Panel on Transport

Motion on " Route 11 (section between Yuen Long and North Lantau) – Investigation " passed at the meeting on 19 March 2021

This Panel supports the Administration to expeditiously construct Route 11 to better meet the demand of the residents in the Northwest New Territories for external transport services. In addition, this Panel proposes that the Administration should actively consider constructing a spur line in Yuen Long South to connect to Route 11 to cater for the population growth arising from the future developments in the area and to ease traffic congestion occurring frequently in Yuen Long Town centre, so that Route 11 can give full play to its function of diverting vehicular flow.
