Members of Bill Committee,

Submission on the 2021 Amendment Bill to Medical Registration Ordinance

As a stakeholder of the medical sector, I oppose the bill but I

don't think it is reversible at this stage. For the sake of public awareness, I suggest the quotable title e.g. FHKAM should be tag with wording such as "overseas" to signify those graduated from non-local medical school or trained in non-local institutions. Thank you for your attention.

Yours sincerely,

Dr Chat Chuen Lee
