

07 July 2021

Bills Committee on Medical Registration (Amendment) Bill 2021
Legislative Council Secretariat Legislative Council Complex 1
Legislative Council Road

Central Hong Kong

Members of the Bills Committee,

**Submission on the 2021 Amendment Bill to the Medical
Registration Ordinance**

As a stakeholder of the medical sector, I ~~SUPPORT~~ **OPPOSE**
the 2021 Amendment Bill to the Medical Registration Ordinance
(MRO).

My concerns are as follows (if applicable):

There are already too much going on in Hong Kong.

We do not need another huge change because it will upset the whole
momentum of Hong Kong.

Recently a school mental health worker (school social worker, or school
psychologist) refused to comply with the psychiatrist's letter of
recommendation of applying for time extension, **and the worker simply
disagreed with the diagnosis of adhd. She wanted to assess the student
all by herself, the result was, she disagreed with the diagnosis of ADHD**
after having evaluated the student for an hour.

So she told the mother that they had to go back to the psychiatrist to
change the diagnosis of mood disorder in order to get time extension.

Is this a cultural revolution or what?

Yours Sincerely,

Eunice Wong, MD
