In the 2019/20 school year, non-local students accounted for 74.1% of the overall student population in the international school sector while local students accounted for 25.9%. When SSBs submitted their proposals for the SAE, they acknowledged and agreed that the information provided (including the proposed minimum percentage of non-local students to be enrolled) would only be used for the relevant SAE. We are therefore unable to disclose the requirement regarding the minimum percentage of non-local students to be enrolled by individual international schools. Nevertheless, among the aforementioned international schools which are subject to the requirement on enrolment of local students, except 4 new schools which commenced operation between 2016 and 2018, and 2 schools which are obliged by the renewal of SAs to observe a higher percentage of non-local students in 2018 and 2019 respectively, the rest have complied with the relevant requirement. We will follow up on the student admission of the relevant schools in the coming year.

Notes:

- (1) Local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region (HKSAR)) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport.
- (2) Non-local Chinese students refer to students who hold Chinese nationality (e.g. Mainlanders, Macaoese and Taiwanese) and hold a passport other than the HKSAR Passport or the British National (Overseas) Passport. There is no further breakdown on the number of students with Chinese nationality.
- (3) Figures of primary and secondary schools include students studying in the English Schools Foundation (ESF) schools and other international schools but not the special school operated by the ESF.
- (4) Figures of the special school refer to the special school operated by the ESF.
- (5) Figures refer to the position as at September of the respective school years.
- (6) Percentages may not add up to total due to rounding.

CONTROLLING OFFICER'S REPLY

EDB453

(Question Serial No. 3419)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following statistics for the school years from 2015/16 to 2019/20:

- (a) the number of primary and secondary schools using Putonghua as the medium of instruction for teaching the Chinese Language Subject, with a breakdown by school type;
- (b) the number of classes using Putonghua and Cantonese respectively as the medium of instruction for teaching the Chinese Language Subject at each level from Primary 1 to Secondary 6 and the number of students involved, with a breakdown by school type; and
- (c) the number of primary and secondary schools that still offer Putonghua as an independent subject.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 170)

Reply:

- (a) to (b) Schools generally adopt Cantonese as the medium of instruction (MOI) for teaching the Chinese Language Subject. Using Putonghua as the MOI for teaching the Chinese Language Subject (PMIC) is a decision driven by school-based policy. Primary and secondary schools may make decisions and arrangements with regard to their own circumstances. As the number of schools adopting PMIC varies every year, we have not kept track of such information.
- (c) Hong Kong's policy on language education is to enhance the biliterate (Chinese and English) and trilingual (Cantonese, Putonghua and English) abilities of our students. To maintain our existing edge and embrace the opportunities brought by globalisation, students are expected to master biliterate and trilingual abilities. The Education Bureau (EDB) recommends that the Putonghua Subject be offered

by primary and secondary schools in Hong Kong. As revealed by the survey conducted by the EDB at the beginning of the 2019/20 school year, Putonghua is taught as an independent subject in over 85% of public sector primary and secondary schools in Hong Kong.

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the median salary of teachers serving in public sector and Direct Subsidy Scheme primary, secondary and special schools, and the number of teachers retired from these schools between the 2015/16 and 2019/2020 school years. Please also provide the number of teachers applying for extension of service each year and give an account of the status of their applications, including the results and justifications for approval or rejection of such applications.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 171)

Reply:

At present, public sector schools can deploy various cash grants for employing additional contract teachers on top of the regular establishment, having regard to their school contexts and students' needs. Since the Education Bureau (EDB) does not collect data pertinent to the salaries of contract teachers, information about the median salary of teachers in all public sector schools is not available.

In addition, the Government provides Direct Subsidy Scheme (DSS) schools with a recurrent subsidy in the form of a block grant. The amount of the subsidy is calculated based on the DSS unit subsidy rate (i.e. the average unit cost of an aided school place) and student enrolment of a DSS school. DSS schools are given greater flexibility in various areas including remuneration policy for teaching and non-teaching staff. Since the EDB does not collect data pertinent to the salaries of individual DSS school teachers, information about the median salary of DSS school teachers is not available either.

The number of public sector and DSS primary, secondary as well as special school teachers retired from the profession between the 2015/16 and 2019/20 school years is tabulated below:

School Year	Primary School		Secondary School		Special School
	Public Sector	DSS	Public Sector	DSS	
2015/16	200	10	360	40	29
2016/17	210	0	310	30	29
2017/18	220	0	390	30	30
2018/19	230	0	410	50	33
2019/20 (estimated)	220	10	430	30	29

Note: Figures are rounded to the nearest 10.

The number of applications and approvals for extension of service (including principals and teachers) between the 2015/16 and 2019/20 school years is tabulated below:

School Year	2015/16	2016/17	2017/18	2018/19	2019/20
No. of applications for extension of service	2	0	2	4	1 [#]
No. of approvals for extension of service	0	0	1 [*]	0	0

* Approval for extension of service for 6 months was granted to the individual concerned due to the school's special circumstances.

Application was withdrawn by the school concerned afterwards.

Under the relevant provision of the Education Ordinance and the existing retirement policy, the retirement age of aided school principals and teachers within the approved teaching establishment is 60 unless special permission is given. Aided schools should comply with relevant provisions on retirement age and plan ahead for succession in anticipation of the retirement of the incumbent teachers and principals. When processing applications for extension of service, the EDB will prudently consider the justifications put forth by the school in support of the application and all related factors, including whether the school has made every reasonable effort (including open recruitment, internal promotion, promotion or redeployment from other schools under the same school sponsoring body, etc.) but still failed to find a suitable replacement for the incumbent and other special circumstances of the school. In accordance with the above-mentioned provisions and existing retirement policy, applications for extension of service of teachers or principals who are due to retire will not be approved except under very special circumstances.

Director of Bureau: Secretary for Education

Question:

- (a) Please elaborate on the adjustments to the allocation class size for public sector primary and secondary schools in each district/school net in the past 5 school years, including the extent to which the allocation class sizes have been increased or reduced, and the total number of school places in each district/school net upon adjusting the allocation class size; and
- (b) The Government currently copes with the changes in population in different districts by netting school places. Please provide the number of surplus places of public sector primary and secondary schools in each district/school net in the past 5 school years, and explain how these surplus places were netted, including the number of netted places and the districts/school nets involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 172)

Reply:

- (a) The Education Bureau (EDB) anticipated in 2013 that the overall demand for Primary One (P1) places would increase substantially and temporarily to the projected peak in the 2018/19 school year, and then progressively decrease to a stable level. To meet the transient increase in demand for P1 places, EDB and the sector have been maintaining close liaison over the past few years and have reached a consensus on the related follow-up measures. A number of flexible arrangements have been adopted, including temporarily allocating more students to each P1 class to increase the supply of school places flexibly. The districts/school nets in which the number of P1 places for each class was increased temporarily under the Primary One Admission (POA) System from 2015 to 2019 (i.e. for admission to P1 from the 2015/16 to 2019/20 school years respectively) to meet the transient increase in demand for P1 places, the extent of increase and the total number of school places increased are tabulated at Annex 1.

As for secondary schools, EDB has implemented a series of targeted relief measures since the 2013/14 school year to help sustain the development of schools, stabilise the teaching force and maintain the quality of education. These measures include allowing schools to adopt the mode of “2-1-1” or “1-1-1” to reduce the number of students allocated to each Secondary 1 (S1) class progressively in 3 school years under the Secondary School Places Allocation (SSPA) System from 2013 to 2015 (i.e. for admission to S1 from the 2013/14 to 2015/16 school years respectively) on the premise that the number of students in each S1 class would reinstate to the level at that time (i.e. 34 students) after the transient decline of S1 population. From the 2016/17 to 2018/19 school years, the number of students allocated to each S1 class remained at the level in the 2015/16 school year.

S1 student population has started to rebound from the 2017/18 school year and is expected to peak in the 2024/25 school year. To address the projected increase in the demand for S1 school places, EDB and the sector met and reached a consensus on the framework of direction and strategies for tackling the issue, i.e. adopting the established netting arrangements for SSPA, progressively reverting the number of students allocated per class to 34 upon the rebound of the S1 student population (“place reinstating”), as pledged by the sector prior to the implementation of the targeted relief measures, and increasing the number of S1 classes in districts with a shortfall in school places even after adopting the netting arrangements and “place reinstating”, so as to ensure a sufficient supply of S1 places every year to meet the demand. In this connection, based on the consensus reached with the sector, we increased S1 school places through increasing the number of S1 classes in the 2018/19 school year, and through an across-the-board “place reinstating” by one school place in S1 classes in all public sector schools in the territory, complemented by increasing the number of S1 classes in the 2019/20 school year. The implementation of the said measures and the total number of school places increased or reduced in different districts under the SSPA from 2015 to 2019 (i.e. for admission to S1 from the 2015/16 to 2019/20 school years) are tabulated at [Annex 2](#).

- (b) The POA is divided into 2 stages: Discretionary Places (DP) and Central Allocation (CA). During the DP stage, parents may, without restriction on districts, apply to any one of the public sector primary schools. Children who have failed to secure a discretionary school place may participate in CA, which comprises two parts, namely unrestricted school choices and restricted school choices. For applicant children residing in Hong Kong, their school net is determined by their residential address. Certain school nets may cover two districts.

The provision of public sector primary school places is planned on a territory-wide basis. Under POA, the supply and demand of P1 school places in individual school nets may vary across years. Providing sufficient school places for parents’ selection by netting places from school nets that have surplus places is a long-established arrangement. When netting school places, EDB follows the established mechanism, which include thoroughly considering the situation of schools in the school nets concerned, location of schools and the transportation available to facilitate students travelling to and from schools, etc.

The respective numbers of P1 places and students in public sector schools by district from the 2015/16 to 2019/20 school years are at [Annex 3](#). The provisional number of CA places offered by schools, including those offered by schools in other school nets, is set out in the Choice of Schools List by School Net for CA of POA from 2015 to 2019 for parents' reference. Each year, the actual number of school places netted in relevant districts/school nets could be affected by different factors, including the unrestricted school choices made by parents during the CA stage. Relevant statistics are not readily available.

The SSPA is divided into 2 stages: DP and CA. During the DP stage, parents may, without restriction on districts, apply to not more than 2 participating secondary schools. The CA stage comprises two parts, namely Unrestricted School Choices and Restricted School Choices. Under SSPA, the secondary school net to which students belong is determined by the physical location of the primary schools they attend rather than their place of residence.

The provision of public sector secondary school places is planned on a territory-wide basis. To ensure an adequate supply of school places to meet the demand and to provide more school choices to students in districts with a smaller number of school places, netting of school places from neighbouring areas is a long-established arrangement which can also address the concerns and needs of different stakeholders. When making netting arrangements, EDB takes into consideration a number of factors, such as the supply and demand of school places in different districts, location of schools and the associated transport facilities as well as the established netting pattern, to ensure a stable supply of school places in each district and provide parents with more choices.

The respective numbers of S1 places and students in public sector schools by district from the 2015/16 to 2019/20 school years are at [Annex 4](#). The secondary schools that offer places for school nets in the CA stage of SSPA and the estimated number of school places from 2015 to 2019 are set out in the Secondary School Lists of the respective years for parents' reference. Each year, the actual number of school places netted in relevant districts could be affected by different factors, including the unrestricted school choices made by parents during the DP and CA stages. Relevant statistics are not readily available.

Districts/school nets temporarily allocated with more students per P1 class, the extent of increase and the total number of P1 places increased under the POA from 2015 to 2019

- Notes: (1) Figures refer to the position as at mid-September of the respective school years.
- (2) Figures include government and aided ordinary primary schools but not special schools.
- (3) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by the schools concerned.
- (4) Normally, schools may admit 2 to 3 more students on top of the class size for each class, and thus the number of students admitted could be greater than the number of places.

CONTROLLING OFFICER'S REPLY

EDB456

(Question Serial No. 3424)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please provide a list of funds under the management of the Education Bureau (EDB), as well as their respective aims, modes of usage, amount of initial injection and up-to-date surplus. Please also set out the total balance of all funds. As far as administration and investment management are concerned, please advise whether each fund is operated independently or a centralised approach is taken. What are the number of civil servants and the amount of administrative cost involved each year?

(2) Which areas of education expenditure are covered by investment returns of these funds? Which areas of education expenditure are covered by the recurrent expenditure of EDB? What criteria are adopted in this regard?

(3) Will the establishment of new funds and the injections into existing funds by public money thin out the resources that can be directly allocated for education?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 175)

Reply:

(1) and (2) There are 9 funds under the management of the Education Bureau (EDB), viz Language Fund, Quality Education Fund, Education Development Fund, HKSAR Government Scholarship Fund, Research Endowment Fund, Self-financing Post-secondary Education Fund, Qualifications Framework Fund, Gifted Education Fund and Student Activities Support Fund. Each fund is established as a trust fund with the Permanent Secretary for Education Incorporated as its trustee, and is managed in accordance with its trust deed, which stipulates that the trustee should properly manage and administer the fund in light of its framework and salient features, including prudent management of resources under the fund.

Given that the year and aims of establishment of the funds vary, each fund is operated independently. The aims of establishment, modes of usage, management and total amount of injection of each fund, the year-end balance/operating expenses directly covered by the funds in the 2018/19 school/academic year, and the total balance of all funds are set out in **Annex**. The Government also provides secretariat services and investment support to the funds. The civil servants and expenditures involved are subsumed under the establishment and expenses of EDB and other concerned departments, and cannot be separately identified.

- (3) In general, recurrent expenditure on education is, in light of the respective areas, entirely covered by the provision under Head 156 - Education Bureau, Head 173 - Working Family and Student Financial Assistance Agency or Head 190 - University Grants Committee of the General Revenue Account. To deploy resources more flexibly, we have also established funds for specific purposes. Except for the Education Development Fund and the injections made to the Language Fund prior to 2014, all the funds are seed capital funds, which cover education expenditure that meets the aims of their establishment with investment returns. The Education Development Fund and the earlier injections of the Language Fund meet related education expenditure with its capital and interest income.

Since injections into the funds are not covered by recurrent expenditure but are made in the form of a lump sum, neither the establishment of new funds nor injections into existing funds will affect the annual recurrent expenditure on education. In 2020-21, the recurrent education expenditure will increase by 7.8% to \$99.6 billion, accounting for 20.5% of the total government recurrent expenditure, hence taking up the largest share among all policy areas.

Annex

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection ⁽¹⁾ \$ million	2018/19 School/Academic Year	
					Year-end Balance \$ million	Operating Expenses Directly Covered by the Fund \$ million
Language Fund ⁽²⁾	To provide financial support for projects and activities which aim at improving Hong Kong people's proficiency in Chinese (including Putonghua) and English.	To provide funding support for various projects, studies, teaching support initiatives, programmes, and publicity activities etc.	To be assessed/monitored by the Standing Committee on Language Education and Research (SCOLAR). Members of SCOLAR (including renowned language academics/language education academics, experienced principals and teachers, private sector personalities and parents) continuously monitor and review in a timely manner the initiatives funded by the Fund to ensure its overall effectiveness. SCOLAR also advises the trustee on the policies and procedures governing the operation of the Fund.	8,000	6,550	Nil

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection ⁽¹⁾ \$ million	2018/19 School/Academic Year	
					Year-end Balance \$ million	Operating Expenses Directly Covered by the Fund \$ million
Quality Education Fund	To finance projects for the promotion of quality school education in Hong Kong.	Schools, educational bodies and organisations registered under the laws of Hong Kong and individuals who are permanent residents in Hong Kong are eligible to apply for funding under the Fund.	A Steering Committee has been set up under the Fund to advise the Government on the policies and procedures governing the operation of the Fund. The Steering Committee is chaired by a non-government official and supported by members from the education, business and professional sectors. The Assessment and Monitoring Sub-committee under the Steering Committee is responsible for assessing applications and monitoring funded projects, while the Investment Committee under the Fund is responsible for formulating policies for and monitoring the investment of the Fund.	5,000	9,426	69.4

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection ⁽¹⁾ \$ million	2018/19 School/Academic Year	
					Year-end Balance \$ million	Operating Expenses Directly Covered by the Fund \$ million
Education Development Fund ⁽³⁾	To provide differentiated school-based professional support (SBPS) for building schools' capacity in taking forward the education reform initiatives.	To support schools and teachers through the following 5 SBPS programmes: (a) Principal Support Network; (b) School Support Partners (Seconded Teacher) Scheme; (c) Professional Development Schools Scheme; (d) University-School Support Programmes; and (e) Collegial Participation in External School Review.	The Advisory Committee on the Fund, which comprises representatives of school councils, frontline teachers, principals, academics and community members, advises the Government on the operation of the Fund and the implementation of SBPS programmes. A cross-divisional working group, the School Development Key Group, has been set up within the EDB to oversee and monitor the delivery of SBPS programmes on a regular basis.	1,100	1	Nil

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection ⁽¹⁾ \$ million	2018/19 School/Academic Year	
					Year-end Balance \$ million	Operating Expenses Directly Covered by the Fund \$ million
HKSAR Government Scholarship Fund	To attract outstanding local and non-local students to pursue publicly-funded higher education programmes in Hong Kong and to stay in Hong Kong after graduation; to recognise the achievements of outstanding local and non-local students, with a view to attracting them to stay in Hong Kong after graduation; and to promote the further development of Hong Kong as a regional education hub and enhance Hong Kong's competitiveness in the long run.	A sum of money, funded by the investment income generated from the Fund, is allocated every year to 10 institutions that offer full-time publicly-funded programmes at sub-degree and degree or above for awarding scholarships to recognise the outstanding performance of local and non-local students enrolled in these programmes.	To be assessed/monitored by participating institutions ⁽⁴⁾ (according to the stipulated selection criteria of the Fund) and by the Steering Committee of the Fund. The Steering Committee of the Fund advises the trustee on the overall strategies and policies for management and development of the Fund, while the Investment Committee advises on the formulation of investment policies and the monitoring of investment.	3,070	3,248	6.5

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection ⁽¹⁾ \$ million	2018/19 School/Academic Year	
					Year-end Balance \$ million	Operating Expenses Directly Covered by the Fund \$ million
Research Endowment Fund	To provide research funding for the University Grants Committee (UGC)-funded universities and local self-financing degree-awarding institutions; to finance research projects of specific themes; and to offer non-means-tested tuition waiver to local students enrolled in UGC-funded research postgraduate programmes.	The Research Grants Council (RGC) provides research funding for UGC-funded universities through various competitive research funding schemes under the Earmarked Research Grant, the Research Impact Fund and the Theme-based Research Scheme. The Fund also offers tuition waiver to eligible local students enrolled in research postgraduate programmes for the normative study period of the programmes. In addition, the RGC provides research funding for local self-financing degree-awarding institutions through 3 competitive research funding schemes.	The UGC advises the trustee on the following: policies and procedures governing the operation and development of the Fund; policies governing the investment of the Fund; and the grants reserved under the Fund for institutions to carry out, promote and support research projects.	46,000	49,257	Nil

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection ⁽¹⁾ \$ million	2018/19 School/Academic Year	
					Year-end Balance \$ million	Operating Expenses Directly Covered by the Fund \$ million
Self-financing Post-secondary Education Fund	To support worthwhile initiatives and schemes that aim to enhance the quality of self-financing post-secondary education.	To enhance the quality of self-financing post-secondary education through the Self-financing Post-secondary Scholarship Scheme and the Quality Enhancement Support Scheme under the Fund.	The Committee on Self-financing Post-secondary Education ⁽⁵⁾ advises the trustee on the overall strategies and policies for the administration and development of the Fund, while the Investment Committee of the Fund advises on the formulation of investment policies and the monitoring of investment.	3,520	3,946	9.8

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection ⁽¹⁾ \$ million	2018/19 School/Academic Year	
					Year-end Balance \$ million	Operating Expenses Directly Covered by the Fund \$ million
Qualifications Framework Fund	To support the sustainable development and implementation of the Qualifications Framework (QF).	Schemes/initiatives supported by the Fund include: (a) Designated Support Schemes for QF (including Accreditation Grant Scheme, Recognition of Prior Learning Support Scheme, Support Scheme for Recognition of Professional Qualifications under HKQF, Programme Development Grant Scheme and Qualifications Register Subsidy Scheme); and (b) funding for Industry Training Advisory Committees, QF-related studies or projects and public education.	The Steering Committee on the Fund advises the Secretary for Education on the overall strategy for making use of the Fund as a vehicle to support the sustainable development and implementation of the QF, and the scope and parameters of the schemes, initiatives and activities to be covered by the Fund.	2,200	2,300	Nil

Name of Fund	Aims of Establishment	Modes of Usage	Management	Total Amount of Injection ⁽¹⁾ \$ million	2018/19 School/Academic Year		
					Year-end Balance \$ million	Operating Expenses Directly Covered by the Fund \$ million	
Gifted Education Fund	To support the development of gifted education in Hong Kong through the Hong Kong Academy for Gifted Education (HKAGE) and other worthwhile initiatives, schemes and programmes.	To support the operation of the HKAGE, and other initiatives, schemes and programmes related to gifted education with the investment income of the Fund.	The Advisory Committee on Gifted Education advises the Secretary for Education on the operation and management of the Fund and the development of gifted education.	1,600	1,625	Nil	
Student Activities Support Fund	To support students with financial needs to participate in life-wide learning activities for whole-person development.	To use the investment return from the Funds to provide public sector and Direct Subsidy Scheme schools with the Student Activities Support Grant to support primary and secondary students with financial needs to participate in out-of-classroom learning activities organised or recognised by schools.	Schools are required to set out the income and expenditures in their annual audited accounts to be submitted to the EDB. Also, officers of the EDB will understand the schools' deployment of the grant, evaluate its effectiveness and make recommendations as necessary through different means such as school visits, day-to-day contacts with school, etc.	2,500	2,533	Nil	
Total balance of all funds:						78,886	

Note

- (1) Including initial injection and subsequent injections as at March 2020 into the Fund.
- (2) The total amount of injections of the Funds is \$8 billion. The injections of \$3 billion from 1994 (year of establishment) to 2010 were not seed capital fund while the injection of \$5 billion in 2014 was seed capital fund.
- (3) A non-seed capital fund that came to a close at the end of the 2018/19 school year.
- (4) Participating institutions of the HKSAR Government Scholarship Fund are the 8 UGC-funded universities (i.e. City University of Hong Kong, Hong Kong Baptist University, Lingnan University, the Chinese University of Hong Kong, the Education University of Hong Kong, the Hong Kong Polytechnic University, the Hong Kong University of Science and Technology, and the University of Hong Kong), the Hong Kong Academy for Performing Arts, and the Vocational Training Council.
- (5) Following its revamp with effect from 1 November 2019, the Committee on Self-financing Post-secondary Education has taken over the functions of the Self-financing Post-secondary Education Fund Steering Committee.

- End -

(Question Serial No. 3426)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government carries out repair and improvement works for schools every year. Regarding the relevant provision and estimated expenditure, please provide the following information in respect of primary, secondary and special schools for the school years from 2015/16 to 2020/21:

- (1) The actual and estimated provisions for repair works in each school year, and the year-on-year percentage changes;
- (2) The respective amounts of funding granted through the annual major repairs exercise and the emergency repairs mechanism in each school year;
- (3) Under the existing mechanism, schools have to bear the repair cost if the estimated project cost is under \$3,000 (for primary and special schools)/\$8,000 (for secondary schools). Does the project cost include wages paid to workers providing repair services?
- (4) The reasons for a reduced provision for repairs in the coming year when compared with the revised estimate.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 177)

Reply:

Over the years, the Education Bureau (EDB) has implemented various measures to enhance school facilities and improve teaching and learning environment, having regard to the circumstances and needs of individual schools. Among these measures, the EDB assists aided schools in handling relatively larger scale or more complicated repair and improvement works of school premises under the annual Major Repairs exercise, including appointing consultants and contractors to assist aided schools in handling repair works with an estimated

project cost over \$3,000 for primary and special schools, or over \$8,000 for secondary schools; and carrying out emergency repair works of school facilities at the request of aided schools under the Emergency Repairs mechanism. As regards Direct Subsidy Scheme schools, they may also submit applications under the annual Major Repairs mechanism if the estimated project cost of the repair works is over \$2 million. The estimated project cost normally includes labour and material costs. For 2020-21, the Government has reserved around \$1.56 billion as capital subventions for carrying out repair/improvement works of school premises under the annual Major Repairs and Emergency Repairs mechanism, representing an increase of about 4% over 2019-2020. For 2015-16 to 2020-21, the relevant actual expenditure/estimated expenditure is tabulated below:

Actual expenditure/ estimated expenditure (\$ million)	2015-16 (actual expenditure)	2016-17 (actual expenditure)	2017-18 (actual expenditure)	2018-19 (actual expenditure)	2019-20 (estimated expenditure)	2020-21 (estimated expenditure)
Secondary school	535.9	579.9	674.3	743.2	660.5	breakdown by school type is not available
Primary school	386.5	478.2	575.1	856.8	774.2	
Special school	49.1	46.7	58.5	85.3	66.0	
Total	971.5	1,104.8	1,307.9	1,685.3	1,500.7	1,564.0
Percentage change	-	+14%	+18%	+29%	-11%	+4%

As the EDB is still processing school applications submitted under the Major Repairs mechanism for 2020-21, a breakdown by school type for the financial year concerned is not yet available.

Director of Bureau: Secretary for Education

Question:

Please provide the following figures by District Council district and the total of all districts for the current year and the past 3 years:

- (1) the numbers of kindergartens, and the numbers of places and students involved;
- (2) the numbers of subsidised kindergartens, and the numbers of places and students involved;
- (3) the numbers of non-subsidised and non-profit-making kindergartens, and the numbers of places and students involved;
- (4) the numbers of profit-making kindergartens, and the numbers of places and students involved; and
- (5) the numbers of kindergarten-cum-child care centres, and the numbers of places and students involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 179)

Reply:

(1), (2), (3) and (4)

The numbers of kindergartens (KGs) in the territory, non-profit-making (NPM) KGs joining the Pre-primary Education Voucher Scheme (PEVS)/KG education scheme (KG Scheme), NPM KGs not joining PEVS/KG Scheme and private independent (PI) KGs, and their numbers of places and students by District Council district from the 2016/17 to 2019/20 school years are tabulated in Appendix 1.

(5)

The numbers of KG-cum-child care centres (KG-cum-CCCs) in the territory, and their numbers of places and students by District Council district from the 2016/17 to 2019/20 school years are tabulated in Appendix 2.

CONTROLLING OFFICER'S REPLY

EDB459

(Question Serial No. 3429)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Government has been enhancing social worker and guidance services by implementing progressively the policy of “one school social worker for each school” in public sector primary schools and enhancing the provision of school social workers for special schools. In this connection, please provide the following information for the 2018/19 to 2019/20 school years:

- (a) the total number of primary schools that have switched to the New Funding Mode; of these, the number of primary schools that have created a regular Assistant Social Work Officer post and those that receive the School Social Work Service Grant, and the expenditure involved;
- (b) the total number of primary schools that remain under the Old Funding Mode; of these, the number of primary schools receiving the Student Guidance Service Grant and those having Student Guidance Teachers or Student Guidance Officers, and the expenditure involved;
- (c) the total number of primary schools receiving the Consultation Service Grant and the expenditure involved; and
- (d) the number of special schools provided with 1, 1.5, 2, 2.5, 3 or more social workers and the expenditure involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 180)

Reply:

(a) to (c)

In the 2018/19 and 2019/20 school years, 223 and 309 public sector primary schools have respectively switched to the New Funding Mode and the expenditure involved is as follows:-

Student Guidance Services Provided	Regular Assistant Social Work Officer Post		School Social Work Service Grant		Consultation Service Grant		Top-up Student Guidance Service Grant	
	School Year	2018/19	2019/20	2018/19	2019/20	2018/19	2019/20	2018/19
Number of Schools	41	53	182	256	223	309	212	293
Total Expenditure (\$ million)	27.3	37.0 (Estimated Expenditure)	115.9	171.9 (Estimated Expenditure)	28.8	41.8 (Estimated Expenditure)	51.7	73.6 (Estimated Expenditure)

In the 2018/19 and 2019/20 school years, the number of primary schools that remain under the Old Funding Mode and the expenditure involved are as follows:-

Student Guidance Services Provided	Student Guidance Officers		Student Guidance Teachers		Student Guidance Service Grant		Top-up Student Guidance Service Grant	
	School Year	2018/19	2019/20	2018/19	2019/20	2018/19	2019/20	2018/19
Number of Schools	6	5	113	105	114	36	233	146
Total Expenditure (\$ million)	3.9	3.5 (Estimated Expenditure)	90.7	97.7 (Estimated Expenditure)	65.0	21.4 (Estimated Expenditure)	52.7	40.4 (Estimated Expenditure)

(d) The Education Bureau has enhanced the establishment of school social worker (SSW) in special schools in the 2018/19 school year. Special schools with a total capacity of 60 or fewer are provided with 1 SSW, and subsequently 0.5 SSW for every 30 students. In the 2018/19 school year, the actual expenditure on the provision of SSW for special schools was \$104 million. The estimated expenditure for the 2019/20 school year is about \$119 million. The number of special schools concerned with the number of SSW provided in the 2018/19 and 2019/20 school years is tabulated below:

Number of School Social Workers	Number of Special Schools ^{Note}	
	2018/19 School Year	2019/20 School Year
1	10	8
1.5	12	12
2	15	16
2.5	4	4
3 or more	18	19

Note: Specialist services for the Hospital School are provided by the hospitals concerned.

- End -

CONTROLLING OFFICER'S REPLY**EDB460****(Question Serial No. 3430)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

- (a) Please use the table below to provide information on kindergartens (KGs) that set up Parent-Teacher Associations (PTAs) in the past 5 school years, with a breakdown by 18 districts.

District	No. of KGs with PTAs	Percentage out of all the KGs in the district

- (b) Across the territory, the total number of KGs that have set up PTAs, their percentage out of all the KGs, and the total number of KGs.
- (c) Please provide the total amounts of Set Up Grant and Annual Grant provided for setting up PTAs in KGs in each of the past 5 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 181)Reply:

- (a) and (b)

Parents play an important role in young children's development. The Education Bureau (EDB) encourages kindergartens (KGs) to enhance communication with parents through multifaceted channels and to establish Parent-Teacher Associations (PTAs) to facilitate parent-school connection and build a partnership for co-operation. Whether KGs set up PTAs is unrelated to where they are situated. Hence, the EDB has not compiled relevant statistics by district. According to the information provided by schools, the number of KGs (including kindergarten-cum-child care centres) that set up PTAs in the past 5 school years is tabulated below:

School year	No. of KGs with PTAs	Percentage out of all KGs in the territory	No. of KGs in the territory
2018/19	343	33%	1 033
2017/18	326	32%	1 030
2016/17	323	32%	1 014
2015/16	318	32%	1 000
2014/15	324	33%	978

(c)

The EDB provides a Set Up Grant to the newly established PTAs and an Annual Grant to the existing PTAs for meeting recurrent expenditure. In the past 5 school years, the total amounts of Set Up Grant and Annual Grant provided for KGs (including kindergarten-cum-child care centres) are tabulated below:

School year	Set Up Grant (\$)	Annual Grant (\$)
2018/19	60,000	1,560,090
2017/18	75,000	1,466,556
2016/17	30,000	1,348,352
2015/16	35,000	1,292,508
2014/15	10,000	1,237,272

- End -

CONTROLLING OFFICER'S REPLY**EDB461****(Question Serial No. 3431)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (5) Special Education, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(a) What are the details of the provision of 5-tier grant for kindergartens (KGs) admitting non-Chinese speaking (NCS) students in the 2019/20 school year? What is the estimated expenditure of the aforesaid item in the 2019/20 school year?

(b) Please provide in the table below the numbers of NCS students admitted to subsidised KGs (excluding international schools) in the past 5 school years.

School year	No. of NCS students	No. of KGs	No. of KGs under the KG subsidy scheme
	0		
	1 to 4		
	5 to 7		
	8 to 10		
	11 to 15		
	16 to 20		
	21 to 25		
	26 to 30		
	31 to 35		
	36 or more		

(c) What are the details of the provision of additional resources under a 3-tier structure to public sector ordinary schools admitting NCS students with special educational needs (SEN) in the 2019/20 school year? What is the estimated expenditure of the aforesaid item in the 2019/20 school year?

(d) Please provide in the table below the numbers of NCS students with SEN admitted to public sector primary and secondary schools in the past 5 school years.

School year	No. of NCS students	No. of public sector secondary schools	No. of public sector primary schools
	0		
	1 to 5		
	6 to 9		
	10 to 15		
	16 to 20		
	21 to 25		
	26 to 30		
	31 to 35		
	36 or more		

(e) The Government stated earlier that funding would be given to secondary schools which admitted NCS students for supporting NCS students to learn the Chinese history. What are the details of the aforesaid policy? What is the estimated expenditure for the 2020/21 school year?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 182)

(a)

The kindergarten education scheme (Scheme) has been implemented starting from the 2017/18 school year. Kindergartens (KGs) joining the Scheme and admitting 8 or more non-Chinese speaking (NCS) students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. The Education Bureau (EDB) has, starting from the 2019/20 school year, provided a 5-tiered grant for KGs joining the Scheme according to the number of NCS students admitted, so that these KGs can render more appropriate support to their NCS students. A KG admitting 1 NCS student also receives the grant, and the grant rate for the highest tier is a double of that in the 2018/19 school year. Details of the 5-tiered grant for each eligible KG in the 2019/20 school year are set out as follows:-

Tier	No. of NCS students	Full-year grant rate for the 2019/20 school year
1	1 to 4	\$50,000
2	5 to 7	\$198,960
3	8 to 15	\$397,920
4	16 to 30	\$596,880
5	31 or more	\$795,840

The estimated expenditure is about \$110 million in the 2019/20 school year.

(b)

The numbers of local KGs in the past 5 years (2015/16 to 2019/20 school years) and the numbers of KGs under the Pre-primary Education Voucher Scheme (PEVS) from the 2015/16 to 2016/17 school years and under the Scheme from the 2017/18 to 2019/20 school years by number of NCS students ranging from “0”, “1 to 4”, “5 to 7”, “8 to 15”, “16 to 30” and “31 or more” are tabulated in Appendix.

(c)

To further support NCS students with special educational needs (SEN) to adapt to school life and make smooth transition through different learning stages, starting from the 2019/20 school year, the EDB has provided a recurrent cash grant known as the Grant for Supporting NCS Students with SEN (the Grant) for public sector ordinary primary and secondary schools admitting these students to employ teaching assistants to assist teachers in designing activities and teaching materials, procure translation services, or provide the students concerned with social and emotional management training, etc. The Grant is disbursed under a 3-tier structure according to the number of NCS students with SEN enrolled in a school, i.e. \$100,000 for a school enrolling 1 to 9 students concerned, \$200,000 for 10 to 25 students, and \$300,000 for 26 or more students per year. In subsequent school years, the grant rates will be adjusted annually according to the change in the Composite Consumer Price Index. In the 2019/20 school year, about 700 students studying in public sector ordinary primary and secondary schools benefit from the provision, which involves an estimated expenditure of around \$28.1 million.

(d)

Distribution of public sector ordinary primary and secondary schools admitting NCS students with SEN in the past 5 school years (2015/16 to 2019/20 school years) is as follows:-

Number of NCS students with SEN	Number of schools									
	2015/16		2016/17		2017/18		2018/19		2019/20	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
0	339	338	343	329	336	316	333	312	327	297
1 to 5	100	46	97	54	104	64	107	65	115	79
6 to 9	10	2	7	3	8	5	12	6	8	6
10 to 15	4	2	5	2	4	2	1	5	1	6
16 to 20	1	1	2	1	0	1	1	0	2	0
21 to 25	0	0	0	1	2	1	2	1	2	0
26 to 30	0	1	0	0	0	0	0	0	0	0
31 to 35	0	0	0	0	0	0	0	0	0	1
36 or more	0	0	0	0	0	0	0	0	0	0

(e)

To support NCS students to use Chinese in learning Chinese History at junior secondary level, the EDB provided a non-recurrent grant of \$50,000 in the 2018/19 and 2019/20 school years, totalling \$25 million, for each public sector secondary school, including government, aided (including special schools), caput and Direct Subsidy Scheme secondary schools which admit NCS students pursuing the local curriculum at junior secondary level. In accordance with their school context and development needs, schools may flexibly deploy the grant to support teachers in refining practices on teaching NCS students Chinese History and in conducting relevant learning activities. Regarding the ambit of and criteria for deploying the grant, please refer to the EDB Circular Memorandum No. 86/2019. As it is a non-recurrent grant, there is no relevant estimated expenditure in the 2020/21 school year.

**Numbers of local KGs from the 2015/16 to 2019/20 school years and
numbers of KGs under the PEVS from the 2015/16 to 2016/17 school years and
under the Scheme from the 2017/18 to 2019/20 school years
by number of NCS students ranging from
“0”, “1 to 4”, “5 to 7”, “8 to 15”, “16 to 30” and “31 or more”**

School year	No. of NCS students	No. of local KGs	No. of KGs under the PEVS/Scheme
2015/16	0	419	356
	1 to 4	234	204
	5 to 7	70	58
	8 to 15	70	51

CONTROLLING OFFICER'S REPLY**EDB462****(Question Serial No. 3432)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(1) Starting from the 2017/18 school year, the Government provides kindergartens (KGs) admitting 8 or more non-Chinese speaking students with an additional grant comparable to the recommended remuneration level of a kindergarten teacher. Would the Government inform this Council of the numbers of KGs provided with the grant in the past 3 school years from 2017/18 to 2019/20, their percentages against all subsidised KGs in the territory, and the expenditure involved?

(2) Using the tables below, please provide details regarding the participation in the kindergarten subsidy scheme:

Table 1:

Type of KG	Average subsidy at teachers' mid-point salary	Average number of students in each school	Average unit subsidy per student

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 183)

Reply:

(1) In the 2017/18 and 2018/19 school years, kindergartens joining the kindergarten (KG) education scheme (Scheme) and admitting 8 or more non-Chinese speaking (NCS) students were provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. In the 2017/18 school year, about 150 KGs received the additional grant, accounting for about 38% of some 390 Scheme-KGs that admitted NCS students. The expenditure involved was about \$54 million. As regards the 2018/19 school year, over 150 KGs received the additional grant, accounting for about 37% of some 410 Scheme-KGs that admitted NCS students. The expenditure involved was about \$57 million. The Education Bureau (EDB) has, starting from the 2019/20 school year, provided a 5-tiered grant for Scheme-KGs according to the number of NCS students admitted.

A KG admitting 1 NCS student also receives the grant, and the grant rate for the highest tier is a double of the previous level. As at January 2020, about 430 Scheme-KGs have admitted NCS students, and all of them have been provided with the grant. The estimated annual expenditure is about \$110 million. As the grant is calculated by EDB based on the student enrolment information of KGs, the number of KGs and the expenditure involved may vary during the school year due to updating of the enrolment information of NCS students by schools.

(2) The basic unit subsidy under the Scheme covers expenses on salaries for teaching and supporting staff and other operating costs. The salary portion for teaching staff (including principals) accounts for around 60% of the unit subsidy, which is calculated on the basis of the maximum point of the recommended salary range for principals and the mid-point of the recommended salary range for other teaching staff. Relevant figures for the 2019/20 school year are as follows:

2019/20 school year	
Mid-point salary of Class Teacher	\$31,660
Mid-point salary of Senior Teacher	\$39,270
Mid-point salary of Vice Principal	\$45,595
Maximum salary point of Principal II	\$59,540
Maximum salary point of Principal I	\$67,140

In the 2019/20 school year, the average numbers of students in half-day (HD), whole-day (WD) and long whole-day (LWD) KGs and the amounts of full-year unit subsidy per student are as follows:

2019/20 school year		
Class	Average number of students in each school	Unit subsidy per student
HD	163	\$35,760
WD	71	\$46,490
LWD	92	\$57,220

The numbers of Scheme-KGs, numbers of students and numbers of places by curriculum type and District Council district are tabulated at Appendixes 1, 2 and 3 respectively.

(3) In the 2019/20 school year, the numbers of KGs in the territory, numbers of students and numbers of places by curriculum type and District Council district are tabulated at Appendixes 4, 5 and 6 respectively.

Note:

1. Figures reflect the position as at September of the school year.
2. Figures on school places do not include vacant classrooms and vacant child care centre portions.
3. FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.

- End -

CONTROLLING OFFICER'S REPLY

EDB463

(Question Serial No. 3433)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government carries out repair and improvement works for schools every year. In this connection, please provide the following information in respect of primary, secondary and special schools for the 2016/17 to 2019/20 school years:

- (1) The actual and estimated expenditures on repair works in each school year, and the kinds of repairs involved;
- (2) The respective amounts of subvention granted through the annual Major Repairs exercise and the Emergency Repairs mechanism in each school year;
- (3) Under the existing mechanism, schools have to bear the cost of repair if the estimated project cost is under \$3,000 (in the case of primary and special schools)/\$8,000 (in the case of secondary schools). Does the project cost include wages of the workers providing the repair services?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 184)

Reply:

Over the years, the Education Bureau (EDB) has implemented various measures to enhance school facilities and improve teaching and learning environment, having regard to the circumstances and needs of individual schools. Among these measures, the EDB assists aided schools in handling relatively larger scale or more complicated repair and improvement works of school premises under the annual Major Repairs exercise, including appointing consultants and contractors to assist aided schools in handling repair works with an estimated project cost over \$3,000 for primary and special schools, or over \$8,000 for secondary schools; and carrying out emergency repair works of school facilities at the request of aided schools under the Emergency Repairs mechanism. The types of repair works include routine

and emergency repairs, improvement works for special rooms and outdoor playgrounds, and rewiring works. As regards Direct Subsidy Scheme schools, they may also submit applications under the annual Major Repairs mechanism if the estimated project cost of the repair works is over \$2 million. The estimated project cost normally includes labour and material costs. For 2020-21, we have reserved around \$1.56 billion as capital subventions for carrying out repair/improvement works of school premises under the annual Major Repairs and Emergency Repairs mechanism. For 2016-17 to 2019-20, the relevant actual expenditure/estimated expenditure is tabulated below:

Actual expenditure/ estimated expenditure (\$ million)	2016-17 (actual expenditure)	2017-18 (actual expenditure)	2018-19 (actual expenditure)	2019-20 (estimated expenditure)
Secondary school	579.9	674.3	743.2	660.5
Primary school	478.2	575.1	856.8	774.2
Special school	46.7	58.5	85.3	66.0
Total	1,104.8	1,307.9	1,685.3	1,500.7

Question:

As announced in the Education Bureau Circular No.8/2018, a Supply Teacher Grant will be provided for kindergartens with teachers attending training courses to employ supply teachers starting from the 2018/19 school year. In this connection, please provide the following information by school year based on the latest statistics from the Education Department (EDB):

- a. the number of Supply Teacher Grant applications received so far and the number of schools involved;
- b. the number of applications approved so far and the number of schools involved;
- c. the average number of days required to process an application (from receipt of application to disbursement of grant);
- d. the average amount of grant approved per case;
- e. the total amount of grant approved so far;
- f. the usual reasons for rejecting applications (if any); and
- g. whether the EDB has any plan to relax the application criteria so that schools with teachers attending single-day courses may also apply? If yes, please provide the implementation timetable and details. If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 185)

Reply:

Starting from the 2018/19 school year, the Education Bureau (EDB) provides kindergartens (KGs) joining the kindergarten education scheme (the Scheme) with a supply teacher grant to facilitate KGs in arranging teachers to attend specified recognised training courses provided by the EDB on catering for students with developmental needs and on supporting non-Chinese speaking (NCS) students. The information on the grant is set out as follows:

(a), (b), (d), (e) and (f)

In the 2018/19 school year, a total of 152 applications from 108 KGs were received by the EDB and all of them were approved. The total amount of grant approved was around \$610,000 (i.e. around \$4,000 per case). As for the 2019/20 school year, as at the end of February 2020, 57 applications from 52 KGs have been received. Among these applications, 42 have been approved, involving 38 KGs; while the remaining 15 applications are being processed. The total amount of grant approved is around \$150,000 (i.e. around \$3,600 per case) and no applications have been rejected.

(c)

For processing of applications, KGs are required to submit relevant information, including documents about the course attended by the teacher and the qualifications of the supply teacher. The grant will only be disbursed after the institution/course provider has confirmed that the teacher concerned has attended the course within the specified period and the KG has submitted the salary payment receipt signed by the supply teacher. Some KGs may apply for the grant as soon as they have been informed of a teacher's participation in a relevant course while others may do so after the teacher concerned has completed the course and the supply teacher has signed the salary payment receipt. It is therefore inappropriate for us to calculate the application processing time based on the time of receiving an application. In general, an approval letter will be issued once the information has been verified.

(g)

Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate KGs joining the Scheme in arranging teachers to attend specified recognised training courses on catering for students with developmental needs and on supporting NCS students. KGs may apply for the grant if a teacher has attended the specified recognised courses provided by the EDB for 3 or more consecutive days. On the other hand, an element for employing supply teachers to enable the release of teachers to attend training courses has been included in the basic unit subsidy. If the duration of the course is less than 3 consecutive days, KGs may deploy their own resources as appropriate to employ supply teachers. Besides, the teacher to pupil ratio has been enhanced from 1:15 (including the principal) to 1:11 (principal not included) under the Scheme. While KGs have the flexibility to maintain their usual arrangements for learning and teaching activities, they may flexibly deploy human resources to facilitate teachers' participation in various professional development activities. Given the above considerations, we have no plan to relax the eligibility criteria for provision of supply teacher grant to cover relevant courses that last for less than 3 days.

(Question Serial No. 3436)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information by school district for the past 5 school years:

- (1) the average class size of public sector primary schools in each district and the average class size of public sector primary schools in the territory;
- (2) the average class size of public sector secondary schools in each district and the average class size of public sector secondary schools in the territory;
- (3) the number of public sector primary schools in each district with an average Primary 1 class size of over 25 students, below 25 students and equal to 25 students; and
- (4) the estimated number of public sector secondary schools in each district to be allocated with additional Secondary 1 students in the 2019-20 school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 187)

Reply:

- (1) The average class size of public sector primary schools in each district and the average class size of public sector primary schools in the territory are tabulated at Appendix 1.
- (2) The average class size of public sector secondary schools in each district and the average class size of public sector secondary schools in the territory are tabulated at Appendix 2.

(3) The number of public sector primary schools in each district with average Primary 1 class size of over 25 students, below 25 students and equal to 25 students is tabulated at Appendix 3.

(4) According to the projection of Secondary 1 (S1) school-age population, the population of S1 students has started to rebound from the 2017/18 school year. To address the projected increase in the demand for S1 school places, the Education Bureau (EDB) and the sector have met and reached a consensus in October 2017 on the framework of direction and strategies for tackling the issue, i.e. adopting the established netting arrangements for Secondary School Places Allocation (SSPA) System, progressively reverting the number of students allocated per class to 34 upon the rebound of the S1 student population (“place reinstating”) as pledged by the sector prior to the implementation of the targeted relief measures, and increasing the number of S1 classes in the districts with a shortfall in school places even after adopting the netting arrangements and “place reinstating”. Regarding the arrangements for SSPA 2019, as agreed by EDB and the sector, the anticipated demand for S1 places would be coped with through the established netting arrangements and an across-the-board “place reinstating” by one school place and operating 35 additional S1 classes in North, Tai Po, Yuen Long and Sha Tin districts. The number of public sector secondary schools with “place reinstating” by one school place in the 2019/20 school year is tabulated at Appendix 4.

Average class size of public sector primary schools from the 2015/16 to 2019/20 school years

Question:

Regarding the operation of the Hong Kong Teachers' Centre (HKTC), please set out the projects for which funding applications were received, projects approved for funding, amount of funding approved and projects rejected (with reasons) by the HKTC in each of the past 5 years, with a breakdown by applicant body and funding level.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 189)

Reply:

The Hong Kong Teachers' Centre (HKTC) has, at present, more than 100 member organisations made up of different educational bodies. The daily operation of the HKTC is undertaken by the Advisory Management Committee, elected by all members, and its Standing Committee. The HKTC accepts applications for Activities Grant all year round, with its Standing Committee entrusted with evaluating applications received in accordance with the established mechanism.

Projects covered by applications submitted to the HKTC by educational bodies and the amounts of grant awarded in the past 5 financial years are tabulated below. No applications were denied.

2015-16 financial year

	Applicant body	Project	Amount of grant approved
1.	Chinese History Education Society	Educational Research Award Scheme Reports 2015/16	\$99,500
2.	Hong Kong Association of Deputy Principals	Conference on Curriculum Development and Teaching 2016	\$62,000
3.	Hong Kong Federation of Education Workers	Learn from the Past: Teacher Support in History Education (鑑古知今：支援教師推行歷史教育)	\$76,100
4.	Chief Executive's Award for Teaching Excellence Teachers Association	Programme on Enhancing the Learning and Teaching of Junior Secondary History through Design of Learning Activities (透過設計學習活動提升初中歷史科學與教計劃)	\$84,780
5.	Hong Kong Society for Education in Art Limited	Launch of Teaching Materials for "Giving Students Room for Creative Thinking" (「給學生創意思考的空間」教材發佈會)	\$14,400
Total:			\$336,780

2016-17 financial year

	Applicant body	Project	Amount of grant approved
1.	Hong Kong Putonghua Professionals Association	A Study of the Development and Inheritance of the Chinese Language through Oracle Bone Script (從甲骨文看中國語言文字的發展與傳承)	\$2,120
2.	The Graduate Association of Colleges of Education Limited	Companion Project 2016 (伴行計劃2016年度)	\$15,000
3.	Gifted Education Council	Educational Research Award Scheme Reports 2016/17	\$99,500
4.	Hong Kong Teachers' Association	Conference on Curriculum Development and Teaching 2017	\$62,000
5.	Hong Kong Federation of Education Workers	The Development of Hong Kong Society over the Past Two Decades (香港社會廿年來發展多面睇)	\$99,950
6.	The Hong Kong Association of Curriculum Development and Leadership	Use of Information Technology in Teaching and Learning (Series) (活用資訊科技於教與學(系列))	\$7,950
Total:			\$286,520

2017-18 financial year

	Applicant body	Project	Amount of grant approved
1.	Hong Kong Society for Education in Art Limited	Training courses for STEAM teacher in Hong Kong (香港STEAM教師培訓課程)	\$15,000
2.	Hong Kong Putonghua Professionals Association	A New Access to Putonghua Learning through Romanisation (全新普通話學習無障礙通道—全羅馬化拼音方案)	\$800
3.	The Chinese Language Society of Hong Kong Limited	Conference on Curriculum Development and Teaching 2018	\$54,000
4.	The Chinese University of Hong Kong Faculty/School of Education Alumni Association	Educational Research Award Scheme Reports 2017/18	\$99,500
Total:			\$169,300

2018-19 financial year

	Applicant body	Project	Amount of grant approved
1.	Hong Kong Federation of Education Workers	A Two-decade Chronicle of Key Educational Events in Hong Kong after Reunification (回歸廿年香港教育大事紀)	\$94,180
2.	Hong Kong Class Pastoral Association	Conference on Curriculum Development and Teaching 2019	\$69,000
3.	Creative Teachers Association (CTA) Limited	Educational Research Award Scheme Reports 2018/19	\$92,000
4.	Hong Kong Society for Education in Art Limited	Visual Arts Teacher Training Workshop (視藝教師培訓工作坊)	\$11,960
5.	Hong Kong Society for Education in Art Limited	Hong Kong Visual Arts Education Festival 2018 – Hand-made Picture Book Workshop (香港視覺藝術教育節2018—手工書工作坊)	\$13,930
6.	Hong Kong Gifted Education Teachers' Association	Celebration for the 30th Anniversary of the Hong Kong Teachers' Centre – Floor Curling Competition (香港教師中心三十周年慶典—地壺球比賽)	\$7,500
7.	Hong Kong Senior Education Workers Association Limited	Celebration for the 30th Anniversary of the Hong Kong Teachers' Centre – Chinese Ink Painting Competition and Exhibition (香港教師中心三十周年慶典—水墨畫比賽及展覽)	\$14,920
Total:			\$303,490

2019-20 financial year

	Applicant body	Project	Amount of grant approved
1.	Education Employees General Union	Celebration for the 30th Anniversary of the Hong Kong Teachers' Centre – Study Tour to Macao and Zhuhai: Enhanced Solidarity and Professional Capacity Among Teachers for Nurturing Future Pillars (教師中心三十周年慶典—加強教師團結、凝聚專業力量、培育未來棟樑：澳門珠海考察團)	\$84,800
2.	The Hong Kong Professional Development Association of the Chinese Language Education	Leadership Training and Curriculum Development Programme for Promoting Cross-curricular Chinese Language Learning (推動中國語文科跨課程語文學習的領導培訓與課程發展計劃)	\$53,900
3.	Hong Kong Senior Education Workers Association Limited	Celebration for the 30th Anniversary of the Hong Kong Teachers' Centre – Hong Kong Teachers' Centre Chorus Performance (慶祝教師中心30周年香港教師中心合唱團大匯演)	\$49,900
4.	Creative Teachers Association (CTA) Limited	Conference on Curriculum Development and Teaching 2020	\$56,950
5.	Hong Kong Creative Educators Organization	Educational Research Award Scheme Reports 2019/20	\$100,000
6.	Hong Kong Association of Careers Masters and Guidance Masters Limited	To Caretakers 2.0 (給守望者 2.0)	\$150,000
Total:			\$495,550

(Question Serial No. 3439)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- 1) Among the kindergartens (KGs) under the kindergarten education scheme (Scheme), how many need to pay market rent but are entitled to less subsidy under the Rental Subsidy Scheme as compared to the subsidy received under the Rent Reimbursement Scheme in the 2016/17 school year, and enjoy a grace period of up to 4 years? During the grace period, what is the number of KGs that opt for rental subsidy under “dual” caps at 50% of the market rent as assessed by the Rating and Valuation Department, or 15% of the basic half-day unit subsidy for all eligible students under the Scheme, whichever is lower?
- 2) In each of the past 5 school years, what is the expenditure incurred by the Education Bureau for subsidising KGs’ rental payment, and what are the average and highest monthly rents of KGs that need to pay market rent?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 190)

Reply:

- 1) In the past, the Education Bureau (EDB) provided rental subsidy for eligible non-profit-making (NPM) kindergartens (KGs) through the Non-profit-making Kindergarten Rent Reimbursement Scheme (Rent Reimbursement Scheme). Starting from the 2017/18 school year, the EDB has implemented the KG education scheme (Scheme) and provided rental subsidy for eligible KGs under the Scheme (Scheme-KGs). Among the Scheme-KGs, 30 need to pay market rent and are entitled to less subsidy than that under the Rent Reimbursement Scheme in the 2016/17 school year. These KGs may enjoy a grace period of up to 4 years starting from the 2017/18 school year to migrate to the new rental subsidy arrangements. From the 2017/18 to 2019/20 school years, none of these KGs opt for rental subsidy under “dual” caps at 50% of the market rent as assessed by the Rating and Valuation Department, or 15% of the basic half-day unit subsidy for all eligible students under the Scheme, whichever is lower.

- 2) The expenditure incurred by the EDB for subsidising eligible NPM KGs under the Rent Reimbursement Scheme and the rental payment of KGs paying market rent and receiving rental subsidy from 2015-16 to 2017-18 are as follows:

Year	Expenditure	Recognised monthly rent (Note 1) of KGs paying market rent and receiving rental subsidy (Note 2)	
		Average	Highest
2015-16	\$201 million	\$142,000	\$384,000
2016-17	\$215 million	\$152,000	\$408,000
2017-18 (Note 3)	\$92 million	\$156,000	\$408,000

The expenditure incurred by the EDB for providing rental subsidy for eligible Scheme-KGs and the rental information of KGs paying market rent and receiving rental subsidy in 2017-18 and 2018-19 are as follows. We do not have the related information of 2019-20 at this stage.

Year	Expenditure	Recognised monthly rent (Note 1) of KGs paying market rent and receiving rental subsidy (Note 2)	
		Average	Highest
2017-18 (Note 4)	\$196 million	\$148,000	\$640,000
2018-19	\$347 million	\$152,000	\$640,000

Notes:

- (1) Recognised rent refers to the market rent as assessed by the Rating and Valuation Department or the market rent of the premises under the Hong Kong Housing Authority/Hong Kong Housing Society/Government. The rent is rounded to the nearest thousand.
- (2) KGs paying market rent and receiving rental subsidy exclude estate KGs allocated with KG premises through the School Allocation Exercise of the EDB and former aided child care centres under the Social Welfare Department.
- (3) Reflecting the position from April to August 2017 before the implementation of the Scheme.
- (4) The Scheme was launched in the 2017/18 school year. As the school year of some Scheme-KGs starts in August, the figures of 2017-18 reflect the position from August 2017 to March 2018.

(Question Serial No. 3441)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Web-based School Administration and Management System (WebSAMS) provided by the Education Bureau (EDB), please inform this Committee of the following:

- (a) The rollout date of the latest version of WebSAMS;
- (b) The computer operating systems and web browsers supported by the latest version of WebSAMS; and
- (c) Are there plans to keep upgrading WebSAMS? If yes, when is the next upgrade due and what is the expenditure involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 192)

Reply:

- (a) WebSAMS is a web-based application system developed by the Education Bureau (EDB) to assist public sector and Direct Subsidy Scheme schools in their administration and management work. The latest version is WebSAMS 3.0, which was launched in 2014. New functions and modules are introduced regularly.
- (b) The operation of WebSAMS 3.0 requires at least Windows Server 2012 R2 and is compatible with workstation operating systems Windows 8.1 and Windows 10. For web browsers, WebSAMS supports mainly Internet Explorer 11 and Chrome.

- (c) The EDB has been continually upgrading and enhancing the functions of WebSAMS. Apart from regularly updating the hardware and system software to increase the data processing capacity, new functions and modules are introduced from time to time. Examples include upgrading Java to enable the adoption of new technologies by WebSAMS, providing full compatibility with Chrome, and enhancing the function of individual modules. In addition, to alleviate the workload of school personnel in managing and supporting the server of WebSAMS as well as strengthening system security, a pilot cloud project is launched to migrate the WebSAMS now under school-based management to a cloud platform. At present, around 220 schools have their systems migrated to the cloud platform. The effectiveness of the pilot project is under review and a timetable will be worked out for the remaining schools.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

The Government has been providing 12-year free education (i.e. Primary 1 to Secondary 6) for all special school students since the 2009/10 school year. It also undertakes to arrange the related conversion works for special schools.

- (1) What is the number of special schools whose related conversion works remain uncompleted? What are the reasons for the delay?
- (2) For uncompleted works, please indicate the project status, specifying, for example, whether the works are yet to commence, under design, in the tendering or construction stage, and when they are scheduled for completion.
- (3) In the school years from 2017/18 to 2019/20, what is the number of nurses, physiotherapists, occupational therapists, speech therapists and educational psychologists on the nursing and allied health staff establishment? What is the estimated number for the next school year? Please give the number of vacant posts and specify the ranks involved.
- (4) In the school years from 2017/18 to 2019/20, what is the number of nursing and allied health posts frozen on the establishment due to inadequate new recruits and encashed for hiring temporary staff? What are the expenditures involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 201)

Reply:

(1) and (2)

To cater for the implementation of the New Senior Secondary (NSS) academic structure and the “improvement measures on extension of years of study” in special schools, the Education Bureau (EDB) has been providing additional classrooms and/or related facilities for relevant schools by phases. Having regard to the actual situation and operational needs of individual schools and by liaising and discussing with the schools concerned, the EDB

has worked out the scopes of the improvement works and details of implementing the works projects. As at February 2020, a total of 18 improvement works projects for special schools have been completed, while another 23¹ are proceeding at different stages². The progress of relevant works projects is as follows:

Stage	Number of works projects
(1) Feasibility study	1
(2) Conceptual design	5
(3) Detailed design	7
(4) Tendering	3
(5) Construction and handover	7

The time taken to complete a works project depends on a basket of factors, including the scope of the works, whether it involves complicated issues such as lease modification, the progress of technical works and design, schools' views on the works arrangements and the allocation of resources, etc. The EDB and the works consultant will continue to maintain close liaison and communication with the schools concerned, and complete the remaining works projects as soon as practicable.

(3) and (4)

In the school years from 2017/18 to 2019/20, the establishment of school nurses, physiotherapists (PTs), occupational therapists (OTs), speech therapists (STs) and educational psychologists (EPs) in special schools is tabulated below. As the calculation of the specialist staff establishment is based on the actual number of classes being operated and the number of school places, we are unable to provide the relevant figures for the 2020/21 school year at this stage.

Rank of Specialist Staff	2017/18 School Year	2018/19 School Year	2019/20 School Year
School Nurse ^{Note1}	53	104	104
PT ^{Note2}	59	60	60
OT ^{Note3}	98	99	99
ST	155.5	159.5	160.5
EP	19	19	19

Notes:

1. The EDB has enhanced the establishment of school nurse in special schools in the 2018/19 school year. 1 additional school nurse is provided for schools for children with intellectual disability, schools for children with physical disability and the school for children with visual impairment cum intellectual disability. In addition, the provision of school nurses has been expanded to cover the school for children with visual impairment and the school for children with hearing impairment, so that these schools each have a school nurse to strengthen their support for students with care needs.

¹ 3 of the 23 works projects are capital works projects exceeding \$30 million, and 1 of them has been granted funding approval by the Finance Committee of the Legislative Council.

² In general, a school building project involves 6 stages, namely (1) feasibility study; (2) conceptual design; (3) detailed design; (4) tendering; (5) construction and handover; and (6) post-handover maintenance.

2. The ranks of PT include Senior PT, PTI and PTII.
3. The ranks of OT include Senior OT, OTI and OTII.

Special schools may opt to freeze some of their vacant specialist posts and encash for recruiting temporary staff or hiring related service. In the school years from 2017/18 to 2019/20, specialist vacancies mainly comprised PT and OT posts. The number of vacancies of all aforementioned specialist staff, the number of posts frozen and encashed for provision of service, and the expenditure involved are as follows:

	2017/18 School Year	2018/19 School Year	2019/20 School Year (Estimate)
Total number of specialist vacancies	84.4	89.1	91.7
Number of posts frozen and encashed for provision of service (expenditure involved)	62.4 (\$31 million)	69.4 (\$34 million)	65.5 (\$31 million)

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Education Bureau (EDB) has been installing air-conditioning systems for the 6 types of eligible facilities in public sector schools. It has also provided these schools with a recurrent Air-conditioning Grant to cover the daily expenses, including electricity charges and routine maintenance costs, incurred by the air-conditioning systems. Please provide the following information in respect of primary, secondary and special schools:

- (1) What is the respective number of schools in need of (1) installing and (2) replacing air-conditioning systems in the past and current school year, hence the number of air-conditioning systems and expenditure involved? What are the items covered by the grant, hence the ceiling of the grant for each school?
- (2) What is the quarterly expenditure incurred on the disbursement of the grant to schools?
- (3) The Government has replaced the former Noise Abatement Grant and Air-conditioning Grant for Schools for Physically Disabled/Severely Intellectually Disabled Children with the Air-conditioning Grant. How many schools are involved? How many of them are receiving a smaller amount of grant as a result? How will the difference be met?
- (4) To facilitate the planning of grant provision, the EDB verified each of the eligible facilities in schools last year. Please provide the number of schools without a "standard assembly hall", without a library and with fewer special rooms as compared to the number listed in the Schedule of Accommodation? How many of these schools are not provided with the relevant grant as a result?
- (5) Many schools with sub-standard teaching facilities do not have a standard student activity centre, and have to use the covered playground for organising student activities. How many schools are involved? Since covered playgrounds are not

covered within the ambit of the grant, in view of the special needs of schools in sub-standard premises, will the EDB consider installing air-conditioning systems in the covered playgrounds of the schools concerned and providing them with the relevant grant? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 207)

Reply:

(1) As at March 2020, the number of schools approved under the relevant programme to install, repair or replace air-conditioning systems is tabulated below:

Financial year	School type	No. of schools installing air-conditioning systems	No. of schools repairing or replacing air-conditioning systems
2018-19	Primary school	36	158
	Secondary school	48	147
	Special school	15	17
2019-20	Primary school	1	112
	Secondary school	2	108
	Special school	2	32

The estimated project costs for installing and repairing/replacing air-conditioning systems are around \$76 million and around \$290 million respectively, involving some 1 927 air-conditioning systems.

(2) The Air-conditioning Grant (AC Grant) disbursed to schools is calculated in accordance with the types and number of eligible rooms/facilities in a school. Whenever a school changes the use of its teaching facilities, carries out structural alteration or conversion works, or installs air-conditioning systems for non-air-conditioned eligible facilities in accordance with the prevailing mechanism during the school year, the amount of AC Grant will be adjusted accordingly. The quarterly expenditure incurred on the disbursement of the grant in the 2019/20 school year is not available at this stage as the school year has not yet come to a close. The overall estimated expenditure in the 2019/20 school year is around \$396 million. The actual expenditure in the 2018/19 school year was \$384 million.

