Message from the Chairman

蒙德揚博士 職業安全健康局主席

Dr David MONG Tak-yeungChairman Occupational Safety and Health Council

今年是職安局成立35週年,35年來我們秉持初心,與政府、僱主僱員和專業團體緊密合作,一同推動香港的安全文化。我們積極探索將科技融入職安健管理中,與不同界別的持份者一同探究如何應用創新方案和技術提升本港的職安健水平。

本年度,我們首次舉辦了「職安健創新及科技博覽」,活動彙聚了來自世界各地以及大灣區的職安健領域的精英組織、專家和創科人士,吸引超過20,000人次參與。博覽上,各地的職安健合作夥伴進行深度交流,共同探索應用科技和創新思維來應對工作安全中存在的痛點,同時也從科技中汲取靈感,優化工作流程和安全管理機制,以期在提升生產力和工作效率的同時,保障在職人士的安全與健康。

This year marks a significant milestone for the Occupational Safety and Health Council, as we celebrate our 35th anniversary. Over the years, we remained steadfast in our mission, collaborating closely with the government, employers, employees, and professional bodies to foster a strong safety culture in Hong Kong. We also actively explored the integration of innovative technologies into OSH management, working hand in hand with stakeholders from different sectors to explore the application of innovative solutions and technologies to enhance the city's OSH standards.

This year, we organised the inaugural "OSH Innovation and Technology Expo", which brought together leading organisations, experts, and innovators from the OSH field worldwide and across the Greater Bay Area. The event attracted over 20,000 participants, providing a platform for in-depth exchanges among OSH partners from different regions. Together, we explored how to harness technology and innovative thinking to tackle the challenges in workplace safety while drawing inspirations from technological advancement to optimise work processes and safety management systems. Our goal is to enhance productivity and efficiency while safeguarding the safety and well-being of the workforce.

為慶祝成立35周年,我們舉辦了「大灣區職安健論壇」,來自不同領域的職安健專家分享提升職安健表現的經驗和策略。本局亦與廣東省應急管理廳、澳門勞工事務局和大灣區地市的應急管理局參與「大灣區職安健分別。 灣區內各市在職安健領域上合作的決定,更彰顯我們對推廣科技應用、促進職安健知知大學區的積極態度。通過這次論壇,激活與大灣區的連結,建立常態的聯繫和合作平台。

Bay Area OSH Conference", where renowned experts from diverse fields shared their invaluable OSH experiences and strategies. The Council also participated in the launching ceremony of the "Greater Bay Area Occupational Safety and Health Cooperation Declaration" alongside the Department of Emergency Management of Guangdong Province, the Labour Affairs Bureau of Macao, and the Emergency Management Bureaus of the nine Greater Bay Area (GBA) cities. This declaration not only demonstrates our unwavering commitment to strengthening cooperation with various cities in the GBA in the OSH domain but also highlights our proactive stance in promoting the application of technology and facilitating the exchange of OSH knowledge. Through this conference, we successfully revitalised our connections with the GBA and established a regular communication and collaboration platform.

To commemorate our 35th anniversary, we hosted the "Greater

隨著全球暖化,炎熱天氣不僅提前到來,而且日益酷熱。為了應對這一挑戰,我們加強了工作間防中暑推廣。本局緊密配合勞工處發佈的《預防工作時中暑指引》,特別為僱主和僱員設立了專題網站NoHeatStress.hk,提供豐富的防暑資訊,還配備互動工具「休息時間計一計」,幫助用戶計算在暑熱警告生效時的建議休息時間。此外,我們還設立了「職安健WhatsApp 24小時防暑專線」,方便大眾隨時查詢指引內容,解答防暑相關疑問,讓防暑知識觸手可及。

Due to global warming, hot weather arrived earlier and became more intense in recent years. To address this pressing challenge, we strengthened our efforts in promoting heat stress prevention at workplaces. In supporting the "Guidance Notes on Prevention of Heat Stroke at Work" newly issued by the Labour Department, the Council established a designated website, NoHeatStress.hk, which offers comprehensive information on heat stress prevention and an interactive tool, the "Rest Time Calculator", to help users determine the recommended rest periods when different Heat Stress at Work Warnings are issued. Furthermore, we set up an "OSH WhatsApp 24-Hour Hotline for Prevention of Heat Stroke", enabling the public to easily access the guidelines and seek advice on heat stress prevention, making this vital knowledge readily accessible.

