CONTROLLING OFFICER'S REPLY

EDB001

(Question Serial No. 1053)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Ordinance provides that both primary and secondary teachers have to meet educational standards and other requirements specified in the Ordinance before they can be registered or permitted to teach. In this connection, please provide the following information:

(1) The number of staff responsible for the above-mentioned approval procedure; the numbers of primary and secondary teachers who have had their teacher registration cancelled or denied in the past 10, 5 and 1 years respectively, as well as the reasons for cancelling their teacher registration;

(2) It has been reported that most cases involving the cancellation of teacher registration have to do with sexual criminal offences. Has the Education Bureau sought legal advice on cases involving criminal offences? If yes, what is the amount of additional expenses incurred in the past 5 years?

Asked by: Hon CHAN Chun-ying (LegCo internal reference no.: 16)

Reply:

(1) Currently, 13 staff in the Teacher Registration Team of the Education Bureau (EDB) are responsible for handling matters related to the application for teacher registration. We do not maintain statistics on the number of such applications by school type. In the past 10 years (2010 to 2019), 5 years (2015 to 2019) and 1 year (2019), there were 98, 30 and 6 teachers that had their registration cancelled or application refused by the EDB, mainly for having committed a sex/sex-related offence, fraud-related offence or some minor but repeated offences, or having serious integrity problems, etc.

(2) If a teacher has committed a criminal offence, the EDB will obtain the relevant court documents through the Department of Justice upon conclusion of trial, and review whether

the teacher has misconducted himself/herself and his/her teacher registration status, taking into account the outcome of the trial, the judgement handed down by the judge and the relevant information available. The EDB will then make recommendations to the Permanent Secretary for Education as to what appropriate follow-up actions should be taken in accordance with the Education Ordinance. The above task is part of the departmental routine. The expenses involved are subsumed in the EDB's overall provision for staffing and operation, hence no additional expenses are incurred.

CONTROLLING OFFICER'S REPLY

EDB002

(Question Serial No. 1055)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

With the worldwide spread of the novel coronavirus, all schools in the territory, including universities, have to suspend their classes for prevention of an outbreak in the community. Under Matters Requiring Special Attention in 2020-21, it is stated that the Government will continue to provide recurrent funding support to all public sector and Direct Subsidy Scheme secondary schools to strengthen their capacity for practising e-learning and taking forward various education initiatives which will harness information technology.

(1) As far as software and hardware for online teaching are concerned, will the Education Bureau provide, within its budget, uniform support for all schools in the territory to reduce the administrative pressure on teachers? If yes, what are the estimated expenditure and manpower involved?

(2) Will the Education Bureau provide teachers with training in online teaching? If yes, what are the estimated expenditure and manpower involved?

Asked by: Hon CHAN Chun-ying (LegCo internal reference no.: 18)

Reply:

(1) During class suspension, schools may continue rendering educational and emotional support to students through various means, such as providing students with learning materials by delivery, e-mail and school website, or implementing e-learning through online platforms. Moreover, schools may draw up weekly learning plans for students to systematically engage in a moderate amount of learning so as to achieve the goal of "suspending classes without suspending learning". Currently, schools may, having regard to their operational needs for information technology (IT) in education, flexibly deploy various subsidies (including the Composite Information Technology Grant, Information Technology Staffing Support Grant and Expanded Operating Expenses Block Grant) to procure software and hardware for online teaching and strengthen the IT staffing support in

schools. In fact, schools should exercise their professional judgement in selecting and using suitable learning and teaching resources that suit students' needs and school contexts so as to cater for learner diversity.

(2) All along, the Education Bureau (EDB) has been, through professional development programmes and on-site support services, deepening teachers' e-learning repertoire and their competence in using e-learning tools and resources. During class suspension, the EDB has set up a dedicated webpage with dozens of videos uploaded for reference of teachers, on which teachers with extensive practical experience elucidate the skills of using e-learning platforms, flipped classroom approach and real-time online teaching and perform step-by-step demonstrations to better equip viewers with the strategies of e-learning. On top of the dedicated webpage, the EDB also shares updated information and experiences on implementing online teaching through hotline service, mobile communication applications, webinars and online self-learning courses, so as to continuously offer advice and support to teachers in need. The expenditure on the provision of such training and support services is absorbed by the resources of the EDB.

CONTROLLING OFFICER'S REPLY**EDB003****(Question Serial No. 1816)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding students with special educational needs (SEN) in primary and secondary schools, please provide the following information:

(I) the number of students with SEN studying in public sector mainstream primary and secondary schools, and the percentage these students represent in the total number of students in each of the past 3 years (please give a breakdown by SEN type); and

(II) the number of teachers with qualifications/training in special education in public sector mainstream primary and secondary schools, and the percentage these teachers represent in the total number of teachers in each of the past 3 years.

Asked by: Hon CHAN Hoi-yan (LegCo internal reference no.: 38)

Reply:

(I) The number of students with special educational needs (SEN) studying in public sector ordinary primary and secondary schools by school level and SEN type from the 2017/18 to 2019/20 school years is set out at Appendix. The percentage of these students in the total number of students studying in public sector ordinary primary and secondary schools is tabulated below:

School Year	2017/18	2018/19	2019/20
Primary	7.8%	8.3%	9.1%
Secondary	8.6%	9.4%	10.1%

(II) In the 2017/18 and 2018/19 school years, the number of public sector ordinary primary and secondary school teachers having received special education training, and their respective percentages in the total number of teachers serving in public sector ordinary primary and secondary schools are tabulated below. Figures for the 2019/20 school year are not yet available.

	2017/18		2018/19	
	Primary	Secondary	Primary	Secondary
Number of teachers having received special education training	8 960	6 667	9 487	7 306
Percentage in total number of teachers serving in public sector ordinary primary and secondary schools	42%	30%	43%	33%

**Number of students with special educational needs (SEN) studying in
public sector ordinary primary and secondary schools by school level and SEN type
from the 2017/18 to 2019/20 school years**

School Year	School Level	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Mental Illness
2017/18	Primary	9 250	690	5 430	4 670	120	40	350	2 430	-
	Secondary	11 460	830	3 280	5 860	170	70	340	370	-
2018/19	Primary	10 370	760	5 690	5 110	110	40	360	2 510	60
	Secondary	11 430	830	3 840	6 780	150	60	310	360	310
2019/20	Primary	11 200	810	6 400	5 500	110	30	390	2 810	70
	Secondary	11 480	790	4 410	7 660	140	60	310	510	500

Note:
 Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

On strengthening the implementation of e-learning, please advise on the following:

- (1) the measures adopted by the Administration to promote e-learning, the beneficiaries and the expenditures involved in the past 3 years; and
- (2) given that many schools have to produce additional online teaching and learning resources for students to achieve continuous learning during class suspension due to the novel coronavirus epidemic, whether the Administration has earmarked additional resources for these schools so that students could sustain learning at home and thus achieve the goal of “suspending classes without suspending learning”; if yes, of the details; if no, of the reasons.

Asked by: Hon CHAN Hoi-yan (LegCo internal reference no.: 39)

Reply:

(1) The Education Bureau (EDB) launched the Fourth Strategy on Information Technology in Education in the 2015/16 school year. Among the non-recurrent funding of \$105 million, around \$90 million was used as a one-off grant disbursed in phases to all public sector schools that joined the WiFi-900 project for acquisition of mobile computer devices. Also, an extra recurrent grant of \$70,000 on average is given to each school annually for the continuous subscription of WiFi services. To enhance support to schools on the practice of e-learning, the EDB has, starting from 2017, disbursed in phases an extra One-off Information Technology Grant of \$200,000 on average to public sector schools under the WiFi campus project. In addition, to cope with the needs of schools, the EDB has, starting from the 2017/18 school year, provided all public sector primary and secondary schools with a recurrent Information Technology Staffing Support Grant to strengthen information technology (IT) staffing support of schools. Each school received a provision of \$317,338 in the 2019/20 school year. Apart from the above grants, the EDB provides

all public sector schools with an annual recurrent Composite Information Technology Grant. In the 2019/20 school year, the rate of the Grant for each school ranges from \$209,367 to \$720,089, depending on the school type and the number of classes. Under the principle of school-based management, schools may, having regard to their operational needs for IT in education, flexibly deploy different grants to promote e-learning.

On top of the above grants, the EDB organises professional development programmes for school leaders and teachers on an ongoing basis to equip them with the knowledge and skills needed for the implementation of e-learning. These programmes cover a wide range of topics, including e-leadership series, technological series, pedagogical series, subject-related series, e-safety series, and “Bring Your Own Device” series, etc. Moreover, the IT in Education Centres of Excellence have been established to provide training and on-site support services and facilitate the sharing of good practices in e-learning with schools. Updated information and experiences on implementing online teaching are also available on the EDB webpage.

(2) During class suspension, schools may continue rendering educational and emotional support to students through various means, such as providing students with learning materials by delivery, e-mail and school website, or implementing e-learning through online platforms. Moreover, schools may draw up weekly learning plans for students to systematically engage in a moderate amount of learning so as to achieve the goal of “suspending classes without suspending learning”. Currently, schools may, having regard to their operational needs for IT in education, flexibly deploy various subsidies (including the Composite Information Technology Grant and Information Technology Staffing Support Grant) to procure software and hardware for online teaching and strengthen the IT staffing support in schools. Besides, schools may make use of the Expanded Operating Expenses Block Grant to procure materials and equipment.

(Question Serial No. 1824)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

The Education Bureau will launch a pilot programme for 3 years starting from the 2020/21 academic year with a non-recurrent funding of about \$20 million for trainees under the Training and Support Scheme to take part in study and exchange programmes outside Hong Kong. In this connection, please advise this Committee of the following:

- (1) the disciplines covered by the programme and the criteria that participants should meet; and
- (2) the estimated number of students benefitting from the programme per year and the maximum amount of subsidy for each trainee.

Asked by: Hon CHAN Hoi-yan (LegCo internal reference no.: 34)

Reply:

The Government has implemented the Training and Support Scheme (Scheme) through the Vocational Training Council (VTC) since the 2014/15 academic year, covering industries including electrical and mechanical engineering, construction, printing, automobile, watch and clock, testing and certification, aviation, computer and electronic engineering, and medical centre operations, etc.

To further enhance the vocational and professional education and training (VPET) learning experience, subject to funding approval from the Legislative Council, for three years starting from the 2020/21 academic year, the Government will provide the VTC with a non-recurrent funding of about \$19.95 million in total to support trainees under the Scheme to take part in study and exchange programmes outside Hong Kong, attend short-term skills and practical courses as well as visit institutions/enterprises in those places, allowing them to understand the development of relevant industries and the learning experience of VPET students in other places, thereby facilitating skills exchange and broadening their exposure.

Relevant staff of the VTC will also join the programmes to learn from the successful experience of VPET institutions outside Hong Kong and understand the latest development of VPET (in areas such as curriculum design and management, apprentice management, teaching pedagogies and equipment, latest technologies, and applied research, etc.), with a view to further elevating the standard of VPET in Hong Kong to international level.

The VTC tentatively plans to organise six exchange programmes in the Guangdong-Hong Kong-Macao Greater Bay Area (Greater Bay Area)/Asia (lasting seven to ten days) and three exchange programmes in Europe/United States of America/Australia (lasting two weeks) each year. The initiative aims to benefit about 180 trainees under the Scheme and 18 teachers each year through participation in the related exchange programmes. The VTC will also arrange for participants of the programmes to share their experience and takeaways with other trainees and teachers, so that more can broaden their horizon. With reference to the VTC's past experience in organising similar programmes, the direct expenditure for each participant of exchange programmes in the Greater Bay Area/Asia (short haul) and Europe/United States of America/Australia (long haul) are \$25,000 and \$50,000 respectively. The actual expenses may vary depending on the exchange destinations and time of departure. The VTC will set up a project team to work out the other details of the programme.

Director of Bureau: Secretary for Education

Question:

Regarding the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), please provide the following information:

- (i) The numbers of subsidised places and actual intakes, and the average amount of subsidy per student per academic year in the past 3 years, with a breakdown by course type; and
- (ii) Among students admitted to SSSDP-subsidised places, the respective percentages of students admitted through the Joint University Programmes Admission System, students admitted through direct admission by participating institutions, and unfilled places in each of the past 3 years.

Asked by: Hon CHAN Hoi-yan (LegCo internal reference no.: 35)

Reply:

Details of the designated undergraduate programmes, the number of subsidised places, actual intake, and the annual subsidy amount under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) for the cohorts admitted in the past 3 academic years are set out at **Annex 1**. The respective percentages of students admitted through the Joint University Programmes Admission System, students admitted through direct admission by participating institutions, and unfilled places out of the subsidised places are set out at **Annex 2**.

The coverage of the SSSDP has been expanded to include designated sub-degree programmes starting from the 2019/20 academic year. Details of the number of subsidised places, actual intake, and the annual subsidy amount for sub-degree programmes in the 2019/20 academic year are set out at **Annex 3**. The admission for subsidised sub-degree places under the SSSDP follows the prevailing admission mechanism for self-financing sub-degree programmes i.e. direct admission by individual institutions.

* The Government has regularised the SSSDP from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes also receive the subsidy starting from the 2018/19 academic year. All first-year intake places of designated programmes for local students are included in the SSSDP. There are no non-subsidised first-year intake places for local students under the designated programmes.

New programmes offered in the 2018/19 academic year.

CONTROLLING OFFICER'S REPLY

EDB007

(Question Serial No. 1826)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the kindergarten education scheme, please provide the following information by District Council district:

- (1) the number of half-day kindergartens subsidised under the scheme, the number of their students, the percentage share of their students among all kindergarten students in Hong Kong, as well as the median school fee in each of the past 3 years;
- (2) the number of whole-day kindergartens subsidised under the scheme, the number of their students, the percentage share of their students among all kindergarten students in Hong Kong, as well as the median school fee in each of the past 3 years; and
- (3) the number of long whole-day kindergartens subsidised under the scheme, the number of their students, the percentage share of their students among all kindergarten students in Hong Kong, as well as the median school fee in each of the past 3 years.

Asked by: Hon CHAN Hoi-yan (LegCo internal reference no.: 36)

Reply:

From the 2017/18 to 2019/20 school years, the number of kindergartens (KGs) joining the KG education scheme (Scheme), number of eligible students, percentage share of these students among all KG students and median school fee by District Council district and by curriculum type are tabulated in the appendix. As regards the median school fee, given that only a very small number of half-day KGs under the Scheme collect school fees, with merely 1 KG collecting school fees in individual districts, it is more appropriate to provide information about the median school fee on a territory-wide basis (instead of district basis). For half-day KGs under the Scheme that collect school fees, the median school fee for the whole school year is \$2,900, \$3,400 and \$3,400 from the 2017/18 to 2019/20 school years respectively.

Number of KGs joining the Scheme, number of eligible students,
their percentage share in the total number of students, and the median school fee
by District Council district and by curriculum type
from the 2017/18 to 2019/20 school years

2017/18 School Year

(d) Total estimated expenditure of the Bureau on the relevant items		

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 3)

Reply:

For budgetary purposes, the estimates for the salary expenditure for the Secretary for Education (SED), the Under Secretary for Education (US(Ed)) and the Political Assistant (PA) to SED in 2020-21 are around \$4.18 million, \$2.72 million and \$1.46 million respectively. The estimates for Mandatory Provident Fund (MPF) contribution for each of the above-mentioned posts are \$18,000. There is no provision in the estimates for leave passage allowances, regularly-paid allowances, job-related allowances and security arrangements for SED, US(Ed) and PA to SED. According to the remuneration package for politically appointed officials serving in the HKSAR Government, SED, US(Ed) and PA to SED are not entitled to end-of-contract gratuity or related allowances other than the MPF contribution by the Government.

SED, US(Ed), PA to SED and their families are entitled to the medical and dental benefits available to civil servants and their families. SED is provided with the free use at his discretion of a car and driver in Hong Kong. The use of government cars by US(Ed) and

PA to SED shall be governed by the rules and regulations applicable to civil servants at comparable ranks.

In 2020-21, the provisions in the estimates for official entertainment and duty visits outside Hong Kong for SED's Office are \$177,000 and around \$180,000 respectively.

(Question Serial No. 2605)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (1) Please provide the following information for the past 3 years:
 - (a) a breakdown of the supply and demand as well as the vacancy of school places of international schools in Hong Kong by district; and
 - (b) the number of local and non-local students in international schools, their respective percentage share in the total number of students and the school fee of each school.
- (2) Please provide the following information for the past 3 years
 - (a) among all international schools, the highest, lowest and median school fee; and
 - (b) the school fee increase of the international schools in Hong Kong
- (3) How many international schools are currently leasing Government premises? For international schools operating in leased Government premises, please provide the following information in table form:
 - (a) name of international school;
 - (b) school address;
 - (c) number of students;
 - (d) area of school; and
 - (e) rent
- (4) In the 2019/20 school year, how many international schools which do not have a permanent campus approached the Government for assistance in finding a permanent campus?
- (5) Please provide, according to the estimation of the Bureau, the supply and demand for international school places in Hong Kong by District Council district in the coming 3 school years starting from 2020/21.

Asked by: Hon CHAN Tanya (LegCo internal reference no.: 51)

Reply:

(1) The Education Bureau (EDB) assesses the provision of international school places on a territory-wide basis. A breakdown of the number of international school places (including the ESF schools and other private international schools), students enrolled and vacancies by the District Council districts in which the international schools are located from the 2017/18 to 2019/20 school years is set out at **Annex 1** for illustration purpose.

The number and percentage of local and non-local students enrolled in individual international schools and the median annual tuition fee charged by each school from the 2017/18 to 2019/20 school years are set out at **Annex 2** and **Annex 3**.

(2) The highest, lowest and median annual tuition fees charged by international schools from the 2017/18 to 2019/20 school years are set out at **Annex 4**.

The rate of increase in tuition fees charged by individual international schools from the 2017/18 to 2019/20 school years is set out at **Annex 5**.

(3) According to our record, 12 international schools are currently operating on leased Government premises. The name of these schools, address and site area of their leased premises, number of students studying on these premises in the 2019/20 school year and type of rent payable for the leased premises are set out at **Annex 6**.

(4) In the 2019/20 school year, we did not receive any such request from international schools.

(5) As mentioned above, international school places are assessed on a territory-wide basis. We expect the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015, and the planned expansion projects of individual schools will gradually materialise in the coming few years. As at mid-March 2020, based on the latest projections provided by relevant schools where applicable, compared to the 2019/20 school year, it is projected that around 2 720 additional places will be available between 2020/21 and 2022/23 school years. It is however worth noting that future provision of additional places by individual schools, especially the new ones, will be affected by a number of factors, such as applications received each year, teacher recruitment, and maintenance and construction works involved in school development.

As for the demand side, according to the findings of the consultancy study on provision of international school places at primary and secondary levels in Hong Kong released in February 2017, there will be an increase in demand of around 1 720 international school places between the 2020/21 and 2022/23 school years.

According to the consultant's projections, there will be no shortfall in international school places at primary and secondary levels in the seven school years starting from the 2016/17 school year. In the past few school years, the enrolment of international schools was maintained at around 90%, which is consistent with the consultant's projection. We will continue to closely monitor the demand and supply of international school places, including assessment over the short-to-mediumterm impacts brought by the novel coronavirus infections. We are also planning another round of consultancy study to update the findings of the last study and stay abreast of the latest demand and supply of international school places. In parallel, we will continue to facilitate the development of the international school sector and take appropriate measures when necessary to meet the demand of non-local families that have come to Hong Kong for work or investment.

Notes:

- (1) Figures include the schools under the English Schools Foundation (ESF) and other private international schools but exclude the special school operated by the ESF.
- (2) Figures refer to the position as at September of the respective school years.
- (3) Figures on school places refer to the number of students that can be accommodated in classes operated (excluding vacant classrooms) in accordance with the planned class sizes as adopted by the schools concerned.
- (4) Starting from the 2019/20 school year, school district is determined by the District Council district in which the school premises are located. The district of schools using decanting premises is determined by the District Council district in which their original premises are located.

Notes:

- (1) Schools under the English Schools Foundation are indicated by (^).
- (2) In deriving the median, the annual tuition fee chargeable for each grade by the school concerned is counted only once, irrespective of the number of students enrolled.
- (3) The Government started phasing out its recurrent subvention to the ESF in the 2016/17 school year. Since then, the ESF has collected school fees at different rates from students studying in the ESF schools.
- (4) The newly-established Malvern College Hong Kong and Shrewsbury International School started operation in 2018.
- (5) The Umah International Primary School is excluded from the list of international schools recognised by the Education Bureau since April 2019.

**Highest, lowest and median annual tuition fees
charged by international schools from the 2017/18 to 2019/20 school years**

2017/18 school year

	Primary	Secondary
Highest	\$197,220	\$231,300
Lowest	\$5,800	\$52,800
Median*	\$118,584	\$157,800

2018/19 school year

	Primary	Secondary
Highest	\$205,500	\$246,000
Lowest	\$5,800	\$38,500
Median*	\$115,800	\$153,800

2019/20 school year

	Primary	Secondary
Highest	\$225,710	\$260,800
Lowest	\$45,600	\$42,000
Median*	\$125,794	\$163,100

Note:

- * In deriving the median, the annual tuition fee chargeable for each grade by the school concerned is counted once only, irrespective of the number of students enrolled.

Schools under the English Schools Foundation (ESF)⁽⁶⁾			
Primary school (without subvention)	5.8%	4.4%	4.1%
Primary school (with subvention)	6.8%	5.3%	4.9%
Secondary school (with subvention)	6.2%	4.5%	4.2%

Notes:

- (1) In deriving the median, the annual tuition fee chargeable for each grade by the school concerned is counted only once, irrespective of the number of students enrolled.
- (2) The American School Hong Kong started operating primary classes in August 2016 and secondary classes in 2017 respectively.
- (3) The newly-established Christian Alliance International School started operation in 2017.
- (4) The newly-established Malvern College Hong Kong and Shrewsbury International School started operation in 2018.
- (5) The Umah International Primary School is excluded from the list of international schools recognised by the Education Bureau since April 2019.
- (6) The Government started phasing out its recurrent subvention to the ESF in the 2016/17 school year. Since then, the ESF has collected school fees at different rates from students studying in the ESF schools. In other words, starting from the 2016/17 cohort of Primary 1 students admitted to the ESF schools, the school fee payable is no longer subsidised by the Government.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (1) Director of Bureau's Office
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please provide the estimated expenditure on the salaries (including non-accountable entertainment allowance) for the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education in 2020-21.

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 6)

Reply:

For budgetary purposes, the estimates for the salary expenditure for the Secretary for Education (SED), the Under Secretary for Education (US(Ed)) and the Political Assistant (PA) to SED in 2020-21 are around \$4.18 million, \$2.72 million and \$1.46 million respectively. There is no provision in the estimates for non-accountable entertainment allowance for SED, US(Ed) and PA to SED.

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The existing Quality Assurance (QA) Framework for the kindergarten education scheme (Scheme) covers 4 domains, 21 performance indicators and 41 aspects. In this connection, please provide the proportion of kindergartens (KGs) joining the Scheme whose performance is up to standard or satisfactory from the 2017/18 school year to present.

Does the Bureau plan to further streamline the QA Framework for KGs this year so as to alleviate their pressure arising from teaching and administrative work?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 33)

Reply:

The kindergarten education scheme (Scheme) was launched in the 2017/18 school year and all participating KGs are subject to the Quality Assurance (QA) Framework, which comprises School Self-evaluation (SSE) by KGs and Quality Review (QR) by the Education Bureau. Both SSE and QR are conducted on the basis of Performance Indicators (PIs). Between the 2017/18 school year and January this year, a total of 298 KGs had undergone QR, and all of them were assessed as meeting the prescribed standards.

The refinement of PIs was completed in 2017. Upon consideration of the past experiences of KGs and the views of stakeholders in the refinement process, we have reorganised and streamlined the framework of PIs to make the PIs clearer and more precise and user-friendly. This helps KGs conduct SSE in a more holistic and focused manner. We will continue to conduct QR with the streamlined PIs and enhance the transparency of QR. When conducting QR, we will holistically examine the effectiveness of KGs' development work and offer suggestions for improvement in light of the school context, so as to facilitate KGs' self-improvement on a continuous basis and enhance the quality of KG education.

In addition, we will continue to share with KGs information on the refined PIs, observations from the annual QR exercises and good practices of schools. With these, we could support KGs in conducting SSE more effectively and promote the sustainable development of KGs.

EDB012

(Question Serial No. 0803)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Some 600 kindergartens (KGs) joining the kindergarten education scheme (Scheme-KGs) are operating whole-day/long whole-day classes. Please provide the proportion of fee-paying students in these Scheme-KGs, as well as the lowest, highest and median school fees paid by these students from the 2017/18 school year to present. Please also provide the actual amount of additional subsidy provided for KGs offering whole-day and long whole-day services from the 2017/18 school year to present. The 2020-21 estimate for Programme (2) is about \$6.4 billion with the Scheme accounting for the lion share of it. Will the Education Bureau consider expanding the coverage of the Scheme for whole-day/long whole-day KGs this year? If not, what are the reasons?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 34)

Reply:

For kindergartens (KGs) joining the KG education scheme (Scheme), the number of eligible whole-day (WD)/long whole-day (LWD) KG students who have to pay school fees, the number of WD/LWD KG students who still have to pay school fees after deducting fee remission and their percentage share among all eligible students from the 2017/18 to 2019/20 school years are tabulated as follows:

School year	2017/18		2018/19		2019/20 (provisional)	
	WD class	LWD class	WD class	LWD class	WD class	LWD class
No. of eligible students under the Scheme	23 823	23 074	24 958	22 656	26 285	22 607
No. of eligible students who have to pay school fees	20 752	20 235	21 945	20 907	23 534	21 243
No. of WD/LWD KG students who still have to pay school fees after deducting fee remission (percentage share among all eligible WD/LWD KG students under the Scheme)	31 122 (66.4%)		33 557 (70.5%)		35 553 (72.7%)	

Notes:

1. The above percentages refer to the position as at mid-September of the respective school years.
2. As applicants for school fee remission are not required to indicate whether they are enrolled in LWD classes, we do not have a breakdown of the number of WD and LWD students.
3. LWD classes refer to former aided child care centres operated under the Social Welfare Department before harmonisation of pre-primary services. They usually operate longer service hours.

The lowest, highest and median annual school fees of the above WD/LWD KGs from the 2017/18 to 2019/20 school years are tabulated as follows:

School year	2017/18		2018/19		2019/20	
	WD class	LWD class	WD class	LWD class	WD class	LWD class
Lowest school fee (\$)	200	900	200	700	200	700
Highest school fee (\$)	25,900	22,500	26,200	26,200	27,400	27,400
Median school fee (\$)	7,300	11,400	8,100	12,000	8,100	12,600

Notes:

1. Figures are rounded to the nearest 100.
2. LWD classes refer to former aided child care centres operated under the Social Welfare Department before harmonization of pre-primary services. They usually operate longer service hours.

Regarding unit subsidy, the respective expenditure on provision of additional subsidy for KGs offering WD and LWD services from 2017-18 to 2019-20 is tabulated as follows:

2017-18 (Note) (\$ million) (actual)	2018-19 (\$ million) (actual)	2019-20 (\$ million) (revised estimate)
428.2	715.3	753.5

Note: Figure reflects the expenditure for the first 8 months after the implementation of the Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018).

In principle, the Government subsidies should be sufficient for KGs joining the Scheme to provide quality half-day (HD) services. As for WD and LWD services, existing evidence from researches and studies precludes drawing conclusions that WD programmes are more favourable to young children than HD programmes. Studies show that family education plays a crucial and complementary role in shaping young children. A HD programme can achieve the requirements of the curriculum and would allow relatively more family time for young children to play and interact with their family in a less-structured and more relaxing setting to nurture their bonding and sense of security. Although many countries offer WD services for parents as an option, it is not a common practice internationally to provide free WD KG services for all children from 3 to 6 years of age.

Having considered the developmental needs of children and overseas practices, we are of the view that the basic tenet of the new policy is that the Government's subsidy to each eligible KG would be sufficient for it to provide quality HD services according to the standards prescribed by the Government. Notwithstanding that, to unleash the potential of the local labour force under the population policy and enable parents to join the workforce, we provide an additional subsidy of 30% and 60% for eligible KGs offering WD and LWD services respectively. As the Government has provided additional subsidy, parents only need to pay part of the additional cost and the overall school fees are at a low level. Families with financial needs may apply for fee remission under the Kindergarten and Child Care Centre Fee Remission Scheme. In view of the foregoing, we do not have plans to further increase subsidy for WD and LWD KG places at this stage.

- End -

CONTROLLING OFFICER'S REPLY**EDB013****(Question Serial No. 0804)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please provide the number of complaints lodged to the Education Bureau against public sector and Direct Subsidy Scheme schools and the number of intervention measures it has taken (including issuance of verbal or written advice and warning) in the past 3 years.

With regard to the strengthening of administrative support for schools and their management committees, what specific activities and measures will be launched by the Education Bureau this year to provide enhanced training for school managers on an ongoing basis?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 35)Reply:

The number of complaints lodged to the Education Bureau (EDB) against public sector and Direct Subsidy Scheme (DSS) schools, and the number of verbal/written advice and warnings issued for substantiated cases from the 2016/17 to 2018/19 school years are tabulated below:

School year	No. of complaints against public sector and DSS schools received (Note)	No. of cases pursued (Note)	Issued for substantiated cases		
			Verbal advice	Written advice	Written warning
2016/17	179	179	0	11	2
2017/18	207	207	1	15	2
2018/19	211	211	1	18	0

Note: Most of the cases involved daily operation or internal affairs of schools. Under the related mechanism, these cases would be referred by the EDB to schools for handling and issuing replies to the complainants, and schools were required to send a copy of the replies to the EDB for information. The EDB noted that most of the cases were minor in nature and thus could be followed up by the schools in accordance with their school-based mechanism. For a few substantiated cases that involved more serious issues, the EDB would take follow-up actions, such as issuance of verbal or written advice and warning to schools.

Under the Project on Enhancement of Complaint Management in Schools, upon receipt of complaints from parents, students or members of the public against the daily operation or internal affairs of schools, the EDB will refer the complaint to the school for direct handling upon seeking the complainant's consent. The school concerned should handle the complaint and reply to the complainant in accordance with its school-based mechanism and procedures, and send a copy of the reply to the EDB for information. The EDB will scrutinise the school's reply and, depending on the circumstances, take follow-up actions as appropriate. However, if the nature of the complaint is serious, the EDB will conduct direct investigation. As for other school-related complaints that involve the Education Ordinance, education policies and services rendered directly by the EDB, complaints referred by other departments, and complaints lodged by school staff, they will be handled by the EDB. Generally speaking, officers of the EDB will contact the school concerned for the relevant report and information. They may interview the parties concerned and scrutinise the relevant documents at the school in order to obtain further details of the case if necessary. The EDB will reply to the complainant upon completion of the investigation. In addition, if the complaint is substantiated, the EDB will approach the school to follow up on its irregularity, for instance, issuing verbal or written advice and warning and requesting the school to rectify the irregularity and submit improvement plans.

The Task Force on School-based Management Policy submitted its review report to the Government in July 2019. All the 27 recommendations contained therein, including enhancing school manager training to improve the quality of governance of aided schools, were all accepted by the Government. Regarding the concerned recommendation, the EDB has provided all public sector schools (including special schools) and DSS schools with additional resources to strengthen administrative support for schools and their management committees starting from the 2019/20 school year. The additional expenditure involved is around \$570 million each year. The above support includes the implementation of the "One Executive Officer for Each School" policy where public sector schools and DSS schools have been provided with resources for hiring additional administrative manpower. Apart from reducing the administrative work of teachers and principals to enable them to focus more on teaching and taking care of students' development, this can also help schools to review their school-based administrative arrangements and requirements, streamline administrative procedures, and strengthen school administrative support and efficacy, thereby enhancing the quality of school management. At the same time, we have enhanced the training for school managers and have been taking forward the related measures progressively. For instance, we have enhanced the contents of training courses, increased the number of training places and diversified the training modes for school managers, enhanced the school-based management webpage and tools,

conducted focus group discussions to understand the actual training needs of school managers, etc. We will continue to collaborate with school sponsoring bodies and incorporated management committees to provide diversified training for school managers so as to promote the participation of stakeholders in school governance.

CONTROLLING OFFICER'S REPLY

EDB014

(Question Serial No. 0805)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) gains an understanding of schools' implementation of their school-based homework policy through inspections, school visits and daily contacts and as appropriate, makes recommendations on improving the quality of homework. Please provide the number of recommendations made in the past 3 years. What performance indicators will the EDB adopt to assess the effectiveness of promoting interesting and meaningful homework?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 36)

Reply:

To enable schools to devise an appropriate school-based homework policy in alignment with the curriculum, the Education Bureau (EDB) has all along set out in various curriculum documents, circulars, letters, etc. the guiding principles and proposed measures for formulating and implementing a school-based homework policy, stressing, among others, that homework quality matters more than its quantity and that schools may design different modes of homework.

Different sections of the EDB contact schools through various means, such as inspections, school visits and meetings, to gain an understanding of learning and teaching in schools. In the process, the EDB officers will understand schools' work progress relating to learning and teaching, including the implementation of school-based homework policy, as necessary. Discussions and recommendations will cover whether homework is aligned with the curriculum aims, objectives and topics; whether it suits students' abilities, levels and learning needs; and whether the amount of homework at each class level is assigned in a coordinated manner. If necessary, the EDB officers will remind schools to design more interesting and meaningful homework to stimulate students' interest in learning, encourage active exploration and develop their creativity. From the perspective of teaching professionalism, homework, as one of the arrangements under learning and teaching, should

be designed to dovetail with curriculum and teaching so as to consolidate and extend learning, etc. We will not set homework as the sole focus of school visits. It is neither possible to have hard and fast indicators for assessing the effectiveness of homework. We, therefore, have no statistical data on the number of related recommendations.

CONTROLLING OFFICER'S REPLY

EDB015

(Question Serial No. 0806)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please provide the number of complaints received by the Education Bureau (EDB) in respect of the controversies over the amendments to the Fugitive Offenders Ordinance last year, the number of complaints substantiated and figures on penalties imposed. As the number of relevant complaints is expected to increase this year, will the EDB, in the course of handling, disclose details other than those related to personal privacy so that schools, parents and students can have a better understanding of its yardsticks?

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 37)

Reply:

Teachers play a vital role in passing on knowledge and nurturing students' character and serve as an important role model for students. Therefore, the Education Bureau (EDB) attaches great importance to teachers' professional ethics. From mid-June 2019 to end of January 2020, the EDB received a total of 171 complaints about suspected professional misconduct of teachers during recent social incidents. We have substantially completed the investigation of 125 cases, of which 47 were found unsubstantiated.

Among the above-mentioned 125 cases, the EDB has taken follow-up actions on 39 of them, including issuing reprimand letters to 13 teachers and warning letters to another 4. The EDB may consider cancelling these teachers' registration pursuant to the Education Ordinance if they misconduct themselves again. We have also issued advisory letters to 9 teachers and verbal reminders to another 13 to remind them to refrain from activity that is detrimental to the image of the teaching profession and to show respect to the behavioural norms acceptable to society. For the remaining 39 cases, our initial view is that they are likely to be substantiated. In accordance with the established procedures, we are currently waiting for or considering the responses from the teachers concerned with a view to determining the appropriate follow-up actions.

In determining whether a teacher is involved in professional misconduct, the EDB will consider the matter from a professional perspective, focusing on whether the acts in question conform to the professional ethics, whether the behaviours of the teacher concerned have violated social expectations and whether the values so demonstrated will have an adverse impact on the teaching profession or students. We do not agree that details of such cases should be made public. Apart from the privacy concern, each case is unique and could hardly be generalised. It will be unfair to allow anyone, who does not possess a complete set of information, to comment on the cases. Nevertheless, among the cases handled by the EDB, some can be used for teacher reflection. From the perspective of professional development, we will make reference to the contents of some cases to design reflective questions to enhance the ethical standards of teachers.

CONTROLLING OFFICER'S REPLY

EDB016

(Question Serial No. 0807)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

As mentioned by the Education Bureau, former police officers or former officers of other law enforcement departments will be employed to carry out inspections of unlicensed schools or tutorial centres. Please set out the estimated staff establishment this year.

Asked by: Hon CHENG Chung-tai (LegCo internal reference no.: 38)

Reply:

The Education Bureau (EDB) established in May 2000 the Central Compliance Team, with the task of handling complaints concerning the operation of unregistered schools, and combatting such operation through inspection and prosecution in accordance with the Education Ordinance. To dovetail with the relevant law enforcement work, the EDB is employing through open recruitment Assistant Operation Officers (Central Compliance), who will be appointed as part-time officers on non-civil service contract. The post-holders are responsible for assisting in inspections made on suspected unregistered school premises, preparing investigation reports, gathering evidence (including taking statements from the persons involved) and giving evidence in courts during the course of prosecution. As such, candidates for the post should have served in a law enforcement agency and have experience in law enforcement. In 2020-21, there will be 8 part-time officers on the estimated establishment of this post.

CONTROLLING OFFICER'S REPLY

EDB017

(Question Serial No. 1385)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau has been responsible for administering the allocation exercise for vacant school premises (VSP). In this connection, please provide:

- (1) a detailed account of the uses of reallocated VSP, organisations using these VSP sites, site areas, and length of tenancies over the past 3 years, with a breakdown by 18 districts; and
- (2) a detailed account of the names, locations, site areas and length of vacancy periods of VSP that have not been designated for specific uses, with a breakdown by 18 districts.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 28)

Reply:

It has all along been the Education Bureau (EDB)'s policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacant school premises, the EDB will assess the VSP's suitability for school or other educational uses having regard to factors including the size, location, physical conditions, etc., of the relevant premises, as well as the educational needs and relevant policy measures. When the EDB confirms that the VSP is no longer required by the EDB for reallocation for school use, the EDB will, in accordance with the Central Clearing House Mechanism, inform the Planning Department (PlanD) and other relevant departments (such as the Lands Department and the Housing Department) for the PlanD's consideration of suitable alternative long-term uses. According to the mechanism, the EDB is allowed to retain VSP for school use. However, if the EDB intends to use VSP for other educational uses, the EDB needs to put forward its proposed use with justification to the PlanD for assessment and may need to compete with other government departments on use of such VSP.

All the VSP under the EDB's purview are earmarked/retained for school or other educational uses, including catering for the anticipated demand for school places, reprovisioning of existing schools to improve their learning and teaching environment, decanting use by schools undergoing in-situ redevelopment or extension works, etc. As at end-February 2020, there are 9 VSP under the EDB's purview which are earmarked/retained for school or other educational uses.

According to the EDB's prevailing school allocation mechanism, once a vacant/to-be-vacant premises is confirmed to be required for allocation for school use, the EDB will normally invite applications from all eligible organisations in the territory through a School Allocation Exercise (SAE) and make relevant announcement through press release and on its website. The SAE is generally conducted on a competitive basis amongst the applicant bodies. When assessing the applications, quality of education is the prime consideration of the School Allocation Committee comprising official and non-official members. Other factors, including operation track record and condition of existing school premises (where applicable), the school proposal, etc., will also be considered.

In the past 3 years (2017-2019), the EDB has allocated 7 VSP through the SAEs for reprovisioning of existing primary schools, setting up time-limited primary schools, physical extension of existing primary schools for a time-limited period, and transitional school premises use. Regarding the length of tenancy, except for time-specific uses (such as time-limited schools), the years of use of school premises allocated through the SAEs for uses such as reprovisioning of existing schools and setting up new schools are generally determined by the service agreements and tenancy agreements entered into between the EDB and the schools. Following the established practice, the 7 schools were granted a 5-year tenancy which can be renewed for another 5 years.

The information on the 7 allocated VSP mentioned above is set out in the table below:

Table – Information on the VSP allocated for school use through the SAEs from 2017 to 2019

SAE	District	Former school name	Address	Use of the allocated school premises	Organisation recommended for allocation	Site area of the VSP (rounded to the nearest hundred m²)
First SAE 2017	Wong Tai Sin	Po Leung Kuk Stanley Ho Sau Nan Primary School	30 Hong Keung Street, San Po Kong, Kowloon	Reprovisioning of an existing primary school	Po Leung Kuk (Reprovisioning of Po Leung Kuk Mrs. Chan Nam Chong Memorial Primary School)	2 400
	Tuen Mun	Shi Hui Wen Secondary School	2 Leung Choi Lane, Tuen Mun, New Territories	Reprovisioning of an existing primary school	Po Leung Kuk (Reprovisioning of Po Leung Kuk Vicwood K.T. Chong No. 2 Primary School)	6 100

Third SAE 2017	Sha Tin	Free Methodist Mei Lam Primary School	Mei Lam Estate, Sha Tin, New Territories	Use as the transitional school premises for a new aided primary school (Note(1))	Tung Wah Group of Hospitals	3 900#
Fourth SAE 2017	Sham Shui Po	St. Francis of Assisi's Caritas School	221 Nam Cheong Street, Shek Kip Mei, Kowloon	Physical extension of an existing primary school for a time-limited period (Note(2))	The Evangelical Lutheran Church of Hong Kong (ELCHK) (for physical extension of the ELCHK Faith Lutheran School for a time-limited period)	2 200
	Tai Po	Confucian Sam Lok Chow Mud Wai School	Tai Yuen Estate, Tai Po, New Territories	Setting up a new time-limited primary school (Note(2))	New Territories Women & Juveniles Welfare Association Limited	5 200#
Fifth SAE 2017	Kwun Tong	St. Joseph's Anglo-Chinese School	61 Kwun Tong Road, Kwun Tong, Kowloon	Reprovisioning of an existing primary school	Catholic Diocese of Hong Kong (Reprovisioning of Ping Shek Estate Catholic Primary School)	2 900

Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

Note (1) –Tung Wah Group of Hospitals was allocated a new school premises under planning in Shui Chuen O, Sha Tin, under the Third SAE 2017 for operating a new aided primary school. Pending completion of the new school premises in Shui Chuen O, the new school has commenced operation at the VSP concerned from the 2018/19 school year to meet the projected demand for public sector primary school places arising from an increase in student population in the Sha Tin District. The school will relocate to the new school premises in Shui Chuen O once it is completed while the temporary premises will be returned to the Government for disposal.

Note (2) – The time-limited school and the school with time-limited physical extension will operate from the 2018/19 to 2026/27 school years to alleviate the transitional tight supply of primary school places in the Sham Shui Po District and Tai Po District. When the demand and supply situation of primary school places in the respective districts has stabilised, the school operators will be required to surrender the school premises to the Government upon reasonable notice by the Government in accordance with the tenancy agreement.

CONTROLLING OFFICER'S REPLY

EDB018

(Question Serial No. 1386)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

A comparison with the same Programme in last year's Estimates shows that for 2018/19, there is a change in the wastage rate of kindergarten (KG) teachers from 11.9% to 12.3%, and for 2019/20, there is a change in the wastage rate of KG teachers from 11.8% to 12.0%. Please advise this Committee of the following:

- 1 Why did the Administration repeatedly underestimate the wastage rate of KG teachers?
- 2 How is the estimated KG teacher wastage rate of 11.8% arrived at for 2020/21?
- 3 In the form of a table, please give the wastage rate of various types of KG teachers (including teachers with Certificate in Early Childhood Education or higher qualifications, teachers with other teacher training and untrained teachers) and the overall wastage rate of KG teachers in the past 5 years.
- 4 Does the Administration have any timetable for introducing a pay scale for KG teachers? If no, what are the reasons? Are there measures to reduce wastage rate before the introduction of a pay scale?

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 29)

Reply:

- 1 In the 2018/19 school year, the wastage rate 11.9% is a provisional figure while the wastage rate 12.3% is the actual figure. In the 2019/20 school year, the wastage rate 11.8% is an estimated figure and the wastage rate 12.0% is a provisional figure. Because of updating, the provisional figure might differ from the actual figure and the estimated figure might be different from the provisional figure.
- 2 The wastage rate for the 2020/21 school year is a projection based on the wastage rate of the 2019/20 school year, having regard to such information as the estimated demand for kindergarten (KG) teachers and the number of drop-out teachers in the past.

- 3 The wastage rate of local KG teachers with Certificate in Early Childhood Education (C(ECE)) or higher qualifications, other teacher training and no relevant training, as well as the overall wastage rate[#] of local KG teachers in the school years from 2015/16 to 2019/20^(Note) are set out below:

School year	2015/16 (%)	2016/17 (%)	2017/18 (%)	2018/19 (%)	2019/20 (%)
Wastage rate of teachers with C(ECE) or higher qualifications	7.4	9.0	9.2	11.4	11.1
Wastage rate of teachers with other teacher training*	13.7	18.0	26.0	22.9	25.3
Wastage rate of teachers with no relevant training	28.0	34.7	26.8	29.8	27.8
Overall teacher wastage rate	8.6	10.5	10.5	12.3	12.0

“Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers in local KGs as at mid-September of the preceding school year. “Drop-out teachers” refers to teachers who had served in a local KG as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

* Teachers with other teacher training refer to qualified KG teachers and qualified assistant KG teachers.

Note: Figures of the 2019/20 school year are provisional. Information provided under the Programme reflects the position in September 2019, whereas the analysis above is based on the information updated in February 2020.

- 4 A mandatory salary scale for KG teachers, if established, would be similar to the existing salary arrangements for teachers in aided schools. The funding mode for aided schools is tied with several inter-connected components, such as the Education Bureau’s annual approval for the number of operating classes and the staff establishment, and is subject to the control measures implemented by the Government for the prudent and balanced planning of school places under the school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating half-day and whole-day classes to meet the needs of parents. On the other hand, as compared to a mandatory salary scale on which teacher salary is determined solely by seniority, a salary range allows greater flexibility and ensures competitiveness. It enables the KG management to decide flexibly the remuneration of its staff, taking into account their qualifications, teaching experience, performance, additional duties, training received and special skills possessed. As the setting up of a salary scale for KG teachers involves various aspects as mentioned above, it should be handled prudently. In this connection, we have undertaken to use the data of the 3 school years from 2017/18 to 2019/20 as the basis to explore the feasibility of introducing a salary scale for KG teachers. As announced in the 2018 Policy Address, we started a review in mid-2019 on the implementation of the new policy, including the salary arrangements for KG teachers. We have been consulting the stakeholders during the process.

Under the KG education policy, KGs are encouraged to establish a career ladder and offer competitive remuneration to retain and attract quality teachers. Various measures have been adopted to ensure that teachers are remunerated reasonably. These include providing salary ranges for respective ranks of teaching staff and KGs are obliged to remunerate their teachers within their corresponding salary ranges; prescribing 60% of the basic unit subsidy as teachers' salary portion, which must be used on teaching staff salaries and related expenses (while KGs may deploy any portion of the remaining 40% for teaching staff salaries and related expenses, but not vice versa); and clawing back the accumulated surplus in the salary portion exceeding the reserve ceiling to encourage schools' optimal use of the subsidy on teaching staff salary.

(Question Serial No. 1387)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under the Programme that the Bureau will enhance the additional funding to all public sector and Direct Subsidy Scheme primary schools admitting a relatively small number of non-Chinese speaking (NCS) students under a new two-tiered arrangement to facilitate the implementation of the “Chinese Language Curriculum Second Language Learning Framework” starting from the 2020/21 school year. Please advise this Committee of the following:

- (1) the total number of ethnic minority (EM) students (including Indonesian, Filipino, Indian, Pakistani, Nepalese and other NCS students) currently studying in kindergartens, primary schools and secondary schools in Hong Kong;
- (2) the specific measures adopted by the Administration to support EM students in learning the Chinese language and the expenditure involved;
- (3) whether there are indicators for the Administration to assess the overall Chinese proficiency of EM students; if yes, of the details; and
- (4) the Government policy in assisting EM students to increase their chances of pursuing studies in tertiary institutions, the expenditure involved, and the number of EM students who completed funded university programmes and self-financing degree programmes in Hong Kong in the past 5 years.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 30)

Reply:

- (1) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. According to the information collected through the annual Student Enrolment Survey, the number of ethnic minority (EM) students studying in kindergartens and the number of NCS EM students studying in public sector and Direct Subsidy Scheme (DSS) schools in the 2019/20 school year, disaggregated by ethnicity as asked in the question, are tabulated at Annex A. We do not have readily available information about the number of NCS students studying in private schools, English Schools Foundation schools and other international schools.
- (2)&(3) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' effective learning of the Chinese language and the creation of an inclusive learning environment in schools. Starting from the 2014/15 school year, the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, has been implemented in primary and secondary schools. The "Learning Framework", complemented by supporting learning and teaching materials, has helped NCS students in learning Chinese as a second language. Furthermore, starting from the 2014/15 school year, Applied Learning Chinese (for NCS Students) (ApL(C)) has been introduced at the senior secondary levels to provide NCS students with an additional channel to obtain an alternative Chinese Language qualification for further studies and career pursuits. In addition to the Hong Kong Diploma of Secondary Education Examination (HKDSE) qualification, ApL(C) is pegged at Levels 1-3 of the Qualifications Framework. Starting from the 2014/15 school year, all public sector schools and DSS schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, these schools may also apply for an additional funding of \$50,000 on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. The support measures for NCS students and the expenditure involved for the 2019/20 school year are tabulated at Annex B.

To enhance the support for NCS students in learning Chinese and create an inclusive learning environment in schools, EDB will, starting from the 2020/21 school year, provide a new two-tiered subsidy for all schools admitting a relatively small number of NCS students (1 to 5 students and 6 to 9 students respectively)

and increase the amount of the additional funding from currently \$50,000 to \$0.15 million or \$0.3 million. It is estimated that about 200 primary schools and 180 secondary schools will be provided with the additional funding in the 2020/21 school year, and the expenditure involved will be about \$34.35 million and \$30.9 million respectively. The amount of the additional funding provided to schools admitting NCS students will also be adjusted based on the year-on-year movement of the Composite Consumer Price Index and/or the annual rates of the Civil Service Pay Adjustment.

EDB has been continuously developing diversified learning and teaching resources such as the “Chinese Language Assessment Tools for NCS Students” (“Assessment Tools”) and teaching reference materials to provide guidelines and support for teachers. The assessment tasks under the “Assessment Tools” cover the entry stage, Key Stage 1 (Primary 1-3), Key Stage 2 (Primary 4-6), Key Stage 3 (Secondary 1-3) and Key Stage 4 (Secondary 4-6). The tasks in each stage are designed in conjunction with the expected learning outcomes across different levels of the “Learning Framework”, so as to assist teachers in teaching and providing assessment feedback to NCS students. Aligned with curriculum planning, teaching progression and NCS students’ learning needs, teachers may adopt a school-based approach in using the “Assessment Tools” to assess NCS students’ learning progress over time, provide timely feedback on learning and set progressive learning targets for their NCS students. Currently, schools make use of the “Assessment Tools” to assess their NCS students’ learning progress on their own. Inevitably, differences may arise among schools and there is also a lack of objective comparison of the performance of students in different schools. Therefore, EDB is exploring how to assess NCS students’ learning progress in Chinese at system level, with a view to providing feedback to schools and enhance related support measures.

We understand that the learning effectiveness of NCS students is affected by other factors (such as students’ learning attitude, parents’ expectation and cooperation). It is therefore neither appropriate nor possible to assess the effectiveness solely based on the enhancement of the Chinese proficiency of NCS students. We will look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning.

- (4) EDB has all along been supporting secondary schools to implement Life Planning Education and provide career guidance services. To prepare NCS students for further studies and career pursuits, EDB commissioned a non-governmental organisation (NGO) to implement a pilot project from the 2015/16 to 2017/18 school years to organise life planning activities and work experience programmes that enabled NCS students to understand their career orientation and learn about different study pathways and jobs. A total of 1 800 NCS students participated in the project and the expenditure involved was about \$6.3 million. Starting from the 2018/19 school year, EDB has continued to commission an NGO to organise career exploration activities for NCS students, including visits to post-secondary institutions, workplace visits and work experience programmes, etc., to help them make informed choices on further studies and careers, set personal goals and plan

their future. In the 2019/20 school year, it is expected that 620 students will benefit from the service, which involves an expenditure of about \$1.3 million.

Parents play a vital role in the development and learning of their children. As such, EDB will strengthen parent education for parents of NCS students and encourage them to enrol their children to local kindergartens and strengthen their communication with schools. Starting from the 2020/21 school year, we will provide a series of parent education programmes for NCS parents to help them support their children's learning, encourage their children to master the Chinese language and help them have more comprehensive understanding of the multiple pathways available to their children. The five-year initiative will involve an estimated average annual expenditure of \$3 million.

The participating institutions of the Joint University Programmes Admissions System and other post-secondary institutions accept alternative Chinese Language qualifications of eligible NCS students for the purpose of satisfying the entrance requirement in respect of Chinese Language. To help NCS students obtain these qualifications, EDB subsidises these NCS students to obtain internationally recognised alternative Chinese Language qualifications, including those under the General Certificate of Secondary Education (GCSE), International General Certificate of Secondary Education (IGCSE) and General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level for admission to the University Grants Committee (UGC)-funded universities and post-secondary institutions. Subsidised school candidates are only required to pay a "subsidised examination fee" on par with the examination fee for the Chinese Language subject in the HKDSE. Eligible needy NCS students can also apply for full or half fee remission of the "subsidised examination fee" under the Examination Fee Remission Scheme. With the Government paying the examination fees for school candidates of the 2019 to 2021 HKDSE, the "subsidised examination fee" for eligible NCS students entering for the above-mentioned non-local Chinese Language examinations from the 2018/19 to 2020/21 school years is waived accordingly. The total expenditure on the relevant measure from the 2018/19 to 2020/21 school years is around \$4.2 million, \$5.9 million (estimated) and \$8.2 million (estimated) respectively.

The number of local NCS students (i.e. local students whose spoken language at home is not Chinese) admitted to UGC-funded undergraduate programmes from the 2015/16 to 2019/20 academic years is 198, 210, 296, 313 and 288 (provisional figure) respectively. The UGC has not collected statistics of EM or NCS students who have completed UGC-funded post-secondary programmes. We do not maintain statistics on the number of EM students who have completed self-financing degree programmes either.

**Number of ethnic minority (EM) students studying in kindergartens
in the 2019/20 school year by ethnicity**

Indonesian	Filipino	Indian	Pakistani	Nepalese	Others	Total
157	662	1 366	1 512	969	5 953	10 619

**Number of non-Chinese speaking (NCS) EM students studying in primary and
secondary schools in the 2019/20 school year by ethnicity**

	Indonesian	Filipino	Indian	Pakistani	Nepalese	Others	Total
Primary	198	1 323	1 093	3 202	1 893	1 706	9 415
Secondary	101	1 494	1 314	3 249	1 383	1 396	8 937

Notes:

1. Figures refer to the position as at mid-September of the school year.
2. Figures for kindergartens include K1, K2 and K3 of kindergarten-cum-child care centres. Figures include both local and non-local kindergartens.
3. Figures for kindergartens include EM students with Chinese as the spoken language at home.
4. Figures for primary and secondary schools include public sector schools and Direct Subsidy Scheme (DSS) schools (1 DSS secondary school offering non-local curriculum only is excluded for not having provided information on the ethnicity of their NCS students) but exclude special schools.
5. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students. Figures for primary and secondary schools have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

**Educational support measures for non-Chinese speaking (NCS) students
in the 2019/20 school year**

Support measures	Estimated expenditure in the 2019/20 school year \$ million
Starting from the 2014/15 school year, the funding to schools has been increased on a tiered basis according to the number of NCS students admitted and school-based professional support services have been enhanced to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support for NCS students' learning of the Chinese language, as well as the creation of an inclusive environment in schools. Schools with a relatively small number of NCS students may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	282.3 Note 1
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0 Note 1
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays, and provide learning and teaching resources for those NCS students who have a late start in the learning of the Chinese language, and to organise workshops for experience sharing with teachers and workshops for parents of NCS students with a view to strengthening collaboration with parents of NCS students in the support for NCS students' learning of Chinese	2.9
Summer Bridging Programme for NCS students in primary schools Starting from 2013, parents of NCS students can accompany their children with a view to enhancing their exposure to and use of Chinese and support for their children.	2.0
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	6.8
Subsidising eligible school candidates entering for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that subsidised school candidates are only required to pay a "subsidised examination fee" on par with the	5.9 Note 2

Support measures	Estimated expenditure in the 2019/20 school year \$ million
<p>examination fee for the Chinese Language subject in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE)</p> <p>Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level.</p>	
<p>Starting from the 2019/20 school year, public sector ordinary primary and secondary schools admitting NCS students with special educational needs (SEN) are provided with the Grant for Supporting NCS Students with SEN under a 3-tier structure.</p>	28.1
<p>In the 2018/19 and 2019/20 school years, secondary schools admitting NCS students are provided with additional resources to support their NCS students in using Chinese to learn Chinese History.</p>	12.5
<p>District-based programmes organised in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art under the Language Fund</p>	0.7
<p>Support for kindergartens (KGs) admitting NCS students –</p> <p>(a) In the 2019/20 school year, post-secondary institutions are commissioned to provide school-based support services for KGs admitting NCS students, so as to enhance the professional capacity of teachers in teaching Chinese to NCS students.</p> <p>(b) School-based professional support services</p> <p>(c) With the implementation of the new KG education policy starting from the 2017/18 school year:</p> <p>(i) starting from the 2019/20 school year, the subsidy for KGs admitting NCS students has been enhanced with a 5-tiered subsidy provided based on the number of NCS students admitted, which replaced the flat-rate subsidy for KGs admitting 8 or more NCS students.</p> <p>(ii) specific training courses for KG teachers on supporting NCS students</p>	<p>Note 3</p> <p>Note 1</p> <p>109.8</p> <p>2.6</p> <p>Note 4</p>

Notes:

1. These measures are provided by different sections of EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different funds, and a breakdown of expenditure by item is not available.
2. With the Government paying the examination fees for school candidates of the 2019 and 2020 HKDSE, the “subsidised examination fee” for eligible NCS students entering for the non-local Chinese Language examinations concerned in the 2018/19 and 2019/20 school years is waived accordingly.
3. As the services are provided in both KGs and primary schools, a breakdown of expenditure by KG and primary school is not available. The estimated expenditure on the services is \$3.35 million for the 2019/20 school year.
4. Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate KGs in arranging for teachers to attend specific training courses on supporting NCS students. The relevant expenditure has been included in the estimated expenditure for these training courses.

- End -

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1388)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the following:

- (1) details of the funding arrangements for the measure to pay examination fees for school candidates sitting for the 2021 Hong Kong Diploma of Secondary Education Examination as stated in the Budget, with a breakdown of the estimated increase in manpower and number of student beneficiaries; and
- (2) whether the Administration will consider regularising this measure; if no, of the reasons.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 31)

Reply:

- (1) A series of relief measures are announced in the 2020-21 Budget. These include the proposed one-off initiative to pay examination fees for school candidates sitting for the 2021 Hong Kong Diploma of Secondary Education (HKDSE) Examination. About 44 100 school candidates will be benefitted. The estimated expenditure is \$151 million, which includes provision for contingencies.

The total amount actually paid to the Hong Kong Examinations and Assessment Authority (HKEAA) for candidates will depend on the actual number of subject entries made by eligible school candidates sitting for the 2021 HKDSE Examination. It is estimated that, with reference to the normal payment schedule of the 2021 HKDSE, the expenditure will be incurred mainly in 2020-21. The manpower and administrative expenses for implementing this measure will be covered by the Education Bureau (EDB)'s existing resources.

- (2) The Financial Secretary proposed in the 2018-19 Budget, 2019-20 Budget and 2020-21 Budget to pay examination fees for candidates sitting for the 2019 HKDSE Examination, 2020 HKDSE Examination and 2021 HKDSE Examination respectively, as a measure to share the fruits of economic success with the public and to relieve people's burden. At present, the EDB is working out a long-term plan to ensure financial stability of the HKEAA, and the proposal to regularise the measure of paying examination fees for candidates will be considered in one go.

- End -

CONTROLLING OFFICER'S REPLY

EDB021

(Question Serial No. 1389)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Programme that opportunities are provided for students to join Mainland exchange programmes and professional exchange programmes are arranged for teachers. Please advise this Committee of the following:

- (1) the details and expenditures of the Mainland exchange programmes for students and professional exchange programmes for teachers organised by the Education Bureau (EDB) in the past 5 years (2015/16 to 2019/20);
- (2) the numbers of primary and secondary students as well as teachers participating in Mainland exchange programmes, their percentages out of the total number of students or teachers in the past 5 years, and a distribution of the provinces and cities visited in the past 5 years;
- (3) the number of Mainland exchange programmes that were cancelled at the last minute over the past year and the number of students or teachers involved; and
- (4) whether the EDB has evaluated the effectiveness of Mainland exchange programmes for students and professional exchange programmes for teachers; if yes, of the details.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 32)

Reply:

(1) To dovetail with the school curriculum and the latest development of our country, the Education Bureau (EDB) organises Mainland exchange programmes for students, or subsidises those organised by schools. With diversified themes and destinations, these programmes enable students to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. Teachers participate in these programmes as learning facilitators on a ratio

of 1 teacher to 10 students. Besides, the EDB also organises various professional Mainland exchange programmes for teachers to widen their horizons and deepen their understanding of the Mainland's latest development in different aspects for enhancing their professional competence. Professional exchange programmes mainly include visits to and lesson observations conducted in primary schools, secondary schools and higher education institutions, visits to enterprises and cultural facilities, as well as thematic seminars and exchange forums held by experts and scholars on different fields.

The expenditures on Mainland exchange programmes in the past 5 school years (from 2015/16 to 2019/20) are as follows:

School Year	Expenditure (\$million)	
	Programmes for primary and secondary students	Programmes for teachers
2015/16	61.9	2.1
2016/17	64.2	2.9
2017/18	85.4	5.5
2018/19 #	108.9	7.1
2019/20 *	35.1	8.7

Actual figures revised from last year's estimates

* Provisional figures

(2) The EDB organises Mainland exchange programmes for students, or subsidises those organised by schools every school year. These programmes cover different provinces and cities in the Mainland, including 22 provinces, 4 autonomous regions and 4 municipalities. Students' participation is on a voluntary basis. The EDB does not collect information about individual students' participation in Mainland exchange programmes, and does not have the percentage of students who have or have not participated in such programmes. The numbers of primary and secondary students participating in the aforementioned Mainland exchange programmes in the past 5 years (from the 2015/16 to 2019/20 school years) are as follows:

School Year	Number of Students (rounded down to the nearest hundred)	
	Secondary Students	Primary Students
2015/16	35 800	23 400
2016/17	35 300	24 500
2017/18	40 200	26 800
2018/19 #	42 100	32 400
2019/20 *	9 300	11 200

Actual figures revised from last year's estimates

* Provisional figures

As mentioned above, teachers participate in the aforesaid Mainland exchange programmes as learning facilitators on a ratio of 1 teacher to 10 students. The EDB also organises various professional exchange programmes for teachers. The EDB does not collect statistical data on the number of teachers participating in these programmes as a percentage of the total number of teachers. Professional exchange programmes organised for teachers in the past 5 years (from the 2015/16 to 2019/20 school years) covered different provinces and cities in the Mainland, such as Beijing, Wuhan, Chengdu, Nanning, Hefei and various cities in the Guangdong Province. The numbers of teachers participating in these programmes in the past 5 years are as follows:

School Year	Number of Teachers (rounded down to the nearest ten)
2015/16	410
2016/17	690
2017/18	760
2018/19 [#]	1 680
2019/20 [*]	1 000

Actual figures revised from last year's estimates

* Provisional figures

(3) All along, schools could organise Mainland exchange programmes on their own or choose to participate in Mainland exchange programmes or subsidy schemes organised by the EDB according to their school needs. Students' participation is on a voluntary basis. From time to time, schools cancel or postpone their scheduled Mainland exchange programmes in light of school-based circumstances. The EDB only has the numbers of participating schools, teachers and students for each trip, and does not collect or compile statistics on the numbers of Mainland exchange programmes that were cancelled at the last minute. Nevertheless, classes are suspended on many school days in the 2019/20 school year, and during class suspension, the scheduled Mainland exchange programmes have to be cancelled. Upon class resumption, primary and secondary schools need to reschedule their teaching and other activities, and it is possible that the exchange programmes will not be conducted as planned.

(4) The EDB has been attaching importance to the quality of Mainland exchange programmes for students and professional exchange programmes for teachers. There is a regular mechanism established to evaluate the opinions of the participants of these programmes, including having meetings with the service providers, deploying staff to attend the programmes to assess the appropriateness of the content and collecting the immediate responses of the participants, conducting questionnaire surveys, and arranging interviews and post-programme sharing sessions. The feedback from teachers and students is generally positive.

EDB022

(Question Serial No. 1390)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (8) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the following:

- (1) In the past 5 years (from 2015 to 2019), how many cases involving teachers suspected of committing a criminal offence or an act of professional misconduct were received by the Education Bureau (EDB)? Please set out the numbers of cases that are substantiated, not substantiated and under investigation.
- (2) What are EDB's policy on handling complaints about teachers' professional misconduct and strategies for reducing incidents of teachers committing acts of misconduct? What are the financial resources and manpower involved?
- (3) How many complaints about teachers' misconduct were followed up by the EDB in the past 5 years? Please set out the numbers of cases involving issuing reprimand, warning and advisory letters as well as taking the disciplinary action of interdiction.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 33)

Reply:

(1) and (3)

The Education Bureau (EDB) attaches great importance to teachers' professional conduct. Teachers play a vital role in passing on knowledge and nurturing students' character and serve as an important role model for students. If a teacher is involved in an act of professional misconduct, the EDB will follow up the case seriously and pursue investigation according to the established procedures. These include comprehensively considering the facts and evidence as well as the teacher's representations, and determining the actions to be taken in accordance with the Education Ordinance. For a teacher suspected of committing a criminal offence, the EDB will review his/her teacher registration status upon conclusion

of trial by referring to the court documents and other obtainable information, regardless of whether the subject is convicted or not. In respect of teachers who have committed/allegedly committed a criminal offence or an act of professional misconduct, figures on the cases (including the misconduct cases involving persons who applied to teach as registered teachers or permitted teachers) handled and followed up by the EDB in the past 5 years (from 2015 to 2019) are set out below:

Year	No. of cases	Total no. of cases with investigation completed and/or follow-up actions taken
2019	110	77
2018	47	47
2017	35	35
2016	60	60
2015	66	66
Total	318	285

(2) For a case where a teacher is suspected of violating professional conduct, the EDB will conduct investigation according to the established procedures and fully consider the facts, evidence and representations from the teacher. In making a decision, the EDB will also take into account the grounds for cancelling the registration of a teacher by the Permanent Secretary for Education specified in Section 47 of the Education Ordinance, including the grounds for refusal to register a teacher as specified in Section 46; whether the teacher is incompetent; whether the teacher has contravened any provision of the Education Ordinance; whether the teacher has behaved in any manner which constitutes professional misconduct; or whether the teacher has behaved in any manner which is prejudicial to the maintenance of good order and discipline in the school in which the teacher teaches. In determining whether a teacher is involved in professional misconduct, the EDB will consider the matter from a professional perspective, focusing on whether the acts in question conform to the professional ethics, whether the teacher concerned has violated social expectations and whether the values so demonstrated will have an adverse impact on the teaching profession or students.

The EDB has been determined to maintain a teaching profession of high quality and with professional conduct in Hong Kong. To encourage teachers and school leaders to reflect and demonstrate professional roles and conduct expected of them, we have embeded the Professional Standards for Principals and Professional Standards for Teachers of Hong Kong (T-standard⁺) in teacher training programmes as appropriate, which include training programmes for aspiring principals and newly-appointed principals, as well as serving teachers and newly-joined teachers. Meanwhile, among the cases handled by EDB, some can be adopted for teacher reflection. We will make reference to the contents of some cases to design teaching materials for reflection to enhance the ethical standards of teachers.

As the handling of cases of teachers suspected of committing a criminal offence or an act of professional misconduct is part of the EDB's routine work and the expenses incurred are subsumed under the EDB's overall manpower and operating expenditure, a breakdown is not available.

(3) In the past 5 years (from 2015 to 2019), there were 169 substantiated cases involving teachers' professional misconduct that were investigated by the schools concerned and followed up by the EDB. The EDB cancelled the registration of 13 teachers, and issued reprimand letters to 12 teachers, warning letters to 62 teachers, and advisory letters to 36 teachers. For the remaining 46 cases, since the teachers' misconduct involved was minor and/or disciplinary actions had been taken by their schools, only verbal advice was given by the EDB or no follow-up actions were required on the part of the EDB. In these cases, disciplinary action of suspension of duties was taken against 5 teachers by their respective schools during the period.

(Question Serial No. 1391)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (8) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the following:

- (1) the number of school bullying cases reported to the Education Bureau (EDB), and among the students involved, the number of those with special educational needs and those without, and the number of those who are Chinese speaking and those who are not in the past 5 years (2015/16 to 2019/20);
- (2) the EDB's policy on handling school bullying; whether the EDB will step up its current policy initiatives to combat school bullying and provide victims with better support; If yes, the specific arrangements; and
- (3) the expenditure and manpower involved in combating school bullying and whether additional resources will be allocated for this purpose.

Asked by: Hon CHENG Wing-shun, Vincent (LegCo internal reference no.: 34)

Reply:

- (1) Based on the information collected from the Education Bureau's (EDB) annual questionnaire survey on guidance and discipline cases in public sector primary and secondary schools, the number of students (including students with special educational needs (SEN)) involved in school bullying cases in the past 5 years (i.e. from the 2014/15 to the 2018/19 school years) is as follows:

School Year	2014/15	2015/16	2016/17	2017/18	2018/19
Number of students involved in school bullying cases (students with SEN)	214 (23)	204 (30)	124 (48)	202 (48)	226 (45)

Note: As we do not separately collect information regarding non-Chinese speaking students in the survey, the relevant data is not available.

(2) and (3)

The EDB will not tolerate any act of bullying (including cyber-bullying) in schools. All along, we have been maintaining close contact with schools through circulars, guidelines and training, requiring all of them to take the matter seriously and implement proactive measures to ensure the safety of students at school and strive to create a harmonious school environment which is conducive to students' learning by raising the awareness of anti-bullying among students and staff and handling bullying incidents in schools in an appropriate manner.

Regarding the handling of school bullying, if there are bullying incidents, schools should intervene and take follow-up action as soon as possible, taking education, guidance and protection of their students as their prime concern. In the process of handling these cases, schools have to work together with parents to help students involved rectify their behavioral problems and better protect the students being bullied. If suspected abuse is involved, schools may consult the Social Welfare Department (SWD) so that case referral and counselling services can be provided. For serious cases, schools should report them to the Police immediately to seek assistance. The EDB will liaise with schools, the SWD and the Police on appropriate ways to handle cases.

We notice that there are more school bullying cases involving students with SEN in recent years. Apart from carrying on with our work in guidance and discipline in schools, we will strengthen the promotion of activities related to anti-bullying and respect for others to cultivate students' respect for differences and their due attitude to get along with others. To facilitate students with SEN to integrate into school life, the EDB will also continue to encourage schools to adopt the Whole School Approach to integrated education. Through peer support programmes, circle of friends, class management activities, collaborative learning, etc., students can get to know and accept each other, and all teachers and students will respect individual differences and jointly develop an inclusive school culture. Besides, home-school cooperation is very important. We urge schools to, through parent education, encourage parents to listen patiently to their children, support them to face difficulties with a caring attitude, maintain communication with schools, and seek help from teachers, guidance personnel and social workers whenever necessary.

Schools are equipped with professionals, including guidance personnel, school social workers and school-based educational psychologists, etc., who provide necessary support and mediation service for students in need. To support schools in better catering for the needs of students (including the students being bullied), the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources through a new funding mode to enable them to implement the policy of "one school social worker for each school" as soon as possible according to school-based circumstances. In

the 2019/20 school year, the estimated total expenditure on student guidance service under the old funding mode and the new funding mode is \$487 million. In addition, the SWD has since the 2019/20 school year implemented the policy of “two school social workers for each school” with enhanced supervisory support in secondary schools. The 2019-20 revised estimate for secondary school social work service is \$617 million.

Moreover, the EDB attaches great importance to the prevention of school bullying. At the curriculum level, learning topics like personal growth, interpersonal relationships and protecting oneself are covered in the Key Learning Areas, subjects and the curricula of moral and civic education of primary and secondary schools, with a view to helping students develop positive values and attitudes, such as empathy and respect for others, and acquire skills of conflict resolution and establishing harmonious interpersonal relationships. As the above work forms part of the curriculum tasks, separate figures on the financial resources and manpower required are not available.

As regards school activities, the EDB has organised diversified programmes on student growth for schools, such as the “Understanding Adolescent Project (Primary)”, “Pupil Ambassador Scheme on Positive Living” and “Enhanced Smart Teen Project”, to promote the spirit of caring, respect and self-discipline. Starting from the 2011/12 school year, the EDB has launched the Harmonious School – Anti-bullying Campaign. Teaching resources, an anti-bullying charter and promotional materials are provided for schools for organising their own Anti-bullying Day/Week, with the aim of guiding students to understand the impact of bullying on others and its possible consequences with empathy, thus raising their anti-bullying awareness. Student Peace Ambassadors are also trained to acquire skills on peer mediation, so that they can assist in resolving conflicts on campus. The EDB has recently launched the Harmonious School Net and the Wise NET School Recognition Scheme for inter-school sharing of information and successful experience, with a view to minimising the occurrence of bullying incidents. The expenditure of the above programmes in 2019-20 is about \$76 million.

EDB024

(Question Serial No. 3210)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of the following:

- (1) The expenses and the cost per capita of the outsourced provision of hearing aids services in the past 5 years.
- (2) A breakdown of the number of students served by the outsourced provision of hearing aids services in the past 5 years by their district of residence, age, class level and degree of hearing impairment.
- (3) The average and median waiting time of the outsourced hearing aids services in the past 5 years.
- (4) A breakdown of the number of backup hearing aids the Education Bureau (EDB) currently has in stock by model and year of purchase.
- (5) Following the unsuccessful tender for the provision of hearing aids services in the 2018/19 school year, what procedures are adopted by the EDB to directly procure hearing aids, how effective they are, and what are the cost per hearing aid and the total cost per capita?
- (6) Has the EDB considered allowing parents to purchase hearing aids which are more suitable for their children or of a more advanced model by paying the difference themselves?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 451)

Reply:

(1) to (3)

In the past, pre-school children and students (hereafter refer as students) in need of hearing aids, were arranged to the outsourced service provider commissioned by the Education Bureau (EDB) for the “Hearing Aid Fitting and Related Audiological Services” free of charge. The services include audiological review, hearing aid fitting, regular earmould replacement, repair and maintenance, and FM system fitting services (if applicable). As there were no service providers fulfilling the tender requirements of the “Hearing Aid Fitting and Related Audiological Services”, the audiologists of the EDB started to provide the “Hearing Aid Fitting and Related Audiological Services” direct for students since 2019. The expenditure and the cost per capita of the outsourced “Hearing Aid Fitting and Related Audiological Services” in the past 5 years (i.e. from the 2014/15 to 2018/19 school years) are set out below:

School year	2014/15	2015/16	2016/17	2017/18	2018/19
Expenditure ^{Note1} (\$ million)	4.05	3.35	3.92	4.95	2.80 ^{Note3}
Cost per capita ^{Note2} (\$)	3,487	3,487	3,715	3,715	3,715

Notes:

1. The annual expenditure varies according to the actual number of students provided with hearing aids and related services, which might fluctuate due to situations such as non-attendance/deferred attendance of students.
2. The cost per capita is calculated based on the tender price of that particular school year.
3. As mentioned above, since the services have been provided by the audiologists of the EDB since 2019, there was a drop in the expenditure on related outsourced services.

Regarding the break down by degree of hearing impairment (HI), class level and district of residence of the number of students received the outsourced “Hearing Aid Fitting and Related Audiological Services”, details are set out in Tables 1 to Table 3 of the Appendix. The EDB has not compiled statistics on the number of these students by age.

(4)

The EDB has purchased hearing aids by phases in the 2019-20 financial year. As at March 2020, about 600 hearing aids are in the stock. These hearing aids have behind-the-ear and receiver-in-the-canal styles, with 8 to 12 channels, water resistance function, noise reduction function and directional microphone, etc., in the specifications.

(5)

The hearing aid fitting services of the EDB at the Kowloon Tong Education Services Centre have been resumed fully in April 2019. The EDB purchases hearing aids in accordance with the established procurement procedures of the Government. All purchases relating to hearing aids have been timely conducted as planned. The average price of the hearing aids purchased for students in the 2019-20 financial year is about \$2,000. The manpower and expenditure involved in the related tasks of the EDB are subsumed in the establishment of the department and the general departmental expenditure, and cannot be separately identified. Hence, we could not work out the cost per capita.

(6)

The hearing aid fitting services provided by the audiologists of the EDB has been smoothly implemented. In general, students in need can receive the related services within 4 to 6 weeks. Apart from providing hearing aid fitting services to students, the audiologists of the EDB also provide parents with comprehensive professional advice and guidance so as to help them take care of and support their children with HI. Majority of the parents are satisfied with the services. The EDB has also engaged local and overseas professors in audiology to offer professional advice on the specifications of the hearing aids provided by the EDB, standards and procedures of hearing aid fitting, etc. At present, the EDB has no plans to allow parents to pay the difference for purchasing hearing aids they prefer. We will keep in review the arrangements and the actual situation of the hearing aid fitting services, and take into consideration the views of experts, etc., so as to provide appropriate hearing aid fitting services for students with HI and their parents.

Number of students received
outsourced “Hearing Aid Fitting and Related Audiological Services”
2014/15 to 2018/19 school years^{Note1}

Table 1 : By degree of hearing impairment

Degree of hearing impairment	2014/15	2015/16	2016/17	2017/18	2018/19
Mild	220	198	269	277	168
Moderate	223	200	182	204	157
Moderately-severe	145	101	148	140	99
Severe	123	101	120	121	87
Profound	123	89	145	132	95
Total	834	689	864	874	606 ^{Note2}

Table 2: By class level

Class level	2014/15	2015/16	2016/17	2017/18	2018/19
Pre-school	247	222	254	273	238
Primary 1	62	53	76	73	67
Primary 2	49	45	53	56	44
Primary 3	40	35	43	42	24
Primary 4	39	34	39	45	34
Primary 5	33	25	43	52	31
Primary 6	53	27	28	44	27
Secondary 1	51	33	44	41	24
Secondary 2	38	27	38	36	21
Secondary 3	58	40	59	60	16
Secondary 4	60	51	69	57	34
Secondary 5	51	30	66	40	26
Secondary 6	53	67	52	55	20
Total	834	689	864	874	606 ^{Note2}

Table 3 : By district of residence

District of residence	2014/15	2015/16	2016/17	2017/18	2018/19
Hong Kong Island & outlying islands	132	134	146	134	96
Kowloon	320	237	309	315	216
New Territories East	159	138	174	193	130
New Territories West	223	180	235	232	164
Total	834	689	864	874	606 ^{Note2}

Notes:

1. The number of students receiving outsourced hearing aid fitting services per year may vary, depending on whether the students/parents have attended the service sessions as scheduled.
2. In the 2018/19 school year, apart from the 606 students who had received the outsourced hearing aid fitting services, the audiologists of the EDB had also provided related services to 156 students.

(Question Serial No. 3211)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (5) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please provide this Committee with the following information for the past 5 years:

- (1) the number of students in each type of special schools for children with intellectual disabilities and the unit cost per capita (disaggregated by day student, 5-day boarder, 7-day boarder, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking (NCS) student and legitimate child of Hong Kong permanent residents);
- (2) the number of new students and their age (disaggregated by day student, 5-day boarder, 7-day boarder, orphan, child whose parents are both non-Hong Kong permanent residents, NCS student and legitimate child of Hong Kong permanent residents);
- (3) the number of school leavers and their age (disaggregated by day student, 5-day boarder, 7-day boarder, orphan, child whose parents are both non-Hong Kong permanent residents, NCS student and legitimate child of Hong Kong permanent residents); and
- (4) the number of special school graduates that newly joined the waitlist for various types of adult services (disaggregated by day student, 5-day boarder, 7-day boarder, orphan, child whose parents are both non-Hong Kong permanent residents, NCS student and legitimate child of Hong Kong permanent residents).

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 474)

Reply:

(1) to (4)

The Education Bureau does not keep school-based or personal data and information such as residence status of parents, background of students' parents, etc., and is therefore not able to provide the related information as requested.

The average unit cost per school place and the average unit cost per boarding place for each type of special schools for children with intellectual disability in the past 5 school years are set out at Appendix 1.

The number of students, number of non-Chinese speaking students, number of 5-day and 7-day boarders, number of new students with age range by day student, 5-day boarding and 7-day boarding, number of school leavers with age range by day student, 5-day boarding and 7-day boarding, and number of graduates waiting for adult services in the past 5 school years in special schools for children with intellectual disability are set out at Appendix 2.

Table 1: Average Unit Cost per School Place for Each Type of Special Schools for Children with Intellectual Disability from the 2014/15 to 2018/19 School Years

School Type	Average Unit Cost per School Place				
	2014/15	2015/16	2016/17	2017/18	2018/19
Mild Intellectual Disability	\$171,000	\$171,500	\$177,000	\$195,500	\$211,500
Moderate Intellectual Disability	\$239,500	\$253,000	\$260,000	\$285,500	\$304,500
Severe Intellectual Disability	\$313,000	\$329,000	\$342,000	\$361,500	\$389,000

Table 2: Average Unit Cost per Boarding Place for Each Type of Special Schools for Children with Intellectual Disability from the 2014/15 to 2018/19 School Years

School Type	Average Unit Cost per Boarding Place				
	2014/15	2015/16	2016/17	2017/18	2018/19
Mild Intellectual Disability ^{Note}	N.A.	N.A.	N.A.	N.A.	N.A.
Moderate Intellectual Disability	\$233,500	\$243,000	\$252,000	\$258,500	\$273,000
Severe Intellectual Disability	\$294,500	\$306,000	\$321,000	\$331,500	\$350,500

Note:

Schools for children with mild intellectual disability do not provide boarding service.

**Information on Students of Special Schools for Children with
Intellectual Disability (ID schools) from the 2014/15 to 2018/19 School Years**

Item		Age Range (Year)	School Year ^{Note 1}					
			2014/15	2015/16	2016/17	2017/18	2018/19	
1	Number of Students (No. of Non-Chinese Speaking (NCS) Students ^{Note 2})		5 607 (223)	5 607 (266)	5 701 (275)	5 845 (311)	5 964 (322)	
2	Number of Boarders (No. of NCS Students ^{Note 2})	5-day	306 (5)	296 (5)	297 (5)	294 (6)	290 (8)	
		7-day	362 (2)	359 (3)	362 (2)	375 (3)	392 (9)	
3	Number of New Students (No. of NCS Students ^{Note 2})	Day Place ^{Note 3}	6-19	560 (30)	562 (44)	584 (45)	648 (87)	697 (42)
		5-day Boarding	6-18	31 (1)	46 (1)	42 (1)	44 (3)	47 (2)
		7-day Boarding	6-21	60 (2)	34 (0)	48 (2)	57 (6)	47 (2)
4	Number of School Leavers (No. of NCS Students ^{Note 2})	Day Place ^{Note 4}	6-26	569 (23)	487 (28)	497 (17)	569 (30)	515 (24)
		5-day Boarding	6-24	52 (0)	43 (1)	52 (1)	44 (1)	43 (2)
		7-day Boarding	7-23	48 (1)	43 (0)	41 (0)	35 (0)	35 (0)
5	Number of Graduates Waiting for Adult Services (No. of NCS Students ^{Note 2})		42 (1)	66 (4)	83 (4)	125 (3)	58 (2)	

Notes:

- Number of students in items 1 and 2 denotes the position as at September of the respective school years.
- Number of NCS students covers those students whose home language as known to the Education Bureau is not Chinese regardless of their ethnicity.
- The number of New Students is counted as follows:
 - Day place:
 - only first admission to ID schools is counted;
 - excluding those students transferred between ID schools.
 - 5-day and 7-day boarding:
 - students who changed from a 5-day boarding to a 7-day boarding or vice versa are counted as new admission to that type of boarding service.

4. The number of School Leavers is counted as follows:
 - (i) Day place:
 - only last attendance at ID schools is counted;
 - excluding those students transferred between ID schools.
 - (ii) 5-day and 7-day boarding:
 - students who left from a 5-day boarding to a 7-day boarding or vice versa are counted as school leavers of that type of boarding service.
5.
 - (i) Students who completed secondary education are counted.
 - (ii) Adult Services include day activity centres, sheltered workshops cum hostels, supported hostels, etc.
 - (iii) The above information was collected from special schools in July and August of the respective school years. As such, the above figures may not reflect the actual situation of the post-school arrangement of school leavers.

- End -

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of:

(1) the details of staffing of various types of special schools and their boarding sections (if any); the salaries of different categories of posts; grants for different purposes (including maintenance of facilities); construction cost; standard school facilities; average unit cost per school place; area of floor space per boarder; and average unit cost per boarding place of different types of special schools.

(2) the numbers of students, new students (and their age range) and leavers (and their age range) of schools for children with severe intellectual disability in the past 5 years. Please also provide the number of new applicants waiting for admission to various types of adult services, and the number of school leavers admitted to various types of adult services in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 476)

Reply:

(1) Aided special schools are provided with teaching staff, various types of specialists and non-teaching/non-specialist staff on their staff establishment. The number of staff and their respective salary scales in the 2019/20 school year are set out at Appendix 1 and Appendix 2 respectively. The average unit cost per school place and per boarding place of each type of aided special schools in the 2019/20 school year is set out at Appendix 3.

Currently, all aided special schools are provided with an Expanded Operating Expenses Block Grant (EOEBG) for meeting operating expenses. The EOEBG includes virtually all non-salary recurrent grants, except those which are ad-hoc in nature, currently under review, and paid for very specific purpose on a reimbursement basis. It also includes the Composite Furniture and Equipment Grant for schools to procure furniture and equipment items, to cover the maintenance/repairs fees for these items, etc. The details of EOEBG can be accessed from the website of the Education Bureau:

<https://www.edb.gov.hk/en/sch-admin/fin-management/subsidy-info/ref-e-oebg-cfeg/index.html>

Aided special schools can also apply for capital subventions to carry out major school maintenance/repair works under the annual major repairs exercise and emergency repairs mechanism. As at the end of February 2020, the total approved project estimates in the 2019-20 financial year for aided special schools is about \$106 million.

There are different types/scales of special schools with different provision of facilities to meet the different needs of their target students. Taking the two Capital Works special school projects approved by the Finance Committee of the Legislative Council in June 2018, namely “8032ED – Conversion to Heung Hoi Ching Kok Lin Association Buddhist Po Kwong School” and “8033ED – Provision of Boarding Section of Hong Chi Pinehill School and reprovisioning of Boarding Section of Hong Chi Pinehill No. 2 School in Tai Po” as examples, the estimated construction unit costs, represented by building and building services costs, are \$26,775 and \$33,094 per m² of Construction Floor Area in money-of-the-day price respectively.

Apart from essential school facilities in the school section such as classrooms, special rooms (e.g. visual arts room, computer room, design and technology room, home economics room, etc. depending on the subjects offered by the special school), library, student activity centre, multi-purpose area, assembly hall, staff room and other ancillary facilities, including a disabled/fireman’s lift, facilities for the disabled, store rooms and toilets, the facilities provided for different types of special schools would be different. Other facilities such as physiotherapy room(s), occupational therapy room(s), speech therapy room(s) and social worker’s room(s), etc., would be provided as appropriate. The school facilities to be provided to each newly constructed special school are approved by the Property Vetting Committee (PVC) on a project basis as appropriate. PVC is chaired by the Assistant Director (Architectural) of Architectural Services Department with members from the Government Property Agency, Treasury Branch of the Financial Services and the Treasury Bureau and other members to be co-opted as required.

Similarly, approval would be sought from PVC on a project basis as appropriate for the boarding section of newly constructed special school, if any. Common facilities such as bedrooms, study area, TV/common room, dining/multi-purpose room, kitchen, laundry room, drying area, warden’s office, houseparents’ and programme workers’ office, nurse duty room/sick bay, sleep-in room(s) for staff on night shift and other ancillary facilities, including stores, toilets, bathrooms, relevant facilities for the disabled, etc., would be provided.

(2) The number of students, new students and leavers of schools for children with severe intellectual disability (SID) in the past 5 years is set out in Table I of Appendix 4. The number of students admitted to and waiting for admission to adult services in the past 5 years is set out in Table II of Appendix 4. According to our record, the age range of new students in the past 5 school years is from 6 to 13. With the implementation of the New Senior Secondary academic structure in the 2009/10 school year, students of special schools, including schools for children with SID, will leave school after completion of Secondary Six. Under special circumstances where individual students may need to extend their years of study due to valid reasons, arrangements will be made in accordance with the established mechanism. On the other hand, some students may leave earlier for various reasons, such as having secured a post-school placement or deceased. The age range of school leavers in the past 5 school years is from 6 to 26.

I. Staff Establishment of the School Section in the 2019/20 School Year

School Type	Number of Teaching Staff Note 1	Non-teaching Staff	
		Number of Specialist Staff Note 2	Number of Non-specialist Staff Note 3
Visual Impairment	46.7	20.5	29
Hearing Impairment	27.5	9.5	19
Physical Disability	234.1	162.5	297
Mild Intellectual Disability Note 4	623.3	172.5	254.5
Moderate Intellectual Disability Notes 4 & 5	576.5	166	307.5
Severe Intellectual Disability Note 5	219.2	127.5	290
School for Social Development	204.1	27.5	101
Hospital School	65.9	Not Applicable Note 6	28

Notes:

- Teaching staff establishment excludes teachers employed under the following programmes, e.g. Supportive Remedial Service, Enhanced Support Service and Resource Support Programme, Home-bound Teaching Programme in the Hospital School and the Pilot Scheme to operate Special Units in the Schools for Social Development to support students with autism spectrum disorders who display severe adjustment difficulties etc.
- Specialist staff establishment includes school social worker, speech therapist, physiotherapist, occupational therapist, occupational therapy assistant, educational psychologist, braille staff and nurse.
- Non-specialist staff establishment includes clerical staff, school executive officer, laboratory technician, workshop attendant, janitor staff, motor/special driver, teacher assistant and artisan.
- Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
- 1 school for children with severe intellectual disability operates classes for children with moderate intellectual disability on a pilot basis starting from the 2017/18 school year. The figures are categorised according to the respective class types.
- The Hospital School operates classes at 20 hospitals. Specialist services for its students are provided by the respective hospitals.

II. Staff Establishment of the Boarding Section in the 2019/20 School Year

School Type	Number of Specialist Staff ^{Note 1}	Number of Non-specialist Staff ^{Note 2}
Visual Impairment	37	25.8
Hearing Impairment	6	8.4
Physical Disability	144	76.7
Moderate Intellectual Disability	115 ^{Note 3}	72 ^{Note 3}
Severe Intellectual Disability	198	122.5

Notes:

1. Specialist staff establishment includes warden, assistant warden, houseparent-in-charge, houseparent, programme worker and nurse.
2. Non-specialist staff establishment includes clerical assistant, janitor staff, cook and watchman.
3. The figures include relevant staff in 1 school for children with severe intellectual disability which has been involved in providing boarding service for children with moderate intellectual disability on a pilot basis since the 2017/18 school year.

I. Salary Scale of Teaching Staff in the 2019/20 School Year

Post	Salary Scale
Certificated Master/Mistress	\$30,235 – \$48,860
Assistant Master/Mistress	\$51,095 – \$61,415
Senior Assistant Master/Mistress	\$64,270 – \$73,775
Assistant Primary School Master/Mistress	\$31,750 – \$61,415
Primary School Master/Mistress	\$64,270 – \$73,775
Senior Primary School Master/Mistress	\$74,515 – \$75,265
Graduate Master/Mistress	\$31,750 – \$73,775
Senior Graduate Master/Mistress	\$74,515 – \$89,845
Principal Graduate Master/Mistress	\$85,870 – \$97,745
Principal II	\$93,710 – \$110,170
Principal I	\$117,580 – \$135,470

II. Salary Scale of Specialist Staff in the 2019/20 School Year

Post		Salary Scale
Educational Psychologist II		\$46,655 – \$73,775
Educational Psychologist I		\$74,515 – \$110,170
Occupational Therapist Assistant		\$20,035 – \$31,750
Occupational Therapist II		\$30,235 – \$48,860
Occupational Therapist I		\$51,095 – \$74,515
Senior Occupational Therapist		\$74,515 – \$89,845
Physiotherapist II		\$30,235 – \$48,860
Physiotherapist I		\$51,095 – \$74,515
Senior Physiotherapist		\$74,515 – \$89,845
Speech Therapist		\$33,350 – \$73,775
Special School Social Worker	Assistant Social Work Officer	\$33,350 – \$73,775
	Senior Social Work Assistant	\$46,655 – \$61,415
Registered Nurse		\$31,750 – \$51,095
Braille Staff		\$18,795 – \$31,750
Warden	Assistant Social Work Officer	\$33,350 – \$73,775
	Senior Social Work Assistant	\$46,655 – \$61,415
	Chief Social Work Assistant	\$64,270 – \$73,775
Assistant Warden	Social Work Assistant	\$22,725 – \$44,555
	Senior Social Work Assistant	\$46,655 – \$61,415
Houseparent		\$22,725 – \$44,555
Houseparent-in-charge		\$22,725 – \$44,555 ^{Note}
Programme worker		\$22,725 – \$44,555

Note:

A responsibility allowance will be payable to houseparents-in-charge at the rate of two increments (ranging from \$2,820 to \$4,305) above their substantive pay.

II. Salary Scale of Non-specialist Staff in the 2019/20 School Year

Post	Salary Scale
Laboratory Technician III	\$14,935 – \$16,945
Laboratory Technician II	\$21,340 – \$42,545
Laboratory Technician I	\$44,555 – \$58,635
School Executive Officer	\$31,750 – \$55,995
Workshop Attendant	\$14,620 – \$17,870
Artisan	\$17,675 – \$21,340
Motor Driver	\$17,675 – \$21,340
Special Driver	\$21,340 – \$24,070
Teacher Assistant	\$13,730 – \$16,175
Watchman	\$14,620 – \$17,870
Cook	\$17,675 – \$21,340
Clerical Assistant	\$13,735 – \$24,070#
Assistant Clerical Officer	\$15,560 – \$31,750#
Janitor Staff	\$13,730 – \$16,175#

Aided special schools are provided with an Administration Grant (AG) or Revised Administration Grant (RAG) for employing clerical and janitor staff, or contracting out clerical or janitor service to meet their specific needs. The schools concerned will be provided with a lump sum equivalent to the salary of the clerical (solely for AG) and janitor staff posts. The salary scale of these posts in the above table is meant for schools' calculation of grant/reference.

I. Average Unit Cost per School Place in the 2019/20 School Year

School Type	Average Unit Cost per School Place
Visual Impairment	\$469,500
Hearing Impairment	\$441,000
Physical Disability	\$397,500
Mild Intellectual Disability	\$242,000
Moderate Intellectual Disability	\$339,000
Severe Intellectual Disability	\$442,500
School for Social Development	\$249,000
Hospital School	\$242,500

II. Average Unit Cost per Boarding Place in the 2019/20 School Year

School Type	Average Unit Cost per Boarding Place
Visual Impairment	\$203,500
Hearing Impairment	\$375,500
Physical Disability	\$338,000
Moderate Intellectual Disability	\$287,000
Severe Intellectual Disability	\$367,500

I. Number of Students, New Students and Leavers of Schools for Children with Severe Intellectual Disability (SID) from the 2014/15 to 2018/19 School Years

School Year	2014/15	2015/16	2016/17	2017/18	2018/19
Number of Students ^{Note 1}	691	679	687	699	706
Number of New Students Notes 2 & 4	59	70	73	78	77
Number of School Leavers Notes 3 & 4	79	62	73	64	54

Notes:

1. Figures show the position as at September of the respective school years.
2. Only first admission to a school for children with SID is counted.
3. Only last attendance at a school for children with SID is counted.
4. Excluding students transferred between schools for children with SID.

II. Number of Students of Schools for Children with SID Admitted to and Waiting for Admission to Adult Services from the 2014/15 to 2018/19 School Years

School Year	2014/15	2015/16	2016/17	2017/18	2018/19
Admission	49	37	28	23	33
Wait-listing	10	6	15	17	4

Notes:

1. Adult services include day activity centres, sheltered workshop cum hostels, supported hostels, etc.
2. The information was collected from special schools in July and August of the respective school years. As such, the above figures may not reflect the actual situation of the post-school arrangements of the school leavers.

(Question Serial No. 3248)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of:

- (1) the number of educational psychologists (EPs) serving in primary, secondary and special schools by school type (i.e. government, aided, Direct Subsidy Scheme (DSS) and private schools) in the past 5 years;
- (2) the average and median waiting time for EP services in the past 5 years;
- (3) the average number of cases handled by each EP, and the average, highest and lowest numbers of school visits made by EPs by district and school type (i.e. government, aided and DSS primary and secondary schools, and special schools) in the past 5 years;
- (4) the most common services currently provided by schools for students with various special educational needs (SEN);
- (5) the current position of “progressively improving the ratio of EP to schools to 1:4” and the estimates for this initiative;
- (6) the wastage rate of EPs and number of EP vacancies by school type (i.e. government, aided, DSS and private schools) in the past 5 years;
- (7) the number of cases of suspected dyslexia pending assessment by EPs, with a breakdown by primary and secondary schools and class level; and
- (8) the support and accommodation currently provided by schools for students suspected to have SEN.

Reply:

(1), (3), (5) and (6)

Starting from the 2016/17 school year, all public sector ordinary primary and secondary schools have been provided with the School-based Educational Psychology Service (SBEPS). Since that school year, the Education Bureau (EDB) has progressively improved the ratio of educational psychologist (EP) to school to 1:4 in public sector ordinary primary and secondary schools with comparatively large number of students with special educational needs (SEN), i.e. the Enhanced SBEPS. In the 2019/20 school year, the Enhanced SBEPS covers 169 primary and secondary schools. For the 2020/21 school year, the EDB plans to increase the number of schools receiving the Enhanced SBEPS to around 210. The revised estimate for the provision of the SBEPS for public sector ordinary schools is \$180 million in the 2019/20 school year.

From the 2015/16 to 2019/20 school years, the respective number of EPs providing the SBEPS for public sector ordinary primary and secondary schools in the territory is 114, 138, 144, 151 and 156, and their respective wastage rate is 6.7%, 0%, 3.8%, 5.9% and 4.2%. When an EP resigns, the EDB or school sponsoring body (SSB) will engage an EP replacement as soon as possible and there is a chance that the vacancy can be filled within the school year. During the vacant period, existing EPs of the SSB or EDB will shoulder up the provision of support for the schools concerned. Hence, providing the number of EP vacancies by school year is not meaningful. In general, each EP serves 7 to 8 public sector ordinary primary and secondary schools with varying number of students with SEN. EPs visit their schools regularly throughout the school year. The number of visit days paid to each school depends on the needs of the schools and their students. The average number of visit days to each school is around 20 per school year, while for schools receiving the Enhanced SBEPS, the average number of visit days to each school is around 30.

From the 2015/16 to 2019/20 school years, the EP establishments in aided special schools are 17, 17, 19, 19 and 19 respectively. As the educational psychology service for aided special schools is provided by EPs employed by the SSBs or school clusters, we have no information pertaining to the number of school visits made by EPs of aided special schools, the wastage rate and the vacancies of these EPs in the past 5 years. Generally speaking, EPs pay more visits to special schools than ordinary schools to meet the needs of special schools. As schools under Direct Subsidy Scheme and private schools make their own arrangements for educational psychology service, we have no information on the number of school visits paid by EPs, number of EPs, the wastage rate and vacancies in the past 5 years.

The number of students requiring direct support from EPs varies from school to school, while the level and frequency of support that individual students need also differ. In many cases, EPs need to collaborate with teachers, social workers, etc. to jointly support the students concerned according to the principle of Whole School Approach. Besides, school-based EPs enhance the effectiveness of the support rendered by schools to students through strengthening the school support system and teachers' knowledge and skills in catering for students' diverse needs. In this regard, all students benefit from the provision of the SBEPS directly or indirectly.

(4)

To support public sector ordinary primary and secondary schools to cater for their students with SEN, the EDB, on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. Of these additional resources, the Learning Support Grant (LSG) is the major one. To further enhance the effectiveness of integrated education (IE), the EDB has implemented a series of enhanced measures on IE in the 2019/20 school year. The enhanced measures relating to the LSG include extending the grant to all public sector ordinary schools to replace the Intensive Remedial Teaching Programme and the Integrated Education Programme; multiplying the LSG grant rate for tier-3 support; and providing schools with additional regular teaching post(s) titled Special Educational Needs Support Teacher converted / provided on account of LSG reaching the specific threshold. Under the enhanced measures, schools have a more stable teaching force and additional resources that can be flexibly deployed to support students with various types of SEN and academically low achievers (applicable to primary schools). Schools should pool together school resources and deploy them holistically and flexibly to render appropriate support services to students based on their SEN, employing additional teachers and teaching assistants to provide in-class support or supplemental coaching after class, arrangement of small group learning and pull-out programmes, or hiring professional services (such as training groups on social/communication/executive skills, emotion management, learning strategies and peer activities). Schools can also apply for the Top-up Fund to procure special furniture and equipment or carry out minor conversion works for students with disabilities if necessary. For students with significant emotional and behavioural problems despite provision of support, the EDB will consider providing the schools with an intensive support grant to employ additional teaching assistants to strengthen the support for the students concerned.

In addition, professional staff of the EDB pay regular visits to schools to render professional advice on schools' IE policies and support measures, teaching strategies, resources deployment, etc. The EDB also provides schools with professional support, including assessment and consultation services by EPs, speech therapists and audiologists, teacher training, and development of teaching resources for teachers and parents, etc., to help schools cater for students with SEN. Since the 2007/08 school year, the EDB has been providing serving teachers with structured training courses on supporting students with SEN pitched at the basic, advanced and thematic levels.

(2) and (7)

From the 2014/15 to 2018/19 school years, on average about 80% of the cases referred to EPs in public sector ordinary primary and secondary schools were assessed within 2 months, while about 10% were assessed within 2 to 3 months. Some cases involved a longer waiting time for assessment due to their special circumstances. For example, there were cases in which parents requested for deferral of assessment and cases in which assessment had to be held up pending the students' medical treatment. We have no information on the number of cases of students suspected of dyslexia pending assessment by EPs. Since students admitted to aided special schools have already had their assessment reports, there is no need for them to be assessed by EPs again. In general, special schools will plan and arrange follow-up assessment or progress review for prospective school leavers according to their transition needs. Hence, there is no need to wait for EP service.

(8)

All public sector primary schools have implemented the Early Identification and Intervention Programme for Primary One (P1) Students with Learning Difficulties for early identification of P1 students suspected to be having learning difficulties. For students showing severe or persistent learning difficulties despite the intervention rendered, schools will refer them to EPs or other professionals for assessment as appropriate. Schools can also consult EPs on the educational needs of other students who manifest learning or emotional-behavioural difficulties. EPs will arrange assessment for them or provide advice for the schools on the support strategies to cater for the students' needs. In addition, the EDB has all along encouraged schools to adopt the "intervention before assessment" principle to provide appropriate support for students displaying learning or emotional and behavioural difficulties without having to wait for the completion of professional assessment. Schools may work out appropriate support measures in collaboration with EPs, school-based speech therapists or other relevant professionals as necessary. For students who subsequently have to be referred to professionals for assessments, schools may adjust the methods and level of support provided to these students based on the assessment results.

CONTROLLING OFFICER'S REPLY

EDB028

(Question Serial No. 3249)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (2) Pre-primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

People have reflected that at present, kindergarten students with special needs could not access support service until assessment is undertaken. While the Pilot Scheme on On-site Pre-school Rehabilitation Services allow operators to allocate up to 10% of their service quotas to cases pending assessment, people consider this far from sufficient. As far as integrated education is concerned, it is the policy of the Education Bureau (EDB) to adopt the “treat and test” approach and immediate support is provided for every student with special needs while assessment is being arranged. Would the Government advise of the following:

- (1) Starting from November 2015, the Social Welfare Department has implemented the Pilot Scheme on On-site Pre-school Rehabilitation Services. At present, how many children are waitlisted for assessment by the Department of Health or the Hospital Authority and receiving on-site pre-school rehabilitation services at the same time? What is the percentage share of these children in the total number of children waiting for assessment?
- (2) At present, how many teachers have completed the in-service training courses recognised by the EDB at basic or advanced levels?
- (3) Will the Government consider extending the policy on integrated education to kindergartens, including such measures as “treat and test”, provision of educational psychologists and social workers, and creation of Special Educational Needs Coordinator posts? If yes, what are the arrangements? If no, what are the reasons?

Asked by: Hon CHEUNG Chiu-hung, Fernando (LegCo internal reference no.: 516)

Reply:

(1)

Starting from November 2015, the Social Welfare Department (SWD) has implemented the Pilot Scheme on On-site Pre-school Rehabilitation Services (Pilot Scheme). With the regularisation of the Pilot Scheme in October 2018, the number of service places has increased from about 3 000 under the Pilot Scheme to over 7 000 at present, which will be further increased by 1 000 each year for the 3 school years from 2020/21 to 2022/23, making an aggregated increase of 3 000 service places which will bring the total number to 10 000. In delivering the On-site Pre-school Rehabilitation Services (OPRS), training is provided for children with special needs through multi-disciplinary service teams comprising occupational therapists, physiotherapists, speech therapists, clinical/educational psychologists, social workers and special child care workers under the coordination of non-governmental organisations (NGOs). Apart from providing services for children with special needs, multi-disciplinary service teams also provide support services for teachers/child care workers and parents. From 1 November 2015 to 31 December 2019, a total of 403 children waiting for assessment by the Department of Health or the Hospital Authority received OPRS at the same time. The SWD does not have information on the number of pre-school children waiting for assessment, nor the percentage share of pre-school children receiving OPRS to the overall number of children waiting for assessment.

(2) and (3)

The enhancement in requirement for teacher to pupil ratio from 1:15 (including the principal) to 1:11 (principal not included) under the kindergarten education scheme (KG Scheme) allows kindergarten (KG) teachers to have more room for various professional activities, including capitalising on the resources to collaborate with the multi-disciplinary service teams that provide OPRS, communicate with parents, and cater for the diverse needs of students. As for training, since the 2015/16 school year, the Education Bureau (EDB) has organised teacher professional development programmes on catering for students with developmental needs by commissioning tertiary institutions and NGOs to provide basic training for KG teachers, and it has also devised a professional development framework. Starting from the 2018/19 school year, the EDB has further provided KG teachers with structured in-service training courses at basic and advanced levels. These teacher professional development programmes cover content such as fundamental knowledge and skills in early identification and intervention, multi-disciplinary collaboration and strategies related to coordination of support services. The EDB has set specific targets for training such that each KG joining the KG Scheme will have at least 1 teacher completed the Basic Course as recognised by the EDB before the end of the 2020/21 school year. As at the 2018/19 school year, a total of 585 KG teachers have completed basic training, with 29 of them having completed advanced training as well. The EDB does not have information on the number of graduates having completed the relevant recognised certificate and degree programmes offered by tertiary institutions. Moreover, according to the information of SWD, apart from offering training courses for special child care workers recognised by the SWD, tertiary institutions usually include special child care worker training modules recognised by the SWD, i.e. no less than 210 hours of training on catering for children with special needs, in the pre-service and in-service training courses for obtaining the teacher professional qualifications in early childhood education. The above courses have been introduced for over a decade, and a certain amount of serving KG teachers have received the

relevant training. Therefore, under the collaboration between the EDB and the SWD, there has been an increasing number of KG teachers equipped with the fundamental knowledge and skills in identifying and catering for children with special needs.

The EDB will continue to promote inclusive culture in KGs, make a sustained effort to provide more KG teachers with relevant training, and continue to develop evidence-based intervention models and teaching resource packages on catering for children with learning and developmental needs for use by KG teachers. At this stage, we have no plan to create Special Educational Needs Coordinator posts or to deploy educational psychologists. The EDB will review the implementation of the relevant measures on an on-going basis and consider the introduction of appropriate and specific improvement measures as and when required.

(Question Serial No. 1416)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the past 3 years:

- (i) Details of the activities subsidised by the Hong Kong Jockey Club Life-wide Learning Fund; and
- (ii) A breakdown of the provision and number of student beneficiaries under the Fund by district.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 1)

Reply:

(i) and (ii)

The Hong Kong Jockey Club Life-wide Learning Fund is jointly established by the Hong Kong Jockey Club Charities Trust and the Education Bureau to support students with financial needs in primary and secondary schools, including those receiving Comprehensive Social Security Assistance (CSSA) or full grant under the School Textbook Assistance Scheme (STAS), or meeting the school's established financially needy criteria, to participate in life-wide learning activities organised or recognised by schools for whole-person development. The provision and number of student beneficiaries by district under the Fund for the past 3 school years are set out at Annexes A to C.

**Provision and number of student beneficiaries by district
under the Hong Kong Jockey Club Life-wide Learning Fund
in the 2016/17 school year**

District	Provision \$ ('000)	Number of student beneficiaries*
Central & Western	861	2 480
Eastern	4,138	9 960
Islands	1,589	4 120
Southern	1,797	3 670
Wan Chai	929	2 400
Kowloon City	3,893	8 690
Kwun Tong	9,479	23 020
Sai Kung	3,702	11 090
Sham Shui Po	5,859	15 230
Wong Tai Sin	5,607	15 900
Yau Tsim Mong	3,002	8 510
North	5,978	16 290
Sha Tin	6,102	14 710
Tai Po	3,203	8 960
Kwai Tsing	7,589	19 340
Tsuen Wan	2,585	5 730
Tuen Mun	6,103	15 810
Yuen Long	9,329	24 810
Total	81,745	210 690

* The number of student beneficiaries includes primary and secondary students receiving CSSA or full grant under the STAS or meeting the school's established financially needy criteria. As the number of student beneficiaries in each district and the total are rounded to the nearest 10, figures of individual districts may not add up to the total in the last row.

