent or unforeseen service needs or unexpected surge in service demands for the short-term” specifically cover?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 128)

Reply:

(1) The number of agency workers engaged by the Education Bureau (EDB) in each of the years from 2015 to 2018 is as follows –

Scope of service/Year*	2015	2016	2017	2018
1. To meet urgent or unforeseen service needs or unexpected surge in service demands for the short-term	59	93	113	134
1a. Clerical and general support	38	54	47	68
1b. To support the processing of applications for Registration Certificate for Kindergarten Admission and other kindergarten-related tasks	0	24	32	39
1c. Executive support/Project co-ordination	21	12	30	26
1d. Information technology support, other education and research work	0	3	4	1
2. To meet service needs which entail irregular work patterns or where the nature of the work involved renders it difficult to recruit and retain staff	0	0	0	0
3. To fill short-term manpower gap	11	6	4	10
4. To provide short-term manpower to deliver services the mode of which will be changed shortly	0	0	0	0
Total	70	99	117	144

* As at 30 September of the respective years.

(2) In procuring agency worker service, the EDB abides by the relevant Stores and Procurement Regulations and Financial Circulars, and adheres to the Government’s long-standing established procurement principles, including value for money, transparency, open and fair competition and accountability. The total amount of agency worker service contracts awarded by the EDB in each of the years from 2015 to 2018 is as follows –

Year*	Total amount of service contracts (\$ million)
2015	8.23
2016	10.03
2017	15.54
2018	17.45

* As at 30 September of the respective years.

(3) The EDB engaged agency workers to provide “clerical and general support” and “executive support/project co-ordination” services “to meet urgent or unforeseen service needs or unexpected surge in service demands for the short-term”. Specifically, their tasks include handling general enquiries, collating statistics, helping organise activities and taking forward information technology projects.

Question:

Regarding kindergartens (KGs) under the subsidy of the Free Quality Kindergarten Education Scheme (Scheme) in the 2017/18 and 2018/19 school years, please provide the following information:

- (1) Since the implementation of the Scheme, the number of teachers whose salary is \$21,680 (i.e. the minimum pay point of the salary range), and among them, the number of teachers serving in half-day (HD) KGs and their percentage share in the total number of teachers in HD KGs, the number of teachers serving in whole-day (WD) KGs and their percentage share in the total number of teachers in WD KGs, as well as the number of teachers serving in long whole-day (LWD) KGs and their percentage share in the total number of teachers in LWD KGs;
- (2) Since the implementation of the Scheme, the number of teachers whose salary is \$38,550 (i.e. the maximum pay point of the salary range), and among them, the number of teachers serving in HD KGs and their percentage share in the total number of teachers in HD KGs, the number of teachers serving in WD KGs and their percentage share in the total number of teachers in WD KGs, as well as the number of teachers serving in LWD KGs and their percentage share in the total number of teachers in LWD KGs;
- (3) Since the implementation of the Scheme, the median salary of teachers in KGs under the Scheme, the actual median salary of teachers, senior teachers and all teachers, as well as the number of KGs with an actual median salary above, lower or equivalent to the median salary of teachers in KGs under the Scheme and their respective percentages;
- (4) Since the implementation of the Scheme, the average, median, highest and lowest salaries of teachers, senior teachers and principals in local private independent KGs; and

- (5) Since the implementation of the Scheme, the respective numbers of Principal I and Principal II in subsidised KGs, and the highest, lowest, average and median salaries of Principal I and Principal II in subsidised KGs, with a breakdown by HD, WD, mixed and LWD KGs.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 129)

Reply:

For information on the salaries of teachers in kindergartens (KGs) joining the KG education scheme (Scheme-KGs) in the 2017/18 and 2018/19 school years, please refer to our replies to items (1) to (3) and (5) below. The information provided is based on the survey on KG teachers/child care staff conducted by the Education Bureau (EDB) in September of the respective school years. Each year, we request Scheme-KGs to properly follow up on individual cases where teachers' salaries are not in compliance with the salary ranges. For the 2019/20 school year, the EDB notified Scheme-KGs in early March this year of the salary ranges for teaching staff which have been adjusted based on the latest civil service pay adjustment announced at the end of February. Scheme-KGs would adjust the salaries of their teachers accordingly if necessary. Hence, the EDB is unable to provide the relevant information relating to Scheme-KGs for the 2019/20 school year at this stage.

- (1)(i) In the 2017/18 school year, the number of teachers in Scheme-KGs with a monthly salary of \$20,770 (i.e. the minimum pay point of the recommended salary range for teachers with Certificate in Early Childhood Education (C(ECE)) or above qualification in the 2017/18 school year) was 1 499 and their percentage share in the total number of teachers in Scheme-KGs was 15.9%. Among them, the numbers of teachers serving in half-day (HD) and whole-day (WD) KGs and their respective percentage share are tabulated below:

Number of teachers with a salary of \$20,770 in Scheme-KGs					
KGs operating HD classes only		KGs operating WD classes only		KGs operating both WD and HD classes	
No. of teachers	Percentage	No. of teachers	Percentage	No. of teachers	Percentage
292	12.3%	407	17.0%	800	17.2%

Among the above KGs, the number of teacher with a monthly salary of \$20,770 serving in Former Aided Child Care Centres (FACs) was 427, accounting for 17.5% of the total number of teachers in FACs.

- (ii) In the 2018/19 school year, the number of teachers in Scheme-KGs with a monthly salary of \$21,680 (i.e. the minimum pay point of the recommended salary range for teachers with C(ECE) or above qualification in the 2018/19 school year) was 850 and their percentage share in the total number of teachers in Scheme-KGs was 9.1%. Among them, the number of teachers serving in HD and WD KGs and their respective percentage share are tabulated below:

Number of teachers with a salary of \$21,680 in Scheme-KGs					
KGs operating HD classes only		KGs operating WD classes only		KGs operating both WD and HD classes	
No. of teachers	Percentage	No. of teachers	Percentage	No. of teachers	Percentage
158	6.7%	212	8.6%	480	10.5%

Among the above KGs, the number of teachers with a monthly salary of \$21,680 serving in FACs was 222, accounting for 9.0% of the total number of teachers in FACs.

- (2) (i) In the 2017/18 school year, there were 4 teachers with a salary of \$36,930 (i.e. the maximum pay point of the recommended salary range for teachers with C(ECE) or above qualification in the 2017/18 school year) in Scheme-KGs, including 2 serving in KGs operating HD classes and another 2 serving in KGs operating both WD and HD classes. Since there were only a few of them, their percentage share in the total number of teachers in those KGs was not compiled. None of these 4 teachers served in an FAC.
- (ii) In the 2018/19 school year, there were 11 teachers with a salary of \$38,550 (i.e. the maximum pay point of the recommended salary range for teachers with C(ECE) or above qualification in the 2018/19 school year) in Scheme-KGs, including 8 serving in KGs operating HD classes, 2 serving in KGs operating WD classes and 1 serving in KGs operating both WD and HD classes. Since there were only a few of them, their percentage share in the total number of teachers in those KGs was not compiled. Among these 11 teachers, 2 served in an FAC.
- (3) (i) In the 2017/18 school year, the median monthly salary of teachers in Scheme-KGs was \$23,270. The respective numbers of KGs with a median salary above, below and equivalent to the median salary, and their respective percentage share in the total number of Scheme-KGs are tabulated below:

	Scheme-KGs with a median salary above, below or equivalent to the median salary of teachers in Scheme-KGs (i.e. \$23,270)	
	No. of KGs#	Percentage
Below the median salary	405	55.0%
Equivalent to the median salary	1	0.1%
Above the median salary	331	44.9%
Total	737	100%

There are pay gaps between teachers serving in the same KG. KGs with a median salary above \$23,270 are placed in the “above the median salary” category. Similarly, KGs with a median salary below \$23,270 are placed in the “below the median salary” category.

- (ii) In the 2018/19 school year, the median monthly salary of teachers in Scheme-KGs was \$25,024. The respective numbers of KGs with a median salary above, below and equivalent to the median salary, and their respective percentage share in the total number of Scheme-KGs are tabulated below:

	Scheme-KGs with a median salary above, below or equivalent to the median salary of teachers in Scheme-KGs (i.e. \$25,024)	
	No. of KGs##	Percentage
Below the median salary	379	51.00%
Equivalent to the median salary	0	0.00%
Above the median salary	364	49.00%
Total	743	100.00%

There are pay gaps between teachers serving in the same KG. KGs with a median salary above \$25,024 are placed in the “above the median salary” category. Similarly, KGs with a median salary below \$25,024 are placed in the “below the median salary” category.

- (iii) Unlike aided primary and secondary schools, there is no approved teaching establishment in KGs. As the proposed number and rank of senior teachers are for KGs’ reference only and the actual arrangements may vary among KGs, it is inappropriate to provide the median salary of senior teachers by rank.
- (4) (i) In the 2017/18 school year, the average, median, highest and lowest salaries of teachers in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of teachers in local private independent KGs		
	KGs operating HD classes only (\$)	KGs operating WD classes only (\$)	KGs operating both HD and WD classes (\$)
Average salary	26,403	24,439	23,177
Median salary	24,760	23,270	20,000
Highest salary	129,080	37,570	82,572
Lowest salary	8,200	17,000	10,800

- (ii) In the 2018/19 school year, the average, median, highest and lowest salaries of teachers in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of teachers in local private independent KGs		
	KGs operating HD classes only (\$)	KGs operating WD classes only (\$)	KGs operating both HD and WD classes (\$)
Average salary	28,167	25,749	23,799
Median salary	26,700	25,060	21,000
Highest salary	86,719	40,420	88,744
Lowest salary	11,000	20,770	11,000

- (iii) In the 2019/20 school year, the average, median, highest and lowest salaries of teachers in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of teachers in local private independent KGs (provisional figures)		
	KGs operating HD classes only (\$)	KGs operating WD classes only (\$)	KGs operating both HD and WD classes (\$)
Average salary	29,573	27,449	25,465
Median salary	28,000	25,830	22,225
Highest salary	92,100	45,000	100,916
Lowest salary	12,204	19,800	11,400

- (iv) In the 2017/18 school year, the average, median, highest and lowest salaries of principals in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of principals in local private independent KGs		
	KGs operating HD classes only (\$)	KGs operating WD classes only (\$)	KGs operating both HD and WD classes (\$)
Average salary	47,685	66,448	47,145
Median salary	40,100	46,200	40,500
Highest salary	78,328	110,000	103,535
Lowest salary	26,000	43,145	20,800

- (v) In the 2018/19 school year, the average, median, highest and lowest salaries of principals in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of principals in local private independent KGs		
	KGs operating HD classes only (\$)	KGs operating WD classes only (\$)	KGs operating both HD and WD classes (\$)
Average salary	55,739	46,200	48,609
Median salary	46,000	46,200	42,325
Highest salary	141,985	46,200	108,725
Lowest salary	29,500	46,200	20,800

- (vi) In the 2019/20 school year, the average, median, highest and lowest salaries of principals in local private independent KGs operating WD and HD classes are tabulated below:

	Monthly salary of principals in local private independent KGs (provisional figures)		
	KGs operating HD classes only (\$)	KGs operating WD classes only (\$)	KGs operating both HD and WD classes (\$)
Average salary	54,443	42,667	48,459
Median salary	45,550	45,000	44,050
Highest salary	156,180	50,000	78,282
Lowest salary	10,000	33,000	21,000

- (vii) As private independent KGs have greater flexibility in the number and rank of teachers and senior teachers they hired and the actual arrangements may vary among KGs, it is inappropriate to provide the median salary of senior teachers by rank.

- (5) (i) The ranks of principal under the Scheme are for KGs' reference only and the actual arrangements may vary among KGs. We do not collect information on the ranks of principals. In the 2017/18 school year, the average, median, highest and lowest salaries of principals in Scheme-KGs (including FACs) are tabulated below:

	Monthly salary of principals in Scheme-KGs		
	KGs operating HD classes only (\$)	KGs operating WD classes only (\$)	KGs operating both HD and WD classes (\$)
Average salary	47,329	44,974	45,820
Median salary	47,240	44,881	45,120
Highest salary	61,170	62,225	126,000
Lowest salary	26,875	26,700	16,000

Among KGs operating WD classes in the above table, the average, median, highest and lowest monthly salaries of principals in FACs are tabulated below:

	Monthly salary of principals in FACs (\$)
Average salary	44,949
Median salary	45,056
Highest salary	62,225
Lowest salary	26,700

(ii) In the 2018/19 school year, the average, median, highest and lowest salaries of principals in Scheme-KGs (including FACs) are tabulated below:

	Monthly salary of principals in Scheme-KGs		
	KGs operating HD classes only (\$)	KGs operating WD classes only (\$)	KGs operating both HD and WD classes (\$)
Average salary	50,262	48,736	49,118
Median salary	50,825	48,540	48,154
Highest salary	64,705	66,945	138,600
Lowest salary	22,600	21,680	35,100

Among KGs operating WD classes in the above table, the average, median, highest and lowest monthly salaries of principals in FACs are tabulated below:

	Monthly salary of principals in FACs (\$)
Average salary	48,755
Median salary	48,540
Highest salary	66,945
Lowest salary	40,000

Notes: FACs refer to aided child care centres operated by the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.

CONTROLLING OFFICER'S REPLY

EDB417

(Question Serial No. 3357)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the total number of classes, demand for school places, supply of school places, cross-district students, surplus/shortage of school places, as well as the percentage of surplus/shortage over the supply of school places in different districts and Hong Kong as a whole with a breakdown by district:

(a) The supply and demand of Secondary One (S1) places under the Secondary School Places Allocation (SSPA) System from the 2014/15 to 2019/20 school years, as well as the latest projection of the supply and demand of S1 places under SSPA 2020;

(b) The supply and demand of Primary One (P1) places under the Primary One Admission (POA) System from the 2014/15 to 2019/20 school years, as well as the latest projection of the supply and demand of P1 places under POA 2020;

(c) Further to the replies in (a) and (b), the respective surplus of school places in various districts/school nets in the recent 5 years and the projection for 2020;

(d) Further to the replies in (a) and (b), the number of school places netted, the number of school places allocated, the number and percentage of school places netted from other districts against the actual number of places registered in the recent 5 years and the projection for 2020;

(e) Further to the reply in (c), how will the Administration effectively address the problem of surplus school places in certain districts? Will special measures be implemented? For example, it was suggested that 3 classes of S1 students could be allocated to these districts across the board in the 2019 school year, or that the current number of S1 classes in the territory could be frozen, or that small class teaching could be implemented; and

(f) Further to the reply in (b), how will the Administration address the problem of insufficient school places in certain districts?

(g) In view of the demographic changes in respect of student population, will the Administration set up a committee to devise an effective, sustainable and long-term solution? If so, when will this happen and what is the timetable for it? If not, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 130)

Reply:

(a), (c) and (d) The Secondary School Places Allocation (SSPA) System is divided into 2 stages: Discretionary Places (DP) and Central Allocation (CA). During the DP stage, parents may, without restriction on districts, apply to not more than 2 participating secondary schools. The CA stage comprises 2 parts, namely unrestricted school choices and restricted school choices. Under SSPA, the secondary school net of students is determined by the location of the primary schools they attend rather than their place of residence. Hence, parents may choose schools in other districts during the DP and CA stages. In addition, some students may, for different reasons, apply to other schools for admission on their own accord after the release of the allocation results each year. Therefore, statistics on the number of cross-district students (including the actual number of places registered) are not available.

A total of 46 659, 45 544, 47 203, 49 554 and 52 917 students participated in SSPA from 2015 to 2019 (i.e. for admission to Secondary 1 (S1) from the 2015/16 to 2019/20 school years) respectively. A breakdown by students' school net is at Annex 1. The respective numbers of S1 classes, places and students in public sector schools by district from the 2015/16 to 2019/20 school years is at Annex 2. As SSPA 2020 has not yet completed, relevant figures for the 2020/21 school year are not available.

The provision of public sector secondary school places is planned on a territory-wide basis. To ensure an adequate supply of school places to meet the demand and to provide students with more school choices in districts with a smaller number of school places, netting of school places from neighbouring areas is a long-established arrangement which can also address the concerns and needs of different stakeholders. When making netting arrangements, the Education Bureau (EDB) takes into consideration a number of factors, such as the demand and supply of school places in different districts, location of schools and the associated transport facilities as well as the established netting pattern, to ensure a stable supply of school places in each district and provide parents with more choices. The secondary schools that offer places for other school nets in the CA stage and the projected number of school places from 2015 to 2020 are set out in the Secondary School Lists of the respective

years for parents' reference. Each year, the actual number of school places netted and the situation of students' actual registration in relevant districts could be affected by different factors, including the unrestricted school choices made by parents during the DP and CA stages. Relevant statistics are not readily available.

(b), (c) & (d)

The Primary One Admission (POA) System is divided into 2 stages, DP and CA. During the DP stage, parents may apply to 1 public sector primary school either within or outside the school net in which they reside. Children who have failed to secure a discretionary school place may participate in CA, which comprises 2 parts, namely unrestricted school choices and restricted school choices. For applicant children residing in Hong Kong, their school net is determined by their residential address. Certain school nets may cover 2 districts. Hence, a number of parents may choose schools from other districts/school nets in the DP and CA stages. In addition, some students may, for different reasons, apply to other schools for admission on their own accord after the release of the allocation results each year. Therefore, statistics on the number of cross-district students (including the actual number of places registered) are not available.

A total of 50 637, 51 747, 55 880, 56 648 and 49 567 children were allocated Primary 1 (P1) places in POA from 2015 to 2019 (i.e. for admission to P1 from the 2015/16 to 2019/20 school years) respectively. A breakdown by applicant children's school net is at [Annex 3](#). The respective number of P1 classes, places and students in public sector schools by district from the 2015/16 to 2019/20 school years is at [Annex 4](#). As POA 2020 has not yet completed, relevant figures for the 2020/21 school year are not available.

The provision of public sector primary school places is planned on a district basis. Under POA, the demand and supply of P1 school places in individual school nets may vary across years. Providing sufficient school places for parents' selection by netting places from school nets that have surplus places is a long-established arrangement. When netting school places, EDB follows the established mechanism, which includes thoroughly considering the situation of schools in the school nets concerned, location of schools, the transportation available to facilitate students travelling to and from school, etc. The provisional number of CA places offered by schools, including those offered by schools in other school nets, is set out in the Choice of Schools List by School Net for CA of POA from 2015 to 2020 for parents' reference. Each year, the actual number of school places netted and the situation of students' actual registration in relevant districts/school nets could be affected by different factors, including the unrestricted school choices made by parents during the CA stage. Relevant statistics are not readily available.

(e) - (g)

Based on the existing data, there has been a gradual rebound in the overall population of S1 students since the 2017/18 school year. As the distribution of schools is uneven and the number of classes operated by individual schools is subject to various factors (e.g. the choice of parents and the mobility of students, etc.), while expecting the overall S1 student population to rebound gradually, EDB will continue with some of the targeted relief measures previously implemented. These measures include reducing the basis for calculating the number of approved S1 classes to 25 students per class, relaxing the “not less than 3 S1 classes” requirement under which schools with 2 approved S1 classes are not required to apply for any school development option, and allowing schools with S1 classes reduced to 1 or 2 to participate in the next SSPA with a cap of 3 S1 classes, etc. The above measures will continue to take effect in the coming few years. Meanwhile, we will continue to explore the need for other measures to support individual affected secondary schools when necessary. Besides, to address the projected increase in the demand for S1 school places, EDB and the sector met and reached a consensus in October 2017 on the framework of direction and strategies for tackling the issue, i.e. adopting the established netting arrangements for SSPA, progressively reverting the number of students allocated per class to 34 upon the rebound of the S1 student population (“place reinstating”) as pledged by the sector prior to the implementation of the targeted relief measures, and increasing the number of S1 classes in districts with a shortfall in school places even after adopting the netting arrangements and “place reinstating”, so as to ensure a sufficient supply of S1 places every year to meet the demand. In accordance with the consensus reached with the sector, we will continue to review the projected demand for school places having regard to the latest data available before the commencement of annual SSPA exercise and hold discussions with the sector again on the SSPA arrangements to be adopted for the cycle concerned.

As for primary schools, EDB anticipated in 2013 that the overall demand for P1 places would increase substantially and temporarily to the projected peak in the 2018/19 school year, and then gradually decrease to a stable level. To meet the transient increase in demand for P1 places, EDB and the sector have been maintaining close liaison over the past few years and have reached a consensus on the related follow-up measures. A number of flexible arrangements have been adopted, including temporarily allocating more students to each P1 class to increase the supply of school places flexibly. Following the drop of P1 school-age population from the 2019/20 school year, the measures adopted in the past to flexibly increase P1 places will be adjusted or withdrawn in light of the demand as planned. This arrangement will help alleviate the impact arising from the decrease in student population. Given the changes in P1 school-age population in the coming few years, individual schools may be effected by the diminishing demand for school places in their respective district. EDB has implemented targeted relief measures starting from the 2019/20 school year to maintain a stable teaching force

and to facilitate the sustainable development of schools. These measures include:

- (i) Aided schools are allowed to apply on an annual basis for retaining their redundant teachers arising from class reduction for the next school year due to the decline of P1 student population, up to a maximum of 3 school years, provided that their redundant teachers cannot be absorbed through the prevailing mechanism for handling redundancy or are unable to secure a teaching post in another school; and
- (ii) Starting from P1 in the 2019/20 school year, the basis for calculating the number of approved classes will be adjusted downward from the existing 25 students per class to 23 students per class if a school has redundant teachers arising from reduction of classes according to the student headcount in September. The adjusted basis will be extended progressively to P6 together with that cohort of students to further enhance the stability of the number of approved classes and hence the regular teaching posts in schools.

The prevailing policy is to progressively implement small class teaching (SCT) in public sector primary schools where circumstances permit. At present, around 80% of public sector primary schools in Hong Kong have implemented SCT. According to the current projection of P1 school-age population, the overall demand for P1 places will gradually reach a stable level starting from the 2020/21 school year after reaching the peak in the 2018/19 school year followed by a significant decline in the 2019/20 school year. Both EDB and the school sector consider that this will create favourable conditions for more schools to implement SCT. EDB has therefore issued letters to invite all schools which have not yet implemented SCT to make early plans and preparation so that they can implement SCT as soon as the supply and demand of school places allow.

In considering whether to implement SCT at junior secondary level, we should prudently examine the current conditions of secondary schools, their learning and teaching environment, the support for them, overseas experience, international research on SCT and the result, resource allocation, etc. and assess whether it is effective, feasible and sustainable for secondary schools, as in primary schools, to reduce their class size across-the-board. SCT is a teaching strategy involving teaching setting or grouping driven by pedagogical considerations with a view to enhancing learning and teaching. International studies also suggest that SCT is more effective when students are of a younger age and its effectiveness tends to wane as students age. In view of the various considerations mentioned above, we have no plan to implement SCT at junior secondary level.

EDB understands that different stakeholders have different concerns on the planning of school places. We will continue to monitor closely the changes in student population and maintain close communication with the sector to balance the concerns of different stakeholders and ensure the overall quality of education, while facilitating schools' sustainable and stable development and optimising the use of resources.

Number of students participating in SSPA from 2015 to 2019

- Notes: (1) Figures refer to the position as at mid-September of the respective school years.
(2) Figures include government, aided, caput ordinary secondary day schools but not special schools.
(3) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by the schools concerned.
(4) School districts are determined by the District Council districts where the school premises are located. Starting from the 2019/20 school year, the districts of schools using decanting premises are determined by the District Council districts where their original premises are located.