企業對員工的身心健康日趨重視,「好心情@健康工作間」和「精神健康職場約章」計劃亦新增多個活動,如與狗醫生互動和桌上遊戲體驗工作坊,為企業提供更多新點子,舒緩僱員的日常工作壓力。

To add spices to programmes on employees' well-being, the "Joyful@Healthy Workplace" and "Mental Health Workplace Charter" have expanded to include new activities, such as the interactive animal-assisted therapy and board game workshop. These initiatives provide organisations with fresh ideas to help their employees to better manage work stress by promoting a healthier and more supportive work environment.

我們的星級企業計劃及中小企職安健資助計劃亦與時並進,因應不同行業的需求變變化,調整。就近年涉及密閉空間的嚴重事故慣別立時,我們還推出了「職安健學」。此外,我們還推出了「職安健學」。如此外,我們還推出了「職安全認可計劃」,提供安全認可計劃」,提供安全的關安全培訓,以期賦能相關方協助加強密閉空間安全作業。

新的「場地管理人員(密閉空間工作)安全訓練課程」旨在讓場地管理人員對相關的安全要求、良好作業模式和各持份者的責任有暴本了解;並教授有關安全工作系統和緊急應變方面的知識,以期確保安全措施的有數應。建造業普通工人(雜工)每每對工地的人企工風險缺乏認知,新增的「建造業普通工人的主本安全課程」協助他們了解建築工地的全、黑點、潛在風險及相關安全措施,預防意外。

今年我們資助中小企購買「優化版I型狗臂架」和「可伸縮工作台」,這些符合安全標準且容易使用的設備,加強對離地工作的安全保障。針對電動車維修業,我們亦推出「中小企維修電動車輛安全設備資助計劃」,保障車輛維修從業員為電動車進行維修及保養的工作安全。

本局多年來獲香港房屋委員會及香港房屋協會委託,建立及管理獨立安全稽核計劃, 其中包括香港房屋委員會的新建工程合約、 維修保養及改善工程合約以及香港房屋協會 的新建工程合約。近年,我們將稽核計劃擴展至香港房屋協會的維修保養及改善工程合 約,專業質素備受肯定。 Our Star Enterprise Schemes and SME Sponsorship Schemes have also evolved, adapting to the changing needs of industries. In response to serious accidents involving confined space, the relevant SME Sponsorship Scheme was enhanced to cover alert tools as well as gas detection equipment. Besides, we launched the "OSH Star Enterprise – Confined Space Safety Accreditation Scheme", which offers consultancy services, sponsorship for purchasing PPEs, and comprehensive safety training. We also introduced safety training for venue management personnel to empower relevant parties to help in enhancing safe work at confined space.

The new training course on confined space work safety for venue management personnel aims to equip them with a basic understanding of the safety requirements involved, good practices and stakeholders responsibilities. It also develops trainees' knowledge in safe working system and emergency responses, with overall objective to help ensure effective implementation of safety measures. Noting that general construction workers may lack awareness of potential risks on construction sites, we have introduced the "Basic Safety Course for Construction General Workers". This course helps them identify safety hazards and learn about relevant safety measures, thereby preventing accidents from taking place.

This year, we provided subsidies for SMEs to buy an Improved I-Shaped Truss-out Metal Bracket and Telescopic Scaffold Tower. Such user-friendly safety equipment enhances the safety of work above ground. In view of the wide use of electric cars, we launched the "SME Sponsorship Scheme for Safety Equipment for the Electric Vehicle Repair and Maintenance Industry" to safeguard the work safety of vehicle repair practitioners.

Over the years, the Council has collaborated closely with the Hong Kong Housing Authority and the Hong Kong Housing Society to establish and manage Independent Safety Audit Schemes for their construction and maintenance projects. These schemes encompass the Hong Kong Housing Authority's new works contracts, maintenance and improvement contracts, as well as the Hong Kong Housing Society's new works contracts. In recent years, we have expanded the audit scheme to include the Hong Kong Housing Society's maintenance and improvement contracts, and our professional expertise has been widely recognised.

我榮幸獲委任為新一屆職業安全健康局主席,我亦深感責任重大,我與職安局成員定必全力以赴,以推動香港職業安全健康發展為己任。展望未來,職安局將加強與政府部門、商會、工會以及職安健各持份者的合作,齊心協力,迎接各種挑戰,共同努力為香港締造一個更安全健康的環境。

I am honoured to be appointed as the Chairman of the Occupational Safety and Health Council for this new term. This role carries a great responsibility. I am most privileged to work with my fellow Council Members to strive for a better development of safety, health and well-being in Hong Kong. As we move forward, the Council will strengthen our partnerships with government departments, trade associations, unions, and stakeholders in occupational safety and health. We will strive to rise to the challenges and work towards creating a safer and healthier Hong Kong for everyone.