**Provision and number of student beneficiaries by district
under the Hong Kong Jockey Club Life-wide Learning Fund
in the 2017/18 school year**

District	Provision \$ (’000)	Number of student beneficiaries*
Central & Western	840	2 050
Eastern	3,847	8 390
Islands	1,417	3 800
Southern	1,689	3 540
Wan Chai	864	2 410
Kowloon City	3,684	8 840
Kwun Tong	8,924	22 980

(Question Serial No. 1418)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please tabulate the allowances for grassroots students, the expenditure involved and the number of beneficiaries in the past 5 years.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 3)

Reply:

The Government is committed to ensuring that no student is denied access to education due to a lack of means. On that premise, the Student Finance Office of the Working Family and Student Financial Assistance Agency (WFSFAA) administers various financial assistance schemes to cater for students with financial needs. Details are set out in Appendix.

The Education Bureau (EDB) also provides additional support for students with financial needs through the following grants:

School-based After-school Learning and Support Programmes

To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the EDB has implemented the School-based After-school Learning and Support Programmes since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of the Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance (SFA) Schemes. The number of eligible beneficiary students and the expenditure involved in the past 5 school years are as follows:

School year	No. of students	Expenditure (\$ million)
2015/16	219 860	218
2016/17	217 120	214
2017/18	213 400	219
2018/19	201 700	240 [^]
2019/20	197 700	240 [#]

[^] The figure refers to the total provision for the 2018/19 school year. As audited accounts are yet to be finalised by some of the NGOs concerned, relevant information is not available.

[#] The figure refers to the total provision for the 2019/20 school year. The actual figure will be available when the NGOs concerned submit their final reports and audited accounts by the end of the school year.

Student Activities Support Grant

In 2018-19, the Government set up the Student Activities Support (SAS) Fund with an endowment of \$2.5 billion. Starting from the 2019/20 school year, public sector schools and schools under the Direct Subsidy Scheme (DSS) are provided with the SAS Grant to support primary and secondary students with financial needs to participate in out-of-classroom learning activities organised or recognised by schools. The number of eligible beneficiary students and the expenditure involved in the 2019/20 school year are as follows:

School year	No. of students	Expenditure (\$ million)
2019/20	160 930 [*]	80 [^]

^{*} The number of students is rounded to the nearest ten. The figure refers to the total number of primary and secondary students in receipt of CSSA or full grant under the School Textbook Assistance Scheme in the 2019/20 school year, which is also the number used to calculate the amount of SAS Grant to be disbursed.

[^] The figure refers to the total provision for the 2019/20 school year and the actual expenditure is not available at this stage.

Free Lunch at School

The EDB has, starting from the 2014/15 school year, incorporated the pilot scheme of provision of free lunch at schools for needy primary students under the Community Care Fund into the regular assistance programme. Students in receipt of full grant assistance under the SFA Schemes studying in whole-day public sector (including special schools) or whole-day primary schools under the DSS are eligible for free lunch at schools. The number of eligible students benefitted and the expenditure involved in the past 5 school years are as follows:

School year	No. of students	Expenditure (\$ million)
2015/16	64 114	170
2016/17	65 639	174
2017/18	65 337	175
2018/19	63 760	174
2019/20	66 000 [@]	193 [@]

[@] The figure refers to the estimated number of students and total provision for the 2019/20 school year. The actual figure will be available when the schools concerned submit their final accounts and reports by the end of the school year.

Financial assistance schemes offered by
the Student Finance Office for financially needy students

Total expenditure (\$ million)	38.4	34.1	33.3		

[^] The number of successful applications does not include 14 584 students who passed the means test but needed not pay school fees under the kindergarten education scheme.

^{*} The number of successful applications does not include 13 007 students who passed the means test but needed not pay school fees under the kindergarten education scheme.

[~] The number of successful applications does not include 13 289 students who passed the means test but needed not pay school fees under the kindergarten education scheme.

@ The Student Finance Office provides a “Grant for School related Expenses for Kindergarten Students” to eligible kindergarten students to defray school-related expenses incurred from the students’ kindergarten education starting from the 2017/18 school year.

With the approval of the one-off relief measures announced in the 2018-19 Budget and 2019-20 Budget by the Finance Committee of the Legislative Council at the meetings on 18 May 2018 and 31 May 2019 respectively, the Government has paid the examination fees for school candidates sitting for the 2019 and 2020 Hong Kong Diploma of Secondary Education Examination, as well as eligible non-Chinese speaking students sitting for the General Certificate of Secondary Education (Chinese) Examination, the International General Certificate of Secondary Education (Chinese) Examination, the General Certificate of Education (GCE) Advanced Subsidiary-Level (Chinese) Examination and GCE Advanced-Level (Chinese) Examination in the 2018/19 and 2019/20 school years. Hence, there is no need for needy students to apply for examination fee remission in the 2018/19 and 2019/20 school years.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What is the latest progress of implementing the “two school social workers for each school” measure in secondary schools? And what is the latest progress of implementing the “one school social worker for each school” measure in primary schools?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 5)

Reply:

For secondary schools, to enhance teenagers' mental health and stress resilience, the Social Welfare Department (SWD) has since the 2019/20 school year implemented the measure of "two school social workers for each school", with the addition of about 370 school social workers. The number of school social workers for each secondary school was then increased from 1.2 to 2. About 46 posts of Social Work Officer were increased concomitantly to enhance supervisory support. The additional full year recurrent provision involved is around \$313 million. Besides, the SWD has also advanced the measure of “two school social workers for each school” during the summer holiday of 2019, so as to support the secondary school students being arrested or emotionally disturbed arising from social incidents. Secondary school social workers will strengthen counselling and support services in order to help students and their families to face various complicated problems. Meanwhile, the SWD has organised a series of training courses and workshops for social workers in secondary schools at the beginning of the 2019/20 academic year and on 10 December 2019 to enhance their capabilities in handling students' problems. This will facilitate school social workers in providing professional counselling and support services in an appropriate and effective manner.

As for primary schools, to support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. The new measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources so that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualifications to further enhance the overall quality of guidance service. Under the new funding mode, schools may, having regard to their own circumstances, create a regular Assistant Social Work Officer post to increase stability or receive an equivalent subsidy to employ a school-based registered graduate social worker or hire service of a school-based registered graduate social worker from a social work service provider. Schools are also provided with the Consultation Service Grant to procure consultation, supervision or other support services for school social workers to ensure service quality. Besides, the original Top-up Grant is enhanced so that all public sector primary schools have more resources to enhance school social work and guidance services. For primary schools currently employing Student Guidance Teachers, they can continue with the existing arrangements. In the 2019/20 school year, 309 public sector primary schools have switched to the new funding mode. The estimated total expenditure on student guidance service under the old funding mode and the new funding mode is \$487 million. It is expected that 333 public sector primary schools will switch to the new funding mode in the 2020/21 school year and the estimated total expenditure on student guidance service under the old funding mode and the new funding mode is \$495 million.

We will continue to collect data and views by such means as questionnaire surveys, school visits and meetings with the education sector to review the mode of collaboration between student guidance personnel /social workers and Student Guidance Teachers, and will maintain communication with stakeholders and heed their views and suggestions on the best way to provide social work and guidance services for students and render effective support to them.

Question:

How many cases of primary and secondary school teachers seeking psychological counselling were there in the past 5 years? Were these cases handled by school social workers? What measures and resources will be devoted to helping principals and teachers deal with work pressure and improve their mental health?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 6)

Reply:

School social work service aims to identify and help students with difficulties in academic, social or emotional development, resolve their personal problems, maximize their educational opportunities and develop their potentials. On the support for teachers, school social workers assist in enhancing teachers' understanding of the emotional, behavioural and developmental needs of students, offer teachers appropriate professional consultation and advice to help them handle the problems of students, and provide immediate intervention and follow-up services in times of crisis. As school social workers are primarily targeted at serving students, they are not professionals to provide treatment and handle mental health issues of adults. As the Government does not require school social workers to provide professional psychological counselling services for teachers, the relevant information is not available.

Attaching great importance to teachers' well-being, the Education Bureau (EDB) has been encouraging schools to promote mental health on campus, and enhance the understanding and recognition of mental health among students, teachers and parents at the Universal level, including the implementation of mental health projects and education. While these activities are primarily targeted at students, we also encourage teachers and other stakeholders to join in and increase their awareness of mental health and understanding of the sources of stress and ways to cope with it for realising healthy life. Apart from

organising talks and sharing sessions on mental health for teachers, the EDB has, starting from the 2017/18 school year, provided “Professional Development Programme for Mental Health” for primary and secondary school teachers, including elementary training for teachers at large and in-depth training for designated teachers. Teachers’ mental health is also covered in these trainings. Content related to maintenance of teachers’ mental well-being and healthy lifestyle is also incorporated in the teacher training under the Student Mental Health Support Scheme launched by the Food and Health Bureau in collaboration with the EDB, the Hospital Authority and the Social Welfare Department to provide support for students with mental illness.

Moreover, in the 2019/20 school year, the Mindshift Educational Networking Programme (Phase I) launched by the University of Hong Kong with the funding support of the Quality Education Fund (QEF) shares with teachers ways to maintain their mental health through talks or related activities. Participation in the professional development activities above will enhance teachers’ understanding of mental health and ways to manage and relieve stress as well as emotions. We believe that such knowledge and skills not only help teachers render support to students with mental health needs, but also strengthen their capacities in handling their own emotions and stress. The QEF has also included “Effective Leadership and School Management” and “Positive Values” as priority themes for schools’ application for funding to launch projects that help develop schools’ effective leadership, boost staff morale and foster collegial working relationships, as well as creating a school environment conducive to promoting positive values through strengthening support for stakeholders, including principals and teachers.

Training offered by the EDB to school leaders, such as Induction Programme for Newly-appointed Principals and Educational Administration and Management Course for Senior School Administrators cover not only stress management, but also human resource management. Through these training, participants could grasp how to support teachers and relieve their stress at work by adopting different strategies, such as conducting holistic review of teachers’ work and streamlining unnecessary administrative procedures, making room for teachers through optimal use of additional manpower or stakeholders’ resources, familiarising teachers with their job duties through implementing induction programmes, and fostering a positive and collaborative culture in school. To our understanding, quite a number of schools have incorporated the elements of stress management, emotion management, physical and mental well-being, team-building etc. into the activities of teacher development days so as to support principals and teachers in handling stress at work.

To help teachers and principals cope with stress at work or personal emotional problems, we have set up the Teachers’ Helpline to provide telephone counselling and appropriate support services. The counsellors of the Teachers’ Helpline will do their best to understand the situation of the callers and help them analyse and manage their problems. They will also, as and when necessary, provide professional telephone counselling and face-to-face counselling and arrange for professionals (such as clinical psychologists) to follow up the cases. We also organise courses for teachers and principals on stress management and promotion of mental well-being under the Teachers’ Helpline initiative. From the 2014/15 to 2018/19 school years, the average annual expenditure on this initiative is about \$400,000 and about 320 cases for assistance were received in each of these years. Besides, the Hong

Kong Teachers' Centre has been organising a variety of stress-relieving courses to help teachers relax and relieve stress.

In any case, teachers who experience persistent or significant signs of stress should immediately seek assistance from relevant professionals (e.g. clinical psychologists and psychiatrists) for timely and appropriate counselling or treatment.

In view of the recent social incidents and the COVID-19 epidemic, the EDB has adopted a series of measures to assist schools in catering for students with mental distress, so as to relieve teachers' pressure in managing the emotions of students. Apart from issuing letters and guidelines to schools to lay out the basic principles for managing students' emotions, and providing teachers and other school professionals with information on mental health and professional support services, the EDB has also organised relevant workshops and thematic talks to boost teachers' confidence in taking care of students' emotional needs. With the support of the EDB, school councils, associations of school principals and the Hong Kong Psychological Society held a series of workshops on "Trust and Respect, Love and Care in Schools" for primary, secondary and special schools across the territory in August 2019. Through experiential activities and illustration, psychologists helped participating principals, vice principals and teachers manage their own emotions, acquire the skills to communicate with students and parents, and the strategies as well as approaches to handle students' emotions. These workshops had an attendance of over 1 000. In December 2019, the EDB held two thematic talks on mental health for over 400 principals and teachers of primary, secondary and special schools. A psychiatrist was invited to give a presentation on ways to handle mental health crisis and how schools can better support students in need, and a clinical psychologist was also there to share her experience in providing psychological support for teaching staff and students after the occurrence of an emergency incident. In addition, we are now in the process of producing a series of short psychoeducational videos in collaboration with professional bodies with a view to equipping teachers and parents with skills to deal with the negative emotions and mental stress of their students and children. In the coming few months, we will organise a series of regional-based workshops for teachers and guidance personnel where experts (e.g. psychiatrists, psychologists, etc.) will be invited to share practical skills for supporting students and discuss case studies. We believe that the above measures are useful in enhancing teachers' sense of efficacy in taking care of students' mental health, and are of help in relieving teachers' stress at work.

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

How many cases of school bullying (including cyberbullying) were received by the Education Bureau in the past 3 years? Please advise this Committee of the progress of these cases.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 7)

Reply:

Based on the information retrieved from the Education Bureau's annual questionnaire surveys on guidance and discipline cases in public sector primary and secondary schools, the number of student cases involving school bullying and cyber-bullying in the past 3 school years (i.e. from the 2016/17 to 2018/19 school years) is tabulated below:

School year	2016/17	2017/18	2018/19
Number of student cases involving school bullying (Note)	124	202	226
Number of student cases involving cyber-bullying	-	54	50

Note: Starting from the 2017/18 school year, cyber-bullying is added as a separate category. Cyber-bullying cases are therefore not included in the 202 and 226 cases of school bullying.

Regarding the management and supervision of guidance cases, schools are required to establish case management procedures (including opening a case, progress reporting and closing a case, etc.). The designated teachers or guidance personnel should consult with professionals such as social workers or psychologist as necessary. Under the principle of confidentiality, information related to the case should be restricted only to the relevant stakeholders as authorised by the school. Given the uniqueness of each case, it is not possible to handle all cases with standard procedures and thus difficult to indicate their progress with statistics.

Director of Bureau: Secretary for Education

Question:

Currently, is the Government providing any joint funding with enterprises for students or graduates to pursue further or postgraduate studies abroad? If yes, what are the details? If no, what are the reasons?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 9)

Reply:

The Government has not cooperated with enterprises to subsidise students' studies abroad. The Government launched the Hong Kong Scholarship for Excellence Scheme (HKSES) in November 2014 to support outstanding local students to pursue studies at world renowned universities outside Hong Kong, with a view to grooming a top cadre of talents with global vision, international network and world-class education, thereby contributing to enhancing Hong Kong's competitiveness as Asia's World City in a globalised knowledge economy. Starting from the 2015/16 academic year with up to 100 students subsidised per cohort, the HKSES has been regularised in the 2019/20 academic year with the scholarship capped at \$300,000 per student per annum and a means-tested bursary granted to students who may need additional support to pursue their studies, subject to a ceiling of \$200,000 per student per annum, for covering living and other study-related expenses. The Education Bureau also arranges mentorship programmes and summer internships for the awardees to enrich their social experience. Since the launch of HKSES, around 470 students were awarded scholarships to pursue undergraduate or postgraduate studies at renowned universities outside Hong Kong.

The HKSES is well-received and has been regularised. Hence, the Government has no immediate plan to set up other scholarship programmes to subsidise students in their pursuit of further studies aboard.

Question:

Following the occurrence of social incidents, what measures has the Administration taken to strengthen university governance and security? What are the manpower and expenditure involved?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 11)

Reply:

While committed to safeguarding the academic freedom and institutional autonomy of universities, the Government and the University Grants Committee (UGC) also require universities to ensure transparency and accountability of their operation with due regard to good governance, to secure that the funding is put to appropriate uses that ensure universities operate effectively in accordance with their missions and roles and serve the best interests of students as well as the society. Over the past few years, the universities have implemented various measures to enhance their governance. Examples include drawing up or reviewing an institutional risk register and a code of practice, and arranging an away-day or retreat for governing Councils to reflect on existing practices and discuss key strategic risks. To gain a better understanding of the overall situation of the higher education sector, members of the governing Councils have also actively participated in the annual sector-wide briefing sessions organised by the UGC. Moreover, the universities are required to make an annual report to the UGC on their latest developments and performance indicators. Regarding the handling of ad-hoc incidents, all universities have put in place a contingency mechanism, normally consisting of an emergency response team led by the university management (say the President or Vice-President responsible for administrative duties) to co-ordinate contingency measures and related work among the units concerned.

Dedicated security units have long been established by universities for the purpose of campus management. Appropriate personnel are engaged for security duties to ensure campus safety. The universities have also put in place internal mechanisms, rules and

procedures to deal with ad-hoc incidents that occur on campus. In the event of ad-hoc incidents, security personnel will be deployed to maintain order on campus as and when necessary and ensure the safety of all those at the scene. Consideration will also be given to seeking the assistance of the law enforcement agencies taking into account the actual circumstances and needs.

Given the impact of recent social incidents, universities have enhanced their on-campus security arrangements and hired additional security staff having regard to their actual needs. Some universities have implemented access control measures, such as requiring staff members, students and invited visitors to present their identity document or to register upon entry to the campus, or denying the entry of visitors from late night to early morning. Individual universities have also engaged professional security consultants to review the existing on-campus security facilities, manpower and arrangements and make professional recommendations to the universities, for the purpose of enhancing the overall on-campus security measures in the long term.

The above measures on strengthening governance and security are implemented by universities with the use of existing resources (including recurrent subvention from the UGC). The EDB and UGC are unable to identify or provide data on the relevant actual expenditure.

Question:

In the past 5 years, how many Hong Kong residents' children pursue further studies in secondary schools or universities in the Mainland or other places? Has there been a marked upsurge due to social events?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 12)

Reply:

We do not maintain records of the number of Hong Kong students pursuing studies in secondary schools or universities in the Mainland or overseas. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying undergraduate and postgraduate programmes in Mainland higher education institutions was 16 228 as at January 2020, which is comparable to that of the corresponding period last year.

Question:

Please advise whether the occurrence of social incidents has caused a marked decline in (1) the number of students applying for a university place through JUPAS and (2) the number of students applying for a university place through non-JUPAS route over the past 3 years. Please also advise whether the occurrence of social incidents has caused a marked decline in the number of students enrolling for associate degree programmes through the Electronic Advance Application System for Post-secondary Programme (E-APP) or through direct application to tertiary institutions over the past 3 years.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 13)

Reply:

The Hong Kong Diploma of Secondary Education Examination (HKDSE) candidates may apply for sub-degree and first-year first-degree (FYFD) programmes offered by the University Grants Committee (UGC)-funded universities, self-financing full-time undergraduate programmes offered by The Open University of Hong Kong, and full-time undergraduate programmes offered under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) through the Joint University Programme Admissions Scheme (JUPAS). In the 2017/18, 2018/19 and 2019/20 academic years, the number of students applied for admission to the above programmes through JUPAS is 48 502, 46 703 and 44 413 respectively, and the number of students applied for the FYFD programmes offered by the 8 UGC-funded universities through non-JUPAS routes is 39 320, 39 872 and 40 287 respectively.

The number of students submitting their applications through the Electronic Advance Application System for Post-secondary Education Programmes (E-APP), and the respective numbers of applications submitted through E-APP for admission to sub-degree and undergraduate programmes in the past 3 years are tabulated below. We do not possess information on the number of students directly applying to the relevant institutions for admission to sub-degree programmes.

Year	2017	2018	2019
No. of applicants submitting applications through E-APP	21 184	20 262	20 371
No. of applications for sub-degree programmes ^{Note}	Relevant data unavailable	77 717	77 163
No. of applications for undergraduate programmes ^{Note}	Relevant data unavailable	15 038	13 043

Note: HKDSE candidates may apply for more than one programme (sub-degree and/or undergraduate) through E-APP.

The applicants admitted in the year of 2019 started their study in September 2019, and thus the above number of applicants cannot reflect the possible implications of the recent social events. It should be noted that the number of students applying for post-secondary programmes each year is affected by changes in the overall number of students, while the number of students submitting applications through E-APP and the number of applications for programmes submitted through E-APP are, to a certain extent, related to relevant factors such as the types of programmes offered by self-financing institutions. In addition, as there are diversified articulation pathways available to secondary school leavers, whether they apply for admission to programmes offered by local post-secondary institutions is a matter of personal choice, and we are not in a position to assess whether changes in the number of applications are related to social events.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding students who have engaged in activities of social incidents or have been put under arrest, what follow-up actions will be taken by the Administration to help them get back on track?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 14)

Reply:

The Education Bureau (EDB) issued a letter to all schools in December 2019, reiterating that schools should state in no unclear terms to students and parents that any breach of school regulations will not be tolerated and schools will handle students' misbehaviour based on the prevailing disciplinary and counselling mechanisms. We shall never give up on students who have violated the law or even students convicted by the court. We should counsel them, deploying appropriate guidance and discipline measures, and bring them back to the right track. It is suggested that schools should develop a long-term personalised counselling programme for each arrested or prosecuted student as early as possible, strengthening education on positive values, positive thinking, proper attitude in social communication, and to maintain close contact with their parents. Schools should also take care of other students who may be affected by cases of students arrested or prosecuted, and help them manage their emotions and understand the issues.

The Government has been continuously increasing the provision of resources on professionals. For example, the "one social worker for each school" policy has been implemented in public sector primary schools according to school-based circumstances starting from the 2018/19 school year; and the "two social workers for each school" policy has been implemented in secondary schools starting from the 2019/20 school year. In addition, the ratio of school-based educational psychologist to school has been progressively increased. Under the whole school approach to guidance and discipline, these school professionals (including school social workers, student guidance personnel and school-based educational psychologists) collaborate with teachers to provide remedial,

preventive and developmental guidance programmes for the arrested or prosecuted students as necessary, as well as to encourage parents to listen actively and patiently to their children's inner voices, support them with a caring attitude when they are in distress, and maintain communication with schools, with a view to helping the students reintegrate into school life and solving their behavioural problems.

Social incidents might affect the emotions of students arrested for engagement as well as other students. In this regard, the EDB has issued to all schools guidelines on caring the emotions of teachers and students, stating the basic principles on helping students manage their emotions and providing information on mental health and professional support services for teachers and professionals in schools. To enable schools to take care of their students' emotional needs, the EDB has also organised relevant workshops and thematic talks that help schools understand the techniques for communicating with students, methods for handling mental health crisis, and psychological support for teaching and non-teaching staff and students after the occurrence of an emergency incident. Meanwhile, the Social Welfare Department (SWD) has organised a series of training courses and workshops for social workers in secondary schools to enhance their capacity in addressing students' problems.

To enhance students' resilience, schools may join the student development programmes launched by the EDB, such as the Understanding Adolescent Project for primary schools and the Enhanced Smart Teen Project for secondary schools. Starting from the 2019/20 school year, the EDB has allocated more resources to refine these programmes by, for example, increasing the number of group-based student activities and training sessions for parents, and reducing the group size under the Intensive Programme of the Understanding Adolescent Project; as well as gradually increasing the number of training places under the Enhanced Smart Teen Project to benefit more students.

In addition, it is noted that the SWD, through non-governmental organisations, has implemented the Community Support Service Scheme for providing support services to young people aged 10 to under 18 who are cautioned under the Police Superintendent's Discretion Scheme, arrested youth and their peers with delinquent behaviours (including students). Through individual and family counselling, therapeutic groups/skill training/educational groups, positive life training, community services, crime prevention activities, etc., these support services help young people eliminate their deviant and unlawful behaviours and reduce their likelihood of law infringement.

As for post-secondary institutions, the EDB understands that they have established counselling and support mechanisms to provide appropriate assistance and support to students in need. Generally speaking, institutions would, based on the actual situation, provide students with ways to seek legal advice, counselling support, temporary accommodation, and other support measures as necessary. Furthermore, institutions would initiate suitable disciplinary procedures as needed, so that the students in contravention of the institutions' regulations or the law could understand and correct their mistakes, and take responsibility for their own actions.

Question:

Since the occurrence of social incidents, how many complaints have been received by the Education Bureau in respect of teachers' conduct, such as making inappropriate comments (on social media platforms, etc.) or engaging in activities of these incidents? What is the progress in handling such cases? What are the follow-up actions?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 15)

Reply:

From mid-June 2019 to end of January 2020, the Education Bureau (EDB) received a total of 171 complaints about suspected professional misconduct of teachers during recent social incidents. We have substantially completed the investigation of 125 cases, of which 47 were found unsubstantiated.

Among the above-mentioned 125 cases, the EDB has taken follow-up actions on 39 of them, including issuing reprimand letters to 13 teachers and warning letters to another 4. The EDB may consider cancelling these teachers' registration pursuant to the Education Ordinance if they misconduct themselves again. We have also issued advisory letters to 9 teachers and verbal reminders to another 13 to remind them to refrain from activity that is detrimental to the image of the teaching profession and to show respect to the behavioural norms acceptable to society. For the remaining 39 cases, our initial view is that they are likely to be substantiated. In accordance with the established procedures, we are currently waiting for or considering the response from the teachers concerned with a view to determining the appropriate follow-up actions.

Question:

Since the occurrence of social incidents arising from the anti-extradition law amendment, how many complaints have been received by the Education Bureau in respect of teaching materials or pedagogical content? How many teachers concerned are penalised and what forms of penalties have been meted out?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 16)

Reply:

From mid-June 2019 to end of January 2020, the Education Bureau (EDB) received a total of 171 complaints about suspected professional misconduct of teachers during recent social incidents. Given the extensive coverage of these complaints and unique nature of various cases, with quite a number of them involving multiple allegations, we do not categorise the complaints by types. Roughly speaking, the majority of these 171 cases are related to teachers making hate messages or cursing people, while the rest are about the use of extremely indecent language or use of foul language in insulting people; use of inappropriate teaching materials; suspected engagement in illegal activities, etc. We have substantially completed the investigation of 125 cases, of which 47 were found unsubstantiated.

Among the above-mentioned 125 cases, the EDB has taken follow-up actions on 39 of them, including issuing reprimand letters to 13 teachers and warning letters to another 4. The EDB may consider cancelling these teachers' registration pursuant to the Education Ordinance if they misconduct themselves again. Director of Bureau: Secretary for Education

Question:

What are the resources and projects involved in promoting “One Country, Two Systems” and Basic Law education in kindergartens, primary and secondary schools and universities in the past 5 years? Will the Administration step up the provision of resources or expand the scope of these projects?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 17)

Reply:

The Education Bureau (EDB) has all along endeavoured to promote Basic Law education (BLE). At the kindergarten level, we help students develop an initial understanding of our country and an appreciation for the fine Chinese culture in early childhood mainly through the relevant curriculum, so as to facilitate a smooth transition for learning the concepts of Basic Law at the primary level. At the primary and secondary levels, the EDB has been continuously adopting a wide array of measures to strengthen the implementation of BLE, which include organising life-wide learning activities for students, developing learning and teaching (L&T) resources, providing teacher training for school sponsoring bodies, school leaders and teachers, etc. Such support measures enable schools, teachers and students to acquire a deeper understanding of the relationship between our country's Constitution and the Basic Law as well as the concepts embodied in the Basic Law, and to understand that Basic Law is the cornerstone of Hong Kong's development and is closely related to our daily life, which in turn facilitate schools to enhance L&T efficacy by making plans for and taking forward BLE more effectively and to strengthen students' motivation for learning the Basic Law.

Besides, the EDB will continue to enhance students' understanding of the historical background of the Basic Law and its implementation as well as the concepts of "One Country, Two Systems" through student activities such as Basic Law quizzes. The expenditure involved in the quizzes is about \$300,000 per year.

With respect to the development of L&T resources, the EDB has in the 2016-17 to 2019-20 financial years provided secondary schools with various sets of L&T resources, including "Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study"; online L&T resources for the "Constitution and the Basic Law" module; "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers"; "Basic Law Online Course for Secondary School Students' Self-directed Learning"; and 2 assessment banks, namely "Basic Law On-line Assessment (Junior Secondary)" (for students) and "Web on Assessment for BLE (Junior Secondary)" (for teachers). The 2 assessment banks have been developed for years and will continue to be available for schools' use. The EDB staff will regularly review and update the content of these assessment banks with regard to the latest developments in the implementation of the Basic Law. Expenditures related to the 2 assessment banks only involve daily website management. All the L&T resources mentioned above remain relevant. In the 2020-21 financial year, the EDB will continue to develop the advanced version of the "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers". At the primary level, the EDB has in the 2016-17 to 2020-21 financial years provided 3 sets of L&T Resource CD ROMs for Primary General Studies on "History and Culture Series" and the "Basic Law Audio-visual L&T Package (Senior Primary)" to enhance teachers' and students' understanding of the Basic Law. The expenditures on various L&T resources are as follows:

Name of L&T Resources	Expenditure [^] (\$ million)
Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study (Secondary)	0.71
Online L&T resources for the "Constitution and the Basic Law" module	Not Applicable [^]
Basic Law Knowledge Enrichment Online Course for Secondary School Teachers and supplementary video clips	1.08
Basic Law Online Course for Secondary School Students' Self-directed Learning and supplementary video clips	0.93
Basic Law On-line Assessment (Junior Secondary) (for students)	Not Applicable [^]
Web on Assessment for BLE (Junior Secondary) (for teachers)	Not Applicable [^]
L&T Resource CD ROMs for Primary General Studies (History and Culture Series): Understanding Chinese History and Culture through Monuments in Hong Kong	0.05
L&T Resource CD ROMs for Primary General Studies (History and Culture Series): The Stories of the Silk Road	0.06
Basic Law Audio-visual L&T Package (Senior Primary)	1.20 ⁺⁺
L&T Resource CD ROMs for Primary General Studies (History and Culture Series): Engineering in China	0.09 [#]
Advanced Basic Law Knowledge Enrichment Online Course for Secondary School Teachers	0.54 ⁺⁺

- ^ Total expenditures on L&T resources, which are incurred in different financial years (2015-16, 2016-17, 2017-18, 2018-19, 2019-20 and 2020-21).
- # Actual expenditure revised from last year's estimates
- ++ Revised from last year's estimates
- Δ Daily website management (including production) is subsumed under the recurrent expenditure of the EDB

The above-mentioned expenditures on the production of BLE-related L&T resources, which include resource packages and assessment banks, do not cover staff cost for the EDB personnel involved in the production. Since the development of L&T resources is an integral part of the day-to-day curriculum development work, it is not practical to give separate figures on the staff-related expenditure incurred by individual curriculum development tasks.

Moreover, the EDB offers training to school leaders through induction programmes for newly-appointed principals, educational administration and management courses for senior school administrators, etc. These programmes not only cover the constitutional status of the Basic Law and the significance of “One Country, Two Systems”, but also include experience sharing of schools’ practices in promoting BLE. The EDB will, based on the development in the promotion of the Basic Law and the needs of schools, flexibly deploy the resources available and render appropriate professional support to schools for the purpose of strengthening BLE.

As regards University Grants Committee-funded universities, the bulk of the recurrent grants to these universities are in the form of a block grant based on the approved student numbers allocated to universities. As the expenditure for individual education themes is subsumed under the block grant to the universities, a separate figure is not available. To our understanding, universities offering teacher education have included elements related to the Basic Law in their undergraduate programmes to enable more students to learn about the Basic Law.

For post-secondary institutions, the EDB respects their autonomy in curriculum design while encouraging them to help students develop a full and accurate understanding of the Basic Law and “One Country, Two Systems” to boost their sense of national identity. Various universities organise a wide array of public talks, seminars and workshops on the Basic Law, governance and politics, and national education. Many institutions also offer related general education and inter-disciplinary courses to increase students’ understanding of the Basic Law. Universities may continue to make full use of their resources to promote, teach and research into such topics as the Basic Law and “One Country, Two Systems”.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding national education, what are the manpower and expenditures involved in the past 5 years, and what is the average amount of expenditure per student? What is the estimated expenditure on national education for the coming school year? Has the Administration collected statistics on the number of teachers and students who benefited from the provision for national education in the past 5 years?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 18)

Reply:

National education, in the broad sense, facilitates teachers' and students' thorough understanding of our country through various curricula, teacher training, learning and teaching resources, Mainland exchange programmes, interflow and co-operation between primary and secondary sister schools in Hong Kong and the Mainland, and various life-wide learning activities. Over the past 5 school years (2015/16 to 2019/20), the average annual expenditure of Mainland exchange programmes organised by the Education Bureau (EDB) for students is \$71.1 million. The estimated expenditure for the 2020/21 school year is \$115 million. The expenditure on manpower resources for the Mainland exchange programmes and those on the above initiatives for promoting national education have been subsumed under the recurrent expenditure of the EDB, and thus a breakdown is not available.

The number of primary and secondary school students who participated in Mainland exchange programmes in the past 5 school years (2015/16 to 2019/20) and the 2020/21 school year is tabulated below. All exchange activities to the Mainland organised or subsidised by the EDB have been suspended or postponed since end-January due to the outbreak of COVID-19 in early 2020.

School year	No. of primary and secondary school students (rounded down to the nearest hundred)
2015/16	59 200
2016/17	59 800
2017/18	67 000
2018/19 [#]	74 500
2019/20 [*]	20 500
2020/21 ⁺⁺	109 000

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

⁺⁺ Estimated figures

The number of teachers who participated in professional Mainland exchange programmes and the expenditure involved over the past 5 school years (2015/16 to 2019/20) and in the 2020/21 school year are shown below:

School year	No. of teachers (rounded down to the nearest ten)	Expenditure (\$ million) [@]
2015/16	410	2.1
2016/17	690	2.9
2017/18	760	5.5
2018/19 [#]	1 680	7.1
2019/20 [*]	1 000	8.7
2020/21 ⁺⁺	2 680	12.9

[@] The expenditure on manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

⁺⁺ Estimated figures

CONTROLLING OFFICER'S REPLY**EDB043****(Question Serial No. 1434)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Please provide the total numbers of primary and secondary school students and teachers participating in Mainland exchange activities in the past 3 years, as well as the numbers of provinces and cities involved. Has the number of exchange activities decreased due to recent social incidents? Please provide the expenditures on Mainland student exchange programmes in each of the past 3 school years, as well as the estimated expenditure for the coming school year.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 19)Reply:

The Education Bureau (EDB) organises Mainland exchange programmes for students, or subsidises those organised by schools every school year. These programmes cover different provinces and cities in the Mainland, including 22 provinces, 4 autonomous regions and 4 municipalities. The respective numbers of primary and secondary students participating in the aforementioned Mainland exchange programmes in the past 3 years (the 2017/18, 2018/19 and 2019/20 school years) are as follows:

School Year	Number of Students (rounded down to the nearest hundred)	
	Secondary Students	Primary Students
2017/18	40 200	26 800
2018/19 [#]	42 100	32 400
2019/20 ⁺	9 300	11 200

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

Teachers participate in the aforementioned Mainland exchange programmes as learning facilitators on a ratio of 1 teacher to 10 students. Besides, the EDB also organises various professional Mainland exchange programmes for teachers. The respective numbers of teachers participating in these programmes in the past 3 years are as follows:

School Year	Number of Teachers (rounded to the nearest ten)
2017/18	760
2018/19 [#]	1 680
2019/20 ⁺	1 000

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

All along, schools could organise Mainland exchange programmes on their own or choose to participate in Mainland exchange programmes or subsidy schemes organised by the EDB according to their school needs. Students' participation is on a voluntary basis. From time to time, schools cancel or postpone their scheduled Mainland exchange programmes in light of school-based circumstances. The EDB only has the numbers of participating schools, teachers and students for each trip, and does not collect or compile the reasons for cancellation or postponement of Mainland exchange programmes, including social events and other factors. Nevertheless, classes are suspended on many school days in the 2019/20 school year, and during class suspension, the scheduled Mainland exchange programmes have to be cancelled. Upon class resumption, primary and secondary schools need to reschedule their teaching and other activities, and it is possible that the exchange programmes will not be conducted as planned.

The respective expenditures involved in the Mainland exchange programmes for students in the past 3 school years (from 2017/18 to 2019/20) and in the 2020/21 school year are as follows:

School Year	Expenditure (\$million) [@]
	Programmes for primary and secondary students
2017/18	85.4
2018/19 [#]	108.9
2019/20 ⁺	35.1
2020/21 ⁺⁺	115

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

⁺⁺ Estimated figures

CONTROLLING OFFICER'S REPLY

EDB044

(Question Serial No. 1435)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please advise on the number of primary and secondary schools that have formed sister schools with their counterparts in the Mainland, with a breakdown by province and municipality, and the percentage of students who have participated in exchange activities under the Sister School Scheme against the total number of students in the past 3 years. Will the Administration allocate more resources in the coming year to enhance exchanges and cooperation in basic education, and encourage primary and secondary schools of Guangdong, Hong Kong and Macao to form sister schools?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 20)

Reply:

The Education Bureau (EDB) launched the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme) from the 2015/16 to 2017/18 school years, under which a fixed grant of \$120,000 per annum and professional support were provided for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterpart(s) in the Mainland. The Government has regularised the Pilot Scheme with effect from the 2018/19 school year to provide a recurrent grant (which is set at \$154,950 for the 2019/20 school year and the amount of grant will be adjusted in accordance with the movement of the Composite Consumer Price Index each year) and professional support for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterpart(s) in the Mainland. Schools may organise exchange activities with their sister schools in the Mainland at different levels based on their development needs. The number of participating schools and the number of students' participation in exchange activities are tabulated below:

School year	Secondary school	Primary school	Special school	Total no. of schools	No. of students' participation in exchange activities*
2016/17	223	228	20	471	41 680
2017/18	250	260	25	535	56 870
2018/19	296	312	26	634	#

* Figures are rounded to the nearest ten.

Statistics on the number of students' participation in exchange activities during the implementation of the Pilot Scheme were collected as reference for review purpose. After the regularisation of the Pilot Scheme in the 2018/19 school year, information on the number of students' participation in exchange activities is no longer gathered from the participating schools.

For the 2016/17 and 2017/18 school years, we only collected statistics on the number of students' participation in exchange activities and no headcount was conducted. Since students may participate in more than one exchange activity, we are unable to provide the percentage of students who have participated in exchange activities against the total number of students.

Apart from forming sister schools with their counterparts in the Mainland through the coordination of the EDB, local schools may also form sister schools with their counterparts in the Mainland on their own initiative through other means. The EDB does not require schools to report the information on their sister schools formed via their own networks or require the schools participating in the Pilot Scheme to provide information on all their sister schools in the Mainland. According to the information submitted by schools that have applied for the Grant for the Sister School Scheme, 662 local schools have paired up with their counterparts in the Mainland as 1 869 pairs of sister schools (with some local schools pairing up with more than one Mainland school as sister schools) up to the 2019/20 school year (as at March 2020). The distribution of the provinces/municipalities to which these Mainland sister schools belong is as follows:

Province/Municipality	No. of pairs of sister schools	Province/Municipality	No. of pairs of sister schools
Guangdong Province	896	Beijing Municipality	269
Zhejiang Province	198	Shanghai Municipality	101
Sichuan Province	68	Fujian Province	43
Jiangsu Province	39	Hubei Province	36
Shaanxi Province	35	Shandong Province	24
Guizhou Province	19	Yunnan Province	17
Tianjin Municipality	13	Jilin Province	13
Henan Province	13	Hunan Province	13
Guangxi Zhuang Autonomous Region	11	Hainan Province	10
Liaoning Province	9	Shanxi Province	6
Jiangxi Province	6	Chongqing Municipality	6

Province/Municipality	No. of pairs of sister schools	Province/Municipality	No. of pairs of sister schools
Inner Mongolia Autonomous Region	5	Anhui Province	5
Gansu Province	4	Hebei Province	3
Ningxia Hui Autonomous Region	3	Qinghai Province	2
Heilongjiang Province	2		

The EDB will continue to provide assistance to local schools to form sister schools in the Mainland to promote more in-depth professional exchange and multi-faceted collaboration, with a view to enhancing the quality and quantity of sister school exchanges, and hence facilitating cultural exchange and increasing teachers' and students' knowledge and understanding of the Mainland.

- End -

CONTROLLING OFFICER'S REPLY

EDB045

(Question Serial No. 1436)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following figures for the past 3 years:

- (1) the number and percentage of cross-boundary students enrolled in secondary schools by district;
- (2) the number and percentage of cross-boundary students enrolled in primary schools by district; and
- (3) the number of students using the dedicated school net for cross-boundary students.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 21)

Reply:

- (1) and (2) The number and percentage of cross-boundary students (CBS) in secondary and primary schools by district in the 2017/18, 2018/19 and 2019/20 school years are tabulated in Annexes A and B.
- (3) To alleviate the impact of increasing number of CBS on the demand and supply of public sector primary school places in individual districts, notably the North District, the Education Bureau has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the Primary One Admission (POA). In brief, parents of applicant child who intend to commute daily to schools in Hong Kong are not required to choose any school net as the applicant child's POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation.

The number of CBS (i.e. using the dedicated school net for CBS) participating in the Central Allocation stage of POA 2017, 2018 and 2019 (for admission to Primary One in the 2017/18, 2018/19 and 2019/20 school years) is 3 251, 2 213 and 799 respectively. With the implementation of the zero-quota policy for doubly non-permanent resident pregnant women in early 2013, there is a substantial drop in the figures of POA 2019 as compared with that of POA 2017 and 2018.

Number and Percentage of CBS in Secondary Schools

(i) 2017/18 School Year

District	Number of CBS	Percentage in the Total Number of CBS in Secondary Schools
North	2 562	62.7%
Tai Po	708	17.3%
Sha Tin	84	2.1%
Yuen Long	471	11.5%
Tuen Mun	258	6.3%
Tsuen Wan & Kwai Tsing	0	0.0%
Tung Chung	1	0.0%

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please set out in a table the school fee subsidies (including financial assistance or scholarships) available to Hong Kong residents who have sent their children to the Mainland for primary, secondary or university education, the expenditures involved, and the number of beneficiaries in the past 5 years.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 22)

Reply:

At present, the Government provides financial assistance to Hong Kong students pursuing university studies on the Mainland only. The Mainland University Study Subsidy Scheme (MUSSS) was launched in July 2014. To better support Hong Kong students in pursuing studies in the Mainland, the MUSSS has been expanded since the 2016/17 academic year and a “non-means-tested subsidy” has been introduced under the MUSSS starting from the 2017/18 academic year. For the 2015/16, 2016/17 and 2017/18 academic years, the full-rate subsidy and half-rate subsidy of the “means-tested subsidy” were \$15,000 and \$7,500 respectively. The “non-means-tested subsidy” in the 2017/18 academic year was \$5,000. For the 2018/19 and 2019/20 academic years, the full-rate subsidy and half-rate subsidy of the “means-tested subsidy” are \$16,800 and \$8,400 respectively, and the “non-means-tested subsidy” is \$5,600.

The number of students who have benefited from the MUSSS and the amount of subsidy granted in the past 5 years are tabulated below:

Academic Year	No. of students receiving subsidies			Amount of subsidy (approximate) \$million
	Means-tested full-rate subsidy	Means-tested half-rate subsidy	Non-means-tested subsidy	
2015/16	304	175	Not applicable	6
2016/17	1 495	695	Not applicable	28
2017/18	1 797	744	515	35
2018/19	1 872	667	608	40
2019/20 (as at 29 Feb 2020)	1 800	599	641	39

CONTROLLING OFFICER'S REPLY**EDB047****(Question Serial No. 1438)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (7) Post-secondary, Vocational and Professional Education, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

What are the respective numbers of children of Hong Kong residents attending Mainland primary schools, secondary schools and universities today? How many Mainland schools currently offer Hong Kong curriculum or classes for Hong Kong children? What are the numbers of school places and students enrolled by grade? Has the Administration provided resources for classes for Hong Kong children on the Mainland?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 23)Reply:

We do not maintain records of the number of Hong Kong students pursuing studies on the Mainland. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying undergraduate and postgraduate programmes in Mainland higher education institutions was 16 228 as at January 2020.

At present, under the Scheme of Classes for Hong Kong Students, 11 "minban" schools in Shenzhen are offering Hong Kong curriculum to Hong Kong students. Based on the information provided by the Shenzhen Municipal Education Bureau, there are 3 572 Hong Kong students in the 2019/20 school year. The number of students by grade is tabulated below:

Primary 1	Primary 2	Primary 3	Primary 4	Primary 5	Primary 6
147	407	705	865	754	694

The Education Bureau does not provide resources for the Classes for Hong Kong Students.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Does the Administration collect information on schools' average actual expenditure on procurement of epidemic prevention supplies with grants? Has it assessed after stocktaking whether, on average, schools' current stock level of face masks, cleanser, disinfectant and equipment like thermometers and air purifiers is sufficient? What measures has it taken to assist schools to set up their epidemic prevention system? Apart from provision of supplies or equipment, does it have any measures to raise the awareness of hygiene and epidemic prevention among teaching staff and students?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 24)

Reply:

Since early January this year, the Education Bureau (EDB) has forwarded about 10 letters from the Centre for Health Protection (CHP) to schools, urging schools to stay vigilant and put in place the recommendations of the CHP to strengthen various preventive measures. We have also asked schools to disseminate related information to parents and enlist their cooperation to upkeep students' personal and environmental hygiene, in order to increase their awareness of epidemic prevention.

To support schools' efforts in epidemic prevention, the EDB has deployed existing resources to provide a one-off grant to all schools offering full and formal curriculum (including kindergartens, government schools, Direct Subsidy Scheme schools, the English Schools Foundation schools, international schools, Private Independent Schools, private primary schools and private secondary day schools) to help them replenish their epidemic prevention equipment (such as masks, thermometers, etc.), clean their school premises and pay for the other expenses related to epidemic prevention. The provision is estimated to be \$42 million, benefitting some 2 200 schools. Furthermore, the boarding sections of aided

special schools have been operating to cater for students in need of boarding service during class suspension. To enhance the support for the boarding sections to guard against the epidemic and to reduce the risk of the spread of the novel coronavirus, the EDB will provide separately a one-off additional grant for 21 special schools with a boarding section. The additional expenditure is estimated to be \$2.25 million.

Since the beginning of the novel coronavirus outbreak, we have been keeping close contact with schools to keep in view their procurement of anti-epidemic supplies. To our understanding, the supply of anti-epidemic goods was relatively tight early in the epidemic. Nevertheless, since all classes have been suspended, schools do not require a huge amount of anti-epidemic supplies. We note that the shortage of anti-epidemic supplies has begun to improve recently. Since classes are still suspended and we will announce the date of class resumption and related arrangements at least 3 weeks before it takes place, schools can make suitable preparations in the meantime. As schools are different in scale and needs, they also differ in respect of the type and number of anti-epidemic supplies they need. Schools could make good use of the funding for meeting daily operational expenses provided by the EDB and the anti-epidemic grants to procure necessary anti-epidemic supplies according to their school-based needs. We have not collected the statistics on related expenditure.

Director of Bureau: Secretary for Education

Question:

Has the Education Bureau estimated the additional expenditure to be incurred by the Hong Kong Examinations and Assessment Authority owing to the increase in manpower and resources for arranging the Hong Kong Diploma of Secondary Education Examination amid the pneumonia epidemic? What are the specific arrangements?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 25)

Reply:

In view of the pneumonia epidemic, the Hong Kong Examinations and Assessment Authority (HKEAA) has increased its procurement of anti-epidemic supplies, including surgical masks, alcohol disinfecting wipes, alcohol sanitiser-gel, infrared thermometer and thermal imaging system, for the conduct of the Hong Kong Diploma of Secondary Education Examination.

On the advice of the Centre for Health Protection, a number of precautionary measures against infection will be adopted during the examination and script marking periods. Some of these measures may involve additional manpower or supplies for checking body temperature before candidates, examination personnel and staff enter the examination centres; spacing out candidates' seats appropriately; ensuring that surgical masks are put on by all candidates, examination personnel and staff; and enhancing the cleaning of examination centres.

Emergency works in assessment centres will be carried out as necessary to ensure adequate spatial separation of work stations for onscreen marking and install partitions with a height of 1.2 metres. Hours for script marking in a number of assessment centres will be extended across the board from not earlier than 9:00 am until 10:30 pm to 8:30 am until 11:30 pm. Furthermore, outsourced cleaning service will be enhanced, and there will be a dedicated team to step up disinfecting and cleaning work in assessment centres. At each examination centre and assessment centre, an adequate quantity of anti-epidemic supplies such as surgical masks and alcohol sanitiser-gel will be made available to persons there.

To meet the expenses incurred by the measures mentioned above, the HKEAA has earmarked \$20 million for contingency use.

Question:

Plases provide the total number of tutorial schools and informal schools in the territory. Has the Administration looked into the extent of economic loss suffered by the sector or the number of closure that resulted from the epidemic of pneumonia?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 26)

Reply:

According to the Education Bureau (EDB)'s records (as at 5 March 2020), there were a total of 2 917 private schools offering non-formal curriculum in the territory^(note).

Formal schooling is the EDB's priority of work. Institutions (including tutorial schools) offering non-formal education are not required to submit their financial statements to the EDB. Hence, we have neither the financial data of these institutions nor the number of closures due to the epidemic.

Note: Apart from schools which offer post-secondary, secondary, primary, kindergarten and nursery education, private schools offering educational courses such as tutorial, commercial, language and computer courses are all categorised as private schools offering non-formal curriculum. A breakdown of the aforementioned school types is unavailable.

Question:

What were schools' expenditures on procuring recycled products from local recyclers and the total value of related procurement contracts signed between schools and the recycling industry in each of the past 5 years? Does the Administration plan to increase the proportion of such procurement? Some schools have purchased refurbished buses for teaching purposes. Has the Administration subsidised these purchases?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 27)

Reply:

The Education Bureau (EDB) has neither gathered information on schools' expenditures on procuring recycled products from local recyclers and the total value of related procurement contracts nor stipulated the proportion of recycled products to be procured by schools.

Schools may use their resources (including government funding) to purchase suitable items for teaching purposes, but they have to ensure that the items meet the relevant regulatory requirements on safety or health. At present, the EDB does not provide additional subsidy for schools to purchase refurbished buses for teaching purposes.

(Question Serial No. 1445)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (1) The Education Bureau (EDB) has introduced professional consultancy services under which publishers may voluntarily submit their textbooks for Liberal Studies (LS) to the EDB for review. Please provide an update on the implementation of the services. How many publishers have used the services and how many textbooks have been submitted for review?
- (2) What are the review results? How many LS textbooks have to be revised?
- (3) How many publishers have agreed to revise their textbooks in accordance with the recommendations? How many publishers have refused?
- (4) Does the EDB plan to change the nature of submitting LS textbooks for review from voluntary to mandatory during the year? What are the reasons?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 30)

Reply:

(1) to (4)

The so-called “textbooks” for senior secondary Liberal Studies (LS) available on the market have not been reviewed by the Education Bureau (EDB). The recent social incidents in Hong Kong have caused people’s concern over the learning materials for senior secondary LS. They worry that the teaching materials for LS are not comprehensive, objective or impartial enough, and may cause negative impacts on students. The EDB is fully aware of such public concerns. To safeguard the well-being of students, we introduced a special measure to provide a one-off professional consultancy service for publishers of senior secondary LS “textbooks” in September 2019 with a view to enhancing the quality of “textbooks” already published. For details, please refer to the written reply furnished by

the EDB to a question raised at the Legislative Council meeting in November 2019 (<https://www.info.gov.hk/gia/general/201911/13/P2019111300657.htm>). Under this measure, 7 major publishers of LS “textbooks” participated voluntarily in the professional consultancy service with their latest editions of a total of 10 sets of senior secondary LS “textbooks” (including the English versions). A list of publishers participating in the professional consultancy service is available on the EDB’s webpage (<https://www.edb.gov.hk/tc/curriculum-development/resource-support/textbook-info/ls.html>).

As at March 2020, personnel responsible for rendering the professional consultancy service have finished reviewing the “textbooks” received in a professional manner in accordance with the aims and objectives of the LS curriculum. The EDB has met with the publishers concerned and provided them with professional feedback for improving the quality of the senior secondary LS “textbooks”. Publishers that participated in the professional consultancy service undertook to duly follow up the amendments suggested by the EDB and are now revising their “textbooks”. It is expected that the publishers will complete the revision as early as possible so that the revised “textbooks” can be ready for schools’ adoption in the coming school year. Taking into account the experience of the professional consultancy service, the EDB will consider long-term quality assurance measures for the subject, including the feasibility of establishing a textbook review mechanism.

EDB054

(Question Serial No. 1446)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) In mid-October last year, the Education Bureau announced in the Gazette that 11 Curriculum Development Officers of the Liberal Studies (LS) Section under the Curriculum Development Institute (CDI) were appointed as inspectors to visit schools for inspection of LS teaching. How is the plan executed?

(2) Has the implementation of the plan impacted on the human resources and daily business of the LS Section under CDI? Does the LS Section require additional resources and what are the details?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 31)

Reply:

(1) The officers of the Education Bureau (EDB) have been monitoring the overall quality of learning and teaching in the school sector through external school reviews, focus inspections on different subjects and curriculum development visits. The appointment of officers from the Liberal Studies (LS) Section of the Curriculum Development Institute (CDI) to double as inspectors, as gazetted by the EDB in October 2019, seeks to enhance the professionalism in curriculum development continuously through the collaborative efforts with inspectors from the Quality Assurance (QA) Sections in conducting curriculum development visits-cum-focus inspections. The procedures, requirements and follow-up actions of focus inspections, including the focus inspections on LS conducted jointly by the CDI and QA Sections, are consistent across all subjects. Through scrutiny of relevant documents, such as curriculum documents, student assignments and examination papers, discussions with school personnel, as well as observation of lessons and activities conducted for the subject concerned, inspectors get a grasp of the implementation of the curriculum in schools. Having regard to the school context, inspectors evaluate the subject performance and provide schools with specific professional advice for their continuous improvement in the implementation of the subject curriculum. However, classes are suspended for a

considerable number of school days this school year, and during the class suspension, focus inspections and curriculum development visits on different subjects cannot be conducted.

(2) All along, the EDB reviews the manpower resources and day-to-day operation of different sections (including the LS Section) on an ongoing basis under the established mechanism, and will flexibly deploy various internal resources in light of the actual situation to meet the development needs of specific sections.

CONTROLLING OFFICER'S REPLY

EDB055

(Question Serial No. 1447)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (1) Please provide a list of all existing “matchbox-style school premises”.
- (2) What improvement works were carried out for these sub-standard old school premises in the past year?
- (3) Is there a specific timetable for relocation or redevelopment?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 32)

Reply:

(1) to (2)

At present, there are about 850 ordinary public sector primary and secondary schools in the territory. Their premises were built in different periods in accordance with the building standards at the time of construction and facilities in the premises vary. While the standards have been changing over the years, existing school premises in operation are required to comply with prevailing statutory requirements. As at March 2020, about 200 of them were built according to prevailing standards.

Among the schools built in different periods, some are cuboidal-shaped premises constructed between the 1960s and 1980 in public housing estates for primary school use. These school premises are often referred to as “matchbox-style school premises”. Following the reprovisioning of 3 public sector primary schools previously operating in “matchbox-style school premises” to vacant school premises (VSP)/new school premises in 2018 and 2019, there are at present 25 public sector primary schools operating in such premises. Among these 25 schools, 5 have been allocated new school premises or VSP through the mechanism for school allocation for reprovisioning or expansion.

In response to a request previously made by the Legislative Council Panel on Education (the Panel), we had consulted the 25 schools concerned on whether they would agree to our releasing their school information to the Panel and the public. Among these 25 schools, 24 schools responded, with 21 of them raising no objection to the public release of their school information, while 3 schools indicated disapproval. The information of those 21 schools is set out at the Annex.

Based on the consensus reached with the sector earlier on, the EDB carried out improvement works for primary schools operating in “matchbox-style school premises”, with a focus on addressing the common problems arising from the unique architectural design of these premises. Improvement works include replacement with sound-proof doors and double-glazed window system in classrooms, installation of mechanical ventilation system along internal corridors, installation of openable windows on the grille walls at staircase landings, installation of acoustic panel wall system with metal frame for internal partitions of classrooms, and installation of moveable partitions and mechanical ventilation system on both sides of covered playgrounds. The improvement works have commenced progressively since the summer of 2017 and were completed in 2019. In addition, under this programme, our works consultants have explored technically feasible means for more flexible use of existing space, such as minor internal conversion and installation of moveable partition walls to turn existing facilities into temporary special rooms. We are progressively making arrangements for relevant works to commence in accordance with the schools’ indications and needs, with a view to improving the teaching and learning environment within the constraints of space and existing building design.

(3) We understand that some schools operating in “matchbox-style school premises” wish to undergo in-situ redevelopment so as to expand existing teaching space. However, owing to space constraints, in-situ redevelopment for this kind of school premises presents considerable technical difficulties and may not substantially improve teaching space and environment. To fully address the issues of insufficient space and facilities in this kind of school premises in the long run, reprovisioning or expansion of existing premises would be required. As mentioned above, a total of 8 public sector primary schools operating in “match-box style school premises” have been allocated new school premises or VSP through the prevailing school allocation mechanism for reprovisioning or expansion. Considering that suitable sites for new school premises and VSP are limited, the EDB will continue to review the sites for new school premises and VSP under its purview and expedite school allocation through the prevailing mechanism.

Director of Bureau: Secretary for Education

Question:

(1) Under Matters Requiring Special Attention in 2020-21, the Administration indicates that it will continue to implement measures set out in the Fourth Strategy on Information Technology in Education for promotion of e-learning at schools. What are the details?

(2) Since all school classes have been suspended due to the recent serious epidemic, a number of schools have switched to video teaching or online learning. In anticipation of future needs, will the Administration learn from this experience and enhance the network, e-learning/teaching systems and their functions for schools of all levels? If yes, what are the plans?

(3) What is the percentage of primary and secondary students that have their own tablets for study in the territory? Will the Administration consider providing subsidy for students without tablets to achieve the territory-wide goal of "one tablet for each student"?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 33)

Reply:

(1) The various measures under the Fourth Strategy on Information Technology in Education, which has been fully implemented starting from the 2015/16 school year, are progressing well. While the establishment of WiFi campus for all public sector schools in the territory has been completed, other measures, such as setting up of IT in Education Centres of Excellence for sharing of good practices in e-learning, reviewing of school curriculum, training for school leaders and teachers, and enhancing the supply of e-learning resources, will continue to be carried out. The Education Bureau (EDB) will continue to gather information through different means to fine-tune the support measures on an ongoing basis.

(2) During class suspension, schools may continue rendering educational and emotional support to students through various means, such as providing students with learning materials by delivery, e-mail and school website, or implementing e-learning through online platforms. Moreover, schools may draw up weekly learning plans for students to systematically engage in a moderate amount of learning so as to achieve the goal of “suspending classes without suspending learning”. Currently, schools may, having regard to their operational needs for IT in education, flexibly deploy various subsidies (including the Composite Information Technology Grant) to enhance school networks and procure software and hardware for online teaching. In anticipation of future needs, the EDB will review the class suspension arrangements made in response to the recent epidemic and identify areas for improvement.

(3) Under the principle of school-based management, it is at the discretion of schools, according to their contexts and development needs, to determine their own pace and mode for implementing e-learning, including the decisions on whether and when to adopt a school-based “Bring Your Own Device (BYOD)” or “one tablet for each student” policy. Schools are not required to report to the EDB, and implementation of the BYOD policy is not mandatory under the EDB’s prevailing policy. Hence, EDB has not collected data on the percentage of primary and secondary students that have their own tablets for study in the territory. In the 2018/19 school year, the Community Care Fund launched a 3-year assistance programme to subsidise needy students to purchase mobile computer devices for practising e-learning in schools implementing BYOD policy.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

(1) Upon the outbreak of epidemic, the Education Bureau has announced earlier that on the website of its wholly-owned Hong Kong Education City Limited (HKEdCity), a wide repertoire of e-learning resources, assessment banks, etc. was made available for the use of teachers and parents free of charge to achieve “suspending classes without suspending learning”. In this connection, what are the hit counts of the HKEdCity website for the 12 months in 2019 and the first 2 months of 2020? Is there any significant increase?

(2) What publicity channels has the Administration used to promote the HKEdCity website? Is there any publicity campaign specifically targeting parent groups to improve the level of awareness and hit count of the website?

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 34)

Reply:

(1) The HKEdCity set up a dedicated webpage “Learn at Home with Diverse Online Resources” on 31 January 2020. e-Learning resources including multi-media, reading and assessment materials, game-based learning platform and educational television programmes for different key stages and subjects are available on the webpage for the use of schools, teachers, students and parents. During the period of class suspension, the number of visits to the HKEdCity website has grown significantly. On average, around 110 000 visits were registered per day in February, representing a fourfold increase over the same period last year.

(2) The Education Bureau (EDB) has been promoting the resources available on the HKEdCity website to schools and parents through various channels such as the EDB website and circular memoranda, professional development programmes for teachers, parent seminars and emails. Furthermore, there is the “Parent Academy” webpage specifically developed for parents on the HKEdCity website (<https://www.hkedcity.net/parent>). It provides, among others, educational information on how to support children’s learning and development. The HKEdCity also disseminates information about its services through other channels such as newsletter (EdPost), parenting magazines and social media.

Director of Bureau: Secretary for Education

Question:

Please provide the following information on international schools:

- (1) the total number of students studying in international primary and secondary schools, as well as the number and percentage of local and non-local students in such schools in each of the past 3 years (i.e. the 2017/18, 2018/19 and 2019/20 school years) (please set out information in tabular form);
- (2) the highest, lowest and median tuition fees charged by international schools in the past 3 years (please set out information in tabular form);
- (3) whether the Administration has the number of international school students that applied for drop-out and left Hong Kong from June 2019 to February 2020; if so, the figures under the categories of kindergarten, primary school and secondary school; and
- (4) the estimated number of places in international primary and secondary schools for each of the next 3 years; whether such an estimation differs from that in the past; the measures to be taken by the Administration to cope with the oversupply of school places.

Asked by: Hon CHEUNG Wah-fung, Christopher (LegCo internal reference no.: 8)

Reply:

- (1) The total number of students and the proportion of local and non-local students enrolled in international schools from the 2017/18 to 2019/20 school years breakdown by level are set out at Annex 1.

(2) The highest, lowest and median tuition fees charged by international schools from the 2017/18 to 2019/20 school years are set out at Annex 2.

(3) The Education Bureau (EDB) collects student enrolment data and other related information from schools through the Student Enrolment Survey conducted annually at the beginning of each school year. The statistical figures compiled only reflect the position as at mid-September of the respective school years. We are unable to provide the number of international school students that have applied for withdrawal for school and left Hong Kong within the specified period.

(4) We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015, and the planned expansion projects of individual schools will gradually materialise in the coming few years. As at mid-March 2020, based on the latest projections provided by relevant schools where applicable, compared to the 2019/20 school year, it is projected that around 2 720 additional places will be available between 2020/21 and 2022/23 school years. It is however worth noting that future provision of additional places by individual schools, especially the new ones, will be affected by a number of factors, such as applications received each year, teacher recruitment, and maintenance and construction works involved in school development.

According to the findings of the consultancy study on provision of international school places at primary and secondary levels in Hong Kong released in February 2017, the consultant projected that there will be no shortfall in international school places at primary and secondary levels in the seven school years starting from the 2016/17 school year. In the past few school years, the enrolment of international schools was maintained at around 90%, which is consistent with the consultant's projection. We will continue to closely monitor the demand and supply of international schools places, including assessment over the short-to-mediumterm impacts brought by the novel coronavirus infections. We are also planning another round of consultancy study to update the findings of the last study and stay abreast of the latest demand and supply of international school places. In parallel, we will continue to facilitate the development of the international school sector and take appropriate measures when necessary to meet the demand of non-local families that have come to Hong Kong for work or investment.

**Total number of students and proportion of local and non-local students
enrolled in international schools from the 2017/18 to 2019/20 school years**

School year	Total no. of students	Total no. of local students (as a percentage of total no. of students)	Total no. of non-local students (as a percentage of total no. of students)
Primary			
2019/20	23 156	6 317 (27.3%)	16 839 (72.7%)
2018/19	22 720	5 866 (25.8%)	16 854 (74.2%)
2017/18	21 912	5 358 (24.5%)	16 554 (75.5%)
Secondary			
2019/20	17 977	4 317 (24.0%)	13 660 (76.0%)
2018/19	17 478	3 987 (22.8%)	13 491 (77.2%)
2017/18	16 956	3 507 (20.7%)	13 449 (79.3%)

Note: Local students refer to those who are Hong Kong permanent residents (with the right of abode in Hong Kong Special Administrative Region (HKSAR)) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport.

**Highest, lowest and median annual tuition fees
charged by international schools from the 2017/18 to 2019/20 school years**

2017/18 school year

	Primary	Secondary
Highest	\$197,220	\$231,300
Lowest	\$5,800	\$52,800
Median *	\$118,584	\$157,800

2018/19 school year

	Primary	Secondary
Highest	\$205,500	\$246,000
Lowest	\$5,800	\$38,500
Median *	\$115,800	\$153,800

2019/20 school year

	Primary	Secondary
Highest	\$225,710	\$260,800
Lowest	\$45,600 [#]	\$42,000
Median *	\$125,794	\$163,100

Note:

* In deriving the median, the annual tuition fee chargeable for each grade by the school concerned is counted only once, irrespective of the number of students enrolled.

Since one school is excluded from the EDB's recognised list of international schools in the 2019/20 school year, the lowest tuition fee of that year should not be compared directly with those in the previous two years.

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding National Education, the Budget stated that “the Education Bureau (EDB) offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. It also provides appropriate professional support to schools”. In this connection, would the Administration inform this Committee of:

- (1) the actual numbers of local students and teachers who participated in the Mainland exchange programmes and professional exchange programmes and the expenditures involved in the past, as well as the estimated numbers of participants and expenditures for these two programmes in 2020/21;
- (2) the factors to be taken into consideration when planning the itineraries for the Mainland student exchange programmes and professional exchange programmes; and
- (3) the details of “appropriate professional support to schools by the EDB” as mentioned in the Budget.

Asked by: Hon CHEUNG Wah-fung, Christopher (LegCo internal reference no.: 22)

Reply:

- (1) The numbers of students who participated in the Mainland exchange programmes and the expenditures involved in the past 3 school years (from 2017/18 to 2019/20) and in the 2020/21 school year are shown below. Due to the novel coronavirus epidemic in early 2020, all Mainland exchange activities organised or subsidised by the EDB have been suspended or postponed since end-January.

School Year	Number of Students (rounded down to the nearest hundred)	Expenditure (\$million) [@]
2017/18	67 000	85.4
2018/19 [#]	74 500	108.9
2019/20 ⁺	20 500	35.1
2020/21 ⁺⁺	109 000	115

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

⁺⁺ Estimated figures

The numbers of teachers who participated in the Mainland exchange programmes for teachers and the expenditures involved in the past 3 school years (from 2017/18 to 2019/20) and in the 2020/21 school year are shown below:

School Year	Number of Teachers (rounded down to the nearest ten)	Expenditure (\$million) [@]
2017/18	760	5.5
2018/19 [#]	1 680	7.1
2019/20 ⁺	1 000	8.7
2020/21 ⁺⁺	2 680	12.9

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

⁺⁺ Estimated figures

(2) To dovetail with the school curriculum and the latest development of our country, the EDB organises Mainland exchange programmes for students, or subsidises those organised by schools. With diversified themes and destinations, these programmes enable students to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. Teachers participate in these programmes as learning facilitators on a ratio of 1 teacher to 10 students. Besides, the EDB organises professional Mainland exchange programmes for teachers, which include visits to and lesson observations conducted in primary schools, secondary schools and higher education institutions, to facilitate professional exchanges between teachers of the 2 places. In addition, there are visits to enterprises and cultural facilities as well as thematic seminars and exchange forums held by experts and scholars on different fields to deepen teachers' understanding of the Mainland's latest development in various aspects and widen their horizons.

(3) National education, in the broad sense, also includes learning about various aspects of our country from an appropriate perspective through different subjects. There are references to our country's history, culture, landscape, development, etc. in the curriculum content of History, General Studies, Chinese Language, Geography and even Music and Arts. To enable teachers and students to develop a comprehensive knowledge of our country, the EDB enhances the elements for heightening understanding of our country through curriculum enrichment, teacher training, learning and teaching resources, Mainland exchange programmes, strengthened interflow and co-operation between primary and secondary sister schools in Hong Kong and the Mainland, and various life-wide learning activities, such as those related to the Hong Kong Special Administrative Region Establishment Day or National Day. The above relevant curriculum arrangements and school support programmes for promoting national education have been widely implemented in primary and secondary schools.

Question:

Regarding the Study Subsidy Scheme for Designated Professions/Sectors, please tabulate the number of students receiving the subsidy in the 2019/20 academic year and the number of those expected to receive the subsidy in the 2020/21 academic year by programme type.

Asked by: Hon CHEUNG Yu-yan, Tommy (LegCo internal reference no.: 25)

Reply:

Details of the designated programmes, relevant institutions, the respective number of subsidised places and actual intakes (if appropriate), and the annual subsidy amount under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) for the cohort admitted in the 2019/20 academic year and for the cohort to be admitted in the 2020/21 academic year are set out at Annex A (undergraduate programmes) and Annex B (sub-degree programmes).

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau's provision for Policy and Support in 2020-21 is \$3,727.3 million (126.3%) higher than the revised estimate in 2019-20. In this connection, please answer the following questions:

Schools across the territory have been suspended for more than 3 months now with no end in sight because of the coronavirus outbreak. Many lunchbox suppliers and school tuckshops have no business. Would the Government consider disbursing subsidies, waiving rent or implementing support measures to help operators curb their losses? If yes, what are the details? If no, what are the reasons?

Asked by: Hon CHEUNG Yu-yan, Tommy (LegCo internal reference no.: 26)

Reply:

Having regard to the development of the novel coronavirus epidemic, the Education Bureau (EDB) has on separate occasions since end-January this year announced deferral of class resumption for all schools. The deferral of class resumption is an important preventive measure to discourage students from leaving home and getting together, reduce the risk of virus transmission and hence protect students' health. Services provided by lunchbox suppliers and school tuckshops are trading operations in schools. Their charges and the relevant arrangements are subject to the agreement between schools and service providers on the premise that the basic principles and guidelines set out in the relevant EDB circulars have been followed. Operators may liaise with schools or parents within the context of the contract terms. The EDB appeals to all parties concerned for mutual understanding and assistance to weather the difficult times together. We therefore call upon schools to waive any rent payable by school tuckshops and canteens, if any. The Government has just established the Anti-epidemic Fund with an injection of \$30 billion and proposed a number of relief and concessionary measures in the Budget Speech delivered earlier to help different industries and the general public. With these, we shall tackle the challenges ahead together.

Question:

Regarding international schools, please provide the following information:

- (1) Please tabulate the respective number and percentage of local and non-local students studying in each international school.
- (2) Please tabulate the respective total number of students studying in international primary and secondary schools, as well as the respective number and percentage of local and non-local students in these schools in each of the recent 3 school years (i.e. 2017/18, 2018/19 and 2019/20).
- (3) Please tabulate the highest, lowest and median tuition fees charged by international schools in the current school year.
- (4) Please provide a breakdown of the number of school places, students enrolled and vacancies in international primary and secondary schools by 18 districts.
- (5) What is the respective overall increase in the number of primary and secondary school places offered in the 2019/20 school year as compared with the year before?
- (6) What is the increase in the number of school places with English or other languages as the medium of instruction and school places for students with special educational needs?
- (7) For the coming 3 years, what is the expected annual increase in the number of primary and secondary school places offered by international schools in each district?

Asked by: Hon CHEUNG Yu-yan, Tommy (LegCo internal reference no.: 27)

Reply:

(1)

In the context of international schools (including the English Schools Foundation (ESF) schools and other private international schools), local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region (HKSAR)) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport. Based on the Student Enrolment Survey conducted in September 2019, the proportion of local students in international schools in the 2019/20 school year is about 26% and that of non-local students is around 74%. The numbers and percentages of local and non-local students of individual schools are set out at Annex 1.

(2)

The total number of students in international schools from the 2017/18 to 2019/20 school years with a breakdown by level and by proportion of local and non-local students are set out at Annex 2.

(3)

The highest, lowest and median tuition fees charged by international schools in the 2019/20 school year are set out at Annex 3.

(4), (5) and (7)

International school places are assessed on a territory-wide basis. A breakdown of the number of international school places (including the ESF schools and other private international schools), students enrolled and vacancies by District Council district in which the international schools are located in the 2019/20 school year are set out at Annex 4 for illustration purpose. Compared to the 2018/19 school year, there is an increase of around 350 primary places and 1 180 secondary places among the international schools.

We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015, and planned expansion projects of individual schools will gradually materialise in the coming few years. As at mid-March 2020, based on the latest projections provided by relevant schools where applicable, compared to the 2019/20 school year, it is projected that around 2 720 additional places will be available between 2020/21 and 2022/23 school years. It is however worth noting that future provision of additional places by individual schools especially the new ones will be affected by a number of factors, such as applications received each year, teacher recruitment, and maintenance and construction works involved in school development.

(6)

Most international schools adopt English as the medium of instruction. Places in these schools in the 2019/20 school year have been increased by around 410 at primary level and around 1 210 at secondary level when compared with the 2018/19 school year. On the other hand, a few schools adopt other languages including French, German, Korean and Japanese. Compared to the 2018/19 school year, places at these schools have been decreased by 60 at primary level and slightly decreased by around 30 at secondary level.

International school places provided for students with special educational needs (SEN) may vary between years depending on the number of students with such needs. At the same time, international schools establish their own systems to classify students with SEN according to their own teaching and learning arrangements. According to the information provided by schools through the annual Student Enrolment Survey, in the 2019/20 school year, there are around 920 primary students and 870 secondary students with SEN studying in international schools (including the special school operated by the ESF). The corresponding numbers for the 2018/19 school year were around 850 and 810 respectively.

CONTROLLING OFFICER'S REPLY**EDB063****(Question Serial No. 0239)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

In the 2019/20 school year, what is the respective number of private independent kindergartens, non-profit-making kindergartens not participating in the kindergarten education scheme and non-profit-making kindergartens participating in the kindergarten education scheme, and what is their respective percentage in the total number of kindergartens in the territory? What is the respective number of students studying in these kindergartens and their respective percentage in the total number of kindergarten students in Hong Kong over the same period? And what is the number of kindergartens under the Pre-primary Education Voucher Scheme that have not joined the kindergarten education scheme? How many students are enrolled in these kindergartens? What are their reasons for not joining the kindergarten education scheme?

Asked by: Hon CHEUNG Yu-yan, Tommy (LegCo internal reference no.: 34)Reply:

In the 2019/20 school year, the respective number of local private independent (PI) kindergartens (KGs), local non-profit-making (NPM) KGs joining the KG education scheme (the Scheme) and local NPM KGs not joining the Scheme, the number of students studying in these KGs as well as their percentage share (%) in the total number of KGs/KG students in Hong Kong are as follows:

	2019/20 school year	
	No. of KGs (%)	No. of students (%)
Local PI KGs*	108 (10.3%)	18 502 (10.6%)
Local NPM KGs joining the Scheme	761 (72.5%)	132 823 (76.2%)
Local NPM KGs not joining the Scheme	25 (2.4%)	8 681 (5.0%)

* PI KGs are not eligible to join the Scheme.

In the 2019/20 school year, 5 KGs participating in the Pre-primary Education Voucher Scheme (PEVS) in the 2016/17 school year, with a total of 1 893 students, do not join the Scheme. The eligible students admitted to these KGs before the implementation of the Scheme in the 2017/18 school year and remaining in the eligible classes under PEVS can continue to receive the voucher subsidy under PEVS until they leave the KGs concerned. With the end of operation of eligible classes under PEVS, the transitional arrangement for such schools ceased in the 2019/20 school year. In deciding whether to join the Scheme, these KGs have their school-based considerations with regard to their overall direction in school development.

EDB064

(Question Serial No. 0246)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the policy of “one school social worker for each school”,

- the Bureau states that it will continue the enhanced provision of student guidance service to primary schools by implementing the policy of “one school social worker for each school” in public sector primary schools and that the enhancement, which began in the 2018/19 school year, seeks to strengthen student guidance service in public sector primary schools. What are the specific measures for implementing the “one school social worker for each school” policy in public sector primary schools? What is the estimated additional manpower for 2020-21? What is the expenditure involved?
- is there any plan to extend the policy to all kindergartens, primary and secondary schools, as well as the pre-primary or tertiary education sectors in future? Will the Bureau even consider increasing the provision of school social workers by introducing a “multiple school social workers for each school” policy to ensure that students encountering problems will be given appropriate guidance? If yes, what is the expenditure involved? If no, what are the reasons?

Asked by: Hon CHEUNG Yu-yan, Tommy (LegCo internal reference no.: 41)

Reply:

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. The new measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources so that each public sector primary school is served by at least one school-based registered graduate social worker with professional qualifications to further enhance the overall quality of guidance service.

Under the new funding mode, primary schools may, having regard to their own circumstances, create a regular Assistant Social Work Officer post to increase stability or

receive an equivalent subsidy to employ a school-based registered graduate social worker or hire service of a school-based registered graduate social worker from a social work service provider. Schools are also provided with the Consultation Service Grant to procure consultation, supervision or other support services for school social workers to ensure service quality. Besides, the original Top-up Student Guidance Service Grant (Top-up Grant) is enhanced so that all public sector primary schools have more resources to enhance school social work and guidance services. The Education Bureau (EDB) will provide a three-year transitional period for them to switch to the New Funding Mode before the 2021/22 school year. In case schools are not able to switch to the New Funding Mode after the three-year transitional period owing to the need for more time to handle personnel matters, including retaining their serving student guidance personnel (SGP) due to special needs, they may discuss with the EDB separately. In the 2019/20 school year, 309 public sector primary schools (i.e. about 70%) have switched to the new funding mode. It is estimated that 333 public sector primary schools will switch to the new funding mode in the 2020/21 school year. The estimated total expenditure on student guidance service under the old funding mode and the new funding mode is \$495 million. As schools may use the Top-up Grant to employ one or more social workers/SGP and practices vary among different schools, we are unable to estimate the additional manpower required.

As for secondary schools, the Social Welfare Department has, since the 2019/20 school year, implemented the measure of “two school social workers for each school” with enhanced supervisory support in secondary schools. The additional full year recurrent provision involved is around \$313 million.

For early identification of and provision of assistance to pre-primary children and their families with welfare needs, the Government has allocated about \$990 million from the Lotteries Fund to provide social work services in phases in more than 700 subsidised/aided pre-primary institutions (PPIs) (including subsidised/aided child care centres, kindergartens and kindergarten-cum-child care centres) for about 150 000 pre-primary children and their families. The Pilot Scheme will be implemented in three phases, and about 16 social work teams will be set up in each phase giving a total of about 48 teams. Given that each social work team with eight social workers serving no more than 16 PPIs with 3 200 pre-primary children and their families, each social worker will serve 400 pre-primary children and their families on average. Phase 1 and Phase 2 of the Pilot Scheme, serving a total of 246 and 239 eligible PPIs, have commenced operation in February 2019 and August 2019 lasting for three years and two and a half years respectively, whereas Phase 3 of the Pilot Scheme will commence operation in August 2020 lasting for one and a half years. During the implementation of the Pilot Scheme, the Government has commissioned the City University of Hong Kong to conduct an evaluation study on the current mode of service operation, as well as the service performance and service outputs/outcomes of the Pilot Scheme so as to shed light on the way forward of the service.

Regarding post-secondary institutions, they have already, according to their actual needs, deployed their resources to engage appropriate professionals to provide students with counselling and support to cope with their study and campus life. The EDB currently has no plan to expand the policy of “one school social worker for each school” to post-secondary institutions.

Question:

Regarding life planning education (LPE), would the Government advise this Committee of the following:

- (1) The use of the Career and Life Planning Grant (CLPG) by schools and the number of schools that have converted the CLPG into regular teaching posts in the past 3 years.
- (2) The number and proportion of life planning instructors who have received training on life planning education.
- (3) The EDB commissioned The Education University of Hong Kong in 2017 to conduct a review on the effectiveness of LPE, the implementation of the LPE policy, and the benefits of the Business-School Partnership Programme (BSPP) on students. How will the EDB study the findings of the review and implement the recommendations therein with a view to improving the existing practice and strengthening the support for schools in taking forward LPE?
- (4) The total page views of the Life Planning Information Website and its 7 thematic corners since the launch of the website, as well as the measures that will be taken to promote the use of the website among schools, students and parents.

Asked by: Hon CHIANG Lai-wan (LegCo internal reference no.: 10)

Reply:

- (1) Since the 2014/15 school year, the Education Bureau (EDB) has been providing each public sector school and Direct Subsidy Scheme (DSS) school operating classes at senior secondary levels with a recurrent Career and Life Planning Grant (CLPG). Starting from the 2016/17 school year, eligible public sector schools are given the option to convert the CLPG into regular teaching posts. For DSS schools, the expenses in relation to the grants and the regular teaching posts provided under this initiative have been incorporated in the

DSS unit subsidy rate. Schools in general have been making effective use of the CLPG and the additional manpower arising from converting the CLPG into regular teaching posts to strengthen Life Planning Education (LPE). The amount of CLPG provided and the number of public sector schools that have converted the CLPG into regular teaching posts from the 2017/18 to 2019/20 school years are tabulated below:

	2017/18 School Year	2018/19 School Year	2019/20 School Year
Amount of CLPG	\$580,000	\$610,000	\$640,000
Number of public sector schools that have converted CLPG into regular teaching posts	281	308	352

(2) The EDB has kept strengthening professional training for teachers on LPE. Starting from the 2014/15 school year, the number of structured teacher training places has increased by threefold from 80 to 240 per year. Currently, 93% of schools have at least two trained teachers to co-ordinate LPE and career guidance services for students. Moreover, different thematic seminars, such as the roles of subject teachers and class teachers in supporting students for life planning, have been organised to equip teachers at different posts to adopt a whole-school approach in implementing LPE. The EDB will keep the training needs of teachers in relation to LPE under constant review, and introduce new topics in the light of social and workplace developments.

(3) To consolidate the experience gained from implementing LPE and map out the way forward, the EDB commissioned The Education University of Hong Kong in 2017 to conduct a review on the effectiveness of LPE, the implementation of the LPE policy, and the benefits of the Business-School Partnership Programme (BSPP) on students. The review showed that the implementation of LPE in local secondary schools has reaped initial success. By establishing well-defined organisational structures and school-based policies, schools are gradually gaining the support of teachers, students and parents in the promotion of LPE. In parallel, BSPP has received much support from schools and BSPP partners. It is valued by schools as one of the important resources in the promotion of LPE and well recognised by teachers and students too.

Based on the recommendations put forward in the consultancy report, the EDB has adopted various measures to strengthen the support for the implementation of LPE in schools. For example, the EDB proactively encourages schools to adopt a whole-school approach to implement LPE and invites schools to share their good practices and experience in professional development activities. With regard to teacher training, the EDB regularly reviews the training needs of teachers in the area of LPE. Apart from structured teacher training programmes, new themes and topics are introduced based on the needs of schools and teachers. Learning circles will continue to be formed through District Development Networks to foster a culture of sharing and professional exchange among teachers. As far as training for parents is concerned, workplace visits and workshops are arranged under BSPP with a view to introducing parents to the developmental prospects of different industries. Schools are also encouraged to hold talks for parents to enhance their awareness of the importance of LPE as well as their roles in it. Moreover, the EDB launched the Life Planning Information Website in September 2019 to provide a one-stop platform for students, teachers and parents to gather information on different industries and

multiple pathways. In the 2020/21 school year, several new features will be added to the website, including records of student learning portfolios, career assessment tools and online learning for teachers, to further assist students in finding and processing LPE-related information. The EDB will also step up the promotion of BSPP. At present, BSPP has over 380 partner organisations. We will continue to identify and invite corporations of different trades and industries to join BSPP so as to provide more diversified career exploration activities for students. Moreover, the EDB has used existing platforms to facilitate exchange of information, sharing of collaboration experience and activity arrangements among schools and partner organisations in order to maximise the benefits of BSPP.

(4) By integrating the Life Planning Website, Career Information Website and the BSPP website, the EDB launched a brand-new Life Planning Information Website in September 2019. As at February 2020, the website has recorded a total page view of about 116 400 (with “What’s New”, “Events Library/Publications” and “Useful Links” account for some 45 500 views). The respective page views of the 7 thematic corners is tabulated below:

Corner	Careers Information	Studies	E-learning for Students	School Administration	Professional Development for Teachers	Parents	BSSP
Page view	48 800	5 500	3 200	8 400	3 500	700	800

Note: Figures are rounded to the nearest hundred.

The EDB issued a circular memorandum at the beginning of the 2019/20 school year to outline the contents of the website, and encourage students, teachers and parents to use the website for comprehensive information on LPE and career guidance. We also produced promotional posters and cards for distribution to schools and students and promoted the website through school visits and seminars.

(Question Serial No. 0878)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is stated in Indicators under the Programme that kindergarten teachers with Certificate in Early Childhood Education or above have reached 95%, whereas the wastage rate of kindergarten teachers remains at 12%. In this connection, please advise on the following:

- (1) the current number of qualified kindergarten teachers in local non-profit-making kindergartens in the territory, the average number of kindergarten teachers per kindergarten and the average teacher-to-pupil ratio;
- (2) the current average working hours of kindergarten teachers;
- (3) whether any study or review has been conducted to improve the wastage rate of kindergarten teachers; if yes, of the details; if no, of the reasons; and
- (4) with regard to the introduction of a salary scale and an all-graduate teaching force policy for kindergarten teachers to enhance the quality of education, the work to be undertaken by the Administration in the coming year as well as the timetables and estimates involved.

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 37)

Reply:

- (1) The number of qualified kindergarten (KG) teachers in local non-profit-making KGs, the average number of KG teachers per KG and the average teacher-to-pupil ratio in the 2019/20 school year are tabulated as follows:

	2019/20 school year (provisional figure)
No. of qualified KG teachers	11 493
Average no. of KG teachers per KG	14.8
Average teacher-to-pupil ratio (Note)	1:9.5

Note: Figures only include teachers with Certificate in Early Childhood Education or higher qualifications but do not include principals.

- (2) We have not collected any information on the working hours of KG teachers.
- (3) There are various reasons for KG teachers to leave their teaching position. According to the findings of annual surveys on KG teachers/child care workers, such reasons include employment in another profession, retirement, marriage/child-bearing/child-raising, other family reasons, etc. Under the KG education policy, KGs are encouraged to establish a career ladder and offer competitive remuneration to retain and attract quality teachers. Various measures have been adopted to ensure that teachers are remunerated reasonably. These include providing salary ranges for respective ranks of teaching staff and KGs are obliged to remunerate their teachers within their corresponding salary ranges; prescribing 60% of the basic unit subsidy as teachers' salary portion, which must be used on teaching staff salaries and related expenses (while KGs may deploy any portion of the remaining 40% for teaching staff salaries and related expenses, but not vice versa); and clawing back the accumulated surplus in the salary portion exceeding the reserve ceiling to encourage schools' optimal use of the subsidy on teaching staff salary.
- (4) A mandatory salary scale for KG teachers, if established, would be similar to the existing salary arrangements for teachers in aided schools. The funding mode for aided schools is tied with several inter-connected components, such as the Education Bureau's annual approval for the number of operating classes and the staff establishment, and is subject to the control measures implemented by the Government for the prudent and balanced planning of school places under the school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating half-day and whole-day classes to meet the needs of parents. On the other hand, as compared to a mandatory salary scale on which teacher salary is determined solely by seniority, a salary range allows greater flexibility and ensures competitiveness. It enables the KG management to decide flexibly the remuneration of its staff, taking into account their qualifications, teaching experience, performance, additional duties, training received and special skills possessed. As the setting up of a salary scale for KG teachers involves various aspects as mentioned above, it should be handled prudently. In this connection, we have undertaken to use the data of the 3 school years from 2017/18 to

2019/20 as the basis to explore the feasibility of introducing a salary scale for KG teachers. As announced in the 2018 Policy Address, we started a review in mid-2019 on the implementation of the new policy, including the salary arrangements for KG teachers. We have been consulting the stakeholders during the process.

At present, the basic academic qualification requirement for KG teachers is the completion of a Certificate in Early Childhood Education (C(ECE)) programme. Various teacher education institutions are currently offering government-subsidised C(ECE) programmes and their graduates are able to discharge teaching duties effectively. Regarding the introduction of an all-graduate teaching force policy to the KG sector, the vice-principals in KGs joining the KG education scheme are currently required to possess a bachelor's degree in early childhood education (BEd(ECE)) or equivalent qualifications. Moreover, for appointment of or promotion to the senior teacher posts, KGs are encouraged to accord priority to suitable teachers with BEd(ECE) or equivalent qualifications. We will closely monitor the number and ratio of KG teachers holding a bachelor's degree, the planning of places for teacher training, etc. and take follow-up actions as appropriate.

(Question Serial No. 0944)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding evening courses for secondary education, please provide the following information for the past 5 years:

- (1) the number of evening secondary schools, the number of students enrolled in their courses, the number of graduates and the average age of students enrolled in such courses in each of the years;
- (2) the number of evening secondary students taking the Hong Kong Diploma of Secondary Education Examination and the number of students meeting universities' basic entry requirements in each of the years;
- (3) the expenditure committed by the policy bureau for evening secondary education and the percentage share of such expenditure in the overall expenditure for secondary education in each of the years;
- (4) the dedicated support and measures currently implemented by the policy bureau for schools offering evening secondary courses and their students, and the support programmes for individual subjects (please give a list with descriptions);
- (5) taking into account the target students and class hours of evening secondary courses, as well as the needs of these students, would the Administration consider reviewing the support for and policy on evening secondary schools, including an assessment on enhanced subsidy and support for students taking evening secondary courses to enable their completion of secondary education?

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 41)

Reply:

- (1) The Government launched the Financial Assistance Scheme for Designated Evening Adult Education Courses (FAEAEC) in the 2005/06 school year to provide financial assistance to adult learners attending evening secondary courses run by approved course providers in designated centres. From the 2015/16 to 2019/20 school years, the number of designated centres under the FAEAEC and the number of learners taking courses offered by the designated centres participating in the FAEAEC are as follows:-

School year	Number of designated centres	Number of learners
2015/16	17	1 553
2016/17	16	1 402
2017/18	16	1 426
2018/19	16	1 459
2019/20 [#]	16	1 098

Note: Figures refer to the number of learners at various grades as at June 30 of the respective school years, including those who have withdrawn from the courses.

[#] Figures for the 2019/20 school year refer to the number of learners as at 31 December 2019, including those who have withdrawn from the courses.

The Education Bureau (EDB) does not maintain statistics on the number of evening secondary school graduates under the FAEAEC and the average age of learners seeking admission.

- (2) According to the information provided by the approved course providers participating in the FAEAEC, the respective numbers of evening secondary learners taking the Hong Kong Diploma of Secondary Education Examination (HKDSE) through these providers from the 2016/17 to 2019/20 school years are tabulated as follows:

School year	Number of evening secondary learners taking the HKDSE through the approved course providers
2016/17	255
2017/18	261
2018/19	366
2019/20	331

Note: Since not all approved course providers can provide relevant information for the 2015/16 school year, we can only provide the figures regarding the past 4 school years.

The EDB does not maintain statistics on the number of evening secondary learners under the FAEAEC meeting the minimum entry requirements of universities.

- (3) and (4) The FAEAEC aims to alleviate the financial burden on adult learners and provide incentives to encourage them to complete the courses. Under the FAEAEC, adult learners who are enrolled in junior and senior secondary courses provided by approved course providers and who meet the eligibility criteria are eligible for 30% reimbursement of the tuition fees, irrespective of their financial situation. To assist those with financial difficulties, full reimbursement or half reimbursement of the tuition fees are provided for eligible learners who are assessed to be eligible for full grant or half grant respectively in the means test administered by the Student Finance Office (SFO) under the Working Family and Student Financial Assistance Agency (WFSFAA). SFO processes the reimbursement of tuition fees based on the institutions' information on the number of eligible learners under the FAEAEC and other relevant information.

The total amounts of tuition fees reimbursed under the FAEAEC administered by the SFO from the 2015/16 to 2019/20 school years are tabulated as follows:-

School year	Total amount of tuition fees reimbursed (\$ million)
2015/16	3.94
2016/17	3.28
2017/18	3.36
2018/19 [^]	3.17
2019/20 [*]	-

[^] The figures are as at 31 January 2020. A small number of reimbursement cases for the 2018/19 school year are under processing.

^{*} Claims for reimbursement will be processed in the 2020-21 financial year.

To provide more support for learners taking evening secondary courses, the EDB has, since the 2014/15 school year, earmarked an annual provision for approved course providers to provide support services to learners and teachers, such as conducting enriched learning activities, enhancing language training, providing Other Learning Experiences, student guidance and professional development and training of teachers. The amount of provision is calculated based on the number of learners. In the 2019/20 school year, the amount of funding for each learner is capped at \$1,000. In addition, approved course operators operating in government secondary school premises provided by the EDB will receive rent reimbursement.

The respective total expenditures on the funding provision for approved course providers to provide support services to learners and teachers, and rent reimbursement for approved course operators operating in government secondary school premises from the 2015/16 to 2019/20 school years are tabulated below:

School year	(\$ million)
2015/16	1.37
2016/17	1.34
2017/18	2.01
2018/19	2.14
2019/20 [@]	1.01

[@] Since the 2019/20 school year has not yet ended, some of the related expenditures are pending reimbursement.

- (5) The objective of the FAEAEC is to provide an alternative form of financial assistance to assist adult learners in completing mainstream secondary school courses and help those learners with financial difficulties pursue their studies. We believe that needy learners are already provided with appropriate financial assistance through the FAEAEC and existing support services.

EDB068

(Question Serial No. 0945)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding national education mentioned in Brief Description under the Programme, please advise on the following:

- (1) It is stated in the Programme that the Education Bureau (EDB) also provides professional support, where appropriate, to schools. What are the specific details of such support? How many primary and secondary schools made use of the professional support service in the past year? What is their percentage out of the total number of primary and secondary schools?
- (2) At present, how many primary and secondary schools offer lessons in moral, civic and national education? Has the EDB made recommendations on the average number of teaching hours for such subjects?
- (3) With the occurrence of social events last year, there are concerns in society about the values and attitudes of young people, such as "respect for others", "responsibility", "national identity" and "commitment", which are indeed what students should learn to cultivate through moral and civic education. That said, no corresponding measures are in place to step up education in this regard. For the coming year, how will the Administration enhance the relevant work and what are the plans and estimates involved?

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 42)

Reply:

- (1) All along, the Education Bureau (EDB) has been actively promoting values education (including moral, civic and national education (MCNE)) through creating synergy among curriculum, learning and teaching resources and various learning activities with the use of diversified strategies. For national education, the EDB adopts diversified strategies to enable teachers and students to gain an understanding of our country and develop a stronger sense of national identity. National education, in the broad sense, is incorporated into various subject curricula, such as History, General Studies, Chinese Language, Geography, Music and Arts, in which our country's developments in different areas such as history, culture and landscape are aptly covered, to deepen students' understanding of our country. Hence, we help students know more about our country through the teaching elements of relevant subjects. Furthermore, to enable teachers and students to develop a thorough understanding of our country, the EDB enhances the elements for heightening understanding of our country through curriculum enrichment, teacher training, learning and teaching resources, Mainland exchange programmes, strengthened interflow and co-operation between primary and secondary sister schools in Hong Kong and the Mainland and various life-wide learning activities (e.g. activities related to the Hong Kong Special Administrative Region Establishment Day or National Day). The above relevant curriculum arrangements and school support programmes for promoting national education have been widely implemented in primary and secondary schools.

- (2) MCNE is a crucial element in whole-person education. That said, the EDB does not require schools to offer MCNE as an independent subject. In fact, many schools promote values education in lessons under different names such as moral and civic education, life education, etc. In addition, at the primary and secondary levels, we have been providing students with holistic learning experiences through classroom teaching in different key learning areas/subjects and out-of-classroom life-wide learning activities (e.g. visits, voluntary services, field trips and exchange activities) to instil in students positive values and attitudes such as "respect for others", "responsibility", "national identity", "commitment", "integrity", "care for others", "abiding by law" and "civic-mindedness". While the EDB has recommended the percentage of lesson time to be allocated to various subjects and other learning experiences, primary and secondary schools are given the flexibility to work out their own lesson time. In other words, schools can, with regard to their contexts (including schools' mission and students' needs), make flexible arrangements for lesson time so that in-class and out-of-classroom learning activities can tie in with each other to deliver MCNE and enhance the promotion of positive values among students. Given the diversity in the delivery of MCNE, the EDB does not have relevant statistics on the number of in-class teaching hours that schools allocate to MCNE. Moreover, to support schools in promoting MCNE and fostering positive values and attitudes among students, we have been developing learning resources and organising professional training programmes for teachers on an ongoing basis.

- (3) It is worrying and distressing for us to see teachers and students get involved in unlawful or even violent acts during the months-long social incidents. We will strengthen values education further. In this connection, “expressing gratitude, to cherish, be proactive and optimistic” has been chosen as the theme for promoting values education in schools for the current and the next two school years. All schools in the territory are encouraged to create a favourable ambiance for positive education. More life event exemplars will also be developed as learning and teaching resources, covering topics such as “obeying the law”, “rule of law”, “responsibility”, “respect for others”, “identification of real and fake information”, etc. to help students uphold ethics in this cyber age and understand the importance of respecting and accommodating differences in views. We will also organise professional training programmes for principals and teachers of primary and secondary schools to further enhance their professional capacity to develop a favourable school culture and encourage parents’ participation in promoting positive values together. The Task Force on Review of School Curriculum, set up in November 2017, has made 6 initial recommendations, among which the implementation of values education is accorded a high priority. The Task Force will submit a report on directional recommendations to the EDB in due course. If accepted by the EDB, the recommendations will be taken forward by relevant sections under the existing mechanism as soon as practicable for implementation in schools. Since the relevant expenditure and manpower involved in developing learning and teaching resources, organising professional development programmes and the tasks related to curriculum development are subsumed under the recurrent expenditure of the EDB, no breakdown of figures is available.

There are complicated reasons behind young people’s participation in unlawful activities. Apart from school education, factors like families, peers, social atmosphere, media/online information also play a crucial role. To effectively instil positive values in our young people, it is incumbent on the EDB to step up efforts in various tasks. It is hoped that various stakeholders’ recognition and active participation can be obtained with a view to nurturing positive values and attitudes in our young people with concerted efforts.

(Question Serial No. 0962)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding Vocational and Professional Education (VPET) under this Programme, please advise this Committee of the following:

- (1) The estimates for and details of the work on promoting VPET in the coming year;
- (2) VPET is still not well understood by many schools, students, parents and employers as they consider VPET inferior to university education in general. In this connection, will the Administration enhance the status, resources and facilities of member institutions of the Vocational Training Council (VTC) so as to convince society of the parity between VPET and university education?
- (3) Will the Administration enhance the promotion of VPET through life planning education in secondary schools in order to dispel myths about VPET that are prevalent among parents and students? If yes, what will be done in this regard?
- (4) Will the Administration consider stepping up its cooperation with the industries on the promotion of VPET, including collaborating with industry academies, and establish a corporate university in Hong Kong in the long run?
- (5) What specific work will the Bureau undertake in the coming year to follow up on the recommendations made by the Task Force on Promotion of Vocational and Professional Education and Training?

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 44)

Reply:

The Government has all along been committed to providing multiple and flexible education pathways for young people with different aspirations and abilities through vocational and professional education and training (VPET). In 2020-21, the estimated government expenditure on VPET is about \$3.1 billion, which includes the recurrent subvention to the Vocational Training Council (VTC) for VPET, block allocations under the Capital Works Reserve Fund, and other financial commitments and non-recurrent expenditures on initiatives supporting the development of VPET, such as the Pilot Subsidy Scheme for Students of Professional Part-time Programmes, the Pilot Incentive Scheme to Employers and the Pilot International Study Programme under the Training and Support Scheme.

The Task Force on Promotion of VPET (Task Force), chaired by Dr Roy CHUNG, submitted its review report to the Government in January 2020 and put forward a total of 18 recommendations, advising the Government to strengthen and deepen collaboration with industries to provide more diversified and quality VPET programmes for young people, with a view to facilitating the parallel development of the VPET and academic education pathways.

Regarding life planning education in secondary schools, the Education Bureau (EDB) has all along collaborated with various business organisations through the Business-School Partnership Programme (BSPP) to provide students with a wide range of career exploration activities. Since its implementation in the 2014/15 school year, over 380 partners organisations have joined the BSPP and organised over 5 000 activities, covering more than 30 trades and benefitting more than 1.15 million students. In this connection, the Task Force recommended that the Government improve the overall quality of VPET programmes and activities in secondary schools through existing platforms, including the BSPP, by strengthening coordination, fostering wider industry collaboration, and formulating an incentive mechanism for industry partners, as well as encourage more junior secondary students, parents, and teachers to participate in related activities. In addition, the Task Force recommended that the Government provide external advisory service on VPET for teachers and career masters of secondary schools under a pilot scheme to offer one-stop professional service for teachers on a wide array of issues pertaining to VPET.

On the other hand, the Task Force recommended that the Government reiterate the value and positioning of VPET in higher education, and provide a clearly defined and differentiated VPET pathway from the academic route while upholding their parity in terms of both quality and recognition. The Task Force shared the view that the collaboration with industry (including corporate academies) should be strengthened and deepened to provide more diversified and quality VPET programmes in order to facilitate the parallel development of VPET and academic education pathways.

The Government is carefully studying the Task Force's report. Given the different nature of the recommendations, we will follow up on the recommendations in a gradual and orderly manner, having regard to the complexity, maturity, and timing of the recommendations as well as the consensus of stakeholders. We will consult the Legislative Council Panel on Education on the follow-up actions of the report.

In terms of parent education, the Education Bureau plans to start enhancing parent education in 2020-21, covering topics such as refraining from making comparisons and respecting the choices of children. We believe that this will help facilitate parents' acceptance of their children's decision to pursue VPET pathways.

- End -

CONTROLLING OFFICER'S REPLY

EDB070

(Question Serial No. 2493)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under this Programme that the Education Bureau (EDB) will “continue to develop a variety of learning and teaching resources for promoting Constitution and Basic Law education in schools”. In this connection, please provide the following information:

- (1) Are there initiatives and plans to help schools, teachers and students study the State's Constitution and the Basic Law? Are there plans to strengthen related work in the coming year? What is the estimated expenditure involved?
- (2) As the public's understanding of the State's Constitution and the Basic Law lacks depth, what initiatives are there to correct teachers' and students' misconceptions and enhance teachers' training in this regard? Will the EDB join hands with the Judiciary to promote the State's Constitution and the Basic Law?
- (3) Will the EDB set a specific target regarding Basic Law education in primary and secondary schools, such as recommending a certain number of participation hours for students, and increase the relevance of learning to everyday life and make learning interesting so as to facilitate teachers' and students' understanding of the learning contents? If yes, what are the details?

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 43)

Reply:

- (1)
The Basic Law is a constitutional document of the Hong Kong Special Administrative Region (HKSAR) and is closely related to the daily lives of Hong Kong students. To strengthen the implementation of Basic Law education (BLE), the Education Bureau (EDB) has been continuously adopting a wide array of measures, which include developing learning and teaching (L&T) resources, providing teacher training for school sponsoring

bodies, school leaders and teachers, organising life-wide learning activities for students, etc. Such support measures enable schools and teachers to acquire a deeper understanding of the relationship between the Constitution of our country and the Basic Law, as well as the concepts embodied in the Basic Law, and to understand that Basic Law is the cornerstone of Hong Kong's development and is closely related to our daily life, which in turn facilitate schools to enhance L&T efficacy by making plans for and taking forward BLE more effectively.

With respect to the development of L&T resources, the EDB has in the 2016-17 to 2019-20 financial years provided secondary schools with various sets of L&T resources, including “Development of L&T Strategies and Resources to Facilitate Students’ Deep Learning of the Basic Law through Community Study”; online L&T resources for the “Constitution and Basic Law” module; “Basic Law Knowledge Enrichment Online Course for Secondary School Teachers”, “Basic Law Online Course for Secondary School Students’ Self-directed Learning”; and 2 assessment banks, namely “Basic Law On-line Assessment (Junior Secondary)” (for students) and “Web on Assessment for BLE (Junior Secondary)” (for teachers). These 2 assessment banks have been developed for years and will continue to be available for schools’ use. The EDB staff will regularly review and update the content of these assessment banks with regard to the latest developments in the implementation of the Basic Law. Expenditures related to the 2 assessment banks only involve daily website management. All the L&T resources mentioned above remain relevant. In the 2020-21 financial year, the EDB will continue to develop the advanced version of the “Basic Law Knowledge Enrichment Online Course for Secondary School Teachers”.

At the primary level, the EDB has in the 2016-17 to 2020-21 financial years provided 3 sets of L&T Resource CD ROMs for primary General Studies on “History and Culture Series” and the “Basic Law Audio-visual L&T Package (Upper Primary)” to enhance teachers’ and students’ understanding of the Basic Law.

The EDB’s estimated expenditure on the production of teaching materials related to the Basic Law in 2020-21 is \$470,000, which does not cover staff cost for the EDB personnel involved in the production. The overall expenditure of the L&T resources for BLE (including manpower and production cost) is subsumed under the recurrent expenditure of the EDB. Since the development of L&T resources is an integral part of the day-to-day curriculum development work, it is not practical to give separate figures on the staff-related expenditure incurred in the production of Basic Law teaching materials.

(2) and (3)

Promotion of the Basic Law has always been an ongoing task of the EDB and schools, and BLE elements are already covered by the school curriculum under the subjects of Chinese History, History, Life and Society, Geography, etc. The junior secondary subject, Life and Society, even covers specific contents on the Basic Law, such as the relationship between the Central Authorities and the HKSAR, rights and responsibilities, and political structure. In addition, learning elements related to the Basic Law are included in subjects such as Chinese History, History and Geography. Different topics, like the history of Hong Kong’s development and the Opium War, help students understand the origin of the Basic Law as well as the status of Hong Kong as an inseparable part of China. For schools not offering Life and Society at the junior secondary level, the EDB has developed a 15-hour independent module on “Constitution and the Basic Law” for their flexible adoption to align

with their existing curriculum, teaching resources and learning activities so that all students are given the opportunities to learn the essentials.

All primary and secondary schools in the territory should implement BLE in light of their school contexts and curriculum development needs. The EDB has included elements related to the Constitution and the Basic Law in the professional training programmes for principals, middle managers and teachers to shed light on the constitutional status of the Basic Law and the concept of “One Country, Two Systems”, and to share the L&T strategies for promoting BLE in and out of classroom. The L&T resources of various related subjects will also be refined continuously to enable teachers and students to understand our country and develop a correct understanding of the constitutional order established by the Constitution and the Basic Law. For example, in the teaching materials of senior secondary Liberal Studies, “Liberal Studies Curriculum Resources Booklet Series: Hong Kong Today”, topics on “One Country, Two Systems” and the Basic Law are included, together with L&T exemplars to support the learning and teaching of the subject. When developing relevant teaching resources, such as the online L&T resources for the “Constitution and Basic Law” module, “Basic Law Knowledge Enrichment Online Course for Secondary School Teachers”, and “Basic Law Online Course for Secondary School Students’ Self-directed Learning”, the EDB will consult the Department of Justice as necessary. As for the advanced version of the “Basic Law Knowledge Enrichment Online Course for Secondary School Teachers” under development, views of the Department of Justice are being sought. Apart from giving an introduction to the concepts embodied in the Basic Law, the Online Course will also shed light on the considerations and justifications behind court judgements by referring to relevant cases of the Court of Final Appeal, which highlights the relationship between the Constitution and the Basic Law, and enables teachers to grasp the spirit of “One Country, Two Systems” more firmly and understand relevant concepts more precisely. In addition, the EDB will, in collaboration with relevant departments/organisations, continue to organise diversified student activities such as Basic Law quizzes and suitable exchange programmes and visits to enhance students’ understanding of the historical background of the Basic Law and its implementation, as well as Hong Kong’s legal system through interesting and real-life activities.

The EDB will continue to maintain close communication with schools and other stakeholders, including government departments and non-governmental organisations, to further strengthen the above BLE-related support measures and thus enhance the effectiveness in learning the Basic Law among teachers and students.

EDB071

(Question Serial No. 2494)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the work to “monitor the performance of the entire education sector” mentioned in the Programme, please provide the following information:

- (1) Given the views in recent years that teachers adopt inappropriate teaching materials in class, what is the number of related complaints received by the Education Bureau (EDB) in the past 3 years, and how many of them are found substantiated?
- (2) How the EDB and schools handle the complaints on the use of inappropriate teaching materials, and what is the penalty involved?
- (3) Will measures be taken to reduce the problem, e.g. undertaking more random inspections and monitoring the content of teaching materials? If yes, what are the details, manpower and resources involved? If no, what are the reasons?

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 46)

Reply:

Given the extensive coverage of the complaints involving teachers (including those in the past 3 years) and unique nature of various cases, with quite a number of them involving multiple allegations, we do not categorise such complaints by type. Therefore, a breakdown of complaints involving teachers' use of inappropriate teaching materials is not available.