Number of students allocated a P1 school place in POA from 2015 to 2019

P1 school net	2015	2016	2017	2018	2019

CONTROLLING OFFICER'S REPLY

EDB418

(Question Serial No. 3358)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide, in tabular form, the following information for the 2015/16 to 2019/20 school years:

- (1) The number of serving qualified kindergarten (KG) teachers, and among such teachers, the number of those who serve as principals and those who take up teaching posts; and the respective numbers of teachers serving at KGs offering whole-day, half-day and both half-day and whole-day services;
- (2) The number of teachers serving at KGs that are joining the Pre-primary Education Voucher Scheme (PEVS)/free quality KG education scheme (KG Scheme), and the number of teachers serving at KGs that are not joining the PEVS/KG Scheme;
- (3) The number of KG teachers holding a certificate in early childhood education and their percentage share; and the number of KG teachers pursuing a certificate programme in early childhood education and their percentage share;
- (4) The number of KG teachers holding a bachelor's degree in early childhood education and their percentage share; and the number of KG teachers pursuing a bachelor's degree programme in early childhood education and their percentage share;
- (5) The number of KG principals holding a bachelor's degree in early childhood education and their percentage share; the number of KG principals pursuing a bachelor's degree programme in early childhood education and their percentage share; and among such principals, the number of those serving at KGs that are joining the PEVS/KG Scheme and those serving at KGs that are not joining the PEVS/KG Scheme;
- (6) The number of teachers holding a certificate, bachelor's degree or master's degree in early childhood education each year and the year-on-year growth rate; and

- (7) The number of drop-out teachers in whole day and half-day KGs and their percentage share; the age distribution and length of teaching service of drop-out teachers; and among such drop-out teachers, the respective numbers of those holding a certificate, diploma, bachelor's degree or master's degree in early childhood education and their percentage share against the total number of drop-out teachers.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 131)

Reply:

- (1) From the 2015/16 to 2019/20 school years, the numbers of qualified teachers serving at local kindergartens (KGs), and among such teachers, the numbers of those serving as principals and those taking up teaching posts are tabulated below:

School year	No. of principals (a)	No. of qualified KG teachers (b)	Total no. of qualified KG teachers (a)+(b)
2015/16	873	11 095	11 968
2016/17	881	11 445	12 326
2017/18	871	11 671	12 542
2018/19	866	11 665	12 531
2019/20	881	11 915	12 796

From the 2015/16 to 2019/20 school years, the numbers of qualified teachers serving at local KGs operating whole-day (WD), half-day (HD) and both HD and WD classes are tabulated below:

School year	No. of qualified KG teachers		
	KGs operating WD classes only	KGs operating HD classes only	KGs operating both HD and WD classes
2015/16	2 396	3 598	5 974
2016/17	2 506	3 743	6 077
2017/18	2 761	3 778	6 003
2018/19	2 857	3 797	5 877
2019/20	2 933	3 885	5 978

- (2) The numbers of qualified teachers serving at local KGs joining and not joining the Pre-primary Education Voucher Scheme (PEVS) from the 2015/16 to 2016/17 school years/the new KG education scheme (KG Scheme) from the 2017/18 to 2019/20 school years are tabulated below:

School year	No. of qualified KG teachers	
	KGs under PEVS/KG Scheme	KGs not under PEVS/KG Scheme
2015/16	9 970	1 998
2016/17	10 417	1 909
2017/18	10 673	1 869
2018/19	10 717	1 814
2019/20	10 904	1 834

- (3) From the 2015/16 to 2019/20 school years, the numbers of teachers serving at local KGs and holding a certificate in early childhood education and their percentage share are tabulated below:

School year	No. of teachers serving at local KGs and holding a certificate in early childhood education (%) (Note)
2015/16	11 377 (91.2%)
2016/17	11 819 (92.7%)
2017/18	12 108 (93.9%)
2018/19	12 159 (94.4%)
2019/20	12 477 (95.4%)

(Note: Figures include teachers concurrently holding a bachelor's degree in early childhood education.)

From the 2015/16 to 2019/20 school years, the numbers of teachers serving at local KGs and pursuing a certificate programme in early childhood education and their percentage share are tabulated below:

School year	No. of serving KG teachers pursuing a certificate programme in early childhood education (%)
2015/16	643 (5.2%)
2016/17	583 (4.6%)
2017/18	498 (3.9%)
2018/19	570 (4.4%)
2019/20	545 (4.2%)

- (4) From the 2015/16 to 2019/20 school years, the numbers of teachers serving at local KGs and holding a bachelor's degree in early childhood education and their percentage share are tabulated below:

School year	No. of teachers serving at local KGs and holding a bachelor's degree in early childhood education (%) (Note)
2015/16	4 947 (39.6%)
2016/17	5 480 (43.0%)
2017/18	6 119 (47.5%)
2018/19	6 563 (50.9%)
2019/20	6 949 (53.1%)

(Note: Figures include teachers concurrently holding a certificate in early childhood education.)

From the 2015/16 to 2019/20 school years, the numbers of teachers serving at local KGs and pursuing a bachelor's degree programme in early childhood education and their percentage share are tabulated below:

School year	No. of serving KG teachers pursuing a bachelor's degree programme in early childhood education (%)
2015/16	2 038 (16.3%)
2016/17	1 812 (14.2%)
2017/18	1 261 (9.8%)
2018/19	1 048 (8.1%)
2019/20	1 059 (8.1%)

- (5) Among the principals serving at local KGs joining and not joining the PEVS from the 2015/16 to 2016/17 school years/KG Scheme from the 2017/18 to 2019/20 school years, the numbers of those holding a bachelor's degree in early childhood education/pursuing a bachelor's degree programme in early childhood education and their percentage share are tabulated below:

School year	No. of serving KG principals holding a bachelor's degree in early childhood education (%)			No. of serving KG principals pursuing a bachelor's degree programme in early childhood education (%)			Total (%)
	KGs under PEVS/ KG Scheme	KGs not under PEVS/ KG Scheme	Total	KGs under PEVS/ KG Scheme	KGs not under PEVS/ KG Scheme	Total	
2015/16	628 (85.3%)	90 (65.2%)	718 (82.2%)	7 (1.0%)	1 (0.7%)	8 (0.9%)	726 (83.1%)
2016/17	642 (85.9%)	86 (64.2%)	728 (82.6%)	4 (0.5%)	1 (0.7%)	5 (0.6%)	733 (83.2%)
2017/18	648 (87.3%)	89 (69.0%)	737 (84.6%)	2 (0.3%)	1 (0.8%)	3 (0.3%)	740 (85.0%)
2018/19	661 (88.7%)	84 (68.3%)	745 (85.8%)	2 (0.3%)	0 (0.0%)	2 (0.2%)	747 (86.1%)
2019/20	678 (89.8%)	89 (70.1%)	767 (87%)	0 (0.0%)	0 (0.0%)	0 (0.0%)	767 (87.0%)

- (6) From the 2015/16 to 2019/20 school years, the numbers of teachers serving at local KGs and holding a certificate in early childhood education and a bachelor's degree in early childhood education and their year-on-year growth rate are tabulated below. We do not collect information on the qualification of master's degree in early childhood education.

School year	No. of serving KG teachers (year-on-year growth rate during a specified period*)	
	Certificate in early childhood education holder	Bachelor's degree in early childhood education holder
2015/16	6 430 (-1.7%)	4 947 (12.9%)
2016/17	6 339 (-1.4%)	5 480 (10.8%)
2017/18	5 989 (-2.7%)	6 119 (14.2%)
2018/19	5 596 (-6.6%)	6 563 (7.3%)
2019/20	5 528 (-1.2%)	6 949 (5.9%)

* Year-on-year growth rate is the increase, in percentage terms, in the number of KG teachers holding a certificate in early childhood education/a bachelor's degree in early childhood education or equivalent as compared with that of the preceding school year.

- (7) From the 2015/16 to 2019/20 school years, the numbers and percentages of wastage# among teachers in local KGs operating WD, HD and both HD and WD classes; the age distribution and average length of teaching service of such teachers; and the numbers and percentages of those holding a certificate in early childhood education and a bachelor's degree in early childhood education are tabulated below. We do not collect information on the qualification of master's degree in early childhood education.

- (i) Numbers and percentages of wastage among teachers in local KGs operating WD, HD and both HD and WD classes

School year	No. of drop-out teachers (%) in local KGs		
	KGs operating WD classes only	KGs operating HD classes only	KGs operating both HD and WD classes
2015/16	157 (6.8%)	328 (9.2%)	554 (8.9%)
2016/17	232 (9.6%)	416 (10.8%)	663 (10.7%)
2017/18	203 (8.8%)	428 (10.9%)	674 (10.9%)
2018/19	329 (11.9%)	480 (12.1%)	776 (12.6%)
2019/20	360 (12.5%)	428 (10.7%)	756 (12.6%)

- (ii) Age distribution of drop-out teachers in local KGs

2015/16 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
No. of drop-out teachers	388	298	179	140	34	1 039

2016/17 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
No. of drop-out teachers	480	362	250	170	49	1 311

2017/18 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
No. of drop-out teachers	447	332	245	212	69	1 305

2018/19 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
No. of drop-out teachers	635	398	265	210	77	1 585

2019/20 school year						
Age group	Below 30	30 - 39	40 - 49	50 - 59	60 or above	Total
No. of drop-out teachers	612	394	275	181	82	1 544

(iii) Average length of service in years of drop-out teachers in local KGs

School year	Average length of service in years
2015/16	11.0
2016/17	11.6
2017/18	12.5
2018/19	11.4
2019/20	11.4

(iv) Numbers and percentages of drop-out teachers in local KGs holding a certificate in early childhood education and a bachelor's degree in early childhood education

School year	Certificate in early childhood education holder	Bachelor's degree in early childhood education holder
2015/16	508 (48.9%)	251 (24.2%)
2016/17	599 (45.7%)	368 (28.1%)
2017/18	629 (48.2%)	383 (29.3%)
2018/19	737 (46.5%)	562 (35.5%)
2019/20	695 (45.0%)	563 (36.5%)

"Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in local KGs as at mid-September of the preceding school year. "Drop-out teacher" refers to the teacher who had served in a local KG as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

Note: Information provided in this reply is based on the survey on KG teachers/child care staff conducted by the Education Bureau in September of the respective school years. Figures for the 2019/20 school year are provisional.

- End -

CONTROLLING OFFICER'S REPLY**EDB419****(Question Serial No. 3359)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please provide in the tables below the information on students and teachers in different types of kindergartens (KGs) from the 2015/16 to 2019/20 school years.

(1) Numbers of students in different types of KGs from the 2015/16 to 2019/20 school years

	KGs operating half-day classes	KGs operating whole-day classes	KGs operating long whole-day classes
Total number			
Median number			
Highest number			
Lowest number			

(2) Different types of KGs from the 2015/16 to 2019/20 school years

Average teacher-to-pupil ratio	Whole-day session	Half-day session	Half-day and whole-day session	Long whole-day session
Under 1:11				
1:11				
1:12 - 1:14				
1:15				
Over 1:15				

(3) Highest, lowest and median salaries of KG teachers in different types of KGs from the 2015/16 to 2019/20 school years

	KGs operating half-day classes only	KGs operating both whole-day and half-day classes	KGs operating whole-day classes only	KGs operating long whole-day classes
Highest salary				
Median salary				
Lowest salary				

(4) The average and median teacher-to-pupil ratios of KGs operating whole-day classes and long whole-day classes, and the average and median teacher-to-pupil ratios of morning and afternoon sessions of KGs operating half-day classes from the 2015/16 to 2019/20 school years.

(5) Highest, lowest and median salaries of KG principals in different types of KGs from the 2015/16 to 2019/20 school years

	KGs operating half-day classes only	KGs operating both whole-day and half-day classes	KGs operating long whole-day classes
Highest salary			
Median salary			
Lowest salary

(1) From the 2015/16 to 2019/20 school years, the total, median, highest and lowest numbers of students in local kindergartens (KGs) (including KGs under the kindergarten education scheme (Scheme), non-profit-making KGs not joining the Scheme and private independent KGs not eligible for the Scheme) operating half-day, whole-day and long whole-day classes, and the numbers of KGs with various teacher-to-pupil ratios are tabulated at Appendix 1 and Appendix 2. The median and average teacher-to-pupil ratios are tabulated at Appendix 4. From the 2015/16 to 2018/19 school years, the highest, lowest and median salaries of teachers and principals are tabulated at Appendix 3 and Appendix 5 respectively. As for the information on the salaries of teachers and principals in the 2019/20 school year, the Education Bureau (EDB) notified KGs joining the Scheme (Scheme-KGs) in early March this year of the salary ranges for teaching staff which have been adjusted based on the latest civil service pay adjustment announced by the Government at the end of February. Scheme-KGs will accordingly adjust the salaries of their teachers or principals if necessary. Hence, the EDB is unable to provide the information on the salaries of teachers and principals in the 2019/20 school year at this stage.

Total, median, highest and lowest numbers of students in local kindergartens (KGs)
by KGs operating half-day (HD), whole-day (WD) and long whole-day classes
from the 2015/16 to 2019/20 school years

2015/16 school year

	Number of students in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding former aided child care centres (FACs))	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Total number of students	64 088	1 744	83 497	22 606
Median number of students	270	104	197	90

Notes:

1. Information provided in this reply is based on a questionnaire survey on KG teachers/child-care staff conducted by the EDB in September of the respective school years. Figures for the 2019/20 school year are provisional.
2. Figures only include teachers with Certificate in Early Childhood Education or above qualifications, but do not include principals.
3. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.
4. Under the new KG education policy implemented in the 2017/18 school year, KGs joining the Scheme should employ the required number of teachers to meet the overall TP ratio of 1:11. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the TP ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced Qualified Kindergarten Teachers already serving in the sector, non-Early Childhood Education (ECE) degree holders, or teachers employed for creating a rich language environment in KGs, etc. (all of the above teachers must be a registered teacher or permitted teacher). We are currently reviewing the arrangement to determine whether the flexibility should be granted for a further period. As for individual KGs not complying with the relevant requirements, we have requested the KGs concerned to rectify the situation. The adjustment is not fully reflected in the questionnaire survey mentioned in Note (1).

Highest, lowest and median salaries of teachers in local kindergartens (KGs)
by KGs operating half-day (HD), whole-day (WD) and long whole-day classes
from the 2015/16 to 2018/19 school years

2015/16 school year

	(\$)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Highest salary	129,080	45,830	96,406	56,700
Median salary	24,692	27,237	22,560	23,970
Lowest salary	8,200	11,580	9,427	11,463

2018/19 school year

	Monthly salary of teachers in local KGs (excluding principals) (Notes 1 and 3)			
	(\$)			
	KGs operating HD classes only	KGs operating WD classes only (excluding FACs)	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)
Highest salary	86,719	48,540	100,548	46,563
Median salary	26,100	27,340	24,270	25,790
Lowest salary	5,090	8,360	9,410	13,045

Notes:

1. Information provided in this reply is based on a questionnaire survey on KG teachers/child-care staff conducted by the Education Bureau in September of the respective school years.
2. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.
3. The monthly salary of teachers in KGs joining the Scheme, in principle, should not be lower than \$21,680 in the 2018/19 school year. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the teacher-to-pupil ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced qualified KG teachers already serving in the sector, non-Early

Childhood Education (ECE) degree holders, or teachers employed for creating a rich language environment in KGs, etc. (all of the above teachers must be a registered teacher or permitted teacher). The salary range under the Scheme is not applicable to these teachers as they do not possess a Certificate in ECE (C(ECE)) or above qualifications. We are currently reviewing the arrangement to determine whether the flexibility should be granted for a further period. As for individual full-time teachers with a C(ECE) or above qualifications who receive a salary lower than the above-mentioned minimum, we have requested the KGs to rectify the situation. The KGs will raise the salary of their full-time teachers to not lower than the minimum of \$21,680 per month. The adjustment is not fully reflected in the questionnaire survey mentioned in Note (1).

Median and average teacher-to-pupil (TP) ratios in local kindergartens (KGs) by KGs operating half-day (HD), whole-day (WD) and long whole-day classes from the 2015/16 to 2019/20 school years

2015/16 school year

	TP ratio in local KGs (Note 1)			
	KGs operating HD classes only	KGs operating WD classes only (excluding former aided child care centres (FACs))	KGs operating both HD and WD classes (excluding FACs)	FACs (Note 2)

CONTROLLING OFFICER'S REPLY

EDB420

(Question Serial No. 3360)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information from the 2017/18 to 2019/20 school years:

- (1) the average, median, highest and lowest salaries and salary rises of teachers in kindergartens (KGs) operating whole-day and half-day classes under the Free Quality Kindergarten Education Scheme;
- (2) the average, median, highest and lowest salaries and salary rises of principals in KGs operating whole-day classes and KGs operating half-day classes under the Free Quality Kindergarten Education Scheme;
- (3) the average, median, highest and lowest salaries and salary rises of teachers and principals in local private independent KGs and KGs operating whole-day and half-day classes; and
- (4) the median annual salaries and annual salary rises of teachers in KGs operating whole-day classes under the Free Quality Kindergarten Education Scheme.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 133)

Reply:

For information on the salaries of teachers in kindergartens (KGs) joining the KG education scheme (Scheme-KGs) in the 2017/18 and 2018/19 school years, please refer to our replies to items (1) and (2) below. Information provided is based on the survey on KG teachers/child care staff conducted by the Education Bureau (EDB) in September of the respective school years. Each year, we request Scheme-KGs to properly follow up on individual cases where teachers' salaries fall below the stipulated salary ranges. Regarding the relevant information in the 2019/20 school year, the EDB notified Scheme-KGs in early March this year of the salary ranges for teaching staff which have been adjusted based on

the latest civil service pay adjustment announced by the Government at the end of February. Scheme-KGs will accordingly adjust the salaries of their teachers or principals if necessary. Hence, the EDB is unable to provide the relevant information relating to Scheme-KGs for the 2019/20 school year at this stage.

(1)

From the 2017/18 to 2018/19 school years, the average salary rises of teachers in Scheme-KGs operating half-day (HD), whole-day (WD), and both HD and WD classes are 6.5%, 8.0% and 7.2% respectively. Their average, median, highest and lowest salaries are tabulated below:

	Monthly salary of teachers in Scheme-KGs					
	KGs operating HD classes only		KGs operating WD classes only		KGs operating both HD and WD classes	
	2017/18 school year (\$)	2018/19 school year (\$)	2017/18 school year (\$)	2018/19 school year (\$)	2017/18 school year (\$)	2018/19 school year (\$)
Average salary	26,162	27,862	25,801	27,860	24,307	26,062
Median salary	24,620	25,790	23,970	25,790	22,560	24,270
Highest salary	72,445	70,340	56,700	48,540	54,230	63,930
Lowest salary	10,500	10,840	11,463	8,360	9,427	9,410

(2)

From the 2017/18 to 2018/19 school years, the average salary rises of principals in Scheme-KGs operating HD, WD, and both HD and WD classes are 6.2%, 8.4% and 7.2% respectively. Their average, median, highest and lowest salaries are tabulated below:

	Monthly salary of principals in Scheme-KGs					
	KGs operating HD classes only		KGs operating WD classes only		KGs operating both HD and WD classes	
	2017/18 school year (\$)	2018/19 school year (\$)	2017/18 school year (\$)	2018/19 school year (\$)	2017/18 school year (\$)	2018/19 school year (\$)
Average salary	47,329	50,262	44,974	48,736	45,820	49,118
Median salary	47,240	50,825	44,881	48,540	45,120	48,154
Highest salary	61,170	64,705	62,225	66,945	126,000	138,600
Lowest salary	26,875	22,600	26,700	21,680	16,000	35,100

(3)(i)

From the 2017/18 to 2018/19 school years, the average salary rises of teachers in local private independent KGs operating HD, WD, and both HD and WD classes are 6.7%, 5.4% and 2.7% respectively; whereas from the 2018/19 to 2019/20 school years, the rises are 5.0%, 6.6% and 7.0% respectively. Their average, median, highest and lowest salaries are tabulated below:

	Monthly salary of teachers in local private independent KGs								
	KGs operating HD classes only			KGs operating WD classes only			KGs operating both HD and WD classes		
	2017/18 school year (\$)	2018/19 school year (\$)	2019/20 school year (\$)	2017/18 school year (\$)	2018/19 school year (\$)	2019/20 school year (\$)	2017/18 school year (\$)	2018/19 school year (\$)	2019/20 school year (\$)
Average salary	26,403	28,167	29,573	24,439	25,749	27,449	23,177	23,799	25,465
Median salary	24,760	26,700	28,000	23,270	25,060	25,830	20,000	21,000	22,225
Highest salary	129,080	86,719	92,100	37,570	40,420	45,000	82,572	88,744	100,916
Lowest salary	8,200	11,000	12,204	17,000	20,770	19,800	10,800	11,000	11,400

(3)(ii)

As local private independent KGs are small in number, providing the salaries of KG principals under the categories of HD, WD and both HD and WD KGs will be misleading. It is more appropriate to give an overall picture of the situation in the territory. From the 2017/18 to 2018/19 school years, the average salary rise of principals in local private independent KGs is 8.6%, and the drop from the 2018/19 to 2019/20 school years is 1.7%. Their average, median, highest and lowest salaries are tabulated below:

	Monthly salary of principals in local private independent KGs		
	2017/18 school year (\$)	2018/19 school year (\$)	2019/20 school year (\$)
Average salary	48,636	52,806	51,889
Median salary	43,000	42,650	45,375
Highest salary	110,000	141,985	156,180
Lowest salary	20,800	20,800	10,000

(4)

Same as other KG teachers, teachers serving in Scheme-KGs operating WD classes are generally paid on a monthly basis. Their median salaries and average salary rises are set out in the reply to item (1) above. We have not separately collected the information on their annual salaries.

Notes:

- (1) The monthly salary of teachers in Scheme-KGs, in principle, should not be lower than \$21,680 in the 2018/19 school year. However, as a transitional arrangement in the early years of implementation of the new policy, for teachers between the teacher-to-pupil ratios of 1:15 and 1:11, flexibility is allowed for KGs to employ experienced Qualified Kindergarten Teachers already serving in the sector, non-Early Childhood Education (ECE) degree holders, teachers employed for creating a rich language environment in schools, etc. (all of the above teachers must be a registered teacher or permitted teacher). The salary range under the Scheme is not applicable to these teachers as they do not possess Certificate in ECE (C(ECE)) or above qualifications. We are currently reviewing the arrangement to determine whether the flexibility should be granted for a further period.
- (2) In respect of the salaries of principals, starting from the 2009/10 school year, all newly-appointed KG principals must hold a degree in early childhood education (BEd(ECE)) or its equivalent, at least one year relevant post-qualification experience and complete a certificate course on principalship. In general, a person who was once appointed as a KG principal and has left the post for less than three months is not considered a newly-appointed principal when being re-appointed as a KG principal. The salary range of principals is not applicable to principals who do not possess the relevant qualifications.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the school years from 2015/16 to 2019/20:

- (1) the total numbers of school-age children admitted to kindergartens (KGs) and the percentages they represent;
- (2) the numbers of students attending K1 classes in KGs in each of the 18 districts per school year and the grand total in the territory;
- (3) the numbers of local non-profit-making KGs joining and not joining the Pre-primary Education Voucher Scheme/free quality kindergarten education scheme, local private independent KGs, and non-local/international KGs, together with the respective and total numbers of teachers and students;
- (4) the year-on-year increase/decrease in the number and percentage of KGs switching from private independent status to non-profit-making nature, and the cumulative total; the numbers of local KG-cum-child care centres and the numbers of KG-cum-child care centres that have joined the Pre-primary Education Voucher Scheme/free quality kindergarten education scheme, and the numbers of teachers and students in them; and
- (5) the numbers of KGs/nursery schools operating whole-day service in the territory, and the numbers of teachers and students involved; the numbers of KGs/nursery schools operating whole-day service under the Pre-primary Education Voucher Scheme/free quality kindergarten education scheme, the numbers of teachers and students in them, and the percentages these students represent in the total numbers of students under the respective subsidy scheme.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 136)

Reply:

For the 2015/16 to 2019/20 school years,

- (1) the respective total numbers of students attending kindergartens (KGs) and the gross enrolment ratios of participation in KG education are tabulated at Appendix 1;
- (2) the respective numbers of students attending K1 classes in KGs by District Council district and the grand total in the territory are tabulated at Appendix 2;
- (3) the respective numbers of local non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS)/KG education scheme (KG Scheme), NPM KGs not joining the PEVS/KG Scheme, local private independent (PI) KGs and non-local KGs, as well as the respective numbers of teachers and students in these KGs are tabulated at Appendix 3;
- (4) the respective increase/decrease in the number of PI KGs converted to NPM KGs for joining the PEVS/KG Scheme, such changes in percentage and the actual accumulated numbers are tabulated at Appendix 4; the respective numbers of local kindergarten-cum-child care centres (KG-cum-CCCs) in the territory, the numbers of KG-cum-CCCs joining the PEVS/KG Scheme, and the numbers of teachers and students in these KG-cum-CCCs are tabulated at Appendix 5; and
- (5) the respective numbers of local KGs/KG-cum-CCCs with whole-day (WD) classes and the numbers of their teachers and students, the respective numbers of KGs/KG-cum-CCCs with WD classes joining the PEVS/KG Scheme and the numbers of their teachers and students, and the percentages of these students among the students under the subsidy of the PEVS/KG Scheme are tabulated at Appendix 6.