已完成的研究項目

預防在工作場所內滑倒、絆倒及跌倒的運動 方案

滑倒、絆倒及跌倒是最常見的工傷意外。過去的預防工作大多針對環境或外在因素、工作相關因素和管理因素。然而,隨著工作人口老齡化越趨嚴重,將滑倒、絆倒及跌倒的預防工作,從環境或外在因素轉移到人為或內在因素,愈來愈重要。是次研究設計一套防跌運動訓練方案,以減低滑倒、絆倒及跌倒風險,並透過世代研究方法,驗證所開發的運動訓練方案的有效性。結果顯示,實驗組在靜態平衡、動態平衡、敏捷性及腿部肌肉力量和爆發力方面均有顯著提升,防跌運動對久坐不動或身體活動較少的人可能帶來很大的改善效果。

RESEARCH PROJECTS COMPLETED

The Development of a Balance Training Programme to Prevent Falls at Workplace

Slips, trips, and falls (STF) are the most common workplace accidents. While traditional prevention efforts focused on environmental or extrinsic factors, work-related factors and management factors, the emphasis is now shifting towards addressing human factors, especially given the aging workforce. Our study developed and tested a fall prevention exercise programme, showing that participants in the experimental group significantly improved in static balance, dynamic balance, agility, leg strength, and explosive power. Notably, those with sedentary lifestyles showed even greater benefits.

OTHER INFORMATION IN THE ANNUAL REPORT

The Council is responsible for the other information. The other information comprises the information included in the Council's annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

THE COUNCIL'S RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Council is responsible for the preparation of financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA and the Occupational Safety and Health Council Ordinance (CAP 398), and for such internal control as the Council determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Council is responsible for assessing the ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Council either intends to liquidate or to cease operations, or has no realistic alternative but to do so.

The Council is also responsible for overseeing the financial reporting process. The audit committee assists the Council in discharging its responsibilities in this regard.

核數師就審核財務報表須承擔的 責任

我們的目標為對財務報表是否不存在由欺詐或 錯誤而導致的任何重大錯誤陳述取得合理核 證,並出具包括我們意見的核數師報告。本報 告乃根據《職業安全健康局條例》(香港法例第 398章)第11(2)條僅向整體成員作出報告。除 此之外,本報告並無其他用途。我們概不會就 本報告內容向任何其他人士負上或承擔任何責 任。

合理核證是高水平的核證,但不能保證按香港審計準則進行的審計在某一重大錯誤陳述存在時總能發現。錯誤陳述可因欺詐或錯誤產生,倘個別或整體在合理預期情況下可影響使用者根據該等財務報表作出的經濟決定時,則被視為重大錯誤陳述。

我們根據香港審計準則執行審核的工作之一, 是在審核的過程中運用專業判斷及保持專業懷 疑。我們亦:

- 識別及評估由於欺詐或錯誤而導致財務 報表存在重大錯誤陳述的風險,設計及 執行審核程序以應對該等風險,以及獲 取充足和適當的審核憑證,作為我們意 見的基礎。由於欺詐可能涉及串謀、部 造、蓄意遺漏、虚假陳述或凌駕內、監 控的情況,因此未能發現因欺詐而導致 的重大錯誤陳述的風險高於未能發現因 錯誤而導致的重大錯誤陳述的風險。
- 了解與審核相關的內部監控,以設計適當的審計程序,惟並非旨在就職安局內部監控的有效性發表意見。
- 評估職安局所採用會計政策的恰當性及 作出會計估計和相關披露的合理性。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 11(2) of the Occupational Safety and Health Council Ordinance (CAP 398), and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Council.

- 評估財務報表的整體呈報方式、結構及 內容,包括披露資料,以及財務報表是 否公平反映相關交易和事項。

除其他事項外,我們就審計的計劃範圍及時間,以及重大審計發現(包括於審計期間我們 識別的任何內部監控重大缺陷)與職安局溝通。

- conclude on the appropriateness of the Council's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Council's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Council to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Council regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

3. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

(c) New guidance on accounting for the MPF-LSP offsetting mechanism in Hong Kong issued by HKICPA

In June 2022, Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 ("the Amendment Ordinance") was enacted. The Amendment Ordinance abolishes the use of the accrued benefits derived from employers' mandatory contributions under the mandatory provident fund ("MPF") scheme to offset severance payment ("SP") and long service payments ("LSP") ("the Abolition"). Subsequently, the Government of HKSAR announced that the Abolition will take effect on 1 May 2025 ("the Transition Date").