(3) There are respectively 392, 455 and 59 public sector secondary, primary and special schools provided with the AC Grant in the 2019/20 school year. Disbursement of the Noise Abatement Grant (NAG) has ceased since the 2018/19 school year. In the 2017/18 school year, there were respectively 263, 268 and 30 public sector secondary, primary and special schools provided with the NAG, while 17 special schools were provided with the Air-conditioning Grant for Schools for Physically Disabled/Severely Intellectually Disabled Children. The former NAG was calculated on the basis of the number of classrooms and special rooms installed with air-conditioning systems under the Noise Abatement

Programme. Schools for children with physical disability and schools for children with severe intellectual disability were also provided with air-conditioning systems in the past for their classrooms, special rooms and student activity centres irrespective of noise level, as well as the Air-conditioning Grant for Schools for Physically Disabled/Severely Intellectually Disabled Children, in view of the special needs of these children. It should be noted that all eligible rooms/facilities in a public sector school (including but not limited to classrooms and special rooms with air-conditioning systems installed under the Noise Abatement Programme) are counted for the calculation of the AC Grant. The rates of the AC Grant for different types of rooms/facilities adopt the corresponding rates of the NAG for the same types of rooms/facilities. In this connection, the amount of the AC Grant for eligible rooms/facilities, in principle, should not be less than the amount of NAG or Air-conditioning Grant for Schools for Physically Disabled/Severely Intellectually Disabled Children provided for eligible rooms/facilities. We also believe that the AC Grant should be sufficient to cover the related expenses.

(4) and (5)

Starting from the 2018/19 school year, the Education Bureau (EDB) has provided air-conditioning systems for eligible rooms/facilities in public sector schools as well as a recurrent AC Grant for aided schools to cover the related daily expenses, including electricity charges and routine maintenance costs. For schools without certain eligible rooms/facilities, they surely do not have to pay for the related daily air-conditioning expenses. Nor will they be provided with the relevant grant.

The premises of existing public sector schools were built in different periods in accordance with the building standards at the time of construction. Therefore, facilities in the premises vary. Over the years, building standards have also been changing in response to the development in classroom learning, extra-curricular activities as well as guidance and counselling work. The EDB has implemented various measures, including the School Improvement Programme, minor improvement projects and the annual major repair exercise, to enhance school facilities by erecting or converting classrooms and special rooms, repairing and replacing facilities, etc. We will keep the existing policy under constant review and, as far as resources are available, assist schools in improving their facilities so as to provide a better learning environment for students. On the other hand, schools can change the use of school facilities to cater for the needs of their students and the overall development of the school. For example, to meet the demand for school places, some schools have converted their student activity centres into temporary classrooms or special rooms which are used for organising student activities after school, thus achieving better efficiency and flexibility in the use of existing space. For schools without an assembly hall, some have converted their covered playgrounds into venues for student activities and assemblies. Such facilities, including covered playgrounds, are eligible for the provision of air-conditioning systems as well as the AC Grant under the new initiative.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the policy to promote reading, please provide the following information for the recent 5 years:

(a) The schemes and measures that the Education Bureau (EDB) rolls out in schools each year to promote reading among students, as well as the amount of grants, number of schools and students benefitting from such schemes and measures, and use of grants, with a breakdown by school type (i.e. kindergartens, secondary schools, primary schools and special schools);

(b) Is there any mechanism for evaluating on a regular basis the effectiveness of schools' efforts to promote reading among students? If yes, what are the details? If no, what are the reasons?

(c) With regard to teacher-librarians, (i) the number of serving teacher-librarians (by academic qualification and average length of service); (ii) the number of entrants; (iii) the average number of teaching hours per week; (iv) the median salary; and (v) the average number of working hours on administrative duties per week, with a breakdown by school type (i.e. primary schools and secondary schools);

(d) With regard to the development of school libraries, please tabulate the number of curriculum development visits, school visits and focus group interviews conducted by EDB each year, as well as the findings and the evaluation of efforts to promote reading;

(e) To ensure that teacher-librarians have sufficient room to promote reading, is there a specified ratio of promotion of reading to other duties in terms of teaching hours? If yes, what is the ratio? If no, what are the reasons?

(f) Are there any monitoring measures to ensure that teacher-librarians are not overburdened with teaching duties? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 208)

Reply:

(a)

“Reading to Learn” has been actively promoted as a Key Task by the Education Bureau (EDB) since the curriculum reform in 2001. The EDB has provided schools with resources (e.g. various grants for procuring books or multi-media/online reading materials under the Operating Expenses Block Grant/Expanded Operating Expenses Block Grant) and encouraged them to flexibly organise a wide variety of reading activities that tie in with the school curriculum to foster a reading culture and to nurture students’ reading interest and habit from a young age and further enhance their reading and learning abilities.

Starting from the 2018/19 school year, public sector primary and secondary schools (including special schools) are also provided with the recurrent Promotion of Reading Grant and this involves a recurrent expenditure of around \$50 million. Subject to the number of approved classes, the amounts of the Grant are in the range of \$20,000 to \$40,000-odd per primary school, \$50,000 to \$70,000-odd per secondary school, and \$30,000-odd per special school in the 2019/20 school year. Schools may use the Grant to organise different types of school-based reading activities to create a favourable environment where students love and enjoy reading, thereby further improving their reading and learning abilities. Under the principle of school-based management, schools should set appropriate goals and formulate suitable strategies based on their actual situation to make good use of the Grant to enhance students’ learning effectiveness. Schools should also conduct regular reviews to evaluate the effectiveness of the use of resources according to the goals set. In the 2018/19 school year, the EDB implemented the ‘Pilot Scheme on the Promotion of Reading Grant for Kindergartens’, which attracted the participation of 250 kindergartens (KGs). In light of the effective outcomes of the Pilot Scheme, the EDB has, starting from the 2019/20 school year, provided the recurrent ‘Promotion of Reading Grant for Kindergartens’ to all KGs joining the Kindergarten Education Scheme, which amounted to around 750 in total. Each KG receives a minimum of \$10,000, and KGs with student enrolment of over 80 and 300 receive \$15,000 and \$20,000 respectively. The grant rates are subject to annual adjustment according to the movement of the Composite Consumer Price Index. The relevant recurrent expenditure exceeds \$10 million.

As revealed by the information collected by the EDB from school visits, focus group interviews and regular contacts, schools in general agree that the Grant has a positive effect on the promotion of reading as it helps enrich their library collection and widen students’ scope of reading, and it also provides schools with necessary resources to organise activities that enhance students’ interest in reading.

The EDB has been adopting various enhanced measures to provide further support for reading in KGs, primary and secondary schools. Examples include inviting celebrities and authors to share their reading experience and recommend books to students; collaborating with the publishing sector and professional organisations to organise large-scale reading promotion activities such as the Joyful Reading Carnival 2019 to encourage parent-child reading and create a reading atmosphere through different reading-related activities; producing a series of promotional programmes that feature schools' good practices in the promotion of reading; and providing schools with recommended booklists under different reading themes such as Chinese history and culture, healthy living, moral education and STEM (science, technology, engineering and mathematics) education. These large-scale reading promotion activities have been very well received among stakeholders, including students and parents. It had been the EDB's plan to organise another Joyful Reading Carnival in early 2020, but the event had to be cancelled because of epidemic. Moreover, there are reading award schemes and competitions for certain curricula and subjects to provide more diversified opportunities to promote reading among students.

The EDB has been supporting the promotion of reading in schools through various measures. The promotion of reading is a regular task in curriculum development and the expenses on this have been subsumed under the recurrent expenditure of the EDB. Separate figures for individual items are not available.

(b) and (d)

To implement school self-evaluation, which comprises planning, implementation and evaluation, and to facilitate schools' sustainable development, the EDB has been encouraging schools to strategically formulate for their major concerns (e.g. promotion of reading) School Development Plans and Annual School Plans with relevant goals and evaluation criteria, review effectiveness in a timely manner and seek improvement. The evaluation data concerned are intended for schools' self-evaluation only and need not be submitted to the EDB. At the same time, the EDB will continue to maintain good communication with schools and gain an understanding of their progress in various aspects including library development and promotion of reading through External School Review, curriculum development visits, focus group interviews, etc. Professional advice will be offered by the EDB staff when necessary. Moreover, the EDB will regularly organise sharing sessions, workshops, seminars, etc. on promotion of reading and good practices to enhance teachers' knowledge of the strategies for promoting reading.

(c)

In the recent 5 school years (i.e. 2015/16 to 2019/20 school years), there are respectively 448, 449, 451, 460 and 460 in-service teacher-librarians in primary schools, and 371, 367, 374, 360 and 357 in-service teacher-librarians in secondary schools. About 95% of teacher-librarians possess a bachelor's degree or higher qualifications. The proportions are about the same for primary and secondary schools. On average, less than 1% of newly-joined teachers take up the responsibility as teacher-librarians in primary or secondary schools. About 70% of the teacher-librarians in secondary schools teach 16 or fewer lessons (including library lessons) in each cycle, whereas about 30% of teacher-librarians in primary schools teach 16 or fewer lessons (including library lessons) in each cycle. The EDB does not have statistics on the average length of service, mid-point salary, and time spent on administrative duties each week of teacher-librarians.

(e) and (f)

Teacher-librarians are primarily responsible for planning and managing the daily operation of school libraries, and supporting schools and different subject panels in the promotion of reading. In general, teacher-librarians also take up library lessons, the number and content of which depend on students' needs and the school context. Library lessons are designed to tie in with the objectives of different subject curricula and hence enhance the effectiveness of learning and teaching. If necessary, schools could discuss with teacher-librarians teaching duties that are on top of their library lessons. However, such arrangements should not interfere with the teacher-librarians' role in performing library-related duties. As regards the deployment of human resources and job distribution in individual schools, schools may make their own arrangements having regard to their circumstances and development strategies, provided that promoting students' learning is put in the first place. Through different channels, the EDB will continue to strengthen school leaders' understanding of school library work, so that teacher-librarians can effectively discharge their duties and the school library can better perform its function as a learning centre. We also encourage subject panel heads and teachers to establish good communication with teacher-librarians so as to strengthen collaboration in the promotion of reading. The EDB will keep in view whether teacher-librarians are given sufficient room to carry out their duties effectively. We will consider drawing up more specific guidelines on the responsibilities of teacher-librarians when necessary.

- End -

EDB472

(Question Serial No. 3457)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

There has been a progressive rebound of Secondary 1 (S1) student population. In this regard, please provide information for the past 5 years.

- (a) For the implementation of stabilisation measures to address demographic changes, please set out separately for each measure the additional resources involved, number of schools affected, number of students and/or school places affected and the effectiveness of the policies;
- (b) In the form of a table, please show the changes in S1 student population in each district and student population in the territory, and the projected demographic changes in each district and in the territory in the coming 3 years;
- (c) Regarding the “place reinstating” arrangement for the reduction of allocation class size by “2-1-1” or “1-1-1” introduced in early years, will the Bureau effect reinstatement on a district basis in light of the actual demographic changes in each district? If yes, what are the policy details? If no, what are the reasons? and
- (d) Given a varying rate of rebound in population in different districts and an across-the-board “place reinstating” arrangement, what government measures are there to offer assistance to schools with under-enrolment and prevent schools from competing for students viciously?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 209)

Reply:

(a) Starting from the 2013/14 school year, the Education Bureau (EDB) has implemented a basket of targeted relief measures to help sustain the development of schools, stabilise the teaching force and maintain the quality of education in order to minimise the impact of the decline in student population on the school sector. These measures include:

- Through the relaxation of the “not less than 3 Secondary 1 (S1) classes” requirement, schools with 2 approved S1 classes are accepted as not necessary to apply for any school development option. Schools could operate 2 S1 classes if they admit a minimum of 26 S1 students. In other words, the average class size will then be 13 students;
- Schools operating only 1 S1 class can apply for school development option in order to continue their operation;
- Schools operating 2 or fewer S1 classes can participate in the next Secondary School Places Allocation (SSPA) cycle with a cap of 3 S1 classes;
- On the premise of the number of students in each S1 class reinstating to the then level (i.e. 36 students per class including the quota for 2 repeaters) after the transient decline of S1 student population, schools adopted the mode of “2-1-1” or “1-1-1” under a “district-/school-based approach to reduce the number of students allocated to each S1 class” from 34 to 30 or 31 students per class progressively in 3 school years from 2013/14 to 2015/16; and
- In the 3 school years from 2013/14 to 2015/16, the retention period of surplus regular teachers arising from S1 class reduction was extended from 1 year to 3 years.

To further stabilise the teaching force, the EDB further announced in 2017 that aided secondary schools with surplus teachers arising from reduction of S1 classes in the school years from 2013/14 to 2017/18, if necessary, were allowed to apply for extending the retention period of the surplus teachers concerned up to the 2018/19 school year. To alleviate the impact of changes in student population on the school system in individual districts, the Government has subsequently decided to further extend the retention period of the surplus teachers concerned up to 2021/22 school year.

From SSPA 2015 to 2019, adjustments to the number of S1 classes in public sector secondary schools in response to changes in S1 population are set out below:

SSPA Cycle	2015	2016	2017	2018	2019
Eventual downward adjustment to the number of classes (-)	10	16	2	2	0
Eventual upward adjustment to the number of classes (+)	0	1	10	26	22

Take the allocation of S1 places in 2019 as an example. In response to an overall increase in S1 student population over 2018, the total number of S1 classes across the territory increased by 22. 6 schools that were granted approval to operate only 2 S1 classes in the 2018/19 school year are able to offer 3 S1 classes in the 2019/20 school year because of sufficient student enrolment. No schools were required to downward adjust the number of S1 classes due to under-enrolment.

During the transitional period following the decline in S1 student population, the relief measures mentioned above have contributed to the overall stability of public sector secondary schools. The year-on-year changes in the total number of S1 classes have been insignificant. For example, the S1 student population in public sector secondary schools registered a drop of 4.4% from 45 653 in the 2014/15 school year to 43 648 in the 2015/16 school year, while there was a decrease of only 17 S1 classes in the 2015/16 school year (including a net reduction of 7 S1 classes in schools adopting the cyclic symmetrical class structure in the 2015/16 school year), representing a mere reduction of 1.1%. In addition, extending the retention period for surplus teachers is also instrumental in stabilising the teaching force.

Since the expenditures involved in the implementation of targeted relief measures have been subsumed under the EDB's overall expenditure, a relevant breakdown is not available.

(b) School-age population aged 12 is considered appropriate for attending S1. The number of S1 students attending public sector schools in the past 5 years by district is tabulated at Appendix 1. For the coming 3 years (from the 2020/21 to 2022/23 school years), the projected school-age population aged 12 residing in Hong Kong by district is provided at Appendix 2.

(c) & (d) At present, the provision of public sector secondary school places is planned on a territory-wide basis. Since student population and schools are not evenly distributed among districts, it is not possible to achieve a complete balance between the demand and supply of S1 places in each district in each SSPA cycle. Despite a progressive rebound of the overall S1 student population, individual secondary schools may be affected by the demand for school places in certain districts or the choice of parents. Under the SSPA System, the netting of school places from neighbouring areas will be arranged as and when necessary to meet the demand of individual districts with insufficient school places and to offer more choices to students in districts with a smaller number of schools.

According to the information available, S1 student population has started to rebound from the 2017/18 school year and it is anticipated that the overall S1 student population will gradually rise and reach the peak in the 2024/25 school year. To address the projected increase in the demand for S1 school places, the EDB and the sector (including representatives of the Joint Committee of the Secondary School Councils and the Secondary School Heads Association of 18 Districts) met and reached a consensus in October 2017 on the framework of direction and strategies for tackling the issue, i.e. adopting the established netting arrangements for SSPA, progressively reverting the number of students allocated per class to 34 upon the rebound of the S1 student population ("place reinstating") as pledged by the sector prior to the implementation of the targeted relief measures, and increasing the number of S1 classes according to established practices in districts with a shortfall in school places even after adopting the netting arrangements and "place reinstating", so as to ensure a sufficient supply of S1 places every year to meet the demand.

As far as "place reinstating" is concerned, allowing schools in certain districts to withhold "place reinstating" will affect the established arrangements under SSPA. Besides, the requirements governing the number of places for allocation per class in Central Allocation are across-the-board, and the Government provides recurrent subvention to public sector schools mainly based on the number of classes. Thus, it would be unfair and confusing to

parents if the number of places for allocation per class for different schools participating in SSPA may be varied.

The EDB has been closely monitoring the supply and demand of public sector school places. In fact, our estimation of the decline in S1 student population differs little from the situation when the sector discussed and worked out the targeted relief measures. The targeted relief measures previously implemented (including lowering the threshold for approving S1 classes to 25 students, allowing schools operating 2 or less S1 classes to participate in the next SSPA cycle with a cap of 3 S1 classes, and exempting schools operating 2 S1 classes from applying for school development option) will continue. The above measures will continue to take effect in the next few years to contribute further to stabilising the teaching force and facilitating the sustainable development of secondary schools. The EDB will continue to review the projected demand for school places having regard to the latest data available before the commencement of annual SSPA exercise and hold discussions with the sector on the SSPA arrangements to be adopted for the cycle concerned so as to minimise the impact of changes in student population on the sector. Meanwhile, we will continue to explore the needs of other coping measures to support individual secondary schools affected when necessary. Moreover, schools have put in place their school-based admission mechanism to handle admission applications submitted by students from other schools and the operation has been smooth so far. The EDB will monitor the latest situation and provide support when necessary.

**Number of S1 students attending public sector secondary schools by district
from the 2015/16 to 2019/20 school years**

District	No. of S1 students

Kwai Tsing	4 000	4 400	4 300
Islands	1 500	1 500	1 800
All districts	63 300	65 400	67 900

Notes: (1) Figures in the above table are compiled with reference to the 2016-based Population Projections released by the Census and Statistics Department (C&SD) in September 2017 and the “Projections of Population Distribution 2019 – 2028” released by the Planning Department in July 2019.

(2) School-age population aged 12 is considered appropriate for secondary education (i.e. S1).

(3) Figures refer to the projected number of local children (i.e. Hong Kong usual residents) aged 12 residing in the districts concerned. The projected figures should not be taken as the projected number of students attending schools in the districts. The latter would be affected by the prevailing distribution of school places, demand for school places and parental choices. Students under or over the age of 12 may also enroll at S1.

(4) The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures.

(5) Figures are rounded to the nearest hundred and may not add up to the respective total due to rounding.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the recent 5 years:

- (a) in the form of a table, the details on allocation of vacant school premises and greenfield sites for international school development (including school address, site area, name of organisation, rental, and estimated or current provision of school places);
- (b) details of government loans provided for international schools (including amount, tenor and interest rate of the loan and name of organisation); and
- (c) quite a number of international schools currently offer school places on the condition that the applicants purchase such high-value derivative products as debentures or nomination rights. Does the Education Bureau have any monitoring system or measures in place to ensure that no organisation allocated vacant school premises or greenfield sites for international school development can profiteer through the above means? If yes, what are the measures and their effectiveness? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 210)

Reply:

- (a) The Government is committed to developing a vibrant international school system through various measures mainly to meet the demand for international school places from non-local families living in Hong Kong or coming to Hong Kong for work or investment.

The Education Bureau (EDB) has allocated a total of 2 vacant school premises and 3 greenfield sites for international school development through the School Allocation Exercises completed in 2015. These 5 new international schools have gradually commenced operation from the 2016/17 school year and will provide a total of some 4 300 places progressively.

Details of the above-mentioned international schools, including their name and address, nature and site area of the allocated premises/sites, and type of rent payable for the premises/sites allocated are provided at the **Annex**. Same as other private schools, international schools may use their classrooms flexibly and adjust the provision of classes and places yearly according to school-based needs. While schools are requested to provide figures on their number of school places for EDB's reference, we will not, as a standard practice, disclose the number of places available at individual schools to avoid any misinterpretation of such information.

(b) Under the existing policy, the Government may, upon application by the non-profit-making international school operator who has been allocated a site for international school development, offer capital assistance in the form of interest-free loan for the construction of school buildings. The loan, repayable in 10 years, is capped at 100% of the cost for constructing a standard-design public-sector school accommodating the same number of students. The loan application has to be approved by the Finance Committee of the Legislative Council. No such applications have been approved in the recent 5 years.

(c) As private schools (including international schools) operate on a self-financing and market-driven basis and enjoy autonomy in its operation, EDB has been adopting a stance that it does not micro-manage individual private schools. In order to meet the financial needs in relation to learning and teaching, school development, improvement of school facilities and infrastructure projects, etc., some private schools may arrange loans or implement fund-raising schemes (such as debentures and nomination rights) to support the long term development of the schools or large-scale school improvement projects. As the fund-raising schemes of private schools are becoming more diverse in recent years, EDB will improve the regulatory measures. While we are mindful of the legal requirements in improving the regulatory measures, we would also take into account the unique role of private schools in the provision of education services to local and non-local students in Hong Kong, and that they operate on a self-financing and market-driven basis. We will continue to communicate with the private school sector in order to have a better understanding of their situation, developmental needs and concerns in working out the details of the regulatory measures.

**Name and address of international schools allocated
vacant school premises or greenfield sites,
nature and site area of allocated premises/sites,
and type of rent payable for the premises/sites allocated through
the School Allocation Exercises completed in 2015**

Name of school	Address	Nature	Site area (m²) (approximate)	Type of rent^{Note1}
American School Hong Kong	6 Ma Chung Road, Tai Po, New Territories	Vacant	5 770	Nominal
The Harbour School	Ap Lei Chau Estate Phase I, Ap Lei Chau, Hong Kong	Vacant	1 200	Nominal
French International School	28 Tong Yin Street, Tseung Kwan O, New Territories	Greenfield	8 200	NA ^{Note2}
Malvern College Hong Kong	3 Fo Chun Road, Tai Po, New Territories	Greenfield	6 147	NA ^{Note2}
Shrewsbury School	10 Shek Kok Road, Tseung Kwan O, New Territories	Greenfield	6 028	NA ^{Note2}

^{Note 1} According to the tenancy agreement, the rent cannot be disclosed without the consent of the tenant. Hence, only the type of rent is provided in the table.

^{Note 2} The site concerned is made available to the school operator by means of private treaty grant.

(Question Serial No. 3459)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Government inform this Council of:

(1) The list of non-governmental organisations and/or academic institutions that receive funding from the Education Bureau (EDB) to provide academic support programmes for all students from kindergarten to secondary levels from the 2015/16 to 2019/20 school years; and the details of each batch of funding including the programmes, funding amount, period covered, target group, total number of participating students, and number of participating non-Chinese speaking (NCS) students;

(2) The list of non-governmental organisations or academic institutions that receive funding from the EDB to specifically provide programmes to support NCS students in learning Chinese Language and other subjects and to provide integration programmes for NCS children from the 2015/16 to 2019/20 school years; and the details of each batch of funding including the programmes, funding amount, period covered, target group and number of participating NCS students; and

(3) How does the EDB monitor the effectiveness of these programmes? Does the EDB have a list of indicators to evaluate the programmes? If yes, please provide the list of indicators for Chinese Language support programmes. If no, please state the reasons. How could the progress of students be tracked? Has the EDB provided standard assessment tools? If yes, please provide the assessment tools. If no, please state the reasons.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 211)

Reply:

(1)

Apart from school education, the Education Bureau (EDB) provides various support programmes for students, such as the Induction Programmes for newly-arrived children and young people, educational support programmes for non-Chinese speaking (NCS) students,

School-based After-school Learning and Support Programmes for needy students, and Life Education Activity Programmes for enhancing primary students' awareness of health issues, etc. The funding for organising/running these programmes may take the form of recurrent subvention to educational bodies, subsidies to organisers on application basis or fees to service providers commissioned through competitive procurement/tendering process. Owing to the huge number of items, we do not have ready information on all the non-governmental organisations (NGOs)/academic institutions that have received funding from the EDB for providing support programmes, the details, amount of funding, durations and target participants of these programmes, and the total numbers of students and NCS students participating in these programmes from the 2015/16 to 2019/20 school years.

(2) and (3)

The programmes funded by the EDB specifically for supporting NCS students' learning of Chinese and their integration into community from the 2015/16 to 2019/20 school years, with details including the target participants, numbers of NCS students participating in the programmes and the amount involved are set out in the table below. As the support programmes vary in terms of nature and target participants, the EDB evaluates and monitors the programmes by various means, such as observing the immediate responses of participants, conducting questionnaire surveys, holding meetings with service providers and requesting service providers to submit reports. The EDB has always attached importance to the quality of support programmes and will continue to review the programmes to ensure they meet the needs of participants.

Director of Bureau: Secretary for Education

Question:

At present, there are about 850 ordinary public sector schools in the territory and only about 200 of them were built according to the prevailing standards. Please provide the following information for the 2015/16 to 2019/20 school years, under the categories of primary school, secondary school and special school:

- (1) What is the number of schools that were not built according to the prevailing standards in each of the school years?
- (2) What is the respective number of matchbox-style school premises located in public housing estates and non-public housing estates in the territory?
- (3) The Bureau implemented 5 improvement measures for the matchbox-style school premises located in public housing estates in 2017. Why were the special schools that also operated in matchbox-style school premises in public housing estates excluded from the improvement measures? What is the number of these special schools involved? What plans are in place to upgrade the premises of these special schools to the prevailing standards?
- (4) Apart from the schools operating in matchbox-style school premises, what plans or measures are in place to assist schools not built according to the prevailing standards in upgrading their school premises to conform to the current standards?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 213)

Reply:

(1) At present, there are about 850 ordinary public sector primary and secondary schools in the territory. Their premises were built in different periods in accordance with the building standards at the time of construction and facilities in the premises vary. While the standards have been changing over the years, existing school premises in operation are required to comply with prevailing statutory requirements. As at March 2020, about 200 of them were built according to prevailing standards. The public sector school premises newly built from 2015-16 to 2019-20 and the construction of public sector schools scheduled for 2020-21 comply with the prevailing standards.

(2), (3) and (4) Among the schools built in different periods, some are cuboidal-shaped premises constructed between the 1960s and 1980 in public housing estates for primary school use. These school premises are often referred to as “matchbox-style school premises”. Following the reprovisioning of 3 public sector primary schools previously operating in “matchbox-style school premises” to vacant school premises (VSP)/new school premises in 2018 and 2019, there are at present 25 public sector primary schools operating in such premises. Among these 25 schools, 5 have been allocated new school premises or VSP through the school allocation mechanism for reprovisioning or expansion.

We understand that the community is concerned about the conditions of facilities at old school premises. Over the years, the Education Bureau (EDB) has put in place various measures to enhance school facilities, having regard to the needs of schools, for improving the teaching and learning environment. These measures mainly include the completed School Improvement Programme (SIP), the existing reprovisioning programme, redevelopment/extension programme, as well as the annual major repairs and emergency repairs mechanism.

The SIP implemented in 5 phases between 1994 and 2006 aimed at progressively improving the teaching and learning environment of schools so as to provide additional space and facilities for teaching, out-of-class activities and supporting services for both teachers and students. Phases 1 to 3 of the SIP focused on upgrading the schools’ teaching, learning and administration facilities. The last two phases further expanded the scope of works, aiming to upgrade the schools’ facilities to the prevailing standards where technically feasible. The scope of improvement works for individual schools under the SIP varied according to the schools’ vision and mission, characteristics, the facilities in place and site conditions. Over 700 public sector schools (including special schools) built according to standards prevailing at the time of construction have their school facilities enhanced under the SIP as far as technically feasible. Some of them even upgraded their facilities to the prevailing standards. Moreover, to cater for the implementation of the New Senior Secondary Academic Structure and the “improvement measures to extend years of study” in special schools, the EDB is providing additional classrooms and/or related facilities for the relevant schools by phases.

For reprovisioning of existing schools to new school premises on reserved school sites or suitable VSP, allocation is generally done through open, fair and competitive bidding under School Allocation Exercises (SAE). The EDB conducts SAEs for reprovisioning purpose from time to time. All eligible school sponsoring bodies (SSBs) in the territory can submit applications. Applications are assessed by the School Allocation Committee (comprising both official and non-official members), with quality of education being the prime consideration. Other factors, including the operation track records of the SSBs concerned, the proposed school plans after relocation, the conditions of the existing school premises, etc. will also be considered. Schools may take into account their school-based considerations and consider if they would like to submit application for reprovisioning under the prevailing competitive-based school allocation mechanism. In the recent 5 years (2015 to 2019), we have allocated through SAEs a total of 8 new school premises to be built on reserved school sites/VSP for the purpose of reprovisioning/physical extension of existing schools. The EDB will continue to actively identify suitable sites and VSP for reprovisioning and expedite school allocation under the established arrangements, with a view to improving the teaching and learning environment of existing schools.

As regards in-situ redevelopment/extension projects, interested schools would indicate their intention for redevelopment/extension to the EDB. As always, we will carefully consider each proposal for in-situ redevelopment/extension according to a set of eligibility criteria, including the age and physical condition of the school premises concerned, technical feasibility of in-situ redevelopment/extension, quality of education service, sustainability of the school concerned, availability of suitable premises for decanting (if applicable), and the supply and demand of school places in the district concerned. We also need to take into account the manpower available and foreseeable commitment on school construction, as well as the capacity of the construction sector as anticipated on the basis of past experience. Whether additional projects will be taken up will also depend on the progress of the school building projects in hand, and the funding availability under the Public Works Programme in recent years.

Furthermore, based on the consensus reached with the sector earlier on, the EDB carried out improvement works for the primary schools operating in “matchbox-style school premises” as mentioned above, with a focus on addressing the common problems arising from the unique architectural design of these premises. The improvement works have commenced progressively since the summer of 2017 and were completed in 2019. In addition, under this programme, our works consultants have explored technically feasible means for more flexible use of existing space, such as minor internal conversion and installation of moveable partition walls to turn existing facilities into temporary special rooms. We are progressively making arrangements for relevant works to commence in accordance with the schools’ indications and needs, with a view to improving the teaching and learning environment within the constraints of space and existing building design.

Taking into account the experience gained from the above improvement works programme for “matchbox-style school premises” and views of different stakeholders, the EDB has reserved an additional \$1 billion under the Capital Works Reserve Fund for the implementation of a time-limited minor works programme for some 600 aided schools operating in premises built according to standards prevailing at the time of construction. Minor conversion works, such as converting or altering internal partitions/spaces, will be carried out to enhance schools’ flexibility in using existing spaces of their premises, thereby improving the teaching environment. Individual schools may submit conversion proposals to the EDB in 2019 and 2020 in light of the conditions of their premises and their school-based needs.

Application for the 2019 works programme was closed in June 2019, and the application results were announced in end-March 2020. We will invite the schools concerned to submit their applications for the 2020 works programme in May 2020.

Meanwhile, the EDB will continue to enhance school facilities and improve the teaching and learning environment in accordance with the schools’ needs through the annual major repairs and emergency repairs mechanism. In this regard, the Government has reserved a non-recurrent subvention of about \$1.56 billion in 2020-21, an increase of around 4% over that of 2019-20, for major repairs (applicable to both aided schools and Direct Subsidy Scheme schools) and emergency repairs (applicable to aided schools only).

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please provide the following information in respect of primary, secondary and special schools for the school years from 2015/16 to 2019/20:

- (1) How many school premises are housing 2 different schools at once? Please provide the numbers and the names of the schools concerned, as well as the ages and sizes of the school premises.
- (2) How many schools are using 2 or more school premises at once? Please provide the numbers and the names of the schools concerned, as well as the ages and sizes of the school premises.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 214)

Reply:

According to Section 3(1) of the Education Ordinance, school premises include school recreation rooms, residential facilities, playing fields and playing grounds, and any other places used for the purposes of a school. Some schools are now sharing/used to share school premises with other schools (e.g. sharing different parts of the same building, playing fields, swimming pools, passages or playing grounds), or are using/used more than 1 school premises for various reasons, such as design of school premises, operational needs or other historical factors. The Education Bureau does not compile statistics on the information requested.

Question:

Please provide the respective number and percentage of staff members employed under the Old Remuneration Package, New Remuneration Package and Short-term Contract (with contract period) in each member institution of the Vocational Training Council by major staff category (teaching staff, technical and supporting staff, professional and executive staff, and other supporting staff) and terms of appointment between the 2015/16 and 2019/20 academic years. What are the figures expected for the 2020/21 academic year?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 217)

Reply:

The member institutions under the Vocational Training Council (VTC) share resources in many aspects, and depending on the operational needs, teaching staff may be deployed to different operation units to best utilise their expertise. Hence, the VTC is unable to provide breakdowns of the number and percentage of staff members in different member institutions. Between the 2015/16 and 2019/20 academic years, the total number of staff in major staff categories (teaching staff and administrative and supporting staff) employed by the VTC under the New Remuneration Package, Old Remuneration Package and Short-term Contract and their respective percentages (as compared with the total number of staff) are as follows –

Academic Year	Staff Category	Number of Staff Employed under			Total Number of Staff
		Old Remuneration Package	New Remuneration Package	Short-term Contract ^(Note)	
2015/16	Teaching Staff	757 (12.9%)	1 626 (27.6%)	509 (8.6%)	5 883
	Administrative and Supporting Staff	1 118 (19.0%)	1 498 (25.5%)	375 (6.4%)	
2016/17	Teaching Staff	706 (11.9%)	1 666 (28.1%)	483 (8.2%)	5 921
	Administrative and Supporting Staff	1 069 (18.1%)	1 626 (27.5%)	371 (6.3%)	
2017/18	Teaching Staff	610 (10.5%)	1 680 (28.8%)	471 (8.1%)	5 830
	Administrative and Supporting Staff	992 (17.0%)	1 674 (28.7%)	403 (6.9%)	
2018/19	Teaching Staff	542 (9.5%)	1 648 (28.8%)	470 (8.2%)	5 726
	Administrative and Supporting Staff	945 (16.5%)	1 758 (30.7%)	363 (6.3%)	
2019/20	Teaching Staff	478 (8.4%)	1 697 (29.9%)	440 (7.8%)	5 667
	Administrative and Supporting Staff	879 (15.5%)	1 825 (32.2%)	348 (6.1%)	

Note: More than 70% of the contracts are for one academic year.

The total number of staff in the 2020/21 academic year is expected to be comparable to that of the 2019/20 academic year.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (1) Are member institutions of the Vocational Training Council (VTC) following a set of common standards in respect of staff appointment and dismissal, benefits and codes of conduct? If yes, please set out the relevant standards.
- (2) Please describe the process by which the VTC formulates human resource management policies for its member institutions. Will it consult its employees and staff unions?
- (3) At present, what are the number of contract teaching staff employed by the VTC, their percentage share of the total number of teaching staff, and the average monthly salary and length of service of the VTC's teaching staff?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 220)

Reply:

- (1) The human resource management system and policies of the Vocational Training Council (VTC), covering such matters as appointment of staff, remuneration and benefits, manpower planning, performance appraisal, and manpower development, etc., are founded on the principles of fairness, openness, and impartiality in accordance with the current legislative requirements and in the light of the VTC's operational and developmental needs. These criteria are applicable to all member institutions of the VTC. Staff remuneration and benefits are determined based on ranks and related terms of appointment, such as the Old Remuneration Package, New Remuneration Package, or Short-term Contract. The terms of appointment for staff of the same rank employed under the same remuneration package are identical.
- (2) When formulating human resource management policies, the VTC will take into account its operational and developmental needs, financial position, and other relevant

factors. The policies will be deliberated and approved through the established procedures, which generally include reviewing all relevant factors, drawing up policy directions and implementation details, submitting recommendations for the consideration, discussion and approval of relevant approving officers or committees (e.g. the Administration Committee and the Council of the VTC). Throughout the process, the VTC will listen to employees' views through different communication platforms (e.g. focus groups). Individual employees and staff unions can participate in the process.

- (3) In the 2019/20 academic year, there are 1 264 contract teaching staff employed by the VTC under the New Remuneration Package, representing 58.1% of the total number of teaching staff (excluding short-term contract staff).

The VTC determines the pay ranges of teaching staff based on their ranks. In the 2019/20 academic year, the average monthly salary of teaching staff of all ranks (excluding short-term contract staff) is \$54,500. The average length of service in the VTC of all teaching staff (excluding short-term contract staff) is 13 years.

Area of school premises within public housing estates under the Hong Kong Housing Authority/Hong Kong Housing Society refers to the internal floor area of the school premises, and is indicated by (#) in the table above.

* Works for the projects have been completed. Since the account finalisation of the projects are still underway, the respective project costs provided in the above table are the approved project estimate.

@ Works for the projects have been completed and the accounts have been finalised. The respective project costs are the actual total expenditure of the projects.

[^] Figures refer to the total approved project estimate as at end of February 2020.

- (2) The commencement date of operation of the above time-limited schools and their class structure in the 2019/20 school year are set out in the table below:

Name of school	Commencement date of operation	Approved no. of classes						
		P1	P2	P3	P4	P5	P6	Total
Christian & Missionary Alliance Sun Kei Primary School (Ping Shek)	September 2015	0	7	9	5	3	0	24
The Mission Covenant Church Holm Glad No. 2 Primary School	September 2015	0	4	6	3	4	3	20
C. C. C. Fong Yun Wah Primary School	September 2015	0	4	6	5	3	0	18
NTWJWA Christian Remembrance of Grace Primary School	September 2018	5	5	0	0	1	1	12
The ELCHK Faith Lutheran School#	September 2018	6	4	4	6	6	4	30

Note: Figures reflect the position as at September 2019.

- # The ELCHK Faith Lutheran School was allocated the school premises at 221 Nam Cheong Street for time-limited expansion. The time-limited section of the school started operation in the 2018/19 school year. The figures provided reflect the position of the entire school.

The EDB conducts Student Enrolment Survey annually to collect from schools data about individual students. Schools are aware of and consent to EDB's use of the data collected for statistical, planning, research or other education-related purposes. Given such pre-determined purposes, and the fact that the data are provided by schools and the disclosure of information about the number of students in individual schools might create a labelling effect, we have been adopting a cautious approach and adhering to the established practice of not disclosing information about the number of students in individual schools.

- (3) Under the integrated education policy, all schools have the obligation to admit students with special educational needs (SEN) and provide support services to them according to their needs. In the 2019/20 school year, around 27 320 students with SEN have been admitted to 455 public sector ordinary primary schools. Each primary school admits around 60 students with SEN on average. The percentage share of students with SEN among the total number of students admitted to public sector ordinary primary schools is around 9.1%. With regard to the support for students with SEN, the focus is on providing appropriate assistance to schools in accordance with their individual needs. Comparing the distribution of students with SEN by district and school net has no substantial meaning as far as allocation and provision of resources are concerned. As we mainly maintain student information by grade level and SEN type, we are unable to provide the relevant figures by school net.

- (4) To avoid unnecessary misconception and possible labelling on individual schools, we have been adopting a cautious approach and adhering to the established practice of not disclosing information about the number of students receiving the Comprehensive Social Security Assistance and the number of students receiving full grant or half grant under student financial assistance schemes in individual schools.

Question:

Please give a breakdown of the number of places, estimated intakes, actual intakes and dropouts, as well as the unit costs and tuition fees of the publicly-funded programmes offered by the Vocational Training Council by institution, programme and year of study over the past 5 years (2015/16 to 2019/20 academic years).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 222)

Reply:

The number of planned places for new intakes and actual intakes of full-time subsidised programmes offered by the Vocational Training Council (VTC) from the 2015/16 to 2019/20 academic years are as follows:-

		2015/16 Academic Year		2016/17 Academic Year		2017/18 Academic Year		2018/19 Academic Year		2019/20 Academic Year	
		Planned Places	Intakes	Planned Places	Intakes	Planned Places	Intakes	Planned Places	Intakes	Planned Places	Intakes
Hong Kong Institute of Vocational Education/ Hong Kong Design Institute/Youth College/ International Culinary Institute	Higher Diploma	9 330	10 763	9 300	10 800	9 300	9 289	9 300	9 439	9 300	8 735
	Diploma of Foundation Studies	2 940	4 086	2 940	3 750	3 210	4 178	3 300	4 113	3 300	4 174
	Diploma of Vocational Education	3 958	4 240	3 930	4 458	3 700	3 799	3 640	3 910	3 710	3 430
Hotel and Tourism Institute/Chinese Culinary Institute/International Culinary Institute	Diploma/Certificate	1 227	968	978	945	1 240	1 016	1 142	1 031	1 185	1 025
Total		17 455	20 057	17 148	19 953	17 450	18 282	17 382	18 493	17 495	17 364

The number of dropouts among new intakes of subvented full-time programmes offered by the VTC from the 2015/16 to 2019/20 academic years is as follows –

		2015/16 Academic Year	2016/17 Academic Year	2017/18 Academic Year	2018/19 Academic Year	2019/20 Academic Year
Hong Kong Institute of Vocational Education/ Hong Kong Design Institute/Youth College/ International Culinary Institute	Higher Diploma	1 508	1 563	1 390	1 358	Not Applicable (Note)
	Diploma of Foundation Studies	238	274	305	305	
	Diploma of Vocational Education	1 038	1 076	1 099	1 202	
Hotel and Tourism Institute/Chinese Culinary Institute/International Culinary Institute	Diploma/ Certificate	153	168	215	198	
Total		2 937	3 081	3 009	3 063	

Note: As the 2019/20 academic year has is still ongoing, relevant statistics are not available.

The average cost of subvented full-time programme places from the 2015/16 to 2019/20 academic years is as follows –

Academic Year	Average Cost (\$)
2015/16	86,800
2016/17	87,800
2017/18	92,600
2018/19	98,400
2019/20 (Revised estimate)	102,100

The tuition fee of subvented full-time programmes from the 2015/16 to 2019/20 academic years is as follows –

	2015/16 to 2019/20 Academic Years (\$)
Higher Diploma	30,800 to 31,570
Diploma of Foundation Studies	20,500
Diploma of Vocational Education	20,500*
Diploma/Certificate	2,900 to 16,700

* Tuition fees for Diploma of Vocational Education apply to Secondary 6 graduates who enrol in a 1-year programme and are waived for students who enrol in a 3-year programme upon completion of Secondary 3.

(Question Serial No. 3542)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) The Bureau has provided public sector and Direct Subsidy Scheme (DSS) primary, secondary and special schools with additional resources starting from the 2019/20 school year "to strengthen the administrative support for schools and their management committees with a view to strengthening school-based management and at the same time reducing the administrative work of teachers and principals so that they may focus on teaching and have more time to take care of the development of students". Please inform this Committee of the detailed plan for the provision of additional resources, including the policy objectives, implementation schedule, estimated expenditure, amount of subsidy for each school, way of disbursement, related conditions and restrictions, number of school beneficiaries, administrative costs and number of newly created posts by post title.

(2) Currently, how many public sector and DSS primary, secondary and special schools in the territory are without an incorporated management committee (IMC)? Please provide the number and a name list by school type, and give the reasons for not having an IMC.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 223)

Reply:

(1) Starting from the 2019/20 school year, the Government has provided all public sector schools (including special schools) and schools under the Direct Subsidy Scheme (DSS) with additional resources to strengthen the administrative support for schools and their management committees. About 1 000 schools have benefitted from the initiative, and the additional expenditure involved is around \$570 million each year.

The Education Bureau (EDB) has implemented the “One Executive Officer for Each School” policy in public sector schools and DSS schools starting from the 2019/20 school year. These schools are provided with resources for hiring additional administrative manpower. The increased administrative manpower has helped reduce the administrative work of teachers and principals so that they could focus more on teaching and taking care of students’ development, enabling schools to review their school-based administrative arrangements and requirements, streamline administrative procedures, and strengthen school administrative support and efficacy, thereby enhancing the quality of school management. Aided schools (including special schools) may opt to create a regular School Executive Officer (School ExO) post or receive the School Executive Officer Grant (SEOG). The amount of the SEOG is benchmarked against the mid-point salary of a civil service Executive Officer II and subject to annual adjustment according to the mid-point salary of civil service Executive Officer II. The SEOG is disbursed to government and aided schools by two instalments in September and April every school year. As for caput and DSS schools, the relevant expenses are included in the calculation of the Fee Subsidy for schools and incorporated into the DSS unit subsidy rate respectively.

Schools are required to recruit at least one full-time School ExO with a local bachelor’s degree (or equivalent), regardless of whether they choose to create a regular School ExO post or receive the SEOG. Schools receiving the SEOG may procure school administration-related service from service provider(s) which should include the provision of at least one full-time school-stationed School ExO with a recognised degree. It is estimated that a total of around 1 000 School ExO posts can be provided in this regard.

Besides, the EDB has provided recurrent subvention for the above schools to support the operation of their management committees, such as organising meetings and election of school managers, and strengthening training for school managers/members of management committees. In the 2019/20 school year, the subsidy for each public sector school is \$50,000 per year.

(2) As at 2 March 2020, a total of 834 aided schools have set up their incorporated management committee (IMC), and 7 aided schools are without an IMC. There are specific reasons for these aided schools not having an IMC. The EDB will not disclose such school list to avoid creating a labelling effect on individual schools. The EDB will continue to maintain close contact with schools and the relevant parties to provide appropriate support. The requirement for setting up an IMC is not applicable to government schools, while DSS and caput schools may opt to set up an IMC or not.

- End -

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- 1) Please provide, by school type and funding mode, the number of schools admitting NCS students ranging from “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” to “91 or above” and the total number of the schools concerned in the recent 5 school years, and list out the amount of additional funding received by each school in relation to the number of NCS students admitted.
- 2) Regarding the additional funding provided according to the number of students, the Office of the Ombudsman mentioned that the difference of only 1 student admitted could mean a difference of 16 times in the additional funding provided. Please provide the number of schools that admitted 9 and 10 NCS students in the past 5 school years.
- 3) The Education Bureau (EDB) indicated that “while it is more objective to set the funding tiers according to the number of NCS students admitted, it is inevitable to set dividing lines. Regardless of the levels at which the dividing lines are set, the difference of only 1 student will affect schools’ eligibility and the funding amount involved”. However, the fact that “the difference of only 1 student admitted could mean a difference of 16 times” has greater impact on schools admitting a relatively small number of NCS students than on those admitting a relatively large number of NCS students. Has EDB made any assessment on this? If so, what is the situation? Will there be special measures for schools admitting a relatively small number of NCS students so as to reduce the impact on them?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 224)

Reply:

- 1) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum (hereinafter referred to as "ordinary schools") and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. As regards ordinary schools admitting a relatively small number of NCS students (i.e. 1 to 9 NCS students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. The number of ordinary primary and secondary schools provided with the above-mentioned funding (with breakdown by school funding mode and number of NCS students ranging from "1 to 9", "10 to 25", "26 to 50", "51 to 75", "76 to 90" to "91 or above") and the amount of the additional funding from the 2015/16 to 2019/20 school years are tabulated at Annex.

Besides, starting from the 2014/15 school year, special schools admitting 6 to 9 NCS students and offering an ordinary school curriculum, and special schools admitting 6 or more NCS students and only offering an adapted curriculum are provided with an additional funding of \$0.65 million. The funding model for special schools admitting 10 or more NCS students and offering an ordinary school curriculum is the same as that for ordinary schools mentioned above. Special schools admitting a relatively small number of NCS students (i.e. 1 to 5 NCS students) are also provided with an additional funding of \$50,000 on a need basis to offer after-school support programmes in learning Chinese. From the 2015/16 to 2019/20 school years, the number of special schools admitting 6 or more NCS students and offering an ordinary school curriculum is 6, 6, 5, 5 and 5 respectively; the number of special schools admitting 6 or more NCS students and only offering an adapted curriculum is 19, 18, 20, 20 and 20 respectively. As regards special schools admitting 1 to 5 NCS students, the number of the schools concerned is 24, 26, 26, 25 and 27 respectively, among which 9, 14, 16, 16 and 15 (provisional) have been provided with the above-mentioned additional funding.

2) and 3) As regards the education support provided for NCS students, since the relevant measures are based on the learning needs of NCS students who are arranged in groups/classes according to their different progress and Chinese proficiency, the adoption of a tiered funding model can meet the operational needs of schools. EDB compiles statistics on schools provided with the additional funding based on the funding tiers, but does not compile statistics on the number of these schools based on a specific number of NCS students admitted, and hence the number of schools admitting 9 and 10 NCS students in the past 5 years is not available. The number of ordinary schools provided with different amounts of the additional funding, by the existing additional funding tier, in the past 5 years is tabulated at Annex.

We have been collecting stakeholders' views on the additional funding model through various means so as to further enhance the measure. To enhance the support for NCS students in learning Chinese and create an inclusive learning environment in schools, EDB will, starting from the 2020/21 school year, provide a new two-tiered subsidy for all schools admitting a relatively small number of NCS students (1 to 5 NCS students for ordinary schools and special schools, and 6 to 9 NCS students for ordinary schools respectively) and increase the amount of the additional funding from currently \$50,000 to \$0.15 million or \$0.3 million. It is estimated that about 400 schools will benefit from the measure in the 2020/21 school year, and the expenditure involved will be about \$68.7 million. The amount of the additional funding provided to schools admitting NCS students will also be adjusted based on the year-on-year movement of the Composite Consumer Price Index and/or the annual rates of the Civil Service Pay Adjustment.

**Number of ordinary primary and secondary schools provided with the additional funding
(by school funding mode and number of non-Chinese speaking (NCS) students ranging from
“1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or above”)
and the amount of the additional funding from the 2015/16 to 2019/20 school years**

Notes:

1. Figures include public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum, but not special schools.
2. The number of schools for the 2019/20 school year are provisional figures.
3. In the past 5 years, there were schools that admitted a relatively small number of NCS students (i.e. 1 to 9 NCS students) and did not submit funding applications to EDB, and hence these schools were not provided with the additional funding.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3544)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the provision of Life-wide Learning Grant to public sector primary, secondary and special schools, please provide the number of schools receiving the grant, number of beneficiary students, amount of grant for each school, eligibility criteria for the grant, administrative costs incurred and number of posts created in association with the provision of the grant, with a breakdown by types of primary, secondary and special schools. Please also give a detailed account on the utilisation and effectiveness of the grant.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 225)

Reply:

Starting from the 2019/20 school year, the Education Bureau (EDB) has provided public sector schools and Direct Subsidy Scheme (DSS) schools with a recurrent Life-wide Learning Grant to support schools to take forward, on the present foundation, life-wide learning with enhanced efforts and organise more out-of-classroom experiential learning activities in various curriculum areas such as the humanities, STEM education, physical and aesthetic development, and moral and civic education. The Grant comprises a school-based component and a class-based component. For the 2019/20 school year, the school-based provision for each public sector school is \$150,000; the class-based provision is calculated based on the number of approved classes at the per class rates of \$42,000 and \$25,000 for secondary and primary schools respectively. As for DSS schools, the provision of the Grant will be subsumed in the DSS unit subsidy rates. For example, a primary school with 24 classes will receive \$750,000, and a secondary school with 24 classes will receive around \$1.16 million. We have informed schools, through an EDB circular, of the implementation details of the Grant, which is applicable to all students of public sector schools and DSS schools. As the Grant has just been disbursed to schools in the current school year, schools are unable to provide the number of beneficiary students at this stage. The administrative costs incurred and number of posts involved are subsumed

under the EDB's establishment and operational expenses, and cannot be separately identified.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the respective number of schools under the Learning Support Grant, the Intensive Remedial Teaching Programme and the Integrated Education Programme, and total amount of subvention in the past 5 school years. Please also provide details of each measure, including criteria and arrangements for disbursement of grant and the ceiling of grant. Under prevailing policies, is there a ceiling on the number of students with special educational needs that may be admitted to each public sector school? If yes, what is the ceiling? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 226)

Reply:

To help public sector ordinary primary and secondary schools support students with special educational needs (SEN), the Education Bureau (EDB), on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. In the 2018/19 school year and before, ordinary schools were provided with additional resources under various funding modes to support students with SEN. For instance, some schools opted for the Learning Support Grant (LSG), some primary schools implemented the Intensive Remedial Teaching Programme (IRTP), some schools implemented the Integrated Education (IE) Programme, and some primary schools adopted a Mixed Mode of implementing IRTP while receiving the LSG. Generally speaking, LSG is calculated based on the number of students with SEN and academic low achievers (applicable to primary schools) and the tier of support these students require. Schools may use LSG for employment of additional teachers/teaching assistants and procurement of services to render school-based support services for the students concerned. A ceiling has been set on LSG. Schools should pool and deploy the grant and other school resources flexibly and holistically to render appropriate support for students with SEN according to their individual conditions and needs. Starting from the 2017/18 school year, LSG covers students with mental illness so that schools can have additional resources to enhance the support for these students. Schools implementing IRTP were provided with additional teachers according to

the number of students with low academic achievement, intellectual disability (ID) and specific learning difficulties, with a view to providing intensive remedial support for these students. For schools implementing IE Programme, they were provided with additional teachers/learning support assistants and recurrent grant according to the number of students with ID, autism spectrum disorders, physical disability, visual impairment and hearing impairment, so as to support the students concerned through the Whole School Approach.

The number of schools adopting LSG, IRTP and IE Programme and the expenditure involved in the past 4 years (from the 2015/16 to 2018/19 school years) are set out at Appendix, which covers schools adopting Mixed Mode and schools adopting Migration Mode (i.e. adopting the Mixed Mode and migrating to full adoption of LSG within 6 years). The ceiling of LSG for schools adopting Mixed Mode and Migration Mode was \$350,000 and \$600,000 respectively.

To further enhance the effectiveness of IE, the EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace the IRTP and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reaches the specific threshold. With the implementation of the above enhanced LSG, schools have a more stable teaching force and additional resources for flexible deployment to support the implementation of IE. Targets of the enhanced LSG are the same as those in the past, i.e. students with different types of SEN and academic low achievers (applicable to primary schools). In the 2019/20 school year, the revised estimated expenditure (including expenditure on additional teaching posts) on provision of LSG for all public sector ordinary schools (455 primary schools and 389 secondary schools) is about \$1.4 billion.

The Government adopts a dual-track mode in implementing special education. The EDB will, subject to the assessment and recommendations of specialists and the consent of parents, refer students with more severe or multiple disabilities to special schools for intensive support services, while other students with SEN will attend ordinary schools. Under the Disability Discrimination Ordinance, all educational institutions should provide equal education opportunities for eligible students, including students with SEN. All public sector ordinary schools have the obligation to admit students with SEN and no admission ceiling should be set in this regard.

Details of Learning Support Grant (LSG), Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme, with number of schools and the expenditure involved from the 2015/16 to 2018/19 school years ^(Note 1 & 2)

Measure	School year	No. of public sector ordinary schools		Ceiling of grant ^(Note 3) (\$)	Expenditure (\$ million)
		Primary	Secondary		
LSG	2015/16	211	382	1,547,000	500.1
	2016/17	212	382	1,584,000	539.0
	2017/18	213	381	1,614,000	589.6
	2018/19	217	381	1,652,000	646.3
IRTP	2015/16	243	Not applicable	Not applicable	196.2
	2016/17	242	Not applicable	Not applicable	202.3
	2017/18	241	Not applicable	Not applicable	207.2
	2018/19	239	Not applicable	Not applicable	214.5
IE Programme	2015/16	25	8	Not applicable	17.5
	2016/17	25	8	Not applicable	18.1
	2017/18	25	8	Not applicable	18.6
	2018/19	25	8	Not applicable	19.7

Notes:

- Starting from the 2017/18 school year, LSG has been provided to schools implementing IRTP or IE Programme and having students with mental illness. The expenditure on LSG tabulated above covers these schools as well.
- The number of schools implementing IRTP tabulated above includes schools adopting Mixed Mode or Migration Mode and concurrently implementing IE Programme.
- Figures on the ceiling of grant are rounded to the nearest thousand.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (8) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

The Chief Executive, Mrs Carrie Lam, has set up task forces to review 8 key areas of education. Please set out in a table the establishment dates, progress of review, scope of review, report issuance dates (or expected dates of issuance), as well as memberships and operating fees of the 8 task forces.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 227)

Reply:

The establishment dates, progress of review, scope of review, report issuance dates (or expected dates of issuance) and memberships of the task forces on 8 key areas of education are at **Annex**. The Government provides secretariat support for these task forces and the civil service and departmental expenses involved have been subsumed under the establishment and general departmental expenses of the Education Bureau (EDB) and other departments concerned, and cannot be separately identified. Apart from the civil service and departmental expenses, there are no other operation costs.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Regarding the implementation of the “one school social worker for each school” policy in public sector primary schools, please provide the number of public sector primary schools with school-based registered graduate social workers and the percentage these schools represent in the total number of public sector primary schools; the total number of public sector primary schools; the average monthly salary, average length of service and entitled benefits of these school-based registered graduate social workers; the supply staff arrangements applicable to them and the annual expenditure on the implementation of the “one school social worker for each school” policy from the 2018/19 school year to present.

(2) Has the Administration looked into why the target of “one school social worker for each school” has not been achieved in all public sector primary schools? If yes, what are the problems? Are there any measures to tackle these problems?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 228)

Reply:

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. The new measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources so that each public sector primary school is served by at least one school-based registered graduate social worker with professional qualifications to further enhance the overall quality of guidance service. For schools without Student Guidance Teachers (SGTs), the Education Bureau (EDB) will provide a three-year transitional period for them to switch to the new funding mode before the 2021/22 school year. In case schools are not able to switch to the new funding mode after the three-year transitional period owing to the need for more time to handle personnel matters, including retaining their serving student guidance personnel (SGP) due to special needs, they may discuss with the EDB separately.

In the 2018/19 and 2019/20 school years, 223 (i.e. about 50%) and 309 (i.e. about 70%) public sector primary schools have switched to the new funding mode respectively. The total expenditure and estimated total expenditure on provision of student guidance service under the old and new funding modes are \$436 million and \$487 million respectively in the two school years.

Schools that adopt the new funding mode may choose to create a regular Assistant Social Work Officer (ASWO) post on the approved staff establishment. The salary of the ASWO employed by schools is pegged to that of the civil service post, i.e. point 16 to point 33 on Master Pay Scale, and is subject to the annual civil service pay adjustment. The terms of appointment, benefits and supply staff arrangement are the same as specialists paid by the Salaries Grant in schools. Schools that choose to employ a school-based social worker using the School Social Work Service Grant are advised to make reference to the above pay scale and clearly specify in the contract the salary and terms of appointment upon mutual agreement.

According to the findings of questionnaire surveys conducted by the EDB, 328 and 373 schools have employed registered graduate social workers in the 2018/19 and 2019/20 school years respectively, accounting for about 72% and 82% of all public sector primary schools in Hong Kong (456 and 455 in total). Detailed information on these social workers has not been collected.

The EDB will continue to collect data and views by such means as questionnaire surveys, school visits and meetings with the education sector to review the mode of collaboration between SGP/social workers and SGTs, and will maintain communication with stakeholders and heed their views and suggestions on the best way to provide social work and guidance services for students and render effective support to them.

Question:

Starting from the 2018/19 school year, the Education Bureau has further enhanced the establishment of school nurses in special schools. Please provide the following figures under the categories of primary schools, secondary schools and special schools, and give a breakdown by school type:

- (1) the number of school nurses in the territory in the past 5 school years;
- (2) the number of nurses on school establishment, their remuneration, benefits and qualification requirements, and the estimated annual expenditure on nurses in the past 5 school years and in the next school year; and
- (3) the nurse-to-student ratio in the past 5 school years and in the next school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 229)

Reply:

(1) and (2)

There are no nurses on the establishment of public sector ordinary primary and secondary schools. As for special schools, the Education Bureau (EDB) enhanced the establishment of school nurse in these schools in the 2018/19 school year. An additional school nurse is provided for schools for children with intellectual disability, schools for children with physical disability and the school for children with visual impairment cum intellectual disability. In addition, the provision of school nurses has been expanded to cover the school for children with visual impairment and the school for children with hearing impairment, so that these schools each have a school nurse to strengthen their support for students with care needs. The number of school nurse posts on the establishment of

special schools and the expenditures involved from the 2015/16 to 2019/20 school years are as follows:

School year	2015/16	2016/17	2017/18	2018/19	2019/20
No. of Posts on the Establishment	52	52	53	104	104
Expenditure (\$ million)	27.4	28.4	31.3	54.6	66.2 (revised estimate)

The school nurse posts in special schools are at the rank of Registered Nurse, with a salary equivalent to point 15 to point 25 on the civil service Master Pay Scale. On appointment, in addition to meeting Chinese and English language requirements of the grade concerned, school nurse candidates must possess relevant professional qualifications, including a Certificate of Registration (Part I) issued by the Nursing Council of Hong Kong (or equivalent) and a related professional practising certificate.

(3)

The number of school nurses in different types of special schools from the 2015/16 to 2019/20 school years is tabulated as follows:

School type	No. of students	2015/16 to 2017/18 school years	2018/19 to 2019/20 school years
School for children with physical disability	(a) 40 – 129 (b) 130 or more	(a) 1	(a) 2
School for children with severe intellectual disability		(b) 2	(b) 3
School for children with mild intellectual disability	40 or more	1	2
School for children with moderate intellectual disability			
School for children with mild and moderate intellectual disability			
School for children with visual impairment cum intellectual disability			
School for children with visual impairment	40 or more	Not applicable	1
School for children with hearing impairment

Director of Bureau: Secretary for Education

Question:

(1) Students of aided special schools can apply for extension of years of study (EoS). Please set out the numbers of students and school places, unit cost per school place, and number and status of applications for EoS in the past 5 school years, with a breakdown by school type. Regarding application status, please provide the numbers of applications approved and rejected, as well as the reasons for rejection.

(2) Please provide details on the provision for measures concerning the application for EoS by special school students.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 230)

Reply:

(1) and (2)

From the 2015/16 to 2019/20 school years, the number of approved school places and students and the average unit cost per school place in various types of special schools are set out at Appendix.

The improvement measures for extension of years of study (EoS) were introduced in the 2010/11 school year for students in schools for children with intellectual disability, schools for children with physical disability, schools for children with hearing impairment, and the school for children with visual impairment cum intellectual disability. Under these measures, the Education Bureau (EDB) provides these schools with additional school places and allows them to devise school-based policies to exercise professional judgement to arrange for students in need and with valid reasons to extend their years of study in accordance with the objective criteria jointly set by the EDB and the special education sector. As the applications for EoS are made direct to and subsequently approved by the special schools concerned, the EDB does not have the information on the number, reasons,

etc. of such applications by students in various types of special schools. Additional school places provided for special schools under the measures of EoS have been included in the overall approved class structure, and the expenditure incurred has been subsumed under the regular subvention for schools. Please refer to the Appendix for the average unit cost per school place in various types of special schools.

**Number of Places, Number of Students, and Average Unit Cost per School Place in Special Schools
from the 2015/16 to 2019/20 School Years**

Programme: (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Paid Non-local Study Leave Scheme for Secondary School Teachers (Scheme), please provide, by year, the details of the Scheme since its implementation, including the eligibility for application, number of applicants, number of participating teachers, location of study, training involved and overall expenditure of the Scheme, as well as the salary expenditure of supply teachers who covered the absence of teachers during their paid study leave. Will the Bureau further extend the Scheme by covering kindergarten teachers, increasing the quota, etc.? If yes, when will it be extended? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 231)

Reply:

The Education Bureau (EDB) launched the “i-Journey” Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. Participating teachers will be given 7 to 9 weeks’ paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research.

Serving full-time regular teachers in aided secondary schools (including special schools) and teachers in government, caput and Direct Subsidy Scheme secondary schools with not less than 5 years of teaching experience in secondary schools are eligible for the Scheme. In the school years from 2017/18 to 2019/20, the EDB received 154, 74 and 101 applications respectively, while the number of participants is 50, 40 and 60. The details of the Scheme are as follows:

2017/18 school year (First Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	No. of participants
Helsinki & Jyväskylä, Finland	Interdisciplinary Learning & Entrepreneurship Education	15
Melbourne, Australia	Catering for Students with Special Educational Needs	20
Exeter, the United Kingdom	STEM Education	15

2018/19 school year (Second Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	No. of participants
Turku, Finland	Interdisciplinary Learning & Entrepreneurship Education	15
Southampton, the United Kingdom	Assessment Literacy	15
Singapore	STEM Education	10

2019/20 school year (Third Batch of the Scheme)		
Destination	Subjects/Areas covered in the training	No. of participants *Provisional figures
Southampton, the United Kingdom	Assessment Literacy	18
Sydney, Australia	Catering for Learner Diversity	21
Turku, Finland	Self-directed Learning	21

The total expenditure of the first batch and second batch of the Scheme is \$7.49 million and \$5.99 million respectively, of which \$2.63 million and \$1.6 million is on remuneration for supply teachers employed to substitute participating teachers on paid study leave. In view of the latest development of the novel coronavirus (COVID-19) epidemic, the third batch of the Scheme will be postponed. The expenditure figures involved are therefore unavailable at the present stage.