Total numbers of students attending KGs and
gross enrolment ratios (GER) of participation in KG education
from the 2015/16 to 2019/20 school years

School year	2015/16	2016/17	2017/18	2018/19 (Revised)	2019/20 (Provisional)
Total no. of students attending KGs (Note 1)	187 155	185 799	182 995	176 245	176 310
GER (Note 2)	98.7%	102.9%	105.9%	105.8%	98.0%

Note 1: Position as at September of the respective school years.

Note 2: GER is defined as total enrolment in KGs (including KGs, KG-cum-CCCs and special CCCs), regardless of age, expressed as a percentage of the school-age-population corresponding to the same level of education in a given school year. Hence, the percentage can exceed 100%. The school-age population for the KG level refers to children of 3-5 years old. GER for the 2015/16 to 2019/20 school years have been compiled using the population estimates which have incorporated the benchmarking data available from the 2016 Population Census.

Numbers of students attending K1 classes in KGs by District Council district and the grand total in the territory from the 2015/16 to 2019/20 school years

District	No. of students attending K1 classes				
	2015/16	2016/17	2017/18	2018/19	2019/20

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the 2014/15 to 2019/20 school years:

- (1) The respective average, median, highest and lowest school fees for whole-day (WD) and half-day (HD) classes charged by kindergartens (KGs) joining the Pre-primary Education Voucher Scheme (PEVS) or free quality kindergarten education scheme (KG Scheme);
- (2) The respective average, median, highest and lowest school fees for WD and HD classes charged by private independent KGs;
- (3) The respective average, median, highest and lowest school fees for WD and HD classes charged by non-profit-making KGs not joining the PEVS or KG Scheme;
- (4) The respective numbers of WD and HD KGs joining the PEVS or KG Scheme that have been approved to increase their school fees, and the highest, lowest and average rates of increase; and
- (5) In respect of the Kindergarten Fee Remission Scheme, please list separately the annual total expenditure, the numbers of fee remission applications, the numbers and percentages of approved applications, as well as the numbers and percentages of students granted a level of remission at 50%, 75% and 100% of the school fee among students attending WD and HD KG classes in each of the school years from 2014/15 to 2019/20.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 137)

Reply:

For the 2014/15 to 2019/20 school years,

- (1) The respective weighted average, median, highest and lowest school fees for whole-day (WD) and half-day (HD) classes charged by kindergartens (KGs) joining the Pre-primary Education Voucher Scheme (PEVS)/kindergarten education scheme (KG Scheme) are tabulated at Appendix 1.
- (2) The respective weighted average, median, highest and lowest school fees for WD and HD classes charged by local private independent KGs are tabulated at Appendix 2.
- (3) The respective weighted average, median, highest and lowest school fees for WD and HD classes charged by non-profit-making (NPM) KGs not joining the PEVS/KG Scheme are tabulated at Appendix 3.
- (4) The respective numbers of NPM WD and HD KGs joining the PEVS that have been approved to increase their school fees, and the highest, lowest and average rates of increase in the weighted average school fees from the 2014/15 to 2016/17 school years are tabulated at Appendix 4. From the 2017/18 to 2019/20 school years, since the Government has substantially increased subsidies to KGs under the KG Scheme and the funding mode is different from that of the PEVS, it is inappropriate to compare the rate of increase in school fees between the 2016/17 and 2017/18 school years. As regards the rate of increase in school fees in the 2018/19 and 2019/20 school years, given that the overall school fees are at a low level under the KG Scheme, the percentage will change greatly even for small changes in school fees and thus providing the highest and lowest rate of increase in school fees will be misleading. Hence, it is more appropriate to provide the numbers of KGs with school fee increase, as well as the highest, lowest, average and median school fees. In the 2018/19 and 2019/20 school years, the numbers of KGs with school fee increase are tabulated below:

School year	No. of KGs with school fee increase	
	HD	WD
2018/19	15	300
2019/20	10	276

The highest, lowest, average and median school fees are tabulated at Appendix 1.

- (5) The respective amounts of fee remission disbursed under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS), the numbers of applications from parents with children attending KGs for fee remission under the KCFRS, the numbers and percentages of approved applications, and the numbers and percentages of students granted a level of remission at 50%, 75% and 100% of the school fee payable or the fee remission ceiling from the 2014/15 to 2019/20 school years are tabulated at Appendix 5.

Number of approved applications from students attending HD KG classes (%) (Note 2)		12 364 (87.1%)	14 462 (78.4%)	15 857 (78.1%)	879 (5.2%)	835 (5.5%)	1 016 (6.6%)
Number of students attending WD KG classes granted fee remission and the level of remission (%)	50% fee remission	6 925 (30.0%)	7 360 (31.1%)	7 569 (32.1%)	7 489 (33.0%)	8 020 (35.9%)	7 976 (36.7%)
	75% fee remission	1 745 (7.5%)	1 880 (8.0%)	2 060 (8.7%)	2 021 (8.9%)	2 001 (9.0%)	1 976 (9.1%)
	100% fee remission	14 446 (62.5%)	14 402 (60.9%)	13 994 (59.2%)	13 159 (58.1%)	12 303 (55.1%)	11 796 (54.2%)
Number of students attending HD KG classes granted fee remission and the level of remission (%)	50% fee remission	3 847 (31.1%)	4 910 (34.0%)	5 598 (35.3%)	321 (36.5%)	340 (40.7%)	327 (32.2%)
	75% fee remission	854 (6.9%)	1 060 (7.3%)	1 279 (8.1%)	65 (7.4%)	50 (6.0%)	60 (5.9%)
	100% fee remission	7 663 (62.0%)	8 492 (58.7%)	8 980 (56.6%)	493 (56.1%)	445 (53.3%)	629 (61.9%)

Notes:

- Figures for the 2019/20 school year are provisional figures as at end January 2020.
- The PEVS has been replaced by the KG Scheme since the 2017/18 school year. The numbers of approved applications from the 2017/18 to 2019/20 school years do not include students who have passed the means test but do not need to pay school fees under the KG Scheme.

CONTROLLING OFFICER'S REPLY

EDB423

(Question Serial No. 3363)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please set out the course titles of fully-subsidised, partially-subsidised and non-subsidised teacher training programmes for pre-service and in-service kindergarten teachers (including programmes awarding a certificate, bachelor's degree, postgraduate diploma in education and master's degree), the respective course provider, course fee and number of places of such programmes, the number of applications received, the unit cost as well as the amount of subsidy in the 2015/16 to 2019/20 school years.

(2) Please provide the numbers of kindergartens which admitted the following number of students and their types (whole-day, half-day, both whole-day and half-day, long whole-day) in the 2015/16 to 2019/20 school years.

1. 90 students or less
2. 91 to 180 students
3. 181 to 270 students
4. over 270 students
5. 270 to 359 students
6. 360 students or above

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 138)

Reply:

(1) The course titles, course providers, course fees and enrolments of different subsidised and non-subsidised teacher training courses (including certificate, degree and Postgraduate Diploma in Education (PGDE) programmes) offered to pre-service and in-service kindergarten teachers in the school years from 2015/16 to 2019/20 are tabulated below:

(a) Training Programmes on Certificate in Early Childhood Education (C(ECE))

Pre-service (C(ECE))						
Course Provider	Financing mode	Number of intake (Tuition fee)				
		2015/16	2016/17	2017/18	2018/19	2019/20
HKIVE	VTC-funded	488 (\$63,140)	542 (\$63,140)	689 (\$63,140 - \$111,200)	552 (\$63,140 - \$113,200)	646 (\$63,140 - \$115,600)

In-service PGDE(ECE)						
Course Provider	Financing mode	Number of intake (Tuition fee)				
		2015/16	2016/17	2017/18	2018/19	2019/20
EdUHK	UGC-funded	119 (\$42,100)	90 (\$42,100)	115 (\$42,100)	110 (\$42,100)	61 (\$42,100)
HKBU	Non-subsidised (self-financed)	38 (\$65,000)	32 (\$65,000)	30 (\$65,000)	--	41 (\$65,000)
HKU	UGC-funded	25 (\$42,100)	25 (\$42,100)	26 (\$42,100)	25 (\$42,100)	26 (\$42,100)
CUHK	UGC-funded	--	12 (\$42,100)	10 (\$42,100)	10 (\$42,100)	10 (\$42,100)

Interested applicants may apply to the course providers direct. The Education Bureau does not have details of the number of applications received by course providers. Information on the unit cost and amount of subsidies of each subsidised training place for pre-service and in-service kindergarten teachers is not available as recurrent funding is provided for UGC-funded institutions/VTC mainly in the form of block grants.

CONTROLLING OFFICER'S REPLY**EDB424****(Question Serial No. 3364)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please provide the following information for the school years from 2017/18 to 2019/20:

- (a) the actual average student-to-teacher and teacher-to-class ratios in government, aided and private primary and secondary schools, special schools, Direct Subsidy Scheme schools and international schools;
- (b) the numbers of regular teachers, teachers on defined contract period (DCP) terms, associate teachers/assistant teachers and teaching assistants in public sector primary, secondary and special schools;
- (c) the numbers of staff within and outside the establishment of public sector primary and secondary schools with a breakdown by the specified type below; and

	2017/18		2018/19		2019/20	
	Sub-total	Total	Sub-total	Total	Sub-total	Total
Aided primary schools						
Teachers within establishment						
Regular teachers						
Regular teachers employed on DCP terms						
Teachers outside establishment						
Aided secondary schools						
Teachers within establishment						

Regular teachers						
Regular teachers employed on DCP terms						
Teachers outside establishment						
Government primary schools						
Teachers within establishment						
Regular teachers						
Teachers outside establishment						
Government secondary schools						
Teachers within establishment						
Regular teachers						
Teachers outside establishment						
Special schools						
Teachers within establishment						
Regular teachers						
Regular teachers employed on DCP terms						
Teachers outside establishment						

- (d) the average number of teaching periods and the total number of full-year teaching hours of teachers in government, aided and private primary and secondary schools.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 139)

Reply:

(a) The average student-to-teacher ratio and the average teacher-to-class ratio in public sector and private primary and secondary schools, special schools, Direct Subsidy Scheme (DSS) schools and international schools (including schools under English Schools Foundation) for the school years from 2017/18 to 2019/20 are tabulated below:

Student-to-Teacher Ratio

	2017/18	2018/19	2019/20 (Estimate)
Government Primary Schools	14.0 : 1	13.9 : 1	13.6 : 1
Government Secondary Schools	12.7 : 1	12.6 : 1	12.7 : 1
Aided Primary Schools	13.8 : 1	13.6 : 1	13.3 : 1
Aided Secondary Schools	11.5 : 1	11.3 : 1	11.2 : 1
Private Primary Schools*	15.7 : 1	15.1 : 1	15.1 : 1
Private Secondary Schools*	11.9 : 1	11.7 : 1	11.0 : 1
Caput Secondary Schools	13.2 : 1	12.9 : 1	13.5 : 1
Special Schools	4.2 : 1	4.2 : 1	4.2 : 1
DSS Schools*	11.3 : 1	11.3 : 1	11.3 : 1
International Schools*	10.8 : 1	10.5 : 1	10.4 : 1

Teacher-to-Class Ratio

	2017/18	2018/19	2019/20 (Estimate)
Government Primary Schools	1.9 : 1	1.9 : 1	2.0 : 1
Government Secondary Schools	2.3 : 1	2.3 : 1	2.3 : 1
Aided Primary Schools	2.0 : 1	2.0 : 1	2.1 : 1
Aided Secondary Schools	2.4 : 1	2.4 : 1	2.4 : 1
Private Primary Schools*	1.9 : 1	1.9 : 1	1.9 : 1
Private Secondary Schools*	1.7 : 1	1.8 : 1	1.9 : 1
Caput Secondary Schools	2.3 : 1	2.4 : 1	2.3 : 1
Special Schools	2.4 : 1	2.4 : 1	2.4 : 1
DSS Schools*	2.6 : 1	2.6 : 1	2.6 : 1
International Schools*	2.1 : 1	2.2 : 1	2.2 : 1

* The student-to-teacher ratio and the teacher-to-class ratio vary among individual DSS schools, private schools and international schools.

Note: The student-to-teacher ratio and the teacher-to-class ratio listed above are calculated on the basis of the total number of teachers (i.e. including teachers within and outside the establishment) in school.

(b) The posts on the approved teaching establishment of public sector schools are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. The number of regular teachers (rounded to the nearest 10) in public sector schools for the school years from 2017/18 to 2019/20 is tabulated below:

Regular Teachers

	2017/18	2018/19	2019/20 (Estimate)
Government Primary Schools	1 220	1 290	1 330
Government Secondary Schools	1 380	1 430	1 430
Aided Primary Schools	17 920	18 520	19 080
Aided Secondary Schools	18 610	18 420	18 510
Caput Secondary Schools	90	80	80
Special Schools	1 810	1 820	1 900

The number of regular teachers (rounded to the nearest 10) on defined contract period (DCP) terms in aided schools for the school years from 2017/18 to 2019/20 is tabulated below:

Regular Teachers on DCP Terms

	2017/18	2018/19	2019/20 (Estimate)
Aided Primary Schools	410	410	330
Aided Secondary Schools	850	710	480

Note: Schools should not employ regular teachers on DCP terms unless they have actual operational needs and cogent reasons, and there are no teachers on DCP terms in government schools and caput schools. Besides, the Education Bureau (EDB) does not keep information on regular teachers employed on DCP terms by special schools.

As at January this year, the number of teaching assistants (rounded to the nearest 10) in public sector primary and secondary schools and special schools collected via the EDB e-Services Portal is tabulated below:

Teaching Assistants (TAs)

	No. of TAs*
Government Primary Schools	40
Government Secondary Schools	10
Aided Primary Schools	440
Aided Secondary Schools	500
Caput Secondary Schools	10
Special Schools	20

* Estimate for the 2019/20 school year.

As the EDB does not collect information on associate teachers/assistant teachers in public sector primary and secondary schools and special schools, relevant statistics are unavailable.

(c) The respective number of teachers (rounded to the nearest 10) within and outside the approved teaching establishment of aided and government schools is tabulated below:

		2017/18		2018/19		2019/20 (Estimate)	
		Sub- total	Total	Sub- total	Total	Sub- total	Total
Aided Primary Schools							
Teachers Within Establishment	Regular Teachers*	17 510	17 920	18 110	18 520	18 750	19 080
	Regular Teachers on DCP Terms	410		410		330	
Teachers Outside Establishment		-	1 760	-	1 940	-	1 870
Aided Secondary Schools							
Teachers Within Establishment	Regular Teachers*	17 770	18 610	17 710	18 420	18 030	18 510
	Regular Teachers on DCP Terms	850		710		480	
Teachers Outside Establishment		-	2 100	-	2 300	-	2 350
Government Primary Schools							
Teachers Within Establishment	Regular Teachers*	-	1 220	-	1 290	-	1 330
Teachers Outside Establishment		-	390	-	380	-	360
Government Secondary Schools							
Teachers Within Establishment	Regular Teachers*	-	1 380	-	1 430	-	1 430
Teachers Outside Establishment		-	270	-	210	-	200
Special Schools							
Teachers Within Establishment	Regular Teachers*	-	1 810	-	1 820	-	1 900
Teachers Outside Establishment		-	40	-	60	-	50

* Including regular teachers on permanent terms and Native-speaking English Teachers.

(d) The average number of teaching periods per cycle for teachers in government and aided primary and secondary schools for the school years from 2017/18 to 2019/20 is tabulated below. The EDB does not have information on the average number of teaching periods for teachers in private primary and secondary schools.

Average Number of Teaching Periods Per Cycle Per Teacher*

	2017/18	2018/19	2019/20 (Estimate)
Government Secondary School Teachers	24	24	24
Government Primary School Teachers	25	25	24
Aided Secondary School Teachers	25	25	24
Aided Primary School Teachers	25	25	25

* In compiling the above figures, principals and teachers without teaching periods are excluded. The number of school days per cycle (ranging from 5 to 10 days) and the length of each teaching period may vary from school to school. Also, the number of school days per cycle may vary across school years.

Note: The EDB does not keep track of the actual numbers of teaching days and teaching hours per period per teacher. Hence, statistics on the total number of full-year teaching hours of teachers are not available.

CONTROLLING OFFICER'S REPLY

EDB425

(Question Serial No. 3365)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (5) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Starting from the 2017/18 school year, the Government has provided an Assistant Primary School Master/Mistress (APSM) (Curriculum Development) for special schools that operate fewer than 6 approved primary classes to support curriculum development. Please advise:

- (1) the details of the measure, the annual expenditure so far and the estimated expenditure in the 2020/21 school year; and
- (2) whether there are primary schools that have cut the ratio or percentage of graduate teacher posts because of the new measure and the requirement that APSM be capped at 65%; if yes, of the details.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 140)

Reply:

(1) Starting from the 2017/18 school year, a Primary School Curriculum Leader post at the rank of Assistant Primary School Master/Mistress is provided for special schools operating 1 to 5 primary classes to replace the provision of the Curriculum Leadership Grant. A total of 28, 27 and 23 special schools have benefited from the measure in the 2017/18, 2018/19 and 2019/20 school years respectively. It is expected that around the same number of schools will benefit in the 2020/21 school year. As the expenditure incurred in converting the grant into regular teaching posts has been subsumed under the recurrent expenditure of the Education Bureau (EDB), we are unable to provide a breakdown of the expenditure involved.

(2) The EDB has been calculating the number of graduate teacher posts for public sector ordinary primary schools and primary section of special schools in each school year based on the stipulated ratio of graduate teacher posts. Similarly, in the 2017/18 and 2018/19 school years, the EDB calculated the number of graduate teacher posts for primary section

of special schools operating 1 to 5 primary classes and entitled to the provision of a Primary School Curriculum Leader based on the stipulated ratio (i.e. graduate teacher posts accounting for 65% of the teaching posts). Under most circumstances, when a school has expanded its establishment, the number of graduate teacher posts, accounting for 65% of the establishment, will increase accordingly. However, there are cases where the establishment of individual schools is too small, their number of graduate teacher posts, while holding at 65% of the new establishment, remains unchanged even when their total number of teachers has increased by 1.

As the Chief Executive announced in the 2018 Policy Address, the all-graduate teaching force policy would be implemented in public sector primary and secondary schools (including special schools) in one go in the 2019/20 school year. Schools may, taking into account their school-based circumstances, achieve full implementation by the 2020/21 school year. Hence, the ratio of graduate teacher posts in primary section of special schools will be enhanced from 65% to 100%. In other words, all teaching posts within the approved establishment of the primary section of special schools will be graduate teacher posts starting from the 2019/20 school year.

CONTROLLING OFFICER'S REPLY

EDB426

(Question Serial No. 3366)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Regarding duty visits outside Hong Kong made by the Secretary for Education, Under Secretary for Education, Political Assistant to Secretary for Education and Permanent Secretary for Education in their official capacities, please provide the date of visit, purpose of visit, size of entourage, related expenditure and details in the 5 financial years from 2015-16 to 2019-20, as well as the estimate in this regard for the 2020-21 financial year.

(b) Regarding meetings held between officials of the Education Bureau and those of the Ministry of Education, please provide the number and place of visits, as well as the expenditure incurred from 2015-16 to 2019-20.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 141)

Reply:

(a) Information about duty visits outside Hong Kong made by the Secretary for Education (SED) and Political Assistant to SED, Under Secretary for Education as well as Permanent Secretary for Education (PS(Ed)) from 2015-16 to 2019-20 is at Annexes A to C respectively. For 2020-21, about \$210,000 is earmarked for the Office of SED and PS(Ed) for expenditure on duty visits.

(b) The Education Bureau maintains necessary working relationship with the officials of the Ministry of Education with a view to ensuring mutual understanding and effective exchanges. We do not keep a separate account to capture expenditure on meetings with them.

CONTROLLING OFFICER'S REPLY

EDB427

(Question Serial No. 3367)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

At present, how many funds and scholarship schemes have been set up by various departments under the purview of the Secretary for Education, including the Education Bureau, the Working Family and Student Financial Assistance Agency and the University Grants Committee? Please provide details on the year of establishment, aim and assessor of these funds and scholarship schemes, as well as the balance, income, expenditure and number of beneficiaries of each fund and scheme in each of the past 5 years (from 2015/16 to 2019/20).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 142)

Reply:

Details of the scholarship schemes and funds set up with public money under the purview of the Education Bureau (EDB) are set out in the attached tables.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Language Fund	1994	To provide financial support for projects and activities which aim at improving Hong Kong people's proficiency in Chinese (including Putonghua) and English.	The Standing Committee on Language Education and Research	2015/16	6,280	222	77	191 924 ¹
				2016/17	6,372	174	82	196 784 ¹
				2017/18	6,475	239	136	238 507 ¹
				2018/19	6,550	217	142	207 353 ¹
				2019/20	6,635 ²	222 ²	137 ²	250 508 ¹

¹ Different projects have different objectives, coverage, approaches and targeted groups of beneficiaries. The total number of beneficiaries only covers the projects targeting students, teachers, parents and working people/individuals etc., while the projects that target schools are not included.

² Estimates for 2019/20.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Quality Education Fund (QEF)	1998	To finance projects for the promotion of quality school education in Hong Kong.	The QEF Steering Committee	2015/16	8,403	456	140	322 064 ³
				2016/17	9,173	891	121	442 997 ³
				2017/18	9,494	528	207	613 871 ³
				2018/19	9,426	179	247	590 817 ³
				2019/20	9,166 ⁴	130 ⁴	390 ⁴	Under preparation ⁵

³ Beneficiaries may include teachers, students and parents. Some applications for 2018/19 are still being processed and the number of beneficiaries is yet to be confirmed.

⁴ Estimates for 2019/20. Given market volatility, no gain or loss on disposal or revaluation of investments in securities has been included in the estimated income and fund balance.

⁵ Some applications for 2019/20 are still being processed and the number of beneficiaries is yet to be confirmed.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Education Development Fund (EDF)	2004	To provide differentiated school-based professional support (SBPS) for building schools' capacity in taking forward the education reform initiatives.	The Advisory Committee on the EDF, which comprised frontline teachers, principals, academics and community members, offered advice on the operation of the EDF and the implementation of the SBPS programmes.	2015/16	325	4	91	579 ⁶
				2016/17	224	3	104	556 ⁶
				2017/18	136	2	90	613 ⁶
				2018/19	1 ⁷	1	117	689 ⁶
				2019/20	- ⁸	1 ⁸	- ⁸	- ⁸

⁶ Number of schools includes kindergartens, primary schools, secondary schools and special schools.

⁷ The EDF came to a close at the end of 2018/19 and around \$19 million was returned to the Government in August 2019.