The following key changes will take effect since the Transition Date:

- Accrued benefits derived from employers' mandatory MPF contributions cannot be used to offset the LSP/SP in respect of the employment period after the Transition Date.
- The pre-transition LSP/SP is calculated using the last month's salary immediately preceding the Transition Date, instead of using the last month's salary of employment termination date.

截至2024年3月31日止年度

3. 採納香港財務報告準則 (「準則」)(續)

(c) 香港會計師公會就香港強積金 與長期服務金抵銷機制之會計 發出之新指引(續)

- 一 方法二:將僱主的強積金 供款及抵銷機制作為長期 服務金義務的出資機制進 行會計處理

截至二零二三年及二零二四年三月三十一日止兩個年度,職安局於強積金抵銷長期服務金機制下預期抵銷前的長期服務金義務並不重大。應用該指引對職安局財務報表並無重大影響。

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2024

3. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

(c) New guidance on accounting for the MPF-LSP offsetting mechanism in Hong Kong issued by HKICPA (continued)

Due to the complexities of the accounting for the offsetting of accrued benefits derived from an employer's mandatory MPF contributions and its LSP obligation and the accounting for the offsetting mechanism could become material in light of the Abolition, the HKICPA published 'Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong' (the "Guidance") in July 2023 to provide guidance to account for the offsetting mechanism and the Abolition. The HKICPA concluded that there are two acceptable accounting approaches for the offsetting mechanism, being:

- Approach 1: Account for the amount expected to be offset as a deemed employee contribution towards that employee's LSP benefits in terms of HKAS 19.93(a)
- Approach 2: Account for the employer MPF contributions and the offsetting mechanism as a funding mechanism for the LSP obligation

For the years ended 31 March 2023 and 2024, the Group's LSP liability before the expected offsetting under the MPF-LSP offsetting mechanism is immaterial. Application of the Guidance had no material effect on the financial statements of the Council.

截至2024年3月31日止年度

4. 重大會計政策

(a) 物業及設備

物業及設備乃按成本減累計折舊及累計減值虧損列賬。

NOTES TO THE FINANCIAL STATEMENTS

4. MATERIAL ACCOUNTING POLICIES

(a) Property and equipment

Property and equipment are stated at acquisition cost less accumulated depreciation and impairment losses.

Depreciation is provided to write off the cost of property and equipment over their estimated useful lives, using the straight line method, at the following rates per annum:

Leasehold land and buildings	2%
Furniture and fixtures	20%
Office equipment	33%
Leasehold improvements	14%
Motor vehicle	33%

The assets' residual values, depreciation methods and useful lives are reviewed annually, and adjusted if appropriate, at each reporting date.

(b) Leasing

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

The Council recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost (which comprises the initial measurement of lease liabilities, initial direct costs, reinstatement costs, any payments made at or before the commencement date less any lease incentives received), and subsequently at cost less any accumulated depreciation and impairment losses. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

截至2024年3月31日止年度

4. 重大會計政策(續)

(b) 租賃(續)

短期租賃(即租賃期為12個月或以下的租賃)及低價值資產租賃 在租賃期內按直線法於損益確認 為開支。

(d) 應付賬款及其他應付款項

應付賬款及其他應付款項先按公平價值確認,其後按攤銷成本入 賬。

(e) 合約負債

合約負債指收取客戶之預付代 價,且職安局有義務向客戶提供 服務。

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2024

4. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(b) Leasing (continued)

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Council's incremental borrowing rate is used. Generally, the Council uses its incremental borrowing rate as the discount rate. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made.

Payments associated with short-term leases (i.e., leases with a lease term of 12 months or less) and low value leases are expensed on a straight-line basis over the lease term.

(c) Employee benefits

Staff leave entitlements at the end of the reporting period are taken up as liabilities according to Hong Kong Accounting Standard 19 "Employee Benefits".

(d) Accounts and other payables

Accounts and other payables are initially recognised at fair value and subsequently carried at amortised cost.