Under the Project on Enhancement of Complaint Management in Schools, schools are responsible for handling the complaints relating to their daily operations and internal affairs lodged by parents, students or members of the public in accordance with their school-based complaint handling mechanisms and procedures. The Education Bureau (EDB) will intervene with direct investigation if any complaint case involves a serious incident or

maladministration of the school authority. The EDB also undertakes to handle other types of school-related complaints, including complaints relating to the Education Ordinance, education policies and services directly provided by the EDB, as well as complaints referred by other organisations or lodged by school staff. Upon completion of investigation, the EDB or the school concerned will furnish the complainant with a reply. If any complaint case is substantiated, the EDB will consider the gravity of the case and take action against the teacher concerned, including cancellation of teacher registration or issue of a reprimand, warning or advisory letter. This is to ensure that the EDB plays a gate-keeping role in quality assurance for the education sector and society as a whole, and to disseminate the message that teachers should pay attention to their words and deeds, and respect and value the professionalism of educators.

Under the principle of school-based management, it is incumbent on the school management to monitor the work performance of teachers. Regarding the use of teaching materials, heads of subject panels and committees have the responsibility to understand and monitor the content and quality of the teaching materials used by teachers to ensure that these materials suit students' abilities and cater for their needs, as well as help students acquire the right knowledge and concepts and develop positive values. If controversial topics are covered in these teaching materials, it should be ensured that students are helped to think from multiple perspectives, analyse and express opinions in a rational and impartial manner. The EDB has been monitoring and improving the quality of learning and teaching in schools and continuously fostering school development and accountability through such means as inspections and curriculum development visits. The manpower and resources involved are subsumed under the EDB's recurrent expenditure.

(Question Serial No. 2495)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under the Programme that the Bureau “monitors the performance of the entire education sector”. In this connection, please provide the following information:

- (1) the number of complaints against the professional conduct of teachers, the number of teachers involved, the number of cases that were found substantiated upon investigation and warranted disciplinary actions of the Bureau, and the number of cases still under investigation in each of the past 3 years;
- (2) the number of teachers/teaching staff arrested for offences in each of the past 3 years, with a breakdown by type of offence; and
- (3) given that many young people were involved in the social events last year and there are more concerns in society about the professional conduct of teachers, whether the Bureau will, in the coming year, enhance contents on professional conduct in the training and development programmes for teachers, and adopt follow-up measures to reduce the recurrence of similar incidents?

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 45)

Reply:

(1) From the 2016/17 to 2018/19 school years, the Education Bureau (EDB) received a total of 66 complaints, involving 81 teachers, against teachers' alleged professional misconduct. 9 cases are still under investigation. Among the 57 completed cases, 20 were found substantiated or partially substantiated. The EDB has issued reprimand letters, warning letters, advisory letters and verbal reminders to the teachers in respect of 14 cases, and is in the process of handling 2 cases according to the established procedures for determining appropriate follow-up actions. For the remaining 4 cases, there is no need for

EDB to follow up because the teachers' misconduct involved was minor and disciplinary actions have been taken by their schools.

(2) Since the occurrence of social incidents in June 2019, the considerable reportage of teachers' suspected involvement in illegal acts has aroused widespread concern in the community. According to the information we have gathered from various channels, around 80 teachers (including teaching assistants) were arrested for involvement in social incidents between June and December 2019. The EDB does not have information regarding other cases in which teachers were arrested for suspected criminal offences. Under the established mechanism, the EDB will review whether a teacher has misconducted himself/herself and his/her teacher registration status upon conclusion of trial by referring to the court documents and other obtainable information, regardless of whether the subject is convicted or not. Upon cancellation of teacher registration, the person concerned will not be allowed to teach in schools. In the past 3 years, we followed up on 30 cases where registered/permitted teachers had committed or allegedly committed a criminal offence and the court proceedings had been completed. These cases mainly involved sexual offences, traffic offences, theft, fraud, etc.

(3) The EDB has been determined to maintain a teaching profession of high quality and with professional conduct in Hong Kong. To encourage teachers and school leaders to reflect and demonstrate professional roles and conduct expected of them, we have embedded the Professional Standards for Principals and Professional Standards for Teachers of Hong Kong (T-standard⁺) in teacher training programmes as appropriate, which include training programmes for aspiring principals and newly-appointed principals, as well as serving teachers and newly-joined teachers. Meanwhile, among the cases handled by the EDB, some can be adopted for teacher reflection. We will make reference to the contents of some cases to design teaching materials for reflection to enhance the ethical standards of teachers.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The novel coronavirus epidemic in recent months has led to class suspension in kindergartens (KGs) and the date for class resumption remains uncertain. This has triggered extensive withdrawal of students from pre-school classes. Parents of K1 students demand a refund of miscellaneous charges, school bus fares, etc., putting immense pressure on the operation of KGs. Please advise of the following:

- (1) the number of publicly-funded local non-profit-making KGs that offer pre-school classes and the number of places provided;
- (2) whether the Administration has the number of dropouts from pre-school classes in publicly-funded local non-profit-making KGs since the beginning of the epidemic;
- (3) whether the Administration has inquired about KGs' operation since the beginning of the epidemic and how many of them claimed that their operation was under pressure;
- (4) what responsive measures does the Administration have to support KGs' operation and address parents' concerns over KG fees, and whether uniform guidelines or supportive measures will be formulated to minimise the inconvenience and burden on the part of schools and parents; and
- (5) whether the Administration will consider providing parents and schools with additional subsidies so that they can be better supported in taking care of their children or teaching their students, as it is very likely that young children will be the last group to resume classes.

Asked by: Hon HO Kai-ming (LegCo internal reference no.: 38)

Reply:

(1) and (2)

In the 2019/20 school year, there are 361 kindergarten-cum-child care centres joining the kindergarten education scheme (Scheme) of the Education Bureau (EDB), of which 246 operate child care centres subsidised by the Government to provide 6 516 long whole-day care service places for children aged under 3. Child care centres are under the purview of the Social Welfare Department (SWD) which has not maintained the number of dropouts in child care centres subsidised by the Government. The relevant information is therefore not available.

(3) to (5)

The EDB has been maintaining close communication with the kindergarten (KG) sector and showing concern about their operation. In mid-February this year, we met with the representatives of the KG sector to understand schools' and parents' concerns and to offer appropriate support. Regarding tuition fees, about 90% of Scheme-KGs offering half-day programmes are currently free. For whole-day and long whole-day programmes, their tuition fees are at a low level, with the median tuition fees per instalment at about \$820 in the 2019/20 school year. Families with financial needs may apply for fee remission through the Kindergarten and Child Care Centre Fee Remission Scheme offered by the Working Family and Student Financial Assistance Agency.

In addition, the EDB has implemented various measures to help reduce the extra burden of schools and parents during the fight against the epidemic and class suspension. To reduce parents' burden in defraying education expenses, a funding of about \$900 million will be allocated from the newly-established Anti-epidemic Fund to provide an additional \$1,000 to each recipient of the Student Grant for the 2019/20 school year, i.e. increase from \$2,500 to \$3,500. This measure will benefit about 900 000 students, irrespective of whether they study in Scheme-KGs. To support KGs affected by the outbreak of Coronavirus disease 2019 (COVID-19), the EDB will implement various support measures by deploying existing resources. Measures include: (1) using the number of students in January 2020 as the basis for calculation of monthly subsidy for Scheme-KG during the class suspension period to ensure that there will be no reduction of government subsidies due to withdrawal or absence of individual students during the period; (2) providing all KGs (including non-Scheme KGs) with a one-off Special Anti-epidemic Grant at the rate of \$10,000 to \$15,000 per school to help them replenish their epidemic prevention equipment (such as masks and thermometers), clean the school premises and pay for other expenses related to epidemic prevention, and hence prepare well for class resumption; and (3) providing all KGs with a one-off Support Grant ranging from \$60,000 to \$160,000 per school depending on scale of operation, incurring an additional expenditure of about \$120 million, to assist KGs in tackling financial difficulties caused by the epidemic. In addition, if individual KGs, in particular those without government subsidies, need to reduce their tuition fees, the EDB will expedite the processing of the applications to cater for the needs of schools and parents.

As for child care centres, the SWD will also provide a one-off special grant under the Anti-epidemic Fund for aided and non-aided child care centres (including those attached to KGs) to help them tide over financial difficulties arising from prolonged suspension of

services. The total monthly expenditure on the grant is estimated to be \$55 million for a period of 4 months (February to May 2020), including \$21 million for 258 aided child care centres and \$34 million for about 300 non-aided child care centres.

The EDB and SWD have informed all KGs and child care centres of the details of various support measures through circular memoranda and letters.

EDB074

(Question Serial No. 1623)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

According to the Administration, the Education Bureau disbursed a one-off grant of \$100,000 and \$150,000 to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools) in 2017 (totalling about \$125 million) to promote Chinese history and culture. Regarding the grant, please advise this Committee of the following:

- (1) the effectiveness of the initiative at this stage;
- (2) a breakdown of expenditure under the grant for the coming financial year; and
- (3) the projects or measures currently in place to promote an interest in classical Chinese studies or Chinese culture and history among children and youngsters, as well as the financial resources and manpower involved.

Asked by: Hon HO Kwan-yiu, Junius (LegCo internal reference no.: 41)

Reply:

(1) and (2)

To enhance students' understanding of Chinese history and culture, the Education Bureau (EDB) provides each public sector and Direct Subsidy Scheme (DSS) school (including special schools) with a one-off grant for the promotion of Chinese history and culture in 2017. The purpose of the grant is to support teachers in enhancing the teaching of primary General Studies, Chinese Language at primary and secondary levels, Chinese History and Chinese Literature, and to enable primary and secondary students to appreciate and inherit the spirit of excellence and the civilisation of the Chinese people. Schools may, in light of their context and development needs, flexibly deploy the grant to support teachers in improving their teaching and developing school-based activities that help promote Chinese history and culture education. The validity period of the grant has not yet lapsed.

Through various channels, such as professional training activities for teachers, focus group meetings, curriculum development visits, etc., the EDB learns that the grant has mainly been used for organising Mainland study and exchange trips for students and school-based/inter-school learning activities (e.g. Chinese history drama appreciation and Chinese history week), and procuring teaching materials and e-resources (e.g. videos). To our understanding, it is the general view of teachers that the one-off grant helps promote school-based activities on Chinese history and culture education, and enhance the effectiveness of learning and teaching in related areas.

As the one-off grant was disbursed in full to all aided primary and secondary schools (including special schools), caput secondary schools, and DSS primary and secondary schools in August 2017, the expenditure of the grant in the 2020-21 financial year only includes the unspent balance of government schools and the amount to be disbursed to a new school that started operation in the 2019/20 school year. Details are as follows:

Item	Estimated expenditure (\$)
Estimated expenditure for government primary schools	817,000
Estimated expenditure for government secondary schools	1,301,000
Amount to be disbursed to a new school that started operation in the 2019/20 school year	150,000
Total	2,268,000

(3)

Enhancing the study of Chinese history and culture is one of the major emphases of the primary and secondary curriculum renewal. The EDB helps students acquire knowledge related to classical Chinese studies, and Chinese history and culture through enriching the content of different subjects, e.g. Chinese Language and General Studies at the primary level, and Chinese Language, Chinese History, Chinese Literature, Visual Arts and Liberal Studies at the secondary level.

As regards the school curriculum, the EDB has made Chinese History an independent compulsory subject at the junior secondary level. The revised curriculum of Chinese History (Secondary 1 to 3) will be implemented progressively from Secondary 1 in the 2020/21 school year, so that all secondary students can study Chinese history and culture systematically. Meanwhile, the EDB continuously provides an array of relevant learning and teaching materials for schools, and organises professional development programmes for teachers, including curriculum-related trips. In student activities, we also attach importance to the Chinese culture elements. Furthermore, the EDB helps students develop an interest and their motivation to learn more about classical Chinese studies, and Chinese history and culture through organising life-wide learning activities, e.g. reading award schemes, theme-based projects, museum studies and student competitions. These support measures are an integral part of the EDB's day-to-day curriculum development work. As the relevant staff cost is subsumed under the EDB's recurrent expenditure, no separate breakdown is available.

As for the financial support provided for schools, apart from the disbursement of the one-off grant in 2017 for promoting Chinese history and culture, the EDB has provided public sector and DSS secondary schools admitting non-Chinese speaking (NCS) students at the junior secondary level with a non-recurrent grant of \$50,000 per year to support NCS

students in learning Chinese history and culture in the 2018/19 and 2019/20 school years. The provision seeks to support teachers in improving practices for teaching Chinese History to NCS students and developing relevant learning activities. In addition, schools may flexibly deploy various grants available. For example, they may use the Promotion of Reading Grant provided for public sector schools since the 2018/19 school year to procure reading resources and organise school-based reading activities related to classical Chinese studies or Chinese history and culture. Schools may also use the Life-wide Learning Grant provided since the 2019/20 school year to organise diversified experiential learning activities beyond the classroom, e.g. visits, field trips and overseas exchanges, so that students can have more lively and enriched learning experiences and broadened exposure, and develop a greater interest and motivation to learn more about classical Chinese studies, and Chinese history and culture.

(Question Serial No. 1627)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

With the rampant spread of novel coronavirus in Hong Kong, a police officer was confirmed to be infected earlier. Some radicals with humanity dominated by politics then made celebratory remarks on the Internet. Surprisingly, among them were teachers entrusted with the mission of nurturing the young. Mr HO Pak-yan, the acting vice-principal of Confucius Hall Secondary School, was found to have posted on Facebook an acrostic poem suggesting the curse “rogue cops and families go to hell, not one member less”. The incident caused a public outcry and the school’s management committee immediately suspended Mr HO Pak-yan’s duties and launched an inquiry. However, after investigation, the management committee merely removed him from the office of acting vice-principal, while maintaining that Mr HO Pak-yan as a teacher had always been diligent and dutiful. With such behaviour, Mr Ho hardly deserves the title of teacher. In the end, the Administration only made a public statement that teachers’ remarks must conform to the codes of professional conduct and the moral standards accepted by the community, and no action was taken. In this connection, would the Administration advise this Committee:

- (1) whether it will devise corresponding measures to prevent teachers that have disregarded the codes of professional conduct and moral standards from retaining their teaching post?
- (2) whether it will look into the criminal liability of teachers that have been convicted and whether teachers sentenced to prison will be subject to cancellation of teacher registration status?

Asked by: Hon HO Kwan-yiu, Junius (LegCo internal reference no.: 45)

Reply:

(1) and (2)

Teachers play a vital role in passing on knowledge and nurturing students' character and their every word and deed have a far-reaching impact on students' growth. It is therefore of the utmost importance that their words and deeds must adhere to the standards of professional conduct and morality generally accepted by the community. If a teacher is suspected of having committed a crime or an act of misconduct, the Education Bureau (EDB) is obligated to follow up the case in a serious manner. To ensure that all school teachers are fit and proper to teach and safeguard the well-being of students, the Permanent Secretary for Education (PS(Ed)) is empowered by the Education Ordinance to, among others, approve applications for registration as a teacher or a permit to teach, and to cancel teacher registration. When it appears to the PS(Ed) that a teacher has behaved in any manner which is prejudicial to the maintenance of good order and discipline in the school in which the teacher teaches, she may consider cancelling his/her teacher registration if the case is of a serious nature. Based on the nature and severity of the case, the PS(Ed) may, among others, issue an advisory letter, a warning letter or a reprimand letter to the teacher concerned, reminding him/her to be mindful of his/her words and deeds and refrain from breaching professional conduct so as to meet the expectations of parents and the general public. If a teacher has committed a criminal offence, the EDB will review after the trial whether the teacher has misconducted himself/herself and his/her teacher registration status, taking into account the outcome of the trial, the judgement handed down by the judge and relevant information available to it. If the case is of a serious nature, the PS(Ed) may, after taking all factors into consideration, cancel the registration of the teacher concerned in accordance with the Education Ordinance. Upon cancellation of teacher registration, the person will not be allowed to serve as a teacher in schools.

CONTROLLING OFFICER'S REPLY

EDB076

(Question Serial No. 1935)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

- (1) Details of the duty visits outside Hong Kong made by the Secretary for Education (SED) and the Under Secretary for Education (US(Ed)) in the past 2 years, including dates, purpose/outcome of visit, size of entourage and the expenditure involved;
- (2) The expenditure on pay and allowances for SED, US(Ed) and the Political Assistant to SED in the past 3 years, and the estimated expenditure for the coming year;
- (3) The staff establishment of the Director of Bureau's Office, as well as the expenditure on salaries and its percentage share of the provision for this Programme; and
- (4) Given that the work of the Director of Bureau's Office includes "the planning, co-ordination and implementation of all arrangements for the Secretary's public, media and community functions", please provide the numbers of (a) District Council meetings and (b) other community functions that SED attended in the previous financial year, and the estimated number of District Council meetings that SED will attend in 2020-21.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 9)

Reply:

- (1) Information about duty visits outside Hong Kong made by the Secretary for Education (SED) and the Under Secretary for Education (US(Ed)) in 2018-19 and 2019-20 is at Annexes A and B respectively.

(2) The salary expenditure for SED, US(Ed) and the Political Assistant (PA) to SED from 1 April 2017 onwards is as follows:

	<u>Salary (\$ million)</u>		
	2017-18	2018-19	2019-20
SED	3.90	4.06	4.15
US(Ed)	2.31*	2.64	2.70
PA to SED	1.16#	1.42	1.45

* The post was vacant from 1 July 2017 to 1 August 2017.

The post was vacant from 1 July 2017 to 22 August 2017.

For budgetary purposes, the estimates for the salary expenditure for SED, US(Ed) and PA to SED in 2020-21 are around \$4.18 million, \$2.72 million and \$1.46 million respectively.

(3) In 2020-21, in addition to SED, US(Ed) and PA to SED, there will be 6 civil service posts (1 Administrative Officer Staff Grade C, 1 Chief Information Officer, 1 Personal Assistant, 1 Senior Personal Secretary, 1 Personal Secretary I and 1 Personal Chauffeur) on the establishment of SED's Office under Programme (1) to provide support for the office. In 2020-21, the estimated expenditure on the salaries, allowances and job-related allowances for the above civil service posts is around \$5.83 million, which accounts for 41% of the provision under Programme (1).

(4) SED attends from time to time various local activities to cultivate contacts with different sectors of the community, heed their views on education policies and measures, and solicit their support for the work of the Education Bureau. We have not kept statistics on the local activities attended by SED. In the last District Council (DC) term, SED already paid visits to all the 18 DCs from the second half of 2017 to late 2018. No related arrangement was scheduled for 2019-20. In 2020-21, SED will attend DC meetings or community functions according to actual circumstances and needs.

Notes:

- (1) The Secretary for Education would meet local students from Hong Kong where possible.
- (2) Hotel accommodation was provided in accordance with the relevant Civil Service Regulations and guidelines.
- (3) Proper class of passages was provided in accordance with the relevant Civil Service Regulations and guidelines, taking into account such factors as rank of post, flying time, flight schedule and details.
- (4) Other expenses include overseas subsistence allowance and other incidental expenses related to the duty visits outside Hong Kong. Subsistence allowance was provided in accordance with the relevant Civil Service Regulations and guidelines, which is intended to cover, inter alia, the cost of accommodation, meals and in-town transport.

**Duty visits outside Hong Kong made by
Under Secretary for Education (US(Ed))
(from 1 April 2018 to 10 March 2020)**

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo- dation (\$)(Note 2)	(B) Expenses on air passage (\$)(Note 3)	(C) Other expenses (\$)(Note 4)	Total expenditure incurred by US(Ed) & official entourage from SED's Office (\$)(A)+(B)+(C)
10 to 12 May 2018	Chengdu	To accompany the Chief Executive in attending activities on Hong Kong-Sichuan co-operation	-	2,119	3,440	1,654	7,213
22 & 23 May 2018	Hangzhou	To attend the Zhejiang-Hong Kong Sister School Contract Signing Ceremony and interflow activities	-	Hotel expenses covered by overseas subsistence allowance which is included in column (C)	4,170	2,238	6,408
12 June 2018	Macao	To attend a forum on higher education in the Guangdong-Hong Kong-Macao Greater Bay Area	-	No expenses as no over-night stay	No air passage (by ferry)	575	575
30 June 2018	Shenzhen	To attend activities related to STEM education in China	-	No expenses as no over-night stay	No air passage (by car)	2,287	2,287
15 to 20 August 2018	Yinchuan and Dunhuang	To join a visit of history and culture education to Yinchuan and Dunhuang	-	2,250	6,236	4,882	13,368
4 to 7 October 2018	Canada	To attend steering group meetings and summits of the Organisation for Economic Co-operation and Development	1	9,355	66,028	8,835	84,218
23 & 24 October 2018	Beijing	To attend the opening ceremony of the Beijing-Hong Kong University Alliance Summit	-	3,612	5,920	3,887	13,419

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo- dation (\$)(Note 2)	(B) Expenses on air passage (\$)(Note 3)	(C) Other expenses (\$)(Note 4)	Total expenditure incurred by US(Ed) & official entourage from SED's Office (\$)(A)+(B)+(C)
5 & 6 November 2018	Shanghai	To attend the launch ceremony of the Shanghai-Hong Kong University Alliance	-	2,852	4,710	2,098	9,660
27 to 29 November 2018	Fuzhou, Wuyi Shan and Xiamen	To accompany the Chief Secretary for Administration in attending the third Hong Kong/Fujian Co-operation Conference and visiting Xiamen	-	1,771	971	2,339	5,081
21 December 2018	Guangzhou	To attend the signing ceremony of the collaboration agreements between the Hong Kong University of Science and Technology, and the Guangzhou Municipal Government and Guangzhou University to establish the Hong Kong University of Science and Technology (Guangzhou)	-	No expenses as no over-night stay	No air passage (by train)	900	900
11 to 15 March 2019	Finland	To attend the International Summit on Teaching Profession 2019 and to visit local educational institutions	1	13,039	47,640	16,240	76,919
16 May 2019	Guangzhou	To attend the 21st Plenary Meeting of the Guangdong-Hong Kong Co-operation Joint Conference	-	No expenses as no over-night stay	No air passage (by train)	878	878
25 June 2019	Zhuhai	To attend a symposium on the Qualifications Framework in the Greater Bay Area	-	No expenses as no over-night stay	No air passage (by car)	2,000	2,000
19 to 22 August 2019	Beijing	To join the 2019 Hong Kong Teachers and Students Study Tour	-	5,122	3,478	6,336	14,936

Date of visit	Place of visit	Purpose of visit (Note 1)	Size of official entourage from SED's Office	(A) Expenses on accommo- dation (\$) (Note 2)	(B) Expenses on air passage (\$) (Note 3)	(C) Other expenses (\$) (Note 4)	Total expenditure incurred by US(Ed) & official entourage from SED's Office (\$) (A)+(B)+(C)
25 to 27 September 2019	Beijing	To attend the activities of the National Day Delegation from the Education Sector of Hong Kong 2019	-	Hotel accommo-dation sponsored by the Ministry of Education and the sponsored amount is not available	8,900	3,466	12,366
30 September to 2 October 2019	Beijing	To join the Hong Kong delegation led by the Chief Executive in celebration of the 70th anniversary of the founding of the People's Republic of China	-	Hotel accommo-dation sponsored by the Hong Kong and Macao Affairs Office and the sponsored amount is not available	Expenses on air passage borne by the Constitutional and Mainland Affairs Bureau	2,310	2,310
11 October 2019	Macao	To meet with the Secretariat for Social Affairs and Culture, the Education and Youth Affairs Bureau in Macao for exchanges on education co-operation between Hong Kong and Macao, to visit a local secondary school, and to attend an arts exhibition	-	No expenses as no over-night stay	No air passage (by car)	1,800	1,800
7 November 2019	Shenzhen	To attend the plaque unveiling ceremony of the Guangdong-Hong Kong-Macao Greater Bay Area Centre and the "Radio the Greater Bay" of the China Media Group	-	No expenses as no over-night stay	No air passage (by car)	In-town transport sponsored by the organiser and the sponsored amount is not available	0

Notes:

- (1) The Under Secretary for Education would meet local students from Hong Kong where possible.
- (2) Hotel accommodation was provided in accordance with the relevant Civil Service Regulations and guidelines.
- (3) Proper class of passages was provided in accordance with the relevant Civil Service Regulations and guidelines, taking into account such factors as rank of post, flying time, flight schedule and details.
- (4) Other expenses include overseas subsistence allowance and other incidental expenses related to the duty visits outside Hong Kong. Subsistence allowance was provided in accordance with the relevant Civil Service Regulations and guidelines, which is intended to cover, inter alia, the cost of accommodation, meals and in-town transport.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The current-term Government has mentioned that it would explore the feasibility of introducing a salary scale for kindergarten teachers. The 2018 Policy Address announced that the salary arrangements for kindergarten teachers would be reviewed in mid-2019. What is the progress of these initiatives? Please provide a detailed account of the work, manpower and estimated expenditure involved in setting up a salary scale for kindergarten teachers.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 10)

Reply:

A mandatory salary scale for kindergarten (KG) teachers, if established, would be similar to the existing salary arrangements for teachers in aided schools. The funding mode for aided schools is tied with several inter-connected components, such as the Education Bureau's annual approval for the number of operating classes and the staff establishment, and is subject to the control measures implemented by the Government for the prudent and balanced planning of school places under the school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating half-day and whole-day classes to meet the needs of parents. On the other hand, as compared to a mandatory salary scale on which teacher salary is determined solely by seniority, a salary range allows greater flexibility and ensures competitiveness. It enables the KG management to decide flexibly the remuneration of its staff, taking into account their qualifications, teaching experience, performance, additional duties, training received and special skills possessed. As the setting up of a salary scale for KG teachers involves various aspects as mentioned above, it should be handled prudently. In this connection, we have undertaken to use the data of the 3 school years from 2017/18 to 2019/20 as the basis to explore the feasibility of introducing a salary scale for KG teachers. As announced in the 2018 Policy Address, we started a review in mid-2019 on the implementation of the new policy, including the salary arrangements for KG teachers. We

have been consulting the stakeholders during the process. As the review has yet to complete, at this stage we are unable to provide information on the relevant work details, staff establishment and estimated expenditure involved in the coming year.

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In response to the Wuhan pneumonia outbreak, the Education Bureau (EDB) announced on 20 February 2020 the provision of additional subsidies for kindergartens (KGs), primary and secondary schools. In this connection, please:

- (1) provide a breakdown of the number of various types of eligible KGs, primary schools, secondary schools and special schools by amount of total entitlement;
- (2) advise of the implications on staff establishment and expenditure as it is stated in the press release that the subsidies will be provided by the EDB through deployment of existing resources; and
- (3) advise whether the Government will provide assistance in procurement of epidemic prevention supplies as many schools have indicated that they encountered difficulty in procurement; if yes, of the staff establishment and expenditure involved; if no, the reasons. In addition, how many requests for assistance has the Administration received in respect of procurement of epidemic prevention supplies? To its understanding, what is the availability of epidemic prevention supplies in KGs, primary and secondary schools?

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 11)

Reply:

- (1) The Education Bureau (EDB) announced on 20 February 2020 that additional subsidies would be provided to kindergartens (KGs), primary and secondary schools. The estimated number of eligible schools by school type and grant amount is as follows:-

(a) “Support Grant” for all KGs:

Grant amount	No. of KGs eligible for the grant
\$60,000	141
\$80,000	276
\$100,000	9
\$120,000	5
\$140,000	356
\$160,000	241

(b) “One-off Special Anti-epidemic Grant” for all schools offering full and formal curriculum (including KGs, government, aided and caput schools, Direct Subsidy Scheme (DSS) schools, the English Schools Foundation schools, international schools, Private Independent Schools, private primary schools and private secondary day schools):

School type	Grant amount	No. of schools eligible for the grant
KGs	\$10,000	24
	\$12,500	276
	\$15,000	728
Public sector and DSS schools	\$15,000	49
	\$20,000	237
	\$25,000	702
Boarding sections of special schools	\$15,000	4
	\$20,000	10
	\$25,000	7
Private primary and secondary schools	\$20,000	158

(c) One-off additional grant for all boarding sections of aided special schools:

Grant amount	No. of special schools eligible for the grant
\$50,000	4
\$100,000	10
\$150,000	7

- (2) The total expenditure of the above grants is around \$164 million. As manpower is subsumed under the expenditure of EDB, a breakdown of the expenditure involved is not available.

- (3) We will keep in view the procurement of anti-epidemic supplies by schools through our day-to-day communication with them. To our understanding, the supply of anti-epidemic goods was relatively tight early in the epidemic. Nevertheless, schools do not require a huge amount of anti-epidemic supplies given that all classes have been suspended. We note that shortage of anti-epidemic supplies has begun to ease recently. Since it will be quite some time before classes resume, schools can make all the necessary preparations in the meantime. As schools are different in scale and needs, they also differ in respect of the type and number of protective equipment they need. Schools should make good use of the recurrent funding provided by the EDB for meeting their operating expenses and the anti-epidemic grants to procure necessary anti-epidemic supplies according to their school-based needs. There is no need for the EDB to coordinate the procurement of anti-epidemic supplies.

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the free quality kindergarten education scheme, please provide the following information:

- (1) the number of half-day, whole-day and long whole-day kindergartens benefitting from the scheme, and the expenditure involved last year;
- (2) among the kindergartens subsidised under the scheme last year, the number of half-day, whole-day and long whole-day kindergartens that still collected school fees, and the respective amount of the average, lowest, highest and median annual school fee; and
- (3) for the coming year, i) the estimated number of half-day, whole-day and long whole-day kindergartens that will benefit from the scheme; ii) the estimated expenditure involved; and iii) the estimated number of subsidised kindergartens that will still collect school fees, as well as the respective amount of the average, lowest, highest and median annual school fee.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 12)

Reply:

- (1) In the 2018/19 school year, a total of 755 kindergartens and kindergarten-cum-child care centres (collectively referred to as KGs) in the territory joined the kindergarten education scheme (Scheme). Among these KGs, the respective number of KGs operating half-day (HD), whole-day (WD) and long whole-day (LWD) classes was 511, 364 and 246 (Note: Figures reflect the position as at mid-September of the school year. KGs operating both HD and WD/LWD classes were concurrently counted in the respective category under HD, WD and LWD classes). The expenditure on the Scheme in 2018-19 (the previous year) was about \$6 billion.

- (2) In the 2018/19 school year, the respective number of Scheme-KGs operating HD, WD and LWD classes with approval to charge school fees was 34, 316 and 225. For these KGs, the weighted average school fee, median school fee, highest school fee and lowest school fee are tabulated as follows (Note 1):

Annual school fee	HD Class	WD Class	LWD Class (Note 2)
Weighted average	\$3,700	\$8,700	\$11,600
Median	\$3,400	\$8,100	\$12,000
Highest	\$10,100	\$26,200	\$26,200
Lowest	\$100	\$200	\$700

Note 1: Figures are rounded to the nearest 100. KGs operating both HD and WD/LWD classes are concurrently counted in the respective column under HD, WD and LWD classes.

Note 2: It refers to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.

- (3) In the 2019/20 school year, the total number of Scheme-KGs is 761, accounting for about 97% of the 786 eligible KGs (i.e. local non-profit-making KGs) in the territory. The estimated number of Scheme-KGs in the 2020/21 school year is about 765 and the estimated expenditure on the Scheme for 2020-21 (the coming year) is about \$6.4 billion. The Education Bureau conducts a student enrolment survey on local KGs at the beginning of each school year to collect data for analysis and compilation of other relevant information (e.g. number of KGs, classes and school places). Hence, a breakdown of the number of Scheme-KGs operating HD, WD and LWD classes in the 2020/21 school year (the coming school year) is not available yet. In respect of school fees for the 2020/21 school year, as we are still vetting KGs' applications for school fee revision, the information requested is unavailable at this stage.

(Question Serial No. 1940)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As stated under Matters Requiring Special Attention in the coming year, the Education Bureau will continue to provide subsidy for schools and non-profit making organisations under the School-based After-school Learning and Support Programmes (Programme) to support needy students studying in primary, secondary and special schools in joining after-school activities. Please advise this Committee of:

- (1) the number of needy students benefitting from the Programme, the number of schools in receipt of subsidy and the amount of subsidy granted, the names of non-profit making organisations in receipt of subsidy and the respective amount of subsidy they were granted in the past year, and the types of after-school activities to be organised; and
- (2) the details of the work scheduled for the coming year, including the estimated expenditure and manpower resources involved.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 14)

Reply:

- (1) To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS).

In the 2018/19 school year, the total funding for the Programme was about \$240 million, in which about \$114 million was for the School-based Grant and about \$126 million for the Community-based Project Grant. For the School-based Grant, 898 schools which constitute more than 90% of all the eligible schools in the territory with 201 700 eligible students participated in the Programme. Regarding the Community-based Project Grant, the 436 projects organised by 171 NGOs were targeted at individual eligible students totaling about 100 000. A list of these NGOs has been uploaded onto the EDB website: <https://www.edb.gov.hk/en/student-parents/support-subsidies/after-sch-learning-support-program/community-based-projects/index.html>.

In approving the estimated expenditure for the projects, EDB takes into account the content and nature of the activities, number of students, number of activity sessions, etc. The amount of Community-based Project Grant disbursed to NGOs in the 2018/19 school year ranged from \$10,000 to \$10.65 million. As some of the NGOs are still compiling the audited accounts, the actual amount of grant disbursed to individual organisations is not available.

The objectives of the Programme are to help needy students enhance learning effectiveness, broaden learning experience outside classroom and raise understanding of and sense of belonging to the community. The types of activities grouped along the above-mentioned major objectives are set out below. A wide spectrum of activities is organised under each type by the schools and/or the NGOs provided with the grants to cater for the diverse needs of students.

Objectives	To enhance learning effectiveness	To broaden learning experience outside classroom	To raise understanding of and sense of belonging to the community
Types of activities	<ul style="list-style-type: none"> • Tutorial services • Training of learning skills • Training of languages 	<ul style="list-style-type: none"> • Art & cultural activities • Sports activities • Visits & outdoor activities 	<ul style="list-style-type: none"> • Volunteer services • Social & communication skills training (complemented by development of self-confidence through leadership training, adventure activities, etc.)

- (2) For the 2020/21 school year, EDB will earmark around \$240 million to continue subsidising schools and NGOs under the Programme to organise diversified after-school activities. The relevant manpower resources and staff expenses are subsumed under the overall expenditure of EDB and no breakdown is available.

CONTROLLING OFFICER'S REPLY

EDB081

(Question Serial No. 1941)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under Matters Requiring Special Attention in the coming year that the Education Bureau will continue to provide recurrent grant and professional support for public sector secondary, primary and special schools that have formed sister schools with their counterparts in the Mainland. Please advise on:

- (1) the number of secondary, primary and special schools that have formed sister schools with their counterparts in the Mainland in the past 3 years and the expenditure on related programmes;
- (2) the relevant work, including the professional support, estimated expenditure and manpower resources involved, in the coming year; and
- (3) how the Administration evaluates the effectiveness of the programmes.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 15)

Reply:

(1) The Education Bureau (EDB) launched the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme) from the 2015/16 to 2017/18 school years, under which a grant and professional support were provided for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. The Government has regularised the Pilot Scheme with effect from the 2018/19 school year. The number of participating schools and the expenditure of grant in the past 3 years are tabulated below:

School year	Secondary school	Primary school	Special school	Total no. of schools	Expenditure of grant (\$ million)
2016/17	223	228	20	471	56.52
2017/18	250	260	25	535	64.20
2018/19	296	312	26	634	93.25

(2) and (3)

The EDB will continue to provide assistance to local schools to form sister schools with their counterparts in the Mainland by coordinating the pairing-up arrangements, organising exchange activities, etc. For example, we will organise sharing sessions regularly to disseminate good practices of exchange between sister schools, and commission service contractor(s) to provide schools with advice and support in relation to the arrangements on exchange activities. These efforts seek to promote more in-depth professional exchange and multi-faceted collaboration, with a view to enhancing the quality and quantity of sister school exchanges, and hence facilitating cultural exchange and increasing teachers' and students' knowledge and understanding of the Mainland. The EDB is using its existing resources to carry out the relevant work. As the manpower and expenditure involved are subsumed under the departmental expenditure of the EDB, a breakdown is not available.

As for the evaluation of effectiveness, the EDB commissioned an independent consultant to review the effectiveness of the Pilot Scheme in the 2017/18 school year. The review findings show that most responding schools were positive about the Pilot Scheme. They considered the Pilot Scheme useful in helping teachers and students gain a better understanding of the education in the Mainland, facilitating cultural interflows, expanding schools' network, enhancing teachers' professionalism and broadening students' horizons. Since the regularisation of the Pilot Scheme, participating schools are required to review annually whether the intended objectives of the exchange activities have been met and incorporate the details of the sister school exchanges held (e.g. review findings) and the financial reports in the School Reports. The School Reports should be submitted to their Incorporated Management Committee/School Management Committee for endorsement and uploaded onto the homepage of the schools. In addition, the EDB will continue to commission service contractor(s) to collect feedback from the participating schools through different means (e.g. surveys) to review the effectiveness of the scheme.

Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the Enhanced School-based Educational Psychology Service (Enhanced SBEPS), please provide the following information:

- (1) the progress to date of the extension of the Enhanced SBEPS in the 2019/20 school year to around 150 primary and secondary schools as indicated by the Education Bureau (EDB) last year, and the respective number of primary and secondary schools currently receiving the Enhanced SBEPS;
- (2) the number of educational psychologists and the expenditure involved in the provision of school-based educational psychology service in the past 3 years; and
- (3) the details of EDB's school-based educational psychology service for all public sector primary and secondary schools, and the estimated expenditure and manpower involved for the coming year.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 16)

Reply:

(1) to (3)

Starting from the 2016/17 school year, all public sector ordinary primary and secondary schools have been provided with the School-based Educational Psychology Service (SBEPS). From that school year onwards, the Education Bureau (EDB) has progressively improved the ratio of educational psychologist (EP) to school to 1:4 for public sector ordinary primary and secondary schools with comparatively large number of students with special educational needs, i.e. the Enhanced SBEPS. In the 2019/20 school year, the Enhanced SBEPS covers 169 primary and secondary schools. The EDB plans to extend the Enhanced SBEPS to about 210 schools in the 2020/21 school year.

School-based EPs adopt a comprehensive and integrated service model to provide support at the school system, teacher and student levels to enhance schools' professional capacity to cater for students' diverse educational needs. In the schools years from 2017/18 to 2019/20, the number of EPs providing SBEPS (including the Enhanced SBEPS) for public sector ordinary primary and secondary schools in the territory is 144, 151 and 156 respectively. It is estimated that the number of EPs will be increased to 161 in the 2020/21 school year. The total expenditure involved is tabulated as follows:

School year	2017/18	2018/19	2019/20 (revised estimate)	2020/21 (estimate)
Expenditure (\$ million)	127	139	183	189

(Question Serial No. 1943)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Questions in connection with other educational services and subsidies are as follows:

- (1) In the coming year, there will be an increase of 25.8% in the estimated provision earmarked for “other educational services and subsidies” as compared with the year before. Please give reasons and details, including particulars of the 33 additional posts proposed.
- (2) The Bureau “supports activities which contribute to the wider involvement in education and development of professionalism”. Please tabulate the details of the support provided for educational organisations in the past 3 years, including the name of the educational organisations, amount of subsidy they received and details of the activities. In addition, how does the Administration avoid conflicts of interest between the officers responsible for approving subsidies and the successful organisations? How is the effectiveness of such support assessed?
- (3) As regards national education, please (a) tabulate the details of the Mainland exchange programmes organised for students by the Bureau in the past 3 years, including the number of participating primary and secondary school teachers and students, location, duration, outcome and the expenditure involved in each exchange programme; (b) give details of the Mainland exchange programmes that will be arranged for teachers and students by the Bureau in the coming year, including the number of teachers and students to be benefitted, and the expenditure involved.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 17)

Reply:

(1) Provision for 2020-21 under Programme (6) Other Educational Services and Subsidies is \$277.8 million (25.8%) higher than the revised estimate for 2019-20. This is mainly due to increased provision for other operating expenses and the increase in cash flow requirement for non-recurrent items. The creation of 33 posts in 2020-21 under Programme (6) is mainly for enhancing the professional and administrative support to a number of services, which includes strengthening various support measures for the implementation of integrated education. The above posts are set out by rank below:

<u>Rank</u>	<u>Posts to be created</u>
Principal Inspector	1
Senior Inspector	2
Inspector (Graduate)	1
Assistant Inspector (Graduate)	1
Specialist (Education Services) I	12
Specialist (Education Services) II	4
Speech Therapist	10
Executive Officer II	2
Total:	33

(2) The Education Bureau (EDB) supports educational bodies in promoting teachers' professional development all along. In the past 3 financial years (from 2016-17 to 2018-19), educational bodies registered with the Hong Kong Teachers' Centre (HKTC) organised such activities. The amount of grant approved by the EDB and the activity details are tabulated below:

2016-17 financial year

	Applicant body	Project	Amount of grant approved	Activity details
1.	Hong Kong Putonghua Professionals Association	A Study of the Development and Inheritance of the Chinese Language through Oracle Bone Script (從甲骨文看中國語言文字的發展與傳承)	\$2,120	To enable Chinese Language teachers of kindergartens, primary and secondary schools, and special schools to gain an understanding of oracle bone script and the lives of our ancestors through workshops.

	Applicant body	Project	Amount of grant approved	Activity details
2.	The Graduate Association of Colleges of Education Limited	Companion Project 2016 (伴行計劃 2016年度)	\$15,000	To share practical skills appropriate to the needs of novice teachers, provide the opportunity for novice teachers to have exchange with experienced teachers and enable the passing on of experience in printed form through professional sharing sessions, group gatherings and production of information booklets.

Total:			\$303,490	

All educational bodies registered with the HKTC can submit activity proposals. Submitted proposals will first be vetted by the HKTC Secretariat/Activities Grant Vetting Panel and then scrutinised by the HKTC Standing Committee, and finally approved by the EDB. In granting approval, the EDB will consider all circumstances and make a rigorous decision on a need basis and according to the appropriateness of each project. The actual amount approved depends on the number of applications received, and their budget and expenses. When examining applications for the Activities Grant, members of the Activities Grant Vetting Panel and the Standing Committee must declare any conflict of interests. On the principles of fairness and impartiality, members connected with an application must retire from the discussion over that particular case. Successful applicant bodies are required to submit an end-of-activity report for the purpose of effectiveness evaluation. The report may also serve as reference for vetting applications submitted for similar activities.

(3) In the past 3 years (from the 2017/18 to 2019/20 school years), Mainland exchange programmes organised or subsidised by the EDB for primary and secondary students varied in duration. They covered different provinces and cities in the Mainland, including 22 provinces, 4 autonomous regions and 4 municipalities. In the next school year (the 2021/22 school year), the EDB will continue to provide primary and secondary students with adequate opportunities to join Mainland exchange programmes. The numbers of students participating in the Mainland exchange programmes and the expenditures involved in the past 3 school years and the next school year are tabulated below:

School Year	Number of Students (rounded down to the nearest hundred)	Expenditure (\$ million) [@]
2017/18	67 000	85.4
2018/19 [#]	74 500	108.9
2019/20 ⁺	20 500	35.1
2020/21 ⁺⁺	109 000	115

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB.

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

⁺⁺ Estimated figures

The EDB also organises professional exchange programmes lasting 1 to 7 days for primary and secondary school teachers. In the past 3 years (from the 2017/18 to 2019/20 school years), these professional exchange programmes included visits made to different provinces and cities in the Mainland, such as Beijing, Wuhan, Chengdu, Nanning, Hefei and various cities in the Guangdong Province. The activities of these programmes mainly include visits to and lesson observations conducted in primary schools, secondary schools and higher education institutions, visits to enterprises and cultural facilities, as well as thematic seminars and exchange forums held by experts and scholars in different fields. In the next school year (the 2020/21 school year), the EDB will continue to organise professional Mainland exchange programmes with a view to widening teachers' horizons and enhancing their professional competence. Overall feedback from teachers and students has been positive. The numbers of teachers participating in professional Mainland exchange programmes and the expenditures involved in the past 3 school years and the next school year are tabulated below:

School Year	Number of Teachers (rounded down to the nearest hundred)	Expenditure (\$ million) [@]
2017/18	760	5.5
2018/19 [#]	1 680	7.1
2019/20 [*]	1 000	8.7
2020/21 ⁺⁺	2 680	12.9

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB.

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

⁺⁺ Estimated figures

Due to the novel coronavirus epidemic, all the Mainland exchange programmes organised or subsidised by the EDB have been suspended or postponed since end-January 2020.

EDB084

(Question Serial No. 1944)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding Matters Requiring Special Attention in the coming year, please provide the following information:

(1) In the form of a table, please provide (a) details of various learning and teaching resources developed by the Administration for promoting the State's Constitution and Basic Law education in schools, including names and contents of the resources, the responsible departments, expenditures involved and a list of outside experts engaged to consult on the development of the resources (if any) in the past 3 years; and (b) a detailed work schedule for the coming year, as well as the estimated expenditure and manpower involved.

(2) In the form of a table, please provide details of the additional funding provided for the Parent-Teacher Associations Federation and Parent-Teacher Associations, including contents of programmes and activities offered by these organisations, number of participants, outcomes, and the expenditures involved in the past 3 years.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 18)

Reply:

(1) (a)-(b)

The Education Bureau (EDB) has been continuously adopting a wide array of measures to strengthen the implementation of Basic Law education (BLE), which include developing learning and teaching (L&T) resources, providing teacher training for school sponsoring bodies, school leaders and teachers, organising life-wide learning activities for students, etc. Such support measures enable schools, teachers and students to acquire a deeper understanding of the relationship between the Constitution of our country and the Basic Law as well as the concepts embodied in the Basic Law, and to understand that Basic Law is the cornerstone of Hong Kong's development and is closely related to our daily life,

which in turn facilitate schools to enhance L&T efficacy by making plans for and taking forward BLE more effectively and to strengthen students' motivation for learning the Basic Law.

With respect to the development of L&T resources, the EDB has from 2017-18 to 2019-20 financial years provided secondary schools with various sets of L&T resources, including "Development of Learning and Teaching Strategies and Resources to Facilitate Students' Deep Learning of the Basic Law through Community Study", "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers" and "Basic Law Online Course for Secondary School Students' Self-directed Learning". The EDB will continue to develop the advanced version of "Basic Law Knowledge Enrichment Online Course for Secondary School Teachers" in the 2020-21 financial year.

At the primary level, the EDB has from 2017-18 to 2020-21 financial years provided 2 sets of L&T Resource CD-ROMs for primary General Studies on "History and Culture Series" (including "The Stories of Silk Road" and "Engineering in China") and "Basic Law Audio-visual L&T Package (Senior Primary)" to enhance teachers' and students' understanding of the Basic Law.

The expenditure on the production of L&T resources for BLE does not cover staff cost for the EDB personnel involved in the production. Since the development of L&T resources is an integral part of the day-to-day curriculum development work, it is not practical to give separate figures on the staff-related expenditure incurred by individual curriculum development tasks. From 2017-18 to 2020-21, the EDB's expenditure on the development of BLE L&T resources is as follows:-

2017-18 [@]	2018-19 ^{@#}	2019-20 ^{@*}	2020-21 ^{@++}
\$1,510,000	\$180,000	\$280,000	\$470,000

[@] The expenditure on manpower resources involved in the provision is subsumed under the recurrent expenditure of the EDB

[#] Actual figure revised from last year's estimates

^{*} Provisional figure

⁺⁺ Estimated figure

During the development of the L&T resources, the EDB consulted legal experts, scholars on constitutional law, professionals and teachers from various schools when necessary for legal and professional advice to ensure the quality of the L&T resources.

In the light of the needs of the school sector, the EDB will continue to strengthen BLE using diversified strategies, including updating L&T resources on an ongoing basis, organising teacher training activities, etc. The EDB will continue to enhance students' understanding of the historical background of the Basic Law and its implementation through student activities such as Basic Law quizzes and suitable exchange activities and visits.

(2)

Parents play a vital role in their children's growth and learning. The EDB is committed to facilitating home-school co-operation and promoting parent education. Subsidies are provided for Federations of Parent-Teacher Association (FPTAs) of different districts and Parent-Teacher Associations (PTAs) of schools each year for organising more activities with a view to strengthening home-school co-operation and enhancing parent education.

Starting from the 2019/20 school year, the EDB has provided additional provision for FPTAs of different districts and PTAs of schools. The number of parent activities each FPTA can apply for under the Subsidy for Home-School Co-operation Activities has increased from 3 to 4. The EDB has also introduced the Subsidy for Joint Cross-district Parent Activities. Each FPTA may apply for this subsidy for organising 1 cross-district parent activity with other FPTAs. As for PTAs of schools, the ceiling for the Subsidy for Home-School Co-operation Activities and the Subsidy for Joint Home-School Co-operation Project has increased from \$5,000 and \$10,000 to \$10,000 and \$20,000 respectively.

Subsidised home-school co-operation and parent activities include those that seek to help students nurture positive values and lifestyles, enhance parent-child relationship, develop children's communication skills, promote "Happy Kids Charter", assist parents in supporting their children's learning, help parents understand school and education policies, etc. The above activities benefited the FPTAs of the 18 districts in the territory, kindergartens, kindergarten-cum-child care centres, primary schools, secondary schools, special schools and their parents. The FPTAs and PTAs are required to prepare an assessment report after completion of each activity. According to the assessment reports in recent years, about 99% of the respondents found the home-school activities organised by the FPTAs and PTAs satisfying and capable of facilitating home-school co-operation and promoting parent education. In the 2017/18, 2018/19 and 2019/20 school years, the expenditure involved in parent activities organised by FPTAs and PTAs and subsidised by the EDB was \$26.5 million, \$27 million and \$50 million respectively.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

On supporting local students in their pursuit of further studies in universities outside Hong Kong, please provide the following information:

- (1) The number of student beneficiaries under the Mainland University Study Subsidy Scheme (MUSSS), the average amount of subsidy granted, the universities attended, the total expenditure involved, as well as the number of applications rejected and the reasons for rejection in the past 3 years; and the expenditure and manpower arrangements for implementing the MUSSS in the coming year.
- (2) The number of student beneficiaries under the Hong Kong Scholarship for Excellence Scheme (HKSES), the average amount of subsidy granted, the universities attended, the total expenditure involved, as well as the number of applications rejected and the reasons for rejection in the past 3 years; and the expenditure and manpower arrangements for implementing the HKSES in the coming year.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 20)

Reply:

- (1) The Mainland University Study Subsidy Scheme (MUSSS) was launched in July 2014. To better support Hong Kong students in pursuing studies in the Mainland, the MUSSS has been expanded since the 2016/17 academic year and a “non-means-tested subsidy” has been introduced under the MUSSS starting from the 2017/18 academic year. For the 2017/18 academic year, the full-rate subsidy and half-rate subsidy of the “means-tested subsidy” were \$15,000 and \$7,500 respectively and the “non-means-tested subsidy” was \$5,000. For the 2018/19 and 2019/20 academic years, the full-rate subsidy and half-rate subsidy of the “means-tested subsidy” are \$16,800 and \$8,400 respectively and the “non-means-tested subsidy” is \$5,600.

The number of students receiving the full-rate “means-tested subsidy”, half-rate “means-tested subsidy” and “non-means-tested subsidy” in the 2017/18, 2018/19 and 2019/20 (as at 29 February 2020) academic years by institution is set out at **Annexes A to C** respectively. In these three academic years, the average amount of subsidy for students is \$11,500, \$12,900 and \$12,800 respectively, and the number of unsuccessful applications is 397, 256 and 194 respectively. The applications were rejected mainly because the applicants did not meet the eligibility criteria of the MUSSS or did not pass the means test for the “means-tested subsidy”. The eligibility criteria of the MUSSS are set out at **Annex D**.

On the implementation of the MUSSS, the total expenditure in the 2017/18 and 2018/19 academic years was about \$37 million and \$42 million respectively. The total estimated expenditure for the 2019/20 academic year is about \$42 million.

The actual expenditure of the MUSSS for the 2020/21 academic year is subject to the number of applications and renewals. The Education Bureau (EDB) has reserved a sufficient amount of funding to meet the needs. The implementation of the MUSSS involves staff from assistant clerical officer to directorate levels. The relevant manpower and expenditure have been subsumed under the overall establishment and expenditure of the EDB and the Working Family and Student Financial Assistance Agency. As the personnel involved concurrently discharge other duties, a breakdown is not available.

- (2) The Government launched the Hong Kong Scholarship for Excellence Scheme (HKSES) in November 2014 to support outstanding local students to pursue studies at world renowned universities outside Hong Kong, with a view to grooming a top cadre of talents with global vision, international network and world-class education, thereby contributing to enhancing Hong Kong’s competitiveness as Asia’s World City in a globalised knowledge economy. Starting from the 2015/16 academic year, up to 100 students are subsidised per cohort. The HKSES was regularised in the 2019/20 academic year, with the scholarship capped at \$300,000 per student per annum. A means-tested bursary will be granted to students who may need additional support to pursue their studies, subject to a ceiling of \$200,000 per student per annum, for covering living and other study-related expenses. The EDB also arranges mentorship programmes and summer internships for the awardees to enrich their social experience.

A merit-based approach is adopted for the selection of awardees, enabling the most outstanding local students to pursue studies at world renowned universities. Selection is based on the academic achievements and other attributes, such as leadership qualities and potential, contribution and commitment to society, etc. In the 2017/18, 2018/19 and 2019/20 academic years, the number of awardees under the HKSES is 97, 96 and 92 respectively. Lists of the universities outside Hong Kong attended by the awardees are available at: <https://hkSES.edb.gov.hk/en/list-of-awardees-1718.html>; <https://hkSES.edb.gov.hk/en/list-of-awardees-1819.html>; and <https://hkSES.edb.gov.hk/en/list-of-awardees-1920.html>. Taking into account the scholarship quota and the above-mentioned selection criteria, 759, 693 and 721

applications were rejected respectively in the 2017/18, 2018/19 and 2019/20 academic years.

Including the awardees of the current cohort and the renewals, 229, 259 and 241 awardees received scholarship/bursary in the 2017/18, 2018/19 and 2019/20 (as at 29 February 2020) academic years respectively. The respective average amount of subsidy per awardee is \$199,000, \$213,000 and \$230,000. On the implementation of the HKSES, the total expenditure in the 2017/18 and 2018/19 academic years was around \$48 million and \$57 million respectively, and the estimated total expenditure for the 2019/20 and 2020/21 academic years is around \$57 million and \$64 million respectively.

The implementation of the HKSES involves staff from assistant clerical officer to directorate levels. The relevant manpower and expenditure have been subsumed under the overall establishment and expenditure of the EDB. As the personnel involved concurrently discharge other duties, a breakdown is not available.

Mainland University Study Subsidy Scheme

Mainland University Study Subsidy Scheme – Eligibility

“Means-tested subsidy”

- (a) having right of abode or right to land in, or have entered Hong Kong on One-way Permits;
- (b) receiving and having completed senior secondary education in Hong Kong, whether local or non-local curricula; and
- (c) pursuing undergraduate studies in any of the designated Mainland institutions in the academic year for which the application is submitted.

“Non-means-tested subsidy”

- (a) having right of abode or right to land in, or have entered Hong Kong on One-way Permits;
- (b) receiving and having completed senior secondary education in Hong Kong, whether local or non-local curricula;
- (c) pursuing undergraduate studies in any of the designated Mainland institutions in the academic year for which the application is submitted; and
- (d)(1) attained “3322” in the Hong Kong Diploma of Secondary Education Examination, i.e. attained Level 3 for Chinese Language and English Language and Level 2 for Mathematics and Liberal Studies; OR
- (d)(2) pursuing studies in Huaqiao University through “Pilot Scheme on the Articulation of Hong Kong Sub-degree Graduates to Huaqiao University”.

CONTROLLING OFFICER'S REPLY

EDB086

(Question Serial No. 1947)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

On the programme of Policy and Support,

- (1) please explain in detail why the estimate for the coming year is 126.3% higher than that of last year, and elucidate the proposed increase of 83 posts; and
- (2) please set out the annual expenditure on the implementation of Territory-wide System Assessment and Student Assessment in each of the past 3 years, as well as the estimated expenditure and details of work for the coming year.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 21)

Reply:

(1)

Provision for 2020-21 under Programme (8) Policy and Support is \$3,727.3 million (126.3%) higher than the revised estimate for 2019-20. This is mainly due to the increase in cash flow requirement for the non-recurrent item of provision of a subsidy to day-school students in 2019/20 school year and the additional provision for regularising the subsidy to day-school students starting from the 2020/21 school year.

The increase of 83 posts under Programme (8) in 2020-21 is the net result of the planned creation of 94 posts and planned deletion of 11 posts. The breakdown of the above posts by rank is as follows –

<u>Rank</u>	<u>Posts to be created</u>
Education Officer (Administration)	1
Assistant Education Officer (Administration)	10
Principal Inspector	1
Senior Inspector	1
Inspector (Graduate)	5
Assistant Inspector (Graduate)	11
Building Services Engineer	1
Structural Engineer	1
Building Services Inspector	1
Assistant Building Services Inspector	1
Maintenance Surveyor	1
Assistant Clerk of Works	1
Chief Executive Officer	1
Senior Executive Officer	2
Executive Officer I	3
Executive Officer II	13
Analyst/Programmer I	2
Analyst/Programmer II	15
Clerical Officer	1
Assistant Clerical Officer	21
Workman II	1
Sub-total (A):	94

<u>Rank</u>	<u>Posts to be deleted</u>
Assistant Education Officer (Administration)	-4
Inspector (Graduate)	-2
Assistant Inspector (Graduate)	-3
Executive Officer II	-1
Assistant Clerical Officer	-1
Sub-total (B):	-11
Net Total [(A)+(B)]:	83

The 83 net additional posts are mainly for enhancing the professional and administrative support to various services, including the provision of a student grant of \$2,500 per eligible student, and for replacing non-civil service contract positions with long-term service need.

(2)

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including the Student Assessment (2017 and before) and the Territory-wide System Assessment (TSA). The payment, which is settled with the HKEAA according to the terms of contract and service items (instead of subjects) on an annual basis, includes item setting, printing and administration fees on administering schools' participation in the assessment. The average expenditure on the TSA for the contract period in 2017, 2018 and 2019 was \$73 million, \$73 million and \$85 million respectively.

The 2019/20 TSA was originally scheduled for the second quarter of 2020. In light of the latest situation of COVID-19, the EDB has announced that the TSA at all related class levels would be cancelled in 2020. Downward adjustment has to be made to the related estimated expenditure of around \$85 million and the exact figure is not available at the moment. In addition, the expenditure on Student Assessment Repository has been subsumed under the overall expenditure of the EDB.

Subhead (No. & title): (000) Operational expenses
Programme: (-) Not specified
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

The provision for the Curriculum Development Institute (CDI) sees an increase of about 25% in 2 years. What are the reasons and details involved? Please inform this Committee of the major tasks and expenditures of the CDI, and provide a list of learning and teaching materials it produced over the past 3 years.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 22)

Reply:

It is a misinterpretation for the question to claim that the provision for the Curriculum Development Institute (CDI) sees an increase of about 25% in 2 years. As an actual expenditure is affected by different factors, it should not be compared directly with the estimated expenditure. The estimated annual expenditure of the CDI in the recent 3 years is around \$250 million to \$260 million. For 2019-20 and 2020-21, the estimated annual expenditure is around \$262 million and \$299 million respectively. The estimation for 2020-21 is \$37 million higher than 2019-20. Excluding the adjustments to staff remuneration, \$30 million of the difference represents the funding previously allocated to Radio Television Hong Kong to produce a certain number of educational television (ETV) programmes. It will be redeployed by the Education Bureau (EDB) to develop diversified multimedia learning and teaching resources in alignment with the curriculum.

The day-to-day work of the CDI covers different Key Learning Areas/curriculum/subject sections. It includes providing support for the review and ongoing renewal of the school curriculum; conducting studies and surveys on curriculum implementation; compiling and revising curriculum guides; developing learning and teaching resources, for example, on Chinese History, senior secondary Liberal Studies, values education, gifted education, special education needs, etc.; organising professional development activities for teachers; managing the EDB's Central Resources Centre; disbursing various designated grants; vetting textbooks; conducting curriculum development visits; and implementing the

Collaborative Research and Development (“Seed”) Projects, etc. In recent years, the CDI has also organised territory-wide activities for teachers and students, such as STEM education, Smart City Project Programme and the promotion of reading.

Over the past 3 years, the CDI has developed around 900 items of learning and teaching resources for various Key Learning Areas/subjects. With the repositioning of the ETV service, the scale of producing multimedia learning and teaching resources will be expanded in the future. For details, please refer to the Learning and Teaching Resource Lists of the EDB

(<https://www.edb.gov.hk/en/curriculum-development/resource-support/learning-teaching-resource-list/index.html>).

- b. the requirement and application procedure of NCS students in applying the subsidies released to non-Chinese speaking students for alternative Chinese language examinations, and the maximum number of times which students can apply.
- c. number of NCS students subsidised to sit for the internationally recognised alternative Chinese Language qualifications examinations and the corresponding expenditures for non-first timers from 2015/16 to 2019/20 school years.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 23)

Reply:

- a. Eligible Secondary (S) 4 to S6 school candidates entering for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that subsidised school candidates are only required to pay a “subsidised examination fee” on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE). Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations, including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level.

Starting from the 2011/12 school year, apart from the examination subsidy, eligible needy non-Chinese speaking (NCS) students entering for the GCSE (Chinese) Examination can apply for full or half fee remission of the “subsidised examination fee” under the Examination Fee Remission Scheme (EFRS). The EFRS has further been extended to eligible needy NCS students taking the IGCSE, GCE AS-Level and GCE A-Level (Chinese) Examinations from the 2012/13 school year onwards.

Since the Government paid and will pay the examination fees for school candidates entering for the 2019 and 2020 HKDSE, the “subsidised examination fee” of eligible NCS students entering for the aforementioned non-local Chinese Language examinations in the 2018/19 and 2019/20 school years was waived accordingly. The number of NCS students subsidised to enter for the aforementioned examinations and the expenditure from the 2016/17 to 2019/20 school years are tabulated at Annex A and Annex B respectively.

- b. NCS students who study at S4 to S6 in day schools pursuing the local curriculum and have met either one of the specified circumstances (i.e. (i) having learnt Chinese Language for less than six years while receiving primary and secondary education; or (ii) having learnt Chinese Language for six years or more in schools, but have been taught an adapted and simpler curriculum not normally applicable to the majority of students in local schools) and enter for the aforementioned non-local Chinese Language examinations as school candidates in the relevant school year are considered eligible NCS students as said in paragraph (a) above. Heads of schools of the NCS students entering for the aforementioned examinations are required to certify the particulars of their NCS students (including the fulfilment of the aforementioned specified circumstances) on the relevant entry forms issued by the examination body commissioned by the Education Bureau.

As for the maximum number of subsidised entries, each eligible NCS student may be subsidised for up to two entries for any of the following examinations: the GCSE (Chinese) Examination, IGCSE (Chinese) Examination and GCE AS-Level (Chinese) Examination, and up to two entries for the GCE A-Level (Chinese) Examination.

- c. The number of NCS students entering for the aforementioned non-local Chinese Language examinations as non-first-time subsidy recipients from the 2015/16 to 2019/20 school years is 73, 84, 148, 75 and 220 respectively, and the corresponding expenditure is about \$76,000, \$106,000, \$232,000, \$183,000 and \$562,000.

CONTROLLING OFFICER'S REPLY**EDB089****(Question Serial No. 1950)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (4) Secondary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Will the government inform this Council of:

(a) The number and percentage of non-Chinese speaking students who participated in Secondary School Places Allocation (SSPA) System for school years 2015/16 (SSPA 2015), 2016/17 (SSPA 2016), 2017/18 (SSPA 2017), 2018/19 (SSPA 2018) and 2019/20 (SSPA 2019) among the number of non-Chinese speaking students in P6, with the following details;

School year	Total no. of P6 students	Total no. of students participated in SSPA	Total no. of P6 NCS students	No. of NCS students participated in SSPA	% of NCS students participated in SSPA
2015/16					
2016/17					
2017/18					
2018/19					
2019/20					

(b) The number and percentage of all students who got admission in “Discretionary Places Admission” and “Central Allocation” stages for school years 2015/16 (SSPA 2015), 2016/17 (SSPA 2016), 2017/18 (SSPA 2017), 2018/19 (SSPA 2018) and 2019/20 (SSPA 2019) respectively, and among those who participated in SSPA in Central Allocation stage, how many among them were allocated to their top three choices;

School year	Total no. of students participated in SSPA	No. of students who got admission in Discretionary Places stage (with %)	No. of students who got admission in Central Allocation stage (with %)	No. of students allocated to their top 3 choices in Central Allocation stage
2015/16				
2016/17				
2017/18				
2018/19				
2019/20				

(c) The number and percentage of all students and non-Chinese speaking students who got admission in direct subsidy school in the school years 2015/16 to 2019/20.

(d) Who are the students who will get adjustments in internal assessment when applying for SSPA, and what are the adjustments?

(e) What is the number of NCS students in P5 and P6 taking adapted Chinese Language curriculum in schools in school year 2015/16 to 2019/20? How many among them are sitting for the same Chinese test with Chinese speaking students and had their results submitted as the internal assessment for SSPA?

(f) The Equal Opportunities Commission has stated in their study in January 2020 that requiring NCS students who studied adapted Chinese curriculum in schools to take the same level of Chinese exam with other students in school as the internal assessment to be submitted for SSPA may constitute discrimination. How does the EDB respond to this? Will the EDB rectify this situation?

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 24)

Reply:

(a) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of Primary 6 (P6) students participating in the Secondary School Places Allocation (SSPA) from 2015 to 2019 (i.e. for admission to Secondary 1 (S1) from the 2015/16 to 2019/20 school years), the number of P6 students, the number of P6 NCS students, and the number and percentage of P6 NCS students participating in SSPA are tabulated below:

SSPA Cycle	No. of P6 students	No. of students participating in SSPA	No. of P6 NCS students	No. of P6 NCS students participating in SSPA	Percentage of P6 NCS students participating in SSPA
2015	47 234	46 659	1 485	1 435	96.6%
2016	46 375	45 544	1 471	1 390	94.5%
2017	48 014	47 203	1 546	1 458	94.3%
2018	50 602	49 554	1 590	1 464	92.1%
2019	54 102	52 917	1 821	1 612	88.5%

Note:

Figures include students studying in public sector schools, Direct Subsidy Scheme (DSS) schools and private schools offering the local curriculum, but do not include those studying in special schools, the English Schools Foundation schools, other international schools and Private Independent Schools.

- (b) The number of P6 students participating in SSPA from 2015 to 2019 (i.e. for admission to S1 from 2015/16 to 2019/20 school years), the number and percentage of students who were allocated a place at the “Discretionary Places” stage, the number and percentage of students who were allocated a place at the “Central Allocation” stage, and the number of students allocated to schools of their first three choices at the “Central Allocation” stage are tabulated below:

SSPA Cycle	No. of students participating in SSPA	No. and percentage of students who were allocated a place in the “Discretionary Places” stage		No. and percentage of students who were allocated a place in the “Central Allocation” stage		No. of students allocated to schools of their first three choices in the “Central Allocation” stage
		No.	Percentage	No.	Percentage	
2015	46 659	17 727	38.0%	28 932	62.0%	24 517
2016	45 544	17 703	38.9%	27 841	61.1%	24 394
2017	47 203	17 933	38.0%	29 270	62.0%	24 423
2018	49 554	18 517	37.4%	31 037	62.6%	25 601
2019	52 917	19 415	36.7%	33 502	63.3%	26 715

- (c) For the school years of 2015/16 to 2019/20, the number of students who were admitted to DSS schools was 62 098, 61 427, 61 197, 61 106 and 61 730 respectively, and their percentage share among all students in public sector (excluding special schools) and DSS schools was 10.1%, 10.0%, 9.9%, 9.9% and 10.0% respectively.

For the school years of 2015/16 to 2019/20, the number of NCS students who were admitted to DSS schools was 5 714, 5 633, 5 691, 5 576 and 5 624 respectively, and their percentage share among all NCS students in public sector (excluding special schools) and DSS schools was 32.5%, 31.1%, 30.2%, 29.1% and 28.6% respectively.

- (d) Under the existing SSPA system, participating primary schools have to submit their students' internal assessment results at the end of Primary 5 (P5), and both in mid-year of P6 and at the end of P6. As different schools may have different curricula and the standard of marking or assessment may vary from school to school, it is not appropriate to put the marks of all schools side by side directly to form an order of merit for the purpose of allocation. Hence, a scaling mechanism has to be used to scale and convert schools' internal assessments, such that the scaled marks of all participating schools may be compared and put into an order of merit fairly for the purpose of determining students' allocation bands.
- (e) and (f) To ensure the fairness of the SSPA mechanism, schools should adhere to the principles of impartiality and fairness when conducting relevant internal assessments. The scope, focus, mode and standards of assessment and the arrangements for submitting assessment results should be decided by teachers of relevant subject through deliberation to ensure consistency. Meanwhile, schools should maintain close communication with stakeholders (including parents) to give them a clear understanding of the school's internal assessment mechanism. It is worth noting that internal assessments for the purpose of SSPA are not a one-off affair and there is also formative assessment (such as regular tests and project learning, etc.). In addition, primary schools have to submit the internal assessment results of no less than six subjects, including the Chinese Language, English Language, Mathematics, General Studies, Visual Arts and Music. During assessment planning, teachers should incorporate assessment tasks of varying levels of difficulty and in diverse modes to cater for students' (including NCS students) different abilities and aptitudes, so as to reflect how well students at all levels with different capabilities are learning through the assessment. As primary schools are not required to report the number of P5 and P6 NCS students studying adapted Chinese Language curriculum, the relevant figures are not available.

EDB090

(Question Serial No. 0013)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Following the regularisation of a relevant pilot project under the Community Care Fund from the 2017/18 school year, the Government will provide each public sector ordinary primary and secondary school with an additional teaching post (Assistant Primary School Master/Mistress post for primary schools or Graduate Master/Mistress post for secondary schools) in phases over 3 years to facilitate the assignment of a designated teacher to take up the role of Special Educational Needs Coordinator (SENCO). In this connection, would the Administration advise this Committee of the following:

- (a) the respective number of primary and secondary schools with the provision of the said teaching post from the 2017/18 to 2019/20 school years, with a breakdown by district, and the expenditures involved; the respective percentage of these primary and secondary schools out of the number of primary and secondary schools in the territory, and the total number of these schools in the territory; and
- (b) with the upgrading of SENCO posts in public sector mainstream primary and secondary schools with a comparatively larger number of students with special educational needs (SEN) to promotion rank in the 2019/20 school year, the number of schools with SENCO post upgraded to promotion rank, the number of students with SEN admitted to these schools, the total number of students studying in these schools, and the estimated expenditures involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 35)

Reply:

(a) and (b)

Starting from the 2017/18 school year, the Education Bureau (EDB) has provided, by phases in 3 years, each public sector ordinary primary and secondary school with an additional graduate teaching post to facilitate the schools' assignment of a designated

teacher to take up the role of Special Educational Needs Coordinator (SENCO). In the 2019/20 school year, all public sector ordinary schools have the provision of SENCO. In the 2017/18 and 2018/19 school years, the expenditure for the provision of SENCO in ordinary schools is \$164 million and \$376 million respectively. As for the 2019/20 school year, the estimated expenditure is \$820 million. In these 3 school years, the number of schools with the provision of SENCO and their respective percentage share are provided below:

School year	No. of public sector ordinary schools			No. of schools with the provision of SENCO			Percentage		
	Secondary ^{Note}	Primary	Total	Secondary	Primary	Total	Secondary	Primary	Total
2017/18	389	454	843	118	126	244	30%	28%	29%
2018/19	389	456	845	244	300	544	63%	66%	64%
2019/20	389	455	844	389	455	844	100%	100%	100%

Note: Arts and Technology Education Centre, Field Studies Centre and Nature Education cum Astronomical Centre are not included as they only provide support services to secondary schools for curriculum enrichment.

All public sector ordinary schools have the provision of SENCO in the 2019/20 school year. In other words, public sector ordinary schools in all districts have been provided with an additional graduate teaching post to take up the role of SENCO.

Starting from the 2019/20 school year, the EDB has implemented a series of enhanced measures on integrated education, which include extending the Learning Support Grant (LSG) to all public sector ordinary primary and secondary schools. If the total amount of LSG received by the schools reaches the specified threshold (\$600,000 in the 2019/20 school year), the rank of their SENCO will be upgraded to promotion rank (i.e. primary school master/mistress or senior graduate master/mistress). In the 2019/20 school year, there are a total of 431 primary schools and 244 secondary schools whose SENCO has been upgraded to promotion rank. Since the LSG received by each public sector ordinary school is calculated according to the number of students with special educational needs (SEN) who require tier-2 and tier-3 support and the tier of support they need, instead of just calculating the number of students with SEN, we have not compiled figures of students with SEN admitted to these schools.

(Question Serial No. 0014)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the following information with regard to higher education, secondary education, primary education, pre-primary education, special education and vocational education for 2016/17 to 2020/21:

- (a) items of one-off allocation under the General Revenue Account (GRA) and the amount involved;
- (b) items of non-recurrent grants/capital subventions under the GRA and the amount involved; and
- (c) funds under the management of the Education Bureau, and the total amount, amount of injection and operating cost of each fund in the past 10 years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 42)

Reply:

- (a) The one-off injections into the various funds under the General Revenue Account (GRA) are:

	Particulars	Area of Education	Amount Involved \$ million
2016-17	Injection for setting up the Gifted Education Fund	Other Educational Subsidies	800
2017-18	Injection into the Qualifications Framework Fund	Post-secondary, Vocational and Professional Education	1,200
2018-19	Injection for setting up the Student Activities Support Fund	Other Educational Subsidies	2,500
	Injection into the HKSAR Government Scholarship Fund	Post-secondary, Vocational and Professional Education	800
	Injection into the Gifted Education Fund	Other Educational Subsidies	800

There is no item of fund injection in the 2019-20 Revised Estimate and 2020-21 Estimate.

- (b) The non-recurrent grants/capital subventions items under GRA with significant cashflow in the years concerned by area of education are:

	2016-17 Actual \$ million	2017-18 Actual \$ million	2018-19 Actual \$ million	2019-20 Revised Estimate \$ million	2020-21 Estimate \$ million

Notes

- (1) To ensure quality and timely response to the question, we only provide the relevant information for the past 5 years.
- (2) The operating expenses directly covered by the funds are extracted from the audited financial statements of the respective school years. The Government also provides secretariat services and investment support to the funds. The relevant expenditures are subsumed under the expenses of EDB and other concerned departments, and cannot be separately identified.
- (3) The Education Development Fund came to a close at the end of the 2018/19 school year.
- (4) The injection into the Research Endowment Fund is covered by Head 190 – University Grants Committee under the GRA. An injection of \$20 billion into the Research Endowment Fund was approved in the 2018/19 academic year. Therefore, this injection has been regarded as grant receivable and included in the year-end balance in the audited financial statements of the Fund for the corresponding academic year.
- (5) The Gifted Education Fund was set up in 2016.
- (6) The Student Activities Support Fund was set up in 2019.

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the coverage of furniture and equipment costs for new school premises according to the Furniture and Equipment List for newly established schools, please provide the following information for the period from the 2014/15 to 2019/20 school years under the categories of primary school, secondary school and special school:

- (1) What are the principles for compiling the List? Which government bureaux/departments are involved?
- (2) In which year were the last comprehensive review and updating of the List undertaken?
- (3) What are the ceiling on the total cost set in accordance with the List, inflation rate, name of schools provided with the funding, number of classes operated by the schools and actual amount of disbursement in each of the school years?
- (4) Regarding the Administration's pledge to conduct a comprehensive review of the List, what is the progress and what review mechanism is in place?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 89)

Reply:

(1) and (3)

The Education Bureau (EDB) provides reference lists of furniture and equipment (F&E) for public sector ordinary primary and secondary schools to serve as general guidance on furnishing and equipping new school premises. Under the prevailing mechanism, the Government is responsible for the F&E cost for reprovisioning/redevelopment projects of existing schools, while that for a newly established school should be borne by the school sponsoring bodies concerned. In order to balance the need to ensure prudent use of public money through proper monitoring of the scope and hence the cost of F&E items on the one hand, and to provide sufficient flexibility for schools in procuring items that meet their school-based teaching and learning needs on the other, the aforementioned F&E lists seek to

set out the basic facilities and the associated reference costs for schools' reference when compiling their procurement list for seeking F&E subsidy from the Government. To cater for school-based needs, schools are free to procure F&E items not on the reference lists, provided that these items are justified by operational needs and in line with the cost-effective principle. The EDB annually adjusts the reference costs for the provision of F&E subsidy for primary and secondary schools with reference to the year-on-year change of the Composite Consumer Price Index (CCPI) for durable goods.

As regards special schools, facilities will be provided according to their type/scale of operation to suit students' varying needs. The amount of F&E subsidy for newly built special schools and their boarding sections (if any), irrespective of whether they are newly established schools or reprovisioned/redeveloped schools, will be determined by the EDB according to the schools' needs and circumstances of individual projects and submitted to the Financial Services and the Treasury Bureau for approval.

From 2014-15 to 2019-20, the reference total costs for the provision of F&E subsidy for 30-classroom primary and secondary schools and the year-on-year change of the CCPI for durable goods are set out in Table (1) below:

Table (1)

Financial year	Total amount of reference costs for provision of F&E subsidy (\$ million)		Year-on-year change of the CCPI for durable goods
	30-classroom primary schools	30-classroom secondary schools	
2014-15	2.795	6.302	-4.263%
2015-16	2.684	6.066	-3.956%
2016-17	2.538	5.735	-5.456%
2017-18	2.416	5.458	-4.831%
2018-19	2.347	5.303	-2.840%
2019-20	2.264	5.195	-2.042%

From 2014-15^(Note) to 2019-20, the amounts of non-recurrent F&E subsidy approved by the EDB for redeveloped or reprovisioned public sector primary and secondary schools (including special schools) and newly established special schools are set out in Table (2). Since the subsidy ceiling is subject to adjustment by deducting the total values of serviceable F&E items in the existing school, the subsidy received by each school might be different.

Table (2)

Year of approval	Project nature and name of school	No. of classrooms	F&E subsidy (\$ million)
2015-16	Reprovisioning of S.K.H. Yat Sau Primary School and S.K.H. Ching Shan Primary School) (merged and renamed as S.K.H. Holy Cross Primary School after reprovisioning)	30	2.684

2018-19	Reprovisioning of Pun U Association Wah Yan Primary School	24	2.221
	Reprovisioning of North Point Methodist Primary School	24	2.221
	Redevelopment of Ying Wa Girls' School	30	4.833
	Reprovisioning of the C.C.C. Mongkok Church Kai Oi School	12	1.944
2019-20	Reprovisioning of S.K.H. St John's Primary School (renamed as S.K.H. St. John's Tsang Shiu Tim Primary School after reprovisioning)	30	2.166
	Reprovisioning of Cognitio College (Kowloon)	30	5.067
	Reprovisioning of Tung Wan Mok Law Shui Wah School	16	2.167
	Construction of an annex to Baptist Lui Ming Choi Secondary School	8	0.592
	Hong Chi Shiu Pong Morninghope School	18	4.868

(Note): No relevant application was approved in 2014-15.

(2) and (4)

To tie in with the new senior secondary curriculum, the EDB updated the F&E list for secondary schools in 2009. Moreover, the F&E lists for public sector primary and secondary schools were updated in 2010 to reflect the changes made to the Schedule of Accommodation for public sector primary and secondary schools and the addition of tuck shop-cum-central portioning area to the standard provision of school facilities. It has been some time since the last comprehensive review of the reference F&E lists. We are now reviewing and updating the lists from the perspectives of curriculum development, school administration and development, etc., taking into account the prevailing learning and teaching needs, as well as actual F&E items procured for redevelopment and reprovisioning projects of public sector schools in recent years. We will consult the sector in due course.

For adult education, subsidies are provided to students through the Financial Assistance Scheme for Designated Evening Adult Education Courses under Head 173 Working Family and Student Financial Assistance Agency and are included as part of the recurrent expenditure of secondary education.

Notes

- Expenditure on vocational and professional education covers provision for the Vocational Training Council and related student financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.
- Expenditure on post-secondary education covers provision for Project Yi Jin, Yi Jin Diploma Programme, various programmes for degree or above and sub-degree education (excluding vocational and professional education) and related student financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.

The increase in expenditure in 2018-19 is mainly due to the disbursement made under the Hostel Development Fund (\$7.9 billion) and the one-off injections into the Research Endowment Fund (\$3 billion) and the HKSAR Government Scholarship Fund (\$800 million). The increase in expenditure in 2019-20 is mainly due to the one-off injection into the Research Endowment Fund (\$20 billion).

- Others include provision for home-school co-operation activities, school uniformed group activities, bureau support and other non-recurrent expenditure. The increase in expenditure in 2016-17 is mainly due to the establishment of the Gifted Education Fund (\$800 million). The increase in expenditure in 2018-19 is mainly due to the establishment of the Student Activities Support Fund (\$2.5 billion) and the one-off injection into the Gifted Education Fund (\$800 million).
- The sums of figures may not add up to total due to rounding.

5. Teacher training includes the Training and Development Grant provided to schools, costs of in-service and pre-service teacher training courses, refunds of course fees to teachers and teacher education programmes provided by University Grant Committee-funded universities. The related expenditure has been subsumed in the respective education area.

CONTROLLING OFFICER'S REPLY

EDB094

(Question Serial No. 0157)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) How many teachers were arrested for cases involving criminal offences in the past year? Please provide the number of arrests for each offence.

(2) Further to the above question, please provide the number of teachers involved in each criminal offence who are still under investigation, or have been given verbal/written warnings, or are transferred or suspended, or have their teacher registrations cancelled?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 17)

Reply:

(1) and (2)

The Education Bureau (EDB) attaches great importance to teachers' professional ethics and conduct. Teachers play a vital role in passing on knowledge and nurturing students' character and serve as an important role model for students. For teachers who are involved in illegal acts, they have to bear the legal responsibility and the EDB will follow up on the matter seriously in accordance with the Education Ordinance. To determine the necessary follow-up action for each case, we will consider comprehensively the case background and details, the impact on students and the education sector, and any representation made by the teacher concerned. Since the occurrence of social incidents in June 2019, the considerable reportage of teachers' suspected involvement in illegal acts has aroused widespread concern in the community. According to the information we have gathered from various channels, around 80 teachers (including teaching assistants) were arrested for involvement in social incidents between June and December 2019. Under the established mechanism, the EDB will review whether a teacher has misconducted himself/herself and his/her teacher registration status upon conclusion of trial by referring to the court documents and other obtainable information, regardless of whether the subject is convicted or not. Upon cancellation of teacher registration, the person concerned will not be allowed to teach in

schools. The cases of these arrested teachers are still under court proceedings, and the EDB will take follow-up actions as required by procedures in due course.

For the past year, the EDB does not have information regarding other cases in which teachers were arrested for suspected criminal offences.

CONTROLLING OFFICER'S REPLY

EDB095

(Question Serial No. 0158)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) How many complaints against the professional conduct of teachers have been received since June 2019? Of these, how many were anonymous and how many involved personal comments made by teachers on social media such as Facebook, Instagram and Twitter? Please give the number by nature of complaint: suspected dissemination of hate remarks, suspected provocative acts, suspected adoption of inappropriate teaching materials and suspected involvement in criminal offence. How many of these cases have also been filed by the Council on Professional Conduct in Education for investigation?

(2) What stipulations or codes did the Administration refer to when determining whether the personal comments in a case constituted hate remarks, provocative acts or a breach of teachers' professional conduct? Please quote the specific provisions.

(3) In his reply to a question raised at the Legislative Council meeting on 8 January, the Secretary for Education said that "our society has its moral bottom lines and consensus on how 'hate remarks' and 'provocative acts' are defined and they are recognised and observed across different sectors such as the education, media and legal professions, and by the community at large as well." However, hate remarks and provocative acts are not clearly defined in the Laws of Hong Kong and education-related regulations. Upon finishing investigation into certain cases or meting out punishment accordingly, will the Administration consider publicising remarks or acts that have been judged rule-breaking for the reference of the general public on condition that the identity of the subjects would not be revealed? If members of the public or the teachers punished perceive that the Administration's definition of hate remarks or provocative acts in individual cases has deviated from the moral bottom lines or the consensus of the community, will the Administration have the cases in question re-examined under a review or appeal mechanism?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 20)

Reply:

(1) From June 2019 to end of January 2020, the Education Bureau (EDB) received 171 complaints about suspected professional misconduct of teachers. Given the extensive coverage of these complaints and unique nature of various cases, with quite a number of them involving multiple allegations, we do not categorise the complaints by types. Roughly speaking, the majority of these 171 cases are related to teachers making hate messages or cursing people, while the rest are about the use of extremely indecent language or foul language in insulting people; use of inappropriate teaching materials; suspected engagement in illegal activities, etc. Most of the complaints were made through emails. While the complainants' email addresses were known, we are unable to confirm whether the names of the complainants are real. Notwithstanding this, as the words and deeds of teachers have a direct impact on students, the EDB has the responsibility to seriously follow up the complaints, even they are made anonymously, if the allegations obviously fail to meet the moral standards as acceptable to the general public, risk safety, or harm the healthy development of students. Hence, we also do not categorise the complaints by whether they are anonymous.

The Council on Professional Conduct in Education (CPC) is an advisory body with one of its tasks to advise the Permanent Secretary for Education on complaint cases of professional misconduct involving educators, including the proposed sanctions. Regarding the handling of complaint cases, the EDB and the CPC each have its own mechanism and procedures. There is no mechanism, nor are we prepared, to cross-check or double-check the complaint cases received by both parties and the identity of the persons involved. Besides, as complaint cases involve personal data, all particulars should be kept in confidence. We are thus unable to give the number of cases under investigation by both the EDB and the CPC.

(2) Upon receiving complaints alleging teachers to have violated the professional conduct, the EDB will conduct investigation according to the established procedures. Each decision is made after fully considering the facts, evidence and representations from the teacher, and in accordance with Section 47 of the Education Ordinance. Section 47 of the Education Ordinance specifies the grounds for cancelling the registration of a teacher, including the grounds for refusal to register a teacher as specified in Section 46; whether the teacher is incompetent; whether the teacher has contravened any provision of the Education Ordinance; whether the teacher has behaved in any manner which constitutes professional misconduct; or whether the teacher has behaved in any manner which is prejudicial to the maintenance of good order and discipline in the school in which the teacher teaches. Indeed, to live up to public expectations for their values and moral standards, professional educators should appreciate the impact of their every word and deed on the minds and virtues of students, should show respect for the law and the behavioural norms acceptable to society, and should do their best to uphold the honour, dignity and morality of the teaching profession. These are clearly stipulated in the Code for the Education Profession of Hong Kong. Moreover, the Professional Standards for Teachers of Hong Kong states that teachers should be committed role models of professionalism; they should uphold public trust in the profession and maintain high standards of ethics and behaviour within and outside school to realise the core professional values. The EDB believes that all educators have a thorough understanding of the required professional ethics and the moral standards acceptable to society.

(3) In determining whether a teacher is involved in professional misconduct, we will consider the matter from a professional perspective, focusing on whether the acts in question conform to the professional ethics, whether the teacher concerned has violated social expectations and whether the values so demonstrated will have an adverse impact on the teaching profession or students. We do not agree that professional misconduct cases should be made public for comments. Apart from the privacy concern, the uniqueness of each case makes it unfair to allow the general public, who does not possess a complete set of information, to comment on the cases. Nevertheless, among the cases handled by the EDB, some can be adopted for teacher reflection. From the perspective of professional development, we will make reference to the contents of some cases to design reflective questions in relevant professional development courses to enhance the ethical standards of teachers.

Should a teacher alleged to have breached professional conduct disagrees with the findings of the EDB's investigation, he/she can lodge an appeal following the established practices. If the teacher concerned does not agree with the EDB's decision to cancel his/her teacher registration, he/she may, within 21 days after the service of the notice informing him/her of the decision of the Permanent Secretary and the grounds for making such a decision, appeal to the Appeal Board by delivering a notice of appeal in accordance with Section 61 of the Education Ordinance. If there is any objection to the advisory letter, warning letter or reprimand letter received, the teacher concerned may submit his/her views to the EDB. In the past 6 months, members of the public have expressed their opinions on our handling of teachers' breach of professional conduct. We will continue to listen to these comments and sum up our experience in a timely manner to safeguard the quality of education in Hong Kong.

(a) For the 2019/20 school year, please provide the numbers of aided primary and secondary schools that have filled permanent posts within their approved teaching establishment by teachers on defined contract period (DCP) terms, and the numbers of such contract teachers. Please tabulate the figures by school district (primary and secondary schools) and school type (special schools):

Table 1: Aided Secondary Schools

EDB school district	No. of aided secondary schools within the district	Employment of teachers on DCP terms to fill permanent posts within the approved teaching establishment (aided secondary schools)	
		No. of schools	No. of contract teachers
School district			
Total			
Cumulative total in the territory			

Table 2: Aided Primary Schools

EDB school district	No. of aided primary schools within the district	Employment of teachers on DCP terms to fill permanent posts within the approved teaching establishment (aided primary schools)	
		No. of schools	No. of contract teachers
School district			
Total			
Cumulative total in the territory			

Table 3: Special Schools

EDB school district	No. of aided special schools within the district	Employment of teachers on DCP terms to fill permanent posts within the approved teaching establishment (aided special schools)	
		No. of schools	No. of contract teachers
School district			
Total			
Cumulative total in the territory			

(b) Among teachers employed on DCP terms to fill permanent posts within the approved teaching establishment in the 2019/20 school year, what are the average and longest lengths of service on the same post in the same school?

(c) Please provide a breakdown of the number of teachers employed on DCP terms to fill permanent posts within the approved teaching establishment in primary, secondary and special schools and their year-on-year changes from the 2015/16 to 2019/20 school years; and

(d) Using the table below, please compare the numbers of regular teachers on DCP terms in primary, secondary and special schools between the 2018/19 and 2019/20 school years:

Table 4: Secondary Schools

Comparison between the 2018/19 and 2019/20 school years	No. of schools	No. of regular teachers on DCP terms in the 2018/19 school year	No. of regular teachers on DCP terms in the 2019/20 school year
No. of regular teachers on DCP terms			
Increased			
Unchanged			
Decreased			

Table 5: Primary Schools

Comparison between the 2018/19 and 2019/20 school years	No. of schools	No. of regular teachers on DCP terms in the 2018/19 school year	No. of regular teachers on DCP terms in the 2019/20 school year
No. of regular teachers on DCP terms			
Increased			
Unchanged			
Decreased			

Table 6: Special Schools

Comparison between the 2018/19 and 2019/20 school years	No. of schools	No. of regular teachers on DCP terms in the 2018/19 school year	No. of regular teachers on DCP terms in the 2019/20 school year
No. of regular teachers on DCP terms			
Increased			
Unchanged			
Decreased			

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 1)

Reply:

The posts within the approved teaching establishment of aided schools are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. Schools should not employ regular teachers on defined contract period (DCP) terms unless they have actual operational needs and cogent reasons. Our response to the 4 parts of the question is as follows:

- (a) The number of regular teachers on DCP terms to fill regular posts in aided secondary and primary schools in the 2019/20 school year is at Annexes 1 and 2 respectively. The Education Bureau (EDB) does not have any information on teachers employed on DCP terms by special schools.
- (b) Among the 807 regular teachers on DCP terms in aided secondary and primary schools in the 2019/20 school year, the average length of service as regular teachers on DCP terms in their existing schools is 1.6 years (up to the end of the 2019/20 school year), and the longest service is 10 years.
- (c) Statistics on the number of regular teachers on DCP terms in aided secondary and primary schools from the 2015/16 to 2019/20 school years are as follows:

	No. of regular teachers on DCP terms (compared with the previous school year)				
	2015/16	2016/17	2017/18	2018/19	2019/20
Aided Secondary Schools	878	819 (-59)	845 (+26)	707 (-138)	477 (-230)
Aided Primary Schools	388	343 (-45)	413 (+70)	409 (-4)	330 (-79)

- (d) Comparison of the number of regular teachers on DCP terms in aided secondary and primary schools between the 2018/19 and 2019/20 school years is at Annexes 3 and 4 respectively.

CONTROLLING OFFICER'S REPLY

EDB097

(Question Serial No. 0160)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding graduate teachers and certificated masters/mistresses employed by public sector schools:

(a) Pursuant to the enhancement of the ratio of graduate teacher posts in public sector primary schools from 50% to 55% and 60% in the 2015/16 and 2016/17 school years respectively, the Education Bureau (EDB) further enhanced the ratio to 65% in the 2017/18 school year and implemented in one go the all-graduate teaching force policy in public sector primary and secondary schools in the 2019/20 school year. Schools may, taking into account their school-based circumstances, achieve full implementation in 2 years. Would the EDB please list by type of school (special school) the number of public sector primary and secondary schools which enhanced the ratio of graduate teacher posts to 100%, 90%-99%, 80%-89%, 70%-79%, 65%-69%, 60%-64%, 55%-59%, 50%-54%, 45%-49%, 40%-44% and less than 40% from the 2015/16 to 2019/20 school years? In respect of the schools whose ratio of graduate teacher posts is still less than 75%, how many have been requested by the EDB to give reasons for that and fill the graduate teacher posts as soon as possible?

(b) What is the respective number, percentage, median age, median length of teaching service and wastage rate of, and the total number of teachers appointed as graduate teachers and certificated masters/mistresses in public sector primary, secondary and special schools from the 2015/16 to 2019/20 school years? In respect of the latter, the number, percentage, median age, median length of teaching service and wastage rate of those with a recognised degree?

(c) Has the EDB devised long-term plans to resolve discrepancy in remuneration between graduate teachers in primary schools and graduate teachers in secondary schools, and rationalise the salaries for principals and vice-principals in primary schools? If yes, what are the details and estimated expenditures involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 2)

Reply:

(a) The Government has increased the ratio of graduate teacher posts in public sector schools multiple times. The ratio of graduate teacher posts in public sector secondary schools has been increased to 85% in the 2009/10 school year, and the ratio of graduate teacher posts in public sector primary schools has been increased to 65% in the 2017/18 school year. In the 2019/20 school year, the Government implemented the all-graduate teaching force policy in public sector primary and secondary schools by increasing the ratio of graduate teacher posts to 100% in one go. Schools may, taking into account their school-based circumstances, achieve full implementation in 2 years starting from the 2019/20 school year. To our understanding, most schools have filled up their graduate teacher posts as far as possible. Reasons for graduate teacher posts not being fully filled include serving teachers not possessing a local bachelor's degree (or equivalent) or not willing to assume the professional duties of a graduate teacher, etc. Schools should continue to encourage teachers to attain the recognised qualifications as early as possible and to shoulder the duties of a graduate teacher. The fill-up rate of graduate teacher posts in public sector schools by school type from the 2015/16 to 2019/20 school years is tabulated below:

Primary schools (government and aided) and secondary schools (government, aided and caput)

School year	Fill-up rate of graduate teacher posts	
	Primary school (government and aided)	Secondary school (government, aided and caput)
2015/16	83%	99%
2016/17	80%	99%
2017/18	74%	99%
2018/19	80%	100%
2019/20* (Estimate)	96%	98%

Special schools

School year	Fill-up rate of graduate teacher posts	
	Primary section of special school	Secondary section of special school
2015/16	66%	78%
2016/17	60%	81%
2017/18	55%	81%
2018/19	58%	85%
2019/20* (Estimate)	93%	97%

* Ratio of graduate teacher posts increased to 100%

The EDB officers will, through daily interactions with school sponsoring bodies and school management, urge schools to optimise the use of available resources and fully utilise all graduate teacher posts.

(b) From the 2015/16 to 2019/20 school years, the numbers, percentages, median ages, numbers and rates of wastage of teachers appointed as graduate teachers and non-graduate teachers in public sector schools are as follows:-

Primary schools (government and aided)

School year	Graduate teacher					Non-graduate teacher				
	No. of teachers*	%	Median age	No. of wastage*	Wastage rate (%)^	No. of teachers*	%	Median age	No. of wastage*	Wastage rate (%)^

	No. of teachers*	%	Median age	No. of wastage*	Wastage rate (%)^	No. of teachers*	%	Median age	No. of wastage*	Wastage rate (%)^
2015/16	840	49.6	42	40	4.6	860	50.4	34	80	9.0
2016/17	860	51.2	42	30	3.6	820	48.8	35	90	10.5
2017/18	940	50.9	42	40	4.4	910	49.1	34	80	9.3
2018/19	990	52.7	42	60	6.6	890	47.3	34	100	10.5
2019/20 (Estimate)	1 850	95.0	39	50	5.3	100	5.0	42	80	9.0

From the 2015/16 to 2019/20 school years, the respective numbers, percentages, median ages and wastage rates of non-graduate teachers with degree qualifications (degree holders) in public sector schools are as follows:-

Primary schools (government and aided)

School year	Non-graduate teacher			
	No. of degree holders*	%	Median age	Wastage rate (%)^
2015/16	10 770	93.9	36	4.9
2016/17	10 740	94.4	36	5.1
2017/18	11 390	95.0	36	4.0
2018/19	11 280	95.5	35	5.3
2019/20 (Estimate)	1 520	77.6	32	5.3

Secondary schools (government, aided and caput)

School year	Non-graduate teacher			
	No. of degree holders*	%	Median age	Wastage rate (%)^
2015/16	4 590	93.1	32	7.5
2016/17	4 490	93.6	33	6.8
2017/18	4 410	94.3	33	6.0
2018/19	4 300	94.6	33	5.8
2019/20 (Estimate)	840	80.4	30	5.8

Special schools

School year	Non-graduate teacher			
	No. of degree holders*	%	Median age	Wastage rate (%)^
2015/16	800	94.0	34	8.3
2016/17	780	94.5	34	10.3
2017/18	870	95.4	34	9.8
2018/19	850	95.4	34	10.6
2019/20 (Estimate)	70	69.1	36	8.6

* Numbers are rounded to the nearest 10.

^ “Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers concerned as at mid-September of the preceding school year.

“Drop-out teachers” refer to the teachers who were serving in a school as at mid-September of the preceding school year but were no longer serving in any primary, secondary or special school as at mid-September of the school year concerned.

As the EDB does not gather information on teachers’ length of teaching service, statistics on median length of teaching service are unavailable.

(c) The Government is committed to enhancing the quality of education in Hong Kong. Over the years, we have improved the provision of resources for schools and teaching staff on a need basis in light of the challenges facing schools and the demand for quality education in the community.

The Task Force on Professional Development of Teachers (Task Force) set up by the Government in late 2017 submitted its report in March 2019 to make recommendations on promoting professional development of teachers and enhancing the professional status of teachers. The Government has accepted all the recommendations of the Task Force. Among these recommendations, the all-graduate teaching force policy has been implemented since the 2019/20 school year. The policy accords recognition to teachers with a bachelor’s degree and raises their professional roles and functions to further improve the quality of education. The additional funding involved is about \$1.5 billion per annum. In addition, regarding the report’s recommendations to rationalise the salaries for principals and vice-principals in public sector primary schools and improve the manpower at the middle management level in public sector primary schools, the Government has consulted the Panel on Education and Establishment Subcommittee of the Legislative Council (LegCo) on the recommendations to seek funding approval in accordance with the established procedures. We will continue to seek funding approval from the Finance Committee of the LegCo.

Given the varied development in different teaching grades, the pay level of primary and secondary school teachers is determined in light of the situation of the respective grades. Since primary schools and secondary schools differ in terms of curriculum and operation, diversity in curriculum planning, students’ educational and development needs, complexity of public examination systems, students’ multiple pathways, etc., the job nature, duties and grade structure of primary school teachers and that of secondary school teachers are not the same. It is inappropriate to make direct comparison. We have no plan to review the remuneration package of primary and secondary school teachers at this stage.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0161)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding demographic changes in student population, small class teaching (SCT) and the arrangement for allocating more students per Primary 1 (P1) class:

- (a) By school net in each district and the territory from the 2015/16 to 2020/21 school years, please give a breakdown:
- (1) of the number of primary schools implementing SCT with a class size of 25 and their percentage share of the total number of primary schools in the respective districts, the total numbers of primary schools, school places and students in respective districts, and the total numbers of schools, schools implementing SCT, P1 places and P1 students in each school net;
 - (2) of the number of schools implementing SCT which have been temporarily allocated more students per P1 class, their respective class sizes upon allocation, their percentage share of the total number of primary schools in the respective districts, the number of students involved, as well as the total number of students involved in the respective districts;
 - (3) of the number of schools which have not implemented SCT in the territory and by district, their percentage share in the total number of primary schools in the respective districts, and the total number of primary schools in the respective districts;
 - (4) of the respective numbers of school-age students attending P1 and Secondary 1 (S1) classes by school net and in the territory;
- (b) What is the number of schools implementing SCT which have been allocated more students per P1 class from the 2015/16 to 2019/20 school years? What was the additional expenditure involved? Please provide a breakdown of the expenditure. What are the relevant estimated figures for the 2020/21 school year?

- (c) Regarding classrooms for additional P1 classes, how many schools and classes have made use of existing vacant classrooms? How many of them were converted from special rooms/activity rooms? How many of them were constructed for operating additional P1 classes?
- (d) What is the total expenditure for the provision of Additional Supplementary Learning Grant (ASLG) for schools allocated with more students per P1 class so far? Will EDB review the computation of the ASLG, such as deciding the amount of grant on the basis of the number of additional students allocated? If there is no plan for such a review, what are the reasons?
- (e) Please provide the P1 and S1 school-age population in the territory, by school net and by district from the 2020/21 to 2029/2030 school years;
- (f) Does EDB plan to implement measures similar to the “targeted relief measures” implemented in secondary schools in view of the fluctuation of primary school-age population? If yes, what are the timetable and estimated expenditure involved? If no, what are the reasons?
- (g) Does the Administration plan to strengthen its support for SCT in primary schools and implement SCT at junior secondary level as the primary and secondary school-age population decline? If yes, what are the timetable and estimated expenditure involved? If no, what are the reasons?
- (h) Does the Administration plan to carry out studies to draw up a systematic, robust and effective adjustment mechanism to cope with changes in primary and secondary student population in the long run? If yes, what are the timetable and estimated expenditure involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 3)

Reply:

- (a)(1) and (3) The number of public sector primary schools in the territory and in each district, the number of schools implementing small class teaching (SCT) (i.e. those allocated 25 students per Primary One (P1) class under the Primary One Admission (POA)) and their percentage share, the number of schools maintaining 30 students per P1 class under the POA and their percentage share, the total number of P1 places, the total number of P1 students, the total number of primary school places and the total number of primary students from the 2015/16 to 2019/20 school years are tabulated at Annex A. 2 public sector primary schools in North District will start implementing SCT from P1 in the 2020/21 school year. As school places and student information for the 2020/21 school year can only be confirmed after the student headcount every September, figures for the school year concerned are not yet available. The P1 school nets provide a basis for allocation of school places in Part B of the Central Allocation stage under the POA. According to the existing arrangements, the provision of public

sector primary school places is planned on a district basis. As statistics on the number of school places and students have always been collected on a district basis, a breakdown of such figures by school net is not available.

- (a)(2) and (b) Over the past few years, the Education Bureau (EDB) has adopted flexible measures based on the consensus it has reached with the school sector. Such measures include temporarily allocating more students to each P1 class to increase the supply of school places flexibly. The number of schools implementing SCT that have been temporarily allocated more students per P1 class under the POA to meet the transient increase in demand from the 2015/16 to 2019/20 school years, their percentage share in the total number of primary schools in the respective districts, the number of students involved, as well as the relevant figures estimated for the 2020/21 school year are tabulated at Annex B.
- (a)(4) The respective numbers of students attending P1 and Secondary 1 (S1) classes in each district from the 2015/16 to 2019/20 school years are tabulated at Annex C. The relevant figures for the 2020/21 school year are not yet available.
- (c) Regarding districts/school nets where each P1 class was temporarily allocated more students from the 2015/16 to 2018/19 school years, 2 and 4 schools changed the use of their other rooms for operation of a total of 2 and 4 additional P1 classes in the 2015/16 and 2016/17 school years respectively. No special/activity rooms were involved. For the 2017/18 and 2018/19 school years, 16 and 33 schools applied respectively for conversion/construction of 24 and 53 temporary classrooms and complementary facilities as appropriate for operating additional P1 classes subject to the actual demand under the Central Allocation. With the overall demand for P1 places on the decline after reaching the peak in the 2018/19 school year, EDB has no plan to convert/construct temporary classrooms in the 2019/20 and 2020/21 school years.
- (d) Under the prevailing arrangements, when schools implementing SCT are required to temporarily increase the number of students to 30 per P1 class for the Central Allocation, EDB will provide eligible schools with a time-limited additional Assistant Primary School Master/Mistress (APSM) post for the cohort of students concerned for a period of 6 years (during which that cohort will complete six-year primary education in the school). This is in line with the provision of additional APSM posts by phases for schools maintaining 30 students per P1 class upon the progressive implementation of SCT from P1 in public sector primary schools since the 2009/10 school year. In case where the number of students allocated to each P1 class of a school (including schools implementing SCT) exceeds 30, EDB will provide the schools concerned with additional funding for the additional school places of the 31st student or those beyond according to the headcount in mid-September for the cohort of students concerned for a period of six years.

On top of the above-mentioned enhanced support, EDB has, starting from the 2015/16 school year, provided schools implementing SCT with the Additional Supplementary Learning Grant (ASLG) when they are temporarily allocated with more students per P1 class. According to the result of the headcount in mid-September, EDB will provide the ASLG to schools when the average number of students per P1 class of the school reaches 28 or above. For that cohort of students concerned, the ASLG would be provided to the additional school places of the 26th to the 30th students, capped at the number of students temporarily allocated, per P1 class for a period of 6 years. The breakdown of the expenditure from the 2015/16 to 2019/20 school years and the estimated expenditure for the 2020/21 school year are tabulated at Annex D. There is no plan to review or revise the eligibility criteria of the ASLG.

- (e) The projected school-age population aged 6 and 12 who are residing in Hong Kong from the 2020/21 to 2029/30 school years is tabulated at Annex E. The projection is made with reference to the “Hong Kong Population Projections 2017-2066” released by the Census and Statistics Department in September 2017 and the “Projections of Population Distribution 2019-2028” released by the Planning Department in July 2019. As the projected figures have always been compiled on a district basis, a breakdown of such figures by school net is not available. At the moment we do not have a projection by district for the 2029/30 school year and no relevant data is available.
- (f) and (h) Based on the existing data, there has been a gradual rebound in the overall population of S1 students since the 2017/18 school year. As the distribution of schools is uneven and the number of classes operated by individual schools is subject to various factors (e.g. the choices of parents and the mobility of students, etc.), while expecting the overall S1 student population to rebound gradually, EDB will continue with some of the targeted relief measures previously implemented. These measures include reducing the basis for calculating the number of approved S1 classes to 25 students per class, relaxing the “not less than 3 S1 classes” requirement under which schools with 2 approved S1 classes are not required to apply for any school development option, allowing schools with S1 classes reduced to 1 or 2 to participate in the next Secondary School Places Allocation (SSPA) with a cap of 3 S1 classes. The above measures will continue to take effect in the coming few years. Meanwhile, we will continue to explore the need for other measures to support individual affected schools when necessary. Furthermore, to address the projected increase in the demand for S1 places, EDB and the sector met and reached a consensus in October 2017 on the framework of direction and strategies for tackling the issue, i.e. adopting the established netting arrangements for SSPA, progressively reverting the allocation class size to 34 students upon the rebound of the S1 student population (“place reinstating”), as pledged by the sector prior to the implementation of the targeted relief measures, and increasing the number of S1 classes in districts with a shortfall in school places even after adopting the netting arrangements and “place

reinstating”, so as to ensure a sufficient supply of S1 places every year to meet the demand. On the consensus previously reached with the sector, we will continue to review the projected demand for school places having regard to the latest data available before the commencement of annual SSPA exercise and hold discussions with the sector on the SSPA arrangements to be adopted for the cycle concerned.

As for primary schools, according to the current projection of P1 school-age population, the overall demand for P1 places will gradually reach a stable level from the 2020/21 school year after a significant drop in the 2019/20 school year. However, given the continued rise in P1 student population over the past few years, it is expected that the overall number of primary students will remain stable in the next few years. As such, the total number of approved classes in public sector primary schools and teaching posts on their approved staff establishment will also remain generally stable. Over the past few years, in coping with the transient increase in demand for P1 places, EDB has, on the consensus reached with the sector, avoided constructing new schools to meet such transient demand as far as possible. This is to lessen the impact on the stable development of primary schools when the demand for school places subsides. Premising on the sustainable development of existing schools, we have adopted flexible arrangements to increase the provision of P1 places to cope with the transient increase in demand. Following the drop of P1 school-age population from the 2019/20 school year, the flexible measures in place will be adjusted or withdrawn in light of the demand as planned, and this will help alleviate the impact of a declining P1 student population on schools.

Given the changes in P1 school-age population in the coming few years, individual schools may be affected by the diminishing demand for school places in their respective district. EDB has implemented targeted relief measures starting from the 2019/20 school year to maintain a stable teaching force and to facilitate the sustainable development of schools. These measures include:

- (i) Aided schools are allowed to apply on an annual basis for retaining their redundant teachers arising from class reduction for the next school year due to the decline of P1 student population, up to a maximum of 3 school years, provided that their redundant teachers cannot be absorbed through the prevailing mechanism for handling redundancy or are unable to secure a teaching post in another school; and
- (ii) Starting from P1 in the 2019/20 school year, the basis for calculating the number of approved classes will be adjusted downward from the existing 25 students per class to 23 students per class if a school has redundant teachers arising from reduction of classes according to the student headcount in September. The adjusted basis will be extended progressively to P6 together with that cohort of students to

further enhance the stability of the number of approved classes and hence the regular teaching posts in schools.

EDB recognises stakeholders' different concerns about the planning of school places, and will continue to keep in view the changes in student population and maintain close communication with the sector, so as to balance the concerns of different stakeholders and maintain the overall quality of education while supporting schools' sustainable and stable development and ensuring effective use of resources.