⁸ Estimates for 2019/20. Upon the closure of the EDF at the end of 2018/19, schools receiving funds from the EDF are required to return the unused funds within 2019/20, and the total refund amount is estimated at around \$1 million. The funds returned will be considered to be the income of the EDF in 2019/20. There are no grant expenditure and beneficiaries under the EDF in 2019/20, and all the remaining balance of the EDF will be returned to the Government at the end of that school year.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
HKSAR Government Scholarship Fund	2008	To attract outstanding local and non-local students to pursue publicly-funded higher education programmes in Hong Kong and to stay in Hong Kong after graduation; To recognise the achievements of outstanding local and non-local students, with a view to attracting them to stay in Hong Kong after graduation; and To promote the further development of Hong Kong as a regional education hub and enhance Hong Kong's competitiveness in the long run.	To be assessed/monitored by participating institutions ⁹ (according to the stipulated selection criteria of the Fund) and by the Steering Committee of the Fund.	2015/16	2,282	124	104	4 762
				2016/17	2,453	278	107	4 983
				2017/18	2,499	142	96	4 299
				2018/19	3,248	849 ¹⁰	100	4 362
				2019/20	3,198 ¹¹	70 ¹¹	120 ¹¹	5 400 ¹²

⁹ Participating institutions of the HKSAR Government Scholarship Fund are the 8 University Grants Committee(UGC)-funded universities (i.e. City University of Hong Kong, Hong Kong Baptist University, Lingnan University, the Chinese University of Hong Kong, the Education University of Hong Kong, the Hong Kong Polytechnic University, the Hong Kong University of Science and Technology, and the University of Hong Kong), the Hong Kong Academy for Performing Arts, and the Vocational Training Council.

¹⁰ Including the injection of \$800 million in March 2019.

¹¹ Estimates for 2019/20. Given market volatility, no gain or loss on disposal or revaluation of investments in securities has been included in the estimated income and fund balance.

¹² The above figure covers the recipients of the HKSAR Government Scholarship Scheme, Targeted Scholarship Scheme and Endeavour Merit Award, and estimated figures for Talent Development Scholarship and Reaching Out Award (applications under these 2 programmes for 2019/20 are still under processing by institutions).

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Research Endowment Fund	2009	To support research at the UGC-funded universities and the local self-financing degree-awarding institutions. The Government injected \$3 billion into the Research Endowment Fund in June 2018 to generate investment income to provide tuition waiver for local research postgraduate students.	Peer review mechanism involving expert reviewers and assessment panels formed under the Research Grants Council. As regards the Tuition Waiver Scheme for Local Research Postgraduate Students, the UGC-funded universities are required to submit to the UGC Secretariat records of local research postgraduate students whose tuition fees have been waived for verification.	2015/16	26,811	1,038	588	1 268 ¹³
				2016/17	26,572	772	1,011	1 288 ¹³
				2017/18	29,210	4,063 ¹⁴	1,425	1 286 ¹³
				2018/19	49,257	20,995 ¹⁵	948	1 296 ¹³
				2019/20	Under preparation	Under preparation	Under preparation	1 362 ^{13, 16}

¹³ Research teams.

¹⁴ Including the injection of \$3 billion in June 2018.

¹⁵ The injection of \$20 billion into the Research Endowment Fund approved in 2018/19 was regarded as an amount receivable and thus reflected in the year-end balance of the Fund's audited financial statement for 2018/19.

¹⁶ As at 29 February 2020.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Hong Kong PhD Fellowship Scheme	2009	To attract the best and brightest students in the world to pursue PhD programmes in the UGC-funded universities in Hong Kong.	Two selection panels of the Scheme are formed by the Research Grants Council, and shortlisted applications, subject to their areas of studies, will be reviewed by one of the selection panels with experts in the relevant broad areas.	2015/16 ¹⁷	-	137.8	137.8	551 ¹⁸
				2016/17 ¹⁷	-	152.5	152.5	610 ¹⁸
				2017/18 ¹⁷	-	155.3	155.3	621 ¹⁸
				2018/19 ¹⁷	-	206.8	206.8	659 ¹⁸
				2019/20 ¹⁷	-	219.6	219.6	681 ¹⁸

¹⁷ Expenditure of the Scheme is funded by recurrent grants from the UGC.

¹⁸ Including new awardees and awardees from previous years who continue to benefit from the Scheme.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Scholarship for Prospective English Teachers	2010	To attract persons proficient in English to pursue relevant local bachelor degree programmes and/or teacher training programmes to become English Language teachers.	Selection boards comprising school heads, representatives of school sponsoring bodies and EDB representatives.	2015/16	-	9.26	9.26	184 ¹⁹
				2016/17	-	9.51	9.51	189 ¹⁹
				2017/18	-	9.41	9.41	187 ¹⁹
				2018/19	-	9.51	9.51	189 ¹⁹
				2019/20	-	10.49 ²⁰	10.49 ²⁰	202 ¹⁹

¹⁹ Including new awardees and awardees from previous years who continue to receive the scholarship. Those for 2019/20 are estimated figures.

²⁰ Estimates for 2019/20.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Self-financing Post-secondary Education Fund	2011	To support worthwhile initiatives and schemes that aim to enhance the quality of self-financing post-secondary education.	The Committee on Self-financing Post-secondary Education (CSPE) ²¹	2015/16	3,578	178	109	11 460 ²²
				2016/17	3,878	440	140	52 914 ²²
				2017/18	3,969	212	121	37 881 ²²
				2018/19	3,946	92	115	79 778 ²²
				2019/20	3,906 ²³	90 ²³	130 ²³	9 165 ²²

²¹ Following its revamp on 1 November 2019, the CSPE has taken up the functions of the Self-financing Post-secondary Education Fund Steering Committee.

²² Including scholarship recipients as well as students and teachers directly benefited from quality enhancement projects completed in that year. The number of beneficiaries in 2019/20 is a provisional figure as at March 2020.

²³ Estimates for 2019/20. Given market volatility, no gain or loss on disposal or revaluation of investments in securities has been included in the estimated income and fund balance.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Qualifications Framework Fund (QF Fund)	2014	To provide a steady source of income to support the sustainable development and implementation of Qualifications Framework (QF).	The Steering Committee on QF Fund	2015/16 ²⁴	1,016	16	-	2 090 ²⁵ practitioners and 243 ²⁶ education and training providers ²⁷
				2016/17 ²⁴	1,046	30	-	3 537 ²⁵ practitioners and 388 ²⁶ education and training providers ²⁷
				2017/18 ²⁴	2,276	1,265 ²⁸	35	4 134 ²⁵ practitioners and 393 ²⁶ education and training providers ²⁷
				2018/19	2,300	77	53	2 780 ²⁵ practitioners and 397 ²⁶ education and training providers ²⁷
				2019/20	2,314 ²⁹	78 ²⁹	64 ²⁹	2 509 ²⁵ practitioners and 405 ²⁶ education and training providers ²⁷

²⁴ In March 2016 and March 2018, the seed capital of \$1 billion and \$1.2 billion were respectively injected into the QF Fund and placed with the Exchange Fund for investment. Since it takes time for the QF Fund to generate and accumulate investment income to meet the funding requirements, in the interim before 2017, we had been deploying the funds under the non-recurrent item of Qualifications Framework Support Scheme (QFSS) under Head 156 EDB for meeting the expenditure of the initiatives under the QF Fund. The approved commitment for QFSS was exhausted in 2017 and we have started using the investment income generated from the principal of the QF Fund in the same year to meet the expenditure of various initiatives.

²⁵ For the periods from April 2015 to March 2016, April 2016 to March 2017, April 2017 to March 2018, April 2018 to March 2019, and April 2019 to 29 February 2020 respectively.

²⁶ As at March 2016, March 2017, March 2018, March 2019 and 29 February 2020 respectively.

²⁷ The above figures which are readily available are not exhaustive as the QF Fund supports a wide range of stakeholders, including education and training providers, practitioners, assessment agencies and the quality assurance body, through various initiatives.

²⁸ Including the injection of \$1.2 billion in March 2018.

²⁹ Estimates for 2019/20.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Hong Kong Scholarship for Excellence Scheme (HKSES)	2014	To support outstanding local students to pursue studies at world renowned universities outside Hong Kong with a view to grooming a top cadre of talents with global vision, international network and world-class education, thereby contributing to enhancing Hong Kong's competitiveness as Asia's World City in a globalised knowledge economy.	The Steering Committee on the HKSES and the EDB	2015/16	327.32	-	20.65	92
				2016/17	295.00	-	32.32	164 ³⁰
				2017/18	248.98	-	46.02	229 ³⁰
				2018/19	193.15	-	55.83	259 ³⁰
			Advisors to the HKSES and the EDB ³¹	2019/20	157.84 ³²	-	56.01 ³²	241 ³⁰

³⁰ Including new awardees and awardees from previous academic years who continue to receive the scholarship.

³¹ With the regularisation of the HKSES from 2019/20 onwards, Advisors to the HKSES have been advising the EDB on selection and assessment matters for selecting awardees of each cohort.

³² Estimates for 2019/20. As the HKSES has been regularised from 2019/20 onwards, the expenditure of around \$20.7 million for new awardees in the academic year pertains to recurrent expenditure and thus is not reflected in the balance.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Gifted Education Fund (GE Fund)	2016	To support the development of gifted education in Hong Kong through the Hong Kong Academy for Gifted Education and other worthwhile initiatives, schemes and programmes.	The Advisory Committee on Gifted Education	2016/17 ³³	810	10	-	-
				2017/18	824	32	18	9 019 ³⁴
				2018/19 ³³	1,625	838 ³⁵	37	6 717 ³⁶
				2019/20	1,639 ³⁷	55 ³⁷	41 ³⁷	Under preparation ³⁸

³³ The seed capital, each of \$800 million, were injected into the GE Fund and placed with the Exchange Fund for investment in March 2017 and March 2019.

³⁴ The actual number of student members of the Hong Kong Academy for Gifted Education for 2017/18.

³⁵ Including the injection of \$800 million in March 2019.

³⁶ The actual number of student members of the Hong Kong Academy for Gifted Education for 2018/19.

³⁷ Estimates for 2019/20. The expenditure covers the provision for the Hong Kong Academy for Gifted Education and the Off-school Advanced Learning Programmes launched in 2019/20.

³⁸ The actual number of student members of the Hong Kong Academy for Gifted Education and students enrolling in the Off-school Advanced Learning Programmes in 2019/20 is yet to be confirmed.

Name of Scholarship/Fund	Year of establishment	Aims	Assessors	School/ Academic year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of Beneficiaries
Student Activities Support (SAS) Fund	2019	To support students with financial needs to participate in life-wide learning activities for whole-person development.	EDB	2018/19 ³⁹	2,533	2,533 ⁴⁰	-	-
				2019/20	2,580 ⁴¹	86 ⁴¹	39 ⁴¹	160 930 ⁴²

³⁹ The seed capital of \$2.5 billion was injected into the SAS Fund and placed with the Exchange Fund for investment in March 2019. As the support measures are implemented starting from 2019/20, no related figures on expenditure and beneficiaries under the SAS Fund in 2018/19 are available.

⁴⁰ Including the injection of \$2.5 billion in March 2019.

⁴¹ Estimates for 2019/20.

⁴² The number of students is rounded to the nearest ten. The figure shown represents the number of primary and secondary school students in receipt of the Comprehensive Social Security Assistance or the full grant under the School Textbook Assistance Scheme in 2019/20, which is taken as the basis for calculating the provision of the Student Activities Support Grant.

CONTROLLING OFFICER'S REPLY**EDB428****(Question Serial No. 3368)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the students who benefitted from the free quality kindergarten (KG) education scheme from the 2017/18 to 2019/20 school years, please provide the following information:

(1) Numbers of students who received free KG education and numbers of students who needed to pay school fees

Type of KG		No. of students	No. of students receiving free KG education	Percentage of students receiving free KG education	No. of students paying school fees	Percentage of students paying school fees
Half-day (HD)						
Whole-day (WD)						
Mixed	HD					
	WD					
Long whole-day (LWD)						
Total						

(2) Numbers of KGs offering free KG education and numbers of KGs collecting school fees

Type of KG	No. of KGs	No. of KGs offering free KG education	Percentage of KGs offering free KG education	No. of KGs collecting school fees	Percentage of KGs collecting school fees
HD					
WD					
Mixed					
LWD					
Total					

(3) Further to the above question, among KGs operating both HD and WD classes and collecting school fees, how many of them charge school fees for both HD and WD classes, and how many of them charge school fees for WD classes only? Please provide the numbers of such KGs and their percentages out of the total numbers of KGs operating both HD and WD classes.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 143)

Reply:

(1) From the 2017/18 to 2019/20 school years, the respective numbers and percentages of eligible students in kindergartens (KGs) joining the KG education scheme (Scheme-KGs) who need to and need not pay school fees after deducting government subsidy, and the numbers of students who need to top up their school fees after deducting fee remission and their percentages out of the total numbers of eligible students are tabulated at Appendix 1.

(2) From the 2017/18 to 2019/20 school years, the numbers of Scheme-KGs, and the respective numbers and percentages of KGs offering free KG classes and KGs collecting school fees are tabulated in Appendix 2.

(3) Some KGs operate both half-day (HD) and whole-day (WD) classes. This is mainly to flexibly cater for parents' needs. When assessing whether KGs need to collect school fees, we are concerned about whether HD classes are free, and whether the fees collected for WD classes are at a low level. Whether a KG operates both HD and WD classes is not our primary concern. Hence, there is no separate analysis on the collection of school fees by this type of KGs.

Numbers and percentages of eligible students in Scheme-KGs
who need to and need not pay school fees after deducting government subsidy, and
numbers of students who need to top up their school fees after deducting fee remission and
their percentages out of the total numbers of eligible students
from the 2017/18 to 2019/20 school years

School year	Classes	No. of eligible students (Note 1)	No. of students who need not pay school fees after deducting government subsidy (percentage out of the total no. of eligible students)	No. of students who need to pay school fees after deducting government subsidy (percentage out of the total no. of eligible students)	No. of students who need to top up their school fees after deducting fee remission (percentage out of the total no. of eligible students) (Note 2)
2017/18	HD	91 044	82 514 (90.6%)	8 530 (9.4%)	8 119 (8.9%)
	WD	23 823	3 071 (12.9%)	20 752 (87.1%)	31 122 (66.4%)
	Long whole-day (LWD)	23 074	2 839 (12.3%)	20 235 (87.7%)	
2018/19	HD	84 423	75 548 (89.5%)	8 875 (10.5%)	8 557 (10.1%)
	WD	24 958	3 013 (12.1%)	21 945 (87.9%)	33 557 (70.5%)
	LWD	22 656	1 749 (7.7%)	20 907 (92.3%)	
2019/20	HD	83 228	74 199 (89.2%)	9 029 (10.8%)	8 546 (10.3%)
	WD	26 285	2 751 (10.5%)	23 534 (89.5%)	35 553 (72.7%)
	LWD	22 607	1 364 (6.0%)	21 243 (94.0%)	

- Note:
- (1) The numbers of eligible students show the position as at mid-September of the respective school years. Subsidies are disbursed according to the provisional figures reported by schools. Upon confirmation of the figures, adjustments will be made as necessary. Figures for the 2018/19 school year are revised figures, while those for the 2019/20 school year are provisional figures.
 - (2) As applicants for fee remission are not required to indicate whether or not they are admitted to LWD classes, a breakdown by WD and LWD classes is not available.

Numbers and percentages of Scheme-KG
offering free KG classes and KGs collecting school fees
from the 2017/18 to 2019/20 school years

School year	Classes	No. of Scheme-KGs	No. of KGs offering free KG classes (percentage out of the total no. of Scheme-KGs)	No. of KGs collecting school fees (percentage out of the total no. of Scheme-KGs)
2017/18	HD	510	479 (93.9%)	31 (6.1%)
	WD	354	33 (9.3%)	321 (90.7%)
	LWD	246	34 (13.8%)	212 (86.2%)
2018/19	HD	511	477 (93.3%)	34 (6.7%)
	WD	364	48 (13.2%)	316 (86.8%)
	LWD	246	21 (8.5%)	225 (91.5%)
2019/20	HD	515	477 (92.6%)	38 (7.4%)
	WD	370	41 (11.1%)	329 (88.9%)
	LWD	246	17 (6.9%)	229 (93.1%)

Note:

KGs operating both HD and WD/LWD classes will be counted in the respective rows for HD, WD and LWD classes.

Special school teachers						

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 145)

Reply:

The average number of teaching periods for teachers in government, aided and Direct Subsidy Scheme (DSS) primary and secondary schools, as well as special schools, per cycle for the school years from 2017/18 to 2019/20 is tabulated below:

Average number of teaching periods per cycle per teacher*

	2017/18	2018/19	2019/20 (Estimate)
Government secondary school teachers	24	24	24
Government primary school teachers	25	25	24
Aided secondary school teachers	25	25	24
Aided primary school teachers	25	25	25
DSS secondary school teachers	22	23	22
DSS primary school teachers	22	21	21
Special school teachers	26	26	26

* In compiling the above figures, principals and teachers without teaching periods are excluded. The number of school days per cycle (ranging from 5 to 10 days) and the length of each teaching period may vary from school to school. Also, the number of school days per cycle may vary across school years.

Note: The Education Bureau does not keep track of the actual numbers of teaching days and teaching hours per period per teacher. Hence, statistics on the annual average numbers of teaching periods and hours per teacher are not available.

Director of Bureau: Secretary for Education

Question:

(1) Regarding the promotion of National Education, what were the Government's expenditures in the past 5 school years (from the 2015/16 to 2019/20 school years) and what is the estimated expenditure for the 2020/21 school year?

(2) What were the respective numbers of kindergarten, primary, secondary and post-secondary students and teachers who participated in Mainland exchange programmes in the past 5 school years (from the 2015/16 to 2019/20 school years). Please also provide the number of exchange programmes, the numbers of participating students and teachers, and the public funds involved; and

(3) Please set out the staff establishment of the Moral, Civic and National Education Section under the Curriculum Development Institute of the Education Bureau in the past 5 school years (from the 2015/16 to 2019/20 school years) and the 2020/21 school year, as well as the expenditure involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 146)

Reply:

(1)

The expenditures involved in the Mainland exchange programmes in the past 5 school years (from 2015/16 to 2019/20) and for the 2020/21 school year are set out below. Owing to the outbreak of COVID-19 in early 2020, all Mainland exchange activities organised or subsidised by the Education Bureau (EDB) have been suspended or postponed since end-January.

School year	Expenditure (\$ million) [@]	
	Programmes for primary and secondary students	Programmes for primary and secondary teachers
2015/16	61.9	1.5
2016/17	64.2	2.9
2017/18	85.4	5.5
2018/19 [#]	108.9	7.1
2019/20 [*]	35.1	8.7
2020/21 ⁺⁺	115	12.9

[@] Expenditure on manpower resources for the provision of Mainland exchange programmes is subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

⁺⁺ Estimated figures

National education, in the broad sense, also includes learning about various aspects of our country through different subjects in an appropriate manner. There is coverage on our country's history, culture, landscape, development, etc. in the curriculum content of History, General Studies, Chinese Language, Geography and even Music and Arts. Moreover, elements that enhance a better understanding of our country are added to various life-wide learning activities (e.g. activities related to the Hong Kong Special Administrative Region Establishment Day or National Day). The EDB also provides support to schools in various areas, such as organising professional development programmes for teachers and developing learning and teaching resources. The relevant expenditure is subsumed under the recurrent expenditure of the EDB and cannot be identified separately.

(2)

The number of post-secondary, secondary and primary students who participated in the Mainland exchange programmes in the past 5 school years (from 2015/16 to 2019/20) and the expenditures involved are shown below:

School year	Number of students (rounded down to the nearest hundred)			Expenditure (\$ million) [@]		
	Post-secondary students ^Δ	Secondary students	Primary students	Post-secondary students	Secondary students	Primary students
2015/16	3 900	35 800	23 400	11.9	46.8	15.1
2016/17	3 400	35 300	24 500	10.4	50.3	13.9
2017/18	2 700	40 200	26 800	8.4	57.6	27.8
2018/19 [#]	2 200	42 100	32 400	6.7	66.7	42.2
2019/20 [*]	4 000	9 300	11 200	15	18.9	16.2

[@] Expenditure on manpower resources for the provision of Mainland exchange programmes is subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

△ Only data related to the Pilot Mainland Experience Scheme for Post-secondary Students (for the academic years from 2011/12 to 2018/19)/Non-means-tested Mainland Experience Scheme for Post-secondary Students (for the 2019/20 academic year) is included. There are other schemes that provide subsidies for students to join Mainland exchange programmes. As the scope of these subsidy schemes also covers destinations besides the Mainland, statistics only on exchange activities in the Mainland are not available.

The number of post-secondary, kindergarten, primary and secondary teachers who participated in teachers' Mainland exchange programmes in the past 5 school years (from 2015/16 to 2019/20) and the expenditures involved are shown below:

School year	Number of post-secondary, kindergarten, primary and secondary teachers (rounded down to the nearest ten)	Expenditure (\$ million) @
2015/16	410	2.1
2016/17	690	2.9
2017/18	910	6.3
2018/19 [#]	1 800	7.7
2019/20 [*]	1 230	9.7

@ Expenditure on manpower resources for the provision of Mainland exchange programmes is subsumed under the recurrent expenditure of the EDB

Actual figures revised from last year's estimates

* Provisional figures

No kindergarten students have taken part in the Mainland exchange programmes in the past 5 school years.

(3)

The Moral, Civic and National Education (MCNE) Section is responsible for the planning and development of values education such as moral and civic education, national education (including Constitution and Basic Law education), life education, sex education, anti-drug education, as well as environmental education. But elements of values education have also been incorporated into the curricula of various subjects. From the 2015/16 to 2017/18 school years, the establishment of the MCNE Section comprised 10 curriculum development officers at various ranks while in the 2018/19 school year, there were 11 curriculum development officers at various ranks. At present, the establishment of the MCNE Section comprises 11 curriculum development officers at various ranks and the staffing provision may change subject to the needs of curriculum development in future. Expenditures on manpower and related curriculum development work of the MCNE Section which includes provision of professional development programmes for school heads and teachers, production of learning and teaching resources, and provision of learning activities for students, are subsumed under the recurrent expenditure of the EDB. Such work is indivisible from our curriculum development work; hence we are unable to provide a separate breakdown.

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information about public sector primary, secondary and special schools in each of the school years from 2015/16 to 2019/20:

- (a) the number of classes and school places reduced due to class reduction and the savings involved;
- (b) the number of schools and school places reduced due to school closure and the savings involved; and
- (c) the total number of classes and school places reduced in (a) and (b) and the total savings involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 148)

Reply:

In the school years from 2015/16 to 2019/20, the number of classes and school places reduced in government, aided primary and secondary schools and special schools, the number of schools closed and the savings involved are as follows:

- (a) The number of classes and school places reduced in government and aided schools due to reduction of classes and the savings involved

School Year	Primary/Special Schools			Secondary Schools		
	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$ million) (Note 1)	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$ million) (Note 1)
2015/16	No reduction in overall number of classes			269	7 747	Not applicable (Note 2)
2016/17				233	6 547	
2017/18				47	1 302	
2018/19				21	573	
2019/20				No reduction in overall number of classes		

- (b) The number of classes and school places reduced in government and aided schools due to school closure and the savings involved (no special schools were closed in the school years concerned)

School Year	Primary Schools				Secondary Schools			
	No. of Schools Closed	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$ million) (Note 1)	No. of Schools Closed	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$ million) (Note 1)
2015/16	No school closure				2	5	144	11
2016/17					No school closure			
2017/18					1	1	28	6
2018/19					No school closure			
2019/20					1	4	109	4

- (c) The total number of classes and school places reduced in government and aided schools due to reduction of classes or school closure and the total savings involved

School Year	Primary/Special Schools			Secondary Schools		
	Total No. of Classes Reduced	Estimated Total No. of School Places Reduced	Estimated Total Savings (\$ million) (Note 1)	Total No. of Classes Reduced	Estimated Total No. of School Places Reduced	Estimated Total Savings (\$ million) (Note 1)
2015/16	No reduction in overall number of classes			274	7 891	Not applicable (Note 2)
2016/17				233	6 547	
2017/18				48	1 330	
2018/19				21	573	
2019/20				No reduction in overall number of classes		

Notes:

1. Savings due to reduction of classes and school closure depend on a number of factors, such as the number of classes operated, operation overheads and maintenance cost. Unless a school is closed, there cannot be proportionate adjustment in the overheads due to class reduction. In the case of school closure, the actual savings vary significantly among schools and have to be worked out on a case-by-case basis. The figures quoted above represent a very crude assessment.
2. From the 2015/16 to 2018/19 school years, since the expenditures for the implementation of the enhanced measures under the Voluntary Optimisation of Class Structure Scheme and the targeted relief measures for public sector secondary schools have been subsumed under the overall expenditure of the EDB, the estimated total savings arising from reduction of classes in government and aided secondary schools are not available.

