# 要點 Highlights

- 香港經濟在第一季強勁擴張，按年增長5.9%，近五年來最強的經濟增長。經季節性調整後按季上升2.9%，表示**經濟活動不但持續擴張，而且明顯加速**
  The Hong Kong economy expanded robustly in the first quarter, growing by 5.9% over a year earlier, the strongest in nearly five years, or 2.9% on a seasonally adjusted quarter-to-quarter comparison, indicating **a sustained expansion and an acceleration in growth momentum**

- **增長動能更全面，出口表現依然強勁，內需持續走強**
  **Growth broadened, with exports remaining firm and domestic demand strengthening**

- **消費物價通脹維持輕微**，國際油價高企的影響未完全顯現
  **Consumer price inflation remained modest**, although the impact of high international oil prices has yet to feed through completely

- **經濟增長前景仍然大致強韌**。全球對人工智能相關投資及產品的持續需求對增長提供支持，惟中東衝突對增長構成下行風險並對通脹構成上升壓力
  **Economic growth outlook remains broadly resilient**. Sustained global demand for AI-related investment and products provides support for growth. Yet, the Middle East conflict poses downside risk to growth and upward pressure on inflation

- 2026年實質本地生產總值**增長預測保持在2.5%至3.5%不變**；**基本通脹率預測上調至2.5%**
  **Real GDP growth forecast for 2026 remains unchanged at 2.5%-3.5%; underlying inflation rate forecast is revised up to 2.5%**

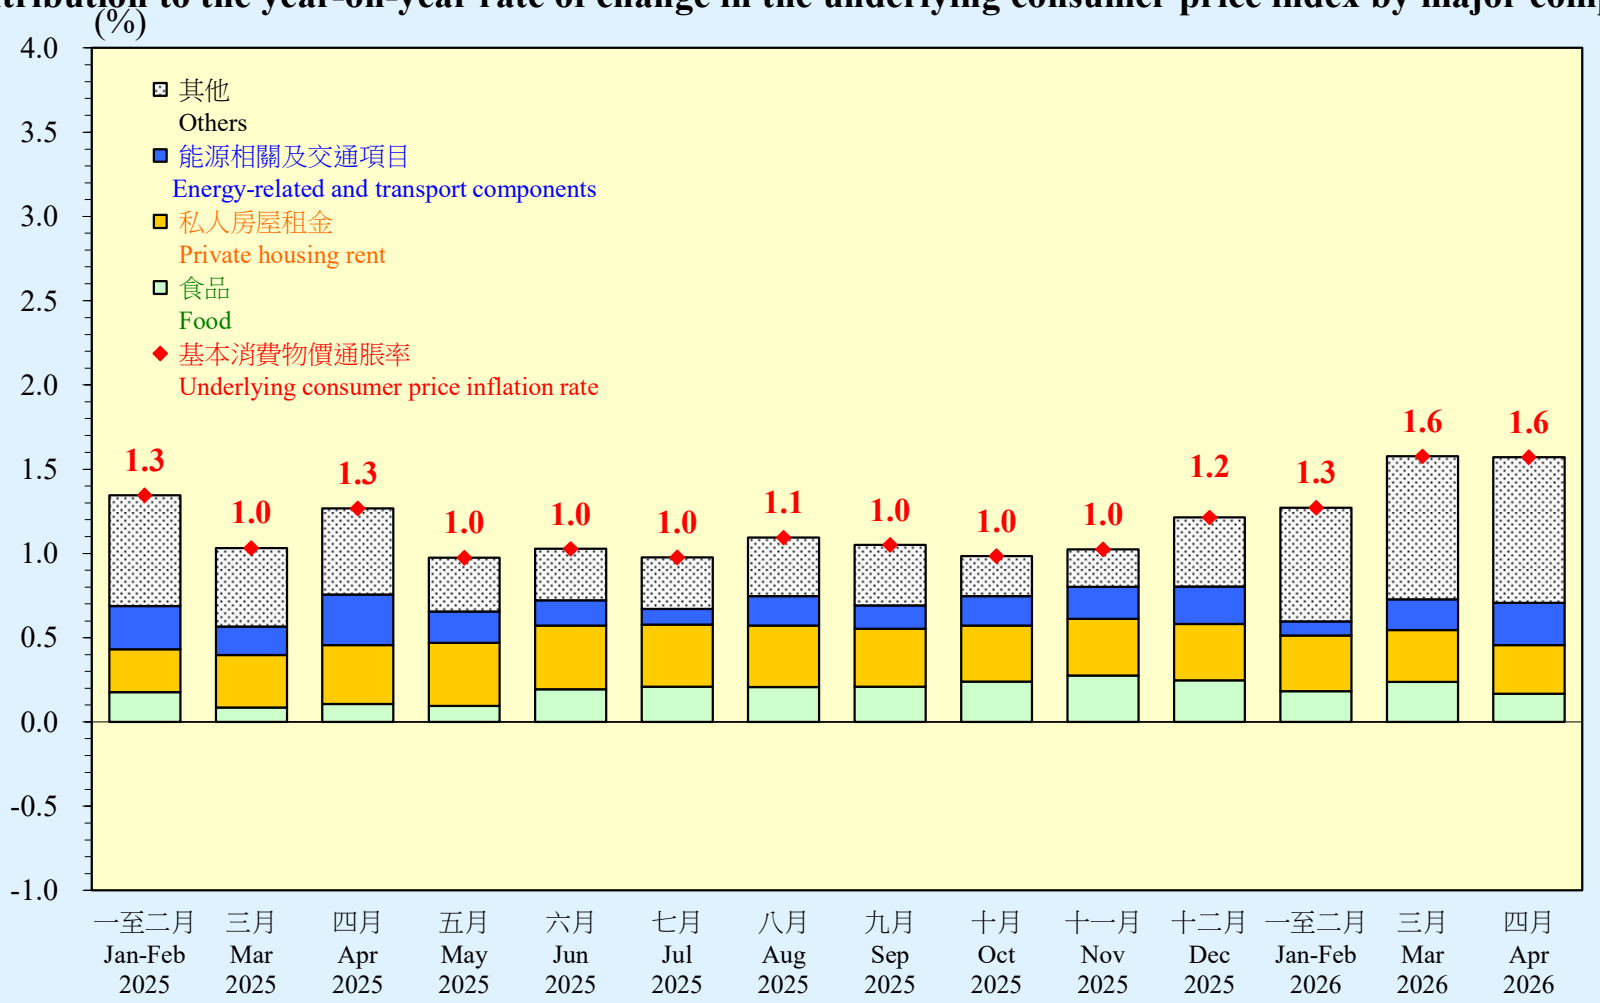
# 基本消費物價通脹維持輕微，儘管三月以來通脹略有加快
# Underlying consumer price inflation stayed modest, though began to pick up somewhat since March