As the expenditure on the above measures to cope with the changes in primary and secondary student population is subsumed under the overall expenditure of EDB, separate figures are not available to indicate the estimated expenditure in this regard.

- (g) SCT is more of a teaching strategy involving teaching setting or grouping driven by pedagogical considerations with the objective of enhancing learning and teaching. Schools should, having regard to learning objectives and students' needs, optimise the use of SCT to encourage class interaction. To support teachers in making an effective use of the small class environment, EDB has organised various professional development activities, which include building learning communities and learning circles; and organising seminars, workshops and experience sharing sessions. These activities seek to help teachers devise appropriate pedagogical strategies and apply different teaching modes in an SCT environment. The current policy of implementing SCT progressively in public sector primary schools, where circumstances permit, will remain unchanged. At present, around 80% of public sector primary schools have implemented SCT. According to the current projection of P1 school-age population, the overall demand for P1 places is expected to gradually reach a steady level from the 2020/21 school year after registering a peak in the 2018/19 school year and a significant drop in the 2019/20 school year. EDB shares the view of the school sector that this will create favourable conditions for more schools to implement SCT. EDB has therefore issued letters to invite all schools that have not yet implemented SCT to plan and make preparation early so that they can implement SCT as soon as the supply and demand of school places allow.

In considering whether to implement SCT at junior secondary level, we should take into account the current conditions of secondary schools and their learning and teaching environment, as well as the support they may receive. Overseas experience, international studies on implementation of SCT and their findings, and resource distribution also need to be factored in. We must assess whether it is effective, feasible and sustainable for secondary schools, as with primary schools, to reduce their class size across the board. International studies have suggested that SCT is most effective when students are of a younger age and its effectiveness tends to wane with students' age. We have no plan to implement SCT at junior secondary level having regard to the aforementioned considerations.

**Total number of students and school places in public sector primary schools

- Notes: 1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include public sector, Direct Subsidy Scheme, private and international ordinary secondary day schools, but not special schools.
3. School districts are delineated by the District Council districts of the school premises. Starting from the 2019/20 school year, the districts for schools with decanting premises are based on the District Council districts of the original premises.

**Estimated additional expenditure for
schools implementing SCT and temporarily allocated more students per P1 class
from the 2015/16 to 2020/21 school years**

Breakdown of additional expenditure	2015/16 school year (Note 1) (\$ million)	2016/17 school year (Note 1) (\$ million)	2017/18 school year (Note 1) (\$ million)	2018/19 school year (Note 1) (\$ million)	2019/20 school year (Note 1) (\$ million)	2020/21 school year (Notes 1&2) (\$ million)
Provision of time-limited additional APSM posts for the cohort of students concerned for a period of 6 years (Note 3)	32.1	44.1	62.6	113.2	122.6	86.2 (estimate)
Provision of additional funding for each additional student beyond the 30 th in each P1 class for the cohort of students concerned for a period of 6 years	6.7	13.1	33.5	48.5	43.7	42.6 (estimate)
Provision of Additional Supplementary Learning Grant for the cohort of students concerned for a period of 6 years	7.5	19.0	39.2	75.1	88.7	108.7 (estimate)
Total:	46.3	76.2	135.3	236.8	255.0	237.5 (estimate)

Notes:

1. The number of schools implementing SCT and temporarily allocated more students per P1 class to meet the projected transient increase in demand in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 school years and the estimated number of schools for the 2020/21 school year are at [Annex B](#).
2. The situation of the 2020/21 school year is an estimation based on the number of POA applicants as at late January 2020.
3. The additional cost for provision of the time-limited additional APSM posts is based on the prevailing mid-point salary of the APSM post.

- Notes
- The projected figures on school-age population residing in Hong Kong are compiled with reference to the 2016-based Population Projections released by the Census and Statistics Department in September 2017 and the “Projections of Population Distribution 2019-2028” released by the Planning Department in July 2019. The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures.
 - Children aged 6 are considered appropriate for primary education (i.e. Primary 1).
 - Figures refer to the projected number of local children (i.e. Hong Kong usual residents) aged 6 residing in the districts concerned. The projected figures should not be taken as the projected number of students attending schools in the districts concerned. The latter would be affected by the prevailing distribution of school places, demand for school places and parental choices. Students under or over the age of 6 may also enrol for primary education (i.e. Primary 1).
 - Figures are rounded to the nearest hundred and may not add up to the respective totals due to rounding.
 - Projected figures by district for the 2029/30 school year are not available.

(Question Serial No. 0162)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the Student Guidance Service Grant for primary schools, please provide the following information:

(a) the total expenditure on the Student Guidance Service Grant from the 2015/16 to 2019/20 school years and the estimated expenditure for the 2020/21 school year;

(b) please tabulate the total number of primary schools that applied and did not apply for the Student Guidance Service Grant, their percentage share among all primary schools in the territory, and the total number of primary schools in the territory from the 2015/16 to 2019/20 school years;

(c) the number of government and subsidised primary schools that were provided with Student Guidance Officer, Student Guidance Teacher, social worker and Student Guidance Service Grant (including Top-up Grant), and the expenditure incurred each year from the 2015/16 to 2019/20 school years; and

(d) given that the high annual wastage of guidance teachers has affected the continuity of guidance but the demand for the guidance services from primary schools has been increasing day after day, when will the Education Bureau draw up plans to improve, review and expand the abovementioned services, such as considering a "1+1" guidance model (i.e. one guidance teacher and one social worker for each school). If yes, what is the total estimated expenditure? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 4)

Reply:

(a) to (d)

The number of public sector primary schools provided with Student Guidance Officer, Student Guidance Teacher, social worker (including Assistant Social Work Officer, School Social Work Service Grant (SSWSG) and Consultation Service Grant (CSG)) or Student Guidance Service Grant, their percentage shares and total expenditure from the 2015/16 to 2020/21 school years are as follows:

Student Guidance Services Provided		2015/16 School Year	2016/17 School Year	2017/18 School Year	2018/19 School Year	2019/20 School Year (Estimate)	2020/21 School Year (Estimate)

	Total Expenditure (\$ million)	5.9	6.1	4.4	3.9	3.5 (Estimated Expenditure)	3.5 (Estimated Expenditure)
Student Guidance Teachers	Number of Schools (percentage share)	125 (28%)	121 (27%)	119 (26%)	113 (25%)	105 (23%)	105 (23%)
	Total Expenditure (\$ million)	88.1	90.1	91.0	90.7	97.7 (Estimated Expenditure)	97.7 (Estimated Expenditure)
Student Guidance Service Grant	Number of Schools (percentage share)	317 (70%)	323 (71%)	328 (72%)	114 (25%)	36 (8%)	12 (3%)
	Total Expenditure (\$ million)	157.3	168.3	181.4	65.0	21.4 (Estimated Expenditure)	7.2 (Estimated Expenditure)
Top-up Student Guidance Service Grant	Number of Schools	452 (99%)	454 (100%)	454 (100%)	445 (98%)	439 (96%)	436 (96%)
	Total Expenditure (\$ million)	68.3	71.3	72.9	104.4	114.0 (Estimated Expenditure)	116.7 (Estimated Expenditure)
Social workers* (including Assistant Social Work Officers, SSWSG and CSG)	Number of Schools	-	-	-	223 (49%)	309 (68%)	333 (73%)
	Total Expenditure (\$ million)	-	-	-	172.0	250.7 (Estimated Expenditure)	270.3 (Estimated Expenditure)

* The Government has been progressively implementing the policy of “one school social worker for each school” starting from the 2018/19 school year.

All primary schools have been required to provide a school-based, holistic and integrated guidance service under the Comprehensive Student Guidance Service (CSGS) implemented since the 2002/03 school year. Currently, teachers are working in collaboration with student guidance personnel and professionals to provide remedial, preventive and developmental guidance services for all students. This Whole School Approach helps the establishment of a robust student guidance system for sustainable service, while minimising the impact arising from turnover of individual staff members.

The Government has made continuous efforts to enhance the student guidance service in primary schools. To further enhance the student guidance service in primary schools, a Top-up Student Guidance Service Grant (Top-up Grant) has been provided for all public sector primary schools with 5 or more classes by the Education Bureau (EDB) starting from the 2012/13 school year.

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. The new measure is implemented on the basis of the CSGS to provide schools with more resources so that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualifications to further enhance the overall quality of guidance service. Under the new funding mode, schools may, having regard to their own circumstances, create a regular Assistant Social Work Officer post to increase stability or receive an equivalent subsidy to employ a school-based registered graduate social worker or hire service of a school-based registered graduate social worker from a social work service provider. Schools are also provided with the CSG to procure consultation, supervision or other support services for school social workers to ensure service quality. Besides, the original Top-up Grant is enhanced so that all public sector primary schools have more resources to enhance school social work and guidance services. For primary schools currently employing Student Guidance Teachers, they can continue with the existing arrangements. In the 2019/20 school year, 309 public sector primary schools have switched to the new funding mode. The estimated total expenditure on student guidance service under the old funding mode and the new funding mode is \$487 million. It is expected that 333 public sector primary schools will switch to the new funding mode in the 2020/21 school year and the estimated total expenditure on student guidance service under the old funding mode and the new funding mode is \$495 million.

We will continue to collect data and views by such means as questionnaire surveys, school visits and meetings with the education sector to review the mode of collaboration between student guidance personnel /social workers and Student Guidance Teachers, and will maintain communication with stakeholders and heed their views and suggestions on the best way to provide social work and guidance services for students and render effective support to them.

(e) The dates of meetings, the total number of members and the attendance rate of members at each meeting since the establishment of the Coordinating Committee on Basic Competency Assessment and Assessment Literacy and its working groups;

(f) The detailed information of research projects commissioned by the Government from the 2014/15 to 2019/20 school years which used TSA results (including those of P3, P6 and S3 students) provided by the Government or with the Government's authorisation. For each of these projects, please provide the title of the project, name of the person in charge (and his/her title held in the organisation), commencement year, estimated duration, objectives, details and methodology of the project, as well as the amount and uses of public funds involved; and

(g) Does the Bureau plan to canvass the view of stakeholders, including school teachers and parents, on the implementation of P3 TSA? If yes, when will the consultation be carried out? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 5)

Reply:

(a)

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment (BCA) project, including Student Assessment (SA) (2017 and before) and Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Accepted the recommendations of the Committee, the EDB has conducted Primary 3 TSA as a low-stake assessment on a sampling basis starting from 2018. These initiatives have been carried out under the BCA project and the payment according to terms of contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment) is settled to the HKEAA on an annual basis. The expenditure on SA, TSA and the related study under the project for the last 2 contract periods is tabulated as follows:-

Contract period	Expenditure (\$ million)		Total expenditure (\$ million)	Average annual expenditure (\$ million)
	SA	TSA and related study under the project		
2015-2018	3 *	290	293	73
2019	Not applicable	85	85	Not applicable

* Since January 2017, the expenditure on the Student Assessment Repository (STAR) platform (formerly known as SA) has been subsumed under the overall expenditure of EDB.

The Pre-Secondary One Hong Kong Attainment Test is mainly managed and administered by the EDB. The relevant manpower resources and staff expenses are subsumed under the overall expenditure of EDB and no breakdown is available.

(b)

From the 2015/16 to 2019/20 (first quarter) school years, the number of primary and secondary schools using SA/STAR, their percentage share in the respective school types and the number of login records in SA/STAR are as follows:-

School year	2015/16 SA	2016/17		2017/18	2018/19	2019/20
		SA (September to December 2016)	STAR (January to August 2017)	STAR	STAR (September 2018 to August 2019)	STAR (September to December 2019)
No. of primary schools using SA/STAR	105	27	174	172	188	185
Percentage of primary schools using SA/STAR	20%	5%	33%	33%	38%	37%
No. of login records by primary school students	242 894	31 116	222 821	352 583	434 542	170 806
No. of secondary schools using SA/STAR	44	12	57	58	60	67
Percentage of secondary schools using SA/STAR	10%	3%	12%	13%	13%	15%
No. of login records by secondary school students	74 635	7 599	28 719	36 597	45 197	16 111

(c)

From the 2015/16 to 2016/17 school years, the number of primary and secondary school students participating in TSA, the corresponding percentage share of students with special educational needs (SEN) participating in TSA, the corresponding percentage share of non-Chinese speaking (NCS) students participating in the Chinese assessment, and the

expenditure incurred to provide special examination accommodation arrangements for the students are as follows:-

	School year	
	2015/16	2016/17
Primary 3		
Total no. of students participating in TSA	5 156	54 506
Students with SEN (percentage share %)	7.6%	9.6%
NCS students participating in the Chinese assessment (percentage share %)	4.5%	2.8%
Expenditure incurred to provide special examination accommodation arrangements for the students#	\$11,000	\$64,000
Primary 6[△]		
Total no. of students participating in TSA	1 952	47 220
Students with SEN (percentage share %)	7.9%	8.7%
NCS students participating in the Chinese assessment (percentage share %)	4.9%	2.8%
Expenditure incurred to provide special examination accommodation arrangements for the students#	\$4,000	\$51,000
Secondary 3		
Total no. of students participating in TSA	55 278	52 707
Students with SEN (percentage share %)	5.3%	6.3%
NCS students participating in the Chinese assessment (percentage share %)	2.4%	2.6%
Expenditure incurred to provide special examination accommodation arrangements for the students#	\$75,000	\$44,000

Breakdown of expenditure is a pro rata calculation according to the number of students.

△ Since 2012, Primary 6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

Starting from 2018, the EDB has conducted Primary 3 TSA with a low-stake approach of “no student names, no school names, no collection of reports and selection of participants by sampling”. At the territory-wide level, the HKEAA samples around 10% of students from each public sector and Direct Subsidy Scheme (DSS) school for Primary 3 TSA each year. If schools consider necessary, the HKEAA can arrange participation of their Primary 3 students in TSA in full cohort.

Since the number of schools arranging participation of their Primary 3 students in TSA in full cohort (and the related number of students) are not pertinent to the policy objective, the EDB does not inquire the HKEAA about the schools that opt for full participation of their Primary 3 students in TSA (and the related number of students), and no longer maintains statistical breakdowns of primary and secondary school students participating in TSA. In line with the policy intent of the new assessment arrangements, the HKEAA will also not disclose relevant information any longer.

According to the information provided by the HKEAA, the percentage shares of Primary 6 and Secondary 3 SEN students participating in TSA among the total number of participants in the respective class levels are 7.7% and 6.2% in the 2017/18 school year, and 8.5% and 6.5% in the 2018/19 school year. Meanwhile, the percentage shares of Primary 6 and Secondary 3 NCS students participating in the Chinese assessment among the total number of participants in the respective class levels are 7.4% and 3.0% in the 2017/18 school year, and 2.8% and 3.0% in the 2018/19 school year.

The expenditure involved in providing special examination accommodation arrangements for students with SEN and NCS students was \$90,000, \$160,000, \$140,000 and \$180,000 in the 2015/16, 2016/17, 2017/18 and 2018/19 school years respectively. The original estimate for expenditure of the 2019/20 TSA was \$85 million, and the estimate for expenditure involved in providing special examination accommodation arrangements was \$190,000. In view of the development of the novel coronavirus epidemic, the EDB has announced that TSA at all class levels would be cancelled in this school year.

(d)

The TSA of the 2020/21 school year will be conducted in the second quarter of 2021. Subject to actual arrangements at the time, the estimated expenditure is around \$85 million.

(e)

Note 1: The working group conducts meetings on an irregular basis and is responsible for following up the recommendations made by the Committee from 2015 to 2017 in respect of the administration arrangements and reporting of TSA. The relevant major measures have been completed and implemented.

Note 2: The meeting was split into 3 sessions over 2 days to reduce the number of attendees per meeting due to the epidemic.

(f)

In the school years from 2014/15 to 2018/19, the EDB commissioned through open tender the Chinese University of Hong Kong to conduct research projects titled “Students’ Learning Attitude and Motivation Questionnaire Survey”. Each research project lasted for 1 year and involved an expenditure of about \$1.4 million. The research projects aim to identify non-academic factors that affect students’ learning and performance in TSA, and how different support measures affect NCS students’ performance in TSA’s Chinese Language assessment. The EDB expects that the research projects would enable schools to gain a deeper understanding of what might affect students’ learning attitude and motivation from multiple perspectives, and thus enhance learning and teaching.

The research projects included questionnaires for schools, parents and students. All schools and parents participated in the research projects on a voluntary basis, and prior consent was obtained from all related parties. The academic institution responsible for the research projects will consolidate the non-academic information collected through the questionnaires, and passed the information to the HKEAA for matching with TSA results of relevant participants. The information was then coded right after and provided to the academic institution for further analysis. The academic institution would not have access to any TSA performance information that could identify the individual concerned, and the EDB will neither be informed of nor enquire individual school reports and information that can identify individuals.

(g)

Since the introduction of TSA in 2004, the EDB has maintained communication with various stakeholders to keep track of its implementation progress, and persistently attend to stakeholders' views for related continuous enhancements. To continue to respond to the public's concerns about TSA, the Secretary for Education announced in late October 2015 that the Committee would conduct a comprehensive review of the BCA (including Primary 3 TSA).

Throughout the two-year review process, to ensure that the review was comprehensive, rigorous, systematic and evidence-based, the Committee heeded and collected views and recommendations of the education sector and various stakeholders through different channels, and conducted questionnaire surveys and various types of consultation sessions (including focus groups, seminars and meetings) with most of the school sponsoring bodies, primary schools (including all government, aided and DSS primary schools and some private primary schools), school heads, teachers and parents of Primary 3 students.

Subsequently, the Committee proposed 4 targeted enhancement measures (including improving assessment papers and question design, enhancing school reports, strengthening professional support measures, and incorporating a questionnaire survey on students' learning attitude and motivation. Furthermore, it proceeded to introduce the 2016 Tryout Study (Primary 3) and the 2017 BCA Research Study, and submitted the Report on Review of the Primary 3 TSA 2015-17 in March 2018. The EDB accepted in the same month the recommendations made by the Committee on Primary 3 TSA, and starting from the same year, Primary 3 TSA has been conducted with a low-stake approach of "no student names, no school names, no collection of reports and selection of participants by sampling".

2019 was the second year that the Primary 3 TSA was conducted using this approach. The implementation of the assessment was generally smooth and the feedback was trending positive. The EDB and HKEAA will continue to collect the views of the school sector and parents via different channels.

CONTROLLING OFFICER'S REPLY**EDB101****(Question Serial No. 0165)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (7) Post-secondary, Vocational and Professional EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the Study Subsidy Scheme for Designated Professions/Sectors, which is launched by the Government in each academic year to subsidise students in their pursuit of designated self-financing undergraduate and sub-degree programmes:

- (1) Please use the table below to provide information on programmes offered in the academic years from 2016/17 to 2019/20:

Programme	Institution	No. of subsidised places	Actual intake (including subsidised and self-financed places)	Annual tuition fee (before deduction of subsidy)	Annual subsidy amount

Please use the table below to provide information on undergraduate programmes to be offered in the 2020/21 academic year:

Programme	Institution	Estimated no. of subsidised places	Estimated total intake (including subsidised and self-financed places)	Estimated annual tuition fee (before deduction of subsidy)	Estimated annual subsidy amount

Please use the table below to provide information on sub-degree programmes to be offered in the 2020/21 academic year:

Programme	Institution	Estimated no. of subsidised places	Estimated total intake (including subsidised and self-financed places)	Estimated annual tuition fee (before deduction of subsidy)	Estimated annual subsidy amount

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 8)

Reply:

Details of the designated undergraduate programmes, relevant institutions, the number of subsidised places, actual intake, the average annual tuition fee before deduction of subsidy and the annual subsidy amount under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) for the cohorts admitted from the 2016/17 to 2019/20 academic years are set out at Annex 1.

Details of the designated undergraduate programmes, relevant institutions, the number of subsidised places, the average annual tuition fee before deduction of subsidy and the annual subsidy amount under the SSSDP for the cohort to be admitted in the 2020/21 academic year are set out at [Annex 2](#).

The coverage of the SSSDP has been expanded to include designated sub-degree programmes starting from the 2019/20 academic year. Details of the programmes, relevant institutions, the number of subsidised places, actual intake, the average annual tuition fee before deduction of subsidy and the annual subsidy amount under the SSSDP in the 2019/20 academic year are set out at [Annex 3](#).

Details of the designated sub-degree programmes, relevant institutions, the number of subsidised places, the average annual tuition fee before deduction of subsidy and the annual subsidy amount under the SSSDP for the cohort to be admitted in the 2020/21 academic year are set out at [Annex 4](#).

* The Government has regularised the SSSDP from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes also receive the subsidy starting from the 2018/19 academic year. All first-year intake places of designated programmes for local students were included in the SSSDP. There were no non-subsidised first-year intake places for local students under the designated programmes.

New programmes offered in the 2018/19 academic year.

** The Hang Seng Management College changed its title to the Hang Seng University of Hong Kong in the fourth quarter of 2018.

* Starting from the 2018/19 academic year, all first-year intake places of designated programmes for local students have been included in the SSSDP, and there are no non-subsidised first-year intake places for local students under the designated programmes.

^ Institutions are required to announce the tuition fees for each subsidised programme before the commencement of the Joint University Programmes Admissions System (JUPAS) application. The average annual tuition fee is calculated with reference to the tuition fee level of the students' admission year. For students admitted in the 2019/20 academic year, institutions may adjust the tuition fees annually starting from the second year of their studies. However, the tuition fees will be adjusted at a rate not exceeding the price movement in the Hong Kong Composite Consumer Price Index for the relevant year.

@ The Education Bureau was informed by the Chu Hai College of Higher Education in May 2019 that their number of intake had been decreased from 90 to 30.

New programmes offered in the 2019/20 academic year.

* All first-year intake places of designated programmes for local students are included in the SSSDP. There are no non-subsidised first-year intake places for local students under the designated programmes.

^ Institutions are required to announce the tuition fees for each subsidised programme before the commencement of the application process. The average annual tuition fee is calculated with reference to the tuition fee level of the students' admission year. For students to be admitted in the 2020/21 academic year, institutions may adjust the tuition fees annually starting from the second year of their studies. However, the tuition fees will be adjusted at a rate not exceeding the price movement in the Hong Kong Composite Consumer Price Index for the relevant year.

- # New programmes to be offered in the 2020/21 academic year.
- @ The name of the programme will be changed from Higher Diploma in Tourism Management (Airline and Cruise Services/Culinary/Hospitality/Tourism and Event Management) to Higher Diploma in Tourism Management (Airline Services/Culinary/Hospitality/Tourism and Event Management) in the 2020/21 academic year.

CONTROLLING OFFICER'S REPLY**EDB102****(Question Serial No. 0171)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

With regard to the provision of additional resources for implementing integrated education in mainstream schools, please provide, by district, information on the following for the past 5 years (from the 2015/16 to 2019/20 school years):

(a) the number of primary and secondary schools receiving the Learning Support Grant by using the tables below:

Provision for Learning Support Grant (\$)	No. of primary schools				
	2015/16	2016/17	2017/18	2018/19	2019/20
0 – 110,000					
110,001 – 400,000					
400,001 – 600,000					
600,001 – 800,000					
800,001 – below 1,000,000					
1,000,000 and above					

Provision for Learning Support Grant (\$)	No. of secondary schools				
	2015/16	2016/17	2017/18	2018/19	2019/20
0 – 110,000					
110,001 – 400,000					
400,001 – 600,000					
600,001 – 800,000					
800,001 – below 1,000,000					
1,000,000 and above					

- (b) the number of primary and secondary schools provided with the School-based Educational Psychology Service;
- (c) the total annual expenditure on the Enhanced Speech Therapy Grant, and the number of primary schools receiving the Basic Grant and Top-up Grant;
- (d) the respective number of primary and secondary schools receiving the Basic Grant and Top-up Grant under the Enhanced Speech Therapy Grant;
- (e) the number of primary and secondary schools having joined the Intensive Remedial Teaching Programme and the Integrated Education Programme, the number of students benefiting from these Programmes, the number of additional teachers, teaching assistants and learning support assistants hired, and the average unit cost per student place;
- (f) the number of secondary schools provided with additional teachers to support academic low achievers, and the number of additional teachers hired;
- (g) a breakdown by district of the number of primary and secondary schools provided with the Intensive Support Grant for hardcore students with special educational needs, and the total annual provision; and
- (h) the total provision for the Top-up Fund for primary and secondary schools' procurement of special furniture and equipment, the number of schools having made an application to the Education Bureau for such funding, and the number of primary and secondary schools benefiting from the provision.

Asked by: Hon IP Kin-Yuen (LegCo internal reference no.: 15)

Reply:

(a) to (h)

To help public sector ordinary schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of regular subvention, has been providing these schools with additional resources, including the Learning Support Grant (LSG), the Enhanced Speech Therapy Grant (ESTG), additional teachers and funding under the Intensive Remedial Teaching Programme (IRTP) and the Integrated Education (IE) Programme, additional teachers to support academic low achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. Professional support is also provided for schools on an ongoing basis through assessment and consultation services of educational psychologists, school-based speech therapists (SBSTs) and audiologists.

Starting from the 2019/20 school year, the EDB has implemented a series of enhanced measures on IE including restructuring various subvented programmes for IE, multiplying the LSG grant rate for tier-3 support, extending LSG to all public sector ordinary schools, cancelling the IRTP and the IE Programme, upgrading the Special Educational Needs Coordinator (SENCO) post to a promotion rank in public sector ordinary schools with

comparatively large number of students with SEN, and providing regular teaching posts titled as Special Educational Needs Support Teachers. In addition, the EDB has enhanced school-based services including further extending the Enhanced School-based Educational Psychology Service (SBEPS) and creating SBST posts in public sector ordinary schools by phases to implement the Enhanced School-based Speech Therapy Service.

The provision of the above-mentioned additional resources and professional support is based on various parameters, such as the number of students with SEN in schools, the level of support they require, and the applications of individual schools when need arises, but these parameters are not related to the districts in which the schools operate. Hence, we are unable to give a breakdown of the provision by district. The respective numbers of public sector ordinary primary and secondary schools receiving LSG within each specified range of provision from the 2015/16 to 2019/20 school years is set out at Appendix 1. The requested statistics on SBEPS, ESTG and additional teachers for supporting academic low achievers are set out at Appendix 2.

As for the Intensive Support Grant for hardcore cases and Top-up Fund for procurement of special furniture and equipment mentioned above, they are provided for individual schools by the EDB on an application basis to meet the specific needs of individual students with SEN. Hence, not all schools and students with SEN are provided with the same resources and the funding involved can vary among schools and across years. Providing the total expenditure, the number of applications and number of schools receiving these additional resources separately is not meaningful.

Distribution of public sector primary and secondary schools within the range of Learning Support Grant (LSG) allocated from the 2015/16 to 2019/20 school years

Provision of LSG (\$)	Number of primary schools					Number of secondary schools				
	2015/16	2016/17	2017/18 (Note 1)	2018/19 (Note 1)	2019/20 (Notes 1, 2)	2015/16	2016/17	2017/18 (Note 1)	2018/19 (Note 1)	2019/20 (Notes 1, 2)
0 – 110,000	2	2	43	66	2	30	27	18	12	7
110,001 – 400,000	105	103	94	89	4	110	102	74	64	78
400,001 – 600,000	25	25	21	24	42	64	65	82	74	97
600,001 – 800,000	31	29	33	17	54	42	41	47	54	59
800,001 – 1,000,000 ^(Note 3)	38	30	22	21	62	35	28	35	39	29
1,000,001 or above ^(Note 3)	109	125	142	164	291	101	119	129	142	119

Note:

- Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including those implementing the Intensive Remedial Teaching Programme (IRTP) and the Integrated Education (IE) Programme in the 2017/18 and 2018/19 school years) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level.
- Starting from the 2019/20 school year, the Education Bureau (EDB) has enhanced measures on supporting public sector ordinary schools, including restructuring various subvented programmes for IE, extending the LSG to all public sector ordinary schools, cancelling the IRTP and the IE Programme, and multiplying the LSG grant rate for tier-3 support. Under the enhanced measures, schools will have additional teaching post(s) titled as Special Educational Needs Support Teachers converted/provided on account of the LSG reaching the specific threshold, thus allowing schools to have a more stable teaching force and additional resources for flexible deployment to support students with special educational needs. In the 2019/20 school year, the EDB created through the above arrangement some 1 000 additional regular teaching posts with 675 schools (including 431 primary schools and 244 secondary schools) getting 1 to 3 such posts.
- To facilitate comparison of this year's figures with those submitted in previous years, the wordings for the header cells of the last two rows on the "Provision of LSG (\$)" column are slightly different from that used in the question.

Table 1

Number of public sector primary and secondary schools receiving School-based Educational Psychology Service from the 2015/16 to 2019/20 school years

	2015/16	2016/17	2017/18	2018/19	2019/20
Primary schools	401	454	454	456	455
Secondary schools	333	391	389	389	389

Table 2

Total expenditure of Enhanced Speech Therapy Grant (ESTG)^(Note 1) and number of public sector primary schools provided with Basic Grant and Top-up Grant from the 2015/16 to 2019/20 school years

	2015/16	2016/17	2017/18	2018/19	2019/20 ^(Note 2)
Number of schools	451	454	453	454	349
Total provision (\$ million)	57.4	59.8	62.8	66.1	52.0

Note:

1. The ESTG is provided to public sector ordinary primary schools enrolled with students with speech and language impairment (SLI). Schools will be provided with Basic Grant and Top-up Grant according to the number of approved classes and the number of cases with moderate or severe SLI respectively each year. Public sector primary schools implementing the Enhanced SBSTS are no longer provided with the ESTG. For public sector secondary schools, they can utilize the LSG to support students with SLI.
2. Starting from the 2019/20 school year, SBST posts are created in the public sector ordinary schools by phases for the implementation of the Enhanced SBSTS to provide more stable, sustainable and comprehensive support to students with SLI. Hence, compared with last year, there is a drop in the number of schools provided with the ESTG and the total provision.

Table 3

A. Number of primary schools and additional teachers^(Note) under the Intensive Remedial Teaching Programme (IRTP) from the 2015/16 to 2019/20 school years

	2015/16	2016/17	2017/18	2018/19	2019/20
Number of primary schools	243	242	241	239	Not applicable
Number of additional teachers	388	383	382	380	Not applicable

B. Number of schools, additional teachers and learning support assistants^(Note) under the Integrated Education (IE) Programme from the 2015/16 to 2019/20 school years

	2015/16	2016/17	2017/18	2018/19	2019/20
Number of primary schools	25	25	25	25	Not applicable
Number of additional teachers in primary teachers	21	21	21	21	Not applicable
Number of learning support assistants in primary schools	21	20	20	21	Not applicable
Number of secondary schools	8	8	8	8	Not applicable
Number of additional teachers in secondary schools	8	8	8	8	Not applicable
Number of learning support assistants in secondary schools	8	8	8	8	Not applicable

Note:

1. Starting from the 2019/20 school year, the EDB has extended the LSG to all public sector ordinary schools, IRTP and IE Programme were cancelled.
2. The number of students under IRTP and IE Programme is only for calculation of additional manpower that schools should be provided with. In actual operation, irrespective of the funding mode adopted, schools should deploy additional manpower to render appropriate support to students in need under the Whole School Approach to IE. Hence, whether or not they are the targets of IRTP and IE Programme, students with SEN should all benefit from such additional resources. Providing the number of students under these Programmes and their unit cost is therefore not meaningful.

Table 4

Number of public sector secondary schools provided with additional teachers to support academic low achievers and number of additional teachers provided from the 2015/16 to 2019/20 school years

	2015/16	2016/17	2017/18	2018/19	2019/20
Number of schools provided with additional teachers to support academic low achievers	257	262	263	263	253
Number of additional teachers provided	564	555	550	559	582

CONTROLLING OFFICER'S REPLY

EDB103

(Question Serial No. 0172)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information by type of special schools:

- (a) the number of classes at each level and total number of classes, the number of students at each class level and total number of students, the number of teachers, the unit cost per school place, the class-to-teacher ratio, the teacher-to-student ratio and the unit cost per boarding place by school type and in the territory for the past 5 years (2015/16 to 2019/20 school years) and the coming year (2020/21 school year);
- (b) the establishment and salary scale of all specialists (such as speech therapists) and non-specialists for the past 5 years (2015/16 to 2019/20 school years) and the coming year (2020/21 school year);
- (c) the number of students able to pursue further studies or receive vocational training (in post-secondary institutions, vocational training schools, etc.) after completing secondary education for the past 5 years (2015/16 to 2019/20 school years), with a breakdown by type of institutions they enrolled in; and
- (d) the number of students applying for extension of years of study, the number of students approved to extend their years of study, the percentage of "pre-set quota" and the number of additional school places derived from the "pre-set quota" of the respective school types, as well as the ratio of the number of students approved to extend their years of study to the approved number of additional school places of the respective school types for the past 5 years (2015/16 to 2019/20 school years).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 16)

Reply:

- (a)
The number of approved classes, number of students, teaching staff establishment, average unit cost per school place, class-to-teacher ratio, teacher-to-student ratio and average unit

cost per boarding place of each type of special schools from the 2015/16 to 2019/20 school years are set out at Appendix 1. The estimated number of classes and students in different types of special schools for the 2020/21 school year are tabulated below. As the calculation of teaching staff establishment, class-to-teacher ratio and teacher-to-student ratio is based on the actual number of classes and students and the calculation of the average unit cost per school place and per boarding place is based on the actual operating cost of the school, we are unable to provide these figures for different types of special schools for the 2020/21 school year at this stage.

School type	2020/21 school year	
	Estimated no. of classes	Estimated no. of students
Visual Impairment	17	125
Hearing Impairment	11	66
Physical Disability	104	912
Mild Intellectual Disability	235	3 319
Moderate Intellectual Disability	231	2 158
Severe Intellectual Disability	108	741
School for Social Development	95	666
Hospital School	34	329

It is a common practice for special schools to adopt flexible groupings across grade levels and devise individualised education programmes to cater for the special educational needs of the students. Presenting the number of classes by grade level is therefore not reflecting the actual operation in special schools.

(b)

Special schools are provided with specialist staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and braillists, as well as non-specialist staff, including laboratory technicians, school executive officers, clerical staff, janitor staff, teacher assistants, workshop attendants, drivers and artisans, according to their school type. The specialist staff and non-specialist staff establishment of different types of special schools from the 2015/16 to 2019/20 school years are set out at Appendix 2 and Appendix 3 respectively. The salary scales of specialist staff and non-specialist staff for the 2019/20 school year are set out at Appendix 4. As the calculation of the specialist staff and non-specialist staff establishment is based on the actual number of classes being operated, we are unable to provide these figures for different types of special schools for the 2020/21 school year at this stage.

(c)

In general, special schools will help their students plan and apply for post-school placement in accordance with their interests, capabilities and needs. Apart from further studies and vocational training, special school leavers may also receive vocational rehabilitation, day training or residential care services, etc. The number of students in different types of special schools who have completed secondary education and pursued further studies or vocational training, as collected from special schools, from the 2015/16 to 2018/19 school years is set out at Appendix 5 with a breakdown by type of special schools.

It is worth noting that the Education Bureau (EDB), Social Welfare Department, Vocational Training Council and Hong Kong Special Schools Council unanimously agree, upon deliberation, that the pathway classification previously adopted for school leavers should be adjusted to reflect more accurately the pursuance of further studies and vocational training of special school leavers. Starting from the 2018/19 school year, special schools has submitted information to the EDB according to the adjusted pathway classification. Therefore, in Appendix 5, the pathway classification for the 2018/19 school year is different from the one adopted for the school years from 2015/16 to 2017/18. As the 2019/20 school year has not yet come to a close, at this stage we are unable to provide the relevant information on special school leavers in the current school year.

(d)

The improvement measures on extension of years of study (EoS) were introduced in the 2010/11 school year for students in schools for children with intellectual disability, schools for children with physical disability, schools for children with hearing impairment and the school for children with visual impairment cum intellectual disability. Under these measures, the EDB provides these schools with additional school places and allows them to devise school-based policies to exercise professional judgement to arrange for students in need and with valid reasons to extend their years of study in accordance with the objective criteria jointly set by the EDB and the special education sector. As the applications for EoS are made directly to and subsequently approved by the special schools concerned, the EDB does not have the number of students applying for EoS in the above special schools. In the school years from 2015/16 to 2019/20, the percentage of “pre-set quota”, number of additional school places derived from that percentage, number of students approved to extend their years of study and its percentage out of the number of additional school places in special schools are set out at Appendix 6.

**Number of Approved Classes, Number of Students, Teaching Staff Establishment,
Average Unit Cost per School Place, Average Unit Cost per Boarding Place,
Class-to-Teacher Ratio and Teacher-to-Student Ratio in Special Schools
from the 2015/16 to 2019/20 School Years**

School Type	2015/16 School Year						
	No. of Approved Classes	No. of Students (as at September 2015)	Teaching Staff Establishment <small>Note 5</small>	Average Unit Cost per School Place	Average Unit Cost per Boarding Place	Class-to-Teacher Ratio	Teacher-to-class Ratio
Visual Impairment	15	125	37.6	\$293,000	\$166,000	1:2.5	1:3.3
Hearing Impairment	14	87	31.3	\$293,000	\$403,500	1:2.2	1:2.8

Notes:

1. 1 school for children with hearing impairment has completed mainstreaming in the 2018/19 school year. In the 2017/18 school year, its boarding section only provided a few boarding places based on students' needs and there was special arrangement for its staff establishment. Calculation of average unit cost per boarding place is not applicable.
2. Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
3. 1 school for children with severe intellectual disability operates classes for children with moderate intellectual disability on a pilot basis starting from the 2017/18 school year. The figures are categorised according to the respective class levels.
4. Schools for children with mild intellectual disability do not provide boarding service.

5. Residential home services provided in schools for social development are subvented by the Social Welfare Department.
6. Hospital School only provides educational services to hospitalised students and does not provide boarding services.
7. Teaching staff establishment excludes teachers employed with other grants (resource teachers for Supportive Remedial Service, Enhanced Support Service and Resource Support Programme and teachers for Home-bound Teaching Programme in Hospital School).

Number of Approved Classes, Number of Students, Teaching Staff Establishment, Average Unit Cost per School Place, Average Unit Cost per Boarding Place, Class-to-Teacher Ratio and Teacher-to-Student Ratio in Special Schools from the 2015/16 to 2019/20 School Years

Laboratory Technician I	\$44,555 – \$58,635
School Executive Officer	\$31,750 – \$55,995
Workshop Attendant	\$14,620 – \$17,870
Artisan	\$17,675 – \$21,340
Motor Driver	\$17,675 – \$21,340
Special Driver	\$21,340 – \$24,070
Teacher Assistant	\$13,730 – \$16,175
Clerical Assistant	\$13,735 – \$24,070#
Assistant Clerical Officer	\$15,560 – \$31,750#
Janitor Staff	\$13,730 – \$16,175#

Aided special schools are provided with an Administration Grant (AG) or Revised Administration Grant (RAG) for employing clerical and janitor staff, or contracting out clerical or janitor service to meet their specific needs. The schools concerned will be provided with a lump sum equivalent to the salary of the clerical (solely for AG) and janitor staff posts. The salary scale of these posts in the above table is for the schools' calculation of grant/reference.

MoID: Moderate Intellectual Disability; SID: Severe Intellectual Disability

Notes:

- Starting from the 2018/19 school year, the pathway classification for special school leavers has been adjusted to reflect more accurately the pursuance of further studies and vocational training of school leavers. Upon adjustment, the Hong Kong Institute of Vocational Education and Youth College have been reclassified from “further studies” to “vocational training”. Since the Integrated Vocational Training Centre, Integrated Vocational Training Centre (Residential Service), On the Job Training Programme for Young People with Disabilities, “Sunnyway – On the Job Training for Young People with Disabilities”, “Enhancing Employment of People with Disabilities through Small Enterprise” Project, etc. are vocational rehabilitation services by nature, they are no longer included under “further studies” and “vocational training” in the above table. As such, the pathway classification and number of school leavers in the 2018/19 school year above are different from those in the previous 3 school years.

2. The above figures are based on information collected from special schools as at September of the following school year. Students waitlisted for vocational training in the respective school years are not included.
3. Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
4. Figures for the Hospital School are not included in view of the transitional nature of its education programmes.

CONTROLLING OFFICER'S REPLY

EDB104

(Question Serial No. 0173)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information on primary and secondary schools for the past 5 years (2015/16 to 2019/20 school years) and the coming year (2020/21 school year):

the number of classes in the territory with a breakdown by school type; the number of students in the territory with a breakdown by school type; the number of teachers in the territory with a breakdown by school type; the unit cost of school places in the territory with a breakdown by school type; the class-to-teacher ratio in the territory with a breakdown by school type; and the teacher-to-student ratio in the territory with a breakdown by school type.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 18)

Reply:

The number of operating classes, number of students, number of teachers, unit cost, class-to-teacher ratio and teacher-to-student ratio in public sector and Direct Subsidy Scheme (DSS) primary and secondary schools from the 2015/16 to 2019/20 school years are set out at Appendix 1. In respect of the 2020/21 school year, the overall projected number of approved classes, number of students, number of teachers and teacher-to-student ratio in public sector primary and secondary schools projected for the purpose of preparing estimates are set out at Appendix 2. As the class-to-teacher ratio is calculated based on the actual number of operating classes and teachers, we are unable to provide relevant information at this stage. For DSS schools, apart from the unit cost, we do not have other projected figures. Given the different calculation bases, the estimated figures for the 2020/21 school year and the figures of the school years from 2015/16 to 2019/20 are not directly comparable.

Number of Operating Classes, Number of Students, Number of Teachers, Unit Cost, Class-to-Teacher Ratio and Teacher-to-Student Ratio in Public Sector and DSS schools from the 2015/16 to 2019/20 School Years

Notes:

- (1) Figures refer to the position as at mid-September of the respective school years.
- (2) Figures do not include special schools.
- (3) The number of teachers is rounded to the nearest 10.
- (4) The unit cost is calculated on a financial year basis.

**The projected number of approved classes, number of students, number of teachers,
unit cost and teacher-to-student ratio in public sector and DSS schools⁽¹⁾
for the 2020/21 school year**

Level	School Type	2020/21 School Year (Estimate)				
		No. of Approved Classes ⁽²⁾	No. of Students	No. of Teachers	Unit Cost ⁽³⁾ (\$)	Teacher-to-student Ratio
Primary School	Government	11 059	304 200	22 600	88,760	1:13.4
	Aided				74,270	
	DSS	-	-	-	71,760	-
Secondary School	Government	9 119	264 400	22 600	95,540	1:11.7
	Aided				97,760	
	Caput				94,240	
	DSS	-	-	-	82,130	-

Notes:

- (1) Figures do not include special schools.
- (2) The number of approved classes is the projected number of approved classes for preparing estimates by the Education Bureau. The number of approved classes of each school year is subject to the allocation mechanisms for Primary 1/Secondary 1 school places in public sector schools, student enrolment at each grade level, and the results of headcount as at mid-September of the year concerned. It is understood that some public sector schools may, in light of their school-based needs, adopt class streaming by making use of vacant classrooms, i.e. splitting one approved class into two classes. Hence, the actual number of operating classes is generally greater than the number of approved classes.
- (3) The unit cost is calculated on a financial year basis.

- End -

(Question Serial No. 0174)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Using the table below, please provide the total numbers of students in kindergartens, primary schools and secondary schools in each of the 18 districts in the past 5 school years (2015/16 to 2019/20 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(b) Using the table below, please provide the numbers of cross-boundary students in kindergartens, primary schools and secondary schools in each of the 18 districts in the past 5 school years (2015/16 to 2019/20 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(c) Using the table below, please provide the numbers of newly admitted students from the Mainland in kindergartens, primary schools and secondary schools in each of the 18 districts in the past 5 school years (2015/16 to 2019/20 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(d) Using the table below, please provide the numbers of ethnic minority students in kindergartens, primary schools and secondary schools in each of the 18 districts in the past 5 school years (2015/16 to 2019/20 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(e) Using the table below, please provide the numbers of students with special educational needs in kindergartens, primary schools and secondary schools in each of the 18 districts in the past 5 school years (2015/16 to 2019/20 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(f) In the past 5 school years (2015/16 to 2019/20 school years), what policies have the Administration introduced to help the student groups mentioned in (b) to (e)? What were the respective amounts of public funds involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 19)

Reply:

- (a) The total numbers of students in kindergartens, primary schools and secondary schools by district and sector from the 2015/16 to 2019/20 school years are tabulated at Appendix 1.
- (b) The numbers of cross-boundary students (CBS) in kindergartens (including kindergarten-cum-child care centres), primary and secondary schools by district and sector from the 2015/16 to 2019/20 school years are tabulated at Appendices 2(a), 2(b) and 2(c) respectively.
- (c) The numbers of newly admitted students from the Mainland in primary and secondary schools by district and sector from the 2015/16 to 2019/20 school years are tabulated at Appendix 3. Please note that the Education Bureau (EDB) does not collect information on the newly admitted students from the Mainland in kindergartens.
- (d) According to the information collected through the annual Student Enrolment Survey, the numbers of non-Chinese speaking (NCS) students in kindergartens and public sector and Direct Subsidy Scheme (DSS) primary and secondary schools by district from the 2015/16 to 2019/20 school years are tabulated at Appendix 4.
- (e) Support services for children with special needs at pre-primary level are provided by the Social Welfare Department. Hence, the EDB is unable to provide data on students with special needs in kindergartens. The numbers of students with special educational needs (SEN) studying in public sector ordinary schools, DSS schools, the English Schools Foundation (ESF) schools, other private international schools, and Private Independent Schools (PIS) from the 2015/16 to 2019/20 school years are set out at Appendix 5.
- (f) *Newly-Arrived Children and CBS*
The EDB provides newly-arrived children with the choice of attending the six-month full-time “Initiation Programme” operated by local schools, or the “Induction Programme” run by non-governmental organisations alongside the various school-based programmes organised by their respective schools. We also provide schools with the “School-based Support Scheme Grant”. These Programmes/Grant primarily aim at helping them integrate into the local community and overcome their learning difficulties. Expenditure for the “Initiation Programme”, the “Induction Programme” and the “School-based Support Scheme Grant” for newly-arrived children from the 2015/16 to 2019/20 school years is tabulated at Appendix 6. By virtue of their right of abode in Hong Kong, CBS enjoy the same education services as our local students. If CBS are newly-arrived children, they also enjoy the education services mentioned above.

NCS Students

Starting from the 2014/15 school year, the EDB has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework", which was drawn up in consultation with teachers and language experts, in primary and secondary schools, the provision of Applied Learning Chinese (for NCS students), and the creation of an inclusive learning environment in schools. The support measures for NCS students and the expenditure involved from the 2015/16 to 2019/20 school years are tabulated at Appendix 7. Besides, the EDB evaluates the effectiveness of various support measures for NCS students on an ongoing basis, and refines the measures as necessary.

Students with SEN

To help schools cater for students with SEN, on top of regular subvention, the EDB has been providing public sector ordinary schools with additional resources, professional support as well as teacher training. Starting from the 2019/20 school year, the EDB has implemented a series of enhanced measures on integrated education (IE), including restructuring various subvented programmes for IE, multiplying the grant rate of Learning Support Grant (LSG) for tier-3 support, extending the LSG to all public sector ordinary schools, cancelling the Intensive Remedial Teaching Programmes (IRTP) and the IE Programme, upgrading the post of Special Educational Needs Coordinator (SENCO) to a promotion rank and providing regular teaching posts titled as Special Educational Needs Support Teacher in public sector ordinary schools with comparatively large number of students with SEN, and providing the "Grant for Supporting NCS Students with Special Educational Needs (SEN)" to public sector ordinary schools admitting NCS students with SEN. In addition, the EDB has enhanced school-based services including further extending the Enhanced School-based Educational Psychology Service (SBEPS) and creating school-based speech therapist posts in public sector ordinary schools by phases to implement the Enhanced School-based Speech Therapy Service (Enhanced SBSTS). Schools should pool together school resources and deploy them holistically and flexibly to render appropriate support services to students with SEN. The expenditure on additional support and services for students with SEN in public sector ordinary schools has continued to increase from the 2015/16 to 2019/20 school years. The revised estimated expenditure for the 2019/20 school year is around \$3.1 billion.

At present, recurrent subvention is provided to the ESF for its support for students with SEN in the ESF's mainstream schools and special school. From the 2015/16 to 2019/20 school years, the annual recurrent subvention for this purpose amounts to \$28.3 million.

- Notes:
- (1) Figures refer to the position as at September of the respective school years.
 - (2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.
 - (3) All kindergartens (including kindergarten-cum-child care centres) are private schools.

Notes: (1) Figures refer to the position as at September of the respective school years. Such students were newly admitted during the 12-month period from October of the preceding year to September of the specified year.

(2) Figures include ordinary primary schools, but not special schools, the ESF schools and other private international schools.

(3) School districts are delineated by the District Council districts of the school campuses. The districts for schools with decanting campuses are based on the District Council districts of the original campuses.

(4) Figures for the 2019/20 school year are provisional and subject to revision.

Figures refer to those newly admitted students from the Mainland who entered Hong Kong on a One-way Permit.

**Number of Students with Special Educational Needs (SEN)* in
Public Sector Ordinary Schools and Direct Subsidy Scheme (DSS) Schools
from the 2015/16 to 2019/20 School Years**

School Year	Public sector ordinary school		DSS school #	
	Primary	Secondary	Primary	Secondary
2015/16	19 830	19 640	Not Applicable	Not Applicable
2016/17	21 860	21 030	Not Applicable	Not Applicable
2017/18	22 980	22 380	Not Applicable	Not Applicable
2018/19	25 010	24 070	Not Applicable	Not Applicable
2019/20	27 320	25 860	420	3 620

Notes: * Since the provision of support services for students with SEN does not depend on the district where they live or study, we do not compile related statistics.

Starting from the 2019/20 school year, the provision of Learning Support Grant (LSG) to DSS schools is based on the number of students with SEN and academic low achievers (applicable to primary schools) enrolled in each school, as well as the DSS LSG unit rate. Hence, DSS schools are required to submit SEN information of the students concerned to the EDB for calculating the allotment of the LSG. Before that, the relevant resources were included in the DSS unit subsidy, and we did not compile the numbers of students concerned.

Number of Students with Special Educational Needs (SEN) in the English Schools Foundation (ESF) Schools, Other Private International Schools, and Private Independent Schools (PIS) from the 2015/16 to 2019/20 School Years

School Year	ESF		PIS		Other private international school		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
2015/16	230	435	178	277	385	175	793	887
2016/17	245	565	172	231	323	179	740	975
2017/18	439*	422*	183	234	404	284	1 026	940
2018/19	365	458	177	291	482	348	1 024	1 097
2019/20	354	463	230	301	561	403	1 145	1 167

- Notes: (1) Figures refer to the position as at mid-September of the respective school years.
- (2) Statistics cover students with SEN under integrated classes/special classes/special schools in PIS, the ESF and other private International Schools as reported by the schools concerned in response to the Student Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

* The ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and has required all its schools to provide such figures to the EDB in the Student Enrolment Survey accordingly since the 2015/16 school year. However, in an internal review of the ESF schools' practice in compiling the number of students with SEN in September 2017, the ESF found that the practice was still inconsistent among individual schools. The ESF has verified again the information provided by each ESF school for the Student Enrolment Survey. Therefore, there is a relatively significant change in the number of students with SEN in the 2017/18 school year when compared with previous years.

**Expenditures on the Initiation Programme, the Induction Programme
and the School-based Support Scheme Grant for newly-arrived children
from the 2015/16 to 2019/20 School Years**

School Year		2015/16	2016/17	2017/18	2018/19	2019/20
Expenditure (\$ million)	Initiation Programme	23.9	24.1	27.1	26.2	32.5
	Induction Programme	1.8	2.8	2.6	2.0	2.1
	School-based Support Scheme Grant	24.9	38.1	30.8	26.8	37.1
	Total	50.6	65	60.5	55	71.7

Note: Figures for the 2019/20 school year are provisional and subject to revisions.

**Educational support measures for non-Chinese speaking (NCS) students
from the 2015/16 to 2019/20 school years**

(b) In the 2019/20 school year, post-secondary institutions are commissioned to provide school-based support services for KGs admitting NCS students, so as to enhance the professional capacity of teachers in teaching Chinese to NCS students.	-	-	-	-	Note 4
(c) School-based professional support services	Note 1	Note 1	Note 1	Note 1	Note 1
(d) With the implementation of the new KG education policy starting from the 2017/18 school year:					
(i) in the 2017/18 and 2018/19 school years, a grant comparable to the recommended salary of 1 KG teacher was provided to KGs admitting 8 or more NCS students for supporting NCS students.	-	-	54.0	57.1	-
(ii) starting from the 2019/20 school year, the subsidy for KGs admitting NCS students has been enhanced with a 5-tiered subsidy provided based on the number of NCS students admitted, which replaced the flat-rate subsidy for KGs admitting 8 or more NCS students.	-	-	-	-	109.8

Support measures	Actual expenditure in the 2015/16 school year \$ million	Actual expenditure in the 2016/17 school year \$ million	Actual expenditure in the 2017/18 school year \$ million	Actual expenditure in the 2018/19 school year \$ million	Estimated expenditure in the 2019/20 school year \$ million
(iii) specific training courses for KG teachers on supporting NCS students	-	-	1.4	2.0 Note 5	2.6 Note 5

Notes:

1. These measures are provided by different sections of the EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of the EDB and/or different funds, and a breakdown of expenditure by item is not available.
2. With the Government paying the examination fees for school candidates of the 2019 and 2020 HKDSE, the “subsidised examination fee” for eligible NCS students entering for the non-local Chinese Language examinations concerned in the 2018/19 and 2019/20 school years is waived accordingly.
3. Regarding the USP, the actual expenditure was \$2.25 million, \$8.33 million, \$2.88 million and \$5.46 million for the 2015/16, 2016/17, 2017/18 and 2018/19 school years respectively. As the USP was implemented in both KGs and primary schools, a breakdown of expenditure by KG and primary school is not available.
4. As the services are provided in both KGs and primary schools, a breakdown of expenditure by KG and primary school is not available. The estimated expenditure on the services is \$3.35 million for the 2019/20 school year.
5. Starting from the 2018/19 school year, a supply teacher grant is provided to facilitate KGs in arranging for teachers to attend specified training courses on supporting NCS students. The relevant expenditure has been included in the estimated expenditure for these training courses.

- End -

CONTROLLING OFFICER'S REPLY

EDB106

(Question Serial No. 0175)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS), please provide the number of subsidy recipients among students pursuing eligible programmes and the percentage these subsidy recipients represented in the total number of students at the same level of study from the 2015/16 to 2019/20 academic years. Please give a breakdown in tabular form by institution and year of study.

Self-financing undergraduate programmes

Institution	Year of study	No. of students subsidised	Percentage among students at the same level of study

Self-financing top-up degree programmes

Institution	Year of study	No. of students subsidised	Percentage among students at the same level of study

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 21)

Reply:

The Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS) has been implemented since the 2017/18 academic year. The number of

students receiving subsidy under the NMTSS is 20 268, 16 647 and 16 032 in the 2017/18, 2018/19, 2019/20 academic years respectively, which account for about 79%, 77% and 74% of those pursuing the self-financing programmes concerned respectively. The number of students receiving subsidy and its percentage out of the number of students pursuing the self-financing programmes concerned by participating institutions are tabulated below:

(1) Self-financing First-year-first-degree Programmes

Institutions	2017/18 Academic Year		2018/19 Academic Year		2019/20 Academic Year	
	Number of students receiving subsidy	Percentage share in the number of students pursuing the self-financing programmes concerned ¹	Number of students receiving subsidy	Percentage share in the number of students pursuing the self-financing programmes concerned ¹	Number of students receiving subsidy	Percentage share in the number of students pursuing the self-financing programmes concerned ¹
Caritas Institute of Higher Education	596	65%	161	46%	142	48%

Total	14 071	N.A.⁴	9 135	N.A.⁴	7 994	N.A.⁵

Note

1. The number of students is a provisional figure as at the end of December in the respective academic years. The final actual number of students may vary. The number of students does not include those enrolling in subsidised places under the Study Subsidy Scheme for Designated Professions/Sectors.
2. Since the institution did not provide the total number of students pursuing the self-financing programmes concerned, we are not able to calculate the percentage of students receiving subsidy out of the total.
3. Since the institution provided a combined figure of students pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes, the percentage is calculated on the basis of the total number of subsidy recipients who are pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes.
4. Since some of the institutions provided a combined figure of students pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes (see Note 3), we are not able to provide the respective total percentage shares of these two types of programmes.
5. Since the HKCT Institute of Higher Education did not provide the total number of students pursuing the self-financing programmes concerned (see Note 2), we are not able to calculate the total percentage of students receiving subsidy out of the number of students pursuing the self-financing programmes concerned.

(2) Self-financing Top-up Degree Programmes

Institutions	2017/18 Academic Year		2018/19 Academic Year		2019/20 Academic Year	
	Number of students receiving subsidy	Percentage share in the number of students pursuing the self-financing programmes concerned ¹	Number of students receiving subsidy	Percentage share in the number of students pursuing the self-financing programmes concerned ¹	Number of students receiving subsidy	Percentage share in the number of students pursuing the self-financing programmes concerned ¹

Vocational Training Council - Technological and Higher Education Institute of Hong Kong ³	816	87% ³	1 004	90% ³	1 060	92%
Yew Chung College of Early Childhood Education	Not a participant of the NMTSS		18	90%	33	97%
Total	6 197	N.A.⁶	7 512	N.A.⁶	8 038	N.A.⁷

Note

1. The number of students is a provisional figure as at the end of December in the respective academic years. The final actual number of students may vary.
2. Since the institution did not provide the total number of students pursuing the self-financing programmes concerned, we are not able to calculate the percentage of students receiving subsidy out of the total.
3. Since the institution provided a combined figure of students pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes, the percentage is calculated on the basis of the total number of subsidy recipients who are pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes.
4. Some programmes are collaborative programmes provided by the Open University of Hong Kong and SHAPE. The number of students receiving subsidy and its percentage out of the number of students pursuing the programmes concerned are reflected in the figures of SHAPE.
5. For SHAPE, the actual percentage of the number of students receiving subsidy out of the number of students pursuing self-financing programmes concerned in the 2019/20 academic year is 99.6%. The figure is rounded to an integer (i.e. 100%).
6. Since some of the institutions provided a combined figure of students pursuing self-financing first-year-first-degree programmes and self-financing top-up degree programmes (see Note 3), we are not able to provide the respective total percentage shares of these two types of programmes.
7. Since the HKCT Institute of Higher Education did not provide the total number of students pursuing the self-financing programmes concerned, we are not able to calculate the total percentage of students receiving subsidy out of the number of students pursuing the self-financing programmes concerned.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0176)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (a) In the financial years from 2016-17 to 2019-20, what Basic Law-related teaching resources and assessment banks were provided by the Education Bureau (EDB) for schools? For these teaching resources or assessment banks, please set out separately the production cost of each item.
- (b) Please advise this Committee of the following:
- (i) the estimated expenditure and staff establishment for the development of Basic Law education-related resource packages and assessment banks in the 2020-21 financial year;
 - (ii) the number of sets of learning and teaching resources the EDB plans to develop, as well as the names of these resources and the level of students for which they are developed; and
 - (iii) the specific plans the EDB has to promote Basic Law education.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 22)

Reply:

(a) to (b)(i)(ii)

To strengthen the implementation of Basic Law education (BLE), the Education Bureau (EDB) has been continuously adopting a wide array of measures, which include developing learning and teaching (L&T) resources, providing teacher training for school sponsoring bodies, school leaders and teachers, and organising life-wide learning activities for students. Such support measures enable schools and teachers to acquire a deeper understanding of the

concepts of the Basic Law and its close relevance to daily life, so that schools can enhance L&T efficacy by making plans for and taking forward BLE more effectively.

With respect to the development of L&T resources, the EDB has in the 2016-17 to 2019-20 financial years provided secondary schools with various sets of L&T resources, including “Development of Learning and Teaching Strategies and Resources to Facilitate Students’ Deep Learning of the Basic Law through Community Study”; online L&T resources for the “Constitution and the Basic Law” module; “Basic Law Knowledge Enrichment Online Course for Secondary School Teachers”; “Basic Law Online Course for Secondary School Students’ Self-directed Learning”; and 2 assessment banks, namely “Basic Law On-line Assessment (Junior Secondary)” (for students) and “Web on Assessment for BLE (Junior Secondary)” (for teachers). The 2 assessment banks have been developed for years and will continue to be available for schools’ use. The EDB staff will regularly review and update the content of these assessment banks, with regard to the latest developments in the implementation of the Basic Law. Expenditures related to the 2 assessment banks only involve daily website management. All the L&T resources mentioned above remain relevant. In the 2020-21 financial year, the EDB will continue to develop the advanced version of the “Basic Law Knowledge Enrichment Online Course for Secondary School Teachers”.

At the primary level, the EDB has in the 2016-17 to 2020-21 financial years provided 3 sets of L&T Resource CD ROMs for Primary General Studies on “History and Culture Series” and the “Basic Law Audio-visual L&T Package (Senior Primary)” to enhance teachers’ and students’ understanding of the Basic Law. The expenditures on various L&T resources are as follows:

Name of L&T Resources	Expenditure[^] (\$ million)
Development of Learning and Teaching Strategies and Resources to Facilitate Students’ Deep Learning of the Basic Law through Community Study (Secondary)	0.71
Online L&T resources for the “Constitution and the Basic Law” module	Not Applicable [^]
Basic Law Knowledge Enrichment Online Course for Secondary School Teachers and supplementary video clips	1.08
Basic Law Online Course for Secondary School Students’ Self-directed Learning and supplementary video clips	0.93
Basic Law On-line Assessment (Junior Secondary) (for students)	Not Applicable [^]
Web on Assessment for BLE (Junior Secondary) (for teachers)	Not Applicable [^]
L&T Resource CD ROMs for Primary General Studies (History and Culture Series): Understanding Chinese History and Culture through Monuments in Hong Kong	0.05
L&T Resource CD ROMs for Primary General Studies (History and Culture Series): The Stories of the Silk Road	0.06
Basic Law Audio-visual L&T Package (Senior Primary)	1.20 ⁺⁺
L&T Resource CD ROMs for Primary General Studies (History and Culture Series): Engineering in China	0.09 [#]
Advanced Basic Law Knowledge Enrichment Online Course for Secondary School Teachers	0.54 ⁺⁺

- ^ Total expenditures on L&T resources, which are incurred in different financial years (2015-16, 2016-17, 2017-18, 2018-19, 2019-20 and 2020-21).
- # Actual expenditure revised from last year's estimates
- ++ Revised from last year's estimates
- Δ Daily website management (including production) is subsumed under the recurrent expenditure of the EDB

The above-mentioned expenditures on the production of BLE-related L&T resources, which include resource packages and assessment banks, do not cover staff cost for the EDB personnel involved in the production. Since the development of L&T resources is an integral part of the day-to-day curriculum development work, it is not practical to give separate figures on the staff-related expenditure incurred by individual curriculum development tasks.

(b)(iii)

In the light of the needs of the school sector, the EDB will continue to strengthen BLE using diversified strategies, including updating L&T resources on an ongoing basis and organising teacher training activities. The EDB will also continue to enhance students' understanding of the historical background of the Basic Law and its implementation through student activities such as Basic Law quizzes and suitable exchange programmes and visits.

Question:

(1) Please provide the respective numbers of Hong Kong students pursuing undergraduate, taught postgraduate and research postgraduate studies in Mainland for the past 5 years (2015/16 to 2019/20 academic years).

(2) Please provide a list of Mainland institutions participating in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions for the past 5 years (2015/16 to 2019/20 academic years).

(3) Please provide a breakdown of the number of Hong Kong students enrolling in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions and the number of students who were successfully admitted under the Scheme by institution for the past 5 years (2015/16 to 2019/20 academic years).

(4) Please provide the first quartile, median and lower quartile scores of Hong Kong Diploma of Secondary Education Examination (HKDSE) candidates enrolling in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions for the past 5 years (2015/16 to 2019/20 academic years).

(5) Please provide the first quartile, median and lower quartile scores of HKDSE candidates who were successfully admitted under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions for the past 5 years (2015/16 to 2019/20 academic years).

(6) How many civil servants in the Education Bureau are responsible for handling matters relating to the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions for the past 5 years (2015/16 to 2019/20 academic years)? Please provide details of the staff establishment and the amount of public funds involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 27)

Reply:

(1) Regarding the number of Hong Kong students pursuing studies on the Mainland, we do not maintain such records. Nevertheless, according to the information provided by the Ministry of Education (MoE) of the People's Republic of China, the number of Hong Kong students studying undergraduate and postgraduate programmes in Mainland higher education institutions was 16 228 as at January 2020.

(2) MoE has implemented the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme) since the 2012/13 academic year. The number of Mainland higher education institutions participating in the Admission Scheme was 78, 84, 90, 102 and 112 in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 academic years respectively, and lists of such institutions are available on the website of the Education Bureau at www.edb.gov.hk/expo14, www.edb.gov.hk/expo15, www.edb.gov.hk/expo16, www.edb.gov.hk/expo17 and www.edb.gov.hk/expo18.

(3) The number of students enrolling in the Admission Scheme in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 academic years was 2 988, 2 689, 2 568, 3 216 and 3 511 respectively whereas the number of students admitted to Mainland higher education institutions under the Admission Scheme was 1 444, 1 391, 1 295, 1 556 and 1 784 respectively. As regards the number of Hong Kong students admitted by individual Mainland higher education institutions participating in the Admission Scheme, the relevant information provided by the institutions for the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 academic years is set out in the "Handbook on the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions" for the 2016/17, 2017/18, 2018/19, 2019/20 and 2020/21 academic years, which can be downloaded from the website of the Education Bureau at www.edb.gov.hk/expo15, www.edb.gov.hk/expo16, www.edb.gov.hk/expo17, www.edb.gov.hk/expo18 and www.edb.gov.hk/admissionscheme20 respectively.

(4) and (5) As regards the Hong Kong Diploma of Secondary Education Examination results attained by those students who enrolled in or were admitted under the Admission Scheme over the years, we do not maintain such records.

(6) The implementation of Admission Scheme involves staff from assistant clerical officer to directorate levels. The relevant manpower and expenditure have been subsumed under the overall establishment and expenditure of EDB and these personnel concurrently discharge other duties, hence a breakdown is not available.

Question:

The Education Bureau introduced the Mainland University Study Subsidy Scheme (MUSSS) in August 2014 to provide assistance for needy Hong Kong students to pursue undergraduate programmes in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions.

- (1) Please provide, with a breakdown by institution, the number of applicants and the respective number of students receiving full-rate and half-rate subsidies under the MUSSS in the past 5 years (2015/16 to 2019/20 academic years), as well as a list of the institutions and programmes involved.
- (2) Please provide the number of cases of attrition among students receiving subsidies under the MUSSS by institution in the past 5 years (2015/16 to 2019/20 academic years).
- (3) How many civil servants in the Education Bureau are responsible for handling matters relating to the MUSSS? Please provide details of the staff establishment and the amount of public funds involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 28)

Reply:

(1) The Mainland University Study Subsidy Scheme (MUSSS) was launched in July 2014. To better support Hong Kong students in pursuing studies in the Mainland, the MUSSS has been expanded since the 2016/17 academic year and a “non-means-tested subsidy” has been introduced under the MUSSS starting from the 2017/18 academic year. For the 2019/20 academic year, the full-rate subsidy and half-rate subsidy of the “means-tested subsidy” are \$16,800 and \$8,400 respectively. The “non-means-tested subsidy” offers \$5,600.

Breakdowns of the number of applicants in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 academic years, the number of students receiving the full-rate and half-rate subsidies in the 2015/16 and 2016/17 academic years, and the number of students receiving full-rate “means-tested subsidy”, half-rate “means-tested subsidy” and “non-means-tested subsidy” in the 2017/18, 2018/19 and 2019/20 (as at 29 February 2020) academic years by institution are set out at Annexes 1 to 5 respectively. Breakdown of the number of applicants by discipline is set out at Annex 6.

(2) 38 cases of attrition among the students receiving the subsidy under the MUSSS have been reported so far in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 academic years.

(3) To cope with the additional workload arising from the implementation of the MUSSS, the Education Bureau (EDB) and Working Family and Student Financial Assistance Agency (WFSFAA), in addition to making use of existing resources, have created civil service posts, namely 3 of Executive Officer Grade and 7 of Clerical Officer Grade. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA.

CONTROLLING OFFICER'S REPLY

EDB110

(Question Serial No. 0182)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (8) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

The Education Bureau of Hong Kong and the Ministry of Education of the Mainland have been jointly organising the Mainland Higher Education Expos for years in a row.

- (1) Please set out the dates, venues, themes and numbers of visitors of the Expos held in the past 5 years (2015/16 to 2019/20 academic years).
- (2) Are the expenses for organising the Expos borne equally by the Education Bureau and the Ministry of Education? Please set out the amount of public funds expended by the Hong Kong Government on the Expos in each of the past 5 years (2015/16 to 2019/20 academic years).
- (3) How many civil servants in the Education Bureau are responsible for handling matters relating to the Expos in the past 5 years (2015/16 to 2019/20 academic years)? Please provide details of the staff establishment and the amount of public funds involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 29)

Reply:

(1) To help local secondary schools, students and parents understand better the details of and arrangements for the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme), the Education Bureau (EDB) and the Ministry of Education (MoE) of the People's Republic of China have jointly organised the Mainland Higher Education Expos in Hong Kong annually since 2011 to inform teachers, students and parents of the particulars of the Admission Scheme and the latest development on further studies in the Mainland. However, the Mainland Higher Education Expo 2019 was suspended and eventually cancelled in light of the recent social situation and the novel coronavirus epidemic. Information about the Mainland Higher Education Expos from 2015 to 2018 is as follows:

Date	Venue	Theme	Approximate no. of visitors
7 & 8 November 2015	KITEC [^]	Details and arrangements of the Admission Scheme and the latest development on further studies in the Mainland.	12 000
17 & 18 December 2016	KITEC [^]		10 000
2 & 3 December 2017	HKCEC [*]		10 000
1 & 2 December 2018	HKCEC [*]		11 000

[^] Kowloonbay International Trade & Exhibition Centre (KITEC)

^{*} Hong Kong Convention and Exhibition Centre (HKCEC)

(2) EDB is responsible for all the costs incurred for organising the Mainland Higher Education Expo. The actual expenditure involved in organising the Expos from 2015 to 2018 is as follows:

Financial year	Actual expenditure (\$ million)
2015-16	3.23
2016-17	3.58
2017-18	4.07
2018-19	4.11

At the Expos, Mainland institutions participating in the Admission Scheme set up exhibition booths and held talks to disseminate information on their institutions and disciplines, admission requirements, number of student places, tuition fees, etc. There were also thematic sharing sessions for representatives of the institutions to brief teachers, students and parents on the characteristics of individual programmes and employment prospects of graduates. MoE would support representatives of the Mainland institutions to come to Hong Kong to participate in the Expos at its cost.

(3) The organising of Mainland Higher Education Expos involves staff from assistant clerical officer to directorate levels. The relevant manpower and expenditure have been subsumed under the overall establishment and expenditure of EDB, hence a breakdown is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0185)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

- (1) What were the actual expenditures of the Committee on Self-financing Post-secondary Education, the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ), the Quality Assurance Council (QAC) and the Joint Quality Review Committee (JQRC) in the past 5 years (2015-16 to 2019-20)? What are their respective estimates for 2020-21?
- (2) How many programmes were assessed by the HKCAAVQ, QAC and JQRC respectively in the past 5 years (2015-16 to 2019-20)? How many programmes were found not up to standard?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 32)

Reply:

- (1) The Committee on Self-financing Post-secondary Education (CSPE) is established to advise the Government on the development of the self-financing post-secondary education sector. To implement the recommendations in the review report of the Task Force on Review of Self-financing Post-secondary Education in 2018, the CSPE was revamped in November 2019, with the appointment of new members (including two non-local members). In 2019-20, the expenditure of the CSPE, which was around \$190,000, was used to cover the air passage, accommodation, as well as per-diem allowance of non-local members. We estimate that the expenditure of the CSPE in 2020-21 will be around \$750,000, of which around \$400,000 will be used to cover expenditures relating to non-local members' air passage, accommodation, as well as per-diem allowance. Moreover, following the practice of the University Grants Committee (UGC), we propose to provide honoraria to non-official local members and non-local members as a token of recognition of their contributions to the work of the CSPE. We plan to consult the Legislative Council Panel on Education on the proposal to provide honoraria to members of the CSPE, and the related expenditure is

estimated at around \$350,000 for 2020-21. The Education Bureau (EDB) provides secretariat support to the CSPE and the secretariat posts are part of EDB's establishment. Serving the CSPE is part and parcel of the officers' duties for the relevant subject areas. The related expenditure of the secretariat posts could not be identified separately as they are absorbed by the existing resources of EDB.

The Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) is established under the HKCAAVQ Ordinance (Cap. 1150) to provide accreditation and assessment services for academic and vocational qualifications. It is also responsible for the quality assurance of all operators and programmes under the Hong Kong Qualifications Framework except for the UGC-funded universities with self-accrediting status. The HKCAAVQ is a self-financed body and does not receive recurrent subvention from the Government.

As a statutory body, the HKCAAVQ's annual report is tabled at the Legislative Council every year in accordance with the HKCAAVQ Ordinance. The actual expenditure of the HKCAAVQ in the past 5 years from 2015-16 to 2019-20 (as at end-February 2020) and the estimated expenditure for 2020-21 are as follows –

2015-16	2016-17	2017-18	2018-19	2019-20 (As at end-February 2020)	2020-21 (Estimate)
(\$ million)					
89.4	88.7	83.1	84.2	76.8	100.1

The Quality Assurance Council (QAC), established under the aegis of UGC, aims to assure that the quality of educational experience in programmes at the levels of sub-degree, first degree and above (however funded) offered in UGC-funded universities is sustained and improved, and is at an internationally competitive level.

The actual expenditure of QAC in the past 5 years from 2015-16 to 2019-20 and the estimated expenditure for 2020-21 are as follows –

2015-16	2016-17	2017-18	2018-19	2019-20 (As at end-February 2020)	2020-21 (Estimate)
(\$ million)					
1.4	1.0	1.1	1.7	0.4	0.8

The expenditure of QAC mainly includes expenses for air passage, accommodation, as well as per-diem allowance of QAC members and Audit Panel members who are not based in Hong Kong. QAC conducted the second round of QAC quality audits in 2015 and 2016, and conducted the audit activities for the sub-degree operations of UGC-funded universities from 2017 to 2019. The increase in non-local Audit Panel members for quality audits on sub-degree operations as compared with the second round of quality audits resulted in higher expenditure for 2018-19. The QAC commenced the preparation work for the third round of quality audits in 2019-20. Besides, QAC members and Audit Panel members who are not based in Hong Kong

receive honoraria for their participation in the QAC/audit activities. The annual rates of honoraria, which are reviewed according to the rates of civil service salary adjustments, ranged from \$88,850 to \$104,250 for non-local QAC members and \$48,950 to \$57,830 for non-local Audit Panel members over the period from 2015-16 to 2019-20.

Since 2016, UGC has assumed the role of the overseeing body of the external quality audits on the sub-degree operations of UGC-funded universities, with the involvement of QAC as the audit operator. In this connection, the former Joint Quality Review Committee (JQRC), which was established by the Heads of Universities Committee to provide peer review of the quality assurance processes of self-financing sub-degree programmes offered by UGC-funded universities, ceased operation in 2016. The Government did not provide any funding to the JQRC and has no information about its annual expenditure.

- (2) The HKCAAVQ is empowered under the HKCAAVQ Ordinance to conduct accreditation for academic and vocational programmes. In the past 5 years from 2015-16 to 2019-20 (as at end-February 2020), the number of programmes accredited/re-accredited, as well as those not approved by the HKCAAVQ are as follows:—

Number of Programmes	Financial Year				
	2015-16	2016-17	2017-18	2018-19	2019-20 (As at end-February 2020)
Accredited/ Re-accredited Note	280	235	329	403	196
Not approved ^{Note}	2	0	0	0	0

The HKCAAVQ spares no effort in raising the awareness of operators regarding the accreditation requirements in order to facilitate self-evaluation of their readiness to undergo accreditation. Operators are alerted early in the accreditation process if they were unable to demonstrate sufficient evidence to meet the required accreditation standards. Operators would have chosen not to proceed with the accreditation exercise if the chance of successful accreditation was considered slim. Therefore, the number of unsuccessful accreditation exercise is small.

Note: Figures include accredited and re-accredited local and non-local programmes but do not include programmes covered by Programme Area Accreditation (PAA). PAA allows providers to develop and operate learning programmes within an approved scope of programme area(s) at specified Qualifications Framework Level(s) for an approved period of time, and have the qualifications of its learning programmes entered into the Qualifications Register (QR) without going through learning programme accreditation or re-accreditation by the HKCAAVQ.

On the other hand, the former JQRC endorsed self-financing sub-degree programmes of UGC-funded universities for the purpose of registration on the QR. It should be noted that both the former JQRC and QAC did/do not accredit individual programmes of UGC-funded universities as these universities already have self-accrediting status. As mentioned above, since the former JQRC ceased operation in 2016, the number of self-financing sub-degree programmes endorsed/re-endorsed as well as those not endorsed/not re-endorsed since 2015-16 are not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 0186)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the financial position in respect of the Hong Kong Examinations and Assessment Authority's conduct of the Territory-wide System Assessment (TSA) and Basic Competency Assessment (BCA), please provide the following information:

- (1) The cost per subject entry in each of the past 5 years, broken down by items of expenditure;
- (2) The number of students taking the TSA/BCA in each of the past 5 years, broken down by class level; and the cost incurred by special examination arrangements provided for candidates with special educational needs; and
- (3) The estimated expenditure for the TSA scheduled this year; and the number of students expected to take the assessment.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 33)

Reply:

(1)

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Student Assessment (SA) (2017 and before) and Territory-wide System Assessment (TSA). The payment, which is settled with the HKEAA according to the terms of contract and service items (instead of subjects) on an annual basis, includes item setting, printing, and administration fees on administering schools' participation in the assessment. The expenditure incurred in the past 5 years is tabulated as follows:

Contract year	Expenditure (\$ million)		Total expenditure (\$ million)	Average annual expenditure (\$ million)
	SA	TSA and related study under the project		
2015-2018	3*	290	293	73
2019	Not applicable	85	85	Not applicable

*Note: Since January 2017, the expenditure on Student Assessment Repository (STAR) platform (formerly SA) has been subsumed under the overall expenditure of EDB.

(2) and (3)

According to the information provided by the HKEAA, the number of students participating in TSA in the 2015/16 to 2018/19 school years is tabulated as follows:

School year/class level	Primary 3	Primary 6	Secondary 3
2015/16 school year	5 156	1 952 [△]	55 278
2016/17 school year	54 506	47 220	52 707
2017/18 school year	See below for details	About 2 500 [△]	About 50 000

△ Since 2012, Primary 6 TSA has been conducted in odd-numbered years. Schools can opt to take the assessment in even-numbered years on a voluntary basis.

Starting from 2018, Primary 3 TSA has been conducted with a low-stake approach of “no student names, no school names, no collection of reports and selection of participants by sampling”. At the territory-wide level, the HKEAA samples around 10% of students from each public sector and Direct Subsidy Scheme school for Primary 3 TSA each year. If schools consider necessary, the HKEAA can arrange participation of their Primary 3 students in TSA in full cohort.

Since the number of schools arranging participation of their Primary 3 students in TSA in full cohort (and the related number of students) are not pertinent to the policy objective, the EDB does not inquire the HKEAA about the schools that opt for full participation of their Primary 3 students in TSA (and the related number of students), and no longer maintains the information on the related breakdown of primary and secondary students participating in TSA. In line with the policy intent of the assessment arrangements, the HKEAA will also no longer disclose the relevant information.

According to the information provided by the HKEAA, the expenditure involved in providing special examination arrangements for students with special educational needs and non-Chinese speaking students participating in TSA in the 2015/16, 2016/17, 2017/18 and 2018/19 school years was about \$90,000, \$160,000, \$140,000 and \$180,000 respectively. For the 2019/20 school year, the original estimated expenditure for TSA is \$85 million whereas the estimated expenditure for providing special examination arrangements is

\$190,000. In view of the latest situation of COVID-19, the EDB has announced that TSA of all related class levels would be suspended in the current school year.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Please provide the respective number of primary and secondary schools as well as total number of schools participating in the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme), and the average amount of grant disbursed to each primary and secondary school in each of the school years since the 2015/16 school year;

(b) The Government had announced that the Pilot Scheme would be regularised starting from the 2018/19 school year. Please provide the respective number of participating primary and secondary schools, and the average amount of grant received by each primary and secondary school in the 2018/19 and 2019/20 school years; and

(c) Please provide a list of local schools participating in the Pilot Scheme, the names of their Mainland sister schools, and the respective number of local schools that have formed 0, 1, 2 and 3 or more sister schools with their counterparts in the Mainland.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 34)

Reply:

(a) and (b)

The Education Bureau (EDB) launched the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme) from the 2015/16 to 2017/18 school years, under which a fixed grant and professional support were provided for each local public sector and Direct Subsidy Scheme school (including special school) that has formed sister schools with its counterparts in the Mainland. The Government has regularised the Pilot Scheme with effect from the 2018/19 school year. The number of participating schools and the amount of grant disbursed are set out by school year below:

School year	Secondary school	Primary school	Special school	Total no. of schools	Amount of grant for each school per school year (\$)
2015/16	150	139	13	302	120,000
2016/17	223	228	20	471	120,000
2017/18	250	260	25	535	120,000
2018/19	296	312	26	634	150,000
2019/20 (as at March 2020)	305	329	28	662	154,950

(c) For the 2019/20 school year, according to the information submitted by the 662 schools that have applied for the Grant for the Sister School Scheme (as at March 2020), the number of local schools that have formed 1, 2 and 3 or more sister schools with their Mainland counterparts are 194, 207 and 261 respectively. As a prevailing practice, we do not disclose the names of schools participating in the scheme and the relevant information to avoid possible labelling effect and unnecessary pressure on individual schools.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding strengthening the manpower of specialists in special schools to improve special education services, would the Government advise this Committee of the following:

(i) the details about providing an occupational therapist and an occupational therapist assistant for schools for children with mild intellectual disability, schools for children with moderate intellectual disability, schools for children with visual impairment and the school for children with hearing impairment from the 2017/18 school year; the expenditures involved in the school years from 2017/18 to 2019/20, and the estimated expenditures for the 2020/21 school year;

(ii) the details about creating school-based speech therapist (SBST) posts in public sector ordinary schools by phases in 3 years starting from the 2019/20 school year; and the implementation details of the above measure in 2019/20, including the number of applicant schools, the number of schools granted approval in the first stage, the number of clusters formed by schools, the number of SBSTs employed by these clusters, the average length of experience and average monthly salary of the SBSTs employed, the number of vacant SBST posts under the existing measure, the pay scale of SBSTs and the estimated expenditures for the 2020/21 school year; and

(iii) with certain special schools indicating difficulties in recruiting school-based occupational therapists and speech therapists owing to shortage of specialists, the number of schools that have been unable to recruit occupational therapists and speech therapists since the 2018/19 school year by school type, and the number of special schools that have been unable to recruit occupational therapists with a breakdown by type of special schools; whether the Government has any plan to improve this situation, and if yes, the total estimated expenditures involved?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 36)

Reply:

(i) and (iii)

Starting from the 2017/18 school year, the Education Bureau (EDB) provides occupational therapists (OTs) and occupational therapist assistants (OTAs) to schools for children with mild intellectual disability (ID), schools for children with moderate ID, schools for children with visual impairment (VI) and the school for children with hearing impairment (HI) so that these allied health professionals may provide necessary support for students displaying weaknesses in fine motor skills and hand-eye co-ordination. 1 OT II and 1 OTA are provided to special schools under the above categories which operate 6 or more approved classes. In the 2017/18, 2018/19 and 2019/20 school years, a total of 34 special schools benefited from the measure annually. The number of beneficiaries in the 2020/21 is estimated to be similar. The expenditures for this measure in the 2017/18 and 2018/19 school years were around \$21 million and \$27 million respectively, and the estimated annual expenditure in the 2019/20 and 2020/21 school years will be around \$33 million.

According to the information collected by the EDB, in the 2019/20 school year, among these 34 special schools, 32 schools have employed OTs or frozen (all or part of) the OT post vacancies to obtain a cash grant for recruiting temporary staff or procuring related services. The remaining 2 schools have neither recruited any OT nor applied for the cash grant.

As for speech therapists (STs), in the 2019/20 school year, all 59 special schools with ST posts have employed STs or frozen (all or part of) the ST post vacancies to obtain a cash grant for recruiting temporary staff or procuring related services.

To improve manpower supply of OTs, universities are requested to increase training places. Through the Study Subsidy Scheme for Designated Professions/Sectors, the self-financing post-secondary education sector is also encouraged to offer designated programmes in selected disciplines, including nursing, to nurture talent in support of specific industries with keen demand for human resources. At present, graduates of degree programmes in occupational therapy are gradually entering the job market.

(ii) Starting from the 2019/20 school year, the EDB implements the “Enhanced School-based Speech Therapy Service” (Enhanced SBSTS) by creating school-based speech therapist (SBST) posts in the public sector ordinary schools by phases. The EDB forms clusters of schools according to the number of approved classes of schools, number of students with speech and language impairment (SLI) and their severity level of SLI, previous experience of schools in employing SBSTs and their preference. Most of the clusters are formed by 2 schools, and a small number of clusters are formed by 3 schools. A school in each cluster is the base school. The permanent posts of SBST are created in the base schools.

In the 2018/19 school year, a total of 443 public sector ordinary primary and secondary schools informed the EDB in writing of their intention to implement the Enhanced SBSTS in the 2019/20 school year. In the 2019/20 school year, the EDB created 118 SBST posts in 223 ordinary primary and secondary schools. Among them, 174 schools constituting 92 clusters have employed 93 SBSTs, and there are still 25 SBST vacant posts. The EDB continues to provide schools that have not yet employed their SBSTs with additional grants for procurement of service to support the students with SLI in schools.

Regarding the length of experience of the SBSTs employed in the 2019/20 school year, it ranged from fresh graduates joining the career to having more than 10 years of relevant work experience. The SBSTs are remunerated at Master Pay Scale Points 16 to 33. The estimated expenditure for implementing the Enhanced SBSTS in the 2020/21 school year will be around \$140 million.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In the 2017 school year, the Government increased recurrent expenditure on education by \$3.6 billion, which included increasing the provision of 0.1 teacher per class in primary, secondary and special schools. Please advise this Committee of the following:

- (1) What is the respective number of additional regular teaching posts created with the new resources in primary, secondary and special schools? How many of these regular teaching posts are filled by contract teachers deployed within the same school and what is the percentage?
- (2) What is the number of schools that have not yet recruited regular graduate teachers with the new resources? Please provide, by year, the number of schools failing to recruit regular graduate teachers and the reasons for that.
- (3) What is the number of secondary schools participating in the Voluntary Optimisation of Class Structure Scheme (VOCSS) that have the number of surplus teachers offset/reduced by the aforesaid additional teaching posts? What is the number of surplus teachers involved? Please give the overall number for the territory together with a breakdown by district.
- (4) What is the respective amount of additional funding involved in increasing the provision of 0.1 teacher per class in primary, secondary and special schools?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 37)

Reply:

(1), (2) and (4)

Starting from the 2017/18 school year, the teacher-to-class (T/C) ratio for public sector primary and secondary schools (including special schools) has been increased by 0.1 across-the-board, and the respective additional full year costs required are around \$800 million and \$700 million. This initiative has brought about an increase of around 1 200 and 1 000 additional regular teaching posts in public sector primary schools (including special schools) and public sector secondary schools (including special schools) respectively, which provides additional teaching staff for schools to take forward various education initiatives and enhance the quality of education for the benefit of our students.

The number of regular teaching posts provided to public sector schools every year may be adjusted according to the number of classes approved, T/C ratio, and additional regular teaching posts provided under various initiatives, etc. In addition, the number of regular teaching post vacancies changes according to the turnover of teaching manpower as a result of, for example, retirement or resignation. In general, schools will make appropriate manpower deployment based on the total number of regular teaching posts available and there is no genuine need for them to differentiate the source of manpower supply for each filled regular teaching post vacancy. Therefore, the Education Bureau (EDB) has not collected the relevant statistics, and we are unable to provide the number and percentage of additional regular teaching posts generated by the increase in T/C ratio by 0.1 and filled by contract teachers deployed within the same school, as well as the number of schools which have yet to employ additional regular teachers due to the increase in T/C ratio by 0.1 since the 2017/18 school year. Our information shows that some 1 700 contract teachers appointed in the 2016/17 school year have been employed as regular teachers within the establishment of public sector schools in the 2017/18 school year. To our understanding, most aided schools have employed additional regular teachers to fill teaching post vacancies within the approved establishment and considered filling the regular teaching post vacancies with existing contract teachers where appropriate, with the exception of individual schools which have used the vacancies to absorb surplus teachers arising from class reduction or withdrawal of teaching post quota under the VOCSS. For government schools, the EDB has already filled around 510 regular teaching post vacancies in primary and secondary schools since the 2017/18 school year and will continue the recruitment efforts to fill the vacancies in the 2020/21 school year.

(3) The teaching post quota provided to schools participating in the VOCSS has all been withdrawn in the 2019/20 school year according to the provisions under the scheme. Schools can use the additional regular teaching posts created by the increase in T/C ratio to absorb their surplus teachers. Since the actual number of surplus teachers absorbed in individual schools may be affected by factors such as changes in class structure and natural wastage of teachers, the requested figures are not available.

- (c) the details of and the expenditure incurred by the Education Bureau (EDB) on the development of the Support Network (Education services for NCS students);
- (d) the number of NCS students participating in the remedial programmes offered by the Chinese Language Learning Support Centres and the number of such centres in various districts;
- (e) the number of schools joining the Language Support Services, the number of NCS students benefitting from such services and the expenditure involved;
- (f) the number of schools joining the School-based Curriculum Development Support Services for primary schools, the number of NCS students benefitting from such services and the expenditure involved;
- (g) the number of students participating in the Induction Programme, Initiation Programme and 4-week Summer Bridging Programme, the number of schools offering such programmes and the total expenditure involved;
- (h) details of the Pilot Scheme on Workplace Chinese Language, and the annual number of NCS students participating in the scheme as well as the total expenditure involved since its introduction in July 2012;
- (i) the implementation details of activities co-organised by EDB and non-governmental organisations and targeted at NCS students, including programme names, co-organisers and the number of participants;
- (j) the number of NCS students entering for the Chinese examinations under the General Certificate of Secondary Education (GCSE), International General Certificate of

Secondary Education (IGCSE) and General Certificate of Education (GCE) and the number of students who were granted full or half fee remission of the “subsidised examination fee” under the Examination Fee Remission Scheme; and

- (k) the expenditure and staff establishment involved in implementing the “Chinese Language Curriculum Second Language Learning Framework” designed for NCS students, and the numbers of primary and secondary school teachers, ethnic minority teachers and teaching assistants who received the relevant training since the 2015/16 school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 38)

Reply:

- (a) According to the information collected through the annual Enrolment Survey, the number of non-Chinese speaking (NCS) ethnic minority students studying at different grade levels in public sector primary and secondary schools, Direct Subsidy Scheme (DSS) primary and secondary schools and special schools from the 2015/16 to 2019/20 school years, disaggregated by the ethnicities specified in the question, is tabulated at Annex A, Annex B and Annex C respectively. The number of ethnic minority students studying at different grade levels in kindergartens from the 2015/16 to 2019/20 school years is tabulated at Annex D.
- (b) The number of kindergartens, public sector primary and secondary schools, DSS primary and secondary schools, and special schools admitting NCS students ranging from “less than 10”, “10 to 30”, “31 to 50”, “51 to 75”, “76 to 90” and “91 or above” from the 2015/16 to 2019/20 school years is tabulated at Annex E.
- (c) From the 2006/07 to 2012/13 school years, schools admitting a critical mass of NCS students, having experience in taking care of NCS students, and being ready to partner with the Education Bureau (EDB) to develop school-based support measures and share experiences with other schools were provided with additional funding and professional support services to develop school-based support programmes specifically arranged for NCS students to further help NCS students learn and integrate into the community. The funding arrangement has been revised with effect from the 2013/14 school year under which all schools admitting 10 or more NCS students are provided with additional recurrent funding to enhance the support for NCS students’ learning of the Chinese language. Starting from the 2014/15 school year, the funding has been substantially enhanced to facilitate schools’ implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools. As regards support for schools, EDB currently facilitates sharing and exchange between schools admitting NCS students and other schools, through various channels, such as inter-school activities, publications and webpages, etc., with a view to benefitting all NCS students. The relevant work is undertaken by different sections of EDB and deployment of staff may be adjusted having regard to the needs and circumstances of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure by item is not available.

- (d) The number of NCS students participating in the after-school support programmes offered by the Chinese Language Learning Support Centres and the number of centres from the 2015/16 to 2019/20 school years are tabulated below:

School year	Number of participating NCS students	Number of centres
2015/16	974	22
2016/17	1 057	22
2017/18	724	19
2018/19	811	20
2019/20 (Note)	757	19

Note: Figures as at January 2020.

- (e) The number of schools admitting NCS students and provided with the Language Learning Support Services from the 2015/16 to 2019/20 school years is as follows:

School year	Number of participating schools	Number of participating NCS students
2015/16 (Note)	26	2 240
2016/17 (Note)	27	1 940
2017/18 (Note)	25	1 422
2018/19 (Note)	27	1 563
2019/20 (Note)	25	1 686

Note:

Starting from the 2014/15 school year, EDB has enhanced the school-based professional support services for schools admitting NCS students through diversified modes. In addition to the professional support services provided by the Language Learning Support Section, schools admitting NCS students were also supported through the Professional Development Schools Scheme, University-School Support Programmes, School Support Partners (Seconded Teacher) Scheme, etc. funded by the Education Development Fund. In the 2015/16, 2016/17, 2017/18 and 2018/19 school years, 97, 93, 78 and 70 schools admitting NCS students received professional support services respectively, benefitting about 8 150, 9 390, 7 120 and 5 640 NCS students in the respective school years. The Education Development Fund ceased to operate at the end of the 2018/19 school year. EDB has commissioned post-secondary institutions to provide school-based support services for schools admitting NCS students in the 3 school years from 2019/20 to 2021/22. The support services for the 2019/20 school year have been launched, providing support to 28 primary schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure by item is not available.

- (f) One of the objectives of providing the school-based curriculum development support services is to help schools cater for learner diversity from the curriculum perspective. The services are school-based and contextualised according to school circumstances to benefit all students, including but not limited to NCS students, in the participating schools. From the 2015/16 to 2019/20 school years, about 152 primary schools received school-based support services each year. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure by item is not available.

- (g) The number of schools/non-governmental organisations (NGOs) offering the full-time Initiation Programme and Induction Programme for newly-arrived NCS students and the Summer Bridging Programme for NCS students, the number of participating NCS students, and the expenditure from the 2015/16 to 2019/20 school years are tabulated below:

Initiation Programme

School year	Number of participating schools	Number of participating newly-arrived NCS students	Expenditure (\$ million)
2015/16	3	167	5.42
2016/17	3	171	5.65
2017/18	3	152	6.00
2018/19	3	118	6.24
2019/20 (estimated)	3	126	6.49

Induction Programme

School year	Number of participating NGOs	Number of participating newly-arrived NCS students	Expenditure (\$)
2015/16	1	10	21,000
2016/17	1	11	22,000
2017/18	(Note)	(Note)	(Note)
2018/19	(Note)	(Note)	(Note)
2019/20 (estimated)	1	10	24,000

Note: No newly-arrived NCS children enrolled in the Induction Programme in the 2017/18 and 2018/19 school years.

Summer Bridging Programme

School year	Number of participating schools	Number of participating NCS students	Expenditure (\$ million)
2015/16 (Note)	33	1 650	2.6
2016/17 (Note)	33	1 590	2.6
2017/18 (Note)	33	1 390	2.3
2018/19 (Note)	33	1 260	2.1
2019/20 (Note)	29	1 140	2.0

Note:

Starting from 2013, parents of NCS students may accompany their children to attend the programme with a view to enhancing their exposure to, and use of, Chinese which in turn will strengthen their support for their children. In 2015, 2016, 2017, 2018 and 2019, the number of participating parents of NCS students is about 240, 190, 150, 140 and 90 respectively.

- (h) The Pilot Scheme on Workplace Chinese Language Programme for NCS Students comprised 12 courses pegged with Qualifications Framework Levels 1 to 3. These courses were provided by phases from the 2011/12 to 2014/15 school years. The

Pilot Scheme ended in the 2014/15 school year and hence no relevant data for the 2015/16 to 2019/20 school years is available.

- (i) Since the 2012/13 school year, EDB has, in collaboration with NGOs, organised district-based programmes for NCS children aged 3 to 9 in localities with a greater concentration of NCS students, with a view to motivating them to learn Chinese through fun activities such as games and creative arts. The NGOs organising the programmes and the number of participating NCS students from the 2015/16 to 2019/20 school years are tabulated below:

School year	Organiser(s) of district-based programmes	Name of programme	Number of participating NCS students
2015/16	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	Project on Supporting NCS Children in Learning Chinese	around 400
2016/17	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	Project on Supporting NCS Children in Learning Chinese	around 400
2017/18	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	Project on Supporting NCS Children in Learning Chinese	around 400
2018/19	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	Project on Supporting NCS Children in Learning Chinese	around 400
2019/20	Dawn Foundation Limited	Project on Supporting NCS Children in Learning Chinese	around 200

- (j) Eligible school candidates entering for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that the subsidised school candidates are only required to pay a “subsidised examination fee” on par with the examination fee for the Chinese Language subject in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Examination (HKDSE). Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations, including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level. Starting from the 2011/12 school year, apart from the examination fee subsidy, eligible needy NCS students entering for the GCSE (Chinese) Examination can apply for full or half fee remission of the “subsidised examination fee” under the Examination Fee

Remission Scheme (EFRS). The EFRS has further been extended to eligible needy NCS students entering for the IGCSE, GCE AS-Level and GCE A-Level (Chinese) examinations from the 2012/13 school year onwards. The number of NCS students subsidised to enter for relevant examinations and granted full or half fee remission of the “subsidised examination fee” under the EFRS from the 2015/16 to 2019/20 school years is tabulated below:

School year	Number of NCS students subsidised	Number of NCS students granted full fee remission	Number of NCS students granted half fee remission
2015/16	1 536	140	114
2016/17	1 747	164	123
2017/18	1 950	209	146
2018/19	1 544	Note	
2019/20	2 108	Note	

Note:

With the Government paying the examination fees for school candidates of the 2019 and 2020 HKDSE, the “subsidised examination fee” for eligible NCS students entering for the aforementioned non-local Chinese Language examinations in the 2018/19 and 2019/20 school years is waived accordingly. Hence, needy students are not required to apply for examination fee remission in the 2018/19 and 2019/20 school years.

- (k) Starting from the 2014/15 school year, EDB has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for NCS students’ learning of the Chinese language, including the implementation of the “Learning Framework”, which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools.

To enhance teachers’ professional capability in teaching NCS students, EDB has been continuously organising systematic and diversified professional development programmes to enable teachers to gain a deeper understanding of the “Learning Framework” and master effective teaching methods. The “Learning Framework” was introduced in the 2014/15 school year. Relevant training commenced in the same year and there were nearly 1 800 counts on teacher participation within the school year. From September 2015 to February 2020, there were a total of 354 primary schools and 261 secondary schools that had sent their teachers (around 2 670 counts on participation) to participate in seminars and workshops organised by EDB.

EDB has also commissioned the University of Hong Kong to conduct 10 teacher workshops every school year for Chinese Language teachers who teach NCS students. These workshops cover the learning and teaching of the Chinese Language for NCS students, including overall curriculum planning, teaching strategies, design of diversified activities, cultural inclusiveness, classroom teaching, as well as experience sharing. About 3 000 teachers attended the workshops from the 2015/16 to 2019/20 school years. The annual expenditure is about \$300,000 to \$500,000.

In addition, to enhance pedagogical effectiveness in supporting NCS students' learning of the Chinese language, content on how to teach Chinese from the perspective of second language learners has been embedded in different professional development programmes for teachers as appropriate. We have not kept a separate record of which training programmes have incorporated such elements and are therefore unable to give the number of teachers who have attended the programmes or its breakdown.

The above measures are undertaken by different sections of EDB, and deployment of staff may be adjusted as appropriate. Except for the information provided separately above, the manpower resources and expenses are subsumed under the overall expenditure and/or different funds of EDB.

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include public sector primary schools and Direct Subsidy Scheme primary schools, but not special schools.
3. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking students. Figures have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.
4. Mixed-race students may report their ethnicity as “Others” or the ethnicity group deemed the most appropriate by their parents/guardians/the students.

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures for kindergartens include K1, K2 and K3 classes of kindergarten-cum-child care centres. Figures include both local and non-local kindergartens.
3. Figures for primary and secondary schools include public sector schools and Direct Subsidy Scheme schools, but not special schools.
4. Figures include those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
5. Hospital school is not included in special schools due to the transitional nature of the education service provided.

EDB117

(Question Serial No. 0191)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the attendance of public examinations and other territory-wide examinations by students with special educational needs (SEN), please provide the information of the past 5 years (2015/16 to 2019/20 school years):

(a) among the students with SEN who attended the Hong Kong Diploma of Secondary Education Examination (HKDSE) in each school year, the number of students who applied for and were provided with the special examination arrangements, by category of SEN and category of special arrangements;

(b) the number of dropped out Secondary 4 and Secondary 5 students with SEN, and the number of students with SEN who have studied Secondary 6 but eventually did not enrol in the HKDSE or have enrolled in the HKDSE but were absent from the examination, by category of SEN and category of special arrangements;

(c) the Hong Kong Examinations and Assessment Authority's expenditure on making special examination arrangements for candidates in public examinations;

(d) details of various special examination arrangements currently made by mainstream schools for students with SEN sitting for the Pre-Secondary One Hong Kong Attainment Test and Territory-wide System Assessment, as well as the Education Bureau (EDB)'s expenditure on providing such special examination arrangements in the past 5 years;

(e) the expenditure involved in the EDB's arrangements for payment of the examination fees for school candidates sitting for the 2019 HKDSE; and

(f) the percentage share of the number of students with SEN who attended the HKDSE and were provided with the special examination arrangements in the total number of candidates, and the total number of candidates of each year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 39)

Reply:

(a) The number of students with special educational needs (SEN) applying for and with approval given for special examination arrangements in the Hong Kong Diploma of Secondary Education (HKDSE) Examination in the past 5 school years from 2015/16 to 2019/20, set out by type of SEN and special examination arrangements is at Appendix.

(b) From the 2015/16 to 2018/19 school years, about 470, 470, 610 and 660 students with SEN were reported to have left school after completing Secondary 4 (S4) or Secondary 5 (S5). According to the information provided by schools, these students left school mainly to continue their studies in local private schools, attend full-time or part-time courses run by the Vocational Training Council, join apprenticeship schemes or receive pre-employment vocational training, or pursue overseas studies. With the implementation of the new senior secondary curriculum and the diversified articulation to different pathways for lifelong learning, all students, including those with different types of SEN, will consider a variety of factors, such as one's own academic/vocational/career/life aspirations, interests, aptitudes and educational needs, in order to make an informed choice about their exit pathway. In recent years, we note an increase in the number of students with SEN who left school after completing S4 or S5. Apart from the increase in the overall number of students with SEN, it is believed that these students may have pursued other developments according to their own needs. Providing a breakdown of S4 and S5 students who left school by type of SEN and special examination arrangements is not practically meaningful.

We do not maintain information on the number of S6 students with SEN who do not enrol in the HKDSE Examination. The number of absentees with SEN by type of SEN is only available since the 2015 HKDSE Examination and is set out as follows:

Year of Examination	Physical Disabilities	Visual Disabilities	Aural Disabilities	Oral Disabilities	Specific Learning Disabilities	Other Disabilities	Total
2015	0	0	0	1	0	2	3
2016	1	0	2	2	8	16	29
2017	3	1	0	0	7	10	21
2018	2	0	2	1	7	14	26
2019	0	0	0	1	15	34	50

(c) The expenditure incurred by the Hong Kong Examinations and Assessment Authority (HKEAA) on the provision of special examination arrangements for HKDSE Examination in the past 5 years is as follows:

School year	Expenditure (\$ million)
2015/16	12.1
2016/17	14.6
2017/18	14.7
2018/19	16.7
2019/20	19.4*

Note: The HKEAA's financial year runs from 1 September of a year to 31 August of the following year.

* Projection based on the resources required in handling an increase in the number of candidates with SEN and the complexity for special examination arrangements, and with reference to the actual expenditure between September 2019 and January 2020.

(d) For the Pre-Secondary One Hong Kong Attainment Test, the Education Bureau (EDB) provides a prescribed form for primary schools to indicate the needs of their students with SEN and the necessary support that they recommend for these students. The completed form is to be forwarded by Primary 6 students/their parents to the secondary schools which have offered them a school place, so that the secondary schools will provide special arrangements accordingly. The special arrangements required mainly include extending the duration of tests, allowing exemption of listening test and making special seating arrangements. If necessary, secondary schools may request the EDB's assistance, such as provision of enlarged question and answer booklets. The EDB incurred a total expenditure of around \$850,000 for this purpose from the 2015/16 to 2019/20 school years.

Under the existing arrangement for the Territory-wide System Assessment (TSA), schools may select special examination support arrangements for students with SEN according to their actual needs. Schools may adopt their internal assessment modes or methods in selecting special examination support arrangements for these students, including allowing students to take assessments separately; extending assessment duration; and providing auxiliary facilities and equipment (e.g. typewriter or magnifier for students with visual impairment), Braille scripts, enlarged scripts, question papers with single-side printing, coloured question papers (e.g. ivory or green) as well as A3 question-answer booklets. These students may use screen readers and other answering methods (e.g. typing answers on a computer). Other ways of presenting questions, such as reading aloud questions for students with severe reading difficulties sitting for Listening and Writing papers, may also be adopted.

The EDB does not maintain separate breakdowns of expenditure on special examination support arrangements for different groups of students. According to the information provided by the HKEAA, the expenditure on the provision of special examination support arrangements for students with SEN and non-Chinese speaking students sitting for TSA in the 2015/16, 2016/17, 2017/18 and 2018/19 school years was \$90,000, \$160,000, \$140,000 and \$180,000 respectively.

In view of the development of the novel coronavirus epidemic, the EDB announced on 25 February 2020 that TSA at all levels would be suspended for the 2019/20 school year.

(e) The expenditure on payment of examination fees for school candidates sitting for the 2019 HKDSE Examination is around \$146.72 million.

(f) The number of students with SEN who attended the HKDSE and were provided with special examination arrangements, their percentage out of the total number of candidates, and the total number of candidates in the past 5 school years from 2015/16 to 2019/20 are as follows:-

Year of examination	No. of students provided with special examination arrangements(A)	Total no. of candidates (B)	A as a percentage of B
2016	2 047	68 128	3.0%
2017	2 442	61 624	4.0%
2018	2 666	59 000	4.5%
2019	3 084	56 159	5.5%
2020*	3 129	52 549	6.0%

EDB118

(Question Serial No. 0192)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (1) To promote the healthy and sustainable development of the self-financing post-secondary sector, the Government has implemented a series of measures to enhance the quality of the sector. Please inform this Committee of the amount of public funds spent on each of the following programmes in the past 5 academic years (2015/16 to 2019/20):
 - (a) Land Grant Scheme;
 - (b) Start-up Loan Scheme;
 - (c) Quality Enhancement Grant Scheme;
 - (d) Self-financing Post-secondary Education Fund;
 - (e) Qualifications Framework Support Schemes and Qualifications Framework Fund;
 - (f) Matching Grant Scheme;
 - (g) Research Endowment Fund; and
 - (h) Means-tested and non-means-tested financial assistance for students in the self-financing postsecondary sectors
- (2) Please provide in detail the numbers of loan applications and approvals, as well as the loan amount and repayment date for each approved loan under the Start-up Loan Scheme in the past 5 academic years (2015/16 to 2019/20).
- (3) Will the Education Bureau provide any one-off financial or policy support for self-financing institutions in the 2020/21 academic year? If yes, what are the details and the amount of funding available under each funding scheme? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 40)

Reply:

- (1)(a) Under the Land Grant Scheme (LGS), land sites and vacant Government premises are allocated at nominal premium and leased at nominal rent respectively to non-profit-making institutions for operation of full-time and/or part-time locally-accredited self-financing post-secondary programmes. From the 2015/16 to 2019/20 academic years, 1 land site and 1 vacant Government premises were allocated.
- (1)(b) Under the Start-up Loan Scheme (SLS), interest-free loans are provided for non-profit-making self-financing post-secondary institutions to develop new college premises, re-provision existing premises operating in sub-optimal environment, and/or provide or enhance teaching and other ancillary facilities. The loan disbursement from the 2015/16 to 2019/20 academic years is as follows –

Academic year	Amount of Loans Disbursed under the SLS (\$ million)
2015/16	295.3
2016/17	93
2017/18	187.5
2018/19	313.1
2019/20	- (Estimate)
Total	888.9

- (1)(c) The Quality Enhancement Grant Scheme (QEGS) was implemented from the 2008/09 to 2010/11 academic years. A total of \$99.4 million was provided for 65 projects dedicated to enhancing the quality of teaching and learning of self-financing post-secondary programmes. Having regard to the success of the QEGS, the Quality Enhancement Support Scheme (QESS) under the Self-financing Post-secondary Education Fund (SPEF) was launched in November 2012 to continue supporting the enhancement of teaching and learning quality (see 1(d) below for details).
- (1)(d) The SPEF was set up in the 2011/12 academic year as an endowment fund to support the quality and healthy development of the self-financing sector and further enhance Hong Kong's status as a regional education hub. The SPEF provides scholarships for outstanding students of full-time locally-accredited self-financing sub-degree and undergraduate programmes under the Self-financing Post-secondary Scholarship Scheme (SPSS) as well as supports quality enhancement projects by institutions under the QESS.