- End -

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

(a) A breakdown of the number of aided and government primary and secondary schools with 1, 2, 3, 4, 5, 6, 7 or more classes at Primary 1 to Primary 6 and Secondary 1 to Secondary 6 levels by the 18 school districts and whole territory in the 5 school years from 2015/16 to 2019/20.

(b) A breakdown of the total number of schools with 1, 2, 3, 4, 5, 6, 7 or more Secondary 1 classes in the school years from 2015/16 to 2019/20; and provide the largest number of Secondary 1 classes operated among schools as well as the number of schools operating Secondary 1 classes up to this number.

(c) A breakdown of the total numbers of schools with 1, 2, 3, 4, 5, 6, 7 or more Primary 1 classes in the school years from 2015/16 to 2019/20; and provide the largest number of Primary 1 classes operated among schools as well as the number of schools operating Primary 1 classes up to this number.

(d) Since the implementation of the Voluntary Optimisation of Class Structure Scheme in the 2011/12 school year, how many schools have joined the Scheme? How many modes of class reduction are there (e.g. some schools reduce classes every other year)? What is the breakdown of the number of participating schools by mode of class reduction? What are the respective numbers of classes reduced for all class levels in secondary schools in each of the school years between 2015/16 and 2019/20? How many school places of Secondary 1 and/or class levels have been reduced?

(e) The Government has implemented the Voluntary Optimisation of Class Structure Scheme to allow schools to freeze their teaching establishment for not more than 8 years. What was the increase in the number of teachers who had remained in the schools as a result

of the freeze of teaching establishment and the cumulative total number of these teachers in the school years from 2013/14 to 2019/20?

(f) A breakdown of the number of public sector secondary schools which operate Secondary 1 classes with a standard class size of 32, 33 or 34 or other class sizes (e.g. operating 3 classes totalling 51 students or operating 2 classes totalling 26 students) by the 18 school districts and all districts in the territory in the 2019/20 school year.

(g) A breakdown of the number of public sector primary schools which operate Primary 1 classes with a standard class size of 25 or 30 or other class sizes (e.g. operating 3 classes totalling 51 students or operating 2 classes totalling 26 students) by the 18 school districts and all districts in the territory in the 2019/20 school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 149)

Reply:

(a) The number of aided and government secondary and primary schools with 1, 2, 3, 4, 5, 6 and 7 or more classes at Secondary 1 (S1) to Secondary 6 (S6) levels and Primary 1 (P1) to Primary 6 (P6) levels in the 18 districts in the school years from 2015/16 to 2019/20 is set out at Appendices 1 to 10 respectively.

(b) The total number of aided and government secondary schools with 1, 2, 3, 4, 5, 6 and 7 or more S1 classes from the 2015/16 to 2019/20 school years is as follows:

School year	No. of schools with 1 S1 class	No. of schools with 2 S1 classes	No. of schools with 3 S1 classes	No. of schools with 4 S1 classes	No. of schools with 5 S1 classes	No. of schools with 6 S1 classes	No. of schools with 7 or more S1 classes
2015/16	1	18	52	281	29	4	1
2016/17	1	27	48	271	34	4	1
2017/18	1	20	55	277	28	4	1
2018/19	1	14	56	263	47	4	1
2019/20	1	8	51	275	46	4	1

Remark: 1 secondary school operates the most S1 classes, with 7 classes at S1 level.

(c) The total number of aided and government primary schools with 1, 2, 3, 4, 5, 6 and 7 or more P1 classes from the 2015/16 to 2019/20 school years is as follows:

School year	No. of schools with 1 P1 class	No. of schools with 2 P1 classes	No. of schools with 3 P1 classes	No. of schools with 4 P1 classes	No. of schools with 5 P1 classes	No. of schools with 6 P1 classes	No. of schools with 7 or more P1 classes
2015/16	16	50	60	159	147	19	3
2016/17	17	42	58	165	147	23	0
2017/18	12	40	45	167	156	28	4
2018/19	11	40	44	171	167	15	6
2019/20	14	48	64	163	148	14	0

Remarks:

In the 2015/16 school year, 1 primary school operates the most P1 classes, with 8 classes at P1 level.

In the 2016/17 school year, 23 primary schools operate the most P1 classes, with 6 classes at P1 level.

In the 2017/18 school year, 2 primary schools operate the most P1 classes, with 9 classes at P1 level.

In the 2018/19 school year, 1 primary school operates the most P1 classes, with 9 classes at P1 level.

In the 2019/20 school year, 14 primary school operates the most P1 classes, with 6 classes at P1 level.

(d) As of the 2019/20 school year, there is a total of 220 schools under the Voluntary Optimisation of Class Structure Scheme (the Scheme) (excluding 1 school which joined the Direct Subsidy Scheme in the 2013/14 school year and is thus considered having left the Scheme).

There are generally 2 modes of class reduction in terms of the planned class structure a school would attain ultimately. Among the 220 schools joining the Scheme, 212 adopt a symmetrical class structure (i.e. same number of classes across S1 to S6 levels) and 8 adopt a cyclic symmetrical class structure (i.e. same number of classes at every other class level as a result of class reduction in every other school year).

The number of S1 classes reduced and estimated number of S1 school places reduced under the Scheme from the 2015/16 to 2019/20 school years are as follows:

School year	No. of S1 classes reduced	Estimated no. of S1 school places reduced ^{Note}
2015/16	218	6 278
2016/17	212	5 957
2017/18	218	6 039
2018/19	213	5 815
2019/20	217	5 924

Note: The estimated number of S1 places reduced is calculated by multiplying the number of S1 classes reduced by the average class size of secondary schools of the year concerned. The average class sizes of secondary schools in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 school years are 28.8, 28.1, 27.7, 27.3 and 27.3 respectively.

While the approved number of S1 classes after reduction will be carried forward to upper class levels, the Scheme does not require schools to reduce classes voluntarily at other class levels in the same school year. Thus, under the Scheme, the number of classes and school places reduced at class levels other than S1 is nil.

(e) Schools joining the Scheme are given a maximum quota of 6 teaching posts during the six-year transitional period. After the six-year transitional period, the teaching post quota will be withdrawn gradually over 3 years until the end of the Scheme. However, there is no such arrangement in the Scheme to allow schools to freeze their teaching staff establishment as depicted in the question asked. Hence, we are unable to provide the number of teachers who have remained in the schools as a result of the freeze of teaching establishment.

(f) The number of aided and government secondary schools by average class size in the 18 districts in the 2019/20 school year is set out at Appendix 11.

(g) The number of aided and government primary schools by average class size in the 18 districts in the 2019/20 school year is set out at Appendix 12.

CONTROLLING OFFICER'S REPLY

EDB434

(Question Serial No. 3375)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please provide the following information:

- (a) Measures adopted to support the implementation of New Senior Secondary Applied Learning (ApL) and details of related provisions in the 5 school years from 2015/16 to 2019/20.
- (b) The number of schools offering New Senior Secondary ApL courses, the number of courses offered, the number of student applications by level and the total number of students taking ApL courses, and the amount of grant provided by the Government from the 2015/16 to 2019/20 school years.
- (c) A breakdown of the number of schools offering ApL courses and the number of student applications for each of the course clusters under the 6 areas of studies from the 2015/16 to 2019/20 school years.
- (d) Measures adopted to support the implementation of Other Learning Experiences under the New Senior Secondary academic structure and details of related provisions in the 5 school years from 2015/16 to 2019/20.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 150)

Reply:

(a) The Senior Secondary Applied Learning (ApL) has been implemented since the 2010/11 school year. The Education Bureau (EDB) supports schools through various means, including developing an implementation handbook and prospectus, providing briefing sessions and professional development programmes, organising course exhibitions and making arrangements for taster programmes with a view to enabling students to make informed decisions when choosing ApL courses. An E-system has also been developed to

assist schools in handling application matters for ApL courses in schools. In addition, we also provide the Diversity Learning Grant and the Student Grant for Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) to support secondary schools in offering ApL and ApL(C) courses respectively. A full subsidy has been provided for students to take ApL courses from the 2016/17 school year. The amounts of the Diversity Learning Grant for ApL and the Student Grant for ApL(C) from the 2015/16 to 2019/20 school years are as follows:-

School year	2015/16	2016/17	2017/18	2018/19	2019/20
Diversity Learning Grant for ApL (\$ million)	48	59	62	61	64
Student Grant for ApL(C) (\$ million)	4.4	6.7	7.4	6.6	6.8

(b) For the 5 cohorts from 2015-17 to 2019-21, the number of schools offering Senior Secondary ApL courses (including ApL(C) courses), the number of courses offered, the number of student applications, and the total number of students taking ApL courses are as follows:-

Cohort	2015-17	2016-18	2017-19	2018-20	2019-21
No. of schools offering Senior Secondary ApL courses	327	339	347	349	355
No. of courses offered	40	36	35	36	39
No. of student applications (Note: in general, students can only apply to start at S4 for ApL(C) courses and S5 for ApL courses; application by level is thus not applicable.)	7 320	8 609	8 575	7 566	7 365
Total no. of students taking ApL courses	4 506	4 992	4 788	4 614	4 237

Information on the Diversity Learning Grant for ApL and the Student Grant for ApL(C) provided by the Government for Senior Secondary ApL courses is set out in part (a).

(c) The breakdown of the number of schools offering ApL courses and the student applications for each of the course clusters under 6 areas of studies and ApL(C) for the 5 cohorts from 2015-17 to 2019-21 are as follows:

Number of schools offering ApL courses:

Area of studies	Course cluster	2015-17	2016-18	2017-19	2018-20	2019-21
Creative Studies	Design Studies	153	162	154	147	148

	Information Engineering	125	77	113	118	92
	Services Engineering	572	662	731	617	532
Applied Learning Chinese (for non-Chinese speaking students)		189	179	206	230	143
Total no. of student applications		7 320	8 609	8 575	7 566	7 365

(d) The EDB supports schools to implement Other Learning Experiences through various means, including arranging the sharing of good practices among teachers, developing electronic tools for the Student Learning Profile, making arrangements for projects on “Career-related Experiences” and “Community Service” for students, and organising professional development programmes for teachers. The related expenditure in the 5 school years from 2015/16 to 2019/20 is as follows:-

2015/16 (\$ million)	2016/17 (\$ million)	2017/18 (\$ million)	2018/19 (\$ million)	2019/20 (\$ million)
0.29	0.26	0.26	0.2	0.1

CONTROLLING OFFICER'S REPLY

EDB435

(Question Serial No. 3376)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

On support for students and training for teachers in respect of integrated education, please provide the following information for the past 5 years (2015/16 to 2019/20 school years):

(a) the number of students with special educational needs (SEN) in mainstream primary and secondary schools by stage, grade level, SEN type, and tier of support;

(b) the percentage of students with SEN studying in mainstream schools among the total number of students with SEN by SEN type and tier of support, and the percentage of expenditure involved;

(c) the annual number of primary and secondary school teachers who completed the Basic, Advanced and Thematic (BAT) courses and the details of expenditure by course type;

(d) the targets set by the Education Bureau as to the percentage and number of teachers who should receive special education training at different stages, and the annual number of primary and secondary schools that failed to meet the targets; and

(e) the number of primary and secondary schools whose Special Educational Needs Coordinators completed special education training and their percentage share in the total number of public sector schools in the 2019/20 school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 151)

Reply:

(a) and (b)

Schools are required to adopt the Whole School Approach to support students with special educational needs (SEN) through the 3-tier Intervention Model, taking into account their individual circumstances. To help public sector ordinary schools cater for students with

SEN, on top of regular subvention, the Education Bureau (EDB) has been providing these schools with additional resources, professional support and teacher training.

The number of students with SEN studying in public sector ordinary primary and secondary schools by grade level and by SEN type in the past 5 years (2015/16 to 2019/20 school years) is set out at Appendix 1. The tier of support for students with SEN is subject to upward or downward adjustment from time to time depending on the performance of the students and the distribution of students under the 3-tier Intervention Model may change accordingly. For students with mild or transient learning difficulties, schools will provide them with tier-1 support through quality teaching in regular classrooms, and submission of information about these students to the EDB is not required. The distribution of public sector ordinary primary and secondary schools eligible for the Learning Support Grant (LSG) by number of students with SEN requiring tier-2 and tier-3 support from the 2015/16 to 2018/19 school years is set out at Appendix 2.

In the 2018/19 school year and before, ordinary schools were provided with additional resources under various funding modes to support students with SEN. For instance, some schools opted for the LSG, some schools implemented the Integrated Education (IE) Programme, some primary schools implemented the Intensive Remedial Teaching Programme (IRTP), and some primary schools adopted a Mixed Mode of implementing IRTP while receiving the LSG. As schools were provided with additional resources under different modes (i.e. some were provided with additional grants, some were provided with an additional teaching post(s)), schools would adopt diversified strategies to support their students with SEN according to school-based circumstances. Different criteria were used under these funding modes in providing additional resources for schools. For example, schools implementing IE Programme or IRTP were provided with additional teaching manpower but the LSG was not available for flexible deployment in catering for each student with SEN. Besides, there was a basic provision under the LSG in the past, i.e. schools with 1 to 6 student(s) requiring tier-3 support were all provided with the same amount of basic provision. In view of the above factors, the schools concerned might not report to the EDB the tier of support required by each of their students and the number of all students receiving tier-3 support.

The EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace IRTP and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reaches the specific threshold. With the implementation of the above enhanced LSG, the amount of LSG received by each public sector ordinary school is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same mode, which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and the EDB collects complete data on the tier of support these students require from schools. The number of students with various types of SEN requiring tier-2 and tier-3 support in public sector ordinary primary and secondary schools in the 2019/20 school year is tabulated at Appendix 3. Please note that these figures cannot be directly compared with those of the 2018/19 school year and before.

Besides, the statistics on the number of students with SEN studying in public sector ordinary primary and secondary schools set out at Appendix 1 were compiled from records of the Special Education Management Information System (SEMIS) of the EDB in the beginning of the 2019/20 school year. For the figures of the students with SEN shown at Appendix 3, with students' type of SEN and the tier of support they required being scrutinised and submitted by schools to the EDB via SEMIS in the first term of the 2019/20 school year, they were examined and compiled by the EDB at the end of the first term of the same school year. As such, these 2 sets of figures are different.

The percentage of students with each type of SEN out of the total number of students with SEN in the same period is tabulated at Appendix 4.

The expenditure on additional support and services provided for students with SEN studying in public sector ordinary schools from the 2015/16 to 2019/20 school years is as follows:

School year	2015/16	2016/17	2017/18	2018/19	2019/20 (revised estimate)
Expenditure (\$ million)	1,310	1,392	1,638	1,977	3,116

It should be noted that schools are required to deploy school resources holistically and flexibly to provide support for the students with SEN, having regard to their individual needs (not according to their type of SEN). Besides, some expenditures are incurred by services for students with SEN as a whole, irrespective of the type of SEN or tier of support (e.g. teacher training and educational psychology support service). Hence, we are not able to provide a breakdown of these expenditures by type of SEN or tier of support.

(c)

To enhance the professional capacity of teachers in supporting students with SEN, the EDB has been providing serving teachers with structured training courses pitched at basic, advanced and thematic levels (BAT Courses) since the 2007/08 school year. The number of public sector ordinary school teachers having completed the BAT Courses and the expenditure on BAT Courses from the 2015/16 to 2019/20 school years are set out at Table (1) and Table (2) below respectively:

Table (1)

Course	2015/16		2016/17		2017/18		2018/19		2019/20 (Provisional)	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	221	364	259	444	283	406	314	395	305	445
Advanced	109	147	129	197	157	152	177	146	144	176
Thematic	201	250	204	248	217	270	209	265	233	272

Note: BAT Courses for the 2019/10 school year are not yet completed. Figures provided are the anticipated number of teachers who will complete the courses. To prevent the spreading of COVID-19, all kinds of teacher training courses have to be postponed or terminated. The above figures do not reflect the impact of the pandemic on the courses.

Table (2)

Course	Expenditure (\$ million)				
	2015/16	2016/17	2017/18	2018/19	2019/20 (Revised estimate)
Basic	8.3	10.4	10.3	11.0	11.4
Advanced	12.6	16.3	15.5	16.8	16.5
Thematic	24.2	25.3	27.9	28.1	30.1
Total	45.1	52.0	53.7	55.9	58.0

(d)

Teachers' professional development is an ongoing process. After the inception of BAT Courses in the 2007/08 school year, a review of the courses was conducted. The findings showed that the BAT Courses were effective in enhancing teachers' knowledge and skills in catering for students with SEN. In view of the positive feedback, we have launched another round of BAT Courses starting from the 2012/13 school year, with appropriate adjustment to the mode and content of the training programmes to better meet the training needs of the teachers. Starting from the 2014/15 school year, we have further strengthened the practicum of the Advanced and Thematic Courses with a view to providing more opportunities for teachers to apply the knowledge acquired. Taking into account the teacher training profiles as well as the types and number of students with SEN, in the 2015/16 school year, we further raised the training targets. Each public sector ordinary school has been required to arrange teachers to attend the BAT Courses in a systematic and orderly manner within the 5-school-year training cycle. The training targets to be achieved by the end of the 2019/20 school year are: (i) at least 15% to 25% of teachers will have completed the Basic Course; (ii) at least 6 to 9 teachers will have completed the Advanced Course; and (iii) at least 6 to 9 teachers will have completed the Thematic Courses (with at least 1 teacher completing the course(s) under each category as far as possible). Given that the training cycle is still in progress and schools will continuously arrange teachers to attend the BAT Courses each school year, it is not meaningful to set out the number of schools that fail to achieve training targets each year.

As the training cycle is coming to an end in the 2019/20 school year, we have conducted a review on the experiences gained by the tertiary institutions which were commissioned to organise the teacher training courses on special education and collect views from stakeholders regarding teacher training in special education, including course content, operation mode, training hours and training targets of BAT Courses. We are also working on the arrangements for the next training cycle, including considering the provision of more diversified and effective training modes, such as designing online training courses.

Besides, to prevent the spreading of COVID-19, all kinds of teacher training courses for the 2019/20 school year have to be postponed or terminated. As such, we expect to see a drop in the total number of teachers who have completed the BAT Courses in the current training cycle. We will review the impact of the pandemic on the training courses and adjust the arrangements for the next training cycle taking into account the actual needs.

Moreover, on top of the BAT Courses, the EDB arranges training activities for teachers each school year, which include thematic seminars, conferences, experience sharing sessions and workshops, etc. To better equip prospective teachers with the knowledge and skills in catering for students with SEN, local teacher education universities have also included modules related to special education or catering for students with SEN in their pre-service teacher training courses. As such, we consider that providing the number of teachers who have completed the BAT Courses could not fully reflect the position of teachers with special education training in every school, or may be misleading otherwise.

(e)

In the 2019/20 school year, all public sector ordinary schools have been provided with a Special Educational Needs Coordinator (SENCO). In addition, starting from the 2019/20 school year, the post of SENCO in public sector ordinary schools with comparatively large number of students with SEN will be upgraded to promotion rank (i.e. Primary School Master/Mistress or Senior Graduate Master/Mistress). In this connection, some schools have reassigned a suitable teacher to take up the post of SENCO in the light of school-based needs. In the beginning of the 2019/20 school year, nearly 70% of SENCOs have acquired the necessary qualifications in special education training, and the other SENCOs are expected to complete the remaining courses by the current school year or the next school year in order to meet the requirement of completion of the relevant courses within the first two school years of service.

Notes:

1. Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the EDB provides public sector ordinary primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many types of MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
2. The numbers of P1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

Table 1

**Distribution of public sector ordinary schools eligible for the Learning Support Grant (LSG)
by number of students with special educational needs (SEN) requiring tier-2 support
from the 2015/16 to 2018/19 school years**

No. of students with SEN requiring tier-2 support	No. of Schools ^{Notes}							
	2015/16		2016/17		2017/18		2018/19	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary

81-90	7	17	9	15	10	23	27	15
91-100	4	13	8	18	8	18	13	15
Over 100	2	28	3	35	7	49	8	62

Notes:

1. Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.
2. Before the 2019/20 school year, ordinary schools were provided with additional resources with reference to different criteria and principles under various funding modes to support students with SEN. Those schools opting to implement IE Programme or IRTP (i.e. not opting for LSG) might not report to the Education Bureau (EDB) the tier of support required by each of their students and the number of all students receiving tier-3 support. Starting from the 2019/20 school year, the amount of LSG received by each public sector ordinary school under the enhanced LSG measure is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same mode, which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and the EDB collects complete data on the tier of support these students require from schools.

Table 2

**Distribution of public sector ordinary schools eligible for Learning Support Grant (LSG)
by number of students with special educational needs (SEN) requiring tier-3 support
from the 2015/16 to 2018/19 school years**

No. of students with SEN requiring tier-3 support	No. of Schools ^{Notes}							
	2015/16		2016/17		2017/18		2018/19	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary

Secondary	67	386	643	267	10	8	29	0	142

**Percentage of students with each major type of special educational needs (SEN)
out of the total number of students with SEN studying in public sector ordinary schools
from the 2015/16 to 2019/20 school years**

School year	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Mental Illness
2015/16	49.1%	4.0%	17.2%	20.8%	0.8%	0.3%	1.7%	6.1%	-
2016/17	46.9%	3.7%	18.2%	22.0%	0.7%	0.3%	1.5%	6.7%	-
2017/18	45.7%	3.4%	19.2%	23.2%	0.6%	0.2%	1.5%	6.2%	-
2018/19	44.4%	3.2%	19.4%	24.2%	0.5%	0.2%	1.4%	5.8%	0.8%
2019/20	42.6%	3.0%	20.3%	24.7%	0.5%	0.2%	1.3%	6.2%	1.1%

Note: Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the EDB provides public sector ordinary primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many types of MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

CONTROLLING OFFICER'S REPLY

EDB436

(Question Serial No. 3377)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

- (1) The recurrent public expenditure and total public expenditure on education and their respective percentage shares in the Gross Domestic Product (GDP).
- (2) The recurrent expenditure and total expenditure on kindergarten education and their respective percentage shares in the GDP.
- (3) The recurrent expenditure and total expenditure on each type of primary schools and their respective percentage shares in the GDP; and the respective school fees of Direct Subsidy Scheme (DSS) schools and international schools.
- (4) The recurrent expenditure and total expenditure on each type of secondary schools and their respective percentage shares in the GDP; and the respective school fees of DSS schools and international schools.
- (5) With regard to sub-degree places, what is the expenditure on subsidised places paid by public money and what are the respective bursaries offered by the student financial assistance schemes? What are the tuition fees paid by students for subsidised sub-degree places and self-financing sub-degree places respectively?
- (6) As for university education, what are the respective expenditures on subsidised places of the undergraduate, taught postgraduate and research postgraduate programmes paid by public money? What are the respective bursaries offered by the student financial assistance schemes? What are the tuition fees paid by students for subsidised degree places and for self-financing degree places respectively?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 152)

Reply:

(1) The requested information regarding the expenditure on education is as follows:

	2020-21 Estimate	
	\$ million	as % of GDP
Recurrent public expenditure on education	99,589	3.42
Total public expenditure on education	112,304	3.86

(2) The requested information regarding pre-primary education is as follows:

	2020-21 Estimate	
	\$ million	as % of GDP
Recurrent expenditure	6,879	0.24
Total expenditure	6,881	0.24

(3) and (4) The requested information regarding primary and secondary education is as follows:

Expenditure

	2020-21 Estimate	
	\$ million	as % of GDP
Primary education		
Recurrent expenditure	24,172	0.83
-- Out of the above recurrent expenditure, funding allocated to various types of schools includes:-		
--- Government primary schools	1,607	
--- Aided primary schools	19,980	
--- English Schools Foundation Junior Schools	42	
--- Primary schools under the Direct Subsidy Scheme	1,147	
Total expenditure	25,743	0.88

	2020-21 Estimate	
	\$ million	as % of GDP
Secondary education		
Recurrent expenditure	31,301	1.08
-- Out of the above recurrent expenditure, funding allocated to various types of schools includes:-		
--- Government secondary schools	1,849	
--- Aided secondary schools	24,445	
--- Caput schools	116	
--- English Schools Foundation Secondary Schools	173	
--- Secondary schools under the Direct Subsidy Scheme	3,815	
Total expenditure	32,372	1.11

Recurrent expenditure on education for the respective education areas covers recurrent provision to schools as well as student financial assistance to students under various schemes administered by the Working Family and Student Financial Assistance Agency.