各主要組成項目對基本消費物價指數按年變動率的貢獻

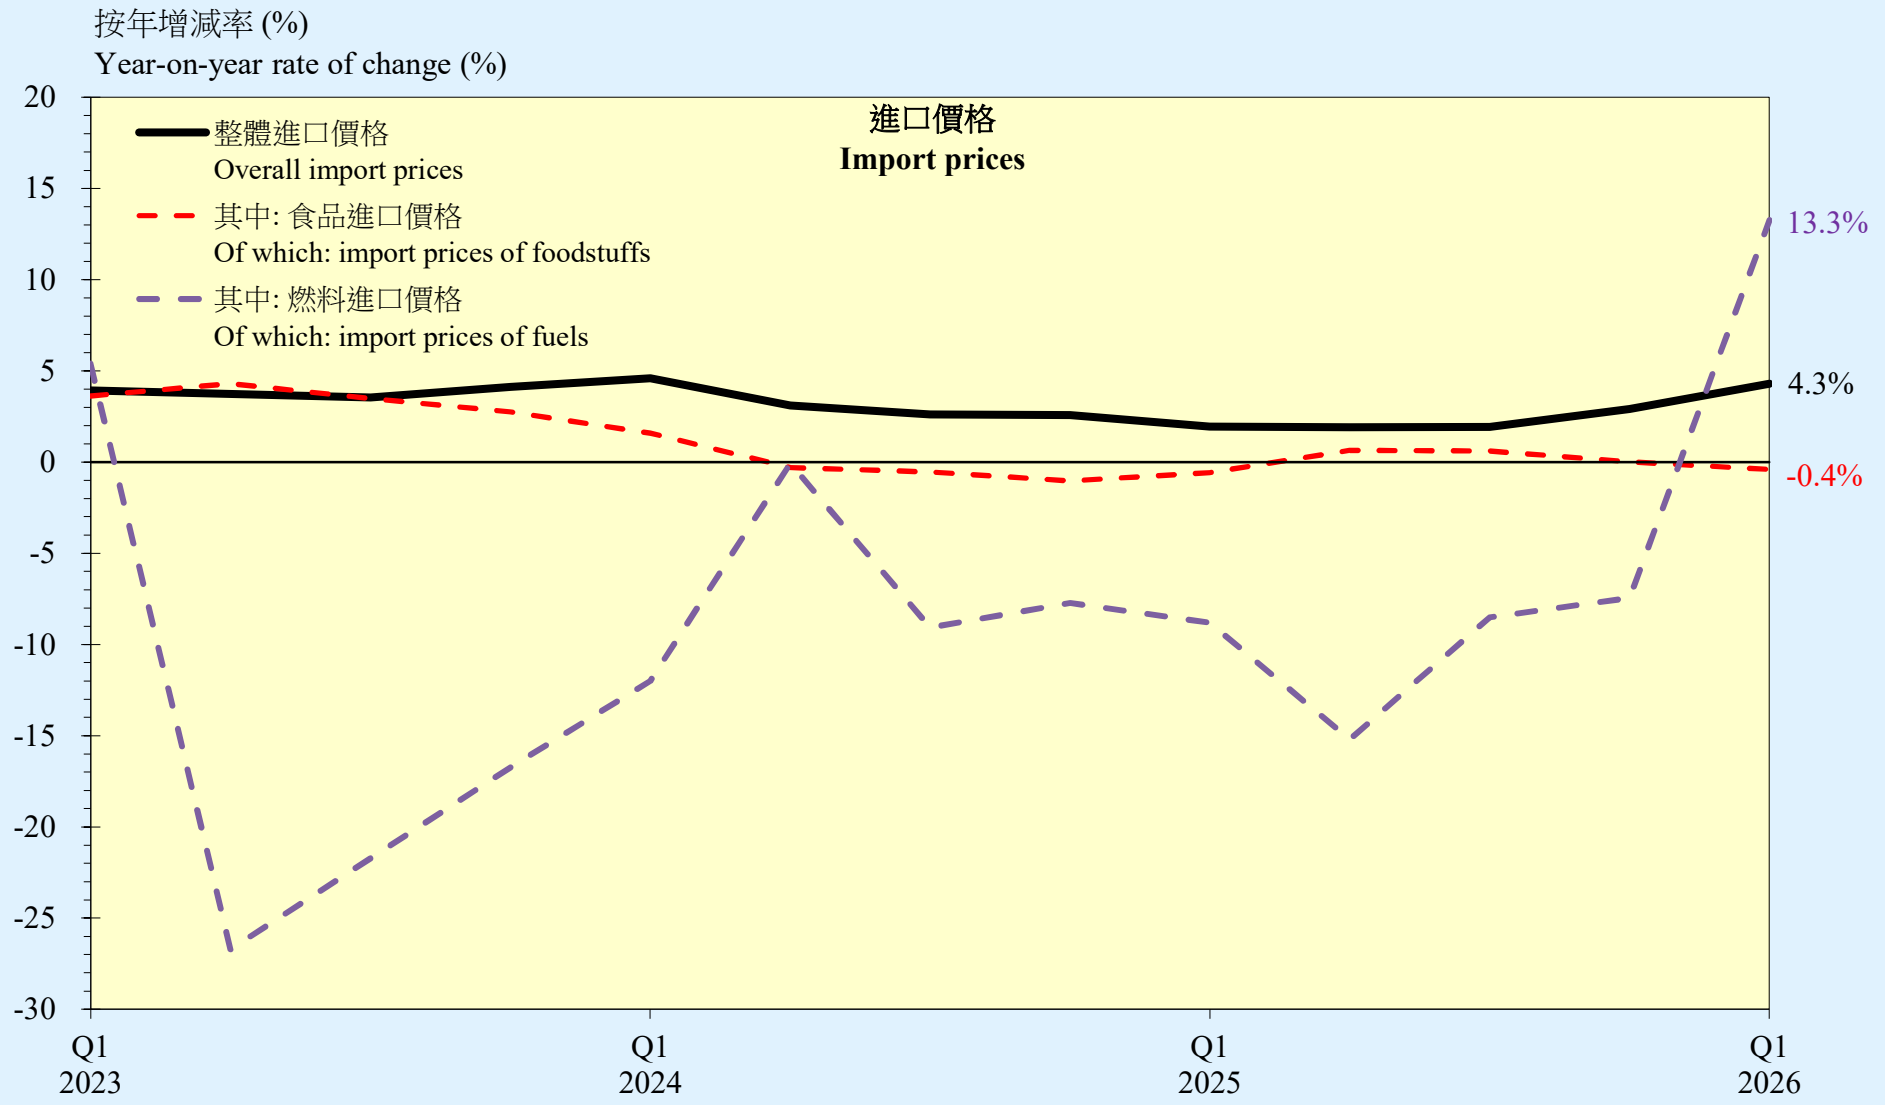
**Contribution to the year-on-year rate of change in the underlying consumer price index by major component**



