Legislative Council Panel on Health Services

**Prevention and Control of
Coronavirus Disease 2019 in Hong Kong**

PURPOSE

Further to the submissions to the Legislative Council (“LegCo”) Panel on Health Services on 10 and 30 January 2020, 10 and 20 March 2020 and 8 April 2020¹ and to LegCo on 19 February 2020², this paper offers an update on the Government’s response and measures adopted to prevent and control the spread of coronavirus disease-2019 (“COVID-19”) in Hong Kong.

LATEST SITUATION

(a) Local situation

2. As at 23 April 2020, Hong Kong had 1 036 confirmed cases (including one suspected case), including 4 fatal cases and 698 discharged patients after treatment. Based on epidemiological classification, 637 of them are imported cases or their close contacts, 399 are local cases, possibly local cases or their close contacts.

3. With the Government putting in place and continuing to implement a series of stringent border control and social distancing measures, there are preliminary signs that the COVID-19 outbreak

¹ Information papers were submitted to the LegCo Panel on Health Services on 10 January 2020 (LC Paper No. CB(2)468/19-20(05)), 30 January 2020 (LC Paper No. CB(2)575/19-20(01)), 10 March 2020 (LC Paper No. CB(2)673/19-20(01)), 20 March 2020 (LC Paper No. CB(2)734/19-20(04)), and 8 April 2020 (LC Paper No. CB(2)794/19-20(01)) respectively.

² An information paper was submitted to LegCo for information on 18 February 2020. For more details, please refer to <https://www.legco.gov.hk/yr19-20/english/counmtg/papers/cm20200219p-e.pdf>.

situation in Hong Kong is stabilising. The number of new cases had stayed at single-digit level for 12 consecutive days (including 20 April 2020 with no new case), and over 90% of the cases are imported cases or the relevant person has travel history during the virus incubation period or is a close contact of an imported case or case with travel history. That said, there may still be changes in the outbreak situation. Hence, to safeguard the health of the public and protect Hong Kong's healthcare system, the current focus of the Government's prevention and control work remains to prevent the virus from being imported into Hong Kong from other places and to slow down the spreading of cases in the community.

(b) Global and Mainland situation

4. On 11 March 2020, the World Health Organisation ("WHO") declared that the outbreak of COVID-19 can be characterised as a pandemic. There is a rapid and continuous increase in the number of confirmed COVID-19 cases reported around the world. As at 23 April 2020 (10 a.m.), besides the Mainland, 214 countries/areas in the world (including Hong Kong) had reported more than 2 430 900 confirmed cases of COVID-19, including more than 173 600 death cases. Please refer to **Annex 1** for the details.

5. Among these countries/areas, the number of confirmed cases of COVID-19 has been running high in a number of regions, including the United States, Spain, Italy and Germany. The latest situation in these countries is summarised below –

- (i) United States:** As at 23 April 2020, the number of confirmed cases in the United States reached 802 583 (including 44 575 deaths). 250 800 of the cases occurred in New York City.
- (ii) Spain:** As at 23 April 2020, the number of confirmed cases in Spain reached 208 389 (including 21 717 deaths).
- (iii) Italy:** As at 23 April 2020, the number of confirmed cases in Italy reached 187 327 (including 25 085 deaths).

(iv) Germany: As at 23 April 2020, the number of confirmed cases in Germany reached 145 694 (including 4 879 deaths).

6. As for the situation in the Mainland, the number of cases has dropped significantly since early March. The majority of the recent confirmed cases are imported cases. As at 23 April 2020, the number of confirmed cases reached 82 798 (4 632 deaths), with that in Hubei Province alone hitting 68 128 (4 512 deaths). For Guangdong Province, the number of confirmed cases reached 1 584 (8 deaths).

KEY MEASURES

7. All government bureaux and departments, the Hospital Authority (“HA”), as well as relevant parties, have stepped up their efforts on all fronts in preventing and controlling COVID-19. An overview of our key measures is set out below. A chronology of major events and measures is at [Annex 2](#).

(a) Strengthening port health measures

8. As an on-going measure, the Government has imposed body temperature checks for all incoming travellers at all boundary control points (“BCPs”). Since 1 February 2020, the Hong Kong International Airport (“HKIA”) has implemented body temperature checks for both departing and transit passengers. To strengthen surveillance and contact tracing, a health declaration arrangement has been implemented at HKIA (for Wuhan flights, subsequently all Mainland flights and then Korea flights) and other land-based BCPs since 21 January 2020. With the increasing number of countries/areas reporting community transmission of cases of COVID-19, the Department of Health (“DH”) has extended the health declaration arrangement to all inbound travellers at HKIA since 8 March 2020. DH also started the use of an electronic health declaration system at HKIA on the same day. The system has been used by other land-based BCPs since 21 March 2020.

(b) Strengthening immigration control

9. To further prevent imported cases and cut the global and local virus transmission chain as far as possible, the Government has since 25 March 2020 implemented the following measures to restrict entry and suspend all transit services at HKIA, initially until 7 April 2020. Taking into account that COVID-19 is still severe in some overseas countries and regions, the Government announced on 6 April 2020 to extend the relevant measures until further notice.

- All non-Hong Kong residents coming from overseas countries and regions by plane will be denied entry to Hong Kong;
- Non-Hong Kong residents coming from the Mainland, Macao and Taiwan will be denied entry to Hong Kong if they have been to any overseas countries or regions in the past 14 days;
- All transit services at HKIA will be suspended; and
- All travellers coming from Macao and Taiwan, including Hong Kong and non-Hong Kong residents, will be subject to a 14-day compulsory quarantine, which is the same as the arrangements for people entering Hong Kong from the Mainland.

10. Taking into consideration the practical situation, a small number of persons can be exempted from the above immigration restrictions and/or quarantine requirements³. The Immigration Department will handle each case in accordance with immigration policy, actual situation and established procedures.