Upon completion of the pilot Scheme, data and information collected during this period will be used by the EDB to form the basis of evaluation and inform future development.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please give an overview of the applications for the Teacher Relief Grant (TRG) and reimbursement of expenses for hiring supply teachers on an accountable basis by public sector schools in the recent 5 school years, with a breakdown by school type:

- (i) The calculation methods and grant rates of various components under TRG;
- (ii) The number of schools that opted to freeze posts permanently, freeze posts temporarily for 30 to 89 days and freeze posts temporarily for 90 days, and the respective amounts of TRG provided upon conversion;
- (iii) The number of schools applying for engagement of supply teachers to substitute teachers on approved leave of less than 30 days, the number of such applications, and the amount of grants provided;
- (iv) The principles for using 2.5 man-days as the basis for calculating the amount of TRG to be provided; and
- (v) Whether the Education Bureau has reviewed the calculation methods of TRG; if yes, the status of review and the implementation timetable for new initiatives; if no, the reasons.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 232)

Reply:

(i) Aided schools with incorporated management committees (IMC) are provided with the Teacher Relief Grant (TRG) to allow them the flexibility to deploy their resources for appointing temporary supply teachers and other ancillary staff or procuring education-related services to meet their school-based needs and implement various new initiatives, with a view to enhancing the quality of education. The TRG is made up of two components, namely an annual recurrent cash grant and an optional cash grant. The annual recurrent cash grant is calculated on the basis of 2.5 man-days per teacher on the approved

teaching staff establishment and the daily rate of pay for the respective grades of supply teachers (i.e. 2.5 man-days x the number of teaching posts on the approved teaching staff establishment x the daily rate of pay for supply teachers). At present, the respective amounts of the annual recurrent cash grant are around \$160,000 and \$230,000 for primary and secondary schools with 24 classes. The amount of grant varies subject to the number of teaching posts provided under various measures for individual schools. With the consent of the IMC, majority of teachers and parents, schools are allowed the flexibility to choose to apply for the optional cash grant by temporarily or permanently freezing up to 10% of their approved teaching staff establishment. Depending on the type of teaching posts to be frozen and the length of frozen period, the rate of the optional cash grant is calculated as follows:-

- (1) for permanent freezing, the rate is the mid-point salary of the posts concerned;
- (2) for temporary freezing for 30 to 89 days, the rate is the standard daily rate of supply teacher; and
- (3) for temporary freezing for 90 days or more, the rate is the average monthly salary point of temporary teachers in the event of basic ranks, or at the starting salary point of the relevant promotion ranks in the event of promotion ranks.

As the rate of the optional cash grant is calculated on the above bases, such as the ranks and number of frozen posts and the length of frozen period, the amount of grant received by each school varies.

(ii) The number of aided schools with IMC (including special schools) receiving the optional cash grant under the TRG, and the actual total expenditure for the provision of the grant from the 2014-15 to 2018-19 financial years are tabulated below:

Financial year	Number of schools	Actual expenditure (\$ million)
2014-15	327	481
2015-16	383	599
2016-17	470	756
2017-18	520	930
2018-19	584	1,078

The above figures include schools that opted to freeze posts permanently, freeze posts temporarily for 30 to 89 days, and freeze posts temporarily for 90 days or more. A breakdown of the figures is not available as the Education Bureau (EDB) does not compile related statistics.

(iii) Under the TRG, schools with IMC may use the grant flexibly to appoint supply teachers to substitute regular teachers on approved leave of less than 30 days. In the event that teachers take approved leave for 30 days or more or paternity leave for 3 consecutive days or more, schools may still apply to the EDB for reimbursement of expenses for appointment of supply teachers. Hence, schools with IMC do not have to apply to the EDB for reimbursement of expense for appointment of supply teachers on an accountable basis in case of teachers taking leave for less than 30 days. Schools may combine and use the two components of the TRG, namely the annual recurrent cash grant and optional cash grant having regard to their needs, and are not required to submit separate reports on the

deployment of the grants under the TRG to the EDB. Information in this respect is, therefore, not available.

(iv) and (v)

The “2.5 man-days” is one of the bases for calculating the annual recurrent cash grant under the TRG. When the grant was introduced, the “2.5 man-days” is determined according to the average annual expenditure on daily-rated supply teachers of aided schools in the past. As schools’ need for the appointment of supply teachers varies from year to year, under the existing mechanism, schools are allowed to retain TRG surplus up to 3 times the annual provision in the relevant year so that they may flexibly deploy the accumulated surplus between school years for appointing supply teachers. Besides, schools may exercise their financial autonomy in deploying the surplus of the Expanded Operating Expenses Block Grant flexibly to cover related expenses. The EDB has been keeping in view the implementation of the TRG. According to the financial statements submitted by schools, most schools have accumulated surpluses in respect of their TRG accounts. The arrangements under the TRG have been found effective and schools generally welcome the arrangement of freezing posts on the teaching staff establishment to obtain cash grant as it gives them more flexibility in deploying resources. We will continue to monitor the implementation of the TRG and conduct a review when necessary.

(Question Serial No. 3552)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Education Bureau (EDB) provides kindergartens (KGs) joining the KG education scheme (Scheme-KGs) with a supply teacher grant to facilitate their teachers' participation in specified recognised training courses on catering for students with developmental needs and on supporting non-Chinese speaking (NCS) students. In this connection, please advise of the following:

- (1) From 2018/19 to present, how many Scheme-KGs have applied for the supply teacher grant? What is the respective number of applications involving supply teachers possessing Certificate in Early Childhood Education or above qualifications (\$916 per day) and those possessing other qualifications (\$357 per day)?
- (2) Among the applications for supply teacher grant submitted by Scheme-KGs, how many are approved and how many are rejected? What is the rate of successful application? What are the major reasons for unsuccessful application?
- (3) Quite a number of courses on catering for students with developmental needs and on supporting NCS students as recognised by EDB are conducted on Saturdays. However, EDB stipulates that Sundays, Saturdays (except for long whole-day kindergartens), public holidays and school holidays should not be counted as working days. As such, how can schools apply for the supply teacher grant?
- (4) On supporting NCS students, among the Scheme-KGs provided with additional grant for supporting NCS students, how many have at least 1 teacher having attended the basic course as recognised by EDB and what is the percentage they represent?
- (5) Some principals reflected that the rate of successful application for supply teacher grant in the sector was low and the reasons included some of the recognised courses being conducted on Saturdays, applications only being accepted on condition that teachers attend courses for 3-consecutive days, etc. Will EDB conduct a review and improve this policy, for example, by recognising more relevant courses conducted on weekdays or lifting the 3-consecutive day requirement? If yes, what is the timetable for introducing such improvement measures?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 233)

Reply:

Starting from the 2018/19 school year, the Education Bureau (EDB) provides kindergartens (KGs) joining the kindergarten education scheme (Scheme) with a supply teacher grant to facilitate KGs in arranging teachers to attend specified recognised training courses provided by the EDB on catering for students with developmental needs and on supporting non-Chinese speaking (NCS) students. The relevant information is set out as follows:

(1) and (2)

In the 2018/19 school year, a total of 152 applications from 108 KGs were received by the EDB. 141 of them involved employing supply teachers with Certificate in Early Childhood Education or above qualification while the remaining 11 involved employing supply teachers with other qualifications. All applications were approved. As for the 2019/20 school year, 57 applications from 52 KGs have been received as at the end of February 2020. All of them involved employing supply teachers with Certificate in Early Childhood Education or above qualification. 42 of these applications (involving 38 KGs) have been approved, while the remaining 15 (involving 14 KGs) are being processed. As at the end of February 2020, no applications for the supply teachers have been rejected.

(3)

If courses are conducted on public holidays or school holidays, there is no need for KGs to employ supply teachers as there will be no classes. Given the diversity in the KG sector, the EDB will offer different options, as far as possible in the arrangement of course dates to cater for the needs of different KGs.

(4)

On supporting NCS students in KGs, we have set specific targets for teacher training, i.e. each Scheme-KG having admitted 8 or more NCS students should have at least 1 teacher having attended the basic course as recognised by the EDB by the end of the 2018/19 school year and this will be extended to all Scheme-KGs having admitted NCS students (regardless of the number) by the end of the 2020/21 school year. As at the end of the 2018/19 school year, around 150 KGs admitting 8 or more NCS students have achieved the target. Since the 2019/20 school year has not yet come to a close, we are unable to provide the information for the current school year.

(5)

Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate KGs joining the Scheme in arranging teachers to attend specified recognised training courses on catering for students with developmental needs and on supporting NCS students. KGs may apply for the grant if a teacher has attended the specified recognised courses provided by the EDB for 3 or more consecutive days. On the other hand, an element for employing supply teachers to enable the release of teachers to attend training courses has been included in the basic unit subsidy. If the duration of the course is less than 3 consecutive days, KGs may deploy their own resources as appropriate to employ supply teachers. Besides, the teacher to pupil ratio has been enhanced from 1:15 (including the principal) to 1:11 (principal not included) under the Scheme. While KGs have the flexibility to maintain their usual arrangements for learning and teaching activities, they may flexibly deploy human resources to facilitate teachers' participation in various professional development

activities. Given the above considerations, we have no plan to relax the eligibility criteria for provision of supply teacher grant to cover relevant courses that last for less than 3 days.

(1) to (3)

Under the kindergarten (KG) education policy, KGs are encouraged to establish a career ladder and offer competitive remuneration to retain and attract quality teachers. As regards remuneration, various measures have been adopted to ensure that teachers are remunerated reasonably. These include providing salary ranges for respective ranks of teaching staff and KGs joining the KG education scheme (Scheme-KGs) are obliged to remunerate their teachers within their corresponding salary ranges; prescribing 60% of the basic unit subsidy as teachers' salary portion, which must be used on teaching staff salaries and related expenses (while KGs may deploy any portion of the remaining 40% for teaching staff

salaries and related expenses, but not vice versa); and clawing back the accumulated surplus in the salary portion exceeding the reserve ceiling to encourage schools' optimal use of the subsidy on teaching staff salary. The salary ranges for teachers in Scheme-KGs from the 2017/18 to 2019/20 school years are tabulated at Appendix 1. The average monthly salary and average years of service of full-time KG teachers (excluding principals) are tabulated at Appendix 2. We have undertaken to use the data of the 3 school years from 2017/18 to 2019/20 as the basis to explore the feasibility of introducing a salary scale for KG teachers. As announced in the 2018 Policy Address, we started a review in mid-2019 on the implementation of the new policy, including the salary arrangements for KG teachers. We have been consulting the stakeholders during the process.

Scheme-KGs with a large number of long-serving teachers receiving higher salaries (i.e. the average monthly salary of their basic rank full-time teachers with Certificate in Early Childhood Education or above qualification (within the teacher-to-pupil ratio of 1:15) in the 2014/15 and 2015/16 school years was higher than \$20,000) before joining the Scheme would be provided with the tide-over grant (ToG). The ToG aims to render additional financial support for these KGs to defray their expenses on teaching staff salary in the early period of implementation of the Scheme, so that KGs may retain their long-serving teachers and maintain the stability of their teaching force. In July 2017, the Government announced the extension of the 2-year ToG (2017/18 and 2018/19 school years) for 3 years (from the 2019/20 to 2021/22 school years), making a total of 5 years of provision. From the 2017/18 to 2019/20 school years, 478, 485 and 485 Scheme-KGs received the ToG respectively. The relevant total expenditure is tabulated below:

Year	2017-18	2018-19	2019-20
Expenditure on the ToG (\$ million)	135	207	214

Notes:

- (1) The expenditure on the ToG in 2017-18 reflects the expenditure for the first 8 months after the implementation of the Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018).
- (2) The expenditure on the ToG in 2019-20 is the revised estimate.

It is not appropriate to apply the salary scale for teachers of public sector primary and secondary schools to the diverse KG sector, nor shall we rely upon it to establish a career ladder for KG teachers. KGs operating on different scales and using different teaching modes require a different ranking structure. As such, we recommend KGs to establish a career ladder for their teachers under the KG education policy. We provide for KGs' reference a three-level teaching staff structure, including the ranks of principal, senior teacher and class teacher which are possibly needed in KGs. Given the diversity of the KG sector, KGs may appoint teachers of different ranks according to their operation scale and school-based needs. When formulating school-based career ladder, KGs should have long-term planning from perspective of resources deployment and sustainable development. The salary portion of the basic unit subsidy provided for KGs by the EDB already includes the share for principals, senior teachers and teachers. Since each KG will flexibly deploy resources provided by the EDB to implement school-based arrangements according to

individual circumstances and needs, the relevant expenditure and numbers of beneficiaries are not available.

Salary ranges for teachers under the KG education scheme
from the 2017/18 to 2019/20 school years

Rank of teaching staff	Salary range		
	2017/18	2018/19	2019/20
Class Teacher	\$20,770 - \$36,930	\$21,680 - \$38,550	\$22,790 - \$40,530
Senior Teacher	\$27,700 - \$43,860	\$28,920 - \$45,790	\$30,400 - \$48,140
Vice Principal	\$34,620 - \$48,470	\$36,140 - \$50,600	\$37,990 - \$53,200
Principal II	\$39,240 - \$54,240	\$40,970 - \$56,630	\$43,070 - \$59,540
Principal I	\$46,160 - \$61,170	\$48,190 - \$63,860	\$50,660 - \$67,140

Note: The salary ranges for teaching staff apply to teachers with Certificate in Early Childhood Education or above qualifications.

Average monthly salary and average years of service of
full-time teachers under the KG education scheme
from the 2017/18 to 2019/20 school years

School Year	KG	Teachers' average monthly salary	Teachers' average year of service (years)
2017/18	KGs operating half-day classes only	\$26,162	12.7
	KGs operating whole-day classes only	\$25,801	9.2
	KGs operating both whole-day and half-day classes	\$24,307	12
2018/19	KGs operating half-day classes only	\$27,862	12.4
	KGs operating whole-day classes only	\$27,860	9.2
	KGs operating both whole-day and half-day classes	\$26,062	12
2019/20 (Note 2)	KGs operating half-day classes only	-	12.7
	KGs operating whole-day classes only		9.1
	KGs operating both whole-day and half-day classes		11.7

Notes:

- The above information is based on the survey on KG teachers/child care staff conducted by the EDB in September of the respective school years. The figures exclude principals.
- Regarding the salary information of teachers in the 2019/20 school year, the EDB notified Scheme-KGs in early March this year of the salary ranges for teaching staff which have been adjusted based on the latest civil service pay adjustment announced at the end of February. Scheme-KGs would adjust the salaries of their teachers accordingly if necessary. Hence, the EDB is unable to provide the salary information of teachers in Scheme-KGs for the 2019/20 school year at this stage. The average years of service of KG teachers in the 2019/20 school year are provisional figures.

(Question Serial No. 3554)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the development of kindergartens, it is mentioned in the Budget that the Education Bureau (EDB) will continue to enhance the quality assurance framework. In this connection, please advise this Committee of:

- (1) the details of the existing enhancements to the quality assurance framework, including the numbers of kindergartens for which quality reviews were conducted, numbers of visits, assessment criteria, follow-up actions and expenditures involved in each of the past 5 school years; and
- (2) the EDB's detailed plans to improve the quality assurance framework.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 235)

Reply:

All kindergartens (KGs) joining the kindergarten education scheme (Scheme) are subject to the Quality Assurance Framework, which comprises School Self-evaluation (SSE) by KGs and Quality Review (QR) by the Education Bureau (EDB). Both SSE and QR are conducted on the basis of performance indicators (PIs). The QR teams will make professional judgement on school performance based on the PIs, examine the effectiveness of KGs' development work holistically and offer suggestions for improvement in light of the school context, so as to facilitate KGs' self-improvement on a continuous basis. Any KGs assessed as not meeting the prescribed standards of QR may apply for a follow-up QR and submit to the EDB an action plan to address the issues identified for improvement. The EDB will then send a QR team to the KG concerned for conducting the follow-up QR. From the 2014/15 to 2018/19 school years, we conducted QR for 114, 123, 128, 135 and 120 KGs respectively. In general, it took 2.5 to 3.5 days for a QR team to conduct review for a KG. One of the aforementioned KGs did not meet the prescribed standards of QR

and applied for a follow-up QR. Its application was accepted and the follow-up QR was conducted.

To enhance the quality of KG education, we completed the refinement of PIs in 2017. The refined PIs are clearer, more precise and user-friendly. This helps KGs conduct SSE in a more holistic and focused manner. We will continue to share with KGs information on the refined PIs, observations from the annual QR findings and good practices of schools. With these, we could support KGs in conducting SSE more effectively.

To foster school development and accountability, we encourage KGs to upload their QR reports onto their school websites. Having considered the views of KGs and parents, we have uploaded the Chinese QR reports and their English translations onto the EDB website for public information since the 2018/19 school year. In addition, starting from the 2013/14 school year, we have engaged external independent members as observers in some QR visits and increased the number of QRs that involve these external observers progressively. In the 2018/19 and 2019/20 school years, a pilot scheme was implemented to invite serving KG principals as external observers to further enhance the transparency of QR. We will review the effectiveness of the pilot scheme so as to devise a detailed plan for future arrangements.

As for the expenditure involved in QR, the external independent members are provided with honoraria. From the 2014/15 to 2018/19 school years, the relevant expenditures are \$70,000, \$100,000, \$160,000, \$200,000 and \$110,000 respectively. In the 2018/19 school year, there was a drop in the expenditure on honoraria because some serving KG principals took up the role of external observer on a voluntary basis. All other assessment-related tasks involved in QR are conducted by EDB officers and the relevant expenditure is subsumed under the overall expenditure of EDB. Hence, a breakdown of expenditure is not available.

EDB494

(Question Serial No. 3555)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Budget that the Bureau will “improve the manpower of deputy heads in public sector primary schools (to provide schools with 18 or more classes with one more deputy head by upgrading a post in the rank of Primary School Master/Mistress to Senior Primary School Master/Mistress) starting from the 2020/21 school year”. In this connection:

- (1) Please provide details of the additional deputy heads to be provided for primary schools, including the numbers of additional and regraded posts in all public sector primary schools after upgrading a post in the rank of Primary School Master/Mistress to Senior Primary School Master/Mistress; the estimated expenditure involved; the conditions for schools to upgrade the post; and the eligibility criteria for a teacher to be appointed as a Senior Primary School Master/Mistress, with a breakdown by number of classes in schools;
- (2) Regarding improving the manpower of deputy heads in public sector primary schools, please advise whether the Bureau has a timetable for extending the initiative to primary schools with 12 or fewer classes. If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 236)

Reply:

- (1) The Government has accepted all the recommendations put forward by the Task Force on Professional Development of Teachers (the Task Force) in March 2019 and has been actively following up on the relevant measures, including improving the manpower of deputy heads in public sector primary schools.

Starting from the 2020/21 school year, ordinary primary schools with 12 to 17, 18 to 23, and 24 or more approved classes can upgrade, respectively, 1, 2 and 3 post(s) in the rank of Primary School Master/Mistress (PSM) to Senior Primary School Master/Mistress (SPSM) as deputy head(s).

With the improvement measure, the number of deputy head posts (by upgrading the PSM post to SPSM post) in public sector ordinary primary schools is expected to increase by about 390. The additional full-year expenditure involved is about \$62.2 million. The appointment requirements for the relevant posts are the same as those stipulated in the Codes of Aid.

(2) Improving the manpower of deputy heads in public sector primary schools is a recommendation the Task Force put forward after lengthy deliberations and extensive consultation with stakeholders and the sector. The Task Force understands that in smaller scale primary schools, the heads are in the rank of SPSM. If deputy head posts are provided in these schools, they will be at the same rank as the heads and this can cause staff management issues. Besides, the Task Force has also proposed to improve the manpower at the middle management level in schools. Upon implementation of these improvement measures, primary schools, including those of smaller scale, will have more senior teachers who can be deployed to share school management duties. Having considered the views of the Task Force, the EDB has no plan to provide deputy head posts in ordinary primary schools with 11 or fewer classes.

(Question Serial No. 3587)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Estimates that the Bureau will “upgrade the Primary School Curriculum Leader post in public sector primary schools with 11 or fewer classes from the provision of an Assistant Primary School Master/Mistress post or Curriculum Leadership Grant to a Primary School Master/Mistress post starting from the 2020/21 school year”. In this connection, please advise of the number of schools that will benefit from this initiative, the number of posts to be created/converted, the expenditures involved, the average annual salary of teachers filling the newly-created posts, the requirements that should be satisfied for transfer/appointment as Primary School Curriculum Leader, and the number of school teaching staff (including teaching assistants) that will be affected by the cancellation of the Curriculum Leadership Grant.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 237)

Reply:

Starting from the 2020/21 school year, the Education Bureau will upgrade the Primary School Curriculum Leader post in public sector primary schools with 11 or fewer classes from the provision of an Assistant Primary School Master/Mistress (APSM) post or Curriculum Leadership Grant (CLG) to a Primary School Master/Mistress (PSM) post to enable Primary School Curriculum Leaders serving schools of a smaller scale to perform their curriculum leadership duties more effectively. With the improvement measure, it is expected that the APSM post or CLG provided for about 20 public sector primary schools will be upgraded to a PSM post, thus incurring an additional full-year expenditure of about \$6.8 million.

The upgraded Primary School Curriculum Leader post is at the PSM rank. The current annual salary of the post is about \$850,000, which is calculated based on the mid-point salary. The teacher appointed to the post has to meet the prevailing appointment requirements, including fulfilling the appointment/promotion requirements for PSM as stipulated in the Guide to Appointment of Code of Aid for Primary Schools/Compendium to Code of Aid for Aided Schools, possessing experience in leading or participating in curriculum development, and completing the professional development programme(s) on curriculum leadership on or before the first year of appointment.

At present, schools may use the CLG to hire temporary staff outside the approved establishment (including monthly-paid temporary teachers or teaching assistants), or hire outside services and/or personnel on a temporary basis for teacher professional development programmes related to the duties of the curriculum leader. As schools may deploy the CLG in different ways (e.g. for hiring staff or procuring services), we are unable to provide the number of school teaching staff affected as a result of upgrading the provision of CLG to a PSM post.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As mentioned in the Budget, the Education Bureau will continue to implement the all-graduate teaching force policy in public sector primary and secondary schools, and schools may, taking into account their school-based circumstances, achieve full implementation in the 2020/21 school year. In this connection, please provide the following information by year and by school type:

In the 2018/19 and 2019/20 school years, the implementation progress of the all-graduate teaching force policy in public sector primary and secondary schools, including the respective number of certificated master/mistress posts, certificated masters/mistresses, graduate teacher posts, graduate teachers, and schools in which the all-graduate teaching force policy has been implemented and their percentage out of the total number of schools.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 238)

Reply:

The number of graduate and non-graduate teacher posts within the approved teaching staff establishment in public sector primary and secondary schools in the 2018/19 and 2019/20 school years is as follows:

Primary schools (government and aided schools)

School year	Ratio of graduate teacher posts	No. of posts within the approved teaching staff establishment*	
		Graduate Master/Mistress Grade	Certificated Master/Mistress Grade
2018/19	65%	14 370	6 430
2019/20	100%	21 220	0

* Figures include the number of teacher posts calculated according to the teacher-to-class ratio and additional teacher posts provided under specific improvement programmes, and are rounded to the nearest 10.

Secondary schools (government, aided and caput schools)

School year	Ratio of graduate teacher posts	No. of posts within the approved teaching staff establishment*	
		Graduate Master/Mistress Grade	Certificated Master/Mistress Grade
2018/19	85%	18 170	2 630
2019/20	100%	20 990	0

* Figures include the number of teacher posts calculated according to the teacher-to-class ratio and additional teacher posts provided under specific improvement programmes, and are rounded to the nearest 10.

The number of graduate and non-graduate teachers employed within the approved teaching staff establishment in public sector primary and secondary schools in the 2018/19 and 2019/20 school years is as follows:

Primary schools (government and aided schools)

School year	No. of teachers within the approved teaching staff establishment*	
	Graduate teacher	Non-graduate teacher
2018/19	10 250	9 560
2019/20 (Estimate)	19 640	780

* Figures are rounded to the nearest 10.

Secondary schools (government, aided and caput schools)

School year	No. of teachers within the approved teaching staff establishment*	
	Graduate teacher	Non-graduate teacher
2018/19	16 980	2 950
2019/20 (Estimate)	19 670	350

* Figures are rounded to the nearest 10.

Under the all-graduate teaching force policy, the ratio of graduate teacher posts in public sector schools has been increased to 100% in one go in the 2019/20 school year. Schools may, taking into account their school-based circumstances, achieve full implementation in 2 years starting from the 2019/20 school year. To our understanding, most schools have filled up their graduate teacher posts as far as possible. Reasons for graduate teacher posts not being fully filled include serving teachers not possessing a local bachelor's degree (or equivalent) or not willing to assume the professional duties of a graduate teacher, etc. Schools should continue to encourage teachers to attain the recognised qualifications as early as possible and to shoulder the duties of a graduate teacher. The fill-up rate of the graduate teacher posts in public sector schools by school type in the 2018/19 and 2019/20 school years is tabulated below:

Primary schools (government and aided schools)

School year	Fill-up rate of graduate teacher posts [^]
2018/19	80%
2019/20 (Estimate)	96%

Secondary schools (government, aided and caput schools)

School year	Fill-up rate of graduate teacher posts [^]
2018/19	100%
2019/20 (Estimate)	98%

[^] The fill-up rate of graduate teacher posts reflects the situation on the filling of graduate teacher posts, but not the change in the number of graduate teacher posts or graduate teachers. In secondary schools, for example, there is an increase in the number of both graduate teacher posts and teachers concerned in the 2019/20 school year as compared to the 2018/19 school year. Nevertheless, as the graduate teacher posts in the 2019/20 school year have not been completely filled, it results in a contrarily lower fill-up rate than that in the 2018/19 school year.

CONTROLLING OFFICER'S REPLY

EDB497

(Question Serial No. 3589)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) states that “teachers have to meet educational standards and other requirements specified in the Education Ordinance (Cap. 279) before they can be registered or permitted to teach”. In this connection, please provide the relevant information:

(1) Please specify what criteria the EDB refers to by “educational standards and other requirements” and whether detailed considerations under “other requirements” include criminal records and moral standards. If yes, please explain the yardsticks and provide any relevant documents/guidelines that the EDB consults; if no, please give the reasons.

(2) Is there any EDB task force or section with the dedicated function of checking whether teachers “meet the educational standards and other requirements”? If yes, please provide the number, ranks and post titles of the staff involved.

(3) Please provide the number of applications made to the EDB for teacher registration or permission to teach, and the number of successful and unsuccessful applications in each of the past 3 years, as well as the reasons for rejection.

(4) Please provide the number of teachers with teacher registration cancelled in each of the past 3 years, and the reasons for cancellation.

(5) Please advise of the expenditures involved in verifying whether applicants “meet the educational standards and other requirements” in each of the past 3 years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 239)

Reply:

(1) Section 42 of the Education Ordinance (EO) stipulates that anyone who teaches in a school must be a registered teacher (RT) or permitted teacher (PT). On receiving an application for registration as a teacher, the Education Bureau (EDB) will vet it against the qualifications for an RT or PT laid down in Sections 44 to 46 of the EO and the Second Schedule of the Education Regulations. Applicants who possess the qualifications will be registered as teachers. If it appears to the Permanent Secretary for Education (PS(Ed)) that the applicant fits one of the descriptions set out in Section 46 of the EO (such as the applicant is not a fit and proper person to be a teacher, the applicant has been convicted of an offence punishable with imprisonment, the applicant does not possess the prescribed qualifications, etc.), the PS(Ed) will refuse to register the applicant as a teacher. Please refer to the Annexes for details of the relevant regulations.

In addition, when submitting an application for registration as a RT or PT, the teacher and the school must truthfully declare to the EDB whether the teacher concerned has previously been convicted of a criminal offence in Hong Kong or elsewhere (including spent convictions), and whether he/she has ever been refused to be registered as a manager of a school or a teacher or has ever been refused permission to teach, or having been so registered and yet had the registration cancelled in Hong Kong or elsewhere. Taking all factors into consideration, the EDB will strictly scrutinise the application to ensure that all school teachers are fit and proper to teach.

(2) and (5) Currently, 13 staff in the Teacher Registration Team of the EDB are responsible for handling matters related to the application for teacher registration. They include 1 Senior Education Officer (Administration), 3 Education Officers (Administration), 3 Assistant Education Officers (Administration), and 6 staff in the clerical grade. As vetting applications for teacher registration is part of the departmental routine, the expenses involved are subsumed in the EDB's overall provision for staffing and operation and a breakdown of the expenditure is not available.

(3) The respective numbers of applicants who applied to teach as RTs or PTs and the number of applications approved in each of the past 3 years (2017 to 2019) are set out below:

	Registered teacher		Permitted teacher	
	No. of applicants	No. of persons registered as a teacher	No. of applicants	No. of persons issued with a permit to teach
2017	4 868	4 528	3 193	2 403
2018	4 831	4 638	3 503	3 722
2019	4 835	4 722	3 319	3 287

The discrepancies between the number of applicants and the number of persons registered as a teacher or issued with a permit to teach can be attributed to the fact that some applicants withdrew their applications or failed to complete the application procedure and some applications are still being processed.

(4) In the past 3 years (2017 to 2019), 11 teachers had their registration cancelled or application refused by the EDB. These teachers were mainly involved in committing a sex or fraud-related offence or some minor but repeated offences, or having serious integrity problem.

EDUCATION ORDINANCE (Cap. 279) section 42 to 46**42. Teachers to be registered or permitted teachers**

- (1) No person shall teach in a school unless he is—
 - (a) a registered teacher; or
 - (b) a permitted teacher.
- (2) No permitted teacher shall teach in a school otherwise than in accordance with the conditions or limitations specified in the permit to teach issued in respect of such teacher.

43. Permanent Secretary may require medical examination of proposed teacher

The Permanent Secretary may, before registering a person as a teacher or issuing a permit to teach in respect of any person, require such person to undergo a medical examination.

(Amended 3 of 2003 s. 11)

44. Application for registration as a teacher

An application for registration as a teacher shall be—

- (a) made to the Permanent Secretary in the specified form; and *(Amended 8 of 2001 s. 4; 3 of 2003 s. 11)*
- (b) accompanied by the documents specified in such form.

45. Registration of teacher

- (1) On receiving an application in accordance with section 44, the Permanent Secretary shall make such inquiry as he considers necessary and shall determine the application— *(Amended 3 of 2003 s. 11)*
 - (a) by registering the applicant as a teacher; or
 - (b) by refusing under section 46 to register the applicant as a teacher.
- (2) On registering an applicant as a teacher under subsection (1), the Permanent Secretary shall issue to the applicant a certificate of registration in the specified form. *(Amended 8 of 2001 s. 4; Amended 3 of 2003 s. 11)*

46. Grounds for refusal to register teacher

The Permanent Secretary may refuse to register an applicant as a teacher if it appears to him that the applicant— (*Amended 3 of 2003 s. 11*)

- (a) is not a fit and proper person to be a teacher;
- (b) has been convicted of an offence punishable with imprisonment;
- (c) is a person in respect of whom a permit to teach has previously been cancelled;
- (d) is medically unfit;
- (e) does not possess the prescribed qualifications;
- (f) has attained the age of 70 years; or
- (g) in making or in connection with any application—
 - (i) (*Repealed 42 of 1993 s. 17*)
 - (ii) for registration as a manager or a teacher; or
 - (iii) to employ a person as a permitted teacher in a school,

has made any statement or furnished any information which is false in any material particular or by reason of the omission of any material particular.

EDUCATION REGULATIONS (Cap. 279A) Second Schedule

(Format changes—E.R. 2 of 2012)

Part 1

[reg. 68]

Qualifications for a Registered Teacher

- (1) An approved degree of a specified institution together with an approved teacher's diploma, certificate, or like qualification to teach; (*1 of 2004 s. 18*)
- (2) a degree in education of a specified institution; (*1 of 2004 s. 18*)
- *~~(3) (*Repealed 1 of 2004 s. 18*)~~
- (4) a teacher's certificate issued by the Hong Kong Government;
- (5) a Hong Kong Government Normal School certificate and 5 years approved teaching experience; (*L.N. 122 of 1974*)
- (6) a Hong Kong Government Evening Institute teacher's certificate and 5 years approved teaching experience; (*L.N. 122 of 1974*)
- (7) a certificate of status as "Qualified Teacher" or "Qualified Kindergarten Teacher" issued by the Hong Kong Education Department to a teacher who has completed an approved course of training and passed a written and practical test, and approved teaching experience; (*L.N. 122 of 1974; L.N. 268 of 1990*)
- (8) any other educational training and experience which in the opinion of the Permanent Secretary is equivalent to the qualifications specified in paragraph (1), (2), (4), (5), (6) or (7); or (*3 of 2003 s. 14; 1 of 2004 s. 18*)
- *~~(9) (*Repealed 1 of 2004 s. 18*)~~

For the purposes of this Part and Part 2— (*1 of 2004 s. 18*)

- (a) **approved** (認可) means approved by the Permanent Secretary;
- (b) **specified institution** (指明院校) means any of the following—
 - (i) the Lingnan University established by the Lingnan University Ordinance (Cap. 1165);
 - (ii) The Education University of Hong Kong established by The Education University of Hong Kong Ordinance (Cap. 444); (*6 of 2016 s. 2*)
 - (iii) the University of Hong Kong established by the University of Hong Kong Ordinance (Cap. 1053);

Part 2

[reg. 69]

Qualifications for a Permitted Teacher, other than a Teacher to Whom Part 2A, 3 or 4 Applies

(L.N. 268 of 1990; 1 of 2004 s. 18)

- (1) A higher diploma issued by a specified institution; (*1 of 2004 s. 18*)
- (1A) an associate degree of a specified institution; or (*1 of 2004 s. 18*)
- (2) any other educational training or practical experience which in the opinion of the Permanent Secretary is equivalent to the qualifications specified in paragraph (1) or (1A). (*L.N. 237 of 1982; 3 of 2003 s. 14; 1 of 2004 s. 18*)

Part 2A

[reg. 69A]

Qualifications for a Permitted Teacher Who is Permitted to Teach other Educational Courses

- (1) One or two certificates of the Hong Kong Certificate of Education Examination with an aggregate of 5 separate subjects at Grade E or a higher grade, including— (*L.N. 23 of 2012*)
 - (a) English Language (Syllabus B), or of a standard which in the opinion of the Permanent Secretary is equivalent to Grade E or a higher grade in that certificate; or
 - (b) Chinese Language;
- (1A) one or two certificates of the Hong Kong Diploma of Secondary Education Examination with an aggregate of 5 separate subjects consisting of—
 - (a) English Language or Chinese Language at Level 2 or a higher level;
 - (b) 2 subjects each of which is—
 - (i) a subject from the New Senior Secondary subjects at Level 2 or a higher level;
 - (ii) a subject from the Applied Learning subjects with an “Attained” or “Attained with Distinction” result; or
 - (iii) a subject from the Other Language subjects at Grade E or a higher grade; and
 - (c) 2 subjects each of which is—
 - (i) a subject from the New Senior Secondary subjects at Level 2 or a higher level; or
 - (ii) a subject from the Other Language subjects at Grade E or a higher grade; or (*L.N. 23 of 2012*)
- (2) any other educational training or practical experience which in the opinion of the Permanent Secretary is equivalent to the qualifications specified in paragraph (1) or (1A).

For the purposes of this Part and Part 4, a subject is not separate from another subject by reason only that instruction in the first subject is given in a language different from that in which instruction in the second subject is given.

(1 of 2004 s. 18; *L.N. 23 of 2012*)

Part 3

[reg. 70]

Qualifications for a Permitted Teacher Who is Permitted to Teach English

The qualifications specified in Part 2 or 2A and— (*1 of 2004 s. 18*)

- (1) Grade E or higher grade in English Language (Syllabus B) in the Hong Kong Certificate of Education Examination;
- (1A) Level 2 or a higher level in English Language in the Hong Kong Diploma of Secondary Education Examination; (*L.N. 23 of 2012*)
- (2) a pass in English Language in the Hong Kong English School Certificate, the Hong Kong Chinese School Certificate, or the Hong Kong School Certificate; or
- (3) a knowledge of English of a standard which in the opinion of the Permanent Secretary is equivalent to— (*L.N. 23 of 2012*)
 - (a) Grade E in English Language (Syllabus B) in the Hong Kong Certificate of Education Examination; or
 - (b) Level 2 in English Language in the Hong Kong Diploma of Secondary Education Examination. (*3 of 2003 s. 14; L.N. 23 of 2012*)

(*1 of 2004 s. 18*)

Part 4

[reg. 70A]

Qualifications for a Permitted Teacher

Who is Permitted to Teach Pupils Undergoing Nursery or Kindergarten Education

(*1 of 2004 s. 18*)

- (1) A certificate of status as “Qualified Assistant Kindergarten Teacher” issued by the Hong Kong Education Department to a teacher who has completed an approved course of training, and approved teaching experience;
- (2) one or two certificates of the Hong Kong Certificate of Education Examination with an aggregate of 5 separate subjects at Grade E or a higher grade, including English Language (Syllabus A or B) and Chinese Language; (*1 of 2004 s. 18*)
- (2A) one or two certificates of the Hong Kong Diploma of Secondary Education Examination with an aggregate of 5 separate subjects consisting of—
 - (a) English Language at Level 2 or a higher level;
 - (b) Chinese Language at Level 2 or a higher level;
 - (c) 2 subjects each of which is—

- (i) a subject from the New Senior Secondary subjects at Level 2 or a higher level;
 - (ii) a subject from the Applied Learning subjects with an “Attained” or “Attained with Distinction” result; or
 - (iii) a subject from the Other Language subjects at Grade E or a higher grade; and
- (d) either of the following—
- (i) a subject from the New Senior Secondary subjects at Level 2 or a higher level;
 - (ii) a subject from the Other Language subjects at Grade E or a higher grade; or (*L.N. 23 of 2012*)
- (3) any other educational training or practical experience which in the opinion of the Permanent Secretary is equivalent to the qualifications specified in paragraph (1), (2) or (2A). (*3 of 2003 s. 14*)

For the purposes of this Part, *approved* (認可) means approved by the Permanent Secretary. (*3 of 2003 s. 14*)

(*E.R. 2 of 2012*)

Editorial Note:

* This paragraph was repealed by section 18 of the Education (Miscellaneous Amendments) Ordinance 2004 (1 of 2004). The saving and transitional provisions contained in sections 20 and 21 of that Amendment Ordinance read as follows—

“20. Saving regarding qualifications of registered teachers and permitted teachers

(1) If immediately before the commencement date there is in existence an application—

(a)

for registration as a teacher made under section 44 of the Education Ordinance (Cap. 279); or

(b)

to employ a person as a permitted teacher in a school made under section 49 of the Education Ordinance (Cap. 279),

which has not been disposed of, then the application is to be disposed of as if this Ordinance has not been enacted.

(2)

A person who possesses the prescribed qualifications for registration as a teacher immediately before the commencement date may apply for registration within 2 months from the commencement date and the application is to be disposed of as if this Ordinance had not been enacted.

(3)

This section is in addition to and not in derogation from section 23 of the Interpretation and General Clauses Ordinance (Cap. 1).

** (4) In this section and section 21, “commencement date” (生效日期) means the date appointed by the Secretary for Education and Manpower for the commencement of section 18 of this Ordinance under section 1(2) of this Ordinance.

** Commencement date: 1 October 2004.

21. Transitional provisions regarding qualifications of permitted teachers

(1)

Notwithstanding section 51(1)(c) of the Education Ordinance (Cap. 279), the Permanent Secretary may issue a permit under section 50 of that Ordinance in respect of a person who was serving as permitted teacher in a school immediately before the commencement date even though the person does not possess the prescribed qualifications for a permitted teacher on or after the commencement date.

(2) Subsection (1) applies where—

(a)

an application to employ the person as a permitted teacher in a school is made under section 49 of the Education Ordinance (Cap. 279) within 5 years from the commencement date; and

(b)

at the time of making the application the person has been enrolled in or is attending a training course approved by the Permanent Secretary for the purpose.”.

CONTROLLING OFFICER'S REPLY

EDB498

(Question Serial No. 3590)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Budget that the Bureau will “improve the manpower of vice-principals in public sector secondary schools (to provide school with 24 or more classes with one more vice-principal by upgrading a post in the rank of Senior Graduate Master/Mistress to Principal Graduate Master/Mistress; and lowering the threshold for the provision of two vice-principals from 15 classes to 12 classes) starting from the 2020/21 school year”.

In this connection, please advise this Committee of the number of vice-principal posts to be created under the new measure, the number of beneficiary public sector secondary schools, the estimated average expenditure on pay and related benefits involved in the creation of an additional vice-principal post every year, and the estimated total expenditure involved in the new measure.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 240)

Reply:

The Government has accepted all the recommendations put forward by the Task Force on Professional Development of Teachers in March 2019 and has been actively following up on the relevant measures, including improving the manpower of vice-principals in public sector secondary schools.

Starting from the 2020/21 school year, the Education Bureau will provide ordinary secondary schools with 24 or more approved classes with one more vice-principal by upgrading a post in the rank of Senior Graduate Master/Mistress to Principal Graduate Master/Mistress. The threshold for the provision of two vice-principals in a school will also be lowered from 15 approved classes to 12 approved classes.

With the improvement measures, it is anticipated that around 340 vice-principal posts will be created (by upgrading Senior Graduate Master/Mistress posts to Principal Graduate Master/Mistress posts) in around 320 public sector ordinary secondary schools, involving an additional annual expenditure of around \$59.1 million. In estimating the expenditure, every additional vice-principal post created (by upgrading a Senior Graduate Master/Mistress post to a Principal Graduate Master/Mistress post) will incur an additional full-year salary of about \$150,000 (including Provident Fund expenditure).

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

It is mentioned in the Budget that the Education Bureau (EDB) will “improve the demarcation arrangements for headship rankings in public sector secondary schools (to lower the qualifying criterion of a Principal II post from 15 classes to 12 classes; and to lower the qualifying criterion of a Principal I post from 24 classes to 18 classes) starting from the 2020/21 school year.” In this connection, please provide the following information:

- (1) What is the number of additional Principal II and Principal I posts created as a result in public sector secondary schools? What is the respective additional expenditure involved? What is number of public sector secondary schools that will benefit from the initiative and their percentage out of the total number of public sector secondary schools in Hong Kong?
- (2) What measures are in place to render assistance to principals in schools with less than 12 classes to ensure that their remuneration will not persistently below a reasonable level due to a shortfall in the number of classes? In the long run, will the EDB consider further relaxing the qualifying criterion of a Principal II post in secondary schools? If yes, what are the plan and schedule? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 241)

Reply:

- (1) The Government has accepted all the recommendations put forward by the Task Force on Professional Development of Teachers (the Task Force) in March 2019 and has been actively following up on the relevant measures, including improving the demarcation arrangements for headship rankings in public sector secondary schools.

Starting from the 2020/21 school year, the Education Bureau (EDB) will lower the qualifying criterion of the Principal II post from 15 to 12 approved classes, and lower the qualifying criterion of the Principal I post from 24 to 18 approved classes.

With the improvement measure, the number of Principal II posts will increase because the principal post in some public sector secondary schools will be upgraded from the rank of Principal Graduate Master/Mistress to Principal II. On the other hand, the number of Principal II posts will decrease as the principal post in some public sector secondary schools will be upgraded from the rank of Principal II to Principal I. As a whole, it is expected that the number of Principal II posts will decrease by about 35, while that of the Principal I posts will increase by about 50. The additional full-year expenditure involved is about \$19.7 million, benefitting about 65 schools or 17% of all public sector ordinary secondary schools in Hong Kong.

(2) Principals serving schools of different scales professionally manage and spearhead the continuing development of schools. We have to establish different ranks for the principal post to reflect the differences in workload and complexity in managing schools of different scales.

Improving the demarcation arrangements for headship rankings in public sector secondary schools is a recommendation the Task Force put forward after lengthy deliberations and extensive consultation with stakeholders and the sector. The EDB believes that the current demarcation arrangements for secondary school headship ranking can be improved after implementation of the recommendation. We have no plan to further relax the qualifying criterion of the Principal II post.

(a) Regarding the Education Bureau's internal task force for reviewing cases involving teachers' misconduct or conduct of a criminal nature, how many members does it have and what are the members' titles? What are the task force's terms of reference? Who decided the task force's composition? What approaches and channels have the task force utilised to review cases involving teachers' misconduct or conduct of a criminal nature?

(b) Are there documents that detail the composition and background information of the members of the task force? If yes, please provide the relevant documents.

(c) What is the number of cases involving teachers' misconduct or conduct of a criminal nature that the internal task force has reviewed in the past 5 years (2015 to 2019)? What is the nature of these cases? How many cases required the Permanent Secretary for Education (PS(Ed)) to penalise the teachers concerned? What disciplinary actions were taken? Please provide the nature of these cases and the disciplinary actions taken.

(d) Using the table below, please provide the respective numbers of cases involving refusal and cancellation of teacher registration in the past 5 years:

Year	Total no. of cases	Refusal of teacher registration			Cancellation of teacher registration		
		No. of cases	No. of court cases	No. of non-court cases	No. of cases	No. of court cases	No. of non-court cases
2019							
2018							
2017							
2016							
2015							
Total							

- (e) What is the nature of court and non-court cases?
- (f) Among cases involving cancellation of teacher registration, what are the school types involved?
- (g) Among cases involving cancellation of teacher registration, how many teachers were not given the Government's donations and the dividend thereon under the Subsidised Schools Provident Fund or Grant Schools Provident Fund?
- (h) Are there channels for the teachers concerned to appeal if they are issued a warning/advisory letter by the PS(Ed)? If yes, what is the appeal procedure?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 242)

Reply:

(a) to (h)

The Education Bureau (EDB) attaches great importance to teachers' professional conduct. If a teacher is found to have committed a serious offence, an act of misconduct or malpractice, the EDB will follow up the case in a stringent manner in accordance with the Education Ordinance (EO). For serious cases, the registration of the teacher concerned may be cancelled.

Exercising the power vested by the EO, the Permanent Secretary for Education (PS(Ed)) has established an internal task force comprising the EDB's directorate officers to review the registration status of all teachers involved in malpractice or professional misconduct and report back to the PS(Ed) with recommendations on follow-up actions, including cancelling the registration of the teachers concerned or refusing their registration applications.

All along, the EDB has been handling cases involving registered teachers committing malpractice or professional misconduct with a serious attitude and strict standards. The EDB will decide the form of penalty in an objective and fair manner based on the nature and severity of the incident and careful examination of available information, including relevant investigation reports (such as school reports and documents relevant to the legal proceedings), and inform the teacher concerned of its decision and justifications.

Pursuant to section 61(1) of the EO regarding the right of appeal to Appeal Board, a person upon receiving the notice from the PS(Ed) may appeal to an Appeal Board against the decision of the PS(Ed) referred to in the notice. The procedure on appeal is set out in sections 62 (1) to (7) of the EO. The teacher concerned may lodge an appeal following the established procedure.

In the past 5 years (2015 to 2019), the EDB handled a total of 318 misconduct cases. The EDB cancelled the registration or refused the registration applications of 30 teachers, and issued reprimand letters to 12 teachers, warning letters to 127 teachers, and advisory letters to 44 teachers. For the remaining 72 cases, since the teachers' misconduct involved was minor and/or disciplinary actions had been taken by their schools, only verbal advice was

given by the EDB or no follow-up actions were required on the part of the EDB. The EDB considered each case on its own merits and in a fair and objective manner. Teachers' personal misconduct is unrelated to the type of schools in which they serve. When reviewing a teacher's registration status, the EDB mainly considers the severity of the misconduct or malpractice committed by the teacher, such as whether it involves offences of a sexual nature, the impact or possible impact of his words and deeds on students' safety and well-being, etc. As categorising cases by their nature, the type of schools in which the teachers serve or the type of criminal offences involved is not meaningful, we have not compiled the relevant figures.

The EDB handles provident fund matters of grant/subsidised schools in accordance with the Grant Schools Provident Fund Rules and Subsidised Schools Provident Fund Rules. Among the above-mentioned cases where teachers had their registration cancelled or application refused, 7 teachers were not given the Government's donations and the dividend thereon upon withdrawal from the Subsidised/Grant Schools Provident Fund.

CONTROLLING OFFICER'S REPLY**EDB501****(Question Serial No. 3630)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(a) Has the Education Bureau (EDB) implemented any policies on family-friendly employment practices (FFEPs) in schools in the past 5 years (from 2015 to 2019)? If yes, what are the specific measures? If no, what are the reasons? Does the EDB plan to implement any policies on FFEPs in schools?

(b) How many schools have set up a breastfeeding room? What are the types of these schools?

(c) Has the EDB received any application from schools to set up a breastfeeding room by changing the use of another one in the past 5 years (from 2015 to 2019)? If yes, have the applications been approved? Please use the table below to provide a breakdown of the information.

Year	School type	Application status	Reasons for rejecting the application

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 243)

Reply:

(a)

Through various channels and a wide range of publicity activities, the Government has been actively encouraging employers to adopt “employee-oriented” good human resource management measures, including the implementation of family-friendly employment practices (FFEPs). Employers are encouraged to adopt FFEPs that serve the best interests of their enterprises and employees, having regard to their individual circumstances and affordability the unique business environment and operations of specific industries, as well as the actual needs of their employees.

Schools are the employers of all school staff. The Education Bureau (EDB) has strived to help schools create a family-friendly work environment through different measures. As the school sponsoring body of government schools, the Government has taken the lead in this respect. For leave policy, far before the Amendment Ordinance for five-day paternity leave as stipulated in the Employment Ordinance came into effect in January 2019, the Government has granted a paternity leave of 5 working days to eligible male employees of government schools since 1 April 2012 and the EDB has provided eligible male staff of aided, caput and Direct Subsidy Scheme (DSS) schools with a paternity leave of 5 working days since 1 September 2012. As for maternity leave, it is proposed in the Policy Address 2018 that the statutory maternity leave would be extended from the current 10 weeks to 14 weeks. While legislative amendments take time, the Government has extended the maternity leave for all eligible female employees of government schools to 14 weeks since 10 October 2018. Likewise, the new measure of extending the maternity leave for eligible female staff to 14 weeks has been implemented in kindergartens joining the kindergarten education scheme, aided, caput and DSS schools since 1 January 2019, and the schools concerned have been provided with a staff relief grant. Besides, teachers are entitled to have school holidays. For example, the total number of school holidays for a public sector school teacher is about 90 days, including several longer holidays such as Christmas, Chinese New Year, Easter and summer vacation. Generally speaking, teachers may spend these holidays with their family on family activities whatever they like except for certain days on which they are required to return to school to serve as duty teachers or handle certain teaching affairs.

(b) and (c)

Under school-based management, schools may, having regard to the capacity and facilities of the school premises, make flexible use of existing resources and space to implement the Breastfeeding Friendly Workplace policy according to the needs of their staff, such as providing a private space for expression of breastmilk and refrigerators for storage of breastmilk. Schools are not required to seek approval from the EDB if implementation of these measures do not involve any structural alterations to the school premises or any change to teaching facilities such as classrooms and special rooms and will not affect school's normal operation. The EDB has neither collected statistics on the number of schools that have a breastfeeding room nor received any application in this regard.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

The Controlling Officer stated that the Bureau “will redeploy resources previously dedicated to production of educational television programmes to development of diversified educational multimedia resources to support learning and teaching in schools”. Please advise this Committee of the direction and specific examples of “developing diversified educational multimedia resources to support learning and teaching in schools” as well as the related measures.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 248)

Reply:

Starting from 2020-21, educational television (ETV) service will be repositioned in light of the recommendations made in the Director of Audit’s Report No.71. The Education Bureau (EDB) will redeploy resources previously dedicated to the production of ETV programmes and cease to provide annual funding for Radio Television Hong Kong (RTHK) to produce a certain number of ETV programmes. Instead, the EDB will develop diversified multimedia learning and teaching resources with reference to curricular needs, including thematic short videos, micro movies, photos, sound tracks, interactive games, as well as picture books, nursery rhymes and props for storytelling for kindergartens. Moving beyond the confines of television programmes, these educational resources are produced to better meet schools’ teaching needs. To produce the diversified learning and teaching resources outlined above, the EDB will increase the scale of commissioning the production of multimedia resources by engaging service providers in the market to tap innovative inputs and enhance production quality. RTHK will be invited to bid for the contracts just like other service providers with production experience. The estimated expenditure for the development of diversified educational multimedia resources for 2020-21 is \$30 million.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

When asked about the number of schools adopting Putonghua as the medium of instruction for teaching the Chinese Language Subject (PMIC) in the past, the Education Bureau (EDB) kept saying that it did not keep track of such information because the number of schools adopting PMIC varied every year. Would the EDB advise this Committee:

- (a) whether it still considers PMIC a long-term target?
- (b) of the reasons why it does not have a grasp on the number of schools adopting PMIC if it still considers PMIC a long-term target; and whether it will consider compiling the relevant statistics in future.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 249)

Reply:

The promotion of biliteracy and trilingualism has always been an advantage of Hong Kong. Schools have been providing Putonghua curriculum to nurture students' Putonghua proficiency. Primary and secondary schools in Hong Kong choose a suitable medium of instruction (MOI) for teaching the Chinese Language curriculum based on their professional considerations. The Education Bureau has never made it mandatory for schools to use Putonghua as the MOI for teaching the Chinese Language Subject. Schools may decide whether to use Putonghua as the MOI at certain class levels/in some classes with regard to school context, such as readiness of teachers, standards of students, language environment of the school, curriculum planning, availability of learning and teaching support, etc. As adoption of Putonghua as the MOI for teaching the Chinese Language Subject is a school-based language policy, and the numbers of schools, classes and students involved vary every year, we have not kept track of the relevant information.

EDB504

(Question Serial No. 3637)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the “One Executive Officer for Each School” policy, what are the respective numbers of full-time Executive Officer in public sector primary, secondary and special schools in the current school year? How many of these full-time Executive Officer posts are created within the permanent establishment or by using the School Executive Officer Grant? What are the respective median monthly salaries?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 250)

Reply:

Starting from the 2019/20 school year, the Education Bureau has implemented the “One Executive Officer for Each School” policy under which public sector schools and schools under the Direct Subsidy Scheme are provided with resources for hiring additional administrative manpower. Schools may opt to create a regular School Executive Officer (School ExO) post or receive the School Executive Officer Grant (SEOG). Schools that choose to create the post are required to recruit at least one full-time School ExO with a local bachelor’s degree (or equivalent); and schools that choose to receive the SEOG may procure school administration-related service from service provider(s) which should include the arrangement of at least one full-time school-stationed School ExO with a recognised degree for provision of service for schools.

In the 2019/20 school year, a total of 89 aided schools (including special schools) and caput schools created a regular School ExO post. The salary of the post is pegged at that of a civil service Executive Officer II, i.e. Civil Service Master Pay Scale Points 15 to 27. Another 754 aided schools (including special schools) and caput schools received the SEOG. The amount of the SEOG is benchmarked against the mid-point salary of a civil service Executive Officer II and subject to annual adjustment according to the mid-point salary of civil service Executive Officer II.

In the 2019/20 school year, all government schools (65 in total) recruited contract School Administrative Executives with the SEOG. Similar to aided and caput schools, the amount of the SEOG is benchmarked against the mid-point salary of a civil service Executive Officer II and subject to annual adjustment according to the mid-point salary of civil service Executive Officer II.

CONTROLLING OFFICER'S REPLY**EDB505****(Question Serial No. 3638)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (4) Secondary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

In respect of schools offering local curriculum in the past 5 years, at Secondary 4:

(A) How many elective subjects, on average, were actually offered in each school? Please provide a breakdown of the figures by school type (government, aided, Direct Subsidy Scheme, etc.), as well as the overall average.

(B) Please provide the number of schools offering different numbers of elective subjects in the table below:

No. of elective subjects actually offered	No. of schools	Percentage out of the total number of schools
5 or fewer		
6 to 10		
11 to 15		
16 or above		
Total		100%

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 251)Reply:

The New Academic Structure implemented since 2009 provides students with a broad and balanced senior secondary curriculum which allows them to choose the subjects suitable for them and explore future development possibilities. Apart from the four core subjects (i.e. Chinese Language, English Language, Mathematics and Liberal Studies), schools also offer elective subjects at the senior secondary level (including Other Languages and Applied Learning courses) as well as Other Learning Experiences to cater for students' diverse interests, abilities and needs.

(A) According to the information provided by schools, government, aided and Direct Subsidy Scheme schools offering the local senior secondary curriculum provided, on average, about 11 elective subjects at Secondary 4 in the past 5 years.

(B) According to the information provided by schools, the number of schools offering the local senior secondary curriculum and the number of elective subjects offered at Secondary 4 in the past 5 years are set out below:

No. of elective subjects offered at Secondary 4	No. of schools (percentage)				
	2014/15 school year	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year
5 subjects or fewer	4 (0.9%)	4 (0.9%)	5 (1.1%)	5 (1.1%)	5 (1.1%)
6 to 10 subjects	171 (38.2%)	156 (34.9%)	160 (35.9%)	166 (37.3%)	165 (37.1%)
11 to 15 subjects	268 (59.8%)	283 (63.3%)	276 (61.9%)	271 (60.9%)	270 (60.7%)

CONTROLLING OFFICER'S REPLY**EDB506****(Question Serial No. 3639)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

What are the respective numbers of establishment and non-establishment teachers possessing a Master's degree or above qualifications in the past 5 years? Please provide a breakdown by public sector primary, secondary and special schools.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 252)Reply:

The respective number of teachers with a Master's degree or above qualifications within and outside the staff establishment of public sector primary, secondary and special schools from the 2015/16 to 2019/20 school years is tabulated as follows:

Primary schools (government and aided schools)

School year	No. of teachers with a Master's degree or above qualifications *	
	Establishment teachers	Non-establishment teachers
2015/16	5 740	330
2016/17	5 960	380
2017/18	6 390	410
2018/19	6 730	460
2019/20 (estimate)	6 970	440

Secondary schools (government, aided and caput schools)

School year	No. of teachers with a Master's degree or above qualifications *	
	Establishment teachers	Non-establishment teachers
2015/16	10 780	940
2016/17	10 900	930
2017/18	11 210	750
2018/19	11 290	790
2019/20 (estimate)	11 460	730

Special schools

School year	No. of teachers with a Master's degree or above qualifications *	
	Establishment teachers	Non-establishment teachers
2015/16	600	20
2016/17	620	10
2017/18	690	10
2018/19	700	10
2019/20 (estimate)	720	20

* Figures are rounded to the nearest ten.

Question:

Please tabulate the number of students in (a) Kwai Tsing, (b) Tsuen Wan, (c) Tuen Mun, (d) Yuen Long and (e) Islands, under the categories of (a) kindergartens: (a1) local and (a2) non-local; (b) primary schools: (b1) government, (b2) aided, (b3) Direct Subsidy Scheme, (b4) private and (b5) international; (c) secondary schools: (c1) government, (c2) aided, (c3) Direct Subsidy Scheme, (c4) private and (c5) international; (d) special schools: (d1) local/aided and (d2) international/English Schools Foundation.

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 363)

Reply:

The numbers of students in kindergartens, primary schools and secondary schools by district (Kwai Tsing, Tsuen Wan, Tuen Mun, Yuen Long and Islands) and sector in the 2019/20 school year are set out at Appendix 1.

Since the number of students who need to be admitted to special schools is relatively small, the planning and provision of special schools are not on a district basis, and not every district has a special school. As such, providing corresponding figures for the above districts is not meaningful.

**Number of students in kindergartens by district and type of kindergartens
in the 2019/20 school year**

District	Local	Non-local	All Types
Kwai Tsing	9 487	454	9 941
Tsuen Wan	7 002	10	7 012
Tuen Mun	11 455	329	11 784
Yuen Long	15 381	967	16 348
Islands	3 554	727	4 281

Notes:

- (1) Figures refer to the position as at 16 September 2019.
- (2) Figures include nursery, lower and upper classes in kindergarten-cum-child care centres.
- (3) School districts are delineated by the District Council districts of the school campuses.

**Number of students in primary schools by district and sector
in the 2019/20 school year**

District	Government	Aided	Direct Subsidy Scheme	Private	International	All Types
Kwai Tsing	0	18 820	518	0	0	19 338
Tsuen Wan	1 778	11 853	0	63	0	13 694
Tuen Mun	662	23 235	783	84	550	25 314
Yuen Long	2 740	29 127	1 513	564	0	33 944
Islands	0	6 739	0	1 061	839	8 639

Notes:

- (1) Figures refer to the position as at 16 September 2019.
- (2) Figures include ordinary primary schools, but not special schools.
- (3) School districts are delineated by the District Council districts of the school campuses.

**Number of students in secondary schools by district and sector
in the 2019/20 school year**

District	Government	Aided	Caput	Direct Subsidy Scheme	Private	International	All Types
Kwai Tsing	0	20 401	0	0	0	0	20 401
Tsuen Wan	839	8 439	0	0	0	0	9 278
Tuen Mun	1 420	19 290	0	0	0	732	21 442
Yuen Long	3 221	20 262	0	3 709	66	0	27 258
Islands	261	3 442	0	1 231	772	395	6 101

Note:

- (1) Figures refer to the position as at 16 September 2019.
- (2) Figures include ordinary secondary day schools, but not special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses.

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 364)

Reply:

The numbers of kindergartens, primary schools and secondary schools by type/sector and by district (Kwai Tsing, Tsuen Wan, Tuen Mun, Yuen Long and Islands) in the 2019/20 school year are tabulated at Appendix 1.

Since the number of students who need to be admitted to special schools is relatively small, the planning and provision of special school places are not on a district basis, and not every district has various types of special schools. As such, providing corresponding figures by district is not meaningful. The number of local aided special schools by type in the 2019/20 school year is tabulated at Appendix 2.

There is one special school under the category of English Schools Foundation (ESF) schools and other private international schools. The ESF schools and other private international schools also offer integrated classes / special classes to provide support to students with special educational needs.

Number of kindergartens by district and by type in the 2019/20 school year

District	Local	Non-local	All types
Yuen Long	72	6	78
Tuen Mun	66	3	69
Tsuen Wan	40	1	41
Kwai Tsing	61	3	64
Islands	27	9	36

Note:

- (1) Figures include kindergarten-cum-child care centres but not special child care centres registered under the Social Welfare Department.
- (2) School districts are delineated by the District Council districts of the main campuses of the schools.

Number of primary schools by district and by sector in the 2019/20 school year

District	Government	Aided	Direct Subsidy Scheme	Private	International	All sectors
Yuen Long	3	43	2	3	0	51
Tuen Mun	1	33	1	1	1	37
Tsuen Wan	2	19	0	1	0	22
Kwai Tsing	0	30	1	0	0	31
Islands	0	16	0	5	2	23

Note:

- (1) Figures include ordinary primary schools but not special schools.
- (2) School districts are delineated by the District Council districts of the main campuses of the schools.

Number of secondary schools by district and by sector in the 2019/20 school year

(Question Serial No. 4773)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Education Bureau has enhanced the provision of student guidance service for primary schools by implementing the policy of “one school social worker for each school” in public sector ordinary primary schools, with a view to strengthening student guidance service in these schools. In this connection, would the Administration advise this Committee:

- (1) of the expenditure on the enhancement measure;
- (2) how it can ensure that schools will use the resources to recruit social workers and hence achieve the goal of “one school social worker for each school”; and
- (3) whether it will specify the rank and number of social workers employed by schools under the “one school social worker for each school” policy; if yes, of the details; if no, of the reasons.

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 393)

Reply:

(1) to (3)

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. The new measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources so that each public sector primary school is served by at least one school-based registered graduate social worker with professional qualifications to further enhance the overall quality of guidance service.

Schools that adopt the new funding mode may choose to create a regular Assistant Social Work Officer (ASWO) post on the approved staff establishment. The salary of the ASWO employed by schools is pegged to that of the civil service post, i.e. point 16 to point 33 on Master Pay Scale. Schools may also choose to receive the School Social Work Service Grant to employ a school-based registered graduate social worker or hire the service of a school-based registered graduate social worker from a social work service provider. In parallel, schools are provided with the Consultation Service Grant to procure consultation, supervision or other support services for school social workers to ensure service quality.

The Education Bureau (EDB) will provide a three-year transitional period for schools to switch to the new funding mode before the 2021/22 school year. In case schools are not able to switch to the new funding mode after the three-year transitional period owing to the need for more time to handle personnel matters, including retaining their serving student guidance personnel due to special needs, they may discuss with the EDB separately. In the 2019/20 school year, 309 public sector primary schools (i.e. about 70%) have switched to the new funding mode; the estimated total expenditure on student guidance service under the old and new funding modes is \$487 million.

We will collect data and views by such means as questionnaire surveys, school visits and meetings with the education sector to ensure that schools can make proper use of the resources and achieve the goal of “one school social worker for each school”. We will also maintain communication with stakeholders and heed their views and suggestions on the best way to provide social work and guidance services for students and render effective support to them.

Question:

Regarding student suicide, would the Government inform this Committee:

- (a) of the number of suicides involving local students (including post-secondary, secondary and primary students) in the past 10 years;
- (b) whether there are any preventive measures against student suicide? If yes, what are the details and the staff establishment and resources involved? In the past 10 years, what were the measures taken and their effectiveness?

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 590)

Reply:

(a)

The Education Bureau (EDB) has all along required primary and secondary schools to report suspected fatal suicide cases of students to keep in view the situation and facilitate the provision of appropriate professional support for the schools concerned. The nature and number of fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. The EDB has not captured the relevant information from the Court. Hence, we are unable to provide officially verified figures on students' fatal suicide cases. The EDB has not requested post-secondary institutions to make similar reports. The number of suspected fatal suicide cases of students as reported by primary and secondary schools to the EDB in the past 5 school years is tabulated as follows:

School year	2014/15	2015/16	2016/17	2017/18	2018/19
No. of cases	9	19	19	16	20

(b)

The EDB has been encouraging schools to adopt the Whole School Approach directed at 3 levels, namely “Universal”, “Selective” and “Indicated”, to promote mental health among students and enhance support for students with mental health needs (including students with suicidal risk).