The amount of scholarships and awards given out under the SPSS and grants approved under the QESS from the 2015/16 to 2019/20 academic years are set out as follows –

Academic Year	Amount of Scholarships and Awards Given Out under the SPSS (\$ million)	Amount of Grants Approved under the QESS (\$ million)
2015/16	76.8	47.6
2016/17	79.9	22.6
2017/18	83.4	26.8
2018/19	83.6	24.0
2019/20	Applications are being processed	Applications are being processed

- (1)(e) The Qualifications Framework (QF) Fund was established on 1 September 2014 to provide a steady source of income to support the sustainable development and implementation of the QF. Since it takes time for the QF Fund to generate and accumulate investment income to meet the funding requirements, in the interim before 2017, we had been deploying funds out of the approved commitment for Qualifications Framework Support Schemes (QFSS) for meeting the cash flow requirements of the initiatives under the QF Fund. The approved commitment for the QFSS was nearly exhausted in 2017, and we have since been using the investment income generated from the principal of the QF Fund to meet the funding requirements of various initiatives. The amount of subsidies disbursed under the approved commitment for the QFSS or the QF Fund from 2015-16 to 2019-20 is as follows –

Financial Year	Amount of Subsidies Disbursed under the QFSS or the QF Fund (\$ million)
2015-16	40.0
2016-17	50.5
2017-18	42.6
2018-19	51.1
2019-20 (as at end of February 2020)	37.7
Total	221.9

- (1)(f) The Government has launched 8 rounds of Matching Grant Scheme since 2003 to help the higher education sector diversify its funding sources. The Seventh Matching Grant Scheme was launched for a period of 2 years from August 2017 to July 2019 for application by qualified local self-financing degree-awarding institutions (namely The Open University of Hong Kong, the Technological and Higher Education Institute under the Vocational Training Council, and all approved post-secondary colleges registered under the Post Secondary Colleges Ordinance (Cap. 320)). It has provided a total of nearly \$500 million of matching grants to 12 qualified institutions.
- (1)(g) The Research Grants Council (RGC) launched the Competitive Research Funding Schemes for the Local Self-financing Degree Sector in December 2013. The

funding awarded each year by the Research Endowment Fund from the 2015/16 to 2019/20 academic years is as follows –

Academic Year	Amount Awarded (\$ million)
2015/16	86.3
2016/17	82.9
2017/18	53.8
2018/19	37.7
2019/20	74.1
Total ^{Note}	334.9

Note: Figures may not add up to the total due to rounding.

- (1)(h) The Financial Assistance Scheme for Post-secondary Students (FASP) provides means-tested grants and/or loans to eligible full-time students pursuing locally-accredited, self-financing post-secondary education programmes at sub-degree or degree level. The Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) provides non-means-tested loans to students pursuing programmes covered under the FASP. The amount of assistance disbursed under the two schemes from the 2015/16 to 2019/20 academic years is as follows –

	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
FASP					
Amount of grants disbursed (\$ million)	1,106	1,049	877	795	563
Amount of loans disbursed (\$ million)	180	180	168	144	96
Total amount of assistance disbursed (\$ million)#	1,286	1,229	1,045	940	659
NLSPS					
Amount of loans disbursed (\$ million)	792	828	702	682	520
Total (\$ million)#	2,078	2,057	1,747	1,621	1,179

* As at 31 January 2020.

Figures may not add up to the corresponding total due to rounding.

The Government launched the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) and the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS) in the 2015/16 and 2017/18 academic years respectively to subsidise students pursuing full-time locally-accredited self-financing undergraduate programmes. Starting from the 2019/20 academic year, the coverage of the SSSDP has been expanded to subsidise students enrolling in designated full-time locally-accredited self-financing

sub-degree programmes in selected disciplines. The amount of subsidies disbursed under the 2 schemes from the 2015/16 to 2019/20 academic years is as follows –

Academic Year	Amount of Subsidies (\$ million)
SSSDP - Self-financing Undergraduate Programmes	
2015/16	60.0
2016/17	122.5
2017/18	185.9
2018/19	462.2
2019/20 (as at February 2020)	504.6
SSSDP- Self-financing Sub-degree Programmes	
2019/20 (as at February 2020)	73.3
NMTSS	
2017/18	606.0
2018/19	497.4
2019/20 (as at February 2020)	498.8

- (2) From the 2015/16 to 2019/20 academic years, a total of 11 start-up loan applications were received under the SLS. Among them, 10 applications were not processed further as the institutions concerned were not successfully granted the land sites or vacant Government premises under the LGS for the construction or renovation projects to be financed; or the applications were withdrawn by the institutions concerned. At last, one application was approved with a total loan amount of \$400 million. The details of the approved loan are set out below –

Academic Year	Successful Applicant	Loan Amount (\$ million)	Date of Final Loan Repayment ^{Note}
2015/16	The Open University of Hong Kong	400	Subject to the date of the final drawdown
Total		400	

Note: Loans granted under the SLS should be repaid by equal instalments over 10 years from the date of the final drawdown, save for cases where approval has been granted for extending the loan repayment period from 10 years to 20 years, subject to the payment of interest at the no-gain-no-loss rate after the interest-free period of the first 10 years.

- (3) The Task Force on Review of Self-financing Post-secondary Education published its review report in December 2018, with recommendations including that the Government should provide self-financing post-secondary institutions with more financial support of a non-recurrent nature to help them develop their distinct character and niche areas, and launch quality programmes which will better respond to our community needs. The Education Bureau agrees with the Task Force's comments and proposes to introduce the Enhancement and Start-up Grant Scheme for Self-financing Post-secondary Education with a total commitment of \$1.26 billion. The initiative seeks to provide financial support for self-financing institutions interested in offering selected sub-degree or undergraduate programmes that meet market needs but require high start-up costs, so as to help such

programmes take off and to alleviate students' financial burden due to tuition fees. We will consult the Legislative Council Panel on Education on the details of the Scheme.

University Grants Committee-funded Universities (including the Education University of Hong Kong) ⁵	18,495	18,882	19,678	20,900	21,462	248,345	250,531	257,996	269,190	320,940

There is no direct government funding allocated to adult education providers. Students taking courses under the Financial Assistance Scheme for Designated Evening Adult Education Courses and meeting the eligibility criteria can receive partial or full tuition fee reimbursement under the financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.

Notes

1. Calculation of unit cost is not applicable to this item as the financial provision is used for subsidising students to pay school fees to kindergartens under the Pre-primary Education Voucher Scheme (PEVS), but not for granting subventions to the kindergartens. The PEVS was gradually replaced by the Kindergarten Education Scheme (KG Scheme) starting from the 2017/18 school year. With effect from the 2019/20 school year, there were no eligible classes or eligible students under the PEVS any more.
2. The financial provision covers subventions to non-profit-making kindergartens and kindergarten-cum-child care centres under the KG Scheme, including a one-off start-up grant provided to participating kindergartens in the 2016/17 school year. As the annual expenditure of the KG scheme can only be fully reflected in 2018-19, unit cost is calculated starting from that financial year.
3. The unit cost for government primary and secondary schools includes expenditure chargeable to Head 156 Government Secretariat: Education Bureau and staff on-costs such as pensions, housing benefits, etc.
4. The financial provision for the Vocational Training Council (VTC) covers the vocational and professional education and training courses at higher technician, technician and craft levels offered by the Hong Kong Institute of Vocational Education, Hong Kong Design Institute, Youth College and other training institutes of the VTC. The unit costs are calculated on an academic year and a full-time-equivalent basis.

5. Subventions to individual universities under Head 190 University Grants Committee are as follows:

	2016-17 Actual	2017-18 Actual	2018-19 Actual	2019-20 Revised Estimate	2020-21 Estimate
	\$ million	\$ million	\$ million	\$ million	\$ million
City University of Hong Kong	2,409	2,421	2,538	2,694	2,767
Hong Kong Baptist University	1,171	1,209	1,250	1,326	1,355
Lingnan University	430	422	439	459	466
The Chinese University of Hong Kong	4,151	4,192	4,350	4,621	4,730
The Education University of Hong Kong	847	880	906	973	992
The Hong Kong Polytechnic University	2,968	3,097	3,247	3,449	3,528
The Hong Kong University of Science and Technology	2,245	2,311	2,453	2,580	2,661
The University of Hong Kong	4,275	4,349	4,495	4,797	4,963
Total*	18,495	18,882	19,678	20,900	21,462

* *Figures may not add up to the total due to rounding.*

The non-recurrent funding under the Matching Grant Scheme is not included. The unit cost figures are calculated on an academic year and a full-time-equivalent basis.

As universities may over-enrol under the mechanism, the unit cost for the years 2016/17 to 2019/20 is calculated based on the actual student number with over-enrolment. The unit cost for 2020/21 estimate is calculated based on the approved student number targets and does not assume over-enrolment, hence higher unit cost in 2020/21.

CONTROLLING OFFICER'S REPLY

EDB120

(Question Serial No. 0194)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information regarding Pre-primary Education Voucher Scheme or Free Quality Kindergarten Education Scheme for the school years from 2014/15 to 2018/19:

- (1) the respective amount of government subsidies and various expenditures on early childhood education (including fee remission, training, rental subsidy, etc.);
- (2) the number of kindergartens (KGs) operating whole-day service and the number of places provided by these KGs (please list by school district and provide the total);
- (3) the number of KGs operating long whole-day service, the number of places provided by these KGs and the number of these KGs providing Extended Hours Service (please list by school district and provide the total);
- (4) the number of KGs operating half-day service and the number of places provided by these KGs (please list by school district and provide the total);
- (5) the number of KGs operating both whole-day and half-day services and the number of places provided by these KGs (please list by school district and provide the total);
- (6) the number of places provided by KGs operating whole-day, half-day and long whole-day services and the rate of increase/decrease in the 3 school years from 2017/18 to 2019/20 (please list by school district and provide the total);
- (7) the number of KGs receiving subsidies that have reduced the number of whole-day places in the 2019/20 school year, and if any, the reasons for reduction (please give details under the categories of whole-day KGs, mixed (half-day and whole-day) KGs and long whole-day KGs); and

- (8) the ratio of the places provided by half-day, whole-day and long whole-day KGs that have joined the Free Quality Kindergarten Education Scheme in the 3 school years from 2017/18 to 2019/20 (please provide the overall ratio and list by school district); and whether the Administration has any specific plan to improve the ratio governing the provision of whole-day and half-day KG places as set out in the Hong Kong Planning Standards and Guidelines.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 134)

Reply:

- (1) The breakdown of expenditures on pre-primary education from 2014-15 to 2018-19 is tabulated in Appendix 1.
- (2) From the 2014/15 to 2018/19 school years, the number of whole-day (WD) kindergartens (KGs) (excluding former aided child care centres (FACs)) under the Pre-primary Education Voucher Scheme (PEVS)/the kindergarten education scheme (KG Scheme) with the number of school places (by District Council district) and the respective total of each year are tabulated in Appendix 2.
- (3) From the 2014/15 to 2018/19 school years, the number of long whole-day (LWD) KGs under PEVS/KG Scheme with the number of school places, and the number of these KGs providing Extended Hours Service (EHS) (by District Council district) and the respective total of each year are tabulated in Appendix 3.
- (4) From the 2014/15 to 2018/19 school years, the number of half-day (HD) KGs under PEVS/KG Scheme with the number of school places (by District Council district) and the respective total of each year are tabulated in Appendix 4.
- (5) From the 2014/15 to 2018/19 school years, the number of KGs providing both WD/LWD and HD services under PEVS/KG Scheme with the number of school places (by District Council district) and the respective total of each year are tabulated in Appendix 5.
- (6) and (8)
From the 2017/18 to 2019/20 school years, the number of school places provided by KGs offering HD, WD (excluding FACs) and LWD services, percentage share of these school places and the relevant rate of increase/decrease are tabulated in Appendix 6.

According to the Hong Kong Planning Standards and Guidelines (HKPSG), the need for setting up KGs is taken into account in housing estates and large-scale private development projects where space is allocated for such uses. Under the new KG policy which was implemented in the 2017/18 school year, the Education Bureau has reviewed the relevant part of HKPSG. For every 1 000 children in the age group of 3 to under 6, the planning standards for provision of KG places have been revised from 730 HD and 250 WD places to 500 HD and 500 WD places respectively.

- (7) In the 2019/20 school year, a total of 132 KGs joining the KG Scheme reduced the number of WD/LWD places. Among these KGs, the respective numbers of those offering WD/LWD services only and offering both HD and WD/LWD services were 99 and 33. KGs in Hong Kong operate in a flexible manner. Some KGs increase/reduce their provision of WD places mainly to flexibly cater for parents' needs. We have not conducted any separate analysis on the provision of the relevant school places by KGs.

Breakdown of expenditures on pre-primary education from 2014-15 to 2018-19

	2014-15	2015-16	2016-17	2017-18	2018-19
	(\$ million)	(\$ million)	(\$ million)	(\$ million)	(\$ million)
	(Actual)	(Actual)	(Actual)	(Actual)	(Actual)
PEVS (Note 1)	2,535.7	2,957.2	3,194.0	1,126.9	21.0
KG Scheme (Note 2)	N.A.	N.A.	210.8	3,903.5	6,041.3
The Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS)	539.9	529	592.5	378.9	286.0
Refund of rent, rates and government rent (Note 3)	238	256.3	276.0	128.8	7.1
Principal and teacher training (Note 4)	3.7	1.5	1.7	2.7	4.5

Note 1: The expenditures in 2017-18 reflect the expenditure on PEVS before the implementation of the KG Scheme (i.e. from April to August 2017), and the expenditures under the transitional arrangements for the 7 and 6 KGs joining PEVS in the 2016/17 school year but not joining the KG Scheme in the 2017/18 and 2018/19 school years respectively. Eligible students studying in these KGs who remain in the eligible classes under PEVS will continue to receive the voucher subsidy under PEVS until they leave the KGs concerned.

Note 2: The expenditures in 2016-17 and 2017-18 reflect the expenditure for the first 8 months after the implementation of the KG Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018), and the one-off start-up grant provided in 2016-17 and 2017-18 for Scheme-KGs. The expenditure in 2018-19 is the expenditure on the Scheme for the whole year.

Note 3: The expenditures between 2014-15 and 2017-18 reflect the expenditure on the rent reimbursed to non-profit-making (NPM) KGs under the Non-profit-making Kindergarten Rent Reimbursement Scheme before the implementation of the KG Scheme in the 2017/18 school year (i.e. from April to August 2017). Starting from the 2017/18 school year, expenditure on rental subsidy and reimbursement of rates and government rent for Scheme-KGs are subsumed under the overall expenditure of the KG Scheme. NPM KGs not joining the KG Scheme can continue to be reimbursed for rates and government rent.

Note 4: Since 2017/18 is the first school year after the introduction of KG Scheme, KGs need time to adapt to the new Scheme. Therefore, relevant training programmes were rolled out in the latter part of the school year. Part of the expenditure cannot be fully reflected in 2017-18.

Number of WD KGs under PEVS/KG Scheme (excluding FACs) with number of school places

Note 1: Position as at mid-September of the respective school years.

Note 2: Figures include nursery, lower and upper classes in kindergarten-cum-child care centres.

Note 3: Figures on school places exclude vacant classrooms and vacant child care centre portions.

Note 4: FACs refer to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.

Note 5: Figures include all Scheme-KGs in the respective school years, regardless of whether these KGs joined the KG Scheme in the preceding school year.

CONTROLLING OFFICER'S REPLY

EDB121

(Question Serial No. 0195)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the 2015/16 to 2019/20 school years:

- (1) the respective numbers of whole-day (WD), half-day (HD) and long whole-day (LWD) kindergarten students receiving subsidy under the Pre-primary Education Voucher Scheme (PEVS) or the Free Quality Kindergarten Education Scheme (KG Scheme), and the respective numbers of WD, HD and LWD kindergarten students under the PEVS/KG Scheme who still need to pay school fees in excess of the voucher value or subsidy received, their percentage share and the average extra amount of school fees paid;
- (2) the respective numbers of HD kindergarten students receiving subsidy under PEVS or the KG Scheme who need to pay school fees on top of the subsidy and their percentage share, with a breakdown by the amount of school fees paid (below \$100; \$100 to below \$400; \$400 to below \$700; \$700 to below \$1,000; \$1,000 to below \$1,300; \$1,300 to below \$1,600; \$1,600 or above);
- (3) the respective numbers of WD kindergarten students receiving subsidy under PEVS or the KG Scheme who need to pay school fees on top of the subsidy and their percentage share, with a breakdown by the amount of school fees paid (below \$500; \$500 to below \$1,000; \$1,000 to below \$2,000; \$2,000 to below \$3,000; \$3,000 to below \$4,000; \$4,000 or above);
- (4) the respective numbers of LWD kindergarten students receiving subsidy under PEVS or the KG Scheme who need to pay school fees on top of the subsidy and their percentage share, with a breakdown by the amount of school fees paid (below \$500; \$500 to below \$1,000; \$1,000 to below \$2,000; \$2,000 to below \$3,000; \$3,000 to below \$4,000; \$4,000 or above); and
- (5) the respective amount of subsidies provided by the Government for the PEVS and the KG Scheme, and other expenditures on early childhood education (including the

Kindergarten and Child Care Centre Fee Remission Scheme, principal and teacher training, subsidies on rent, rates and government rent, etc.) from the 2015/16 to 2019/20 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 135)

Reply:

(1), (2), (3) and (4)

The information requested in (1) to (4) above is tabulated at Appendix 1. Under the Pre-primary Education Voucher Scheme (PEVS), non-means-tested direct fee subsidy, in the form of voucher, is provided for parents with children studying in eligible kindergartens (KGs) to defray school fees. The kindergarten education scheme (KG Scheme) has been launched with effect from the 2017/18 school year. The policy objectives are to provide good quality and highly affordable KG education, and enhance the accessibility of students to different modes of services that suit their specific needs. Under PEVS and the KG Scheme, fee remission is provided for KG children from needy families under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS).

(5)

The breakdown of the expenditures on pre-primary education from 2015-16 to 2019-20 is tabulated at Appendix 2.

(1) The numbers of whole-day (WD), half-day (HD) and long whole-day (LWD) (Note 1) KG students under the PEVS from the 2015/16 to 2016/17 school years and the KG Scheme from the 2017/18 to 2019/20 school years are tabulated below:

	2015/16 school year			2016/17 school year			2017/18 school year			2018/19 school year			2019/20 school year (provisional)		
	HD	WD	LWD	HD	WD	LWD	HD	WD	LWD	HD	WD	LWD	HD	WD	LWD
(i) No. of students under the PEVS/KG Scheme	95 548	22 134	21 518	95 781	22 484	21 648	91 044	23 823	23 074	84 423	24 958	22 656	83 228	26 285	22 607
(ii) No. of students who need to pay school fees on top of the subsidy	80 462	22 089	21 494	82 531	22 470	21 626	8 530	20 752	20 235	8 875	21 945	20 907	9 029	23 534	21 243
(iii) No. of students who need to pay school fees on top of full fee remission (Note 2)	73 886	32 311		75 379	32 856		8 119	31 122		8 557	33 557		8 546	35 553	
(iv) Percentage (%) of (iii) over (i)	77.3%	74.0%		78.7%	74.4%		8.9%	66.4%		10.1%	70.5%		10.3%	72.7%	
(v) Average annual school fees on top of the subsidy (Note 3)	\$4,875	\$18,111	\$19,270	\$5,651	\$20,075	\$22,683	\$3,000	\$8,100	\$11,100	\$3,700	\$8,700	\$11,600	\$4,000	\$8,900	\$12,300

Notes:

- (1) Referring to former aided child care centres operated under the Social Welfare Department before the harmonisation of pre-primary services. They usually operate longer service hours.
- (2) Since the applicants for fee remission are not required to indicate whether they are enrolled in LWD classes, we do not have a breakdown of the numbers of WD and LWD students.
- (3) The average annual school fees are calculated based on the number of students in item (ii) of the table.

(2) The numbers of **HD** KG students under the PEVS from the 2015/16 to 2016/17 school years and the KG Scheme from the 2017/18 to 2019/20 school years who need to pay school fees are tabulated below:

Range of annual school fees on top of the subsidy	2015/16 school year		2016/17 school year		2017/18 school year		2018/19 school year		2019/20 school year (provisional)	
	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)
Below \$100	993	1.23	163	0.20	109	1.28	100	1.13	98	1.09
\$100 – below \$400	2 784	3.46	1 541	1.87	82	0.96	60	0.68	142	1.57
\$400 – below \$700	3 684	4.58	970	1.18	921	10.80	0	0	0	0
\$700 – below \$1,000	2 139	2.66	3 447	4.18	229	2.68	99	1.12	112	1.24
\$1,000 – below \$1,300	2 714	3.37	2 150	2.61	428	5.02	279	3.14	311	3.44
\$1,300 – below \$1,600	3 988	4.96	1 920	2.33	596	6.99	702	7.91	588	6.51
\$1,600 or above	64 160	79.74	72 340	87.65	6 165	72.27	7 635	86.03	7778	86.14

Notes:

1. The numbers of students shown above include students granted fee remission.
2. The percentages shown above are calculated based on the number of students who still need to pay school fees in excess of the government subsidy received.

(3) The numbers of **WD** KG students under the PEVS from the 2015/16 to 2016/17 school years and the KG Scheme from the 2017/18 to 2019/20 school years who need to pay school fees are tabulated below:

Range of annual school fees on top of the subsidy	2015/16 school year		2016/17 school year		2017/18 school year		2018/19 school year		2019/20 school year (provisional)	
	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)
Below \$500	0	0.00	0	0.00	230	1.11	197	0.90	98	0.42
\$500 – below \$1,000	0	0.00	133	0.59	245	1.18	48	0.22	48	0.20
\$1,000 – below \$2,000	120	0.54	28	0.12	1 282	6.18	847	3.86	919	3.90

\$3,000 – below \$4,000	21	0.10	8	0.04	1 547	7.45	1 158	5.28	1 044	4.44
\$4,000 or above	21 883	99.07	22 301	99.25	16 251	78.31	18 206	82.96	19 598	83.28

Notes:

1. The numbers of students shown above include students granted fee remission.
2. The percentages shown above are calculated based on the number of students who still need to pay school fees in excess of the government subsidy received.

(4) The numbers of **LWD** KG students under the PEVS from the 2015/16 to 2016/17 school years and the KG Scheme from the 2017/18 to 2019/20 school years who need to pay school fees are tabulated below:

Range of annual school fees on top of the subsidy	2015/16 school year		2016/17 school year		2017/18 school year		2018/19 school year		2019/20 school year (provisional)	
	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)
Below \$500	0	0.00	0	0.00	0	0.00	0	0.00	0	0.00
\$500 – below \$1,000	0	0.00	0	0.00	136	0.67	186	0.89	184	0.87

\$2,000 – below \$3,000	60	0.28	0	0.00	246	1.22	67	0.32	220	1.04
\$3,000 – below \$4,000	147	0.68	114	0.53	705	3.48	688	3.29	549	2.58
\$4,000 or above	21 267	98.94	21 509	99.46	18 890	93.35	19 609	93.79	19 731	92.88

Notes:

1. The numbers of students shown above include students granted fee remission.
2. The percentages shown above are calculated based on the number of students who still need to pay school fees in excess of the government subsidy received.

The breakdown of expenditures on pre-primary education from 2015-16 to 2019-20 is as follows:

	2015-16	2016-17	2017-18	2018-19	2019-20
	(\$ million)	(\$ million)	(\$ million)	(\$ million)	(\$ million)
	(Actual)	(Actual)	(Actual)	(Actual)	(Revised Estimate)
(i) PEVS (Note 1)	2,957.2	3,194.0	1,126.9	21.0	4.4
(ii) KG Scheme (Note 2)	N.A.	210.8	3,903.5	6,041.3	6,281.9
(iii) KCFRS	529.0	592.5	378.9	286.0	271.0
(iv) Refund of rent, rates and government rent (Note 3)	256.3	276.0	128.8	7.1	6.0
(v) Principal and teacher training (Note 4)	1.5	1.7	2.7	4.5	4.1

Note 1: The expenditures in 2017-18 reflect the expenditure on PEVS before the implementation of the KG Scheme (i.e. from April to August 2017), and the expenditure under the transitional arrangements for the 7 and 6 KGs joining PEVS in the 2016/17 school year but not joining the KG Scheme in the 2017/18 and 2018/19 school years respectively. Eligible students studying in these KGs who remain in the eligible classes under PEVS will continue to receive the voucher subsidy under PEVS until they leave the KGs concerned.

Note 2: The expenditures in 2016-17 and 2017-18 reflect the expenditure for the first 8 months after the implementation of the KG Scheme in the 2017/18 school year (i.e. from August 2017 to March 2018), and the one-off start-up grant provided in 2016-17 and 2017-18 for Scheme-KGs. The expenditure in 2018-19 is the expenditure on the Scheme for the whole year.

Note 3: The expenditures between 2015-16 and 2017-18 reflect the expenditure on the rent reimbursed to non-profit-making (NPM) KGs under the Non-profit-making Kindergarten Rent Reimbursement Scheme before the implementation of the KG Scheme in the 2017/18 school year (i.e. from April to August 2017). Starting from the 2017/18 school year, expenditure on rental subsidy and reimbursement of rates and government rent for Scheme-KGs are subsumed under the overall expenditure of the KG Scheme. NPM KGs not joining the Scheme can continue to be reimbursed for rates and government rent.

Note 4: Since 2017/18 is the first school year after the introduction of KG Scheme, KGs needed time to adapt to the new Scheme. Therefore, relevant training programmes were rolled out in the latter part of the school year. Part of the expenditure cannot be fully reflected in 2017-18.

(Question Serial No. 2566)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

- (1) From the 2015/16 to 2019/20 academic years, how many non-local programmes were registered or exempted from registration under the Non-local Higher and Professional Education (Regulation) Ordinance (the Ordinance)? How many institutions and countries were involved?
- (2) From the 2015/16 to 2019/20 academic years, how many non-local programmes had their registration or exemption from registration cancelled under the Ordinance? How many institutions and countries were involved ?
- (3) From the 2015/16 to 2019/20 academic years, how many complaints were received by the Education Bureau concerning the Ordinance? How many of the complaints were substantiated? What follow-up actions were taken?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 43)

Reply:

- (1) The numbers of non-local programmes registered and exempted from registration under the Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493) (“the Ordinance”), and non-local institutions and countries/regions concerned from the 2015/16 to 2019/20 academic years are set out below:

	Academic year									
	2015/16		2016/17		2017/18		2018/19		2019/20 ^{Note 1}	
	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes
Number of registered/exempted programmes (as at 31 August)	444	701	451	692	440	714	478	672	436 ^{Note 1}	678 ^{Note 1}
Number of non-local institutions ^{Note 2}	114	92	118	83	117	86	118	76	113	76
Number of countries/regions	12	6	13	6	13	7	13	7	13	7

Note 1: Information as at 29 February 2020.

Note 2: Some non-local institutions provide both registered programmes and exempted programmes in Hong Kong. After deducting the double counting of those non-local institutions which provide both 2 types of programmes aforementioned, the numbers of non-local institutions which provide non-local programmes registered or exempted from registration under the Ordinance from the 2015/16 to 2019/20 academic years were 183, 177, 184, 174 and 169 respectively.

(2) The numbers of non-local programmes having registration/exemption from registration cancelled under the Ordinance, and non-local institutions and countries/regions concerned from the 2015/16 to 2019/20 academic years are set out below:

	Academic year									
	2015/16		2016/17		2017/18		2018/19		2019/20 ^{Note 1}	
	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes
Number of cancelled programmes ^{Note 2}	53	58	49	47	50	19	26	94	53	6
Number of non-local institutions	30	19	25	20	31	9	18	26	22	1
Number of countries/regions	5	3	7	4	5	3	7	4	5	1

Note 1: Information as at 29 February 2020.

Note 2: In the 2016/17, 2017/18, 2018/19 and 2019/20 academic years, the Education Bureau (EDB) proposed to cancel the registration of 2, 7, 5 and 5 programmes respectively. The respective reasons were:

- (i) the non-local institutions were no longer recognized in the relevant countries;
- (ii) there were no programmes conducted in the countries where the non-local institutions mainly operated which led to the same qualifications, hence the standards of the programmes were unable to be maintained at a level comparable with the programmes conducted in the relevant countries leading to the same qualifications;
- (iii) the operator ceased conducting the programme in Hong Kong;
- (iv) the operator did not lodge with the Registrar of Non-local Higher and Professional Education Courses (“the Registrar”) a new undertaking given by a person who met the relevant requirements for the replacement of the designated

person, within the period specified in the notice given by the Registrar under the Ordinance requiring the replacement of the designated person;

(v) the operators failed to send to the Registrar the annual returns of the programmes as required by the Ordinance;

(vi) the standard of the programme was not recognized by the non-local institution as being at a level comparable with a programme conducted in the country where the non-local institution mainly operated which led to the same qualification; and

(vii) the operator failed to pay to the Registrar a sum of money equal to the expenses incurred by the Registrar in obtaining advice as was reasonably required to enable him to verify the content of any annual return of the programme.

Apart from the 19 cases where cancellation of programme registration was proposed by the EDB, the requests for cancellation of registration of the other programmes were put forward by the operators or non-local institutions.

(3) The numbers of complaints received concerning the Ordinance and the results of investigation and follow-up actions are listed below:

	Academic year									
	2015/16		2016/17		2017/18		2018/19		2019/20 ^{Note 1}	
Number of complaints received	4		1		2		2		1	
Results and follow-up actions	Number of cases	Results and actions Note 2	Number of cases	Results and actions Note 2	Number of cases	Results and actions Note 2	Number of cases	Results and actions Note 2	Number of cases	Results and actions Note 2
	1	C	1	D	1	B	2	B	1	A
	2	D			1	C				
	1	E								

Note 1: Information as at 29 February 2020.

Note 2: Explanations to the classifications are as follows:

- A: The complaint is being preliminarily processed.
- B: The complaints were found not substantiated.
- C: The complainants withdrew the complaints or could not be contacted for necessary information.
- D: The complainants were informed that the complaints had been referred to enforcement departments for follow-up.
- E: The complaint concerned a case that happened about 10 years ago. Since the prosecution time limit as stated under the Ordinance had expired, no action could be taken.

- End -

Question:

Regarding long-serving full-time non-civil service contract (NCSC) staff in the Education Bureau, please provide the following information:

(1) What is the number of NCSC staff with continuous service of 5 to less than 10 years as at end-2019? What duties did they perform? How many of them were teachers in government schools? How many of them have been converted to permanent staff?

(2) What is the number of NCSC staff with continuous service in the same position for 5 or more years as at end-2019? What duties did they perform? How many of them were teachers in government schools? How many of them have been converted to permanent staff?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 44)

Reply:

As at 31 December 2019, there were 116 full-time non-civil service contract (NCSC) staff with continuous service of 5 to less than 10 years. They were mainly responsible for providing janitor service, educational support and clerical service.

As at 31 December 2019, there were 117 full-time NCSC staff serving continuously in the same position for 5 years or more in the Education Bureau (EDB). They were mainly responsible for providing janitor service, educational support and clerical service.

The EDB has not employed any teachers on NCSC terms.

At present, there is no mechanism for NCSC staff to be directly converted to civil servants. NCSC staff who meet the basic entry requirements can apply for civil service vacancies

through open recruitment and compete with other candidates on a fair and equal basis. Generally speaking, NCSC staff who meet the basic entry requirements and possess working experience relevant to the job would enjoy a competitive edge in the selection process over other candidates with less relevant experience.

Director of Bureau: Secretary for Education

Question:

Regarding the installation of wireless internet (WiFi) facilities at schools between the 2015/16 and 2019/20 school years, please provide the following information:

- (1) the number and percentage of schools equipped with WiFi facilities by school type (primary, secondary and special schools);
- (2) the number of schools subsidised by the Government to install WiFi facilities and the public funds involved; and
- (3) the programmes that subsidise students' internet access, as well as the amount of subsidies disbursed, the number of beneficiaries, and the average amount of subsidy per student per annum under each programme.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 46)

Reply:

(1) and (2)

We have no information on the number of schools which have enhanced their WiFi infrastructure using their own funds. The Education Bureau has completed the establishment of WiFi campus for about 1 000 public sector schools in Hong Kong, including 100 schools under the "Support Scheme for e-Learning in Schools" or WiFi-100 project launched in early 2014, and 886 schools under the WiFi-900 project of the Fourth Strategy on Information Technology in Education (ITE4) launched in August 2015. The breakdown on these 986 schools by school type is as follows:

School type	No. and percentage of schools with enhanced WiFi infrastructure	Total no. of schools
Government primary	34 (100%)	34
Government secondary	31 (100%)	31
Aided primary	442 (100%)	442
Aided secondary	419 (100%)	419
Aided special	60 (100%)	60
Total	986 (100%)	986

Note: Aided schools also include local schools under the Direct Subsidy Scheme and Caput Schools.

We have been providing all public sector schools with an annual recurrent Composite Information Technology Grant at amounts ranging from \$209,367 to \$720,089, depending on the school type and the number of classes. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education, including the installation of WiFi equipment in schools.

The WiFi-100 project launched in early 2014 and the WiFi-900 project under the ITE4 launched in August 2015 involve a non-recurrent expenditure of \$123 million.

(3)

Under the Subsidy Scheme for Internet Access Charges, the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency and the Social Welfare Department (SWD) disburse the internet access subsidies to eligible families to facilitate internet learning at home by needy students. The subsidy is disbursed on a household basis.

The numbers of beneficiary families and the amounts of subsidies disbursed from the 2015/16 to 2019/20 school years are tabulated below:

	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year	2019/20 school year (as at 31 January 2020)
(i) Disbursed by the SWD					
No. of beneficiary families	45 305	41 954	39 134	37 094	33 794
Amount of subsidies (\$million)	58.7	58.5	54.7	55.5	50.7
(ii) Disbursed by the SFO					
No. of beneficiary families	147 647	133 711	130 409	131 779	132 359
Amount of subsidies (\$million)	155.0	152.0	148.1	158.9	159.2
(iii) Total					
Total no. of beneficiary families	192 952	175 665	169 543	168 873	166 153
Total amount of subsidies (\$million)	213.7	210.5	202.8	214.4	209.9

Question:

Regarding school coach services, please advise this Committee of the following:

(1) concerning the facilities at the land-based boundary control points used by cross-boundary students (CBS), the number of CBS and the number of school coaches that carry CBS using various land-based boundary control points in the past 5 school years, with a breakdown by school type (kindergarten (including child care centre), primary school, secondary school and special school), class level and district;

(2) the number of accidents and casualties involving students and those providing school coach services at or near school campuses in each of the past 5 school years; and

(3) whether the Administration has put in place measures to safeguard road safety of school coaches; if yes, of the details and expenditures involved; if no, of the reasons.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 47)

Reply:

(1) The number of cross-boundary students (CBS) and local/cross-boundary school coaches using various land-based boundary control points, with a breakdown by kindergarten, primary school, secondary school and special school, from the 2015/16 to 2019/20 school years is as follows:

Control Point (CP)	School Year	Number of CBS					Number of Local/Cross-boundary School Coaches Carrying CBS

	2019/20	0	0	1	0	1	NA	NA	NA

- Notes: (1) Figures refer to the position as at September of the respective school years.
- (2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.
- (3) The HZMB Hong Kong Port came into operation in October 2018. As indicated by the annual survey of the 2019/20 school year, there are CBS travelling across the boundary for schooling via the HZMB Hong Kong Port.
- (4) Local school coaches at LMCSL and LW CPs are local vehicles which do not cross any CP. They are permitted to operate multiple trips to carry CBS from Hong Kong side of the respective CPs to other parts of Hong Kong. The cross-boundary school coaches at SZB, LMC, MKT and STK CPs as well as the HZMB Hong Kong Port are cross-boundary vehicles which cross the respective CPs.
- (5) Local/cross-boundary school coach services are intended for CBS attending kindergartens and primary schools only. These coaches are allowed to carry eligible CBS from kindergartens and primary schools at the same time.

The number of CBS using various land-based boundary control points, with a breakdown by class level, from the 2015/16 to 2019/20 school years is as follows:

Control Point (CP)	Class Level	Number of CBS					
		2015/16	2016/17	2017/18	2018/19	2019/20

- Notes: (1) Figures refer to the position as at September of the respective school years.
(2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

- (3) The HZMB Hong Kong Port came into operation in October 2018. As indicated by the annual survey of the 2019/20 school year, there are CBS travelling across the boundary for schooling via the HZMB Hong Kong Port.
- (4) As school coaches are allowed to carry CBS of different class levels at the same time, the number of local/cross-boundary school coaches using various land-based boundary CPs with a breakdown by class level is not available.

The number of CBS using various land-based boundary control points, with a breakdown by district, from the 2015/16 to 2019/20 school years is as follows:

Control Point (CP)	District	Number of CBS

- Notes: (1) Figures refer to the position as at September of the respective school years.
- (2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.
- (3) The HZMB Hong Kong Port came into operation in October 2018. As indicated by the annual survey of the 2019/20 school year, there are CBS travelling across the boundary for schooling via the HZMB Hong Kong Port.
- (4) As school coaches are allowed to carry CBS of different districts at the same time, the number of local/cross-boundary school coaches using various land-based boundary CPs with a breakdown by district is not available.

(2) As the Education Bureau (EDB) does not collect information on accidents involving school coaches, statistics on accidents and casualties involving students and those providing school coach services at or near school campuses are not available.

(3) The Government attaches great importance to the safety of student service vehicles. The EDB and the Transport Department (TD) have all along been proactively disseminating relevant messages on safety to schools, parents, students, operators, drivers and escorts, and reminding them of the rules they should follow in providing related services. Schools should set up a "School Bus Service Committee" to properly monitor the school bus services. Such a committee should draw up guidelines for various stakeholders with reference to the "Guidelines for Ensuring Safety of Pupils on School Transport Vehicles" issued by the TD, and ensure that the guidelines are adhered to. In addition, the TD meets representatives of school transport trade regularly, thereby exchanging views on the regulatory measures and operation of student service vehicles and calling upon the sector to adhere to the safety guidelines. During the past decade, the TD has organised, in collaboration with the Hong Kong Police Force, seminars on safe driving of school service vehicles to enhance operators' awareness about safety and further their understanding of vehicle examinations and safety guidelines. The EDB will keep reminding schools to comply with the pertinent guidelines and take proactive measures to safeguard students' safety. No separate provision for the relevant work has been earmarked and the expenditure involved has been subsumed under the overall expenditure of the EDB.

- End -

CONTROLLING OFFICER'S REPLY

EDB126

(Question Serial No. 3250)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

- (1) The Education Bureau has put in place the “Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland)” for cross-boundary students (CBS) applying for Primary 1 (P1) school places. Please provide, by district, the number of P1 places available on the List and the number of CBS who were allocated a P1 place from the 2015/16 to 2019/20 school years; and
- (2) Please provide, by school type, district and grade, the number of CBS and their respective percentages out of the total number of school places from the 2015/16 to 2019/20 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 48)

Reply:

- (1) To alleviate the impact of increasing number of cross-boundary students (CBS) on the demand and supply of public sector primary school places in individual districts, notably the North District, the Education Bureau has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the Primary One Admission (POA). In brief, parents of applicant children who intend to commute daily to schools in Hong Kong are not required to choose any school net as the applicant children's POA School Net for participation in Part B of the Central Allocation stage. Instead, applicant children who intend to commute daily to schools in Hong Kong are provided with a separate Choice of Schools List for the Central Allocation.

The number of Primary One (P1) places by district of school net as set out in the Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) under POA 2015 to 2019 (for admission to P1 in the school years from 2015/16 to 2019/20) is at Annex A. The number of CBS allocated a P1 place under the Central Allocation of POA 2015 to 2019 is 2 714, 2 877, 3 251, 2 213 and 799 respectively. With the implementation of the zero-quota policy for doubly non-permanent resident pregnant women in early 2013, there is a substantial drop in the figures of POA 2019 as compared with that of POA 2018.

- (2) The number of CBS in kindergartens (including kindergarten-cum-child care centres), primary schools and secondary schools by district and grade as well as their percentage out of the total number of school places from the 2015/16 to 2019/20 school years are tabulated at Annexes B, C and D.

**Number of P1 places for CBS by district
according to Choice of Schools List for Central Allocation under POA 2015
(for admission to P1 in the 2015/16 school year)**

District of school net	Number of P1 places
Tuen Mun	817
Yuen Long	765
North	253
Tai Po	152
Wong Tai Sin	150
Kwai Tsing	175
Sha Tin	100
Tung Chung	200
Total	2 612

Note:

Figures refer to the position as at January 2015 when the 2015 Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) was compiled to facilitate parents in making school choice under the Central Allocation of POA 2015.

**Number of P1 places for CBS by district
according to Choice of Schools List for Central Allocation under POA 2016
(for admission to P1 in the 2016/17 school year)**

District of school net	Number of P1 places
Tuen Mun	667
Yuen Long	661
North	239
Tai Po	148
Wong Tai Sin	200
Kwai Tsing	575
Sha Tin	75
Tung Chung	225
Total	2 790

Note:

Figures refer to the position as at January 2016 when the 2016 Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) was compiled to facilitate parents in making school choice under the Central Allocation of POA 2016.

**Number of P1 places for CBS by district
according to Choice of Schools List for Central Allocation under POA 2017
(for admission to P1 in the 2017/18 school year)**

District of school net	Number of P1 places
Tuen Mun	546
Yuen Long	621
North	222
Tai Po	150
Wong Tai Sin	225
Kwai Tsing	850
Tung Chung	450
Total	3 064

Note:

Figures refer to the position as at January 2017 when the 2017 Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) was compiled to facilitate parents in making school choice under the Central Allocation of POA 2017.

**Number of P1 places for CBS by district
according to Choice of Schools List for Central Allocation under POA 2018
(for admission to P1 in the 2018/19 school year)**

District of school net	Number of P1 places
Tuen Mun	571
Yuen Long	310
North	282
Tai Po	168
Wong Tai Sin	50
Kwai Tsing	625
Tung Chung	150
Total	2 156

Note:

Figures refer to the position as at January 2018 when the 2018 Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) was compiled to facilitate parents in making school choice under the Central Allocation of POA 2018.

**Number of P1 places for CBS by district
according to Choice of Schools List for Central Allocation under POA 2019
(for admission to P1 in the 2019/20 school year)**

District of school net	Number of P1 places
Tuen Mun	248
Yuen Long	151
North	249
Tai Po	81
Tung Chung	51
Total	780

Notes:

- (1) Figures refer to the position as at January 2019 when the 2019 Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) was compiled to facilitate parents in making school choice under the Central Allocation of POA 2019.
- (2) With the implementation of the zero-quota policy for doubly non-permanent resident pregnant women in 2013, the number of CBS participating in POA has decreased significantly since the 2019/20 school year. Hence, school nets close to boundary control points can provide sufficient school places to meet the demand.

**Number of CBS in kindergartens (including kindergarten-cum-child care centres)
by district and grade and
their percentage out of the total number of school places
from the 2015/16 to 2019/20 school years**

CONTROLLING OFFICER'S REPLY**EDB127****(Question Serial No. 3281)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (000) Operational expensesProgramme: (3) Primary Education, (4) Secondary Education, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(1) Using the table below, please provide the number of non-civil service contract (NCSC) staff engaged in the past 5 years to “meet service needs which are time-limited, short-term or seasonal in nature”:

Type of jobs	15/16	16/17	17/18	18/19	19/20
Teaching Assistant					
Project Manager/ Project Coordinator/ Project Officer/ Project Administrative Manager/ Project Administrative Officer/ Project Development Officer/ Deputy Project Director/ Project Assistant/ Project Management Officer					
General Clerk/ Project Assistant/ General Assistant					
Information Technology/Technical Support Staff					

Executive Manager/ Administrative Assistant/ Administrative Management Officer					
Educational Psychologist/ Audiologist					
Others (e.g. Student Affairs Assistant and Research Officer)					

(2) Using the table below, please provide the number of NCSC staff engaged in the past 5 years to “meet service needs where the mode of delivery of the service is under review or likely to be changed”:

Type of jobs	15/16	16/17	17/18	18/19	19/20
General Worker					
Semi-skilled/ Skilled Worker					
General Clerk					
Teaching Assistant					
Others					

(3) Please provide the number of project officers and advisory teachers engaged in the past 5 years to “tap the latest expertise in a particular area of the labour market”.

(4) Regarding the full-time NCSC staff engaged for the above 3 reasons since the 2018/19 school year, what are the specific duties of each type of jobs?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 50)

Reply:

(1) The number of non-civil service contract (NCSC) staff engaged to “meet service needs which are time-limited, short-term or seasonal in nature” is set out below:

Financial Year Type of jobs	2015-16 (up to 30 June 2015)	2016-17 (up to 30 June 2016)	2017-18 (up to 30 June 2017)	2018-19 (up to 30 June 2018)	2019-20 (up to 30 June 2019)
Teaching Assistant	278	315	332	349	366
Project Manager/ Project Coordinator/ Project Officer/ Project Administrative Manager/ Project Administrative Officer/ Project Development Officer/ Deputy Project Director/ Project Assistant/ Project Management Officer	46	63	71	96	98
General Clerk/ Project Assistant/ General Assistant	79	81	85	91	85
Information Technology/ Technical Support Staff	48	56	62	86	99
Executive Manager/ Administrative Assistant/ Administrative Management Officer	37	39	47	41	35
Educational Psychologist/ Audiologist	14	12	16	35	40
Others (e.g. Student Affairs Assistant and Research Officer)	116	86	55	50	60

(2) The number of NCSC staff engaged to “meet service needs where the mode of delivery of the service is under review or likely to be changed” is set out below:

(Question Serial No. 3283)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(1) Please set out the items under the insurance that the Education Bureau has taken out for primary and secondary schools and the expenditures involved; numbers of schools, teachers and students covered by the insurance; as well as numbers of claims made and indemnified from the 2016/17 to 2020/21 school years;

(2) Of all the claims made and indemnified, please set out the numbers of cases involving professional liability and deaths respectively; and

(3) Upon the implementation of free kindergarten education, is there funding earmarked for kindergartens to take out the necessary insurance? If yes, what are the details and expenditures involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 53)

Reply:

(1) and (2)

The Education Bureau (EDB) has taken out the Block Insurance Policy (BIP), which comprises 3 parts, namely the public liability insurance, the employees' compensation insurance and the group personal accident insurance, for aided primary and secondary schools (including special schools). Professional liability insurance is not under the coverage of the BIP. All staff in aided primary and secondary schools (including special schools), both teaching and non-teaching, whose salaries are subvented by the EDB, as well as students, are insured under the BIP. Each period of insurance covers 2 school years and the expenditures on the insurance premium for the BIP for the 2015/16 to 2016/17, 2017/18 to 2018/19 and 2019/20 to 2020/21 school years are \$146.1 million, \$129 million and

\$165.7 million respectively. To protect the interests of the claimants, schools are required to report all accidents, irrespective of whether they are liable, to the BIP insurer. Hence, the number of reported cases should not be taken as the number of claims. We do not have the statistics on the number of claims. From the 2016/17 to 2019/20 school years (as at November 2019), the total number of reported cases and indemnified cases for all types of insurance under the BIP are 8 300 and 3 800 respectively. Among them, there are 15 cases involving deaths. Information for the 2020/21 school year is not yet available.

(3) Under the kindergarten (KG) education policy, the EDB provides direct subsidy to KGs joining the KG education scheme (Scheme). Funding is provided basically on a per student basis in the form of a basic unit subsidy. The basic unit subsidy covers teaching staff salary, supporting staff salary and other operating costs. Insurance premium is one of the expenditure items chargeable to the “other operating costs” portion of the basic unit subsidy. The mode of provision of funding for KGs differs from that for aided primary and secondary schools. The degree to which KGs and aided primary and secondary schools have to follow the EDB’s established operational and administrative practices also differs. As compared to aided primary and secondary schools, the modes of operation among KGs participating in the Scheme are more diversified. Hence, the EDB does not play the role of a central coordinator in various aspects relating to operation of KGs, including procurement of insurance policies.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

(a) Please provide the number of students with special educational needs (SEN) from the 2015/16 to 2019/20 school years, with a breakdown by school level and SEN type.

(b) Please provide the number of primary and secondary schools under each existing subvention mode (including Learning Support Grant, Intensive Remedial Teaching Programme and Mixed Mode) from the 2015/16 to 2019/20 school years, with a distribution of schools by number of students requiring tier-1, tier-2 and tier-3 support and a breakdown of expenditures involved.

(c) Please provide the number of primary and secondary schools receiving subvention (i) under \$0.6 million, (ii) between \$0.6 million and \$1.59 million, (iii) between \$1.60 million and \$2.19 million, (iv) \$2.20 million or above on account of admission of students with SEN under each existing subvention mode (including Learning Support Grant, Intensive Remedial Teaching Programme and Mixed Mode) from the 2015/16 to 2019/20 school years; please also advise of the number of additional teachers employed with the above subvention by schools in groups (i) to (iv).

(d) Upon implementation of the enhanced Learning Support Grant, how many primary schools are unable to utilise the grant received to have the same number of teaching posts converted under the Intensive Remedial Teaching Programme? Please provide the respective number of schools in which the number of teaching posts is reduced by 1, 2, and 3 or above. What measures have been taken by these schools to retain the original teachers?

(e) How many schools have to cut the number of senior teachers due to the reduction of classes under the new measure? How many of these schools have made an offset arrangement by upgrading the Special Educational Needs Coordinator post to a promotion rank?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 23)

Reply:

(a)

The number of students with special educational needs (SEN) studying in public sector ordinary primary and secondary schools by school level and SEN type from the 2015/16 to 2019/20 school years is set out at Appendix 1.

(b)

To help public sector ordinary schools cater for students with SEN, the Education Bureau (EDB), on top of regular subvention, has been providing schools with additional resources, professional support and teacher training. In the 2018/19 school year and before, ordinary schools were provided with additional resources under various funding modes to support students with SEN. For instance, some schools opted for the Learning Support Grant (LSG), some primary schools implemented the Intensive Remedial Teaching Programme (IRTP), some schools implemented the Integrated Education (IE) Programme, and some primary schools adopted a Mixed Mode of implementing IRTP while receiving the LSG. Starting from the 2019/20 school year, the EDB extended the LSG to all public sector ordinary schools to replace IRTP and IE Programme (please refer to the paragraphs below for details). The number of public sector ordinary primary and secondary schools adopting the LSG, IRTP and Mixed Mode from the 2015/16 to 2019/20 school years is set out at Appendix 2.

In the 2018/19 school year and before, ordinary schools were provided with additional resources under various funding modes to support students with SEN. For instance, some schools opted for the LSG, some schools implemented the IE Programme, some primary schools implemented IRTP, and some primary schools adopted a Mixed Mode of implementing IRTP while receiving the LSG. As schools were provided with additional resources under different modes (i.e. some were provided with additional grants, some were provided with additional teaching post(s)), schools would adopt diversified strategies to support their students with SEN according to school-based circumstances. Different criteria under these funding modes are adopted in providing additional resources for schools. For example, schools implementing IE Programme or IRTP were provided with additional teaching manpower but the LSG was not provided for flexible deployment in catering for each student with SEN. Besides, there was a basic provision under the LSG in the past, i.e. schools with 1 to 6 student(s) requiring tier-3 support were all provided with the same amount of basic provision. In view of the above factors, the schools concerned might not report to the EDB the tier of support required by each of their students and the number of all students receiving tier-3 support. Indeed, the tier of support for students with SEN is subject to upward or downward adjustment from time to time, depending on the performance of the students, and the distribution of students under the 3-tier Intervention Model may change accordingly. For students with mild or transient learning difficulties, schools will provide them with tier-1 support through quality teaching in regular classrooms. Submission of information about these students to the EDB is not required. The distribution of public sector ordinary primary and secondary schools eligible for LSG by number of students with SEN requiring tier-2 and tier-3 support from the 2015/16 to 2018/19 school years is set out at Appendix 3 and Appendix 4 respectively.

The EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace IRTP and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of the LSG received by the schools reaches the specific threshold. With the implementation of the above enhanced LSG, the amount of the LSG received by each public sector ordinary school is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same mode, which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and enables the EDB to collect complete data on the tier of support these students require from schools. The number of students with various types of SEN requiring tier-2 and tier-3 support in public sector ordinary primary and secondary schools in the 2019/20 school year is tabulated below:

2019/20 school year	No. of students requiring tier-2 support	No. of students requiring tier-3 support
Primary school	27 959	2 094
Secondary school	21 502	1 552

Note: These figures cannot be directly compared with those of the 2018/19 school year and before.

Besides, the statistics on the number of students with SEN studying in public sector ordinary primary and secondary schools set out at Appendix 1 were compiled from records of the Special Education Management Information System (SEMIS) of the EDB in the beginning of the 2019/20 school year. For the figures of the students with SEN shown in the table above, with students' types of SEN and the tier of support they require being scrutinised and submitted by schools to the EDB via SEMIS in the first term of the 2019/20 school year, they were examined and compiled by the EDB at the end of the first term of the same school year. As such, these 2 sets of figures are different.

The expenditure, on top of regular subvention, on additional support and services provided for students with SEN in public sector ordinary schools from the 2015/16 to 2019/20 school year is set out at Appendix 5.

(c)

To enhance the support for schools having admitted a comparatively large number of students with SEN, the EDB has raised the ceiling of LSG from \$1 million to \$1.5 million per school per annum with effect from the 2013/14 school year and increased the rate of grant by 30% in the 2014/15 school year. Starting from the 2015/16 school year, the rate and ceiling of LSG for each school are adjusted annually according to the change in the Composite Consumer Price Index. For primary schools adopting the Mixed Mode and Migration Mode (i.e. migrating from Mixed Mode to fully adopting LSG within a period of up to 6 years), the ceiling of LSG for each school is \$0.35 million and \$0.6 million per annum respectively.

All along, we compile statistics on the number of schools that receive different amounts of grant within the range of LSG allotment as well as those that have reached the ceiling in each school year. We do not compile statistics on situation of schools with LSG exceeding the ceiling. Besides, starting from the 2019/20 school year, under the enhanced LSG, to strengthen the support for schools having admitted comparatively large number of students with SEN, these schools will have additional regular teaching post(s) converted/provided if the total amount of LSG the schools received reaches the specific threshold. Therefore, we can only give the number of public sector ordinary primary and secondary schools that are provided with LSG under \$0.6 million and \$0.6 million or above from the 2015/16 to 2019/20 school years at Appendix 6.

The number of additional teachers provided for public sector ordinary primary schools adopting IRTP, Mixed Mode and Migration Mode from the 2015/16 to 2018/19 school years is set out at Appendix 7. Public sector ordinary schools under the LSG will deploy the grant and school resources flexibly and holistically to render appropriate support services to students with SEN in light of their individual needs, such as employing additional teachers or teaching assistants or hiring professional services. School-based support services therefore vary according to the actual needs of students with SEN. Information on additional teachers employed in these schools is not available. Under the enhanced measure for the LSG, a total of some 1 000 additional regular teaching posts are created in the public sector ordinary schools in the 2019/20 school year.

(d)

Under the enhanced LSG, all public sector ordinary schools are provided with the corresponding LSG and additional graduate posts in the establishment according to the number of students with SEN and the tier of support the students require. The EDB has put in place a special arrangement for retaining all IRTP and IE Programme teachers in the establishment so that they are not affected. Specifically, in the 2019/20 school year, if the additional teaching post(s) to be created through conversion or provision under the LSG is/are insufficient to retain all the IRTP or IE Programme teachers, schools with teaching post vacancies in the establishment, including frozen teaching post vacancies in the approved establishment or vacancies arising from wastage (such as retirement, resignation of serving teachers) or increase in the number of classes, should make rectification as soon as possible. This is a long-established practice. If schools do not have any teaching post vacancies, part of the LSG can be converted into additional regular teaching post(s) for retaining these teachers in the establishment. In other words, all the schools concerned can retain IRTP or IE Programme teachers in the school establishment.

(e)

Among the 239 public sector ordinary primary schools operating IRTP in the 2018/19 school year, 65 of which the number of senior teachers in the approved establishment is affected due to the closure of IRTP in the 2019/20 school year. Since all the schools concerned have the Special Educational Needs Coordinator post upgraded to a promotion rank in the 2019/20 school year, no schools will have the number of senior teachers at substantive rank higher than the number of the approved entitlement due to the closure of IRTP.

Number of students with special educational needs (SEN) studying in public sector ordinary primary and secondary schools by school level and SEN type from the 2015/16 to 2019/20 school years

School year	School level	Specific learning difficulties	Intellectual disability	Autism spectrum disorders	Attention deficit/hyperactivity disorder	Physical disability	Visual impairment	Hearing impairment	Speech & language impairment	Mental illness
2015/16	Primary	8 370	660	4 420	3 850	120	30	280	2 100	-
	Secondary	11 020	930	2 380	4 350	190	80	390	300	-
2016/17	Primary	8 860	670	5 020	4 350	110	30	300	2 520	-
	Secondary	11 260	910	2 800	5 090	190	80	350	350	-
2017/18	Primary	9 250	690	5 430	4 670	120	40	350	2 430	-
	Secondary	11 460	830	3 280	5 860	170	70	340	370	-
2018/19	Primary	10 370	760	5 690	5 110	110	40	360	2 510	60
	Secondary	11 430	830	3 840	6 780	150	60	310	360	310
2019/20	Primary	11 200	810	6 400	5 500	110	30	390	2 810	70
	Secondary	11 480	790	4 410	7 660	140	60	310	510	500

Note:
 Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on the students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information of students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.

**Number of public sector ordinary primary and secondary schools
adopting Learning Support Grant, Intensive Remedial Teaching Programme and Mixed Mode (including Migration Mode)
from the 2015/16 to 2019/20 school years**

School year	Learning Support Grant		Intensive Remedial Teaching Programme		Mixed Mode (including Migration Mode)	
	Primary	Secondary	Primary	Secondary	Primary	Secondary
2015/16	211	382	144	Not applicable	99	Not applicable
2016/17	212	382	140	Not applicable	102	Not applicable
2017/18	213	381	140	Not applicable	101	Not applicable
2018/19	217	381	140	Not applicable	99	Not applicable
2019/20	455	389	Not applicable	Not applicable	Not applicable	Not applicable

Note:
Starting from the 2019/20 school year, the Learning Support Grant (LSG) has been extended to all public sector ordinary primary and secondary schools to replace the Intensive Remedial Teaching Programme (IRTP) and the Integrated Education Programme. Therefore, no data on the number of schools adopting IRTP and Mixed Mode (schools implementing an IRTP while receiving LSG) in that school year is available.

Distribution of public sector ordinary primary and secondary schools eligible for Learning Support Grant by number of students with special educational needs (SEN) requiring tier-2 support from the 2015/16 to 2018/19 school years

No. of students with SEN requiring tier-2 support	No. of schools ^{Notes}							
	2015/16		2016/17		2017/18		2018/19	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
0	0	2	1	2	9	1	0	1
1-10	15	81	11	57	41	50	13	39
11-20	26	72	26	77	23	67	18	54
21-30	35	49	26	56	19	57	20	64
31-40	55	27	47	27	47	34	31	36
41-50	63	22	62	26	57	30	72	34
51-60	51	25	62	19	65	21	80	21
61-70	33	21	37	25	41	21	53	25
71-80	19	25	22	25	28	14	46	19

91-100	4	13	8	18	8	18	13	15
Over 100	2	28	3	35	7	49	8	62

Notes:

- Starting from the 2017/18 school year, the Learning Support Grant (LSG) covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.
- Before the 2019/20 school year, ordinary schools were provided with additional resources with reference to different criteria and principles under various funding modes to support students with SEN. Those schools opting to implement IE

Programme or IRTP (i.e. not opting for LSG) might not report to the Education Bureau (EDB) the tier of support required by each of their students and the number of all students receiving tier-3 support. Starting from the 2019/20 school year, the amount of LSG received by each public sector ordinary school under the enhanced LSG measure is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same mode, which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and the EDB collects complete data on the tier of support these students require from schools.

Distribution of public sector ordinary primary and secondary schools eligible for Learning Support Grant by number of students with special educational needs (SEN) requiring tier-3 support from the 2015/16 to 2018/19 school years

No. of students with SEN requiring tier-3 support	No. of schools ^{Notes}							
	2015/16		2016/17		2017/18		2018/19	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary

16-20	1	0	2	1	1	3	6	0
Over 20	3	2	2	2	3	3	8	4

Notes:

- Starting from the 2017/18 school year, the Learning Support Grant (LSG) covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.
- Before the 2019/20 school year, ordinary schools were provided with additional resources with reference to different criteria and principles under various funding modes to support students with SEN. Those schools opting to implement IE Programme or IRTP (i.e. not opting for LSG) might not report to the Education Bureau (EDB) the tier of support required by each of their students and the number of all students receiving tier-3 support. Starting from the 2019/20 school year, the amount of LSG received by each public sector ordinary school under the enhanced LSG measure is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier

of support these students require. Schools are provided with additional resources under the same mode, which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and the EDB collects complete data on the tier of support these students require from schools.

**Expenditure on additional support and services provided for
students with special educational needs in public sector ordinary schools
from the 2015/16 to 2019/20 school years
(on top of regular subvention)**

School year	Expenditure (\$ million)
2015/16	1,310
2016/17	1,392
2017/18	1,638
2018/19	1,977
2019/20 (Revised estimate)	3,116

**Number of public sector ordinary primary and secondary schools
adopting Learning Support Grant, Mixed Mode and Migration Mode
within the range of Learning Support Grant allotment
from the 2015/16 to 2019/20 school years**

School year			Provision of Learning Support Grant (LSG) ^(Note 1)	
			Number of schools	Under \$0.6 million
2015/16	Secondary school	LSG	204	178 [25]
	Primary school	LSG	33	178 [21]
		Mixed Mode	94	Not applicable
		Migration Mode	0	5
2016/17	Secondary school	LSG	194	188 [29]
	Primary school	LSG	28	184 [27]
		Mixed Mode	93	Not applicable
		Migration Mode	0	9
2017/18 (Note 2)	Secondary school	LSG	174	211 [41]
	Primary school	LSG	62	192 [30]
		Mixed Mode	90	Not applicable
		Migration Mode	0	11
2018/19 (Note 2)	Secondary school	LSG	150	235 [58]
	Primary school	LSG	85	197 [51]
		Mixed Mode	86	Not applicable
		Migration Mode	0	13
2019/20 (Note 3)	Secondary school	LSG	180	209 [Not applicable]
	Primary school	LSG	48	407 [Not applicable]

Notes:

1. From the 2015/16 to 2018/19 school years, the ceiling of LSG is \$1,546,500, \$1,583,616, \$1,613,705 and \$1,652,434 respectively. The number of schools that have reached the ceiling in each school year is set out in square brackets. For primary schools adopting Mixed Mode and Migration Mode, the ceiling of LSG in the above school years has remained at \$0.35 million and \$0.6 million respectively.
2. Starting from the 2017/18 school year, the LSG covers students with mental illness. The number of schools in the 2017/18 and 2018/19 school years covers schools operating Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme and having students with mental illness for whom LSG has been provided.
3. Starting from the 2019/20 school year, the Education Bureau (EDB) has enhanced measures on supporting public sector ordinary schools, including restructuring various subvented programmes for IE, extending the LSG to all public sector ordinary schools, cancelling the IRTP and the IE Programme, and multiplying the LSG unit grant rate for tier-3 support. Under the enhanced measures, schools will have additional regular teaching post(s) titled as Special Educational Needs Support Teacher converted/provided on account of the LSG reaching the specific threshold, thus allowing schools to have a more stable teaching force and additional resources for flexible deployment to support students with special educational needs.

Number of additional teachers provided for public sector ordinary primary schools adopting Intensive Remedial Teaching Programme, Mixed Mode and Migration Mode from the 2015/16 to 2018/19 school years

	2015/16	2016/17	2017/18	2018/19
Number of additional teachers	388	383	382	380

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown and the total of the number of classes from Primary 1 to 6 and Secondary 1 to 6, number of school places and number of students in government schools, aided schools, special schools, Direct Subsidy Scheme schools, private schools, English Schools Foundation schools and international schools for each of the 18 districts in the territory from the 2015/16 to 2019/20 school years.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 58)

Reply:

The numbers of operating classes, places and students at each grade level of primary schools and secondary schools by district and school type from the 2015/16 to 2019/20 school years are set out at Appendix 1.

The numbers of approved classes, places and students of each type of aided special schools (primary section and secondary section) in Hong Kong from the 2015/16 to 2019/20 school years are set out at Appendix 2. Since the number of students who need to be admitted to special schools is relatively small, the planning and provision of special school places are not on a district basis. As such, providing corresponding figures by district is not meaningful. In addition, it is a common practice for special schools to adopt flexible groupings across grade levels and devise individual education plan to cater for the special educational needs of individual students. Therefore, presenting the number of classes by grade level (Primary 1 to 6 and Secondary 1 to 6) cannot reflect the actual operation in special schools.

Number of operating classes, places and students of primary schools by district, grade level and school type from the 2015/16 to 2019/20 school years

2015/16 school year

District	Grade	Government			Aided			Direct Subsidy Scheme (DSS)			Private			International			All Sectors

- Note: (1) Figures refer to the position as at mid-September of the respective school years.
- (2) Figures include ordinary primary schools, but not special schools. International schools include the English Schools Foundation schools.
- (3) Figures on operating classes in a very small number of non-public sector schools involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, a combined class is treated as one class. When counting the number of classes broken down by grade, a combined class is split into different classes in proportion to the number of students from each grade and the numbers are rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.
- (4) Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned.
- (5) School districts are delineated by the District Council districts of the school campuses. Starting from the 2019/20 school year, the districts for schools with decanting campuses are based on the District Council districts of the original campuses.

Number of operating classes, places and students of secondary day schools by district, grade level and school type from the 2015/16 to 2019/20 school years

2015/16 school year

- Note: (1) Figures refer to the position as at mid-September of the respective school years.
- (2) Figures include ordinary secondary day schools, but not special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses. International schools include the English Schools Foundation schools.
- (3) Figures on operating classes in a very small number of non-public sector schools involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, a combined class is treated as one class. When counting the number of classes broken down by grade, a combined class is split into different classes in proportion to the number of students from each grade and the numbers are rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.
- (4) Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned.
- (5) School districts are delineated by the District Council districts of the school campuses. Starting from the 2019/20 school year, the districts for schools with decanting campuses are based on the District Council districts of the original campuses.

Note

1. Figures refer to the position as at September of the respective school years.
2. The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the schools for children with MiID and children with MoID (i.e. 7 schools in the 2015/16 school year and 5 schools in the 2016/17, 2017/18, 2018/19 and 2019/20 school years).
3. 1 school for children with severe intellectual disability has started to operate pilot classes for children with MoID starting from the 2017/18 school year. The figures are categorised according to the respective class types.
4. From the 2015/16 to 2018/19 school years, the Hospital School operated classes at 18 hospitals. In the 2019/20 school year, the Hospital School operates classes at 20 hospitals.
5. Special schools basically provide Primary 1 to Secondary 6 education. The number of approved classes is calculated with reference to the total number of students in the whole school. Since relatively more resources are provided for the classes in the secondary section, the Education Bureau has all along been giving priority in approving the number of classes in the secondary section of special schools. The number of students admitted in the primary section of some special schools was larger than the number of places in the 2018/19 school year, and it was the result of the increase in the number of Primary 1 students admitted in special schools in recent years. However, as a whole, these schools have sufficient places and resources to take care of their students. As for the Hospital School, the turnover number of hospitalised children is quite high, thus, the situation that the number of students admitted was larger than the number of places was observed in the 2015/16 school year.

**Number of approved classes, places and students of each type of
aided special schools (secondary section) in Hong Kong from the 2015/16 to 2019/20 school years**

Note

1. Figures refer to the position as at September of the respective school years.
2. The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the schools for children with MiID and children with MoID (i.e. 7 schools in the 2015/16 school year and 5 schools in the 2016/17, 2017/18, 2018/19 and 2019/20 school years).
3. 1 school for children with severe intellectual disability has started to operate pilot classes for children with MoID starting from the 2017/18 school year. The figures are categorised according to the respective class types.
4. From the 2015/16 to 2018/19 school years, the Hospital School operated classes at 18 hospitals. In the 2019/20 school year, the Hospital School operates classes at 20 hospitals.
5. Since the turnover number of hospitalised children at the Hospital School is quite high, the situation that the number of students admitted was larger than the number of places was observed.

CONTROLLING OFFICER'S REPLY**EDB131****(Question Serial No. 3288)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (1) Director of Bureau's Office, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(a) Using the table below, please provide information on cross-boundary projects or programmes in which the Education Bureau (EDB) of Hong Kong collaborated/will collaborate with the Mainland departments or were involved/will involve in the past 3 years (from the 2017/18 to 2019/20 school years) and the coming year (2020/21), as well as the manpower and expenditures involved:

Project/ Programme	Details and objectives	Mainland departments/ organisations involved	Progress	Has the project/programme been publicised?	Other HKSAR government departments and/or commissioned services involved and/or names of organisations sponsored	Details of the legislation and policies relating to the project/programme	Manpower and expenditures involved

(b) Please set out the numbers, content, objectives and respective expenditure of all meetings between the EDB and the Liaison Office of the Central People's Government in the Hong Kong Special Administrative Region (Liaison Office) and Mainland officials in the past 3 years (from the 2017/18 to 2019/20 school years); and

(c) Please set out the numbers, content, objectives, numbers of participants and expenditures of the duty visits and study trips made by the EDB officials to the Mainland and overseas countries in the past 3 years (from the 2017/18 to 2019/20 school years).

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 59)

Reply:

Part (a)

By cross-boundary projects or programmes in which the EDB collaborated with Mainland departments, we refer to those projects/programmes with direct involvement of both the EDB and Mainland departments. The manpower and expenditures involved in these projects in the past 3 school years (from the 2017/18 to 2019/20 school years) and the coming year (the 2020/21 school year) are at Annex A and Annex B respectively.

Part (b)

The EDB maintains necessary working relationships with the central and provincial/municipal authorities in the Mainland, as well as offices of the Central People's Government in the HKSAR to ensure effective exchanges. There is no separate establishment or account for this daily operational work.

Part (c)

The details and expenditure on duty visits outside Hong Kong made by the EDB officials are shown below:

School Year	Mainland			Overseas		
	No. of Visits	No. of Officials	Expenditure (\$'000)	No. of Visits	No. of Officials	Expenditure (\$'000)
2017/18	166	353	2,127	36	90	2,413
2018/19	192	450	2,406	35	76	1,924
2019/20 (as at 10 March 2020)	71	146	789	10	24	506

The major objectives of the duty visits to the Mainland or overseas were to promote the education initiatives of Hong Kong, share experience on education reforms, explore co-operation on educational fronts and attend international conferences on education issues.

CONTROLLING OFFICER'S REPLY

EDB132

(Question Serial No. 3289)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the existing programmes in connection with after-school learning and support provided for students and the funding from the 2015/16 to 2019/20 school years by school year and district, including:

(a) the number of students receiving Comprehensive Social Security Assistance (CSSA), full grant or half grant, and their respective percentage shares in the total number of students in the respective school years; and

(b) a breakdown of the content of the various support programmes, number of participating schools, number of students receiving CSSA, full grant or half grant and their related percentage shares by school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 60)

Reply:

Public sector schools are provided with various types of subsidies and other resources annually. Schools may deploy flexibly the subsidies and resources to support students' learning and provide after-school activities for students to facilitate their whole-person development.

Among which, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year to support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant (SBG) and Community-based Project (CBP) Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS).

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of CSSA or full grant of SFAS but identified by schools as needy (including students receiving half grant of SFAS, new arrivals, single parent households, etc.). Besides, eligible participating schools (i.e. having a utilisation rate of 80% or above of the provision in the previous year) have been provided with incentive funding under the SBG (which is calculated at an annual rate of \$600 per eligible student vis-à-vis \$400 in other schools and includes an additional 25% of the provision following the increase in the discretionary quota mentioned above). The annual provision of the Programme has been increased to about \$240 million since then.

Besides, the Hong Kong Jockey Club Charities Trust (Trust) and EDB have jointly set up the Hong Kong Jockey Club Life-wide Learning Fund (Fund) since 2002 to subsidise financially needy students to participate in life-wide learning activities organised or recognised by schools for whole-person development. Eligible students under the Fund are students from families in receipt of CSSA or receiving full grant of the SFAS studying in primary and secondary schools.

The Fund ended at the close of the 2018/19 school year. In 2018-19, the Government has set up the Student Activities Support Fund with an endowment of \$2.5 billion. Starting from the 2019/20 school year, public sector schools and schools under the Direct Subsidy Scheme are provided with the Student Activities Support Grant (Grant) to continue the support for primary and secondary school students with financial needs to participate in out-of-classroom learning activities organised or recognised by schools. The amount of the Grant to be disbursed to a school is calculated based on the number of students of the school in receipt of CSSA or full grant in the respective school year.

The number of students receiving the CSSA, full grant or half grant and their respective percentage shares in the total number of students by district from the 2015/16 to 2019/20 school years are at [Annex A](#).

The provision and number of participating schools/NGOs, respective number of students of the above programmes and their related percentage shares by district from the 2015/16 to 2019/20 school years are at [Annex B](#).

Number of students in receipt of Comprehensive Social Security Assistance (CSSA), full grant and half grant and respective percentage shares among total number of students by district in the 2015/16 school year

- The numbers of students are rounded to the nearest 10.
- Eligible students under the Programme are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. The number of students is calculated based on the data on students receiving the grant as at the end of March 2015 and the number of approved classes as specified by the Education Bureau in April 2015 for the 2015/16 school year. Breakdown of the number of participating students receiving SFAS half grant is not available. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit more needy students (e.g. receiving half grant, new arrivals, single parent households, etc.) who do not receive CSSA or full grant.
- Eligible students under the Fund are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. Starting from the 2005/06 school year, the discretionary quota of all participating schools has been increased from 10% to 100% to benefit more needy students (e.g. receiving half grant, new arrivals, single parent households, etc.) who do not receive CSSA or full grant. Breakdown of the number of participating students receiving SFAS half grant is not available.
- For the 2015/16 school year, the total number of NGOs is 175. Since an NGO may organise after-school activities in different districts, the total number of NGOs by district may not tally with the total number under the Programme.
- As the CSSA data is as at end-December of each year while the provision to eligible students under the above programmes is based on each school year, the corresponding percentage share cannot be worked out.

1. The numbers of students are rounded to the nearest 10.

2. Eligible students under the Programme are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. The number of students is calculated based on the data on students receiving the grant as at the end of March 2018 and the number of approved classes as specified by the Education Bureau in April 2018 for the 2018/19 school year. Breakdown of the number of participating students receiving SFAS half grant is not available. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit more needy students (e.g. receiving half grant, new arrivals, single parent households, etc.) who do not receive CSSA or full grant.

3. Eligible students under the Fund are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. Starting from the 2005/06 school year, the discretionary quota of all participating schools has been increased from 10% to 100% to benefit more needy students (e.g. receiving half grant, new arrivals, single parent households, etc.) who do not receive CSSA or full grant. Breakdown of the number of participating students receiving SFAS half grant is not available.

4. For the 2018/19 school year, the total number of NGOs is 171. Since an NGO may organise after-school activities in different districts, the total number of NGOs by district may not tally with the total number under the Programme.

5. As the CSSA data is as at end-December of each year while the provision to eligible students under the above programmes is based on each school year, the corresponding percentage share cannot be worked out.

**Provision and number of participating schools/NGOs and related students by district under
School-based After-school Learning and Support Programmes and Student Activities Support Grant
in the 2019/20 school year**

District	School-based After-school Learning and Support Programmes (Programme)							Student Activities Support Grant ³

(Question Serial No. 3290)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the free quality kindergarten education scheme, please provide the following information for the school years from 2017/18 to 2019/20:

(1) What is the number of kindergartens (KGs) that receive the tide-over grant? How many of them operate half-day, mixed (half-day and whole-day), whole-day and long whole-day service? What is the total amount of tide-over grant approved? What are the respective highest, lowest, average and median amount approved for these 4 types of KGs?

(2) It is stipulated that KGs employing basic rank full-time teachers at an average monthly salary above \$20,000 in the 2014/15 and 2015/16 school years are eligible to apply for the tide-over grant for the 2017/18 and 2018/19 school years. For KGs that were marginally ineligible in the past years, if the average monthly salary of their basic rank teachers was higher than \$30,180 in the 2018/19 school year, they would become eligible to apply for the tide-over grant for the 2019/20 school year. What is the justification for revising the eligibility from an average monthly salary exceeding \$20,000 in the 2014/15 and 2015/16 school years to an average monthly salary exceeding \$30,180 in the 2018/19 school year, and how are these levels determined? According to the Government's estimation, how many KGs could meet this level of increase in average monthly salary? and

(3) For each of the 4 types of KGs mentioned above, please give the respective number of KGs having applied for collection of school fees, approved and not approved to collect school fees as well as the total number of KGs in each of the school years from 2017/18 to 2019/20. For KGs approved to collect school fees in each of these 4 types of KGs, what are the average, lowest, highest and median level of annual school fees? For all KGs not approved to collect school fees, please list the reasons, the type and number of KGs involved.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 61)

Reply:

(1)

In the 2017/18 school year, 478 of the 748 kindergartens (KGs) joining the KG education scheme (Scheme-KGs) were approved for the tide-over grant (ToG). The expenditure on the ToG in 2017-18 was about \$135 million (reflecting the expenditure for the first 8 months, i.e. from August 2017 to March 2018, after the implementation of the Scheme in the 2017/18 school year). In the 2018/19 school year, 485 of the 753 Scheme-KGs (excluding the 2 KGs approved to join the Scheme in the middle of the school year) were approved for the ToG. The expenditure on the ToG in 2018-19 was about \$207 million. As for the 2019/20 school year, 485 of the 761 Scheme-KGs have been approved for the ToG. The revised estimate on the ToG in 2019-20 is about \$214 million. The number of KGs approved for the ToG by service mode, i.e. half-day (HD), whole-day (WD), etc., and the respective highest, lowest, average and medium amounts approved in the above-mentioned school years are tabulated at Appendix 1.

(2)

Scheme-KGs with a large number of long-serving teachers receiving higher salaries (i.e. the average monthly salary of their basic rank full-time teachers with Certificate in Early Childhood Education (C(ECE)) or above qualification (within the teacher-to-pupil (TP) ratio of 1:15) in the 2014/15 and 2015/16 school years was higher than \$20,000) before joining the Scheme would be provided with the ToG. The ToG aims to render additional financial support for these KGs to defray their expenses on teaching staff salary in the early period of implementation of the Scheme, so that KGs may retain their long-serving teachers and maintain the stability of their teaching force. In July 2017, the Government announced the extension of the 2-year ToG (2017/18 and 2018/19 school years) for 3 years (from the 2019/20 to 2021/22 school years), making a total of 5 years of provision. Regarding the arrangements for the 3-year extension, KGs approved to receive the ToG will continue to be provided with the grant. As for other KGs (i.e. those not having a large number of long-serving teachers receiving higher salaries before joining the Scheme), they should have effectively planned and deployed resources provided at the time of joining the Scheme, and in principle, there should not be insufficient subsidy to cover expenses on teachers' salary due to a large number of long-serving teachers receiving higher salaries after 2 years of implementation of the Scheme. However, given the diversity of the KG sector, there may be exceptional circumstances that need special consideration. Since the teaching staff salary portion of the basic unit subsidy is calculated at the mid-point of the salary range, we take this as the basis for consideration. For KGs marginally ineligible for the ToG in the past years, should their basic rank teachers' average monthly salary in the 2018/19 school year exceed the mid-point salary (i.e. \$30,810) of the provisional salary range (i.e. \$22,180 to \$39,440) for basic rank teachers in the 2019/20 school year due to exceptional circumstances, they may provide justifications and details about their salary arrangement for teachers. We would consider on a case-by-case basis. In the 2019/20 school year, the Education Bureau received an application from 1 KG but that KG did not meet the eligibility criteria as mentioned above.

(3)

From the 2017/18 to 2019/20 school years, the number of Scheme-KGs that applied for collection of school fees for HD, WD and long WD (LWD) service, the number of KGs with and without approval for collection of school fees, and the total number of

Scheme-KGs are tabulated at Appendix 2. The median, weighted average, highest and lowest school fees among fee-charging KGs are tabulated at Appendix 3.

When assessing KGs' applications for school fees revision, we primarily consider their overall financial position and actual operation, including salaries for teaching and supporting staff, TP ratio, maintenance of school facilities, general operating expenses, etc. We do not have an analysis of the reasons for not granting approval for collection of school fees for different types of KGs.

Number of KGs approved for the tide-over grant (ToG) and
the highest, lowest, average and median amount of grant disbursed
from the 2017/18 to 2019/20 school years

2017/18 School Year	Only operating HD classes	Only operating WD classes	Operating both WD and HD classes
No. of KGs approved for the ToG	85	220	173
Highest amount (\$'000)	2,340	590	2,410
Lowest amount (\$'000)	80	30	110
Average amount (\$'000)	850	210	500
Median amount (\$'000)	780	200	450

2018/19 School Year	Only operating HD classes	Only operating WD classes	Operating both WD and HD classes
No. of KGs approved for the ToG	85	221	179
Highest amount (\$'000)	2,340	620	2,520
Lowest amount (\$'000)	80	60	20
Average amount (\$'000)	870	220	480
Median amount (\$'000)	810	210	430

2019/20 School Year	Only operating HD classes	Only operating WD classes	Operating both WD and HD classes
No. of KGs approved for the ToG	85	224	176
Highest amount (\$'000)	1,680	440	1,810
Lowest amount (\$'000)	60	40	60
Average amount (\$'000)	610	130	330
Median amount (\$'000)	570	130	280

Note 1: The KGs offering WD classes in the 2017/18, 2018/19 and 2019/20 school years in the table above include 220, 221 and 224 Former Aided Child Care Centres (FACs) respectively. FACs refer to former aided child care centres operated under the Social Welfare Department before harmonisation of pre-primary services. They usually operate longer service hours.

Note 2: The amount of the 2019/20 school year shown above refers to the position as at March 2020 as the 2019/20 school year has not yet come to a close.

Number of Scheme-KGs applying for collection of school fees,
number of KGs approved and not approved to collect school fees,
and total number of Scheme-KGs
from the 2017/18 to 2019/20 school years

School Year	Service	No. of Scheme-KGs			
		No. of KGs applying for collection of school fees	No. of KGs approved to collect school fees (Note 1)	No. of KGs not approved to collect school fees	Total no. of KGs (Note 2)
2017/18	HD	69	31	38	510
	WD	344	313	31	354
	LWD (Note 3)	240	212	28	246
2018/19	HD	56	35	21	511
	WD	341	323	18	364
	LWD (Note 3)	238	224	14	246
2019/20	HD	48	36	12	515
	WD	330	320	10	370
	LWD (Note 3)	239	228	11	246

Notes:

1. The figures refer to the position when applications for school fees revision was first submitted by KGs, without including changes during the course of vetting. KGs providing both HD and WD/LWD services are counted in each appropriate row.
2. The figures reflect the situation as at mid-September of the respective school years. KGs providing both HD and WD/LWD services are counted in each appropriate row.
3. FACs refer to former aided child care centres operated under the Social Welfare Department before harmonisation of pre-primary services. They usually operate longer service hours.

Median, weighted average, highest and lowest school fees
charged by Scheme-KGs
from the 2017/18 to 2019/20 school years

2017/18 School Year

Annual School Fee (Note 1)	HD	WD	LWD (Note 2)
Median (\$)	2,900	7,300	11,400
Weighted average (\$)	3,000	8,100	11,000
Highest (\$)	9,500	25,900	22,500
Lowest (\$)	100	200	900

2018/19 School Year

Annual School Fees (Note 1)	HD	WD	LWD (Note 2)
Median (\$)	3,400	8,100	12,000
Weighted average (\$)	3,700	8,700	11,600
Highest (\$)	10,100	26,200	26,200
Lowest (\$)	100	200	700

2019/20 School Year

Annual School Fees (Note 1)	HD	WD	LWD (Note 2)
Median (\$)	3,400	8,100	12,600
Weighted average (\$)	4,000	8,900	12,300
Highest (\$)	10,100	27,400	27,400
Lowest (\$)	100	200	700

Notes:

1. The figures are rounded to the nearest hundred. The school fees of KGs providing both HD and WD/LWD services are counted in each appropriate column.
2. FACs refer to former aided child care centres operated under the Social Welfare Department before harmonisation of pre-primary services. They usually operate longer service hours.

EDB134

(Question Serial No. 3291)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (8) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

- (1) How many applications for suspended teachers to receive half pay from school management committees/incorporated management committees were received by the Education Bureau (EDB) in each school year since September 1994? How many of them were approved and rejected? What were the reasons and the expenditure on salaries involved?
- (2) According to the Codes of Aid, for what reasons will teachers be granted half pay during suspension? What mechanism and specific criteria have been adopted by the EDB to consider whether or not a suspended teacher should be given half pay?
- (3) By what criteria does the Code of Aid for Aided Schools replace the arrangement to grant half pay to suspended teachers under the Codes of Aid with no "salary payment" during all "periods of suspension, when the employee will be absent from duty"?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 62)

Reply:

(1), (2) and (3)

The Education Bureau (EDB) attaches great importance to teachers' professional conduct and students' behavioural performance. Teachers play a vital role in passing on knowledge and nurturing students' character and are important role models for students. The Codes of Aid clearly stipulate that schools may, subject to the provisions of the Employment Ordinance, suspend teachers from their normal duties if they have been involved or are likely to be involved in criminal proceedings of a serious nature or in serious misconduct. As teachers will not be carrying out their duties during the periods of suspension, the teachers concerned should not receive salary payment when they are absent from duties during the suspension periods having regard to the principle of prudent use of

public money. The Code of Aid for Aided Schools also stipulates that teachers employed in the school year subsequent to the incorporation of the Incorporated Management Committees (IMCs) should not receive salary payment during the periods of suspension when they are absent from duties. For teachers employed before the incorporation of the IMCs, the management committees of the schools may, pursuant to the Codes of Aid for Primary Schools, Secondary Schools and Special Schools, pay half of the salaries to these teachers during their suspension periods on the condition that the schools have obtained the EDB's prior approval on such arrangements. Nevertheless, the arrangement of teachers on suspension receiving half pay would only be considered under special circumstances and is not applicable to every case. Meanwhile, according to the Codes of Aid and Code of Aid for Aided Schools, the salary pertaining to the periods of suspension will not be paid after the teachers' reinstatement. The above arrangements are not inconsistent with the relevant provisions of the Employment Ordinance.

From the 2015/16 to 2019/20 school years (as at 29 February 2020), 2 applications for 3 suspended teachers to receive half pay were received by the EDB, none of them were approved.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In view of the rampant spread of the novel coronavirus, the Government has made an amendment to the Prevention and Control of Disease Ordinance (Cap. 599, Laws of Hong Kong) to include "Severe Respiratory Disease associated with a Novel Infectious Agent" (hereafter "novel coronavirus") as a scheduled infectious disease specified in item 34AAA of Schedule 1 to the Ordinance. Please provide the following information from the 2009/10 to 2019/20 school years:

(1) For the purpose of section 53 of the Education Regulations (ER), how many people were excluded from schools in each school year and what were the types of scheduled infectious diseases involved? What were the categories of persons being excluded? How many school medical officers were appointed in each school year?

(2) For the purpose of section 54 of the ER, how many persons were required to submit to medical examination? What were the categories of these persons? Please provide details about the administration of these medical examinations and their results.

(3) Which section/division is responsible for the above duties? What are the staff establishment, ranks of staff and expenditure involved each year?

(4) To prevent the spread of the novel coronavirus in schools, will the Government provide additional resources to step up enforcement actions in the coming year? What are the manpower and expenditure involved?

(5) If schools are aware or suspect that certain students (including students returning from the Mainland or cross-boundary students) or teaching staff are showing symptoms but they refuse to submit to medical examinations and self-isolation and insist on coming to school, will the schools be required to report them to the Education Bureau (EDB) as soon as possible? Upon receiving the report, will the EDB arrange school medical officers to examine the student or teaching staff concerned as required by the law? Subject to section

53 of the ER, will the student or teaching staff concerned be excluded from school? If yes, how specifically will the law be enforced? If no, what are the reasons?

(6) How will the EDB ensure that schools and their teaching staff have sufficient anti-epidemic supplies to stay in compliance with the requirements of the Occupational Safety and Health Ordinance?

(7) Will the EDB extend special tuberculosis leave provided in the Codes of Aid for Aided Schools to teaching staff infected by the novel coronavirus? If yes, what are the specific implementation details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 63)

Reply:

(1) to (4) Under the prevailing mechanism, schools should make reference to the Guidelines on Prevention of Communicable Diseases in Schools/Kindergartens/Kindergartens-cum-Child Care Centres/ Child Care Centres issued by the Centre for Health Protection (CHP) of the Department of Health (DH) when handling the report of cases where school staff or students are infected with a communicable disease and related matters. Schools are required to report to the CHP and the Education Bureau (EDB) any suspected or confirmed cases of infectious diseases, which are not confined to the scheduled infectious diseases specified in section 53 of the Education Regulations (ER). Upon receipt of a reported case, the CHP will immediately carry out epidemiological investigation and provide advice to schools on the necessary control measures to prevent further spread of communicable diseases among students and staff. The CHP and the EDB will maintain close liaison to ensure that infection control measures are put in place timely. Schools have been keeping in view the health conditions of students and staff. The above reporting mechanism has been working effectively. The EDB does not collect information on the items mentioned in part (1) of the question.

Regarding the medical examination of teachers, students and employees under section 54 of the ER, X-ray examinations for teaching post applicants are available in 3 designated X-ray centres under the Tuberculosis and Chest Service of the DH. The 3 designated X-ray centres are Kowloon Bay Radio-diagnostic and Imaging Centre, Fanling Radio-diagnostic and Imaging Centre, and Sai Ying Pun X-ray Survey Centre. The number of persons undergoing X-ray examination for the purpose of applying a teaching post in the past 5 school years is tabulated below:

School year	Kowloon Bay Radio-diagnostic and Imaging centre (1)	Fanling Radio-diagnostic and Imaging centre (2)	Sai Ying Pun X-ray Survey Centre (3)	Total (1+2+3)
2014/15	2 479	1 051	1 025	4 555
2015/16	2 157	1 046	1 114	4 317
2016/17	2 868	1 294	1 258	5 420
2017/18	3 020	1 531	1 617	6 168
2018/19	3 065	1 486	1 364	5 915

The EDB does not collect information on the medical examinations undergone by teachers, students and other employees.

At present, the tasks pertinent to the prevention and control of spread of infectious diseases in schools are undertaken by different sections under the EDB, and the manpower and expenses involved are subsumed under the EDB's overall expenditure. The EDB will deploy resources and manpower in accordance with the operational needs.

(5) To protect the health of students, teachers and other school personnel and to contain the spread of Coronavirus Disease 2019 (COVID-19), the EDB has announced suspension of classes for all schools. During the class suspension, teachers have adopted diversified modes to facilitate students' learning at home. Schools only need to arrange suitable staff to be on duty and take care of students who have to go back to school for lack of carer at home, handle school basic and essential affairs and parents' enquiries. Most of the teachers have been working from home. Recognising the importance of maintaining their own health and public health, teachers and other school personnel who feel unwell should seek medical consultation promptly, receive treatment as advised by the doctors and/or keep themselves in quarantine or isolation according to the statutory requirements.

(6) To support schools' efforts in epidemic prevention, the EDB has deployed existing resources to provide a one-off grant to all schools offering full and formal curriculum (including kindergartens, public sector schools, Direct Subsidy Scheme schools, the English Schools Foundation schools, international schools, Private Independent Schools, private primary schools and private secondary day schools) to help them replenish their epidemic prevention equipment (such as face masks and thermometers), clean their school premises and pay for the other expenses related to epidemic prevention. The provision is estimated to be \$42 million, benefitting some 2 200 schools. Furthermore, the boarding sections of aided special schools have been operating to cater for students in need of boarding service during class suspension. To enhance the support for the boarding sections to guard against the epidemic and to reduce the risk of the spread of the novel coronavirus, the EDB will provide separately a one-off additional grant for 21 special schools with a boarding section. The additional expenditure is estimated to be \$2.25 million.

We will keep in view the procurement of anti-epidemic supplies by schools through our daily communication. To our understanding, the supply of anti-epidemic goods was relatively tight early in the epidemic. Nevertheless, since all classes have been suspended, schools do not require a huge amount of anti-epidemic supplies. We note that the shortage of anti-epidemic supplies has begun to improve recently. The date of class resumption and related arrangements will be announced at least 3 weeks in advance, so schools should have sufficient time to make suitable preparations. As schools are different in scale and needs, they also differ in respect of the type and number of anti-epidemic supplies they need. Schools could make good use of the funding for meeting daily operational expenses provided by the EDB and the anti-epidemic grants to procure necessary anti-epidemic supplies according to their school-based needs.

(7) As stipulated in the Codes of Aid, regular teachers of aided schools suffering from tuberculosis may apply for special tuberculosis leave with the support of valid medical certificates. Such leave only covers tuberculosis, not all lung diseases. At present, upon

receipt of suspected infectious disease outbreak from schools, the CHP will immediately carry out epidemiological investigation and provide advice to schools on control measures to prevent further spread of the infectious disease among students and school staff. Given the characteristics of COVID-19 are not the same as tuberculosis, it is not appropriate to directly extend the arrangements for special tuberculosis leave provided in the Codes of Aid to the novel coronavirus disease.

Director of Bureau: Secretary for Education

Question:

Last year, the Education Bureau (EDB) reserved \$1 billion for minor internal conversions in school premises that seek to enhance the teaching and learning environment. With the close of the first year's application exercise in June last year, please set out:

- (1) the specific eligibility criteria, the number of secondary schools, primary schools and special schools in the territory that met such criteria, and their percentage share in the total number of schools;
- (2) the amount of funding that schools may seek through application in each school year;
- (3) the number of applications received and approved last year, with a breakdown by secondary schools, primary schools and special schools, and the respective total expenditures; and
- (4) the estimated provision for the 2020/21 school year.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 64)

Reply:

Taking into account the experience gained from the improvement works programme for "matchbox-style school premises" and views of different stakeholders, the Education Bureau (EDB) has reserved an additional \$1 billion under the Capital Works Reserve Fund for the implementation of a time-limited minor works programme for some 600 aided schools operating in premises built according to standards prevailing at the time of construction. Minor conversion works, such as converting or altering internal partitions/spaces, will be carried out to enhance schools' flexibility in using existing spaces of their premises, thereby improving the quality of teaching. Individual schools may

submit conversion proposals to the EDB in 2019 and 2020 in light of the conditions of their premises and their school-based needs.

With the close of applications for the 2019 works programme in June 2019, the EDB has received applications from a total of 369 schools, covering 178 secondary schools, 169 primary schools and 22 special schools. Among these applications, about 1 200 works items come under the scope of the minor internal conversion works programme. The estimated project cost is around \$610 million. We have announced the application results in end-March 2020.

Question:

Please provide the following information in respect of primary, secondary and special schools from the 2015/16 to 2020/21 (estimated figures) school years:

(1) How much of the estimated and revised provision for school repair and maintenance is used on emergency repair works, and what are the number of emergency repair works carried out in each school year?

(2) How many schools are provided with the Mandatory Building Inspection Scheme/Mandatory Window Inspection Scheme Subsidy in each school year? Please provide the age of the school premises concerned, as well as the expenditures and estimated expenditures involved. Will such expenditures be absorbed by the provision for school maintenance and repair?

(3) An estimated provision of \$800 million has been earmarked for carrying out window inspections for school premises aged 10 years or above, building inspections for school premises aged 30 years or above, as well as the necessary remedial works next year. Is this an additional provision? What is the number of schools involved?

(4) What is the provision for inspecting and repairing slopes for schools in each school year? What are the number of schools involved? What are the lowest, average and highest amounts of provision?

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 65)

Reply:

(1) Over the years, the Education Bureau (EDB) has been implementing various measures to enhance school facilities for improving the teaching environment, having regard to the circumstances and needs of individual schools. Among these measures, the EDB assists aided schools in handling relatively larger scale or more complicated repair and improvement works of school premises under the annual Major Repairs exercise, including appointing consultants and contractors to assist aided schools in handling repair works with an estimated project cost over \$3,000 for primary and special schools or over \$8,000 for secondary schools; and carrying out emergency repair works of school facilities at the request of aided schools under the Emergency Repairs mechanism. As regards Direct Subsidy Scheme (DSS) schools, they may also submit applications under the annual Major Repairs mechanism if the estimated project cost of the repair works is over \$2 million. For 2020-21, we have increased the capital subventions reserved for carrying out repair/improvement works of school premises under the annual Major Repairs and Emergency Repairs mechanism by 4% to around \$1.56 billion as compared to that of 2019-20. For 2015-16 to 2020-21, the relevant actual expenditure/estimated expenditure is tabulated below:

Actual expenditure/ estimated expenditure (\$ million)	2015-16 (actual expenditure)	2016-17 (actual expenditure)	2017-18 (actual expenditure)	2018-19 (actual expenditure)	2019-20 (estimated expenditure)	2020-21 (estimate expenditure)
Secondary schools	535.9	579.9	674.3	743.2	660.5	As school applications submitted under the annual Major Repairs mechanism for 2020-21 are still being processed, a breakdown by school type for the financial year concerned is not yet available.
Primary schools	386.5	478.2	575.1	856.8	774.2	
Special schools	49.1	46.7	58.5	85.3	66.0	
Total	971.5	1,104.8	1,307.9	1,685.3	1,500.7	1,564.0

The number of cases involving emergency repairs and the approved estimate for 2015-16 to 2019-20 are tabulated below:

Financial year	No. of approved cases	Approved estimate (\$ million)
2015-16	4,202	203.4
2016-17	6,552	371.6
2017-18	6,664	480.8
2018-19	7,305	562.1
2019-20 (As at end-February 2020)	4,991	234.6
Total	29,714	1,881.4

(2) Under the Mandatory Building Inspection Scheme (MBIS) and Mandatory Window Inspection Scheme (MWIS), the Buildings Department or the Independent Checking Unit of the Transport and Housing Bureau (applicable to buildings in housing estates under the management of the Housing Department) will issue statutory notices (SNs) requiring various types of buildings, including schools, to carry out building (for those aged over 30 years) or window (for those aged over 10 years) inspections. Under the existing mechanism, aided schools may apply for the EDB's MBIS/MWIS Subsidy upon receipt of the SNs in order to appoint registered inspectors or qualified persons to carry out the inspections and arrange registered contractors to carry out the necessary repair works. SNs do not specify the age of the premises, nor does the EDB require schools to provide the premises' age when submitting applications for the relevant subsidy, the relevant information is therefore not available. From 2015-16 to 2019-20, the EDB has approved a total of 144 applications from 125 schools ^(Note), involving a total approved estimate of subsidy of around \$61.8 million. The details are as follows:-

Financial year	No. of approved applications	Approved estimate of subsidy (\$ million)
2015-16	31	7.6
2016-17	43	20.2
2017-18	34	11.3
2018-19	25	17.0
2019-20 (As at end-February 2020)	11	5.7
Total	144	61.8

As regards DSS schools, they may apply for capital subventions through the annual Major Repairs mechanism if the estimated cost of the repair works is over \$2 million.

(Note): As schools may submit separate applications under the MBIS and MWIS, the number of approved applications is more than the number of schools.

(3) The Government has been assisting aided schools in carrying out school premises maintenance and repair works with a view to providing a safe teaching and learning environment for teachers and students. Modeling on the existing MBIS and MWIS, the EDB has earmarked \$800 million under the Capital Works Reserve Fund to assist aided schools in conducting the first round of building (for those aged over 30 years) and window (for those aged over 10 years) inspections as well as the necessary remedial works in an orderly fashion over the next 5 years starting from 2020-21 so as to further enhance the structural safety of school premises and help schools upkeep their premises more effectively.

All age-qualified aided school premises in the territory stand to benefit from the initiative. Based on the information available, the respective numbers of school premises aged over 10 and 30 years in the next 5 years are about 840 and 590.

The funding for the initiative is in addition to the provisions for major and emergency repair works. Applications for capital subventions under the annual Major Repairs exercise and the Emergency Repairs mechanism will not be affected.

(4) In accordance with the recommendations of the Civil Engineering and Development Department, schools should arrange routine maintenance inspection at least once a year and engineer inspection for maintenance at least once every 5 years for its man-made slopes and retaining walls to ensure that they are in good condition. Under the existing mechanism, aided schools may apply for capital subventions from the EDB to engage qualified persons and registered contractors respectively for carrying out engineer inspections and necessary repairs works. Aided schools may also apply for the EDB's capital subventions for carrying out the necessary repair works through the annual Major Repairs exercise and Emergency Repairs mechanism. DSS schools may apply for the capital subventions if the estimated cost of the repair works is over \$2 million. The number of cases involving slope repair works and the approved estimate for 2015-16 to 2019-20 are tabulated below:

Financial year	No. of approved cases	Approved estimate (\$ million)
2015-16	16	3.6
2016-17	21	13.7
2017-18	9	8.8
2018-19	15	21.1
2019-20	10	14.7
(As at end-February 2020)		
Total	71	61.9

(Question Serial No. 3295)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please provide the following information in respect of primary, secondary and special schools since the 2018/19 school year:

- (1) the number of schools granted approval for installing and replacing air-conditioning systems in each of the school years, and the number of air-conditioning systems and expenditures involved;
- (2) the expenditure involved in disbursement of the Air-conditioning Grant (AC Grant) in each of the school years;
- (3) For the purpose of AC Grant calculation, the Education Bureau specifically verifies if school facilities are standard ones. Please set out the following separately:
 - (I) the number of schools not provided with AC Grant because they do not have a standard assembly hall;
 - (II) the number of schools not provided with AC Grant because they do not have a standard library;
 - (III) the number of schools whose standard special rooms are fewer than the provision listed in the Schedule of Accommodation.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 66)

Reply:

- (1) As at March 2020, the number of schools granted approval under the relevant programme for installing, repairing or replacing air-conditioning systems is tabulated below:

Financial year	School type	No. of schools installing air-conditioning systems	No. of schools repairing or replacing air-conditioning systems
2018-19	Primary school	36	158
	Secondary school	48	147
	Special school	15	17
2019-20	Primary school	1	112
	Secondary school	2	108
	Special school	2	32

The estimated project costs for installing and repairing/replacing air-conditioning systems are around \$76 million and \$290 million respectively, involving some 1 927 air-conditioning systems.

(2) The Air-conditioning Grant (AC Grant) is calculated in accordance with the types and number of eligible rooms/facilities in a school. Whenever a school changes the use of its teaching facilities, carries out structural alteration or conversion works, or installs air-conditioning systems for eligible facilities without such provision in accordance with the prevailing mechanism during the school year, the AC Grant will be adjusted accordingly. The expenditure involved in disbursement of the grant in the 2019/20 school year is not available at this stage as the school year has not yet come to a close and the estimated expenditure is around \$396 million. The actual expenditure for the 2018/19 school year is \$384 million.

(3) Starting from the 2018/19 school year, the Education Bureau (EDB) provides air-conditioning systems for eligible rooms/facilities in public sector schools as well as a recurrent AC Grant for aided schools to cover the related daily expenses, including electricity charges and routine maintenance costs. For schools without certain eligible rooms/facilities, they surely do not have to pay for the related daily air-conditioning expenses. Nor will they be provided with the relevant grant for those facilities that do not exist.

The premises of existing public sector schools were built in different periods in accordance with the building standards at the time of construction. Therefore, facilities in the premises vary. Over the years, building standards have also been changing in response to the development in classroom learning, extra-curricular activities as well as guidance and counselling work. The EDB has implemented various measures, including the School Improvement Programme, minor improvement projects and the annual major repair exercise, to enhance school facilities by erecting or converting classrooms and special rooms, and repairing and replacing facilities etc. We will continue reviewing the existing policy from time to time and, as far as resources are available, assist schools to improve their facilities so as to provide a better learning environment for students.

Question:

The Government has been providing speech therapy support services for pre-primary, primary, secondary and special school students. Please separately provide the following information:

- (1) the number of students with speech and language impairment in various types of schools, the amount of relevant grant provided for or the number of permanent speech therapist posts created in various types of schools, and the expenditure involved in each of the school years from 2014/15 to 2021/22;
- (2) the number of school applications received for the School-based Speech Therapy Service introduced in the 2019/20 school year and the number of primary and secondary schools granted approval; and the staff establishment and expenditure involved;
- (3) the number of vacant permanent speech therapist posts in various types of schools and the wastage rates in the current school year; the number of schools that had to procure service with the grant converted from freezing of posts; the number of schools facing a service gap because of unsuccessful recruitment or service procurement; and the ways to assist schools in overcoming difficulties in recruiting relevant professional staff; and
- (4) the number of permanent speech therapist posts to be created in the next 2 years and the estimated provision.
- (5) Please separately provide the following figures for each of the school years from 2014/15 to 2021/22:

- (I) the number of first-year places of speech therapy programmes offered by various tertiary institutions; and the relevant tuition fees, unit costs and Government funding; and
- (II) the number of graduates per annum.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.: 67)

Reply:

(1) to (4)

All along, the Education Bureau (EDB) provides additional resources for the public sector ordinary primary and secondary schools to provide school-based speech therapy service (SBSTS) for their students with speech and language impairment (SLI). Primary schools are provided with the Enhanced Speech Therapy Grant (ESTG) while secondary schools can utilize the Learning Support Grant to support students with SLI. According to the usual practice, we provide the number of students with SLI studying in the public sector ordinary schools and the total expenditure of the ESTG in the recent 5 school years (i.e. from 2015/16 to 2019/20 school year). Details are set out in Table 1 to Table 3 of the Appendix.

Starting from the 2019/20 school year, the EDB implements the Enhanced School-based Speech Therapy Service (Enhanced SBSTS) by creating school-based speech therapist (SBST) posts in the public sector ordinary primary and secondary schools by phases to provide more stable, sustainable and comprehensive support to students with SLI. In the 2018/19 school year, a total of 443 public sector ordinary schools informed the EDB in writing, their intention to implement the Enhanced SBSTS in the 2019/20 school year. In the 2019/20 school year, the EDB created 118 SBST posts in 223 public sector ordinary schools and there are still 25 vacant SBST posts. The EDB continues to provide schools that have not yet employed their SBSTs with the above additional grants for procuring services to support their students with SLI. The revised estimated expenditure for implementing the Enhanced SBSTS in the 2019/20 school year is around \$86 million.

In the 2020/21 school year, the EDB plans to create around 80 SBST posts in more than 150 public sector ordinary primary and secondary schools for implementing the Enhanced SBSTS. The estimated expenditure will be around \$140 million. Taking into consideration the preference of schools, the demand for SBSTS and the supply of speech therapists (STs), the EDB will continue to implement the Enhanced SBSTS by phases in the remaining schools. Upon full implementation of the Enhanced SBSTS, it is estimated that a total of around 420 SBST posts will be created in the public sector ordinary schools. The estimated annual recurrent expenditure will be around \$320 million.

As for aided special schools, all schools currently provided with ST posts for implementing SBSTS for all their students. The staff establishment of STs in special schools from the 2015/16 to 2019/20 school years is set out in Table 4 of the Appendix. In the 2019/20 school year, all 59 special schools with ST posts have employed STs, or in the form of frozen ST post vacancies (all or partial) in exchange for cash grant for recruiting temporary

staff or procuring related services. The EDB does not keep information on individual ST leaving the school sector, therefore, is unable to provide related statistics on wastage rates.

(5)

ST programmes offered by tertiary institutions in Hong Kong include: (i) Bachelor of Science programme in Speech and Hearing Sciences run by the Academic Unit of Human Communication, Development, and Information Sciences, Faculty of Education, the University of Hong Kong; (ii) Master of Science programme in Educational Speech – Language Pathology and Learning Disabilities run by the Department of Special Education and Counselling, Faculty of Education and Human Development, the Education University of Hong Kong; (iii) Master of Speech Therapy programme run by the Department of Chinese and Bilingual Studies, Faculty of Humanities, the Hong Kong Polytechnic University; and (iv) Master of Science programme in Speech-Language Pathology run by the Department of Otorhinolaryngology, Head and Neck Surgery, Faculty of Medicine, the Chinese University of Hong Kong. Programme (i) is funded by the University Grants Committee (UGC), with an annual tuition fee of \$42,100. The bulk of the recurrent grant for a UGC-funded university is in the form of a block grant based on the number of intake places allocated to the university. As the funding for this programme is subsumed under a block grant, the UGC is unable to attribute the actual subvention on specific academic programmes. The remaining 3 programmes are self-financing programmes and the EDB does not have information on their levels of tuition fee and unit cost. The number of first-year intake places and graduates / prospective graduates of these programmes are set out in Table 5 and Table 6 of the Appendix.

Table 1

Number of students studying in the public sector ordinary primary and secondary schools with speech and language impairment (SLI) as their major special educational need (SEN) from the 2015/16 to 2019/20 school years ^(Note):

School year	2015/16	2016/17	2017/18	2018/19	2019/20
Primary school	2 100	2 520	2 430	2 510	2 810
Secondary school	300	350	370	360	510

Note: Figures refer to the position as at September of the respective school years.