³ These persons include:

- (i) Macao residents who are registered under the Macao scheme under agreement between the Macao Special Administrative Region Government and the Hong Kong Special Administrative Region (HKSAR) Government that they will be immediately taken by coach back to Macao upon entry;
- (ii) Spouses and minor children of Hong Kong residents;
- (iii) Categories of persons exempted from the quarantine requirement under Compulsory Quarantine of Certain Persons Arriving at Hong Kong Regulation (Cap. 599C) and Compulsory Quarantine of Persons Arriving at Hong Kong from Foreign Places Regulation (Cap. 599E), such as:
 - (a) Crew members of aircraft who need to commute to and from foreign places for performance of necessary duties or crew members of goods vessels;
 - (b) Government officials carrying out government duties including personnel of consular posts; and
 - (c) Personnel engaged in anti-epidemic work endorsed by the HKSAR Government.

(c) Outbound travelling alerts (“OTAs”) and compulsory quarantine

11. In view of the health risks arising from the continuous and rapid increase in the number of COVID-19 cases around the globe, the Government decided on 17 March 2020 to issue the Red OTA on all overseas countries/territories based on public health considerations.

12. As regards compulsory quarantine, the Government gazetted on 7 February 2020 the Compulsory Quarantine of Certain Persons Arriving at Hong Kong Regulation (Cap. 599C), which mandates all persons having stayed in the Mainland for any period during the 14 days preceding arrival in Hong Kong, regardless of nationality and travel documents used, except for exempted persons, to be subject to compulsory quarantine for 14 days.

13. Having regard to the Red OTA issued on all overseas countries/territories on 17 March 2020, the Government gazetted on 18 March 2020 the Compulsory Quarantine of Persons Arriving at Hong Kong from Foreign Places Regulation (Cap. 599E), which mandates arrivals from all specified places outside China to undergo quarantine. This Regulation took effect on 19 March 2020 at 0:00am and will remain in force for three months till 18 June 2020. The Secretary for Food and Health (“SFH”) specified on the same day under Cap. 599E that all persons having stayed in places outside China for any period during the 14 days preceding arrival in Hong Kong, regardless of nationality and travel documents used, except for exempted persons, will be subject to compulsory quarantine for 14 days.

14. Together with the Compulsory Quarantine of Persons Arriving at Hong Kong from Foreign Places Regulation (Cap. 599E) effected on 19 March 2020, the Government gazetted on 24 March 2020 the Compulsory Quarantine of Certain Persons Arriving at Hong Kong (Amendment) Regulation 2020 (“Amendment Regulation”). With effect from 25 March 2020 at 0:00am, the Amendment Regulation extends the compulsory 14-day quarantine arrangement to all persons, except for exempted persons, arriving from or having stayed in Macao and Taiwan in the past 14 days prior to arrival in Hong Kong, in addition to those arriving from the Mainland.

15. The implementation of the aforementioned border control measures, the Compulsory Quarantine of Persons Arriving at Hong Kong from Foreign Places Regulation and the Amendment Regulation mean that currently all non-Hong Kong residents arriving from overseas countries or regions have been denied entry or transit, and all persons arriving in Hong Kong are required to undergo compulsory quarantine (except for a small number of exempted persons). These measures can further help prevent the spread of COVID-19 outbreak in Hong Kong.

16. The Government has conducted detailed risk assessments prior to implementation of port health measures in view of disease outbreak in other countries or regions. Other than considering the number, distribution and rate of increase of infected persons, the Government would also take into account the surveillance and control measures implemented by the authorities of that particular country/region, as well as the frequency of travels between Hong Kong and that particular country/region. The Government would suitably review and rationalise the relevant measures having regard to the latest development of the outbreak. In conclusion, members of the public are strongly urged to adjust their travel plans and avoid any non-essential travel outside Hong Kong.

(d) Enhancing anti-epidemic facilities and services

17. In view of the development of the outbreak, the Government and HA have introduced various measures to cope with the increasing demand for services in public hospitals. Following the instruction of the Government's Steering Committee in relation to COVID-19, HA set up test centres at AsiaWorld-Expo ("AWE") and North Lantau Hospital ("NLTH") on 20 March 2020 to conduct virus testing for inbound travellers with upper respiratory symptoms. After reviewing the operations of the two centres, test services were consolidated at the test centre at AWE starting from 5 April 2020 at 8 p.m. With the number of inbound travellers continuing to decline, HA's test centre at AWE suspended operations on 19 April 2020 at noon to refocus manpower to provide hospital services. The HA Major Incident Control Centre will liaise closely with DH to triage inbound travellers with upper respiratory

symptoms, people undergoing home quarantine or close contacts of confirmed cases, etc. to the Accident and Emergency Departments (AEDs) of various public hospitals to undergo testing. Triage and test centres have been set up by phase at the AEDs of a number of public hospitals, including NLTH, to alleviate the demand for isolation facilities at public hospitals.

18. HA has also retrofitted one to two general wards in each cluster into standard negative pressure wards to provide around 400 additional standard negative pressure beds for patients who are recovering and have relatively mild symptoms. HA will continue to closely monitor the situation and actively consider different plans for isolation facilities with a view to activating them as soon as possible when the need arises.

19. Currently, there are four quarantine centres for close contacts who may have been exposed to the risk of contracting COVID-19 but are nonetheless asymptomatic, namely the Lei Yue Mun Park and Holiday Village in Chai Wan, the Heritage Lodge at the Jao Tsung-I Academy, Chun Yeung Estate, Fo Tan and the Junior Police Call Permanent Activity Centre (“JPC Centre”) at Pat Heung, Yuen Long, providing over 1 700 units in total.

20. The Government has been actively looking for suitable sites and setting up more quarantine facilities as soon as practicable since late January. In view of the rapid development of the outbreak and the increasing demand for quarantine units, we have been actively making preparations since mid-March to make available more units at Chun Yeung Estate for quarantine purpose. The target is to provide an additional 1 600 units or so within April. Furthermore, we will also continue to construct at least 1 000 more quarantine units in total at the Lei Yue Mun Park and Holiday Village in Chai Wan, Sai Kung Outdoor Recreation Centre, JPC Centre and a government site at Penny’s Bay through the application of the modular integrated construction method. It is expected that the units can be completed and put into use from April to July by phase. In addition, we are following up with the Walt Disney Company, which has agreed to explore using another site at Penny’s Bay reserved for future tourism development for constructing quarantine facilities. In view of the rapid development of the COVID-19 outbreak,

it is difficult to accurately estimate the demand for quarantine facilities. The Government will closely monitor the latest development and make corresponding deployment in view of the situation.