At the Universal level, the EDB has been actively promoting diversified development programmes featuring adventure-based, team building and problem-solving training, such as the “Understanding Adolescent Project” for primary schools, the “Enhanced Smart Teen Project” for secondary schools and the “Pupil Ambassador Scheme on Positive Living”, to enhance students’ resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. Starting from the 2019/20 school year, the EDB has allocated more resources to enhance the above development programmes. The expenditure for 2018-19 was around \$66 million and the estimated expenditure for 2019-20 is around \$76 million. From the 2016/17 to 2018/19 school years, the EDB and the Department of Health jointly launched the Joyful@School Campaign to enhance students’ awareness and understanding of mental health and strengthen their ability to cope with environmental changes. During the implementation period of the Campaign, schools (or in collaboration with non-governmental organisations) can submit proposals to the Quality Education Fund (QEF) for funding of not exceeding \$200,000 through simplified procedures to organise activities related to the Campaign. More than 800 applications were approved under the Campaign with total funding amount of over \$160 million. Building on past experiences and insights, many schools have continued to promote mental health in schools subsequently. Besides, the EDB has chosen “Expressing gratitude, to cherish, be proactive and optimistic” as the theme for promoting values education in schools in the current and the next 2 school years. We will also provide relevant teaching resources, organise student activities and professional development programmes for teachers to encourage all schools in the territory to create a favourable ambiance for positive education. Expenditure related to promotion of this theme is subsumed under the recurrent expenditure of the EDB, and no breakdown of figures is available. Furthermore, the QEF implemented “My Pledge to Act – Expressing gratitude, to cherish, be proactive and optimistic” Funding Programme for 3 consecutive school years starting from the 2019/20 school year. Publicly-funded schools and kindergartens joining the kindergarten education scheme may apply to the QEF for additional resources to organize relevant activities and to create a learning environment conducive to cultivating positive values among students. A total of 154 schools and 105 kindergartens have submitted applications in the 2019/20 school year. As at February 2020, funding amount of about \$20 million was approved by the QEF.

At the Selective level, starting from the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with special educational needs (SEN) pitched at basic, advanced and thematic levels (BAT Courses). Some modules of the BAT Courses cover mental illness. From the 2017/18 school year onwards, the EDB has also provided teachers of primary and secondary schools with the “Professional Development Programme for Mental Health”, including 3-day elementary training for teachers at large and 5-day in-depth training for designated teachers with a view to raising their awareness of mental health and enhancing their professional knowledge and skills to identify and support students with mental health needs. The EDB has provided schools with around 2 300 training places up to the 2019/20 school year. Besides, in each school year, the EDB also organises talks, seminars, experience sharing sessions, etc., on

supporting students with mental health needs for primary and secondary school teachers to equip more of them with the knowledge and capacity to support students with mental health needs. Taken together, the revised estimated expenditure for teacher training courses on supporting students with SEN and various related training activities for the 2019/20 school year is about \$100 million. The estimated expenditure for the 2020/21 school year is about \$90 million. To help schools identify and support students with mental health needs, the EDB has published “A Resource Handbook for Schools: Detecting, Supporting and Making Referral for Students with Suicidal Behaviours” and “Teacher’s Resource Handbook on Understanding and Supporting Students with Mental Illness” which was developed in collaboration with the Hospital Authority (HA) for reference of teachers and school personnel.

At the Indicated level, starting from the 2017/18 school year, the Learning Support Grant covers students with mental illness so that schools can have additional resources to strengthen their support for these students’ learning, social, emotional and behavioural needs. Moreover, the Food and Health Bureau, in collaboration with the EDB, the HA and the Social Welfare Department, has launched the “Student Mental Health Support Scheme” since the 2016/17 school year to provide appropriate support services for students with mental health needs through a school-based platform. There are 90 schools benefiting from this Scheme in the 2019/20 school year.

Regarding enhancement of family life and parent education, the EDB endeavors to promote home-school co-operation and parent education. The EDB has all along been supporting the Committee on Home-School Co-operation in organising parent activities and seminars to equip parents with the necessary knowledge about helping their children in respect of growth and development, enhancing their parental skills, as well as assisting them in the early identification of their children’s emotional problems and fostering positive thinking in their children. Besides, the EDB launched a website called “Smart Parent Net” in early 2018 to enable parents with children from kindergarten to primary and secondary school levels to easily access useful information on supporting the physical and mental development of students, which includes the parent-child relationship, character development, parenting skills and emotional management of parents. In parallel, the Education Commission set up the Task Force on Home-school Co-operation and Parent Education (the Task Force) in December 2017 to review the existing approach in promoting home-school co-operation and parent education and to formulate the direction and strategy for fostering home-school co-operation and promoting parent education with the objective of assisting parents to help their children grow up happily and healthily, and learn effectively through, among others, promotion of a correct understanding of developmental needs of children and adolescents as well as avoiding excessive competition. The Task Force submitted its report to the EDB on 29 April 2019, and the EDB has fully accepted the recommendations. Starting from the 2019/20 school year, the Federations of Parent-Teacher Associations and Parent-Teacher Associations of schools are provided with additional resources for enhancing home-school co-operation and promoting parent education. The EDB will soon launch a territory-wide “Positive Parent Campaign” to enable the public to understand the importance of happy and healthy development of children and enhance parents’ awareness of positive parenting through a series of publicity activities. In 2019-20 financial year, the expenditure for promoting home-school co-operation and parent education is around \$64.38 million.

Question:

(1) What is the total amount of provision allocated for updating government departments' online teaching materials on sex education in 2019/20? What is the amount of provision earmarked for this purpose in 2020/21?

(2) What is the total amount of provision allocated to schools and teachers' training for implementing sex education in 2019/20? What is the amount of provision earmarked for this purpose in 2020/21?

(3) What is the total amount of provision allocated to non-governmental organisations (NGOs) for promoting sex education among young people in 2019/20? What is the amount of provision earmarked for this purpose in 2020/21?

(4) It has been nearly 10 years since the Government conducted a questionnaire survey on life skills-based education on HIV/AIDS or sex in primary and secondary schools in the 2011/12 school year. Will the Government launch a similar study in 2020/21 to examine how sex education is offered in local schools? If not, will NGOs be invited to apply for funding to undertake such a study?

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 899)

Reply:

(1) to (3)

As part of values education, sex education is included in the curricula of Key Learning Areas ("KLAs"), relevant subjects and moral and civic education of primary and secondary schools. As a government department, the Education Bureau (EDB) has been promoting values education (including sex education) in schools to foster students' whole-person development through cross-curricular learning and the provision of a wide array of support (including online teaching materials and professional development programmes). To

support the implementation of values education (including sex education) in schools, the EDB has been providing schools with various learning and teaching (L&T) resources, including student worksheets, audio-visual teaching materials, animation resources, etc. , and developing life event exemplars on different topics, such as “dating and falling in love”, “traps in making friends via mobile apps”, “witnessing public display of affection”, “prevention of sexual assaults” and “impacts of browsing pornographic websites” with a view to helping teachers deepen students’ understanding of related topics and nurture in them moral values as well as proper attitude and behaviour through arranging learning activities such as discussion, sharing and reflection. The related L&T resources have been uploaded to the EDB’s webpage for teachers’ reference. The EDB has also been commissioning/inviting tertiary institutions, relevant government departments and non-governmental organisations (NGOs) to organise professional development programmes on a range of themes, such as “How to Promote Sex Education Effectively in Primary/Secondary Schools”, “How Social Networking Affects the Sex Concept and Love Attitude of Adolescents” and “Learning and Teaching Strategies for Preventing Sexual Harassment”, for both principals and teachers to enhance their professional knowledge and teaching strategies. Since the relevant expenditure and manpower resources incurred in developing L&T resources, organising professional development programmes and the tasks related to curriculum development are subsumed under the recurrent expenditure of the EDB, no breakdown of figures is available.

The EDB also provides various subsidies and grants, including the Operating Expenses Block Grant/Expanded Operating Expenses Block Grant and Life-wide Learning Grant, to schools for their flexible deployment to implement their school-based curriculum and conduct learning activities that promote values education (including sex education). Taking into consideration their own school contexts and students’ developmental needs, schools may also flexibly use the grants to procure services from suitable organisations (including NGOs) to assist in organising related learning activities with a view to enriching students’ learning experiences. In the 2019/20 school year, the Quality Education Fund (QEF) has included “Positive Values” as one of its priority themes. Schools, educational bodies and NGOs may apply to the QEF for funding to implement innovative projects related to values education (including sex education) to foster students’ whole-person development.

(4)

In 2013, the Hong Kong Advisory Council on AIDS conducted a survey on life skills-based education on HIV/AIDS at the junior secondary level to inform the formulation of the Recommended HIV/AIDS Strategies for Hong Kong (2017-2021). The survey results revealed that most schools in Hong Kong had integrated HIV education into KLAs/subjects. Apart from the above survey, the EDB has also been drawing reference to other studies carried out by different organisations. Through different channels such as school inspections and visits, the EDB learns about the implementation of values education (including sex education) in schools and collects good exemplars for dissemination and sharing. We will also offer advice on areas for improvement as necessary to enhance the relevant support for schools. The EDB has no immediate plan to launch a study on values education (including sex education).

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information in tabular form: (1) the number of schools that currently open up their facilities after school hours for use by sports organisations in all the 18 districts, the opening hours, as well as the types of organisations they open to; and (2) whether the Education Bureau has any plan to open up more school facilities after school hours; if yes, what are the timetable and details; if no, the reasons?

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 983)

Reply:

(1) It has been the Government's policy to encourage schools to open up their facilities and hire out their premises to community organisations as a means to foster collaboration between schools and the community. At present, most schools open up their school facilities after school hours to various groups or organisations for holding different activities, including those for parent-teacher associations, alumni associations, school sponsoring bodies and non-profit making organisations. To further encourage schools to open up their school facilities for sports organisations to hold sports activities, the Education Bureau (EDB) and the Home Affairs Bureau (HAB) jointly launched the Opening up School Facilities for Promotion of Sports Development Scheme (the Scheme) in the 2017/18 school year. In the 2019/20 school year, more than 130 schools in the territory have indicated willingness to open up their facilities to sports organisations under the Scheme and there are a total of 37 sports organisations succeeded in participating in the Scheme. So far, 276 squad training programmes, young athletes training programmes and district sports activities have been scheduled to take place in 60 schools in the 2019/20 school year. Participating schools can open up their school hall, activity room, open or covered playground with ball courts, sports ground, classroom and soccer pitch for sports organisations to hold sports activities during weekends, school holidays and/or after-school hours on weekdays. For each programme/activity, schools should make related facilities available for a total of at least 24 hours. They can also provide more than one facility for sports organisations to hold

different programme(s) during the same time slots and/or at different time slots. Participating sports organisations shall be National Sports Associations, their affiliated club members, District Sports Associations or sports organisations recognised by the HAB.

The EDB does not have information about schools that have made their own arrangements to open up their facilities to sports organisations outside the Scheme.

(2) The Government will continue to encourage schools to open up their facilities as far as practicable in order to strengthen collaboration between schools and the community. Since inception, the Scheme has been well-received by stakeholders. Having collected views from participating schools and sports organisations, the EDB and HAB conducted a review on the implementation of the Scheme and introduced various enhancement measures in the 2018/19 school year, which include extending the Scheme from public sector schools to Direct Subsidy Scheme schools; raising the cap on subsidy receivable by schools for opening up school facilities from \$80,000 to \$130,000 per school year; and expanding the list of eligible sports organisations. In the 2019/20 school year, we allow non-profit-making organisations with the ability and experience, as well as a good track record in running sports programmes in schools and the community to join the Scheme on a pilot basis. In addition, participating schools are eligible to apply for a grant ranging from \$0.7 million to \$4 million from the Sir David Trench Fund for Recreation for improving or upgrading their sports facilities. The EDB and HAB will continue to collect views from participating schools, sports organisations and other stakeholders for continuous enhancement of the Scheme. We hope that more sports activities will be conducted with the use of school facilities.

(Question Serial No. 6125)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government states that it will extend the Enhanced School-based Educational Psychology Service (SBEPS) (with the ratio of educational psychologist (EP) to school being 1:4) to about 60 per cent of all public sector primary and secondary schools and enhance the ratio of EP to school to 1:6 for the remaining 40 per cent of schools by the 2023/24 school year. Please advise this Committee of:

(a) the progress of the enhanced SBEPS, which is implemented since the 2016/17 school year and taken forward with the Government's stated goal of further extending the enhanced SBEPS to about 60 per cent of all public sector primary and secondary schools by the 2023/24 school year, including:

(i) the number of schools with the ratio of EP to school below 1:6 before the introduction of the enhanced SBEPS and their actual ratio;

(ii) the number of schools with the ratio of EP to school above 1:6 before the introduction of the enhanced SBEPS and their actual ratio; and

(iii) the number of schools reaching the ratio of 1:6 in each school year after the introduction of the enhanced SBEPS, with a breakdown of expenditure;

(b) the timetable for providing the enhanced SBEPS for the remaining 40 per cent of schools and the expenditure involved, with a breakdown by item, and the expenditure involved;

(c) in the form of a table, the number, remuneration, per capita expenditure and total expenditure of EPs, as well as the number of schools and persons each EP serves and the duration of service from the 2015/16 to 2019/20 school years;

(d) the year-on-year change in the ratio of EP to school since the implementation of the new measure; and

(e) whether the effectiveness of school-based EP services in primary and secondary schools has been improved because of the new measure; whether the Government has evaluated the effectiveness of the services by, for example, conducting seminars, consultation sessions or questionnaire surveys for schools, parents or students; if yes, of the details; if no, of the reasons.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 8)

Reply:

(a) to (d)

Before the 2016/17 school year, the ratio of educational psychologist (EP) to public sector ordinary school is close to or higher than 1:7. Since the 2016/17 school year, all public sector ordinary primary and secondary schools have been provided with the School-based Educational Psychology Service (SBEPS). The Education Bureau (EDB) has also started to progressively implement the Enhanced School-based Educational Psychology Service (Enhanced SBEPS) by improving the ratio of EP to school to 1:4 for public sector ordinary primary and secondary schools with comparatively large number of students with special educational needs (SEN). Except for schools provided with the Enhanced SBEPS, the ratio of EP to school is around 1:7 to 1:8 in other schools. The numbers of schools receiving the SBEPS and the Enhanced SBEPS and their respective percentage shares in the total number of public sector ordinary primary and secondary schools in the territory from the 2016/17 to 2019/20 school years are tabulated as follows:-

No. of schools receiving the services	School year			
	2016/17	2017/18	2018/19	2019/20
SBEPS (Percentage share)	815 (96%)	763 (91%)	726 (86%)	675 (80%)
Enhanced SBEPS (Percentage share)	30 (4%)	80 (9%)	119 (14%)	169 (20%)

The EDB plans to extend the Enhanced SBEPS to about 210 schools (around 25% of public sector ordinary primary and secondary schools in the territory) in the 2020/21 school year and will keep in view the implementation of the Enhanced SBEPS and the supply and demand of EPs to decide the additional number of schools to be included annually thereafter.

From the 2015/16 to 2019/20 school years, the respective number of EPs providing SBEPS is 114, 138, 144, 151 and 156. Their salaries fall within points 34 to 44 on the Master Pay Scale. The total expenditure involved in the provision of SBEPS is tabulated as follows:-

School year	2015/16	2016/17	2017/18	2018/19	2019/20 (revised estimate)
Expenditure (\$ million)	103	119	127	139	183

Currently, under the SBEPS, the average number of visit days paid by EPs to each school is around 20 per school year, while for schools receiving the Enhanced SBEPS, the average number of visit days to each school is around 30. The SBEPS adopts a comprehensive and integrated service model that aims at enhancing schools' professional capacity to cater for students' diverse educational needs. EPs provide support at the school system, teacher and student levels. Specifically, EPs provide assessment and intervention services for students, training for parents, consultation and professional development programmes for teachers, and offer professional advice on school policies and measures in relation to supporting students with diverse educational needs. In other words, the services provided by EPs under the SBEPS go beyond handling individual student cases. By enhancing the school support system and teachers' knowledge and skills in catering for students' diverse needs, all students in the participating schools will benefit from the provision of the SBEPS directly or indirectly. Thus, reporting the number of students benefiting from the service does not reflect appropriately and comprehensively the actual service provided under the SBEPS and can be misleading.

(e)

A quality assurance mechanism has been put in place to evaluate service effectiveness and to ensure service quality. Under the mechanism, the EDB conducts an annual review through a questionnaire survey among participating schools and EPs at the end of a school year to gauge feedback from different stakeholders. The EDB also conducts school visits to review service deliverables (including the work plans and progress reports submitted by EPs) and to hold meetings with EPs and school personnel to advise on issues related to the implementation of the SBEPS. Parents' views on the service are collected through questionnaires. In addition, the EDB holds regular meetings with the school sponsoring bodies providing the service to review service planning and coordination. Views given by different stakeholders indicated that the SBEPS was able to meet the needs of schools and the satisfaction level among schools receiving the Enhanced SBEPS had also risen.

CONTROLLING OFFICER'S REPLY**EDB514****(Question Serial No. 6128)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Last year, the Government announced the plan to provide all public sector and Direct Subsidy Scheme secondary and primary schools with a one-off grant of \$150,000 and \$100,000 respectively for the promotion of Chinese history and culture among students. Please advise this Committee of the following:

(a) What is the current position on the use of the grant? Please tabulate the items and their expenditures in connection with the use of the grant by public sector and Direct Subsidy Scheme primary and secondary schools.

	Item	Year	Content (place, time, etc.)	Number	No. of schools involved	Amount (\$)
1 (e.g.)	Mainland exchange tour					
2 (e.g.)	Seminar					
3 (e.g.)	Teacher professional training activity					
4						

(b) How effective is the grant? If such data are not available, what are the reasons and how can the Education Bureau (EDB) ascertain schools' effective use of the grant to help students better understand Chinese history and culture?

(c) The grant will lapse in August this year and an unspent balance of about \$2.7 million is anticipated. How many primary and secondary schools are involved? The Administration indicates that it will make an overall assessment on schools' deployment of different grants and review the need to disburse each type of grant. How is preparation work for the assessment proceeding? If there is none, what are the reasons?

(d) In future, will the EDB make similar projects or grants available to schools so that they are supported in relevant work? If yes, what are the details? If no, what are the reasons?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 19)

Reply:

(a) to (d)

A one-off grant for the promotion of Chinese history and culture was disbursed in 2017 with a view to enhancing students' understanding of Chinese history and culture. In line with the principle of school-based management, schools may, in light of their context and development needs, flexibly deploy the grant to support teachers in improving their teaching, and developing school-based activities that help promote Chinese history and culture education. When using the grant, schools are required to report details of the funded projects/activities (including the nature of activity, amount of provision used, students' participation rate and assessment results) to their Incorporated Management Committee/School Management Committee for endorsement. Schools are also required to comply with guidelines issued by the Education Bureau (EDB) on financial management (including procurement procedures and relevant requirements), and set out the details in the audited accounts to be submitted to the EDB annually. The EDB does not make it compulsory for schools to separately submit an expenditure report together with relevant statistics on the grant or compile statistics on the use of the grant. The EDB has been learning about schools' use of the grant and gathering their feedback on its usage through various channels, such as teachers' professional training activities, focus group meetings and curriculum development visits. At this stage, we have learnt that the grant is mainly used for organising Mainland study trips/exchange tours for students, school-based and joint-school learning activities (e.g. Chinese history drama appreciation and Chinese History week), and procuring teaching materials and e-resources (e.g. films). It is understood that teachers generally consider the one-off grant useful in promoting school-based activities pertinent to Chinese history and culture education, as well as improving teaching and learning in related areas.

The one-off grant was disbursed to all aided primary and secondary schools (including special schools), caput secondary schools, and Direct Subsidy Scheme primary and secondary schools in August 2017. The balance will be used by government primary and secondary schools which have yet to use up the grant and also by 1 new school that started operation in the 2019/20 school year. The funding period of the grant has not ended yet. The EDB has been assessing schools' deployment of different grants to review the needs for various types of grants through various channels, such as teachers' professional training activities, focus group meetings and curriculum development visits. Schools may flexibly deploy various kinds of existing subsidies. For example, they may use the Promotion of Reading Grant provided for public sector schools since the 2018/19 school year to procure reading resources and organise school-based reading activities related to Chinese history and culture. Schools may also use the Life-wide Learning Grant disbursed since the 2019/20 school year to organise diversified experiential learning activities beyond the classroom (e.g. visits, field trips and study tours outside Hong Kong) to provide students with more lively and enriched learning experiences, and broaden their horizons.

CONTROLLING OFFICER'S REPLY**EDB515****(Question Serial No. 6133)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (6) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

The Education Bureau (EDB) offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. In this connection, would the Government advise this Committee of the following:

(a) the Mainland exchange programmes arranged by the EDB for primary and secondary students respectively from the 2013/14 to 2019/20 school years. Please use the table below to provide the relevant information.

Primary Schools:

	Name of programme	School Year	Target (year level)	Number of participants	Purpose/ Content of the programme	Amount of funding involved (please provide a breakdown of the expenditure, including but not limited to transportation, accommodation, guide fees, etc)
1 (e.g.)	Mainland Exchange Programme for Junior Secondary and Upper Primary Students					
2						
3						

Secondary Schools:

	Name of programme	School Year	Target (year level)	Number of participants	Purpose/ Content of the programme	Amount of funding involved (please provide a breakdown of the expenditure, including but not limited to transportation, accommodation, guide fees, etc)
1 (e.g.)	Mainland Exchange Programme for Secondary School Students					
2						
3						

(b) the professional exchange programmes arranged by the EDB for primary and secondary school teachers respectively from the 2013/14 to 2019/20 school years. Please use the table below to provide the relevant information.

Primary Schools:

	Name of programme	School Year	Target (subject teacher/ rank)	Number of participants	Purpose/ Content of the programme	Amount of funding involved (please provide a breakdown of the expenditure, including but not limited to transportation, accommodation, guide fees, etc)
1 (e.g.)	School visit					
2						
3						

Secondary Schools:

	Name of programme	School Year	Target (subject teacher/rank)	Number of participants	Purpose/ Content of the programme	Amount of funding involved (please provide a breakdown of the expenditure, including but not limited to transportation, accommodation, guide fees, etc)
1 (e.g.)	School visit					
2						
3

Reply:

(a) To dovetail with the school curriculum and the latest development of our country, the EDB organises Mainland exchange programmes with diversified themes and destinations for primary and secondary students, or subsidises those organised by schools every year. Such programmes include the “Mainland Exchange Programme for Junior Secondary and Upper Primary Students” (「同根同心」——香港初中及高小學生內地交流計劃), the “Mainland Exchange Programme for Secondary School Students” (「同行萬里」中學生內地交流計劃), the “Junior Secondary and Upper Primary School Students Exchange Programme Subsidy Scheme: Understanding Our Motherland” (初中及高小學生交流活動資助計劃——「赤子情·中國心」), the “Senior Secondary School Students Exchange Programme Subvention Scheme” (高中學生交流活動資助計劃), the “Mainland Exchange Programme for Student Leaders” (領袖生內地交流計劃) and some thematic Mainland exchange programmes. These programmes enable participants to consolidate classroom learning by visiting different Mainland provinces and cities, and gain first-hand experience of our country’s development in the aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives.

The numbers of students participating in the Mainland exchange programmes and the expenditures involved in the past 5 school years (from the 2015/16 to 2019/20 school years) are as follows. Due to the novel coronavirus epidemic in early 2020, all Mainland exchange activities organised or subsidised by the EDB have been suspended or postponed since end-January.

School Year	Number of Students (Rounded down to the nearest hundred)		Expenditure (\$ million) [@]	
	Secondary Students	Primary Students	Secondary Students	Primary Students
2015/16	35 800	23 400	46.8	15.1
2016/17	35 300	24 500	50.3	13.9
2017/18	40 200	26 800	57.6	27.8
2018/19 [#]	42 100	32 400	66.7	42.2
2019/20 ⁺	9 300	11 200	18.9	16.2

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

(b) The professional Mainland exchange programmes organised for teachers by the EDB in the past 5 school years (from the 2015/16 to 2019/20 school years) included leadership enhancement programme for principals of Hong Kong primary and secondary schools, study visits to the Mainland for teachers of Hong Kong government schools, and professional study and exchange tours specifically for novice teachers and serving teachers. These activities enable principals and teachers to widen their horizons and acquire a deeper understanding of the Mainland's latest development in different aspects for enhancing their professional competence. The exchange programmes mainly include visits to and lesson observations conducted in primary schools, secondary schools and higher education institutions, visits to enterprises and cultural facilities, as well as thematic seminars and exchange forums held by experts and scholars on different fields. The numbers of participants and the expenditures involved in professional Mainland exchange programmes in the past 5 school years (from the 2015/16 to 2019/20 school years) are as follows:

School Year	Number of Teachers (rounded down to the nearest ten)	Expenditure (\$ million) [@]
2015/16	410	2.1
2016/17	690	2.9
2017/18	760	5.5
2018/19 [#]	1 680	7.1
2019/20 ⁺	1 000	8.7

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 26)

Reply:

The Secretary for Education (SED) attends from time to time various local activities to cultivate contacts with different sectors of the community, heed their views on education policies and measures, and solicit their support for the work of the Education Bureau (EDB). We have not kept statistics on the local activities attended by SED. Expenditure incurred, if any, in connection with the attendance at such activities has already been reflected in the operating expenses of EDB. Information about the duty visits outside Hong Kong made by SED from 2015-16 to 2019-20 is at the Annex.

**Duty visits outside Hong Kong made by
Secretary for Education (SED)**

(1) From 1 April 2015 to 30 June 2017

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommodation (\$ (Note 2))	(B) Expenses on air passage (\$ (Note 3))	(C) Other expenses (\$ (Note 4))	Total expenditure incurred by SED & official entourage from SED's Office (\$ (A)+(B)+(C))
6 May 2015	Shenzhen	To attend a working meeting with the Shenzhen Municipal Education Bureau	2	No expenses as no overnight stay	No air passage (by car)	0	0
7 & 8 May 2015	Zhuhai	To deliver a speech upon invitation at the 10th anniversary celebratory event of the United International College jointly founded by Beijing Normal University and Hong Kong Baptist University, and to hold discussion with officials of the Zhuhai Municipal Education Bureau	2	2,430	No air passage (by ferry)	6,640	9,070
18 & 19 May 2015	Guangzhou and Zhongshan	To attend working meetings with the Department of Education of Guangdong Province and the Zhongshan Government	3	Hotel accommodation sponsored by the Hong Kong and Macao Affairs Office of the People's Government of Guangdong Province in the amount of around \$2,080	No air passage (by train and ferry)	4,612	4,612
6 June 2015	Huizhou and Shunde	To lead Hong Kong university students to join a one-day career and life planning education programme and visit enterprises there	1	No expenses as no overnight stay	No air passage (by car)	7,390	7,390

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommodation (\$)(Note 2)	(B) Expenses on air passage (\$)(Note 3)	(C) Other expenses (\$)(Note 4)	Total expenditure incurred by SED & official entourage from SED's Office (\$)(A)+(B)+(C)
24 & 25 June 2015	Fujian	To pay a courtesy visit to the Fujian Provincial Department of Education and the Xiamen Municipal Education Bureau, and to visit local universities for education co-operation	2	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	13,680	6,647	20,327
17 & 18 July 2015	Beijing	To officiate at the opening ceremony of the Beijing, Hong Kong and Macao Student Exchange Camp, and to attend a working meeting with the Ministry of Education in Beijing	2	5,047	23,000	5,688	33,735
26 July to 1 August 2015	USA and Belgium (EU)	To pay a duty visit to USA/EU and exchange views with funding and research agencies in the higher education sector on education/research policies and funding strategies, especially STEM education	2	11,928	170,285	56,122	238,335
2 to 4 September 2015	Beijing	To attend commemorative activities of the 70th Anniversary of the Victory of War of Resistance against Japanese Aggression	-	Hotel accommodation sponsored by the State Council's Hong Kong and Macao Office in the amount of around \$1,550	10,217	2,190 In-town transport sponsored by the State Council's Hong Kong and Macao Office in the amount of around \$142	12,407

29 March 2018	Shenzhen	To attend the Establishment Ceremony of the Harmonia College of the Chinese University of Hong Kong, Shenzhen	-	No expenses as no over-night stay	No air passage (by car)	-	Travelling expenses borne by the Constitutional and Mainland Affairs Bureau
20 to 22 June 2018	Beijing	To attend a regular working meeting with the Ministry of Education, to visit a local secondary school and a local university, and to meet Hong Kong young people who were pursuing tertiary studies or working in Beijing	1	6,541	10,800	5,000	22,341
26 July 2018	Huizhou	To meet with education officials of the Huizhou Municipal Government to explore co-operation opportunities in education	1	No expenses as no over-night stay	No air passage (by car)	2,400	2,400
29 August 2018	Zhuhai and Zhongshan	To meet with officials of the Zhuhai Education Bureau and the Zhongshan Education and Sports Bureau to explore co-operation opportunities in education between Hong Kong and the two municipalities under the development of the Greater Bay Area	2	No expenses as no over-night stay	No air passage (by ferry)	1,230	1,230
28 September to 1 October 2018	Beijing	To attend the exchange activities of the National Day Delegation from the Educational Sector of Hong Kong 2018	1	15,000	16,116	5,960	37,076

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommodation (\$)(Note 2)	(B) Expenses on air passage (\$)(Note 3)	(C) Other expenses (\$)(Note 4)	Total expenditure incurred by SED & official entourage from SED's Office (\$)(A)+(B)+(C)
28 to 30 October 2018	Hangzhou and Ningbo	To attend the Ningbo-Hong Kong Education Co-operation Forum 2018, to meet with officials of Zhejiang Province, Hangzhou and Ningbo, and to visit various education organisations	1	7,907	8,142	1,821	17,870
4 December 2018	Guangzhou	To attend the Guangdong-Hong Kong Sister School Contract Signing Ceremony 2018	1	No expenses as no over-night stay	No air passage (by high speed rail)	972	972
22 January 2019	Zhuhai	To visit a higher education institution, looking into the participation of Hong Kong's universities in higher education development in the Guangdong-Hong Kong-Macao Greater Bay Area	1	No expenses as no over-night stay	No air passage (by car)	2,500	2,500
27 & 28 May 2019	Beijing	To attend the 6th liaison meeting with the Ministry of Education and to visit the Advanced Innovation Centre for Future Education of Beijing Normal University	-	1,544	5,350	1,402	8,296

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommodation (\$)(Note 2)	(B) Expenses on air passage (\$)(Note 3)	(C) Other expenses (\$)(Note 4)	Total expenditure incurred by SED & official entourage from SED's Office (\$)(A)+(B)+(C)
17 July 2019	Guangzhou	To meet the Department of Education of Guangdong Province for exchanges on educational co-operation between Hong Kong and Guangdong, to visit the site of the Nansha Campus of the Hong Kong University of Science and Technology at Qingshen, and to meet students participating in the Summer Camp for Sister Schools in the Greater Bay Area	-	No expenses as no over-night stay	No air passage (by train and car)	4,168	4,168
26 September 2019	Guangzhou	To accompany the Chief Executive in attending the groundbreaking ceremony for the Hong Kong University of Science and Technology (Guangzhou)	-	No expenses as no over-night stay	No air passage (by car)	-	Travelling expenses borne by the Chief Executive's Office

Notes:

- (1) The Secretary for Education would meet local students from Hong Kong where possible.
- (2) Hotel accommodation was provided in accordance with the relevant Civil Service Regulations and guidelines.
- (3) Proper class of passages was provided in accordance with the relevant Civil Service Regulations and guidelines, taking into account such factors as rank of post, flying time, flight schedule and details.
- (4) Other expenses include overseas subsistence allowance and other incidental expenses related to the duty visits outside Hong Kong. Subsistence allowance was provided in accordance with the relevant Civil Service Regulations and guidelines, which is intended to cover, inter alia, the cost of accommodation, meals and in-town transport.

(Question Serial No. 6136)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Education Bureau provides recurrent grant and support for all local public sector primary and secondary schools to form sister schools with their counterparts in the Mainland. Please advise this Committee of the following:

- (a) Please tabulate the number of primary and secondary schools applying for the grant and the amount of the grant sought in each school year since the implementation of the scheme;
- (b) To the Education Bureau's understanding, what activities are held by using the grant? Please list the activities by category with a breakdown of the expenditure involved; and
- (c) What is the percentage of the grant out of the recurrent expenditure on education?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 28)

Reply:

(a) The Government has regularised the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland with effect from the 2018/19 school year to provide a recurrent grant and professional support for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. The number of participating schools and the amount of grant disbursed are set out by school year below:

School year	Secondary school	Primary school	Special school	Total no. of schools	Amount of grant for each school per school year (\$)
2018/19	296	312	26	634	150,000
2019/20 (as at March 2020)	305	329	28	662	154,950

Note: Schools already in receipt of grant are not required to submit a fresh application each year.

(b) Having regard to their development needs, schools may arrange exchange activities (such as school visits, student activities, seminars, teaching demonstration, lesson evaluation, video conferencing and experience sharing) with their sister schools at the student, teacher and school management levels. Through exchange and collaboration, sister schools can expand their networks, enhance mutual understanding and communication, strengthen cultural interflows, and work together to enhance the quality of education. As the EDB does not collect information concerning the expenditure on the exchange activities organised by the schools on their own, we are unable to provide the relevant information.

(c) The expenditure on the disbursement of the above grant for the 2018/19 and 2019/20 school years is \$93 million and \$102 million (estimated figure) respectively. The Government's total recurrent expenditure on education covers education at all levels from kindergarten to post-secondary and tertiary, and includes expenses in other scopes as well. Since it covers an extensive range of areas and projects, working out the percentage share of the above grant is not appropriate.

Question:

The Learning Support Grant (LSG) covers students with mental illness starting from the 2017/18 school year. Please advise this Committee of the following:

- (a) the respective numbers of beneficiary students in primary and secondary schools from the 2017/18 to 2019/20 school years, with a breakdown by mental illness, grade level and district in the form of a table;
- (b) further to (a), as many mental illnesses are transient in nature, please indicate the respective numbers of students who are new recipients of the LSG and those who have been receiving the LSG for 2 years or more;
- (c) the use of the LSG and its distribution in terms of expenditure;
- (d) the amount of LSG per student;
- (e) the numbers of primary and secondary schools provided with the LSG for supporting students with mental illness; and
- (f) How effective is the new initiative? What assessment indicators have been adopted by the Education Bureau? When will a review be conducted?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 30)

Reply:

(a) to (f)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention for all ordinary schools, has been providing public sector schools with additional resources, which include the Learning Support Grant (LSG). Starting from the 2017/18 school year, the LSG covers students with mental illness (MI) so that schools will have additional resources to provide enhanced support to cater for these students' learning, social, emotional and behavioural needs. The LSG is calculated based on the number of students with SEN and the tier of support these students require. In the 2017/18 school year, the grant per student per annum requiring tier-2 and tier-3 support was \$13,986 and \$27,972 respectively, and the basic provision per school per annum for the first 1 to 6 student(s) requiring tier-3 support was \$167,832. The ceiling of the grant was \$1,613,705 per school per annum. The EDB adjusted the relevant grant rate in the 2018/19 school year. The grant per student per annum requiring tier-2 and tier-3 support has been increased to \$14,322 and \$28,644 respectively, and the basic provision per annum for the first 1 to 6 student(s) requiring tier-3 support has also been raised to \$171,864. The ceiling of the grant is \$1,652,434 per school per annum.

The EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for Integrated Education (IE) and extending the LSG to all public sector ordinary schools to replace the Intensive Remedial Teaching Programme and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reaches the specific threshold. With the implementation of the above enhanced LSG, schools have a more stable teaching force and additional resources for flexible deployment to support the implementation of IE. Targets of the enhanced LSG are the same as those in the past, i.e. students with different types of SEN and academic low achievers (applicable to primary schools). Basing on the principle of "calculation on individual basis and deployment holistically", schools should pool and deploy the LSG and other school resources flexibly and holistically to render support for students with SEN according to individual conditions and needs, such as employing additional teachers or teaching assistants, hiring professional services, conducting school-based teacher training and parent education, etc. All students with SEN, not only those with MI, will benefit from the provision. In addition, as many types of MI are transient in nature, some students with MI and their parents may be reluctant to disclose such information to schools. Hence, providing the number of schools admitting students with MI for whom LSG has been provided has no real meaning and the figure may not be accurate.

Based on the position of September of every school year, the EDB compiles statistics on the number of students with SEN of the respective school year. Since public sector ordinary schools have yet to provide the EDB with information about students with MI as in September of the 2017/18 school year for the calculation of the LSG, the EDB is unable to provide the number of students with MI in that school year (i.e. as in September). Based on the number of applications submitted by schools for the LSG and the number of cases subsequently approved by the EDB at the end of the first term in the 2017/18, 2018/19 and 2019/20 school years, the number of primary and secondary school students with MI as

their major type of SEN in those 3 school years are as follows:

2017/18 school year

	P1	P2	P3	P4	P5	P6
No. of students	16	8	6	14	11	12
	S1	S2	S3	S4	S5	S6
No. of students	36	44	63	72	84	108

2018/19 school year

	P1	P2	P3	P4	P5	P6
No. of students	15	19	14	13	24	21
	S1	S2	S3	S4	S5	S6
No. of students	57	99	114	114	126	182

2019/20 school year

	P1	P2	P3	P4	P5	P6
No. of students	21	23	27	27	29	35
	S1	S2	S3	S4	S5	S6
No. of students	77	116	144	142	175	187

As mentioned above, given that many types of MI are transient in nature, we assume that some parents of students with MI or the students themselves do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI. Since the MI of students has no relationship with the districts in which they live, we have not compiled the breakdown of such figures. As for whether students are new recipients of the LSG or have been receiving the LSG for 2 years or more is not a consideration for the approval of the LSG, we have not compiled such statistics.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies, measures and deployment of resources (including the support for students with SEN) through self-evaluation every year. As required by the EDB, schools should submit an annual self-evaluation report, which is validated through External School Review by the EDB, on the implementation of the Whole School Approach to IE to the EDB at the end of every school year. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. When using Government subventions (including the LSG), all public sector schools are required to adopt an effective monitoring system, maintain proper records and conduct periodic review. Professional staff from the EDB will review the support provided by schools for students with SEN and offer professional advice whenever necessary during school visits in order to ensure that the support services provided by the schools can address the needs of students with SEN (including students with MI). The purpose of extending the LSG to cover students with MI is to provide schools with

additional resources to cater for the special needs of these students, and this is not the only measure available in catering for students with MI. It should be noted that students diagnosed with MI should receive treatment in strict accordance with the instructions given by healthcare professionals. On the part of schools, subject to the consent of the parents, teachers may use the LSG or other resources to provide professional support, with a view to helping the students concerned to cope with the learning and personal growth challenges that the illness brings to them.

Director of Bureau: Secretary for Education

Question:

Regarding the policy on integrated education, please advise this Committee of the following:

(a) The changes between the 2015/16 and 2019/20 school years in the number of teachers teaching in government and aided primary and secondary schools, and in the number of serving teachers having received:

- (i) 30 hours of basic training;
- (ii) 30 hours of advanced training; and
- (iii) 90 to 120 hours of thematic training.

(b) The respective expenditure on providing the above training in the past 5 years, in the form of a table and with a breakdown of all items.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 31)

Reply:

(a)

The number of teachers in public sector ordinary primary and secondary schools from the 2015/16 to 2019/20 school years is as follows:-

School Year	2015/16	2016/17	2017/18	2018/19	2019/20 (Revised estimate)
No. of primary school teachers	19 400	19 900	21 300	22 100	22 600
No. of secondary school teachers	22 900	22 500	22 500	22 400	22 600

To enhance the professional capacity of teachers in supporting students with special educational needs (SEN), the Education Bureau (EDB) has been providing serving teachers with structured training courses pitched at basic, advanced and thematic levels (BAT Courses) since the 2007/08 school year. The number of public sector ordinary primary and secondary school teachers having completed the BAT Courses from the 2015/16 to 2019/20 school years is as follows:-

Course	2015/16		2016/17		2017/18		2018/19		2019/20 (Provisional) ^{Note}	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	221	364	259	444	283	406	314	395	305	445
Advanced	109	147	129	197	157	152	177	146	144	176
Thematic	201	250	204	248	217	270	209	265	233	272

Note: BAT Courses for the 2019/20 school year are not yet completed. Figures provided are the anticipated number of teachers who will complete the courses. To prevent the spreading of COVID-19, all kinds of teacher training courses have to be postponed or terminated. The above figures do not reflect the impact of the pandemic on the courses.

Since teachers who have completed the BAT Courses may leave the sector due to various reasons such as job change, pursuing further studies, retirement, etc., the EDB will inform public sector schools regularly of the progress of their teachers' special education training in order to facilitate the schools to arrange teachers to attend the BAT Courses in a systematic manner with a view to enhancing their professional capacity in catering for students with SEN.

(b) The expenditure on the BAT Courses for the 2015/16 to 2019/20 school years is as follows:-

Course	Expenditure (\$ million)				
	2015/16	2016/17	2017/18	2018/19	2019/20 (Revised estimate)
Basic	8.3	10.4	10.3	11.0	11.4
Advanced	12.6	16.3	15.5	16.8	16.5
Thematic	24.2	25.3	27.9	28.1	30.1
Total	45.1	52.0	53.7	55.9	58.0

CONTROLLING OFFICER'S REPLY**EDB520****(Question Serial No. 6139)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

To provide school-based speech therapy services for all public sector primary and secondary schools, the Government has created school-based speech therapist posts for schools by phases in 3 years starting from the 2019/20 school year. Please advise this Committee of the following:

(a) The number of primary and secondary schools that have created the said post in the 2019/20 school year and the number of therapists and expenditure involved, presented in table form and disaggregated by district;

(b) The respective items of expenditure and estimates for the new measure in the 2020/21 and 2021/22 school years, with details set out in table form:

	Item	Year	Descriptions (job nature, name, etc.)	Quantity (if applicable)	Amount (\$)
1(example)	Administrative expenses (with breakdown)				
2(example)	No. of speech therapists employed				
3(example)	Others (with breakdown)				
4					

(c) What is the ratio of speech therapists to schools? Does the Education Bureau have a plan/timetable for reviewing speech therapy services and the ratio of speech therapists to schools? If yes, what are the details?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 32)

Reply:

(a) to (c)

Starting from the 2019/20 school year, the Education Bureau (EDB) implements the “Enhanced School-based Speech Therapy Service” (Enhanced SBSTS) by creating school-based speech therapist (SBST) posts in the public sector ordinary primary and secondary schools by phases. The EDB forms clusters of schools according to the number of approved classes of schools, number of students with speech and language impairment (SLI) and their severity level of SLI, previous experience of schools in employing SBSTs and the preference of schools. Most clusters are formed by 2 schools, and a small number of clusters are formed by 3 schools. One school in each cluster is the base school. The permanent posts of SBST are created in the base schools. As the order of schools implementing the Enhanced SBSTS is not related to the district of the schools, a breakdown of the number of primary and secondary schools by district will not be provided.

In the 2019/20 school year, the EDB created 118 SBST posts in 223 public sector ordinary primary and secondary schools. Schools implementing the Enhanced SBSTS for the first time will receive an one-off School-based Speech Therapy Set-up Grant of \$20,000 for procuring necessary resources for providing speech therapy services and for the related expenditures. In addition, all schools implementing the Enhanced SBSTS will receive a School-based Speech Therapy Administration Recurrent Grant of \$8,000 for replenishing speech therapy materials and for the related expenditures required in implementing SBSTS. Separately, the base schools of the school clusters will additionally receive a Base School School-based Speech Therapy Administration Recurrent Grant of \$8,000 for coordinating related administrative work. The rate of the above grants is subject to adjustment according to the movement of the Composite Consumer Price Index each school year. In the 2019/20 school year, the revised estimated expenditure for implementing the Enhanced SBSTS is around \$86 million.

In the 2020/21 school year, the EDB plans to create around 80 SBST posts in more than 150 public sector ordinary primary and secondary schools for implementing the Enhanced SBSTS. The estimated expenditure will be around \$140 million. Taking into consideration the preference of schools, the need for SBSTS and the supply of speech therapists, the EDB will continue to implement the Enhanced SBSTS by phases for the remaining schools. Upon full implementation of the Enhanced SBSTS, it is estimated that a total of around 420 SBST posts will be created in the public sector ordinary schools. The estimated annual recurrent expenditure will be around \$320 million.

The EDB will keep in view the implementation of the Enhanced SBSTS and the effectiveness of the service. Specialists (Speech Therapy) of the Bureau will pay regular school visits each school year to offer professional advice on the implementation of SBSTS for the schools and assist schools in monitoring the quality of the service to ensure that students with SLI are provided with appropriate support.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In respect of the measures to support non-Chinese speaking (NCS) students, please provide, in tabular form, figures on the following items for the school years from 2015/16 to 2019/20:

- (a) by grade level and ethnicity, the number of NCS students admitted to mainstream primary and secondary schools in each of the 18 districts;
- (b) by grade level and ethnicity, the number of NCS students with special educational needs (SEN) studying in mainstream primary and secondary schools;
- (c) by grade level and type of SEN, the number of NCS students with SEN studying in mainstream primary and secondary schools;
- (d) the number of mainstream primary and secondary schools that have admitted NCS students; and
- (e) the funding and support provided for the schools concerned, with details and amounts.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 36)

Reply:

- (a) For the planning of education support measures for non-Chinese speaking (NCS) students, their need for support is determined by whether their spoken language at home is Chinese or not (instead of their ethnicity). As the ethnicities of NCS students can be categorised into at least 10 types, the composition would be highly complicated if the number of NCS students is to be presented by ethnicity, district and grade level in primary and secondary schools. Hence, figures on ethnicities of NCS students are set

out separately. From the 2015/16 to 2019/20 school years, the number of NCS ethnic minority (EM) students studying in public sector ordinary schools and Direct Subsidy Scheme (DSS) schools by ethnicity is tabulated at [Annex A1](#), and the number of NCS students studying in public sector ordinary schools and DSS schools by district and by grade level is tabulated at [Annex A2](#). The two sets of data are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

- (b) The number of NCS EM students with special educational needs (SEN) studying in public sector ordinary schools and DSS schools by grade level and by ethnicity from the 2015/16 to 2019/20 school years is tabulated at [Annex B](#).
- (c) The number of NCS students with SEN studying in public sector ordinary schools and DSS schools by grade level and by major SEN type from the 2015/16 to 2019/20 school years is tabulated at [Annex C](#).
- (d) The number of public sector ordinary schools and DSS schools admitting NCS students from the 2015/16 to 2019/20 school years is tabulated at [Annex D](#).
- (e) The Education Bureau (EDB) is committed to encouraging and supporting the early integration of NCS students (including those with SEN) into the community, including facilitating their adaptation to the local education system and mastery of the Chinese language. The education support measures for NCS students, which are also applicable to NCS students with SEN, and the expenditure involved from the 2015/16 to 2019/20 school years are tabulated at [Annex E](#).

To help public sector ordinary schools cater for students with SEN, including NCS students with SEN, EDB, on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. The additional resources include the Learning Support Grant (LSG), additional teachers to support academic low achievers, Top-up Fund for procurement of special furniture and equipment, and Intensive Support Grant for hardcore cases. Starting from the 2019/20 school year, EDB has implemented a series of enhanced measures on integrated education (IE), which include restructuring of various subvented programmes for IE, extending the LSG to all public sector ordinary schools and increasing the grant rate of the LSG for tier-3 support, as well as converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reaches the specific threshold. Moreover, the post of Special Educational Needs Coordinator in public sector ordinary schools with a comparatively large number of students with SEN will be upgraded to a promotion rank. Schools should deploy school resources holistically and flexibly to render appropriate support services to students with SEN, such as employing additional teachers or teaching assistants or hiring professional services. EDB also arranges teacher professional development programmes and school networking for sharing of good practices, and develops teaching resources for the use of teachers and parents. In addition, professional staff of EDB pay regular visits to schools to render professional advice on their support policies and measures, teaching strategies, resource deployment, etc. Professional support is also provided through assessment and consultation services of educational psychologists, speech therapists and

audiologists to help schools cater for students with SEN. Starting from the 2019/20 school year, we have progressively improved the ratio of educational psychologist to school to 1:4 with a view to enhancing the School-based Educational Psychology Service, and created school-based speech therapist posts in public sector ordinary schools by phases to implement the Enhanced School-based Speech Therapy Service. Public sector ordinary schools and DSS schools admitting NCS students with SEN are also provided with the Grant for Supporting NCS Students with SEN for strengthening their emotional, communication and social support for the students concerned. All NCS students with SEN benefit from the above support measures and services. For budgetary purpose, the related total expenditure on additional support measures and services on top of the regular subvention provided for public sector ordinary schools in catering for students with SEN from the 2015/16 to 2019/20 school years is tabulated below:

School year	2015/16	2016/17	2017/18	2018/19	2019/20 (revised estimate)
Expenditure (\$ million)	1,310	1,392	1,638	1,977	3,116

As the support services are provided to cater for all the students with SEN, with the exception of the Grant for Supporting NCS Students with SEN, we are not able to apportion the expenditure specifically on NCS students with SEN.

**Number of non-Chinese speaking (NCS) ethnic minority students in ordinary schools by ethnicity
from the 2015/16 to 2019/20 school years**

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include public sector schools and Direct Subsidy Scheme (DSS) schools (among which 1 DSS secondary school offering only non-local curriculum is excluded for not having provided information on ethnicity of NCS students) but exclude special schools.
3. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students. The figures do not include those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Figures do not include those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.
3. Figures do not include students in special schools.
4. Starting from the 2019/20 school year, the provision of the Learning Support Grant (LSG) to Direct Subsidy Scheme (DSS) schools is based on the number of students with special educational needs (SEN) and academic low achievers (applicable to primary schools) enrolled in each school, as well as the DSS LSG unit rate. Hence, DSS schools are required to submit the SEN information of the students concerned to EDB for calculating the allotment of the LSG. Before that, the relevant resources were included in the DSS unit subsidy, and we did not compile statistics on the number of the students concerned.

**Number of non-Chinese speaking students with special educational needs (SEN)
in public sector ordinary schools and Direct Subsidy Scheme schools
by grade level and by major SEN type from the 2015/16 to 2019/20 school years**

Notes:

1. Figures refer to the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) has provided public sector ordinary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when statistics on the number of students with special educational needs (SEN) for the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to EDB. Hence, the figures shown in the table do not include the number of non-Chinese speaking students with MI studying in public sector ordinary schools in the 2017/18 school year.
2. Figures include those students whose ethnicity is Chinese but who are non-Chinese speaking, based on the spoken language at home.
3. Figures do not include students in special schools.
4. Starting from the 2019/20 school year, the provision of the Learning Support Grant (LSG) to Direct Subsidy Scheme (DSS) schools is based on the number of students with SEN and academic low achievers (applicable to primary schools) enrolled in each school, as well as the DSS LSG unit rate. Hence, DSS schools are required to submit the SEN information of the students concerned to EDB for calculating the allotment of the LSG. Before that, the relevant resources were included in the DSS unit subsidy, and we did not compile statistics on the number of the students concerned.

**Number of ordinary schools admitting non-Chinese speaking students
from the 2015/16 to 2019/20 school years**

Grade level	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year	2019/20 school year
Primary (Primary 1-6)	329	325	325	332	331
Secondary (Secondary 1-6)	279	274	291	301	302

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures include public sector schools and Direct Subsidy Scheme schools, but not special schools.

**Educational support measures for non-Chinese speaking (NCS) students

(Question Serial No. 6144)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (4) Secondary Education, (5) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

In the 2017/18 school year, the Education Bureau (EDB) launched the three-year Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme). In this connection, please advise this Committee of the following:

(a) Details of each learning activity outside Hong Kong under the Scheme in the 2017/18 and 2018/19 school years in table form, including the destination, date, number of participants, expenditure involved and related sub-items (e.g. airfare/flight booking class/flight duration per journey/hotel expenses/grade of hotel/local transport expenses/cost of hiring supply teachers etc.); and

(b) When will the EDB embark on a review of the Scheme? When is the expected completion of the review report? What is the estimated expenditure involved? Please provide such information in table form.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 38)

Reply:

(a) The Education Bureau (EDB) launched the “i-Journey” Paid Non-local Study Leave Scheme for Secondary School Teachers (the Scheme) as a three-year pilot scheme in the 2017/18 school year. Participating teachers will be given 7 to 9 weeks’ paid study leave, which includes 4 to 6 weeks of overseas learning activities, including school attachment and visits, and 3 weeks of pre-trip preparation to research on the specific theme of the programme they will participate in and post-trip consolidation upon returning to Hong Kong to consolidate their learning and draw up their concrete school-based initiatives/research.

In the 2017/18 and 2018/19 school years, 50 and 40 secondary teachers participated in the Scheme respectively. Details are as follows:

2017/18 school year (First Batch of the Scheme)			
Destination	Programme duration	Subjects/Areas covered in the training	No. of participants
Helsinki & Jyväskylä, Finland	5 weeks	Interdisciplinary Learning & Entrepreneurship Education	15
Melbourne, Australia	6 weeks	Catering for Students with Special Educational Needs	20
Exeter, the United Kingdom	4 weeks	STEM Education	15

2018/19 school year (Second Batch of the Scheme)			
Destination	Programme duration	Subjects/Areas covered in the training	No. of participants
Turku, Finland	5 weeks	Interdisciplinary Learning & Entrepreneurship Education	15
Southampton, the United Kingdom	5 weeks	Assessment Literacy	15
Singapore	5 weeks	STEM Education	10

The total expenditure of the first batch and second batch of the Scheme is \$7.49 million and \$5.99 million respectively. A breakdown by item is as follows:

Expenditure item	First Batch of the Scheme	Second Batch of the Scheme
Programme/activity fee (including local and overseas programmes/activities)	\$4.48 million	\$4.01 million
Transportation between Hong Kong and the location for overseas experience (including flight tickets on economy class and transportation between airport and learning location)	\$0.38 million	\$0.38 million
Funding for employment of supply teachers	\$2.63 million	\$1.6 million
Total	\$7.49 million	\$5.99 million

Teachers participating in the Scheme are required to arrange and bear costs for their own accommodation and transportation during overseas learning experience. No expenses on hotel and overseas transportation were incurred by the EDB.

(b) The third batch of the Scheme is originally scheduled to be held in the 2019/20 school year. In view of the latest development of the novel coronavirus (COVID-19) epidemic, the overseas programmes concerned will be postponed. Upon completion of the three-year pilot Scheme, the EDB will use the data and information collected during this period to form the basis of evaluation, inform future development and compile relevant reports. The expenditure involved in the evaluation will be subsumed under the EDB's overall expenditure on manpower and operation.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3529)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the initiative to “extend the Learning Support Grant (LSG) to cover students with mental illness”, would the Administration advise this Committee of:

- the divisions, manpower and resources involved in the implementation of the initiative as well as the number of beneficiary students in the next 3 years; and
- the ambit and details of the LSG.

Asked by: Hon LEE Kok-long, Joseph (LegCo internal reference no.: 144)

Reply:

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention for ordinary schools, has been providing public sector schools with additional resources, which include the Learning Support Grant (LSG). Starting from the 2017/18 school year, the LSG covers students with mental illness (MI), with a view to providing schools with additional resources to provide enhanced support for catering the learning, social, emotional and behavioural needs of these students. The LSG is calculated on the basis of the number of students with SEN admitted and the tier of support these students require. Basing on the principle of “calculation on individual basis and deployment holistically”, schools should pool and deploy the LSG and other school resources holistically and flexibly to render support to students with SEN according to individual conditions and needs, such as employing additional teachers or teaching assistants, or hiring professional services. All students with SEN, not only those with MI, will benefit from the provision. Moreover, the causes of MI involve different aspects, which include physiological, psychological and social factors, etc. Many types of MI are transient in nature. Schools can offer appropriate support only when students or their parents are willing to disclose their illness to the schools. Therefore, it is difficult to estimate the number of students who will be diagnosed to have MI, receive treatment and recover in the next few years.

The EDB's expenditure on supporting students with MI in public sector ordinary primary schools with the LSG has been subsumed under the overall expenditure of the LSG. A separate breakdown is therefore not available. For budgeting purpose, the EDB only prepares estimates for expenditure on the LSG provided for public sector ordinary primary schools in the coming year (i.e. 2020/21 school year), which is around \$490 million.

As mentioned above, in utilising the LSG for supporting primary students with MI, schools may employ additional staff, such as teaching assistants, to help teachers design activities and teaching materials and assist students in classroom learning activities, and hire professional support or guidance services (e.g. behavioural or emotional counselling and social training at schools) to help students adjust to campus life. Schools may also use the LSG to provide school-based teacher training, parent education, etc.

Reply:

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention for ordinary schools, has been providing public sector schools with additional resources, which include the Learning Support Grant (LSG). Starting from the 2017/18 school year, the LSG covers students with mental illness (MI), with a view to providing schools with additional resources to provide enhanced support for catering the learning, social, emotional and behavioural needs of these students. The LSG is calculated on the basis of the number of students with SEN admitted and the tier of support these students require. Basing on the principle of “calculation on individual basis and deployment holistically”, schools should pool and deploy the LSG and other school resources holistically and flexibly to render support to students with SEN according to individual conditions and needs, such as employing additional teachers or teaching assistants, or hiring professional services. All students with SEN, not only those with MI, will benefit from the provision. Moreover, the causes of MI involve different aspects, which include physiological, psychological and social factors, etc. Many types of MI are largely transient in nature. Schools can offer appropriate support only when students or their parents are willing to disclose their illness to the schools. Therefore, it is difficult to estimate the number of students who will be diagnosed to have MI, receive treatment and recover in the next few years.

The EDB's expenditure on supporting students with MI in public sector ordinary secondary schools with the LSG has been subsumed under the overall expenditure of the LSG. A separate breakdown is therefore not available. For budgeting purpose, the EDB only prepares estimates for expenditure on the LSG provided for public sector ordinary secondary schools in the coming year (i.e. 2020/21 school year), which is around \$280 million.

As mentioned above, in utilising the LSG for supporting secondary students with MI, schools may employ additional staff, such as teaching assistants, to help teachers design activities and teaching materials and assist students in classroom learning activities, and hire professional support or guidance services (e.g. behavioural or emotional counselling and social training at schools) to help students adjust to campus life. Schools may also use the LSG to provide school-based teacher training, parent education, etc.

Question:

Regarding the measure to “enhance the support for students with autism spectrum disorders by assisting public sector ordinary schools to deploy a three-tier intervention model by phases, which is expected to benefit about 10 000 primary and secondary school students by the 2023/24 school year”, please advise of:

- the units, manpower and resources to be involved in the coming 3 years; and
- the specific details of the measure.

Asked by: Hon LEE Kok-long, Joseph (LegCo internal reference no.: 146)

Reply:

The Education Bureau (EDB) has been developing an evidence-based “Tiered Autism Intervention Model for Students with Autism Spectrum Disorders (ASD)” in phases since 2011 for students from junior primary to senior secondary levels. The model comprises the creation of an ASD-friendly learning and teaching environment in class (tier-1 support), provision of supplemental small group training on social adaptive skills (tier-2 support) and implementation of individual education plans (tier-3 support). Riding on the development and efficacy of the model, the EDB will, starting from the 2020/21 school year, implement the Project on Providing Tiered Support for Students with ASD (ASD Project) in phases and assist schools in translating the model into practice. More than 10 000 students with ASD studying in over 600 public sector ordinary primary and secondary schools will benefit from the ASD Project. The ASD Project mainly consists of 2 parts, and the details are as follows:-

(1) School-based Multi-Disciplinary Professional Support: This initiative will be rolled out from the 2020/21 school year. Every school year, a team of multi-disciplinary professionals led by the educational psychologists (EPs) of the EDB will recruit 60 schools to partake of on-site practice-based coaching where situated learning will be provided for teachers for a period of 6 to 8 days a year for 2 consecutive years. Through consultations, case discussion, lesson observation with feedback to be given, workshops and inter-school networking activities, school personnel will be equipped to effectively deploy the model and related strategies.

(2) Non-Governmental Organisation (NGO)-School Collaboration: Starting from the 2021/22 school year, the EDB will engage NGOs specialising in ASD training through open tendering to assist schools in providing tier-2 support under the model for students with ASD so as to enhance their social adaptation and learning ability. School personnel can observe and learn from the effective support measures as demonstrated by the professionals from the NGOs, thus improving schools' professional capacity and the competence of their teachers.

The EDB will have to hire an additional 5 EPs, 2 Inspectors and 1 Executive Officer for the implementation of the ASD Project. In addition, we will earmark some \$62 million annually for engaging NGOs to provide professional collaboration services.

Question:

- (1) Please set out separately the number of beneficiary students, the provinces where they pursued their studies, and the total amount of subsidy granted under the Mainland University Study Subsidy Scheme in the past 3 years.
- (2) What are the numbers of Hong Kong students attending higher education institutions in Mainland and those who have returned to Hong Kong to work or pursue further study (postgraduate programmes) upon graduation in the past year?
- (3) What is the number of applications submitted by holders of Mainland qualifications to the Hong Kong Council for Accreditation of Academic and Vocational Qualifications for qualifications assessments, and the percentages of the qualifications concerned that were assessed as comparable and not comparable to the level of their counterparts in Hong Kong in the past year?
- (4) What is the latest progress in enhancing mutual recognition and articulation of professional qualifications (such as medical practitioners, Chinese medicine practitioners, dentists, pharmacists, rehabilitation therapists, nurses, specialists, architects, accountants and social workers) between Hong Kong and Mainland?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 14)

Reply:

- (1) The Mainland University Study Subsidy Scheme (MUSSS) was launched in July 2014. To better support Hong Kong students in pursuing studies in the Mainland, the MUSSS has been expanded since the 2016/17 academic year and a “non-means-tested subsidy” has been introduced under the MUSSS starting from the 2017/18 academic year. For the 2017/18 academic year, the full-rate subsidy and half-rate subsidy of the “means-tested subsidy”

were \$15,000 and \$7,500 respectively. The “non-means-tested subsidy” was \$5,000. For the 2018/19 and 2019/20 academic years, the full-rate subsidy and half-rate subsidy of the “means-tested subsidy” are \$16,800 and \$8,400 respectively. The “non-means-tested subsidy” is \$5,600.

For the 2017/18, 2018/19 and 2019/20 (as at 29 February 2020) academic years, the amount of subsidy granted was \$35 million, \$40 million and \$39 million respectively. The respective numbers of students receiving full-rate “means-tested subsidy”, half-rate “means-tested subsidy” and “non-means-tested subsidy” in the past 3 academic years by the location (province/municipality/autonomous region) of mainland institutions where they pursued their studies are set out at **Annex A to C**.

(2) The Government does not maintain records of the number of Hong Kong students pursuing studies in the Mainland and those who have returned to Hong Kong to work or pursue further studies upon graduation. Nevertheless, according to the information provided by the Ministry of Education of the People’s Republic of China, the number of Hong Kong students studying in Mainland post-secondary institutions and research institutes was 16 228 as at January 2020.

(3) In 2019-20 (as at the end of February 2020), the number of qualifications assessments made by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications in response to applications submitted by holders of Mainland qualifications is 1 034, in which 99.5% of the qualifications concerned were assessed as comparable to the level of their counterparts in Hong Kong.

(4) Hong Kong and the Mainland are committed to enhancing mutual recognition of professional qualifications and the access of Hong Kong professional services to the Mainland market under the framework of the Mainland and Hong Kong Closer Economic Partnership Arrangement (CEPA). The Government also encourages professional bodies of both sides to pursue mutual recognition of professional qualifications and to foster exchanges among professional and technical talents. In respect of the professions mentioned, the latest development is summarised below:

Medical and Health Sector

At present, there is no mutual recognition for Medical and Health Sector between Hong Kong and the Mainland. Specialist doctors (including medical practitioners, Chinese medicine practitioners and dentists) who are Hong Kong permanent residents with Chinese citizenship are allowed to apply for and obtain the Mainland’s “medical practitioner’s qualification certificates” through accreditation. On the other hand, eligible registered medical practitioners, Chinese medicine practitioners, dentists and pharmacists may sit the Mainland’s qualification examination. Furthermore, 12 types of statutory healthcare professionals (namely medical practitioners, Chinese medicine practitioners, dentists, pharmacists, nurses, midwives, medical laboratory technologists, occupational therapists, optometrists, radiographers, physiotherapists and chiropractors) who are registered to practise in Hong Kong are allowed to provide short-term services in the Mainland without the need to sit the examinations in the Mainland. Under the Agreement on Trade in Services signed under the framework of CEPA, Hong Kong permanent residents are

allowed to apply for registration as practising pharmacists in accordance with the relevant Mainland's regulations.

Architects / Construction Sector

Estate Surveyors, Architects, Structural Engineers, Planners, Quantity Surveyors and Building Surveyors have reached mutual professional recognition agreements.

Accountant

Under the framework of CEPA, qualified members of the Hong Kong Institute of Certified Public Accountants enjoy exemption from certain examination papers when they apply for Mainland's certified public accountant uniform examination.