Table 2

Total number of students studying in the public sector ordinary primary and secondary schools with SLI and students with other types of SEN comorbid with SLI from the 2015/16 to 2019/20 school years ^(Note 1):

School year	2015/16	2016/17	2017/18	2018/19	2019/20 ^(Note 2)
Primary school	20 290	20 810	21 350	22 300	24 070
Secondary school	2 900	2 770	3 060	3 210	5 700

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Starting from the 2019/20 school year, some public sector ordinary schools start implementing the Enhanced School-based Speech Therapy Service (Enhanced SBSTS). School-based speech therapists as school staff can deliver more comprehensive services, including the work on identification and assessment. Therefore, there is a rise in the total number of students with SLI in this school year.

Table 3

Total expenditure of the Enhanced Speech Therapy Grant (ESTG) from the 2015/16 to 2019/20 school years:

School year	2015/16	2016/17	2017/18	2018/19	2019/20 (revised estimate)
Expenditure (\$ million)	57.4	59.8	62.8	66.1	52.0 ^(Note)

Note: Starting from the 2019/20 school year, some public sector ordinary schools start implementing the Enhanced SBSTS. Thus, there is a drop in the total estimated provision of the ESTG when compared with previous years.

Table 4

Staff establishment of speech therapists in the aided special schools from the 2015/16 to 2019/20 school years:

School year	2015/16	2016/17	2017/18	2018/19	2019/20
Staff establishment of speech therapists	144	145	155.5	159.5	160.5

Table 5

Number of first-year intake places of speech therapist programmes offered by tertiary institutions:

School year	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22
The University of Hong Kong	47	56	56	40	50	48	48
The Education University of Hong Kong	49	32	42	49	39	40	40
The Hong Kong Polytechnic University	45	45	40	40	36	36	36
The Chinese University of Hong Kong	Not applicable ^(Note)			33	Not applicable ^(Note)	40	Not applicable ^(Note)

Note: The programme offered by the Chinese University of Hong Kong was inaugurated in the 2018/19 school year. There will not be any new intake in the 2019/20 and 2021/22 school years.

Table 6

Number of graduates / prospective graduates of speech therapist programmes offered by tertiary institutions:

School year	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22
The University of Hong Kong	37	45	47	46	49	55	51
The Education University of Hong Kong	24	39	33	30	40	40	40
The Hong Kong Polytechnic University	29	31	28	29	34	28-30	28-30
The Chinese University of Hong Kong	Not applicable ^(Note)				30	Not applicable ^(Note)	38

Note: The 2-year programme offered by the Chinese University of Hong Kong was inaugurated in the 2018/19 school year. The first cohort of students will graduate in the 2019/20 school year. Since there is no new intake in the 2019/20 school year, there will not be any graduates in the 2020/21 school year.

- End -

CONTROLLING OFFICER'S REPLY**EDB140****(Question Serial No. 3297)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (7) Post-secondary, Vocational and Professional EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the development of teaching reference materials for non-Chinese speaking (NCS) students from kindergarten to secondary education, please provide information about supporting teaching materials including learning modules and learning packages in the following tables:

(1) The teaching materials for the teaching and learning of NCS students from 2014/15 to 2019/20 developed by the Education Bureau.

Title of teaching material	Target subject, level and content	Cooperating partners (name of institutions/ organizations/ groups, etc.)	Beneficiaries (who are these materials made for)	Start date	Progress (under planning/ in progress/ completed with completion month and year)	Administrati on's follow-up to the materials and the progress (if any)	For completed teaching materials developed and studies in the above tables, have they been made public? If yes, through what channels? If no, why?

(2) The details of grants and funding (including but not limited to the Standing Committee on Language Education and Research (SCOLAR), University Grants Committee (UGC) and Quality Education Fund, etc.) on developing teaching and learning materials and research on Chinese teaching and learning for NCS students from 2014/15 to 2019/20:

Name of teaching material/study	Target subject and content	Funding source	Principal developer/investigator (including name of affiliation)	Beneficiaries (who are these materials made for)	Start date	Progress (under planning/ in progress/ completed (completion month and year))	Administration's follow-up to the materials and the progress (if any)	For completed teaching materials developed and studies in the above tables, have they been made public? CONTROLLING OFFICER'S REPLY**EDB141****(Question Serial No. 3298)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (7) Post-secondary, Vocational and Professional Education,Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Would the government inform this Council of:

a) the list of non-governmental organizations and/or academic institutions that receive funding from the Education Bureau to provide academic support programmes for all students from kindergartens to secondary schools in the recent 3 years; and the details of each batch of funding including the programme, the amount of funding, period covered, target group, the total number of student attendance, and the number of non-Chinese speaking (NCS) student attendance.

Name of programme	Institution or organisations	Funding source	Expenditure	Target participants	Duration of the course	Number of schools participated	No. of students enrolled	No. of students completed the programme

b) the list of non-governmental organizations or academic institutions that receive funding from the Education Bureau to specifically provide support programmes to NCS students in Chinese Language learning and other subjects and integration programmes for NCS children in 2017/18, 2018/19 and 2019/20 school years; and the details of each batch of funding including the programme, the funding amount, period covered, target group, the evaluation method, and the number of NCS student enrollment and attendance. Please refer to the table listed in for the format.

c) How does the EDB monitor the effectiveness of these programmes? Does the EDB have a list of indicators to evaluate the programmes? If yes, please share the list of indicators for Chinese Language support programmes. If no, the reasons. How are the students' progress

tracked? Does the EDB provide standard assessment tools? If yes, please provide the assessment tools. If no, the reasons.

Asked by: Hon IP Kin-yuen (LegCo internal reference no.:69)

Reply:

(a)

Apart from school education, the Education Bureau (EDB) provides various support programmes for students, such as the Induction Programmes for newly-arrived children and young people, educational support programmes for non-Chinese speaking (NCS) students, School-based After-school Learning and Support Programmes for needy students and Life Education Activity Programmes for enhancing primary students' awareness of health issues, etc. The funding for organising/running these programmes may take the form of recurrent subvention to educational bodies, subsidies to organisers on application basis or fees to service providers commissioned through competitive procurement/tendering process. Owing to the huge number of items, we do not have ready information on all the non-governmental organisations (NGOs)/academic institutions that have received funding from the EDB for providing support programmes, the details, amount of funding, durations and target participants of these programmes, and the total numbers of students and NCS students participating in these programmes in the past 3 school years.

(b) and (c)

The programmes funded by the EDB specifically for supporting NCS students' learning of Chinese and their integration into the community from the 2017/18 to 2019/20 school years, with details including the target participants, numbers of NCS students participating in the programmes and the amount involved are set out in the table below. As the support programmes vary in terms of nature and target participants, the EDB evaluates and monitors their implementation by various means, such as observing the immediate responses of participants, conducting questionnaire surveys, holding meetings with service providers and scrutinising the reports submitted by service providers. The EDB attaches great importance to the quality of support programmes and will continue to review the programmes to ensure that they meet the needs of participants.

schools) To provide school-based support services for kindergartens and primary schools admitting NCS students to enhance teachers' professional capacity for teaching Chinese to NCS students					

Rounded to the nearest decimal place

+ Actual figures revised from the estimates last year

* Estimated figures

^ In the school years from 2014/15 to 2018/19 and in the 2019/20 school year, the grantees for the District-based Project on Supporting NCS Children in Learning Chinese are the Hong Kong Christian Service and the HKSKH Lady MacLehose Centre as well as the Dawn Foundation Limited respectively.

@ Students can participate in more than one activity.

Notes:

Eligible schools admitting NCS students are provided with additional recurrent funding to support NCS students in learning Chinese. With the additional funding and schools' deployment of resources, it is common for schools to offer Chinese language programmes to NCS students in collaboration with NGOs and/or academic institutions. The relevant expenses have been subsumed under the overall expenditure of the schools and a breakdown of expenditure is not available.

(Question Serial No. 0391)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Starting from the 2020/21 school year, the Education Bureau will (i) enhance the staff establishment of the boarding sections of aided special schools; (ii) improve the Saturday and Sunday manning ratios of the boarding sections; and (iii) provide an additional grant to the boarding sections of specified special schools for employing personal care workers or hiring related services. These involve an additional annual expenditure of around \$67 million. Please advise this Committee of the following:

- (a) the manning ratio and (b) the Saturday and Sunday manning ratios of the boarding section of each aided special school for the 2018/19 and 2019/20 school years;
- the expenditure and manpower involved in the provision of personal care services in the boarding sections of the specified special schools for the 2018/19 and 2019/20 school years;
- the estimated number of additional assistant wardens, houseparents-in-charge and personal care workers to be employed from the 2020/21 school year onwards; and
- whether performance indicators have been developed to evaluate if the additional grant provided to the boarding sections of the specified special schools could achieve the desired objectives? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP LAU Suk-ye, Regina (LegCo internal reference no.: 46)

Reply:

The boarding service of special schools is provided to facilitate students' access to school education. Staff members of the boarding section also provide personal care services for boarders. Boarding sections of special schools are staffed with wardens, assistant wardens, houseparents, programme workers, nurses, clerical assistants, janitor staff, cooks and watchmen by the Education Bureau (EDB) based on their size. Following the established practice, we will provide the overall staff establishment of both the school sections and boarding sections of special schools without revealing information of individual schools to

avoid possible labelling effect and unnecessary pressure because of staff deployment or the size of their establishment.

Starting from the 2020/21 school year, the EDB will implement a number of improvement measures to enhance the staff establishment and resources of the boarding sections of special schools with a view to improving service quality for the benefit of the boarders. Under the new measures, the rank for the warden and assistant warden of boarding section with a capacity of 40 or above will be upgraded to Social Work Officer and Assistant Social Work Officer respectively. The number of assistant wardens on the establishment will also be increased to 2. In addition, a houseparent-in-charge may be appointed amongst every 4 posts of houseparent. It is anticipated that the rank for the warden of the boarding section in 18 special schools will be upgraded and 18 additional assistant warden posts will be created respectively. The number of houseparents-in-charge will be increased by about 20 in the establishment of houseparents.

Furthermore, starting from the 2020/21 school year, the manning ratios of houseparents, programme workers, nurses, cooks and janitor staff on weekdays (Monday to Friday) to Saturday and Sunday will all be increased to 1:1, while the number of watchmen for boarding sections that provide 7-day boarding services will be increased to 4. It is estimated that a total of about 120 posts will be created.

The EDB will also provide a Personal Care Workers Grant for the boarding sections of schools for children with physical disability, schools for children with moderate intellectual disability (ID), schools for children with severe ID and the school for children with visual impairment cum ID to employ personal care workers or hire related services based on the actual needs, so that the workload of houseparents and programme workers arising from taking care of boarders' daily living can be relieved and more focused efforts can be dedicated to the provision of training and counselling. The amount of grant for each eligible special school in each school year is calculated according to the number of nurses in the staff establishment of its boarding section. The school will receive one unit of the additional grant for every 2 nurses. In the 2020/21 school year, it is estimated that a total of about 40 units of additional grant will be provided for eligible boarding sections of special schools. The estimated additional expenditure will be about \$9.5 million. Given that it is a new grant, there were no relevant expenditures in the 2018/19 and 2019/20 school years.

To ensure optimal use of the grant, the EDB requires schools to keep a separate ledger account to record all the incomes and expenditures chargeable to the grant. An annual audited account should be submitted to the EDB in accordance with the relevant requirements. Under the School Development and Accountability Framework, schools are required to assess its effectiveness with the School Self-evaluation mechanism and set out in their Annual School Plans and School Reports the policies and measures for supporting students and the deployment of resources for stakeholders' information. The EDB staff will also visit special schools (including their boarding sections) regularly to offer professional advice on the utilisation of various resources and manpower, and remind schools to provide students with appropriate education and care in accordance with the principle of Whole School Approach.

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) will plan to launch the Enhancement and Start-up Grant Scheme for Self-financing Post-secondary Education, which supports self-financing institutions in offering sub-degree or undergraduate programmes that meet market needs but require high start-up costs and involves a total commitment of \$1.26 billion. In this connection, please advise this Committee of the following:

- the definition of “sub-degree or undergraduate programmes that meet market needs but require high start-up costs”;
- the reasons for providing financial support for self-financing institutions instead of the University Grants Committee-funded institutions;
- whether performance indicators for the Scheme are in place to monitor the effective deployment of the grant; if yes, of the details; if no, of the reasons; and
- whether the self-financing institutions are required to submit written reports on the actual deployment of the grant to EDB; if yes, of the details; if no, of the reasons.

Asked by: Hon IP LAU Suk-ye, Regina (LegCo internal reference no.: 47)

Reply:

The Task Force on Review of Self-financing Post-secondary Education (the Task Force), chaired by Professor Anthony Cheung Bing-leung, published its review report in December 2018, with recommendations including that the Government should provide self-financing post-secondary institutions with more financial support of a non-recurrent nature to help them develop their distinct character and niche areas, and launch quality programmes which will better respond to our community needs. The Education Bureau (EDB) agrees with the Task Force and hence proposes to introduce the Enhancement and Start-up Grant Scheme for Self-financing Post-secondary Education (the Scheme) to provide financial support for self-financing institutions interested in offering designated

sub-degree or undergraduate programmes that meet market needs but require high start-up costs, so as to help such programmes take off and to alleviate students' financial burden due to tuition fees. This initiative aims to support independent non-profit-making self-financing post-secondary institutions in a targeted manner, which is in line with the Government's policy to support the parallel development of the publicly-funded and self-financing post-secondary sectors, with a view to diversifying the development of higher education in Hong Kong.

In recent years, the Government has leveraged on the programmes offered by the self-financing sector in nurturing talent for specific industries with keen manpower demand. We note that these institutions, which do not receive recurrent public subvention, may be financially constrained to develop certain programmes with high start-up costs (e.g. some health programmes, such as physiotherapy, may require an upfront investment of tens of millions of dollars). The EDB envisages that the programmes supported by the Scheme will mainly be vocational and professional education and training programmes (e.g. programmes in information technology, logistics, creative industries, and engineering/construction-related programmes) and degree programmes with a strong professional orientation (e.g. programmes in allied health) given their close relevance to industries with keen human resources needs and their requirement for costly dedicated equipment/facilities.

When applying for the Scheme, eligible institutions have to submit a proposal for each programme and formulate a series of performance indicators. If the application is approved, the institution is required to submit progress reports for each proposal to the EDB to review the implementation progress of the programme concerned and whether the performance indicators can be achieved. The EDB will conduct timely review on the effectiveness of the Scheme in enhancing the programme development, and learning and teaching quality for the self-financing post-secondary sector as a whole. We will consult the Legislative Council Panel on Education on the details of the Scheme.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Starting from the 2020/21 school year, the Education Bureau will provide specific parent education programmes for parents of non-Chinese speaking (NCS) students. The initiative will be implemented over 5 years, involving non-recurrent funding of \$15 million. Would the Administration advise this Committee of the following:

- details of these parent education programmes;
- whether the Bureau will consider turning this provision into a recurrent grant to support NCS families and create an inclusive environment in schools; and
- whether mechanisms are in place to objectively measure the effectiveness of the provision?

Asked by: Hon IP LAU Suk-ye, Regina (LegCo internal reference no.: 48)

Reply:

Starting from the 2020/21 school year, the Education Bureau (EDB) will provide a series of parent education programmes for non-Chinese speaking (NCS) parents, including outreach programmes and seminars respectively run by non-governmental organisations (NGOs) and/or tertiary institutions commissioned by the EDB, so as to help them support their children's learning, encourage their children to master the Chinese language, and help them have more comprehensive understanding of the multiple pathways available to their children.

The EDB will request the NGOs and/or tertiary institutions commissioned to design evaluation tools and collect the views from NCS parents with a view to understanding their needs and reviewing the effectiveness of the programmes. We will continue to review the implementation of related initiatives and accumulate our experience so as to enhance the modes and contents of, and resources for, parent education programmes for NCS parents and chart the way forward.

Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Starting from the 2019/20 school year, the Government will implement measures to improve the learning of students with special educational needs (SEN) in mainstream schools. These measures include re-structuring the additional resources provided under Learning Support Grant (LSG), Intensive Remedial Teaching Programme and Integrated Education Programme, provision of regular teaching posts and LSG for public sector ordinary primary and secondary schools, etc. This involves an additional funding of \$800 million each year. What are the respective expenditures on re-structuring LSG, Intensive Remedial Teaching Programme and Integrated Education Programme in this school year? What are their respective percentage shares of the \$800 million additional funding? In the form of a table, please set out the related support measures, targets and a breakdown of the expenditure involved.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 9)

Reply:

To help public sector ordinary schools cater for their students with special educational needs (SEN), on top of regular subvention, the Education Bureau (EDB) has been providing schools with additional resources, professional support and teacher training. To further enhance the effectiveness of integrated education (IE), the EDB has implemented a series of enhanced measures (including the enhanced Learning Support Grant (LSG)) starting from the 2019/20 school year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace the Intensive Remedial Teaching Programme and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reach the specific threshold. With the implementation of the above enhanced LSG, schools have a more stable teaching force and

additional resources for flexible deployment to support the implementation of IE. Targets of the enhanced LSG are the same as those in the past, i.e. students with different types of SEN and academic low achievers (applicable to primary schools). The measures on enhancing IE involve an additional funding of around \$800 million each year. The additional expenditure on the enhanced LSG for the 2019/20 school year is around \$500 million.

No. of staff – salary point 31		
No. of staff – salary point 32		
No. of staff – salary point 33		
No. of staff – salary point 34		
No. of staff – salary point 35		
No. of staff – salary point 36		
No. of staff – salary point 37		
No. of staff – salary point 38		
No. of staff – salary point 39		

(b) What are the respective numbers of students with SEN admitted to these primary and secondary schools?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 20)

Reply:

(a) and (b)

Starting from the 2019/20 school year, the post of Special Educational Needs Coordinator (SENCO) in public sector ordinary primary and secondary schools with comparatively large number of students with special educational needs (SEN) will be upgraded to a promotion rank, i.e. Senior Graduate Master/Mistress in secondary schools (Master Pay Scale Points 34 to 39) and Primary School Master/Mistress in primary schools (Master Pay Scale Points 30 to 33) respectively if their Learning Support Grant (LSG) provision has reached the specified threshold. In the 2019/20 school year, there are a total of 244 secondary schools (about 63%) and 431 primary schools (about 95%) whose SENCO post has been upgraded to a promotion rank. Schools are required to assign a suitable teacher to take up the role of SENCO who should be remunerated based on his/her actual length of teaching experience and length of service in the promotion rank. The Education Bureau (EDB) does not collect information about remunerations of individual teachers, and therefore is unable to provide the number of SENCOs at different salary points.

In fact, all schools are required to adopt the Whole School Approach (WSA) to provide support for students with SEN through the 3-tier Intervention Model, taking into account their needs. Tier-1 support refers to early identification and catering for all students with diverse learning and adjustment needs, including those with mild or transient learning or adjustment difficulties through quality teaching in regular classroom; tier-2 support refers to additional support/“add-on” intervention for students with persistent learning or adjustment difficulties, such as small group learning, after-school remedial programmes and pull-out remedial programmes; tier-3 support refers to individualised intensive support for students with persistent and severe learning or adjustment difficulties including drawing up of Individual Education Plans. Irrespective of the tier of support required by students with SEN, schools are required to record the support and accommodations offered to students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. The tier of support for students with SEN is subject to upward or downward adjustment from time to time, depending on the performance of the students, and the distribution of students under the 3-tier Intervention Model may change accordingly. For students with mild or transient learning difficulties, schools will provide them with tier-1 support through quality teaching in regular classrooms, and submission of information about these students to the EDB is not required. In view of the actual implementation of the above Intervention Model, we have not compiled figures of students with SEN admitted to schools.

The LSG received by each public sector ordinary school is calculated according to the number of students with SEN who require tier-2 and tier-3 support and the tier of support they need, instead of just calculating the number of students with SEN. In the 2019/20 school year, the unit grant rate for tier-2 is \$15,000, and the unit grant rate for tier-3 is \$60,000. In other words, if a school has 40 students who require tier-2 support, or 10 students who require tier-3 support, or other combination of students who require tier-2 and tier-3 support with its LSG provision reaching the specified threshold (i.e. \$600,000 in the 2019/20 school year), it will have an additional regular teaching post titled as Special Educational Needs Support Teacher (SENST) through conversion. The SENST should be a member of the student support team to support the implementation of integrated

education. If the school's LSG provision reaches a higher threshold, extra 1 or 2 regular teaching post(s) will be provided. Irrespective of the number of students who require different tiers of support, schools should cater for these students through WSA by the SENCO and the student support team in collaboration with other teachers.

Reply:

(a)

The Government adopts a dual-track mode in providing special education. The Education Bureau (EDB) will, subject to the assessment and recommendation of specialists and the consent of parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Under the policy of integrated education (IE), other students with special educational needs (SEN) will attend ordinary schools. Since the implementation of the IE policy, to support public sector ordinary schools in catering for students with SEN, the EDB has been providing these schools with additional resources, professional support and teacher training. The major measures introduced in these 3 areas and the expenditure of these measures in the 2019/20 school year are set out at Appendix 1.

In addition, the EDB continuously develops and introduces teaching materials, resource packages and guidelines for teachers' reference and use to support students with different types of SEN. Having regard to the needs of schools and teachers, we organise different thematic seminars, workshops and sharing sessions on good practices every school year. We also organise activities to promote inclusive culture. Announcements of Public Interest, online newsletters and commendation schemes are some of the examples.

The total expenditures involved in measures to support public sector ordinary schools in catering for students with SEN from the 2015/16 to 2019/20 school years are tabulated below:

School year	2015/16	2016/17	2017/18	2018/19	2019/20 (Revised estimate)
Expenditure (\$ million)	1,310	1,392	1,638	1,977	3,116

(b) (i) and (ii)

The respective number of students with SEN studying in public sector ordinary primary and secondary schools by grade level and by type of SEN from the 2015/16 to 2019/20 school years is set out at Appendix 2. The percentage of these students out of the total number of students studying in public sector ordinary primary and secondary schools is tabulated below. With increased awareness of SEN among schools and parents as well as the improvement in the identification tools and mechanisms, the number of students with SEN has increased over the years.

School year	2015/16	2016/17	2017/18	2018/19	2019/20
Primary school	7.3%	7.7%	7.8%	8.3%	9.1%
Secondary school	7.0%	7.8%	8.6%	9.4%	10.1%

(b) (iii), (iv) and (v)

All schools are requested to adopt the Whole School Approach to support students with SEN through the 3-Tier Intervention Model, taking into account their support needs. Tier-1 support refers to early identification and catering for all students with diverse learning and adjustment needs, including those with mild or transient learning or adjustment difficulties, through quality teaching in regular classroom; Tier-2 support refers to additional support/“add-on” intervention for students with persistent learning or adaptation difficulties, such as small group learning, after-school remedial programmes and pull-out remedial programmes; Tier-3 support refers to individualised intensive support for students with persistent and severe learning or adjustment difficulties, including drawing up of Individual Education Plans (IEPs). Irrespective of the tier of support required by students with SEN and whether these students may require an IEP, schools are required to record the support and adaptations offered to students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support required by students with SEN may be adjusted upward or downward, and the need for providing an IEP may change from time to time according to the performance and prevailing support needs of the students.

As mentioned above, for students with mild or transient learning difficulties, schools will provide them with tier-1 support through quality teaching in regular classroom. Basically, all students can benefit from tier-1 support and schools are not required to submit information about these students to the EDB. The distribution of public sector ordinary primary and secondary schools eligible for the Learning Support Grant (LSG) by number of students with SEN requiring tier-2 and tier-3 support from the 2015/16 to 2018/19 school years is set out at Appendix 3 and Appendix 4 respectively.

In the 2018/19 school year and before, ordinary schools were provided with additional resources under various funding modes to support students with SEN. For instance, some schools opted for the LSG, some schools implemented the IE Programme, some primary schools implemented the Intensive Remedial Teaching Programme (IRTP), and some primary schools adopted a Mixed Mode of implementing IRTP while receiving LSG. As schools were provided with additional resources under different modes (i.e. some were provided with additional grants, some were provided with an additional teaching post(s)), schools would adopt diversified strategies to support their students with SEN according to school-based circumstances. Different criteria are used under these funding modes in providing additional resources for schools. For example, schools implementing IE Programme or IRTP were provided with additional teaching manpower but the LSG was not available for flexible deployment in catering for each student with SEN. Besides, there was a basic provision under the LSG in the past, i.e. schools with 1 to 6 student(s) requiring tier-3 support were all provided with the same amount of basic provision. In view of the above factors, the schools concerned might not report to the EDB the tier of support required by each of their students and the number of students receiving tier-3 support.

The EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace IRTP and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reaches the specific threshold. With the implementation of the above enhanced LSG, the amount of LSG received by each public sector ordinary school is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same mode, which allows a more comprehensive and consistent approach in respect of the report of the tier of support required by students with SEN, and enables the EDB to collect complete data on the tier of support these students require from schools. The number of students with various types of SEN requiring tier-2 and tier-3 support in public sector ordinary primary and secondary schools in the 2019/20 school year is tabulated below:

2019/20 school year	No. of students requiring tier-2 support ^{Note}	No. of students requiring tier-3 support ^{Note}
Primary school	27 959	2 094
Secondary school	21 502	1 552

Note: These figures cannot be directly compared with those of the 2018/19 school year and before.

Basically, schools should draw up IEPs for students requiring tier-3 support. Besides, the statistics on the number of students with SEN studying in public sector ordinary primary and secondary schools set out at Appendix 2 were compiled from records of the Special Education Management Information System (SEMIS) of the EDB in the beginning of the 2019/20 school year. For the figures of the students with SEN shown in the table above, with students' type of SEN and the tier of support they required being scrutinised and submitted by schools to the EDB via SEMIS in the first term of the 2019/20 school year, they were examined and compiled by the EDB at the end of the first term of the same school year. As such, these 2 sets of figures are different.

(iv)

Since not all schools and students with SEN are receiving the same support services, the funding required may vary. Besides, depending on students' responses to intervention, adjustments might have to be made to the support services and level of support required by students with SEN within a school year. Hence, providing the unit cost for students with SEN across all ordinary schools is inappropriate.

Major measures to support public sector ordinary schools in catering for students with special educational needs (SEN)

Major measures	Details	2019/20 school year (Revised estimate) (\$ million)
Learning Support Grant	Schools are provided with a cash grant based on the number of students with SEN and academic low achievers and the tier of support the students require to procure services and/or hire teachers and teaching assistants to provide school-based support services for the students concerned.	749.0
Special Educational Needs Support Teacher	Starting from the 2019/20 school year, schools with the total amount of Learning Support Grant received reach the different thresholds will have 1 to 3 additional Assistant Primary School Master/Mistress post(s) (primary schools) / Graduate Master/Mistress post(s) (secondary schools) converted/provided to strengthen the support provided to students with SEN.	655.0
Special Educational Needs Coordinator	All schools are provided with an Assistant Primary School Master/Mistress (primary schools) / a Graduate Master/Mistress (secondary schools) in the staff establishment to facilitate the schools' assignment of a designated teacher to take up the role of Special Educational Needs Coordinator (SENCO). Starting from the 2019/20 school year, the SENCO post in schools with a comparatively large number of students with SEN are upgraded to promotion rank. i.e. Primary School Master/Mistress (primary schools) / Senior Graduate Master/Mistress (secondary schools).	820.0
School-based Educational Psychology Service	School-based educational psychology service is provided to help schools cater for students' diverse educational needs.	182.4

Major measures	Details	2019/20 school year (Revised estimate) (\$ million)
Enhanced School-based Speech Therapy Service	Starting from the 2019/20 school year, school-based speech therapist (SBST) posts are created in public sector ordinary schools by phases to allow schools to form clusters to employ SBSTs to support students with speech and language impairment.	85.8
Enhanced Speech Therapy Grant	Eligible schools are provided with a cash grant for procuring school-based speech therapy services to support students with speech and language impairment.	52.0
Top-up Fund for Procurement of Special Furniture and Equipment or Carrying out Minor Conversion Works for Students with Disabilities in Ordinary Schools	Schools can apply for this cash grant to procure special furniture and equipment or carry out minor conversion works for students with disabilities.	2.6
Intensive Support Grant for Hardcore or Clustered Students with SEN	A cash grant for schools to employ teaching assistant(s) on a temporary basis for supporting individual students who have imminent needs for highly intensive support.	3.2
Grant for Supporting Non-Chinese Speaking Students with Special Educational Needs	Starting from the 2019/20 school year, schools admitting non-Chinese speaking students with SEN have been provided with additional grant under a three-tier structure.	28.1
Additional Teachers to Support Academic Low Achievers	Schools with a large intake of Territory Band 3 and bottom 10% junior secondary students are provided with additional teachers.	398.1

Major measures	Details	2019/20 school year (Revised estimate) (\$ million)
Resource Support Programme for Visually Impaired Integrators	The school for children with visual impairment is provided with additional resource teachers and braillists for offering support services to students with visual impairment in ordinary and special schools.	21.5
Special Schools cum Resource Centres	Participating special schools are provided with a cash grant to enable them to share their experience and expertise with ordinary school teachers for empowering them to support students with SEN.	5.0
Enhanced Support Service for Students with Hearing Impairment	The school for children with hearing impairment is provided with an additional senior teacher, resource teachers, speech therapists and a recurrent administration grant to offer support services to students with hearing impairment in ordinary and special schools.	11.3
Teacher Training	Provision of professional development courses and various types of training activities related to supporting students with SEN for school teachers.	101.8
Intensive Remedial Teaching Programme	Participating schools are provided with additional teachers to provide intensive remedial support for students with SEN and academic low achievers. [In the 2019/20 school year, the Learning Support Grant has been extended to all public sector ordinary schools to replace the Intensive Remedial Teaching Programme and Integrated Education Programme.]	Not applicable
Integrated Education Programme on Whole School Approach	Participating schools are provided with additional teachers/learning support assistants and recurrent grants to support students with SEN through the Whole School Approach. [In the 2019/20 school year, the Learning Support Grant has been extended to all public sector ordinary schools to replace the Intensive Remedial Teaching Programme and Integrated Education Programme.]	Not applicable

Major measures	Details	2019/20 school year (Revised estimate) (\$ million)
Resource Schools on Whole School Approach	<p>The resource schools are provided with a cash grant to enable them to share their experience and strategies with ordinary schools in the implementation of the Whole School Approach to cater for students with SEN.</p> <p>[The Resource Schools on Whole School Approach has ended since the 2019/20 school year.]</p>	Not applicable
Professional Development Schools Scheme	<p>Participating special schools are provided with a cash grant to enable them to offer school-based support for ordinary schools in catering for students with SEN.</p> <p>[The Professional Development Schools Scheme has ended since the 2019/20 school year.]</p>	Not applicable

2019/20	5	8	11	11	9	21	44	58	96	90	105	103

Notes:

- Figures show the position as at September of the respective school years. Starting from the 2017/18 school year, the Education Bureau (EDB) provides public sector ordinary primary and secondary schools with the Learning Support Grant to support students with mental illness (MI). As at the date when the statistics on students with SEN in the 2017/18 school year were compiled, schools had not yet submitted the information about that category of students to the EDB. Hence, the figures shown in the table do not include the number of students with MI in public sector ordinary schools in the 2017/18 school year. The collection of relevant information about students with SEN requires parental consent. Given that many MI are transient in nature, we assume that some students with MI or their parents do not prefer their schools to submit information to the EDB, and this may result in a relatively smaller number of students with MI.
- The number of Primary 1 students with SEN shown in the above tables denote the position as at September of the respective school years and will increase during the school year with schools' implementation of the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties.

**Distribution of public sector ordinary primary and secondary schools eligible for Learning Support Grant
by the number of students with special educational needs (SEN) requiring tier-2 support
from the 2015/16 to 2018/19 school years**

No. of students with SEN requiring tier-2 support	No. of schools ^{Notes}							
	2015/16		2016/17		2017/18		2018/19

Notes:

1. Starting from the 2017/18 school year, the Learning Support Grant (LSG) covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme in Primary Schools (IRTP) and Integrated Education (IE) Programme in the 2017/18 and 2018/19 school years) with additional resources to better cater for the learning, social, emotional and behavioural needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.
2. Before the 2019/20 school year, ordinary schools were provided with additional resources with reference to different criteria and principles under various funding modes to support students with SEN. Those schools opting to implement IE Programme or IRTP (i.e. not opting for LSG) might not report to the Education Bureau (EDB) the tier of support required by each of their students and the number of all students receiving tier-3 support. Starting from the 2019/20 school year, the amount of LSG received by each public sector ordinary school under the enhanced LSG measure is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same mode, which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and enables the EDB to collect complete data on the tier of support these students require from schools.

**Distribution of public sector ordinary primary and secondary schools eligible for Learning Support Grant

CONTROLLING OFFICER'S REPLY**EDB148****(Question Serial No. 2734)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (000) Operational expensesProgramme: (6) Other Educational Services and Subsidies, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

The Education Bureau (EDB) is responsible for, among others, formulating education policies, introducing relevant legislations, and monitoring the performance of the entire education sector. As at 31 March 2020, there are 6 352 posts under the establishment of the EDB. In this connection, please advise this Committee of the following:

- (a) Please set out, in the form of a table, the establishment of various departments in the past 5 years by rank, salary point and expenditure:

Department (branch/division/section)	Rank	No. of staff	Salary point	Expenditure

- (b) The EDB estimates that there will be an increase of 115 posts in 2020-21. Which department(s) will these posts be deployed to? What are the details? Please use the table below to set out the relevant information:

Department (branch/division/section)	Rank	No. of staff	Reason for the increase	Salary point	Expenditure

(c) Which divisions/sections are responsible for handling complaints about teachers or educators? What were the establishment, division of labour and number of staff of these divisions/sections in the past 5 years? Please use the table below to set out the relevant information:

Department (branch/division/section)	Rank	No. of staff	Nature of work	Salary point	Expenditure

(d) Further to (c) above, how many complaints did the divisions/sections responsible for handling complaints about teachers or educators receive? What are the complaint handling procedures, the average time required to process a complaint, and the expenditures involved? Please use the table below to set out the relevant figures in the past 5 years. If such information is unavailable, what are the reasons?

School year	Category and details of complaint	No. of cases received (anonymous/non-anonymous cases)	No. of cases rejected (anonymous/non-anonymous cases)	No. of completed cases (anonymous/non-anonymous cases)	No. of substantiated complaints (anonymous/non-anonymous cases)	Processing time	Expenditure incurred (breakdown/amount)
2019/20	(Example) Classroom teaching performance: (Details)						
	(Example) Inappropriate remarks: (Details)						
2018/19						

(e) Further to (d) above, among the substantiated complaints, how many cases (i) were handled at school level before, and (ii) were considered unsubstantiated at school level? (iii) What are the reasons that the EDB and the school concerned have different investigation results?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 62)

Reply:

(a) The establishment and salary expenditure of the Education Bureau (EDB) from 2016 to 2020 are set out at Annexes 1 and 2 respectively.

(b) The increase of 115 posts in the EDB in 2020-21 is the net result of the planned creation of 191 posts and planned deletion of 76 posts. Details of these posts are set out at Annex 3.

(c) to (e) Under the Project on Enhancement of Complaint Management in Schools, upon receipt of complaints from parents, students or members of the public against the daily operation or internal affairs of schools, including complaints against school staff, the EDB will refer the complaints to the schools for direct handling upon seeking the respective

complainant’s consent. The school concerned should handle the complaint and reply to the complainant in accordance with its school-based mechanism and procedures, and send a copy of the reply to the EDB for information. The EDB will scrutinise the school’s reply and, depending on the circumstances, take follow-up actions as appropriate. However, if the nature of the complaint is serious, the EDB will conduct direct investigation. As for other school-related complaints that involve the Education Ordinance, education policies and services rendered directly by the EDB, complaints referred by other departments, complaints lodged by school staff, etc., they will be handled by the EDB and a reply will be given to the complainant upon completion of the investigation.

Regarding complaints against school staff received by the EDB, some of them were made through emails. While the complainants’ email addresses were given, we are unable to confirm whether the names provided by the complainants are real. Notwithstanding this, as the words and deeds of teachers have a direct impact on students, if the allegations involve remarks or acts which obviously fail to meet the ethical standards acceptable to the general public, risk safety of students, or harm the healthy development of students, the EDB has the responsibility to seriously follow up the complaints even when they are made anonymously. Hence, we do not categorise the complaints by whether they are anonymous. Moreover, given the extensive coverage of these complaints and the unique nature of various cases, with quite a number of them involving multiple allegations, we do not categorise these complaints by type. As for the time required to process a complaint case, it depends on the nature and complexity of the complaint concerned. In general, it takes about two to three months to handle a complaint and a longer time for a complicated case. Since complaint handling is part of day-to-day work of the sections under the EDB and the expenses incurred have been subsumed under the EDB’s overall manpower and operating expenditure, a breakdown is not available.

The number of complaints against teachers received by the EDB from the 2015/16 to 2019/20 school years and their position are set out in the table below:

School year	No. of complaints	No. of completed cases	No. of substantiated complaints	No. of cases not being able to follow up #
2015/16	97	93	20	4
2016/17	86	84	25	2
2017/18	103	98	20	5
2018/19	164	134	46	7
2019/20 (as at January 2020)	190	118	61 [^]	0

In principle, all cases would be followed up by the EDB. However, for a few complaints with vague content or insufficient information, and where the complainants could not be contacted, follow-up actions could not be taken.

[^] Including the complaints that the EDB has largely completed the investigation and initially considered that the cases might be substantiated, pending the submission of written representations by the teachers concerned.

For complaints about teachers suspected of violating professional misconduct, schools, as employers, are obligated to conduct investigation according to the established mechanism and procedures and take follow-up actions as appropriate, with a view to safeguarding the well-being of students and upholding teachers' professionalism. Moreover, schools are required to submit reports and relevant information to the EDB. Upon receipt of the reports, the EDB will scrutinise the contents in detail, including the investigation procedures by schools, response from the teachers concerned, and the follow-up actions taken by schools. If necessary, the EDB will seek clarification from schools or interview the parties concerned and scrutinise the relevant documents at the schools.

Establishment of the EDB from 2016 to 2020 (as at 31 March of each year)

CONTROLLING OFFICER'S REPLY**EDB149****(Question Serial No. 2735)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (6) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

The Education Bureau (EDB) has all along provided support for the Council on Professional Conduct in Education (CPC). In this connection, please advise this Committee of the following:

(a) in the form of a table, the amount of funding provided for the CPC to cover its expenditures in each of school years from 2014/15 to 2019/20:

	Support items	School year					
		2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
1 (example)	Administrative expenditures						
2 (example)	Manpower arrangements						
3 (example)	Expenditures on communication						

(b) the percentage of the relevant expenditures in the total expenditures under this Programme;

(c) the criteria that the Administration adopts in providing relevant support for the CPC and the criteria for adjusting the amount of funding;

(d) in the form of a table, the number of cases handled by the CPC in each of the school years from 2014/15 to 2019/20:

School year	Type of complaints and details	No. of cases received (anonymous complaint/ non-anonymous complaint)	No. of cases not accepted (anonymous complaint/ non-anonymous complaint)	No. of cases with handling procedures completed (anonymous complaint/ non-anonymous complaint)	No. of complaints substantiated (anonymous complaint/ non-anonymous complaint)	Handling time required	Expenditures involved (breakdown/ amount)

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 37)

Reply:

(a) - (c)

The Government established the Council on Professional Conduct in Education (“the CPC”) in 1994 following the recommendation of Education Commission Report No. 5. The CPC is a non-statutory body and plays the role of an advisory body. At present, there are 28 members under 4 categories, including the teacher-nominated category (13), the organisation-nominated category (8), the parent representative-nominated category (3), and the Permanent Secretary for Education-nominated category (4), of which one being the representative of the Education Bureau (EDB). All members of the CPC, except the EDB representative, serve on a voluntary basis and receive only meeting allowance. The salary of the EDB representative and the administrative expenses involved in the provision of secretariat support for the CPC have been subsumed under the establishment and general expenditures of the EDB, hence a separate breakdown is not available.

In the past 5 financial years, the meeting allowance and its percentage share of the total expenditure under this Programme is provided in the table below:

	Expenditure incurred in the financial year				
	2014-15	2015-16	2016-17	2017-18	2018-19
Meeting allowance	\$24,838	\$25,226	\$15,654	\$28,545	\$29,087
Percentage share of the total expenditure under this Programme (%) [#]	0.00068	0.00322	0.00098	0.00322	0.00069

Rounded down to 5 decimal places

(d)

The CPC has not categorised the complaints it received. In general, most of the cases involve maladministration, staff disputes, failure to carry out teaching duties properly, improper behaviour, etc. Upon receiving the complaint form submitted by a complainant, the CPC will handle the case in accordance with the Case Handling Procedures. Among cases handled by the CPC in the past 5 school years, 1 was found substantiated in the 2014/15 school year. Among the closed cases in the other 4 school years, there were no substantiated cases. Details of the complaint cases handled are provided in the table below:

School year	No. of cases received (a+b+c+d)	a. No. of cases closed (e+f closed cases)	b. No. of cases withdrawn	c. No. of cases in progress (unsubstantiated)	d. No. of cases suspended*	e. No. of cases not filed /unaccepted	f. No. of cases filed (In progress) +(Closed)	g. Average processing time (Month)@
2014/15	32	26	1	1	4	24	(1)+(2)	12.00
2015/16	21	19	1	1	0	19	(1)+(0)	10.36
2016/17	27	17	6	4	0	17	(4)+(0)	6.67
2017/18	30	21	7	1	1	21	(1)+(0)	9.18
2018/19	22	12	2	8(5)	0	12	(3)+(0)	5.89

* Legal proceedings are underway, the case has been referred to law enforcement agencies or relevant organisations for follow-up actions, or other reasons accepted by the Case-filing Panel.

EDB150

(Question Serial No. 2752)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

“Enhance the additional funding to all public sector and DSS primary schools admitting a relatively small number of non-Chinese speaking (NCS) students under a new two-tiered arrangement to facilitate the implementation of the “CSL Learning Framework.”

How is the bureau going to enable EM children to bridge over the mainstream Chinese language curriculum?

Is the bureau going to develop a Chinese language curriculum with stage learning objectives including teaching and learning materials for P1.-P.6 non-Chinese students?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 13)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. Starting from the 2014/15 school year, all public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 NCS students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese

language support programmes to consolidate what their NCS students have learnt in classes. To enhance the support for NCS students in learning Chinese and create an inclusive learning environment in schools, the EDB will, starting from the 2020/21 school year, provide a new two-tiered subsidy for all schools admitting a relatively small number of NCS students (1 to 5 NCS students and 6 to 9 NCS students respectively) and increase the amount of the additional funding from currently \$50,000 to \$0.15 million or \$0.3 million. The amount of the additional funding provided to schools admitting NCS students will also be adjusted based on the year-on-year movement of the Composite Consumer Price Index and/or the annual rates of the Civil Service Pay Adjustment.

As NCS students take Hong Kong as their home, it is hoped that they will attain the Chinese proficiency level comparable to that of the Chinese-speaking students in the long run so that their competitiveness in the workplace will be similar to that of other Chinese-speaking people in the end. We consider that formulating a separate curriculum with a level different from that for other students is not beneficial to the future of NCS students, and it is also likely to create a labelling effect.

Starting from the 2014/15 school year, the EDB has implemented the “Learning Framework” in primary and secondary schools, and made a revision to it in January 2019. The “Learning Framework”, designed on the basis of the mainstream Chinese Language curriculum, provides steps and methods for learning and teaching, and assessment for teachers’ reference in teaching and making flexible adaptations according to the learning progress of NCS students. Teachers can make reference to the “Learning Framework”, which is not independent of the mainstream Chinese Language curriculum, to set learning targets, learning progress and expected learning outcomes on reading, speaking, listening and writing, as well as adapt and develop teaching materials at the school-based level for NCS students with different starting points and abilities, so as to help these second language learners to use a “small-step” learning approach to learn Chinese progressively.

The EDB has been continuously developing diversified learning and teaching resources such as the “Chinese Language Assessment Tools for NCS Students” and teaching reference materials to provide guidelines and support for teachers with regard to curriculum planning, learning and teaching, and assessment. These resources have been uploaded to the EDB webpage and will be updated on an ongoing basis. A series of learning and teaching materials, including student textbooks, workbooks and teaching reference materials for NCS students at primary levels is being developed for teachers’ reference and use. The materials for lower primary levels (i.e. Primary 1 to 3) have been uploaded to the EDB webpage and distributed to schools. The materials for upper primary levels (i.e. Primary 4 to 6) have been uploaded to the EDB webpage by phases starting from December 2019.

The Chinese Language curriculum framework provides schools with some flexibility. The curriculum documents also provide suggestions on learning targets, curriculum content, curriculum organisation and design, class hours, teaching strategies, and assessment. Schools can make adjustments in respect of curriculum, teaching, and assessment in light of school context and make use of the assessment tools with reference to the needs and learning progress of students with different backgrounds and learning abilities to help students to make progress.

CONTROLLING OFFICER'S REPLY

EDB151

(Question Serial No. 2765)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Is the bureau going to set up a dedicated team in the EDB to develop teaching resources and organize workshops for teachers to support NCS students who have difficulties learning other subjects taught in Chinese; including but not limited to subjects such as Mathematics, Chinese History and Liberal Studies etc?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 14)

Reply:

The Education Bureau (EDB) is committed to facilitating the adaptation of non-Chinese speaking (NCS) students (especially ethnic minority students) to the local education system and their mastery of the Chinese language for their early integration into the community. To support NCS students' learning, officers in different sections of the EDB have been taking up an active role in the provision of professional support. As far as Chinese Language is concerned, starting from the 2014/15 school year, a series of enhanced support measures have been introduced, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools, a substantial increase in the additional funding to schools, provision of diversified teaching resources for schools, and teacher training and professional support for schools to facilitate the implementation of the "Learning Framework" and creation of an inclusive learning environment in schools. Besides, the Standing Committee on Language Education and Research has been making use of the Language Fund to develop learning and teaching materials, so as to create a rich linguistic environment for Chinese language learning to enhance NCS students' interests in learning Chinese and enable them to be exposed to a wide range of information in Chinese, with a view to consolidating their knowledge base about Chinese and enhancing their learning effectiveness for subjects taught in Chinese.

To provide support for schools, EDB officers in charge of the curriculum of various subjects have been developing different types of learning and teaching resources, such as teaching design and learning activity exemplars, sample teaching materials, multimedia learning and teaching resources for teachers' reference. As for professional development of teachers, EDB officers have been providing professional support for teachers of different Key Learning Areas/subjects, including seminars, workshops and network activities. In fact, the existing Chinese Language curriculum and curricula of other subjects provide schools with flexibility. The curriculum documents also provide suggestions on learning targets, curriculum content, curriculum organisation and design, lesson hours, teaching strategies, and assessment. Schools can make adaptations in respect of curriculum, teaching, and assessment in light of school context and make use of the information of the student assessment with reference to the needs and learning progress of students with different backgrounds and learning abilities to help students to make progress. If necessary, schools may apply for the school-based professional support services provided by the EDB (such as the support services on Liberal Studies provided by the professional officers of the EDB to schools admitting NCS students, and on-site support on Mathematics provided by a university commissioned by the EDB). The professional officers of the EDB will put the focus on catering for learner diversity (including the learning of NCS students) and assist schools to adapt their school-based curricula and adopt diversified teaching strategies, with a view to enhancing effectiveness of the learning and teaching.

Currently, different sections of the EDB are engaged in the provision of support for NCS students. With their collaboration to optimise the benefits of the professional support, it is not necessary to set up a dedicated team which represents duplication of effort. EDB officers will continue to implement and enhance multiple support measures to assist NCS students to learn effectively.

(Question Serial No. 2766)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

What are the additional resources under a 3-tier structure to public sector ordinary and Direct Subsidy Scheme primary schools admitting non-Chinese speaking students with special educational needs?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 15)

Reply:

To further support non-Chinese speaking (NCS) students with special educational needs (SEN) to adapt to school life and make smooth transition through different learning stages, starting from the 2019/20 school year, the Education Bureau has provided a recurrent cash grant known as the Grant for Supporting Non-Chinese Speaking Students with Special Educational Needs (the Grant) for public sector ordinary primary and secondary schools as well as Direct Subsidy Scheme (DSS) schools admitting these students to employ teaching assistants to assist teachers in designing activities and teaching materials, procure translation services, or provide the students concerned with social and emotional management training, etc. The Grant is disbursed under a 3-tier structure according to the number of NCS students with SEN enrolled in each school, i.e. \$100,000 for 1 to 9 students, \$200,000 for 10 to 25 students, and \$300,000 for 26 or more students per year. In subsequent school years, the grant rates will be adjusted annually according to the change in the Composite Consumer Price Index. In the 2019/20 school year, about 400 students studying in public sector ordinary and DSS primary schools benefit from the provision, which involves an estimated expenditure of around \$18.3 million.

CONTROLLING OFFICER'S REPLY**EDB153****(Question Serial No. 2767)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (4) Secondary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding the educational support for non-Chinese speaking (NCS) students to be admitted in post-secondary programmes, please provide:

- A. The respective number of local NCS candidates sitting for the Hong Kong Diploma of Secondary Education (HKDSE) examinations, meeting the general entrance requirements of the University Grants Committee (UGC) First-Year-First-Degree programmes, applied for enrolment, and admitted through JUPAS and non-JUPAS for 2015/16 to 2019/20 academic years.

	No. of S6 non-Chinese speaking (NCS) students in schools offering local curriculum	No. of S6 NCS students sitting for HKDSE	No. of S6 NCS students met the general entrance requirements of undergraduate programmes	No. of S6 NCS students admitted to UGC-funded FYFD programmes through the JUPAS	No. of local NCS students who were admitted to UGC-funded FYFD programmes through non-JUPAS route
2015/16					
2016/17					
2017/18					
2018/19					
2019/20					

- B. The grades obtained and the respective number of local NCS students in each grade as well as subsidy involved who sat for GCE (A-Level) Chinese, GCE (AS Level) Chinese, GCSE Chinese and IGCSE Chinese for the first time for 2015/16 to 2019/20 academic years.

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 47)

Reply:

- A. In the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 school years, the number of non-Chinese speaking (NCS) students (i.e. students whose spoken language at home is not Chinese) attending Secondary (S) 6 in public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum is 1 150, 1 186, 1 317, 1 218 and 1 334 respectively. Among them, the number of NCS S6 students who sat for the Hong Kong Diploma of Secondary Education Examination (HKDSE) in the 2015/16, 2016/17, 2017/18 and 2018/19 school years is 1 035, 1 062, 1 189 and 1 094 respectively and the number of NCS students who met the general entrance requirements of undergraduate programmes is 320, 350, 385 and 331 respectively. The information for the 2019/20 school year is not yet available.

According to the statistics provided by the University Grants Committee (UGC)-funded universities, the number of local NCS students (i.e. local students whose spoken language at home is not Chinese) who had met the general entrance requirements of undergraduate programmes and were admitted to UGC-funded First-Year-First-Degree (FYFD) programmes through the Joint University Programmes Admissions System (JUPAS) in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 academic years is 84, 87, 119, 116 and 104 (figure for the 2019/20 academic year is provisional) respectively, while the number of local NCS students who were admitted to UGC-funded FYFD programmes through non-JUPAS route is 104, 98, 123, 151 and 129 (figure for the 2019/20 academic year is provisional) respectively.

- B. Eligible S4 to S6 school candidates entering for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that subsidised school candidates are only required to pay a “subsidised examination fee” on par with that of the Chinese Language paper in the Hong Kong Certificate of Education Examination or HKDSE. Starting from 2013, the examination subsidy coverage has been expanded to other non-local Chinese examinations including the International General Certificate of Secondary Education (IGCSE), and the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and Advanced (A)-Level. Starting from the 2011/12 school year, apart from the examination subsidy, eligible needy NCS students entering for the GCSE (Chinese) Examination can apply for full or half fee remission of the “subsidised examination fee” under the Examination Fee Remission Scheme (EFRS). The EFRS has further been extended to eligible needy NCS students taking the IGCSE, GCE AS-Level and GCE A-Level (Chinese) Examinations from the 2012/13 school year onwards. With the Government’s measure to pay the examination fees for school candidates entering for the 2019 and 2020 HKDSE, the “subsidised examination fee” of

eligible NCS students entering for the aforementioned non-local Chinese Language examinations in the 2018/19 and 2019/20 school years was waived accordingly.

The number of NCS students subsidised to enter for the aforementioned examinations from the 2015/16 to 2019/20 school years is tabulated below:

Alternative Chinese Language examinations	Number of NCS students subsidised (Number of NCS students subsidised to enter for the examinations for the first time)				
	2015/16 school year	2016/17 school year	2017/18 school year	2018/19 school year	2019/20 school year
GCSE Chinese	1 000 (938)	1 205 (1 140)	1 373 (1 269)	526 (486)	878 (794)
IGCSE Chinese	91 (91)	96 (90)	125 (108)	537 (517)	634 (503)
GCE AS-Level Chinese	289 (284)	245 (241)	300 (295)	428 (421)	520 (516)
GCE A-Level Chinese	156 (150)	201 (192)	152 (130)	53 (45)	76 (75)
Total	1 536	1 747	1 950	1 544	2 108

The expenditure on subsidy for NCS students to enter for the aforementioned examinations from the 2015/16 to 2019/20 school years is tabulated below:

Alternative Chinese Language examinations	Expenditure on subsidy for NCS students to enter for the examinations (Expenditure on subsidy for NCS students to enter for the examinations for the first time)				
	Actual expenditure in the 2015/16 school year (\$ million)	Actual expenditure in the 2016/17 school year (\$ million)	Actual expenditure in the 2017/18 school year (\$ million)	Actual expenditure in the 2018/19 school year (\$ million)	Estimated expenditure for the 2019/20 school year (\$ million)
GCSE Chinese	0.71 (0.67)	0.99 (0.93)	1.23 (1.14)	0.86 (0.79)	1.54 (1.39)
IGCSE Chinese	0.16 (0.16)	0.20 (0.18)	0.25 (0.22)	1.51 (1.46)	1.90 (1.51)
GCE AS-Level Chinese	0.71 (0.70)	0.66 (0.66)	0.83 (0.82)	1.58 (1.56)	1.98 (1.97)
GCE A-Level Chinese	0.51 (0.48)	0.73 (0.70)	0.63 (0.54)	0.29 (0.25)	0.44 (0.43)
Total	2.09 (2.02)	2.58 (2.47)	2.94 (2.72)	4.24 (4.06)	5.86 (5.30)

Note: The aforementioned expenditure does not cover the expenditure on the full or half fee remission under the EFRS for eligible needy NCS students entering for the aforementioned examinations.

It is our established practice that the breakdown of the levels attained by individual groups of students will not be released to avoid any labelling effect and piece-meal interpretation or misinterpretation of the results.

CONTROLLING OFFICER'S REPLY

EDB154

(Question Serial No. 2769)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education, (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Starting from the 2017/18 school year, the Pilot Project on Special Educational Needs Coordinators (SENCOs) (the pilot project) is regularised and extended to all public sector primary and secondary schools in the territory in phases over 3 years. The Administration will provide each public sector primary or secondary school with an additional Assistant Primary School Master/Mistress post or Graduate Master/Mistress post in the teaching establishment to facilitate the assignment of a designated teacher to take up the role of SENCO. In this connection, please inform this Committee of the following:

- (a) How many primary and secondary school teachers were employed from the 2017/18 to 2019/20 school years as a result of the regularisation of the pilot project? What was the expenditure on their salaries?
- (b) How many primary and secondary schools were involved from the 2017/18 to 2019/20 school years?
- (c) According to the reply from the Education Bureau (EDB) last year, most schools have appointed a suitable teacher as SENCO through internal deployment. What are the numbers of SENCOs appointed through internal deployment as well as the primary and secondary schools concerned? If no such data is available, what are the reasons?
- (d) Further to (c) above, is the EDB confirming that teachers employed under the project are so employed by schools as new teachers to take up non-SENCO duties (i.e. to become an additional teacher under the general establishment) leaving the SENCO post to be filled by an existing/experienced/senior teacher (such as assistant principal) through internal deployment?

(e) Has the project been completed as planned? If no, what are the reasons? How many primary and secondary school teachers will be employed respectively under the project in the coming school year (i.e. the 2020/21 school year)? What will be the expenditure on their salaries?

Asked by: Hon KWOK Wing-hang, Dennis (LegCo internal reference no.: 10)

Reply:

(a), (b) and (e)

Starting from the 2017/18 school year, the Education Bureau (EDB) provides, by phases in three years, each public sector ordinary primary and secondary school with an additional graduate teacher post to facilitate the schools' assignment of a designated teacher to take up the role of Special Educational Needs Coordinator (SENCO). In the 2019/20 school year, all public sector ordinary schools have been provided with a SENCO. In addition, starting from this school year, the rank of SENCO in public sector ordinary schools admitting comparatively large number of students with special educational needs (SEN) will be upgraded to promotion rank (i.e. Primary School Master/Mistress or Senior Graduate Master/Mistress). The expenditures on the provision of SENCO in ordinary schools in the 2017/18 and 2018/19 school years are \$164 million and \$376 million respectively. For the 2019/20 school year, the revised estimated expenditure is \$820 million. The number of schools with provision of SENCO in each of these 3 years is set out in the table below:

School year	No. of schools with provision of SENCO		
	Secondary school	Primary school	Total
2017/18	118	126	244
2018/19	244	300	544
2019/20	389	455	844

Provision of SENCO has become a regular item starting from the 2019/20 school year. From the 2020/21 school year onwards, all public sector ordinary schools have the SENCO provision. The estimated expenditure for the 2020/21 school year is about \$834 million.

(c) and (d)

When assigning a teacher as SENCO, schools should give thorough consideration to the teacher's years of teaching experience, work experience, relevant qualifications, etc. Basically, the teacher assuming the role of SENCO should have at least 3 years' experience in teaching and in promoting the work related to integrated education, and should have received training in special education, such as having completed the Basic, Advanced and Thematic Courses (i.e. the BAT Courses) on supporting students with SEN offered by tertiary institutions under the commission of the EDB, or holding equivalent qualifications.

According to the aforementioned requirements, schools will, having regard to actual circumstances and students' needs, either assign a teacher as SENCO through internal deployment or open recruitment. A SENCO, regardless of whether he/she is assigned through deployment or open recruitment, is required to lead the student support team and designated to assist the school principal and the vice-principal(s) in planning, coordinating and promoting the Whole School Approach to Integrated Education. We gather from school visits that schools are aware of the responsibilities of SENCO and have assigned the staff member to carry out the related duties, and most schools have appointed a suitable teacher as SENCO through internal deployment.

EDB155

(Question Serial No. 1863)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In view of the persistent novel coronavirus epidemic, the Education Bureau (EDB) has announced the suspension of all school classes in the territory, and classes will resume on 20 April this year the earliest. This has not only seriously slowed down the progress of teaching, but also reflected the inadequate support provided by the EDB in respect of online teaching resources. In this connection, would the Administration advise this Committee of the following:

- (1) whether it will provide additional resources to support schools in developing online teaching resources; if yes, of the details; if no, of the reasons;
- (2) with teaching seriously behind schedule in all schools, its policy to support schools and students being affected, and the expenditure involved; and
- (3) whether, in response to this epidemic, a task force will be set up or an emergency mechanism will be put in place to coordinate policies that address the impacts of the epidemic on schools and students?

Asked by: Hon LAU Ip-keung, Kenneth (LegCo internal reference no.: 45)

Reply:

During class suspension, schools should optimise the use of different modes, for example, by sending learning materials through emails and school websites, or using online platforms to practice e-learning, so as to keep providing learning and emotional support for students. Schools may also devise weekly learning plans to enable students to continue to systematically engage in a moderate amount of learning in order to achieve the goal of "suspending classes without suspending learning". Currently, schools may, having regard to their operational needs for information technology (IT) in education, flexibly deploy various subsidies (including the Composite Information Technology Grant and Information

Technology Staffing Support Grant) to procure software and hardware for online teaching, and strengthen the IT staffing support in schools.

The Government has been implementing information technology in education for more than 20 years. Provided with relevant infrastructure and support, schools have practised e-learning in light of their context. To support students' learning, teachers have also optimised the use of diversified online teaching resources, including online resources provided by different sections/units of the Education Bureau (EDB), multimedia and reading materials available from Hong Kong Education City (HKEdCity), and online assessment systems (STAR platform). The EDB also makes use of different channels to render support.

A dedicated webpage has been set up by the EDB and HKEdCity following the announcement on class suspension. The HKEdCity has upgraded the bandwidth of its network, while the EDB has been in active negotiation with copyright owners of resources such as educational television programmes for granting direct access to cross-boundary students to enable their online viewing in the Mainland. In February, visits to the HKEdCity website registered a fourfold increase when compared with the same period last year. Moreover, the EDB recently produced a series of curricular resources related to the COVID-19 to assist teachers in disseminating tips on epidemic prevention and relevant knowledge under different topics, and help students develop a positive attitude.

During class suspension, schools have been actively supporting students who are unable to undertake Internet learning due to the lack of necessary equipment, for example, by lending them mobile computer devices and helping them with the application for financial assistance. Moreover, school premises remain open during class suspension and there are staff members on duty to take care of students who need to return to schools and answer parents' enquiries. In case of doubt or difficulties, students and parents may approach the school directly to seek assistance as appropriate. The Government and charitable organisations also provide necessary support for needy students. For example, the Student Finance Office and the Social Welfare Department have implemented the Subsidy Scheme for Internet Access Charges since the 2010/11 school year to provide eligible families with Internet access subsidies so as to facilitate needy students' e-learning at home. Starting from the 2018/19 school year, the EDB also provides, through the Community Care Fund, subsidises for needy primary and secondary students for purchasing mobile computer devices to facilitate the practice of e-learning in public sector schools. To alleviate the burden of parents in this regard, the Government will provide an additional \$1,000 to each student receiving the Student Grant in the 2019/20 school year, i.e. the Student Grant amount of this year will be increased from \$2,500 to \$3,500, through the newly established \$30 billion Anti-epidemic Fund. No separate applications by parents are necessary. This will involve an additional expenditure of about \$900 million. Moreover, to help needy students engage in e-learning at home, the Hong Kong Jockey Club Charity Trust is giving 100 000 local primary and secondary school students free Internet access (via mobile data SIM cards) for 4 months with the help of 2 non-governmental organisations.

While optimising the use of online resources can bring benefits, thorough consideration is required in actual practice. For example, it is not advisable for students studying at kindergarten, P1 and P2 levels, and students with special educational needs displaying attention deficit to engage in onscreen learning for a long period of time. Given schools'

varying contexts and students' diverse needs, it is not appropriate to adopt e-learning without consideration of the actual circumstances. Alternatively, open-ended learning activities, such as reading and project-based learning, are arranged in some schools to create more opportunities for self-learning. Such learning experiences are essential to one's acquisition of knowledge, inspiration of creativity and building of emotional qualities.

We understand that home learning cannot fully replace classroom learning. Upon class resumption, we trust schools will suitably adjust their teaching and learning arrangements, with a view to keeping the learning progress of the students. If individual schools consider it necessary, they may arrange supplementary lessons at their discretion for individual cases, according to their school-based circumstances and needs of students. The EDB has been maintaining liaison with different government departments and stakeholders in respect of learning support during class suspension. We will keep in view the impact of the epidemic on schools and students while understanding their needs and providing appropriate support. We do not have any plan to set up a task force separately.

CONTROLLING OFFICER'S REPLY

EDB156

(Question Serial No. 1864)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The estimate for Programme (6) Other Educational Services and Subsidies is \$277.8 million higher than that for 2019-20 and there will be an increase of 33 posts. Please advise this Committee of:

- (1) the amount of expenditure for strengthening Constitution and Basic Law education;
- (2) the programmes that aim to strengthen Constitution and Basic Law education, as well as the manpower and expenditure involved; and
- (3) the functions of the newly created 33 posts and the expenditure involved.

Asked by: Hon LAU Ip-keung, Kenneth (LegCo internal reference no.: 46)

Reply:

(1) and (2) The Education Bureau (EDB) has been continuously adopting a wide array of measures to strengthen the implementation of Basic Law education (BLE), which include developing learning and teaching (L&T) resources, providing teacher training for school sponsoring bodies, school leaders and teachers, organising life-wide learning activities for students, etc. Such support measures enable schools and teachers to acquire a deeper understanding of the relationship between the Constitution of our country and the Basic Law as well as the concepts embodied in the Basic Law, and to understand that the Basic Law is the cornerstone of Hong Kong's development and is closely related to our daily life, which in turn facilitate schools to enhance L&T efficacy by making plans for and taking forward BLE more effectively. In view of the needs of the school sector, the EDB will continue to strengthen BLE through diversified strategies, taking into consideration the school curriculum and learning pace of students, to enhance students' understanding of the Constitution and the Basic Law as well as to foster their awareness of the rule of law in Hong Kong. Besides updating L&T resources and organising teacher training activities on

an ongoing basis, the EDB will continue to organise student activities such as Basic Law quizzes and suitable exchange programmes and visits to enhance students' understanding of the historical background of the Basic Law and its implementation.

Since the promotion of the Constitution and the Basic Law among students and teachers is an integral part of the EDB's day-to-day curriculum development work, the staff cost involved has been subsumed under the Bureau's recurrent expenditure and is not confined to Programme (6). A breakdown of the relevant manpower and expenditure is therefore not available.

(3) A total of 33 posts will be created in the EDB under Programme (6) in 2020-21. The breakdown of these posts by rank is as follows –

<u>Rank</u>	<u>Post to be created</u>
Principal Inspector	1
Senior Inspector	2
Inspector (Graduate)	1
Assistant Inspector (Graduate)	1
Specialist (Education Services) I	12
Specialist (Education Services) II	4
Speech Therapist	10
Executive Officer II	2
Total:	33

The 33 additional posts are mainly for enhancing the professional and administrative support to a number of services, including the strengthening of various support measures for the implementation of integrated education.

EDB 157

(Question Serial No. 1872)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

During 2020-21, the Education Bureau will redeploy resources previously dedicated to production of educational television programmes to development of diversified educational multimedia resources. What are the details of manpower and resource deployment?

Asked by: Hon LAU Ip-keung, Kenneth (LegCo internal reference no.: 22)

Reply:

Starting from 2020-21, educational television (ETV) service will be repositioned in light of the recommendations made in the Director of Audit's Report No.71. The Education Bureau (EDB) will redeploy resources previously dedicated to the production of ETV programmes and cease to provide annual funding for Radio Television Hong Kong (RTHK) to produce a certain number of ETV programmes. Instead, the EDB will develop diversified multimedia learning and teaching resources with reference to curricular needs, including thematic short videos, micro movies, photos, sound tracks, interactive games, as well as picture books, nursery rhymes and props for storytelling for kindergartens. Moving beyond the confines of television programmes, these educational resources are produced to better meet schools' teaching needs. To produce the diversified learning and teaching resources outlined above, the EDB will increase the scale of commissioning the production of multimedia resources by engaging service providers in the market to tap innovative inputs and enhance production quality. RTHK will be invited to bid for the contracts just like other service providers with production experience. The estimated expenditure for the development of diversified educational multimedia resources for 2020-21 is \$30 million. Since the development of learning and teaching resources (including multimedia educational resources) is an integral part of the day-to-day curriculum development work of the EDB, it is not practical to give separate figures on the manpower involved in individual development tasks.

- End -

CONTROLLING OFFICER'S REPLY**EDB158****(Question Serial No. 0259)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding “extending the enhanced School-based Educational Psychology Service (SBEPS)”, would the Government inform this Committee of:

- (a) the ratios of educational psychologists to (1) schools and (2) students in the past 3 years;
- (b) the details of the enhanced SBEPS for the next 3 years; and
- (c) the divisions, manpower and resources involved.

Asked by: Hon LEE Kok-long, Joseph (LegCo internal reference no.: 46)Reply:

(a) to (c)

Since the 2016/17 school year, all public sector ordinary primary and secondary schools have been provided with the School-based Educational Psychology Service (SBEPS). From that school year onwards, the Education Bureau (EDB) has progressively improved the ratio of educational psychologist (EP) to school to 1:4 for public sector ordinary primary and secondary schools with a comparatively larger number of students with special educational needs (SEN), i.e. the Enhanced SBEPS. The number of schools receiving the Enhanced SBEPS in the recent 3 school years is tabulated as follows:

School year	2017/18	2018/19	2019/20
No. of schools	80	119	169

The EDB plans to extend the Enhanced SBEPS to about 210 schools in the 2020/21 school year and will keep in view the implementation of the Enhanced SBEPS and the supply and

demand of EPs to decide the additional number of schools to be included annually thereafter.

The SBEPS is delivered by EPs from the EDB and school sponsoring bodies (SSBs). EPs are deployed by the EDB and SSBs on the basis of the number of schools while the number of students is not the major consideration for deployment. As such, we do not have figures on the EP to student ratio. At present, each EP serves 7 to 8 public sector ordinary primary and secondary schools with assorted number of students with SEN. In the school years from 2017/18 to 2019/20, the number of EPs providing SBEPS (including the Enhanced SBEPS) for public sector ordinary primary and secondary schools in the territory is 144, 151 and 156 respectively, and the total expenditure involved is tabulated as follows:

School year	2017/18	2018/19	2019/20 (revised estimate)
Expenditure (\$ million)	127	139	183

- End -

The wastage (Note 3) of teachers in local KGs with WD, HD and both HD and WD classes in the 2017/18, 2018/19 and 2019/20 school years, and their average years of service, average salary per month and academic qualifications are tabulated below:

(i) 2017/18 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
No. of wastage	203	428	674
Average years of service	12.1	12.2	12.7
Average salary per month	\$22,270	\$22,401	\$19,802
No. of teachers with Certificate in Early Childhood Education or above	186	332	547

(ii) 2018/19 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
No. of wastage	329	480	776
Average years of service	9.9	10.8	12.4
Average salary per month	\$23,944	\$23,970	\$22,755
No. of teachers with Certificate in Early Childhood Education or above	315	388	678

(iii) 2019/20 school year (Note 1)

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
No. of wastage	360	428	756
Average years of service	10.7	10.4	12.3
Average salary per month	\$26,391	\$25,768	\$24,390
No. of teachers with Certificate in Early Childhood Education or above	340	347	664

Among the above KGs operating WD classes, the wastage of teachers in FACs (Note 2) in the 2017/18, 2018/19 and 2019/20 school years, and their average years of service, average salary per month and academic qualifications are tabulated below:

Teachers in FACs (Note 2)			
School year	2017/18	2018/19	2019/20 (Note1)
No. of wastage	215	334	354
Average years of service	11.9	9.5	10.9
Average salary per month	\$21,966	\$23,828	\$26,451
No. of teachers with Certificate in Early Childhood Education or above	199	321	338

Note:

1. Figures for the 2019/20 school year are provisional.
2. FACs refer to aided child care centres operated under the Social Welfare Department before harmonisation of pre-primary services. They usually operate longer service hours.
3. “Wastage” refers to the number of drop-out teachers who had served in local KGs/long WD KGs as at mid-September of the preceding school year but no longer served in any KGs as at mid-September of the school year concerned.

EDB160

(Question Serial No. 1334)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) has formulated a well-defined integrated education policy to guide primary and secondary schools in supporting students with special educational needs (SEN), and created a Special Educational Needs Coordinator (SENCO) post within the establishment of public sector primary and secondary schools to coordinate various support measures provided by the school for students with SEN. Since many studies have revealed that for a child with SEN, the golden period for intervention is before the age of 6, the Government has set "early identification and immediate intervention" as its policy objective. However, no SENCO post is created within the staff establishment of schools under the EDB's kindergarten education scheme. Would the Administration advise this Committee of the following:

(1) As far as kindergarten education is concerned, what is the EDB's prevailing policy to support students with SEN? Please give a full list of items and provide figures on the resources involved in the past 3 years.

(2) What reasons does the EDB have for not creating a SENCO post within the establishment of kindergartens? What alternative measures are in place to ensure that students with SEN are given appropriate support?

Asked by: Hon LEUNG Che-cheung (LegCo internal reference no.: 35)

Reply:

(1) and (2)

The Government has an established mechanism to provide different services for children with special needs or at risk of developmental delay through the collaborative efforts of various departments, including the Department of Health, Hospital Authority, Social Welfare Department (SWD) and the Education Bureau (EDB). At present, the SWD provides pre-school rehabilitation services for children with special needs and helps the

families of these children meet their special needs, such as the Pilot Scheme on On-site Pre-school Rehabilitation Services (OPRS) implemented in November 2015. With the regularisation of the Pilot Scheme in October 2018, the number of service places has increased from about 3 000 under the Pilot Scheme to over 7 000 at present, which will be further increased by 1 000 in each school year from 2020/21 to 2022/23, making an aggregated increase of 3 000 service places which will bring the total number to 10 000. In delivering OPRS, training is provided for children with special needs through multi-disciplinary service teams comprising occupational therapists, physiotherapists, speech therapists, clinical/educational psychologists, social workers and special child care workers under the coordination of non-governmental organisations. Apart from providing services for children with special needs, multi-disciplinary service teams also render support to teachers/child care workers and parents. As OPRS is not under the purview of the EDB, information on the expenditure involved is not available.

The enhancement in requirement for teacher to pupil ratio from 1:15 (including the principal) to 1:11 (principal not included) under the kindergarten education scheme (KG Scheme) allows kindergarten (KG) teachers to have more room for various professional activities, including capitalising on the resources to collaborate with the multi-disciplinary service teams that provide OPRS, communicate with parents and cater for the diverse needs of students. As for training, since the 2015/16 school year, the EDB has organised teacher professional development programmes on catering for students with developmental needs by commissioning tertiary institutions and non-governmental organisations to provide basic training for KG teachers, and it has also devised a professional development framework. Starting from the 2018/19 school year, the EDB has further provided KG teachers with structured in-service training courses at basic and advanced levels. These teacher professional development programmes cover content such as fundamental knowledge and skills in early identification and intervention, multi-disciplinary collaboration and strategies related to coordination of support services. The EDB has set specific targets for training such that each KG joining the KG Scheme will have at least 1 teacher completed the Basic Course as recognised by the EDB before the end of the 2020/21 school year. Moreover, according to the information of SWD, apart from offering training courses for special child care workers recognised by the SWD, tertiary institutions usually include special child care worker training modules recognised by the SWD, i.e. no less than 210 hours of training on catering for children with special needs, in the pre-service and in-service training courses for obtaining the teacher professional qualifications in early childhood education. The above courses have been introduced for over a decade, and a certain amount of serving KG teachers have received the relevant training. Therefore, under the collaboration between the EDB and the SWD, there has been an increasing number of KG teachers equipped with the fundamental knowledge and skills in identifying and catering for children with special needs.

The EDB will continue to promote an inclusive culture in KGs, make a sustained effort to provide more KG teachers with relevant training, and continue to develop evidence-based intervention models and teaching resource packages on catering for children with learning and developmental needs for use by KG teachers. At this stage, we have no plan to create a Special Educational Needs Coordinator post in KGs. The EDB will review the implementation of the relevant measures on an on-going basis and consider the introduction of appropriate and specific improvement measures as and when required.

CONTROLLING OFFICER'S REPLY

EDB161

(Question Serial No. 2169)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) announced that classes of all schools will be suspended temporarily until 20 April due to the novel coronavirus outbreak. All students in the territory will return to schools by then. Regarding cross-boundary students, would the EDB inform this Committee:

- whether there will be enough resources to meet the learning needs of cross-boundary students if the epidemic persists; if yes, the details;
- whether the EDB has resources and measures in place to handle cross-boundary students when schools resume and whether these students need to be quarantined; and
- whether the Administration has allocated resources to support cross-boundary students and their parents.

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 67)

Reply:

During class suspension, schools have employed diversified modes of learning, including e-learning, to enable students (including cross-boundary students (CBS)) to learn at home. Students are also provided with learning materials, exercises and extracurricular reading materials so that they can make good use of their time and achieve the goal of “suspending classes without suspending learning”. Dedicated webpages have been set up by the Education Bureau (EDB) and the Hong Kong Education City to facilitate home learning during class suspension. The EDB is also in active talks with relevant copyright holders to allow CBS in the Mainland to access resources such as educational television programmes through the Internet.

As the epidemic is still evolving, the date of class resumption is subject to further assessment. The EDB will take into account the professional advice from health experts, and follow up on the readiness of schools as well as the supply of epidemic preventive materials in the community to assess whether the conditions to resume classes are sufficient. When there are sufficient conditions to resume classes, we will decide the date of class resumption. As regards CBS, we will take into account the anti-epidemic measures at that time (including the immigration control measures and quarantine arrangements, etc.), epidemic situation in neighbouring regions and professional advice from health experts when formulating the arrangements. We will continue to closely liaise with the relevant Government departments, including the Centre for Health Protection, to draw up the anti-epidemic measures for class resumption, and make reference to the views of school sectors to formulate concrete arrangements.

- End -

CONTROLLING OFFICER'S REPLY

EDB162

(Question Serial No. 2170)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the novel coronavirus epidemic, please advise this Committee of the following:

- the amount of resources allocated by the Education Bureau (EDB) to support local parents in coping with the epidemic;
- whether the EDB will directly provide students with sufficient masks upon class resumption, given the existing difficulty in obtaining masks; and
- whether the EDB will allocate additional resources for the Caring and Sharing Scheme under the Working Family Allowance Office to subsidise the students concerned in buying technology products for multimedia electronic or online learning during the epidemic.

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 68)

Reply:

During class suspension, primary and secondary schools can optimise the use of different modes of learning to enable students to continue to engage in learning systematically so as to achieve the goal of “suspending classes without suspending learning”. E-learning is merely one of the modes. In respect of e-learning, we have been taking various measures to support grassroots students. For example, under the Subsidy Scheme for Internet Access Charges, which has been implemented by the Student Finance Office and the Social Welfare Department since the 2010/11 school year, internet access subsidies are disbursed to eligible families to facilitate needy students’ internet learning at home. Starting from the 2018/19 school year, the Education Bureau (EDB) also provides subsidies, through the Community Care Fund, to needy primary and secondary students for purchasing mobile computer devices to facilitate the practice of e-learning in public sector schools. While the

application for the current school year has been closed, schools are encouraged to continue submitting applications for students in need, given that many students have to engage in e-learning at home with mobile computer devices when classes are suspended during the epidemic. Such applications will be flexibly processed depending on the circumstances. In addition, schools may loan mobile computer devices to students for their use at home.

Meanwhile, we understand that many parents have to make the usual education-related payments, in whole or in part, for their children during class suspension, and some may have to increase their spending on learning materials or e-learning devices for their children. To alleviate parents' burden in defraying these expenses, the Government will provide an additional \$1,000 to each recipient of the Student Grant for the 2019/20 school year, i.e. the Student Grant amount of this year will be increased from \$2,500 to \$3,500, through the newly established Anti-epidemic Fund. No extra applications by parents are necessary. The additional expenditure involved is about \$900 million.

To support schools' efforts in epidemic prevention, the EDB provides a one-off Special Anti-epidemic Grant to all schools offering full and formal curriculum to help them replenish their epidemic prevention supplies (such as face masks and handrub), clean the school premises and pay for the other expenses related to epidemic prevention. The provision is estimated to benefit some 2 200 schools. For example, a public sector school with 24 classes or more will receive a grant of \$25,000. Furthermore, the boarding sections of special schools have been operating to cater for students in need of boarding service during class suspension. To enhance the support for the boarding sections to guard against the epidemic and to reduce the risk of the spread of the epidemic, the EDB has provided a one-off additional grant for 21 special schools with a boarding section. Details are set out in the circular issued on 6 March. As schools differ in respect of the type and quantity of anti-epidemic supplies (including face masks) they need, it is more appropriate for schools to procure these supplies according to their school-based circumstances. As the epidemic is evolving, the date of class resumption is subject to further assessment. Parents and schools should have time to make preparations. When considering the arrangement for class resumption, the EDB will take into account the availability of anti-epidemic supplies (including face masks).

EDB163

(Question Serial No. 2171)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (4) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Junior secondary Chinese History has finally been made a compulsory subject. However, the curriculum of Liberal Studies (LS), which is a compulsory examination subject, remains too broad and without a precise scope. In this connection, would the Administration advise this Committee of the following:

- Regarding the LS Curriculum and Assessment Resource Package and the LS Curriculum Resources Booklet Series published by the Education Bureau (EDB), how often are they used by teachers? What are the details?
- The EDB has introduced professional consultancy services for the voluntary participation of LS textbook publishers. At present, how does the Administration effectively monitor LS teachers' pedagogies and the schools' role in it?

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 69)

Reply:

In respect of supporting the teaching of senior secondary Liberal Studies (LS), the Education Bureau (EDB) and the Hong Kong Examinations and Assessment Authority jointly prepared the Liberal Studies Curriculum and Assessment Resource Package – Interpreting the Curriculum and Understanding the Assessment (“Resource Package”) in 2013 to help teachers understand the breadth and depth of the curriculum and the requirements of public assessment. On the basis of this Resource Package, the EDB subsequently published the Liberal Studies Curriculum Resources Booklet Series (“Resources Booklet”) to further illustrate the curriculum focus for teachers and align with the results of the Medium-term Review released in 2015. In accordance with the curriculum requirements, the Resources Booklet provides teachers and students with a more appropriate interpretation of all modules of the curriculum, including the learning and teaching focus of relevant themes. The above-mentioned resources and other learning and

teaching resources developed for senior secondary LS by the EDB are available on the Liberal Studies Web-based Resource Platform (ls.edb.hkedcity.net) for teachers of senior secondary LS to download and use. In fact, it is hard to tell exactly how the teaching materials are used, including whether they are fully or partially used, to what extent they are used, etc. Therefore, similar to other teaching materials provided for teachers' use by the EDB, we do not collect statistics on the utilisation rate of teaching materials for LS. Instead, the EDB learns about the use of these teaching materials in schools through channels including curriculum development visits, school-based support service, school networking activities and focus inspections. According to our observations and the information provided by teachers, schools and teachers generally consider that the content and information provided in the Resource Package and the Resources Booklet can help teachers with curriculum planning, and enable students to grasp progressively the content and requirements of the curriculum.

The so-called "textbooks" for senior secondary Liberal Studies (LS) available on the market have not been reviewed by the Education Bureau (EDB). The EDB is fully aware of the public concerns over the quality of these teaching materials. To safeguard the well-being of students, the EDB introduced a special measure to provide a one-off professional consultancy service for publishers of senior secondary LS "textbooks" in September 2019 with a view to enhancing the quality of "textbooks" already published. For details, please refer to the written reply furnished by the EDB to a question raised at the Legislative Council meeting in November 2019 (<https://www.info.gov.hk/gia/general/201911/13/P2019111300657.htm>). Under this measure, 7 major publishers of LS "textbooks" participated voluntarily in the professional consultancy service with their latest editions of a total of 10 sets of senior secondary LS "textbooks" (including the English "versions"). As at March 2020, personnel responsible for rendering the professional consultancy service have finished reviewing the "textbooks" received in a professional manner in accordance with the aims and objectives of the LS curriculum. The EDB has met with the publishers concerned and provided them with professional feedback for improving the quality of the senior secondary LS "textbooks". Publishers that participated in the professional consultancy service undertook to duly follow up the amendments suggested by the EDB and are now revising their "textbooks". It is expected that the publishers will complete the revision as early as possible so that the revised "textbooks" can be ready for schools' adoption in the coming school year. Taking into account the experience of the professional consultancy service, the EDB will consider long-term quality assurance measures for the subject, including the feasibility of establishing a textbook review mechanism.

Under the principle of school-based management, monitoring the quality of learning and teaching of different subjects, while being a fundamental part of school staff management, also reflects the school's accountability for the quality of student learning and school education. Therefore, it is incumbent on the school management to understand and monitor the implementation of the LS curriculum in schools, including the quality of school-based teaching materials, assessment design, effectiveness of classroom learning and teaching, etc., to ensure that teachers are implementing the curriculum according to its aims and objectives. Officers from the EDB have been monitoring the overall quality of learning and teaching in the school sector through such means as inspections and curriculum development visits. During inspections, inspectors get a grasp of the school's implementation of the curriculum through scrutiny of relevant curriculum documents,

student assignments and examination papers, discussions with school personnel, as well as observation of lessons and activities conducted for the subject. Having regard to the school context, inspectors evaluate the subject performance and provide schools with specific professional advice for their continuous improvement in the implementation of the subject curriculum. Should the quality of learning and teaching of a school (including LS) fall short of satisfaction, the EDB will take follow-up actions in accordance with the established mechanism, including urging the incorporated management committee/school management committee to make improvements based on the inspection report, encouraging the school to apply for our school-based support services, and, if necessary, arranging a follow-up inspection to ensure that the school is following up the recommendations to improve the quality of learning and teaching and foster the school's development and accountability continuously.

(Question Serial No. 2172)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Last year, quite a number of students were involved in the large-scale social movement and were even put under arrest. As at 1 March 2020, 7 704 persons have been arrested, and 40% of them are students (3 113 persons). Among these students, 1 725 are studying at tertiary institutions, 1 302 at secondary schools, and 4 at primary schools (3 P6 students and 1 P5 student). The youngest arrestee is only at the age of 11. The situation is worrying. In this connection, please advise this Committee of the following:

- as far as the student arrestees are concerned, whether the Administration will allocate resources to support schools, students and parents; if yes, of the details; if no, of the reasons; and
- whether the Administration will review the relevant curriculum policies to enhance resource provision for national and civic education as well as promotion of law-abiding awareness.

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 70)

Reply:

The Education Bureau (EDB) issued a letter to all schools in December 2019, reiterating that schools should state in no unclear terms to students and parents that any breach of school regulations will not be tolerated and schools will handle students' misbehaviour based on the prevailing disciplinary and counselling mechanisms. We shall never give up on students who have violated the law or even students convicted by the court. We should counsel them, deploying appropriate guidance and discipline measures, and bring them back to the right track. It is suggested that schools should develop a long-term personalised counselling programme for each arrested or prosecuted student as early as possible, strengthening education on positive values, positive thinking, proper attitude in social

communication, and to maintain close contact with their parents. Schools should also take care of other students who may be affected by cases of students arrested or prosecuted, and help them manage their emotions and understand the issues.

The Government has been continuously increasing the provision of resources on professionals. For example, the “one social worker for each school” policy has been implemented in public sector primary schools according to school-based circumstances starting from the 2018/19 school year; and the “two social workers for each school” policy has been implemented in secondary schools starting from the 2019/20 school year. In addition, the ratio of school-based educational psychologist to school has been progressively increased. Under the whole school approach to guidance and discipline, these school professionals (including school social workers, student guidance personnel and school-based educational psychologists) collaborate with teachers to provide remedial, preventive and developmental guidance programmes for the arrested or prosecuted students as necessary, as well as to encourage parents to listen actively and patiently to their children’s inner voices, support them with a caring attitude when they are in distress, and maintain communication with schools with a view to helping the students reintegrate into school life and solving their behavioural problems.

Social incidents might affect the emotions of students arrested for engagement as well as other students. In this regard, the EDB has issued to all schools guidelines on caring the emotions of teachers and students, stating the basic principles on helping students manage their emotions and providing information on mental health and professional support services for teachers and professionals in schools. To enable schools to take care of their students’ emotional needs, the EDB has also organised relevant workshops and thematic talks that help schools understand the techniques for communicating with students, methods for handling mental health crisis, and psychological support for teaching and non-teaching staff and students after the occurrence of an emergency incident. Meanwhile, the Social Welfare Department (SWD) has organised a series of training courses and workshops for social workers in secondary schools to enhance their capacity in addressing students’ problems.

To enhance students’ resilience, schools may join the student development programmes launched by the EDB, such as the Understanding Adolescent Project for primary schools and the Enhanced Smart Teen Project for secondary schools. Starting from the 2019/20 school year, the EDB has allocated more resources to refine these programmes by, for example, increasing the number of group-based student activities and training sessions for parents, and reducing the group size under the Intensive Programme of the Understanding Adolescent Project; as well as gradually increasing the number of training places under the Enhanced Smart Teen Project to benefit more students.

In addition, it is noted that the SWD, through non-governmental organisations, has implemented the Community Support Service Scheme for providing support services to young people aged 10 to under 18 who are cautioned under the Police Superintendent’s Discretion Scheme, arrested youth and their peers with delinquent behaviours (including students). Through individual and family counselling, therapeutic groups/skill training/educational groups, positive life training, community services, crime prevention activities, etc., these support services help young people eliminate their deviant and unlawful behaviours and reduce their likelihood of law infringement.

As for post-secondary institutions, the EDB understands that they have, by deploying the resources available, established counselling and support mechanisms to provide appropriate assistance and support to students in need. Generally speaking, institutions would, based on the actual situation, provide students with ways to seek legal advice, counselling support, temporary accommodation, and other support measures as necessary. Furthermore, institutions would initiate suitable disciplinary procedures as needed, so that the students in contravention of the institutions' regulations or the law could understand and correct their mistakes, and take responsibility for their own actions.

Regarding the policy for primary and secondary school curriculum, moral, civic and national education (MCNE) is a crucial element in whole-person education. At the primary and secondary levels, we have been providing students with holistic learning experiences through the synergy of classroom teaching in different key learning areas/subjects and out-of-classroom life-wide learning activities (e.g. visits, voluntary services, field trips and exchange activities). Diversified strategies have been adopted to promote values education (including MCNE) to instil in students' positive values and attitudes such as "respect for others", "responsibility", "national identity", "commitment", "integrity", "care for others", "abiding by law" and "civic-mindedness". The EDB has been developing learning resources and organising professional training programmes for teachers on an ongoing basis to support schools in promoting MCNE.

It is worrying and distressing for us to see teachers and students get involved in unlawful or even violent acts during the months-long social incidents. We will strengthen values education further. In this connection, "expressing gratitude, to cherish, be proactive and optimistic" has been chosen as the theme for promoting values education in schools for the current and the next two school years. All schools in the territory are encouraged to create a favourable ambiance for positive education. More life event exemplars will also be developed as learning and teaching resources, covering topics such as "obeying the law", "rule of law", "responsibility", "respect for others", "identification of real and fake information", etc. to help students uphold ethics in this cyber age and understand the importance of respecting and accommodating differences in views. We will also organise more professional training programmes for principals and teachers of primary and secondary schools to further enhance their professional capacity to develop a favourable school culture and encourage parents' participation in promoting positive values together. The Task Force on Review of School Curriculum, set up in November 2017, has made 6 initial recommendations, among which the implementation of values education is accorded a high priority. The Task Force will submit a report on directional recommendations to the EDB in due course. If accepted by the EDB, the recommendations will be taken forward by relevant sections under the existing mechanism as soon as practicable for implementation in schools.

For post-secondary institutions, the EDB respects their autonomy in curriculum design and encourages them to help students acquire a full and accurate understanding of the Basic Law and "One Country, Two Systems", and boosting their sense of national identity. Universities would organise a wide array of public talks, seminars and workshops in relation to the Basic Law, governance and politics, and national education. Many institutions also offer general education and inter-disciplinary courses to increase students' understanding of the Basic Law. Universities may continue to make full use of their resources to take

forward the promotion, education and research, as necessary, on such topics as the Basic Law and “One Country, Two Systems”. As regards University Grants Committee-funded universities, the bulk of recurrent grants to these universities are in the form of a block grant based on the approved student numbers allocated to universities. As the expenditure for individual education themes is subsumed under the block grant to the universities, a breakdown is not available.

The reasons for young people’s participation in unlawful activities are complicated. Apart from school education, factors like families, peers, social atmosphere, media/online information also play a crucial role. To effectively instil positive values in our young people, it is incumbent on the EDB to step up efforts in various tasks. It is hoped that various stakeholders’ recognition and active participation can be obtained with a view to nurturing positive values and attitudes in our young people with concerted efforts.

Question:

During the anti-extradition amendment bill protest, a number of teachers took to the social media platforms to spew hateful remarks and hurl abuses at children of police officers, violating their codes of professional conduct. The situation is alarming. In this connection, would the Administration advise this Committee:

- of the number of teachers who allegedly committed professional misconduct, the number of teachers penalised by the Administration because of it, and the number of cases requiring follow-up actions;
- whether there is a mechanism to investigate and penalise teachers who allegedly committed professional misconduct; if yes, of the details; and
- whether the Administration will allocate resources to review the mechanism that has enabled some undisciplined teachers to take advantage of their long teaching hours to instil prejudices in students; if yes, of the details.

Asked by: Hon LEUNG Mei-fun, Priscilla (LegCo internal reference no.: 71)

Reply:

From June 2019 to the end of January 2020, the EDB received a total of 171 complaints about suspected professional misconduct of teachers. We have substantially completed the investigation of 125 cases, of which 47 were found unsubstantiated.

Among the above-mentioned 125 cases, the EDB has taken follow-up actions on 39 of them, including issuing reprimand letters to 13 teachers and warning letters to another 4. The EDB may consider cancelling these teachers' registration pursuant to the Education Ordinance if they misconduct themselves again. We have also issued advisory letters to 9 teachers and verbal reminders to another 13 to remind them to refrain from activity that is

detrimental to the image of the teaching profession and to show respect to the behavioural norms acceptable to society. For the remaining 39 cases, our initial view is that they are likely to be substantiated. In accordance with the established procedures, we are currently waiting for or considering the responses from the teachers concerned with a view to determining the appropriate follow-up actions.

We have adopted a prudent approach to handling every complaint involving professional misconduct of teachers. We carefully consider and scrutinize the available information and evidence as well as the school's investigation report and representation from the teacher concerned before ruling on whether a complaint is substantiated. If it is our initial view that the complaint is likely to be substantiated, we will notify the teacher concerned of our view and invite him/her to submit a written representation. Upon receiving the written representation, we will examine the complaint as a whole for follow-up actions. To determine the necessary follow-up action for each case, we will conduct a thorough assessment of the background of the case, the incident that led to the complaint, the impact of the incident on students and the education sector, the representation made by the teacher concerned and past precedents. If a teacher is found to have committed a serious offence or act of misconduct, the EDB will follow up the case in a stringent manner in accordance with the Education Ordinance. For serious cases, the registration of the teacher concerned may be cancelled.

Under the principle of school-based management, the school management, which includes all chairpersons of subject panels and committees under the administrative framework, has the responsibility to uphold the spirit of accountability by understanding, monitoring and enhancing the quality of learning and teaching in school. The EDB has all along been monitoring and improving the quality of learning and teaching in schools and continuously fostering school development and accountability through such means as inspections and curriculum development visits. As in the past, we will review and refine the current arrangements on an ongoing basis with a view to further enhancing school accountability.

Director of Bureau: Secretary for Education

Question:

At present, since the Education Bureau (EDB) has neither a dedicated grant nor policies to support STEM education, primary and secondary schools can merely make use of the Life-wide Learning Grant and apply for provision under the Dedicated Funding Programme for Publicly-funded Schools in promoting STEM education. In this connection, please advise this Committee of the following:

- (1) whether the EDB will consider setting up a support fund on STEM education so as to consolidate various support initiatives and grants for STEM subjects, provide schools with more resources in a systematic manner, and enhance efforts to enable more students to study STEM subjects;
- (2) whether the EDB will consider modifying the school curriculum to include more STEM-related content, and place greater emphasis on increasing students' exposure to STEM-related knowledge in primary and junior secondary education;
- (3) whether the EDB will consider allocating more resources to schools so as to progressively increase the proportion of coding education in the primary school curriculum; and
- (4) whether the EDB will consider providing a recurrent grant that supports primary and secondary school teachers teaching the STEM curriculum in pursuing continuing education programmes funded by the Government?

Asked by: Hon LO Wai-kwok (LegCo internal reference no.: 20)

Reply:

(1) STEM education is not a separate new subject. At the primary and secondary levels, STEM education is implemented through the curricula of Science, Technology and Mathematics Education Key Learning Areas (KLAs) (such as Mathematics at the primary and secondary levels, Science and Computer Literacy at the junior secondary level, and General Studies at the primary level). The Education Bureau (EDB) has been providing schools with necessary resources, including recurrent subvention under the Expanded/Operating Expenses Block Grant and relevant subject resources, to promote relevant subjects and STEM-related learning activities. Schools may continue to flexibly and effectively deploy different resources to promote STEM education taking into account school context and students' needs. In the 2015/16 and 2016/17 school years, the EDB provided a one-off grant of \$100,000 and \$200,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school to strengthen or kick-start school-based STEM education. Schools may also obtain additional resources through applying for funding from the Quality Education Fund (QEF). The QEF has included STEM education as one of the priority themes and implemented the Dedicated Funding Programme for Publicly-funded Schools for 4 school years starting from the 2018/19 school year for schools to apply for funding to launch school-based curriculum development and/or student support measures, including the development of school-based STEM education. Furthermore, schools with outstanding performance in implementing STEM education will be provided with additional resources through the QEF Thematic Networks to support other schools through networking activities on different STEM-related themes. Starting from the 2019/20 school year, the EDB has provided a recurrent Life-wide Learning Grant for public sector and DSS schools. To cater for the implementation of STEM education, schools may use the Grant to organise more out-of-classroom experiential learning activities and other diversified learning activities so as to broaden students' horizon and foster their learning. Schools may deploy resources flexibly and implement STEM education at their own pace in light of school context and development focus. The feedback collected through different means such as day-to-day contacts, school visits, school inspections, etc. reveals that primary and secondary schools have been promoting STEM education in a positive manner. Despite a varying pace, schools have been implementing STEM education according to their own school context, including organising STEM learning activities in class so that all students have access to STEM education. Furthermore, additional learning activities are provided for students with exceptional potential to further develop their talents in STEM. Since schools are currently provided with resources through various channels and they may flexibly deploy such resources to implement STEM-related measures in light of their context, we have no plan to set up a support fund on STEM education.

(2) and (3) To support the development of STEM education, the EDB renewed the curriculum guides for Science, Technology and Mathematics Education KLAs, as well as the General Studies at the primary level in 2017. The renewal emphasises the holistic curriculum planning and collaboration across KLAs for the purpose of enhancing students' capabilities in integrating and applying knowledge and skills, and stresses the use of student-centred teaching strategies such as hands-on and minds-on investigative activities, design-and-make activities and application of the acquired knowledge in real-life situations. To support schools in developing students' computational thinking skills, the EDB also released the "Computational Thinking – Coding Education: Supplement to the Primary Curriculum" (Supplement) in the end of 2017 for the implementation of coding education at

the primary level. The Supplement is now under review and revision for better implementation of coding education and the relevant work is expected to be completed in 2020.

(4) The EDB has been providing teachers with KLA-based and cross-KLA training on STEM education. From the 2017/18 to 2019/20 school years, we have organised 5 batches of Intensive Training Programme on STEM Education for the school leaders and middle managers of all public sector and DSS primary and secondary schools to further enhance their professional capacity in holistic curriculum planning and leading the teaching force. The last batch of training programmes is scheduled for completion in 2020. STEM Education was one of the programme themes under the Paid Non-local Study Leave Scheme for Secondary School Teachers (i-Journey) in the 2017/18 and 2018/19 school years. The Scheme aims to broaden teachers' professional perspectives and keep them abreast of the latest trend in global education developments so as to inspire their professional ideas in learning and teaching through their participation in specific courses and an overseas school attachment programme lasting for about 3 months. To support primary school teachers in implementing coding education, the EDB has organised training programmes on developing students' capabilities in computational thinking and coding from the 2017/18 to 2019/20 school years. Building on this foundation, we will continue to launch different types of professional training programmes for teachers, covering areas in knowledge enrichment (including knowledge enrichment on information technology), curriculum planning and teaching and assessment practices. Regarding coding education, we will also enhance related training programmes, in particular the application of coding education in different subjects and STEM-related projects at the primary level.

CONTROLLING OFFICER'S REPLY

EDB167

(Question Serial No. 0616)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Starting from the 2016/17 academic year, the Pilot Subsidy Scheme for Students of Professional Part-time Programmes provides a tuition fee subsidy for students admitted to designated professional part-time programmes offered by the Vocational Training Council. Successful applicants will be refunded 60% of the tuition fees of eligible programmes. The Scheme covers programmes in the disciplines of construction, engineering and technology. In this connection, would the Government advise this Committee of the following:

- (1) the respective number of applicants and subsidy recipients, and the amount of funding involved in each of the years since implementation;
- (2) whether the Government will explore the regularisation of the Scheme and enhance the provision of tuition fee subsidy by increasing the rate to 70%, subject to a maximum of \$50,000; and
- (3) whether the Scheme will be extended to cover disciplines in other professional spheres in order to encourage more working adults to upgrade themselves through learning and hence improve their upward mobility?

Asked by: Hon LO Wai-kwok (LegCo internal reference no.: 21)

Reply:

To encourage the public to pursue continuing education, the Government has implemented the Pilot Subsidy Scheme for Students of Professional Part-time Programmes (the Pilot Scheme) to provide tuition fee subsidy for a total of 5 600 working adults in 3 cohorts from the 2016/17 academic year admitted to designated part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology. The amount of subsidy is 60% of the tuition fee capped at \$45,000 per person. The respective number of applicants, subsidy recipients, and the amount of tuition fee

subsidy granted in each of the academic years since the implementation of the Scheme are set out below –

Academic Year	No. of Applicants	No. of Subsidy Recipients #	Tuition Fee Subsidy Granted* (\$ million)
2016/17	1 673	1 550	37.5
2017/18	1 651	1 543	28.3
2018/19	1 725	1 274	12.9

To receive the tuition fee subsidy, applicants must meet the relevant criteria, including the requirement as Hong Kong residents who are lawfully employable in Hong Kong, who have successfully enrolled into a designated part-time programme offered by the VTC for the first time; also, applicants must not have applied for or being granted any other form of Government subsidy or financial assistance or subsidy from their employers for the same programmes. Each applicant may apply for tuition fee refund for not more than two programmes. The tuition fee will be reimbursed by instalments at the end of each term of the programme upon successful completion.

* Figures as at 31 October 2019

The Government has earlier conducted a review on the Pilot Scheme and has decided to continue implementing the Pilot Scheme with an additional funding of \$234 million to provide tuition fee subsidy for another 5 600 students admitted to the above designated part-time programmes offered by the VTC from the 2019/20 to 2021/22 academic years. In addition to programmes that belong to the above-mentioned categories, the scope of the Pilot Scheme will be expanded to include creative industry programmes. It is expected that 2 500 practitioners in the creative industry will receive tuition fee subsidy with the amount of subsidy capped at \$36,000 per person. The funding will be used to meet the payment of tuition fee subsidy and cover the VTC's administrative costs for implementing the Pilot Scheme.

The Task Force on Promotion of Vocational and Professional Education and Training (VPET) submitted its review report to the Government in January 2020, it recommends, among other things, that the Government consider expanding the Pilot Scheme to include students pursuing a wider range of dedicated part-time programmes, with a view to encouraging working adults to pursue higher VPET qualifications. The Government is carefully studying the report and will actively follow up on its recommendations. The Government and the VTC will continue to assess the effectiveness of the Pilot Scheme in a timely manner and decide its way forward (including whether the Pilot Scheme should be regularised, the scope of programmes covered, percentage of tuition fee subsidy, and the maximum amount of subsidy), having regard to the application statistics, programme completion rate, stakeholders' views, etc.

CONTROLLING OFFICER'S REPLY

EDB168

(Question Serial No. 2250)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Would the Education Bureau (EDB) advise on the following:

- (1) the expenditure on managing all vacant school premises in the territory in the 2019/20 school year;
- (2) the estimated expenditure on managing all vacant school premises in the territory for the 2020/21 school year;
- (3) as at February 2020, the number of vacant school premises in the territory managed by the EDB which are earmarked/retained for educational uses; and
- (4) further to 3 above, the plan and progress of reusing the aforesaid vacant school premises. If they are not yet put into use, what are the reasons?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 44)

Reply:

It has all along been the Education Bureau (EDB)'s policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacant school premises, the EDB will assess the VSP's suitability for school or other educational uses having regard to factors including the size, location, physical conditions, etc., of the relevant premises, as well as the educational needs and relevant policy measures. When the EDB confirms that the VSP is no longer required by the EDB for reallocation for school use, the EDB will, in accordance with the Central Clearing House Mechanism, inform the Planning Department (PlanD) and other relevant departments (such as the Lands Department (LandsD) and the Housing Department) for the PlanD's consideration of suitable alternative long-term uses. According to the mechanism, the EDB is allowed to retain VSP for school use. However, if the EDB intends to use VSP for other educational uses, the EDB needs to put forward its

proposed use with justification to the PlanD for assessment and may need to compete with other government departments on use of such VSP. As at end-February 2020, there are 9 VSP under the EDB's purview which are earmarked/retained for school or other educational uses, and the EDB is taking follow-up action on the earmarked uses.

All the VSP under the EDB's purview are earmarked/retained for school or other educational uses, including catering for the anticipated demand for school places, reprovisioning of existing schools to improve their learning and teaching environment, decanting use by schools undergoing in-situ redevelopment or extension works, etc. With the policy objective of putting VSP into gainful use in mind, the EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within the EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, Home Affairs Department, the LandsD, the PlanD and Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

According to the EDB's prevailing school allocation mechanism, once a vacant/to-be-vacant premises or a reserved school site is confirmed to be required for allocation for school use, the EDB will normally invite applications from all eligible organisations in the territory through a School Allocation Exercise (SAE) and make relevant announcement through press release and on its website. The SAE is generally conducted on a competitive basis amongst the applicant bodies. When assessing the applications, quality of education is the prime consideration of the School Allocation Committee comprising official and non-official members. Other factors, including operation track record and condition of existing school premises (where applicable), the school proposal, etc., will also be considered.

The EDB is responsible for the management of VSP located on sites allocated to the EDB, including those that the PlanD has been informed of under the Central Clearing House Mechanism but that the LandsD has requested the EDB to continue the management until the next users have been identified and taken over the land. In 2019-20 and 2020-21, the revised estimated expenditure and estimated expenditure of the EDB for the management of VSP are \$0.86 million and \$1.818 million respectively which mainly include security patrol and inspections, pest control, removal of litter, as well as cleansing and weeding. The increase of around \$0.96 million in the estimate for 2020-21 over 2019-20 is mainly due to the anticipated upward adjustment in the contract price for 2020-21 following a lower than expected actual contract price for the soon to be expired 2019-20 contract. In addition, rising labour costs and the need to enhance pest control works also contribute to an increase in the estimated expenditures.

CONTROLLING OFFICER'S REPLY

EDB169

(Question Serial No. 2269)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Under Matters Requiring Special Attention in 2020-21, it is mentioned that the Bureau will continue to implement measures set out in the Fourth Strategy on Information Technology in Education for promotion of e-learning at schools. In this connection, please advise this Committee of the following:

- (a) What is the progress of the phased provision of wireless network services and other supporting facilities for all public sector schools? What is the expected completion date? What is the expenditure required for completion of the work?
- (b) How many e-textbooks are currently available for schools' adoption? What are the relevant subjects? How many of them are published under the e-Textbook Market Development Scheme?
- (c) In the past year, how many new e-textbooks were made available for schools' adoption? What are the relevant subjects?
- (d) What is the respective number of primary and secondary schools that used e-textbooks for teaching in the 2018/19 and 2019/20 school years? In what subjects that e-textbooks are used for teaching?
- (e) In the past year, what measures did the Government take to encourage various enterprises and organisations to develop more e-textbooks?
- (f) In the past year, what measures did the Government take to encourage schools and teachers to implement e-learning and use e-textbooks? What measures are in place to support schools and teachers in implementing e-teaching, particularly the adoption of electronic resources for students' continuous learning during class suspension?

(g) Will the Government consider conducting a comprehensive review on the effectiveness of current implementation of e-learning in schools, so as to examine the difficulties that such stakeholders as students, teachers, schools and publishers experience in implementing e-learning and developing e-textbooks and take targeted measures to support the implementation of e-learning in schools? And, will the Government consider formulating policies for the long-term promotion of e-learning and setting a clear timetable and targets for improving schools' supporting hardware and software, enhancing teachers' training in e-learning, adjusting teaching philosophies and learning modes, and developing electronic teaching materials, so that there is a clearer direction for development of e-learning among all stakeholders?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 71)

Reply:

(a) Under the Fourth Strategy on Information Technology in Education (ITE4), we have already completed the establishment of WiFi campus for some 1 000 public sector schools in Hong Kong. The ITE4 involves a total non-recurrent funding of \$105 million.

(b) and (c)

There are currently 59 sets of e-textbooks on the Recommended e-Textbook List (eRTL) for schools' adoption, covering Chinese Language, English Language, Mathematics, Putonghua, General Studies and Physical Education for primary levels, and Chinese Language, English Language, Mathematics, Geography, History, Computer Education, Life and Society, and Science for junior secondary levels. Since March 2019, there has been an addition of 2 sets of e-textbooks on English Language for primary levels to the eRTL. Among these 59 sets of e-textbooks, 34 sets were developed under the e-Textbook Market Development Scheme (EMADS).

(d) To continuously enhance various support measures under the ITE4, we have been reviewing the progress and effectiveness of relevant measures by collecting data from schools through different means. For 4 consecutive school years from 2015/16 to 2018/19, the Education Bureau (EDB) conducted annual questionnaire surveys on the use of e-textbooks in schools. Among the school respondents, 292 primary schools and 144 secondary schools purchased and used e-textbooks for one or more subjects in the 2018/19 school year. We have learnt from past questionnaire surveys that the adoption of e-textbooks in schools is becoming more popular. Positive about e-learning, schools generally agree that it is conducive to students' greater learning motivation and better self-directed learning ability. Information on the number of schools using e-textbooks in the 2019/20 school year is not available. At primary levels, e-textbooks are adopted mainly for teaching Chinese Language, English Language, Mathematics and General Studies; whereas at secondary levels, they are adopted mainly for Chinese Language, English Language, Mathematics, Information and Communication Technology, and subjects in the Science Education Key Learning Area (KLA) (e.g. Science at junior secondary levels) and Humanities Education KLA (History, Geography, etc.).