(e) Enhancing surveillance

21. Under the Enhanced Laboratory Surveillance Programme (“the Programme”), the Center for Health Protection (“CHP”) under DH has been providing free testing services for COVID-19 at HKIA to asymptomatic inbound travellers arriving at Hong Kong from places with higher risks since 19 March 2020, with an aim to identifying the patients early and minimising the risk of community transmission. Starting from 29 March 2020, the scope of the Programme has been progressively extended to cover all asymptomatic inbound travellers arriving at HKIA from places under the Compulsory Quarantine of Certain Persons Arriving at Hong Kong Regulation (Cap. 599C) and the Compulsory Quarantine of Persons Arriving at Hong Kong from Foreign Places Regulation (Cap. 599E). To speed up the collection of specimen from inbound travellers from overseas for conducting testing for COVID-19, DH has set up a Temporary Specimen Collection Centre (“TSCC”) at AWE since 26 March 2020. Starting from 8 April 2020, DH has also strengthened quarantine and virus testing arrangements for inbound travellers, and all persons mentioned above are **mandated** under the Prevention and Control of Disease Regulation (Cap. 599) to have their deep throat saliva samples collected at the TSCC for conducting testing for COVID-19⁴.

22. To further lower the risks of cases of COVID-19 imported from high risk regions from spreading in the community, starting from 9 April 2020, DH progressively and by phase required all asymptomatic inbound travellers arriving on flights from the United Kingdom, other Europe countries and the United States to have their deep throat saliva samples collected at DH’s TSCC and **wait for the test results there**. Starting

⁴ All inbound travellers arriving at Hong Kong are required to immediately take shuttle bus from the HKIA to DH’s TSCC at AWE for collecting and submitting their deep throat saliva specimens. If the result of the aforesaid test is positive, DH will immediately arrange the person arriving at Hong Kong concerned to be admitted to a hospital for isolation and treatment. The close contacts who travelled with the confirmed patient will be sent to designated quarantine centres to undergo compulsory quarantine for 14 days. If the test result is negative, the person arriving at Hong Kong concerned is still required to continue the 14-day quarantine at his/her place of accommodation.

from 19 April 2020, the above measure was extended to all inbound travellers arriving at Hong Kong in the morning, regardless of the place of departure. Starting from 22 April 2020, the above measure was extended to all inbound travellers arriving at Hong Kong. Depending on the arrival time of flights, DH will arrange those asymptomatic inbound travellers who need to wait for test results overnight to be temporarily accommodated in the DH Holding Centre for Test Result set up in a hotel. Besides, in view that in some recent cases persons undergoing home quarantine were tested positive for COVID-19 around the completion date of the quarantine, starting from 20 April 2020, DH will provide all asymptomatic inbound travellers arriving at HKIA with an **extra specimen collection container** and request for their collection of deep throat saliva samples by themselves during the home quarantine period for another round of virus testing.

23. For **land-based BCPs**, starting from 8 April 2020, specimen collection containers will also be provided by DH staff to inbound travellers who have been to Hubei Province in the past 14 days arriving via Shenzhen Bay Port and the Hong Kong-Zhuhai-Macao Bridge Hong Kong Port for collection of their deep throat saliva samples for virus testing during the period of undergoing compulsory home quarantine.

24. At the same time, in order to timely identify and detect cases of novel coronavirus infection transmitted in the community, HA has conducted tests for novel coronavirus infection on all patients meeting the reporting criteria announced by CHP, and gradually extended the scope of surveillance to cover all inpatient pneumonia cases through the Enhanced Laboratory Surveillance Programme (“Surveillance Programme”). Since 19 February 2020, the Surveillance Programme has been further extended to cover outpatients at HA’s AEDs and General Out-patient Clinics presented with fever and/or respiratory symptoms or mild chest infection. As at 23 April at 7:30 a.m., out of the 1 034 confirmed cases, 127 were patients seeking consultation at public hospitals’ AEDs or General Out-patient Clinics.

25. As for **private doctors**, starting from 9 March 2020, the Public Health Laboratory Services Branch under CHP provides free virus testing on COVID-19 for relevant samples submitted by private doctors. On 17

April 2020, SFH also issued letters to operators of residential care homes for the elderly and operators/ managers of residential care homes for persons with disabilities, and appealed to them that if an elderly and person with disability is presented with symptoms of fever or respiratory infection, etc., he/she should be arranged to seek consultation as soon as practicable and undergo virus testing for COVID-19 as needed in accordance with the professional assessment of a doctor.

26. Inbound travellers who need to submit samples to DH are required to collect their deep throat saliva samples by themselves at home in accordance with the instructions, and to have their family members or friends deliver the sample to any of the collection points in the same morning the sample has been collected. Starting from 14 April 2020, these people can also make use of a door-to-door specimen collection service provided by member companies of the Cyberport Startup Alumni Association to submit their deep throat saliva specimens to DH for COVID-19 testing. The door-to-door specimen collection service is also provided to relevant private doctors.

(f) Maintaining social distancing to prevent spread of the disease

27. Maintaining social distancing is a key tactic for delaying the spread of COVID-19 in Hong Kong. The Government needs to impose stringent measures, including legislation, to reduce or even prohibit group gathering activities. In accordance with Section 8 of the Prevention and Control of Disease Ordinance (Cap. 599), two additional regulations were made by the Government on 27 March 2020. Details are as follow.

Prevention and Control of Disease (Requirement and Directions) (Business and Premises) Regulation (Cap. 599F)

28. The Government gazetted on 27 March 2020 the Prevention and Control of Disease (Requirement and Directions) (Business and Premises) Regulation (Cap. 599F) to implement temporary measures to address the current situation of public health emergency. Cap. 599F commenced on 28 March 2020 at 0.00 am and will remain in force for three months. It empowers SFH to, having regard to the disease outbreak and overall situation, issue directions through a notice in the Gazette to (a) require

catering business premises to cease selling or supplying food or drinks for on-site consumption, and to close whole or part of the premises where food or drink is sold or supplied; (b) restrict the operation of catering business; and (c) restrict the operation of Scheduled Premises. On 1 April 2020, the Government gazetted the Prevention and Control of Disease (Requirement and Directions) (Business and Premises) (Amendment) Regulation to amend the Scheduled Premises under Cap. 599F to 12 categories⁵.