Social Worker

The Social Workers Registration Board, which is a statutory body, is responsible for matters related to the recognition of qualifications and registration of social workers in Hong Kong.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Education Bureau (EDB) please provide the balance, amount of government injection, investment or other income and total expenditure of the following funds in 2018-19? Please also provide the above information of those funds, if any, that are not included in the list but under the purview of EDB.

1. Education Development Fund
2. HKSAR Government Scholarship Fund
3. Language Fund
4. Quality Education Fund
5. Self-financing Post-secondary Education Fund
6. Research Endowment Fund
7. Qualifications Framework Fund
8. Gifted Education Fund
9. Student Activities Support Fund

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 18)

Reply:

There are 9 funds under the management of the Education Bureau (EDB). They are:

1. Education Development Fund
2. HKSAR Government Scholarship Fund
3. Language Fund
4. Quality Education Fund
5. Self-financing Post-secondary Education Fund
6. Research Endowment Fund
7. Qualifications Framework Fund
8. Gifted Education Fund
9. Student Activities Support Fund

The year-end balance, amount of government injection, investment or other income and total expenditure of these funds in the 2018/19 school/academic year are set out in **Annex**.

Funds under the management of the EDB

Name of Fund	2018/19 School/Academic Year			
	Year-end Balance \$ million	Injection \$ million	Income \$ million	Expenditure \$ million
Education Development Fund ⁽¹⁾	1	-	1	117
HKSAR Government Scholarship Fund	3,248	800	49	100
Language Fund	6,550	-	217	142
Quality Education Fund	9,426	-	179	247
Self-financing Post-secondary Education Fund	3,946	-	92	115
Research Endowment Fund	49,257	20,000	995	948
Qualifications Framework Fund	2,300	-	77	53
Gifted Education Fund	1,625	800	38	37
Student Activities Support Fund ⁽²⁾	2,533	2,500	33	-

Notes

- (1) The Education Development Fund came to a close at the end of the 2018/19 school year.
- (2) In March 2019, the seed capital of \$2.5 billion was injected into the Student Activities Support Fund and placed with the Exchange Fund for investment. As the relevant support measures are implemented starting from the 2019/20 school year, there is no expenditure under the Fund in the 2018/19 school year.

Please give a breakdown, by age group (under 30, 30-40, 41-50 and 51-60), of the wastage rates and numbers of primary and secondary school teachers in government, aided, private and Direct Subsidy Scheme schools in 2019/20.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 42)Reply:

The respective number and wastage rate of primary and secondary school teachers in government, aided, caput (secondary only), private and Direct Subsidy Scheme (DSS) schools disaggregated by age group in the 2019/20 school year are as follows:

Primary schools (Government, Aided, Private and DSS)

2019/20 (Estimate)	Government		Aided		Private		DSS	
	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)
< 30	160	8.3	4 280	4.9	450	12.3	290	7.9
30 – 40	360	3.8	6 380	2.9	770	6.8	630	5.7
41 – 50	760	2.3	6 970	2.2	570	4.8	280	3.5
51 – 60	380	9.6	3 260	8.3	200	8.2	100	6.9

Secondary Schools (Government, Aided, Caput, Private and DSS)

2019/20 (estimate)	Government		Aided		Caput		Private		DSS	
Age group	No. of teachers*	Wastage rate [^] (%)	No. of teachers*	Wastage rate [^] (%)	No. of teachers*	Wastage rate [^] (%)	No. of teachers*	Wastage rate [^] (%)	No. of teachers*	Wastage rate [^] (%)
< 30	100	8.3	2 430	6.9	10	0.0	80	18.3	850	6.2
30 – 40	470	4.3	7 020	2.7	30	0.0	280	11.6	1 890	4.1
41 – 50	560	2.1	6 670	1.4	30	3.8	130	8.1	920	3.8
51 – 60	480	10.5	4 710	9.9	30	13.3	70	6.8	470	6.4

* Figures are rounded to the nearest ten.

[^] “Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers concerned as at mid-September of the preceding school year. “Drop-out teachers” refer to the teachers who were serving in a school as at mid-September of the preceding school year but are no longer serving in any primary/secondary school as at mid-September of the current school year.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3747)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding cross-boundary students, please advise this Committee of the following:

1. the number of cross-boundary students in the 2019/20 school year (by kindergarten student, primary school student and secondary school student);
2. the number of cross-boundary students applying for the central allocation in the 2019/20 school year;
3. the number of school places in the school nets exclusively for cross-boundary students in the 2019/20 school year (by school net); and
4. the number of schools operating classes for Hong Kong students under the Scheme of Classes for Hong Kong Students jointly implemented by Hong Kong and Shenzhen, as well as the school fees and enrolments in the 2019/20 school year.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 43)

Reply:

1. The number of cross-boundary students (CBS) by school level in the 2019/20 school year is tabulated at Annex A.
2. 799 CBS participated in the Central Allocation of the Primary One Admission (POA) 2019 for admission to Primary 1 (P1) in the 2019/20 school year.
3. To alleviate the impact of increasing number of CBS on the demand and supply of public sector primary school places in individual districts, notably the North District, the Education Bureau (EDB) has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the POA. In brief, parents of applicant children who intend to commute daily to schools in Hong Kong are not required to choose any school net as the applicant children's POA School Net for participation in Part B of the Central Allocation stage. Instead, these applicant

children are provided with a separate Choice of Schools List for the Central Allocation. With the implementation of the zero-quota policy for doubly non-permanent resident pregnant women in 2013, the number of CBS participating in POA has decreased significantly since the 2019/20 school year. Hence, the school nets close to boundary control points can provide sufficient school places to meet the demand.

The number of P1 places exclusively for CBS for the Central Allocation of POA 2019 (for admission to P1 in the 2019/20 school year) by school net is tabulated at Annex B.

4. Under the “Co-operation Agreement on Operating Classes for Hong Kong Students in Shenzhen Schools” signed between the EDB and the Shenzhen Municipal Education Bureau (SZEDB), SZEDB has been implementing the Scheme of Classes for Hong Kong Students (the Scheme) in “minban” schools in Shenzhen. In the 2019/20 school year, 11 “minban” schools are offering Hong Kong curriculum classes to some 3 600 Hong Kong students residing in Shenzhen under the Scheme. Based on information available, the tuition fees range roughly between RMB 13,000 and 41,600 per year.

Number of CBS by school level in the 2019/20 school year

School Level	Number of CBS
Kindergarten (including kindergarten-cum-child care centre)	1 479
Primary School	17 974
Secondary School	7 602

Note: Figures are based on the annual survey on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts in September 2019.

**Number of P1 places on Choice of Schools List for CBS for Central Allocation
of POA 2019 by School Net
(For admission to P1 in the 2019/20 school year)**

POA School Net	Number of P1 places
70	134
71	114
72	116
74	35
80	165
81	47
83	37
84	81
98	51

Note: Figures refer to the position as at January 2019 when the 2019 Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) was compiled to facilitate parents in making school choice under the Central Allocation of POA 2019.

Question:

The Mainland University Study Subsidy Scheme (MUSSS) was launched in the 2014/15 academic year to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions. In 2017, the Education Bureau (EDB) introduced a non-means-tested subsidy under the MUSSS. In this connection, please advise this Committee of:

- a. the number of students passing the means test in the 2019/20 academic year (with a breakdown by full-rate and half-rate subsidies);
- b. the number of students receiving non-means-tested subsidy in the 2019/20 academic year; and
- c. the total expenditure on the MUSSS in the 2019/20 academic year.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 45)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched in July 2014. To better support Hong Kong students in pursuing studies in the Mainland, the MUSSS has been expanded since the 2016/17 academic year and a “non-means-tested subsidy” has been introduced under the MUSSS starting from the 2017/18 academic year. For the 2019/20 academic year, the full-rate subsidy and half-rate subsidy of the “means-tested subsidy” are \$16,800 and \$8,400 respectively. The “non-means-tested subsidy” offers \$5,600.

In the 2019/20 academic year (as at 29 February 2020), a total of 3 040 students (including both newly-approved applications and renewals) have been granted subsidy, among them 1 800 students have been granted full-rate “means-tested subsidy”, 599 students half-rate “means-tested subsidy”, and 641 students flat-rate “non-means-tested subsidy”. The total estimated expenditure on the MUSSS for the 2019/20 academic year is about \$42 million.

Director of Bureau: Secretary for Education

Question:

The Scheme for Subsidy on Exchange for Post-secondary Students and the Scheme for Subsidy on Exchange to Belt and Road Regions for Post-secondary Students were launched in January 2015 and July 2016 respectively to subsidise the participation of needy local post-secondary students in exchange activities outside Hong Kong. Regarding the schemes, please provide the following information:

- (1) the eligibility criteria the schemes adopt for funding exchange programmes;
- (2) in the past 2 academic years or subsidised periods, the number of participating institutions, number of applications received, number of students receiving the subsidy, number of activities approved, and amount of grant approved (by institution); and
- (3) further to the above question, based on the number of students receiving the subsidy, please list the top 10 destinations of exchange activities and the amount of grant of the schemes, with a breakdown by subsidised period.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 46)

Reply:

- (1) To ensure that no post-secondary student will be denied access to exchange activities due to a lack of financial means, the Government has introduced the Scheme for Subsidy on Exchange for Post-secondary Students (SSE) in January 2015. In addition, the Scheme for Subsidy on Exchange to Belt and Road (B&R) Regions for Post-secondary Students (SSEBR) (means-tested) (SSEBR (means-tested))¹ was launched in July 2016 to encourage and support students with financial needs to go on exchanges in the B&R regions², thus enabling them to seize the new opportunities brought about by the B&R initiative while enhancing and facilitating education exchanges between Hong Kong and the B&R regions.

Eligible exchange activities under the schemes must last for at least 2 weeks (applicable to SSE) or 5 days (applicable to SSEBR (means-tested)), and must be an outbound activity comprising substantive teaching and learning elements organised and/or endorsed by the participating post-secondary institutions. Participating institutions are required to process each application according to the operational guides issued by the Education Bureau.

- (2) The subsidised period of the 2 schemes runs from September of a year to August of the following year. In the 2 subsidised periods in 2017-18 and 2018-19, the number of students receiving the subsidy and the amount of subsidy granted for each of the participating institution under the 2 schemes are set out at **Annex A** and **Annex B** respectively. The EDB had not requested participating institutions to provide the numbers of applications and activities approved under the schemes on an annual basis..
- (3) In the past 2 subsidised periods, the top 10 exchange destinations, ranked by the number of visiting students under SSE, are the United Kingdom, the United States of America, Australia, Canada, the Netherlands, Germany, Taiwan, Sweden, Korea and Japan. As for SSEBR (means-tested), the top 10 exchange destinations, ranked by the number of visiting students, are Mainland China, Korea, Singapore, Taiwan, Russia, the Czech Republic, Poland, New Zealand, Thailand and Hungary. The amount of subsidy under the 2 schemes varies according to the destination and duration of the exchange activity, and is subject to adjustment by the level of student finance approved by the Student Finance Office for individual student.

¹ Known before September 2019 as Scheme for Subsidy on Exchange to Belt and Road (B&R) Regions for Post-secondary Students

² To encourage more students to go on exchange in the B&R regions, the Government expanded the subsidy coverage in September 2019 and introduced the Scheme for Subsidy on Exchange to B&R Regions for Post-secondary Students (Non-means-tested).

Programme: (8) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Starting from the 2018/19 school year, the Government has regularised the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland, under which each participating school will receive a grant of \$150,000 per annum. The additional annual expenditure is estimated to be around \$170 million. In this connection, please inform this Committee of:

- (1) the respective number and list of primary and secondary schools in receipt of the grant, the names of their Mainland counterparts, the professional support provided and the number of participating school personnel and students in the 2017/18, 2018/19 and 2019/20 school years.
- (2) the Government mentions that it will continue to provide recurrent grant and professional support to public sector special schools that have formed sister schools with their counterparts in the Mainland to further support multi-faceted development of sister school activities during 2020-21. Please advise on the details and estimated expenditures of the relevant work.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 47)

Reply:

(1) The Education Bureau (EDB) launched the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme) from the 2015/16 to 2017/18 school years, under which a fixed grant and professional support were provided for each local public sector school (including special school) and Direct Subsidy Scheme school that has formed sister schools with its counterparts in the Mainland. The Government has regularised the Pilot Scheme with effect from the 2018/19 school year. Schools may organise exchange activities with their sister schools in the Mainland at different levels based on their development needs. The number of participating schools

and the number of teachers' and students' participation in exchange activities are tabulated below:

School year	Secondary school	Primary school	Special school	Total no. of schools	No. of teachers' participation in exchange activities*	No. of students' participation in exchange activities*
2017/18	250	260	25	535	12 410	56 870
2018/19	296	312	26	634	#	#
2019/20 (as at March 2020)	305	329	28	662	#	#

* Figures are rounded to the nearest ten.

Statistics on the number of teachers' and students' participation in exchange activities during the implementation of the Pilot Scheme were collected as reference for review purpose. After the regularisation of the Pilot Scheme in the 2018/19 school year, information on the number of teachers' and students' participation in exchange activities is no longer gathered from the participating schools.

On top of the recurrent grant, we also provide participating schools with professional support, including organising exchange activities and sharing sessions, offering advice and assistance on the arrangements for exchange activities, and collecting and disseminating good practices. As a prevailing practice, we do not disclose the names of schools participating in the schemes and the relevant information to avoid possible labelling effect and unnecessary pressure on individual schools.

(2) The EDB has regularised the Pilot Scheme with effect from the 2018/19 school year to provide a recurrent grant (which is set at \$154,950 for the 2019/20 school year and the amount of grant will be adjusted in accordance with the movement of the Composite Consumer Price Index each year) for each local public sector school (including special school) and Direct Subsidy Scheme school that has formed sister schools with its counterpart(s) in the Mainland. It is anticipated that there will be about 700 participating primary, secondary and special schools in the 2020/21 school year. The EDB will continue to provide assistance to local schools to form sister schools with their counterparts in the Mainland to promote more in-depth professional exchange and multi-faceted collaboration, with a view to enhancing the quality and quantity of sister school exchanges, and hence facilitating cultural exchange and increasing teachers' and students' knowledge and understanding of the Mainland.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Career and Life Planning Grant provided for secondary schools, please provide the following information:

- (1) The expenditure involved and the number of schools that applied for the grant in the 2019/20 school year;
- (2) Further to item (1) above, the number of schools that applied for converting the grant into regular teaching posts in the 2019/20 school year; and
- (3) The findings of the Education Bureau's review of the implementation of life planning education.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 48)

Reply:

(1) and (2) Since the 2014/15 school year, the Education Bureau (EDB) has been providing each public sector school and Direct Subsidy Scheme (DSS) school operating classes at senior secondary levels with a recurrent Career and Life Planning Grant (CLPG) (\$640,000 for the 2019/20 school year). Starting from the 2016/17 school year, eligible public sector schools are given the option to convert the CLPG into regular teaching posts. For DSS schools, the expenses in relation to the grants and the regular teaching posts provided under this initiative have been incorporated in the DSS unit subsidy rate. In the 2019/20 school year, 93 eligible public sector schools continue to receive the CLPG, while 352 schools have converted the CLPG into regular teaching posts. The expenditure on the CLPG is \$60 million. The expenses incurred in converting the CLPG into regular teaching posts are subsumed under the EDB's recurrent expenditure and no breakdown is available.

(3) To consolidate the experience gained from implementing Life Planning Education (LPE) and map out the way forward, the EDB commissioned the Education University of Hong Kong in 2017 to conduct a review on the effectiveness of LPE, the implementation of the LPE policy, and the benefits of the Business-School Partnership Programme (BSPP) on students. The review showed that the implementation of LPE in local secondary schools has reaped initial success. By establishing well-defined organisational structures and school-based policies, schools are gradually gaining the support of teachers, students and parents in the promotion of LPE. In parallel, BSPP has received much support from schools and BSPP partners. It is valued by schools as one of the important resources in the promotion of LPE and well recognised by teachers and students too.

Based on the recommendations put forward in the consultancy report, the EDB has adopted various measures to strengthen the support for the implementation of LPE in schools. For example, the EDB proactively encourages schools to adopt a whole-school approach to implement LPE and invites schools to share their good practices and experience in professional development activities. With regard to teacher training, the EDB regularly reviews the training needs of teachers in the area of LPE. Apart from structured teacher training programmes, new themes and topics are introduced based on the needs of schools and teachers. Learning circles will continue to be formed through District Development Networks to foster a culture of sharing and professional exchange among teachers. As far as training for parents is concerned, workplace visits and workshops are arranged under BSPP with a view to introducing parents to the developmental prospects of different industries. Schools are also encouraged to hold talks for parents to enhance their awareness of the importance of LPE as well as their roles in it. Moreover, the EDB launched the Life Planning Information Website in September 2019 to provide a one-stop platform for students, teachers and parents to gather information on different industries and multiple pathways. In the 2020/21 school year, several new features will be added to the website, including records of student learning portfolios, career assessment tools and online learning for teachers, to further assist students in finding and processing LPE-related information. The EDB will also step up the promotion of BSPP. At present, BSPP has over 380 partner organisations. We will continue to identify and invite corporations of different trades and industries to join BSPP so as to provide more diversified career exploration activities for students. Moreover, the EDB has used existing platforms to facilitate exchange of information, sharing of collaboration experience and activity arrangements among schools and partner organisations in order to maximise the benefits of BSPP.

Question:

Students with mental illness have been covered by the Learning Support Grant for public sector secondary schools starting from the 2017/18 school year. In this connection, please answer the following questions:

- (1) What were the expenditure involved and the number of student beneficiaries in the 2019/20 school year?
- (2) What are the estimated expenditure involved and the number of student beneficiaries in the 2020/21 school year?
- (3) Is the Education Bureau aware of how schools have been using the additional resources to support students with mental illness?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 49)

Reply:

(1) to (3)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing all public sector schools with additional resources on top of the regular subvention for all ordinary schools, including the Learning Support Grant (LSG). Starting from the 2017/18 school year, the LSG covers students with mental illness (MI) so that schools will have additional resources to enhance support for addressing these students' learning, social, emotional and behavioural needs. The LSG is calculated on the basis of the number of students with SEN admitted and the tier of support these students require. Basing on the principle of "calculation on individual basis and deployment holistically", schools should pool and deploy the LSG and other school resources holistically and flexibly to render support to students with SEN according to individual

conditions and needs, such as employing additional teachers or teaching assistants, and hiring professional services.

Based on the number of school applications for the LSG approved by the EDB up to the end of the first term in the 2019/20 school year, the number of secondary school students with MI as the major type of SEN is around 840. Given that MI is largely transient in nature, we assume that some students with MI or their parents would prefer not to have their information submitted to the EDB by the schools, and this may result in a relatively smaller number of students with MI.

As the expenditure involved in providing public sector ordinary secondary schools with the LSG to render support to students with MI is subsumed under the overall expenditure of the LSG, a separate breakdown is not available. Regarding the provision of the LSG for public sector ordinary secondary schools, the revised estimated expenditure for the 2019/20 school year and the estimated expenditure for the 2020/21 school year are both \$280 million.

As mentioned above, in utilising the LSG to support secondary school students with MI, schools will employ additional staff (e.g. teaching assistants to assist teachers in designing learning activities and materials as well as supporting students in classroom learning activities) and hire professional support or guidance services (e.g. behavioural or emotional counselling and social training at school) to help students adjust to campus life. Schools will also use the LSG to introduce school-based teacher training, parent education, etc. on a need basis.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies, measures and deployment of resources (including the support for students with SEN) through self-evaluation every year. As required by the EDB, schools should submit an annual self-evaluation report, which is validated through External School Review by the EDB, on the implementation of the Whole School Approach to integrated education to the EDB at the end of each school year. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. When using Government subventions (including the LSG), all public sector schools are required to adopt effective monitoring measures, maintain proper records and conduct periodic reviews. Professional staff from the EDB will learn about the support provided by schools for students with SEN and offer professional advice whenever necessary during school visits in order to ensure that the support services provided can address the needs of students with SEN (including students with MI). It should be noted that students diagnosed with MI should receive treatment in strict accordance with the instructions given by healthcare professionals. On the part of schools, subject to the consent of the parents, teachers may use the LSG or other resources to provide professional support, with a view to helping the students concerned overcome the learning and personal growth challenges that the illness brings to them.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education
Question:

Regarding the implementation of Learning Support Grant (LSG), please advise of:

1. the number of students requiring tier-2 and tier-3 support, the amount of subsidy per student and the total expenditure in the 2019/20 school year;
2. the number of schools with LSG clawed back by the Education Bureau (EDB) and the amount involved in the 2017/18, 2018/19 and 2019/20 school years;
3. further to the above question, whether the Administration has looked into the reasons for schools' not optimising the use of LSG and offered recommendations for improvement; if yes, of the details; and
4. how the EDB assesses the effectiveness of LSG.

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 50)

Reply:

1. to 4.

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of the regular subvention for all ordinary schools, has been providing schools with additional resources, mainly the Learning Support Grant (LSG). The EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for Integrated Education (IE) and extending the LSG to all public sector ordinary schools to replace the Intensive Remedial Teaching Programme (IRTP) and IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reaches the specific threshold. With the implementation of the above enhanced LSG, schools are provided

with a more stable teaching force and additional resources for flexible deployment to support students with SEN. Under the above arrangements, a total of some 1 000 additional regular teaching posts were created in the 2019/20 school year, with 675 schools (431 primary schools and 244 secondary schools) having 1 to 3 such post(s) created.

In the 2019/20 school year, the grant per year per student requiring tier-2 and tier-3 support is \$15,000 and \$60,000 respectively. The revised estimated expenditure on LSG (excluding expenditure for creation of the above additional regular teaching posts) is around \$750 million. The number of students with SEN requiring tier-2 and tier-3 support in public sector ordinary primary and secondary schools is tabulated below:

2019/20 school year	No. of students requiring tier-2 support	No. of students requiring tier-3 support
Primary school	27 959	2 094
Secondary school	21 502	1 552

Public sector ordinary schools are encouraged to fully utilise the LSG allotted every year to cater for the needs of students with SEN. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (applicable to aided and caput schools) or financial year (applicable to government schools), the excess surplus will be clawed back. To our understanding, the underspending of individual schools and hence the clawback of surplus at the end of a specific school year/financial year are due to some unexpected difficulties, e.g. time required for employment of additional staff longer than expected, early termination of contract by additional staff, difficulties in hiring appropriate professional services, etc.

Based on the audited information as at March 2020, there are 18 schools with LSG clawed back at the end of the 2017/18 school year (aided and caput schools)/2017-18 financial year (government schools), and the amount of LSG clawed back is around \$1 million. As the amount to be clawed back from aided and caput schools for the 2018/19 school year will be confirmed only after the schools' submission of audited accounts by the end of February 2020 and verification by EDB, we are unable to provide information on the clawback for the 2018/19 school year and beyond.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their support for students with SEN, as with other school policies and measures, through self-evaluation every year. The EDB also requires schools to submit to it an annual self-evaluation report, which is validated through External School Review by the EDB, on the implementation of the Whole School Approach to IE at the end of a school year. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. Furthermore, with our stepped-up efforts to monitor and remind schools of the optimal utilisation of LSG, the surplus situation of LSG among schools has been improved in recent years. Various measures include providing schools with guidelines on deployment of LSG and clawback mechanism, conducting regular school visits to advise on the deployment of resources to support students with SEN, organising experience sharing activities among schools, and

issuing reminders to individual schools to urge improvements in case of undesirable situation.

The EDB has implemented the above enhanced measure for LSG starting from the 2019/20 school year. Such measure is an appropriate response to the mainstream views gathered from the sector during consultations, i.e. to provide schools with a more stable teaching force and additional resources for flexible deployment to support students with SEN, and to further enhance the effectiveness of IE.

Director of Bureau: Secretary for Education

Question:

- (1) Please provide the respective numbers and percentages of local students, non-local Chinese students and other non-local students studying in international schools (including those under the English Schools Foundation) in the 2019/20 school year, with a breakdown by primary, secondary and special education.
- (2) Further to the above question, has the limit for local admissions (i.e. 30%) imposed by the Education Bureau (EDB) complied by every international school? If not, please provide the number of non-compliant schools and the percentages of local students in these schools.
- (3) Under the existing mechanism, will the EDB take follow-up actions against international schools which have failed to comply with the EDB's limit for local admissions? If yes, what are the details? If no, what are the reasons?
- (4) Please provide the numbers of school places and students in international schools (including those under the English Schools Foundation) in the 2017/18, 2018/19 and 2019/20 school years, with a breakdown by primary, secondary and special education.
- (5) How does the Government regulate international schools operating on private lands? Are the regulatory measures applied to these schools the same as those governing international schools developed through the EDB's School Allocation Exercise?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 51)

Reply:

(1) The number of local and non-local students studying in international primary, secondary and special schools in the 2019/20 school year is tabulated at **Annex 1**.

(2) and (3) In the 2019/20 school year, the ratio of non-local students of 15 international schools is subject to a related requirement, ranging from 50% to 98%, under the respective service agreements (SAs) entered into between the schools and the Government following the allocation of vacant school premises (VSP) or greenfield site in question for international school development under School Allocation Exercises (SAEs). Under the prevailing policy, school sponsoring bodies (SSBs) allocated with school premises or sites by the Education Bureau (EDB) for such purpose are required to allocate at least 70% of the school places to non-local students. In the SAE conducted in 2014, favourable consideration was given to proposals accepting a higher proportion of non-local students. In case of breach of requirements in the SA by SSBs and schools (including failure to comply with the minimum percentage of non-local students to be enrolled as stipulated in the SA), the EDB will take follow-up actions, and has the right to terminate or refuse to renew the SA, or even re-enter the VSP or greenfield sites concerned. In addition, when discussing with the English Schools Foundation (ESF) the phasing-out arrangements of the recurrent government subvention for ESF schools in 2013, we have taken the opportunity to remind the ESF to continue to maintain their student mix of having no less than 70% of their overall student population being non-local students.

In the 2019/20 school year, non-local students accounted for 74.1% of the overall student population in the international school sector, while local students accounted for 25.9%. When SSBs submitted their proposals for the SAE, they acknowledged and agreed that the information provided (including the proposed minimum percentage of non-local students to be enrolled) would only be used for the relevant SAE. We are therefore unable to disclose the requirement on the minimum percentage of non-local students to be enrolled by individual international schools. Nevertheless, among the aforementioned international schools which are subject to the requirement on enrolment of local students, except 4 schools which commenced operation in 2018, 2017 and 2016 respectively, and 2 schools which are obliged by the renewal of SAs in 2018 and 2019 respectively to observe a higher percentage of non-local students, the rest have complied with the relevant requirement. We will follow up on the student admission of the relevant schools in the coming year.

(4) The number of school places and students in international primary, secondary and special schools from the 2017/18 to 2019/20 school years is tabulated at **Annex 2**.

(5) Under the EDB's prevailing policy, SSBs allocated with VSP and/or greenfield sites for international school development through the SAEs are required to enter into an SA with the Government and undertake to comply with a set of requirements in relation to the establishment of international schools. Apart from complying with the requirement on minimum percentage of non-local students to be enrolled, relevant schools are required to submit audited annual accounts to the Government, as well as proof of the school's recognition from a renowned accreditation body, etc., to facilitate the EDB's monitoring of their financial situation and teaching quality.

SSBs which would like to establish an international school in Hong Kong without allocation of VSP or greenfield sites through the SAE should first apply for registration of a private school. After ensuring the school's compliance with the EDB's requirements in relation to the establishment of international schools (including allocating at least 70% of school places to non-local students, possessing proven track record in school operation and full accreditation from an established accreditation body, formulating a sustainable financial plan, etc.), an application could be made to the EDB for registering the school as an international school. A school must be registered as an international school before it may be named as an international school. The EDB will carefully assess the application materials submitted by the SSB, and will only consider approving the application after ensuring that the school's operation and performance have fulfilled the requirements in relation to the establishment of international schools. Detailed requirements concerning applications for establishment of an international school in Hong Kong are uploaded to the EDB's thematic website on international schools for public access (https://internationalschools.edb.hkedcity.net/submit_an_application.php?lang=en).

At the same time, to ensure education quality, all international schools are required to comply with the provisions in the Education Ordinance (Cap. 279) and the Education Regulations (Cap. 279A). For example, the school premises must comply with the relevant buildings and fire safety requirements; teachers must obtain the prescribed qualifications and register with the EDB; the tuition fees must be approved by the EDB, etc.

**Number of Local and Non-local Students (Chinese or Others)
in International Primary, Secondary and Special Schools in the 2019/20 School Year
(based on the Student Enrolment Survey conducted in September 2019)**

Primary Schools

	Students	%
Local	6 317	27.3%
Non-local – Chinese	1 116	4.8%
Non-local – Others	15 723	67.9%
Total	23 156	100.0%

Secondary Schools

	Students	%
Local	4 317	24.0%
Non-local – Chinese	908	5.1%
Non-local – Others	12 752	70.9%
Total	17 977	100.0%

Special School

	Students	%
Local	15	21.7%
Non-local – Chinese	1	1.4%
Non-local – Others	53	76.8%
Total	69	100.0%

Notes:

- (1) Local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region (HKSAR)) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport.
- (2) Non-local Chinese students refer to students who hold Chinese nationality (e.g. Mainlanders, Macaoese and Taiwanese) and hold a passport other than the HKSAR Passport or the British National (Overseas) Passport. There is no further breakdown of the number of students with Chinese nationality.
- (3) Figures for primary and secondary schools include students studying in the English Schools Foundation (ESF) schools and other international schools but not the special school operated by the ESF.
- (4) Figures for special school refer to the number in the special school operated by the ESF.
- (5) Figures refer to the position as at September 2019.
- (6) Percentages may not add up to total due to rounding.

**Number of School Places and Students
in International Primary, Secondary and Special Schools
from the 2017/18 to 2019/20 School Years**

	2017/18		2018/19		2019/20	
	No. of School Places	No. of Students	No. of School Places	No. of Students	No. of School Places	No. of Students
Primary Schools	23 803	21 912	24 664	22 720	25 012	23 156
Secondary Schools	19 790	16 956	20 200	17 478	21 376	17 977
Special School	70	70	70	69	70	69

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures for primary and secondary schools include students studying in the English Schools Foundation (ESF) schools and other international schools but not the special school operated by the ESF.
- (3) Figures for special school refer to the number in the special school operated by the ESF.

CONTROLLING OFFICER'S REPLY**EDB537****(Question Serial No. 3765)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the 2019 School Allocation Exercises conducted by the Education Bureau, would the Government inform this Committee of:

(a) the details of allocated school premises in the table below:

District where the school premises are located	Location of school premises	Use of allocated school premises (e.g. operation of time-limited schools, operation of new schools, or reprovisioning of existing schools)	Vacant or new school premises	Organisation recommended for allocation

(b) the details of allocated new school premises in the table below:

Location of school premises	Site area of school premises	Completion date of school premises	Construction cost of school premises

(c) the details of allocated vacant school premises in the table below:

Location of school premises	Site area of school premises	Year in which construction of the school premises was completed	Year in which the school premises became vacant	Renovation cost of school premises

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 99)

Reply:

According to the prevailing school allocation mechanism of the Education Bureau (EDB), once a vacant/to-be-vacant premises or a reserved school site is confirmed to be required for allocation for school use, the EDB will normally invite applications from all eligible organisations in the territory through the School Allocation Exercises (SAE) and make relevant announcement through press release and its website. The SAE is generally conducted on a competitive basis amongst the applicant bodies. When assessing the applications, quality of education is the prime consideration of the School Allocation Committee comprising official and non-official members. Other factors, including operation track records and conditions of existing school premises (where applicable), proposed school plans, etc., will also be considered.

The EDB launched 4 SAEs in 2019. Details are set out in the table below.

Table — Information on the 2019 SAEs and the related school premises

SAE	Location of school premises (name of former school of the vacant school premises (VSP), if applicable)	Expected completion date of the planned new school premises/ Completion year of the VSP renovation)	School year in which the former school of the VSP ceased operation (if applicable) (Note (1))	Site area (applicable to planned new school premises)/ Site area of the VSP (rounded to the nearest hundred m ²)	Use of allocated school premises	Organisation recommended for allocation	Estimated construction cost for planned new school premises/ Estimated renovation cost for the VSP (\$ million) (at money-of-the-day prices)
First SAE 2019	Area 9, Tai Po	Mid-2023 (Tentative)	Not applicable	7 100	Setting up a new aided primary school	The Superintendent in Hong Kong of the Pentecostal Holiness Church	To be confirmed (Note (2))
Second SAE 2019	Au Pui Wan Street, Fo Tan, Sha Tin	Mid-2024 (Tentative)	Not applicable	4 700	Reprovisioning of an existing public sector primary school	Po Leung Kuk (reprovisioning of Po Leung Kuk Siu Hon Sum Primary School)	To be confirmed (Note (2))

	Mei Lam Estate, Sha Tin (Ex-premises of Sung Lan Middle School)	The second quarter of 2021 (Tentative)	2012/13	5 800 #	Reprovisioning of an existing public sector primary school	The Trustees of the Kowloon Tong Church of the Chinese Christian and Missionary Alliance (reprovisioning of Christian Alliance H.C. Chan Primary School of the Kowloon Tong Church of the Chinese Christian and Missionary Alliance)	29.9
Third SAE 2019	Lin Cheung Road, Sham Shui Po	The third quarter of 2024 (Tentative)	Not applicable	6 200	Reprovisioning of an existing public sector primary school located in the Primary One Admission (POA) school net of Kwai Tsing district	SAE underway	To be confirmed (Note (2))
	Site 1B-4 at Kai Tak Development, Kowloon City	The third quarter of 2024 (Tentative)	Not applicable	6 100	Reprovisioning of an existing public sector primary school located in the POA school net of Wong Tai Sin district	SAE underway	To be confirmed (Note (2))
Fourth SAE 2019	Sheung Foo Street, Ho Man Tin, Kowloon City	End 2024 (Tentative)	Not applicable	7 800	Reprovisioning of an existing public sector or Direct Subsidy Scheme (DSS) primary school	SAE underway	To be confirmed (Note (2))
	Development at Anderson Road, Kwun Tong (Site KT2a)	End-2024 (Tentative)	Not applicable	6 800	Reprovisioning of an existing public sector or DSS primary school	SAE underway	To be confirmed (Note (2))

Luk Lau Avenue, Wong Tai Sin (Ex-premises of S.K.H. Ching Shan Primary School and S.K.H. Yat Sau Primary School)	End-2025 (Tentative)	Not applicable	3 700	Reprovisioning of an existing public sector or DSS primary school	SAE underway	To be confirmed (Note (2))
68 Gillies Avenue South, Hung Hom, Kowloon (Ex-premises of Hung Hom Government Primary School)	The third quarter of 2021 (Tentative)	2009/10	1 900	Reprovisioning of an existing public sector or DSS primary school	SAE underway	29.9

Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to the internal floor area of the premises and is marked with (#) in the table above.

Note (1) "School year in which the school ceased operation" refers to the year the school premises were ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note (2) The EDB is taking forward the preparation work for related school building projects, including estimating project costs based on the actual site conditions and school building arrangements, under the established mechanism and procedures. The EDB will submit the school building projects and funding applications to the Legislative Council for approval in due course. The estimated project costs will be provided in the relevant funding proposals.

(ii) 2 projects to facilitate NCS students' transition from KG to primary education from the 2015/16 to 2016/17 school years and from the 2017/18 to 2018/19 school years respectively	Note 3	Note 3	Note 3	Note 3	-
(b) In the 2019/20 school year, post-secondary institutions are commissioned to provide school-based support services for KGs admitting NCS students, so as to enhance the professional capacity of teachers in teaching Chinese to NCS students.	-	-	-	-	Note 4
(c) School-based professional support services	Note 1	Note 1	Note 1	Note 1	Note 1
(d) With the implementation of the new KG education policy starting from the 2017/18 school year:					

Support measures	Actual expenditure in the 2015/16 school year \$ million	Actual expenditure in the 2016/17 school year \$ million	Actual expenditure in the 2017/18 school year \$ million	Actual expenditure in the 2018/19 school year \$ million	Estimated expenditure in the 2019/20 school year \$ million
(i) in the 2017/18 and 2018/19 school years, a grant comparable to the recommended salary of 1 KG teacher was provided to KGs admitting 8 or more NCS students for supporting NCS students.	-	-	54.0	57.1	-
(ii) starting from the 2019/20 school year, the subsidy for KGs admitting NCS students has been enhanced with a 5-tiered subsidy provided based on the number of NCS students admitted, which replaced the flat-rate subsidy for KGs admitting 8 or more NCS students.	-	-	-	-	109.8
(iii) specific training courses for KG teachers on supporting NCS students	-	-	1.4	2.0 Note 5	2.6 Note 5

Notes:

1. These measures are provided by different sections of EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different funds, and a breakdown of expenditure by item is not available.
2. With the Government paying the examination fees for school candidates of the 2019 and 2020 HKDSE, the “subsidised examination fee” for eligible NCS students entering for the non-local Chinese Language examinations concerned in the 2018/19 and 2019/20 school years is waived accordingly.
3. Regarding the USP, the actual expenditure was \$2.25 million, \$8.33 million, \$2.88 million and \$5.46 million for the 2015/16, 2016/17, 2017/18 and 2018/19 school years respectively. As the USP was implemented in both KGs and primary schools, a breakdown of expenditure by KG and primary school is not available.
4. As the services are provided in both KGs and primary schools, a breakdown of expenditure by KG and primary school is not available. The estimated expenditure on the services is \$3.35 million for the 2019/20 school year.
5. Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate KGs in arranging for teachers to attend specified training courses on supporting NCS students. The relevant expenditure has been included in the estimated expenditure for these training courses.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau had spent HK\$184,000 to formulate an evaluation research framework to evaluate the effectiveness of support measures on the learning of Chinese of NCS students. The “data collection and associated research work under the research framework has started from the end of the 2014/15 school year, when initial data on the performance of NCS students and feedback on the impact of various support measures are available.” EDB mentioned that it would share with stakeholders the findings, including the overall performance of NCS students in Chinese Language, feedback of schools on the support services and recommendations for improvement where appropriate.

It was mentioned by the Government that a review would be conducted after the Framework was implemented for three years.

(a) Given that this is the sixth year of the implementation of the Framework, will the Government share with this Council the data on the performance of NCS students and feedback on the impact of various support measures as well as the overall performance of NCS students in Chinese Language, feedback of schools on the support services and recommendations for improvement? If no, the reasons and provide the timetable of releasing the results of the data collection and associated research work under the research framework.

(b) Regarding the Chinese as a Second Language Framework Evaluation report, will the EDB publish the evaluation framework and the entire Learning Framework review report so that stakeholders are informed on the comprehensive details and not just the initial findings?

(c) Referencing circular 25/2019 regarding CSL Framework refinement, did the Curriculum Development Council consult with teachers on the refinement? If yes, please provide details of the format and scale of consultation since 2014/15 school year using the table below.

Evaluation format	Target participants	Date	No. of stakeholders consulted	Expenditure

(d) Number of briefing sessions organized by the EDB regarding the Learning Framework? Please list out the date, venue, attendance and enrollment of the sessions since 2014/15 school year.

Types of sessions	Target participants	Date	Venue	No. of enrollment	No. of attendance	Expenditure	Evaluation method

Asked by: Hon MO Claudia (LegCo internal reference no.: 68)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has implemented the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools. The “Learning Framework” was drawn up in consultation with teachers and language experts, with a view to helping non-Chinese speaking (NCS) students in learning Chinese as a second language. In tandem, the EDB has provided diversified support for schools admitting NCS students, including professional development programmes for teachers, learning and teaching resources, school-based professional support services, etc.

The EDB reviews and evaluates the effectiveness of various support measures for NCS students on an ongoing basis, and refines the measures as necessary in light of NCS students’ performance in the Territory-wide System Assessment (TSA) and findings of the questionnaire surveys on TSA, as well as views of schools on professional development programmes for teachers and the school-based professional support services. We will look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning. Nevertheless, the learning effectiveness of NCS students, after all, is affected by other factors (such as parents’ expectation and cooperation, students’ learning attitude). The EDB is exploring how to assess NCS students’ learning progress in Chinese at the system level, with a view to providing feedback to schools and enhancing related support measures.

The EDB has been conducting school visits and focus group interviews in respect of the implementation of the Chinese Language curriculum, and soliciting teachers’ views on the “Learning Framework” as appropriate through meetings of the Committee on Chinese Language Education of the Curriculum Development Council, etc. so that refinements could be made to the “Learning Framework”. In general, teachers consider that the “Learning Framework” is useful for curriculum planning, teaching and assessment in teaching Chinese

to NCS students. Members of the Curriculum Development Council Committee on Chinese Language Education also share the same views that the “Learning Framework” can facilitate teachers to teach. The EDB has revised the “Learning Framework” in light of the views of teachers, so as to make the descriptions of learning outcomes more precise and concrete. The revised “Learning Framework” was uploaded to the EDB’s webpage (<https://www.edb.gov.hk/tc/curriculum-development/kla/chi-edu/second-lang.html>) in January 2019. In parallel, the relevant assessment tools and teaching resources have been updated accordingly. The EDB organises briefing sessions and workshops for teachers on an ongoing basis. Since January 2019, 14 sessions have been held (about 1 000 places were available with the attendance of around 590) to brief teachers on the revisions to the “Learning Framework” and facilitate schools’ adoption of the “Learning Framework” with regard to curriculum planning, learning and teaching, and assessment. Exchange of views with teachers will be continued. Other professional development programmes on the “Learning Framework” will be organised for teachers, details of which are available on the EDB’s Training Calendar.

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Since 2014 primary and secondary schools with 1 to 9 non-Chinese speaking (NCS) students can apply for extra funding of \$50,000 to support after school Chinese learning of NCS students.

Will the Government inform this Council of:

- (a) the total number of primary schools in the districts with 1-9 NCS students, the number of primary schools receiving the extra NCS funding, and the percentage of these schools out of all schools from 2015/16 to 2019/20 school years disaggregated by district;
- (b) the total number of secondary schools in the districts with 1-9 NCS students, the number of secondary schools receiving the extra NCS funding, and the percentage of these schools out of all schools from 2015/16 to 2019/20 school years disaggregated by district;
- (c) Regarding the school plans and reports required when applying the additional funding, the EDB mentioned that it may include detailed internal information which is not intended for disclosure to the public. Can the EDB inform the council the list of internal information involved?
- (d) What are the learning indicators of NCS students' Chinese at schools with additional funding? If there are no indicators, why not?
- (e) Funding accountability refers to the effectiveness of the funds provided instead of merely listing out the numbers and support employed by the schools. How does the EDB ensure the accountability and effectiveness of the additional funding to the public?

Asked by: Hon MO Claudia (LegCo internal reference no.: 69)

Reply:

- (a) and (b) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 NCS students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes.

To avoid unnecessary misconception and possible labelling on individual schools, we have been adopting a cautious approach and adhering to the established practice of not disclosing information that may indicate the situation of individual schools concerned in respect of issues such as the number or ratio of academically low achievers, students with special educational needs, students from needy families, NCS students, etc. Hence, we will not provide the total number of primary and secondary schools admitting 1 to 9 NCS students by district. The number of primary and secondary schools, the number of primary and secondary schools admitting 1 to 9 NCS students and provided with the above-mentioned additional funding, and their percentage share among the total number of primary and secondary schools by district from the 2015/16 to 2019/20 school years are tabulated at Annex A and Annex B respectively. No applications from schools were rejected during the period. However, not all schools admitting 1 to 9 NCS students applied for the above-mentioned additional funding.

- (c) to (e) The above-mentioned additional funding provided for schools admitting 1 to 9 NCS students is for specific purposes only, i.e. organising after-school support programmes for NCS students to learn Chinese and creating an inclusive learning environment in schools. In this connection, EDB has issued a circular and letters to schools elucidating the policy intent and guidelines on the use of the funding. Schools receiving the additional funding are required to submit to EDB their school plans and reports, which are endorsed by the School Management Committee/Incorporated Management Committee, on the

use of the funding and the measures to support NCS students for each school year. To facilitate monitoring of the use of the additional funding, we require schools to provide in their school plans and school reports relevant information which may involve detailed internal information not intended for public consumption, including the number of NCS students admitted and their grade level distribution, and how schools dovetail the additional funding with other resources to support NCS students, etc. Therefore, schools are not required to upload their school plans and reports to their webpages. To ensure the proper use of the additional funding by schools, EDB will examine the annual school plans on the use of funding of the schools concerned, and verify them against their annual school reports. EDB will also conduct supervisory visits to the schools to monitor the use of funding. Besides, feedback will be collected from schools' major stakeholders by means of questionnaires, interviews, etc., so as to review the implementation of support measures.

Besides, EDB has been continuously developing diversified learning and teaching resources such as the "Chinese Language Assessment Tools for NCS Students" ("Assessment Tools") and teaching reference materials to provide guidelines and support for teachers. The assessment tasks under the "Assessment Tools" cover the entry stage, Key Stage 1 (Primary 1-3), Key Stage 2 (Primary 4-6), Key Stage 3 (Secondary 1-3) and Key Stage 4 (Secondary 4-6). The tasks in each stage are designed in conjunction with the expected learning outcomes across different levels of the "Learning Framework", so as to assist teachers in teaching and providing assessment feedback to NCS students. Aligned with curriculum planning, teaching progression and NCS students' learning needs, teachers may adopt a school-based approach in using the "Assessment Tools" to assess NCS students' learning progress over time, provide timely feedback on learning and set progressive learning targets for their NCS students. Currently, schools make use of the "Assessment Tools" to assess their NCS students' learning progress on their own. Inevitably, differences may arise among schools and there is also a lack of objective comparison of the performance of students in different schools. Therefore, EDB is exploring how to assess NCS students' learning progress in Chinese at system level, with a view to providing feedback to schools and enhancing related support measures.

We understand that the learning effectiveness of NCS students is affected by other factors (such as students' learning attitude, parents' expectation and cooperation). It is therefore neither appropriate nor possible to assess the effectiveness solely based on NCS students' performance in the Chinese Language subject. We will look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning.

Number of primary schools, number of primary schools admitting 1 to 9 non-Chinese speaking (NCS) students and provided with additional funding to offer after-school support programmes in learning Chinese, and their percentage share among the total number of primary schools by district from the 2015/16 to 2019/20 school years

The Government advocates the use of mother tongue as the principal medium of instruction (MOI) for primary school education since students learn most effectively through the mother tongue. Ethnic minority students who are in mainstream schools are mostly taught in Chinese MOI in non-language subjects which pose extra difficulties to their learning. Will the Government inform this Council of:

- (a) The overall information on the class and subject details (including MOI) collected in the annual survey with primary and secondary schools in the recent 3 years;

		Number of primary schools which use English as the MOI in				Number of secondary schools which use English as the MOI in			
		None of the non-lang uage subjects	1 non-lang uage subject	2 non-lang uage subjects	3 or more non-lang uage subjects	None of the non-lang uage subjects	1 non-lang uage subject	2 non-lang uage subjects	3 or more non-lang uage subjects
Types of school	Government schools								
	Aided schools								
	DSS schools								
	Caput schools								

- (b) the list of extended learning activities in English adopted by secondary schools;

- (c) the list of secondary schools which adopted the extended learning activities in English to use English medium for not more than two non-language subjects, disaggregated by the types of schools, and number of schools which use English as the MOI as the extended learning activities in English in each of the following subjects, including: mathematics, integrated science, geography, history, computer literacy, physics, chemistry, biology, STEM education, Home economics, music, life and society, visual art, physical education, careers planning education, liberal studies, ethics and religious studies, and others);
- (d) the prescribed criteria for a secondary school to make choices of the number and subjects taught in English;
- (e) are schools allowed to utilize the additional funding to schools with NCS students to provide support to the teaching and learning of NCS students in non-language subjects which use Chinese as the medium of instruction? If yes, how many schools are using the additional funding for this purpose currently?
- (f) the list of support, training and resources provided, organized or developed by the EDB to schools and teachers in supporting the teaching of non-language subjects to NCS students using Chinese.

Asked by: Hon MO Claudia (LegCo internal reference no.: 70)

Reply:

- (a) to (d) For primary education, the Government advocates the use of mother tongue (i.e. Chinese in the context of Hong Kong) as the principal medium of instruction (MOI) since students learn most effectively through their mother tongue. The Education Bureau (EDB) has not compiled statistics on public sector primary schools adopting English as the MOI in non-language subjects.

As for secondary education, the arrangements of fine-tuning the MOI for secondary schools (“fine-tuned MOI arrangements”) has been implemented at junior secondary levels since the 2010/11 school year, with a view to increasing students’ exposure to English and opportunities to use English in school, thereby enhancing students’ English proficiency and ensuring students’ learning effectiveness at the same time. Under the fine-tuned MOI arrangements, schools are required to devise appropriate MOI arrangements professionally according to the prescribed criteria on a 6-year cycle, including “student ability” (i.e. the average proportion of Secondary 1 (S1) intake of a school admitted to a class belonging to the “top 40%” group (territory) in the Secondary School Places Allocation of the previous 2 years under a 6-year cycle reaches 85% of the size of a class (based on the number of students allocated per S1 class)); “teacher capability” (i.e. teachers adopting English as the MOI should have Level 3 or above in English Language of the Hong Kong Diploma of Secondary Education Examination (or Grade C or above in English Language (Syllabus B) of the defunct Hong Kong Certificate of Education Examination, or other recognised equivalent qualifications (e.g. Band 6 or above in International

English Language Testing System (IELTS) (academic domain)); and “school-based support” (i.e. support measures provided by schools for students in adopting English as the MOI). To enhance the English learning environment for students, schools may conduct extended learning activities (ELA) in English (up to 25% of the total lesson time excluding the lesson time for the English Language subject) for each class/group of students. The teaching modes of ELA in English include conducting cross-curricular English enrichment programmes, using English to go through subject concepts and contents already taught in Chinese, and using English to teach individual modules or themes. Schools may also choose to transform the lesson time of ELA into teaching of no more than 2 non-language subjects in the English medium (i.e. “allocation of time to subjects”). Therefore, schools can adopt diversified and flexible MOI arrangements at junior secondary levels, such as adopting Chinese as the MOI in all non-language subjects, adopting Chinese or English as the MOI in different subjects, adopting English as the MOI in full immersion, adopting Chinese or English as the MOI by class/group, and conducting ELA in English in lessons. As the choice and lesson time for conducting ELA in English and that of subjects taught in English may vary between classes or groups within a school as well as among schools, relevant information is not available.

- (e) The additional funding provided to schools admitting non-Chinese speaking (NCS) students is for specific purposes only, i.e. supporting NCS students’ learning of the Chinese language and creating an inclusive learning environment in schools, including strengthening the communication with parents of NCS students and enhancing the effectiveness of NCS students’ learning of the Chinese language through home-school co-operation. Solid language foundation and language proficiency are conducive to NCS students’ learning of other subjects using Chinese as the MOI. Therefore, the objective and ambit of the additional funding are set as enhancing the effectiveness of learning of the Chinese language. Besides using the additional funding in the Chinese Language subject, some schools also use the additional funding to enrich and consolidate NCS students’ knowledge of the Chinese language in different Key Learning Areas/themes through the mode of learning Chinese across the curriculum, such as teaching the Chinese vocabulary of other subjects, providing a glossary for the subjects concerned, etc. to further enhance NCS student’s learning of the Chinese language. On the other hand, in respect of teaching other subjects, schools may also flexibly deploy other resources, such as the Operating Expenses Block Grant or Expanded Operating Expenses Block Grant, where necessary to support NCS students in learning other subjects. Statistics on schools’ use of the additional funding in teaching other subjects are not available.
- (f) EDB is committed to facilitating the adaptation of NCS students to the local education system and their mastery of the Chinese language for their early integration into the community. To support NCS students’ learning, officers in different sections of EDB have been taking up an active role in the provision of professional support. As far as Chinese Language is concerned, apart from the implementation of the “Chinese Language Curriculum Second Language

Learning Framework” (“Learning Framework”) in primary and secondary schools, and the substantial increase in the additional funding to schools, diversified teaching resources, teacher training and professional support are provided for schools to facilitate the implementation of the “Learning Framework” and creation of an inclusive learning environment in schools. To enhance teachers’ professional capability in teaching NCS students, EDB has been continuously organising systematic and diversified professional development programmes, arranging successful experience sharing covering topics such as curriculum planning, learning and teaching strategies, and assessment as well as developing school-based teaching materials and exemplars, etc. to enable teachers to gain a deeper understanding of the “Learning Framework” and master effective teaching methods. In addition, the 5-week programme “Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Students”, funded by EDB and conducted by the Education University of Hong Kong, for Chinese Language teachers teaching NCS students in primary and secondary schools will continue. EDB will continue to implement the “Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language)” under the Language Fund with a view to encouraging serving Chinese Language teachers, through the provision of grant, to pursue recognised postgraduate certificate, postgraduate diploma and/or master’s degree programmes under the Scheme. As for teaching resources, EDB has been continuously developing diversified learning and teaching resources such as the “Chinese Language Assessment Tools for NCS Students” and teaching reference materials to provide guidelines and support for teachers with regard to curriculum planning, learning and teaching, and assessment. These resources have been uploaded to the EDB webpage and will be updated on an ongoing basis. Among others, a series of learning and teaching materials, including student textbooks, workbooks and teaching reference materials, for NCS students at primary levels is being developed for teachers’ reference and use. The materials for lower primary levels (i.e. Primary 1 to 3) have been uploaded to the EDB webpage and distributed to schools. The materials for upper primary levels (i.e. Primary 4 to 6) have been uploaded to the EDB webpage by phases starting from December 2019. Besides, the Standing Committee on Language Education and Research has been making use of the Language Fund to develop learning and teaching materials, so as to create a rich linguistic environment for Chinese language learning to enhance NCS students’ interests in learning Chinese and enable them to be exposed to a wide range of information in Chinese, with a view to consolidating their knowledge base about Chinese and enhancing their learning effectiveness for subjects taught in Chinese.

To provide support for schools, EDB officers in charge of the curriculum of various subjects have been developing different types of learning and teaching resources, such as teaching design and learning activity exemplars, sample teaching materials, multimedia learning and teaching resources for teachers’ reference. As for professional development of teachers, EDB officers have been providing professional support for teachers of different Key Learning Areas/subjects, including seminars, workshops and network activities. In fact,

the existing Chinese Language curriculum and curricula of other subjects provide schools with flexibility. The curriculum documents also provide suggestions on learning targets, curriculum content, curriculum organisation and design, lesson hours, teaching strategies, and assessment. Schools can make adaptations in respect of curriculum, teaching, and assessment in light of school context and make use of the information of the student assessment with reference to the needs and learning progress of students with different backgrounds and learning abilities to help students make progress. If necessary, schools may apply for the school-based professional support services provided by EDB (such as the support services on Liberal Studies provided by the professional officers of EDB to schools admitting NCS students, and on-site support on Mathematics provided by a university commissioned by EDB). The professional officers of EDB will put the focus on catering for learner diversity (including the learning of NCS students) and assist schools to adapt their school-based curricula and adopt diversified teaching strategies, with a view to enhancing the effectiveness of learning and teaching.

- End -

CONTROLLING OFFICER'S REPLY

EDB542

(Question Serial No. 4400)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Using Putonghua as the medium of instruction (MOI) for teaching the Chinese Language subject (PMIC) is a decision driven by school-based language policy, and schools may decide whether to adopt PMIC at certain levels/in specific classes with regard to their own circumstances. Will the government inform the council of the following:

- (a) the various modes of PMIC adopted by schools, and the respective number of primary and secondary schools which adopted each mode of PMIC since 2014/15 till 2019/20 school years. If the information is not available, how the EDB can keep track of such information;
- (b) the number of NCS students studying in the primary and secondary schools mentioned in (a) since the 2014/15 school years;
- (c) the support, training and resources provided, organized or developed by the EDB to schools and teachers in supporting the teaching of Putonghua, and the use of PMIC to teach NCS students; and
- (d) the effectiveness of the “Chinese Language Curriculum Second Language Learning Framework” remains to be proven and there is a lack of support in NCS students’ learning in other subjects as stated by the study of the Equal Opportunities Commission (‘A Study on the Challenges Faced by Mainstream Schools in Educating Ethnic Minorities in Hong Kong’, January 2020). The added challenge of PMIC to NCS students’ Chinese learning necessitates a review of the MOI situation at schools. Will the EDB conduct a survey/research on the MOI situation of individual subjects at public sector primary and secondary schools? If not, why?

Asked by: Hon MO Claudia (LegCo internal reference no.: 71)

Reply:

(a) to (b)

Primary and secondary schools may decide whether or not to use Putonghua as the medium of instruction (MOI) for teaching the Chinese Language subject (PMIC) at certain levels/in specific classes having regard to their own circumstances. As the number of schools adopting PMIC varies every year, we have not kept track of such information, and do not have a breakdown of the number of students (including non-Chinese speaking (NCS) and ethnic minority students) by MOI for teaching the Chinese Language subject.

(c) to (d)

No matter whether Putonghua or Cantonese is adopted as the MOI, the coverage of the Chinese Language curriculum is based on the Chinese Language Education Key Learning Area Curriculum Guide. Currently, schools may decide in a professional manner whether to use Cantonese or Putonghua as the MOI for teaching the Chinese Language subject with regard to various criteria, such as readiness of teachers, standards of students, curriculum planning, and learning and teaching support. As for the Putonghua subject, it mainly focuses on nurturing skills in students' listening, speaking and reading aloud in Putonghua. At present, most primary and secondary schools create a Putonghua-rich environment in schools by organising various kinds of Putonghua activities inside and outside classes. These provide ample opportunities for NCS students to use Putonghua to communicate with one another.

Starting from the 2014/15 school year, the Education Bureau (EDB) has implemented the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools, with a view to helping NCS students in learning Chinese as a second language. The "Learning Framework", which is not independent of the mainstream Chinese Language curriculum but designed on the basis of the mainstream Chinese Language curriculum, provides steps and methods for learning and teaching, and assessment for teachers' reference in teaching and making flexible adaptations according to the learning progress of NCS students.

Irrespective of whether the MOI is Putonghua or Cantonese, schools can capitalise on additional resources provided by EDB to facilitate NCS students' Chinese learning, and to make special arrangements and provide support having regard to their school context and the learning needs of NCS students. Schools can also design diversified learning activities to enable NCS students' use of Cantonese and Putonghua, and facilitate these students' adaptation to the local education system and their mastery of the Chinese language for their integration into the community at the earliest possible time.

In addition to the implementation of the "Learning Framework" in primary and secondary schools and a substantial increase in the additional funding to schools, EDB has provided diversified teaching resources, teacher training and professional support in respect of the Chinese Language subject and the Putonghua subject to facilitate the implementation of the "Learning Framework" and the creation of an inclusive learning environment in schools. Besides, the Standing Committee on Language Education and Research has been making use of the Language Fund to develop learning and teaching materials, so as to create a rich linguistic environment for Chinese language learning to enhance NCS students' interest in learning Chinese and enable them to access a wide range of information through Chinese,

with a view to consolidating their knowledge base about Chinese and enhancing their learning effectiveness for subjects taught in Chinese.

EDB officers in charge of the curriculum of various subjects will continue to develop different types of learning and teaching resources, and provide professional support for non-Chinese Language teachers on an ongoing basis, including seminars, workshops and network activities.

In view of the above diversified school-based arrangements, we do not have a breakdown of the MOI arrangement(s) for various subjects by schools with NCS students. We have not conducted any research on this either.

CONTROLLING OFFICER'S REPLY

EDB543

(Question Serial No. 4401)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Since the school year 2014/15, education support measures for non-Chinese speaking (NCS) students include training programmes for Chinese Language teachers teaching NCS students; some of these training programmes are contracted to be conducted by institutions such as the Education University of Hong Kong.

Will the government inform this council:

(a) tabulate the list of seminars and workshops organised and commissioned by EDB on this regard, disaggregated by the topic, target participants, institutions and organizations involved, number of enrollments, number of attendants, duration, expenditure and the related EDB department since 2014/15;

(b) the way to conduct evaluation and receive feedback, number of participants involved;

(c) Per the Equal Opportunities Commission 'A Study on the Challenges Faced by Mainstream Schools in Educating Ethnic Minorities in Hong Kong' in January 2020, teacher showed great disappointment of the inexperienced trainers and the over-theoretical content towards the refresher courses regarding the teaching of NCS students offered by the EDB. Could the EDB explain the criteria in choosing the trainers and the approval of the teaching content?

Asked by: Hon MO Claudia (LegCo internal reference no.: 72)

Reply:

(a) and (b) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding for schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students in the learning of the Chinese language, including the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive school environment.

To enhance teachers’ professional capacity in teaching NCS students, the EDB has been continuously organising structured and diversified professional development programmes to enable teachers to gain a deeper understanding of the content of the “Learning Framework” and the relevant teaching methodology. These training programmes have been launched since the 2014/15 school year. As at February 2020, teacher representatives from 399 primary schools and 312 secondary schools have participated in the seminars and workshops organised by the Curriculum Development Institute of the EDB (with attendances about 4 450). The expenditure of the relevant work is subsumed under the overall expenditure of the EDB, and hence a separate breakdown of the related expenditure is not available.

The EDB has also commissioned the University of Hong Kong to conduct 10 teacher workshops each school year for Chinese Language teachers who teach NCS students. These workshops cover the learning and teaching of Chinese Language for NCS students, including overall curriculum planning, teaching strategies, design of diversified activities, cultural inclusiveness, classroom teaching, as well as experience sharing. About 3 000 teachers attended these workshops from the 2014/15 school year up to February 2020. The annual expenditure is about \$300,000 to \$500,000.

The above measures are undertaken by different sections of the EDB, and deployment of staff may be adjusted as needed. Instructors of the programmes include not only language experts, but also experienced frontline teachers, who share their practical experience. The EDB has been soliciting views of teachers on the professional development programmes, including their satisfaction with the contents of the programmes and speakers’ performance, through different channels such as questionnaires, interviews, and maintaining communication with the instructors of the programmes and institutions that organise the programmes, with a view to enhancing the contents of the programmes and the quality of teaching.

(c) The 5-week programme “Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Students”, conducted by the Education University of Hong Kong (EdUHK) among other programmes/courses, for Chinese Language teachers teaching NCS students in primary and secondary schools will continue. From the 2014/15 to 2018/19 school years, 76 teachers from 61 schools enrolled in the course. The programme for the 2019/20 school year is still open for application, and hence the number of teachers enrolled is not yet available. Such programmes are funded by the University Grants Committee (UGC), and thus a breakdown of expenditure by item is not available.

Professional Development Programmes recognised by the EDB offered by EdUHK are UGC-funded training programmes for in-service teachers. According to our understanding, EdUHK has put in place a stringent programme quality assurance mechanism which reviews the effectiveness of its programmes in light of the feedback collected from different stakeholders. Regarding teachers' comments stated in the report released by the Equal Opportunities Commission, the EDB will reflect them to and understand more from EdUHK, and will continue to make recommendations for improvement in the contents of the programme with an aim to better cater for the needs of teachers.

- End -

CONTROLLING OFFICER'S REPLY**EDB544****(Question Serial No. 4402)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Will the Government inform this Council of:

a. the total number of schools (government, aided and direct subsidy scheme) and the number of schools with NCS students in each district:

District	No. of primary schools	No. of primary schools with NCS students	No. of secondary schools	No. of secondary schools with NCS students

b. the number of NCS students studying in the district and the number of NCS students residing in each district:

District	No. of KG NCS students studying in the district	No. of KG NCS students (age 3 to 5) residing in the district	No. of primary NCS students studying in the district	No. of primary students (age 6 to 11) residing in the district	No. of secondary students studying in the district	No. of secondary students (12 to 17) residing in the district

c. it is reported by frontline NGOs that some NCS students need to attend schools in a different district than their residing districts due to the difficulties in school selection. If the number of (b) is not provided, how is EDB monitoring if NCS students are facing the admission and school choice difficulties?

Asked by: Hon MO Claudia (LegCo internal reference no.: 73)

Reply:

- (a) and (b) The number of public sector and Direct Subsidy Scheme (DSS) schools and the number of public sector and DSS schools with non-Chinese speaking (NCS) students by district in the 2019/20 school year are tabulated at Annex 1; the respective number of NCS students studying at kindergartens, public sector and DSS schools by district are tabulated at Annex 2. When formulating policies and measures on education support for NCS students, students' district of residence is not a factor for consideration. We have not collected information on NCS school-age children at different school levels (i.e. kindergarten, primary and secondary school levels) by district of residence.
- (c) The Education Bureau (EDB) has been encouraging parents of NCS students to consider arranging for their children to study in schools which can provide an immersed Chinese language learning environment. To support NCS students in learning Chinese, starting from the 2014/15 school year, EDB has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. Public sector and DSS schools that admit NCS students currently account for about 70 % of public sector schools in the territory.

In accordance with the established policy, all eligible children, regardless of their ethnicity, enjoy equal opportunities for admission to public sector schools under the Primary One Admission (POA) System and the Secondary School Places Allocation (SSPA) System. Every year EDB provides an adequate number of school places in each district/school net for application by eligible students. Dedicated briefing sessions are organised and delivered with simultaneous interpretation services in major ethnic minority languages every year to help NCS students and their parents to participate in the POA and SSPA systems. To provide parents with more comprehensive information on making school choices, starting from the 2018/19 school year, a separate column on "Education Support for NCS Students" has been added to the School Profiles to provide information on relevant support for NCS students. All public sector schools and DSS schools admitting NCS students and provided with the additional funding are required to specify that additional support, including after-school support, is provided for their NCS students in learning of the Chinese language. From the 2019/20 school year onwards, EDB has further enhanced the newly added column by requesting the schools concerned to provide more details of the relevant support measures.