Total expenditure on education for the respective education areas comprises recurrent expenditure, non-recurrent expenditure and capital expenditure under General Revenue Account, as well as capital expenditure under Capital Works Reserve Fund (CWRF) (mainly for capital works projects) and Loan Fund. Total expenditure by school type for primary and secondary education is not available as some projects under CWRF cannot be classified by school type, such as the feasibility study and site investigation for vacant school premises.

School fees for international schools and schools under the Direct Subsidy Scheme (DSS)

For international schools, their school fees in the 2019/20 school year range from \$45,600 to \$225,710 at primary level and from \$42,000 to \$260,800 at secondary level. For schools under DSS, their school fees in the 2019/20 school year are set out in the table below:

Amount of school fee [#]	Primary 1 to 6* (No. of schools)	Secondary 1 to 3* (No. of schools)	Secondary 4 to 6* (No. of schools)
\$0 - \$5,000	0	11	8
\$5,001 - \$10,000	1	10	10
\$10,001 - \$20,000	8	4	7
\$20,001 - \$30,000	4	12	13
\$30,001 - \$50,000	5	14	16
\$50,001 - \$80,000	3	3	3
\$80,001 - \$98,000	0	1	2

[#] *The above categories do not cover school fees payable by non-local students or for non-local curricula in schools offering both local and non-local curricula.*

^{*} *For schools that are charging different school fees for different class levels, the highest school fee within the range of class level is used for classification purpose.*

(5) and (6) The requested information regarding sub-degree and degree places is as follows:

Expenditure

	2020-21 Estimate
	\$ million
Funding allocated to University Grants Committee-funded universities	21,462
Financial assistance to students pursuing sub-degree/degree/post graduate programmes ^φ	
-- Tertiary Student Finance Scheme – Publicly-funded Programmes	
--- sub-degree programmes	175.9
--- degree programmes	629.6
--- post-graduate programmes	5.1
-- Financial Assistance Scheme for Post-secondary Students	
--- sub-degree programmes	450.8
--- degree programmes	349.9
-- One-off cash grant*	
--- sub-degree programmes	1.3
--- degree programmes	1.9
--- post-graduate programmes	-
Funding allocations for the Study Subsidy Scheme for Designated Professions/Sectors and the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong	1,217

φ The financial provision represents the projected grants to students in the 2020/21 academic year.

** It was approved in the 2019-20 Budget that a one-off support grant of \$2,500 would be provided for needy students. A small fraction of applicants for student financial assistance in the 2019/20 academic year will receive the grant in 2020-21.*

Funding for University Grants Committee (UGC)-funded programmes is subsumed under the block grant to universities without precise requirements as to how it should be spent. Universities are given the autonomy to allocate funds internally to programmes at different levels (e.g. sub-degree, undergraduate, taught postgraduate and research postgraduate programmes) as they see fit. UGC is therefore unable to identify or attribute the actual expenditure on specific levels of studies.

In addition, the Vocational Training Council (VTC) offers a wide range of vocational and professional education and training programmes, some of which lead to qualifications at sub-degree and above levels. Funding for the publicly-funded programmes offered by the VTC is subsumed under the annual subvention to the VTC and a breakdown of funding by level is not available. In 2020-21, the estimated recurrent subvention to the VTC in respect of vocational and professional education is \$2.663 billion.

Regarding self-financing post-secondary education, the Government has launched the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) to subsidise about 3 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. There are about 7 900 student beneficiaries in the 2019/20 academic year. As announced in the 2018 Policy Address, the Government has expanded the coverage of SSSDP starting from the 2019/20 academic year to subsidise about 2 000 students per cohort to pursue designated full-time locally-accredited self-financing sub-degree programmes in selected disciplines. Current students of the designated programmes also receive the subsidy starting from that academic year. There are about 2 500 student beneficiaries in the 2019/20 academic year.

Besides, the Government has launched the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong to provide a non-means-tested annual subsidy of up to around \$30,000 (adjusted according to the Composite Consumer Price Index) for eligible students pursuing full-time locally-accredited local and non-local self-financing undergraduate (including first-year-first-degree and top-up degree) programmes offered by eligible institutions in Hong Kong (save for those enrolling in places already supported under SSSDP). The subsidy is only applicable to eligible Hong Kong students. For those studying self-financing first-year-first-degree programmes, they must have attained “3322” results in the Hong Kong Diploma of Secondary Education Examination (level 3 for Chinese Language and English Language as well as level 2 for Mathematics Compulsory Part and Liberal Studies); for those studying self-financing top-up degree programmes, they must have the relevant sub-degree qualifications. In the 2019/20 academic year, there are 17 eligible institutions, including 11 approved post-secondary colleges registered under the Post Secondary Colleges Ordinance (Cap. 320), the Open University of Hong Kong, the Technological and Higher Education Institute of Hong Kong and the School for Higher and Professional Education under the VTC, the Hong Kong Art School, the Hong Kong Institute of Technology, and Savannah College of Art and Design Foundation (Hong Kong) Limited. In the 2019/20 academic year, about 16 000 eligible students received the subsidy.

Apart from the above, in order to further encourage continuing education, the Government has, since the 2016/17 academic year, launched a pilot scheme to provide tuition fee subsidy for 3 cohorts of students admitted to designated professional part-time programmes (including some higher diploma programmes at sub-degree level) offered by the VTC, covering programmes in the disciplines of construction, engineering, and technology. It is estimated that 5 600 students will benefit from the pilot scheme, which involves a total commitment of \$200 million, including provision for the VTC’s administrative cost on implementation of the pilot scheme. The Government has allocated an additional funding of \$234 million to extend the coverage of the scheme and offer tuition fee subsidy to another 5 600 students admitted to the above-mentioned designated part-time programmes

offered by the VTC from the 2019/20 to 2021/22 academic years. In addition, the scope of the pilot scheme has been expanded to cover creative industry programmes and it is estimated that tuition fee subsidy will be provided for 2 500 practitioners in the creative industry.

Tuition fees

UGC-funded programmes and publicly-funded programmes in the VTC

The tuition fee for local students of the UGC-funded sub-degree programmes offered by the City University of Hong Kong and the Hong Kong Polytechnic University is set at \$31,575 per year, while that of the Education University of Hong Kong is \$15,040 per year. The tuition fee for local students of the UGC-funded undergraduate, taught postgraduate and research postgraduate programmes is \$42,100 per year. The indicative tuition fees shall remain unchanged for the 2020/21 academic year. As regards the VTC, the tuition fee for publicly-funded sub-degree programmes for the 2020/21 academic year will range from \$30,800 to \$31,570 per year.

SSSDP programmes

The average annual tuition fees of subsidised places for designated undergraduate programmes will range from \$5,680 to \$73,100 (after deducting subsidy) for the 2020/21 academic year. The average annual tuition fees of subsidised places for designated sub-degree programmes will range from \$18,508 to \$60,530 (after deducting subsidy) for the 2020/21 academic year.

Self-financing programmes

The average annual tuition fees (before deducting applicable subsidy) of full-time locally-accredited self-financing sub-degree and undergraduate programmes for the 2019/20 academic year are set out in the table below. Tuition fee information for the 2020/21 academic year is not yet available.

Institution	Sub-degree (\$)	Undergraduate* (\$)
Caritas Bianchi College of Careers	55,970 - 69,230	-

(Question Serial No. 3378)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide:

- (1) a breakdown of expenditures in the original and revised estimates for 2019-20 and the estimate for 2020-21, together with reasons for the changes;
- (2) details on the school-based professional support services for kindergartens and primary and secondary schools;
- (3) details on the assessment tools for School Self-evaluation and the conduct of External School Reviews;
- (4) details on the assistance in various education reform initiatives; and
- (5) details on the pilot project in some public sector schools for strengthening schools' internal management and reducing teachers' administrative work.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 153)

Reply:

- (1) The original estimate for 2019-20, the revised estimate for 2019-20 and the estimate for 2020-21 of the relevant programmes are tabulated below:

	2019-20 Original Estimate	2019-20 Revised Estimate	2020-21 Estimate
	\$ million	\$ million	\$ million
Programme (2) Pre-primary Education	6,302.8	6,308.6 (+0.1%)	6,407.2 (+1.6%)
Programme (3) Primary Education	21,279.4	22,325.3 (+4.9%)	23,467.8 (+5.1%)
Programme (4) Secondary Education	29,429.8	29,742.0 (+1.1%)	31,010.7 (+4.3%)
Programme (5) Special Education	2,959.4	3,004.3 (+1.5%)	3,341.5 (+11.2%)
Programme (8) Policy and Support	2,346.0	2,950.3 (+25.8%)	6,677.6 (+126.3%)

Programme (2) Pre-primary Education

The revised estimate for 2019-20 is \$5.8 million (or 0.1%) higher than the original estimate. The increase in provision is mainly due to the higher requirement on the grants to kindergartens. Provision for 2020-21 is \$98.6 million (or 1.6%) higher than the revised estimate for 2019-20. This is mainly due to increased provision for various existing grants to kindergartens in 2020-21.

Programme (3) Primary Education

The revised estimate for 2019-20 is \$1,045.9 million (or 4.9%) higher than the original estimate. The increase in provision is mainly due to the higher requirement on the grants to schools. Provision for 2020-21 is \$1,142.5 million (or 5.1%) higher than the revised estimate for 2019-20. This is mainly due to increased provision for various existing grants to schools in 2020-21.

Programme (4) Secondary Education

The revised estimate for 2019-20 is \$312.2 million (or 1.1%) higher than the original estimate. The increase in provision is mainly due to the higher requirement on the grants to schools. Provision for 2020-21 is \$1,268.7 million (or 4.3%) higher than the revised estimate for 2019-20. This is mainly due to increased provision for various existing grants to schools in 2020-21.

Programme (5) Special Education

The revised estimate for 2019-20 is \$44.9 million (or 1.5%) higher than the original estimate. The increase in provision is mainly due to the higher requirement on the grants to schools. Provision for 2020-21 is \$337.2 million (or 11.2%) higher than the revised estimate for 2019-20. This is mainly due to increased provision for various existing grants to schools in 2020-21.

Programme (8) Policy and Support

The revised estimate for 2019-20 is \$604.3 million (or 25.8%) higher than the original estimate. This is mainly due to the cash flow requirements for provision of a subsidy to day-school students in 2019/20 school year and payment of examination fees for school candidates sitting for the 2020 Hong Kong Diploma of Secondary Education Examination. These 2 non-recurrent items were approved by the Finance Committee in 2019-20 and not included in the original estimate. Provision for 2020-21 is \$3,727.3 million (or 126.3%) higher than the revised estimate for 2019-20. This is mainly due to the increase in cash flow requirement for the non-recurrent item of provision of a subsidy to day-school students in 2019/20 school year and additional provision for regularising the subsidy to day-school students starting from the 2020/21 school year.

Regarding (2) to (5), the administrative expenses involved in the education services/initiatives listed in the questions are absorbed in the overall operating expenses of the Education Bureau (EDB) and cannot be separately identified. The following sets out the details together with the specific funding for implementing the education services/initiatives concerned:

Education services/initiatives	Specific funding (if any)
<p><u>School-based professional support services (SBSS) for kindergartens and primary, secondary and special schools</u></p> <p>The EDB provides schools with diversified SBSS in areas such as catering for learner diversity, supporting non-Chinese speaking students to learn Chinese language, supporting students with special educational needs, facilitating self-directed learning and promotion of Science, Technology, Engineering and Mathematics (STEM) education. The EDB may, depending on the needs and circumstances of participating schools, provide appropriate school-based support services, including on-site professional support provided by the school-based support sections of the EDB and school-based support services for schools admitting non-Chinese speaking students through the programmes commissioned to post-secondary institutions. Schools are invited to apply for the SBSS around April each year according to their needs.</p>	<p>The EDB has allocated more resources for commissioning post-secondary institutions to provide school-based support services for secondary and primary schools and kindergartens admitting non-Chinese speaking students in the 3 school years from 2019/20 to 2021/22. It is estimated that about 200 secondary and primary schools and kindergartens will be supported in the 3 school years and the total non-recurrent expenditure involved is about \$45 million. The support services have commenced, and the estimated expenditure for the 2019/20 school year is \$6 million.</p>
<p><u>Assessment tools for School Self-evaluation (SSE) and the conduct of External School Reviews (ESR)</u></p> <p>To facilitate schools' continuous development and improvement through SSE, the EDB provides a range of self-evaluation tools (e.g. Performance Indicators, Key Performance Measures and Stakeholder Survey), and conducts ESR to validate SSE and provide schools with suggestions for improvement.</p>	

Education services/initiatives	Specific funding (if any)
<p data-bbox="164 174 858 208"><u>Assistance in various education reform initiatives</u></p> <p data-bbox="164 253 762 286"><i>Implementation of new academic structure</i></p> <p data-bbox="164 331 965 723">As a crucial part of the education reform, the New Academic Structure (NAS) has been implemented since September 2009. EDB will continue to bring about curriculum renewal and support schools through, for example, providing training to build the professional capacity of teachers, fostering professional exchanges and sharing of good practices, development of quality learning and teaching resources, and disbursement of various senior secondary (SS) grants, in providing quality secondary education for the benefit of students.</p> <p data-bbox="164 891 965 1485">The NAS has also been implemented in the post-secondary education sector since the 2012/13 academic year. Post-secondary institutions have made necessary curriculum and assessment changes which aim to facilitate students' balanced development and develop among them a broad knowledge base, sound language and generic skills, as well as a propensity for life-long learning. The four-year undergraduate programmes, which comprise the core, major and elective courses with an emphasis on general education and exposure to both academic and non-academic skills and knowledge, will provide smoother articulation for further studies or work in Hong Kong. The international recognition given to the NAS also facilitates students' articulation to other major education systems in the world.</p> <p data-bbox="164 1529 507 1563"><i>School places allocation</i></p> <p data-bbox="164 1608 965 1843">As part of the Education Reform initiatives, the arrangements under the Primary 1 and Secondary 1 places allocation systems have been revised starting from 2000, including the abolition of the Academic Aptitude Test. The revised arrangements continue in the 2019/20 and 2020/21 school years.</p>	<p data-bbox="986 331 1420 846">In 2005, the Finance Committee approved a non-recurrent commitment of \$2,447.2 million for implementing the measures to support the development of the NAS in both secondary school and University Grants Committee sectors. The project was completed in 2013-14 and the total spending of the project was \$2,436.8 million.</p> <p data-bbox="986 891 1420 1160">The total provision for disbursement of various recurrent SS grants under Programme (4) Secondary Education and Programme (5) Special Education is about \$180 million in 2020-21.</p>

Education services / initiatives	Specific funding (if any)
<p data-bbox="164 174 962 286"><u>Pilot project in some public sector schools for strengthening schools' internal management and reducing teachers' administrative work</u></p> <p data-bbox="164 331 962 683">The Pilot Project on Strengthening Schools' Administration Management (Pilot Project) aims at supporting schools to strengthen their school administration management, as well as streamline procedures, thereby enhancing efficiency and unleashing teachers' capacity. Each participating school is provided with professional support and a grant of \$0.45 million for trying out appropriate measures to enhance school administration.</p> <p data-bbox="164 728 962 1317">A total of 132 public sector schools (including government and aided schools) have participated in the Pilot Project since its launch in the 2011/12 school year. In the light of the successful experience and good foundation of the Pilot Project, a one-off Strengthening School Administration Management (SAM) Grant at \$0.25 million was provided in 2016 for public sector and Direct Subsidy Scheme schools which had not participated in the Pilot Project before to enable them to initiate improvement measures for enhancing the effectiveness of school administration management and unleashing teachers' capacity. We will continue to enhance the Web-based School Administration and Management System to further strengthen our support to all schools.</p>	<p data-bbox="987 331 1415 723">A total of \$59.4 million was provided to schools for conducting the Pilot Project. The Pilot Project was completed at the end of 2016. The total provision of the SAM Grant in 2015-16 was \$214.3 million. The SAM Grant was also ended in the 2017/18 school year.</p>

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown, by school category, school district and school sponsoring body, of the numbers of kindergartens, primary schools and secondary schools that have established an incorporated management committee (IMC), their percentages out of the total number of all aided schools, the total number of schools, and the amount of grant provided by the Administration for setting up IMCs in aided schools from the 2015/16 to 2019/20 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 154)

Reply:

As at 2 March 2020, 834 aided schools of 231 school sponsoring bodies (SSBs) have set up their incorporated management committees (IMCs). In the school years from 2015/16 to 2019/20 (as at 2 March 2020), the number of aided schools is 839, 839, 841, 840 and 841 respectively and the percentage of aided IMC schools among all aided schools is 98.3%, 98.9%, 99.2%, 99.2% and 99.2% respectively. The number of aided IMC schools by district and category in the school years from 2015/16 to 2019/20 is at Appendix. According to the Education Ordinance, the provisions for establishment of IMCs are not applicable to kindergartens.

The actual expenditure from 2015-16 to 2018-19 and the revised estimated expenditure in 2019-20 for supporting schools to set up their IMCs are \$33.1 million, \$25.7 million, \$5.6 million, \$5.9 million and \$5.2 million respectively.

EDB439

(Question Serial No. 3380)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the student-to-teacher ratios, please provide the following information:

- (a) For the 2015/16 to 2019/20 school years and the estimate for the 2020/21 school year, what are the reasons for the changes in the student-to-teacher ratios in government and aided primary schools and the expenditure involved?
- (b) For the 2015/16 to 2019/20 school years and the estimate for the 2020/21 school year, what are the reasons for the changes in the student-to-teacher ratios in government and aided secondary schools and the expenditure involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 155)

Reply:

(a) The student-to-teacher ratios in public sector primary schools were reduced from 14.1:1 to 13.3:1 in the school years from 2015/16 to 2019/20 and are expected to remain steady in the 2020/21 school year. The Education Bureau (EDB) endeavours to improve the student-to-teacher ratios in public sector primary schools and has continuously injected resources for implementing various new initiatives to provide additional teaching staff for schools. Examples include the implementation of Small Class Teaching and the provision of specific grants under various initiatives, which provides flexibility for schools to employ additional teachers. The EDB has implemented enhanced measures for the Learning Support Grant (LSG) starting from the 2019/20 school year. Schools will have additional regular teaching post(s) titled as Special Educational Needs Support Teacher (SENST) converted/provided if the total amount of LSG received by schools reaches the specific threshold for supporting students with special educational needs (SEN). In addition, starting from the 2017/18 school year, the teacher-to-class ratio for public sector primary schools (including special schools) has been increased by 0.1 across-the-board. As the EDB does not capture school-based information on the deployment of grants for employing additional teachers, we are unable to provide the actual expenditure on such improvements.

(b) The student-to-teacher ratios in public sector secondary schools were reduced from 12.3:1 to 11.3:1 in the school years from 2015/16 to 2019/20, and are expected to increase slightly in the 2020/21 school year with a rise in secondary school-age population. The student-to-teacher ratios have dropped over the past few years mainly due to the introduction of a series of relief measures to tackle the decline in secondary school student population, including the reduction in the number of students allocated to each Secondary 1 class, the implementation of Voluntary Optimisation of Class Structure Scheme and the extension of retention period of surplus teachers, all of which help retain serving teachers. All along, the EDB has been injecting resources for implementing various new initiatives to provide schools with additional teaching manpower. For example, starting from the 2017/18 school year, the teacher-to-class ratio for public sector secondary schools (including special schools) has been increased by 0.1 across-the-board. Moreover, the provision of specific grants for the new senior secondary curriculum, and other grants under various initiatives such as the LSG, the Career and Life Planning Grant, etc., also enables schools to employ additional teachers. As regards the LSG, the EDB has also implemented enhanced measures in public sector secondary schools starting from the 2019/20 school year. Schools will have additional regular teaching post(s) titled as SENST, converted/provided if the total amount of LSG received by schools reaches the specific threshold for supporting students with SEN. As the EDB does not capture school-based information on the deployment of grants for employing additional teachers, we are unable to provide the actual expenditure on such improvements.

At present, aided primary, secondary and special schools are allowed to retain fund balance up to 12 months' provision of their recurrent subvention under Operating Expenses Block Grant (OEBG) for non-Incorporated Management Committee schools or Expanded Operating Expenses Block Grant (EOEBG) for Incorporated Management Committee schools, while government primary and secondary schools are allowed to retain fund balance up to 12 months' provision of their recurrent funding under Expanded Subject and Curriculum Block Grant (ESCBG). Please provide the following information:

(a) Please list the cumulative amount of reserve under OEBG/EOEBG/ESCBG and the number of months of recurrent subvention for the school that the said amount represents in the 5 school years from 2014/15 to 2018/19 in the tables below:

(b) Please list the highest, lowest, average and median amount of grants (including recurrent grants, time-limited grants, one-off grants, etc.) provided by the Government for public sector primary and secondary schools, as well as the highest, lowest, average and median amount of unspent grants in the 5 school years from 2015/16 to 2019/20.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 156)

Reply:

(a) A breakdown of the cumulative balances under Operating Expenses Block Grant (OEBG)/Expanded Operating Expenses Block Grant (EOEBG)/Expanded Subject and Curriculum Block Grant (ESCBG) for aided and government schools at the end of 2015/16, 2016/17 and 2017/18 school years is set out at Annex 1.

The information on cumulative balances of aided schools is based on the annual audited accounts submitted by aided schools to the Education Bureau (EDB). Since aided schools are still submitting their accounts for the 2018/19 school year and the 2019/20 school year has not finished, relevant information for these two school years is not yet available.

(b) The highest, lowest, average and median amount of the major grants provided by the Government to aided and government schools during the financial years from 2015-16 to 2019-20, together with the highest, lowest, average and median amount of unspent grants from 2015-16 to 2017-18, are set out at Annex 2.

The information on unspent grants of aided schools is based on the annual audited accounts submitted by aided schools to the EDB. Since aided schools are still submitting their accounts for the 2018/19 school year and the 2019/20 school year has not finished, information on unspent grants for these two school years is not yet available.

Notes

1. The information on cumulative balances of aided schools is based on the annual audited accounts submitted by aided schools to the EDB. Since aided schools are still submitting their accounts for the 2018/19 school year and the 2019/20 school year has not finished, relevant information for these two school years is not yet available.
2. The information on government schools is provided on a financial year basis.

**Information on government grants to
aided and government schools for the years from 2015-16 to 2019-20**

(A) Aided and government secondary schools (excluding special schools)

Notes

1. To present a more realistic picture of the unspent balance of grants retained by individual schools, this Annex only covers government grants that are received by the majority of aided and government schools (i.e. more than 50% of aided and government secondary schools, aided and government primary schools, or aided special schools as appropriate). Other grants that are not received by the majority of aided and government schools are not included in the Annex.
2. The information on government grants received by aided and government schools and the respective unspent amount of government schools are calculated on a financial year basis, while the respective unspent amount of aided schools is calculated on a school year basis.
3. The information on unspent grants of aided schools is based on the annual audited accounts submitted by aided schools to the EDB. Since aided schools are still submitting their accounts for the 2018/19 school year and the 2019/20 school year has not finished, information on unspent grants for these two school years is not yet available.
4. Amount of unspent grants is calculated after taking into account the amount brought forward from the previous school/financial year and after deducting the excessive surplus amount to be returned to the Government.
5. The information on government grants received by aided and government schools for the financial year 2019-20 shows the position as at 29 February 2020.