註： 能源相關及交通項目包括電力、煤氣、石油氣及其他燃料、汽油、公共交通票價、進出香港交通費用，以及其他本地交通工具費用。
各主要項目在基本消費物價指數的權重： 私人房屋租金(33.9%)，食品(25.3%)，能源相關及交通項目(7.6%) 。

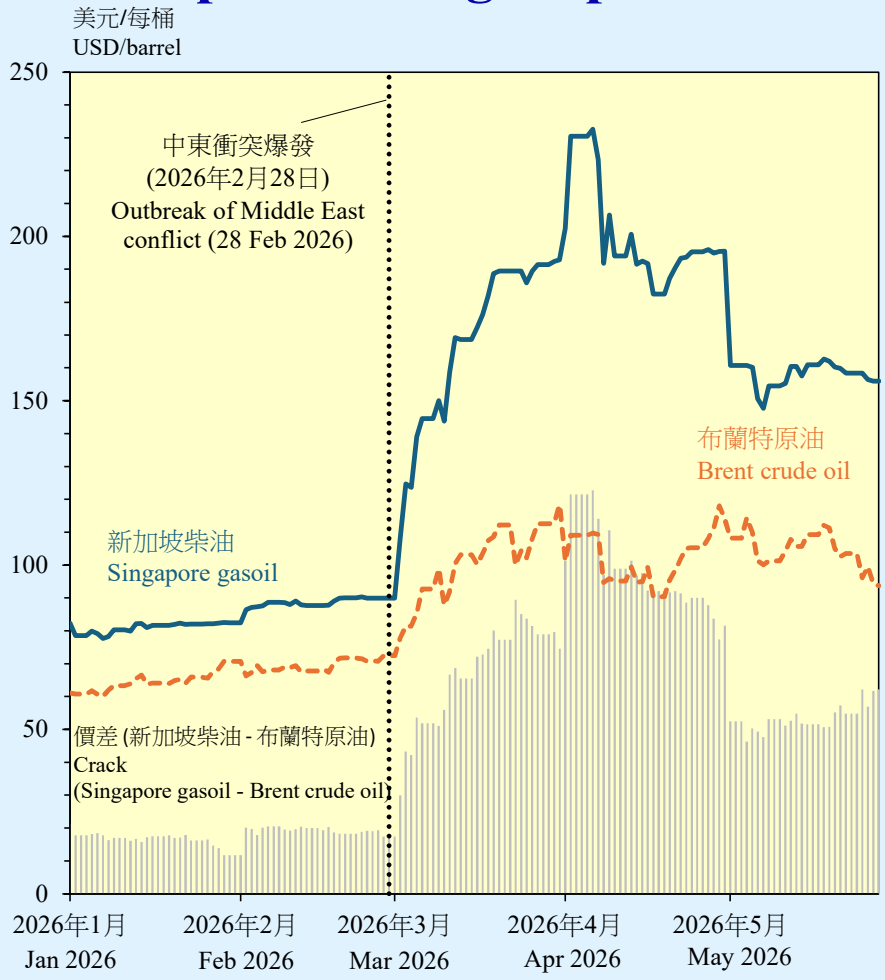
Notes: Energy-related and transport components include electricity, town gas, liquefied petroleum gas and other fuel, motor fuel, public transport fares, inbound and outbound transport fares, and other local transport fees.
Weight of major components in the underlying composite consumer price index: Private housing rent (33.9%), Food (25.3%), Energy-related and transport components (7.6%).