Under the existing POA and SSPA systems, parents may choose schools from other districts/school nets at the Discretionary Places and Central Allocation stages. Moreover, upon the release of allocation results every year, certain students may, due to different situations, transfer to a different school on their

own accord. Hence, NCS students may opt for cross-district schooling for various reasons as in the case of all other students.

As regards kindergarten (KG) education, under the KG education scheme (Scheme), KG student admission, in principle, remains a school-based matter to maintain the flexibility and diversity of the KG sector and free choice for parents. Parents can choose to apply for any KGs in their own or other districts at their discretion.

EDB organises annual seminars on Nursery (K1) admission (with interpretation service provided on a need basis) for NCS parents and disseminates information on the Scheme and K1 admission to NCS communities through non-governmental organisations. The relevant materials published by EDB have been translated into 7 major ethnic minority languages. The KG Profile, which provides information about each KG to assist parents in selection of KGs, is available in both Chinese and English. Starting from 2018, a new column “Support to NCS Students” has been included in the KG Profile to enable KGs to outline their support provided for NCS students. Starting from the 2020/21 school year, EDB will enhance parent education for parents of NCS students to encourage them to send their children to local kindergartens and strengthen their communication with schools. We will provide a series of parent education programmes for parents of NCS children to help them support their children’s learning, encourage their children to master the Chinese language and help them have more comprehensive understanding of the multiple pathways available to their children.

Number of primary and secondary schools admitting non-Chinese speaking (NCS) students by district in the 2019/20 school year

District	Number of primary schools	Number of primary schools with NCS students	Number of secondary schools	Number of secondary schools with NCS students
Central & Western	16	10	11	11
Wan Chai	15	14	17	16

CONTROLLING OFFICER'S REPLY**EDB545****(Question Serial No. 6051)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(a) Please set out in the table below the quantity, value and stock of surgical masks produced by the Correctional Services Department (CSI masks) that the Education Bureau (EDB) obtained from the Government Logistics Department (GLD) in each month of the past 3 years:

Month/Year	No. of CSI masks obtained	Value of CSI masks obtained	Stock of CSI masks

(b) Please set out in the table below the quantity, value, stock and consumption of surgical masks that the EDB obtained from the GLD or procured on its own in each month of the past 3 years:

Month/Year	No. of surgical masks obtained from GLD (value)	No. of self-procured surgical masks (value)	Stock	Consumption

(c) Please set out in the table below the quantity, value, stock and consumption of N95 masks that the EDB obtained from the GLD or procured on its own in each month of the past 3 years:

Month/Year	No. of N95 masks obtained from GLD (value)	No. of self-procured N95 masks (value)	Stock	Consumption

(d) Please set out in the table below the quantity, value, stock and consumption of gowns that the EDB obtained from the GLD or procured on its own in each month of the past 3 years:

Month/Year	No. of gowns obtained from GLD (value)	No. of self-procured gowns (value)	Stock	Consumption

(e) Please set out in the table below the quantity, value, stock and consumption of protective coverall suits that the EDB obtained from the GLD or procured on its own in each month of the past 3 years:

Month/Year	No. of protective coverall suits obtained from GLD (value)	No. of self-procured protective coverall suits (value)	Stock	Consumption

(f) Please set out in the table below the quantity, value, stock and consumption of face shields that the EDB obtained from the GLD or procured on its own in each month of the past 3 years:

Month/Year	No. of face shields procured	Value of face shields procured	Stock of face shields	Consumption

(g) Please set out in the table below the quantity, value, stock and consumption of goggles that the EDB obtained from the GLD or procured on its own in each month of the past 3 years:

Month/Year	No. of goggles procured	Value of goggles procured	Stock of goggles	Consumption

(h) Did the EDB supply or sell surgical masks, N95 masks, face shields, goggles, gowns and protective coverall suits to other organisations in the past 3 years? If yes, please provide the relevant information, including the quantity, consumption and stock, in the following table:

Month/Year	Name of organisation/body	Manner of provision (e.g. sold or supplied for free)	Surgical masks	N95 masks	Face shields	Goggles	Gowns	Protective coverall suits

(i) What departments and rank of officers should be responsible for making decisions over the EDB's supply or sale of surgical masks, N95 masks, face shields, goggles, gowns and protective coverall suits to other organisations? For each decision over the supply or sale of such items to other organisations, please provide the rank of the decision maker, the date of decision and other relevant information.

Asked by: Hon MO Claudia (LegCo internal reference no.: 140)

Reply:

(a) to (i)

The Education Bureau has received face masks produced by the Correctional Services Department from the Government Logistics Department (GLD). We have also procured face masks from the open market. These face masks were distributed to our staff for their use. This Bureau does not compile data on the distribution of face masks from different sources to individual staff members.

With an upsurge in the global demand for personal protective equipment (PPE), the Government is facing keen competition in its procurement. The Government considers it inappropriate at this stage to disclose specific information about the quantities procured, values, stock levels, consumption levels, supply and sale, etc. in respect of PPE (including surgical masks, N95 masks, gowns, protective coverall suits, face shields and goggles) in the past few years so as not to undermine the bargaining power of the GLD and other departments in procuring PPE.

The Government has established procedures and regulations for the procurement, supply and sale of PPE and strict compliance is required for all departments.

- End -

CONTROLLING OFFICER'S REPLY**EDB546****(Question Serial No. 3623)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the expenditure on the promotion of electronic textbooks (e-textbooks), would the Administration advise this Committee of the following:

- (1) Regarding the Recommended e-Textbook List (eRTL), please set out the number of e-textbooks and their percentage against the number of printed textbooks last year;

Level	2019-20	Percentage against the number of printed textbooks
Primary 1 to 3		
Primary 4 to 6		
Secondary 1 to 3		
Secondary 4 to 6		

- (2) The quantity distribution of eRTL by subject:

Primary 1 to 6

Subject	Number of e-textbooks	Percentage against the number of printed textbooks

Secondary 1 to 3

Subject	Number of e-textbooks	Percentage against the number of printed textbooks

(If the following is applicable)

Secondary 4 to 6

Subject	Number of e-textbooks	Percentage against the number of printed textbooks

(3) Please provide details about the promotion of e-learning through teacher professional development programmes, learning communities and school visits, as well as details of communication between the Administration and the publishing industry in the past year;

(4) Does the Administration plan to promote student learning through other electronic means beside e-textbooks, such as mobile apps? Please set out the plans, details about the app developers, the contract sums, and whether the contracts will be awarded by single tendering.

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 203)

Reply:

(1) The number of e-textbooks and printed textbooks on the Recommended Textbook List as at March 2020 is as follows:-

Level	No. of e-textbooks (set)	No. of printed textbooks (set)
Primary 1 to 3	18	90
Primary 4 to 6	18	89
Secondary 1 to 3	23	174
Secondary 4 to 6	0	182

(2) The quantity distribution of the Recommended e-Textbook List (eRTL) by subject and the corresponding number of printed textbooks as at March 2020 are as follows:-

Primary 1 to 6

Subject	No. of e-textbooks (set)	No. of printed textbooks (set)
Chinese Language	6	26
English Language	14	28
Mathematics	2	48
Putonghua	6	32
General Studies	6	33
Physical Education	2	2

Secondary 1 to 3

Subject	No. of e-textbooks (set)	No. of printed textbooks (set)
Chinese Language	1	10
English Language	2	19
Mathematics	2	39
Science	3	10
Geography	6	10
History	3	11
Life and Society	3	10
Science Education Key Learning Area – Information and Communication Technology	3	12

(3) As regards the promotion of e-learning, the EDB organises professional development programmes for school leaders and teachers on an ongoing basis to equip them with the knowledge and skills needed for the implementation of e-learning. These programmes cover a wide range of topics, including e-leadership series, technological series, pedagogical series, subject-related series, e-safety series, “Bring Your Own Device” series, etc. In the 2018/19 school year, we organised about 420 professional development programmes and about 10 080 people took part. Moreover, the IT in Education Centres of Excellence have been established to provide training and on-site support services, and form learning communities to facilitate the sharing of good practices in e-learning with schools. Updated information and experiences with respect to implementing online teaching are also available on the EDB webpage. To create favourable conditions for the development and adoption of e-textbooks, apart from having regular meetings with the publishing industry, the EDB set up a task group on e-textbook development with representatives from textbook publisher associations and the Hong Kong Education City in June 2018. The task group has been exploring how to improve the technical and functional design of e-textbooks, enhance the quality of e-textbooks, and encourage textbook publishers and developers to submit more e-textbooks for review, with a view to expanding the number of e-textbooks on the eRTL and hence offering more choices to schools.

(4) To meet the curriculum requirements and dovetail with the learning and teaching strategies, the EDB will continue to develop different types of e-learning resources to enhance learning and teaching effectiveness, including online platforms for learning and teaching resources, mobile applications, etc. Procurement of related products or services, if necessary, will be carried out in accordance with established procedures.

- End -

CONTROLLING OFFICER'S REPLY**EDB547****(Question Serial No. 3624)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding coding education, would the Administration advise this Committee of:

- (1) the number of hours of coding education at upper primary and secondary levels in the last school year;

	Number of hours of coding education	Percentage share in the total hours of information technology subject
Upper primary		
Junior secondary		
Senior secondary		

- (2) the professional development programmes on coding education organised for serving computer/information and communication technology teachers, details of the programmes concerned, the number of participants, and the duration of each programme in the last school year, as well as the programme plan for the coming year;

- (3) the initiatives, timetable, manpower and expenditure involved in the promotion of coding education as mentioned in the Report on Promotion of STEM Education - Unleashing Potential in Innovation in 2019-20 and 2020-21; and

- (4) the details of the Education Bureau's collaboration with professional/community organisations in enhancing coding education in secondary schools in 2020-21. Please provide a list of the professional/community organisations concerned and the plan for the coming year.

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 204)

Reply:

(1) The number of hours of coding education at upper primary and secondary levels and relevant details are as follows:-

	Number of hours of coding education	Percentage in the total lesson time for the subject Information Technology
Upper Primary	Schools are advised to allocate approximately 30 hours for the promotion of coding education as stated in the “Computational Thinking - Coding Education: Supplement to the Primary Curriculum” compiled by the Education Bureau (EDB) in the 2017/18 school year.	As the EDB does not require primary schools to offer Information Technology as an independent subject, relevant figures are not available.
Junior Secondary	Schools may teach programming-related content through the Technology Education Key Learning Area curriculum. Schools are advised to allocate no less than 30% of the lesson time for the knowledge context Information and Communication Technology (ICT) to the teaching of programming. The suggested lesson time is around 20 hours.	The lesson time for programming accounts for around 30% of the total lesson time for the knowledge context ICT.
Senior Secondary	The element of programming is covered by both the compulsory and elective parts of ICT curriculum at the senior secondary level, and the suggested lesson time is 24 and 75 hours respectively.	24 hours and 75 hours account for around 10% and 30% respectively of the total lesson time for ICT at the senior secondary level.

(2) The EDB organises professional development programmes on coding education for serving Computer/ICT teachers to enhance their pedagogical knowledge in developing students’ programming skills. The number of teachers participating in relevant training programmes in the 2018/19 school year was about 2 840. The duration of each programme was around 3 to 6 hours. The EDB continues to organise these programmes in the 2019/20 school year, and the estimated number of participants is about 1 520.

(3) In the 2017/18 school year, the EDB compiled the “Computational Thinking - Coding Education: Supplement to the Primary Curriculum” (the Supplement), offered related professional development programmes and developed the learning and teaching resources for teachers’ adoption. Starting from the 2017/18 school year, “Workshops on Computational Thinking - Coding Education for Primary Schools” have been organised in

batches for all teachers of public sector and Direct Subsidy Scheme primary schools, with a view to enabling them to understand the content of the Supplement and enhancing their pedagogical knowledge in developing students' computation thinking and programming skills. All training programmes were completed in the 2019/20 school year as planned. Also, we developed the learning and teaching resources on the use of Micro:bit and interacting with programmable physical objects to learn programming this school year. The contents of the Supplement are now under review and revision for better implementation of coding education and the relevant work is expected to be completed in 2020. Meanwhile, we are enhancing the teacher training programmes, in particular the application of coding education in different subjects and STEM-related projects at the primary level. In the 2020/21 school year, we will continue to organise workshops on coding education for teachers and develop learning and teaching resources. As the expenses involved have been subsumed under the overall expenditure of the EDB, a breakdown on this specific item is not available.

(4) All along, the EDB has been organising the Hong Kong Olympiad in Informatics (HKOI) jointly with the Hong Kong Association for Computer Education to promote students' interest in programming. We will organise the HKOI for the 2020/21 school year. The best-performing contestants of the HKOI will undergo training and those with outstanding performance in the training may be selected to represent Hong Kong to participate in the International Olympiad in Informatics or the National Olympiad in Informatics to be held in 2021.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3625)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Teachers' freedom of speech has been repeatedly suppressed by the Education Bureau since the beginning of the movement against amendments to the Fugitive Offenders Ordinance. Please advise this Committee of the following:

- (1) the manpower involved in monitoring and handling teachers' online remarks since the beginning of the movement, and the rank and remuneration of such staff;
- (2) the number of investigations made into teachers' online remarks, the number of cases in which the Bureau initiated investigation, the number of cases in which the Bureau acted on a report, the progress of follow-up actions, and the number of cases with a discrepancy between the results of the EDB's investigation and the schools' internal investigation; and
- (3) whether the teachers under investigation are given the opportunities to defend themselves; if no, the reasons; and the number of teachers who put up a defence.

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 205)

Reply:

(1) Teachers play a vital role in passing on knowledge and nurturing students' character, and their every word and deed have a far-reaching impact on students' growth. Parents and the community at large thus have great expectations of our teachers regarding their solid professional knowledge and high standards of morality. It is therefore of the utmost importance that teachers' words and deeds must adhere to the standards of professional conduct and morality generally accepted by the community. The Education Ordinance specifically empowers the Permanent Secretary for Education to register qualified teachers and refuse or cancel teachers' registration on specific grounds. Since June last year, the Education Bureau (EDB) has received and handled many complaints about teachers' professional misconduct, most of which involve inappropriate messages posted on social media, such as hate, malicious or abusive messages and messages that promote violence. These messages, regardless of their form of delivery and the deeds or values reflected therein, failed to meet the professional conduct expected of teachers. It is absolutely not

acceptable to the community that teachers' words and deeds display standards of morality and values that fall short of public expectation. The EDB has the obligation to take appropriate actions based on the facts and seriousness of individual cases with a view to upholding teachers' professional conduct, safeguarding the well-being of students and enabling the Permanent Secretary for Education to discharge her responsibilities under the law. It is not true to suggest that the EDB is monitoring teachers' online comments, and completely wrong to say that the EDB is suppressing teachers' speech.

When the EDB receives complaints about suspected professional misconduct of teachers, various sections concerned will follow up on the cases according to the established procedures. As the manpower involved is subsumed under the EDB's overall manpower and operating expenditure, a breakdown is not available.

(2) and (3) From mid-June 2019 to end of January 2020, the EDB received a total of 171 complaints about suspected professional misconduct of teachers in recent social incidents. These complaints cover extensive issues while some of them have come to our notice. As the authority responsible for upholding teachers' professionalism, the EDB focuses on whether the matter in question involves professional misconduct, instead of how it comes to our attention. Therefore, we did not (and will not) categorise or handle these cases according to whether investigations are initiated by the EDB or the EDB is acting on allegations. In handling these cases, schools are asked to submit reports and then the EDB examines the case details and takes follow-up actions. Since any professional misconduct of teachers has a direct impact on students' well-being, it is incumbent on both the EDB and schools to take serious follow-up actions if the allegations obviously involve words and deeds that defy the moral standards acceptable to the general public or put the safety and healthy development of students at risk. The EDB will consider the necessary follow-up actions in accordance with the Education Ordinance. Schools, as employers of teachers, are accountable for the quality of education and required to supervise their teachers and actively follow up on cases of teacher misconduct in accordance with their school-based mechanism. Regarding the above-mentioned 171 complaints, we have substantially completed the investigation of 125 cases, of which 47 were found unsubstantiated. Among the above-mentioned 125 cases, the EDB has taken follow-up actions on 39 of them, including issuing reprimand letters to 13 teachers and warning letters to another 4. We have also issued advisory letters to 9 teachers and verbal reminders to another 13 to remind them to refrain from activities that are detrimental to the image of the teaching profession and to show respect to the behavioural norms acceptable to society.

The EDB has been adopting a prudent approach in handling every complaint involving professional misconduct of teachers by referring to objective facts. During investigation, the teacher under complaint has sufficient opportunities to make a representation to the school, and the school has the obligation to include the teacher's representation in its report to be submitted to the EDB. The EDB will carefully scrutinise the school's report, including the investigation procedures followed by the school and response from the teacher concerned. If it is our initial view that the complaint is likely to be substantiated, we will inform the teacher concerned of our initial view, including the evidence gathered by the EDB, and invite him/her to submit a written representation. In other words, the teacher under complaint is given the opportunities to make representations more than once.

CONTROLLING OFFICER'S REPLY

EDB549

(Question Serial No. 3626)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the following:

- (1) Regarding students pursuing programmes (including undergraduate and associate degree programmes) related to information technology that are self-financed and under the Study Subsidy Scheme for Designated Professions/Sectors in 2019/20, please provide the names of programmes and relevant institutions, number of subsidised places, subsidy amount per year and actual number of intakes (if applicable).
- (2) Are there any plans to extend the existing subsidy scheme to cover more programmes related to information technology? If no, what are the reasons?
- (3) It is mentioned in the 2016 Budget that a pilot scheme will be implemented to provide tuition fee subsidy for 3 cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council. Please give details of the scheme since its launch.

Discipline	Programme	No. of subsidised places	Maximum subsidy amount per student per academic year (\$)

- (4) Has any statistical survey been conducted on the employment situation of these graduates? If yes, what are the findings and the manpower and other expenditure involved? If there is no plan to conduct such a survey, what are the reasons?

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 206)

Reply:

(1) and (2)

The designated computer science and financial technology programmes under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), the relevant institutions, number of subsidised places, annual subsidy amount, and the actual intakes for the cohort admitted in the 2019/20 academic year are set out at Annex A (undergraduate programmes) and Annex B (sub-degree programmes).

The Education Bureau will, in consultation with policy bureaux on Hong Kong's social and economic development needs as well as the needs of various industries, and taking into account factors including the availability of programmes and supply of places, etc., review and adjust the selected disciplines, the relevant programmes and the number of subsidised places as appropriate every year with a view to nurturing talent for industries with keen demand for human resources.

(3)

To encourage the public to pursue continuing education, the Government has implemented the Pilot Subsidy Scheme for Students of Professional Part-time Programmes (the Pilot Scheme) to provide tuition fee subsidy for a total of 5 600 working adults in 3 cohorts from the 2016/17 academic year admitted to designated part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology. The amount of subsidy is 60% of the tuition fee capped at \$45,000 per person. The respective numbers of subsidy recipients and the amount of tuition fee subsidy granted in each of the academic years since the implementation of the Scheme are set out below –

Areas of Study and Training	Academic Year	No. of Subsidy Recipients	Tuition Fee Subsidy Granted* (\$ million)
Engineering and Technology	2016/17	868	22.4
	2017/18	971	19.4
	2018/19	852	9.1
Architecture and Town Planning	2016/17	682	15.1
	2017/18	572	8.9
	2018/19	422	3.8
Total	2016/17	1 550	37.5
	2017/18	1 543	28.3
	2018/19	1 274	12.9

*Figures as at 31 October 2019

The Government has continued to implement the Pilot Scheme with an additional funding of \$234 million to provide tuition fee subsidy for another 5 600 students admitted to the above designated part-time programmes offered by the VTC from the 2019/20 to 2021/22 academic years. In addition to the programmes that belong to the above-mentioned categories, the scope of the Pilot Scheme will be expanded to include creative industry

programmes. It is expected that 2 500 practitioners in the creative industry will receive tuition fee subsidy with the amount of subsidy capped at \$36,000 per person. The funding will be used to meet the payment of tuition fee subsidy and cover the VTC's administrative costs for implementing the Pilot Scheme.

(4)

The VTC conducts a student questionnaire survey on the Pilot Scheme every year but since students pursuing the relevant programmes are working adults, the VTC has not conducted statistical survey on the graduates' employment situation. The above-mentioned student questionnaire survey is conducted by the VTC's Central Administration Unit responsible for the administration of the Pilot Scheme, and no additional expenditure has been incurred.

For the SSSDP, the first cohort of students (i.e. admitted in the 2015/16 academic year) who received a subsidy to pursue the designated undergraduate programmes graduated in 2019. The participating institutions will submit the employment figures of these graduates in the second quarter of 2020. The statistics will help us understand the situation of graduates joining the relevant industries.

**Study Subsidy Scheme for Designated Professions/Sectors

CONTROLLING OFFICER'S REPLY**EDB550****(Question Serial No. 3627)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Administration advise this Committee of the following:

(1) What is the total number of IT-related vocational education and training (VET) programmes offered by member institutions under the Vocational Training Council (VTC)? What are the corresponding levels of these programmes under the Qualifications Framework (QF)? What is their distribution by QF level?

QF Level	No. of programmes

(2) What is the employment situation of graduates of IT-related VET programmes offered by institutions under the VTC? Has any statistical survey been conducted on the employment situation of these graduates? If yes, what are the findings and details of the manpower and other expenditures involved? If there is no such plan, what are the reasons?

(3) What are the specific details, staffing arrangement, timetable and estimated expenditure of the Administration's efforts to enhance VTC's IT-related programmes so that they cater for the needs of the sector better? If there is no such plan, what are the reasons?

(4) Does the Administration have any plan to develop IT professional certification under the QF to accord IT practitioners a common professional status? If yes, what are the specific details, staffing arrangement, timetable and estimated expenditure of such a plan? If there is no such plan, what are the reasons?

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 207)

Reply:

(1) Details regarding vocational and professional education training (VPET) programmes in the Information Technology (IT) discipline offered by member institutions of the Vocational Training Council (VTC) are set out below –

Qualifications Framework (QF) Level	Number of Programmes
Level 3	2
Level 4	36
Total	38

(2) The VTC conducts graduate employment surveys regularly. According to the 2019 survey results, the employment rate of graduates of Higher Diploma programmes in the IT discipline is about 90%. As conducting the relevant surveys is part of the routine business of the VTC departments concerned, the expenditure involved cannot be calculated separately.

(3) To facilitate manpower planning and meet development needs, most of the Training Boards of the VTC conduct regular manpower surveys for their respective industries and publish reports. The IT Discipline Planning Office will propose new IT programmes based on the relevant manpower survey reports, and consult the Innovation and Technology Training Board, which comprises industry experts, members of professional bodies, and relevant stakeholders, to confirm the demand for manpower and skills, as well as conduct feasibility studies, curriculum design, planning, and development. As the relevant planning work is part of the routine business of the VTC departments concerned, the expenditure involved cannot be calculated separately.

(4) The QF is a voluntary system that defines clear and objective standards applicable to qualifications in the academic, vocational, professional, as well as continuing education sectors. The objective of establishing the QF is to promote lifelong learning and establish qualifications pathways for progression in learning. The Information and Communications Technology (ICT) Industry Training Advisory Committee (ITAC) was set up in 2005 to serve as a platform for stakeholders to implement the QF and to exchange views on the training needs and manpower development of the industry. The ITAC is tasked with drawing up the Specification of Competency Standards (SCS) for the industry, which sets out the skills, knowledge and outcome standards required of employees in different functional areas of the industry. The ITAC has so far developed more than 800 ICT-related Units of Competency. While facilitating the formulation of training programmes for recognition under the QF, the SCS is also a useful guide for the development of in-house training programmes and human resources management (including staff recruitment and performance assessment).

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 158)

Reply:

- (1) For 2019-20 (up to 29 February 2020), the total expenditure on placing advertisements and advertorials in newspapers registered under the Registration of Local Newspapers Ordinance is about \$2.16 million. These advertisements and advertorials are mainly to inform parents, students, the education sector, and the community at large about initiatives and events of interest to them, such as education expos, kindergarten admission arrangements, and scholarship schemes. Details are as follows:

Name of Campaign	Publishing Time (Month/Year)	Advertisement/Advertorial/Sponsored Content	Expenditure (\$ million)
Information Expo on Multiple Pathways 2019	April 2019	Advertisement	0.09
Study Subsidy Scheme for Designated Professions/Sectors	May, July and November 2019	Advertisement	0.45
Mainland University Study Subsidy Scheme 2019/20	June 2019	Advertisement	0.06
Parent Seminars on Admission Arrangements for Nursery (K1) Classes in Kindergartens for the 2020/21 School Year	June to July 2019	Advertisement	0.01
Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong	May to August 2019 and January 2020	Advertisement	0.59
Life Planning Education	August 2019	Sponsored content	0.15
Application for Registration Certificate for Kindergarten Admission for the 2020/21 School Year and Seminars for Parents of Non-Chinese Speaking Students	August to September 2019	Advertisement	0.01
Hong Kong Scholarship for Excellence Scheme 2020/21	October 2019	Advertisement	0.17
Life Planning Education Conference 2019	November 2019	Sponsored content	0.19
Electronic Advance Application System for Post-secondary Programmes	December 2019 to January 2020	Advertisement	0.44
Total (\$ million)			2.16

- (2) For 2019-20 (up to 29 February 2020), we commissioned a radio station to produce radio programmes and sponsored its content for promoting positive parent education and the relevant slogan competition between September and November 2019. The expenditure on the sponsorship is about \$0.51 million.
- (3) For the past year, the expenditure on advertising in the media is about \$2.16 million. Details are as follows:

Name of Campaign	Media Type	Expenditure (\$ million)
Information Expo on Multiple Pathways 2019	Advertisement in newspaper	0.09
Study Subsidy Scheme for Designated Professions/Sectors	Advertisement in newspaper	0.45
Mainland University Study Subsidy Scheme 2019/20	Advertisement in newspaper	0.06
Parent Seminars on Admission Arrangements for Nursery (K1) Classes in Kindergartens for the 2020/21 School Year	Advertisement in newspaper	0.01
Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong	Advertisement in newspaper	0.59
Life Planning Education	Sponsored content in newspaper	0.15
Application for Registration Certificate for Kindergarten Admission for the 2020/21 School Year and Seminars for Parents of Non-Chinese Speaking Students	Advertisement in newspaper	0.01
Hong Kong Scholarship for Excellence Scheme 2020/21	Advertisement in newspaper	0.17
Life Planning Education Conference 2019	Sponsored content in newspaper	0.19
Electronic Advance Application System for Post-secondary Programmes	Advertisement in newspaper	0.44
	Total (\$ million)	2.16

(4) For the past year, the expenditure on advertising on online platforms is about \$0.55 million. Details are as follows:

Name of Campaign	Online advertisement/ Sponsored Content	Expenditure (\$ million)
Application for Registration Certificate for Kindergarten Admission for the 2020/21 School Year	Online advertisement	0.04
Parent Seminars on Admission Arrangements for Nursery (K1) Classes in Kindergartens for the 2020/21 School Year	Online advertisement	0.04
Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions 2020	Online advertisement	0.03
Hong Kong Scholarship for Excellence Scheme 2020/21	Online advertisement	0.30
Information Expo on Multiple Pathways 2019	Online advertisement	0.02

Electronic Advance Application System for Post-secondary Programmes	Online advertisement	0.01
Study Subsidy Scheme for Designated Professions/Sectors	Online advertisement	0.08
Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong	Online advertisement	0.03
	Total (\$ million)	0.55

(5) During the past year, we did not offer any live streaming on online platforms.

(Question Serial No. 3773)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In last year's Budget Speech, the Administration stated that it will pay the examination fees for school candidates sitting for the 2020 Hong Kong Diploma of Secondary Education Examination (HKDSE), involving an estimated expenditure of \$160 million. This year, the Administration once again announced that it will provide a non-recurrent funding of \$151 million to pay the Hong Kong Examinations and Assessment Authority the examination fees for school candidates sitting for the 2021 HKDSE. In this connection, please advise this Committee of the following:

What was the actual number of students benefiting from the measure last year? What was the percentage share of non-Chinese speaking students among them?

How many students are expected to benefit from the measure this time? Has the Administration considered subsidising private candidates too?

Since the examination fee has increased by 4% in 2019-2020, why does the Administration lower the estimates of expenditure on payment of examination fees for school candidates this year?

Asked by: Hon QUAT Elizabeth (LegCo internal reference no.: 37)

Reply:

As at December 2019, the Government has paid the examination fees for 45 933 school candidates sitting for the 2020 Hong Kong Diploma of Secondary Education (HKDSE) Examination. As schools are not required by the application procedures for HKDSE Examination to indicate whether their candidates are non-Chinese speaking (NCS) students or not, the Hong Kong Examinations and Assessment Authority (HKEAA) is unable to provide the relevant figures.

The HKEAA estimates that the number of school candidates sitting for the HKDSE Examination will drop further in 2021. The estimated expenditure on payment of examination fees for candidates sitting for the HKDSE Examination in 2020-21 has therefore been adjusted downward.

Candidates' interests are the prime principle underlying the Government's proposal that payment of examination fees for candidates sitting for the 2021 HKDSE Examination should only be applicable to school candidates (including first-time candidates and repeaters in day schools and evening schools). We note that there are divergent views in the community as to whether private students should be covered by the measure. Some consider that extending the scope to cover private candidates may attract non-school candidates who originally have no plan to retake the examination, or may even result in abusive use. We believe that the existing scope of application has struck a proper balance in terms of utilisation of resources for public finance. Such an arrangement can also help forestall possible abusive or frivolous use so that school candidates can be assured that there is a stable and orderly environment for them to take the HKDSE Examination.

(Question Serial No. 3839)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Administration introduced the policy of “one school social worker for each school” in public sector primary schools in 2018-19 with a view to strengthening student guidance service in these schools. It brought up the measure again under Matters Requiring Special Attention this year. In this connection, would the Administration advise this Committee:

of the total number of school-based social workers currently providing guidance service in public sector primary schools in the territory, and the total annual expenditure on salary involved;

of the implementation details of the “one school social worker for each school” measure over the past 2 years, the total number of public sector primary schools that have implemented the policy, and the support to be provided for public sector primary schools that have not yet implemented the policy; and

whether any need for additional manpower is envisaged this year; if yes, of the amount of additional manpower required and the estimated expenditure involved; if no, of the reasons.

Asked by: Hon QUAT Elizabeth (LegCo internal reference no.: 81)

Reply:

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. The new measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources so that each public sector primary school is served by at least one school-based registered graduate social worker with professional qualifications to further enhance the overall quality of guidance service.

Under the new funding mode, primary schools may, having regard to their own circumstances, create a regular Assistant Social Work Officer (ASWO) post. The salary of the ASWO employed by schools is pegged to that of the civil service post, i.e. point 16 to point 33 on Master Pay Scale. Schools may also choose to receive an equivalent subsidy to employ a school-based registered graduate social worker or hire the service of a school-based registered graduate social worker from a social work service provider. Schools are also provided with the Consultation Service Grant to procure consultation, supervision or other support services for school social workers to ensure service quality. Besides, the original Top-up Student Guidance Service Grant (Top-up Grant) is enhanced so that all public sector primary schools have more resources to enhance school social work and guidance services. The Education Bureau (EDB) will provide a three-year transitional period for schools to switch to the new funding mode before the 2021/22 school year. In case schools are not able to switch to the new funding mode after the three-year transitional period owing to the need for more time to handle personnel matters, including retaining their serving student guidance personnel (SGP) due to special needs, they may discuss with the EDB separately.

In the 2019/20 school year, 309 public sector primary schools (i.e. about 70%) have switched to the new funding mode. It is estimated that 333 public sector primary schools will switch to the new funding mode in the 2020/21 school year. According to the information gathered, the respective number of social workers providing guidance services in public sector primary schools in the 2018/19 and 2019/20 school years is 569 and 626. As schools may use the Top-up Grant to employ one or more social workers/SGP and practices vary among different schools, we are unable to anticipate the school situation in the 2020/21 school year.

In the 2019/20 school year, the estimated total expenditure on student guidance service under the old and new funding modes is \$487 million. The manpower expenditure involved on the part of the EDB is subsumed under its overall expenditure, and therefore we are unable to provide a breakdown of the figures.

CONTROLLING OFFICER'S REPLY

EDB554

(Question Serial No. 3940)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under Matters Requiring Special Attention that the Bureau will continue to allow schools (including special schools) to convert the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts to enhance the implementation of the senior secondary curriculum. In this connection, please give the respective number of schools (including special schools) that have converted the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts. Please also provide, according to estimation, the number of additional regular teaching posts to be created, the number of school beneficiaries and the expenditure involved this year.

Asked by: Hon QUAT Elizabeth (LegCo internal reference no.: 82)

Reply:

To provide more stable teaching manpower for schools to enhance the implementation of the senior secondary curriculum and strengthen life planning education and related guidance services, schools are allowed to convert the Senior Secondary Curriculum Support Grant (SSCSG) and the Career and Life Planning Grant (CLPG) into regular teaching posts from the 2016/17 school year onwards. All public sector secondary schools (including special schools) operating senior secondary classes will benefit from the policy. There are around 440 eligible schools in the 2019/20 school year. Among them, around 310 and 350 public sector secondary schools (including special schools) operating senior secondary classes have converted the SSCSG and the CLPG respectively into a total of around 700 regular teaching posts. For the 2020/21 school year, since schools not having converted the said grants into regular teaching posts have yet to inform us of their arrangements for the 2020/21 school year, we are unable to provide the figures. In any case, the two grants have to be converted into regular teaching posts across the board in the 2022/23 school year. It is expected that around 950 regular teaching posts will be provided accordingly.

CONTROLLING OFFICER'S REPLY

EDB555

(Question Serial No. 3941)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What are the details of the review on strengthening life planning education and related guidance services and the expenditures involved in the past 3 years?

Asked by: Hon QUAT Elizabeth (LegCo internal reference no.: 83)

Reply:

To consolidate the experience gained from implementing Life Planning Education (LPE) and map out the way forward, the EDB commissioned the Education University of Hong Kong in 2017 to conduct a review on the effectiveness of LPE, the implementation of the LPE policy, and the benefits of the Business-School Partnership Programme (BSPP) on students. The review showed that the implementation of LPE in local secondary schools has reaped initial success. By establishing well-defined organisational structures and school-based policies, schools are gradually gaining the support of teachers, students and parents in the promotion of LPE. In parallel, BSPP has received much support from schools and BSPP partners. It is valued by schools as one of the important resources in the promotion of LPE and well recognised by teachers and students too.

Based on the recommendations put forward in the consultancy report, the EDB has adopted various measures to strengthen the support for the implementation of LPE in schools. For example, the EDB proactively encourages schools to adopt a whole-school approach to implement LPE and invites schools to share their good practices and experience in professional development activities. With regard to teacher training, the EDB regularly reviews the training needs of teachers in the area of LPE. Apart from structured teacher training programmes, new themes and topics are introduced based on the needs of schools and teachers. Learning circles will continue to be formed through District Development Networks to foster a culture of sharing and professional exchange among teachers. As far as training for parents is concerned, workplace visits and workshops are arranged under BSPP with a view to introducing parents to the developmental prospects of different

industries. Schools are also encouraged to hold talks for parents to enhance their awareness of the importance of LPE as well as their roles in it. Moreover, the EDB launched the Life Planning Information Website in September 2019 to provide a one-stop platform for students, teachers and parents to gather information on different industries and multiple pathways. In the 2020/21 school year, several new features will be added to the website, including records of student learning portfolios, career assessment tools and online learning for teachers, to further assist students in finding and processing LPE-related information. The EDB will also step up the promotion of BSPP. At present, BSPP has over 380 partner organisations. We will continue to identify and invite corporations of different trades and industries to join BSPP so as to provide more diversified career exploration activities for students. Moreover, the EDB has used existing platforms to facilitate exchange of information, sharing of collaboration experience and activity arrangements among schools and partner organisations in order to maximise the benefits of BSPP.

The above consultancy review was awarded by quotation and the actual expenditure was \$599,760.

The Education Bureau (EDB) has been continuously adopting a wide array of measures to strengthen the implementation of Basic Law education (BLE), which include developing learning and teaching (L&T) resources, providing teacher training for school sponsoring bodies, school leaders and teachers, organising life-wide learning activities for students, etc. Such support measures enable schools, teachers and students to acquire a deeper understanding of the relationship between the Constitution of our country and the Basic Law as well as the concepts embodied in the Basic Law, and to understand that Basic Law is the cornerstone of Hong Kong's development and is closely related to our daily life, which in turn facilitate schools to enhance L&T efficacy by making plans for and taking forward BLE more effectively and to strengthen students' motivation for learning the Basic Law.

With respect to the development of L&T resources, the EDB has in the 2016-17 to 2019-20 financial years provided secondary schools with various sets of L&T resources, including "Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study"; online L&T resources for the "Constitution and the Basic Law" module; "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers"; "Basic Law Online Course for Secondary School

Students' Self-directed Learning"; and 2 assessment banks, namely "Basic Law On-line Assessment (Junior Secondary)" (for students) and "Web on Assessment for BLE (Junior Secondary)" (for teachers). The 2 assessment banks have been developed for years and will continue to be available for schools' use. The EDB staff will regularly review and update the content of these assessment banks with regard to the latest developments in the implementation of the Basic Law. Expenditures related to the 2 assessment banks only involve daily website management. All L&T resources mentioned above remain relevant. In the 2020-21 financial year, the EDB will continue to develop the advanced version of the "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers".

At the primary level, the EDB has in the 2016-17 to 2020-21 financial years provided 3 sets of L&T Resource CD ROMs for primary General Studies on "History and Culture Series" and the "Basic Law Audio-visual L&T Package (Senior Primary)" to enhance teachers' and students' understanding of the Basic Law. The expenditures on various L&T resources are as follows:

Name of L&T Resources	Expenditure [^] (\$ million)
Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study (Secondary)	0.71
Online L&T resources for the "Constitution and the Basic Law" module	Not Applicable [^]
Basic Law Knowledge Enrichment Online Course for Secondary School Teachers and supplementary video clips	1.08
Basic Law Online Self-learning Programme for Secondary School Students and supplementary video clips	0.93
Basic Law On-line Assessment (Junior Secondary) (for students)	Not Applicable [^]
Web on Assessment for BLE (Junior Secondary) (for teachers)	Not Applicable [^]
L&T Resource CD ROMs for Primary General Studies (History and Culture Series): Understanding Chinese History and Culture through Monuments in Hong Kong	0.05
L&T Resource CD ROMs for Primary General Studies (History and Culture Series): The Stories of the Silk Road	0.06
Basic Law Audio-visual L&T Package (Senior Primary)	1.20 ⁺⁺
L&T Resource CD ROMs for Primary General Studies (History and Culture Series): Engineering in China	0.09 [#]
Advanced Basic Law Knowledge Enrichment Online Course for Secondary School Teachers	0.54 ⁺⁺

[^] Total expenditures on L&T resources, which are incurred in different financial years (2015-16, 2016-17, 2017-18, 2018-19, 2019-20 and 2020-21).

[#] Actual expenditure revised from last year's estimates

⁺⁺ Revised from last year's estimates

[^] Daily website management (including production) is subsumed under the recurrent expenditure of the EDB

The above-mentioned expenditures on the production of BLE-related L&T resources, which include resource packages and assessment banks, do not cover staff cost for the EDB personnel involved in the production. Since the development of L&T resources is an integral part of the day-to-day curriculum development work, it is not practical to give separate figures on the staff-related expenditure incurred by individual curriculum development tasks. Various BLE-related L&T resources are provided for primary and secondary schools in the territory and their responses are positive. Many teachers and students have joined the online courses related to the Basic Law. For example, a total of 1 755 junior secondary school students registered for the “Basic Law Online Self-learning Programme for Secondary School Students” through their schools in the 2018/19 school year. Besides, from the 2016/17 to 2019/20 school years, 21 sessions of the “Basic Law Knowledge Enrichment Online Course for Secondary School Teachers” were organised, with 1 485 teachers completing the programme. Their feedback about the programme was highly positive. The EDB will continue to develop L&T resources for BLE, collect views and review the effectiveness of our work through various channels, so as to enrich and enhance the BLE-related L&T resources.

- End -

CONTROLLING OFFICER'S REPLY**EDB558****(Question Serial No. 3535)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

The Education Bureau has set up a dedicated team in the Bureau to step up the monitoring of the enhanced funding support for schools to support non-Chinese speaking students' learning. The team also examines the annual plans of the schools concerned on the use of the funding and verifies them against their annual school reports. Also, the Education Bureau uses an evaluation framework developed by the Chinese University to evaluate the effectiveness of various support measures for non-Chinese speaking students.

In this connection, will the government inform this Council of:

- (a) The number of manpower and the membership of the dedicated team, as well as the positions and ranks of the members if they are government officials;
- (b) The details of the evaluation method employed (e.g. supervisory visits to the schools, focus group, feedback collection through questionnaires, interviews, etc.), including the number of evaluation conducted, types and number of stakeholders involved, period, related expenditure and the summary of the feedback collected, in table format;

Evaluation method	No. of manpower involved	No. of evaluation conducted (e.g. Number of visits, feedback form collected, number of focus groups, etc.)	Types of stakeholders involved	Number of stakeholders involved	Period	Expenditure	Summary of the feedback collected

- (c) The indicators set under the evaluation framework on the effectiveness of the support measures for non-Chinese speaking students and the relative weights of these indicators;
- (d) The timeline of evaluation and whether results from the evaluation will be made publicly available; if not, why not?
- (e) What kinds of information will the Bureau make public from the review process to be accountable to the public; and
- (f) How does the Bureau engage stakeholders such as civil society organizations and ethnic minorities in the evaluation process?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 56)

Reply:

- (a) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted. A dedicated team, comprising 5 Education Officers (Administration) of different ranks, has been set up in the EDB to ensure schools' proper use of the additional funding. Specifically, the team will verify the number of NCS students admitted by the schools concerned for disbursement of the additional funding, examine the annual plans of the schools concerned on the use of the funding and verify them against their annual school reports. The team will monitor schools' use of the funding, which is designated for supporting NCS students' learning of the Chinese language, through supervisory visits to the schools and advise on school policies and support measures in respect of Chinese learning as well as staff deployment and use of resources, etc. as appropriate. Besides, feedback will be collected annually from major stakeholders (including principals, co-ordinators of education support measures for NCS students, Chinese Language teachers teaching NCS students, parents of NCS students, NCS students and non-governmental organisations where appropriate) of the schools concerned through questionnaires, interviews, etc. in order to have a better understanding of schools' implementation of the "Learning Framework".

- (b)-(f) The EDB collects information on an ongoing basis to assess the progress of various support measures for NCS students, and refines the measures as necessary. Such information includes NCS students' performance in the Territory-wide System Assessment (TSA) and findings of the questionnaire surveys on TSA, as well as the views of schools on professional development programmes and the school-based professional support services. We will continue, through school visits and exchanges with teachers, to look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning. Nevertheless, the learning of NCS students is affected by other factors (such as parents' expectation and cooperation, students' learning attitude). The EDB is exploring how to assess NCS students' learning progress in Chinese at the system level, with a view to providing feedback to schools and enhancing related support measures. The EDB will update the Legislative Council on the progress of the support measures in a timely manner. As the relevant work is subsumed under the overall expenditure of EDB, a breakdown of the expenditure is not available.

- End -

CONTROLLING OFFICER'S REPLY**EDB559****(Question Serial No. 3536)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (6) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

There are programmes offered by tertiary institutions in Hong Kong (e.g. Diploma in Early Childhood Education (Supporting Learning and Teaching for NCS Children) by the Education University of Hong Kong, MA in Chinese Language and Literature (with a specialism in Chinese Language Teaching for Teachers of NCS Students) by the Hong Kong Polytechnic University, and Certificate in Teaching NCS Children by the Hong Kong Institute of Vocational Education of the Vocational Training Council, etc.)

The Education Bureau has launched a Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language), funded under the Language Fund, since the 2014/15 school year. In this connection, will the government inform this Council of:

- (a) The number of kindergarten teachers who are receiving or have completed post-secondary training in teaching NCS students or Chinese as a second language and their percentage share among all kindergarten teachers in Hong Kong since 2014/15 school year with information as below:

Year	Name of institution	Programme name	Tuition fee of programme	No. of teachers enrolled	No. of teachers completed programme	% share
14/15						
15/16						
16/17						
17/18						
18/19						
19/20						

- (b) The number of kindergartens with teachers who are receiving or have completed post-secondary training in teaching NCS students and their percentage share among all kindergartens in Hong Kong in 2014/15 to 2019/20 school years;

- (c) The number of primary school teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all primary school teachers in Hong Kong from 2014/15 to 2019/20 school years;
- (d) The number of secondary school teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all secondary school teachers in Hong Kong from 2014/15 to 2019/20 school years;
- (e) The programmes that were/are recognised by the Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language) from 2014/15 to 2019/20 school years;
- (f) The respective number of kindergarten, primary school and secondary school teachers subsidised by the Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language), number of teachers who received the basic grant, and the number of teachers receiving extra grant, and the corresponding amount granted each year since 2014/15 till 2019/20;
- (g) Whether the Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language) will be extended to kindergarten teachers, and if so, when.

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 57)

Reply:

The Government has implemented a new kindergarten (KG) education policy starting from the 2017/18 school year. Under the new policy, we have strengthened the support for non-Chinese speaking (NCS) children and set specific targets for teacher training, i.e. each KG joining the KG education scheme (Scheme-KG) and having admitted NCS students should have at least one teacher completed the Basic Course as recognised by the Education Bureau (EDB) by the end of the 2020/21 school year. In this connection, we have commissioned the University of Hong Kong to provide specified basic training courses for KG teachers. A total of 135 and 130 teachers completed such courses in the 2017/18 and 2018/19 school years respectively. It is expected that 160 teachers will be provided with such basic training courses in the 2019/20 and 2020/21 school years respectively, and all the KGs having admitted NCS students will have at least one teacher completed the basic training course recognised by the EDB by the end of the 2020/21 school year. Apart from the training courses provided by the EDB, there are relevant training courses provided by other tertiary institutions. We have not collected relevant information from these institutions.

To encourage Chinese language teachers serving in primary and secondary schools to enroll in programmes with a view to enhancing their knowledge and skills necessary for teaching NCS students Chinese, the EDB started piloting the Language Fund-supported

“Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language)” (the Scheme) in the 2014/15 school year. Programmes recognised under the Scheme are part-time Postgraduate Certificate, Postgraduate Diploma and/or Master’s Degree programmes that focus on enhancing teachers’ ability in teaching NCS students Chinese and helping teachers cope with the challenges of teaching NCS students. The recognised programmes offered in the school years from 2014/15 to 2019/20 are listed in the table below:

Item	School year	Institution	Programme
1	2014/15 - 2016/17	The University of Hong Kong	MEd (Teaching Chinese to NCS Students) (Part-time)
2	2014/15 - 2019/20	The Hong Kong Polytechnic University	MA in Teaching Chinese as a Foreign Language (with a specialism in Teaching Chinese as a Second Language in Hong Kong Schools) (Part-time)
3			PgD in Teaching Chinese as a Foreign Language (with a specialism in Teaching Chinese as a Second Language in Hong Kong Schools) (Part-time)
4			MA in Chinese Language and Literature (with a specialism in Chinese Language Teaching for Teachers of NCS Students) (Part-time)

In the school years from 2014/15 to 2019/20, provision is reserved/arrangement has been made for disbursement of grant to 40 and 42 Chinese Language teachers serving in primary and secondary schools under the Scheme. The disbursement consists of a basic grant and an extra grant. On completion of a programme recognised under the Scheme, each teacher may be reimbursed 30% (2014/15 to 2018/19 school years) or 50% (2019/20 to 2021/22 school years) of the programme fee as a basic grant of up to \$30,000 (2014/15 to 2016/17 school years), \$34,000 (2017/18 and 2018/19 school years) or \$64,000 (2019/20 to 2021/22 school years). To encourage more serving teachers who teach NCS students Chinese to apply for the grant, and continue to serve in schools offering the local curriculum on completion of the recognised programmes, an extra grant of another 30% of the programme fee or up to \$30,000 will be provided for teachers who continue to teach NCS students Chinese in schools offering the local curriculum for 3 years within the 5 years upon completion of the programme. In the 2019/20 school year, 7 Chinese Language teachers serving in primary and secondary schools have been provided with the extra grant respectively. After piloting, we will study whether to extend the programme to KG teachers having regard to the experience gained.

To enhance teachers’ professional capability in teaching NCS students, the EDB has been continuously organising systematic and diversified professional development programmes to enable teachers to gain a deeper understanding of the content of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the relevant teaching methods. These training programmes have been launched since the 2014/15 school year. As at February 2020, 399 primary schools and 312 secondary schools have arranged for their teachers’ participation in seminars and workshops organised by the Curriculum Development Institute of the EDB (around 4 450 counts on participation). In addition, the EDB helps schools that have admitted NCS students

establish professional learning communities to promote exchange, strengthen teachers' professional ability, enhance NCS students' effectiveness in learning Chinese and enable their smooth transition to subsequent stages of learning.

Furthermore, relevant programmes are offered by local tertiary institutions. Examples include the Diploma in Early Childhood Education (Supporting Learning and Teaching for NCS Children) programme offered by the Education University of Hong Kong, the MA in Chinese Language and Literature (with a specialism in Chinese Language Teaching for Teachers of NCS Students) programme offered by the Hong Kong Polytechnic University, and the Professional Certificate in Teaching NCS Children programme offered by the Hong Kong Institute of Vocational Education, Vocational Training Council. We have not collected information on teachers' enrolment in these programmes.

Schools assign suitable teachers to teach Chinese in light of their own context. The number of teachers teaching NCS students Chinese may vary among schools. Even within the same school, the number of teachers assigned with this task may be different every year. We are unable to provide the percentage of teachers having received special training among teachers teaching NCS students Chinese each year.

(Question Serial No. 4088)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (-) Not specified
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Classes across the territory have been suspended for months now since the outbreak of the epidemic which has dealt a severe blow to the business of the minibus, school bus and nanny van sectors. Owners of such vehicles continue to incur fixed costs like car loan payments, parking fees and salaries during the downturn, thus aggravating the burden they face. Nevertheless, the Government's \$30 billion Anti-epidemic Fund is of little help to alleviate their hardship. In this connection, would the Government advise this Committee:

(1) whether it has assessed how school children's transits to and from schools will be affected in the event of school bus and nanny van companies closing down; if yes, of the details; if no, of the reasons; and

(2) whether it will use the Anti-epidemic Fund to provide additional financial assistance to these vehicle owners to ensure normal operation of relevant services after classes resume; if yes, of the details; if no, of the reasons.

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 66)

Reply:

(1) Having regard to the development of the COVID-19 epidemic, the Education Bureau (EDB) has on separate occasions since end-January this year announced deferral of class resumption for all schools. The deferral of class resumption is an important preventive measure to discourage students from leaving home and getting together, reduce the risk of virus transmission and hence protect students' health. Currently, the service and charges of non-franchised buses (NFBs) (including school buses) and school private light buses (i.e. nanny vans) in Hong Kong are subject to market mechanism, and the charging arrangements are agreed upon negotiation between service users (i.e. parents or schools) and operators. As such, these operators are not under the subvention of the EDB. Operators in the trade may liaise with schools or parents within the context of the contract terms in order to

weather the difficult times together with mutual understanding and assistance. Besides, in choosing the appropriate means of transport (including school buses and nanny vans) for their children, every parent gives consideration to their own needs and requirements. Whether there are sufficient choices of school bus and nanny van services depends primarily on the operation of the commercial market. We believe that the market can respond flexibly to changes in demand and satisfy students' needs for transport services.

(2) Due to the COVID-19 epidemic, classes have been suspended in all schools across the territory after the Chinese New Year holiday. This has greatly affected the business of NFBs and school private light buses providing student services. To help operators cope with their operating pressure in the prevailing circumstances, the Government will provide a one-off non-accountable subsidy of \$20,000 and \$10,000 respectively for each licenced NFB and nanny van under the Anti-epidemic Fund.

Question:

International schools form an integral part of Hong Kong education system. They are also an indispensable element that helps Hong Kong attract foreign investment and maintain its status as a world city. But under the existing mechanism, international schools receive no recurrent funding from the Government. In this regard, would the Government please advise of the following:

- (1) Will there be a review on the existing policy of not providing international schools with recurrent funding? If yes, what are the details? If no, what are the reasons?
- (2) Local students constitute 70% of the enrolment of international schools. Their parents, as Hong Kong citizens, are required by law to pay tax on time, but are given separate treatment as far as allocation of education resources is concerned. Why does the Government allow such differentiation in its resource allocation system? Is such a practice in compliance with Article 144 of the Basic Law? If yes, what are the details? If no, what are the reasons?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 71)

Reply:

Under the existing education policy, the Education Bureau provides recurrent subvention for aided schools and Direct Subsidy Scheme schools, which are required to provide primarily a local curriculum for local students and satisfy specific requirements on school operation, management and finance. On the other hand, the education system of Hong Kong provides parents with diversified choices. One of these is private schools (including international schools) that operate with autonomy and on a self-financing and market-driven basis. They may offer a local or non-local curriculum and enjoy flexibility in admitting students and collecting school fees.

The Government is committed to developing a vibrant international school sector to meet the demand for international school places from non-local families coming to Hong Kong for work or investment. All international schools in Hong Kong are private schools offering a non-local curriculum. In the 2019/20 school year, non-local students account for 74% of the student enrolment of international schools.

We have been implementing various facilitating measures to support the development of the international school sector, including the allocation of greenfield sites at nominal premium, provision of vacant school premises at nominal rent and interest-free loans for school development on greenfield sites. However, no recurrent subvention is provided. For historical reasons, the English Schools Foundation (ESF) is the only international school operator receiving recurrent subvention from the Government. A review on the subvention arrangements for the EFS was completed in 2013. It was observed that the role of the ESF in the school system had changed. After discussion with the ESF, we started to phase out the recurrent subvention for the ESF in 13 years from the 2016/17 school year to the 2028/29 school year. We have no plans to change our policies on supporting the development of the international school sector.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What is the total amount of provision allocated for updating government departments' online teaching materials on sex education in 2019/20? What is the amount of provision earmarked for this purpose in 2020/21?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 138)

Reply:

As a government department, the Education Bureau (EDB) has been promoting values education (including sex education) in schools to foster students' whole-person development through cross-curricular learning and the provision of a wide array of support (including online teaching materials). As part of values education, sex education is included in the curricula of Key Learning Areas, relevant subjects and moral and civic education of primary and secondary schools. To support the implementation of values education (including sex education) in schools, the EDB has been organising professional development programmes on a range of themes, such as "How to Promote Sex Education Effectively in Primary/Secondary Schools", "How Social Networking Affects the Sex Concept and Love Attitude of Adolescents" and "Learning and Teaching Strategies for Preventing Sexual Harassment", for both principals and teachers to enhance their professional knowledge and teaching strategies. In addition, the EDB has been providing schools with various learning and teaching (L&T) resources, including student worksheets, audio-visual teaching materials, animation resources, etc., and developing life event exemplars on different topics, such as "dating and falling in love", "traps in making friends via mobile apps", "witnessing public display of affection", "prevention of sexual assaults" and "impacts of browsing online pornographic websites", with a view to helping teachers deepen students' understanding of related topics and nurture in them moral values as well as proper attitude and behaviour through arranging learning activities such as discussion, sharing and reflection. The related L&T resources have been uploaded to the EDB's

webpage for teachers' reference. Since the relevant expenditure incurred in developing L&T resources are subsumed under the recurrent expenditures of relevant sections of the EDB, no breakdown of figures is available.

Director of Bureau: Secretary for Education

Question:

It has been nearly 10 years since the Government conducted a questionnaire survey on life skills-based education on HIV/AIDS or sex in primary and secondary schools in the 2011/12 school year. Will the Government launch a similar study in 2020/21 to examine how sex education is offered in local schools? If not, will NGOs be invited to apply for funding to undertake such a study?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 142)

Reply:

As part of values education, sex education is included in the curricula of Key Learning Areas (“KLAs”), relevant subjects and moral and civic education of primary and secondary schools. As a government department, the Education Bureau (EDB) has been promoting values education (including sex education) in schools to foster students’ whole-person development through cross-curricular learning and the provision of a wide array of support (including online teaching materials and professional development programmes).

In 2013, the Hong Kong Advisory Council on AIDS conducted a survey on life skills-based education on HIV/AIDS at junior secondary level. The survey results revealed that most schools in Hong Kong had integrated HIV education into KLAs /subjects. It is learnt that the results of the survey served as a reference for formulating the Recommended HIV/AIDS Strategies for Hong Kong (2017-2021). Apart from the above survey, the EDB has also been drawing reference to other studies carried out by different organisations. Through different channels such as school inspections and visits, the EDB learns about the implementation of values education (including sex education) in schools and collects good exemplars for dissemination and sharing. We will also offer advice on areas for improvement as necessary to enhance the relevant support for schools. The EDB has no immediate plan to launch a study on values education (including sex education).

Question:

Regarding the new 2-tiered arrangement for the “Chinese Language Curriculum Second Language Learning Framework” (Learning Framework), please provide the following information:

- (1) What is the amount of the 2-tiered additional funding set aside for the Learning Framework for the coming 3 years? What are the estimated amounts of additional annual funding for public sector and Direct Subsidy Scheme (DSS) primary and secondary schools respectively?
- (2) What are the extra resources to be provided for public sector and DSS primary and secondary schools admitting 9 or fewer non-Chinese speaking (NCS) students each year respectively?
- (3) How will the Education Bureau (EDB) assess the effectiveness of the Learning Framework in different tiers? What performance indicators will be used? Will the assessment be conducted in consultation with ethnic-minority service providers, Chinese Language teachers, ethnic-minority students and parents? If yes, what are the details? If no, what are the reasons?
- (4) How many NCS students have bridged over to mainstream Chinese Language classes so far? By the EDB's estimation, how many more years will it take for most NCS children born and raised in Hong Kong to be able to bridge over to mainstream Chinese Language classes?
- (5) Will the EDB develop and publish a comprehensive curriculum (Primary 1 to Secondary 6) and teaching materials for the Learning Framework? If yes, what are the details? If no, what are the reasons?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 205)

Reply:

(1) and (2)

Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 NCS students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. To enhance the support for NCS students in learning Chinese and create an inclusive learning environment in schools, the EDB will, starting from the 2020/21 school year, provide a new two-tiered subsidy for all schools admitting a relatively small number of NCS students (1 to 5 NCS students and 6 to 9 NCS students respectively) and increase the amount of the additional funding from currently \$50,000 to \$0.15 million or \$0.3 million. It is estimated that about 200 primary schools and 180 secondary schools will be provided with the additional funding in the 2020/21 school year. The expenditure involved will be about \$34.35 million and \$30.9 million respectively, and the additional expenditure concerned will be about \$24.4 million and \$21.85 million respectively. The amount of the additional funding provided to schools admitting NCS students will also be adjusted based on the year-on-year movement of the Composite Consumer Price Index and/or the annual rates of the Civil Service Pay Adjustment. The above figures are preliminary estimation based on the number of NCS students provided to the EDB by schools through the Enrolment Survey conducted at the beginning of the current school year. Relevant figures for the 2021/22 and 2022/23 school years are not yet available. It should be noted that the new two-tiered subsidy for schools admitting a relatively small number of NCS students is provided for enhancing the support for NCS students' learning of the Chinese language and creating an inclusive learning environment in schools in a holistic manner, but not just for learning under the "Learning Framework".

(3) and (4)

The “Learning Framework”, designed on the basis of the mainstream Chinese Language curriculum, provides steps and methods for learning and teaching, and assessment for teachers’ reference in teaching and making flexible adaptations according to the learning progress of NCS students. Teachers can make reference to the “Learning Framework”, which is not independent of the mainstream Chinese Language curriculum, to set learning targets, learning progress and expected learning outcomes on listening, speaking, reading and writing, as well as adapt and develop teaching materials at the school-based level for NCS students with different starting points and abilities, so as to help these second language learners to use a “small-step” learning approach to learn Chinese progressively. The EDB has consulted teachers and language experts when formulating the “Learning Framework”, and will continue to collect views from various stakeholders on the “Learning Framework” and relevant support measures. At the curriculum level, the EDB has, through school visits and focus group interviews, solicited teachers’ views on related curriculum documents, with a view to introducing refinements that could make the descriptions of learning outcomes under the “Learning Framework” more precise and concrete. The revised “Learning Framework” was uploaded to the “Chinese Language Curriculum Second Language Learning Framework Dedicated Homepage” (<https://www.edb.gov.hk/tc/curriculum-development/kla/chi-edu/second-lang.html>) in January 2019 for teachers’ reference and use. In parallel, the relevant assessment tools and teaching resources have been updated accordingly. The EDB will continue to collect information to evaluate the effectiveness of its support measures and make refinements as necessary. In this regard, we will look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning.

As for whether NCS students can be bridged to mainstream Chinese Language classes and learn with their Chinese-speaking classmates at the same grade level, it is determined by relevant teachers based on the assessment results. Teachers need to monitor NCS students’ learning progress on an ongoing basis and provide them with the necessary support and counselling in a timely manner, so as to cater for their diverse learning needs and possible changes in learning progress to facilitate their articulation to multiple pathways. When evaluating the effectiveness of the support measures concerned, the EDB will not only focus on the number of NCS students who have been or are expected to be bridged to mainstream Chinese Language classes in schools concerned. The existing educational measures to enhance the support for NCS students in learning Chinese is unique to Hong Kong. Experience should be accumulated and refinements be made where necessary. It also takes time for such measures to take root. Besides, we understand that the learning effectiveness of NCS students is affected by other factors (such as students’ learning attitude, parents’ expectation and cooperation). It is therefore neither possible nor appropriate to assess the effectiveness of the measures solely based on the indicator of their capability to enhance the Chinese proficiency of NCS students.

(5)

In view of the disparities in linguistic backgrounds and years of learning Chinese among NCS students, distinct differences exist in their starting points of learning Chinese and learning progress. If standardised teaching materials with uniform phasic learning targets were to be introduced for all NCS students in Hong Kong, they would neither align with the ways they learn Chinese in reality, nor cater for learner diversity.

The Chinese Language curriculum framework provides schools with some flexibility. The curriculum documents also provide suggestions on learning targets, curriculum content, curriculum organisation and design, lesson time, teaching strategies, and assessment. Schools can make adjustments on curriculum, teaching, and assessment in light of school context and make use of the assessment tools with reference to the needs and learning progress of students with different backgrounds and learning abilities to help students to make progress.

The EDB will continue developing learning materials and teaching reference materials jointly with language and curriculum experts and school teachers. These teaching materials, covering primary and secondary Chinese Language curricula and different levels (i.e levels 1 to 8) under the “Learning Framework”, have been uploaded to the EDB website by phases for school teachers’ reference and adoption. For example, a series of learning and teaching materials, including student textbooks, workbooks and teaching reference materials for NCS students at primary levels is being developed for teachers’ reference and use. The materials for lower primary levels (i.e. Primary 1 to 3) have been uploaded to the EDB webpage and distributed to schools. The materials for upper primary levels (i.e. Primary 4 to 6) have been uploaded to the EDB webpage by phases starting from December 2019. Schools may make adaptations to these materials with reference to their school-based curriculum in order to cater for the diverse learning needs of NCS students.

Question:

Regarding the initiative to provide parent education programmes for non-Chinese speaking (NCS) parents with a non-recurrent funding of \$15 million starting from the 2020/21 school year, please advise this Committee:

- (1) whether these programmes are open to NCS parents of primary, secondary and kindergarten students;
- (2) whether these programmes will be directly provided by the Education Bureau (EDB) or by commissioned non-profit-making organisations; if it is the latter, of the number of organisations to be commissioned and the selection criteria; and
- (3) of the topics and contents to be covered in and the form of these programmes; whether they are merely for disseminating information or will they provide an interactive learning experience; and whether information available online will be included.

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 207)

Reply:

(1) to (3)

Starting from the 2020/21 school year, the Education Bureau (EDB) will strengthen parent education for parents of non-Chinese speaking (NCS) students at kindergarten, primary and secondary levels. We will provide a series of parent education programmes for NCS parents, including outreach programmes and seminars respectively run by non-governmental organisations and/or tertiary institutions commissioned by the EDB through procurement procedures, so as to help them support their children's learning and encourage their children to master the Chinese language, enhance their communication with schools, and help them have more comprehensive understanding of the multiple pathways

available to their children. We will implement these programmes using diversified approaches as far as possible, and the actual arrangements will be determined in light of the nature of individual programmes, which may take the forms of information dissemination, interactive seminars and workshops, etc.

