#### Letterhead of EDUCATION AND MANPOWER BUREAU

本局檔號 Our Ref.: EMBCR58/581/84 Pt. 31

來函檔號 Your Ref.:

1 April 2000

Mrs Sharon Tong
Clerk to the Panel on Manpower
Legislative Council Secretariat
3/F, Citibank Tower
No. 3 Garden Road
Central
Hong Kong

Dear Mrs Tong,

#### **LegCo Panel on Manpower**

Members requested the Administration to provide information on job opportunities arising from environmental protection initiatives highlighted in the 1999 Policy Address.

The Environment and Food Bureau advises that a total of 1,191 jobs may be created in both the public and private sectors between 2000 and 2006. This is based on the assumption that the major environment, conservation and energy efficiency initiatives as outlined in the 1999 Policy Address are all implemented. A summary of the assessment is at Annex I; a list of the relevant projects/initiatives with the job creation projection is at Annex II; and a summary of the breakdown by occupational group of the jobs to be created is at Annex III.

- 2 -

In addition, as part of the waste reduction efforts, the Administration is actively promoting material recovery and recycling measures in the coming years. Measures will include promoting waste separation at source; completion of a study on integrating waste recovery and recycling operations into the waste collection system; identification of suitable short term of land for recycling, and examining the feasibility of developing recycling parks.

These measures are designed to help build a more sustainable waste management system. At the same time, it is expected that as the private sector participate in the associated services, more business, and hence employment, opportunities can be generated.

Yours sincerely,

(Miss Erica Ng) for Secretary for Education and Manpower

with encl.

### Summary of job creation as a result of Government major initiatives

### A. Environmental Protection Department