29. In accordance with Cap. 599F, SFH issued 10 directions to be effective for 14 days through notices in the Gazette on 28 March, 1 April, 3 April, 8 April and 21 April 2020. To be vigilant and prevent any reversal in the outbreak situation in Hong Kong, SFH directed on 21 April 2020 that the effective periods of most of the directions issued on 8 April 2020 be extended from 24 April 2020 to 7 May 2020. At the same time, the requirements on regulating catering business will be streamlined⁶. The various directions issued in accordance with Cap. 599F respectively restrict the operations of catering business and Scheduled Premises, details of which can be found at **Annex 3**. Failing to comply with the requirements is an offence and could attract a fine at level 5 (\$50,000) and imprisonment for six months.

Prevention and Control of Disease (Prohibition on Group Gathering) Regulation (Cap. 599G)

30. The Government gazetted on 28 March 2020 the Prevention and Control of Disease (Prohibition on Group Gathering) Regulation (Cap. 599G). The Regulation commenced on 29 March 2020 at 0.00am and will remain in force for three months.

31. In accordance with Cap. 599G, SFH issued a notice in the Gazette on 28 March 2020 to prohibit group gatherings with more than four people in public places, with effect from 29 March till 11 April 2020,

⁵ 1. Amusement game centre, 2. Bathhouse, 3. Fitness centre, 4. Place of amusement, 5. Place of public entertainment, 6. "Party room", 7. Club or nightclub, 8. Karaoke establishment, 9. Mahjong-tin kau premises, 10. Club-house, 11. Beauty parlour, and 12. Massage establishment.

⁶ The requirement for the number of customers in catering business premises at any one time to not exceed 50 percent of the normal seating capacity of the premises will be suspended, while all other implemented requirements regarding catering business and Scheduled Premises will be extended to 7 May 2020.

and issued additional directions on 8 and 21 April 2020 respectively, extending twice the effective date of the relevant requirement to the currently 7 May 2020. Public places mentioned above refer to places where members of the public can get access to from time to time. If private properties allow access by members of the public from time to time, such as a shopping mall, such private properties would fall under the definition of public places and the requirements regarding group gatherings will be applicable.

32. Except for exempted types of group gatherings (please refer to **Annex 4** for details), any person who participates in a prohibited group gathering; organises a prohibited group gathering; or owns, controls or operates the place of the gathering and knowingly allows the taking place of the gathering, commits an offence. Offenders are liable to a maximum penalty of a fine at level 4 (\$25,000) and imprisonment for six months. Persons who participate in a prohibited group gathering may discharge liability for the offence by paying a fixed penalty of \$2,000.

Enforcement situation

33. Enforcement work under Cap. 599F and Cap. 599G has been generally satisfactory. With regards to the situation of catering business premises, as at 23 April 2020 at 0:00 a.m., enforcement departments including the Food and Environmental Hygiene Department (“FEHD”), DH, Police and Home Affairs Department had carried out 61 346 inspections with a total of about 2 654 reminders and 44 prosecutions, including 10 cases involving illegal operation of bars and pubs, among which the persons responsible in two cases have been sentenced by the courts to jail for one week and two months respectively. The remaining 34 cases were related to not conducting body temperature screening on customers before their entering the catering business premises and buffer between one table and another not being in compliance with the relevant requirements, etc.

34. With regards to Scheduled Premises with restricted operations, law enforcement officers carried out a total of 8 165 inspections. It was found that the industry generally abided by the law. Only around 59 reminders (of advisory nature including immediate rectification) were

issued and one prosecution involving illegal operation of an amusement game centre was instituted.

35. As for Cap. 599G, enforcement departments have enhanced manpower to step up patrols in various public places, and reminded the public to comply with the requirements of the Regulation by verbal explanation, advice or warning. If a person ignores repeated reminders or breaks the law, law enforcement officers also have the responsibility to take enforcement action. As at 23 April 2020 at 0:00 a.m., the Police handled 3 577 reports on non-compliance of the directions concerned, gave 555 verbal warnings, issued 232 fixed penalty tickets and instituted 14 prosecutions. The DH, FEHD, Leisure and Cultural Services Department, Housing Department and Agriculture, Fisheries and Conservation Department also looked after public places at the premises under their respective purviews, carried out 42 651 inspections and gave around 6 233 verbal warnings in total.

36. The Government will continue to arrange enforcement and inspection operations to ensure that operators of premises and members of the public comply with the requirements of the two aforementioned Regulations. We hope to send a strong message to members of the public through legislative work and urge them to be self-disciplined and abide by the law during the effective period of the Regulations. For the sake of themselves as well as other people, they should go out less and avoid social activities such as meal gatherings or get-togethers. They should also maintain proper social distancing as far as possible, with an aim to cutting the virus transmission chain.

(g) Second round of the Anti-epidemic Fund

37. In response to the challenges arising from the COVID-19 outbreak situation, the LegCo Finance Committee approved the funding proposal of \$137.5 billion in relation to the second round of the Anti-epidemic Fund (“the Fund”) on 18 April 2020, so as implement measures to comprehensively help businesses stay afloat, keep employees in employment, relieve financial burdens on businesses and individuals, and enable the economy to recover as soon as possible once the epidemic has subsided. The cost of implementing the whole package of measures

is \$137.5 billion. Together with the \$30 billion under the first round of the Fund and the relief measures under the Budget which involves \$120 billion, the total fiscal implication is \$287.5 billion, representing about 10% of Hong Kong's Gross Domestic Product. The Government will also waive the registration and enrolment fees for some 125 000 healthcare professionals for three years starting from July 2020 as a token of appreciation and in recognition of their contributions in combating the outbreak.

(h) Liaison with Mainland health authorities and international cooperation

38. The Government has been maintaining close liaison and cooperation with the Mainland health authorities as well as international organisations. For example, SFH and the Under Secretary for Food and Health respectively attended meetings hosted by the WHO Regional Director for the Western Pacific on 28 February and 8 April 2020, and shared key measures of Hong Kong and reaffirmed the importance of international cooperation, in particular transparency and timely information exchange, in fighting COVID-19 together.