Table 2

DSS Primary Schools					
School Year	Average of Subsidy per Student ^{Note 1} (HK\$)	Average of Subsidy per DSS School ^{Note 2} (HK\$)	Median of Subsidy per DSS School ^{Note 2} (HK\$)	Average of School Fee Charged ^{Note 3} (HK\$)	Median of School Fee Charged ^{Note 3} (HK\$)
2015/16	52,132 or 49,654	38,208,885	39,434,690	25,073	23,900
2016/17	54,053 or 51,762	40,147,191	41,796,315	25,710	23,900
2017/18	58,317 or 55,984	43,017,727	44,945,891	26,616	23,900
2018/19	60,820 or 58,397	45,838,091	48,044,548	27,505	25,300
2019/20	67,493 or 64,793	-- Note 4	-- Note 4	28,507	25,300

Note 1: The figures show the DSS unit subsidy rate for each eligible student at the commencement of the respective school years. The higher rates are applied to schools with an age of 16 years or above while the lower rates to those with an age below 16 years.

Note 2: The amount of subsidy (i.e. recurrent DSS subsidy) is calculated on a financial year basis.

Note 3: The average and median of school fee charged are exclusive of school fees paid by non-local students.

Note 4: Since the 2019-20 financial year has not come to a close, the amount of subsidy provided to each DSS school is not yet available.

Table 3

DSS Secondary Schools							
School Year	Average of Subsidy per Student ^{Note 1}	Average of Subsidy per DSS School ^{Note 2}	Median of Subsidy per DSS School ^{Note 2}	Average of School Fee Charged ^{Note 3} (HK\$)		Median of School Fee Charged ^{Note 3} (HK\$)	
	(HK\$)	(HK\$)	(HK\$)	S1-3	S4-6	S1-3	S4-6

Annual School Fee between HK\$10,000 and HK\$20,000		--	--	17,058	13,561	17,315	13,440
Annual School Fee over HK\$20,000		--	--	37,476	39,372	34,700	35,000

Note 1: The average and median of school fee charged are exclusive of school fees paid by non-local students and school fees of non-local curriculum programmes in schools that offer both local and non-local curricula. For schools that are charging different school fees for different class levels, the highest school fee within the range of class levels is used for classification purpose.

Note 2: The figures show the DSS unit subsidy rate for each eligible student at the commencement of the respective school years. The higher rates are applied to schools with an age of 16 years or above while the lower rates to those with an age below 16 years.

Note 3: The amount of subsidy (i.e. recurrent DSS subsidy) is calculated on a financial year basis.

Note 4: Since the 2019-20 financial year has not come to a close, the amount of subsidy provided to each DSS school is not yet available.

CONTROLLING OFFICER'S REPLY**EDB442****(Question Serial No. 3383)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(a) Please provide the numbers and percentages of secondary students of government, aided, Direct Subsidy Scheme (DSS), English Schools Foundation (ESF), private and international schools who were admitted to universities (both local and overseas) in the past 5 school years (2015/16 to 2019/20 school years) in the table below:

Table 1

School year	Government	Aided	DSS	ESF	Private	International

(b) Please provide the numbers of primary and secondary schools which applied to join the DSS in the past 5 school years (2015/16 to 2019/20 school years) in the tables below:

Table 2

District	Number of Aided Primary Schools Having Applied to Join the DSS	Number of Aided Secondary Schools Having Applied to Join the DSS	Number of Private Primary Schools Having Applied to Join the DSS	Number of Private Secondary Schools Having Applied to Join the DSS	Other Categories	Total

Table 3

District	Number of Aided Primary Schools Approved to Join the DSS	Number of Aided Secondary Schools Approved to Join the DSS	Number of Private Primary Schools Approved to Join the DSS	Number of Private Secondary Schools Approved to Join the DSS	Other Categories	Total

(c) How many complaints about insufficient consultation by aided schools in applying to join the DSS in the past 5 school years (2015/16 to 2019/20 school years) were received by the Administration? How many complaints about the lack of transparency of the financial status of DSS schools were received? Will the Government continue to subsidise DSS schools in the long run or let DSS schools turn into independently operated private schools? What are the manpower and expenditure involved in the implementation of the DSS policy each year?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 158)

Reply:

- (a) According to the Secondary 6 Students' Pathway Survey conducted by the Education Bureau (EDB), the number and percentage distribution of Secondary 6 graduates who were pursuing full-time study of Bachelor's Degree Programmes by school sector of the graduates (including government, aided, Direct Subsidy Scheme (DSS) and local private schools) in the past 5 school years (from the 2015/16 to 2019/20 school years) are tabulated at Appendix (Table 1). Relevant information for English Schools Foundation and international schools is not available as the survey did not cover these schools.
- (b) The number of primary schools and secondary schools which applied to join the DSS in the past 5 school years (from the 2015/16 to 2019/20 school years) is tabulated at Appendix (Tables 2 & 3).
- (c) In the past 5 school years (from the 2015/16 to 2019/20 school years), the EDB has received 2 complaints about the lack of transparency of the financial status of DSS schools and 1 complaint about insufficient consultation by aided schools in applying to join the DSS.

The DSS was introduced in 1991 pursuant to the recommendations of the Education Commission Report No. 3. The objectives of introducing the DSS are to inject diversity to our school system and give parents more choices. As the DSS sector has added much desired diversity to our school system, the Government has no plan to turn DSS schools into independently operated private schools at this stage.

Regarding the manpower and expenditure involved in the implementation of the DSS policy, since the work related to the administration and operation of the DSS cuts across various divisions and the amount of resources may also fluctuate from time to time in tandem with policy and other priority considerations, we are unable to segregate the manpower and expenditure allocated for implementing the DSS policy.

Table 1

**Number and Percentage Distribution of Secondary 6 (S6) Graduates^{Note 1} who were
Pursuing Full-time Study of Bachelor's Degree Programmes^{Note 2}
from the 2015/16 to 2019/20 School Years**

School Year	Government		Aided ^{Note 3}		Others ^{Note 3}		All	
	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage

CONTROLLING OFFICER'S REPLY

EDB443

(Question Serial No. 3384)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

With regard to supporting schools in enhancing life planning and career guidance services, please provide the following information:

(a) Apart from the disbursement of grants, what other measures were adopted by the Administration to help schools take forward life planning work in the past year? What are the details and expenditure involved?

(b) Following the earlier announcement by the Administration to allow schools to convert the Senior Secondary Curriculum Support Grant (SSCSG) and the Career and Life Planning Grant (CLPG) into regular teaching posts, what support will be provided by the Administration to enhance career guidance services and strengthen teacher training?

(c) As mentioned in last year's Budget, schools are allowed to continue with the conversion of SSCSG and the CLPG into regular teaching posts, and full conversion of the two grants into regular posts will be achieved in the 2022/23 school year. In this connection, please provide the number of schools that have already converted the SSCSG and the CLPG into regular teaching posts and their percentage share, and the number of schools that have not yet converted the two grants into regular teaching posts and their percentage share as at the 2019/20 school year;

(d) On the basis of the figures provided in (c), what is the expenditure on converting the two grants into regular teaching posts? What is the estimated expenditure on converting the two grants into regular posts this year?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 159)

Reply:

(a) and (b)

Apart from providing the Career and Life Planning Grant (CLPG) and allowing schools to opt to convert the CLPG into regular teaching posts, the Education Bureau (EDB) also provides training and support to enhance teachers' professional capacity in implementing Life Planning Education (LPE), such as organising structured training courses/thematic seminars and increasing the number of training places. The EDB also conducts school visits to better understand the implementation of LPE in the related classes and activities, and provides professional advice to schools. The EDB continues to provide students with career exploration activities and work experience opportunities through the "Business-School Partnership Programme" (BSPP) to help them acquire an initial understanding of the workplace. In the 2018/19 school year, more than 190 partner organisations collaborated with the EDB in organising more than 1 250 activities under the BSPP, benefitting over 180 000 student participants. The EDB also keeps on disseminating information on further studies and career opportunities on its website, and enhances public and parent education by publishing advertorials in newspapers and magazines, shooting promotional videos and mini-movies, etc. Furthermore, the EDB forms learning circles under the District Development Networks to foster a culture of district-based sharing and professional exchange among teachers, and provides career exploration activities for students on a district basis. The expenditure involved is subsumed under the EDB's recurrent expenditure. Hence, a breakdown of the expenditure involved is not available.

(c) In the 2019/20 school year, about 310 (about 70%) and 350 (about 80%) public sector secondary schools (including special schools) operating senior secondary classes have converted the Senior Secondary Curriculum Support Grant (SSCSG) and the CLPG into regular teaching posts, while about 140 (about 30%) and 90 (about 20%) schools have yet to convert the SSCSG and the CLPG into regular teaching posts. In sum, about 85% eligible public sector schools (i.e. about 380 in total) have converted either or both the SSCSG and the CLPG into regular teaching posts.

(d) The number of regular teaching posts provided for public sector schools each year may be adjusted according to the number of classes approved, teacher-to-class ratio, and additional regular teaching posts provided under various initiatives, etc. In addition, the number of regular teaching post vacancies changes according to the turnover of teaching manpower as a result of, for example, retirement or resignation. There are no genuine needs for schools to differentiate the source of manpower supply for each regular teaching post vacancy filled, such as whether it is a regular teaching post converted from either or both grants. Therefore, the EDB has not collected the relevant statistics, and a breakdown of the expenditure involved is not available.

(Question Serial No. 3385)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (a) Please set out the support measures and provision provided by the Government for improving the learning and teaching of the English Language in secondary and primary schools in the past 5 years (2015/16 to 2019/20) and 2020/21; and
- (b) What are the expenditures on the Native-speaking English Teacher (NET) Scheme in Primary Schools and the Enhanced NET Scheme in Secondary Schools in the past 5 years (2015/16 to 2019/20) and 2020/21?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 160)

Reply:

- (a) Throughout the years, we have been implementing various measures for improving the learning and teaching of the English Language in primary and secondary schools. The provision for the purpose was respectively \$845.08 million (of which \$33.27 million was from the Language Fund (LF)) in the 2015-16 financial year, \$877.45 million (of which \$33.86 million was from the LF) in the 2016-17 financial year, \$916.53 million (of which \$44.02 million was from the LF) in the 2017-18 financial year, \$937.17 million (of which \$41.95 million was from the LF) in the 2018-19 financial year, and \$986 million (of which \$44.77 million was from the LF) in the 2019-20 financial year.

In the 2020-21 financial year, we will continue to improve the learning and teaching of the English Language in primary and secondary schools. The estimated expenditure for 2020-21 is \$1.03278 billion, of which \$51.19 million is from the LF. Details of the support measures are tabulated below:

No.	Name of Project	Details
A. Grants to schools		
*1.	Grant Scheme on Promoting Effective English Language Learning in Primary Schools	To help schools develop school-based measures to further promote English language learning.
^2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.
B. School-based support		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing teachers' professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for Language Teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talent to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions, which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for 1 year or 3 years upon graduation, depending on the type of programmes pursued.

3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4.	Resources for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning and teaching.
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, eligible public sector primary schools operating 6 or more classes (including special schools (primary section) offering the mainstream curriculum as well as schools for children with intellectual disabilities (primary section) offering an appropriate school-based English Language curriculum) are each provided with a NET post.
2.	The Enhanced Native-speaking English Teacher (NET) Scheme in Secondary Schools	NETs collaborate with local English teachers to enhance the effectiveness of English learning and teaching by providing a more favourable English language learning environment and using linguistically and culturally authentic materials and resources. In general, eligible public sector secondary schools (including special schools (secondary section) offering the mainstream curriculum as well as schools for children with intellectual disabilities (secondary section) offering an appropriate school-based English Language curriculum) are each provided with a NET post.

*3.	English Alliance	To provide primary and secondary school students with pleasurable experiences in learning English for developing their interest in and appreciation of English and boosting their confidence in using the language through a series of educational, creative, interesting and interactive English programmes.
*4.	Sponsorship Project	To engage community partners to organise language-related events or competitions in the community.

* Initiatives funded by the LF

** The initiative is funded under Head 173 Student Financial Assistance Agency

^ The funding for the initiative ended in 2016-17

- (b) Expenditure over the past 5 years (2015-16 to 2019-20 financial years) and the estimated expenditure for the 2020-21 financial year of the PNET Scheme and the ENET Scheme are tabulated below:

	Expenditure (\$ million)					
	15-16	16-17	17-18	18-19	19-20#	2020-21 (estimate)
PNET Scheme	376.4	398.8	420.4	437.2	375.2	491.8
ENET Scheme	381.6	401.0	408.0	421.3	359.4	478.2

as at 31 January 2020

EDB446

(Question Serial No. 3411)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the names and number of Direct Subsidy Scheme (DSS) schools offering non-local curriculum and their respective percentage shares of all public sector schools and all DSS schools in the past 5 years with a breakdown by school type, as well as the number of students taking the non-local curriculum and their percentage share of the total number of students in each of these schools by programme names of the non-local curriculum offered.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 162)

Reply:

From the 2015/16 to 2019/20 school years, the number of Direct Subsidy Scheme (DSS) schools offering both local and non-local curricula and their respective percentage against the total number of publicly-funded schools and the total number of DSS schools are provided in the table below:

	2015/16	2016/17	2017/18	2018/19	2019/20
Number of DSS schools offering both local and non-local curricula	9	11	12	14	15
Percentage against the total number of publicly-funded schools (including government, aided, caput and DSS schools)	1%	1%	1%	2%	2%
Percentage against the total number of DSS schools	11%	13%	15%	17%	19%

Note: Percentages in the table are rounded to the nearest integers.

From the 2015/16 to 2019/20 school years, the name of DSS schools offering both local and non-local curricula, the name of the non-local curriculum offered, as well as the number of students in receipt of DSS subsidy who are taking the non-local curriculum and their percentage against the total number of students in each of these schools are tabulated below:

No.	Name of school	Name of non-local curriculum	No. of students taking non-local curriculum and their percentage against the total no. of students in the school				
			2015/16	2016/17	2017/18	2018/19	2019/20
1	St. Paul's Co-educational College	IB Diploma Programme	91 (7%)	123 (10%)	119 (10%)	102 (8%)	101 (8%)
2	The Hong Kong Chinese Christian Churches Union Logos Academy	IB Diploma Programme	103 (9%)	116 (10%)	106 (10%)	86 (8%)	88 (9%)
3	Diocesan Boys' School	IB Diploma Programme	115 (8%)	114 (8%)	113 (8%)	119 (9%)	128 (9%)

(Question Serial No. 3412)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures for the past and the next 5 years:

- (1) the situation and projection of school-age population aged 12 residing in Hong Kong;
- (2) the situation and projection of school-age population aged 6 residing in Hong Kong;
and
- (3) the situation and projection of school-age population aged 3 residing in Hong Kong.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 163)

Reply:

The school-age population aged 3, 6 and 12 residing in Hong Kong from 2015 to 2019 are tabulated at Annex 1.

The projected school-age population aged 3, 6 and 12 residing in Hong Kong from the 2020/21 to 2024/25 school years are tabulated at Annex 2.

**School-age population aged 3, 6 and 12 residing in Hong Kong
from 2015 to 2019**

Age	2015	2016	2017	2018	2019
3 years old	58 200	53 100	53 900	58 900	58 300
6 years old	57 100	58 200	64 800	63 000	57 300
12 years old	53 200	49 700	50 400	56 100	58 000

Notes: (1) Figures refer to the school-age population aged 3, 6 and 12 residing in Hong Kong (i.e. usual residents of Hong Kong).

(2) Figures refer to the mid-year population estimates compiled by the Census and Statistics Department and are rounded to the nearest hundred.

**Projected school-age population aged 3, 6 and 12 residing in Hong Kong
from the 2020/21 to 2024/25 school years**

Age	2020/21	2021/22	2022/23	2023/24	2024/25
3 years old	57 100	57 800	57 000	56 100	55 500
6 years old	55 700	59 200	57 800	57 600	58 400
12 years old	63 300	65 400	67 900	73 500	74 000

Notes: (1) The projections of school-age population residing in Hong Kong are compiled with reference to the 2016-based Population Projections released by the Census and Statistics Department in September 2017. The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures.

(2) Figures are rounded to the nearest hundred.

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In table form, please advise this Committee of:

- (a) the details of funding (excluding the funding for schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework") designated for the education of parents of non-Chinese speaking (NCS) students, including the amount of each funding, the names of subsidised non-governmental organisations, the period covered by each funding, and the target group in each of the school years from 2015/16 to 2019/20;
- (b) the number of publicly-funded education-related events, talks, classes or seminars designated for parents of NCS students in each of the school years from 2015/16 to 2019/20;
- (c) the number of NCS parents attending each of the activities mentioned in (b);
- (d) the number of education-related events, talks, classes or seminars designated for parents of NCS students organised by the Education Bureau (EDB) in each of the school years from 2015/16 to 2019/20;
- (e) the number of NCS parents attending each of the activities mentioned in (d);
- (f) the number of education-related events, talks, classes or seminars for all parents conducted in Chinese only, in both Chinese and English, and in languages other than Chinese and English in each of the school years from 2015/16 to 2019/20;
- (g) the number of NCS parents attending each of the activities mentioned in (f);
- (h) the number of enquiries and complaints received from NCS students and parents by each Regional Education Office (REO) of EDB, and the number of those complaints

substantiated and unsubstantiated in each of the school years from 2015/16 to 2019/20;
and

- (i) the number of enquiries and complaints received from all students and parents on lack of school information by each REO of EDB, and the number of those complaints substantiated and unsubstantiated in each of the school years from 2015/16 to 2019/20.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 164)

Reply:

- (a) to (g) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. In tandem with the implementation of the "Learning Framework" and the creation of an inclusive learning environment in schools, schools also hope that parents of NCS students can understand the details of the education provided by schools for their children and actively participate in home-school co-operation activities. Therefore, schools will flexibly deploy the additional funding to organise briefings and seminars for parents of NCS students. As the above activities are not organised by EDB and EDB does not collect the related information, relevant statistics are not available.

On the other hand, the education-related programmes organised annually by EDB for parents of NCS students cover different areas such as student financial assistance schemes, admission to Primary 1 and Secondary 1 in public sector schools, and educational support for NCS students. Simultaneous interpretation services in major ethnic minority languages are provided during these events where necessary. Taking the Primary One Admission (POA) system and the Secondary School Places Allocation (SSPA) system as examples, dedicated briefing sessions in English are organised annually in two modes (including briefing sessions open to all parents of NCS students and briefing sessions for parents of NCS students in individual kindergartens or primary schools upon their requests) with simultaneous interpretation services in major ethnic minority languages provided. As regards SSPA, since it is not uncommon for primary schools to offer counselling on admission to Secondary 1 specifically on making school choices to Primary 6 students and their parents, 1 briefing session open to all parents of NCS students was organised annually from the 2015/16 to 2019/20 school years. Besides, diversified modes of education-related programmes including seminars, briefing sessions, workshops, etc. for parents of NCS students are offered by EDB and/or in collaboration with tertiary institutions and/or non-governmental organisations as appropriate. The objectives of these programmes are to help parents of NCS students and/or their children better understand our school system, major education policies and related support

services, facilitate parents of NCS students to obtain the relevant information for making school choices, encourage these parents to enrol their children to schools with an immersed Chinese language environment, and enhance the capability of these parents to support NCS students in life planning education. For instance, starting from 2013, parents of NCS students may accompany their children to attend the Summer Bridging Programme with a view to enhancing their exposure to, and use of, Chinese which in turn will strengthen their support for their children in learning the Chinese language. In tandem, the Chinese Language Learning Support Centres also organise workshops for parents of NCS students with a view to strengthening collaboration with them in supporting NCS students' learning of Chinese. In addition, starting from the 2020/21 school year, we will provide a series of parent education programmes for parents of NCS students, so as to help them support their children's learning, encourage their children to master the Chinese language, and help them have more comprehensive understanding of the multiple pathways available to their children.

From the 2015/16 to 2019/20 school years, 9 to 10 briefing sessions on POA which were open to all parents of NCS students were organised annually, and the number of participating parents in the briefing sessions was 311, 269, 261, 286 and 373 respectively, while the number of participating parents in the briefing sessions on SSPA was 73, 68, 73, 95 and 81 respectively. Moreover, about 240, 190, 150, 140 and 90 parents of NCS students participated in the Summer Bridging Programme from 2015 to 2019 respectively, and a total of about 300 parents of NCS students participated in the parent workshops organised by the Chinese Language Learning Support Centres.

Apart from the above programmes, we do not maintain a record of the number of participants of other activities for parents of NCS students involving different parties including schools, tertiary institutions and non-governmental organisations. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or programmes concerned, hence a breakdown of expenditure by item is not available.

- (h) and (i) From the 2015/16 to 2019/20 school years, EDB has not received any complaints from students or parents regarding NCS students' learning of the Chinese language, the lack of school information or the education-related programmes, seminars or workshops for parents of NCS students. As for various types of enquiries received on a daily basis, including enquiries about school information, the statistics are not available.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Hong Kong Poverty Situation Report on Ethnic Minorities 2016 released in February 2018 provided dropout rates of certain ethnic minority (EM) groups, and stated that these dropout rates were higher than the average dropout rate of the whole population.

In this connection, would the Government inform this Committee of the following:

- (a) The number of non-attendance non-Chinese speaking (NCS) students in each of the grade levels from Secondary 1 to 6 from the 2015/16 to 2019/20 school years.
- (b) The number of non-attendance EM students in each of the grade levels from Secondary 1 to 6 from the 2015/16 to 2019/20 school years.
- (c) The number of non-attendance students in each of the grade levels from Secondary 1 to 6 from the 2015/16 to 2019/20 school years.
- (d) If such data disaggregated by language and ethnicity is not available, the reasons thereof.
- (e) The number of dropout NCS students in each of the grade levels from Secondary 4 to 6 from the 2015/16 to 2019/20 school years.
- (f) The number of dropout EM students in each of the grade levels from Secondary 4 to 6 from the 2015/16 to 2019/20 school years.
- (g) Details on the Government's support measures to prevent dropout among NCS and EM students, including the amount of provision and the names of non-governmental organisations that provide relevant support.

(h) Details on the Government's support measures that provide alternative pathways for NCS and EM students who leave school after completing Secondary 3, 4 or 5 and enable them to obtain formal qualifications for career pursuits and further studies, including the amount of provision.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 165)

Reply:

(a) to (g)

It is the Government's policy to provide 12-year free primary and secondary education in public sector schools of which universal basic education for children aged between 6 and 15 is compulsory. Schools are required to report to the Education Bureau (EDB) on the 7th day of students' continuous absence, irrespective of their class levels and reasons for absence. The EDB would provide support services to identified non-attendance cases with a view to bringing students back to school at the earliest opportunity and does not further classify these cases. The numbers of non-attendance students at S1 to S6 levels reported from the 2015/16 to 2018/19 school years are tabulated below. Information for the 2019/20 school year is not yet available.

School year \ Grade level	2015/16	2016/17	2017/18	2018/19
S1	700	557	734	609
S2	595	503	741	690
S3	1 095	969	1 081	1 030
S4	1 153	967	992	956
S5	758	609	595	512
S6	11	96	150	115

We do not readily have breakdown of the non-attendance cases by language and ethnic group as schools need not provide such information in their report to the EDB.

The EDB is committed to providing various kinds of services for needy students. Towards this end, we have all along been supporting school administrators, teachers, student guidance personnel or school social workers to provide appropriate guidance services for non-attendance students, with a view to understanding their needs and difficulties, helping them resume schooling, or referring them to attend training programmes or courses which cater for their needs, e.g. short-term adjustment programmes organised by schools, training programmes provided by the Vocational Training Council (VTC) for non-engaged youths, or short-term courses provided by non-governmental organisations (NGOs). At present, various NGOs provide different types of short-term courses suitable for teenagers who have not completed secondary education or with other needs. These courses aim at enhancing students' motivation to attend school, helping them develop positive goals in life and prepare well for employment, supporting hidden youths, treating internet addiction, etc.

The EDB does not compile data on the names of the relevant NGOs or collect information on the funding for the training programmes or courses.