(e) At present, the submission of e-textbooks for review has become a regular practice and there are 3 submission periods each year. e-Textbooks approved under the quality assurance mechanism are listed on the eRTL together with those developed under EMADS for adoption by schools. To create favourable conditions for the development and adoption of e-textbooks, the EDB will continue to communicate regularly with the publishing industry. In addition, a task group on e-textbook development was set up in June 2018 with representatives from textbook publisher associations and the Hong Kong Education City. We have since been maintaining close communication with the publishing industry through meetings and discussions to improve the technical and functional design of e-textbooks, enhance the quality of e-textbooks, and encourage textbook publishers and developers to submit more e-textbooks for review, with a view to expanding the number of e-textbooks on the eRTL and hence offering more choices to schools.

(f) The EDB will continue to strengthen teachers' professional capabilities in using e-textbooks and other e-learning resources in learning and teaching at the right time through professional development programmes, learning communities, school visits, etc. Moreover, we will keep inviting teachers to participate in a learning community set up since September 2018 to try out e-textbooks and share good practices and experiences gathered from the try-outs. We will also provide schools with support in using electronic resources, including e-textbooks, properly in teaching, with a view to motivating schools and teachers to promote e-learning.

(g) The EDB will continue to engage e-textbook developers, publishers, information technology (IT) education experts, educators, school principals and frontline teachers in discussion and exchange on promotion of e-learning and development of e-textbooks. In addition, we conduct school visits and arrange meetings with teachers to get a better understanding of the concerns and considerations of schools and teachers in adopting e-textbooks and offer appropriate support.

In parallel, the EDB launched the ITE4 to enhance schools' IT environment in terms of hardware, resources and teacher training, thus enabling schools to devise school-based plans for practising e-learning in light of their school contexts and development needs, so as to make good use of IT to enhance learning and teaching effectiveness. As part of the EDB's efforts to promote e-learning, schools are encouraged to adopt the right technology to teaching and learning at the right time when considering whole school planning and applying IT to teaching. To continuously enhance various support measures under the ITE4, we have been reviewing the progress and effectiveness of relevant measures through different means such as school visits, questionnaire surveys and focus group meetings.

Ever evolving and diversified in nature, e-learning is an open and flexible mode of learning. There is no so-called best practice or standard that schools should follow. It is therefore a school-based decision as to whether e-learning should be adopted across the board. The EDB will keep in view schools' needs for support in e-learning.

- End -

CONTROLLING OFFICER'S REPLY**EDB170****(Question Serial No. 2273)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (-) Not specifiedControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

The Education Bureau (EDB) and the Home Affairs Bureau (HAB) have jointly implemented the Opening up School Facilities for Promotion of Sports Development Scheme (the Scheme) effective from the 2017/18 school year. In this connection, please advise this Committee of the following:

(a) What was the actual expenditure that the EDB and the HAB spent on implementing the Scheme in the 2018/19 and 2019/20 school years? What is the amount of provision that the EDB and the HAB have earmarked for implementing the Scheme in the 2020/21 school year?

(b) Using the table below, please provide details of the programmes which were held/have been confirmed to be held under the Scheme in the 2018/19 and 2019/20 school years:

School year:					
Name of sports organisation	Name of school (district)	No. of programmes	Type of sports	School facilities hired	No. of participants
Total:	Total:	Total:	Total:	Total:	Total:

(c) To enable more sports organisations to promote sporting culture through hiring available school facilities, what measures have been adopted to establish liaison and facilitate cooperation between sports organisations and schools for participation in the Scheme?

(d) Will the Administration expand the list of eligible participants so that more sports organisations could benefit from the Scheme? If yes, what are the details? If no, what are the reasons?

(e) Given that sports organisations participating in the Scheme are required to take out, on their own, insurance with adequate coverage (including third party risks insurance) for the programmes to be held by them in schools, would the Administration consider collectively purchasing the required insurance for such sports organisations or providing subsidies for them to purchase insurance so as to boost the incentives for sports organisations to participate in the Scheme? If yes, what are the details? If no, what are the reasons?

Asked by: Hon MA Fung-kwok (LegCo internal reference no.: 76)

Reply:

(a) To implement the Opening up School Facilities for Promotion of Sports Development Scheme (the Scheme), the Education Bureau (EDB) and the Home Affairs Bureau (HAB) have provided a total of \$3.29 million and \$5.46 million actual and estimated subsidies to participating schools in the 2018/19 and 2019/20 school years respectively, and will earmark \$6.31 million for the 2020/21 school year. The expenditure will be shared equally between the two bureaux.

(b) The details of programmes held/confirmed to be held/planned to be held under the Scheme in the 2018/19 and 2019/20 school years are set out at Annex.

(c) The EDB issues a circular memorandum annually to all public sector schools (including government schools, aided schools and caput schools) and Direct Subsidy Scheme schools attaching a list of eligible sports organisations provided by the HAB. The HAB has also forwarded the information of school facilities available to the sports organisations for their consideration of hiring the facilities concerned and direct liaison with the schools. The EDB also encourages schools to initiate discussions with different sports organisations on the relevant opening up arrangements according to their school-based sports development needs, with an aim to enhance students' participation in physical activities and enable reviews on sports development in schools.

(d) In the 2019/20 school year, the HAB allowed, for the first time, non-profit-making organisations with ability, experience and a track record of running sports programmes in schools and the community to join the Scheme on a pilot basis. Participating schools are eligible to apply for a grant ranging from \$0.7 million to \$4 million from the Sir David Trench Fund for Recreation for improving or upgrading their sports facilities so as to attract more sports organisations to hire their school facilities. The EDB and the HAB will continue to collect views from participating schools and sports organisations for evaluation and on-going enhancement of the Scheme, with a view to encouraging more schools and sports organisations to participate in the Scheme.

(e) To provide schools with appropriate protection, the EDB has taken out Block Insurance Policy (BIP) for aided schools and caput schools, which currently covers their public liability as the occupier and/or landlord and/or property owner. If a school hires out school premises/facilities to outside organisations for holding activities and a participant gets injured arising from the negligence of the school while using such facilities during the hiring period, it is covered by the Public Liability Insurance section of the BIP. As for the legal liability of outside organisations for accidents caused by their oversight when holding

activities in schools, the BIP for schools is not applicable.

Participating sports organisations of the Scheme are required by the EDB to take out adequate insurance policy for activities held under the Scheme, including third party liability insurance, and include the school as the insured as appropriate to ensure adequate protection for staff, property and facilities in the school premises. Given the scale, type of sports, risks involved and number of participants of the programmes vary, and that the facilities hired are also different, it is more prudent and practical for sports organisations to procure suitable insurance separately according to the nature of the programmes organised.

**Opening up School Facilities for
Promotion of Sports Development Scheme**

Programmes Details

School year: 2018/19 (programmes held)					
Sports organisation	School (District)	No. of programmes	Sport	School facilities hired	No. of participants

CONTROLLING OFFICER'S REPLY**EDB171****(Question Serial No. 1308)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (4) Secondary Education, (6) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

(1) Please provide this Council with the list of career guidance programmes or projects partially or fully funded by the government currently run for non-Chinese speaking students, and for each programme, the content, the amount of the funding, the name of the institution/organisation running the programmes, the duration and specific target group of the programme, the number of schools involved, the number of students enrolled and completed the programme. Please refer to the following table for the format.

Name of programme	Institution/organisation	Target participants	Objectives	Expenditure (\$)	Duration	Number of schools involved	Number of students enrolled	Number of students completed the programme

(2) Does the EDB monitor the effectiveness of these programmes? If yes, please state how and provide the lists of key performance indicators to evaluate the different programmes, and whether final reports are accessible to the public. If no, why not?

(3) Please list out the support, training and resources provided, organized or developed by the EDB to schools in supporting the career guidance of NCS students.

Asked by: Hon MAK Mei-kuen, Alice (LegCo internal reference no.: 45)Reply:

(1) and (3)

The Education Bureau (EDB) has all along been supporting secondary schools to implement Life Planning Education and provide career guidance services, including arranging

diversified life planning activities for students. To prepare non-Chinese speaking (NCS) students for further studies and career pursuits, the EDB commissioned a non-governmental organisation (NGO) to implement a pilot project from the 2015/16 to 2017/18 school years to organise life planning activities and work experience programmes that enabled NCS students to understand their career orientation and learn about different study pathways and jobs. A total of 1 800 NCS students participated in the project and the expenditure involved was about \$6.3 million. The learning resource kit developed in this project has been uploaded onto the Life Planning Information website for teachers' reference and use. Starting from the 2018/19 school year, the EDB has continued to commission an NGO to organise career exploration activities for NCS students, including visits to post-secondary institutions, workplace visits and work experience programmes, etc., to help them make informed choices on further studies and careers, set personal goals and plan their future. The programme has also been providing training courses for teachers and parents of participating schools to enhance their capability to provide life planning education in supporting NCS students. The relevant information is as follows:

Name of programme	Name of institution	Target participants	Objectives	Duration of the programme	Expenditure (\$ million)	No. of schools involved	No. of participating students	No. of students completed the programme
Programme on Providing Life Planning Education Services for NCS Students in Secondary Schools	Caritas – Hong Kong	NCS students attending secondary schools	To assist NCS students to understand their career orientation and learn about different study pathways and jobs through career exploration activities and work experience opportunities	2018/19 school year	0.7	40	320	320
				2019/20 school year	Around 1.3	80*	620*	620*

* Estimated figures

(2) The EDB has adopted various means to evaluate and monitor the effectiveness and progress of the programme, such as conducting regular visits to the participating schools to keep track of the implementation of the activities and listen to the views and needs of teachers and students, as well as conducting review meetings with the service provider and requesting the submission of reports by the service provider.

CONTROLLING OFFICER'S REPLY

EDB172

(Question Serial No. 1309)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Would the Government advise this Committee of:

- (1) the respective numbers of ethnic minority (EM) students enrolled in each member institution of the Vocational Training Council (VTC) in the past 4 academic years, with a breakdown by ethnicity and programme, and the expenditure on EM students;
- (2) the respective numbers of EM graduates from each member institution of the VTC in the past 4 academic years, with a breakdown by ethnicity and programme; and
- (3) the numbers of EM students enrolled in programmes (both solely and not solely for non-Chinese speaking students) offered by the VTC in the past 4 academic years, with a breakdown by ethnicity and programme.

Asked by: Hon MAK Mei-kuen, Alice (LegCo internal reference no.: 46)

Reply:

The Vocational Training Council (VTC) provides programmes designated for non-Chinese speaking (NCS) students as well as programmes not designated for NCS students for local ethnic minority students. The VTC is unable to provide information on the total number of NCS students disaggregated by ethnicity in each member institution and in each programme or the respective amount of subsidy involved. The number of NCS graduates of each member institution of the VTC is also unavailable.

Based on the data available, a breakdown of the number of NCS students by major ethnic groups from the 2016/17 to 2019/20 academic years is given below –

Ethnicity	2016/17 Academic Year	2017/18 Academic Year	2018/19 Academic Year	2019/20 Academic Year (Provisional)
Pakistani	128	118	125	128
Nepalese	103	119	106	94
Filipino	90	95	85	81
Indian	51	55	47	45
Thai	12	14	10	9
Others ^(Note 1)	78	111	103	154

Note 1: Including other ethnic minorities, such as white, Indonesian, Korean, Japanese, and Vietnamese.

Note 2: Students attending programmes of short duration that are also designed for NCS students are not required to provide the VTC with information about their ethnicity.

The number of local NCS students in the academic years from 2016/17 to 2019/20 by programme type is set out below –

Type of Programme	2016/17 Academic Year	2017/18 Academic Year	2018/19 Academic Year	2019/20 Academic Year (Provisional)
Undergraduate Degree	36	45	50	57
Higher Diploma	178	208	201	205
Diploma of Foundation Studies/Foundation Diploma	162	179	127	152
Diploma/Certificate of Vocational Education	86	80	98	97

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the 2016/17, 2017/18, 2018/19 and 2019/20 school years, please provide the following information:

- (a) the total number of students and the number of local non-Chinese speaking (NCS) students who have completed Secondary 6 education;
- (b) the total number of students and the number of local NCS students enrolled in publicly-funded and self-financing programmes awarding a bachelor's degree, higher diploma, associate degree, diploma of foundation studies, Vocational Training Council Diploma of Vocation Education, Vocational Training Council Diploma or Vocational Training Council Certificate (with a breakdown by funding, institution and programme type);
- (c) the average amount of tuition fee that each local NCS student has to pay in order to complete a publicly-funded or self-financing programme awarding a bachelor's degree, higher diploma, associate degree, diploma of foundation studies, Vocational Training Council Diploma of Vocation Education, Vocational Training Council Diploma or Vocational Training Council Certificate (with a breakdown by funding, institution and programme type);
- (d) the average annual salary of local NCS students graduated with a Vocational Training Council Diploma of Vocation Education, Vocational Training Council Diploma or Vocational Training Council Certificate; and if such data are unavailable, whether the Vocational Training Council will conduct a survey to find out; and
- (e) the amount of financial resources allocated to various post-secondary institutions by the Government for promoting Chinese learning among the NCS students (to help them acquire vocational Chinese language skills).

Asked by: Hon MAK Mei-kuen, Alice (LegCo internal reference no.: 47)

Reply:

(a) The number of students attending Secondary 6 in public sector schools and Direct Subsidy Scheme schools offering the local curriculum and the number of non-Chinese speaking (NCS) students attending Secondary 6 in these schools from the 2016/17 to 2019/20 school years are set out at **Annex 1**.

(b) The total number of students enrolled in full-time locally-accredited programmes not funded by the University Grants Committee (UGC) from the 2016/17 to 2019/20 academic years is set out at **Annex 2**. For self-financing institutions, we do not collect information on local NCS students.

The local student intake (including local NCS students) of UGC-funded full-time sub-degree and undergraduate programmes from the 2016/17 to 2019/20 academic years is set out at **Annex 3**. The number of students and NCS students intake of full-time and part-time subsidised programmes offered by the Vocational Training Council (VTC) from the 2016/17 to 2019/20 academic years is set out at **Annex 4** (with figures covering both local and non-local NCS students).

(c) The same level of tuition fee applies to all local students pursuing publicly-funded programmes, regardless of whether they are NCS students. The tuition fees for full-time publicly-funded programmes in the 2019/20 academic year are as follows:-

Type of Programme	Annual Tuition Fees in the 2019/20 Academic Year
Undergraduate	\$42,100
Sub-degree#	\$15,040 - \$31,575
Diploma of Foundation Studies	\$20,500
Diploma of Vocational Education*	\$20,500

The tuition fees for UGC-funded programmes at sub-degree level are pegged at 75% of those at degree level, except for those offered by the Education University of Hong Kong, which currently charges each student \$15,040 per year for most of its programmes.

* Secondary 3 to 5 school leavers enrolled in Diploma of Vocational Education programmes are exempted from paying tuition fees provided that they have not yet completed all 12 years of free education.

The annual tuition fees for self-financing programmes are as follows –

Type of Programme	Annual Tuition Fees in the 2019/20 Academic Year
Undergraduate (including Top-up Degree)	\$54,900 - \$298,775
Sub-degree (including Associate Degree and Higher Diploma)	\$42,000 - \$95,540
Diploma of Foundation Studies	\$27,600
Diploma of Vocational Education	N/A (Note)

Note: Self-financing Diploma of Vocational Education programmes are not offered by the VTC.

(d) The VTC does not have information on the average annual salary of local NCS graduates. Currently, the VTC conducts annual graduate surveys to collect information such as the annual salary level of local graduates (including NCS graduates). The survey results are not broken down by the graduates' race or mother tongue. Currently, graduates participating in the surveys are also not required to reveal their ethnicity to the VTC. To avoid unnecessary misunderstanding, the VTC currently has no plan to collect such information about NCS graduates.

(e) Post-secondary institutions enjoy a high level of autonomy. They can decide how the block grant or recurrent subvention provided by the Government (if any) is to be utilised within the subvention ambit, including how to cater for the diverse learning needs of different types of students. Hence, we are not able to provide the actual amount of expenditure on supporting these students in Chinese learning.

**Number of students and NCS students Attending Secondary 6
in Public Sector Schools and
Direct Subsidy Scheme Schools Offering the Local Curriculum
from the 2016/17 to 2019/20 School Years**

	2016/17 School Year	2017/18 School Year	2018/19 School Year	2019/20 School Year
No. of Secondary 6 Students ^{Note}	51 844	51 535	47 998	45 687
No. of NCS Students Attending Secondary 6	1 186	1 317	1 218	1 334

Notes

1. Figures refer to the number of students attending Secondary 6 in the specified school year. The EDB does not have complete data on Secondary 6 graduates.
2. Figures refer to the position as at mid-September of the respective school years.
3. Figures include public sector and Direct Subsidy Scheme secondary schools offering the local curriculum, but not special schools.

CONTROLLING OFFICER'S REPLY

EDB174

(Question Serial No. 2203)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In respect of using Putonghua as the medium of instruction for teaching the Chinese Language Subject (PMIC), please advise this Committee of:

- (1) the number of aided primary and secondary schools adopting PMIC, and their respective percentages against the total number of aided primary and secondary schools in the territory in the past 3 years;
- (2) the number of non-Chinese speaking (NCS) students in schools adopting PMIC in the past 3 years disaggregated by home language;
- (3) the measures that were taken to support NCS students in schools adopting PMIC in the 2019/20 school year and the expenditures involved;
- (4) whether the Bureau will conduct a comprehensive review of the current implementation of PMIC policy as some academics and members of the education sector have pointed out that PMIC is not very effective in enhancing students' competence in Chinese; if yes, of the details; if not, of the reasons;
- (5) the number of aided primary and secondary schools that have adopted PMIC reverting back to using Cantonese as medium of instruction for teaching the Chinese Language Subject in the past 3 years.

Asked by: Hon MO Claudia (LegCo internal reference no.: 32)

Reply:

- (1), (2)
and (5) Whether to use Putonghua as the medium of instruction for teaching the Chinese Language Subject (PMIC) is a school-based policy. Primary and secondary schools may make decisions and arrangements with regard to their own circumstances. As the number of schools adopting PMIC varies every year, we have not kept track of such information, and do not have a breakdown of the number of students (including non-Chinese speaking (NCS) and ethnic minority students) by the medium of instruction (MOI) for teaching the Chinese Language subject.
- (3) Schools may draw on the additional resources provided by the Education Bureau to help NCS students learn Chinese Language, and there is no provision earmarked for NCS students' learning of Chinese Language in Putonghua.
- (4) Adopting PMIC is a decision driven by school-based language policy. Schools can choose a suitable MOI for teaching the Chinese Language curriculum based on their professional considerations. Schools may decide whether or not to adopt PMIC at certain levels/in specific classes having regard to their own circumstances, such as readiness of teachers, standards of students, language environment of the school, curriculum planning, and availability of learning and teaching support. Since the effectiveness of PMIC is affected by many variables (including teachers' capability of using Putonghua, the language environment of schools and the social circles of students), it would be difficult for us to draw a simple conclusion as to whether PMIC can or cannot enhance the effectiveness of learning.

Question:

The Government indicates that it will “continue to improve the learning and teaching of the English Language so as to lay a solid foundation for students’ diversified needs of English learning in future”. In this connection, please advise this Committee:

- (1) of the measures implemented in the past 5 years and this year to improve students’ English proficiency, and the expenditures involved;
- (2) whether the Administration has assessed the effectiveness of various measures implemented to improve students’ English proficiency; if yes, of the details; if no, of the reasons?
- (3) whether the Administration will raise students’ proficiency and competence in English for everyday life so as to enhance their competitiveness in the international arena, and allocate additional resources to schools for training local teachers and supporting schools in enhancing English Language education.

Asked by: Hon MO Claudia (LegCo internal reference no.: 59)

Reply:

We have been implementing various measures for improving the learning and teaching of English Language in primary and secondary schools. The expenditure involved for implementing such measures in the past 5 years (i.e. 2015-16, 2016-17, 2017-18, 2018-19 and 2019-20 financial years) is \$794.24 million (of which \$25.74 million is from the Language Fund), \$838.35 million (of which \$27.7 million is from the Language Fund), \$883.29 million (of which \$44.31 million is from the Language Fund), \$940.91 million (of which \$71.97 million is from the Language Fund) and \$811.5 million (of which \$76.01 million is from the Language Fund) respectively. In the 2020-21 financial year, the provision is \$1.03278 billion, of which \$51.19 million is from the Language Fund. Details of the support measures are tabulated as follows:

No.	Name of Project	Details
A. Grants to schools		
*1.	Grant Scheme on Promoting Effective English Language Learning in Primary Schools	To help schools develop school-based measures to further promote English language learning.
B. School-based support		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing teachers' professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for Language Teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for 1 year or 3 years upon graduation, depending on the type of programmes pursued.

3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4.	Resources for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning and teaching.
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, each eligible public sector primary school operating no less than 6 classes (including special schools (primary section) offering the mainstream curriculum and schools for children with intellectual disabilities (primary section) offering an appropriate school-based English Language curriculum) is provided with a NET post.
2.	The Enhanced Native-speaking English Teacher (NET) Scheme in Secondary Schools	NETs collaborate with local English teachers to enhance the effectiveness of English learning and teaching by providing a more favourable English language learning environment and using linguistically and culturally authentic materials and resources. In general, an eligible public sector secondary school (including special schools (secondary section) offering the mainstream curriculum and schools for children with intellectual disabilities (secondary section) offering an appropriate school-based English Language curriculum) is provided with a NET post.
*3.	English Alliance	To provide primary and secondary school students with pleasurable experiences in learning English for developing their interest in and appreciation of English and boosting their confidence in using the language through a series of educational, creative, interesting and interactive English programmes.
*4.	Sponsorship Project	To engage community partners to organise language-related events or competitions in the community.

* Initiatives funded by the Language Fund

** The initiative is funded out of Head 173 Student Financial Assistance Agency

Ongoing evaluations of the support measures are conducted through various means, including curriculum development visits to and lesson observation in participating schools, questionnaire surveys and/or focus group interviews with participants, quality assurance meetings with service providers, and self-evaluations and submission of progress and final reports by grantees. Expenses arising from the evaluations are covered by the recurrent expenditure or the approved expenditure for initiatives funded by the Language Fund. The Education Bureau will continue providing resources for schools to train local teachers and support schools in promoting English Language education, so as to raise students' English standard and proficiency to enhance their international competitiveness.

Asked by: Hon MO Claudia (LegCo internal reference no.: 61)

Reply:

- (a) According to the information collected through the annual Enrolment Survey, the number of students and the number of non-Chinese speaking (NCS) students studying in kindergartens, public sector and Direct Subsidy Scheme (DSS) primary and secondary schools by class level from the 2017/18 to 2019/20 school years are tabulated at Annex A. The number of ethnic minority students studying in kindergartens and the number of NCS ethnic minority students studying in public sector and DSS primary and secondary schools by class level from the 2017/18 to 2019/20 school years are tabulated at Annex B. The number of NCS students provided in Annex A and the number of NCS ethnic minority students provided in Annex B are not comparable since definition of NCS students is based on the language spoken at home (instead of the ethnicity of the students).
- (b) The number of public sector and DSS primary and secondary schools and the number of public sector and DSS primary and secondary schools with NCS students by district in the 2019/20 school year are tabulated at Annex C.
- (c) The number of students and the number of NCS students studying in kindergartens and public sector and DSS primary and secondary schools by district and class level in the 2019/20 school year are tabulated at Annex D.

**Number of students and number of non-Chinese speaking (NCS) students

CONTROLLING OFFICER'S REPLY

EDB177

(Question Serial No. 2327)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Will the Government inform this Council of:

- (a) School years from 2015/16 to 2019/20, the number of NCS students in public primary and secondary schools who have previously attended kindergarten in Hong Kong, and the number of NCS primary and secondary school students locally born. If the EDB does not collect such information, please explain why.
- (b) According to the questionnaire surveys on the Territory-wide System Assessment, and the annual plans submitted by primary and secondary schools with NCS students (i.e. those provided with additional funding), how many NCS students are locally born and have previously attended kindergarten in Hong Kong? Please tabulate the answer:

Source of information	No. of schools involved	No. of NCS students involved	No. of NCS students who have previously attended kindergarten in Hong Kong	No. of NCS students who are locally born	No. of NCS students who resides in HK less than 3 years

Asked by: Hon MO Claudia (LegCo internal reference no.: 62)

Reply:

- (a) Currently, the Education Bureau (EDB) collects information of all primary and secondary students in public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum through the Enrolment Survey, which is conducted to maintain and update basic information of these students. The Survey does not collect information on whether the students (including non-Chinese speaking (NCS) students) have attended kindergartens in Hong Kong and whether they were born in Hong Kong. EDB will collect other information on a need basis to inform the formulation and review of specific policies or measures as appropriate.
- (b) To help NCS students overcome the difficulties in learning Chinese as a second language, schools with 10 or more NCS students are currently provided with an additional funding ranging from \$0.8 million to \$1.5 million per year. These schools should submit annual plans on support to be provided for NCS students in learning Chinese. In planning the school-based support measures, these schools will also take into account whether their NCS students have attended kindergartens in Hong Kong. In the 2018/19 school year, 127 primary schools and 114 secondary schools admitted 10 or more NCS students, in which the number of NCS students were 9 192 and 8 811 respectively. According to the annual plans submitted by the schools concerned, about 80% and 40% of their NCS students have attended local kindergartens respectively. Information on the annual plans for the 2019/20 school year is not available as it is still being compiled.

EDB annually commissions an independent research institute to conduct a research study on “Students’ Learning Attitude and Motivation Questionnaire Survey” (research study) alongside the Territory-wide System Assessment (TSA), with a view to identifying the non-academic factors (such as support measures provided by schools) that affect students’ (including NCS students) learning and performances in TSA in that particular year. Participation in the research study is voluntary, and it does not maintain statistics at territory-wide level as to whether NCS students have attended local kindergartens or whether they were born in Hong Kong. As such, EDB is not able to provide the information as requested.

- End -

CONTROLLING OFFICER'S REPLY**EDB178****(Question Serial No. 2328)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

The Education Bureau has been using Chinese Language Assessment Tools to determine NCS students' Chinese Language level and requiring schools to report NCS students' performance at year end.

Will the government inform this council of:

- (a) By type of assessment tools, the name of institution which developed the tool, the number of schools using the tool, the number of students using the tool, frequency of using the tool, and the expenditure involved;
- (b) The number of schools with 1 to 9 NCS students, 10 or more NCS students, the number of schools receiving funding under the Chinese as a Second Language Learning Framework, number of schools using assessment tools and percentage of schools using assessment tools out of all schools receiving funding in the year 2015/16 to 2019/20:

	Schools with 10 or more NCS students			Schools with 1-9 NCS students		
	No. of schools with NCS students	No. of schools receiving funding	No. of schools using assessment tools	No. of schools with NCS students	No. of schools receiving funding	No. of schools using assessment tools
2015/16						
2016/17						
2017/18						
2018/19						
2019/20						

- (c) Please state the levels of competence in Chinese that NCS students have attained since the implementation of the “Chinese Language Curriculum Second Language Learning Framework” as reported by schools, by tabulating their performance under different learning stages disaggregated by reading, writing, listening and speaking skills from school years 2014/15 to 2019/20?

	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
No. of secondary 1-3 NCS students accessed						
No. of secondary 1-3 NCS students reached Key Stage III						
No. of primary 4-6 NCS students assessed						
No. of primary 4-6 NCS students reached Key Stage II						
No. of primary 1-3 NCS students assessed						
No. of primary 1-3 NCS students reached Key Stage I						
No. of NCS students assessed prior to primary one						
No. of NCS students reached Entry Stage						

Asked by: Hon MO Claudia (LegCo internal reference no.: 63)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students’ learning of the Chinese language, including the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. The “Learning Framework”, designed on the basis of the mainstream Chinese Language curriculum, provides steps and methods for learning and teaching, and assessment for teachers’ reference in teaching and making flexible adaptations according to the learning progress of NCS students. Teachers can make reference to the “Learning Framework”, which is not independent of the mainstream Chinese Language curriculum, to set learning targets, learning progress and expected learning outcomes on listening, speaking, reading and writing, as well as adapt and develop teaching materials at the school-based level for

NCS students with different starting points and abilities, so as to help these second language learners to use a “small-step” approach to learn Chinese progressively.

Schools are provided with practical tools and steps, as well as reference materials on learning and teaching, including the “Chinese Language Assessment Tools for NCS Students” (“Assessment Tools”). The Assessment Tools, which are jointly developed by EDB, language experts and teachers, are linked with the expected learning outcomes across different levels of the “Learning Framework” to help teachers grasp the learning progress of NCS students and make use of the “Learning Framework” to plan the school-based curriculum and adjust teaching strategies. The assessment tasks under the “Assessment Tools” cover the entry stage, Key Stage 1 (Primary 1-3), Key Stage 2 (Primary 4-6), Key Stage 3 (Secondary 1-3) and Key Stage 4 (Secondary 4-6). The tasks in each stage are designed in conjunction with the expected learning outcomes across different levels of the “Learning Framework”, so as to assist teachers in teaching and providing assessment feedback to NCS students. Aligned with curriculum planning, teaching progression and NCS students’ learning needs, teachers may adopt a school-based approach in using the “Assessment Tools” to assess NCS students’ learning progress over time, provide timely feedback on learning and set progressive learning targets for their NCS students. Teachers may use part or all of the questions in the exemplars and make adaptation to the questions as appropriate according to the needs of NCS students, and administer the assessment at the mode and time as schools consider appropriate. The frequency of assessments conducted and whether adaptation to the questions is made vary across schools or even among individuals. Schools are not required to submit information about the frequency of assessments they have conducted. As the relevant manpower resources and expenditure for development of the “Assessment Tools” are subsumed under the overall expenditure of EDB, a breakdown of the expenditure in this regard is not available.

Starting from the 2014/15 school years, all public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. From the 2015/16 to 2019/20 school years, the respective number of schools is 197, 216, 228, 241 and 252, and the respective number of NCS students is 16 450, 17 015, 17 681, 18 003 and 18 499. These schools are required to, based on the results of the “Assessment Tools”, adjust the learning targets and teaching strategies with reference to the learning progress so described in the “Learning Framework”, as well as the learning performance and progress of their NCS students, and adopt diversified intensive learning and teaching modes as appropriate to enhance the effectiveness of NCS students in learning the Chinese language. All the schools above adopt a school-based approach in using the “Assessment Tools” to assess NCS students’ learning progress annually, and accordingly arrange diversified intensive learning and teaching modes as appropriate, and adapt the school-based curriculum as well as the learning and teaching materials and progress. The number of NCS students who have attained certain levels at different learning stages is not available. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. From the 2015/16 to 2019/20 school years, the respective number of schools is 410, 382, 387, 391

and 380. Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. We encourage these schools to optimise the use of their immersed Chinese language environment, work out holistic plans that dovetail with existing measures and resources in light of their school-based circumstances, as well as deploy resources flexibly and apply for additional funding as appropriate to support their NCS students in mastering the Chinese language. From the 2015/16 to 2019/20 school years, 83, 179, 213, 216 and 212 (provisional) schools were provided with an additional funding to offer after-school Chinese language support programmes respectively. Over the past 5 years, some schools that admitted a relatively small number of NCS students did not submit funding applications to EDB, and hence these schools were not provided with the additional funding. EDB will continue to encourage schools that admitted NCS students to adopt the “Assessment Tools” having regard to NCS students’ needs, assess the learning performance of their NCS students on an ongoing basis and provide these students with appropriate support.

Currently, schools make use of the “Assessment Tools” to assess their NCS students’ learning progress on their own. Inevitably, differences may arise among schools and there is also a lack of objective comparison of the performance of students in different schools. Therefore, EDB is exploring how to assess NCS students’ learning progress in Chinese at system level, with a view to providing feedback to schools and enhance related support measures. Moreover, we will look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning. Nevertheless, the learning effectiveness of NCS students, after all, is affected by other factors (such as parents’ expectation and cooperation, students’ learning attitude).

CONTROLLING OFFICER'S REPLY**EDB179****(Question Serial No. 2329)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

The Government has previously mentioned that that the University of Hong Kong has been conducting analysis on NCS students' overall learning performance in Chinese by making reference to the results based on the assessment tools since the end of 2014/15 school year. Will the Government share with this Council:

- the total expenditure of the service provided by the University of Hong Kong;
- the report of the analysis to date; if the report is not available for the public, why not?
- the indicators to evaluate the effectiveness of the Learning Framework; if no indicators were set, why not?
- information collected by the University of Hong Kong on the following:

	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20
Number of schools with NCS funding						
No. of NCS students analysed						
No. of NCS students who bridged to mainstream Chinese class						
No. of Secondary 1-3 NCS students who reached Key Stage III						
No. of Primary 4-6 NCS students who reached Key Stage II						
No. of Primary 1-3 NCS students who reached Key Stage I						

No. of NCS students who reached Entry Stage						
Total expenditure involved						

(e) EDB stated previously that they will “continue to collect views from various stakeholders” about the effectiveness of the Learning Framework and the supporting materials. Please state the number of groups or individuals consulted, titles of individuals, and method of collection (e.g. meetings, submission papers, etc.)

Asked by: Hon MO Claudia (LegCo internal reference no.: 64)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students’ learning of the Chinese language, including the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run.

From the 2015/16 to 2019/20 school years, the respective number of schools is 197, 216, 228, 241 and 252. Schools are also provided with practical tools and steps, as well as reference materials on learning and teaching, including the “Chinese Language Assessment Tools for NCS Students” (“Assessment Tools”). The assessment tasks under the “Assessment Tools” cover the entry stage, Key Stage 1 (Primary 1-3), Key Stage 2 (Primary 4-6), Key Stage 3 (Secondary 1-3) and Key Stage 4 (Secondary 4-6). The tasks in each stage are designed in conjunction with the expected learning outcomes across different levels of the “Learning Framework”, so as to assist teachers in teaching and providing assessment feedback to NCS students. Aligned with curriculum planning, teaching progression and NCS students’ learning needs, teachers may adopt a school-based approach in using the “Assessment Tools” to assess NCS students’ learning progress over time, provide timely feedback on learning and set progressive learning targets for their NCS students.

EDB has commissioned a tertiary institution to conduct an analysis on NCS students’ overall learning performance in Chinese reading and writing annually by making reference to the results based on the “Assessment Tools”, so as to understand the overall learning performance of NCS students’ learning of the Chinese language. Such analysis does not cover the number of NCS students who have bridged over to mainstream Chinese Language classes or who have attained certain levels at different learning stages. According to the

sampling methodology adopted, the marked scripts on each of reading (or character recognition) and writing (or character writing), broadly categorised as high, medium, and low in terms of performance by individual schools based on school-based criteria, are collected from all schools provided with the additional funding, so that the findings would cover NCS students' learning at different grade levels and Chinese proficiency as far as practicable. The sample size has been expanded from 5% of the total number of NCS students admitted to individual schools each year or not less than 6 scripts in the 2014/15 and 2015/16 school years (a total of some 2 000 scripts per year) to 8% or not less than 6 scripts from the 2016/17 school year (a total of some 4 000 scripts per year) onwards. Subject to the coverage of the service concerned, the annual expenditure ranges from about \$0.4 million to \$0.8 million from the 2014/15 to 2018/19 school years.

According to the findings of the analysis in each of the school years from the 2014/15 to 2018/19 school years, the overall performance in reading and writing of NCS students studying at the same grade level varied considerably as their duration of and pace in learning Chinese were different. In brief, NCS students (in particular those currently studying at junior primary levels) are generally able to learn Chinese more effectively and are expected to bridge over to mainstream Chinese Language classes in due course. The findings of the analysis in the 2018/19 school year showed that the overall performance of primary NCS students at corresponding learning stages improved steadily in areas of character recognition/reading and character writing/writing. Besides, the performance of primary students in Chinese reading and writing improved along with the promotion in grade levels. At the secondary levels, students' improvement was not as remarkable as that at the primary levels. While NCS students at junior secondary levels made some progress, there was no significant improvement in respect of NCS students at senior secondary levels. Nevertheless, it is neither appropriate nor possible to assess the effectiveness of NCS students' learning of the Chinese language solely based on the results of the "Assessment Tools". In fact, individual NCS students' learning progress in Chinese may vary due to various factors. Teachers need to monitor NCS students' learning progress on an ongoing basis and provide NCS students with the necessary support and counselling in a timely manner, so as to cater for their diversified learning needs and changes in learning progress, if any, and facilitate their articulation to multiple pathways. Such analysis aims to assist schools provided with the additional funding to have a better understanding of the overall performance of NCS students in reading and writing to facilitate schools' planning of school-based curriculum and support measures. To avoid exerting unnecessary pressure on students/schools, we will not release the report which contains detailed assessment data. Every year, we organise sharing sessions to share with schools the findings of the analysis, with a view to helping schools enhance the learning and teaching strategies for more effective Chinese learning of NCS students.

The existing education measure to enhance the support for NCS students in learning Chinese is a unique attempt of Hong Kong. It needs to be refined where necessary and it takes time for such measure to take root. Besides, we understand that the learning effectiveness of NCS students is affected by other factors (such as students' learning attitude, parents' expectation and cooperation). It is therefore neither appropriate nor possible to evaluate the effectiveness of the measure solely based on the indicator of its capability to enhance the Chinese proficiency of NCS students. EDB has consulted teachers and language experts when formulating the "Learning Framework", and will continue to collect views from various stakeholders on the "Learning Framework" and

relevant support measures. At the curriculum level, EDB has, through school visits and focus group interviews, solicited teachers' views on related curriculum documents, with a view to introducing refinements that could make the descriptions of learning outcomes under the "Learning Framework" more precise and concrete. The revised "Learning Framework" was uploaded onto the "Chinese Language Curriculum Second Language Learning Framework Dedicated Homepage" in January 2019 for teachers' reference and use. In parallel, the relevant assessment tools and teaching resources have been updated accordingly. EDB will continue to collect information to evaluate the effectiveness of its support measures and make refinements as necessary. In this regard, we will look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, language proficiency and learning motivation of NCS students and other contributing factors for effective learning.

- End -

CONTROLLING OFFICER'S REPLY**EDB180****(Question Serial No. 3228)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

The Education Bureau said in its Circular No. 8/2014 (EDB(EC)5/2041/07) that schools should also arrange their NCS students to sit for the Territory-wide System Assessment (Chinese) with a view to collecting relevant objective data on their basic competencies for research purposes, which would in turn help review the implementation of the "Learning Framework". Hence, the attainment rate of non-Chinese speaking (NCS) students in Territory-wide System Assessment (TSA) and Basic Competency Assessments (BCA) is a crucial indicator of the success of the Chinese as a Second Language Learning Framework. Will the government inform this Council of:

- (a) the numbers of non-Chinese speaking students who have taken the P.3, P.6 and S.3 BCA in 2017/2018, 2018/19 and 2019/20, and their percentage share of the total number of non-Chinese speaking students in that grade level, as tabulated in the table below:

BCA	Number of schools with NCS students participated in BCA	Number of NCS students	Total number of NCS students in the grade level	Percentage of NCS students in the grade level who have taken this test (BCA)
P3 Chinese language				
P3 English language				
P3 Mathematics				
P6 Chinese language				

P6 English language				
P6 Mathematics				
S3 Chinese language				
S3 English language				
S3 Mathematics				

- (b) the total numbers of students who have taken the P.3, P.6 and S.3 BCA in 2017/2018, 2018/19 and 2019/20, and their percentage share of the total number of students in that grade level, as tabulated in the table below:

	Number of schools participated in BCA	Number of students	Total number of students in the grade level	Percentage of students in the grade level who have taken this test (BCA)
P3 Chinese language				
P3 English language				
P3 Mathematics				
P6 Chinese language				
P6 English language				
P6 Mathematics				
S3 Chinese language				
S3 English language				
S3 Mathematics				

- (c) among the students referred to in (a) and (b), the total number and the number of NCS students attaining Basic Competency in the P.3, P.6 and the S.3 TSA or BCA respectively. (This data is important to assess the quality of education for NCS and all students; hence, there is no labelling effect.)

Asked by: Hon MO Claudia (LegCo internal reference no.: 65)

Reply:

Starting from the 2017/18 school year, the Primary 3 (P3) Territory-wide System Assessment (TSA) has been conducted with a low-stake approach of “no student names, no school names, no collection of reports and selection of participants by sampling” and the Education Bureau (EDB) has since then not maintained detailed information about the number of students or schools taking part in the P3 TSA. The Hong Kong Examinations and Assessment Authority (HKEAA) will separately sample a certain number of non-Chinese speaking (NCS) students for the assessment to meet statistical requirements. The information requested in different parts of the questions is as follows:-

(a)

The total number of P3, Primary 6 (P6) and Secondary 3 (S3) NCS students* in the 2017/18 school year was 1 979, 1 590 and 1 681 respectively. In the same school year, the number of P6 Δ and S3 NCS students# participating in the TSA was 192 and 1 499 respectively, representing 12.1% and 89.2% of the total number of students in the respective class levels. As for the number of schools, there were 118 secondary schools with S3 NCS students participating in the TSA in the 2017/18 school year.

The total number of P3, P6 and S3 NCS students in the 2018/19 school year was 2 059, 1 821 and 1 630 respectively, and the number of P6 and S3 NCS students participating in the TSA in the same year was 1 499 and 1 521 respectively, representing 82.3% and 93.3% of the total number of students in the respective class levels. As for the number of schools, there were 132 primary schools and 124 secondary schools with P6 and S3 NCS students participating in the TSA in the 2018/19 school year.

The total number of P3, P6 and S3 NCS students in the 2019/20 school year was 2 135, 1 850 and 1 676 respectively. In view of the development of the latest situation of COVID-19, the EDB has announced the suspension of TSA at all class levels in the 2019/20 school year. Therefore, other related figures are unavailable.

* NCS students cover those students who are non-Chinese speaking based on the spoken language at home.

These NCS students were provided with accommodation measures according to their needs as requested by their schools when participating in the TSA

Δ Since 2012, the P6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

(b)

The total number of P3, P6 and S3 students in the 2017/18 school year was 55 368, 50 602 and 50 536 respectively, and about 2 500 P6 Δ students and 50 000 S3 students participated in the TSA. As for the number of schools, there were 447 secondary schools participating in the TSA in the 2017/18 school year.

The total number of P3, P6 and S3 students in the 2018/19 school year was 56 315, 54 102 and 49 970 respectively, and about 52 000 P6 students and 50 000 S3 students participated in the TSA. As for the number of schools, there were 504 primary schools and 445 secondary schools participating in the TSA in the 2018/19 school year.

The total number of P3, P6 and S3 students in the 2019/20 school year was 59 789, 55 887 and 50 859 respectively. In view of the development of the latest situation of COVID-19, the EDB has announced the suspension of TSA at all class levels in the 2019/20 school year. Therefore, other related figures are unavailable.

Δ Since 2012, the P6 TSA has been conducted in odd-numbered years while schools may participate in the assessment on a voluntary basis in even-numbered years.

(c)

In the 2017/18 school year, the percentage of P3 students achieving Basic Competencies (BCs) in Chinese Language, English Language and Mathematics was 86.7%, 80.8% and 88.0% respectively. In the same school year, the percentage of S3 students achieving BCs in the above-mentioned subjects was 76.9%, 69.8% and 80.0% respectively. The 2017/18 school year is an even-numbered year and participation in the P6 TSA was on a voluntary basis, the HKEAA thus did not provide territory-wide data.

In the 2018/19 school year, the percentage of P3 students achieving BCs in Chinese Language, English Language and Mathematics was 85.8%, 79.8% and 87.7% respectively. In the same school year, the percentage of P6 students achieving BCs in the above-mentioned subjects was 77.9%, 72.8% and 84.2% respectively. For S3, the percentage of students achieving BCs in the above-mentioned subjects was 76.4%, 69.5% and 79.6% respectively.

The Basic Competency Descriptors under the TSA are applicable to students in general rather than a specific group such as NCS students. TSA does not provide the performance data of individual students. The TSA data should not be used alone to interpret NCS students' learning performances in the related subjects given the comparatively varied learner diversity.

CONTROLLING OFFICER'S REPLY**EDB181****(Question Serial No. 3229)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

The Education Bureau allocates funding to schools admitting 10 or more non-Chinese speaking (NCS) students ranging from \$800,000 to \$1,500,000 per year to implement the "Chinese Language Curriculum Second Language Learning Framework". Schools can adopt different modes like pull-out teaching, split-class/group learning, after-school consolidation, increasing Chinese Language lesson time, cross-curricular learning, allocating more teachers or teaching assistants to a class, etc. Schools with less than 10 students may apply for an additional funding of \$50,000 to offer after-school support programmes in Chinese learning. Schools with additional funding are required to submit detailed reports at the end of each school year.

In this connection, will the government inform this Council of:

(a) Number of schools and additional funding received according to the funding model by government school, aided school, direct subsidy school in the school years 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20:

School year	No. of NCS Students	Total funding provided (primary schools)	Total no. of primary schools (with and without receiving funding)	No. of Primary schools receiving the additional funding				Total funding provided (secondary schools)	Total no. of secondary schools (with and without receiving funding)	No. of Secondary schools receiving the additional funding			
				Government school	Aided school	Direct subsidy school	Total no. of school			Government school	Aided school	Direct subsidy school	Total no. of school
2015/16	None												
	Less than 10												
	10 – 25												
	26 – 50												
	51 – 75												
	76 – 90												
	91 or more												
2016/17	None												

	Less than 10												
	10 – 25												
	26 – 50												
	51 – 75												
	76 – 90												
	91 or more												
2017/18	None												
	Less than 10												
	10 – 25												
	26 – 50												
	51 – 75												
	76 – 90												
2018/19	None												
	Less than 10												
	10 – 25												
	26 – 50												
	51 – 75												
	76 – 90												
2019/20	None												
	Less than 10												
	10 – 25												
	26 – 50												
	51 – 75												
	76 – 90												
	91 or more												

(b) In 2019/20, the number of schools without NCS students by types of school, i.e. government school, aided school, direct subsidy school.

(c) What are the measures ensuring the accountability and transparency of the funding? Is the evaluation report accessible to the public? If yes, please provide the link to these reports; if no, why not.

(d) The number of NCS students in each stage according to the Learning Framework.

(e) The number of kindergarten, primary and secondary schools with 1 to 9 NCS students; those that received NCS funding, and the amount of funding involved disaggregated by government school, aided school, direct subsidy school in the school years 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20.

(f) Use of the funding with details as follows in 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20:

Funding use	Actual expenditure	Number of primary schools	Number of secondary schools
Hiring Chinese Language teachers whose main duty is teaching Chinese language to NCS students			
Hiring Chinese Language teachers whose main duty is general teaching			
Hiring Chinese Language teachers whose main duty is developing school-based curricula/teaching resources			
Hiring teaching assistants whose main duty is providing in-class support to NCS students and supporting teachers' teaching in Chinese Language lessons			
Hiring teaching assistants whose main duty is assisting teachers in designing teaching activities and creating teaching resources (including e-learning resources)			
Hiring teaching assistants/ teachers whose main duty is after-school support.			
Hiring teaching assistants whose main duty is supporting NCS students during recess or after school.			
Hiring teaching assistants whose main duty is assisting teachers in recruiting teaching assistants who are mainly responsible for the liaison with the parents of NCS students.			
Hiring ethnic minority assistants whose main duty is communicating with the parents of NCS students, translating school notices, assisting in explaining school policies and administrative arrangements, etc.			
Hiring ethnic minority assistants whose main duty is collaborating with teachers in Chinese Language lessons.			
Hiring ethnic minority assistants whose main duty is helping teachers organise inclusion activities.			
Purchasing teaching resources			
Procuring professional services			
Major initiatives to create an inclusive learning environment			
Others (please specify)			

(g) Tabulate the various types of support measures for NCS students and the respective number of schools finding such mode effective from 2015/16 to 2019/20 school years.

Intensive learning and teaching mode	Number of primary schools adopting such mode	Number of primary schools finding such mode (most) effective	Number of secondary schools adopting such mode	Number of secondary schools finding such mode (most) effective
Pull-out teaching				
Split-class/ group learning				
After-school consolidation[1]				
Increasing Chinese Language lesson time				
Cross-curricular learning				
Allocating more teachers or teaching assistants to a class				
Others (please specify)				

[1] Excluding after-school University Student Support Programmes

- (a) Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to

offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. The number of schools provided with and not provided with the above-mentioned funding (with breakdown by school funding mode and number of NCS students ranging from “0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or more”) and the expenditure from the 2015/16 to 2019/20 school years are tabulated at [Annex A](#).

- (b) In the 2019/20 school year, the number of government, aided and DSS schools with no NCS students is tabulated at [Annex A](#).
- (c) The above-mentioned additional funding is provided to eligible schools for specific purposes, i.e. supporting NCS students’ learning of the Chinese language and creating an inclusive learning environment in schools. In this connection, EDB has issued a circular to schools elucidating the policy intent of and guidelines on the use of the funding. In each school year, schools provided with the additional funding are required to submit to EDB their school plans and reports, which have been endorsed by the School Management Committee/Incorporated Management Committee, on the use of the funding and the measures to support NCS students in learning Chinese. To ensure the proper use of the additional funding by schools, EDB will examine the annual school plans on the use of funding of the schools concerned, and verify them against their annual school reports. EDB will also conduct supervisory visits to the schools to monitor the use of funding. Besides, feedback will be collected from schools’ major stakeholders by means of questionnaires, interviews, etc., so as to review the implementation of support measures.

Moreover, a separate column on “Education Support for NCS Students” has been newly added in the School Profiles starting from the 2018/19 school year so that information on support for NCS students can be provided by schools. Public sector schools and DSS schools offering the local curriculum that admitted NCS students and provided with the additional funding are required to specify that they provide additional support, including after-school support, for their NCS students to facilitate their learning of the Chinese language. From the 2019/20 school year onwards, EDB has further enhanced the newly added column by requesting the schools concerned to provide more details of the relevant support measures. EDB has encouraged schools to continue to enrich the content of the English version of their School Profiles and/or school webpages with regard to their school-based support measures for NCS students for the reference of parents of NCS students.

- (d) The “Learning Framework”, designed on the basis of the mainstream Chinese Language curriculum, provides steps and methods for learning and teaching, and assessment for teachers’ reference in teaching and making flexible adaptations according to the learning progress of NCS students. Teachers can make reference to the “Learning Framework”, which is not independent of the mainstream Chinese Language curriculum, to set learning targets, learning progress and expected learning outcomes on listening, speaking, reading and writing, as well as adapt and develop teaching materials at the school-based level for NCS students with different starting points and abilities, so as to help these second language learners to use a “small-step” approach to learn Chinese progressively. The number of NCS students at different learning stages is not available.

- (e) The respective number of kindergartens (KGs) admitting 1 to 9 NCS students from the 2015/16 to 2019/20 school years is 351, 361, 340, 351 and 364 (figures refer to the position as at mid-September of the respective school years, and include K1, K2 and K3 of KG-cum-child care centres while local and non-local KGs are also included). The respective number of public sector primary schools and DSS primary schools offering the local curriculum and admitting 1 to 9 NCS students is 217, 207, 203, 205 and 195, while the respective number for secondary schools is 193, 175, 184, 186 and 185. Of these schools, the breakdown of number of schools provided with the additional funding and the amount of funding by government, aided and DSS schools are at Annex A.

The KG education scheme (Scheme) has been implemented starting from the 2017/18 school year. KGs joining the Scheme and admitting 8 or more NCS students are provided with an additional grant comparable to the mid-point salary of the recommended salary range for 1 KG teacher. In the 2017/18 and 2018/19 school years, about 150 KGs received the additional grant in each of the years, and the expenditure involved was about \$54 million and \$57 million respectively. EDB has, starting from the 2019/20 school year, provided a five-tiered grant for KGs joining the Scheme according to the number of NCS students admitted, so that these KGs can render more appropriate support to their NCS students.

Details of the five-tiered grant for each eligible KG in the 2019/20 school year are set out as follows:

Tier	Number of NCS students	Grant rate	Full-year grant rate for the 2019/20 school year (\$)
1	1 to 4	New cash grant of \$50,000 per year	50,000
2	5 to 7	New subsidy at a rate of 0.5 KG teacher	198,960
3	8 to 15	Subsidy at a rate of 1 KG teacher	397,920
4	16 to 30	Increased subsidy at a rate of 1.5 KG teachers	596,880
5	31 or more	Increased subsidy at a rate of 2 KG teachers	795,840

As at February 2020, about 430 KGs have been provided with the grant. The estimated annual expenditure is about \$110 million. As the grant is calculated by EDB based on the student enrolment information of KGs, the number of KGs and the expenditure involved may vary during the school year due to updating of the enrolment information of NCS students by schools.

- (f) From the 2015/16 to 2019/20 school years, the amount of funding deployed by the primary and secondary schools provided with the additional funding for appointment of additional teachers, appointment of teaching assistants, appointment of ethnic minority (EM) assistants, purchase of learning and teaching resources, procurement of professional services (including after-school extended Chinese language learning activities) and organising activities to promote an inclusive environment in schools is tabulated at Annex B. According to the reports on the usage of the above-mentioned funding for the 2015/16 to 2018/19 school years, as well as the plans on the usage of funding in the 2019/20 school year submitted by the schools concerned, the schools have adopted a holistic approach in resource planning and deployment of staff to support NCS students' effective learning of the Chinese language. To quote appointment of teachers as an example, the additional teachers have been/are appointed by the schools concerned to teach Chinese language to NCS students (in class and after school as appropriate), to spare the experienced teachers to adapt the school-based Chinese Language curriculum and/or learning and teaching materials to cater for the needs of their NCS students, etc. Teaching assistants, similarly, have been/are generally employed to support Chinese Language teachers and NCS students during lessons and after school as appropriate, and to assist teachers in adaptation of and preparation of learning and teaching materials. Some have also been assigned to liaise with parents of NCS students to strengthen home-school co-operation. EM assistants have been/are normally employed to help strengthen communication with parents of NCS students, such as translating and/or explaining school letters/notices to help parents of NCS students understand more about school policies and administrative arrangements, providing support to individual NCS students as appropriate in class, and organise activities for the creation of an inclusive learning environment in schools. Further breakdown of the usage of funding by specific duties of the additional teachers, teaching assistants and EM assistants as requested is not available.
- (g) According to the plans on the usage of the above-mentioned funding submitted by the primary and secondary schools concerned, these schools will make reference to the learning progress of their NCS students at different learning stages based on the "Learning Framework" and adjust the learning targets and teaching strategies, including adoption of different intensive learning and teaching modes like pull-out learning, split-class/group learning, after-school consolidation, etc. as appropriate. The intensive learning and teaching modes adopted by schools provided with the additional funding mentioned in paragraph (a) above from the 2015/16 to 2019/20 school years are tabulated at Annex C. Schools will arrange different intensive learning and teaching modes having regard to the learning progress and needs of the NCS students, and that a combination of 2 or more intensive learning and teaching modes have been adopted by most schools. As schools will adjust their teaching modes having regard to the learning progress of their students, the intensive learning and teaching modes adopted may vary between school years and schools.

**Number of schools provided with/not provided with the additional funding
(by school funding mode and number of non-Chinese speaking (NCS) students ranging from
“0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or more”)
and the expenditure from the 2015/16 to 2019/20 school years**

CONTROLLING OFFICER'S REPLY**EDB182****(Question Serial No. 0751)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

Regarding encouraging schools to make good use of information technology to enhance learning and teaching effectiveness, would the Administration please provide the following information:

(1) The numbers of primary and secondary schools that have implemented the "Bring Your Own Device" (BYOD) policy (please also provide the percentages of these schools against the total numbers of public sector primary and secondary schools).

	No. of schools implementing the BYOD policy	Percentage share in the total no. of schools
Government, aided (including special), caput and Direct Subsidy Scheme (DSS) secondary schools		
Government, aided (including special), caput and DSS primary schools		

(2) The Education Bureau (EDB) currently learns about the progress of implementing e-learning in schools through questionnaire surveys (last year's response rate was 74% only). It has also stated that the total number of schools implementing the BYOD policy is unavailable. How will the implementation of e-learning and the BYOD policy as well as the effectiveness of e-learning among participating students be effectively monitored then?

(3) For primary and secondary schools that have already implemented the BYOD policy, what are the average expenditures by students on purchasing mobile computer devices and on participating in e-learning activities in schools (including purchasing devices, hardware,

software, etc.)? Please provide the information separately for primary and secondary schools.

	Students' average expenditure on purchasing mobile computer devices	Students' average expenditure on participating in e-learning activities in schools (including purchasing devices, hardware, software, etc.)
Government, aided (including special), caput and DSS secondary schools implementing the BYOD policy		
Government, aided (including special), caput and DSS primary schools implementing the BYOD policy		

(4) Has the EDB provided schools with information about computer devices to help them purchase suitable devices for their students? If not, what are the reasons?

(5) In the previous school year, did the EDB and schools receive any complaints from parents and students about the high cost of participating in e-learning and insufficient subsidy? If yes, please provide the number of complaint cases and an account of the follow-up actions taken.

(6) Does the EDB have any new measures to continue subsidising needy primary and secondary students to purchase mobile computer devices? If yes, what are the details? If no, what are the reasons?

(7) Is the EDB aware of any cases where students from grassroots families are unable to participate in online learning at home? How many families have only 1 computer for their children to share and undertake online learning? Please paint a picture of the overall situation. Are there measures to help these students undertake online learning during class suspension?

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 62)

Reply:

(1) The Education Bureau (EDB) launched the Fourth Strategy on Information Technology in Education (ITE4) in the 2015/16 school year. One of the key measures is to establish WiFi campus by phases for all public sector schools in the territory to facilitate e-learning through the use of mobile computer devices in class. Some schools have started to adopt the "Bring Your Own Device" (BYOD) policy to further exploit the advantages of using mobile computer devices in learning. In the questionnaire survey on information technology in education conducted for the 2018/19 school year, about 88% of schools

responded. Among the respondents, about 34% of secondary schools, 31% of primary schools and 23% of special schools have already implemented the BYOD policy or are formulating related measures. Since the implementation of BYOD policy is not mandatory under the prevailing policy, the EDB has not collected data on the number of schools implementing the policy and the percentage of these schools against the total number of schools.

(2) To continuously enhance various support measures, we have been reviewing their progress and effectiveness through different means such as school visits, questionnaire surveys and focus group meetings. As the past questionnaire surveys suggest, the implementation of BYOD policy at schools is becoming prevalent. Schools also hold a positive view towards e-learning and generally agree that it is conducive to strengthening the learning motivation and self-directed learning ability of students. Ever evolving and diversified in nature, e-learning is an open and flexible mode of learning. There is no so-called best practice or standard which schools should follow. Hence, it is a school-based decision as to whether the BYOD policy should be implemented.

(3) When implementing the BYOD policy, schools, under the principle of school-based management, would determine the device specifications and software required according to their pedagogical design and use of e-learning tools and resources. Schools are not required to report to the EDB in this regard, and hence statistics on the relevant cost are not available.

(4) The EDB has, through various channels such as its website, teacher professional training and a technical support team, provided schools with information and technical support on procurement, use and management of devices, etc. so that schools can better support students in the use of mobile computer devices for learning.

(5) The EDB did not receive any complaints from parents or students about the high cost of participating in e-learning in schools in the 2018/19 school year. As to whether schools have received similar complaints from parents or students, it is a school-based matter and we do not have the relevant information.

(6) In the 2018/19 school year, the Community Care Fund launched a 3-year assistance programme to subsidise needy students to purchase mobile computer devices for practising e-learning in schools implementing BYOD policy. The EDB is closely monitoring its implementation and will review its effectiveness so as to formulate measures that would continuously support needy students in e-learning.

(7) During class suspension, primary and secondary schools should optimise the use of different modes of learning, including e-learning, to enable students to continue to systematically engage in a moderate amount of learning so as to achieve the goal of “suspending classes without suspending learning”. As far as we understand, for students who are unable to undertake online learning due to the lack of the necessary equipment (such as computers), schools have been actively providing support, for example by lending them the necessary equipment for use. Homework assignments and worksheets are printed and mailed to students or collected by parents from schools according to their actual needs.

The Government has been keeping in view the learning needs of students and taking various measures to support grassroots students in e-learning. To support needy students' online learning at home, the Student Finance Office and the Social Welfare Department provide eligible families with Internet access subsidies. The Government also provides, through the Community Care Fund, subsidies for needy primary and secondary students for purchasing mobile computer devices. Students may use these devices to engage in e-learning. Concerted efforts have also been made by different sectors of the community to support needy students. To support students who have difficulties accessing the Internet for e-learning at home during class suspension, the Hong Kong Jockey Club Charity Trust has given 100 000 local primary and secondary school students free Internet access (via mobile data SIM cards) for 4 months with the help of 2 non-governmental organisations.

We understand that many parents have to make the usual education-related payments, in whole or in part, for their children during class suspension, and some may have to increase their spending on reading and learning materials or e-learning devices for their children. To alleviate parents' burden in defraying these expenses, the Government will provide an additional \$1,000 to each recipient of the Student Grant for the 2019/20 school year, i.e. the Student Grant amount of this year will be increased from \$2,500 to \$3,500, through the newly established \$30 billion Anti-epidemic Fund. No extra applications by parents are necessary. The EDB does not have information on the cases where students from grassroots families are unable to participate in online learning at home and on the number of families that have only 1 computer for their children to share and undertake e-learning.

- End -

CONTROLLING OFFICER'S REPLY**EDB183****(Question Serial No. 0752)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the reform of the Information and Communication Technology (ICT) curriculum for the senior secondary level, please advise this Committee of the following:

- (1) details of the work carried out in the past year to effect changes to the New Senior Secondary ICT curriculum for the 2021/22 school year;
- (2) the Education Bureau informed last year that a review on the Senior Secondary ICT curriculum was underway and that the curriculum content would be revised timely in accordance with the prevailing mechanism. Please provide details of the review and the curriculum revision in the 2020/21 school year;
- (3) details of the STEM training programmes organised for teachers in the past year and the expenditure involved;
- (4) the latest implementation status of the recommendations set out in the 2016 Report on Promotion of STEM Education – Unleashing Potential in Innovation, with a breakdown by items already implemented and to be implemented and with implementation timetables; and
- (5) the number of students taking the ICT subject at the senior secondary level and the number of candidates sitting for the ICT subject in the Hong Kong Diploma of Secondary Education (HKDSE) Examination in the past 2 years:

	2018-19	2019-20
No. of students taking the ICT subject at the senior secondary level		
No. of candidates sitting for the ICT subject in the HKDSE Examination		

Asked by: Hon MOK Charles Peter (LegCo internal reference no.: 63)

Reply:

(1) and (2)

Regarding the proposed revision of Information and Communication Technology (ICT) curriculum at senior secondary level, the Education Bureau (EDB) consulted various stakeholders, including public sector and Direct Subsidy Scheme (DSS) secondary schools offering the subject, relevant professional bodies and university academics in 2018 and received generally supportive feedback. In the light of the feedback received, we have further reviewed and enhanced the ICT curriculum, including the contents of the core and elective parts of the curriculum as well as assessment arrangements. The revision will be completed this year. The revised ICT curriculum will then be submitted to the Curriculum Development Council (CDC) for discussion under the prevailing mechanism, and be announced in around January 2021 upon endorsement by the CDC. We expect that the revised ICT curriculum at Secondary 4 could be implemented in the 2022/23 school year.

(3) and (4)

The EDB released the Report on “Promotion of STEM Education – Unleashing Potential in Innovation” in 2016. The recommended measures set out in the Report have been implemented progressively. In the 2017/18 school year, the EDB renewed the curricula of Science, Technology and Mathematics Education Key Learning Areas, and published the “Computational Thinking – Coding Education: Supplement to the Primary Curriculum”. The EDB has all along been organising professional development programmes for teachers’ and developing learning and teaching resources for schools’ deployment. Starting from the 2017/18 school year, we have been conducting the Intensive Training Programme (ITP) on STEM Education in 5 batches for curriculum leaders of all public sector and DSS primary and secondary schools to further enhance their professional capacity in holistic curriculum planning and leading the teaching force. The last batch of training programme is expected to be completed in 2020. At the same time, we have organised professional development programmes on coding education for primary school teachers in 5 batches to help them support students in developing computational thinking. These programmes were completed as planned. STEM Education was one of the programme themes under the Paid Non-local Study Leave Scheme for Secondary School Teachers (i-Journey) in the 2017/18 and 2018/19 school years. The Scheme aims to broaden teachers’ professional perspectives and keep them abreast of the latest trend in global education developments so as to inspire their professional ideas in learning and teaching through their participation in specific courses and an overseas school attachment programme lasting for about 3 months. In October 2017, the STEM Education Centre was set up at the Arts and Technology Education Centre in Lok Fu. The Centre continuously provides STEM education related learning activities and training programmes as well as other support services for students and teachers. The EDB has been strengthening various professional exchange platforms and establishing STEM-related learning communities among schools. For example, the Quality Education Fund Thematic Networks have been established to facilitate the sharing of good practices and promote professional exchange among teachers. Regarding student activities, the EDB has organised a number of large-scale STEM-related events and competitions in collaboration with tertiary institutions, other government departments and professional bodies. The Smart City Project Programme, for example, was held in the 2017/18 and 2018/19 school years to create an atmosphere for learning science and

technology and provide opportunities for students to unleash their potential. The EDB will continue to collaborate with different bodies and organisations to deliver more quality, large-scale activities to enrich students' learning experiences. We will continue to review the implementation of STEM education through various channels and step up the promotion of STEM education by enhancing the above support measures. As the expenditure on STEM-related professional development programmes for teachers is subsumed under the overall expenditure of the EDB, there is no separate breakdown for individual items.

(5)

In the 2018/19 school year, the number of students taking ICT at the senior secondary level and the number of candidates sitting the ICT subject in the Hong Kong Diploma of Secondary Education Examination was 18 940 and 5 620 respectively (Note). The figures for the 2019/20 school year are unavailable as they are still being compiled.

Note: Numbers are rounded to the nearest 10.

CONTROLLING OFFICER'S REPLY

EDB184

(Question Serial No. 2041)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

It is mentioned under National Education (paragraph 32) of Programme (6) that the Education Bureau (EDB) offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. It also provides professional support, where appropriate, to schools. Would the EDB advise this Committee of the details of these Mainland exchange programmes for students and professional exchange programmes for teachers, and of the respective numbers of primary and secondary schools that took part in Mainland exchange programmes in each of the past 3 years?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 16)

Reply:

To dovetail with the school curriculum and the latest development of our country, the Education Bureau (EDB) organises Mainland exchange programmes for students, or subsidises those organised by schools. With diversified themes and destinations, these programmes enable participants to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. Teachers participate in these programmes as learning facilitators on a ratio of 1 teacher to 10 students. Besides, the EDB also provides various professional Mainland exchange programmes for teachers to widen their horizons and deepen their understanding of the Mainland's latest development in different aspects for enhancing their professional competence. Professional exchange programmes mainly include visits to and lesson observations conducted in primary schools, secondary schools and higher education institutions, visits to enterprises and cultural facilities, as well as thematic seminars and exchange forums held by experts and scholars on different fields. In the 2020/21 school year, the estimated provision for Mainland exchange programmes for students and professional exchange programmes for teachers will be \$115 million and \$12.9 million respectively.

Currently there are plenty of channels for schools to participate in Mainland exchange programmes. The EDB does not collect details of individual schools that join or do not join Mainland exchange programmes but only the number of participating schools for each trip.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (7) Post-secondary, Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

As stated in the Estimates, the Vocational Training Council “will continue the industry attachment programme for students, with funding support from the Bureau, so as to enhance their employability and prepare them for a smooth transition from study to work.” In this connection:

- (1) What was the total amount of Government funding for the programme last year? What was the total number of students participating in the attachment programme breakdown by sector?
- (2) What is the provision earmarked for the programme this year? How many students are estimated to participate in this year's programme?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 18)

Reply:

A recurrent government funding of about \$18 million has been allocated to the Vocational Training Council (VTC) starting from the 2014/15 academic year to provide industrial attachment opportunities mainly for students pursuing subvented Higher Diploma programmes and some of the Diploma of Vocational Education programmes. About 9 000 students in the VTC will benefit every year and the same will apply to the 2020/21 academic year. Breakdown of the number of students by sector of the companies/organisations is not available.

Regarding the facilities for cross-boundary students at land-based boundary control points:

1. Please tabulate figures on the daily use of various land-based boundary control points by cross-boundary students and school coaches in the past 3 years.

Control point	School year	Number of cross-boundary students	Number of cross-boundary school coaches
	2019/20		
	2018/19		
	2017/18		
	2019/20		
	2018/19		
	2017/18		

2. Since the number of cross-boundary students using control points every day has been on the rise in recent years, what measures are being carried out or will be carried out by the Government to upgrade or improve the related facilities? What are the respective expenditures involved?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 19)Reply:

1. The number of cross-boundary students (CBS) and local/cross-boundary school coaches using various land-based boundary control points from the 2017/18 to 2019/20 school years is provided in the following table:

Control Point (CP)	School Year	Number of CBS	Number of Local/Cross-boundary School Coaches Carrying CBS
Shenzhen Bay Control Point (SZB CP)	2019/20	6 246	50
	2018/19	6 757	71
	2017/18	7 098	103
Lok Ma Chau Control Point (LMC CP)	2019/20	1 655	26
	2018/19	1 774	33
	2017/18	2 216	39
Man Kam To Control Point (MKT CP)	2019/20	1 998	37
	2018/19	2 472	42
	2017/18	2 457	42
Sha Tau Kok Control Point (STK CP)	2019/20	1 065	16
	2018/19	1 161	18
	2017/18	1 229	18
Hong Kong-Zhuhai-Macao Bridge (HZMB) Hong Kong Port	2019/20	97	3
	2018/19	Not Applicable	Not Applicable
	2017/18	Not Applicable	Not Applicable
Lok Ma Chau Spur Line Control Point (LMCSL CP)	2019/20	9 157	46
	2018/19	9 193	46
	2017/18	8 854	47
Lo Wu Control Point (LW CP)	2019/20	6 836	34
	2018/19	6 429	34
	2017/18	6 055	35
Hung Hom Control Point	2019/20	1	Not Applicable
	2018/19	0	Not Applicable
	2017/18	0	Not Applicable

- Notes: (1) Figures refer to the position as at September of the respective school years.
- (2) Figures are based on the annual surveys on the number of students travelling daily across the boundary conducted via schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.
- (3) The HZMB Hong Kong Port came into operation in October 2018. As indicated by the annual survey of the 2019/20 school year, there are CBS travelling across the boundary for schooling via the HZMB Hong Kong Port.
- (4) Local school coaches at LMCSL and LW CPs are local vehicles which do not cross any CP. They are permitted to operate multiple trips to carry CBS from Hong Kong side of the respective CPs to other parts of Hong Kong. The cross-boundary school coaches at SZB, LMC, MKT and STK CPs as well as the HZMB Hong Kong Port are cross-boundary vehicles which cross the respective CPs.

2. The Government has put in place various facilitating measures to enhance transportation and clearance services for CBS using the above land-based boundary control points. These measures include facilitating local school buses to gain access to Lo Wu Station Road and the LMCSL CP to take CBS to and from their schools; granting special quotas for cross-boundary school coaches for carriage of CBS through the HZMB Hong Kong Port, and LMC, MKT, STK and SZB CPs; implementing the simplified clearance services at the LMCSL, LW and SZB CPs; and providing on-board clearance services at the HZMB Hong Kong Port, and MKT, STK and LMC CPs.

The Government will continue to monitor closely the transportation and clearance needs of CBS, and will provide necessary support measures to cater for their needs and ensure their safety.

EDB187

(Question Serial No. 2056)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government has implemented the “one school social worker for each school” policy in public sector ordinary primary schools since the 2018/19 school year. What was the number of primary school social workers in each of the past 3 years and the estimated expenditure for 2020-21?

Asked by: Hon OR Chong-shing, Wilson (LegCo internal reference no.: 31)

Reply:

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. The new measure is implemented on the basis of the Comprehensive Student Guidance Service to provide schools with more resources so that each public sector primary school is served by at least one school-based registered graduate social worker with professional qualifications to further enhance the overall quality of guidance service. In the 2019/20 school year, 309 public sector primary schools (i.e. about 70%) have switched to the new funding mode. It is estimated that 333 public sector primary schools will switch to the new funding mode in the 2020/21 school year. According to the information gathered, the respective number of social workers providing guidance service in public sector primary schools from the 2017/18 to 2019/20 school years is 544, 569 and 626.

CONTROLLING OFFICER'S REPLY

EDB188

(Question Serial No. 2957)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

As mentioned in Matters Requiring Special Attention in 2020-21, the Education Bureau (EDB) will extend the Enhanced School-based Educational Psychology Service (SBEPS) (with the ratio of educational psychologist (EP) to school being 1:4) to about 60 per cent of all public sector schools and enhance the ratio of EP to school to 1:6 for the remaining 40 per cent of schools. In this connection, would the Government advise this Committee:

of the specific measures and timetable for achieving these targets; of the additional manpower expected to be recruited this year and the estimated expenditure involved; of the number of EP employed by the EDB and the estimated expenditure involved in each of the past 4 years; and whether the EDB will evaluate and review various measures directed at three levels of support, namely "Universal", "Selective" and "Indicated".

Asked by: Hon QUAT Elizabeth (LegCo internal reference no.: 34)

Reply:

Since the 2016/17 school year, all public sector ordinary primary and secondary schools have been provided with the School-based Educational Psychology Service (SBEPS). From that school year onwards, the Education Bureau (EDB) has progressively improved the ratio of educational psychologist (EP) to school to 1:4 for public sector ordinary primary and secondary schools with comparatively large number of students with special educational needs (SEN), i.e. Enhanced SBEPS, in order to provide more comprehensive and regular follow-up and intervention services for students in need, and support schools to enhance their preventive and developmental work. In the 2019/20 school year, the Enhanced SBEPS covers 169 primary and secondary schools. The EDB plans to extend the Enhanced SBEPS to about 210 schools in the 2020/21 school year and will keep in view the implementation of the Enhanced SBEPS and the supply and demand of EPs to decide the additional number of schools to be included annually thereafter.

From the 2016/17 to 2019/20 school years, the respective number of EPs employed by the EDB and school sponsoring bodies to provide SBEPs (including Enhanced SBEPs) in all public sector ordinary primary and secondary schools is 138, 144, 151 and 156. It is estimated that the number of EPs will be increased to 161 in the 2020/21 school year. The total expenditure involved is tabulated as follows:

School year	2016/17	2017/18	2018/19	2019/20 (revised estimate)	2020/21 (estimate)
Expenditure (\$ million)	119	127	139	183	189

The EDB has been encouraging schools to adopt the Whole School Approach (WSA) and 3-Tier Intervention Model to cater for students' diverse learning needs. In gist, under the 3-Tier Intervention Model, Tier-1 support refers to early identification and catering for all students with diverse learning or adjustment needs, including those with mild or transient learning or adjustment difficulties through quality teaching in regular classroom; Tier-2 support refers to additional support/“add-on” intervention, such as small group tutoring, after-school remedial programmes and pull-out remedial programmes for students with persistent learning or adjustment difficulties; and Tier-3 support refers to individualised intensive support for students with persistent and severe learning or adjustment difficulties, including drawing up of Individual Education Plans. To support schools' effective implementation of the 3-Tier Intervention Model, school-based EPs collaborate with schools and provide continuous support for schools to refine their support mechanism and measures, enhance the knowledge and skills of their staff, as well as provide direct assessment and intervention to students. As for enhancing schools' awareness towards students' mental health and their support for students with mental health needs, the EDB follows the guiding principles laid down by the World Health Organisation and implements various measures directed at three levels, namely “Universal”, “Selective” and “Indicated”, to cater for the learning, social, emotional, and behavioural needs of those students.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies, measures and deployment of resources, including the effectiveness of the measures for supporting students with SEN through self-evaluation every year. As required by the EDB, schools should submit an annual self-evaluation report, which is validated through External School Review by the EDB, on the implementation of the WSA to integrated education to the EDB at the end of every school year. Professional staff from the EDB will review the support provided by schools for students with SEN and offer professional advice whenever necessary during school visits. In general, schools manage to support students with SEN through the appropriate application of the 3-Tier Intervention Model and cater for students with mental health needs by implementing the “Universal”, “Selective” and “Indicated” measures.

EDB189

(Question Serial No. 2958)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (6) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

In respect of national education, the Education Bureau (EDB) offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. It also provides appropriate professional support to schools. In this connection, would the Administration advise this Committee of the following:

The respective numbers of Mainland exchange programmes and professional exchange programmes arranged in each of the past 3 years, numbers of students and teachers participating in each programme, the Mainland cities visited, as well as the content and expenditure of each programme; details of the professional support offered to schools, as well as the manpower and expenditures involved in the past 3 years; and the respective numbers of Mainland exchange programmes and professional exchange programmes to be arranged this year, and the estimated expenditures involved.

Asked by: Hon QUAT Elizabeth (LegCo internal reference no.: 35)

Reply:

To dovetail with the school curriculum and the latest development of our country, the EDB organises Mainland exchange programmes with diversified themes and destinations for students, or subsidises those organised by schools. Such programmes include the “Mainland Exchange Programme for Junior Secondary and Upper Primary Students” (「同根同心」——香港初中及高小學生內地交流計劃), the “Mainland Exchange Programme for Secondary School Students” (「同行萬里」中學生內地交流計劃), the “Junior Secondary and Upper Primary School Students Exchange Programme Subsidy Scheme: Understanding Our Motherland” (初中及高小學生交流活動資助計劃——「赤子情•中國心」), the “Senior Secondary School Students Exchange Programme Subvention Scheme” (高中學生交流活動資助計劃), the “Mainland Exchange Programme for Student Leaders” (領袖生內地交流計劃) and some thematic Mainland exchange programmes. These

programmes enable students to gain first-hand experience of our country's development in aspects of history, culture, economy, education, science and technology, etc. from multiple perspectives. They cover different Mainland provinces and cities, including 22 provinces, 4 autonomous regions and 4 municipalities. The number of Mainland exchange programmes varies year from year. All along, schools could organise Mainland exchange programmes on their own or choose to participate in Mainland exchange programmes or subsidy schemes organised by the EDB according to their school needs. Students' participation is on a voluntary basis. Schools may also cancel or postpone their scheduled Mainland exchange programmes in light of school-based circumstances. The numbers of students participating in the Mainland exchange programmes and the expenditures involved in the past 3 years (the 2017/18, 2018/19 and 2019/20 school years) and in the 2020/21 school year are as follows. Due to the novel coronavirus epidemic in early 2020, all Mainland exchange activities organised or subsidised by the EDB have been suspended or postponed since end-January.

School Year	Number of Students (rounded down to the nearest hundred)	Expenditure (\$million) [@]
2017/18	67 000	85.4
2018/19 [#]	74 500	108.9
2019/20 [*]	20 500	35.1
2020/21 ⁺⁺	109 000	115

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

⁺⁺ Estimated figures

Over the past 3 years (the 2017/18, 2018/19 and 2019/20 school years), the Mainland professional exchange programmes organised for teachers by the EDB included leadership enhancement programme for principals of Hong Kong primary and secondary schools, study visits to the Mainland for teachers of Hong Kong government schools, and professional study and exchange tours specifically for novice teachers and serving teachers. These activities enable principals and teachers to widen their horizons and acquire a deeper understanding of the Mainland's latest development in different aspects for enhancing their professional competence. The exchange programmes, which cover different provinces and cities in the Mainland, such as Beijing, Wuhan, Chengdu, Nanning, Hefei and various cities in the Guangdong Province, mainly include visits to and lesson observations conducted in primary schools, secondary schools and higher education institutions, visits to enterprises and cultural facilities, as well as thematic seminars and exchange forums held by experts and scholars on different fields. The numbers of participants and the expenditures involved in the Mainland professional exchange programmes in the past 3 years (the 2017/18, 2018/19 and 2019/20 school years) and in the 2020/21 school year are as follows:

School Year	Number of Teachers (rounded down to the nearest ten)	Expenditure (\$million) [@]
2017/18	760	5.5
2018/19 [#]	1 680	7.1
2019/20 [*]	1 000	8.7
2020/21 ⁺⁺	2 680	12.9

[@] Manpower resources for the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

⁺⁺ Estimated figures

National education, in the board sense, also includes learning about various aspects of our country from an appropriate perspective through different subjects. There are references to our country's history, culture, landscape, development, etc. in the curriculum content of History, General Studies, Chinese Language, Geography and even Music and Arts. Moreover, elements that enable a better understanding of our country are added to various life-wide learning activities, such as those related to the Hong Kong Special Administrative Region Establishment Day or National Day. The above relevant curriculum arrangements and school support programmes for promoting national education have been widely implemented in primary and secondary schools. The relevant expenditure is subsumed under the recurrent expenditure of the EDB and cannot be identified separately.

CONTROLLING OFFICER'S REPLY

EDB190

(Question Serial No. 2959)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned under Matters Requiring Special Attention in 2020-21 that the Bureau will continue to implement measures set out in the Fourth Strategy on Information Technology in Education for promotion of e-learning at schools. In this connection, would the Bureau advise this Committee of the following:

How many schools have developed standalone information technology (IT) lessons? Is there a need to strengthen the IT staffing support of schools so as to promote e-learning? If yes, what are the details? What are the estimated additional manpower and expenditure involved? If no, what are the reasons?

Unlike traditional teaching approach, e-teaching may expose teachers who are unfamiliar with IT tools to certain technical difficulties. Will the Bureau devote resources to train teachers in the use of different IT teaching tools? If yes, what are the details? If no, what are the reasons?

How many primary, secondary and special schools across the territory have purchased equipment necessary for e-learning with government subsidies in the past 5 years? What was the expenditure on subsidising these purchases each year?

Asked by: Hon QUAT Elizabeth (LegCo internal reference no.: 36)

Reply:

For the primary level, the Education Bureau (EDB) does not require schools to teach information technology (IT) as an independent subject. At the junior secondary level, schools may teach the learning elements of information and communication technology (ICT) under the Technology Education Key Learning Area (TEKLA) as a module or an independent subject. Under the existing arrangements, schools are required to provide the TEKLA curriculum for junior secondary students. As far as the senior secondary level is

concerned, there were about 400 schools offering ICT Curriculum in the 2018/19 school year.

The EDB launched the Fourth Strategy on Information Technology in Education in the 2015/16 school year. Among the non-recurrent funding of \$105 million, around \$90 million was used as a one-off grant disbursed in phases to all public sector schools that joined the WiFi-900 project for acquisition of mobile computer devices. Also, an extra recurrent grant of \$70,000 on average is given to each school annually for the continuous subscription of WiFi services. In addition, to enhance support to schools on the practice of e-learning, the EDB has, starting from 2017, disbursed in phases an extra One-off Information Technology Grant of \$200,000 on average to public sector schools under the WiFi campus project. To cope with the needs of schools, the EDB has, starting from the 2017/18 school year, provided all public sector primary and secondary schools with a recurrent Information Technology Staffing Support Grant to strengthen IT staffing support of schools. Each school received a provision of \$317,338 in the 2019/20 school year. Apart from the above grants, the EDB provides all public sector schools with an annual recurrent Composite Information Technology Grant. In the 2019/20 school year, the rate of the Grant for each school ranges from \$209,367 to \$720,089, depending on the school type and the number of classes. Under the principle of school-based management, schools may, having regard to their operational needs for IT in education, flexibly deploy different grants to procure equipment required for e-learning and strengthen IT staffing support, etc.

The EDB organises professional development programmes for school leaders and teachers on an ongoing basis to equip them with the knowledge and skills needed for the implementation of e-learning. These programmes cover a wide range of topics, including e-leadership series, technological series, pedagogical series, subject-related series, e-safety series, and “Bring Your Own Device” series, etc. Moreover, the IT in Education Centres of Excellence have been established to provide training and on-site support services and facilitate the sharing of good practices in e-learning with schools. Updated information and experiences on implementing online teaching are also available on the EDB webpage.

(Question Serial No. 0091)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The financial provision on Programme (2) in 2020-21 is estimated as \$6,407.2 million. Amidst the current novel coronavirus (COVID-19) outbreak, it is reported that kindergarten is facing financial difficulties and closures due to class suspension.

In this regard, what will be done to prevent possible waves of closures? Has the Bureau earmarked any funding and resources to help kindergarten and teachers in difficulties? If yes, of the details; if no, of the reasons. And has the Bureau allocated any funding and resources to assist kindergarten in preparing class resumption (e.g. providing face masks), so as to ensure children and teachers will be safe to go back to school?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 38)

Reply:

To support kindergartens (KGs) affected by the outbreak of Coronavirus disease 2019 (COVID-19), the Education Bureau (EDB) will implement various support measures by deploying existing resources. Measures include: (1) for KGs joining the KG education scheme (Scheme-KGs), using the number of students in January 2020 as the basis for calculation of monthly subsidy during the class suspension period to ensure that there will be no reduction of government subsidies due to withdrawal or absence of individual students during the period; (2) providing all KGs (including non-Scheme KGs) with a one-off Special Anti-epidemic Grant at the rate of \$10,000 to \$15,000 per school to help them replenish their epidemic prevention equipment (such as masks and thermometers), clean the school premises and pay for other expenses related to epidemic prevention, and hence prepare well for class resumption; and (3) providing all KGs with a one-off Support Grant ranging from \$60,000 to \$160,000 per school depending on scale of operation, incurring an additional expenditure of about \$120 million, to assist KGs in tackling financial difficulties caused by the epidemic. In addition, if individual KGs, in particular those without government subsidies, need to reduce their tuition fees, the EDB will expedite the processing of the applications to cater for the needs of schools and parents.

EDB192

(Question Serial No. 0097)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Matters Requiring Special Attention in 2020–21 under Programme (3) that the Bureau will enhance the additional funding to all public sector and Direct Subsidy Scheme (DSS) primary schools admitting a relatively small number of non-Chinese speaking (NCS) students under a new two-tiered arrangement to facilitate the implementation of the “Chinese Language Curriculum Second Language Learning Framework” for NCS students to learn Chinese as a second language effectively starting from the 2020/21 school year. In this connection, please provide this Committee the following information:

1. in each of the past 5 years, the number of NCS students admitted to public sector and DSS primary schools with admission of a relatively small number of NCS students, number of these primary schools and the funding allocated.
2. in 2020-21, the number of NCS students expected to be admitted to public sector and DSS primary schools with admission of a relatively small number of NCS students, the estimated number of these primary schools and funding allocated.
3. the research report from Equal Opportunities Commission in January 2020 shows the deficiency in education for NCS students. For instance, only 37.8% of Chinese language subject teachers and 54.1% of non-Chinese language subject teachers reported being confident in “teaching non-Chinese speaking students to achieve a similar level of the Chinese speaking students”. And 92.6% of the interviewed principals expressed that support from the Education Bureau for non-Chinese speaking students in learning other subjects (e.g. Mathematics, General Studies) is insufficient. Besides increased funding, will the Bureau provide additional support and resources to the school, and in the long term, formulate a comprehensive school curriculum for NCS students?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 39)

Reply:

1. Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. All public sector schools and Direct Subsidy Scheme (DSS) schools offering the local curriculum and admitting 10 or more NCS students are provided with an additional funding ranging from \$0.8 million to \$1.5 million per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to enhancing the learning effectiveness of NCS students and facilitating their bridging over to mainstream Chinese Language classes in the long run. As regards schools admitting a relatively small number of NCS students (i.e. 1 to 9 NCS students), their NCS students can benefit from the immersed Chinese language environment of the school as well as the "Learning Framework". Starting from the 2014/15 school year, these schools may apply for an additional funding of \$50,000 per year on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. From the 2015/16 to 2019/20 school years, the number of public sector primary schools and DSS primary schools admitting 1 to 9 NCS students, the number of NCS students studying in these primary schools, the number of primary schools provided with the above-mentioned funding and the amount of funding involved are tabulated below:

School year	Number of primary schools admitting 1 to 9 NCS students	Number of NCS students	Number of primary schools provided with the additional funding	Expenditure (\$ million)
2015/16	217	628	34	1.70
2016/17	207	599	92	4.60
2017/18	203	652	107	5.35
2018/19	205	657	112	5.60
2019/20	195	641	112	5.60

Notes:

1. Figures include public sector primary schools and DSS primary schools, but not special schools.
 2. The number of primary schools provided with the additional funding and the expenditure for the 2019/20 school year are provisional figures.
 3. In the past 5 years, there were primary schools which admitted a relatively small number of NCS students and did not submit funding application to EDB, and hence these primary schools were not provided with the additional funding.
2. To enhance the support for NCS students in learning Chinese and create an inclusive learning environment in schools, EDB will, starting from the 2020/21 school year,

provide a new two-tiered subsidy for all schools admitting a relatively small number of NCS students (1 to 5 NCS students and 6 to 9 NCS students respectively) and increase the amount of the additional funding from currently \$50,000 to \$0.15 million or \$0.3 million. It is estimated that about 200 primary schools will be provided with the additional funding in the 2020/21 school year, benefitting about 600 NCS students. The expenditure involved will be about \$34.35 million. The amount of the additional funding provided to schools admitting NCS students will also be adjusted based on the year-on-year movement of the Composite Consumer Price Index and/or the annual rates of the Civil Service Pay Adjustment.

3. As NCS students regard Hong Kong as their home, it is hoped that they will attain the Chinese proficiency level comparable to that of the Chinese-speaking students in the long run so that their competitiveness in the workplace will be similar to that of other Chinese-speaking people in the end. We consider that formulating a separate curriculum is not beneficial to the future of NCS students, and it is also likely to create a labelling effect.

The “Learning Framework”, designed on the basis of the mainstream Chinese Language curriculum, provides steps and methods for learning and teaching, and assessment for teachers’ reference in teaching and making flexible adaptations according to the learning progress of NCS students. Teachers can make reference to the “Learning Framework”, which is not independent of the mainstream Chinese Language curriculum, to set learning targets, learning progress and expected learning outcomes in listening, speaking, reading and writing, as well as adapt and develop teaching materials at the school-based level for NCS students with different starting points and abilities, so as to help these second language learners use a “small-step” approach to learn Chinese progressively.

EDB has been continuously developing diversified learning and teaching resources such as the “Chinese Language Assessment Tools for NCS Students” and teaching reference materials to provide guidelines and support for teachers with regard to curriculum planning, learning and teaching, and assessment. These resources have been uploaded to the EDB webpage and will be updated on an ongoing basis. Besides, EDB has been providing funding support to schools, tertiary institutions and organisations through the Quality Education Fund, the Language Fund, etc. for developing learning and teaching resources to cater for NCS students’ learning needs.

To enhance teachers’ professional capability in teaching NCS students, EDB has been continuously organising systematic and diversified professional development programmes, arranging successful experience sharing covering topics such as curriculum planning, learning and teaching strategies, and assessment as well as developing school-based teaching materials and exemplars, etc. to enable teachers to gain a deeper understanding of the “Learning Framework” and master effective teaching methods. In addition, the 5-week programme “Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Students”, funded by EDB and conducted by the Education University of Hong Kong, for Chinese Language teachers teaching NCS students in primary and secondary schools will continue. EDB will continue to implement the “Professional Enhancement Grant Scheme for Chinese Language Teachers (Teaching Chinese as a Second Language)”

under the Language Fund with a view to encouraging serving Chinese Language teachers, through the provision of grant, to pursue recognised postgraduate certificate, postgraduate diploma and/or master's degree programmes under the Scheme.

Besides, EDB will continue to provide diversified school-based professional support services, including on-site support services provided by EDB's professional officers and school-based support services commissioned to post-secondary institutions, to assist schools in developing their school-based Chinese Language curricula, designing appropriate learning materials and adopting diversified modes of assessment with reference to the "Learning Framework". Besides, through the setting up of professional learning communities, there are inter-school collaboration and successful experience sharing among teachers on topics such as how to help NCS students learn Chinese, thus promoting professional exchange among schools.

Apart from supporting NCS students in learning Chinese, EDB has been providing professional support for teachers teaching other key learning areas/subjects, including the provision of professional development opportunities (such as seminars, workshops, and networking activities) and school-based professional support services with the focus on catering for learner diversity, so as to assist schools in adapting their school-based curricula and adopting teaching strategies effectively, with a view to enhancing the learning effectiveness of NCS students.

(Question Serial No. 0098)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Matters Requiring Special Attention in 2020–21 under Programme (4) that the Bureau will enhance the additional funding to all public sector secondary schools and Direct Subsidy Scheme (DSS) secondary schools admitting a relatively small number of non-Chinese speaking (NCS) students under a new two-tiered arrangement to facilitate the implementation of the “Chinese Language Curriculum Second Language Learning Framework” for NCS students to learn Chinese as a second language effectively starting from the 2020/21 school year. In this connection, please provide this Committee the following information:

1. in each of the past 5 years, the number of NCS students admitted to public sector and DSS secondary schools with admission of a relatively small number of NCS students, number of these secondary schools and the funding allocated.
2. In 2020-21, the number of NCS students expected to be admitted to public sector and DSS secondary schools with admission of a relatively small number of NCS students, the estimated number of these secondary schools and funding allocated.
3. the research report from Equal Opportunities Commission in January 2020 shows the deficiency in education for NCS students. For instance, only 37.8% of Chinese language subject teachers and 54.1% of non-Chinese language subject teachers reported being confident in “teaching non-Chinese speaking students to achieve a similar level of the Chinese speaking students”. And 92.6% of the interviewed principals expressed that support from the Education Bureau for non-Chinese speaking students in learning other subjects (e.g. Mathematics, General Studies) is insufficient. Besides increased funding, will the Bureau provide additional support and resources to secondary schools, and in the long term, formulate a comprehensive school curriculum for NCS students?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 40)

Reply:

1. Starting from the 2014/15 school year, the Education Bureau (EDB) has substantially increased the additional funding to schools, and provided schools with teaching resources, teacher training and professional support to further enhance the support for non-Chinese speaking (NCS) students' learning of the Chinese language, including the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework"), which was drawn up in consultation with teachers and language experts, in primary and secondary schools and the creation of an inclusive learning environment in schools. (Question Serial No. 0099)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (5) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding special education, Audit Reports released in October 2019 and the Public Accounts Committee reports concerned have made recommendations to the Bureau in terms of provision and management of school places and boarding places, staffing of special schools and grants and support for special education. Please inform this Committee of the latest progress of the follow-up action on the above 3 aspects. What is the amount of provision and other resources to be deployed?

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 41)

Reply:

The Audit Commission released the Report No. 73 of the Director of Audit (the subject of Chapter 5 is "Special education") on 27 November 2019, and the Public Accounts Committee (PAC) also tabled the PAC Report No. 73 (Chapter 5 of Part 9 is related to "Special education") to the meeting of the Legislative Council on 26 February 2020. The Education Bureau (EDB) accepts and is following up on the recommendations made on 3 aspects, namely, provision and management of school places and boarding places in special schools, staffing of special schools, and grants and support for special education in the above two reports.

The EDB has been reviewing the development of special education and resource allocation from the perspective of the education profession and the learning needs of students for enhancing the quality of education. In the 2020-21 financial year, the EDB's estimated expenditure on special education is about \$3.34 billion, representing an increase by around 36% as compared to \$2.46 billion in the 2017-18 financial year when the current-term Government assumed office. In fact, the EDB has introduced various improvement measures in special schools in recent years to enhance their capabilities to support students with more severe or multiple disabilities more effectively. The Chief Executive also announced in the 2019 Policy Address that the staff establishment and resources of the boarding sections of aided special schools will be further enhanced starting from the 2020/21 school year so that better services will be provided to the boarders of these schools. Such initiative is in line with the recommendations made in the Audit Report. Besides, the

EDB has kicked off in-depth discussions with the special school sector on the recommendations made in the Audit Report, including referral and placement mechanism of special schools, use of the boarding places of special schools, admission arrangement to schools for social development and the period of stay of their students, recruitment of specialist staff and non-specialist staff in special schools, funding support for meeting expenses on furniture and equipment, grants provided for students with medical complexity, as well as issues on professional training for special school teachers, the Tripartite Model of Support provided for special schools and school leaving arrangements for students. With reference to the views of the stakeholders, the EDB will implement the relevant recommendations where feasible so as to further enhance the effectiveness of special schools in providing better support for students. Moreover, the EDB has been vigorously following up on Audit's recommendation on closely monitoring the development of the new school for children with intellectual disability in Tung Chung. This school for children with intellectual disability has been handed over to the school sponsoring body in November 2019 for preparation for commencement of operation. However, owing to school suspension arising from the COVID-19 epidemic, the admission to this new school has been suspended for the time being.

EDB195

(Question Serial No. 0100)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Matters Requiring Special Attention in 2020-21 under Programme (6) that the Bureau will redeploy resources previously dedicated to production of educational television programmes to development of diversified educational multimedia resources to support learning and teaching in schools. In this connection, please provide the following information:

- (1) the provision and other resources dedicated to the production of educational television programmes in each of the past 5 years;
- (2) length (in hours) and genres of programmes (e.g. Chinese, English or general studies) produced in each of the past 5 years; and
- (3) detailed plan of the development of diversified educational multimedia resources, and provision to be allocated this year.

Asked by: Hon SHEK Lai-him, Abraham (LegCo internal reference no.: 42)

Reply:

- (1) From 2015-16 to 2019-20, the amount of funding provided by the Education Bureau (EDB) for the production of educational television (ETV) programmes by Radio Television Hong Kong (RTHK) is as follows:-

Year	Funding (\$ million)
2015-16	32.1*
2016-17	34.5*
2017-18	29.8*
2018-19	27.4*
2019-20	27.9 [#]

* Actual expenditure

Revised expenditure

The above expenditure does not include the manpower expenses of the EDB in the production process. We cannot single out the manpower expenses associated with the development of learning and teaching resources (including ETV programmes) as it is an integral part of our day-to-day curriculum development work.

(2) From 2015-16 to 2019-20, the EDB has produced over 60 brand-new ETV programmes, ranging from 10 to 20 minutes, for kindergarten, primary and secondary school students, teachers and parents each year. The details are as follows:-

Content	Financial Year				
	2015-16	2016-17	2017-18	2018-19	2019-20
Kindergartens: Kindergarten Education	3	10	9	6	10
Primary Schools: Chinese Language Education, English Language Education, Mathematics Education and General Studies	47	33	30	28	26
Secondary Schools: Chinese Language Education, English Language Education, Mathematics Education, Personal, Social & Humanities Education, and Science Education	18	14	21	16	6
Others: Other Key Learning Areas/ Levels of Education; Parent/ Teacher Resource Programmes and Education Magazine	12	23	10	12	20

(3) Starting from 2020-21, ETV service will be repositioned in light of the recommendations made in the Director of Audit's Report No. 71. The EDB will redeploy resources previously dedicated to the production of ETV programmes and cease to provide annual funding for RTHK to produce a certain number of ETV programmes. Instead, the EDB will develop diversified multimedia learning and teaching resources with reference to curricular needs, including thematic short videos, micro movies, photos, sound tracks, interactive games, as well as picture books, nursery rhymes and props for storytelling for

kindergartens. Moving beyond the confines of television programmes, these educational resources are produced to better meet schools' teaching needs. To produce the diversified learning and teaching resources outlined above, the EDB will increase the scale of commissioning the production of multimedia resources by engaging service providers in the market to tap innovative inputs and enhance production quality. RTHK will be invited to bid for the contracts just like other service providers with production experience. The estimated expenditure for the development of diversified educational multimedia resources for 2020-21 is \$30 million.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (8) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

List out and provide information on the programmes and courses related to the teaching and learning of NCS students in the past 4 years, from early childhood education diploma to graduate programmes. For each institution, provide the following information:

name of programme/course;
commencement year of programme/course;
total amount of funding provided by the government for the programme/course;
type/level of programme/course;
mode of teaching (full-time/part-time);
target group (pre-service and/or in-service teachers);
target level of education (non-specific, pre-primary, primary, secondary, others);
frequency (e.g. annually, quarterly, etc.);
duration of programme/course;
mode of programme/course fee (e.g. funding, re-imburement at completion etc.);
programme/course fee;
amount of tuition fee subsidy by the government;
admission quota for each batch;
accumulative number of applicants as of March 2019;
accumulative number of enrolled students as of March 2019; and
accumulative number of graduates as of March 2019.

Regarding the training for in-service teachers commissioned by the EDB related to the teaching of Chinese to NCS students for serving teachers from kindergartens, primary schools and secondary schools, please list out the activities with the following details:

Name of programme/course;
Types of programmes;
Tertiary institutions and other organizations commissioned;
Topic and content of the thematic training;
Target participants;
No. of teachers enrolled;
No. of teachers attended;

Duration of the programme;
Funding expenditure; and
Mode of evaluation.

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 4)

Reply:

Teacher education universities in Hong Kong enjoy institutional autonomy in curriculum planning and development. Therefore, the Government and the University Grants Committee (UGC) do not require teacher education universities to provide information on their programmes in respect of specific theme (e.g. supporting non-Chinese speaking (NCS) students).

To our knowledge, teacher education universities now offer training programmes related to the teaching of Chinese to NCS students. For example, the Education University of Hong Kong (EdUHK) offers Teaching Chinese as an International Language as a minor under their Bachelor of Education (Honours) (Chinese Language) and also offers a UGC-funded Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Children. From the 2016/17 school year onwards, the EdUHK has been offering the part-time Bachelor of Education (Honours) (Early Childhood Education) in Leadership and NCS Children, a UGC-funded part-time top-up programme, and started offering the part-time Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Children in the 2017/18 school year. Given the diversified modes of the programmes concerned (including having the expenditure subsumed under the overall subventions to the UGC, operating as self-financing programmes, etc.), we do not have detailed information on these programmes.

As for training for in-service teachers, the Education Bureau (EDB) commissioned tertiary institutions and other organisations to organise thematic training activities related to the teaching of Chinese to NCS students for serving teachers from kindergartens, primary schools and secondary schools to join according to their needs. The EDB commissioned the University of Hong Kong to organise 10 teacher workshops for primary and secondary teachers teaching NCS students Chinese Language in each school year. The content of the workshops includes overall curriculum planning of Chinese Language teaching for NCS students, Chinese Language teaching strategies and design of diverse activities, cross-cultural understanding and classroom teaching, experience sharing of learning and teaching of Chinese Language for NCS students. About 2 000 teachers attended the workshops from 2016/17 school year to February 2020. The annual expenditure was around \$300,000 to \$500,000. Besides, starting from the 2017/18 school year, we commissioned a tertiary institution to organise a specified basic training course for kindergarten teachers on supporting NCS children in learning Chinese. The actual expenditures for the 2017/18 and 2018/19 school years were \$1.4 million and \$2.01 million respectively. The estimated expenditures for the 2019/20 and 2020/21 school years are \$2.6 million for each school year. (Note: The actual expenditure for the 2018/19 school year and the estimated expenditures for the 2019/20 and 2020/21 school years have included a supply teacher grant launched in the 2018/19 school year to facilitate kindergartens in arranging teachers to participate in the related courses).

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 5)

Reply:

The number of kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) in the 2015/16 and 2016/17 school years and under the KG education scheme (Scheme) in the 2017/18 and 2018/19 school years, with the number of non-Chinese speaking (NCS) students ranging from “0”, “1 to 7”, “8 to 25”, “26 to 50” and “51 or above”, is tabulated at Appendix 1; the percentage share of NCS students out of the total number of students in KGs is tabulated at Appendix 2. As only 1 to 2 KGs in some districts have admitted a certain number/percentage of NCS students, providing the number of KGs with a breakdown by the above-mentioned number/percentage of NCS students and by district may cause unnecessary misconception and possible labelling on schools in

individual districts. We have been adopting a prudent approach and adhering to the established practice of not disclosing information about the admission of NCS students by KGs in different districts by number/percentage of NCS students. We will continue to gauge further views from the sector with a view to releasing more information relating to support for NCS students as far as practicable.

The school-age population aged 3 to 5 residing in Hong Kong (i.e. usual residents of Hong Kong) is indeed the mid-year population estimates compiled by the Census and Statistics Department. No breakdown by ethnic minority is available for analysis. The number of ethnic minority students in KGs and the number of NCS students in KGs from the 2015/16 to 2019/20 school years are tabulated at Appendix 3.

As for reporting of KG absentees, the requirement for KGs under the Scheme (Scheme-KGs) to report cases in which students have been absent for an entire month is to ensure the prudent use of public funds. As such, data are not examined on a case basis. Instead, we use the data to work out the number of students not entitled to subsidy because of month-long absence in each month. For example, a student attending a Scheme-KG has been absent for an entire month without giving reasons. However, during the period of absence, that student is actually studying in another KG not under the Scheme. As the original KG is not aware that the student has been transferred to another KG, it will report to the Education Bureau (EDB) that the student has been absent for the entire month and the EDB will accordingly withhold the disbursement of subsidy for this student for the month concerned. As the data are based on headcounts and students having been transferred may be reported as absentees by the original KG unknowingly, we are unable to provide the number of cases in KGs each year which students have been absent for an entire month.

From the 2017/18 to 2019/20 school years, the number of students applying for extension of the validity period of the Registration Certificate for Kindergarten Admission (RC) and the relevant information are tabulated below. Since the provision of information to the EDB on student background (spoken language at home, ethnicity, etc.) is not required for the application for both RC and the extension of the validity period of RC, we are unable to provide the relevant information.

	No. of students applied for the extension of RC	No. of students approved for the extension of RC
2019/20 (Note 1)	516	408
2018/19	1 331	1 247
2017/18	1 508	1 388

Note 1: Figures refer to the position as at February 2020.

**Number of KGs under the PEVS in the 2015/16 and 2016/17 school years and
under the Scheme in the 2017/18 and 2018/19 school years
(by the number of NCS students
ranging from “0”, “1 to 7”, “8 to 25”, “26 to 50” and “51 or above”)**

School year	No. of NCS students admitted					Total no. of NCS students

CONTROLLING OFFICER'S REPLY**EDB198****(Question Serial No. 1096)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Under the Quality Review Mechanism of kindergartens, a review team will assess whether the kindergarten has met the prescribed standards according to the Performance Indicators (Pre-primary Institutions). Starting from the 2018/19 school year, the Bureau stated that both the Chinese and English versions of the Quality Review (QR) reports will be provided. Will the government inform the Council of:

the details of kindergarten visits, including the number of school visits conducted, number of QR reports published online in Chinese and English, and whether they met the QR standards in the recent 5 years;

	2015/16	2016/17	2017/18	2018/19	2019/20
No. of kindergartens visited by the review team					
No. of QR reports published in Chinese					
No. of QR reports published in English					
No. of kindergartens that apply for a follow up QR					
No. of kindergartens which met the standards of QR					
No. of kindergartens which did not meet the standards of QR					

the mechanism and timeframe involved in preparing the QR report in both Chinese and English (e.g. are Chinese QR reports translated to English within one month and uploaded on the website at the same time, etc.); the cycle of the Quality Review and the average frequency for one kindergarten to be inspected by the QR team; and the number of external observers involved, and the relevant expenditures involved in the external independent members for QR if they are provided with honoraria.

	2015/16	2016/17	2017/18	2018/19	2019/20
No. of external observers involved					
Relevant expenditure involved in the external independent members for QR if they are provided with honoraria					

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 6)

Reply:

The kindergarten (KG) education scheme (Scheme) was launched by the Education Bureau (EDB) starting from the 2017/18 school year, and prior to this, the Pre-primary Education Voucher Scheme was implemented. All KGs participating in these 2 schemes are subject to the Quality Assurance Framework, which comprises School Self-evaluation (SSE) by KGs and Quality Review (QR) by the EDB. Both SSE and QR are conducted on the basis of performance indicators.

From the 2015/16 to 2018/19 school years, we conducted QR for 123, 128, 135 and 120 KGs respectively. In the 2019/20 school year, in light of the social events and the novel coronavirus epidemic, the EDB announced class suspension for all schools in the territory in mid-November 2019 and early 2020 respectively. QR visits have thus been postponed. As at mid-January 2020 in the 2019/20 school year, we have conducted QR for 43 KGs. This QR cycle started from the 2018/19 school year. The timing for conducting QR at individual KGs is mainly determined by random selection and adjustments will be made taking into consideration the interval between the previous and upcoming QRs. Except 1 KG which was assessed as not meeting the prescribed standards of QR in the 2015/16 school year and applied for a follow-up QR in the 2016/17 school year, all KGs assessed in the recent 5 years have met the prescribed standards.

On preparation of QR reports, a review team usually issues the draft QR report to the KG concerned around 2 months after the QR visit. Within about 4 weeks upon receipt of the draft report, the KG is required to give a reply. A final QR report will be issued to the KG and uploaded onto the EDB website within 4 weeks upon receipt of the written reply from the KG. Having considered the views of KGs and parents, we have made the Chinese QR reports and their English translations available for public information starting from the 2018/19 school year. Both Chinese and English versions of all QR reports for the 2018/19 school year have been uploaded onto the EDB website, and those for the 2019/20 school year will be uploaded in succession.

Since the 2013/14 school year, we have engaged external independent members as observers and progressively increased the number of QRs that involve these external observers. In the 2018/19 and 2019/20 school years, a pilot scheme has been implemented to invite serving KG principals as external observers to further enhance the transparency of QR. From the 2015/16 to 2019/20 school years, the numbers of external observers are 8, 10, 6, 20 (4 external independent members and 16 serving principals) and 18 (4 external independent members and 14 serving principals) respectively. These external independent

members are provided with honoraria. From the 2015/16 to 2019/20 school years, the relevant expenditures are \$100,000, \$160,000, \$200,000, \$110,000 and \$130,000 respectively. Starting from the 2018/19 school year, there has been a drop in the expenditure on honoraria because some serving KG principals have taken up the role of external observer on a voluntary basis. The number of external observers and expenditure for the 2019/20 school year mentioned above are estimated figures, which are subject to adjustments on account of class suspension for all KGs in the territory.