39. In addition, on 8 February 2020, representatives of the Food and Health Bureau ("FHB") and DH attended a special meeting on COVID-19 by the Asia-Pacific Economic Cooperation ("APEC") Health Working Group. Amongst others, APEC Member Economies recognised the importance of sharing information and explored potential ways to strengthen international cooperation.

40. FHB and DH will continue to work closely with the WHO, in particular on the focal issues of the other Member States of the International Health Regulations (2005), and with the APEC Health Working Group and health authorities of other jurisdictions in coping with and putting the epidemic situation under control together, in order to safeguard the health of Hong Kong people and maintain Hong Kong's robust healthcare system.

(i) Risk communication and transparency

41. Risk communication is key to managing the public anxieties during this critical period. Apart from briefings (normally at 4:30 p.m. daily) by CHP and HA senior representatives on the number of cases (suspected, confirmed or under investigation), relevant contact tracing, quarantine arrangement, etc., the latest situation of COVID-19 in Hong Kong and the most updated health advice could be found at the “COVID-19 Thematic Website” (www.coronavirus.gov.hk/eng/index.html). The Government also launched an Interactive Map Dashboard (chp-dashboard.geodata.gov.hk/covid-19/en.html) and a Telegram channel named “Hong Kong Anti-epidemic Information Channel” (t.me/HKFIGHTCOVID19) to provide the latest information in a timely manner. Senior officials also announce from time to time major government decisions and measures, as well as to update the public on major developments in combating the virus, through press conferences or other occasions.

42. CHP has issued guidelines reminding citizens to be aware of personal and environmental hygiene, and disseminated relevant health messages to citizens on preventing communicable diseases and maintaining social distancing, etc. through various channels including Announcements in the Public Interest on both television and radio, Facebook page, Instagram platform, YouTube channel, newspapers, the “GovHK Notifications” mobile app, health education infoline, media interviews, public transport, outdoor and digital media, etc. CHP has also produced various health education materials, including leaflets, posters, infographics and pamphlets, etc. for dissemination at the community level to enhance promotion. It also maintains close liaison with different stakeholders and keeps them informed of the latest situation and preventive measures. At the same time, CHP has produced latest updates and health advice in nine ethnic minority languages⁷. Furthermore, seven television commercials had been produced for airing as at 19 April 2020. In addition, FEHD has disseminated relevant information, including arrangements regarding the catering business as well as food safety messages, through the Centre for Food Safety and the

⁷ Including Hindi, Nepali, Urdu, Thai, Bahasa Indonesia, Tagalog, Sinhala, Bengali and Vietnamese.

social media pages of Keep Clean Ambassador Ah Tak.

SPECIFIC INCIDENT

Arrangement to bring back Hong Kong residents stranded in Morocco

43. Morocco has been in a state of national emergency since early March, imposing strict restrictions on all marine, land and air traffic. As a result, Hong Kong residents in Morocco could not depart on their own through normal flight arrangement. To assist Chinese citizens stranded in Morocco to leave there, the Chinese Embassy in Morocco arranged a chartered flight to them bring back to China, including 27 Hong Kong residents. The relevant chartered flight arrived at Guangzhou on 10 April 2020 and 26 Hong Kong residents on-board subsequently took the coaches arranged by the Hong Kong SAR Government to return to Hong Kong via the Shenzhen Bay Port. Upon their arrival at Guangzhou, the Hong Kong residents had their samples taken by Mainland authorities immediately for virus testing and all the results were negative. After their return to Hong Kong, DH arranged for them to take another deep throat saliva virus test at their premises for home quarantine. Except for one returning resident who had been a confirmed case and hospitalised before the test, the other 25 persons were tested negative and continued to complete the 14-day compulsory quarantine.

**Chronology of Events in relation to
the Outbreak of Novel Coronavirus Infection
(as at 22 April 2020)**

Date	Event
31 December 2019 (Tuesday)	<ul style="list-style-type: none"> ● The Department of Health (“DH”) received the first notification from the National Health Commission (“NHC”) about a cluster of 27 pneumonia cases with unknown causes (with seven cases being serious) in Wuhan, Hubei Province ● The Secretary for Food and Health (“SFH”) sought expert advice and alerted the public through media stand-up ● DH issued letters to doctors and hospitals on the latest situation and reporting criteria ● Health surveillance at the boundary control points (“BCPs”) enhanced. Suspected cases were referred to public hospitals for lab testing and isolation
2 January 2020 (Thursday)	<ul style="list-style-type: none"> ● SFH chaired a cross-bureaux/departments meeting to examine the prevention measures adopted in response to the cluster of pneumonia cases and to alert them in enhancing cleaning. A media stand-up was conducted after the meeting to provide health advice to the public and appeal to the public to stay alert
3 January 2020 (Friday)	<ul style="list-style-type: none"> ● The Chief Executive (“CE”) and SFH inspected the BCP at Hong Kong West Kowloon Station of the Guangzhou-Shenzhen-Hong Kong Express Rail Link (“XRL”) ● SFH met with experts to seek advice on the latest situation and risk assessment ● A dedicated website was launched by the Centre for Health Protection (“CHP”) of DH, announcing the number of suspected cases under the heightened surveillance system

Date	Event
	<ul style="list-style-type: none"> ● CHP expanded the scope of surveillance and revised the reporting criteria, as well as strengthened port health measures and enhanced health promotion for travellers at all BCPs
4 January 2020 (Saturday)	<ul style="list-style-type: none"> ● The Administration launched the Preparedness and Response Plan for Novel Infectious Disease of Public Health Significance (“the Plan”). In parallel, SFH activated the Serious Response Level with immediate effect ● To tie in with the launch of the Plan, the Hospital Authority (“HA”) also announced the activation of the Serious Response Level in public hospitals with immediate effect
6 January 2020 (Monday)	<ul style="list-style-type: none"> ● SFH chaired the first meeting of Steering Committee in accordance with the Serious Response Level under the Plan and engaged experts to review the situation in Wuhan and seek advice on risk assessment
7 January 2020 (Tuesday)	<ul style="list-style-type: none"> ● SFH chaired a cross-bureaux/departments meeting to assess the latest situation and discuss prevention measures ● SFH led a press conference to roll out the five major areas of works in preventing the diseases, including port health measures, the Plan, amendments to the Prevention and Control of Disease Ordinance (Cap. 599), control measures of the HA and risk communications
8 January 2020 (Wednesday)	<ul style="list-style-type: none"> ● “Severe Respiratory Disease associated with a Novel Infectious Agent” was gazetted as a statutorily notifiable disease under the Prevention and Control of Disease Ordinance (Cap. 599) and the Prevention and Control of Disease Regulation (Cap. 599A) starting from 8 January 2020 ● SFH attended the Legislative Council (“LegCo”) to

