**Hon Duncan CHIU's motion on
“Studying the enactment of a cyber security law
and building a comprehensive system against cyber fraud”**

Wording of the Motion

That as cyber fraud has become one of the major crimes in Hong Kong and such crimes are expected to persist in the future, it is imperative that the SAR Government make early preparations and establish a more robust and secure barrier for protecting the property security of the public; in this connection, this Council urges the SAR Government to study the enactment of a cyber security law and related regulations, and proactively promote tripartite collaboration among the Government, the business sector and the community to build a comprehensive system against cyber fraud, so as to further enhance cybersecurity and anti-fraud effectiveness.