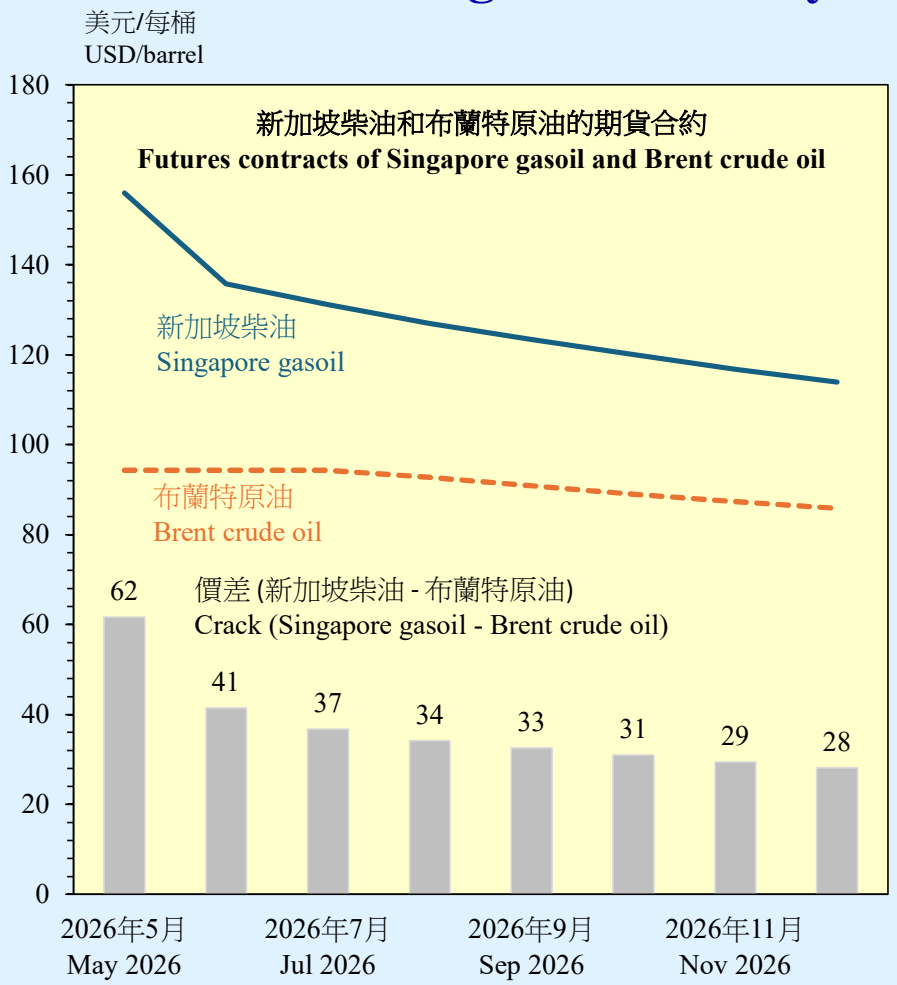
# 國際油價上升對燃料相關消費品價格的傳導料將持續
# The feed-through of higher international oil prices to fuel-related consumer prices is expected to continue



# 受中東衝突影響，國際石油和柴油價格飆升；市場預計油價將從2026年年中開始回落，但仍存在高度不確定性

# International oil and diesel prices surged in response to the Middle East conflict; Market expects easing oil prices from mid-2026 but with high uncertainty





註： 右圖顯示二零二六年餘下時間新加坡柴油和布蘭特原油的期貨合約價格，該價格以預期未來每月結算價格的市場定價為基準。沒有未來結算價格的月份採用了最近月份的價格以作說明。棒形圖所示的裂解價差是指新加坡柴油與布蘭特原油的價格差異。

Note: The right-hand chart above shows the futures contracts of Singapore gasoil and Brent crude oil in the remainder of 2026, based on market pricing for the expected future settlement prices in each month. For months that do not have a future settlement price, price of the nearest month is adopted for illustration. The bars show the crack spread, i.e. the price difference between the Singapore gasoil and Brent crude oil.