Date	Event
	respond to three urgent questions raised by LegCo Members
9 January 2020 (Thursday)	<ul style="list-style-type: none"> ● SFH chaired a meeting and invited experts to discuss the latest developments of the cluster of pneumonia cases detected in Wuhan, followed by a press conference ● The Scientific Committee on Emerging and Zoonotic Diseases and the Scientific Committee on Infection Control under the CHP of DH convened the first joint meeting to review the measures in light of the latest local and global situation of novel coronavirus infection. The Controller for the CHP joined two local experts (Professor Yuen Kwok-yung and Professor David Hui) in the press conference after the meeting
10 January 2020 (Friday)	<ul style="list-style-type: none"> ● SFH briefed the LegCo Panel on Health Services on the Government’s measures in response to cluster of pneumonia cases
11 January 2020 (Saturday)	<ul style="list-style-type: none"> ● SFH sought advice from experts on the latest situation
12 January 2020 (Sunday)	<ul style="list-style-type: none"> ● NHC announced that it had shared the genetic sequences of the novel coronavirus associated with the cluster of pneumonia cases detected in Wuhan with the World Health Organization (“WHO”)
13 January 2020 (Monday)	<ul style="list-style-type: none"> ● Thailand confirmed the first imported case of novel coronavirus infection ● The Under Secretary of Food and Health (“USFH”), together with representatives from DH and HA, departed for Wuhan to learn about the situation of the pneumonia cases, prevention and control measures and clinical management ● HA started the Enhanced Laboratory Surveillance

Date	Event
	Scheme to conduct testing on pneumonia patients meeting relevant criteria (i.e. with unknown causes while not responding to treatment in three days, or requiring care in Intensive Care Unit, or occurring in clusters, or who is a healthcare worker) irrespective of their travel history as a measure for more proactive case finding
14 January 2020 (Tuesday)	<ul style="list-style-type: none"> ● SFH chaired a cross-bureaux/departments meeting to review the latest situation and revisit the robustness of the current prevention and control measures
15 January 2020 (Wednesday)	<ul style="list-style-type: none"> ● SFH convened an expert meeting and received report by the Hong Kong delegation that visited Wuhan ● A press conference led by USFH was held to report on the working visit to Wuhan to examine the situation concerning the cluster of pneumonia cases
16 January 2020 (Thursday)	<ul style="list-style-type: none"> ● SFH chaired the second meeting of Steering Committee in accordance with the Serious Response Level under the Plan ● Japan confirmed the first imported case of novel coronavirus infection ● CHP revised the reporting criteria of “Severe Respiratory Disease associated with a Novel Infectious Agent” to enhance the surveillance of suspected cases
17 January 2020 (Friday)	<ul style="list-style-type: none"> ● SFH hosted a media stand-up to update the public on the latest situation
20 January 2020 (Monday)	<ul style="list-style-type: none"> ● Korea confirmed the first imported case of novel coronavirus infection ● CE joined SFH’s cross-bureaux/departments meeting to receive report on the latest situation and review preventive and control measures ● SFH led a press conference to update the public on the

Date	Event
	<p>latest situation and measures, including enhanced surveillance through extension of health declaration arrangement, the “containment” strategy and health advice on travelling</p> <ul style="list-style-type: none"> ● CHP further revised the reporting criteria of “Severe Respiratory Disease associated with a Novel Infectious Agent”
21 January 2020 (Tuesday)	<ul style="list-style-type: none"> ● Taiwan confirmed the first imported case of novel coronavirus infection ● SFH met with experts to review the latest situation in Wuhan ● Health declaration arrangement implemented on all inbound travellers by air from Wuhan starting from midnight ● HA extended the scope of the Enhanced Laboratory Surveillance to include any inpatients with pneumonia and travel history to the Mainland within 14 days before onset of symptoms
22 January 2020 (Wednesday)	<ul style="list-style-type: none"> ● The first highly suspected imported case of novel coronavirus infection was reported in Hong Kong ● SFH held a media stand-up to update the public on the latest situation ● CHP set up a hotline (2125 1122) for contact tracing ● Hong Kong residents were strongly advised to avoid all non-essential travel to Wuhan, Hubei Province and stay vigilant
23 January 2020 (Thursday) [No. of confirmed cases in Hong Kong: 2]	<ul style="list-style-type: none"> ● The second highly suspected imported case of novel coronavirus infection was reported in Hong Kong ● On the same day, the two imported cases of novel coronavirus infection was confirmed ● Quarantine centre at The Lady MacLehose Holiday Village under the Leisure and Cultural Services Department (“LCSD”) was activated and close contacts would be transferred to the village for

Date	Event
	<p>guidelines; (e) improving anti-epidemic facilities and services; (f) allocating sufficient resources for the strategies and measures</p> <ul style="list-style-type: none"> ● To tie in with the Government raising response level to “Emergency”, HA also announced the activation of the Emergency Response Level in public hospitals with immediate effect to implement a series of measures to enhance infection control and focus resources to cope with the epidemic
26 January 2020 (Sunday)	<ul style="list-style-type: none"> ● CE chaired the first meeting of Steering Committee cum Command Centre in accordance with the Emergency Response Level under the Plan
27 January 2020 (Monday) [No. of confirmed cases in Hong Kong: 8]	<ul style="list-style-type: none"> ● CE chaired the second meeting of Steering Committee cum Command Centre in accordance with the Emergency Response Level under the Plan ● Except for Hong Kong residents, residents from Hubei Province and persons who visited the Hubei Province in the past 14 days were not permitted to enter Hong Kong until further notice
28 January 2020 (Tuesday)	<ul style="list-style-type: none"> ● CE chaired the third meeting of Steering Committee cum Command Centre in accordance with the Emergency Response Level under the Plan ● Through a press conference, the Government further announced seven disease prevention and control measures: (a) significantly reducing the flow of people between the Mainland and Hong Kong, including reduction and suspension of transport and BCP services; (b) adjusting fee charging policy for Non-eligible Persons (“NEP”) of HA and to charge all NEPs the relevant fees starting from 29 January 2020; (c) reducing the flow and contacts of people in Hong Kong, including appealing to employers to make flexible work arrangements for employees in accordance with their operational needs, and

