

Panel on Environmental Affairs

**Subcommittee to Study Policy Issues Relating to
Municipal Solid Waste Charging, Recovery and Recycling**

**List of proposed items for discussion
(as at 30 January 2023)**

	Proposed items for discussion	Proposed timing for discussion
1.	Measures and facilities to enhance waste separation at source, resource recovery and recycling Members suggested that the Administration make arrangements for Subcommittee members to visit relevant waste management facilities.	To be confirmed
2.	Promoting local reuse of recyclables and green procurement in both public and private sectors	To be confirmed
3.	Planning and support for the development of the green industry and related manpower training	To be confirmed
4.	Regional collaboration and strategy for waste management Referring to cross-boundary recovery and recycling of styrofoam boxes as an example, members considered it necessary to enhance regional collaboration for waste management.	To be confirmed