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

A broad range of support services will be provided for schools to help them take forward education reform initiatives, and to cater for learner diversity, including the provision of a non-recurrent allocation of \$45 million to commission school-based professional support services for about 200 schools (including kindergartens) admitting non-Chinese speaking (NCS) students in the three school years from 2019/20 to 2021/22 to enhance the professional competency of teachers in teaching Chinese to NCS students. In this connection, please provide the following information:

- (1) The numbers of secondary schools, primary schools and kindergartens provided with the above support services at present, as well as the respective numbers of teachers of secondary schools, primary schools and kindergartens involved;
- (2) The total numbers of secondary schools, primary schools and kindergartens expected to be provided with the above support services, as well as the total numbers of trained teachers of secondary schools, primary schools and kindergartens in the three years.
- (3) Which organisations or institutions are currently providing the above support services? How do they support and enhance teachers' professional competency in teaching Chinese to NCS students? What are the content, modes and duration of training?

Asked by: Hon Hon SHIU Ka-chun (LegCo internal reference no.: 208)

Reply:

The Education Bureau (EDB) has commissioned post-secondary institutions to provide school-based support services for secondary schools, primary schools and kindergartens admitting non-Chinese speaking (NCS) students in the school years from 2019/20 to 2021/22, so as to enhance teachers' professional capacity in teaching Chinese to NCS students. About 200 secondary schools, primary schools and kindergartens are expected to benefit from such services in the three school years. In the 2019/20 school year, three support programmes commenced. They include those on supporting the learning and teaching of Chinese provided by the HKU School of Professional and Continuing Education

and PolyU Technology and Consultancy Co. Limited to 17 kindergartens and 17 primary schools admitting NCS students respectively, and the one on supporting the learning and teaching of Chinese as well as facilitating the transition of NCS students from kindergarten to primary education provided by the University of Hong Kong to 11 kindergartens and 11 primary schools. In addition, to facilitate the transition of NCS students from primary to secondary education, the EDB is preparing a tendering exercise for the school-based support services on the transition from primary to secondary education. The services are targeted to commence in the 2020/21 school year.

The post-secondary institutions commissioned provide diversified school-based professional support services for participating schools. These services include providing intensive on-site support and consultancy services to help kindergartens cater for the learning needs of NCS children, as well as leading secondary and primary schools to develop or adapt their school-based Chinese Language curricula, design appropriate learning materials and adopt diversified assessment modes with reference to the “Chinese Language Curriculum Second Language Learning Framework” and other resources such as the “Chinese Language Assessment Tools for NCS Students”, with a view to enhancing the effectiveness of NCS students in learning Chinese and facilitating their smooth transition between different stages of learning. The support teams enhance the professional capacity of teachers in teaching Chinese to NCS students through strategies such as lesson studies, reviewing school-based curricula, collaborative lesson planning, lesson observations and classroom feedback. Learning communities (LCs) for teachers and parents are also established. LCs help facilitate inter-school collaboration among teachers and their sharing of successful experience on topics of common concern such as how to help NCS students learn Chinese effectively, with a view to promoting professional exchanges among schools. They also encourage NCS parents to participate in school activities so as to let them know how to assist their children in mastering the Chinese language, thus promoting home-school co-operation. In addition, the support teams organise territory-wide seminars at the end of each school year to share the knowledge and good practices generated from the support services to promote professional exchanges. The EDB will compile the knowledge and good practices into a learning and teaching resource package and upload it to its website for schools’ reference after the 2021/22 school year. Apart from providing support to participating schools, the services will share the knowledge and good practices thus generated with all teachers in the territory through the above-mentioned measures, and so the EDB does not have the number of teachers who have benefited/will benefit from the support services.

(Question Serial No. 6326)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Pre-primary Education Voucher Scheme, what is the number of applicants, the number of users in each of the 18 districts, and the total expenditure involved in the past 3 years?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 211)

Reply:

Applications for joining the Pre-primary Education Voucher Scheme (PEVS) are made on a family basis. A family with more than 1 child applying for the Voucher in the same school year should submit 1 application only. Normally, the Voucher is valid for 3 years. Starting from the 2017/18 school year, new applications for joining PEVS are no longer accepted as the new kindergarten education scheme (KG Scheme) was launched in that school year to replace PEVS. There are no eligible classes or students under PEVS starting from the 2019/20 school year.

The number of students under PEVS (by District Council district) in the 2017/18 and 2018/19 school years is tabulated in Appendix 1.

The expenditure on PEVS from 2017-18 to 2019-20 is tabulated in Appendix 2.

**Number of students under PEVS in the 2017/18 and 2018/19 school years
(by District Council district)**

District	2017/18	2018/19
Central & Western	153	68
Wan Chai	248	115
Eastern	559	262
Southern	0	0
Sham Shui Po	0	0

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out the following information for the past 3 years by industry and education level:

- (1) the number of places offered by programmes under the Earn and Learn Scheme
- (2) the number of applicants for programmes under the Earn and Learn Scheme
- (3) the number of graduates of programmes under the Earn and Learn Scheme

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 230)

Reply:

- (1) The Government has implemented, through the Vocational Training Council (VTC), the Training and Support Scheme (also known as the VTC Earn and Learn Scheme) since the 2014/15 academic year. From the 2014/15 to 2018/19 academic years, 1 000 training places were offered under the Scheme each year. Starting from the 2019/20 academic year, the Government has regularised the Scheme and increased the number of training places to 1 200 each year.
- (2) In the past 3 years, the number of trainees that benefited from the Training and Support Scheme each year is set out below –

Programme	No. of Trainees Benefited		
	2016/17 Academic Year	2017/18 Academic Year	2018/19 Academic Year
Secondary Six or Above	282	290	280
Electrical & Mechanical Engineering and Construction	255	273	249
Testing and Certification	15	13	2
Medical Centre Operations	12	4	5
Aviation	-	-	24

Secondary Three or Above	864	963	844
Electrical & Mechanical Engineering	733	813	749

Director of Bureau: Secretary for Education

Question:

(1) Please provide the number of vacant school premises (VSP) that have not been earmarked for educational use, as well as the districts where they are located and their addresses, with a breakdown by 18 districts and the length of vacancy period (i.e. under 1 year, 1-3 years, and exceeding 3 years). What were the expenditures incurred for the management and maintenance of these VSP in each of the past 3 years (i.e. 2017-18, 2018-19 and 2019-20)?

(2) Please provide the number of VSP that have been earmarked for educational use, as well as the districts where they are located and their addresses, with a breakdown by 18 districts and the length of vacancy period (i.e. under 1 year, 1-3 years, and exceeding 3 years). What were the expenditures incurred for the management and maintenance of these VSP in each of the past 3 years?

(3) How many applications were submitted by social welfare organisations for hiring this type of idle government premises in the past 5 years? How many applications were approved? How many applications were rejected and why?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 283)

Reply:

It has all along been the Education Bureau (EDB)'s policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacant school premises, the EDB will assess the VSP's suitability for school or other educational uses having regard to factors including the size, location, physical conditions, etc., of the relevant premises, as well as the educational needs and relevant policy measures. When the EDB confirms that the VSP is no longer required by the EDB for reallocation for school use, the EDB will inform the Planning Department (PlanD) and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) in accordance with the Central

Clearing House (CCH) Mechanism. The PlanD will conduct reviews according to the CCH Mechanism and recommend suitable alternative long-term uses (such as Government, Institution or Community, residential and other uses) for the concerned VSP sites. Upon confirmation on the long-term uses of the VSP sites concerned, the PlanD will inform the departments concerned (such as LandsD and HD) of the recommendations for their follow-up actions as appropriate. As at mid-2019, the PlanD has reviewed and confirmed the long-term uses of a total of 233 VSP sites in accordance with the CCH Mechanism. According to the mechanism, the EDB is allowed to retain VSP for school use. However, if the EDB intends to use VSP for other educational uses, the EDB needs to put forward its proposed use with justification to the PlanD for assessment and may need to compete with other government departments on use of such VSP.

As at end-February 2020, there are 9 VSP under the EDB's purview which are earmarked/retained for school or other educational uses. Information of the school premises concerned is as follows:-

Table — 9 VSP under the EDB's purview (Position as at end-February 2020)

No.	District	Former school name	Address	School year in which the school ceased operation (Note)	Site area of school premises (rounded to the nearest hundred m ²)
1	Eastern	HongKong Japanese School	9 Hau Yuen Path, Braemar Hill Road, North Point, Hong Kong	2017/18	2 900
2	Southern	St. Peter's Secondary School	220 Aberdeen Main Road, Hong Kong	2012/13	6 000
3	Kowloon City	Hung Hom Government Primary School	68 Gillies Avenue South, Hung Hom, Kowloon	2009/10	1 900
4	Wong Tai Sin	S.K.H. Ching Shan Primary School	3 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	3 700 (Total)
5	Wong Tai Sin	S.H.K. Yat Sau Primary School	1 Luk Lau Avenue, Choi Hung Estate, Wong Tai Sin, Kowloon	2016/17	
6	Wong Tai Sin	Cognitio College (Kowloon)	96 King Fuk Street, San Po Kong, Kowloon	2019/20	2 100
7	Sham Shui Po	Chi Yun School	19 Kwong Lee Road, Kowloon	2018/19	2 200
8	Tai Po	Tai Po Government Primary School	22 Wan Tau Kok Path, Tai Po, New Territories	1999/00	2 400
9	Islands	Cheung Chau Public School	School Road, Cheung Chau, New Territories	2006/07	5 800

Note: "School year in which the school ceased operation" refers to the year the school premises were ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

The EDB is responsible for the management of VSP located on sites allocated to the EDB, including those that the PlanD has been informed of under the CCH Mechanism but that the LandsD has requested the EDB to continue the management until the next users have been identified and taken over the land. In 2017-18 and 2018-19, the expenditure of the EDB for the management of VSP was \$1.266 million and \$1.228 million respectively, and the revised estimated expenditure for 2019-20 is \$0.86 million, which mainly include security patrol and inspections, pest control, removal of litter, as well as cleansing and weeding.

As all the VSP under the EDB's purview are earmarked/retained for school or other educational uses, the EDB, along the policy objective of putting VSP into gainful use, circulates information of VSP that are pending deployment for long-term use but without suitable short-term educational use for the time being within the Government on a half-yearly basis with a view to letting other bureaux/departments use such VSP for suitable short-term non-educational purposes. However, such VSP are not available for application by non-government organisations direct. The EDB does not maintain any information pertaining to the current condition and use of VSP returned under the CCH Mechanism, applications for hiring these VSP submitted by social welfare or other organisations (if applicable) and the expenditure incurred for the management of these VSP by relevant departments.

Reply:

(1) According to the findings of graduate employment surveys by University Grants Committee (UGC)-funded universities and relevant surveys by self-financing institutions, the average annual salary of graduates of full-time sub-degree and undergraduate programmes of the 2018 cohort who are engaged in full-time employment is tabulated as follows. The Government does not maintain the requested information on median income.

	UGC-funded sub-degree programme graduates (Note 1)	UGC-funded undergraduate programme graduates (Note 1)	Self-financing associate degree programme graduates (Note 2)	Self-financing higher diploma programme graduates (Note 2)	Self-financing undergraduate programme graduates (Note 2)
Average annual salary	\$211,000	\$256,000	\$165,626	\$174,617	\$191,161

The Youth Employment and Training Programme (YETP) launched by the Labour Department provides comprehensive pre-employment and on-the-job training for young school leavers aged 15 to 24 with educational attainment at sub-degree level or below. YETP operates on the basis of programme year, running from September each year to August of the following year. Starting from the 2018/19 programme year, the scope of YETP has been expanded to cover part-time on-the-job training. The average monthly salary of trainees engaged in full time and part-time on-the-job training posts under YETP in the 2018/19 programme year is \$10,511 and \$3,578 respectively. The Government does not maintain the requested information on vocational training (Employees Retraining Board programmes).

Note 1: UGC-funded sub-degree programmes include higher diploma and associate degree programmes. As advised by UGC-funded universities, figures on the average annual salary of their graduates include commission and other cash allowances (e.g. double pay, year-end payment/bonus, etc.). Employment information of graduates of a particular academic year is collected through graduate employment surveys conducted by UGC-funded universities during December of the corresponding year.

Note 2: Figures above only represent the average annual salary of graduates engaged in full-time employment who have responded to the graduate employment surveys conducted by the respective self-financing institutions and have reported their salary information.

(2) The number of trainees engaged in on-the-job training posts under YETP in the 2018/19 programme year broken down by wage level and expressed in percentage terms is as follows:

Average monthly salary	Vocational training under YETP
<\$8,000	3.34%
\$8,000 -<\$10,000	39.87%
\$10,000-<\$15,000	53.10%
\$15,000-<\$20,000	3.64%
\$20,000-<\$25,000	0.05%
\$25,000-<\$30,000	- %
\$30,000 and above	- %

The Government does not maintain the requested information on other aspects.

(3) to (5) The Government does not maintain relevant information.

CONTROLLING OFFICER'S REPLY**EDB572****(Question Serial No. 5152)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (6) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Will the government inform this Council of:

- Using the table below, the number of all Form 6 students, the number of Form 6 non-Chinese speaking (NCS) students, the number of all Form 6 students sitting for HKDSE, the number of Form 6 NCS students sitting for HKDSE, the number of all Form 6 students sitting for HKDSE Chinese Exam, and the number of Form 6 NCS students sitting for HKDSE Chinese Exam for the year 2015/16, 2016/17, 2017/18 and 2018/19:

	No. of all F6 students	No. of F6 NCS students	No. of all F6 students sitting for DSE	No. of F6 NCS students sitting for DSE	No. of all F6 students sitting for DSE Chinese Exam	No. of F6 NCS students sitting for DSE Chinese Exam
2015/16						
2016/17						
2017/18						
2018/19						

- The number of day students earning these grades (U, 1, 2, 3, 4, 5, 5*, 5**) among Form 6 students sitting for DSE Chinese Exam. The government must provide data desegregated by grade level whether it is data above level 3 or below level 3 so as to show the true picture of NCS students' Chinese attainment at DSE level. Data must be provided separately for NCS and ethnic minority students, because some NCS students are not ethnic minorities and vice versa. Providing both numbers will show a clearer picture.

	Number of all students earning the following grades in DSE Chinese exam							
	U	1	2	3	4	5	5*	5**
2015/16								
2016/17								
2017/18								
2018/19								

3. Number of day school candidates obtained level 2 or above in five subjects including Chinese Language and English Language in 2015/16, 2016/17, 2017/18 and 2018/19;

	Number of ethnic minority students earning the following grades in DSE Chinese exam							
	U	1	2	3	4	5	5*	5**
2015/16								
2016/17								
2017/18								
2018/19								

4. Number of NCS day school candidates obtained level 2 or above in five subjects including Chinese Language and English Language in 2015/16, 2016/17, 2017/18 and 2018/19;

	Number of NCS students earning the following grades in DSE Chinese exam							
	U	1	2	3	4	5	5*	5**
2015/16								
2016/17								
2017/18								
2018/19								

5. Number of ethnic minority day school candidates obtained level 2 or above in five subjects including Chinese Language and English Language in 2015/16, 2016/17, 2017/18 and 2018/19;
6. Number of NCS day school candidates obtained level 2 or above in five subjects in 2015/16, 2016/17, 2017/18 and 2018/19;
7. Number of ethnic minority day school candidates obtained level 2 or above in five subjects in 2015/16, 2016/17, 2017/18 and 2018/19.

Asked by: Hon TAM Man-ho, Jeremy (LegCo internal reference no.: 607)

Reply:

1.

The number of day school students and non-Chinese speaking (NCS) students attending Secondary 6 (S6) and sitting for the Hong Kong Diploma of Secondary Education Examination (HKDSE) and the HKDSE (Chinese Language) from the 2015/16 to 2018/19 school years is as follows:

	Number of S6 students ^{Note}	Number of S6 NCS students ^{Note}	Number of S6 day school students sitting for the HKDSE	Number of S6 NCS students sitting for the HKDSE ^{Note}	Number of S6 day school students sitting for the HKDSE (Chinese Language)	Number of S6 NCS students sitting for the HKDSE (Chinese Language) ^{Note}
2015/16	56 725	1 150	55 934	1 035	54 903	115
2016/17	51 844	1 186	51 008	1 062	49 868	104
2017/18	51 535	1 317	50 447	1 189	49 181	102
2018/19	47 998	1 218	46 717	1 094	45 542	106

Note: Figures only include public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum.

2. to 7.

The number of day school students sitting for the HKDSE (Chinese Language) and their levels attained from the 2015/16 to 2018/19 school years are tabulated below:

	Number of day school students attaining the following levels in the HKDSE (Chinese Language)							
	Unclassified	1	2	3	4	5	5*	5**
2015/16	1 281	6 844	16 382	14 964	10 301	3 039	1 578	514
2016/17	1 180	5 739	15 028	13 939	9 375	2 822	1 318	467
2017/18	1 355	5 455	14 201	13 132	10 039	3 038	1 451	510
2018/19	1 262	4 538	13 304	12 411	9 202	2 931	1 408	486

The number of day school candidates attaining Level 2 or above in 5 subjects (including Chinese Language and English Language) of the HKDSE from the 2015/16 to 2018/19 school years is tabulated below:

	Number of day school candidates	
	Attaining Level 2 or above in 5 Category A subjects/ Attaining the result of “Attained” or above in Category B subjects (including Chinese Language and English Language)	Attaining Level 2 or above in 5 Category A subjects (including Chinese Language and English Language)
2015/16	39 019	38 790
2016/17	34 673	34 496
2017/18	35 190	34 993
2018/19	32 606	32 389

In the 2015/16, 2016/17, 2017/18 and 2018/19 school years, among the NCS students attending S6 in public sector schools and DSS schools offering the local curriculum and entering for the HKDSE, 320, 350, 385 and 331 met the general entrance requirements of undergraduate programmes (most of them using alternative Chinese Language qualifications) in the respective years. Among the NCS students entering for the HKDSE (Chinese Language), 32, 28, 14 and 20 attained Level 3 or above, meeting the general entrance requirement of undergraduate programmes in respect of the Chinese Language subject. For the planning of education support measures for NCS students, we take into account the language spoken at home instead of the ethnicity of the students in deciding whether support is required. As such, we do not have information about the number of ethnic minority students. It is our established practice that the breakdown of the levels attained by individual groups of students will not be released to avoid any labelling effect and piece-meal interpretation or misinterpretation of the results.

Question:

Please set out in table form the following information on research projects from 2006 to 2020 related to ethnic minorities and/or non-Chinese speaking students for which public funds had been allocated, e.g. by the University Grants Committee, Education Bureau, Standing Committee on Language Education and Research (SCOLAR) and Quality Education Fund (QEF):

1. funding body;
2. title of research;
3. name of institution(s) and/or investigator(s);
4. amount of funding for each research project;
5. start date;
6. progress of research (under planning/ in progress/completed date);
7. Administration's follow-up to the research report and the progress (if any);
8. for completed research, have the executive summary/full report been made publicly available; if yes, through which channels; if no, explain why;
9. webpage links to the completed research report; and
10. measures taken to safeguard against misuse of research funding.

Asked by: Hon TAM Man-ho, Jeremy (LegCo internal reference no.: 610)

CONTROLLING OFFICER'S REPLY

EDB574

(Question Serial No. 5156)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the attendance of public examinations and the senior secondary education of non-Chinese speaking (NCS) students, please provide information between the 2013/14 to 2018/19 school years:

1. among the NCS students who have attended the Hong Kong Diploma of Secondary Education (HKDSE) Examination, the number of students who sat for HKDSE Chinese Language exam desegregated by their attendance of public, DSS or private schools;
2. the number of NCS students who have studied Secondary 6 but eventually did not enroll in the HKDSE or have enrolled in the HKDSE but were absent from the examination desegregated by their attendance of public, DSS or private schools.
3. the number of dropped out Secondary 4 and Secondary 5 NCS students desegregated by their attendance of public, DSS or private schools. If the number is not available, will the government start requiring schools to indicate whether the students involved are NCS students in their report to EDB;
4. the number of students who are ethnic Chinese within the NCS group;
5. list out the programmes organized by either the Education Bureau or the non-governmental organizations (NGOs) targeting the dropped out students, including the funding source, no. of enrolled students, no. of attendance, and among the participants, how many are NCS students.

Asked by: Hon TAM Man-ho, Jeremy (LegCo internal reference no.: 611)

Reply:

1. and 2. In the past 5 years (i.e. from the 2014/15 to 2018/19 school years), there were 930, 1 150, 1 186, 1 317 and 1 218 non-Chinese speaking (NCS) students (i.e. students whose spoken language at home is not Chinese) attending Secondary 6 in public sector secondary schools and Direct Subsidy Scheme (DSS) secondary schools offering the local curriculum (including 347, 506, 541, 582 and 552 students in public sector secondary schools, and 583, 644, 645, 735 and 666 students in DSS secondary schools offering the local curriculum) in the respective school years. Among these students, there were 830, 1 046, 1 072, 1 206 and 1 117 students (including 333, 491, 520, 572 and 538 students in public sector secondary schools, and 497, 555, 552, 634 and 579 students in DSS secondary schools offering the local curriculum) who entered for the Hong Kong Diploma of Secondary Education Examination (HKDSE) respectively. Out of these 830, 1 046, 1 072, 1 206 and 1 117 NCS students, 97, 116, 106, 103 and 110 students (including 76, 85, 81, 78 and 87 students in public sector secondary schools, and 21, 31, 25, 25 and 23 students in DSS secondary schools offering the local curriculum) entered for the HKDSE (Chinese Language) respectively, among which 2, 1, 2, 1 and 4 students (including 1, 1, 2, 1 and 4 students in public sector secondary schools, and 1, 0, 0, 0 and 0 student in DSS secondary schools offering the local curriculum) were absent from the examination. We do not have the relevant information on the number of NCS students studying in private schools.
3. Under the existing mechanism, schools must report all students' non-attendance and departure cases to the Education Bureau (EDB). However, schools are not required to indicate whether the students involved are NCS students in their report to EDB. Besides, cases of students' departure involve different factors and some students would resume schooling later. Therefore, we cannot provide the information requested.
4. From the 2014/15 to 2018/19 school years, the number of Chinese NCS students studying in public sector secondary schools and DSS secondary schools offering the local curriculum is tabulated below:

School year	S1	S2	S3	S4	S5	S6	Total
2014/15	106	127	83	97	71	64	548
2015/16	122	106	134	95	90	83	630
2016/17	150	112	107	143	99	94	705
2017/18	146	139	103	119	133	100	740
2018/19	131	137	134	96	120	121	739

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include public sector secondary schools and DSS secondary schools (excluding 1 DSS secondary school offering only non-local curriculum), but exclude special schools.

3. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students.

5. EDB is committed to providing various kinds of services for needy students (including NCS students). Towards this end, we have all along been supporting school administrators, teachers, student guidance personnel or school social workers to provide appropriate guidance services for non-attendance students and those having departed from schools, with a view to understanding their needs and difficulties, helping them resume schooling, or referring them to attend training programmes or courses which cater for their needs, e.g. short-term adjustment programmes organised by schools, training programmes provided by the Vocational Training Council for non-engaged youths, or short-term courses provided by non-governmental organisations (NGOs). At present, various NGOs provide different types of short-term courses for teenagers. These courses aim at enhancing students' motivation to attend school, helping them develop positive goals in life and prepare well for employment, supporting hidden youths, treating internet addiction, etc. The above training programmes or courses are not organised by EDB. Hence, we have not collected the relevant data and cannot provide information on the funding and number of student participants.

In addition, to enhance NCS school leavers' employability, the Standing Committee on Language Education and Research has, since April 2016, implemented the "Vocational Chinese Language Programme for NCS School Leavers", under which educational/training programme providers are commissioned to offer vocational Chinese language programmes pegged at Level 1 or 2 of the Qualifications Framework with the funding support of the Language Fund. Upon completion of their programme, participants may be reimbursed up to 85% of the programme fee provided that they fulfill the relevant requirements in respect of attendance or assessment. The number of participants admitted to/enrolled in the relevant programmes is as follows:

School year	No. of participants admitted/enrolled
2016/17	223
2017/18	140
2018/19	173

CONTROLLING OFFICER'S REPLY**EDB575****(Question Serial No. 3660)**

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (102) Non-means-tested loan scheme
(202) Non-means-tested loan scheme

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

Regarding the Non-means-tested Loan Schemes (NLS), would the Government advise this Committee on –

- (a) the numbers of courses under the NLS;
- (b) the respective numbers of loan applications, numbers of applicants who were approved loans and amount of loans disbursed in the past 5 years;
- (c) the respective amount of loans repaid and interest paid in the past 5 years;
- (d) the current number of borrowers defaulted on loan repayment and the amount in default, the highest debt age and the largest amount in default; and
- (e) the respective numbers of successful write-off cases and amount involved in the past 5 years.

Asked by: Hon CHAN Hak-kan (LegCo internal reference no.: 185)

Reply:

- (a) As at 31 January 2020, the respective numbers of courses under the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and Extended Non-means-tested Loan Scheme (ENLS) are as follows –

	Number of Courses
A. NLSFT	752
B. NLSPS	1 015
C. ENLS	2 520
Total	4 287

- (b) Information on loans provided to students under the NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years is as follows –

	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
A. NLSFT					
Number of applications	14 471	15 337	15 684	16 026	15 926
Number of applications approved	13 271	14 132	14 158	14 524	14 369
Total amount of loans disbursed (\$ million)	425.23	446.79	465.91	483.73	442.73
B. NLSPS					
Number of applications	20 752	20 996	17 125	15 624	15 208
Number of applications approved	20 216	20 520	15 369	14 539	13 671
Total amount of loans disbursed (\$ million)	792.14	827.93	701.90	681.54	520.25
C. ENLS					
Number of applications	6 883	6 908	7 079	6 652	5 030
Number of applications approved	6 883	6 908	7 079	6 652	4 773
Total amount of loans disbursed (\$ million)	347.38	366.39	388.98	385.95	245.94
Total					
Number of applications	42 106	43 241	39 888	38 302	36 164
Number of applications approved	40 370	41 560	36 606	35 715	32 813
Total amount of loans disbursed (\$ million)	1,564.75	1,641.11	1,556.79	1,551.22	1,208.92

* As at 31 January 2020

- (c) The total amount of loans repaid and interest paid by the loan repayment accounts under the NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years is as follows –

	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
	(\$ million)				
A. NLSFT					
Total amount of loans repaid	230.26	254.81	274.66	293.04	152.35

	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
	(\$ million)				
Total amount of interest paid	25.58	27.08	27.90	30.30	15.39
B. NLSPS					
Total amount of loans repaid	396.63	448.29	491.31	539.78	290.74
Total amount of interest paid	49.16	54.32	56.79	62.40	32.99
C. ENLS					
Total amount of loans repaid	387.60	394.99	390.23	370.92	181.67
Total amount of interest paid	44.76	44.66	42.68	40.12	18.88
Total					
Total amount of loans repaid	1,014.49	1,098.09	1,156.20	1,203.74	624.76
Total amount of interest paid	119.50	126.06	127.37	132.82	67.26

* As at 31 January 2020

(d) The numbers of default cases[^] and amount in default[@] under the NLSFT, NLSPS and ENLS as at 31 January 2020 are as follows –

A. NLSFT	
Number of default cases	989
Amount in default (\$ million)	13.12
B. NLSPS	
Number of default cases	2 399
Amount in default (\$ million)	43.44
C. ENLS	
Number of default cases	5 008
Amount in default (\$ million)	63.53
Total	
Number of default cases	8 396
Amount in default (\$ million)	120.09

[^] Cases with 2 or more consecutive overdue quarterly instalments/6 or more consecutive overdue monthly instalments are regarded as default cases. The numbers of default cases as at 31 January 2020 include cases where loan borrowers started repayment in the 2019/20 academic year and the previous academic years but are still in default as at that date.

[@] The amount in default is the total amount of arrears in the defaulted student loan accounts, including the arrears from the previous academic years and the 2019/20 academic year (as at 31 January 2020).

As at 31 January 2020, the debt ages of all default cases (excluding default cases against which legal recovery action had been initiated, loan borrowers had been declared bankrupt/applied for Individual Voluntary Arrangement, or deferment/write-off applications being processed by the Student Finance Office (SFO) under the Working Family and Student Financial Assistance Agency) were within one year. The largest amount in default was about \$212,000.

- (e) As student loans are funded by public money, SFO endeavours to make every effort to recover the outstanding loans from the defaulters and their indemnifiers, and will only consider writing off the loans when they are irrecoverable (for example, the decease of loan borrowers and the inability of their indemnifiers to repay the loans, or bankruptcy of both the loan borrowers and their indemnifiers). The numbers of write-off cases and amount involved under the NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
A. NLSFT					
Number of write-off cases [^]	5	2	1	0	0
Amount involved (\$ million)	0.17	0.19	0.03	0	0
B. NLSPS					
Number of write-off cases [^]	2	3	4	1	0
Amount involved (\$ million)	0.05	0.42	0.59	0.05	0
C. ENLS					
Number of write-off cases [^]	43	27	4	2	2
Amount involved (\$ million)	1.21	0.84	0.22	0.19	0.10
Total					
Number of write-off cases[^]	50	32	9	3	2
Amount involved (\$ million)	1.43	1.45	0.84	0.24	0.10

* As at 31 January 2020

[^] A write-off case may involve more than one loan repayment account of one or more financial assistance scheme(s) administered by SFO.

- End -

- 1.&2. The expenditure involved in recovering student loans, the number of default cases and average amount in default in the 2014/15 to 2018/19 academic years are as follows –

	Academic Year				
	2014/15	2015/16	2016/17	2017/18	2018/19
Expenditure involved in recovering student loans [§] (\$ million)	27.6	28.8	32.2	35.7	35.7

	Academic Year				
	2014/15	2015/16	2016/17	2017/18	2018/19
Number of default cases [#]					
(i) in which the Student Finance Office (SFO) of the WFSFAA had initiated recovery action against the defaulters and the indemnifiers concerned	2 491	2 713	2 489	2 599	2 875
(ii) in which legal recovery action had been initiated [^]	9 889	9 482	8 840	8 114	7 407
Total	12 380	12 195	11 329	10 713	10 282
Amount in default [~] (\$ million)	202.85	191.53	177.12	159.34	149.57
Average amount in default (\$)	16,385	15,706	15,634	14,874	14,547

§ Mainly for salaries provision for staff members (including civil servants and non-civil service contract (NCSC) staff of the SFO and the Department of Justice (DoJ)) involved in the work.

The numbers of default cases in the 2014/15 to 2018/19 academic years reflect the positions as at the end of the academic years concerned (i.e. 31 July 2015, 31 July 2016, 31 July 2017, 31 July 2018 and 31 July 2019) respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

[^] The figures include those cases referred to the DoJ and filed directly to the Small Claims Tribunal (SCT), cases in which loan borrowers had been declared bankrupt/applied for Individual Voluntary Arrangement (IVA) or deferment applications/whose write-off applications were being processed by the SFO.

[~] The amount in default is the total amount of arrears in the defaulted student loan accounts, including the arrears from the previous academic years and as at the end of the respective academic years.

We do not maintain information on the average debt age of default cases. Information on the number of default cases by debt age in the 2014/15 to 2018/19 academic years is set out as follows –

	Academic Year				
	2014/15	2015/16	2016/17	2017/18	2018/19
Number of default cases by debt age ⁺					
(i) Within 1 year	2 491	2 713	2 489	2 599	2 875
(ii) 1 year or above	0	0	0	0	0
Total	2 491	2 713	2 489	2 599	2 875

⁺ The figures exclude default cases in which legal recovery action had been initiated, i.e. those cases referred to the DoJ and filed directly to the SCT, cases in which loan borrowers had been declared bankrupt/applied for IVA or deferment application/whose write-off applications were being processed by the SFO.

In the 2020/21 academic year, the estimated expenditure involved in recovering defaulted student loans is \$40.1 million. It is mainly for salaries provision for staff members (including civil servants and NCSC staff of both the SFO and the DoJ) involved in the work.

3. In the 2015/16 to 2019/20 academic years, the respective numbers of loan repayment accounts, average annual amount of loan principal repaid, average annual amount of interest paid, average repayment period and total amount of outstanding loan principal under repayment under the TSFS, NLSFT, FASP, NLSPS and ENLS are set out as follows –

Academic year	Financial assistance scheme	Number of loan repayment accounts	Average annual amount of loan principal repaid (\$)	Average annual amount of interest paid (\$)	Average repayment period[#]	Total amount of outstanding loan principal under repayment (\$ million)
2015/16	TSFS	23 756	7,949.28	340.69	4.8	883.27
	NLSFT	23 771	8,610.64	1,076.06	7.9	1,010.96

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4311)

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (201) Means-tested loan for tertiary students pursuing publicly-funded programmes
(202) Non-means-tested loan scheme
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

- a. Please set out in table form the respective numbers of loan borrowers defaulted on loan repayment and the amounts in default under the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS), the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Financial Assistance Scheme for Post-secondary Students (FASP) and the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) in the past 5 years;
- b. Please set out the current measures taken by the Student Finance Office to recover the arrears and the measures taken against loan borrowers who have difficulties in repaying their loans;
- c. Please set out in table form the respective numbers of bankruptcy applications due to inability to repay loans under the TSFS, NLSFT, FASP and NLSPS in the past 5 years; and
- d. Please set out in table form the respective numbers of irrecoverable cases and the amounts involved under the TSFS, NLSFT, FASP and NLSPS in the past 5 years.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 277)

Reply:

- a. The numbers of default cases and the amount in default under the TSFS, FASP, NLSFT and NLSPS in the 2015/16 to 2019/20 academic years are as follows –

Financial Assistance Scheme	Academic Year*				
	2015/16	2016/17	2017/18	2018/19	2019/20
TSFS					
Number of default cases [^]	1 192	1 106	1 051	971	1 059
Amount in default (\$ million) [@]	26.48	23.98	21.16	19.14	18.89
FASP					
Number of default cases	1 397	1 318	1 267	1 175	1 297
Amount in default (\$ million)	16.98	15.70	14.21	13.09	13.30
NLSFT					
Number of default cases	1 077	991	965	976	989
Amount in default (\$ million)	17.27	15.60	13.70	12.93	13.12
NLSPS					
Number of default cases	2 470	2 355	2 287	2 281	2 399
Amount in default (\$ million)	51.79	48.30	44.36	42.30	43.44
Total					
Number of default cases	6 136	5 770	5 570	5 403	5 744
Amount in default (\$ million)	112.52	103.58	93.43	87.46	88.75

* The numbers of default cases and amounts in default in the 2015/16 to 2019/20 academic years reflect the positions as at the end of the academic years concerned (i.e. 31 July 2016, 31 July 2017, 31 July 2018 and 31 July 2019) and 31 January 2020 respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

[^] Cases with 2 or more consecutive overdue quarterly instalments/6 or more consecutive overdue monthly instalments are regarded as default cases.

[@] The amount in default is the total amount of arrears in the defaulted student loan accounts, including the arrears from the previous academic years and the academic years concerned.

- b. On recovery of defaulted student loans, the Student Finance Office (SFO) under the Working Family and Student Financial Assistance Agency will issue reminders to the loan borrowers concerned and their indemnifiers requesting them to settle the arrears by a specified date. The SFO will send SMS messages or make phone calls to the defaulted loan borrowers and their indemnifiers who fail to respond to the reminders. Apart from urging them to settle the arrears, the SFO will also ask them whether any assistance is needed. If no payment or response is received from the loan borrowers and their indemnifiers, the SFO will proceed to take loan recovery action against them by referring the cases to the Department of Justice or filing claims directly to the Small Claims Tribunal. For those defaulted loan borrowers who have genuine difficulties in repaying their loans, the SFO will provide them with assistance, such as allowing them to restructure their loans or defer loan repayment.

- c. The numbers of bankruptcy applications (the reasons for application may not necessarily be related to student loans) involving students receiving financial assistance under the TSFS, FASP, NLSFT and NLSPS in the 2015/16 to 2019/20 academic years are as follows –

Financial Assistance Scheme	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
TSFS	18	21	13	12	7
FASP	40	39	31	33	3
NLSFT	13	18	12	16	4
NLSPS	55	70	54	50	14
Total	126	148	110	111	28

* As at 31 January 2020

- d. As student loans are funded by public money, the SFO endeavours to make every effort to recover the outstanding loans from the defaulters and their indemnifiers and will only consider writing off the loans when they are irrecoverable (for example, due to the decease of loan borrowers and the inability of their indemnifiers to repay the loans or bankruptcy of both the loan borrowers and their indemnifiers). The numbers of write-off cases and the amounts involved under the TSFS, FASP, NLSFT and NLSPS in the 2015/16 to 2019/20 academic years are as follows –

Financial Assistance Scheme	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
TSFS					
Number of write-off cases [^]	4	3	4	2	0
Amount involved (\$ million)	0.25	0.12	0.17	0.09	0
FASP					
Number of write-off cases [^]	4	0	0	1	0
Amount involved (\$ million)	0.20	0	0	0.01	0
NLSFT					
Number of write-off cases [^]	5	2	1	0	0
Amount involved (\$ million)	0.17	0.19	0.03	0	0
NLSPS					
Number of write-off cases [^]	2	3	4	1	0
Amount involved (\$ million)	0.05	0.42	0.59	0.05	0
Total					
Number of write-off cases	15	8	9	4	0
Amount involved (\$ million)	0.67	0.73	0.79	0.15	0

* As at 31 January 2020

[^] A write-off case may involve more than 1 loan repayment account of 1 or more financial assistance scheme(s) administered by the SFO.

CONTROLLING OFFICER'S REPLY**EDB579****(Question Serial No. 4333)**

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student Financial Assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

1. Under the fee remission for children of needy families under the Kindergarten and Child Care Centre Fee Remission Scheme administered by the Working Family and Student Financial Assistance Agency:
 - a. the number of student beneficiaries
 - b. the expenditure involved
2. For the additional grant for children of needy families to defray school-related expenses incurred from the students' kindergarten education:
 - a. the number of student beneficiaries
 - b. the expenditure involved
3. How many students have benefitted from both the fee remission and the additional grant mentioned in parts 1 and 2 above?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 299)

Reply:

1. & 2. In the 2019/20 school year (as at 31 January 2020), the number of student beneficiaries and the total expenditure involved under the Kindergarten and Child Care Centre Fee Remission Scheme and the Grant for School-related Expenses for Kindergarten Students are as follows:

	Number of student beneficiaries	Total expenditure (\$ million)
Kindergarten and Child Care Centre Fee Remission Scheme	24 174 [^]	148.1
Grant for School-related Expenses for Kindergarten Students	36 875	117.8

[^] The number of student beneficiaries does not include the 13 289 students who passed the means test but needed not pay school fees under the kindergarten education scheme.

3. In the 2019/20 school year (as at 31 January 2020), the number of student beneficiaries under both the Kindergarten and Child Care Centre Fee Remission Scheme and the Grant for School-related Expenses for Kindergarten Students is 22 692.

(b) cases in which information could not be provided within 21 days from date of receipt of a request in the past 5 years:

Date	Subject of information requested	Specific reason

(c) cases in which information could not be provided within 51 days from date of receipt of a request in the past 5 years:

Date	Subject of information requested	Specific reason

5) Please state in table form the number of those, among the cases in which requests for information were refused under the exemption provisions in Part 2 of the Code on Access to Information, on which the Privacy Commissioner for Personal Data was consulted when they were being handled in the past 5 years. For cases on which advice had been sought, was it fully accepted in the end? For cases where the advice of the Privacy Commissioner for Personal Data was not accepted or was only partially accepted, what are the reasons?

Date	Subject	Particular exemption provision in Part 2 of the Code on Access to Information under which requests for information were refused	Whether the advice of the Privacy Commissioner for Personal Data was fully accepted	Reasons for refusing to accept or only partially accepting the advice of the Privacy Commissioner for Personal Data

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 361)

Reply:

1) & 2) Among the requests for information under the Code on Access to Information received by the Working Family and Student Financial Assistance Agency (WFSFAA) from October 2018 to September 2019, there were no requests for which only some of the required information was provided or the required information was not provided.

3) During the period between 2015 and September 2019, the WFSFAA did not receive any request for review.

4a) Among the requests for information received by the WFSFAA from 2016 to September 2019, the numbers of requests for which the information requested was provided within 10 days, within 11 to 21 days and within 22 to 51 days from the date of receipt of a written request were 132, 7 and 5 respectively.

4b) Among the requests for information received by the WFSFAA from 2016 to September 2019, the main reason for which the WFSFAA could not provide the information requested within 21 days from the date of receipt of a request was that more processing time was required due to the complexity of the information sought.

4c) During the period between 2016 and September 2019, there was not any case in which the WFSFAA could not provide the information requested within 51 days from the date of receipt of the request.

5) During the period between 2016 and September 2019, there was not any case in which the request for information was refused by the WFSFAA.

(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

The severe outbreak of novel coronavirus, i.e. Wuhan pneumonia, has impacted upon the local and global economy. Does the Government plan to waive some of the interest payable by student loan borrowers or offer them more relaxed repayment arrangements? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 246)

Reply:

To alleviate the repayment burden of student loan borrowers, the Government has implemented a number of improvement measures regarding the interest rate and repayment period of loan schemes for post-secondary students. These improvement measures include lowering the interest rate of the living expenses loan under means-tested financial assistance schemes from 2.5% to 1% per annum (interest free during the study period) and reducing the risk-adjusted-factor rate for determining the interest rate of non-means-tested loan schemes from 1.5% to 0%. The prevailing interest rate for non-means-tested loan schemes is 1.106% per annum which is comparable to the 1% annual interest rate of the living expenses loan under means-tested financial assistance schemes. As for the repayment arrangement, the standard loan repayment period for student loan borrowers has been

extended to 15 years, and repayment by quarterly instalments has been revised to monthly instalments. Student loan borrowers are also given the option of commencing the loan repayment one year after completion of studies. Loan borrowers who have difficulty in repaying their loans on grounds of financial hardship, serious illnesses or further full-time studies may apply for a maximum 2-year interest-free deferment of loan repayment, thus extending the repayment period to 17 years in total. These measures can alleviate the repayment burden of student loan borrowers.

Due to the impact of the COVID-19 outbreak on the economy and labour market, some student loan borrowers may encounter difficulty in repaying their loans. The Student Finance Office will handle the applications for deferment of loan repayment with flexibility and expedite the procedures to shorten the processing time.

Question:

What is the average amount of student loan debts owed by current university graduates to the Student Finance Office (SFO)? To help the “n-have nots” young people, will the Government consider buying back these debts from SFO?

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 860)

Reply:

The average amount of outstanding loan principal under repayment by financial assistance/loan scheme as at 31 January 2020 is as follows –

Scheme	Average amount of outstanding loan principal under repayment (\$)
(A) Tertiary Student Finance Scheme - Publicly-funded Programmes	45,452.07
(B) Financial Assistance Scheme for Post-secondary Students	40,630.12
(C) Non-means-tested Loan Scheme for Full-time Tertiary Students	57,143.76
(D) Non-means-tested Loan Scheme for Post-secondary Students	76,704.20
(E) Extended Non-means-tested Loan Scheme	38,714.15

The Government reviews the student financial assistance schemes from time to time to ensure that students are provided with appropriate support. To alleviate the repayment burden of student loan borrowers, the Government has implemented a number of improvement measures regarding the interest rate and repayment period of loan schemes for post-secondary students. These improvement measures include lowering the interest rate of the living expenses loan under means-tested financial assistance schemes from 2.5% to 1% per annum (interest free during the study period) and reducing the risk-adjusted-factor rate for determining the interest rate of non-means-tested loan schemes from 1.5% to 0%. (Question Serial No. 6129)

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (101) Means-tested loan for tertiary students pursuing publicly-funded programmes
(102) Non-means-tested loan scheme
(103) Means-tested loan for post-secondary students
(201) Means-tested loan for tertiary students pursuing publicly-funded programmes
(202) Non-means-tested loan scheme
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

The Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS), the Financial Assistance Scheme for Post-secondary Students (FASP) and the Non-means-tested Loan Schemes (NLS) under the Student Finance Office of the Working Family and Student Financial Assistance Agency provide assistance to students in pursuing further studies. Under the NLS, there are the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and the Extended Non-means-tested Loan Scheme (ENLS). In this connection, please advise this Committee of the following:

- (a) The actual and revised estimated numbers of applications for the NLS in the 2017/18 to 2019/2020 academic years are 39 888, 38 302 and 39 123 respectively. Of them, what are the respective numbers of applications for the NLSFT, NLSPS and ENLS? Please provide the numbers of applications by year in the past 10 years up to the 2019/20 academic year.
- (b) Please set out the changes in the annual interest rates of the above loan schemes by year in table form in the past 10 years up to the 2019/20 academic year.

- (c) Please set out the amount of loans disbursed, amount of repayments settled and demanded, and amount in default under the above loan schemes by year in table form in the past 10 years up to the 2019/20 academic year.
- (d) Please set out the numbers of applications approved and defaulters under the above loan schemes by year in table form in the past 10 years up to the 2019/20 academic year.
- (e) The reasons for not keeping record of the numbers of loan borrowers who had made early repayments in full under the above loan schemes.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 21)

Reply:

- (a)(i) The actual numbers of applications under the NLSFT, NLSPS and ENLS in the 2017/18 and 2018/19 academic years and the revised estimate in the 2019/20 academic year are as follows –

	Actual Number of Applications in the 2017/18 Academic Year	Actual Number of Applications in the 2018/19 Academic Year	Revised Estimate of Number of Applications in the 2019/20 Academic Year
NLSFT	15 684	16 026	16 493
NLSPS	17 125	15 624	15 930
ENLS	7 079	6 652	6 700
Total	39 888	38 302	39 123

- (ii) The numbers of applications under the NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Academic Year	Number of Applications			
	NLSFT	NLSPS	ENLS	Total
2015/16	14 471	20 752	6 883	42 106
2016/17	15 337	20 996	6 908	43 241
2017/18	15 684	17 125	7 079	39 888
2018/19	16 026	15 624	6 652	38 302
2019/20*	15 926	15 208	5 030	36 164

* As at 31 January 2020

- (b) Starting from 1 July 2012, the interest rate of the TSFS and FASP is 1% per annum. As for the NLSFT, NLSPS and ENLS, the interest rates per annum in the 2015/16 to 2019/20 academic years are as follows –

Effective Date	Interest Rate Per Annum
1 June 2015	1.282%
1 June 2017	1.132%
1 October 2018	1.216%
1 November 2018	1.257%
1 June 2019	1.231%
1 December 2019	1.106%

- (c)(i) The total amount of loans disbursed under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Academic Year	Total Amount of Loans Disbursed (\$ million)				
	TSFS	FASP	NLSFT	NLSPS	ENLS
2015/16	218.16	180.10	425.23	792.14	347.38
2016/17	210.82	180.49	446.79	827.93	366.39
2017/18	192.39	168.31	465.91	701.90	388.98
2018/19	170.30	144.32	483.73	681.54	385.95
2019/20*	124.08	96.26	442.73	520.25	245.94

* As at 31 January 2020

(ii) The total amount of repayments demanded and settled under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Academic Year	TSFS	FASP	NLSFT	NLSPS	ENLS	Total
	(\$ million)					
2015/16						
Total amount demanded	196.51	176.34	237.64	424.28	403.10	1,437.87
Total amount settled [#]	192.49	167.37	233.24	398.56	383.61	1,375.27
2016/17						
Total amount demanded	179.40	162.62	255.14	454.79	395.26	1,447.21
Total amount settled [#]	176.70	156.95	252.23	437.85	380.10	1,403.83
2017/18						
Total amount demanded	174.63	154.27	275.18	493.09	383.58	1,480.75
Total amount settled [#]	171.81	148.75	272.07	476.31	371.27	1,440.21
2018/19						
Total amount demanded	162.28	144.64	295.76	545.29	369.44	1,517.41
Total amount settled [#]	159.98	140.48	291.43	524.47	353.52	1,469.88
2019/20*						
Total amount demanded	82.64	74.83	157.29	301.41	190.03	806.20
Total amount settled [#]	77.54	67.64	144.11	263.37	160.15	712.81

The figures denote the total amount of repayments settled in respect of the demand notes issued in a particular academic year.

* As at 31 January 2020

(iii) The amount in default under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Academic Year	Amount in Default [^] (\$ million)					
	TSFS	FASP	NLSFT	NLSPS	ENLS	Total
2015/16	26.48	16.98	17.27	51.79	79.01	191.53
2016/17	23.98	15.70	15.60	48.30	73.54	177.12
2017/18	21.16	14.21	13.70	44.36	65.91	159.34
2018/19	19.14	13.09	12.93	42.30	62.11	149.57
2019/20*	18.89	13.30	13.12	43.44	63.53	152.28

[^] The amount in default is the total amount of arrears in the defaulted student loan accounts, including the arrears from the previous academic years and the academic years concerned.

* As at 31 January 2020

(d)(i) The numbers of students receiving loans under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Academic Year	Number of Students Receiving Loans				
	TSFS	FASP	NLSFT	NLSPS	ENLS
2015/16	6 623	5 081	10 974	13 307	6 327
2016/17	5 742	4 643	11 504	13 702	6 338
2017/18	5 060	4 218	11 917	12 863	6 430
2018/19	4 381	3 556	12 329	12 205	6 088
2019/20*	3 008	2 260	11 105	10 495	4 507

* As at 31 January 2020

(ii) The numbers of default cases under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Academic Year*	Number of Default Cases [^]					
	TSFS	FASP	NLSFT	NLSPS	ENLS	Total
2015/16	1 192	1 397	1 077	2 470	6 059	12 195
2016/17	1 106	1 318	991	2 355	5 559	11 329
2017/18	1 051	1 267	965	2 287	5 143	10 713
2018/19	971	1 175	976	2 281	4 879	10 282
2019/20	1 059	1 297	989	2 399	5 008	10 752

^ Cases with 2 or more consecutive overdue quarterly instalments / 6 or more consecutive overdue monthly instalments are regarded as default cases.

* The numbers of default cases in the 2015/16 to 2019/20 academic years reflect the positions as at the end of the academic years concerned (i.e. 31 July 2016, 31 July 2017, 31 July 2018, 31 July 2019) and 31 January 2020 respectively, including cases where loan borrowers started repayment in the previous academic years and the academic years concerned but are still in default as at those dates.

- (e) The standard repayment period of student loans is 15 years. Student loan borrowers may choose to commence loan repayment one year after graduation, and settle their loan repayment in any years within the standard repayment period. They may, according to their personal financial situation, subsequently make requests for restructuring the original total repayment period any time without limitation on the number of such requests to shorten or lengthen their loan repayment period. As the repayment periods of student loan borrowers vary and changes to the total repayment periods will be made from time to time, we have not kept record of information about loan borrowers who had made early repayments in full. Based on the loan repayment accounts which have been fully settled, the average repayment periods of these accounts under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Scheme	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
	(Average Repayment Period)(Year)				
TSFS	4.8	4.8	4.9	5.4	6.0
FASP	6.3	6.5	6.5	6.4	7.1
NLSFT	7.9	7.6	7.4	7.0	7.3
NLSPS	6.7	7.1	7.2	6.9	7.5
ENLS	8.4	8.4	8.7	8.6	8.5

* As at 31 January 2020

(Question Serial No. 3685)

Head: (173) Working Family And Student Financial Assistance Agency

Subhead (No. & title): (228) Student Financial Assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under “Matters Requiring Special Attention in 2020-21” in the Estimates that during 2020-21, the Working Family and Student Financial Assistance Agency will utilise the developed Integrated Student Financial Assistance System (ISFAST) to support the administration of all student financial assistance schemes as well as scholarships and merit award schemes, with a view to improving the operational efficiency and effectiveness of the Agency in the administration and delivery of these schemes. In this connection, will the Government advise this Committee on the following:

- (1) Regarding the project for Implementation of the ISFAST under sub-head A008ZO, what is the cumulative expenditure since 2010-11? Has the project been completed, and if not, what is the estimated expenditure for the coming year?
- (2) According to the paper the Government submitted to this Committee in 2010-11, the system will achieve net benefits of \$11.5 million per annum and is expected to achieve full cost recovery in Aug 2025. Has the Government calculated the amount of net benefits per annum up to this year and when will the full cost be recovered?
- (3) How many schemes administered by the Agency have fully utilised the system or will do so in the coming year; and how many applications are involved? If there are schemes which will not utilise the system in the coming year, when will they start to do so?

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 59)

Reply:

- (1) The Capital Works Reserve Fund is outside the scope of the Appropriation Bill or the estimates of the General Revenue Account. The cumulative expenditure of the project under sub-head A008ZO since 2010-11 is \$62.97 million. The ISFAST has commenced operation by phases since March 2016 and is expected to be completed in late March 2020.

- (2) After obtaining funding approval of \$65.37 million from the Finance Committee of the Legislative Council in April 2010, the Student Finance Office (SFO) completed the tendering procedures and awarded the contract of implementing ISFAST in late 2011. According to the contract signed between the contractor and SFO, ISFAST was expected to be launched by phases from 2013-14 to 2014-15. However, the contractor failed to deliver the programmes in accordance with the timetable stipulated in the contract, and the quality of work did not meet the requirements. After consulting the Office of the Government Chief Information Officer, the Department of Justice and the Government Logistics Department, SFO terminated the contract in May 2014 and claimed the contractor for compensation in accordance with the contract terms. Although there were adjustments on the implementation schedule for ISFAST, SFO immediately embarked on an alternative plan to set up an in-house development team to ensure that the project could be carried out as soon as possible. To this end, ISFAST was divided into different modules with major parts to be developed by SFO while others were outsourced so that the system development work could continue. The ISFAST has commenced operation by phases since March 2016 and is expected to be completed in late March 2020. Based on the latest estimate, ISFAST will bring annual savings on the cost of batch input of data from paper application forms to electronic format, maintenance costs of the legacy systems and staff costs. After deducting the annual expenditure of running and maintaining ISFAST, the net annual savings will be about \$11.5 million. The initial investment for the development of the system is expected to be recovered in about 10 years (i.e. 2030), which is comparable with the original estimate.
- (3) Except for the Continuing Education Fund (CEF), SFO currently utilises ISFAST in processing all other assistance schemes/scholarships and merit award schemes. In the 2019/20 academic year (as at 31 January 2020), some 270 000 applications have been processed by ISFAST. The CEF is expected to be processed by ISFAST starting from late March 2020. After all the assistance schemes administered by SFO are covered by ISFAST in the 2020/21 academic year, the estimated total number of applications being processed by the system will be about 290 000 per annum.

- End -

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (-) Not specified

Programme: (1) Student Assistance Scheme, (2) Working Family Allowance and Individual-based Work Incentive Transport Subsidy

Controlling Officer: Head, Working Family and Student Financial Assistance Agency (Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

- a. Please set out the quantity, value and stock of surgical masks produced by the Correctional Services Department (CSI masks) that the Working Family and Student Financial Assistance Agency (WFSFAA) obtained from the Government Logistics Department (GLD) each month in the past 3 years in the following table:

Month/Year	No. of CSI masks obtained	Value of CSI masks obtained	Stock of CSI masks

- b. Please set out the quantity, value, stock and consumption of surgical masks that the WFSFAA obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of surgical masks obtained from GLD (value)	No. of surgical masks procured (value)	Stock	Consumption

- c. Please set out the quantity, value, stock and consumption of N95 masks that the WFSFAA obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of N95 masks obtained from GLD (value)	No. of N95 masks procured (value)	Stock	Consumption

- d. Please set out the quantity, value, stock and consumption of gowns that the WFSFAA obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of gowns obtained from GLD (value)	No. of gowns procured (value)	Stock	Consumption

- e. Please set out the quantity, value, stock and consumption of protective coverall suits that the WFSFAA obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of protective coverall suits obtained from GLD (value)	No. of protective coverall suits procured (value)	Stock	Consumption

- f. Please set out the quantity, value, stock and consumption of face shields that the WFSFAA obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of face shields procured	Value of face shields procured	Stock of face shields	Consumption

- g. Please set out the quantity, value, stock and consumption of goggles that the WFSFAA obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of goggles procured	Value of goggles procured	Stock of goggles	Consumption

- h. Did the WFSFAA supply or sell surgical masks, N95 masks, face shields, goggles, gowns and protective coverall suits to other organisations in the past 3 years? If yes, please provide the relevant information, including the quantity, consumption and stock, in the following table:

Month/Year	Name of organisations	Manner of provision (e.g. sold or supplied for free)	Surgical masks	N95 masks	Face shields	Goggles	Gowns	Protective coverall suits

- i. If the WFSFAA is to supply or sell surgical masks, N95 masks, face shields, goggles, gowns and protective coverall suits to other organisations, what are the departments and the ranks of the officers responsible for making such decisions? Please provide the ranks of the officers involved in each decision, the date they made the decision and other relevant information.

Asked by: Hon MO Claudia (LegCo internal reference no.: 185)

Reply:

a. - g. With the rapid development of the epidemic, government departments' demand for personal protective equipment (PPE) (including masks) will change in response to the anti-epidemic measures taken. The Government Logistics Department (GLD) and other government departments are making every effort to procure the PPE through various channels and means and will review the stock of and demand for the PPE on an on-going basis.

The Working Family and Student Financial Assistance Agency (WFSFAA) has obtained the PPE (including the masks produced by the Correctional Services Department) from the GLD and has also made procurement in the market. As there is a surge in the global demand for the PPE, government departments are facing keen competition in their procurement. The WFSFAA considers it inappropriate at this stage to disclose further information about the stock levels, quantities procured and amounts paid, and consumption in respect of its PPE in the past few years and recent months lest this would undermine the bargaining power of the GLD and the WFSFAA in procuring the PPE.

h. & i. In the past 3 years, the WFSFAA did not supply or sell surgical masks, N95 masks, face shields, goggles, gowns or protective coverall suits to other organisations.

Regarding the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), please provide the number of cases with overdue repayments in the past 3 years, the amount of overdue repayments involved, and the number of cases with loans defaulted for over 6 months.

Regarding the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS), please provide the number of cases with overdue repayments in the past 3 years, the amount of overdue repayments involved, and the number of cases with loans defaulted for over 6 months.

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 58)

Reply:

The numbers of loan repayment accounts with overdue repayments and the amount of overdue repayments involved under the NLSFT and NLSPS in the 2017/18 to 2019/20 academic years are as follows –

Scheme	Academic Year		
	2017/18	2018/19	2019/20*
NLSFT			
Number of loan repayment accounts	13 492	15 364	13 900
Amount of overdue repayments (\$ million) #	46.34	51.75	29.59
NLSPS			
Number of loan repayment accounts	21 143	24 274	22 651
Amount of overdue repayments (\$ million) #	106.78	119.04	69.91

* As at 31 January 2020

Including the amount of overdue repayments which are still outstanding and those which have already been settled.

The numbers of cases with loans defaulted for over 6 months under the NLSFT and NLSPS in the 2017/18 to 2019/20 academic years are as follows –

Scheme	Academic Year*		
	2017/18	2018/19	2019/20
NLSFT	965	976	989
NLSPS	2 287	2 281	2 399
Total	3 252	3 257	3 388

* The numbers of default cases in the 2017/18 to 2019/20 academic years reflect the positions as at 31 July 2018, 31 July 2019 and 31 January 2020 respectively, including cases where loan borrowers started repayment in the previous academic years and the academic year concerned but are still in default as at those dates.

Item 508 Continuing Education Fund
(101) Means-tested loan for tertiary students pursuing publicly-funded programmes
(102) Non-means-tested loan scheme
(103) Means-tested loan for post-secondary students
(201) Means-tested loan for tertiary students pursuing publicly-funded programmes
(202) Non-means-tested loan scheme
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

1. Numbers of post-secondary students under various student financial assistance schemes

	University Grants Committee (UGC)-funded associate degree programmes (No. of students)	UGC-funded higher diploma programmes (No. of students)	UGC-funded undergraduate programmes (No. of students)	Self-financing associate degree programmes (No. of students)	Self-financing higher diploma programmes (No. of students)	Self-financing undergraduate programmes (No. of students)
Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS) (loan portion)				N/A	N/A	N/A

Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT)				N/A	N/A	N/A
Financial Assistance Scheme for Post-secondary Students (FASP) (loan portion)	N/A	N/A	N/A			
Non-means-tested Loan Scheme for Post-secondary Students (NLSPS)	N/A	N/A	N/A			

2. Total numbers of years taken by students to repay their student loans

	UGC-funded associate degree programmes (No. of students)	UGC-funded higher diploma programmes (No. of students)	UGC-funded undergraduate programmes (No. of students)	Self-financing associate degree programmes (No. of students)	Self-financing higher diploma programmes (No. of students)	Self-financing undergraduate programmes (No. of students)
Within 3 years						
4-6 years						
7-9 years						
10-12 years						
13-15 years						

3. Total amount of student loans (including interest) undertaken by students

	Students pursuing UGC-funded associate degree programmes (No. of students)	Students pursuing UGC-funded higher diploma programmes (No. of students)	Students pursuing UGC-funded undergraduate programmes (No. of students)	Students pursuing self-financing associate degree programmes (No. of students)	Students pursuing self-financing higher diploma programmes (No. of students)	Students pursuing self-financing undergraduate programmes (No. of students)
\$10,000 or below						
\$10,001-\$50,000						
\$50,001-\$100,000						
\$100,001-\$150,000						
\$150,001-\$200,000						
\$200,001-\$250,000						
\$250,001-\$300,000						
\$300,001-\$350,000						

\$350,001-\$400,000						
\$400,000 or above						

4. Numbers of persons gone bankrupt due to failure to repay student loans in the past 4 years

	2016/17	2017/18	2018/19	2019/20
Number of persons				

5. Numbers of young people receiving subsidy under the Continuing Education Fund in the past 4 years

	Aged 18-21 (No. of persons)	Aged 22-25 (No. of persons)	Aged 26-29 (No. of persons)	Aged 30-33 (No. of persons)	Aged 35 or above (No. of persons)
2014/15					
2015/16					
2016/17					
2017/18					

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 314)

Reply:

1. The TSFS and FASP provide means-tested grants and/or loans for eligible students pursuing full-time UGC-funded or publicly-funded programmes at tertiary level and full-time locally-accredited self-financing post-secondary programmes respectively. The NLSFT and NLSPS provide non-means-tested loans for students pursuing programmes covered by the TSFS and FASP.

The numbers of student loan borrowers by different study levels of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2019/20 academic year (as at 31 January 2020) are as follows –

Level of Study	TSFS	NLSFT
Degree	2 551	9 725
Sub-degree*	435	1 300
Total	2 986	11 025

Level of Study	FASP	NLSPS
Degree / Top-up degree	1 241	5 626
Sub-degree*	1 019	4 869
Total	2 260	10 495

* Including associate degree and higher diploma

2. As students complete their studies and commence repayment of loans at different times, we have not kept record of the loan repayment information of students based on their levels of study.
3. Student loan borrowers may continue to pursue other full-time studies upon graduation or choose to commence loan repayment one year after graduation. They may also settle their loan repayment within the standard repayment period, or choose to settle their loan repayment earlier on their own accord, or apply for deferment of loan repayment. As the amount of interest of each loan repayment account will vary subject to the duration of the repayment period chosen upon commencement of loan repayment, and the subsequent adjustment of interest rate, we are unable to provide the total loan amount (including interest) of students by their levels of study.
4. The numbers of bankruptcy applications (the reasons for application may not necessarily be related to student loans) involving students receiving financial assistance under the TSFS, FASP, NLSFT and NLSPS in the 2016/17 to 2019/20 academic years are as follows –

	Academic Year			
	2016/17	2017/18[^]	2018/19	2019/20[*]
Number of bankruptcy applications	148	110	111	28

[^] The figure for the 2017/18 academic year has been revised as notifications of bankruptcy applications were received from the bankrupts or the Official Receiver's Office after that academic year.

* As at 31 January 2020

5. The numbers of subsidy recipients under the Continuing Education Fund (CEF)[@] from 2016-17 to 2019-20 by age group are as follows –

Year	Age Group[#]			
	18-29	30-39	40-49	50-70
2016-17	11 229	4 161	2 244	1 472
2017-18	9 881	3 447	1 936	1 365
2018-19	8 788	3 523	1 841	1 594
2019-20[*]	8 184	4 352	2 268	1 861

[@] The Labour and Welfare Bureau oversees the operation of CEF.

[#] Since 1 April 2019, the upper age limit for CEF applicants has been relaxed from 65 to 70, i.e. Hong Kong residents aged between 18 and 70 are eligible to apply for subsidy under the CEF. Given the design of the computer system, the age groups set out in the table are slightly different from those suggested in the question.

* As at 31 January 2020

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

What were the respective numbers of ethnic minority (EM) students completing programmes offered by the University Grants Committee-funded institutions and the respective percentages of these students out of the total numbers of school-age EM students in the past 3 academic years?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 323)

Reply:

The University Grants Committee (UGC) does not collect statistics on ethnic minority or non-Chinese speaking (NCS) students who have completed UGC-funded programmes. For reference, the numbers of local NCS students (i.e. local students whose spoken language at home is not Chinese) admitted to UGC-funded undergraduate programmes in the 2017/18, 2018/19 and 2019/20 academic years are 296, 313 and 288 (figures for the 2019/20 academic year are provisional) respectively.

Question:

Please set out the changes in the number of contract teaching staff in each of the funded universities over the past 3 years with a breakdown by the following duration of contract: 3 to 6 months, 6 to 12 months and more than 1 year.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 327)

Reply:

As provided by the University Grants Committee (UGC)-funded universities, the numbers of contract staff in the universities and the corresponding changes from the 2017/18 to 2019/20 academic years are at Annex. The breakdown of numbers by duration of contract is not available.