Date	Event
	<p>implementing the special work arrangement for government employees other than those providing emergency and essential public services until 2 February subject to review closer to the time; (d) assisting Hong Kong residents in Hubei Province; (e) reaching out to hotels through the hotel industry and Hong Kong Tourism Board to contact travellers from Hubei province, for follow-up by the CHP; (f) continuing to identify suitable places to serve as quarantine centre facilities and other purposes; (g) worldwide procurement in order to ensure adequate supply for tackling the disease</p>
<p>29 January 2020 (Wednesday)</p> <p>[No. of confirmed cases in Hong Kong: 10]</p>	<ul style="list-style-type: none"> ● The Commerce and Economic Development Bureau and relevant government departments met members of local chambers of commerce and the retail industry to learn more about the situation of the supply of surgical masks and problems encountered by importers and retailers ● The health declaration system was extended to all inbound flights from the Mainland ● The Immigration Department (“ImmD”) reached out to hotels, hostels and guesthouses to contact travellers from Hubei Province and give them relevant health advice
<p>30 January 2020 (Thursday)</p>	<ul style="list-style-type: none"> ● CE chaired the fourth meeting of Steering Committee cum Command Centre in accordance with the Emergency Response Level under the Plan ● WHO declared that the outbreak of the novel coronavirus constituted a Public Health Emergency of International Concern (“PHEIC”) ● CE met with Expert Advisory Panel to seek their expert advice ● SFH attended the special meeting of the LegCo Panel on Health Services to brief Members on the latest situation

Date	Event
	<ul style="list-style-type: none"> ● With effect from 30 January 2020, (1) cross-boundary coach, hire car and private car using Sha Tau Kok and Man Kam To Control Points were suspended due to the suspension of the immigration clearance service; (2) all services of the Hong Kong Section of the Guangzhou-Shenzhen-Hong Kong XRL and Intercity Through Train were suspended, and (3) cross-boundary ferry services of China Ferry Terminal and Tuen Mun Ferry Terminal were suspended
<p>31 January 2020 (Friday)</p> <p>[No. of confirmed cases in Hong Kong: 13]</p>	<ul style="list-style-type: none"> ● Through a press conference led by CE, the Government announced measures to further prevent and control the spread of the disease: (a) suspending classes at all schools in Hong Kong with class resumption no earlier than 2 March; (b) special work arrangement for government departments would be extended until 9 February subject to review closer to the time; (c) all Hong Kong residents who have visited Hubei Province in the past 14 days should approach staff of the DH's Port Health Division for relevant assessment upon their arrival and would be arranged to stay in quarantine centres for surveillance; (d) for those Hubei residents who have already entered and were still staying in Hong Kong, DH would also arrange for them to stay in quarantine centres or, if asymptomatic, to leave Hong Kong as soon as possible; (e) enhancing exit screening and health declaration; (f) all-out efforts to support front-line healthcare staff; and (g) increasing supply of surgical masks through a multi-pronged approach ● HA further extended the scope of the Enhanced Laboratory Surveillance to include all pneumonia inpatients ● HA announced the Special Rental Allowance for staff who have to work in high risk areas under Emergency Response Level with temporary accommodation needs.

Date	Event
1 February 2020 (Saturday)	<ul style="list-style-type: none"> ● Exit screening arrangement introduced in the Hong Kong International Airport (“HKIA”) ● HA started to provide laboratory testing in public hospitals
2 February 2020 (Sunday) [No. of confirmed cases in Hong Kong: 15]	<ul style="list-style-type: none"> ● CE chaired the fifth meeting of Steering Committee cum Command Centre in accordance with the Emergency Response Level under the Plan ● CE wrote to Consuls-General in Hong Kong and CS met them to explain in detail the measures taken by Hong Kong in disease prevention and control
3 February 2020 (Monday)	<ul style="list-style-type: none"> ● CE led a press conference, attended by relevant Bureaux Secretaries and Heads of Department, on the stepping up of control measures. CE appealed to the public that the spread of virus occurred regardless of race, nationality and residency status, and that the flow of people across the border should be reduced as much as possible ● The Government launched an Interactive Map Dashboard to provide the latest situation of novel coronavirus infection
4 February 2020 (Tuesday)	<ul style="list-style-type: none"> ● Cross-boundary passengers by land or by sea converged to Shenzhen Bay control point and Hong Kong-Zhuhai-Macao Bridge (“HZMB”) Hong Kong Port ● Passenger clearance services further suspended at four control points, namely Lo Wu, Lok Ma Chau Spur Line, Lok Ma Chau and Hong Kong-Macau Ferry Terminal. Cross-boundary coach, shuttle bus, hire car and private car using Lok Ma Chau Control Point were suspended ● CE met with Expert Advisory Panel to seek their expert advice

Date	Event
<p>5 February 2020 (Wednesday)</p> <p>[No. of confirmed cases in Hong Kong: 21]</p>	<ul style="list-style-type: none"> ● A 14-day compulsory quarantine arrangement on all the people entering Hong Kong from the Mainland announced. The new subsidiary legislation was gazetted as Cap. 599C ● Customs, immigration and quarantine services at Kai Tai Cruise Terminal and Ocean Terminal suspended ● The health declaration system extended to HZMB, Man Kam To (Cargo) and Sha Tau Kok (Cargo) ● The Food and Health Bureau (“FHB”) attended the Sham Shui Po District Council to explain the arrangement and justification of using the Jao Tsung-I Academy as quarantine centre ● CHP’s Port Health Division conducted health quarantine work on the “World Dream” cruise where some travellers from the Mainland in a previous sail were confirmed to have been infected with the novel coronavirus ● CE led a press conference, attended by relevant Bureaux Secretaries and Heads of Department, to explain the new policy of compulsory quarantine arrangement, amongst others
<p>6 February 2020 (Thursday)</p> <p>[No. of confirmed cases in Hong Kong: 24]</p>	<ul style="list-style-type: none"> ● The Education Bureau (“EDB”) announced two possible options for the Hong Kong Diploma of Secondary Education Examination (“HKDSE”). Further assessment would be made towards the end of February
<p>7 February 2020 (Friday)</p> <p>[No. of confirmed cases in Hong</p>	<ul style="list-style-type: none"> ● The Government published in the Gazette the Compulsory Quarantine of Certain Persons Arriving at Hong Kong Regulation¹ and the Prevention and Control of Disease (Disclosure of Information)