(Question Serial No. 1097)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (2) Pre-primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Please list out the number of support programmes (including development of curriculum, and teaching and learning materials, after-school support, etc.) implemented or funded by the government for kindergartens (KGs) admitting NCS students from the 2017/18 to 2019/20 school years with the following details: Institution/organisation in-charge; Name of project; List of partner institutions/organisations; Source of funding; Budget (\$); Duration/Period; Project description; No. of kindergartens benefited; No. of NCS students benefited; No. of NCS parents benefited; Modes of evaluation; Publications; and whether they are accessible to the public; if yes, where are they located physically or on the website; if not, why not.

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 17)

Reply:

In the 2017/18 and 2018/19 school years, the Hong Kong Christian Service and the Hong Kong Sheng Kung Hui Lady MacLehose Centre, financed by the Language Fund of the Education Bureau (EDB), organised a 24-month “District-based Project on Supporting Non-Chinese Speaking Children in Learning Chinese” for non-Chinese speaking (NCS) children aged 3 to 9 in the territory, motivating them to learn Chinese through fun activities such as visits, games and creative art. The expenditures involved in the 2 school years were \$1.7 million and \$3.7 million respectively. About 400 NCS children benefited from the project each school year and about half of them were NCS children studying in kindergartens (KGs). As the primary aim of the above project is to enhance NCS students’ interest in learning Chinese through engaging them in activities, there is neither any publication nor number of parents benefited. Also in the 2017/18 and 2018/19 school years, the University of Hong Kong (HKU) implemented a 19-month project under the University-School Support Programmes financed by the Education Development Fund to provide KGs and primary schools with school-based professional support to enhance teachers’ capacity in teaching Chinese to NCS children. The support was provided to 20 KGs each year. Since the project supported both KGs and primary schools at the same time, a breakdown of expenditure for KGs is not available. Besides, as it provided support

for teachers at the school level, the numbers of students and parents receiving support were not available. The experience generated from the project has been published and uploaded onto the EDB website (https://www.edb.gov.hk/attachment/tc/curriculum-development/kla/chi-edu/second-lang/Book_5.pdf). The EDB has commissioned the HKU School of Professional and Continuing Education (HKU SPACE) and the HKU to provide school-based support services for KGs admitting NCS students in the 3 school years from 2019/20 to 2021/22, so as to enhance teachers' professional capacity in teaching Chinese to NCS students. In the 2019/20 school year, 17 KGs receive support from the HKU SPACE and an estimated expenditure on the services is \$960,000. Another 11 KGs receive support from the HKU and as the project is implemented in both KGs and primary schools, a breakdown of expenditure for KGs is not available. Since the two projects provide support for teachers at the school level, the numbers of students and parents receiving support are not available. It is planned that the experience generated from these 2 school-based support service projects will be published and uploaded onto the EDB website upon completion of the projects in the 2021/22 school year. The EDB employs various means, such as observations of the activities conducted, meetings with service providers, scrutiny of reports submitted by service providers, etc. to evaluate the effectiveness of the above support projects.

Details of the specific NCS project or publications conducted by the team (if any);

Name of NCS Project	No. of schools joined/ covered in the project	No. of beneficiaries (NCS students)	Total project expenditure (\$)	Project description	List of publications (if applicable)	Whether or not the publications are public; if yes, how; if not, why

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 18)

Reply:

The Education Bureau (EDB) has been providing various support for kindergartens (KGs) to facilitate their delivery of quality KG education services. The School-based Support (Kindergarten) Section (SBSK Section) of the EDB is one of the sections which provide the support services. It comprises 13 staff members in the 2015/16 and 2016/17 school years, and 18 staff members since the 2017/18 school year. Through on-site professional support services and school network activities, officers in the SBSK Section, in collaboration with other sections of the EDB, KG educational experts and academics, provide teachers of KGs joining the school-based support services with professional advice on learning and teaching and promote professional exchanges among KGs, with a view to enhancing teachers' professional knowledge and capacity in providing quality KG education. In the past 5 years, the numbers of KGs joining the school-based support services were 115, 121, 135, 125 and 123 respectively. Some of these KGs admitted non-Chinese speaking (NCS) students, and the respective numbers were 55, 58, 66, 69 and 71. It should be noted that all KGs opt for services in light of school context. As such, the foci of support for KGs admitting NCS students are not necessarily targeted at NCS students specifically, and may include cultivating students' moral development, exploratory spirit, etc. Regarding the support for NCS students, the SBSK Section will help KGs create an inclusive and harmonious learning environment, enhance teachers' professional knowledge about taking care of NCS students and promote professional exchanges among KGs, with a view to enabling NCS students to learn language in an authentic language environment and facilitating a smooth transition to primary schooling for them. A book titled 《少數族裔兒童之從「會學」到「學會」》, which includes the experience and knowledge gathered during the provision of support, has been compiled and uploaded onto the EDB website for KGs' reference. As the target recipients of the above support services are schools and the relevant expenditure is subsumed under the overall expenditure of the EDB, the number of beneficiaries (NCS students) and a breakdown of expenditure by item are not available.

EDB201

(Question Serial No. 1099)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (2) Pre-primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the quality kindergarten education and the transition to primary schools of ethnic minority children, research from frontline NGOs shows that ethnic minority parents are not confident to send children to mainstream primary school even if they graduate from local kindergarten due to the language acquisition is not up to a level to smoothly transit to a learning environment which mainly use Chinese as the medium of instruction. Will the government inform the council:

Number of non-Chinese speaking ('NCS') students from local kindergartens that enter mainstream schools that use Chinese as the medium of instruction?

The performance indicators stated that "4.2 Language Ability" under the area of "Cognitive Development" refers to the mother tongue development of children who are mostly taught in mother tongue at kindergartens. Kindergartens should not use the same performance indicators to assess children's learning in a second language." Can EDB clarify if it means KGs are encouraged to teach NCS children a different Chinese level compared to the Chinese-speaking students?

What is the indicator to see whether NCS students from KGs have reach the language ability under cognitive development, as stated in the performance indicators?

The list of support measures provided or commissioned by EDB to facilitate a smooth transition from kindergarten to primary school for NCS students.

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 19)

Reply:

The Education Bureau (EDB) does not collect data on non-Chinese speaking (NCS) students who enter mainstream schools with Chinese as the medium of instruction, but this

can be reflected by the statistics collected in the annual Enrolment Survey for primary schools. The numbers of NCS Primary One (P1) students studying in public sector schools from the school years 2017/18 to 2019/20 are tabulated below:

	2017/18 school year	2018/19 school year	2019/20 school year
No. of NCS P1 students	1 464	1 529	1 566

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include public sector primary schools but exclude special schools.
3. Figures cover those Chinese students who are NCS based on the spoken language at home.

Performance Indicators (Kindergartens) (PIs) is a self-evaluation tool which helps schools promote their sustainable development. Domain IV of PIs provides a list of performance items on child development (including language ability) for schools' reference in order to understand the general development of children. Child development is an incremental progressive process, and individual development is affected by home environment and cultural background. As for language ability, since NCS children have a different "starting point" and Chinese learning environment when compared with children whose mother tongue is Chinese, when schools apply the PIs on language ability to their planning of school-based curriculum, they are reminded to make appropriate adaptations based on the language backgrounds and abilities of students. Supporting NCS children is part of the work in catering for the diverse needs of children. The EDB offers advice and recommendations to schools for promoting their sustainable development with reference to individual school contexts. Kindergartens (KGs) are encouraged to formulate appropriate learning and teaching strategies according to NCS children's Chinese learning abilities and needs, including helping NCS children build up confidence to learn and use Chinese, flexibly arranging and adapting language learning activities, and adopting flexible assessment criteria, so as to cater for learner diversity.

The EDB has all along been providing diversified support to facilitate NCS children's early adaptation to the local education system. As far as curriculum is concerned, the revised Kindergarten Education Curriculum Guide sets out rationale and directions to guide local KGs in facilitating NCS children's integration into schools. It also introduces specific strategies and relevant resources to teachers on how to help NCS children learn Chinese. In addition, the EDB provides professional training courses for KG teachers on teaching of NCS children. Each KG joining the kindergarten education scheme (Scheme-KG) should have at least one teacher having attended the basic course recognised by the EDB by the end of the 2020/21 school year. The EDB also renders different modes of school-based support to KGs and all KGs may apply for such support services. Under the kindergarten education scheme, the overall teacher-to-pupil ratio has been improved to 1:11 so that teachers have more room for various professional activities, including those catering for children's diverse needs. Moreover, Scheme-KGs can receive a grant according to the number of NCS children admitted for rendering more appropriate support to NCS students, thereby fostering a diversified culture, building an inclusive environment, and helping NCS students learn Chinese and lay a solid foundation. Starting from the 2017/18 school year, Scheme-KGs with 8 or more NCS students are entitled to a grant equivalent to the

mid-point salary of the recommended salary range for a KG teacher. From the 2019/20 school year onwards, the EDB further enhances the measure and provides Scheme-KGs with a five-tiered grant from \$50,000 to \$800,000 according to the number of NCS students admitted.

Regarding the transition from KG to primary school, the EDB organises the Summer Bridging Programme for NCS P1 entrants to facilitate their adaptation to classroom setting with the use of Chinese. Parents of NCS children can also join the Programme so as to enhance the effectiveness of Chinese learning through parents' support and home-school cooperation.

	no. of PTA in KG (and % among the total no. of KGs)	no. of newly set up PTA in that school year	no. of PTA with NCS parents/ teachers as members	no. of PTA in primary school (and % among the total no. of primary school)	no. of newly set up PTA in that school year	no. of PTA with NCS parents/ teachers as members	no. of PTA in Secondary school (and % among the total no. of secondary school)	no. of newly set up PTA in that school year	no. of PTA with NCS parents/ teachers as members
2015/16									
2016/17									
2017/18									
2018/19									
2019/20									

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 20)

Reply:

(a) and (b)

The Committee on Home-School Co-operation (CHSC) organises around 70 activities on home-school co-operation and parent education each year, including parent-child seminars, workshops, competition series, annual symposiums, etc. These activities seek to heighten parents' awareness of home-school co-operation and encourage their participation in the activities organised by Parent-Teacher Associations (PTAs) of schools. From the 2016/17 school year onwards, the CHSC collaborates with the Hong Kong Examinations and Assessment Authority, Hong Kong Institute of Vocational Education, etc. every year to organise seminars specifically for non-Chinese speaking (NCS) parents, which provide information on the diverse examination services as well as study and career pathways for NCS students, thereby encouraging NCS parents to engage in life planning of their children. Besides, a study on communication between schools and parents was completed by the CHSC in the previous school year. The study report has been uploaded to the CHSC website, and sharing sessions have been organised for parents and schools to understand better the related issues and the recommendations made, so as to further promote home-school co-operation and parent education. The Education Bureau (EDB) has been rendering support to the CHSC in organising activities and conducting studies. As the related expenses of the CHSC are subsumed under the EDB's recurrent expenditure, there is no separate breakdown for individual items.

(c)

In the 2019/20 school year, there were 1 653 schools applying for the Home-School Co-operation Grants and 3 656 activities were approved to receive subsidies, involving an expenditure of around \$47.5 million. Home-school co-operation and parent education activities subsidised under the Grants include those that seek to help students nurture positive values and lifestyles, enhance parent-child relationship, develop children's communication skills, promote "Happy Kids Charter", assist parents in supporting their children's learning, and help parents understand school and education policies, etc. Given the extensive scope and diverse nature of over 3 600 activities, we do not collect information on individual items, and thus the number of activities specifically for NCS parents is not available. PTAs of schools are required to prepare an assessment report upon completion of each activity. Starting from the 2020/21 school year, we will provide a series of parent education programmes for NCS parents, which will involve a non-recurrent provision of \$15 million for 5 years.

(d)

Parents play a vital role in their children's development. Hence, the EDB encourages kindergartens (KGs) to enhance communication with parents through multiple channels, and set up PTAs to strengthen connection and establish partnership between parents and schools. According to the information provided by schools, the number of KGs (including KG-cum-child care centres) with PTAs and their percentage share in the total number of KGs in the 2015/16, 2016/17, 2017/18, 2018/19 and 2019/20 school years are as follows:

School year	No. of KGs with PTAs	Percentage share in the total no. of KGs
2015/16	318	32%
2016/17	323	32%
2017/18	326	32%
2018/19	343	33%
2019/20	349	33%

As far as the above 5 school years are concerned, all government and aided primary and secondary schools have set up PTAs. Since we do not collect information on the spoken language of members of PTAs in KGs and primary and secondary schools, the number of PTAs with NCS parents/teachers serving as members is not available.

- End -

CONTROLLING OFFICER'S REPLY**EDB203****(Question Serial No. 3099)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (5) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)Director of Bureau: Secretary for EducationQuestion:

How many teachers completed the special education training programmes in the past 3 years? What were the expenditures involved?

Among the teachers who have completed the special education training programmes, how many are teaching in ordinary schools and how many are teaching in special schools?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 14)Reply:

To enhance the professional capacity of teachers in supporting students with special educational needs, the Education Bureau has been providing serving teachers with structured training courses pitched at the basic, advanced and thematic levels (BAT Courses) since the 2007/08 school year. The number of public sector ordinary primary and secondary school teachers and special school teachers having completed the BAT Courses and the actual expenditure on the BAT Courses from the 2016/17 to 2018/19 school years are set out in Table (1) and Table (2) respectively:

Table (1)

Course	2016/17			2017/18			2018/19		
	Primary schools	Secondary schools	Special schools	Primary schools	Secondary schools	Special schools	Primary schools	Secondary schools	Special schools

Thematic	204	248	25	217	270	27	209	265	12

Table (2)

Course	Actual expenditure (\$ million)		
	2016/17	2017/18	2018/19
Basic	10.4	10.3	11.0
Advanced	16.3	15.5	16.8
Thematic	25.3	27.9	28.1
Total	52.0	53.7	55.9

Starting from the 2012/13 school year, we have been organising the Training Course for Special School Teachers (TCSST) specifically for serving special school teachers. The number of special school teachers having completed the TCSST and the related actual expenditure from the 2016/17 to 2018/19 school years are as follows:

	2016/17		2017/18		2018/19	
	Number of teachers	Actual expenditure (\$ million)	Number of teachers	Actual expenditure (\$ million)	Number of teachers	Actual expenditure (\$ million)
TCSST	36	4.5	31	3.9	40	5.3

CONTROLLING OFFICER'S REPLY

EDB204

(Question Serial No. 3100)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding schools applying for the Learning Support Grant for the provision of tier-1, tier-2 and tier-3 support in the past 3 years, would the Government advise this Committee of:

- (1) the number of applications made by schools in each of the 18 districts;
- (2) the total provision for schools in each district;
- (3) the numbers of primary and secondary school students by type of special educational needs; and
- (4) their age distribution.

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 15)

Reply:

(1) to (4)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB), on top of regular subvention, has been providing schools with additional resources (including the Learning Support Grant (LSG)), professional support and teacher training. All schools are required to adopt the Whole School Approach to provide support for students with SEN through the 3-tier Intervention Model, taking into account their needs. Under the 3-tier Intervention Model, tier-1 support refers to early identification and catering for all students with diverse learning and adjustment needs, including those with mild or transient learning or adjustment difficulties, through quality teaching in regular classroom. Teachers will apply their professional knowledge and skills in providing students with tier-1 support. Basically, all students can benefit from tier-1 support and schools are not required to submit information about these students to the EDB. No additional resources will be provided to schools in this regard. Tier-2 support refers to additional support/ "add-on" intervention for students with persistent learning or adjustment difficulties, such as small group learning, after-school remedial programmes and pull-out

remedial programmes. Tier-3 support refers to individualised intensive support for students with persistent and severe learning or adjustment difficulties, including drawing up of Individual Education Plans.

When providing additional resources, the EDB takes into account various parameters, such as the number of students with SEN in schools, and the tier of support they require. Based on the principle of “calculation on individual basis and deployment holistically”, schools should pool and deploy the LSG and other school resources flexibly and holistically. Besides, the tier of support for students with SEN is subject to upward or downward adjustment from time to time, depending on the performance of the students and the support they require at different times, and the distribution of students under the 3-tier Intervention Model may change accordingly. Hence, the overall concept of the LSG is not about applying for and then using the LSG on students who require a specific tier of support. To provide a full picture of the provision of the LSG to schools, the number of public sector ordinary primary and secondary schools provided with the LSG and the total provision in the past 3 years (2017/18 to 2019/20 school years) are set out at Appendix 1.

The distribution of public sector ordinary primary and secondary schools eligible for the LSG by number of students with SEN requiring tier-2 and tier-3 support in the 2017/18 and 2018/19 school years is set out at Appendix 2 respectively.

In the 2018/19 school year and before, ordinary schools were provided with additional resources under various funding modes to support students with SEN. For instance, some schools opted for the LSG, some schools implemented the Integrated Education (IE) Programme, some primary schools implemented the Intensive Remedial Teaching Programme (IRTP), and some primary schools adopted a Mixed Mode of implementing IRTP while receiving the LSG. As schools were provided with additional resources under different modes (i.e. some were provided with additional grants, some were provided with additional teaching post(s)), schools would adopt diversified strategies to support their students with SEN according to school-based circumstances. Different criteria are used under these funding modes in providing additional resources for schools. For example, schools implementing IE Programme or IRTP were provided with additional teaching manpower but the LSG was not available for flexible deployment in catering for each student with SEN. Besides, there was a basic provision under the LSG in the past, i.e. schools with 1 to 6 student(s) requiring tier-3 support were all provided with the same amount of basic provision. In view of the above factors, the schools concerned might not report to the EDB the tier of support required by each of their students and the number of all students receiving tier-3 support.

The EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace IRTP and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG received by the schools reach the specific threshold. With the implementation of the above enhanced LSG, the amount of LSG received by each public sector ordinary school is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same

mode, which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and the EDB collects complete data on the tier of support these students require from schools. The number of students with various types of SEN requiring tier-2 and tier-3 support in public sector ordinary primary and secondary schools in the 2019/20 school year is tabulated at Appendix 3. Please note that these figures cannot be directly compared with those of the 2018/19 school year and before.

Since the provision of additional resources does not have relationship with the districts in which the schools locate or the age of students, a breakdown of the provision by district or by age group is not available.

Number of public sector ordinary primary and secondary schools provided with the Learning Support Grant (LSG) and the total provision from the 2017/18 to 2019/20 school years

		2017/18 (Note 1)	2018/19 (Note 1)	2019/20 (Notes 1 & 2)
Primary school	No. of schools	355	381	455
	Total provision (\$ million)	280.9	308.8	466.5
Secondary school	No. of schools	385	385	389
	Total provision (\$ million)	308.7	337.5	282.5

Notes:

- Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme in the 2017/18 and 2018/19 school years) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level.
- The EDB has implemented a series of enhanced measures (including the enhanced LSG) starting from the 2019/20 school year: (i) restructuring various subvented programmes for IE and extending the LSG to all public sector ordinary schools to replace IRTP and the IE Programme; (ii) increasing the LSG unit grant rate for tier-3 support to four times the rate for tier-2 support; (iii) converting/providing additional regular teaching post(s) titled as Special Educational Needs Support Teacher if the total amount of LSG reaches the specific threshold, so that schools will have a more stable teaching force and additional resources for flexible deployment to support students with SEN. Under the above arrangements, a total of some 1 000 additional regular teaching posts were created in the 2019/20 school year, with 675 schools (431 primary schools and 244 secondary schools) having 1 to 3 such post(s) created.

Table 1

**Distribution of public sector ordinary primary and secondary schools
eligible for the Learning Support Grant (LSG)
by number of students with special educational needs (SEN)
requiring tier-2 support in the 2017/18 and 2018/19 school years**

No. of students with SEN requiring tier-2 support	No. of schools ^{Note}			
	2017/18		2018/19	
	Primary	Secondary	Primary	Secondary
0	9	1	0	1
1-10	41	50	13	39
11-20	23	67	18	54
21-30	19	57	20	64
31-40	47	34	31	36
41-50	57	30	72	34
51-60	65	21	80	21
61-70	41	21	53	25
71-80	28	14	46	19
81-90	10	23	27	15
91-100	8	18	13	15
More than 100	7	49	8	62

Notes:

- Starting from the 2017/18 school year, the LSG covers students with mental illness, with a view to providing schools (including those adopting Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme) with additional resources to better cater for the learning, social, emotional and behavioral needs of these students at the Indicated level. The number of schools in the 2017/18 and 2018/19 school years above covers schools operating IRTP and IE Programme and having students with mental illness for whom LSG has been provided.
- Before the 2019/20 school year, ordinary schools were provided with additional resources with reference to different criteria and principles under various funding modes to support students with SEN. Those schools opting to implement IE Programme or IRTP (i.e. not opting for LSG) might not report to the Education Bureau (EDB) the tier of support required by each of their students and the number of all students receiving tier-3 support. Starting from the 2019/20 school year, the amount of LSG received by each public sector ordinary school under the enhanced LSG measure is calculated based on the number of their students with SEN requiring tier-2 and tier-3 support and the tier of support these students require. Schools are provided with additional resources under the same mode,

which allows a more comprehensive and consistent approach in reporting the tier of support required by students with SEN, and the EDB collects complete data on the tier of support these students require from schools.

Table 2

**Distribution of public sector ordinary primary and secondary schools
eligible for the Learning Support Grant (LSG)
by number of students with special educational needs (SEN)
requiring tier-3 support in the 2017/18 and 2018/19 school years**

No. of students with SEN requiring tier-3 support	No. of schools ^{Note}			
	2017/18		2018/19	
	Primary	Secondary	Primary	Secondary

CONTROLLING OFFICER'S REPLY

EDB205

(Question Serial No. 3101)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please separately provide the following figures for the past 3 years:

- (1) the number of students in all special schools in the territory (disaggregated by day, 5-day boarding, 7-day boarding, orphan and non-Chinese speaking (NCS) students);
- (2) the cost per capita of each school place in each school (disaggregated by day, 5-day boarding and 7-day boarding students);
- (3) the number of new students and their age (disaggregated by day, 5-day boarding, 7-day boarding, orphan and NCS students);
- (4) the number of school leavers and their age (disaggregated by day, 5-day boarding, 7-day boarding, orphan and NCS students); and
- (5) the growth in the number of applicants waiting for various types of adult services (disaggregated by day, 5-day boarding, 7-day boarding, orphan and NCS students, and by gender and age).

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 16)

Reply:

(1) to (5)

The Education Bureau does not keep school-based or personal data of students and information on their family background, and is therefore not able to provide the related information as requested. In addition, compilation of certain data for the 2019/20 school year, such as the number of new students, school leavers and those waiting for adult services, is only possible upon conclusion of the school year. For the time being, relevant data for the 3 school years from 2016/17 to 2018/19 is presented.

The average unit cost per school place and the average unit cost per boarding place for each type of special schools in these 3 school years are set out at Appendix 1.

The number of students, number of non-Chinese speaking students, number of 5-day and 7-day boarders, number of new students with age range by day student, 5-day boarding and 7-day boarding, number of school leavers with age range by day student, 5-day boarding and 7-day boarding, and number of school leavers waiting for adult services in these 3 school years in special schools are set out at Appendix 2. With the implementation of the New Senior Secondary academic structure in the 2009/10 school year, in general, students will leave school after completion of Secondary Six. Special schools will help their students plan and apply for post-school placement in accordance with their interests, capabilities and needs. Since the post-school arrangements do not have relationship with boarding service, age and gender, thus, we have not compiled relevant data.

Table 1: Average Unit Cost per School Place for Each Type of Special Schools from the 2016/17 to 2018/19 School Years

School Type	Average Unit Cost per School Place		
	2016/17	2017/18	2018/19
Visual Impairment	\$320,000	\$359,000	\$397,500
Hearing Impairment	\$306,000	\$343,500	\$395,500
Physical Disability	\$314,000	\$334,000	\$360,000
Mild Intellectual Disability ^{Note 1}	\$177,000	\$195,500	\$211,500
Moderate Intellectual Disability ^{Notes 1 & 2}	\$260,000	\$285,500	\$304,500
Severe Intellectual Disability ^{Note 2}	\$342,000	\$361,500	\$389,000
School for Social Development	\$181,000	\$200,000	\$220,000
Hospital School	\$186,000	\$198,500	\$211,000

Notes:

1. Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
2. 1 school for children with severe intellectual disability (SID) operates classes for children with moderate intellectual disability (MoID) on a pilot basis starting from the 2017/18 school year. The figures are categorised according to the respective class types.

Table 2: Average Unit Cost per Boarding Place for Each Type of Special Schools from the 2016/17 to 2018/19 School Years

School Type	Average Unit Cost per Boarding Place		
	2016/17	2017/18	2018/19
Visual Impairment	\$177,500	\$183,500	\$194,000
Hearing Impairment	\$441,500	N.A. ^{Note 6}	N.A. ^{Note 6}
Physical Disability	\$294,500	\$302,500	\$319,500
Mild Intellectual Disability ^{Note 1}	N.A.	N.A.	N.A.
Moderate Intellectual Disability ^{Notes 2 & 3}	\$252,000	\$258,500	\$273,000
Severe Intellectual Disability ^{Note 3}	\$321,000	\$331,500	\$350,500
School for Social Development ^{Note 4}	N.A.	N.A.	N.A.
Hospital School ^{Note 5}	N.A.	N.A.	N.A.

Notes:

1. Schools for children with mild intellectual disability do not provide boarding service.
2. Figures for the 5 schools for children with mild and moderate intellectual disability are categorised according to the respective sections of the schools.
3. 1 school for children with SID operates classes for children with MoID on a pilot basis starting from the 2017/18 school year. The figures are categorised according to the respective class types.
4. Residential services provided in schools for social development are subvented by the Social Welfare Department.
5. Hospital School only provides educational services to hospitalised students and does not provide boarding services.
6. 1 school for children with hearing impairment completed mainstreaming in the 2018/19 school year. In the 2017/18 school year, its boarding section only provided a few boarding places based on students' needs and there was special arrangement for its staff establishment. The boarding section of another school for children with hearing impairment commenced operation in the 2018/19 school year with a few boarding places. Hence, calculation of average unit cost per boarding place is not applicable to those 2 school years.

Information on Students of Special Schools from the 2016/17 to 2018/19 School Years

Item		Age Range (Year)	School Year ^{Notes 1 & 2}			
			2016/17	2017/18	2018/19	
1	Total Number of Students (No. of Non-Chinese Speaking (NCS) Students ^{Note 3})		7 349 (367)	7 512 (390)	7 659 (401)	
2	Number of Boarders (No. of NCS Students ^{Note 3})	5-day	417 (12)	404 (10)	399 (12)	
		7-day	552 (6)	572 (6)	599 (12)	
3	Number of New Students (No. of NCS Students ^{Note 3})	Day Place	6-19	1 028 (56)	1 101 (99)	1 213 (100)
		5-day Boarding	6-20	63 (2)	60 (6)	61 (3)
		7-day Boarding	6-21	83 (4)	94 (3)	82 (3)
4	Number of School Leavers (No. of NCS Students ^{Note 3})	Day Place	6-26	968 (40)	1 010 (50)	986 (42)
		5-day Boarding	6-24	80 (4)	63 (2)	55 (4)
		7-day Boarding	6-26	73 (3)	56 (0)	54 (2)
5	Number of School Leavers Waiting for Adult Services (No. of NCS Students ^{Note 3})		107 (6)	140 (7)	66 (3)	

Notes:

1. Number of students in items 1 and 2 denotes the position as at September of the respective school years.
2. Students from the Hospital School are not included due to the transitional nature of the education service provided.
3. Number of NCS students covers those students whose home language as known to Education Bureau is not Chinese regardless of their ethnicity.
4. Number of new students is counted as follows:
 - (i) Day place:
 - only first admission to special schools is counted;
 - excluding those students transferred between special schools.

- (ii) 5-day and 7-day boarding:
 - students who changed from a 5-day boarding to a 7-day boarding or vice versa are counted as new admission to that type of boarding service.
- 5. Number of school leavers is counted as follows:
 - (i) Day place:
 - only last attendance at special schools is counted;
 - excluding those students transferred between special schools.
 - (ii) 5-day and 7-day boarding:
 - students who left from a 5-day boarding to a 7-day boarding or vice versa are counted as school leavers of that type of boarding service.
- 6. (i) Adult services include day activity centres, sheltered workshops cum hostels, supported hostels, etc.
- (ii) The above information was collected from special schools in July and August of the respective school years. As such, the above figures may not reflect the actual situation of the post-school arrangement of school leavers.

Question:

How many Physiotherapists I are working in special schools?
 How many Physiotherapists II are working in special schools?
 How many Occupational Therapists I are working in special schools?
 How many Occupational Therapists II are working in special schools?
 What is the staff cost or monthly expenditure per capita?

Asked by: Hon SHIU Ka-chun (LegCo internal reference no.: 21)

Reply:

The salary scale, mid-point salary and staff establishment of physiotherapists and occupational therapists in special schools in the 2019/20 school year are tabulated below:

Specialist Staff	Salary Scale	Mid-point Salary	Staff Establishment
Physiotherapist I	\$51,095 - \$74,515	\$61,415	24
Physiotherapist II	\$30,235 - \$48,860	\$38,595	34
Occupational Therapist I	\$51,095 - \$74,515	\$61,415	24
Occupational Therapist II	\$30,235 - \$48,860	\$38,595	73

(Question Serial No. 0351)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (3) Primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

In the form of a table, please provide the following information regarding Native-speaking English Teachers (NETs) in government primary schools, aided primary schools and primary schools under Direct Subsidy Scheme (DSS) from the 2009/10 to 2020/21 school years:

- (1) the respective number of NETs employed as regular teachers and contract teachers;
- (2) the average number of NETs among schools in each district;
- (3) the average number of students under the care of each NET;
- (4) the average number of teaching hours per NET;
- (5) the average income of NETs;
- (6) the median income; and
- (7) the average number of hours of lesson time dedicated to the subject of English Language per week for Primary 1 to 6 in government primary schools, aided primary schools and primary schools under DSS from the 2008/09 to 2020/21 school years.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 1)

Reply:

The Native-speaking English Teacher (NET) Scheme covers public sector schools, i.e. government, aided and caput schools. As such, the information provided under Items (1) to (6) below does not include primary schools under the Direct Subsidy Scheme (DSS). In respect of DSS schools, the NET provision has been factored into the average unit cost of an aided school place which is used for the calculation of DSS subsidy. DSS schools are free to deploy their resources for the appointment of teachers. Besides, to give a timely and appropriate response to questions raised by the Legislative Council members, we now provide the relevant information for the past 5 years. As the data for the 2020/21 school year is not yet available, information given under Items (1), (5) and (6) below covers the 2015/16 to 2019/20 school years.

(1) All NETs are employed on 2-year renewable contract terms. Hence, no NETs are employed as regular teachers within establishment. The numbers of teachers employed under the NET Scheme in Primary Schools from the 2015/16 to 2019/20 school year are as follows:

School Year	Government Schools	Aided Schools	Total
2015/16	34	425	459
2016/17	34	427	461
2017/18	34	426	460
2018/19	34	434	468
2019/20	34	434	468

(2) In general, each eligible public sector primary school operating 6 classes or more (including special schools (primary section) offering the mainstream curriculum and schools for children with intellectual disabilities (primary section) offering an appropriate school-based English Language curriculum) is provided with 1 NET. As the average number of NETs among schools in each district is not meaningful to the implementation and management of the NET Scheme, the EDB has not collected relevant statistics.

(3) and (4) According to the NET Deployment Guidelines for the NET Scheme in Primary Schools issued in 2018, it is recommended that NETs teach 15 to 17 hours per week, with a minimum of 14 hours dedicated to collaborative teaching. Apart from teaching, NETs are required to discharge other related duties. Examples include organising co-curricular activities, collaborative lesson planning for each grade level taught, developing school-based curriculum and teaching resources together with local English teachers, participating in professional development activities, and disseminating good practices through school-based sharing sessions or networking activities. Schools in general follow the Guidelines in assigning teaching duties to NETs. As NETs are mainly responsible for collaborating with other school teachers to promote good pedagogical practices, thereby improving the overall learning and teaching of English in the school, the average number of students under the care of each NET does not constitute an appropriate measure of the work and effectiveness of NETs and we have not collected relevant statistics.

(5) and (6) The average and median monthly salary of NETs in government and aided primary schools from the 2015/16 to 2019/20 school years are as follows:

	2015/16		2016/17		2017/18		2018/19		2019/20	
	Government	Aided	Government	Aided	Government	Aided	Government	Aided	Government	Aided
Average Monthly Salary (\$)	44,319	43,435	46,201	45,101	46,435	45,212	50,504	49,442	51,173	50,884
Median Monthly Salary (\$)	46,183	39,360	47,240	43,145	47,240	43,145	53,195	46,420	54,450	46,420

(7) The Basic Education Curriculum Guide – To Sustain, Deepen and Focus on Learning to Learn (Primary 1-6) prepared by the Curriculum Development Council in 2014 suggests that all primary schools implementing the local English Language curriculum in Hong Kong, including government, aided and DSS schools, should allocate 17 to 21% of their lesson time to English Language for Primary 1 to 6. That is to say, an average of about 135 to 166 hours of lesson time should be dedicated to the subject of English Language for Primary 1 to 6 each year. As long as the total lesson time scheduled is within the recommended range, schools may work out their own lesson time for different class levels in light of school contexts and students' learning needs. It is worth noting that as recommended by the EDB's guidelines, the learning of English should not be confined to the classroom. Instead, students should be given diverse learning opportunities as far as possible for better exposure to English and more opportunities to use it. Through school visits and regular contacts with schools, we observe that most primary schools act in accordance with the EDB's recommendation to allocate the suggested lesson time for the subject of English Language. In addition, rather than confining students' learning of English to English Language lessons, many schools effectively make use of the time beyond class hours (including recess time and lunch breaks), organise activities after school and on non-school days, and conduct study visits outside Hong Kong to enrich students' English learning experience.

(Question Serial No. 0354)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Please tabulate, by District Council district, the average and median numbers of students in each Primary One class in government, aided and Direct Subsidy Scheme (DSS) primary schools in the 2009/10 to 2020/21 school years.

- (1) How does the Government evaluate the effectiveness of small class teaching? How effective is small class teaching according to the criteria adopted by the Education Bureau to evaluate small class teaching?
- (2) Please tabulate, by District Council district, the number of regular teachers, contract teachers and personnel who provide support for teaching (other than teachers) in government, aided and DSS primary schools in the 2009/10 to 2020/21 school years.
- (3) Please tabulate, by District Council district, the number of retired teachers and newcomers to teaching in government, aided and DSS primary schools in the 2009/10 to 2020/21 school years.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 2)

Reply:

To give a timely and appropriate response to the question raised by the Legislative Council member, we now provide the relevant information for the past 5 years. The average and median numbers of students per Primary One class of government, aided and Direct Subsidy Scheme (DSS) primary schools in the 2015/16 to 2019/20 school years are set out in Annex. Figures for the 2020/21 school year would only be available after collection of the required information from schools via the Enrolment Survey conducted at the commencement of the school year.

- (1) Conceptually speaking, small class teaching (SCT) is more of a teaching strategy. SCT does not simply involve a sheer reduction in class size. Schools and teachers should enhance the effectiveness of teaching by optimising the use of the classroom environment with a reduced class size. As such, through various professional development activities including building learning communities and learning circles, and organising seminars, workshops, and experience sharing sessions, etc., we have been supporting teachers in devising appropriate pedagogical strategies and applying different teaching modes in an SCT environment. Apart from these professional development activities, we also regularly collect views from the school sector on the effectiveness of SCT through various channels such as school visits and lesson observations. In general, school heads and teachers agree that SCT can engage students more in class activities, give teachers more space to cater for learner diversity by employing different teaching strategies, and contribute to overall learning and teaching.

Besides, under the School Development and Accountability Framework, schools implementing SCT, like other schools, are required to set out in their school development plans the strategies and measures for providing quality education, to conduct an annual review of their learning and teaching strategies, and to present the review findings as well as ways of improvement in their school reports. Schools' self-evaluation results will be verified by external reviews conducted by the Education Bureau (EDB) to help schools assess the effectiveness of learning and teaching.

- (2) As the EDB does not maintain teacher appointment data by District Council district, a breakdown of the relevant statistics is not available. The respective number of regular teachers and contract teachers (i.e. those employed using cash grants from the Government or schools' own funding) in government and aided primary schools, and the number of teachers in DSS primary schools in recent years (from the 2015/16 to 2019/20 school years) are set out below:

Primary Schools (Government, Aided and DSS)

School Year	Government Primary Schools		Aided Primary Schools		DSS Primary Schools [#]
	No. of Regular Teachers [*]	No. of Contract Teachers [*]	No. of Regular Teachers [*]	No. of Contract Teachers [*]	No. of Teachers [*]
2015/16	1 190	90	16 310	1 520	1 250
2016/17	1 210	100	16 550	1 700	1 270
2017/18	1 220	110	17 920	1 610	1 290
2018/19	1 290	130	18 520	1 730	1 300
2019/20 (Estimate)	1 330	100	19 080	1 730	1 300

* Numbers are rounded to the nearest 10.

DSS schools do not distinguish between regular and contract teachers.

As the EDB does not collect information on supporting teaching staff outside the teaching establishment in different types of schools, relevant statistics are not available.

- (3) Since the EDB does not maintain figures showing a breakdown of the numbers of retired and newly-joined teachers in the teaching profession by District Council district, the relevant information is not available. The respective number of retired teachers in government, aided and DSS primary schools in recent years (from the 2015/16 to 2019/20 school years) is set out below:

Primary Schools (Government, Aided and DSS)

School Year	No. of Retired Teachers*		
	Government Primary Schools	Aided Primary Schools	DSS Primary Schools
2015/16	10	190	10
2016/17	20	190	0
2017/18	20	200	0
2018/19	20	210	0
2019/20 (Estimate)	20	190	10

* Numbers are rounded to the nearest 10.

The respective number of new teachers joining the teaching profession in government, aided and DSS primary schools in the school years from 2015/16 to 2019/20 is set out below:

Primary Schools (Government, Aided and DSS)

School Year	No. of New Teachers Joining the Teaching Profession*		
	Government Primary Schools	Aided Primary Schools	DSS Primary Schools
2015/16	40	850	70
2016/17	30	890	90
2017/18	60	1 270	80
2018/19	40	1 180	70
2019/20 (Estimate)	30	1 040	90

* Numbers are rounded to the nearest 10.

It is mentioned under the Programme of Primary Education that the Bureau will continue the enhanced provision of student guidance service to primary schools by implementing the policy of “two school social workers for each school” in public sector primary schools and that the enhancement, which began in the 2018/19 school year, seeks to strengthen student guidance service in public sector primary schools. In this connection, would the Administration advise this Committee of:

- (1) the timetable for achieving the goal of “two school social workers for each school” in public sector primary schools;
- (2) any plan to assess the effectiveness of “two school social workers for each school” policy and the difficulties encountered by social workers; if yes, the time schedule; and
- (3) the number of primary students using the student guidance service by district?

(1) and (2)

To support schools in better catering for the needs of students, the Government has, starting from the 2018/19 school year, provided public sector primary schools with additional resources under a new funding mode to enable them to implement the policy of “one school social worker for each school” according to school-based circumstances. The new measure is implemented on the basis of the Comprehensive Student Guidance Service (CSGS) to provide schools with more resources so that each public sector primary school is served by at least 1 school-based registered graduate social worker with professional qualifications to further enhance the overall quality of guidance service.

As regards schools with Student Guidance Teachers (SGTs), they can continue with the existing arrangements. For those without SGTs, the Education Bureau (EDB) will provide a three-year transitional period for them to switch to the New Funding Mode before the 2021/22 school year. In case schools are not able to switch to the New Funding Mode after the three-year transitional period owing to the need for more time to handle personnel matters, including retaining their serving student guidance personnel (SGP) due to special needs, they may discuss with the EDB separately. In the 2019/20 school year, 309 public sector primary schools (i.e. about 70%) have switched to the New Funding Mode.

At this stage, we have no plan to implement the “two social workers for each one school” policy in public sector primary schools. As for the implementation of the policy of “one school social worker for each school” in primary schools, the EDB will continue to collect data and views by such means as questionnaire surveys, school visits and meetings with the education sector to review the mode of collaboration between SGP/social workers and SGTs, and will maintain communication with stakeholders and heed their views and suggestions on the best way to provide social work and guidance services for students and render effective support to them.

(3) Since the implementation of the CSGS in the 2002/03 school year, teachers are working in collaboration with SGP and professionals to provide remedial, preventive and developmental guidance services for all students. In other words, the service provided by SGP benefits all students studying in public sector primary schools across the territory. The EDB does not maintain statistics of individual districts.

Question:

An outbreak of epidemic in January 2020 has led to the prolonged suspension of classes in kindergartens, primary schools, secondary schools, universities, etc. A number of schools have therefore switched to online teaching. However, many grassroots students encounter difficulties in e-learning. They need to walk to the nearest convenience stores or the entrance of their schools in order to access the WiFi coverage there for learning. In this connection, would the Bureau advise this Committee of the injection of resources over the past 3 years to address online learner diversity?

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 5)

Reply:

During class suspension, primary and secondary schools should optimise the use of different modes of learning, including e-learning, to enable students to continue to systematically engage in a moderate amount of learning so as to achieve the goal of “suspending classes without suspending learning”. As far as we understand, for students who are unable to undertake online learning due to the lack of the necessary equipment (such as computers), schools have been actively providing support, for example by lending them the necessary equipment for use. Homework assignments and worksheets are printed and mailed to students or collected by parents from schools according to their actual needs. In fact, “suspending classes without suspending learning” can be achieved through various means. In addition to studying the school curriculum, students may engage in extensive reading and take the opportunity to explore and learn more about the epidemic (for example, public health, health education, life education, etc.), that can cater to their interest and needs.

We have been keeping in view the implementation of e-learning and taking various measures to support grassroots students in e-learning. For example, under the Subsidy Scheme for Internet Access Charges, which have been implemented by the Student Finance Office (SFO) and the Social Welfare Department (SWD) for many years, Internet access subsidies are disbursed to eligible families to facilitate online learning at home by needy students. The numbers of beneficiary families and the amounts of subsidies under the Scheme from the 2017/18 to 2019/20 school years are as follows:-

	2017/18 School year	2018/19 School year	2019/20 School year (as at 31 January 2020)
(i) Disbursed by the SWD			
No. of beneficiary families	39 134	37 094	33 794
Amount of subsidies (\$million)	54.7	55.5	50.7
(ii) Disbursed by the SFO			
No. of beneficiary families	130 409	131 779	132 359
Amount of subsidies (\$million)	148.1	158.9	159.2
(iii) Total			
Total no. of beneficiary families	169 543	168 873	166 153
Total amount of subsidies (\$million)	202.8	214.4	209.9

The Government also provides, through the Community Care Fund, subsidies for needy primary and secondary students for purchasing mobile computer devices. Students may use these devices to engage in e-learning.

In addition, various sectors of the community also provide support to students in need. To support students who have difficulties accessing the Internet for e-learning at home during class suspension, the Hong Kong Jockey Club Charity Trust has given 100 000 local primary and secondary school students free Internet access (via mobile data SIM cards) for 4 months with the help of 2 non-governmental organisations. We understand that many parents have to make the usual education-related payments, in whole or in part, for their children, and some may have to increase their spending on reading and learning materials or e-learning devices for their children. To alleviate parents' burden in defraying these expenses, the Government will provide an additional \$1,000 to each recipient of the Student Grant for the 2019/20 school year, i.e. the Student Grant amount of this year will be increased from \$2,500 to \$3,500, through the newly established \$30 billion Anti-epidemic Fund. No extra applications by parents are necessary.

Separately, the Office of the Government Chief Information Officer provided low-income families and grassroots students with online learning support services through the Internet Learning Support Programme (ILSP) which concluded in end-August 2018. The relevant services for students from low-income families are now provided by non-profit-making organisations, namely the Boys' and Girls' Clubs Association of Hong Kong and WebOrganic. The expenditures on the ILSP in the past 3 financial years are as follows:-

Financial year	Expenditure (\$million)
2017-18 (Actual)	31.5
2018-19 (Actual)	19.7
2019-20 (Revised estimate)	7.8
Total	59.0

Regarding universities, the bulk of recurrent grants to the University Grants Committee (UGC)-funded universities from the UGC are in the form of a block grant based on the approved student numbers allocated to universities. The universities may support needy students' in respect of e-learning with the block grant. The UGC is unable to identify or provide information about the actual expenditure incurred.

EDB211

(Question Serial No. 0376)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the integrated education policy that has been implemented for over 22 years, please advise this Committee of the following:

- (1) the number of students with special educational needs (SEN) and the number of teachers having received basic special education training in nurseries;
- (2) the number of students with SEN and the number of teachers having received basic special education training in kindergartens;
- (3) the number of students with SEN and the number of teachers having received basic special education training in primary schools; and
- (4) the number of students with SEN and the number of teachers having received basic special education training in secondary schools.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 7)

Reply:

(1) and (2)

As support services for children with special needs at the pre-primary level are provided by the Social Welfare Department (SWD), the Education Bureau (EDB) is not able to provide information on students with special needs at the pre-primary level. With regard to training for KG teachers, the EDB has, since the 2015/16 school year, organised professional development programmes on catering for students with developmental needs, by commissioning tertiary institutions and non-governmental organisations to provide basic training for KG teachers, and developed a professional development framework. Starting from the 2018/19 school year, the EDB has further provided KG teachers with structured

in-service training courses at basic and advanced levels, which cover fundamental knowledge and skills in early identification and intervention, multi-disciplinary collaboration and strategies related to coordination of support services. These seek to enhance KG teachers' knowledge and skills in identifying and catering for learner diversity. As at the 2018/19 school year, a total of 585 KG teachers have completed basic training, with 29 of them having completed advanced training as well.

Moreover, according to the information of SWD, apart from offering training courses for special child care workers recognised by the SWD, tertiary institutions usually include special child care worker training modules recognised by the SWD, i.e. no less than 210 hours of training on catering for children with special needs, in the pre-service and in-service training courses for obtaining the teacher professional qualifications in early childhood education. The above courses have been introduced for over a decade, and a certain amount of serving KG teachers have received the relevant training. The EDB does not have the enrolment figures of the above courses.

(3) and (4)

Number of students with special educational needs studying in public sector ordinary primary and secondary schools in the 2019/20 school year is tabulated as follows:

Primary	Secondary
27 320	25 860

Number of public sector ordinary primary and secondary school teachers having received special education training as at the 2018/19 school year is tabulated as follows:

Primary	Secondary
9 487	7 306

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Last year, the Task Force on Review of School Curriculum, which was set up by the Education Bureau in 2017, recommended that Liberal Studies should remain a compulsory subject for examination. In this connection, please advise this Committee of:

- (1) the number of students who chose not to conduct the Independent Enquiry Study (IES) of Liberal Studies in the past 3 years; and
- (2) the number of students who chose not to conduct the IES of Liberal Studies and attained level 3, level 4, level 5 or above in the subject's public examination in the past 3 years.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 8)

Reply:

According to the current arrangement, the assessment of Liberal Studies under the senior secondary curriculum consists of public examination (i.e. written examination) and school-based assessment (i.e. Independent Enquiry Study (IES)). All school candidates have to submit an IES Report. At present, school candidates do not have the choice of not conducting the IES. Hence, we do not have any relevant information to provide.

Based on the information provided by the Hong Kong Examinations and Assessment Authority (HKEAA), some school candidates did not submit an IES Report in the end for various personal reasons. The relevant figures are as follows:-

- (1) The number of school candidates who failed to submit an IES Report for Liberal Studies under the senior secondary curriculum in the past 3 years

Year of examination	No. of candidates
2017	289
2018	256
2019	317

- (2) The number of school candidates who failed to submit an IES Report for Liberal Studies under the senior secondary curriculum and attained level 3, level 4, level 5 or above in the subject's public examination in the past 3 years

Year of examination	No. of candidates attained level 5 or above	No. of candidates attained level 4	No. of candidates attained level 3
2017	0	0	4
2018	0	0	2
2019	0	0	3

Note: The above figures do not include candidates exempted from submitting their IES Reports by the HKEAA.

The Government has been vigorously promoting the development of technology industries, artificial intelligence technologies, big data analytics and computer programming in recent years. As pointed out in the Policy Address, there is a need to boost the development of innovation and technology, and education is clearly integral to achieving this goal. In this connection, please inform this Committee of the provision for STEAM education in various education areas.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 12)

Reply:

To align with the worldwide educational trend and to equip students with necessary knowledge and skills in response to the rapid economic, scientific and technological developments, as well as the changes and challenges in society, the Government has made significant efforts to promote STEM education in recent years. For primary and secondary schools, STEM education is implemented with a cross-curricular approach through the curricula of the Science, Technology and Mathematics Education Key Learning Areas (KLAs) and General Studies at the primary level. In late 2016, the Education Bureau (EDB) released the Report on “Promotion of STEM Education – Unleashing Potential in Innovation”, which set out a wide range of recommendations, including renewing the curricula of Science, Technology and Mathematics Education KLAs, enriching the learning activities for students, providing schools with resources, enhancing professional development for teachers, strengthening partnerships with key stakeholders in the community, as well as conducting reviews on the implementation and disseminating good practices. The recommended measures have been taken forward progressively and implemented on an ongoing basis. The expenditure is subsumed under the overall recurrent expenditure of the EDB. Among them is the release of the “Computational Thinking – Coding Education: Supplement to the Primary Curriculum” (Supplement) in the end of 2017. In addition, from the 2017/18 to 2019/20 school years, we have been conducting the Intensive Training Programme on STEM Education in 5 batches for curriculum leaders of all public sector and Direct Subsidy Scheme (DSS) primary and secondary schools to further enhance their professional capacity in holistic curriculum planning and leading the teaching force. On top of these, we had offered STEM Education as one of the programme themes under the Paid Non-local Study Leave Scheme for Secondary School Teachers (i-Journey) in the 2017/18 and 2018/19 school years, and organised various large-scale STEM learning activities such as the Smart City Project Programme in collaboration with tertiary institutions and relevant government departments and organisations.

As regards non-recurrent funding, in the 2015/16 and 2016/17 school years, we provided a one-off grant of \$100,000 and \$200,000 for each public sector and DSS primary and secondary school respectively to support their implementation of school-based activities/projects on STEM education. Since STEM education at the primary and secondary levels is implemented through the curricula of the Science, Technology and Mathematics Education KLAs, resources for STEM education at schools are already covered by the provisions for these KLAs. The objective of STEM education is to enable students to integrate and apply different subject knowledge in everyday life and to conduct various kinds of exploration. Therefore, the resources for STEM education cannot be readily separated from the teaching resources provided for individual subjects for statistical purpose. The expenditure involved in the promotion of STEM education in primary and secondary schools (including special schools) is subsumed under the overall expenditure of the EDB, and a breakdown of the expenditure in this regard is not available. Starting from the 2019/20 school year, a recurrent Life-wide Learning Grant with an annual provision of \$900 million has been provided for all public sector and DSS schools to support schools in taking forward life-wide learning with enhanced efforts, including STEM-related learning activities. Schools may use the resources to tie in with STEM education by organising enlivened and enriched experiential learning activities to provide students with more opportunities to apply what they have learned, thus enhancing their learning effectiveness.

Schools may also obtain additional resources by seeking funding from the Quality Education Fund (QEF). The QEF has included STEM education as one of the priority themes and implemented the Dedicated Funding Programme for Publicly-funded Schools for 4 school years starting from the 2018/19 school year for schools to apply for funding to launch school-based curriculum development projects and/or student support measures, including the development of school-based STEM education. Furthermore, the QEF has launched the QEF Thematic Network on STEMaker Classroom in the 2019/20 school year. Besides, the STEM Education Centre was set up at the Arts and Technology Education Centre in Lok Fu in October 2017 to support schools in promoting STEM education. The Centre has been installed with more advanced equipment for teachers to conduct STEM-related classes, organise teacher training programmes and for students to participate in learning activities and competitions.

As for kindergarten education, the curriculum focuses primarily on helping children develop good living habits and a strong and healthy body and instilling in them positive values and attitudes. Unlike primary and secondary schools, the curriculum in kindergartens does not include the teaching of subjects and does not emphasise STEM education-related subject knowledge. Instead, teachers select events related to children's daily lives as learning themes, taking into account their age, pace of development, abilities and interests, with a view to fostering their exploratory spirit.

As for post-secondary education, by launching the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), we encourage the self-financing post-secondary education sector to offer designated programmes in disciplines including computer science and financial technology to nurture talent in support of specific industries with keen demand for human resources. The SSSDP subsidises about 3 000 students per cohort to pursue designated full-time locally accredited self-financing undergraduate programmes in selected disciplines. Students of designated self-financing programmes in computer science and financial technology disciplines are subsidised from the 2018/19 academic year onwards. In the 2020/21 academic year, 5 computer science and 3 financial technology programmes are offered under the SSSDP, providing 246 and 215 subsidised first-year intake places respectively. The funding provision for the 2018/19 academic year and the 2019/20 academic year (as of February 2020) amounted to \$25 million and \$30 million respectively, while that for the 2020/21 academic year is estimated at around \$41 million.

The coverage of the SSSDP has been expanded starting from the 2019/20 academic year, about 2 000 students per cohort are subsidised to pursue designated full-time locally accredited self-financing sub-degree programmes in selected disciplines. In the 2020/21 academic year, 1 computer science programme is offered under the SSSDP, providing 40 subsidised first-year intake places. The funding provision for the 2019/20 academic year (as of February 2020) was \$0.88 million, while that for the 2020/21 academic year is estimated at around \$1.37 million.

To promote and support STEM education, the Vocational Training Council (VTC) set up the VTC STEM Education Centres in May 2017 to enhance teaching and learning of STEM-related subjects through the development of various technological applications and the support of state-of-the-art teaching facilities. The Centres also make use of Virtual Reality (VR) and Augmented Reality (AR) technologies to provide simulated workplace training for students. These technologies are applied to the teaching and learning of

various programmes, including lift and escalator maintenance, airport facilities operation, aircraft maintenance engineering, automotive engineering, and horticulture, to enhance teaching effectiveness and train up effective VPET personnel who excel in practical know-how. The Centres also organise various kinds of STEM workshops and large-scale competitions to arouse the interest of primary and secondary students in science subjects, increase the popularity of STEM education, and motivate the younger generation to acquire knowledge in STEM-related disciplines. In 2018, the Centres signed a Memorandum of Understanding on the Industry Partner Collaboration Scheme with over a dozen local major enterprises and institutions, with a view to introducing the younger generation to the prospect of STEM industries and encouraging them to pursue a career in these industries. This collaboration platform has enabled the Centres to undertake a number of interdisciplinary projects with industry partners, and invite industry veterans to share their extensive trade knowledge and information on the latest technological developments with students as STEM Ambassadors in order to enhance students' understanding of STEM industries, whereby facilitating talent development. Up to the 2019-20 financial year, the Government has allocated a total of about \$21.5 million to support the VTC in the establishment of VTC STEM Education Centres and provision of teaching facilities.

As regards the University Grants Committee (UGC)-funded universities, the bulk of recurrent grants to the universities are in the form of a block grant based on the approved student number allocated to universities. As funding for the programmes related to STEAM (Science, Technology, Engineering, Arts and Mathematics) education is subsumed under the block grant, the UGC is unable to identify and provide information on the actual amount of subvention that goes to specific academic programmes. Meanwhile, the Government plans to implement in the 2020/21 academic year the Targeted Taught Postgraduate Programmes Fellowships Scheme on a pilot basis for 5 cohorts, with a view to providing fellowships to meritorious local students for pursuing targeted self-financing taught postgraduate programmes conducive to the development of Hong Kong. The Scheme is expected to provide fellowships to a maximum of 500 students of the first cohort (admitted in the 2020/21 academic year), subject to a ceiling of \$120,000 per student (for the entire programme regardless of study mode or period). Among the eligible programmes selected for the first cohort, a total of 20 cover such priority areas as STEM, emerging research and creative industries. Altogether 236 fellowships will be offered to students of these programmes and the amount funding involved is estimated to be around \$28 million.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The kindergarten education scheme (KG Scheme) has been implemented since the 2017/18 school year, and one of the objectives is to provide quality kindergarten education. In this connection, please advise this Committee of the following:

(a) the teacher-to-pupil ratios of morning and afternoon sessions of kindergartens under the Pre-primary Education Voucher Scheme in the 2016/17 school year and of kindergartens joining the KG Scheme in the 2017/18, 2018/19 and 2019/20 school years (please set out information in tabular form);

(b) the percentage of teachers holding a bachelor's degree in early childhood education or above out of the total number of teachers in kindergartens under the Pre-primary Education Voucher Scheme in the 2016/17 school year and kindergartens joining the KG Scheme in the 2017/18, 2018/19 and 2019/20 school years (please set out information in tabular form); and

(c) the measures taken by the Administration to continuously improve the quality of kindergarten education.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 40)

Reply:

(a) The respective average teacher to pupil (TP) ratios in the morning and afternoon sessions of kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) in the 2016/17 school year and of KGs joining the KG education scheme (KG Scheme) from the 2017/18 to 2019/20 school years are tabulated as follows:

School year	TP ratio			
	2016/17	2017/18	2018/19	2019/20 (Provisional figure)
Average ratio of morning session	1:11.2	1:10.8	1:10.4	1:10.3
Average ratio of afternoon session	1:9.5	1:9.1	1:8.8	1:8.7

Notes:

- (1) Figures refer to the position as at mid-September of the respective school years.
- (2) Figures only include teachers holding Certificate in Early Childhood Education or above qualifications (principals are not included).

(b) The respective percentages of teachers holding a bachelor's degree in early childhood education out of the total number of teachers in KGs under the PEVS in the 2016/17 school year and KGs joining the KG Scheme from the 2017/18 to 2019/20 school years are tabulated as follows:

School year	Percentage of teachers holding a bachelor's degree in early childhood education out of the total number of teachers
2016/17	42.3%
2017/18	47.1%
2018/19	51.0%
2019/20 (Provisional figure)	53.1%

(c) The Government has implemented the new KG education policy starting from the 2017/18 school year. The policy objectives are to provide good quality and highly affordable KG education, and enhance the accessibility of students to different modes of services that suit their specific needs. Under the new policy, the Government has substantially increased expenditure to enhance teachers' remuneration, reduce parents' financial burden and improve the quality of teaching.

In tandem, the Government has enhanced the quality of education of KGs joining the KG Scheme, including raising the requirement of TP ratio from 1:15 to 1:11, revising the curriculum guide, promoting teachers' professional development, strengthening support to students with diverse needs, enhancing the quality assurance framework, promoting parent education, enhancing the funding arrangements for KGs admitting non-Chinese speaking students, etc.

The EDB has made continuous efforts to enhance the KG education policy. As announced in the 2018 Policy Address, we started a review in mid-2019 on the implementation of the new policy, including the salary arrangements for KG teachers. We have been consulting the stakeholders during the process.

EDB215

(Question Serial No. 1249)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Committee on Free Kindergarten Education (the Committee) suggested that the Government should review the current planning standards for provision of kindergarten (KG) places to increase the provision, particularly whole-day (WD) places. Having regard to the supply and demand of KG places, the Committee also suggested that the Government should consider revising the planning standards progressively to 500 WD and 500 half-day (HD) places for every 1 000 children aged between 3 and 6. As stipulated in the Hong Kong Planning and Standards Guidelines, whilst the reservation of sites specifically for KGs (i.e. schools offering nursery and KG education) is usually not necessary, the need for such establishments is taken into account in housing estates and large-scale private housing development projects where space is allocated for such uses. The standards should be 500 HD and 500 WD places for every 1 000 children in the age group of 3 to under 6. In this connection, please advise this Committee of the number of:

a) children aged 3 to 6 and the numbers of HD, WD and long WD places in the past 3 years, with a breakdown by 18 districts.

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 41)

Reply:

The Education Bureau does not have statistics on the number of children aged between 3 and 6 in each of the 18 districts. At present, the percentage of school-age children attending kindergartens (KGs) in Hong Kong is 100%. We have collected information on the number of students in various KGs. In the 2017/18, 2018/19 and 2019/20 school years, the number of KG students, and the numbers of half-day (HD), whole-day (WD) and long WD (LWD) places in KGs by district are tabulated in the Appendix.

Number of KG students, and numbers of HD, WD and LWD places in KGs in the 18 Districts

District	2017/18				2018/19				2019/20			
	No. of KG students	No. of HD KG places	No. of WD KG places (excluding former aided child care centres (FACs))	No. of LWD KG places (i.e. FACs)	No. of KG students	No. of HD KG places	No. of WD KG places (excluding FACs)	No. of LWD KG places (i.e. FACs)	No. of KG students	No. of HD KG places	No. of WD KG places (excluding FACs)	No. of LWD KG places (i.e. FACs)

CONTROLLING OFFICER'S REPLY

EDB216

(Question Serial No. 1250)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

While kindergarten operation currently comprises half-day, whole-day and long whole-day (LWD) modes, the LWD mode is not catered for in the Hong Kong Planning Standards and Guidelines (HKPSG).

(a) Does the Administration have any plan to have the LWD mode covered in the HKPSG? If yes, what ratio will be set for the provision of LWD places? If no, how can the Administration ensure that there are sufficient LWD places to satisfy the demand of the society?

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 42)

Reply:

From the perspective of kindergarten (KG) education, there are 2 broad types of KG programmes, i.e. half-day (HD) and whole-day (WD) programmes, while long whole-day (LWD) programme is an operation mode of WD KGs. As such, the planning standards for KG places are calculated on the basis of HD and WD places. Under the prevailing KG education policy, the Education Bureau has reviewed the relevant part of the Hong Kong Planning Standards and Guidelines, with increasing the number of KG places, particularly WD places, as a long-term goal. For every 1 000 children in the age group of 3 to under 6, the planning standards for provision of KG places have been revised from 730 HD and 250 WD places to 500 HD and 500 WD places respectively.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The Government launched the Start-up Loan Scheme (SLS) in 2001 to support, through provision of interest-free loans, non-profit-making self-financing post-secondary institutions in developing new college premises and reprovisioning existing premises that operate in sub-optimal environment, and/or providing or enhancing teaching and other ancillary facilities. Loans granted under SLS should be repaid by equal instalments over 10 years from the date of the final drawdown. For cases where approval has been granted for extending the loan repayment period from 10 years to 20 years, the borrowers are subject to the payment of interest at no-gain-no-loss rate after the interest-free period of the first 10 years. In this connection, please advise this Committee of the following:

- (a) What is the total amount of loan approved for self-financing post-secondary education providers under SLS as at the end of February 2020?
- (b) How many institutions have failed to repay on schedule? What are the details (including the date of loan approval, amount approved, reasons for the default in repayment and the outstanding amount)?
- (c) Please indicate the current loan position using the table below:

No.	Applicant institution	Programme provider	Loan purpose	Approved loan amount (\$)	Outstanding loan amount (\$)	Date of last repayment
1						
2						
3						

Asked by: Hon TIEN Puk-sun, Michael (LegCo internal reference no.: 36)

Reply:

As at the end of February 2020, 40 loans amounting to a total of about \$7.7 billion were approved under the Start-up Loan Scheme (SLS). 20 loans have been fully repaid and the total amount of outstanding loans is about \$3.3 billion. Since the launch of the SLS, all borrowing institutions have repaid the loans in accordance with the repayment schedule. Details of the approved loans and loan repayment are given at **Annex**.

(Question Serial No. 0603)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the educational support for non-Chinese speaking students in pre-primary education, please provide:

- (a) the number of students in each of the grade level from K1 to K3 and N1 to N4 in Hong Kong kindergartens and nurseries in the school years 2017/18, 2018/19 and 2019/20;
- (b) the number of ethnic minority students in each of the grade level from K1 to K3 and N1 to N4 in Hong Kong kindergartens and nurseries in the school years 2017/18, 2018/19 and 2019/20 disaggregated by ethnicity;
- (c) the number of non-Chinese speaking students in each of the grade level from K1 to K3 and N1 to N4 in Hong Kong kindergartens and nurseries in the school years 2017/18, 2018/19 and 2019/20 disaggregated by their home language; and
- (d) the resources which will be granted to the EDB to start collecting this information if it has not started doing so, beginning in 2020/21 school year.

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 1)

Reply:

(a)

According to the information collected through the annual Student Enrolment Survey, the numbers of students studying at K1 to K3 classes in kindergartens (KGs) in the school years from 2017/18 to 2019/20 are tabulated as follows:-

Level	Grade	2017/18	2018/19	2019/20
Kindergarten	K1	59 350	58 168	58 710
	K2	58 481	59 978	58 534
	K3	63 316	56 256	57 053

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures for kindergartens include students studying at K1, K2 and K3 classes of kindergarten-cum-child care centres (KG-cum-CCCs).

Figures in the above table cover children aged 3 or above studying in KGs and KG-cum-CCCs. Child care service provided by CCCs attached to KGs for taking care of children aged below 3 is under the purview of the Social Welfare Department (SWD). Based on the information provided by KG-cum-CCCs in September every year, the number of children enrolled in the school years from 2017/18 to 2019/20 is tabulated as follows:-

CCCs attached to KGs	2017/18	2018/19	2019/20
Number of children enrolled	19 994	20 179	19 419

(b) and (c)

The numbers of ethnic minority students studying at different grades in KGs including KG-cum-CCCs in the school years from 2017/18 to 2019/20 are tabulated at Annex 1. The numbers of non-Chinese speaking (NCS) students by spoken language at home studying at different grades in KGs (including KG-cum-CCCs) in the school years from 2017/18 to 2019/20 are tabulated at Annex 2. Since the definition of NCS students is based on the language spoken at home instead of the ethnicity of the students, the data provided at Annex 1 and Annex 2 are not comparable.

Figures at Annex 1 and Annex 2 cover children aged 3 or above studying in KGs and KG-cum-CCCs. Child care service provided by CCCs attached to KGs for children aged below 3 is under the purview of the SWD. As the SWD does not collect information on the number of ethnic minority and NCS children in CCCs attached to KGs, we are not able to provide the relevant information.

(d)

The Education Bureau currently conducts the annual Student Enrolment Survey to collect student particulars from KGs (including KG-cum-CCCs). The total number of students and the respective numbers of ethnic minority and NCS students studying at different grades in KGs (including KG-cum-CCCs) as well as the number of children enrolled in CCCs attached to KGs have already been provided in items (a) to (c) above. Question (d) is therefore not applicable.

EDB219

(Question Serial No. 0604)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the educational support for non-Chinese speaking students in primary education, please provide:

- (a) the number of students in each of the grade level from P1 to P6 in public schools (including Direct Subsidy Scheme Schools) in the school years 2017/18, 2018/19 and 2019/20;
- (b) the number of ethnic minority students in each of the grade level from P1 to P6 in public schools (including Direct Subsidy Scheme Schools) in the school years 2017/18, 2018/19 and 2019/20 disaggregated by ethnicity;
- (c) the number of non-Chinese speaking students in each of the grade level from P1 to P6 in public schools (including Direct Subsidy Scheme Schools) in the school years 2017/18, 2018/19 and 2019/20 disaggregated by their home language; and
- (d) the resources which will be granted to the EDB to start collecting this information if it has not started doing so, beginning in 2020/21 school year.

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 2)

Reply:

- (a) According to the information collected through the annual Enrolment Survey, the number of Primary 1 (P1) to Primary 6 (P6) students in public sector schools and Direct Subsidy Scheme (DSS) schools in the 2017/18, 2018/19 and 2019/20 school years is tabulated at Annex A.
- (b) to (d) For the planning of education support measures for non-Chinese speaking (NCS) students, their need for support is determined by whether their language

spoken at home is Chinese or not (instead of their ethnicity). The number of P1 to P6 NCS ethnic minority students in public sector schools and DSS schools by ethnicity in the 2017/18, 2018/19 and 2019/20 school years is tabulated at Annex B. The number of P1 to P6 NCS students in public sector schools and DSS schools by language spoken at home in the 2017/18, 2018/19 and 2019/20 school years is tabulated at Annex C. The data provided in Annex B and Annex C are not comparable since definition of NCS students is based on the language spoken at home (instead of the ethnicity of the students).

**Number of students at Primary 1 to Primary 6 levels

Regarding the educational support for non-Chinese speaking students in secondary education, please provide:

- (a) the number of students in each of the grade level from S1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school years 2017/18, 2018/19 and 2019/20;
- (b) the number of ethnic minority students in each of the grade level from S1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school years 2017/18, 2018/19 and 2019/20 disaggregated by ethnicity;
- (c) the number of non-Chinese speaking students in each of the grade level from S1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school years 2017/18, 2018/19 and 2019/20 disaggregated by their home language; and
- (d) the resources which will be granted to the EDB to start collecting this information if it has not started doing so, beginning in 2020/21 school year.

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 3)

Reply:

- (a) According to the information collected through the annual Enrolment Survey, the number of Secondary 1 (S1) to Secondary 6 (S6) students in public sector schools and Direct Subsidy Scheme (DSS) schools in the 2017/18, 2018/19 and 2019/20 school years is tabulated at Annex A.
- (b) to (d) For the planning of education support measures for non-Chinese speaking (NCS) students, their need for support is determined by whether their language

spoken at home is Chinese or not (instead of their ethnicity). The number of S1 to S6 NCS ethnic minority students in public sector schools and DSS schools by ethnicity in the 2017/18, 2018/19 and 2019/20 school years is tabulated at Annex B. The number of S1 to S6 NCS students in public sector schools and DSS schools by language spoken at home in the 2017/18, 2018/19 and 2019/20 school years is tabulated at Annex C. The data provided in Annex B and Annex C are not comparable since definition of NCS students is based on the language spoken at home (instead of the ethnicity of the students).

**Number of students at Secondary 1 to Secondary 6 levels
in the 2017/18, 2018/19 and 2019/20 school years**

Grade	2017/18 school year	2018/19 school year	2019/20 school year
S1	51 642	53 629	56 890

CONTROLLING OFFICER'S REPLY

EDB221

(Question Serial No. 0606)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the educational support for non-Chinese speaking students in self-financing post-secondary education, please provide:

- (a) the number of students in each of the self-financing post-secondary institutions in the academic years 2017/18, 2018/19 and 2019/20;
- (b) the number of ethnic minority students in each of the self-financing post-secondary institutions in the academic years 2017/18, 2018/19 and 2019/20 disaggregated by ethnicity;
- (c) the number of non-Chinese speaking students in each of the self-financing post-secondary institutions in the academic years 2017/18, 2018/19 and 2019/20 disaggregated by their home language;
- (d) the total number of students admitted to full-time self-financing post-secondary programmes in 2017/18, 2018/19 and 2019/20;
- (e) the number of ethnic minority students and non-Chinese speaking students, respectively, admitted to full-time self-financing post-secondary programmes in 2017/18, 2018/19 and 2019/20; and
- (f) the resources which will be granted to the EDB to start collecting this information if it has not started doing so, beginning in 2020/21 academic year.

Asked by: Hon TO Kun-sun, James (LegCo internal reference no.: 4)

Reply:

- (a) to (c) The statistics on the number of students pursuing full-time locally-accredited self-financing post-secondary programmes in the 2017/18, 2018/19 and 2019/20 academic years are at the Annex. Eligible applicants, irrespective of their race and language spoken at home, have equal opportunities to be admitted to post-secondary programmes. In respect of self-financing post-secondary institutions, since the Education Bureau's policy on self-financing post-secondary education and provision of student subsidies do not vary by students' race or language spoken at home, we do not collect the relevant information on local non-Chinese speaking (NCS) and ethnic minority students.
- (d) to (f) In the 2017/18, 2018/19 and 2019/20 academic years, 32 186, 32 765 and 32 892 (provisional figure as at October 2019 for the 2019/20 academic year) students were admitted to full-time locally-accredited self-financing post-secondary programmes respectively. We do not collect the relevant information on local NCS and ethnic minority students.

Enrolment of full-time locally-accredited self-financing sub-degree and undergraduate programmes by level of study and institution in the 2017/18, 2018/19 and 2019/20 academic years

CONTROLLING OFFICER'S REPLY

EDB222

(Question Serial No. 1362)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In incidents involving illegal acts and violence that happened over the recent 3 quarters or so, many primary and secondary school students and teachers were arrested. What is more, teachers and management of many primary and secondary schools were suspected of making remarks that provoked hatred or incited others to disregard the law either on the Internet or in class. In this connection, would the Education Bureau provide the following information:

- (1) The number of primary and secondary school students and teachers that have been arrested for suspected engagement in the above-mentioned illegal and violent activities since June last year;
- (2) Has the Administration made any plan or reserved any expenditure for providing appropriate counselling and support for the arrested primary and secondary school students mentioned above;
- (3) Has the Administration made any plan or reserved any expenditure for taking follow-up actions against suspected illegal acts and unprofessional conduct/unethical behaviour on the part of primary and secondary school teachers and management;
- (4) Has the Administration made any plan or reserved any expenditure for enhancing/restoring the legal awareness and professional conduct/ethical behaviour among primary and secondary school students, teachers and management?

Asked by: Hon TSE Wai-chuen, Tony (LegCo internal reference no.: 43)

Reply:

(1) According to the information the Education Bureau (EDB) has gathered from various channels, around 80 teachers (including teaching assistants) and around 1 000 secondary school students were arrested for involvement in social incidents between June and December 2019.

(2) A letter was sent by the EDB to all schools in December 2019, asking them to point out to students and parents clearly that schools would not tolerate students' unruly behaviour and any such behaviour should be handled according to the prevailing discipline and counselling mechanism. We will not give up on students who have broken the law or even been criminally convicted by court. We strive to help them get back on track by adopting an appropriate discipline and counselling approach. We suggest that schools should work out an individualised long-term discipline and counselling plan for each arrested or prosecuted student early so as to enhance their positive values and thinking, and develop the right attitudes for interacting with others. In addition, close liaison should be maintained with parents. Schools should care for other students who are affected by the case of apprehension or prosecution and provide assistance to them in order to address their emotions and help them understand the incident.

In recent years, the Government has been continuously increasing the provision of resources on professionals. For example, the "one social worker for each school" policy has been implemented in public sector primary schools according to school-based circumstances starting from the 2018/19 school year; and the "two social workers for each school" policy has been implemented in secondary schools starting from the 2019/20 school year. In addition, the ratio of school-based educational psychologist (EP) to school has been progressively increased. Under the whole school approach to guidance and discipline, these school professionals (including school social workers, student guidance personnel and school-based EPs) collaborate with teachers to provide remedial, preventive and developmental guidance programmes for the arrested or prosecuted students as necessary, as well as to encourage parents to listen actively and patiently to their children's inner voices, support them with a caring attitude when they are in distress, and maintain communication with schools with a view to helping the students reintegrate into school life and solving their behavioural problems.

Social incidents might affect the emotions of students arrested for engagement as well as other students. In this regard, the EDB has issued to all schools guidelines on taking care of the emotions of teachers and students, stating the basic principles on helping students manage their emotions and providing information on mental health and professional support services for teachers and school professionals. To enable schools to cater for their students' emotional needs, the EDB has also organised relevant workshops and thematic seminars that help schools understand the techniques for communicating with students, methods for handling mental health crisis, and crisis aftermath psychological support for teaching staff and students. Meanwhile, the Social Welfare Department (SWD) organises a series of training courses and workshops for social workers in secondary schools to enhance their capability in addressing students' problems.

To enhance students' resilience, schools may join the student development programmes launched by the EDB, such as the Understanding Adolescent Project for primary schools

and the Enhanced Smart Teen Project for secondary schools. Starting from the 2019/20 school year, the EDB has allocated more resources to refine these programmes by, for example, increasing the number of group-based student activities and training sessions for parents, and reducing the group size under the Intensive Programme of the Understanding Adolescent Project: as well as gradually increasing the number of training places under the Enhanced Smart Teen Project to benefit more students.

We noted that the Community Support Service Scheme is implemented by the SWD through non-governmental organisations. Support services are provided for juveniles aged between 10 and 18 and cautioned under the Police Superintendents' Discretion Scheme, arrested juveniles and their unruly peers (including students). Through individual and family counselling, therapy/skill training/educational groups, positive life training, community services, crime prevention activities, etc., these support services help juveniles correct their deviant and unlawful behaviour, and eliminate the likelihood of their breaking the law again.

As the above measures are part of our work on student guidance and support service for young people, the expenditure on providing support for the arrested primary and secondary school students cannot be separately identified.

(3) The EDB attaches great importance to teachers' professional conduct. If a teacher is found to have committed a serious offence or act of misconduct, EDB will follow up the case in a stringent manner in accordance with the Education Ordinance. For serious cases, the registration of the teacher concerned may be cancelled. The manpower and expenses involved in the relevant work are subsumed under the overall expenditure of the EDB.

(4) Core values such as "obeying the law", "rule of law", "responsibility", "respect for others", "commitment", "peace" and "inclusion" are always cherished and regarded highly by whole society, including individuals, schools and different groups. All along, the EDB has been promoting values education through the synergy of relevant curricula, learning and teaching resources and various learning activities in order to instil in students positive values and attitudes such as law-abidingness, respect for others, gratitude, cherishing, proactiveness, optimism, embracing inclusion and friendship. It is worrying and distressing for us to see teachers and students get involved in unlawful or even violent acts during the social incidents in 2019. The EDB will strengthen the promotion of values education in primary and secondary schools by developing more learning and teaching resources that incorporate life event exemplars on such values as "obeying the law", "rule of law", "responsibility", "respect for others", "commitment", "peace" and "inclusion". We will also step up Constitution and Basic Law education to nurture in students positive values and attitudes. Besides, relevant sections will organise professional training programmes for primary and secondary school principals and teachers to enhance their professional capacity for implementing values education in schools. Since the relevant expenses and manpower involved in developing learning and teaching resources, organising professional development programmes and the tasks related to curriculum development are subsumed under the recurrent expenditure of the EDB, no breakdown of figures is available.

The EDB has been determined to maintain a teaching profession of high quality and with professional conduct in Hong Kong. To encourage teachers and school leaders to reflect and demonstrate the professional roles and conduct expected of them, we have embedded

the Professional Standards for Principals and Professional Standards for Teachers of Hong Kong (T-standard⁺) in teacher training programmes as appropriate, which include training programmes for aspiring principals and newly appointed principals, as well as serving teachers and newly-joined teachers.

In response to public expectations, the EDB will continue to, through suitable professional development programmes, heighten the awareness among teachers and school leaders of their professional identity, further strengthen their professional capacity and facilitate their professional development. The manpower and expenses for professional development programmes are subsumed under the overall expenditure of the EDB.

The reasons for teachers' and students' participation in unlawful activities are complicated. Apart from school education, factors like families, peers, social atmosphere and media/online information also play a crucial role. It is incumbent on the EDB to effectively promote positive values education. It is hoped that various stakeholders' recognition and active participation can be obtained with a view to creating a favourable environment for nurturing positive values and attitudes in our young people with concerted efforts.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

The estimated wastage rate of kindergarten teachers in 2020/21 is as high as 11.8%. In this connection, would the Government advise this Committee:

- (a) of the ratios of kindergarten teachers with Certificate in Early Childhood Education or higher qualifications to pupils from 2017 to 2019; and
- (b) whether the Government will take any measures to retain kindergarten teachers? If yes, what are the measures and expenditure involved? If no, what are the reasons?

Asked by: Hon YICK Chi-ming, Frankie (LegCo internal reference no.: 21)

Reply:

- (a) The ratios of kindergarten (KG) teachers with Certificate in Early Childhood Education or higher qualifications to pupils in local KGs from the 2017/18 to 2019/20 school years are set out below:

	2017/18 school year	2018/19 school year	2019/20 school year (provisional figure)
Average teacher-to-pupil ratio	1:10	1:9.7	1:9.5

Note:

- (1) Figures reflect the position as at mid-September of the respective school years.
- (2) Figures only include teachers with Certificate in Early Childhood Education or higher qualifications but do not include principals.

- (b) Under the KG education policy, KGs are encouraged to establish a career ladder and offer competitive remuneration to retain and attract quality teachers. Various measures have been adopted to ensure that teachers are remunerated reasonably. These include providing salary ranges for respective ranks of teaching staff and KGs are obliged to remunerate their teachers within their corresponding salary ranges; prescribing 60% of the basic unit subsidy as teachers' salary portion, which must be used on teaching staff salaries and related expenses (while KGs may deploy any portion of the remaining 40% for teaching staff salaries and related expenses, but not vice versa); and clawing back the accumulated surplus in the salary portion exceeding the reserve ceiling to encourage schools' optimal use of the subsidy on teaching staff salary.

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)
Director of Bureau: Secretary for Education

Question:

Regarding the promotion of inspiring Science, Technology, Engineering and Mathematics (STEM) education in the Vocational Training Council and the community, what measures will be taken by the Administration to encourage STEM education and what is the estimated expenditure?

Asked by: Hon YICK Chi-ming, Frankie (LegCo internal reference no.: 22)

Reply:

To promote and support STEM education, the Vocational Training Council (VTC) set up the VTC STEM Education Centres in May 2017 to enhance teaching and learning of STEM-related subjects through the development of various technological applications and the support of state-of-the-art teaching facilities. The Centres also make use of Virtual Reality (VR) and Augmented Reality (AR) technologies to provide simulated workplace training for students. These technologies are applied to the teaching and learning of various programmes, including lift and escalator maintenance, airport facilities operation, aircraft maintenance engineering, automotive engineering, and horticulture to enhance teaching effectiveness and train up effective VPET personnel who excel in practical know-how. The Centres also organise various kinds of STEM workshops and large-scale competitions to arouse the interest of primary and secondary students in science subjects, increase the popularity of STEM education, and motivate the younger generation to acquire knowledge in STEM-related disciplines. In 2018, the Centres signed a Memorandum of Understanding on the Industry Partner Collaboration Scheme with over a dozen local major enterprises and institutions, with a view to introducing the younger generation to the prospect of STEM industries and encouraging them to pursue a career in these industries. This collaboration platform has enabled the Centres to undertake a number of interdisciplinary projects with industry partners, and invite industry veterans to share their extensive trade knowledge and information on the latest technological developments with students as STEM Ambassadors in order to enhance students' understanding of STEM industries, whereby facilitating talent development. Up to the 2019-20 financial year, the

Government has allocated a total of about \$21.5 million to support the VTC in the establishment of VTC STEM Education Centres and provision of teaching facilities.

Question:

Regarding the Pilot Training and Support Scheme which supports trainees in study and exchange outside Hong Kong, would the Government advise this Committee of the details and the estimated number of beneficiaries of the Scheme?

Asked by: Hon YICK Chi-ming, Frankie (LegCo internal reference no.: 23)

Reply:

To further enhance the vocational and professional education and training (VPET) learning experience, subject to funding approval from the Legislative Council, for three years starting from the 2020/21 academic year, the Government will provide the Vocational Training Council (VTC) with a non-recurrent funding of about \$19.95 million in total to support trainees under the Scheme to take part in study and exchange programmes outside Hong Kong, attend short-term skills and practical courses as well as visit institutions/enterprises in those places, allowing them to understand the development of relevant industries and the learning experience of VPET students in other places, thereby facilitating skills exchange and broadening their exposure. Relevant staff of the VTC will also join the programmes to learn from the successful experience of VPET institutions outside Hong Kong and understand the latest development of VPET (in areas such as curriculum design and management, apprentice management, teaching pedagogies and equipment, latest technologies, and applied research, etc.), with a view to further elevating the standard of VPET in Hong Kong to international level.

The VTC tentatively plans to organise six exchange programmes in the Guangdong-Hong Kong-Macao Greater Bay Area (Greater Bay Area)/Asia (lasting seven to ten days) and three exchange programmes in Europe/United States of America/Australia (lasting two weeks) each year. The initiative aims to benefit about 180 trainees under the Scheme and 18 teachers each year through participation in the related exchange programmes. The VTC will also arrange for participants of the programmes to share their experience and takeaways

with other trainees and teachers, so that more can broaden their horizon. With reference to the VTC's past experience in organising similar programmes, the direct expenditure for each participant of exchange programmes in the Greater Bay Area/Asia (short haul) and Europe/United States of America/Australia (long haul) are \$25,000 and \$50,000 respectively. The actual expenses may vary depending on the exchange destinations and time of departure. The VTC will set up a project team to work out the other details of the programme.

CONTROLLING OFFICER'S REPLY**EDB226****(Question Serial No. 0916)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

Regarding the continued provision of School-based Educational Psychology Service (SBEPS) in primary and secondary schools, would the Government advise this Committee:

(a) of the respective expenditure and manpower resources involved;

(b) of the number of educational psychologists employed under the SBEPS and the number of students using the SBEPS in the past 3 years (from 2017 to 2019); and

(c) whether it has assessed the effectiveness of the SBEPS; if yes, of the assessment results; if no, of the reasons.

Asked by: Hon YICK Chi-ming, Frankie (LegCo internal reference no.: 35)

Reply:

(a) and (b)

From the 2017/18 to 2019/20 school years, the respective number of educational psychologists (EPs) employed by the Education Bureau (EDB) and school sponsoring bodies to provide School-based Educational Psychology Service (SBEPS) (including Enhanced SBEPS) for public sector ordinary primary and secondary schools in the territory is 144, 151 and 156. The total expenditure involved is tabulated as follows:

School year	2017/18	2018/19	2019/20 (revised estimate)
Expenditure (\$ million)	127	139	183

The SBEPS adopts a comprehensive and integrated service model that aims at enhancing schools' professional capacity to cater for students' diverse educational needs. The number of students requiring direct support from EPs varies from school to school, while the level and frequency of support that individual students need also differ. In many cases, EPs need to collaborate with teachers, social workers, etc. to jointly support the students concerned according to the principle of Whole School Approach. Besides, school-based EPs enhance the effectiveness of the support rendered by schools to the students through strengthening the school support system and teachers' knowledge and skills in catering for students' diverse needs. In this regard, all students benefit from the provision of the SBEPS directly or indirectly.

(c)

A quality assurance mechanism has been put in place to evaluate service effectiveness and to ensure service quality. Under the mechanism, the EDB conducts an annual review through a questionnaire survey among participating schools and EPs at the end of a school year to gauge feedback from different stakeholders. The EDB also conducts school visits to review service deliverables (including the work plans and progress reports submitted by EPs) and to hold meetings with EPs and school personnel to advise on issues related to the implementation of the SBEPS. Parents' views on the service are collected through questionnaires. In addition, the EDB holds regular meetings with the school sponsoring bodies providing the service to review service planning and coordination. Views given by different stakeholders indicated that the SBEPS was able to meet the needs of schools and the satisfaction level among schools receiving the Enhanced SBEPS had also risen.

EDB227

(Question Serial No. 0918)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

On the recommendations of the Task Force on School-based Management Policy, the Government has implemented the “One Executive Officer for Each School” policy starting from 2019, under which a school executive officer post is created in each school. In this connection, please advise this Committee of:

- (a) the number of school executive officers successfully recruited, as well as the average salary level and wastage rate; and
- (b) the expenditure involved in implementing the “one executive officer for each school” policy.

Asked by: Hon YICK Chi-ming, Frankie (LegCo internal reference no.: 37)

Reply:

(a) and (b)

Starting from the 2019/20 school year, the Government has provided all public sector schools (including special schools) and schools under the Direct Subsidy Scheme (DSS) with additional resources to strengthen the administrative support for schools and their management committees. The additional expenditure involved is around \$570 million each year.

The above support includes the implementation of the “One Executive Officer for Each School” policy. The Education Bureau (EDB) has provided public sector schools and DSS schools with resources for hiring additional administrative manpower. Schools are required to recruit at least one full-time School Executive Officer (School ExO) with a local bachelor’s degree (or equivalent), regardless of whether they choose to create a regular School ExO post or receive the School Executive Officer Grant (SEOG). Schools receiving the SEOG may procure school administration-related service from service

provider(s) which should include the provision of at least one full-time school-stationed School ExO with a recognised degree.

In the 2019/20 school year, a total of 89 aided and caput schools created a regular School ExO post. The salary of the post is pegged at that of a civil service Executive Officer II, i.e. Civil Service Master Pay Scale Points 15 to 27. Another 754 aided and caput schools received the SEOG. The amount of the SEOG is benchmarked against the mid-point salary of a civil service Executive Officer II and subject to annual adjustment according to the mid-point salary of civil service Executive Officer II. We encourage schools to refer to the pay scale of a regular School ExO and provide comparable employment package when recruiting a contract School ExO. As contract School ExOs are recruited by schools themselves or by other service providers, the EDB does not collect information about the relevant appointments, including remunerations, and hence does not have figures for the wastage rate of School ExO either.

In the 2019/20 school year, all government schools (65 in total) recruited contract School Administrative Executives with the SEOG. Similar to aided and caput schools, the amount of the SEOG is benchmarked against the mid-point salary of a civil service Executive Officer II and subject to annual adjustment according to the mid-point salary of civil service Executive Officer II.

(Question Serial No. 1476)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Budget Speech that the Financial Secretary will “allocate sufficient resources to the Food and Health Bureau, the Labour and Welfare Bureau and the Education Bureau (EDB) for providing appropriate support to people suffering from mental distress”. What resources will be allocated to the EDB? What initiatives will be covered? For each of these initiatives, what will be the costs and manpower involved, the implementation timetable, and the expected number of beneficiaries?

Asked by: Hon YUNG Hoi-yan (LegCo internal reference no.: 5)

Reply:

The Education Bureau (EDB) has been encouraging schools to adopt the Whole School Approach to promote mental health amongst students and to enhance support for students with mental health needs. The EDB also provides schools with additional resources, teacher training and professional support to help them cater for students with mental health needs. Schools should make good use of existing and additional resources and professional support services, including the School-based Educational Psychology Service, social work service for primary schools, and the “two school social workers for each school” policy implemented in secondary schools starting from the 2019/20 school year etc., to enhance their promotion of mental health. Schools should also cater for students’ emotional, social and behavioural needs through close collaboration among student guidance teachers, school social workers, school-based educational psychologists and other professionals in organising school-based development or counselling activities to meet students’ needs, and actively promoting mental health projects.

In view of the recent social incidents and the COVID-19 epidemic, the EDB has adopted a series of measures to assist schools in catering for students with mental distress. Apart from issuing letters and guidelines to schools and parents to lay out the basic principles for managing students’ emotions, and providing teachers and other school professionals with

information on mental health and professional support services, the EDB has also organised relevant workshops and thematic talks to assist schools in taking care of students' emotional needs. With the support of the EDB, school councils, associations of school principals and the Hong Kong Psychological Society held a series of workshops on "Trust and Respect, Love and Care in Schools" for primary, secondary and special schools across the territory in August 2019. Through experiential activities and illustration, psychologists helped participating principals, vice principals and teachers acquire the skills to communicate with students and parents, and the strategies as well as approaches to handle students' emotions. These workshops had an attendance of over 1 000. In December 2019, the EDB held two thematic talks on mental health for over 400 principals and teachers of primary, secondary and special schools. A psychiatrist was invited to give a presentation on ways to handle mental health crisis and how schools can better support students in need, and a clinical psychologist was also there to share her experience in providing psychological support for teaching staff and students after the occurrence of an emergency incident.

In the face of unforeseeable events such as the social incidents, the epidemic and extended class suspension, many students understandably feel stressful and disturbed, which lead to mood swings. In view of this, we are now in the process of producing a series of short psychoeducational videos in collaboration with professional bodies with a view to equipping teachers and parents with skills to deal with the negative emotions and mental stress of their students and children. In the coming few months, we will organise a series of regional-based workshops for teachers and guidance personnel where experts (e.g. psychiatrists, psychologists, etc.) will be invited to share practical skills for supporting students and discuss case studies. Different stakeholders, including students, parents and teachers, etc., should benefit from the above activities.

The relevant manpower resources and expenses are subsumed under the overall expenditure of the EDB, and a breakdown of expenditure by item is not available.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1505)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses, (700) General non-current

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Ingrid YEUNG)

Director of Bureau: Secretary for Education

Question:

In view of the ongoing coronavirus epidemic, will the Education Bureau provide additional funding to kindergartens, primary schools, secondary schools and special schools for procuring anti-epidemic equipment, such as surgical masks and handrub, in 2020-21? If yes, what are the total estimated expenditure involved and the estimated amount of additional funding for each kindergarten, primary school, secondary school and special school? If no, what are the reasons?

Asked by: Hon YUNG Hoi-yan (LegCo internal reference no.: 34)

Reply:

Aided schools are provided with the Operating Expenses Block Grant/Expanded Operating Expenses Block Grant for meeting operating expenses. Schools can deploy these grants for procuring anti-epidemic equipment. Daily supplies of government schools are provided in part by the Government Logistics Department and the Education Bureau (EDB) and in part through procurement by schools. The same applies to anti-epidemic supplies. As for kindergartens (KGs), the EDB provides the KGs joining the kindergarten education scheme (Scheme-KGs) with direct subsidies, and Scheme-KGs may deploy the portion of other operating expenses under the basic unit subsidy to procure anti-epidemic equipment. In addition, the EDB has deployed existing resources to provide a one-off Special Anti-epidemic Grant to all schools offering full and formal curriculum to help them replenish their epidemic prevention equipment (such as masks, thermometers, etc.), clean their school premises and pay for the other expenses related to epidemic prevention. The provision is estimated to be \$42 million, benefitting some 2 200 schools.

The subsidy rate ranges from \$10,000 to \$25,000 per school, depending on the type and size of the school. Details are as follow:

(i) KGs - the amount to be received by Scheme-KGs is determined by the total number of students as at 15 January 2020 (excluding the students enrolled in child care centres). Specifically, KGs with 66 or less half-day students will each receive \$10,000 (one full-time student to be counted as two half-day students); 67 or more will receive \$15,000. Each non-Scheme KG will receive \$12,500.

(ii) Government schools, aided schools (including special schools), caput schools and Direct Subsidy Scheme schools - the amount to be received by each school is determined by the number of approved classes in the 2019/20 school year. Specifically, schools with 11 classes or less will receive \$15,000; those with 12 to 23 classes will receive \$20,000; and those with 24 classes or more will receive \$25,000.

(iii) Boarding sections of special schools - the amount to be received is determined by their approved boarding capacity in the 2019/20 school year. Specifically, schools with a boarding capacity less than 40 will receive \$15,000; those with a capacity from 40 to 60 will receive \$20,000; and those with a capacity from 61 or more will receive \$25,000.

(iv) Private secondary and primary schools (including private schools offering full and formal curriculum, international schools, Private Independent Schools and schools under the English Schools Foundation) - each school will receive \$20,000.

Furthermore, the boarding sections of aided special schools have been operating to cater for students in need of boarding service during class suspension. To enhance the support for the boarding sections of these schools to guard against the epidemic and to reduce the risk of the spread of the novel coronavirus, the EDB provided separately a one-off additional grant for 21 special schools with a boarding section in March 2020. The amount of the special grant is determined by their approved boarding capacity. Specifically, schools with a boarding capacity less than 40 will receive \$50,000; those with a capacity from 40 to 60 will receive \$100,000; those with a capacity from 61 or more will receive \$150,000. The additional expenditure is estimated to be \$2.25 million.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 1417)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student Financial Assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

Please provide the number of student beneficiaries in each school district under the Student Travel Subsidy Scheme and the expenditure involved in the past 3 years. Please provide the number of student beneficiaries in each school district under the School Textbook Assistance Scheme and the expenditure involved in the past 3 years. Please provide the number of family beneficiaries under the Subsidy Scheme for Internet Access Charges (SIA) and the expenditure involved in the past 3 years.

Asked by: Hon CHEUNG Kwok-kwan (LegCo internal reference no.: 2)

Reply:

The number of primary and secondary students receiving the student travel subsidy and the amount of assistance disbursed by school district in the 2017/18 to 2019/20 school years and the corresponding figures of post-secondary students are detailed at Annex 1 and Annex 2.

The number of primary and secondary students receiving school textbook assistance and the amount of assistance disbursed by school district in the 2017/18 to 2019/20 school years are detailed at Annex 3.

The Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency and the Social Welfare Department disburse the internet access subsidies to eligible families. The number of family beneficiaries under the SIA and the amount of assistance disbursed in the 2017/18 to 2019/20 school years are as follows:

	2017/18 School Year		2018/19 School Year		2019/20 School Year (as at 31 January 2020)	
	No. of beneficiary families	Amount of assistance disbursed (\$ M)	No. of beneficiary families	Amount of assistance disbursed (\$ M)	No. of beneficiary families	Amount of assistance disbursed (\$ M)

CONTROLLING OFFICER'S REPLY**EDB231****(Question Serial No. 1939)**

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

Please provide the following:

1. the relevant figures of the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) over the past 3 years, including the number of students eligible for fee remission, the level and total amount of fee remission, as well as the provision earmarked for KCFRS and the manpower arrangement for the coming year; and
2. regarding the Grant for School-related Expenses for Kindergarten Students (Grant-KG), (a) the relevant figures in each school year since the launch of the Grant-KG, including the number of applications and beneficiaries, as well as the average and total amount of grant disbursed; (b) the school-related expenses covered by the grant; and (c) the provision earmarked for the Grant-KG and the manpower arrangement for the coming year.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 13)

Reply:

1. In the 2017/18 to 2019/20 school years (as at 31 January 2020), the number of eligible students under the KCFRS with a breakdown by level of fee remission and the total amount of subsidy disbursed are as follows:

School year	Number of eligible students who did not require subsidy#	Breakdown of eligible students who received subsidy by level of fee remission			Total amount of subsidy disbursed (\$ million)
		100%	75%	50%	
2017/18	14 584	14 437	2 263	8 688	276.0
2018/19	13 007	13 549	2 217	9 198	289.2
2019/20 (as at 31 January 2020)	13 289	13 027	2 178	8 969	148.1

Students who passed the means test but needed not pay school fees under the kindergarten education scheme

The estimated expenditure of the KCFRS in the 2020/21 school year is around \$283.9 million. As regards the manpower arrangement, please refer to part 2(c) of the reply.

- 2(a). The Grant-KG was launched in the 2017/18 school year. In the 2017/18 to 2019/20 school years (as at 31 January 2020), the number of applications and beneficiaries, as well as the average and total amount of grant disbursed are as follows:

School year	Number of applications	Number of beneficiaries	Average amount of grant disbursed (\$)	Total amount of grant disbursed (\$ million)
2017/18	46 621	39 671	3,142	124.7
2018/19	45 794	37 859	3,131	118.5
2019/20 (as at 31 January 2020)	47 101	36 875	3,195	117.8

- (b) Since the 2017/18 school year, eligible families have been provided with the Grant-KG to defray school-related expenses incurred from their children's kindergarten education, such as the purchase of text books, stationery and school uniforms.
- (c) The estimated expenditure of the Grant-KG in the 2020/21 school year is around \$124.1 million. The applications for the KCFRS and the Grant-KG are processed by existing staff who handle various financial assistance schemes for secondary, primary and pre-primary students. The estimated number of staff involved for the 2020/21 school year is 190.

CONTROLLING OFFICER'S REPLY**EDB232****(Question Serial No. 1945)**

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (102) Non-means-tested loan scheme
(202) Non-means-tested loan scheme

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

What are the respective amount of study interest received by the Government under various Non-means-tested Loan Schemes (NLS) in the past 3 years? Please provide a breakdown by the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and the Extended Non-means-tested Loan Scheme (ENLS).

Moreover, please provide the respective numbers of applications, numbers of applications approved, average amounts of loans disbursed, average interest rates, average repayment periods, average amounts of interest paid, average amounts of loans repaid, total amounts of loans disbursed, total amounts of interest paid and total amounts of loans repaid under various NLS in the past 3 years.

Asked by: Hon HUI Chi-fung (LegCo internal reference no.: 19)

Reply:

The respective amount of study interest received by the Government under the NLSFT, NLSPS and ENLS in the 2017/18 to 2019/20 academic years is as follows –

Scheme	Academic Year		
	2017/18	2018/19	2019/20*
	(\$ million)		
A. NLSFT	11.61	11.08	5.34
B. NLSPS	22.02	22.02	11.25
C. ENLS	14.89	12.26	5.53

* As at 31 January 2020

The information on financial assistance provided to students under the NLSFT, NLSPS and ENLS in the 2017/18 to 2019/20 academic years is as follows –

	Academic Year		
	2017/18	2018/19	2019/20*
A. NLSFT			
Number of applications	15 684	16 026	15 926
Number of applications approved	14 158	14 524	14 369
Average amount of loans disbursed (\$)	39,096	39,235	39,868
Total amount of loans disbursed (\$ million)	465.91	483.73	442.73
B. NLSPS			
Number of applications	17 125	15 624	15 208
Number of applications approved	15 369	14 539	13 671
Average amount of loans disbursed (\$)	54,567	55,841	49,571
Total amount of loans disbursed (\$ million)	701.90	681.54	520.25
C. ENLS			
Number of applications	7 079	6 652	5 030
Number of applications approved	7 079	6 652	4 773
Average amount of loans disbursed (\$)	60,495	63,395	54,568
Total amount of loans disbursed (\$ million)	388.98	385.95	245.94

* As at 31 January 2020

The prevailing interest rate of the above 3 NLS is 1.106% per annum.

As students complete their studies and commence repayment of loans at different times, we have not kept record of the loan repayment information based on the academic year in which students obtain loans. However, based on the loan repayment accounts which have been fully settled, the average repayment periods of these accounts under the NLSFT, NLSPS and ENLS in the 2017/18 to 2019/20 academic years are as follows –

Scheme	Academic Year		
	2017/18	2018/19	2019/20*
	(Average Repayment Period)(Year)		
A. NLSFT	7.4	7.0	7.3
B. NLSPS	7.2	6.9	7.5
C. ENLS	8.7	8.6	8.5

* As at 31 January 2020

The average annual amount of interest paid, average annual amount of loans repaid (interest included), total amount of interest paid and total amount of loans repaid for the loan repayment accounts under the NLSFT, NLSPS and ENLS in the 2017/18 to 2019/20 academic years are as follows –

	Academic Year		
	2017/18	2018/19	2019/20*
A. NLSFT			
Average annual amount of interest paid (\$)	1,028.55	1,045.89	489.26
Average annual amount of loans repaid (\$)	10,127.19	10,116.69	4,842.74
Total amount of interest paid (\$ million)	27.90	30.30	15.39
Total amount of loans repaid (\$ million)	274.66	293.04	152.35
B. NLSPS			
Average annual amount of interest paid (\$)	1,347.00	1,375.45	665.72
Average annual amount of loans repaid (\$)	11,653.09	11,898.11	5,867.75
Total amount of interest paid (\$ million)	56.79	62.40	32.99
Total amount of loans repaid (\$ million)	491.31	539.78	290.74
C. ENLS			
Average annual amount of interest paid (\$)	739.17	719.66	335.93
Average annual amount of loans repaid (\$)	6,757.84	6,652.61	3,233.02
Total amount of interest paid (\$ million)	42.68	40.12	18.88
Total amount of loans repaid (\$ million)	390.23	370.92	181.67

* As at 31 January 2020

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (228) Student financial assistance
(101) Means-tested loan for tertiary students pursuing publicly-funded programmes
(102) Non-means-tested loan scheme
(103) Means-tested loan for post-secondary students
(201) Means-tested loan for tertiary students pursuing publicly-funded programmes
(202) Non-means-tested loan scheme
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Donald NG)

Director of Bureau: Secretary for Education

Question:

1. Please provide in the table below information on the following student financial assistance schemes in the past 5 years (2015/16 to 2019/20 academic years):

	No. of applications	No. of applications approved	No. of students receiving grants	No. of students receiving full grants	Average grant amount	No. of students receiving loans	Average loan amount	Total amount of government expenditure involved
TSFS								
FASP								
NLSFT								
NLSPS								
ENLS								

TSFS - Tertiary Student Finance Scheme - Publicly-funded Programmes

FASP - Financial Assistance Scheme for Post-secondary Students

NLSFT - Non-means-tested Loan Scheme for Full-time Tertiary Students

NLSPS - Non-means-tested Loan Scheme for Post-secondary Students

ENLS - Extended Non-means-tested Loan Scheme

2. Please provide the respective numbers of student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS by institution and programme (publicly-funded degree, sub-degree and self-financing degree); the loan amount disbursed (highest, average, lowest and median); the length of repayment period; the district of residence and type of housing (public/Home Ownership Scheme/private); as well as sex and age profile of such borrowers in the past 5 years (2015/16 to 2019/20 academic years).
3. Please provide the respective numbers of students receiving grants and full grants under the TSFS and FASP by institution, department and year of study in the past 5 years (2015/16 to 2019/20 academic years).
4. Please provide the respective numbers of students receiving loans and the average loan amounts under the NLSFT, NLSPS and ENLS by institution, department and year of study in the past 5 years (2015/16 to 2019/20 academic years).
5. Please provide the average loan amount, median loan amount, average monthly loan repayment amount, median monthly loan repayment amount and default rate in respect of tertiary students who obtained loans from the Student Finance Office in the past 5 years (2015/16 to 2019/20 academic years).
6. Please provide in the table below information on the TSFS, FASP, NLSFT, NLSPS and ENLS in the past 5 years:

(Name of scheme/academic year)				
Year of account opening	Average amount of outstanding interest	Average amount of outstanding loan principal	Average total outstanding amount	Average monthly loan repayment amount
1				
2				
3				
4

(E) ENLS[@]

The numbers of students receiving loans in respect of each of the 5 categories of eligible courses/course providers under the ENLS in the 2015/16 to 2019/20 academic years are as follows –

Category of Eligible Courses	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Category 1 – Courses accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or accredited by institutions by virtue of their self-accreditation status or Programme Area Accreditation status	3 077	3 045	3 253	3 288	2 404
Category 2 – Courses under Diploma Yi Jin	870	948	837	733	739
Category 3 – Courses covered by the Financial Assistance Scheme for Designated Evening Adult Education Courses	1	0	2	0	0
Category 4 – Training or development courses provided or funded by local statutory bodies	7	5	0	0	0
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Cap 493)	2 405	2 358	2 350	2 078	1 365
Total^{##}	6 360	6 356	6 442	6 099	4 508

* As at 31 January 2020

@ The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the numbers of students receiving loans in respect of each category of eligible courses/course providers under the ENLS is provided.

Some students received loans for courses in different categories in the same academic year and therefore the total number of students receiving loans by category is larger than the figure in (1)(E) above.

(b) The numbers of student loan borrowers by different study levels of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2015/16 to 2019/20 academic years are as follows –

(A) TSFS

Level of Study	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Degree or above	5 442	4 695	4 091	3 645	2 573
Sub-degree	1 181	1 047	969	736	435
Total	6 623	5 742	5 060	4 381	3 008

(B) FASP

Level of Study	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Degree / Top-up degree	2 880	2 570	2 294	1 930	1 241
Sub-degree	2 201	2 073	1 924	1 626	1 019
Total	5 081	4 643	4 218	3 556	2 260

(C) NLSFT

Level of Study	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Degree or above	9 135	9 593	10 074	10 559	9 805
Sub-degree	1 839	1 911	1 843	1 770	1 300
Total	10 974	11 504	11 917	12 329	11 105

(D) NLSPS

Level of Study	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
Degree / Top-up degree	7 792	7 790	7 196	6 414	5 626
Sub-degree	5 515	5 912	5 667	5 791	4 869
Total	13 307	13 702	12 863	12 205	10 495

* As at 31 January 2020

As for the ENLS, we do not maintain information on the numbers of student loan borrowers by different study levels of programmes because it covers a wide range of post-secondary/continuing and professional education courses.

- (c) The lowest, average, median and highest amounts of loans disbursed under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Amount of Loan Disbursed (\$)	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
(A) TSFS (loans are to cover living expenses)					
Lowest	1,700	3,627	3,707	3,001	1,544
Average	32,940	36,716	38,022	38,871	41,250
Median	42,100	48,000	49,000	50,000	51,470
Highest **	66,460	72,555	74,145	75,030	77,205
(B) FASP (loans are to cover living expenses)					
Lowest	870	1,200	2,965	3,500	3,536
Average	35,446	38,873	39,902	40,585	42,594
Median	44,310	48,370	49,430	50,020	51,470
Highest**	75,590	78,610	78,000	75,030	77,205
(C) NLSFT (loans are to cover tuition fees)					
Lowest	215	4,215	1,000	3,610	5,600
Average	38,749	38,838	39,096	39,235	39,868
Median	42,100	42,100	42,100	42,100	42,100
Highest	51,310	84,200	55,570	58,070	58,620
(D) NLSPS (loans are to cover tuition fees)					
Lowest	1,810	1,390	1,690	1,940	2,435
Average	59,528	60,424	54,567	55,841	49,571
Median	55,000	55,000	54,300	55,000	55,000
Highest	267,143	272,723	278,303	283,883	291,206
(E) ENLS (loans are to cover tuition fees)					
Lowest	3,000	2,570	2,375	3,563	3,612
Average	54,904	57,808	60,495	63,395	54,568
Median	42,800	45,920	48,000	52,000	54,600
Highest	340,000	350,200	358,600	364,000	372,700

* As at 31 January 2020

** Under the TSFS and FASP, some applicants, e.g. disabled applicants, might be offered loans at an amount higher than the maximum loan amount of the academic year on a discretionary basis.

As students complete their studies and commence repayment of loans at different times, we have not kept record of the loan repayment information based on the academic year in which students obtain loans. However, based on the loan repayment accounts which have been fully settled, the average repayment periods of these accounts under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2015/16 to 2019/20 academic years are as follows –

Scheme	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
	(Average Repayment Period)(Year)				
(A) TSFS	4.8	4.8	4.9	5.4	6.0
(B) FASP	6.3	6.5	6.5	6.4	7.1
(C) NLSFT	7.9	7.6	7.4	7.0	7.3
(D) NLSPS	6.7	7.1	7.2	6.9	7.5
(E) ENLS	8.4	8.4	8.7	8.6	8.5

* As at 31 January 2020

We do not maintain information on the distribution of student loan borrowers by district of residence, type of housing, sex and age profile.

3. The numbers of students receiving grants and full grants under the TSFS and FASP by institution in the 2015/16 to 2019/20 academic years are as follows. We do not maintain information on the breakdown of student beneficiaries by department and year of study.

(A) TSFS

Institution	Academic Year				
	2015/16	2016/17	2017/18	2018/19	2019/20*
(a) City University of Hong Kong
