

**Legislative Council Panel on Housing
Supplementary Information**

The Legislative Council Panel on Housing at its meeting on 6 September 2021 requested the Government to provide information about the respective average expenditures/cost per public rental housing unit for the works completed under the third five-year plan of the Total Maintenance Scheme (as at the end of June 2021) in the buildings aged between 10 and 30 years and aged over 30 years. The relevant information is set out below.

2. The Hong Kong Housing Authority commenced the third five-year plan of the Total Maintenance Scheme in April 2016. As at the end of June 2021, the average maintenance cost per unit for public rental housing estates aged between 10 years and 30 years during the period is about \$2,000, and the average maintenance cost for those aged over 30 years during the period is about \$2,300.