(e) Contract liabilities

Contract liability represents the Council's obligation to provide service to a customer for which the Council has received consideration from the customer.

截至2024年3月31日止年度

4. 重大會計政策(續)

(f) 應收賬款及其他應收款項

應收賬款及其他應收款項先按公 平價值確認,其後按攤銷成本減 去預期信貸虧損後所得數額入 賬。

應收賬款預期信貸虧損以全期預期信貸虧損的基準確認。

對於其他應收款,預期信貸虧損以12個月預期信貸虧損為基礎確認。然而,當有自發起以來信用風險顯著增加,信貸虧損以全期預期信貸虧損的基準確認。

(g) 現金及現金等值

現金及現金等值包括銀行及手頭 上現金、銀行及其他金融機構的 通知存款,及隨時可轉換為一筆 已知數金額現金而價值變動風險 不大、且在購入後一般於3個月 內到期的短期高流通性投資。

(h) 收入確認

徵款收入於確立應支付職安局時 入賬。

政府所付款項於確立應支付職安局時入賬。

贊助收入是用以配對其相關項目 支出確認。

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2024

4. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(f) Accounts and other receivables

Accounts and other receivables are initially recognised at fair value and subsequently carried at amortised cost less allowance for expected credit losses.

Loss allowance for accounts receivables is measured at an amount equal to the lifetime expected credit losses.

Loss allowance for other receivables is measured at an amount equal to the lifetime expected losses except when there has not been a significant increase in credit risk since initial recognition, in which case the allowance will be based on the 12-months expected credit losses.

(g) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition.

Levy is recognised as income when it becomes payable to the Council.

Government payment is recognised as income when it becomes payable to the Council.

Sponsorship income is recognised to match the costs that they are intended to compensate.

4. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(h) Recognition of income (continued)

Recovery from training courses and consultancy service fee income are recognised over time when the related services are provided.

Collaborative project income with governmentrelated entities are recognised over time when the related services are provided.

Interest income is recognised on time-proportion basis using effective interest method.

(i) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Council has a legal or constructive obligation arising as a result of a past event, which will probably result in an outflow of economic benefits that can be reasonably estimated.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, the existence of which will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

下表詳列職安局於結算日 之銀行結餘及定期存款的 利率概述:

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2024

17. FINANCIAL RISK MANAGEMENT

The Council is exposed to various financial risks which are discussed below:

(a) Interest rate risk

The Council's exposure to market risk for changes in interest rates relates primarily to the bank balances and fixed deposits.

(i) Interest rate profile

The following table details the interest rate profile of the Council's bank deposits at the end of the reporting period:

		2024	2023
		港幣	港幣
		HK\$	HK\$
銀行存款	Bank deposits	694,051,412	608,842,975
實際年利率	Effective annual interest rate	3.00% - 5.58%	3.00% — 5.58%

(ii) 敏感度分析

於2024年3月31日,若利率增加/減少25 (2023:25)個基點,所有其他變項保持不變,則職安局的本年度盈餘及總盈餘會增加/減少港幣1,735,129 (2023:港幣1,522,107)。

上述敏感度分析乃假設利率變動於結算日發生,並應用於該日存在利率風險的銀行存款。利率增加/減少25個基點是按管理團對利率於截至下一個年度結算日止期間內的合理可能變動的評估。

(ii) Sensitivity analysis

At 31 March 2024, it is estimated that a general increase/decrease of 25 (2023: 25) basis points in interest rates, with all other variables held constant, would increase/decrease the Council's surplus for the year and accumulated surplus by HK\$1,735,129 (2023: HK\$1,522,107).

The sensitivity analysis above has been determined assuming that the changes in interest rates had occurred at the end of the reporting period and had been applied to the exposure to interest rate risk for bank deposits in existence at that date. The 25 basis points increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the end of the next reporting period.

截至2024年3月31日止年度

17. 財務風險管理(續)

(b) 信貸風險

於2024年3月31日,應收賬款總額的87% (2023:68%)來自職安局最大的客戶為香港政府部門,故職安局存在一定的信貸風險。

(c) 流動資金風險

職安局通過持續監控預測和現金流量來管理流動資金風險。

金融負債之合約到期日情況如 下:

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2024

17. FINANCIAL RISK MANAGEMENT (CONTINUED)

(b) Credit risk

At 31 March 2024, the Council has some concentration of credit risk as 87% (2023: 68%) of total accounts receivable were due from the Council's largest customer (Hong Kong government departments).

(c) Liquidity risk