Numbers of contract staff in the UGC-funded universities and corresponding changes from the 2017/18 to 2019/20 academic years

University	2017/18	2018/19	2019/20 (Provisional)
City University of Hong Kong	1 170	1 262 [+92]	1 309 [+47]
Hong Kong Baptist University	885	916 [+31]	937 [+21]
Lingnan University	399	406 [+7]	405 [-1]
The Chinese University of Hong Kong	2 536	2 539 [+3]	2 596 [+57]
The Education University of Hong Kong	752	776 [+24]	797 [+21]
The Hong Kong Polytechnic University	1 430	1 417 [-13]	1 431 [+14]
The Hong Kong University of Science and Technology	1 249	1 288 [+39]	1 394 [+106]
The University of Hong Kong	3 099	3 239 [+140]	3 504 [+265]

Notes:

1. Figures in square brackets represent the changes in staff numbers as compared to the preceding academic year.
2. Figures of the City University of Hong Kong, Hong Kong Baptist University and the Education University of Hong Kong exclude research, honorary academic and part-time staff. Figures of the Hong Kong University of Science and Technology exclude honorary academic and part-time staff. Figures of the Hong Kong Polytechnic University only include the number of staff with salaries wholly funded by general funds, and exclude academic staff on honorary or adjunct appointment, and temporary or part-time staff.

Director of Bureau: Secretary for Education

Question:

It is learnt that the number of non-local students pursuing University Grants Committee (UGC)-funded taught programmes in the 2018/19 academic year was 11 703, representing about 13% of total student enrolment:

1. What are the respective percentages of Mainland and non-Mainland students?
2. Further to the above question, how many of the Mainland and overseas students subsidised by the Government have pursued further studies or worked in Hong Kong after completing the programmes and what are their respective percentages?

Asked by: Hon CHAN Tanya (LegCo internal reference no. 330)

Reply:

1. According to the information provided by the University Grants Committee (UGC)-funded universities, the numbers of students of UGC-funded programmes (including sub-degree programmes, undergraduate programmes and taught postgraduate programmes) and their percentage shares by place of origin in 2018/19 academic year are set out at **Annex A**.
2. According to the information provided by the Immigration Department, non-local graduates who have obtained an undergraduate or higher qualification in a full-time and locally-accredited local programme in Hong Kong may apply to stay/return and work in Hong Kong under the "Immigration Arrangements for Non-local Graduates" (IANG). The numbers of applications approved by the Immigration Department under the IANG as well as the percentage shares of Mainland students and other non-local students in the past 3 financial years (as at February 2020) are set out at **Annex B**.

**Numbers of Students of UGC-funded Taught Programmes
and Their Percentage Shares
by Place of Origin in 2018/19 Academic Year**

Place of Origin		Number of Students	Percentage
Local students		81 252	87.4%
Non-local students	Mainland students	7 023	7.6%
	Other non-local students	4 680	5.0%
	Sub-total	11 703	12.6%
Total		92 955	100.0%

Note: Place of origin refers to the nationality or the place of residence of a non-local student.

**Numbers of Applications Approved by the Immigration Department under
“Immigration Arrangements for Non-local Graduates” (IANG)
in the Past 3 Financial Years (as at February 2020)**

	Financial Year		
	2017-18	2018-19	2019-20 (as at February 2020)
Mainland students	8 385 (90.3%)	9 383 (90.9%)	9 100 (90.6%)
Other non-local students	898 (9.7%)	935 (9.1%)	946 (9.4%)
Total	9 283 (100%)	10 318 (100%)	10 046 (100%)

Question:

The Government launched the Tuition Waiver for Local Research Postgraduate (RPg) Students in the 2018/19 academic year to provide tuition waiver for all local students enrolled in UGC-funded RPg programmes. All eligible local students enrolled in UGC-funded RPg programmes will be provided with tuition waiver.

- a. What are the respective numbers of students enrolled in (i) MPhil study, (ii) PhD study (for students who have a research master's degree) – 3 years, and (iii) PhD study (for students who do not have a research master's degree) – 4 years programmes in the past 5 years?
- b. What are the respective numbers of students who enrolled in (i) MPhil study, (ii) PhD study (for students who have a research master's degree) – 3 years, and (iii) PhD study (for students who do not have a research master's degree) – 4 years programmes were provided with tuition waiver in the 2018-19 and 2019-20 academic years?
- c. Further to the above question, what are the annual expenditures involved?

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 335)

Reply:

- a. The numbers of students enrolled in University Grants Committee (UGC)-funded research postgraduate (RPg) programmes in the 2015/16 to 2019/20 academic years are set out at **Annex A**.
- b. The numbers of local students benefitted from the scheme of the Tuition Waiver for Local Research Postgraduate Students (the Scheme) in the 2018/19 and 2019/20 academic years are set out at **Annex B**.

- c. The expenditure of the Scheme in the 2018/19 academic year was around HK\$74 million. The expenditure of the Scheme in the 2019/20 academic year up to November 2019 was around HK\$64 million.

**Numbers of students enrolled in UGC-funded RPg programmes
in the 2015/16 to 2019/20 academic years¹****(Headcount)**

Academic year	RPg programme		
	MPhil study	PhD study ²	Total
2015/16	1 228	6 141	7 370
2016/17	1 286	6 281	7 567
2017/18	1 249	6 354	7 603
2018/19	1 225	6 686	7 911
2019/20 (provisional)	1 118	7 259	8 378

Notes:

1. Figures of UGC-funded RPg students refer to students funded by UGC within their normal study periods. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different funding sources on a pro-rata basis. Therefore, figures may not add up to the corresponding totals.
2. Based on the information provided by UGC-funded universities, we are not able to provide the numbers of students enrolled in PhD study broken down by whether they have completed a research master's degree.

**Numbers of local students benefitted from the
Tuition Waiver for Local Research Postgraduate Students Scheme
in the 2018/19 and 2019/20 academic years**

(Headcount)

Academic year	RPg programme			Total
	MPhil study	PhD study (for students with a research master's degree) – 3 years	PhD study (for students without a research master's degree) – 4 years	
2018/19 ¹	882	403	771	2 056
2019/20 ²	578	295	720	1 593

Notes:

1. The Scheme was launched on 1 July 2018. As academic calendars of universities vary, the numbers of beneficiaries include local RPg students in the 2017/18 academic year at some of the universities as at July and August 2018, as well as all local RPg students from the 8 universities in the 2018/19 academic year.
2. As at November 2019.

CONTROLLING OFFICER'S REPLY

EDB600

(Question Serial No. 4371)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the student numbers of the University Grants Committee (UGC)-funded programmes, the UGC estimates that the student numbers of undergraduate and research postgraduate programmes will decrease by 12 306 and 2 740 respectively. Please advise on the reason(s) for the significant decrease.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 337)

Reply:

The University Grants Committee (UGC) usually conducts the planning exercise and recurrent grants assessment with the 8 funded universities on a triennial basis. The approved numbers of intake places of UGC-funded first-year-first degree undergraduate (Ug) programmes and the approved student number targets of research postgraduate (RPg) programmes are maintained at 15 000 and 5 595 per academic year respectively in the 2019/20 to 2021/22 triennium, which are identical to those in the 2016/17 to 2018/19 triennium. The number of UGC-funded senior year undergraduate intake places has also progressively increased to 5 000 from 2015/16 academic year to 2018/19 academic year, which is maintained at the same level in the 2019/20 to 2021/22 triennium.

As for the actual number of students, under the existing arrangement, the universities may admit students on top of the approved student number targets by over-enrollment (including the non-local students admitted to the taught programmes on top of the approved student number targets).

The approved student number targets and actual student numbers of the UGC-funded Ug and RPg programmes from the 2018/19 to 2020/21 academic years are set out in the table below. We do not have any projections on the actual number of students for the 2020/21 academic year and beyond.

Student numbers (Full-time equivalent)

Level of study	Category	2018/19 academic year	2019/20 academic year	2020/21 academic year (Estimate)
Ug programmes	Approved student number target	73 554	73 840	73 879
	Actual student number	85 368	86 185	- Note 2
RPg programmes Note 1	Approved student number target	5 595	5 595	5 595
	Actual student number	7 883	8 335	- Note 2

Note:

1. UGC-funded RPg students refer to students funded by the UGC within their normative study periods.
2. We do not have projections on the actual number of students for the 2020/21 academic year. The figures of the 2020/21 academic year under Head 190 – University Grants Committee in the 2020-21 Budget refer to the approved student number targets, while the figures of the 2018/19 and 2019/20 academic years are the actual student enrolment.
3. The figures above include non-local students.

(Question Serial No. 4451)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the work in relation to the Code on Access to Information, will the Government advise this Committee on the following:

- 1) Concerning the requests for information under the Code on Access to Information received by the University Grants Committee from October 2018 to present for which only some of the required information has been provided, please state in table form: (i) the content of the requests for which only some of the required information has been provided; (ii) the reasons for providing some of the information only; (iii) whether the decision on withholding some of the information was made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application); (iv) whether the decision on withholding some of the information was made subject to a "harm or prejudice test", i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the Guidelines on Interpretation and Application)? If yes, please provide the details of how the requests have been handled eventually.

From October to December 2018

(i) Content of the requests for which only some of the required information was provided	(ii) Reasons for providing some of the information only	(iii) Whether the decision on withholding some of the information was made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application)	(iv) Whether the decision on withholding some of the information was made subject to a “harm or prejudice test”, i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the Guidelines on Interpretation and Application). If yes, please provide the details.

2019

(i) Content of the requests for which only some of the required information was provided	(ii) Reasons for providing some of the information only	(iii) Whether the decision on withholding some of the information was made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application)	(iv) Whether the decision on withholding some of the information was made subject to a “harm or prejudice test”, i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the Guidelines on Interpretation and Application). If yes, please provide the details.

- 2) Concerning the requests for information under the Code on Access to Information received by the University Grants Committee from October 2018 to present for which the required information has not been provided, please state in table form: (i) the content of the requests refused; (ii) the reasons for refusal; (iii) whether the decision on withholding the information was made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application); (iv) whether the decision on withholding the information was made subject to a “harm or prejudice test”, i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the

Guidelines on Interpretation and Application)? If yes, please provide the details of how the requests have been handled eventually.

From October to December 2018

(i) Content of the requests refused	(ii) Reasons for refusal	(iii) Whether the decision on withholding the information was made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application)	(iv) Whether the decision on withholding the information was made subject to a “harm or prejudice test”, i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the Guidelines on Interpretation and Application). If yes, please provide the details.

2019

(i) Content of the requests refused	(ii) Reasons for refusal	(iii) Whether the decision on withholding the information was made at the directorate (D1 or D2) level (according to paragraph 1.8.2 of the Guidelines on Interpretation and Application)	(iv) Whether the decision on withholding the information was made subject to a “harm or prejudice test”, i.e. whether the public interest in disclosure of such information outweighs any harm or prejudice that could result from disclosure (according to paragraph 2.1.1 of the Guidelines on Interpretation and Application). If yes, please provide the details.

- 3) Any person who believes that a department has failed to comply with any provision of the Code on Access to Information may ask the department to review the situation. Please advise this Committee in each of the past 5 years, (i) the number of review cases received; (ii) the number of cases, among the review cases received in the year, in which further information was disclosed after review; (iii) whether the decisions on review were made at the directorate (D1 or D2) level.

Year in which review cases were received	(i) Number of review cases received	(ii) Number of cases, among the review cases received in the year, in which further information was disclosed after review	(iii) Whether the decisions on review were made at the directorate (D1 or D2) level
2015			
2016			
2017			
2018			
2019			

- 4) With reference to the target response times set out in paragraphs 1.16.1 to 1.19.1 of Guidelines on Interpretation and Application of the Code on Access to Information, please advise this Committee on the following information by year in table form (with text descriptions).

- (a) Within 10 days from date of receipt of a written request:

	Number of requests for which the information requested was provided	Number of requests involving third party information for which the information requested could not be provided	Number of requests for which the information requested could not be provided since the requests had to be transferred to another department which held the information under request	Number of requests for information which were refused under the exemption provisions in Part 2 of the Code on Access to Information	Number of applications which the applicants indicated that they did not wish to proceed with and withdrew since they did not accept the charge
2020					
2019					
2018					
2017					
2016					

Within 10 to 21 days from date of receipt of a written request:

	Number of requests for which the information requested was provided	Number of requests involving third party information for which the information requested could not be provided	Number of requests for which the information requested could not be provided since the requests had to be transferred to another department which held the information under request	Number of requests for information which were refused under the exemption provisions in Part 2 of the Code on Access to Information	Number of applications which the applicants indicated that they did not wish to proceed with and withdrew since they did not accept the charge
2020					
2019					
2018					
2017					
2016					

Within 21 to 51 days from date of receipt of a written request:

	Number of requests for which the information requested was provided	Number of requests involving third party information for which the information requested could not be provided	Number of requests for which the information requested could not be provided since the requests had to be transferred to another department which held the information under request	Number of requests for information which were refused under the exemption provisions in Part 2 of the Code on Access to Information	Number of applications which the applicants indicated that they did not wish to proceed with and withdrew since they did not accept the charge
2020					
2019					
2018					
2017					
2016					

(b) cases in which information could not be provided within 21 days from date of receipt of a request in the past 5 years:

Date	Subject of information requested	Specific reason

(c) cases in which information could not be provided within 51 days from date of receipt of a request in the past 5 years:

Date	Subject of information requested	Specific reason

5) Please state in table form the number of those, among the cases in which requests for information were refused under the exemption provisions in Part 2 of the Code on Access to Information, on which the Privacy Commissioner for Personal Data was consulted when they were being handled in the past 5 years. For cases on which advice had been sought, was it fully accepted in the end? For cases where the advice of the Privacy Commissioner for Personal Data was not accepted or was only partially accepted, what are the reasons?

Date	Subject	Particular exemption provision in Part 2 of the Code on Access to Information under which requests for information were refused	Whether the advice of the Privacy Commissioner for Personal Data was fully accepted	Reasons for refusing to accept or only partially accepting the advice of the Privacy Commissioner for Personal Data

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 356)

Reply:

- 1) Of the requests for information under the Code on Access to Information (the Code) received by the University Grants Committee (UGC) during the period from October 2018 to September 2019, there were no cases in which only some of the required information was provided by the UGC while some of the information was withheld.
- 2) During the period from October 2018 to September 2019, the UGC refused a total of 2 requests for information under the Code. The refusal to provide information related to hostel development was based on the reason of “premature requests” as stated in paragraph 2.17 of the Code. The decisions were made at the directorate (D2) level, subject to a “harm or prejudice test”, i.e. the harm or prejudice that could result from

disclosure of the information outweighed the public interest arising from disclosure of such information for the case.

- 3) The UGC received a total of 3 review cases under the Code during the period from 2015 to 2019. No further information was disclosed after review. The decisions were made at the directorate (D2) level.
- 4) (a) During the period from 2016 to September 2019, the number of requests in which the information requested was provided by the UGC within 10 days from the date of receipt of a written request for information was 19, while those provided within 10 to 21 days and within 21 to 51 days were 4 and 5 respectively. Of these cases, the number of requests involving third party information for which the information requested could not be provided was 6, and the number of requests for information which were refused under the exemption provisions in Part 2 of the Code was 3.

(b) During the period from 2016 to September 2019, the main reason for not being able to provide the information requested within 21 days from the date of receipt of a request was that the information requested was complicated and it took time for consolidation.

(c) During the period from 2016 to September 2019, there was 1 application for which the information requested was not provided by the UGC within 51 days from the date of receipt of the request. This was because the requested information involved a third party, and hence prior legal advice had to be sought.
- 5) During the period from 2016 to September 2019, we did not consult the Privacy Commissioner for Personal Data on the applications refused.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4848)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

The Research Grants Council under the University Grants Committee (UGC) has implemented the Tuition Waiver Scheme for Local Research Postgraduate Students since the 2018/19 academic year to provide tuition waiver for all local students enrolled in UGC-funded research postgraduate programmes. To enable a better understanding of the situation before and after the implementation of the policy, will the Government provide the following statistics: (A) the number of local postgraduate students admitted to UGC-funded research postgraduate programmes (Master of Philosophy and Doctor of Philosophy programmes) from 2010/11 to 2019/20; (B) the distribution of subjects (e.g. biology, chemistry, physics, history, anthropology, philosophy, sociology, political science, economics, etc.) taken by local students enrolled in UGC-funded research postgraduate programmes (Master of Philosophy and Doctor of Philosophy programmes) from 2010/11 to 2019/20; and (C) the pursuit of local postgraduate students who have obtained a Master of Philosophy degree in UGC-funded research postgraduate programmes from 2010/11 to 2019/20, with related statistics in the following aspects: (1) employment; (2) further studies in Hong Kong (enrolling in Doctor of Philosophy programmes); and (3) overseas studies (enrolling in Doctor of Philosophy programmes).

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 413)

Reply:

According to the information provided by the University Grants Committee (UGC)-funded universities, the intakes of local students of the UGC-funded RPg programmes in the past 5 academic years from 2015/16 to 2019/20 are at **Annex A**. The numbers of local students of the UGC-funded RPg programmes by broad academic programme category for the corresponding period are at **Annex B**.

The employment situation of local graduates of the UGC-funded full-time RPg programmes (MPhil) in the 2015/16 to 2017/18 academic years is at **Annex C**. Relevant information for the 2018/19 and 2019/20 academic years is not yet available.

**Intakes of local students of the UGC-funded RPg programmes
in the 2015/16 to 2019/20 academic years**

(Headcount)

Academic year	RPg programmes		
	MPhil programmes	PhD programmes	Total
2015/16	302	249	551
2016/17	329	269	598
2017/18	329	231	560
2018/19	309	253	562
2019/20 (Provisional figures)	283	269	552

Note:

1. Intakes of local students refer to the numbers of RPg students fully or partially funded by the UGC (including students financed by external funds).

**Numbers of local students of the UGC-funded RPg programmes
by broad academic programme category in the 2015/16 to 2019/20 academic years**

(Headcount)

	Total	593	961	1 553

Academic year	Broad academic programme category	RPg programmes		
		MPhil programmes	PhD programmes	Total
2019/20 (Provisional figures)	Medicine, Dentistry and Health	93	207	300
	Sciences	181	300	482
	Engineering and Technology	88	172	260
	Business and Management	14	29	42
	Social Sciences	57	102	159
	Arts and Humanities	97	121	218
	Education	8	44	52
	Total	539	975	1 514

Notes:

1. The numbers of UGC-funded RPg students refer to students funded by the UGC within their normal study periods. If RPg students are financed by universities using both UGC and external funds, such students will be counted towards different sources on a pro-rata basis.
2. Contents of some UGC-funded programmes involve more than one academic programme category, and the numbers of students of these programmes are counted on a pro-rata basis under the academic programme categories concerned. As such, the numbers of students of some academic programme categories are decimal figures, which are rounded to whole numbers in the table above. Therefore, the figures may not add up to the corresponding totals.

**Employment situation of local graduates of UGC-funded full-time RPg programmes
(MPhil) in the 2015/16 to 2017/18 academic years**

	2015/16 academic year		2016/17 academic year		2017/18 academic year	
	No. of graduates	Percentage	No. of graduates	Percentage	No. of graduates	Percentage
No. of graduates of full-time programmes	241	N.A.	237	N.A.	266	N.A.
No. of graduates responded to the survey ^(Note 1)	205		213		240	
Response rate	85.1%		89.9%		90.2%	
Employment situation of graduates responded to the survey						
Full-time employed	118	57.6%	116	54.5%	149	62.1%
Further studies	69	33.7%	69	32.4%	66	27.5%
Unemployed	6	2.9%	9	4.2%	5	2.1%
Underemployed ^(Note 2)	11	5.4%	16	7.5%	11	4.6%
Others ^(Note 3)	1	0.5%	3	1.4%	9	3.8%

Notes:

1. Employment information on graduates of UGC-funded full-time programmes of a particular year was gathered by UGC-funded universities in the surveys on employment situation of graduates conducted in December of the year.
2. Underemployed graduates refer to those who were available for work at any time or had sought work, but involuntarily worked less than 35 hours every week, and those who had part-time or temporary jobs.
3. "Others" refers to (i) graduates who had not sought work, and (ii) local graduates who had emigrated.
4. The percentages may not add up to 100 due to rounding.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 5698)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please list the numbers of places and amounts of funding for full-time and part-time, publicly-funded and self-financing degree and sub-degree social work programmes in various post-secondary colleges in the past 5 and coming academic years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 525)

Reply:

The approved numbers of undergraduate places of University Grants Committee (UGC)-funded social work programmes for the 2015/16 to 2020/21 academic years are at **Annex A**. The UGC-funded universities do not have any UGC-funded social work sub-degree programmes in the corresponding period.

Under the existing mechanism, the recurrent grants provided by the UGC to its 8 funded universities are in the form of a block grant. Universities enjoy autonomy in the use of the block grant for provision of programmes of various disciplines at different levels. Based on the actual costs reported by universities, the UGC derives the average student unit costs of UGC-funded programmes by level of study, academic programme category and teaching/research cost. In addition to the funding from the UGC, universities also have other sources of income, such as donations and other research funding. Therefore, the actual costs reported by universities are not solely covered by UGC funding, and the UGC is unable to estimate the actual subvention or expenditure on specific programmes. According to the information provided by the universities, the curriculum contents of the undergraduate social work programmes are related to the academic programme category of Social Sciences. The average student unit costs per annum of the undergraduate programmes under the academic programme category of Social Sciences for the 2015/16 to 2018/19 academic years were \$197,000, \$205,000, \$209,000 and \$223,000 (provisional) respectively. The above figures have taken into account the actual costs of other undergraduate programmes related to Social Sciences. The costs of programmes concerned also vary among universities. The relevant figures for the 2019/20 to 2020/21 academic years are not yet available.

The estimated intakes of full-time locally-accredited self-financing undergraduate and sub-degree social work programmes for the 2015/16 to 2020/21 academic years are set out at **Annex B**.

**Approved Number of Undergraduate Places of UGC-funded
Social Work Programmes by University for the 2015/16 to 2020/21 Academic Years**

(Full-time equivalent)

University	Level of Study	Number of Approved Intake Places

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding students with special educational needs (SEN), please inform this Committee of:

- (1) the numbers of which enrolled in tertiary programmes (sub-degree or diploma) and degree programmes, and their respective percentages out of the total numbers of SEN students and tertiary students for the past 5 financial years;
- (2) the numbers of which graduated from tertiary programmes (sub-degree or diploma) and degree programmes, and their respective percentages out of the total numbers of SEN students and tertiary graduates for the past 5 financial years; and
- (3) the numbers of which pursuing tertiary programmes outside Hong Kong for the past 5 financial years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 526)

Reply:

1. The numbers of students with special educational needs (SEN) enrolled in University Grants Committee (UGC)-funded full-time sub-degree and undergraduate programmes, as well as their respective percentages in the total number of students with SEN enrolled in UGC-funded programmes and the total number of students of the corresponding level of study in the 2015/16 to 2019/20 academic years are at **Annex A**.
2. The numbers of students with SEN enrolled in the final year of UGC-funded full-time sub-degree and undergraduate programmes, as well as their respective percentages in the total number of students with SEN enrolled in UGC-funded programmes and the total number of students of the corresponding level of study enrolled in the final year of these programmes in the 2015/16 to 2019/20 academic years are at **Annex B**. We do not have statistics of students with SEN graduated from the UGC-funded programmes.
3. We do not have statistics of students with SEN pursuing tertiary education outside Hong Kong.

**Number of Students with SEN Enrolled in UGC-funded
Full-time Sub-degree and Undergraduate Programmes
from the 2015/16 to 2019/20 Academic Years**

Total		29	100	121	250

The HKPFS aims at attracting the best and brightest students in the world to pursue their research-based PhD programmes in Hong Kong's UGC-funded universities. Selection of awardees is on a merit basis and age of applicants is not a consideration. As such, we do not have any information on the age upon admission of the HKPFS awardees.

CONTROLLING OFFICER'S REPLY**EDB606****(Question Serial No. 5701)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not specifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Prof James TANG)Director of Bureau: Secretary for EducationQuestion:

Please provide information of the amount of “knowledge transfer” funding allocated to each institution by the University Grants Committee, the funding criteria adopted and the kinds of activities held by each institution in the past year.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 528)Reply:

In the 2019-20 triennium, a sum of \$68.5 million per year is available for allocation to the University Grants Committee (UGC)-funded universities to further strengthen and broaden their knowledge transfer (KT) endeavours. The funding allocation to each university follows a metrics-based formula which covers (i) the teaching element of the UGC block grant in the funding year, and (ii) the sum of the research element of the UGC block grant in the funding year and the total funding received from the Research Grants Council in the preceding funding year, with the latter carrying a weight of four. The allocation to the UGC-funded universities for the 2019/20 academic year is set out below –

University	KT Funding (\$million)
City University of Hong Kong	9.04
Hong Kong Baptist University	4.22
Lingnan University	1.35
The Chinese University of Hong Kong	14.90
The Education University of Hong Kong	2.83
The Hong Kong Polytechnic University	10.82
The Hong Kong University of Science and Technology	9.08
The University of Hong Kong	16.25
Total	68.50

Note: Figures may not add up to the total due to rounding.

Universities adopt various suitable approaches for conducting activities in KT in light of their role, mission and areas of strengths. These include engaging in consultancy services, researches, spin out companies and licensing, etc., as well as assisting enterprises in continuing professional training and development. As for activities in KT oriented towards members of the public and relevant professions (particularly in the arts, humanities and social sciences), universities may disseminate knowledge through the setting up of websites, organisation of seminars, workshops, conferences, exhibitions and other public events.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3415)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. Please provide the numbers of applicants, student intakes and the respective percentages (%) of student intakes in the numbers of applications of funded taught postgraduate programmes (funded Master of Philosophy and Doctor of Philosophy programmes) in the past 5 years (2015/16 to 2019/20), with a breakdown by year, the eight funded universities and applicants' place of origin (local, Mainland and other non-local).
2. Please provide the number of local students receiving "non-means-tested studentships for local students enrolled in University Grants Committee (UGC)-funded research postgraduate (RPg) programmes" in the 2019/20 academic year.
3. Please provide information about the criteria for determining the amount and the requirement of postgraduate studentships of the eight funded universities in the 2015/16 to 2019/20 academic years.
4. Please provide the number of UGC-funded RPg students deferring their graduation in each of the past 5 years (2015/16 to 2019/20).
5. Please provide information about the employment situation of UGC-funded RPg non-local graduates (Mainland, other non-local; having full-time employment and ordinarily working in Hong Kong) in the past 5 years (2015/16 to 2019/20).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 166)

Reply:

1. According to information provided by UGC-funded universities, the numbers of applications and student intakes of UGC-funded research postgraduate (RPg) programmes (Master of Philosophy and Doctor of Philosophy programmes) by university and place of origin from the 2015/16 to 2019/20 academic years are set out at **Annex A**.

2. As at November 2019, 1 593 students have benefited from the Tuition Waiver Scheme for Local Research Postgraduate Students in the 2019/20 academic year.
3. Since the amount, criteria for determining such amount and the eligibility criteria for the RPg studentships are under the autonomy of the universities, we do not have the relevant information.
4. According to information provided by UGC-funded universities, the numbers of students graduated from UGC-funded RPg programmes beyond the normal duration of study from the 2014/15 to 2018/19 academic years are set out at **Annex B**. Figures for the 2019/20 academic year are not yet available.
5. According to information provided by UGC-funded universities, the employment situation of non-local graduates of UGC-funded full-time RPg programmes from the 2013/14 to 2017/18 academic years is set out at **Annex C**. Figures for the 2018/19 and 2019/20 academic years are not yet available.

**Numbers of Applications, Student Intakes and Percentages of UGC-funded RPg Programmes by University and Place of Origin
from the 2015/16 to 2019/20 Academic Years**

Note:

1. The number of applications of RPg programmes refer to the number one year prior to the corresponding academic year, including all applications irrespective of students' funding sources after admission.
2. Each applicant can concurrently submit multiple applications to different universities, and hence the number of applicants is actually smaller than the number of applications. Nonetheless, the UGC-funded universities have not maintained information on the number of applicants. Based on empirical data, UGC-funded universities assessed that, on average, each local applicant would submit 2 applications for admission. The number of applications submitted by non-local applicants considerably varies, and hence UGC-funded universities are not able to estimate the number of non-local applicants on the basis of the number of non-local applications received.
3. The place of origin of non-local students is determined having regard to their nationality or place of residence.
4. Student intakes refer to the numbers of RPg students fully or partially funded by the UGC (including students financed by external funding).

Abbreviations:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

**Number of Students Graduated from UGC-funded RPg Programmes
Beyond Normal Duration of Study from the 2014/15 to 2018/19 Academic Years****(Headcount)**

	Academic Year				
	2014/15	2015/16	2016/17	2017/18	2018/19 (Provisional Figures)
Number of Students Graduated Beyond Normal Duration of Study	852	894	1 205	1 023	1 047

Note:

1. The number of graduates of RPg programmes in the table covers all graduates as reported by universities, irrespective of whether they were funded by the UGC or external funding to pursue the programmes. Hence, graduates of (i) RPg programmes fully financed by external funding and (ii) part-time RPg programmes are covered in the table.
2. The normal duration of study for Master of Philosophy programmes is 2 years, while that for Doctor of Philosophy programmes is 3 years (for students who have a research master's degree) or 4 years (for students who do not have a research master's degree).
3. Figures of the 2019/20 academic year are not yet available from the UGC.

**Employment Situation of Non-Local Graduates of UGC-funded Full-time RPg Programmes
from the 2013/14 to 2017/18 Academic Years**

Others ^(Note 4)	212	22.1%	203	19.9%	329	29.6%	354	27.2%	410	28.9%

Note:

1. Employment information on graduates of UGC-funded full-time programmes of a particular year was gathered by UGC-funded universities in the surveys on employment situation of graduates conducted in December of the year. Figures of the 2018/19 and 2019/20 academic years are not yet available from the UGC.
2. Non-local graduates who were full-time employed and pursued further studies exclude those who had returned to their place of origin for work or further studies.
3. Underemployed graduates refer to those who were available for work at any time or had sought work, but involuntarily worked less than 35 hours every week, and those who had part-time or temporary jobs.
4. "Others" refers to (i) graduates who had not sought work and (ii) non-local graduates who had returned to their place of origin for further studies or work.
5. The percentages may not add up to 100 due to rounding.

Note:

1. The figures and years are based on the normative study period of students pursuing the teacher education programmes. Besides, the 2012/13 academic year is a double-cohort year. Among the students pursuing teacher education programmes in universities in the 2012/13 academic year, the duration of study for students under the old academic structure is normally 1 year shorter than that under the new academic structure. Duration of study may vary among some students. Individual students, for example, may postpone/terminate their studies or require a longer duration of study than normal to complete the programmes. The UGC does not have information on the actual year of admission of the graduates concerned.
2. The Diploma in Education programme offered by HKBU is normally taken by students in the last 3 years of the 5-year study period of the undergraduate programme under the new academic structure, or the last 2 years of the 4-year study period of the undergraduate programme under the old academic structure. As such, first-year-first-degree students admitted in the double-cohort academic year of 2012/13 normally took this programme in the 2014/15 academic year, and the 2 cohorts of students under the old and new academic structures enrolled in the academic year normally graduated in the 2015/16 and 2016/17 academic years respectively.
3. The intake places of the part-time programme concerned are provided by reallocating the university's approved intake places of other teacher education programmes at the same level of study. The UGC has provided funded places for the part-time course separately from the 2019/20

academic year.

4. The programme does not have approved intake places or student intakes in the year(s) nearing discontinuation.
5. The programme does not have graduates at the initial stage of operation.
6. The actual duration of study of individual students of programmes which will soon be discontinued may be longer than the normal duration. As such, the number of intake places in the year of admission of graduates is not applicable.
7. To ensure proper use of public funds, the UGC has required that starting from the 2016/17 academic year, the student number targets of various teacher education programmes offered by universities should be met as far as possible, except for individual teacher education programmes with a relatively low approved student number target.

CONTROLLING OFFICER'S REPLY**EDB609****(Question Serial No. 3453)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not specifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Prof James TANG)Director of Bureau: Secretary for EducationQuestion:

1. Please provide the details of the Postdoctoral Fellowship Scheme, the Research Grants Council (RGC) Research Fellow Scheme and the RGC Senior Research Fellow Scheme launched in the 2019/20 academic year, including the numbers of applications, numbers of successful applications and amounts of grant.
2. Regarding the triennial recurrent funding provided by the University Grants Committee (UGC) for the UGC-funded universities, while it is stipulated that 75% of the block grant is intended for teaching and 23% for research, universities have autonomy over the allocation of the grant. Please provide the proportion of the recurrent funding used for teaching and for research by university in each of the last 3 trienniums.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 205)Reply:

1. The details of the Postdoctoral Fellowship Scheme, the Research Grants Council (RGC) Research Fellow Scheme and the RGC Senior Research Fellow Scheme launched in the 2019/20 academic year are tabulated as follows:

	Postdoctoral Fellowship Scheme	RGC Research Fellow Scheme	RGC Senior Research Fellow Scheme
Annual quota	50	10	10
Target group	PhD graduates	Academics at the rank of Associate Professor	Academics at the rank of Full Professor
Fellowship period	36 months	60 months	60 months

	Postdoctoral Fellowship Scheme	RGC Research Fellow Scheme	RGC Senior Research Fellow Scheme
Fellowship grant (HK\$)	\$396,600 per annum	Around \$5.2 million for the whole period	Around \$7.8 million for the whole period
Use/Scope of grant	Providing a stipend comprising the basic salary for a full-time postdoctoral fellow and a travel allowance of HK\$12,600 per annum for conference and research-related activities	Recruiting relief teachers and covering expenses on research projects including staff cost, equipment purchase and publishing of research findings	Recruiting relief teachers and covering expenses on research projects including staff cost, equipment purchase and publishing of research findings
Number of applications in the first round	83	33	32
Announcement date	To be announced in April 2020	To be announced in July 2020	To be announced in July 2020

2. Teaching and research are two inseparable and closely-linked core missions in higher education. Good teaching should be driven by scholars with new knowledge in their fields based on academic research which in turn informs their research activities. The University Grants Committee (UGC) has all along attached great importance to the quality of teaching and learning in universities. It has also encouraged and enhanced universities' teaching and learning through various teaching and learning initiatives, including the annual provision of the Teaching Development and Language Enhancement Grant (TDLEG) to universities to enhance teaching quality and students' language proficiency; organisation of the annual UGC Teaching Award to honour those who excel in teaching in the UGC sector; and implementation of the Funding Schemes for Teaching and Learning Related Proposals in the 2012-15 and 2016-19 triennia to incentivise universities to explore and promote development in sector-wide strategic areas of teaching and learning, language enhancement and internationalisation. The amount of TDLEG to be provided for universities in the 2019-22 triennium will amount to \$781.2 million, representing an increase of \$268.4 million over the previous cycle. The increased provision will enable universities to focus on efforts to bring funded projects to completion, and continue to implement and enhance various projects under previous teaching and learning funding schemes. Of equal importance is that this helps the UGC assure the community that it values teaching and learning as much as research.

According to the information reported by UGC-funded universities, expenditure items of universities can be broadly divided into “departmental expenditure on teaching”, “departmental expenditure on research” and “central cost”. “Central cost” includes expenditure relating to management and general items, academic support, student and general education services, institutional premises, etc. In addition to UGC funding, universities have other sources of income including donations and other research funding. The actual expenditures reported by universities are not solely covered by UGC funding.

A breakdown by various uses of expenditure and their percentage shares in individual universities’ recurrent expenditure in the academic years from 2014/15 to 2018/19 is as follows:

University	Academic Year	Use of Expenditure		
		Departmental Expenditure on Teaching	Departmental Expenditure on Research	Central Cost
City University of Hong Kong	2014/15	47.6%	22.9%	29.4%
	2015/16	46.2%	24.2%	29.6%

Notes:

1. The above figures are calculated based on the fiscal year of UGC-funded universities (July to June).
2. The above figures cover expenditures on both UGC-funded and self-financing activities.
3. Percentages may not add up to the corresponding totals due to rounding.

CONTROLLING OFFICER'S REPLY**EDB610****(Question Serial No. 3537)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not specifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Prof James TANG)Director of Bureau: Secretary for EducationQuestion:

Please provide information on the following in the past 5 years (from 2015/16 to 2019/20):

- Regarding the 15 competitive research funding schemes administered by the Research Grants Council for the funded universities, please set out the number of projects supported and amount awarded for these projects under each funding scheme in the table below:

Name of Competitive Research Funding Scheme	No. of Projects Supported	Amount Awarded

- Regarding the 15 competitive research funding schemes mentioned above, please give the respective numbers of applications received under each academic programme category (APC) (i.e. according to the 17 categories under which the teaching funding for UGC-funded universities is allocated, e.g. Medicine, Engineering and Technology, and Social Sciences), numbers of applications approved, success rates, and amount awarded, with a breakdown by research funding scheme and APC:

Name of Competitive Research Funding Scheme	APC	No. of Applications Received	No. of Applications Approved	Success Rate	Amount Awarded

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 218)

Reply:

1. The number of funded projects and the respective approved funding amount under each competitive research funding scheme or fellowship scheme administered by the Research Grants Council (RGC) for application from the University Grants Committee (UGC)-funded universities in the past 5 academic years (2015/16 to 2019/20) are set out at **Annex A**.
2. The number of applications, number of funded projects, success rate and the respective approved funding amount under each competitive research funding scheme or fellowship scheme administered by the RGC for application from the UGC-funded universities in the past 5 academic years (2015/16 to 2019/20), with a breakdown by broad subject category (funded projects are categorised by the RGC into the disciplines of Biology and Medicine, Business Studies, Engineering, Humanities and Social Sciences as well as Physical Sciences), are set out at **Annex B**.

Note 1 There was no Areas of Excellence Scheme exercise in 2015/16, 2017/18 and 2019/20.

Note 2 Starting from the 2018/19 academic year, stipend of awardees is adjusted annually in accordance with the Composite Consumer Price Index.

Note 3 The Joint Laboratory Funding Scheme in 2018/19 was a one-off competitive funding scheme.

Note 4 Position up to 29 February 2020.

Note 5 The figures do not cover the numbers of the second round of the EU-Hong Kong Research and Innovation Cooperation Co-funding Mechanism by the RGC in 2019/20. As at 29 February 2020, the second round was still in progress.

CONTROLLING OFFICER'S REPLY

EDB611

(Question Serial No. 3538)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the past 5 years (2015/16 to 2019/20):

1. list, by year, local and overseas subsidiaries established or currently owned by University Grants Committee-funded institutions. Please specify the purposes of setting up the companies, the principal activities, the places of incorporation, the lists of directors, the proportion of share/equity held, and whether the percentage of share / equity is held by the institution or the subsidiary;
2. the schools jointly set up by the eight universities and the Mainland organisations. Please specify the names of the local universities, the names of Mainland organisations, the names of joint schools, the years of establishment, the programmes provided, the amount of annual tuition fee and the student intakes of the respective programmes;
3. the research institutes or other subsidiaries set up by the universities in the Mainland. Please specify the names of the local universities, the names of the Mainland organisations, the years of establishment and the research areas; and
4. if the University Grants Committee (the UGC) has not gathered the relevant information in (2) and (3), what are the reasons? What mechanism does the UGC have for regulating the financial situation of the institutions to avoid subsidising the school operation and commercial activities of funded institutions outside Hong Kong with public money? Please provide the details.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 219)

Reply:

1. A list of subsidiaries / principal subsidiaries of the eight University Grants Committee (UGC)-funded universities for the 2018/19 academic year as disclosed in their annual financial reports is provided at Annex. The information of each subsidiary / principal subsidiary including the place of

incorporation, the principal activities, the particulars of share capital, the share / equity distribution, etc., are also included in their annual financial reports published on their websites.

The universities are currently unable to provide information for the 2019/20 academic year. For the relevant information for the 2015/16 to 2017/18 academic years, please refer to our reply (EDB661) to the relevant question (Question No. 5383) at the special meeting of the Finance Committee on the review of Estimates of Expenditure 2019-20.

- 2 to 4. The setting up of schools or research institutes in the Mainland by UGC-funded universities is self-financing activity of universities and does not involve any funding from the UGC. We do not have such information.

Eight UGC-funded universities are autonomous statutory bodies established under its own respective ordinance and governed by its governing councils. The universities could develop and carry out activities outside Hong Kong according to their purposes and roles. While upholding the spirit of institutional autonomy, UGC always expects universities to remain committed to transparency and accountability in their operations to ensure that funding is put to appropriate uses that serve the best interests of the community and students. The UGC Notes on Procedures (NoP) clearly set out that there should be no cross-subsidisation of UGC resources to non-UGC-funded activities (including, but not limited to self-financing activities). In addition, the UGC NoP also clearly set out the requirements on the eight UGC-funded universities' financial reporting, audit and assurance. In preparing their annual financial statements, universities should follow the prevailing Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the Statement of Recommended Practice for the UGC-funded Institutions. The annual financial statements of a university shall report its overall financial position (including that of its self-financing arms and subsidiaries) and be audited by an independent external auditors. As far as audit and assurance is concerned, in addition to the annual audit of the financial statements, universities are required to engage independent external auditors to provide assurance as to whether they have accounted for the income and expenditure in respect of the funds received from the UGC in accordance with the relevant provisions of the UGC NoP and the allocation letters; and submit an annual return. Moreover, to provide further assurance of the proper use and application of public funds as represented in the audited financial statements and the annual return, Heads of Universities are requested to provide a Certificate of Accountability to the UGC annually, after the close of each financial year, to confirm that public funds allocated via the UGC and matched donations under the Matching Grant Schemes have been spent in accordance with the UGC NoP, allocation letter and other guidelines and approved Government policies.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3640)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the budget of the University Grants Committee (UGC), please inform this Committee of the following:

- 1) Regarding the “amount of capital commitments approved by the Finance Committee” to the UGC, the estimate for the current year (2020-21) is \$2,578 million, which amounts to 5 times more than the \$406 million for the previous year (2019-20). Please explain in detail the reasons for the increase and provide a breakdown of the additional expenditure.
- 2) Regarding the “capital subventions in terms of cash flow requirement for the year”, the estimate for the current year is \$470 million, which has increased by almost 3 times from \$125 million for the previous year. Please explain in detail the reasons for the increase and provide a breakdown of the additional expenditure.
- 3) Regarding the “administration costs of the UGC Secretariat”, the estimate for the current year as percentage of recurrent and capital grants is 0.4% higher than the revised estimate for 2019-20. Please provide the actual amount of administration costs in each of the past 5 years, explain the reasons for the increase in percentage in the current year, and give a breakdown of the additional administration costs.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 247)

Reply:

1. & 2.

The “amount of capital commitments approved by the Finance Committee (FC)” as stated in the estimate of the University Grants Committee (UGC) refers to the cost estimate for the capital works projects of the UGC Secretariat upon FC’s approval, while the “capital subventions in terms of cash flow requirement for the year” refers to the projected cashflow requirement of all capital works projects in progress in a particular financial year upon FC’s approval. The Government had proposed in last year’s Budget to set aside a dedicated

provision of \$16 billion for UGC-funded universities to enhance or refurbish their campus facilities, in particular the provision of facilities essential for research and development (R&D) such as laboratories, thereby allowing university students and researchers to conduct teaching and R&D activities in an optimal environment. The UGC has been actively following up on the proposals with universities. Our target is to begin to submit the funding proposals for capital works project utilising the dedicated fund for FC's consideration in 2020-21. Hence, the estimates for capital subventions in 2020-21 are higher than that for the previous year.

3.

The administration costs of the UGC Secretariat include expenses on salaries and allowances for the UGC Secretariat, honoraria for overseas members, meeting expenses and other operational expenses. The actual and estimated administration costs of the UGC Secretariat from 2016-17 to 2020-21 are as follows:

2016-17 Actual \$ million	2017-18 Actual \$ million	2018-19 Actual \$ million	2019-20 Revised Estimate \$ million	2020-21 Estimate \$ million
115	118	140	177	285

The above expenses are subsumed under Subhead 000 Operational expenses, details of which are set out in the Controlling Officer's Report for this Head. The estimated administration costs for 2020-21 is higher than the revised estimate for 2019-20 mainly because the UGC will conduct the six-yearly Research Assessment Exercise (RAE) in 2020. As hundreds of non-local scholars will be involved in the RAE to ensure fair assessment according to international standards, a higher estimate is made for the honoraria for overseas members and meeting expenses.

- End -

CONTROLLING OFFICER'S REPLY

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Regarding the taught postgraduate (TPg)/research postgraduate (RPg) programmes funded by the University Grants Committee (UGC), please advise this Committee:

- (a) of the respective numbers of students who pursued the UGC-funded TPg/RPg programmes, the amounts of funding provided by UGC and the average unit costs of such programmes from the 2014/15 to 2019/20 academic years, with a breakdown by year of study, academic programme and faculty in table form; and
- (b) of the respective numbers of non-local students who pursued these programmes from the 2014/15 to 2019/20 academic years, with a breakdown by institution, level of study, place of origin and mode of study.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 24)

Reply:

(a)

The student enrolments of UGC-funded TPg and RPg programmes by university and broad academic programme category from the 2015/16 to 2019/20 academic years are at **Annex A**. The UGC derives the average student unit costs of UGC-funded programmes by level of study, academic programme category and teaching/research cost based on the actual costs reported by universities. Such information is available on the UGC website for public's reference.

Under the existing mechanism, the recurrent grants to the 8 UGC-funded universities are in the form of a block grant which provides for a one-line allocation of resources for a funding period (usually a triennium). Universities enjoy autonomy in the allocation of the block grant to programmes of various disciplines at different levels as they see fit. In addition to UGC funding, universities have other sources of income such as donations and other research funding. In this regard, the actual costs reported by universities are not solely

covered by UGC funding, while the UGC is also unable to estimate the actual subvention or expenditure on specific programmes by level of study and academic programme category.

The average student unit costs of UGC-funded TPg and RPg places, as well as the total subvention from the 2015/16 to 2019/20 academic years, are set out below:

	2015/16 Actual	2016/17 Actual	2017/18 Actual	2018/19 Actual	2019/20 Revised estimate
Average student unit cost of TPg programmes (\$'000)	230	232	243	265 ^{Note}	Not available
Average student unit cost of RPg programmes (\$'000)	548	568	581	621 ^{Note}	Not available
Total subvention for the UGC-funded universities (\$ billion)	17.9	18.6	19.1	19.9	21.0

Note:
Provisional figures.

(b)

The numbers of non-local students pursuing the UGC-funded TPg and RPg programmes from the 2015/16 to 2019/20 academic years by university, mode of study and place of origin are at **Annex B**.

At present, UGC-funded universities may admit non-local students in UGC-funded TPg programmes through over-enrolment outside the approved student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes by level of study. The UGC does not provide extra resources for this purpose. To ensure no cross-subsidisation of non-local students by public funds, these non-local students are required to pay tuition fees at a level that is at least sufficient to cover all additional direct costs.

As regards UGC-funded RPg programmes, the UGC-funded universities admit RPg students on a merit basis, taking into account the students' academic results and research capability. The place of origin of the students is not a consideration. This helps ensure that the best candidates from different places are engaged to boost the level of research in Hong Kong, and is in line with the common practice of the international academic community.

Notes:

1. Since the content of some UGC-funded programmes are relevant to more than one academic programme category, students of these programmes are counted across the academic programme categories concerned on a pro-rata basis. Thus, the student numbers of some academic programme categories are decimal figures. In the table above, all decimal figures are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
2. UGC-funded RPg students refer to students funded by the UGC within their normative study periods.
3. Figures may not add up to the corresponding totals owing to rounding. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis.
4. “-” denotes nil.

CONTROLLING OFFICER'S REPLY**EDB614****(Question Serial No. 6723)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not specifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Prof James TANG)Director of Bureau: Secretary for EducationQuestion:

Please advise this Committee of the number of places and amounts of funding in each of the past 5 academic years and the coming academic year for full-time and part-time, publicly-funded and self-financing degree and sub-degree social work programmes in various post-secondary colleges:

Post-secondary colleges	Full-time/part-time	Publicly funded/self-financing	Degree/sub-degree	Number of places 2014/15	Number of places 2015/16	Number of places 2016/17	Number of places 2017/18	Number of places 2018/19	Number of places 2019/20

Asked by: Hon LEUNG Yiu-chung (LegCo internal reference no.: 525)Reply:

The approved numbers of undergraduate places of University Grants Committee (UGC)-funded social work programmes for the 2015/16 to 2020/21 academic years are at **Annex A**. The UGC-funded universities do not have any UGC-funded social work sub-degree programmes in the corresponding period.

Under the existing mechanism, the recurrent grants provided by the UGC to its 8 funded universities are in the form of a block grant. Universities enjoy autonomy in the use of the block grant for provision of programmes of various disciplines at different levels. Based on the actual costs reported by universities, the UGC derives the average student unit costs of UGC-funded programmes by level of study, academic programme category and teaching/research cost. In addition to the funding from the UGC, universities also have other sources of income, such as donations and other research funding. Therefore, the actual costs reported by universities are not solely covered by UGC funding, and the UGC is unable to estimate the actual subvention or expenditure on specific programmes. According to the information provided by the universities, the curriculum contents of the undergraduate social work programmes are related to the academic programme category of

Social Sciences. The average student unit costs per annum of the undergraduate programmes under the academic programme category of Social Sciences for the 2015/16 to 2018/19 academic years were \$197,000, \$205,000, \$209,000 and \$223,000 (provisional) respectively. The above figures have taken into account the actual costs of other undergraduate programmes related to Social Sciences. The costs of programmes concerned also vary among universities. The relevant figures for the 2019/20 to 2020/21 academic years are not yet available.

The estimated intakes of full-time locally-accredited self-financing undergraduate and sub-degree social work programmes for the 2015/16 to 2020/21 academic years are set out at **Annex B**.

**Approved Number of Undergraduate Places of UGC-funded
Social Work Programmes by University for the 2015/16 to 2020/21 Academic Years**

(Full-time equivalent)

CONTROLLING OFFICER'S REPLY

EDB615

(Question Serial No. 3755)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

Would the Education Bureau/University Grants Committee please advise of the following: the number of publicly-funded, privately-funded and temporary hostel places provided by the tertiary institutions in Hong Kong and the ratio of allocation between local and non-local students in the 2019/20 academic year (with a breakdown by institution)?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 52)

Reply:

The number of hostel places available in the University Grants Committee (UGC)-funded universities and the ratio of hostel places allocated to local and non-local students at the beginning of the 2019/20 academic year as advised by the UGC-funded universities are at the Annex.

(A) Number of hostel places available for allocation to students in UGC-funded universities

University	2019/20 academic year			
	Publicly-funded	Privately-funded	Temporary*	Total
City University of Hong Kong	3 440	208	0	3 648
Hong Kong Baptist University	1 630	250	216	2 096
Lingnan University	1 300	1 185	130	2 615
The Chinese University of Hong Kong	6 210	2 368	325	8 903
The Education University of Hong Kong	2 000	0	158	2 158
The Hong Kong Polytechnic University	4 654	0	286	4 940
The Hong Kong University of Science and Technology	3 814	1 272	638	5 724
The University of Hong Kong	5 573	613	186	6 372
Total	28 621	5 896	1 939	36 456

* Universities may provide temporary hostel places within their campuses subject to the supply and demand of hostel places of the year. These temporary hostel places are made available by providing additional beds in existing hostels, conversion of spaces from other uses (such as vacant staff quarters) and leasing of private residential premises as student accommodations, etc.

(B) Ratio of hostel places allocated to local and non-local students by UGC-funded universities

University	Ratio of hostel places allocated in the 2019/20 academic year	
	Local students	Non-local students
City University of Hong Kong	48%	52%

CONTROLLING OFFICER'S REPLY**EDB616****(Question Serial No. 6094)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not specifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Prof James TANG)Director of Bureau: Secretary for EducationQuestion:

- a. Please set out the quantity, value and stock of surgical masks produced by the Correctional Services Department (CSI masks) that the University Grants Committee (UGC) obtained from the Government Logistics Department (GLD) each month in the past 3 years in the following table:

Month/Year	No. of CSI masks obtained	Value of CSI masks obtained	Stock of CSI masks

- b. Please set out the quantity, value, stock and consumption of surgical masks that the UGC obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of surgical masks obtained from GLD (value)	No. of surgical masks procured (value)	Stock	Consumption

- c. Please set out the quantity, value, stock and consumption of N95 masks that the UGC obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of N95 masks obtained from GLD (value)	No. of N95 masks procured (value)	Stock	Consumption

- d. Please set out the quantity, value, stock and consumption of gowns that the UGC obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of gowns obtained from GLD (value)	No. of gowns procured (value)	Stock	Consumption

- e. Please set out the quantity, value, stock and consumption of protective coverall suits that the UGC obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of protective coverall suits obtained from GLD (value)	No. of protective coverall suits procured (value)	Stock	Consumption

- f. Please set out the quantity, value, stock and consumption of face shields that the UGC obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of face shields procured	Value of face shields procured	Stock of face shields	Consumption

- g. Please set out the quantity, value, stock and consumption of goggles that the UGC obtained from the GLD or procured each month in the past 3 years in the following table:

Month/Year	No. of goggles procured	Value of goggles procured	Stock of goggles	Consumption

- h. Did the UGC supply or sell surgical masks, N95 masks, face shields, goggles, gowns and protective coverall suits to other organisations in the past 3 years? If yes, please provide the relevant information, including the quantity, consumption and stock, in the following table:

Month/Year	Name of organisations	Manner of provision (e.g. sold or supplied for free)	Surgical masks	N95 masks	Face shields	Goggles	Gowns	Protective coverall suits

- i. If the UGC is to supply or sell surgical masks, N95 masks, face shields, goggles, gowns and protective coverall suits to other organisations, what are the departments and the ranks of the officers responsible for making such decisions? Please provide the ranks of the officers involved in each decision, the date they made the decision and other relevant information.

Asked by: Hon MO Claudia (LegCo internal reference no.: 183)

Reply:

- a-b. Apart from obtaining surgical masks produced by the Correctional Services Department from the Government Logistics Department (GLD), the University Grants Committee Secretariat (UGC Secretariat) has also procured surgical masks in the market for distribution to colleagues according to actual needs. We do not have information on the distribution of surgical masks obtained from different sources to individual staff over the past 3 years. With an upsurge in demand for Personal Protective Equipment (PPE) around the globe, the Government is facing keen competition in its procurement. The Government considers it inappropriate at this stage to disclose further information about the stock levels, quantities procured, amounts paid and consumption in respect of PPE in individual departments in the past few years and recent months so as not to undermine the bargaining power of the GLD and other departments in procuring PPE.
- c-g. No N95 masks, face shields, goggles, gowns or protective coverall suits were obtained from the GLD or procured in the market by the UGC Secretariat over the past 3 years.
- h-i. No surgical masks, N95 masks, face shields, goggles, gowns or protective coverall suits were supplied or sold to other organisations by the UGC Secretariat over the past 3 years.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 3532)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

During months of social unrest sparked by the proposed legislative amendments to the Fugitive Offenders Ordinance, university campuses had suffered damage to different extents. Amidst the disruption caused to university operations, there have been worries that not only current students, but also future students will face difficulties in enjoying normal school life. In this regard, will the Administration advise this Committee on the following:

1. broken down by universities, of damages received, monetary losses, latest restoration progress and expenditure to be involved in the recovery;
2. whether the Government has earmarked additional funding to support universities from restoring facilities. If yes, of the details and amounts; if not, of the reasons;
3. in concern with universities related work items that had been withdrawn from Public Works Subcommittee and this Committee, whether there is any plan to submit these items again to the Subcommittee and this Committee for deliberation.

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 61)

Reply:

1. and 2. According to information provided by the universities, except for the Education University of Hong Kong which remained largely unaffected, all other university campuses have suffered damages of varying degrees during the social events. These include the posting of bills, painting of graffiti and damaging of certain fire safety/closed-circuit television systems at various locations within the campuses. The glasses and furniture of some buildings were also damaged or lost. Certain facilities in a few campuses suffered more serious damages. For example, some of the lifts and escalators could no longer function properly, whereas some floors and external walls were damaged by flooding/fire. The universities concerned had promptly assessed the damages done to the campuses and commenced the necessary restoration works so as to ensure that the campuses would be safe and suitable for conducting teaching and research activities. Quite a few restoration works

have been completed in time before commencement of the second semester of the 2019/20 academic year. Details of the major damages suffered by the campuses and the restoration progress are at the Annex.

Under the prevailing arrangements, universities will carry out their routine repair and maintenance works on campus facilities as necessary, and meet the relevant expenditure on restoration works with their existing resources. As such, the Government does not maintain information on the estimated expenditure involved.

3. The funding proposals for the Library Extension and Revitalisation project of The Hong Kong Polytechnic University (PolyU) as well as three capital works projects on healthcare teaching facilities of The Chinese University of Hong Kong, PolyU and the University of Hong Kong were temporarily withdrawn in November 2019 in light of the situation at that time. The Government will endeavor to resubmit funding proposals to the Finance Committee/ Public Works Subcommittee as soon as possible having regard to the practical circumstances.

**Major Damages to the Campuses and Restoration Progress of the
UGC-funded Universities**
(As at 31 January 2020)

University	Major Damage Note	Restoration Progress
City University of Hong Kong	<ul style="list-style-type: none"> • Many places on campus were spray-painted, and there were slabs missing from the pavements. • Some building facilities were damaged, including closed-circuit television (CCTV) systems, walls, signboards, escalators, fire and building services systems, access control systems, teaching apparatus and communication installations. • Some of the landscape amenities were damaged. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The restoration works of some damaged major installations (such as glass panels on external walls and escalators) is expected to be completed in March. • The replanting works for the landscape amenities is expected to be completed in June.
Hong Kong Baptist University	<ul style="list-style-type: none"> • Many places on campus were spray-painted, and there were slabs missing from the pavements. • Some building facilities were damaged, including laboratory facilities, cooking equipment in canteens, recreational amenities, CCTV systems and access control systems. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The restoration works of the remaining damaged CCTV units will be completed in mid-February.
Lingnan University	<ul style="list-style-type: none"> • Many places on campus were spray-painted. • The CCTV systems and access control systems in some buildings were damaged. • The in-door facilities, payment system, furniture and cooking equipment of the canteen were more extensively damaged. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The canteen will be re-open for limited services in February, and the remaining restoration works is expected to be completed in June.

University	Major Damage Note	Restoration Progress
The Chinese University of Hong Kong	<ul style="list-style-type: none"> • Many places on campus were spray-painted, and there were slabs missing from the pavements. • The driveway surfaces in many places were damaged by fire. Some of the road and safety facilities were also damaged. • Some building facilities were damaged, including CCTV systems, power supply and lighting systems, fire and building services systems, as well as access control systems. • Sir Philip Haddon-Cave Sports Field and the University's Vehicle Maintenance Centre were more seriously damaged. • Some of the landscape amenities were damaged. 	<ul style="list-style-type: none"> • Some of the restoration works has been completed. • The restoration works of some of the road and safety facilities is expected to be completed in the second quarter of this year. • The restoration works of Sir Philip Haddon-Cave Sports Field and the University's Vehicle Maintenance Centre is expected to be carried out during the summer holiday. • The replanting works for the landscape amenities is expected to be carried out during the summer holiday.
The Education University of Hong Kong	<ul style="list-style-type: none"> • There was only minor damage to campus facilities. 	(Not applicable)
Hong Kong Polytechnic University	<ul style="list-style-type: none"> • Many places on campus were spray-painted, and there were slabs missing from the pavements / driveways. The skylights, walls and floors of some of the campus footbridges as well as some signage and directional signs were damaged. • Some building facilities were damaged, including teaching apparatus, office equipment, laboratory facilities, cooking equipment, CCTV systems, lifts and escalators. • Some buildings and footbridges were more seriously damaged by fire or flooding. • Some of the landscape amenities were damaged or withered. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The restoration works of the remaining damaged facilities (such as some of the CCTV units, building services systems and library facilities) is expected to be completed in the second and third quarters of this year.

University	Major Damage Note	Restoration Progress
The Hong Kong University of Science and Technology	<ul style="list-style-type: none"> • Many places on campus were spray-painted. • The glass doors of some buildings were removed or damaged. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed.
The University of Hong Kong	<ul style="list-style-type: none"> • Many places on campus were spray-painted. • The CCTV systems in some buildings were damaged. • Four escalators in the Centennial Campus and Wong Hak King Building were damaged. 	<ul style="list-style-type: none"> • Most of the restoration works has been completed. • The restoration works of the escalators is expected to be completed in April.

Note: This annex was prepared based on the information provided by the universities. In addition to the items set out in the table, there was also minor damage to the locks, glass, doors, windows, furniture and computers in the buildings on university campuses (including laboratories and dangerous goods stores).

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

1. What were the numbers of students enrolling in the Applied Learning Chinese (for non-Chinese speaking (NCS) students) courses in the past 3 years? What were their respective percentage shares in the total number of NCS students?
2. What were the numbers of public sector and Direct Subsidy Scheme secondary schools participating in the Applied Learning Chinese (for NCS students) courses in the past 3 years?
3. How many students enrolling in the Applied Learning Chinese (for NCS students) courses have pursued further studies in the University Grants Committee (UGC)-funded undergraduate programmes in the past 2 years?
4. What were the numbers of local NCS students being admitted to UGC-funded undergraduate programmes in the past 3 years and their respective percentage shares in the total number of students?
5. What were the numbers of local NCS graduates of UGC-funded undergraduate programmes in the past 3 years and their respective percentage shares in the total number of graduates?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 206)

Reply:

1. to 3. The Applied Learning Chinese (for non-Chinese speaking (NCS) students) (ApL(C)) courses are for NCS students only. The respective numbers of NCS students studying the ApL(C) courses and their percentage shares in the total number of NCS students in the 2017-19, 2018-20 and 2019-21 cohorts are 206(14%), 230(15%) and 143(9%) respectively. These students are from 20, 37 and 27 public sector secondary schools respectively and from 4, 5 and 2 Direct Subsidy Scheme secondary schools respectively. The Education Bureau has not

conducted any graduate surveys in respect of the relevant courses and hence the number of graduates studying University Grants Committee (UGC)-funded undergraduate programmes is not available.

4. According to the statistics provided by the UGC-funded universities, the intakes of local NCS students (i.e. local students whose spoken language at home is not Chinese) for UGC-funded full-time undergraduate programmes in the 2017/18 to 2019/20 academic years and their percentage shares in the total number of intakes are set out below:

(Headcount)

	2017/18	2018/19	2019/20 (Provisional)
(a) Local NCS student intakes of full-time UGC funded undergraduate programmes	296	313	288
(b) Total student intakes of full-time UGC-funded undergraduate programmes	23 010	23 386	23 476
Percentage share of local NCS student intakes [(a) / (b)]	1.3%	1.3%	1.2%

Notes:

The intakes include the first year student intakes and senior year student intakes.

5. The UGC does not collect statistics of NCS students who have completed UGC-funded programmes.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Prof James TANG)

Director of Bureau: Secretary for Education

Question:

To formulate policy and effectively allocate resources to support the Chinese learning of non-Chinese speaking (NCS) students in tertiary secondary school level, the government has to be aware of the number of related courses provided by the post-secondary institutions. On this, will the government inform the council:

1. Please provide the following information on the Chinese language courses (as compulsory or elective courses to fulfill the graduation requirement of UGC-funded or self-funded post-secondary programmes) offered in each tertiary institution from 2014/15 to 2019/20 school years:
 - i. Name of Chinese Language course or programme
 - ii. Type of course or programme (e.g. credit bearing, certificate, diploma, etc.)
 - iii. Course fee
 - iv. Course or programme pre-requisites
 - v. Number of local students enrolled
 - vi. Number of local non-Chinese speaking students enrolled
 - vii. Number of local non-Chinese speaking students enrolled who were admitted through JUPAS
2. If the above information is not available, how does the government evaluate if the Chinese learning opportunities for post-secondary NCS students are currently sufficient?

Asked by: Hon TAM Man-ho, Jeremy (LegCo internal reference no.: 609)

Reply:

The University Grants Committee (UGC)-funded universities and self-financing post-secondary institutions are independent autonomous bodies which enjoy autonomy in formulation of academic standards, development of curricula, awarding of degrees and internal allocation of resources. We do not have information on the contents and graduation requirements of the individual academic programmes.

In the 2019/20 academic year, a total of 311 (provisional figures) local non-Chinese speaking (NCS) students (i.e. local students whose spoken language at home is not Chinese) are admitted to UGC-funded full-time sub-degree or degree programmes. We do not have relevant statistics on self-financing post-secondary institutions. We understand that all UGC-funded universities offer bridging/foundation courses in the Chinese Language or Cantonese to NCS students to facilitate their learning of Chinese. Furthermore, with increasing extent of internationalisation on campuses, the UGC-funded universities have also allocated resources to provide other forms of on-campus and learning support for non-local students and local NCS students, such as individual consultation sessions, learning guidance, mentoring schemes, peer support schemes, career advisory services and various cross-cultural exchange programmes to help students adapt to campus life on multiple fronts. The UGC-funded universities will continue to implement measures to support the learning of NCS students according to their needs.