¹ The Compulsory Quarantine of Certain Persons Arriving at Hong Kong Regulation provides that all persons having stayed in the Mainland for any period during the 14 days preceding arrival in Hong Kong, regardless of nationality and travel documents used, would be subject to compulsory quarantine for 14 days

Date	Event
Kong: 26]	<p>Regulation². The two Regulations would be effective on 8 February</p> <ul style="list-style-type: none"> ● CE met with Expert Advisory Panel to seek their expert advice ● CS led a press conference, attended by relevant Bureaux Secretaries and Heads of Department, to update the public of the implementation of compulsory quarantine arrangement³ ● The special work arrangement for government departments was extended until 16 February subject to review closer to the time. In addition to emergency services and other essential public services, government departments would also provide basic public services of a limited scale
8 February 2020 (Saturday)	<ul style="list-style-type: none"> ● A media stand-up by CE was conducted to brief the public on the enhanced control measures ● FHB, DH and other relevant government departments met with representatives from the cruise company of “World Dream” ● DH had earlier taken specimens from symptomatic crew members and passengers of the “World Dream” cruise for test on novel coronavirus. Upon relevant experts’ advice, the Government decided to conduct tests on novel coronavirus for 1 800 odd crew members on board ● The Government explained to residents in the neighbourhood on the arrangement for using Chun Yeung Estate as a quarantine centre

² The Prevention and Control of Disease (Disclosure of Information) Regulation empowers a health officer to require a person to disclose or furnish any information relevant to the handling of a state of the public health emergency, such as travel history. The relevant power is extended to other medical practitioners who would encounter with a person involved in such public health emergency

³ Non-Hong Kong residents will be quarantined in accommodation that they have arranged (which can be domestic or hotel units). Hong Kong residents will normally be subject to home-quarantine. Only when it is not possible for them to arrange for their own accommodation will they be quarantined in temporary accommodation arranged by the Government. (Note: Hong Kong residents who have been to Hubei in the 14 days prior to their arrival in Hong Kong and those with close contacts with confirmed cases will be quarantined in centres managed by DH. Those that come back from the Mainland (other than Hubei) and without their own accommodation will be quarantined in camps managed by LCSD.)

Date	Event
	<ul style="list-style-type: none"> ● CE visited the BCPs and call centres to observe the implementation of the compulsory mandatory arrangement as well as the Public Health Laboratory Centre which tested the specimens of crew members of the “World Dream” cruise
<p>9 February 2020 (Sunday)</p> <p>[No. of confirmed cases in Hong Kong: 36]</p>	<ul style="list-style-type: none"> ● The Public Health Laboratory Services Branch of DH completed tests on the novel coronavirus for 1 800 odd crew members on the “World Dream” cruise. All samples were tested negative for the novel coronavirus. All guests on board disembarked ● Representatives from FHB, DH and the Housing Department (“HD”) briefed members of the Sha Tin District Council about the arrangement and justifications of using Chun Yeung Estate as a quarantine centre ● CE, accompanied by SFH, visited HKIA and HZMB
<p>10 February 2020 (Monday)</p> <p>[No. of confirmed cases in Hong Kong: 42]</p>	<ul style="list-style-type: none"> ● CE chaired the sixth meeting of Steering Committee cum Command Centre in accordance with the Emergency Response Level under the Plan ● SFH led a press conference to communicate with the public on the compulsory home quarantine measure ● The 42nd confirmed case was found to be residing at the same A07 unit of Hong Mei House, Cheung Hong Estate as the 12th confirmed case, albeit on different floors. Upon a site visit with the advice of Professor Yuen Kwok-yung, CHP observed that the possibility of disconnected vent pipes without proper sealing triggering the spread of the virus could not be ruled out. Evacuation was immediately arranged and about 100 residents from 30 plus households were transferred to quarantine centres. Prof Yuen Kwok-yung joined two media briefings to explain his assessment of the incident ● Representatives from FHB, DH and HD briefed the Sha Tin District Council at its special meeting about

Annex 4

Schedule 1 to the Prevention and Control of Disease (Prohibition on Group Gathering) Regulation (“the Regulation”) (Cap. 599G) lists out the following 12 exempted group gatherings:

1. Group gathering for the purposes of or related to transportation
2. Group gathering for performing any governmental function
3. Group gathering for performing any duty of a statutory body or an advisory body of the Government
4. Group gathering at a place of work for the purposes of work
5. Group gathering for providing, obtaining or receiving hospital or healthcare service at a healthcare facility
6. Group gathering of persons living in the same household
7. Group gathering necessary for the conduct of proceedings in a court, magistrates’ court or tribunal
8. Group gathering necessary for the proceedings in the Legislative Council or a District Council
9. Group gathering during a funeral or any other occasion for mourning for or remembering a deceased who has yet to be buried or cremated (including any ritual or ceremony held in the vicinity of the place where the deceased died or suffered fatal injury to mourn for the death of the deceased)
10. Group gathering of not more than 20 persons during a wedding ceremony at which no food or drink is served
11. Group gathering at a meeting of a body that must be held within a specified period in order to comply with any Ordinance or other regulatory instrument that governs the operation of the body or its business
12. Group gathering held for imparting information or skills, or handling supplies or items, that are conducive to the prevention and control of the specified disease

In addition to the 12 exemptions listed under Schedule 1, the Regulation also empowers the Chief Secretary for Administration to permit any group gathering if the Chief Secretary for Administration is satisfied that the taking place of the gathering -

- (a) is necessary for governmental operation; or
- (b) because of the exceptional circumstances of the case, otherwise serves the public interest of Hong Kong.