(h)

The EDB has all along been supporting secondary schools to implement Life Planning Education and provide career guidance services. To prepare NCS students for further studies and career pursuits, the EDB commissioned an NGO to implement a pilot project from the 2015/16 to 2017/18 school years to organise life planning activities and work experience programmes that enabled NCS students to understand their career orientation and learn about different study pathways and jobs. A total of 1 800 NCS students participated in the project and the expenditure involved was about \$6.3 million. Starting from the 2018/19 school year, the EDB has continued to commission an NGO to organise career exploration activities for NCS students, including visits to post-secondary institutions, workplace visits and work experience programmes, etc., to help them make informed choices on further studies and careers, set personal goals and plan their future. In the 2018/19 and 2019/20 school years, around 320 and 620 students benefited from the service respectively, and the expenditures incurred were about \$0.7 million and \$1.3 million. In addition, starting from the 2020/21 school year, we will provide a series of parent education programmes for NCS parents to help them support their children's learning, encourage their children to master the Chinese language and help them have more comprehensive understanding of the multiple pathways available to their children. The five-year initiative will involve an estimated average annual expenditure of \$3 million.

Besides, the full-time Diploma of Vocational Education programmes operated by VTC for S3 to S5 school leavers (including NCS students) are generally subvented by the EDB. VTC also provides different pre-employment programmes specifically for NCS students to obtain formal qualifications for employment and further studies. NCS students can also apply for other pre-employment programmes. NCS students on VTC pre-employment programmes can enjoy various support services to help them learn more effectively and adapt to campus life. These services include academic and learning support, such as student orientation activities, additional tutorial classes, counseling and coaching, peer support through the peer mentorship scheme, various student activities promoting a culture of inclusion and integration with the community, and advisory support for articulation and career development. VTC does not keep a breakdown of the resources deployed to provide support services for NCS students.

- End -

CONTROLLING OFFICER'S REPLY**EDB450****(Question Serial No. 3416)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the staffing establishment for special schools, please provide:

(a) the number of students, class size and number of social workers in each special school in the table below:

School (Names not required)	Type of special school	No. of students	Class size	No. of social workers on the establishment
School 1				
School 2				
School 3				

(b) the current expenditure on special school social workers and the estimated expenditure in this regard for the coming year;

(c) the number of special schools provided with a Primary School Curriculum Leader post on their establishment in the 5 years from 2015/16 to 2019/20; and

(d) the details and expenditure of the Government's proposed improvement to the establishment of school social workers in special schools as mentioned in the Budget Speech.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 167)Reply:

(a), (b) and (d)

The Education Bureau (EDB) has enhanced the provision of school social worker (SSW) in special schools in the 2018/19 school year. Special schools with a total capacity of 60 or

fewer are provided with 1 SSW, and subsequently 0.5 SSW for every 30 students. In the 2019/20 school year, the EDB has provided 59 special schools with a total of 141 SSW posts. The estimated annual expenditure is about \$120 million. The estimated annual expenditure for the 2020/21 school year will be more or less the same. For provision of resources for supporting students with diverse needs, it is our established practice that we do not disclose the situation of individual schools so as to avoid misconceptions and possible labelling effect on particular schools. In the 2019/20 school year, the number of SSWs provided for special schools is set out by school type below:

Type of special school ^(Note 1)	Class size (No. of students per class)	No. of SSWs in school
School for children with visual impairment ^(Note 2)	10/12 ^(Note 2)	1 to 1.5
School for children with hearing impairment	10	1.5
School for children with physical disability	10	1.5 to 3.5
School for social development	12	1.5 to 4
School for children with mild intellectual disability	15	2 to 4.5
School for children with mild and moderate intellectual disability	10/15 ^(Note 3)	3 to 5.5
School for children with moderate disability	10	1 to 2.5
School for children with severe intellectual disability	8	1 to 2

Notes:

1. Specialist services of the Hospital School are provided by the hospitals concerned.
2. The schools for children with visual impairment include 1 school for children with visual impairment and 1 school for children visual impairment cum intellectual disability. The class size is 12 students per class for the former and 10 for the latter.
3. The class size of the respective sections of the schools for children with mild and moderate intellectual disability is 10 and 15 students per class respectively.

(c)

The number of special schools provided with a Primary School Curriculum Leader post on their establishment in the past 5 school years is tabulated below:

School year ^(Note)	2015/16	2016/17	2017/18	2018/19	2019/20
No. of schools	27	27	57	58	58

Note:

Starting from the 2017/18 school year, a Primary School Curriculum Leader post is provided for special schools operating 1 to 5 primary classes to replace the provision of the Curriculum Leadership Grant.

- End -

CONTROLLING OFFICER'S REPLY**EDB451****(Question Serial No. 3417)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the status, future planning and use of vacant school premises (VSP), please provide the following information:

- (1) using the table below, please set out the details of vacant kindergartens, primary schools and secondary schools, including school name, detailed school address, site area of school premises, year in which the school ceased operation, and whether the VSP have been reused or reallocated for educational use;

School name	Detailed address	Site area (m ²)	Year in which the school ceased operation	Reused/Reallocated for educational use

- (2) the actual and estimated expenditures incurred for managing these VSP, the number of premises involved, and the expenditure items in each of the school years from 2013/14 to 2019/20 and the coming school year. Please specify the government departments responsible for managing the VSP;
- (3) a breakdown of the VSP and new development land already allocated and those available for school application in future by school district;
- (4) the numbers of newly-built and redeveloped schools, as well as the actual and estimated expenditures involved in building and redeveloping schools in each of the school years from 2013/14 to 2019/20 and the coming school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 168)

Reply:

(1) and (3) At present, all kindergartens (KGs) in Hong Kong are privately run. KGs generally operate in premises identified in the private market on their own, premises owned by their school sponsoring bodies or estate KG premises. The Education Bureau (EDB) does not compile statistics on vacant KG premises. According to the Hong Kong Housing Authority (HKHA)'s records, there are currently 2 vacant estate KG premises in public housing estates under the HKHA. According to the established arrangements, upon receipt of notification from the Housing Department (HD), the EDB will assess whether a School Allocation Exercise (SAE) for nominating operators for estate KG premises is necessary having regard to the result of the latest demand and supply analysis of KG places in the vicinities of the estate KG premises concerned as well as other related factors. Should the assessment not justify an SAE, the EDB would inform the HKHA, which will then consider whether to put the estate KG premises to other alternative uses. The HKHA may also lease estate KG premises at market rent through open rental tender from time to time. In respect of the aforesaid 2 vacant estate KG premises, 1 premises has been recommended for allocation to a school sponsoring body through the Second SAE 2016, and the HD is taking follow-up actions on the remaining 1 premises. The EDB would handle the matter according to the aforesaid procedures upon receipt of notification from the HD.

In respect of vacant school premises (VSP), it has all along been the EDB's policy objective to put VSP to gainful use. When there is a vacant or to-be-vacant school premises, the EDB will assess the VSP's suitability for school or other educational uses having regard to factors including the size, location, physical conditions, etc., of the relevant premises, as well as the educational needs and relevant policy measures.

When the EDB confirms that the VSP is no longer required by the EDB for reallocation for school use, the EDB will, in accordance with the Central Clearing House Mechanism, inform the Planning Department (PlanD) and other relevant departments (such as the Lands Department (LandsD) and HD) for the PlanD's consideration of suitable alternative long-term uses. According to the mechanism, the EDB is allowed to retain VSP for school use. However, if the EDB intends to put the VSP to other educational uses, the EDB needs to put forward its proposed use with justifications to the PlanD for assessment and may need to compete with other government departments on use of such VSP.

As at end-February 2020, there are 9 VSP under the EDB's purview which are earmarked/retained for school or other educational uses, and the EDB is taking follow-up action on the earmarked uses. Information of the school premises concerned is set out in Table (1) below:

Table (1) – 9 VSP under the EDB’s purview (position as at end-February 2020)

No.	District	Former school name	Address	School year in which the school ceased operation (Note)	Site area of school premises (rounded to the nearest hundred m ²)
1	Eastern	HongKong Japanese School	9 Hau Yuen Path, Braemar Hill Road, North Point, Hong Kong	2017/18	2 900
2	Southern	St. Peter’s Secondary School	220 Aberdeen Main Road, Hong Kong	2012/13	6 000
3	Kowloon City	Hung Hom Government Primary School	68 Gillies Avenue South, Hung Hom, Kowloon	2009/10	1 900
4	Wong Tai Sin	S.K.H. Ching Shan Primary School	3 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	3 700 (Total)
5	Wong Tai Sin	S.H.K. Yat Sau Primary School	1 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	
6	Wong Tai Sin	Cognitio College (Kowloon)	96 King Fuk Street, San Po Kong, Kowloon	2019/20	2 100
7	Sham Shui Po	Chi Yun School	19 Kwong Lee Road, Kowloon	2018/19	2 200
8	Tai Po	Tai Po Government Primary School	22 Wan Tau Kok Path, Tai Po, New Territories	1999/00	2 400
9	Islands	Cheung Chau Public School	School Road, Cheung Chau, New Territories	2006/07	5 800

Note: “School year in which the school ceased operation” refers to the year the school premises were ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

All the VSP under the EDB’s purview are earmarked/retained for school or other educational uses, including catering for the anticipated demand for school places, reprovisioning of existing schools to improve their learning and teaching environment, decanting use by schools undergoing in-situ redevelopment or extension works, etc. With the policy objective of putting VSP into gainful use in mind, the EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within the EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, the Home Affairs Department, the LandsD, the PlanD and the Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

As far as school building sites are concerned, as at March 2020, there are a total of 24 reserved school sites (including primary, secondary and special schools) in the territory

having completed the relevant technical feasibility study and the timeframe for school development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as site investigation and school design, are being carried out in accordance with the prevailing procedures. A breakdown of the 24 reserved school sites by districts, with their location, site area and planned use, is set out in Table (2) below. Among them, funding approval for project on 1 reserved school site was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2017-18 LegCo Session with the school building works commenced in 2018; funding approval for projects on 4 reserved school sites was approved in the 2018-19 LegCo Session and the school building works commenced in 2019 and early 2020. For the remaining 19 sites, 3 fall within private development projects or its availability being affected by private development projects, while the rest are being deployed for temporary uses, undergoing site formation work or with preliminary works/detailed design for school building project being undertaken in accordance with the existing mechanism and procedures. Funding approval will be sought from the FC of the LegCo for commencing these school building projects in due course.

Table (2) – Reserved School Sites by District

No.	District	Location	Site area (rounded to the nearest hundred m ²)	Planned use	No. of classrooms	Allocation status	Remarks
1	Kowloon City	To Kwa Wan	7 700	Secondary school	30	Unallocated	(ii)
2	Kowloon City	Ho Man Tin	7 800	Primary school	24	Unallocated	(ii)
3	Kowloon City	Kowloon Tong	7 700	2 Special schools	12 and 24 respectively	Allocated	(ii)
4	Kowloon City	Kai Tak Development	6 100	Primary school	30	Unallocated	(ii)
5	Kwun Tong	Anderson Road	7 300	Secondary school	30	Allocated	(i)
6	Kwun Tong	Anderson Road	7 200	Primary school	30	Allocated	(ii)
7	Kwun Tong	Anderson Road	6 800	Primary school	30	Unallocated	(ii)
8	Kwun Tong	Wang Chiu Road	7 000	Secondary school	30	Unallocated	(ii)
9	Wong Tai Sin	Luk Lau Avenue	3 700	Primary school	24	Unallocated	(ii)
10	North	Fanling	5 900	Primary school	30	Allocated	(i)
11	North	Fanling	5 900	Primary school	30	Allocated	(i)
12	Sham Shui Po	Cheung Sha Wan	6 500	Primary school	30	Allocated	(i)
13	Sham Shui Po	Cheung Sha Wan	6 200	Primary school	30	Unallocated	(ii)
14	Yau Tsim Mong	Hoi Fan Road	6 300	Primary school	30	Unallocated	(ii)

No.	District	Location	Site area (rounded to the nearest hundred m ²)	Planned use	No. of classrooms	Allocation status	Remarks
15	Sai Kung	Tseung Kwan O	6 200	Primary school	30	Allocated	(iii)
16	Sai Kung	Tseung Kwan O	7 000	Secondary school	30	Allocated	(iii)
17	Sai Kung	Tseung Kwan O	7 400	Secondary school	30	Unallocated	(ii)
18	Sai Kung	Anderson Road Quarry	6 200	Primary school	30	Unallocated	(ii)
19	Sai Kung	Anderson Road Quarry	7 000	Primary school	30	Unallocated	(ii)
20	Sai Kung	Anderson Road Quarry	8 100	Secondary school	30	Unallocated	(ii)
21	Sha Tin	Shui Chuen O	9 200	Primary school	30	Allocated	(i)
22	Sha Tin	Fo Tan	4 700	Primary school	24	Allocated	(iii)
23	Tai Po	Area 9	7 100	Primary school	36	Allocated	(ii)
24	Tsuen Wan	Tsuen Wan West	5 800	Primary school	30	Allocated	(ii)

Remarks:

- (i) Funding approval has been obtained from the FC of LegCo for the school building project.
- (ii) The site is being deployed for temporary use, undergoing site formation work or with preliminary works/detailed design for school building project being undertaken in accordance with the existing mechanism and procedures. Funding approval will be sought from the FC of LegCo for commencing the school building project in due course.
- (iii) The site falls within a private development project and is not regarded as government land or the site availability is affected by a private development project.

According to the EDB's prevailing school allocation mechanism, once a vacant/to-be-vacant premises or a reserved school site is confirmed to be required for allocation for school use, the EDB will normally invite applications from all eligible organisations in the territory through an SAE and make relevant announcement through press release and on its website. The SAE is generally conducted on a competitive basis among the applicant bodies. When assessing the applications, quality of education is the prime consideration of the School Allocation Committee comprising official and non-official members. Other factors, including operation track record and condition of existing school premises (where applicable), and school proposal, will also be considered. In 2019, we launched a total of 4 SAEs to allocate school premises for different school uses. Moreover, the First SAE 2020 was launched in January 2020 to nominate school sponsoring bodies for allocation of 5 new estate KG premises. Information on these premises is set out in Table (3) below. As always, we will continue to actively identify school sites/VSP that are suitable for school uses and launch SAEs accordingly in a timely manner.

Table (3) – Information on school premises covered by the 2019 SAEs and First SAE2020

SAE	Location of school premises (name of former school of the VSP, if applicable)	Site area (applicable to planned new school premises)/ Site area of the VSP (rounded to the nearest hundred m²)/ Internal floor area of new estate KG premises (rounded to the nearest 10 m²)	Use of allocated school premises	Organisation recommended for allocation
First SAE 2019	Area 9, Tai Po	7 100	Setting up a new aided primary school	The Superintendent in Hong Kong of the Pentecostal Holiness Church
Second SAE 2019	Au Pui Wan Street, Fo Tan, Sha Tin	4 700	Reprovisioning of an existing public sector primary school	Po Leung Kuk (reprovisioning of Po Leung Kuk Siu Hon Sum Primary School)
	Mei Lam Estate, Sha Tin (Ex-premises of Sung Lan Middle School)	5 800 #	Reprovisioning of an existing public sector primary school	The Trustees of the Kowloon Tong Church of the Chinese Christian and Missionary Alliance (reprovisioning of Christian Alliance H.C. Chan Primary School of the Kowloon Tong Church of the Chinese Christian and Missionary Alliance)
Third SAE 2019	Lin Cheung Road, Sham Shui Po	6 200	Reprovisioning of an existing public sector primary school located in the Primary One Admission (POA) school net of Kwai Tsing district	SAE underway
	Site 1B-4 at Kai Tak Development, Kowloon City	6 100	Reprovisioning of an existing public sector primary school located in the POA school net of Wong Tai Sin district	SAE underway
Fourth SAE 2019	Sheung Foo Street, Ho Man Tin, Kowloon City	7 800	Reprovisioning of an existing public sector or Direct Subsidy Scheme (DSS) primary school	SAE underway

	Development at Anderson Road, Kwun Tong (Site KT2a)	6 800	Reprovisioning of an existing public sector or DSS primary school	SAE underway
	Luk Lau Avenue, Wong Tai Sin (Ex-premises of S.K.H. Ching Shan Primary School and S.K.H. Yat Sau Primary School)	3 700	Reprovisioning of an existing public sector or DSS primary school	SAE underway
	68 Gillies Avenue South, Hung Hom, Kowloon (Ex-premises of Hung Hom Government Primary School)	1 900	Reprovisioning of an existing public sector or DSS primary school	SAE underway
First SAE 2020	1/F, Lai Tsui Shopping Centre, Lai Tsui Court, 608 Lai Chi Kok Road	670 #	Operating a kindergarten	SAE underway
	G/F, Chun Yeung Shopping Centre, Chun Yeung Estate, 20 Kwei Tei Street, Fo Tan, Shatin	1 100 #	Operating a kindergarten	SAE underway
	G/F, Hoi Wing House, Hoi Tat Estate, Cheung Sha Wan, Kowloon	710 #	Operating a kindergarten	SAE underway
	Yung Ming Court, 5 Chi Shin Street, Tseung Kwan O	820 #	Operating a kindergarten	SAE underway
	1/F, Long Tin House, Pak Tin Estate Phase 11	550 #	Operating a kindergarten	SAE underway

Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/Housing Society refers to the internal floor area of the premises and is marked with (#) in the table above.

(2) The EDB is responsible for the management of VSP located on sites allocated to the EDB, including those that the PlanD has been informed of under the Central Clearing House Mechanism but that the LandsD has requested the EDB to continue the management until the next users have been identified and taken over the land. From 2013-14 to 2018-19, the expenditure of the EDB for the management of VSP is \$0.727 million, \$0.957 million, \$1.221 million, \$1.341 million, \$1.266 million and \$1.228 million respectively, and in 2019-20 and 2020-21, the revised estimated expenditure and estimated expenditure are \$0.86 million and \$1.818 million respectively, which mainly include security patrol and

inspections, pest control, removal of litter, as well as cleansing and weeding. The increase of around \$0.96 million in the estimate for 2020-21 over 2019-20 is mainly due to the anticipated upward adjustment in the contract price for 2020-21 following a lower than expected actual contract price for the soon to be expired 2019-20 contract. In addition, rising labour costs and the need to enhance pest control works also contribute to an increase in the estimated expenditures.

(4) The school building projects for new schools and redevelopment/extension of public sector schools with funding approval granted by the FC of LegCo from 2013-14 to 2019-20, and the school building projects with funding approval to be sought from the FC in 2020-21 are set out in Table (4) below.

Table (4) – The school building projects for new schools and redevelopment/extension of public sector schools with funding approval obtained/to be sought from the FC:

No.	Financial year in which funding was approved	Project	School type	Project nature	Estimated cost for school building (\$ million) (in money-of-the-day prices)
1	2013-14	A 30-classroom primary school at Site 1A-4, Kai Tak Development, Kowloon	Primary school	Reprovisioning	317.5
2		A 30-classroom primary school at Site 1A-3, Kai Tak Development, Kowloon	Primary school	Reprovisioning	312.4
3		Redevelopment of Ying Wa Girl's School at Robinson Road, Hong Kong	Secondary school	Redevelopment	653.4
4	2014-15	Construction of an Annex to Baptist Lui Ming Choi Secondary School, Shatin, New Territories	Secondary school	Extension	148.8
5		Two special schools at Sung On Street, To Kwa Wan	Special school	Reprovisioning	484
6		A school for social development for girls at Choi Hing Road, Kwun Tong, Kowloon	Special school	New School	373.7

No.	Financial year in which funding was approved	Project	School type	Project nature	Estimated cost for school building (\$ million) (in money-of-the-day prices)
7		A 36-classroom primary school in Area 36, Fanling	Primary school	Reprovisioning	417.2
8	2015-16	Two 24-classroom primary schools at ex-Tanner Road Police Married Quarters site at Pak Fuk Road, North Point, Hong Kong	Primary school	Reprovisioning (whole-day conversion)	660
9		A 12-classroom special school for children with mild intellectual disability near Hoi Lai Estate, Sham Shui Po	Special school	Reprovisioning	256.6
10	2016-17	Extension and conversion to St. Paul's Primary Catholic School at Wong Nai Chung Road, Happy Valley	Primary school	Partial redevelopment/extension	467.8
11		A 30-classroom secondary school at Site 1A-2, Kai Tak Development	Secondary school	Reprovisioning	446.7
12		A 30-classroom primary school at Site KT2b, Development at Anderson Road, Kwun Tong	Primary school	Reprovisioning	351.1
13		A school for social development for boys in Area 2B, Tuen Mun	Special school	Reprovisioning	408.5
14	2017-18	A special school for students with mild, moderate and severe intellectual disabilities in Area 108, Tung Chung	Special school	New School	334.7

No.	Financial year in which funding was approved	Project	School type	Project nature	Estimated cost for school building (\$ million) (in money-of-the-day prices)
15		A 30-classroom primary school at Tonkin Street, Cheung Sha Wan	Primary school	Reprovisioning	345.5
16	2018-19	Provision of Boarding Section of Hong Chi Pinehill School and reprovisioning of Boarding Section of Hong Chi Pinehill No.2 School in Tai Po	Special school	Extension and reprovisioning	170.2
17		Conversion to Heung Hoi Ching Kok Lin Association Buddhist Po Kwong School	Special school	Conversion	197.6
18		Construction of an assembly hall at Munsang College at 8 Dumbarton Road, Kowloon City	Secondary school	Extension	81.4
19		First 30-classroom primary school at Queen's Hill, Fanling	Primary school	New School	386.1
20		Second 30-classroom primary school at Queen's Hill, Fanling	Primary school	New School	386.6
21	2019-20	A 30-classroom primary school at Shui Chuen O, Sha Tin	Primary school	New School	363.2
22		A 30-classroom secondary school at Site KT2e, Development at Anderson Road, Kwun Tong	Secondary school	Reprovisioning	434.8

No.	Financial year in which funding was approved	Project	School type	Project nature	Estimated cost for school building (\$ million) (in money-of-the-day prices)
23	Not applicable	Partial Redevelopment and Conversion of the Hong Kong Chinese Women's Club College at 2B, Tai Cheong Street, Sai Wan Ho	Secondary school	Partial redevelopment/ conversion	To be confirmed
24		Conversion to Shatin Public School	Special school	Conversion/ extension	To be confirmed
25		Extension of Hong Chi Morninghill School, Tuen Mun	Special school	Extension	To be confirmed
26		A 30-classroom primary school at Site KT2c, Development at Anderson Road, Kwun Tong	Primary school	Reprovisioning	To be confirmed

CONTROLLING OFFICER'S REPLY

EDB452

(Question Serial No. 3418)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures for the past 5 school years, with a breakdown by 18 districts and a total for the whole territory:

- (a) the number and percentage of local students and non-local students studying in international schools, disaggregated by school type (primary, secondary and special);
- (b) out of the non-local students mentioned in (a) above, the number and percentage of Mainland students and non-local students of other origins; and
- (c) the number and names of international schools failing to meet the requirements concerning local student population.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 169)

Reply:

(1) and (2) The numbers of local and non-local students studying in international primary, secondary and special schools from the 2015/16 to 2019/20 school years are tabulated at the **Annex**.

(3) In the 2019/20 school year, the ratio of non-local students of 15 international schools is subject to a related requirement, ranging from 50% to 98%, under the respective service agreements (SAs) entered into between the schools and the Government following the allocation of vacant school premises (VSP) or greenfield site in question for international school development under School Allocation Exercises (SAEs). Under the prevailing policy, school sponsoring bodies (SSBs) allocated with school premises or sites by the Education Bureau (EDB) for such purpose are required to allocate at least 70% of the school places to non-local students. In the SAE conducted in 2014, favourable consideration was

given to proposals accepting a higher proportion of non-local students. In case of breach of requirements in the SA by SSBs and schools (including failure to comply with the minimum percentage of non-local students to be enrolled as stipulated in the SA), the EDB will take follow-up actions, and has the right to terminate or refuse to renew the SA, or even re-enter the VSP or greenfield sites concerned. In addition, when discussing with the English Schools Foundation (ESF) the phasing-out arrangements of the recurrent government subvention for ESF schools in 2013, we have taken the opportunity to remind the ESF to continue to maintain their student mix of having no less than 70% of their overall student population being non-local students.
